Compilation of School
Discipline Laws and
Regulations

Prepared: January 26, 2018
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

2. The inability to offer the subject a pupil desires to pursue, if the pupil becomes a legal resident of a school district after February 1 of the school year immediately prior to the school year for which the pupil is seeking the transfer;
3. A catastrophic medical problem of a student, which for purposes of this section shall mean an acute or chronic serious illness, disease, disorder or injury which has a permanently detrimental effect on the body’s system or renders the risk unusually hazardous;
4. The total failure of transportation facilities;
5. The concurrence of both the sending and receiving school districts;
6. The unavailability of remote or on-site Internet-based instruction by course title in the district of residence for a student identified as in need of drop-out recovery or alternative education services, provided such student was enrolled at any time in a public school in this state during the previous three (3) school years;

B. An emergency transfer previously made may be canceled, with the concurrence of the board of the receiving district and the parent.

**70 O.S. §24-100.6. Separation of victim and offender.**

A. Students who have been victims of certain felony offenses by other students, as well as the siblings of the student victims, have the right to be kept separated from the student offender both at school and during school transportation.

B. Notwithstanding any provision of law prohibiting the disclosure of the identity of a minor, within thirty (30) days of the time of the adjudication or withholding of adjudication of any juvenile offender for any offense subject to the Juvenile Sex Offender Registration Act, either the juvenile bureau in counties which have juvenile bureaus or the Office of Juvenile Affairs in all other counties shall notify the superintendent of the school district in which the juvenile offender is enrolled or intends to enroll of the adjudication and the offense for which the child was adjudicated. Upon receipt of such notice, the school district shall notify the victim and parent or guardian of the victim of their right to request to be separated from the offender at school and during school transportation. If the victim requests to be separated from the offender, the school district shall take appropriate action to effectuate the provisions of subsection C of this section. The decision of the victim shall be final and not reversible.

C. Any offender described in subsection B of this section shall, upon the request of the victim, not attend any school attended by the victim or a sibling of the victim or ride on a school bus on which the victim or a sibling of the victim is riding. The offender shall be permitted by the school district to attend another school within the district in which the offender resides, provided the other school is not attended by the victim or sibling of the victim. D. The offender or the parents of the offender, if the offender is a juvenile, shall be responsible for arranging and paying for transportation and any other cost associated with or required for the offender to attend another school or that is required as a consequence of the prohibition against attending a school or riding on a school bus on which the victim or a sibling of the victim is attending or riding. However, the offender or the parents of the offender shall not be charged for existing modes of transportation that can be used by the offender at no additional cost to the school district.

A. Any student who is guilty of an act described in paragraph 1 of subsection C of this section may be suspended out-of-school in accordance with the provisions of this section. Each school district board of education shall adopt a policy with procedures which provides for out-of-school suspension of students. The policy shall address the term of the out-of-school suspension, provide an appeals process as described in subsection B of this section, and provide that before a student is suspended out-of-school, the school or district administration shall consider and apply, if appropriate, alternative in-school placement options that are not to be considered suspension, such as placement in an alternative school setting, reassignment to another classroom, or in-school detention. The policy shall address education for students subject to the provisions of subsection D of this section and whether participation in extracurricular activities shall be permitted.

D. At its discretion a school district may provide an education plan for students suspended out-of-school for five (5) or fewer days pursuant to the provisions of this subsection. The following provisions shall apply to students who are suspended out-of-school for more than five (5) days and who are guilty of acts listed in subparagraphs a and b of paragraph 1 of subsection C of this section. Upon the out-of-school suspension, the parent or guardian of a student suspended out-of-school pursuant to the provisions of this subsection shall be responsible for the provision of a supervised, structured environment in which the
parent or guardian shall place the student and bear responsibility for monitoring the student's educational progress until the student is readmitted into school. The school administration shall provide the student with an education plan designed for the eventual reintegration of the student into school which provides only for the core units in which the student is enrolled. A copy of the education plan shall also be provided to the student's parent or guardian. For the purposes of this section, the core units shall consist of the minimum English, mathematics, science, social studies and art units required by the State Board of Education for grade completion in grades kindergarten through eight and for high school graduation in grades nine through twelve. The plan shall set out the procedure for education and shall address academic credit for work satisfactorily completed.

