g. Other sanctions as approved by local school authorities.

B. Disruptive Conduct--Level II

1. Disruptive conduct is defined as those activities engaged in by student(s) which are directed against persons or property, and the consequences of which tend to endanger the health or safety of oneself or others in the school. Some instances of disruptive conduct may overlap certain criminal offenses, justifying both administrative sanctions and court proceedings. Disorderly conduct (Level I) may be reclassified as disruptive conduct (Level II) if it occurs three or more times. The provisions of this regulation apply not only to within school activities, but also to student conduct on school bus transportation vehicles, and other school sponsored activities.

2. Acts of disruptive conduct may include, but are not limited to:
   a. Use of an intoxicant;

   i. Possession or use of unauthorized substances, as defined by law or local school board policy;
   j. Illegally occupying or blocking in any way school property with the intent to deprive others of its use;
   k. Unlawful assembly;
   l. Disrupting lawful assembly;
   m. Other acts as determined by local school authorities.

3. The basic enforcement procedures to be followed in instances of disruptive conduct are:
   a. Upon observation or notification and verification of an offense, the administrator should investigate the circumstances of the misconduct and should confer with staff on the extent of the consequences.
   b. The administrator should notify the parent or guardian of the student's misconduct and related proceedings. The administrator should meet with the student and, if necessary, the parent or guardian, confer with them about the student's misconduct, and effect the appropriate disciplinary action.
   c. A complete record of the procedures should be maintained.

4. Possible sanctions to be applied in cases of disruptive conduct may include, but are not limited to:
   a. Temporary removal from class;
   b. Alternative education program;
   c. In-school suspension;
   d. Out-of-school suspension;

   g. Expulsion;
h. Restitution of property and damages, where appropriate, should be sought by local school authorities;

C. Criminal Conduct—Level III

1. Criminal conduct is defined as those activities engaged in by student(s) which result in violence to oneself or another’s person or property or which pose a direct and serious threat to the safety of oneself or others in the school. These activities usually require administrative actions which result in the immediate removal of the student from the school, the intervention of law enforcement authorities, and/or action by the local school board. The provisions of this regulation apply not only to within-school activities, but also to student conduct on school bus transportation vehicles, and other school sponsored activities.

2. Acts of criminal conduct may include, but are not limited to:
   a. Assault and battery;
   b. Extortion;
   c. Bomb threat;
   d. Possession, use, or transfer of dangerous weapons;

   h. Arson;
      i. Furnishing or selling unauthorized substances, as defined by local school board policy;
   j. Furnishing, selling, or possession of controlled substances (drugs, narcotics, or poisons).

3. The basic enforcement procedures to be followed in instances of criminal conduct are:
   a. Upon observation or notification and verification of an offense, the administrator should confer with the staff involved, should effect the appropriate disciplinary action, and, if appropriate, should meet with the student.
   b. If warranted, the student should be removed immediately from the school environment. A parent or guardian should be notified as soon as possible.
   c. If appropriate, school officials should contact law enforcement authorities.
   d. Established due process procedures shall be followed when applicable.
   e. A complete record of the procedures should be maintained.

4. Possible sanctions to be applied in cases of criminal conduct may include, but are not limited to:
   a. Out-of-school suspension;
   b. Assignment to alternative schools;

   d. Restitution of property and damages, where appropriate, should be sought by local school authorities;
   e. Other sanctions as approved by local school authorities.

D. Extenuating, Mitigating or Aggravating Circumstances. A local school board may confer upon the appropriate administrator the authority to consider extenuating, mitigating or aggravating circumstances which may exist in a particular case of misconduct. Such circumstances should be considered in determining the most appropriate sanction to be used.

Based on this consideration of the student’s record, the board may bar his enrollment in the schools of the district.

REGULATIONS

R43-274.1. At-risk students.

II. At-Risk Student Indicators, Predictors, and Barriers

The South Carolina Education and Economic Development Act mandates the promulgation of State Board of Education regulations outlining specific objective criteria for districts to use in identifying students who may be poorly prepared for the next level of study or who are at risk of dropping out of school. The Act calls for these criteria to include diagnostic assessments for districts to use in order to identify the strengths and weaknesses of individual students in the core academic areas.

B. The following are among the specific behaviors and characteristics that school districts must consider as indicators, predictors, and barriers in identifying at-risk students:

4. having a history of discipline problems leading to suspension, expulsion, and/or probation;

III. At-Risk Student Model, Initiative, and Program Selection

By the 2007-08 school year each high school of the state must implement one or more model programs approved by the South Carolina Department of Education (SCDE).

Schools must select at-risk student models, initiatives, and programs that meet the needs of the at-risk populations to be served and must ensure that models, initiatives, and programs selected provide students with the opportunity to graduate with a high school diploma. The SCDE will provide an implementation document that will include a tiered matrix of approved evidence-based models, initiatives, and programs to facilitate the selection process in accordance with the Education and Economic Development Act requirements for implementing evidence-based models, initiatives, and programs. The document will also contain a more extensive list of indicators, predictors, and barriers as well as one-page descriptions for each evidence-based model, initiative, and program included in the matrix.

IV. Population and Model, Initiative, and Program Identification Parameters

Each high school either must implement a model, initiative, or program that is chosen from a list provided by the SCDE or must submit to the SCDE for approval a specific dropout prevention model, comprehensive initiative, or multifaceted program that it wants to use. High schools may explore and implement newly developed models with approval from the SCDE. One criterion for SCDE approval of any newly developed model will be evidence presented by the district and/or school that the model is centered in research-based dropout-prevention strategies.
A. Implementation efforts related to any model, initiative, or program (or combination of models, initiatives, and programs) must ensure that students are properly identified and provided timely, appropriate guidance and assistance and must ensure that no group is disproportionately represented.

B. When subpopulations are identified, high schools must ensure that these groups reflect the demographics of populations identified as at risk of dropping out of school.

C. When no subpopulations are identified, high schools implementing comprehensive initiatives will not have to address the disproportionate representation of any one group of students. In such cases, methods of determining the effectiveness of the at-risk initiative must be given careful consideration with regard to collecting data and preparing necessary reports.

D. Parental involvement must be part of final placement decisions in any model, initiative, or program where small groups of students are identified for services in a particular school or district.

E. The target population must reflect the demographics of the population identified in Section II, above, as being at risk of dropping out of school.

F. High schools must provide relevant data related to identifying the at-risk student population and to addressing the needs of these at-risk students as required for SCDE reports.

V. Building-Level Program Evaluation

A. Evaluation Criteria. All high schools must annually evaluate their dropout-prevention models, initiatives, and/or programs using, at a minimum, the following criteria:

1. an identification process, including (where appropriate and based on the particular model, initiative, or program) the number of at-risk students identified and the specific risk factors identified;
2. the extent of parental involvement in the school's dropout-prevention efforts;
3. the number of students served;
4. a formative assessment of strengths and weaknesses of the model, initiative, and/or program; and
5. a qualitative assessment of desired outcomes (see item B, immediately below).

B. Desired Outcomes. Schools should establish desired outcomes or performance criteria based on the specific needs of the at-risk population identified and on the nature and structure of the particular model, initiative, and/or program they are implementing. Examples of desired outcomes among the target population include, but are not limited to, the following:

1. decreased percentages of truancy, absenteeism, discipline problems, and retentions;
2. increases in students' grade point averages; and
3. increased percentages of students who are on grade level and students who graduate on time.

Model-, initiative-, and/or program-specific data and PowerSchoolTM data elements should be used to assess desired outcomes on the basis of specific evaluation criteria. The state's PowerSchoolTM data management system can be used to collect, sort, and report data related to each student's attendance record; age and grade level; gender; ethnicity; grade point average; and retention, truancy, and dropout status.

C. Teacher and/or counselor assessments may be used to provide supplemental anecdotal documentation and insights related to the effectiveness of the model, initiative, and/or program implemented. A district or school checklist may be beneficial in the evaluation process.

VI. Model, Initiative, and/or Program Evaluation and Assessment Reporting

All high schools must annually provide reports requested by the SCDE that relate to the implementation and effectiveness of models, initiatives, and/or programs addressing the needs of students at risk of dropping out of school. District and school report card contents must contain information on the disciplinary climate, promotion and retention ratios, dropout ratios, dropout reduction data, and
attendance data. Districts and schools must be prepared to provide accurate and relevant data to the SCDE.

Additionally, the State Board of Education shall develop teacher preparation program standards on the identification and prevention of bullying. The model policies and standards must be developed no later than September 1, 2006.

(E) Information regarding a local school district policy against harassment, intimidation, or bullying must be incorporated into a school's employee training program. Training also should be provided to school volunteers who have significant contact with students.

59-63-1150. Compliance with case law; training of school administrators.

Notwithstanding any other provision of this article, all searches conducted pursuant to this article must comply fully with the "reasonableness standard" set forth in New Jersey v. T.L.O., 469 U.S. 328 (1985). All school administrators must receive training in the "reasonableness standard" under existing case law and in district procedures established to be followed in conducting searches of persons entering the school premises and of the students attending the school.

59-66-20. School safety coordinator grant program; funding; requirements.
(A) The General Assembly annually shall provide funds in the general appropriations act to be awarded to school districts which choose to employ safety coordinators in accordance with this section. State funds may be awarded for not more than one safety coordinator for each county. The amount of the award for a county for fiscal year 1995-96 may not exceed twenty-five thousand dollars, except for counties which are designated as economically distressed pursuant to Section 41-43-180. Economically distressed counties participating in the program shall receive additional state funds for fiscal year 1995-96 in the amount of five thousand five hundred dollars. The amount which may be awarded for a county, including the additional state funds for economically distressed counties, must be increased each fiscal year after 1995-96 by the same percentage as the average teacher salary.

(B) An award of state funds to school districts under this program is contingent upon a district or group of districts jointly matching the state grant with an equal amount of funds and in-kind contributions; however, school districts located primarily within an economically distressed county are not required to match any portion of the state grant. Additionally, funds only may be awarded where the duties of the safety coordinator relate exclusively to school and district safety functions. Each participating school district must provide a portion of the local matching funds based upon the relationship the district’s student membership bears to the total student membership of all participating districts within the county. Nonparticipating school districts in multi-district counties may begin participation in the program by contributing to the local match in the same manner as those school districts originally participating in the program.
(D) When more than one school district in a multi-district county is provided funds under this section, the safety coordinator must be an employee of the school district with the largest student membership during the immediately preceding school year, unless the participating school districts have a memorandum of agreement providing otherwise; however, the safety coordinator must provide services to all participating school districts.

(E) For purposes of this section, “student membership” means the cumulative one hundred thirty-five day average daily membership during the immediately preceding school year.

(F) The State Board of Education, through the State Department of Education, shall develop and implement regulations establishing the safety coordinator grant program.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

§13-32-9. Suspension from extracurricular activities for controlled substances violation--Unified
Judicial System to give certain notices.
Any person adjudicated, convicted, the subject of an informal adjustment or court-approved diversion
program, or the subject of a suspended imposition of sentence or suspended adjudication of delinquency

22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by § 22-
42-15, is ineligible to participate in any extracurricular activity at any secondary school accredited by the
Department of Education for one calendar year from the date of adjudication, conviction, diversion, or

assessment indicates the need for a higher level of care, the student is required to complete the
prescribed program before becoming eligible to participate in extracurricular activities. Upon a second
adjudication, conviction, diversion, or suspended imposition of a sentence for possession, use, or
distribution of controlled drugs, substances, or marijuana as defined in chapter 22-42, or for ingesting,
inhaling, or otherwise taking into the body any substance as prohibited by § 22-42-15, by a court of
competent jurisdiction, that person is ineligible to participate in any extracurricular activity at any
secondary school accredited by the Department of Education for one year from the date of adjudication,
conviction, diversion, or suspended imposition of sentence. The one year suspension may be reduced to
sixty calendar days if the person completes an accredited intensive prevention or treatment program.
Upon a third or subsequent adjudication, conviction, diversion, or suspended imposition of sentence for
possession, use, or distribution of controlled drugs or substances or marijuana as defined in chapter 22-
42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by § 22-42-
15, by a court of competent jurisdiction, that person is ineligible to participate in any extracurricular activity
at any secondary school accredited by the Department of Education. Upon such a determination in any
juvenile court proceeding the Unified Judicial System shall give notice of that determination to the South
Dakota High School Activities Association and the chief administrator of the school in which the person is
participating in any extracurricular activity. The Unified Judicial System shall give notice to the chief
administrators of secondary schools accredited by the Department of Education for any such
determination in a court proceeding for any person eighteen to twenty-one years of age without regard to
current status in school or involvement in extracurricular activities. The notice shall include name, date of
birth, city of residence, and offense. The chief administrator shall give notice to the South Dakota High
School Activities Association if any such person is participating in extracurricular activities.

Dakota High School Activities Association. Students are ineligible to participate in activity events,
competitions, and performances, but a local school district may allow a student to participate in practices.
No local school board may impose a lesser consequence than those established in §13-32-9, but a local school district may adopt a policy, by local school board action, with more strict consequences to meet the needs of the district.

If a suspension is reduced pursuant to § 13-32-9, a suspension for a first offense shall make the student ineligible for a minimum of two South Dakota High School Activities Association sanctioned events. If two sanctioned events for which the student is ineligible do not take place within the reduced suspension period, the student's suspension remains in effect until two sanctioned events for which the student is ineligible have taken place. If a suspension is reduced pursuant to § 13-32-9, a suspension for a second offense shall make the student ineligible for a minimum of six South Dakota High School Activities Association sanctioned events. If six sanctioned events for which the student is ineligible do not take place within the reduced suspension period, the student's suspension remains in effect until six sanctioned events for which the student is ineligible have taken place. To count toward the minimum number of events, the student must participate in the entire activity season and may not drop out or quit the activity to avoid suspension and the failure of a student to complete the entire activity season shall result in the student being ineligible for one year from the date of adjudication, conviction, the subject of an internal adjustment or court approved diversion program, or the subject of a suspended imposition of sentence or suspended adjudication of delinquency. A suspension that is not completed by the student during one activity season shall carry over to the next activity season in which the student participates. In addition, a suspension that is reduced pursuant to § 13-32-9 is only in effect during the South Dakota High School Activities Association's activity year, which begins on the first day of its first sanctioned event and concludes on the last day of its last sanctioned event. A reduced suspension that is not completed by the end of one activity year shall carry over to the next activity year.

A suspension begins on:

Alternative solutions.
The school board of every school district shall assist and cooperate with the administration and teachers in the government and discipline of the schools. The board may suspend or expel from school any student for violation of rules or policies or for insubordination or misconduct, and the superintendent or principal in charge of the school may temporarily suspend any student in accordance with § 13-32-4.2. The rules or policies may include prohibiting the following:

(1) The consumption or possession of beer or alcoholic beverages on the school premises or at school activities;
(2) The use or possession of a controlled substance, without a valid prescription, on the school premises or at school activities; and
(3) The use or possession of a firearm, as provided in § 13-32-7, on or in any elementary or secondary school premises, vehicle, or building or any premises, vehicle, or building used or leased for elementary or secondary school functions or activities.

In addition to administrative and school board disciplinary action, any violation of § 13-32-7 shall be reported to local law enforcement authorities.

The period of expulsion may extend beyond the semester in which the violation, insubordination, or misconduct occurred. Any expulsion for consumption or possession of beer or alcoholic beverages may not extend beyond ninety school days. If a student has intentionally brought a firearm onto school premises, the expulsion may not be for less than twelve months.

However, the superintendent or chief administering officer of each local school district or system may increase or decrease the length of a firearm-related expulsion on a case-by-case basis. The South Dakota Board of Education shall promulgate rules pursuant to chapter 1-26 to establish administrative due process procedures for the protection of a student's rights. The administrative due process procedures shall include a requirement that the school give notice of a student's due process rights to the parent or guardian of the student at the time of suspension or expulsion. Each school district board shall
provide a procedural due process hearing, if requested, for a student in accordance with such rules if the suspension or expulsion of the student extends into the eleventh school day.

This section does not preclude other forms of discipline which may include suspension or expulsion from a class or activity.

This section does not prohibit a local school district from providing educational services to an expelled student in an alternative setting.

The school board in any district may authorize the summary suspension of pupils by principals of schools for not more than ten school days and by the superintendent of schools for not more than ninety school days. In case of a suspension by the superintendent for more than ten school days, the pupil or his parents or others having his custodial care may appeal the decision of the superintendent to the board of education. Any suspension by a principal shall be immediately reported to the superintendent who may revoke the suspension at any time. In event of an appeal to the board, the superintendent shall promptly transmit to the board a full report in writing of the facts relating to the suspension, the action taken by him and the reasons for such action; and the board, upon request, shall grant a hearing to the appealing party. No pupil may be suspended unless:

1. The pupil is given oral or written notice of the charges against him;
2. The pupil is given an oral or written explanation of the facts that form the basis of the proposed suspension; and
3. The pupil is given an opportunity to present his version of the incident.

In the event of a suspension for more than ten school days, if the pupil gives notice that he wishes to appeal the suspension to the board, the suspension shall be stayed until the board renders its decision, unless in the judgment of the superintendent of schools, the pupil's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process, in which case the pupil may be immediately removed from school, and the notice and hearing shall follow as soon as practicable.

The administrative due process procedures established in ARSD 24:07:04 for the protection of students' rights in an expulsion procedure apply to the early reinstatement process established in §§ 13-32-4.4 to 13-32-4.6, inclusive, and the South Dakota Board of Education Standards may promulgate rules pursuant to chapter 1-26 to establish additional procedures for the early reinstatement process, including the development of early reinstatement conditions by school boards.

No local school board may impose a lesser consequence than those established in §13-32-9, but a local school district may adopt a policy, by local school board action, with more strict consequences to meet the needs of the district.

If a suspension is reduced pursuant to § 13-32-9, a suspension for a first offense shall make the student ineligible for a minimum of two South Dakota High School Activities Association sanctioned events. If two sanctioned events for which the student is ineligible do not take place within the reduced suspension period, the student's suspension remains in effect until two sanctioned events for which the student is ineligible have taken place. If a suspension is reduced pursuant to § 13-32-9, a suspension for a second offense shall make the student ineligible for a minimum of six South Dakota High School Activities Association sanctioned events. If six sanctioned events for which the student is ineligible do not take
place within the reduced suspension period, the student's suspension remains in effect until six sanctioned events for which the student is ineligible have taken place. To count toward the minimum number of events, the student must participate in the entire activity season and may not drop out or quit the activity to avoid suspension and the failure of a student to complete the entire activity season shall result in the student being ineligible for one year from the date of adjudication, conviction, the subject of an internal adjustment or court approved diversion program, or the subject of a suspended imposition of sentence or suspended adjudication of delinquency. A suspension that is not completed by the student during one activity season shall carry over to the next activity season in which the student participates. In addition, a suspension that is reduced pursuant to § 13-32-9 is only in effect during the South Dakota High School Activities Association's activity year, which begins on the first day of its first sanctioned event and concludes on the last day of its last sanctioned event. A reduced suspension that is not completed by the end of one activity year shall carry over to the next activity year.

A suspension begins on:

(1) The day following the notification to a school administrator by the Unified Judicial System that a student has been adjudicated, convicted, the subject of an informal adjustment or court approved diversion program, or the subject of a suspended imposition of a sentence or a suspended adjudication of delinquency for possession, use, or distribution of controlled drugs, substances, or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substance prohibited by § 22-42-15 and the school administrator gives notice to the South Dakota High School Activities Association and the students; or

(2) The day following the student's admission to a school administrator that the student committed an offense enumerated in subdivision (1), which shall be made with the student's parent or guardian present if the student is an unemancipated minor, and the school administrator gives notice to the South Dakota High School Activities Association.

REGULATIONS

24:07:01:01. Definitions.

Terms used in this article mean:

(1) "Expulsion," the action of the school board that terminates a pupil's membership in school for not more than 12 consecutive months;

(2) "Long-term suspension," the exclusion of a pupil by the superintendent or school board from a class or classes or from school for more than 10 but not more than 90 school days;

(3) "Parent," a parent, guardian, or person in charge of a pupil;

(4) "Policy," a rule, regulation, or standard enacted by a school district board;

(5) "Short-term suspension," the exclusion of a pupil by a principal or superintendent from a class or from school for not more than 10 school days.

24:07:02:01. Short-term suspension procedure.

If a short-term suspension from a class, classes, or school is anticipated because of a pupil's violation of a policy, the principal or superintendent shall give oral or written notice to the pupil as soon as possible after discovery of the alleged violation, stating the facts that form the basis for the suspension. The pupil must be given the opportunity to answer the charges. If a pupil is suspended, the principal or superintendent shall give the parent oral notice, if possible, and shall send the parent or a pupil who is 18 years of age or older an emancipated minor a written notice which provides information regarding the pupil's due process rights. A pupil who is an unemancipated minor may not be removed from the school premises before the end of the school day without contacting a parent unless the pupil's presence poses
a continuing threat or danger, in which case the pupil may be immediately removed from the school and transferred into the custody of a parent or law enforcement.

**24:07:03:01. Written report required.**
The superintendent must file a sealed, written report with the school board by the end of the fifth school day following the first day of the long-term suspension and may request that a hearing be held before the school board. The report must include the facts of the situation, the action taken, the reasons for the action, and the superintendent's decision or recommendation. The report must remain in the possession of the school board secretary or business manager, sealed and unavailable for review by individual school board members, until the time set for a hearing. The superintendent must send a copy of the report to the pupil's parent or to the pupil if the pupil is 18 years of age or older or an emancipated minor at the same time the report is filed with the school board's secretary or business manager.

**24:07:03:02. Right to request hearing—Notice of hearing.**
If the superintendent finds grounds for a long-term suspension from a class or classes, the superintendent may exclude the pupil from a class or classes by using the short-term suspension procedure in § 24:07:02:01. The superintendent shall give a written notice to the pupil's parent or to a pupil who is 18 years of age or older or an emancipated minor and may schedule a hearing. The notice shall contain the following minimum information:

1. The policy allegedly violated;
2. The reason for the disciplinary proceedings;
3. Notice of the right to request a hearing or waive the right to a hearing.
4. A description of the hearing procedure;
5. A statement that the pupil's records are available at the school for examination by the pupil's parent or authorized representative; and
6. A statement that the pupil may present witnesses.

If a hearing is requested, the superintendent shall give notice to each school board member of an appeal to the board for a hearing. The superintendent shall set the date, time, and place for the hearing and send notice by first class mail to each school board member and by certified mail, return receipt requested, to the pupil's parent or to a pupil who is 18 years of age or older or an emancipated minor.

If no hearing is requested or the hearing is waived, the action of the superintendent is final.

**24:07:03:03. Right of waiver.**
The pupil, if of the age of majority or emancipated, or the pupil's parent may waive the right to a hearing in writing to the superintendent. If the hearing is not waived, the hearing shall be held on the date, time, and place set in the notice unless a different date, time, and place are agreed to by the parties.

**24:07:03:04. Hearing procedure.**
The school board is the hearing board and shall conduct the hearing in the following manner:

1. The school board shall appoint a school board member or a person who is not an employee of the school district as the hearing officer;
2. Each party may make an opening statement;
3. Each party may introduce evidence, present witnesses, and examine and cross-examine witnesses;
4. Each party may be represented by an attorney;
5. The school administration shall present its case first;
(6) The hearing is closed to the public. A verbatim record of the hearing will be made and will be sealed pending court order;
(7) Witnesses may be present only when testifying. All witnesses must take an oath or affirmation administered by the school board president or business manager;
(8) Each party may raise objections; however, objections are limited to relevancy and scope of the question;
(9) All relevant evidence must be admitted; however, unproductive or repetitious evidence may be limited by the hearing officer;
(10) The hearing officer may ask questions of witnesses and may allow other school board members to interrogate witnesses;
(11) Each party may make a closing statement;
(12) After the hearing, the school board shall continue to meet in executive session for deliberation. No one other than the hearing officer may meet with the school board during deliberation. The school board may seek advice during deliberation from an attorney. Consultation with any other person during deliberation may occur only if a representative of the pupil is present; and
(13) The decision of the school board must be based solely on the evidence presented at the hearing and must be formalized by a motion made in open meeting. The motion must omit the name of the pupil and must state the reason for the board's action. The school board shall notify the pupil or the pupil's parents in writing of the decision. The notice must state the length of the suspension or expulsion.

24:07:03:06. Right of appeal.
The student may appeal an adverse decision by the school board to the circuit court.

24:07:03:08. Referral to placement committee of pupils in need of special education.
If a pupil identified as in need of special education or special education and related services pursuant to SDCL 13-37-1 is expelled or subjected to long-term suspension, the procedure in § 24:05:26:09 applies.

24:07:04:01. Written report required.
If expulsion is anticipated because of a student's violation of a rule or policy or for insubordination or misconduct, the superintendent must file a sealed written report with the school board no later than the end of the fifth school day following the first day of the student's removal; from one or more classes or from school and schedule a hearing before the school board. The report must include the facts of the situation, the action, the reasons for the action and the superintendent's recommendation. The report must remain in the possession of the school board secretary sealed and unavailable for review by individual school board members, until the time set for a hearing.
At the same time that the report is filed with the school board's secretary, the superintendent must send a copy of the report to the student's parent or to the student if the student is 18 years of age or older or is an emancipated minor.

If the Superintendent finds grounds for expulsion from one or more classes or from school, the superintendent may exclude the student immediately by using the short-term suspension procedure in § 24:07:02:01. The superintendent shall give a written notice to one or both of student's parents or to a student who is 18 years of age or older or an emancipated minor. The notice must contain the following information at a minimum:
(1) The rule, regulation, or policy allegedly violated;
(2) The reason for the disciplinary proceedings;
(3) Notice of the right to request a hearing;
(4) A description of the hearing procedure;
(5) A statement that the student's records are available at the school for examination by the student's parent or parents or another authorized representative;
(6) A statement that the student may present witnesses; and
(7) A statement that the student may be represented by an attorney.

The superintendent shall set the date, time, and place for the school board hearing. The superintendent shall send notice of the hearing to each school board member by first class mail and to the student's parent or to a student who is 18 years of age or older or an emancipated minor by certified mail, return receipt requested. If the superintendent recommend expulsion, the school board must act on the recommendation before it is implemented.

24:07:04:03. Right of waiver.

The student, if of the age of majority or emancipated, or the student's parent may waive the right to a hearing in writing to the superintendent. If the hearing is not waived, the hearing shall be held on the date and at the time and place set in the hearing notice unless a different date, time, and place are agreed to by the parties. If the hearing is waived in writing, the school board may consider the matter at a regular or special meeting without further notice to the student or the student's parents.

The school board is the hearing board and shall conduct the hearing in the following manner:

(1) The school board shall appoint a school board member or a person who is not an employee of the school district as the hearing officer;
(2) Each party may make an opening statement;
(3) Each party may introduce evidence, present witnesses, and examine and cross-examine witnesses;
(4) Each party may be represented by an attorney;
(5) The school administration shall present its case first;
(6) The hearing is closed to the public. The school board shall make a verbatim record of the hearing by means of an electronic or mechanical device or by court reporter. This record and any exhibits must be sealed and must remain with the hearing officer until the appeal process has been completed;
(7) Witnesses may present only when testifying. All witnesses must take an oath or affirmation administered by the school board president, hearing officer or other person authorized by law to take oaths and affirmations;
(8) Each party may rise any legal objection to evidence;
(9) The hearing officer shall admit all relevant evidence; however, the hearing officer may limit unproductive or repetitious evidence;
(10) The hearing officer may ask questions of witnesses and may allow other school board members to interrogate witnesses;
(11) Each party may take a statement;
(12) After the hearing, the school board shall continue to meet in executive session for deliberation. No one other that the hearing officer may meet with the school board during deliberation. The school board may seek advice during deliberation from an attorney who has not represented any if the parties to the hearing. Consultation with any other person during deliberation may occur only of a representative of the student is present; and
(13) The decision of the school board must be based solely on the evidence presented at the hearing and must be formalized by a motion made in open reason for the board's action. The school board shall notify the student's parent or parents or a student who is 18 years of age or older or who is an emancipated minor in writing of the decision. The notice shall state the length of the expulsion.

24:07:04:05. Right of appeal.
The student may appeal an adverse decision by the school board to the circuit Court.

24:07:04:07. Referral to placement committee of students in need of special education or special education and related services.
If a student identified as in need of special education or special education and related services pursuant to SDCl 13-37-1 is a subject of proposed expulsion, the procedure in § 24:06:26.01:08 applies.

24:05:26:01. Suspension from school.
The suspension of pupils in need of special education or special education and related services includes the general due process procedures used for all pupils and the additional steps in the process specified in this chapter that a district must take if the student is receiving special education or special education and related services under an individualized education program.

24:05:26:01.01. Suspension from school—Definitions.
Terms used in this chapter and chapter 24:05:26.01 mean:

(1) "Controlled substance," a drug or other substance identified under SDCL 34-20B-11 to 34-20B-26, inclusive;
(2) "Dangerous weapon," a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury. The term does not include a pocket knife with a blade of less than 2 1/2 inches in length;
(3) "Illegal drug," a controlled substance, but does not include such a substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under SDCL 34-20B-11 to 34-20B-26, inclusive, or under any provision of federal law; and
(4) "Serious bodily injury," bodily injury that involves:
   (a) A substantial risk of death;
   (b) Extreme physical pain;
   (c) Protracted and obvious disfigurement; or
   (d) Protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the other requirements of this chapter, is appropriate for a student with a disability who violates a code of student conduct.

24:05:26:02.01. Change of placement for disciplinary removals.
For purposes of removal of a student with a disability from the student's current educational placement under this chapter, a change of placement occurs if:
(1) The removal is for more than ten consecutive school days; or
(2) The student is subjected to a series of removals that constitute a pattern because:
   (a) They cumulate to more than ten school days in a school year;
   (b) Of factors such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another; and
   (c) The student's behavior is substantially similar to the student's behavior in previous incidents that resulted in the series of removals.

The public agency determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

24:05:26:02.02. Removals—Ten school days or less.
To the extent removal would be applied to students without disabilities, including alternative settings, school personnel may order the removal of a student with a disability from the student's current placement to an appropriate interim alternative educational setting or another setting, or they may order suspension for not more than ten consecutive school days, for any violation of a code of student conduct. Additional removals of not more than ten consecutive school days in that same school year may be ordered for separate incidents of misconduct if those removals do not constitute a change of placement under § 24:05:26:02.01.

24:05:26:02.03. Required services—No change of placement.
A school district need not provide services during periods of removal under § 24:05:26:02.02 to a student with a disability who has been removed from his or her current placement for ten school days or less in that school year, if services are not provided to a student without disabilities who has been similarly removed. If a student with a disability has been removed from his or her current placement for more than ten school days in that school year, and the removal is not for more than ten consecutive school days and is not a change in placement, the district, for the remainder of the removals, shall provide services to the extent necessary to enable the student to participate in the general curriculum and to progress toward meeting the goals set out in the student's IEP. School personnel, in consultation with at least one of the student's teachers, shall determine the extent to which services are necessary to enable the student to participate in the general curriculum and to progress toward meeting the goals set out in the student's IEP.

24:05:26:03. Written report required.
If a long-term suspension is anticipated because of a pupil's violation of a policy, the procedure in § 24:07:03:01 applies.

If the superintendent finds grounds for a long-term suspension from a class or classes, the procedure in § 24:07:03:02 applies.

24:05:26:05. Right of waiver.
The pupil, if of the age of majority or emancipated, or the pupil's parent may waive the right to a hearing in writing to the superintendent. If the hearing is not waived, the hearing shall be held on the date, time, and place set in the notice unless a different date, time, and place are agreed to by the parties.

24:05:26:06. Hearing procedure.
The school board is the hearing board and shall conduct the hearing in the following manner:
(1) The school board shall appoint a school board member or a person who is not an employee of the school district as the hearing officer;
(2) Each party may make an opening statement;
(3) Each party may introduce evidence, present witnesses, and examine and cross-examine witnesses;
(4) Each party may be represented by an attorney;
(5) The school administration shall present its case first;
(6) The hearing is closed to the public. The school board shall make a verbatim record of the hearing by means of an electronic or mechanical device;
(7) Witnesses may be present only when testifying. All witnesses must take an oath or affirmation administered by the school board president or business manager;
(8) Each party may raise objections; however, objections are limited to relevancy and scope of the question;
(9) The hearing officer shall admit all relevant evidence; however, the hearing officer may limit unproductive or repetitious evidence;
(10) The hearing officer may ask questions of witnesses and may allow other school board members to interrogate witnesses;
(11) Each party may make a closing statement;
(12) After the hearing, the school board shall continue to meet in executive session for deliberation. No one other than the hearing officer may meet with the school board during deliberation. The school board may seek advice during deliberation from an attorney who has not represented any of the parties to the hearing. Consultation with any other person during deliberation may occur only if a representative of the pupil is present; and
(13) The decision of the school board must be based solely on the evidence presented at the hearing and must be formalized by a motion made in open meeting. The motion shall omit the name of the pupil and shall state the reason for the board's action. The school board shall notify the pupil's parents or a pupil who is 18 years of age or older or an emancipated minor in writing of the decision. The notice shall state the length of the suspension.

The pupil may appeal an adverse decision by the school board to the circuit court.

24:05:26:08.02. Authority of hearing officer.
A hearing officer under this article hears and makes a determination regarding an appeal under this chapter. In making the determination under this section, the hearing officer may:

(1) Return the student with a disability to the placement from which the student was removed if the hearing officer determines that the removal was a violation of this chapter or that the student's behavior was a manifestation of the student's disability; or
(2) Order a change of placement of the student with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the student is substantially likely to result in injury to the student or to others.

The procedures under this section may be repeated if the school district believes that returning the student to the original placement is substantially likely to result in injury to the student or to others.

24:05:26:09.03. Manifestation determination review requirement.
Within ten school days of any decision to change the placement of a student with a disability because of a violation of a code of student conduct, the school district, the parent, and relevant members of the
student's IEP team, as determined by the parent and the district, shall review all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information provided by the parents to determine:

(1) Whether the conduct in question was caused by, or had a direct and substantial relationship to, the student's disability; or

(2) Whether the conduct in question was the direct result of the school district's failure to implement the IEP.

The conduct must be determined to be a manifestation of the student's disability if the district, the parent, and relevant members of the student's IEP team determine that a condition in either subdivision (1) or (2) of this section was met.

If the district, the parent, and relevant members of the student's IEP team determine that the condition described in subdivision (2) of this section was met, the district shall take immediate steps to remedy those deficiencies.

24:05:26:09.04. Determination that behavior was a manifestation.

If the school district, the parent, and relevant members of the IEP team determine that the conduct was a manifestation of the student's disability, the IEP team shall either:

(1) Conduct a functional behavioral assessment, unless the district had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the student; or

(2) If a behavioral intervention plan already has been developed, review the behavioral intervention plan and modify it, as necessary, to address the behavior.

In addition, and except as provided in § 24:05:26:08.01, the IEP team shall return the student to the placement from which the student was removed, unless the parent and the district agree to a change of placement as part of the modification of the behavioral intervention plan.

24:05:26:09.05. Determination that behavior was not manifestation of disability—Additional authority of school personnel.

For disciplinary changes in placement that would exceed ten consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the student's disability pursuant to this chapter, school personnel may apply the relevant disciplinary procedures to students with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities, except as provided in this section.

A student with a disability who is removed from the student's current placement pursuant to this section or § 24:05:26:08.01 must:

(1) Continue to receive educational services, as provided in this article, so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP; and

(2) Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

24:05:26:09.06. Appeal.

The parent of a student with a disability who disagrees with any decision regarding placement under this chapter or with the manifestation determination, or a school district that believes that maintaining the current placement of the student is substantially likely to result in injury to the student or others, may appeal the decision by requesting a hearing. The hearing is requested by filing a complaint pursuant to this article.

If an appeal under this chapter has been made by either the parent or the school district, the student must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period specified in § 24:05:26:08.01 or 24:05:26:09.05, whichever occurs first, unless the parent and the state education agency or school district agree otherwise.

24:05:26:09.08. Expedited hearing—Procedures.

If a hearing is requested under this chapter, the parents or the school district involved in the dispute must have an opportunity for an impartial due process hearing consistent with the requirements of this article, except as provided in this section.

The department shall arrange the expedited due process hearing, which must occur within 20 school days of the date of the complaint requesting the hearing is filed. The hearing officer shall make a determination within ten school days after the hearing.

Unless the parents and school district agree in writing to waive the resolution meeting described in this section, or agree to use the mediation process described in chapter 24:05:30:

1) A resolution meeting must occur within seven days of receiving notice of the due process complaint; and

2) The due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of the receipt of the due process complaint.

The decisions on expedited due process hearings are appealable consistent with chapter 24:05:30.

A student who has not been determined to be eligible for special education and related services under this article and who has engaged in behavior that violated any rule or code of conduct of the school district, including any behavior described in this chapter, may assert any of the protections provided for in this article if the school district had knowledge that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred. A school district is deemed to have knowledge that a student is a student with a disability if:

1) The parent of the student has expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency, or a teacher of the student, that the student is in need of special education and related services;

2) The parent of the student has requested an evaluation of the student pursuant to this article; or

3) The teacher of the student, or other personnel of the district or other public agency has expressed specific concerns about a pattern of behavior demonstrated by the student directly to the director of special education of the district or to other supervisory personnel of the district.

A district is not deemed to have knowledge that the student is a student with a disability under this section, if the parent of the student has not allowed an evaluation of the student pursuant to this article, or has refused services under this article, or the district conducted an evaluation consistent with this article and determined that the student was not a student with a disability.

If the district does not have knowledge that a student is a student with a disability before taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as measures applied to students without disabilities who engaged in comparable behaviors consistent with this chapter.

If a request is made for an evaluation of a student during the time period in which the student is subjected to disciplinary measures under this chapter, the evaluation must be conducted in an expedited manner. Until the evaluation is completed, the student shall remain in the educational placement determined by
school authorities, which can include suspension or expulsion without educational services. If the student is determined to be a student with a disability taking into consideration information from the evaluation conducted by the district and information provided by the parents, the district shall provide special education and related services in accordance with the provisions of this article including the discipline procedures and free appropriate public education requirements.

24:05:26.01:01. Expulsion from school.
The expulsion of students in need of special education or special education and related services includes the general due process procedures used for all students and the additional steps in the process specified in this chapter that a district must take when the student is receiving special education or related services under an individual education plan.

24:05:26.01:01.01. Case-by-case determination.
School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the other requirements of this chapter, is appropriate for a student with a disability who violates a code of student conduct.

24:05:26.01:02. Written report required.
If an expulsion is anticipated because of a student's violation of rules or policies or for insubordination or misconduct, the procedure in § 24:07:04:01 applies.

24:05:26.01:03. Request and notice of hearing.
If the superintendent finds grounds for expulsion from school, the procedure in § 24:07:04:02 applies.

24:05:26.01:04. Right to waiver.
A competent student, if of the age of majority or emancipated, or the student's parent may waive the right to a hearing in writing to the superintendent. If the hearing is not waived, the hearing shall be held on the date and at the time and place set in the hearing notice unless a different date, time, and place are agreed to by the parties. If the hearing is waived in writing, the school board may consider the matter at a regular or special meeting without further notice to the student or student's parents.

24:05:26.01:05. Hearing procedure.
The school board is the hearing board and shall conduct the hearing in the following manner:

1. The school board shall appoint a school board member or a person who is not an employee of the school district as the hearing officer;
2. Each party may make an opening statement;
3. Each party may introduce evidence, present witnesses, and examine and cross-examine witnesses;
4. Each party may be represented by an attorney;
5. The school administration shall present its case first;
6. The hearing is closed to the public. The school board shall make a verbatim record of the hearing by means of an electronic or mechanical device or by court reporter. This record and any exhibits must be sealed and must remain with the hearing officer until the appeal process has been completed;
7. Witnesses may be present only when testifying. All witnesses must take an oath or affirmation administered by the school board president, hearing officer, or other person authorized by law to take oaths or affirmations;
8. Each party may raise any legal objections to evidence;
(9) The hearing officer shall admit all relevant evidence; however, the hearing officer may limit unproductive or repetitious evidence;

(10) The hearing officer may ask questions of witnesses and may allow other school board members to interrogate witnesses;

(11) Each party may make a closing statement;

(12) After the hearing, the school board shall continue to meet in executive session for deliberation. No one other than the hearing officer may meet with the school board during deliberation. The school board may seek advice during hearing. Consultation with any other person during deliberation may occur only if a representative of the student is present; and

(13) The decision of the school board must be based solely on the evidence presented at the hearing and must be formalized by a motion made in open meeting. The motion shall omit the name of the student and shall state the reason for the board's action. The school board shall notify the student's parent or parents or a student who is 18 years of age or older or who is an emancipated minor in writing of the decision. The notice shall state the length of the expulsion.

24:05:26.01:06. Right of appeal.
The student may appeal an adverse decision by the school board to the circuit court.

24:05:26.01:07.01. Authority of school personnel.
Weapons, drugs, and serious bodily injury. School district personnel shall follow the procedures under § 24:05:26:08.01 if an expulsion is anticipated because of a student's violation of rules or policies pertaining to weapons and drugs.

24:05:26.01:07.02. Authority of hearing officer.
The authority of a hearing officer, in an expedited due process hearing, described under § 24:05:26:08.02, applies if an expulsion is anticipated because a student's behavior is substantially likely to result in injury to the student or to others.

24:05:26.01:08.01. Applicability of suspension procedures.
The suspension procedures described in §§ 24:05:26:09.02 to 24:05:26:09.08, inclusive, apply if an expulsion is anticipated.

The procedures under § 24:05:26:14 apply for students who have not been determined eligible for special education or special education and related services if an expulsion is anticipated.

§ 13-32-4.3. Enrollment in other school after suspension or expulsion—Duties of sending and receiving schools.
If any student is under suspension or expulsion in a school district, the student may not enroll in any school district until the suspension or expulsion has expired. The superintendent or school administrator of any school district may prohibit a student from enrolling in that school district if the student is under suspension or expulsion in a school in another state or in a nonpublic school in this state. Upon receiving a request for a student's permanent school records from the receiving district, the sending school shall provide the receiving district with written notice of any suspension or expulsion.

If a student is expelled from school as provided in § 13-32-4, the school board may grant the student an early reinstatement allowing the student to return to school before the end of the period of expulsion.

§ 13-32-4.5. Early reinstatement with conditions.
Any early reinstatement granted by a school board pursuant to § 13-31-4.4 may include one or more specific conditions established by the school board that the expelled student must meet, either prior to the granting of the early reinstatement or after the early reinstatement is granted and before the end of the period of expulsion. Any early reinstatement conditions established by the school board for an expelled student shall pertain to the reasons why the student was expelled, and the board shall provide notice of any early reinstatement conditions to the student's parent or guardian or to the student, if the student is at least eighteen years of age or is an emancipated minor, at the time the student is expelled.

If the superintendent of a school district determines that an expelled student has met the early reinstatement conditions established pursuant to § 13-32-4.5 that the student is required to meet before the student may be granted early reinstatement, the superintendent may grant the student early reinstatement and allow the student to return to school.

