The youth court shall expedite a hearing to make an appropriate adjudication and a disposition to ensure compliance with the Compulsory School Attendance Law, and may order the child to enroll or re-enroll in school. The superintendent of the school district to which the child is ordered may assign, in his discretion, the child to the alternative school program of the school established pursuant to Section 37-13-92.

(8) The State Board of Education shall adopt rules and regulations for the purpose of reprimanding any school superintendents who fail to timely report unexcused absences under the provisions of this section.

REGULATIONS

Rule 9.1. Attendance reporting.
When local school districts receive a report from a juvenile court that a student's probation has school attendance as a condition, the following rules will be followed:

1. A review will be conducted by the school administration to determine the most appropriate academic placement, the need for counseling and other social services, and the development of an instruction plan, if appropriate;
2. Parental involvement will be encouraged;
3. Alternative placement will be considered if the act necessitating the order would hinder the instructional program or place others at risk for their personal safety; and
4. The appropriate School Attendance Officer will be notified.

Rule 30.1. Compulsory school attendance.
1. Employment of all School Attendance Officers, qualifications and duties, shall be in compliance with MS Code §37-13-89.
2. Pursuant to MS Code §43-21-321 and §37-13-80 School Attendance Officers shall:
(a) Serve on transition teams to assist youth in detention centers to transition successfully back into the home school district once released from detention; and
(b) Gather accurate data on youth in juvenile detention centers to properly track students.

3. In addition to the duties set forth in statute, State School Attendance Officers shall be required to provide technical assistance to school districts in the areas of attendance and dropout prevention.

**Rule 30.2. Reporting unexcused absences.**

Pursuant to Mississippi Code 37-13-91, a parent, guardian or custodian of a compulsory-school-age child in this state shall cause the child to enroll in and attend a public school or legitimate nonpublic for the period of time that the child is of compulsory-school-age. Mississippi Code Section 37-9-14(2)(u) states that School District Superintendents are “to comply in a timely manner with the compulsory education reporting requirements prescribed in Section 37-13-92(6).” The State Department of Education shall prescribe a uniform method for schools to utilize in reporting the unlawful absences to the school attendance officer.

1. An unlawful absence is an absence by any compulsory school-age child missing for thirty-seven (37%) or more of a school day, in which the absence is not due to a valid excuse for temporary nonattendance.

2. An unlawful absence is an absence by any compulsory school-age child who is removed from school for days missed as a result of disciplinary suspension. Absences due to suspension or expulsion shall not be excused by the school district superintendent, or his designee. A student that is absent due to suspensions or expulsions shall not be reported as truant.

Based on Section 37-13-91(6), the school district superintendent or his/her designee, shall report, within two (2) school days or within five (5) calendar days, whichever is less, the absences to the school attendance officers. Therefore, pursuant to Section 37-13-85(o), provides that the MDE shall adopt any other policies that the office deems necessary for the enforcement of the Mississippi Compulsory School Attendance Law; however, the policies or guidelines shall not add or contradict with the requirements of Section 37-13-91. The superintendent, or his designee, also shall report any student suspensions or student expulsions to the school attendance officer when they occur and code them as “unexcused absences”. However, these absences will not be counted towards a student being identified as truant.

For the purpose of determining and reporting attendance, a pupil must be present for at least sixty-three percent (63%) of his/her instructional day, as fixed by the local school board, and defined by the student’s schedule, in order to be considered in full-day attendance.

Each of the following shall constitute a valid excuse for temporary nonattendance of a compulsory-school-age child enrolled in a public school, provided satisfactory evidence of the excuse is provided to the superintendent of the school district, or his designee:

1. An absence is excused when the absence results from illness or injury which prevents the compulsory-school-age child from being physically able to attend school.

2. An absence is excused when isolation of a compulsory-school-age child is ordered by the county health officer, by the State Board of Health or appropriate school official.

3. An absence is excused when it results from the death or serious illness of a member of the immediate family of a compulsory-school-age child. The immediate family members of a compulsory-school-age child shall include children, spouse, grandparents, parents, brothers and sisters, including stepbrothers and stepsisters.

4. An absence is excused when it results from a medical or dental appointment of a compulsory-school-age child.
5. An absence is excused when it results from the attendance of a compulsory-school-age child at the proceedings of a court or an administrative tribunal if the child is a party to the action or under subpoena as a witness.

6. An absence may be excused if the religion, to which the compulsory-school-age child or the child's parents adheres, requires or suggests the observance of a religious event. The approval of the absence is within the discretion of the superintendent of the school district, or his designee, but approval should be granted unless the religion's observance is of such duration as to interfere with the education of the child.

7. An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that the purpose of the absence is to take advantage of a valid educational opportunity such as travel, including vacations or other family travel. Approval of the absence must be gained from the superintendent of the school district, or his designee, before the absence, but the approval shall not be unreasonably withheld.

8. An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that conditions are sufficient to warrant the compulsory-school-age child's nonattendance. However, no absences shall be excused by the school district superintendent, or his designee, when any student suspensions or expulsions circumvent the intent and spirit of the compulsory attendance law.

If a compulsory-school-age child is participating in an authorized school activity with the prior approval of the superintendent of the school district, or his/her designee, the student is considered PRESENT for average daily attendance reporting purposes. The activities include, but are not limited to:

a) Official Organized Events Sponsored by the 4-H
b) Future Farmers of America
c) Junior Livestock Shows
d) Rodeo Events
e) Official Employment as a Page at the State Capitol
f) Subject-Matter Field Trips
g) Athletic Contest
h) Student Conventions
i) Music Festivals or Contest

A student's participation in an authorized school activity must be verified by one of the following:

a) Student Schedule
b) Class Roster
c) Activity Roster

If a district superintendent fails to comply with the above guidelines, the following may occur:

1. The School Attendance Officer may present evidence to the Director of the Office of Compulsory School Attendance Enforcement that a school superintendent has failed to report unexcused absences in a timely manner. Such a report must be in writing and supported by written evidence.

2. If no action is warranted, the Director of the Office of Compulsory School Attendance Enforcement will notify the School Attendance Officer in writing of the determination.

3. If further action is warranted, the Director of the Office of Compulsory School Attendance Enforcement may recommend to the State Superintendent of Education or his/her designee, downgrading of the district's accreditation status.
4. When information on file in the Mississippi Department of Education indicates that a school district may be in violation of a state law, the superintendent of the district will be informed in writing by appropriate staff in the Department responsible for monitoring compliance with the compulsory school attendance law.

5. School district officials will be given thirty (30) days from the date of receipt of notification to provide a written response verifying accuracy or inaccuracy of the notice of possible noncompliance with the compulsory school attendance law. If the written response includes appropriate evidence to correct or refute the alleged violation, the superintendent of the district will be notified by appropriate staff.

6. The appropriate staff member in the Office of Accreditation will notify the superintendent of the district in writing of the verified violation. Although the accreditation status of the district may not be subject to change until the next assignment of annual district status, the superintendent is required to provide a written response specifying how and when the violation will be corrected.

**Rule 30.4. Truancy rate definition, calculation and rate.**

**Purpose.**

Pursuant to MS Code §37-13-91, a parent, guardian or custodian of a compulsory-school-age child in this state shall cause the child to enroll in and attend a public school or legitimate nonpublic school for the period of time that the child is of compulsory-school-age. A “Compulsory-school-age child” means a child who has attained or will attain the age of six (6) years on or before September 1 of the calendar year and who has not attained the age of seventeen (17) years on or before September 1 of the calendar year; and shall include any child who has attained or will attain the age of five (5) years on or before September 1 and has enrolled in a full-day public school kindergarten program. Provided, however, that the parent or guardian of any child enrolled in a full-day public school kindergarten program shall be allowed to disenroll the child from the program on a one-time basis, and such child shall not be deemed a compulsory-school-age child until the child attains the age of six (6) years.

Pursuant to the Elementary and Secondary School Act, Subpart I, §4112, (c)(3)(A)(B)(i), beginning with the 2005-2006 school year, state education agencies were required to report truancy rates on a school-by-school basis to the US Department of Education. In an effort to ensure compliance with federal guidelines, this policy sets forth the distinction between excused and unlawful absences and provides formulas for truancy, habitual truancy, suspension and expulsion rate calculations. This information will serve to establish a uniform reporting method.

**Definitions.**

- **Cumulative Enrollment** - sum of all entering students within a school year.
- **Excused Absence** - any of seven designated valid excuses for temporary nonattendance of a compulsory-school-age child enrolled in a public school, pursuant to MS Code §37-13-91, (4) (a) through (4) (i).
- **Habitual Truant** - a student who has accumulated twelve (12) or more unlawful absences, excluding suspension and expulsion days, in a school year, which shall result in the filing of a petition in a court of competent jurisdiction by the school attendance officer.
- **School Day** - pursuant to Mississippi Code §37-13-91 (d), defined as not less than five (5) and not more than eight (8) hours of actual teaching in which both teachers and pupils are in regular attendance for scheduled schoolwork.
- **Truant** - a student that has accumulated five (5) or more unlawful absences in a school year, excluding suspension and expulsion days.

(c) Beginning with the 2019-2020 school year, the MCOPS in Schools program shall provide a minimum state contribution of up to Ten Thousand Dollars ($10,000.00) per officer position over the one-year grant period, to be matched from local funds on a 50/50 matching basis. Officers paid with MCOPS funds may be employed by the local law enforcement agency or by the local school district. MCOPS funds may be used to pay for entry-level salaries and benefits of newly trained additional School Resource Officers and may be used to pay the salaries and benefits of School Resource Officers employed prior to July 1, 2013. All jurisdictions that apply must demonstrate that they have primary law enforcement authority over the school(s) identified in their application and demonstrate their inability to implement this project without state assistance. Schools or law enforcement agencies may not reduce its overall federal, state, locally funded level of sworn officers (including other School Resource Officers or other sworn officers assigned to the schools) as a result of applying for or receiving MCOPS in Schools grant funding. MCOPS in Schools funding may be used to rehire sworn officers previously employed who have been laid off for financial reasons unrelated to the availability of the MCOPS in Schools grant, but must obtain prior written approval from the State Department of Education. MCOPS in Schools funding may be used to train school resource officers. In order to be eligible for such program, each local school board desiring to participate shall apply to the State Department of Education by May 31 before the beginning of the applicable fiscal year on forms provided by the department. The State Department of Education shall determine by July 1 of each succeeding year which local school districts have submitted approved applications for School Resource Officer funding.

(d) School Resource Officers (SROs) may serve in a variety of roles, including, but not limited to, that of a law enforcement officer/safety specialist, law-related educator, and problem-solver/community liaison. These officers may teach programs such as crime prevention, substance abuse prevention, and gang resistance as well as monitor and assist troubled students through mentoring programs. The School Resource Officer(s) may also identify physical changes in the environment that may reduce crime in and around the schools, as well as assist in developing school policies which address criminal activity and school safety. The application must also include a Memorandum of Understanding (MOU), signed by the law enforcement executive and the appropriate school official(s), to document the roles and responsibilities to be undertaken by the law enforcement agency and the educational school partner(s) through this collaborative effort. The application must also include a Narrative Addendum to document that the School Resource Officer(s) will be assigned to work in and around primary or secondary schools and provide supporting documentation in the following areas: problem identification and justification, community policing strategies to be used by the officers, quality and level of commitment to the effort, and the link to community policing.
(e) All agencies receiving awards through the MCOPS in Schools program are required to send the School Resource Officer position(s) funded by this grant, to the Mississippi Law Enforcement Officers’ Training Academy where they shall be required to participate in training through the Advanced Law Enforcement Rapid Response Training Program at the academy, with the cost to be defrayed from the MCOPS program. The MCOPS Office of the State Department of Education will reimburse grantees for training, per diem, travel, and lodging costs for attendance of required participants up to a maximum of One Thousand Two Hundred Dollars ($1,200.00) per person attending. Applicants receiving an MCOPS in Schools grant, will receive additional training information following notification of the grant award. The MCOPS in Schools training requirement must be completed prior to the end of twelve-month grant funding for officer positions.

(3) The State Department of Education shall promulgate rules and regulations prescribing procedures for the application, expenditure requirements and the administration of the Mississippi Community Oriented Policing Services in Schools (MCOPS) program established in this section, and shall make a report on the implementation of the MCOPS program with any recommendations to the 2020 Regular Session of the Legislature.

§ 37-3-82.1. Schools unable to meet financial requirements for participation in MCOPS program authorized to develop alternative plans for student security.

In the event that a public school district is unable to participate in the MCOPS program due to the district's inability to meet the necessary financial requirements of the local fund match, the local school board of that school district may develop a plan for the security of its students, faculty and administration, which must be approved by the State Board of Education and the Mississippi Department of Public Safety prior to its implementation. The local school board may still apply for grants under the MCOPS program for training of security personnel employed by the school district.

§ 37-7-321. Employment and designation of peace officers; minimum level of basic law enforcement training required; operation of radio broadcasting and transmission station; interlocal agreements with other law enforcement entities for provision of certain equipment or services.

(1) The school board of any school district within the State of Mississippi, in its discretion, may employ one or more persons as security personnel and may designate such persons as peace officers in or on any property operated for school purposes by such board upon their taking such oath and making such bond as required of a constable of the county in which the school district is situated.

(4) If a law enforcement officer is duly appointed to be a peace officer by a school district under this section, the local school board may enter into an interlocal agreement with other law enforcement entities for the provision of equipment or traffic control duties, however, the duty to enforce traffic regulations and to enforce the laws of the state or municipality off of school property lies with the local police or sheriff's department which cannot withhold its services solely because of the lack of such an agreement.

§ 37-7-323. Application and enforcement of general criminal laws of state.

Any act which, if committed within the limits of a city, town or village, or in any public place, would be a violation of the general laws of this state, shall be criminal and punishable if done on the campus, grounds or roads of any of the public schools of this state. The peace officers duly appointed by the school board of any school district are vested with the powers and subjected to the duties of a constable for the purpose of preventing all violations of law on school property within the district, and for preserving order and decorum thereon. The peace officers duly appointed by the school board of any school district are also vested with the powers and subjected to the duties of a constable for the purpose of preventing all violations of law that occur within five hundred (500) feet of any property owned by the school district, if
reasonably determined to have a possible impact on the safety of students, faculty or staff of the school district while on said property. Provided, however, that nothing in this section shall be interpreted to require action by any such peace officer appointed by a school district to events occurring outside the boundaries of school property, nor shall any such school district or its employees be liable for any failure to act to any event occurring outside the boundaries of property owned by the school district.

The Office of Compulsory School Attendance Enforcement shall have the following powers and duties, in addition to all others imposed or granted by law:

(m) To adopt policies or guidelines linking the duties of school attendance officers to the appropriate courts, law enforcement agencies and community service providers; and
(n) To adopt any other policies or guidelines that the office deems necessary for the enforcement of the Mississippi Compulsory School Attendance Law; however, the policies or guidelines shall not add to or contradict with the requirements of Section 37-13-91.

§ 37-13-87. District office supervisors; powers and duties; qualifications; salaries.  
(1) The Director of the Office of Compulsory School Attendance Enforcement shall employ three (3) school attendance officer supervisors, each to maintain an office within a different Supreme Court district. Each supervisor shall be responsible for the enforcement of the Mississippi Compulsory School Attendance Law within his district and shall exercise direct supervision over the school attendance officers in the district. The supervisors, who shall report to the director of the office, shall assist the school attendance officers in the performance of their duties as established by law or otherwise.

(2) No person having less than eight (8) years combined actual experience as a school attendance officer, school teacher, school administrator, law enforcement officer possessing a college degree with a major in a behavioral science or a related field, and/or social worker in the state shall be employed as a school attendance officer supervisor. Further, a school attendance officer supervisor shall possess a college degree with a major in a behavioral science or a related field or shall have actual experience as a school teacher, school administrator, law enforcement officer possessing such degree or social worker; however, these requirements shall not apply to persons employed as school attendance officers before January 1, 1987. School attendance officers shall meet any additional qualifications established by the State Personnel Board for school attendance officers or school attendance officer supervisors. The school attendance officer supervisors shall receive an annual salary to be set by the State Superintendent of Public Education, subject to the approval of the State Personnel Board.

§ 37-13-89. School attendance officers; qualifications; duties; salaries.
(1) In each school district within the state, there shall be employed the number of school attendance officers determined by the Office of Compulsory School Attendance Enforcement to be necessary to adequately enforce the provisions of the Mississippi Compulsory School Attendance Law; however, this number shall not exceed one hundred fifty-three (153) school attendance officers at any time. From and after July 1, 1998, all school attendance officers employed pursuant to this section shall be employees of the State Department of Education. The State Department of Education shall employ all persons employed as school attendance officers by district attorneys before July 1, 1998, and shall assign them to school attendance responsibilities in the school district in which they were employed before July 1, 1998. The first twelve (12) months of employment for each school attendance officer shall be the probationary period of state service.

(2)(a) The State Department of Education shall obtain current criminal records background checks and current child abuse registry checks on all persons applying for the position of school attendance officer after July 2, 2002. The criminal records information and registry checks must be kept on file for any new hires. In order to determine an applicant's suitability for employment as a school attendance officer, the applicant must be fingerprinted. If no disqualifying record is identified at the state level, the Department of Public Safety shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for a national criminal history record check. The applicant shall pay the fee, not to exceed Fifty Dollars ($ 50.00), for the fingerprinting and criminal records background check; however, the State Department of Education, in its discretion, may pay the fee for the fingerprinting and criminal records background check on behalf of any applicant. Under no circumstances may a member of the State Board of Education, employee of the State Department of Education or any person other than the subject of the criminal records background check disseminate information received through any such checks except insofar as required to fulfill the purposes of this subsection.
(b) If the fingerprinting or criminal records check discloses a felony conviction, guilty plea or plea of nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, sex offense listed in Section 45-33-23(h), child abuse, arson, grand larceny, burglary, gratification of lust or aggravated assault which has not been reversed on appeal or for which a pardon has not been granted, the applicant is not eligible to be employed as a school attendance officer. Any employment of an applicant pending the results of the fingerprinting and criminal records check is voidable if the new hire receives a disqualifying criminal records check. However, the State Board of Education, in its discretion, may allow an applicant aggrieved by an employment decision under this subsection to appear before the board, or before a hearing officer designated for that purpose, to show mitigating circumstances that may exist and allow the new hire to be employed as a school attendance officer. The State Board of Education may grant waivers for mitigating circumstances, which may include, but are not necessarily limited to: (i) age at which the crime was committed; (ii) circumstances surrounding the crime; (iii) length of time since the conviction and criminal history since the conviction; (iv) work history; (v) current employment and character references; and (vi) other evidence demonstrating the ability of the person to perform the responsibilities of a school attendance officer competently and that the person does not pose a threat to the health or safety of children.

(3) Each school attendance officer shall possess a college degree with a major in a behavioral science or a related field or shall have no less than three (3) years combined actual experience as a school teacher, school administrator, law enforcement officer possessing such degree, and/or social worker; however, these requirements shall not apply to persons employed as school attendance officers before January 1, 1987. School attendance officers also shall satisfy any additional requirements that may be established by the State Personnel Board for the position of school attendance officer.

Neither the badge nor the identification card shall bear the name of any elected public official.

(6) The State Personnel Board shall develop a salary scale for school attendance officers as part of the variable compensation plan. (7)(a) Each school attendance officer employed by a district attorney on June 30, 1998, who became an employee of the State Department of Education on July 1, 1998, shall be awarded credit for personal leave and major medical leave for his continuous service as a school attendance officer under the district attorney, and if applicable, the youth or family court or a state agency. The credit for personal leave shall be in an amount equal to one-third (1/3) of the maximum personal leave the school attendance officer
could have accumulated had he been credited with such leave under Section 25-3-93 during his employment with the district attorney, and if applicable, the youth or family court or a state agency. The credit for major medical leave shall be in an amount equal to one-half (1/2) of the maximum major medical leave the school attendance officer could have accumulated had he been credited with such leave under Section 25-3-95 during his employment with the district attorney, and if applicable, the youth or family court or a state agency. However, if a district attorney who employed a school attendance officer on June 30, 1998, certifies, in writing, to the State Department of Education that the school attendance officer had accumulated, pursuant to a personal leave policy or major medical leave policy lawfully adopted by the district attorney, a number of days of unused personal leave or major medical leave, or both, which is greater than the number of days to which the school attendance officer is entitled under this paragraph, the State Department of Education shall authorize the school attendance officer to retain the actual unused personal leave or major medical leave, or both, certified by the district attorney, subject to the maximum amount of personal leave and major medical leave the school attendance officer could have accumulated had he been credited with such leave under Sections 25-3-93 and 25-3-95.

(b) For the purpose of determining the accrual rate for personal leave under Section 25-3-93 and major medical leave under Section 25-3-95, the State Department of Education shall give consideration to all continuous service rendered by a school attendance officer before July 1, 1998, in addition to the service rendered by the school attendance officer as an employee of the department.

(c) In order for a school attendance officer to be awarded credit for personal leave and major medical leave or to retain the actual unused personal leave and major medical leave accumulated by him before July 1, 1998, the district attorney who employed the school attendance officer must certify, in writing, to the State Department of Education the hire date of the school attendance officer. For each school attendance officer employed by the youth or family court or a state agency before being designated an employee of the district attorney who has not had a break in continuous service, the hire date shall be the date that the school attendance officer was hired by the youth or family court or state agency. The department shall prescribe the date by which the certification must be received by the department and shall provide written notice to all district attorneys of the certification requirement and the date by which the certification must be received.

(8)(a) School attendance officers shall maintain regular office hours on a year-round basis; however, during the school term, on those days that teachers in all of the school districts served by a school attendance officer are not required to report to work, the school attendance officer also shall not be required to report to work. (For purposes of this subsection, a school district's school term is that period of time identified as the school term in contracts entered into by the district with licensed personnel.) A school attendance officer shall be required to report to work on any day recognized as an official state holiday if teachers in any school district served by that school attendance officer are required to report to work on that day, regardless of the school attendance officer's status as an employee of the State Department of Education, and compensatory leave may not be awarded to the school attendance officer for working during that day. However, a school attendance officer may be allowed by the school attendance officer's supervisor to use earned leave on such days.

(b) The State Department of Education annually shall designate a period of six (6) consecutive weeks in the summer between school years during which school attendance officers shall not be required to report to work. A school attendance officer who elects to work at any time during that period may not be awarded compensatory leave for such work and may not opt to be absent from work at any time other than during the six (6) weeks designated by the department unless the school attendance officer uses personal leave or major medical leave accrued under Section 25-3-93 or 25-3-95 for such absence.
(9) The State Department of Education shall provide all continuing education and training courses that school attendance officers are required to complete under state law or rules and regulations of the department.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

LAWS

§ 160.069. R.S.Mo. Policy on consequences of possession or drinking alcohol at school or during extracurricular activities.
Every school district shall develop a policy by June 30, 2006, detailing the consequences that will result for a student at school if the student is found to be in possession or drinking alcohol either on school property or while representing the school at extracurricular activities.

