Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

LAWS

22-1-118. School board to enforce.
The boards of directors of all school districts shall enforce the provisions of section 22-1-117, and shall have full power to make, adopt, and modify all rules and regulations which in their judgment and discretion may be necessary for the proper governing of such schools and for the enforcing of all the provisions of section 22-1-117.

22-11-302. School district accountability committees - powers and duties.
(1) Each school district accountability committee has the following powers and duties:
   (f) To provide input to the local school board concerning the creation and enforcement of its school conduct and discipline code; and

(2) Safe school plan. In order to provide a learning environment that is safe, conducive to the learning process, and free from unnecessary disruption, each school district board of education or institute charter school board for a charter school authorized by the charter school institute shall, following consultation with the school district accountability committee and school accountability committees, parents, teachers, administrators, students, school councils where available, and, where appropriate, the community at large, adopt and implement a safe school plan, or review and revise, as necessary in response to any relevant data collected by the school district, any existing plans or policies already in effect. In addition to the aforementioned parties, each school district board of education, in adopting and implementing its safe school plan, may consult with victims' advocacy organizations, school psychologists, local law enforcement, and community partners. The plan, at a minimum, must include the following:
   (a) Conduct and discipline code.
      (I) A concisely written conduct and discipline code that shall be enforced uniformly, fairly, and consistently for all students. Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:
         (A) General policies on student conduct, safety, and welfare;
         (B) General policies and procedures for dealing with students who cause a disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event, including a specific policy allowing a teacher to remove a disruptive student from his or her classroom. The policy shall state that, upon the third such removal from a teacher's class, the teacher may remove the disruptive student from the teacher's class for the remainder of the term of the class; except that a disruptive student shall not be removed from a teacher's class for the remainder of the term of the class unless the principal of the student's school or his or her designee has developed and implemented a behavior plan for the student. A behavior plan may be developed after the first such removal from class and shall be developed after the second removal from class. The general policies and
procedures shall include a due process procedure, which at a minimum shall require that, as soon as possible after a removal, the teacher or the school principal shall contact the parent or legal guardian of the student to request his or her attendance at a student-teacher conference regarding the removal. Any policy or procedure adopted shall comply with applicable federal and state laws, including but not limited to laws regarding students with disabilities.

(C) Provisions for the initiation of suspension or expulsion proceedings for students who qualify as habitually disruptive students;

(D) Policies and procedures for the use of acts of reasonable and appropriate physical intervention or force in dealing with disruptive students; except that no board shall adopt a discipline code that includes provisions that are in conflict with the definition of child abuse in section 18-6-401 (1), C.R.S., and section 19-1-103 (1), C.R.S.;

(F) A specific policy concerning gang-related activities on school grounds, in school vehicles, and at school activities or sanctioned events;

(G) Written prohibition, consistent with section 22-33-106, of students from bringing or possessing dangerous weapons, drugs, or other controlled substances on school grounds, in a school vehicle, or at a school activity or sanctioned event and from using drugs or other controlled substances on school grounds, in a school vehicle, or at a school activity or sanctioned event;

(H) Written prohibition of students from using or possessing tobacco products on school grounds, in a school vehicle, or at a school activity or sanctioned event;

(I) A written policy concerning searches on school grounds, including searches of student lockers;

(J) A dress code policy that prohibits students from wearing apparel that is deemed disruptive to the classroom environment or to the maintenance of a safe and orderly school. The dress code policy may require students to wear a school uniform or may establish minimum standards of dress;

(K) On and after August 8, 2001, a specific policy concerning bullying prevention and education. Each school district is encouraged to ensure that its policy, at a minimum, incorporates the biennial administration of surveys of students' impressions of the severity of bullying in their schools, as described in section 22-93-104 (1)(c); character building; and the designation of a team of persons at each school of the school district who advise the school administration concerning the severity and frequency of bullying incidents that occur in the school, which team may include, but need not be limited to, law enforcement officials, social workers, prosecutors, health professionals, mental health professionals, school psychologists, counselors, teachers, administrators, parents, and students. Each school district's policy shall set forth appropriate disciplinary consequences for students who bully other students and for any person who takes any retaliatory action against a student who reports in good faith an incident of bullying, which consequences shall comply with all applicable state and federal laws.

(L) Information concerning the school district's policies for the use of restraint and seclusion on students, including a reference to section 26-20-111 and information concerning the process for filing a complaint regarding the use of restraint or seclusion, as such process is set forth by rule of the state board pursuant to section 22-32-147.

(4)(a) The board of education shall adopt a written policy setting forth the district's attendance requirements. Said policy shall provide for excused absences, including those listed as exclusions from

Colorado Compilation of School Discipline Laws and Regulations  Page 8
compulsory school attendance in accordance with subsection (2) of this section. An attendance policy developed pursuant to this section may include appropriate penalties for nonattendance due to unexcused absence.

(b) The attendance policy adopted pursuant to this subsection (4) shall specify the maximum number of unexcused absences a child may incur before the attorney for the school district, the attendance officer, or the local board of education may initiate judicial proceedings pursuant to section 22-33-108. Calculation of the number of unexcused absences a child has incurred includes all unexcused absences occurring during any calendar year or during any school year.

(c) On or before January 1, 2009, the state board shall adopt rules establishing a standardized calculation for counting unexcused absences of students, including the circumstance in which a student is absent for part of a school day, and the format for reporting the information to the department pursuant to section 22-33-107.

22-33-105. Suspension, expulsion, and denial of admission.

(2) In addition to the powers provided in section 22-32-110, the board of education of each district may:

(a) Delegate to any school principal within the school district or to a person designated in writing by the principal the power to suspend a pupil in his school for not more than five school days on the grounds stated in section 22-33-106 (1)(a), (1)(b), (1)(c), or (1)(e) or not more than ten school days on the grounds stated in section 22-33-106 (1)(d);

(b) Suspend, on the grounds stated in section 22-33-106, a pupil from school for not more than another ten school days, or may delegate such power to its executive officer; except that the latter may extend a suspension to an additional ten school days if necessary in order to present the matter to the next meeting of the board of education, but the total period of suspension pursuant to this paragraph (b) and paragraph (a) of this subsection (2) shall not exceed twenty-five school days; and

(c) Deny admission to, or expel for any period not extending beyond one year, any child whom the board of education, in accordance with the limitations imposed by this article, shall determine does not qualify for admission to, or continued attendance at, the public schools of the district. A board of education may delegate such powers to its executive officer or to a designee who shall serve as a hearing officer. If the hearing is conducted by a designee acting as a hearing officer, the hearing officer shall forward findings of fact and recommendations to the executive officer at the conclusion of the hearing. The executive officer shall render a written opinion within five days after a hearing conducted by the executive officer or by a hearing officer. The executive officer shall report on each case acted upon at the next meeting of the board of education, briefly describing the circumstances and the reasons for the executive officer's action. A child who is denied admission or expelled as an outcome of the hearing shall have ten days after the denial of admission or expulsion to appeal the decision of the executive officer to the board of education, after which time the decision to grant or deny the appeal shall be at the discretion of the board of education. The appeal shall consist of a review of the facts that were presented and that were determined at the hearing conducted by the executive officer or by a designee acting as a hearing officer, arguments relating to the decision, and questions of clarification from the board of education. No board of education shall deny admission to, or expel, any child without a hearing, if one is requested by the parent, guardian, or legal custodian of the child, at which evidence may be presented in the child's behalf. If the child is denied admission or expelled, the child shall be entitled to a review of the decision of the board of education in accordance with section 22-33-108.

An agency that is authorized to promulgate rules or adopt ordinances shall promulgate rules or adopt ordinances applicable to the agencies within their respective jurisdictions that establish procedures for the use of restraint and seclusion consistent with the provisions of this article. Any agency that has rules or
ordinances in existence on April 22, 1999, is not required to promulgate additional rules or adopt additional ordinances unless that agency's existing rules or ordinances do not meet the minimum requirements of this article.

Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The policy shall state that, upon the third such removal from a teacher's class, the teacher may remove the disruptive student from the teacher's class for the remainder of the term of the class; except that a disruptive student shall not be removed from a teacher's class for the remainder of the term of the class unless the principal of the student's school or his or her designee has developed and implemented a behavior plan for the student. A behavior plan may be developed after the first such removal from class and shall be developed after the second removal from class. The general policies and procedures shall include a due process procedure, which at a minimum shall require that, as soon as possible after a removal, the teacher or the school principal shall contact the parent or legal guardian of the student to request his or her attendance at a student-teacher conference regarding the removal. 22-33-201. Legislative declaration.  
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204.

Alternatives to suspension

LAWS

(1) Definitions. As used in this section, unless the context otherwise requires:

(a) "Action taken" means a specific type of discipline, including but not limited to the following categories of discipline:

(I) In-school suspension;
(II) Out-of-school suspension;
(III) Classroom removal in accordance with board policy;
(IV) Expulsion;
(V) Referral to law enforcement; or
(VI) Any other form of discipline, which shall be officially identified as part of a board policy.

(b) "Bullying" means any written or verbal expression, or physical or electronic act or gesture, or a pattern thereof, that is intended to coerce, intimidate, or cause any physical, mental, or emotional harm to any student. Bullying is prohibited against any student for any reason, including but not limited to any such behavior that is directed toward a student on the basis of his or her academic performance or against whom federal and state laws prohibit discrimination upon any of the bases described in section 22-32-109 (1)(I). This definition is not intended to infringe upon any right guaranteed to any person by the first amendment to the United States constitution or to prevent the expression of any religious, political, or philosophical views.

(b.5) "Community partners" means, collectively, local fire departments, state and local law enforcement, local 911 agencies, interoperable communications providers, the safe2tell program described in section 24-31-606, C.R.S., local emergency medical service personnel, local mental health organizations, local public health agencies, local emergency management personnel, local or regional homeland security personnel, and school resource officers.

(2) Safe school plan. In order to provide a learning environment that is safe, conducive to the learning process, and free from unnecessary disruption, each school district board of education or institute charter school board for a charter school authorized by the charter school institute shall, following consultation
with the school district accountability committee and school accountability committees, parents, teachers, administrators, students, student councils where available, and, where appropriate, the community at large, adopt and implement a safe school plan, or review and revise, as necessary in response to any relevant data collected by the school district, any existing plans or policies already in effect. In addition to the aforementioned parties, each school district board of education, in adopting and implementing its safe school plan, may consult with victims' advocacy organizations, school psychologists, local law enforcement, and community partners. The plan, at a minimum, must include the following:

(a) Conduct and discipline code.

(II) In creating and enforcing a school conduct and discipline code pursuant to subparagraph (I) of this paragraph (a), each school district board of education, on and after August 1, 2013, shall:

(A) Impose proportionate disciplinary interventions and consequences, including but not limited to in-school suspensions, in response to student misconduct, which interventions and consequences are designed to reduce the number of expulsions, out-of-school suspensions, and referrals to law enforcement, except for such referrals to law enforcement as are required by state or federal law;

(B) Include plans for the appropriate use of prevention, intervention, restorative justice, peer mediation, counseling, or other approaches to address student misconduct, which approaches are designed to minimize student exposure to the criminal and juvenile justice system. The plans shall state that a school administration shall not order a victim's participation in a restorative justice practice or peer mediation if the alleged victim of an offending student's misconduct alleges that the misconduct constitutes unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S.; a crime in which the underlying factual basis involves domestic violence, as defined in section 18-6-800.3 (1), C.R.S.; stalking as defined in section 18-3-602, C.R.S.; or violation of a protection order, as defined in section 18-6-803.5, C.R.S.;

(C) Ensure that the implementation of the code complies with all state and federal laws concerning the education of students with disabilities, as defined in section 22-20-103 (5); and

(D) Ensure that, in implementing the code, each school of the school district shows due consideration of the impact of certain violations of the code upon victims of such violations, in accordance with the provisions of title IX of the United States Code and other state and federal laws.

22-32-144. Restorative justice practices - legislative declaration.

(1) The general assembly hereby finds that:

(a) Conflicts and offenses arising during the school day interrupt learning, threaten school safety, and often lead to suspensions, expulsions, and an increase in the likelihood of a student dropping out of school;

(b) Students who drop out of high school face diminished job opportunities, lower lifetime earnings, and increased unemployment and more often require public assistance. They are more likely to participate in criminal activity, resulting in higher incarceration rates, and they face much greater challenges to becoming productive, contributing members of their communities.

(c) School conflicts can result in offenses that violate school rules and local laws and damage relationships among members of the school and surrounding community;

(d) Restorative justice, which requires the offender to accept responsibility and accountability for his or her actions, teaches conflict resolution, repairs the harm from the offense, reduces classroom disruptions, suspensions, expulsions, and consequent dropouts, promotes school safety, and enables victims, offenders, and community members to rebuild the community and restore relationships; and
(e) The general assembly has a vital interest in reducing classroom disruptions, suspensions, expulsions, and dropout rates and in assisting victims, reducing referrals to the justice system, and building safer, more cohesive school communities to promote learning.

(2)(a) Therefore, the general assembly supports and encourages the use of restorative justice as a school's first consideration to remediate offenses such as interpersonal conflicts, bullying, verbal and physical conflicts, theft, damage to property, class disruption, harassment and internet harassment, and attendance issues.

(b) The general assembly encourages each school district to implement training and education in the principles and practices of restorative justice to ensure that capable personnel and resources are available to successfully facilitate all steps of the restorative justice process.

(3) For purposes of this section, "restorative justice" means practices that emphasize repairing the harm to the victim and the school community caused by a student's misconduct. Restorative justice practices may include victim-initiated victim-offender conferences attended voluntarily by the victim, a victim advocate, the offender, school members, and supporters of the victim and the offender, which program provides an opportunity for the offender to accept responsibility for the harm caused to those affected by the act and to participate in setting consequences to repair the harm. Consequences recommended by the participants may include, but need not be limited to, apologies, community service, restitution, restoration, and counseling. The selected consequences shall be incorporated into an agreement that sets time limits for completion of the consequences and is signed by all participants.

(4) Each school district is encouraged to develop and utilize restorative justice practices that are part of the disciplinary program of each school in the district.

22-33-105. Suspension, expulsion, and denial of admission.

(4) The board of education of each district shall establish, as an alternative to suspension, a policy that allows the pupil to remain in school by encouraging the parent, guardian, or legal custodian, with the consent of the pupil's teacher or teachers, to attend class with the pupil for a period of time specified by the suspending authority. If the parent, guardian, or legal custodian does not agree to attend class with the pupil or fails to attend class with the pupil, the pupil shall be suspended in accordance with the conduct and discipline code of the district.

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(1.2) Each school district is encouraged to consider each of the following factors before suspending or expelling a student pursuant to a provision of subsection (1) of this section:

(a) The age of the student;
(b) The disciplinary history of the student;
(c) Whether the student has a disability;
(d) The seriousness of the violation committed by the student;
(e) Whether the violation committed by the student threatened the safety of any student or staff member; and
(f) Whether a lesser intervention would properly address the violation committed by the student.

22-33-106.1. Suspension - expulsion - preschool through second grade - definitions.

(1) As used in this section, unless the context otherwise requires:

(a) "Charter school" means a charter school that is authorized by a school district board of education pursuant to part 1 of article 30.5 of this title 22 or an institute charter school that is authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.
(b) "Enrolling entity" means:

(I) A community-based preschool program that includes students who are funded through the "Colorado Preschool Program Act", article 28 of this title 22, or students who are funded with state or federal money to educate children with disabilities;

(II) A school district; or

(III) A charter school.

(2) Notwithstanding any provision of this article 33 to the contrary, an enrolling entity may impose an out-of-school suspension or expel a student enrolled in preschool, kindergarten, first grade, or second grade only if:

(a) The enrolling entity determines that the student has engaged in conduct on school grounds, in a school vehicle, or at a school activity or sanctioned event that:

(I) Involves the possession of a dangerous weapon without the authorization of the public school or enrolling entity, if different;

(II) Involves the use, possession, or sale of a drug or controlled substance, as defined in section 18-18-102 (5); or

(III) Endangers the health or safety of others;

(b) The enrolling entity determines that failure to remove the student from the school building would create a safety threat that cannot otherwise be addressed; and

(c) The enrolling entity, on a case-by-case basis, considers each of the factors set forth in section 22-33-106 (1.2) before suspending or expelling the student. The enrolling entity shall document any alternative behavioral and disciplinary interventions that it employs before suspending or expelling the student.

(3) If an enrolling entity imposes an out-of-school suspension on a student who meets the criteria specified in subsection (2) of this section, the out-of-school suspension shall not exceed three school days unless the executive officer or chief administrative officer of the enrolling entity, or designee of either, determines that a longer period of suspension is necessary to resolve the safety threat or recommends that the student be expelled in accordance with section 22-33-105 (2)(c).

(4) This section does not prevent an enrolling entity from excluding, removing, or disenrolling a student for reasons unrelated to student discipline.

(5) For purposes of this section, if an enrolling entity requests that a parent remove a child for disciplinary reasons from the school grounds for any length of time during a school day, the request constitutes a suspension and is subject to the requirements of this section.

(6) The state board shall annually review the data concerning the number of students who are suspended or expelled pursuant to this section and, if available, the reasons for the suspensions and expulsions.

**22-33-201. Legislative declaration.**

The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student’s parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school district to identify a student for participation in an expulsion-prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion proceeding.

The code shall include, but need not be limited to:

(D) Policies and procedures for the use of acts of reasonable and appropriate physical intervention or force in dealing with disruptive students; except that no board shall adopt a discipline code that includes provisions that are in conflict with the definition of child abuse in section 18-6-401 (1), C.R.S., and section 19-1-103 (1), C.R.S.;

(1) The general assembly finds that:

(a) Research demonstrates that young children who are suspended or expelled from school are up to ten times more likely to experience academic failure and grade retention and to hold negative attitudes toward school than those children who are not suspended or expelled. Young children who are suspended or expelled from school are also more likely to drop out of high school and to be incarcerated later in life.

(b) Lack of training to deal with behavioral issues in the classroom contributes to education dissatisfaction and burnout, which increases the number of educators who leave the profession. Providing additional training and support in dealing with student discipline issues may help school districts and schools retain experienced educators.

(c) To reduce the incidence of exclusionary discipline among students, especially those enrolled in preschool through third grade, teachers and administrators should receive training and support in using culturally responsive methods of discipline with young students and in implementing developmentally appropriate responses to the behavioral issues of young students.

(2) As used in this section, unless the context otherwise requires:

(a) "Board of cooperative services" means a regional educational service unit created pursuant to article 5 of this title 22.

(b) "Charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22 or a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.
(c) "Culturally responsive methods" means methods that use the cultural knowledge, experiences, social and emotional learning needs, and performance styles of diverse students to ensure that classroom management strategies and research-based alternatives to exclusionary discipline are appropriate and effective for students.

(d) "Exclusionary discipline methods" means in-school suspension, out-of-school suspension, expulsion, school-based arrests, school-based referrals to the juvenile justice system, and voluntary or involuntary placement in an alternative education program.

(e) "Pilot program" means the discipline strategies pilot program created in subsection (3) of this section.

(3)(a) There is created in the department the discipline strategies pilot program to provide money to school districts, groups of school districts, boards of cooperative services, and charter schools for professional development for teachers and principals concerning the use of culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade, including students with disabilities. The intent of the pilot program is to provide professional development for educators to assist them in reducing the use of exclusionary discipline methods in public schools, especially with regard to students enrolled in preschool through third grade and students with disabilities. The department is required to implement the pilot program only to the extent that it receives sufficient money through gifts, grants, and donations as provided in subsection (7) of this section.

(b) The state board shall promulgate rules as provided in the "State Administrative Procedure Act", article 4 of title 24, as necessary, to implement the pilot program.

(4) A school district, group of school districts, board of cooperative services, or charter school may apply to the department to receive a grant through the pilot program. An application must include:

(a) The number of teachers and principals to whom the applicant will provide professional development in using culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade and the number and grade levels of students served by those teachers and principals;

(b) The professional development programs that the applicant expects to provide with the grant money;

(c) The other resources available to the applicant to provide the professional development;

(d) The aggregate number and type of disciplinary incidents occurring in preschool, kindergarten, and grades one through three in the schools operated by the applicant in the preceding three school years and the types of disciplinary responses and strategies used;

(e) The applicant's agreement to provide to the department the information necessary for the department to create the report described in subsection (6) of this section for each school year in which the applicant receives a grant; and

(f) Any additional information required by rule of the state board.

