Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

LAWS

16-1-14. Removal, isolation, or separation of pupils creating disciplinary problems; state approval necessary for rules implementing such measures; deprivation of right to equal and adequate education may not result.

Any city, county, or other local public school board shall, consistent with Section 16-28-12, prescribe rules and regulations with respect to behavior and discipline of pupils enrolled in the schools under its jurisdiction and, in order to enforce such rules and regulations, may remove, isolate, or separate pupils who create disciplinary problems in any classroom or other school activity and whose presence in the class may be detrimental to the best interest and welfare of the pupils of such class as a whole. Any rules and regulations adopted pursuant to this section shall be approved by the State Board of Education. Any such removal, isolation, or separation may not deprive such pupils of their full right to an equal and adequate education.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(e)(1) […] The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(h). Nothing in this section shall be construed to prevent a local board of education from promulgating more stringent rules and regulations than those adopted on the state level, in order to foster and maintain a safe and drug-free environment in the public schools.

16-1-24.3. Local boards of education to implement policies requiring expulsion of students who possess firearms in school areas.

(a) All city and county boards of education shall develop and implement local policies and procedures requiring the expulsion of students, for a period of one year, who are determined to have brought to school or have in their possession a firearm in a school building, on school grounds, on school buses, or at other school-sponsored functions.
16-1-27. Use of electronic communication devices on school property.
(c) Each local board of education may adopt a local policy that pertains to pocket pagers, cellular telephones, and other electronic communication devices.

16-28-2.1. Adoption of standards for mandatory attendance policy; parents held accountable; enforcement.
The Legislature finds that mandatory attendance policies for schools differ from school system to school system throughout the State of Alabama. The State Board of Education shall adopt standards for a mandatory and enforceable attendance policy for all students in public schools in the State of Alabama. Parents shall be held accountable in accordance with Sections 16-28-12 and 16-28-7, for the failure of the child who is of compulsory attendance age to attend either public, private or church-school. Enforcement of this section shall lie with the local board of education and the juvenile court system.

16-6B-5. Local boards; safety and discipline accountability.
In addition to providing quality instruction in classrooms and fiscal soundness, all local boards of education shall be accountable for compliance with statutes and regulations regarding school safety and discipline. The State Department of Education shall send to all local boards of education and all local superintendents of education, on or before August 1 of each year, a manual containing all acts of the Legislature and all regulations promulgated by the State Board of Education which pertain to school safety and discipline. Within thirty (30) days of receipt of this manual, each local board of education shall provide to the State Board of Education a report, in the form prescribed by the State Department of Education, describing its compliance with these acts and regulations. If a local board of education is determined by the State Board of Education to have failed to comply in any material respect with these acts and regulations, the State Department of Education shall provide assistance to obtain compliance. If after one year, the State Board of Education determines that a local board of education refuses or fails to come into compliance with these acts and regulations, the State Superintendent of Education shall intervene in and assume the direct management and day-to-day operation of the local board of education for such period of time as the State Board of Education deems necessary to bring that local board of education into compliance with these acts and regulations.

16-28-12. Person in loco parentis responsible for child's school attendance and behavior; noncompliance; local boards to promulgate written behavior policy, contents, annual distribution, receipt to be documented; school officials required to report noncompliance; failure to report suspected violation; district attorneys vigorously to enforce provisions.
(a) Each parent, guardian, or other person having control or custody of any child required to attend school or receive regular instruction by a private tutor who fails to have the child enrolled in school or who fails to send the child to school, or have him or her instructed by a private tutor during the time the child is required to attend a public school, private school, church school, denominational school, or parochial school, or be instructed by a private tutor, or fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in any public school in accordance with the written policy on school behavior adopted by the local board of education pursuant to this section and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be guilty of a misdemeanor and, upon conviction, shall be fined not more than one hundred dollars ($100) and may also be sentenced to hard labor for the county for not more than 90 days. The absence of a child without the consent of the principal teacher of the public school he or she attends or should attend, or of the tutor who instructs or should instruct the child, shall be prima facie evidence of the violation of this section.
(c) Any parent, guardian, or other person having control or custody of any child enrolled in public school who fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in accordance with the written policy on school behavior adopted by the local board of education and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be reported by the principal to the superintendent of education of the school system in which the suspected violation occurred. The superintendent of education or his or her designee shall report suspected violations to the district attorney within 10 days. Any principal or superintendent of education or his or her designee intentionally failing to report a suspected violation shall be guilty of a Class C misdemeanor. The district attorney shall vigorously enforce this section to ensure proper conduct and required attendance by any child enrolled in public school.

16-28A-1. Legislative findings.

It is the finding of the Alabama Legislature that the people of Alabama have two basic expectations of their public schools: (1) that students be allowed to learn in a safe classroom setting where order and discipline are maintained; and (2) that students learn at the level of their capabilities and achieve accordingly. The Legislature finds further that every child in Alabama is entitled to have access to a program of instruction which gives him or her the right to learn in a non-disruptive environment. No student has a right to be unruly in his or her classroom to the extent that such disruption denies fellow students of their right to learn. The teacher in each classroom is expected to maintain order and discipline. Teachers are hereby given the authority and responsibility to use appropriate means of discipline up to and including corporal punishment as may be prescribed by the local board of education. So long as teachers follow approved policy in the exercise of their responsibility to maintain discipline in their classroom, such teacher shall be immune from civil or criminal liability. It shall be the responsibility of the local boards of education and the administrators employed by them to provide legal support to each teacher exercising his or her authority and responsibility to maintain order and discipline in his or her classroom as long as the teacher follows the local board of education's policy. Such support for the teacher shall include, but not be limited to, providing appropriate legal representation to defend the teacher against charges, filing of a written report pursuant to Section 16-1-24, seeking the issuance of a warrant or warrants for any person or persons threatening or assaulting a teacher, and the timely assistance and cooperation with the appropriate authorities in the prosecution of any person or persons threatening or assaulting a teacher. Local school board authorities and school administrators providing such support shall be absolutely immune from civil and criminal liability for actions authorized or required by this section.

16-28A-3. Local boards of education required to develop and disseminate student discipline and behavior policies.

To fully implement the provisions of this chapter, the State Board of Education shall require each local board of education to develop a written policy on student discipline and behavior and to broadly disseminate them following its adoption. Copies of the student discipline and behavior policy shall be given to all teachers, staff, parents and students.

16-28B-2. Legislative intent.

