Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

LAWS

1003.02. District school board operation and control of public K-12 education within the school district.

As provided in part II of chapter 1001, district school boards are constitutionally and statutorily charged with the operation and control of public K-12 education within their school district. The district school boards must establish, organize, and operate their public K-12 schools and educational programs, employees, and facilities. Their responsibilities include staff development, public K-12 school student education including education for exceptional students and students in juvenile justice programs, special programs, adult education programs, and career education programs. Additionally, district school boards must:

1. Provide for the proper accounting for all students of school age, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students in the following areas:
   a. Admission, classification, promotion, and graduation of students. Adopt rules for admitting, classifying, promoting, and graduating students to or from the various schools of the district.
   b. Enforcement of attendance laws. Provide for the enforcement of all laws and rules relating to the attendance of students at school. District school boards are authorized to establish policies that allow accumulated unexcused tardies, regardless of when they occur during the school day, and early departures from school to be recorded as unexcused absences. District school boards are also authorized to establish policies that require referral to a school’s child study team for students who have fewer absences than the number required by s. 1003.26(1)(b).
   c. Control of students.
      1. Adopt rules for the control, attendance, discipline, in-school suspension, suspension, and expulsion of students and decide all cases recommended for expulsion.
      2. Maintain a code of student conduct as provided in chapter 1006.

1003.31. Students subject to control of school.

(1) Subject to law and rules of the State Board of Education and of the district school board, each student enrolled in a school shall:

   a. During a reasonable time before and after the student is on the premises for attendance at school or for authorized participation in a school-sponsored activity, and only when on the premises, be under the control and direction of the principal or teacher in charge of the school, and under the immediate control and direction of the teacher or other member of the instructional staff or of the bus driver to whom such responsibility may be assigned by the principal. However, the State Board of Education or the district school board may, by rules, subject each student to the control and direction of the principal or teacher in charge of the school during the time she or he is otherwise en route to or from school or is presumed by law to be attending school. Each district school board, each district school superintendent, and each school principal shall fully support the authority of teachers, according to s. 1003.32, and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting.
1003.53. Dropout prevention and academic intervention.

(7) The State Board of Education shall have the authority pursuant to ss. 120.536(1) and 120.54 to adopt rules necessary to implement the provisions of this section; such rules shall require the minimum amount of necessary paperwork and reporting.

1003.573. Use of restraint and seclusion on students with disabilities.

(3) School district policies and procedures.

(a) Each school district shall develop policies and procedures that are consistent with this section and that govern the following:

1. Incident-reporting procedures.

2. Data collection and monitoring, including when, where, and why students are restrained or secluded; the frequency of occurrences of such restraint or seclusion; and the prone or mechanical restraint that is most used.

3. Monitoring and reporting of data collected.

4. Training programs relating to manual or physical restraint and seclusion.

5. The district's plan for selecting personnel to be trained.

6. The district’s plan for reducing the use of restraint and seclusion particularly in settings in which it occurs frequently or with students who are restrained repeatedly, and for reducing the use of prone restraint and mechanical restraint. The plan must include a goal for reducing the use of restraint and seclusion and must include activities, skills, and resources needed to achieve that goal. Activities may include, but are not limited to:

   a. Additional training in positive behavioral support and crisis management;

   b. Parental involvement;

   c. Data review;

   d. Updates of students’ functional behavioral analysis and positive behavior intervention plans;

   e. Additional student evaluations;

   f. Debriefing with staff;

   g. Use of schoolwide positive behavior support; and

   h. Changes to the school environment.

(b) Any revisions to the district’s policies and procedures, which must be prepared as part of its special policies and procedures, must be filed with the bureau chief of the Bureau of Exceptional Education and Student Services no later than January 31, 2012.

1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(1) Control of Students.

(a) Adopt rules for the control, discipline, in-school suspension, suspension, and expulsion of students and decide all cases recommended for expulsion. Suspension hearings are exempted from the provisions of chapter 120. Expulsion hearings shall be governed by ss. 120.569 and 120.57(2) and are exempt from s. 286.011. However, the student’s parent must be given notice of the provisions of s. 286.011 and may elect to have the hearing held in compliance with that section. The district school
board may prohibit the use of corporal punishment, if the district school board adopts or has adopted a written program of alternative control or discipline.

(b) Require each student at the time of initial registration for school in the school district to note previous school expulsions, arrests resulting in a charge, and juvenile justice actions the student has had, and have the authority as the district school board of a receiving school district to honor the final order of expulsion or dismissal of a student by any in-state or out-of-state public district school board or private school, or lab school, for an act which would have been grounds for expulsion according to the receiving district school board’s code of student conduct, in accordance with the following procedures:

1. A final order of expulsion shall be recorded in the records of the receiving school district.
2. The expelled student applying for admission to the receiving school district shall be advised of the final order of expulsion.
3. The district school superintendent of the receiving school district may recommend to the district school board that the final order of expulsion be waived and the student be admitted to the school district, or that the final order of expulsion be honored and the student not be admitted to the school district. If the student is admitted by the district school board, with or without the recommendation of the district school superintendent, the student may be placed in an appropriate educational program at the direction of the district school board.

(2) Code of Student Conduct. Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(a) Consistent policies and specific grounds for disciplinary action, including in-school suspension, out-of-school suspension, expulsion, and any disciplinary action that may be imposed for the possession or use of alcohol on school property or while attending a school function or for the illegal use, sale, or possession of controlled substances as defined in chapter 893.

(b) Procedures to be followed for acts requiring discipline, including corporal punishment.

(c) An explanation of the responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.

(d)

1. An explanation of the responsibilities of each student with regard to appropriate dress, respect for self and others, and the role that appropriate dress and respect for self and others has on an orderly learning environment. Each district school board shall adopt a dress code policy that prohibits a student, while on the grounds of a public school during the regular school day, from wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the orderly learning environment.
2. Any student who violates the dress policy described in subparagraph 1. is subject to the following disciplinary actions:
   a. For a first offense, a student shall be given a verbal warning and the school principal shall call the student’s parent or guardian.
b. For a second offense, the student is ineligible to participate in any extracurricular activity for a period of time not to exceed 5 days and the school principal shall meet with the student’s parent or guardian.

c. For a third or subsequent offense, a student shall receive an in-school suspension pursuant to s. 1003.01(5) for a period not to exceed 3 days, the student is ineligible to participate in any extracurricular activity for a period not to exceed 30 days, and the school principal shall call the student’s parent or guardian and send the parent or guardian a written letter regarding the student’s in-school suspension and ineligibility to participate in extracurricular activities.

(e) Notice that illegal use, possession, or sale of controlled substances, as defined in chapter 893, by any student while the student is upon school property or in attendance at a school function is grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(f) Notice that use of a wireless communications device includes the possibility of the imposition of disciplinary action by the school or criminal penalties if the device is used in a criminal act. A student may possess a wireless communications device while the student is on school property or in attendance at a school function. Each district school board shall adopt rules governing the use of a wireless communications device by a student while the student is on school property or in attendance at a school function.

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student’s parent. Disciplinary action resulting from a student’s clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

(h) Notice that violence against any district school board personnel by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.
(i) Notice that violation of district school board transportation policies, including disruptive behavior on a school bus or at a school bus stop, by a student is grounds for suspension of the student’s privilege of riding on a school bus and may be grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(j) Notice that violation of the district school board’s sexual harassment policy by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(k) Policies to be followed for the assignment of violent or disruptive students to an alternative educational program.

(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year and referred to the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

(m) Notice that any student who is determined to have made a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel’s property, school transportation, or a school-sponsored activity will be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year and referred for criminal prosecution. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if it is determined to be in the best interest of the student and the school system.

(3) Student Crime Watch Program. By resolution of the district school board, implement a student crime watch program to promote responsibility among students and to assist in the control of criminal behavior within the schools.

(4) Emergency Drills; Emergency Procedures.

(a) Formulate and prescribe policies and procedures for emergency drills and for actual emergencies, including, but not limited to, fires, natural disasters, and bomb threats, for all the public schools of the district which comprise grades K-12. District school board policies shall include commonly used alarm system responses for specific types of emergencies and verification by each school that drills have been provided as required by law and fire protection codes. The emergency response agency that is responsible for notifying the school district for each type of emergency must be listed in the district’s emergency response policy.

