New Jersey
Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

18A:40A-22. Findings, declarations relative to substance abuse testing policies in public school districts.
The Legislature finds and declares that there are many school districts within the State with a growing problem of drug abuse among their students. The Legislature further finds that federal and State courts have held that it may be appropriate for school districts to combat this problem through the random drug testing of students participating in extracurricular activities, including interscholastic athletics, and students who possess school parking permits. The Legislature also finds that a random drug testing program may have a positive effect on attaining the important objectives of deterring drug use and providing a means for the early detection of students with drug problems so that counseling and rehabilitative treatment may be offered.

18A:40A-23. Adoption of policy for random testing of certain students.
A board of education may adopt a policy, pursuant to rules and regulations adopted by the State Board of Education in consultation with the Department of Human Services, which are consistent with the New Jersey Constitution and the federal Constitution, for the random testing of the district's students in grades 9-12 who participate in extracurricular activities, including interscholastic athletics, or who possess school parking permits, for the use of controlled dangerous substances as defined in N.J.S.2C:35-2 and anabolic steroids. a. If any child enrolled in a school district has an unexcused absence from school for five consecutive school days, the attendance officer of the district shall investigate the absence and notify the district superintendent of the absence. In the event the investigation leads the district superintendent to have reasonable cause to believe the child has been abused or neglected as defined in section 1 of P.L.1974, c.119 (C.9:6-8.21), the district superintendent shall then notify the Division of Child Protection and Permanency in the Department of Children and Families for its determination of whether the division is or has been involved with the child and whether action, as appropriate, is warranted.

Five school days following the expected date of enrollment, the superintendent of the district of last attendance shall contact the school district in which the child is to be subsequently enrolled to determine if the child has enrolled in the district. If the child has not been so enrolled, the attendance officer of the transfer district shall investigate the failure to enroll and notify the superintendent of the transfer district of the failure to enroll. Such regular attendance shall be during all the days and hours that the public schools are in session in the district, unless it is shown to the satisfaction of the board of education of the district that the mental condition of the child is such that he cannot benefit from instruction in the school or that the bodily condition of the child is such as to prevent his attendance at school, but nothing herein shall be construed as permitting the temporary or permanent exclusion from school by the board of education of any district of any child between the ages of five and 20, except as explicitly otherwise provided by law.

Any child between the ages of six and 16 years who shall repeatedly be absent from school, and any child of such age found away from school during school hours whose parent, guardian or other person having charge and control of the child is unable to cause him to attend school and any pupil who is incorrigible, actually vagrant, vicious, or immoral in conduct, shall be deemed to be a juvenile delinquent and shall be proceeded against as such.

The attendance officer shall examine into all violations of this article, shall warn any child violating any of the provisions of this article and the parent, guardian or other person having charge and control of the child of the consequences of the violation if persisted in, and shall notify such person in writing to cause the child to attend school within five days from the date on which notice is served, and regularly thereafter. 18A:40A-7.1. Confidentiality of certain information provided by pupil; exceptions.
a. Except as provided by section 3 of P.L.1971, c.437 (C.9:6-8.10), if a public or private elementary or secondary school pupil who is participating in a school-based drug and alcohol abuse counseling program provides information during the course of a counseling session in that program which indicates that the pupil's parent or guardian or other person residing in the pupil's household is dependent upon or illegally using a substance as that term is defined in section 2 of P.L.1987, c.387 (C.18A:40A-9), that information shall be kept confidential and may be disclosed only under the circumstances expressly authorized under subsection b. of this section.

   (4) to the Division of Child Protection and Permanency or to a law enforcement agency, if the information would cause a person to reasonably suspect that the elementary or secondary school pupil
or another child may be an abused or neglected child as the terms are used in R.S.9:6-1, or as the terms are defined in section 2 of P.L.1971, c.437 (C.9:6-8.9), or section 1 of P.L.1974, c.119 (C.9:6-8.21).

c. Any disclosure made pursuant to paragraph (1) or (2) of subsection b. of this section shall be limited to that information which is necessary to carry out the purpose of the disclosure, and the person or entity to whom the information is disclosed shall be prohibited from making any further disclosure of that information without the pupil's written consent. The disclosure shall be accompanied by a written statement advising the recipient that the information is being disclosed from records the confidentiality of which is protected by P.L.1997, c.362 (C.18A:40A-7.1 et seq.), and that this law prohibits any further disclosure of this information without the written consent of the person from whom the information originated. Nothing in P.L.1997, c.362 (C.18A:40A-7.1 et seq.) shall be construed as prohibiting the Division of Child Protection and Permanency or a law enforcement agency from using or disclosing the information in the course of conducting an investigation or prosecution. Nothing in P.L.1997, c.362 shall be construed as authorizing the violation of any federal law.

d. The prohibition on the disclosure of information provided by a pupil pursuant to subsection a. of this section shall apply whether the person to whom the information was provided believes that the person seeking the information already has it, has other means of obtaining it, is a law enforcement or other public official, has obtained a subpoena, or asserts any other justification for the disclosure of this information.

Except as provided by section 6 of P.L.1971, c.437 (C.9:6-8.13), a person who discloses or willfully permits the disclosure of information provided by a pupil in violation of the provisions of section 1 of this act is subject to a fine of not more than $500 for a first offense and not more than $5,000 for a second and each subsequent offense. The penalty shall be collected and enforced in summary proceedings under "the penalty enforcement law" (N.J.S.2A:58-1 et seq.).

18A:40A-8. Legislative findings and declaration.
The Legislature finds and declares that:

a. A significant number of young people are unfortunately already involved in the abuse of alcohol and other drugs;

b. Research indicates that particular groups of youngsters, such as the children of alcoholic parents, may in fact face an increased risk of developing alcohol and other substance abuse problems and that early intervention services can be critical in their prevention, detection and treatment; and,

c. School-based initiatives have proven particularly effective in identifying and assisting students at a high risk of developing alcohol and other drug disturbances and in reducing absenteeism, decreasing the consumption of alcohol and other drugs, and in lessening the problems associated with such addictions.

For the purposes of this act:

"Substance" shall mean alcoholic beverages, controlled dangerous substances as defined in section 2 of P.L.1970, c.266 (C.24:21-2), anabolic steroids or any chemical or chemical compound which releases vapors or fumes causing a condition of intoxication, inebriation, excitement, stupefaction or dulling of the brain or nervous system including, but not limited to, glue containing a solvent having the property of releasing toxic vapors or fumes as defined in section 1 of P.L.1965, c.41 (C.2A:170-25.9).
“Substance abuse” shall mean the consumption or use of any substance as defined herein for purposes other than for the treatment of sickness or injury as prescribed or administered by a person duly authorized by law to treat sick and injured human beings.

18A:40A-10. Local boards to establish comprehensive substance abuse intervention, prevention and treatment referral programs.

Each local board of education shall, pursuant to guidelines developed by the Commissioner of Education, in consultation with the Commissioner of Health, establish a comprehensive substance abuse intervention, prevention and treatment referral program in the public elementary and secondary schools of the district. The purpose of the program shall be to identify pupils who are substance abusers, assess the extent of these pupils’ involvement with these substances and, where appropriate, refer pupils and their families to organizations and agencies approved by the Department of Health to offer competent professional treatment. Treatment shall not be at the expense of the local board of education.

Each school district shall develop a clear written policy statement which outlines the district’s program to combat substance abuse and which provides for the identification, evaluation, referral for treatment and discipline of pupils who are substance abusers. Copies of the policy statement shall be distributed to pupils and their parents at the beginning of each school year.

18A:40A-11. Local boards to establish policies and procedures for evaluation, referral, and treatment of students abusing substances on school property.

Each board of education shall adopt and implement, in accordance with rules and regulations promulgated by the State board, policies and procedures for the evaluation, referral for treatment and discipline of pupils involved in incidents of possession or abuse of substances as defined in section 2 [18A:40A-9] of this act, on school property or at school functions, or who show significant symptoms of the use of those substances on school property or at school functions. In adopting and implementing these policies and procedures, the board shall consult and work closely with a local organization involved with the prevention, detection and treatment of substance abuse approved by the Department of Health.

18A:40A-12. Reporting of pupils under influence; examination; report; return home; evaluation of possible need for treatment; referral for treatment.

a. Whenever it shall appear to any teaching staff member, school nurse or other educational personnel of any public school in this State that a pupil may be under the influence of substances as defined pursuant to section 2 of this act, other than anabolic steroids, that teaching staff member, school nurse, or other educational personnel shall report the matter as soon as possible to the school nurse or medical inspector, as the case may be, or to a student assistance coordinator, and to the principal or, in his absence, to his designee. The principal or his designee, shall immediately notify the parent or guardian and the superintendent of schools, if there be one, or the administrative principal and shall arrange for an immediate examination of the pupil by a doctor selected by the parent or guardian, or if that doctor is not immediately available, by the medical inspector, if he is available. If a doctor or medical inspector is not immediately available, the pupil shall be taken to the emergency room of the nearest hospital for examination accompanied by a member of the school staff designated by the principal and a parent or guardian of the pupil if available. The pupil shall be examined as soon as possible for the purpose of diagnosing whether or not the pupil is under such influence. A written report of that examination shall be furnished within 24 hours by the examining physician to the parent or guardian of the pupil and to the superintendent of schools or administrative principal. If it is determined that the pupil was under the influence of a substance, the pupil shall be returned to the pupil's home as soon as possible and shall not resume attendance at school until the pupil submits to the principal a written report certifying that the pupil
is physically and mentally able to return thereto, which report shall be prepared by a personal physician, the medical inspector, or the physician who examined the pupil pursuant to the provisions of this act.

