

LSSSI School Site Checklist

Introduction

Dear Teacher,

The following questions ask you about the intervention you are teaching as a part of the LSSSI Project at your school. These interventions were selected because they have been formally tested for their effectiveness with high school students. We are interested in hearing your feedback about the programs you are using and how you implemented them. If you are using more than one intervention, you will be able to select a second one at the end of the survey. You will also have an opportunity to tell us about other strategies you are using later in the year. Please answer as completely and honestly as you can. You will have an opportunity at the end to share any success stories you want to tell us about. You will be asked to complete one checklist for each intervention you teach. This checklist should take you approximately 10-15 minutes to complete. Thank you.
