Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

General Provisions

Authority to develop and establish rules of conduct

LAWS

The board shall make rules for its own government and that of the directors, officers, employees, teachers and pupils, and for the care of the schoolhouse, grounds, and property of the school corporation, and shall aid in the enforcement of the rules, and require the performance of duties imposed by law and the rules. The board shall include in its rules provisions regulating the loading and unloading of pupils from a school bus stopped on the highway during a period of reduced highway visibility caused by fog, snow or other weather conditions. The board shall have the authority to include in its rules provisions allowing school corporation employees to use school credit cards to pay for the actual and necessary expenses incurred in the performance of work-related duties.

Employees of a school corporation maintaining a high school who have the custody of funds belonging to the corporation or funds derived from extracurricular activities and other sources in the conduct of their duties, shall be required to furnish suitable bond indemnifying the corporation or any activity group connected with the school against loss, and employees who have the custody of property belonging to the corporation or any activity group connected with the school may be required to furnish such bond. Said bond or bonds may be in such form and penalty as the board may approve and the premiums on same shall be paid from the general fund of the corporation.

279.58. School dress code policies.
2. The board of directors of a school district may adopt, for the district or for an individual school within the district, a dress code policy that prohibits students from wearing gang-related or other specific apparel if the board determines that the policy is necessary for the health, safety, or positive educational environment of students and staff in the school environment or for the appropriate discipline and operation of the school. Adoption and enforcement of a dress code policy is not a violation of section 280.22.

279.66. Discipline and personal conduct standards.
The board of directors of a school district shall review and modify existing policies related to student discipline and student conduct that are designed to promote responsible behavior on school property and at school functions in order that the policy shall govern the conduct of students, teachers and other school personnel, and visitors; provide opportunities for students to exercise self-discipline and practice cooperative classroom behavior; and encourage students and practitioners to model fairness, equity, and respect. The policy shall specify the responsibilities of students, parents and guardians, and practitioners in creating an atmosphere where all individuals feel a sense of respect, safety, and belonging, and shall set forth the consequences for unacceptable behavior. The policy shall be published in the student handbook.

280.24. Procedures for reporting drug or alcohol possession or use.
The board of directors of each public school and the authorities in charge of each accredited nonpublic school shall prescribe procedures to report any use or possession of alcoholic liquor, wine, or beer or any controlled substance on school premises to local law enforcement agencies, if the use or possession is in violation of school policy or state law. The procedures may include a provision which does not require a
report when the school officials have determined that a school at-risk or other student assistance program would be jeopardized if a student self reports.

**280.28. Harassment and bullying prohibited - policy - immunity.**

3. Policy. On or before September 1, 2007, the board of directors of a school district and the authorities in charge of each accredited nonpublic school shall adopt a policy declaring harassment and bullying in schools, on school property, and at any school function, or school-sponsored activity regardless of its location, in a manner consistent with this section, as against state and school policy.

**299.9. Truants - rules for punishment.**

Use of corporal punishment

LAWS

1. An employee of an accredited public school district, accredited nonpublic school, or area education agency shall not inflict, or cause to be inflicted, corporal punishment upon a student. For purposes of this
section, “corporal punishment” means the intentional physical punishment of a student. An employee’s physical contact with the body of a student shall not be considered corporal punishment if it is reasonable and necessary under the circumstances and is not designed or intended to cause pain or if the employee uses reasonable force, as defined under section 704.1, for the protection of the employee, the student, or other students; to obtain the possession of a weapon or other dangerous object within a student’s control; or for the protection of property. The department of education shall adopt rules to implement this section.

REGULATIONS

In conjunction with Iowa Code section 280.21, the purpose of this chapter is to define and exemplify generally the limitations placed on employees of public schools, accredited nonpublic schools, and area education agencies in applying physical contact or force to enrolled students, and to require that any such force or contact is reasonable and necessary under the circumstances. These rules also provide requirements for administrators and staff of public schools, accredited nonpublic schools, and area education agencies regarding the use of physical restraints and physical confinement and detention. The applicability of this chapter to physical restraint or physical confinement and detention does not depend on the terminology employed by the organization to describe physical restraint or physical confinement and detention.

281-103.2(256B,280). Ban on corporal punishment.
An employee of a public school district, accredited nonpublic school, or area education agency shall not inflict, or cause to be inflicted, corporal punishment upon a student. "Corporal punishment" is defined to mean the intentional physical punishment of a student. It includes the use of unreasonable or unnecessary physical force, or physical contact made with the intent to harm or cause pain.

281-103.3(256B,280). Exclusions.
Corporal punishment does not include the following:
1. Verbal recrimination or chastisement directed toward a student;
2. Reasonable requests or requirements of a student engaged in activities associated with physical education class or extracurricular athletics;
3. Actions consistent with and included in an individualized education program developed under the Individuals with Disabilities Education Act, as reauthorized, Iowa Code chapter 256B, and 281-Chapter 41; however, under no circumstance shall an individualized education program violate the provisions of this chapter;
4. Reasonable periods of detention, not in excess of school hours, or brief periods of before- and after-school detention, in a seat, classroom or other part of a school facility, unless the detention is accomplished by the use of material restraints applied to the person. If detention meets this chapter’s definition of “physical confinement and detention,” the provisions of this chapter on physical confinement and detention must be followed. For purposes of this chapter, material restraints do not include devices, objects, or techniques required or ordered for reasons of safety (e.g., safety harnesses on school buses) or for therapeutic or medical treatment (e.g., devices used for physical or occupational therapy), provided those devices, objects, or techniques are so used, and used for no other purpose;
5. Actions by an employee subject to these rules toward a person who is not a student of the school or receiving the services of an area education agency employing or utilizing the services of the employee.

Notwithstanding rule 103.2(256B,280), no employee subject to these rules is prohibited from:
1. Using reasonable and necessary force, not designed or intended to cause pain, in order to accomplish any of the following:

   To quell a disturbance or prevent an act that threatens physical harm to any person.
   To obtain possession of a weapon or other dangerous object within a pupil’s control.
   For the purposes of self-defense or defense of others as provided for in Iowa Code section 704.3.
   For the protection of property as provided for in Iowa Code section 704.4 or 704.5.
   To remove a disruptive pupil from class or any area of school premises, or from school-sponsored activities off school premises.
   To prevent a student from the self-in infliction of harm.
   To protect the safety of others.

