Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

LAWS

§254. Educational duties.
The commissioner shall have the following educational duties.

11. Statewide standards for behavior. In consultation with organizations representing school boards, school administrators, teachers, parents and other interested local officials and community members, the commissioner shall develop statewide standards for responsible and ethical student behavior. The standards must require annual reporting of incidents of violent and harmful behavior by or against students to the department by school administrative units. The department shall provide forms for reporting.

§1001. Duties of school boards.
School boards shall perform the following duties.

A. Define unacceptable student behavior;
B. Establish standards of student responsibility for behavior;
C. Prescribe consequences for violation of the student code of conduct, including first-time violations, when appropriate;
D. Describe appropriate procedures for referring students in need of special services to those services;
E. Establish criteria to determine when further assessment of a current individual education plan is necessary, based on removal of the student from class;
F. Establish policies and procedures concerning the removal of disruptive or violent students or students threatening death or bodily harm to others from a classroom or a school bus, as well as student disciplinary and placement decisions, when appropriate;
G. Establish guidelines and criteria concerning the appropriate circumstances when the superintendent or the superintendent's designee may provide information to the local police or other appropriate law enforcement authorities regarding an offense that involves violence committed by any person on school grounds or other school property; and
H. Establish policies and procedures to address bullying, harassment and sexual harassment as set forth in section 6554.

The school board is responsible for ensuring that school officials inform students, parents and community members of the student code of conduct.

22. Workplace bullying. A school board shall adopt and implement a policy to address the negative effects of bullying of school employees by administrators, school employees, parents, students or any other individuals associated with the public school and to ensure the safety of employees and an inclusive environment for all employees and students in the public school. The policy must include, but is not limited to:

documentation of reported incidents; and  
F. A statement that any rights under the policy do not exclude access to or limit any other right or  
remedy under the law.  

If an affected school employee is covered by a collective bargaining agreement, the policy under this  
subsection is subject to the dispute resolution process of the collective bargaining agreement.  

For the purposes of this subsection, "bullying" includes cyberbullying as defined in section 6554,  
subsection 2, paragraph C.

LAWS
§1001. Duties of school boards.
School boards shall perform the following duties.

15-A. School disciplinary policies. When revising the prescribed consequences for violation of the student code of conduct pursuant to subsection 15, paragraph C, a school board shall consider districtwide disciplinary policies that:

A. Focus on positive interventions and expectations and avoid focusing exclusively on unacceptable student behavior. For the purpose of this subsection, "positive interventions" means instructional and environmental supports that are designed to teach students prosocial alternatives to problem behaviors with high rates of positive feedback;

B. Focus on positive and restorative interventions that are consistent with evidence-based practices rather than set punishments for specific behavior and avoid so-called zero-tolerance practices unless specifically required by federal or state laws, rules or regulations. For the purpose of this paragraph, "restorative interventions" means school practices that are designed to strengthen relationships, improve the connection to school and promote a strong sense of accountability and that help students learn from their mistakes, understand the impact of their actions on others and find opportunities to repair the harm they have caused through their misbehavior.

§6554. Prohibition on bullying in public schools.
2. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Alternative discipline" means disciplinary action other than suspension or expulsion from school that is designed to correct and address the root causes of a student's specific misbehavior while retaining the student in class or school, or restorative school practices to repair the harm done to relationships and persons from the student's misbehavior. "Alternative discipline" includes, but is not limited to:

   (1) Meeting with the student and the student's parents;
(2) Reflective activities, such as requiring the student to write an essay about the student's misbehavior;

(3) Mediation when there is mutual conflict between peers, rather than one-way negative behavior, and when both parties freely choose to meet;

(4) Counseling;

(5) Anger management;

(6) Health counseling or intervention;

(7) Mental health counseling;

(8) Participation in skills building and resolution activities, such as social-emotional cognitive skills building, resolution circles and restorative conferencing;

(9) Community service; and

(10) In-school detention or suspension, which may take place during lunchtime, after school or on weekends. [...] 