If a student violates an early reinstatement condition that the student was required to meet after the student's early reinstatement, but before the end of the expulsion period, the superintendent of the school district may revoke the student's early reinstatement. Within five days after revoking an early reinstatement, the superintendent shall provide written notice of the revocation including any early reinstatement condition that was violated by the student to the student's parent or guardian or to the student, if the student is at least eighteen years of age or an emancipated minor.

If a student's early reinstatement is revoked, the student's expulsion shall continue until the end of the original period of expulsion unless the student's expulsion is firearm-related and the original period of expulsion is modified by the superintendent pursuant to § 13-32-4.

The administrative due process procedures established in ARSD 24:07:04 for the protection of students' rights in an expulsion procedure apply to the early reinstatement process established in §§ 13-32-4.4 to 13-32-4.6, inclusive, and the South Dakota Board of Education Standards may promulgate rules pursuant to chapter 1-26 to establish additional procedures for the early reinstatement process, including the development of early reinstatement conditions by school boards.

24:05:26.01:08. Referral to placement committee for expulsion of students.
If a student identified in need of special education or special education and related services pursuant to SDCL 13-37-1 is the subject of proposed expulsion, the superintendent shall refer the matter to the IEP team.

24:05:26:08.02. Authority of hearing officer.
A hearing officer under this article hears and makes a determination regarding an appeal under this chapter. In making the determination under this section, the hearing officer may:

(1) Return the student with a disability to the placement from which the student was removed if the hearing officer determines that the removal was a violation of this chapter or that the student's behavior was a manifestation of the student's disability; or

(2) Order a change of placement of the student with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the student is substantially likely to result in injury to the student or to others.

REGULATIONS

24:05:26:02.01. Change of placement for disciplinary removals.
For purposes of removal of a student with a disability from the student's current educational placement under this chapter, a change of placement occurs if:

(1) The removal is for more than ten consecutive school days; or

South Dakota Compilation of School Discipline Laws and Regulations Page 26
(2) The student is subjected to a series of removals that constitute a pattern because:

(a) They cumulate to more than ten school days in a school year;

(b) Of factors such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another; and

(c) The student's behavior is substantially similar to the student's behavior in previous incidents that resulted in the series of removals.

The public agency determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

24:05:26:02.02. Removals—Ten school days or less.

To the extent removal would be applied to students without disabilities, including alternative settings, school personnel may order the removal of a student with a disability from the student's current placement to an appropriate interim alternative educational setting or another setting, or they may order suspension for not more than ten consecutive school days, for any violation of a code of student conduct. Additional removals of not more than ten consecutive school days in that same school year may be ordered for separate incidents of misconduct if those removals do not constitute a change of placement under § 24:05:26:02.01.

24:05:26:02.03. Required services—No change of placement.

A school district need not provide services during periods of removal under § 24:05:26:02.02 to a student with a disability who has been removed from his or her current placement for ten school days or less in that school year, if services are not provided to a student without disabilities who has been similarly removed. If a student with a disability has been removed from his or her current placement for more than ten school days in that school year, and the removal is not for more than ten consecutive school days and is not a change in placement, the district, for the remainder of the removals, shall provide services to the extent necessary to enable the student to participate in the general curriculum and to progress toward meeting the goals set out in the student's IEP. School personnel, in consultation with at least one of the student's teachers, shall determine the extent to which services are necessary to enable the student to participate in the general curriculum and to progress toward meeting the goals set out in the student's IEP.

24:05:26:08.01. Authority of school personnel—Weapons, drugs, and serious bodily injury.

School personnel may remove a student to an appropriate interim alternative setting for not more than 45 school days, without regard to whether the behavior is determined to be a manifestation of the student's disability, if:

(1) The student carries a weapon to or possesses a weapon at school, on school premises, or at school or to a school function under the jurisdiction of a state or local education agency;

(2) The student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency; or

(3) The student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the state education agency or a school district.

24:05:26:08.02. Authority of hearing officer.

A hearing officer under this article hears and makes a determination regarding an appeal under this chapter. In making the determination under this section, the hearing officer may:
(1) Return the student with a disability to the placement from which the student was removed if the hearing officer determines that the removal was a violation of this chapter or that the student's behavior was a manifestation of the student's disability; or

(2) Order a change of placement of the student with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the student is substantially likely to result in injury to the student or to others. The procedures under this section may be repeated if the school district believes that returning the student to the original placement is substantially likely to result in injury to the student or to others.

24:05:26:09.02. Determination of interim alternative educational setting.
The student's IEP team shall determine the interim alternative educational setting in which a student is placed under §§ 24:05:26:08.01, 24:05:26:02.01, and 24:05:26:09.05.

Bullying, harassment, or hazing

LAWS

If a school district does not have a bullying policy, the school district shall follow the model bullying policy in § 13-32-19 until such time as the school district adopts its own bullying policy. Nothing in §§ 13-32-14 to 13-32-19, inclusive, supplants or preempts an existing school district policy, except that no school district policy prohibiting bullying, whether it is existing or adopted pursuant to §§ 13-32-14 to 13-32-19, inclusive, may contain any protected classes of students.

Bullying is a pattern of repeated conduct that causes physical hurt or psychological distress on one or more students that may include threats, intimidation, stalking as defined in chapter 22-19A, physical violence, theft, destruction of property, any threatening use of data or computer software, written or verbal communication, or conduct directed against a student that:

(1) Places a student in reasonable fear of harm to his or her person or damage to his or her property; and either
(2) Substantially interferes with a student's educational performance; or
(3) Substantially disrupts the orderly operation of a school.

For the purposes of §§ 13-32-14 to 13-32-19, inclusive, bullying also includes retaliation against a student for asserting or alleging an act of bullying.

Each school district policy developed pursuant to §§ 13-32-14 to 13-32-19, inclusive, shall contain the following provisions:

A statement prohibiting bullying and a definition of bullying that includes the definition listed in § 13-32-15;
A description of the type of behavior expected from each student of the school district, and the consequences for a student of the school district who commits an act of bullying;
(3) A procedure for reporting an act of bullying, including provisions that permit a person to anonymously report such an act, although formal disciplinary action may not be based solely on an anonymous report; and
A procedure for the prompt investigation and response to any report of bullying, including a requirement that an investigation be conducted on any alleged incident of bullying committed against a child while the child is aboard a school bus, at a school bus stop, or at a school-sponsored event.

Any school district employee, school volunteer, student, or parent who promptly reports in good faith an act of bullying to the appropriate school district official as designated in the school district's policy, and who makes the report in compliance with the provisions of the school district's policy is immune from any cause of action for damages arising from failure to remedy the reported incident. Moreover, the provisions of §§ 13-32-14 to 13-32-19, inclusive, do not create a cause of action against any school district, school district employee, school volunteer, student, or parent unless there has been substantial noncompliance with the school district's policy resulting in injury to a protected person.
§ 13-32-18. Bullying via computers or electronic devices subject to disciplinary action regardless of time or place.

Neither the physical location nor the time of day of any incident involving the use of computers or other electronic devices is a defense to any disciplinary action taken by a school district for conduct determined to meet the definition of bullying in § 13-32-15.

The model bullying policy pursuant to §§ 13-32-14 to 13-32-19 is as follows:

PROHIBITION OF HARASSMENT, INTIMIDATION, AND BULLYING

The School District is committed to maintaining a constructive, safe school climate that is conducive to student learning and fostering an environment in which all students are treated with respect and dignity. Persistent bullying can severely inhibit a student's ability to learn and may have lasting negative effects on a student's life. The bullying of students by students, staff, or third parties is strictly prohibited and will not be tolerated.

Bullying consists of repeated physical, verbal, non-verbal, written, electronic, or any conduct directed toward a student that is so pervasive, severe, and objectively offensive that it:

(1) Has the purpose of creating or resulting in an intimidating, hostile, or offensive academic environment; or

(2) Has the purpose or effect of substantially or unreasonably interfering with a student's academic performance which deprives the student access to educational opportunities.

Any staff member observing or suspecting bullying toward another individual is required to report the issue to his or her building supervisor.

This policy is in effect while students are on property within the jurisdiction of the School Board; while students are in school-owned or school-operated vehicles; and while students are attending or engaged in school-sponsored activities.

The District will act to investigate all complaints (formal or informal, verbal or written) of bullying. A formal complaint may be submitted to the building principal. Any student engaging in an act of bullying is subject to discipline pursuant to the District's student discipline procedure.

This policy may not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions if the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

A person, whether pupil or not, who intentionally disturbs a public or nonpublic school when in session or who intentionally interferes with or interrupts the proper order or management of a public or nonpublic
school by acts of violence, boisterous conduct, or threatening language, so as to prevent the teacher or any pupil from performing his duty, is guilty of a Class 2 misdemeanor.

Terms used in this section and §§13-32-11 to 13-32-13, inclusive, mean:
(1) "Medication," inhaled bronchodilator or auto-injectable epinephrine, or both;
(2) "Parent," any person standing in parental relation;
(3) "School," any public or nonpublic school;
(4) "Self-administration of prescription medication," a student's discretionary use of prescription asthma or anaphylaxis medication, or both.

Any student with asthma or anaphylaxis may possess and self-administer prescription medication while on school property or at a school-related event or activity if:
(1) The prescription medication has been prescribed for that student as indicated by the prescription label on the medication;

(c) A written statement from the student's physician or other licensed health care provider, signed by the physician or provider, that states:
(i) The student has asthma or anaphylaxis or both, and is capable of self-administering the prescription medication;

The physician's or provider's statement must be kept on file in the office of the school nurse of the school the student attends or, if there is not a school nurse, in the office of the principal of the school the student attends.

If any student uses the medication in a manner other than prescribed, the student may be subject to disciplinary action by the school. However, the disciplinary action may not limit or restrict the student's immediate access to the medication.

If the assessment indicates the need for a higher level of care, the student is required to complete the prescribed program before becoming eligible to participate in extracurricular activities. Upon a second adjudication, conviction, diversion, or suspended imposition of a sentence for possession, use, or distribution of controlled drugs, substances, or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substance as prohibited by § 22-42-15, by a court of competent jurisdiction, that person is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education for one year from the date of adjudication, conviction, diversion, or suspended imposition of sentence. The issuing officer shall notify the child and the child's parent, guardian, or custodian that a hearing on the complaint for a cited violation shall be held before a judicial circuit court judge within ten days of issuance of the summons or on the next available court date and be treated as a confidential juvenile matter. State model policies and implementation support

LAWS

If a school district does not have a bullying policy, the school district shall follow the model bullying policy in § 13-32-19 until such time as the school district adopts its own bullying policy. Nothing in §§ 13-32-14 to 13-32-19, inclusive, supplants or preempts an existing school district policy, except that no school district policy prohibiting bullying, whether it is existing or adopted pursuant to §§ 13-32-14 to 13-32-19, inclusive, may contain any protected classes of students.

Each school district policy developed pursuant to §§ 13-32-14 to 13-32-19, inclusive, shall contain the following provisions:

A statement prohibiting bullying and a definition of bullying that includes the definition listed in § 13-32-15;

A description of the type of behavior expected from each student of the school district, and the consequences for a student of the school district who commits an act of bullying;

(3) A procedure for reporting an act of bullying, including provisions that permit a person to anonymously report such an act, although formal disciplinary action may not be based solely on an anonymous report; and

A procedure for the prompt investigation and response to any report of bullying, including a requirement that an investigation be conducted on any alleged incident of bullying committed against a child while the child is aboard a school bus, at a school bus stop, or at a school-sponsored event.

The model bullying policy pursuant to §§ 13-32-14 to 13-32-19 is as follows:

PROHIBITION OF HARASSMENT, INTIMIDATION, AND BULLYING

The School District is committed to maintaining a constructive, safe school climate that is conducive to student learning and fostering an environment in which all students are treated with respect and dignity. Persistent bullying can severely inhibit a student's ability to learn and may have lasting negative effects on a student's life. The bullying of students by students, staff, or third parties is strictly prohibited and will not be tolerated.

Bullying consists of repeated physical, verbal, non-verbal, written, electronic, or any conduct directed toward a student that is so pervasive, severe, and objectively offensive that it:

(1) Has the purpose of creating or resulting in an intimidating, hostile, or offensive academic environment; or

(2) Has the purpose or effect of substantially or unreasonably interfering with a student's academic performance which deprives the student access to educational opportunities.

Any staff member observing or suspecting bullying toward another individual is required to report the issue to his or her building supervisor.

This policy is in effect while students are on property within the jurisdiction of the School Board; while students are in school-owned or school-operated vehicles; and while students are attending or engaged in school-sponsored activities.
The District will act to investigate all complaints (formal or informal, verbal or written) of bullying. A formal complaint may be submitted to the building principal. Any student engaging in an act of bullying is subject to discipline pursuant to the District's student discipline procedure.

This policy may not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions if the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

Tennessee
Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. LAWS

(a) The commissioner of education, in consultation with the commissioner of safety, shall develop advisory guidelines for LEAs to use in developing safe and secure learning environments in schools. Such guidelines shall emphasize consultation at the local level with appropriate law enforcement authorities.
(b) The department of education may prepare and distribute to LEAs guidelines for incorporating into local staff development and in-service training the materials and speakers necessary to help educators reduce gang and individual violence, to assist in drug and alcohol abuse prevention and to provide educators with the tools for nonintrusive identification of potentially violent individuals in and around schools. The department may, upon request, assist LEAs in developing comprehensive violence, drug and alcohol abuse prevention in-service training programs. Department guidelines shall encourage the sharing of resources, the development of joint or collaborative programs and the coordination of efforts with local health departments, county and city law enforcement agencies and other public agencies providing health, drug, alcohol, gang violence prevention and other related services.
(c) The department may assist LEAs in qualifying for the receipt of federal and state funds that may support local efforts to provide the in-service training programs in this section. The department shall encourage LEAs to provide written materials to assist teachers and parents working to develop a safe and secure learning environment in system schools. Within available resources, the department may provide technical assistance directly to LEAs seeking to expand teacher and student safety programs.
(d) The state board of education, in consultation with the commissioner of safety, shall develop advisory guidelines for the administration, faculty and staff of the Alvin C. York Institute, the School for the Blind and the School for the Deaf to use in developing a safe and secure learning environment at such schools. The guidelines shall emphasize consultation at the local level with appropriate law enforcement authorities.

49-6-4001. Short title.
This part shall be known and may be cited as the "Student and Employee Safe Environment Act of 1996."

49-6-4002. Formulation and administration of behavior and discipline codes.
(a) The governing body of each LEA shall be responsible for formulating a code of acceptable behavior and discipline to apply to the students in each school operated by the LEA.
(b) The director of schools or other administrative head of the LEA shall be responsible for overall implementation and supervision, and each school principal shall be responsible for administration and implementation within that school.
(c) In formulating the behavior and discipline codes, the governing body of each LEA shall seek recommendations from parents, employees, law enforcement personnel and youth-related agencies in the community.

49-6-4003. Code contents.
(a) Each code shall contain the type of behavior expected from each student, the consequences of failure to obey the standards, and the importance of the standards to the maintenance of a safe learning
environment where orderly learning is possible and encouraged. Each code shall address the topics of language used by students, respect for all school employees, fighting, threats, weapons on school property or at school functions, damage to the property or person of others, misuse or destruction of school property, drug or alcohol abuse, the sale or distribution of drugs or alcohol, student conduct on school property, conduct in classes and on school buses and other subjects that the local governing body chooses to include.

(b) Each code shall state that a teacher, principal, school employee or school bus driver may use reasonable force in compliance with § 49-6-4107.

49-6-4004. Uniform and fair application of codes.
The principal of each school shall apply the code uniformly and fairly to each student at the school without partiality or discrimination.

49-6-4005. Different codes for different classes of schools.
The governing body of the LEA may choose to adopt different but consistent codes of behavior and discipline to apply to different classes of schools, such as elementary, middle, junior high and senior high, under its jurisdiction. The codes shall be uniform to the extent of maximum consideration for the safety and well-being of students and employees.

49-6-4101. Short title.
This part shall be known and may be cited as the "School Discipline Act."

49-6-4102. Students accountable for conduct.
Every teacher is authorized to hold every pupil strictly accountable for any disorderly conduct in school or on the playground of the school, during intermission or recess period or on any school bus going to or returning from school. Every school bus driver is authorized to hold every pupil strictly accountable for any disorderly conduct on any school bus going to or returning from school or a school activity.

49-6-4201. Short title.
This part shall be known and may be cited as the "School Security Act of 1981."

49-6-4203. Legislative intent.
(a) It is the intent of the general assembly in enacting this part to secure a safe environment in which the education of the students of this state may occur.

(b) The general assembly recognizes the position of the schools in loco parentis and the responsibility this places on principals and teachers within each school to secure order and to protect students from harm while in their custody.

(c) It is the intent of this part to extend further, rather than limit, the authority of principals and teachers to secure order and provide protection of students within each school.

(d) The general assembly further recognizes that a rising level of violent activity and use of drugs is occurring in some public schools, especially in urban areas, and that these activities threaten the well-being of all students in those schools.

(e) The general assembly further finds that:

(1) The removal of dangerous weapons, drug paraphernalia and drugs from school property is necessary to lessen hazards to students and that removal can only be accomplished by searches of areas of the school buildings or grounds where those materials may be stored;
(2) On occasions when the use of dangerous weapons or drugs has reached a life or health threatening level, searches of students themselves may be necessary to protect the larger student body, and that often the searches must be conducted in emergency situations;

(3) Individual circumstances and local particularities require that individual principals must be relied on to exercise their professionally trained judgments in determining what action is appropriate within this part; and

(4) The presence on school property of students with drugs in their bodies may pose a threat to the safety and well-being of that student and other students, may be disruptive of school classes and other programs and may interfere with the educational opportunities and progress of all students.

49-6-4401. Students accountable for conduct.
Every teacher in the special school district created by § 37-5-119 is authorized to hold every juvenile pupil strictly accountable for any disorderly conduct in school.

49-6-4503. Adoption of policy prohibiting harassment, intimidation, bullying or cyber-bullying by the school district.
(a) Each school district shall adopt a policy prohibiting harassment, intimidation, bullying or cyber-bullying. School districts are encouraged to develop the policy after consultation with parents and guardians, school employees, volunteers, students, administrators and community representatives.

(b) School districts shall include in the policies:

1. A statement prohibiting harassment, intimidation, bullying or cyber-bullying;
2. A definition of harassment, intimidation, bullying or cyber-bullying;
3. A description of the type of behavior expected from each student;
4. A statement of the consequences and appropriate remedial action for a person who commits an act of harassment, intimidation, bullying or cyber-bullying;
5. A procedure for reporting an act of harassment, intimidation, bullying or cyber-bullying, including a provision that permits a person to report an act of harassment, intimidation, bullying or cyber-bullying anonymously. Nothing in this section may be construed to permit formal disciplinary action solely on the basis of an anonymous report;
6. A procedure for the prompt and immediate investigation when an act of harassment, intimidation, bullying, or cyber-bullying is reported to the principal, the principal's designee, teacher, or school counselor. The principal or the principal's designee shall initiate the investigation within forty-eight (48) hours of receipt of the report, unless the need for more time is appropriately documented, and the principal or the principal's designee shall initiate an appropriate intervention within twenty (20) calendar days of receipt of the report, unless the need for more time is appropriately documented;
7. A statement of the manner in which a school district shall respond after an act of harassment, intimidation, bullying or cyber-bullying is reported, investigated and confirmed;
8. A statement of the consequences and appropriate remedial action for a person found to have committed an act of harassment, intimidation, bullying or cyber-bullying;

A statement of the consequences and appropriate remedial action for a person found to have falsely accused another of having committed an act of harassment, intimidation, bullying or cyber-bullying as a means of reprisal or retaliation or as a means of harassment, intimidation, bullying or cyber-bullying;
(11) A statement of how the policy is to be publicized within the district, including a notice that the policy applies to behavior at school-sponsored activities;

(12) The identification by job title of school officials responsible for ensuring that the policy is implemented;

(13) A procedure for discouraging and reporting conduct aimed at defining a student in a sexual manner or conduct impugning the character of a student based on allegations of sexual promiscuity; and

(14) A procedure for a referral for appropriate counseling and support services for students involved in an act of harassment, intimidation, bullying, or cyber-bullying, when deemed necessary by the principal. The counseling and support services may be conducted by school counseling personnel who are appropriately trained, such as psychologists, social workers, school counselors, or any other personnel or resources available.

49-6-4504. Adoption of policy prohibiting harassment, intimidation, bullying or cyber-bullying by LEA.

(a) Each LEA shall adopt a policy prohibiting harassment, intimidation, bullying or cyber-bullying and transmit a copy of the policy to the commissioner of education by January 1, 2006.

(b) Each LEA is encouraged to review the policy prohibiting harassment, intimidation, bullying, or cyber-bullying at least once every three (3) years. Each LEA shall transmit a copy of any changes in the policy to the commissioner in a timely manner.

The use of reasonable or justifiable force, as defined in §§ 39-11-603, 39-11-609, 39-11-610, 39-11-612, 39-11-613, 39-11-614, 39-11-621, and 39-11-622, if required to accomplish this task due to the unwillingness of the student to cooperate, is allowed. If steps beyond the use of reasonable or justifiable force are required, the student shall be allowed to remain in place until such a time as local law enforcement officers or school resource officers can be summoned to relocate the student or take the student into custody until such a time as a parent or guardian can retrieve the student. This policy shall also cover teachers' authorization to intervene in a physical altercation between two (2) or more students, or between a student and LEA employees using reasonable or justifiable force upon a student, if necessary to end the altercation by relocating the student to another location.
(b) This policy shall be in effect on school property, as well as at official school functions, including, but not limited to, sporting events and approved field trips, taking place away from the local school property. Those covered by this policy shall include LEA employees who are directly responsible for the student's education or who otherwise interact with the student on a professional basis while acting within the scope of their assigned duties, including, but not limited to, administrators, teachers, school support staff, bus drivers, cafeteria workers, and school resource officers.
(c) The policy shall require a teacher to file a brief report with the principal detailing the situation that required the relocation of the student. Either the report shall be kept in a student discipline file and shall not become a part of the student's permanent record or it shall be filed in the student's permanent record, if the student's behavior violated the LEA's zero tolerance policy. The student is then subject to additional disciplinary action that may include suspension or expulsion from the school. The principal or the principal's designee shall notify the teacher involved of the actions taken to address the behavior of the relocated student.
(d) Each principal shall fully support the authority of every teacher in the principal's school to relocate a student under this section. Each school principal shall implement the policies and procedures of the local board of education relating to the authority of every teacher to relocate a student and shall disseminate such policies and procedures to the students, faculty, staff, and parents or guardian of students. The policy shall comply with state and federal laws regarding the placements of students.

(a) The LEA and the local law enforcement agency shall establish and maintain an orientation and training program designed to familiarize school principals with this part and with local policies and procedures for implementing and enforcing this part.

(b) The LEA shall provide parents and students with reasonable notice of the local policies and procedures.

49-6-4213. Testing of students for drugs -- Referral information and assistance for students testing positive.
(a) (1) A student may be subject to testing for the presence of drugs in the student's body in accordance with this section and the policy of the LEA if there are reasonable indications to the principal that such student may have used or be under the influence of drugs. The need for testing may be brought to the attention of the principal through a search authorized by § 49-6-4204 or § 49-6-4205, observed or reported use of drugs by the student on school property, or other reasonable information received from a teacher, staff member or other student. All of the following standards of reasonableness shall be met:
(A) A particular student has violated school policy;
(B) The test will yield evidence of the violation of school policy or will establish that a student either
was impaired due to drug use or did not use drugs;
(C) The test is in pursuit of legitimate interests of the school in maintaining order, discipline, safety,
supervision and education of students;
(D) The test is not conducted for the sole purpose of discovering evidence to be used in a criminal
prosecution; and
(E) Tests shall be conducted in the presence of a witness. Persons who shall act as witnesses shall
be designated in the policy of the local board of education.

(2) A student participating in voluntary extracurricular activities may be subject to random drug testing in
the absence of individualized reasonable suspicion provided the standards set forth in subdivisions
(a)(1)(B)-(E) are met.

(b) As used in this section and § 49-6-4203, "drugs" means:
(1) Any scheduled drug as specified in §§ 39-17-405 -- 39-17-416; and
(2) Alcohol.

(c) Before a drug testing program is implemented in any LEA, the local board of education in that LEA
shall establish policies, procedures and guidelines to implement this section within that LEA. The state
board of education shall prepare a model policy, procedure and guidelines that may be adopted by local
boards of education.

(d) Tests shall be conducted by properly trained persons in circumstances that ensure the integrity,
validity and accuracy of the test results but are minimally intrusive and provide maximum privacy to the
tested student. All tests shall be performed by an accredited laboratory. Specimens confirmed as positive
shall be retained for at least ten (10) days for possible retesting or reanalysis.

(e) Students shall be advised in writing at the time of their enrollment that they are subject to testing.
Notice to each student shall include grounds for testing, the procedures that will be followed and possible
penalties. Students shall be advised of their right to refuse to undergo drug testing and the consequences
of refusal.

(f) (1) A parent of the student or a person legally responsible for the student shall be notified before any
drug test is administered to the student.

(2) If an LEA adopts a policy permitting random drug testing of students in voluntary extracurricular
activities, then, prior to a student participating in an extracurricular activity, the LEA shall notify the
parents and guardians of any such student that the student may be subjected to random drug testing. A
parent or guardian of a student participating in a volunteer extracurricular activity shall provide written
consent for random drug testing prior to the student participating in the voluntary extracurricular activity.

(g) The LEA shall pay the cost of any testing required under this section.

(h) In any school where LEA or school policy allows tests provided for by this section, in-service training
of principals and teachers will be conducted in signs and symptoms of student drug use and abuse and in
the school policy for handling of these students. The department of mental health and substance abuse
services shall cause qualified trainers to be available to the schools to conduct this training.

(i) Test reports from laboratories shall include the specimen number assigned by the submitting LEA, the
drug testing laboratory accession number and results of the drug tests. Certified copies of all analytical
results shall be available from the laboratory when requested by the LEA or the parents of the student.
The laboratory shall not be permitted to provide testing results verbally by telephone.

(j) (1) All specimens testing negative on the initial screening test or negative on the confirmatory test shall
be reported as negative.
(2) If a student is tested and the results of the test are negative, all records of the test, request for a test or indication a student has been tested shall be expunged from all records, including school records.

(k) (1) If a student is tested in a drug testing program and the results of the test are positive, all records of the test, request for a test or indication a student has been tested shall be confidential student records in accordance with § 10-7-504(a)(4)(A).

(2) No student who is tested under a random drug testing program and who tests positive shall be suspended or expelled from school solely as the result of the positive test.

(3) The principal or school counselor of the school in which a student who tests positive in a drug testing program is enrolled shall provide referral information to the student and to the student's parents or guardian. The information shall include information on inpatient, outpatient and community-based drug and alcohol treatment programs.

(l) Each LEA participating in the drug testing of students authorized in subsection (a) of this section shall promulgate policies and procedures to ensure that those students testing positive receive the assistance needed. The assistance shall include an assessment to determine the severity of the student's alcohol and drug problem and a recommendation for referral to intervention or treatment resources as appropriate. Nothing in this section shall be construed to require LEAs to administer drug tests to students. Any system that elects to participate shall supply the testing materials and any subsequent counseling within existing local funds.

(m) Malicious use of authority granted by this section may be grounds for dismissal of the person so acting.

Out-of-School and Exclusionary Discipline: Suspension, Expulsion, Restraint and Seclusion, and Alternative Placements

Grounds for possible suspension or expulsion

LAWS

49-2-203. Duties and powers.
(a) It is the duty of the local board of education to:
   (7) Suspend, dismiss or alternatively place pupils, when the progress, safety or efficiency of the school makes it necessary or when disruptive, threatening or violent students endanger the safety of other students or school system employees;

49-6-3401. Suspension of students -- Expulsion of students -- Exception for self-defense.
(a) Any principal, principal-teacher or assistant principal of any public school in this state is authorized to suspend a pupil from attendance at the school, including its sponsored activities, or from riding a school bus, for good and sufficient reasons. Good and sufficient reasons for suspension include, but are not limited to:
   (1) Willful and persistent violation of the rules of the school;
   (2) Immoral or disreputable conduct or vulgar or profane language;
   (3) Violence or threatened violence against the person of any personnel attending or assigned to any public school;
   (4) Willful or malicious damage to real or personal property of the school, or the property of any person attending or assigned to the school;
   (5) Inciting, advising or counseling of others to engage in any of the acts enumerated in subdivisions (a)(1)-(4);
   (6) Marking, defacing or destroying school property;
   (7) Possession of a pistol, gun or firearm on school property;
   (8) Possession of a knife and other weapons, as defined in § 39-17-1301 on school property;

   (10) Unlawful use or possession of barbital or legend drugs, as defined in § 53-10-101;
   (11) One (1) or more students initiating a physical attack on an individual student on school property or at a school activity, including travel to and from school or a school activity;
   (12) Making a threat, including a false report, to use a bomb, dynamite, any other deadly explosive or destructive device, including chemical weapons, on school property or at a school sponsored event;
   (13) Any other conduct prejudicial to good order or discipline in any public school; and
   (14) Off campus criminal behavior that results in the student being legally charged with an offense that would be classified as a felony if the student was charged as an adult or if adjudicated delinquent for an offense that would be classified as a felony if the student was an adult, or if the student was convicted of a felony, and the student’s continued presence in school poses a danger to persons or property or disrupts the educational process. Notwithstanding § 37-1-131 or any other law to the contrary, the principal of the school in which the student is enrolled and the director of schools shall determine the appropriate educational assignment for the student released for readmission.
(b) Any principal, principal-teacher or assistant principal may suspend any pupil from attendance at a specific class, classes or school-sponsored activity without suspending the pupil from attendance at school pursuant to an in-school suspension policy adopted by the local board of education. Good and sufficient reasons for in-school suspension include, but are not limited to, behavior:

(A) That adversely affects the safety and well-being of other pupils;

(B) That disrupts a class or school sponsored activity; or

(C) Prejudicial to good order and discipline occurring in class, during school-sponsored activities or on the school campus.

(2) In-school suspension policies shall provide that pupils given an in-school suspension in excess of one (1) day from classes shall attend either special classes attended only by students guilty of misconduct or be placed in an isolated area appropriate for study. Students given in-school suspension shall be required to complete academic requirements.

(c) Except in an emergency, no principal, principal-teacher or assistant principal shall suspend any student until that student has been advised of the nature of the student's misconduct, questioned about it and allowed to give an explanation.

(2) Upon suspension of any student other than for in-school suspension of one (1) day or less, the principal shall, within twenty-four (24) hours, notify the parent or guardian and the director of schools or the director of schools' designee of:

(A) The suspension, which shall be for a period of no more than ten (10) days;

(B) The cause for the suspension; and

(C) The conditions for readmission, which may include, at the request of either party, a meeting of the parent or guardian, student and principal.

(3) If the suspension is for more than five (5) days, the principal shall develop and implement a plan for improving the behavior, which shall be made available for review by the director of schools upon request.

(4) If, at the time of the suspension, the principal, principal-teacher or assistant principal determines that an offense has been committed that would justify a suspension for more than ten (10) days, the person may suspend a student unconditionally for a specified period of time or upon such terms and conditions as are deemed reasonable.

(B) The principal, principal-teacher or assistant principal shall immediately give written or actual notice to the parent or guardian and the student of the right to appeal the decision to suspend for more than ten (10) days. All appeals must be filed, orally or in writing, within five (5) days after receipt of the notice and may be filed by the parent or guardian, the student or any person holding a teaching license who is employed by the school system if requested by the student.

(C) The appeal from this decision shall be to the board of education or to a disciplinary hearing authority appointed by the board. The disciplinary hearing authority, if appointed, shall consist of at least one (1) licensed employee of the LEA, but no more than the number of members of the local board.

(D) The hearing shall be held no later than ten (10) days after the beginning of the suspension. The local board of education or the disciplinary hearing authority shall give written notice of the time and place of the hearing to the parent or guardian, the student and the school official designated in
subdivision (c)(4)(A) who ordered the suspension. Notice shall also be given to the LEA employee referred to in subdivision (c)(4)(B) who requests a hearing on behalf of a suspended student.

(5) After the hearing, the board of education or the disciplinary hearing authority may affirm the decision of the principal, order removal of the suspension unconditionally or upon such terms and conditions as it deems reasonable, assign the student to an alternative program or night school or suspend the student for a specified period of time.

(6) If the decision is determined by a disciplinary hearing authority, a written record of the proceedings, including a summary of the facts and the reasons supporting the decision, shall be made by the disciplinary hearing authority. The student, principal, principal-teacher or assistant principal may, within five (5) days of the decision, request review by the board of education; provided, that local school board policy may require an appeal to the director of schools prior to a request for review to the board. Absent a timely appeal, the decision shall be final. The board of education, based upon a review of the record, may grant or deny a request for a board hearing and may affirm or overturn the decision of the hearing authority with or without a hearing before the board; provided, that the board may not impose a more severe penalty than that imposed by the hearing authority without first providing an opportunity for a hearing before the board. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher or assistant principal, then, notwithstanding any provision of the open meetings laws compiled in title 8, chapter 44, or other law to the contrary, the hearing shall be closed to the public, unless the student or student's parent or guardian requests in writing within five (5) days after receipt of written notice of the hearing that the hearing be conducted as an open meeting. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher, or assistant principal that is closed to the public, then the board shall not conduct any business, discuss any subject or take a vote on any matter other than the appeal to be heard. Nothing in this subdivision (c)(6) shall act to exclude the department of children's services from the disciplinary hearings when the department is exercising its obligations under § 37-1-140. The action of the board of education shall be final.

(d) In the event the suspension occurs during the last ten (10) days of any term or semester, the pupil may be permitted to take final examinations or submit required work that is necessary to complete the course of instruction for that semester, subject to the action of the principal, or the final action of the board of education upon any appeal from an order of a principal continuing a suspension.

(e) Students under in-school suspension shall be recorded as constituting a part of the public school attendance in the same manner as students who attend regular classes.

(f) Nothing in this title shall require an LEA to enroll a student who is under suspension or expelled in an LEA either in Tennessee or another state. The director of schools for the school system in which the suspended student requests enrollment shall make a recommendation to the local board of education to approve or deny the request. The recommendation shall occur only after investigation of the facts surrounding the suspension from the former school system. If the recommendation is to deny admission and if the local board approves the director of schools' recommendation, the director of schools shall, on behalf of the board of education, notify the commissioner of the decision. Nothing in this subsection (f) shall affect children in state custody or their enrollment in any LEA. Any LEA that accepts enrollment of a student from another LEA may dismiss the student if it is determined subsequent to enrollment that the student had been suspended or expelled by the other LEA.

(g) Notwithstanding this section or any other law to the contrary, a pupil determined to have brought to school or to be in unauthorized possession on school property of a firearm, as defined in 18 U.S.C. § 921, shall be expelled for a period of not less than one (1) calendar year, except that the director may modify this expulsion on a case-by-case basis. In addition to the other provisions of this part, a student committing aggravated assault as defined in § 39-13-102 upon any teacher, principal, administrator, any
other employee of an LEA or school resource officer, or unlawfully possessing any drug including any controlled substance, as defined in §§ 39-17-403 -- 39-17-415, controlled substance analogue, as defined by § 39-17-454, or legend drug, as defined by § 53-10-101, shall be expelled for a period of not less than one (1) calendar year, except that the director may modify this expulsion on a case-by-case basis. For purposes of this subsection (g), "expelled" means removed from the pupil's regular school program at the location where the violation occurred or removed from school attendance altogether, as determined by the school official. Nothing in this section shall be construed to prohibit the assignment of such students to an alternative school. Disciplinary policies and procedures for all other student offenses, including terms of suspensions and expulsions, shall be determined by local board of education policy.

(h) The commissioner of education shall report on a semi-annual basis to the education committee of the senate and the education administration and planning committee of the house of representatives regarding disciplinary actions in Tennessee schools. The reports shall include the reason for the disciplinary action, the number of such students suspended or expelled and the number of such students who have been placed in an alternative educational setting. Data shall be sorted by school as well as by various demographic factors, including grade, race and sex.

(i) Notwithstanding subsection (a) or (b) or any other law to the contrary, if a pupil is determined, via a fair and thorough investigation made by the principal or the principal's appointed representative, to have acted in self-defense under a reasonable belief that the student, or another to whom the student was coming to the defense of, may have been facing the threat of imminent danger of death or serious bodily injury, which the student honestly believed to be real at that time, then, at the principal's recommendation, the student may not face any disciplinary action.

(B) The principal, principal-teacher or assistant principal shall immediately give written or actual notice to the parent or guardian and the student of the right to appeal the decision to suspend for more than ten (10) days. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher or assistant principal, then, notwithstanding any provision of the open meetings laws compiled in title 8, chapter 44, or other law to the contrary, the hearing shall be closed to the public, unless the student or student's parent or guardian requests in writing within five (5) days after receipt of written notice of the hearing that the hearing be conducted as an open meeting. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher, or assistant principal that is closed to the public, then the board shall not conduct any business, discuss any subject or take a vote on any matter other than the appeal to be heard. Nothing in this subdivision (c)(6) shall act to exclude the department of children's services from the disciplinary hearings when the department is exercising its obligations under § 37-1-140. The action of the board of education shall be final.

(d) In the event the suspension occurs during the last ten (10) days of any term or semester, the pupil may be permitted to take final examinations or submit required work that is necessary to complete the course of instruction for that semester, subject to the action of the principal, or the final action of the board of education upon any appeal from an order of a principal continuing a suspension.

(i) Notwithstanding subsection (a) or (b) or any other law to the contrary, if a pupil is determined, via a fair and thorough investigation made by the principal or the principal's appointed representative, to have acted in self-defense under a reasonable belief that the student, or another to whom the student was coming to the defense of, may have been facing the threat of imminent danger of death or serious bodily injury, which the student honestly believed to be real at that time, then, at the principal's recommendation, the student may not face any disciplinary action.

(13) Any other conduct prejudicial to good order or discipline in any public school; and
(14) Off campus criminal behavior that results in the student being legally charged with an offense that would be classified as a felony if the student was charged as an adult or if adjudicated delinquent for an offense that would be classified as a felony if the student was an adult, or if the student was convicted of a felony, and the student's continued presence in school poses a danger to persons or property or disrupts the educational process. Notwithstanding § 37-1-131 or any other law to the contrary, the principal of the school in which the student is enrolled and the director of schools shall determine the appropriate educational assignment for the student released for readmission.

(b)

(1) Any principal, principal-teacher or assistant principal may suspend any pupil from attendance at a specific class, classes or school-sponsored activity without suspending the pupil from attendance at school pursuant to an in-school suspension policy adopted by the local board of education. Good and sufficient reasons for in-school suspension include, but are not limited to, behavior:
   (A) That adversely affects the safety and well-being of other pupils;
   (B) That disrupts a class or school sponsored activity; or
   (C) Prejudicial to good order and discipline occurring in class, during school-sponsored activities or on the school campus.

(2) In-school suspension policies shall provide that pupils given an in-school suspension in excess of one (1) day from classes shall attend either special classes attended only by students guilty of misconduct or be placed in an isolated area appropriate for study. Students given in-school suspension shall be required to complete academic requirements.

(c)

(1) Except in an emergency, no principal, principal-teacher or assistant principal shall suspend any student until that student has been advised of the nature of the student's misconduct, questioned about it and allowed to give an explanation.

(2) Upon suspension of any student other than for in-school suspension of one (1) day or less, the principal shall, within twenty-four (24) hours, notify the parent or guardian and the director of schools or the director of schools' designee of:
   (A) The suspension, which shall be for a period of no more than ten (10) days;
   (B) The cause for the suspension; and
   (C) The conditions for readmission, which may include, at the request of either party, a meeting of the parent or guardian, student and principal.
(3) If the suspension is for more than five (5) days, the principal shall develop and implement a plan for improving the behavior, which shall be made available for review by the director of schools upon request.

(4)

(A) If, at the time of the suspension, the principal, principal-teacher or assistant principal determines that an offense has been committed that would justify a suspension for more than ten (10) days, the person may suspend a student unconditionally for a specified period of time or upon such terms and conditions as are deemed reasonable.

(B) The principal, principal-teacher or assistant principal shall immediately give written or actual notice to the parent or guardian and the student of the right to appeal the decision to suspend for more than ten (10) days. All appeals must be filed, orally or in writing, within five (5) days after receipt of the notice and may be filed by the parent or guardian, the student or any person holding a teaching license who is employed by the school system if requested by the student.

(C) The appeal from this decision shall be to the board of education or to a disciplinary hearing authority appointed by the board. The disciplinary hearing authority, if appointed, shall consist of at least one (1) licensed employee of the LEA, but no more than the number of members of the local board.

(D) The hearing shall be held no later than ten (10) days after the beginning of the suspension. The local board of education or the disciplinary hearing authority shall give written notice of the time and place of the hearing to the parent or guardian, the student and the school official designated in subdivision (c)(4)(A) who ordered the suspension. Notice shall also be given to the LEA employee referred to in subdivision (c)(4)(B) who requests a hearing on behalf of a suspended student.

(5) After the hearing, the board of education or the disciplinary hearing authority may affirm the decision of the principal, order removal of the suspension unconditionally or upon such terms and conditions as it deems reasonable, assign the student to an alternative program or night school or suspend the student for a specified period of time.

(6) If the decision is determined by a disciplinary hearing authority, a written record of the proceedings, including a summary of the facts and the reasons supporting the decision, shall be made by the disciplinary hearing authority. The student, principal, principal-teacher or assistant principal may, within five (5) days of the decision, request review by the board of education; provided, that local school board policy may require an appeal to the director of schools prior to a request for review to the board. Absent a timely appeal, the decision shall be final. The board of education, based upon a review of the record, may grant or deny a request for a board hearing and may affirm or overturn the decision of the hearing authority with or without a hearing before the board; provided, that the board may not impose a more severe penalty than that imposed by the hearing authority without first providing an opportunity for a hearing before the board. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher or assistant principal, then, notwithstanding any provision of the open meetings laws compiled in title 8, chapter 44, or other law to the contrary, the hearing shall be closed to the public, unless the student or student's parent or guardian requests in writing within five (5) days after receipt of written notice of the hearing that the hearing be conducted as an open meeting. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher, or assistant principal that is closed to the public, then the board shall not conduct any business, discuss any subject or take a vote on any matter other than the appeal to be heard. Nothing in this subdivision (c)(6) shall act to exclude the department of children's services from the disciplinary hearings when the department is exercising its obligations under § 37-1-140. The action of the board of education shall be final.
(d) In the event the suspension occurs during the last ten (10) days of any term or semester, the pupil may be permitted to take final examinations or submit required work that is necessary to complete the course of instruction for that semester, subject to the action of the principal, or the final action of the board of education upon any appeal from an order of a principal continuing a suspension.

(e) Students under in-school suspension shall be recorded as constituting a part of the public school attendance in the same manner as students who attend regular classes.