It is the intent of the Legislature to provide for the adoption of policies in public school systems to prevent the harassment of students. It is the further intent of the Legislature that this chapter apply only to student against student harassment, intimidation, violence, and threats of violence in the public schools of Alabama, grades prekindergarten through 12, and that the State Department of Education develop, and each local board of education adopt procedural policies to manage and possibly prevent these acts against any student by another student or students based on the characteristics of a student.
Additionally, it is the intent of the Legislature that the filing of a complaint of harassment be in writing and submitted by the affected student, or the parent or guardian of the affected student, and not by an education employee on behalf of an affected student or his or her parent or guardian.

16-28B-9. Adoption of local policies.
Each local board shall establish a policy in compliance with this chapter on or before July 1, 2010. Each local policy or model policy adopted by a local board or the department, respectively, shall be consistent with this chapter.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.

(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

(e) (1) A copy of the school system's discipline plan shall be distributed to all students enrolled in the system and their parents, guardians, or custodians shall read the plan and sign a statement verifying that they have been given notice of the discipline policies of their respective school system. The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(2) All discipline plans of school systems shall include, but not be limited to, all of the following:

However, this section shall not apply to parents whose parental control of any child has been removed by court order or decree or to parents of exceptional children with specific mental and physical impairments if the damage is determined to result from the impairments. The action authorized in this section shall be in addition to all other actions which the school system is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents or guardian, or both, for damages to which such minor other person would otherwise be liable.

(h) Nothing in this section shall be construed to prevent a local board of education from promulgating more stringent rules and regulations than those adopted on the state level, in order to foster and maintain a safe and drug-free environment in the public schools.

Notwithstanding the foregoing, city and county boards of education and the local superintendent of education of each board may modify the expulsion requirement for a
student on a case-by-case basis. Students who are expelled for violation of this section shall not be
allowed to attend regular school classes in any public school in the state during the expulsion period.

**16-1-24.3. Local boards of education to implement policies requiring expulsion of students who possess firearms in school areas.**

(a) All city and county boards of education shall develop and implement local policies and procedures requiring the expulsion of students, for a period of one year, who are determined to have brought to school or have in their possession a firearm in a school building, on school grounds, on school buses, or at other school-sponsored functions. Notwithstanding the foregoing, city and county boards of education and the local superintendent of education of each board may modify the expulsion requirement for a student on a case-by-case basis. Students who are expelled for violation of this section shall not be allowed to attend regular school classes in any public school in the state during the expulsion period. Students who are expelled from schools for firearm possession may be permitted to attend alternative schools designed to provide education services. Discipline of students with disabilities who violate the firearm possession policies of city and county boards of education shall be determined on a case-by-case basis in accordance with the requirements of the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act.

**16-6B-3. Assistance programs.**

(a) Student strategy. The superintendent of the local board of education along with the staff of each school shall develop an assistance program at each school for at-risk students performing below the standards set by the State Board of Education. The standards shall include the results of the required assessment program adopted by the State Board of Education with emphasis on students who are found to be at one or more grade levels below the prescribed norm. The local board of education shall budget at least one hundred dollars ($100) per student so identified to be expended on tutorial assistance programs including, but not limited to, after-school, Saturday school, or summer school, or any combination of these programs. These funds may be budgeted from state or federal funds. However, federal funds already budgeted for at-risk students may not be counted toward the minimum one hundred dollars ($100) requirement set aside to be expended for at-risk students as defined in this chapter. In addition, these funds may be expended for any of the following purposes:

1. Programs to encourage at-risk five-year olds to attend an approved preschool program.
2. Programs to identify at-risk students in the first grade.
3. Programs to ensure strict enforcement of truancy laws.
4. Programs to create alternative or disciplinary schools in which children who consistently exhibit behaviors or patterns of behaviors that interfere with the learning environment of other students would be placed and would be provided counseling and instruction in basic skills.
5. Programs to encourage parental involvement of parents of at-risk children.
6. Programs to encourage literacy of parents of at-risk children.

(b) School strategy. The State Board of Education shall develop an assistance program for a school in need of assistance. A school in need of assistance shall mean any school which has a majority of its students scoring one or more grade levels below the prescribed norm on the state adopted student assessments. Local superintendents and local boards of education will be expected to make the effort and commit the resources necessary to improve the instructional program for a school in need of
assistance and shall be required to budget all funds earned by that school in the cost calculations of the Foundation Program. Local superintendents and local boards of education are encouraged to use assistance from the State Department of Education, colleges of education, accrediting agencies and other sources.

The State Board of Education's plan for an assistance program shall consist of the following components:

1. The faculty and staff of each school in need of assistance shall engage in a self-study to examine the problem of low achievement within that school and shall develop steps which may be taken to improve student achievement. Parents of students in the schools shall be consulted as part of this self-study.

2. If, after two years, student achievement has not improved, the State Superintendent of Education shall designate a team of practicing professionals to visit the school, conduct a study, consult with parents of students in the school, analyze causes of poor student achievement, and make specific recommendations which shall become a part of a school improvement plan for the succeeding year.

3. As a final step, when insufficient or no improvement as determined by the State Board of Education is evident from the implementation of steps one and two above, the State Superintendent of Education is required to intervene and to appoint a person or persons to run the day-to-day operation of the school. In considering intervention, the State Board of Education shall consider factors which may have affected the prescribed norm test score. Factors shall include drop-out rates, attendance rates, special education enrollment, and any other data necessary to properly interpret student achievement in each school.

(c) School system strategy. The State Board of Education shall develop an assistance program for a local board of education identified as being in need of assistance. A local board of education in need of assistance shall mean any local board of education which has a majority of its schools, or a majority of the students in a system, in which the students are scoring one or more grade levels below the prescribed norm.

The State Board of Education shall require a local board of education in need of assistance to do the following:

1. The local board of education and the local superintendent with input from other administrators, teachers, staff, parents of students in the school, and the local community shall engage in a self-study to examine the problem of low achievement within the system and to develop steps which may be taken to improve student achievement.

2. If, after two years, student achievement has not improved, the state superintendent shall develop a system-wide school improvement plan in consultation with teachers, parents of students in the school, and the local community. This school improvement plan shall become a part of the local board of education's program and financial operations for the succeeding year.

3. If, after the implementation of the school improvement plan, student achievement has not sufficiently improved, relative to the previous year's performance, the State Board of Education shall require the State Superintendent of Education to intervene and assume the direct management and day-to-day operation of the local board of education for such period of time as may be necessary for student achievement to improve. In considering intervention, the State Board of Education shall consider factors which may have affected the prescribed norm test score. Factors shall include drop-out rates, attendance rates, special education enrollment, and any other data necessary to properly interpret student achievement in each system.