5. Adoption of Policy. When revising the policies and procedures it has established to address bullying pursuant to section 1001, subsection 15, paragraph H, a school board shall ensure that its policies and procedures are consistent with the model policy developed or revised by the commissioner pursuant to section 254, subsection 11-A. The policies and procedures must include, but are not limited to:

G. A clear statement that any person who engages in bullying, who is determined to have knowingly and falsely accused another of bullying or who engages in acts of retaliation against a person who reports a suspected incident of bullying is subject to disciplinary actions, which actions may include but are not limited to imposing a series of graduated consequences that include alternative discipline.

§6555. Dangerous behavior prevention and intervention.

2. Report of incident of dangerous behavior. Upon receipt of a report of an incident of dangerous behavior made by a teacher or school staff person, a school administrative unit shall review the reported incident and develop an individualized response plan in accordance with this subsection. The review of the reported incident must be conducted by an administrator and an assigned public school employee. If the report of the incident of dangerous behavior is substantiated, the school administrative unit shall, in consultation with the public school employee who was subjected to the dangerous behavior, if any, develop an individualized response plan to avoid future dangerous behavior, which may include but is not limited to:

D. Restorative practices and restorative interventions as defined in section 1001, subsection 15-A, paragraph B.

REGULATIONS
05-071 CMR 33.1. Policy and purpose.
This rule establishes standards for the use of physical restraint and seclusion to provide for the safety of all individuals. Physical restraint and seclusion may only be used as an emergency intervention when the behavior of a student presents a risk of injury or harm to the student or others.
05-071 CMR 33.2. Definitions.

1. Aversive procedure means the use of a substance or stimulus, intended to modify behavior, which the person administering it knows or should know is likely to cause physical and/or emotional trauma to a student, even when the substance or stimulus appears to be pleasant or neutral to others. Such substances and stimuli include but are not limited to: infliction of bodily pain, (e.g. hitting, pinching, slapping), water spray, noxious fumes, extreme physical exercise, costumes, or signs.

2. Behavior Intervention Plan (BIP) is a comprehensive plan for managing problem behavior by changing or removing contextual factors that trigger or maintain it, and by strengthening replacement skills.

3. Chemical Restraint is the use of medication, including those administered PRN (as needed), given involuntarily to control student behavior.

5. De-escalation is the use of behavior management techniques intended to cause a situation involving problem behavior of a student to become more controlled, calm and less dangerous, thus reducing the risk for injury or harm.

6. Dangerous Behavior is behavior that presents a risk of injury or harm to a student or others.

7. Emergency is a sudden, urgent occurrence, usually unexpected but sometimes anticipated, that requires immediate action.

8. Functional Behavioral Assessment (FBA) is a school-based process that includes the parent and, as appropriate, the child, to determine why a child engages in challenging behaviors and how the behavior relates to the child's environment. The term includes direct assessments, indirect assessments and data analysis designed to assist the team to identify and define the problem behavior in concrete terms, identify the contextual factors (including affective and cognitive factors) that contribute to the behavior, and formulate a hypothesis regarding the general conditions under which a behavior usually occurs and the probable consequences that maintain the behavior. Formal documentation of the assessment by appropriately qualified individuals becomes part of the child's educational record.

9. Risk of injury or harm describes a situation in which a student has the means to cause physical harm or injury to self or others and such injury or harm is likely to occur; such that a reasonable and prudent person would take steps to protect the student and others against the risk of such injury or harm.

12. Mechanical Restraint is any item worn by or placed on the student to limit behavior or movement and which cannot be removed by the student.

13. Parent means a parent, as defined in Title 20-A MRSA, section 1, subsection 20, with legal custody of a minor child, except that the "parent" of a child with disabilities means a parent as defined in the federal Individual with Disabilities Education Act, 20 United States Code, Section 1401 (23).

14. Physical escort is temporary touching or holding for the purpose of inducing a student to walk to another location, including assisting the student to the student's feet in order to be escorted.
15. Physical prompt is a teaching technique that involves physical contact with the student and that enables the student to learn or model the physical movement necessary for the development of the desired competency.

