Indiana
Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources.
related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

2. The board of directors of a school district may adopt, for the district or for an individual school within the district, a dress code policy that prohibits students from wearing gang-related or other specific apparel if the board determines that the policy is necessary for the health, safety, or positive educational environment of students and staff in the school environment or for the appropriate discipline and operation of the school. Adoption and enforcement of a dress code policy is not a violation of section 280.22.

279.66. Discipline and personal conduct standards.
The board of directors of a school district shall review and modify existing policies related to student discipline and student conduct that are designed to promote responsible behavior on school property and at school functions in order that the policy shall govern the conduct of students, teachers and other school personnel, and visitors; provide opportunities for students to exercise self-discipline and practice cooperative classroom behavior; and encourage students and practitioners to model fairness, equity, and respect. The policy shall specify the responsibilities of students, parents and guardians, and practitioners in creating an atmosphere where all individuals feel a sense of respect, safety, and belonging, and shall set forth the consequences for unacceptable behavior. The policy shall be published in the student handbook.

By special meeting or at the next regularly scheduled board meeting, the board shall review the suspension and decide whether to hold a disciplinary hearing to determine whether or not to order further sanctions against the student, which may include expelling the student. In making its decision, the board shall consider the best interests of the school district, which shall include what is best to protect and ensure the safety of the school employees and students from the student committing the assault.

REGULATIONS

The purpose of this chapter is to provide uniform definitions and policies for public school districts, accredited nonpublic schools, and area education agencies regarding the application of physical contact or force to enrolled students. These rules clarify that corporal punishment, prone restraint, and mechanical restraint are prohibited; explain the parameters and protocols for the use of physical restraint.
and seclusion; and describe other limits on physical contact with students. The applicability of this chapter
to physical restraint, seclusion, or behavior management interventions does not depend on the
terminology employed by the organization to describe the activity or space. These rules are intended to
promote the dignity, care, safety, welfare, and security of each child and the school community;
encourage the use of proactive, effective, and evidence- and research-based strategies and best
practices to reduce the occurrence of challenging behaviors; increase meaningful instructional time for all
students; ensure that seclusion and physical restraint are used only in specified circumstances and are
subject to assessment, monitoring, documentation, and reporting by trained employees; and give clear
guidance on whether a disciplinary or behavioral management technique is prohibited or may be used.

281-103.2(256B,280). Definitions.
For the purposes of this chapter:
"Corporal punishment" means the intentional physical punishment of a student. "Corporal punishment"

or after school, in a seat, classroom, or other part of a school facility;

Search and Seizure

LAWS

808A.1. Definitions.
As used in this chapter, unless the context otherwise requires:

5. "Student search rule" means a rule established by the school board of a public school, pursuant to section 279.8 or 279.9, or the authorities in charge of a nonpublic school controlling the manner of the searching of students or protected student areas and school lockers, desks, and other facilities or spaces owned by the school. A student search rule, to be valid for purposes of this chapter, shall require that all searches of students or protected student areas be reasonably related in scope to the circumstances which gave rise to the need for the search and based upon consideration of relevant factors which include, but are not limited to, the following:
   a. The nature of the violation for which the search is being instituted.
   b. The age or ages and gender of the students who may be searched pursuant to the rule.
   c. The objectives to be accomplished by the search.

808A.2. Searches of students, protected student areas, lockers, desks, and other facilities or spaces.
1. The school board of each public school and the authorities in charge of each nonpublic school shall establish and may search a student or protected student area pursuant to a student search rule. The student search rule shall be published in each public school's and each nonpublic school's student handbook. A school official may search individual students and individual protected student areas if both of the following apply:
   a. The official has reasonable grounds for suspecting that the search will produce evidence that a student has violated or is violating either the law or a school rule or regulation.
b. The search is conducted in a manner which is reasonably related to the objectives of the search and which is not excessively intrusive in light of the age and gender of the student and the nature of the infraction.

2. School officials may conduct periodic inspections of all, or a randomly selected number of, school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student. The furnishing of a school locker, desk, or other facility or space owned by the school and provided as a courtesy to a student shall not create a protected student area, and shall not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. Allowing students to use a separate lock on a locker, desk, or other facility or space owned by the school and provided to the student shall also not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. However, each year when school begins, the school district shall provide written notice to all students and the students' parents, guardians, or legal custodians, that school officials may conduct periodic inspections of school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student without prior notice. An inspection under this subsection shall either occur in the presence of the students whose lockers are being inspected or the inspection shall be conducted in the presence of at least one other person.

3. Under no circumstances may a search be made which is unreasonable in light of the following:
   a. The age of the student.
   b. The nonseriousness of the violation.
   c. The sex of the student.
   d. The nature of the suspected violation.

4. A school official shall not conduct a search which involves:
   a. A strip search.
   b. A body cavity search.
   c. The use of a drug sniffing animal to search a student's body.
   d. The search of a student by a school official not of the same sex as the student.

5. If a student is not or will not be present at the time a search of a protected student area is conducted pursuant to subsection 1, the student shall be informed of the search either prior to or as soon as is reasonably practicable after the search is conducted.

808A.3. **Student search by peace officer.**

The search of a student or of a protected student area by a peace officer who is not a school official, or by a school official at the invitation or direction of a peace officer who is not a school official, shall be governed by the statutory and common law requirements for police searches.

808A.4. **Exclusion of evidence.**

Material or evidence obtained directly or indirectly as a result of a search conducted in violation of this chapter is inadmissible in a criminal proceeding against a student.

REGULATIONS

The purpose of this chapter is to provide uniform definitions and policies for public school districts, accredited nonpublic schools, and area education agencies regarding the application of physical contact or force to enrolled students. These rules clarify that corporal punishment, prone restraint, and mechanical restraint are prohibited; explain the parameters and protocols for the use of physical restraint and seclusion; and describe other limits on physical contact with students. The applicability of this chapter to physical restraint, seclusion, or behavior management interventions does not depend on the terminology employed by the organization to describe the activity or space. These rules are intended to promote the dignity, care, safety, welfare, and security of each child and the school community; encourage the use of proactive, effective, and evidence- and research-based strategies and best practices to reduce the occurrence of challenging behaviors; increase meaningful instructional time for all students; ensure that seclusion and physical restraint are used only in specified circumstances and are subject to assessment, monitoring, documentation, and reporting by trained employees; and give clear guidance on whether a disciplinary or behavioral management technique is prohibited or may be used.

281-103.2(256B,280). Definitions.
For the purposes of this chapter:
"Bodily injury“ means physical pain, illness, or any impairment of physical condition.
"Corporal punishment“ means the intentional physical punishment of a student. "Corporal punishment“ includes the use of unreasonable or unnecessary physical force, or physical contact made with the intent to harm or cause pain.
"Debriefings“ are meetings to collaboratively examine and determine what caused an incident or incidents resulting in the use of physical restraints or seclusion, how the incident or the use of physical restraints or seclusion or both could have been avoided and how future incidents could be avoided, and to plan for and implement positive and preventative supports. The debriefing process is intended to improve future outcomes by reducing the likelihood of future problem behavior and the subsequent use of physical restraint or seclusion.
"Mechanical restraint“ means the use of a device as a means of restricting a student's freedom of movement. "Mechanical restraint“ does not mean a device used by trained school personnel, or used by a student, for the specific and approved therapeutic or safety purposes for which such a device was designed and, if applicable, prescribed, including restraints for medical immobilization, adaptive devices or mechanical supports used to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports, and vehicle safety restraints when used as intended during the transport of a student in a moving vehicle.
"Parent“ means an individual included in the definition of "parent" in rule 281-41.30(256B,34CFR300), and also includes an individual authorized to make decisions for the child pursuant to a power of attorney for temporary delegation of custody or for making educational decisions.
"Physical restraint“ means a personal restriction that immobilizes or reduces the ability of a child to move the child's arms, legs, body, or head freely. "Physical restraint“ does not mean a technique used by trained school personnel, or used by a student, for the specific and approved therapeutic or safety
purposes for which such a technique was designed and, if applicable, prescribed. "Physical restraint" does not include instructional strategies, such as physically guiding a student during an educational task, hand-shaking, hugging, or other nondisciplinary physical contact.

"Prone restraint" means any restraint in which the child is held face down on the floor.

"Reasonable and necessary force" is that force, and no more, which a reasonable person would judge to be necessary under the circumstances that existed at the time, that is not intended to cause pain, and that does not exceed the degree or duration required to accomplish the purposes set forth in rule 281-103.5(256B,280).

"School" includes public school districts, accredited nonpublic schools, and area education agencies.

"Seclusion" means the involuntary confinement of a child in a seclusion room or area from which the child is prevented or prohibited from leaving; however, preventing a child from leaving a classroom or school building shall not be considered seclusion. "Seclusion" does not include instances when a school employee is present within the room and providing services to the child, such as crisis intervention or instruction.

"Seclusion room" means a room, area, or enclosure, whether within or outside the classroom, used for seclusion.

281-103.3(256B,280). Ban on corporal punishment and prone and mechanical restraints.

An employee shall not inflict, or cause to be inflicted, corporal punishment upon a student or use prone restraints or mechanical restraints upon a student.

281-103.6(256B,280). Reasonable force.

103.6(1) In determining the reasonableness of the physical force used by a school employee, the following factors shall be applied:

a. The size and physical, mental, and psychological condition of the student;

b. The nature of the student's behavior or misconduct resulting in the use of physical force;

c. The instrumentality used in applying the physical force;

d. The extent and nature of resulting injury to the student, if any, including mental and psychological injury;

e. The motivation of the school employee using the physical force.

103.6(2) Reasonable physical force, privileged at its inception, does not lose its privileged status by reasons of an injury to the student, not reasonably foreseeable or otherwise caused by intervening acts of another, including the student.

281-103.7(256B,280). Reasonable and necessary force - use of physical restraint or seclusion.

103.7(1) Physical restraint or seclusion is reasonable and necessary only:

a. To prevent or terminate an imminent threat of bodily injury to the student or others; or

b. To prevent serious damage to property of significant monetary value or significant nonmonetary value or importance; or

c. When the student's actions seriously disrupt the learning environment or when physical restraint or seclusion is necessary to ensure the safety of the student and others; and

d. When less restrictive alternatives to seclusion or physical restraint would not be effective, would not be feasible under the circumstances, or have failed in preventing or terminating the imminent threat or behavior; and

e. When the physical restraint or seclusion complies with all the rules of this chapter.
103.7(2) If seclusion or physical restraint is utilized, the following provisions shall apply:

a. The seclusion or physical restraint must be imposed by an employee who:
   (1) Is trained in accordance with rule 281-103.8(256B,280); or
   (2) Is otherwise available and a trained employee is not immediately available due to the unforeseeable nature of the occurrence.

b. A school must attempt to notify the student's parent using the school's emergency contact system as soon as practicable after the situation is under control, but no later than one hour or the end of the school day, whichever occurs first.

c. The seclusion or physical restraint must only be used for as long as is necessary, based on research and evidence, to allow the student to regain control of the student's behavior to the point that the threat or behavior necessitating the use of the seclusion or physical restraint has ended, or when a medical condition occurs that puts the student at risk of harm.

Unless otherwise provided for in the student's written, approved IEP, BIP, IHP, or safety plan, if the seclusion or physical restraint continues for more than 15 minutes:
   (1) The student shall be provided with any necessary breaks to attend to personal and bodily needs, unless doing so would endanger the child or others.
   (2) An employee shall obtain approval from an administrator or administrator's designee to continue the seclusion or physical restraint beyond 15 minutes. After the initial approval, an employee must obtain additional approval every 30 minutes thereafter for the continuation of the seclusion or physical restraint. Approval must be documented in accordance with rule 281-103.8(256B,280).
   (3) The student's parent and the school may agree to more frequent notifications than is required by this subrule.
   (4) Schools and employees must document and explain in writing, as required by subrule 103.8(2), the reasons why it was not possible for them to obtain approval, notify parents, or take action under paragraphs 103.7(2)“b” and “c” within the prescribed time limits.
   (5) Schools and employees who initiate and then end the use of nonapproved restraints must document and explain in writing the reasons why they had no other option but to use this type of behavioral intervention. This subparagraph is not intended to excuse or condone the use of nonapproved restraints.

d. The area of seclusion shall be a designated seclusion room that complies with the seclusion room requirements of rule 281-103.9(256B,280), unless the nature of the occurrence makes the use of the designated seclusion room impossible, clearly impractical, or clearly contrary to the safety of the student, others, or both; in that event, the school must document and explain in writing the reasons why a designated seclusion room was not used.

e. An employee must continually visually monitor the student for the duration of the seclusion or physical restraint.

f. An employee shall not use any physical restraint that obstructs the airway of the student.

g. If an employee restrains a student who uses sign language or an augmentative mode of communication as the student's primary mode of communication, the student shall be permitted to have the student's hands free of physical restraint, unless doing so is not feasible in view of the threat posed.

h. Seclusion or physical restraint shall not be used:
   - As punishment or discipline;
   - To force compliance or to retaliate;
   - As a substitute for appropriate educational or behavioral support;
- To prevent property damage except as described in paragraph 103.7(1)"b";
- As a routine school safety measure; or
- As a convenience to staff.

103.7(3) An employee must document the use of the seclusion or physical restraint in accordance with rule 281-103.8(256B,280).

103.7(4) Nothing in this rule shall be construed as limiting or eliminating any immunity conferred by Iowa Code section 280.21, rule 281-103.11(256B,280), or any other provision of law.

103.7(5) An agency covered by this chapter shall investigate any complaint or allegation that one or more of its employees violated one or more provisions of this chapter. If an agency covered by this chapter determines that one or more of its employees violated one or more of the provisions of this chapter, the agency shall take appropriate corrective action. If any allegation involves a specific student, the agency shall transmit to the parents of the student the results of its investigation, including, to the extent permitted by law, any required corrective action.

103.7(6) If a child's IEP, BIP, IHP, or safety plan includes either or both physical restraint or seclusion measures, those measures must be individualized to the child; described with specificity in the child's IEP, BIP, IHP, or safety plan; and be reasonably calculated to enable the child to make progress appropriate in light of the child's circumstances.

103.7(7) These rules must be complied with whether or not a parent consents to the use of physical restraint or seclusion for the child.

103.7(8) If any alleged violation of this chapter is also an allegation of "abuse" as defined in rule 281-102.2(280), the procedures in 281-Chapter 102 shall be applicable.

103.7(9) Schools must provide a copy of this chapter and any school-adopted or school-used related policies, procedures and training materials to any individual who is not an employee but whose duties could require the individual to participate in or be present when physical restraints are or seclusion is being used. Schools must invite these individuals to participate in training offered to employees pursuant to this chapter.

299.5A. Mediation.
1. If a child is truant as defined in section 299.8, school officers shall attempt to find the cause for the child's absence and use every means available to the school to assure that the child does attend. For a child who has completed educational requirements through the sixth grade, the means may include but are not limited to the use of an attendance cooperation process which substantially conforms with the provisions of section 299.12. If the parent, guardian, or legal or actual custodian, or child refuses to accept the school's attempt to assure the child's attendance or the school's attempt to assure the child's attendance is otherwise unsuccessful, the truancy officer shall refer the matter to the county attorney for mediation or prosecution.

2. If the matter is referred for mediation, the county attorney shall cause a notice of the referral to be sent to the parent, guardian, or legal or actual custodian and designate a person to serve as mediator in the matter. If mediation services are available in the community, those services may be used as the designated mediation service. If mediation services are not available in the community, mediation shall be provided by the county attorney or the county attorney's designee. The mediator shall contact the school, the parent, guardian, or legal or actual custodian, and any other person the mediator deems appropriate in the matter and arrange meeting dates and times for discussion of the child's nonattendance. The mediator shall attempt to ascertain the cause of the child's nonattendance, attempt to cause the parties to arrive at an agreement relative to the child's attendance, and initiate referrals to any agencies or counseling that the mediator believes to be appropriate under the circumstances.

3. If the parties reach an agreement, the agreement shall be reduced to writing and signed by a school officer, parent, guardian, or legal or actual custodian, and the child. The mediator, the school, and the parent, guardian, or legal or actual custodian shall each receive a copy of the agreement, which shall set forth the settlement of the issues and future responsibilities of each party.

4. The school district shall be responsible for monitoring any agreements arrived at through mediation. If a parent, guardian, or legal or actual custodian refuses to engage in mediation or violates a term of the agreement, the matter shall be rereferred to the county attorney for prosecution under section 299.6. The county attorney's office or the mediation service shall require the parent, guardian, or legal or actual custodian and the school to pay a fee to help defray the administrative cost of mediation services. The county attorney's office or the mediation service shall establish a sliding scale of fees to be charged parents, guardians, and legal or actual custodians based upon ability to pay. A parent, guardian, or legal or actual custodian shall not be denied the services of a mediator solely because of inability to pay the fee.

5. The mediator may refer a truant to the juvenile court if mediation breaks down without an agreement being reached.

299.8. "Truant" defined.
Any child of compulsory attendance age who fails to attend school as provided in this chapter, or as required by the school board's or school governing body's attendance policy, or who fails to attend competent private instruction or independent private instruction under chapter 299A, without reasonable excuse for the absence, shall be deemed to be a truant. A finding that a child is truant, however, shall not by itself mean that the child is a child in need of assistance within the meaning of chapter 232 and shall not be the sole basis for a child in need of assistance petition.
The board of directors of a public school district or the authorities in charge of an accredited nonpublic school shall prescribe reasonable rules for the punishment of truants.

232.191. Early intervention and follow-up programs.
Contingent on a specific appropriation for these purposes, the department shall do the following:
   2. Develop or expand a school-based program addressing truancy and school behavioral problems for youth ages twelve through seventeen.

280.25. Information sharing - interagency agreements.
2. The purpose of the agreement shall be to reduce juvenile crime by promoting cooperation and collaboration and the sharing of appropriate information among the parties in a joint effort to improve school safety, reduce alcohol and illegal drug use, reduce truancy, reduce in-school and out-of-school suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions which provide structured and well-supervised educational programs supplemented by coordinated and appropriate services designed to correct behaviors that lead to truancy, suspension, and expulsions and to support students in successfully completing their education.

299.10. Truancy officers - appointment.
The board of each school district may appoint a truancy officer. The board of each school district, which does not appoint a truancy officer for the district, shall designate a suitable person to collect information on the numbers of children in the district who are truant.
The board may appoint a member of the police force, marshal, teacher, school official, or other suitable person to serve as the district truancy officer.

299.11. Duties of truancy officer.
1. The truancy officer may take into custody without warrant any apparently truant child and place the child in the charge of the school principal, or the principal's designee, designated by the board of directors of the school district in which the child resides, or in the charge of any nonpublic school or any authority providing competent private instruction or independent private instruction as defined in section 299A.1, designated by the parent, guardian, or legal or actual custodian; but if it is other than a public school, the instruction and maintenance of the child shall be without expense to the school district. If a child is taken into custody under this section, the truancy officer shall make every reasonable attempt to immediately notify the parent, guardian, or legal or actual custodian of the child's location.
2. The truancy officer shall promptly institute proceedings against any person violating any of the provisions of sections 299.1 through 299.5A.

299.12. Violation of attendance policy - attendance cooperation meeting - agreement.
1. For the purposes of this section, "school truancy officer" means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.
2. This section is not applicable to a child who is receiving competent private instruction or independent private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance with the attendance requirements established under section 299.1, and has not completed educational requirements through the sixth grade, and the school has used every means available to assure the child does attend, the school truancy officer shall contact the child's parent, guardian, or legal or actual custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation meeting may include the child and shall include the child's parent, guardian, or legal or actual custodian

3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to attempt to ascertain the cause of the child's nonattendance, to cause the parties to arrive at an agreement relative to addressing the child's attendance, and to initiate referrals to any services or counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall be reduced to writing in an attendance cooperation agreement and signed by the parties to the agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth the cause identified for the child's nonattendance and future responsibilities of each party.