(d) It is the intent of the Legislature that intervention is not to occur when a school or school system scores below the prescribed average. Intervention by the State Board of Education is to occur only after the three-year period provided in this chapter during which a school or school system fails to show
improvement. So long as improvement is being shown, the State Board of Education shall not intervene but shall continue to encourage the school to improve.

(a) For each fiscal year, beginning October 1, 1999, contingent upon the Children First Trust Fund receiving tobacco revenues and upon appropriation by the Legislature, an amount of up to and including two hundred twenty-five thousand dollars ($225,000), or equivalent percentage of the total fund, shall be designated for the administration of the fund by the council and the Commissioner of Children's Affairs.

(b) For the each fiscal year, beginning October 1, 1999, contingent upon the Children First Trust Fund receiving tobacco revenues, the remainder of the Children First Trust Fund, in the amounts provided for in Section 41-15B-2.1, shall be allocated as follows:

(2) Twenty-two percent of the fund shall be allocated to the State Board of Education to one or more of the following:

      (iv) The plan as submitted by each local board of education shall outline the educational services which shall be available to each child assigned to the short-term or long-term programs. Those services shall include, but are not limited to, all of the following:

         A. Remedial education where necessary.

         B. Counseling, including sessions on conflict resolution.

         C. Social skills development.

      (v) Each tier of the local plan shall be curriculum-based to address the goal of academic improvement and shall include, to the extent possible, mandatory parental notification and involvement.

      (vi) If a local board of education can satisfactorily demonstrate that alternative school programs meeting all of the criteria in this section have been implemented, the allocation to the local board of education for alternative school programs may be directed by the State Board of Education to programs under the School Safety Enhancement Program.

      (vii) Each year any monies remaining after distribution by the State Board of Education to the local boards of education which meet the criteria pursuant to subparagraph 1. and qualify for a portion of the monies, shall be allocated to those local boards of education demonstrating innovative programs with measurable improvements in academic achievement, attendance, school behavior, and parental involvement.
2. The State Board of Education shall review the programs of each local board of education receiving monies from the fund and shall annually submit a report to the council by July 1. This report shall include all of the following:

b. 1. The School Safety Enhancement Program. The amount of monies available to each local board of education shall be determined by the State Board of Education based upon the second month enrollment of the preceding school year. To be eligible to initially receive a portion of the monies, each local board of education shall submit a grant application pursuant to guidelines promulgated by the State Board of Education with provisions for annual renewal of the grants. Provisions for program evaluation in order to determine effectiveness and financial accountability shall be included in the guidelines. The guidelines shall include all of the following:

   (i) A component to enhance parental participation in school activities and promote parental responsibility for the performance and behavior of their children.

   (iii) Sufficient safeguards implemented to ensure that the new monies will increase and not supplant or decrease existing local support.

2. School Safety Enhancement Programs eligible for grants shall be designed to prevent or reduce violence in the schools and communities and reduce school disciplinary or safety problems. The programs shall relate to one or more of the following:

   (i) Extended day programs with supervised activities including, but not limited to, remedial education; tutorial assistance; arts, music, or other cultural enhancement; and activities for gifted children. Each local board of education may charge a fee based upon income for participation in the programs.
   (ii) Pre-kindergarten programs for "at-risk" children. These programs do not require the local 25 percent match of funds for school safety activities mandated by item (ii) of subparagraph 1.
   (iii) Truancy prevention programs which may include additional school attendance personnel and a Saturday school component.
   (iv) Programs to assist children in dealing with anger and emphasizing acceptable ways of dealing with violence including peer mediation, conflict resolution, and law related education.

3. The State Board of Education shall review the programs of each local board of education which receive monies from the fund and annually submit a report to the council by July 1. This report shall include all of the following:

   (i) The number of children served.
   (ii) The improvement in academic achievement.
   (iii) The improvement in behavior.
   (iv) The improvement in parental involvement.
   (v) Financial accounting for the state and local monies expended.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.
(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

(e) (1) A copy of the school system’s discipline plan shall be distributed to all students enrolled in the system and their parents, guardians, or custodians shall read the plan and sign a statement verifying that they have been given notice of the discipline policies of their respective school system. The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(2) All discipline plans of school systems shall include, but not be limited to, all of the following:

The action authorized in this section shall be in addition to all other actions which the school system is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents or guardian, or both, for damages to which such minor other person would otherwise be liable.

(h) Nothing in this section shall be construed to prevent a local board of education from promulgating more stringent rules and regulations than those adopted on the state level, in order to foster and maintain a safe and drug-free environment in the public schools.

16-1-24.3. Local boards of education to implement policies requiring expulsion of students who possess firearms in school areas.

(a) All city and county boards of education shall develop and implement local policies and procedures requiring the expulsion of students, for a period of one year, who are determined to have brought to school or have in their possession a firearm in a school building, on school grounds, on school buses, or at other school-sponsored functions. Notwithstanding the foregoing, city and county boards of education and the local superintendent of education of each board may modify the expulsion requirement for a student on a case-by-case basis. Students who are expelled for violation of this section shall not be allowed to attend regular school classes in any public school in the state during the expulsion period. Students who are expelled from schools for firearm possession may be permitted to attend alternative schools designed to provide education services. Discipline of students with disabilities who violate the firearm possession policies of city and county boards of education shall be determined on a case-by-case basis in accordance with the requirements of the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act.

(b) For the purposes of this section, the term "firearm" has the same meaning as defined in Section 921 of Title 18 of the United States Code.

(c) When there are violations of the prohibition on firearms being brought to school or the possession of firearms by students, the school principal shall notify the appropriate law enforcement authority which may include city police, county sheriffs, and the local district attorney. In addition to notification of law enforcement officials, the school principal shall notify the parents of students who violate the firearm-free school environment provided for in this section.

(e) (1) Any person over the age of 14 who is convicted of the crime of possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 shall be denied issuance of a driver's permit or license for the operation of a motor vehicle for 180 days from the date the person is eligible and applies for a permit or license for the operation of a motor vehicle. Any adjudication as a juvenile delinquent or youthful offender where the underlying charge is the possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 shall be considered a conviction under this subsection, and the adjudication of a person as a juvenile delinquent or youthful offender where the underlying charge is a violation under Section 13A-11-72 shall be reported to the Department of Public Safety.

(2) If a person over the age of 14 years possesses a driver's license on the date of conviction, the Department of Public Safety, within five days of receipt of a notice of conviction from the court, shall send notice to the licensee that his or her driver's license will be suspended. The notice shall state that the license will be suspended for 180 days commencing on the 30th day following the date the notice was sent unless documentation is received by the department before the 30th day that the person was not convicted of the crime. Upon the appropriate date, the department shall suspend the license.