   e. has been removed from a public or private school in the state or another state by administrative or judicial process for an act of using electronic communication, as defined in Section 24-100.3 of this title, with intent to terrify, intimidate or harass, or threaten to inflict injury or physical harm to faculty or other students.

2. The school in which a student as described in paragraph 1 of this subsection is subsequently enrolled may elect to not provide education services in the regular school setting until the school determines that the student no longer poses a threat to self, other students or school district faculty or employees. Until the school in which such student subsequently enrolls or re-enrolls determines that the student no longer poses a threat to self, other students or school district faculty or employees, the school may provide education services through an alternative school setting, home-based instruction, or other appropriate setting. If the school provides education services to the student at a district school facility, the school shall notify any student or school district faculty or employee victims of the student, when known, and shall ensure that the student will not be allowed in the general vicinity of or contact with a victim of the student, provided the victim notifies the school of the victim's desire to refrain from contact with the offending student.

G. Students suspended out-of-school who are on an individualized education plan pursuant to the Individuals with Disabilities Education Act, P.L. No. 101-476, or who are subject to the provisions of subsection F of this section and who are on an individualized education plan shall be provided the education and related services in accordance with the student's individualized education plan.

70 O.S. §1210.561. Competitive grants to agencies providing services to high challenge children and youth.
A. Contingent upon the provision of appropriated funds designated for Alternative Approaches grants, the State Board of Education is authorized to award one or more such competitive grants to local education agencies, nonprofit organizations, or entities formed by interlocal cooperative agreements pursuant to Section 5-117b of this title. The grant awards shall be made to school districts located in counties with a high number of dropouts for the school year preceding the year for which the grant is being sought, and a high number of referrals to the juvenile justice system. If the grant award is to a nonprofit organization or
entity formed by an interlocal cooperative agreement, the program shall serve students in school districts located in counties with a high number of dropouts and a high number of referrals to the juvenile justice system. The funds shall be awarded to programs specifically providing targeted services to high challenge children. High challenge children are those at risk of failing to complete a satisfactory education. Alternative Approaches grants shall include high challenge grants for programs serving elementary and middle grade students and grants for middle grade level and other specified alternative education programs. Beginning July 1, 1993, at least twenty percent (20%) of the total dollar amount of Alternative Approaches grants shall be awarded to districts replicating state-validated programs. State validation is a process carried out by the Alternative Approaches Programs Technical Assistance Center by which grant-funded programs are evaluated for effectiveness in reaching the targeted population, local and state significance, and replicability. The Technical Assistance Center shall report to the State Department of Education the name and description of any program which receives state validation.

B. To be eligible for a High Challenge grant, a program shall meet research-based criteria set by the State Department of Education. C. The State Board of Education is further authorized to award one competitive grant for operation of an Alternative Approaches Programs Technical Assistance Center. Said programs shall not supplant programs or activities funded by the United States Government pursuant to Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, as amended. The Alternative Approaches Technical Assistance Center grant recipient shall have priority, if its operations are deemed satisfactory by the State Board of Education and if funds are available, for annual renewal of the grant.