In addition, the pupil shall be interviewed by a student assistance coordinator or another appropriately trained teaching staff member for the purpose of determining the extent of the pupil's involvement with these substances and possible need for treatment. In order to make this determination the coordinator or other teaching staff member may conduct a reasonable investigation which may include interviews with the pupil's teachers and parents. The coordinator or other teaching staff member may also consult with experts in the field of substance abuse as may be necessary and appropriate. If it is determined that the pupil's involvement with and use of these substances represents a danger to the pupil's health and well-being, the coordinator or other teaching staff member shall refer the pupil to an appropriate treatment program which has been approved by the Commissioner of Health.

b. Whenever any teaching staff member, school nurse, or other educational personnel of any public school in this State shall have reason to believe that a pupil has used or may be using anabolic steroids, that teaching staff member, school nurse, or other educational personnel shall report the matter as soon as possible to the school nurse or medical inspector, as the case may be, or to a student assistance coordinator, and to the principal or, in his absence, to his designee. The principal or his designee, shall immediately notify the parent or guardian and the superintendent of schools, if there be one, or the administrative principal and shall arrange for an examination of the pupil by a doctor selected by the parent or guardian or by the medical inspector. The pupil shall be examined as soon as possible for the purpose of diagnosing whether or not the pupil has been using anabolic steroids. A written report of that examination shall be furnished by the examining physician to the parent or guardian of the pupil and to the superintendent of schools or administrative principal. If it is determined that the pupil has been using anabolic steroids, the pupil shall be interviewed by a student assistance coordinator or another appropriately trained teaching staff member for the purpose of determining the extent of the pupil's involvement with these substances and possible need for treatment. In order to make this determination the coordinator or other teaching staff member may conduct a reasonable investigation which may include interviews with the pupil's teachers and parents. The coordinator or other teaching staff member may also consult with experts in the field of substance abuse as may be necessary and appropriate. If it is determined that the pupil's involvement with and use of these substances represents a danger to the pupil's health and well-being, the coordinator or other teaching staff member shall refer the pupil to an appropriate treatment program which has been approved by the Commissioner of Health.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall develop an inservice training program for public school teachers to enable the teachers to recognize and respond to substance abuse by public school pupils. The program shall, at a minimum, include:

1. Instruction to assist the teacher in the identification of the symptoms and behavioral patterns which might indicate that a child may be involved in substance abuse;

2. Appropriate intervention strategies; and,

3. Information on the State, local and community organizations which are available for the prevention, early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.

The inservice training program required pursuant to this section shall be updated at regular intervals in order to insure that teaching staff members have the most current information available on this subject.

b. Each local board of education shall insure that all teaching staff members in the district who are involved in the instruction of pupils are provided with the inservice training program developed pursuant to this section. The inservice training program of the local board of education shall also include information
concerning the policy of the board regarding the referral for treatment of pupils involved in substance abuse, as required pursuant to section 5 of this act.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall establish guidelines for substance abuse education programs to be offered by local boards of education to the parents or legal guardians of public school pupils. The program shall, at a minimum, provide:

(1) A thorough and comprehensive review of the substance abuse education curriculum which will be taught to the child of the parent or guardian during the school year, with recommendations as to the ways in which the parent or guardian may enhance, reinforce and supplement that program;

(2) Information on the pharmacology, physiology, psychosocial and legal aspects of substance abuse, and instruction to assist the parent or guardian in the identification of the symptoms and behavioral patterns which might indicate that a child may be involved in substance abuse; and

(3) Information on the State, local and community organizations which are available for the prevention, early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.

b. In addition to the guidelines required pursuant this section, the Commissioner of Education, in consultation with the Commissioner of Health, shall develop and provide to local boards of education suggested materials for the substance abuse education program for parents or legal guardians of school pupils, and shall maintain and continuously update a roster of individuals or groups available to assist boards of education in implementing this program and a list of State and local agencies and organizations which are approved by the Department of Health to provide services for the prevention, early intervention, treatment or rehabilitation of individuals who show symptoms of substance abuse.

18A:40A-17. Outreach program.

a. Under the guidelines established by the Commissioner of Education, each local board of education shall establish an outreach program to provide substance abuse education for the parents or legal guardians of the pupils of the district. In establishing the program, the local board of education shall consult with such local organizations and agencies as are recommended by the commissioner. The board of education shall insure that the program is offered at times and places convenient to the parents of the district on school premises, or in other suitable facilities.

b. In addition to the substance abuse education program required pursuant to this section, each local board of education shall establish policies and procedures to provide assistance to parents or legal guardians who believe that their child may be involved in substance abuse. These policies and procedures shall be consistent with the policies and procedures for intervention by school personnel developed pursuant to this act.

c. The board of education in each school district in the State in which a nonpublic school is located shall have the power and duty to loan to the parents or legal guardians of all pupils attending nonpublic schools located within the district all educational materials developed by the Commissioner of Education for the instruction of the parents or legal guardians of public school pupils on the nature and effects of substances and substance abuse. The Commissioner of Education shall make these materials available so that the local board of education shall not be required to expend funds for the loan of these materials.

The Commissioner of Education, in consultation with the Commissioner of Health, shall develop and administer a program which provides for the employment of student assistance coordinators in certain school districts.
a. Within 90 days of the effective date of this act, the Commissioner of Education shall forward to each local school board a request for a proposal for the employment of a student assistance coordinator. A board which wants to participate in the program shall submit a proposal to the commissioner which outlines the district's plan to provide substance abuse prevention, intervention, and treatment referral services to students through the employment of a student assistance coordinator. Nothing shall preclude a district which employs a student assistance coordinator at the time of the effective date of this act from participating in this program. The commissioner shall select school districts to participate in the program through a competitive grant process. The participating districts shall include urban, suburban, and rural districts from the north, central, and southern geographic regions of the State with at least one school district per county. In addition to all other State aid to which the local district is entitled under the provisions of P.L.2007, c.260 (C.18A:7F-43 et al.) and other pertinent statutes, each board of education participating in the program shall receive from the State, for a three-year period, the amount necessary to pay the salary of its student assistance coordinator.

b. The position of student assistance coordinator shall be separate and distinct from any other employment position in the district, including, but not limited to district guidance counselors, school social workers, and school psychologists. The State Board of Education shall approve the education and experience criteria necessary for employment as a student assistance coordinator. The criteria shall include a requirement for certification by the State Board of Examiners. In addition to the criteria established by the State board, the Department of Education and the Department of Health shall jointly conduct orientation and training programs for student assistance coordinators, and shall also provide for continuing education programs for coordinators.

c. It shall be the responsibility of student assistance coordinators to assist local school districts in the effective implementation of this act. Coordinators shall assist with the in service training of school district staff concerning substance abuse issues and the district program to combat substance abuse; serve as an information resource for substance abuse curriculum development and instruction; assist the district in revising and implementing substance abuse policies and procedures; develop and administer intervention services in the district; provide counseling services to pupils regarding substance abuse problems; and, where necessary and appropriate, cooperate with juvenile justice officials in the rendering of substance abuse treatment services.

d. The Commissioner of Education, in consultation with the Commissioner of Health, shall implement a plan to collect data on the effectiveness of the program in treating problems associated with substance abuse and in reducing the incidence of substance abuse in local school districts. Six months prior to the expiration of the program authorized pursuant to this section, the Commissioner of Education shall submit to the Governor and the Legislature an evaluation of the program and a recommendation on the advisability of its continuation or expansion to all school districts in the State.

The Commissioner of Education is authorized to make grants to local school districts in such amounts as he shall determine, to assist the districts in the implementation of innovative pilot programs designed to educate pupils of elementary and secondary schools and members of the general public on the subject of substance abuse, and to prevent the abuse of those substances. Application for grants shall be made on forms furnished by the Commissioner of Education and shall set forth the program proposed and appropriate administrative procedures for the proper and efficient implementation of the program. These pilot programs shall, at a minimum, include:

a. An early intervention competitive grant pilot program to be established by the Commissioner of Education, in consultation with the Commissioner of Health and the Commissioner of Human Services, to enable local school districts to identify and assist elementary school pupils who are affected by family
substance abuse problems or who are at risk of developing such problems themselves. The purpose of the program shall be to encourage the creation of effective model programs for the early identification of children at risk for substance abuse related problems and to provide for effective intervention when these children are identified.

Grants shall be awarded to boards of education through a competitive grant process based upon written applications submitted by local boards of education. The Commissioner of Education shall select not more than eight of the proposals submitted by boards of education for participation in the pilot program. The commissioner, in addition to considering the overall quality of each proposal and the likelihood that the proposal can be replicated in other districts, shall seek to achieve the broadest geographic distribution of recipients consistent with the purposes of this act.

b. The pilot program established in Ocean County by the Department of Education in conjunction with the Juvenile Services Unit in the Family Division of the Administrative Office of the Courts, to coordinate the efforts of school and juvenile justice personnel in the county to combat alcohol and substance abuse by students.