(b) Establish model emergency management and emergency preparedness procedures, including emergency notification procedures pursuant to paragraph (a), for the following life-threatening emergencies:

1. Weapon-use and hostage situations.
2. Hazardous materials or toxic chemical spills.
3. Weather emergencies, including hurricanes, tornadoes, and severe storms.
4. Exposure as a result of a manmade emergency.

(5) Educational Services in Detention Facilities. Offer educational services to minors who have not graduated from high school and eligible students with disabilities under the age of 22 who have not graduated with a standard diploma or its equivalent who are detained in a county or municipal detention facility as defined in s. 951.23. These educational services shall be based upon the estimated length of time the student will be in the facility and the student’s current level of functioning. District school superintendents or their designees shall be notified by the county sheriff or chief correctional officer, or his or her designee, upon the assignment of a student under the age of 21 to the facility. A cooperative agreement with the district school board and applicable law enforcement units shall be developed to address the notification requirement and the provision of educational services to these students.

(6) Safety and Security Best Practices. Use the Safety and Security Best Practices developed by the Office of Program Policy Analysis and Government Accountability to conduct a self-assessment of the school districts’ current safety and security practices. Based on these self-assessment findings, the district school superintendent shall provide recommendations to the district school board which identify strategies and activities that the district school board should implement in order to improve school safety and security. Annually each district school board must receive the self-assessment results at a publicly noticed district school board meeting to provide the public an opportunity to hear the district school board members discuss and take action on the report findings. Each district school superintendent shall report the self-assessment results and school board action to the commissioner within 30 days after the district school board meeting.

1006.13. Policy of zero tolerance for crime and victimization.

(2) Each district school board shall adopt a policy of zero tolerance that:

(a) Defines criteria for reporting to a law enforcement agency any act that occurs whenever or wherever students are within the jurisdiction of the district school board.

(b) Defines acts that pose a serious threat to school safety.

(c) Defines petty acts of misconduct.

(d) Minimizes the victimization of students, staff, or volunteers, including taking all steps necessary to protect the victim of any violent crime from any further victimization.

(e) Establishes a procedure that provides each student with the opportunity for a review of the disciplinary action imposed pursuant to s. 1006.07.

1006.135. Hazing prohibited at schools with any of grades 6-12.

(2) SCHOOL DISTRICT POLICY. Each school district shall adopt in rule a policy that prohibits hazing and establishes consequences for a student who commits an act of hazing. The policy must include:

(a) A definition of hazing, which must include the definition provided in this section.

(b) A procedure for reporting an alleged act of hazing, including provisions that permit a person to anonymously report such an act. However, disciplinary action may not be based solely on an anonymous report.

(c) A requirement that a school with any of grades 9 through 12 report an alleged act of hazing to a local law enforcement agency if the alleged act meets the criteria established under subsection (3).

(d) A provision for referral of victims and perpetrators of hazing to a certified school counselor.

(e) A requirement that each incident of hazing be reported in the school’s safety and discipline report required under s. 1006.09(6). The report must include the number of hazing incidents reported, the number of incidents referred to a local law enforcement agency, the number of incidents that result in
disciplinary action taken by the school, and the number of incidents that do not result in either referral to a local law enforcement agency or disciplinary action taken by the school.

1006.147. Bullying and harassment prohibited.

(4) Each school district shall adopt and review at least every 3 years a policy prohibiting bullying and harassment of a student or employee of a public K-12 educational institution. Each school district’s policy shall be in substantial conformity with the Department of Education’s model policy. The school district bullying and harassment policy shall afford all students the same protection regardless of their status under the law. The school district may establish separate discrimination policies that include categories of students. The school district shall involve students, parents, teachers, administrators, school staff, school volunteers, community representatives, and local law enforcement agencies in the process of adopting and reviewing the policy. The school district policy must be implemented by each school principal in a manner that is ongoing throughout the school year and integrated with the school’s curriculum, bullying prevention and intervention program, discipline policies, and other violence prevention efforts. The school district policy must contain, at a minimum, the following components:

(a) A statement prohibiting bullying and harassment.
(b) A definition of bullying and a definition of harassment that include the definitions listed in this section.
(c) A description of the type of behavior expected from each student and employee of a public K-12 educational institution.
(d) The consequences for a student or employee of a public K-12 educational institution who commits an act of bullying or harassment.
(e) The consequences for a student or employee of a public K-12 educational institution who is found to have wrongfully and intentionally accused another of an act of bullying or harassment.
(f) A procedure for receiving reports of an alleged act of bullying or harassment, including provisions that permit a person to anonymously report such an act. However, this paragraph does not permit formal disciplinary action to be based solely on an anonymous report.
(g) A procedure for the prompt investigation of a report of bullying or harassment and the persons responsible for the investigation. The investigation of a reported act of bullying or harassment is deemed to be a school-related activity and begins with a report of such an act. Incidents that require a reasonable investigation when reported to appropriate school authorities shall include alleged incidents of bullying or harassment allegedly committed against a child while the child is en route to school aboard a school bus or at a school bus stop.
(h) A process to investigate whether a reported act of bullying or harassment is within the scope of the district school system and, if not, a process for referral of such an act to the appropriate jurisdiction. Computers without web-filtering software or computers with web-filtering software that is disabled shall be used when complaints of cyberbullying are investigated.
(i) A procedure for providing immediate notification to the parents of a victim of bullying or harassment and the parents of the perpetrator of an act of bullying or harassment, as well as notification to all local agencies where criminal charges may be pursued against the perpetrator.
(j) A procedure to refer victims and perpetrators of bullying or harassment for counseling.
(k) A procedure for including incidents of bullying or harassment in the school’s report of data concerning school safety and discipline required under s. 1006.09(6). The report must include each incident of bullying or harassment and the resulting consequences, including discipline and referrals. The report must include in a separate section each alleged incident of bullying or harassment that does
not meet the criteria of a prohibited act under this section with recommendations regarding such incidents. The Department of Education shall aggregate information contained in the reports.

(i) A list of programs authorized by the school district that provide instruction to students, parents, teachers, school administrators, counseling staff, and school volunteers on identifying, preventing, and responding to bullying or harassment, including instruction on recognizing behaviors that lead to bullying and harassment and taking appropriate preventive action based on those observations.

(m) A procedure for regularly reporting to a victim’s parents the actions taken to protect the victim.

(n) A procedure for publicizing the policy, which must include its publication in the code of student conduct required under s. 1006.07(2) and in all employee handbooks.

1006.148. Dating violence and abuse prohibited.

(1) Each district school board shall adopt and implement a dating violence and abuse policy. The policy shall:

(a) Prohibit dating violence and abuse by any student on school property, during a school-sponsored activity, or during school-sponsored transportation.

(b) Provide procedures for responding to such incidents of dating violence or abuse, including accommodations for students experiencing dating violence or abuse.

(c) Define dating violence and abuse and provide for a teen dating violence and abuse component in the health education curriculum, according to s. 1003.42(2)(n), with emphasis on prevention education.

LAWS

1003.31. Students subject to control of school.

(1) Subject to law and rules of the State Board of Education and of the district school board, each student enrolled in a school shall:

(a) During the time she or he is being transported to or from school at public expense;

(b) During the time she or he is attending school;

(c) During the time she or he is on the school premises participating with authorization in a school-sponsored activity; and

(d) During a reasonable time before and after the student is on the premises for attendance at school or for authorized participation in a school-sponsored activity, and only when on the premises, be under the control and direction of the principal or teacher in charge of the school, and under the immediate control and direction of the teacher or other member of the instructional staff or of the bus driver to whom such responsibility may be assigned by the principal. However, the State Board of Education or the district school board may, by rules, subject each student to the control and direction of the principal or teacher in charge of the school during the time she or he is otherwise en route to or from school or is presumed by law to be attending school.

(2) There is a rebuttable presumption that the term “reasonable time” means 30 minutes before or after the activity is scheduled or actually begins or ends, whichever period is longer. A school or district school board may, by policy or other formal action, assume a longer period of supervision. Casual or incidental
contact between school district personnel and students on school property shall not result in a legal duty to supervise outside of the reasonable times set forth in this section, provided that parents shall be advised in writing twice per year or by posted signs of the school’s formal supervisory responsibility and that parents should not rely on additional supervision. The duty of supervision shall not extend to anyone other than students attending school and students authorized to participate in school-sponsored activities.