D. Service program grant recipients shall have priority, if recommended by the Technical Assistance Center and if funds are available, for annual renewal of grants by the State Board of Education in amounts and on conditions as provided in this section. If a district has received grants for an at risk or high challenge program for three consecutive school years and if the program upon evaluation by the Technical Assistance Center meets the criteria set forth in subsection A of this section and satisfies criteria set forth in rules adopted by the State Board of Education pursuant to subsection E of this section, funding shall be as follows:

1. Funding for the fourth consecutive school year shall be in the amount of fifty percent (50%) of the average amount of grants awarded for the program pursuant to this section for the first three (3) consecutive school years; and

2. Except as otherwise provided, funding for the fifth consecutive school year shall be awarded only if the program has been state-validated and replicated by another district; for programs that have received funding for three (3) years prior to July 1, 1992, funding will be awarded only if the program is state-validated and the grantee documents attempts to have the program replicated; if funding is awarded, it shall be in the amount of twenty-five percent (25%) of the average amount of grants awarded to the program pursuant to this section for the first three (3) consecutive school years.

All grants for the fourth and fifth school years as provided above shall be matched with local funds or in-kind contributions. Programs which received grants continuously for five (5) consecutive school years shall not thereafter be eligible for grants pursuant to this section.

E. Rules adopted by the State Board of Education shall incorporate or provide for, but not necessarily be limited to:

1. Definition of the children deemed high challenge for whom services are sought; provided the definition shall be consistent with the description of high challenge children set forth in subsection A of this section;
2. The possibility of awards for one or more of a variety of program proposals targeted for services to limited portions of the high challenge population according to such distinctions as age groupings, rural or urban settings, other cultural characteristics, or innovative service delivery strategies;

3. Requirements that service program grant recipients have clear and measurable goals and objectives; show evidence of having given reasonable consideration to coordination with other community agencies and resources, where appropriate, in the development of their proposals; and agree to comply with all requirements of the Technical Assistance Center regarding use of assessment instruments, provision of data, and provision of information necessary for program evaluation;

4. Requirements that the recipient of the Technical Assistance Center grant show command of relevant research and demonstrate capability for: Providing technical assistance, including operation of clearinghouse functions; coordinating with agencies such as the Oklahoma Arts Council; performing assessment of high challenge children; evaluating programs for effectiveness; making program cost assessments; promoting replication of successful programs; and capability for assisting program providers in attaining national validation of their programs and qualifying for federal funding;

5. Utilization of a selection committee to review applications for program and Technical Assistance Center grants and make recommendations to the State Board of Education, said selection committee to include, to the greatest extent feasible under constraints of time and funding, nationally recognized experts in the education of high challenge children; and

6. Revocation of any high challenge or at risk grant awarded to, and ineligibility for award of any future high challenge grant pursuant to this act to, any grant recipient who has employed prior to May 24, 1991, any person who served as a volunteer assisting with the initial preparation of proposed rules for high challenge (formerly designated as at risk) grant programs or any person serving as a member of a selection committee during or within two (2) years following such person's service pursuant to paragraph 5 of this subsection.

A. Each year by December 1, every school district that serves middle school, junior high school and secondary school students shall conduct and report to the State Department of Education a needs assessment to identify those students in grades six through twelve who are most at risk of not completing a high school education for a reason other than that identified in Section 13-101 of this title, including students under the age of nineteen (19) who reside in the district and have dropped out of school or are or have been suspended from school. Districts shall utilize data and information from juvenile justice agencies and the Office of Accountability in conducting the needs assessments. The grant awards shall be made to school districts located in counties with a high number of dropouts for the school year preceding the year for which the grant is being sought, and a high number of referrals to the juvenile justice system. If the grant award is to a nonprofit organization or entity formed by an interlocal cooperative agreement, the program shall serve students in school districts located in counties with a high number of dropouts and a high number of referrals to the juvenile justice system. The funds shall be awarded to programs specifically providing targeted services to high challenge children. High challenge children are those at risk of failing to complete a satisfactory education. Alternative Approaches grants shall include high challenge grants for programs serving elementary and middle grade students and grants for middle grade level and other specified alternative education programs. Beginning July 1, 1993, at least twenty percent (20%) of the total dollar amount of Alternative Approaches grants shall be awarded to districts replicating state-validated programs. State validation is a process carried out by the Alternative Approaches Programs Technical Assistance Center by which grant-funded programs are evaluated for effectiveness in reaching the targeted population, local and state significance, and replicability. The Technical Assistance Center shall report to the State Department of Education the name and description of any program which receives state validation.