§ 160.261. R.S.Mo. Discipline, written policy established by local boards of education—contents—reporting requirements—additional restrictions for certain suspensions—weapons offense, mandatory suspension or expulsion—no civil liability for authorized personnel—spanking not child abuse, when—investigation procedure—officials falsifying reports, penalty.
1. The local board of education of each school district shall clearly establish a written policy of discipline, including the district's determination on the use of corporal punishment and the procedures in which punishment will be applied. A written copy of the district's discipline policy and corporal punishment procedures, if applicable, shall be provided to the pupil and parent or legal guardian of every pupil enrolled in the district at the beginning of each school year and also made available in the office of the superintendent of such district, during normal business hours, for public inspection. All employees of the district shall annually receive instruction related to the specific contents of the policy of discipline and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities and instruction in the necessity and requirements for confidentiality.
2. […] The policy shall also contain the consequences of failure to obey standards of conduct set by the local board of education, and the importance of the standards to the maintenance of an atmosphere where orderly learning is possible and encouraged.
9. Each school board shall define in its discipline policy acts of violence and any other acts that constitute a serious violation of that policy. "Acts of violence" as defined by school boards shall include but not be limited to exertion of physical force by a student with the intent to do serious bodily harm to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. School districts shall for each student enrolled in the school district compile and maintain records of any serious violation of the district's discipline policy. Such records shall be made available to teachers and other school district employees with a need to know while acting within the scope of their assigned duties, and shall be provided as required in section 167.020 to any school district in which the student subsequently attempts to enroll.

§ 160.263. R.S.Mo. Confinement of a student prohibited, when—policy on restrictive behavioral interventions required—model policy to be developed.
2. By July 1, 2011, the local board of education of each school district shall adopt a written policy that comprehensively addresses the use of restrictive behavioral interventions as a form of discipline or behavior management technique. The policy shall be consistent with professionally accepted practices and standards of student discipline, behavior management, health and safety, including the safe schools act. The policy shall include but not be limited to:
(1) Definitions of restraint, seclusion, and time-out and any other terminology necessary to describe the continuum of restrictive behavioral interventions available for use or prohibited in the district;

(2) Description of circumstances under which a restrictive behavioral intervention is allowed and prohibited and any unique application requirements for specific groups of students such as differences based on age, disability, or environment in which the educational services are provided;

(3) Specific implementation requirements associated with a restrictive behavioral intervention such as time limits, facility specifications, training requirements or supervision requirements; and

(4) Documentation, notice and permission requirements associated with use of a restrictive behavioral intervention.

1. On or before July 1, 2001, the state board of education shall add to any school facilities and safety criteria developed for the Missouri school improvement program provisions that require:

   (1) Each school district's designated safety coordinator to have a thorough knowledge of all federal, state and local school violence prevention programs and resources available to students, teachers or staff in the district; and

   (2) Each school district to fully utilize all such programs and resources that the local school board or its designee determines are necessary and cost-effective for the school district.

§ 160.775. R.S.Mo. Antibullying policy required-definition-content, requirements.

1. Every district shall adopt an antibullying policy by September 1, 2007.

§ 161.209. R.S.Mo. Rules and policies, department has affirmative duty to seek comment on-review of existing rules and policies, procedure-no penalty for failure to meet resource standards, when.

1. The department of elementary and secondary education has an affirmative duty to seek comment on its rules, regulations, and policies after their final approval or implementation. The department shall undertake such review on existing rules, regulations, and policies on an ad hoc, periodic basis with a priority given to such rules, regulations, and policies that could successfully be revised without affecting student achievement to accommodate periods when there is no increase in the appropriation for basic state aid funding pursuant to section 163.031 from one fiscal year to the next or when withholdings of appropriated funds result in a situation equivalent to no increase in such appropriation.

§ 161.210. R.S.Mo. State board may modify or waive rules, when.

State board may modify or waive rules, when

1. Notwithstanding any provision of law to the contrary, the state board of education is hereby granted authority to waive or modify any administrative rule adopted by the state board or policy implemented by the department of elementary and secondary education. School districts may submit applications for a waiver or modification authorized pursuant to this section. Each application shall include a written request by the school district or school districts and shall demonstrate that the intent of the rule or policy can be addressed in a more effective, efficient or economical manner or that the waiver or modification is necessary to implement a specific plan for improved student performance and school improvement. Prior to an application for waiver, the school district shall hold a public hearing regarding such waiver.

2. The state board of education may grant waivers or modifications for a school district or school districts that successfully demonstrate the ability to address the intent of the rule or policy in a more effective, efficient or economical manner or when the waivers or modifications are demonstrated to be necessary to stimulate innovation or improve student performance, provided that the waiver or
modification is based upon sound educational practices, does not endanger the health and safety of students or staff, and does not compromise equal opportunity for learning. Approved waivers or modifications shall remain in effect for a period not to exceed three school years and may be renewed by the state board of education upon application by the school district or school districts.

§ 171.011. R.S.Mo. School board may adopt rules and regulations.
The school board of each school district in the state may make all needful rules and regulations for the organization, grading and government in the school district. The rules shall take effect when a copy of the rules, duly signed by order of the board, is deposited with the district clerk. The district clerk shall transmit forthwith a copy of the rules to the teachers employed in the schools. The rules may be amended or repealed in like manner.

Discipline, written policy established by local boards of education-contents-reporting requirements-additional restrictions for certain suspensions-weapons offense, mandatory suspension or expulsion-no civil liability for authorized personnel-spanking not child abuse, when-investigation procedure-officials falsifying reports, penalty.

1. The local board of education of each school district shall clearly establish a written policy of discipline, including the district's determination on the use of corporal punishment and the procedures in which punishment will be applied. A written copy of the district's discipline policy and corporal punishment procedures, if applicable, shall be provided to the pupil and parent or legal guardian of every pupil
enrolled in the district at the beginning of each school year and also made available in the office of the superintendent of such district, during normal business hours, for public inspection. All employees of the district shall annually receive instruction related to the specific contents of the policy of discipline and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities and instruction in the necessity and requirements for confidentiality.

10. Spanking, when administered by certificated personnel and in the presence of a witness who is an employee of the school district, or the use of reasonable force to protect persons or property, when administered by personnel of a school district in a reasonable manner in accordance with the local board of education's written policy of discipline, is not abuse within the meaning of chapter 210. The provisions of sections 210.110 to 210.165 notwithstanding, the children's division shall not have jurisdiction over or investigate any report of alleged child abuse arising out of or related to the use of reasonable force to protect persons or property when administered by personnel of a school district or any spanking administered in a reasonable manner by any certificated school personnel in the presence of a witness who is an employee of the school district pursuant to a written policy of discipline established by the board of education of the school district, as long as no allegation of sexual misconduct arises from the spanking or use of force.

11. If a student reports alleged sexual misconduct on the part of a teacher or other school employee to a person employed in a school facility who is required to report such misconduct to the children's division under section 210.115, such person and the superintendent of the school district shall report the allegation to the children's division as set forth in section 210.115. Reports made to the children's division under this subsection shall be investigated by the division in accordance with the provisions of sections 210.145 to 210.153 and shall not be investigated by the school district under subsections 12 to 20 of this section for purposes of determining whether the allegations should or should not be substantiated. The district may investigate the allegations for the purpose of making any decision regarding the employment of the accused employee.

12. Upon receipt of any reports of child abuse by the children's division other than reports provided under subsection 11 of this section, pursuant to sections 210.110 to 210.165 which allegedly involve personnel of a school district, the children's division shall notify the superintendent of schools of the district or, if the person named in the alleged incident is the superintendent of schools, the president of the school board of the school district where the alleged incident occurred.

13. If, after an initial investigation, the superintendent of schools or the president of the school board finds that the report involves an alleged incident of child abuse other than the administration of a spanking by certificated school personnel or the use of reasonable force to protect persons or property when administered by school personnel pursuant to a written policy of discipline or that the report was made for the sole purpose of harassing a public school employee, the superintendent of schools or the president of the school board shall immediately refer the matter back to the children's division and take no further action. In all matters referred back to the children's division, the division shall treat the report in the same manner as other reports of alleged child abuse received by the division.

14. If the report pertains to an alleged incident which arose out of or is related to a spanking administered by certificated personnel or the use of reasonable force to protect persons or property when administered by personnel of a school district pursuant to a written policy of discipline or a report made for the sole purpose of harassing a public school employee, a notification of the reported child abuse shall be sent by the superintendent of schools or the president of the school board to the law enforcement in the county in which the alleged incident occurred.
15. The report shall be jointly investigated by the law enforcement officer and the superintendent of schools or, if the subject of the report is the superintendent of schools, by a law enforcement officer and the president of the school board or such president's designee.

16. The investigation shall begin no later than forty-eight hours after notification from the children's division is received, and shall consist of, but need not be limited to, interviewing and recording statements of the child and the child's parents or guardian within two working days after the start of the investigation, of the school district personnel allegedly involved in the report, and of any witnesses to the alleged incident.

17. The law enforcement officer and the investigating school district personnel shall issue separate reports of their findings and recommendations after the conclusion of the investigation to the school board of the school district within seven days after receiving notice from the children's division.

18. The reports shall contain a statement of conclusion as to whether the report of alleged child abuse is substantiated or is unsubstantiated.

19. The school board shall consider the separate reports referred to in subsection 17 of this section and shall issue its findings and conclusions and the action to be taken, if any, within seven days after receiving the last of the two reports. The findings and conclusions shall be made in substantially the following form:

   (1) The report of the alleged child abuse is unsubstantiated. The law enforcement officer and the investigating school board personnel agree that there was not a preponderance of evidence to substantiate that abuse occurred;

   (2) The report of the alleged child abuse is substantiated. The law enforcement officer and the investigating school district personnel agree that the preponderance of evidence is sufficient to support a finding that the alleged incident of child abuse did occur;

   (3) The issue involved in the alleged incident of child abuse is unresolved. The law enforcement officer and the investigating school personnel are unable to agree on their findings and conclusions on the alleged incident.

20. The findings and conclusions of the school board under subsection 19 of this section shall be sent to the children's division. If the findings and conclusions of the school board are that the report of the alleged child abuse is unsubstantiated, the investigation shall be terminated, the case closed, and no record shall be entered in the children's division central registry. If the findings and conclusions of the school board are that the report of the alleged child abuse is substantiated, the children's division shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school board, however, the incident and the names of the parties involved shall not be entered into the central registry of the children's division unless and until the alleged child abuse is substantiated by a court of competent jurisdiction.

21. Any superintendent of schools, president of a school board or such person's designee or law enforcement officer who knowingly falsifies any report of any matter pursuant to this section or who knowingly withholds any information relative to any investigation or report pursuant to this section is guilty of a class A misdemeanor.

§ 563.061. R.S.Mo. Use of force by persons with responsibility for care, discipline or safety of others.

The use of physical force by an actor upon another person is justifiable when the actor is a parent, guardian or other person entrusted with the care and supervision of a minor or an incompetent person or
when the actor is a teacher or other person entrusted with the care and supervision of a minor for a special purpose; and

(1) The actor reasonably believes that the force used is necessary to promote the welfare of a minor or incompetent person, or, if the actor's responsibility for the minor is for special purposes, to further that special purpose or to maintain reasonable discipline in a school, class or other group; and

Discipline, written policy established by local boards of education—contents—reporting requirements—additional restrictions for certain suspensions—weapons offense, mandatory suspension or expulsion—no civil liability for authorized personnel—spanking not child abuse, when—investigation procedure—officials falsifying reports, penalty.

3. The policy shall provide that any student who is on suspension for any of the offenses listed in subsection 2 of this section or any act of violence or drug-related activity defined by school district policy as a serious violation of school discipline pursuant to subsection 9 of this section shall have as a condition of his or her suspension the requirement that such student is not allowed, while on such suspension, to be within one thousand feet of any school property in the school district where such student attended school or any activity of that district, regardless of whether or not the activity takes place on district property unless:

   (1) Such student is under the direct supervision of the student’s parent, legal guardian, or custodian and the superintendent or the superintendent’s designee has authorized the student to be on school property;

   (2) Such student is under the direct supervision of another adult designated by the student’s parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student and the superintendent or the superintendent’s designee has authorized the student to be on school property;

   (3) Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the school district where such student attended school; or

   (4) Such student resides within one thousand feet of any public school in the school district where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.

4. Any student who violates the condition of suspension required pursuant to subsection 3 of this section may be subject to expulsion or further suspension pursuant to the provisions of sections 167.161, 167.164, and 167.171. In making this determination consideration shall be given to whether the student poses a threat to the safety of any child or school employee and whether such student’s unsupervised presence within one thousand feet of the school is disruptive to the educational process or undermines the effectiveness of the school’s disciplinary policy. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. This section shall not limit a school district’s ability to:

   (1) Prohibit all students who are suspended from being on school property or attending an activity while on suspension;
(2) Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.

5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:

   (1) The superintendent or, in a school district with no high school, the principal of the school which such child attends may modify such suspension on a case-by-case basis; and

   (2) This section shall not prevent the school district from providing educational services in an alternative setting to a student suspended under the provisions of this section.

22. In order to ensure the safety of all students, should a student be expelled for bringing a weapon to school, violent behavior, or for an act of school violence, that student shall not, for the purposes of the accreditation process of the Missouri school improvement plan, be considered a dropout or be included in the calculation of that district’s educational persistence ratio.

§ 167.023. R.S.Mo. Affidavit of expulsion for certain offenses required for student admission-false statements, penalty.

Any person making a materially false statement or affirmation shall be guilty upon conviction of a class B misdemeanor. The registration document shall be maintained as a part of the student’s scholastic record.

§ 167.161. R.S.Mo. Suspension or expulsion of pupil-notice-hearing-felony violation, grounds for suspension.

1. The school board of any district, after notice to parents or others having custodial care and a hearing upon charges preferred, may suspend or expel a pupil for conduct which is prejudicial to good order and discipline in the schools or which tends to impair the morale or good conduct of the pupils. In addition to the authority granted in section 167.171, a school board may authorize, by general rule, the immediate removal of a pupil upon a finding by the principal, superintendent, or school board that the pupil poses a threat of harm to such pupil or others, as evidenced by the prior conduct of such pupil. Prior disciplinary actions shall not be used as the sole basis for removal, suspension or expulsion of a pupil. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. At the hearing upon any such removal, suspension or expulsion, the board shall consider the evidence and statements that the parties present and may consider records of past disciplinary actions, criminal court records or juvenile court records consistent with other provisions of the law, or the actions of the pupil which would constitute a criminal offense. The board may provide by general rule not inconsistent with this section for the procedure and conduct of such hearings. After meeting with the superintendent or his designee to discuss the expulsion, the parent, custodian or the student, if at least eighteen years of age, may, in writing, waive any right to a hearing before the board of education.

3. The school board shall make a good-faith effort to have the parents or others having custodial care present at any such hearing. Notwithstanding any other provision of law to the contrary, student discipline hearings or proceedings related to the rights of students to attend school or to receive academic credit shall not be required to comply with the requirements applicable to contested case hearings as provided in chapter 536, provided that appropriate due process procedures shall be observed which shall include the right for a trial de novo by the circuit court.
4. If a pupil is attempting to enroll in a school district during a suspension or expulsion from another in-state or out-of-state school district including a private, charter or parochial school or school district, a conference with the superintendent or the superintendent's designee may be held at the request of the parent, court-appointed legal guardian, someone acting as a parent as defined by rule in the case of a special education student, or the pupil to consider if the conduct of the pupil would have resulted in a suspension or expulsion in the district in which the pupil is enrolling. Upon a determination by the superintendent or the superintendent's designee that such conduct would have resulted in a suspension or expulsion in the district in which the pupil is enrolling or attempting to enroll, the school district may make such suspension or expulsion from another school or district effective in the district in which the pupil is enrolling or attempting to enroll. Upon a determination by the superintendent or the superintendent's designee that such conduct would not have resulted in a suspension or expulsion in the district in which the student is enrolling or attempting to enroll, the school district shall not make such suspension or expulsion effective in its district in which the student is enrolling or attempting to enroll.

1. In case of a suspension by the superintendent for more than ten school days, the pupil, the pupil's parents or others having such pupil's custodial care may appeal the decision of the superintendent to the board or to a committee of board members appointed by the president of the board which shall have full authority to act in lieu of the board. Any suspension by a principal shall be immediately reported to the superintendent who may revoke the suspension at any time. In event of an appeal to the board, the superintendent shall promptly transmit to it a full report in writing of the facts relating to the suspension, the action taken by the superintendent and the reasons therefor and the board, upon request, shall grant a hearing to the appealing party to be conducted as provided in section 167.161.

2. No pupil shall be suspended unless:

   (1) The pupil shall be given oral or written notice of the charges against such pupil;

   (2) If the pupil denies the charges, such pupil shall be given an oral or written explanation of the facts which form the basis of the proposed suspension;

   (3) The pupil shall be given an opportunity to present such pupil's version of the incident; and

   (4) In the event of a suspension for more than ten school days, where the pupil gives notice that such pupil wishes to appeal the suspension to the board, the suspension shall be stayed until the board renders its decision, unless in the judgment of the superintendent of schools, or of the district superintendent, the pupil's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process, in which case the pupil may be immediately removed from school, and the notice and hearing shall follow as soon as practicable.

§ 167.171. Summary suspension of pupil—appeal—grounds for suspension—procedure—conference required, when—statewide suspension, when.

1. The school board in any district, by general rule and for the causes provided in section 167.161, may authorize the summary suspension of pupils by principals of schools for a period not to exceed ten school days and by the superintendent of schools for a period not to exceed one hundred and eighty school days. In case of a suspension by the superintendent for more than ten school days, the pupil, the pupil's parents or others having such pupil's custodial care may appeal the decision of the superintendent to the board or to a committee of board members appointed by the president of the board which shall have full authority to act in lieu of the board. Any suspension by a principal shall be immediately reported to the superintendent who may revoke the suspension at any time. In event of an appeal to the board, the superintendent shall promptly transmit to it a full report in writing of the facts relating to the suspension, the action taken by the superintendent and the reasons therefor and the board, upon request, shall grant a hearing to the appealing party to be conducted as provided in section 167.161.

2. No pupil shall be suspended unless:
   (1) The pupil shall be given oral or written notice of the charges against such pupil;
   (2) If the pupil denies the charges, such pupil shall be given an oral or written explanation of the facts which form the basis of the proposed suspension;
   (3) The pupil shall be given an opportunity to present such pupil's version of the incident; and
   (4) In the event of a suspension for more than ten school days, where the pupil gives notice that such pupil wishes to appeal the suspension to the board, the suspension shall be stayed until the board renders its decision, unless in the judgment of the superintendent of schools, or of the district superintendent, the pupil's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process, in which case the pupil may be immediately removed from school, and the notice and hearing shall follow as soon as practicable.

3. No school board shall readmit or enroll a pupil properly suspended for more than ten consecutive school days for an act of school violence as defined in subsection 2 of section 160.261 regardless of whether or not such act was committed at a public school or at a private school in this state, provided that such act shall have resulted in the suspension or expulsion of such pupil in the case of a private school, or otherwise permit such pupil to attend school without first holding a conference to review the conduct that resulted in the expulsion or suspension and any remedial actions needed to prevent any future occurrences of such or related conduct. The conference shall include the appropriate school officials including any teacher employed in that school or district directly involved with the conduct that resulted in the suspension or expulsion, the pupil, the parent or guardian of the pupil or any agency having legal jurisdiction, care, custody or control of the pupil. The school board shall notify in writing the parents or guardians and all other parties of the time, place, and agenda of any such conference. Failure of any party to attend this conference shall not preclude holding the conference. Notwithstanding any provision of this subsection to the contrary, no pupil shall be readmitted or enrolled to a regular program of instruction if:
   (1) Such pupil has been convicted of; or
   (2) An indictment or information has been filed alleging that the pupil has committed one of the acts enumerated in subdivision (4) of this subsection to which there has been no final judgment; or
(3) A petition has been filed pursuant to section 211.091 alleging that the pupil has committed one of the acts enumerated in subdivision (4) of this subsection to which there has been no final judgment; or
(4) The pupil has been adjudicated to have committed an act which if committed by an adult would be one of the following:

This subsection shall not apply to a student with a disability, as identified under state eligibility criteria, who is convicted or adjudicated guilty as a result of an action related to the student's disability. Nothing in this subsection shall be construed to prohibit a school district which provides an alternative education program from enrolling a pupil in an alternative education program if the district determines such enrollment is appropriate.

4. If a pupil is attempting to enroll in a school district during a suspension or expulsion from another in-state or out-of-state school district including a private, charter or parochial school or school district, a conference with the superintendent or the superintendent's designee may be held at the request of the parent, court-appointed legal guardian, someone acting as a parent as defined by rule in the case of a special education student, or the pupil to consider if the conduct of the pupil would have resulted in a suspension or expulsion in the district in which the pupil is enrolling. Upon a determination by the superintendent or the superintendent's designee that such conduct would have resulted in a suspension or expulsion in the district in which the pupil is enrolling or attempting to enroll, the school district may make such suspension or expulsion from another school or district effective in the district in which the pupil is enrolling or attempting to enroll. Upon a determination by the superintendent or the superintendent's designee that such conduct would not have resulted in a suspension or expulsion in the district in which the student is enrolling or attempting to enroll, the school district shall not make such suspension or expulsion effective in its district in which the student is enrolling or attempting to enroll.

The school board, through its officers, may assign, require and compel all such children to attend the special truant or parental school or any department of the graded schools that the board directs.

2. The board may also establish and maintain from the public school funds, either within or without its district, a parental school for the care and education of any child resident of the school district and committed to it by a juvenile court under the provisions of section 211.181. For every child committed to the school there shall be paid to the board of education out of the treasury of the city or county the sum of ten dollars per month for the support, maintenance, clothing and other expenses of the child from the time of its entrance into the school until its discharge therefrom.

The local board of education shall define weapon in the discipline policy. Such definition shall include the weapons defined in this subsection but may also include other weapons.

When reasonable doubt exists as to the age of any such child he may require a properly attested birth certificate or an affidavit stating the child’s age, date of birth, physical characteristics and bearing the signature of the child. He may visit and enter any mine, office, factory, workshop, business house, place of amusement, or other place in which children are employed or engaged in any kind of service, or any place or building in which children loiter or idle during school hours; may require a properly attested certificate of the attendance of any child at school; may arrest, without warrant, any truant, or nonattendants or other juvenile disorderly persons, and place them in some school or take them to their homes, or take them to any place of detention provided for neglected children in the county or school district. The policy shall require that any portion of a student's individualized education program that is related to demonstrated or potentially violent behavior shall be provided to any teacher and other school district employees who are directly responsible for the student's education or who otherwise interact with the student on an educational basis while acting within the scope of their assigned duties. The policy shall also contain the consequences of failure to obey standards of conduct set by the local board of education, and the importance of the standards to the maintenance of an atmosphere where orderly learning is possible and encouraged.

14. If the report pertains to an alleged incident which arose out of or is related to a spanking administered by certificated personnel or the use of reasonable force to protect persons or property when administered by personnel of a school district pursuant to a written policy of discipline or a report made for the sole purpose of harassing a public school employee, a notification of the reported child abuse shall be sent by the superintendent of schools or the president of the school board to the law enforcement in the county in which the alleged incident occurred.

15. The report shall be jointly investigated by the law enforcement officer and the superintendent of schools or, if the subject of the report is the superintendent of schools, by a law enforcement officer and the president of the school board or such president's designee.
16. The investigation shall begin no later than forty-eight hours after notification from the children's division is received, and shall consist of, but need not be limited to, interviewing and recording statements of the child and the child's parents or guardian within two working days after the start of the investigation, of the school district personnel allegedly involved in the report, and of any witnesses to the alleged incident.

18. The reports shall contain a statement of conclusion as to whether the report of alleged child abuse is substantiated or is unsubstantiated.