1006.147. Bullying and harassment prohibited.
(2) Bullying or harassment of any student or employee of a public K-12 educational institution is prohibited:
   (a) During any education program or activity conducted by a public K-12 educational institution;
   (b) During any school-related or school-sponsored program or activity or on a school bus of a public K-12 educational institution;
   (c) Through the use of data or computer software that is accessed through a computer, computer system, or computer network within the scope of a public K-12 educational institution; or
   (d) Through the use of data or computer software that is accessed at a nonschool-related location, activity, function, or program or through the use of technology or an electronic device that is not owned, leased, or used by a school district or school, if the bullying substantially interferes with or limits the victim’s ability to participate in or benefit from the services, activities, or opportunities offered by a school or substantially disrupts the education process or orderly operation of a school. This paragraph does not require a school to staff or monitor any nonschool-related activity, function, or program.

(3) For purposes of this section:
   (d) “Within the scope of a public K-12 educational institution” means, regardless of ownership, any computer, computer system, or computer network that is physically located on school property or at a school-related or school-sponsored program or activity.

(6)
   (a) The physical location or time of access of a computer-related incident cannot be raised as a defense in any disciplinary action initiated under this section.
   (b) This section does not apply to any person who uses data or computer software that is accessed through a computer, computer system, or computer network when acting within the scope of his or her lawful employment or investigating a violation of this section in accordance with school district policy.

1006.148. Dating violence and abuse prohibited.
(1) Each district school board shall adopt and implement a dating violence and abuse policy. The policy shall:
   (a) Prohibit dating violence and abuse by any student on school property, during a school-sponsored activity, or during school-sponsored transportation.

**1003.32. Authority of teacher; responsibility for control of students; district school board and principal duties.**

(5) If a teacher removes a student from class under subsection (4), the principal may place the student in another appropriate classroom, in in-school suspension, or in a dropout prevention and academic intervention program as provided by s. 1003.53; or the principal may recommend the student for out-of-school suspension or expulsion, as appropriate. The student may be prohibited from attending or participating in school-sponsored or school-related activities. The principal may not return the student to that teacher’s class without the teacher’s consent unless the committee established under subsection (6) determines that such placement is the best or only available alternative. The teacher and the placement review committee must render decisions within 5 days of the removal of the student from the classroom.

**1003.53. Dropout prevention and academic intervention.**

(1)(d) 6. Prior to assignment of students to second chance schools, district school boards are encouraged to use alternative programs, such as in-school suspension, which provide instruction and counseling leading to improved student behavior, a reduction in the incidence of truancy, and the development of more effective interpersonal skills.

(1) (b) […] A good faith effort shall be made by the principal or the principal’s designee to employ parental assistance or other alternative measures prior to suspension, except in the case of emergency or disruptive conditions which require immediate suspension or in the case of a serious breach of conduct as defined by rules of the district school board. […]

(c) […] Any recommendation of expulsion shall include a detailed report by the principal or the principal’s designated representative on the alternative measures taken prior to the recommendation of expulsion.

**1006.13. Policy of zero tolerance for crime and victimization.**

(1) It is the intent of the Legislature to promote a safe and supportive learning environment in schools, to protect students and staff from conduct that poses a serious threat to school safety, and to encourage schools to use alternatives to expulsion or referral to law enforcement agencies by addressing disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. The Legislature finds that zero-tolerance policies are not intended to be rigorously applied to petty acts of misconduct and misdemeanors, including, but not limited to, minor fights or disturbances. The Legislature finds that zero-tolerance policies must apply equally to all students regardless of their economic status, race, or disability.

(8) School districts are encouraged to use alternatives to expulsion or referral to law enforcement agencies unless the use of such alternatives will pose a threat to school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:
   (2) Code of student conduct. [...] Each code shall include, but is not limited to:
      (a) Consistent policies and specific grounds for disciplinary action, including in-school suspension, out-of-school suspension, expulsion, and any disciplinary action that may be imposed for the possession or use of alcohol on school property or while attending a school function or for the illegal use, sale, or possession of controlled substances as defined in chapter 893.
      (d) 1. An explanation of the responsibilities of each student with regard to appropriate dress, respect for self and others, and the role that appropriate dress and respect for self and others has on an orderly learning environment. Each district school board shall adopt a dress code policy that prohibits a student, while on the grounds of a public school during the regular school day, from wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the orderly learning environment.
      2. Any student who violates the dress policy described in subparagraph 1. is subject to the following disciplinary actions:
         a. For a first offense, a student shall be given a verbal warning and the school principal shall call the student’s parent or guardian.
         b. For a second offense, the student is ineligible to participate in any extracurricular activity for a period of time not to exceed 5 days and the school principal shall meet with the student’s parent or guardian.

(f) Notice that use of a wireless communications device includes the possibility of the imposition of disciplinary action by the school or criminal penalties if the device is used in a criminal act. A student may possess a wireless communications device while the student is on school property or in attendance at a school function. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.

5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student’s parent. Disciplinary action resulting from a student’s clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

(h) Notice that violence against any district school board personnel by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(i) Notice that violation of district school board transportation policies, including disruptive behavior on a school bus or at a school bus stop, by a student is grounds for suspension of the student’s privilege of riding on a school bus and may be grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

1006.09. Duties of school principal relating to student discipline and school safety.

(1) (b) The principal or the principal’s designee may suspend a student only in accordance with the rules of the district school board. The principal or the principal’s designee shall make a good faith effort to immediately inform a student’s parent by telephone of a student’s suspension and the reasons for the suspension. Each suspension and the reasons for the suspension shall be reported in writing within 24 hours to the student’s parent by United States mail. Each suspension and the reasons for the suspension shall also be reported in writing within 24 hours to the district school superintendent. A good faith effort shall be made by the principal or the principal’s designee to employ parental assistance or other alternative measures prior to suspension, except in the case of emergency or disruptive conditions which require immediate suspension or in the case of a serious breach of conduct as defined by rules of the district school board. Such rules shall require oral and written notice to the student of the charges and an explanation of the evidence against him or her prior to the suspension. [...] 

(c) The principal or the principal’s designee may recommend to the district school superintendent the expulsion of any student who has committed a serious breach of conduct, including, but not limited to, willful disobedience, open defiance of authority of a member of his or her staff, violence against persons or property, or any other act which substantially disrupts the orderly conduct of the school. A recommendation of expulsion or assignment to a second chance school may also be made for any student found to have intentionally made false accusations that jeopardize the professional reputation, employment, or professional certification of a teacher or other member of the school staff, according to the district school board code of student conduct. Any recommendation of expulsion shall include a detailed report by the principal or the principal’s designated representative on the alternative measures taken prior to the recommendation of expulsion.

(2) [...] If the court determines that the student did commit the felony or delinquent act which would have been a felony if committed by an adult, the district school board may expel the student, provided that expulsion under this subsection shall not affect the delivery of educational services to the student in any residential, nonresidential, alternative, daytime, or evening program outside of the regular school setting. Any student who is subject to discipline or expulsion for unlawful possession or use of any substance controlled under chapter 893 may be entitled to a waiver of the discipline or expulsion:

(a) If the student divulges information leading to the arrest and conviction of the person who supplied the controlled substance to him or her, or if the student voluntarily discloses his or her unlawful possession of the controlled substance prior to his or her arrest. Any information divulged which leads to arrest and conviction is not admissible in evidence in a subsequent criminal trial against the student divulging the information.

(b) If the student commits himself or herself, or is referred by the court in lieu of sentence, to a state-licensed drug abuse program and successfully completes the program.

For a third or subsequent offense, a student shall receive an in-school suspension pursuant to s. 1003.01(5) for a period not to exceed 3 days, the student is ineligible to participate in any extracurricular activity for a period not to exceed 30 days, and the school principal shall call the student’s parent or guardian and send the parent or guardian a written letter regarding the student’s in-school suspension and ineligibility to participate in extracurricular activities.