B. To be eligible for a High Challenge grant, a program shall meet research-based criteria set by the State Department of Education. C. The State Board of Education is further authorized to award one competitive grant for operation of an Alternative Approaches Programs Technical Assistance Center. Said programs shall not supplant programs or activities funded by the United States Government pursuant to Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, as amended. The Alternative Approaches Technical Assistance Center grant recipient shall have priority, if its operations are deemed satisfactory by the State Board of Education and if funds are available, for annual renewal of the grant.

D. Service program grant recipients shall have priority, if recommended by the Technical Assistance Center and if funds are available, for annual renewal of grants by the State Board of Education in amounts and on conditions as provided in this section. If a district has received grants for an at risk or high challenge program for three consecutive school years and if the program upon evaluation by the Technical Assistance Center meets the criteria set forth in subsection A of this section and satisfies criteria set forth in rules adopted by the State Board of Education pursuant to subsection E of this section, funding shall be as follows:

1. Funding for the fourth consecutive school year shall be in the amount of fifty percent (50%) of the average amount of grants awarded for the program pursuant to this section for the first three (3) consecutive school years; and

2. Except as otherwise provided, funding for the fifth consecutive school year shall be awarded only if the program has been state-validated and replicated by another district; for programs that have
received funding for three (3) years prior to July 1, 1992, funding will be awarded only if the program is state-validated and the grantee documents attempts to have the program replicated; if funding is awarded, it shall be in the amount of twenty-five percent (25%) of the average amount of grants awarded to the program pursuant to this section for the first three (3) consecutive school years.

All grants for the fourth and fifth school years as provided above shall be matched with local funds or in-kind contributions. Programs which received grants continuously for five (5) consecutive school years shall not thereafter be eligible for grants pursuant to this section.

70 O.S. §1210.229-2. Findings and intent of legislature.
The Legislature finds that for the purpose of preventing drug and alcohol abuse among our young people, and for preventing or alleviating problems which lead to and are closely associated with drug and alcohol abuse, it is desirable that all Oklahoma school districts develop and implement a curriculum for drug and alcohol abuse prevention for all grade levels. Such curriculum may include training in life skills, such as problem-solving, responsibility, communication and decision-making skills, which enable young people to successfully resist social and other pressures to engage in activities which are destructive to their health and future. The Legislature encourages all school districts to adopt as a goal for the year 1990 the full implementation of drug and alcohol abuse prevention programs in their schools. In order to expand and enhance the ability of school districts to implement drug and alcohol prevention programs, it is the intent of the Legislature that local school districts participate in the federal Drug-Free Schools and Communities Act of 1986, 20 U.S.C., Section 4601 et seq. and the provisions of Public Law No. 101-647, Drug-Free School Zones.

In order to derive maximum benefit from their drug and alcohol prevention programs, it is further the intent of the Legislature that the school districts coordinate their efforts and activities with the Oklahoma Drug and Alcohol Abuse Policy Board, and with appropriate state and local drug and alcohol abuse, health and law enforcement agencies and programs within the community which provide drug education, prevention, treatment and rehabilitation.

It is further the intent of the Legislature to encourage school districts to establish programs concerning the danger and criminal consequences of the possession and/or use of firearms or other dangerous or deadly weapons in school zones.

For purposes of the Oklahoma Alcohol and Drug Abuse Prevention and Life Skills Education Act, Section 1210.229-1 et seq. of this title:

The local school district, at least one (1) month prior to giving such instruction to students, shall conduct for parents and guardians of students involved, during weekend or evening hours, at least one presentation concerning the plans for instruction and the materials to be used.