2. Using incidental, minor, or reasonable physical contact to maintain order and control.

An employee subject to these rules is not privileged to use unreasonable force to accomplish any of the purposes listed above.

Use of student and locker searches

LAWS

808A.2. Searches of students, protected student areas, lockers, desks, and other facilities or spaces.

1. The school board of each public school and the authorities in charge of each nonpublic school shall establish and may search a student or protected student area pursuant to a student search rule. The student search rule shall be published in each public school’s and each nonpublic school’s student handbook. A school official may search individual students and individual protected student areas if both of the following apply:

   a. The official has reasonable grounds for suspecting that the search will produce evidence that a student has violated or is violating either the law or a school rule or regulation.
   b. The search is conducted in a manner which is reasonably related to the objectives of the search and which is not excessively intrusive in light of the age and gender of the student and the nature of the infraction.

2. School officials may conduct periodic inspections of all, or a randomly selected number of, school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student. The furnishing of a school locker, desk, or other facility or space owned by the school and provided as a courtesy to a student shall not create a protected student area, and shall not give rise to an expectation of privacy on a student’s part with respect to that locker, desk, facility, or space. Allowing students to use a separate lock on a locker, desk, or other facility or space owned by the school and provided to the student shall also not give rise to an expectation of privacy on a student’s part with respect to that locker, desk, facility, or space. However, each year when school begins, the school district shall provide written notice to all students and the students’ parents, guardians, or legal custodians, that school officials may conduct periodic inspections of school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student without prior notice. An inspection under this subsection shall either occur in the presence of the students whose lockers are being inspected or the inspection shall be conducted in the presence of at least one other person.

However, the superintendent or chief administering officer of a school or school district may modify expulsion requirements on a case-by-case basis. REGULATIONS

In conjunction with Iowa Code section 280.21, the purpose of this chapter is to define and exemplify generally the limitations placed on employees of public schools, accredited nonpublic schools, and area education agencies in applying physical contact or force to enrolled students, and to require that any such
force or contact is reasonable and necessary under the circumstances. These rules also provide requirements for administrators and staff of public schools, accredited nonpublic schools, and area education agencies regarding the use of physical restraints and physical confinement and detention. The applicability of this chapter to physical restraint or physical confinement and detention does not depend on the terminology employed by the organization to describe physical restraint or physical confinement and detention.

281-103.5(256B,280). Reasonable force.
In determining the reasonableness of the physical force used by a school employee, the following factors shall be applied:

1. The size and physical, mental, and psychological condition of the student;
2. The nature of the student’s behavior or misconduct provoking the use of physical force;
3. The instrumentality used in applying the physical force;
4. The extent and nature of resulting injury to the student, if any;
5. The motivation of the school employee using physical force.

Reasonable physical force, privileged at its inception, does not lose its privileged status by reasons of an injury to the student, not reasonably foreseeable or otherwise caused by intervening acts of another, including the student.

281-103.6(256B,280). Physical confinement and detention.
If a student is physically confined and detained in a portion of a school facility, the following conditions shall be observed. For the purposes of this chapter, “physical confinement and detention” means the confinement of a student in a time-out room or some other enclosure, whether within or outside the classroom, from which the student’s egress is restricted.

1. The area of confinement and detention shall be of reasonable dimensions, and shall be free from hazards and dangerous objects or instruments, considering the age, size, and physical and mental condition of the student subject to confinement and detention;
2. There shall be sufficient light and adequate ventilation for human habitation;
3. A comfortable temperature shall be maintained, consistent with the facility that includes the confinement and detention area;
4. Reasonable break periods shall be afforded the student to attend to bodily needs. However, sleep shall not be considered a “bodily need” for purposes of this subrule;
5. The period of detention and confinement is reasonable, considering the age, size, and physical and mental condition of the student subject to confinement and detention, and not in excess of the hours in a school day as defined by local board policy or rule; however, reasonable periods of before- and after-school detention are permissible. If a period of physical confinement and detention exceeds the shorter of 60 minutes or the school’s typical class period, staff members shall evaluate the continued need for physical confinement and detention, shall obtain administrator (or designee) approval for any continued confinement and detention, and shall comply with any administrator (or designee) directives concerning any continued confinement and detention;
6. Adequate and continuous adult supervision is provided;
7. Material restraints applied to the person are not used to effect confinement;
8. If a room or enclosure used for physical confinement and detention has a locking mechanism, such room and mechanism shall comply with all applicable building code requirements and the following additional requirements:
If a locking mechanism is used, it shall be constructed so it will engage only when a handle, knob, or other device is held in position by a person, unless the mechanism is electrically or electronically controlled and automatically releases when the building’s fire alarm system is activated, the building’s severe weather warning system is activated, or electrical power to the mechanism is interrupted.

When the locking mechanism is released, the door must be able to be readily opened from the inside.

If a locking mechanism requires a handle, knob, or other device to be held in position by a person before the mechanism is engaged, no person shall take any action, or cause such action to be taken, or employ any object, device, or instrument, or cause such to be employed, that disables the handle, knob, or other device such that the locking mechanism engages or remains engaged without the handle, knob, or other device being held in position by a person.

281-103.7(256B,280). Additional minimum mandatory procedures.

If a public school, accredited nonpublic school, or area education agency seeks to use physical restraint or physical confinement and detention, or both, it shall do so in compliance with the minimum requirements of this chapter. The board of a public school, accredited nonpublic school, or area education agency may adopt policies and procedures regarding the use of physical restraint or physical confinement and detention, or both, that exceed the minimum requirements contained in this chapter. Additional minimum mandatory procedures are as follows:

1. Physical restraint and physical confinement and detention shall not be used as discipline for minor infractions and may be used only after other disciplinary techniques have been attempted, if reasonable under the circumstances;

2. All school employees, before using physical restraint or physical confinement and detention, shall receive adequate and periodic training, which shall be documented and which shall include training on these rules and the employer’s policies and procedures; positive behavior interventions and supports; disciplinary alternatives to seclusion and restraint; crisis prevention, crisis intervention, and crisis de-escalation techniques; student and staff debriefing; and the safe and effective use of physical restraint and physical confinement and detention;

