**Parental Notification**

**LAWS**

§ 25.095. Warning notices.

(a) A school district or open-enrollment charter school shall notify a student's parent in writing at the beginning of the school year that if the student is absent from school on 10 or more days or parts of days within a six-month period in the same school year:

(1) the student's parent is subject to prosecution under Section 25.093; and

(b) A school district shall notify a student's parent if the student has been absent from school, without excuse under Section 25.087, on three days or parts of days within a four-week period. The notice must:

(1) inform the parent that:

(A) it is the parent's duty to monitor the student's school attendance and require the student to attend school; and

(B) the student is subject to truancy prevention measures under Section 25.0915; and

(2) request a conference between school officials and the parent to discuss the absences.

(c) The fact that a parent did not receive a notice under Subsection (a) or (b) does not create a defense under Section 25.093 or under Section 65.003(a), Family Code.

(d) In this section, "parent" includes a person standing in parental relation.

§ 37.001. Student code of conduct.

(a) The board of trustees of an independent school district shall, with the advice of its district-level committee established under Subchapter F, Chapter 11, adopt a student code of conduct for the district. The student code of conduct must be posted and prominently displayed at each school campus or made available for review at the office of the campus principal. In addition to establishing standards for student conduct, the student code of conduct must:

(6) address the notification of a student's parent or guardian of a violation of the student code of conduct committed by the student that results in suspension, removal to a disciplinary alternative education program, or expulsion. [...] 

(d) Each school year, a school district shall provide parents notice of and information regarding the student code of conduct.

§ 37.0012. Designation of campus behavior coordinator.

(d) The campus behavior coordinator shall promptly notify a student's parent or guardian as provided by this subsection if under this subchapter the student is placed into in-school or out-of-school suspension,
placed in a disciplinary alternative education program, expelled, or placed in a juvenile justice alternative education program or is taken into custody by a law enforcement officer. A campus behavior coordinator must comply with this subsection by:

1. promptly contacting the parent or guardian by telephone or in person; and
2. making a good faith effort to provide written notice of the disciplinary action to the student, on the day the action is taken, for delivery to the student's parent or guardian.

§ 37.008. Disciplinary alternative education programs.

(1-1) A school district shall provide the parents of a student removed to a disciplinary alternative education program with written notice of the district's obligation under Subsection (1) to provide the student with an opportunity to complete coursework required for graduation. The notice must:

1. include information regarding all methods available for completing the coursework; and
2. state that the methods are available at no cost to the student.

§ 37.009. Conference; hearing; review.

(a) Not later than the third class day after the day on which a student is removed from class by the teacher under Section 37.002(b) or (d) or by the school principal or other appropriate administrator under Section 37.001(a)(2) or 37.006, the campus behavior coordinator or other appropriate administrator shall schedule a conference among the campus behavior coordinator or other appropriate administrator, a parent or guardian of the student, the teacher removing the student from class, if any, and the student. At the conference, the student is entitled to written or oral notice of the reasons for the removal, an explanation of the basis for the removal, and an opportunity to respond to the reasons for the removal. The student may not be returned to the regular classroom pending the conference. Following the conference, and whether or not each requested person is in attendance after valid attempts to require the person's attendance, the campus behavior coordinator, after consideration of the factors under Section 37.001(a)(4), shall order the placement of the student for a period consistent with the student code of conduct. Before ordering the suspension, expulsion, removal to a disciplinary alternative education program, or placement in a juvenile justice alternative education program of a student, the behavior coordinator must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the behavior coordinator concerns a mandatory or discretionary action. If school district policy allows a student to appeal to the board of trustees or the board's designee a decision of the campus behavior coordinator or other appropriate administrator, other than an expulsion under Section 37.007, the decision of the board or the board's designee is final and may not be appealed. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that the student is a threat to the safety of other students or to district employees.

(b) If a student's placement in a disciplinary alternative education program is to extend beyond 60 days or the end of the next grading period, whichever is earlier, a student's parent or guardian is entitled to notice of and an opportunity to participate in a proceeding before the board of trustees of the school district or the board's designee, as provided by policy of the board of trustees of the district. Any decision of the board or the board's designee under this subsection is final and may not be appealed.

(c) Before it may place a student in a disciplinary alternative education program for a period that extends beyond the end of the school year, the board or the board's designee must determine that:
(1) the student's presence in the regular classroom program or at the student's regular campus presents a danger of physical harm to the student or to another individual; or
(2) the student has engaged in serious or persistent misbehavior that violates the district's student code of conduct.

d) The board or the board's designee shall set a term for a student's placement in a disciplinary alternative education program. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that:
(1) the student is a threat to the safety of other students or to district employees; or
(2) extended placement is in the best interest of the student.

e) A student placed in a disciplinary alternative education program shall be provided a review of the student's status, including a review of the student's academic status, by the board's designee at intervals not to exceed 120 days. In the case of a high school student, the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The district is not required under this subsection to provide a course in the district's disciplinary alternative education program except as required by Section 37.008(l). At the review, the student or the student's parent or guardian must be given the opportunity to present arguments for the student's return to the regular classroom or campus. The student may not be returned to the classroom of the teacher who removed the student without that teacher's consent. The teacher may not be coerced to consent.

(f) Before a student may be expelled under Section 37.007, the board or the board's designee must provide the student a hearing at which the student is afforded appropriate due process as required by the federal constitution and which the student's parent or guardian is invited, in writing, to attend. At the hearing, the student is entitled to be represented by the student's parent or guardian or another adult who can provide guidance to the student and who is not an employee of the school district. If the school district makes a good-faith effort to inform the student and the student's parent or guardian of the time and place of the hearing, the district may hold the hearing regardless of whether the student, the student's parent or guardian, or another adult representing the student attends. Before ordering the expulsion of a student, the board of trustees must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the board concerns a mandatory or discretionary action. If the decision to expel a student is made by the board's designee, the decision may be appealed to the board. The decision of the board may be appealed by trial de novo to a district court of the county in which the school district's central administrative office is located.

The team is responsible for developing and implementing the safe and supportive school program under Subsection (b) at the district campus served by the team. The policies and procedures adopted under this section must:

The student's parent or person standing in parental relation to the student may give consent for a student to receive ongoing services or may limit consent to one or more services provided on a single occasion.

If the individual is a student, the superintendent shall immediately attempt to inform the parent or person standing in parental relation to the student. The requirements of this subsection do not prevent an employee of the school from acting immediately to prevent an imminent threat or respond to an emergency.

i) A team identifying a student at risk of suicide shall act in accordance with the district's suicide prevention program. If the student at risk of suicide also makes a threat of violence to others, the team shall conduct a threat assessment in addition to actions taken in accordance with the district's suicide prevention program.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2023. 4501.3 The restraints and seclusion prohibited by these Rules shall not be considered "reasonable and necessary force" as that term is used in 16 VSA §1161a(c) .

4501.4 Schools may have policies and procedures for the use of physical restraint and seclusion in school-wide safety plans, provided such plans are consistent with these Rules.

22 000 036. Section 4502. Permissible use of restraint and seclusion.

4502.1 Permissible Use of Physical Restraint

   c. Less restrictive interventions have failed or would be ineffective in stopping such imminent danger of physical injury or property damage;
   d. In accordance with a school-wide safety plan that is consistent with these rules; and
   e. In a manner that is safe, proportionate to and sensitive to the student's:
      i. Severity of behavior;

4502.2 Permissible Use of Seclusion

Seclusion, not otherwise prohibited by these rules, may be used only:

a. When a student's behavior poses an imminent and substantial risk of physical injury to the student or others;

e. When there is no known developmental, medical, psychological or other contraindication to its use;

f. When the student is visually monitored at all times by an adult; and

g. In a space large enough to permit safe movement that is adequately lit, heated, ventilated, free of sharp or otherwise dangerous objects; and in compliance with all fire and safety codes.

4502.3 In rare circumstances where the use of physical restraint or seclusion may be necessary due to a student's pattern of dangerous behavior that is not responsive to less restrictive interventions, physical restraint and/or seclusion may be included in an individual safety plan only if all of the following conditions apply:

a. School personnel have reviewed and agreed to the safety plan;

b. The use of physical restraint and seclusion complies with these Rules;

c. The student has a documented history showing a series of behaviors in the preceding six (6) months that have created an imminent and substantial risk of physical injury to the student or others in the school;

d. A comprehensive, data-driven, functional behavioral assessment has been conducted;

e. A behavioral intervention plan, emphasizing positive behavioral interventions and supports, has been implemented;

f. The educational planning team, IEP team or Section 504 team has reviewed the student's program and placement to determine whether it is sufficient to meet the student's unique needs;

h. Any contraindications for use are identified;

i. Staff implementing the individual safety plan have received training from a state-recommended training program;

j. The parents are fully informed of the inherent risks of using restraint and seclusion;

k. The parents provide informed consent to the use of restraint and/or seclusion, which shall be revocable at any time; and

l. The ongoing need for an individual safety plan is reviewed and revised, as appropriate, and in any event at least annually.

4502.3.1 Any restraint or seclusion imposed as a result of an individual safety plan is subject to all the reporting, documentation and debriefing requirements set forth in 4503, 4504 and 4505 below.

4502.4 Physical restraint or seclusion shall only be imposed:

a. By school personnel or contract service providers who have been trained to provide the selected intervention unless, due to the unforeseeable nature of the danger of the circumstance, trained personnel are not immediately available;

b. When a restrained student is monitored face-to-face by school personnel or contract service providers; or
b. If personnel safety is significantly compromised by face-to-face monitoring, or the student is in seclusion, school personnel or a contract service provider are in direct visual contact with the student.

4502.5 Physical restraint or seclusion shall be terminated as soon as:

a. The student demonstrates that he/she is in unnecessary pain or significant physical distress indicating a possible need for emergency medical assistance or that his/her breathing or communication is compromised; or

b. The student's behavior no longer poses an imminent danger of physical injury to the student or others or danger to property; or

c. Less restrictive interventions would be effective in stopping such imminent danger of physical injury or property damage.

4502.6 Following termination of any physical restraint or seclusion, the student shall be evaluated and monitored for the remainder of the school day on which physical restraint or seclusion is imposed. The evaluation shall include a routine physical/medical assessment conducted by someone not involved in the restraint or seclusion, and documentation of any injury received by the student as a result of the restraint or seclusion.

course of an independent review.

(8) The Secretary may adopt rules implementing this subsection.

(a) Each public and each approved independent school shall adopt and implement a comprehensive
plan for responding to student misbehavior. To the extent appropriate, the plan shall promote the positive

student and the relevant school officials and review of written materials involving the complaint
maintained by the school or others.

(3) Upon the conclusion of the review, the reviewer shall advise the student and the school officials as
to the sufficiency of the school's investigation, its determination, the steps taken by the school to
correct any harassment found to have occurred, and any future steps the school should take. The
reviewer shall advise the student of other remedies that may be available if the student remains
dissatisfied and, if appropriate, may recommend mediation or other alternative dispute resolution.

(4) The independent reviewer shall be considered an agent of the school for the purpose of being
able to review confidential student records.

(5) The costs of the independent review shall be borne by the public school district or
independent school.

(6) Nothing in this subsection shall prohibit the school board from requesting an independent review
at any stage of the process.

(c) To prevail in an action alleging unlawful harassment filed pursuant to this section and 9 V.S.A. chapter 139, the plaintiff shall prove both of the following:

(1) The student was subjected to unwelcome conduct based on the student's or the student's family member's actual or perceived membership in a category protected by law by 9 V.S.A. § 4502.

(2) The conduct was either:

(A) for multiple instances of conduct, so pervasive that when viewed from an objective standard of a similarly situated reasonable person, it substantially and adversely affected the targeted student's equal access to educational opportunities or benefits provided by the educational institution; or

(B) for a single instance of conduct, so severe that when viewed from an objective standard of a similarly situated reasonable person, it substantially and adversely affected the targeted student's equal access to educational opportunities or benefits provided by the educational institution.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

LAWs

§ 22.1-79.5. Policy regarding tobacco and nicotine vapor products.
Each school board shall develop and implement a policy to prohibit, at any time, the use and distribution of any tobacco product or nicotine vapor product, as those terms are defined in § 18.2-371.2, on a school bus, on school property, or at an on-site or off-site school-sponsored activity.
Such policy shall include (i) provisions for its enforcement among students, employees, and visitors, including the enumeration of possible sanctions or disciplinary action consistent with state or federal law, and (ii) referrals to resources to help staff and students overcome tobacco addiction.
Each school board shall work to ensure adequate notice of this policy.

§ 22.1-276.01. Definitions.
A. For the purposes of this article, unless the context requires a different meaning:
"Alternative education program" includes night school, adult education, or any other education program designed to offer instruction to students for whom the regular program of instruction may be inappropriate.
"Bullying" means any aggressive and unwanted behavior that is intended to harm, intimidate, or humiliate the victim; involves a real or perceived power imbalance between the aggressor or aggressors and victim; and is repeated over time or causes severe emotional trauma. "Bullying" includes cyber bullying. "Bullying" does not include ordinary teasing, horseplay, argument, or peer conflict.
"Disruptive behavior" means a violation of school board regulations governing student conduct that interrupts or obstructs the learning environment.
"Dress or grooming code" means any practice, policy, or portion of a code of student conduct adopted by a school board that governs or restricts the attire, appearance, or grooming, including hairstyle, of any enrolled student.
"Exclusion" means a Virginia school board's denial of school admission to a student who has been expelled or has been placed on a long-term suspension of more than 30 calendar days by another school board or a private school, either in Virginia or another state, or for whom admission has been withdrawn by a private school in Virginia or another state.
"Expulsion" means any disciplinary action imposed by a school board or a committee thereof, as provided in school board policy, whereby a student is not permitted to attend school within the school division and is ineligible for readmission for 365 calendar days after the date of the expulsion.
"Long-term suspension" means any disciplinary action whereby a student is not permitted to attend school for 11 to 45 school days.
"Short-term suspension" means any disciplinary action whereby a student is not permitted to attend school for a period not to exceed 10 school days.

§ 22.1-277.07. Expulsion of students under certain circumstances; exceptions.
A. In compliance with the federal Improving America's Schools Act of 1994 (Part F-Gun-Free Schools Act of 1994), a school board shall expel from school attendance for a period of not less than one year any student whom such school board has determined, in accordance with the procedures set forth in this article, to have possessed a firearm on school property or at a school-sponsored activity as prohibited by § 18.2-308.1 or to have possessed a firearm or destructive device as defined in subsection E, a firearm muffler or firearm silencer, or a pneumatic gun as defined in subsection E of § 15.2-915.4 on school property or at a school-sponsored activity. A school administrator, pursuant to school board policy, or a
school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. A school board may promulgate guidelines for determining what constitutes special circumstances. In addition, a school board may, by regulation, authorize the division superintendent or his designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in accordance with the procedures set forth in this article. Nothing in this section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

§ 22.1-279.6. Board of Education guidelines and model policies for codes of student conduct; school board regulations.

A. The Board of Education shall establish guidelines and develop model policies for codes of student conduct to aid local school boards in the implementation of such policies. The guidelines and model policies shall include (i) criteria for the removal of a student from a class, the use of suspension, expulsion, and exclusion as disciplinary measures, the grounds for suspension and expulsion and exclusion, and the procedures to be followed in such cases, including proceedings for such suspension, expulsion, and exclusion decisions and all applicable appeals processes; (ii) standards, consistent with state, federal and case laws, for school board policies on alcohol and drugs, gang-related activity, hazing, vandalism, trespassing, threats, search and seizure, disciplining of students with disabilities, intentional injury of others, self-defense, bullying, the use of electronic means for purposes of bullying, harassment, and intimidation, and dissemination of such policies to students, their parents, and school personnel; (iii) standards for in-service training of school personnel in and examples of the appropriate management of student conduct and student offenses in violation of school board policies; (iv) standards for dress or grooming codes; and (v) standards for reducing bias and harassment in the enforcement of any code of student conduct.

In accordance with the most recent enunciation of constitutional principles by the Supreme Court of the United States of America, the Board's standards for school board policies on alcohol and drugs and search and seizure shall include guidance for procedures relating to voluntary and mandatory drug testing in schools, including which groups may be tested, use of test results, confidentiality of test information, privacy considerations, consent to the testing, need to know, and release of the test results to the appropriate school authority.

In the case of suspension and expulsion, the procedures set forth in this article shall be the minimum procedures that the school board may prescribe.

B. School boards shall adopt and revise, as required by § 22.1-253.13:7 and in accordance with the requirements of this section, regulations on codes of student conduct that are consistent with, but may be more stringent than, the guidelines of the Board. School boards shall include in the regulations on codes of student conduct procedures for suspension, expulsion, and exclusion decisions and shall biennially review the model student conduct code to incorporate discipline options and alternatives to preserve a safe, nondisruptive environment for effective teaching and learning.

C. Each school board shall include in its code of student conduct prohibitions against hazing and profane or obscene language or conduct. School boards shall also cite in their codes of student conduct the provisions of § 18.2-56, which defines and prohibits hazing and imposes a Class 1 misdemeanor penalty for violations, that is, confinement in jail for not more than 12 months and a fine of not more than $2,500, either or both.

D. Each school board shall include in its code of student conduct policies and procedures that include a prohibition against bullying. Such policies and procedures shall (i) be consistent with the standards for school board policies on bullying and the use of electronic means for purposes of bullying developed by the Board pursuant to subsection A and (ii) direct the principal or his designee to notify the parent of any student involved in an alleged incident of bullying within 24 hours of learning of the allegation of bullying.
Such policies and procedures shall not be interpreted to infringe upon the First Amendment rights of students and are not intended to prohibit expression of religious, philosophical, or political views, provided that such expression does not cause an actual, material disruption of the work of the school.

E. A school board may regulate the use or possession of beepers or other portable communications devices and laser pointers by students on school property or attending school functions or activities and establish disciplinary procedures pursuant to this article to which students violating such regulations will be subject.

F. Nothing in this section shall be construed to require any school board to adopt policies requiring or encouraging any drug testing in schools. However, a school board may, in its discretion, require or encourage drug testing in accordance with the Board of Education's guidelines and model student conduct policies required by subsection A and the Board's guidelines for student searches required by § 22.1-279.7.

G. The Board of Education shall establish standards to ensure compliance with the federal Improving America's Schools Act of 1994 (Part F-Gun-Free Schools Act of 1994), as amended, in accordance with § 22.1-277.07.

This subsection shall not be construed to diminish the authority of the Board of Education or to diminish the Governor's authority to coordinate and provide policy direction on official communications between the Commonwealth and the United States government.

H. Each school board shall include in its code of student conduct a prohibition on possessing any tobacco product or nicotine vapor product, as those terms are defined in § 18.2-371.2, on a school bus, on school property, or at an on-site or off-site school-sponsored activity.

I. Any school board may include in its code of student conduct a dress or grooming code. Any dress or grooming code included in a school board's code of student conduct or otherwise adopted by a school board shall (i) permit any student to wear any religiously and ethnically specific or significant head covering or hairstyle, including hijabs, yarmulkes, headwraps, braids, locs, and cornrows; (ii) maintain gender neutrality by subjecting any student to the same set of rules and standards regardless of gender; (iii) not have a disparate impact on students of a particular gender; (iv) be clear, specific, and objective in defining terms, if used; (v) prohibit any school board employee from enforcing the dress or grooming code by direct physical contact with a student or a student's attire; and (vi) prohibit any school board employee from requiring a student to undress in front of any other individual, including the enforcing school board employee, to comply with the dress or grooming code.

A school board may promulgate guidelines for determining what constitutes special circumstances. In addition, a school board may, by regulation, authorize the division superintendent or his designee to conduct a preliminary review of such cases to determine whether a disciplinary action other
than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another
disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in accordance
with the procedures set forth in this article. Nothing in this section shall be construed to require a student's
expulsion regardless of the facts of the particular situation. […]

D. Any teacher whose evaluation indicates deficiencies in the management of student conduct may be required by the school board to attend professional development activities designed to improve classroom management and disciplinary skills.
E. Application of this section to students with disabilities shall be in accordance with state and federal law and regulations.
F. This section shall not be construed to limit or restrict other school board policies and regulations for maintaining order in the classroom.

§ 22.1-277. Suspensions and expulsions of pupils generally.

8 VAC 20-750-5. Application.

A. This chapter is applicable to all students and school personnel in the public elementary and secondary schools of the Commonwealth of Virginia, as defined in 8VAC20-750-20. If the action does not meet the definition, or if the action falls under any of the "does not include" portions of the definitions in 8VAC20-750-10, then school personnel may act within their reasonable discretion. If the action falls within the definition of restraint or seclusion, it may be used, but only under the circumstances described in 8VAC20-750-40 and 8VAC20-750-50, and is subject to the other requirements of this chapter.

C. 8VAC20-750-30 identifies certain practices that constitute restraint or seclusion that may be detrimental to the health, safety, or dignity of the student and that may never be used by school personnel.

8 VAC 20-750-10. Definitions related to permitted and prohibited actions.

The following words and terms when used in this chapter shall have the following meanings unless the context clearly indicates otherwise:

3. Restraints for medical immobilization;
4. Orthopedically prescribed devices that permit a student to participate in activities without risk of harm; or
5. High chairs and feeding stations used for age or developmentally appropriate students.

"Pharmacological restraint" means a drug or medication used on a student to control behavior or restrict freedom of movement that is not (i) prescribed by a licensed physician or other qualified health professional under the scope of the professional's authority for the standard treatment of a student's medical or psychiatric condition and (ii) administered as prescribed by a licensed physician or other qualified health professional acting under the scope of the professional's authority.

"Physical restraint" means a personal restriction that immobilizes or reduces the ability of a student to move freely. The term "physical restraint" does not include (i) briefly holding a student to calm or comfort the student; (ii) holding a student's hand or arm to escort the student safely from one area to another; or (iii) the use of incidental, minor, or reasonable physical contact or other actions designed to maintain order and control.

"Child with a disability" or "student with a disability" means a public elementary or secondary school student evaluated in accordance with the provisions of 8VAC20-81 as having an intellectual disability, a hearing impairment (including deafness), a speech or language impairment, a visual impairment (including blindness), a serious emotional disability (referred to in 8VAC20-81 as an emotional disability), an orthopedic impairment, autism, traumatic brain injury, other health impairment, a specific learning disability, deaf-blindness, or multiple disabilities who, by reason thereof, requires special education and related services. This also includes developmental delay if the school division recognizes this category as a disability under 8VAC20-81-80 M 3. If it is determined through an appropriate evaluation that a child has one of the disabilities identified but only needs related services and not special education, the child is not a child with a disability under 8VAC20-81. If the related service required by the child is considered special education rather than a related service under Virginia standards, the child would be determined to be a child with a disability. "Day" means calendar day unless otherwise designated as business day or school day.

"Individualized education program team" or "IEP team" means a group of individuals described in 8VAC20-81-110 that is responsible for developing, reviewing, or revising an IEP for a child with a disability.

With regard to restraint and seclusion, students placed through public or private means in a private day or residential school for students with disabilities shall be afforded the protections set forth in 8VAC20-671.

8 VAC 20-750-40. Use of physical restraint and seclusion.
A. Nothing in this chapter shall be construed to require a school division to employ physical restraint or seclusion in its schools. School divisions electing to use physical restraint and seclusion shall comply with the requirements of this chapter.
B. School personnel may implement physical restraint or seclusion only when other interventions are or would be, in the reasonable judgment of the particular school personnel implementing physical restraint or seclusion in an emergency situation, ineffective and only to:

1. Prevent a student from inflicting serious physical harm or injury to self or others;
2. Quell a disturbance or remove a student from the scene of a disturbance in which such student's behavior or damage to property threatens serious physical harm or injury to persons;
3. Defend self or others from serious physical harm or injury;
4. Obtain possession of controlled substances or paraphernalia that are upon the person of the student or within the student's control; or

E. Unless a student's damage to property creates an imminent risk of serious physical harm or injury to the student or others, the damage of property does not itself indicate an imminent risk of serious physical harm or injury and shall not be the justification for the restraint or seclusion of a student.

F. Any incident involving physical restraint or seclusion in any of the circumstances described in this section shall be subject to the requirements of 8VAC20-750-50 through 8VAC20-750-100.

3. Windows in the seclusion room shall be constructed to minimize breakage and otherwise prevent the occupant from harming himself.
4. All space in the seclusion room shall be visible through the door, either directly or by mirrors.

B. School divisions electing to use seclusion as authorized by this chapter shall provide for the continuous visual monitoring of any seclusion, either by the presence of school personnel in the seclusion room or area or observation by school personnel through a window, viewing panel, or half-door.

C. School divisions electing to use seclusion as authorized by this chapter shall include within their local policies and procedures provisions that address the appropriate use and duration of seclusion based upon the age and development of the student.

8 VAC 20-750-60. Notification and reporting.

A. When any student has been physically restrained or secluded:

1. The school personnel involved shall report the incident and the use of any related first aid to the school principal or the principal's designee as soon as possible by the end of the school day in which the incident occurred; and
2. The school principal or the principal's designee, or other school personnel shall make a reasonable effort to ensure that direct contact is made with the student's parent, either in person or through telephone conversation, or other means of communication authorized by the parent, such as email, to notify the parent of the incident and any related first aid on the day the incident occurred.

B. When any student has been physically restrained or secluded after the regular school day, the notifications required by subsection A of this section shall be made as soon as practicable in compliance with the school division's school crisis, emergency management, and medical emergency response plan required by § 22.1-279.8 of the Code of Virginia.

