

Missouri Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

LAWS

160.069. Policy on consequences of possession or drinking alcohol at school or during extracurricular activities.

Every school district shall develop a policy by June 30, 2006, detailing the consequences that will result for a student at school if the student is found to be in possession or drinking alcohol either on school property or while representing the school at extracurricular activities.

160.261. Discipline, written policy established by local boards of education-contents-reporting requirements-additional restrictions for certain suspensions-weapons offense, mandatory suspension or expulsion-no civil liability for authorized personnel-spanking not child abuse, when-investigation procedure-officials falsifying reports, penalty.

1. The local board of education of each school district shall clearly establish a written policy of discipline, including the district's determination on the use of corporal punishment and the procedures in which punishment will be applied. A written copy of the district's discipline policy and corporal punishment procedures, if applicable, shall be provided to the pupil and parent or legal guardian of every pupil enrolled in the district at the beginning of each school year and also made available in the office of the superintendent of such district, during normal business hours, for public inspection. No pupil shall be subject to corporal punishment procedures outlined in the discipline and corporal punishment policy without a parent or guardian being notified and providing written permission for the corporal punishment. All employees of the district shall annually receive instruction related to the specific contents of the policy of discipline and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities and instruction in the necessity and requirements for confidentiality.

2. The policy shall require school administrators to report acts of school violence to all teachers at the attendance center and, in addition, to other school district employees with a need to know. For the purposes of this chapter or chapter 167, "need to know" is defined as school personnel who are directly responsible for the student's education or who otherwise interact with the student on a professional basis while acting within the scope of their assigned duties. As used in this section, the phrase "act of school violence" or "violent behavior" means the exertion of physical force by a student with the intent to do serious physical injury as defined in section 556.061 to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. The policy shall at a minimum require school administrators to report, as soon as reasonably practical, to the appropriate law enforcement agency any of the following crimes, or any act which if committed by an adult would be one of the following crimes:

- (1) First degree murder under section 565.020;
- (2) Second degree murder under section 565.021;
- (3) Kidnapping under section 565.110 as it existed prior to January 1, 2017, or kidnapping in the first degree under section 565.110;

- (11) Distribution of drugs to a minor under section 195.212 as it existed prior to January 1, 2017, or delivery of a controlled substance under section 579.020;
- (12) Arson in the first degree under section 569.040;
- (13) Voluntary manslaughter under section 565.023;
- (14) Involuntary manslaughter under section 565.024 as it existed prior to January 1, 2017, involuntary manslaughter in the first degree under section 565.024, or involuntary manslaughter in the second degree under section 565.027;
- (15) Second degree assault under section 565.060 as it existed prior to January 1, 2017, or second degree assault under section 565.052;

committed on school property, including but not limited to actions on any school bus in service on behalf of the district or while involved in school activities. The policy shall require that any portion of a student's individualized education program that is related to demonstrated or potentially violent behavior shall be provided to any teacher and other school district employees who are directly responsible for the student's education or who otherwise interact with the student on an educational basis while acting within the scope of their assigned duties. The policy shall also contain the consequences of failure to obey standards of conduct set by the local board of education, and the importance of the standards to the maintenance of an atmosphere where orderly learning is possible and encouraged.

3. The policy shall provide that any student who is on suspension for any of the offenses listed in subsection 2 of this section or any act of violence or drug-related activity defined by school district policy as a serious violation of school discipline pursuant to subsection 9 of this section shall have as a condition of his or her suspension the requirement that such student is not allowed, while on such suspension, to be within one thousand feet of any school property in the school district where such student attended school or any activity of that district, regardless of whether or not the activity takes place on district property unless:

- (1) Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the superintendent or the superintendent's designee has authorized the student to be on school property;
 - (2) Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student and the superintendent or the superintendent's designee has authorized the student to be on school property;
 - (3) Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the school district where such student attended school; or
 - (4) Such student resides within one thousand feet of any public school in the school district where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.
4. Any student who violates the condition of suspension required pursuant to subsection 3 of this section may be subject to expulsion or further suspension pursuant to the provisions of sections 167.161, 167.164, and 167.171. In making this determination consideration shall be given to whether the student poses a threat to the safety of any child or school employee and whether such student's unsupervised presence within one thousand feet of the school is disruptive to the educational process or undermines the effectiveness of the school's disciplinary policy. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. This section shall not limit a school district's ability to:
- (1) Prohibit all students who are suspended from being on school property or attending an activity while on suspension;
 - (2) Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.
5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:
- (1) The superintendent or, in a school district with no high school, the principal of the school which such child attends may modify such suspension on a case-by-case basis; and
 - (2) This section shall not prevent the school district from providing educational services in an alternative setting to a student suspended under the provisions of this section.