The monitor shall be a designee of the public school board or governing body of the accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to the agreement and receives a written authorization for access to confidential information and for performing monitor activities from the child's parent, guardian, or custodian. A monitor shall contact parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor performance of the agreement.

6. A public school board or governing body of an accredited nonpublic school shall exercise the authority granted under this section as a means of increasing and ensuring school attendance of young children, as education is a critical element in the success of individuals and good attendance habits should be developed and reinforced at an early age.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources.
related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

(q) "School" means any learning environment, including any nonprofit institutional day or residential school or accredited nonpublic school, that receives public funding or which is subject to the regulatory authority of the state board of education.

Use of an emergency safety intervention for purposes of discipline, punishment or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

(b) A student shall not be subjected to an emergency safety intervention if the student is known to have a medical condition that could put the student in mental or physical danger as a result of the emergency safety intervention. Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why an emergency safety intervention would put the student in mental or physical danger and any suggested alternatives to the use of emergency safety interventions. (c) When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

2. chemical restraint, except as prescribed treatments for a student's medical or psychiatric condition by a person appropriately licensed to issue such treatments; and

3. mechanical restraint, except those protective or stabilizing devices either ordered by a person appropriately licensed to issue the order for the device or required by law, any device used by a certified law enforcement officer in carrying out law enforcement duties, seatbelts and any other safety equipment when used to secure students during transportation.

(g) Each local board shall develop and implement written policies to govern the use of emergency safety interventions in schools. At a minimum, written district policies shall conform to the standards, definitions and requirements of this act.

Such written policies shall include that:

1. School personnel training shall be designed to meet the needs of personnel as appropriate to their duties and potential need for the use of emergency safety interventions;

Upon remand, the hearing officer's case will be closed. All rights to and responsibilities of an administrative review shall begin again when the local board's amended final decision is issued or upon 30 days from when the hearing officer's remand is issued, whichever occurs first.

Due Process

LAWS

72-6115. Duration of suspension or expulsion; notice; hearings, opportunity afforded, waiver, time, who may conduct.

(b)(1) Except as authorized in provision (2), no suspension for a short term shall be imposed upon a pupil without giving the pupil notice of the charges and affording the pupil an opportunity for a hearing thereon. The notice may be oral or written and the hearing may be held immediately after the notice is given. The hearing may be conducted informally but shall include the following procedural due process requirements: (A) The right of the pupil to be present at the hearing; (B) the right of the pupil to be informed of the charges; (C) the right of the pupil to be informed of the basis for the accusation; and (D) the right of the pupil to make statements in defense or mitigation of the charges or accusations. Refusal of a pupil to be present at the hearing will constitute a waiver of the pupil's opportunity for a hearing.

(2) A short-term suspension may be imposed upon a pupil forthwith, and without affording the pupil a hearing if the presence of the pupil endangers other persons or property or substantially disrupts, impedes or interferes with the operation of the school.

(c) A written notice of any short-term suspension and the reason therefor shall be given to the pupil involved and to the pupil's parent or guardian within 24 hours after the suspension has been imposed and, in the event the pupil has not been afforded a hearing prior to any short-term suspension, an opportunity for an informal hearing shall be afforded the pupil as soon thereafter as practicable but in no event later than 72 hours after such short-term suspension has been imposed. Any notice of the imposition of a short-term suspension that provides an opportunity for an informal hearing after such
suspension has been imposed shall state that failure of the pupil to attend the hearing will result in a waiver of the pupil's opportunity for the hearing.

(d) No suspension for an extended term and no expulsion shall be imposed upon a pupil until an opportunity for a formal hearing thereon is afforded the pupil. A written notice of any proposal to suspend for an extended term or to expel from school, and the charges upon which the proposal is based shall be given to the pupil proposed to be suspended or expelled from school, and to the pupil's parent or guardian. Any notice of a proposal to suspend for an extended term or to expel from school shall state the time, date and place that the pupil will be afforded an opportunity for a formal hearing, and that failure of the pupil and the pupil's parent or guardian to attend the hearing will result in a waiver of the pupil's opportunity for the hearing. The hearing shall be held not later than 10 days after the date of the notice. The notice shall be accompanied by a copy of this act and the regulations of the board of education adopted under K.S.A. 72-8903, and amendments thereto.

(e) Whenever any written notice is required under this act to be given to a pupil or to a pupil's parent or guardian, it shall be sufficient if the notice is mailed to the address on file in the school records of the pupil. In lieu of mailing the written notice, the notice may be personally delivered.

(f) A formal hearing on a suspension or expulsion may be conducted by any person or committee of persons authorized by the board of education to conduct the hearing.

72-6116. Procedural due process requirements; record of appeal, costs; report of findings and result of hearing; information regarding behavior improvement programs.

(a) The formal hearing provided for in K.S.A. 72-8902, and amendments thereto, shall be conducted in accordance with regulations relating thereto adopted by the board of education.

Such regulations shall afford procedural due process including, but not limited to, the following:

(1) The right of the pupil to have counsel of the pupil's own choice present and to receive the advice of such counsel or other person whom the pupil may select;

(2) the right of the parents or guardians of the pupil to be present at the hearing;

(3) the right of the pupil and the pupil's counsel or advisor to hear or read a full report of testimony of witnesses against the pupil;

(4) the right of the pupil and the pupil's counsel to confront and cross-examine witnesses who appear in person at the hearing, either voluntarily or as a result of the issuance of a subpoena;

(5) the right of the pupil to present the pupil's own witnesses in person or their testimony by affidavit;

(6) the right of the pupil to testify in the pupil's own behalf and give reasons for the pupil's conduct;

(7) the right of the pupil to have an orderly hearing; and

(8) the right of the pupil to a fair and impartial decision based on substantial evidence.

(b) In all extended-term suspension and expulsion from school cases, there shall be made a record of the hearing of an appeal of the suspension or expulsion, whichever is applicable, by mechanical or electronic recording or by an official court reporter, and the costs thereof shall be paid by the school district.

(c) At the conclusion of a formal hearing which results in a suspension for an extended term or an expulsion, the person or committee conducting the hearing shall make a written report of the findings and results of the hearing.

The report shall be directed to the board of education of the school district and shall be open to the inspection of the pupil who is suspended or expelled and, if the pupil is a juvenile, to the parents or guardians and counsel or other advisor of the pupil.

If the pupil is an adult, the report shall be open to the inspection of the parents or guardians and counsel or other advisor of the pupil only upon written consent of the pupil.
Whenever a formal hearing results in suspension for an extended term or expulsion, the person or committee conducting the hearing may make a finding that return to school by the pupil, pending appeal or during the period allowed for notice of appeal, is not reasonably anticipated to endanger the safety of others, to cause continuing repeated material disorder, disruption or interference with the operation of school, or to substantially or materially impinge upon or invade the rights of others, in which case the pupil may return to school until the period for filing a notice of appeal has expired with no notice filed, or until the determination of any appeal if a notice of appeal is filed.

Whenever the person or committee conducting a hearing fails to make the findings specified above, the report of the hearing shall provide that the suspension or expulsion of the pupil shall continue until appeal therefrom is determined or until the period of suspension or expulsion has expired, whichever occurs sooner.

Any such pupil shall be provided with information concerning services or programs offered by public and private agencies that work toward improving those aspects of the pupil's attitudes and behavior that contributed to the conduct upon which the suspension or expulsion was based.

If the pupil is a juvenile, the information shall also be provided to the parents or guardians of the pupil.

72-6117. Notice of hearing results; appeal to board of education; hearing officers; procedure.
(b) Any pupil, age 18 or older, who has been suspended for an extended term or expelled, or one of the pupil's parents or guardians of a pupil under age 18, may appeal such suspension or expulsion to the board of education of the school district by filing a written notice of appeal with the clerk of the board of education not later than 10 calendar days after receiving the written notice. Any such appeal shall be heard by the board of education, or by a hearing officer appointed by such board, not later than 20 calendar days after such notice of appeal is filed. The pupil and the pupil's parents or guardians shall be notified in writing of the time and place of the appeal hearing at least five days prior thereto. Such appeal shall be conducted under rules which are consonant with K.S.A. 72-8903, and amendments thereto.

Except as provided by subsection (c), the decision on any such appeal shall be rendered not later than five days after the conclusion of the appeal hearing.

(c) For the purpose of hearing an appeal of an extended-term suspension or an expulsion, the board of education may appoint one or more hearing officers. Any such hearing officer shall be a member of the board of education, a certificated employee of the school district, or an attorney admitted to the practice of law in this state. Any such appointment shall apply to a particular hearing or to a set or class of hearings as specified by the board of education in making the appointment. Whenever a hearing officer appointed under authority of this section hears any appeal, the hearing officer shall prepare a written report thereon to the board of education. After receiving any such report, the board of education shall determine the matter with or without additional hearing. If a hearing officer is appointed to hear an appeal, the board shall render its decision not later than the next regularly-scheduled meeting of the board following the date of the conclusion of the hearing of the appeal by the hearing officer. Any matter determined by the board of education in accordance with this subsection shall be valid to the same extent as if the matter were fully heard by the board of education without a hearing officer.

72-6119. Powers and duties of persons conducting hearings.
(a) Any person, hearing officer or any member of a committee or the board of education conducting a hearing under this act may:

(1) Administer oaths for the purpose of taking testimony;
(2) call and examine witnesses and receive documentary and other evidence; and
(3) take any other action necessary to make the hearing accord with procedural due process.
(b) Any hearing officer, any member of a committee or the board of education holding a formal hearing or an appeal hearing under this act may and, upon the request of any pupil for whom any such hearing is held or upon the request of the pupil's parents or guardians or counsel, shall petition the chief judge of the judicial district in which the school district is located requesting that the clerk of the district court be authorized to issue subpoenas for the attendance and testimony of the principal witness or witnesses and the production of books, records, reports, papers and documents relating to the proposed suspension or expulsion from school in the same manner as provided for the issuance of subpoenas in civil actions pursuant to K.S.A. 60-245, and amendments thereto.

72-6132. Policies requiring expulsion of pupils for possession of weapons, adoption, filing; hearings; modification of requirement authorized; referral procedure; annual report; circumstances when policy not applicable.

(d) A hearing afforded a pupil required to be expelled pursuant to a policy adopted under subsection (a) shall be conducted by the chief administrative officer or other certificated employee of the school in which the pupil is enrolled, by any committee of certificated employees of the school in which the pupil is enrolled, or by a hearing officer appointed by the board of education of the school in which the pupil is enrolled.

(a) Each board of education shall designate one or more employees who shall report to the secretary for children and families, or a designee thereof, or to the appropriate county or district attorney pursuant to an agreement as provided in this section, all cases of children who are less than 13 years of age and are not attending school as required by law, and to the appropriate county or district attorney, or a designee thereof, all cases of children who are 13 or more years of age but less than 18 years of age and are not attending school as required by law. The designation shall be made no later than September 1 of each school year and shall be certified no later than 10 days thereafter by the board of education to the secretary for children and families, or the designee thereof, to the county or district attorney, or the
designee thereof, and to the commissioner of education. The commissioner of education shall compile and maintain a list of the designated employees of each board of education. The local area office of the Kansas department for children and families may enter into an agreement with the appropriate county or district attorney to provide that the designated employees of such board of education shall make the report as provided in this section for all cases of children who are less than 13 years of age and are not attending school as provided by law to the county or district attorney in lieu of the secretary, or the secretary's designee. If such agreement is made, the county or district attorney shall carry out all duties as otherwise provided by this subsection conferred on the secretary or the secretary's designee. A copy of such agreement shall be provided to the director of such area office of the Kansas department for children and families and to the school districts affected by the agreement.

(b) Whenever a child is required by law to attend school, and the child is not enrolled in a public or nonpublic school, the child shall be considered to be not attending school as required by law and a report thereof shall be made in accordance with the provisions of subsection (a) by a designated employee of the board of education of the school district in which the child resides. The provisions of this subsection are subject to the provisions of subsection (d).

(c)(1) Whenever a child is required by law to attend school and is enrolled in school, and the child is inexcusably absent therefrom on either three consecutive school days or five school days in any semester or seven school days in any school year, whichever of the foregoing occurs first, the child shall be considered to be not attending school as required by law. A child is inexcusably absent from school if the child is absent therefrom all or a significant part of a school day without a valid excuse acceptable to the school employee designated by the board of education to have responsibility for the school attendance of such child.

(2) Each board of education shall adopt rules for determination of valid excuse for absence from school and for determination of what shall constitute a "significant part of a school day" for the purpose of this section.

(3) Each board of education shall designate one or more employees, who shall each be responsible for determining the acceptability and validity of offered excuses for absence from school of specified children, so that a designee is responsible for making such determination for each child enrolled in school.

(4) Whenever a determination is made in accordance with the provisions of this subsection that a child is not attending school as required by law, the designated employee who is responsible for such determination shall make a report thereof in accordance with the provisions of subsection (a), provided that the report would not violate the terms of the memorandum of understanding approved by the superintendent of the school district pursuant to K.S.A. 72-89b03(i), and amendments thereto.

The notice shall inform the parent or person acting as parent that continued failure of the child to attend school without a valid excuse will result in a report being made to the secretary for children and families or to the county or district attorney. Upon failure, on the school day next succeeding personal delivery of the notice or within three school days after the notice was mailed, of attendance at school by the child or of an acceptable response, as determined by the designated employee, to the notice by a parent or person acting as parent of the child, the designated employee shall make a report thereof in accordance with the provisions of subsection (a). The designated employee shall submit with the report a certificate verifying the manner in which notice was provided to the parent or person acting as parent.
(2) Whenever a law enforcement officer assumes temporary custody of a child who is found away from home or school without a valid excuse during the hours school is actually in session, and the law enforcement officer delivers the child to the school in which the child is enrolled or to a location designated by the school in which the child is enrolled to address truancy issues, the designated employee of the board of education shall serve notice thereof upon a parent or person acting as parent of the child. The notice may be oral or written and shall inform the parent or person acting as parent of the child that the child was absent from school without a valid excuse and was delivered to school by a law enforcement officer.

(e) Whenever the secretary for children and families receives a report required under this section, the secretary shall investigate the matter. If, during the investigation, the secretary determines that the reported child is not attending school as required by law, the secretary shall institute proceedings under the revised Kansas code for care of children. If, during the investigation, the secretary determines that a criminal prosecution should be considered, the secretary shall make a report of the case to the appropriate law enforcement agency.

(f) Whenever a county or district attorney receives a report required under this section, the county or district attorney shall investigate the matter. If, during the investigation, the county or district attorney determines that the reported child is not attending school as required by law, the county or district attorney shall prepare and file a petition alleging that the child is a child in need of care. If, during the investigation, the county or district attorney determines that a criminal prosecution is necessary, the county or district attorney shall commence such action.

72-3131. School attendance review board; members, meetings; rules and regulations.

(b) The superintendent of schools of the school district that has established a school attendance review board as provided in subsection (a), at the beginning of each school year, shall convene a meeting of the school attendance review board for the purpose of adopting plans to promote interagency and community cooperation and to reduce the duplication of services provided to youth who have serious school attendance problems. If more than one board of education is participating in a school attendance review board, the superintendent of schools of the school district having the most pupils shall convene the meeting provided for by this subsection.

72-3133. Inventory of community services; recommendations for further services.

Any school attendance review board established pursuant to K.S.A. 72-8239 shall maintain a continuing inventory of community resources, including alternative educational programs, and make recommendations for the improvement of such resources and programs or for the creation of new resources and programs where none exist.

72-3135. Referral of students; notice; resolving the problem.

(a) If a pupil is required by law to attend school and is irregular in attendance at school, the pupil may be referred to the school attendance review board. Each board of education shall designate one or more employees to make such referrals. Upon making a referral, the employee shall notify the pupil and the pupil's parents or guardians, in writing, of the name and address of the school attendance review board and of the reason for the referral. The notice shall indicate that the pupil and parents or guardians of the pupil will be required, along with the referring person, to meet with the school attendance review board to consider a proper disposition of the referral.
(b) If the school attendance review board determines that available community services can resolve the problem of the referred pupil, the board shall direct the pupil or the pupil's parents or guardians, or both, to make use of those community services. The school attendance review board may require, at such time as it determines proper, the pupil or parents or guardians of the pupil, or both, to furnish satisfactory evidence of participation in the available community services.

(c) If the school attendance review board determines that available community services cannot resolve the problem of the referred pupil or if the pupil or the pupil's parents or guardians, or both, have failed to respond to directives of the school attendance review board or to services provided, the school attendance review board may notify the secretary for children and families or the appropriate county or district attorney. If the case is referred to the district court, the school attendance review board shall submit to the district court documentation of efforts to secure attendance as well as the board's recommendations on what action the district court shall take in order to bring about proper disposition of the case.

(d)(1) Prior to making any report under this section that a child is not attending school as required by law, the designated employee of the board of education shall serve written notice thereof, by personal delivery or by first class mail, upon a parent or person acting as parent of the child. The notice shall inform the parent or person acting as parent that continued failure of the child to attend school without a valid excuse will result in a report being made to the secretary for children and families or to the county or district attorney. Upon failure, on the school day next succeeding personal delivery of the notice or within three school days after the notice was mailed, of attendance at school by the child or of an acceptable response, as determined by the designated employee, to the notice by a parent or person acting as parent of the child, the designated employee shall make a report thereof in accordance with the provisions of subsection (a). The designated employee shall submit with the report a certificate verifying the manner in which notice was provided to the parent or person acting as parent.

(2) A short-term suspension may be imposed upon a pupil forthwith, and without affording the pupil a hearing if the presence of the pupil endangers other persons or property or substantially disrupts, impedes or interferes with the operation of the school.

(c) A written notice of any short-term suspension and the reason therefor shall be given to the pupil involved and to the pupil's parent or guardian within 24 hours after the suspension has been imposed and, in the event the pupil has not been afforded a hearing prior to any short-term suspension, an opportunity for an informal hearing shall be afforded the pupil as soon thereafter as practicable but in no event later than 72 hours after such short-term suspension has been imposed. Any notice of the imposition of a short-term suspension that provides an opportunity for an informal hearing after such suspension has been imposed shall state that failure of the pupil to attend the hearing will result in a waiver of the pupil's opportunity for the hearing.

(d) No suspension for an extended term and no expulsion shall be imposed upon a pupil until an opportunity for a formal hearing thereon is afforded the pupil. A written notice of any proposal to suspend for an extended term or to expel from school, and the charges upon which the proposal is based shall be given to the pupil proposed to be suspended or expelled from school, and to the pupil's parent or guardian. Any notice of a proposal to suspend for an extended term or to expel from school shall state the time, date and place that the pupil will be afforded an opportunity for a formal hearing, and that failure of the pupil and the pupil's parent or guardian to attend the hearing will result in a waiver of the pupil's opportunity for the hearing. The hearing shall be held not later than 10 days after the date of the notice. The notice shall be accompanied by a copy of this act and the regulations of the board of education adopted under K.S.A. 72-8903, and amendments thereto.

Kentucky
Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources
related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

(2)(a) Each local board of education shall adopt a policy requiring the expulsion from school for a period of not less than one (1) year for a student who is determined by the board to have brought a weapon to a school under its jurisdiction. In determining whether a student has brought a weapon to school, a local board of education shall use the definition of “unlawful possession of a weapon on school property” stated in KRS 527.070.