The commissioner shall evaluate the effectiveness of the model program developed and tested pursuant to this section and disseminate information about successful model programs to school districts that do not participate in the pilot program.

The Commissioner of Education, in consultation with the Commissioner of Health and the Commissioner of Human Services, shall develop procedures for the evaluation of the impact of the programs established pursuant to this act and shall report annually to the Governor and the Legislature on the effects of these programs. That report shall include data concerning the incidence of substance abuse in the public schools; the nature and scope of intervention, prevention and treatment referral programs; an assessment of the impact of those programs on the problem of substance abuse; and, any recommendations for modifications in the programs established pursuant to this act.

18A:40A-22. Findings, declarations relative to substance abuse testing policies in public school districts.

The Legislature finds and declares that there are many school districts within the State with a growing problem of drug abuse among their students. The Legislature further finds that federal and State courts have held that it may be appropriate for school districts to combat this problem through the random drug testing of students participating in extracurricular activities, including interscholastic athletics, and students who possess school parking permits. The Legislature also finds that a random drug testing program may have a positive effect on attaining the important objectives of deterring drug use and providing a means for the early detection of students with drug problems so that counseling and rehabilitative treatment may be offered.

18A:40A-23. Adoption of policy for random testing of certain students.

A board of education may adopt a policy, pursuant to rules and regulations adopted by the State Board of Education in consultation with the Department of Human Services, which are consistent with the New Jersey Constitution and the federal Constitution, for the random testing of the district's students in grades 9-12 who participate in extracurricular activities, including interscholastic athletics, and students who possess school parking permits, for the use of controlled dangerous substances as defined in N.J.S.2C:35-2 and anabolic steroids. The testing shall be conducted by the school physician, school nurse or a physician, laboratory or health care facility designated by the board of education and the cost shall be paid by the board. Any disciplinary action taken against a student who tests positive for drug use or who refuses to consent to
testing shall be limited to the student's suspension from or prohibition against participation in extracurricular activities, or revocation of the student's parking permits.

23:2-13. Hooked on Fishing-Not on Drugs Program.

1. There is established in the Department of Environmental Protection, Division of Fish and Wildlife, a Hooked on Fishing-Not on Drugs Program, which shall be based on a national program developed by the Future Fisherman Foundation that encourages school-aged children to avoid drug usage by providing alternative activities that involve learning to fish, appreciating aquatic and environmental resources, and developing positive life skills. The division shall assign staff to develop strategies for assisting school districts or other interested public service organizations in implementing this program throughout the State. Statewide program implementation shall be modeled after the pilot program implemented in Ocean County in calendar year 2000, which may include, but not be limited to, the distribution of materials to promote and operate the program throughout the State. To the maximum extent possible, the division shall implement and operate the program in every county in the State.

2. The division may work with educational, public safety and environmental groups in order to promote volunteerism among these groups for the purpose of acting as program instructors, mentors or advisors. The division may also work with public service organizations, sportsman groups and local merchants to encourage the donation of technical, material and financial assistance to the program.

23:2-14. Collection, maintenance of data; annual report.

2. The division shall collect and maintain data on the Hooked on Fishing-Not on Drugs Program and provide an annual report to the Legislature pursuant to section 2 of P.L.1991, c.164 (C.52:14-19.1), including information on the number of school districts or municipalities that have implemented the program and the number of pupils that are participating in the program. The report shall also include information on the effectiveness of the program in terms of drug usage avoidance or incidents among participating students.

3. The Department of Environmental Protection shall adopt, pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), such rules and regulations as may be necessary to effectuate the provisions of this act.

v. Help a student or a student's parents follow through on the recommendations resulting from an evaluation that has positively determined the harmful use of alcohol, tobacco, or other drugs by the student or the student's parents; and
vi. Assist a student or a student's parents with a referral for treatment.

3. The purpose of the continuity of care component of the program shall be to:
i. Assist with the provision of educational programs and services for students in treatment; and
ii. Plan and provide supportive services for students who are returning from treatment.

4. Each district board of education shall ensure that all educational staff members receive in-service training in alcohol, tobacco, and other drug abuse prevention and intervention, in accordance with N.J.S.A. 18A:40A-3 and 15.
i. The in-service training shall be updated annually to ensure educational staff members have the most current information available on the subject of substance abuse and on the school district's comprehensive alcohol, tobacco, and other drug abuse program, policies, and procedures.

6. When a student assistance coordinator is not employed or contracted by a district board of education, the board shall assign school staff with appropriate educational services certificates to perform the student assistance coordinator functions, pursuant to N.J.S.A. 18A:40A-18.c and (a)5 above, and to assist in the effective implementation of the requirements of N.J.S.A. 18A:40A-1 through 17.
i. The district board of education shall maintain documentation of school staff with appropriate educational services certificates who will perform the student assistance coordinator functions.

7. Each district board of education shall establish educational programs on alcohol, tobacco, and other drug abuse for parents, pursuant to N.J.S.A. 18A:40A-16 and 17(a), and offered at times and places convenient to the parents of enrolled students.

6A:16-4.3. Reporting, notification, and examination procedures for students suspected of being under the influence of alcohol or other drugs.
(a) In instances involving alcoholic beverages, controlled dangerous substances other than anabolic steroids, or any other chemical or chemical compound as identified in N.J.S.A. 18A:40A-9 and N.J.A.C. 6A:16-4.1(a), the following shall apply:

1. Any educational staff member or other professional to whom it appears that a student may be currently under the influence of alcohol or other drugs on school grounds shall report the matter as soon as possible to the principal or, in his or her absence, to his or her designee and either the certified school nurse, noncertified nurse, school physician, or student assistance coordinator, pursuant to N.J.S.A. 18A:40A-12.

   i. In instances where the principal and either the certified school nurse, non-certified nurse, school physician, or student assistance coordinator are not in attendance, the staff member responsible for the school function shall be immediately notified.

   i. Immediately notify the parent and the chief school administrator or his or her designee; and
   ii. Arrange for an immediate medical examination of the student for the purposes of providing appropriate health care and for determining whether the student is under the influence of alcohol or other drugs, other than anabolic steroids.

3. The chief school administrator or designee may disclose to law enforcement authorities the identity of a student suspected to be under the influence of alcohol or other drugs, pursuant to (a)1 above.

   i. The chief school administrator shall disclose to law enforcement authorities the identity of a student reasonably believed to be in possession of a controlled dangerous substance or related paraphernalia or a student reasonably believed to be involved or implicated in distribution activities regarding controlled dangerous substances.

4. The medical examination, pursuant to (a)2ii above, shall be performed by a physician licensed to practice medicine or osteopathy who is selected by the parent.

   i. The school district, in cooperation with medical professionals licensed to practice medicine or osteopathy, shall establish minimum requirements for the medical examination.
   ii. The examination shall be at the expense of the parent and not the district board of education.

5. If the physician chosen by the parent is not immediately available, the medical examination shall be conducted by the school physician.

   i. If the school physician is not available, the student shall be accompanied by a member of the school staff designated by the principal to the emergency room of the nearest hospital for examination.
ii. The student's parent, if available, also shall accompany the student.

iii. When the medical examination is conducted by the school physician or a physician at the emergency room of the nearest hospital, the examination shall be at the expense of the district board of education.

6. Each district board of education shall have a plan in place for the appropriate supervision of the student:

i. While waiting for a parent to take the student to the physician selected by the parent, or while the student is waiting for and receiving the medical examination by the school physician or a physician in an emergency room; and

ii. Provisions shall be made for the appropriate care of the student while awaiting the results of the medical examination.

7. A written report of the medical examination shall be furnished to the student's parent, the principal, and the chief school administrator by the examining physician within 24 hours of the referral of the student for suspected alcohol or other drug use.

i. The school district, in cooperation with the school physician or medical professionals licensed to practice medicine or osteopathy, shall establish minimum requirements for the medical report.

ii. The report's findings shall verify whether the student's alcohol or other drug use interferes with his or her physical and mental ability to perform in school.

8. When the medical examination is performed by a physician other than the school physician or a physician at the emergency room of the nearest hospital, the school district shall require the parent to verify within 24 hours of the notification that the student is suspected of alcohol or other drug use that a medical examination was performed in compliance with (a)7i above.

i. The verification shall include, at a minimum, the signature, printed name, address, and phone number of the examining physician, the date and time of the medical examination, and the date by which the report required in (a)7 above will be provided.

ii. Refusal or failure by a parent to comply with this requirement shall be treated as a policy violation and handled in accordance with (d) below.

9. If the written report of the medical examination is not submitted to the parent, principal, and chief school administrator within 24 hours of the referral of the student for suspected alcohol or other drug use, the student shall be allowed to return to school until such time as a positive determination of alcohol or other drug use is received from the examining physician, unless the student was also removed for violating the code of student conduct.

10. If the written report of the medical examination verifies that alcohol or other drugs do not interfere with the student's physical and mental ability to perform in school, the student shall be immediately returned to school.