160.263. Confinement of a student prohibited, when-policy on restrictive behavioral interventions required-model policy to be developed.

1. The school discipline policy under section 160.261 shall prohibit confining a student in an unattended, locked space except for an emergency situation while awaiting the arrival of law enforcement personnel.
2. By July 1, 2011, the local board of education of each school district shall adopt a written policy that comprehensively addresses the use of restrictive behavioral interventions as a form of discipline or behavior management technique. The policy shall be consistent with professionally accepted practices and standards of student discipline, behavior management, health and safety, including the safe schools act. The policy shall include but not be limited to:
 - (1) Definitions of restraint, seclusion, and time-out and any other terminology necessary to describe the continuum of restrictive behavioral interventions available for use or prohibited in the district;
 - (2) Description of circumstances under which a restrictive behavioral intervention is allowed and prohibited and any unique application requirements for specific groups of students such as differences based on age, disability, or environment in which the educational services are provided;

- (3) Specific implementation requirements associated with a restrictive behavioral intervention such as time limits, facility specifications, training requirements or supervision requirements; and
- (4) Documentation, notice and permission requirements associated with use of a restrictive behavioral intervention.

3. The department of elementary and secondary education shall, in cooperation with appropriate associations, organizations, agencies and individuals with specialized expertise in behavior management, develop a model policy that satisfies the requirements of subsection 2 of this section by July 1, 2010.

160.775. Antibullying policy required-definition- content, requirements.

1. Every district shall adopt an antibullying policy by September 1, 2007.
2. "Bullying" means intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, including gestures, or oral, cyberbullying, electronic, or written communication, and any threat of retaliation for reporting of such acts. Bullying of students is prohibited on school property, at any school function, or on a school bus. "Cyberbullying" means bullying as defined in this subsection through the transmission of a communication including, but not limited to, a message, text, sound, or image by means of an electronic device including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager.
3. Each district's antibullying policy shall be founded on the assumption that all students need a safe learning environment. Policies shall treat all students equally and shall not contain specific lists of protected classes of students who are to receive special treatment. Policies may include age-appropriate differences for schools based on the grade levels at the school. Each such policy shall contain a statement of the consequences of bullying.
4. Each district's antibullying policy shall be included in the student handbook and shall require, at a minimum, the following components:
 - (1) A statement prohibiting bullying, defined no less inclusively than in subsection 2 of this section;
 - (2) A statement requiring district employees to report any instance of bullying of which the employee has firsthand knowledge. The policy shall require a district employee who witnesses an incident of bullying to report the incident to the district's designated individual at the school within two school days of the employee witnessing the incident;
 - (3) A procedure for reporting an act of bullying. The policy shall also include a statement requiring that the district designate an individual at each school in the district to receive reports of incidents of bullying. Such individual shall be a district employee who is teacher level staff or above;
 - (4) A procedure for prompt investigation of reports of violations and complaints, identifying one or more employees responsible for the investigation including, at a minimum, the following requirements:
 - (a) Within two school days of a report of an incident of bullying being received, the school principal, or his or her designee, shall initiate an investigation of the incident;
 - (b) The school principal may appoint other school staff to assist with the investigation; and
 - (c) The investigation shall be completed within ten school days from the date of the written report unless good cause exists to extend the investigation;
 - (5) A statement that prohibits reprisal or retaliation against any person who reports an act of bullying and the consequence and appropriate remedial action for a person who engages in reprisal or retaliation;

(6) A statement of how the policy is to be publicized; and
(7) A process for discussing the district's antibullying policy with students and training school employees and volunteers who have significant contact with students in the requirements of the policy, including, at a minimum, the following statements:

- (a) The school district shall provide information and appropriate training to the school district staff who have significant contact with students regarding the policy;
- (b) The school district shall give annual notice of the policy to students, parents or guardians, and staff;
- (c) The school district shall provide education and information to students regarding bullying, including information regarding the school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to address bullying, including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have engaged in bullying, reprisal, or retaliation against any person who reports an act of bullying;
- (d) The administration of the school district shall instruct its school counselors, school social workers, licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for students to overcome bullying's negative effects. Such techniques shall include, but not be limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself or herself assertively and effectively; helping the student develop social skills; or encouraging the student to develop an internal locus of control. The provisions of this paragraph shall not be construed to contradict or limit any other provision of this section; and
- (e) The administration of the school district shall implement programs and other initiatives to address bullying, to respond to such conduct in a manner that does not stigmatize the victim, and to make resources or referrals available to victims of bullying.