(b) The board shall also adopt a policy requiring disciplinary actions, up to and including expulsion from school, for a student who is determined by the board to have possessed prescription drugs or controlled substances for the purpose of sale or distribution at a school under the board’s jurisdiction, or to have physically assaulted or battered or abused educational personnel or other students at a school or school function under the board’s jurisdiction. (1) Unless the action is taken pursuant to KRS 158.150, no school, school administrator, teacher, or other school employee shall expel or punish a child based on information contained in a record of an adjudication of delinquency or conviction of an offense received by the school pursuant to KRS 610.345 or from any other source. Nothing in this subsection shall be construed to prohibit a local school board or school official from instituting disciplinary proceedings against any student for violating the discipline policy of the school or school district or taking actions necessary to protect staff and students. Actions to protect staff and students may be taken only after the principal makes a determination that the conduct of the student reflected in the records of the school or obtained by the school from the court indicates a substantial likelihood of an immediate and continuing threat that the student will cause harm to students or staff, and that the restrictions to be ordered represent the least restrictive alternative available and appropriate to remedy the threat, and that the determination and supporting material be documented in the child's record. The action of the principal, in addition to or in lieu of any other procedure available, may be appealed by the child or the child's parent or guardian to the superintendent of the school system or to the Circuit Court in the county in which the school is located, and the appealing party may be represented by counsel.

(2) No school, school administrator, teacher, or other school employee who has custody of records received or maintained by the school pursuant to KRS 610.345 or who has received information contained in or relating to a record received by the school pursuant to KRS 610.345 shall disclose the fact of the record's existence, or any information contained in the record or received from the record to any other person, including but not limited to other teachers, school employees, pupils, or parents other than the pupil, or parents of the pupil who is the subject of the record.

(3) The child and his parent or guardian shall have a civil cause of action against the school board and against any school administrator violating subsection (1) or (2) of this section or divulging information in violation of KRS 610.345 or 610.340. This civil cause of action shall be in addition to any other criminal or administrative remedy provided by law.

(4) Nothing in this section shall be construed to prohibit a local board of education from establishing districtwide standards of behavior for students who participate in extracurricular and cocurricular activities, including athletics. A school principal may deny or terminate a student's eligibility to participate in extracurricular or cocurricular activities if the student has violated the local district behavior standards or the council's criteria for participation, as described in KRS 160.345(2)(i)8. A student's right to participate in extracurricular or cocurricular activities, including athletics, may be suspended, pending investigation of an allegation that the standards of behavior have been violated.

The KSPSRO's continual collaboration with school personnel and his or her understanding of each student's needs may impact the decision to arrest or take other police action, but the responsibility is that of the KSPSRO;

   (b) A provision stipulating that the KSPSRO shall be an employee of the school district, but shall revert to Department of Kentucky State Police employee status during such time that the KSPSRO takes police action pursuant to state or federal law.    (d) A KSPSRO shall not administer formal school discipline such as detentions, suspensions, or expulsions. These decisions are the sole responsibility of school personnel.

(3) Notwithstanding KRS Chapter 11A, the KSPSRO shall wear the uniform and utilize the vehicles, firearms, ammunition, and equipment issued to him or her by the Department of Kentucky State Police or other agency-authorized clothing or equipment. In the event additional weapons or gear is utilized than that which is carried on his or her person, the storage of these items shall be defined by the Department of Kentucky State Police. If a vehicle or equipment is damaged during the scope of a KSPSRO's secondary employment with the school district, but not while the KSPSRO is engaged in police action, the school district is responsible for restitution to the Department of Kentucky State Police.

(4) Notwithstanding subsection (2) of this section, a KSPSRO shall be deemed an employee of the Department of Kentucky State Police for all purposes whenever engaged in any police action, including

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes
active hyperlinks to source websites supported or maintained by state legislatures. Additional links to
government websites or resources are provided at the end of this document.

**Notes & Disclaimers**
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

§17:251. Short title; legislative intent.
A. This Subpart may be cited as the "Education/Juvenile Justice Partnership Act".
B. The legislature hereby finds and declares that:
   (1) The good behavior and discipline of students are essential prerequisites to academic learning, the development of student character, and the general, as well as educational, socialization of children and youth.
   (2) Bad behavior and lack of discipline in many schools of the state are impairing the quality of teaching, learning, character development, and socialization, and, in some schools, are creating real and potential threats to school and public safety.
   (3) Greater communication, coordination, and collaboration need to exist between and among state, city, parish, and other local public school systems and juvenile justice agencies to address effectively issues affecting the behavior and discipline of students, especially with respect to safe school planning, mental health service delivery, family strengthening, alternative schools, special education, school zero tolerance policies, school suspensions, and positive behavioral supports.

§17:416. Discipline of students; suspension; expulsion.
A.(1)(a) Every teacher and other school employee shall endeavor to hold every student to a strict accountability for any disorderly conduct in school or on the playgrounds of the school, on the street or road while going to or returning from school, on any school bus, during intermission or recess, or at any school-sponsored activity or function.

§17:416.1. Discipline of pupils; additional disciplinary authority.
A. In addition to the specific disciplinary measures authorized in R.S. 17:416 teachers, principals, and administrators of the public schools may, subject to any rules as may be adopted by the parish or city school board, employ other reasonable disciplinary and corrective measures to maintain order in the schools; provided, however, that nothing in this Section shall be construed as superseding the provisions of R.S. 17:416 relative to the disciplining of students, suspensions, and expulsions.
B.(1)(a) Corporal punishment means using physical force to discipline a student, with or without an object. Corporal punishment includes hitting, paddling, striking, spanking, slapping, or any other physical force that causes pain or physical discomfort.
   (b) Corporal punishment does not include:
(i) The use of reasonable and necessary physical restraint of a student to protect the student, or others, from bodily harm or to obtain possession of a weapon or other dangerous object from a student.

(ii) The use of seclusion and restraint as provided in R.S. 17:416.21.

(2) The governing authority of a public elementary or secondary school shall have discretion with respect to the use of corporal punishment; however, no form of corporal punishment shall be administered to a student with an exceptionality, excluding gifted and talented, as defined in R.S. 17:1942 or to a student who has been determined to be eligible for services under Section 504 of the Rehabilitation Act of 1973 and has an Individual Accommodation Plan. Each governing authority of a public elementary or secondary school shall adopt such rules and regulations as it deems necessary to implement and control any form of corporal punishment in the schools under its jurisdiction.

C. Should any teacher, principal, or administrator in the public school system be sued for damages by any student, the parent of any student or other persons qualified to bring suit on behalf of such student based upon the act or omission of such teacher, principal, or administrator in the directing of and disciplining of school children under their care and supervision, it shall be the responsibility of the school board employing such teacher, principal, or administrator to provide such defendant with a legal defense to such suit including reasonable attorney's fees, investigatory costs, and other related expenses. Should any such teacher, principal, or administrator be cast in judgment for damages in such suit, it shall be the obligation of the school board employing such defendant to indemnify him fully against such judgment including all principal, interest, and costs. Nothing in this Section shall require a school board to indemnify a teacher, principal, or administrator against a judgment wherein there is a specific decree in the judgment that the action of the teacher, principal, or administrator was malicious, and willfully and deliberately intended to cause bodily harm.

(2) As used in this Subsection, "disciplinary action" means an expulsion or suspension from school for ten or more consecutive school days or an assignment to an alternative educational setting for ten or more consecutive school days in accordance with any policy of the school or of the local public school board, limited to expulsions, suspensions, and assignments to alternative educational settings for infractions involving the sale or possession of drugs, alcohol, or any other illegal substance, the possession of a firearm, or an infraction involving assault or battery on a member of the school faculty or staff. The governing authority of any public elementary or secondary school shall promulgate rules and regulations to implement the provisions of this Section.

(3) Any such student who has been subjected to a disciplinary action as provided in Paragraph (2) of this Subsection shall have his driver's license for the operation of a motor vehicle suspended for a period of one year, in accordance with the provisions of R.S. 32:431. A. (1) The parish and city school systems of the state are the exclusive owners of all public school buildings and all desks and lockers within the building assigned to any student and any other area of any public school building or grounds set aside specifically for the personal use of the students. Any teacher, principal, school security guard, or administrator in any parish or city school system of the state may
search any building, desk, locker, area, or grounds for evidence that the law, a school rule, or parish or city school board policy has been violated.

(2)(a) The teacher, principal, school security guard, or administrator may search the person of a student or his personal effects when, based on the attendant circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law, a school rule, or a school board policy. Such a search shall be conducted in a manner that is reasonably related to the purpose of the search and not excessively intrusive in light of the age or sex of the student and the nature of the suspected offense.

(b) Random searches with a metal detector of students or their personal effects may be conducted at any time, provided they are conducted without deliberate touching of the student.

B. (1) If any teacher, principal, school security guard, or administrator in the public school system is sued for damages by any student, the parent of any student, or other person qualified to bring suit on behalf of the student, based upon a search of that student's person, desk, locker, or any other area of a school building or grounds set aside specifically for that student's personal use, when the teacher, principal, school security guard, or administrator reasonably believed that the student had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy on his person, or had reasonable belief that such desk, locker, or other area contained such items, or based upon a search using a metal detector, it shall be the responsibility of the school board employing such teacher, principal, school security guard, or administrator to provide the defendant with legal defense, including reasonable attorney's fees, investigatory costs, and other related expenses.

(2) If any such teacher, principal, school security guard, or administrator is cast in judgment for damages in the suit, it shall be the obligation of the school board employing the defendant to indemnify him fully against such judgment, including all principal, interest, and costs.

(3) Nothing in this Section shall require a school board to indemnify a teacher, principal, school security guard, or administrator against a judgment wherein there is a specific finding that the action of the teacher, principal, school security guard, or administrator was maliciously, wilfully, and deliberately intended to harass, embarrass, or intimidate the student.

C.(1)(a) On or before January 1, 1995, each parish and city school board shall adopt a policy that is consistent with Subsection A of this Section to provide for reasonable search and seizure by public school teachers, principals, and other school administrators of students' persons, desks, lockers, or other school areas for evidence that the law, a school rule, or a parish or city school board policy has been violated.

(b) Such policy shall include at a minimum:

(i) Specification of standards regarding procedures for searching students to prevent excessive intrusion.

(iii) Directions regarding the disposal of implements and materials reported to law enforcement authorities when such authorities notify the principal that the implements and materials need not be retained.

(iv) Specification of disciplinary action when a principal or designated administrator violates any provision of this Section.

(2)(a) Nothing in this Section shall require defense and/or indemnification by a school board, a principal, or other school administrator for suits regarding search and seizure unless such acts are in accordance with the policy adopted by the school board that employs him, if the policy is declared to be reasonable by a court of competent jurisdiction.
(b) No teacher, principal, school security guard, or administrator shall be held personally liable for any action authorized by this Section and performed in accordance with school board policies adopted pursuant to this Section.

D. (1) Upon the seizure by any public school teacher, principal, school security guard, or administrator of any firearm, bomb, knife, or other implement which can be used as a weapon and the careless use of which might inflict harm or injury or any controlled dangerous substance as defined in R.S. 40:961, the principal or his designated administrator shall report the confiscation of such implement or material to the appropriate law enforcement officials. The principal or his designated administrator may report the confiscation of any other implement or material.

(2) Any implement or material required by Paragraph (1) of this Subsection to be reported to law enforcement officials shall be retained and secured by the school principal in such a manner as to prevent the destruction, alteration, or disappearance of it until such time as the law enforcement authority either takes custody of the implement or material or provides notice to the school principal that it need no longer be retained. In the case that it need not be retained, the school principal shall comply with his school board's policy regarding disposal of the item.

(3) The failure of any principal or designated administrator to report the confiscation of such implement or material or the failure to retain and secure such implement or material shall be reported by the law enforcement authority to the employing school board which shall take disciplinary action pursuant to its policy.

E. The provisions of this Section shall apply to the State Board of Elementary and Secondary Education as it relates to state schools operated by the board in the same way it applies to city and parish school boards.

(2) The State Board of Elementary and Secondary Education shall develop a plan for using metal detection devices for random weapon searches in elementary and secondary schools and shall submit it to the attorney general for approval. The attorney general shall periodically review the plan as changes in the law in relation to random searches occur.

(3) The board shall provide the approved plan to each city and parish school board and shall provide training on the use of metal detectors and other techniques for weapon searches to system administrators that is consistent with the approved plan.

§17:416.3. Search of students' persons, desks, lockers, other areas; defense of suits against school personnel; indemnification; reporting of implements seized.

A. (1) The parish and city school systems of the state are the exclusive owners of all public school buildings and all desks and lockers within the building assigned to any student and any other area of any public school building or grounds set aside specifically for the personal use of the students. Any teacher,
principal, school security guard, or administrator in any parish or city school system of the state may search any building, desk, locker, area, or grounds for evidence that the law, a school rule, or parish or city school board policy has been violated.

(2)(a) The teacher, principal, school security guard, or administrator may search the person of a student or his personal effects when, based on the attendant circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law, a school rule, or a school board policy. Such a search shall be conducted in a manner that is reasonably related to the purpose of the search and not excessively intrusive in light of the age or sex of the student and the nature of the suspected offense.

(b) Random searches with a metal detector of students or their personal effects may be conducted at any time, provided they are conducted without deliberate touching of the student.

B. (1) If any teacher, principal, school security guard, or administrator in the public school system is sued for damages by any student, the parent of any student, or other person qualified to bring suit on behalf of the student, based upon a search of that student's person, desk, locker, or any other area of a school building or grounds set aside specifically for that student's personal use, when the teacher, principal, school security guard, or administrator reasonably believed that the student had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy on his person, or had reasonable belief that such desk, locker, or other area contained such items, or based upon a search using a metal detector, it shall be the responsibility of the school board employing such teacher, principal, school security guard, or administrator to provide the defendant with legal defense, including reasonable attorney's fees, investigatory costs, and other related expenses.

(2) If any such teacher, principal, school security guard, or administrator is cast in judgment for damages in the suit, it shall be the obligation of the school board employing the defendant to indemnify him fully against such judgment, including all principal, interest, and costs.

(3) Nothing in this Section shall require a school board to indemnify a teacher, principal, school security guard, or administrator against a judgment wherein there is a specific finding that the action of the teacher, principal, school security guard, or administrator was maliciously, wilfully, and deliberately intended to harass, embarrass, or intimidate the student.

C. (1)(a) On or before January 1, 1995, each parish and city school board shall adopt a policy that is consistent with Subsection A of this Section to provide for reasonable search and seizure by public school teachers, principals, and other school administrators of students' persons, desks, lockers, or other school areas for evidence that the law, a school rule, or a parish or city school board policy has been violated.

(iv) Specification of disciplinary action when a principal or designated administrator violates any provision of this Section.

(2)(a) Nothing in this Section shall require defense and/or indemnification by a school board, a principal, or other school administrator for suits regarding search and seizure unless such acts are in accordance with the policy adopted by the school board that employs him, if the policy is declared to be reasonable by a court of competent jurisdiction.
(b) No teacher, principal, school security guard, or administrator shall be held personally liable for any action authorized by this Section and performed in accordance with school board policies adopted pursuant to this Section.

D. (1) Upon the seizure by any public school teacher, principal, school security guard, or administrator of any firearm, bomb, knife, or other implement which can be used as a weapon and the careless use of which might inflict harm or injury or any controlled dangerous substance as defined in R.S. 40:961, the principal or his designated administrator shall report the confiscation of such implement or material to the appropriate law enforcement officials. The principal or his designated administrator may report the confiscation of any other implement or material.

(2) Any implement or material required by Paragraph (1) of this Subsection to be reported to law enforcement officials shall be retained and secured by the school principal in such a manner as to prevent the destruction, alteration, or disappearance of it until such time as the law enforcement authority either takes custody of the implement or material or provides notice to the school principal that it need no longer be retained. In the case that it need not be retained, the school principal shall comply with his school board's policy regarding disposal of the item.

(3) The failure of any principal or designated administrator to report the confiscation of such implement or material or the failure to retain and secure such implement or material shall be reported by the law enforcement authority to the employing school board which shall take disciplinary action pursuant to its policy.

E. The provisions of this Section shall apply to the State Board of Elementary and Secondary Education as it relates to state schools operated by the board in the same way it applies to city and parish school boards.

B. If any principal, administrator, or school security guard is sued for damages by any person based upon a search of the person, handbag, briefcase, purse, or other object in possession of that person after the principal, administrator, or school security guard conducts a random search with a metal detector or has a reasonable suspicion that the person had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy, it shall be the responsibility of the school board employing such principal, administrator, or school security guard, to indemnify him fully against such judgment, including all principal, interest, and costs. Nothing in this Section shall require a school board to indemnify a principal, administrator, or school security guard against a judgment wherein there is a specific finding that the action of the principal, administrator, or school security guard was maliciously, wilfully, and deliberately intended to harass, embarrass, or intimidate the visitor.

B. No student shall be subjected to unreasonable, unsafe, or unwarranted use of seclusion or physical restraint.

C. A student shall not be placed in seclusion or physically restrained if he or she is known to have any medical or psychological condition that precludes such action, as certified by a licensed health care provider in a written statement provided to the school in which the student is enrolled.

D. A student who has been placed in seclusion or has been physically restrained shall be monitored continuously. Such monitoring shall be documented at least every 15 minutes and adjustments made accordingly, based upon observations of the student's behavior.

E. A student shall be removed from seclusion or released from physical restraint as soon as the reasons for justifying such action have subsided.

F. The parent or other legal guardian of a student who has been placed in seclusion or physically restrained shall be notified as soon as possible. The school shall document all efforts, including conversations, phone calls, electronic communications, and home visits, to notify the parent of a student who has been placed in seclusion or physically restrained.

1. The student's parent or other legal guardian shall also be notified in writing, within 24 hours, of each incident of seclusion or physical restraint. Such notice shall include the reason for such seclusion or physical restraint, the procedures used, the length of time of the student's seclusion or physical restraint, and the names and titles of any school employee involved.

G. The director or supervisor of special education shall be notified any time a student is placed in seclusion or is physically restrained.

H. A school employee who has placed a student in seclusion or who has physically restrained a student shall document and report each incident in accordance with the policies adopted by the school's governing authority. I. If a student is involved in five incidents in a single school year involving the use of physical restraint or seclusion, the student's individualized education plan team shall review and revise the student's behavior intervention plan to include any appropriate and necessary behavioral supports. Thereafter, if the student's challenging behavior continues or escalates requiring repeated use of seclusion or
physical restraint practices, the special education director or his designee shall review the student’s plans at least once every three weeks.

J. The governing authority of each public elementary and secondary school shall adopt written guidelines and procedures regarding:

1. reporting requirements and follow-up procedures;

At a minimum, all instances must be reported on a monthly basis.

M. The state Department of Education, using the data elements collected in SER, shall maintain a database of all reported incidents of seclusion and physical restraint of students with disabilities and shall disaggregated the data for analysis by school, student age, race, ethnicity, and gender, student disability, where applicable, and any involved school employees.

N. Based upon the data collected, the LDE shall annually compile a comprehensive report regarding the use of seclusion and physical restraint of students with exceptionalities, which shall at a minimum include the following:

Exclusionary Discipline: Suspension, Expulsion, and Alternative Placement

Grounds for Suspension or Expulsion

LAWS

§17:223. Discipline of pupils; suspension from school.
A. Every teacher is authorized to hold every pupil to a strict accountability for any disorderly conduct in school or on the playground of the school, or on any school bus going to or returning from school, or during intermission or recess. Each parish and city school board shall have discretion in the use of corporal punishment. In those cases in which a parish or city school board decides to use corporal punishment, each parish or city school board shall adopt such rules and regulations as it deems necessary to implement and control any form of corporal punishment in the schools in its district.
B. School principals may suspend from school any pupil for good cause, as stated in R.S. 17:416. Principals shall notify the visiting teacher or supervisor of child welfare and attendance of all suspensions. In all cases of suspensions, the parent, the superintendent of schools, and the visiting teacher or supervisor of child welfare and attendance shall be notified in writing of the facts concerning each suspension, including reasons therefor and terms thereof.