19. The school board shall consider the separate reports referred to in subsection 17 of this section and shall issue its findings and conclusions and the action to be taken, if any, within seven days after receiving the last of the two reports. The findings and conclusions shall be made in substantially the following form:

   (1) The report of the alleged child abuse is unsubstantiated. The law enforcement officer and the investigating school board personnel agree that there was not a preponderance of evidence to substantiate that abuse occurred;

   (2) The report of the alleged child abuse is substantiated. The law enforcement officer and the investigating school district personnel agree that the preponderance of evidence is sufficient to support a finding that the alleged incident of child abuse did occur;

20. The findings and conclusions of the school board under subsection 19 of this section shall be sent to the children's division. If the findings and conclusions of the school board are that the report of the alleged child abuse is unsubstantiated, the investigation shall be terminated, the case closed, and no record shall be entered in the children's division central registry. If the findings and conclusions of the school board are that the report of the alleged child abuse is substantiated, the children's division shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school board and shall include the information in the division's central registry. If the findings and conclusions of the school board are that the issue involved in the alleged incident of child abuse is unresolved, the children's division shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school board, however, the incident and the names of the parties allegedly involved shall not be entered into the central registry of the children's division unless and until the alleged child abuse is substantiated by a court of competent jurisdiction.

Upon conviction and pending any judicial appeal, the defendant shall be required to enroll the child in a public, private, parochial, parish or home school within three public school days, after which each successive school day shall constitute a separate violation of section 167.031. The fine or imprisonment, or both, may be suspended and finally remitted by the court, with or without the payment of costs, at the discretion of the court, if the child is
immediately placed and kept in regular attendance at a public, private, parochial, parish or home school and if the fact of regular attendance is proved subsequently to the satisfaction of the court. All funds made available to the department for the purposes of sections 161.500 to 161.508 shall be administered and disbursed by the department in consultation with the state drug-free school advisory committee established in section 161.508.

2. Where it can be demonstrated that personnel costs are essential to the success of the program and that sufficient law enforcement and school personnel are not available to carry out the program, exceptions to this section may be requested through the department.

10. No more than ten percent of the total amount of funds disbursed under this section shall be used for administrative costs.

§ 161.650 R.S.Mo. Department to identify and adopt violence prevention program, district to administer state board to adopt violence prevention program-duties-administered how-funding.

   (1) The department may fund the program or programs adopted pursuant to this section or pursuant to subsection 2 of section 160.530, or both, after securing any funding available from alternative sources; and

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer's knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Exclusion time-out is defined as any removal of a student from a regularly scheduled activity for disciplinary purposes that does not result in placing the student in an isolation room under all of the conditions described in (2)(b).

(6) IEPs may include the use of aversive treatment procedures only when:

(a) Subsequent to a functional behavioral assessment, a series of no less than two written positive behavioral intervention strategies, which were designed to target the behavior to be changed, were previously implemented;

20-5-105. Attendance officer - powers and duties.
The attendance officer of a district:

(1) Must, subject to district policy, be vested with police powers, the authority to serve warrants, and the authority to enter places of employment of children in order to enforce the compulsory attendance provisions of this title;

(2) May, subject to district policy, take into custody any child subject to compulsory attendance who is not excused under the provisions of this title and conduct the child to the school in which the child is or should be enrolled;

(3) May, subject to district policy, do whatever else is required to investigate and enforce the compulsory attendance provisions of this title and the pupil attendance policies of the trustees;

(4) May, subject to district policy, institute proceedings against any parent, guardian, or other person violating the compulsory attendance provisions of this title;

(5) May, subject to district policy, keep a record of transactions for the inspection and information of the trustees and shall make reports in the manner and to whomever the trustees designate; and

(6) May, subject to district policy, perform any other duties prescribed by the trustees to preserve the morals and secure good conduct of the pupils of the district.

20-5-106. Truancy.
(1) For the purposes of this part "truant" or "truancy" means the persistent nonattendance without excuse, as defined by district policy, for all or any part of a school day equivalent to the length of one class period of a child required to attend a school under 20-5-103.

(2) If an attendance officer discovers a child is truant, the attendance officer may make a reasonable effort to notify the parent, guardian, or other person responsible for the care of the child that the continued truancy of the child may result in the prosecution of the parent, guardian, or other person responsible for the care of the child under the provisions of this section. If the child is discovered to be truant after the
attendance officer has made a reasonable effort to notify the parent, guardian, or other person responsible for the care of the child, the attendance officer may require that the parent, guardian, or other person responsible for the care of the child and the child meet with an individual designated by the school district to formulate a truancy plan to address and resolve the truancy. If the parent, guardian, or other person responsible for the care of the child fails to meet with the designated individual or fails to uphold the responsibilities under the provisions of the truancy plan, the attendance officer may refer the matter to the prosecuting attorney in a court of competent jurisdiction for a determination regarding whether to prosecute the parent, guardian, or other person responsible for the care of the child.

(3)(a) If convicted, the person shall be fined not more than $100, ordered to perform up to 20 hours of community service, or required to give bond in the penal sum of $100, with sureties, conditioned on the person's agreement to cooperate with the district in implementing the truancy plan provided for in subsection (2) for the remainder of the current school term.

(b) If a person fails to comply with an order of the court issued under subsection (3)(a), the person may be imprisoned in the county jail for a term of not more than 3 days.

(4)(a) If the child is discovered by the attendance officer to be truant on 9 or more days or 54 or more parts of a day in 1 school year, the child may be referred to youth court as habitually truant under Title 41, chapter 5.

(b) Following a referral to youth court under subsection (4)(a), an attendance officer shall inform the youth court of any subsequent truancies by the child, and the youth court may find the child to be a youth in need of intervention pursuant to 41-5-103 and make any of the dispositions provided in 41-5-1512."

20-5-107. Incapacitated and indigent child attendance.
In lieu of the provisions of 20-5-106 and when an attendance officer is satisfied that a pupil or a child subject to compulsory attendance is not able to attend school because the child does not have the physical capacity or the child is absolutely required to work at home or elsewhere in order to provide support for the child or the child's family, the attendance officer shall report the case to the authorities charged with the relief of the poor. The welfare authorities shall offer relief that will enable the child to attend school. If the parent, guardian, or other person who is responsible for the care of the child denies or neglects the assistance offered to enable the child to attend school, the child must be committed to a state institution, at the discretion of the court.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

R.R.S. Neb. § 79-257. School board or board of education; emergency disciplinary actions; authorized.
The school board or board of education may authorize the emergency exclusion, short-term or long-term suspension, expulsion, or mandatory reassignment of any pupil from school for conduct prohibited by the board's rules or standards established pursuant to the Student Discipline Act if such emergency exclusion, short-term or long-term suspension, expulsion, or mandatory reassignment complies with the procedures required by the act.

R.R.S. Neb. § 79-258. Administrative and teaching personnel; authorized actions.
Administrative and teaching personnel may take actions regarding student behavior, other than those specifically provided in the Student Discipline Act, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but need not be limited to, counseling of students, parent conferences, referral to restorative justice practices or services, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation.

Notwithstanding any other provisions contained in the Student Discipline Act, the school board or board of education may by rule specify a particular action as a sanction for particular conduct. Any such action must be otherwise authorized by section 79-258, 79-265, or 79-267. Any such rule shall be binding on all students, school officials, board members, and hearing examiners. Expulsion may be specified as a sanction for particular conduct only if the school board or board of education finds that the type of conduct for which expulsion is specified has the potential to seriously affect the health, safety, or welfare of the student, other students, staff members, or any other person or to otherwise seriously interfere with the educational process. On or before August 1 of each
year, all school boards shall annually review in collaboration with the county attorney of the county in which the principal office of the school district is located the rules and standards concerning student conduct adopted by the school board and the provisions of section 79-267 to define conduct which the principal or designee is required to report to law enforcement under section 79-293.

For purposes of this section, firearm means a firearm as defined in 18 U.S.C. 921. The policy shall authorize the superintendent or the school board or board of education to modify the expulsion requirement on an individual basis.

(2) Each school district shall provide annually to the State Department of Education:
   (a) An assurance that the school district has in effect the policy required by subsection (1) of this section; and

(1) The school board or board of education shall establish and promulgate rules and standards concerning student conduct which are reasonably necessary to carry out or to prevent interference with carrying out any educational function, if such rules and standards are clear and definite so as to provide clear notice to the student and his or her parent or guardian as to the conduct prescribed, prohibited, or required under the rules and standards. Notwithstanding any other provisions contained in the Student Discipline Act, the school board or board of education may by rule specify a particular action as a sanction for particular conduct. Any such action must be otherwise authorized by section 79-258, 79-265, or 79-267. Any such rule shall be binding on all students, school officials, board members, and hearing examiners. require participation in a plan pursuant to subsection (2) of this section or assign the student to a school, class, or educational program which the school district deems appropriate.

At the conclusion of such suspension period, the school district shall

(a) Reinstall any student who has satisfactorily participated in a plan pursuant to subsection (2) of this section or the school, class, or educational program to which such student has been assigned and permit the student to return to the school of former attendance or to attend other programs offered by the district or

R.R.S. Neb. § 79-264. Student; exclusion; circumstances; emergency exclusion; procedure.

(3) If the superintendent or his or her designee determines that such emergency exclusion shall extend beyond five days, the school board shall adopt a procedure for a hearing to be held and a final determination made within ten school days after the initial date of exclusion. Such procedure shall substantially comply with the provisions of sections 79-266 to 79-287, and such provisions shall be modified only to the extent necessary to accomplish the hearing and determination within this shorter time period.

R.R.S. Neb. § 79-265. Principal; suspend student; grounds; procedure; written statement; conference; guidelines for completion of classwork.

(3) Before such short-term suspension takes effect, the student shall be given oral or written notice of the charges against him or her, an explanation of the evidence the authorities have, and an opportunity to present his or her version.

(4) Within twenty-four hours or such additional time as is reasonably necessary following such suspension, the principal shall send a written statement to the student and his or her parent or guardian describing the student’s conduct, misconduct, or violation of the rule or standard and the reasons for the action taken. The principal shall make a reasonable effort to hold a conference with the parent or guardian before or at the time the student returns to school.

(5) Any student who is suspended pursuant to this section may be given an opportunity to complete any class work, including, but not limited to, examinations, missed during the period of suspension. Each public school district shall develop and adopt guidelines stating the criteria school officials shall use in determining whether and to what extent such opportunity for completion will be granted to suspended students. The guidelines shall be provided to the student and parent or guardian at the time of suspension.

R.R.S. Neb. § 79-268. Long-term suspension, expulsion, or mandatory reassignment; procedures; enumerated.

If a principal makes a decision to discipline a student by long-term suspension, expulsion, or mandatory reassignment, the following procedures shall be followed:

(1) On the date of the decision, a written charge and a summary of the evidence supporting such charge shall be filed with the superintendent. The school shall, within two school days after the decision, send written notice by registered or certified mail to the student and his or her parent or guardian informing them of the rights established under the Student Discipline Act;

(2) Such written notice shall include the following:

(a) The rule or standard of conduct allegedly violated and the acts of the student alleged to constitute a cause for long-term suspension, expulsion, or mandatory reassignment, including a summary of the evidence to be presented against the student;

(b) The penalty, if any, which the principal has recommended in the charge and any other penalty to which the student may be subject;
(c) A statement that, before long-term suspension, expulsion, or mandatory reassignment for disciplinary purposes can be invoked, the student has a right to a hearing, upon request, on the specified charges;

(d) A description of the hearing procedures provided by the act, along with procedures for appealing any decision rendered at the hearing;

(e) A statement that the principal, legal counsel for the school, the student, the student's parent, or the student's representative or guardian has the right (i) to examine the student's academic and disciplinary records and any affidavits to be used at the hearing concerning the alleged misconduct and (ii) to know the identity of the witnesses to appear at the hearing and the substance of their testimony; and

(f) A form on which the student, the student's parent, or the student's guardian may request a hearing, to be signed by such parties and delivered to the principal or superintendent in person or by registered or certified mail as prescribed in sections 79-271 and 79-272; and

(3) When a notice of intent to discipline a student by long-term suspension, expulsion, or mandatory reassignment is filed with the superintendent, the student may be suspended by the principal until the date the long-term suspension, expulsion, or mandatory reassignment takes effect if no hearing is requested or, if a hearing is requested, the date the hearing examiner makes the report of his or her findings and a recommendation of the action to be taken to the superintendent, if the principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of

(a) Interference with an educational function or school purpose or

(b) A personal injury to the student himself or herself, other students, school employees, or school volunteers.

The Student Discipline Act does not preclude the student or the student's parent, guardian, or representative from discussing and settling the matter with appropriate school personnel prior to the hearing stage.

R.R.S. Neb. § 79-269. Long-term suspension, expulsion, or mandatory reassignment; hearing; procedure; hearing examiner; how designated; examination of records.

(1) If a hearing is requested within five school days after receipt of the notice as provided in section 79-268, the superintendent shall appoint a hearing examiner who shall, within two school days after being appointed, give written notice to the principal, the student, and the student's parent or guardian of the time and place for the hearing.

(2) The hearing examiner shall be any person designated by the school district's superintendent, school board or board of education, or counsel, if such person (a) has not brought the charges against the student, (b) shall not be a witness at the hearing, and (c) has no involvement in the charge.

(3) The hearing shall be scheduled within a period of five school days after it is requested, but such time may be changed by the hearing examiner for good cause. (4) The principal or legal counsel for the school, the student, and the student's parent, guardian, or representative have the right to examine the records and written statements referred to in the Student Discipline Act as well as the statement of any witness in the possession of the school board or board of education at a reasonable time prior to the hearing.
In addition to the other duties provided in the Student Discipline Act, the hearing examiner shall remain impartial throughout all deliberations. The hearing examiner shall be available prior to any hearing held pursuant to the act to answer any questions the principal, the student, or the student's parent or guardian may have regarding the nature and conduct of the hearing.

If a hearing is not requested under sections 79-268 and 79-269 by the student or the student's parent or guardian within five school days following receipt of the written notice, the punishment recommended in the charge by the principal or his or her designee shall automatically go into effect upon the fifth school day following receipt of the written notice by the student or his or her parent or guardian as required in section 79-268.

R.R.S. Neb. § 79-272. Hearing; requested within thirty days; effect.
If a hearing is requested under sections 79-268 and 79-269 more than five school days but not more than thirty calendar days following the actual receipt of written notice, the hearing shall be held but the imposed punishment shall continue in effect pending final determination.

R.R.S. Neb. § 79-273. Hearing; by whom attended; witnesses; student excluded; when.
Any hearing conducted pursuant to the Student Discipline Act shall be attended by the hearing examiner, the student, the student's parent or guardian, the student's representative, if any, and counsel for the school board or board of education, if the hearing examiner or the superintendent deems it advisable. Witnesses shall be present only when they are giving information at the hearing. The student may be excluded in the discretion of the hearing examiner at times when the student's psychological evaluation or emotional problems are being discussed. The student's representative may be an attorney. The hearing examiner may exclude anyone from the hearing when his or her actions substantially disrupt an orderly hearing.

At a hearing requested under sections 79-268 and 79-269, the student may speak in his or her own defense and may be questioned on his or her testimony, but he or she may choose not to testify and, in such case, shall not be threatened with punishment nor be later punished for refusal to testify.

At a hearing requested under sections 79-268 and 79-269, the principal shall present to the hearing examiner statements, in affidavit form, of any person having information about the student's conduct and the student's records but not unless such statements and records have been made available to the student or the student's parent, guardian, or representative prior to the hearing. The information contained in such records shall be explained and interpreted, prior to or at the hearing, to the student, parent, guardian, or representative, upon request, by appropriate school personnel.

(1) The student, the student's parent, guardian, or representative, the principal, or the hearing examiner may ask witnesses to testify at the hearing requested under sections 79-268 and 79-269. Such testimony shall be under oath, and the hearing examiner shall be authorized to administer the oath. The hearing...
examiner shall make reasonable effort to assist the student or the student's parent, guardian, or representative in obtaining the attendance of witnesses.

(2) The student, the student's parent, guardian, or representative, the principal, or the hearing examiner has the right to question any witness giving information at the hearing.

R.R.S. Neb. § 79-279. Hearing; witnesses; immunity.
Any person giving evidence by written statement or in person at a hearing requested under sections 79-268 and 79-269 shall be given the same immunity from liability as a person testifying in a court case.

R.R.S. Neb. § 79-280. Hearing; recorded; how paid.
The proceedings of the hearing requested under sections 79-268 and 79-269 shall be recorded at the expense of the school district.

R.R.S. Neb. § 79-281. Hearing; joint hearing; separate hearings; when.
(1) When more than one student is charged with violating the same rule and having acted in concert and when the facts are substantially the same for all such students, a single hearing requested under sections 79-268 and 79-269 may be conducted for such students as a group if the hearing examiner believes that a single hearing is not likely to result in confusion and that no student shall have his or her interests substantially prejudiced by a single hearing.

(2) If during the conduct of the hearing the hearing examiner finds that a student's interests will be substantially prejudiced by a group hearing or that the hearing is resulting in confusion, the hearing examiner may order a separate hearing for any student.

R.R.S. Neb. § 79-282. Hearing; hearing examiner; report; contents; review; final disposition; how determined.
(1) After a hearing requested under sections 79-268 and 79-269, a report shall be made by the hearing examiner of his or her findings and a recommendation of the action to be taken, which report shall explain, in terms of the needs of both the student and the school board, the reasons for the particular action recommended. Such recommendation may range from no action, through the entire field of counseling, to long-term suspension, expulsion, mandatory reassignment, or an alternative educational placement under section 79-266.

(2) A review shall be made of the hearing examiner's report by the superintendent, who may change, revoke, or impose the sanction recommended by the hearing examiner but shall not impose a sanction more severe than that recommended by the hearing examiner.

(3) The findings and recommendations of the hearing examiner, the determination by the superintendent, and any determination on appeal to the governing body, shall be made solely on the basis of the evidence presented at the hearing or, in addition, on any evidence presented on appeal.

(1) Written notice of the findings and recommendations of the hearing examiner and the determination of the superintendent under section 79-282 shall be made by certified or registered mail or by personal delivery to the student or the student's parent or guardian. Upon receipt of such written notice by the student, parent, or guardian, the determination of the superintendent shall take immediate effect.

(2) Except as provided in subsections (3) and (4) of this section, the expulsion of a student shall be for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second

If the expulsion takes place during the second semester, the expulsion shall remain in effect for summer school and may remain in effect for the first semester of the following school year. Such action may be modified or terminated by the school district at any time during the expulsion period.

(4) The expulsion of a student for the knowing and intentional possession, use, or transmission of a firearm, which for purposes of this section means a firearm as defined in 18 U.S.C. 921 as of January 1, 1995, shall be for a period as provided by the school district policy adopted pursuant to section 79-263. This subsection shall not apply to (a) the issuance of firearms to or possession of firearms by members of the Reserve Officers Training Corps when training or (b) firearms which may lawfully be possessed by the person receiving instruction under the immediate supervision of an adult instructor who may lawfully possess firearms.

(5) Any expulsion that will remain in effect during the first semester of the following school year shall be automatically scheduled for review before the beginning of the school year. The review shall be conducted by the hearing examiner after the hearing examiner has given notice of the review to the student and the student's parent or guardian. This review shall be limited to newly discovered evidence or evidence of changes in the student's circumstances occurring since the original hearing. This review may lead to a recommendation by the hearing examiner that the student be readmitted for the upcoming school year. If the school board or board of education or a committee of such board took the final action to expel the student, the student may be readmitted only by action of the board. Otherwise the student may be readmitted by action of the superintendent.

The record in a case under the Student Discipline Act shall consist of the charge, the notice, the evidence presented, the hearing examiner's findings and recommendations, and the action of the superintendent. With respect to any appeal to a court or any subsequent appeal, the record shall consist, in addition, of any additional evidence taken and any additional action taken in the case.

R.R.S. Neb. § 79-285. Hearing; appeal to school board or board of education; procedure.

(1) The student or the student's parent or guardian may, within seven school days following receipt of the written notice of the determination of the superintendent under section 79-282, appeal the superintendent's determination to the school board or board of education by a written request which shall be filed with the secretary of the board or with the superintendent.

(2) A hearing shall be held before the school board or the board of education within a period of ten school days after it is requested, and such time for a hearing may be changed by mutual agreement of the student and superintendent, except that the hearing may be held before a committee of the school board or board of education of not less than three members. Such appeal shall be made on the record, except that new evidence may be admitted to avoid a substantial threat of unfairness and such new evidence shall be recorded as provided in section 79-280.
R.R.S. Neb. § 79-286. Hearing; appeal; school board or board of education; powers and duties.
(1) After examining the record and taking new evidence pursuant to section 79-285, if any, the school board or board of education or the designated committee thereof may withdraw to deliberate privately upon such record and new evidence. Any such deliberation shall be held in the presence only of board members in attendance at the appeal proceeding but may be held in the presence of legal counsel who has not previously acted as the designee of the principal in presenting the school's case before the hearing examiner.
(2) If any questions arise during such deliberations which require additional evidence, the deliberating body may reopen the hearing to receive such evidence, subject to the right of all parties to be present.
(3) The board may alter the superintendent's disposition of the case if it finds the decision to be too severe but may not impose a more severe sanction.

R.R.S. Neb. § 79-287. Hearing; appeal; board; final action.
The final action of the board under section 79-286 shall be evidenced by personally delivering or mailing by certified mail a copy of the board's decision to the student and his or her parent or guardian.

R.R.S. Neb. § 79-288. Final decision; judicial review; appeal to district court; other relief.
Any person aggrieved by a final decision in a contested case under the Student Discipline Act, whether such decision is affirmative or negative in form, shall be entitled to judicial review under sections 79-288 to 79-292. Nothing in the act shall be deemed to prevent resort to other means of review, redress, or relief provided by law.

(1) Proceedings for review under sections 79-288 to 79-292 shall be instituted by filing a petition in the district court of the county where the action is taken within thirty days after the service of the final decision by the school board or board of education under sections 79-286 and 79-287.
(2) All parties of record shall be made parties to the proceedings for review. The court, in its discretion, may permit other interested persons to intervene.
(3) Summons shall be served as in other actions, except that a copy of the petition shall be served upon the board together with the summons. Service of summons upon a duly elected officer of the board or the appointed secretary of the board shall constitute service on the board.
(4) The filing of the petition or the service of summons upon the board shall not stay enforcement of a decision, but the board may stay enforcement, or the court may order a stay after notice to such board of application therefor and upon such terms as it deems proper.
(5) The court may require the party requesting such stay to give bond in such amount and condition as the court may direct but only in cases involving injury or damage to person or property.

R.R.S. Neb. § 79-290. Judicial review; transcript of record and proceedings; responsive pleading not required.
Within fifteen days after service of the petition under section 79-289 or within such further time as the court for good cause shown may allow, the school board or board of education shall prepare and transmit to the court a certified transcript of the record which shall include the rules and regulations of the school board relied upon by the school district in its determination to suspend, reassign, or expel the student and the proceedings conducted before it, including the final decision sought to be reversed, vacated, or modified. The school board need not file any responsive pleading.
R.R.S. Neb. § 79-291. Judicial review; conducted without a jury; grounds for judicial action.
(1) The review under sections 79-288 to 79-292 shall be conducted by the court without a jury on the record.
(2) The court may affirm the decision of the school board or board of education, remand the case for further proceedings, or reverse or modify the decision if the substantial rights of the petitioner may have been prejudiced because the board's decision is:
   (a) In violation of constitutional provisions;
   (b) In excess of the statutory authority or jurisdiction of the board;
   (c) Made upon unlawful procedure;
   (d) Affected by other error of law;
   (e) Unsupported by competent, material, and substantial evidence in view of the entire record as made on review; or

(1) A person who has legal or actual charge or control of a child who is at least sixteen years of age but less than eighteen years of age may withdraw such child from school before graduation and be exempt from the mandatory attendance requirements of section 79-201 if an exit interview is conducted and the withdrawal form is signed as required by subsections (2) through (5) of this section for a child enrolled in a public, private, denominational, or parochial school or if a signed notarized release form is filed with the Commissioner of Education as required by subsection (6) of this section for a child enrolled in a school that elects pursuant to section 79-1601 not to meet accreditation or approval requirements.