11. If there is a positive determination from the medical examination indicating the student's alcohol or other drug use interferes with his or her physical or mental ability to perform in school:

i. The student shall be returned as soon as possible to the care of a parent;

ii. Attendance at school shall not resume until a written report has been submitted to the parent, the principal and chief school administrator from a physician licensed to practice medicine or osteopathy who has examined the student to determine whether alcohol or other drug use interferes with his or her physical or mental ability to perform in school;

(1) The report shall verify that the student's alcohol or other drug use no longer interferes with his or her physical and mental ability to perform in school; and

iii. Removal of a student with a disability shall be made in accordance with N.J.A.C. 6A:14.
12. While the student is at home because of the medical examination or after the student returns to school, an individual who holds the educational services certificate with the student assistance coordinator endorsement issued by the New Jersey State Board of Examiners, or an individual who holds one of the following educational services certificate endorsements: school nurse; school nurse/non-instructional; school psychologist; school counselor; school social worker; or student personnel services and is trained to assess alcohol and other drug abuse shall:

i. Conduct an alcohol and other drug assessment of the student and a reasonable investigation of the situation, which may include interviews with the student's teachers and parents and consultation with experts in student alcohol or other drug abuse, for the purpose of making a preliminary determination of the student's need for educational programs, supportive services, or treatment that extend beyond the general school program by virtue of the student's use of alcohol or other drugs.

(1) The findings of the assessment alone shall not be used to prevent a student from attending school; and

ii. Cooperate with community agencies as defined in N.J.A.C. 6A:16-4.1(b) and juvenile justice officials in providing evaluation, referral and continuity of care for alcohol or other drug abuse treatment.

13. While the student is at home because of the medical examination or after his or her return to school, the principal or chief school administrator may recommend or require alcohol and other drug assessment of the student or evaluation by appropriately certified or licensed professionals to make a positive determination of a student's need for programs and services that extend beyond the general school program, as necessary.

i. The findings of additional evaluations alone shall not be used to prevent a student from attending school.

14. If at any time it is determined that the student's use of alcohol or other drugs presents a danger to the student's health and well-being, an individual who holds the educational services certificate with the student assistance coordinator endorsement issued by the New Jersey State Board of Examiners or an individual who holds one of the following educational services certificate endorsements: school nurse; school nurse/non-instructional; school psychologist; school counselor; school social worker; or student personnel services and is trained in alcohol and other drug abuse treatment referral shall initiate a referral for alcohol or other drug abuse treatment.

15. The district board of education may provide additional intervention and referral services for the student according to N.J.S.A. 18A:40A-10 and N.J.A.C. 6A:16-8.

(b) In instances involving the suspected use of anabolic steroids, the following shall apply according to N.J.S.A. 18A:40A-12(b):

1. Whenever a teaching staff member, certified or non-certified school nurse, or other educational personnel has reason to believe that a student has used or may be using anabolic steroids, the person shall report the matter as soon as possible to the principal or, in his or her absence, to his or her designee and either the certified or non-certified school nurse, school physician, or student assistance coordinator.

2. In response to a report of suspected anabolic steroid use pursuant to (b)1 above, including instances when a report is made to law enforcement, the principal or his or her designee shall immediately notify the parent and the chief school administrator and shall arrange for an examination of the student by a physician licensed to practice medicine or osteopathy selected by the parent.

i. If the physician chosen by the parent is not available to perform the examination, it shall be conducted by the school physician or other physician identified by the principal.
ii. The student shall be examined as soon as possible for the purpose of determining whether he or she has been using anabolic steroids.

3. The chief school administrator or designee may disclose to law enforcement authorities the identity of a student suspected to have used or to be using anabolic steroids, pursuant to (b)1 above.
   i. The chief school administrator shall disclose to law enforcement authorities the identity of a student reasonably believed to be in possession of anabolic steroids or related paraphernalia or a student reasonably believed to be involved or implicated in distribution activities involving anabolic steroids.

4. The examining physician shall provide to the parent, principal, and chief school administrator a written report of the examination.

5. If it is determined the student has used anabolic steroids, an individual who holds the educational services certificate with the student assistance coordinator endorsement issued by the New Jersey State Board of Examiners or an individual who holds one of the following educational services certificate endorsements: school nurse; school nurse/non-instructional; school psychologist; school counselor; school social worker; or student personnel services and is trained to assess alcohol and other drug abuse shall interview the student and others, as necessary, for the purpose of determining the extent of the student's involvement with and use of anabolic steroids and the possible need for referral for treatment.
   i. To make this determination, school staff members identified in (b)5 above may conduct a reasonable investigation, which may include interviews with the student's teachers and parents and consultation with experts in student alcohol or other drug abuse.

6. If results of a referral for evaluation positively determine the student's involvement with and use of anabolic steroids represents a danger to the student's health and well-being, an individual who holds the educational services certificate with the student assistance coordinator endorsement issued by the New Jersey State Board of Examiners or an individual who holds one of the following educational services certificate endorsements: school nurse; school nurse/non-instructional; school psychologist; school counselor; school social worker; or student personnel services and is trained to assess alcohol and other drug abuse shall initiate a referral for treatment to appropriate community agencies, as defined in N.J.A.C. 6A:16-4.1(b), to out-of-State agencies licensed by the appropriate state regulatory agency for alcohol and other drug services, or to private practitioners certified by the appropriate drug and alcohol licensing board.

(c) Any educational or non-educational district board of education employee who in good faith reports to the principal or his or her designee a student in compliance with the provisions of this subsection shall not be liable in civil damages as a result of making a report, as specified in N.J.S.A. 18A:40A-13 and 14.

(d) Refusal or failure by a parent to comply with the provisions of N.J.S.A. 18A:40A-12 and this section shall be treated as a policy violation of the Compulsory Education Act, pursuant to N.J.S.A. 18A:38-25 and 31, and child neglect laws, pursuant to N.J.S.A. 9:6-1 et seq. and N.J.A.C. 6A:16-11.

Bullying, harassment, or hazing

LAWS

Any pupil who is guilty of continued and willful disobedience, or of open defiance of the authority of any teacher or person having authority over him, or of the habitual use of profanity or of obscene language, or
who shall cut, deface or otherwise injure any school property, shall be liable to punishment and to
suspension or expulsion from school.

Conduct which shall constitute good cause for suspension or expulsion of a pupil guilty of such conduct
shall include, but not be limited to, any of the following:

k. Harassment, intimidation, or bullying.

18A:37-13. Findings, declarations relative to adoption of harassment and bullying prevention
policies.
The Legislature finds and declares that: a safe and civil environment in school is necessary for students
to learn and achieve high academic standards; harassment, intimidation or bullying, like other disruptive
or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to
educate its students in a safe environment; and since students learn by example, school administrators,
faculty, staff, and volunteers should be commended for demonstrating appropriate behavior, treating
others with civility and respect, and refusing to tolerate harassment, intimidation or bullying.

The Legislature finds and declares that:

a. A 2009 study by the United States Departments of Justice and Education, "Indicators of School
Crime and Safety," reported that 32% of students aged 12 through 18 were bullied in the previous
school year. The study reported that 25% of the responding public schools indicated that bullying was a
daily or weekly problem;

b. A 2009 study by the United States Centers for Disease Control and Prevention, "Youth Risk Behavior
Surveillance," reported that the percentage of students bullied in New Jersey is 1 percentage point
higher than the national median;

c. In 2010, the chronic persistence of school bullying has led to student suicides across the country,
including in New Jersey;

d. Significant research has emerged since New Jersey enacted its public school anti-bullying statute in
2002, and since the State amended that law in 2007 to include cyber-bullying and in 2008 to require
each school district to post its anti-bullying policy on its website and distribute it annually to parents or
guardians of students enrolled in the district;

e. School districts and their students, parents, teachers, principals, other school staff, and board of
education members would benefit by the establishment of clearer standards on what constitutes
harassment, intimidation, and bullying, and clearer standards on how to prevent, report, investigate, and
respond to incidents of harassment, intimidation, and bullying;

f. It is the intent of the Legislature in enacting this legislation to strengthen the standards and
procedures for preventing, reporting, investigating, and responding to incidents of harassment,
imidation, and bullying of students that occur in school and off school premises;

g. Fiscal responsibility requires New Jersey to take a smarter, clearer approach to fight school bullying
by ensuring that existing resources are better managed and used to make our schools safer for
students;

h. In keeping with the aforementioned goal of fiscal responsibility and in an effort to minimize any
burden placed on schools and school districts, existing personnel and resources shall be utilized in
every possible instance to accomplish the goals of increased prevention, reporting, and responsiveness
to incidents of harassment, intimidation, or bullying, including in the appointment of school anti-bullying
specialists and district anti-bullying coordinators;
i. By strengthening standards for preventing, reporting, investigating, and responding to incidents of bullying this act will help to reduce the risk of suicide among students and avert not only the needless loss of a young life, but also the tragedy that such loss represents to the student's family and the community at large; and

j. Harassment, intimidation, and bullying is also a problem which occurs on the campuses of institutions of higher education in this State, and by requiring the public institutions to include in their student codes of conduct a specific prohibition against bullying, this act will be a significant step in reducing incidents of such activity.

Sections 1, 2, and 16 through 30 of this act and P.L.2002, c.83 (C.18A:37-13 et seq.) shall be known and may be cited as the "Anti-Bullying Bill of Rights Act."