(h) Notice that violence against any district school board personnel by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(i) Notice that violation of district school board transportation policies, including disruptive behavior on a school bus or at a school bus stop, by a student is grounds for suspension of the student’s privilege of riding on a school bus and may be grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(j) Notice that violation of the district school board’s sexual harassment policy by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year and referred to the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

(m) Notice that any student who is determined to have made a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel’s property, school transportation, or a school-sponsored activity will be expelled, with or without continuing educational
services, from the student’s regular school for a period of not less than 1 full year and referred for criminal prosecution. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if it is determined to be in the best interest of the student and the school system.

1006.13. Policy of zero tolerance for crime and victimization.

(1) It is the intent of the Legislature to promote a safe and supportive learning environment in schools, to protect students and staff from conduct that poses a serious threat to school safety, and to encourage schools to use alternatives to expulsion or referral to law enforcement agencies by addressing disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. The Legislature finds that zero-tolerance policies are not intended to be rigorously applied to petty acts of misconduct and misdemeanors, including, but not limited to, minor fights or disturbances. The Legislature finds that zero-tolerance policies must apply equally to all students regardless of their economic status, race, or disability.

(2) Each district school board shall adopt a policy of zero tolerance that:

(a) Defines criteria for reporting to a law enforcement agency any act that occurs whenever or wherever students are within the jurisdiction of the district school board.

(b) Defines acts that pose a serious threat to school safety.

(c) Defines petty acts of misconduct.

(d) Minimizes the victimization of students, staff, or volunteers, including taking all steps necessary to protect the victim of any violent crime from any further victimization.

(e) Establishes a procedure that provides each student with the opportunity for a review of the disciplinary action imposed pursuant to s. 1006.07.

(3) Zero-tolerance policies must require students found to have committed one of the following offenses to be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year, and to be referred to the criminal justice or juvenile justice system.

(a) Bringing a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation or possessing a firearm at school.

(b) Making a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel’s property, school transportation, or a school-sponsored activity.

District school boards may assign the student to a disciplinary program for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system. If a student committing any of the offenses in this subsection is a student who has a disability, the district school board shall comply with applicable State Board of Education rules.

(5) Notwithstanding any other provision of law, each district school board shall adopt rules providing that any student found to have committed any offense in s. 784.081(1), (2), or (3) shall be expelled or placed in an alternative school setting or other program, as appropriate. Upon being charged with the offense, the student shall be removed from the classroom immediately and placed in an alternative school setting pending disposition.

1006.09. Duties of school principal relating to student discipline and school safety.
(1) (b) The principal or the principal’s designee may suspend a student only in accordance with the rules of the district school board. The principal or the principal’s designee shall make a good faith effort to immediately inform a student’s parent by telephone of a student’s suspension and the reasons for the suspension. Each suspension and the reasons for the suspension shall be reported in writing within 24 hours to the student’s parent by United States mail. A good faith effort shall be made by the principal or the principal’s designee to employ parental assistance or other alternative measures prior to suspension, except in the case of emergency or disruptive conditions which require immediate suspension or in the case of a serious breach of conduct as defined by rules of the district school board. Such rules shall require oral and written notice to the student of the charges and an explanation of the evidence against him or her prior to the suspension. Each student shall be given an opportunity to present his or her side of the story. No student shall be suspended for unexcused tardiness, lateness, absence, or truancy. The principal or the principal’s designee may suspend any student transported to or from school at public expense from the privilege of riding on a school bus for violation of district school board transportation policies, which shall include a policy regarding behavior at school bus stops, and the principal or the principal’s designee shall give notice in writing to the student’s parent and to the district school superintendent within 24 hours. School personnel shall not be held legally responsible for suspensions of students made in good faith.

(2) [...] Any student who is subject to discipline or expulsion for unlawful possession or use of any substance controlled under chapter 893 may be entitled to a waiver of the discipline or expulsion:

(a) If the student divulges information leading to the arrest and conviction of the person who supplied the controlled substance to him or her, or if the student voluntarily discloses his or her unlawful possession of the controlled substance prior to his or her arrest. Any information divulged which leads to arrest and conviction is not admissible in evidence in a subsequent criminal trial against the student divulging the information.

(b) If the student commits himself or herself, or is referred by the court in lieu of sentence, to a state-licensed drug abuse program and successfully completes the program.

(5) Any recommendation for the suspension or expulsion of a student with a disability must be made in accordance with rules adopted by the State Board of Education.

LAWS

1002.20 K-12 student and parent rights.
Parents of public school students must receive accurate and timely information regarding their child’s academic progress and must be informed of ways they can help their child to succeed in school. K-12 students and their parents are afforded numerous statutory rights including, but not limited to, the following:

(4) Discipline.

(a) Suspension of public school student. In accordance with the provisions of s. 1006.09(1)-(4):

1. A student may be suspended only as provided by rule of the district school board. A good faith effort must be made to immediately inform the parent by telephone of the student’s suspension and the reason. Each suspension and the reason must be reported in writing within 24 hours to the parent by United States mail. A good faith effort must be made to use parental assistance before suspension unless the situation requires immediate suspension.

2. A student with a disability may only be recommended for suspension or expulsion in accordance with State Board of Education rules.

(b) Expulsion. Public school students and their parents have the right to written notice of a recommendation of expulsion, including the charges against the student and a statement of the right of the student to due process, in accordance with the provisions of s. 1006.08(1).

(c) Corporal punishment.

1. In accordance with the provisions of s. 1003.32, corporal punishment of a public-school student may only be administered by a teacher or school principal within guidelines of the school principal and according to district school board policy. Another adult must be present and must be informed in the student’s presence of the reason for the punishment. Upon request, the teacher or school principal must provide the parent with a written explanation of the reason for the punishment and the name of the other adult who was present.

2. A district school board having a policy authorizing the use of corporal punishment as a form of discipline shall review its policy on corporal punishment once every 3 years during a district school board meeting held pursuant to s. 1001.372. The district school board shall take public testimony at the board meeting. If such board meeting is not held in accordance with this subparagraph, the portion of the district school board’s policy authorizing corporal punishment expires.

1003.32 Authority of teacher; responsibility for control of students; district school board and principal duties

(6) (d) The teacher who withheld consent to readmitting the student may not serve on the committee. The teacher and the placement review committee must render decisions within 5 days after the removal of the student from the classroom. If the placement review committee’s decision is contrary to the decision of the teacher to withhold consent to the return of the removed student to the teacher’s class, the teacher may appeal the committee’s decision to the district school superintendent.

1006.07 District school board duties relating to student discipline and school safety.
The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(1) Control of Students.
(a) Adopt rules for the control, discipline, in-school suspension, suspension, and expulsion of students and decide all cases recommended for expulsion. Suspension hearings are exempted from the provisions of chapter 120. Expulsion hearings shall be governed by ss. 120.569 and 120.57(2) and are exempt from s. 286.011. However, the student’s parent must be given notice of the provisions of s. 286.011 and may elect to have the hearing held in compliance with that section. The district school board may prohibit the use of corporal punishment, if the district school board adopts or has adopted a written program of alternative control or discipline.

(b) Require each student at the time of initial registration for school in the school district to note previous school expulsions, arrests resulting in a charge, and juvenile justice actions the student has had, and have the authority as the district school board of a receiving school district to honor the final order of expulsion or dismissal of a student by any in-state or out-of-state public district school board or private school, or lab school, for an act which would have been grounds for expulsion according to the receiving district school board’s code of student conduct, in accordance with the following procedures:

1. A final order of expulsion shall be recorded in the records of the receiving school district.
2. The expelled student applying for admission to the receiving school district shall be advised of the final order of expulsion.
3. The district school superintendent of the receiving school district may recommend to the district school board that the final order of expulsion be waived and the student be admitted to the school district, or that the final order of expulsion be honored and the student not be admitted to the school district. If the student is admitted by the district school board, with or without the recommendation of the district school superintendent, the student may be placed in an appropriate educational program at the direction of the district school board.

(2) Code of Student Conduct. Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(a) Consistent policies and specific grounds for disciplinary action, including in-school suspension, out-of-school suspension, expulsion, and any disciplinary action that may be imposed for the possession or use of alcohol on school property or while attending a school function or for the illegal use, sale, or possession of controlled substances as defined in chapter 893.