(2) Upon the written request of any person who has legal or actual charge or control of a child who is at least sixteen years of age but less than eighteen years of age, the superintendent of a school district or the superintendent's designee shall conduct an exit interview if the child (a) is enrolled in a school operated by the school district or (b) resides in the school district and is enrolled in a private, denominational, or parochial school.

      (i) Financial hardships requiring the child to be employed to support the child's family or one or more dependents of the child or
      (ii) An illness of the child making attendance impossible or impracticable.

The superintendent or superintendent's designee shall identify all known alternative educational opportunities, including vocational courses of study, that are available to the child in the school district and how withdrawing from school is likely to reduce potential future earnings for the child and increase the likelihood of the child being unemployed in the future. Any other relevant information may be presented and discussed by any of the parties in attendance.
(5)(a) At the conclusion of the exit interview, the person making the written request pursuant to subsection (2) of this section may sign the withdrawal form provided by the school district agreeing to the withdrawal of the child or may rescind the written request for the withdrawal.

(6) A person who has legal or actual charge or control of the child who is at least sixteen years of age but less than eighteen years of age may withdraw such a child before graduation and be exempt from the mandatory attendance requirements of section 79-201 if such child has been enrolled in a school that elects pursuant to section 79-1601 not to meet the accreditation or approval requirements by filing with the State Department of Education a signed notarized release on a form prescribed by the Commissioner of Education.

(7) A child who has been withdrawn from school pursuant to this section may enroll in a school district at a later date as provided in section 79-215 or may enroll in a private, denominational, or parochial school or a school which elects pursuant to section 79-1601 not to meet accreditation or approval requirements. Any such enrollment shall void the withdrawal form previously entered, and the provisions of sections 79-201 to 79-210 shall apply to the child.

(8) The Commissioner of Education shall prescribe the required form for withdrawals pursuant to this section and determine and direct either that

(a) Withdrawal forms of school districts for any child who is withdrawn from school pursuant to this section and subdivision (3)(c) of section 79-201 shall be provided annually to the State Department of Education or

(b) Data regarding such students shall be collected under subsection (2) of section 79-528.

R.R.S. Neb. § 79-203. Compulsory attendance; necessarily employed children; permit.
In case the services or earnings of a child are necessary for his or her own support or the support of those actually dependent upon him or her and the child is fourteen years of age or more and not more than sixteen years of age and has completed the work of the eighth grade, the person having legal or actual charge of such child may apply to the superintendent of the school district in which the child resides or a person designated in writing by the superintendent. The superintendent or designee may, in his or her discretion, issue a permit allowing such child to be employed.

R.R.S. Neb. § 79-204. Compulsory attendance; necessarily employed children; continuation schools; attendance required.
All children who are fourteen years of age or more and not more than sixteen years of age, who reside in a school district in which a part-time continuation school is maintained by authority of the public school district and who are granted permits to be employed under section 79-203, shall attend a public, private, denominational, or parochial part-time continuation school eight hours of each week during the entire school year.
Each teacher in the public, private, denominational, and parochial schools of this state shall keep a record showing

1. The name, age, and address of each child enrolled,
2. The number and county of the school district in which the school is located,
3. The number of days each pupil was present and the number of days absent, and
4. The cause of absence.

On the third day on which the public, private, denominational, and parochial schools are in session at the beginning of each school year, each teacher shall send to the superintendent or administrator of the school a list of the pupils enrolled in his or her school with the age, grade, and address of each.

Each superintendent or administrator of a school district, upon the receipt of the list specified in section 79-205, shall

1. Compare the names of the children enrolled with the last census report on file in his or her office from such district,
2. Prepare a list of all children resident in such district under his or her jurisdiction who are not attending school as provided in section 79-201, and
3. Transmit the list to the officer or officers in such district whose duty it is to enforce the provisions of such section.

Whenever any child enters or withdraws from any school after the third day in which school is in session, the teacher shall transmit at once the name of such child to the superintendent as specified in section 79-206 and the superintendent shall use such information in whatever way he or she deems necessary for the purpose of enforcing section 79-201. At the end of each week each teacher shall report all absences and the cause of absence to the proper superintendent. At the close of each period each teacher shall transmit to the superintendent a report showing

1. The name, age, and address of each child enrolled,
2. The number of half days each child was absent,
3. The number enrolled and the number attending on the last day of the period, and
4. The average daily attendance for the period.

The provisions of this section requiring reports from each teacher shall not apply to individual teachers in schools employing more than one teacher but shall in such case apply to the head teacher, principal, or superintendent who shall obtain the required information from the teachers under his or her supervision or control. All reports and lists required in this section shall be upon blanks prescribed by the State Department of Education.

School boards shall appoint one or more attendance officers who shall be vested with police powers and shall enforce the provisions of section 79-201 in the school districts for which they act. Attendance
officers shall be compensated for their services in such sums as are determined by the school board, to be paid out of the general school fund of the district.

R.R.S. Neb. § 79-209. Compulsory attendance; nonattendance; school district; duties; collaborative plan; considerations; referral to county attorney; notice.

(1) In all school districts in this state, any superintendent, principal, teacher, or member of the school board who knows of any violation of subsection (2) of section 79-201 shall within three days report such violation to the attendance officer of the school, who shall immediately investigate the case. When of his or her personal knowledge or by report or complaint from any resident of the district, the attendance officer believes that there is a violation of subsection (2) of section 79-201, the attendance officer shall immediately investigate such alleged violation.

(2) All school boards shall have a written policy on attendance developed and annually reviewed in collaboration with the county attorney of the county in which the principal office of the school district is located. The policy shall include a provision indicating how the school district will handle cases in which excessive absences are due to illness. The policy shall also state the circumstances and number of absences or the hourly equivalent upon which the school shall render all services to address barriers to attendance. Such services shall include, but not be limited to:

(a) Verbal or written communication by school officials with the person or persons who have legal or actual charge or control of any child; and

(b) One or more meetings between, at a minimum, a school attendance officer, a school social worker, or a school administrator or his or her designee, the person who has legal or actual charge or control of the child, and the child, when appropriate, to attempt to address the barriers to attendance. The result of the meeting or meetings shall be to develop a collaborative plan to reduce barriers identified to improve regular attendance. The plan shall consider, but not be limited to:

(i) Illness related to physical or behavioral health of the child;

(ii) Educational counseling;

(iii) Educational evaluation;

(iv) Referral to community agencies for economic services;

(v) Family or individual counseling; and

(vi) Assisting the family in working with other community services;

(vii) Referral to restorative justice practices or services.

(3) The school may report to the county attorney of the county in which the person resides when the school has documented the efforts it has made as required by subsection (2) of this section that the collaborative plan to reduce barriers identified to improve regular attendance has not been successful and the child has been absent more than twenty days per year. The school shall notify the child’s family in writing prior to referring the child to the county attorney. Failure by the school to document the efforts required by subsection (2) of this section is a defense to prosecution under section 79-201 and adjudication for educational neglect under subdivision (3)(a) of section 43-247 and habitual truancy under subdivision (3)(b) of section 43-247. Illness that makes attendance impossible or impracticable shall not be the basis for referral to the county attorney.

LAWS

R.R.S. Neb. § 79-209. Compulsory attendance; nonattendance; school district; duties; collaborative plan; considerations; referral to county attorney; notice.

(1) In all school districts in this state, any superintendent, principal, teacher, or member of the school board who knows of any violation of subsection (2) of section 79-201 shall within three days report such violation to the attendance officer of the school, who shall immediately investigate the case. When of his or her personal knowledge or by report or complaint from any resident of the district, the attendance officer believes that there is a violation of subsection (2) of section 79-201, the attendance officer shall immediately investigate such alleged violation.
(2) All school boards shall have a written policy on attendance developed and annually reviewed in
collaboration with the county attorney of the county in which the principal office of the school district is
located. The policy shall include a provision indicating how the school district will handle cases in which
excessive absences are due to illness. The policy shall also state the circumstances and number of
absences or the hourly equivalent upon which the school shall render all services to address barriers to
attendance. Such services shall include, but not be limited to:

(a) Verbal or written communication by school officials with the person or persons who have legal or
actual charge or control of any child; and

(b) One or more meetings between, at a minimum, a school attendance officer, a school social worker,
or a school administrator or his or her designee, the person who has legal or actual charge or control of
the child, and the child, when appropriate, to attempt to address the barriers to attendance. The result
of the meeting or meetings shall be to develop a collaborative plan to reduce barriers identified to
improve regular attendance. The plan shall consider, but not be limited to:

(i) Illness related to physical or behavioral health of the child;

(ii) Educational counseling;

(iii) Educational evaluation;

(iv) Referral to community agencies for economic services;

(v) Family or individual counseling; and

(vi) Assisting the family in working with other community services;

(vii) Referral to restorative justice practices or services.

(3) The school may report to the county attorney of the county in which the person resides when the
school has documented the efforts it has made as required by subsection (2) of this section that the
collaborative plan to reduce barriers identified to improve regular attendance has not been successful and
that the child has been absent more than twenty days per year. The school shall notify the child’s family in
writing prior to referring the child to the county attorney. Failure by the school to document the efforts
required by subsection (2) of this section is a defense to prosecution under section 79-201 and
adjudication for educational neglect under subdivision (3)(a) of section 43-247 and habitual truancy under
subdivision (3)(b) of section 43-247. Illness that makes attendance impossible or impracticable shall not
be the basis for referral to the county attorney.

(4) Nothing in this section shall preclude a county attorney from being involved at any stage in the
process to address excessive absenteeism.

When a principal or other school official releases a minor student to a peace officer as defined in section 49-801 for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to the officer and regarding the place to which the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse, in which case the principal or other school official shall provide the peace officer with the address and telephone number of the minor's parent or guardian. The peace officer shall take immediate steps to notify the parent, guardian, or responsible relative of the minor that the minor is in custody and the place where he or she is being held. If the peace officer has a reasonable belief that the minor would be endangered by a disclosure of the place where the minor is being held or that the disclosure would cause the custody of the minor to be disturbed, the peace officer may refuse to disclose the place where the minor is being held for a period not to exceed twenty-four hours. The peace officer shall, however, inform the parent, guardian, or responsible relative whether the child requires and is receiving medical or other treatment. Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

1. The plan established pursuant to NRS 392.4644 must provide for the temporary removal of a pupil from a classroom or other premises of a public school if, in the judgment of the teacher or other staff member responsible for the classroom or other premises, as applicable, the pupil has engaged in behavior that seriously interferes with the ability of the teacher to teach the other pupils in the classroom and with the ability of the other pupils to learn or with the ability of the staff member to discharge his or her duties. The plan must provide that, upon the removal of a pupil from a classroom or any other premises of a public school pursuant to this section, the principal of the school shall provide an explanation of the reason for the removal of the pupil to the pupil and offer the pupil an opportunity to respond to the explanation. Within 24 hours after the removal of a pupil pursuant to this section, the principal of the school shall notify the parent or legal guardian of the pupil of the removal.

1. Except as otherwise provided in this section, not later than 3 school days after a pupil is removed from a classroom or any other premises of a public school pursuant to NRS 392.4645, a conference must be held with:

   (a) The pupil;
   (b) A parent or legal guardian of the pupil;
   (c) The principal of the school; and
   (d) The teacher or other staff member who removed the pupil. The principal shall give an oral or written notice of the conference, as appropriate, to each person who is required to participate.

2. After receipt of the notice required pursuant to subsection 1, the parent or legal guardian of the pupil may, not later than 3 school days after the removal of the pupil, request that the date of the conference be postponed. The principal shall accommodate such a request. If the date of the conference is postponed pursuant to this subsection, the principal shall send written notice to the parent or legal guardian confirming that the conference has been postponed at the request of the parent or legal guardian.

3. If a parent or legal guardian of a pupil refuses to attend a conference, the principal of the school shall send a written notice to the parent or legal guardian confirming that the parent or legal guardian has waived the right to a conference provided by this section and authorized the principal to recommend the placement of the pupil pursuant to subsection 6.

4. Except as otherwise provided in this subsection, a pupil must not return to the classroom or other premises of the public school from which the pupil was removed before the conference is held. If the conference is not held within 3 school days after the removal of the pupil, the pupil must be allowed to return to the classroom or other premises unless:

   (a) The parent or legal guardian of the pupil refuses to attend the conference;
   (b) The failure to hold a conference is attributed to the action or inaction of the pupil or the parent or legal guardian of the pupil; or
   (c) The parent or legal guardian requested that the date of the conference be postponed.

5. During the conference, the teacher who removed the pupil from the classroom, the staff member who removed the pupil from the other premises of the public school or the principal shall provide the pupil and the pupil’s parent or legal guardian with an explanation of the reason for the removal of the pupil from the classroom or other premises. The pupil and the pupil’s parent or legal guardian must be granted an opportunity to respond to the explanation of the pupil’s behavior and to indicate whether the removal of the pupil from the classroom or other premises was appropriate in their opinion based upon the behavior of the pupil.

6. Upon conclusion of the conference or, if a conference is not held pursuant to subsection 3 not later than 3 school days after the removal of a pupil from a classroom or other premises of a public school, the principal shall recommend whether to return the pupil to the classroom or other premises or continue the temporary alternative placement of the pupil if the pupil has been assigned to a temporary alternative placement.

One additional teacher and one additional staff member must be selected in the same manner to serve as an
alternate member. A teacher or staff member who has served on the committee for 2 consecutive years or more is not eligible to be selected for membership.

2. If a pupil is removed from the classroom or other premises of a public school pursuant to NRS 392.4645 by a teacher or staff member who is a member of a committee established pursuant to this section, the teacher or staff member shall not participate in the review of the placement of the pupil and the appropriate alternate member shall serve on the committee for that review.

The principal shall inform the parent or legal guardian of the pupil that the committee will be conducting a meeting. The committee shall review the circumstances of the pupil’s removal from the classroom or other premises of the public school and the pupil’s behavior that caused the pupil to be removed from the classroom or other premises. Based upon its review, the committee shall assess the best placement available for the pupil and shall, without limitation:
   (a) Direct that the pupil be returned to the classroom or other premises from which he or she was removed;
   (b) Assign the pupil to another appropriate classroom or other premises;

      (1) Caused by or directly and substantially related to the disability of the pupil; or
(2) The direct result of the public agency’s failure to implement the pupil’s individualized educational program.

If the public agency, the parent and the relevant members of the committee determine that either subparagraph (1) or (2) is applicable to the pupil, the conduct must be determined to be a manifestation of the disability of the pupil.

4. The Director shall provide training regarding the Program to employees and volunteers of each public safety agency, public safety answering point, board of trustees of a school district, governing body of a charter school and any other entity whose employees and volunteers the Director determines should receive training regarding the Program.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

V-a. "Seclusion" means the involuntary placement of a child alone in a place where no other person is present and from which the particular child is unable to exit, either due to physical manipulation by a person, a lock, or other mechanical device or barrier. The term shall not include the voluntary separation of a child from a stressful environment for the purpose of allowing the child to regain self-control, when such separation is to an area which a child is able to leave. Seclusion does not include circumstances in which there is no physical barrier between the child and any other person or the child is physically able to leave the place. A circumstance may be considered seclusion even if a window or other device for visual observation is present, if the other elements of this definition are satisfied.

VI. "Serious injury" means any harm to the body which requires hospitalization or results in the fracture of any bone, non-superficial lacerations, injury to any internal organ, second- or third-degree burns, or any severe, permanent, or protracted loss or impairment to the health or function of any part of the body.

126-U:2. Written policies required.
Each facility and school shall have a written policy and procedures for managing the behavior of children. Such policy shall describe how and under what circumstances seclusion or restraint is used and shall be provided to the parent, guardian, or legal representative of each child at such facility or school.

No school or facility shall use or threaten to use any of the following restraint and behavior control techniques:

I. Any physical restraint or containment technique that:
   (a) Obstructs a child's respiratory airway or impairs the child's breathing or respiratory capacity or restricts the movement required for normal breathing;
   (b) Places pressure or weight on, or causes the compression of, the chest, lungs, sternum, diaphragm, back, or abdomen of a child;
   (c) Obstructs the circulation of blood;
   (d) Involves pushing on or into the child's mouth, nose, eyes, or any part of the face or involves covering the face or body with anything, including soft objects such as pillows, blankets, or washcloths; or
   (e) Endangers a child's life or significantly exacerbates a child's medical condition.

II. The intentional infliction of pain, including the use of pain inducement to obtain compliance.

III. The intentional release of noxious, toxic, caustic, or otherwise unpleasant substances near a child for the purpose of controlling or modifying the behavior of or punishing the child.

IV. Any technique that unnecessarily subjects the child to ridicule, humiliation, or emotional trauma.
126-U:5. Limitation of the use of restraint to emergencies only.
I. Restraint shall only be used in a school or facility to ensure the immediate physical safety of persons when there is a substantial and imminent risk of serious bodily harm to the child or others. The determination of whether the use of restraint is justified under this section may be made with consideration of all relevant circumstances, including whether continued acts of violence by a child to inflict damage to property will create a substantial risk of serious bodily harm to the child or others. Restraint shall be used only by trained personnel using extreme caution when all other interventions have failed or have been deemed inappropriate.
II. Restraint shall never be used explicitly or implicitly as punishment for the behavior of a child.

126-U:5-a. Limitation on the use of seclusion.
I. Seclusion may not be used as a form of punishment or discipline. It may only be used when a child’s behavior poses a substantial and imminent risk of physical harm to the child or to others, and may only continue until that danger has dissipated.
II. Seclusion shall only be used by trained personnel after other approaches to the control of behavior have been attempted and been unsuccessful, or are reasonably concluded to be unlikely to succeed based on the history of actual attempts to control the behavior of a particular child.
III. Seclusion shall not be used in a manner that unnecessarily subjects the child to the risk of ridicule, humiliation, or emotional or physical harm.

I. When permitted by this chapter, seclusion may only be imposed in rooms which:
   (a) Are of a size which is appropriate for the chronological and developmental age, size, and behavior of the children placed in them.
   (b) Have a ceiling height that is comparable to the ceiling height of the other rooms in the building in which they are located.
   (c) Are equipped with heating, cooling, ventilation, and lighting systems that are comparable to the systems that are in use in the other rooms of the building in which they are located.
   (d) Are free of any object that poses a danger to the children being placed in the rooms.
   (e) Have doors which are either not equipped with locks, or are equipped with devices that automatically disengage the lock in case of an emergency. For the purposes of this subparagraph, an “emergency” includes, but is not limited to:
      (1) The need to provide direct and immediate medical attention to a child;
      (2) Fire;
      (3) The need to remove a child to a safe location during a building lockdown; or
      (4) Other critical situations that may require immediate removal of a child from seclusion to a safe location.
   (f) Are equipped with unbreakable observation windows or equivalent devices to allow the safe, direct, and uninterrupted observation of every part of the room.
II. Each use of seclusion shall be directly and continuously visually and auditorially monitored by a person trained in the safe use of seclusion.

126-U:5-c. Room confinement at the youth development center.
Notwithstanding any other provision of this chapter, the youth development center may confine children in their rooms when such confinement is part of a routine practice applicable to substantial portions of the
population at the center and not imposed as a consequence in response to the behavior of one or more children. Such confinement is not subject to the notice and reporting requirements of RSA 126-U:7.

facility shall make reasonable efforts to promptly notify the child's parent or guardian. Such notification shall be made no later than the time of the return of the child to the parent or guardian or the end of the business day, whichever is earlier. I. All pupils have the right to attend public schools, including chartered public schools, that are safe, secure, and peaceful environments. IV. The sole purpose of this chapter is to protect all children from bullying and cyberbullying, and no other legislative purpose is intended, nor should any other intent be construed from the enactment of this chapter.

The school board of each school district and the board of trustees of a chartered public school shall, no later than 6 months after the effective date of this section, adopt a written policy prohibiting bullying and cyberbullying. Such policy shall include the definitions set forth in RSA 193-F:3. The policy shall contain, at a minimum, the following components:
   (a) A statement prohibiting bullying or cyberbullying of a pupil.
   (b) A statement prohibiting retaliation or false accusations against a victim, witness, or anyone else who in good faith provides information about an act of bullying or cyberbullying and, at the time a report is made, a process for developing, as needed, a plan to protect pupils from retaliation.
   (c) A requirement that all pupils are protected regardless of their status under the law.
   (d) A statement that there shall be disciplinary consequences or interventions, or both, for a pupil who commits an act of bullying or cyberbullying, or falsely accuses another of the same as a means of retaliation or reprisal.
   (e) A statement indicating how the policy shall be made known to school employees, regular school volunteers, pupils, parents, legal guardians, or employees of a company under contract to a school,
school district, or chartered public school. Recommended methods of communication include, but are not limited to, handbooks, websites, newsletters, and workshops.

The superintendent or superintendent's designee shall notify in writing all parties involved of the granting of an extension.

(k) A requirement that the principal or designee develop a response to remediate any substantiated incident of bullying or cyberbullying, including imposing discipline if appropriate, to reduce the risk of future incidents and, where deemed appropriate, to offer assistance to the victim or perpetrator. When indicated, the principal or designee shall recommend a strategy for protecting all pupils from retaliation of any kind.

(l) A requirement that the principal or designee report all substantiated incidents of bullying or cyberbullying to the superintendent or designee.

(m) A written procedure for communication with the parent or parents or guardian of victims and perpetrators regarding the school's remedies and assistance, within the boundaries of applicable state and federal law. This communication shall occur within 10 school days of completion of the investigation.

(n) Identification, by job title, of school officials responsible for ensuring that the policy is implemented.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

c. For purposes of this section, “restorative justice activities” means activities designed to improve the socioemotional and behavioral responses of students through the use of more appropriate, and less punitive, interventions thereby establishing a more supportive and inclusive school culture.

As used in this act:

“Restorative justice” means a system of dispute resolution tools that allow all parties of a dispute to be involved in defining the harm and devising remedies while giving the necessary attention to community safety, victims’ needs, and the need for offender accountability. Restorative justice practices shall include, but need not be limited to, student or community court, restorative circles, mediation, and conferencing.

Within six months of the effective date of this act, the Commissioner of Education shall establish a three-year “Restorative Justice in Education Pilot Program” to implement restorative justice practices in the public schools. The program shall address school discipline issues through the implementation of restorative justice practices that include a trauma-informed approach. The goals of the pilot program shall be to:

a. reduce racial disparities in school discipline which result in an inequitable loss of classroom time among certain student groups, thereby boosting the academic outcomes of these students;
b. improve the socioemotional and behavioral responses of students through the use of more appropriate, and less punitive, interventions, thereby establishing a more supportive and inclusive school culture; and
c. reduce recidivism rates among students who violate the school district code of conduct through the use of more effective and targeted restorative justice interventions.