16. Physical Restraint is an intervention that restricts a student's freedom of movement or normal access to his or her body, and includes physically moving a student who has not moved voluntarily. Physical restraint does not include:
   A. Physical escort;
   B. Physical prompt;
   C. Physical contact when the purpose of the intervention is to comfort a student and the student voluntarily accepts the contact;
   D. Momentarily deflecting the movement of a student when the student's movement would be destructive, harmful or dangerous to the student or to others;
   E. The use of seat belts, safety belts or similar passenger restraint, when used as intended, during the transportation of a child in a motor vehicle; or
   F. The use of a medically prescribed harness, when used as intended; or

   C. Protracted and obvious disfigurement; or
   D. Protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

22. Student is a child or adult aged 3 to 20 enrolled in a school or a program owned, operated or controlled by a covered entity as defined in this section.

23. Timeout is an intervention where a student requests, or complies with an adult request for, a break, and is not covered by this rule. Timeout is not seclusion.

05-071 CMR 33.4. Local policy; Notice to parents.

1. Local Policy Required
   All covered entities shall have local policies, consistent with this rule, regarding the use of physical restraint and seclusion. Covered entities must also have a procedure available by which parents may submit a complaint regarding the use of physical restraint or seclusion on their child, based upon which the covered entity shall investigate the circumstances surrounding the incident complained of, make written findings and, where appropriate, determine to take corrective action.
   Covered entities shall revise existing policies or develop policies consistent with this rule within 90 calendar days of the effective date of this rule.

2. Annual notification of rule and local policies
Annually, each covered entity shall provide overview and awareness information to all staff, including contracted providers, regarding the content of this rule and any local policies or procedures related to the use of physical restraint and seclusion.

Each covered entity shall provide an annual notice informing parents of students enrolled at the covered entity of this rule and any local policies or procedures related to the use of physical restraint and seclusion, including the local complaint process.

05-071 CMR 33.5. Seclusion.

1. Permitted uses of seclusion
   A. Seclusion may be used only as an emergency intervention when the behavior of a student presents a risk of injury or harm to the student or others, and only after other less intrusive interventions have failed or been deemed inappropriate.
   B. Seclusion must be implemented by staff certified in a state-approved training program to the extent possible. If, due to the nature of the emergency, untrained staff have intervened and initiated a seclusion, trained personnel must be summoned to the scene and assume control of the situation as rapidly as possible.

2. Prohibited uses of seclusion
   A. Seclusion may not be used for punitive purposes, staff convenience or to control challenging behavior.
   B. Seclusion may not be used to prevent property destruction or disruption of the environment in the absence of a risk of injury or harm.
   C. Seclusion may not be used as a therapeutic or educational intervention.
   D. Seclusion may not take place in a locked room.

3. Monitoring of a student in seclusion
   A. At least one adult must be physically present to continuously monitor a student in seclusion. The adult, while not present in the room or defined area, must be situated so that the student is visible at all times. Students must be continuously monitored until the student no longer presents a risk of injury or harm to self or others.
   B. In the event of an injury to the student or staff, the local policy for emergency response must be initiated.

4. Termination of seclusion
   A. The staff involved in the use of seclusion shall continually assess for signs that the student is no longer presenting a risk of injury or harm to self or others, and the seclusion must be discontinued as soon as possible.
   B. Time must be recorded consistent with the requirements of the documentation section of this rule and local policy.
   C. The covered entity may request assistance from parents at any time during the incident.

REGULATIONS
05-071 CMR 127.3. General requirements K-12.
Each school administrative unit shall provide programs and instructional approaches that support the variety of learning styles of the students in the schools of the unit. The school board shall adopt a policy that provides all students with equitable opportunities to access the content standards of the system of Learning Results.

3.04 Alternative Programs
A. Role of Alternative Programs
A school administrative unit may establish or participate in one or more programs as alternatives to the regular course of study to meet the needs of students at risk. Alternative programs shall support student social and behavioral development in addition to performance on the content standards of the system of Learning Results.

These programs shall have stated goals, objectives, and procedures for implementing and assessing their effectiveness. Such programs may include interventions such as programs outside the school...
B. Procedural Requirements

School administrative units shall develop a Personal Learning Plan, aligned with the system of Learning Results, for every K-12 student enrolled in an alternative program. Each Personal Learning Plan shall include, but not be limited to, the following components:

1). A description of the student's academic strengths and the observable or measurable areas in need of improvement.

2). A description of the annual educational goals, aligned with the content standards and performance indicators of the system of Learning Results, that the student may reasonably be expected to achieve during the school year.

3). A description of short-term instructional objectives leading to each annual educational goal.