3. Parents and students are notified at least annually of the provisions of this chapter and of any additional policies and procedures of the public school, accredited nonpublic school, or area education agency on physical restraint and physical confinement and detention;

4. Any physical restraint shall be reasonable and necessary in duration, in light of the provisions of this chapter;

5. If a student is subjected to physical restraint or physical confinement and detention, the public school, accredited nonpublic school, or area education agency shall maintain documentation for each such occurrence, which shall contain at least the following information:

   The names of the student and the employees involved in the restraint, confinement, or detention, as well as the administrator who authorizes any additional periods of confinement or detention pursuant to numbered paragraph “5” of rule 103.6(256B,280);

   The date, time, and duration of the occurrence;

   The actions of the student before, during, and after the occurrence;

   The actions of the employees involved in the occurrence before, during, and after the occurrence, including student and staff debriefing;

   The alternatives to physical restraint or physical confinement and detention attempted before the occurrence;

   A description of any injuries (whether to the student or others) and any property damage;
A description of future approaches to the student’s behavior;

6. The public school, accredited nonpublic school, or area education agency shall attempt to notify a child’s parent or guardian on the same day the child is subjected to physical restraint or physical confinement and detention; and

7. The student’s parent or guardian must be provided a written copy of the documentation required by numbered paragraph “5” of this rule, which shall be postmarked within three school days of the occurrence. The student’s parent or guardian may elect, in writing, to receive the communication required by this numbered paragraph via electronic mail or facsimile transmission.

281-103.8(256B,280). Additional provisions concerning physical restraint.

If an employee of a public school, accredited nonpublic school, or area education agency employs physical restraint, the following provisions shall apply:

1. No employee shall use any prone restraints. For the purposes of this rule, “prone restraints” means those in which an individual is held face down on the floor. Employees who find themselves involved in the use of a prone restraint as the result of responding to an emergency must take immediate steps to end the prone restraint;

2. No employee shall use any restraint that obstructs the airway of any child;

3. If an employee physically restrains a student who uses sign language or an augmentative mode of communication as the student’s primary mode of communication, the student shall be permitted to have the student’s hands free of restraint for brief periods, unless an employee determines that such freedom appears likely to result in harm to self or others;

4. Nothing in this rule shall be construed as limiting or eliminating any immunity conferred by Iowa Code section 280.21 or any other provision of law;

5. An agency covered by this chapter shall investigate any complaint or allegation that one or more of its employees violated one or more of the provisions of this chapter. If an agency covered by this chapter determines that one or more of its employees violated one or more of the provisions of this chapter, the agency shall take appropriate corrective action. If any allegation involves a specific student, the agency shall transmit to the parents of the student the results of its investigation, including, to the extent permitted by law, any required corrective action;

6. If any alleged violation of this chapter is also an allegation of “abuse” as defined in rule 281-102.2(280), the procedures in 281-Chapter 102 shall be applicable.

However, the superintendent or chief administrative officer of a school or school district may modify expulsion requirements on a case-by-case basis. This section shall not be construed to prevent the board of directors of a school district or the authorities in charge of a nonpublic school that have expelled a student from the student's regular school setting from providing educational services to the student in an alternative setting. If both this section and section 282.4 apply, this section takes precedence over section 282.4. For purposes of this section, "weapon" means a firearm as defined in 18 U.S.C. § 921. 282.18. Open enrollment.
1.
   a. It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.
   b. For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent’s or guardian’s child in a public school in another school district in the manner provided in this section.

2.
a. By March 1 of the preceding school year for students entering grades one through twelve, or by September 1 of the current school year for students entering kindergarten, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that the parent or guardian intends to enroll the parent’s or guardian’s child in a public school in another school district. If a parent or guardian fails to file a notification that the parent intends to enroll the parent’s or guardian’s child in a public school in another district by the deadline specified in this subsection, the procedures of subsection 4 apply.

b. The board of the receiving district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district has insufficient classroom space for the pupil. The board of directors of a receiving district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action, but not later than June 1 of the preceding school year. The parent or guardian may withdraw the request at any time prior to the start of the school year. A denial of a request by the board of a receiving district is not subject to appeal.

c. Every school district shall adopt a policy which defines the term “insufficient classroom space” for that district.

3. 

a. The superintendent of a district subject to a voluntary diversity or court-ordered desegregation plan, as recognized by rule of the state board of education, may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district's implementation of the desegregation order or diversity plan, unless the transfer is requested by a pupil whose sibling is already participating in open enrollment to another district, or unless the request for transfer is submitted to the district in a timely manner as required under subsection 2 prior to the adoption of a desegregation plan by the district. If a transfer request would facilitate a voluntary diversity or court-ordered desegregation plan, the district shall give priority to granting the request over other requests.

b. A parent or guardian, whose request has been denied because of a desegregation order or diversity plan, may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent's decision. A decision of the board to uphold the denial of the request is subject to appeal to the district court in the county in which the primary business office of the district is located. The state board of education shall adopt rules establishing definitions, guidelines, and a review process for school districts that adopt voluntary diversity plans. The guidelines shall include criteria and standards that school districts must follow when developing a voluntary diversity plan. The department of education shall provide technical assistance to a school district that is seeking to adopt a voluntary diversity plan. A school district implementing a voluntary diversity plan prior to July 1, 2008, shall have until July 1, 2009, to comply with guidelines adopted by the state board pursuant to this section.

c. The board of directors of a school district subject to voluntary diversity or court-ordered desegregation shall develop a policy for implementation of open enrollment in the district. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order or voluntary diversity plan and criteria for prioritizing requests that do not have an adverse impact on the order or plan.