As used in this act:

"Electronic communication" means a communication transmitted by means of an electronic device, including, but not limited to, a telephone, cellular phone, computer, or pager;

"Harassment, intimidation or bullying" means any gesture, any written, verbal or physical act, or any electronic communication, whether it be a single incident or a series of incidents, that is reasonably perceived as being motivated either by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability, or by any other distinguishing characteristic, that takes place on school property, at any school-sponsored function, on a school bus, or off school grounds as provided for in section 16 of P.L.2010, c.122 (C.18A:37-15.3), that substantially disrupts or interferes with the orderly operation of the school or the rights of other students and that:

a. a reasonable person should know, under the circumstances, will have the effect of physically or emotionally harming a student or damaging the student's property, or placing a student in reasonable fear of physical or emotional harm to his person or damage to his property;

b. has the effect of insulting or demeaning any student or group of students; or

c. creates a hostile educational environment for the student by interfering with a student's education or by severely or pervasively causing physical or emotional harm to the student.

18A:37-15. Adoption of policy concerning harassment, intimidating or bullying by each school district.

a. Each school district shall adopt a policy prohibiting harassment, intimidation or bullying on school property, at a school-sponsored function or on a school bus. The school district shall adopt the policy through a process that includes representation of parents or guardians, school employees, volunteers, students, administrators, and community representatives.

b. A school district shall have local control over the content of the policy, except that the policy shall contain, at a minimum, the following components:

(1) a statement prohibiting harassment, intimidation or bullying of a student;

(2) a definition of harassment, intimidation or bullying no less inclusive than that set forth in section 2 of P.L.2002, c.83 (C.18A:37-14);

(3) a description of the type of behavior expected from each student;

(4) consequences and appropriate remedial action for a person who commits an act of harassment, intimidation or bullying;
(5) a procedure for reporting an act of harassment, intimidation or bullying, including a provision that permits a person to report an act of harassment, intimidation or bullying anonymously; however, this shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.

All acts of harassment, intimidation, or bullying shall be reported verbally to the school principal on the same day when the school employee or contracted service provider witnessed or received reliable information regarding any such incident. The principal shall inform the parents or guardians of all students involved in the alleged incident, and may discuss, as appropriate, the availability of counseling and other intervention services. All acts of harassment, intimidation, or bullying shall be reported in writing to the school principal within two school days of when the school employee or contracted service provider witnessed or received reliable information that a student had been subject to harassment, intimidation, or bullying;

(6) a procedure for prompt investigation of reports of violations and complaints, which procedure shall at a minimum provide that:

(a) the investigation shall be initiated by the principal or the principal's designee within one school day of the report of the incident and shall be conducted by a school anti-bullying specialist. The principal may appoint additional personnel who are not school anti-bullying specialists to assist in the investigation. The investigation shall be completed as soon as possible, but not later than 10 school days from the date of the written report of the incident of harassment, intimidation, or bullying. In the event that there is information relative to the investigation that is anticipated but not yet received by the end of the 10-day period, the school anti-bullying specialist may amend the original report of the results of the investigation to reflect the information;

b. The academy shall develop and implement a School Safety Specialist Certification Program. A school safety specialist appointed pursuant to section 2 of this act shall be required to acquire the certification. The certification program shall provide training, free of charge, to newly-appointed school safety specialists in the areas of bullying, hazing, truancy, Internet safety, emergency planning, emergency drills, drugs, weapons, gangs and school policing, and any other areas deemed necessary by the academy. The academy shall also offer annual training sessions for certified school safety specialists. The academy shall develop training modules in both traditional and online formats.

The superintendent in each school district shall designate a school administrator as a school safety specialist for the district. The school safety specialist shall: be responsible for the supervision and oversight for all school safety and security personnel, policies, and procedures in the school district; ensure that these policies and procedures are in compliance with State law and regulations; and provide the necessary training and resources to school district staff in matters relating to school safety and security. The school safety specialist shall also serve as the school district liaison with local law enforcement and national, State, and community agencies and organizations in matters of school safety and security.

Each board of education that operates an educational program for elementary school students shall offer instruction in gang violence prevention and in ways to avoid membership in gangs. The instruction shall take place as part of the district's implementation of the Core Curriculum Content Standards in Comprehensive Health and Physical Education, and the comprehensive health and physical education curriculum framework shall provide school districts with sample materials that may be used to support implementation of the instructional requirement.
18A:35-4.27. Instruction on responsible use of social media.
1. a. Beginning with the 2014-2015 school year, each school district shall incorporate instruction on the responsible use of social media into the technology education curriculum for students in grades 6 through 8 as part of the district's implementation of the Core Curriculum Content Standards in Technology.
b. The instruction shall provide students with information on:
   (1) the purpose and acceptable use of various social media platforms;

   (3) potential negative consequences, including cyber bullying, of failing to use various social media platforms responsibly.
c. The Commissioner of Education shall provide school districts with sample learning activities and resources designed to promote the responsible use of social media.

The week beginning with the third Monday in October of each year is designated as "School Violence Awareness Week" in the State of New Jersey. School districts shall observe this week by organizing activities to prevent school violence including, but not limited to, age-appropriate opportunities for student discussion on conflict resolution, issues of student diversity, and tolerance. Law enforcement personnel shall be invited to join members of the teaching staff in the discussions. Programs shall also be provided for school board employees that are designed to help them recognize warning signs of school violence and to instruct them on recommended conduct during an incident of school violence. The Department of Education shall provide guidelines and information to boards of education for use in planning the activities in observance of the week and such funds as are necessary to pay the costs of the required activities and programs.

The Legislature finds and declares that: a safe and civil environment in school is necessary for students to learn and achieve high academic standards; harassment, intimidation or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe environment; and since students learn by example, school administrators, faculty, staff, and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation or bullying.

18A:37-15. Adoption of policy concerning harassment, intimidating or bullying by each school district.
b. A school district shall have local control over the content of the policy, except that the policy shall contain, at a minimum, the following components:
   (7) the range of ways in which a school will respond once an incident of harassment, intimidation or bullying is identified, which shall be defined by the principal in conjunction with the school anti-bullying specialist, but shall include an appropriate combination of services that are available within the district such as counseling, support services, intervention services, and other programs, as defined by the commissioner. In the event that the necessary programs and services are not available within the district, the district may apply to the Department of Education for a grant from the "Bullying Prevention Fund" established pursuant to section 25 of P.L.2010, c.122 (C.18A:37-28) to support the provision of out-of-district programs and services;
   (9) consequences and appropriate remedial action for a person found to have falsely accused another as a means of retaliation or as a means of harassment, intimidation or bullying;

a. Schools and school districts shall annually establish, implement, document, and assess bullying prevention programs or approaches, and other initiatives involving school staff, students, administrators, volunteers, parents, law enforcement and community members. The programs or approaches shall be designed to create school-wide conditions to prevent and address harassment, intimidation, and bullying. A school district may implement bullying prevention programs and approaches that may be available at no cost from the Department of Education, the New Jersey State Bar Foundation, or any other entity. A school district may, at its own discretion, implement bullying prevention programs and approaches which impose a cost on the district.

A school district may apply to the Department of Education for a grant to be used for programs, approaches, or personnel established pursuant to this act, to the extent funds are appropriated for these purposes or funds are made available through the "Bullying Prevention Fund" established pursuant to section 25 of P.L.2010, c.122 (C.18A:37-28). A school district may make an application for a grant only after exploring bullying prevention programs and approaches that are available at no cost, and making an affirmative demonstration of that exploration in its grant application.

b. A school district shall: (1) provide training on the school district's harassment, intimidation, or bullying policies to school employees and volunteers who have significant contact with students; (2) ensure that the training includes instruction on preventing bullying on the basis of the protected categories enumerated in section 2 of P.L.2002, c.83 (C.18A:37-14) and other distinguishing characteristics that may incite incidents of discrimination, harassment, intimidation, or bullying; and (3) develop a process for discussing the district's harassment, intimidation or bullying policy with students.

A school district may satisfy the training required pursuant to this subsection by utilizing training that may be provided at no cost by the Department of Education, the New Jersey State Bar Foundation, or any other entity. A school district may, at its own discretion, implement a training program which imposes a cost on the district.

c. Information regarding the school district policy against harassment, intimidation or bullying shall be incorporated into a school's employee training program and shall be provided to full-time and part-time staff, volunteers who have significant contact with students, and those persons contracted by the district to provide services to students.

There is created a special fund in the Department of Education, which shall be designated the "Bullying Prevention Fund." The fund shall be maintained in a separate account and administered by the commissioner to carry out the provisions of this act. The fund shall consist of: (1) any monies appropriated by the State for the purposes of the fund; (2) any monies donated for the purposes of the fund; and (3) all interest and investment earnings received on monies in the fund. The fund shall be used to offer grants to school districts to provide training on harassment, intimidation, and bullying prevention and on the effective creation of positive school climates, and to help fund related personnel expenses.