4). A description of the social and behavioral needs that must be addressed for the student to achieve academic success, including strategies to keep the student in school.

5). A description of the multiple measures that will provide evidence that the student has achieved each goal.

6). For secondary school students, a description of the student's career goals and transitional steps to achieve them.

05-071 CMR 128.1. Intent.

Generally, the intent of L.D. 1851 is to require school officials to give increased attention to those pupils who are habitual truants and dropouts. Such attention will include record keeping relative to the actual numbers of pupils who are, by definition, habitual truants and dropouts; determining the reasons for each occurrence; providing appropriate alternative programs designed to promote these pupils' return to school; and providing appropriate alternative programs designed to prevent pupils from becoming habitual truants and dropouts.

05-071 CMR 128.13. Developing alternative programs.

The legislation encourages school units to establish alternative programs for dropouts and chronic (habitual) truants. Although the word "encouraged" is used, the primary intent of the legislation is to provide school units with the authority to establish programs for the identified pupils.

When developing alternative programs, local school officials should give consideration to the following questions:

A. Do the programs provide for academic and non-academic pursuits in accordance with the needs of the individual student?

B. Do the programs include that which is necessary for meeting curriculum and graduation requirements provided by statute or local board policy?

C. Do the programs provide adequate instructional time equivalent to that required for regular school programs?

D. Are adequate instructional materials provided?

E. Can the programs be evaluated in terms of meeting stated objectives?

Alternative programs may be developed and conducted under the direction of local school officials and may become operative within present school facilities during the regular school day. Likewise, alternative programs may be operated under the direction of local school officials outside the regular school facilities and school day. Regardless of which approach is followed, criteria should be developed to determine pupil eligibility for participation in these programs. A description of locally developed alternative programs is to be filed with this Department and the reporting process can be accomplished by using the data collection form.
It is possible that alternative programs may already exist or could be developed completely apart from local school jurisdiction. These programs could be operated by private individuals, groups, or agencies. If programs operated outside the school by private individuals, groups, or agencies seem appropriate in meeting the needs of the pupil, criteria for the programs should be developed by the local school officials and they should serve as a guide for the local approval of these programs. Such criteria should include the following:

A. The instruction is provided by qualified individuals. The qualifications might be evidenced by a valid teaching credential, a valid license (trade, etc.) in the area of content being presented, or expertise gained through long experience in the content of the specific program (adult education programs).

B. The quality of instruction is equivalent to that provided in the regular public school.

C. The facilities housing the program meet all fire safety, health, and sanitation standards.

D. The program is designed to provide adequate instructional time to meet its stated objectives.

E. There is provision for program evaluation.

Any alternative programs developed under this legislation shall be submitted to the local school board for approval.

05-071 CMR 128.14. Units unable to provide alternative programs.

In the legislation, provision is made for schools unable to provide an alternative program for chronic (habitual) truants and dropouts. In this instance, schools may tuition pupils to neighboring administrative units or to private schools; it is necessary that policies and procedures be developed to accommodate this practice. All receiving schools must be approved by this office under the basic school approval program.

Record keeping procedures should be locally developed for maintaining records of pupils enrolled in alternative programs on the basis of .1 pupil for each semester credit course or its equivalent leading toward a high school graduation. Such records will also be necessary for pupils tuitioned to neighboring units or private schools. Any pupil enrolled in an alternative program shall be counted on the rolls of the sending unit for subsidy purposes. No pupil shall be counted in the aggregate as more than 1.0.

05-071 CMR 128.16. Parental approval of alternative programs.

Regardless of what type of alternative program arrangement is determined for each individual pupil, local school officials should prepare a form for parents to sign to approve the alternative arrangement. Parents should be included in the total process and should provide evidence to the school officials that they understand what has taken place.

LAWS

§1001. Duties of school boards.

9-A. Students expelled or suspended under the requirements of the federal Gun-Free Schools Act. The school boards shall adopt a policy for expelling a student who is determined to have brought a firearm, as defined in 18 United States Code, Section 921, to school or to have possessed a firearm at school and for referring the matter to the appropriate local law enforcement agency.