C. As soon as practicable, but no later than two school days after an incident in which physical restraint or seclusion has been implemented, the school personnel involved in the incident or other school personnel, as may be designated by the principal, shall complete and provide to the principal or the principal's designee a written incident report. The school division shall provide the parent with a copy of the incident report within seven calendar days of the incident.

The written incident report shall contain information sufficient to inform the parent about the incident. Such information would typically include the following:

8. Detailed description of the physical restraint or seclusion method used;
9. Student behavior that justified the use of physical restraint or seclusion;
10. Description of prior events and circumstances prompting the student's behavior, to the extent known;
11. Less restrictive interventions attempted prior to the use of physical restraint or seclusion, and an explanation if no such interventions were employed;
12. Whether the student has an IEP, a Section 504 plan, a BIP, or other plan;
13. If a student, school personnel, or any other individual sustained bodily injury, the date and time of nurse or emergency response personnel notification and the treatment administered, if any;
14. Date, time, and method of parental notification of the incident, as required by this section; and
15. Date, time, and method of school personnel debriefing.

D. Following an incident of physical restraint or seclusion, the school division shall ensure that, within two school days, the principal or the principal's designee reviews the incident with all school personnel who implemented the use of physical restraint or seclusion to discuss:

1. Whether the use of restraint or seclusion was implemented in compliance with this chapter and local policies; and
2. How to prevent or reduce the future need for physical restraint or seclusion.

E. As appropriate, depending on the student's age and developmental level, following each incident of physical restraint or seclusion the school division shall ensure that, as soon as practicable, but no later
than two school days or upon the student's return to school, the principal or the principal's designee shall review the incident with the student involved to discuss:

1. Details of the incident in an effort to assist the student and school personnel in identifying patterns of behaviors, triggers, or antecedents; and
2. Alternative positive behaviors or coping skills the student may utilize to prevent or reduce behaviors that may result in the application of physical restraint or seclusion.

F. The principal or the principal's designee shall regularly review the use of physical restraint or seclusion to ensure compliance with school division policy and procedures. When there are multiple incidents within the same classroom or by the same individual, the principal or the principal's designee shall take appropriate steps to address the frequency of use.

8 VAC 20-750-70. School division policies and procedures.
A. Each school division that elects to use physical restraint or seclusion shall develop and implement written policies and procedures that meet or exceed the requirements of this chapter and that include, at a minimum, the following:

1. A statement of intention that the school division will encourage the use of positive behavioral interventions and supports to reduce and prevent the need for the use of physical restraint and seclusion.
2. Examples of the positive behavioral interventions and support strategies consistent with the student's rights to be treated with dignity and to be free from abuse that the school division uses to address student behavior, including the appropriate use of effective alternatives to physical restraint and seclusion.
3. A description of initial and advanced training for school personnel that addresses (i) appropriate use of effective alternatives to physical restraint and seclusion and (ii) the proper use of restraint and seclusion.
4. A statement of the circumstances in which physical restraint and seclusion may be employed, which shall be no less restrictive than that set forth in 8VAC20-750-40 and 8VAC20-750-50.
5. Provisions addressing the:
   a. Notification of parents regarding incidents of physical restraint or seclusion, including the manner of such notification;
   b. Documentation of the use of physical restraint and seclusion;
   c. Continuous visual monitoring of the use of any physical restraint or seclusion to ensure the appropriateness of such use and the safety of the student being physically restrained or secluded, other students, school personnel, and others. These provisions shall include exceptions for emergency situations in which securing visual monitoring before implementing the physical restraint or seclusion would, in the reasonable judgment of the school personnel implementing the physical restraint or seclusion, result in serious physical harm or injury to persons; and
   d. Securing of any room in which a student is placed in seclusion. These provisions shall ensure that any seclusion room or area meet specifications for size and viewing panels that ensure the student's safety at all times, including during a fire or other emergency, as required by this chapter.
B. School divisions utilizing school resource officers shall enter into a memorandum of understanding with local law enforcement addressing the use of seclusion and restraint by law enforcement personnel in school settings.
C. Each school division shall review its policies and procedures regarding physical restraint and seclusion at least annually and shall update these policies and procedures as appropriate. In developing, reviewing,
and revising its policies, school divisions shall consider the distinctions in emotional and physical
development between elementary and secondary students and between students with and without
disabilities.

D. Consistent with § 22.1-253.13:7 D of the Code of Virginia, a current copy of a school division's policies
and procedures regarding restraint and seclusion shall be posted on the school division's website and
shall be available to school personnel and to the public. School boards shall ensure that printed copies
of such policies and procedures are available as needed to citizens who do not have online access.

E. In developing their policies and procedures, school divisions shall give due consideration to practices
that encourage parent involvement and collaboration with regard to these matters.

8 VAC 20-750-80. Prevention; multiple uses of restraint or seclusion.

A. In the initial development and subsequent review and revision of a student's IEP or Section 504 plan,
the student's IEP or Section 504 team shall consider whether the student displays behaviors that are
likely to result in the use of physical restraint or seclusion. If the IEP or Section 504 team determines that
future use is likely, the team shall consider, among other things, the need for (i) an FBA; (ii) a new or
revised BIP that addresses the underlying causes or purposes of the behaviors as well as de-escalation
strategies, conflict prevention, and positive behavioral interventions; (iii) any new or revised behavioral
goals; and (iv) any additional evaluations or reevaluations.

Within 10 school days following the second school day in a single school year on which an incident of
physical restraint or seclusion has occurred, the student's IEP or Section 504 team shall meet to discuss
the incident and to consider, among other things, the need for (i) an FBA; (ii) a new or revised BIP that
addresses the underlying causes or purposes of the behaviors as well as de-escalation strategies, conflict
prevention, and positive behavioral interventions; (iii) any new or revised behavioral goals; and (iv) any
additional evaluations or reevaluations.

B. For students other than those described in subsection A of this section, within 10 school days of the
second school day in a single school year on which an incident of physical restraint or seclusion has
occurred, a team consisting of the parent, the principal or the principal's designee, a teacher of the
student, school personnel involved in the incident (if not the teacher or administrator already invited), and
other appropriate school personnel, such as a school psychologist, school counselor, or school resource
officer, as determined by the school division, shall meet to discuss the incident and to consider, among
other things, the need for (i) an FBA; (ii) a new or revised BIP that addresses the underlying causes or
purposes of the behaviors as well as de-escalation strategies, conflict prevention, and positive behavioral
interventions; and (iii) a referral for evaluation.

C. Nothing in this section shall be construed to (i) excuse the team convened under subsection B of this
section or its individual members from the obligation to refer the student for evaluation if the team or
members have reason to suspect that the student may be a student with a disability; or (ii) prohibit the
completion of an FBA or BIP for any student, with or without a disability, who might benefit from these
measures but whose behavior has resulted in fewer than two incidents of physical restraint or seclusion in
a single school year.

8 VAC 20-750-90. Annual reporting.

The principal or the principal's designee shall submit to the division superintendent a report on the use of
physical restraint and seclusion in the school based on the individual incident reports completed and
submitted to the principal or the principal's designee by school personnel pursuant to 8VAC20-750-60 C.
The division superintendent shall annually report the frequency of such incidents to the Superintendent of
Public Instruction [ ] and shall make such information available to the public.
8 VAC 20-750-100. Training.

School divisions that employ physical restraint or seclusion shall:

1. Ensure that all school personnel receive training that focuses on skills related to positive behavior support, conflict prevention, de-escalation, and crisis response, including follow-up support and social-emotional strategy support for students, staff, and families;

2. Ensure that all school personnel receive initial training regarding the regulations, policies, and procedures governing the use of physical restraint and seclusion;

3. Provide advanced training in the use of physical restraint and seclusion for at least one administrator in every school building and for school personnel assigned to work with any student whose IEP or Section 504 team determines the student is likely to be physically restrained or secluded; and

4. Ensure that any initial or advanced training is evidence-based.

8 VAC 20-750-110. Construction and interpretation.

Nothing in this chapter shall be construed to modify or restrict:

1. The initial authority of teachers to remove students from a classroom pursuant to § 22.1-276.2 of the Code of Virginia;

2. The authority and duties of school resource officers and school security officers, as defined in § 9.1-101 of the Code of Virginia, except to the extent governed by a memorandum of understanding between the local law enforcement agency and the school division;

3. The authority of the Virginia Department of Juvenile Justice with regard to students in its custody at any of its sites or in any of its programs; or

4. The civil immunity afforded teachers employed by local school boards for any acts or omissions resulting from the supervision, care, or discipline of students when such acts or omissions are within such teacher's scope of employment and are taken in good faith in the course of supervision, care, or discipline of students, unless such acts or omissions were the result of gross negligence or willful misconduct, as provided in § 8.01-220.1:2 of the Code of Virginia.
Exclusionary Discipline: Suspension, Expulsion, and Alternative Placement

Grounds for Suspension or Expulsion

LAWS

§ 22.1-276.01. Definitions.
A. For the purposes of this article, unless the context requires a different meaning:

"Exclusion" means a Virginia school board’s denial of school admission to a student who has been expelled or has been placed on a long-term suspension of more than 30 calendar days by another school board or a private school, either in Virginia or another state, or for whom admission has been withdrawn by a private school in Virginia or another state.

"Expulsion" means any disciplinary action imposed by a school board or a committee thereof, as provided in school board policy, whereby a student is not permitted to attend school within the school division and is ineligible for readmission for 365 calendar days after the date of the expulsion.

"Long-term suspension" means any disciplinary action whereby a student is not permitted to attend school for 11 to 45 school days.

"Short-term suspension" means any disciplinary action whereby a student is not permitted to attend school for a period not to exceed 10 school days.

§ 22.1-277. Suspensions and expulsions of pupils generally.
A. Students may be suspended or expelled from attendance at school for sufficient cause; however, in no cases may sufficient cause for suspensions include only instances of truancy.

B. Except as provided in subsection C or § 22.1-277.07 or 22.1-277.08, no student in preschool through grade three shall be suspended for more than three school days or expelled from attendance at school, unless (i) the offense involves physical harm or credible threat of physical harm to others or (ii) the local school board or the division superintendent or his designee finds that aggravating circumstances exist, as defined by the Department.

C. Any student for whom the division superintendent of the school division in which such student is enrolled has received a report pursuant to § 16.1-305.1 of an adjudication of delinquency or a conviction for an offense listed in subsection G of § 16.1-260 may be suspended or expelled from school attendance pursuant to this article.

D. The authority provided in § 22.1-276.2 for teachers to remove students from their classes in certain instances of disruptive behavior shall not be interpreted to affect the operation of § 22.1-277.04, 22.1-277.05, or 22.1-277.06.

E. Notwithstanding the provisions of § 22.1-277.08, no school board shall be required to suspend or expel any student who holds a valid written certification for the use of cannabis oil issued by a practitioner in accordance with subsection B of § 54.1-3408.3 for the possession or use of such oil in accordance with the student’s individualized health plan and in compliance with a policy adopted by the school board.

§ 22.1-277.04. Short-term suspension; procedures; readmission.
A pupil may be suspended for not more than ten school days by either the school principal, any assistant principal, or, in their absence, any teacher. The principal, assistant principal, or teacher may suspend the pupil after giving the pupil oral or written notice of the charges against him and, if he denies them, an explanation of the facts as known to school personnel and an opportunity to present his version of what occurred. In the case of any pupil whose presence poses a continuing danger to persons or property, or
whose presence is an ongoing threat of disruption, the pupil may be removed from school immediately and the notice, explanation of facts, and opportunity to present his version shall be given as soon as practicable thereafter.

Upon suspension of any pupil, the principal, assistant principal, or teacher responsible for such suspension shall report the facts of the case in writing to the division superintendent or his designee and the parent of the pupil suspended. The division superintendent or his designee shall review forthwith the action taken by the principal, assistant principal, or teacher upon a petition for such review by any party in interest and confirm or disapprove such action based on an examination of the record of the pupil's behavior.

The decision of the division superintendent or his designee may be appealed to the school board or a committee thereof in accordance with regulations of the school board; however, the decision of the division superintendent or his designee shall be final if so prescribed by school board regulations.

The school board shall require that any oral or written notice to the parent of a student who is suspended from school attendance for not more than ten days include notification of the length of the suspension, information regarding the availability of community-based educational programs, alternative education programs or other educational options, and of the student's right to return to regular school attendance upon the expiration of the suspension. The costs of any community-based educational program, or alternative education program or educational option, which is not a part of the educational program offered by the school division, shall be borne by the parent of the student.

School boards shall adopt policies and procedures to ensure that suspended students are able to access and complete graded work during and after the suspension.

§ 22.1-277.05. Long-term suspensions; procedures; readmission.

A. A pupil may be suspended from attendance at school for 11 to 45 school days after providing written notice to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the school board, or a committee thereof, or the superintendent or his designee, in accordance with regulations of the school board. If the regulations provide for a hearing by the superintendent or his designee, the regulations shall also provide for an appeal of the decision to the full school board. Such appeal shall be decided by the school board within 30 days.

If the regulations provide for a hearing by a committee of the school board, the regulations shall also provide that such committee may confirm or disapprove the suspension of a student. Any such committee of the school board shall be composed of at least three members. If the committee's decision is not unanimous, the pupil or his parent may appeal the committee's decision to the full school board. Such appeal shall be decided by the school board within 30 days.

B. A school board shall include in the written notice of a suspension for 11 to 45 school days required by this section notification of the length of the suspension. In the case of a suspension for 11 to 45 school days, such written notice shall provide information concerning the availability of community-based educational, alternative education, or intervention programs. Such notice shall also state that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by the school board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension shall be borne by the parent of the student.

Nothing in this section shall be construed to prohibit the school board from permitting or requiring students suspended pursuant to this section to attend an alternative education program provided by the school board for the term of such suspension.

School boards shall adopt policies and procedures to ensure that suspended students are able to access and complete graded work during and after the suspension.
C. Notwithstanding the provisions of subsections A and B, a long-term suspension may extend beyond a 45-school-day period but shall not exceed 364 calendar days if (i) the offense is one described in § 22.1-277.07 or 22.1-277.08 or involves serious bodily injury or (ii) the school board or division superintendent or his designee finds that aggravating circumstances exist, as defined by the Department. Such definition shall include a consideration of a student's disciplinary history.

§ 22.1-277.07. Expulsion of students under certain circumstances; exceptions.
A. In compliance with the federal Improving America's Schools Act of 1994 (Part F-Gun-Free Schools Act of 1994), a school board shall expel from school attendance for a period of not less than one year any student whom such school board has determined, in accordance with the procedures set forth in this article, to have possessed a firearm on school property or at a school-sponsored activity as prohibited by § 18.2-308.1 or to have possessed a firearm or destructive device as defined in subsection E, a firearm muffler or firearm silencer, or a pneumatic gun as defined in subsection E of § 15.2-915.4 on school property or at a school-sponsored activity. A school administrator, pursuant to school board policy, or on a school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. A school board may promulgate guidelines for determining what constitutes special circumstances. In addition, a school board may, by regulation, authorize the division superintendent or his designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in accordance with the procedures set forth in this article. Nothing in this section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

§ 22.1-277.08. Expulsion of students for certain drug offenses.
A. School boards shall expel from school attendance any student whom such school board has determined, in accordance with the procedures set forth in this article, to have brought a controlled substance, imitation controlled substance, or marijuana as defined in § 18.2-247 onto school property or to a school-sponsored activity. A school administrator, pursuant to school board policy, or a school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. A school board may, by regulation, authorize the division superintendent or his designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in accordance with the procedures set forth in this article. Nothing in this section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

B. Each school board shall revise its standards of student conduct to incorporate the requirements of this section no later than three months after the date on which this act becomes effective.

§ 22.1-277.2:1. Disciplinary authority of school boards under certain circumstances; alternative education program.
C. A school board may adopt regulations authorizing the principal or his designee to impose a short-term suspension, pursuant to § 22.1-277.04, upon a student who has been charged with an offense involving intentional injury enumerated in subsection G of § 16.1-260, to another student in the same school pending a decision as to whether to require that such student attend an alternative education program.

School boards shall adopt policies and procedures to ensure that suspended students are able to access and complete graded work during and after the suspension.

C. Notwithstanding the provisions of subsections A and B, a long-term suspension may extend beyond a 45-school-day period but shall not exceed 364 calendar days if (i) the offense is one described in § 22.1-277.07 or 22.1-277.08 or involves serious bodily injury or (ii) the school board or division superintendent or his designee finds that aggravating circumstances exist, as defined by the Department. The regulations shall also provide for subsequent confirmation or disapproval of the proposed expulsion by the school board, or a committee thereof, as may be provided in regulation, regardless of whether the pupil exercised the right to a hearing.

§ 22.1-277.2. Authority to exclude students under certain circumstances; petition for readmission; alternative education program.
A. A student, who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in this Commonwealth or in another state or for whom admission has been withdrawn by a private school in this Commonwealth or in another state may be excluded from attendance by a local school board in Virginia, regardless of whether such student has been admitted to another school division or private school in the Commonwealth or in another state subsequent to such expulsion, suspension, or withdrawal of admission upon a finding that the student presents a danger to
the other students or staff of the school division after (i) written notice to the student and his parent that
the student may be subject to exclusion, the reasons therefor, and, in the event of such exclusion, of the
right to appeal the decision at a hearing before the school board or a committee thereof; and (ii) a review
of the case has been conducted by the division superintendent or his designee and exclusion has been
recommended.

In the case of a suspension of more than thirty days, the term of the exclusion may not exceed the
duration of such suspension.

In excluding any such expelled student from school attendance, the local school board may accept or
waive any or all of any conditions for readmission imposed upon such student by the expelling school
board pursuant to § 22.1-277.06. The excluding school board shall not impose additional conditions for
readmission to school.

If the decision by the superintendent or his designee to exclude has been appealed to a committee of the
school board, the student or his parent shall be provided written notice of the right to appeal the decision
to the full board, which shall, within thirty days following any such hearing, in the case of an expulsion or
withdrawal of admission and, in the case of a suspension of more than thirty days, within fifteen days
following any such hearing, notify in writing the student or his parent of its decision.

B. In lieu of the procedures established in subsection A, a school board may adopt regulations providing
that a student may be excluded from attendance after (i) written notice to the student and his parent that
the student may be subject to exclusion, including the reasons therefor, and notice of the opportunity for
the student or his parent to participate in a hearing to be conducted by the division superintendent or his
designee regarding such exclusion; and (ii) a hearing of the case has been conducted by the division
superintendent or his designee, and the decision has been to exclude the student from attendance. The
decision of the superintendent or his designee to exclude shall be final unless altered by the school
board, upon timely written petition, as established in regulation, of the student so excluded or his parent,
for a review of the record by the school board.

C. Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period
shall be established by the school board, committee thereof, or superintendent or his designee, as the
case may be, at the relevant hearing, the student may re-petition the school board for admission. If the
petition for admission is rejected, the school board shall identify the length of the continuing exclusion
period and the subsequent date upon which such student may re-petition the school board for admission.

D. The school board may permit students excluded pursuant to this section to attend an alternative
education program provided by the school board for the term of such exclusion.

§ 22.1-277.2:1. Disciplinary authority of school boards under certain circumstances; alternative
education program.

B. A school board may adopt regulations authorizing the division superintendent or his designee to
require students to attend an alternative education program consistent with the provisions of subsection A
after (i) written notice to the student and his parent that the student will be required to attend an
alternative education program and (ii) notice of the opportunity for the student or his parent to participate
in a hearing to be conducted by the division superintendent or his designee regarding such placement.
The decision of the superintendent or his designee regarding such alternative education placement shall
be final unless altered by the school board, upon timely written petition, as established in regulation, by
the student or his parent, for a review of the record by the school board.

§ 22.1-279.3. Parental responsibility and involvement requirements.

E. In accordance with the due process procedures set forth in this article and the guidelines required by §
22.1-279.6, the school principal or his designee notify the parents of any student who violates a school
board policy or the compulsory school attendance requirements when such violation is likely to result in
the student's suspension or the filing of a court petition, whether or not the school administration has
imposed such disciplinary action or filed a petition. The notice shall state (i) the date and particulars of
the violation; (ii) the obligation of the parent to take actions to assist the school in improving the student's behavior and ensuring compulsory school attendance compliance; (iii) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials; and (iv) that a petition with the juvenile and domestic relations district court may be filed under certain circumstances to declare the student a child in need of supervision.

§ 22.1-279.6. Board of Education guidelines and model policies for codes of student conduct; school board regulations.

A. The Board of Education shall establish guidelines and develop model policies for codes of student conduct to aid local school boards in the implementation of such policies. The guidelines and model policies shall include (i) criteria for the removal of a student from a class, the use of suspension, expulsion, and exclusion as disciplinary measures, the grounds for suspension and expulsion and exclusion, and the procedures to be followed in such cases, including proceedings for such suspension, expulsion, and exclusion decisions and all applicable appeals processes; (ii) standards, consistent with state, federal and case laws, for school board policies on alcohol and drugs, gang-related activity, hazing, vandalism, trespassing, threats, search and seizure, disciplining of students with disabilities, intentional injury of others, self-defense, bullying, the use of electronic means for purposes of bullying, harassment, and intimidation, and dissemination of such policies to students, their parents, and school personnel; (iii) standards for in-service training of school personnel in and examples of the appropriate management of student conduct and student offenses in violation of school board policies; (iv) standards for dress or grooming codes; and (v) standards for reducing bias and harassment in the enforcement of any code of student conduct.

**LAWS**

§ 22.1-276.2. Removal of students from classes.

B. Each school board shall establish, within the regulations governing student conduct required by § 22.1-279.6:

5. Procedures for the return of students to class, for teacher participation in any decision by the principal to return a student to the class from which he has been removed, and for the resolution of any disagreements between such principal and teacher regarding such return.

§ 22.1-277.04. Short-term suspension; procedures; readmission.

The school board shall require that any oral or written notice to the parent of a student who is suspended from school attendance for not more than ten days include notification of the length of the suspension, information regarding the availability of community-based educational programs, alternative education programs or other educational options, and of the student's right to return to regular school attendance upon the expiration of the suspension. The costs of any community-based educational program, or alternative education program or educational option, which is not a part of the educational program offered by the school division, shall be borne by the parent of the student.

§ 22.1-277.05. Long-term suspensions; procedures; readmission.

B. A school board shall include in the written notice of a suspension for 11 to 45 school days required by this section notification of the length of the suspension. In the case of a suspension for 11 to 45 school days, such written notice shall provide information concerning the availability of community-based educational, alternative education, or intervention programs. Such notice shall also state that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an
appropriate alternative education program approved by the school board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension shall be borne by the parent of the student.

§ 22.1-277.06. Expulsions; procedures; readmission.

B. The written notice required by this section shall include notification of the length of the expulsion and shall provide information to the parent of the student concerning the availability of community-based educational, training, and intervention programs. Such notice shall state further whether or not the student is eligible to return to regular school attendance, or to attend an appropriate alternative education program approved by the school board, or an adult education program offered by the school division, during or upon the expiration of the expulsion, and the terms or conditions of such readmission. The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his expulsion shall be borne by the parent of the student.

Nothing in this section shall be construed to prohibit the school board from permitting or requiring students expelled pursuant to this section to attend an alternative education program provided by the school board for the term of such expulsion.

If the school board determines that the student is ineligible to return to regular school attendance or to attend during the expulsion an alternative education program or an adult education program in the school division, the written notice shall also advise the parent of such student that the student may petition the school board for readmission to be effective one calendar year from the date of his expulsion, and of the conditions, if any, under which readmission may be granted.

School boards shall establish, by regulation, a schedule pursuant to which such students may apply and reapply for readmission to school. Such schedule shall be designed to ensure that any initial petition for readmission will be reviewed by the school board or a committee thereof, or the division superintendent, and, if granted, would enable the student to resume school attendance one calendar year from the date of the expulsion. If the division superintendent or a committee of the school board denies such petition, the student may petition the school board for review of such denial.

§ 22.1-277.2. Authority to exclude students under certain circumstances; petition for readmission; alternative education program.

A. A student, who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in this Commonwealth or in another state or for whom admission has been withdrawn by a private school in this Commonwealth or in another state may be excluded from attendance by a local school board in Virginia, regardless of whether such student has been admitted to another school division or private school in the Commonwealth or in another state subsequent to such expulsion, suspension, or withdrawal of admission upon a finding that the student presents a danger to the other students or staff of the school division after (i) written notice to the student and his parent that the student may be subject to exclusion, the reasons therefor, and, in the event of such exclusion, of the right to appeal the decision at a hearing before the school board or a committee thereof; and (ii) a review of the case has been conducted by the division superintendent or his designee and exclusion has been recommended.

In the case of a suspension of more than thirty days, the term of the exclusion may not exceed the duration of such suspension.

In excluding any such expelled student from school attendance, the local school board may accept or waive any or all of any conditions for readmission imposed upon such student by the expelling school board pursuant to § 22.1-277.06. The excluding school board shall not impose additional conditions for readmission to school. [...]
C. Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period shall be established by the school board, committee thereof, or superintendent or his designee, as the case may be, at the relevant hearing, the student may re-petition the school board for admission. If the petition for admission is rejected, the school board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may re-petition the school board for admission.

§ 22.1-279.3. Parental responsibility and involvement requirements.
F. No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.