§17:224. Unadjustable or incorrigible children; reports to juvenile courts; expulsion, assignments, and transfers.
A. Unadjustable or incorrigible children, who, through no fault of their parents or tutors or other persons having charge of them, regularly disrupt the orderly processes of the school to which they have been assigned, shall be considered as delinquents and may be reported by the visiting teacher, or supervisor of child welfare and attendance, to the juvenile court of the parish, there to be dealt with in the manner prescribed by law.
B. Notwithstanding the provisions of R.S. 17:416 to the contrary, any student who exhibits disruptive behavior, an incorrigible attitude, or any other discipline problems in general, may be recommended by the principal for expulsion, assignment to an appropriate alternative education program, or transfer to adult education if such student is:
   (1) Seventeen years of age or older with less than five units of credit toward graduation.
   (2) Eighteen years of age or older with less than ten units of credit toward graduation.
   (3) Nineteen years of age or older with less than fifteen units of credit toward graduation.

§17:416. Discipline of students; suspension; expulsion.
A.(1)(b)(i) Prior to any suspension, the school principal, or his designee, shall advise the pupil in question of the particular misconduct of which he is accused as well as the basis for such accusation, and the pupil shall be given an opportunity at that time to explain his version of the facts to the school principal or his designee. In each case of suspension or expulsion the school principal, or his designee, shall contact by telephone at the telephone number shown on the pupil's registration card or send a certified letter at the address shown on the pupil's registration card to the parent, tutor, or legal guardian of the pupil in question giving notice of the suspension or expulsion, the reasons therefor and establishing a date and time for a conference with the principal or his designee as a requirement for readmitting the pupil provided that in the case of expulsion, the contact with the parent or guardian shall include a certified
letter. If the parent, tutor, or legal guardian fails to attend the required conference within five school days of mailing the certified letter or other contact with the parent, the truancy laws shall become effective. On not more than one occasion each school year when the parent, tutor, or legal guardian refuses to respond, the principal may determine whether readmitting the pupil is in the best interest of the student. On any subsequent occasions in the same year, the pupil shall not be readmitted unless the parent, tutor, legal guardian, court, or other appointed representative responds. A pupil whose presence in or about a school poses a continued danger to any person or property or an ongoing threat of disruption to the academic process shall be immediately removed from the school premises without the benefit of the procedure described herein above; however, the necessary procedure shall follow as soon as is practicable.

(ii)(aa) In any case where a teacher, principal, or other school employee is authorized in this Section to require the parent, tutor, or legal guardian of a pupil who is under the age of eighteen and not judicially emancipated or emancipated by marriage to attend a conference or meeting regarding the pupil's behavior and, after notice, the parent, tutor, or legal guardian willfully refuses to attend, the principal or his designee, shall file a complaint with a court exercising juvenile jurisdiction, pursuant to Children's Code Article 730(8) and 731. The principal may file a complaint pursuant to Children's Code Article 730(1) or any other applicable ground when, in his judgment, doing so is in the best interests of the pupil.

(bb) The principal, assistant principal, or child attendance and welfare supervisor or his assistant of any school, public or nonpublic, shall be a representative of an agency having the responsibility or ability to supply services to a family as that phrase is used in Children's Code Article 731(A).

(c) Any parent, tutor or legal guardian of a pupil suspended shall have the right to appeal to the city or parish superintendent of schools or his designee, who shall conduct a hearing on the merits. The decision of the superintendent of schools on the merits of the case, as well as the term of suspension, shall be final, reserving to the superintendent of schools the right to remit any portion of the time of suspension.

(d) A pupil suspended for damages to any property belonging to the school system or to property contracted to the school system shall not be readmitted until payment in full has been made for such damage or until directed by the superintendent of schools. If the property damaged is a school bus owned by, contracted to, or jointly owned by any parish or city school board, a pupil suspended for such damage shall not be permitted to enter or ride any school bus until payment in full has been made for such damage or until directed by the superintendent of schools.

(e) A pupil who is suspended for ten days or fewer shall be assigned school work missed while he is suspended and shall receive either partial or full credit for such work if it is completed satisfactorily and timely as determined by the principal or his designee, upon the recommendation of the pupil's teacher. A pupil who is suspended for more than ten days, or is expelled and receives educational services at an alternative school site, shall be assigned work by a certified teacher and shall receive credit for school work if it is completed satisfactorily and timely as determined by the teacher. Such work shall be aligned with the curriculum used at the school from which the pupil was suspended or expelled.

(f) When a pupil is suspended for a second time within one school year, the principal may require that a counseling session be held with the parent and pupil by the school counselor if a counselor is assigned or available to that school. In the event there is no school counselor available, the principal may require a conference between the parent, pupil, and all the pupil's teachers and the principal or other administrator.

Such terms and conditions may include but need not be limited to placing the student in a suitable alternative education program as determined by the school board. However, any such written agreement shall include a provision that upon the school principal or superintendent of schools making a determination that the student has violated any term or condition agreed to, the student shall be immediately removed from the school premises without the benefit of any hearing or other procedure applicable to student suspensions and expulsions. It is intended that as a result of such reporting, the children attending schools in this state shall not be exposed to substance abuse while on campus, and law enforcement shall be aided in efforts to eradicate substance abuse by students.

B. For the purposes of this Section, the following terms shall mean:

1. "Person" is any employee of a public school system including, but not limited to, teachers, administrators, school bus drivers, janitors, lunch room workers, maintenance employees, and coaches of athletic teams.

2. "Student" is any person enrolled at school, including any person so enrolled but on temporary suspension, and any person physically on campus, whether a student or non-student.

3. "School" is any public elementary or secondary school in the state of Louisiana.

4. "Campus" is all facilities and property within the boundary of the school property and all vehicles used for public transportation of students.

5. "Controlled dangerous substance" is any substance regulated or defined in the Uniform Controlled Dangerous Substance Law, Part X, Chapter IV of Title 40 of the Louisiana Revised Statutes of 1950, except where prescribed by a physician and possessed and consumed by the person for whom prescribed.

6. "Substance Abuse Prevention Team," hereafter sometimes referred to as "the team," is a panel of not less than six members consisting of at least one (a) administrator, (b) teacher, (c) guidance counselor, (d) parent representative, and (e) school support person. The team shall be trained by personnel from the Substance Abuse Prevention Education Program of the Louisiana Department of Education.

In the absence of the availability of a team trained by personnel from the Substance Abuse Prevention Education Program, the principal of a school may establish a substantially similar panel which shall be considered a substance abuse prevention team.

C. (1) Any person having reasonable cause to believe that a student possesses a controlled dangerous substance or an alcoholic beverage on a school campus, under circumstances other than those described in Paragraph (2) of this Subsection, shall report such fact to the principal of the school or to the chairman of the Substance Abuse Prevention Team on a report form prepared by the Department of Education or on a substantially similar form. If the report is to the principal, the principal immediately shall forward it to the chairman of the team.

The team shall thereafter report to the principal of the school and make recommendations for treatment, counseling, or other appropriate action.

(2) Any person having factual knowledge that a student has manufactured, distributed, or possessed with intent to distribute a controlled dangerous substance shall report such fact to the principal of the school who, upon a finding that there is reasonable cause to believe that the student has manufactured, distributed, or possessed with intent to distribute a controlled dangerous substance, shall report such information to the appropriate law enforcement agency. (2) The provisions of Subsection C of this Section shall not preclude any person from making a report of conduct to a law enforcement agency when that person has reasonable cause to believe that a student on campus is under the influence of alcoholic beverages and that delay would jeopardize or impair the ability to operate the school or result in the student's being a danger to himself or others.

(3) A law enforcement agency receiving a report under the provisions of this Subsection may conduct an investigation of the report. Such investigation may include the administering, upon the school grounds and after consent has been obtained from student's parent or legal tutor, of a breath or urine test for the presence of alcohol or a controlled dangerous substance, if the investigating officer has reasonable cause to believe the student is or recently was on campus while under the influence of alcoholic beverages or a controlled dangerous substance. The test results shall be exempt from the Public Records Act and shall not be admissible as evidence in any civil or criminal trial, hearing, or other proceeding.

E. All reports filed pursuant to this Section shall be confidential. The identity of the reporting person shall not be disclosed except when the constitution of the State of Louisiana or the United States so requires. All reports shall be exempt from the Public Records Act.

F. Any person who makes a report in good faith, pursuant to Subsections C and D of this Section, shall have immunity from civil liability that otherwise might be incurred. Such immunity shall extend to testimony in any judicial proceeding resulting from such report.

§17:402. Findings and purpose.

A. The legislature finds that the use and abuse of alcohol, drugs, and other substances among the children of school age in this state is a problem of serious concern and destructive societal impact and that the incidence of alcohol, drug, and substance abuse among the young is high. Substance abuse leads to serious consequences and impairs one’s ability to perform normally and productively in his educational and social environment. The legislature also finds that dependence on alcohol, drug, or other substances is an illness that can be prevented, identified, and treated. The legislature further finds that substantial alleviation of these problems may result from the development and implementation of comprehensive education programs and counseling in the public school systems of this state, combined with an enhanced law enforcement effort in the area of schools.

B. The purpose of this Part is to create a comprehensive program of alcohol, drug, and substance abuse prevention and education, which brings together the education system and the criminal justice system to educate, prevent, and punish such abuses, culminating in a drug free zone in and around the public schools in the state. The existence of such zones should enhance the whole community by bringing a clear-minded student into an environment more conducive to learning.

§17:403. Section on drug free schools and communities; program; section administrator; counselors.

C. The state superintendent of education and the State Board of Elementary and Secondary Education through the section on drug free schools and communities shall continually study the existing programs, resources, and needs of school districts, and shall utilize this data and local school personnel in the development of a state plan and minimum standards for alcohol, drug and substance abuse prevention and education programs required in Subsection A of this Section.

D. Any minor who is a student enrolled in any public or private elementary, secondary, vocational-technical, training, special school or institution in Louisiana who is identified as having a substance abuse problem or who is involved in the production, manufacture, possession, distribution, or dispensation of any controlled dangerous substance shall be required to participate in the school drug counseling program as provided in this Section in addition to any other penalties as provided by law. 3. "School" is any public elementary or secondary school in the state of Louisiana.

4. "Campus" is all facilities and property within the boundary of the school property and all vehicles used for public transportation of students.

5. Upon commitment to the Department of Public Safety and Corrections after conviction for a crime committed on school property, at a school-sponsored function or in a firearm-free zone, the department shall have the offender evaluated through appropriate examinations or tests conducted under the supervision of the department. Such evaluation shall be made within thirty days of the order of commitment.

E. Lack of knowledge that the prohibited act occurred on or within one thousand feet of school property shall not be a defense.

F. (1) School officials shall notify all students and parents of the impact of this legislation and shall post notices of the impact of this Section at each major point of entry to the school. These notices shall be maintained as permanent notices.

(2)(a) If a student is detained by the principal or other school official for violation of this Section or the school principal or other school official confiscates or seizes a firearm or concealed weapon from a student while upon school property, at a school function, or on a school bus, the principal or other school official in charge at the time of the detention or seizure shall immediately report the detention or seizure to the police department or sheriff's department where the school is located and shall deliver any firearm or weapon seized to that agency.

Upon successful completion of the community service or payment of the fine, or both, the arrest and conviction shall be set aside as provided for in Code of Criminal Procedure Article 894(B).

§17:183. Hazing; public elementary and secondary students; intent and findings; definitions; policies.

A. (1) It is the intent of the legislature that every public elementary and secondary school in this state shall be a safe, orderly, civil, and positive learning environment so that no student in this state feels threatened while in school.

(2) The legislature finds that while some forms of initiation for membership in student clubs and organizations constitute acceptable behavior, the hazing of students may degenerate into a dangerous form of intimidation and degradation.

B. (1) As used in this Section, "hazing" means any knowing behavior, whether by commission or omission, of any student to encourage, direct, order, or participate in any activity which subjects another student to potential physical, mental, or psychological harm for the purpose of initiation or admission into, affiliation with, continued membership in, or acceptance by existing members of any organization or extracurricular activity at a public elementary or secondary school, whether such behavior is planned or occurs on or off school property, including any school bus and school bus stop.
(2) Hazing does not mean any adult-directed and school-sanctioned athletic program practice or event or military training program.

C. Hazing is prohibited in public elementary and secondary schools.

D. (1) Each city, parish, and other local public school board shall develop, adopt, and post a policy to enforce the prohibition in this Section against hazing and to prevent its occurrence.

(e) A statement that all students, teachers, and other school employees shall take reasonable measures within the scope of their individual authority to prevent violations of the policy.

(f) A description of the procedures for students, teachers, and other school employees to report violations of the policy and the procedures to file a complaint for a violation of the policy.

B. Notwithstanding the provisions of R.S. 17:416 to the contrary, any student who exhibits disruptive behavior, an incorrigible attitude, or any other discipline problems in general, may be recommended by the principal for expulsion, assignment to an appropriate alternative education program, or transfer to adult education if such student is:

(2) Eighteen years of age or older with less than ten units of credit toward graduation.

(3) Nineteen years of age or older with less than fifteen units of credit toward graduation.

§17:410. Safety education; recognition and reporting of potential threats to safety.

A. Each public school governing authority, in consultation with local law enforcement agencies, shall develop and distribute age and grade appropriate information to each student regarding internet and cell phone safety and online content that is a potential threat to school safety. The information shall include how to recognize and report potential threats to school safety that are posted on the internet, including but not limited to posts on social media. The information shall either be distributed to or explained to students and school personnel at the beginning of each school year and shall be posted on an easily accessible page of each school's website and the website of the school's governing authority.

B. The information shall include the following:
(1) Instruction on how to detect potential threats to school safety exhibited online, including on any social media platform.

(2) Visual examples of possible threats.

(3) The reporting process, as provided in Subsection C of this Section.

C. Each public school governing authority shall develop procedures for reporting potential threats to school safety. The reporting procedures, at a minimum, shall include:

If the information poses an immediate threat, school administrators shall follow procedures provided in R.S. 17:416.16.

§17:416.1. Discipline of pupils; additional disciplinary authority.
A. In addition to the specific disciplinary measures authorized in R.S. 17:416 teachers, principals, and administrators of the public schools may, subject to any rules as may be adopted by the parish or city school board, employ other reasonable disciplinary and corrective measures to maintain order in the schools; provided, however, that nothing in this Section shall be construed as superseding the provisions of R.S. 17:416 relative to the disciplining of students, suspensions, and expulsions.

B.(1)(a) Corporal punishment means using physical force to discipline a student, with or without an object. Corporal punishment includes hitting, paddling, striking, spanking, slapping, or any other physical force that causes pain or physical discomfort.

(b) Corporal punishment does not include:
   (i) The use of reasonable and necessary physical restraint of a student to protect the student, or others, from bodily harm or to obtain possession of a weapon or other dangerous object from a student.
   (ii) The use of seclusion and restraint as provided in R.S. 17:416.21.

Each governing authority of a
public elementary or secondary school shall adopt such rules and regulations as it deems necessary to implement and control any form of corporal punishment in the schools under its jurisdiction.

C. Should any teacher, principal, or administrator in the public school system be sued for damages by any student, the parent of any student or other persons qualified to bring suit on behalf of such student based upon the act or omission of such teacher, principal, or administrator in the directing of and disciplining of school children under their care and supervision, it shall be the responsibility of the school board employing such teacher, principal, or administrator to provide such defendant with a legal defense to such suit including reasonable attorney's fees, investigatory costs, and other related expenses. Should any such teacher, principal, or administrator be cast in judgment for damages in such suit, it shall be the obligation of the school board employing such defendant to indemnify him fully against such judgment including all principal, interest, and costs. Nothing in this Section shall require a school board to indemnify a teacher, principal, or administrator against a judgment wherein there is a specific decree in the judgment that the action of the teacher, principal, or administrator was malicious, and willfully and deliberately intended to cause bodily harm.

(2) As used in this Subsection, "disciplinary action" means an expulsion or suspension from school for ten or more consecutive school days or an assignment to an alternative educational setting for ten or more consecutive school days in accordance with any policy of the school or of the local public school board, limited to expulsions, suspensions, and assignments to alternative educational settings for infractions involving the sale or possession of drugs, alcohol, or any other illegal substance, the possession of a firearm, or an infraction involving assault or battery on a member of the school faculty or staff. The governing authority of any public elementary or secondary school shall promulgate rules and regulations to implement the provisions of this Section.

§17:416.3. Search of students' persons, desks, lockers, other areas; defense of suits against school personnel; indemnification; reporting of implements seized.

A. (1) The parish and city school systems of the state are the exclusive owners of all public school buildings and all desks and lockers within the building assigned to any student and any other area of any public school building or grounds set aside specifically for the personal use of the students. Any teacher, principal, school security guard, or administrator in any parish or city school system of the state may search any building, desk, locker, area, or grounds for evidence that the law, a school rule, or parish or city school board policy has been violated.

(2)(a) The teacher, principal, school security guard, or administrator may search the person of a student or his personal effects when, based on the attendant circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law, a school rule, or a school board policy. Such a search shall be conducted in a manner that is reasonably related to the purpose of the search and not excessively intrusive in light of the age or sex of the student and the nature of the suspected offense.
Random searches with a metal detector of students or their personal effects may be conducted at any time, provided they are conducted without deliberate touching of the student.

B. (1) If any teacher, principal, school security guard, or administrator in the public school system is sued for damages by any student, the parent of any student, or other person qualified to bring suit on behalf of the student, based upon a search of that student's person, desk, locker, or any other area of a school building or grounds set aside specifically for that student's personal use, when the teacher, principal, school security guard, or administrator reasonably believed that the student had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy on his person, or had reasonable belief that such desk, locker, or other area contained such items, or based upon a search using a metal detector, it shall be the responsibility of the school board employing such teacher, principal, school security guard, or administrator to provide the defendant with legal defense, including reasonable attorney's fees, investigatory costs, and other related expenses.

(2) If any such teacher, principal, school security guard, or administrator is cast in judgment for damages in the suit, it shall be the obligation of the school board employing the defendant to indemnify him fully against such judgment, including all principal, interest, and costs.

(3) Nothing in this Section shall require a school board to indemnify a teacher, principal, school security guard, or administrator against a judgment wherein there is a specific finding that the action of the teacher, principal, school security guard, or administrator was maliciously, wilfully, and deliberately intended to harass, embarrass, or intimidate the student.

C. (1)(a) On or before January 1, 1995, each parish and city school board shall adopt a policy that is consistent with Subsection A of this Section to provide for reasonable search and seizure by public school teachers, principals, and other school administrators of students' persons, desks, lockers, or other school areas for evidence that the law, a school rule, or a parish or city school board policy has been violated.

(b) Such policy shall include at a minimum:
   (i) Specification of standards regarding procedures for searching students to prevent excessive intrusion.
   (ii) Specification of standards for retaining and securing confiscated implements and materials.
   (iii) Directions regarding the disposal of implements and materials reported to law enforcement authorities when such authorities notify the principal that the implements and materials need not be retained.
   (iv) Specification of disciplinary action when a principal or designated administrator violates any provision of this Section.

(2)(a) Nothing in this Section shall require defense and/or indemnification by a school board, a principal, or other school administrator for suits regarding search and seizure unless such acts are in accordance with the policy adopted by the school board that employs him, if the policy is declared to be reasonable by a court of competent jurisdiction.

(b) No teacher, principal, school security guard, or administrator shall be held personally liable for any action authorized by this Section and performed in accordance with school board policies adopted pursuant to this Section.

D. (1) Upon the seizure by any public school teacher, principal, school security guard, or administrator of any firearm, bomb, knife, or other implement which can be used as a weapon and the careless use of which might inflict harm or injury or any controlled dangerous substance as defined in R.S. 40:961, the principal or his designated administrator shall report the confiscation of such implement or material to the appropriate law enforcement officials. The principal or his designated administrator may report the confiscation of any other implement or material.
Any implement or material required by Paragraph (1) of this Subsection to be reported to law enforcement officials shall be retained and secured by the school principal in such a manner as to prevent the destruction, alteration, or disappearance of it until such time as the law enforcement authority either takes custody of the implement or material or provides notice to the school principal that it need no longer be retained. In the case that it need not be retained, the school principal shall comply with his school board's policy regarding disposal of the item.