A. A student who is determined to have brought a firearm to school or to have possessed a firearm at school under this subsection must be expelled from school for a period of not less than one year, except that the school board may authorize the superintendent to modify in writing the requirement for expulsion of a student on a case-by-case basis. A decision to change the placement of a student with a disability must be made in accordance with the federal Individuals With Disabilities Education Act, 20 United States Code, Section 1400 et seq.

B. Nothing in this subsection prevents a school board from:

(1) Offering instructional activities related to firearms or from allowing a firearm to be brought to school for instructional activities sanctioned by the school board and for which the school board has adopted appropriate safeguards to ensure student safety; or

(2) Providing educational services in an alternative setting to a student who has been expelled.

C. In accordance with the proper investigation and due process provisions required in subsection 9, a principal may suspend immediately for good cause a student who is determined to have brought a firearm to school or to have possessed a firearm at school under this subsection.

2. Exceptions. The provisions under subsection 1 do not apply to the following.

A. The prohibition on the possession and discharge of a firearm does not apply to law enforcement officials.

B. The prohibition on the possession of a firearm does not apply to the following persons, if the possession is authorized by a written policy adopted by the school board:
1) A person who possesses an unloaded firearm for use in a supervised educational program approved and authorized by the school board and for which the school board has adopted appropriate safeguards to ensure student safety; and 
2) A person who possesses an unloaded firearm that is stored inside a locked vehicle in a closed container, a zipped case or a locked firearms rack while the person is attending a hunter's breakfast or similar event that:
   (a) Is held during an open firearm season established under Title 12, Part 13 for any species of wild bird or wild animal;
   (b) Takes place outside of regular school hours; and
   (c) Is authorized by the school board.

C. The prohibition on possession and discharge of a firearm does not apply to a person possessing a firearm at a school-operated gun range or a person discharging a firearm as part of a school-sanctioned program at a school-operated gun range if the gun range and the program are authorized by a written policy adopted by the school's governing body.

3. Penalty. A person who violates this section is guilty of a Class E crime.

      C. Is truant.

§3271. Compulsory attendance at school.
3. Exceptions. Attendance at school or an alternative education program is not required of:
   C. A person who has been adjudged a truant and has been excused from attendance pursuant to procedures established by the commissioner.

§3272. Truancy; excusable absences.
2. Truancy. A person is truant if:

B. The person is required to attend school or alternative instruction and is at least 6 years of age and has not completed grade 6 under this chapter and has the equivalent of 7 full days of unexcused absences or 5 consecutive school days of unexcused absences during a school year; or

C. The person is required to attend school pursuant to section 3271, subsection 1-A and has not completed grade 6 and has the equivalent of 7 full days of unexcused absences or 5 consecutive school days of unexcused absences during a school year.

§5051-A. Truancy.

1. Truant. A student is truant if the student is subject to section 5001-A and:

A-1. The principal, upon determining that a student is truant under subsection 1, shall notify the superintendent of the student's truancy within 5 school days of the last unexcused absence.

A-2. A student who is determined truant under subsection 1 must be referred to the school's student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 to determine the cause of the truancy and assess the effect of the student's absences, as well as any future absences for the student. If it is determined that a negative effect exists, the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 shall develop an intervention plan to address the student's absences and the negative effect of these absences. An intervention plan may include, but is not limited to:

Failure of the student or the student's parents to appear at scheduled meetings does not preclude the school administrators from implementing an intervention plan to address the student's truancy.

B-1. The superintendent shall develop procedures to refer a student who is truant to the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 in accordance with this section. 4. A plan for dealing with future absences of a student who is truant; and
5. A plan for reporting of the results of the intervention plan developed pursuant to paragraph A-2.

C. If the intervention plan developed pursuant to paragraph A-2 is unable to correct the truancy of the child, the superintendent shall serve or cause to be served upon the parent in hand or by registered mail a written notice that attendance of the child at school is required by law. The notice must:

1. State that the student is required to attend school pursuant to section 5001-A;
2. Explain the parent's right to inspect the student's attendance records, attendance coordinator's reports and principal's reports;
3. Explain that the failure to send the student to school and maintain the student in regular attendance is a civil violation in accordance with section 5053-A and will jeopardize the student's status in the grade that the student is in;
4. State that the superintendent may notify the local law enforcement department of a violation of section 5053-A and the Department of Health and Human Services of a violation under subsection 1, paragraph C; and
5. Outline the plan developed to address the student's truancy and the steps that have been taken to implement that plan.