LAWS

§ 22.1-209.1:2. Regional alternative education programs for certain students.
A. With such funds as may be appropriated for this purpose, the Board of Education shall establish a program consisting of regional alternative education options for elementary, middle, and high school students in compliance with subdivision D 7 of § 22.1-253.13:1 who (i) have committed an offense in violation of school board policies relating to weapons, alcohol or drugs, or intentional injury to another person, or against whom a petition or warrant has been filed alleging such acts or school board charges alleging such policy violations are pending; (ii) have been expelled from school attendance or have received one suspension for an entire semester, or have received two or more long-term suspensions within one school year; or (iii) have been released from a juvenile correctional center and have been identified by the Superintendent of the Department of Juvenile Justice's Division of Education and the relevant division superintendent as requiring a regional alternative education program. Based on available space, a student may also be administratively assigned to a regional alternative education program either at the request of the parent and with the consent of the division superintendent or by the division superintendent after written notice to the student and his parent. Such notice of the opportunity for the student and/or his parent to participate in a hearing conducted by the division superintendent or his designee regarding such placement shall be issued and the assignment shall be final unless altered by the school board, upon timely written petition, in accordance with regulations of the school board, by the student or his parent, for a review of the record by the school board. However, no child shall be assigned to any regional alternative education program described in this section for more than one school year without an annual assessment of the placement to determine the appropriateness of transitioning the child into the school division's regular program.
B. Applications for grants shall include the following components:
   1. An agreement executed by two or more school divisions and approval of their respective governing bodies to offer a regional alternative education option as provided in subsection A, and a plan for the apportionment of responsibilities for the administration, management, and support of the program, including, but not limited to, the facilities and location for the program, daily operation and oversight, staffing, instructional materials and resources, transportation, funding and in-kind services, and the program of instruction.
   2. A procedure for obtaining the participation in or support for the program, as may be determined, of the parents, guardian or other person having charge or control of a child placed in the program.
   3. An interagency agreement for cooperation executed by the local departments of health and social services or welfare; the juvenile and domestic relations district court; law-enforcement agencies;
institutions of higher education and other postsecondary training programs; professional and community organizations; the business and religious communities; dropout prevention and substance abuse prevention programs; community services boards located in the applicants' respective jurisdictions; and the Department of Juvenile Justice.

4. A curriculum developed for intensive, accelerated instruction designed to establish high standards and academic achievement for participating students.

5. An emphasis on building self-esteem and the promotion of personal and social responsibility.

6. A low pupil/teacher ratio to promote a high level of interaction between the students and the teacher.

7. An extended day program, where appropriate, to facilitate remediation; tutoring; counseling; organized, age-appropriate, developmental education for elementary and middle school children; and opportunities that enhance acculturation and permit students to improve their social and interpersonal relationship skills.

8. Community outreach to build strong school, business, and community partnerships, and to promote parental involvement in the educational process of participating children.

9. Specific, measurable goals and objectives and an evaluation component to determine the program's effectiveness in reducing acts of crime and violence by students, the dropout rate, the number of youth committed to juvenile correctional centers, and recidivism; and in increasing the academic achievement levels and rehabilitative success of participating students, admission to institutions of higher education and other postsecondary education and training programs, and improving staff retention rates.

10. The number of children who may be assigned to the regional alternative education program during the school year.

11. A plan for transitioning the enrolled students into the relevant school division's regular program.

12. A current program of staff development and training.

C. Beginning with the first year of program implementation, the Department of Education shall be entitled to deduct annually from the locality's share for the education of its students a sum equal to the actual local expenditure per pupil for the support of those students placed by the relevant school division in any such program. The amount of the actual transfers shall be based on data accumulated during the prior school year.

D. A school board shall require written notification to the pupil's parent, guardian, or other person having charge or control, when a pupil commits an offense in violation of school board policies, which school officials determine was committed without the willful intent to violate such policies, or when the offense did not endanger the health and safety of the individual or other persons, of the nature of the offense no later than two school days following its occurrence. A school board shall require the principal of the school where the child is in attendance or other appropriate school personnel to develop appropriate measures, in conjunction with the pupil's parent or guardian, for correcting such behavior.

E. For the purposes of this section, "regional alternative education program" means a program supported and implemented by two or more school divisions which are either geographically contiguous or have a community of interest.

F. For the purposes of this section, "one school year" means no more than 180 teaching days.

§ 22.1-254. Compulsory attendance required; excuses and waivers; alternative education program attendance; exemptions from article.

E. Local school boards may allow the requirements of subsection A to be met under the following conditions:

For a student who is at least 16 years of age, there shall be a meeting of the student, the student's parents, and the principal or his designee of the school in which the student is enrolled in which an individual student alternative education plan shall be developed in conformity with guidelines prescribed by the Board, which plan must include:
1. Career guidance counseling;
2. Mandatory enrollment and attendance in a preparatory program for passing a high school equivalency examination approved by the Board or other alternative education program approved by the local school board with attendance requirements that provide for reporting of student attendance by the chief administrator of such preparatory program or approved alternative education program to such principal or his designee;
3. Mandatory enrollment in a program to earn a Board approved career and technical education credential, such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment;
4. Successful completion of the course in economics and personal finance required to earn a Board approved high school diploma;
5. Counseling on the economic impact of failing to complete high school; and

A student for whom an individual student alternative education plan has been granted pursuant to this subsection and who fails to comply with the conditions of such plan shall be in violation of the compulsory school attendance law, and the division superintendent or attendance officer of the school division in which such student was last enrolled shall seek immediate compliance with the compulsory school attendance law as set forth in this article.

Students enrolled with an individual student alternative education plan shall be counted in the average daily membership of the school division.

§ 22.1-269.1. Alternative attendance programs.
A. The Board of Education shall promulgate regulations for the voluntary participation of school divisions in programs to allow each school-age child to receive educational services at another public school, either in the division in which the child resides or in another division, as selected by the child's parent or guardian. Each public school in a school division participating in an alternative attendance program shall be eligible to participate in an alternative attendance program unless exceptional circumstances, as defined by the Board of Education, render the participation of the school contrary to public interest.

B. The Board's regulations shall be promulgated under the provisions of the Administrative Process Act (§ 2.2-4000 et seq.) and shall include, but shall not be limited to, provisions which address the following: the required acknowledgement by a local school of its decision to participate in an alternative attendance program, including school board resolutions for intradistrict programs and agreements between divisions participating in interdistrict programs; the equitable allocation of places to accommodate students when there are insufficient places to serve such students; transportation and school bus scheduling needs within the local school divisions; school enrollment capacity, class size, pupil-teacher ratios, and staffing levels for related instructional, administrative, and supervisory personnel as required by the Standards of Quality and the Standards for Accrediting Public Schools; the adequacy of school resources to accommodate an increase in student enrollment, grade level designations, and course offerings; the enrollment of students whose education is subject to an individualized education plan (I.E.P.) as required under P.L. 94-142 as amended; the preservation of the uniqueness of schools established for particular educational purposes; the fiscal impact of accommodating parental preference on local school divisions; in the case of interdistrict attendance programs, the establishment of tuition charges authorized by § 22.1-5; and the need to maintain racial balance in the public schools. The regulations shall also establish the value of educational services, based on consideration of per pupil expenditures and state aid in the affected school. Any local school board which has been ordered by a state or federal court to achieve racial balance in its public schools shall maintain such racial balance when accommodating preference in the assignment of children to a school.
C. From such funds as may be appropriated, the Board shall provide for the independent evaluation of this alternative attendance program and shall submit the evaluation to the Governor, the Senate, and the House of Delegates by January 1 of each year.

§ 22.1-276.01. Definitions.
A. For the purposes of this article, unless the context requires a different meaning:
"Alternative education program" includes night school, adult education, or any other education program designed to offer instruction to students for whom the regular program of instruction may be inappropriate.

§ 22.1-276.2. Removal of students from classes.
B. Each school board shall establish, within the regulations governing student conduct required by § 22.1-279.6:
  4. Guidelines for the alternative assignment and instruction of such students and for the duration of such removals.

§ 22.1-277.04. Short-term suspension; procedures; readmission.
The school board shall require that any oral or written notice to the parent of a student who is suspended from school attendance for not more than ten days include notification of the length of the suspension, information regarding the availability of community-based educational programs, alternative education programs or other educational options, and of the student's right to return to regular school attendance upon the expiration of the suspension. The costs of any community-based educational program, or alternative education program or educational option, which is not a part of the educational program offered by the school division, shall be borne by the parent of the student.

§ 22.1-277.05. Long-term suspensions; procedures; readmission.
B. A school board shall include in the written notice of a suspension for 11 to 45 school days required by this section notification of the length of the suspension. In the case of a suspension for 11 to 45 school days, such written notice shall provide information concerning the availability of community-based educational, alternative education, or intervention programs. Such notice shall also state that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by the school board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension shall be borne by the parent of the student.

§ 22.1-277.06. Expulsions; procedures; readmission.
B. The written notice required by this section shall include notification of the length of the expulsion and shall provide information to the parent of the student concerning the availability of community-based educational, training, and intervention programs. Such notice shall state further whether or not the student is eligible to return to regular school attendance, or to attend an appropriate alternative education program approved by the school board, or an adult education program offered by the school division, during or upon the expiration of the expulsion, and the terms or conditions of such readmission. The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his expulsion shall be borne by the parent of the student.

Nothing in this section shall be construed to prohibit the school board from permitting or requiring students expelled pursuant to this section to attend an alternative education program provided by the school board for the term of such expulsion.

If the school board determines that the student is ineligible to return to regular school attendance or to attend during the expulsion an alternative education program or an adult education program in the school
division, the written notice shall also advise the parent of such student that the student may petition the school board for readmission to be effective one calendar year from the date of his expulsion, and of the conditions, if any, under which readmission may be granted.

§ 22.1-277.2. Authority to exclude students under certain circumstances; petition for readmission; alternative education program.

D. The school board may permit students excluded pursuant to this section to attend an alternative education program provided by the school board for the term of such exclusion.

§ 22.1-277.2:1. Disciplinary authority of school boards under certain circumstances; alternative education program.

B. A school board may adopt regulations authorizing the division superintendent or his designee to require students to attend an alternative education program consistent with the provisions of subsection A after (i) written notice to the student and his parent that the student will be required to attend an alternative education program and (ii) notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the division superintendent or his designee regarding such placement. The decision of the superintendent or his designee regarding such alternative education placement shall be final unless altered by the school board, upon timely written petition, as established in regulation, by the student or his parent, for a review of the record by the school board.

C. A school board may adopt regulations authorizing the principal or his designee to impose a short-term suspension, pursuant to § 22.1-277.04, upon a student who has been charged with an offense involving intentional injury enumerated in subsection G of § 16.1-260, to another student in the same school pending a decision as to whether to require that such student attend an alternative education program.

The Department of Education shall annually collect from each school board and publish on its website data on alternative education programs for students who have been suspended, expelled, or otherwise precluded from attendance at school. Such data shall (i) be published in a manner that protects the identities of individual students; (ii) be disaggregated by local school division and by student race, ethnicity, gender, and disability; and (iii) include:

1. The number of students enrolled in alternative education programs pursuant to each of the five clauses set forth in subsection A of § 22.1-277.2:1;

2. The number of students enrolled in alternative education programs who have received (i) a short-term suspension, (ii) a long-term suspension, or (iii) an expulsion;

3. The current availability of various categories of alternative education programs available to all students and not solely special education students, including full-day programs with on-site, in-school teacher instruction; full-day programs with off-site, out-of-school teacher instruction; primarily virtual instruction; home-based or home-bound instruction; partial-day instruction; and any other category that the Department of Education may identify;

4. The average length of enrollment in an alternative education program per program during each school year;

5. The number of students who transition within the same school year from an alternative education program back into the school at which they were enrolled immediately preceding enrollment in the alternative education program; and

6. Relevant student achievement data, as determined by the Department of Education.

§ 22.1-279.3:3. Alternative school discipline process.

A. A school board may establish an alternative school discipline process to provide the parties involved in an incident described in clause (i) of subsection A of § 22.1-279.3:1 the option to enter into a mutually agreed-upon process between the involved parties. Such process shall be designed to hold the student accountable for a noncriminal offense through a mutually agreed-upon standard.
B. If provided for in the process established by the school board, no principal shall report pursuant to subsection D of § 22.1-279.3:1 a party who successfully completes the alternative school discipline process. If the parties fail to agree to participate in the process or fail to successfully complete the alternative school discipline process, then the principal may report the incident to the local law-enforcement agency pursuant to subsection D of § 22.1-279.3:1.

LAWS

§ 22.1-277.07. Expulsion of students under certain circumstances; exceptions.

A. In compliance with the federal Improving America's Schools Act of 1994 (Part F-Gun-Free Schools Act of 1994), a school board shall expel from school attendance for a period of not less than one year any student whom such school board has determined, in accordance with the procedures set forth in this article, to have possessed a firearm on school property or at a school-sponsored activity as prohibited by § 18.2-308.1 or to have possessed a firearm or destructive device as defined in subsection E, a firearm muffler or firearm silencer, or a pneumatic gun as defined in subsection E of § 15.2-915.4 on school property or at a school-sponsored activity. A school administrator, pursuant to school board policy, or a school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. A school board may promulgate guidelines for determining what constitutes special circumstances. In addition, a school board may, by regulation, authorize the division superintendent or his designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in accordance with the procedures set forth in this article. Nothing in this section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

B. The Board of Education is designated as the state education agency to carry out the provisions of the federal Improving America's Schools Act of 1994 and shall administer the funds to be appropriated to the Commonwealth under this act.

C. Each school board shall revise its standards of student conduct no later than three months after the date on which this act becomes effective. Local school boards requesting moneys apportioned to the Commonwealth through the federal Improving America's Schools Act of 1994 shall submit to the Department of Education an application requesting such assistance. Applications for assistance shall include:

1. Documentation that the local school board has adopted and implemented student conduct policies in compliance with this section; and
2. A description of the circumstances pertaining to expulsions imposed under this section, including (i) the schools from which students were expelled under this section, (ii) the number of students expelled from each such school in the school division during the school year, and (iii) the types of firearms involved in the expulsions.

D. No school operating a Junior Reserve Officers Training Corps (JROTC) program shall prohibit the JROTC program from conducting marksmanship training when such training is a normal element of such programs. Such programs may include training in the use of pneumatic guns. The administration of a school operating a JROTC program shall cooperate with the JROTC staff in implementing such marksmanship training.

E. As used in this section:

made by a duly licensed weapon manufacturer, any fully automatic firearm, any sawed-off shotgun or
sawed-off rifle as defined in § 18.2-299 or any firearm prohibited from civilian ownership by federal law;

mutatis mutandis, to the provisions of this section. The provisions of this section shall not apply to
persons who possess such firearm or firearms or pneumatic guns as a part of the curriculum or other
programs sponsored by the schools in the school division or any organization permitted by the school to
use its premises or to any law-enforcement officer while engaged in his duties as such.

G. This section shall not be construed to diminish the authority of the Board of Education or the Governor
concerning decisions on whether, or the extent to which, Virginia shall participate in the federal Improving
America's Schools Act of 1994, or to diminish the Governor's authority to coordinate and provide policy
direction on official communications between the Commonwealth and the United States government.

Notwithstanding any other provision of law to the contrary, each school division may develop and

education program. A school board may require such student to attend such programs regardless of
where the crime occurred. School boards may require any student who has been found, in accordance
with the procedures set forth in this article, to have been in possession of, or under the influence of, drugs or alcohol on a school bus, on school property, or at a school-sponsored activity in violation of school board policies, to undergo evaluation for drug or alcohol abuse, or both, and, if recommended by the evaluator and with the consent of the student's parent, to participate in a treatment program.

As used in this section, the term "charged" means that a petition or warrant has been filed or is pending against a pupil.

LAWS

§ 16.1-260. Intake; petition; investigation.

If a juvenile is alleged to be a truant pursuant to a complaint filed in accordance with § 22.1-258 and the attendance officer has provided documentation to the intake officer that the relevant school division has
complied with the provisions of § 22.1-258, then the intake officer shall file a petition with the court. The intake officer may defer filing the petition and proceed informally by developing a truancy plan, provided that (1) the juvenile has not previously been proceeded against informally or adjudicated in need of supervision on more than two occasions for failure to comply with compulsory school attendance as provided in § 22.1-254 and (2) the immediately previous informal action or adjudication occurred at least three calendar years prior to the current complaint. The juvenile and his parent or parents, guardian, or other person standing in loco parentis must agree, in writing, for the development of a truancy plan. The truancy plan may include requirements that the juvenile and his parent or parents, guardian, or other person standing in loco parentis participate in such programs, cooperate in such treatment, or be subject to such conditions and limitations as necessary to ensure the juvenile's compliance with compulsory school attendance as provided in § 22.1-254. The intake officer may refer the juvenile to the appropriate public agency for the purpose of developing a truancy plan using an interagency interdisciplinary team approach. The team may include qualified personnel who are reasonably available from the appropriate department of social services, community services board, local school division, court service unit, and other appropriate and available public and private agencies and may be the family assessment and planning team established pursuant to § 2.2-5207. If at the end of the deferral period the juvenile has not successfully completed the truancy plan or the truancy program, then the intake officer shall file the petition.

22.1-207.7. 4-H educational programs and activities; attendance.

A. No student who misses a partial or full day of school while participating in a 4-H educational program or activity shall be counted as absent for the purposes of calculating average daily membership and each such student shall receive course credit in the same manner as he would for a school field trip, provided that:

2. Each local school board may determine the maximum number of school days per academic year that a student may spend participating in 4-H educational programs or activities to not be counted absent; and
3. No school shall provide course credit to a student pursuant this section if the student's participation in a 4-H educational program or activity occurs during scheduled Standards of Learning assessments or during any period of time that the student is suspended or expelled from school.

B. Upon request from a school principal or an assistant principal, an agent or representative from 4-H shall provide documentation as proof of a student's participation in an activity or program sponsored by 4-H.

O. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

3. Student support positions, including (i) social workers and social work administrative positions; (ii) school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral positions, including licensed behavior analysts, licensed assistant behavior analysts, school nurses, and school psychologists.

In order to fill vacant school psychologist positions, any local school board may employ, under a provisional license issued by the department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, clinical psychologists licensed by the board of psychology, provided that any such individual makes progress toward completing the requirements for full licensure as a school psychologist during such period of employment.
§ 22.1-258. Appointment of attendance officers; notification when pupil fails to report to school; plan; conference; court proceedings.

Every school board shall have power to appoint one or more attendance officers, who shall be charged with the enforcement of the provisions of this article. Where no attendance officer is appointed by the school board, the division superintendent or his designee shall act as attendance officer.

Whenever any pupil fails to report to school on a regularly scheduled school day and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, a reasonable effort to notify by telephone the parent to obtain an explanation for the pupil's absence shall be made by either the school principal or his designee, the attendance officer, other school personnel, or volunteers organized by the school administration for this purpose. Any such volunteers shall not be liable for any civil damages for any acts or omissions resulting from making such reasonable efforts to notify parents and obtain such explanation when such acts or omissions are taken in good faith, unless such acts or omissions were the result of gross negligence or willful misconduct. This subsection shall not be construed to limit, withdraw, or overturn any defense or immunity already existing in statutory or common law or to affect any claim occurring prior to the effective date of this law. School divisions are encouraged to use noninstructional personnel for this notice.

Whenever any pupil fails to report to school for a total of five scheduled school days for the school year and no indication has been received by school personnel that the pupil's parent is aware of and supports
the pupil's absence, and a reasonable effort to notify the parent has failed, the school principal or his
designee shall make a reasonable effort to ensure that direct contact is made with the parent in person,
through telephone conversation, or through the use of other communications devices to obtain an
explanation for the pupil's absence and to explain to the parent the consequences of continued
nonattendance. The school principal or his designee, the pupil, and the pupil's parent shall jointly develop
a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the
pupil's nonattendance.

If the pupil is absent for more than one additional day after direct contact with the pupil's parent, and
school personnel have received no indication that the pupil's parent is aware of and supports the pupil's
absence, the school principal or his designee shall schedule a conference with the pupil, his parent, and
school personnel. Such conference may include the attendance officer and other community service
providers to resolve issues related to the pupil's nonattendance. The conference shall be held no later
than 10 school days after the tenth absence of the pupil, regardless of whether his parent approves of the
conference. The conference team shall monitor the pupil's attendance and may meet again as necessary
to address concerns and plan additional interventions if attendance does not improve. In circumstances in
which the parent is intentionally noncompliant with compulsory attendance requirements or the pupil is
resisting parental efforts to comply with compulsory attendance requirements, the principal or his
designee may make a referral to the attendance officer. The attendance officer shall schedule a
conference with the pupil and his parent within 10 school days and may (i) file a complaint with the
juvenile and domestic relations district court alleging the pupil is a child in need of supervision as defined
in § 16.1-228 or (ii) institute proceedings against the parent pursuant to § 18.2-371 or 22.1-262. In filing a
complaint against the student, the attendance officer shall provide written documentation of the efforts to
comply with the provisions of this section. In the event that both parents have been awarded joint physical
custody pursuant to § 20-124.2 and the school has received notice of such order, both parents shall be
notified at the last known addresses of the parents.

An attendance officer, or a division superintendent or his designee when acting as an attendance officer
pursuant to § 22.1-258, may complete, sign, and file with the intake officer of the juvenile and domestic
relations district court, on forms approved by the Supreme Court of Virginia, a petition for a violation of a
school attendance order entered by the juvenile and domestic relations district court pursuant to § 16.1-
278.5 in response to the filing of a petition alleging the pupil is a child in need of supervision as defined in
§ 16.1-228.

Nothing in this section shall be construed to limit in any way the authority of any attendance officer or
division superintendent to seek immediate compliance with the compulsory school attendance law as set
forth in this article.

Attendance officers, other school personnel or volunteers organized by the school administration for this
purpose shall be immune from any civil or criminal liability in connection with the notice to parents of a
pupil's absence or failure to give such notice as required by this section.

§ 22.1-261. Attendance officer to make list of children not enrolled; duties of attendance officer.
The attendance officer or the division superintendent or his designee shall check the reports submitted
pursuant to subsection A of § 22.1-260 with reports from the State Registrar of Vital Records and Health
Statistics. From these reports and from any other reliable source the attendance officer or the division
superintendent or his designee shall, within five days after receiving all reports submitted pursuant to
subsection A of § 22.1-260, make a list of the names of children who are not enrolled in any school and
who are not exempt from school attendance. It shall be the duty of the attendance officer, on behalf of the
local school board, to investigate all cases of nonenrollment and, when no valid reason is found therefor,
to notify the parent, guardian or other person having control of the child to require the attendance of such
child at the school within three days from the date of such notice.
§ 22.1-266. Law-enforcement officers and truant children.

A. Notwithstanding the provisions of § 16.1-246, any law-enforcement officer as defined in § 9.1-101 or any attendance officer may pick up any child who (i) is reported to be truant from a public school by a school principal or division superintendent or (ii) the law-enforcement officer or attendance officer reasonably determines to be a public school student and by reason of the child's age and circumstances is either truant from public school or has been expelled from school and has been required to attend an alternative education program pursuant to § 22.1-254 or § 22.1-277.2:1, and may deliver such child to the appropriate public school, alternative education program, or truancy center and personnel thereof without charging the parent or guardian of such child with a violation of any provision of law.

B. Any such law-enforcement officer or attendance officer shall not be liable for any civil damages for any acts or omissions resulting from picking up or delivering a public school child as provided in subsection A when such acts or omissions are within the scope of the employment of such law-enforcement officer or attendance officer and are taken in good faith, unless such acts or omissions were the result of gross negligence or willful misconduct. This subsection shall not be construed to limit, withdraw or overturn any defense or immunity already existing in statutory or common law or to affect any claim occurring prior to the effective date of this law.

C. For the purposes of this section, "truancy center" means a facility or site operated by a school division, sometimes jointly with the local law-enforcement agency, and designated for receiving children who have been retrieved by a law-enforcement officer or attendance officer for truancy from school.

Any child permitted by any parent, guardian, or other person having control thereof to be habitually absent from school contrary to the provisions of this article may be proceeded against as a child in need of supervision as provided in Chapter 11 (§ 16.1-226 et seq.) of Title 16.1.

§ 22.1-268. Duty of attorneys for the Commonwealth to prosecute cases arising under article; jurisdiction of offenses.

It shall be the duty of the attorneys for the Commonwealth of the several counties and cities to prosecute all cases arising under this article. Juvenile and domestic relations district courts shall have exclusive original jurisdiction for the trial of such cases.

§ 22.1-269. Board to enforce.

The Board of Education shall have the authority and it shall be its duty to see that the provisions of this article are properly enforced throughout the Commonwealth.

§ 22.1-277. Suspensions and expulsions of pupils generally.

A. Students may be suspended or expelled from attendance at school for sufficient cause; however, in no cases may sufficient cause for suspensions include only instances of truancy.
the 10th unexcused absence. The attendance conference is held by a multi-disciplinary team and may include the parents and student.

"Attendance plan" means a plan developed jointly by a school representative, such as a school principal or the principal's designee; parent; and student to resolve the student's nonattendance and engage the student in regular school attendance. The plan shall identify reasons for nonattendance and academic, social, emotional, and familial barriers that impede daily attendance along with positive strategies to address such reasons and impediments and support regular attendance. This plan may include school-based activities or suggested referrals to community supports, or both.

"Court referral" means filing a complaint with the Juvenile and Domestic Relations Court after the multi-disciplinary team has held an attendance conference and attempted interventions to address the student's continued nonattendance. Documentation of interventions regarding the student's unexcused absences, such as copies of the attendance plan and documentation of conference meetings, and compliance with § 22.1-258 of the Code of Virginia will be provided to the intake worker.