(3) Upon the written request of the person whose license is denied or suspended, the Department of Public Safety shall afford the person an opportunity for a hearing in the same manner and under the procedure used for other driver's license suspensions. The Administrative Office of Courts may promulgate necessary rules and regulations to implement this notification procedure.

REGULATIONS

290-3-1-.02. Regulations governing public schools.

(a) Safety precautions must be implemented and adequate facilities must be provided for implementations of programs prescribed by SDE Bulletin(s).

(b) Effective with the 1995-96 school year and thereafter, local boards of education must:

1. Adopt a uniform policy allowing law enforcement agencies to make periodic visits to local public schools to detect the presence of illegal drugs, unannounced to anyone except the local superintendent and building principal.

2. Adopt a uniform policy prohibiting the use of tobacco products on school property and prescribing specific penalties for violating this policy.

3. Adopt and enforce a uniform policy prohibiting all persons, other than authorized law enforcement personnel, from bringing or possessing any deadly weapon or dangerous instrument on school
property and prescribing specific penalties for students and school personnel who violate this policy, notwithstanding any criminal penalties which may also be imposed.

(c) Local school systems which operate alternative educational programs shall provide a curriculum that stresses skills in recognizing and managing anger, alternatives to aggression (verbal and physical assault), strategies for developing self-control and personal responsibility, skills for getting along with others, success through academic achievement, and skills for success in the workplace.

(d) All policies and actions implemented under these mandatory regulations affecting students with disabilities must comply with federal and state special education laws, regulations, and court rulings.

(e) Unsafe School Choice Option

1. Definitions: A transfer option school (TOS) in the state of Alabama is one in which for three (3) consecutive school years the school has expelled one percent (1%) of the student population or five (5) students (whichever is greater) for violent criminal offenses committed on school property during school hours or committed at school-sponsored activities. The words “transfer option school,” “TOS,” or “TOS school” shall mean a “persistently dangerous school” as those words are used in the No Child Left Behind Act of 2001, Public Law 107-110, Title IX, §9532(a) and (b). For the purpose of this definition, a “violent criminal offense” shall mean homicide; robbery; assault in the first and/or second degree; sexual battery (including rape) as these offenses are defined in the Criminal Code of Alabama (see §13A-6-1, et. seq., Code of Ala. 1975); and use of a handgun, firearm component, explosive, knife, and other “unknown weapons” as defined by the Student Incident Report (SIR).

2. A student who becomes a victim of a violent criminal offense committed on school property during school hours or at school-sponsored activities shall be given an opportunity to transfer to a safe public school within the LEA. The LEA shall notify the student’s parent/guardian of the right to transfer as soon as practicable, not to exceed ten (10) calendar days from the date of a final determination by the school board or its designee that a violent criminal offense has occurred. All LEA transfer procedures will be observed. It shall be the policy of the Alabama State Department of Education (SDE) to notify the LEA annually when one or more of its schools have been identified as a transfer option school. Each Superintendent or his or her designee shall orally notify the Prevention and Support Services Section of the State Department of Education within twenty-four (24) hours of the decision that a violent criminal offense has occurred, followed by written confirmation. The State Department of Education will assist the LEA in resolving all safety issues. At a minimum, an LEA that has one or more schools identified as persistently dangerous must:

   (i) Step 1. Notify parents/guardians of each student attending the school within ten (10) working days that it has been identified as a transfer option school and offer students the opportunity to transfer to a safe public school within the LEA if another school is available.

   (ii) Step 2. Complete the transfer for those students who opt to do so within 20 working days.

   (iii) Step 3. Develop a corrective action plan to be submitted to the SDE for approval within 20 working days of the LEA’s receipt of status.

   (iv) Step 4. Implement the corrective action plan. Once a school has been identified as a transfer option school, it can return to safe status by (1) completing Steps One through Four above and (2) completing two consecutive years with less than one percent (1%) of the student population or five (5) students (whichever is greater) expelled for violent criminal offenses as defined in its policy.

LAWS

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.

(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

(e) (1) A copy of the school system's discipline plan shall be distributed to all students enrolled in the system and their parents, guardians, or custodians shall read the plan and sign a statement verifying that they have been given notice of the discipline policies of their respective school system. The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(2) All discipline plans of school systems shall include, but not be limited to, all of the following:
a. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system shall be responsible financially for such child's destructive acts against school property or persons.

b. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system may be requested to appear at school by an appropriate school official for a conference regarding acts of the child specified in paragraph a.

c. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a school system who has been summoned by proper notification by an appropriate school official shall be required under this provision to attend such discipline conference specified in paragraph b.

(3) Any public school system shall be entitled to recover actual damages, plus necessary court costs, from the parent or guardian, or both, of any minor who maliciously and willfully damages or destroys property belonging to the school system. However, this section shall not apply to parents whose parental control of any child has been removed by court order or decree or to parents of exceptional children with specific mental and physical impairments if the damage is determined to result from the impairments. The action authorized in this section shall be in addition to all other actions which the school system is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents or guardian, or both, for damages to which such minor other person would otherwise be liable.

(4) This section shall apply only to acts committed on or after August 1, 1992.

(f) The local school board shall adopt and make available to all teachers, school personnel, students, and parents or guardians, at the beginning of the 1992-93 school year and each school year thereafter, a code of student conduct developed in consultation with teachers, school personnel, students, and parents or guardians. The code shall be based on the rules governing student conduct and discipline adopted by the school board and may be made available at the school level in the student handbook or similar publication. The code shall include, but not be limited to, all of the following:

(1) Specific grounds for disciplinary action.

(2) Procedures to be followed for acts requiring discipline.

(3) An explanation of the responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.

(g) Except in the case of excessive force or cruel and unusual punishment, no certified or noncertified employee of the State Board of Education or any local board of education shall be civilly liable for any action carried out in conformity with state law and system or school rules regarding the control, discipline, suspension, and expulsion of students.

(h) Nothing in this section shall be construed to prevent a local board of education from promulgating more stringent rules and regulations than those adopted on the state level, in order to foster and maintain a safe and drug-free environment in the public schools.