A school district that wants to participate in the pilot program shall submit an application to the commissioner. The application shall identify one school within the school district to implement the restorative justice model under the pilot program. The application shall include:

a. a description of the school including the number of enrolled students; the in-school and out-of-school student suspension rates, and any other relevant data collected on student disciplinary actions; absenteeism rates; academic performance indicators, including the percentage of students not meeting expectations on State assessments; and the percentage of enrolled students who qualify for a free or reduced price lunch under the federal School Lunch Program;

b. The commissioner shall provide such guidance, support, and training to participating schools as may be necessary to effectuate the purposes of this act [C.18A:37-38 et seq.].
c. The commissioner shall award grants, within the limit of available State appropriations, to participating school districts to be used to support the development and implementation of restorative justice practices in the selected schools, including for any necessary trainings and materials. The commissioner shall determine the amount of each grant awarded under the program and may award multi-year grants.

18A:37-42. Limitation of number, duration of student expulsions, suspensions.

The principal shall demonstrate a commitment to exhausting other forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions, unless otherwise required by law or unless a student’s continuing presence in school poses a threat to school safety or a disruption to other students’ learning opportunities.

A school district selected to participate in the pilot program may seek and apply for any grant or aid from the federal government, or any appropriate nonprofit organization, foundation or trust, or any other public or private source that might be or may become available for programs in furtherance of the purposes of this act [C.18A:37-38 et seq.].

There is established within the Department of Education a fund to be known as the “Restorative Justice Education Fund.” The fund shall be used to provide grants to participating schools pursuant to subsection c. of section 4 [C.18A:37-41] of this act. 18A:40A-22. Findings, declarations relative to substance abuse testing policies in public school
districts.
The Legislature finds and declares that there are many school districts within the State with a growing
problem of drug abuse among their students. The Legislature further finds that federal and State courts
have held that it may be appropriate for school districts to combat this problem through the random drug
testing of students participating in extracurricular activities, including interscholastic athletics, and
students who possess school parking permits. The Legislature also finds that a random drug testing
program may have a positive effect on attaining the important objectives of deterring drug use and
providing a means for the early detection of students with drug problems so that counseling and
rehabilitative treatment may be offered.

18A:40A-23. Adoption of policy for random testing of certain students.
A board of education may adopt a policy, pursuant to rules and regulations adopted by the State Board of
Education in consultation with the Department of Human Services, which are consistent with the New
Jersey Constitution and the federal Constitution, for the random testing of the district's students in grades
9-12 who participate in extracurricular activities, including interscholastic athletics, or who possess school
parking permits, for the use of controlled dangerous substances as defined in N.J.S.2C:35-2 and anabolic
steroids. The testing shall be conducted by the school physician, school nurse or a physician, laboratory
or health care facility designated by the board of education and the cost shall be paid by the board. Any
disciplinary action taken against a student who tests positive for drug use or who refuses to consent to
testing shall be limited to the student's suspension from or prohibition against participation in
extracurricular activities, or revocation of the student's parking permits.
Each board of education shall hold a public hearing prior to the adoption of its drug testing policy. The policy shall be in written form and shall be distributed to students and their parents or guardians at the beginning of each school year. The policy shall include, but need not be limited to, the following:

18A:36-25.2. Investigation, reporting of certain pupil absences, transfers.

a. If any child enrolled in a school district has an unexcused absence from school for five consecutive school days, the attendance officer of the district shall investigate the absence and notify the district superintendent of the absence. In the event the investigation leads the district superintendent to have reasonable cause to believe the child has been abused or neglected as defined in section 1 of P.L.1974, c.119 (C.9:6-8.21), the district superintendent shall then notify the Division of Child Protection and
Permanency in the Department of Children and Families for its determination of whether the division is or has been involved with the child and whether action, as appropriate, is warranted.

b. When a child's parent, guardian, or other person having charge and control of the child notifies a school district that the child will be withdrawing from the district and transferring to another school district, the principal of the school from which the child is withdrawing shall request that the parent, guardian, or other person having charge and control of the child provide the principal with the name and location of the school district in which the child will subsequently be enrolled and the expected date of enrollment. The principal shall provide the information supplied by the parent, guardian, or other person having charge and control of the child to the district superintendent. Five school days following the expected date of enrollment, the superintendent of the district of last attendance shall contact the school district in which the child is to be subsequently enrolled to determine if the child has enrolled in the district. If the child has not been so enrolled, the attendance officer of the transfer district shall investigate the failure to enroll and notify the superintendent of the transfer district of the failure to enroll. In the event the investigation leads the superintendent of the transfer district to have reasonable cause to believe the child has been abused or neglected as defined in section 1 of P.L.1974, c.119 (C.9:6-8.21), the superintendent of the transfer district shall then notify the Division of Child Protection and Permanency in the Department of Children and Families for its determination of whether the division is or has been involved with the child and whether action, as appropriate, is warranted. Every parent, guardian or other person having custody and control of a child between the ages of six and 16 years shall cause such child regularly to attend the public schools of the district or a day school in which there is given instruction equivalent to that provided in the public schools for children of similar grades and attainments or to receive equivalent instruction elsewhere than at school.

Such regular attendance shall be during all the days and hours that the public schools are in session in the district, unless it is shown to the satisfaction of the board of education of the district that the mental condition of the child is such that he cannot benefit from instruction in the school or that the bodily condition of the child is such as to prevent his attendance at school, but nothing herein shall be construed as permitting the temporary or permanent exclusion from school by the board of education of any district of any child between the ages of five and 20, except as explicitly otherwise provided by law.

Any child between the ages of six and 16 years who shall repeatedly be absent from school, and any child of such age found away from school during school hours whose parent, guardian or other person having charge and control of the child is unable to cause him to attend school and any pupil who is incorrigible, actually vagrant, vicious, or immoral in conduct, shall be deemed to be a juvenile delinquent and shall be proceeded against as such.
18A:38-28. Truants; return to parents or school.
Any attendance officer who shall find any child between six and 16 years of age who is a truant from school, shall take the child and deliver him to the parent, guardian or other person having charge and control of the child, or to the teacher of the school which such child is lawfully required to attend.

The attendance officer shall examine into all violations of this article, shall warn any child violating any of the provisions of this article and the parent, guardian or other person having charge and control of the child of the consequences of the violation if persisted in, and shall notify such person in writing to cause the child to attend school within five days from the date on which notice is served, and regularly thereafter. The attendance officer shall have full police power to enforce the provisions of this article and may arrest without warrant any vagrant child or habitual truant or any child who is habitually incorrigible or who is vicious or immoral in conduct or illegally absent from school.

The disclosure shall be accompanied by a written statement advising the recipient that the information is being disclosed from records the confidentiality of which is protected by P.L.1997, c.362 (C.18A:40A-7.1 et seq.), and that this law prohibits any further disclosure of this information without the written consent of the person from whom the information originated. Nothing in P.L.1997, c.362 (C.18A:40A-7.1 et seq.) shall be construed as prohibiting the Division of Child Protection and Permanency or a law enforcement agency from using or disclosing the information in the course of conducting an investigation or prosecution. Nothing in P.L.1997, c.362 shall be construed as authorizing the violation of any federal law.

d. The prohibition on the disclosure of information provided by a pupil pursuant to subsection a. of this section shall apply whether the person to whom the information was provided believes that the person seeking the information already has it, has other means of obtaining it, is a law enforcement or other public official, has obtained a subpoena, or asserts any other justification for the disclosure of this information.

**18A:40A-7.2. Penalty for improper disclosure.**

Except as provided by section 6 of P.L.1971, c.437 (C.9:6-8.13), a person who discloses or willfully permits the disclosure of information provided by a pupil in violation of the provisions of section 1 of this act is subject to a fine of not more than $500 for a first offense and not more than $5,000 for a second and each subsequent offense. The penalty shall be collected and enforced in summary proceedings under "the penalty enforcement law" (N.J.S.2A:58-1 et seq.).
18A:40A-8. Legislative findings and declaration.
The Legislature finds and declares that:

a. A significant number of young people are unfortunately already involved in the abuse of alcohol and other drugs;

b. Research indicates that particular groups of youngsters, such as the children of alcoholic parents, may in fact face an increased risk of developing alcohol and other substance abuse problems and that early intervention services can be critical in their prevention, detection and treatment; and,

c. School-based initiatives have proven particularly effective in identifying and assisting students at a high risk of developing alcohol and other drug disturbances and in reducing absenteeism, decreasing the consumption of alcohol and other drugs, and in lessening the problems associated with such addictions.

For the purposes of this act:

"Substance" shall mean alcoholic beverages, controlled dangerous substances as defined in section 2 of P.L.1970, c.266 (C.24:21-2), anabolic steroids or any chemical or chemical compound which releases vapors or fumes causing a condition of intoxication, inebriation, excitement, stupefaction or dulling of the brain or nervous system including, but not limited to, glue containing a solvent having the property of releasing toxic vapors or fumes as defined in section 1 of P.L.1965, c.41 (C.2A:170-25.9).

"Substance abuse" shall mean the consumption or use of any substance as defined herein for purposes other than for the treatment of sickness or injury as prescribed or administered by a person duly authorized by law to treat sick and injured human beings.

18A:40A-10. Local boards to establish comprehensive substance abuse intervention, prevention and treatment referral programs.
Each local board of education shall, pursuant to guidelines developed by the Commissioner of Education, in consultation with the Commissioner of Health, establish a comprehensive substance abuse intervention, prevention and treatment referral program in the public elementary and secondary schools of the district. The purpose of the program shall be to identify pupils who are substance abusers, assess the extent of these pupils' involvement with these substances and, where appropriate, refer pupils and their families to organizations and agencies approved by the Department of Health to offer competent professional treatment. Treatment shall not be at the expense of the local board of education.

Each school district shall develop a clear written policy statement which outlines the district's program to combat substance abuse and which provides for the identification, evaluation, referral for treatment and discipline of pupils who are substance abusers. Copies of the policy statement shall be distributed to pupils and their parents at the beginning of each school year.

18A:40A-11. Local boards to establish policies and procedures for evaluation, referral, and treatment of students abusing substances on school property.
Each board of education shall adopt and implement, in accordance with rules and regulations promulgated by the State board, policies and procedures for the evaluation, referral for treatment and discipline of pupils involved in incidents of possession or abuse of substances as defined in section 2 [18A:40A-9] of this act, on school property or at school functions, or who show significant symptoms of the use of those substances on school property or at school functions. In adopting and implementing these policies and procedures, the board shall consult and work closely with a local organization involved with the prevention, detection and treatment of substance abuse approved by the Department of Health.
18A:40A-12. Reporting of pupils under influence; examination; report; return home; evaluation of possible need for treatment; referral for treatment.

a. Whenever it shall appear to any teaching staff member, school nurse or other educational personnel of any public school in this State that a pupil may be under the influence of substances as defined pursuant to section 2 of this act, other than anabolic steroids, that teaching staff member, school nurse, or other educational personnel shall report the matter as soon as possible to the school nurse or medical inspector, as the case may be, or to a student assistance coordinator, and to the principal or, in his absence, to his designee. The principal or his designee, shall immediately notify the parent or guardian and the superintendent of schools, if there be one, or the administrative principal and shall arrange for an immediate examination of the pupil by a doctor selected by the parent or guardian, or if that doctor is not immediately available, by the medical inspector, if he is available. If a doctor or medical inspector is not immediately available, the pupil shall be taken to the emergency room of the nearest hospital for examination accompanied by a member of the school staff designated by the principal and a parent or guardian of the pupil if available. The pupil shall be examined as soon as possible for the purpose of diagnosing whether or not the pupil is under such influence. A written report of that examination shall be furnished within 24 hours by the examining physician to the parent or guardian of the pupil and to the superintendent of schools or administrative principal. If it is determined that the pupil was under the influence of a substance, the pupil shall be returned to the pupil's home as soon as possible and shall not resume attendance at school until the pupil submits to the principal a written report certifying that the pupil is physically and mentally able to return thereto, which report shall be prepared by a personal physician, the medical inspector, or the physician who examined the pupil pursuant to the provisions of this act.

In addition, the pupil shall be interviewed by a student assistance coordinator or another appropriately trained teaching staff member for the purpose of determining the extent of the pupil's involvement with these substances and possible need for treatment. In order to make this determination the coordinator or other teaching staff member may conduct a reasonable investigation which may include interviews with the pupil's teachers and parents. The coordinator or other teaching staff member may also consult with experts in the field of substance abuse as may be necessary and appropriate. If it is determined that the pupil's involvement with and use of these substances represents a danger to the pupil's health and well-being, the coordinator or other teaching staff member shall refer the pupil to an appropriate treatment program which has been approved by the Commissioner of Health.

b. Whenever any teaching staff member, school nurse, or other educational personnel of any public school in this State shall have reason to believe that a pupil has used or may be using anabolic steroids, that teaching staff member, school nurse, or other educational personnel shall report the matter as soon as possible to the school nurse or medical inspector, as the case may be, or to a student assistance coordinator, and to the principal or, in his absence, to his designee. The principal or his designee, shall immediately notify the parent or guardian and the superintendent of schools, if there be one, or the administrative principal and shall arrange for an examination of the pupil by a doctor selected by the parent or guardian or by the medical inspector. The pupil shall be examined as soon as possible for the purpose of diagnosing whether or not the pupil has been using anabolic steroids. A written report of that examination shall be furnished by the examining physician to the parent or guardian of the pupil and to the superintendent of schools or administrative principal. If it is determined that the pupil has been using anabolic steroids, the pupil shall be interviewed by a student assistance coordinator or another appropriately trained teaching staff member for the purpose of determining the extent of the pupil's involvement with these substances and possible need for treatment. In order to make this determination the coordinator or other teaching staff member may conduct a reasonable investigation which may include interviews with the pupil's teachers and parents. The coordinator or other teaching staff member may also consult with experts in the field of substance abuse as may be necessary and appropriate. If it is determined that the pupil's involvement with and use of these substances represents a danger to the
pupil's health and well-being, the coordinator or other teaching staff member shall refer the pupil to an appropriate treatment program which has been approved by the Commissioner of Health.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall develop an inservice training program for public school teachers to enable the teachers to recognize and respond to substance abuse by public school pupils. The program shall, at a minimum, include:

(1) Instruction to assist the teacher in the identification of the symptoms and behavioral patterns which might indicate that a child may be involved in substance abuse;

(2) Appropriate intervention strategies; and,

(3) Information on the State, local and community organizations which are available for the prevention, early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.

The inservice training program required pursuant to this section shall be updated at regular intervals in order to insure that teaching staff members have the most current information available on this subject.

b. Each local board of education shall insure that all teaching staff members in the district who are involved in the instruction of pupils are provided with the inservice training program developed pursuant to this section. The inservice training program of the local board of education shall also include information concerning the policy of the board regarding the referral for treatment of pupils involved in substance abuse, as required pursuant to section 5 of this act.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall establish guidelines for substance abuse education programs to be offered by local boards of education to the parents or legal guardians of public school pupils. The program shall, at a minimum, provide:

(1) A thorough and comprehensive review of the substance abuse education curriculum which will be taught to the child of the parent or guardian during the school year, with recommendations as to the ways in which the parent or guardian may enhance, reinforce and supplement that program;

(2) Information on the pharmacology, physiology, psychosocial and legal aspects of substance abuse, and instruction to assist the parent or guardian in the identification of the symptoms and behavioral patterns which might indicate that a child may be involved in substance abuse; and

(3) Information on the State, local and community organizations which are available for the prevention, early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.

b. In addition to the guidelines required pursuant this section, the Commissioner of Education, in consultation with the Commissioner of Health, shall develop and provide to local boards of education suggested materials for the substance abuse education program for parents or legal guardians of school pupils, and shall maintain and continuously update a roster of individuals or groups available to assist boards of education in implementing this program and a list of State and local agencies and organizations which are approved by the Department of Health to provide services for the prevention, early intervention, treatment or rehabilitation of individuals who show symptoms of substance abuse.

18A:40A-17. Outreach program.

a. Under the guidelines established by the Commissioner of Education, each local board of education shall establish an outreach program to provide substance abuse education for the parents or legal guardians of the pupils of the district. In establishing the program, the local board of education shall consult with such local organizations and agencies as are recommended by the commissioner. The board of education shall insure that the program is offered at times and places convenient to the parents of the district on school premises, or in other suitable facilities.
b. In addition to the substance abuse education program required pursuant to this section, each local board of education shall establish policies and procedures to provide assistance to parents or legal guardians who believe that their child may be involved in substance abuse. These policies and procedures shall be consistent with the policies and procedures for intervention by school personnel developed pursuant to this act.

c. The board of education in each school district in the State in which a nonpublic school is located shall have the power and duty to loan to the parents or legal guardians of all pupils attending nonpublic schools located within the district all educational materials developed by the Commissioner of Education for the instruction of the parents or legal guardians of public school pupils on the nature and effects of substances and substance abuse. The Commissioner of Education shall make these materials available so that the local board of education shall not be required to expend funds for the loan of these materials.

The Commissioner of Education, in consultation with the Commissioner of Health, shall develop and administer a program which provides for the employment of student assistance coordinators in certain school districts.

a. Within 90 days of the effective date of this act, the Commissioner of Education shall forward to each local school board a request for a proposal for the employment of a student assistance coordinator. A board which wants to participate in the program shall submit a proposal to the commissioner which outlines the district's plan to provide substance abuse prevention, intervention, and treatment referral services to students through the employment of a student assistance coordinator. Nothing shall preclude a district which employs a student assistance coordinator at the time of the effective date of this act from participating in this program. The commissioner shall select school districts to participate in the program through a competitive grant process. The participating districts shall include urban, suburban, and rural districts from the north, central, and southern geographic regions of the State with at least one school district per county. In addition to all other State aid to which the local district is entitled under the provisions of P.L.2007, c.260 (C.18A:7F-43 et al.) and other pertinent statutes, each board of education participating in the program shall receive from the State, for a three-year period, the amount necessary to pay the salary of its student assistance coordinator.

b. The position of student assistance coordinator shall be separate and distinct from any other employment position in the district, including, but not limited to district guidance counselors, school social workers, and school psychologists. The State Board of Education shall approve the education and experience criteria necessary for employment as a student assistance coordinator. The criteria shall include a requirement for certification by the State Board of Examiners. In addition to the criteria established by the State board, the Department of Education and the Department of Health shall jointly conduct orientation and training programs for student assistance coordinators, and shall also provide for continuing education programs for coordinators.

c. It shall be the responsibility of student assistance coordinators to assist local school districts in the effective implementation of this act. Coordinators shall assist with the in service training of school district staff concerning substance abuse issues and the district program to combat substance abuse; serve as an information resource for substance abuse curriculum development and instruction; assist the district in revising and implementing substance abuse policies and procedures; develop and administer intervention services in the district; provide counseling services to pupils regarding substance abuse problems; and, where necessary and appropriate, cooperate with juvenile justice officials in the rendering of substance abuse treatment services.

d. The Commissioner of Education, in consultation with the Commissioner of Health, shall implement a plan to collect data on the effectiveness of the program in treating problems associated with substance abuse and in reducing the incidence of substance abuse in local school districts. Six months prior to the
expiration of the program authorized pursuant to this section, the Commissioner of Education shall submit to the Governor and the Legislature an evaluation of the program and a recommendation on the advisability of its continuation or expansion to all school districts in the State.

The Commissioner of Education is authorized to make grants to local school districts in such amounts as he shall determine, to assist the districts in the implementation of innovative pilot programs designed to educate pupils of elementary and secondary schools and members of the general public on the subject of substance abuse, and to prevent the abuse of those substances. Application for grants shall be made on forms furnished by the Commissioner of Education and shall set forth the program proposed and appropriate administrative procedures for the proper and efficient implementation of the program. These pilot programs shall, at a minimum, include:

a. An early intervention competitive grant pilot program to be established by the Commissioner of Education, in consultation with the Commissioner of Health and the Commissioner of Human Services, to enable local school districts to identify and assist elementary school pupils who are affected by family substance abuse problems or who are at risk of developing such problems themselves. The purpose of the program shall be to encourage the creation of effective model programs for the early identification of children at risk for substance abuse related problems and to provide for effective intervention when these children are identified.

Grants shall be awarded to boards of education through a competitive grant process based upon written applications submitted by local boards of education. The Commissioner of Education shall select not more than eight of the proposals submitted by boards of education for participation in the pilot program. The commissioner, in addition to considering the overall quality of each proposal and the likelihood that the proposal can be replicated in other districts, shall seek to achieve the broadest geographic distribution of recipients consistent with the purposes of this act.

b. The pilot program established in Ocean County by the Department of Education in conjunction with the Juvenile Services Unit in the Family Division of the Administrative Office of the Courts, to coordinate the efforts of school and juvenile justice personnel in the county to combat alcohol and substance abuse by students.

The commissioner shall evaluate the effectiveness of the model program developed and tested pursuant to this section and disseminate information about successful model programs to school districts that do not participate in the pilot program.

The Commissioner of Education, in consultation with the Commissioner of Health and the Commissioner of Human Services, shall develop procedures for the evaluation of the impact of the programs established pursuant to this act and shall report annually to the Governor and the Legislature on the effects of these programs. That report shall include data concerning the incidence of substance abuse in the public schools; the nature and scope of intervention, prevention and treatment referral programs; an assessment of the impact of those programs on the problem of substance abuse; and, any recommendations for modifications in the programs established pursuant to this act.

18A:40A-22. Findings, declarations relative to substance abuse testing policies in public school districts.

The Legislature finds and declares that there are many school districts within the State with a growing problem of drug abuse among their students. The Legislature further finds that federal and State courts have held that it may be appropriate for school districts to combat this problem through the random drug
testing of students participating in extracurricular activities, including interscholastic athletics, and students who possess school parking permits. The Legislature also finds that a random drug testing program may have a positive effect on attaining the important objectives of deterring drug use and providing a means for the early detection of students with drug problems so that counseling and rehabilitative treatment may be offered.

18A:40A-23. Adoption of policy for random testing of certain students.
A board of education may adopt a policy, pursuant to rules and regulations adopted by the State Board of Education in consultation with the Department of Human Services, which are consistent with the New Jersey Constitution and the federal Constitution, for the random testing of the district's students in grades 9-12 who participate in extracurricular activities, including interscholastic athletics, or who possess school parking permits, for the use of controlled dangerous substances as defined in N.J.S.2C:35-2 and anabolic steroids. The testing shall be conducted by the school physician, school nurse or a physician, laboratory or health care facility designated by the board of education and the cost shall be paid by the board. Any disciplinary action taken against a student who tests positive for drug use or who refuses to consent to testing shall be limited to the student's suspension from or prohibition against participation in extracurricular activities, or revocation of the student's parking permits.

23:2-13. Hooked on Fishing-Not on Drugs Program.
1.a. There is established in the Department of Environmental Protection, Division of Fish and Wildlife, a Hooked on Fishing-Not on Drugs Program, which shall be based on a national program developed by the Future Fisherman Foundation that encourages school-aged children to avoid drug usage by providing alternative activities that involve learning to fish, appreciating aquatic and environmental resources, and developing positive life skills. The division shall assign staff to develop strategies for assisting school districts or other interested public service organizations in implementing this program throughout the State. Statewide program implementation shall be modeled after the pilot program implemented in Ocean County in calendar year 2000, which may include, but not be limited to, the distribution of materials to promote and operate the program throughout the State. To the maximum extent possible, the division shall implement and operate the program in every county in the State.

b. The division may work with educational, public safety and environmental groups in order to promote volunteerism among these groups for the purpose of acting as program instructors, mentors or advisors. The division may also work with public service organizations, sportsman groups and local merchants to encourage the donation of technical, material and financial assistance to the program.

