Compilation of School Discipline Laws and Regulations

Prepared: June 30, 2022
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

20-2-730. Policies and regulations on use of corporal punishment.

All area, county, and independent boards of education shall be authorized to determine and adopt policies and regulations relating to the use of corporal punishment by school principals and teachers employed by such boards.

20-2-735. Adoption of policies by local boards to improve student learning environment.

(a) No later than July 1, 2000, each local board of education shall adopt policies designed to improve the student learning environment by improving student behavior and discipline. These policies shall provide for the development of age-appropriate student codes of conduct containing standards of behavior, a student support process, a progressive discipline process, and a parental involvement process. The State Board of Education shall establish minimum standards for such local board policies. The Department of Education shall make available for utilization by each local board of education model student codes of conduct, a model student support process, a model progressive discipline process, and a model parental involvement process.

(b) Student standards of behavior developed pursuant to this subpart shall be designed to create the expectation that students will behave themselves in such a way so as to facilitate a learning environment for themselves and other students, respect each other and school district employees, obey student behavior policies adopted by the local board of education, and obey student behavior rules established by individual schools.

(c) Student support processes developed pursuant to this subpart shall be designed to create the expectation that the process of disciplining students will include due consideration, as appropriate in light of the severity of the behavioral problem, of student support services that may help the student address behavioral problems and that may be available through the school, the school system, other public entities, or community organizations.

(d) Progressive discipline processes developed pursuant to this subpart shall be designed to create the expectation that the degree of discipline will be in proportion to the severity of the behavior leading to the discipline, that the previous discipline history of the student being disciplined and other relevant factors will be taken into account, and that all due process procedures required by federal and state law will be followed.

(e) Parental involvement processes developed pursuant to this subpart shall be designed to create the expectation that parents and guardians, teachers, and school administrators will work together to improve and enhance student behavior and academic performance and will communicate freely their concerns about and actions in response to student behavior that detracts from the learning environment. The student code of conduct developed pursuant to this Code section shall encourage parents and guardians to inform their children of the consequences, including potential criminal penalties, of underage sexual conduct and crimes for which a minor can be tried as an adult.

(f) It is the policy of this state that it is preferable to reassign disruptive students to alternative educational settings rather than to suspend or expel such students from school.
20-2-736. Student codes of conduct; distribution; disciplinary action for violations; parental involvement.

(a) At the beginning of each school year, local boards of education shall provide for the distribution of student codes of conduct developed pursuant to Code Section 20-2-735 to each student upon enrollment. Local boards of education shall provide for the distribution of such student codes of conduct to the parents or guardians of each student through such means as may best accomplish such distribution at the local level and are appropriate in light of the grade level of the student, including distribution of student codes of conduct to students and parents or guardians jointly. Local boards of education shall solicit or require the signatures or confirmation of receipt of students and parents or guardians in acknowledgment of the receipt of such student codes of conduct. A signature or confirmation of receipt may be obtained in writing, via electronic mail or facsimile, or by any other electronic or other means as designated by the local board. A parent or legal guardian that does not acknowledge receipt of the student code of conduct shall not be absolved of any responsibility with respect to the information contained in the student code of conduct. In addition, student codes of conduct shall be available in each school and classroom.

(b) Local boards of education shall provide for disciplinary action against students who violate student codes of conduct.

(c) Local boards of education shall provide opportunities for parental involvement in developing and updating student codes of conduct.

that prohibit bullying of a student by another student and shall require such prohibition to be included
in the student code of conduct in that school system. Local board policies shall require that, upon a
finding that a student in grades 6 through 12 has committed the offense of bullying for the third time in
a school year, such student shall be assigned to an alternative school.
17. Behavior support processes designed to consider, as appropriate in light of the severity of the
behavioral problem, support services that may be available through the school, school system, other

Teacher Authority to Remove Students From Classrooms

LAWS

20-2-738. Authority of teacher over classroom; procedures following removal of student from classroom; placement review committees.

(a) A teacher shall have the authority, consistent with local board policy, to manage his or her classroom, discipline students, and refer a student to the principal or the principal's designee to maintain discipline in the classroom. The principal or the principal's designee shall respond when a student is referred by a teacher by employing appropriate discipline management techniques that are consistent with local board policy.