(f) Nothing in this title shall require an LEA to enroll a student who is under suspension or expelled in an LEA either in Tennessee or another state. The director of schools for the school system in which the suspended student requests enrollment shall make a recommendation to the local board of education to approve or deny the request. The recommendation shall occur only after investigation of the facts surrounding the suspension from the former school system. If the recommendation is to deny admission and if the local board approves the director of schools' recommendation, the director of schools shall, on behalf of the board of education, notify the commissioner of the decision. Nothing in this subsection (f) shall affect children in state custody or their enrollment in any LEA. Any LEA that accepts enrollment of a student from another LEA may dismiss the student if it is determined subsequent to enrollment that the student had been suspended or expelled by the other LEA.

(g) Notwithstanding this section or any other law to the contrary, a pupil determined to have brought to school or to be in unauthorized possession on school property of a firearm, as defined in 18 U.S.C. § 921, shall be expelled for a period of not less than one (1) calendar year, except that the director may modify this expulsion on a case-by-case basis. In addition to the other provisions of this part, a student committing aggravated assault as defined in § 39-13-102 upon any teacher, principal, administrator, any other employee of an LEA or school resource officer, or unlawfully possessing any drug including any controlled substance, as defined in §§ 39-17-403 -- 39-17-415, controlled substance analogue, as defined by § 39-17-454, or legend drug, as defined by § 53-10-101, shall be expelled for a period of not less than one (1) calendar year, except that the director may modify this expulsion on a case-by-case basis. For purposes of this subsection (g), "expelled" means removed from the pupil's regular school program at the location where the violation occurred or removed from school attendance altogether, as determined by the school official. Nothing in this section shall be construed to prohibit the assignment of such students to an alternative school. Disciplinary policies and procedures for all other student offenses, including terms of suspensions and expulsions, shall be determined by local board of education policy.

(h) The commissioner of education shall report on a semi-annual basis to the education committee of the senate and the education administration and planning committee of the house of representatives regarding disciplinary actions in Tennessee schools. The reports shall include the reason for the disciplinary action, the number of such students suspended or expelled and the number of such students who have been placed in an alternative educational setting. Data shall be sorted by school as well as by various demographic factors, including grade, race and sex.

(i) Notwithstanding subsection (a) or (b) or any other law to the contrary, if a pupil is determined, via a fair and thorough investigation made by the principal or the principal's appointed representative, to have acted in self-defense under a reasonable belief that the student, or another to whom the student was coming to the defense of, may have been facing the threat of imminent danger of death or serious bodily injury, which the student honestly believed to be real at that time, then, at the principal's recommendation, the student may not face any disciplinary action.

REGULATIONS

0520-01-02-.16 Reporting attendance relative to disciplinary actions.

(1) For the purposes of recording and coding student absences from school because of disciplinary actions, the following definitions shall apply:
(a) “Suspension” shall be defined as dismissal from attendance at school for any reason not more than ten (10) consecutive days. The student on suspension shall be included in ADM and will continue to be counted for funding purposes. Multiple suspensions shall not run consecutively nor shall multiple suspensions be applied to avoid expulsion from school.

(b) “Remand” shall be defined as assignment to an alternative school. The student so assigned shall be included in ADA/ADM and will continue to be counted as present for funding purposes. The State Department of Education shall establish a set of codes to be used for reporting reasons for students on remand to an alternative school.

(c) “Expulsion” shall be defined as removal from attendance for more than ten (10) consecutive days or more than fifteen (15) days in a month of school attendance. Multiple suspensions that occur consecutively shall constitute expulsion. The school district shall not be eligible to receive funding for an expelled student.

(2) Students who qualify for services under the Individuals with Disabilities Education Act, 20 U.S.C. 1400, et seq., and 34 C.F.R. 300 et seq., may be suspended, remanded, or expelled only within the provisions of said acts. Removals from school for students receiving services under the act shall not be applied in such a manner so as to constitute a pattern of exclusion of the student nor shall any change of placement occur absent the application of procedural safeguards as defined in the act.

(3) The parents or legal guardians of students who are suspended or expelled in accordance with the provisions of T.C.A. 49-6-3401 shall receive notices provided for therein.

Use of restraint and seclusion

LAWS

49-10-1301. Short title.
This part shall be known and may be cited as the "Special Education Behavioral Supports Act."

49-10-1302. Purpose of part.
The purposes of this part are:

(1) To ensure that every student receiving special education services is free from the unreasonable, unsafe and unwarranted uses of isolation and restraint practices;

(2) To encourage the use of positive behavioral interventions and support methods in schools;

(3) To develop properly trained staff in order to promote positive behavioral supports that reduce dependence on isolation and restraint practices; and

(4) To ensure that teachers of students receiving special education services are properly trained to protect the student, teacher and others from physical harm, if isolation or restraint is necessary.

49-10-1303. Part definitions.
For the purposes of this part, unless the context otherwise requires:

(1) "Behavior intervention training program" means a training program in positive behavioral supports, crisis intervention and the safe use of restraint and isolation;

(2) "Chemical restraint" means a medication that is prescribed to restrict a student's freedom of movement for the control of extreme violent physical behavior. Chemical restraints are medications used in addition to, or in replacement of, a student's regular drug regimen to control extreme violent physical behavior. The medications that comprise the student's regular medical regimen, including PRN
medications, are not considered chemical restraints, even if their purpose is to treat ongoing behavioral symptoms;

(3) "Emergency situation" means that a child's behavior poses a threat to the physical safety of the student or others nearby;

(4) "Isolation" or "seclusion":
   (A) Means the confinement of a student alone in a room with or without a door, or other enclosed area or structure pursuant to § 49-10-1305(g) where the student is physically prevented from leaving; and
   (B) Does not include time-out, a behavior management procedure in which the opportunity for positive reinforcement is withheld, contingent upon the demonstration of undesired behavior; provided, that time-out may involve the voluntary separation of an individual student from others;

(5) "Isolation room" means any space, structure, or area pursuant to § 49-10-1305(g) used to isolate a student;

(6) "Mechanical restraint" means the application of a mechanical device, material or equipment attached or adjacent to the student's body, including ambulatory restraints, which the student cannot easily remove and that restrict freedom of movement or normal access to the student's body. Mechanical restraint does not include the use of restraints for medical immobilization, adaptive support, or medical protection;

(7) "Noxious substance" means the use of any defense spray or substance as defined by departmental rule;

(8) "Physical holding restraint" means the use of body contact by school personnel with a student to restrict freedom of movement or normal access to the student's body;

(9) "Positive behavioral supports" means a systematic approach using evidence-based practices to improve school environments, and to prevent and respond to problem behavior that:
   (A) Is proactive and instructional, rather than reactive and punitive;
   (B) Operates on the following three (3) levels:
      (i) Individual;
      (ii) Group or classroom; and
      (iii) The whole school;

(b) Individualized education programs that provide for the use of restraint or isolation in emergency situations shall also contain a data driven functional behavior assessment and a plan for modification of the behavior developed and implemented by a qualified team of professionals.

(c) In the event that restraint or isolation is imposed on a student, it shall be imposed by:
(1) School personnel who have been certified for completing a behavior intervention training program; or

(2) Other school personnel when trained personnel are not immediately available.

(d) (1) If school personnel impose restraints or isolation in an emergency situation, the school shall immediately contact appropriate school personnel who are designated under department rules to authorize the isolation or restraint. Such school personnel authorized by department rules shall see and evaluate the student's condition within a reasonable time after the intervention and the student's parent or guardian shall be notified, orally or by written or printed communication, the same day the isolation or restraint was used. School personnel shall be held harmless for failure to notify if reasonable effort has been made to notify the student's parent or guardian in compliance with this subdivision (d)(1).

(2) If the student's individualized education program does not provide for the use of isolation or restraint for the behavior precipitating such action or if school personnel are required to use isolation or restraint over an extended period of time as determined by department rules, then an individual education program meeting shall be convened within ten (10) days following the use of the isolation or restraint. If the behavior precipitating such action also warrants a change of placement, the child will have all rights provided under applicable state and federal law.

(3) (A) School personnel may report a suspected crime by calling a law enforcement official;

(B) School personnel may file a juvenile petition against a student receiving special education, only after conducting a manifestation determination that results in a determination that the behavior that resulted in the act requiring disciplinary action was not caused by the student's disability; or

(C) A school resource officer (SRO), as defined by § 49-6-4202, may, upon witnessing an offense, take the student into custody.

(e) (1) School personnel who must isolate or restrain a student receiving special education services, as defined by § 49-10-102, shall report the incident to the school principal or the principal's designee who shall record the use of the isolation or restraint and the facts surrounding such use. The state board of education shall promulgate rules that mandate a standard reporting format to be used by LEAs.

(2) Whenever possible, an additional school staff member should serve as an observer to any act of physical restraint performed on a student to monitor the health and safety of all involved. School personnel shall maintain a continuous direct line of sight to a student who is in isolation to monitor the health and well-being of the student.

(f) To the extent possible within the local education agency's funds, the local board of education should address § 49-6-3004(c)(1) by incorporating the following components into its behavior intervention training program:

(b) Administering a noxious substance to a student receiving special education services, as defined by § 49-10-102, is prohibited.

(c) The use of any mechanical restraint on any student receiving special education services, as defined by § 49-10-102, is prohibited.

(e) (1) The use of isolation or physical holding restraint as a means of coercion, punishment, convenience or retaliation on any student receiving special education services, as defined by § 49-10-102, is prohibited.

(2) Removing or disabling any equipment or device that a student requires, including, but not limited to, a power wheelchair, brace, augmentative communication device, or walker, as a means of coercion, punishment, convenience, or retaliation on any student receiving special education services, as defined by § 49-10-102, is prohibited.

(3)(A) The use of physical holding restraint in the following circumstances is not prohibited:

(i) The brief holding by an adult in order to calm or comfort;

(ii) The minimum contact necessary to physically escort a student from one area to another;

(iii) Assisting a student in completing a task or response if the student does not resist, or resistance is minimal in intensity or duration; or

(iv) Holding a student for a brief time in order to prevent any impulsive behavior that threatens the student's immediate safety.

(B) The school is not required to notify the student's parent or guardian pursuant to § 49-10-1304 in any of the circumstances listed in subdivision (e)(3)(A).

(f) The use of a locked door, or any physical structure, mechanism, or device that substantially accomplishes the function of locking a student in a room, structure, or area, is prohibited.

(2) Free of any condition that could be a danger to the student;

(3) Well ventilated and temperature controlled;

49-10-1306. Promulgation of rules and regulations.

(a) Each school shall maintain all records of isolation and restraint.
(b) On a semiannual basis, using existing student-level data collection systems to the extent feasible, each school shall submit a report to the local education agency that includes:

1. The number of incidents involving the use of isolation and restraint since the previous semiannual report;
2. The number of instances in which the school personnel imposing physical restraint or isolation were not trained and certified;
3. Any injuries, deaths, or property damage that occurred;
4. The timeliness of parental notification; and

(c) The local education agency shall use the information obtained from records of isolation and restraint in developing its behavior intervention training program.

(d) The local education agency shall submit information to the department of education each year on the use of isolation and restraint in the school district.

(e) Annually, this information shall be reported to the state advisory council for the education of students with disabilities established pursuant to § 49-10-105. This information must also be made readily available to the public. The council shall use this information to report annually to the state board of education with recommendations to reduce the use of isolation and restraint in public education programs. The state board of education shall use these recommendations as well as data, documentation and reports to establish policy or strategies or both to reduce or eliminate the use of isolation and restraint in schools.

(f) The state board of education, in consultation with the departments of education, mental health and substance abuse services, intellectual and developmental disabilities, and children's services, shall promulgate rules and regulations concerning the use of isolation or restraint with students who receive special education services so that isolation or restraint is not used when such procedures are unsafe, unreasonable or unwarranted. The rules and regulations shall be promulgated in accordance with the Uniform Administrative Procedures Act, compiled in title 4, chapter 5.

### 49-10-1307. Training and reporting on the use of restraint and isolation

shall furnish to the principal teacher in each school, or cause to be furnished, through any duly elected
attendance teacher, as provided in this part, the names of children depending on their schools for
instruction, together with the names of the parents or guardians of the children, the lists to be taken from
the census enumeration on file in the office of the director of schools, or from any other available and
reliable sources.

(b) It is the duty of every principal or teacher of a public school to report to the director of schools,
immediately after the opening of school, the names of all children on the list furnished to the director of
schools who have not appeared for enrollment.

(c) It is the duty of the principals and teachers of all schools, public, private, denominational or parochial,
to report in writing to the director of schools of the system in which the school is located the names, ages
and residences of all pupils in attendance at their schools and classes within thirty (30) days after the
beginning of the school year, and to make such other reports of attendance in their schools or classes,
including transfers of pupils, as may be required by rule or regulation of the local board of education and
of the state board of education. Notwithstanding subsection (g), this subsection (c) shall apply to any child
less than six (6) years of age who is enrolled in any school to which this subsection (c) is applicable.

(d) All public, private and parochial schools shall keep daily reports of attendance, verified by the teacher

the system in which the school is located or to the director of schools’ duly authorized representative.
Notwithstanding subsection (g), this subsection (d) shall apply to any child less than six (6) years of age
who is enrolled in any school to which this subsection (d) is applicable.

(e) (1) It is the duty of the principal or teacher of every public, private or parochial school to report
promptly to the director of schools, or the director of schools’ designated representative, the names of all
children who have withdrawn from school, or who have been absent five (5) days without adequate
excuse. This means an aggregate of five (5) days during the school year and not necessarily five (5)
consecutive days. Each successive accumulation of five (5) unexcused absences by a student shall also
be reported.

(2) The director of schools shall thereupon serve, or cause to be served, upon the parent, guardian or
other person in this state in parental relation to such children unlawfully absent from school, written
notice that attendance of the children at school is required. A new notice shall be sent after each
successive accumulation of five (5) unexcused absences.

(3) If it appears that, within three (3) days after receipt of the notice, any child, parent, guardian or other
person in parental relation has failed to comply with this part, the director of schools, in the name of the
local school system, shall report the facts of the unlawful attendance to the sheriff, constable, city police
officer, district attorney general or the foreman of the grand jury, who shall proceed against the parent,
guardian or other person in parental relation in accordance with this part, unless the parent, guardian or person having charge and control of the child shall at once place the child in some day school.

(f) The director of schools of any local school system, after written notice to the parent or guardian of a child, shall report any child who is habitually and unlawfully absent from school to the appropriate judge having juvenile jurisdiction in that county, each case to be dealt with in such manner as the judge may determine to be in the best interest of the child, consistent with §§ 37-1-132, 37-1-168 and 37-1-169 and in the event the child is adjudicated to be unruly, the judge may assess a fine of up to fifty dollars ($50.00) or five (5) hours of community service, in the discretion of the judge, against the parents or legal guardians of children in kindergarten through grade twelve (K-12) if the child is absent more than five (5) days during any school year.

(g) Except as otherwise provided by § 49-6-3001 or § 49-6-3005, this section shall be applicable to children less than six (6) years of age and their parent, guardian or other person in a parental relation when the parent, guardian or other person in a parental relation has enrolled the child in any school that receives funding based on average daily membership; provided, that a child may be withdrawn within six (6) weeks of initial enrollment without penalty.

(h) For the purposes of this part, for recording and coding student absences from school because of disciplinary actions, the following definitions shall apply:

(1) "Expulsion" is defined as removal from attendance for more than ten (10) consecutive days or more than fifteen (15) days in a month of school attendance. Multiple suspensions that occur consecutively shall constitute expulsion. The school district shall not be eligible to receive funding for an expelled student;

(2) "Remand" is defined as assignment to an alternative school. The student so assigned shall be included in ADA/ADM and will continue to be counted as present for funding purposes. The department of education shall establish a set of codes to be used for reporting reasons for students on remand to an alternative school; and

(3) "Suspension" is defined as dismissed from attendance at school for any reason not exceeding ten (10) consecutive days. Multiple suspensions shall not run consecutively nor shall multiple suspensions be applied to avoid expulsion from school. The school district shall remain eligible to receive funding for a suspended student.

(vi) Inclusion in the agreement of safeguards to protect students from discriminatory or selective enforcement and to protect the civil rights of students and parents.
(B) If such an agreement is entered into, then it shall be the duty of the principal or teacher of every public school to report promptly to the director of schools, or the director of schools' designated representative, the names of all children who have been absent two (2) days without adequate excuse and shall continue to report each subsequent absence without adequate excuse. This means an aggregate of two (2) days during the school year and not necessarily two (2) consecutive days.

(2) The director of schools shall thereupon serve, or cause to be served, upon the parent, guardian or other person in this state in parental relation to the children unlawfully absent from school, written notice that attendance of the children at school is required and of the provisions of this subsection (i).

(3) Under the provisions of such an agreement, and for purposes of this section and § 37-1-102(b)(25)(A)(i), a student who has been absent an aggregate three (3) days without adequate excuse may be deemed habitually truant.

(4) The director of schools or director of schools' representative may issue a list of such truant students to the local law enforcement agency for the purpose of allowing the law enforcement agency to take the student into temporary custody when the student is found away from the school premises during school hours, in a public place, in any public or private conveyance or in any public place of business open to the public, without adequate excuse, unless accompanied by a parent, foster parent or legal guardian. (7) Upon issuance of a standing order by the juvenile court, LEA officials shall be allowed to release student record information to local law enforcement agencies and to juvenile justice system officials to assist the officials in effectively serving the student whose record is released. Officials and authorities receiving the information shall not disclose the information to any other party without prior written consent of the parent.

(2) The service providers described in this subsection (f) shall not be required to maintain any record not otherwise kept in the ordinary course of that service provider's business; provided, however, that if any electronic communications service provider operates a web site that offers a social network service and the electronic communications service provider provides services to consumers in this state, any log files and images or communications that have been sent, posted, or displayed on the social network service's web site and maintained by the electronic communications service provider shall be disclosed to any governmental entity responsible for enforcing this section only if the governmental entity:

LAWS

49-1-520. Tennessee model dropout prevention program.
(a) In order to encourage and support locally-based, interdisciplinary initiatives to combat the many complex problems that lead Tennessee children and youth to drop out of school, there is created the Tennessee model dropout prevention program. After consultation with the executive director of the commission on children and youth, the executive secretary of the council of juvenile and family court judges, the executive director of the state board of education, the commissioners of health and environment, human services, mental health and substance abuse services, intellectual and developmental disabilities, and youth development, the commissioner of education shall, on or before November 15 each year, designate up to ten (10) publicly or privately supported, locally-based, interdisciplinary initiatives within the state as model dropout prevention programs. Any initiative so designated as a model program shall be worthy and capable of emulation with respect to one (1) or more activities designed to:

1. Improve public awareness, within the student population and within the population at large, regarding the individual and societal consequences of the school dropout problem; or
2. Combat one (1) or more of the many complex problems which lead Tennessee children and youth to drop out of school, including, but not limited to:
   (A) Poor self-esteem;
   (B) Lack of ambition or motivation;
   (C) Poorly defined goals;
   (D) Substance abuse;
   (E) Delinquency;
   (F) Emotional distress;
   (G) Classroom misconduct;
   (H) Teen pregnancy;
   (I) Academic failure or sub-par performance;
   (J) Poverty;
   (K) Poor nutrition;
   (L) Poor health;
   (M) Insufficient parental encouragement;
   (N) Lack of parental involvement in academic matters;
   (O) Learning disabilities;
   (P) Physical or mental handicapping conditions; and
   (Q) Alternative schools remands.
(b) Prior to designating model programs each year, nominations shall be actively solicited from across the state. In selecting model programs, due consideration shall be given to the level of acceptance and support for such programs within the school system or systems and within the community-at-large and
also to the techniques by which such acceptance and support have been achieved. Furthermore, due consideration shall be given to the tangible impact the programs have achieved in dropout prevention.

(c) To the extent that funding is available for such purpose within the state’s general appropriations act, on each occasion that an initiative is selected as a model dropout prevention program, the model program shall receive from the department of education a state grant in the amount of six thousand dollars ($6,000). The grant shall be paid in addition to all other funds that the program may otherwise receive from or through state government and shall be used exclusively for improvement or expansion of dropout prevention services, outreach, program evaluation or payment of expenses incurred in assisting others to replicate one (1) or more components of the model program. Payment of each such state grant shall be conditional upon the model program's agreement to provide, upon request, technical assistance to others who are interested in replicating one (1) or more components of the model program. In any case in which a state grant is awarded to an LEA or other agency of local government, payment of the grant shall also be conditional upon the agency's written agreement that the state grant will not be used to supplant locally provided funding and resources for dropout prevention. Nothing contained within this section shall be construed to prohibit the commissioner from designating more than one (1) model program within a county, municipality or LEA.

(d) (1) Each year, the commissioner shall undertake appropriate actions to publicize, statewide, all activities to implement this section, as well as the activities and achievements of the model dropout prevention programs. The commissioner may undertake other appropriate actions that may be necessary to encourage and support locally-based, interdisciplinary initiatives to combat the many complex problems which lead Tennessee children and youth to drop out of school.

(2) The commissioner shall annually conduct regional conferences or workshops across the state to improve public awareness of the individual and societal consequences of the dropout problem, to showcase the activities and achievements of the model programs, to provide encouragement and support for replication of the programs, and to improve public awareness of the system of competitive grants provided under the authority of subsection (e). Children, youth, parents, educators, school administrators, taxpayers, business organizations, civic groups, community organizations, religious institutions, officials of local government and other concerned persons shall be invited to attend the conferences or workshops.

(e) (1) Acting in consultation with each of the state officials listed in subsection (a), the commissioner of education shall develop and implement each year on or before November 15, to the extent that funding is provided for such purpose within the general appropriations act, a system of competitive state grants to financially encourage and support creation or expansion of locally based programs or projects that seek to replicate components of those initiatives designated as model programs pursuant to subsection (a). The system of competitive grants shall require each recipient to match on a dollar-per-dollar basis, from locally generated public or private resources, the amount of the competitive state grant.

(2) Prior to receiving a grant to replicate components of model dropout prevention programs, each program or project shall:

(A) Demonstrate a broad base of support within the community-at-large and within the local school system;

(B) Propose a funding plan whereby continuation of the program or project, beyond the period of the grant, is probable;

(C) Submit a written agreement to the effect that, if the program or project will be administered by an LEA or other agency of local government, the state grant will not be used to supplant locally provided funding and resources for dropout prevention; and
(D) Agree to accept the grant subject to reasonable and appropriate conditions and restrictions established by the commissioner.

(3) In awarding the grants, the commissioner shall exercise due care to discourage dependence upon the grant system as a source of recurring financial support for the program or project.

(2) The grants provided for in subdivision (c)(1) shall be distributed as follows:
(A) Funding would be available to each LEA in the same percentage that the LEA’s share of basic education program (BEP) funding bears to statewide BEP funding.

(ii) Such amount is ordered to be paid pursuant to a specific payment schedule; and

(5) A judgment entered pursuant to this subsection (b) shall remain in effect for a period of ten (10) years from the date of entry and shall be enforceable by the restitution recipient in the same manner and to the same extent as other civil judgments.

(c) (1) This subsection (c) shall apply to a juvenile who is adjudicated delinquent, but not committed to the custody of the department of children's services, for an act that if committed by an adult would be one (1) or more of the following offenses:

There shall be a presumption in favor of issuing a court order prohibiting the juvenile from attending the same educational placement as the victim.

(b) It is the duty of every principal or teacher of a public school to report to the director of schools, immediately after the opening of school, the names of all children on the list furnished to the director of schools who have not appeared for enrollment.

(c) It is the duty of the principals and teachers of all schools, public, private, denominational or parochial, to report in writing to the director of schools of the system in which the school is located the names, ages and residences of all pupils in attendance at their schools and classes within thirty (30) days after the beginning of the school year, and to make such other reports of attendance in their schools or classes, including transfers of pupils, as may be required by rule or regulation of the local board of education and of the state board of education. Notwithstanding subsection (g), this subsection (c) shall apply to any child less than six (6) years of age who is enrolled in any school to which this subsection (c) is applicable.

(d) All public, private and parochial schools shall keep daily reports of attendance, verified by the teacher making the record, which shall be open to inspection at all reasonable times, to the director of schools of the system in which the school is located or to the director of schools’ duly authorized representative. Notwithstanding subsection (g), this subsection (d) shall apply to any child less than six (6) years of age who is enrolled in any school to which this subsection (d) is applicable.

(e) (1) It is the duty of the principal or teacher of every public, private or parochial school to report promptly to the director of schools, or the director of schools’ designated representative, the names of all children who have withdrawn from school, or who have been absent five (5) days without adequate excuse. This means an aggregate of five (5) days during the school year and not necessarily five (5) consecutive days. Each successive accumulation of five (5) unexcused absences by a student shall also be reported.

(2) The director of schools shall thereupon serve, or cause to be served, upon the parent, guardian or other person in this state in parental relation to such children unlawfully absent from school, written notice that attendance of the children at school is required. A new notice shall be sent after each successive accumulation of five (5) unexcused absences.

(3) If it appears that, within three (3) days after receipt of the notice, any child, parent, guardian or other person in parental relation has failed to comply with this part, the director of schools, in the name of the local school system, shall report the facts of the unlawful attendance to the sheriff, constable, city police officer, district attorney general or the foreman of the grand jury, who shall proceed against the parent, guardian or other person in parental relation in accordance with this part, unless the parent, guardian or person having charge and control of the child shall at once place the child in some day school.

children less than six (6) years of age and their parent, guardian or other person in a parental relation
when the parent, guardian or other person in a parental relation has enrolled the child in any school that
receives funding based on average daily membership; provided, that a child may be withdrawn within six
(6) weeks of initial enrollment without penalty.

(h) For the purposes of this part, for recording and coding student absences from school because of
disciplinary actions, the following definitions shall apply:

(1) "Expulsion" is defined as removal from attendance for more than ten (10) consecutive days or more
than fifteen (15) days in a month of school attendance. Multiple suspensions that occur consecutively
shall constitute expulsion. The school district shall not be eligible to receive funding for an expelled
student;

(2) "Remand" is defined as assignment to an alternative school. The student so assigned shall be
included in ADA/ADM and will continue to be counted as present for funding purposes. The department
of education shall establish a set of codes to be used for reporting reasons for students on remand to
an alternative school; and

(3) "Suspension" is defined as dismissed from attendance at school for any reason not exceeding ten
(10) consecutive days. Multiple suspensions shall not run consecutively nor shall multiple suspensions
be applied to avoid expulsion from school. The school district shall remain eligible to receive funding for
a suspended student.

(i) (1) (A) An LEA may enter into an agreement with the local law enforcement agency serving the area
of the LEA and the appropriate local government in that area to assist in the enforcement of compulsory

(7) Upon issuance of a standing order by the juvenile court, LEA officials shall be allowed to release student record information to local law enforcement agencies and to juvenile justice system officials to assist the officials in effectively serving the student whose record is released. Officials and authorities receiving the information shall not disclose the information to any other party without prior written consent of the parent.

(a) Any parent, guardian or other person who has control of a child, or children, and who violates this part commits educational neglect, which shall be a Class C misdemeanor.

(b) Each day's unlawful absence constitutes a separate offense.

(c) As an alternative to the filing of a truancy petition or for criminal prosecution for educational neglect, a director of schools or attendance supervisor shall devise and recommend, and the school board shall adopt, progressive truancy interventions for students who violate compulsory attendance requirements. These interventions must be designed to address student conduct related to truancy in the school setting and minimize the need for referrals to juvenile court.

(d) Progressive truancy interventions adopted by a school district pursuant to subsection (c) shall be applied prior to referral to juvenile court for the conduct described in § 49-6-3007 and shall meet the following requirements:

   (1) The first tier of progressive truancy interventions is triggered by at least three (3) unexcused absences within a school year;

   (2) The first tier of progressive truancy interventions must include, at a minimum:

      (A) A conference with the student and the student's parent or guardian;

      (B) A resulting attendance contract to be signed by the student, the student's parent or guardian, and an attendance officer, which shall include:

         (i) A specific description of the school's attendance expectations for the child;

         (ii) The period for which the contract is effective, not to exceed ninety (90) school days, or the last day of the semester after the date the contract becomes effective, whichever comes first; and

         (iii) Penalties for additional absences and alleged school offenses, including additional disciplinary action and potential referral to juvenile court; and

      (C) Regularly scheduled follow-up meetings to discuss the student's progress;

   (3) The progressive truancy interventions shall include, in addition to the first tier, at least two (2) additional tiers of interventions that are applied if the student accumulates additional unexcused absences in violation of the attendance contract;

   (4) At least one (1) tier shall include an individualized assessment by a school employee of the reasons a student has been absent from school, and if necessary, referral of the child to counseling, community-based services, or other in-school or out-of-school services aimed at addressing the student's attendance problems;

   (5) Additional interventions may consist of one (1) or more of the following:

      (A) School-based community services;

      (B) Participation in a school-based restorative justice program;

      (C) Referral to a school-based teen court; or

      (D) Saturday courses designed to improve attendance and behavior;
(6) In-school suspension or out-of-school suspension shall not be used as part of the progressive truancy interventions adopted by schools for unexcused absences from class or school; and

(7) A referral made under subdivisions (d)(1)-(5) may include participation by the child's parent or guardian if necessary.

e) Each referral to juvenile court for conduct described in § 49-6-3007(f) and § 49-6-3007(i)(4)(D) shall be accompanied by a statement from the student's school certifying that:

(1) The school applied the progressive truancy interventions adopted under subsection (d) to the student; and

(2) The progressive truancy interventions failed to meaningfully address the student's school attendance.

(f) A court shall dismiss a complaint or referral made by a school district under this section that is not made in compliance with subsection (e).

(g) Each intervention program shall report school attendance of program participants to the director of schools or the attendance supervisor in the year following the intervention.

(h) Notwithstanding any other law, each LEA having previously adopted an effective progressive truancy intervention program that substantially conforms to the provisions of this section may present such intervention program to the commissioner of education for approval in lieu of strict compliance with the provisions specified herein.

(i) Each head of school of a private or parochial school shall recommend, and the board of the school shall adopt, a policy addressing compulsory attendance and truancy that describes the interventions that such school shall employ for violations of the compulsory attendance laws. Such policy shall contain a provision that the director of schools or the attendance supervisor in the system where the child's home of record is located shall be notified in the event that a student at such private or parochial school is expelled or withdraws from school.

(j) Parents, guardians or other persons having control of a child who is required to attend remedial instruction under § 49-6-3021 commit educational neglect as defined in subsection (a), if the child is truant from the instruction.

(a) The department of education, in consultation with juvenile court officials, shall review all current laws and policies related to exclusionary discipline practices in public schools for students in pre-kindergarten through kindergarten (pre-K-K). For purposes of this section, "exclusionary discipline" means any type of school disciplinary action that removes or excludes a student from the student's traditional educational setting.

(b) The review shall:

(2) Detail the type of offenses committed by the students that led to the exclusionary discipline action;

(3) Review the impact exclusionary discipline has on students;

(4) Examine recommendations from lawmakers, juvenile court officials, judges, district attorneys, the Tennessee commission on children and youth, and representatives from LEAs on alternatives to exclusionary discipline;
(5) Identify free resources to support teachers and parents in addressing children's social, emotional, and behavioral health, strengthening family relationships, and increasing developmental and behavioral screening; and

(6) Research the possibility of:

(A) Eliminating exclusionary discipline for non-violent offenses; and

(B) Encouraging schools to adopt restorative justice discipline practices.

(c) The department shall develop guidelines and standards for alternatives to exclusionary discipline practices based on the findings of the review required under subsection (b).

(d) The department shall present its findings and a written report to the education committees of the senate, the education administration and planning committee of the house of representatives, and the education instruction and programs committee of the house of representatives no later than May 1, 2018.

(e) After submission of the report required in subsection (d), the department shall develop a model policy for alternatives to exclusionary discipline practices that districts may adopt for students in pre-kindergarten through kindergarten (pre-K-K). If a district does not adopt the model policy developed by the department, the district shall develop and implement a policy that meets the guidelines and standards developed under subsection (c). Each LEA shall adopt the model policy or develop their own policy prior to the 2018-2019 school year.

49-6-3401. Suspension of students -- Expulsion of students -- Exception for self-defense.

(c)

(1) Except in an emergency, no principal, principal-teacher or assistant principal shall suspend any student until that student has been advised of the nature of the student's misconduct, questioned about it and allowed to give an explanation.

(2) Upon suspension of any student other than for in-school suspension of one (1) day or less, the principal shall, within twenty-four (24) hours, notify the parent or guardian and the director of schools or the director of schools' designee of:

(A) The suspension, which shall be for a period of no more than ten (10) days;

(B) The cause for the suspension; and

(C) The conditions for readmission, which may include, at the request of either party, a meeting of the parent or guardian, student and principal.

(3) If the suspension is for more than five (5) days, the principal shall develop and implement a plan for improving the behavior, which shall be made available for review by the director of schools upon request.

(4)

(A) If, at the time of the suspension, the principal, principal-teacher or assistant principal determines that an offense has been committed that would justify a suspension for more than ten (10) days, the person may suspend a student unconditionally for a specified period of time or upon such terms and conditions as are deemed reasonable.

(B) The principal, principal-teacher or assistant principal shall immediately give written or actual notice to the parent or guardian and the student of the right to appeal the decision to suspend for more than ten (10) days. All appeals must be filed, orally or in writing, within five (5) days after receipt of the notice and may be filed by the parent or guardian, the student or any person holding a teaching license who is employed by the school system if requested by the student.

(C) The appeal from this decision shall be to the board of education or to a disciplinary hearing authority appointed by the board. The disciplinary hearing authority, if appointed, shall consist of
least one (1) licensed employee of the LEA, but no more than the number of members of the local board.

(D) The hearing shall be held no later than ten (10) days after the beginning of the suspension. The local board of education or the disciplinary hearing authority shall give written notice of the time and place of the hearing to the parent or guardian, the student and the school official designated in subdivision (c)(4)(A) who ordered the suspension. Notice shall also be given to the LEA employee referred to in subdivision (c)(4)(B) who requests a hearing on behalf of a suspended student.

(5) After the hearing, the board of education or the disciplinary hearing authority may affirm the decision of the principal, order removal of the suspension unconditionally or upon such terms and conditions as it deems reasonable, assign the student to an alternative program or night school or suspend the student for a specified period of time.

(6) If the decision is determined by a disciplinary hearing authority, a written record of the proceedings, including a summary of the facts and the reasons supporting the decision, shall be made by the disciplinary hearing authority. The student, principal, principal-teacher or assistant principal may, within five (5) days of the decision, request review by the board of education; provided, that local school board policy may require an appeal to the director of schools prior to a request for review to the board. Absent a timely appeal, the decision shall be final. The board of education, based upon a review of the record, may grant or deny a request for a board hearing and may affirm or overturn the decision of the hearing authority with or without a hearing before the board; provided, that the board may not impose a more severe penalty than that imposed by the hearing authority without first providing an opportunity for a hearing before the board. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher or assistant principal, then, notwithstanding any provision of the open meetings laws compiled in title 8, chapter 44, or other law to the contrary, the hearing shall be closed to the public, unless the student or student's parent or guardian requests in writing within five (5) days after receipt of written notice of the hearing that the hearing be conducted as an open meeting. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher, or assistant principal that is closed to the public, then the board shall not conduct any business, discuss any subject or take a vote on any matter other than the appeal to be heard. Nothing in this subdivision (c)(6) shall act to exclude the department of children's services from the disciplinary hearings when the department is exercising its obligations under § 37-1-140. The action of the board of education shall be final.

(h) The commissioner of education shall report on a semi-annual basis to the education committee of the senate and the education administration and planning committee of the house of representatives regarding disciplinary actions in Tennessee schools. The reports shall include the reason for the disciplinary action, the number of such students suspended or expelled and the number of such students who have been placed in an alternative educational setting. Data shall be sorted by school as well as by various demographic factors, including grade, race and sex.

49-6-4216. School policies and procedures -- Contents -- Notice to students and parents.

(a) Each local and county board of education shall file annually with the commissioner of education written policies and procedures developed and adopted by the board:

(1) To ensure safe and secure learning environments free of drugs, drug paraphernalia, violence and dangerous weapons; and

(2) To impose swift, certain and severe disciplinary sanctions on any student:

   (A) Who brings a drug, drug paraphernalia or a dangerous weapon onto a school bus, onto school property or to any school event or activity;

   (B) Who, while on a school bus, on school property or while attending any school event or activity:
(i) Is under the influence of a drug;
(ii) Possesses a drug, drug paraphernalia or dangerous weapon; or
(iii) Assaults or threatens to assault a teacher, student or other person; or

(C) Who transmits by an electronic device any communication containing a credible threat to cause bodily injury or death to another student or school employee and the transmission of such threat creates actual disruptive activity at the school that requires administrative intervention.

(b) (1) It is the legislative intent that any rule or policy designated as a zero tolerance policy means that violations of that rule or policy will not be tolerated, and that violators will receive certain, swift and reasoned punishment. Reasoned punishment may include a spectrum of disciplinary measures designed to correct student misbehavior and promote student respect and compliance with codes of conduct and board policies. A zero tolerance violation shall not necessarily result in a presumptive one (1) calendar year expulsion except for those types of student misconduct set forth in § 49-6-3401(g). It is the legislative intent that the local school boards shall retain responsibility for development of disciplinary policies and student codes of conduct including assurances that students are afforded fair due process procedures. Nothing in this section shall be construed to prohibit assignment to an alternative school for those students under suspension or expulsion including students engaging in misconduct set forth in § 49-6-3401(g).

(2) Nothing in this section shall be construed to alter, diminish or supersede the director's authority to modify expulsion on a case-by-case basis under § 49-6-3401(g).

(c) At the beginning of fall classes each school year, each local and county board of education shall provide students and their parents with written notification of the policies and procedures. Additionally, each school shall conspicuously post a summary of the policies and procedures within each school.

(d) (1) The state board of education shall develop a standard form for collection of statistical information relative to zero tolerance violations in local school systems. In developing the form, the state board of education shall consult the local school boards, the Tennessee school board association, the office of research and education accountability and the department of education.

(2) The form shall include, but shall not be limited to, grade level, age, gender, race, offense, disposition of each zero tolerance violation and any modification in penalty.

(3) The form shall be completed annually by the director of schools of each school system or the director's designee, and copies of the form shall be filed with the department of education and the state board of education by July 1 of each school year.

(4) [Deleted by 2016 amendment.]

(e) The department of education shall track all students expelled from their home school and report on their progress.

49-6-4302. Tennessee school safety center.

(a) The department of education shall establish a Tennessee school safety center to develop and evaluate training materials and guidelines on school safety issues, including behavior, discipline and violence prevention.

(b) The Tennessee school safety center shall be responsible for the collection and analysis of data related to school safety, including alleged violent or assaultive acts against school employees and students. Analysis of data shall include the number of arrests, the charges and whether civil damages were pursued by the injured party or school system. The center shall make periodic reports to the education committee of the senate and the education administration and planning committee of the house of representatives on the status of school safety efforts.
49-6-4503. Adoption of policy prohibiting harassment, intimidation, bullying or cyber-bullying by the school district.

(a) Each school district shall adopt a policy prohibiting harassment, intimidation, bullying or cyber-bullying. School districts are encouraged to develop the policy after consultation with parents and guardians, school employees, volunteers, students, administrators and community representatives.

(c)

(2) Each LEA shall also:

(B) Beginning August 1, 2016, and annually thereafter, complete and submit a report to the department of education. The report shall be in a format provided by the department and shall include:

(i) The number of harassment, intimidation, bullying, or cyber-bullying cases brought to the attention of school officials during the preceding year;

(ii) The number of harassment, intimidation, bullying, or cyber-bullying cases where the investigation supported a finding that bullying had taken place;

(iii) The number of harassment, intimidation, bullying, or cyber-bullying case investigations not initiated within forty-eight (48) hours of the receipt of the report and the reason the investigation was not initiated within forty-eight (48) hours;

(iv) The number of harassment, intimidation, bullying, or cyber-bullying cases where an appropriate intervention was not initiated within twenty (20) calendar days of receipt of the report and the reason the intervention took longer than twenty (20) calendar days to initiate; and

(v) The type of harassment, intimidation, bullying, or cyber-bullying identified and manner in which the harassment, intimidation, bullying, or cyber-bullying cases were resolved, including any disciplinary action against the student who was harassing, intimidating, bullying, or cyber-bullying.

(3) The department shall annually submit a report to the education administration and planning committee of the house of representatives, the education instruction and programs committee of the house of representatives, and the education committee of the senate updating membership on the number of harassment, intimidation, bullying, or cyber-bullying cases reported statewide, the number of LEAs implementing this part, the status of any investigations, including disciplinary actions against students, and any other information relating to the subjects of harassment, intimidation, bullying, or cyber-bullying as will be helpful to the committees in establishing policy in this area.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

§ 37.001. Student code of conduct.
(a) The board of trustees of an independent school district shall, with the advice of its district-level committee established under Subchapter F, Chapter 11, adopt a student code of conduct for the district. The student code of conduct must be posted and prominently displayed at each school campus or made available for review at the office of the campus principal. In addition to establishing standards for student conduct, the student code of conduct must

(1) specify the circumstances, in accordance with this subchapter, under which a student may be removed from a classroom, campus, disciplinary alternative education program, or vehicle owned or operated by the district;
(2) specify conditions that authorize or require a principal or other appropriate administrator to transfer a student to a disciplinary alternative education program;
(3) outline conditions under which a student may be suspended as provided by Section 37.005 or expelled as provided by Section 37.007;
(4) specify that consideration will be given, as a factor in each decision concerning suspension, removal to a disciplinary alternative education program, expulsion, or placement in a juvenile justice alternative education program, regardless of whether the decision concerns a mandatory or discretionary action, to:
   (A) self-defense;
   (B) intent or lack of intent at the time the student engaged in the conduct;
   (C) a student's disciplinary history; or
   (D) a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct;
(5) provide guidelines for setting the length of a term of:
   (A) a removal under Section 37.006; and
   (B) an expulsion under Section 37.007;
(6) address the notification of a student's parent or guardian of a violation of the student code of conduct committed by the student that results in suspension, removal to a disciplinary alternative education program, or expulsion;
(7) prohibit bullying, harassment, and making hit lists and ensure that district employees enforce those prohibitions
(8) provide, as appropriate for students at each grade level, methods, including options, for:
   (A) managing students in the classroom, on school grounds, and on a vehicle owned or operated by the district;
   (B) disciplining students; and
   (C) preventing and intervening in student discipline problems, including bullying, harassment, and making hit lists; and
(9) include an explanation of the provisions regarding refusal of entry to or ejection from district property under Section 37.105, including the appeal process established under Section 37.105(h).
(b) In this section:

(1) "Bullying" has the meaning assigned by Section 37.0832.

(2) "Harassment" means threatening to cause harm or bodily injury to another student, engaging in sexually intimidating conduct, causing physical damage to the property of another student, subjecting another student to physical confinement or restraint, or maliciously taking any action that substantially harms another student's physical or emotional health or safety.

(3) "Hit list" means a list of people targeted to be harmed, using:

(A) a firearm, as defined by Section 46.01(3), Penal Code;

(B) a knife, as defined by Section 46.01(7), Penal Code;

(C) any other object to be used with intent to cause bodily harm.