(3) The failure of any principal or designated administrator to report the confiscation of such implement or material or the failure to retain and secure such implement or material shall be reported by the law enforcement authority to the employing school board which shall take disciplinary action pursuant to its policy.

E. The provisions of this Section shall apply to the State Board of Elementary and Secondary Education as it relates to state schools operated by the board in the same way it applies to city and parish school boards.

(2) The governing authority of each public elementary and secondary school shall:

   (a) Conduct a review of the student code of conduct required by this Section and amend the code as may be necessary to assure that the policy prohibiting the bullying of a student by another student specifically addresses the behavior constituting bullying, the effect the behavior has on others, including bystanders, and the disciplinary and criminal consequences, and includes the definition of bullying as provided in Subsection C of this Section.

   (b) Create a program to provide a minimum of four hours of training for new employees who have contact with students and two hours of training each year for all school employees who have contact with students, including bus operators, with respect to bullying. The training shall specifically include the following:

      (i) How to recognize the behaviors defined as bullying in Subsection C of this Section.

      (ii) How to identify students at each grade level in the employee's school who are most likely to become victims of bullying, while not excluding any student from protection from bullying.

      (iii) How to use appropriate intervention and remediation techniques and procedures.

   (b) The pattern of behavior as provided in Paragraph (1) of this Subsection must have the effect of physically harming a student, placing the student in reasonable fear of physical harm, damaging a student's property, placing the student in reasonable fear of damage to the student's property, or must be sufficiently severe, persistent, and pervasive enough to either create an intimidating or threatening educational environment, have the effect of substantially interfering with a student's performance in school, or have the effect of substantially disrupting the orderly operation of the school.

D. The State Board of Elementary and Secondary Education, in collaboration with the state Department of Education, shall develop and adopt rules and regulations to implement the provisions of this Section relative to the procedures and processes to be used to report and investigate bullying and which shall include but not be limited to:

(1) Notice to Students and Parents. - The governing authority of each public elementary and secondary school shall inform each student, orally and in writing at the orientation required under R.S. 17:416.20, of the prohibition against bullying of a student by another student, the nature and consequences of such actions, including the potential criminal consequences and loss of driver's license as provided in R.S. 17:416.1, and the proper process and procedure for reporting any incidents involving such prohibited actions. If additional information is received after the end of the ten-day period, the school principal or his designee shall amend all documents and reports required by this Section to reflect such information.

(c) Appeal.

(iv) If no seat or other placement pursuant to Item (iii) of this Subparagraph is made available within thirty calendar days of the receipt by the superintendent of the request, the parent or legal guardian may request a hearing with the school's governing authority, which shall be public or private at the option of the parent or legal guardian. The school's governing authority shall grant the hearing at the next scheduled meeting or within sixty calendar days, whichever is sooner.

(v) At the end of any school year, the parent or legal guardian may make a request to the governing authority of the school at which the student was enrolled when at least three of the reports were filed to transfer the student back to the school. The governing authority shall make a seat available at the school at which the student was originally enrolled. No other schools shall qualify for transfer under this Subparagraph.

(aa) Compose a written document containing the findings of the investigation, including input from the students' parents or legal guardian, and the decision by the school or school system official. The document shall be placed in the school records of both students.

(bb) Promptly notify the complainant of the findings of the investigation and that remedial action has been taken, if such release of information does not violate the law.

(cc) Keep complaints and investigative reports confidential, except as provided in this Section and where disclosure is required to be made pursuant to 20 U.S.C. 1232g or by other applicable federal laws, rules, or regulations or by state law.

(dd) Maintain complaints and investigative reports for three years in the event that disclosure is warranted by law enforcement officials.

As applicable, provide a copy of any reports and investigative documents to the state Department of Education. Upon receipt, the department shall remove any reports related to the investigative documents from notation on the department’s website, but shall maintain a record of those reports for three years.

E. F. This Section shall not be interpreted to conflict with or supercede the provisions requiring mandatory reporting pursuant to Louisiana Children’s Code Article 609 and as enforced through R.S. 14:403.

G. Preclusion.

(1) This Section shall not be interpreted to prevent a victim of bullying, or his parent or legal guardian, from seeking redress under any other available law, either civil or criminal.

(2) Nothing in this Section is intended to infringe upon the right of a school employee or student to exercise their right of free speech.

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources.
related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

LAWS

§1001. Duties of school boards.
School boards shall perform the following duties.

15-A. School disciplinary policies. When revising the prescribed consequences for violation of the student code of conduct pursuant to subsection 15, paragraph C, a school board shall consider districtwide disciplinary policies that:

A. Focus on positive interventions and expectations and avoid focusing exclusively on unacceptable student behavior. For the purpose of this subsection, "positive interventions" means instructional and environmental supports that are designed to teach students prosocial alternatives to problem behaviors with high rates of positive feedback;

B. Focus on positive and restorative interventions that are consistent with evidence-based practices rather than set punishments for specific behavior and avoid so-called zero-tolerance practices unless specifically required by federal or state laws, rules or regulations. For the purpose of this paragraph, "restorative interventions" means school practices that are designed to strengthen relationships, improve the connection to school and promote a strong sense of accountability and that help students learn from their mistakes, understand the impact of their actions on others and find opportunities to repair the harm they have caused through their misbehavior.

§6554. Prohibition on bullying in public schools.
2. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Alternative discipline" means disciplinary action other than suspension or expulsion from school that is designed to correct and address the root causes of a student's specific misbehavior while retaining
the student in class or school, or restorative school practices to repair the harm done to relationships and persons from the student's misbehavior. "Alternative discipline" includes, but is not limited to:

1. Meeting with the student and the student's parents;
2. Reflective activities, such as requiring the student to write an essay about the student's misbehavior;
3. Mediation when there is mutual conflict between peers, rather than one-way negative behavior, and when both parties freely choose to meet;
4. Counseling;
5. Anger management;
6. Health counseling or intervention;
7. Mental health counseling;
8. Participation in skills building and resolution activities, such as social-emotional cognitive skills building, resolution circles and restorative conferencing;
9. Community service; and
10. In-school detention or suspension, which may take place during lunchtime, after school or on weekends. [...]

5. Adoption of Policy. When revising the policies and procedures it has established to address bullying pursuant to section 1001, subsection 15, paragraph H, a school board shall ensure that its policies and procedures are consistent with the model policy developed or revised by the commissioner pursuant to section 254, subsection 11-A. The policies and procedures must include, but are not limited to:

G. A clear statement that any person who engages in bullying, who is determined to have knowingly and falsely accused another of bullying or who engages in acts of retaliation against a person who reports a suspected incident of bullying is subject to disciplinary actions, which actions may include but are not limited to imposing a series of graduated consequences that include alternative discipline.

§6555. Dangerous behavior prevention and intervention.

2. Report of incident of dangerous behavior. Upon receipt of a report of an incident of dangerous behavior made by a teacher or school staff person, a school administrative unit shall review the reported incident and develop an individualized response plan in accordance with this subsection. The review of the reported incident must be conducted by an administrator and an assigned public school employee. If the report of the incident of dangerous behavior is substantiated, the school administrative unit shall, in consultation with the public school employee who was subjected to the dangerous behavior, if any, develop an individualized response plan to avoid future dangerous behavior, which may include but is not limited to:

D. Restorative practices.

REGULATIONS

05-071 CMR 33.1. Policy and purpose.
This rule establishes standards for the use of physical restraint and seclusion to provide for the safety of all individuals. Physical restraint and seclusion may only be used as an emergency intervention when the behavior of a student presents a risk of injury or harm to the student or others.

05-071 CMR 33.2. Definitions.

1. Aversive procedure means the use of a substance or stimulus, intended to modify behavior, which the person administering it knows or should know is likely to cause physical and/or emotional trauma to a student, even when the substance or stimulus appears to be pleasant or neutral to others. Such substances and stimuli include but are not limited to: infliction of bodily pain, (e.g. hitting, pinching, slapping), water spray, noxious fumes, extreme physical exercise, costumes, or signs.

2. Behavior Intervention Plan (BIP) is a comprehensive plan for managing problem behavior by changing or removing contextual factors that trigger or maintain it, and by strengthening replacement skills.

3. Chemical Restraint is the use of medication, including those administered PRN (as needed), given involuntarily to control student behavior.

6. Dangerous Behavior is behavior that presents a risk of injury or harm to a student or others.

7. Emergency is a sudden, urgent occurrence, usually unexpected but sometimes anticipated, that requires immediate action.

8. Functional Behavioral Assessment (FBA) is a school-based process that includes the parent and, as appropriate, the child, to determine why a child engages in challenging behaviors and how the behavior relates to the child's environment. The term includes direct assessments, indirect assessments and data analysis designed to assist the team to identify and define the problem behavior in concrete terms, identify the contextual factors (including affective and cognitive factors) that contribute to the behavior, and formulate a hypothesis regarding the general conditions under which a behavior usually occurs and the probable consequences that maintain the behavior. Formal documentation of the assessment by appropriately qualified individuals becomes part of the child's educational record.

9. Risk of injury or harm describes a situation in which a student has the means to cause physical harm or injury to self or others and such injury or harm is likely to occur; such that a reasonable and prudent person would take steps to protect the student and others against the risk of such injury or harm.

15. Physical prompt is a teaching technique that involves physical contact with the student and that enables the student to learn or model the physical movement necessary for the development of the desired competency.

16. Physical Restraint is an intervention that restricts a student's freedom of movement or normal access to his or her body, and includes physically moving a student who has not moved voluntarily. Physical restraint does not include:
   A. Physical escort;
   B. Physical prompt;
   C. Physical contact when the purpose of the intervention is to comfort a student and the student voluntarily accepts the contact;
   D. Momentarily deflecting the movement of a student when the student's movement would be destructive, harmful or dangerous to the student or to others;
   E. The use of seat belts, safety belts or similar passenger restraint, when used as intended, during the transportation of a child in a motor vehicle; or
   F. The use of a medically prescribed harness, when used as intended; or

22. Student is a child or adult aged 3 to 20 enrolled in a school or a program owned, operated or controlled by a covered entity as defined in this section.

23. Timeout is an intervention where a student requests, or complies with an adult request for, a break, and is not covered by this rule. Timeout is not seclusion.

05-071 CMR 33.4. Local policy; Notice to parents.

1. Local Policy Required
   All covered entities shall have local policies, consistent with this rule, regarding the use of physical restraint and seclusion. Covered entities must also have a procedure available by which parents may submit a complaint regarding the use of physical restraint or seclusion on their child, based upon which
the covered entity shall investigate the circumstances surrounding the incident complained of, make written findings and, where appropriate, determine to take corrective action.

Covered entities shall revise existing policies or develop policies consistent with this rule within 90 calendar days of the effective date of this rule.

2. Annual notification of rule and local policies

Annually, each covered entity shall provide overview and awareness information to all staff, including contracted providers, regarding the content of this rule and any local policies or procedures related to the use of physical restraint and seclusion.

A. Seclusion may be used only as an emergency intervention when the behavior of a student presents a risk of injury or harm to the student or others, and only after other less intrusive interventions have failed or been deemed inappropriate.

B. Seclusion must be implemented by staff certified in a state-approved training program to the extent possible. If, due to the nature of the emergency, untrained staff have intervened and initiated a seclusion, trained personnel must be summoned to the scene and assume control of the situation as rapidly as possible.

B. Physical restraint must be implemented by staff certified in a state-approved training program to the extent possible. If, due to the nature of the emergency, untrained staff have intervened and initiated a physical restraint and if the need for physical restraint continues, trained personnel must be summoned to the scene and must assume control of the situation as rapidly as possible.

C. Physical restraint may be used to move a student only if the need for movement outweighs the risks involved in such movement.

D. Protective equipment or devices that are part of a treatment plan as prescribed by a licensed health care provider are not prohibited by this rule.

2. Prohibited forms and uses of physical restraint

A. Physical restraint may not be used for punitive purposes, staff convenience or to control challenging behavior.

unavailable, a phone message must be left for the parent to contact the school as soon as possible. If a
parent does not have access to a phone, the entity must use whatever contact information is available
for emergencies. The parent must be informed that written documentation will be provided to them

3. Duration of Incident

For purposes of this Section and Section 9, an "incident" consists of all actions between the time a student begins to create a risk of harm and the time the student ceases to pose a risk of harm and returns to his or her regular programming.

05-071 CMR 33.9. Response to the use of physical restraint or seclusion.

1. Debriefing
A. Following each incident of physical restraint or seclusion, the covered entity shall ensure that, within two school days, an administrator or designee reviews the incident:

   (a) What triggered the student's escalation; and
   (b) What the student and staff can do to reduce the future need for restraint or seclusion.

B. When physical restraint or seclusion has resulted in serious bodily injury to a student or staff member requiring emergency medical treatment, the debriefing must take place as soon as possible but no later than the next school day.

C. Following the debriefing, staff must develop and implement a written plan for response and de-escalation for the student, or, if a plan already exists, staff must review and, if appropriate, revise it.

2. Multiple Incidents of Physical Restraint and Seclusion

A. Special Education/504 Students after Third Incident. After the third incident of physical restraint or seclusion in a school year of a student who has been found eligible for special education or has a Section 504 plan, the student's IEP or 504 team shall meet within 10 school days of the third incident to discuss the incident and consider the need to conduct an FBA and/or develop a BIP or amend an existing one.

   (1) The team shall consist of the parent, an administrator or designee, a teacher for the student, a staff member involved in the incident (if not the teacher or administrator already invited), and other appropriate staff members.

   (2) The team shall consider the appropriateness of a referral to special education and, regardless of whether a referral to special education is to be made, the need to conduct an FBA, and/or develop a BIP.

C. Nothing in this section is meant to prevent the completion of an FBA or BIP for any student who might benefit from these measures but who has had fewer than three restraints or seclusions.

3. Parent Participation

The covered entity shall make reasonable, documented efforts to encourage parent participation in the meetings required in subsection 2 of this section and to schedule them at times convenient for parents to attend.

A covered entity may not seek written permission from a parent to provide restraint and seclusion to a student.

For purposes of this Section, the time period described in Section 8 (3) constitutes a single incident.

05-071 CMR 33.10. Cumulative reporting.

1. Building-level reporting, analysis

A cumulative report by building must be made to the superintendent or chief administrator on a quarterly and annual basis to include:

   A. Aggregate number of uses of physical restraint;
B. Aggregate number of students placed in physical restraint;
C. Aggregate number of uses of seclusion;
D. Aggregate number of students placed in seclusion;

The superintendent or chief administrator shall review cumulative reports received as set forth in this section and identify those areas that can be addressed to reduce the future use of physical restraint and seclusion. These cumulative reports may be requested by the Department of Education at any time.

2. Reporting Data to the Department of Education
Each covered entity shall submit to the Department of Education an annual report of the incidence of physical restraint and seclusion that must include:

A. Aggregate number of uses of physical restraint;
B. Aggregate number of students placed in physical restraint;

The Department shall review the results of the local complaint process and may initiate its own investigation of the complaint, and shall issue to the complaining parent and the covered entity a written report with specific findings within 60 days of receiving the complaint. If a violation is found, the Department shall develop a corrective action plan by which the entity will achieve compliance.

05-071 CMR 33.12. Staff training; Approved programs.
The Department of Education shall maintain a directory of approved training programs on its website at http://maine.gov/education/. The list of approved training programs may include regional training programs and regional “train the trainer” model programs. These training programs must require participants to demonstrate competency to achieve certification, and must include instruction in at least the following core components:

1. The use of non-physical interventions for responding to potentially dangerous behaviors, including de-escalation and the use of positive alternatives;
2. Identification of dangerous behaviors that may indicate the need for physical restraint or seclusion and methods for evaluating the risk of harm to determine whether such interventions are warranted;
3. Instruction and simulated experience in administering safe physical restraint techniques across a range of increasingly restrictive interventions, including the safe movement of a student, and in
recognizing and avoiding positions involving a high risk of restraint-related positional asphyxia (restricting a student's ability to breathe);
4. The effects of physical restraint and seclusion on a student, including monitoring physical and psychological signs of distress and when to obtain medical assistance in compliance with the covered entity's procedures for emergency interventions;
5. The risks and realities of physical restraint and seclusion; and
6. A review of the process of student and staff debriefing.

Each covered entity shall ensure that a sufficient number of administrators or designees, general and special education staff, maintain certification in an approved training program. A list of staff with the required approved training must be made available in each building office, as well as any central office, along with other school-wide emergency procedures and must be updated at least annually.

The Department shall annually ensure that teachers and administrators throughout the State are provided with consistent and accurate information regarding the requirements of this rule.

REGULATIONS

05-071 CMR 127.3. General requirements K-12.
Each school administrative unit shall provide programs and instructional approaches that support the variety of learning styles of the students in the schools of the unit. The school board shall adopt a policy that provides all students with equitable opportunities to access the content standards of the system of Learning Results.

3.04 Alternative Programs
A. Role of Alternative Programs
A school administrative unit may establish or participate in one or more programs as alternatives to the regular course of study to meet the needs of students at risk. Alternative programs shall support student social and behavioral development in addition to performance on the content standards of the system of Learning Results.

These programs shall have stated goals, objectives, and procedures for implementing and assessing their effectiveness. Such programs may include interventions such as programs outside the school administrative unit, specialized instructional settings, extended or shortened school day, or extended school year, and may be scheduled outside of the regular school day, if appropriate.

B. Procedural Requirements
School administrative units shall develop a Personal Learning Plan, aligned with the system of Learning Results, for every K-12 student enrolled in an alternative program. Each Personal Learning Plan shall include, but not be limited to, the following components:

1). A description of the student's academic strengths and the observable or measurable areas in need of improvement.

2). A description of the annual educational goals, aligned with the content standards and performance indicators of the system of Learning Results, that the student may reasonably be expected to achieve during the school year.

3). A description of short-term instructional objectives leading to each annual educational goal.

4). A description of the social and behavioral needs that must be addressed for the student to achieve academic success, including strategies to keep the student in school.

5). A description of the multiple measures that will provide evidence that the student has achieved each goal.

6). For secondary school students, a description of the student's career goals and transitional steps to achieve them.

05-071 CMR 128.1. Intent.
Generally, the intent of L.D. 1851 is to require school officials to give increased attention to those pupils who are habitual truants and dropouts. Such attention will include record keeping relative to the actual numbers of pupils who are, by definition, habitual truants and dropouts; determining the reasons for each occurrence; providing appropriate alternative programs designed to promote these pupils' return to school; and providing appropriate alternative programs designed to prevent pupils from becoming habitual truants and dropouts.
05-071 CMR 128.13. Developing alternative programs.
The legislation encourages school units to establish alternative programs for dropouts and chronic (habitual) truants. Although the word "encouraged" is used, the primary intent of the legislation is to provide school units with the authority to establish programs for the identified pupils.

When developing alternative programs, local school officials should give consideration to the following questions:

A. Do the programs provide for academic and non-academic pursuits in accordance with the needs of the individual student?
B. Do the programs include that which is necessary for meeting curriculum and graduation requirements provided by statute or local board policy?
C. Do the programs provide adequate instructional time equivalent to that required for regular school programs?
D. Are adequate instructional materials provided?
E. Can the programs be evaluated in terms of meeting stated objectives?

Alternative programs may be developed and conducted under the direction of local school officials and may become operative within present school facilities during the regular school day. Likewise, alternative programs may be operated under the direction of local school officials outside the regular school facilities and school day. Regardless of which approach is followed, criteria should be developed to determine pupil eligibility for participation in these programs. A description of locally developed alternative programs is to be filed with this Department and the reporting process can be accomplished by using the data collection form.

