

SUMMARY TABLE OF OFFICE OF SAFE AND HEALTHY STUDENTS
APPROVED SCHOOL CLIMATE SURVEYS
(as of October 18, 2016)

To assist educators and education agencies in locating a valid and reliable needs assessment that suits their needs, the National Center on Safe Supportive Learning Environments maintains a compendium of student, staff, and family surveys that can be used as part of a school climate needs assessment. This document provides a summary table of each survey by respondent type included in the School Climate Survey Compendium as of October 18, 2016.

Please note that the U.S. Department of Education’s Office of Safe and Healthy Students does not endorse any particular scale or survey presented in this compendium. Additionally, the table presented is not an exhaustive listing of available measures or survey instruments. If you would like to nominate a survey that is not currently included in the compendium, go to <http://safesupportivelearning.ed.gov/school-climate-survey-compendium/nominate-school-climate-survey>.

Survey Name	Constructs Measured	Links to Surveys or More Information	Reports
Student Surveys			
Alaska School Climate and Connectedness Survey	High expectations; School safety; School leadership and student involvement; Respectful climate; Peer climate; Caring adults; Parent and community involvement; Social and emotional learning; Student delinquent behaviors; Student drug and alcohol use	This survey instrument is not publicly available. Please contact Kim Kendziora at kkendziora@air.org for more information about this survey.	<p>American Institutes for Research. Safe Supportive Learning

Engagement | Safety | Environment

			http://www.calstatela.edu/centers/schoolclimate/research/School_Climate_Achievement_Connection_v4.pdf
U.S. Department of Education School Climate Survey (EDSCLS)	The EDSCLS parent survey includes items about Engagement (cultural and linguistic competence, relationships, school participation); Safety (emotional safety, physical safety, bullying/cyberbullying, substance abuse, emergency readiness/management); and Environment (physical environment, instructional environment, physical health, mental health, discipline). However, because of the brevity of the parent survey, the data for these items did not form scales.	The survey platform is free and publicly available at https://safesupportivelearning.ed.gov/edscls/administration . (Note: Because of the brevity of the parent survey, the data did not form scales. Thus, parent data should be examined at only the item level [i.e., analysis of individual survey questions].)	<p>National Center for Education Statistics (NCES). (2015).