"Excused absence" means an absence of an entire assigned instructional school day with a reason acceptable to the school administration that is provided by the parent. If circumstances permit, the parent should provide the school administration with the reason for the nonattendance prior to the absence. Examples of an excused absence may include, but are not limited to, the following reasons: funeral, illness (including mental health and substance abuse illnesses), injury, legal obligations, medical procedures, suspensions, religious observances, and military obligation. Suspended students continue to remain under the provisions of compulsory school attendance as described in § 22.1-254 of the Code of Virginia. An absence from school attendance resulting from a suspension shall be recorded in compliance with 8VAC20-730-30 for the period of the suspension.

"Instructional school day" means the length of a regularly scheduled school day for an individual student.

"Multi-disciplinary team" means a conference team that may be convened to review student records and to participate in prevention, early intervention, and provision of support services to address unexcused absences, including school-based case management. These services should address academic, social, emotional, and familial issues in order to improve regular school attendance. Team members may include but are not limited to, the following: an administrator, school counselor, social worker or psychologist, student assistance specialist, special education and general education teacher, attendance officer, and community representatives.

"Parent" means the parent or parents, guardian or guardians, legal custodian or legal custodians, or other person or persons having legal control or charge of the student.

"Truancy" means the act of accruing one or more unexcused absences.

"Unexcused absence" means an absence where (i) the student misses his scheduled instructional school day in its entirety and (ii) no indication has been received by school personnel within five days of the absence that the student's parent is aware and supports the absence, or the parent provides a reason for the absence that is unacceptable to the school administration. The school administration may change an unexcused absence to an excused absence when it determines that the parent has provided an acceptable reason meeting criteria for the student's absence or there are extenuating circumstances.

8 VAC 20-730-20. Unexcused absences intervention process and responsibilities.

A. Each local school board shall provide guidance regarding what would constitute an excused absence in order to address when the explanation provided by the parent will be determined to be reasonable and acceptable.

B. Each local school board shall develop procedures to ensure that appropriate interventions will be implemented when a student engages in a pattern of absences less than a full day, the explanation for which, if it were a full-day absence, would not be deemed an excused absence.
C. The following intervention steps shall be implemented to respond to unexcused absences from school and to engage students in regular school attendance.

1. Whenever a student fails to report to school on a regularly scheduled school day and no information has been received by school personnel that the student's parent is aware of and supports the absence, or the parent provides a reason for the absence that is unacceptable to the school administration, the school principal or designee, attendance officer, or other school personnel or volunteer will notify the parent by phone or email or any other electronic means to obtain an explanation. The school staff shall record the student's absence for each day as "excused" or "unexcused." Early intervention with the student and parent or parents shall take place for repeated unexcused absences.

2. When a student has received five unexcused absences, the school principal or designee shall make a reasonable effort to ensure that direct contact is made with the parent. The parent shall be contacted in a face-to-face conference, by telephone, or through the use of other communication devices. During the direct contact with the parent and the student (if appropriate), reasons for nonattendance shall be documented and the consequences of nonattendance explained. An attendance plan shall be made with the student and parent or parents to resolve the nonattendance issues. The student and parent may be referred to a school-based multi-disciplinary team for assistance implementing the attendance plan and case management.

3. When the student accrues a seventh unexcused absence, the school principal or principal's designee shall schedule a face-to-face attendance conference, or an interaction that is conducted through the use of communication technology. The attendance conference must be held within 10 school days from the date of the 10th unexcused absence. The principal or principal's designee shall make reasonable efforts to contact the student's parent or parents to attend the attendance conference either in person or via communication technology. If the principal or principal's designee, after reasonable efforts have been made, is unable to contact the student's parent, the conference shall be held regardless of whether the student's parent approves of the conference. The conference shall include the principal or principal's designee and a representative from the multi-disciplinary team.

4. The multi-disciplinary team shall monitor the student's attendance and, as necessary, meet again to address concerns and plan additional interventions if the student's attendance does not improve. If additional meetings are necessary, the principal or principal's designee shall make reasonable efforts to contact the student's parent or parents and schedule a face-to-face meeting, or an interaction that is conducted through the use of communication technology. If the principal or principal's designee, after reasonable efforts have been made, is unable to contact the student's parent, the conference shall be held regardless of whether the student's parent approves of the conference.

5. In circumstances in which the parent is intentionally noncompliant with compulsory attendance requirements or the student is resisting parental efforts to comply with compulsory attendance requirements, the school principal or principal's designee shall make a referral to the attendance officer. The attendance officer shall schedule a conference with the student and the student's parent or parents within 10 days of receiving the referral. The attendance officer may (i) file a complaint with the juvenile and domestic relations district court alleging the student is a child in need of supervision as defined in § 16.1-228 of the Code of Virginia or (ii) institute proceedings against the parent pursuant to § 18.2-371 or 22.1-262 of the Code of Virginia. In addition to written documentation of the efforts to comply with the notice provisions of § 22.1-258 of the Code of Virginia, all records of intervention regarding the student's unexcused absences, such as copies of the conference meeting notes, attendance plan, and description of the supports offered or made available to the student shall be presented to the intake worker.
D. A record shall be maintained of each meeting that includes the attendance plan, the name of individuals in attendance at each conference meeting (including via telephone or electronic devices), the location and date of the conference, a summary of what occurred, and follow-up steps.

8 VAC 20-730-30. Data collection and reporting.
Data collection shall begin on the first day students attend for the school year. Each school division shall provide student level attendance data for each student that includes the number of unexcused absences in a manner prescribed by the Virginia Department of Education. A student's attendance is cumulative and begins on the first official day of the school year or the first day the student is officially enrolled. All nonattendance days are cumulative and begin with the first absence. For purposes of this data collection, truancy shall start with the first unexcused absence and will be cumulative. Data shall be reported to the Virginia Department of Education pursuant to § 22.1-258 of the Code of Virginia and 8VAC20-730-20.

Substance Use

LAWS

§ 22.1-79.5. Policy regarding tobacco and nicotine vapor products.
Each school board shall develop and implement a policy to prohibit, at any time, the use and distribution of any tobacco product or nicotine vapor product, as those terms are defined in § 18.2-371.2, on a school bus, on school property, or at an on-site or off-site school-sponsored activity. Such policy shall include (i) provisions for its enforcement among students, employees, and visitors, including the enumeration of possible sanctions or disciplinary action consistent with state or federal law, and (ii) referrals to resources to help staff and students overcome tobacco addiction. Each school board shall work to ensure adequate notice of this policy.

§ 22.1-277.08. Expulsion of students for certain drug offenses.

School boards shall expel from school attendance any student whom such school board has determined, in accordance with the procedures set forth in this article, to have brought a controlled substance, imitation controlled substance, or marijuana as defined in § 18.2-247 onto school property or to a school-sponsored activity. A school administrator, pursuant to school board policy, or a school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. A school board may, by regulation, authorize the division superintendent or his designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in accordance with the procedures set forth in this article. Nothing in this section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

B. Each school board shall revise its standards of student conduct to incorporate the requirements of this section no later than three months after the date on which this act becomes effective.

§ 22.1-277.2:1. Disciplinary authority of school boards under certain circumstances; alternative education program.
A. A school board may, in accordance with the procedures set forth in this article, require any student who has been (i) charged with an offense relating to the Commonwealth's laws, or with a violation of school board policies, on weapons, alcohol or drugs, or intentional injury to another person, or with an offense that is required to be disclosed to the superintendent of the school division pursuant to subsection
G of § 16.1-260; (ii) found guilty or not innocent of an offense relating to the Commonwealth's laws on weapons, alcohol, or drugs, or of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the superintendent of the school division pursuant to subsection G of § 16.1-260; (iii) found to have committed a serious offense or repeated offenses in violation of school board policies; (iv) suspended pursuant to § 22.1-277.05; or (v) expelled pursuant to § 22.1-277.06, 22.1-277.07, or 22.1-277.08, or subsection C of § 22.1-277, to attend an alternative education program. A school board may require such student to attend such programs regardless of where the crime occurred. School boards may require any student who has been found, in accordance with the procedures set forth in this article, to have been in possession of, or under the influence of, drugs or alcohol on a school bus, on school property, or at a school-sponsored activity in violation of school board policies, to undergo evaluation for drug or alcohol abuse, or both, and, if recommended by the evaluator and with the consent of the student's parent, to participate in a treatment program.

As used in this section, the term "charged" means that a petition or warrant has been filed or is pending against a pupil.

§ 22.1-279.3:1. Reports of certain acts to school authorities.
A. Reports shall be made to the division superintendent and to the principal or his designee on all incidents involving (i) the assault or assault and battery, without bodily injury, of any person on a school bus, on school property, or at a school-sponsored activity; (ii) the assault and battery that results in bodily injury, sexual assault, death, shooting, stabbing, cutting, or wounding of any person, abduction of any person as described in § 18.2-47 or 18.2-48, or stalking of any person as described in § 18.2-60.3, on a school bus, on school property, or at a school-sponsored activity; (iii) any conduct involving alcohol, marijuana, a controlled substance, imitation controlled substance, or an anabolic steroid on a school bus, on school property, or at a school-sponsored activity, including the theft or attempted theft of student prescription medications; (iv) any threats against school personnel while on a school bus, on school property or at a school-sponsored activity; (v) the illegal carrying of a firearm, as defined in § 22.1-277.07, onto school property; (vi) any illegal conduct involving firebombs, explosive materials or devices, or hoax explosive devices, as defined in § 18.2-85, or explosive or incendiary devices, as defined in § 18.2-433.1, or chemical bombs, as described in § 18.2-87.1, on a school bus, on school property, or at a school-sponsored activity; (vii) any threats or false threats to bomb, as described in § 18.2-83, made against school personnel or involving school property or school buses; or (viii) the arrest of any student for an incident occurring on a school bus, on school property, or at a school-sponsored activity, including the charge therefor.

§ 22.1-279.6. Board of Education guidelines and model policies for codes of student conduct; school board regulations.
A. The Board of Education shall establish guidelines and develop model policies for codes of student conduct to aid local school boards in the implementation of such policies. grooming codes; and (v) standards for reducing bias and harassment in the enforcement of any code of student conduct. [...] 

H. Each school board shall include in its code of student conduct a prohibition on possessing any tobacco product or nicotine vapor product, as those terms are defined in § 18.2-371.2, on a school bus, on school property, or at an on-site or off-site school-sponsored activity.

Further, any school superintendent who receives notification that a juvenile has committed an act that would be a crime if committed by an adult pursuant to subsection G of § 16.1-260 shall report such information to the principal of the school in which the juvenile is enrolled.

The principal or his designee shall also notify the parent of any student involved in an incident required pursuant to this section to be reported, regardless of whether disciplinary action is taken against such student or the nature of the disciplinary action. Such notice shall relate to only the relevant student's involvement and shall not include information concerning other students.

Whenever any student commits any reportable incident as set forth in this section, such student shall be required to participate in such prevention and intervention activities as deemed appropriate by the superintendent or his designee. Prevention and intervention activities shall be identified in the local school division's drug and violence prevention plans developed pursuant to the federal Improving America's Schools Act of 1994 (Title IV - Safe and Drug-Free Schools and Communities Act).

Such process shall be designed to hold the student accountable for a noncriminal offense through a mutually agreed-upon standard.

B. If provided for in the process established by the school board, no principal shall report pursuant to subsection D of § 22.1-279.3:1 a party who successfully completes the alternative school discipline process. If the parties fail to agree to participate in the process or fail to successfully complete the alternative school discipline process, then the principal may report the incident to the local law-enforcement agency pursuant to subsection D of § 22.1-279.3:1.

Parental Notification

LAWS

§ 16.1-260. Intake; petition; investigation.
If a juvenile is alleged to be a truant pursuant to a complaint filed in accordance with § 22.1-258 and the attendance officer has provided documentation to the intake officer that the relevant school division has complied with the provisions of § 22.1-258, then the intake officer shall file a petition with the court. The intake officer may defer filing the petition and proceed informally by developing a truancy plan, provided that (1) the juvenile has not previously been proceeded against informally or adjudicated in need of supervision on more than two occasions for failure to comply with compulsory school attendance as provided in § 22.1-254 and (2) the immediately previous informal action or adjudication occurred at least three calendar years prior to the current complaint. The juvenile and his parent or parents, guardian, or other person standing in loco parentis must agree, in writing, for the development of a truancy plan. The truancy plan may include requirements that the juvenile and his parent or parents, guardian, or other person standing in loco parentis participate in such programs, cooperate in such treatment, or be subject to such conditions and limitations as necessary to ensure the juvenile's compliance with compulsory school attendance as provided in § 22.1-254. The intake officer may refer the juvenile to the appropriate public agency for the purpose of developing a truancy plan using an interagency interdisciplinary team approach. The team may include qualified personnel who are reasonably available from the appropriate department of social services, community services board, local school division, court service unit, and other appropriate and available public and private agencies and may be the family assessment and planning team established pursuant to § 2.2-5207. If at the end of the deferral period the juvenile has not successfully completed the truancy plan or the truancy program, then the intake officer shall file the petition.

§ 22.1-209.1:2. Regional alternative education programs for certain students.
D. A school board shall require written notification to the pupil's parent, guardian, or other person having charge or control, when a pupil commits an offense in violation of school board policies, which school officials determine was committed without the willful intent to violate such policies, or when the offense did not endanger the health and safety of the individual or other persons, of the nature of the offense no later than two school days following its occurrence. A school board shall require the principal of the school where the child is in attendance or other appropriate school personnel to develop appropriate measures, in conjunction with the pupil's parent or guardian, for correcting such behavior.

§ 22.1-258. Appointment of attendance officers; notification when pupil fails to report to school; plan; conference; court proceedings.
Whenever any pupil fails to report to school on a regularly scheduled school day and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, a reasonable effort to notify by telephone the parent to obtain an explanation for the pupil's absence shall be made by either the school principal or his designee, the attendance officer, other school personnel, or volunteers organized by the school administration for this purpose. Any such volunteers shall not be liable for any civil damages for any acts or omissions resulting from making such reasonable efforts to notify parents and obtain such explanation when such acts or omissions are taken in good faith, unless such acts or omissions were the result of gross negligence or willful misconduct. This subsection shall not be construed to limit, withdraw, or overturn any defense or immunity already existing in statutory or common law or to affect any claim occurring prior to the effective date of this law. School divisions are encouraged to use noninstructional personnel for this notice.
Whenever any pupil fails to report to school for a total of five scheduled school days for the school year and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, and a reasonable effort to notify the parent has failed, the school principal or his designee shall make a reasonable effort to ensure that direct contact is made with the parent in person, through telephone conversation, or through the use of other communications devices to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The school principal or his designee, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance.

If the pupil is absent for more than one additional day after direct contact with the pupil's parent, and school personnel have received no indication that the pupil's parent is aware of and supports the pupil's absence, the school principal or his designee shall schedule a conference with the pupil, his parent, and school personnel. Such conference may include the attendance officer and other community service providers to resolve issues related to the pupil's nonattendance. The conference shall be held no later than 10 school days after the tenth absence of the pupil, regardless of whether his parent approves of the conference. The conference team shall monitor the pupil's attendance and may meet again as necessary to address concerns and plan additional interventions if attendance does not improve. In circumstances in which the parent is intentionally noncompliant with compulsory attendance requirements or the pupil is resisting parental efforts to comply with compulsory attendance requirements, the principal or his designee shall make a referral to the attendance officer. The attendance officer shall schedule a conference with the pupil and his parent within 10 school days and may (i) file a complaint with the juvenile and domestic relations district court alleging the pupil is a child in need of supervision as defined in § 16.1-228 or (ii) institute proceedings against the parent pursuant to § 18.2-371 or 22.1-262. In filing a complaint against the student, the attendance officer shall provide written documentation of the efforts to comply with the provisions of this section. In the event that both parents have been awarded joint physical custody pursuant to § 20-124.2 and the school has received notice of such order, both parents shall be notified at the last known addresses of the parents.

If the regulations provide for a hearing by the superintendent or his designee, the regulations shall also provide for an appeal of the decision to the full school board. Such appeal shall be decided by the school board within 30 days.

§ 22.1-277.06. Expulsions; procedures; readmission.

The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his expulsion shall be borne by the parent of the student.

§ 22.1-277.2. Authority to exclude students under certain circumstances; petition for readmission; alternative education program.
A. A student, who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in this Commonwealth or in another state or for whom admission has been withdrawn by a private school in this Commonwealth or in another state may be excluded from attendance by a local school board in Virginia, regardless of whether such student has been admitted to another school division or private school in the Commonwealth or in another state subsequent to such expulsion, suspension, or withdrawal of admission upon a finding that the student presents a danger to the other students or staff of the school division after (i) written notice to the student and his parent that the student may be subject to exclusion, the reasons therefor, and, in the event of such exclusion, of the right to appeal the decision at a hearing before the school board or a committee thereof; and (ii) a review of the case has been conducted by the division superintendent or his designee and exclusion has been recommended. [...]  
If the decision by the superintendent or his designee to exclude has been appealed to a committee of the school board, the student or his parent shall be provided written notice of the right to appeal the decision to the full board, which shall, within thirty days following any such hearing, in the case of an expulsion or withdrawal of admission and, in the case of a suspension of more than thirty days, within fifteen days following any such hearing, notify in writing the student or his parent of its decision.  
B. In lieu of the procedures established in subsection A, a school board may adopt regulations providing that a student may be excluded from attendance after (i) written notice to the student and his parent that the student may be subject to exclusion, including the reasons therefor, and notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the division superintendent or his designee regarding such exclusion; and (ii) a hearing of the case has been conducted by the division superintendent or his designee, and the decision has been to exclude the student from attendance. § 22.1-277.2:1. Disciplinary authority of school boards under certain circumstances; alternative education program.
B. A school board may adopt regulations authorizing the division superintendent or his designee to require students to attend an alternative education program consistent with the provisions of subsection A after (i) written notice to the student and his parent that the student will be required to attend an alternative education program and (ii) notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the division superintendent or his designee regarding such placement. The decision of the superintendent or his designee regarding such alternative education placement shall be final unless altered by the school board, upon timely written petition, as established in regulation, by the student or his parent, for a review of the record by the school board.

§ 22.1-279.3. Parental responsibility and involvement requirements.
E. In accordance with the due process procedures set forth in this article and the guidelines required by § 22.1-279.6, the school principal or his designee shall notify the parents of any student who violates a school board policy or the compulsory school attendance requirements when such violation is likely to result in the student's suspension or the filing of a court petition, whether or not the school administration has imposed such disciplinary action or filed a petition. The notice shall state (i) the date and particulars of the violation; (ii) the obligation of the parent to take actions to assist the school in improving the student's behavior and ensuring compulsory school attendance compliance; (iii) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials; and (iv) that a petition with the juvenile and domestic relations district court may be filed under certain circumstances to declare the student a child in need of supervision.

§ 22.1-279.3:1. Reports of certain acts to school authorities.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

A search is mandatory if there are reasonable grounds to suspect a student has illegally possessed a firearm in violation of RCW 9.41.280.
(2) Except as provided in subsection (3) of this section, the scope of the search is proper if the search is conducted as follows:
   (a) The methods used are reasonably related to the objectives of the search; and
   (b) Is not excessively intrusive in light of the age and sex of the student and the nature of the suspected infraction.

(1) In addition to the provisions in RCW 28A.600.230, the school principal, vice principal, or principal's designee may search all student lockers at any time without prior notice and without a reasonable suspicion that the search will yield evidence of any particular student's violation of the law or school rule.

**REGULATIONS**

**WAC 392-400-805. Fundamental rights.**

When administering discipline under this chapter, the school district must not:

(3) Deprive a student of the student's constitutional right to be secure in the student's person, papers, and effects against unreasonable searches and seizures.

**Restraint and Seclusion**

**LAWS**

**RCW 9A.16.100. Use of force on children - Policy - Actions presumed unreasonable.**

It is the policy of this state to protect children from assault and abuse and to encourage parents, teachers, and their authorized agents to use methods of correction and restraint of children that are not dangerous to the children. However, the physical discipline of a child is not unlawful when it is reasonable and moderate and is inflicted by a parent, teacher, or guardian for purposes of restraining or correcting the child. Any use of force on a child by any other person is unlawful unless it is reasonable and moderate and is authorized in advance by the child's parent or guardian for purposes of restraining or correcting the child.

The following actions are presumed unreasonable when used to correct or restrain a child: (1) Throwing, kicking, burning, or cutting a child; (2) striking a child with a closed fist; (3) shaking a child under age three; (4) interfering with a child's breathing; (5) threatening a child with a deadly weapon; or (6) doing any other act that is likely to cause and which does cause bodily harm greater than transient pain or minor temporary marks. The age, size, and condition of the child and the location of the injury shall be considered when determining whether the bodily harm is reasonable or moderate. This list is illustrative of unreasonable actions and is not intended to be exclusive.
RCW 28A.155.210. Use of restraint or isolation - Requirement for procedures to notify parent or guardian.
A school that is required to develop an individualized education program as required by federal law must include within the plan procedures for notification of a parent or guardian regarding the use of restraint or isolation.

RCW 28A.600.485. Restraint of students-Use of restraint or isolation specified in individualized education programs or plans developed under section 504 of the rehabilitation act of 1973-Procedures-Summary of incidents of isolation or restraint-Publishing to web site.
(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.
   (a) "Isolation" means restricting the student alone within a room or any other form of enclosure, from which the student may not leave. It does not include a student's voluntary use of a quiet space for self-calming, or temporary removal of a student from his or her regular instructional area to an unlocked area for purposes of carrying out an appropriate positive behavior intervention plan.
   (b) "Restraint" means physical intervention or force used to control a student, including the use of a restraint device to restrict a student's freedom of movement. It does not include appropriate use of a prescribed medical, orthopedic, or therapeutic device when used as intended, such as to achieve proper body position, balance, or alignment, or to permit a student to safely participate in activities.
   (c) "Restraint device" means a device used to assist in controlling a student, including but not limited to metal handcuffs, plastic ties, ankle restraints, leather cuffs, other hospital-type restraints, pepper spray, tasers, or batons. Restraint device does not mean a seat harness used to safely transport students.
   This section shall not be construed as encouraging the use of these devices.

   (2) The provisions of this section apply to all students, including those who have an individualized education program or plan developed under section 504 of the rehabilitation act of 1973. The provisions of this section apply only to incidents of restraint or isolation that occur while a student is participating in school-sponsored instruction or activities.

   (3)(a) An individualized education program or plan developed under section 504 of the rehabilitation act of 1973 must not include the use of restraint or isolation as a planned behavior intervention unless a student's individual needs require more specific advanced educational planning and the student's parent or guardian agrees. All other plans may refer to the district policy developed under subsection (3)(b) of this section. Nothing in this section is intended to limit the provision of a free appropriate public education under Part B of the federal individuals with disabilities education improvement act or section 504 of the federal rehabilitation act of 1973.

   (b) Restraint or isolation of any student is permitted only when reasonably necessary to control spontaneous behavior that poses an imminent likelihood of serious harm, as defined in *RCW 70.96B.010. Restraint or isolation must be closely monitored to prevent harm to the student, and must be discontinued as soon as the likelihood of serious harm has dissipated. Each school district shall adopt a policy providing for the least amount of restraint or isolation appropriate to protect the safety of students and staff under such circumstances.

   (4) Following the release of a student from the use of restraint or isolation, the school must implement follow-up procedures. These procedures must include: (a) Reviewing the incident with the student and the parent or guardian to address the behavior that precipitated the restraint or isolation and the appropriateness of the response; and (b) reviewing the incident with the staff member who administered the restraint or isolation to discuss whether proper procedures were followed and what training or support the staff member needs to help the student avoid similar incidents.
(5) Any school employee, resource officer, or school security officer who uses isolation or restraint on a student during school-sponsored instruction or activities must inform the building administrator or building administrator's designee as soon as possible, and within two business days submit a written report of the incident to the district office. The written report must include, at a minimum, the following information:

(a) The date and time of the incident;
(b) The name and job title of the individual who administered the restraint or isolation;
(c) A description of the activity that led to the restraint or isolation;
(d) The type of restraint or isolation used on the student, including the duration;
(e) Whether the student or staff was physically injured during the restraint or isolation incident and any medical care provided; and
(f) Any recommendations for changing the nature or amount of resources available to the student and staff members in order to avoid similar incidents.

(6) The principal or principal's designee must make a reasonable effort to verbally inform the student's parent or guardian within twenty-four hours of the incident, and must send written notification as soon as practical but postmarked no later than five business days after the restraint or isolation occurred. If the school or school district customarily provides the parent or guardian with school-related information in a language other than English, the written report under this section must be provided to the parent or guardian in that language.

(7)(a) Beginning January 1, 2016, and by January 1st annually, each school district shall summarize the written reports received under subsection (5) of this section and submit the summaries to the office of the superintendent of public instruction. For each school, the school district shall include the number of individual incidents of restraint and isolation, the number of students involved in the incidents, the number of injuries to students and staff, and the types of restraint or isolation used.

(b) No later than ninety days after receipt, the office of the superintendent of public instruction shall publish to its web site the data received by the districts. The office of the superintendent of public instruction may use this data to investigate the training, practices, and other efforts used by schools and districts to reduce the use of restraint and isolation.

RCW 28A.600.486. District policy on the use of isolation and restraint - Notice to parents and guardians of children who have individualized education programs or plans developed under section 504 of the rehabilitation act of 1973.
Parents and guardians of children who have individualized education programs or plans developed under section 504 of the rehabilitation act of 1973 must be provided a copy of the district policy on the use of isolation and restraint at the time that the program or plan is created.