5. Notwithstanding any other provision of law to the contrary, any school district shall have jurisdiction to prohibit cyberbullying that originates on a school's campus or at a district activity if the electronic communication was made using the school's technological resources, if there is a sufficient nexus to the educational environment, or if the electronic communication was made on the school's campus or at a district activity using the student's own personal technological resources. The school district may discipline any student for such cyberbullying to the greatest extent allowed by law.

6. Each district shall review its antibullying policy and revise it as needed. The district's school board shall receive input from school personnel, students, and administrators when reviewing and revising the policy.

committed on school property, including but not limited to actions on any school bus in service on behalf of the district or while involved in school activities. The policy shall require that any portion of a student's individualized education program that is related to demonstrated or potentially violent behavior shall be provided to any teacher and other school district employees who are directly responsible for the student's education or who otherwise interact with the student on an educational basis while acting within the scope of their assigned duties. The policy shall also contain the consequences of failure to obey standards of conduct set by the local board of education, and the importance of the standards to the maintenance of an atmosphere where orderly learning is possible and encouraged.

3. The policy shall provide that any student who is on suspension for any of the offenses listed in subsection 2 of this section or any act of violence or drug-related activity defined by school district policy as a serious violation of school discipline pursuant to subsection 9 of this section shall have as a condition of his or her suspension the requirement that such student is not allowed, while on such suspension, to be within one thousand feet of any school property in the school district where such student attended school or any activity of that district, regardless of whether or not the activity takes place on district property unless:

- (1) Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the superintendent or the superintendent's designee has authorized the student to be on school property;
- (2) Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the

student and the superintendent or the superintendent's designee has authorized the student to be on school property;

(3) Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the school district where such student attended school; or

(4) Such student resides within one thousand feet of any public school in the school district where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.

4. Any student who violates the condition of suspension required pursuant to subsection 3 of this section may be subject to expulsion or further suspension pursuant to the provisions of sections 167.161, 167.164, and 167.171. In making this determination consideration shall be given to whether the student poses a threat to the safety of any child or school employee and whether such student's unsupervised presence within one thousand feet of the school is disruptive to the educational process or undermines the effectiveness of the school's disciplinary policy. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. This section shall not limit a school district's ability to:

(1) Prohibit all students who are suspended from being on school property or attending an activity while on suspension;

(2) Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.

5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:

(1) The superintendent or, in a school district with no high school, the principal of the school which such child attends may modify such suspension on a case-by-case basis; and

(2) This section shall not prevent the school district from providing educational services in an alternative setting to a student suspended under the provisions of this section.

6. For the purpose of this section, the term "weapon" shall mean a firearm as defined under 18 U.S.C. Section 921 and the following items, as defined in section 571.010: a blackjack, a concealable firearm, an explosive weapon, a firearm, a firearm silencer, a gas gun, a knife, knuckles, a machine gun, a projectile weapon, a rifle, a shotgun, a spring gun or a switchblade knife; except that this section shall not be construed to prohibit a school board from adopting a policy to allow a Civil War reenactor to carry a Civil War era weapon on school property for educational purposes so long as the firearm is unloaded. The local board of education shall define weapon in the discipline policy. Such definition shall include the weapons defined in this subsection but may also include other weapons.

7. All school district personnel responsible for the care and supervision of students are authorized to hold every pupil strictly accountable for any disorderly conduct in school or on any property of the school, on any school bus going to or returning from school, during school-sponsored activities, or during intermission or recess periods.

8. Teachers and other authorized district personnel in public schools responsible for the care, supervision, and discipline of schoolchildren, including volunteers selected with reasonable care by the school district, shall not be civilly liable when acting in conformity with the established policies developed by each board, including but not limited to policies of student discipline or when reporting to his or her supervisor or other person as mandated by state law acts of school violence or threatened acts of school violence, within the course and scope of the duties of the teacher, authorized district personnel or volunteer, when such individual is acting in conformity with the established policies developed by the

board. Nothing in this section shall be construed to create a new cause of action against such school district, or to relieve the school district from liability for the negligent acts of such persons.

9. Each school board shall define in its discipline policy acts of violence and any other acts that constitute a serious violation of that policy. "Acts of violence" as defined by school boards shall include but not be limited to exertion of physical force by a student with the intent to do serious bodily harm to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. School districts shall for each student enrolled in the school district compile and maintain records of any serious violation of the district's discipline policy. Such records shall be made available to teachers and other school district employees with a need to know while acting within the scope of their assigned duties, and shall be provided as required in section 167.020 to any school district in which the student subsequently attempts to enroll.