It is possible that alternative programs may already exist or could be developed completely apart from local school jurisdiction. These programs could be operated by private individuals, groups, or agencies. If programs operated outside the school by private individuals, groups, or agencies seem appropriate in meeting the needs of the pupil, criteria for the programs should be developed by the local school officials and they should serve as a guide for the local approval of these programs. Such criteria should include the following:

A. The instruction is provided by qualified individuals. The qualifications might be evidenced by a valid teaching credential, a valid license (trade, etc.) in the area of content being presented, or expertise gained through long experience in the content of the specific program (adult education programs).
B. The quality of instruction is equivalent to that provided in the regular public school.
C. The facilities housing the program meet all fire safety, health, and sanitation standards.
D. The program is designed to provide adequate instructional time to meet its stated objectives.
E. There is provision for program evaluation.

Any alternative programs developed under this legislation shall be submitted to the local school board for approval.

05-071 CMR 128.14. Units unable to provide alternative programs.
In the legislation, provision is made for schools unable to provide an alternative program for chronic (habitual) truants and dropouts. In this instance, schools may tuition pupils to neighboring administrative units or to private schools; it is necessary that policies and procedures be developed to accommodate this practice. All receiving schools must be approved by this office under the basic school approval program.

Record keeping procedures should be locally developed for maintaining records of pupils enrolled in alternative programs on the basis of .1 pupil for each semester credit course or its equivalent leading
toward a high school graduation. Such records will also be necessary for pupils tuitioned to neighboring units or private schools. Any pupil enrolled in an alternative program shall be counted on the rolls of the sending unit for subsidy purposes. No pupil shall be counted in the aggregate as more than 1.0.

05-071 CMR 128.16. Parental approval of alternative programs.
Regardless of what type of alternative program arrangement is determined for each individual pupil, local school officials should prepare a form for parents to sign to approve the alternative arrangement. Parents should be included in the total process and should provide evidence to the school officials that they understand what has taken place.

   (b) Takes place outside of regular school hours; and
   (c) Is authorized by the school board.

C. The prohibition on possession and discharge of a firearm does not apply to a person possessing a firearm at a school-operated gun range or a person discharging a firearm as part of a school-sanctioned program at a school-operated gun range if the gun range and the program are authorized by a written policy adopted by the school's governing body.

REGULATIONS

05-071 CMR 128.1. Intent.
Generally, the intent of L.D. 1851 is to require school officials to give increased attention to those pupils who are habitual truants and dropouts. Such attention will include record keeping relative to the actual numbers of pupils who are, by definition, habitual truants and dropouts; determining the reasons for each occurrence; providing appropriate alternative programs designed to promote these pupils' return to school; and providing appropriate alternative programs designed to prevent pupils from becoming habitual truants and dropouts.

05-071 CMR 128.4. Recording unexcused absences.
It will be necessary to give attention to more specific documentation of pupils' unexcused absences. Pertinent items relative to this are as follows:

A. The record-keeping process must begin immediately following the first unexcused absence.
B. The date of the unexcused absence is to be recorded.
C. Information is to be documented indicating what steps were taken to determine the reason(s) for the unexcused absence.

All public and private schools shall obtain and maintain this information on all truants whether they are educated at public or private expense.

05-071 CMR 128.5. Documentation relating to habitual truants.
Once a child has become habitually truant as defined in 20 MRSA 914, the procedures adopted in 20 MRSA 911, sub-section 5, shall be adhered to. Attention must be given to regulations concerning confidentiality.

(n1) A truant is a child who has an unexcused absence of one-half day or more.

(n2) A child is determined to be an habitual truant if he is absent from school the equivalent of 10 full days or for one-half of a day on 7 consecutive school days within any 6-month period for other than an excusable absence as referred to in Section 911.

05-071 CMR 128.6. Tuition students.
Local school administrative units are responsible for providing education for all children of compulsory school age who legally reside within the geographical area of the units. If any child attends school outside the unit of legal residence and becomes truant in the receiving school, the superintendent or principal of the receiving school unit must notify the superintendent of the sending school unit and it becomes the responsibility of the sending unit to locate the truant child.

Once a child becomes an habitual truant, the principal of the public or private school of attendance shall forward to the superintendent of the sending unit all information relative to the unexcused absences of the habitual truant and which has been maintained on file. It then becomes the responsibility of the superintendent and school board to follow the procedures as outlined in the legislation.

05-071 CMR 128.12. School board policies required.
You will note on the first page of Section 911, sub-section 5, the statement requiring local boards to promulgate rules and regulations and to file a copy of these with the Commissioner. Such rules and regulations will be included in school board policies on the subjects identified in the legislation. It is expected that many of the needed policies are already in existence, but it may be necessary to adopt additional policies. Once all appropriate local policies have been adopted, these would become the rules.
and regulations required. The set of policies must then be submitted to the Commissioner prior to October 1, 1978. Any subsequent policy changes must be submitted upon adoption.

From a review of this legislation, it is apparent that policies are needed in the following areas:

A. Excused absences - Although excused absences are specifically identified in the legislation, policies are needed to provide guidance to local administrators.

B. Unexcused absences - All absences that are not included in # 1 above are unexcused absences.

C. Information required to be maintained on truant pupils
   1. What to collect
   2. How to maintain
   3. Adherence to confidentiality

D. Procedures for referral of truancy matters from the principal to the superintendent.

E. Procedures for referral of truancy matters from the superintendent to the school board.

F. Procedures for notification of parents regarding hearing before the school board.

G. Procedures for waiving of compulsory attendance and for parent appeal if attendance is waived.

H. Procedures for bringing legal action against the parent under sub-section 8 of 20 MRSA 911.

I. Procedures for pupil to obtain work permit.

J. Procedures for excusing 14 year-old pupil for "suitable program of work, work study or training" and procedures for involving pupil in program selection.

It is possible that some policies addressing the preceding areas are already in effect through the Positive Action Committee Dropout Plan. You are, therefore, reminded to coordinate the development of the rules and regulations required under this legislation with the local plan for dealing with dropouts which is required by statute (20 MRSA 931-933).

05-071 CMR 128.13. Developing alternative programs.
The legislation encourages school units to establish alternative programs for dropouts and chronic (habitual) truants. Although the word "encouraged" is used, the primary intent of the legislation is to provide school units with the authority to establish programs for the identified pupils.

05-071 CMR 128.14. Units unable to provide alternative programs.
In the legislation, provision is made for schools unable to provide an alternative program for chronic (habitual) truants and dropouts. In this instance, schools may tuition pupils to neighboring administrative units or to private schools; it is necessary that policies and procedures be developed to accommodate this practice. All receiving schools must be approved by this office under the basic school approval program.

Record keeping procedures should be locally developed for maintaining records of pupils enrolled in alternative programs on the basis of .1 pupil for each semester credit course or its equivalent leading toward a high school graduation. Such records will also be necessary for pupils tuitioned to neighboring units or private schools. Any pupil enrolled in an alternative program shall be counted on the rolls of the sending unit for subsidy purposes. No pupil shall be counted in the aggregate as more than 1.0.

A student may be readmitted on satisfactory evidence that the behavior that was the cause of the student being expelled will not likely recur. The school board may authorize the principal to suspend students up to a maximum of 10 days for infractions of school rules. In addition to other powers and duties under this subsection, the school board may develop a policy requiring a student who is in violation of school substance use or possession rules to participate in substance use disorder services as provided in section 6606. A student participating in interscholastic sports may not use a performance-enhancing substance on the list of banned substances developed and maintained under section 6621. A student who violates this section is subject to sanctions as determined by the governing body with statutory powers and duties for the school administrative unit in which that student is enrolled.

A. Takes place at school or on school grounds, at any school-sponsored or school-related activity or event or while students are being transported to or from school or school-sponsored activities or events; or

15-A. School disciplinary policies. When revising the prescribed consequences for violation of the student code of conduct pursuant to subsection 15, paragraph C, a school board shall consider districtwide disciplinary policies that:

For the purpose of this subsection, “positive interventions” means instructional and environmental supports that are designed to teach students prosocial alternatives to problem behaviors with high rates of positive feedback;

   B. Focus on positive and restorative interventions that are consistent with evidence-based practices rather than set punishments for specific behavior and avoid so-called zero-tolerance practices unless specifically required by federal or state laws, rules or regulations. For the purpose of this paragraph, “restorative interventions” means school practices that are designed to strengthen relationships, improve the connection to school and promote a strong sense of accountability and that help students learn from their mistakes, understand the impact of their actions on others and find opportunities to repair the harm they have caused through their misbehavior;

REGULATIONS

05-071 CMR 125.5. Other minimum requirements.

5.18 Multi-tiered System of Support

All school administrative units are required to develop and implement a multi-tiered system of support, kindergarten to grade 12, that provides each child with differentiated learning experiences and/or assistance to achieve social and emotional development, meet the content standards of the system of Learning Results, and graduation requirements. These supports must be specific, timely, and based upon ongoing formative assessments that continuously monitor student progress. Public Law 2019, Chapter 219.

A multi-tiered system of support has three distinct levels of intervention available to general education students:

   Tier I - Universal Supports. This tier begins with the implementation of core, curriculum, including strategies to assist student development and learning. Typically, these supports are differentiated
based on student need and provided to all students within the classroom. Tier I supports continue when Tier II or Tier III interventions are added.

**Tier II - Targeted Supports.** Supplemental instruction or supports provided to students in addition to Tier 1. These may be provided by qualified staff, including, but not limited to, the classroom teacher, an intervention specialist, or an authorized Educational Technician. Targeted support may involve more intensive practice and/or monitoring of regular classroom activities.

**Tier III - Intensive Supports.** Intensive instruction or supports provided to students through small group or one-to-one interventions, within the classroom or through an individualized environment, with an increased focus on teaching specific skills.

While there may be variations in how school administrative units develop and implement a multi-tiered system of support, the systems must include:

- Assurance that every child is provided with evidence-based core (Tier 1) academic instruction and positive behavioral and social/emotional supports;
- A collection of evidence-based, academic, behavioral, and social/emotional Tier II and III interventions that are available for students who need them;
- A team-based process to review children's progress and evaluate whether students who are struggling in any academic, behavioral, or social/emotional area may need more intensive Tier II or III support;
- A consistent process of valid, reliable, and age appropriate screening and progress monitoring to evaluate student progress at all tiers;
- A method to determine whether a child's assessed challenges are likely the result of trauma, linguistic, and/or cultural experiences;
- A mechanism for including parents in decision-making about a child's potential participation in Tier II or III activities; and

- Provisions for supports to continue during any subsequent special education referral.

The parent may request that a full and individual evaluation for possible special education eligibility determination be conducted at any time during the multi-tiered system of support review process.

**Prevention**

**LAWS**

**§262. Violence prevention and intervention.**

The commissioner shall provide technical assistance to school administrative units that request assistance in the provision of violence prevention and intervention training programs for teachers, school staff and students. The assistance must emphasize conflict resolution education, peer mediation and early identification and response to signs of violence.

**§1001. Duties of school boards.**

School boards shall perform the following duties.

15-A. School disciplinary policies. When revising the prescribed consequences for violation of the student code of conduct pursuant to subsection 15, paragraph C, a school board shall consider districtwide disciplinary policies that:

- Focus on positive interventions and expectations and avoid focusing exclusively on unacceptable student behavior. For the purpose of this subsection, "positive interventions" means instructional and
environmental supports that are designed to teach students prosocial alternatives to problem behaviors with high rates of positive feedback;

B. Focus on positive and restorative interventions that are consistent with evidence-based practices rather than set punishments for specific behavior and avoid so-called zero-tolerance practices unless specifically required by federal or state laws, rules or regulations. For the purpose of this paragraph, "restorative interventions" means school practices that are designed to strengthen relationships, improve the connection to school and promote a strong sense of accountability and that help students learn from their mistakes, understand the impact of their actions on others and find opportunities to repair the harm they have caused through their misbehavior.

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

pertaining to the conduct of students. The student handbook shall include an age-appropriate summary of
the student-related sections of the bullying prevention and intervention plan required by section 37O. The
school council shall review the student handbook each spring to consider changes in disciplinary policy to
take effect in September of the following school year, but may consider policy changes at any time. The
annual review shall cover all areas of student conduct, including but not limited to those outlined in this
section.

Notwithstanding any general or special law to the contrary, all student handbooks shall contain the
following provisions:

(a) Any student who is found on school premises or at school-sponsored or school-related events,
including athletic games, in possession of a dangerous weapon, including, but not limited to, a gun or a
knife; or a controlled substance as defined in chapter ninety-four C, including, but not limited to,
marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the
principal.

(b) Any student who assaults a principal, assistant principal, teacher, teacher's aide or other
educational staff on school premises or at school-sponsored or school-related events, including athletic
games, may be subject to expulsion from the school or school district by the principal.

(c) Any student who is charged with a violation of either paragraph (a) or (b) shall be notified in writing
of an opportunity for a hearing; provided, however, that the student may have representation, along with
the opportunity to present evidence and witnesses at said hearing before the principal.
After said hearing, a principal may, in his discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a) or (b).

(d) Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the superintendent. The expelled student shall have ten days from the date of the expulsion in which to notify the superintendent of his appeal. The student has the right to counsel at a hearing before the superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student has violated any provisions of this section.

(e) Any school district that suspends or expels a student under this section shall continue to provide educational services to the student during the period of suspension or expulsion, under section 21 of chapter 76. If the student moves to another district during the period of suspension or expulsion, the new district of residence shall either admit the student to its schools or provide educational services to the student in an education service plan, under section 21 of chapter 76.

(f) Districts shall report to the department of elementary and secondary education the specific reasons for all suspensions and expulsions, regardless of duration or type, in a manner and form established by the commissioner. The department of elementary and secondary education shall use its existing data collection tools to obtain this information from districts and shall modify those tools, as necessary, to obtain the information. On an annual basis, the department of elementary and secondary education shall make district level de-identified data and analysis, including the total number of days each student is excluded during the school year, available to the public online in a machine readable format. This report shall include district level data disaggregated by student status and categories established by the commissioner.

(g) Under the regulations promulgated by the department, for each school that suspends or expels a significant number of students for more than 10 cumulative days in a school year, the commissioner shall investigate and, as appropriate, shall recommend models that incorporate intermediary steps prior to the use of suspension or expulsion. The results of the analysis shall be publicly reported at the school district level.

Alternatives to Suspension

LAWS

ALM GL ch. 71, § 37H3/4. Suspension or expulsion on grounds other than those set forth in Sections 37H or 37H1/2.

(b) Any principal, headmaster, superintendent or other person acting as a decision-maker at a student meeting or hearing, when deciding the consequences for the student, shall exercise discretion; consider
ways to re-engage the student in the learning process; and avoid using expulsion as a consequence until other remedies and consequences have been employed.

REGULATIONS

603 CMR 53.02. Definitions.
In-school Suspension means removal of a student from regular classroom activities, but not from the school premises, for no more than ten consecutive school days, or no more than ten school days cumulatively for multiple infractions during the school year. Removal solely from participation in extracurricular activities or school-sponsored events, or both, shall not count as removal in calculating school days. In-school suspension for ten days or less, consecutively or cumulatively during a school year, shall not be considered a short-term suspension under these regulations. If a student is placed in in-school suspension for more than ten days, consecutively or cumulatively during a school year, such suspension shall be deemed a long-term suspension for due process, appeal, and reporting purposes.

603 CMR 53.05. Alternatives to suspension under M.G.L. c. 71, § 37H¾.
In every case of student misconduct for which suspension may be imposed, a principal shall exercise discretion in deciding the consequence for the offense; consider ways to reengage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive interventions and supports.

603 CMR 53.10. In-school suspension under M.G.L. c. 71, § 37H¾.
(1) The principal may use in-school suspension as an alternative to short-term suspension for disciplinary offenses.

(2) The principal may impose an in-school suspension for a disciplinary offense under 603 CMR 53.10, provided that the principal follows the process set forth in 603 CMR 53.10(3) through (5) and the student has the opportunity to make academic progress as set forth in 603 CMR 53.13(1).

Corporal Punishment

LAWS

ALM GL ch. 71, § 37G. Corporal punishment of pupils prohibited; use of physical restraint; regulations.

(a) The power of the school committee or of any teacher or any other employee or agent of the school committee to maintain discipline upon school property shall not include the right to inflict corporal punishment upon any pupil.

(b) The provisions of this section shall not preclude any member of the school committee or any teacher or any employee or agent of the school committee from using such reasonable force as is necessary to protect pupils, other persons, and themselves from an assault by a pupil. When such an assault has occurred, the principal shall file a detailed report of such with the school committee.

LAWS

ALM GL ch. 71, § 37G. Corporal punishment of pupils prohibited; use of physical restraint; regulations.

(c) The board of education shall promulgate regulations regarding the use of physical restraint for students. Such regulations shall not preclude any teacher or employee or agent of the school from using reasonable force to protect pupils, other persons and themselves from an assault by a pupil as set forth above in section (b). Such regulations shall require training of all personnel authorized to administer any forms of restraint. Such regulations shall provide for procedures for notification to the department and to the parents.

REGULATIONS

603 CMR 18.05. Required policies and procedures.

(1) Admissions.

(b) Prior to admission, the school shall provide to the parents and the local school district a written copy of the school's policies and procedures, including:

7. Methods of behavior support, violence prevention, discipline, management of harmful behavior by a student to himself or herself or others, and proper use of restraints as described in 603 CMR 18.05(5). […]

(5) Behavior Support.

(a) Each school shall provide a written statement of the rules, policies and procedures for the behavior support of students. The statement shall contain a description of the safeguards for the emotional, physical and psychological well-being of the population served; measures for positive responses to appropriate behavior; and definition and explanation of behavior management procedures used in the facility including, where applicable:

1. Methods of assessing and monitoring students' progress in the program;
2. The type and range of restrictions a staff member can impose for behavior which is unacceptable;
3. The type of restraint used in an emergency situation of last resort; the array of interventions used as alternatives to restraint; and the controls on the misuse and abuse of restraint;
4. The use of the behavioral support strategy of time-out;
5. Any denial or restrictions of on-grounds program services.

(b) Students shall participate in the establishment of such rules, policies and procedures whenever feasible and appropriate.

(c) Prior to admission, the school shall provide students and parents with a written copy of its behavior support policy.

(d) The school shall inform parents and students of any significant changes in the behavior management procedures.

3. Punishments which subject the student to verbal abuse, ridicule or humiliation;
4. Denial of visitation or communication privileges with family;
5. Denial of sufficient sleep;
6. Denial of shelter, bedding, food or bathroom facilities.

(f) The goal of behavior support shall be to maximize the growth and development of the student and to protect the group and the individuals in it.

(g) The school shall directly relate consequences to the specific misbehavior and shall apply such consequences without prolonged delay.

(h) Day educational programs approved under 603 CMR 28.09: Approval of Public or Private Day and Residential Special Education School Programs shall develop a policy on the use of physical restraint and administer physical restraint in accordance with the requirements of 603 CMR 46.00: Physical Restraint. Residential educational programs approved under 603 CMR 28.09: Approval of Public or Private Day and Residential Special Education School Programs shall comply with the requirements contained in 102 CMR 3.00: Standards for the Licensure or Approval of Residential Programs Serving Children and Teen Parents except for the school day, during which the requirements of 603 CMR 46.00: Physical Restraint shall apply for students enrolled in such programs. Educational programs within a program or facility subject to M.G.L. c. 123 or Department of Mental Health Regulations shall comply with the restraint requirements of M.G.L. c. 123, 104 CMR 27.12: Prevention of Restraint and Seclusion and Requirements When Used or 104 CMR 28.05: Physical Restraint, as applicable.