REGULATIONS
WAC 392-172A-01107. Isolation.
Isolation as defined in RCW 28A.600.485 means: Restricting the student alone within a room or any other form of enclosure, from which the student may not leave. It does not include a student's voluntary use of a quiet space for self-calming, or temporary removal of a student from his or her regular instructional area to an unlocked area for purposes of carrying out an appropriate positive behavior intervention plan.

Restraint as defined in RCW 28A.600.485 means: Physical intervention or force used to control a student, including the use of a restraint device to restrict a student's freedom of movement. It does not include appropriate use of a prescribed medical, orthopedic, or therapeutic device when used as intended, such
as to achieve proper body position, balance, or alignment, or to permit a student to participate in activities safely.

WAC 392-172A-01163. Restraint device.
Restraint device as defined in RCW 28A.600.485 means: A device used to assist in controlling a student including, but not limited to, metal handcuffs, plastic ties, ankle restraints, leather cuffs, other hospital-type restraints, pepper spray, tasers, or batons. This section shall not be construed as encouraging the use of these devices. A restraint device does not include a seat harness used to transport a student safely or other safety devices, including safety belts for wheelchairs, changing tables, booster seats, and other ambulatory or therapeutic devices when used for the purpose intended for the safety of a student.

WAC 392-172A-02076. Prohibited practices.
(1) School district personnel are prohibited from using aversive interventions with a student eligible for special education, and are prohibited from physically restraining or isolating any student, except when the student's behavior poses an imminent likelihood of serious harm as defined in WAC 392-172A-01092 and 392-172A-01109.

(2) There are certain practices that are manifestly inappropriate by reason of their offensive nature or their potential negative physical consequences, or their illegality. The purpose of this section is to prohibit the use of certain practices with students eligible for special education as follows:

(c)(i) Force and restraint in general. A district must not use force or restraint that is either unreasonable under the circumstances or deemed to be an unreasonable form of corporal punishment as a matter of state law. See RCW 9A.16.100, which prohibits the following uses of force or restraint including:

(A) Throwing, kicking, burning, or cutting a student.
(B) Striking a student with a closed fist.
(C) Shaking a student under age three.
(D) Interfering with a student's breathing.
(E) Threatening a student with a deadly weapon.
(F) Doing any other act that is likely to cause bodily harm to a student greater than transient pain or minor temporary marks.

(ii) The statutory listing of worst case uses of force or restraint described in this subsection may not be read as implying that all unlisted uses (e.g., shaking a four year old) are permissible. Whether or not an unlisted use of force or restraint is permissible depends upon such considerations as the balance of these rules, and whether the use is reasonable under the circumstances. [...] 

(e) Isolation. A student must not be excluded from his or her regular instructional or service area and isolated within a room or any other form of enclosure, except under the conditions set forth in WAC 392-172A-02110. [...] 

(i) Physical restraints. A student must not be physically restrained or immobilized by binding or otherwise attaching the student's limbs together or by binding or otherwise attaching any part of the student's body to an object, except under the conditions set forth in WAC 392-172A-02110.

(1) If the parent and the school district determine that a student requires advanced educational planning, the parent and the district may develop emergency response protocols to be used in the case of emergencies that pose an imminent likelihood of serious harm, as defined in this section. Emergency response protocols, if developed, must be incorporated into a student's IEP. Emergency response protocols shall not be used as a substitute for the systematic use of a behavioral intervention plan that is
designed to change, replace, modify, or eliminate a targeted behavior. Emergency response protocols are subject to the conditions and limitations as follows:

(a) The student's parent provides consent, as defined in WAC 392-172A-01040, in advance, to the emergency response protocols to be adopted;
(b) The emergency response protocols specify:
   (i) The emergency conditions under which isolation, restraint, or restraint devices, if any, may be used;
   (ii) The type of isolation, restraint, and/or restraint device, if any, that may be used;
   (iii) The staff members or contracted positions permitted to use isolation, restraint, or restraint devices with the student, updated annually, and identify any required training associated with the use of isolation, restraint, or restraint device for each staff member or contracted position;
   (iv) Any other special precautions that must be taken.
(c) Any use of isolation, restraint, and/or restraint device must be discontinued as soon as the likelihood of serious harm has dissipated.
(d) Any staff member or other adults using isolation, restraint, or a restraint device must be trained and currently certified by a qualified provider in the use of trauma-informed crisis intervention (including de-escalation techniques) and the safe use of isolation, restraint, or a restraint device.

WAC 392-172A-02110. Isolation and restraint - Conditions.
Any use of isolation, restraint, and/or restraint device shall be used only when a student's behavior poses an imminent likelihood of serious harm. The limited use of isolation, restraint, or restraint device not prohibited in WAC 392-172A-02076 is conditioned upon compliance with the following procedural and substantive safeguards:
(1) Isolation. The use of isolation as defined by RCW 28A.600.485 is subject to each of the following conditions:

   (c) The isolation enclosure shall permit continuous visual monitoring of the student from outside the enclosure.
   (d) An adult responsible for supervising the student shall remain in visual or auditory range of the student at all times.
   (e) Either the student shall be capable of releasing himself or herself from the enclosure, or the student shall continuously remain within view of an adult responsible for supervising the student.
   (f) Any staff member or other adults using isolation must be trained and certified by a qualified provider in the use of isolation, or otherwise available in the case of an emergency when trained personnel are not immediately available due to the unforeseeable nature of the emergency.
(2) Restraint. The use of restraint as defined by RCW 28A.600.485 is subject to each of the following conditions:
   (a) The restraint must be discontinued as soon as the likelihood of serious harm has dissipated.
   (b) The restraint shall not interfere with the student's breathing.
   (c) Any staff member or other adults using a restraint must be trained and certified by a qualified provider in the use of such restraints, or otherwise available in the case of an emergency when trained personnel are not immediately available due to the unforeseeable nature of the emergency.
(3) Restraint device. The use of a restraint device as defined by RCW 28A.600.485 is subject to each of the following conditions:

(a) The restraint device must be discontinued as soon as the likelihood of serious harm has dissipated.

(b) The restraint device shall not interfere with the student's breathing.

(c) Either the student shall be capable of releasing himself or herself from the restraint device or the student shall continuously remain within view of an adult responsible for supervising the student.

(d) Any staff member or other adults using a restraint device must be trained and certified by a qualified provider in the use of such restraint devices, or otherwise available in the case of an emergency when trained personnel are not immediately available due to the unforeseeable nature of the emergency.

(4) School districts must follow the documentation and reporting requirements for any use of isolation, restraint, or restraint device consistent with RCW 28A.600.485.

WAC 392-400-825. Corporal punishment, restraint, and isolation.

(a) Provide for early involvement of parents in efforts to support students in meeting behavioral expectations; and

(b) Must make every reasonable attempt to involve the student and parents in the resolution of behavioral violations.

A school district representative or school employee shall review unexpected or excessive absences with a youth who is dependent pursuant to chapter 13.34 RCW and adults involved with that youth, to include the youth's caseworker, educational liaison, attorney if one is appointed, parent or guardians, and foster parents or the person providing placement for the youth. The purpose of the review is to determine the cause of the absences, taking into account: Unplanned school transitions, periods of running from care, inpatient treatment, incarceration, school adjustment, educational gaps, psychosocial issues, and unavoidable appointments during the school day. A school district representative or a school employee must proactively support the youth's school work so the student does not fall behind and to avoid suspension or expulsion based on truancy.

RCW 28A.320.123. School-based threat assessment program.

(1) At a minimum, a school-based threat assessment program must:

   (e) Prohibit suspension or expulsion based merely on threat assessment referral or performance.

(4) School districts may not impose long-term suspension or expulsion as a form of discretionary discipline.

(5) Any imposition of discretionary and nondiscretionary discipline is subject to the bar on suspending the provision of educational services pursuant to subsection (8) of this section.
RCW 28A.600.020. Exclusion of student from classroom - Written disciplinary procedures - Long-term suspension or expulsion.

(7) Nothing in this section prevents a public school district, educational service district, the Washington center for deaf and hard of hearing youth, or the state school for the blind if it has suspended or expelled a student from the student's regular school setting from providing educational services to the student in an alternative setting or modifying the suspension or expulsion on a case-by-case basis. An alternative setting should be comparable, equitable, and appropriate to the regular education services a student would have received without the exclusionary discipline. Example alternative settings include alternative high schools, one-on-one tutoring, and online learning.

RCW 28A.600.022. Suspended or expelled students - Reengagement plan.

(2) In developing a reengagement plan, school districts should consider shortening the length of time that the student is suspended or expelled, other forms of corrective action, and supportive interventions that aid in the student's academic success and keep the student engaged and on track to graduate. School districts must create a reengagement plan tailored to the student's individual circumstances, including consideration of the incident that led to the student's long-term suspension or expulsion. The plan should aid the student in taking the necessary steps to remedy the situation that led to the student's suspension or expulsion.

   (a) For behavioral violations under RCW 28A.600.015 (6)(a) through (d); and

      (i) The student would pose an imminent danger to students or school personnel; or

      (ii) The student would pose an imminent threat of material and substantial disruption of the educational process.

(3) Length of exclusion.

   (a) A long-term suspension may not exceed the length of an academic term.

   (b) A school district may not administer a long-term suspension beyond the school year in which the behavioral violation occurred.

(2) Limitations on expulsions. A school district may only administer an expulsion:

   (a) For behavioral violations under RCW 28A.600.015 (6)(a) through (d); and

Due Process

LAWS

RCW 28A.225.035. Petition to juvenile court - Contents - Court action - Referral to community engagement board or other coordinated intervention - Transfer of jurisdiction upon relocation.

(7)(a) Notwithstanding the provisions in subsection (4)(a) of this section, a hearing shall not be required if other actions by the court would substantially reduce the child's unexcused absences. Such actions may include referral to an existing community engagement board, use of the Washington assessment of risks and needs of students (WARNs) or other assessment tools to identify the specific needs of individual children, the provision of community-based services, and the provision of evidence-based treatments that have been found to be effective in supporting at-risk youth and their families. When a juvenile court hearing is held, the court shall:

(i) Separately notify the child, the parent of the child, and the school district of the hearing. If the parent is not fluent in English, notice should be provided in a language in which the parent is fluent as indicated on the petition pursuant to RCW 28A.225.030(1);
(ii) Notify the parent and the child of their rights to present evidence at the hearing; and
(iii) Notify the parent and the child of the options and rights available under chapter 13.32A RCW.

(b) If the child is not provided with counsel, the advisement of rights must take place in court by means of a colloquy between the court, the child if eight years old or older, and the parent.
RCW 28A.600.010. Enforcement of rules of conduct - Due process guarantees - Computation of days for short-term and long-term suspensions.

Every board of directors, unless otherwise specifically provided by law, shall:

(1) Enforce the rules prescribed by the superintendent of public instruction for the government of schools, pupils, and certificated employees.

(2) Adopt and make available to each pupil, teacher and parent in the district reasonable written rules regarding pupil conduct, discipline, and rights, including but not limited to short-term suspensions as referred to in RCW 28A.600.015 and suspensions in excess of ten consecutive days. Such rules shall not be inconsistent with any of the following: Federal statutes and regulations, state statutes, common law, and the rules of the superintendent of public instruction. The board's rules shall include such substantive and procedural due process guarantees as prescribed by the superintendent of public instruction under RCW 28A.600.015. When such rules are made available to each pupil, teacher, and parent, they shall be accompanied by a detailed description of rights, responsibilities, and authority of teachers and principals with respect to the discipline of pupils as prescribed by state statutory law, the superintendent of public instruction, and the rules of the school district.

For the purposes of this subsection, computation of days included in "short-term" and "long-term" suspensions shall be determined on the basis of consecutive school days.

(3) Suspend, expel, or discipline pupils in accordance with RCW 28A.600.015.

(1) The superintendent of public instruction shall adopt and distribute to all school districts lawful and reasonable rules prescribing the substantive and procedural due process guarantees of pupils in the common schools. Such rules shall authorize a school district to use informal due process procedures in connection with the short-term suspension of students to the extent constitutionally permissible:

PROVIDED, That the superintendent of public instruction deems the interest of students to be adequately protected. When a student suspension or expulsion is appealed, the rules shall authorize a school district to impose the suspension or expulsion temporarily after an initial hearing for no more than ten consecutive school days or until the appeal is decided, whichever is earlier. Any days that the student is temporarily suspended or expelled before the appeal is decided shall be applied to the term of the student suspension or expulsion and shall not limit or extend the term of the student suspension or expulsion. An expulsion or suspension of a student may not be for an indefinite period of time.

(2) Short-term suspension procedures may be used for suspensions of students up to and including, ten consecutive school days.

(3) Emergency expulsions must end or be converted to another form of corrective action within ten school days from the date of the emergency removal from school. Notice and due process rights must be provided when an emergency expulsion is converted to another form of corrective action.

(4) School districts may not impose long-term suspension or expulsion as a form of discretionary discipline.

(5) Any imposition of discretionary and nondiscretionary discipline is subject to the bar on suspending the provision of educational services pursuant to subsection (8) of this section.

(6) As used in this chapter, "discretionary discipline" means a disciplinary action taken by a school district for student behavior that violates rules of student conduct adopted by a school district board of directors under RCW 28A.600.010 and this section, but does not constitute action taken in response to any of the following:

(a) A violation of RCW 28A.600.420;
(b) An offense in RCW 13.04.155;
(c) Two or more violations of RCW 9A.46.120, 9.41.280, 28A.600.455, 28A.635.020, or 28A.635.060 within a three-year period; or
(d) Behavior that adversely impacts the health or safety of other students or educational staff.

(7) Except as provided in RCW 28A.600.420, school districts are not required to impose long-term suspension or expulsion for behavior that constitutes a violation or offense listed under subsection (6)(a) through (d) of this section and should first consider alternative actions.

(8) School districts may not suspend the provision of educational services to a student as a disciplinary action. A student may be excluded from a particular classroom or instructional or activity area for the period of suspension or expulsion, but the school district must provide an opportunity for a student to receive educational services during a period of suspension or expulsion.

(9) Nothing in this section creates any civil liability for school districts, or creates a new cause of action or new theory of negligence against a school district board of directors, a school district, or the state.

RCW 28A.600.020. Exclusion of student from classroom - Written disciplinary procedures - Long-term suspension or expulsion.

(6) Any corrective action involving a suspension or expulsion from school for more than ten days must have an end date of not more than the length of an academic term, as defined by the school board, from the time of corrective action. Districts shall make reasonable efforts to assist students and parents in returning to an educational setting prior to and no later than the end date of the corrective action. Where warranted based on public health or safety, a school may petition the superintendent of the school district, pursuant to policies and procedures adopted by the office of the superintendent of public instruction, for authorization to exceed the academic term limitation provided in this subsection. The superintendent of public instruction shall adopt rules outlining the limited circumstances in which a school may petition to exceed the academic term limitation, including safeguards to ensure that the school district has made every effort to plan for the student's return to school. School districts shall report to the office of the superintendent of public instruction the number of petitions made to the school board and the number of petitions granted on an annual basis.

RCW 28A.635.060. Defacing or injuring school property - Liability of pupil, parent, or guardian - Withholding grades, diploma, or transcripts - Suspension and restitution - Voluntary work program as alternative - Rights protected.

(1) Any pupil who defaces or otherwise injures any school property, or property belonging to a school contractor, employee, or another student, may be subject to suspension and punishment. If any property of the school district, a contractor of the district, an employee, or another student has been lost or willfully cut, defaced, or injured, the school district may withhold the diploma, but not the grades or transcripts, of the student responsible for the damage or loss until the student or the student's parent or guardian has paid for the damages. When the student and parent or guardian are unable to pay for the damages, the school district shall provide a program of community service for the student in lieu of the payment of monetary damages. Upon completion of community service the diploma of the student must be released. The parent or guardian of the student shall be liable for damages as otherwise provided by law.

(2) Before the diploma is withheld under this section, a school district board of directors shall adopt procedures which insure that students' rights to due process are protected.

The legislature finds that illegal drug activity and weapons in schools threaten the safety and welfare of school children and pose a severe threat to the state educational system. School officials need authority
to maintain order and discipline in schools and to protect students from exposure to illegal drugs, weapons, and contraband. Searches of school-issued lockers and the contents of those lockers is a reasonable and necessary tool to protect the interests of the students of the state as a whole.

**RCW 28A.600.220. School locker searches - No expectation of privacy.**

No right nor expectation of privacy exists for any student as to the use of any locker issued or assigned to a student by a school and the locker shall be subject to search for illegal drugs, weapons, and contraband as provided in RCW 28A.600.210 through 28A.600.240.

A search is mandatory if there are reasonable grounds to suspect a student has illegally possessed a firearm in violation of RCW 9.41.280.

(2) Except as provided in subsection (3) of this section, the scope of the search is proper if the search is conducted as follows:

(a) The methods used are reasonably related to the objectives of the search; and

(b) Is not excessively intrusive in light of the age and sex of the student and the nature of the suspected infraction.

(3) A principal or vice principal or anyone acting under their direction may not subject a student to a strip search or body cavity search as those terms are defined in RCW 10.79.070.

The superintendent of the school district, educational service district, or state school for the blind, or the director of the Washington center for deaf and hard of hearing youth, or the director's designee, may modify the expulsion of a student on a case-by-case basis.

(2) For purposes of this section, "firearm" means a firearm as defined in 18 U.S.C. Sec. 921, and a "firearm" as defined in RCW 9.41.010.

(3) This section shall be construed in a manner consistent with the individuals with disabilities education act, 20 U.S.C. Sec. 1401 et seq.

(4) Nothing in this section prevents a public school district, educational service district, the Washington center for deaf and hard of hearing youth, or the state school for the blind if it has expelled a student from such student's regular school setting from providing educational services to the student in an alternative setting.

(5) This section does not apply to:

(6) A school district may suspend or expel a student for up to one year subject to subsections (1), (3), (4), and (5) of this section, if the student acts with malice as defined under RCW 9A.04.110 and displays an instrument that appears to be a firearm, on public elementary or secondary school premises, public school-provided transportation, or areas of facilities while being used exclusively by public schools.

REGULATIONS

WAC 392-400-820. Firearm exceptions.

(2) Eligible students include students who are likely to be expelled or who are enrolled in the school district but have been suspended, are academically at risk, or who have been subject to repeated disciplinary actions due to behavioral problems.
(3) If a school district board of directors chooses to initiate specialized programs for students at risk of expulsion or who are failing academically by contracting out with alternative educational service providers identified in subsection (1) of this section, the school district board of directors and the organization must specify the specific learning standards that students are expected to achieve. Placement of the student shall be jointly determined by the school district, the student's parent or legal guardian, and the alternative educational service provider.

(4) For the purpose of this section, the superintendent of public instruction shall adopt rules for reporting and documenting enrollment. Students may reenter at the grade level appropriate to the student's ability. (5) The board of directors of school districts may require that students who would otherwise be suspended or expelled attend schools or programs listed in subsection (1) of this section as a condition of continued enrollment in the school district.

**RCW 28A.600.020. Exclusion of student from classroom - Written disciplinary procedures - Long-term suspension or expulsion.**

**LAWS**

**RCW 28A.225.005. Information for students and parents.**

(1) Each school within a school district shall inform the students and the parents of the students enrolled in the school about: The benefits of regular school attendance; the potential effects of excessive absenteeism, whether excused or unexcused, on academic achievement, and graduation and dropout rates; the school's expectations of the parents and guardians to ensure regular school attendance by the child; the resources available to assist the child and the parents and guardians; the role and responsibilities of the school; and the consequences of truancy, including the compulsory education requirements under this chapter. The school shall provide access to the information before or at the time of enrollment of the child at a new school and at the beginning of each school year. If the school regularly and ordinarily communicates most other information to parents online, providing online access to the information required by this section satisfies the requirements of this section unless a parent or guardian specifically requests information to be provided in written form. Reasonable efforts must be made to enable parents to request and receive the information in a language in which they are fluent. A parent
must date and acknowledge review of this information online or in writing before or at the time of enrollment of the child at a new school and at the beginning of each school year.

**RCW 28A.225.015. Attendance mandatory - Six or seven years olds - Unexcused absences - Petition.**

(1) If a parent enrolls a child who is six or seven years of age in a public school, the child is required to attend and that parent has the responsibility to ensure the child attends for the full time that school is in session. An exception shall be made to this requirement for children whose parents formally remove them from enrollment if the child is less than eight years old and a petition has not been filed against the parent under subsection (3) of this section. The requirement to attend school under this subsection does not apply to a child enrolled in a public school part-time for the purpose of receiving ancillary services. A child required to attend school under this subsection may be temporarily excused upon the request of his or her parent for purposes agreed upon by the school district and parent.

(2) If a six or seven year old child is required to attend public school under subsection (1) of this section and that child has unexcused absences, the public school in which the child is enrolled shall:

   (a) Inform the child's custodial parent, parents, or guardian by a notice in writing or by telephone whenever the child has failed to attend school after one unexcused absence within any month during the current school year;

   (b) Request a conference or conferences with the custodial parent, parents, or guardian and child at a time reasonably convenient for all persons included for the purpose of analyzing the causes of the child's absences after three unexcused absences within any month during the current school year. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the third unexcused absence, then the school district may schedule this conference on that day; and

   (c) Take steps to eliminate or reduce the child's absences. These steps shall include, where appropriate, adjusting the child's school program or school or course assignment, providing more individualized or remedial instruction, offering assistance in enrolling the child in available alternative schools or programs, or assisting the parent or child to obtain supplementary services that may help eliminate or ameliorate the cause or causes for the absence from school.

(3) If a child is required to attend public school under subsection (1) of this section, after the child's seventh unexcused absence within any month during the current school year and not later than the 15th unexcused absence during the current school year, the school district shall file a petition for civil action as provided in RCW 28A.225.035 against the parent of the child.

(4) This section does not require a six or seven year old child to enroll in a public or private school or to receive home-based instruction. This section only applies to six or seven year old children whose parents enroll them full time in public school and do not formally remove them from enrollment as provided in subsection (1) of this section.

**RCW 28A.225.018. Conferences to identify barriers to child's school attendance.**

(1) Except as provided in subsection (2) of this section, in the event that a child in elementary school is required to attend school under RCW 28A.225.010 or 28A.225.015(1) and has five or more excused absences in a single month during the current school year, or ten or more excused absences in the current school year, the school district shall schedule a conference or conferences with the parent and child at a time reasonably convenient for all persons included for the purpose of identifying the barriers to the child's regular attendance, and the supports and resources that may be made available to the family so that the child is able to regularly attend school. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the absences, the school district may schedule this conference on that day. To satisfy the requirements of this section, the conference must include at least one school
district employee such as a nurse, counselor, social worker, teacher, or community human services provider, except in those instances regarding the attendance of a child who has an individualized education program or a plan developed under section 504 of the rehabilitation act of 1973, in which case the reconvening of the team that created the program or plan is required.

(2) A conference pursuant to subsection (1) of this section is not required in the event of excused absences for which prior notice has been given to the school or a doctor's note has been provided and an academic plan is put in place so that the child does not fall behind.

RCW 28A.225.020. School's duties upon child's failure to attend school.

(1) If a child required to attend school under RCW 28A.225.010 fails to attend school without valid justification, the public school in which the child is enrolled shall:

(a) Inform the child's parent by a notice in writing or by telephone whenever the child has failed to attend school after one unexcused absence within any month during the current school year. School officials shall inform the parent of the potential consequences of additional unexcused absences. If the parent is not fluent in English, the school must make reasonable efforts to provide this information in a language in which the parent is fluent;

(b) Schedule a conference or conferences with the parent and child at a time reasonably convenient for all persons included for the purpose of analyzing the causes of the child's absences after three unexcused absences within any month during the current school year. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the third unexcused absence, then the school district may schedule this conference on that day. If the child's parent does not attend the scheduled conference, the conference may be conducted with the student and school official. However the parent shall be notified of the steps to be taken to eliminate or reduce the child's absence; and

(c) At some point after the second and before the seventh unexcused absence, take data-informed steps to eliminate or reduce the child's absences.

(i) In middle school and high school, these steps must include application of the Washington assessment of the risks and needs of students (WARNS) or other assessment by a school district's designee under RCW 28A.225.026.

(ii) For any child with an existing individualized education plan or 504 plan, these steps must include the convening of the child's individualized education plan or 504 plan team, including a behavior specialist or mental health specialist where appropriate, to consider the reasons for the absences. If necessary, and if consent from the parent is given, a functional behavior assessment to explore the function of the absence behavior shall be conducted and a detailed behavior plan completed. Time should be allowed for the behavior plan to be initiated and data tracked to determine progress.

(iii) With respect to any child, without an existing individualized education plan or 504 plan, reasonably believed to have a mental or physical disability or impairment, these steps must include informing the child's parent of the right to obtain an appropriate evaluation at no cost to the parent to determine whether the child has a disability or impairment and needs accommodations, related services, or special education services. This includes children with suspected emotional or behavioral disabilities as defined in WAC 392-172A-01035. If the school obtains consent to conduct an evaluation, time should be allowed for the evaluation to be completed, and if the child is found to be eligible for special education services, accommodations, or related services, a plan developed to address the child's needs.

(iv) These steps must include, where appropriate, providing an available approved best practice or research-based intervention, or both, consistent with the WARNS profile or other assessment, if an assessment was applied, adjusting the child's school program or school or course assignment, providing more individualized or remedial instruction, providing appropriate vocational courses or
work experience, referring the child to a community engagement board, requiring the child to attend
an alternative school or program, or assisting the parent or child to obtain supplementary services
that might eliminate or ameliorate the cause or causes for the absence from school.