10. Spanking, when administered by certificated personnel and in the presence of a witness who is an employee of the school district, or the use of reasonable force to protect persons or property, when administered by personnel of a school district in a reasonable manner in accordance with the local board of education's written policy of discipline, is not abuse within the meaning of chapter 210.

11. Upon receipt of any reports of child abuse by the children's division other than reports provided under subsection 11 of this section, pursuant to sections 210.110 to 210.165 which allegedly involve personnel of a school district, the children's division shall notify the superintendent of schools of the district or, if the person named in the alleged incident is the superintendent of schools, the president of the school board of the school district where the alleged incident occurred.

12. In order to ensure the safety of all students, should a student be expelled for bringing a weapon to school, violent behavior, or for an act of school violence, that student shall not, for the purposes of the accreditation process of the Missouri school improvement plan, be considered a dropout or be included in the calculation of that district's educational persistence ratio.

Any suspension issued pursuant to section 167.161, or this section, or expulsion pursuant to section 167.161, shall not relieve the state or the suspended student's parents or guardians of their responsibilities to educate the student. School districts are encouraged to provide an in-school suspension system and to search for other acceptable discipline alternatives prior to using suspensions of more than ten days or expelling a student from the school. Each school district or special school district constituting the domicile of any child for whom alternative education programs are provided or procured under this section shall pay toward the per pupil costs for alternative education programs for such child. A special school district shall pay an amount not to exceed the average sum produced per child by the local tax efforts of the domiciliary districts. When educational services have been provided by the school district or special school district in which a child actually resides, other than the district of domicile, the amounts as provided in subsection 2 of this section* for which the domiciliary school district or special school district is responsible shall be paid by such district directly to the serving district. 2. A school district may contract with other political subdivisions, public agencies, not-for-profit organizations, or private agencies for the provision of alternative education services for students whose demonstrated disruptive behavior indicates that they cannot be adequately served in the traditional classroom setting. (2) Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.

5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:

(1) The superintendent or, in a school district with no high school, the principal of the school which such child attends may modify such suspension on a case-by-case basis; and

(2) This section shall not prevent the school district from providing educational services in an alternative setting to a student suspended under the provisions of this section.

167.161. Suspension or expulsion of pupil-notice-hearing-felony violation, grounds for suspension.

1. The school board of any district, after notice to parents or others having custodial care and a hearing upon charges preferred, may suspend or expel a pupil for conduct which is prejudicial to good order and discipline in the schools or which tends to impair the morale or good conduct of the pupils. In addition to the authority granted in section 167.171, a school board may authorize, by general rule, the immediate removal of a pupil upon a finding by the principal, superintendent, or school board that the pupil poses a threat of harm to such pupil or others, as evidenced by the prior conduct of such pupil. Prior disciplinary actions shall not be used as the sole basis for removal, suspension or expulsion of a pupil. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. At the hearing upon any such removal, suspension or expulsion, the board shall consider the evidence and statements that the parties present and may consider records of past disciplinary actions, criminal court records or juvenile court records consistent with other provisions of the law, or the actions of the pupil which would constitute a criminal offense. The board may provide by general rule not inconsistent with this section for the procedure and conduct of such hearings. After meeting with the superintendent or his designee to discuss the expulsion, the parent, custodian or the student, if at least eighteen years of age, may, in writing, waive any right to a hearing before the board of education.

2. The school board of any district, after notice to parents or others having custodial care and a hearing upon the matter, may suspend a pupil upon a finding that the pupil has been charged, convicted or pled guilty in a court of general jurisdiction for the commission of a felony criminal violation of state or federal law. At a hearing required by this subsection, the board shall consider statements that the parties present. The board may provide for the procedure and conduct of such hearings.

3. The school board shall make a good-faith effort to have the parents or others having custodial care present at any such hearing. Notwithstanding any other provision of law to the contrary, student discipline hearings or proceedings related to the rights of students to attend school or to receive academic credit shall not be required to comply with the requirements applicable to contested case hearings as provided in chapter 536, provided that appropriate due process procedures shall be observed which shall include the right for a trial de novo by the circuit court.

171.141. Fraternities and sororities may be barred-enforcement.

1. As used in this section, a school fraternity or sorority is any organization composed wholly or in part of public school pupils, which seeks to perpetuate itself by taking in additional members from the pupils enrolled in public high schools, junior high schools or elementary schools on the basis of the decision of its membership rather than upon the free choice of any pupil in the school who is qualified by the rules of the board to fill the aims of the organization.