(i) Any behavior support policy which results in a student being separated in a room apart from the group or program activities shall include, but not be limited to, the following:
   1. Guidelines for staff in the utilization of such an area;
   2. Persons responsible for implementing such procedures;
   3. The duration of the procedures including procedures for approval by the chief administrative person or his or her designee for any period longer than 30 minutes, except that during the school day in a residential educational program, and in a day educational program approved under 603 CMR 28.09: Approval of Public or Private Day and Residential Special Education School Programs, the duration of the procedures shall be governed by 603 CMR 46.00: Physical Restraint;
   4. Requirement that students shall be observable at all times and in all parts of the room, and that the staff shall be in close proximity at all times;
   5. A procedure for staff to directly observe the student at least every 15 minutes;
   6. A means of documenting the use of such area including, at a minimum, length of time, reasons for this intervention, who approved the procedure, and who directly observed the student at least every 15 minutes.
      a. Time out rooms shall not be locked.
      b. Any room or space used for the practice of separation must be physically safe and appropriate to the population served by the facility.

603 CMR 46.01. Authority, scope, purpose and construction.

(1) Scope. 603 CMR 46.00 governs the use of physical restraint on students in publicly funded elementary and secondary education programs, including all Massachusetts public school districts, charter schools, virtual schools, collaborative education programs, and the school day of special education schools approved under 603 CMR 28.09: Approval of Public or Private Day and Residential Special Education School Programs, as provided in 603 CMR 18.05(5)(h). Educational programs in facilities operated by the Department of Youth Services, the Department of Mental Health, the
Department of Public Health, or County Houses of Correction shall be governed by the restraint, seclusion, and time-out requirements of such agencies.

(2) Purpose. The purpose of 603 CMR 46.00 is to ensure that every student participating in a Massachusetts public education program is free from the use of physical restraint that is inconsistent with 603 CMR 46.00. Physical restraint shall be used only in emergency situations of last resort, after other lawful and less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution. School personnel shall use physical restraint with two goals in mind:

(a) To administer a physical restraint only when needed to protect a student and/or a member of the school community from assault or imminent, serious, physical harm; and

(b) To prevent or minimize any harm to the student as a result of the use of physical restraint.

(3) Construction. Nothing in 603 CMR 46.00 shall be construed to limit the protection afforded publicly funded students under other state or federal laws, including those laws that provide for the rights of students who have been found eligible to receive special education services. Nothing in 603 CMR 46.00 precludes any teacher, employee or agent of a public education program from using reasonable force to protect students, other persons or themselves from assault or imminent, serious, physical harm.

603 CMR 46.02. Definitions.

As used in 603 CMR 46.00, the following terms shall have the following meanings:

Mechanical Restraint shall mean the use of any physical device or equipment to restrict a student's freedom of the movement. Mechanical Restraint does not include devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional, and are used for the specific and approved positioning or protective purposes for which such devices were designed. Examples of such devices include: adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports; vehicle safety restraints when used as intended during the transport of a student in a moving vehicle; restraints for medical immobilization; or orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

Medication Restraint shall mean the administration of medication for the purpose of temporarily controlling behavior. Medication prescribed by a licensed physician and authorized by the parent for administration in the school setting is not medication restraint.

Physical Restraint shall mean direct physical contact that prevents or significantly restricts a student's freedom of movement. Physical restraint does not include: brief physical contact to promote student safety, providing physical guidance or prompting when teaching a skill, redirecting attention, providing comfort, or a physical escort.

Prone Restraint shall mean a physical restraint in which a student is placed face down on the floor or another surface, and physical pressure is applied to the student's body to keep the student in the face-down position.

Seclusion shall mean the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. Seclusion does not include a time-out as defined in 603 CMR 46.02.

Time-out shall mean a behavioral support strategy developed pursuant to 603 CMR 46.04(1) in which a student temporarily separates from the learning activity or the classroom, either by choice or by direction from staff, for the purpose of calming. During time-out, a student must be continuously observed by a staff member. Staff shall be with the student or immediately available to the student at all times. The space
used for time-out must be clean, safe, sanitary, and appropriate for the purpose of calming. Time-out shall cease as soon as the student has calmed.

603 CMR 46.03. Use of restraint.

(1) Prohibition.

(a) Mechanical restraint, medication restraint, and seclusion shall be prohibited in public education programs.

(b) Prone restraint shall be prohibited in public education programs except on an individual student basis, and only under the following circumstances:

1. The student has a documented history of repeatedly causing serious self-injuries and/or injuries to other students or staff;

2. All other forms of physical restraints have failed to ensure the safety of the student and/or the safety of others;

3. There are no medical contraindications as documented by a licensed physician;

4. There is psychological or behavioral justification for the use of prone restraint and there are no psychological or behavioral contraindications, as documented by a licensed mental health professional;

5. The program has obtained consent to use prone restraint in an emergency as set out in 603 CMR 46.03(1)(b), and such use has been approved in writing by the principal; and,

6. The program has documented 603 CMR 46.03(1)(b)1. through 5. in advance of the use of prone restraint and maintains the documentation.

(c) Physical restraint, including prone restraint where permitted, shall be considered an emergency procedure of last resort and shall be prohibited in public education programs except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to self or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions, or such interventions are deemed to be inappropriate under the circumstances.

(d) All physical restraints, including prone restraint where permitted, shall be administered in compliance with 603 CMR 46.05.

(2) Physical restraint shall not be used:

(a) As a means of discipline or punishment;

(b) When the student cannot be safely restrained because it is medically contraindicated for reasons including but not limited to asthma, seizures, cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting;

(c) As a response to property destruction, disruption of school order, a student's refusal to comply with a public education program rule or staff directive, or verbal threats when those actions do not constitute a threat of assault, or imminent, serious, physical harm; or

(d) As a standard response for any individual student. No written individual behavior plan or individualized education program (IEP) may include use of physical restraint as a standard response to any behavior. Physical restraint is an emergency procedure of last resort.

(3) Limitations on Use of Restraint. Physical restraint in a public education program shall be limited to the use of such reasonable force as is necessary to protect a student or another member of the school community from assault or imminent, serious, physical harm.

(4) Referral to Law Enforcement or Other State Agencies. Nothing in 603 CMR 46.00 prohibits:

(a) The right of any individual to report to appropriate authorities a crime committed by a student or other individual;
(b) Law enforcement, judicial authorities or school security personnel from exercising their responsibilities, including the physical detainment of a student or other person alleged to have committed a crime or posing a security risk; or

(c) The exercise of an individual's responsibilities as a mandated reporter pursuant to M.G.L. c. 119, § 51A. 603 CMR 46.00 shall not be used to deter any individual from reporting neglect or abuse to the appropriate state agency.

603 CMR 46.04. Policy and procedures; Training.

(1) Procedures. Public education programs shall develop and implement written restraint prevention and behavior support policy and procedures consistent with 603 CMR 46.00 regarding appropriate responses to student behavior that may require immediate intervention. Such policy and procedures shall be annually reviewed and provided to program staff and made available to parents of enrolled students. Such policy and procedures shall include, but not be limited to:

(a) Methods for preventing student violence, self-injurious behavior, and suicide, including individual crisis planning and de-escalation of potentially dangerous behavior occurring among groups of students or with an individual student;

(b) Methods for engaging parents and youth in discussions about restraint prevention and the use of restraint solely as an emergency procedure;

(c) A description and explanation of the program's alternatives to physical restraint and method of physical restraint in emergency situations;

(d) A statement prohibiting: medication restraint, mechanical restraint, prone restraint unless permitted pursuant to 603 CMR 46.03(1)(b), seclusion, and the use of physical restraint in a manner inconsistent with 603 CMR 46.00;

(e) A description of the program's training requirements, reporting requirements, and follow-up procedures;

(f) A procedure for receiving and investigating complaints regarding restraint practices;

(g) A procedure for conducting periodic review of data and documentation on the use of physical restraints as described in 603 CMR 46.06(5) and (6);

(h) A procedure for implementing the reporting requirements as described in 603 CMR 46.06;

(i) A procedure for making reasonable efforts to orally notify a parent of the use of restraint on a student within 24 hours of the restraint, and for sending written notification to the parent within three school working days following the use of restraint to an email address provided by the parent for the purpose of communicating about the student, or by regular mail to the parent postmarked within three school working days of the restraint; and

(j) If the program uses time-out as a behavioral support strategy, a procedure for the use of time-out that includes a process for obtaining principal approval of time-out for more than 30 minutes based on the individual student's continuing agitation.

(2) Required Training for All Staff. Each principal or director shall determine a time and method to provide all program staff with training regarding the program's restraint prevention and behavior support policy and requirements when restraint is used. Such training shall occur within the first month of each school year and, for employees hired after the school year begins, within a month of their employment. Training shall include information on the following:

(a) The role of the student, family, and staff in preventing restraint;

(b) The program's restraint prevention and behavior support policy and procedures, including use of time-out as a behavior support strategy distinct from seclusion;
(c) Interventions that may preclude the need for restraint, including de-escalation of problematic behaviors and other alternatives to restraint in emergency circumstances;

(d) When behavior presents an emergency that requires physical restraint, the types of permitted physical restraints and related safety considerations, including information regarding the increased risk of injury to a student when any restraint is used, in particular a restraint of extended duration;

(e) Administering physical restraint in accordance with medical or psychological limitations, known or suspected trauma history, and/or behavioral intervention plans applicable to an individual student; and

(f) Identification of program staff who have received in-depth training pursuant to 603 CMR 46.04(3) in the use of physical restraint.

(3) In-depth Staff Training in the Use of Physical Restraint. At the beginning of each school year, the principal of each public education program or his or her designee shall identify program staff who are authorized to serve as a school-wide resource to assist in ensuring proper administration of physical restraint. Such staff shall participate in in-depth training in the use of physical restraint. The Department recommends that such training be competency-based and be at least 16 hours in length with refresher training occurring annually thereafter.

(4) Content of In-depth Training. In-depth training in the proper administration of physical restraint shall include, but not be limited to:

(a) Appropriate procedures for preventing the use of physical restraint, including the de-escalation of problematic behavior, relationship building and the use of alternatives to restraint;

(b) A description and identification of specific dangerous behaviors on the part of students that may lead to the use of physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;

(c) The simulated experience of administering and receiving physical restraint, instruction regarding the effect(s) on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;

(d) Instruction regarding documentation and reporting requirements and investigation of injuries and complaints;

(e) Demonstration by participants of proficiency in administering physical restraint; and

(f) Instruction regarding the impact of physical restraint on the student and family, recognizing the act of restraint has impact, including but not limited to psychological, physiological, and social-emotional effects.

603 CMR 46.05. Proper administration of physical restraint.

(1) Trained Personnel. Only public education program personnel who have received training pursuant to 603 CMR 46.03(2) or (3) shall administer physical restraint on students. Whenever possible, the administration of a restraint shall be witnessed by at least one adult who does not participate in the restraint. The training requirements contained in 603 CMR 46.00 shall not preclude a teacher, employee or agent of a public education program from using reasonable force to protect students, other persons or themselves from assault or imminent, serious, physical harm.

(2) Use of Force. A person administering a physical restraint shall use only the amount of force necessary to protect the student or others from physical injury or harm.

(3) Safest Method. A person administering physical restraint shall use the safest method available and appropriate to the situation subject to the safety requirements set forth in 603 CMR 46.05(5). Floor restraints, including prone restraints otherwise permitted under 603 CMR 46.03(1)(b), shall be prohibited unless the staff members administering the restraint have received in-depth training according to the
requirements of 603 CMR 46.04(3) and, in the judgment of the trained staff members, such method is required to provide safety for the student or others present.

(4) Duration of Restraint. All physical restraint must be terminated as soon as the student is no longer an immediate danger to himself or others, or the student indicates that he or she cannot breathe, or if the student is observed to be in severe distress, such as having difficulty breathing, or sustained or prolonged crying or coughing.

(5) Safety Requirements. Additional requirements for the use of physical restraint:

(a) No restraint shall be administered in such a way that the student is prevented from breathing or speaking. During the administration of a restraint, a staff member shall continuously monitor the physical status of the student, including skin temperature and color, and respiration.

(b) Restraint shall be administered in such a way so as to prevent or minimize physical harm. If, at any time during a physical restraint, the student expresses or demonstrates significant physical distress including, but not limited to, difficulty breathing, the student shall be released from the restraint immediately, and school staff shall take steps to seek medical assistance.

(c) If a student is restrained for a period longer than 20 minutes, program staff shall obtain the approval of the principal. The approval shall be based upon the student's continued agitation during the restraint justifying the need for continued restraint.

(d) Program staff shall review and consider any known medical or psychological limitations, known or suspected trauma history, and/or behavioral intervention plans regarding the use of physical restraint on an individual student.

(e) After the release of a student from a restraint, the public education program shall implement follow-up procedures. These procedures shall include reviewing the incident with the student to address the behavior that precipitated the restraint, reviewing the incident with the staff person(s) who administered the restraint to discuss whether proper restraint procedures were followed, and consideration of whether any follow-up is appropriate for students who witnessed the incident.

603 CMR 46.06. Reporting requirements.

(1) Circumstances under which a physical restraint must be reported. Program staff shall report the use of any physical restraint as specified in 603 CMR 46.06(2).

(2) Informing the Principal. The program staff member who administered the restraint shall verbally inform the principal of the restraint as soon as possible, and by written report no later than the next school working day. The written report shall be provided to the principal for review of the use of the restraint. If the principal has administered the restraint, the principal shall prepare the report and submit it to an individual or team designated by the superintendent or board of trustees for review. The principal shall maintain an on-going record of all reported instances of physical restraint, which shall be made available for review by the Department or the student's parent, upon request.

(3) Informing Parents. The principal shall make reasonable efforts to verbally inform the student's parent of the restraint within 24 hours of the event, and shall notify the parent by written report sent either within three school working days of the restraint to an email address provided by the parent for communications about the student, or by regular mail postmarked no later than three school working days of the restraint. If the program customarily provides a parent of a student with report cards and other necessary school-related information in a language other than English, the written restraint report shall be provided to the parent in that language. The principal shall provide the student and the parent an opportunity to comment orally and in writing on the use of the restraint and on information in the written report.

(4) Contents of Report. The written report required by 603 CMR 46.06(2) and (3) shall include:
(a) The name of the student; the names and job titles of the staff who administered the restraint, and observers, if any; the date of the restraint; the time the restraint began and ended; the name of the principal or designee who was verbally informed following the restraint; and, as applicable, the name of the principal or designee who approved continuation of a restraint beyond 20 minutes pursuant to 603 CMR 46.05(5)(c).

(b) A description of the activity in which the restrained student and other students and staff in the same room or vicinity were engaged immediately preceding the use of physical restraint; the behavior that prompted the restraint; the efforts made to prevent escalation of behavior, including the specific de-escalation strategies used; alternatives to restraint that were attempted; and the justification for initiating physical restraint.

(c) A description of the administration of the restraint including the holds used and reasons such holds were necessary; the student's behavior and reactions during the restraint; how the restraint ended; and documentation of injury to the student and/or staff, if any, during the restraint and any medical care provided.

(d) Information regarding any further action(s) that the school has taken or may take, including any consequences that may be imposed on the student.

(e) Information regarding opportunities for the student's parents to discuss with school officials the administration of the restraint, any consequences that may be imposed on the student, and any other related matter.

(5) Individual Student Review. The principal shall conduct a weekly review of restraint data to identify students who have been restrained multiple times during the week. If such students are identified, the principal shall convene one or more review teams as the principal deems appropriate to assess each student's progress and needs. The assessment shall include at least the following:

(a) review and discussion of the written reports submitted in accordance with 603 CMR 46.06 and any comments provided by the student and parent about such reports and the use of the restraints;

(b) an analysis of the circumstances leading up to each restraint, including factors such as time of day, day of the week, antecedent events, and individuals involved;

(c) consideration of factors that may have contributed to escalation of behaviors, consideration of alternatives to restraint, including de-escalation techniques and possible interventions, and such other strategies and decisions as appropriate, with the goal of reducing or eliminating the use of restraint in the future;

(d) an agreement on a written plan of action by the program.

If the principal directly participated in the restraint, a duly qualified individual designated by the superintendent or board of trustees shall lead the review team's discussion. The principal shall ensure that a record of each individual student review is maintained and made available for review by the Department or the parent, upon request.

(6) Administrative Review. The principal shall conduct a monthly review of school-wide restraint data. This review shall consider patterns of use of restraints by similarities in the time of day, day of the week, or individuals involved; the number and duration of physical restraints school-wide and for individual students; the duration of restraints; and the number and type of injuries, if any, resulting from the use of restraint. The principal shall determine whether it is necessary or appropriate to modify the school's restraint prevention and management policy, conduct additional staff training on restraint reduction or prevention strategies, such as training on positive behavioral interventions and supports, or take such other action as necessary or appropriate to reduce or eliminate restraints.

(7) Report All Restraint-related Injuries to the Department. When a physical restraint has resulted in an injury to a student or program staff member, the program shall send a copy of the written report required
by 603 CMR 46.06(4) to the Department postmarked no later than three school working days of the administration of the restraint. The program shall also send the Department a copy of the record of physical restraints maintained by the principal pursuant to 603 CMR 46.06(2) for the 30-day period prior to the date of the reported restraint. The Department shall determine if additional action by the program is warranted and, if so, shall notify the program of any required actions within 30 calendar days of receipt of the required written report(s).

603 CMR 53.01. Purpose and scope.

(1) The purpose of 603 CMR 53.00 is:

(a) for those discipline offenses subject to M.G.L. 71, § 37H 3/4, as set forth in 603 CMR 53.01(2)(a), to limit the use of long-term suspension as a consequence for student misconduct until other consequences have been considered and tried as appropriate.

Codes of discipline, as well as procedures used to develop such codes shall be filed with the department of education for informational purposes only. [...] Notwithstanding any general or special law to the contrary, all student handbooks shall contain the following provisions:

After said hearing, a principal may, in his discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a) or (b).

(d) Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the superintendent. The expelled student shall have ten days from the date of the expulsion in which to notify the superintendent of his appeal. **ALM GL ch. 71, § 37H1/2. Felony complaint or conviction of student; suspension; expulsion; right to appeal.**

Notwithstanding the provisions of section eighty-four and sections sixteen and seventeen of chapter seventy-six:

(1) Upon the issuance of a criminal complaint charging a student with a felony or upon the issuance of a felony delinquency complaint against a student, the principal or headmaster of a school in which the
student is enrolled may suspend such student for a period of time determined appropriate by said principal or headmaster if said principal or headmaster determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. The student shall receive written notification of the charges and the reasons for such suspension prior to such suspension taking effect. The student shall also receive written notification of his right to appeal and the process for appealing such suspension; provided, however, that such suspension shall remain in effect prior to any appeal hearing conducted by the superintendent.

The student shall have the right to appeal the suspension to the superintendent. The student shall notify the superintendent in writing of his request for an appeal no later than five calendar days following the effective date of the suspension. The superintendent shall hold a hearing with the student and the student's parent or guardian within three calendar days of the student's request for an appeal. At the hearing, the student shall have the right to present oral and written testimony on his behalf, and shall have the right to counsel. The superintendent shall have the authority to overturn or alter the decision of the principal or headmaster, including recommending an alternate educational program for the student. The superintendent shall render a decision on the appeal within five calendar days of the hearing. Such decision shall be the final decision of the city, town or regional school district with regard to the suspension.

(2) Upon a student being convicted of a felony or upon an adjudication or admission in court of guilt with respect to such a felony or felony delinquency, the principal or headmaster of a school in which the student is enrolled may expel said student if such principal or headmaster determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. The student shall receive written notification of the charges and reasons for such expulsion prior to such expulsion taking effect. The student shall also receive written notification of his right to appeal and the process for appealing such expulsion; provided, however, that the expulsion shall remain in effect prior to any appeal hearing conducted by the superintendent.

The student shall have the right to appeal the expulsion to the superintendent. The student shall notify the superintendent, in writing, of his request for an appeal no later than five calendar days following the effective date of the expulsion. The superintendent shall hold a hearing with the student and the student's parent or guardian within three calendar days of the expulsion. At the hearing, the student shall have the right to present oral and written testimony on his behalf, and shall have the right to counsel. The superintendent shall have the authority to overturn or alter the decision of the principal or headmaster, including recommending an alternate educational program for the student. The superintendent shall render a decision on the appeal within five calendar days of the hearing. Such decision shall be the final decision of the city, town or regional school district with regard to the expulsion.