(b-1) The methods adopted under Subsection (a)(8) must provide that a student who is enrolled in a special education program under Subchapter A, Chapter 29, may not be disciplined for conduct prohibited in accordance with Subsection (a)(7) until an admission, review, and dismissal committee meeting has been held to review the conduct.

(c) Once the student code of conduct is promulgated, any change or amendment must be approved by the board of trustees.

(d) Each school year, a school district shall provide parents notice of and information regarding the student code of conduct.

(e) Except as provided by Section 37.007(e), this subchapter does not require the student code of conduct to specify a minimum term of a removal under Section 37.006 or an expulsion under Section 37.007.

Teacher authority to remove students from classrooms

LAWS

(a) A teacher may send a student to the principal's office to maintain effective discipline in the classroom.
(a) A teacher may send a student to the campus behavior coordinator's office to maintain effective discipline in the classroom. The campus behavior coordinator shall respond by employing appropriate discipline management techniques consistent with the student code of conduct adopted under Section 37.001 that can reasonably be expected to improve the student's behavior before returning the student to the classroom. If the student's behavior does not improve, the campus behavior coordinator shall employ alternative discipline management techniques, including any progressive interventions designated as the responsibility of the campus behavior coordinator in the student code of conduct.

(b) A teacher may remove from class a student:

(1) who has been documented by the teacher to repeatedly interfere with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn; or

(2) whose behavior the teacher determines is so unruly, disruptive, or abusive that it seriously interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn.

(c) If a teacher removes a student from class under Subsection (b), the principal may place the student into another appropriate classroom, into in-school suspension, or into a disciplinary alternative education program as provided by Section 37.008. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. The terms of the removal may prohibit the student from attending or participating in school-sponsored or school-related activity.

(d) A teacher shall remove from class and send to the principal for placement in a disciplinary alternative education program or for expulsion, as appropriate, a student who engages in conduct described under Section 37.006 or 37.007. The student may not be returned to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. If the teacher removed the student from class because the student has engaged in the elements of any offense listed in Section 37.006(a)(2)(B) or Section 37.007(a)(2)(A) or (b)(2)(C) against the teacher, the student may not be returned to the teacher's class without the teacher's consent. § 37.019. Emergency placement or expulsion.

(a) This subchapter does not prevent the principal or the principal's designee from ordering the immediate placement of a student in a disciplinary alternative education program if the principal or the principal's

Administrative procedures related to suspension and expulsion

LAWS

§ 37.009. Conference; Hearing; Review.
(a) Not later than the third class day after the day on which a student is removed from class by the
teacher under Section 37.002(b) or (d) or by the school principal or other appropriate administrator under
Section 37.001(a)(2) or 37.006, the campus behavior coordinator or other appropriate administrator shall
schedule a conference among the campus behavior coordinator or other appropriate administrator, a
parent or guardian of the student, the teacher removing the student from class, if any, and the student. At
the conference, the student is entitled to written or oral notice of the reasons for the removal, an
explanation of the basis for the removal, and an opportunity to respond to the reasons for the removal.
The student may not be returned to the regular classroom pending the conference. Following the
conference, and whether or not each requested person is in attendance after valid attempts to require the
person's attendance, the campus behavior coordinator, after consideration of the factors under Section
37.001(a)(4), shall order the placement of the student for a period consistent with the student code of
conduct. Before ordering the suspension, expulsion, removal to a disciplinary alternative education
program, or placement in a juvenile justice alternative education program of a student, the behavior
coordinator must consider whether the student acted in self-defense, the intent or lack of intent at the time
the student engaged in the conduct, the student's disciplinary history, and whether the student has a
disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's
conduct, regardless of whether the decision of the behavior coordinator concerns a mandatory or
discretionary action. If school district policy allows a student to appeal to the board of trustees or the
board's designee a decision of the campus behavior coordinator or other appropriate administrator, other
than an expulsion under Section 37.007, the decision of the board or the board's designee is final and
may not be appealed. If the period of the placement is inconsistent with the guidelines included in the
student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The
period of the placement may not exceed one year unless, after a review, the district determines that the
student is a threat to the safety of other students or to district employees.
(b) If a student's placement in a disciplinary alternative education program is to extend beyond 60 days or the end of the next grading period, whichever is earlier, a student's parent or guardian is entitled to notice of and an opportunity to participate in a proceeding before the board of trustees of the school district or the board's designee, as provided by policy of the board of trustees of the district. Any decision of the board or the board's designee under this subsection is final and may not be appealed.

(c) Before it may place a student in a disciplinary alternative education program for a period that extends beyond the end of the school year, the board or the board's designee must determine that:
   
   (1) the student's presence in the regular classroom program or at the student's regular campus presents a danger of physical harm to the student or to another individual; or
   
   (2) the student has engaged in serious or persistent misbehavior that violates the district's student code of conduct.

(d) The board or the board's designee shall set a term for a student's placement in a disciplinary alternative education program. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that:
   
   (1) the student is a threat to the safety of other students or to district employees; or
   
   (2) extended placement is in the best interest of the student.

(e) A student placed in a disciplinary alternative education program shall be provided a review of the student's status, including a review of the student's academic status, by the board's designee at intervals not to exceed 120 days. In the case of a high school student, the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The district is not required under this subsection to provide a course in the district's disciplinary alternative education program except as required by Section 37.008(l). At the review, the student or the student's parent or guardian must be given the opportunity to present arguments for the student's return to the regular classroom or campus. The student may not be returned to the classroom of the teacher who removed the student without that teacher's consent. The teacher may not be coerced to consent.

(f) Before a student may be expelled under Section 37.007, the board or the board's designee must provide the student a hearing at which the student is afforded appropriate due process as required by the federal constitution and which the student's parent or guardian is invited, in writing, to attend. At the hearing, the student is entitled to be represented by the student's parent or guardian or another adult who can provide guidance to the student and who is not an employee of the school district. If the school district makes a good-faith effort to inform the student and the student's parent or guardian of the time and place of the hearing, the district may hold the hearing regardless of whether the student, the student's parent or guardian, or another adult representing the student attends. Before ordering the expulsion of a student, the board of trustees must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the board concerns a mandatory or discretionary action. If the decision to expel a student is made by the board's designee, the decision may be appealed to the board. The decision of the board may be appealed by trial de novo to a district court of the county in which the school district's central administrative office is located.

(g) The board or the board's designee shall deliver to the student and the student's parent or guardian a copy of the order placing the student in a disciplinary alternative education program under Section 37.001, 37.002, or 37.006 or expelling the student under Section 37.007.
(h) If the period of an expulsion is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of an expulsion may not exceed one year unless, after a review, the district determines that:

1. the student is a threat to the safety of other students or to district employees; or
2. extended placement is in the best interest of the student. After a school district notifies the parents or guardians of a student that the student has been expelled, the parent or guardian shall provide adequate supervision of the student during the period of expulsion.

(i) If a student withdraws from the district before an order for placement in a disciplinary alternative education program or expulsion is entered under this section, the principal or board, as appropriate, may complete the proceedings and enter an order. If the student subsequently enrolls in the district during the same or subsequent school year, the district may enforce the order at that time except for any period of the placement or expulsion that has been served by the student on enrollment in another district that honored the order. If the principal or board fails to enter an order after the student withdraws, the next district in which the student enrolls may complete the proceedings and enter an order.

(j) If, during the term of a placement or expulsion ordered under this section, a student engages in additional conduct for which placement in a disciplinary alternative education program or expulsion is required or permitted, additional proceedings may be conducted under this section regarding that conduct and the principal or board, as appropriate, may enter an additional order as a result of those proceedings.

§ 37.010. Court involvement.

(a) Not later than the second business day after the date a hearing is held under Section 37.009, the board of trustees of a school district or the board's designee shall deliver a copy of the order placing a student in a disciplinary alternative education program under Section 37.006 or expelling a student under Section 37.007 and any information required under Section 52.04, Family Code, to the authorized officer of the juvenile court in the county in which the student resides. In a county that operates a program under Section 37.011, an expelled student shall to the extent provided by law or by the memorandum of understanding immediately attend the educational program from the date of expulsion, except that in a county with a population greater than 125,000, every expelled student who is not detained or receiving treatment under an order of the juvenile court must be enrolled in an educational program.

(b) If a student is expelled under Section 37.007(c), the board or its designee shall refer the student to the authorized officer of the juvenile court for appropriate proceedings under Title 3, Family Code.

(c) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding with the district's board of trustees concerning the juvenile probation department's role in supervising and providing other support services for students in disciplinary alternative education programs, a court may not order a student expelled under Section 37.007 to attend a regular classroom, a regular campus, or a school district disciplinary alternative education program as a condition of probation.

(d) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding as described by Subsection (c), if a court orders a student to attend a disciplinary alternative education program as a condition of probation once during a school year and the student is referred to juvenile court again during that school year, the juvenile court may not order the student to attend a disciplinary alternative education program in a district without the district's consent until the student has successfully completed any sentencing requirements the court imposes.

(e) Any placement in a disciplinary alternative education program by a court under this section must prohibit the student from attending or participating in school-sponsored or school-related activities.
(f) If a student is expelled under Section 37.007, on the recommendation of the committee established under Section 37.003 or on its own initiative, a district may readmit the student while the student is completing any court disposition requirements the court imposes. After the student has successfully completed any court disposition requirements the court imposes, including conditions of a deferred prosecution ordered by the court, or such conditions required by the prosecutor or probation department, if the student meets the requirements for admission into the public schools established by this title, a district may not refuse to admit the student, but the district may place the student in the disciplinary alternative education program. Notwithstanding Section 37.002(d), the student may not be returned to the classroom of the teacher under whose supervision the offense occurred without that teacher's consent. The teacher may not be coerced to consent.

(g) If an expelled student enrolls in another school district, the board of trustees of the district that expelled the student shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the expulsion order and the referral to the authorized officer of the juvenile court. The district in which the student enrolls may continue the expulsion under the terms of the order, may place the student in a disciplinary alternative education program for the period specified by the expulsion order, or may allow the student to attend regular classes without completing the period of expulsion. A district may take any action permitted by this subsection if the student was expelled by a school district in another state if:

1. the out-of-state district provides to the district a copy of the expulsion order; and
2. the grounds for the expulsion are also grounds for expulsion in the district in which the student is enrolling.

(g-1) If a student was expelled by a school district in another state for a period that exceeds one year and a school district in this state continues the expulsion or places the student in a disciplinary alternative education program under Subsection (g), the district shall reduce the period of the expulsion or placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

1. the student is a threat to the safety of other students or to district employees; or
2. extended placement is in the best interest of the student.

(h) A person is not liable in civil damages for a referral to juvenile court as required by this section.

§ 37.146. Requisites of complaint.
(a) A complaint alleging the commission of a school offense must, in addition to the requirements imposed by Article 45.019, Code of Criminal Procedure:

1. be sworn to by a person who has personal knowledge of the underlying facts giving rise to probable cause to believe that an offense has been committed; and
2. be accompanied by a statement from a school employee stating:
   (A) whether the child is eligible for or receives special services under Subchapter A, Chapter 29; and
   (B) the graduated sanctions, if required under Section 37.144, that were imposed on the child before the complaint was filed.

(b) After a complaint has been filed under this subchapter, a summons may be issued under Articles 23.04 and 45.057(e), Code of Criminal Procedure.

(c) A complaint under this subchapter may include a recommendation by a school employee that the child attend a teen court program under Article 45.052, Code of Criminal Procedure, if the school employee believes attending a teen court program is in the best interest of the child.

LAWS

(c) If a teacher removes a student from class under Subsection (b), the principal may place the student into another appropriate classroom, into in-school suspension, or into a disciplinary alternative education program as provided by Section 37.008. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. The terms of the removal may prohibit the student from attending or participating in school-sponsored or school-related activity.

§ 37.021. Opportunity to complete courses during in-school and certain other placements.
(a) If a school district removes a student from the regular classroom and places the student in in-school suspension or another setting other than a disciplinary alternative education program, the district shall offer the student the opportunity to complete before the beginning of the next school year each course in which the student was enrolled at the time of the removal.
(b) The district may provide the opportunity to complete courses by any method available, including a correspondence course, distance learning, or summer school.

Use of restraint and seclusion

LAWS

§ 29.022. Video surveillance of special education settings.

(a) In order to promote student safety, on receipt of a written request authorized under Subsection (a-1), a school district or open-enrollment charter school shall provide equipment, including a video camera, to the school or schools in the district or the charter school campus or campuses specified in the request. A school or campus that receives equipment as provided by this subsection shall place, operate, and maintain one or more video cameras in self-contained classrooms and other special education settings in which a majority of the students in regular attendance are provided special education and related services and are assigned to one or more self-contained classrooms or other special education settings for at least 50 percent of the instructional day, provided that:

(1) a school or campus that receives equipment as a result of the request by a parent or staff member is required to place equipment only in classrooms or settings in which the parent's child is in regular attendance or to which the staff member is assigned, as applicable; and

(2) a school or campus that receives equipment as a result of the request by a board of trustees, governing body, principal, or assistant principal is required to place equipment only in classrooms or settings identified by the requestor, if the requestor limits the request to specific classrooms or settings subject to this subsection.

(a-1) For purposes of Subsection (a):

(1) a parent of a child who receives special education services in one or more self-contained classrooms or other special education settings may request in writing that equipment be provided to the school or campus at which the child receives those services;

(2) a board of trustees or governing body may request in writing that equipment be provided to one or more specified schools or campuses at which one or more children receive special education services in self-contained classrooms or other special education settings;

(3) the principal or assistant principal of a school or campus at which one or more children receive special education services in self-contained classrooms or other special education settings may request in writing that equipment be provided to the principal's or assistant principal's school or campus; and

(4) a staff member assigned to work with one or more children receiving special education services in self-contained classrooms or other special education settings may request in writing that equipment be provided to the school or campus at which the staff member works.

(a-2) Each school district or open-enrollment charter school shall designate an administrator at the primary administrative office of the district or school with responsibility for coordinating the provision of equipment to schools and campuses in compliance with this section.

(a-3) A written request must be submitted and acted on as follows:

(1) a parent, staff member, or assistant principal must submit a request to the principal or the principal's designee of the school or campus addressed in the request, and the principal or designee must provide a copy of the request to the administrator designated under Subsection (a-2);

(2) a principal must submit a request by the principal to the administrator designated under Subsection (a-2); and
(3) a board of trustees or governing body must submit a request to the administrator designated under Subsection (a-2), and the administrator must provide a copy of the request to the principal or the principal's designee of the school or campus addressed in the request.

(b) A school or campus that places a video camera in a classroom or other special education setting in accordance with Subsection (a) shall operate and maintain the video camera in the classroom or setting, as long as the classroom or setting continues to satisfy the requirements under Subsection (a), for the remainder of the school year in which the school or campus received the request, unless the requestor withdraws the request in writing. If for any reason a school or campus will discontinue operation of a video camera during a school year, not later than the fifth school day before the date the operation of the video camera will be discontinued, the school or campus must notify the parents of each student in regular attendance in the classroom or setting that operation of the video camera will not continue unless requested by a person eligible to make a request under Subsection (a-1). Not later than the 10th school day before the end of each school year, the school or campus must notify the parents of each student in regular attendance in the classroom or setting that operation of the video camera will not continue during the following school year unless a person eligible to make a request for the next school year under Subsection (a-1) submits a new request.

c) Except as provided by Subsection (c-1), video cameras placed under this section must be capable of:

1. covering all areas of the classroom or other special education setting, including a room attached to the classroom or setting used for time-out; and
2. recording audio from all areas of the classroom or other special education setting, including a room attached to the classroom or setting used for time-out.

(c-1) The inside of a bathroom or any area in the classroom or other special education setting in which a student's clothes are changed may not be visually monitored, except for incidental coverage of a minor portion of a bathroom or changing area because of the layout of the classroom or setting.

(d) Before a school or campus activates a video camera in a classroom or other special education setting under this section, the school or campus shall provide written notice of the placement to all school or campus staff and to the parents of each student attending class or engaging in school activities in the classroom or setting.

e) Except as provided by Subsection (e-1), a school district or open-enrollment charter school shall retain video recorded from a video camera placed under this section for at least three months after the date the video was recorded.

(e-1) If a person described by Subsection (i) requests to view a video recording from a video camera placed under this section, a school district or open-enrollment charter school must retain the recording from the date of receipt of the request until the person has viewed the recording and a determination has been made as to whether the recording documents an alleged incident. If the recording documents an alleged incident, the district or school shall retain the recording until the alleged incident has been resolved, including the exhaustion of all appeals.

(f) A school district or open-enrollment charter school may solicit and accept gifts, grants, and donations from any person for use in placing video cameras in classrooms or other special education settings under this section.

(g) This section does not:

1. waive any immunity from liability of a school district or open-enrollment charter school, or of district or school officers or employees; or
2. create any liability for a cause of action against a school district or open-enrollment charter school or against district or school officers or employees.

(h) A school district or open-enrollment charter school may not:
(1) allow regular or continual monitoring of video recorded under this section; or
(2) use video recorded under this section for teacher evaluation or for any other purpose other than the
promotion of safety of students receiving special education services in a self-contained classroom or
other special education setting.

(i) A video recording of a student made according to this section is confidential and may not be released
or viewed except as provided by this subsection or Subsection (i-1) or (j). A school district or open-
enrollment charter school shall release a recording for viewing by:

(1) an employee who is involved in an alleged incident that is documented by the recording and has
been reported to the district or school, on request of the employee;
(2) a parent of a student who is involved in an alleged incident that is documented by the recording and
has been reported to the district or school, on request of the parent;
(3) appropriate Department of Family and Protective Services personnel as part of an investigation
under Section 261.406, Family Code;
(4) a peace officer, a school nurse, a district or school administrator trained in de-escalation and
restraint techniques as provided by commissioner rule, or a human resources staff member designated
by the board of trustees of the school district or the governing body of the open-enrollment charter
school in response to a report of an alleged incident or an investigation of district or school personnel or
a report of alleged abuse committed by a student; or
(5) appropriate agency or State Board for Educator Certification personnel or agents as part of an
investigation.

(i-1) A contractor or employee performing job duties relating to the installation, operation, or maintenance
of video equipment or the retention of video recordings who incidentally views a video recording is not in
violation of Subsection (i).

(j) If a person described by Subsection (i)(4) or (5) who views the video recording believes that the
recording documents a possible violation under Subchapter E, Chapter 261, Family Code, the person
shall notify the Department of Family and Protective Services for investigation in accordance with Section
261.406, Family Code. If any person described by Subsection (i)(3), (4), or (5) who views the recording
believes that the recording documents a possible violation of district or school policy, the person may
allow access to the recording to appropriate legal and human resources personnel. A recording believed
to document a possible violation of district or school policy relating to the neglect or abuse of a student
may be used as part of a disciplinary action against district or school personnel and shall be released at
the request of the student's parent in a legal proceeding. This subsection does not limit the access of a
student's parent to a record regarding the student under the Family Educational Rights and Privacy Act of
1974 (20 U.S.C. Section 1232g) or other law.

(k) The commissioner may adopt rules to implement and administer this section, including rules regarding
the special education settings to which this section applies.

(l) A school district or open-enrollment charter school policy relating to the placement, operation, or
maintenance of video cameras under this section must:

(1) include information on how a person may appeal an action by the district or school that the person
believes to be in violation of this section or a policy adopted in accordance with this section, including
the appeals process under Section 7.057;
(2) require that the district or school provide a response to a request made under this section not later
than the seventh school business day after receipt of the request by the person to whom it must be
submitted under Subsection (a-3) that authorizes the request or states the reason for denying the
request;
(3) except as provided by Subdivision (5), require that a school or a campus begin operation of a video camera in compliance with this section not later than the 45th school business day, or the first school day after the 45th school business day if that day is not a school day, after the request is authorized unless the agency grants an extension of time;

(4) permit the parent of a student whose admission, review, and dismissal committee has determined that the student's placement for the following school year will be in a classroom or other special education setting in which a video camera may be placed under this section to make a request for the video camera by the later of:

(A) the date on which the current school year ends; or

(B) the 10th school business day after the date of the placement determination by the admission, review, and dismissal committee; and

(5) if a request is made by a parent in compliance with Subdivision (4), unless the agency grants an extension of time, require that a school or campus begin operation of a video camera in compliance with this section not later than the later of:

(A) the 10th school day of the fall semester; or

(B) the 45th school business day, or the first school day after the 45th school business day if that day is not a school day, after the date the request is made.

(m) A school district, parent, staff member, or administrator may request an expedited review by the agency of the district's:

(1) denial of a request made under this section;

(2) request for an extension of time to begin operation of a video camera under Subsection (l)(3) or (5); or

(3) determination to not release a video recording to a person described by Subsection (i).

(n) If a school district, parent, staff member, or administrator requests an expedited review under Subsection (m), the agency shall notify all other interested parties of the request.

(o) If an expedited review has been requested under Subsection (m), the agency shall issue a preliminary judgment as to whether the district is likely to prevail on the issue under a full review by the agency. If the agency determines that the district is not likely to prevail, the district must fully comply with this section notwithstanding an appeal of the agency's decision. The agency shall notify the requestor and the district, if the district is not the requestor, of the agency's determination.

(p) The commissioner:

(1) shall adopt rules relating to the expedited review process under Subsections (m), (n), and (o), including standards for making a determination under Subsection (o); and

(2) may adopt rules relating to an expedited review process under Subsections (m), (n), and (o) for an open-enrollment charter school.

(q) The agency shall collect data relating to requests made under this section and actions taken by a school district or open-enrollment charter school in response to a request, including the number of requests made, authorized, and denied.

(r) A video recording under this section is a governmental record only for purposes of Section 37.10, Penal Code.

(s) This section applies to the placement, operation, and maintenance of a video camera in a self-contained classroom or other special education setting during the regular school year and extended school year services.
(t) A video camera placed under this section is not required to be in operation for the time during which students are not present in the classroom or other special education setting.

(u) In this section:

   1. "Parent" includes a guardian or other person standing in parental relation to a student.
   2. "School business day" means a day that campus or school district administrative offices are open.
   3. "Self-contained classroom" does not include a classroom that is a resource room instructional arrangement under Section 42.151.
   4. "Staff member" means a teacher, related service provider, paraprofessional, counselor, or educational aide assigned to work in a self-contained classroom or other special education setting.
   5. "Time-out" has the meaning assigned by Section 37.0021.

§ 37.0021. Use of confinement, restraint, seclusion, and time-out.

(a) It is the policy of this state to treat with dignity and respect all students, including students with disabilities who receive special education services under Subchapter A, Chapter 29. A student with a disability who receives special education services under Subchapter A, Chapter 29, may not be confined in a locked box, locked closet, or other specially designed locked space as either a discipline management practice or a behavior management technique.

(b) In this section:

   1. "Restraint" means the use of physical force or a mechanical device to significantly restrict the free movement of all or a portion of a student's body.
   2. "Seclusion" means a behavior management technique in which a student is confined in a locked box, locked closet, or locked room that:
      (A) is designed solely to seclude a person; and
      (B) contains less than 50 square feet of space.
   3. "Time-out" means a behavior management technique in which, to provide a student with an opportunity to regain self-control, the student is separated from other students for a limited period in a setting:
      (A) that is not locked; and
      (B) from which the exit is not physically blocked by furniture, a closed door held shut from the outside, or another inanimate object.
   4. "Law enforcement duties" means activities of a peace officer relating to the investigation and enforcement of state criminal laws and other duties authorized by the Code of Criminal Procedure.

(c) A school district employee or volunteer or an independent contractor of a district may not place a student in seclusion. This subsection does not apply to the use of seclusion in a court-ordered placement, other than a placement in an educational program of a school district, or in a placement or facility to which the following law, rules, or regulations apply:

   1. the Children's Health Act of 2000, Pub. L. No. 106-310, any subsequent amendments to that Act, any regulations adopted under that Act, or any subsequent amendments to those regulations;

   3. 25 T.A.C. Section 412.308(e).

(d) The commissioner by rule shall adopt procedures for the use of restraint and time-out by a school district employee or volunteer or an independent contractor of a district in the case of a student with a disability receiving special education services under Subchapter A, Chapter 29. A procedure adopted under this subsection must:
(1) be consistent with:
   (A) professionally accepted practices and standards of student discipline and techniques for behavior
       management; and
   (B) relevant health and safety standards; and

(2) identify any discipline management practice or behavior management technique that requires a
district employee or volunteer or an independent contractor of a district to be trained before using that
practice or technique.

(e) In the case of a conflict between a rule adopted under Subsection (d) and a rule adopted under
Subchapter A, Chapter 29, the rule adopted under Subsection (d) controls.

(f) For purposes of this subsection, "weapon" includes any weapon described under Section 37.007(a)(1).
This section does not prevent a student's locked, unattended confinement in an emergency situation
while awaiting the arrival of law enforcement personnel if:
   (1) the student possesses a weapon; and
   (2) the confinement is necessary to prevent the student from causing bodily harm to the student or
       another person.

(g) This section and any rules or procedures adopted under this section do not apply to:
   (1) a peace officer performing law enforcement duties, except as provided by Subsection (i);
   (2) juvenile probation, detention, or corrections personnel; or
   (3) an educational services provider with whom a student is placed by a judicial authority, unless the
       services are provided in an educational program of a school district.

(h) This section and any rules or procedures adopted under this section apply to a peace officer only if the
peace officer:
   (1) is employed or commissioned by a school district; or
   (2) provides, as a school resource officer, a regular police presence on a school district campus under a
       memorandum of understanding between the district and a local law enforcement agency.

(i) A school district shall report electronically to the agency, in accordance with standards provided by
commissioner rule, information relating to the use of restraint by a peace officer performing law
enforcement duties on school property or during a school-sponsored or school-related activity. A report
submitted under this subsection must be consistent with the requirements adopted by commissioner rule
for reporting the use of restraint involving students with disabilities.

REGULATIONS

19 TAC § 89.1053. Procedures for use of restraint and time-out.

(a) Requirement to implement. In addition to the requirements of 34 Code of Federal Regulations (CFR),
§300.324(a)(2)(i), school districts and charter schools must implement the provisions of this section
regarding the use of restraint and time-out. In accordance with the provisions of Texas Education Code
(TEC), §37.0021 (Use of Confinement, Restraint, Seclusion, and Time-Out), it is the policy of the state to
treat with dignity and respect all students, including students with disabilities who receive special
education services under TEC, Chapter 29, Subchapter A.

(b) Definitions.
   (1) Emergency means a situation in which a student's behavior poses a threat of:
       (A) imminent, serious physical harm to the student or others; or
       (B) imminent, serious property destruction.
(2) Restraint means the use of physical force or a mechanical device to significantly restrict the free movement of all or a portion of the student's body.

(3) Time-out means a behavior management technique in which, to provide a student with an opportunity to regain self-control, the student is separated from other students for a limited period in a setting:

(A) that is not locked; and

(B) from which the exit is not physically blocked by furniture, a closed door held shut from the outside, or another inanimate object.

(c) Use of restraint. A school employee, volunteer, or independent contractor may use restraint only in an emergency as defined in subsection (b) of this section and with the following limitations.

(1) Restraint must be limited to the use of such reasonable force as is necessary to address the emergency.

(2) Restraint must be discontinued at the point at which the emergency no longer exists.

(3) Restraint must be implemented in such a way as to protect the health and safety of the student and others.

(4) Restraint must not deprive the student of basic human necessities.

(d) Training on use of restraint. Training for school employees, volunteers, or independent contractors must be provided according to the following requirements.

(1) A core team of personnel on each campus must be trained in the use of restraint, and the team must include a campus administrator or designee and any general or special education personnel likely to use restraint.

(2) Personnel called upon to use restraint in an emergency and who have not received prior training must receive training within 30 school days following the use of restraint.

(3) Training on use of restraint must include prevention and de-escalation techniques and provide alternatives to the use of restraint.

(4) All trained personnel must receive instruction in current professionally accepted practices and standards regarding behavior management and the use of restraint.

(e) Documentation and notification on use of restraint. In a case in which restraint is used, school employees, volunteers, or independent contractors must implement the following documentation requirements.

(1) On the day restraint is utilized, the campus administrator or designee must be notified verbally or in writing regarding the use of restraint.

(2) On the day restraint is utilized, a good faith effort must be made to verbally notify the parent(s) regarding the use of restraint.

(3) Written notification of the use of restraint must be placed in the mail or otherwise provided to the parent within one school day of the use of restraint.

(4) Written documentation regarding the use of restraint must be placed in the student's special education eligibility folder in a timely manner so the information is available to the admission, review, and dismissal (ARD) committee when it considers the impact of the student's behavior on the student's learning and/or the creation or revision of a behavioral intervention plan (BIP).

(5) Written notification to the parent(s) and documentation to the student's special education eligibility folder must include the following:

(A) name of the student;

(B) name of the staff member(s) administering the restraint;
(C) date of the restraint and the time the restraint began and ended;
(D) location of the restraint;
(E) nature of the restraint;
(F) a description of the activity in which the student was engaged immediately preceding the use of restraint;
(G) the behavior that prompted the restraint;
(H) the efforts made to de-escalate the situation and alternatives to restraint that were attempted; and
(I) information documenting parent contact and notification.

(f) Clarification regarding restraint. The provisions adopted under this section do not apply to the use of physical force or a mechanical device that does not significantly restrict the free movement of all or a portion of the student's body. Restraint that involves significant restriction as referenced in subsection (b)(2) of this section does not include:

(1) physical contact or appropriately prescribed adaptive equipment to promote normative body positioning and/or physical functioning;
(2) limited physical contact with a student to promote safety (e.g., holding a student's hand), prevent a potentially harmful action (e.g., running into the street), teach a skill, redirect attention, provide guidance to a location, or provide comfort;
(3) limited physical contact or appropriately prescribed adaptive equipment to prevent a student from engaging in ongoing, repetitive self-injurious behaviors, with the expectation that instruction will be reflected in the individualized education program (IEP) as required by 34 CFR, §300.324(a)(2)(i) to promote student learning and reduce and/or prevent the need for ongoing intervention; or
(4) seat belts and other safety equipment used to secure students during transportation.

(g) Use of time-out. A school employee, volunteer, or independent contractor may use time-out in accordance with subsection (b)(3) of this section with the following limitations.

(1) Physical force or threat of physical force must not be used to place a student in time-out.
(2) Time-out may only be used in conjunction with an array of positive behavior intervention strategies and techniques and must be included in the student's IEP and/or BIP if it is utilized on a recurrent basis to increase or decrease a targeted behavior.
(3) Use of time-out must not be implemented in a fashion that precludes the ability of the student to be involved in and progress in the general curriculum and advance appropriately toward attaining the annual goals specified in the student's IEP.

(h) Training on use of time-out. Training for school employees, volunteers, or independent contractors must be provided according to the following requirements.

(i) Documentation on use of time-out. Necessary documentation or data collection regarding the use of time-out, if any, must be addressed in the IEP or BIP. The ARD committee must use any collected data to judge the effectiveness of the intervention and provide a basis for making determinations regarding its continued use.

(j) Student safety. Any behavior management technique and/or discipline management practice must be implemented in such a way as to protect the health and safety of the student and others. No discipline management practice may be calculated to inflict injury, cause harm, demean, or deprive the student of basic human necessities.

(2) the continued presence of the student in the regular classroom threatens the safety of other students or teachers or will be detrimental to the educational process.

(e) In determining whether there is a reasonable belief that a student has engaged in conduct defined as a felony offense by the Penal Code, the superintendent or the superintendent's designee may consider all available information, including the information furnished under Article 15.27, Code of Criminal Procedure.

(f) Subject to Section 37.007(e), a student who is younger than 10 years of age shall be removed from class and placed in a disciplinary alternative education program under Section 37.008 if the student engages in conduct described by Section 37.007. After reviewing the notice and receiving information from the student's parent or guardian, the superintendent or the superintendent's designee may continue the student's placement in the disciplinary alternative education program if there is reason to believe that the presence of the student in the regular classroom threatens the safety of other students or teachers.

(i) The student or the student's parent or guardian may appeal the superintendent's decision under Subsection (h) to the board of trustees. The student may not be returned to the regular classroom pending the appeal. The board shall, at the next scheduled meeting, review the notice provided under Article 15.27(g), Code of Criminal Procedure, and receive information from the student, the student's parent or guardian, and the superintendent or superintendent's designee and confirm or reverse the decision under Subsection (h). The board shall make a record of the proceedings. If the board confirms the decision of the superintendent or superintendent's designee, the board shall inform the student and the student's parent or guardian of the right to appeal to the commissioner under Subsection (j).

(j) Notwithstanding Section 7.057(e), the decision of the board of trustees under Subsection (i) may be appealed to the commissioner as provided by Sections 7.057(b), (c), (d), and (f). The student may not be returned to the regular classroom pending the appeal.

Each educator shall keep the information received under this subsection confidential from any person not entitled to the information under this subsection, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law. The State Board for Educator Certification may revoke or suspend the certification of an educator who intentionally violates this subsection.

§ 37.0061. Funding for alternative education services in juvenile residential facilities.
A school district that provides education services to pre-adjudicated and post-adjudicated students who are confined by court order in a juvenile residential facility operated by a juvenile board is entitled to count such students in the district's average daily attendance for purposes of receipt of state funds under the Foundation School Program. If the district has a wealth per student greater than the guaranteed wealth
level but less than the equalized wealth level, the district in which the student is enrolled on the date a

court orders the student to be confined to a juvenile residential facility shall transfer to the district

providing education services an amount equal to the difference between the average Foundation School

Program costs per student of the district providing education services and the sum of the state aid and

the money from the available school fund received by the district that is attributable to the student for the

portion of the school year for which the district provides education services to the student.

§ 37.0062. Instructional requirements for alternative education services in juvenile residential

facilities.

(a) The commissioner shall determine the instructional requirements for education services provided by a

school district or open-enrollment charter school in a pre-adjudication secure detention facility or a post-

adjudication secure correctional facility operated by a juvenile board or a post-adjudication secure

correctional facility operated under contract with the Texas Juvenile Justice Department, including

operated by a juvenile board; and

(2) in a post-adjudication secure correctional facility operated under contract with the department.

(c) The commissioner shall adopt rules necessary to administer this section. The rules must ensure that:

(1) a student who receives education services in a pre-adjudication secure detention facility described

by this section is offered courses that enable the student to maintain progress toward completing high

school graduation requirements; and

(2) a student who receives education services in a post-adjudication secure correctional facility

described by this section is offered, at a minimum, the courses necessary to enable the student to

complete high school graduation requirements.

(d) The Texas Juvenile Justice Department shall coordinate with the commissioner in establishing

standards for:

(1) ensuring security in the provision of education services in the facilities; and

(2) providing children in the custody of the facilities access to education services.

§ 37.007. Expulsion for serious offenses.

(e) In accordance with 20 U.S.C. Section 7151, a local educational agency, including a school district,

home-rule school district, or open-enrollment charter school, shall expel a student who brings a firearm,
as defined by 18 U.S.C. Section 921, to school. The student must be expelled from the student's regular

campus for a period of at least one year, except that:

(2) the district or other local educational agency shall provide educational services to an expelled

student in a disciplinary alternative education program as provided by Section 37.008 if the student is

younger than 10 years of age on the date of expulsion; and

(3) the district or other local educational agency may provide educational services to an expelled

student who is 10 years of age or older in a disciplinary alternative education program as provided in

Section 37.008.

   (3) provides for the students who are assigned to the disciplinary alternative education program to be separated from students who are not assigned to the program;
   (4) focuses on English language arts, mathematics, science, history, and self-discipline;
   (5) provides for students' educational and behavioral needs;
   (6) provides supervision and counseling; and
   (7) employs only teachers who meet all certification requirements established under Subchapter B, Chapter 21.
(a-1) The agency shall adopt minimum standards for the operation of disciplinary alternative education programs, including standards relating to:
   (1) student/teacher ratios;
   (2) student health and safety;

   (2) a school-community guidance center; or
   (3) a community-based alternative school.

(d) A school district may provide a disciplinary alternative education program jointly with one or more other districts.
(e) Each school district shall cooperate with government agencies and community organizations that provide services in the district to students placed in a disciplinary alternative education program.
(f) A student removed to a disciplinary alternative education program is counted in computing the average daily attendance of students in the district for the student's time in actual attendance in the program.
(g) A school district shall allocate to a disciplinary alternative education program the same expenditure per student attending the disciplinary alternative education program, including federal, state, and local funds, that would be allocated to the student's school if the student were attending the student's regularly assigned education program, including a special education program.
(h) A school district may not place a student, other than a student suspended as provided under Section 37.005 or expelled as provided under Section 37.007, in an unsupervised setting as a result of conduct for which a student may be placed in a disciplinary alternative education program.
(i) On request of a school district, a regional education service center may provide to the district information on developing a disciplinary alternative education program that takes into consideration the district's size, wealth, and existing facilities in determining the program best suited to the district.
(j) If a student placed in a disciplinary alternative education program enrolls in another school district before the expiration of the period of placement, the board of trustees of the district requiring the placement shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the placement order. The district in which the student enrolls shall inform each educator who will have responsibility for, or will be under the direction and supervision of an educator who will have responsibility for, the instruction of the student of the contents of the placement order. Each educator shall keep the information received under this subsection confidential from any person not entitled to the information under this subsection, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law. The district in which the student enrolls may continue the disciplinary alternative education program placement under the terms of the order or may allow the student to attend regular classes without completing the period of placement. A district may take any action permitted by this subsection if:

(1) the student was placed in a disciplinary alternative education program by an open-enrollment charter school under Section 12.131 and the charter school provides to the district a copy of the placement order; or

(2) the student was placed in a disciplinary alternative education program by a school district in another state and:

   (A) the out-of-state district provides to the district a copy of the placement order; and
   (B) the grounds for the placement by the out-of-state district are grounds for placement in the district in which the student is enrolling.

(j-1) If a student was placed in a disciplinary alternative education program by a school district in another state for a period that exceeds one year and a school district in this state in which the student enrolls continues the placement under Subsection (j), the district shall reduce the period of the placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student.

(k) A program of educational and support services may be provided to a student and the student's parents when the offense involves drugs or alcohol as specified under Section 37.006 or 37.007. A disciplinary alternative education program that provides chemical dependency treatment services must be licensed under Chapter 464, Health and Safety Code.

(l) A school district is required to provide in the district's disciplinary alternative education program a course necessary to fulfill a student's high school graduation requirements only as provided by this subsection. A school district shall offer a student removed to a disciplinary alternative education program an opportunity to complete coursework before the beginning of the next school year. The school district may provide the student an opportunity to complete coursework through any method available, including a correspondence course, distance learning, or summer school. The district may not charge the student for a course provided under this subsection.

(l-1) A school district shall provide the parents of a student removed to a disciplinary alternative education program with written notice of the district's obligation under Subsection (l) to provide the student with an opportunity to complete coursework required for graduation. The notice must:

(1) include information regarding all methods available for completing the coursework; and

(2) state that the methods are available at no cost to the student.

(m) The commissioner shall adopt rules necessary to evaluate annually the performance of each district's disciplinary alternative education program established under this subchapter. The evaluation required by this section shall be based on indicators defined by the commissioner, but must include student performance on assessment instruments required under Sections 39.023(a) and (c). Academically, the
mission of disciplinary alternative education programs shall be to enable students to perform at grade level.

(m-1) The commissioner shall develop a process for evaluating a school district disciplinary alternative education program electronically. The commissioner shall also develop a system and standards for review of the evaluation or use systems already available at the agency. The system must be designed to identify districts that are at high risk of having inaccurate disciplinary alternative education program data or of failing to comply with disciplinary alternative education program requirements. The commissioner shall notify the board of trustees of a district of any objection the commissioner has to the district's disciplinary alternative education program data or of a violation of a law or rule revealed by the data, including any violation of disciplinary alternative education program requirements, or of any recommendation by the commissioner concerning the data. If the data reflect that a penal law has been violated, the commissioner shall notify the county attorney, district attorney, or criminal district attorney, as appropriate, and the attorney general. The commissioner is entitled to access to all district records the commissioner considers necessary or appropriate for the review, analysis, or approval of disciplinary alternative education program data.

(a) Subject to Subsection (h), but notwithstanding any other provision of this subchapter, the board of trustees of a school district, or the board's designee, after an opportunity for a hearing may expel a student and elect to place the student in an alternative setting as provided by Subsection (a-1) if:
   (1) the student:

      (D) has been referred to a juvenile court for allegedly engaging in delinquent conduct under Section 54.03, Family Code, for conduct defined as:

      (G) has been arrested for or charged with a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code; and
   (2) the board or the board's designee determines that the student's presence in the regular classroom:
      (A) threatens the safety of other students or teachers;
      (B) will be detrimental to the educational process; or
(C) is not in the best interests of the district's students.

(a-1) The student must be placed in:

(1) a juvenile justice alternative education program, if the school district is located in a county that operates a juvenile justice alternative education program or the school district contracts with the juvenile board of another county for the provision of a juvenile justice alternative education program; or

(2) a disciplinary alternative education program.

(b) Any decision of the board of trustees or the board's designee under this section is final and may not be appealed.

(c) The board of trustees or the board's designee may expel the student and order placement in accordance with this section regardless of:

(1) the date on which the student's conduct occurred;
(2) the location at which the conduct occurred;
(3) whether the conduct occurred while the student was enrolled in the district; or
(4) whether the student has successfully completed any court disposition requirements imposed in connection with the conduct.

(d) Notwithstanding Section 37.009(c) or (d) or any other provision of this subchapter, a student expelled and ordered placed in an alternative setting by the board of trustees or the board's designee is subject to that placement until:

(1) the student graduates from high school;
(2) the charges described by Subsection (a)(1) are dismissed or reduced to a misdemeanor offense; or
(3) the student completes the term of the placement or is assigned to another program.

(e) A student placed in an alternative setting in accordance with this section is entitled to the periodic review prescribed by Section 37.009(e).

(f) Subsection (d) continues to apply to the student if the student transfers to another school district in the state.

(g) The board of trustees shall reimburse a juvenile justice alternative education program in which a student is placed under this section for the actual cost incurred each day for the student while the student is enrolled in the program. For purposes of this subsection:

(1) the actual cost incurred each day for the student is determined by the juvenile board of the county operating the program; and
(2) the juvenile board shall determine the actual cost each day of the program based on the board's annual audit.

(h) To the extent of a conflict between this section and Section 37.007, Section 37.007 prevails.

§ 37.0082. Assessment of academic growth of students in disciplinary alternative education programs.

(a) To assess a student's academic growth during placement in a disciplinary alternative education program, a school district shall administer to a student placed in a program for a period of 90 school days or longer an assessment instrument approved by the commissioner for that purpose. The instrument shall be administered:

(1) initially on placement of the student in the program; and
(2) subsequently on the date of the student's departure from the program, or as near that date as possible.

(b) The assessment instrument required by this section:
(1) must be designed to assess at least a student's basic skills in reading and mathematics;
(2) may be:
   (A) comparable to any assessment instrument generally administered to students placed in juvenile
       justice alternative education programs for a similar purpose; or
   (B) based on an appropriate alternative assessment instrument developed by the agency to measure
       student academic growth; and
(3) is in addition to the assessment instruments required to be administered under Chapter 39.
(c) The commissioner shall adopt rules necessary to implement this section.