LAWS

16-6B-3. Assistance programs.
(a) Student strategy. The superintendent of the local board of education along with the staff of each school shall develop an assistance program at each school for at-risk students performing below the standards set by the State Board of Education. The standards shall include the results of the required assessment program adopted by the State Board of Education with emphasis on students who are found to be at one or more grade levels below the prescribed norm. The local board of education shall budget at least one hundred dollars ($100) per student so identified to be expended on tutorial assistance programs including, but not limited to, after-school, Saturday school, or summer school, or any combination of these programs. These funds may be budgeted from state or federal funds. However, federal funds already budgeted for at-risk students may not be counted toward the minimum one hundred dollars ($100) requirement set aside to be expended for at-risk students as defined in this chapter. In addition, these funds may be expended for any of the following purposes:

(1) Programs to encourage at-risk five-year olds to attend an approved preschool program.
(2) Programs to identify at-risk students in the first grade.
(3) Programs to ensure strict enforcement of truancy laws.
(4) Programs to create alternative or disciplinary schools in which children who consistently exhibit behaviors or patterns of behaviors that interfere with the learning environment of other students would be placed and would be provided counseling and instruction in basic skills.
(5) Programs to encourage parental involvement of parents of at-risk children.
(6) Programs to encourage literacy of parents of at-risk children.

(b) School strategy. The State Board of Education shall develop an assistance program for a school in need of assistance. A school in need of assistance shall mean any school which has a majority of its students scoring one or more grade levels below the prescribed norm on the state adopted student assessments. Local superintendents and local boards of education will be expected to make the effort...
and commit the resources necessary to improve the instructional program for a school in need of assistance and shall be required to budget all funds earned by that school in the cost calculations of the Foundation Program. Local superintendents and local boards of education are encouraged to use assistance from the State Department of Education, colleges of education, accrediting agencies and other sources.

The State Board of Education's plan for an assistance program shall consist of the following components:

1. The faculty and staff of each school in need of assistance shall engage in a self-study to examine the problem of low achievement within that school and shall develop steps which may be taken to improve student achievement. Parents of students in the schools shall be consulted as part of this self-study.

2. If, after two years, student achievement has not improved, the State Superintendent of Education shall designate a team of practicing professionals to visit the school, conduct a study, consult with parents of students in the school, analyze causes of poor student achievement, and make specific recommendations which shall become a part of a school improvement plan for the succeeding year.

3. As a final step, when insufficient or no improvement as determined by the State Board of Education is evident from the implementation of steps one and two above, the State Superintendent of Education is required to intervene and to appoint a person or persons to run the day-to-day operation of the school. In considering intervention, the State Board of Education shall consider factors which may have affected the prescribed norm test score. Factors shall include drop-out rates, attendance rates, special education enrollment, and any other data necessary to properly interpret student achievement in each school.

(c) School system strategy. The State Board of Education shall develop an assistance program for a local board of education identified as being in need of assistance. A local board of education in need of assistance shall mean any local board of education which has a majority of its schools, or a majority of the students in a system, in which the students are scoring one or more grade levels below the prescribed norm.

The State Board of Education shall require a local board of education in need of assistance to do the following:

1. The local board of education and the local superintendent with input from other administrators, teachers, staff, parents of students in the school, and the local community shall engage in a self-study to examine the problem of low achievement within the system and to develop steps which may be taken to improve student achievement.

2. If, after two years, student achievement has not improved, the state superintendent shall develop a system-wide school improvement plan in consultation with teachers, parents of students in the school, and the local community. This school improvement plan shall become a part of the local board of education's program and financial operations for the succeeding year.

3. If, after the implementation of the school improvement plan, student achievement has not sufficiently improved, relative to the previous year's performance, the State Board of Education shall require the State Superintendent of Education to intervene and assume the direct management and day-to-day operation of the local board of education for such period of time as may be necessary for student achievement to improve. In considering intervention, the State Board of Education shall consider factors which may have affected the prescribed norm test score. Factors shall include drop-out rates, attendance rates, special education enrollment, and any other data necessary to properly interpret student achievement in each system.

(d) It is the intent of the Legislature that intervention is not to occur when a school or school system scores below the prescribed average. Intervention by the State Board of Education is to occur only after
the three-year period provided in this chapter during which a school or school system fails to show improvement. So long as improvement is being shown, the State Board of Education shall not intervene but shall continue to encourage the school to improve.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(f) The local school board shall adopt and make available to all teachers, school personnel, students, and parents or guardians, at the beginning of the 1992-93 school year and each school year thereafter, a code of student conduct developed in consultation with teachers, school personnel, students, and parents or guardians. The code shall be based on the rules governing student conduct and discipline adopted by the school board and may be made available at the school level in the student handbook or similar publication. The code shall include, but not be limited to, all of the following:

(3) An explanation of the responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.

16-28-2.1. Adoption of standards for mandatory attendance policy; parents held accountable; enforcement.

The Legislature finds that mandatory attendance policies for schools differ from school system to school system throughout the State of Alabama. The State Board of Education shall adopt standards for a mandatory and enforceable attendance policy for all students in public schools in the State of Alabama. Parents shall be held accountable in accordance with Sections 16-28-12 and 16-28-7, for the failure of the child who is of compulsory attendance age to attend either public, private or church-school. Enforcement of this section shall lie with the local board of education and the juvenile court system.

16-28-3.1. Guidelines and procedures for withdrawal from school; dropout prevention program.

(b) The State Department of Education shall work with local public school systems that have the lowest four-year graduation rates. The department shall incorporate specific dropout prevention strategies, target resources, and gather data that will improve graduation rates and educational outcomes in all grades in all public schools. The department shall develop specific methods of targeted intervention or identify appropriate existing methods for local public school systems that have a four-year graduation rate less than the percentage as determined by the State Board of Education. These interventions may include the following:

(1) Early intervention for students who fail Algebra I, or any ninth grade reading or math class, and have insufficient credits to be promoted.

(2) Alternative education programs designed to reengage dropouts including, but not limited to, dual enrollment courses at the community college level.

(3) Increased availability of advanced placement courses.

(4) Offering full course fee waivers for students who are eligible for free or reduced lunches, when enrolled in dual credit courses.

(5) Flexible programs for older students who are currently not enrolled.

(6) Comprehensive coaching for middle school and high school students who are below grade level in reading and math or who are at risk due to poor attendance, behavior, or safety issues including, but not limited to, harassment and bullying.

(7) Teacher advisories and other supports that are designed to specifically address the needs of those students who are most at risk of dropping out of school by providing opportunities to build positive
connections with peers and teachers and providing assistance with course selection, school performance, and completion of graduation requirements. Students who are most at risk of dropping out of school include, but are not limited to, those students who move often, have poor attendance, or have multiple suspensions or discipline issues.

(8) Strategies that are specifically designed to improve high school graduation rates for those teenagers who are at the highest risk of dropping out, including, but not limited to, students in the foster care system, pregnant students, student parents, English as second language students, and students with special educational needs.