(5) The department shall review the applications received pursuant to subsection (4) of this section and recommend to the state board which applicants should receive grants through the pilot program and the amount of each grant. The state board, taking into consideration the department's recommendations, shall award the grants, subject to available funding. In making recommendations and awarding grants, the department and the state board shall, to the extent practicable, award a grant to at least one school district, board of cooperative services, or charter school located in a rural area and shall consider:

(a) The level of financial need that an applicant demonstrates;
(b) The quality of the professional development grant programs that the applicant expects to provide with the grant money;

(c) The student demographics of the schools operated by the applicant and the use of exclusionary discipline methods in the preceding three school years by educators employed by the applicant; and

(d) Any additional criteria adopted by rule of the state board.

(6)(a) For each school year in which the state board awards grants through the pilot program, the department shall prepare a report concerning implementation of the pilot program. At a minimum, the report must include:

(I) The number of school districts, boards of cooperative services, and charter schools that received grants through the pilot program and the amount of each grant;

(II) The types of professional development that grant recipients provided to teachers and principals;

(III) For the schools operated by the grant recipients, a comparison of the following strategies, policies, or data before and after educators participated in the professional development programming provided with the grant money:

(A) Disciplinary strategies or policies;

(B) For preschool, kindergarten, and grades one through three, the aggregate number and types of disciplinary incidents, aggregate information concerning the types of disciplinary responses to incidents, and aggregate information concerning the changes in disciplinary responses used before and after the training;

(C) Attendance and truancy rates; and

(D) Indicators of teacher satisfaction; and

(IV) Any other nonpersonally identifying data requested by the department that indicates whether the pilot program is successful in reducing the use of exclusionary discipline methods in public schools.

(b) By April 15, 2018, and by April 15 each year thereafter, the department shall submit the report to the state board, the joint budget committee, and the education committees of the house of representatives and the senate, or any successor committees.

(7) The pilot program is not eligible to receive state appropriations and must be funded solely through gifts, grants, or donations. The department may accept and expend gifts, grants, or donations from private or public sources for the purposes of the pilot program. Notwithstanding any provision of this section to the contrary, the department and the state board are not required to implement the pilot program, including promulgating rules and preparing the report described in subsection (6) of this section, in a budget year if the department does not receive at least three hundred thousand dollars in gifts, grants, or donations for the pilot program for that budget year.

(8) This section is repealed, effective July 1, 2020.

(I) Out-of-school suspension;

(II) Classroom removal in accordance with board policy;

(IV) Expulsion;

(2) Safe school plan. [...] The plan, at a minimum, shall include the following:

(a) Conduct and discipline code.

(I) A concisely written conduct and discipline code that shall be enforced uniformly, fairly, and consistently for all students. Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:

(C) Provisions for the initiation of suspension or expulsion proceedings for students who qualify as habitually disruptive students;

(E) General policies and procedures for determining the circumstances under and the manner in which disciplinary actions, including suspension and expulsion, shall be imposed in accordance with the provisions of sections 22-33-105 and 22-33-106;

22-33-105. Suspension, expulsion, and denial of admission.

(5)(a) Whenever a petition filed in juvenile court alleges that a child at least twelve years of age but under eighteen years of age has committed an offense that would constitute unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S., or a crime of violence, as defined in section 18-1.3-406, C.R.S., if committed by an adult or whenever charges filed in district court allege that a child has committed such an offense, basic identification information concerning such child and the details of the alleged delinquent act or offense shall be provided immediately to the school district in which the child is enrolled in accordance with the provisions of section 19-1-304 (5), C.R.S. Upon receipt of such information, the board of education of the school district or its designee shall determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or of school personnel in the school and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The determination may be made in executive session to the extent allowed by section 24-6-402 (4)(h), C.R.S. If the board of education or its designee, in accordance with the provisions of this subsection (5), makes a determination that the student should not be educated in the school, it may proceed with suspension or expulsion in accordance with subsection (2)
of this section and section 22-33-106. Alternatively, the board of education or its designee may determine that it will wait until the conclusion of the juvenile proceedings to consider the expulsion matter, in which case it shall be the responsibility of the district to provide the student with an appropriate alternate education program, including but not limited to an on-line program or on-line school authorized pursuant to article 30.7 of this title, or a home-based education program during the period pending the resolution of the juvenile proceedings. Information made available to the school district and not otherwise available to the public pursuant to the provisions of section 19-1-304, C.R.S., shall remain confidential.

(b) No student who is being educated in an alternate education program or a home-based education program pursuant to paragraph (a) of this subsection (5) shall be allowed to return to the education program in the public school until there has been a disposition of the charge. If the student pleads guilty, is found guilty, or is adjudicated a delinquent juvenile, the school district may proceed in accordance with section 22-33-106 to expel the student. The time that a student spends in an alternate education program pursuant to paragraph (a) of this subsection (5) shall not be considered a period of expulsion.

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(1) The following may be grounds for suspension or expulsion of a child from a public school during a school year:

(a) Continued willful disobedience or open and persistent defiance of proper authority;

(b) Willful destruction or defacing of school property;

(c) Behavior on or off school property that is detrimental to the welfare or safety of other pupils or of school personnel, including behavior that creates a threat of physical harm to the child or to other children; except that, if the child who creates the threat is a child with a disability pursuant to section 22-20-103 (5), the child may not be expelled if the actions creating the threat are a manifestation of the child's disability. However, the child shall be removed from the classroom to an appropriate alternative setting within the district in which the child is enrolled for a length of time that is consistent with federal law, during which time the school in which the student is enrolled shall give priority to and arrange within ten days for a reexamination of the child's individualized education program to amend his or her program as necessary to ensure that the needs of the child are addressed in a more appropriate manner or setting that is less disruptive to other students and is in accordance with the provisions of article 20 of this title. Nothing in this paragraph (c) shall be construed to limit a school district's authority to suspend a child with a disability for a length of time that is consistent with federal law.

(c.5)(I) Declaration as a habitually disruptive student.

(II) For purposes of this paragraph (c.5), "habitually disruptive student" means a child who has caused a material and substantial disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event three or more times during the course of a school year. Any student who is enrolled in a public school may be subject to being declared a habitually disruptive student.

(III) The student and the parent, legal guardian, or legal custodian shall have been notified in writing of each disruption counted toward declaring the student as habitually disruptive pursuant to this paragraph (c.5), and the student and parent, legal guardian, or legal custodian shall have been notified in writing and by telephone or other means at the home or the place of employment of the parent or legal guardian of the definition of "habitually disruptive student".

(IV)(Deleted by amendment, L. 2000, p. 1971, § 12, effective June 2, 2000.)

(III) The commission of an act that, if committed by an adult, would be robbery pursuant to part 3 of article 4 of title 18, C.R.S., or assault pursuant to part 2 of article 3 of title 18, C.R.S., other than the commission of an act that would be third degree assault under section 18-3-204, C.R.S., if committed by an adult.

(e) Repeated interference with a school's ability to provide educational opportunities to other students.

(f) Carrying, using, actively displaying, or threatening with the use of a firearm facsimile that could reasonably be mistaken for an actual firearm in a school building or in or on school property. Each school district shall develop a policy that shall authorize a student to carry, bring, use, or possess a firearm facsimile on school property for either a school-related or a nonschool-related activity. Such policy shall also consider student violations under this section on a case-by-case basis using the individual facts and circumstances to determine whether suspension, expulsion, or any other disciplinary action, if any, is necessary.

(g) Pursuant to section 22-12-105 (3), making a false accusation of criminal activity against an employee of an educational entity to law enforcement authorities or school district officials or personnel.

(a) The age of the student;

(b) The disciplinary history of the student;

(c) Whether the student has a disability;

(d) The seriousness of the violation committed by the student;

(e) Whether the violation committed by the student threatened the safety of any student or staff member; and

(f) Whether a lesser intervention would properly address the violation committed by the student.

(1.5) Notwithstanding any other provision of law, in accordance with the provisions of 20 U.S.C. sec. 7961, a student who is determined to have brought a firearm to a school, or to have possessed a firearm at a school, shall be expelled for a period of not less than one year; except that the superintendent of the student's school district may modify this requirement for a student on a case-by-case basis if such modification is in writing.

(2) Subject to the district's responsibilities under article 20 of this title, the following may be grounds for expulsion from or denial of admission to a public school, or diversion to an appropriate alternate program:

(a) Physical or mental disability such that the child cannot reasonably benefit from the programs available;

(b) Physical or mental disability or disease causing the attendance of the child suffering therefrom to be inimical to the welfare of other pupils.

(3) The following may constitute additional grounds for denial of admission to a public school:

(a) Graduation from the twelfth grade of any school or receipt of any document evidencing completion of the equivalent of a secondary curriculum;

(b) Failure to meet the requirements of age, by a child who has reached the age of six at a time after the beginning of the school year, as fixed by the board of education of the district in which the child applies for enrollment, as provided in section 22-1-115;

(c) Having been expelled from any school district during the preceding twelve months;
(d) Not being a resident of the district, unless otherwise entitled to attend under the provisions of article 23, 32, or 36 of this title;

(f) Behavior in another school district during the preceding twelve months that is detrimental to the welfare or safety of other pupils or of school personnel.

The enrolling entity shall document any alternative behavioral and disciplinary interventions that it employs before suspending or expelling the student.

(3) If an enrolling entity imposes an out-of-school suspension on a student who meets the criteria specified in subsection (2) of this section, the out-of-school suspension shall not exceed three school days unless the executive officer or chief administrative officer of the enrolling entity, or designee of either, determines that a longer period of suspension is necessary to resolve the safety threat or recommends that the student be expelled in accordance with section 22-33-105 (2)(c).

(4) This section does not prevent an enrolling entity from excluding, removing, or disenrolling a student for reasons unrelated to student discipline.

(5) For purposes of this section, if an enrolling entity requests that a parent remove a child for disciplinary reasons from the school grounds for any length of time during a school day, the request constitutes a suspension and is subject to the requirements of this section.

22-33-106.1. Suspension - expulsion - preschool through second grade - definitions.

(1) As used in this section, unless the context otherwise requires:

(a) "Charter school" means a charter school that is authorized by a school district board of education pursuant to part 1 of article 30.5 of this title 22 or an institute charter school that is authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(b) "Enrolling entity" means:

(II) A school district; or

(III) A charter school.

(2) Notwithstanding any provision of this article 33 to the contrary, an enrolling entity may impose an out-of-school suspension or expel a student enrolled in preschool, kindergarten, first grade, or second grade only if:

(a) The enrolling entity determines that the student has engaged in conduct on school grounds, in a school vehicle, or at a school activity or sanctioned event that:

(I) Involves the possession of a dangerous weapon without the authorization of the public school or enrolling entity, if different;

(II) Involves the use, possession, or sale of a drug or controlled substance, as defined in section 18-18-102 (5); or
(III) Endangers the health or safety of others;
(b) The enrolling entity determines that failure to remove the student from the school building would create a safety threat that cannot otherwise be addressed; and
(c) The enrolling entity, on a case-by-case basis, considers each of the factors set forth in section 22-33-106 (1.2) before suspending or expelling the student. The enrolling entity shall document any alternative behavioral and disciplinary interventions that it employs before suspending or expelling the student.

(3) If an enrolling entity imposes an out-of-school suspension on a student who meets the criteria specified in subsection (2) of this section, the out-of-school suspension shall not exceed three school days unless the executive officer or chief administrative officer of the enrolling entity, or designee of either, determines that a longer period of suspension is necessary to resolve the safety threat or recommends that the student be expelled in accordance with section 22-33-105 (2)(c).

(6) The state board shall annually review the data concerning the number of students who are suspended or expelled pursuant to this section and, if available, the reasons for the suspensions and expulsions.

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

22-33-204.5. Legislative declaration.
The general assembly finds that a student who is placed in a residential child care facility or other facility licensed by the department of human services or in a hospital or who is receiving educational services through a day treatment center is, in most cases, dealing with significant behavioral and emotional issues. These issues make it difficult, if not impossible, for the student to function within a regular school and often severely impact the student's ability to participate in a facility school. The general assembly further finds that, although a student who is placed in a facility cannot be expelled due to the nature of the placement, the student is at risk of being unable to prosper academically and should be considered an at-risk student for purposes of section 22-33-205.

Administrative procedures related to suspension and expulsion

LAWS

(3) Agreements with state agencies. Each board of education shall cooperate and, to the extent possible, develop written agreements with law enforcement, the juvenile justice system, and social services, as allowed under state and federal law, to keep each school environment safe. Each board of education shall adopt a policy whereby procedures will be used following instances of assault upon, disorderly conduct toward, harassment of, the making knowingly of a false allegation of child abuse against, or any alleged offense under the "Colorado Criminal Code" directed toward a school teacher or school employee or instances of damage occurring on the premises to the personal property of a school teacher or school employee by a student. Such procedures shall include, at a minimum, the following provisions:

(a) Such school teacher or school employee shall file a complaint with the school administration and the board of education.

(b) The school administration shall, after receipt of such report and proof deemed adequate to the school administration, suspend the student for three days, such suspension to be in accordance with the procedures established therefor, and shall initiate procedures for the further suspension or expulsion of the student where injury or property damage has occurred.

(c) The school administration shall report the incident to the district attorney or appropriate local law enforcement, which shall, upon receiving such report, investigate the incident to determine the appropriateness of filing criminal charges or initiating delinquency proceedings.

22-33-105. Suspension, expulsion, and denial of admission.

(2) In addition to the powers provided in section 22-32-110, the board of education of each district may:

(c) Deny admission to, or expel for any period not extending beyond one year, any child whom the board of education, in accordance with the limitations imposed by this article, shall determine does not qualify for admission to, or continued attendance at, the public schools of the district. A board of education may delegate such powers to its executive officer or to a designee who shall serve as a hearing officer. If the hearing is conducted by a designee acting as a hearing officer, the hearing officer shall forward findings of fact and recommendations to the executive officer at the conclusion of the hearing. The executive officer shall render a written opinion within five days after a hearing conducted by the executive officer or by a hearing officer. The executive officer shall report on each case acted upon at the next meeting of the board of education, briefly describing the circumstances and the reasons for the executive officer's action. A child who is denied admission or expelled as an outcome of the hearing shall have ten days after the denial of admission or expulsion to appeal the decision of the executive officer to the board of education, after which time the decision to grant or deny the appeal shall be at the discretion of the board of education. The appeal shall consist of a review of the facts that were presented and that were determined at the hearing conducted by the executive officer or by a designee acting as a hearing officer, arguments relating to the decision, and questions of clarification from the board of education. No board of education shall deny admission to, or expel, any child without a hearing, if one is requested by the parent, guardian, or legal custodian of the child, at which evidence may be presented in the child's behalf. If the child is denied admission or expelled, the child shall be entitled to a review of the decision of the board of education in accordance with section 22-33-108.
(3)(c) A pupil suspended for a period of ten days or less shall receive an informal hearing by the school principal or the principal's designee prior to the pupil's removal from school, unless an emergency requires immediate removal from school, in which case an informal hearing shall follow as soon after the pupil's removal as practicable. Any pupil suspended for more than ten days shall be given the opportunity to request a review of the suspension before an appropriate official of the school district.

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(4)(a) Except as provided in paragraph (b) of this subsection (4), a school district shall prohibit any student who is expelled from a public school of the school district pursuant to paragraph (c) or (d) of subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed. If the school district has no actual knowledge of the name of the victim of the offense for which the student was expelled, the provisions of this subsection (4) shall be implemented only upon request of the victim or a member of the victim's immediate family.

(2) If a child or his parent desires court review of an order of the board of education issued pursuant to this article, he shall notify the board in writing within five days after receiving official notification of the board's action. The board of education shall thereupon issue, or cause to be issued, to the child or his parent a statement of the reasons for the board's action. Within ten days thereafter the child or his parents may file with the court a petition requesting that the order of the board of education be set aside, to which shall be appended the statement of the board of education. No docket or other fees shall be collected by the court in connection with this proceeding.

(3) After the petition is filed, the court shall notify the board and shall hold a hearing on the matter. The court shall conduct judicial review of a hearing decision pursuant to rule 106 (a)(4) of the Colorado rules of civil procedure and rule 3.8 of the Colorado rules of juvenile procedure.

(4) It is the duty of the attorney for the school district, an employee authorized by the local board of education pursuant to section 13-1-127 (7), C.R.S., to represent the school district in truancy proceedings, the attendance officer designated by the local board of education, or the local board of education to initiate, when appropriate, proceedings for the enforcement of the compulsory attendance provisions of this article upon request by the attendance officer of the district or of the state.

(5)(a) It is the intent of the general assembly that, in enforcing the compulsory school attendance requirements of this article, a school district shall employ best practices and research-based strategies to minimize the need for court action and the risk that a court will issue detention orders against a child or parent.

(b) A school district shall initiate court proceedings to compel a child and the child's parent to comply with the attendance requirements specified in this article but only as an last-resort approach to address the child's truancy and only if a child continues to be habitually truant after school or school district personnel have created and implemented a plan pursuant to section 22-33-107 (3) to improve the child's school attendance.

(c) Before initiating court proceedings to compel compliance with the attendance requirements specified in this article, the school district shall give the child and the child's parent written notice that the school district will initiate proceedings if the child does not comply with the attendance requirements of this article. The school district may combine the notice and summons. If combined, the petition must state the date on which the school district will initiate proceedings, which date must not be less than five days after the date of the notice and summons. The notice must state the provisions of this article with which compliance is required and must state that the school district will not initiate proceedings if the child complies with the identified provisions before the proceedings are filed.
(d) If a school district initiates court proceedings pursuant to this subsection (5), the school district, at a minimum, must submit to the court evidence of:

(I) The child's attendance record prior to and after the point at which the child was identified as habitually truant;

(II) Whether the child was identified as chronically absent and, if so, the strategies the school district used to improve the child's attendance;

(III) The interventions and strategies used to improve the child's attendance before school or school district personnel created the child's plan described in section 22-33-107 (3); and

(IV) The child's plan and the efforts of the child, the child's parent, and school or school district personnel to implement the plan.

(6) The court before which a proceeding to compel attendance is brought may issue, in its discretion, an order against the child or the child's parent or both compelling the child to attend school as provided by this article or compelling the parent to take reasonable steps to assure the child's attendance. The order must require the child and parent to cooperate with the school district in complying with the plan created for the child pursuant to section 22-33-107 (3).

(7)(a) If the child or youth does not comply with the valid court order issued against the child or youth or against both the parent and the child or youth, the court may order that an assessment for neglect as described in section 19-3-102 (1) be conducted as provided in section 19-3-501. In addition, the court may order the child or youth to show cause why he or she should not be held in contempt of court. When instituting contempt of court proceedings pursuant to this subsection (7), the court shall provide all procedural protections mandated in rule 107 of the Colorado rules of civil procedure, or any successor rule, concerning punitive sanctions for contempt.

(a.5) A judge or magistrate of any court may issue a warrant that authorizes the taking into temporary custody of a child or youth who has failed to appear for a court hearing for a truancy or contempt action; except that any such warrant must provide for release of the child or youth from temporary custody on an unsecured personal recognizance bond that is cosigned by the child's or youth's parent or legal guardian or, if the child or youth is in the custody of the department of human services, cosigning may be accomplished by a representative of the department of human services. In the alternative, the warrant may direct that the child or youth must only be arrested while court is in session and that he or she be taken directly to court for an appearance rather than booked into secure confinement.

(b) The court may impose sanctions after a finding of contempt that may include, but need not be limited to, community service to be performed by the child or youth, supervised activities, participation in services for at-risk students, as described by section 22-33-204, and other activities having the goal of ensuring that the child or youth has an opportunity to obtain a quality education.

(c)(I) If the court finds that the child or youth has refused to comply with the plan created for the child or youth pursuant to section 22-33-107 (3), the court may impose on the child or youth, as a sanction for contempt of court, a sentence of detention for no more than forty-eight hours in a juvenile detention facility operated by or under contract with the department of human services pursuant to section 19-2-402 and any rules promulgated by the Colorado supreme court. The court shall not sentence a child or youth to detention as a sanction for contempt of court unless the court finds that detention is in the best interest of the child or youth as well as the public. In making such a finding, the court shall consider the following factors, including that:

(A) The child or youth has violated a valid court order;

(B) National and Colorado-specific evidence shows that detaining children and youth for truancy alone is counterproductive and harmful to children and youth;
(C) The legislative intent is that a child or youth who is truant must not be placed in secure confinement for truancy alone;

(D) Detention is likely to have a detrimental effect on the child's or youth's school attendance; and

(E) Detention is likely to have an effect on the child's or youth's future involvement with the criminal justice system.