§ 37.011. Juvenile justice alternative education program.
(a) The juvenile board of a county with a population greater than 125,000 shall develop a juvenile justice
    alternative education program, subject to the approval of the Texas Juvenile Justice Department. The
    juvenile board of a county with a population of 125,000 or less may develop a juvenile justice alternative
    education program. For the purposes of this subchapter, only a disciplinary alternative education program
    operated under the authority of a juvenile board of a county is considered a juvenile justice alternative
    education program. A juvenile justice alternative education program in a county with a population of
    125,000 or less:
    (1) is not required to be approved by the department; and
    (2) is not subject to Subsection (c), (d), (f), or (g).
(a-1) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000
    is considered to be a county with a population of 125,000 or less if:
    (1) the county had a population of 125,000 or less according to the 2000 federal census; and
    (2) the juvenile board of the county enters into, with the approval of the Texas Juvenile Justice
        Department, a memorandum of understanding with each school district within the county that:
        (A) outlines the responsibilities of the board and school districts in minimizing the number of students
            expelled without receiving alternative educational services; and
        (B) includes the coordination procedures required by Section 37.013.
(a-2) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000
    is considered to be a county with a population of 125,000 or less if the county:
    (1) has a population of 180,000 or less;
    (2) is adjacent to two counties, each of which has a population of more than 1.7 million; and
    (3) has seven or more school districts located wholly within the county's boundaries.
(a-3) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000
    is considered to be a county with a population of 125,000 or less if the county:
    (1) has a population of more than 200,000 and less than 220,000;
    (2) has five or more school districts located wholly within the county's boundaries; and
    (3) has located in the county a juvenile justice alternative education program that, on May 1, 2011, 
        served fewer than 15 students.
(a-4) A school district located in a county considered to be a county with a population of 125,000 or less
    under Subsection (a-3) shall provide educational services to a student who is expelled from school under
    this chapter. The district is entitled to count the student in the district's average daily attendance for
    purposes of receipt of state funds under the Foundation School Program. An educational placement
    under this section may include:
(1) the district's disciplinary alternative education program; or
(2) a contracted placement with:
   (A) another school district;
   (B) an open-enrollment charter school;
   (C) an institution of higher education;
   (D) an adult literacy council; or
   (E) a community organization that can provide an educational program that allows the student to
       complete the credits required for high school graduation.

(a-5) For purposes of Subsection (a-4), an educational placement other than a school district's
disciplinary alternative education program is subject to the educational and certification requirements
applicable to an open-enrollment charter school under Subchapter D, Chapter 12

(b) If a student admitted into the public schools of a school district under Section 25.001(b) is expelled
from school for conduct for which expulsion is required under Section 37.007(a), (d), or (e), the juvenile
court, the juvenile board, or the juvenile board's designee, as appropriate, shall:

   (1) if the student is placed on probation under Section 54.04, Family Code, order the student to attend
       the juvenile justice alternative education program in the county in which the student resides from the
date of disposition as a condition of probation, unless the child is placed in a post-adjudication
       treatment facility;
   (2) if the student is placed on deferred prosecution under Section 53.03, Family Code, by the court,
       prosecutor, or probation department, require the student to immediately attend the juvenile justice
       alternative education program in the county in which the student resides for a period not to exceed six
       months as a condition of the deferred prosecution;
   (3) in determining the conditions of the deferred prosecution or court-ordered probation, consider the
       length of the school district's expulsion order for the student; and
   (4) provide timely educational services to the student in the juvenile justice alternative education
       program in the county in which the student resides, regardless of the student's age or whether the
       juvenile court has jurisdiction over the student.

(b-1) Subsection (b)(4) does not require that educational services be provided to a student who is not
entitled to admission into the public schools of a school district under Section 25.001(b).

(c) A juvenile justice alternative education program shall adopt a student code of conduct in accordance
with Section 37.001.

(d) A juvenile justice alternative education program must focus on English language arts, mathematics,
science, social studies, and self-discipline. Each school district shall consider course credit earned by a
student while in a juvenile justice alternative education program as credit earned in a district school. Each
program shall administer assessment instruments under Subchapter B, Chapter 39, and shall offer a high
school equivalency program. The juvenile board or the board's designee, with the parent or guardian of
each student, shall regularly review the student's academic progress. In the case of a high school
student, the board or the board's designee, with the student's parent or guardian, shall review the
student's progress towards meeting high school graduation requirements and shall establish a specific
graduation plan for the student. The program is not required to provide a course necessary to fulfill a
student's high school graduation requirements other than a course specified by this subsection.

(e) A juvenile justice alternative education program may be provided in a facility owned by a school
district. A school district may provide personnel and services for a juvenile justice alternative education
program under a contract with the juvenile board.
(f) A juvenile justice alternative education program must operate at least seven hours per day and 180 days per year, except that a program may apply to the Texas Juvenile Justice Department for a waiver of the 180-day requirement. The department may not grant a waiver to a program under this subsection for a number of days that exceeds the highest number of instructional days waived by the commissioner during the same school year for a school district served by the program.

(g) A juvenile justice alternative education program shall be subject to a written operating policy developed by the local juvenile justice board and submitted to the Texas Juvenile Justice Department for review and comment. A juvenile justice alternative education program is not subject to a requirement imposed by this title, other than a reporting requirement or a requirement imposed by this chapter or by Chapter 39 or 39A.

(h) Academically, the mission of juvenile justice alternative education programs shall be to enable students to perform at grade level. For purposes of accountability under Chapters 39 and 39A, a student enrolled in a juvenile justice alternative education program is reported as if the student were enrolled at the student's assigned campus in the student's regularly assigned education program, including a special education program. Annually the Texas Juvenile Justice Department, with the agreement of the commissioner, shall develop and implement a system of accountability consistent with Chapters 39 and 39A, where appropriate, to assure that students make progress toward grade level while attending a juvenile justice alternative education program. The department shall adopt rules for the distribution of funds appropriated under this section to juvenile boards in counties required to establish juvenile justice alternative education programs. Except as determined by the commissioner, a student served by a juvenile justice alternative education program on the basis of an expulsion required under Section 37.007(a), (d), or (e) is not eligible for Foundation School Program funding under Chapter 42 or 31 if the juvenile justice alternative education program receives funding from the department under this subchapter.

(i) A student transferred to a juvenile justice alternative education program must participate in the program for the full period ordered by the juvenile court unless the student's school district agrees to accept the student before the date ordered by the juvenile court. The juvenile court may not order a period of transfer under this section that exceeds the term of any probation ordered by the juvenile court.

(j) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's professional employees and volunteers are immune from liability to the same extent as a school district's professional employees and volunteers.

(k) Each school district in a county with a population greater than 125,000 and the county juvenile board shall annually enter into a joint memorandum of understanding that:

1. outlines the responsibilities of the juvenile board concerning the establishment and operation of a juvenile justice alternative education program under this section;
2. defines the amount and conditions on payments from the school district to the juvenile board for students of the school district served in the juvenile justice alternative education program whose placement was not made on the basis of an expulsion required under Section 37.007(a), (d), or (e);
3. establishes that a student may be placed in the juvenile justice alternative education program if the student engages in serious misbehavior, as defined by Section 37.007(c);
4. identifies and requires a timely placement and specifies a term of placement for expelled students for whom the school district has received a notice under Section 52.041(d), Family Code;
5. establishes services for the transitioning of expelled students to the school district prior to the completion of the student's placement in the juvenile justice alternative education program;
(6) establishes a plan that provides transportation services for students placed in the juvenile justice alternative education program;

(7) establishes the circumstances and conditions under which a juvenile may be allowed to remain in the juvenile justice alternative education program setting once the juvenile is no longer under juvenile court jurisdiction; and

(8) establishes a plan to address special education services required by law.

(l) The school district shall be responsible for providing an immediate educational program to students who engage in behavior resulting in expulsion under Section 37.007(b) and (f) but who are not eligible for admission into the juvenile justice alternative education program in accordance with the memorandum of understanding required under this section. The school district may provide the program or the school district may contract with a county juvenile board, a private provider, or one or more other school districts to provide the program. The memorandum of understanding shall address the circumstances under which such students who continue to engage in serious misbehavior, as defined by Section 37.007(c), shall be admitted into the juvenile justice alternative education program.

(m) Each school district in a county with a population greater than 125,000 and the county juvenile board shall adopt a joint memorandum of understanding as required by this section not later than September 1 of each school year.

(n) If a student who is ordered to attend a juvenile justice alternative education program moves from one county to another, the juvenile court may request the juvenile justice alternative education program in the county to which the student moves to provide educational services to the student in accordance with the local memorandum of understanding between the school district and juvenile board in the receiving county.

(o) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's employees and volunteers are immune from liability to the same extent as a school district's employees and volunteers.

(p) If a district elects to contract with the juvenile board for placement in the juvenile justice alternative education program of students expelled under Section 37.007(b), (c), and (f) and the juvenile board and district are unable to reach an agreement in the memorandum of understanding, either party may request that the issues of dispute be referred to a binding arbitration process that uses a qualified alternative dispute resolution arbitrator in which each party will pay its pro rata share of the arbitration costs. Each party must submit its final proposal to the arbitrator. If the parties cannot agree on an arbitrator, the juvenile board shall select an arbitrator, the school districts shall select an arbitrator, and those two arbitrators shall select an arbitrator who will decide the issues in dispute. An arbitration decision issued under this subsection is enforceable in a court in the county in which the juvenile justice alternative education program is located. Any decision by an arbitrator concerning the amount of the funding for a student who is expelled and attending a juvenile justice alternative education program must provide an amount sufficient based on operation of the juvenile justice alternative education program in accordance with this chapter. In determining the amount to be paid by a school district for an expelled student enrolled in a juvenile justice alternative education program, the arbitrator shall consider the relevant factors, including evidence of:

(1) the actual average total per student expenditure in the district's alternative education setting;

(2) the expected per student cost in the juvenile justice alternative education program as described and agreed on in the memorandum of understanding and in compliance with this chapter; and

(3) the costs necessary to achieve the accountability goals under this chapter.
(q) In accordance with rules adopted by the board of trustees for the Teacher Retirement System of Texas, a certified educator employed by a juvenile board in a juvenile justice alternative education program shall be eligible for membership and participation in the system to the same extent that an employee of a public school district is eligible. The juvenile board shall make any contribution that otherwise would be the responsibility of the school district if the person were employed by the school district, and the state shall make any contribution to the same extent as if the person were employed by a school district.

§ 37.012. Funding of juvenile justice alternative education programs.

(a) Subject to Section 37.011(n), the school district in which a student is enrolled on the date the student is expelled for conduct for which expulsion is permitted but not required under Section 37.007 shall, if the student is served by the juvenile justice alternative education program, provide funding to the juvenile board for the portion of the school year for which the juvenile justice alternative education program provides educational services in an amount determined by the memorandum of understanding under Section 37.011(k)(2).

(b) Funds received under this section must be expended on juvenile justice alternative education programs.

(c) The Office of State-Federal Relations shall assist a local juvenile probation department in identifying additional state or federal funds to assist local juvenile probation departments conducting educational or job training programs within juvenile justice alternative education programs.

(d) A school district is not required to provide funding to a juvenile board for a student who is assigned by a court to a juvenile justice alternative education program but who has not been expelled.

(e) Except as otherwise authorized by law, a juvenile justice alternative education program may not require a student or the parent or guardian of a student to pay any fee, including an entrance fee or supply fee, for participating in the program.

§ 37.019. Emergency placement or expulsion.

(a) This subchapter does not prevent the principal or the principal's designee from ordering the immediate placement of a student in a disciplinary alternative education program if the principal or the principal's designee reasonably believes the student's behavior is so unruly, disruptive, or abusive that it seriously interferes with a teacher's ability to communicate effectively with the students in a class, with the ability of the student's classmates to learn, or with the operation of school or a school-sponsored activity.

(b) This subchapter does not prevent the principal or the principal's designee from ordering the immediate expulsion of a student if the principal or the principal's designee reasonably believes that action is necessary to protect persons or property from imminent harm.

(c) At the time of an emergency placement or expulsion, the student shall be given oral notice of the reason for the action. The reason must be a reason for which placement in a disciplinary alternative education program or expulsion may be made on a nonemergency basis. Within a reasonable time after the emergency placement or expulsion, but not later than the 10th day after the date of the placement or expulsion, the student shall be accorded the appropriate due process as required under Section 37.009. If the student subject to the emergency placement or expulsion is a student with disabilities who receives special education services, the emergency placement or expulsion is subject to federal law and regulations and must be consistent with the consequences that would apply under this subchapter to a student without a disability.

(d) A principal or principal's designee is not liable in civil damages for an emergency placement under this section.
§ 37.031. Establishment of pilot program.

(a) A pilot program is established under this subchapter for placement of high school students in Junior Reserve Officers' Training Corps programs as an alternative, in accordance with Section 37.032, to placement in disciplinary alternative education programs or juvenile justice alternative education programs.

(b) The pilot program applies only to a student enrolled in a high school:

(1) located in a municipality that:
   (A) has a population of 200,000 or more;
   (B) is located on an international border; and
   (C) has more than 20 percent of the population 18 to 24 years of age who have not graduated from high school, according to the most recent American Community Survey five-year estimates compiled by the United States Census Bureau; and

(2) designated by the agency under Subsection (c).

(c) The agency shall designate not more than two high schools that are located in a municipality described by Subsection (b)(1) and that offer Junior Reserve Officers' Training Corps programs to participate in the pilot program. The commissioner by rule shall adopt additional criteria that promote positive student educational outcomes for the agency to use in making designations under this subchapter.

(d) The application of this subchapter to a student enrolled in a high school described by Subsection (b)(1) is not affected if, after the high school is designated under Subsection (c), the high school graduation rate in the municipality changes and the municipality no longer meets the requirements of Subsection (b)(1)(C).

§ 37.032. Participation requirements and exceptions.

(a) Notwithstanding any other provision of Subchapter A and except as provided by Subsection (c), a student subject to this subchapter who is otherwise required or permitted under Subchapter A to be placed in a disciplinary alternative education program or juvenile justice alternative education program may, instead of that placement, choose to participate in a Junior Reserve Officers' Training Corps program if the student meets the initial eligibility requirements for the program.

(b) A student who chooses to participate in a Junior Reserve Officers' Training Corps program as authorized under this subchapter shall continue to attend the student's regularly assigned classes, except that the student's schedule may be modified to the extent necessary to provide for attendance in the program.

(c) This subchapter does not apply if:

(1) the student is removed from class and placed into another appropriate classroom or into in-school suspension under Section 37.002 or is suspended under Section 37.005;

(2) the student engages in conduct described by Section 37.006(a)(2)(B) or Section 37.007(a)(2) or (b)(2)(C);

(3) the continued presence of the student in the regular classroom threatens the safety of other students or teachers; or

(4) the student engages in conduct for which the student is required to be expelled from the student's regular campus under federal law.
§ 37.033. Student code of conduct.
(a) In addition to the requirements for the student code of conduct under Section 37.001, the student code of conduct for a school district that includes a school designated under Section 37.031(c) must, consistent with this subchapter and as applied to the designated school:

(1) specify conditions that authorize a principal or other appropriate administrator to permit a student to choose to participate in a Junior Reserve Officers' Training Corps program as an alternative to placement in a disciplinary alternative education program or juvenile justice alternative education program;

(2) specify that consideration will be given, as a factor in each decision concerning alternative participation in a Junior Reserve Officers' Training Corps program, to:

(A) self-defense;
(B) intent or lack of intent at the time the student engaged in the conduct;
(C) a student's disciplinary history; or
(D) a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct;

(3) provide guidelines that promote positive student educational outcomes for students choosing to participate in a Junior Reserve Officers' Training Corps program as an alternative to placement in a disciplinary alternative education program or juvenile justice alternative education program;

(4) provide guidelines for setting the length of a term of participation in a Junior Reserve Officers' Training Corps program as an alternative to placement in a disciplinary alternative education program or juvenile justice alternative education program; and

(5) address the notification of a student's parent or guardian of a violation of the student code of conduct committed by the student that results in the student's choice to participate in a Junior Reserve Officers' Training Corps program as an alternative to placement in a disciplinary alternative education program or a juvenile justice alternative education program.

(b) This section does not require the student code of conduct to specify a minimum term of participation in a Junior Reserve Officers' Training Corps program.

§ 37.034. Determination regarding certain conduct.
Section 37.006(e) applies to this subchapter.

§ 37.035. Notice to parents.
(a) Before a student may participate in a Junior Reserve Officers' Training Corps program as authorized under this subchapter, the school district shall notify the student's parent or guardian of the student's proposed placement. The notice must include the reason for the proposed placement.

(b) A noncustodial parent may request in writing that a school district or school, for the remainder of the school year in which the request is received, provide that parent with a copy of any written notification relating to the student's placement as authorized under this subchapter that is generally provided by the district or school to a student's parent or guardian.

§ 37.036. Term of placement.
(a) The board of trustees of the school district or the board's designee shall set a term for a student's participation in a Junior Reserve Officers' Training Corps program as authorized under this subchapter. The term must be for a period consistent with the guidelines adopted under the student code of conduct in accordance with Section 37.033(a)(4). If the period of placement is inconsistent with the guidelines
adopted under the student code of conduct, the notice under Section 37.035(a) must provide an explanation of the inconsistency.

(b) Before a student may participate in a Junior Reserve Officers' Training Corps program as authorized under this subchapter for a period that extends beyond the end of a school year, the board of trustees or the board's designee must determine that the student has engaged in serious or persistent misbehavior that violates the district's student code of conduct. The period of participation may not exceed one year unless, after review, the board or the board's designee determines that extended placement is in the best interest of the student.

§ 37.037. Notice to educators.

(a) The board of trustees of the school district shall inform each educator who has responsibility for, or is under the direction and supervision of an educator who has responsibility for, the instruction of a student who is participating in a Junior Reserve Officers' Training Corps program as authorized under this subchapter.

(b) Each educator shall keep the information received under this section confidential from any person not entitled to the information under this section, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law.

(c) The State Board for Educator Certification may revoke or suspend the certification of an educator who intentionally violates this section or Section 37.038.

§ 37.038. Transfer of student under pilot program.

(a) If a student participating in a Junior Reserve Officers' Training Corps program as authorized under this subchapter enrolls in another school district before the expiration of the designated period of participation, the board of trustees of the school district in which the student was participating in the program shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the placement order. The district in which the student enrolls shall inform each educator who will have responsibility for, or will be under the direction and supervision of an educator who will have responsibility for, the instruction of the student of the contents of the placement order.

(b) Each educator shall keep the information received under this section confidential from any person not entitled to the information under this section, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law.

(c) Subject to Subsection (d), the school district in which the student enrolls may continue the Junior Reserve Officers' Training Corps program placement under the terms of the order or may allow the student to attend regular classes without completing the designated period of participation.

(d) If the school the student attends in the school district in which the student enrolls does not offer a Junior Reserve Officers' Training Corps program, the student may be placed in a disciplinary alternative education program or a juvenile justice alternative education program under the procedures provided by this subchapter for the remainder of the term set under Section 37.036.

§ 37.039. Procedure for addressing failure to complete designated period of participation or subsequent conduct after program participation.

A student who chooses to participate in a Junior Reserve Officers' Training Corps program as authorized under this subchapter is subject to the provisions of Subchapter A relating to removal from class and placement in a disciplinary alternative education program or juvenile justice alternative education program if the student:

(1) except as provided by Section 37.038(c), fails to complete the designated period of participation under the terms of an order as authorized by this section; or
(2) after completion of any participation in a Junior Reserve Officers' Training Corps program as authorized under this subchapter, engages in subsequent conduct requiring or permitting the student to be removed from class and placed in a disciplinary alternative education program or juvenile justice alternative education program under Subchapter A.

§ 37.040. Applicability to subchapter a.
Sections 37.002, 37.006, and 37.007 are subject to this subchapter.

§ 37.041. Review of program; report.
Not later than January 1, 2019, the commissioner shall review the pilot program established under this subchapter and submit to the governor, the lieutenant governor, the speaker of the house of representatives, and the presiding officer of each legislative standing committee with primary jurisdiction over primary and secondary education a written report regarding the progress made by the pilot program in improving student educational outcomes.

§ 37.042. Expiration.
This subchapter expires September 1, 2019.

REGULATIONS

19 TAC § 89.1052. Discretionary placements in Juvenile Justice Alternative Education Programs (JJAEP).

(a) This section applies only to the expulsion of a student with a disability under:
   (1) Texas Education Code (TEC), §37.007(b), (c), or (f); or
   (2) TEC, §37.007(d), as a result of conduct that contains the elements of any offense listed in TEC, §37.007(b)(2)(C), against any employee or volunteer in retaliation for or as a result of the person's employment or association with a school district.

(b) In a county with a Juvenile Justice Alternative Education Program (JJAEP), a local school district must invite the administrator of the JJAEP or the administrator's designee to an admission, review, and dismissal (ARD) committee meeting convened to discuss the expulsion of a student with a disability under one of the provisions listed in subsection (a) of this section, relating to offenses for which a school district may expel a student. The school district must provide written notice of the meeting at least five school days before the meeting or a shorter timeframe agreed to by the student's parents. A copy of the student's current individualized education program (IEP) must be provided to the JJAEP representative with the notice. If the JJAEP representative is unable to attend the ARD committee meeting, the representative must be given the opportunity to participate in the meeting through alternative means, including conference telephone calls. The JJAEP representative may participate in the meeting to the extent that the meeting relates to the student's placement in the JJAEP and implementation of the student's current IEP in the JJAEP.

(c) For a student with a disability who was expelled under one of the provisions listed in subsection (a) of this section and placed in the JJAEP, an ARD committee meeting must be convened to reconsider placement of the student in the JJAEP if the JJAEP provides written notice to the school district of specific concerns that the student's educational or behavioral needs cannot be met in the JJAEP. The school district must invite the JJAEP administrator or the administrator's designee to the meeting and must provide written notice of the meeting at least five school days before the meeting or a shorter timeframe agreed to by the student's parents. If the JJAEP representative is unable to attend the ARD committee meeting, the representative must be given the opportunity to participate in the meeting through alternative
means, including conference telephone calls. The JJAEP representative may participate in the meeting to
the extent that the meeting relates to the student's continued placement in the JJAEP.

19 TAC § 103.1201 Standards for the operation of school district disciplinary alternative education programs.

(a) A disciplinary alternative education program (DAEP) established in conformance with the Tex. Educ.
Code (TEC), § 37.008, and this section is defined as an educational and self-discipline alternative
instructional program, adopted by local policy, for students in elementary through high school grades who
are removed from their regular classes for mandatory or discretionary disciplinary reasons and placed in a
DAEP.

(b) Each school district participating in a shared services arrangement (SSA) for DAEP services shall be
responsible for ensuring that the board-approved district improvement plan and the improvement plans
for each campus required by the TEC, § 11.251 and § 11.252, include the performance of the DAEP
student group for the respective district. The identified objectives for the improvement plans shall include:

(1) student groups served, including overrepresentation of students from economically disadvantaged
families, with ethnic and racial representations, and with a disability who receive special education and
limited English proficiency services;

(2) attendance rates;

(3) pre- and post-assessment results;

(4) dropout rates;

(5) graduation rates; and

(6) recidivism rates.

(c) A DAEP may be located on-campus or off-campus in adherence with requirements specified in §
129.1025 of this title (relating to Adoption By Reference: Student Attendance Accounting Handbook). For
reporting purposes, the DAEP shall use the county-district-campus number of the student's locally
assigned campus (the campus the student would be attending if the student was not attending the
DAEP).

(d) An individual school district or an SSA may contract with third parties for DAEP services. The district
must require and ensure compliance with district responsibilities that are transferred to the third-party
provider.

(e) The campus of accountability for student performance must be the student's locally assigned campus,
including when the individual school district or SSA contracts with a third party for DAEP services.

(f) Each school district shall provide an academic and self-discipline program that leads to graduation and
includes instruction in each student's currently enrolled foundation curriculum necessary to meet the
student's individual graduation plan, including special education services.

(1) A student's four-year graduation plan (minimum, recommended, or distinguished achievement-
advanced) may not be altered when the student is assigned to a DAEP. A student must be offered an
opportunity to complete a foundation curriculum course in which the student was enrolled at the time of
removal before the beginning of the next school year, including correspondence or distance learning
opportunities or summer school. A district may not charge for a course required under this section.

(2) The school day for a DAEP shall be at least seven hours but no more than ten hours in length each
day, including intermissions and recesses as required under the TEC, § 25.082(a).

(3) Notwithstanding the TEC, § 37.008(a)(3), summer programs provided by the district may serve
students assigned to a DAEP in conjunction with other students, as determined by local policy.
(g) A DAEP program serving a student with a disability who receives special education services shall provide educational services that will support the student in meeting the goals identified in the individualized education program (IEP) established by a duly-constituted admission, review, and dismissal (ARD) committee, in accordance with the TEC, § 37.004, and federal requirements.

(h) Each school district is responsible for the safety and supervision of the students assigned to the DAEP; however, the immunity from the liability established in the TEC, § 22.0511, shall not be impacted.

1. The certified teacher-to-student ratio in a DAEP shall be one teacher for each 15 students in elementary through high school grades. Elementary grade students assigned to the DAEP shall be separated from secondary grade students assigned to the DAEP. The designation of elementary and secondary will be determined by adopted local policy.

2. The DAEP staff shall be prepared and trained to respond to health issues and emergencies.

3. Students in the DAEP shall be separated from students in a juvenile justice alternative education program (JJAEP) and students who are not assigned to the DAEP.

4. Each district shall establish a board-approved policy for discipline and intervention measures to prevent and intervene against unsafe behavior and include disciplinary actions that do not jeopardize students' physical health and safety, harm emotional well-being, or discourage physical activity.

(i) Staff at each DAEP shall participate in training programs on education, behavior management, and safety procedures that focus on positive and proactive behavior management strategies. The training programs must also target prevention and intervention that include:

1. Training on the education and discipline of students with disabilities who receive special education services;

2. Instruction in social skills and problem-solving skills that addresses diversity, dating violence, anger management, and conflict resolution to teach students how to interact with teachers, family, peers, authority figures, and the general public; and

3. Annual training on established procedures for reporting abuse, neglect, or exploitation of students.

(j) Procedures for each DAEP shall be developed and implemented for newly-entering students and their parents or guardians on the expectations of the DAEP, including written contracts between students, parents or guardians, and the DAEP that formalize expectations and establish the students' individual plans for success.

(k) The transition procedures established for a student who is exiting a DAEP and returning to the student's locally assigned campus shall be implemented and updated annually as needed. The transition procedures shall include:

1. An established timeline for the student's transition from the DAEP to the student's locally assigned campus; and

2. Written and oral communication from the DAEP staff to the locally assigned campus during the student's assignment to the DAEP, including the student's educational performance and tasks completed.

19 TAC § 103.1203. Assessment of academic growth of students in disciplinary alternative education programs.

(a) Each school district shall be responsible for administering a pre- and post-assessment for each student assigned to the district's disciplinary alternative education program (DAEP) for a period of 90 school days or longer as required by the Tex. Educ. Code (TEC), § 37.0082. Released state assessments for reading and mathematics for the appropriate grade may be used. A school district may apply for approval of an assessment that includes the Texas Essential Knowledge and Skills (TEKS) for
reading and mathematics for the student's assigned grade. The commissioner of education will publish on the Texas Education Agency website a list of assessments approved for use in each school year.

(b) The grade level of an assessment shall be based upon the academic grade completed prior to the student being assigned to a DAEP if placement occurs in the fall or first semester of the academic school year. If placement occurs in the spring or second semester of the academic school year, the student shall be administered an assessment based on the current grade level.

(c) Each school district shall provide an academic report to the student's locally assigned campus, which shall include the pre- and post-assessment results of the student's basic skills in reading and mathematics, within ten days of the student completing the post-assessment.

(d) Procedures for administering the pre- and post-assessment shall be developed and implemented in accordance with local school district policy.

(e) A student in the district's DAEP must also be assessed under the requirements of the TEC, Chapter 39.

§ 25.001. Admission.
(a) A person who, on the first day of September of any school year, is at least five years of age and under 21 years of age, or is at least 21 years of age and under 26 years of age and is admitted by a school district to complete the requirements for a high school diploma is entitled to the benefits of the available school fund for that year. Any other person enrolled in a prekindergarten class under Section 29.153 or Subchapter E-1, Chapter 29, is entitled to the benefits of the available school fund.

(b) The board of trustees of a school district or its designee shall admit into the public schools of the district free of tuition a person who is over five and younger than 21 years of age on the first day of September of the school year in which admission is sought, and may admit a person who is at least 21 years of age and under 26 years of age for the purpose of completing the requirements for a high school diploma, if:

(1) the person and either parent of the person reside in the school district;
(2) the person does not reside in the school district but a parent of the person resides in the school district and that parent is a joint managing conservator or the sole managing conservator or possessory conservator of the person;
(3) the person and the person's guardian or other person having lawful control of the person under a court order reside within the school district;
(4) the person has established a separate residence under Subsection (d);
(5) the person is homeless, as defined by 42 U.S.C. Section 11302, regardless of the residence of the person, of either parent of the person, or of the person's guardian or other person having lawful control of the person;
(6) the person is a foreign exchange student placed with a host family that resides in the school district by a nationally recognized foreign exchange program, unless the school district has applied for and been granted a waiver by the commissioner under Subsection (e);
(7) the person resides at a residential facility located in the district;
(8) the person resides in the school district and is 18 years of age or older or the person's disabilities of minority have been removed; or
(9) the person does not reside in the school district but the grandparent of the person:
   (A) resides in the school district; and
   (B) provides a substantial amount of after-school care for the person as determined by the board.

(b-1) A person who is 21 years of age or older and is admitted by a school district for the purpose stated in Subsection (b) is not eligible for placement in a disciplinary alternative education program or a juvenile justice alternative education program if the person engages in conduct that would require or authorize
such placement for a student under the age of 21. If the student engages in conduct that would otherwise require such placement, the district shall revoke admission of the student into the public schools of the district.

(b-2) A person who is 21 years of age or older who is admitted by a school district to complete the requirements for a high school diploma and who has not attended school in the three preceding school years may not be placed with a student who is 18 years of age or younger in a classroom setting, a cafeteria, or another district-sanctioned school activity. Nothing in this subsection prevents a student described by this subsection from attending a school-sponsored event that is open to the public as a member of the public.

(c) The board of trustees of a school district or the board's designee may require evidence that a person is eligible to attend the public schools of the district at the time the board or its designee considers an application for admission of the person. The board of trustees or its designee shall establish minimum proof of residency acceptable to the district. The board of trustees or its designee may make reasonable inquiries to verify a person’s eligibility for admission.

(d) For a person under the age of 18 years to establish a residence for the purpose of attending the public schools separate and apart from the person's parent, guardian, or other person having lawful control of the person under a court order, it must be established that the person's presence in the school district is not for the primary purpose of participation in extracurricular activities. The board of trustees shall determine whether an applicant for admission is a resident of the school district for purposes of attending the public schools and may adopt reasonable guidelines for making a determination as necessary to protect the best interests of students. The board of trustees is not required to admit a person under this subsection if the person:

1. has engaged in conduct or misbehavior within the preceding year that has resulted in:
   A. removal to a disciplinary alternative education program; or
   B. expulsion;
2. has engaged in delinquent conduct or conduct in need of supervision and is on probation or other conditional release for that conduct; or
3. has been convicted of a criminal offense and is on probation or other conditional release.

(e) A school district may request that the commissioner waive the requirement that the district admit a foreign exchange student who meets the conditions of Subsection (b)(6). The commissioner shall respond to a district's request not later than the 60th day after the date of receipt of the request. The commissioner shall grant the request and issue a waiver effective for a period not to exceed three years if the commissioner determines that admission of a foreign exchange student would:

1. create a financial or staffing hardship for the district;
2. diminish the district's ability to provide high quality educational services for the district's domestic students; or
3. require domestic students to compete with foreign exchange students for educational resources.

(f) A child placed in foster care by an agency of the state or by a political subdivision shall be permitted to attend the public schools in the district in which the foster parents reside free of any charge to the foster parents or the agency. A durational residence requirement may not be used to prohibit that child from fully participating in any activity sponsored by the school district.

(g) A student who was enrolled in a primary or secondary public school before the student entered the conservatorship of the Department of Family and Protective Services and who is placed at a residence outside the attendance area for the school or outside the school district is entitled to continue to attend the school in which the student was enrolled immediately before entering conservatorship until the
student successfully completes the highest grade level offered by the school at the time of placement without payment of tuition. The student is entitled to continue to attend the school regardless of whether the student remains in the conservatorship of the department for the duration of the student's enrollment in the school.

(g-1) If a student who is in the conservatorship of the department is enrolled in a primary or secondary public school, other than the school in which the student was enrolled at the time the student was placed in the conservatorship of the department, the student is entitled to continue to attend that school without payment of tuition until the student successfully completes the highest grade level offered by the school at the time of enrollment in the school, even if the child's placement is changed to a residence outside the attendance area for that school or outside the school district. The student is entitled to continue to attend the school regardless of whether the student remains in the conservatorship of the department for the duration of the student's enrollment in the school.

(h) In addition to the penalty provided by Section 37.10, Penal Code, a person who knowingly falsifies information on a form required for enrollment of a student in a school district is liable to the district if the student is not eligible for enrollment in the district but is enrolled on the basis of the false information. The person is liable, for the period during which the ineligible student is enrolled, for the greater of:

1. the maximum tuition fee the district may charge under Section 25.038; or
2. the amount the district has budgeted for each student as maintenance and operating expenses.

(i) A school district may include on an enrollment form notice of the penalties provided by Section 37.10, Penal Code, and of the liability provided by Subsection (h) for falsifying information on the form.

(j) For the purposes of this subchapter, the board of trustees of a school district by policy may allow a person showing evidence of legal responsibility for a child other than an order of a court to substitute for a guardian or other person having lawful control of the child under an order of a court.

§ 25.085. Compulsory student attendance.

(a) A child who is required to attend school under this section shall attend school each school day for the entire period the program of instruction is provided.

(b) Unless specifically exempted by Section 25.086, a child who is at least six years of age, or who is younger than six years of age and has previously been enrolled in first grade, and who has not yet reached the child's 19th birthday shall attend school.

(c) On enrollment in prekindergarten or kindergarten, a child shall attend school.

(d) Unless specifically exempted by Section 25.086, a student enrolled in a school district must attend:

1. an extended-year program for which the student is eligible that is provided by the district for students identified as likely not to be promoted to the next grade level or tutorial classes required by the district under Section 29.084;
2. an accelerated reading instruction program to which the student is assigned under Section 28.006(g);
3. an accelerated instruction program to which the student is assigned under Section 28.021;
4. a basic skills program to which the student is assigned under Section 29.086; or
5. a summer program provided under Section 37.008(l) or Section 37.021.

(e) A person who voluntarily enrolls in school or voluntarily attends school after the person's 19th birthday shall attend school each school day for the entire period the program of instruction is offered. A school district may revoke for the remainder of the school year the enrollment of a person who has more than five absences in a semester that are not excused under Section 25.087, except a school district may not
revoke the enrollment of a person under this subsection on a day on which the person is physically
present at school. A person whose enrollment is revoked under this subsection may be considered an
unauthorized person on school district grounds for purposes of Section 37.107.

(f) The board of trustees of a school district may adopt a policy requiring a person described by
Subsection (e) who is under 21 years of age to attend school until the end of the school year. Section
65.003(a), Family Code, does not apply to a person subject to a policy adopted under this subsection.
Sections 25.093 and 25.095 do not apply to the parent of a person subject to a policy adopted under this
subsection.

(g) After the third unexcused absence of a person described by Subsection (e), a school district shall
issue a warning letter to the person that states the person's enrollment may be revoked for the remainder
of the school year if the person has more than five unexcused absences in a semester.

(h) As an alternative to revoking a person's enrollment under Subsection (e), a school district may impose
a behavior improvement plan described by Section 25.0915(a-1)(1).

§ 25.0915. Truancy prevention measures.

(a) A school district shall adopt truancy prevention measures designed to:

(1) address student conduct related to truancy in the school setting before the student engages in
conduct described by Section 65.003(a), Family Code; and

(2) minimize the need for referrals to truancy court for conduct described by Section 65.003(a), Family
Code.

(a-1) As a truancy prevention measure under Subsection (a), a school district shall take one or more of
the following actions:

(1) impose:

   (A) a behavior improvement plan on the student that must be signed by an employee of the school,
   that the school district has made a good faith effort to have signed by the student and the student's
   parent or guardian, and that includes:

   (i) a specific description of the behavior that is required or prohibited for the student;

   (ii) the period for which the plan will be effective, not to exceed 45 school days after the date the
   contract becomes effective; or

   (iii) the penalties for additional absences, including additional disciplinary action or the referral of the
   student to a truancy court; or

   (B) school-based community service; or

   (2) refer the student to counseling, mediation, mentoring, a teen court program, community-based
   services, or other in-school or out-of-school services aimed at addressing the student's truancy.

(a-2) A referral made under Subsection (a-1)(2) may include participation by the child's parent or guardian
if necessary.

(a-3) A school district shall offer additional counseling to a student and may not refer the student to
truancy court if the school determines that the student's truancy is the result of:

(1) pregnancy;

(2) being in the state foster program;

(3) homelessness; or

(4) being the principal income earner for the student's family.
(a-4) If a student fails to attend school without excuse on three or more days or parts of days within a four-week period but does not fail to attend school for the time described by Section 25.0951(a), the school district shall initiate truancy prevention measures under this section on the student.

(b) Each referral to truancy court for conduct described by Section 65.003(a), Family Code, must:
   (1) be accompanied by a statement from the student's school certifying that:
      (A) the school applied the truancy prevention measures adopted under Subsection (a) or (a-4) to the student; and
      (B) the truancy prevention measures failed to meaningfully address the student's school attendance; and
   (2) specify whether the student is eligible for or receives special education services under Subchapter A, Chapter 29.

(c) A truancy court shall dismiss a petition filed by a truant conduct prosecutor under Section 65.054, Family Code, if the court determines that the school district's referral:
   (1) does not comply with Subsection (b);
   (2) does not satisfy the elements required for truant conduct;
   (3) is not timely filed, unless the school district delayed the referral under Section 25.0951(d); or
   (4) is otherwise substantively defective.

(d) Except as provided by Subsection (e), a school district shall employ a truancy prevention facilitator or juvenile case manager to implement the truancy prevention measures required by this section and any other effective truancy prevention measures as determined by the school district or campus. At least annually, the truancy prevention facilitator shall meet to discuss effective truancy prevention measures with a case manager or other individual designated by a truancy court to provide services to students of the school district in truancy cases.

(e) Instead of employing a truancy prevention facilitator, a school district may designate an existing district employee or juvenile case manager to implement the truancy prevention measures required by this section and any other effective truancy prevention measures as determined by the school district or campus.

(f) The agency shall adopt rules:
   (1) creating minimum standards for truancy prevention measures adopted by a school district under this section; and
   (2) establishing a set of best practices for truancy prevention measures.

(g) The agency shall adopt rules to provide for sanctions for a school district found to be not in compliance with this section.

§ 25.0916. Uniform truancy policies in certain counties.
(a) This section applies only to a county with two or more courts hearing truancy cases and two or more school districts.

(b) A committee shall be established to recommend a uniform truancy policy for each school district located in the county.

(c) Unless the county has already adopted a uniform truancy policy under this section, not later than January 1, 2016, the county judge or the county judge's designee and the mayor of the municipality in the county with the greatest population or the mayor's designee shall each appoint one member to serve on the committee as a representative of each of the following:
   (1) a juvenile court;
(2) a municipal court;
(3) the office of a justice of the peace;
(4) the superintendent or designee of an independent school district;
(5) an open-enrollment charter school, if one exists in the county;

require the child to attend school as required by law, and the child has absences for the amount of time
specified under Section 65.003(a), Family Code, the parent commits an offense.

(b) The attendance officer or other appropriate school official shall file a complaint against the parent in:

(1) the constitutional county court of the county in which the parent resides or in which the school is
located, if the county has a population of 1.75 million or more;

located; or
(3) a municipal court of the municipality in which the parent resides or in which the school is located.

3. $300 for a third offense;
4. $400 for a fourth offense; or

(c-1) Each day the child remains out of school may constitute a separate offense. Two or more offenses under Subsection (a) may be consolidated and prosecuted in a single action. If the court orders deferred disposition under Article 45.051, Code of Criminal Procedure, the court may require the defendant to provide personal services to a charitable or educational institution as a condition of the deferral.

(d) A fine collected under this section shall be deposited as follows:

(f) The court in which a conviction, deferred adjudication, or deferred disposition for an offense under Subsection (a) occurs may order the defendant to attend a program for parents of students with unexcused absences that provides instruction designed to assist those parents in identifying problems that contribute to the students' unexcused absences and in developing strategies for resolving those problems if a program is available.

(g) If a parent refuses to obey a court order entered under this section, the court may punish the parent for contempt of court under Section 21.002, Government Code.

(h) It is an affirmative defense to prosecution for an offense under Subsection (a) that one or more of the absences required to be proven under Subsection (a) was excused by a school official or should be excused by the court. The burden is on the defendant to show by a preponderance of the evidence that the absence has been or should be excused. A decision by the court to excuse an absence for purposes of this section does not affect the ability of the school district to determine whether to excuse the absence for another purpose.

(i) In this section, "parent" includes a person standing in parental relation.

§ 25.094. Failure to attend school.

(a) An individual commits an offense if the individual:

d) If the county, justice, or municipal court believes that a child has violated an order issued under Subsection (c), the court may proceed as authorized by Article 45.050, Code of Criminal Procedure.

(A) release the individual to the individual's parent, guardian, or custodian or to another responsible adult, if the person promises to bring the individual to the county, justice, or municipal court as requested by the court; or

(B) bring the individual to a county, justice, or municipal court with venue over the offense.

e) An offense under this section is a Class C misdemeanor.

(f) It is an affirmative defense to prosecution under this section that one or more of the absences required to be proven under Subsection (a) were excused by a school official or by the court or that one or more of the absences were involuntary, but only if there is an insufficient number of unexcused or voluntary absences remaining to constitute an offense under this section. The burden is on the defendant to show by a preponderance of the evidence that the absence has been excused or that the absence was involuntary. A decision by the court to excuse an absence for purposes of this section does not affect the ability of the school district to determine whether to excuse the absence for another purpose.

g) It is an affirmative defense to prosecution under this section that one or more of the absences required to be proven under Subsection (a) was involuntary. The burden is on the defendant to show by a preponderance of the evidence that the absence was involuntary.

(d) In this section, "parent" includes a person standing in parental relation.

§ 25.0951. School district complaint or referral for failure to attend school.

(b) If a student fails to attend school without excuse as specified by Subsection (a), a school district may file a complaint against the student's parent in a county, justice, or municipal court for an offense under Section 25.093 if the school district provides evidence of the parent's criminal negligence. In this subsection, "parent" includes a person standing in parental relation.

(c) A court shall dismiss a complaint made by a school district under Subsection (b) that:

(1) does not comply with this section;

(2) does not allege the elements required for the offense;

(3) is not timely filed, unless the school district delayed the referral under Subsection (d); or

(4) is otherwise substantively defective.