(2) For purposes of this chapter, an "unexcused absence" means that a child:

(a)(i) Has failed to attend the majority of hours or periods in an average school day or has failed to
    comply with a more restrictive school district policy; and

    (ii) Has failed to meet the school district's policy for excused absences; or

(b) Has failed to comply with alternative learning experience program attendance requirements as
described by the superintendent of public instruction.

(3) If a child transfers from one school district to another during the school year, the receiving school or
school district shall include the unexcused absences accumulated at the previous school or from the
previous school district for purposes of this section, RCW 28A.225.030, and 28A.225.015. The sending
school district shall provide this information to the receiving school, together with a copy of any previous
assessment as required under subsection (1)(c) of this section, history of any best practices or
researched-based intervention previously provided to the child by the child's sending school district, and a
copy of the most recent truancy information including any online or written acknowledgment by the parent
and child, as provided for in RCW 28A.225.005. All school districts must use the standard choice transfer
form for releasing a student to a nonresident school district for the purposes of accessing an alternative
learning experience program.

RCW 28A.225.023. Youth dependent pursuant to chapter 13.34 RCW - Review of unexpected or
excessive absences - Support for youth's school work.

A school district representative or school employee shall review unexpected or excessive absences with
a youth who is dependent pursuant to chapter 13.34 RCW and adults involved with that youth, to include
the youth's caseworker, educational liaison, attorney if one is appointed, parent or guardians, and foster
parents or the person providing placement for the youth. The purpose of the review is to determine the
cause of the absences, taking into account: Unplanned school transitions, periods of running from care,
inpatient treatment, incarceration, school adjustment, educational gaps, psychosocial issues, and
unavoidable appointments during the school day. A school district representative or a school employee
must proactively support the youth's school work so the student does not fall behind and to avoid
suspension or expulsion based on truancy.

(1) For purposes of this chapter, "community engagement board" means a board established pursuant to
a memorandum of understanding between a juvenile court and a school district and composed of
members of the local community in which the child attends school. Community engagement boards must
include members who receive training regarding the identification of barriers to school attendance, the
use of the Washington assessment of the risks and needs of students (WARNS) or other assessment
tools to identify the specific needs of individual children, cultural responsive interactions, trauma-informed
approaches to discipline, evidence-based treatments that have been found effective in supporting at-risk
youth and their families, and the specific services and treatment available in the particular school, court,
community, and elsewhere. Duties of a community engagement board shall include, but not be limited to:
Identifying barriers to school attendance, recommending methods for improving attendance such as
connecting students and their families with community services, culturally appropriate promising
practices, and evidence-based services such as functional family therapy, suggesting to the school
district that the child enroll in another school, an alternative education program, an education center, a
skill center, a dropout prevention program, or another public or private educational program, or
recommending to the juvenile court that a juvenile be offered the opportunity for placement in a HOPE center or crisis residential center, if appropriate.

(2) The legislature finds that utilization of community engagement boards is the preferred means of intervention when preliminary methods to eliminate or reduce unexcused absences as required by RCW 28A.225.020 have not been effective in securing the child's attendance at school. The legislature intends to encourage and support the development and expansion of community engagement boards. Operation of a school engagement board does not excuse a district from the obligation of filing a petition within the requirements of RCW 28A.225.015(3).

RCW 28A.225.026. Community engagement boards - Memoranda of understanding with juvenile courts
- Designation of school district coordinators to address absenteeism and truancy - Community-wide partnerships.

(1) By the beginning of the 2017-18 school year, juvenile courts must establish, through a memorandum of understanding with each school district within their respective counties, a coordinated and collaborative approach to address truancy through the establishment of a community engagement board or, with respect to certain small districts, through other means as provided in subsection (3) of this section.

(2) Except as provided in subsection (3) of this section, each school district must enter into a memorandum of understanding with the juvenile court in the county in which it is located with respect to the operation of a community engagement board. A community engagement board may be operated by a juvenile court, a school district, or a collaboration between both entities, so long as the agreement is memorialized in a memorandum of understanding. For a school district that is located in more than one county, the memorandum of understanding shall be with the juvenile court in the county that acts as the school district's treasurer.

(3) A school district with fewer than three hundred students must enter into a memorandum of understanding with the juvenile court in the county in which it is located with respect to: (a) The operation of a community engagement board; or (b) addressing truancy through other coordinated means of intervention aimed at identifying barriers to school attendance, and connecting students and their families with community services, culturally appropriate promising practices, and evidence-based services such as functional family therapy. School districts with fewer than three hundred students may work cooperatively with other school districts or the school district's educational service district to ensure access to a community engagement board or to provide other coordinated means of intervention.

(4) All school districts must designate, and identify to the local juvenile court and to the office of the superintendent of public instruction, a person or persons to coordinate school district efforts to address excessive absenteeism and truancy, including tasks associated with: Outreach and conferences pursuant to RCW 28A.225.018; entering into a memorandum of understanding with the juvenile court; establishing protocols and procedures with the court; coordinating trainings; sharing evidence-based and culturally appropriate promising practices; identifying a person within every school to serve as a contact with respect to excessive absenteeism and truancy; and assisting in the recruitment of community engagement board members.

(5) As has been demonstrated by school districts and county juvenile courts around the state that have worked together and led the way with community engagement boards, success has resulted from involving the entire community and leveraging existing dollars from a variety of sources, including public and private, local and state, and court, school, and community. In emulating this coordinated and collaborative approach statewide pursuant to local memoranda of understanding, courts and school districts are encouraged to create strong community-wide partnerships and to leverage existing dollars and resources.

(1) By requiring an initial stay of truancy petitions for diversion to community engagement boards, the legislature intends to achieve the following outcomes:

(a) Increased access to community engagement boards and other truancy early intervention programs for parents and children throughout the state;

(b) Increased quantity and quality of truancy intervention and prevention efforts in the community;

(c) A reduction in the number of truancy petitions that result in further proceedings by juvenile courts, other than dismissal of the petition, after the initial stay and diversion to a community engagement board;

(d) A reduction in the number of truancy petitions that result in a civil contempt proceeding or detention order; and

(e) Increased school attendance.

(2) No later than January 1, 2021, the Washington state institute for public policy is directed to evaluate the effectiveness of chapter 205, Laws of 2016. An initial report scoping of the methodology to be used to review chapter 205, Laws of 2016 shall be submitted to the fiscal committees of the legislature by January 1, 2018. The initial report must identify any data gaps that could hinder the ability of the institute to conduct its review.

(1) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall allocate to community engagement boards grant funds that may be used to supplement existing funds in order to pay for training for board members or the provision of services and treatment to children and their families.

(2) The superintendent of public instruction must select grant recipients based on the criteria in this section. This is a competitive grant process. A prerequisite to applying for either or both grants is a memorandum of understanding, between a school district and a court, to institute a new or maintain an existing community engagement board that meets the requirements of RCW 28A.225.025.

(3) Successful applicants for an award of grant funds to supplement existing funds to pay for the training of community engagement board members must commit to the provision of training to board members regarding the identification of barriers to school attendance, the use of the Washington assessment of the risks and needs of students (WARNS) or other assessment tools to identify the specific needs of individual children, trauma-informed approaches to discipline, research about adverse childhood experiences, evidence-based treatments and culturally appropriate promising practices, as well as the specific academic and community services and treatments available in the school, court, community, and elsewhere. This training may be provided by educational service districts.

(4) Successful applicants for an award of grant funds to supplement existing funds to pay for services and treatments provided to children and their families must commit to the provision of academic services such as tutoring, credit retrieval and school reengagement supports, community services, and evidence-based treatments that have been found to be effective in supporting at-risk youth and their families, such as functional family therapy, or those that have been shown to be culturally appropriate promising practices.

RCW 28A.225.030. Petition to juvenile court for violations by a parent or child - School district responsibilities.

(1) If a child under the age of seventeen is required to attend school under RCW 28A.225.010 and if the actions taken by a school district under RCW 28A.225.020 are not successful in substantially reducing an
enrolled student's absences from public school, after the child's seventh unexcused absence within any month during the current school year and not later than the 15th unexcused absence during the current school year the school district shall file a petition and supporting affidavit for a civil action with the juvenile court alleging a violation of RCW 28A.225.010: (a) By the parent; (b) by the child; or (c) by the parent and the child. The petition must include a list of all interventions that have been attempted as set forth in RCW 28A.225.020, include a copy of any previous truancy assessment completed by the child's current school district, the history of approved best practices intervention or research-based intervention previously provided to the child by the child's current school district, and a copy of the most recent truancy information document provided to the parent, pursuant to RCW 28A.225.005. Except as provided in this subsection, no additional documents need be filed with the petition. Nothing in this subsection requires court jurisdiction to terminate when a child turns seventeen or precludes a school district from filing a petition for a child that is seventeen years of age.

(2) The district shall not later than the seventh unexcused absence in a month:
   (a) Enter into an agreement with a student and parent that establishes school attendance requirements;
   (b) Refer a student to a community engagement board as defined in RCW 28A.225.025. The community engagement board shall enter into an agreement with the student and parent that establishes school attendance requirements and take other appropriate actions to reduce the child's absences; or
   (c) File a petition under subsection (1) of this section.

(3) The petition may be filed by a school district employee who is not an attorney.

(4) If the school district fails to file a petition under this section, the parent of a child with seven or more unexcused absences in any month during the current school year or upon the 15th unexcused absence during the current school year may file a petition with the juvenile court alleging a violation of RCW 28A.225.010.

(5) Petitions filed under this section may be served by certified mail, return receipt requested. If such service is unsuccessful, or the return receipt is not signed by the addressee, personal service is required.

RCW 28A.225.035. Petition to juvenile court - Contents - Court action - Referral to community engagement board or other coordinated intervention - Transfer of jurisdiction upon relocation.

(1) A petition for a civil action under RCW 28A.225.030 or 28A.225.015 shall consist of a written notification to the court alleging that:
   (a) The child has unexcused absences as described in RCW 28A.225.030(1) during the current school year;
   (b) Actions taken by the school district have not been successful in substantially reducing the child's absences from school; and
   (c) Court intervention and supervision are necessary to assist the school district or parent to reduce the child's absences from school.

(2) The petition shall set forth the name, date of birth, school, address, gender, race, and ethnicity of the child and the names and addresses of the child's parents, and shall set forth the languages in which the child and parent are fluent, whether there is an existing individualized education program, and the child's current academic status in school.

(3) The petition shall set forth facts that support the allegations in this section and shall generally request relief available under this chapter and provide information about what the court might order under RCW 28A.225.090.

(4)(a) When a petition is filed under RCW 28A.225.030 or 28A.225.015, it shall initially be stayed by the juvenile court, and the child and the child's parent must be referred to a community engagement board or other
coordinated means of intervention as set forth in the memorandum of understanding under RCW 28A.225.026. The community engagement board must provide to the court a description of the intervention and prevention efforts to be employed to substantially reduce the child's unexcused absences, along with a timeline for completion.

(b) If a community engagement board or other coordinated means of intervention is not in place as required by RCW 28A.225.026, the juvenile court shall schedule a hearing at which the court shall consider the petition.

(5) When a referral is made to a community engagement board, the engagement board must meet with the child, a parent, and the school district representative and enter into an agreement with the petitioner and respondent regarding expectations and any actions necessary to address the child's truancy within twenty days of the referral. If the petition is based on RCW 28A.225.015, the child shall not be required to attend and the agreement under this subsection shall be between the engagement board, the school district, and the child's parent. The court may permit the engagement board or truancy prevention counselor to provide continued supervision over the student, or parent if the petition is based on RCW 28A.225.015.

(6) If the community engagement board fails to reach an agreement, or the parent or student does not comply with the agreement within the timeline for completion set by the community engagement board, the community engagement board shall return the case to the juvenile court. The stay of the petition shall be lifted, and the community engagement board shall inform the court of the return of the case. The court shall then schedule a hearing at which the court shall consider the petition.

(7)(a) Notwithstanding the provisions in subsection (4)(a) of this section, a hearing shall not be required if other actions by the court would substantially reduce the child's unexcused absences. Such actions may include referral to an existing community engagement board, use of the Washington assessment of risks and needs of students (WARNS) or other assessment tools to identify the specific needs of individual children, the provision of community-based services, and the provision of evidence-based treatments that have been found to be effective in supporting at-risk youth and their families. When a juvenile court hearing is held, the court shall:

(i) Separately notify the child, the parent of the child, and the school district of the hearing. If the parent is not fluent in English, notice should be provided in a language in which the parent is fluent as indicated on the petition pursuant to RCW 28A.225.030(1);
(ii) Notify the parent and the child of their rights to present evidence at the hearing; and
(iii) Notify the parent and the child of the options and rights available under chapter 13.32A RCW.

(b) If the child is not provided with counsel, the advisement of rights must take place in court by means of a colloquy between the court, the child if eight years old or older, and the parent.

(8)(a) The court may require the attendance of the child if eight years old or older, the parents, and the school district at any hearing on a petition filed under RCW 28A.225.030.

(b) The court may not issue a bench warrant for a child for failure to appear at a hearing on an initial truancy petition filed under RCW 28A.225.030. If there has been proper service, the court may instead enter a default order assuming jurisdiction under the terms specified in subsection (12) of this section.

(9) A school district is responsible for determining who shall represent the school district at hearings on a petition filed under RCW 28A.225.030 or 28A.225.015.

(10) The court may permit the first hearing to be held without requiring that either party be represented by legal counsel, and to be held without a guardian ad litem for the child under RCW 4.08.050. At the request of the school district, the court shall permit a school district representative who is not an attorney to represent the school district at any future hearings.

(11) If the child is in a special education program or has a diagnosed mental or emotional disorder, the court shall inquire as to what efforts the school district has made to assist the child in attending school.
(12) If the allegations in the petition are established by a preponderance of the evidence, the court shall grant the petition and enter an order assuming jurisdiction to intervene for the period of time determined by the court, after considering the facts alleged in the petition and the circumstances of the juvenile, to most likely cause the juvenile to return to and remain in school while the juvenile is subject to this chapter. In no case may the order expire before the end of the school year in which it is entered.

(13)(a) If the court assumes jurisdiction, the school district shall periodically report to the court any additional unexcused absences by the child, actions taken by the school district, and an update on the child's academic status in school at a schedule specified by the court.

(b) The first report under this subsection (13) must be received no later than three months from the date that the court assumes jurisdiction.

(14) Community engagement boards and the courts shall coordinate, to the extent possible, proceedings and actions pertaining to children who are subject to truancy petitions and at-risk youth petitions in RCW 13.32A.191 or child in need of services petitions in RCW 13.32A.140.

(15) If after a juvenile court assumes jurisdiction in one county the child relocates to another county, the juvenile court in the receiving county shall, upon the request of a school district or parent, assume jurisdiction of the petition filed in the previous county.

RCW 28A.225.060. Custody and disposition of child absent from school without excuse.

Any school district official, sheriff, deputy sheriff, marshal, police officer, or any other officer authorized to make arrests, may take into custody without a warrant a child who is required under the provisions of RCW 28A.225.010 through 28A.225.140 to attend school and is absent from school without an approved excuse, and shall deliver the child to: (1) The custody of a person in parental relation to the child; (2) the school from which the child is absent; or (3) a program designated by the school district.

RCW 28A.225.090. Court orders - Penalties - Parents' defense.

(1) A court may order a child subject to a petition under RCW 28A.225.035 to do one or more of the following:

(a) Attend the child's current school, and set forth minimum attendance requirements, which shall not consider a suspension day as an unexcused absence;

(b) If there is space available and the program can provide educational services appropriate for the child, order the child to attend another public school, an alternative education program, center, a skill center, dropout prevention program, or another public educational program;

(c) Attend a private nonsectarian school or program including an education center. Before ordering a child to attend an approved or certified private nonsectarian school or program, the court shall: (i) Consider the public and private programs available; (ii) find that placement is in the best interest of the child; and (iii) find that the private school or program is willing to accept the child and will not charge any fees in addition to those established by contract with the student's school district. If the court orders the child to enroll in a private school or program, the child's school district shall contract with the school or program to provide educational services for the child. The school district shall not be required to contract for a weekly rate that exceeds the state general apportionment dollars calculated on a weekly basis generated by the child and received by the district. A school district shall not be required to enter into a contract that is longer than the remainder of the school year. A school district shall not be required to enter into or continue a contract if the child is no longer enrolled in the district;

(d) Submit to a substance abuse assessment if the court finds on the record that such assessment is appropriate to the circumstances and behavior of the child and will facilitate the child's compliance with the mandatory attendance law and, if any assessment, including a urinalysis test ordered under this subsection indicates the use of controlled substances or alcohol, order the minor to abstain from the
unlawful consumption of controlled substances or alcohol and adhere to the recommendations of the substance abuse assessment at no expense to the school; or

(e) Submit to a mental health evaluation or other diagnostic evaluation and adhere to the recommendations of the drug assessment, at no expense to the school, if the court finds on the court records that such evaluation is appropriate to the circumstances and behavior of the child, and will facilitate the child's compliance with the mandatory attendance law.

(2) If the child fails to comply with the court order, the court may impose:

(a) Community restitution;

(b) Nonresidential programs with intensive wraparound services;

(c) A requirement that the child meet with a mentor for a specified number of times; or

(d) Other services and interventions that the court deems appropriate.

(3) Any parent violating any of the provisions of either RCW 28A.225.010, 28A.225.015, or 28A.225.080 shall be fined not more than twenty-five dollars for each day of unexcused absence from school. The court shall remit fifty percent of the fine collected under this section to the child's school district. It shall be a defense for a parent charged with violating RCW 28A.225.010 to show that he or she exercised reasonable diligence in attempting to cause a child in his or her custody to attend school or that the child's school did not perform its duties as required in RCW 28A.225.020. The court may order the parent to provide community restitution instead of imposing a fine. Any fine imposed pursuant to this section may be suspended upon the condition that a parent charged with violating RCW 28A.225.010 shall participate with the school and the child in a supervised plan for the child's attendance at school or upon condition that the parent attend a conference or conferences scheduled by a school for the purpose of analyzing the causes of a child's absence.

(4) If a child continues to be truant after entering into a court-approved order with the community engagement board under RCW 28A.225.035, the juvenile court shall find the child in contempt, and the court may impose alternatives to detention consistent with best practice models for reengagement with school.

(5) Nothing in this section shall be construed to limit the court's inherent contempt power or curtail its exercise.

(6) Subsections (1), (2), and (4) of this section shall not apply to a six or seven year old child required to attend public school under RCW 28A.225.015.

**RCW 28A.225.151. Student-level truancy data - Reports - Data protocols and guidance for school districts.**

(1) As required under subsection (2) of this section, the office of superintendent of public instruction shall collect and school districts shall submit student-level truancy data in order to allow a better understanding of actions taken under RCW 28A.225.030. The office shall prepare an annual report to the legislature by December 15th of each year.

(2) The reports under subsection (1) of this section shall include, disaggregated by student group:

(a) The number of enrolled students and the number of unexcused absences;

(b) The number of enrolled students with 15 or more unexcused absences in a school year or seven or more unexcused absences in a month during a school year;

(c) A description of any programs or schools developed to serve students who have had seven or more unexcused absences in a month or 15 in a year including information about the number of students in the program or school and the number of unexcused absences of students during and after participation...
in the program. The school district shall also describe any placements in an approved private nonsectarian school or program or certified program under a court order under RCW 28A.225.090;
(d) The number of petitions filed by a school district with the juvenile court and, beginning in the 2018-19 school year, whether the petition results in:
   (i) Referral to a community engagement board;
   (ii) Other coordinated means of intervention;
   (iii) A hearing in the juvenile court; or
   (iv) Other less restrictive disposition (e.g., change of placement, home school, alternative learning experience, residential treatment); and
(e) Each instance of imposition of detention for failure to comply with a court order under RCW 28A.225.090, with a statement of the reasons for each instance of detention.

(3) A report required under this section shall not disclose the name or other identification of a child or parent.

(4) The K-12 data governance group shall develop the data protocols and guidance for school districts in the collection of data to provide a clearer understanding of actions taken under RCW 28A.225.030.

RCW 28A.300.046. "Student absence from school" - Rules - Collection of attendance and discipline data.
(1)(a) The superintendent of public instruction shall adopt rules establishing a standard definition of student absence from school. In adopting the definition, the superintendent shall review current practices in Washington school districts, definitions used in other states, and any national standards or definitions used by the national center for education statistics or other national groups. The superintendent shall also consult with the building bridges work group established under RCW 28A.175.075.
   (b) Using the definition of student absence adopted under this section, the superintendent shall establish an indicator for measuring student attendance in high schools for purposes of the PASS program under RCW 28A.175.130.
(2)(a) The K-12 data governance group under RCW 28A.300.507 shall establish the parameters and an implementation schedule for statewide collection through the comprehensive education and data research system of:
   (i) Student attendance data using the definitions of student absence adopted under this section; and
   (ii) Student discipline data with a focus on suspensions and expulsions from school.
   (b) Student suspension and expulsion data collected for the purposes of this subsection (2) must be:
      (i) Made publicly available and easily accessible on the superintendent of public instruction's web site; and
      (ii) Disaggregated and cross-tabulated as established under RCW 28A.300.042.
   (c) School districts must collect and submit student attendance data and student discipline data for high school students through the comprehensive education and data research system for purposes of the PASS program under RCW 28A.175.130 beginning in the 2012-13 school year.

REGULATIONS
WAC 392-400-430. Suspensions and expulsions - General conditions and limitations.
A school district may administer suspensions and expulsions for behavioral violations, subject to the following requirements:
(6) Absences and tardiness. A school district may not suspend or expel a student from school for absences or tardiness.

Substance Use

LAWS

RCW 28A.170.050. Advisory committee - Members - Duties.
The superintendent of public instruction shall appoint a substance abuse advisory committee comprised of: Representatives of certificated and classified staff; administrators; parents; students; school directors; the bureau of alcohol and substance abuse within the department of social and health services; the traffic safety commission; and county coordinators of alcohol and drug treatment. The committee shall advise the superintendent on matters of local program development, coordination, and evaluation.

RCW 28A.170.075. Findings - Intent.
(1) The legislature finds that the provision of drug and alcohol counseling and related prevention and intervention services in schools will enhance the classroom environment for students and teachers, and better enable students to realize their academic and personal potentials.
(2) The legislature finds that it is essential that resources be made available to school districts to provide early drug and alcohol prevention and intervention services to students and their families; to assist in referrals to treatment providers; and to strengthen the transition back to school for students who have had problems of drug and alcohol abuse.
(3) Substance abuse awareness programs funded under this chapter do not fall within the definition of basic education for purposes of Article IX of the state Constitution and the state's funding duty thereunder.
(4) The legislature intends to provide grants for drug and alcohol abuse prevention and intervention in schools, targeted to those schools with the highest concentrations of students at risk.

(1) Grants provided under RCW 28A.170.090 may be used solely for services provided by a substance abuse intervention specialist or for dedicated staff time for counseling and intervention services provided by any school district certificated employee who has been trained by and has access to consultation with a substance abuse intervention specialist. Services shall be directed at assisting students in kindergarten through twelfth grade in overcoming problems of drug and alcohol abuse, and in preventing abuse and addiction to such substances, including nicotine. The grants shall require local matching funds so that the grant amounts support a maximum of eighty percent of the costs of the services funded. The services of a substance abuse intervention specialist may be obtained by means of a contract with a state or community services agency or a drug treatment center. Services provided by a substance abuse intervention specialist may include:
   (a) Individual and family counseling, including preventive counseling;
   (b) Assessment and referral for treatment;
   (c) Referral to peer support groups;
   (d) Aftercare;
   (e) Development and supervision of student mentor programs;
   (f) Staff training, including training in the identification of high-risk children and effective interaction with those children in the classroom; and
(g) Development and coordination of school drug and alcohol core teams, involving staff, students, parents, and community members.

(2) For the purposes of this section, "substance abuse intervention specialist" means any one of the following, except that diagnosis and assessment, counseling and aftercare specifically identified with treatment of chemical dependency shall be performed only by personnel who meet the same qualifications as are required of a qualified chemical dependency counselor employed by an alcoholism or drug treatment program approved by the department of social and health services.

(a) An educational staff associate employed by a school district or educational service district who holds certification as a school counselor, school psychologist, school nurse, or school social worker under Washington professional educator standards board rules adopted pursuant to RCW 28A.410.210;

(b) An individual who meets the definition of a qualified drug or alcohol counselor established by the bureau of alcohol and substance abuse;

(c) A qualified professional employed by the department of social and health services;

(d) A psychologist licensed under chapter 18.83 RCW; or

(e) A children's mental health specialist as defined in RCW 71.34.020.

RCW 28A.170.090. Selection of grant recipients - Program rules.

(1) The superintendent of public instruction shall select school districts and cooperatives of school districts to receive grants for drug and alcohol abuse prevention and intervention programs for students in kindergarten through twelfth grade, from funds appropriated by the legislature for this purpose. The minimum annual grant amount per district or cooperative of districts shall be twenty thousand dollars. Factors to be used in selecting proposals for funding and in determining grant awards shall be developed in consultation with the substance abuse advisory committee appointed under RCW 28A.170.050, with the intent of targeting funding to districts with high-risk populations. These factors may include:

(a) Characteristics of the school attendance areas to be served, such as the number of students from low-income families, truancy rates, juvenile justice referrals, and social services caseloads;

(b) The total number of students who would have access to services; and

(c) Participation of community groups and law enforcement agencies in drug and alcohol abuse prevention and intervention activities.