The Legislature finds and declares that: a safe and civil environment in school is necessary for students to learn and achieve high academic standards; a student who is a victim of dating violence suffers academically, and the student's safety at school is jeopardized; and since all students have a right to learn and study in a safe, supportive environment that is free from violence, each school district should have a policy to prevent, and for responding to, incidents of dating violence, and should provide dating violence education to students in order to prevent dating violence and address incidents involving dating violence.
18A:37-34. Definitions relative to dating violence policy and education.
As used in this act:

18A:40A-1. Instructional programs on drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances; curriculum guidelines.
Instructional programs on the nature of drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances, as defined in section 2 of P.L.1970, c.226 (C.24:21-2), and their physiological, psychological, sociological and legal effects on the individual, the family and society shall be taught in each public school and in each grade from kindergarten through 12 in a manner adapted to the age and understanding of the pupils. The Commissioner of Education shall make these materials available so that the local board of education shall not be required to expend funds for the loan of these materials.

18A:40A-10. Local boards to establish comprehensive substance abuse intervention, prevention and treatment referral programs.
Each local board of education shall, pursuant to guidelines developed by the Commissioner of Education, in consultation with the Commissioner of Health, establish a comprehensive substance abuse intervention, prevention and treatment referral program in the public elementary and secondary schools of the district. The purpose of the program shall be to identify pupils who are substance abusers, assess the extent of these pupils' involvement with these substances and, where appropriate, refer pupils and their families to organizations and agencies approved by the Department of Health to offer competent professional treatment. Treatment shall not be at the expense of the local board of education.

Each school district shall develop a clear written policy statement which outlines the district's program to combat substance abuse and which provides for the identification, evaluation, referral for treatment and discipline of pupils who are substance abusers. A board which wants to participate in the program shall submit a proposal to the commissioner which outlines the district's plan to provide substance abuse prevention, intervention, and treatment referral services to students through the employment of a student assistance coordinator. Nothing shall preclude a district which employs a student assistance coordinator at the time of the effective date of this act from participating in this program. The commissioner shall select school districts to participate in the program through a competitive grant process. The participating districts shall include urban, suburban, and rural districts from the north, central, and southern geographic regions of the State with at least one school district per county. In addition to all other State aid to which the local district is entitled under the provisions of P.L.2007, c.260 (C.18A:7F-43 et al.) and other pertinent statutes, each

d. The Commissioner of Education, in consultation with the Commissioner of Health, shall implement a plan to collect data on the effectiveness of the program in treating problems associated with substance abuse and in reducing the incidence of substance abuse in local school districts. Six months prior to the expiration of the program authorized pursuant to this section, the Commissioner of Education shall submit to the Governor and the Legislature an evaluation of the program and a recommendation on the advisability of its continuation or expansion to all school districts in the State.

Under the guidelines established by the Commissioner of Education, each local board of education shall establish an outreach program to provide substance abuse education for the parents or legal guardians of the pupils of the district. In establishing the program, the local board of education shall consult with such local organizations and agencies as are recommended by the commissioner. The board of education shall insure that the program is offered at times and places convenient to the parents of the district on school premises, or in other suitable facilities.

b. In addition to the substance abuse education program required pursuant to this section, each local board of education shall establish policies and procedures to provide assistance to parents or legal guardians who believe that their child may be involved in substance abuse. These policies and procedures shall be consistent with the policies and procedures for intervention by school personnel developed pursuant to this act.

c. The board of education in each school district in the State in which a nonpublic school is located shall have the power and duty to loan to the parents or legal guardians of all pupils attending nonpublic schools located within the district all educational materials developed by the Commissioner of Education for the instruction of the parents or legal guardians of public school pupils on the nature and effects of substances and substance abuse. The information and guidance provided to school districts shall make clear that a Response to Intervention framework is not a substitute for classification of a student as eligible for special education and related services if the student requires classification.

b. The commissioner shall ensure that a Response to Intervention framework implemented by a school district includes, at a minimum, the following elements:

(1) high quality research-based instruction in the general education setting;

In the event that the necessary programs and services are not available within the district, the district may apply to the Department of Education for a grant from the "Bullying Prevention Fund" established pursuant to section 25 of P.L.2010, c.122 (C.18A:37-28) to support the provision of out-of-district programs and services;

In addition to the provisions for inservice training established pursuant to this act, the commissioner shall
insure that the preservice training of individuals intending to enter the teaching profession provides for an
adequate treatment of the subject of substance abuse.
No certificate to teach in the public schools shall be issued to any teaching staff member who has not
passed a satisfactory examination in (1) physiology and hygiene; and (2) substance abuse issues which
includes material on the physiological, psychological, sociological and legal aspects of drug and alcohol

The Commissioner of Education, in consultation with the Commissioner of Health, shall establish and
administer a system for the evaluation of the effectiveness of instructional programs established pursuant
to this act. Programs which are shown to be effective shall be made available to other school districts
throughout the State.

18A:17-42. Preamble; purpose of article.

The legislature finds that the safety and welfare of the public school students of this state while attending sessions of the public schools is a matter of prime concern to the citizens of this state; that, in several isolated instances throughout this state, unlawful intruders into the public schools have subjected public school students and their teachers to physical and verbal attacks during sessions of the public schools and on the property of said public schools; that such attacks might have been prevented, and similar attacks will be prevented, if public school law enforcement officers are stationed in said schools; and that state aid to local boards is necessary to help such boards bear the cost of employing and stationing public school law enforcement officers.

(a) The commissioner may, in accordance with rules and regulations promulgated pursuant to this article and upon a finding of need therefor, authorize any board of education to employ, subject to the provisions of Title 11, Civil Service, of the Revised Statutes, one or more public school law enforcement officers, and to station such public school law enforcement officers in public schools of this state during hours when said public schools are normally in session or are occupied by public school students or their teachers.

(b) No such public school law enforcement officer shall be employed, except upon the application of a board of education and with the approval of the county superintendent.

2. The principal or his or her designee shall be responsible for the removal of any pupil pursuant to section 1 of P.L.1995, c.128 (C.18A:37-2.2). The principal or his or her designee shall immediately report the removal of any pupil to the district's chief school administrator. The principal shall also notify the appropriate law enforcement agency of a possible violation of the New Jersey Code of Criminal Justice.

The State Board of Education, in consultation and cooperation with the Attorney General, shall adopt, pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.) rules and regulations regarding law enforcement activities on school grounds and the reporting of suspected offenses and acts of delinquency to law enforcement.

The principal or his or her designee shall be responsible for the removal of any pupil pursuant to section 2 of P.L.1995, c.127 (C.18A:37-8). The principal or his or her designee shall immediately report the removal
of any pupil to the district's chief school administrator. The district's chief school administrator may modify such removal of a pupil on a case-by-case basis. The principal shall also notify the appropriate law enforcement agency of a possible violation of the New Jersey Code of Criminal Justice.

(c) It shall be the responsibility of student assistance coordinators to assist local school districts in the effective implementation of this act. Coordinators shall assist with the in-service training of school district staff concerning substance abuse issues and the district program to combat substance abuse; serve as an information resource for substance abuse curriculum development and instruction; assist the district in revising and implementing substance abuse policies and procedures; develop and administer intervention services in the district; provide counseling services to pupils regarding substance abuse problems; and, where necessary and appropriate, cooperate with juvenile justice officials in the rendering of substance abuse treatment services.

(a) If at least one school building of a school district is equipped with video surveillance equipment that is capable of streaming live video wirelessly to a remote location, the board of education shall enter into a memorandum of understanding with local law enforcement authorities providing the authorities with the capacity to activate the equipment and view live streaming video. The memorandum of understanding shall include, but need not be limited to, the following:

1. the designation of individuals who shall be authorized to view live streaming video;
2. the circumstances under which the designated individuals would view live streaming video; and
3. a detailed plan for preventing and detecting unauthorized access to live streaming video.

(b) In the case of a school building that is located in a municipality in which there is no municipal police department, the board shall enter into a memorandum of understanding with an entity designated by the Superintendent of the State Police.

(c) In the event that the parties to the memorandum of understanding are unable to reach an agreement regarding any provision required to be included pursuant to subsection (a) of this section, the county prosecutor shall make the final determination regarding that provision.

(d) A board shall enter into the memorandum of understanding no later than 180 days following the effective date of this act.

(e) Nothing in this section shall be construed as to require the installation of video surveillance equipment capable of streaming live video wirelessly to a remote site.

This act shall be known and may be cited as the "Secure Schools for All Children Act."

As used in this act:

"Nonpublic school" means an elementary or secondary school within the State, other than a public school, offering education for grades kindergarten through 12, or any combination of them, wherein any child may legally fulfill compulsory school attendance requirements and which complies with the requirements of Title VI of the "Civil Rights Act of 1964," Pub.L.88-352, (42 U.S.C. s.2000d et seq.).