(d) Notwithstanding Subsection (a), a school district may delay a referral of a student for truant conduct, or may choose to not refer a student for truant conduct, if the school district:

(1) is applying truancy prevention measures to the student under Section 25.0915; and

(2) determines that the truancy prevention measures are succeeding and it is in the best interest of the student that a referral be delayed or not be made.

§ 25.0952. Procedures applicable to school attendance-related offenses.

In a proceeding based on a complaint under Section 25.093, the court shall, except as otherwise provided by this chapter, use the procedures and exercise the powers authorized by Chapter 45, Code of Criminal Procedure.

LAWS

§ 21.462. Resources regarding students with mental health needs.
The agency, in coordination with the Health and Human Services Commission, shall establish and maintain an Internet website to provide resources for school district or open-enrollment charter school employees regarding working with students with mental health conditions. The agency must include on the Internet website information about:

(1) grief-informed and trauma-informed practices;
(2) building skills related to managing emotions, establishing and maintaining positive relationships, and responsible decision-making;
(3) positive behavior interventions and supports; and
(4) a safe and supportive school climate.

§ 25.0915. Truancy prevention measures.
(a) A school district shall adopt truancy prevention measures designed to:

(1) address student conduct related to truancy in the school setting before the student engages in conduct described by Section 65.003(a), Family Code; and
(2) minimize the need for referrals to truancy court for conduct described by Section 65.003(a), Family Code.

(a-1) As a truancy prevention measure under Subsection (a), a school district shall take one or more of the following actions:

(1) impose:
   (A) a behavior improvement plan on the student that must be signed by an employee of the school, that the school district has made a good faith effort to have signed by the student and the student's parent or guardian, and that includes:
      (i) a specific description of the behavior that is required or prohibited for the student;
      (ii) the period for which the plan will be effective, not to exceed 45 school days after the date the contract becomes effective; or
(iii) the penalties for additional absences, including additional disciplinary action or the referral of the student to a truancy court; or

(B) school-based community service; or

(2) refer the student to counseling, mediation, mentoring, a teen court program, community-based services, or other in-school or out-of-school services aimed at addressing the student's truancy.

(a-2) A referral made under Subsection (a-1)(2) may include participation by the child's parent or guardian if necessary.

(a-3) A school district shall offer additional counseling to a student and may not refer the student to truancy court if the school determines that the student's truancy is the result of:

(1) pregnancy;

(2) being in the state foster program;

(3) homelessness; or

(4) being the principal income earner for the student's family.

(a-4) If a student fails to attend school without excuse on three or more days or parts of days within a four-week period but does not fail to attend school for the time described by Section 25.0951(a), the school district shall initiate truancy prevention measures under this section on the student.

(b) Each referral to truancy court for conduct described by Section 65.003(a), Family Code, must:

(1) be accompanied by a statement from the student's school certifying that:

   (A) the school applied the truancy prevention measures adopted under Subsection (a) or (a-4) to the student; and

   (B) the truancy prevention measures failed to meaningfully address the student's school attendance; and

(2) specify whether the student is eligible for or receives special education services under Subchapter A, Chapter 29.

(c) A truancy court shall dismiss a petition filed by a truant conduct prosecutor under Section 65.054, Family Code, if the court determines that the school district's referral:

(1) does not comply with Subsection (b);

(2) does not satisfy the elements required for truant conduct;

(3) is not timely filed, unless the school district delayed the referral under Section 25.0951(d); or

(4) is otherwise substantively defective.

(d) Except as provided by Subsection (e), a school district shall employ a truancy prevention facilitator or juvenile case manager to implement the truancy prevention measures required by this section and any other effective truancy prevention measures as determined by the school district or campus. At least annually, the truancy prevention facilitator shall meet to discuss effective truancy prevention measures with a case manager or other individual designated by a truancy court to provide services to students of the school district in truancy cases.

(e) Instead of employing a truancy prevention facilitator, a school district may designate an existing district employee or juvenile case manager to implement the truancy prevention measures required by this section and any other effective truancy prevention measures as determined by the school district or campus.

(f) The agency shall adopt rules:

(1) creating minimum standards for truancy prevention measures adopted by a school district under this section; and

(d-1) Notwithstanding Subsection (d)(1), a student is not considered a student at risk of dropping out of school if the student did not advance from prekindergarten or kindergarten to the next grade level only as the result of the request of the student's parent.

(e) A school district may use a private or public community-based dropout recovery education program to provide alternative education programs for students at risk of dropping out of school. The program may be offered:

The number of students receiving services under this subsection during a school year may not exceed 10 percent of the number of students described by Subsection (d) who received services from the district during the preceding school year.

§ 30.106. Reading and behavior plan.
(a) Because learning and behavior are inextricably linked and learning and improved behavior correlate with decreased recidivism rates, the Texas Juvenile Justice Department shall not only fulfill the department's duties under state and federal law to provide general and special educational services to students in department educational programs but also shall implement a comprehensive plan to improve the reading skills and behavior of those students.

(c) To increase the positive social behaviors of students in department educational programs and to create an educational environment that facilitates learning, the department shall:
   (1) adopt system-wide classroom and individual positive behavior supports that incorporate a continuum of prevention and intervention strategies that:
      (A) are based on current behavioral research; and
      (B) are systematically and individually applied to students consistent with the demonstrated level of need;
   (2) require each teacher and other educational staff member in a department educational program to be trained in implementing the positive behavior support system adopted under Subdivision (1); and

(e) A student in a department educational program may not be released on parole from the department unless the student participates, to the extent required by department rule, in the positive behavior support system under Subsection (c). A student in a department educational program who exhibits deficits in reading on the assessments adopted under Subsection (b)(1) must also participate in reading instruction to the extent required by this section and by department rule before the student may be released on parole.

§ 37.0013. Positive behavior program.

(a) Each school district and open-enrollment charter school may develop and implement a program, in consultation with campus behavior coordinators employed by the district or school and representatives of a regional education service center, that provides a disciplinary alternative for a student enrolled in a grade level below grade three who engages in conduct described by Section 37.005(a) and is not subject to Section 37.005(c). The program must:

(1) be age-appropriate and research-based;

(2) provide models for positive behavior;

§ 37.051. Establishment.

Each school district may establish a school-community guidance center designed to locate and assist children with problems that interfere with education, including juvenile offenders and children with severe behavioral problems or character disorders. Each center shall coordinate the efforts of school district personnel, local police departments, school attendance officers, and probation officers in working with
students, dropouts, and parents in identifying and correcting factors that adversely affect the education of the children.

§ 37.052. Cooperative programs.
The board of trustees of a school district may develop cooperative programs with state youth agencies for children found to have engaged in delinquent conduct.

§ 37.053. Cooperation of governmental agencies.
(a) Each governmental agency that is concerned with children and that has jurisdiction in the school district shall cooperate with the school-community guidance centers on the request of the superintendent of the district and shall designate a liaison to work with the centers in identifying and correcting problems affecting school-age children in the district.

(b) The governmental agency may establish or finance a school-community guidance center jointly with the school district according to terms approved by the governing body of each entity participating in the joint establishment or financing of the center.

§ 37.054. Parental notice, consent, and access to information.

(b) The notification must include:
   (1) the reason that the student has been assigned to the center;

§ 37.055. Parental involvement.
(a) On admitting a student to a school-community guidance center, a representative of the school district, the student, and the student's parent shall develop an agreement that specifies the responsibilities of the parent and the student. The agreement must include:
   (1) a statement of the student's behavioral and learning objectives;
   (2) a requirement that the parent attend specified meetings and conferences for teacher review of the student's progress; and
   (3) the parent's acknowledgement that the parent understands and accepts the responsibilities imposed by the agreement regarding attendance at meetings and conferences and assistance in meeting other objectives, defined by the district, to aid student remediation.
(b) The superintendent of the school district may obtain a court order from a district court in the school district requiring a parent to comply with an agreement made under this section. A parent who violates a court order issued under this subsection may be punished for contempt of court.

(c) In this section, "parent" includes a legal guardian.

§ 37.056. Court supervision.

(c) The court may compel attendance at any hearing held under this section through any legal process, including subpoena and habeas corpus.

(d) If the parties reach an agreement under Section 37.055, and if the written agreement so provides, the court may enter an order that incorporates the terms of the agreement.

(e) Any party who violates an order issued under this section may be punished for contempt of court.

(f) A school district may enter into an agreement to share the costs incurred by a county under this section.

(j) The notification provisions of this section concerning a person who is required to register as a sex offender under Chapter 62 do not lessen the requirement of a person to provide any additional notification prescribed by that chapter.

(k) Oral or written notice required under this article must include all pertinent details of the offense or conduct, including details of any:

1) assaultive behavior or other violence;

2) weapons used in the commission of the offense or conduct; or

(b) A court may issue a temporary restraining order, temporary injunction, or permanent injunction appropriate under the circumstances to prevent any further cyberbullying, including an order or injunction:
   (1) enjoining a defendant from engaging in cyberbullying; or
   (2) compelling a defendant who is a parent of or person standing in parental relation to an individual who is younger than 18 years of age to take reasonable actions to cause the individual to cease engaging in cyberbullying.
(c) A plaintiff in an action for injunctive relief brought under this section is entitled to a temporary restraining order on showing that the plaintiff is likely to succeed in establishing that the individual was cyberbullying the recipient. The plaintiff is not required to plead or prove that, before notice can be served and a hearing can be held, immediate and irreparable injury, loss, or damage is likely to result from past or future cyberbullying by the individual against the recipient.
(d) A plaintiff is entitled to a temporary or permanent injunction under this section on showing that the individual was cyberbullying the recipient.
(e) A court granting a temporary restraining order or temporary injunction under this section may, on motion of either party or sua sponte, order the preservation of any relevant electronic communication. The temporary restraining order or temporary injunction is not required to:

§ 129A.003. Promulgation of forms.
(a) The supreme court shall, as the court finds appropriate, promulgate forms for use as an application for initial injunctive relief by individuals representing themselves in suits involving cyberbullying and instructions for the proper use of each form or set of forms.

   (1) state:
      (A) that the Spanish language translated form is to be used solely for the purpose of assisting in understanding the form and may not be submitted to the court; and
      (B) that the English language version of the form must be submitted to the court; or
   (2) be incorporated into the English language version of the form in a manner that is understandable to both the court and members of the general public.
(d) Each form and its instructions must clearly and conspicuously state that the form is not a substitute for the advice of an attorney.

(e) The attorney general and the clerk of a court shall inform members of the general public of the availability of a form promulgated by the supreme court under this section as appropriate and make the form available free of charge.

(f) A court shall accept a form promulgated by the supreme court under this section unless the form has been completed in a manner that causes a substantive defect that cannot be cured.

students in department educational programs but also shall implement a comprehensive plan to improve the reading skills and behavior of those students.

(d) The department shall consult with faculty from institutions of higher education who have expertise in reading instruction for adolescents, in juvenile corrections, and in positive behavior supports to develop and implement the plan under Subsections (b) and (c).

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

(a) If a student transfers from one Vermont public or independent school to another, then upon application by the student and after a review of whether the school can provide the student with appropriate services, the new school may choose to continue a suspension or expulsion imposed by the original school.
(b) During a period of suspension or expulsion imposed under section 1162 of this title, a student, or parent or guardian, shall not be subject to the provisions of subchapter 3 of this chapter regarding compulsory attendance at school unless the conditions of the suspension or expulsion include participation in a program in the school or an alternative program outside the school. Further, nothing in this section shall prohibit a suspended or expelled student from applying to a different Vermont public or independent school during the period of suspension or expulsion and attending if accepted.
(c) A school district that provides for the education of a suspended or expelled student by paying tuition to a public or approved independent school may, at the discretion of the school board, provide for the education of the student during the period of suspension or expulsion by paying tuition to another public or approved independent school.

REGULATIONS

22 000 006.2365.1.6.17. Expedited Due Process Hearings.
(a) An expedited due process hearing procedure shall be available for disciplinary issues in accordance with Rule 4313.3.
(b) The expedited procedure shall provide a full due process hearing consistent with the requirements of Rules 2365.1.6.2(c) and (g), 2365.1.6.3, 2365.1.6.4, 2365.1.6.7, 2365.1.6.8, 2365.1.6.10 through 2365.1.6.16, but under a restricted time schedule as set out in subsections (c) - (j) of this section.
(c) Expedited hearings shall:
   (1) Not exceed two days; and
   (2) Be scheduled to be heard within 20 school days where the issue before the hearing officer will be whether there is a substantial likelihood of injury to self or others if the child is returned to the placement from which the child was removed.
(d) Upon being appointed, the hearing officer shall immediately arrange with the parties two days of hearing to occur within 20 school days of the filing of a complaint under Rule 2365.1.17(c)(2). At the same time, the hearing officer shall schedule an expedited resolution session to be held no later than seven days of the receipt of the written complaint. Unless the matter has been resolved to the satisfaction of both parties within 15 days of the receipt of the complaint, the due process hearing may proceed. The hearing officer shall schedule a prehearing conference prior to the hearing.
(e) At least five business days prior to the hearing, each party shall disclose to all other parties all evaluations completed by that date and evidence to be offered at the hearing, and recommendations based on the offering party's evaluations that the party intends to use at the hearing. Any party to the hearing has the right to request that the hearing officer prohibit the introduction of evidence at the hearing that has not been disclosed to that party at least five business days before the hearing.
(f) Except for the timelines in subsections (c)(2), (d), (e), and (i), the hearing officer may waive any of the procedures in this section in a case, but only to the extent necessary to preserve the full and fair nature of
the due process hearing. At the agreement of both parties, the hearing officer may reduce the timelines in subsections (c)(2), (d), (e), and (h).

(g) The hearing officer shall render a decision, including findings of fact and conclusions of law.

(h) The hearing officer shall mail a written decision to the parties by first class mail within 10 school days following the hearing.

(i) Any party aggrieved by a decision of the hearing officer may appeal the decision as provided in Rule 2365.1.8.

22 000 006.2365.1.8. Finality of a Due Process Hearing Decision; Appeal.
(a) The decision of a hearing officer is final unless appealed to a state or federal court of competent jurisdiction within 90 days of the decision.

(b) Parties have right to appeal the hearing decision by filing a civil action in a federal district court or a state court of competent jurisdiction. An appeal from a due process hearing decision to a court of competent jurisdiction in accordance with Rule 2365.1.9 shall be commenced within 90 days from the notice of the final decision and not after.

22 000 009.4311. Procedures.
When a student is subject to disciplinary action, the school district shall afford the student due process procedures as follows:

4311.1 In all cases of short-term suspension from school, which is generally regarded as 10 days or less, the student and his or her parent/guardian shall be given an opportunity for an informal hearing before an appropriately designated school official. Except for cases set forth in the last paragraph 4311.3, the hearing must precede the suspension and the district shall provide:

(1) notice of the charges;
(2) explanation of the evidence against the student;
(3) opportunity for the student to tell his or her side of the story;
(4) decision in writing to the parent/guardian.

4311.2 In cases of a long term suspension which is generally more than 10 days unless a school district establishes a shorter period, the student and his or her parent/guardian shall be given an opportunity for a formal hearing before the school board and the district shall provide:

(1) written notice of the following:
   (a) nature of charges against the student;
   (b) date, time and place of hearing;
   (c) right to legal representation;
   (d) possible penalties involved;
(2) opportunity to present evidence;
(3) opportunity to cross-examine witnesses;
(4) decision in writing to parent/guardian.

4311.3
(1) When a student, because of his or her conduct or condition, is an immediate threat to himself or herself, others, property or educational environment, the school district may take whatever action is appropriate under the circumstances, including, but not limited to, immediate suspension pending a hearing as soon as possible thereafter. In addition, in cases where a student brings a weapon (as defined in the federal Gun-Free School Act) to school, the school district must refer the student to a law
enforcement agency and expel the student for a period of not less than one calendar year unless such expulsion is modified in accordance with the provisions of 16 V.S.A. § 1166(b)(2) in circumstances such as but not limited to:

(a) the student is unaware that he or she has brought a weapon to school,
(b) the student did not intend to use the weapon to threaten or endanger others,
(c) the student is disabled and the misconduct is related to the disability,
(d) the student does not present an ongoing threat to others and a lengthy expulsion would not serve the best interest of the student.

(2) In situations where a student with a disability brings a weapon to school, the provisions of regulation 4312(2) shall apply. In any such situation, an opportunity for a hearing prior to an expulsion must be provided prior to the expulsion, pursuant to 16 V.S.A. § 1166(b)(2).

22 000 009.4312. Discipline Procedures for Children Who are Not Eligible for Special Education Services, but Who Are or May Be Qualified Individuals with Disabilities under Section 504 of The Rehabilitation Act of 1973 (29 U.S.C. § 794; 34 C.F.R. § 104 et seq.).

In addition to the general disciplinary procedures found within Rule 4311, and in accordance with 34 C.F.R. §104.36, the following procedures apply to children who are qualified individuals with disabilities as defined by Section 504 of the Rehabilitation Act of 1973 (hereinafter Section 504).

(1) A Section 504 child shall not be removed from his or her current educational placement for disciplinary reasons for more than 10 consecutive school days in a school year unless the following procedures have been completed:

(a) Are-evaluation, as defined by 34 C.F.R. §104.35; and
(b) A determination by the child's Section 504 team that the conduct is not a manifestation of his or her disability.

(2) A Section 504 child shall not be removed from his or her current educational placement for disciplinary reasons for more than 10 cumulative days in a school year when the removals constitute a change in placement as defined in Rule 2360.2(d)(1) unless the following procedures have been completed:

(a) Are-evaluation, as defined by 34 C.F.R. §104.35; and
(b) A determination by the child's Section 504 team that the conduct is not a manifestation of his or her disability.

(3) When it is determined by a child's 504 team that the conduct is not a manifestation of the child's qualifying disability, the child may be disciplined in the same manner, and subject to the same disciplinary consequences, as a non-disabled child, including suspension or expulsion without the provision of services.

(4) When it is determined by a child's Section 504 team that the conduct is a manifestation of his or her qualifying disability, a change in program or placement may be implemented by the child's Section 504 team and the child's Section 504 team may respond to the conduct by designing, amending and/or enforcing a plan of behavior management.

(5) If, at the time of the occurrence of conduct that gives rise to consideration of removal of a child from his or her current educational placement for more than 10 consecutive school days in a school year, the child is believed to be a qualified individual with a disability under Section 504, a Section 504 evaluation shall be completed prior to imposition of the removal.

(a) If the evaluation results in a determination that the child is a qualified individual with a disability under Section 504, the discipline procedures in this rule shall be followed.
(b) If the evaluation results in a determination that the child is not a qualified individual with a disability under Section 504, the discipline procedures in Rule 4311 shall be followed.

(6) If, at the time of the occurrence of conduct that gives rise to consideration of removal of a child who is believed to be a qualified individual with a disability under Section 504 for more than 10 cumulative school days in a school year, and the removals constitute a change in placement as defined in Rule 2360.2(d)(1), a Section 504 evaluation shall be completed prior to imposition of the removal.

(a) If the evaluation results in a determination that the child is a qualified individual with a disability under Section 504, the discipline procedures in this rule shall be followed.

(b) If the evaluation results in a determination that the child is not a qualified individual with a disability under Section 504, the discipline procedures in Rule 4311 shall be followed.

(7) If a child who is a qualified individual under Section 504 possesses or carries a weapon, as defined in Rule 4313.9(a), to school or at a school function, he or she may be placed in an interim alternative educational setting (IAES) in accordance with the procedures set forth in Rule 4313.9 and Rule 1253. The child's 504 team shall determine the IAES, and the services provided in the IAES, in accordance with the procedures set forth in Rule 4313.9. It is the intent of this section to discipline a child who is a qualified individual under Section 504 in the same manner as children who are eligible for special education when they possess weapons at school or at school functions.

(8) When a parent disagrees with disciplinary action taken by a LEA, the parent may request an impartial due process hearing, and the procedures in Rules 2365.1.6(c) through 2365.1.9 shall apply. In addition to or in lieu of a due process hearing a parent may file a complaint with the U.S. Department of Education Office for Civil Rights.

(9) A hearing officer may order a change in the placement of a child who is a qualified individual under Section 504 to an appropriate IAES for not more than 45 calendar days, if the hearing officer, in an expedited due process hearing:

(a) Determines that the LEA has demonstrated by substantial evidence, which for purposes of this section shall mean a preponderance of the evidence, that maintaining the current placement of the child is substantially likely to result in injury to the child or others;

(b) Considers the appropriateness of the child's current placement;

(c) Considers whether the LEA has made reasonable efforts to minimize the risk of harm in the child's current placement, including the use of supplementary aids and services; and

(d) Determines that the IAES that is proposed by school personnel will enable the child to continue to progress in the general curriculum. The services provided to and modifications made for the child in the IAES shall be designed to address and prevent the child's offending behavior.

(10) This Rule (4312) shall not apply when a responsible agency takes disciplinary action against a Section 504 child if:

(a) The misconduct for which the child is being disciplined pertains to the use or possession of illegal drugs or alcohol at school or at a school function; and

(b) The child is currently engaging in the use of alcohol or illegal drugs.

In this instance, the Section 504 child shall be disciplined in accordance with Rule 4311.

22 000 009.4313.1 Authority of school personnel.

(a) Case-by-case determination. School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the requirements of this section, is appropriate for a child with a disability who violates a code of child conduct.
(c) Additional authority. For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child's disability pursuant to paragraph (e) of this section, school personnel in consultation with the special education administrator may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in paragraph (d) of this section.

(e) Manifestation determination

(1) Except for removals that will be for not more than 10 consecutive school days and will not constitute a change of placement under Rule 4313.7, within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of child conduct, the LEA, the parent, and relevant members of the child's IEP Team (as determined by the parent and the LEA) shall review all relevant information in the child's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine--

(i) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

(ii) If the conduct in question was the direct result of the LEA's failure to implement the IEP.

(2) The conduct shall be determined to be a manifestation of the child's disability if the LEA, the parent, and relevant members of the child's IEP Team determine that a condition in either paragraph (e)(1)(i) or (1)(ii) of this section was met.

(f) Determination that behavior was a manifestation. If the LEA, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child's disability, the IEP Team shall--

(1) Either-

(i) Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or

(ii) If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; and

(2) Except as provided in paragraph (g) of this section, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.

22 000 009.4313.2. Determination of setting.
The interim alternative educational setting referred to in Rule 4313.1(c) and (g) is determined by the IEP Team.

22 000 009.4313.3. Appeal.
(a) General. The parent of a child with a disability who disagrees with any decision regarding placement under Rules 4313.1 and 4313.2, or the manifestation determination under Rule 4313.1 (e), or an LEA that believes that maintaining the current placement of the child is substantially likely to result in injury to the child or others, may request a hearing.

(b) Authority of hearing officer.

(1) A hearing officer in an impartial due process hearing hears, and makes a determination regarding, an appeal requested under paragraph (a) of this section.

(2) In making the determination under paragraph (b)(1) of this section, the hearing officer may--
(i) Return the child with a disability to the placement from which the child was removed if the hearing officer determines that the removal was a violation of Rule 4313.1 or that the child's behavior was a manifestation of the child's disability; or

(ii) Order a change of placement of the child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

(3) The procedures under paragraphs (a) and (b)(1) and (2) of this section may be repeated, if the LEA believes the child would be dangerous if returned to the original placement.

(c) Expedited hearing.

(1) Whenever a hearing is requested under paragraph (a) of this section, the procedures of Rule 2365.1.6.17 shall be followed and the parents and LEA involved in the dispute shall have an opportunity for an impartial due process hearing consistent with the requirements of the rules relating to Resolution Sessions and Impartial Due Process Hearings, except as provided in paragraph (c)(2) through (5) of this section.

(2) The LEA shall arrange for an expedited hearing, which shall occur within 20 school days of the date the hearing is requested and shall result in a determination within 10 school days after the hearing.

(3) Except as provided in a written waiver of the resolution session or in an agreement to mediate

   (i) A resolution session meeting shall occur within seven days of the date the hearing is requested, and

   (ii) The hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of receipt of the hearing request.

(4) The decisions on expedited due process hearings are appealable consistent with those rules associated with due process hearing appeals.

22 000 009.4313.4. Placement during appeals.

When an appeal under Rule 4313.3 has been requested by either the parent or the LEA, the child shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period provided for in Rule 4313.1(c) or (g), whichever occurs first, unless the parent and the SEA or LEA agree otherwise.

22 000 009.4313.5. Protections for children not yet eligible for special education and related services.

(a) General. A child who has not been determined to be eligible for special education and related services under this part and who has engaged in behavior that violated a code of child conduct, may assert any of the protections provided for in this part if the LEA had knowledge (as determined in accordance with paragraph (b) of this section) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

(b) Basis of knowledge. An LEA shall be deemed to have knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred--

   (1) The parent of the child expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency, or a teacher of the child, that the child is in need of special education and related services;

   (2) The parent of the child requested an evaluation of the child pursuant to the rules relating to Procedures for Evaluation and Determination of Eligibility; or

   (3) The teacher of the child, or other personnel of the LEA, expressed specific concerns about a pattern of behavior demonstrated by the child directly to the director of special education of the agency or to
other supervisory personnel of the agency in accordance with the agency’s established child find or special education referral system.

(c) Exception. A LEA would not be deemed to have knowledge under paragraph (b) of this section and the child would not receive special education protections available only to children with a disability or suspected of having a disability, if:

(1) The parent of the child:
   (i) Has not allowed an evaluation of the child pursuant to special education evaluation procedures; or
   (ii) Has refused services under this part; or

(2) The child has been evaluated and determined not to be a child eligible for special education.

(d) Conditions that apply if no basis of knowledge.

(1) If an LEA does not have knowledge that a child is a child with a disability (in accordance with paragraphs (b) and (c) of this section) prior to taking disciplinary measures against the child, the child may be subjected to the disciplinary measures applied to children without disabilities who engaged in comparable behaviors consistent with paragraph (d)(2) of this section.

(2) (i) If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures under Rule 4313.1, the evaluation shall be conducted in an expedited manner.

   (ii) Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services.

   (iii) If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and information provided by the parents, the agency shall provide special education and related services in accordance with this part, including the requirements of Rules 4313.1 through 4313.7 and Section 1412(a)(1)(A) of the Individuals with Disabilities Education Improvement Act, as amended.

(b) School boards and law enforcement agencies are encouraged to enter into memoranda of understanding relating to:
   (1) the possession and use of weapons and devices by a school resource officer on school property; and

REGULATIONS

22 000 036.4500. Use of restraint and seclusion in schools.
4500.1. Statement of Purpose.
The purposes of these rules are to:
   a. Create and maintain a positive and safe learning environment in schools;
   b. Promote positive behavioral interventions and supports in schools; and
   c. Ensure that students are not subjected to inappropriate use of restraint or seclusion.
4500.2. Applicability.
These rules are applicable to all learning environments that receive public funding, or over which the Vermont Department of Education has regulatory authority.
4500.3. Definitions.
For purposes of these rules, the following definitions apply:
1. Behavioral Intervention Plan means a plan that details strategies to address behaviors that impede learning, or are ongoing, and do not readily respond to general intervention or classroom management techniques, by teaching pro-social skills and other positive replacement behaviors. The plan may include positive strategies, program or curricular modifications, and supplementary aids and supports required to address problem behaviors.
2. Chemical Restraint means a drug, medication or chemical used on a student to control behavior or restrict movement that is not:
   a. Prescribed by a student's licensed physician for the standard treatment of a student's medical or psychiatric condition; and
   b. Administered as prescribed by the licensed physician.
3. Functional Behavioral Assessment means the analysis of a student's behavior patterns before, during, and after rule-breaking or other inappropriate behavior for the purpose of guiding the development of a behavioral intervention plan.
4. Mechanical Restraint means the use of any device or object that restricts a student's movement or limits a student's sensory or motor functions unless under the direction of a healthcare professional for medical or therapeutic purposes.
The term does not include devices implemented by trained school personnel, or utilized by a student for the specific and approved therapeutic and safety purposes for which such devices were designed including:

a. Restraints for medical immobilization,

b. Adaptive devices or mechanical supports used to achieve proper body position, balance or alignment;

c. Vehicle safety restraints including a seat belt or harness used for balance or safety on a car or bus; or

d. Seat belts in wheelchairs or on toilets.

7. Physical Restraint means the use of physical force to prevent an imminent and substantial risk of bodily harm to the student or others. Physical restraint does not include:

a. Momentary periods of physical restriction by direct person-to-person contact, accomplished with limited force and designed either
   i. to prevent a student from completing an act that would result in potential physical harm to himself/herself or another person; or
   ii. to remove a disruptive student who is unwilling to leave the area voluntarily;

b. The minimum contact necessary to physically escort a student from one place to another;

c. Hand-over-hand assistance with feeding or task completion; or

d. Techniques prescribed by a qualified medical professional for reason of safety or for therapeutic or medical treatment.

8. Positive Behavioral Interventions and Supports means an approach to preventing and responding to targeted behavior that:

a. Is based on evidence-based practices;

b. Is proactive and instructional, rather than reactive;

c. Can operate on individual, group, classroom, or school wide levels;

d. Includes a system of continual data collection; and

e. Relies on data-driven decisions.

9. Prone Physical Restraint means holding a student face down on his or her stomach using physical force for the purpose of controlling the student's movement.

12. Seclusion means the confinement of a student alone in a room or area from which the student is prevented or reasonably believes he or she will be prevented from leaving. Seclusion does not include time-out where a student is not left alone and is under adult supervision.

**22 000 036.4501. Prohibitions.**

4501.1 School personnel and contract service providers are prohibited from imposing on a student any of the following as defined in rule 4500.3:

a. Mechanical restraint,

b. Chemical restraint,

c. Any physical restraint, escort or seclusion that restricts or limits breathing or communication, causes pain or is imposed without maintaining direct visual contact.

4501.2 Physical restraint or seclusion shall not be used:

a. For convenience of staff;

b. As a substitute for an educational program;
c. As a form of discipline or punishment;
d. As a substitute for inadequate staffing or training;
e. In response to a student's use of profanity or other verbal or gestural display of disrespect; or
f. In response to a verbal threat unaccompanied by demonstrated means of or intent to carry out the threat.

4501.3 The restraints and seclusion prohibited by these Rules shall not be considered "reasonable and necessary force" as that term is used in 16 VSA §1161a(c).

4501.4 Schools may have policies and procedures for the use of physical restraint and seclusion in school-wide safety plans, provided such plans are consistent with these Rules.

22 000 036.4502. Permissible Use of Restraint and Seclusion.

4502.1 Permissible Use of Physical Restraint

Physical restraint, not otherwise prohibited by these Rules, may be used only:

a. When a student's behavior poses an imminent and substantial risk of physical injury to the student or others;
b. Within the limits set forth in 16 VSA § 1161 a;
c. Less restrictive interventions have failed or would be ineffective in stopping such imminent danger of physical injury or property damage;
d. In accordance with a school-wide safety plan that is consistent with these rules; and
e. In a manner that is safe, proportionate to and sensitive to the student's:
   i. Severity of behavior;
   ii. Chronological and developmental age;
   iii. Physical size;
   iv. Gender;
   v. Ability to communicate;
   vi. Cognitive ability; and
   vii. Known physical, medical, psychiatric condition, and personal history, including any history of physical, emotional or sexual abuse or trauma.

4502.1.1 Prone and supine physical restraints are more restrictive than other forms of physical restraint and may be used only when the student's size and severity of behavior require such a restraint because a less restrictive restraint has failed or would be ineffective to prevent harm to the student or others.

4502.2 Permissible Use of Seclusion

Seclusion, not otherwise prohibited by these rules, may be used only:

a. When a student's behavior poses an imminent and substantial risk of physical injury to the student or others;
b. When less restrictive interventions have failed or would be ineffective in stopping such imminent risk of physical injury;
c. As a temporary intervention;
d. When physical restraint is contraindicated;
e. When there is no known developmental, medical, psychological or other contraindication to its use;
f. When the student is visually monitored at all times by an adult; and
g. In a space large enough to permit safe movement that is adequately lit, heated, ventilated, free of sharp or otherwise dangerous objects; and in compliance with all fire and safety codes.

4502.3 In rare circumstances where the use of physical restraint or seclusion may be necessary due to a student's pattern of dangerous behavior that is not responsive to less restrictive interventions, physical restraint and/or seclusion may be included in an individual safety plan only if all of the following conditions apply:

a. School personnel have reviewed and agreed to the safety plan;
b. The use of physical restraint and seclusion complies with these Rules;
c. The student has a documented history showing a series of behaviors in the preceding six (6) months that have created an imminent and substantial risk of physical injury to the student or others in the school;
d. A comprehensive, data-driven, functional behavioral assessment has been conducted;
e. A behavioral intervention plan, emphasizing positive behavioral interventions and supports, has been implemented;
f. The educational planning team, IEP team or Section 504 team has reviewed the student's program and placement to determine whether it is sufficient to meet the student's unique needs;
g. The criteria for use are clearly identified;
h. Any contraindications for use are identified;
i. Staff implementing the individual safety plan have received training from a state-recommended training program;
j. The parents are fully informed of the inherent risks of using restraint and seclusion;
k. The parents provide informed consent to the use of restraint and/or seclusion, which shall be revocable at any time; and
l. The ongoing need for an individual safety plan is reviewed and revised, as appropriate, and in any event at least annually.

4502.3.1 Any restraint or seclusion imposed as a result of an individual safety plan is subject to all the reporting, documentation and debriefing requirements set forth in 4503, 4504 and 4505 below.

4502.4 Physical restraint or seclusion shall only be imposed:

a. By school personnel or contract service providers who have been trained to provide the selected intervention unless, due to the unforeseeable nature of the danger of the circumstance, trained personnel are not immediately available;

a. When a restrained student is monitored face-to-face by school personnel or contract service providers; or
b. If personnel safety is significantly compromised by face-to-face monitoring, or the student is in seclusion, school personnel or a contract service provider are in direct visual contact with the student.

4502.5 Physical restraint or seclusion shall be terminated as soon as:

a. The student demonstrates that he/she is in unnecessary pain or significant physical distress indicating a possible need for emergency medical assistance or that his/her breathing or communication is compromised; or
b. The student's behavior no longer poses an imminent danger of physical injury to the student or others or danger to property; or

c. Less restrictive interventions would be effective in stopping such imminent danger of physical injury or property damage.
4502.6 Following termination of any physical restraint or seclusion, the student shall be evaluated and monitored for the remainder of the school day on which physical restraint or seclusion is imposed. The evaluation shall include a routine physical/medical assessment conducted by someone not involved in the restraint or seclusion, and documentation of any injury received by the student as a result of the restraint or seclusion.

22 000 036.4503. Reporting the Use of Restraint and Seclusion.

4503.1 To the School Administrator.
Any person who imposes a restraint or seclusion shall report its use to the school administrator as soon as possible, but in no event later than the end of the school day of its use.

4503.2 To Parents.
  a. The school administrator shall make a documented attempt to provide verbal or electronic notice of any incident of restraint or seclusion to the student's parents (as defined in 4500.3(13)) as soon as practical but in no event later than the end of the school day of its use; and
  b. Shall provide written notice to the parents within 24 hours of each use of restraint or seclusion that includes:

LAWS

16 V.S.A. §1162. Suspension or expulsion of pupils.
(c) Principals, superintendents, and school boards are authorized and encouraged to provide alternative education services or programs to students during any period of suspension or expulsion authorized under this section.

REGULATIONS

22 000 009.4312. Discipline Procedures for Children Who are Not Eligible for Special Education Services, but Who Are or May Be Qualified Individuals with Disabilities under Section 504 of The Rehabilitation Act of 1973 (29 U.S.C. § 794; 34 C.F.R. § 104 et seq.).
(7) If a child who is a qualified individual under Section 504 possesses or carries a weapon, as defined in Rule 4313.9(a), to school or at a school function, he or she may be placed in an interim alternative educational setting (IAES) in accordance with the procedures set forth in Rule 4313.9 and Rule 1253. The child’s 504 team shall determine the IAES, and the services provided in the IAES, in accordance with the procedures set forth in Rule 4313.9. It is the intent of this section to discipline a child who is a qualified individual under Section 504 in the same manner as children who are eligible for special education when they possess weapons at school or at school functions.

22 000 009.4313.1. Authority of school personnel.
(a) Case-by-case determination. School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the requirements of this section, is appropriate for a child with a disability who violates a code of child conduct.
(b) General.
(1) Under this section, the school principal/designee, in consultation with the special education case manager may remove a child with a disability who violates a code of child conduct from their current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to children without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under Rule 4313.7).
(2) After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, during any subsequent days of removal the LEA shall provide services to the extent required under paragraph (d) of this section.
(c) Additional authority. For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child’s disability pursuant to paragraph (e) of this section, school personnel in consultation with the special education administrator may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in paragraph (d) of this section.
(d) Services.
(1) Except as provided in paragraphs (d)(3) and (d)(4) of this section, a child with a disability who is removed from the child's current placement pursuant to paragraphs (b), (c), or (g) of this section shall--
(i) Continue to receive educational services, so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and

(ii) Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, which are designed to address the behavior violation so that it does not recur.

(2) The services required by paragraph (d)(1) of this section may be provided in an interim alternative educational setting.

(3) A LEA need not provide services during periods of removal under paragraph (b) of this section to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if services are not provided to a child without disabilities who has been similarly removed.

(4) After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, if the current removal is for not more than 10 consecutive school days and is not a change of placement under Rule 4313.7, school personnel, in consultation with the child's special education case manager, determine the extent to which services are needed under paragraph (d)(1) of this section, if any, and the location in which services, if any, will be provided.

(5) If the removal is for more than 10 consecutive school days or is a change of placement under Rule 4313.7, the child's IEP Team determines appropriate services under paragraph (d)(1) of this section and the location in which services will be provided.

(e) Manifestation determination

(1) Except for removals that will be for not more than 10 consecutive school days and will not constitute a change of placement under Rule 4313.7, within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of child conduct, the LEA, the parent, and relevant members of the child's IEP Team (as determined by the parent and the LEA) shall review all relevant information in the child's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine--

(i) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

(ii) If the conduct in question was the direct result of the LEA's failure to implement the IEP.

(2) The conduct shall be determined to be a manifestation of the child's disability if the LEA, the parent, and relevant members of the child's IEP Team determine that a condition in either paragraph (e)(1)(i) or (1)(ii) of this section was met.

(f) Determination that behavior was a manifestation. If the LEA, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child's disability, the IEP Team shall--

(1) Either-

(i) Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or

(ii) If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; and

(2) Except as provided in paragraph (g) of this section, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.
(g) Special circumstances. School personnel may remove a child to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability, if the child--

1. Carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of an SEA or an LEA;
2. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA; or
3. Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA.

(h) Notification. Not later than the date on which the decision to take disciplinary action is made, the LEA must notify the parents of that decision, and provide the parents a copy of their Parents’ Rights in Special Education.

22 000 009.4313.2. Determination of setting.
The interim alternative educational setting referred to in Rule 4313.1(c) and (g) is determined by the IEP Team.

22 000 009.4313.3. Appeal.
(b) Authority of hearing officer.
1. A hearing officer in an impartial due process hearing hears, and makes a determination regarding, an appeal requested under paragraph (a) of this section.
2. In making the determination under paragraph (b)(1) of this section, the hearing officer may--
   i. Return the child with a disability to the placement from which the child was removed if the hearing officer determines that the removal was a violation of Rule 4313.1 or that the child's behavior was a manifestation of the child's disability; or
   ii. Order a change of placement of the child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.
3. The procedures under paragraphs (a) and (b)(1) and (2) of this section may be repeated, if the LEA believes the child would be dangerous if returned to the original placement.

22 000 009.4313.4. Placement during appeals.
When an appeal under Rule 4313.3 has been requested by either the parent or the LEA, the child shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period provided for in Rule 4313.1(c) or (g), whichever occurs first, unless the parent and the SEA or LEA agree otherwise.

22 000 009.4313.7. Change of placement because of disciplinary removals.
For purposes of removals of a child with a disability from the child's current educational placement under Rules 4313.1 through 4314.4, a change of placement occurs if:
(a) The removal is for more than 10 consecutive school days; or
(b) The child has been subjected to a series of removals that constitute a pattern--
   1. Because the series of removals total more than 10 school days in a school year;
(2) Because the child’s behavior is substantially similar to the child’s behavior in the incidents that resulted in the series of removals, taken cumulatively, is determined, under Rule 4313.1(f), to have been a manifestation of the child's disability; and

(3) Because of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another.

Upon such request, the headmaster or superintendent shall initiate an independent review by a neutral person selected from a list developed jointly by the Secretary of Education and the Human Rights Commission and maintained by the Secretary. Individuals shall be placed on the list on the basis of their objectivity, knowledge of harassment issues, and relevant experience.

(2) The independent review shall proceed expeditiously and shall consist of an interview of the student and the relevant school officials and review of written materials involving the complaint maintained by the school or others.

(3) Upon the conclusion of the review, the reviewer shall advise the student and the school officials as to the sufficiency of the school's investigation, its determination, the steps taken by the school to correct any harassment found to have occurred, and any future steps the school should take. (5) The costs of the independent review shall be borne by the public school district or independent school.

(6) Nothing in this subsection shall prohibit the school board from requesting an independent review at any stage of the process.

(b) Prior to the preliminary hearing, the child shall be afforded an opportunity to undergo a risk and needs screening, which shall be conducted by the Department or by a community provider that has contracted with the Department to provide risk and need screenings for children alleged to have committed
delinquent acts. If the child participates in such a screening, the Department or the community provider shall report the risk level result of the screening to the State's Attorney. In lieu of filing a charge, the State’s Attorney may refer a child directly to a youth-appropriate community-based provider that has been approved by the Department, which may include a community justice center or a balanced and restorative justice program. Referral to a community-based provider pursuant to this subsection shall not require the State’s Attorney to file a charge. If the community-based provider does not accept the case or if the child fails to complete the program in a manner deemed satisfactory and timely by the provider, the child's case shall return to the State's Attorney for charging consideration. If a charge is brought in the Family Division, the risk level result shall be provided to the child's attorney. (e) At the preliminary hearing, a denial shall be entered to the allegations of the petition, unless the juvenile, after adequate consultation with the guardian ad litem and counsel, enters an admission. If the juvenile enters an admission, the disposition case plan required by section 5230 of this title may be waived and the court may proceed directly to disposition, provided that the juvenile, the custodial parent, the State's Attorney, the guardian ad litem, and the Department agree.

33 V.S.A. § 5232. Disposition order

(a) If a child is found to be a delinquent child, the court shall make such orders at disposition as may provide for:

(1) the child's supervision, care, and rehabilitation;
(2) the protection of the community;
(3) accountability to victims and the community for offenses committed; and
(4) the development of competencies to enable the child to become a responsible and productive member of the community.

