12:30 am – 1:45pm  Training Session 1: Where Are We Now? Assessing Progress towards Sustainability
Facilitator: Kathleen Guarino, NCSSLE

Objective: Grantees will articulate their vision for meeting their goals and sustaining Project Prevent programming school- and district-wide, as applicable, and assess their progress to date using a framework with 8 key factors.

Description: This session provides a foundation for the day and is designed to strengthen grantees’ skills in creating an action plan. Using their logic models, GPRAs, APRs, and a sustainability self-assessment tool, grantees will assess their progress to date towards program sustainability across 8 key factors: 1) Create an action strategy; 2) Assess the environment; 3) Be adaptable; 4) Secure community support; 5)
Integrate program services into community infrastructures; 6) Build a leadership team; 7) Create strategic partnerships; and 8) Secure diverse financial opportunities. Grantees will determine the factors that are the most critical areas of focus for action planning relative to their site-specific goals and context.