2. The school board of any school district, by rule, may prohibit membership of pupils in school fraternities or sororities composed of pupils in any high school, junior high school or elementary school in the district, when it deems that membership in the fraternities or sororities detrimentally affects the conduct and discipline of the schools in the district. Any rule adopted under this subsection shall prescribe the aim of school organizations which may be formed and the qualifications of pupils eligible for

membership therein. The board may adopt other rules that are necessary to carry out the purposes of this section.

3. Upon the adoption of the rule authorized by subsection 2, the school board may suspend, discipline and expel from the schools under its control, any pupil who remains a member of, who joins or promises to join, or who becomes pledged to become a member, or who solicits any other person to join, promise to join or be pledged or to become a member of a school fraternity or sorority. Upon direction of the board, by rule or otherwise, the superintendent of schools may suspend and discipline any person who violates the rule authorized by subsection 2 until the time that the matter is considered by the board.

3. The policy shall provide that any student who is on suspension for any of the offenses listed in subsection 2 of this section or any act of violence or drug-related activity defined by school district policy as a serious violation of school discipline pursuant to subsection 9 of this section shall have as a condition of his or her suspension the requirement that such student is not allowed, while on such suspension, to be within one thousand feet of any school property in the school district where such student attended school or any activity of that district, regardless of whether or not the activity takes place on district property unless:

- (1) Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the superintendent or the superintendent's designee has authorized the student to be on school property;
- (2) Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student and the superintendent or the superintendent's designee has authorized the student to be on school property;

In making this determination consideration shall be given to whether the student poses a threat to the safety of any child or school employee and whether such student's unsupervised presence within one thousand feet of the school is disruptive to the educational process or undermines the effectiveness of the school's disciplinary policy. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. This section shall not limit a school district's ability to:

- (1) Prohibit all students who are suspended from being on school property or attending an activity while on suspension;

(2) Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.

5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:

167.161. Suspension or expulsion of pupil-notice-hearing-felony violation, grounds for suspension.

1. At the hearing upon any such removal, suspension or expulsion, the board shall consider the evidence and statements that the parties present and may consider records of past disciplinary actions, criminal court records or juvenile court records consistent with other provisions of the law, or the actions of the pupil which would constitute a criminal offense. The board may provide by general rule not inconsistent with this section for the procedure and conduct of such hearings. After meeting with the superintendent or his designee to discuss the expulsion, the parent, custodian or the student, if at least eighteen years of age, may, in writing, waive any right to a hearing before the board of education.

2. The school board of any district, after notice to parents or others having custodial care and a hearing upon the matter, may suspend a pupil upon a finding that the pupil has been charged, convicted or pled guilty in a court of general jurisdiction for the commission of a felony criminal violation of state or federal law. In case of a suspension by the superintendent for more than ten school days, the pupil, the pupil's parents or others having such pupil's custodial care may appeal the decision of the superintendent to the board or to a committee of board members appointed by the president of the board which shall have full authority to act in lieu of the board. Any suspension by a principal shall be immediately reported to the superintendent who may revoke the suspension at any time. In event of an appeal to the board, the superintendent shall promptly transmit to it a full report in writing of the facts

167.171. Summary suspension of pupil-appeal-grounds for suspension-procedure-conference required, when-statewide suspension, when.

1. The school board in any district, by general rule and for the causes provided in section 167.161, may authorize the summary suspension of pupils by principals of schools for a period not to exceed ten school days and by the superintendent of schools for a period not to exceed one hundred and eighty school days. 3. No school board shall readmit or enroll a pupil properly suspended for more than ten consecutive school days for an act of school violence as defined in subsection 2 of section 160.261 regardless of whether or not such act was committed at a public school or at a private school in this state, provided that such act shall have resulted in the suspension or expulsion of such pupil in the case of a private school, or otherwise permit such pupil to attend school without first holding a conference to review the conduct that resulted in the expulsion or suspension and any remedial actions needed to prevent any future occurrences of such or related conduct. The conference shall include the appropriate school officials including any teacher employed in that school or district directly involved with the conduct that resulted in the suspension or expulsion, the pupil, the parent or guardian of the pupil or any agency having legal jurisdiction, care, custody or control of the pupil. The school board shall notify in writing the parents or guardians and all other parties of the time, place, and agenda of any such conference. Failure of any party to attend this conference shall not preclude holding the conference. Notwithstanding any provision of this subsection to the contrary, no pupil shall be readmitted or enrolled to a regular program of instruction if:

The local board of education shall define weapon in the discipline policy. Such definition shall include the weapons defined in this subsection but may also include other weapons. [...]