(b) Procedures to be followed for acts requiring discipline, including corporal punishment.

(c) An explanation of the responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.

(d) An explanation of the responsibilities of each student with regard to appropriate dress, respect for self and others, and the role that appropriate dress and respect for self and others has on an orderly learning environment. Each district school board shall adopt a dress code policy that prohibits a student, while on the grounds of a public school during the regular school day, from wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the orderly learning environment.
2. Any student who violates the dress policy described in subparagraph 1. is subject to the following disciplinary actions:

a. For a first offense, a student shall be given a verbal warning and the school principal shall call the student's parent or guardian.

b. For a second offense, the student is ineligible to participate in any extracurricular activity for a period of time not to exceed 5 days and the school principal shall meet with the student's parent or guardian.

c. For a third or subsequent offense, a student shall receive an in-school suspension pursuant to s. 1003.01(5) for a period not to exceed 3 days, the student is ineligible to participate in any extracurricular activity for a period not to exceed 30 days, and the school principal shall call the student's parent or guardian and send the parent or guardian a written letter regarding the student's in-school suspension and ineligibility to participate in extracurricular activities.

(e) Notice that illegal use, possession, or sale of controlled substances, as defined in chapter 893, by any student while the student is upon school property or in attendance at a school function is grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(f) Notice that use of a wireless communications device includes the possibility of the imposition of disciplinary action by the school or criminal penalties if the device is used in a criminal act. A student may possess a wireless communications device while the student is on school property or in attendance at a school function. Each district school board shall adopt rules governing the use of a wireless communications device by a student while the student is on school property or in attendance at a school function.

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student’s parent. Disciplinary action resulting from a student’s clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner
that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

(h) Notice that violence against any district school board personnel by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(i) Notice that violation of district school board transportation policies, including disruptive behavior on a school bus or at a school bus stop, by a student is grounds for suspension of the student's privilege of riding on a school bus and may be grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(j) Notice that violation of the district school board's sexual harassment policy by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(k) Policies to be followed for the assignment of violent or disruptive students to an alternative educational program.

(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year and referred to the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

(m) Notice that any student who is determined to have made a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel's property, school transportation, or a school-sponsored activity will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year and referred for criminal prosecution. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if it is determined to be in the best interest of the student and the school system.

(3) Student Crime Watch Program. By resolution of the district school board, implement a student crime watch program to promote responsibility among students and to assist in the control of criminal behavior within the schools.

(4) Emergency Drills; Emergency Procedures.

(a) Formulate and prescribe policies and procedures for emergency drills and for actual emergencies, including, but not limited to, fires, natural disasters, and bomb threats, for all the public schools of the district which comprise grades K-12. District school board policies shall include commonly used alarm system responses for specific types of emergencies and verification by each school that drills have been provided as required by law and fire protection codes. The emergency response agency that is responsible for notifying the school district for each type of emergency must be listed in the district’s emergency response policy.
(b) Establish model emergency management and emergency preparedness procedures, including emergency notification procedures pursuant to paragraph (a), for the following life-threatening emergencies:

1. Weapon-use and hostage situations.
2. Hazardous materials or toxic chemical spills.
3. Weather emergencies, including hurricanes, tornadoes, and severe storms.
4. Exposure as a result of a manmade emergency.

(5) Educational Services in Detention Facilities. Offer educational services to minors who have not graduated from high school and eligible students with disabilities under the age of 22 who have not graduated with a standard diploma or its equivalent who are detained in a county or municipal detention facility as defined in s. 951.23. These educational services shall be based upon the estimated length of time the student will be in the facility and the student’s current level of functioning. District school superintendents or their designees shall be notified by the county sheriff or chief correctional officer, or his or her designee, upon the assignment of a student under the age of 21 to the facility. A cooperative agreement with the district school board and applicable law enforcement units shall be developed to address the notification requirement and the provision of educational services to these students.

(6) Safety and Security Best Practices. Use the Safety and Security Best Practices developed by the Office of Program Policy Analysis and Government Accountability to conduct a self-assessment of the school districts’ current safety and security practices. Based on these self-assessment findings, the district school superintendent shall provide recommendations to the district school board which identify strategies and activities that the district school board should implement in order to improve school safety and security. Annually each district school board must receive the self-assessment results at a publicly noticed district school board meeting to provide the public an opportunity to hear the district school board members discuss and take action on the report findings. Each district school superintendent shall report the self-assessment results and school board action to the commissioner within 30 days after the district school board meeting.

1006.08. District school superintendent duties relating to student discipline and school safety

(1) When the district school superintendent makes a recommendation for expulsion to the district school board, he or she shall give written notice to the student and the student’s parent of the recommendation, setting forth the charges against the student and advising the student and his or her parent of the student’s right to due process as prescribed by ss. 120.569 and 120.57(2).

1006.09 Duties of school principal relating to student discipline and school safety

(1) (b) Such rules shall require oral and written notice to the student of the charges and an explanation of the evidence against him or her prior to the suspension. Each student shall be given an opportunity to present his or her side of the story.

(2) Suspension proceedings, pursuant to rules of the State Board of Education, may be initiated against any enrolled student who is formally charged with a felony, or with a delinquent act which would be a felony if committed by an adult, by a proper prosecuting attorney for an incident which allegedly occurred on property other than public school property, if that incident is shown, in an administrative hearing with notice provided to the parents of the student by the principal of the school pursuant to rules adopted by the State Board of Education and to rules developed pursuant to s. 1001.54, to have an adverse impact on the educational program, discipline, or welfare in the school in which the student is enrolled.
1006.09. Duties of school principal relating to student discipline and school safety.

(1)(a) Subject to law and to the rules of the State Board of Education and the district school board, the principal in charge of the school or the principal’s designee shall develop policies for delegating to any teacher or other member of the instructional staff or to any bus driver transporting students of the school responsibility for the control and direction of students. Each school principal shall fully support the authority of his or her teachers and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting. The principal or the principal’s designee must give full consideration to the recommendation for discipline made by a teacher, other member of the instructional staff, or a bus driver when making a decision regarding student referral for discipline.

(b) The principal or the principal’s designee may suspend a student only in accordance with the rules of the district school board. The principal or the principal’s designee shall make a good faith effort to immediately inform a student’s parent by telephone of a student’s suspension and the reasons for the suspension. Each suspension and the reasons for the suspension shall be reported in writing within 24 hours to the student's parent by United States mail. Each suspension and the reasons for the suspension shall also be reported in writing within 24 hours to the district school superintendent. A good faith effort shall be made by the principal or the principal’s designee to employ parental assistance or other alternative measures prior to suspension, except in the case of emergency or disruptive conditions which require immediate suspension or in the case of a serious breach of conduct as defined by rules of the district school board. Such rules shall require oral and written notice to the student of the charges and an explanation of the evidence against him or her prior to the suspension. Each student shall be given an opportunity to present his or her side of the story. No student shall be suspended for unexcused tardiness, lateness, absence, or truancy. The principal or the principal’s designee may suspend any student transported to or from school at public expense from the privilege of riding on a school bus for violation of district school board transportation policies, which shall include a policy regarding behavior at school bus stops, and the principal or the principal’s designee shall give notice in writing to the student’s parent and to the district school superintendent within 24 hours. School personnel shall not be held legally responsible for suspensions of students made in good faith.

(c) The principal or the principal’s designee may recommend to the district school superintendent the expulsion of any student who has committed a serious breach of conduct, including, but not limited to, willful disobedience, open defiance of authority of a member of his or her staff, violence against persons or property, or any other act which substantially disrupts the orderly conduct of the school. A recommendation of expulsion or assignment to a second chance school may also be made for any student found to have intentionally made false accusations that jeopardize the professional reputation, employment, or professional certification of a teacher or other member of the school staff, according to the district school board code of student conduct. Any recommendation of expulsion shall include a detailed report by the principal or the principal’s designated representative on the alternative measures taken prior to the recommendation of expulsion.