(II) There is a rebuttable presumption that a child or youth must receive credit for time served if he or she is sentenced to detention pursuant to subsection (7)(c)(I) of this section for violating a valid court order to attend school. If the court rebuts this presumption, it shall explain its reasoning on the record.

(8) If the parent refuses or neglects to obey the order issued against the parent or against both the parent and the child, the court may order the parent to show cause why he or she should not be held in contempt of court, and, if the parent fails to show cause, the court may impose a fine of up to but not more than twenty-five dollars per day or confine the parent in the county jail until the order is complied with.

In-school suspension

LAWS

(1) Definitions. As used in this section, unless the context otherwise requires:

(a) "Action taken" means a specific type of discipline, including but not limited to the following categories of discipline:

(I) In-school suspension;

(2) Safe school plan. [...] The plan, at a minimum, shall include the following:

(a) Conduct and discipline code.

(II) In creating and enforcing a school conduct and discipline code pursuant to subparagraph (I) of this paragraph (a), each school district board of education, on and after August 1, 2013, shall:

(A) Impose proportionate disciplinary interventions and consequences, including but not limited to in-school suspensions, in response to student misconduct, which interventions and consequences are designed to reduce the number of expulsions, out-of-school suspensions, and referrals to law enforcement, except for such referrals to law enforcement as are required by state or federal law;

22-33-105. Suspension, expulsion, and denial of admission.

(4) The board of education of each district shall establish, as an alternative to suspension, a policy that allows the pupil to remain in school by encouraging the parent, guardian, or legal custodian, with the consent of the pupil's teacher or teachers, to attend class with the pupil for a period of time specified by the suspending authority. Return to school following removal

LAWS

22-33-105. Suspension, expulsion, and denial of admission.

(3)(b) Except as provided in paragraph (c) of this subsection (3), a suspended pupil shall:
   (II) Not be readmitted to a public school until a meeting between the parent, guardian, or legal
custodian and the suspending authority has taken place or until, in the discretion of the suspending
authority, the parent, guardian, or legal custodian of the suspended pupil has substantially agreed to
review the suspension with such suspending authority; except that, if the suspending authority cannot
contact the parent, guardian, or legal custodian of such pupil or if such parent, guardian, or legal
custodian repeatedly fails to appear for scheduled meetings, the suspending authority may readmit
the pupil. The meeting shall address whether there is a need to develop a remedial discipline plan for
the pupil in an effort to prevent further disciplinary action.

(d) The suspending authority shall:
   (III) Provide an opportunity for a pupil to make up school work during the period of suspension for full
or partial academic credit to the extent possible. The intent of this provision is to provide an
opportunity for the pupil to reintegrate into the educational program of the district and to help prevent
the pupil from dropping out of school because of an inability to reintegrate into the educational
program following the period of suspension. The school district should take this intent into
consideration when determining the amount of credit a student will receive for this makeup work.

(5)(b) No student who is being educated in an alternate education program or a home-based education
program pursuant to paragraph (a) of this subsection (5) shall be allowed to return to the education
program in the public school until there has been a disposition of the charge. If the student pleads guilty,
is found guilty, or is adjudicated a delinquent juvenile, the school district may proceed in accordance with
section 22-33-106 to expel the student. The time that a student spends in an alternate education program
pursuant to paragraph (a) of this subsection (5) shall not be considered a period of expulsion.

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(3) The following may constitute additional grounds for denial of admission to a public school:
   (a) Graduation from the twelfth grade of any school or receipt of any document evidencing completion
of the equivalent of a secondary curriculum;
   (b) Failure to meet the requirements of age, by a child who has reached the age of six at a time after
the beginning of the school year, as fixed by the board of education of the district in which the child
applies for enrollment, as provided in section 22-1-115;
   (c) Having been expelled from any school district during the preceding twelve months;
   (d) Not being a resident of the district, unless otherwise entitled to attend under the provisions of article
23, 32, or 36 of this title;
   (e) Failure to comply with the provisions of part 9 of article 4 of title 25, C.R.S. Any suspension,
expulsion, or denial of admission for such failure to comply shall not be recorded as a disciplinary action
but may be recorded with the student's immunization record with an appropriate explanation.
   (f) Behavior in another school district during the preceding twelve months that is detrimental to the
welfare or safety of other pupils or of school personnel.

(4)(a) Except as provided in paragraph (b) of this subsection (4), a school district shall prohibit any
student who is expelled from a public school of the school district pursuant to paragraph (c) or (d) of
subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in
the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed. If the school district has no actual knowledge of the name of the victim of the offense for which the student was expelled, the provisions of this subsection (4) shall be implemented only upon request of the victim or a member of the victim's immediate family.

(b) In any school district that has only one school in which the expelled student can enroll, the school district shall either:

(I) Prohibit the student expelled from the school district pursuant to paragraph (c) or (d) of subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed; or

(II) Design a schedule for the expelled student that, to the extent possible, avoids contact between the expelled student and the victim or a member of the victim's immediate family.

To the extent practicable, the process must reflect the complaint process for filing a state complaint under the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended.

(c) During physical restraint of an individual, an agent or employee of the agency shall check to ensure that the breathing of the individual in such physical restraint is not compromised;

(d) A chemical restraint shall be given only on the order of a physician or an advanced practice nurse with prescriptive authority who has determined, either while present during the course of the emergency justifying the use of the chemical restraint or after telephone consultation with a registered nurse, licensed physician assistant, or other authorized staff person who is present at the time and site of the emergency and who has participated in the evaluation of the individual, that such form of restraint is the least restrictive, most appropriate alternative available. Nothing in this subsection (1) shall modify the requirements of section 26-20-102 (2) or 26-20-103 (3).

(e) An order for a chemical restraint, along with the reasons for its issuance, shall be recorded in writing at the time of its issuance;

as to the effect of the chemical restraint and the individual's response to the chemical restraint.

(2) For individuals in mechanical restraints, agency staff shall provide relief periods, except when the
individual is sleeping, of at least ten minutes as often as every two hours, so long as relief from the
mechanical restraint is determined to be safe. During such relief periods, the staff shall ensure proper
positioning of the individual and provide movement of limbs, as necessary. In addition, during such relief
periods, staff shall provide assistance for use of appropriate toileting methods, as necessary. The
individual's dignity and safety shall be maintained during relief periods. Staff shall note in the record of the
individual being restrained the relief periods granted.

(3) Relief periods from seclusion shall be provided for reasonable access to toilet facilities.

(4) An individual in physical restraint shall be released from such restraint within fifteen minutes after the
initiation of physical restraint, except when precluded for safety reasons.

       member shall notify the facility director or his or her designee of the seclusion and receive his or her
       written approval of the seclusion; and

   (c) Within twelve hours after the beginning of the youth's seclusion period, the division of youth services
       shall notify the youth's parent, guardian, or legal custodian and inform that person that the youth is or
       was in seclusion and the reason for his or her seclusion.

(2)(a) A youth placed in seclusion because of an ongoing emergency must not be held in seclusion
beyond four consecutive hours, unless the requirements of paragraph (b) of this subsection (2) are
satisfied.

   (b) If an emergency situation occurs that continues beyond four consecutive hours, the division of youth
       services may not continue the use of seclusion for that youth unless the following criteria are met and
documented:

      (I) A qualified mental health professional, or, if such professional is not available, the facility director
          or his or her designee, determines that referral of the youth in seclusion to a mental health facility is
          not warranted; and

      (II) The director of the division of youth services, or his or her designee, approves at or before the
          conclusion of four hours, and every hour thereafter, the continued use of seclusion.

   (c) A youth may not be held in seclusion under any circumstances for more than eight total hours in two
       consecutive calendar days without a written court order.

(3) Notwithstanding any other provision of this section, the division of youth services may place a youth
alone in a room or area from which egress is involuntarily prevented if such confinement is part of a
routine practice that is applicable to substantial portions of the population. Such confinement must be
imposed only for the completion of administrative tasks and should last no longer than necessary to
achieve the task safely and effectively.

(2) The division of youth services shall maintain the following documentation each time a youth is placed in seclusion as a result of an emergency in any secure state-operated or state-owned facility:

(a) The date of the occurrence;

(b) The race, age, and gender of the individual;

(d) A description of de-escalation measures taken by staff and the response, if any, of the youth in seclusion to those measures;

(3) The division of youth services shall maintain the following documentation each time one or more youths are placed in confinement for administrative reasons pursuant to section 26-20-104.5(3) in a secure state-operated or state-owned facility:

(a) The number of youth confined;

A school district may provide educational services directly using one or more of its employees or may ensure that educational services are provided through a board of cooperative services, an administrative unit, or otherwise through contract with a person or entity.

(b) In addition to meeting the requirements specified in this section, for each juvenile in a jail or facility who is a student with disabilities, the school district shall comply with any applicable provisions of the federal IDEA act.

(c) A school district is not required to provide educational services pursuant to this section to a juvenile if the juvenile has already graduated from high school or if the juvenile received a general education development certificate, unless otherwise required by the federal IDEA act.

(d) A school district is not required to provide educational services pursuant to this section to a juvenile for more than four hours per week or during periods of the school year when students enrolled in the school district are not required to attend school, except as may otherwise be required by the federal IDEA act.

(e) If a school district or the official in charge of the jail or facility determines as provided in section 19-2-508 (4)(c)(II) that an appropriate and safe environment for school district employees or contractors is not available in which to provide educational services to a specific juvenile, the school district is exempt from the requirement of providing educational services to the juvenile until such time as both the school district and the official in charge of the jail or facility determine that an appropriate and safe environment for school district employees or contractors is available. If the school district will not be providing educational services to a juvenile because of the lack of an appropriate and safe environment for school district employees or contractors, the official in charge of the jail or facility shall notify the juvenile, his or her parent or legal guardian, the juvenile's defense attorney, and the court having jurisdiction over the juvenile's case.

(f) If a juvenile is violent toward or physically injures the school district employee or contractor who is providing educational services to the juvenile pursuant to this section, the school district shall not require the employee or contractor to continue providing educational services to the juvenile, and the school district may choose to cease providing educational services to the juvenile, unless otherwise required by the federal IDEA act. Upon receipt of such information, the board of education of the school district or its designee shall determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or of school personnel in the school and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The determination may be made in executive session to the extent allowed by section 24-6-402 (4)(h), C.R.S. If the board of education or its designee, in accordance with the provisions of this subsection (5), makes a determination that the student should not be educated in the school, it may proceed with suspension or expulsion in accordance with subsection (2) of this section and section 22-33-106. Alternatively, the board of education or its designee may determine that it will wait until the conclusion of the juvenile proceedings to consider the expulsion matter, in which case it shall be the responsibility of the district to provide the student with an appropriate alternate education program, including but not limited to an on-line program or on-line school authorized pursuant to article 30.7 of this title, or a home-based education program during the period pending the resolution of the juvenile proceedings. Information made available to the school district and not otherwise available to the public pursuant to the provisions of section 19-1-304, C.R.S., shall remain confidential.

(b) No student who is being educated in an alternate education program or a home-based education program pursuant to paragraph (a) of this subsection (5) shall be allowed to return to the education program in the public school until there has been a disposition of the charge. If the student pleads guilty, is found guilty, or is adjudicated a delinquent juvenile, the school district may proceed in accordance with section 22-33-106 to expel the student. 22-33-203. Educational alternatives for expelled students.

(1) Upon expelling a student, the school district shall provide information to the student's parent or guardian concerning the educational alternatives available to the student during the period of expulsion. If the parent or guardian chooses to provide a home-based educational program for the student, the school district shall assist the parent in obtaining appropriate curricula for the student if requested by the parent or guardian.

(2)(a) Except as otherwise provided in paragraph (b) of this subsection (2), upon request of a student or the student's parent or guardian, the school district shall provide, for any student who is expelled from the school district, any educational services that are deemed appropriate for the student by the school district. The educational services provided must be designed to enable the student to return to the school in which he or she was enrolled prior to expulsion, to successfully complete the high school equivalency examination, or to enroll in a nonpublic, nonparochial school or in an alternative school, including but not limited to a charter school or a pilot school established pursuant to article 38 of this title. The expelling
school district shall determine the amount of credit the student must receive toward graduation for the educational services provided pursuant to this section.

While receiving educational services, a student may be suspended or expelled pursuant to the conduct and discipline code of the school district providing the educational services and the provisions of part 1 of this article. Except as required by federal law, the expelling school district is not required to provide educational services to any student who is suspended or expelled while receiving educational services pursuant to this section until the period of the suspension or expulsion is completed.

(c)(I) Educational services provided pursuant to this section shall be provided by the expelling school district; except that the expelling school district may provide educational services either directly or in cooperation with one or more other school districts, boards of cooperative services, charter schools, nonpublic, nonparochial schools, or pilot schools established pursuant to article 38 of this title under contract with the expelling school district. Any program of educational services provided by a nonpublic, nonparochial school shall be subject to approval by the state board of education pursuant to section 22-2-107.

(II) Educational services may be provided by the school district through agreements entered into pursuant to section 22-33-204. The expelling school district need not provide the educational services on school district property. Any expelled student receiving educational services shall be included in the expelling school district’s pupil enrollment as defined in section 22-54-103 (10).

(d) If an expelled student is receiving educational services delivered by a school district other than the expelling school district, by a charter school in a school district other than the expelling school district, by a board of cooperative services, by a nonpublic, nonparochial school, or by a pilot school pursuant to an agreement entered into pursuant to subparagraph (I) of paragraph (c) of this subsection (2), the expelling school district shall transfer ninety-five percent of the district per pupil revenues, as defined in section 22-30.5-112 (2)(a.5)(II) to the school district, charter school, nonpublic, nonparochial school, board of cooperative services, or pilot school that is providing educational services, reduced in proportion to the amount of time remaining in the school year at the time the student begins receiving educational services.

(e) Any school district, charter school, nonpublic, nonparochial school, board of cooperative services, or pilot school that is providing educational services to expelled students pursuant to this subsection (2) may apply for moneys through the expelled student services grant program established in section 22-33-205 to assist in providing educational services.

(3) If a student is expelled and the student is not receiving educational services pursuant to this section, the school district shall contact the expelled student's parent or guardian at least once every sixty days until the beginning of the next school year to determine whether the student is receiving educational services from some other source; except that the school district need not contact a student's parent or guardian after the student is enrolled in another school district or in an independent or parochial school or if the student is committed to the department of human services or is sentenced pursuant to article 2 of title 19, C.R.S.

(4) In addition to the educational services required under this section, a student who is at risk of suspension or expulsion or has been suspended or expelled, or the student's parent or guardian, may request any of the services provided by the school district through an agreement entered into pursuant to section 22-33-204, and the school district may provide such services.

(II) For purposes of this paragraph (c.5), "habitually disruptive student" means a child who has caused a material and substantial disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event three or more times during the course of a school year. Any student who is enrolled in a public school may be subject to being declared a habitually disruptive student.

(III) The student and the parent, legal guardian, or legal custodian shall have been notified in writing of each disruption counted toward declaring the student as habitually disruptive pursuant to this paragraph (c.5), and the student and parent, legal guardian, or legal custodian shall have been notified in writing and by telephone or other means at the home or the place of employment of the parent or legal guardian of the definition of "habitually disruptive student".

group of public agencies that collaborate with the school district to identify and provide support services for students.

(b) The board of education of each school district shall adopt and implement policies and procedures concerning elementary and secondary school attendance, including but not limited to policies and procedures to work with children who are habitually truant. The policies and procedures must include provisions for the development of a plan. The plan must be developed with the goal of assisting the child to remain in school and, when practicable, with the full participation of the child's parent, guardian, or legal custodian. Appropriate school personnel shall make all reasonable efforts to meet with the parent, guardian, or legal custodian of the child to review and evaluate the reasons for the child's truancy. The appropriate school personnel are encouraged to work with the local community services group to develop the plan. The plan must be in compliance with section 22-33-108 (7) and include appropriate sanctions other than placement in a juvenile detention facility for a child who is habitually truant and who has refused to comply with the plan.

(1) Those courts having jurisdiction over juvenile matters in a judicial district shall have original jurisdiction over all matters arising out of the provisions of this article.

(1.5)(a) All proceedings brought under this article shall be commenced in the judicial district in which the child resides or is present.

(b) When proceedings commence under this article in a judicial district other than that of the child's residence or when the child changes his or her judicial district of residence after a proceeding under this article commences, the court in which proceedings commenced may, on its own motion or on the motion of any interested party, transfer the case to the court in the judicial district where the child resides.

(c) When a court transfers venue pursuant to paragraph (b) of this subsection (1.5), the court shall transmit all documents and reports, or certified copies thereof, to the receiving court, which court shall proceed with the case as if the petition had been originally filed in that court.

(2) If a child or his parent desires court review of an order of the board of education issued pursuant to this article, he shall notify the board in writing within five days after receiving official notification of the board's action. The board of education shall thereupon issue, or cause to be issued, to the child or his parent a statement of the reasons for the board's action. Within ten days thereafter the child or his parents may file with the court a petition requesting that the order of the board of education be set aside, to which shall be appended the statement of the board of education. No docket or other fees shall be collected by the court in connection with this proceeding.

(3) After the petition is filed, the court shall notify the board and shall hold a hearing on the matter. The court shall conduct judicial review of a hearing decision pursuant to rule 106 (a)(4) of the Colorado rules of civil procedure and rule 3.8 of the Colorado rules of juvenile procedure.

(4) It is the duty of the attorney for the school district, an employee authorized by the local board of education pursuant to section 13-1-127 (7), C.R.S., to represent the school district in truancy proceedings, the attendance officer designated by the local board of education, or the local board of education to initiate, when appropriate, proceedings for the enforcement of the compulsory attendance provisions of this article upon request by the attendance officer of the district or of the state.

(5)(a) It is the intent of the general assembly that, in enforcing the compulsory school attendance requirements of this article, a school district shall employ best practices and research-based strategies to minimize the need for court action and the risk that a court will issue detention orders against a child or parent.
(b) A school district shall initiate court proceedings to compel a child and the child's parent to comply with the attendance requirements specified in this article but only as a last-resort approach to address the child's truancy and only if a child continues to be habitually truant after school or school district personnel have created and implemented a plan pursuant to section 22-33-107 (3) to improve the child's school attendance.

(c) Before initiating court proceedings to compel compliance with the attendance requirements specified in this article, the school district shall give the child and the child's parent written notice that the school district will initiate proceedings if the child does not comply with the attendance requirements of this article. The school district may combine the notice and summons. If combined, the petition must state the date on which the school district will initiate proceedings, which date must not be less than five days after the date of the notice and summons. The notice must state the provisions of this article with which compliance is required and must state that the school district will not initiate proceedings if the child complies with the identified provisions before the proceedings are filed.

(d) If a school district initiates court proceedings pursuant to this subsection (5), the school district, at a minimum, must submit to the court evidence of:

(I) The child's attendance record prior to and after the point at which the child was identified as habitually truant;

(II) Whether the child was identified as chronically absent and, if so, the strategies the school district used to improve the child's attendance;

(III) The interventions and strategies used to improve the child's attendance before school or school district personnel created the child's plan described in section 22-33-107 (3); and

(IV) The child's plan and the efforts of the child, the child's parent, and school or school district personnel to implement the plan.

(6) The court before which a proceeding to compel attendance is brought may issue, in its discretion, an order against the child or the child's parent or both compelling the child to attend school as provided by this article or compelling the parent to take reasonable steps to assure the child's attendance. The order must require the child and parent to cooperate with the school district in complying with the plan created for the child pursuant to section 22-33-107 (3).

(7)(a) If the child or youth does not comply with the valid court order issued against the child or youth or against both the parent and the child or youth, the court may order that an assessment for neglect as described in section 19-3-102 (1) be conducted as provided in section 19-3-501. In addition, the court may order the child or youth to show cause why he or she should not be held in contempt of court. When instituting contempt of court proceedings pursuant to this subsection (7), the court shall provide all procedural protections mandated in rule 107 of the Colorado rules of civil procedure, or any successor rule, concerning punitive sanctions for contempt.