"Support limit" means the maximum amount which may be appropriated each year for the purposes of this act for each student enrolled full-time in nonpublic schools of the State.
A board of education of a school district in which a nonpublic school is located shall within the limit of funds appropriated or otherwise made available, adopt policies and procedures to provide the students who are enrolled full-time in the nonpublic school with security services, equipment, or technology to help ensure a safe and secure school environment.

a. The superintendent of schools of each school district in which a nonpublic school is located shall confer annually with the chief school administrator of each of the nonpublic schools to:
   (1) advise the nonpublic school of the limit of funds available pursuant to this act;
   (2) agree upon the security services, equipment, or technology to be provided to the students of the nonpublic school, within the limit of the funds that are available; and
   (3) agree on the date when the board of education will meet to approve how the security services, equipment, or technology will be provided to the students of the nonpublic school.
b. In the event that the superintendent of schools and the chief school administrator of the nonpublic school are unable to agree regarding the security services, equipment, or technology to be provided for a safe and secure school environment, the executive county superintendent shall be consulted to determine the security services, equipment, or technology to be provided. The decision of the executive county superintendent shall be final.

a. The support limit for the 2016-2017 school year shall be $75. For each school year thereafter the commissioner shall determine the support limit by multiplying the support limit for the previous school year times the sum of 1.0 plus the average annual percentage increase in the consumer price index for the New York and Philadelphia areas during the fiscal year preceding the prebudget year as reported by the United States Department of Labor.
b. On or before November 5 of each year, each board of education shall forward to the Commissioner of Education an estimate of the cost of providing, during the next school year, the security services, equipment, or technology required pursuant to this act and the number of students attending nonpublic schools located within the district as of the last school day of October of the current school year. The commissioner shall provide State aid to each school district in an amount equal to the number of nonpublic school students within the district identified by the district on or before November 5 multiplied by the State support limit. In the event that the expenditure incurred by any district is less than the amount of State aid received, the district shall refund the unexpended State aid after the completion of the school year, but not later than December 1 of the following school year.
c. If in any year, the amount of State aid appropriated is insufficient to carry out in full the provisions of this act, the commissioner shall apportion that appropriation among the districts in proportion to the State aid each district would have received had the full amount of State aid been appropriated. In any year, no district shall be required to make expenditures for the purposes of this act in excess of the amount of State aid received for these purposes.

A school district and a nonpublic school and their employees shall be immune from civil liability in the provision of security services, equipment, or technology pursuant to the provisions of this act, except for actions that constitute gross negligence or willful misconduct.
The State Board of Education shall promulgate rules pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), to effectuate the provisions of this act in a manner that comports with the provisions of the State and federal Constitutions, including a list of allowable expenditures for security services, equipment, or technology to ensure a safe and secure school environment for nonpublic school students.

The training requirements set forth in section 4 of P.L.1985, c.439 (C.40A:14-146.11) may be waived by the commission with regard to any person eligible to be appointed as a special law enforcement officer pursuant to the provisions of this section.

40A:14-146.11. Training; classifications.

A person shall not commence the duties of a special law enforcement officer unless the person has successfully completed a training course approved by the commission and a special law enforcement officer shall not be issued a firearm unless the officer has successfully completed the basic firearms course approved by the commission for permanent, regularly appointed police and annual requalification examinations as required by subsection b. of section 7 of P.L.1985, c.439 (C.40A:14-146.14). There shall be three classifications for special police officers. The commission shall prescribe by rule or regulation the training standards to be established for each classification. Training may be in a commission approved academy or in any other training program which the commission may determine appropriate. The classifications shall be based upon the duties to be performed by the special law enforcement officer as follows:

(1) Class One. Officers of this class shall be authorized to perform routine traffic detail, spectator control, and similar duties. If authorized by ordinance or resolution, as appropriate, Class One officers shall have the power to issue summonses for disorderly persons and petty disorderly persons offenses, violations of municipal ordinances, and violations of Title 39 of the Revised Statutes. (2) Class Two. Officers of this class shall be authorized to exercise full powers and duties similar to those of a permanent, regularly appointed full-time police officer. Officers of this class shall be authorized to exercise full powers and duties similar to those of a permanent, regularly appointed full-time police officer while providing security at a public or nonpublic school or a county college on the school or college premises during hours when the public or nonpublic school or county college is normally in session or when it is occupied by public or nonpublic school or county college students or their teachers or professors. While on duty in the jurisdiction of employment, an officer may respond to offenses or emergencies off school or college grounds if they occur in the officer's presence while traveling to a school facility or county college, but an officer shall not otherwise be dispatched or dedicated to any assignment off school or college property.

The use of a firearm by an officer of this class shall be authorized pursuant to the provisions of subsection b. of section 7 of P.L.1985, c.439 (C.40A:14-146.14). An officer of this class shall not be authorized to carry a firearm while off duty unless the officer complies with the requirements set forth in subsection l. of N.J.S.2C:39-6 authorizing a retired law enforcement officer to carry a handgun.

b. The commission may, in its discretion, except from the requirements of this section any person who demonstrates to the commission's satisfaction that the person has successfully completed a police training course conducted by any federal, state or other public or private agency, the requirements of which are substantially equivalent to the requirements of this act.

c. The commission shall certify officers who have satisfactorily completed training programs and issue appropriate certificates to those officers. The certificate shall clearly state the category of certification for which the officer has been certified by the commission.
d. All special law enforcement officers appointed and in service on the effective date of this act may continue in service if within 24 months of the effective date of this act they will have completed all training and certification requirements of this act.

40A:14-146.12. Uniforms.

Every special law enforcement officer prior to the commencement of his duties shall be furnished with a uniform which shall identify the officer's function. The uniform shall include, but not be limited to, a hat and appropriate badges which shall bear an identification number or name tag and the name of the local unit in which the officer is employed. The uniform shall also include an insignia issued by the commission which clearly indicates the officer's status as a special law enforcement officer and the type of certification issued pursuant to section 4 of this act. Within six months following the effective date of this act the commission shall issue the insignia. All special law enforcement officers prior to the commencement of duties shall be in uniform properly displaying the appropriate insignia. Nothing in this section shall preclude the designation on an insignia to read either "special police" or "special law enforcement officer."

40A:14-146.13. Fees.

a. Except as specified in subsection b. of this section, a local unit may charge a reasonable fee as may be fixed by the governing body for equipment and uniforms supplied pursuant to this act, but may not charge a fee for the costs of training or issuing a certificate of appointment. The local unit shall not be required to compensate a special law enforcement officer for time spent in training;

b. In addition to charging a reasonable fee as fixed by the governing body for equipment and uniforms supplied pursuant to this act, a local unit with a population in excess of 300,000, according to the 1980 federal decennial census, may charge a fee for the costs of training and for the administrative costs of issuing a certificate of appointment for a special law enforcement officer whose duties consist solely of performing public safety functions for a private employer.

a. Special law enforcement officers may be appointed for terms not to exceed one year, and the appointments may be revoked by the local unit for cause after adequate hearing, unless the appointment is for four months or less, in which event the appointment may be revoked without cause or hearing. Nothing herein shall be construed to require reappointment upon the expiration of the term. The special law enforcement officers so appointed shall not be members of the police force of the local unit, and their powers and duties as determined pursuant to this act shall cease at the expiration of the term for which they were appointed.

b. A special law enforcement officer shall not carry a firearm except while engaged in the actual performance of the officer's official duties and when specifically authorized by the chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit to carry a firearm and provided that the officer has satisfactorily completed the basic firearms course required by the commission for regular police officers and annual requalification examinations as required for permanent, regularly appointed full-time officers in the local unit.

A special law enforcement officer shall be deemed to be on duty only while the officer is performing the public safety functions on behalf of the local unit pursuant to this act and when the officer is receiving compensation, if any, from the local unit at the rates or stipends as shall be established by ordinance. A special law enforcement officer shall not be deemed to be on duty for purposes of this act while performing private security duties for private employers, which duties are not assigned by the chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit, or while receiving compensation for those duties from a private employer. A special law enforcement officer may, however, be assigned by the chief of police or, in the absence of the chief, other chief law enforcement
officer, to perform public safety functions for a private entity if the chief of police or other chief law enforcement officer supervises the performance of the public safety functions. If the chief of police or other chief law enforcement officer assigns the public safety duties and supervises the performance of those duties, then, notwithstanding that the local unit is reimbursed for the cost of assigning a special law enforcement officer at a private entity, the special law enforcement officer shall be deemed to be on duty.

The reimbursement for the duties of a special law enforcement officer, which is made to a municipality with a population in excess of 300,000, according to the 1980 federal decennial census, may be by direct payments from the employer to the special law enforcement officer, provided that records of the hours worked are forwarded to and maintained by the chief of police or other chief law enforcement officer responsible for assigning the special law enforcement officer those public safety duties.