(c) The department, in addition to other information and data, shall compile all of the following data to ensure that the dropout prevention program, and local versions of the program, are based upon evidence-based research, are data-driven, and show continuous improvement in:

1. The total number of high school suspensions related to truancy.
2. The total number of students enrolled in alternative education programs.
3. The total number of students who have been reenrolled in programs with flexible schedules or community college programs.
4. The total number of students who have failed Algebra I or ninth grade reading or math.
5. The total number of students who are repeating the ninth grade.
6. The total number of students receiving remedial assistance in the ninth grade.

(d) The department shall prepare and submit to the Legislature a written report that documents all of the following:

1. The outcomes of the dropout prevention strategies to date, at the local school system level.
2. Any planned modification of school system dropout prevention strategies and activities, based on the data compiled.

16-28-12. Person in loco parentis responsible for child's school attendance and behavior; noncompliance; local boards to promulgate written behavior policy, contents, annual distribution, receipt to be documented; school officials required to report noncompliance; failure to report suspected violation; district attorneys vigorously to enforce provisions.

(a) Each parent, guardian, or other person having control or custody of any child required to attend school or receive regular instruction by a private tutor who fails to have the child enrolled in school or who fails to send the child to school, or have him or her instructed by a private tutor during the time the child is required to attend a public school, private school, church school, denominational school, or parochial school, or be instructed by a private tutor, or fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in any public school in accordance with the written policy on school behavior adopted by the local board of education pursuant to this section and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be guilty of a misdemeanor and, upon conviction, shall be fined not more than one hundred dollars ($100) and may also be sentenced to hard labor for the county for not more than 90 days. The absence of a child without the consent of the principal teacher of the public school he or she attends or should attend, or of the tutor who instructs or should instruct the child, shall be prima facie evidence of the violation of this section.

(c) Any parent, guardian, or other person having control or custody of any child enrolled in public school who fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in accordance with the written policy on school behavior adopted by the local board of education and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be reported by the principal to the superintendent of education of the
school system in which the suspected violation occurred. The superintendent of education or his or her
designee shall report suspected violations to the district attorney within 10 days. Any principal or
superintendent of education or his or her designee intentionally failing to report a suspected violation shall
be guilty of a Class C misdemeanor. The district attorney shall vigorously enforce this section to ensure
proper conduct and required attendance by any child enrolled in public school.

16-28-15. Absence must be explained.
Every parent, guardian, or other person having control or charge of any child required to attend public
school, private school, or church school, shall as soon as practical explain the cause of any absence of
the child under his control or charge which was without permission of the teacher, and a failure to furnish
such explanation shall be admissible as evidence of such child being a truant with the consent and
connivance of the person in control or charge of said child, unless such person can show to the
reasonable satisfaction of the court that he had no knowledge of such absence and that he has been
diligent in his efforts to secure the attendance of such child.

16-28-16. Cases of nonenrollment and nonattendance; withdrawal of enrollment.
(a) It shall be the duty of the county superintendent of education or the city superintendent of education,
as the case may be, to require the attendance officer to investigate all cases of nonenrollment and of
nonattendance. In all cases investigated where no valid reason for nonenrollment or nonattendance is
found, the attendance officer shall give written notice to the parent, guardian, or other person having
control of the child. In the event of the absence of the parent, guardian, or other person having control of
the child from his or her usual place of residence, the attendance officer shall leave a copy of the notice
with some person over 12 years of age residing at the usual place of residence, with instructions to hand
the notice to the parent, guardian, or other person having control of the child, which notice shall require
the attendance of the child at the school within three days from the date of the notice. In the event the
investigation discloses that the nonenrollment or nonattendance was without valid excuse or good reason
and intentional, the attendance officer shall be required to bring criminal prosecution against the parent,
guardian, or other person having control of the child.

(b) Each child who is enrolled in a public school shall be subject to the attendance and truancy provisions
of this article except that any parent or parents, guardian or guardians who voluntarily enrolls their child in
public school, who feel that it is in the best interest of that child shall have the right to withdraw the child at
any time prior to the current minimum compulsory attendance age.

16-28-17. When child may be taken into custody.
It shall be the duty of the attendance officer, probation officer or other officer authorized to execute writs
of arrest to take into custody without warrant any child required to attend school or be instructed by a
private tutor who is found away from home and not in the custody of the person having charge or control
of such child during school hours and who has been reported by any person authorized to begin
proceedings or prosecutions under the provisions of this article as a truant. Such child shall forthwith be
delivered to the person having charge or control of said child or to the principal teacher of the school or
the private tutor from whom said child is a truant. If such child is an habitual truant, he shall be brought
before the juvenile court for such disposition as the judge of said court finds proper from the facts.

16-28-40. License applicant under 19 to provide documentation of school enrollment, etc.; duties
of school attendance official; withdrawal from school; conviction for certain pistol offenses.
(a) The Department of Public Safety shall deny a driver's license or a learner's license for the operation of
a motor vehicle to any person under the age of 19 who does not, at the time of application, present a
diploma or other certificate of graduation issued to the person from a secondary high school of this state
or any other state, or documentation that the person: (1) is enrolled and making satisfactory progress in a course leading to a general educational development certificate (GED) from a state approved institution or organization, or has obtained the certificate; (2) is enrolled in a secondary school of this state or any other state and has not at the time of application accumulated disciplinary points while a student in school that would extend the age of eligibility for the student to apply for a driver's license; (3) is participating in a job training program approved by the State Superintendent of Education; (4) is gainfully and substantially employed; (5) is a parent with the care and custody of a minor or unborn child; (6) has a physician certify that the parents of the person depend on him or her as their sole source of transportation; or (7) is exempted from this requirement due to circumstances beyond his or her control as provided in this chapter.

(b) The attendance officer or chief attendance administrator, upon request, shall provide documentation of enrollment status and disciplinary points on a form approved by the Department of Education to any student 15 years of age or older who is properly enrolled in a school under the jurisdiction of the official, for presentation to the Department of Public Safety, on application for, or renewal or reinstatement of, a driver's license or a learner's license to operate a motor vehicle. Whenever a student 16 years of age or older withdraws from school, the attendance officer or chief attendance administrator shall notify the Department of Public Safety of the withdrawal. Withdrawal shall be defined as more than 10 consecutive or 15 days total unexcused absences during a single semester.

(c) Within five days of receipt of a notice of withdrawal, the Department of Public Safety shall send notice to the licensee that his or her driver's license or learner's license will be suspended under this article on the 30th day following the date the notice was sent unless documentation of compliance with this article is received by the department before the 30th day.