(a.5) A judge or magistrate of any court may issue a warrant that authorizes the taking into temporary custody of a child or youth who has failed to appear for a court hearing for a truancy or contempt action; except that any such warrant must provide for release of the child or youth from temporary custody on an unsecured personal recognizance bond that is cosigned by the child's or youth's parent or legal guardian or, if the child or youth is in the custody of the department of human services, cosigning may be accomplished by a representative of the department of human services. In the alternative, the warrant may direct that the child or youth must only be arrested while court is in session and that he or she be taken directly to court for an appearance rather than booked into secure confinement.

(b) The court may impose sanctions after a finding of contempt that may include, but need not be limited to, community service to be performed by the child or youth, supervised activities, participation in
services for at-risk students, as described by section 22-33-204, and other activities having the goal of ensuring that the child or youth has an opportunity to obtain a quality education.

(c)(I) If the court finds that the child or youth has refused to comply with the plan created for the child or youth pursuant to section 22-33-107 (3), the court may impose on the child or youth, as a sanction for contempt of court, a sentence of detention for no more than forty-eight hours in a juvenile detention facility operated by or under contract with the department of human services pursuant to section 19-2-402 and any rules promulgated by the Colorado supreme court. The court shall not sentence a child or youth to detention as a sanction for contempt of court unless the court finds that detention is in the best interest of the child or youth as well as the public. In making such a finding, the court shall consider the following factors, including that:

(A) The child or youth has violated a valid court order;
(B) National and Colorado-specific evidence shows that detaining children and youth for truancy alone is counterproductive and harmful to children and youth;
(C) The legislative intent is that a child or youth who is truant must not be placed in secure confinement for truancy alone;
(D) Detention is likely to have a detrimental effect on the child's or youth's school attendance; and
(E) Detention is likely to have an effect on the child's or youth's future involvement with the criminal justice system.

(II) There is a rebuttable presumption that a child or youth must receive credit for time served if he or she is sentenced to detention pursuant to subsection (7)(c)(I) of this section for violating a valid court order to attend school. If the court rebuts this presumption, it shall explain its reasoning on the record.

(8) If the parent refuses or neglects to obey the order issued against the parent or against both the parent and the child, the court may order the parent to show cause why he or she should not be held in contempt of court, and, if the parent fails to show cause, the court may impose a fine of up to but not more than twenty-five dollars per day or confine the parent in the county jail until the order is complied with.

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school district to identify a student for participation in an expulsion-prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from
proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion proceeding.

Attendance and truancy

LAWS

13-5-145. Truancy detention reduction policy - legislative declaration.

(1) The general assembly finds that:
(a) Imposing a sentence of detention on a juvenile who violates a court order to attend school does not improve the likelihood that the juvenile will attend school and does not address the underlying causes of the juvenile’s truancy;
(b) The best methods to address truancy and its underlying causes and the resources needed to implement those methods are different in each community;
(c) Since 2014, the juvenile courts in many judicial districts around the state have successfully reduced the use of detention for juveniles who are truant by implementing pilot projects through which the juvenile court imposes reasonable sanctions and, where possible, provides incentives to attend school, reserving detention as a sanction of last resort; and
(d) These pilot projects need additional time to produce meaningful data regarding the effectiveness of the alternate sanctions and incentives and to determine whether they result in improved outcomes for juveniles and their families.

(2) The chief judge in each judicial district, or his or her designee, shall convene a meeting of community stakeholders to create a policy for addressing truancy cases that seeks alternatives to the use of detention as a sanction for truancy. Community stakeholders may include, but need not be limited to:
(a) Parents;
(b) Representatives from school districts;
(c) Representatives from county departments of human or social services;
(d) Guardians ad litem;
(e) Court-appointed special advocates;
(f) Juvenile court judges;
(g) Respondent counsel;
(h) Representatives from law enforcement agencies;
(i) Mental health care providers;
(j) Substance use disorder treatment providers;
(k) Representatives from the division of criminal justice in the department of public safety;
(l) Representatives from the state department of human services; and
(m) Representatives from the department of education.

(3) The chief judge in each judicial district shall adopt a policy for addressing truancy cases no later than March 15, 2016. In developing the policy for addressing truancy cases, the chief judge and the community stakeholders shall consider, at a minimum:
(a) Best practices for addressing truancy that are used in other judicial districts and in other states;
(b) Evidence-based practices to address and reduce truancy;
(c) Using a wide array of reasonable sanctions and reasonable incentives to address and reduce truancy;
(d) Using detention only as a last resort after exhausting all other reasonable sanctions and, when imposing detention, appropriately reducing the number of days served; and
(e) Research regarding the effect of detention on juveniles.

(4) The state court administrator’s office shall report to the judiciary committees of the house of representatives and the senate, or any successor committees, no later than April 15, 2016, regarding the policy for addressing truancy cases adopted by each judicial district.

22-33-104. Compulsory school attendance.

(1)(a) Except as otherwise provided in subsection (2) of this section, every child who has attained the age of six years on or before August 1 of each year and is under the age of seventeen years, except as provided by this section, shall attend public school for at least the following number of hours during each school year:

(I) One thousand fifty-six hours if a secondary school pupil;
(II) Nine hundred sixty-eight hours if an elementary school pupil in a grade other than kindergarten;
(III) Nine hundred hours if a full-day kindergarten pupil; or
(IV) Four hundred fifty hours if a half-day kindergarten pupil.

(4)(a) The board of education shall adopt a written policy setting forth the district’s attendance requirements. Said policy shall provide for excused absences, including those listed as exclusions from compulsory school attendance in accordance with subsection (2) of this section. An attendance policy developed pursuant to this section may include appropriate penalties for nonattendance due to unexcused absence.

(b) The attendance policy adopted pursuant to this subsection (4) shall specify the maximum number of unexcused absences a child may incur before the attorney for the school district, the attendance officer, or the local board of education may initiate judicial proceedings pursuant to section 22-33-108. Calculation of the number of unexcused absences a child has incurred includes all unexcused absences occurring during any calendar year or during any school year.

(b.5) Each board of education is encouraged to establish attendance procedures for identifying students who are chronically absent and to implement best practices and research-based strategies to improve the attendance of students who are chronically absent.

(c) On or before January 1, 2009, the state board shall adopt rules establishing a standardized calculation for counting unexcused absences of students, including the circumstance in which a student is absent for part of a school day, and the format for reporting the information to the department pursuant to section 22-33-107.

(1) The board of education of each school district shall designate one or more of the employees of the district to act as attendance officer for the district. It is the attendance officer's duty in appropriate cases to counsel with students and parents and investigate the causes of nonattendance and report to the local board of education so as to enforce the provisions of this article which relate to compulsory attendance.

(2) The commissioner of education shall designate an employee of the department of education whose duty it is to assist the individual school districts and to supervise the enforcement of compulsory school attendance for the entire state.
(3)(a) As used in this subsection (3):

(I) Repealed.

(II) "Local community services group" means the local juvenile services planning committee created pursuant to section 19-2-211, C.R.S., the local collaborative management group created by a memorandum of understanding entered into pursuant to section 24-1.9-102, C.R.S., or another local group of public agencies that collaborate with the school district to identify and provide support services for students.

(b) The board of education of each school district shall adopt and implement policies and procedures concerning elementary and secondary school attendance, including but not limited to policies and procedures to work with children who are habitually truant. The policies and procedures must include provisions for the development of a plan. The plan must be developed with the goal of assisting the child to remain in school and, when practicable, with the full participation of the child's parent, guardian, or legal custodian. Appropriate school personnel shall make all reasonable efforts to meet with the parent, guardian, or legal custodian of the child to review and evaluate the reasons for the child's truancy. The appropriate school personnel are encouraged to work with the local community services group to develop the plan. The plan must be in compliance with section 22-33-108 (7) and include appropriate sanctions other than placement in a juvenile detention facility for a child who is habitually truant and who has refused to comply with the plan. The policies and procedures may also include but need not be limited to the following:

(I)(Deleted by amendment, L. 96, p. 1808, § 4, effective July 1, 1996.)

(I.5) Procedures to monitor the attendance of each child enrolled in the school district to identify each child who has a significant number of unexcused absences and to work with the local community services group and the child's parent to identify and address the likely issues underlying the child's truancy, including any nonacademic issues;

(II) Annually at the beginning of the school year and upon any enrollment during the school year, notifying the parent of each child enrolled in the public schools in writing of such parent's obligations pursuant to section 22-33-104 (5) and requesting that the parent acknowledge in writing awareness of such obligations;

(III) Annually at the beginning of the school year and upon any enrollment during the school year, obtaining from the parent of each child a telephone number or other means of contacting such parent during the school day; and

(IV) Establishing a system of monitoring individual unexcused absences of children which shall provide that, whenever a child who is enrolled in a public school fails to report to school on a regularly scheduled school day and school personnel have received no indication that the child's parent is aware of the child's absence, school personnel or volunteers under the direction of school personnel shall make a reasonable effort to notify by telephone such parent. Any person who, in good faith, gives or fails to give notice pursuant to this subparagraph (IV) shall be immune from any liability, civil or criminal, which might otherwise be incurred or imposed and shall have the same immunity with respect to any judicial proceeding which results from such notice or failure to give such notice.

(4) It is the duty of the attorney for the school district, an employee authorized by the local board of education pursuant to section 13-1-127 (7), C.R.S., to represent the school district in truancy proceedings, the attendance officer designated by the local board of education, or the local board of education to initiate, when appropriate, proceedings for the enforcement of the compulsory attendance provisions of this article upon request by the attendance officer of the district or of the state.
(5)(a) It is the intent of the general assembly that, in enforcing the compulsory school attendance requirements of this article, a school district shall employ best practices and research-based strategies to minimize the need for court action and the risk that a court will issue detention orders against a child or parent.

(b) A school district shall initiate court proceedings to compel a child and the child's parent to comply with the attendance requirements specified in this article but only as a last-resort approach to address the child's truancy and only if a child continues to be habitually truant after school or school district personnel have created and implemented a plan pursuant to section 22-33-107 (3) to improve the child's school attendance.

(c) Before initiating court proceedings to compel compliance with the attendance requirements specified in this article, the school district shall give the child and the child's parent written notice that the school district will initiate proceedings if the child does not comply with the attendance requirements of this article. The school district may combine the notice and summons. If combined, the petition must state the date on which the school district will initiate proceedings, which date must not be less than five days after the date of the notice and summons. The notice must state the provisions of this article with which compliance is required and must state that the school district will not initiate proceedings if the child complies with the identified provisions before the proceedings are filed.

(d) If a school district initiates court proceedings pursuant to this subsection (5), the school district, at a minimum, must submit to the court evidence of:

(I) The child's attendance record prior to and after the point at which the child was identified as habitually truant;

(II) Whether the child was identified as chronically absent and, if so, the strategies the school district used to improve the child's attendance;

(III) The interventions and strategies used to improve the child's attendance before school or school district personnel created the child's plan described in section 22-33-107 (3); and

(IV) The child's plan and the efforts of the child, the child's parent, and school or school district personnel to implement the plan.

(6) The court before which a proceeding to compel attendance is brought may issue, in its discretion, an order against the child or the child's parent or both compelling the child to attend school as provided by this article or compelling the parent to take reasonable steps to assure the child's attendance. The order must require the child and parent to cooperate with the school district in complying with the plan created for the child pursuant to section 22-33-107 (3).

(7)(a) If the child or youth does not comply with the valid court order issued against the child or youth or against both the parent and the child or youth, the court may order that an assessment for neglect as described in section 19-3-102 (1) be conducted as provided in section 19-3-501. In addition, the court may order the child or youth to show cause why he or she should not be held in contempt of court. When instituting contempt of court proceedings pursuant to this subsection (7), the court shall provide all procedural protections mandated in rule 107 of the Colorado rules of civil procedure, or any successor rule, concerning punitive sanctions for contempt.

(a.5) A judge or magistrate of any court may issue a warrant that authorizes the taking into temporary custody of a child or youth who has failed to appear for a court hearing for a truancy or contempt action; except that any such warrant must provide for release of the child or youth from temporary custody on an unsecured personal recognizance bond that is cosigned by the child's or youth's parent or legal guardian or, if the child or youth is in the custody of the department of human services, cosigning may be accomplished by a representative of the department of human services. In the alternative, the
warrant may direct that the child or youth must only be arrested while court is in session and that he or she be taken directly to court for an appearance rather than booked into secure confinement.

(b) The court may impose sanctions after a finding of contempt that may include, but need not be limited to, community service to be performed by the child or youth, supervised activities, participation in services for at-risk students, as described by section 22-33-204, and other activities having the goal of ensuring that the child or youth has an opportunity to obtain a quality education.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school district to identify a student for participation in an expulsion-prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion proceeding.

Substance use

LAWS

22-12-104. Liability.

(2) An educational entity and its employees are immune from suit for making a report consistent with federal law to the appropriate law enforcement authorities or officials of an educational entity if the individual making the report has reasonable grounds to suspect that a student is:

(a) Under the influence of alcoholic beverages or of a controlled substance not lawfully prescribed to the student;
(b) In possession of a firearm or alcoholic beverages or of a controlled substance not lawfully prescribed to the student;

school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:

(G) Written prohibition, consistent with section 22-33-106, of students from bringing or possessing dangerous weapons, drugs, or other controlled substances on school grounds, in a school vehicle, or at a school activity or sanctioned event and from using drugs or other controlled substances on school grounds, in a school vehicle, or at a school activity or sanctioned event;

(H) Written prohibition of students from using or possessing tobacco products on school grounds, in a school vehicle, or at a school activity or sanctioned event;

A policy whereby the principal of each public school in a school district is required to submit annually, in a manner and by a date specified by rule of the state board, a written report to the board of education of the school district concerning the learning environment in the school during that school year. The board of education of the school district shall annually compile the reports from every school in the district and submit the compiled report to the department of education in a format specified by rule of the state board. The compiled report must be easily accessible by the general public through a link on the department of education’s web site homepage. The report must include, but need not be limited to, the following specific information for the preceding school year:

(IV) The number of conduct and discipline code violations. Each violation must be reported only in the most serious category that is applicable to that violation, including but not limited to specific information identifying the number of, and the action taken with respect to, each of the following types of violations:

(B) Use or possession of alcohol on school grounds, in a school vehicle, or at a school activity or sanctioned event;

(C) Use, possession, or sale of a drug or controlled substance, other than marijuana, on school grounds, in a school vehicle, or at a school activity or sanctioned event;

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(1) The following may be grounds for suspension or expulsion of a child from a public school during a school year:

(d) Committing one of the following offenses on school grounds, in a school vehicle, or at a school activity or sanctioned event:

(I) Possession of a dangerous weapon without the authorization of the school or the school district;

(II) The use, possession, or sale of a drug or controlled substance as defined in section 18-18-102 (5), C.R.S.; or

22-33-106.1. Suspension - expulsion - preschool through second grade - definitions.

(1) As used in this section, unless the context otherwise requires:

(a) "Charter school" means a charter school that is authorized by a school district board of education pursuant to part 1 of article 30.5 of this title 22 or an institute charter school that is authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(b) "Enrolling entity" means:
(I) A community-based preschool program that includes students who are funded through the
"Colorado Preschool Program Act", article 28 of this title 22, or students who are funded with state or
federal money to educate children with disabilities;

(II) A school district; or

(III) A charter school.

(2) Notwithstanding any provision of this article 33 to the contrary, an enrolling entity may impose an out-
of-school suspension or expel a student enrolled in preschool, kindergarten, first grade, or second grade
only if:

(a) The enrolling entity determines that the student has engaged in conduct on school grounds, in a
school vehicle, or at a school activity or sanctioned event that:

(I) Involves the possession of a dangerous weapon without the authorization of the public school or
enrolling entity, if different;

(II) Involves the use, possession, or sale of a drug or controlled substance, as defined in section 18-
18-102 (5); or

(III) Endangers the health or safety of others;

(b) The enrolling entity determines that failure to remove the student from the school building would
create a safety threat that cannot otherwise be addressed; and

(c) The enrolling entity, on a case-by-case basis, considers each of the factors set forth in section 22-
33-106 (1.2) before suspending or expelling the student. The enrolling entity shall document any
alternative behavioral and disciplinary interventions that it employs before suspending or expelling the
student.

(3) If an enrolling entity imposes an out-of-school suspension on a student who meets the criteria
specified in subsection (2) of this section, the out-of-school suspension shall not exceed three school
days unless the executive officer or chief administrative officer of the enrolling entity, or designee of
either, determines that a longer period of suspension is necessary to resolve the safety threat or
recommends that the student be expelled in accordance with section 22-33-105 (2)(c).

(4) This section does not prevent an enrolling entity from excluding, removing, or disenrolling a student for
reasons unrelated to student discipline.

(5) For purposes of this section, if an enrolling entity requests that a parent remove a child for disciplinary
reasons from the school grounds for any length of time during a school day, the request constitutes a
suspension and is subject to the requirements of this section.

(6) The state board shall annually review the data concerning the number of students who are suspended
or expelled pursuant to this section and, if available, the reasons for the suspensions and expulsions.

25-1.5-106. Medical marijuana program - powers and duties of state health agency - rules - medical
review board - medical marijuana program cash fund - subaccount - created - repeal.

(12) Use of medical marijuana. (a) The use of medical marijuana is allowed under state law to the extent

this section, and the rules of the state health agency.

(b) A patient or primary caregiver shall not:

(II) Engage in the medical use of marijuana in plain view of or in a place open to the general public;

(III) Undertake any task while under the influence of medical marijuana, when doing so would
constitute negligence or professional malpractice;
(IV) Possess medical marijuana or otherwise engage in the use of medical marijuana in or on the grounds of a school, in a school bus, or at a school-sponsored event except when the possession or use occurs pursuant to section 22-1-119.3, C.R.S.;

25-14-103.5. Prohibition against the use of tobacco products and retail marijuana on school property - legislative declaration - education program - special account - definitions

(1) The general assembly finds that many of the schools in this state permit the use of tobacco products in and around school property. The general assembly further finds that secondhand smoke generated by such activity and the negative example set and frequently imitated by our school children are detrimental to the health and well-being of such children as well as to school teachers, staff, and visitors. Accordingly, the general assembly finds and declares that it is appropriate to create a safe and healthy school environment by prohibiting the use of tobacco products on all school property.

(2) As used in this section, unless the context otherwise requires:

(a) "School" means a public nursery school, day care center, child care facility, head start program, kindergarten, or elementary or secondary school through grade twelve.

(b) "School property" means all property, whether owned, leased, rented, or otherwise used by a school, including, but not limited to, the following:

(I) All interior portions of any building used for instruction, administration, support services, maintenance, and storage and any other structure used by a school; except that such term shall not apply to a building primarily used as a residence;

(II) All school grounds surrounding any building specified in subparagraph (I) of this paragraph (b) over which the school is authorized to exercise dominion and control. Such grounds shall include any playground, athletic field, recreation area, and parking area; and

(III) All vehicles used by the school for the purpose of transporting students, workers, visitors, or any other persons.

(c) "Tobacco product" shall have the same meaning as set forth in section 18-13-121 (5), C.R.S.

(d) "Use" means the lighting, chewing, smoking, ingestion, or application of any tobacco product.

(3)(a)(I) [Editor's note: This version of subsection (3)(a)(I) is effective until January 1, 2020.] The board of education of each school district shall adopt appropriate policies and rules that mandate a prohibition against the use of all tobacco products and all retail marijuana or retail marijuana products authorized pursuant to article 12 of title 44 on all school property by students, teachers, staff, and visitors and that provide for the enforcement of such policies and rules.

(3)(a)(I) [Editor's note: This version of subsection (3)(a)(I) is effective January 1, 2020.] The board of education of each school district shall adopt appropriate policies and rules that mandate a prohibition against the use of all tobacco products and all retail marijuana or retail marijuana products authorized pursuant to article 10 of title 44 on all school property by students, teachers, staff, and visitors and that provide for the enforcement of such policies and rules.

(II) Repealed.

(b) Signs regarding such prohibition and the consequences of violation shall be displayed prominently on all school property to ensure compliance no later than September 1, 1994.

(4) This section shall not be applicable to the use of a tobacco product in a limited classroom demonstration to show the health hazards of tobacco.

(5) The board of education of each school district is authorized to seek and accept gifts, donations, or grants of any kind from any private or charitable source or from any governmental agency to meet expenses required by this section. Such gifts, donations, and grants shall be accounted for separately,
and, to the extent that such moneys are available, the board of education of each school district may maintain and operate an educational program designed to assist students, faculty, and staff to avoid and discontinue the use of tobacco products. Such program shall be offered at each school under the board's direction and control.

(6) This section shall not prohibit any school from enacting more stringent policies or rules than required by this section.