D. Prior to notifying the local law enforcement department under paragraph E, the superintendent shall schedule at least one meeting as required in paragraph B-1 and may invite a local prosecutor.

E. If, after 3 school days after service of the notice referred to in paragraph C, the student remains truant and the parent and student refuse to attend the meeting scheduled according to paragraph D, the superintendent shall report the facts of the unlawful absence to the local law enforcement department, which may proceed with an action to enforce section 5053-A against the parent unless the student is at once placed in an appropriate school or otherwise meets the requirements under section 5001-A.

F. When a student is determined to be truant and in violation of section 5001-A and the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 and the superintendent have made a good faith attempt to meet the requirements of paragraph B-1, the superintendent shall notify the school board of the student's truancy.

3. Reports. This subsection applies to reports of truancy.

REGULATIONS

05-071 CMR 128.1. Intent.

Generally, the intent of L.D. 1851 is to require school officials to give increased attention to those pupils who are habitual truants and dropouts. Such attention will include record keeping relative to the actual numbers of pupils who are, by definition, habitual truants and dropouts; determining the reasons for each occurrence; providing appropriate alternative programs designed to promote these pupils’ return to
school; and providing appropriate alternative programs designed to prevent pupils from becoming habitual truants and dropouts.

05-071 CMR 128.4. Recording unexcused absences.

It will be necessary to give attention to more specific documentation of pupils' unexcused absences. Pertinent items relative to this are as follows:

A. The record keeping process must begin immediately following the first unexcused absence.
B. The date of the unexcused absence is to be recorded.
C. Information is to be documented indicating what steps were taken to determine the reason(s) for the unexcused absence.

All public and private schools shall obtain and maintain this information on all truants whether they are educated at public or private expense.

05-071 CMR 128.5. Documentation relating to habitual truants.

Once a child has become habitually truant as defined in 20 MRSA 914, n2 the procedures adopted in 20 MRSA 911, sub-section 5, shall be adhered to. Attention must be given to regulations concerning confidentiality.

n1 A truant is a child who has an unexcused absence of one-half day or more.

n2 A child is determined to be an habitual truant if he is absent from school the equivalent of 10 full days or for one-half of a day on 7 consecutive school days within any 6-month period for other than an excusable absence as referred to in Section 911.

05-071 CMR 128.6. Tuition students.

Local school administrative units are responsible for providing education for all children of compulsory school age who legally reside within the geographical area of the units. If any child attends school outside the unit of legal residence and becomes truant in the receiving school, the superintendent or principal of the receiving school unit must notify the superintendent of the sending school unit and it becomes the responsibility of the sending unit to locate the truant child.

Once a child becomes an habitual truant, the principal of the public or private school of attendance shall forward to the superintendent of the sending unit all information relative to the unexcused absences of the habitual truant and which has been maintained on file. It then becomes the responsibility of the superintendent and school board to follow the procedures as outlined in the legislation.

05-071 CMR 128.12. School board policies required.

You will note on the first page of Section 911, sub-section 5, the statement requiring local boards to promulgate rules and regulations and to file a copy of these with the Commissioner. Such rules and regulations will be included in school board policies on the subjects identified in the legislation. It is expected that many of the needed policies are already in existence, but it may be necessary to adopt additional policies. Once all appropriate local policies have been adopted, these would become the rules and regulations required. The set of policies must then be submitted to the Commissioner prior to October 1, 1978. Any subsequent policy changes must be submitted upon adoption.

From a review of this legislation, it is apparent that policies are needed in the following areas:

A. Excused absences - Although excused absences are specifically identified in the legislation, policies are needed to provide guidance to local administrators.
B. Unexcused absences - All absences that are not included in # 1 above are unexcused absences.
C. Information required to be maintained on truant pupils
   1. What to collect
   2. How to maintain
3. Adherence to confidentiality
D. Procedures for referral of truancy matters from the principal to the superintendent.
E. Procedures for referral of truancy matters from the superintendent to the school board.
F. Procedures for notification of parents regarding hearing before the school board.
G. Procedures for waiving of compulsory attendance and for parent appeal if attendance is waived.
H. Procedures for bringing legal action against the parent under sub-section 8 of 20 MRSA 911.
I. Procedures for pupil to obtain work permit.
J. Procedures for excusing 14 year-old pupil for “suitable program of work, work study or training” and procedures for involving pupil in program selection.