(d) Whenever the withdrawal from school of the student, or the failure of the student to enroll in a course leading to or to obtain a GED or high school diploma, is beyond the control of the student, or is for the purpose of transfer to another school as confirmed in writing by the parent or guardian of the student, or is for the purpose of participating in a job training program approved by the State Superintendent of Education, no notice shall be sent by the proper school official to the Department of Public Safety to suspend the license of the student. If the student is applying for or renewing a driver's license or a learner's license, the attendance officer or chief attendance administrator, upon request, shall provide the student with documentation to present to the Department of Public Safety to exempt the student from this section. The local superintendent of education with the assistance of the county or city school attendance director as the case may be, and any other staff or school personnel, or the appropriate school official of any private secondary school, shall be the sole judge of whether the withdrawal is due to circumstances beyond the control of the person. Suspension or expulsion from school or imprisonment in a jail or penitentiary is not a circumstance beyond the control of a person.

(e) (1) Any person over the age of 14 who is convicted of the crime of possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 shall be denied issuance of a driver's permit or license for the operation of a motor vehicle for 180 days from the date the person is eligible and applies for a permit or license for the operation of a motor vehicle. Any adjudication as a juvenile delinquent or youthful offender where the underlying charge is the possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 shall be considered a conviction under this subsection, and the adjudication of a person as a juvenile delinquent or youthful offender where the underlying charge is a violation under Section 13A-11-72 shall be reported to the Department of Public Safety.

(2) If a person over the age of 14 years possesses a driver's license on the date of conviction, the Department of Public Safety, within five days of receipt of a notice of conviction from the court, shall send notice to the licensee that his or her driver's license will be suspended. The notice shall state that
the license will be suspended for 180 days commencing on the 30th day following the date the notice was sent unless documentation is received by the department before the 30th day that the person was not convicted of the crime. Upon the appropriate date, the department shall suspend the license.

(3) Upon the written request of the person whose license is denied or suspended, the Department of Public Safety shall afford the person an opportunity for a hearing in the same manner and under the procedure used for other driver's license suspensions. If the suspension or denial of issuance determination is sustained by the Director of the Department of Public Safety or the authorized agent of the director, upon such hearing, the person may file a petition in the appropriate court to review the final order of suspension or denial by the director or the authorized agent of the director in the same manner and under the same conditions as is provided in the case of suspensions and denials.

(4) If the conviction is reversed within the 180-day period, the department, upon receipt of notice of the reversal from the Administrative Office of Courts, shall reinstate a suspended license and shall accept an application for a license and shall issue the license according to law and regulation.

(5) The court shall notify the Department of Public Safety of the conviction of a person over the age of 14 of a crime involving the possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 and any reversal of the conviction. The Administrative Office of Courts may promulgate necessary rules and regulations to implement this notification procedure.

LAWS

16-1-10. Selling, etc., alcoholic beverages to school children; keeping on school premises.
Any person, firm, corporation or association that knowingly sells, gives or dispenses any alcoholic beverage to any school student under the age of 18 years, or keeps or has in possession any alcoholic beverage in or on the campus or premises of any school building of any public secondary or grade school is guilty of a felony and, upon conviction thereof, shall be imprisoned in the state penitentiary for a period of from one to three years.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.
(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs,
alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.

c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

e) (1) A copy of the school system's discipline plan shall be distributed to all students enrolled in the system and their parents, guardians, or custodians shall read the plan and sign a statement verifying that they have been given notice of the discipline policies of their respective school system. The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(2) All discipline plans of school systems shall include, but not be limited to, all of the following:
   a. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system shall be responsible financially for such child's destructive acts against school property or persons.
   b. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system may be requested to appear at school by an appropriate school official for a conference regarding acts of the child specified in paragraph a.
   c. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a school system who has been summoned by proper notification by an appropriate school official shall be required under this provision to attend such discipline conference specified in paragraph b.

(3) Any public school system shall be entitled to recover actual damages, plus necessary court costs, from the parent or guardian, or both, of any minor who maliciously and willfully damages or destroys property belonging to the school system. However, this section shall not apply to parents whose parental control of any child has been removed by court order or decree or to parents of exceptional children with specific mental and physical impairments if the damage is determined to result from the impairments. The action authorized in this section shall be in addition to all other actions which the school system is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents or guardian, or both, for damages to which such minor other person would otherwise be liable.
(4) This section shall apply only to acts committed on or after August 1, 1992.

(f) The local school board shall adopt and make available to all teachers, school personnel, students, and parents or guardians, at the beginning of the 1992-93 school year and each school year thereafter, a code of student conduct developed in consultation with teachers, school personnel, students, and parents or guardians. The code shall be based on the rules governing student conduct and discipline adopted by the school board and may be made available at the school level in the student handbook or similar publication. The code shall include, but not be limited to, all of the following:

1. Specific grounds for disciplinary action.
2. Procedures to be followed for acts requiring discipline.
3. An explanation of the responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.

(g) Except in the case of excessive force or cruel and unusual punishment, no certified or noncertified employee of the State Board of Education or any local board of education shall be civilly liable for any action carried out in conformity with state law and system or school rules regarding the control, discipline, suspension, and expulsion of students.

(h) Nothing in this section shall be construed to prevent a local board of education from promulgating more stringent rules and regulations than those adopted on the state level, in order to foster and maintain a safe and drug-free environment in the public schools.

A teacher or administrator who, in good faith, reports suspected drug abuse by a student to the appropriate authorities shall be immune from civil or criminal liability.

16-40A-1. Legislative findings; purpose of chapter.
(a) The Legislature finds that:

1. Drug and alcohol abuse diminish the strength and vitality of the young people of our nation and state; an increasing number of substances, both legal and illegal, are being abused by increasing numbers of school children, even at the grade school level; abuse of any substance causes human behavior that influences many forces, including school, family, church, community, media, and peer groups. Prevention and early intervention in such behavior requires cooperation and coordination involving strategies designed to respond to carefully defined problems in which the education system of the state can play an important role.

(b) The purposes of this chapter are:

1. To encourage the prevention of alcohol and drug abuse among children in the public schools; to stimulate the development of improved approaches to the prevention of alcohol and drug abuse; to demonstrate the use of such approaches in model educational programs and to evaluate the effectiveness thereof; to disseminate successful approaches and significant information for use in educational programs throughout the public schools; and to provide training programs for school administrators, teachers, and counselors.