Bullying, harassment, or hazing

LAWS

(1)(a) The general assembly finds that, while some forms of initiation constitute acceptable behavior, hazing sometimes degenerates into a dangerous form of intimidation and degradation. The general assembly also recognizes that although certain criminal statutes cover the more egregious hazing activities, other activities that may not be covered by existing criminal statutes may threaten the health of students or, if not stopped early enough, may escalate into serious injury.

(b) In enacting this section, it is not the intent of the general assembly to change the penalty for any activity that is covered by any other criminal statute. It is rather the intent of the general assembly to define hazing activities not covered by any other criminal statute.

(2) As used in this section, unless the context otherwise requires:

(a) “Hazing” means any activity by which a person recklessly endangers the health or safety of or causes a risk of bodily injury to an individual for purposes of initiation or admission into or affiliation with any student organization; except that “hazing” does not include customary athletic events or other similar contests or competitions, or authorized training activities conducted by members of the armed forces of the state of Colorado or the United States.

(b) “Hazing” includes but is not limited to:

(I) Forced and prolonged physical activity;

(II) Forced consumption of any food, beverage, medication or controlled substance, whether or not prescribed, in excess of the usual amounts for human consumption or forced consumption of any substance not generally intended for human consumption;

(III) Prolonged deprivation of sleep, food, or drink.

(3) It shall be unlawful for any person to engage in hazing.

(4) Any person who violates subsection (3) of this section commits a class 3 misdemeanor.

22-2-144. Bullying prevention and education policies - short title - study.
(1) The short title of this section is “Ashawnty’s Law”.

(2)(a) The department shall research approaches, policies, and practices related to bullying prevention and education used by education providers in other states. On or before July 1, 2019, after consideration of the research conducted pursuant to this subsection (2)(a), the department, in consultation with the school safety resource center created in section 24-33.5-1803, shall develop a model bullying prevention and education policy. The research and model policy described in this subsection (2)(a) must be updated every three years.
(b) On or before July 1, 2019, and every three years thereafter, the department shall publish the results of the research and model policy required by subsection (2)(a) of this section on its website as guidance for school districts, charter schools, and the charter school institute to consider when developing and implementing bullying prevention and education policies.

(1) Definitions. As used in this section, unless the context otherwise requires:

(b) “Bullying” means any written or verbal expression, or physical or electronic act or gesture, or a pattern thereof, that is intended to coerce, intimidate, or cause any physical, mental, or emotional harm to any student. Bullying is prohibited against any student for any reason, including but not limited to any such behavior that is directed toward a student on the basis of his or her academic performance or against whom federal and state laws prohibit discrimination upon any of the bases described in section 22-32-109 (1)(II)(I). This definition is not intended to infringe upon any right guaranteed to any person by the first amendment to the United States constitution or to prevent the expression of any religious, political, or philosophical views.

(2) Safe school plan. In order to provide a learning environment that is safe, conducive to the learning process, and free from unnecessary disruption, each school district board of education or institute charter school board for a charter school authorized by the charter school institute shall, following consultation with the school district accountability committee and school accountability committees, parents, teachers, administrators, students, student councils where available, and, where appropriate, the community at large, adopt and implement a safe school plan, or review and revise, as necessary in response to any relevant data collected by the school district, any existing plans or policies already in effect. any other law of the state.

(5)(a) On or before February 15, 2011, and on or before February 15 each year thereafter, the

(2) Safe school plan. In order to provide a learning environment that is safe, conducive to the learning process, and free from unnecessary disruption, each school district board of education or institute charter school board for a charter school authorized by the charter school institute shall, following consultation with the school district accountability committee and school accountability committees, parents, teachers, administrators, students, student councils where available, and, where appropriate, the community at large, adopt and implement a safe school plan, or review and revise, as necessary in response to any relevant data collected by the school district, any existing plans or policies already in effect. In addition to the aforementioned parties, each school district board of education, in adopting and implementing its safe school plan, may consult with victims' advocacy organizations, school psychologists, local law enforcement, and community partners. The plan, at a minimum, must include the following:

(a) Conduct and discipline code.

(I) A concisely written conduct and discipline code that shall be enforced uniformly, fairly, and consistently for all students. Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:

(K) On and after August 8, 2001, a specific policy concerning bullying prevention and education. Each school district is encouraged to ensure that its policy, at a minimum, incorporates the biennial administration of surveys of students' impressions of the severity of bullying in their schools, as described in section 22-93-104 (1)(c); character building; and the designation of a team of persons at each school of the school district who advise the school administration concerning the severity and frequency of bullying incidents that occur in the school, which team may include, but need not be limited to, law enforcement officials, social workers, prosecutors, health professionals, mental health professionals, school psychologists, counselors, teachers, administrators, parents, and students. Each school district's policy shall set forth appropriate disciplinary consequences for students who bully other students and for any person who takes any retaliatory action against a student who reports in good faith an incident of bullying, which consequences shall comply with all applicable state and federal laws.

(II) In creating and enforcing a school conduct and discipline code pursuant to subparagraph (I) of this paragraph (a), each school district board of education, on and after August 1, 2013, shall:

(A) Impose proportionate disciplinary interventions and consequences, in response to student misconduct, which interventions and consequences are designed to reduce the number of expulsions, out-of-school suspensions, and referrals to law enforcement, except for such referrals to law enforcement as are required by state or federal law;
(B) Include plans for the appropriate use of prevention, intervention, restorative justice, peer mediation, counseling, or other approaches to address student misconduct, which approaches are designed to minimize student exposure to the criminal and juvenile justice system. The plans shall state that a school administration shall not order a victim's participation in a restorative justice practice or peer mediation if the alleged victim of an offending student's misconduct alleges that the misconduct constitutes unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S.; a crime in which the underlying factual basis involves domestic violence, as defined in section 18-6-800.3 (1), C.R.S.; stalking as defined in section 18-3-602, C.R.S.; or violation of a protection order, as defined in section 18-6-803.5, C.R.S.;

(C) Ensure that the implementation of the code complies with all state and federal laws concerning the education of students with disabilities, as defined in section 22-20-103 (5); and

(D) Ensure that, in implementing the code, each school of the school district shows due consideration of the impact of certain violations of the code upon victims of such violations, in accordance with the provisions of title IX of the United States Code and other state and federal laws.

22-32-118.5. Intervention strategies - students at risk of dropping out - legislative declaration.

(1) The general assembly finds that research shows there are certain behaviors such as truancy, low academic achievement, and misbehavior that results in suspension or expulsion that, when exhibited by a student, are clear indications that the student is at increased risk of dropping out of school before graduation. These behaviors are often noticeable as early as grades six through nine and, even at this relatively early stage of a student's academic career, are accurate predictors of whether the student will graduate or drop out of high school. The general assembly further finds that interventions with students who demonstrate these behaviors in these middle grades can be very successful in enabling the student to refocus his or her efforts, improve in academic achievement, and successfully graduate from high school. Therefore, it is the intent of the general assembly that school districts and public schools focus attention on the data collected for students in these middle grades, identify students who require interventions, and provide the appropriate interventions to assist students in graduating from high school.

(2)(a) Each school district board of education shall consider adopting procedures by which the schools of the school district, including charter schools, that include any of grades six through nine shall review the relevant data for students in those grades and identify students who are demonstrating behaviors that indicate the student is at greater risk of dropping out of school. The behaviors may include, but need not be limited to, low academic achievement, truancy, insubordinate behavior, and disengagement.

(b) The procedures may specify that, after a school identifies a student as being at increased risk of dropping out of school, the school shall provide appropriate interventions that are designed to assist the student in improving his or her academic performance and behavior and in increasing his or her overall level of engagement in school. Interventions may include, but need not be limited to, counseling, tutoring, parent engagement, and developmental education services.

(c) If a school district board of education adopts procedures pursuant to this subsection (2), the school district shall notify a student's parents as soon as possible after the school district identifies the student as being at greater risk of dropping out of school. The school district shall provide to the student's parents a description of the interventions that the school district intends to implement for the student, if any. The parent may approve or reject the described interventions. If the parent rejects the interventions, the school district shall not implement the interventions. The parent may terminate the interventions at any time after the school district begins providing the interventions.
(d) A parent may contact the school district in which his or her student is enrolled to request interventions pursuant to this subsection (2) if the parent determines that the student is at greater risk of dropping out of school.

22-33-104. Compulsory school attendance.

(4)(b.5) Each board of education is encouraged to establish attendance procedures for identifying students who are chronically absent and to implement best practices and research-based strategies to improve the attendance of students who are chronically absent.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school district to identify a student for participation in an expulsion-prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion proceeding.

(2) Each school district may provide educational services to students who are identified as at risk of suspension or expulsion from school. Any school district that provides educational services to students who are at risk of suspension or expulsion may apply for moneys through the expelled and at-risk student services grant program established in section 22-33-205 to assist in providing such educational services.

22-33-204. Services for at-risk students - agreements with state agencies and community organizations.

(1) Each school district, regardless of the number of students expelled by the district, may enter into agreements with appropriate local governmental agencies and, to the extent necessary, with the managing state agencies, including the department of human services and the department of public health and environment; with community-based nonprofit and faith-based organizations; with nonpublic, nonparochial schools; with the department of military and veterans affairs; and with public and private institutions of higher education to work with the student's parent or guardian to provide services to any student, or the student's family, who is identified as being at risk of suspension or expulsion or who has been suspended or expelled. Any services provided pursuant to an agreement with a nonpublic, nonparochial school are subject to approval by the state board of education pursuant to section 22-2-107. Services provided through such agreements may include, but are not limited to:

   (a) Educational services required to be provided under section 22-33-203 (2) and any educational services provided to at-risk students identified pursuant to section 22-33-202;
   (b) Counseling services;
   (c) Substance use disorder treatment programs;
   (d) Family preservation services.

22-33-205. Services for expelled and at-risk students - grants - criteria.

(1)(a) There is hereby established in the department of education the expelled and at-risk student services grant program, referred to in this section as the "program". The program shall provide grants to
school districts, to charter schools, to alternative schools within school districts, to nonpublic, nonparochial schools, to boards of cooperative services, to facility schools, and to pilot schools established pursuant to article 38 of this title to assist them in providing educational services, and other services provided pursuant to section 22-33-204, to expelled students pursuant to section 22-33-203 (2), to students at risk of expulsion as identified pursuant to section 22-33-202 (1), and to truant students.

(b) In addition to school districts, charter schools, alternative schools within school districts, nonpublic, nonparochial schools, boards of cooperative services, facility schools, and pilot schools, the department of military and veterans affairs may apply for a grant pursuant to the provisions of this section to assist the department with a program to provide educational services to expelled students; except that nonpublic, nonparochial schools may only apply for a grant pursuant to the provisions of this section to fund educational services that have been approved by the state board pursuant to section 22-2-107. The department shall follow application procedures established by the department of education pursuant to subsection (2) of this section. The department of education shall determine whether to award a grant to the department of military and veterans affairs and the amount of the grant.

22-96-101. Legislative declaration.

(1) The general assembly hereby finds and declares that:
(a) Colorado ranks fortieth in the nation in the school nurse-to-student ratio;
(b) The federal center for disease control's healthy people 2020 recommended one school nurse for every seven hundred fifty general education students, but many school nurses in Colorado are responsible for as many as six thousand students, making it difficult to provide the social-emotional support necessary to students and staff;
(c) In 2011, prior to the legalization of retail marijuana, almost forty percent of students surveyed reported having tried marijuana one or more times, with nine percent reporting that they had tried marijuana before age thirteen;
(d) In addition, twenty-two percent of students reported using marijuana one or more times in the last thirty days, with six percent reporting that they had used marijuana on school property one or more times;
(e) The legalization of retail marijuana is anticipated to increase the availability of marijuana to underage youth;
(f) Marijuana use by minors can have immediate and lasting health implications, and many youth who engage in substance abuse develop or have underlying behavioral health needs;
(g) School health professionals have already started to experience the results of marijuana as a newly legalized substance in increased visits to the health office and referrals from school staff; and
(h) School health professionals are in a unique position to educate, assess, and treat youth who have substance abuse or behavioral health issues.

(2) The general assembly further finds and declares that a program to provide matching grants to education providers to enhance the presence of school health professionals in schools throughout the state will facilitate better screening, education, and referral care coordination for students with substance abuse and other behavioral health needs.

22-96-102. Definitions.

(1) In the first and subsequent years of operation of the pilot program, each pilot school shall employ or contract with additional school mental health professionals so that each of grades one through five and the kindergarten program in each pilot school has a school mental health professional dedicated to each grade and the kindergarten program. If a single grade or the kindergarten program has more than two hundred fifty students, additional school mental health professionals must be added to the grade or kindergarten program to maintain a ratio of approximately one school mental health professional per two hundred fifty students, as determined by the pilot school. A small pilot school shall maintain a ratio of approximately one school mental health professional per two hundred fifty students, as determined by the pilot school. At least one of the school mental health professionals at each pilot school must be a school social worker.

(2) The goal of the pilot program is for a school mental health professional to develop an ongoing relationship with pilot school students and to follow those students, to the extent possible, as the students advance through the grades at the pilot school. This will allow the school mental health professional to understand the needs of the students and their families over time and to help address those needs over time, if necessary. To achieve this goal, school mental health professionals may be assigned to a cohort of students by grade or, in a smaller school, by multiple grades. School mental health professionals in each pilot school shall work as a team to address the academic and social-emotional needs of the pilot
school's students and to create a safe and positive school learning environment through additional behavioral health supports.

(3) For purposes of implementing this pilot program, the general assembly shall appropriate to the department for distribution to the pilot schools, or to the governing body for the pilot school, the amount of money necessary for the pilot schools to employ or contract with the number of additional school mental health professionals necessary to implement the pilot program, as described in subsection (1) of this section. Throughout the duration of the pilot program, the pilot school must employ or contract with, at the pilot school's expense, the same number of school mental health professionals employed by or contracted with the pilot school during the 2019-20 school year, so that the appropriation to the pilot school for the pilot program supplements, but does not supplant, the pilot school's existing expenditures for school mental health professional positions prior to the operation of the pilot program.

(4)(a) In implementing the pilot program, the school mental health professionals shall work as a team, with each professional providing services to students and offering training and resources to school faculty and administrators that are authorized under the school mental health professional's special services license and endorsement.

(b) In addition, school mental health professionals shall, consistent with the school mental health professional's job duties and licensure:

(I) Provide the school with resources to develop and improve the social and emotional health of students, including resources translated into the primary languages of the student population to the extent possible, and create a safe and positive learning environment through additional behavioral health supports; and

(II) Provide social and emotional skill building in the school and with students in the classroom.

(c) School mental health professionals may, consistent with the school mental health professional's job duties and licensure:

(I) Assist students and their families with applying for and obtaining necessary public benefits for which each student and the student's family is eligible;

(II) Provide services and supports to students who have an individualized education program, as provided in section 22-20-108;

(III) Consult and coordinate with other school professionals on behalf of students and support families accessing community-based resources as needed and appropriate; and

(IV) Identify food insecurity, homelessness, and other issues affecting students and make referrals to services within the community, bringing those services into the school setting where possible.

(d) As appropriate, and to the extent possible, the school mental health professional must provide services or arrange for services to be provided for students at the school and during school hours or when student busing is available.

(e) Services provided by the school mental health professional to the student must include the student's family and household, where appropriate. The school mental health professional is specifically authorized to make home visits when appropriate under the circumstances and consistent with licensure.

(5) Each pilot school's team of school mental health professionals shall participate in the school's or school district's multi-tiered systems of support process to assist in developing appropriate plans for the mental health and behavioral needs of individual students.

(6) Each pilot school, or each pilot school's governing body, where appropriate, shall collect, transmit, and retain any data and information necessary for the evaluation of the pilot program pursuant to section 22-
102-106. Each pilot school shall record the unique student identifier, as defined in section 22-16-103, for all students enrolled in the pilot school.

(7) A student who is home-schooled but who participates in extracurricular activities or athletic programs at a school that is selected as a pilot school is excluded from any data collection or reporting requirements pursuant to this article 102.

24-31-606. Safe2tell program - creation - duties.

(1) There is created, within the department, the safe2tell program.

(2) The program must:

(a) Establish and maintain methods of anonymous reporting concerning unsafe, potentially harmful, dangerous, violent, or criminal activities in schools or the threat of those activities;

(b) Establish methods and procedures to ensure that the identity of the reporting parties remains unknown to all persons and entities, including law enforcement officers and employees operating the program;

(c) Establish methods and procedures so that information obtained from a reporting party who voluntarily discloses his or her identity and verifies that he or she is willing to be identified may be shared with law enforcement officers, employees operating the program, and school officials;

(d) Establish methods and procedures to ensure that a reporting party's identity that becomes known through any means other than voluntary disclosure is not further disclosed;

(e) Promptly forward information received by the program to the appropriate law enforcement or public safety agency or school officials;

(f) Train law enforcement dispatch centers, school districts, individual schools, and other entities determined by the attorney general on appropriate awareness and response to safe2tell tips;

(g) Provide safe2tell awareness and education materials to all preschool, elementary, and secondary schools in Colorado at no charge to the school on or before June 30, 2017, and annually each fiscal year thereafter;

(h) Provide safe2tell awareness and education materials to Boys Girls Clubs and 4-H extension offices in Colorado at no charge to the Boys Girls Clubs and 4-H extension offices on or before June 30, 2017, and annually each fiscal year thereafter;

(i) Develop training curriculum and teaching materials for a train the trainer program;

(j) Annually organize, host, and conduct training in all geographic regions of the state and provide related materials to persons who attend the training at no charge to the attendee;

Indicators shall be based on data highly correlated with the likelihood that students will dropout, including but not limited to dropout rates, truancy rates, suspension or expulsion rates that significantly above state averages. These rates are defined in section 5.00 of these rules.

(3) The designation of High Priority and Priority will be recognized and in effect for three consecutive fiscal years to allow time to complete the “practices assessment,” adopt Student Graduation and Completion Plan and review and evaluate plans as described in sections 3.02 and 3.05 in these rules. 1 CCR 301-84. Section 5.00. Defining and calculating rates.
In evaluating the following rates, the intent is to ensure incentives for re-engaging students and ensuring that students successfully achieve statewide academic standards upon Graduation, as defined and calculated in CCR 301-1 (Rules for the Administration of Statewide Accountability Measures).

5.01. The Student Dropout Rate: The annual student dropout rate will be calculated based on the percentage of students in grades seven through twelve who drop out of school in a given year between July 1 and June 30 and have not returned to an educational environment on or before the end of the school year or June 30 as defined and calculated in CCR 301-1 (Rules for the Administration of Statewide Accountability Measures).

5.02. The Graduation Rate: The student graduation rate will be based on the calculations defined and calculated pursuant to CCR 301-1 (Rules for the Administration of Statewide Accountability Measures), or as otherwise required by the Elementary and Secondary Education Act of 1965.

5.03. The Completion Rate: The high school completion rate is the percentage of students from an end of year eighth grade cohort adjusted for verified transfers in and out with adequate documentation, who leave school as graduates or completers as defined by the District as defined and calculated in CCR 301-1 (Rules for the Administration of Statewide Accountability Measures).

5.04. The Student Re-engagement Rate: The Student Re-engagement rate is based on the percent of students who dropped out in the prior year (PY) and re-enrolled in their home school/district in the following year and the percent who dropped out and were retrieved anywhere in the state in the following year. The pairing of these percentages provides information to assist in analyzing the cost-benefit of Student Re-Engagement and recognizes the levels of re-engaging students who have dropped out.

1) Calculation of percentages based on retrieved into the same school or district:
   (a) School rate based on re-enrolled: Number of PY dropouts who are retrieved into the same school the following year/Number of PY dropouts
   (b) District rate based on re-enrolled: Number of PY dropouts who are retrieved into the same district the following year/Number of PY dropouts
   (c) State rate based on re-enrolled: Sum of PY dropouts who were retrieved into the same district the following year / Sum of PY dropouts from all districts

2) Calculation of percentages based on retrieved anywhere within the state:
   (a) School rate based on retrieved: Number of PY dropouts who are retrieved anywhere in the state the following year /Number of PY dropouts
   (b) District rate based on retrieved: Number of PY dropouts who are retrieved anywhere in the state the following year /Number of PY dropouts
   (c) State rate based on retrieved: Sum of all PY dropouts retrieved anywhere in the state the following year / Sum of all PY dropouts from all districts

5.05. The Truancy Rate: Truancy rates measure the number of unexcused absences from Public School and number of habitually truant students. They will include two calculations to determine the rate of unexcused absences and habitually truant student rate as defined in CCR 301.78 (Rules Concerning
the Standardized Calculation for Counting Student Attendance and Truancy) pursuant to § 22-33-104 (4)(c), C.R.S.