4. 

a. After March 1 of the preceding school year and until the date specified in section 257.6, subsection 1, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that good cause, as defined in paragraph “b”, exists
for failure to meet the March 1 deadline. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline. The board of the receiving district shall take action to approve the request if good cause exists. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action. A denial of a request by the board of a receiving district is not subject to appeal.

b. For purposes of this section, "good cause" means a change in a child's residence due to a change in family residence, a change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship or custody proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, a change in the status of a child's resident district such as removal of accreditation by the state board, surrender of accreditation, or permanent closure of a nonpublic school, revocation of a charter school contract as provided in section 256F.8, the failure of negotiations for a whole grade sharing, reorganization, dissolution agreement or the rejection of a current whole grade sharing agreement, or reorganization plan. If the good cause relates to a change in status of a child's school district of residence, however, action by a parent or guardian must be taken to file the notification within forty-five days of the last board action or within thirty days of the certification of the election, whichever is applicable to the circumstances.

c. If a resident district believes that a receiving district is violating this subsection, the resident district may, within fifteen days after board action by the receiving district, submit an appeal to the director of the department of education.

d. The director, or the director's designee, shall attempt to mediate the dispute to reach approval by both boards as provided in subsection 14. If approval is not reached under mediation, the director or the director's designee shall conduct a hearing and shall hear testimony from both boards. Within ten days following the hearing, the director shall render a decision upholding or reversing the decision by the board of the receiving district. Within five days of the director's decision, the board may appeal the decision of the director to the state board of education under the procedures set forth in chapter 290.

5. Open enrollment applications filed after March 1 of the preceding school year that do not qualify for good cause as provided in subsection 4 shall be subject to the approval of the board of the resident district and the board of the receiving district. The parent or guardian shall send notification to the district of residence and the receiving district that the parent or guardian seeks to enroll the parent's or guardian's child in the receiving district. A decision of either board to deny an application filed under this subsection involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address is subject to appeal under section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

6. A request under this section is for a period of not less than one year. If the request is for more than one year and the parent or guardian desires to have the pupil enroll in a different district, the parent or guardian may petition the current receiving district by March 1 of the previous school year for permission to enroll the pupil in a different district for a period of not less than one year. Upon receipt of such a request, the current receiving district board may act on the request to transfer to the other school district at the next regularly scheduled board meeting after the receipt of the request. The new receiving district shall enroll the pupil in a school in the district unless there is insufficient classroom space in the district or unless enrollment of the pupil would adversely affect the court-ordered or voluntary desegregation plan of the district. A denial of a request to change district enrollment within the approved period is not subject to appeal. However, a pupil who has been in attendance in another district under this section may return to
the district of residence and enroll at any time, once the parent or guardian has notified the district of residence and the receiving district in writing of the decision to enroll the pupil in the district of residence.

7. A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil's district of residence. A pupil's residence, for purposes of this section, means a residence under section 282.1. The board of directors of the district of residence shall pay to the receiving district the sum of the state cost per pupil for the previous school year plus either the teacher leadership supplement state cost per pupil for the previous fiscal year as provided in section 257.9 or the teacher leadership supplement foundation aid for the previous fiscal year as provided in section 284.13, subsection 1, paragraph “e”, if both the district of residence and the receiving district are receiving such supplements, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year. If the pupil participating in open enrollment is also an eligible pupil under section 261E.6, the receiving district shall pay the tuition reimbursement amount to an eligible postsecondary institution as provided in section 261E.7.

8. If a request filed under this section is for a child requiring special education under chapter 256B, the request to transfer to the other district shall only be granted if the receiving district maintains a special education instructional program which is appropriate to meet the child’s educational needs and the enrollment of the child in the receiving district’s program would not cause the size of the class in that special education instructional program in the receiving district to exceed the maximum class size in rules adopted by the state board of education for that program. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

9. 
   a. If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district’s academic year, the child’s first district of residence shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments during succeeding years.
   b. If a request to transfer is due to a change in family residence, change in the state in which the family residence is located, a change in a child’s parents’ marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, and the child who is the subject of the request is enrolled in any grade from kindergarten through grade twelve at the time of the request and is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child’s original district of residence under open enrollment with no interruption in the child’s kindergarten through grade twelve educational program. If a parent or guardian exercises this option, the child’s new district of residence is not required to pay the amount calculated in subsection 7 until the start of the first full year of enrollment of the child.
   c. The receiving district shall bill the first resident district according to the timeline in section 282.20, subsection 3. Payments shall be made to the receiving district in a timely manner.
   d. If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district’s area education agency. The receiving district shall forward a copy of the request to the receiving district’s area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district’s area education agency.
e. A district of residence may apply to the school budget review committee if a student was not included in the resident district’s enrollment count during the fall of the year preceding the student’s transfer under open enrollment.

10. 

a. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district. For purposes of this subsection, “a point on a regular school bus route of the receiving district” includes any school bus stop on the regular school bus route of the receiving district that existed prior to road construction that necessitates a change in the regular school bus route, whether or not the change in the regular school bus route resulting from the road construction necessitates sending school vehicles from the receiving district into the district of residence in order to safely, economically, or efficiently transport students to or from the preexisting point.

b. A receiving district may send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the boards of both the sending and receiving districts agree to this arrangement.

c. If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold, from the district cost per pupil amount that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

11. A pupil who participates in open enrollment for purposes of attending a grade in grades nine through twelve in a school district other than the district of residence is ineligible to participate in varsity interscholastic athletic contests and athletic competitions during the pupil’s first ninety school days of enrollment in the district except that the pupil may participate immediately in a varsity interscholastic sport if the pupil is entering grade nine for the first time and did not participate in an interscholastic athletic competition for another school or school district during the summer immediately following eighth grade, if the district of residence and the other school district jointly participate in the sport, if the sport in which the pupil wishes to participate is not offered in the district of residence, if the pupil chooses to use open enrollment to attend school in another school district because the district in which the student previously attended school was dissolved and merged with one or more contiguous school districts under section 256.11, subsection 12, if the pupil participates in open enrollment because the pupil’s district of residence has entered into a whole grade sharing agreement with another district for the pupil’s grade, or if the parent or guardian of the pupil participating in open enrollment is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services, or if the district of residence determines that the pupil was previously subject to a founded incident of harassment or bullying as defined in section 280.28 while attending school in the district of residence. A pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil’s district of residence for at least one school year is also eligible to participate immediately in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that pupil had attended. For purposes
of this subsection, “school days of enrollment” does not include enrollment in summer school. For purposes of this subsection, “varsity” means the same as defined in section 256.46.

12. If a pupil, for whom a request to transfer has been filed with a district, has been suspended or expelled in the district, the pupil shall not be permitted to transfer until the pupil has been reinstated in the sending district. Once the pupil has been reinstated, however, the pupil shall be permitted to transfer in the same manner as if the pupil had not been suspended or expelled by the sending district. If a pupil, for whom a request to transfer has been filed with a district, is expelled in the district, the pupil shall be permitted to transfer to a receiving district under this section if the pupil applies for and is reinstated in the sending district. However, if the pupil applies for reinstatement but is not reinstated in the sending district, the receiving district may deny the request to transfer. The decision of the receiving district is not subject to appeal.