(b) In carrying out the purposes outlined in subsection (a) of this section, the court may:

(1) Place the child on probation subject to the supervision of the Commissioner, upon such conditions as the court may prescribe. The length of probation shall be as prescribed by the court or until further order of the court.
(2) Order custody of the child be given to the custodial parent, guardian, or custodian. For a fixed period of time following disposition, the court may order that custody be subject to such conditions and limitations as the court may deem necessary and sufficient to provide for the safety of the child and the community. Conditions may include protective supervision for up to six months following the disposition order unless further extended by court order. The court shall hold review hearings pursuant to section 5320 of this title to determine whether the conditions continue to be necessary.
(3) Transfer custody of the child to a noncustodial parent, relative, or person with a significant connection to the child. The court may order that custody be subject to such conditions and limitations as the court may deem necessary and sufficient to provide for the safety of the child and community, including protective supervision, for up to six months unless further extended by court order. The court shall hold review hearings pursuant to section 5320 of this title to determine whether the conditions continue to be necessary.
(4) Transfer custody of the child to the Commissioner.
(5) Terminate parental rights and transfer custody and guardianship to the Department without limitation as to adoption.

(6) Issue an order of permanent guardianship pursuant to 14 V.S.A. § 2664.

(7) Refer a child directly to a youth-appropriate community-based provider that has been approved by the Department, which may include a community justice center or a balanced and restorative justice program. Referral to a community-based provider pursuant to this subdivision shall not require the court to place the child on probation. If the community-based provider does not accept the case or if the child fails to complete the program in a manner deemed satisfactory and timely by the provider, the child shall return to the court for disposition.

(c) If the court orders the transfer of custody of the child pursuant to subdivisions (b)(4) and (5) of this section, the court shall establish a permanency goal for the child and adopt a case plan prepared by the Department designed to achieve the permanency goal. If the court determines that the plan proposed by the Department does not adequately support the permanency goal for the child, the court may reject the plan proposed by the Department and order the Department to prepare and submit a revised plan for court approval.

[Subsection (b) effective until July 1, 2020; see also subsection (b) effective July 1, 2020 set out below.]

(b) Annually, the Secretary shall determine whether students in each Vermont public school are provided educational opportunities substantially equal to those provided in other public schools. If the Secretary determines that a school is not meeting the education quality standards listed in subsection (a) of this section or that the school is making insufficient progress in improving student performance in relation to the standards for student performance set forth in subdivision 164(9) of this title, he or she shall describe in writing actions that a district must take in order to meet either or both sets of standards and shall provide technical assistance to the school. If the school fails to meet the standards or make sufficient progress within two years of the determination, the Secretary shall recommend to the State Board one or more of the following actions:

(1) continue technical assistance;
(2) adjust supervisory union boundaries or responsibilities of the superintendency;
(3) assume administrative control only to the extent necessary to correct deficiencies; or
(4) close the school and require that the school district pay tuition to another public school or an approved independent school pursuant to chapter 21 of this title.

[Subsection (b) effective July 1, 2020; see also subsection (b) effective until July 1, 2020 set out above.]

(b) Annually, the Secretary shall determine whether students in each Vermont public school are provided educational opportunities substantially equal to those provided in other public schools. If the Secretary determines that a school is not meeting the education quality standards listed in subsection (a) of this section or that the school is making insufficient progress in improving student performance in relation to the standards for student performance set forth in subdivision 164(9) of this title, he or she shall describe in writing actions that a district must take in order to meet either or both sets of standards and shall provide technical assistance to the school. If the school fails to meet the standards or make sufficient
progress within two years of the determination, the Secretary shall recommend to the State Board one or more of the following actions:

(1) the Agency continue to provide technical assistance for one more cycle of review;
(2) the State Board adjust supervisory union boundaries or responsibilities of the superintendency pursuant to section 261 of this title;
(3) the Secretary assume administrative control of an individual school, school district, or supervisory union, including budgetary control to ensure sound financial practices, only to the extent necessary to correct deficiencies;
(4) the State Board close an individual school or schools and require that the school district pay tuition to another public school or an approved independent school pursuant to chapter 21 of this title; or
(5) the State Board require two or more school districts to consolidate their governance structures.

(c) The State Board, after offering the school board an opportunity for a hearing, shall either dismiss the Secretary's recommendation or order that one or more of the actions listed in subsection (b) of this section be taken. The action ordered by the State Board shall be the least intrusive consistent with the need to provide students attending the school substantially equal educational opportunities. A school board aggrieved by an order of the State Board may appeal the order in accordance with the Rules of Civil Procedure.

(d) Nothing in this section shall be construed to entitle any student to educational programs or services identical to those received by students in the same or any other school district. Further, nothing in this section shall create a private right of action.

(e) If the Secretary determines at any time that the failure of a school to meet the education quality standards listed in subsection (a) of this section is severe or pervasive, potentially results in physical or emotional harm to students, or significant deprivation of equal education opportunities, and the school has either unreasonably refused to remedy the problem or its efforts have proved ineffective, he or she may recommend to the State Board one or more of the actions listed in subsection (b) of this section. The State Board shall then follow the procedure of subsection (c) of this section.

(f) In order to be designated an independent school meeting education quality standards, an independent school shall participate in the education quality standards process of subsection (b) of this section. An independent school shall receive technical assistance in accordance with the provisions of subsection (b), but shall not be subject to subdivisions (b)(2)-(4) of this section. The school shall be an independent school meeting education quality standards unless the State Board, after opportunity for hearing, finds that:

(1) the school has discontinued its participation in the education quality standards process; or
(2) two or more years following a determination that the school is not meeting the education quality standards or that the school is making insufficient progress in improving student performance, the school fails to meet the standards or make sufficient progress toward meeting the standards.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

A. The Board of Education shall establish guidelines and develop model policies for codes of student conduct to aid local school boards in the implementation of such policies. The guidelines and model policies shall include, but not be limited to, (i) criteria for the removal of a student from a class, the use of suspension, expulsion, and exclusion as disciplinary measures, the grounds for suspension and expulsion and exclusion, and the procedures to be followed in such cases, including proceedings for such suspension, expulsion, and exclusion decisions and all applicable appeals processes; (ii) standards, consistent with state, federal and case laws, for school board policies on alcohol and drugs, gang-related activity, hazing, vandalism, trespassing, threats, search and seizure, disciplining of students with disabilities, intentional injury of others, self-defense, bullying, the use of electronic means for purposes of bullying, harassment, and intimidation, and dissemination of such policies to students, their parents, and school personnel; and (iii) standards for in-service training of school personnel in and examples of the appropriate management of student conduct and student offenses in violation of school board policies.

In accordance with the most recent enunciation of constitutional principles by the Supreme Court of the United States of America, the Board's standards for school board policies on alcohol and drugs and search and seizure shall include guidance for procedures relating to voluntary and mandatory drug testing in schools, including, but not limited to, which groups may be tested, use of test results, confidentiality of test information, privacy considerations, consent to the testing, need to know, and release of the test results to the appropriate school authority.

Within one calendar month of the opening of school, each school board shall, simultaneously with any other materials customarily distributed at that time, send to the parents of each enrolled student (i) a notice of the requirements of this section; (ii) a copy of the school board's standards of student conduct; and (iii) a copy of the compulsory school attendance law. These materials shall include a notice to the parents that by signing the statement of receipt, parents shall not be deemed to waive, but to expressly reserve, their rights protected by the constitutions or laws of the United States or the Commonwealth and that a parent shall have the right to express disagreement with a school's or school division's policies or decisions.

Each parent of a student shall sign and return to the school in which the student is enrolled a statement acknowledging the receipt of the school board's standards of student conduct, the notice of the requirements of this section, and the compulsory school attendance law. Each school shall maintain records of such signed statements.

D. The school principal may request the student's parent or parents, if both parents have legal and physical custody of such student, to meet with the principal or his designee to review the school board's standards of student conduct and the parent's or parents' responsibility to participate with the school in disciplining the student and maintaining order, to ensure the student's compliance with compulsory school attendance law, and to discuss improvement of the child's behavior, school attendance, and educational progress.

E. In accordance with the due process procedures set forth in this article and the guidelines required by § 22.1-279.6, the school principal may notify the parents of any student who violates a school board policy or the compulsory school attendance requirements when such violation could result in the student's suspension or the filing of a court petition, whether or not the school administration has imposed such disciplinary action or filed a petition. The notice shall state (i) the date and particulars of the violation; (ii) the obligation of the parent to take actions to assist the school in improving the student's behavior and ensuring compulsory school attendance compliance; (iii) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials; and (iv) that a petition with the juvenile and domestic relations court may be filed under certain circumstances to declare the student a child in need of supervision.

Grounds for mandatory suspension or expulsion

LAWS

§ 22.1-277.07. Expulsion of students under certain circumstances; exceptions.
A. In compliance with the federal Improving America's Schools Act of 1994 (Part F-Gun-Free Schools Act of 1994), a school board shall expel from school attendance for a period of not less than one year any student whom such school board has determined, in accordance with the procedures set forth in this article, to have possessed a firearm on school property or at a school-sponsored activity as prohibited by § 18.2-308.1 or to have possessed a firearm or destructive device as defined in subsection E, a firearm muffler or firearm silencer, or a pneumatic gun as defined in subsection E of § 15.2-915.4 on school property or at a school-sponsored activity. A school administrator, pursuant to school board policy, or a school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. A school board may promulgate guidelines for determining what constitutes special circumstances. In addition, a school board may, by regulation, authorize the division superintendent or his designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in accordance with the procedures set forth in this article. Nothing in this section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

E. As used in this section:
"Destructive device" means (i) any explosive, incendiary, or poison gas, bomb, grenade, rocket having a propellant charge of more than four ounces, missile having an explosive or incendiary charge of more than one-quarter ounce, mine, or other similar device; (ii) any weapon, except a shotgun or a shotgun shell generally recognized as particularly suitable for sporting purposes, by whatever name known that will, or may be readily converted to, expel a projectile by the action of an explosive or other propellant, and that has any barrel with a bore of more than one-half inch in diameter that is homemade or was not made by a duly licensed weapon manufacturer, any fully automatic firearm, any sawed-off shotgun or sawed-off rifle as defined in § 18.2-299 or any firearm prohibited from civilian ownership by federal law; and (iii) any combination of parts either designed or intended for use in converting any device into any destructive device described in this subsection and from which a destructive device may be readily assembled. "Destructive device" does not include any device that is not designed or redesigned for use as a weapon, or any device originally designed for use as a weapon and that is redesigned for use as a signaling, pyrotechnic, line-throwing, safety, or other similar device, nor shall it include any antique firearm as defined in subsection G of § 18.2-308.2:2.
"Firearm" means any weapon, including a starter gun, that will, or is designed or may readily be converted to, expel single or multiple projectiles by the action of an explosion of a combustible material or the frame or receiver of any such weapon. substance, imitation controlled substance, or marijuana as defined in § 18.2-247 onto school property or
to a school-sponsored activity. A school administrator, pursuant to school board policy, or a school board
may, however, determine, based on the facts of a particular situation, that special circumstances exist
and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. A
school board may, by regulation, authorize the division superintendent or his designee to conduct a
preliminary review of such cases to determine whether a disciplinary action other than expulsion is
appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action
is appropriate, any such subsequent disciplinary action is to be taken in accordance with the procedures
set forth in this article. Nothing in this section shall be construed to require a student's expulsion

case may sufficient cause for suspension include only instances of truancy and (ii) except in cases

Administrative procedures related to suspensions and expulsion

LAWS

§ 22.1-276.01. Definitions.
A. For the purposes of this article, unless the context requires a different meaning:
"Exclusion" means a Virginia school board's denial of school admission to a student who has been expelled or has been placed on a long-term suspension of more than 30 calendar days by another school board or a private school, either in Virginia or another state, or for whom admission has been withdrawn by a private school in Virginia or another state.

"Expulsion" means any disciplinary action imposed by a school board or a committee thereof, as provided in school board policy, whereby a student is not permitted to attend school within the school division and is ineligible for readmission for 365 calendar days after the date of the expulsion.

"Long-term suspension" means any disciplinary action whereby a student is not permitted to attend school for more than ten school days but less than 365 calendar days.

"Short-term suspension" means any disciplinary action whereby a student is not permitted to attend school for a period not to exceed 10 school days.

§ 22.1-277.04. Short-term suspension; procedures; readmission.
A pupil may be suspended for not more than ten school days by either the school principal, any assistant principal, or, in their absence, any teacher. The principal, assistant principal, or teacher may suspend the pupil after giving the pupil oral or written notice of the charges against him and, if he denies them, an explanation of the facts as known to school personnel and an opportunity to present his version of what occurred. In the case of any pupil whose presence poses a continuing danger to persons or property, or whose presence is an ongoing threat of disruption, the pupil may be removed from school immediately and the notice, explanation of facts, and opportunity to present his version shall be given as soon as practicable thereafter.

Upon suspension of any pupil, the principal, assistant principal, or teacher responsible for such suspension shall report the facts of the case in writing to the division superintendent or his designee and the parent of the pupil suspended. The division superintendent or his designee shall review forthwith the action taken by the principal, assistant principal, or teacher upon a petition for such review by any party in interest and confirm or disapprove such action based on an examination of the record of the pupil's behavior.

The decision of the division superintendent or his designee may be appealed to the school board or a committee thereof in accordance with regulations of the school board; however, the decision of the division superintendent or his designee shall be final if so prescribed by school board regulations.

The school board shall require that any oral or written notice to the parent of a student who is suspended from school attendance for not more than ten days include notification of the length of the suspension, information regarding the availability of community-based educational programs, alternative education programs or other educational options, and of the student's right to return to regular school attendance upon the expiration of the suspension. The costs of any community-based educational program, or alternative education program or educational option, which is not a part of the educational program offered by the school division, shall be borne by the parent of the student.

§ 22.1-277.05. Long-term suspensions; procedures; readmission.
A. A pupil may be suspended from attendance at school for more than ten days after providing written notice to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the school board, or a committee thereof, or the superintendent or his designee, in accordance with regulations of the school board. If the regulations provide for a hearing by the superintendent or his designee, the regulations shall also provide for an appeal of the decision to the full school board. Such appeal shall be decided by the school board within thirty days.

If the regulations provide for a hearing by a committee of the school board, the regulations shall also provide that such committee may confirm or disapprove the suspension of a student. Any such committee
of the school board shall be composed of at least three members. If the committee's decision is not unanimous, the pupil or his parent may appeal the committee's decision to the full school board. Such appeal shall be decided by the school board within thirty days.

B. A school board shall include in the written notice of a suspension for more than ten days required by this section, notification of the length of the suspension. In the case of a suspension for more than ten days, such written notice shall provide information concerning the availability of community-based educational, alternative education, or intervention programs. Such notice shall also state that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by the school board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension shall be borne by the parent of the student.

Nothing in this section shall be construed to prohibit the school board from permitting or requiring students suspended pursuant to this section to attend an alternative education program provided by the school board for the term of such suspension.

§ 22.1-277.06. Expulsions; procedures; readmission.

A. Pupils may be expelled from attendance at school after written notice to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the school board or a committee thereof in accordance with regulations of the school board.

If the regulations provide for a hearing by a committee of the school board, the regulations shall also provide that such committee may confirm or disapprove the expulsion of a student. Any such committee of the school board shall be composed of at least three members. If the committee's decision is not unanimous, the pupil or his parent may appeal the committee's decision to the full school board. Such appeal shall be decided by the school board within 30 days.

The regulations shall also provide for subsequent confirmation or disapproval of the proposed expulsion by the school board, or a committee thereof, as may be provided in regulation, regardless of whether the pupil exercised the right to a hearing.

B. The written notice required by this section shall include notification of the length of the expulsion and shall provide information to the parent of the student concerning the availability of community-based educational, training, and intervention programs. Such notice shall state further whether or not the student is eligible to return to regular school attendance, or to attend an appropriate alternative education program approved by the school board, or an adult education program offered by the school division, during or upon the expiration of the expulsion, and the terms or conditions of such readmission. The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his expulsion shall be borne by the parent of the student.

Nothing in this section shall be construed to prohibit the school board from permitting or requiring students expelled pursuant to this section to attend an alternative education program provided by the school board for the term of such expulsion.

If the school board determines that the student is ineligible to return to regular school attendance or to attend during the expulsion an alternative education program or an adult education program in the school division, the written notice shall also advise the parent of such student that the student may petition the school board for readmission to be effective one calendar year from the date of his expulsion, and of the conditions, if any, under which readmission may be granted.

School boards shall establish, by regulation, a schedule pursuant to which such students may apply and reapply for readmission to school. Such schedule shall be designed to ensure that any initial petition for
readmission will be reviewed by the school board or a committee thereof, or the division superintendent, and, if granted, would enable the student to resume school attendance one calendar year from the date of the expulsion. If the division superintendent or a committee of the school board denies such petition, the student may petition the school board for review of such denial.

C. Recommendations for expulsion for actions other than those specified in §§ 22.1-277.07 and 22.1-277.08 shall be based on consideration of the following factors:

1. The nature and seriousness of the violation;
2. The degree of danger to the school community;
3. The student's disciplinary history, including the seriousness and number of previous infractions;
4. The appropriateness and availability of an alternative education placement or program;
5. The student's age and grade level;
6. The results of any mental health, substance abuse, or special education assessments;
7. The student's attendance and academic records; and
8. Such other matters as he deems appropriate.

No decision to expel a student shall be reversed on the grounds that such factors were not considered. Nothing in this subsection shall be deemed to preclude a school board from considering any of these factors as "special circumstances" for purposes of §§ 22.1-277.07 and 22.1-277.08.

§ 22.1-277.07. Expulsion of students under certain circumstances; exceptions.
E. As used in this section:

"Destructive device" means (i) any explosive, incendiary, or poison gas, bomb, grenade, rocket having a propellant charge of more than four ounces, missile having an explosive or incendiary charge of more than one-quarter ounce, mine, or other similar device; (ii) any weapon, except a shotgun or a shotgun shell generally recognized as particularly suitable for sporting purposes, by whatever name known that will, or may be readily converted to, expel a projectile by the action of an explosive or other propellant, and that has any barrel with a bore of more than one-half inch in diameter that is homemade or was not made by a duly licensed weapon manufacturer, any fully automatic firearm, any sawed-off shotgun or sawed-off rifle as defined in § 18.2-299 or any firearm prohibited from civilian ownership by federal law; and (iii) any combination of parts either designed or intended for use in converting any device into any destructive device described in this subsection and from which a destructive device may be readily assembled. "Destructive device" does not include any device that is not designed or redesigned for use as a weapon, or any device originally designed for use as a weapon and that is redesigned for use as a signaling, pyrotechnic, line-throwing, safety, or other similar device, nor shall it include any antique firearm as defined in subsection G of § 18.2-308.2:2.

"Firearm" means any weapon, including a starter gun, that will, or is designed or may readily be converted to, expel single or multiple projectiles by the action of an explosion of a combustible material or the frame or receiver of any such weapon. "Firearm" does not include any pneumatic gun, as defined in subsection E of § 15.2-915.4.

"One year" means 365 calendar days as required in federal regulations.

"School property" means any real property owned or leased by the school board or any vehicle owned or leased by the school board or operated by or on behalf of the school board.

F. The exemptions set out in §§ 18.2-308 and 18.2-308.016 regarding concealed weapons shall apply, mutatis mutandis, to the provisions of this section. The provisions of this section shall not apply to persons who possess such firearm or firearms or pneumatic guns as a part of the curriculum or other
programs sponsored by the schools in the school division or any organization permitted by the school to use its premises or to any law-enforcement officer while engaged in his duties as such. § 22.1-277.2. Authority to exclude students under certain circumstances; petition for readmission; alternative education program.

A. A student, who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in this Commonwealth or in another state or for whom admission has been withdrawn by a private school in this Commonwealth or in another state may be excluded from attendance by a local school board in Virginia, regardless of whether such student has been admitted to another school division or private school in the Commonwealth or in another state subsequent to such expulsion, suspension, or withdrawal of admission upon a finding that the student presents a danger to the other students or staff of the school division after (i) written notice to the student and his parent that the student may be subject to exclusion, the reasons therefor, and, in the event of such exclusion, of the right to appeal the decision at a hearing before the school board or a committee thereof; and (ii) a review of the case has been conducted by the division superintendent or his designee and exclusion has been recommended.

In the case of a suspension of more than thirty days, the term of the exclusion may not exceed the duration of such suspension.

In excluding any such expelled student from school attendance, the local school board may accept or waive any or all of any conditions for readmission imposed upon such student by the expelling school board pursuant to § 22.1-277.06. The excluding school board shall not impose additional conditions for readmission to school.

If the decision by the superintendent or his designee to exclude has been appealed to a committee of the school board, the student or his parent shall be provided written notice of the right to appeal the decision to the full board, which shall, within thirty days following any such hearing, in the case of an expulsion or withdrawal of admission and, in the case of a suspension of more than thirty days, within fifteen days following any such hearing, notify in writing the student or his parent of its decision.

B. In lieu of the procedures established in subsection A, a school board may adopt regulations providing that a student may be excluded from attendance after (i) written notice to the student and his parent that the student may be subject to exclusion, including the reasons therefor, and notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the division superintendent or his designee regarding such exclusion; and (ii) a hearing of the case has been conducted by the division superintendent or his designee, and the decision has been to exclude the student from attendance. The decision of the superintendent or his designee to exclude shall be final unless altered by the school board, upon timely written petition, as established in regulation, of the student so excluded or his parent, for a review of the record by the school board.

C. Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period shall be established by the school board, committee thereof, or superintendent or his designee, as the case may be, at the relevant hearing, the student may re-petition the school board for admission. If the petition for admission is rejected, the school board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may re-petition the school board for admission.

D. The school board may permit students excluded pursuant to this section to attend an alternative education program provided by the school board for the term of such exclusion.

Such notice shall also state that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by the school board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension shall be borne by the parent of the student.

Nothing in this section shall be construed to prohibit the school board from permitting or requiring students suspended pursuant to this section to attend an alternative education program provided by the school board for the term of such suspension.

the expulsion. If the division superintendent or a committee of the school board denies such petition, the
student may petition the school board for review of such denial.

§ 22.1-277.2. Authority to exclude students under certain circumstances; petition for readmission;
alternative education program.

A. A student, who has been expelled or suspended for more than thirty days from attendance at school by
a school board or a private school in this Commonwealth or in another state or for whom admission has
been withdrawn by a private school in this Commonwealth or in another state may be excluded from
attendance by a local school board in Virginia, regardless of whether such student has been admitted to
another school division or private school in the Commonwealth or in another state subsequent to such
expulsion, suspension, or withdrawal of admission upon a finding that the student presents a danger to
the other students or staff of the school division after (i) written notice to the student and his parent that
the student may be subject to exclusion, the reasons therefor, and, in the event of such exclusion, of the
right to appeal the decision at a hearing before the school board or a committee thereof; and (ii) a review
of the case has been conducted by the division superintendent or his designee and exclusion has been
recommended.

In the case of a suspension of more than thirty days, the term of the exclusion may not exceed the
duration of such suspension.

In excluding any such expelled student from school attendance, the local school board may accept or
waive any or all of any conditions for readmission imposed upon such student by the expelling school
board pursuant to § 22.1-277.06. The excluding school board shall not impose additional conditions for
readmission to school.

If the decision by the superintendent or his designee to exclude has been appealed to a committee of the
school board, the student or his parent shall be provided written notice of the right to appeal the decision
to the full board, which shall, within thirty days following any such hearing, in the case of an expulsion or
withdrawal of admission and, in the case of a suspension of more than thirty days, within fifteen days
following any such hearing, notify in writing the student or his parent of its decision.

B. In lieu of the procedures established in subsection A, a school board may adopt regulations providing
that a student may be excluded from attendance after (i) written notice to the student and his parent that
the student may be subject to exclusion, including the reasons therefor, and notice of the opportunity for
the student or his parent to participate in a hearing to be conducted by the division superintendent or his
designee regarding such exclusion; and (ii) a hearing of the case has been conducted by the division
superintendent or his designee, and the decision has been to exclude the student from attendance. The
decision of the superintendent or his designee to exclude shall be final unless altered by the school
board, upon timely written petition, as established in regulation, of the student so excluded or his parent,
for a review of the record by the school board.

C. Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period
shall be established by the school board, committee thereof, or superintendent or his designee, as the
case may be, at the relevant hearing, the student may re-petition the school board for admission. If the
petition for admission is rejected, the school board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may re-petition the school board for admission.

D. The school board may permit students excluded pursuant to this section to attend an alternative education program provided by the school board for the term of such exclusion.

§ 22.1-279.3. Parental responsibility and involvement requirements.

F. No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.

§ 22.1-209.1:2. Regional alternative education programs for certain students.

A. With such funds as may be appropriated for this purpose, the Board of Education shall establish a program consisting of regional alternative education options for elementary, middle, and high school students in compliance with subdivision D 7 of § 22.1-253.13:1 who (i) have committed an offense in violation of school board policies relating to weapons, alcohol or drugs, or intentional injury to another person, or against whom a petition or warrant has been filed alleging such acts or school board charges alleging such policy violations are pending; (ii) have been expelled from school attendance or have received one suspension for an entire semester, or have received two or more long-term suspensions within one school year; or (iii) have been released from a juvenile correctional center and have been identified by the Superintendent of the Department of Juvenile Justice's Division of Education and the relevant division superintendent as requiring a regional alternative education program. Based on available space, a student may also be administratively assigned to a regional alternative education program either at the request of the parent and with the consent of the division superintendent or by the division superintendent after written notice to the student and his parent. Such notice of the opportunity for the student and/or his parent to participate in a hearing conducted by the division superintendent or his designee regarding such placement shall be issued and the assignment shall be final unless altered by the school board, upon timely written petition, in accordance with regulations of the school board, by the student or his parent, for a review of the record by the school board. However, no child shall be assigned to any regional alternative education program described in this section for more than one school year without an annual assessment of the placement to determine the appropriateness of transitioning the child into the school division's regular program.
B. Applications for grants shall include the following components:

1. An agreement executed by two or more school divisions and approval of their respective governing bodies to offer a regional alternative education option as provided in subsection A, and a plan for the apportionment of responsibilities for the administration, management, and support of the program, including, but not limited to, the facilities and location for the program, daily operation and oversight, staffing, instructional materials and resources, transportation, funding and in-kind services, and the program of instruction.

2. A procedure for obtaining the participation in or support for the program, as may be determined, of the parents, guardian or other person having charge or control of a child placed in the program.

3. An interagency agreement for cooperation executed by the local departments of health and social services or welfare; the juvenile and domestic relations district court; law-enforcement agencies; institutions of higher education and other postsecondary training programs; professional and community organizations; the business and religious communities; dropout prevention and substance abuse prevention programs; community services boards located in the applicants' respective jurisdictions; and the Department of Juvenile Justice.

4. A curriculum developed for intensive, accelerated instruction designed to establish high standards and academic achievement for participating students.

5. An emphasis on building self-esteem and the promotion of personal and social responsibility.

6. A low pupil/teacher ratio to promote a high level of interaction between the students and the teacher.

7. An extended day program, where appropriate, to facilitate remediation; tutoring; counseling; organized, age-appropriate, developmental education for elementary and middle school children; and opportunities that enhance acculturation and permit students to improve their social and interpersonal relationship skills.

8. Community outreach to build strong school, business, and community partnerships, and to promote parental involvement in the educational process of participating children.

9. Specific, measurable goals and objectives and an evaluation component to determine the program's effectiveness in reducing acts of crime and violence by students, the dropout rate, the number of youth committed to juvenile correctional centers, and recidivism; and in increasing the academic achievement levels and rehabilitative success of participating students, admission to institutions of higher education and other postsecondary education and training programs, and improving staff retention rates.

10. The number of children who may be assigned to the regional alternative education program during the school year.

11. A plan for transitioning the enrolled students into the relevant school division's regular program.

12. A current program of staff development and training.

C. Beginning with the first year of program implementation, the Department of Education shall be entitled to deduct annually from the locality's share for the education of its students a sum equal to the actual local expenditure per pupil for the support of those students placed by the relevant school division in any such program. The amount of the actual transfers shall be based on data accumulated during the prior school year.

D. A school board shall require written notification to the pupil's parent, guardian, or other person having charge or control, when a pupil commits an offense in violation of school board policies, which school officials determine was committed without the willful intent to violate such policies, or when the offense did not endanger the health and safety of the individual or other persons, of the nature of the offense no later than two school days following its occurrence. A school board shall require the principal of the
school where the child is in attendance or other appropriate school personnel to develop appropriate measures, in conjunction with the pupil's parent or guardian, for correcting such behavior.

E. For the purposes of this section, "regional alternative education program" means a program supported and implemented by two or more school divisions which are either geographically contiguous or have a community of interest.

F. For the purposes of this section, "one school year" means no more than 180 teaching days.

§ 22.1-254. Compulsory attendance required; excuses and waivers; alternative education program attendance; exemptions from article.

F. A school board may, in accordance with the procedures set forth in Article 3 (§ 22.1-276.01 et seq.) of Chapter 14 and upon a finding that a school-age child has been (i) charged with an offense relating to the Commonwealth's laws, or with a violation of school board policies, on weapons, alcohol or drugs, or intentional injury to another person; (ii) found guilty or not innocent of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the superintendent of the school division pursuant to subsection G of § 16.1-260; (iii) suspended pursuant to § 22.1-277.05; or (iv) expelled from school attendance pursuant to § 22.1-277.06 or 22.1-277.07 or subsection B of § 22.1-277, require the child to attend an alternative education program as provided in § 22.1-209.1:2 or 22.1-277.2:1.

G. Whenever a court orders any pupil into an alternative education program, including a program preparing students for a high school equivalency examination approved by the Board of Education, offered in the public schools, the local school board of the school division in which the program is offered shall determine the appropriate alternative education placement of the pupil, regardless of whether the pupil attends the public schools it supervises or resides within its school division.

The juvenile and domestic relations district court of the county or city in which a pupil resides or in which charges are pending against a pupil, or any court in which charges are pending against a pupil, may require the pupil who has been charged with (i) a crime that resulted in or could have resulted in injury to others, (ii) a violation of Article 1 (§ 18.2-77 et seq.) of Chapter 5 of Title 18.2, or (iii) any offense related to possession or distribution of any Schedule I, II, or III controlled substances to attend an alternative education program, including, but not limited to, night school, adult education, or any other education program designed to offer instruction to students for whom the regular program of instruction may be inappropriate.

This subsection shall not be construed to limit the authority of school boards to expel, suspend, or exclude students, as provided in §§ 22.1-277.04, 22.1-277.05, 22.1-277.06, 22.1-277.07, and 22.1-277.2. As used in this subsection, the term "charged" means that a petition or warrant has been filed or is pending against a pupil.

§ 22.1-269.1. Alternative attendance programs.

A. The Board of Education shall promulgate regulations for the voluntary participation of school divisions in programs to allow each school-age child to receive educational services at another public school, either in the division in which the child resides or in another division, as selected by the child's parent or guardian. Each public school in a school division participating in an alternative attendance program shall be eligible to participate in an alternative attendance program unless exceptional circumstances, as defined by the Board of Education, render the participation of the school contrary to public interest.

B. The Board's regulations shall be promulgated under the provisions of the Administrative Process Act (§ 2.2-4000 et seq.) and shall include, but shall not be limited to, provisions which address the following: the required acknowledgement by a local school of its decision to participate in an alternative attendance program, including school board resolutions for intradistrict programs and agreements between divisions
participating in interdistrict programs; the equitable allocation of places to accommodate students when there are insufficient places to serve such students; transportation and school bus scheduling needs within the local school divisions; school enrollment capacity, class size, pupil-teacher ratios, and staffing levels for related instructional, administrative, and supervisory personnel as required by the Standards of Quality and the Standards for Accrediting Public Schools; the adequacy of school resources to accommodate an increase in student enrollment, grade level designations, and course offerings; the enrollment of students whose education is subject to an individualized education plan (I.E.P.) as required under P.L. 94-142 as amended; the preservation of the uniqueness of schools established for particular educational purposes; the fiscal impact of accommodating parental preference on local school divisions; in the case of interdistrict attendance programs, the establishment of tuition charges authorized by § 22.1-5; and the need to maintain racial balance in the public schools. The regulations shall also establish the value of educational services, based on consideration of per pupil expenditures and state aid in the affected school. Any local school board which has been ordered by a state or federal court to achieve racial balance in its public schools shall maintain such racial balance when accommodating preference in the assignment of children to a school.

C. From such funds as may be appropriated, the Board shall provide for the independent evaluation of this alternative attendance program and shall submit the evaluation to the Governor, the Senate, and the House of Delegates by January 1 of each year.

§ 22.1-276.01. Definitions.
A. For the purposes of this article, unless the context requires a different meaning:
"Alternative education program" includes night school, adult education, or any other education program designed to offer instruction to students for whom the regular program of instruction may be inappropriate.

§ 22.1-276.2. Removal of students from classes.
B. Each school board shall establish, within the regulations governing student conduct required by § 22.1-279.6:
   4. Guidelines for the alternative assignment and instruction of such students and for the duration of such removals; and

§ 22.1-277.04. Short-term suspension; procedures; readmission.
The school board shall require that any oral or written notice to the parent of a student who is suspended from school attendance for not more than ten days include notification of the length of the suspension, information regarding the availability of community-based educational programs, alternative education programs or other educational options, and of the student's right to return to regular school attendance upon the expiration of the suspension. The costs of any community-based educational program, or alternative education program or educational option, which is not a part of the educational program offered by the school division, shall be borne by the parent of the student.

§ 22.1-277.05. Long-term suspensions; procedures; readmission.
B. A school board shall include in the written notice of a suspension for more than ten days required by this section, notification of the length of the suspension. In the case of a suspension for more than ten days, such written notice shall provide information concerning the availability of community-based educational, alternative education, or intervention programs. Such notice shall also state that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by the school board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention
program that is not a part of the educational program offered by the school division that the student may attend during his suspension shall be borne by the parent of the student.

Nothing in this section shall be construed to prohibit the school board from permitting or requiring students suspended pursuant to this section to attend an alternative education program provided by the school board for the term of such suspension.

§ 22.1-277.06. Expulsions; procedures; readmission.

B. The written notice required by this section shall include notification of the length of the expulsion and shall provide information to the parent of the student concerning the availability of community-based educational, training, and intervention programs. Such notice shall state further whether or not the student is eligible to return to regular school attendance, or to attend an appropriate alternative education program approved by the school board, or an adult education program offered by the school division, during or upon the expiration of the expulsion, and the terms or conditions of such readmission. The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his expulsion shall be borne by the parent of the student.

Nothing in this section shall be construed to prohibit the school board from permitting or requiring students expelled pursuant to this section to attend an alternative education program provided by the school board for the term of such expulsion.

If the school board determines that the student is ineligible to return to regular school attendance or to attend during the expulsion an alternative education program or an adult education program in the school division, the written notice shall also advise the parent of such student that the student may petition the school board for readmission to be effective one calendar year from the date of his expulsion, and of the conditions, if any, under which readmission may be granted.

School boards shall establish, by regulation, a schedule pursuant to which such students may apply and reapply for readmission to school. Such schedule shall be designed to ensure that any initial petition for readmission will be reviewed by the school board or a committee thereof, or the division superintendent, and, if granted, would enable the student to resume school attendance one calendar year from the date of the expulsion. If the division superintendent or a committee of the school board denies such petition, the student may petition the school board for review of such denial.

§ 22.1-277.2:1. Disciplinary authority of school boards under certain circumstances; alternative education program.

A. A school board may, in accordance with the procedures set forth in this article, require any student who has been (i) charged with an offense relating to the Commonwealth’s laws, or with a violation of school board policies, on weapons, alcohol or drugs, or intentional injury to another person, or with an offense that is required to be disclosed to the superintendent of the school division pursuant to subsection G of § 16.1-260; (ii) found guilty or not innocent of an offense relating to the Commonwealth's laws on weapons, alcohol, or drugs, or of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the superintendent of the school division pursuant to subsection G of § 16.1-260; (iii) found to have committed a serious offense or repeated offenses in violation of school board policies; (iv) suspended pursuant to § 22.1-277.05; or (v) expelled pursuant to § 22.1-277.06, 22.1-277.07, or 22.1-277.08, or subsection B of § 22.1-277, to attend an alternative education program. A school board may require such student to attend such programs regardless of where the crime occurred. School boards may require any student who has been found, in accordance with the procedures set forth in this article, to have been in possession of, or under the influence of, drugs or alcohol on a school bus, on school property, or at a school-sponsored activity in violation of school
board policies, to undergo evaluation for drug or alcohol abuse, or both, and, if recommended by the evaluator and with the consent of the student's parent, to participate in a treatment program.

As used in this section, the term "charged" means that a petition or warrant has been filed or is pending against a pupil.

B. A school board may adopt regulations authorizing the division superintendent or his designee to require students to attend an alternative education program consistent with the provisions of subsection A after (i) written notice to the student and his parent that the student will be required to attend an alternative education program and (ii) notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the division superintendent or his designee regarding such placement. The decision of the superintendent or his designee regarding such alternative education placement shall be final unless altered by the school board, upon timely written petition, as established in regulation, by the student or his parent, for a review of the record by the school board.

C. A school board may adopt regulations authorizing the principal or his designee to impose a short-term suspension, pursuant to § 22.1-277.04, upon a student who has been charged with an offense involving intentional injury enumerated in subsection G of § 16.1-260, to another student in the same school pending a decision as to whether to require that such student attend an alternative education program.

REGULATIONS

8 VAC 20-81-160. Discipline procedures.
A. General. (§ 22.1-277 of the Code of Virginia; 34 CFR 300.530(a); 34 CFR 300.324(a)(2)(i))

1. A child with a disability shall be entitled to the same due process rights that all children are entitled to under the Code of Virginia and the local educational agency's disciplinary policies and procedures.

B. Short-term removals.

1. A short-term removal is for a period of time of up to 10 consecutive school days or 10 cumulative school days in a school year. (34 CFR 300.530(b))

   a. School personnel may short-term remove a child with a disability from the child's current educational setting to an appropriate interim alternative educational setting, another setting, or suspension, to the extent those alternatives are applied to a child without disabilities.

   b. Additional short-term removals may apply to a child with a disability in a school year for separate incidents of misconduct as long as the removals do not constitute a pattern. If the short-term removals constitute a pattern, the requirements of subsection C of this section apply.

      (1) The local educational agency determines when isolated, short-term removals for unrelated instances of misconduct are considered a pattern. (2) These removals only constitute a change in placement if the local educational agency determines there is a pattern.

2. Services during short-term removals.

   a. The local educational agency is not required to provide services during the first 10 school days in a school year that a child with a disability is short-term removed if services are not provided to a child without a disability who has been similarly removed. (34 CFR 300.530(b)(2))

   b. For additional short-term removals, which do not constitute a pattern, the local educational agency shall provide services to the extent determined necessary to enable the student to continue to participate in the general education curriculum and to progress toward meeting the goals of the student's IEP. School personnel, in consultation with the student's special education teacher, make the service determinations. (34 CFR 300.530(b)(2))

   c. For additional short-term removals that do not constitute a pattern, the local educational agency shall ensure that children with disabilities are included in the Virginia Department of Education and
divisionwide assessment programs in accordance with the provisions of subdivision 4 of 8 VAC 20-81-20. (20 USC § 1412(a)(16)(A))

C. Long-term removals.

1. A long-term removal is for more than 10 consecutive school days; or (34 CFR 300.530; 34 CFR 300.536)

2. The child has received a series of short-term removals that constitutes a pattern:
   a. Because the removals cumulate to more than 10 school days in a school year;
   b. Because the child's behavior is substantially similar to the child's behavior in previous incidents that results in a series of removals; and
   c. Because of such additional factors such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another.

3. The local educational agency determines on a case-by-case basis whether a pattern of removals constitutes a change in placement. This determination is subject to review through due process and judicial proceedings. (34 CFR 300.530(a) and (b) and 34 CFR 300.536)

4. On the date on which the decision is made to long-term remove the student because of a violation of a code of student conduct, the local educational agency shall notify the parent(s) of the decision and provide the parent(s) with the procedural safeguards. (34 CFR 300.530(h))

5. Special circumstances. (34 CFR 300.530(g))
   a. School personnel may remove a child with a disability to an appropriate interim alternative educational setting for the same amount of time that a child without a disability would be subject to discipline, but for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability, if:
      (1) The child carries a weapon to or possesses a weapon at school, on school premises, or at a school function under the jurisdiction of a local educational agency or the Virginia Department of Education; or
      (2) The child knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of a local educational agency or the Virginia Department of Education; or
      (3) The child inflicts serious bodily injury upon another person at school, on school premises, or at a school function under the jurisdiction of a local educational agency or the Virginia Department of Education.
   b. For purposes of this part, "weapon," "controlled substance," and "serious bodily injury" have the meaning given the terms under 8 VAC 20-81-10.

   a. A child with a disability who is long-term removed receives services during the disciplinary removal so as to enable the student to: (34 CFR 300.530(d))
      (1) Continue to receive educational services so as to enable the student to continue to participate in the general educational curriculum, although in another setting;
      (2) Continue to receive those services and modifications including those described in the child's current IEP that will enable the child to progress toward meeting the IEP goals; and
      (3) Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.
b. For long-term removals, the local educational agency shall ensure that children with disabilities are included in the Virginia Department of Education and divisionwide assessment programs in accordance with the provisions of subdivision 4 of 8 VAC 20-81-20. (20 USC § 1412(a)(16)(A))

c. The IEP team determines the services needed for the child with a disability who has been long-term removed. (34 CFR 300.530(d)(5) and 34 CFR 300.531)

D. Manifestation determination. (34 CFR 300.530(c), (e), (f), and (g))

1. Manifestation determination is required if the local educational agency is contemplating a removal that constitutes a change in placement for a child with a disability who has violated a code of student conduct of the local educational agency that applies to all students.

2. The local educational agency, the parent(s), and relevant members of the child's IEP team, as determined by the parent and the local educational agency, constitute the IEP team that shall convene immediately, if possible, but not later than 10 school days after the date on which the decision to take the action is made.

3. The IEP team shall review all relevant information in the child's file, including the child's IEP, any teacher observations, and any relevant information provided by the parent(s).

4. The IEP team then shall determine the conduct to be a manifestation of the child's disability:

   (1) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

   (2) If the conduct in question was the direct result of the local educational agency's failure to implement the child's IEP.

5. If the IEP team determines that the local educational agency failed to implement the child's IEP, the local educational agency shall take immediate steps to remedy those deficiencies.

6. If the IEP team determines that the child's behavior was a manifestation of the child's disability:

   a. The IEP team shall return the child to the placement from which the child was removed unless the parent and the local educational agency agree to a change in placement as part of the modification of the behavioral intervention plan. The exception to this provision is when the child has been removed for not more than 45 school days to an interim alternative educational setting for matters described in subdivision C 5 a of this section. In that case, school personnel may keep the student in the interim alternative educational setting until the expiration of the 45-day period.

   (1) Conduct a functional behavioral assessment, unless the local educational agency had conducted this assessment before the behavior that resulted in the change in placement occurred, and implement a behavioral intervention plan for the child.

   (a) A functional behavioral assessment may include a review of existing data or new testing data or evaluation as determined by the IEP team.