Any school district that suspends or expels a student under this section shall continue to provide educational services to the student during the period of suspension or expulsion, under section 21 of chapter 76. If the student moves to another district during the period of suspension or expulsion, the new district of residence shall either admit the student to its schools or provide educational services to the student under an education service plan, under section 21 of chapter 76.

**ALM GL ch. 71, § 37H3/4. Suspension or expulsion on grounds other than those set forth in Sections 37H or 37H1/2.**

(a) This section shall govern the suspension and expulsion of students enrolled in a public school in the commonwealth who are not charged with a violation of subsections (a) or (b) of section 37H or with a felony under section 37H1/2.

(b) Any principal, headmaster, superintendent or other person acting as a decision-maker at a student meeting or hearing, when deciding the consequences for the student, shall exercise discretion; consider
ways to re-engage the student in the learning process; and avoid using expulsion as a consequence until other remedies and consequences have been employed.

(c) For any suspension or expulsion under this section, the principal or headmaster of a school in which the student is enrolled, or a designee, shall provide, to the student and to the parent or guardian of the student, notice of the charges and the reason for the suspension or expulsion in English and in the primary language spoken in the home of the student. The student shall receive the written notification and shall have the opportunity to meet with the principal or headmaster, or a designee, to discuss the charges and reasons for the suspension or expulsion prior to the suspension or expulsion taking effect. The principal or headmaster, or a designee, shall ensure that the parent or guardian of the student is included in the meeting, provided that such meeting may take place without the parent or guardian only if the principal or headmaster, or a designee, can document reasonable efforts to include the parent or guardian in that meeting. The department shall promulgate rules and regulations that address a principal's duties under this subsection and procedures for including parents in student exclusion meetings, hearings or interviews under this subsection.

(d) If a decision is made to suspend or expel the student after the meeting, the principal or headmaster, or a designee, shall update the notification for the suspension or expulsion to reflect the meeting with the student. If a student has been suspended or expelled for more than 10 school days for a single infraction or for more than 10 school days cumulatively for multiple infractions in any school year, the student and the parent or guardian of the student shall also receive, at the time of the suspension or expulsion decision, written notification of a right to appeal and the process for appealing the suspension or expulsion in English and in the primary language spoken in the home of the student; provided, however, that the suspension or expulsion shall remain in effect prior to any appeal hearing. The principal or headmaster or a designee shall notify the superintendent in writing, including, but not limited to, by electronic means, of any out-of-school suspension imposed on a student enrolled in kindergarten through grade 3 prior to such suspension taking effect. That notification shall describe the student's alleged misconduct and the reasons for suspending the student out-of-school. For the purposes of this section, the term "out-of-school suspension" shall mean a disciplinary action imposed by school officials to remove a student from participation in school activities for 1 day or more.

(e) A student who has been suspended or expelled from school for more than 10 school days for a single infraction or for more than 10 school days cumulatively for multiple infractions in any school year shall have the right to appeal the suspension or expulsion to the superintendent. The student or a parent or guardian of the student shall notify the superintendent in writing of a request for an appeal not later than 5 calendar days following the effective date of the suspension or expulsion; provided, that a student and a parent or guardian of the student may request, and if so requested, shall be granted an extension of up to 7 calendar days. The superintendent or a designee shall hold a hearing with the student and the parent or guardian of the student within 3 school days of the student's request for an appeal; provided that a student or a parent or guardian of the student may request and, if so requested, shall be granted an extension of up to 7 calendar days; provided further, that the superintendent, or a designee, may proceed with a hearing without a parent or guardian of the student if the superintendent, or a designee, makes a good faith effort to include the parent or guardian. At the hearing, the student shall have the right to present oral and written testimony, cross-examine witnesses and shall have the right to counsel. The superintendent shall render a decision on the appeal in writing within 5 calendar days of the hearing. That decision shall be the final decision of the school district with regard to the suspension or expulsion.

(f) No student shall be suspended or expelled from a school or school district for a time period that exceeds 90 school days, beginning the first day the student is removed from an assigned school building.
ALM GL ch. 76, § 16. Children excluded from school; remedies.
Any pupil who has attained age eighteen, or the parent, guardian or custodian of a pupil who has not attained said age of eighteen, who has been refused admission to or excluded from the public schools or from the advantages, privileges and courses of study of such public schools shall on application be furnished by the school committee with a written statement of the reasons therefor, and thereafter, if the refusal to admit or exclusion was unlawful, such pupil may recover from the town or, in the case of such refusal or exclusion by a regional school district from the district, in tort and may examine any member of the school committee or any other officer of the town or regional school district upon interrogatories.

ALM GL ch. 76, § 17. Hearing prerequisite to exclusion.
A school committee shall not permanently exclude a pupil from the public schools for alleged misconduct without first giving him and his parent or guardian an opportunity to be heard.

(1) Except as provided in 603 CMR 53.07 and 603 CMR 53.10, a principal may not impose a suspension as a consequence for a disciplinary offense without first providing the student and the parent oral and written notice, and providing the student an opportunity for a hearing on the charge and the parent an opportunity to participate in such hearing.

(2) The principal shall provide oral and written notice to the student and the parent in English and in the primary language of the home if other than English, or other means of communication where appropriate. The notice shall set forth in plain language:
   (a) the disciplinary offense;
   (b) the basis for the charge;
   (c) the potential consequences, including the potential length of the student's suspension;
   (d) the opportunity for the student to have a hearing with the principal concerning the proposed suspension, including the opportunity to dispute the charges and to present the student's explanation of the alleged incident, and for the parent to attend the hearing;
   (e) the date, time, and location of the hearing;
   (f) the right of the student and the student's parent to interpreter services at the hearing if needed to participate;

(3) The principal shall make reasonable efforts to notify the parent orally of the opportunity to attend the hearing. To conduct a hearing without the parent present, the principal must be able to document reasonable efforts to include the parent. The principal is presumed to have made reasonable efforts if the principal has sent written notice and has documented at least two attempts to contact the parent in the manner specified by the parent for emergency notification.

(4) Written notice to the parent may be made by hand delivery, first-class mail, certified mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the principal and parent.
603 CMR 53.07. Emergency removal under M.G.L. c. 71, § 37H¾.

(1) Nothing in 603 CMR 53.00 shall prevent a principal from removing a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school and, in the principal's judgment, there is no alternative available to alleviate the danger or disruption. The temporary removal shall not exceed two school days following the day of the emergency removal, during which time the principal shall:

(a) Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, and the other matters set forth in 603 CMR 53.06(2);

(b) Provide written notice to the student and parent as provided in 603 CMR 53.06(2);

(c) Provide the student an opportunity for a hearing with the principal that complies with 603 CMR 53.08(2) or (3), as applicable, and the parent an opportunity to attend the hearing, before the expiration of the two school days, unless an extension of time for hearing is otherwise agreed to by the principal, student, and parent.

(d) Render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of 603 CMR 53.08(2)(c) and (d) or (3)(c) and (d), as applicable.

(2) A principal may not remove a student from school on an emergency basis for a disciplinary offense until adequate provisions have been made for the student's safety and transportation.

603 CMR 53.08. Principal's hearing under M.G.L. c. 71, § 37H¾.

(1) The principal shall determine the extent of the rights to be afforded the student at a disciplinary hearing based on the anticipated consequences for the disciplinary offense. If the consequence may be long-term suspension from school, the principal shall afford the student, at a minimum, all the rights set forth in 603 CMR 53.08(3) in addition to those rights afforded to students who may face a short-term suspension from school.

(2) Principal Hearing - Short-term Suspension.

(a) The purpose of the hearing with the principal is to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction. At a minimum, the principal shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information. The student also shall have an opportunity to present information, including mitigating facts, that the principal should consider in determining whether other remedies and consequences may be appropriate as set forth in 603 CMR 53.05. The principal shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.

(b) Based on the available information, including mitigating circumstances, the principal shall determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

(c) The principal shall notify the student and parent of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as provided in 603 CMR 53.13(1). The determination shall be in writing and may be in the form of an update to the original written notice.
(d) If the student is in a preschool program or in grades K through 3, the principal shall send a copy of the written determination to the superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

(3) Principal Hearing - Long-term Suspension.

(a) The purpose of the hearing is the same as the purpose of a short-term suspension hearing.

(b) At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights:

1. In advance of the hearing, the opportunity to review the student's record and the documents upon which the principal may rely in making a determination to suspend the student or not;
2. the right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense;
3. the right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; and
4. the right to cross-examine witnesses presented by the school district; and
5. the right to request that the hearing be recorded by the principal, and to receive a copy of the audio recording provided to the student or parent upon request. If the student or parent requests an audio recording, the principal shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent upon request.

(c) The principal shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.

(d) Based on the evidence, the principal shall determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as set forth in 603 CMR 53.05, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The principal shall send the written determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or other method of delivery agreed to by the principal and the parent. If the principal decides to suspend the student, the written determination shall:

1. Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing;
2. Set out the key facts and conclusions reached by the principal;
3. Identify the length and effective date of the suspension, as well as a date of return to school;
4. Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as provided in 603 CMR 53.13(4)(a);
5. Inform the student of the right to appeal the principal's decision to the superintendent or designee, but only if the principal has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, or other means of communication, where appropriate, and shall include the following stated in plain language:
   a. the process for appealing the decision, including that the student or parent must file a written notice of appeal with the superintendent within five calendar days of the effective date of the long-term suspension; provided that within the five calendar days, the student or parent may request and receive from the superintendent an extension of time for filing the written notice for up to seven additional calendar days; and that,
   b. the long-term suspension will remain in effect unless and until the superintendent decides to reverse the principal's determination on appeal.
If the student is in a public preschool program or in grades K through 3, the principal shall send a copy of the written determination to the superintendent and explain the reasons for imposing an out-of-school suspension, whether short-term or long-term, before the suspension takes effect.

603 CMR 53.09. Superintendent's hearing under M.G.L. c. 71, § 37H¾.

(1) A student who is placed on long-term suspension following a hearing with the principal shall have the right to appeal the principal's decision to the superintendent.

(2) The student or parent shall file a notice of appeal with the superintendent within the time period set forth 603 CMR 53.08(3)(d)5.a. If the appeal is not timely filed, the superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

(3) The superintendent shall hold the hearing within three school days of the student's request, unless the student or parent requests an extension of up to seven additional calendar days, in which case the superintendent shall grant the extension.

(4) The superintendent shall make a good faith effort to include the parent in the hearing. The superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent and superintendent to participate. The superintendent shall send written notice to the parent of the date, time, and location of the hearing.

(5) The superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent upon request. The superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request.

(6) The student shall have all the rights afforded the student at the principal's hearing for long-term suspension under 603 CMR 53.08(3)(b).

(7) The superintendent shall issue a written decision within five calendar days of the hearing which meets the requirements of 603 CMR 53.08(3)(d)1. through 4. If the superintendent determines that the student committed the disciplinary offense, the superintendent may impose the same or a lesser consequence than the principal, but shall not impose a suspension greater than that imposed by the principal's decision.

(8) The decision of the superintendent shall be the final decision of the school district, charter school, or virtual school, with regard to the suspension.

603 CMR 53.10. In-school suspension under M.G.L. c. 71, § 37H¾.

(1) The principal may use in-school suspension as an alternative to short-term suspension for disciplinary offenses.

(2) The principal may impose an in-school suspension for a disciplinary offense under 603 CMR 53.10, provided that the principal follows the process set forth in 603 CMR 53.10(3) through (5) and the student has the opportunity to make academic progress as set forth in 603 CMR 53.13(1).

(3) The principal shall inform the student of the disciplinary offense charged and the basis for the charge, and provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident. If the principal determines that the student committed the disciplinary offense, the principal shall inform the student of the length of the student's in-school suspension, which shall not exceed ten days, cumulatively or consecutively in a school year.

(4) On the same day as the in-school suspension decision, the principal shall make reasonable efforts to notify the parent orally as soon as possible of the disciplinary offense, the reasons for concluding that the
student committed the infraction, and the length of the in-school suspension. The principal shall also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting shall be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the principal is unable to reach the parent after making and documenting at least two attempts to do so, such attempts shall constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.

(5) The principal shall send written notice to the student and parent about the in-school suspension, including the reason and the length of the in-school suspension, and inviting the parent to a meeting with the principal for the purpose set forth in 603 CMR 53.10(4), if such meeting has not already occurred. The principal shall deliver such notice on the day of the suspension by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or other method of delivery agreed to by the principal and the parent.

603 CMR 53.12. Disciplinary offenses under M.G.L. c. 71, § 37H or 37H 1/2.

(1) School districts shall adopt disciplinary policies and procedures applicable to a student who is accused of a disciplinary offense under M.G.L. c. 71, § 37H or 37H 1/2. Such policies and procedures shall be consistent with the applicable statute and provide due process of law.

(2) The principal may remove a student who has committed a disciplinary offense under M.G.L. c. 71, § 37H or 37H 1/2 from school for more than 90 days in a school year.

(3) Any student who is removed from school for a disciplinary offense under M.G.L. c. 71, § 37H or 37H 1/2 shall have an opportunity to receive education services and make academic progress during the period of removal, as provided in 603 CMR 53.13.

The commissioner shall assess current programs of alternative education and shall develop a statewide action plan to expand and improve the delivery of alternative education programs.

ALM GL ch. 69, § 1N. Alternative education grant program.

(a) The department of education, hereinafter referred to as the department, shall establish a grant program, subject to appropriation, to be known as the alternative education grant program for the purpose of providing grants to assist school districts and Horace Mann and commonwealth charter schools with the development and establishment of alternative education programs and services to students suspended or expelled from school. The grants shall support the development of alternative education programs which would: (1) allow school districts to coordinate efforts to establish interdistrict regional alternative education collaboratives to provide educational services to suspended or expelled students; or
(2) establish a district based alternative education program for those students. The grants may also be used to encourage the use of technology in alternative education programs. The grants shall also encourage voluntary expansion of existing alternative education programs in the commonwealth, and shall be used to provide alternative education programs for students who are at risk of educational failure due to truancy, or dropping out of school. Grants may also be used to assist in developing programs that provide a range of approaches to address behavior issues, such as behavior specialists, in-school suspension rooms and crisis centers, in addition to out-of-school alternative settings.

Programs designed under the grants shall be developed at the middle and high school levels and shall afford students the opportunity to earn a high school diploma in accordance with section 1D, and to be taught to the same academic standards and curriculum frameworks established for all students in accordance with sections 1D and 1E. The programs shall make use of existing resources in school districts, educational collaboratives, community colleges, and other agencies, service providers, and organizations. Programs shall be designed as placements that, at a minimum, educate students to the same academic standards and curriculum frameworks as taught to all students, address behavioral problems, utilize small class size, address individual needs and learning styles, provide engaging instruction and a supportive environment, and, where appropriate, utilize flexible scheduling. The programs shall also provide a comprehensive array of social services to support a student's remediation of issues that cause school failure, excessive absenteeism, truancy and school dropout. Grant recipients shall develop remediation plans for students that address both academic and behavioral issues. Grants may also be made available for in-school regular education programs that include self-improvement, behavior management and life skills training to help provide students with tools to better manage their lives and attitudes, to support programs that use family-based approaches, and to assist students and teachers during the transition of students back into regular education classrooms.

A grant awarded pursuant to this subsection, shall require that recipients undertake ongoing program evaluations that document the effectiveness of the program in helping students to achieve academically to the same academic standards and curriculum frameworks required for all students, to develop self-management skills, and to reintegrate and remain in regular education classrooms. In awarding grants, priority shall be given to programs that employ interventions that have been empirically validated.

The department shall establish guidelines governing the alternative education grant program. The guidelines shall include, but not be limited to, a requirement that when a student is transferred to an alternative education program a representative of the school district shall meet with the student and the student's parents or legal guardian to develop an agreement that specifies the responsibilities of the school, the student and the student's parents or legal guardian. The agreement shall, at a minimum, include:

1. a remediation plan to address both academic and behavioral issues;
2. a plan for frequent evaluations and assessments of the student's adjustment, and academic achievement and progress;
3. a requirement that the parents or legal guardian of the student attend specified meetings or conferences with teachers, or utilize such other means of communication as determined necessary to facilitate communication, to review and assist in the student's progress;
4. a timetable for reintegrating the student into a regular education classroom;
5. the student's and the parents' or legal guardian's acknowledgement that they understand and accept the responsibilities imposed by the agreement.

(b) The department shall establish a grant program, subject to appropriation, to assist school districts with the development and establishment of in-school regular education programs and services to address within the regular education school program the educational and psycho-social needs of children whose behavior interferes with learning, particularly those who are suffering from the traumatic effects of
exposure to violence. As used in this subsection, students suffering from the traumatic effects of exposure to violence shall include, but not be limited to, those exposed to abuse, family or community violence, war, homelessness or any combination thereof. The grants shall support the development of school based teams with community ties that: (1) collaborate with broadly recognized experts in the fields of trauma and family and community violence and with battered women shelters; (2) provide ongoing training to inform and train teachers, administrators, and other school personnel to understand and identify the symptoms and trauma; and (3) evaluate school policy and existing school and community programs and services to determine whether and to what extent students identified as suffering from exposure to trauma can receive effective supports and interventions that can help them to succeed in their public school programs, and where necessary be referred quickly and confidentially to appropriate services.

Grants may also be awarded to assist school districts in developing comprehensive programs to help prevent violence in schools, from whatever causes, and to promote school safety. The programs shall be designed to meet the following objectives: creating a school environment where students feel safe and that prevents problems from starting; helping students to take the lead in keeping the school safe; ensuring that school personnel have the skills and resources to identify and intervene with at-risk students; equipping students and teachers with the skills needed to avoid conflict and violence; and helping schools and individuals to reconnect with the community and share resources.

The department shall develop guidelines governing the implementation of the grant program authorized by this subsection. A grant awarded pursuant to this subsection shall require that recipients undertake ongoing evaluations of the effectiveness of the program. In awarding grants, priority shall be given to programs that are based on empirically validated interventions.

The department of education, in consultation with the department of public health and the department of mental health, shall establish an advisory committee to assist in implementing the grant program and in assisting public schools in addressing the learning and behavior problems of students who manifest trauma-related symptoms or classroom behavior that interferes with learning. Members of the advisory committee shall include but not be limited to: 3 educators, 1 of whom shall serve as the chair, appointed by the commissioner of the department of education; 2 leaders in the field of trauma and its relationship to school learning and behavior appointed by the commissioner of the department of public health; 2 leaders in mental health with expertise in family and/or community violence appointed by the commissioner of mental health; 1 leader in battered women's services appointed by the commissioner of public health; 1 leader in the area of homelessness and its impact on children appointed by commissioner of mental health; and 3 parents, 1 each appointed by the commissioner of education, the commissioner of public health, the commissioner of mental health. The advisory committee, at its discretion, may select additional members with relevant experience including but not limited to child advocates, medical doctors and representatives of juvenile and probate court.

(c) The commissioner shall evaluate annually the effectiveness of programs established under this section including the potential for replicating such programs throughout the commonwealth. The annual evaluation shall also examine whether students in alternative education programs funded under this section are being taught to the same academic standards required for all students, how much time students are spending in the programs, the racial profile of expelled or suspended students and the percentages of the students who are in special education or bilingual education. The commissioner shall also provide technical assistance to school districts seeking to replicate programs funded under this section, and shall provide training for teachers in the development of effective remediation plans for students in alternative education, and in the development of skills, techniques, and innovative strategies to assist the students. In evaluating programs funded under subsection (b), the commissioner shall consult with the department of public health, the department of mental health, and the advisory committee established pursuant to said subsection (b).