(2) Suspension proceedings, pursuant to rules of the State Board of Education, may be initiated against any enrolled student who is formally charged with a felony, or with a delinquent act which would be a felony if committed by an adult, by a proper prosecuting attorney for an incident which allegedly occurred on property other than public school property, if that incident is shown, in an administrative hearing with notice provided to the parents of the student by the principal of the school pursuant to rules adopted by the State Board of Education and to rules developed pursuant to s. 1001.54, to have an adverse impact on the educational program, discipline, or welfare in the school in which the student is enrolled. Any student who is suspended as the result of such proceedings may be suspended from all classes of instruction on public school grounds during regular classroom hours for a period of time, which may
exceed 10 days, as determined by the district school superintendent. The suspension shall not affect the delivery of educational services to the student, and the student shall be immediately enrolled in a daytime alternative education program, or an evening alternative education program, where appropriate. If the court determines that the student did commit the felony or delinquent act which would have been a felony if committed by an adult, the district school board may expel the student, provided that expulsion under this subsection shall not affect the delivery of educational services to the student in any residential, nonresidential, alternative, daytime, or evening program outside of the regular school setting. Any student who is subject to discipline or expulsion for unlawful possession or use of any substance controlled under chapter 893 may be entitled to a waiver of the discipline or expulsion:

(a) If the student divulges information leading to the arrest and conviction of the person who supplied the controlled substance to him or her, or if the student voluntarily discloses his or her unlawful possession of the controlled substance prior to his or her arrest. Any information divulged which leads to arrest and conviction is not admissible in evidence in a subsequent criminal trial against the student divulging the information.

(b) If the student commits himself or herself, or is referred by the court in lieu of sentence, to a state-licensed drug abuse program and successfully completes the program.

(3) A student may be disciplined or expelled for unlawful possession or use of any substance controlled under chapter 893 upon the third violation of this provision.

(4) When a student has been the victim of a violent crime perpetrated by another student who attends the same school, the school principal shall make full and effective use of the provisions of subsection (2) and s. 1006.13(6). A school principal who fails to comply with this subsection shall be ineligible for any portion of the performance pay or the differentiated pay under s. 1012.22. However, if any party responsible for notification fails to properly notify the school, the school principal shall be eligible for the performance pay or differentiated pay.

(5) Any recommendation for the suspension or expulsion of a student with a disability must be made in accordance with rules adopted by the State Board of Education.

(6) Each school principal must ensure that standardized forms prescribed by rule of the State Board of Education are used to report data concerning school safety and discipline to the department. The school principal must develop a plan to verify the accuracy of reported incidents.

(7) The State Board of Education shall adopt by rule a standardized form to be used by each school principal to report data concerning school safety and discipline.

(8) The school principal shall require all school personnel to report to the principal or principal’s designee any suspected unlawful use, possession, or sale by a student of any controlled substance, as defined in s. 893.02; any counterfeit controlled substance, as defined in s. 831.31; any alcoholic beverage, as defined in s. 561.01(4); or model glue. School personnel are exempt from civil liability when reporting in good faith to the proper school authority such suspected unlawful use, possession, or sale by a student. Only a principal or principal’s designee is authorized to contact a parent or legal guardian of a student regarding this situation. Reports made and verified under this subsection shall be forwarded to an appropriate agency. The principal or principal’s designee shall timely notify the student’s parent that a verified report made under this subsection with respect to the student has been made and forwarded.

(9) A school principal or a school employee designated by the principal, if she or he has reasonable suspicion that a prohibited or illegally possessed substance or object is contained within a student’s locker or other storage area, may search the locker or storage area. The district school board shall require and each school principal shall cause to be posted in each public K-12 school, in a place readily seen by students, a notice stating that a student’s locker or other storage area is subject to search, upon reasonable suspicion, for prohibited or illegally possessed substances or objects. This subsection does
not prohibit the use of metal detectors or specially trained animals in the course of a search for illegally possessed substances or objects.

   c. The student’s high incidences of truancy have been directly linked to a lack of motivation.
   d. The student has been identified as at risk of dropping out of school.

4. A student who is habitually truant may be assigned to a second chance school only if the case staffing committee, established pursuant to s. 984.12, determines that such placement could be beneficial to the student and the criteria included in subparagraph 3. are met.

Attendance and truancy

LAWS

1002.20. K-12 student and parent rights.
Parents of public school students must receive accurate and timely information regarding their child’s academic progress and must be informed of ways they can help their child to succeed in school. K-12 students and their parents are afforded numerous statutory rights including, but not limited to, the following:
(2) Attendance.
(a) Compulsory school attendance. The compulsory school attendance laws apply to all children between the ages of 6 and 16 years, as provided in s. 1003.21(1) and (2)(a), and, in accordance with the provisions of s. 1003.21(1) and (2)(a):

1. A student who attains the age of 16 years during the school year has the right to file a formal declaration of intent to terminate school enrollment if the declaration is signed by the parent. The parent has the right to be notified by the school district of the district’s receipt of the student’s declaration of intent to terminate school enrollment.

2. Students who become or have become married or who are pregnant, and parenting have the right to attend school and receive the same or equivalent educational instruction as other students.

(b) Regular school attendance. Parents of students who have attained the age of 6 years by February 1 of any school year but who have not attained the age of 16 years must comply with the compulsory school attendance laws. Parents have the option to comply with the school attendance laws by attendance of the student in a public school; a parochial, religious, or denominational school; a private school; a home education program; or a private tutoring program, in accordance with the provisions of s. 1003.01(13).

(c) Absence for religious purposes. A parent of a public-school student may request and be granted permission for absence of the student from school for religious instruction or religious holidays, in accordance with the provisions of s. 1003.21(2)(b)1.

(d) Absence for treatment of autism spectrum disorder. A parent of a public school student may request and be granted permission for absence of the student from school for an appointment scheduled to receive a therapy service provided by a licensed health care practitioner or behavior analyst certified pursuant to s. 393.17 for the treatment of autism spectrum disorder pursuant to ss. 1003.21(2)(b)2. and 1003.24(4).

(e) Dropout prevention and academic intervention programs. The parent of a public school student has the right to receive written notice by certified mail prior to placement of the student in a dropout prevention and academic intervention program and shall be notified in writing and entitled to an administrative review of any action by school personnel relating to the student’s placement, in accordance with the provisions of s. 1003.53(5).

The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) Contact, refer, and enforce.
(a) Upon each unexcused absence, or absence for which the reason is unknown, the school principal or his or her designee shall contact the student’s parent to determine the reason for the absence. If the absence is an excused absence, as defined by district school board policy, the school shall provide opportunities for the student to make up assigned work and not receive an academic penalty unless the work is not made up within a reasonable time.

(b) If a student has had at least five unexcused absences, or absences for which the reasons are unknown, within a calendar month or 10 unexcused absences, or absences for which the reasons are unknown, within a 90-calendar-day period, the student’s primary teacher shall report to the school principal or his or her designee that the student may be exhibiting a pattern of nonattendance. The principal shall, unless there is clear evidence that the absences are not a pattern of nonattendance, refer the case to the school’s child study team to determine if early patterns of truancy are developing. If the child study team finds that a pattern of nonattendance is developing, whether the absences are excused or not, a meeting with the parent must be scheduled to identify potential remedies, and the principal shall notify the district school superintendent and the school district contact for home education programs that the referred student is exhibiting a pattern of nonattendance.

(c) If an initial meeting does not resolve the problem, the child study team shall implement the following:

1. Frequent attempts at communication between the teacher and the family.
2. Evaluation for alternative education programs.
3. Attendance contracts.

The child study team may, but is not required to, implement other interventions, including referral to other agencies for family services or recommendation for filing a truancy petition pursuant to s.984.151.

(d) The child study team shall be diligent in facilitating intervention services and shall report the case to the district school superintendent only when all reasonable efforts to resolve the nonattendance behavior are exhausted.

(e) If the parent refuses to participate in the remedial strategies because he or she believes that those strategies are unnecessary or inappropriate, the parent may appeal to the district school board. The district school board may provide a hearing officer, and the hearing officer shall make a recommendation for final action to the district school board. If the district school board’s final determination is that the strategies of the child study team are appropriate, and the parent still refuses to participate or cooperate, the district school superintendent may seek criminal prosecution for noncompliance with compulsory school attendance.

(f) 1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district’s regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(b). The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(b).
2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of “regular school attendance” under s. 1003.01(13)(a), (b), (c), or (e), within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s.1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(b).