13. If a request under this section is for transfer to a laboratory school, as described in chapter 265, the student, who is the subject of the request, shall not be included in the basic enrollment of the student’s district of residence, and the laboratory school shall report the enrollment of the student directly to the department of education, unless the number of students from the district attending the laboratory school during the current school year, as a result of open enrollment under this section, exceeds the number of students enrolled in the laboratory school from that district during the 1989-1990 school year. If the number of students enrolled in the laboratory school from a district during the current year exceeds the number of students enrolled from that district during the 1989-1990 school year, those students who represent the difference between the current and the 1988-1989 school year enrollment figures shall be included in the basic enrollment of the students’ districts of residence and the districts shall retain any moneys received as a result of the inclusion of the student in the district enrollment. The total number of students enrolled at a laboratory school during a school year shall not exceed six hundred seventy students. The regents institution operating the laboratory school and the board of directors of the school district in the community in which the regents institution is located shall develop a student transfer policy designed to protect and promote the quality and integrity of the teacher education program at the laboratory school, the viability of the education program of the local school district in which the regents institution is located, and to indicate the order in which and reasons why requests to transfer to a laboratory school shall be considered. A laboratory school may deny a request for transfer under the policy. A denial of a request to transfer under this subsection is not subject to appeal under section 290.1.

14. An application for open enrollment may be granted at any time with approval of the resident and receiving districts.

15.

a. If a request under this section is for transfer to the research and development school, as described in chapter 256G, the student who is the subject of the request shall be included in the basic enrollment of the student’s district of residence and the board of directors of the district of residence shall pay to the research and development school the state cost per pupil for the previous school year, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year.

b. Notwithstanding subsection 7, a district of residence shall not be required to pay the state cost per pupil for a student attending the research and development school during the school year beginning July 1, 2010, if the student was not included in the district of residence’s enrollment count for funding purposes in the school year beginning July 1, 2009.

16.

a. The total enrollment of the research and development school shall be limited to six hundred fifty students.
b. Open enrollment requests accepted by the research and development school shall be limited to a five percent increase per year of students from each of the Cedar Falls community school district and the Waterloo school district over the previous year’s enrollment at the research and development school.

c. The total number of students enrolled in the research and development school from the Cedar Falls community school district shall be limited to not more than ten percent of the total district enrollment of the Cedar Falls community school district.

d. Open enrollment requests accepted by the research and development school from a school district shall be limited to not more than two percent of a school district’s previous year’s total enrollment count. This subsection does not apply to the Cedar Falls community and Waterloo school districts.

17. The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.

299.1. Attendance requirements.

1. Except as provided in section 299.2, the parent, guardian, or legal or actual custodian of a child who is of compulsory attendance age shall cause the child to attend some public school or an accredited nonpublic school, or place the child under competent private instruction or independent private instruction in accordance with the provisions of chapter 299A, during a school year, as defined under section 279.10.

2. The board of directors of a public school district or the governing body of an accredited nonpublic school shall set the number of days or hours of required attendance for the schools under its control. The board of directors of a public school district or the governing body of an accredited nonpublic school may, by resolution, require attendance for the entire time when the schools are in session in any school year and adopt a policy or rules relating to the reasons considered to be valid or acceptable excuses for absence from school.

Any child of compulsory attendance age who fails to attend school as provided in this chapter, or as required by the school board’s or school governing body’s attendance policy, or who fails to attend competent private instruction or independent private instruction under chapter 299A, without reasonable excuse for the absence, shall be deemed to be a truant. A finding that a child is truant, however, shall not by itself mean that the child is a child in need of assistance within the meaning of chapter 232 and shall not be the sole basis for a child in need of assistance petition.

The board of directors of a public school district or the authorities in charge of an accredited nonpublic school shall prescribe reasonable rules for the punishment of truants.

299.10. Truancy officers - appointment.

The board of each school district may appoint a truancy officer. The board of each school district, which does not appoint a truancy officer for the district, shall designate a suitable person to collect information on the numbers of children in the district who are truant.

The board may appoint a member of the police force, marshal, teacher, school official, or other suitable person to serve as the district truancy officer.

299.11. Duties of truancy officer.

The truancy officer may take into custody without warrant any apparently truant child and place the child in the charge of the school principal, or the principal’s designee, designated by the board of directors of the school district in which the child resides, or of any nonpublic school designated by the parent,
guardian, or legal or actual custodian; but if it is other than a public school, the instruction and
maintenance of the child shall be without expense to the school district. If a child is taken into custody
under this section, the truancy officer shall make every reasonable attempt to immediately notify the
parent, guardian, or legal or actual custodian of the child’s location.

299.12. Violation of attendance policy - attendance cooperation meeting - agreement.
1. For the purposes of this section, “school truancy officer” means a truancy officer appointed under
section 299.10 or any other person designated by a public school board or a governing body of an
accredited nonpublic school to administer provisions of this section.
2. This section is not applicable to a child who is receiving competent private instruction or independent
private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance
with the attendance requirements established under section 299.1, and has not completed educational
requirements through the sixth grade, and the school has used every means available to assure the child
does attend, the school truancy officer shall contact the child’s parent, guardian, or legal or actual
custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation
meeting may include the child and shall include the child’s parent, guardian, or legal or actual custodian
and the school truancy officer. The school truancy officer contacting the participants in the attendance
cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney
or the county attorney’s designee, or other persons deemed appropriate to participate in the attendance
cooperation meeting.
3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to
attempt to ascertain the cause of the child’s nonattendance, to cause the parties to arrive at an
agreement relative to addressing the child’s attendance, and to initiate referrals to any services or
counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall
be reduced to writing in an attendance cooperation agreement and signed by the parties to the
agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth
the cause identified for the child’s nonattendance and future responsibilities of each party.
4. If the parties to an attendance cooperation meeting determine that a monitor would improve
compliance with the attendance cooperation agreement, the parties may designate a person to monitor
the agreement. The monitor shall be a designee of the public school board or governing body of the
accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to
the agreement and receives a written authorization for access to confidential information and for
performing monitor activities from the child’s parent, guardian, or custodian. A monitor shall contact
parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor
performance of the agreement.
5. If the parties fail to enter into an attendance cooperation agreement, or the child’s parent, guardian, or
custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate
in an attendance cooperation meeting, the child shall be deemed to be truant.
6. A public school board or governing body of an accredited nonpublic school shall exercise the authority
granted under this section as a means of increasing and ensuring school attendance of young children,
as education is a critical element in the success of individuals and good attendance habits should be
developed and reinforced at an early age.