(b) A teacher shall have the authority to remove from his or her class a student who repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn, where the student's behavior is in violation of the student code of conduct, provided that the teacher has previously filed a report pursuant to Code Section 20-2-737 or determines that such behavior of the student poses an immediate threat to the safety of the student's classmates or the teacher. Each school principal shall fully support the authority of every teacher in his or her school to remove a student from the classroom under this Code section. Each school principal shall implement the policies and procedures of the superintendent and local board of education relating to the authority of every teacher to remove a student from the classroom and shall disseminate such policies and procedures to faculty, staff, and parents or guardians of students. The teacher shall file with the principal or the principal's designee a report describing the student's behavior, in one page or less, by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall, within one school day after the student's removal from class, send to the student's parents or guardians written notification that the student was removed from class, a copy of the report filed by the teacher, and information regarding how the student's parents or guardians may contact the principal or the principal's designee.

(c) If a teacher removes a student from class pursuant to subsection (b) of this Code section, the principal or the principal's designee shall discuss the matter with the teacher and the student by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall give the student oral or written notice of the grounds for his or her removal from class and, if the student denies engaging in such conduct, the principal or the principal's designee shall explain the evidence which supports his or her removal from class and give the student an opportunity to present his or her explanation of the situation. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher gives his or her consent, the student shall be returned to the class, and the principal or the principal's designee may take action to discipline the student, as may be warranted, pursuant to paragraph (1) of subsection (e) of this Code section. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher withholds his or her consent to the student's return to his or her class, the principal or the principal's designee shall determine an appropriate temporary placement for the student by the end of the first school day following such removal and shall also take steps to convene a meeting of a placement review committee. The placement review committee shall convene by the end of the second school day following such removal by the teacher and shall issue a decision by the end of the third school day following such removal by the teacher. An appropriate temporary placement for the student shall be a placement that, in the judgment of the principal or the principal's designee, provides the least interruption to the student's education and reflects other relevant factors, including, but not limited to, the severity of the behavior that was the basis for the removal, the student's behavioral history, the student's need for support services, and the available education settings; provided, however, that the
student shall not be returned to the class of the teacher who removed him or her, as an appropriate temporary placement, unless the teacher gives his or her consent. The temporary placement shall be in effect from the time of removal until the decision of the placement review committee is issued or, if applicable, a placement determination is made pursuant to paragraph (2) of subsection (e) of this Code section.

(d) Local board policies adopted pursuant to Code Section 20-2-735 shall provide for the establishment at each school of one or more placement review committees, each of which is to be composed of three members, to determine the placement of a student when a teacher withholds his or her consent to the return of a student to the teacher’s class. For each committee established, the faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member, and the principal shall choose one member of the professional staff of the school to serve as a member. The teacher withholding consent to readmit the student may not serve on the committee. The placement review committee shall have the authority to:

(1) Return the student to the teacher's class upon determining that such placement is the best alternative or the only available alternative; or

(2) Refer the student to the principal or the principal's designee for appropriate action consistent with paragraph (2) of subsection (e) of this Code section.

The decision of the placement review committee shall be in writing and shall be made within three school days after the teacher withholds consent to the return of a student. Local boards of education shall provide training for members of placement review committees regarding the provisions of this subpart, including procedural requirements; local board policies relating to student discipline; and the student code of conduct that is applicable to the school.

(e)(1) If a placement review committee decides to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee may, consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, take any of the following actions which are authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student in an alternative education program;

(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section; or

(C) Make another disciplinary decision or recommendation consistent with local board policy.

(2) If a placement review committee decides not to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee shall determine an appropriate placement for the student and may take action to discipline the student, in a manner consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, as follows, provided that the placement or disciplinary action is authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student into another appropriate classroom or an alternative education program;

(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section;
(C) Make another placement or disciplinary decision or recommendation consistent with local board policy; or

(D) Implement or recommend any appropriate combination of the above and return the student to the class from which he or she was removed upon the completion of any disciplinary or placement action taken pursuant to this paragraph.

(f) Within one school day of taking action pursuant to subsection (e) of this Code section, the principal or the principal's designee shall send written notification of such action to the teacher and the parents or guardians of the student and shall make a reasonable attempt to confirm that such written notification has been received by the student's parents or guardians.

(g) Parents or guardians of a student who has been removed from class pursuant to subsection (b) of this Code section may be required to participate in conferences that may be requested by the principal or the principal's designee; provided, however, that a student may not be penalized for the failure of his or her parent or guardian to attend such a conference.

(h) The procedures contained in this Code section relating to student conferences and notification of parents or guardians are minimum requirements. Nothing in this Code section shall be construed to limit the authority of a local board of education to establish additional requirements relating to student conferences, notification of parents or guardians, conferences with parents or guardians, or other procedures required by the Constitutions of the United States or this state.