(g) If a student subject to compulsory school attendance will not comply with attempts to enforce school attendance, the parent or the district school superintendent or his or her designee shall refer the case to the case staffing committee pursuant to s. 984.12, and the district school superintendent or his or her designee may file a truancy petition pursuant to the procedures in s. 984.151.

(2) Give written notice.

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt mail, to the parent when no valid reason is found for a student’s nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, and may refer the case to the case staffing committee, established pursuant to s. 984.12. The district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

(b) Subsequent to the activities required under subsection (1), the district school superintendent or his or her designee shall give written notice in person or by return-receipt mail to the parent that criminal prosecution is being sought for nonattendance. The district school superintendent may file a truancy petition, as defined in s. 984.03, following the procedures outlined in s. 984.151.

(3) Return student to parent. A designated school representative may visit the home or place of residence of a student and any other place in which he or she is likely to find any student who is required to attend school when the student is not enrolled or is absent from school during school hours without an excuse, and, when the student is found, shall return the student to his or her parent or to the principal or teacher in charge of the school, or to the private tutor from whom absent, or to the juvenile assessment center or other location established by the district school board to receive students who are absent from school. Upon receipt of the student, the parent shall be immediately notified.

(4) Report to appropriate authority. A designated school representative shall report to the appropriate authority designated by law to receive such notices, all violations of the Child Labor Law that may come to his or her knowledge.

(5) Right to inspect. A designated school representative shall have the right of access to, and inspection of, establishments where minors may be employed or detained only for the purpose of ascertaining whether students of compulsory school age are actually employed there and are actually working there regularly. The designated school representative shall, if he or she finds unsatisfactory working conditions or violations of the Child Labor Law, report his or her findings to the appropriate authority.

1003.53. Dropout prevention and academic intervention.

(1)(c) A student shall be identified as being eligible to receive services funded through the dropout prevention and academic intervention program based upon one of the following criteria:

2. The student has a pattern of excessive absenteeism or has been identified as a habitual truant.
(d) 3. A student enrolled in a sixth, seventh, eighth, ninth, or tenth grade class may be assigned to a second chance school if the student meets the following criteria:
   a. The student is a habitual truant as defined in s. 1003.01.
   b. The student’s excessive absences have detrimentally affected the student’s academic progress and the student may have unique needs that a traditional school setting may not meet.
   c. The student’s high incidences of truancy have been directly linked to a lack of motivation.
   d. The student has been identified as at risk of dropping out of school.

4. A student who is habitually truant may be assigned to a second chance school only if the case staffing committee, established pursuant to s. 984.12, determines that such placement could be beneficial to the student and the criteria included in subparagraph 3. are met.

This subsection does not prohibit the use of metal detectors or specially trained animals in the course of a search for illegally possessed substances or objects.

(g) A procedure for the prompt investigation of a report of bullying or harassment and the persons responsible for the investigation. The investigation of a reported act of bullying or harassment is deemed to be a school-related activity and begins with a report of such an act. Incidents that require a reasonable investigation when reported to appropriate school authorities shall include alleged incidents of bullying or harassment allegedly committed against a child while the child is en route to school aboard a school bus or at a school bus stop.

(5) A school employee, school volunteer, student, or parent who promptly reports in good faith an act of bullying or harassment to the appropriate school official designated in the school district’s policy and who makes this report in compliance with the procedures set forth in the policy is immune from a cause of action for damages arising out of the reporting itself or any failure to remedy the reported incident.

(6)
(a) The physical location or time of access of a computer-related incident cannot be raised as a defense in any disciplinary action initiated under this section.

(b) This section does not apply to any person who uses data or computer software that is accessed through a computer, computer system, or computer network when acting within the scope of his or her lawful employment or investigating a violation of this section in accordance with school district policy.

(7) Distribution of safe schools funds provided to a school district shall be contingent upon and payable to the school district upon the school district’s compliance with all reporting procedures contained in this section.

(8) On or before January 1 of each year, the Commissioner of Education shall report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the implementation of this section. The report shall include data collected pursuant to paragraph (4)(k).

(9) Nothing in this section shall be construed to abridge the rights of students or school employees that are protected by the First Amendment to the Constitution of the United States.

juvenile offenders among all parties. The agreement must specify the conditions under which summary
criminal history information is to be made available to appropriate school personnel, and the conditions
under which school records are to be made available to appropriate department personnel. Such
agreement shall require notification to any classroom teacher of assignment to the teacher’s classroom
of a juvenile who has been placed in a probation or commitment program for a felony offense. The

2. A public records custodian may choose not to electronically publish on the custodian’s website the arrest or booking photographs of a child which are not confidential and exempt under this section or otherwise restricted from publication by law; however, this subparagraph does not restrict public access to records as provided by s. 119.07.

(b) This subsection is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2021, unless reviewed and saved from repeal through reenactment by the Legislature.

(3) A law enforcement agency may release a copy of the juvenile offense report to the victim of the offense. However, information gained by the victim under this chapter, including the next of kin of a homicide victim, regarding any case handled in juvenile court, must not be revealed to any outside party, except as is reasonably necessary in pursuit of legal remedies.

(4)

(a) Notwithstanding any other provision of this section, when a child of any age is taken into custody by a law enforcement officer for an offense that would have been a felony if committed by an adult, or a crime of violence, the law enforcement agency must notify the superintendent of schools that the child is alleged to have committed the delinquent act.

Any employee of a district school board who knowingly and willfully discloses such information to an unauthorized person commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

985.101. Taking a child into custody.

(1) A child may be taken into custody under the following circumstances:

(b) For a delinquent act or violation of law, pursuant to Florida law pertaining to a lawful arrest. If such delinquent act or violation of law would be a felony if committed by an adult or involves a crime of
violence, the arresting authority shall immediately notify the district school superintendent, or the superintendent’s designee, of the school district with educational jurisdiction of the child. Such notification shall include other education providers such as the Florida School for the Deaf and the Blind, university developmental research schools, and private elementary and secondary schools. The principal must immediately notify the child’s immediate classroom teachers. Information provided by an arresting authority under this paragraph may not be placed in the student’s permanent record and shall be removed from all school records no later than 9 months after the date of the arrest.

(2) Give written notice.

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt mail, to the parent when no valid reason is found for a student’s nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, and may refer the case to the case staffing committee, established pursuant to s. 984.12. The district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

(b) Subsequent to the activities required under subsection (1), the district school superintendent or his or her designee shall give written notice in person or by return-receipt mail to the parent that criminal prosecution is being sought for nonattendance. The district school superintendent may file a truancy petition, as defined in s. 984.03, following the procedures outlined in s. 984.151.

(4) Report to appropriate authority. A designated school representative shall report to the appropriate authority designated by law to receive such notices, all violations of the Child Labor Law that may come to his or her knowledge.

1003.29. Notice to schools of court action.

If a court takes action that directly involves a student’s school, including, but not limited to, an order that a student attend school, attend school with his or her parent, perform at grade level, or perform community service hours at the school, the office of the clerk of the court shall provide notice to the school of the court’s action.

1003.32. Authority of teacher; responsibility for control of students; district school board and principal duties.

(8) Each teacher or other member of the staff of any school who knows or has reason to suspect that any person has committed, or has made a credible threat to commit, a crime of violence on school property shall report such knowledge or suspicion in accordance with the provisions of s.1006.13. Each district school superintendent and each school principal shall fully support good faith reporting in accordance with the provisions of this subsection and s. 1006.13.

1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(5) Educational Services in Detention Facilities. Offer educational services to minors who have not graduated from high school and eligible students with disabilities under the age of 22 who have not
graduated with a standard diploma or its equivalent who are detained in a county or municipal detention facility as defined in s. 951.23. These educational services shall be based upon the estimated length of time the student will be in the facility and the student’s current level of functioning. District school superintendents or their designees shall be notified by the county sheriff or chief correctional officer, or his or her designee, upon the assignment of a student under the age of 21 to the facility. A cooperative agreement with the district school board and applicable law enforcement units shall be developed to address the notification requirement and the provision of educational services to these students.