   (b) If the IEP team determines that the functional behavioral assessment will include obtaining new testing data or evaluation, then the parent is entitled to an independent educational evaluation in accordance with 8 VAC 20-81-170 B if the parent disagrees with the evaluation or a component of the evaluation obtained by the local educational agency; or

   (2) If a behavioral intervention plan already has been developed, review this plan, and modify it, as necessary, to address the behavior.

7. If the IEP team determines that the child's behavior was not a manifestation of the child's disability, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except that services shall be provided in accordance with subdivision C 6 a of this section.

E. Appeal. (34 CFR 300.532(a) and (c))
1. If the child's parent(s) disagrees with the determination that the student's behavior was not a manifestation of the student's disability or with any decision regarding placement under these disciplinary procedures, the parent(s) may request an expedited due process hearing.

2. A local educational agency that believes that maintaining the current placement of the child is substantially likely to result in injury to the child or others, may request an expedited due process hearing.

3. The local educational agency is responsible for arranging the expedited due process in accordance with the Virginia Department of Education's hearing procedures at 8 VAC 20-81-210.
   a. The hearing shall occur within 20 school days of the date the request for the hearing is filed.
   b. The special education hearing officer shall make a determination within 10 school days after the hearing.
   c. Unless the parent(s) and the local educational agency agree in writing to waive the resolution meeting, or agree to use the mediation process:
      (1) A resolution meeting shall occur within 7 calendar days of receiving the request for a hearing.
      (2) The due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 calendar days of the receipt of the request for a hearing.
   d. The decisions on expedited due process hearings are appealable consistent with 8 VAC 20-81-210.

F. Authority of the special education hearing officer. (34 CFR 300.532(a) and (b))

1. A local educational agency may request an expedited due process hearing under the Virginia Department of Education's due process hearing procedures to effect a change in placement of a child with a disability for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability, if the local educational agency believes that the child's behavior is substantially likely to result in injury to self or others.

2. The special education hearing officer under 8 VAC 20-81-210 may:
   a. Return the child with a disability to the placement from which the child was removed if the special education hearing officer determines that the removal was a violation of subsections C and D of this section, or that the child's behavior was a manifestation of the child's disability; or
   b. Order a change in the placement to an appropriate interim alternative educational setting for not more than 45 school days if the special education hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the student or others.

3. A local educational agency may ask the special education hearing officer for an extension of 45 school days for the interim alternative educational setting of a child with a disability when school personnel believe that the child's return to the regular placement would result in injury to the student or others.

G. Placement during appeals. (34 CFR 300.533)

1. The child shall remain in the interim alternative educational setting pending the decision of the special education hearing officer; or

2. Until the expiration of the time for the disciplinary period set forth in this section, whichever comes first, unless the parent and the local educational agency agree otherwise.

H. Protection for children not yet eligible for special education and related services. (34 CFR 300.534)

1. A child who has not been determined to be eligible for special education and related services and who has engaged in behavior that violates a code of student conduct of the local educational agency may assert any of the protections provided in this chapter if the local educational agency had
knowledge that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

2. A local educational agency shall be deemed to have knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred:
   (a) The parent(s) of the child expressed concern in writing (or orally if the parent(s) does not know how to write or has a disability that prevents a written statement) to school personnel that the child is in need of special education and related services;
   (b) The parent(s) of the child requested an evaluation of the child to be determined eligible for special education and related services; or
   (c) A teacher of the child or school personnel expressed concern about a pattern of behavior demonstrated by the child directly to the director of special education of the local educational agency or to other supervisory personnel of the local educational agency.

3. A local educational agency would not be deemed to have knowledge that a child is a child with a disability if:
   (a) The parent of the child has not allowed a previous evaluation of the child or has refused services; or
   (b) The child has been evaluated in accordance with 8 VAC 20-81-70 and 8 VAC 20-81-80 and determined ineligible for special education and related services.

4. If the local educational agency does not have knowledge that a child is a child with a disability prior to taking disciplinary measures against the child, the child may be subjected to the same disciplinary measures applied to a child without a disability who engages in comparable behaviors.

5. If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures under this section, the evaluation shall be conducted in an expedited manner.
   a. Until the evaluation is completed, the child remains in the educational placement determined by the school personnel, which can include suspension or expulsion without educational services.
   b. If the child is determined to be a child with a disability, taking into consideration information from the evaluations conducted by the local educational agency and information provided by the parent(s), the local educational agency shall provide special education and related services as required for a child with a disability who is disciplined.

I. Referral to and action by law enforcement and judicial authorities. (34 CFR 300.535)

1. Nothing in this chapter prohibits a local educational agency from reporting a crime by a child with a disability to appropriate authorities, or prevents state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a child with a disability to the extent such action applies to a student without a disability.

2. In reporting the crime, the local educational agency shall ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom school personnel report the crime. Transmission of such records shall be in accordance with requirements under the Management of the Student's Scholastic Record in the Public Schools of Virginia (8 VAC 20-150).

J. Information on disciplinary actions. (34 CFR 300.229)

1. The Virginia Department of Education requires that local educational agencies include in the records of a child with a disability a statement of any current or previous disciplinary action that has been taken against the child.
2. Local educational agencies are responsible for transmitting the statement to the Virginia Department of Education upon request to the same extent that the disciplinary information is included in, and transmitted with, the student records of nondisabled students.

3. The statement may include:
   a. A description of any behavior engaged in by the child who required disciplinary action;
   b. A description of the disciplinary action; and
   c. Any other information that is relevant to the safety of the child and other individuals involved with the child.

4. If the child transfers from one school to another, the transmission of any of the child's records shall include the child's current IEP and any statement of current or previous disciplinary action that has been taken against the child.

Any child permitted by any parent, guardian, or other person having control thereof to be habitually absent from school contrary to the provisions of this article may be proceeded against as a child in need of supervision as provided in Chapter 11 (§ 16.1-226 et seq.) of Title 16.1.

Attendance and truancy

LAWS

§ 22.1-258. Appointment of attendance officers; notification when pupil fails to report to school.

Every school board shall have power to appoint one or more attendance officers, who shall be charged with the enforcement of the provisions of this article. Where no attendance officer is appointed by the school board, the division superintendent or his designee shall act as attendance officer.

Whenever any pupil fails to report to school on a regularly scheduled school day and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, a reasonable effort to notify by telephone the parent to obtain an explanation for the pupil's absence shall be made by either the school principal or his designee, the attendance officer, other school personnel, or volunteers organized by the school administration for this purpose. Any such volunteers shall not be liable for any civil damages for any acts or omissions resulting from making such reasonable efforts to notify parents and obtain such explanation when such acts or omissions are taken in good faith, unless such acts or omissions were the result of gross negligence or willful misconduct. This subsection shall not be construed to limit, withdraw, or overturn any defense or immunity already existing in statutory or common law or to affect any claim occurring prior to the effective date of this law. School divisions are encouraged to use noninstructional personnel for this notice.

Whenever any pupil fails to report to school for a total of five scheduled school days for the school year and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, and a reasonable effort to notify the parent has failed, the school principal or his
designee or the attendance officer shall make a reasonable effort to ensure that direct contact is made with the parent, either in person or through telephone conversation, to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The school principal or his designee or the attendance officer, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance. If the pupil is absent an additional day after direct contact with the pupil's parent and the attendance officer has received no indication that the pupil's parent is aware of and supports the pupil's absence, either the school principal or his designee or the attendance officer shall schedule a conference within 10 school days with the pupil, his parent, and school personnel, which conference may include other community service providers, to resolve issues related to the pupil's nonattendance. The conference shall be held no later than 15 school days after the sixth absence. Upon the next absence by such pupil without indication to the attendance officer that the pupil's parent is aware of and supports the pupil's absence, the school principal or his designee shall notify the attendance officer or the division superintendent or his designee, as the case may be, who shall enforce the provisions of this article by either or both of the following: (i) filing a complaint with the juvenile and domestic relations court alleging the pupil is a child in need of supervision as defined in § 16.1-228 or (ii) instituting proceedings against the parent pursuant to § 18.2-371 or § 22.1-262. In filing a complaint against the student, the attendance officer shall provide written documentation of the efforts to comply with the provisions of this section. In the event that both parents have been awarded joint physical custody pursuant to § 20-124.2 and the school has received notice of such order, both parents shall be notified at the last known addresses of the parents.

Nothing in this section shall be construed to limit in any way the authority of any attendance officer or division superintendent to seek immediate compliance with the compulsory school attendance law as set forth in this article.

Attendance officers, other school personnel or volunteers organized by the school administration for this purpose shall be immune from any civil or criminal liability in connection with the notice to parents of a pupil's absence or failure to give such notice as required by this section.

§ 16.1-260. Intake; petition; investigation.

B. [...]If a juvenile is alleged to be a truant pursuant to a complaint filed in accordance with § 22.1-258 and the attendance officer has provided documentation to the intake officer that the relevant school division has complied with the provisions of § 22.1-258, then the intake officer shall file a petition with the court. The intake officer may defer filing the complaint for 90 days and proceed informally by developing a truancy plan. The intake officer may proceed informally only if the juvenile has not previously been proceeded against informally or adjudicated in need of supervision for failure to comply with compulsory school attendance as provided in § 22.1-254. The juvenile and his parent or parents, guardian, or other person standing in loco parentis must agree, in writing, for the development of a truancy plan. The truancy plan may include requirements that the juvenile and his parent or parents, guardian, or other person standing in loco parentis participate in such programs, cooperate in such treatment, or be subject to such conditions and limitations as necessary to ensure the juvenile's compliance with compulsory school attendance as provided in § 22.1-254. The intake officer may refer the juvenile to the appropriate public agency for the purpose of developing a truancy plan using an interagency interdisciplinary team approach. The team may include qualified personnel who are reasonably available from the appropriate department of social services, community services board, local school division, court service unit, and other appropriate and available public and private agencies and may be the family assessment and planning team established pursuant to § 2.2-5207. If at the end of the 90-day period the juvenile has not successfully completed the truancy plan or the truancy program, then the intake officer shall file the
petition. Whenever informal action is taken as provided in this subsection on a complaint alleging that a child is in need of services, in need of supervision, or delinquent, the intake officer shall (i) develop a plan for the juvenile, which may include restitution and the performance of community service, based upon community resources and the circumstances which resulted in the complaint, (ii) create an official record of the action taken by the intake officer and file such record in the juvenile's case file, and (iii) advise the juvenile and the juvenile's parent, guardian, or other person standing in loco parentis and the complainant that any subsequent complaint alleging that the child is in need of supervision or delinquent based upon facts which may be sufficient to invoke the jurisdiction of the court pursuant to § 16.1-241 will result in the filing of a petition with the court.

§ 22.1-261. Attendance officer to make list of children not enrolled; duties of attendance officer.
The attendance officer or the division superintendent or his designee shall check the reports submitted pursuant to subsection A of § 22.1-260 with reports from the State Registrar of Vital Records and Health Statistics. From these reports and from any other reliable source the attendance officer or the division superintendent or his designee shall, within five days after receiving all reports submitted pursuant to subsection A of § 22.1-260, make a list of the names of children who are not enrolled in any school and who are not exempt from school attendance. It shall be the duty of the attendance officer, on behalf of the local school board, to investigate all cases of nonenrollment and, when no valid reason is found therefor, to notify the parent, guardian or other person having control of the child to require the attendance of such child at the school within three days from the date of such notice.

§ 22.1-265. Inducing children to absent themselves.
Any person who induces or attempts to induce any child to be absent unlawfully from school or who knowingly employs or harbors, while school is in session, any child absent unlawfully shall be guilty of a Class 3 misdemeanor and may be subject to the penalties provided by subdivision 5 a of subsection B of § 16.1-278.5 or § 18.2-371. Upon a finding that a person knowingly and willfully violated the provisions of this section and that such person has been convicted previously of a violation of this section, such person shall be guilty of a Class 2 misdemeanor.

§ 22.1-266. Law-enforcement officers and truant children.
A. Notwithstanding the provisions of § 16.1-246, any law-enforcement officer as defined in § 9.1-101 or any attendance officer may pick up any child who (i) is reported to be truant from a public school by a school principal or division superintendent or (ii) the law-enforcement officer or attendance officer reasonably determines to be a public school student and by reason of the child's age and circumstances is either truant from public school or has been expelled from school and has been required to attend an alternative education program pursuant to § 22.1-254 or § 22.1-277.2:1, and may deliver such child to the appropriate public school, alternative education program, or truancy center and personnel thereof without charging the parent or guardian of such child with a violation of any provision of law.

B. Any such law-enforcement officer or attendance officer shall not be liable for any civil damages for any acts or omissions resulting from picking up or delivering a public school child as provided in subsection A when such acts or omissions are within the scope of the employment of such law-enforcement officer or attendance officer and are taken in good faith, unless such acts or omissions were the result of gross negligence or willful misconduct. This subsection shall not be construed to limit, withdraw or overturn any defense or immunity already existing in statutory or common law or to affect any claim occurring prior to the effective date of this law.

C. For the purposes of this section, "truancy center" means a facility or site operated by a school division, sometimes jointly with the local law-enforcement agency, and designated for receiving children who have been retrieved by a law-enforcement officer or attendance officer for truancy from school.
Any child permitted by any parent, guardian, or other person having control thereof to be habitually absent from school contrary to the provisions of this article may be proceeded against as a child in need of supervision as provided in Chapter 11 (§ 16.1-226 et seq.) of Title 16.1.

§ 22.1-268. Duty of attorneys for the Commonwealth to prosecute cases arising under article; jurisdiction of offenses.
It shall be the duty of the attorneys for the Commonwealth of the several counties and cities to prosecute all cases arising under this article. Juvenile and domestic relations district courts shall have exclusive original jurisdiction for the trial of such cases.

§ 22.1-269. Board to enforce.
The Board of Education shall have the authority and it shall be its duty to see that the provisions of this article are properly enforced throughout the Commonwealth.

§ 22.1-277. Suspensions and expulsions of pupils generally.
A. Pupils may be suspended or expelled from attendance at school for sufficient cause; however, (i) in no case may sufficient cause for suspension include only instances of truancy and (ii) except in cases pursuant to subsection B, an incident that occurs in any setting other than on a school bus, on school property, or at a school-sponsored activity shall not be deemed sufficient cause for suspension or expulsion.

School boards shall expel from school attendance any student whom such school board has determined, in accordance with the procedures set forth in this article, to have brought a controlled substance, imitation controlled substance, or marijuana as defined in § 18.2-247 onto school property or to a school-sponsored activity. A school administrator, pursuant to school board policy, or a school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. A school board may, by regulation, authorize the division superintendent or his designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in accordance with the procedures set forth in this article. Nothing in this section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

Nothing in this section shall require delinquency charges to be filed or prevent schools from dealing with school-based offenses through graduated sanctions or educational programming before a delinquency charge is filed with the juvenile court. Further, except as may be prohibited by federal law, regulation, or jurisprudence, the principal shall also immediately report any act enumerated in clauses (ii) through (v) of subsection A that may constitute a criminal offense to the parents of any minor student who is the specific object of such act. No school crime line program shall be implemented or revised without first obtaining the local school board's approval. Every local school board developing a school crime line program shall also notify all students and their parents or other custodian of the procedures and policies governing the program prior to implementation and annually thereafter.

D. By July 1, 1994, the Board of Education shall promulgate regulations for the implementation of school crime lines, including, but not limited to, appropriate fund raising, and the appropriateness of and limitations on rewards. In developing the regulations, the Board shall, in consultation with the Office of the Attorney General, address issues relating to civil rights, privacy, and any other question of law, including the civic duty to report crime without compensation.

E. Local school boards may establish, as a separate account, a school crime line fund, consisting of private contributions, local appropriations specifically designated for such purposes, and such funds as may be appropriated for this purpose by the Commonwealth pursuant to the appropriation act. No state or local funds appropriated for educational purposes shall be used to implement a school crime line.

Further, any school superintendent who receives notification that a juvenile has committed an act that would be a crime if committed by an adult pursuant to subsection G of § 16.1-260 shall report such information to the principal of the school in which the juvenile is enrolled.

C. The principal or his designee shall submit a report of all incidents required to be reported pursuant to this section to the superintendent of the school division. The division superintendent shall annually report all such incidents to the Department of Education for the purpose of recording the frequency of such incidents on forms that shall be provided by the Department and shall make such information available to the public.

In submitting reports of such incidents, principals and division superintendents shall accurately indicate any offenses, arrests, or charges as recorded by law-enforcement authorities and required to be reported by such authorities pursuant to subsection B.

A division superintendent who knowingly fails to comply or secure compliance with the reporting requirements of this subsection shall be subject to the sanctions authorized in § 22.1-65. A principal who knowingly fails to comply or secure compliance with the reporting requirements of this section shall be subject to sanctions prescribed by the local school board, which may include, but need not be limited to, demotion or dismissal.

The principal or his designee shall also notify the parent of any student involved in an incident required pursuant to this section to be reported, regardless of whether disciplinary action is taken against such student or the nature of the disciplinary action. Such notice shall relate to only the relevant student's involvement and shall not include information concerning other students.

Whenever any student commits any reportable incident as set forth in this section, such student shall be required to participate in such prevention and intervention activities as deemed appropriate by the superintendent or his designee. Prevention and intervention activities shall be identified in the local school division's drug and violence prevention plans developed pursuant to the federal Improving America's Schools Act of 1994 (Title IV - Safe and Drug-Free Schools and Communities Act).

D. Except as may otherwise be required by federal law, regulation, or jurisprudence, the principal shall immediately report to the local law-enforcement agency any act enumerated in clauses (ii) through (vii) of subsection A that may constitute a criminal offense and may report to the local law-enforcement agency any incident described in clause (i) of subsection A. Nothing in this section shall require delinquency charges to be filed or prevent schools from dealing with school-based offenses through graduated sanctions or educational programming before a delinquency charge is filed with the juvenile court.
Further, except as may be prohibited by federal law, regulation, or jurisprudence, the principal shall also immediately report any act enumerated in clauses (ii) through (v) of subsection A that may constitute a criminal offense to the parents of any minor student who is the specific object of such act. Further, the principal shall report that the incident has been reported to local law enforcement as required by law and that the parents may contact local law enforcement for further information, if they so desire.

E. A statement providing a procedure and the purpose for the requirements of this section shall be included in school board policies required by § 22.1-253.13:7.

The Board of Education shall promulgate regulations to implement this section, including, but not limited to, establishing reporting dates and report formats.

F. For the purposes of this section, “parent” or “parents” means any parent, guardian or other person having control or charge of a child.

G. This section shall not be construed to diminish the authority of the Board of Education or to diminish the Governor's authority to coordinate and provide policy direction on official communications between the Commonwealth and the United States government.

Reporting and referrals between schools and law enforcement

LAWS

A. Upon the failure of a parent to comply with the provisions of § 22.1-279.3, the school board may, by petition to the juvenile and domestic relations court, proceed against such parent for willful and unreasonable refusal to participate in efforts to improve the student's behavior as follows:

1. If the court finds that the parent has willfully and unreasonably failed to meet, pursuant to a request of the principal as set forth in subsection D of § 22.1-279.3, to review the school board's standards of student conduct and the parent's responsibility to assist the school in disciplining the student, maintaining order, or ensuring the child's school attendance, and to discuss improvement of the child's behavior, school attendance, or educational progress, it may order the parent to so meet; or

2. If the court finds that the parent has willfully and unreasonably failed to accompany a suspended student to meet with school officials pursuant to subsection F of § 22.1-279.3, or upon the student receiving a second suspension or being expelled, it may order (i) the student or his parent to participate in such programs or such treatment as the court deems appropriate to improve the student's behavior, including, but not limited to, extended day programs and summer school or other education programs and counseling, or (ii) the student or his parent to be subject to such conditions and limitations as the court deems appropriate for the supervision, care, and rehabilitation of the student or his parent; in addition, the court may order the parent to pay a civil penalty not to exceed $500.

The court may use its contempt power to enforce any order entered under this section.
B. The civil penalties established pursuant to this section shall be enforceable in the juvenile and domestic relations court or its successor in interest in which the student's school is located and shall be paid into a fund maintained by the appropriate local governing body to support programs or treatments designed to improve the behavior and school attendance of students as described in subdivision 2 of subsection G of § 22.1-279.3. Upon the failure to pay any civil penalties imposed by this section and § 22.1-279.3, the attorney for the appropriate county, city, or town shall enforce the collection of such civil penalties.

C. For the purposes of this section and § 22.1-279.3, "parent" or "parents" means any parent, guardian, legal custodian, or other person having control or charge of a child.

§ 16.1-260. Intake; petition; investigation.

B. [...] If a juvenile is alleged to be a truant pursuant to a complaint filed in accordance with § 22.1-258 and the attendance officer has provided documentation to the intake officer that the relevant school division has complied with the provisions of § 22.1-258, then the intake officer shall file a petition with the court. The intake officer may defer filing the complaint for 90 days and proceed informally by developing a truancy plan. The intake officer may proceed informally only if the juvenile has not previously been proceeded against informally or adjudicated in need of supervision for failure to comply with compulsory school attendance as provided in § 22.1-254. The juvenile and his parent or parents, guardian, or other person standing in loco parentis must agree, in writing, for the development of a truancy plan. The truancy plan may include requirements that the juvenile and his parent or parents, guardian, or other person standing in loco parentis participate in such programs, cooperate in such treatment, or be subject to such conditions and limitations as necessary to ensure the juvenile's compliance with compulsory school attendance as provided in § 22.1-254. The intake officer may refer the juvenile to the appropriate public agency for the purpose of developing a truancy plan using an interagency interdisciplinary team approach. The team may include qualified personnel who are reasonably available from the appropriate department of social services, community services board, local school division, court service unit, and other appropriate and available public and private agencies and may be the family assessment and planning team established pursuant to § 2.2-5207. If at the end of the 90-day period the juvenile has not successfully completed the truancy plan or the truancy program, then the intake officer shall file the petition. Whenever informal action is taken as provided in this subsection on a complaint alleging that a child is in need of services, in need of supervision, or delinquent, the intake officer shall (i) develop a plan for the juvenile, which may include restitution and the performance of community service, based upon community resources and the circumstances which resulted in the complaint, (ii) create an official record of the action taken by the intake officer and file such record in the juvenile's case file, and (iii) advise the juvenile and the juvenile's parent, guardian, or other person standing in loco parentis and the complainant that any subsequent complaint alleging that the child is in need of supervision or delinquent based upon facts which may be sufficient to invoke the jurisdiction of the court pursuant to § 16.1-241 will result in the filing of a petition with the court. 5. Manufacture, sale, gift, distribution or possession of Schedule I or II controlled substances, pursuant to Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2;

11. Recruitment of other juveniles for a criminal street gang activity pursuant to § 18.2-46.3; or
12. An act of violence by a mob pursuant to § 18.2-42.1.

The failure to provide information regarding the school in which the student who is the subject of the petition may be enrolled shall not be grounds for refusing to file a petition. The information provided to a division superintendent pursuant to this section may be disclosed only as provided in § 16.1-305.2.

§ 16.1-301. Confidentiality of juvenile law-enforcement records; disclosures to school principal.
A. The court shall require all law-enforcement agencies to take special precautions to ensure that law-enforcement records concerning a juvenile are protected against disclosure to any unauthorized person. The police departments of the cities of the Commonwealth, and the police departments or sheriffs of the counties, as the case may be, shall keep separate records as to violations of law other than violations of motor vehicle laws committed by juveniles. Such records with respect to such juvenile shall not be open to public inspection nor their contents disclosed to the public unless a juvenile 14 years of age or older is charged with a violent juvenile felony as specified in subsections B and C of § 16.1-269.1.
B. Notwithstanding any other provision of law, the chief of police or sheriff of a jurisdiction or his designee may disclose, for the protection of the juvenile, his fellow students and school personnel, to the school principal that a juvenile is a suspect in or has been charged with (i) a violent juvenile felony, as specified in subsections B and C of § 16.1-269.1; (ii) a violation of any of the provisions of Article 1 (§ 18.2-77 et seq.) of Chapter 5 of Title 18.2; or (iii) a violation of law involving any weapon as described in subsection A of § 18.2-308. If a chief of police, sheriff or a designee has disclosed to a school principal pursuant to this section that a juvenile is a suspect in or has been charged with a crime listed above, upon a court disposition of a proceeding regarding such crime in which a juvenile is adjudicated delinquent, convicted, found not guilty or the charges are reduced, the chief of police, sheriff or a designee shall, within 15 days of the expiration of the appeal period, if there is no notice of appeal, provide notice of the disposition ordered by the court to the school principal to whom disclosure was made. If the court defers disposition or if charges are withdrawn, dismissed or nolle prosequi, the chief of police, sheriff or a designee shall, within 15 days of such action provide notice to the school principal to whom disclosure was made. If charges are withdrawn in intake or handled informally without a court disposition or if charges are not filed within 90 days of the initial disclosure, the chief of police, sheriff or a designee shall so notify the school principal to whom disclosure was made. In addition to any other disclosure that is permitted by this subsection, the principal in his discretion may provide such information to a threat assessment team established by the local school division. No member of a threat assessment team shall (a) disclose any juvenile record information obtained pursuant to this section or (b) use such information for any purpose other than evaluating threats to students and school personnel. For the purposes of this subsection, "principal" also refers to the chief administrator of any private primary or secondary school.
G. Nothing in this section shall prohibit the disclosure of law-enforcement records concerning a juvenile to a court services unit-authorized diversion program in accordance with this chapter, which includes programs authorized by subdivision 1 of § 16.1-227 and § 16.1-260. Such records shall not be further disclosed by the authorized diversion program or any participants therein. Law-enforcement officers may prohibit a disclosure to such a program to protect a criminal investigation or intelligence information.

§ 16.1-305.1. Disclosure of disposition in certain delinquency cases.

Upon a court's disposition of a proceeding where a juvenile is charged with a crime listed in subsection G of § 16.1-260 in which a juvenile is adjudicated delinquent, convicted, found not guilty or the charges are reduced, the clerk of the court in which the disposition is entered shall, within 15 days of the expiration of the appeal period, if there has been no notice of an appeal, provide written notice of the disposition ordered by the court, including the nature of the offense upon which the disposition was based, to the superintendent of the school division in which the child is enrolled at the time of the disposition or, if he is not then enrolled in school, the division in which he was enrolled at the time of the offense. If the court defers disposition, or the charges are nolle prosequi, withdrawn, or dismissed the clerk shall, within 15 days of such action, provide written notice of such action to the superintendent of the school division in which the child is enrolled at such time or, if he is not then enrolled in school, the division in which he was enrolled at the time of the offense. If charges are withdrawn in intake or handled informally without a court disposition, the intake officer shall, within 15 days of such action, provide written notification of the action to the superintendent of the school division in which the child is enrolled at that time or, if he is not then enrolled in school, the division in which he was enrolled at the time of the offense.

If the child is not enrolled in the school division that receives notification under this section, the superintendent of that division may forward the notification to the superintendent of the school division where the child is enrolled.

A superintendent who receives notification under this section may disclose the information received to anyone to whom he or a principal disclosed that a petition had been filed. Further disclosure of information received under this section by the superintendent to school personnel is authorized only as provided in § 22.1-288.2.

§ 16.1-305.2. Disclosure of notice of the filing of a petition and certain reports by division superintendent.

Except as otherwise provided in this section, a division superintendent shall not disclose information contained in or derived from a (i) notice of petition received pursuant to § 16.1-260 or (ii) report received pursuant to § 66-25.2:1. If the juvenile is not enrolled as a student in a public school in the division to which the notice or report was given, the superintendent shall promptly so notify the intake officer of the juvenile court in which the petition was filed or the Director of the Department who sent the report and may forward the notice of petition or report to the superintendent of the division in which the juvenile is enrolled, if known.

If the division superintendent believes that disclosure of information regarding a petition to school personnel is necessary to ensure the physical safety of the juvenile, other students or school personnel within the division, he may at any time prior to receipt of the notice of disposition in accordance with § 16.1-305.1, disclose the fact of the filing of the petition and the nature of the offense to the principal of the school in which the juvenile who is the subject of the petition is enrolled. The principal may further disseminate the information regarding a petition, after the juvenile has been taken into custody, whether or not the child has been released, only to those students and school personnel having direct contact with the juvenile and need of the information to ensure physical safety or the appropriate educational placement or other educational services.
If the division superintendent believes that disclosure of information regarding a report received pursuant to § 66-25.2:1 to school personnel is necessary to ensure the physical safety of the juvenile, other students, or school personnel within the division he may disclose the information to the principal of the school in which the juvenile is enrolled. The principal may further disseminate the information regarding such report only to school personnel as necessary to protect the juvenile, the subject or subjects of the danger, other students, or school personnel.

A. Except as provided in §§ 16.1-299, 16.1-300, 16.1-301, 16.1-305 and 16.1-307, any person who (i) files a petition, (ii) receives a petition or has access to court records in an official capacity, (iii) participates in the investigation of allegations which form the basis of a petition, (iv) is interviewed concerning such allegations and whose information is derived solely from such interview or (v) is present during any court proceeding, who discloses or makes use of or knowingly permits the use of identifying information not otherwise available to the public concerning a juvenile who is suspected of being or is the subject of a proceeding within the jurisdiction of the juvenile court pursuant to subdivisions A 1 through 5 or subdivision A 7 of § 16.1-241 or who is in the custody of the State Department of Juvenile Justice, which information is directly or indirectly derived from the records or files of a law-enforcement agency, court or the Department of Juvenile Justice or acquired in the course of official duties, is guilty of a Class 3 misdemeanor.

B. The provisions of this section shall not apply to any law-enforcement officer or school employee who discloses to school personnel identifying information concerning a juvenile who is suspected of committing or has committed a delinquent act that has met applicable criteria of § 16.1-260 and is committed or alleged to have been committed on school property during a school-sponsored activity or on the way to or from such activity, if the disclosure is made solely for the purpose of enabling school personnel to take appropriate disciplinary action within the school setting against the juvenile. Further, the provisions of this section shall not apply to school personnel who disclose information obtained pursuant to §§ 16.1-305.1 and 22.1-288.2, if the disclosure is made in compliance with those sections.

§ 22.1-279.3:1. Reports of certain acts to school authorities.
B. Notwithstanding the provisions of Article 12 (§ 16.1-299 et seq.) of Chapter 11 of Title 16.1, local law-enforcement authorities shall report, and the principal or his designee and the division superintendent shall receive such reports, on offenses, wherever committed, by students enrolled at the school if the offense would be a felony if committed by an adult or would be a violation of the Drug Control Act (§ 54.1-3400 et seq.) and occurred on a school bus, on school property, or at a school-sponsored activity, or would be an adult misdemeanor involving any incidents described in clauses (i) through (viii) of subsection A, and whether the student is released to the custody of his parent or, if 18 years of age or more, is released on bond. As part of any report concerning an offense that would be an adult misdemeanor involving an incident described in clauses (i) through (viii) of subsection A, local law-enforcement authorities and attorneys for the Commonwealth shall be authorized to disclose information regarding terms of release from detention, court dates, and terms of any disposition orders entered by the court, to the superintendent of such student's school division, upon request by the superintendent, if, in the determination of the law-enforcement authority or attorney for the Commonwealth, such disclosure would not jeopardize the investigation or prosecution of the case. No disclosures shall be made pursuant to this section in violation of the confidentiality provisions of subsection A of § 16.1-300 or the record retention and redisclosure provisions of § 22.1-288.2. Further, any school superintendent who receives notification that a juvenile has committed an act that would be a crime if committed by an adult pursuant to subsection G of § 16.1-260 shall report such information to the principal of the school in which the juvenile is enrolled.
D. Except as may otherwise be required by federal law, regulation, or jurisprudence, the principal shall immediately report to the local law-enforcement agency any act enumerated in clauses (ii) through (vii) of subsection A that may constitute a criminal offense and may report to the local law-enforcement agency any incident described in clause (i) of subsection A. Nothing in this section shall require delinquency charges to be filed or prevent schools from dealing with school-based offenses through graduated sanctions or educational programming before a delinquency charge is filed with the juvenile court.

Further, except as may be prohibited by federal law, regulation, or jurisprudence, the principal shall also immediately report any act enumerated in clauses (ii) through (v) of subsection A that may constitute a criminal offense to the parents of any minor student who is the specific object of such act. Further, the principal shall report that the incident has been reported to local law enforcement as required by law and that the parents may contact local law enforcement for further information, if they so desire.

§ 22.1-279.4. Information regarding prosecution for certain crimes.
School boards shall provide information developed by the office of the Attorney General to students regarding laws governing the prosecution of juveniles as adults for the commission of certain crimes. Methods of providing such information may include, but shall not be limited to, public announcements in the schools, written notification to parents, publication in the student conduct manual, and inclusion in those materials distributed to parents pursuant to § 22.1-279.3.

§ 22.1-288.2. Receipt, dissemination and maintenance of records of certain law-enforcement information.
C. When a superintendent receives notice of the filing of a petition from the intake officer in accordance with § 16.1-260, or upon request of a court services unit for information made in conjunction with the preparation of a social history report pursuant to § 16.1-273, the superintendent shall provide information regarding the student's educational and attendance status to the intake officer or court services unit, as the case may be. Whenever a division superintendent receives notice of a student's commitment to the Department of Juvenile Justice, the superintendent or his designee shall participate in the development of a reenrollment plan as provided in § 16.1-293.

§ 22.1-289. Transfer and management of scholastic records; disclosure of information in court notices; penalty.
E. Whenever the division superintendent is notified by the Department of Juvenile Justice, pursuant to § 16.1-287, or by a school division employee responsible for education programs in a local jail or a detention center, that a pupil who last attended a school within the school division is a pupil in a school of a juvenile correctional center of the Department of Juvenile Justice, or a pupil in an educational program in a local jail or detention center, the school division superintendent or his designee shall transfer the scholastic record of such pupil to the designated juvenile correctional center or local jail or a detention center, as the case may be, within five work days. The Department of Juvenile Justice shall transfer the scholastic record of a student who has been discharged from a juvenile correctional center to the relevant school division within five work days of the student's discharge.

A. From the funds appropriated for such purpose and from the gifts, donations, grants, bequests, and other funds received on its behalf, there is established (i) the School Resource Officer Grants Program, to be administered by the Board, in consultation with the Board of Education, and (ii) a special nonreverting fund within the state treasury known as the School Resource Officer Incentive Grants Fund, hereinafter known as the "Fund." § 22.1-258. Appointment of attendance officers; notification when pupil fails to report to school.

Every school board shall have power to appoint one or more attendance officers, who shall be charged with the enforcement of the provisions of this article. Where no attendance officer is appointed by the school board, the division superintendent or his designee shall act as attendance officer.

Whenever any pupil fails to report to school on a regularly scheduled school day and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, a reasonable effort to notify by telephone the parent to obtain an explanation for the pupil's absence shall be made by either the school principal or his designee, the attendance officer, other school personnel, or volunteers organized by the school administration for this purpose. Any such volunteers shall not be liable for any civil damages for any acts or omissions resulting from making such reasonable efforts to notify parents and obtain such explanation when such acts or omissions are taken in good faith, unless such acts or omissions were the result of gross negligence or willful misconduct. This subsection shall not be construed to limit, withdraw, or overturn any defense or immunity already existing in statutory or common law or to affect any claim occurring prior to the effective date of this law. School divisions are encouraged to use noninstructional personnel for this notice.

Whenever any pupil fails to report to school for a total of five scheduled school days for the school year and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, and a reasonable effort to notify the parent has failed, the school principal or his designee or the attendance officer shall make a reasonable effort to ensure that direct contact is made...
with the parent, either in person or through telephone conversation, to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The school principal or his designee or the attendance officer, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance.

If the pupil is absent an additional day after direct contact with the pupil's parent and the attendance officer has received no indication that the pupil's parent is aware of and supports the pupil's absence, either the school principal or his designee or the attendance officer shall schedule a conference within 10 school days with the pupil, his parent, and school personnel, which conference may include other community service providers, to resolve issues related to the pupil's nonattendance. The conference shall be held no later than 15 school days after the sixth absence. Upon the next absence by such pupil without indication to the attendance officer that the pupil's parent is aware of and supports the pupil's absence, the school principal or his designee shall notify the attendance officer or the division superintendent or his designee, as the case may be, who shall enforce the provisions of this article by either or both of the following: (i) filing a complaint with the juvenile and domestic relations court alleging the pupil is a child in need of supervision as defined in § 16.1-228 or (ii) instituting proceedings against the parent pursuant to § 18.2-371 or § 22.1-262. In filing a complaint against the student, the attendance officer shall provide written documentation of the efforts to comply with the provisions of this section. In the event that both parents have been awarded joint physical custody pursuant to § 20-124.2 and the school has received notice of such order, both parents shall be notified at the last known addresses of the parents.

Nothing in this section shall be construed to limit in any way the authority of any attendance officer or division superintendent to seek immediate compliance with the compulsory school attendance law as set forth in this article.

Attendance officers, other school personnel or volunteers organized by the school administration for this purpose shall be immune from any civil or criminal liability in connection with the notice to parents of a pupil's absence or failure to give such notice as required by this section.

§ 22.1-261. Attendance officer to make list of children not enrolled; duties of attendance officer.

The attendance officer or the division superintendent or his designee shall check the reports submitted pursuant to subsection A of § 22.1-260 with reports from the State Registrar of Vital Records and Health Statistics. From these reports and from any other reliable source the attendance officer or the division superintendent or his designee shall, within five days after receiving all reports submitted pursuant to subsection A of § 22.1-260, make a list of the names of children who are not enrolled in any school and who are not exempt from school attendance. It shall be the duty of the attendance officer, on behalf of the local school board, to investigate all cases of nonenrollment and, when no valid reason is found therefor, to notify the parent, guardian or other person having control of the child to require the attendance of such child at the school within three days from the date of such notice.

§ 22.1-266. Law-enforcement officers and truant children.

A. Notwithstanding the provisions of § 16.1-246, any law enforcement officer as defined in § 9.1-101 or any attendance officer may pick up any child who (i) is reported to be truant from a public school by a school principal or division superintendent or (ii) the law enforcement officer or attendance officer reasonably determines to be a public school student and by reason of the child's age and circumstances is either truant from public school or has been expelled from school and has been required to attend an alternative education program pursuant to § 22.1-254 or § 22.1-277.2:1, and may deliver such child to the appropriate public school, alternative education program, or truancy center and personnel thereof without charging the parent or guardian of such child with a violation of any provision of law.
B. Any such law-enforcement officer or attendance officer shall not be liable for any civil damages for any acts or omissions resulting from picking up or delivering a public school child as provided in subsection A when such acts or omissions are within the scope of the employment of such law-enforcement officer or attendance officer and are taken in good faith, unless such acts or omissions were the result of gross negligence or willful misconduct. This subsection shall not be construed to limit, withdraw or overturn any defense or immunity already existing in statutory or common law or to affect any claim occurring prior to the effective date of this law.

C. For the purposes of this section, "truancy center" means a facility or site operated by a school division, sometimes jointly with the local law-enforcement agency, and designated for receiving children who have been retrieved by a law-enforcement officer or attendance officer for truancy from school.

Local school boards may employ school security officers, as defined in § 9.1-101 for the purposes set forth therein. Such school security officer may carry a firearm in the performance of his duties if (i) within 10 years immediately prior to being hired by the local school board he was an active law-enforcement officer as defined in § 9.1-101 in the Commonwealth; (ii) he retired or resigned from his position as a law-enforcement officer in good standing; (iii) he meets the training and qualifications described in subsection C of § 18.2-308.016; (iv) he has provided proof of completion of a training course that includes training in active shooter emergency response, emergency evacuation procedure, and threat assessment to the Department of Criminal Justice Services pursuant to subdivision 42 of § 9.1-102, provided that if he received such training from a local law-enforcement agency he received the training in the locality in which he is employed; (v) the local school board solicits input from the chief law-enforcement officer of the locality regarding the qualifications of the school security officer and receives verification from such chief law-enforcement officer that the school security officer is not prohibited by state or federal law from possessing, purchasing, or transporting a firearm; and (vi) the local school board grants him the authority to carry a firearm in the performance of his duties.

Such policies and procedures shall not be interpreted to infringe upon the First Amendment rights of students and are not intended to prohibit expression of religious, philosophical, or political views, provided that such expression does not cause an actual, material disruption of the work of the school.

E. A school board may regulate the use or possession of beepers or other portable communications devices and laser pointers by students on school property or attending school functions or activities and establish disciplinary procedures pursuant to this article to which students violating such regulations will be subject.

F. Nothing in this section shall be construed to require any school board to adopt policies requiring or encouraging any drug testing in schools. However, a school board may, in its discretion, require or encourage drug testing in accordance with the Board of Education's guidelines and model student conduct policies required by subsection A and the Board's guidelines for student searches required by § 22.1-279.7.

§ 22.1-280.2. School crime line defined; development of school crime lines authorized; local school boards’ authority; Board of Education to promulgate regulations.

A. As used in this section:

"School crime line" means a confidential, anonymous system providing inducements for students to report any unlawful act occurring in school buildings or on school grounds or during school-sponsored activities to local law-enforcement authorities which is established as a cooperative alliance between the local school board, news media, the community, and law-enforcement officials or through a separate, nonprofit corporation governed by a board of directors or as part of a local "Crime Stoppers" program.

B. In order to reduce crime and violence within the school divisions in the Commonwealth, any local school board may develop a school crime line program as a joint, self-sustaining, cooperative alliance
with news media, the community, and law-enforcement authorities to receive, screen, and reward student reports of unlawful acts committed in school buildings or on school grounds or at school functions, when such reports lead to arrests or recovery of contraband or stolen property. Police or other law-enforcement personnel shall staff every school crime line program, receive reported information from anonymous student callers, screen such information, and direct information for further investigation, as may be appropriate.

C. Such programs may be established (i) by a local school board as a joint, self-sustaining, cooperative alliance with news media, the community, and law-enforcement authorities; (ii) through a separate nonprofit corporation initiated jointly by the local school board, news media, the community, and law-enforcement authorities and governed by a board of directors; or (iii) as part of a local "Crime Stoppers" program.

The governing board of any separate nonprofit school crime line corporation shall include broad-based community representation and shall, through its bylaws, set the policy, coordinate fund raising, and formulate a system of rewards. Prior to implementation of any school crime line program and annually thereafter, the local school board shall review and approve, as complying with the Board of Education's regulations for implementation of school crime lines, its regulations or the bylaws of any nonprofit school crime line corporation or the bylaws of any nonprofit "Crime Stoppers" corporation operating a school crime line. No school crime line program shall be implemented or revised without first obtaining the local school board's approval. Every local school board developing a school crime line program shall also notify all students and their parents or other custodian of the procedures and policies governing the program prior to implementation and annually thereafter.

D. By July 1, 1994, the Board of Education shall promulgate regulations for the implementation of school crime lines, including, but not limited to, appropriate fund raising, and the appropriateness of and limitations on rewards. In developing the regulations, the Board shall, in consultation with the Office of the Attorney General, address issues relating to civil rights, privacy, and any other question of law, including the civic duty to report crime without compensation.

E. Local school boards may establish, as a separate account, a school crime line fund, consisting of private contributions, local appropriations specifically designated for such purposes, and such funds as may be appropriated for this purpose by the Commonwealth pursuant to the appropriation act. No state or local funds appropriated for educational purposes shall be used to implement a school crime line.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.