5.06. The Student Mobility Rate: The student mobility rate measures the unduplicated count of the number of students who have moved into or out of a particular education setting as defined and calculated in CCR 301-1 (Rules for the Administration of Statewide Accountability Measures).

5.07. The Student Suspension Rate: The rate is defined as the number of students suspended (may include in-school suspensions, out of school suspensions and classroom suspensions) during the year divided by the student enrollment as of October 1. It is calculated at the school, district and state level as determined by the collection of the Department’s Automated Data Exchange system to obtain behavioral incidents and the actions taken. If a student was suspended multiple times within the school year, each time is included in the count.

5.08. The Student Expulsion Rate: The rate is defined as the number of students expelled during the year divided by the student enrollment as of October 1. It is calculated at the school, district and state level as determined by the collection of the Department’s Automated Data Exchange system to obtain behavioral incidents and the actions taken. If a student was expelled multiple times, each time is included in the count.

LAWS

(1) The general assembly finds that:

(a) Research demonstrates that young children who are suspended or expelled from school are up to ten times more likely to experience academic failure and grade retention and to hold negative attitudes toward school than those children who are not suspended or expelled. Young children who are suspended or expelled from school are also more likely to drop out of high school and to be incarcerated later in life.

(b) Lack of training to deal with behavioral issues in the classroom contributes to education dissatisfaction and burnout, which increases the number of educators who leave the profession. Providing additional training and support in dealing with student discipline issues may help school districts and schools retain experienced educators.

(c) To reduce the incidence of exclusionary discipline among students, especially those enrolled in preschool through third grade, teachers and administrators should receive training and support in using culturally responsive methods of discipline with young students and in implementing developmentally appropriate responses to the behavioral issues of young students.

(2) As used in this section, unless the context otherwise requires:

(a) "Board of cooperative services" means a regional educational service unit created pursuant to article 5 of this title 22.

(b) "Charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22 or a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(c) "Culturally responsive methods" means methods that use the cultural knowledge, experiences, social and emotional learning needs, and performance styles of diverse students to ensure that
classroom management strategies and research-based alternatives to exclusionary discipline are appropriate and effective for students.

(d) "Exclusionary discipline methods" means in-school suspension, out-of-school suspension, expulsion, school-based arrests, school-based referrals to the juvenile justice system, and voluntary or involuntary placement in an alternative education program.

(e) "Pilot program" means the discipline strategies pilot program created in subsection (3) of this section.

(3) (a) There is created in the department the discipline strategies pilot program to provide money to school districts, groups of school districts, boards of cooperative services, and charter schools for professional development for teachers and principals concerning the use of culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade, including students with disabilities. The intent of the pilot program is to provide professional development for educators to assist them in reducing the use of exclusionary discipline methods in public schools, especially with regard to students enrolled in preschool through third grade and students with disabilities. The department is required to implement the pilot program only to the extent that it receives sufficient money through gifts, grants, and donations as provided in subsection (7) of this section.

(b) The state board shall promulgate rules as provided in the "State Administrative Procedure Act", article 4 of title 24, as necessary, to implement the pilot program.

(4) A school district, group of school districts, board of cooperative services, or charter school may apply to the department to receive a grant through the pilot program. An application must include:

(a) The number of teachers and principals to whom the applicant will provide professional development in using culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade and the number and grade levels of students served by those teachers and principals;

(b) The professional development programs that the applicant expects to provide with the grant money;

(c) The other resources available to the applicant to provide the professional development;

(d) The aggregate number and type of disciplinary incidents occurring in preschool, kindergarten, and grades one through three in the schools operated by the applicant in the preceding three school years and the types of disciplinary responses and strategies used;

(e) The applicant's agreement to provide to the department the information necessary for the department to create the report described in subsection (6) of this section for each school year in which the applicant receives a grant; and

(f) Any additional information required by rule of the state board.

(5) The department shall review the applications received pursuant to subsection (4) of this section and recommend to the state board which applicants should receive grants through the pilot program and the amount of each grant. The state board, taking into consideration the department's recommendations, shall award the grants, subject to available funding. In making recommendations and awarding grants, the department and the state board shall, to the extent practicable, award a grant to at least one school district, board of cooperative services, or charter school located in a rural area and shall consider:

(a) The level of financial need that an applicant demonstrates;

(b) The quality of the professional development grant programs that the applicant expects to provide with the grant money;
(c) The student demographics of the schools operated by the applicant and the use of exclusionary discipline methods in the preceding three school years by educators employed by the applicant; and
(d) Any additional criteria adopted by rule of the state board.
(6)(a) For each school year in which the state board awards grants through the pilot program, the department shall prepare a report concerning implementation of the pilot program. At a minimum, the report must include:
(I) The number of school districts, boards of cooperative services, and charter schools that received grants through the pilot program and the amount of each grant;
(II) The types of professional development that grant recipients provided to teachers and principals;
(III) For the schools operated by the grant recipients, a comparison of the following strategies, policies, or data before and after educators participated in the professional development programming provided with the grant money:
   (A) Disciplinary strategies or policies;
   (B) For preschool, kindergarten, and grades one through three, the aggregate number and types of disciplinary incidents, aggregate information concerning the types of disciplinary responses to incidents, and aggregate information concerning the changes in disciplinary responses used before and after the training;
   (C) Attendance and truancy rates; and
   (D) Indicators of teacher satisfaction; and
(IV) Any other nonpersonally identifying data requested by the department that indicates whether the pilot program is successful in reducing the use of exclusionary discipline methods in public schools.
(b) By April 15, 2018, and by April 15 each year thereafter, the department shall submit the report to the state board, the joint budget committee, and the education committees of the house of representatives and the senate, or any successor committees.
(7) The pilot program is not eligible to receive state appropriations and must be funded solely through gifts, grants, or donations. The department may accept and expend gifts, grants, or donations from private or public sources for the purposes of the pilot program. Notwithstanding any provision of this section to the contrary, the department and the state board are not required to implement the pilot program, including promulgating rules and preparing the report described in subsection (6) of this section, in a budget year if the department does not receive at least three hundred thousand dollars in gifts, grants, or donations for the pilot program for that budget year.
(8) This section is repealed, effective July 1, 2020.

(2.5)(b) Each school district is encouraged to include in the child sexual abuse and assault prevention plan professional development for school personnel and parents in preventing, identifying, and responding to child sexual abuse and assault. Professional development may include providing training in preventing, identifying, and responding to child sexual abuse and assault, including using the child abuse reporting hotline system created pursuant to section 26-5-111, C.R.S., and distributing resources to raise the awareness of school personnel and parents regarding child sexual abuse and assault and preventing child sexual abuse and assault.

LAWS

22-14-108. Local education provider - notice to parent of dropout status.
(1) Each local education provider shall adopt and implement policies and procedures pursuant to which the local education provider or the public school in which the student was enrolled shall notify a student's parent if the student drops out of school, even if the student is not subject to the compulsory attendance requirement specified in section 22-33-104. The local education provider shall develop the policies and procedures with the goal of encouraging the student to re-enroll in school and of conveying to the student's parent the long-term ramifications to the student of dropping out of school.
(2) At a minimum, the policies and procedures shall specify the time frames by which the local education provider or the public school in which the student was enrolled shall notify the student and his or her parent and shall require the personnel at the public school to attempt to meet in person with the student and his or her parent.
(3) At a minimum, the notice shall include written notification of the student's dropout status and an explanation of the educational alternatives available to the student to assist him or her in re-engaging in school.

In order to provide a learning environment that is safe, conducive to the learning process, and free from unnecessary disruption, each school district board of education or institute charter school board for a charter school authorized by the charter school institute shall, following consultation with the school district accountability committee and school accountability committees, parents, teachers, administrators, students, student councils where available, and, where appropriate, the community at large, adopt and implement a safe school plan, or review and revise, as necessary in response to any relevant data collected by the school district, any existing plans or policies already in effect. In addition to the aforementioned parties, each school district board of education, in adopting and implementing its safe school plan, may consult with victims' advocacy organizations, school psychologists, local law enforcement, and community partners. The plan, at a minimum, must include the following:

(a) Conduct and discipline code.

(I) A concisely written conduct and discipline code that shall be enforced uniformly, fairly, and consistently for all students. Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:

(B) General policies and procedures for dealing with students who cause a disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event, including a specific policy allowing a teacher to remove a disruptive student from his or her classroom. The policy shall state that, upon the third such removal from a teacher's class, the teacher may remove the disruptive student from the teacher's class for the remainder of the term of the class; except that a disruptive student shall not be removed from a teacher's class for the remainder of the term of the class unless the principal of the student's school or his or her designee has developed and implemented a behavior plan for the student. A behavior plan may be developed after the first such removal from class and shall be developed after the second removal from class. The general policies and procedures shall include a due process procedure, which at a minimum shall require that, as soon as possible after a removal, the teacher or the school principal shall contact the parent or legal guardian of the student to request his or her attendance at a student-teacher conference regarding the removal. Any policy or procedure adopted shall comply with applicable federal and state laws, including but not limited to laws regarding students with disabilities.

22-33-105. Suspension, expulsion, and denial of admission.

(3)(a) If a pupil is suspended pursuant to subsection (2) of this section, the suspending authority shall immediately notify the parent, guardian, or legal custodian of the pupil that the pupil has been suspended and of the grounds for the suspension, the period of the suspension, and the time and place for the parent, guardian, or legal custodian to meet with the suspending authority to review the suspension.

(6) When a pupil is expelled by a school district, the pupil's parent, guardian, or legal custodian is responsible for seeing that the pupil complies with the provisions of this article during the period of expulsion.

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(1) The following may be grounds for suspension or expulsion of a child from a public school during a school year:
(c.5) (I) Declaration as a habitually disruptive student.

(II) For purposes of this paragraph (c.5), "habitually disruptive student" means a child who has caused a material and substantial disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event three or more times during the course of a school year. Any student who is enrolled in a public school may be subject to being declared a habitually disruptive student.

(III) The student and the parent, legal guardian, or legal custodian shall have been notified in writing of each disruption counted toward declaring the student as habitually disruptive pursuant to this paragraph (c.5), and the student and parent, legal guardian, or legal custodian shall have been notified in writing and by telephone or other means at the home or the place of employment of the parent or legal guardian of the definition of "habitually disruptive student".

(1) The board of education of each school district shall designate one or more of the employees of the district to act as attendance officer for the district. It is the attendance officer's duty in appropriate cases to counsel with students and parents and investigate the causes of nonattendance and report to the local board of education so as to enforce the provisions of this article which relate to compulsory attendance.

(b) The board of education of each school district shall adopt and implement policies and procedures concerning elementary and secondary school attendance, including but not limited to policies and procedures to work with children who are habitually truant. The policies and procedures must include provisions for the development of a plan. The plan must be developed with the goal of assisting the child to remain in school and, when practicable, with the full participation of the child's parent, guardian, or legal custodian. Appropriate school personnel shall make all reasonable efforts to meet with the parent, guardian, or legal custodian of the child to review and evaluate the reasons for the child's truancy. The appropriate school personnel are encouraged to work with the local community services group to develop the plan. The plan must be in compliance with section 22-33-108 (7) and include appropriate sanctions other than placement in a juvenile detention facility for a child who is habitually truant and who has refused to comply with the plan. The policies and procedures may also include but need not be limited to the following:

(I.5) Procedures to monitor the attendance of each child enrolled in the school district to identify each child who has a significant number of unexcused absences and to work with the local community services group and the child's parent to identify and address the likely issues underlying the child's truancy, including any nonacademic issues;

(II) Annually at the beginning of the school year and upon any enrollment during the school year, notifying the parent of each child enrolled in the public schools in writing of such parent's obligations pursuant to section 22-33-104 (5) and requesting that the parent acknowledge in writing awareness of such obligations;

(III) Annually at the beginning of the school year and upon any enrollment during the school year, obtaining from the parent of each child a telephone number or other means of contacting such parent during the school day; and

(IV) Establishing a system of monitoring individual unexcused absences of children which shall provide that, whenever a child who is enrolled in a public school fails to report to school on a regularly scheduled school day and school personnel have received no indication that the child's parent is aware of the child's absence, school personnel or volunteers under the direction of school personnel shall make a reasonable effort to notify by telephone such parent. Any person who, in good faith, gives or fails to give notice pursuant to this subparagraph (IV) shall be immune from any liability, civil or criminal, which might otherwise be incurred or imposed and shall have the same immunity with respect to any judicial proceeding which results from such notice or failure to give such notice.

(1) Those courts having jurisdiction over juvenile matters in a judicial district shall have original jurisdiction over all matters arising out of the provisions of this article.

(1.5)(a) All proceedings brought under this article shall be commenced in the judicial district in which the child resides or is present.

(b) When proceedings commence under this article in a judicial district other than that of the child's residence or when the child changes his or her judicial district of residence after a proceeding under this article commences, the court in which proceedings commenced may, on its own motion or on the motion of any interested party, transfer the case to the court in the judicial district where the child resides.

(c) When a court transfers venue pursuant to paragraph (b) of this subsection (1.5), the court shall transmit all documents and reports, or certified copies thereof, to the receiving court, which court shall proceed with the case as if the petition had been originally filed in that court.

(2) If a child or his parent desires court review of an order of the board of education issued pursuant to this article, he shall notify the board in writing within five days after receiving official notification of the board's action. The board of education shall thereupon issue, or cause to be issued, to the child or his parent a statement of the reasons for the board's action. Within ten days thereafter the child or his parents may file with the court a petition requesting that the order of the board of education be set aside, to which shall be appended the statement of the board of education. No docket or other fees shall be collected by the court in connection with this proceeding.

(6) The court before which a proceeding to compel attendance is brought may issue, in its discretion, an order against the child or the child's parent or both compelling the child to attend school as provided by this article or compelling the parent to take reasonable steps to assure the child's attendance. The order must require the child and parent to cooperate with the school district in complying with the plan created for the child pursuant to section 22-33-107 (3).

(7)(a) If the child or youth does not comply with the valid court order issued against the child or youth or against both the parent and the child or youth, the court may order that an assessment for neglect as described in section 19-3-102 (1) be conducted as provided in section 19-3-501. In addition, the court may order the child or youth to show cause why he or she should not be held in contempt of court. When instituting contempt of court proceedings pursuant to this subsection (7), the court shall provide all procedural protections mandated in rule 107 of the Colorado rules of civil procedure, or any successor rule, concerning punitive sanctions for contempt.

(a.5) A judge or magistrate of any court may issue a warrant that authorizes the taking into temporary custody of a child or youth who has failed to appear for a court hearing for a truancy or contempt action; except that any such warrant must provide for release of the child or youth from temporary custody on an unsecured personal recognizance bond that is cosigned by the child's or youth's parent or legal guardian or, if the child or youth is in the custody of the department of human services, cosigning may be accomplished by a representative of the department of human services. In the alternative, the warrant may direct that the child or youth must only be arrested while court is in session and that he or she be taken directly to court for an appearance rather than booked into secure confinement.

(b) The court may impose sanctions after a finding of contempt that may include, but need not be limited to, community service to be performed by the child or youth, supervised activities, participation in services for at-risk students, as described by section 22-33-204, and other activities having the goal of ensuring that the child or youth has an opportunity to obtain a quality education.

(c)(f) If the court finds that the child or youth has refused to comply with the plan created for the child or youth pursuant to section 22-33-107 (3), the court may impose on the child or youth, as a sanction for
contempt of court, a sentence of detention for no more than forty-eight hours in a juvenile detention facility operated by or under contract with the department of human services pursuant to section 19-2-402 and any rules promulgated by the Colorado supreme court. The court shall not sentence a child or youth to detention as a sanction for contempt of court unless the court finds that detention is in the best interest of the child or youth as well as the public. In making such a finding, the court shall consider the following factors, including that:

(A) The child or youth has violated a valid court order;
(B) National and Colorado-specific evidence shows that detaining children and youth for truancy alone is counterproductive and harmful to children and youth;
(C) The legislative intent is that a child or youth who is truant must not be placed in secure confinement for truancy alone;
(D) Detention is likely to have a detrimental effect on the child's or youth's school attendance; and
(E) Detention is likely to have an effect on the child's or youth's future involvement with the criminal justice system.

(I) There is a rebuttable presumption that a child or youth must receive credit for time served if he or she is sentenced to detention pursuant to subsection (7)(c)(I) of this section for violating a valid court order to attend school. If the court rebuts this presumption, it shall explain its reasoning on the record.

22-33-203. Educational alternatives for expelled students.

(1) Upon expelling a student, the school district shall provide information to the student's parent or guardian concerning the educational alternatives available to the student during the period of expulsion. If the parent or guardian chooses to provide a home-based educational program for the student, the school district shall assist the parent in obtaining appropriate curricula for the student if requested by the parent or guardian.

(2)(a) Except as otherwise provided in paragraph (b) of this subsection (2), upon request of a student or the student's parent or guardian, the school district shall provide, for any student who is expelled from the school district, any educational services that are deemed appropriate for the student by the school district. The educational services provided must be designed to enable the student to return to the school in which he or she was enrolled prior to expulsion, to successfully complete the high school equivalency examination, or to enroll in a nonpublic, nonparochial school or an alternative school, including but not limited to a charter school or a pilot school established pursuant to article 38 of this title. The expelling school district shall determine the amount of credit the student must receive toward graduation for the educational services provided pursuant to this section.

(3) If a student is expelled and the student is not receiving educational services pursuant to this section, the school district shall contact the expelled student's parent or guardian at least once every sixty days until the beginning of the next school year to determine whether the student is receiving educational services from some other source; except that the school district need not contact a student's parent or guardian after the student is enrolled in another school district or in an independent or parochial school or if the student is committed to the department of human services or is sentenced pursuant to article 2 of title 19, C.R.S.

(4) In addition to the educational services required under this section, a student who is at risk of suspension or expulsion or has been suspended or expelled, or the student's parent or guardian, may request any of the services provided by the school district through an agreement entered into pursuant to section 22-33-204, and the school district may provide such services.

Failure to submit a timely report to the division of criminal justice pursuant to this subsection (4) does not relieve a law enforcement agency of its responsibility to file the report required by this subsection (4). A law enforcement agency that has failed to file a timely report shall file all such reports with the division of criminal justice no later than August 15, 2015. Each such report must include, at a minimum, the following information:

22-33-105. Suspension, expulsion, and denial of admission.

(5)(a) Whenever a petition filed in juvenile court alleges that a child at least twelve years of age but under eighteen years of age has committed an offense that would constitute unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S., or a crime of violence, as defined in section 18-1.3-406, C.R.S., if committed by an adult or whenever charges filed in district court allege that a child has committed such an offense, basic identification information concerning such child and the details of the alleged delinquent act or offense shall be provided immediately to the school district in which the child is enrolled in accordance with the provisions of section 19-1-304 (5), C.R.S. Upon receipt of such information, the board of education of the school district or its designee shall determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or of school personnel in the school and whether educating the student in the school may disrupt the learning environment in the
school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The determination may be made in executive session to the extent allowed by section 24-6-402 (4)(h), C.R.S. If the board of education or its designee, in accordance with the provisions of this subsection (5), makes a determination that the student should not be educated in the school, it may proceed with suspension or expulsion in accordance with subsection (2) of this section and section 22-33-106. Alternatively, the board of education or its designee may determine that it will wait until the conclusion of the juvenile proceedings to consider the expulsion matter, in which case it shall be the responsibility of the district to provide the student with an appropriate alternate education program, including but not limited to an online program or online school authorized pursuant to article 30.7 of this title, or a home-based education program during the period pending the resolution of the juvenile proceedings. Information made available to the school district and not otherwise available to the public pursuant to the provisions of section 19-1-304, C.R.S., shall remain confidential.

22-33-106.5. Information concerning offenses committed by students.

(1) Upon adjudication or conviction of a person under the age of eighteen years for an offense specified in section 22-33-106 (1)(d), the adjudicating juvenile court or the convicting district court, whichever is applicable, shall notify the school district in which the person is enrolled that the person is subject to mandatory expulsion based on the adjudication or conviction.