It is possible that some policies addressing the preceding areas are already in effect through the Positive Action Committee Dropout Plan. You are, therefore, reminded to coordinate the development of the rules and regulations required under this legislation with the local plan for dealing with dropouts which is required by statute (20 MRSA 931-933).

05-071 CMR 128.13. Developing alternative programs.
The legislation encourages school units to establish alternative programs for dropouts and chronic (habitual) truants. Although the word “encouraged” is used, the primary intent of the legislation is to provide school units with the authority to establish programs for the identified pupils.

05-071 CMR 128.14. Units unable to provide alternative programs.
In the legislation, provision is made for schools unable to provide an alternative program for chronic (habitual) truants and dropouts. In this instance, schools may tuition pupils to neighboring administrative units or to private schools; it is necessary that policies and procedures be developed to accommodate this practice. All receiving schools must be approved by this office under the basic school approval program.

Record keeping procedures should be locally developed for maintaining records of pupils enrolled in alternative programs on the basis of .1 pupil for each semester credit course or its equivalent leading toward a high school graduation. Such records will also be necessary for pupils tuitioned to neighboring units or private schools. Any pupil enrolled in an alternative program shall be counted on the rolls of the sending unit for subsidy purposes. No pupil shall be counted in the aggregate as more than 1.0.

A student may be readmitted on satisfactory evidence that the behavior that was the cause of the student being expelled will not likely recur. The school board may authorize the principal to suspend students up to a maximum of 10 days for infractions of school rules. The school board may authorize the superintendent or principal to modify, in writing, the requirement for expulsion of a student on a case-by-case basis. In addition to other powers and duties under this subsection, the school board may develop a policy requiring a student who is in violation of school substance use or possession rules to participate in substance use disorder services as provided in section 6606. Nothing in this subsection or subsection 9-C prevents a school board from providing educational services in an alternative setting to a student who has been expelled.

§1578-B. Tobacco use in elementary and secondary schools prohibited.

§6605. Department role.
1. Personnel. The commissioner shall appoint, subject to the Civil Service Law, supervisors and consultants knowledgeable about substance use.

3. Cooperation; coordination. The department shall carry out its planning activities related to alcohol and drug education and prevention.
4. Information collection and sharing. The Department of Education is authorized to gather information about substance use disorder prevention and intervention programs initiated by state or federal agencies whose efforts are directed toward private and public schools of the State, for the purpose of sharing that information with school administrative units.

The school board shall provide for notice to the parents or legal guardian of a student required to participate in such services. If the school board elects to do so, it may request a parent or legal guardian to participate in the services.

§6621. Performance - Enhancing substances.
1. List of Banned Substances. The Commissioner of Health and Human Services shall develop a list of banned performance-enhancing substances. The list must include, but is not limited to, the following:

Multi-tiered Frameworks and Systems of Support

LAWS

§1001. Duties of school boards.
School boards shall perform the following duties.

15-A. School disciplinary policies. When revising the prescribed consequences for violation of the student code of conduct pursuant to subsection 15, paragraph C, a school board shall consider districtwide disciplinary policies that:
A. Focus on positive interventions and expectations and avoid focusing exclusively on unacceptable student behavior. For the purpose of this subsection, "positive interventions" means instructional and environmental supports that are designed to teach students prosocial alternatives to problem behaviors with high rates of positive feedback;

B. Focus on positive and restorative interventions that are consistent with evidence-based practices rather than set punishments for specific behavior and avoid so-called zero-tolerance practices unless specifically required by federal or state laws, rules or regulations. For the purpose of this paragraph, "restorative interventions" means school practices that are designed to strengthen relationships, improve the connection to school and promote a strong sense of accountability and that help students learn from their mistakes, understand the impact of their actions on others and find opportunities to repair the harm they have caused through their misbehavior;

C. Allow administrators to use their discretion to fashion appropriate discipline that examines the circumstances pertinent to the case at hand; and

D. Provide written notice to the parents of a student when a student is suspended from school, regardless of whether the suspension is an in-school or out-of-school suspension.