16-40A-3. Minimum contents to be included in drug education program or curriculum.
(a) Any program or curriculum in the public schools of Alabama that includes drug education or instructs on the use of drugs or alcohol shall, as a minimum, include the following:

1. Age-appropriate, developmentally-based drug and alcohol education and prevention programs that address the legal, social, and health consequences of drug and alcohol use and that provide
information about effective techniques for resisting peer pressure to use illicit drugs or alcohol for students in all grades of the public schools from early childhood level through grade 12.

(2) Information conveying to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful and is punishable by fines and imprisonment.

(3) Standards of conduct that are applicable to students and employees in all public schools and that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on school premises, or as part of any activities of the school.

(4) A clear statement that sanctions, consistent with local, state, and federal law, up to and including expulsion or termination of employment and referral for prosecution, will be imposed on students and employees who violate the standards of conduct required by subdivision (3). A description of those sanctions shall be included.

16-40A-4. Illegal conduct not to be encouraged or proposed to public school children.

Conduct that is illegal under state or federal law, including but not limited to, illegal use or distribution of controlled substances, under-age alcohol use or distribution, sexual intercourse imposed by means of force, or sexual actions which are otherwise illegal, shall not be encouraged or proposed to public school children in such a manner as to indicate that they have a legitimate right to decide or choose illegal conduct.

16-41-1. Short title.

This chapter shall be known and may be cited as "The Drug Abuse Education Act of 1971."

As used in this chapter, the term "drug" shall include barbiturates, central nervous system stimulants, hallucinogenics, and all other drugs to which the narcotic and drug abuse laws of the United States apply. It shall also include alcoholic and intoxicating liquor and beverages and tobacco.

It is further the intent of the Legislature that the voluntary services of persons from the professions of clergy, education, medicine, law enforcement, social services and such other professionally and occupationally qualified individuals as can make a contribution to this program be utilized in its implementation so that the highest possible degree of expertise may be brought to bear.

16-41-4. Administration of chapter by State Superintendent of Education; priorities for implementation.

(a) The State Superintendent of Education shall administer this chapter pursuant to regulations adopted by the State Board of Education. In administering this chapter, the superintendent shall seek and ask for advice and assistance from the medical association of the State of Alabama and take into consideration the advice of the Department of Public Health.

(b) Priorities for the implementation of this program shall include the following:

(1) The implementation of in-service education programs for teachers, administrators and other personnel. Special emphasis shall be placed on methods and materials necessary for the effective teaching of drug abuse education. In-service teacher education materials which are based on individual
performance and designed for use with a minimum of supervision shall be developed and made available to all county and city school systems;

(2) Establishing resource centers located in various regions of the state for the purpose of assisting the Department of Education in coordinating drug abuse education activities in that region;

Any child whose parent presents to the school principal a signed statement that the teaching of disease, its symptoms, development and treatment and the use of instructional aids and materials of such subjects conflict with the religious teachings of his church shall be exempt from such instruction, and no child so exempt shall be penalized by reason of such exemption.

16-41-7. Adoption of regulations by state board; scheduling of drug abuse education courses.

The state board shall adopt regulations to insure the teaching of drug abuse education to all pupils. Every county and city school system shall schedule drug abuse education courses as part of the curriculum of every school, K-12.

16-41-9. Combining of funds from various sources.

In implementing this chapter, every effort shall be made to combine funds appropriated for this purpose with funds available from all other sources, federal, state, local or private, in order to achieve maximum benefits for improving drug abuse education.

The State Superintendent of Education shall, at least 30 days prior to the 1973 Regular Session and each regular session thereafter, transmit to the members of the state board, the President of the Senate, the Speaker of the House, the Chairman of the Senate and the Chairman of the House Education Committees a report as to the status of the drug abuse education program together with any recommendations for further improvement or modification.

The list shall be included in the code of conduct policy of each local board.

LAWS

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.
(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees.
The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.

(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

(e) (1) A copy of the school system's discipline plan shall be distributed to all students enrolled in the system and their parents, guardians, or custodians shall read the plan and sign a statement verifying that they have been given notice of the discipline policies of their respective school system. The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(2) All discipline plans of school systems shall include, but not be limited to, all of the following:

However, this section shall not apply to parents whose parental control of any child has been removed by court order or decree or to parents of exceptional
children with specific mental and physical impairments if the damage is determined to result from the impairments. The action authorized in this section shall be in addition to all other actions which the school system is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents or guardian, or both, for damages to which such minor other person would otherwise be liable.

(4) This section shall apply only to acts committed on or after August 1, 1992.

(f) The local school board shall adopt and make available to all teachers, school personnel, students, and parents or guardians, at the beginning of the 1992-93 school year and each school year thereafter, a code of student conduct developed in consultation with teachers, school personnel, students, and parents or guardians. (19) Problem Solving Teams (PST). By August 15, 2011, all public schools in Alabama will be required to implement the PST model.

(a) Definitions.

(1) The Problem Solving Teams (PST) is a model to guide general education intervention services for all students who have academic and/or behavioral difficulties. The PST is central to the school's successful implementation of the Response to Instruction (RtI) framework.

(2) Response to instruction (RtI). Response to instruction (RtI) refers to an instructional framework that promotes a well-integrated system connecting general, gifted, supplemental, and special education services in providing high-quality, standards-based instruction and intervention that is matched to students' academic, social-emotional, and behavioral needs. RtI combines core instruction, assessment, and intervention with a multi-tiered system to increase student achievement and reduce behavior problems.

(b) Decisions regarding the number of PSTs needed by a school should be determined at the school level; however, a minimum of one PST per school is required to review data-based documentation regarding students' progress regularly, advise teachers on specific interventions matched to student needs, and communicate with parents regarding student intervention needs being provided.
(c) The Problem Solving Teams will analyze screening and progress-monitoring data to assist teachers in planning and implementing appropriate instruction and evidence-based interventions for all students with academic and/or behavioral difficulties, including those students who exhibit the characteristics of dyslexia.

(d) The documentation requirements for a referral to special education found in the Alabama Administrative Code, Chapter 290-8-9.01(2) and (4) (Child Identification) and Chapter 290-8-9.03(10)(b), (10)(c)2.(ii), (10)(d)2.(I)(II)(ii) and (10)(d)4 (Disability Definitions, Criteria, and Minimum Required Evaluative Components) must be collected and provided by the PST to rule out the lack of appropriate instruction in reading or math including the essential components of reading instruction or Limited English Proficiency (LEP), as the determining factor in the eligibility decision.

(e) Any student who is reevaluated and determined not eligible for special education services must be referred to the PST to determine the appropriate supplemental services to facilitate successful transition in the general education program.