299.15. Reports by school officers and employees.
All school officers and employees shall promptly report to the secretary of the school corporation any
violations of the truancy law of which they have knowledge, and the secretary shall inform the president of
the board of directors who shall, if necessary, call a meeting of the board to take such action thereon as
the facts justify.
REGULATIONS

281-17.1(282). Intent and purpose.
It is the intent of Iowa Code section 282.18 to maximize parental choice in providing a wide range of educational opportunities which are not available for pupils because of where they live. It is the purpose of this chapter to give guidance and direction to parents/guardians, public school district administrators and boards in making quality decisions regarding school district choice for the education of pupils.

281-17.2(282). Definitions
For the purpose of this chapter the indicated terms are defined as follows:
“Alternative receiving district” means a district to which a parent/guardian petitions for the open enrollment of a pupil from a receiving district. An alternative receiving district could be the district of residence of the parents/guardians.
“Attendance center” means a public school building that contains classrooms used for instructional purposes for elementary, middle, or secondary school students.
“Court-ordered desegregation plan” means a plan that is under direct court order to avoid racial isolation in the district.
“Department” means the department of education.
“Director” means the director of the department of education or the director’s designee.
“Diversity plan” or “voluntary diversity plan” means a plan that is voluntarily adopted by a local school board to promote diversity and to avoid minority student isolation in the district.
“Eligible district” means a school district whose board had adopted a voluntary desegregation plan under this chapter prior to June 28, 2007.
“Minority student” shall be defined by a local school board in its diversity plan, and may include consideration of any one characteristic or a combination of any of the following characteristics except that race may not be either the sole or the determinative characteristic: socioeconomic status, ethnicity/national origin, English language learner status, or race.
“Open enrollment” is the procedure allowing a parent/guardian to enroll one or more pupils in a public school district other than the district of residence at no tuition cost.
“Receiving district” is the public school district in which a parent/guardian desires to have the pupil enrolled or the district accepting the application for enrollment of a pupil under the provisions of Iowa Code section 282.18.
“Resident district” is the district of residence for school purposes of the parent/guardian and the district in which an open enrollment pupil shall be counted for the purpose of generating state aid regardless of the district in which the pupil is enrolled.
“Sibling” means a child residing primarily in the same household as the child for whom an open enrollment request is filed and who is related by adoption, blood or marriage to the child for whom an open enrollment request is filed. “Sibling” also includes a foster child who is placed in the same household as the child for whom an open enrollment request is filed.
“Socioeconomic status” means the income level of a student or the student’s family, and shall be measured by whether a student or the student’s family meets the financial eligibility criteria for free meals or reduced price meals offered under the Child Nutrition Program.
281-17.3 (282). Application process.

The following procedure shall be used by parents/guardians and school districts in processing open enrollment applications.

(1) Parent/guardian responsibilities. On or before March 1 of the school year preceding the school year for which open enrollment is requested, a parent/guardian shall formally notify both the district of residence and the receiving district of the request for open enrollment. The request for open enrollment shall be made on forms provided by the department of education. Failure by the parent to send the form to the resident district and receiving district by the deadline may cause the application to be considered untimely. The parent/guardian is required to indicate on the form if the request is for a pupil requiring special education, as provided by Iowa Code chapter 256B. The forms for open enrollment application are available from each public school district and area education agency and from the state department of education.

(2) School district responsibilities.

a. The board of the resident district shall take no action on an open enrollment request except for a request made under rule 281-17.5(282) or 281-17.14(282).

b. The board of the receiving district shall act on an open enrollment request no later than June 1 of the school year preceding the school year for which the request is made.

(1) The receiving district superintendent shall provide notification of either approval or denial of the request to the parent/guardian and to the resident district within five days of board action.

(2) As an alternative procedure, the receiving board may by policy authorize the superintendent to approve, but not deny, applications filed on or before March 1. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline, but the board of the receiving district shall take action to approve the request if good cause exists. The board shall have the discretion to determine the scope of the authorization. The authorization may be for regular applications filed on or before March 1, good cause applications, and kindergarten applications filed on or before September 1, or any combination that the board determines. The same timelines for approval, forwarding, and notification shall apply.

c. The parent/guardian may withdraw an open enrollment request anytime prior to the first day of school in the resident district. After the first day of school, an open enrollment request can only be changed during the term of the approval by the procedures of subrules 17.8(4), 17.8(5), 17.8(6), and 17.8(7).

d. The board of the receiving district shall comply with the provisions of rule 281-17.11(282) if the application for open enrollment is for a pupil requiring special education as provided by Iowa Code chapter 256B.

e. Notification to parents.

(1) By September 30 of each school year, all districts shall notify parents of the following:

1. Open enrollment deadlines;
2. Transportation assistance;
3. That within 30 days of a denial of an open enrollment request by a district board of education, the parent/guardian may file an appeal with the state board of education only if the open enrollment request was based on repeated acts of harassment or a serious health condition of the pupil that the district cannot adequately address; and that all other denials must be appealed to the district court in the county in which the primary business office of the district is located; and
4. Possible loss of athletic eligibility for open enrollment pupils.
(2) This notification may be published in a school newsletter, a newspaper of general circulation, a Web site, or a parent handbook provided to all patrons of the district. This information shall also be provided to any parent/guardian of a pupil who enrolls in the district during the school year.

(3) Exception to process when resident district is under voluntary or court-ordered desegregation. If the resident district has a voluntary or court-ordered desegregation plan requiring the district to maintain minority and nonminority student ratios, the request for open enrollment shall be filed solely with the district of residence on or before March 1 of the school year preceding the school year for which open enrollment is requested. The superintendent of the resident district may deny a request under this subrule unless the request is made on behalf of a student whose sibling already actively participates in open enrollment to the same receiving district to which open enrollment is sought for this student. A denial by the superintendent may be appealed to the board of the district in which the request was denied. A decision of the local board to uphold the denial may only be appealed to the district court in the county in which is located the primary business office of the district that upheld the denial of the open enrollment request.