(2) The application procedures for grants under this section shall include provisions for comprehensive planning, establishment of a school and community substance abuse advisory committee, and documentation of the district's needs assessment. Planning and application for grants under this section may be integrated with the development of other substance abuse awareness programs by school districts. School districts shall, to the maximum extent feasible, coordinate the use of grants provided under this section with other funding available for substance abuse awareness programs. School districts should allocate resources giving emphasis to drug and alcohol abuse intervention services for students in grades five through nine. Grants may be used to provide services for students who are enrolled in approved private schools.

(3) School districts receiving grants under this section shall be required to establish a means of accessing formal assessment services for determining treatment needs of students with drug and alcohol problems. The grant applications submitted by districts shall identify the districts' plan for meeting this requirement.

(4) School districts receiving grants under this section shall be required to perform biennial evaluations of their drug and alcohol abuse prevention and intervention programs, and to report on the results of these evaluations to the superintendent of public instruction.

(5) The superintendent of public instruction may adopt rules to implement RCW 28A.170.080 and 28A.170.090.
(1) To protect children in the public schools of this state from exposure to the addictive substance of nicotine, each school district board of directors shall have a written policy mandating a prohibition on the use of all tobacco products on public school property.
(2) The policy in subsection (1) of this section shall include, but not be limited to, a requirement that students and school personnel be notified of the prohibition, the posting of signs prohibiting the use of tobacco products, sanctions for students and school personnel who violate the policy, and a requirement that school district personnel enforce the prohibition. Enforcement policies adopted in the school board policy shall be in addition to the enforcement provisions in RCW 70.160.070.

RCW 28A.320.127. Plan for recognition, screening, and response to emotional or behavioral distress in students, including possible sexual abuse.
(1) Beginning in the 2014-15 school year, each school district must adopt a plan for recognition, initial screening, and response to emotional or behavioral distress in students, including but not limited to indicators of possible substance abuse, violence, youth suicide, and sexual abuse. The school district must annually provide the plan to all district staff.
(2) At a minimum the plan must address:
   (d) Identification and development of partnerships with community organizations and agencies for referral of students to health, mental health, substance abuse, and social support services, including development of at least one memorandum of understanding between the district and such an entity in the community or region.

direct and indirect services to children and their families: Student-level services, interventions, and
instructional supports to develop academic skills; student-level interventions and mental health services to
develop social and life skills; systems-level school-wide practices to promote learning; systems-level
preventive and responsive services; and systems-level family school collaboration services. The three
foundational domains include: Knowledge and skills related to diversity in development and learning;
research and program evaluation; and legal and ethical practice.

providing services that include: Mental health and academic counseling, support for students and parents,
crisis prevention and intervention, professional case management, collaboration with other professionals,
organizations, and community agencies, and advocacy for students and parents. School social workers
work directly with school administrators as well as students and families, at various levels and as part of
an interdisciplinary team in the educational system, including at the building, district, and state level.

**RCW 28A.225.018. Conferences to identify barriers to child's school attendance.**

(1) Except as provided in subsection (2) of this section, in the event that a child in elementary school is required to attend school under RCW 28A.225.010 or 28A.225.015(1) and has five or more excused absences in a single month during the current school year, or ten or more excused absences in the current school year, the school district shall schedule a conference or conferences with the parent and child at a time reasonably convenient for all persons included for the purpose of identifying the barriers to the child's regular attendance, and the supports and resources that may be made available to the family so that the child is able to regularly attend school. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the absences, the school district may schedule this conference on that day. To satisfy the requirements of this section, the conference must include at least one school district employee such as a nurse, counselor, social worker, teacher, or community human services provider, except in those instances regarding the attendance of a child who has an individualized education program or a plan developed under section 504 of the rehabilitation act of 1973, in which case the reconvening of the team that created the program or plan is required.

(2) A conference pursuant to subsection (1) of this section is not required in the event of excused absences for which prior notice has been given to the school or a doctor's note has been provided and an academic plan is put in place so that the child does not fall behind.

**RCW 28A.225.020. School's duties upon child's failure to attend school.**

(1) If a child required to attend school under RCW 28A.225.010 fails to attend school without valid justification, the public school in which the child is enrolled shall:

School officials shall inform the parent of the potential consequences of additional unexcused absences. If the parent is not fluent in English, the school must make reasonable efforts to provide this information in a language in which the parent is fluent;

(b) Schedule a conference or conferences with the parent and child at a time reasonably convenient for all persons included for the purpose of analyzing the causes of the child's absences after three unexcused absences within any month during the current school year. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the third unexcused absence, then the school district may schedule this conference on that day. If the child's parent does not attend the scheduled conference, the conference may be conducted with the student and school official. However the parent shall be notified of the steps to be taken to eliminate or reduce the child's absence.

(7)(a) Notwithstanding the provisions in subsection (4)(a) of this section, a hearing shall not be required if other actions by the court would substantially reduce the child's unexcused absences. Such actions may include referral to an existing community engagement board, use of the Washington assessment of risks and needs of students (WARNs) or other assessment tools to identify the specific needs of individual children, the provision of community-based services, and the provision of evidence-based treatments that have been found to be effective in supporting at-risk youth and their families. When a juvenile court hearing is held, the court shall:

(i) Separately notify the child, the parent of the child, and the school district of the hearing. If the parent is not fluent in English, notice should be provided in a language in which the parent is fluent as indicated on the petition pursuant to RCW 28A.225.030(1);

(ii) Notify the parent and the child of their rights to present evidence at the hearing; and
(iii) Notify the parent and the child of the options and rights available under chapter 13.32A RCW.

School districts must convene a meeting with the student and the student's parents or guardians within twenty days of the student's long-term suspension or expulsion, but no later than five days before the student's enrollment, to discuss a plan to reengage the student in a school program. Families must have access to, provide meaningful input on, and have the opportunity to participate in a culturally sensitive and culturally responsive reengagement plan.

(2) In developing a reengagement plan, school districts should consider shortening the length of time that the student is suspended or expelled, other forms of corrective action, and supportive interventions that aid in the student's academic success and keep the student engaged and on track to graduate. School districts must create a reengagement plan tailored to the student's individual circumstances, including consideration of the incident that led to the student's long-term suspension or expulsion. The plan should aid the student in taking the necessary steps to remedy the situation that led to the student's suspension or expulsion.

A student who commits an offense under one of the chapters enumerated in this section against a student or another school employee, may be expelled or suspended.

(4) Nothing in this section is intended to limit the authority of a school under existing law and rules to expel or suspend a student for misconduct or criminal behavior.

(5) All school districts must collect data on disciplinary actions taken in each school and must record these actions using the statewide student data system, based on the data collection standards established by the office of the superintendent of public instruction and the K-12 data governance group. The information shall be made available to the public, but public release of the data shall not include personally identifiable information including, but not limited to, a student's social security number, name, or address.

REGULATIONS

WAC 392-190-048. Access to course offerings - Student discipline and corrective action.

At least annually, each school district and public charter school must review data on corrective and disciplinary actions taken against students within each school disaggregated by sex, race, limited-English proficiency (i.e., English language learners), and disability, including students protected under Section 504 of the Rehabilitation Act of 1973 and the Individuals with Disabilities Education Act. In reviewing this data, each school district or public charter school must determine whether it has disciplined or applied corrective action to a substantially disproportionate number of students within any of the categories identified in this section. If a school district or public charter school finds that it has disciplined or applied corrective action to a substantially disproportionate number of students who are members of one of the categories identified in this section, the school district or charter school must take prompt action to ensure that the disproportion is not the result of discrimination.

LAWS

(1) For purposes of this chapter, "community engagement board" means a board established pursuant to a memorandum of understanding between a juvenile court and a school district and composed of members of the local community in which the child attends school. Community engagement boards must include members who receive training regarding the identification of barriers to school attendance, the use of the Washington assessment of the risks and needs of students (WARNS) or other assessment tools to identify the specific needs of individual children, cultural responsive interactions, trauma-informed approaches to discipline, evidence-based treatments that have been found effective in supporting at-risk youth and their families, and the specific services and treatment available in the particular school, court, community, and elsewhere. Duties of a community engagement board shall include, but not be limited to: Identifying barriers to school attendance, recommending methods for improving attendance such as connecting students and their families with community services, culturally appropriate promising practices, and evidence-based services such as functional family therapy, suggesting to the school district that the child enroll in another school, an alternative education program, an education center, a skill center, a dropout prevention program, or another public or private educational program, or recommending to the juvenile court that a juvenile be offered the opportunity for placement in a HOPE center or crisis residential center, if appropriate.

RCW 28A.225.026. Community engagement boards - Memoranda of understanding with juvenile courts

- Designation of school district coordinators to address absenteeism and truancy - Community-wide partnerships.

(1) By the beginning of the 2017-18 school year, juvenile courts must establish, through a memorandum of understanding with each school district within their respective counties, a coordinated and collaborative approach to address truancy through the establishment of a community engagement board or, with respect to certain small districts, through other means as provided in subsection (3) of this section.

(2) Except as provided in subsection (3) of this section, each school district must enter into a memorandum of understanding with the juvenile court in the county in which it is located with respect to the operation of a community engagement board. A community engagement board may be operated by a juvenile court, a school district, or a collaboration between both entities, so long as the agreement is memorialized in a memorandum of understanding. For a school district that is located in more than one county, the memorandum of understanding shall be with the juvenile court in the county that acts as the school district's treasurer.

(3) A school district with fewer than three hundred students must enter into a memorandum of understanding with the juvenile court in the county in which it is located with respect to: (a) The operation of a community engagement board; or (b) addressing truancy through other coordinated means of intervention aimed at identifying barriers to school attendance, and connecting students and their families with community services, culturally appropriate promising practices, and evidence-based services such as functional family therapy. School districts with fewer than three hundred students may work cooperatively with other school districts or the school district's educational service district to ensure access to a community engagement board or to provide other coordinated means of intervention.
(4) All school districts must designate, and identify to the local juvenile court and to the office of the superintendent of public instruction, a person or persons to coordinate school district efforts to address excessive absenteeism and truancy, including tasks associated with: Outreach and conferences pursuant to RCW 28A.225.018; entering into a memorandum of understanding with the juvenile court; establishing protocols and procedures with the court; coordinating trainings; sharing evidence-based and culturally appropriate promising practices; identifying a person within every school to serve as a contact with respect to excessive absenteeism and truancy; and assisting in the recruitment of community engagement board members.

(5) As has been demonstrated by school districts and county juvenile courts around the state that have worked together and led the way with community engagement boards, success has resulted from involving the entire community and leveraging existing dollars from a variety of sources, including public and private, local and state, and court, school, and community. In emulating this coordinated and collaborative approach statewide pursuant to local memoranda of understanding, courts and school districts are encouraged to create strong community-wide partnerships and to leverage existing dollars and resources.

(1) By requiring an initial stay of truancy petitions for diversion to community engagement boards, the legislature intends to achieve the following outcomes:

(a) Increased access to community engagement boards and other truancy early intervention programs for parents and children throughout the state;

(b) Increased quantity and quality of truancy intervention and prevention efforts in the community;

(c) A reduction in the number of truancy petitions that result in further proceedings by juvenile courts, other than dismissal of the petition, after the initial stay and diversion to a community engagement board;

(d) A reduction in the number of truancy petitions that result in a civil contempt proceeding or detention order; and

(e) Increased school attendance.

(2) No later than January 1, 2021, the Washington state institute for public policy is directed to evaluate the effectiveness of chapter 205, Laws of 2016. An initial report scoping of the methodology to be used to review chapter 205, Laws of 2016 shall be submitted to the fiscal committees of the legislature by January 1, 2018. The initial report must identify any data gaps that could hinder the ability of the institute to conduct its review.

(1) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall allocate to community engagement boards grant funds that may be used to supplement existing funds in order to pay for training for board members or the provision of services and treatment to children and their families.

(2) The superintendent of public instruction must select grant recipients based on the criteria in this section. This is a competitive grant process. A prerequisite to applying for either or both grants is a memorandum of understanding, between a school district and a court, to institute a new or maintain an existing community engagement board that meets the requirements of RCW 28A.225.025.

(3) Successful applicants for an award of grant funds to supplement existing funds to pay for the training of community engagement board members must commit to the provision of training to board members regarding the identification of barriers to school attendance, the use of the Washington assessment of the risks and needs of students (WARNS) or other assessment tools to identify the specific needs of
individual children, trauma-informed approaches to discipline, research about adverse childhood experiences, evidence-based treatments and culturally appropriate promising practices, as well as the specific academic and community services and treatments available in the school, court, community, and elsewhere. This training may be provided by educational service districts.

(4) Successful applicants for an award of grant funds to supplement existing funds to pay for services and treatments provided to children and their families must commit to the provision of academic services such as tutoring, credit retrieval and school reengagement supports, community services, and evidence-based treatments that have been found to be effective in supporting at-risk youth and their families, such as functional family therapy, or those that have been shown to be culturally appropriate promising practices.

RCW 28A.225.030. Petition to juvenile court for violations by a parent or child - School district responsibilities.

(1) If a child under the age of seventeen is required to attend school under RCW 28A.225.010 and if the actions taken by a school district under RCW 28A.225.020 are not successful in substantially reducing an enrolled student's absences from public school, after the child's seventh unexcused absence within any month during the current school year and not later than the 15th unexcused absence during the current school year the school district shall file a petition and supporting affidavit for a civil action with the juvenile court alleging a violation of RCW 28A.225.010: (a) By the parent; (b) by the child; or (c) by the parent and the child. The petition must include a list of all interventions that have been attempted as set forth in RCW 28A.225.020, include a copy of any previous truancy assessment completed by the child's current school district, the history of approved best practices intervention or research-based intervention previously provided to the child by the child's current school district, and a copy of the most recent truancy information document provided to the parent, pursuant to RCW 28A.225.005. Except as provided in this subsection, no additional documents need be filed with the petition. Nothing in this subsection requires court jurisdiction to terminate when a child turns seventeen or precludes a school district from filing a petition for a child that is seventeen years of age.

(2) The district shall not later than the seventh unexcused absence in a month:

   (a) Enter into an agreement with a student and parent that establishes school attendance requirements;

   (b) Refer a student to a community engagement board as defined in RCW 28A.225.025. The community engagement board shall enter into an agreement with the student and parent that establishes school attendance requirements and take other appropriate actions to reduce the child's absences; or

   (c) File a petition under subsection (1) of this section.

(3) The petition may be filed by a school district employee who is not an attorney.

(4) If the school district fails to file a petition under this section, the parent of a child with seven or more unexcused absences in any month during the current school year or upon the 15th unexcused absence during the current school year may file a petition with the juvenile court alleging a violation of RCW 28A.225.010.

(5) Petitions filed under this section may be served by certified mail, return receipt requested. If such service is unsuccessful, or the return receipt is not signed by the addressee, personal service is required.

RCW 28A.225.035. Petition to juvenile court - Contents - Court action - Referral to community engagement board or other coordinated intervention - Transfer of jurisdiction upon relocation.

(1) A petition for a civil action under RCW 28A.225.030 or 28A.225.015 shall consist of a written notification to the court alleging that:

   (a) The child has unexcused absences as described in RCW 28A.225.030(1) during the current school year;

   (b) Actions taken by the school district have not been successful in substantially reducing the child's absences from school; and
(c) Court intervention and supervision are necessary to assist the school district or parent to reduce the child's absences from school.

(2) The petition shall set forth the name, date of birth, school, address, gender, race, and ethnicity of the child and the names and addresses of the child's parents, and shall set forth the languages in which the child and parent are fluent, whether there is an existing individualized education program, and the child's current academic status in school.

(3) The petition shall set forth facts that support the allegations in this section and shall generally request relief available under this chapter and provide information about what the court might order under RCW 28A.225.090.

(4)(a) When a petition is filed under RCW 28A.225.030 or 28A.225.015, it shall initially be stayed by the juvenile court, and the child and the child's parent must be referred to a community engagement board or other coordinated means of intervention as set forth in the memorandum of understanding under RCW 28A.225.026. The community engagement board must provide to the court a description of the intervention and prevention efforts to be employed to substantially reduce the child's unexcused absences, along with a timeline for completion.

(b) If a community engagement board or other coordinated means of intervention is not in place as required by RCW 28A.225.026, the juvenile court shall schedule a hearing at which the court shall consider the petition.

(5) When a referral is made to a community engagement board, the engagement board must meet with the child, a parent, and the school district representative and enter into an agreement with the petitioner and respondent regarding expectations and any actions necessary to address the child's truancy within twenty days of the referral. If the petition is based on RCW 28A.225.015, the child shall not be required to attend and the agreement under this subsection shall be between the engagement board, the school district, and the child's parent. The court may permit the engagement board or truancy prevention counselor to provide continued supervision over the student, or parent if the petition is based on RCW 28A.225.015.

(6) If the community engagement board fails to reach an agreement, or the parent or student does not comply with the agreement within the timeline for completion set by the community engagement board, the community engagement board shall return the case to the juvenile court. The stay of the petition shall be lifted, and the juvenile court shall schedule a hearing at which the court shall consider the petition.

(7)(a) Notwithstanding the provisions in subsection (4)(a) of this section, a hearing shall not be required if other actions by the court would substantially reduce the child's unexcused absences. Such actions may include referral to an existing community engagement board, use of the Washington assessment of risks and needs of students (WARNS) or other assessment tools to identify the specific needs of individual children, the provision of community-based services, and the provision of evidence-based treatments that have been found to be effective in supporting at-risk youth and their families. When a juvenile court hearing is held, the court shall:

(i) Separately notify the child, the parent of the child, and the school district of the hearing. If the parent is not fluent in English, notice should be provided in a language in which the parent is fluent as indicated on the petition pursuant to RCW 28A.225.030(1);

(ii) Notify the parent and the child of their rights to present evidence at the hearing; and

(iii) Notify the parent and the child of the options and rights available under chapter 13.32A RCW.

(b) If the child is not provided with counsel, the advisement of rights must take place in court by means of a colloquy between the court, the child if eight years old or older, and the parent.
(8)(a) The court may require the attendance of the child if eight years old or older, the parents, and the school district at any hearing on a petition filed under RCW 28A.225.030.

(b) The court may not issue a bench warrant for a child for failure to appear at a hearing on an initial truancy petition filed under RCW 28A.225.030. If there has been proper service, the court may instead enter a default order assuming jurisdiction under the terms specified in subsection (12) of this section.

(9) A school district is responsible for determining who shall represent the school district at hearings on a petition filed under RCW 28A.225.030 or 28A.225.015.

(10) The court may permit the first hearing to be held without requiring that either party be represented by legal counsel, and to be held without a guardian ad litem for the child under RCW 4.08.050. At the request of the school district, the court shall permit a school district representative who is not an attorney to represent the school district at any future hearings.

(11) If the child is in a special education program or has a diagnosed mental or emotional disorder, the court shall inquire as to what efforts the school district has made to assist the child in attending school.

(12) If the allegations in the petition are established by a preponderance of the evidence, the court shall grant the petition and enter an order assuming jurisdiction to intervene for the period of time determined by the court, after considering the facts alleged in the petition and the circumstances of the juvenile, to most likely cause the juvenile to return to and remain in school while the juvenile is subject to this chapter. In no case may the order expire before the end of the school year in which it is entered.

(13)(a) If the court assumes jurisdiction, the school district shall periodically report to the court any additional unexcused absences by the child, actions taken by the school district, and an update on the child's academic status in school at a schedule specified by the court.

(b) The first report under this subsection (13) must be received no later than three months from the date that the court assumes jurisdiction.

(14) Community engagement boards and the courts shall coordinate, to the extent possible, proceedings and actions pertaining to children who are subject to truancy petitions and at-risk youth petitions in RCW 13.32A.191 or child in need of services petitions in RCW 13.32A.140.

(15) If after a juvenile court assumes jurisdiction in one county the child relocates to another county, the juvenile court in the receiving county shall, upon the request of a school district or parent, assume jurisdiction of the petition filed in the previous county.

**RCW 28A.225.060. Custody and disposition of child absent from school without excuse.**

Any school district official, sheriff, deputy sheriff, marshal, police officer, or any other officer authorized to make arrests, may take into custody without a warrant a child who is required under the provisions of RCW 28A.225.010 through 28A.225.140 to attend school and is absent from school without an approved excuse, and shall deliver the child to: (1) The custody of a person in parental relation to the child; (2) the school from which the child is absent; or (3) a program designated by the school district.

**RCW 28A.225.090. Court orders - Penalties - Parents’ defense.**

(1) A court may order a child subject to a petition under RCW 28A.225.035 to do one or more of the following:

(a) Attend the child’s current school, and set forth minimum attendance requirements, which shall not consider a suspension day as an unexcused absence;

(b) If there is space available and the program can provide educational services appropriate for the child, order the child to attend another public school, an alternative education program, center, a skill center, dropout prevention program, or another public educational program;
(c) Attend a private nonsectarian school or program including an education center. Before ordering a child to attend an approved or certified private nonsectarian school or program, the court shall: (i) Consider the public and private programs available; (ii) find that placement is in the best interest of the child; and (iii) find that the private school or program is willing to accept the child and will not charge any fees in addition to those established by contract with the student's school district. If the court orders the child to enroll in a private school or program, the child's school district shall contract with the school or program to provide educational services for the child. The school district shall not be required to contract for a weekly rate that exceeds the state general apportionment dollars calculated on a weekly basis generated by the child and received by the district. A school district shall not be required to enter into a contract that is longer than the remainder of the school year. A school district shall not be required to enter into or continue a contract if the child is no longer enrolled in the district;

(d) Submit to a substance abuse assessment if the court finds on the record that such assessment is appropriate to the circumstances and behavior of the child and will facilitate the child's compliance with the mandatory attendance law and, if any assessment, including a urinalysis test ordered under this subsection indicates the use of controlled substances or alcohol, order the minor to abstain from the unlawful consumption of controlled substances or alcohol and adhere to the recommendations of the substance abuse assessment at no expense to the school; or

(e) Submit to a mental health evaluation or other diagnostic evaluation and adhere to the recommendations of the drug assessment, at no expense to the school, if the court finds on the court records that such evaluation is appropriate to the circumstances and behavior of the child, and will facilitate the child's compliance with the mandatory attendance law.

(2) If the child fails to comply with the court order, the court may impose:

(a) Community restitution;

(b) Nonresidential programs with intensive wraparound services;

(c) A requirement that the child meet with a mentor for a specified number of times; or

(d) Other services and interventions that the court deems appropriate.

(3) Any parent violating any of the provisions of either RCW 28A.225.010, 28A.225.015, or 28A.225.080 shall be fined not more than twenty-five dollars for each day of unexcused absence from school. The court shall remit fifty percent of the fine collected under this section to the child's school district. It shall be a defense for a parent charged with violating RCW 28A.225.010 to show that he or she exercised reasonable diligence in attempting to cause a child in his or her custody to attend school or that the child's school did not perform its duties as required in RCW 28A.225.020. The court may order the parent to provide community restitution instead of imposing a fine. Any fine imposed pursuant to this section may be suspended upon the condition that a parent charged with violating RCW 28A.225.010 shall participate with the school and the child in a supervised plan for the child's attendance at school or upon condition that the parent attend a conference or conferences scheduled by a school for the purpose of analyzing the causes of a child's absence.

(4) If a child continues to be truant after entering into a court-approved order with the community engagement board under RCW 28A.225.035, the juvenile court shall find the child in contempt, and the court may impose alternatives to detention consistent with best practice models for reengagement with school.

(5) Nothing in this section shall be construed to limit the court's inherent contempt power or curtail its exercise.

(6) Subsections (1), (2), and (4) of this section shall not apply to a six or seven year old child required to attend public school under RCW 28A.225.015.

(3) By December 1, 2020, and in compliance with RCW 43.01.036, the office of the superintendent of public instruction must report to the appropriate committees of the legislature regarding the office's plans for data collection and monitoring under this section and describing any implementation issues that could be fixed through legislation.

(4) The superintendent of public instruction may adopt rules under chapter 34.05 RCW to implement this section.

RCW 28A.310.510. Regional school safety centers.

(1) Subject to the availability of amounts appropriated for this specific purpose, each educational service district must establish a regional school safety center as provided in this section.

(2) The regional school safety centers working in collaboration with one another and the state school safety center, established in RCW 28A.300.630, form a statewide network for school safety. The purpose of this statewide network is to provide coordination of school safety efforts throughout the state and to provide school safety resources to the school districts in each educational service district region.

(3) Working in collaboration with the office of the superintendent of public instruction and the statewide network, each regional school safety center must provide to the school districts in its region:

(b) School-based threat assessment coordination that, at a minimum, includes:

agencies, for the purpose of implementing school-based threat assessment programs that comply with best practices.

RCW 28A.320.123. School-based threat assessment program.

(1) At a minimum, a school-based threat assessment program must:

(a) Provide for timely and methodical school-based threat assessment and management;

(b) Be prompted by the behavior of a student rather than some combination of a student's demographic and personal characteristics;

(c) Convene a multidisciplinary, multiagency team, including special education teachers and practicing educational staff associates, to:

(i) Identify and assess the behavior of a student that is threatening, or potentially threatening, to self, other students, staff, school visitors, or school property;

(ii) Gather and analyze information about the student's behavior to determine a level of concern for the threat that focuses on situational variables, rather than the student's demographic or personal characteristics;

(iii) Depending on the determined level of concern, develop and implement intervention strategies to manage the student's behavior in ways that promote a safe, supportive teaching and learning environment, without excluding the student from the school; and

(iv) In the case of the threatening, or potentially threatening, behavior of a student with disabilities, align intervention strategies with the student's individualized education program or plan developed under section 504 of the rehabilitation act of 1973 by coordinating with the student's individualized education program or section 504 plan team;

(d) Create guidelines for each threat assessment team to collect, report, and review quantitative data on its activities; and

(e) Prohibit suspension or expulsion based merely on threat assessment referral or performance.