(2) Upon adjudication or conviction of a person under the age of eighteen years for an offense that constitutes a crime of violence, as defined in section 18-1.3-406, C.R.S., or for an offense involving controlled substances, or, for a person under eighteen years of age but at least twelve years of age, for an offense that would constitute unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S., if committed by an adult the adjudicating or convicting court shall notify the school district in which the person is enrolled of the person's adjudication or conviction.

22-33-107.5. Notice of failure to attend.

(1) Except as otherwise provided in subsection (2) of this section, a school district shall notify the appropriate court or parole board if a student fails to attend all or any portion of a school day, where the school district has received notice from the court or parole board:

(a) Pursuant to section 19-2-508 (3)(a)(X) that the student is required to attend school as a condition of release pending an adjudicatory trial;

(b) Pursuant to section 17-22.5-404, 18-1.3-204 (2.3), 19-2-907 (4), 19-2-925 (9),(5), or 19-2-1002 (1) or (3), C.R.S., that the student is required to attend school as a condition of or in connection with any sentence imposed by the court, including a condition of probation or parole; or

(c) Pursuant to section 13-10-113 (8), C.R.S., that the student is required to attend school as a condition of or in connection with any sentence imposed by a municipal court.

(2) If the school district has notice that a student who is required to attend school as a condition of release or as a condition of or in connection with any sentence imposed by a court, including a condition of probation or parole, has enrolled in a nonpublic home-based educational program, pursuant to section 22-33-104.5, or in an independent or parochial school, the school district shall notify the appropriate court or parole board and shall no longer be required to notify the court or parole board, pursuant to subsection (1) of this section, if the student fails to attend.

(2) If a child or his parent desires court review of an order of the board of education issued pursuant to this article, he shall notify the board in writing within five days after receiving official notification of the board's action. The board of education shall thereupon issue, or cause to be issued, to the child or his parent a statement of the reasons for the board's action. Within ten days thereafter the child or his
parents may file with the court a petition requesting that the order of the board of education be set aside, to which shall be appended the statement of the board of education. No docket or other fees shall be collected by the court in connection with this proceeding.

(3) After the petition is filed, the court shall notify the board and shall hold a hearing on the matter. The court shall conduct judicial review of a hearing decision pursuant to rule 106 (a)(4) of the Colorado rules of civil procedure and rule 3.8 of the Colorado rules of juvenile procedure.

(4) It is the duty of the attorney for the school district, an employee authorized by the local board of education pursuant to section 13-1-127 (7), C.R.S., to represent the school district in truancy proceedings, the attendance officer designated by the local board of education, or the local board of education to initiate, when appropriate, proceedings for the enforcement of the compulsory attendance provisions of this article upon request by the attendance officer of the district or of the state.

(c) "Incident of school violence" means an occurrence at a public school or public school-sponsored activity in which a person:

(I) Engaged in a crime of violence; and
(II) The actions described in subparagraph (I) of this paragraph (c) by that person caused serious bodily injury or death to any other person.

All school districts and charter schools and their employees in this state have a duty to exercise reasonable care to protect all students, faculty, and staff from harm from acts committed by another person when the harm is reasonably foreseeable, while such students, faculty, and staff are within the school facilities or are participating in school-sponsored activities.

(4) Limited waiver of sovereign immunity. Notwithstanding any other provision of this article, a public school district or charter school is immune from liability in all claims for injury that lie in tort or could lie in tort regardless of whether that may be the type of action or the form of relief chosen by the claimant except as otherwise provided in this section or in this article. In addition to any other claims for which the "Colorado Governmental Immunity Act" waives sovereign immunity in this article, sovereign immunity is
waived under the "Colorado Governmental Immunity Act" with respect to school districts and charter schools for a claim of a breach of the duty of care established in subsection (3) of this section by the school district, a charter school, or an employee of the school district or charter school arising from an incident of school violence on or after June 3, 2015, and, with respect to such claims, the provisions of article 12 of title 22, C.R.S., do not apply to school districts and charter schools. An employee of a public school, school district, or a charter school is not subject to suit under this section in his or her individual capacity unless the employee's actions or omissions are willful and wanton.

(5) A public school, school district, or charter school shall not be found negligent under this section solely as a result of not expelling or suspending any student.

(6) Nothing in this section shall be construed to constitute a waiver of sovereign immunity by a school district or charter school if the injury arises from any act, or failure to act, of an employee of the school district or charter school if the act is the type of act for which the school district or charter school employee would be or heretofore has been personally immune from liability.

(7) In addition to the immunity provided under this section, the school district and charter school shall also have the same immunity as a school district or charter school employee for any act or failure to act for which a school district or charter school employee would be or heretofore has been personally immune from liability.

(8) No rule of law imposing absolute or strict liability shall be applied in any action filed against a school district or charter school pursuant to this section for serious bodily injury or death caused by a breach of the duty of care, established pursuant to subsection (3) of this section. No liability shall be imposed in any such action unless negligence is proven.

(9) (a) Except as provided in paragraph (b) of this subsection (9), the maximum amount of damages that may be recovered under this article in any single occurrence from a school district or charter school for a claim brought under this section is governed by the limits set forth in section 24-10-114 (1).

   (b)(I) A plaintiff who files an action under this section for an incident of school violence that occurs on or after June 3, 2015, and on or before July 1, 2017, shall file the action in the district court, and no compensatory damages shall be awarded. The court shall not issue a declaratory judgement regarding the negligence of the public school, school district, or charter school; however, in such action, the plaintiff is entitled to full discovery regarding the incident of school violence.

   (II) This paragraph (b) is repealed, effective July 1, 2018.

(10) In order to promote vigorous discovery of events leading to an incident of school violence in any action brought under this section, an offer of judgment by a defendant under section 13-17-202, C.R.S., prior to the completion of discovery, is not deemed rejected if not accepted until fourteen days after the completion of discovery, and the plaintiff is not liable for costs due to not accepting such an offer of judgment until fourteen days after the completion of discovery. If a defendant refuses to answer a complaint, or a default judgment is entered against a defendant for failure to answer a complaint, or a defendant confesses liability in an action brought under this section, the court shall allow full discovery upon request of the plaintiff.

REGULATIONS

1 CCR 301-1. Section 11.0. Performance reporting.
11.05 Each school performance report shall include the following information concerning the operations and environment of the Public School that is the subject of the report:

(3) The occurrence of student conduct and discipline code violations reported pursuant to section 22-32-109.1(2)(b), C.R.S., expressed as a number and as a percentage of the total occurrences of violations reported;

1 CCR 301-78. Section 1.00. Statement of Basis and Purpose.
This regulation is adopted pursuant to the authority in section 22-33-104 (4)(c), C.R.S. and is intended to be consistent with the requirements of the State Administrative Procedures Act, section 24-4-101 et seq. (the "APA"), C.R.S. These rules are adopted under authority granted the State Board of Education in the Colorado Constitution Article IX, Section 1; and Colorado Revised Statutes 22-2-106 (1)(a) and 22-2-107 (1)(c).

This regulation shall govern the standardized calculation for counting unexcused absences of students, including the circumstance in which a student is absent for part of a school day, and the format for reporting the number of students identified as habitually truant. Many research studies have concluded that truancy is a problem that impacts a student's ability to attain the maximum benefit from the education process. Families, schools and communities must work together to ensure regular daily and punctual school attendance. Students should be advised that each scheduled school day will count in their attendance records. Further, students are required to attend classes, unless excused for good reason, in accordance with the Colorado School Attendance Law (C.R.S. 22-33-101). The purpose of this regulation is to provide specificity for consistency in reporting attendance and truancy data across school districts and BOCES. This regulation intends to increase data accuracy by generating uniform indicators for aggregate excused and unexcused absences and habitually truant student numbers. Another purpose is to allow the usage of these indicators to leverage resources to support the complete success of children and youth in school.

LAWS

(1) The general assembly finds that:

   (a) Research demonstrates that young children who are suspended or expelled from school are up to ten times more likely to experience academic failure and grade retention and to hold negative attitudes toward school than those children who are not suspended or expelled. Young children who are suspended or expelled from school are also more likely to drop out of high school and to be incarcerated later in life.

   (b) Lack of training to deal with behavioral issues in the classroom contributes to education dissatisfaction and burnout, which increases the number of educators who leave the profession. Providing additional training and support in dealing with student discipline issues may help school districts and schools retain experienced educators.

   (c) To reduce the incidence of exclusionary discipline among students, especially those enrolled in preschool through third grade, teachers and administrators should receive training and support in using
culturally responsive methods of discipline with young students and in implementing developmentally appropriate responses to the behavioral issues of young students.

(2) As used in this section, unless the context otherwise requires:

(a) "Board of cooperative services" means a regional educational service unit created pursuant to article 5 of this title 22.

(b) "Charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22 or a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(c) "Culturally responsive methods" means methods that use the cultural knowledge, experiences, social and emotional learning needs, and performance styles of diverse students to ensure that classroom management strategies and research-based alternatives to exclusionary discipline are appropriate and effective for students.

(d) "Exclusionary discipline methods" means in-school suspension, out-of-school suspension, expulsion, school-based arrests, school-based referrals to the juvenile justice system, and voluntary or involuntary placement in an alternative education program.

(e) "Pilot program" means the discipline strategies pilot program created in subsection (3) of this section.

(3) (a) There is created in the department the discipline strategies pilot program to provide money to school districts, groups of school districts, boards of cooperative services, and charter schools for professional development for teachers and principals concerning the use of culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade, including students with disabilities. The intent of the pilot program is to provide professional development for educators to assist them in reducing the use of exclusionary discipline methods in public schools, especially with regard to students enrolled in preschool through third grade and students with disabilities. The department is required to implement the pilot program only to the extent that it receives sufficient money through gifts, grants, and donations as provided in subsection (7) of this section.

(b) The state board shall promulgate rules as provided in the "State Administrative Procedure Act", article 4 of title 24, as necessary, to implement the pilot program.

(4) A school district, group of school districts, board of cooperative services, or charter school may apply to the department to receive a grant through the pilot program. An application must include:

(a) The number of teachers and principals to whom the applicant will provide professional development in using culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade and the number and grade levels of students served by those teachers and principals;

(b) The professional development programs that the applicant expects to provide with the grant money;

(c) The other resources available to the applicant to provide the professional development;

(d) The aggregate number and type of disciplinary incidents occurring in preschool, kindergarten, and grades one through three in the schools operated by the applicant in the preceding three school years and the types of disciplinary responses and strategies used;

(e) The applicant's agreement to provide to the department the information necessary for the department to create the report described in subsection (6) of this section for each school year in which the applicant receives a grant; and

(f) Any additional information required by rule of the state board.
The department shall review the applications received pursuant to subsection (4) of this section and recommend to the state board which applicants should receive grants through the pilot program and the amount of each grant. The state board, taking into consideration the department's recommendations, shall award the grants, subject to available funding. In making recommendations and awarding grants, the department and the state board shall, to the extent practicable, award a grant to at least one school district, board of cooperative services, or charter school located in a rural area and shall consider:

(a) The level of financial need that an applicant demonstrates;
(b) The quality of the professional development grant programs that the applicant expects to provide with the grant money;
(c) The student demographics of the schools operated by the applicant and the use of exclusionary discipline methods in the preceding three school years by educators employed by the applicant; and
(d) Any additional criteria adopted by rule of the state board.

For each school year in which the state board awards grants through the pilot program, the department shall prepare a report concerning implementation of the pilot program. At a minimum, the report must include:

By April 15, 2018, and by April 15 each year thereafter, the department shall submit the report to the state board, the joint budget committee, and the education committees of the house of representatives and the senate, or any successor committees.

The pilot program is not eligible to receive state appropriations and must be funded solely through gifts, grants, or donations. The department may accept and expend gifts, grants, or donations from private or public sources for the purposes of the pilot program. Notwithstanding any provision of this section to the contrary, the department and the state board are not required to implement the pilot program, including promulgating rules and preparing the report described in subsection (6) of this section, in a budget year if the department does not receive at least three hundred thousand dollars in gifts, grants, or donations for the pilot program for that budget year.

This section is repealed, effective July 1, 2020.

(1)(a) The general assembly finds and declares that:

(I) The 2011 healthy kids Colorado survey indicates that the top three substances that high school students report they use are alcohol, marijuana, and prescription drugs;

(II) With the legalization of marijuana by citizen initiative in Colorado, there is an increased availability of marijuana in the community and, at the same time, a decreased perception of harm related to marijuana use;

(III) Evidence-based prevention and intervention programs and education awareness programs targeted to school children who are twelve to nineteen years of age are needed to:

(A) Increase the perceived risk of harm associated with marijuana and alcohol use and prescription drug misuse;

(B) Decrease the rates of youth marijuana and alcohol use and prescription drug misuse and delay the age of first-time use; and

(C) Decrease the number of drug- and alcohol-related violations, suspensions, and expulsions reported by schools.

(b) Therefore, the general assembly declares that it is appropriate to award grants to schools, community-based organizations, and health organizations to provide school-based prevention and intervention programs that use evidence-based strategies, practices, and approaches to reduce the risk of marijuana and alcohol use and prescription drug misuse by school-aged children. Successful school-based programs will lead to increased overall health, behavioral health, and educational outcomes for Colorado's youth.

(2) As used in this section, unless the context otherwise requires:

(a) "Entity" means a school, school district, board of cooperative services, a nonprofit or not-for-profit community-based organization, or a community-based behavioral health organization.

(b) "Grant program" means the school-based substance abuse prevention and intervention grant program created in subsection (3) of this section.

(3)(a) The school-based substance abuse prevention and intervention grant program is created within the state department. The purpose of the grant program is to award competitive grants to entities to provide school-based prevention and intervention programs for youth twelve to nineteen years of age primarily focused on reducing marijuana use, but including strategies and efforts to reduce alcohol use and prescription drug misuse.

(b) To be considered for a competitive grant, the entity must demonstrate in the grant proposal that:

(I) The grant will be used to implement evidence-based programs and strategies delivered in the school setting that are designed to improve overall health, behavioral health, and educational outcomes for youth who are twelve to nineteen years of age;

(II) The entity is delivering the program and strategies to at-risk youth, regardless of the youths' eligibility for Colorado's medical assistance program; and

(III) The evidence-based programs and strategies are designed to achieve the following outcomes:

(A) An increase in the perceived risk of harm associated with marijuana use, prescription drug misuse, and underage alcohol use among youth who are twelve to nineteen years of age;

(B) A decrease in the rates of youth marijuana use, alcohol use, and prescription drug misuse;

(C) A delay in the age of first use of marijuana, alcohol, or prescription drug misuse;
(D) A decrease in the rates of youth who have ever used marijuana or alcohol or misused prescription drugs in their lifetime; and

(E) A decrease in the number of drug- and alcohol-related violations on school property, suspensions, and expulsions reported by schools.

(4) On or before September 1, 2014, the state department shall establish procedures and timelines for grant applications, criteria for determining grant amounts and grantee reporting requirements, and any other grant program policies. The state department may amend these policies at any time.

(5) Subject to available appropriations, the state department shall award grants for the 2014-15 academic year and for each academic year thereafter. There is no limit on the number of grants that the state department may award, and the same entity may receive more than one grant if the state department considers the needs of at-risk students in communities throughout the state for school-based substance abuse prevention and intervention programs.

Professional immunity or liability

LAWS

22-12-104. Liability.
(1) An educational entity and its employees are immune from suit for taking an action regarding the supervision, grading, suspension, expulsion, or discipline of a student while the student is on the property of the educational entity or under the supervision of the educational entity or its employees; except that immunity shall not apply if the action is committed willfully and wantonly and violates a statute, rule, or regulation or a clearly articulated policy of the educational entity. The burden of proving the violation shall rest with the plaintiff and must be established by clear and convincing evidence to the court as part of a summary proceeding. If at the summary proceeding the court finds a violation exists, the educational entity and its employee may raise immunity at trial under the provisions of this article and the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S.

(2) An educational entity and its employees are immune from suit for making a report consistent with federal law to the appropriate law enforcement authorities or officials of an educational entity if the individual making the report has reasonable grounds to suspect that a student is:

(a) Under the influence of alcoholic beverages or of a controlled substance not lawfully prescribed to the student;

(b) In possession of a firearm or alcoholic beverages or of a controlled substance not lawfully prescribed to the student;

(c) Involved in the illegal solicitation, sale, or distribution of firearms or alcoholic beverages or of a controlled substance.

(3) A person claiming to have suffered an injury by an educational entity or an employee, whether or not by a violation of a statute, rule, or regulation or a clearly articulated policy of the educational entity, shall file a written notice as provided in section 24-10-109, C.R.S., within one hundred eighty days after the date of discovery of the injury, regardless of whether the person then knew all of the elements of a claim or of a cause of action for the injury. Compliance with the provisions of this subsection (3) shall be a jurisdictional prerequisite to any action brought under the provisions of this article, and failure of compliance shall forever bar any such action.

(9) Immunity.

(a) A school district board of education or a teacher or any other person acting in good faith in accordance with the provisions of subsection (2) of this section in carrying out the powers or duties authorized by said subsection shall be immune from criminal prosecution or civil liability for such actions; except that a teacher or any other person acting willfully or wantonly in violation of said subsection shall not be immune from criminal prosecution or civil liability pursuant to said subsection. A teacher or any other person claiming immunity from criminal prosecution under this paragraph (a) may file a motion that shall be heard prior to trial. At the hearing, the teacher or other person claiming immunity shall bear the burden of establishing the right to immunity by a preponderance of the evidence.
(b) A teacher or any other person acting in good faith and in compliance with the conduct and discipline code adopted by the board of education pursuant to paragraph (a) of subsection (2) of this section shall be immune from civil liability; except that a person acting willfully and wantonly shall not be immune from liability pursuant to this paragraph (b). The court shall dismiss any civil action resulting from actions taken by a teacher or any other person pursuant to the conduct and discipline code adopted by the board of education pursuant to paragraph (a) of subsection (2) of this section upon a finding by the court that the person acted in good faith and in compliance with such conduct and discipline code and was therefore immune from civil liability pursuant to paragraph (a) of this subsection (9). The court shall award court costs and reasonable attorney fees to the prevailing party in such a civil action.

(c) If a teacher or any other person does not claim or is not granted immunity from criminal prosecution pursuant to paragraph (a) of this subsection (9) and a criminal action is brought against a teacher or any other person for actions taken pursuant to the conduct and discipline code adopted by the board of education pursuant to paragraph (a) of subsection (2) of this section, it shall be an affirmative defense in the criminal action that the teacher or such other person was acting in good faith and in compliance with the conduct and discipline code and was not acting in a willful or wanton manner in violation of the conduct and discipline code.

(d) An act of a teacher or any other person shall not be considered child abuse pursuant to sections 18-6-401 (1) and 19-1-103 (1), C.R.S., if:

(I) The act was performed in good faith and in compliance with the conduct and discipline code adopted by the board of education pursuant to paragraph (a) of subsection (2) of this section; or

(II) The act was an appropriate expression of affection or emotional support, as determined by the board of education.

(e) A teacher or any other person who acts in good faith and in compliance with the conduct and discipline code adopted by the board of education pursuant to paragraph (a) of subsection (2) of this section shall not have his or her contract nonrenewed or be subject to any disciplinary proceedings, including dismissal, as a result of such lawful actions, nor shall the actions of the teacher or other person be reflected in any written evaluation or other personnel record concerning such teacher or other person. A teacher or any other person aggrieved by an alleged violation of this paragraph (e) may file a civil action in the appropriate district court within two years after the alleged violation.

(3)(b) The board of education of each school district shall adopt and implement policies and procedures concerning elementary and secondary school attendance, including but not limited to policies and procedures to work with children who are habitually truant. The policies and procedures must include provisions for the development of a plan. The plan must be developed with the goal of assisting the child to remain in school and, when practicable, with the full participation of the child's parent, guardian, or legal custodian. Appropriate school personnel shall make all reasonable efforts to meet with the parent, guardian, or legal custodian of the child to review and evaluate the reasons for the child's truancy. The appropriate school personnel are encouraged to work with the local community services group to develop the plan. The plan must be in compliance with section 22-33-108 (7) and include appropriate sanctions other than placement in a juvenile detention facility for a child who is habitually truant and who has refused to comply with the plan. The policies and procedures may also include but need not be limited to the following:

(IV) Establishing a system of monitoring individual unexcused absences of children which shall provide that, whenever a child who is enrolled in a public school fails to report to school on a regularly scheduled school day and school personnel have received no indication that the child's parent is aware of the child's absence, school personnel or volunteers under the direction of school personnel
shall make a reasonable effort to notify by telephone such parent. Any person who, in good faith, gives or fails to give notice pursuant to this subparagraph (IV) shall be immune from any liability, civil or criminal, which might otherwise be incurred or imposed and shall have the same immunity with respect to any judicial proceeding which results from such notice or failure to give such notice.