23:2-14. Collection, maintenance of data; annual report.
2. The division shall collect and maintain data on the Hooked on Fishing-Not on Drugs Program and provide an annual report to the Legislature pursuant to section 2 of P.L.1991, c.164 (C.52:14-19.1), including information on the number of school districts or municipalities that have implemented the program and the number of pupils that are participating in the program. The report shall also include information on the effectiveness of the program in terms of drug usage avoidance or incidents among participating students.

3. The Department of Environmental Protection shall adopt, pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), such rules and regulations as may be necessary to effectuate the provisions of this act.

6A:16-4.3. Reporting, notification, and examination procedures for students suspected of being under the influence of alcohol or other drugs.

1. Any educational staff member or other professional to whom it appears that a student may be currently under the influence of alcohol or other drugs on school grounds shall report the matter as soon as possible to the principal or, in his or her absence, to his or her designee and either the certified school nurse, noncertified nurse, school physician, or student assistance coordinator, pursuant to N.J.S.A. 18A:40A-12.

4. The medical examination, pursuant to (a)2ii above, shall be performed by a physician licensed to practice medicine or osteopathy who is selected by the parent.
   i. The school district, in cooperation with medical professionals licensed to practice medicine or osteopathy, shall establish minimum requirements for the medical examination.
   ii. The examination shall be at the expense of the parent and not the district board of education.

5. If the physician chosen by the parent is not immediately available, the medical examination shall be conducted by the school physician.
   i. If the school physician is not available, the student shall be accompanied by a member of the school staff designated by the principal to the emergency room of the nearest hospital for examination.
   ii. The student's parent, if available, also shall accompany the student.
   iii. When the medical examination is conducted by the school physician or a physician at the emergency room of the nearest hospital, the examination shall be at the expense of the district board of education.

   i. While waiting for a parent to take the student to the physician selected by the parent, or while the student is waiting for and receiving the medical examination by the school physician or a physician in an emergency room; and
   ii. Provisions shall be made for the appropriate care of the student while awaiting the results of the medical examination.

7. A written report of the medical examination shall be furnished to the student's parent, the principal, and the chief school administrator by the examining physician within 24 hours of the referral of the student for suspected alcohol or other drug use.
   i. The school district, in cooperation with the school physician or medical professionals licensed to practice medicine or osteopathy, shall establish minimum requirements for the medical report.
   ii. The report's findings shall verify whether the student's alcohol or other drug use interferes with his or her physical and mental ability to perform in school.

8. When the medical examination is performed by a physician other than the school physician or a physician at the emergency room of the nearest hospital, the school district shall require the parent to verify within 24 hours of the notification that the student is suspected of alcohol or other drug use that a medical examination was performed in compliance with (a)7i above.
   i. The verification shall include, at a minimum, the signature, printed name, address, and phone number of the examining physician, the date and time of the medical examination, and the date by which the report required in (a)7 above will be provided.
   ii. Refusal or failure by a parent to comply with this requirement shall be treated as a policy violation and handled in accordance with (d) below.

9. If the written report of the medical examination is not submitted to the parent, principal, and chief school administrator within 24 hours of the referral of the student for suspected alcohol or other drug use, the student shall be allowed to return to school until such time as a positive determination of
alcohol or other drug use is received from the examining physician, unless the student was also removed for violating the code of student conduct.

10. If the written report of the medical examination verifies that alcohol or other drugs do not interfere with the student's physical and mental ability to perform in school, the student shall be immediately returned to school.

11. If there is a positive determination from the medical examination indicating the student's alcohol or other drug use interferes with his or her physical or mental ability to perform in school:
   
i. The student shall be returned as soon as possible to the care of a parent;
   
ii. Attendance at school shall not resume until a written report has been submitted to the parent, the principal and chief school administrator from a physician licensed to practice medicine or osteopathy who has examined the student to determine whether alcohol or other drug use interferes with his or her physical or mental ability to perform in school;
   
   (1) The report shall verify that the student's alcohol or other drug use no longer interferes with his or her physical and mental ability to perform in school; and
   
   iii. Removal of a student with a disability shall be made in accordance with N.J.A.C. 6A:14.

12. While the student is at home because of the medical examination or after the student returns to school, an individual who holds the educational services certificate with the student assistance coordinator endorsement issued by the New Jersey State Board of Examiners, or an individual who holds one of the following educational services certificate endorsements: school nurse; school nurse/non-instructional; school psychologist; school counselor; school social worker; or student personnel services and is trained to assess alcohol and other drug abuse shall:
   
i. Conduct an alcohol and other drug assessment of the student and a reasonable investigation of the situation, which may include interviews with the student's teachers and parents and consultation with experts in student alcohol or other drug abuse, for the purpose of making a preliminary determination of the student's need for educational programs, supportive services, or treatment that extend beyond the general school program by virtue of the student's use of alcohol or other drugs.
   
   (1) The findings of the assessment alone shall not be used to prevent a student from attending school; and
   
   ii. Cooperate with community agencies as defined in N.J.A.C. 6A:16-4.1(b) and juvenile justice officials in providing evaluation, referral and continuity of care for alcohol or other drug abuse treatment.

13. While the student is at home because of the medical examination or after his or her return to school, the principal or chief school administrator may recommend or require alcohol and other drug assessment of the student or evaluation by appropriately certified or licensed professionals to make a positive determination of a student's need for programs and services that extend beyond the general school program, as necessary.
   
i. The findings of additional evaluations alone shall not be used to prevent a student from attending school.

14. 2. In response to a report of suspected anabolic steroid use pursuant to (b)1 above, including instances when a report is made to law enforcement, the principal or his or her designee shall immediately notify the parent and the chief school administrator and shall arrange for an examination of the student by a physician licensed to practice medicine or osteopathy selected by the parent.

   i. To make this determination, school staff members identified in (b)5 above may conduct a reasonable investigation, which may include interviews with the student's teachers and parents and consultation with experts in student alcohol or other drug abuse.

6. If results of a referral for evaluation positively determine the student's involvement with and use of anabolic steroids represents a danger to the student's health and well-being, an individual who holds the educational services certificate with the student assistance coordinator endorsement issued by the New Jersey State Board of Examiners or an individual who holds one of the following educational services certificate endorsements: school nurse; school nurse/non-instructional; school psychologist; school counselor; school social worker; or student personnel services and is trained to assess alcohol and other drug abuse shall initiate a referral for treatment to appropriate community agencies, as defined in N.J.A.C. 6A:16-4.1(b), to out-of-State agencies licensed by the appropriate state regulatory agency for alcohol and other drug services, or to private practitioners certified by the appropriate drug and alcohol licensing board.

Bullying, harassment, or hazing

LAWS

2C:40-3. Hazing; aggravated hazing.
   a. A person is guilty of hazing, a disorderly persons offense, if, in connection with initiation of applicants to or members of a student or fraternal organization, he knowingly or recklessly organizes, promotes, facilitates or engages in any conduct, other than competitive athletic events, which places or may place another person in danger of bodily injury.
   b. A person is guilty of aggravated hazing, a crime of the fourth degree, if he commits an act prohibited in subsection a. which results in serious bodily injury to another person.

   a. Beginning with the first full school year following the effective date of this act, a public school district shall provide a daily recess period of at least 20 minutes for students in grades kindergarten through 5. The recess period shall be held outdoors, if feasible. A student shall not be denied recess for any reason, except as a consequence of a violation of the district’s code of student conduct, including a harassment, intimidation, or bullying investigation pursuant to P.L.2002, c.83 (C.18A:37-13 et seq.). If a student is denied recess, except under conditions set forth in subsection b. of this section, the student shall be provided restorative justice activities during the recess period. A student may not be denied recess more than twice per week.

A school district shall not be required to provide a recess period on a school day in which the day is substantially shortened due to a delayed opening or early dismissal.

The recess period shall not be used to meet the course requirements set forth in N.J.S.18A:35-5.
b. Nothing in this section shall be construed to prohibit school staff from denying recess for a student on the advice of a medical professional, school nurse, or based on the provisions of a student’s 504 plan.

c. For purposes of this section, “restorative justice activities” means activities designed to improve the socioemotional and behavioral responses of students through the use of more appropriate, and less punitive, interventions thereby establishing a more supportive and inclusive school culture.

Any pupil who is guilty of continued and willful disobedience, or of open defiance of the authority of any teacher or person having authority over him, or of the habitual use of profanity or of obscene language, or who shall cut, deface or otherwise injure any school property, shall be liable to punishment and to suspension or expulsion from school.

Conduct which shall constitute good cause for suspension or expulsion of a pupil guilty of such conduct shall include, but not be limited to, any of the following:

   k. Harassment, intimidation, or bullying.

The Legislature finds and declares that: a safe and civil environment in school is necessary for students to learn and achieve high academic standards; harassment, intimidation or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe environment; and since students learn by example, school administrators, faculty, staff, and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation or bullying.

The Legislature finds and declares that:

   a. A 2009 study by the United States Departments of Justice and Education, "Indicators of School Crime and Safety," reported that 32% of students aged 12 through 18 were bullied in the previous school year. The study reported that 25% of the responding public schools indicated that bullying was a daily or weekly problem;
   
   b. A 2009 study by the United States Centers for Disease Control and Prevention, "Youth Risk Behavior Surveillance," reported that the percentage of students bullied in New Jersey is 1 percentage point higher than the national median;
   
   c. In 2010, the chronic persistence of school bullying has led to student suicides across the country, including in New Jersey;
   
   d. Significant research has emerged since New Jersey enacted its public school anti-bullying statute in 2002, and since the State amended that law in 2007 to include cyber-bullying and in 2008 to require each school district to post its anti-bullying policy on its website and distribute it annually to parents or guardians of students enrolled in the district;
   
   e. School districts and their students, parents, teachers, principals, other school staff, and board of education members would benefit by the establishment of clearer standards on what constitutes harassment, intimidation, and bullying, and clearer standards on how to prevent, report, investigate, and respond to incidents of harassment, intimidation, and bullying;
   
   f. It is the intent of the Legislature in enacting this legislation to strengthen the standards and procedures for preventing, reporting, investigating, and responding to incidents of harassment, intimidation, and bullying of students that occur in school and off school premises;
g. Fiscal responsibility requires New Jersey to take a smarter, clearer approach to fight school bullying by ensuring that existing resources are better managed and used to make our schools safer for students;

h. In keeping with the aforementioned goal of fiscal responsibility and in an effort to minimize any burden placed on schools and school districts, existing personnel and resources shall be utilized in every possible instance to accomplish the goals of increased prevention, reporting, and responsiveness to incidents of harassment, intimidation, or bullying, including in the appointment of school anti-bullying specialists and district anti-bullying coordinators;

i. By strengthening standards for preventing, reporting, investigating, and responding to incidents of bullying this act will help to reduce the risk of suicide among students and avert not only the needless loss of a young life, but also the tragedy that such loss represents to the student’s family and the community at large; and

j. Harassment, intimidation, and bullying is also a problem which occurs on the campuses of institutions of higher education in this State, and by requiring the public institutions to include in their student codes of conduct a specific prohibition against bullying, this act will be a significant step in reducing incidents of such activity.

Sections 1, 2, and 16 through 30 of this act and P.L.2002, c.83 (C.18A:37-13 et seq.) shall be known and may be cited as the “Anti-Bullying Bill of Rights Act.”

As used in this act:

"Electronic communication" means a communication transmitted by means of an electronic device, including, but not limited to, a telephone, cellular phone, computer, or pager;

"Harassment, intimidation or bullying" means any gesture, any written, verbal or physical act, or any electronic communication, whether it be a single incident or a series of incidents, that is reasonably perceived as being motivated either by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability, or by any other distinguishing characteristic, that takes place on school property, at any school-sponsored function, on a school bus, or off school grounds as provided for in section 16 of P.L.2010, c.122 (C.18A:37-15.3), that substantially disrupts or interferes with the orderly operation of the school or the rights of other students and that:

a. a reasonable person should know, under the circumstances, will have the effect of physically or emotionally harming a student or damaging the student's property, or placing a student in reasonable fear of physical or emotional harm to his person or damage to his property;

b. has the effect of insulting or demeaning any student or group of students; or

c. creates a hostile educational environment for the student by interfering with a student’s education or by severely or pervasively causing physical or emotional harm to the student.

18A:37-15. Adoption of policy concerning harassment, intimidating or bullying by each school district.
a. Each school district shall adopt a policy prohibiting harassment, intimidation or bullying on school property, at a school-sponsored function or on a school bus. The school district shall adopt the policy through a process that includes representation of parents or guardians, school employees, volunteers, students, administrators, and community representatives.
b. A school district shall have local control over the content of the policy, except that the policy shall contain, at a minimum, the following components:

(1) a statement prohibiting harassment, intimidation or bullying of a student;
(2) a definition of harassment, intimidation or bullying no less inclusive than that set forth in section 2 of P.L.2002, c.83 (C.18A:37-14);
(3) a description of the type of behavior expected from each student;
(4) consequences and appropriate remedial action for a person who commits an act of harassment, intimidation or bullying;
(5) a procedure for reporting an act of harassment, intimidation or bullying, including a provision that permits a person to report an act of harassment, intimidation or bullying anonymously; however, this shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.

All acts of harassment, intimidation, or bullying shall be reported verbally to the school principal on the same day when the school employee or contracted service provider witnessed or received reliable information regarding any such incident. The principal shall inform the parents or guardians of all students involved in the alleged incident, and may discuss, as appropriate, the availability of counseling and other intervention services. All acts of harassment, intimidation, or bullying shall be reported in writing to the school principal within two school days of when the school employee or contracted service provider witnessed or received reliable information that a student had been subject to harassment, intimidation, or bullying;

(6) a procedure for prompt investigation of reports of violations and complaints, which procedure shall at a minimum provide that:

(a) the investigation shall be initiated by the principal or the principal's designee within one school day of the report of the incident and shall be conducted by a school anti-bullying specialist. The principal may appoint additional personnel who are not school anti-bullying specialists to assist in the investigation. The investigation shall be completed as soon as possible, but not later than 10 school days from the date of the written report of the incident of harassment, intimidation, or bullying. In the event that there is information relative to the investigation that is anticipated but not yet received by the end of the 10-day period, the school anti-bullying specialist may amend the original report of the results of the investigation to reflect the information;
(b) the results of the investigation shall be reported to the superintendent of schools within two school days of the completion of the investigation, and in accordance with regulations promulgated by the State Board of Education pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), the superintendent may decide to provide intervention services, establish training programs to reduce harassment, intimidation, or bullying and enhance school climate, impose discipline, order counseling as a result of the findings of the investigation, or take or recommend other appropriate action;
(c) the results of each investigation shall be reported to the board of education no later than the date of the board of education meeting next following the completion of the investigation, along with information on any services provided, training established, discipline imposed, or other action taken or recommended by the superintendent;
(d) parents or guardians of the students who are parties to the investigation shall be entitled to receive information about the investigation, in accordance with federal and State law and regulation, including the nature of the investigation, whether the district found evidence of harassment, intimidation, or bullying, or whether discipline was imposed or services provided to address the incident of harassment, intimidation, or bullying. This information shall be provided in writing within 5 school days after the results of the investigation are reported to the board. A parent or guardian may
request a hearing before the board after receiving the information, and the hearing shall be held within 10 days of the request. The board shall meet in executive session for the hearing to protect the confidentiality of the students. At the hearing the board may hear from the school anti-bullying specialist about the incident, recommendations for discipline or services, and any programs instituted to reduce such incidents;

(e) at the next board of education meeting following its receipt of the report, the board shall issue a decision, in writing, to affirm, reject, or modify the superintendent's decision. The board's decision may be appealed to the Commissioner of Education, in accordance with the procedures set forth in law and regulation, no later than 90 days after the issuance of the board's decision; and

(f) a parent, student, guardian, or organization may file a complaint with the Division on Civil Rights within 180 days of the occurrence of any incident of harassment, intimidation, or bullying based on membership in a protected group as enumerated in the "Law Against Discrimination," P.L.1945, c.169 (C.10:5-1 et seq.);

(7) the range of ways in which a school will respond once an incident of harassment, intimidation or bullying is identified, which shall be defined by the principal in conjunction with the school anti-bullying specialist, but shall include an appropriate combination of services that are available within the district such as counseling, support services, intervention services, and other programs, as defined by the commissioner. In the event that the necessary programs and services are not available within the district, the district may apply to the Department of Education for a grant from the "Bullying Prevention Fund" established pursuant to section 25 of P.L.2010, c.122 (C.18A:37-28) to support the provision of out-of-district programs and services;

(8) a statement that prohibits reprisal or retaliation against any person who reports an act of harassment, intimidation or bullying and the consequence and appropriate remedial action for a person who engages in reprisal or retaliation;

(9) consequences and appropriate remedial action for a person found to have falsely accused another as a means of retaliation or as a means of harassment, intimidation or bullying;

(10) a statement of how the policy is to be publicized, including notice that the policy applies to participation in school-sponsored functions;

(11) a requirement that a link to the policy be prominently posted on the home page of the school district's website and distributed annually to parents and guardians who have children enrolled in a school in the school district; and

(12) a requirement that the name, school phone number, school address and school email address of the district anti-bullying coordinator be listed on the home page of the school district's website and that on the home page of each school's website the name, school phone number, school address and school email address of the school anti-bullying specialist and the district anti-bullying coordinator be listed. The information concerning the district anti-bullying coordinator and the school anti-bullying specialists shall also be maintained on the department's website.

c. A school district shall adopt a policy and transmit a copy of its policy to the appropriate executive county superintendent of schools by September 1, 2003. A school district shall annually conduct a re-evaluation, reassessment, and review of its policy, making any necessary revisions and additions. The board shall include input from the school anti-bullying specialists in conducting its re-evaluation, reassessment, and review. The district shall transmit a copy of the revised policy to the appropriate executive county superintendent of schools within 30 school days of the revision. The first revised policy following the effective date of P.L.2010, c.122 (C.18A:37-13.1 et al.) shall be transmitted to the executive county superintendent of schools by September 1, 2011.
d. (1) To assist school districts in developing policies for the prevention of harassment, intimidation, or bullying, the Commissioner of Education shall develop a model policy applicable to grades kindergarten through 12. This model policy shall be issued no later than December 1, 2002.

(2) The commissioner shall adopt amendments to the model policy which reflect the provisions of P.L.2010, c.122 (C.18A:37-13.1 et al.) no later than 90 days after the effective date of that act and shall subsequently update the model policy as the commissioner deems necessary.

e. Notice of the school district's policy shall appear in any publication of the school district that sets forth the comprehensive rules, procedures and standards of conduct for schools within the school district, and in any student handbook.

f. Nothing in this section shall prohibit a school district from adopting a policy that includes components that are more stringent than the components set forth in this section.

2. a. A school district's policy on prohibiting harassment, intimidation or bullying adopted pursuant to section 3 of P.L.2002, c.83 (C.18A:37-15), shall be amended, if necessary, to reflect the provisions of P.L.2007, c.129 (C.18A:37-15.1 et al.). The district shall transmit a copy of the amended policy to the appropriate county superintendent of schools. Notice of the amended policy shall appear in any publication of the school district that sets forth the comprehensive rules, procedures and standards of conduct for schools within the school district, and in any student handbook.

   b. In the event that a school district's policy on prohibiting harassment, intimidation or bullying adopted pursuant to section 3 of P.L.2002, c.83 (C.18A:37-15) does not accord with the provisions of subsection a. of this section by the 90th day following the effective date of this act, the district's existing policy prohibiting harassment, intimidation or bullying shall be deemed to include an "electronic communication" as defined in section 2 of P.L.2002, c.83 (C.18A:37-14) as amended by section 1 of P.L.2007, c.129.

School districts shall observe this week by organizing activities to prevent school violence including, but not limited to, age-appropriate opportunities for student discussion on conflict resolution, issues of student diversity, and tolerance. Law enforcement personnel shall be invited to join members of the teaching staff in the discussions. Programs shall also be provided for school board employees that are designed to help them recognize warning signs of school violence and to instruct them on recommended conduct during an incident of school violence. The Department of Education shall provide guidelines and information to boards of education for use in planning the activities in observance of the week and such funds as are necessary to pay the costs of the required activities and programs.

The Legislature finds and declares that: a safe and civil environment in school is necessary for students to learn and achieve high academic standards; harassment, intimidation or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe environment; and since students learn by example, school administrators, faculty, staff, and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation or bullying.

18A:37-15. Adoption of policy concerning harassment, intimidating or bullying by each school district.
b. A school district shall have local control over the content of the policy, except that the policy shall contain, at a minimum, the following components:
   (7) the range of ways in which a school will respond once an incident of harassment, intimidation or bullying is identified, which shall be defined by the principal in conjunction with the school anti-bullying specialist, but shall include an appropriate combination of services that are available within the district such as counseling, support services, intervention services, and other programs, as defined by the commissioner. In the event that the necessary programs and services are not available within the district, the district may apply to the Department of Education for a grant from the "Bullying Prevention Fund" established pursuant to section 25 of P.L.2010, c.122 (C.18A:37-28) to support the provision of out-of-district programs and services;
   (9) consequences and appropriate remedial action for a person found to have falsely accused another as a means of retaliation or as a means of harassment, intimidation or bullying;

a. Schools and school districts shall annually establish, implement, document, and assess bullying prevention programs or approaches, and other initiatives involving school staff, students, administrators, volunteers, parents, law enforcement and community members. The programs or approaches shall be designed to create school-wide conditions to prevent and address harassment, intimidation, and bullying. A school district may implement bullying prevention programs and approaches that may be available at no cost from the Department of Education, the New Jersey State Bar Foundation, or any other entity. A school district may, at its own discretion, implement bullying prevention programs and approaches which impose a cost on the district.

A school district may apply to the Department of Education for a grant to be used for programs, approaches, or personnel established pursuant to this act, to the extent funds are appropriated for these purposes or funds are made available through the "Bullying Prevention Fund" established pursuant to section 25 of P.L.2010, c.122 (C.18A:37-28). A school district may make an application for a grant only after exploring bullying prevention programs and approaches that are available at no cost, and making an affirmative demonstration of that exploration in its grant application.

b. A school district shall: (1) provide training on the school district's harassment, intimidation, or bullying policies to school employees and volunteers who have significant contact with students; (2) ensure that the training includes instruction on preventing bullying on the basis of the protected categories enumerated in section 2 of P.L.2002, c.83 (C.18A:37-14) and other distinguishing characteristics that may incite incidents of discrimination, harassment, intimidation, or bullying; and (3) develop a process for discussing the district's harassment, intimidation or bullying policy with students.

A school district may satisfy the training required pursuant to this subsection by utilizing training that may be provided at no cost by the Department of Education, the New Jersey State Bar Foundation, or any other entity. A school district may, at its own discretion, implement a training program which imposes a cost on the district.

c. Information regarding the school district policy against harassment, intimidation or bullying shall be incorporated into a school's employee training program and shall be provided to full-time and part-time staff, volunteers who have significant contact with students, and those persons contracted by the district to provide services to students.

There is created a special fund in the Department of Education, which shall be designated the "Bullying Prevention Fund." The fund shall be maintained in a separate account and administered by the commissioner to carry out the provisions of this act. The fund shall consist of: (1) any monies appropriated by the State for the purposes of the fund; (2) any monies donated for the purposes of the fund; and (3) all interest and investment earnings received on monies in the fund. The fund shall be used to offer grants to school districts to provide training on harassment, intimidation, and bullying prevention and on the effective creation of positive school climates, and to help fund related personnel expenses.