281-17.5(282). Filing after the March 1 deadline-harassment or serious health condition.

A parent/guardian may apply for open enrollment after the filing deadline of March 1 of the school year preceding the school year for which open enrollment is requested if the parent's/guardian's child is the victim of repeated acts of harassment or if the child has a serious health condition that the resident district cannot adequately address. If either of these conditions exists, the parent/guardian shall be permitted to apply for open enrollment by sending notification to both the resident and receiving districts.

(1) The board of the resident district shall act on the request within 30 days of its receipt. If the request is denied, the parent/guardian shall be notified by the district superintendent within 3 days following board action. If the request is approved, the district superintendent shall forward the approved application form to the receiving district within 5 days following board action and shall notify the parent/guardian within 3 days of this action. The board of the receiving district shall act to approve or deny an open enrollment request within 30 days following receipt of the notice of approval from the resident district. The receiving district superintendent shall provide notification of either approval or denial of the request to the parent/guardian and to the resident district within 15 days of board action.

(2) A denial by either board of a request made under this rule involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address may be appealed by a parent/guardian to the state board of education pursuant to Iowa Code section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

281-17.8 (282). Requirements applicable to parents/guardians and students.

(1) Expelled or suspended students. A pupil who has been suspended or expelled by action of the administration or board of the resident district shall not be permitted to enroll if an open enrollment request is filed until the pupil is reinstated for school attendance in the resident district. Once reinstated, the application for open enrollment shall be considered in the same manner as any other open enrollment request. If a pupil for whom an open enrollment request has been filed is subsequently expelled by action of the resident district board, the pupil may be denied enrollment by the receiving district board until the pupil is reinstated for school attendance by the resident district. The provisions of this subrule shall also apply to a pupil who has been suspended or expelled in a receiving district and is requesting open enrollment to an alternative receiving district or is seeking to return to the resident district as outlined in subrule 17.8(4).

(2) Restrictions on participation in interscholastic athletic contests and competitions. A pupil who changes school districts under open enrollment in any of the grades 9 through 12 shall not be eligible to participate
in varsity interscholastic athletic contests and competitions during the first 90 school days of enrollment. This restriction also shall apply to enrollments resulting from an approved petition filed by a parent/guardian to open enroll to an alternative receiving district and when the pupil returns to the district of residence using the process outlined in subrule 17.8(4). This 90-school-day restriction does not prohibit the pupil from practicing with an athletic team during the 90 school days of ineligibility. This 90-school-day restriction is not applicable to a pupil who:

a. Participates in an athletic activity in the receiving district that is not available in the district of residence.

b. Participates in an athletic activity for which the resident district and the receiving district have a “cooperative student participation agreement” in place as provided by rule 281-36.20(280).

c. Has paid tuition for one or more years to the receiving school district prior to making application and being approved for open enrollment.

d. Has attended the receiving district for one or more years, prior to making application and being approved for open enrollment, under a sharing or mutual agreement between the resident district and the receiving district.

e. Has been participating in open enrollment and whose parents/guardians move out of their district of residence but exercise the option of maintaining the open enrollment agreement as provided in subrule 17.8(6) except that the period of 90 school days of ineligibility shall apply to a pupil who open enrolls to another school district. If the pupil has established athletic eligibility under open enrollment, it is continued despite the parent’s or guardian’s change in residence.

f. Obtains open enrollment as provided in subrule 17.8(7) except that the period of 90 school days of ineligibility shall apply to a pupil who open enrolls to another school district.

g. Obtains open enrollment due to the dissolution and merger of the former district of residence under Iowa Code subsection 256.11(12).

h. Obtains open enrollment due to the pupil’s district of residence entering into a whole-grade sharing agreement on or after July 1, 1990, including the grade in which the pupil would be enrolled at the start of the whole-grade sharing agreement.

i. Participates in open enrollment and the parent/guardian is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services.

j. Open enrolls from a district of residence that has determined that the pupil was previously subject to a founded incident of harassment or bullying as defined in Iowa Code section 280.28 while attending school in the district of residence.

(4) Petition for attendance in an alternative receiving district. Once the pupil of a parent/guardian has been accepted for open enrollment, attendance in an alternative receiving district under open enrollment can be initiated by filing a petition for change with the receiving district. The petition shall be filed by the parent/guardian with the receiving district on or before March 1 of the year preceding the school year for which the change is requested. The timelines and notification requirements for such a request shall be the same as outlined in subrule 17.3(2). If the request is approved, the alternative district shall send notice of this action to the parent/guardian, to the original receiving district, and to the resident district of the pupil. Petitions for change shall be effectuated at the start of the next school year. As an alternative procedure, the receiving and alternative receiving district boards by mutual agreement may effectuate the change in enrollment of an open enrollment pupil at any time following receipt of a written request for such change which is approved by the two boards. The parent/guardian and the resident district board shall be notified of the approval and the date for change in open enrollment within 15 days of the mutual agreement action of the receiving and alternative receiving boards. A pupil in good standing may return to
the district of residence at any time following written notice from the parent/guardian to both the resident district and the receiving district.

(5) Renewal of an open enrollment agreement. An open enrollment agreement shall remain in place unless canceled by the parent/guardian or terminated as outlined in the provisions of subrule 17.8(10).

(6) Change in residence when participating in open enrollment. If the parent/guardian of a pupil who is participating in open enrollment changes the school district of residence during the term of the agreement, the parent/guardian shall have the option to leave the pupil in the receiving district under open enrollment, to open enroll to another school district, or to enroll the pupil in the new district of residence, thus terminating the open enrollment agreement. If the choice is to leave the pupil under open enrollment or to open enroll to another school district, the original district of residence shall be responsible for payment of the cost per pupil plus any applicable weightings or special education costs for the balance of the school year, if any, in which the move took place, providing the move took place on or after the date specified in Iowa Code section 257.6, subsection 1. The new district of residence shall be responsible for these payments during succeeding years of the agreement. If the move takes place between the end of one school year and the date specified in Iowa Code section 257.6, subsection 1, of the following school year, the new district of residence shall be responsible for that year’s payment as well as succeeding years. If the pupil is to remain under open enrollment or to open enroll to another school district, the parent/guardian shall write a letter, delivered by mail or by hand on or before the date specified in Iowa Code section 257.6, subsection 1, to notify the original resident district, the new resident district, and the receiving district of this decision. Timely requests under this rule shall not be denied. If the request is for a high school pupil, the pupil shall not be subject to the initial 90-school-day ineligibility period of subrule 17.8(2).