20-2-751.5. Student code of conduct; safety rules on school buses; distribution.

(d) Local board policies relating to student codes of conduct shall provide that each local school superintendent shall fully support the authority of principals and teachers in the school system to remove a student from the classroom pursuant to Code Section 20-2-738, including establishing and disseminating procedures. It is the policy of this state that it is preferable to reassign disruptive students to alternative educational settings rather than to suspend or expel such students from school.

Return to School Following Removal

LAWS

20-2-738. Authority of teacher over classroom; procedures following removal of student from classroom; placement review committees.

(c) If a teacher removes a student from class pursuant to subsection (b) of this Code section, the principal or the principal's designee shall discuss the matter with the teacher and the student by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall give the student oral or written notice of the grounds for his or her removal from class and, if the student denies engaging in such conduct, the principal or the principal's designee shall explain the evidence which supports his or her removal from class and give the student an opportunity to present his or her explanation of the situation. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher gives his or her consent, the student shall be returned to the class, and the principal or the principal's designee may take action to discipline the student, as may be warranted, pursuant to paragraph (1) of subsection (e) of this Code section. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher withholds his or her consent to the student's return to his or her class, the principal or the principal's designee shall determine an appropriate temporary placement for the student by the end of the first school day following such removal and shall also take steps to convene a meeting of a placement review committee. The placement review committee shall convene by the end of the second school day following such removal by the teacher and shall issue a decision by the end of the third school day following such removal by the teacher. An appropriate temporary placement for the student shall be a placement that, in the judgment of the principal or the principal's designee, provides the least interruption to the student's education and reflects other relevant factors, including, but not limited to, the severity of the behavior that was the basis for the removal, the student's behavioral history, the student's need for support services, and the available education settings; provided, however, that the student shall not be returned to the class of the teacher who removed him or her, as an appropriate temporary placement, unless the teacher gives his or her consent. The temporary placement shall be in effect from the time of removal until the decision of the placement review committee is issued or, if applicable, a placement determination is made pursuant to paragraph (2) of subsection (e) of this Code section.

(d) Local board policies adopted pursuant to Code Section 20-2-735 shall provide for the establishment at each school of one or more placement review committees, each of which is to be composed of three members, to determine the placement of a student when a teacher withholds his or her consent to the return of a student to the teacher's class. For each committee established, the faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member, and the principal shall choose one member of the professional staff of the school to serve as a member. The teacher withholding consent to readmit the student may not serve on the committee. The placement review committee shall have the authority to:
(1) Return the student to the teacher's class upon determining that such placement is the best alternative or the only available alternative; or

(2) Refer the student to the principal or the principal's designee for appropriate action consistent with paragraph (2) of subsection (e) of this Code section.

The decision of the placement review committee shall be in writing and shall be made within three school days after the teacher withholds consent to the return of a student. Local boards of education shall provide training for members of placement review committees regarding the provisions of this subpart, including procedural requirements; local board policies relating to student discipline; and the student code of conduct that is applicable to the school.

(e)(1) If a placement review committee decides to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee may, consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, take any of the following actions which are authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student in an alternative education program;

(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section; or

(C) Make another disciplinary decision or recommendation consistent with local board policy.

(2) If a placement review committee decides not to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee shall determine an appropriate placement for the student and may take action to discipline the student, in a manner consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, as follows, provided that the placement or disciplinary action is authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student into another appropriate classroom or an alternative education program;

(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section;

(C) Make another placement or disciplinary decision or recommendation consistent with local board policy; or

(D) Implement or recommend any appropriate combination of the above and return the student to the class from which he or she was removed upon the completion of any disciplinary or placement action taken pursuant to this paragraph.

20-2-766. Students returning from expulsion or suspension; notice to parents; conference with principal or teacher to devise disciplinary and behavioral correction plan.

Before any chronic disciplinary problem student is permitted to return from an expulsion or suspension, the school to which the student is to be readmitted shall request by telephone call and by either certified mail or statutory overnight delivery with return receipt requested or first-class mail at least one parent or guardian to schedule and attend a conference with the principal or his or her designee to devise a disciplinary and behavioral correction plan. Failure of the parent or guardian to attend shall not preclude
the student from being readmitted to the school. At the discretion of the principal, a teacher, counselor, or other person may attend the conference. The principal shall ensure that a notation of the conference is placed in the student's permanent file.