The Legislature finds and declares that: a safe and civil environment in school is necessary for students to learn and achieve high academic standards; a student who is a victim of dating violence suffers academically, and the student's safety at school is jeopardized; and since all students have a right to learn and study in a safe, supportive environment that is free from violence, each school district should have a policy to prevent, and for responding to, incidents of dating violence, and should provide dating violence education to students in order to prevent dating violence and address incidents involving dating violence.
18A:37-34. Definitions relative to dating violence policy and education.

As used in this act:

"Dating violence" means a pattern of behavior where one person threatens to use, or actually uses physical, sexual, verbal, or emotional abuse to control a dating partner.

a. The Department of Education shall establish a task force to develop a policy to address incidents of dating violence involving students at school. The task force shall include members who have expertise in issues relating to dating violence. The policy shall contain, at a minimum, the following components:

In the event that a district determines to develop its policy, the policy shall contain, at a minimum, the components required pursuant to paragraphs (1) through (6) of subsection a. of this section.

c. Notice of the policy implemented by the school district shall appear in any publication of the district that sets forth the comprehensive rules, procedures, and standards of conduct for schools within the district, and in any student handbook.

The provisions of P.L.2011, c.64 (C.18A:37-33 et al.) shall not be interpreted to prevent a victim from seeking redress under any other available law, either civil or criminal, and does not create or alter any tort liability.

18A:40A-1. Instructional programs on drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances; curriculum guidelines.

Instructional programs on the nature of drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances, as defined in section 2 of P.L.1970, c.226 (C.24:21-2), and their physiological, psychological, sociological and legal effects on the individual, the family and society shall be taught in each public school and in each grade from kindergarten through 12 in a manner adapted to the age and understanding of the pupils. The programs shall be based upon the curriculum guidelines established by the Commissioner of Education pursuant to section 2 of this act, and shall be included in the curriculum for each grade in such a manner as to provide a thorough and comprehensive treatment of the subject.
The board of education in each school district in the State in which a nonpublic school is located shall have the power and duty to loan to all pupils attending nonpublic schools located within the district all educational materials developed by the Commissioner of Education pursuant to this act for the instruction of public school pupils on the nature and effects of drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances. The Commissioner of Education shall make these materials available so that the local board of education shall not be required to expend funds for the loan of these materials.

18A:40A-10. Local boards to establish comprehensive substance abuse intervention, prevention and treatment referral programs.
Each local board of education shall, pursuant to guidelines developed by the Commissioner of Education, in consultation with the Commissioner of Health, establish a comprehensive substance abuse intervention, prevention and treatment referral program in the public elementary and secondary schools of the district. The purpose of the program shall be to identify pupils who are substance abusers, assess the extent of these pupils' involvement with these substances and, where appropriate, refer pupils and their families to organizations and agencies approved by the Department of Health to offer competent professional treatment. Treatment shall not be at the expense of the local board of education.

Each school district shall develop a clear written policy statement which outlines the district's program to combat substance abuse and which provides for the identification, evaluation, referral for treatment and discipline of pupils who are substance abusers. Copies of the policy statement shall be distributed to pupils and their parents at the beginning of each school year.

18A:40A-11. Local boards to establish policies and procedures for evaluation, referral, and treatment of students abusing substances on school property.
Each board of education shall adopt and implement, in accordance with rules and regulations promulgated by the State board, policies and procedures for the evaluation, referral for treatment and discipline of pupils involved in incidents of possession or abuse of substances as defined in section 2 of this act, on school property or at school functions, or who show significant symptoms of the use of those substances on school property or at school functions. In adopting and implementing these policies and procedures, the board shall consult and work closely with a local organization involved with the prevention, detection and treatment of substance abuse approved by the Department of Health.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall establish guidelines for substance abuse education programs to be offered by local boards of education to the parents or legal guardians of public school pupils. The program shall, at a minimum, provide:
   (1) A thorough and comprehensive review of the substance abuse education curriculum which will be taught to the child of the parent or guardian during the school year, with recommendations as to the ways in which the parent or guardian may enhance, reinforce and supplement that program;
   (2) Information on the pharmacology, physiology, psychosocial and legal aspects of substance abuse, and instruction to assist the parent or guardian in the identification of the symptoms and behavioral patterns which might indicate that a child may be involved in substance abuse; and
   (3) Information on the State, local and community organizations which are available for the prevention, early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.

b. In addition to the guidelines required pursuant this section, the Commissioner of Education, in consultation with the Commissioner of Health, shall develop and provide to local boards of education suggested materials for the substance abuse education program for parents or legal guardians of school
pupils, and shall maintain and continuously update a roster of individuals or groups available to assist
boards of education in implementing this program and a list of State and local agencies and organizations
which are approved by the Department of Health to provide services for the prevention, early intervention,
treatment or rehabilitation of individuals who show symptoms of substance abuse.

18A:40A-17. Outreach program.
a. Under the guidelines established by the Commissioner of Education, each local board of education
shall establish an outreach program to provide substance abuse education for the parents or legal
guardians of the pupils of the district. In establishing the program, the local board of education shall
consult with such local organizations and agencies as are recommended by the commissioner. The board
of education shall insure that the program is offered at times and places convenient to the parents of the
district on school premises, or in other suitable facilities.
b. In addition to the substance abuse education program required pursuant to this section, each local
board of education shall establish policies and procedures to provide assistance to parents or legal
guardians who believe that their child may be involved in substance abuse. These policies and
procedures shall be consistent with the policies and procedures for intervention by school personnel
developed pursuant to this act.
c. The board of education in each school district in the State in which a nonpublic school is located shall
have the power and duty to loan to the parents or legal guardians of all pupils attending nonpublic schools
located within the district all educational materials developed by the Commissioner of Education for the
instruction of the parents or legal guardians of public school pupils on the nature and effects of
substances and substance abuse. The Commissioner of Education shall make these materials available
so that the local board of education shall not be required to expend funds for the loan of these materials.

The Commissioner of Education, in consultation with the Commissioner of Health, shall develop and
administer a program which provides for the employment of student assistance coordinators in certain
school districts.

a. Within 90 days of the effective date of this act, the Commissioner of Education shall forward to each
local school board a request for a proposal for the employment of a student assistance coordinator. A
board which wants to participate in the program shall submit a proposal to the commissioner which
outlines the district's plan to provide substance abuse prevention, intervention, and treatment referral
services to students through the employment of a student assistance coordinator. Nothing shall
preclude a district which employs a student assistance coordinator at the time of the effective date of
this act from participating in this program. The commissioner shall select school districts to participate in
the program through a competitive grant process. The participating districts shall include urban,
suburban, and rural districts from the north, central, and southern geographic regions of the State with
at least one school district per county. In addition to all other State aid to which the local district is
entitled under the provisions of P.L.2007, c.260 (C.18A:7F-43 et al.) and other pertinent statutes, each
board of education participating in the program shall receive from the State, for a three-year period, the
amount necessary to pay the salary of its student assistance coordinator.
b. The position of student assistance coordinator shall be separate and distinct from any other
employment position in the district, including, but not limited to district guidance counselors, school
social workers, and school psychologists. The State Board of Education shall approve the education
and experience criteria necessary for employment as a student assistance coordinator. The criteria
shall include a requirement for certification by the State Board of Examiners. In addition to the criteria
established by the State board, the Department of Education and the Department of Health shall jointly
conduct orientation and training programs for student assistance coordinators, and shall also provide for continuing education programs for coordinators.

c. It shall be the responsibility of student assistance coordinators to assist local school districts in the effective implementation of this act. Coordinators shall assist with the in service training of school district staff concerning substance abuse issues and the district program to combat substance abuse; serve as an information resource for substance abuse curriculum development and instruction; assist the district in revising and implementing substance abuse policies and procedures; develop and administer intervention services in the district; provide counseling services to pupils regarding substance abuse problems; and, where necessary and appropriate, cooperate with juvenile justice officials in the rendering of substance abuse treatment services.

d. The Commissioner of Education, in consultation with the Commissioner of Health, shall implement a plan to collect data on the effectiveness of the program in treating problems associated with substance abuse and in reducing the incidence of substance abuse in local school districts. Six months prior to the expiration of the program authorized pursuant to this section, the Commissioner of Education shall submit to the Governor and the Legislature an evaluation of the program and a recommendation on the advisability of its continuation or expansion to all school districts in the State.

a. Where a complaint against a juvenile pursuant to section 11 of P.L.1982, c.77 (C.2A:4A-30) alleges that the juvenile has committed an eligible offense as defined in subsection c. of this section and the court has approved diversion of the complaint pursuant to section 4 of P.L.1982, c.81 (C.2A:4A-73), the resolution of the complaint shall include the juvenile's participation in a remedial education or counseling program. The parents or guardian of the juvenile shall bear the cost of participation in the program, except that the court shall take into consideration the ability of the juvenile's parents or guardian to pay and the availability of such a program in the area in which the juvenile resides and, where appropriate, may permit the juvenile to participate in a self-guided awareness program in lieu of a remedial education or counseling program provided that it satisfies the requirements of subsection b. of this section.
b. A remedial education or counseling program satisfies the requirements of this act if the program is designed to increase the juvenile’s awareness of:

(1) the legal consequences and penalties for sharing sexually suggestive or explicit materials, including applicable federal and State statutes;
(2) the non-legal consequences of sharing sexually suggestive or explicit materials including, but not limited to, the effect on relationships, loss of educational and employment opportunities, and being barred or removed from school programs and extracurricular activities;

The Commissioner of Education shall develop and establish an initiative to support and encourage the use of a Response to Intervention framework by school districts to promote the achievement of all students. The initiative shall include dissemination of information and guidance to school districts regarding the development and effective implementation of a Response to Intervention framework as a methodology to identify struggling learners, maximize student achievement, and reduce behavioral problems. The initiative shall also include dissemination of information and guidance to school districts regarding the effective use of a Response to Intervention framework as a methodology to identify students with specific learning disabilities in accordance with the “Individuals with Disabilities Education Act,” 20 U.S.C. s.1400 et seq. The information and guidance provided to school districts shall make clear that a Response to Intervention framework is not a substitute for classification of a student as eligible for special education and related services if the student requires classification.

The principal may convene such a meeting, if after the student has been suspended for the first time, the principal upon evaluation deems such a meeting appropriate. b. The Department of Education, in consultation with the Department of Health, shall make available to school districts a list of current resources that may be of assistance as referral services for students under subsection a. of this section. The resources may include, but need not be limited to, the New Jersey MentalHealthCare information and referral service, and county or local programs that provide youth services for mental health or substance abuse.

c. The requirements of subsection a. of this section shall not apply when a student’s immediate removal or suspension from the school’s regular education program is required pursuant to the provisions of the “Zero Tolerance for Guns Act,” P.L.1995, c.127 (C.18A:37-7 et seq.); section 2 of P.L.1979, c.189 (C.18A:37-2.1); or section 1 of P.L.1995, c.128 (C.18A:37-2.2); or in any other instance in which the

1.a. There is established in the Department of Environmental Protection, Division of Fish and Wildlife, a Hooked on Fishing-Not on Drugs Program, which shall be based on a national program developed by the Future Fisherman Foundation that encourages school-aged children to avoid drug usage by providing alternative activities that involve learning to fish, appreciating aquatic and environmental resources, and developing positive life skills. The division shall assign staff to develop strategies for assisting school districts or other interested public service organizations in implementing this program throughout the State. Statewide program implementation shall be modeled after the pilot program implemented in Ocean County in calendar year 2000, which may include, but not be limited to, the distribution of materials to promote and operate the program throughout the State. To the maximum extent possible, the division shall implement and operate the program in every county in the State.

b. The division may work with educational, public safety and environmental groups in order to promote volunteerism among these groups for the purpose of acting as program instructors, mentors or advisors. The division may also work with public service organizations, sportsman groups and local merchants to encourage the donation of technical, material and financial assistance to the program.
23:2-14. Collection, maintenance of data; annual report.
2. The division shall collect and maintain data on the Hooked on Fishing-Not on Drugs Program and provide an annual report to the Legislature pursuant to section 2 of P.L.1991, c.164 (C.52:14-19.1), including information on the number of school districts or municipalities that have implemented the program and the number of pupils that are participating in the program. The report shall also include information on the effectiveness of the program in terms of drug usage avoidance or incidents among participating students.

3. The Department of Environmental Protection shall adopt, pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), such rules and regulations as may be necessary to effectuate the provisions of this act.

A school district may, at its own discretion, implement bullying prevention programs and approaches which impose a cost on the district.

A school district may apply to the Department of Education for a grant to be used for programs, approaches, or personnel established pursuant to this act, to the extent funds are appropriated for these purposes or funds are made available through the “Bullying Prevention Fund” established pursuant to section 25 of P.L.2010, c.122 (C.18A:37-28). A school district may satisfy the training required pursuant to this subsection by utilizing training that may be provided at no cost by the Department of Education, the New Jersey State Bar Foundation, or any other entity. A school district may, at its own discretion, implement a training program which imposes a cost on the district.

The inservice training programs may utilize the offices of the executive county superintendent of schools, or such other institutions, agencies, or persons as the commissioner deems appropriate. Each board of education shall provide time for the inservice training during the usual school schedule in order to ensure that appropriate personnel are prepared to act in the district as district anti-bullying coordinators and school anti-bullying specialists.

b. Upon completion of the initial inservice training program, the commissioner shall ensure that programs and workshops that reflect the most current information on harassment, intimidation, and bullying in schools are prepared and made available to district anti-bullying coordinators and school anti-bullying specialists at regular intervals.

The Commissioner of Education shall develop, in consultation with the Division on Civil Rights, and make available on the Department of Education's Internet site, an online tutorial on harassment, intimidation, and bullying. The online tutorial shall, at a minimum, include best practices in the prevention of harassment, intimidation, and bullying, applicable laws, and such other information that the commissioner
determines to be appropriate. The online tutorial shall be accompanied by a test to assess a person's understanding of the information provided in the tutorial.

A school district selected to participate in the pilot program shall provide ongoing professional development to teachers and other staff employed in the school in which the restorative justice model is being implemented on: how to understand, recognize, and respond to students and their families who are impacted by the effects of trauma and adverse childhood experiences; the adverse consequences of the exclusion of students from school and their involvement in the juvenile justice system; effective classroom management strategies; culturally responsive discipline; and developmentally appropriate disciplinary methods that promote a positive and healthy school climate.

a. Upon completion of the curriculum guidelines required pursuant to section 2 of this act, the Commissioner of Education, in consultation with the Commissioner of Health, shall establish inservice workshops and training programs to train selected public school teachers to teach an education program on drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances. The inservice training programs may utilize existing county or regional offices, or such other institutions, agencies or persons as the Commissioner of Education deems appropriate. The programs and workshops shall provide instructional preparation for the teaching of the drug, alcohol, anabolic steroids, tobacco and controlled dangerous substances curriculum, and shall, in addition to the curriculum material, include information on the history, pharmacology, physiology and psychosocial aspects of drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances, symptomatic behavior associated with substance abuse, the availability of rehabilitation and treatment programs, and the legal aspects of substance abuse. Each local board of education shall provide time for the inservice training during the usual school schedule in order to insure that appropriate teaching staff members are prepared to teach the education program in each grade in each school district.
b. Upon completion of the initial inservice training program, the Commissioner of Education shall insure that programs and workshops that reflect the most current information on substance abuse are prepared and are made available to teaching staff members at regular intervals.
c. In addition to providing inservice training programs for teaching staff members who will provide instruction on substance abuse in the public schools, the Commissioner of Education shall make these training programs available to such other instructional and supervisory personnel as he deems necessary and appropriate.

In addition to the provisions for inservice training established pursuant to this act, the commissioner shall insure that the preservice training of individuals intending to enter the teaching profession provides for an adequate treatment of the subject of substance abuse.

No certificate to teach in the public schools shall be issued to any teaching staff member who has not passed a satisfactory examination in (1) physiology and hygiene; and (2) substance abuse issues which includes material on the physiological, psychological, sociological and legal aspects of drug and alcohol abuse, methods of educating students on the negative effects of substance abuse, and intervention strategies for dealing with students engaged in substance abuse.

The Commissioner of Education, in consultation with the Commissioner of Health, shall establish and administer a system for the evaluation of the effectiveness of instructional programs established pursuant
to this act. Programs which are shown to be effective shall be made available to other school districts throughout the State.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall develop an inservice training program for public school teachers to enable the teachers to recognize and respond to substance abuse by public school pupils. The program shall, at a minimum, include:

(1) Instruction to assist the teacher in the identification of the symptoms and behavioral patterns which might indicate that a child may be involved in substance abuse;

(2) Appropriate intervention strategies; and,

(3) Information on the State, local and community organizations which are available for the prevention, early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.

The inservice training program required pursuant to this section shall be updated at regular intervals in order to insure that teaching staff members have the most current information available on this subject.

b. Each local board of education shall insure that all teaching staff members in the district who are involved in the instruction of pupils are provided with the inservice training program developed pursuant to this section. The inservice training program of the local board of education shall also include information concerning the policy of the board regarding the referral for treatment of pupils involved in substance abuse, as required pursuant to section 5 [18A:40A-12] of this act.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall establish guidelines for substance abuse education programs to be offered by local boards of education to the parents or legal guardians of public school pupils. The program shall, at a minimum, provide:

(2) Information on the pharmacology, physiology, psychosocial and legal aspects of substance abuse, and instruction to assist the parent or guardian in the identification of the symptoms and behavioral patterns which might indicate that a child may be involved in substance abuse; and

(3) Information on the State, local and community organizations which are available for the prevention, early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.

b. In addition to the guidelines required pursuant this section, the Commissioner of Education, in consultation with the Commissioner of Health, shall develop and provide to local boards of education suggested materials for the substance abuse education program for parents or legal guardians of school pupils, and shall maintain and continuously update a roster of individuals or groups available to assist boards of education in implementing this program and a list of State and local agencies and organizations which are approved by the Department of Health to provide services for the prevention, early intervention, treatment or rehabilitation of individuals who show symptoms of substance abuse.

The parents or guardian of the juvenile shall bear the cost of participation in the program, except that the court shall take into consideration the ability of the juvenile's parents or guardian to pay and the availability of such a program in the area in which the juvenile resides and, where appropriate, may permit the juvenile to participate in a self-guided awareness program in lieu of a remedial education or counseling program provided that it satisfies the requirements of subsection b. of this section.

b. A remedial education or counseling program satisfies the requirements of this act if the program is designed to increase the juvenile's awareness of:

(1) the legal consequences and penalties for sharing sexually suggestive or explicit materials, including applicable federal and State statutes;

(2) the non-legal consequences of sharing sexually suggestive or explicit materials including, but not limited to, the effect on relationships, loss of educational and employment opportunities, and being barred or removed from school programs and extracurricular activities;

(3) the potential, based upon the unique characteristics of cyberspace and the Internet, of long-term and unforeseen consequences for sharing sexually suggestive or explicit materials; and

c. As used in this act, "eligible offense" means an offense in which:

(1) the facts of the case involve the creation, exhibition or distribution of a photograph depicting nudity or portraying a child in a sexually suggestive manner, as defined in N.J.S.2C:24-4, through the use of an electronic communication device, an interactive wireless communications device, or a computer; and

(2) the creator and subject of the photograph are juveniles or were juveniles at the time of its making.

18A:17-42. Preamble; purpose of article.

The legislature finds that the safety and welfare of the public school students of this state while attending sessions of the public schools is a matter of prime concern to the citizens of this state; that, in several isolated instances throughout this state, unlawful intruders into the public schools have subjected public school students and their teachers to physical and verbal attacks during sessions of the public schools and on the property of said public schools; that such attacks might have been prevented, and similar attacks will be prevented, if public school law enforcement officers are stationed in said schools; and that state aid to local boards is necessary to help such boards bear the cost of employing and stationing public school law enforcement officers.

(a) The commissioner may, in accordance with rules and regulations promulgated pursuant to this article and upon a finding of need therefor, authorize any board of education to employ, subject to the provisions of Title 11, Civil Service, of the Revised Statutes, one or more public school law enforcement officers, and to station such public school law enforcement officers in public schools of this state during hours when said public schools are normally in session or are occupied by public school students or their teachers.

(b) No such public school law enforcement officer shall be employed, except upon the application of a board of education and with the approval of the county superintendent.

2. The principal or his or her designee shall be responsible for the removal of any pupil pursuant to section 1 of P.L.1995, c.128 (C.18A:37-2.2). The principal or his or her designee shall immediately report the removal of any pupil to the district's chief school administrator. The principal shall also notify the appropriate law enforcement agency of a possible violation of the New Jersey Code of Criminal Justice.

The State Board of Education, in consultation and cooperation with the Attorney General, shall adopt, pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.) rules and regulations regarding law enforcement activities on school grounds and the reporting of suspected offenses and acts of delinquency to law enforcement.
The principal or his or her designee shall be responsible for the removal of any pupil pursuant to section 2 of P.L.1995, c.127 (C.18A:37-8). The principal or his or her designee shall immediately report the removal of any pupil to the district's chief school administrator. The district's chief school administrator may modify such removal of a pupil on a case-by-case basis. The principal shall also notify the appropriate law enforcement agency of a possible violation of the New Jersey Code of Criminal Justice.

c. It shall be the responsibility of student assistance coordinators to assist local school districts in the effective implementation of this act. Coordinators shall assist with the in service training of school district staff concerning substance abuse issues and the district program to combat substance abuse; serve as an information resource for substance abuse curriculum development and instruction; assist the district in revising and implementing substance abuse policies and procedures; develop and administer intervention services in the district; provide counseling services to pupils regarding substance abuse problems; and, where necessary and appropriate, cooperate with juvenile justice officials in the rendering of substance abuse treatment services.

a. If at least one school building of a school district is equipped with video surveillance equipment that is capable of streaming live video wirelessly to a remote location, the board of education shall enter into a memorandum of understanding with local law enforcement authorities providing the authorities with the capacity to activate the equipment and view live streaming video. The memorandum of understanding shall include, but need not be limited to, the following:

1) the designation of individuals who shall be authorized to view live streaming video;
2) the circumstances under which the designated individuals would view live streaming video; and
3) a detailed plan for preventing and detecting unauthorized access to live streaming video.
b. In the case of a school building that is located in a municipality in which there is no municipal police department, the board shall enter into a memorandum of understanding with an entity designated by the Superintendent of the State Police.
c. In the event that the parties to the memorandum of understanding are unable to reach an agreement regarding any provision required to be included pursuant to subsection a. of this section, the county prosecutor shall make the final determination regarding that provision.
d. A board shall enter into the memorandum of understanding no later than 180 days following the effective date of this act.
e. Nothing in this section shall be construed as to require the installation of video surveillance equipment capable of streaming live video wirelessly to a remote site.

This act shall be known and may be cited as the "Secure Schools for All Children Act."

As used in this act:
"Nonpublic school" means an elementary or secondary school within the State, other than a public school, offering education for grades kindergarten through 12, or any combination of them, wherein any child may legally fulfill compulsory school attendance requirements and which complies with the requirements of Title VI of the "Civil Rights Act of 1964," Pub.L.88-352, (42 U.S.C. s.2000d et seq.).
"Support limit" means the maximum amount which may be appropriated each year for the purposes of this act for each student enrolled full-time in nonpublic schools of the State.