1006.08. District school superintendent duties relating to student discipline and school safety.

(2) Notwithstanding the provisions of s. 985.04(7) or any other provision of law to the contrary, the court shall, within 48 hours of the finding, notify the appropriate district school superintendent of the name and address of any student found to have committed a delinquent act, or who has had adjudication of a delinquent act withheld which, if committed by an adult, would be a felony, or the name and address of any student found guilty of a felony. Notification shall include the specific delinquent act found to have been committed or for which adjudication was withheld, or the specific felony for which the student was found guilty.

1006.09. Duties of school principal relating to student discipline and school safety.

(8) [...] Reports made and verified under this subsection shall be forwarded to an appropriate agency. [...] 

1006.13 Policy of zero tolerance for crime and victimization.

(1) It is the intent of the Legislature to promote a safe and supportive learning environment in schools, to protect students and staff from conduct that poses a serious threat to school safety, and to encourage schools to use alternatives to expulsion or referral to law enforcement agencies by addressing disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. The Legislature finds that zero-tolerance policies are not intended to be rigorously applied to petty acts of misconduct and misdemeanors, including, but not limited to, minor fights or disturbances.

(4) (a) Each district school board shall enter into agreements with the county sheriff’s office and local police department specifying guidelines for ensuring that acts that pose a serious threat to school safety, whether committed by a student or adult, are reported to a law enforcement agency.

(c) Zero-tolerance policies do not require the reporting of petty acts of misconduct and misdemeanors to a law enforcement agency, including, but not limited to, disorderly conduct, disrupting a school function, simple assault or battery, affray, theft of less than $300, trespassing, and vandalism of less than $1,000.

1006.13. Policy of zero tolerance for crime and victimization.

(1) It is the intent of the Legislature to promote a safe and supportive learning environment in schools, to protect students and staff from conduct that poses a serious threat to school safety, and to encourage schools to use alternatives to expulsion or referral to law enforcement agencies by addressing disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. The Legislature finds that zero-tolerance policies are not intended to be rigorously applied to petty acts of misconduct and misdemeanors, including, but not limited to, minor fights or disturbances. The Legislature finds that zero-tolerance policies must apply equally to all students regardless of their economic status, race, or disability.

(2) Each district school board shall adopt a policy of zero tolerance that:

(a) Defines criteria for reporting to a law enforcement agency any act that occurs whenever or wherever students are within the jurisdiction of the district school board.

(4)
(a) Each district school board shall enter into agreements with the county sheriff’s office and local police department specifying guidelines for ensuring that acts that pose a serious threat to school safety, whether committed by a student or adult, are reported to a law enforcement agency.

(b) The agreements must include the role of school resource officers, if applicable, in handling reported incidents, circumstances in which school officials may handle incidents without filing a report with a law enforcement agency, and a procedure for ensuring that school personnel properly report appropriate delinquent acts and crimes.

(c) Zero-tolerance policies do not require the reporting of petty acts of misconduct and misdemeanors to a law enforcement agency, including, but not limited to, disorderly conduct, disrupting a school function, simple assault or battery, affray, theft of less than $300, trespassing, and vandalism of less than $1,000.

(d) The school principal shall ensure that all school personnel are properly informed as to their responsibilities regarding crime reporting, that appropriate delinquent acts and crimes are properly reported, and that actions taken in cases with special circumstances are properly taken and documented.

(6)

(a) Notwithstanding any provision of law prohibiting the disclosure of the identity of a minor, whenever any student who is attending a public school is adjudicated guilty of or delinquent for, or is found to have committed, regardless of whether adjudication is withheld, or pleads guilty or nolo contendere to, a felony violation of:

1. Chapter 782, relating to homicide;
2. Chapter 784, relating to assault, battery, and culpable negligence;
3. Chapter 787, relating to kidnapping, false imprisonment, luring or enticing a child, and custody offenses;
4. Chapter 794, relating to sexual battery;
5. Chapter 800, relating to lewdness and indecent exposure;
6. Chapter 827, relating to abuse of children;
7. Section 812.13, relating to robbery;
8. Section 812.131, relating to robbery by sudden snatching;
9. Section 812.133, relating to carjacking; or
10. Section 812.135, relating to home-invasion robbery, and,

before or at the time of such adjudication, withholding of adjudication, or plea, the offender was attending a school attended by the victim or a sibling of the victim of the offense, the Department of Juvenile Justice shall notify the appropriate district school board of the adjudication or plea, the requirements in this paragraph, and whether the offender is prohibited from attending that school or riding on a school bus whenever the victim or a sibling of the victim is attending the same school or riding on the same school bus, except as provided pursuant to a written disposition order under s. 985.455(2). Upon receipt of such notice, the district school board shall take appropriate action to effectuate the provisions in paragraph (b).

(b) Each district school board shall adopt a cooperative agreement with the Department of Juvenile Justice which establishes guidelines for ensuring that any no contact order entered by a court is reported and enforced and that all of the necessary steps are taken to protect the victim of the offense. Any offender described in paragraph (a), who is not exempted as provided in paragraph (a), may not attend any school attended by the victim or a sibling of the victim of the offense or ride on a school bus on which the victim or a sibling of the victim is riding. The offender shall be permitted by the district
school board to attend another school within the district in which the offender resides, only if the other
school is not attended by the victim or sibling of the victim of the offense; or the offender may be
permitted by another district school board to attend a school in that district if the offender is unable to
attend any school in the district in which the offender resides.

(c) If the offender is unable to attend any other school in the district in which the offender resides and is
prohibited from attending a school in another school district, the district school board in the school
district in which the offender resides shall take every reasonable precaution to keep the offender
separated from the victim while on school grounds or on school transportation. The steps to be taken by
a district school board to keep the offender separated from the victim must include, but are not limited
to, in-school suspension of the offender and the scheduling of classes, lunch, or other school activities
of the victim and the offender so as not to coincide.

(d) The offender, or the parents of the offender if the offender is a juvenile, shall arrange and pay for
transportation associated with or required by the offender’s attending another school or that would be
required as a consequence of the prohibition against riding on a school bus on which the victim or a
sibling of the victim is riding. However, the offender or the parents of the offender may not be charged
for existing modes of transportation that can be used by the offender at no additional cost to the district
school board.

(8) School districts are encouraged to use alternatives to expulsion or referral to law enforcement
agencies unless the use of such alternatives will pose a threat to school safety.

(5) APPLICABILITY TO RECORDS OF DEFUNCT INSTITUTIONS. This section applies to student records that any nonpublic educational institution that is no longer operating has deposited with the district school superintendent in the county where the nonpublic educational institution was located.

written consent of the student or parent to parties to an interagency agreement among the Department of Juvenile Justice, the school, law enforcement authorities, and other signatory agencies. Information provided in furtherance of an interagency agreement is intended solely for use in determining the appropriate programs and services for each juvenile or the juvenile’s family, or for coordinating the delivery of the programs and services, and as such is inadmissible in any court proceeding before a dispositional hearing unless written consent is provided by a parent or other responsible adult on behalf of the juvenile.

1002.222. Limitations on collection of information and disclosure of confidential and exempt student records.

(1) An agency or institution as defined in s. 1002.22(1) may not:

(a) Collect, obtain, or retain information on the political affiliation, voting history, religious affiliation, or biometric information of a student or a parent or sibling of the student. For purposes of this subsection, the term “biometric information” means information collected from the electronic measurement or evaluation of any physical or behavioral characteristics that are attributable to a single person, including fingerprint characteristics, hand characteristics, eye characteristics, vocal characteristics, and any other physical characteristics used for the purpose of electronically identifying that person with a high degree of certainty. Examples of biometric information include, but are not limited to, a fingerprint or hand scan, a retina or iris scan, a voice print, or a facial geometry scan. (2) The governing board of an agency or institution may only designate information as directory information in accordance with 20 U.S.C. s. 1232g and applicable federal regulations. Such designation must occur at a regularly scheduled meeting of the governing board. The governing board of an agency or institution must consider whether designation of such information would put students at risk of becoming targets of marketing campaigns, the media, or criminal acts. An agency or institution may charge fees for copies of designated directory information as provided in s. 119.07(4).

1003.53. Dropout prevention and academic intervention.

(6) District school board dropout prevention and academic intervention programs shall be coordinated with social service, law enforcement, prosecutorial, and juvenile justice agencies and juvenile assessment centers in the school district.