24-10-106.3. Immunity and partial waiver - claims for serious bodily injury or death on public school property or at school-sponsored events resulting from incidents of school violence - short title - definitions - repeal.

(1) This section shall be known and may be cited as the "Claire Davis School Safety Act".

(2) Definitions. For purposes of this section, unless the context otherwise requires:

(a) "Charter school" means a charter school or an institute charter school established pursuant to article 30.5 of title 22, C.R.S.

(b) "Crime of violence" means that the person committed, conspired to commit, or attempted to commit one of the following crimes:

(II) First degree assault; or

(III) A felony sexual assault, as defined in section 18-3-402, C.R.S.

(c) "Incident of school violence" means an occurrence at a public school or public school-sponsored activity in which a person:

(I) Engaged in a crime of violence; and

(II) The actions described in subparagraph (I) of this paragraph (c) by that person caused serious bodily injury or death to any other person.

(d) "Public school" has the same meaning as provided in section 22-1-101, C.R.S., and includes a charter school or institute charter school.

(e) "School district" means a school district organized pursuant to article 30 of title 22, C.R.S., and the charter school institute established pursuant to section 22-30.5-503, C.R.S.

(f) "Serious bodily injury" means bodily injury that, either at the time of the actual injury or a later time, involves a substantial risk of death, a substantial risk of serious permanent disfigurement, or a substantial risk of protracted loss or impairment of the function of any part or organ of the body.

(3) Recognition of duty of care. All school districts and charter schools and their employees in this state have a duty to exercise reasonable care to protect all students, faculty, and staff from harm from acts committed by another person when the harm is reasonably foreseeable, while such students, faculty, and staff are within the school facilities or are participating in school-sponsored activities.

(4) Limited waiver of sovereign immunity. Notwithstanding any other provision of this article, a public school district or charter school is immune from liability in all claims for injury that lie in tort or could lie in tort regardless of whether that may be the type of action or the form of relief chosen by the claimant except as otherwise provided in this section or in this article. In addition to any other claims for which the "Colorado Governmental Immunity Act" waives sovereign immunity in this article, sovereign immunity is waived under the "Colorado Governmental Immunity Act" with respect to school districts and charter schools for a claim of a breach of the duty of care established in subsection (3) of this section by the school district, a charter school, or an employee of the school district or charter school arising from an incident of school violence on or after June 3, 2015, and, with respect to such claims, the provisions of article 12 of title 22, C.R.S., do not apply to school districts and charter schools. An employee of a public school, school district, or a charter school is not subject to suit under this section in his or her individual capacity unless the employee's actions or omissions are willful and wanton.
(5) A public school, school district, or charter school shall not be found negligent under this section solely as a result of not expelling or suspending any student.

(6) Nothing in this section shall be construed to constitute a waiver of sovereign immunity by a school district or charter school if the injury arises from any act, or failure to act, of an employee of the school district or charter school if the act is the type of act for which the school district or charter school employee would be or heretofore has been personally immune from liability.

(7) In addition to the immunity provided under this section, the school district and charter school shall also have the same immunity as a school district or charter school employee for any act or failure to act for which a school district or charter school employee would be or heretofore has been personally immune from liability.

(8) No rule of law imposing absolute or strict liability shall be applied in any action filed against a school district or charter school pursuant to this section for serious bodily injury or death caused by a breach of the duty of care, established pursuant to subsection (3) of this section. No liability shall be imposed in any such action unless negligence is proven.

(9)(a) Except as provided in paragraph (b) of this subsection (9), the maximum amount of damages that may be recovered under this article in any single occurrence from a school district or charter school for a claim brought under this section is governed by the limits set forth in section 24-10-114 (1).

(b)(I) A plaintiff who files an action under this section for an incident of school violence that occurs on or after June 3, 2015, and on or before July 1, 2017, shall file the action in the district court, and no compensatory damages shall be awarded. The court shall not issue a declaratory judgement regarding the negligence of the public school, school district, or charter school; however, in such action, the plaintiff is entitled to full discovery regarding the incident of school violence.

(II) This paragraph (b) is repealed, effective July 1, 2018.

(10) In order to promote vigorous discovery of events leading to an incident of school violence in any action brought under this section, an offer of judgment by a defendant under section 13-17-202, C.R.S., prior to the completion of discovery, is not deemed rejected if not accepted until fourteen days after the completion of discovery, and the plaintiff is not liable for costs due to not accepting such an offer of judgment until fourteen days after the completion of discovery. If a defendant refuses to answer a complaint, or a default judgment is entered against a defendant for failure to answer a complaint, or a defendant confesses liability in an action brought under this section, the court shall allow full discovery upon request of the plaintiff.

LAWS

13-5-145. Truancy detention reduction policy - legislative declaration.
(1) The general assembly finds that:
   (a) Imposing a sentence of detention on a juvenile who violates a court order to attend school does not improve the likelihood that the juvenile will attend school and does not address the underlying causes of the juvenile’s truancy;
   (b) The best methods to address truancy and its underlying causes and the resources needed to implement those methods are different in each community;
(c) Since 2014, the juvenile courts in many judicial districts around the state have successfully reduced the use of detention for juveniles who are truant by implementing pilot projects through which the juvenile court imposes reasonable sanctions and, where possible, provides incentives to attend school, reserving detention as a sanction of last resort; and

(d) These pilot projects need additional time to produce meaningful data regarding the effectiveness of the alternate sanctions and incentives and to determine whether they result in improved outcomes for juveniles and their families.

(2) The chief judge in each judicial district, or his or her designee, shall convene a meeting of community stakeholders to create a policy for addressing truancy cases that seeks alternatives to the use of detention as a sanction for truancy. Community stakeholders may include, but need not be limited to:

(a) Parents;
(b) Representatives from school districts;
(c) Representatives from county departments of human or social services;
(d) Guardians ad litem;
(e) Court-appointed special advocates;
(f) Juvenile court judges;

(k) Representatives from the division of criminal justice in the department of public safety;
(l) Representatives from the state department of human services; and
(m) Representatives from the department of education.

(3) The chief judge in each judicial district shall adopt a policy for addressing truancy cases no later than March 15, 2016. In developing the policy for addressing truancy cases, the chief judge and the community stakeholders shall consider, at a minimum:

(a) Best practices for addressing truancy that are used in other judicial districts and in other states;
(b) Evidence-based practices to address and reduce truancy;
(c) Using a wide array of reasonable sanctions and reasonable incentives to address and reduce truancy;
(d) Using detention only as a last resort after exhausting all other reasonable sanctions and, when imposing detention, appropriately reducing the number of days served; and
(e) Research regarding the effect of detention on juveniles.

(4) The state court administrator’s office shall report to the judiciary committees of the house of representatives and the senate, or any successor committees, no later than April 15, 2016, regarding the policy for addressing truancy cases adopted by each judicial district.

The committee’s activities to increase parent engagement must include, but need not be limited to:
(I) Publicizing opportunities to serve and soliciting parents to serve on the school district accountability committee and school accountability committees. In soliciting parents to serve on the school district and school accountability committees, the school district accountability committee shall direct the outreach efforts to help ensure that the parents who serve on the district and school accountability committees reflect the student populations that are significantly represented within the school district and the school, as provided in section 22-11-301 (3).

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204.

22-33-204. Services for at-risk students - agreements with state agencies and community organizations.
(1) Each school district, regardless of the number of students expelled by the district, may enter into agreements with appropriate local governmental agencies and, to the extent necessary, with the managing state agencies, including the department of human services and the department of public health and environment; with community-based nonprofit and faith-based organizations; with nonpublic, nonparochial schools; with the department of military and veterans affairs; and with public and private institutions of higher education to work with the student's parent or guardian to provide services to any student, or the student's family, who is identified as being at risk of suspension or expulsion or who has been suspended or expelled. Any services provided pursuant to an agreement with a nonpublic, nonparochial school are subject to approval by the state board of education pursuant to section 22-2-107. Services provided through such agreements may include, but are not limited to:

(a) Educational services required to be provided under section 22-33-203 (2) and any educational services provided to at-risk students identified pursuant to section 22-33-202;

(b) Counseling services;
(c) Substance use disorder treatment programs;
(d) Family preservation services.
(e) and (f) (Deleted by amendment, L. 98, p. 570, § 3, effective April 30, 1998.)

(2) At a minimum, each agreement entered into pursuant to this section shall specify the services to be provided under the agreement, the entity that will coordinate and oversee provision of the services, and the responsibilities of each entity entering into the agreement. In addition, each agreement shall require each entity entering into the agreement to contribute the services or funds for the provision of the services specified in the agreement. The agreement shall specify the services or the amount and source of funds that each entity will provide and the mechanism for providing said services or funds.

(3) Each school district shall use a portion of its per pupil revenues to provide services under agreements entered into pursuant to this section for each student who is at risk of suspension or expulsion or who is suspended or expelled. In addition, the school district may use federal moneys, moneys received from any other state appropriation, and moneys received from any other public or private grant to provide said services.

(b) In addition to school districts, charter schools, alternative schools within school districts, nonpublic, nonparochial schools, boards of cooperative services, facility schools, and pilot schools, the department of military and veterans affairs may apply for a grant pursuant to the provisions of this section to assist the department with a program to provide educational services to expelled students; except that nonpublic, nonparochial schools may only apply for a grant pursuant to the provisions of this section to fund educational services that have been approved by the state board pursuant to section 22-2-107. The department shall follow application procedures established by the department of education pursuant to subsection (2) of this section. The department of education shall determine whether to award a grant to the department of military and veterans affairs and the amount of the grant.

22-93-106. School bullying prevention and education - availability of best practices and other resources.

(1) On or before November 1, 2011, the department shall create a page on its public web site at which the department shall continuously make publicly available evidence-based best practices and other resources for educators and other professionals engaged in bullying prevention and education.

(2) The department shall solicit evidence-based best practices and other resources from the school safety resource center created in section 24-33.5-1803, C.R.S.; from school districts; from the state charter school institute established in section 22-30.5-503; and from other state and federal agencies that are concerned with school bullying prevention and education. The education provider may use the money to contract with a community partner for behavioral health care services, including hiring private health care professionals, training, screening, and preventive supports. LAWS

22-1-119.3. Policy for student possession and administration of prescription medication - rules - definition.

(1) A school district board of education may adopt and implement a policy whereby, except as described in subsection (3) of this section, a student enrolled in a school of the school district may possess and self-administer on school grounds, upon a school bus, or at any school-sponsored event any medication that is prescribed by a licensed health care practitioner to be used by the student.

(2)(a) If a school district board of education adopts and implements a policy described by subsection (1) of this section, a parent or legal guardian of a student who is enrolled in a school of the school district and for whom medication is prescribed by a licensed health care practitioner shall notify the school's administration of the student’s medical needs and of the fact that the student may be in possession of his or her prescribed medications as described in subsection (1) of this section. The notification, when appropriate, shall include the treatment plan that has been devised for the student by a licensed health care practitioner.

(b) If a school's administration receives notice from a student's parent or legal guardian that the student may be in possession of his or her prescribed medications, the school's administration shall ensure that such notice is provided to the student's teachers and the school nurse or other person who is designated to provide health services to students at the school.

(c) Nothing in this section shall be construed to limit the ability of a public school to require a parent or legal guardian of a student who has medication prescribed for a life-threatening condition to provide to the school a sufficient supply of the medication to be stored at the school to be administered to the student in the event of a health emergency.

(3)(a) A policy adopted by a school district board of education pursuant to subsection (1) of this section shall include, but need not be limited to:

(I) A process by which a school may restrict a student from possessing and self-administering on school grounds, on a school bus, or at a school-sponsored event a medication that is prescribed by a licensed health care practitioner to be used by the student. The process shall require the school administration to make a determination as to whether a student's possession or self-administration of the medication poses a significant risk of harm to the student or to other students.

(II) A requirement that if a student has medication prescribed for a life-threatening condition, a sufficient supply of the medication is provided to the school by the student's parent or legal guardian, stored safely at the school, and kept readily available to be administered to the student in a timely fashion in the event of a health emergency.

(b) A student who possesses a prescribed medication on school grounds, upon a school bus, or at a school-sponsored event in accordance with a policy adopted by a school district pursuant to this section may possess only enough of his or her prescribed medication to render a sufficient dosage to the student to adequately treat the student's condition for a single day or for the duration of the event, whichever is appropriate; except that this provision shall not apply to a student who requires and possesses an insulin pump or other medical device that delivers dosages of prescribed medication to the student over a period of time that exceeds a single day or the duration of the event.

(c) A student shall not possess or self-administer medical marijuana on school grounds, upon a school bus, or at any school-sponsored event, except as provided for in paragraph (d) of this subsection (3).
(d)(1)(A) A primary caregiver may possess, and administer to a student who holds a valid recommendation for medical marijuana, medical marijuana in a nonsmokeable form upon the grounds of the preschool or primary or secondary school in which the student is enrolled, or upon a school bus or at a school-sponsored event. The primary caregiver shall not administer the nonsmokeable medical marijuana in a manner that creates disruption to the educational environment or causes exposure to other students.

   (B) After the primary caregiver administers the medical marijuana in a nonsmokeable form, the primary caregiver shall remove any remaining medical marijuana in a nonsmokeable form from the grounds of the preschool or primary or secondary school, the school bus, or school-sponsored event.

(II) Nothing in this section requires the school district staff to administer medical marijuana.

(III) A school district board of education or charter school may adopt policies regarding who may act as a primary caregiver pursuant to this paragraph (d) and the reasonable parameters of the administration and use of medical marijuana in a nonsmokeable form upon the grounds of the preschool or primary or secondary school in which the student is enrolled, or upon a school bus or at a school-sponsored event.

(IV) This paragraph (d) does not apply to a school district or charter school if:

   (A) The school district or charter school loses federal funding as a result of implementing this paragraph (d);

   (B) The school district or charter school can reasonably demonstrate that it lost federal funding as a result of implementing this paragraph (d); and

   (C) The school district or charter school posts on its website in a conspicuous place a statement regarding its decision not to comply with this paragraph (d).

(V) Student possession, use, distribution, or sale or being under the influence of a cannabinoid product inconsistent with this paragraph (d) is not permitted.

(VI) This paragraph (d) shall be known as "Jack's Law".

(d.5)(I) Medical marijuana in a nonsmokeable form shall not be administered at a school pursuant to this subsection (3)(d.5) unless a written plan for the administration of medical marijuana in a nonsmokeable form is agreed to and signed by the school principal or his or her designee and a parent or legal guardian.

(II) Prior to the administration of medical marijuana in a nonsmokeable form at school, the student's parent or legal guardian shall complete and submit to the school the documentation required by rule of the state board of education, including but not limited to:

   (A) A written medical marijuana recommendation that includes the signature of one of the recommending physicians and the purpose, recommended dosage, frequency, and length of time between dosages of the medical marijuana in a nonsmokeable form to be administered; and

   (B) A written statement from the student's parent or legal guardian releasing the school, and employees and volunteers of the school, from liability, except in cases of willful or wanton conduct or disregard of the criteria of the treatment plan.

(III)(A) Subject to the requirements specified in subsections (3)(d.5)(I) and (3)(d.5)(II) of this section, school personnel may possess, and administer to a student who holds a valid recommendation for medical marijuana, medical marijuana in a nonsmokeable form upon the grounds of the preschool or primary or secondary school in which the student is enrolled, or upon a school bus or at a school-sponsored event. The school personnel shall not administer the nonsmokeable medical marijuana in a manner that creates disruption to the educational environment or causes exposure to other
students. If a student who is subject to the provisions of this subsection (3)(d.5) takes a school trip outside of the state of Colorado or participates in a school activity outside of the state of Colorado, the provisions of this subsection (3)(d.5) do not apply for the time during which the student is engaged in the trip or activity outside of the state of Colorado.

(B) Nothing in this subsection (3)(d.5) requires any school personnel to administer medical marijuana. Administration of medical marijuana in a nonsmokeable form is at the discretion of the parent or legal guardian, the school principal or his or her designee, or the designated school personnel.

(C) It is an exception from the state's criminal laws for school personnel to possess and administer medical marijuana in a nonsmokeable form in compliance with this subsection (3)(d.5) to a student who holds a valid recommendation for medical marijuana, except as otherwise provided in section 18-18-406.3.

(IV) A school may adopt policies regarding who may act as school personnel pursuant to this subsection (3)(d.5) and the reasonable parameters of the administration and use of medical marijuana in a nonsmokeable form upon the grounds of the preschool or primary or secondary school in which the student is enrolled, or upon a school bus or at a school-sponsored event.

(V) This subsection (3)(d.5) does not apply to a school if:

(A) The school loses federal funding as a result of implementing this subsection (3)(d.5);

(B) The school can reasonably demonstrate that it lost federal funding as a result of implementing this subsection (3)(d.5); and

(C) The school posts on its website in a conspicuous place a statement regarding its decision not to comply with this subsection (3)(d.5).

(VI) Student possession, use, distribution, or sale, or a student being under the influence, of a cannabinoid product inconsistent with this subsection (3)(d.5) is not permitted.

(VII) The student's parent, guardian, or designee shall deliver the student's medical marijuana in a nonsmokeable form, in a container that contains clearly labeled instructions or the plan for administration must clearly specify instructions for the dosing, timing, and delivery route instructions from one of the student's recommending physicians, to the person designated by the school as the person who secures the medical marijuana before the student attends school for the school day. The person who secures the medical marijuana in a nonsmokeable form shall place the medical marijuana in a locked storage container. After the school personnel administers the medical marijuana in a nonsmokeable form, the school personnel shall place the medical marijuana in a locked medical marijuana storage container designated by the school. The person who secures the medical marijuana in a nonsmokeable form shall return any unused medical marijuana to the student's parent, guardian, or designee at the end of each school day. The student shall not handle the medical marijuana in a nonsmokeable form on the grounds of the school, school bus, or school-sponsored event.

(VIII) Neither this section nor any other state or federal law, including without limitation the "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended, and section 504 of the "Rehabilitation Act of 1973", 29 U.S.C. sec. 794, as amended, may be used to require a school or any employee or volunteer thereof to store medical marijuana on the grounds of a school, school bus, or school-sponsored event or to administer medical marijuana.

(IX) For purposes of this subsection (3)(d.5), "school personnel" means school personnel designated by agreement between the principal or his or her designee and a parent or legal guardian.

(e) Notwithstanding the provisions of section 22-33-106 (1)(d)(II), a school district or charter school may not discipline a student who holds a valid recommendation for medical marijuana solely because the
student requires medical marijuana in a nonsmokeable form as a reasonable accommodation necessary for the child to attend school.

(f) A school district or charter school may not deny eligibility to attend school to a student who holds a valid recommendation for medical marijuana solely because the student requires medical marijuana in a nonsmokeable form as a reasonable accommodation necessary for the child to attend school.

(4) The state board of education may promulgate rules for the implementation of this section.

(5) A school district board of education that adopts a policy pursuant to subsection (1) of this section shall be exempt from rules promulgated by the state board of education pursuant to the "Colorado Schoolchildren's Asthma, Food Allergy, and Anaphylaxis Health Management Act", section 22-1-119.5.

22-1-126. Safe2tell program.
As described in section 24-31-606, C.R.S., there is established the safe2tell program with the primary purpose of providing students and the community with the means to relay information anonymously concerning unsafe, potentially harmful, dangerous, violent, or criminal activities, or the threat of these activities, to appropriate law enforcement and public safety agencies and school officials.

24-31-602. Legislative declaration.
(1) The general assembly hereby finds and declares that:
(a) The purpose of this part 6 is to empower students and the community by offering a comprehensive program of education, awareness, and training and a readily accessible tool that allows students and the community to easily provide anonymous information about unsafe, potentially harmful, dangerous, violent, or criminal activities in schools, or the threat of these activities, to appropriate law enforcement and public safety agencies and school officials; and
(b) The ability to anonymously report information about unsafe, potentially harmful, dangerous, violent, or criminal activities in schools before or after they have occurred is critical in reducing, responding to, and recovering from these types of events in schools.

(2) The general assembly therefore finds that it is appropriate and necessary to provide for the anonymity of a person who provides information to law enforcement and public safety agencies and school officials and to provide for the confidentiality of associated materials.