A board of education of a school district in which a nonpublic school is located shall within the limit of funds appropriated or otherwise made available, adopt policies and procedures to provide the students who are enrolled full-time in the nonpublic school with security services, equipment, or technology to help ensure a safe and secure school environment.

a. The superintendent of schools of each school district in which a nonpublic school is located shall confer annually with the chief school administrator of each of the nonpublic schools to:
   (1) advise the nonpublic school of the limit of funds available pursuant to this act;
   (2) agree upon the security services, equipment, or technology to be provided to the students of the nonpublic school, within the limit of the funds that are available; and
   (3) agree on the date when the board of education will meet to approve how the security services, equipment, or technology will be provided to the students of the nonpublic school.
b. In the event that the superintendent of schools and the chief school administrator of the nonpublic school are unable to agree regarding the security services, equipment, or technology to be provided for a safe and secure school environment, the executive county superintendent shall be consulted to determine the security services, equipment, or technology to be provided. The decision of the executive county superintendent shall be final.

a. The support limit for the 2016-2017 school year shall be $75. For each school year thereafter the commissioner shall determine the support limit by multiplying the support limit for the previous school year times the sum of 1.0 plus the average annual percentage increase in the consumer price index for the New York and Philadelphia areas during the fiscal year preceding the prebudget year as reported by the United States Department of Labor.
b. On or before November 5 of each year, each board of education shall forward to the Commissioner of Education an estimate of the cost of providing, during the next school year, the security services, equipment, or technology required pursuant to this act and the number of students attending nonpublic schools located within the district as of the last school day of October of the current school year. The commissioner shall provide State aid to each school district in an amount equal to the number of nonpublic school students within the district identified by the district on or before November 5 multiplied by the State support limit. In the event that the expenditure incurred by any district is less than the amount of State aid received, the district shall refund the unexpended State aid after the completion of the school year, but not later than December 1 of the following school year.
c. If in any year, the amount of State aid appropriated is insufficient to carry out in full the provisions of this act, the commissioner shall apportion that appropriation among the districts in proportion to the State aid each district would have received had the full amount of State aid been appropriated. In any year, no district shall be required to make expenditures for the purposes of this act in excess of the amount of State aid received for these purposes.
A school district and a nonpublic school and their employees shall be immune from civil liability in the provision of security services, equipment, or technology pursuant to the provisions of this act, except for actions that constitute gross negligence or willful misconduct.

The State Board of Education shall promulgate rules pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), to effectuate the provisions of this act in a manner that comports with the provisions of the State and federal Constitutions, including a list of allowable expenditures for security services, equipment, or technology to ensure a safe and secure school environment for nonpublic school students.

40A:14-146.10. Special law enforcement officers.

a. Any local unit may, as it deems necessary, appoint special law enforcement officers sufficient to perform the duties and responsibilities permitted by local ordinances authorized by N.J.S.40A:14-118 or ordinance or resolution, as appropriate, authorized by N.J.S.40A:14-106 and within the conditions and limitations as may be established pursuant to this act.

No public official with responsibility for setting law enforcement policy or exercising authority over the budget of the local unit or supervision of the police department of a local unit shall be appointed as a special law enforcement officer.

e. Before any special law enforcement officer is appointed pursuant to this act, the chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit shall ascertain the eligibility and qualifications of the applicant and report these determinations in writing to the appointing authority.

f. Any person who at any time prior to his appointment had served as a duly qualified, fully-trained, full-time officer in any municipality or county of this State and who was separated from that prior service in good standing, shall be eligible to serve as a special law enforcement officer consistent with guidelines promulgated by the commission. The training requirements set forth in section 4 of P.L.1985, c.439 (C.40A:14-146.11) may be waived by the commission with regard to any person eligible to be appointed as a special law enforcement officer pursuant to the provisions of this section.

g. In addition to the qualifications established in subsection b. of this section, a person shall not be appointed as a Class Three special law enforcement officer unless the person:

(6) is hired in a part-time capacity.

For the purposes of this subsection, "good standing" shall exclude a retirement resulting from injury or incapacity.

40A:14-146.11. Training; classifications.

a. A person shall not commence the duties of a special law enforcement officer unless the person has successfully completed a training course approved by the commission and a special law enforcement officer shall not be issued a firearm unless the officer has successfully completed the basic firearms course approved by the commission for permanent, regularly appointed police and annual requalification examinations as required by subsection b. of section 7 of P.L.1985, c.439 (C.40A:14-146.14). There shall be three classifications for special police officers. The commission shall prescribe by rule or regulation the training standards to be established for each classification. Training may be in a commission approved academy or in any other training program which the commission may determine appropriate. The classifications shall be based upon the duties to be performed by the special law enforcement officer as follows:

(1) Class One. Officers of this class shall be authorized to perform routine traffic detail, spectator control, and similar duties. If authorized by ordinance or resolution, as appropriate, Class One officers shall have the power to issue summonses for disorderly persons and petty disorderly persons offenses, violations of municipal ordinances, and violations of Title 39 of the Revised Statutes. The use of a firearm by an officer of this class shall be strictly prohibited and a Class One officer shall not be assigned any duties which may require the carrying or use of a firearm.

(2) Class Two. Officers of this class shall be authorized to exercise full powers and duties similar to those of a permanent, regularly appointed full-time police officer. The use of a firearm by an officer of this class may be authorized only after the officer has been fully certified as successfully completing training as prescribed by the commission.

(3) Class Three. Officers of this class shall be authorized to exercise full powers and duties similar to those of a permanent, regularly appointed full-time police officer while providing security at a public or nonpublic school or a county college on the school or college premises during hours when the public or nonpublic school or county college is normally in session or when it is occupied by public or nonpublic school or county college students or their teachers or professors. While on duty in the jurisdiction of employment, an officer may respond to offenses or emergencies off school or college grounds if they
occur in the officer's presence while traveling to a school facility or county college, but an officer shall not otherwise be dispatched or dedicated to any assignment off school or college property.

The use of a firearm by an officer of this class shall be authorized pursuant to the provisions of subsection b. of section 7 of P.L.1985, c.439 (C.40A:14-146.14). An officer of this class shall not be authorized to carry a firearm while off duty unless the officer complies with the requirements set forth in subsection l. of N.J.S.2C:39-6 authorizing a retired law enforcement officer to carry a handgun.

b. The commission may, in its discretion, except from the requirements of this section any person who demonstrates to the commission's satisfaction that the person has successfully completed a police training course conducted by any federal, state or other public or private agency, the requirements of which are substantially equivalent to the requirements of this act.

c. The commission shall certify officers who have satisfactorily completed training programs and issue appropriate certificates to those officers. The certificate shall clearly state the category of certification for which the officer has been certified by the commission.

d. All special law enforcement officers appointed and in service on the effective date of this act may continue in service if within 24 months of the effective date of this act they will have completed all training and certification requirements of this act.

40A:14-146.12. Uniforms.

Every special law enforcement officer prior to the commencement of his duties shall be furnished with a uniform which shall identify the officer's function. The uniform shall include, but not be limited to, a hat and appropriate badges which shall bear an identification number or name tag and the name of the local unit in which the officer is employed. The uniform shall also include an insignia issued by the commission which clearly indicates the officer's status as a special law enforcement officer and the type of certification issued pursuant to section 4 of this act. Within six months following the effective date of this act the commission shall issue the insignia. All special law enforcement officers prior to the commencement of duties shall be in uniform properly displaying the appropriate insignia. Nothing in this section shall preclude the designation on an insignia to read either "special police" or "special law enforcement officer."

40A:14-146.13. Fees.

a. Except as specified in subsection b. of this section, a local unit may charge a reasonable fee as may be fixed by the governing body for equipment and uniforms supplied pursuant to this act, but may not charge a fee for the costs of training or issuing a certificate of appointment. The local unit shall not be required to compensate a special law enforcement officer for time spent in training;

b. In addition to charging a reasonable fee as fixed by the governing body for equipment and uniforms supplied pursuant to this act, a local unit with a population in excess of 300,000, according to the 1980 federal decennial census, may charge a fee for the costs of training and for the administrative costs of issuing a certificate of appointment for a special law enforcement officer whose duties consist solely of performing public safety functions for a private employer.

a. Special law enforcement officers may be appointed for terms not to exceed one year, and the appointments may be revoked by the local unit for cause after adequate hearing, unless the appointment is for four months or less, in which event the appointment may be revoked without cause or hearing. Nothing herein shall be construed to require reappointment upon the expiration of the term. The special law enforcement officers so appointed shall not be members of the police force of the local unit, and their powers and duties as determined pursuant to this act shall cease at the expiration of the term for which they were appointed.
b. A special law enforcement officer shall not carry a firearm except while engaged in the actual performance of the officer's official duties and when specifically authorized by the chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit to carry a firearm and provided that the officer has satisfactorily completed the basic firearms course required by the commission for regular police officers and annual requalification examinations as required for permanent, regularly appointed full-time officers in the local unit.

A special law enforcement officer shall be deemed to be on duty only while the officer is performing the public safety functions on behalf of the local unit pursuant to this act and when the officer is receiving compensation, if any, from the local unit at the rates or stipends as shall be established by ordinance. A special law enforcement officer shall not be deemed to be on duty for purposes of this act while performing private security duties for private employers, which duties are not assigned by the chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit, or while receiving compensation for those duties from a private employer. A special law enforcement officer may, however, be assigned by the chief of police or, in the absence of the chief, other chief law enforcement officer, to perform public safety functions for a private entity if the chief of police or other chief law enforcement officer supervises the performance of the public safety functions. If the chief of police or other chief law enforcement officer assigns the public safety duties and supervises the performance of those duties, then, notwithstanding that the local unit is reimbursed for the cost of assigning a special law enforcement officer at a private entity, the special law enforcement officer shall be deemed to be on duty.

The reimbursement for the duties of a special law enforcement officer, which is made to a municipality with a population in excess of 300,000, according to the 1980 federal decennial census, may be by direct payments from the employer to the special law enforcement officer, provided that records of the hours worked are forwarded to and maintained by the chief of police or other chief law enforcement officer responsible for assigning the special law enforcement officer those public safety duties.

Any firearm utilized by a special law enforcement officer shall be returned at the end of the officer's workday to the officer in charge of the station house, unless the firearm is owned by the special law enforcement officer and was acquired in compliance with a condition of employment established by the local unit. Any special law enforcement officer first appointed after the effective date of this act shall only use a firearm supplied by the local unit. A special law enforcement officer shall not carry a revolver or other similar weapon when off duty; but if any special law enforcement officer appointed by the governing body of any municipality having a population in excess of 300,000, according to the 1980 federal census, who is a resident of the municipality and is employed as a special law enforcement officer at least 35 hours per week, or less at the discretion of the chief of police and mayor, shall, at the direction of the chief of police, have taken and successfully completed a firearms training course administered by the Police Training Commission, pursuant to P.L.1961, c.56 (C.52:17B-66 et seq.), and has successfully completed within three years of the effective date of P.L.1985, c.45 or three years of the date of appointment of the special law enforcement officer, whichever is later, 280 hours of training in arrest, search and seizure, criminal law, and the use of deadly force, and shall annually qualify in the use of a revolver or similar weapon, the special law enforcement officer shall be permitted to carry a revolver or other similar weapon when off duty within the municipality where the officer is employed. Specific authorization shall be in the form of a permit which shall not be unreasonably withheld, which is subject to renewal annually and may be revoked at any time by the chief of police. The permit shall be on the person of the special law enforcement officer whenever a revolver or similar weapon is carried off duty. Any training courses completed by a special law enforcement officer under the direction of the chief of police in a school and a curriculum approved by the Police Training Commission, pursuant to P.L.1961, c.56 (C.52:17B-66 et seq.), shall be credited towards the 280 hours of training required to be completed by this section. Any training required by this section shall commence within 90
days of the effective date of P.L.1985, c.45 or within 90 days of the date of the appointment of the special law enforcement officer, whichever is later.

c. A special law enforcement officer shall be under the supervision and direction of the chief of police or, in the absence of the chief, other chief law enforcement officer of the local unit wherein the officer is appointed, and shall perform the officer's duties only in the local unit except when in fresh pursuit of any person pursuant to chapter 156 of Title 2A of the New Jersey Statutes or when authorized to perform duties in another unit pursuant to a mutual aid agreement enacted in accordance with section 1 of P.L.1976, c.45 (C.40A:14-156.1).

d. The officer shall comply with the rules and regulations applicable to the conduct and decorum of the permanent, regularly appointed police officers of the local unit, as well as any rules and regulations applicable to the conduct and decorum of special law enforcement officers.

e. Notwithstanding any provision of P.L.1985, c.439 (C.40A:14-146.8 et seq.) to the contrary, a special law enforcement officer may travel through another local unit to reach a noncontiguous area of the local unit in which the officer's appointment was issued or to transport persons to and from a correctional facility.

40A:14-146.15. Powers.

The chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit wherein the officer is appointed, may authorize special law enforcement officers when on duty to exercise the same powers and authority as permanent, regularly appointed police officers of the local unit, including, but not limited to, the carrying of firearms and the power of arrest, subject to rules and regulations, not inconsistent with the certification requirements of this act, as may be established by local ordinance or resolution, as appropriate, adopted by the appropriate authority of the local unit in which they are employed.

40A:14-146.16. Limitation on hours.

a. Except as provided in subsection c. of this section, a special law enforcement officer shall not be employed for more than 20 hours per week by the local unit except that special law enforcement officers may be employed by the local unit for those hours as the governing body may determine necessary in accordance with the limits prescribed below:

(1) In resort municipalities not to exceed 48 hours per week during any seasonal period.
(2) In all municipalities or counties without limitation as to hours during periods of emergency.
(3) In all municipalities or counties in addition to not more than 20 hours per week including duties assigned pursuant to the provisions of section 7 of P.L.1985, c.439 (C.40A:14-146.14) a special law enforcement officer may be assigned for not more than 20 hours per week to provide public safety and law enforcement services to a public entity.
(4) In municipalities or counties, as provided in subsection b. of section 7 of P.L.1985, c.439 (C.40A:14-146.14), for hours to be determined at the discretion of the director of the municipal or county police force.
(5) A Class Three special law enforcement officer in all municipalities without limitation.

b. Notwithstanding any provision of P.L.1985, c.439 (C.40A:14-146.8 et seq.) to the contrary, special law enforcement officers may be employed only to assist the local law enforcement unit but may not be employed to replace or substitute for full-time, regular police officers or in any way diminish the number of full-time officers employed by the local unit or a school or county college. A Class Three special law enforcement officer may be employed only to assist the local law enforcement unit with security duties and shall not supplant a law enforcement officer employed pursuant to the provisions of N.J.S.18A:17-43 or a safe schools resource officer employed pursuant to the provisions of section 3 of P.L.2005, c.276
A Class Three special law enforcement officer shall not be assigned to an extra-curricular or after-school function at a school or county college unless the assignment has first been made available to full-time members employed by the local unit or school or county college.

c. Each municipality or county may designate one special law enforcement officer to whom the limitations on hours employed set forth in subsection a. of this section shall not be applicable.

d. A Class Three special law enforcement officer appointed pursuant to the provisions of P.L.1985, c.439 (C.40A:14-146.8 et seq.) shall not, based on this appointment, be eligible for health care benefits or enrollment in any State-administered retirement system.

40A:14-146.17. Limitations on number, categories.
The local governing body shall by ordinance or resolution, as appropriate, establish limitations upon the number and categories of special law enforcement officers which may be employed by the local unit in accordance with the certification and other requirements provided for in this act. In communities other than resort municipalities, the number of Class Two special law enforcement officers shall not exceed 25% of the total number of regular police officers, except that no municipality shall be required to reduce the number of Class Two special law enforcement officers or the equivalent thereof in the employ of the municipality as of March 1, 1985. Notwithstanding the provisions of this section, each local unit may appoint two Class Two special law enforcement officers.

52:17B-71.8. Training course for safe schools resource officers, liaisons to law enforcement.
a. 18A:17-42. Preamble; purpose of article.

The legislature finds that the safety and welfare of the public school students of this state while attending sessions of the public schools is a matter of prime concern to the citizens of this state; that, in several isolated instances throughout this state, unlawful intruders into the public schools have subjected public school students and their teachers to physical and verbal attacks during sessions of the public schools and on the property of said public schools; that such attacks might have been prevented, and similar attacks will be prevented, if public school law enforcement officers are stationed in said schools; and that state aid to local boards is necessary to help such boards bear the cost of employing and stationing public school law enforcement officers.

(a) The commissioner may, in accordance with rules and regulations promulgated pursuant to this article and upon a finding of need therefor, authorize any board of education to employ, subject to the provisions of Title 11, Civil Service, of the Revised Statutes, one or more public school law enforcement officers, and to station such public school law enforcement officers in public schools of this state during hours when said public schools are normally in session or are occupied by public school students or their teachers.

(b) No such public school law enforcement officer shall be employed, except upon the application of a board of education and with the approval of the county superintendent.
The attendance officer shall examine into all violations of this article, shall warn any child violating any of
the provisions of this article and the parent, guardian or other person having charge and control of the
child of the consequences of the violation if persisted in, and shall notify such person in writing to cause
the child to attend school within five days from the date on which notice is served, and regularly
thereafter. The attendance officer shall have full police power to enforce the provisions of this article and
may arrest without warrant any vagrant child or habitual truant or any child who is habitually incorrigible or
who is vicious or immoral in conduct or illegally absent from school.

18A:38-30. Assistance of sheriffs, police officers, etc.
The sheriff and his officers and all police officers and constables shall assist attendance officers in the
performance of their duties.

18A:38-31. Failure to comply with provisions of article; fine.
A parent, guardian or other person having charge and control of a child between the ages of 6 and 16
years, who shall fail to comply with any of the provisions of this article relating to his duties, shall be
deemed to be a disorderly person and shall be subject to a fine of not more than $25.00 for a first offense
and not more than $100.00 for each subsequent offense, in the discretion of the court.
In any such proceeding, the summons issuing therein, or in special circumstances a warrant, shall be
directed to the alleged disorderly person and the child.

For the purpose of enforcing the provisions of this article, the board of education of each school district
and the board of education of each county vocational school shall appoint a suitable number of qualified
persons to be designated as attendance officers, and shall fix their compensation; except that if a county
attendance officer or officers are appointed for any county, any district board of education of such county
may be exempt from the appointment of a local attendance officer if such exemption is approved by the
county superintendent. Each board shall make rules not inconsistent with the provisions of this article and
subject to the approval of the commissioner, for the government of the attendance officers.

The services of all attendance officers of the public schools of a city district shall, after employment in
such district for one year, be under tenure during good behavior and efficiency and they shall not be
dismissed or reduced in compensation except for inefficiency, conduct unbecoming an officer, or other
just cause, and only in the manner prescribed by subarticle B of article 2 of chapter 6 of this title.

18A:38-34. Attendance officers in counties other than counties of first class; duties; terms;
salaries.
Whenever a majority of the boards of education of any county other than counties of the first class has by
resolution requested the appointment of a county attendance officer or officers and, upon investigation,
the commissioner and the state board shall deem the appointment of a county attendance officer or
officers to be for the best interest of the schools of that county, the commissioner shall appoint, subject to
the approval of the state board, a suitable person or persons to be known as the county attendance
officer or officers for the county who shall perform in all districts of the county exclusive of city school
districts such duties as may be prescribed by rules of the state board. Each county attendance officer
shall have the same power to enforce the compulsory school law and rules connected therewith as is
conferred upon attendance officers appointed by local boards of education. If any such person so
appointed a county attendance officer is in possession of a proper visiting teacher's certificate, in full force
and effect, such county attendance officer shall be designated "home and school counsellor," and such "home and school counsellor," in addition to the powers of a county attendance officer, shall have all the powers of a visiting teacher. The term of office of such county attendance officer shall be for one year and the commissioner shall fix the salary of such county attendance officer or officers with the approval of the state board.

The salary of each county attendance officer shall be paid as other state salaries are paid. **40A:14-146.14. Special law enforcement officers, appointment, terms, regulations.**

a. Special law enforcement officers may be appointed for terms not to exceed one year, and the appointments may be revoked by the local unit for cause after adequate hearing, unless the appointment is for four months or less, in which event the appointment may be revoked without cause or hearing. Nothing herein shall be construed to require reappointment upon the expiration of the term. The special law enforcement officers so appointed shall not be members of the police force of the local unit, and their powers and duties as determined pursuant to this act shall cease at the expiration of the term for which they were appointed.

If the chief of police or other chief law enforcement officer assigns the public safety duties and supervises the performance of those duties, then, notwithstanding that the local unit is reimbursed for the cost of assigning a special law enforcement officer at a private entity, the special law enforcement officer shall be deemed to be on duty.

Any firearm utilized by a special law enforcement officer shall be returned at the end of the officer’s workday to the officer in charge of the station house, unless the firearm is owned by the special law enforcement officer and was acquired in compliance with a condition of employment established by the local unit. Any special law enforcement officer first appointed after the effective date of this act shall only use a firearm supplied by the local unit. Specific authorization shall be in the form of a permit which shall not be unreasonably withheld, which is subject to renewal annually and may be revoked at any time by the chief of police. The permit shall be on the person of the special law enforcement officer whenever a revolver or other similar weapon is carried off duty within the municipality where the officer is employed. Specific authorization shall be in the form of a permit which shall not be unreasonably withheld, which is subject to renewal annually and may be revoked at any time by the chief of police. The permit shall be on the person of the special law enforcement officer whenever a revolver or other similar weapon is carried off duty. A permit shall not be issued until the special law enforcement officer has successfully completed all training courses required under this section. Any training courses completed by a special law enforcement officer under the direction of the chief of police in a school and a curriculum approved by the Police Training Commission, pursuant to P.L.1961, c.56 (C.52:17B-66 et seq.), shall be credited towards the 280 hours of training required to be completed by this section. Any training required by this section shall commence within 90 days of the effective date of P.L.1985, c.45 or within 90 days of the date of the appointment of the special law enforcement officer, whichever is later.

c. A special law enforcement officer shall be under the supervision and direction of the chief of police or, in the absence of the chief, other chief law enforcement officer of the local unit wherein the officer is
appointed, and shall perform the officer's duties only in the local unit except when in fresh pursuit of any person pursuant to chapter 156 of Title 2A of the New Jersey Statutes or when authorized to perform duties in another unit pursuant to a mutual aid agreement enacted in accordance with section 1 of P.L.1976, c.45 (C.40A:14-156.1).

d. The officer shall comply with the rules and regulations applicable to the conduct and decorum of the permanent, regularly appointed police officers of the local unit, as well as any rules and regulations applicable to the conduct and decorum of special law enforcement officers.

Notwithstanding any provision of P.L.1985, c.439 (C.40A:14-146.8 et seq.) to the contrary, special law enforcement officers may be employed only to assist the local law enforcement unit but may not be employed to replace or substitute for full-time, regular police officers or in any way diminish the number of full-time officers employed by the local unit or a school or county college. A Class Three special law enforcement officer may be employed only to assist the local law enforcement unit with security duties and shall not supplant a law enforcement officer employed pursuant to the provisions of N.J.S.18A:17-43 or a safe schools resource officer employed pursuant to the provisions of section 3 of P.L.2005, c.276 (C.18A:17-43.1). A Class Three special law enforcement officer shall not be assigned to an extra-curricular or after-school function at a school or county college unless the assignment has first been made available to full-time members employed by the local unit or school or county college.
c. Each municipality or county may designate one special law enforcement officer to whom the limitations on hours employed set forth in subsection a. of this section shall not be applicable.