Any firearm utilized by a special law enforcement officer shall be returned at the end of the officer's workday to the officer in charge of the station house, unless the firearm is owned by the special law enforcement officer and was acquired in compliance with a condition of employment established by the local unit. Any special law enforcement officer first appointed after the effective date of this act shall only use a firearm supplied by the local unit. A special law enforcement officer shall not carry a revolver or other similar weapon when off duty; but if any special law enforcement officer appointed by the governing body of any municipality having a population in excess of 300,000, according to the 1980 federal census, who is a resident of the municipality and is employed as a special law enforcement officer at least 35 hours per week, or less at the discretion of the chief of police and mayor, shall, at the direction of the chief of police, have taken and successfully completed a firearms training course administered by the Police Training Commission, pursuant to P.L.1961, c.56 (C.52:17B-66 et seq.), and has successfully completed within three years of the effective date of P.L.1985, c.45 or three years of the date of appointment of the special law enforcement officer, whichever is later, 280 hours of training in arrest, search and seizure, criminal law, and the use of deadly force, and shall annually qualify in the use of a revolver or similar weapon, the special law enforcement officer shall be permitted to carry a revolver or other similar weapon when off duty within the municipality where the officer is employed. Specific authorization shall be in the form of a permit which shall not be unreasonably withheld, which is subject to renewal annually and may be revoked at any time by the chief of police. The permit shall be on the person of the special law enforcement officer whenever a revolver or other similar weapon is carried off duty. A permit shall not be issued until the special law enforcement officer has successfully completed all training courses required under this section. Any training courses completed by a special law enforcement officer under the direction of the chief of police in a school and a curriculum approved by the Police Training Commission, pursuant to P.L.1961, c.56 (C.52:17B-66 et seq.), shall be credited towards the 280 hours of training required to be completed by this section. Any training required by this section shall commence within 90 days of the effective date of P.L.1985, c.45 or within 90 days of the date of the appointment of the special law enforcement officer, whichever is later.

c. A special law enforcement officer shall be under the supervision and direction of the chief of police or, in the absence of the chief, other chief law enforcement officer of the local unit wherein the officer is appointed, and shall perform the officer's duties only in the local unit except when in fresh pursuit of any person pursuant to chapter 156 of Title 2A of the New Jersey Statutes or when authorized to perform duties in another unit pursuant to a mutual aid agreement enacted in accordance with section 1 of P.L.1976, c.45 (C.40A:14-156.1).

d. The officer shall comply with the rules and regulations applicable to the conduct and decorum of the permanent, regularly appointed police officers of the local unit, as well as any rules and regulations applicable to the conduct and decorum of special law enforcement officers.

e. Notwithstanding any provision of P.L.1985, c.439 (C.40A:14-146.8 et seq.) to the contrary, a special law enforcement officer may travel through another local unit to reach a noncontiguous area of the local
The chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit wherein the officer is appointed, may authorize special law enforcement officers when on duty to exercise the same powers and authority as permanent, regularly appointed police officers of the local unit, including, but not limited to, the carrying of firearms and the power of arrest, subject to rules and regulations, not inconsistent with the certification requirements of this act, as may be established by local ordinance or resolution, as appropriate, adopted by the appropriate authority of the local unit in which they are employed.

40A:14-146.16. Limitation on hours.

a. Except as provided in subsection c. of this section, a special law enforcement officer shall not be employed for more than 20 hours per week by the local unit except that special law enforcement officers may be employed by the local unit for those hours as the governing body may determine necessary in accordance with the limits prescribed below:

(1) In resort municipalities not to exceed 48 hours per week during any seasonal period.
(2) In all municipalities or counties without limitation as to hours during periods of emergency.
(3) In all municipalities or counties in addition to not more than 20 hours per week including duties assigned pursuant to the provisions of section 7 of P.L.1985, c.439 (C.40A:14-146.14) a special law enforcement officer may be assigned for not more than 20 hours per week to provide public safety and law enforcement services to a public entity.

The legislature finds that the safety and welfare of the public school students of this state while attending sessions of the public schools is a matter of prime concern to the citizens of this state; that, in several isolated instances throughout this state, unlawful intruders into the public schools have subjected public school students and their teachers to physical and verbal attacks during sessions of the public schools and on the property of said public schools; that such attacks might have been prevented, and similar attacks will be prevented, if public school law enforcement officers are stationed in said schools; and that state aid to local boards is necessary to help such boards bear the cost of employing and stationing public school law enforcement officers.

(a) The commissioner may, in accordance with rules and regulations promulgated pursuant to this article and upon a finding of need therefor, authorize any board of education to employ, subject to the provisions of Title 11, Civil Service, of the Revised Statutes, one or more public school law enforcement officers, and to station such public school law enforcement officers in public schools of this state during hours when said public schools are normally in session or are occupied by public school students or their teachers.
(b) No such public school law enforcement officer shall be employed, except upon the application of a board of education and with the approval of the county superintendent.

The attendance officer shall examine into all violations of this article, shall warn any child violating any of the provisions of this article and the parent, guardian or other person having charge and control of the child of the consequences of the violation if persisted in, and shall notify such person in writing to cause the child to attend school within five days from the date on which notice is served, and regularly thereafter. The attendance officer shall have full police power to enforce the provisions of this article and may arrest without warrant any vagrant child or habitual truant or any child who is habitually incorrigible or who is vicious or immoral in conduct or illegally absent from school.

In any such proceeding, the summons issuing therein, or in special circumstances a warrant, shall be directed to the alleged disorderly person and the child.
For the purpose of enforcing the provisions of this article, the board of education of each school district
and the board of education of each county vocational school shall appoint a suitable number of qualified
persons to be designated as attendance officers, and shall fix their compensation; except that if a county
attendance officer or officers are appointed for any county, any district board of education of such county
may be exempt from the appointment of a local attendance officer if such exemption is approved by the
county superintendent. Each board shall make rules not inconsistent with the provisions of this article and
subject to the approval of the commissioner, for the government of the attendance officers.

The services of all attendance officers of the public schools of a city district shall, after employment in
such district for one year, be under tenure during good behavior and efficiency and they shall not be

salaries.
Whenever a majority of the boards of education of any county other than counties of the first class has by

the commissioner and the state board shall deem the appointment of a county attendance officer or
officers to be for the best interest of the schools of that county, the commissioner shall appoint, subject to
the approval of the state board, a suitable person or persons to be known as the county attendance
officer or officers for the county who shall perform in all districts of the county exclusive of city school
districts such duties as may be prescribed by rules of the state board. Each county attendance officer
shall have the same power to enforce the compulsory school law and rules connected therewith as is
conferred upon attendance officers appointed by local boards of education. If any such person so
appointed a county attendance officer is in possession of a proper visiting teacher's certificate, in full force
and effect, such county attendance officer shall be designated "home and school counsellor," and such
"home and school counsellor," in addition to the powers of a county attendance officer, shall have all the

The local unit shall not be required to compensate a special law enforcement officer for time spent in training;

b. In addition to charging a reasonable fee as fixed by the governing body for equipment and uniforms supplied pursuant to this act, a local unit with a population in excess of 300,000, according to the 1980 federal decennial census, may charge a fee for the costs of training and for the administrative costs of issuing a certificate of appointment for a special law enforcement officer whose duties consist solely of performing public safety functions for a private employer.

a. Special law enforcement officers may be appointed for terms not to exceed one year, and the appointments may be revoked by the local unit for cause after adequate hearing, unless the appointment is for four months or less, in which event the appointment may be revoked without cause or hearing. Nothing herein shall be construed to require reappointment upon the expiration of the term. The special law enforcement officers so appointed shall not be members of the police force of the local unit, and their powers and duties as determined pursuant to this act shall cease at the expiration of the term for which they were appointed.

b. A special law enforcement officer shall not carry a firearm except while engaged in the actual performance of the officer's official duties and when specifically authorized by the chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit to carry a firearm and provided that the officer has satisfactorily completed the basic firearms course required by the commission for regular police officers and annual requalification examinations as required for permanent, regularly appointed full-time officers in the local unit.

A special law enforcement officer may, however, be assigned by the chief of police or, in the absence of the chief, other chief law enforcement officer of the local unit, to perform public safety functions for a private entity if the chief of police or other chief law enforcement officer supervises the performance of the public safety functions. If the chief of police or other chief law enforcement officer assigns the public safety duties and supervises the performance of those duties, then, notwithstanding that the local unit is reimbursed for the cost of assigning a special law enforcement officer at a private entity, the special law enforcement officer shall be deemed to be on duty. The reimbursement for the duties of a special law enforcement officer, which is made to a municipality with a population in excess of 300,000, according to the 1980 federal decennial census, may be by direct payments from the employer to the special law enforcement officer, provided that records of the hours worked are forwarded to and maintained by the chief of police or other chief law enforcement officer responsible for assigning the special law enforcement officer those public safety duties.

Any firearm utilized by a special law enforcement officer shall be returned at the end of the officer's workday to the officer in charge of the station house, unless the firearm is owned by the special law enforcement officer.

Specific authorization shall be in the form of a permit which shall not be unreasonably withheld, which is subject to renewal annually and may be revoked at any time by the chief of police. The permit shall be on the person of the special law enforcement officer whenever a revolver or other similar weapon is carried off duty. A permit shall not be issued until the special law enforcement officer has successfully completed all training courses required under this section. Any training courses completed by a special law enforcement officer under the direction of the chief of police in a school and a curriculum approved by the Police Training Commission, pursuant to P.L.1961, c.56 (C.52:17B-66 et seq.), shall be credited towards the 280 hours of training required to be completed by this section. d. The officer shall comply with the rules and regulations applicable to the conduct and decorum of the permanent, regularly appointed police officers of the local unit, as well as any rules and regulations applicable to the conduct and decorum of special law enforcement officers.

e. Notwithstanding any provision of P.L.1985, c.439 (C.40A:14-146.8 et seq.) to the contrary, a special law enforcement officer may travel through another local unit to reach a noncontiguous area of the local unit in which the officer's appointment was issued or to transport persons to and from a correctional facility.

40A:14-146.15. Powers.

The chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit wherein the officer is appointed, may authorize special law enforcement officers when on duty to exercise the same powers and authority as permanent, regularly appointed police officers of the local unit, including, but not limited to, the carrying of firearms and the power of arrest, subject to rules and regulations, not inconsistent with the certification requirements of this act, as may be established by local ordinance or resolution, as appropriate, adopted by the appropriate authority of the local unit in which they are employed.