The school board shall ensure that administrators inform students, parents and school personnel of the districtwide school disciplinary policies.

§6555. Dangerous behavior prevention and intervention.

2. Report of incident of dangerous behavior. Upon receipt of a report of an incident of dangerous behavior made by a teacher or school staff person, a school administrative unit shall review the reported incident and develop an individualized response plan in accordance with this subsection. The review of the reported incident must be conducted by an administrator and an assigned public school employee. If the report of the incident of dangerous behavior is substantiated, the school administrative unit shall, in consultation with the public school employee who was subjected to the dangerous behavior, if any, develop an individualized response plan to avoid future dangerous behavior, which may include but is not limited to:

C. Providing positive behavioral interventions and supports and supports designed to address the consequences of trauma in the individual and training for the student and educators.

REGULATIONS

05-071 CMR 125.5. Other minimum requirements.

5.18 Multi-tiered System of Support

All school administrative units are required to develop and implement a multi-tiered system of support, kindergarten to grade 12, that provides each child with differentiated learning experiences and/or assistance to achieve social and emotional development, meet the content standards of the system of Learning Results, and graduation requirements. These supports must be specific, timely, and based upon ongoing formative assessments that continuously monitor student progress. Public Law 2019, Chapter 219.

A multi-tiered system of support has three distinct levels of intervention available to general education students:

Tier I - Universal Supports. This tier begins with the implementation of core, curriculum, including strategies to assist student development and learning. Typically, these supports are differentiated based on student need and provided to all students within the classroom. Tier I supports continue when Tier II or Tier III interventions are added.

Tier II - Targeted Supports. Supplemental instruction or supports provided to students in addition to Tier
1. These may be provided by qualified staff, including, but not limited to, the classroom teacher, an intervention specialist, or an authorized Educational Technician. Targeted support may involve more intensive practice and/or monitoring of regular classroom activities.

Tier III - Intensive Supports. Intensive instruction or supports provided to students through small group or one-to-one interventions, within the classroom or through an individualized environment, with an increased focus on teaching specific skills.

While there may be variations in how school administrative units develop and implement a multi-tiered system of support, the systems must include:

- Assurance that every child is provided with evidence-based core (Tier 1) academic instruction and positive behavioral and social/emotional supports;
- A collection of evidence-based, academic, behavioral, and social/emotional Tier II and III interventions that are available for students who need them;
- A team-based process to review children's progress and evaluate whether students who are struggling in any academic, behavioral, or social/emotional area may need more intensive Tier II or III support;
- A consistent process of valid, reliable, and age appropriate screening and progress monitoring to evaluate student progress at all tiers;
- A method to determine whether a child's assessed challenges are likely the result of trauma, linguistic, and/or cultural experiences;
- A mechanism for including parents in decision-making about a child's potential participation in Tier II or III activities; and
- Provisions for supports to continue during any subsequent special education referral.

The parent may request that a full and individual evaluation for possible special education eligibility determination be conducted at any time during the multi-tiered system of support review process.

Prevention

LAWS

§262. Violence prevention and intervention.
The commissioner shall provide technical assistance to school administrative units that request assistance in the provision of violence prevention and intervention training programs for teachers, school staff and students. The assistance must emphasize conflict resolution education, peer mediation and early identification and response to signs of violence.

§1001. Duties of school boards.
School boards shall perform the following duties.

15-A. School disciplinary policies. When revising the prescribed consequences for violation of the student code of conduct pursuant to subsection 15, paragraph C, a school board shall consider districtwide disciplinary policies that:

A. Focus on positive interventions and expectations and avoid focusing exclusively on unacceptable student behavior. For the purpose of this subsection, "positive interventions" means instructional and environmental supports that are designed to teach students prosocial alternatives to problem behaviors with high rates of positive feedback;

B. Focus on positive and restorative interventions that are consistent with evidence-based practices rather than set punishments for specific behavior and avoid so-called zero-tolerance practices unless specifically required by federal or state laws, rules or regulations. For the purpose of this paragraph, "restorative interventions" means school practices that are designed to strengthen relationships,
improve the connection to school and promote a strong sense of accountability and that help students learn from their mistakes, understand the impact of their actions on others and find opportunities to repair the harm they have caused through their misbehavior.