(7) Change in residence when not participating in open enrollment. If a parent/guardian moves out of the school district of residence, and the pupil is not currently under open enrollment, the parent/guardian has the option for the pupil to remain in the original district of residence as an open enrollment pupil with no interruption in the education program or to open enroll to another school district. This option is not available to the parent/guardian of a student who is entering kindergarten for the first time. The parent/guardian exercising this option shall file an open enrollment request form with the new district of residence for processing and record purposes. This request shall be made on or before the date specified in Iowa Code section 257.6, subsection 1. Timely requests under this subrule shall not be denied. If the request is for a high school pupil, the pupil shall not be subject to the initial 90-school-day ineligibility period of subrule 17.8(2). If the move is on or after the date specified in Iowa Code section 257.6, subsection 1, the new district of residence is not required to pay per-pupil costs or applicable weighting or special education costs to the receiving district until the first full year of the open enrollment.

(8) Pupil governance. An open enrollment pupil, and where applicable the pupil’s parent/guardian, shall be governed by the rules and policies established by the board of directors of the receiving district. Any complaint or appeal by the parent/guardian concerning the educational system, its process, or administration in the receiving district shall be initially directed to the board of directors of that district in compliance with the policy of that district.

(9) Appeal procedure. A parent/guardian may appeal the decision of the board of directors of a school district (resident or receiving) only on an application for open enrollment under Iowa Code section 282.18(5) as amended by 2002 Iowa Acts, House File 2515. This appeal is to the state board of education and shall comply with the provisions of Iowa Code section 290.1. The appeal shall be filed within 30 days of the decision of the district board and shall be in the form of an affidavit signed by the parent/guardian. It shall state in a plain and concise manner what the parent/guardian feels to be the basis for appeal.

(10) Open enrollment termination. Open enrollment ends when:
a. The pupil graduates, moves into the receiving district, moves into a third district and does not elect to continue attending in the receiving district, moves out of state, elects to attend a nonpublic school instead of the receiving district, or any other circumstance not excepted below that results in the pupil no longer attending the receiving district.

EXCEPTIONS: This rule shall not apply if the pupil is placed temporarily in foster care, a juvenile detention center, mental health or substance abuse treatment facility, or other similar placement. In such cases, the open enrollment status will automatically be reinstated when the pupil returns.

b. The pupil drops out of school. In this instance, if the pupil desires to return to the resident district during the term of the original open enrollment, notice must be given as outlined in the provisions of subrule 17.8(4).

280.24. Procedures for reporting drug or alcohol possession or use.
The board of directors of each public school and the authorities in charge of each accredited nonpublic school shall prescribe procedures to report any use or possession of alcoholic liquor, wine, or beer or any controlled substance on school premises to local law enforcement agencies, if the use or possession is in violation of school policy or state law. The procedures may include a provision which does not require a report when the school officials have determined that a school at-risk or other student assistance program would be jeopardized if a student self reports.

c. Presiding officer. The agency, a member of the agency, or another person designated by the agency who will be familiar with the substance of the proposed rule, shall preside at the oral proceeding on a proposed rule. If the agency does not preside, the presiding officer shall prepare a memorandum for consideration by the agency summarizing the contents of the presentations made at the oral proceeding unless the agency determines that such a memorandum is unnecessary because the agency will personally listen to or read the entire transcript of the oral proceeding.

d. Conduct of proceeding. At an oral proceeding on a proposed rule, persons may make oral statements and make documentary and physical submissions, which may include data, views, comments or arguments concerning the proposed rule. Persons wishing to make oral presentations at such a proceeding are encouraged to notify the agency at least one business day prior to the proceeding and indicate the general subject of their presentations. At the proceeding, those who participate shall indicate their names and addresses, identify any persons or organizations they may represent, and provide any other information relating to their participation deemed appropriate by the
presiding officer. Oral proceedings shall be open to the public and shall be recorded by stenographic or electronic means.

(1) At the beginning of the oral proceeding, the presiding officer shall give a brief synopsis of the proposed rule, a statement of the statutory authority for the proposed rule, and the reasons for the agency decision to propose the rule. The presiding officer may place time limitations on individual oral presentations when necessary to ensure the orderly and expeditious conduct of the oral proceeding. To encourage joint oral presentations and to avoid repetition, additional time may be provided for persons whose presentations represent the views of other individuals as well as their own views.

(2) Persons making oral presentations are encouraged to avoid restating matters which have already been submitted in writing.

(3) To facilitate the exchange of information, the presiding officer may, where time permits, open the floor to questions or general discussion.

(4) The presiding officer shall have the authority to take any reasonable action necessary for the orderly conduct of the meeting.

(5) Physical and documentary submissions presented by participants in the oral proceeding shall be submitted to the presiding officer. Such submissions become the property of the agency.

(6) The oral proceeding may be continued by the presiding officer to a later time without notice other than by announcement at the hearing.

(7) Participants in an oral proceeding shall not be required to take an oath or to submit to cross-examination. However, the presiding officer in an oral proceeding may question participants and permit the questioning of participants by other participants about any matter relating to that rule-making proceeding, including any prior written submissions made by those participants in that proceeding; but no participant shall be required to answer any question.

(8) The presiding officer in an oral proceeding may permit rebuttal statements and request the filing of written statements subsequent to the adjournment of the oral presentations.

(4) Additional information. In addition to receiving written comments and oral presentations on a proposed rule according to the provisions of this rule, the agency may obtain information concerning a proposed rule through any other lawful means deemed appropriate under the circumstances.

(5) Accessibility. The agency shall schedule oral proceedings in rooms accessible to and functional for persons with physical disabilities. Persons who have special requirements should contact the Legal Consultant’s Office, Department of Education, Grimes State Office Building, Des Moines, Iowa 50319-0146, or telephone (515)281-5295 in advance to arrange access or other needed services.