Alternative Placements

LAWS

20-2-154.1. Alternative education programs; intent; description; funding.
(a) It is the policy of this state that the alternative education program shall provide a learning environment that includes the objectives of the content standards and that the instruction in an alternative education program shall enable students to return to a general or career education program as quickly as possible. Course credit shall be earned in an alternative education program in the same manner as in other education programs. It is the policy of this state that it is preferable to reassign disruptive students to an alternative education program rather than suspending or expelling such students from school.
(b) Alternative education programs are intended to meet the education needs of a student who is suspended from his or her regular classroom and also of a student who is eligible to remain in his or her regular classroom but is more likely to succeed in a nontraditional setting such as that provided in an alternative education program.
(c) As part of the process of assigning a student to an alternative education program for academic or nondisciplinary reasons, the school shall assess, through policies and procedures promulgated by the local board of education, the needs of the student and consider options for addressing those needs.
(d) Each local school system shall provide an alternative education program that:
   1. Is provided in a setting other than a student's regular classroom;
   2. Is located on or off of a regular school campus and may include in-school suspension that provides continued progress on regular classroom assignments;
   3. Provides for disruptive students who are assigned to the alternative education program to be separated from nondisruptive students who are assigned to the program;
   4. Focuses on English language arts, mathematics, science, social studies, and self-discipline;
   5. Provides for students' educational and behavioral needs; and
   6. Provides supervision and counseling.
(e) An alternative education program may provide for a student's transfer to a different campus, a school-community guidance center, or a community based alternative school.
(f) A local school system may provide an alternative education program jointly with one or more other systems.
(g) Each local school system shall cooperate with government agencies and community organizations that provide services in the school district to students placed in an alternative education program.
(h) The amount of state funds appropriated and allocated for the alternative education program provided for in this Code section shall be based on the actual count of students served during the preceding year, except that the count of students served shall not exceed 2.5 percent of the sum of the full-time equivalent program count of the middle school program, the high school general education program
(grades nine through 12), and the career, technical, and agricultural education laboratory program (grades nine through 12). Funds earned may be expended in kindergarten and in grades one through 12.

(i) A local school system shall allocate to an alternative education program the same expenditure for each student attending the alternative education program, including federal, state, and local funds, that would be allocated to the student's school if the student were attending the student's regularly assigned education program, including a special education program, except as otherwise provided in this Code section.

(j) Upon the request of a local school system, a regional educational service agency may provide to the system information on developing an alternative education program that takes into consideration the system's size, wealth, and existing facilities in determining the program best suited to the system.

(k) If a student placed in an alternative education program enrolls in another local school system before the expiration of the period of placement, the local board of education requiring the placement shall provide to the local school system in which the student enrolls, at the same time other records of the student are provided, a copy of the placement order. The local school system in which the student enrolls may continue the alternative education program placement under the terms of the order or may allow the student to attend regular classes without completing the period of placement.

(l) The State Board of Education shall adopt rules necessary to administer the provisions of this Code section. Academically, the mission of alternative education programs shall be to enable students to perform at grade level. Annually, the Office of Student Achievement shall define for alternative education programs acceptable performance and performance indicating a need for peer review, based principally on standards defined by the Office of Student Achievement that measure the academic progress of students toward performing at grade level while attending an alternative education program.

20-2-735. Adoption of policies by local boards to improve student learning environment.

(f) It is the policy of this state that it is preferable to reassign disruptive students to alternative educational settings rather than to suspend or expel such students from school.

20-2-738. Authority of teacher over classroom; procedures following removal of student from classroom; placement review committees.

(d) Local board policies adopted pursuant to Code Section 20-2-735 shall provide for the establishment at each school of one or more placement review committees, each of which is to be composed of three members, to determine the placement of a student when a teacher withholds his or her consent to the return of a student to the teacher's class. For each committee established, the faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member, and the principal shall choose one member of the professional staff of the school to serve as a member. The teacher withholding consent to readmit the student may not serve on the committee. The placement review committee shall have the authority to:

(1) Return the student to the teacher's class upon determining that such placement is the best alternative or the only available alternative; or

(2) Refer the student to the principal or the principal's designee for appropriate action consistent with paragraph (2) of subsection (e) of this Code section.

The decision of the placement review committee shall be in writing and shall be made within three school days after the teacher withholds consent to the return of a student. Local boards of education shall provide training for members of placement review committees regarding the provisions of this subpart, including procedural requirements; local board policies relating to student discipline; and the student code of conduct that is applicable to the school.
(e)(1) If a placement review committee decides to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee.