(2) By the beginning of the 2020-21 school year, each school district shall adopt a policy and procedure to establish a school-based threat assessment program that meets the requirements of subsection (1) of this section. The school district policy and procedure must be consistent with the model policy and procedure developed under RCW 28A.300.640, and with other school district policies, procedures, and plans addressing safe and supportive learning environments.

(3) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "School-based threat assessment" means the formal process, established by a school district, of evaluating the threatening, or potentially threatening, behavior of a student, and the circumstances surrounding the threat, to uncover any facts or evidence that the threat is likely to be carried out.

(b) "School-based threat management" means the development and implementation of a plan to manage or reduce the threatening, or potentially threatening, behavior of a student in a way that increases the physical and psychological safety of students, staff, and visitors, while providing for the education of all students.

Compilation of School
Discipline Laws and
Regulations

Prepared: March 31, 2023
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2023. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

LAWS

(a) The Legislature hereby finds that hazing has become a problem in a limited number of public school-sponsored student organizations and that legal liability has already resulted from some of those activities. It is the intent of this section that problems with hazing in public school-sponsored student organizations be addressed.

(b) The State Board shall promulgate legislative rules in accordance with article three-b [§§ 29A-3B-1 et seq.], chapter twenty-nine-a of this code that addresses hazing in the public school system. The rules shall include at least the following:

1. A definition of hazing;
2. A definition of a public school-sponsored student organization that includes both cocurricular and extracurricular activities;
3. A method to advise students and employees of the problems associated with hazing;
4. Appropriate penalties or procedures for establishing penalties for students who haze while engaged in the activities of a public school-sponsored student organization; and
5. Methods to prevent hazing in public school-sponsored organizations.

(c) The State Board shall consider the antihazing law set forth in article sixteen [§§ 18-16-1 et seq.], chapter eighteen in drafting the rules required by this section.

(d) Nothing in this section or in the policy promulgated in accordance with this section may be construed to prevent a suspension or expulsion executed in accordance with section one-a [§ 18A-5-1a], article five, chapter eighteen-a of this code.

§18-2C-3. Policy prohibiting harassment, intimidation or bullying.

(a) Each county board shall establish a policy prohibiting harassment, intimidation or bullying. Each county board has control over the content of its policy as long as the policy contains, at a minimum, the requirements of subdivision (b) of this section. The policy shall be adopted through a process that includes representation of parents or guardians, school employees, school volunteers, students and community members.

(a) The state board in conjunction with the Division of Homeland Security and Emergency Management shall promulgate by December 31, 2011, a legislative rule in accordance with article three-b [§§ 29A-3B-1 et seq.], chapter twenty-nine-a of this code, and if necessary may promulgate an emergency rule in accordance with said article, for the establishment of an up-to-date, school specific crisis response plan at every school in the state. In developing the rule, the state board shall consider plans currently being developed as part of the safe schools initiative currently underway by the School Building Authority and the Division of Homeland Security and Emergency Management. In addition, those portions of a school's access safety plan created pursuant to section three [§ 18-9F-3] of this article may be used as a portion of the school's school specific crisis response plan if there are any overlapping requirements. The rule shall provide for at least the following:
(1) A model school crisis response plan for use by each school in the state, including a uniform template which shall be used by each school to file the plan, including at least the following information, in a secure electronic system identified by the Division of Homeland Security and Emergency Management:

(F) Policies and procedures for enforcing school discipline and maintaining a safe and orderly environment during the crisis.

§18A-5-1. Authority of teachers and other school personnel; exclusion of students having infectious diseases; suspension or expulsion of disorderly students; corporal punishment abolished.

(g) Each county board is solely responsible for the administration of proper discipline in the public schools of the county and shall adopt policies consistent with the provisions of this section to govern disciplinary actions. These policies shall encourage the use of alternatives to discipline practices, provide for the training of school personnel in alternatives to discipline practices and provide for encouraging the involvement of parent(s), guardian(s) or custodian(s) in the maintenance of school discipline. To promote a teaching and learning environment free from substantial classroom disturbances, each county board shall ensure that each school implements a tier system policy, with teacher input, to provide a framework for student behaviors and punishments. The policy shall be clear and concise with specific guidelines and examples. The principal shall support the teacher in the discipline of the students if proper cause and documentation is provided following the schoolwide discipline policy. The teacher may not be reprimanded if their actions are legal and within the structure of the county board’s policy for student behavior and punishment. The county board policies shall also include an appeal procedure whereby a teacher may appeal to the county superintendent if a school principal refuses to allow the exclusion of a student from the classroom or if a teacher believes the school principal has prematurely ended the exclusion of a student from the classroom. The county boards shall provide for the immediate incorporation and implementation in schools of a preventive discipline program which may include the responsible student program and a student involvement program, which may include the peer mediation program, devised by the West Virginia Board of Education. Each county board may modify those programs to meet the particular needs of the county. The county boards shall provide in-service training for teachers and principals relating to assertive discipline procedures and conflict resolution. The county boards also may establish cooperatives with private entities to provide middle educational programs, which may include programs focusing on developing individual coping skills, conflict resolution, anger control, self-esteem issues, stress management and decision making for students, and any other program related to preventive discipline.

§18A-5-1a. Possessing deadly weapons on premises of educational facilities; possessing a controlled substance on premises of educational facilities; assaults and batteries committed by students upon teachers or other school personnel; temporary suspension, hearing; procedure, notice and formal hearing; extended suspension; sale of narcotic; expulsion; exception; alternative education.

(n) Each county board is solely responsible for the administration of proper discipline in the public schools of the county and shall adopt policies consistent with the provisions of this section to govern disciplinary actions.

These policies shall encourage the use of alternatives to discipline practices, provide for the training of school personnel in alternatives to discipline practices and provide for encouraging the involvement of parent(s), guardian(s) or custodian(s) in the maintenance of school discipline. To promote a teaching and learning environment free from substantial classroom disturbances, each county board shall ensure that each school implements a tier system policy, with teacher input, to provide a framework for student behaviors and punishments. The policy shall be clear and concise with specific guidelines and examples. The principal shall support the teacher in the discipline of the students if proper cause and documentation is provided following the schoolwide discipline policy. The teacher may not be reprimanded if their actions are legal and within the structure of the county board’s policy for student behavior and punishment. The county board policies shall also include an appeal procedure whereby a teacher may appeal to the county superintendent if a school principal refuses to allow the exclusion of a student from the classroom or if a teacher believes the school principal has prematurely ended the exclusion of a student from the classroom. The county boards shall provide for the immediate incorporation and implementation in schools of a preventive discipline program which may include the responsible student program and a student involvement program, which may include the peer mediation program, devised by the West Virginia Board of Education. §18A-5-8. Authority of certain aides to exercise control over students; compensation; transfers.

(b) The authority provided for in subsection (a) of this section does not extend to suspending or expelling any student, participating in the administration of corporal punishment or performing instructional duties as a teacher or substitute teacher. However, the authority extends to supervising students undergoing in-school suspension if the instructional duties required by the supervision are limited solely to handing out class work and collecting class work. The authority to supervise students undergoing in-school suspension does not include actual instruction.

§49-4-717. Sexting educational diversion program; requirements.

(a) Before a juvenile petition is filed for activity proscribed by article eight-a [§§ 61-8A-1 et seq.] or eight-c [§§ 61-8C-1 et seq.], chapter sixty-one of this code, or after probable cause has been found to believe a juvenile has committed a violation thereof, but before an adjudicatory hearing on the petition, the court or a prosecuting attorney may direct or allow a minor who engaged in the activity to participate in an educational diversion program which meets the requirements of subsection (b) of this section. The prosecutor or court may refer the minor to the educational diversion program, as part of a prepetition intervention pursuant to section seven hundred two [§ 49-4-702] of this article.
(b) The West Virginia Supreme Court of Appeals may develop an educational diversion program for minors who are accused of activity proscribed by article eight-a or eight-c, chapter sixty-one of this code. As a part of any specialized educational diversion program so developed, the following issues and topics should be included:

(1) The legal consequences of and penalties for sharing sexually suggestive or explicit materials, including applicable federal and state statutes;

(2) The nonlegal consequences of sharing sexually suggestive or explicit materials including, but not limited to, the effect on relationships, loss of educational and employment opportunities, and being barred or removed from school programs and extracurricular activities;

(3) How the unique characteristics of cyberspace and the Internet, including searchability, replicability and an infinite audience, can produce long-term and unforeseen consequences for sharing sexually suggestive or explicit materials; and

(4) The connection between bullying and cyber-bullying and minors sharing sexually suggestive or explicit materials.

REGULATIONS

§126-81-3. Policy development.

3.2. Allowable Deductions for Schools. Beginning with the 2016-2017 school year, absences that result from school approved curricular/co-curricular activities, failure of the bus to run/hazardous conditions,
students not in attendance due to disciplinary measures, and school/county directed placements outside the traditional classroom environment including but not limited to homebound placement and in-school suspension.

§126-81-5. Responsibilities.
5.2. Each county's attendance policy shall address the following components:

5.2.b. County school systems are responsible for:

5.2.b.7. assuring that a student may not be suspended solely for failure to attend class. Other methods of discipline may include, but are not limited to, detention, extra class time, or alternative class settings.

§126-99-5. Severability.
Suspension. The purpose of suspension is to protect the students, school personnel and property, the educational environment, and the orderly process of the school. Suspension is considered a temporary solution to an inappropriate behavior until the problem that caused the suspension is corrected. The length of a suspension should be short, usually one to three school days, but may extend to ten school days.

Suspension typically takes one of two forms:

- In-School Suspension. Student is temporarily removed from the classroom(s) for disciplinary reasons but remains under the direct supervision of school personnel and continues to receive instructional support. Direct supervision means school personnel are physically in the same location as the student(s) under their supervision. Settings may include other locations within the school building or removal to another school, such as an alternative school, provided the student remains under direct supervision of school personnel.

- Out-of-School Suspension. Student is temporarily removed from the school for disciplinary reasons to another setting pursuant to W. Va. Code § 18A-5-1a (e.g., home, community setting). This includes both removals in which no Individual Education Plan (IEP) services are provided because the removal is 10 days or less, as well as removals in which the student continues to receive services according to his/her IEP. The student is not under direct supervision of school personnel as defined under in-school suspension.

Corporal Punishment

LAWS

§18A-5-1. Authority of teachers and other school personnel; exclusion of students having infectious diseases; suspension or expulsion of disorderly students; corporal punishment abolished.

(f) Corporal punishment of any student by a school employee is prohibited.

(g) Each county board is solely responsible for the administration of proper discipline in the public schools of the county and shall adopt policies consistent with the provisions of this section to govern disciplinary actions. These policies shall encourage the use of alternatives to corporal discipline practices, provide for the training of school personnel in alternatives to discipline practices, and provide for encouraging the involvement of parent(s), guardian(s) or custodian(s) in the maintenance of school discipline. To promote a teaching and learning environment free from substantial classroom disturbances, each county board shall ensure that each school implements a tier system policy, with teacher input, to provide a framework for student behaviors and punishments. The county boards shall provide for the immediate incorporation and implementation in schools of a preventive discipline program which may include the responsible student program and a student involvement program, which may include the peer mediation program, devised by the West Virginia Board of Education. Each county board may modify those programs to meet the particular needs of the county. The county boards shall provide in-service training for teachers and principals relating to assertive discipline procedures and conflict resolution. The county boards also may establish cooperatives with private entities to provide middle educational programs, which may include programs focusing on developing individual coping skills, conflict resolution, anger control, self-esteem issues, stress management and decision making for students, and any other program related to preventive discipline.

§18A-5-8. Authority of certain aides to exercise control over students; compensation; transfers.

(a) Within the limitations provided in this section, any aide who agrees to do so shall stand in the place of the parent or guardian and shall exercise such authority and control over students as is required of a teacher as provided in section one [§ 18A-5-1] of this article. The principal shall designate aides in the school who agree to exercise that authority on the basis of seniority as an aide and shall enumerate the instances in which the authority shall be exercised by an aide when requested by the principal, assistant principal or professional employee to whom the aide is assigned.

(b) The authority provided for in subsection (a) of this section does not extend to suspending or expelling any student, participating in the administration of corporal punishment or performing instructional duties as a teacher or substitute teacher. However, the authority extends to supervising students undergoing in-school suspension if the instructional duties required by the supervision are limited solely to handing out class work and collecting class work. The authority to supervise students undergoing in-school suspension does not include actual instruction.
REGULATIONS
§126-99-5. Severability.
Section 4. Use of Physical Punishment Prohibited

W. Va. Code § 18A-5-1(e) prohibits school employees from using corporal (bodily) punishment on any student. No physical punishment of any kind can be inflicted upon a student. This includes:

. hitting or striking a student on their physical person;
. requiring physical activity as a punishment (this does not apply to physical activity within the structure
and context of extracurricular activities);
. use of noxious stimuli (e.g., pepper spray), denial of food or water, or other negative physical actions
to control behavior; and
. seclusion - a removal in which a student is left unsupervised in any space as an intervention or
consequence to inappropriate behavior.

Search and Seizure

LAWS
No relevant laws found.

REGULATIONS
§126-99-5. Severability.
Section 3. Protection from Unreasonable Searches and Seizures and Self-Incrimination Federal and
state constitutions and statutes provide protection for all citizens from unreasonable searches and
seizures.
Although school personnel have more latitude than police officers in this regard, because they do not
need search warrants, search and seizures of lockers or students by school officials must be reasonable
and based upon the information known by them at the time of the search. Personal property may be
searched by those authorized where there is reasonable suspicion to believe that student property
contains stolen articles, illegal items, or other contraband as defined by law or by local board or school
policy.
Students also have a right under federal and state constitutions not to incriminate themselves about a
crime when questioned on school grounds by an individual acting in the capacity of a law enforcement
official. The students are entitled to be informed of their right against self-incrimination if they are in a
custodial setting, in other words, the students are not at liberty to terminate the interrogation and leave.
Students do not have a constitutional right against self-incrimination when being questioned by school
officials or Prevention Resource Officers (PRO) acting under the supervision of school officials who are
investigating school-related misconduct.

Restraint and Seclusion

LAWS
No relevant laws found.

REGULATIONS
§126-99-5. Severability.
Section 5. Use of Restraint
Restraint, reasonable force, may be used to prevent a student from hurting himself/herself or any other
person or property. Behavior interventions and support practices must be implemented in such a way as
to protect the health and safety of the student and others. When the use of physical restraint is
necessary, the following guidelines must be followed:
- shall be limited to the use of such reasonable force as is necessary to address the emergency;
- shall not restrict breathing (e.g. prone restraint); place pressure or weight on the chest, lungs, sternum,
diaphragm, back, neck, or throat; or cause physical harm;
- shall be discontinued at the point at which the emergency no longer exists;
-shall be implemented in such a way as to protect the health and safety of the student and others; and
-shall not deprive the student of basic human necessities.

Appropriate (intended use) utilization of mechanical restraints, such as seat belts or feeding tables, when applied for their intended purpose is not prohibited. The application of mechanical restraint is prohibited as an intervention or consequence for inappropriate behavior.

A core team of personnel in each school, including an administrator designee and any general or special education personnel likely to use restraint, must be trained annually in the use of:

- nationally recognized restraint process, and
- current professionally accepted practices and standards regarding behavior interventions and supports including prevention and de-escalation techniques.

Any non-trained personnel called upon to use restraint in an emergency must receive training within 30 days following the use of restraint if the principal determines the situation is likely to reoccur.

Comprehensive documentation and immediate notification of restraint usage is required. 

Section 6. Collaboration with Law Enforcement

Police Conducting an Investigation in the School. When a student is questioned by the police or by school officials in the presence of the police, the school administration and police must cooperate to ensure the privacy of the student is protected. It is the police officer's responsibility to ensure the student's constitutional rights are not violated and to determine if the student's parent or guardian, or lawyer should be contacted prior to questioning. The officer must also determine when the use of restraints is necessary to control an unruly student to prevent the student from harming him/herself or others during questioning.

Grounds for Suspension or Expulsion

LAWS

§18A-5-1a. Possessing deadly weapons on premises of educational facilities; possessing a controlled substance on premises of educational facilities; assaults and batteries committed by students upon teachers or other school personnel; temporary suspension, hearing; procedure, notice and formal hearing; extended suspension; sale of narcotic; expulsion; exception; alternative education.

(a) A principal shall suspend a student from school or from transportation to or from the school on any school bus if the student, in the determination of the principal after an informal hearing pursuant to subsection (d) of this section, has: (i) Violated the provisions of subsection (b), section fifteen [§ 61-2-15], article two, chapter sixty-one of this code; (ii) violated the provisions of subsection (b), section eleven-a [§ 61-7-11a], article seven of said chapter; or (iii) sold a narcotic drug, as defined in section one hundred one [§ 60A-1-101], article one, chapter sixty-a of this code, on the premises of an educational facility, at a school-sponsored function or on a school bus. If a student has been suspended pursuant to this subsection, the principal shall, within twenty-four hours, request that the county superintendent recommend to the county board that the student be expelled. Upon such a request by a principal, the county superintendent shall recommend to the county board that the student be expelled. Upon such recommendation, the county board shall conduct a hearing in accordance with subsections (e), (f) and (g) of this section to determine if the student committed the alleged violation. If the county board finds that the student did commit the alleged violation, the county board shall expel the student.

(b) A principal shall suspend a student from school, or from transportation to or from the school on any school bus, if the student, in the determination of the principal after an informal hearing pursuant to subsection (d) of this section, has: (i) Committed an act or engaged in conduct that would constitute a felony under the laws of this state if committed by an adult; or (ii) unlawfully possessed on the premises of an educational facility or at a school-sponsored function a controlled substance governed by the Uniform Controlled Substances Act as described in chapter sixty-a [§§ 60A-1-101 et seq.] of this code. If a student has been suspended pursuant to this subsection, the principal may request that the superintendent recommend to the county board that the student be expelled. Upon such recommendation by the county superintendent, the county board may hold a hearing in accordance with the provisions of subsections (e), (f) and (g) of this section to determine if the student committed the alleged violation. If the county board finds that the student did commit the alleged violation, the county board may expel the student.

(c) A principal may suspend a student from school, or transportation to or from the school on any school bus, if the student, in the determination of the principal after an informal hearing pursuant to subsection (d) of this section: (i) Threatened to injure, or in any manner injured, a student, teacher, administrator or other school personnel; (ii) wilfully disobeyed a teacher; (iii) possessed alcohol in an educational facility, on school grounds, a school bus or at any school-sponsored function; (iv) used profane language directed at a school employee or student; (v) intentionally defaced any school property; (vi) participated in any physical altercation with another person while under the authority of school personnel; or (vii) habitually violated school rules or policies. If a student has been suspended pursuant to this subsection, the principal may request that the superintendent recommend to the county board that the student be expelled. Upon such recommendation by the county superintendent, the county board may hold a hearing in accordance with the provisions of subsections (e), (f) and (g) of this section to determine if the student
committed the alleged violation. If the county board finds that the student did commit the alleged violation, the county board may expel the student.

REGULATIONS

§126-99-5. Severability.

Section 2. Guidelines for Specific Responses to Inappropriate Behavior

Expulsion. The county superintendent, upon recommendation by the principal, may recommend that a county board of education expel a student from school if the student's conduct is judged to be detrimental to the progress and general conduct of the school. In all cases involving expulsion, the student is entitled to formal due process procedures. These procedures are outlined in W. Va. Code § 18A-5-1 and § 18A-5-1a.

W. Va. Code § 18A-5-1 and § 18A-5-1a requires mandatory out-of-school suspension by the principal and mandatory expulsion for a period of not less than twelve consecutive months by the county board of education for: possession of a deadly weapon, battery of a school employee, or sale of a narcotic drug.

Limitations or Conditions on Exclusionary Discipline

LAWS

§18A-5-1. Authority of teachers and other school personnel; exclusion of students having infectious diseases; suspension or expulsion of disorderly students; corporal punishment abolished.

(e) The Legislature finds that suspension from school is not appropriate solely for a student's failure to attend class. Therefore, a student may not be suspended from school solely for not attending class. Other methods of discipline may be used for the student which may include, but are not limited to, detention, extra class time or alternative class settings.

§18A-5-1a. Possessing deadly weapons on premises of educational facilities; possessing a controlled substance on premises of educational facilities; assaults and batteries committed by students upon teachers or other school personnel; temporary suspension, hearing; procedure, notice and formal hearing; extended suspension; sale of narcotic; expulsion; exception; alternative education.

(a) A principal shall suspend a student from school or from transportation to or from the school on any school bus if the student, in the determination of the principal after an informal hearing pursuant to subsection (d) of this section, has: (i) Violated the provisions of subsection (b), section fifteen [§ 61-2-15], article two, chapter sixty-one of this code; (ii) violated the provisions of subsection (b), section eleven-a [§ 61-7-11a], article seven of said chapter; or (iii) sold a narcotic drug, as defined in section one hundred one [§ 60A-1-101], article one, chapter sixty-a of this code, on the premises of an educational facility, at a school-sponsored function or on a school bus. If a student has been suspended pursuant to this subsection, the principal shall, within twenty-four hours, request that the county superintendent recommend to the county board that the student be expelled. Upon such a request by a principal, the county superintendent shall recommend to the county board that the student be expelled. Upon such recommendation, the county board shall conduct a hearing in accordance with subsections (e), (f) and (g) of this section to determine if the student committed the alleged violation. If the county board finds that the student did commit the alleged violation, the county board shall expel the student.

(b) A principal shall suspend a student from school, or from transportation to or from the school on any school bus, if the student, in the determination of the principal after an informal hearing pursuant to
subsection (d) of this section, has: (i) Committed an act or engaged in conduct that would constitute a felony under the laws of this state if committed by an adult; or (ii) unlawfully possessed on the premises of an educational facility or at a school-sponsored function a controlled substance governed by the Uniform Controlled Substances Act as described in chapter sixty-a [§§ 60A-1-101 et seq.] of this code. If a student has been suspended pursuant to this subsection, the principal may request that the superintendent recommend to the county board that the student be expelled. Upon such recommendation by the county superintendent, the county board may hold a hearing in accordance with the provisions of subsections (e), (f) and (g) of this section to determine if the student committed the alleged violation. If the county board finds that the student did commit the alleged violation, the county board may expel the student.

(c) A principal may suspend a student from school, or transportation to or from the school on any school bus, if the student, in the determination of the principal after an informal hearing pursuant to subsection (d) of this section: (i) Threatened to injure, or in any manner injured, a student, teacher, administrator or other school personnel; (ii) willfully disobeyed a teacher; (iii) possessed alcohol in an educational facility, on school grounds, a school bus or at any school-sponsored function; (iv) used profane language directed at a school employee or student; (v) intentionally defaced any school property; (vi) participated in any physical altercation with another person while under the authority of school personnel; or (vii) habitually violated school rules or policies. If a student has been suspended pursuant to this subsection, the principal may request that the superintendent recommend to the county board that the student be expelled. Upon such recommendation by the county superintendent, the county board may hold a hearing in accordance with the provisions of subsections (e), (f) and (g) of this section to determine if the student committed the alleged violation. If the county board finds that the student did commit the alleged violation, the county board may expel the student.

(d) The actions of any student which may be grounds for his or her suspension or expulsion under the provisions of this section shall be reported immediately to the principal of the school in which the student is enrolled. If the principal determines that the alleged actions of the student would be grounds for suspension, he or she shall conduct an informal hearing for the student immediately after the alleged actions have occurred. The hearing shall be held before the student is suspended unless the principal believes that the continued presence of the student in the school poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process, in which case the student shall be suspended immediately and a hearing held as soon as practicable after the suspension.

The student and his or her parent(s), guardian(s) or custodian(s), as the case may be, shall be given telephonic notice, if possible, of this informal hearing, which notice shall briefly state the grounds for suspension.

At the commencement of the informal hearing, the principal shall inquire of the student as to whether he or she admits or denies the charges. If the student does not admit the charges, he or she shall be given an explanation of the evidence possessed by the principal and an opportunity to present his or her version of the occurrence. At the conclusion of the hearing or upon the failure of the noticed student to appear, the principal may suspend the student for a maximum of ten school days, including the time prior to the hearing, if any, for which the student has been excluded from school.

The principal shall report any suspension the same day it has been decided upon, in writing, to the parent(s), guardian(s) or custodian(s) of the student by regular United States mail. The suspension also shall be reported to the county superintendent and to the faculty senate of the school at the next meeting after the suspension.

(e) Prior to a hearing before the county board, the county board shall cause a written notice which states the charges and the recommended disposition to be served upon the student and his or her parent(s), guardian(s) or custodian(s), as the case may be. The notice shall state clearly whether the board will attempt at hearing to establish the student as a dangerous student, as defined by section one [§ 18A-1-
1], article one of this chapter. The notice also shall include any evidence upon which the board will rely in asserting its claim that the student is a dangerous student. The notice shall set forth a date and time at which the hearing shall be held, which date shall be within the ten-day period of suspension imposed by the principal.

(f) The county board shall hold the scheduled hearing to determine if the student should be reinstated or should, under the provisions of this section, must be expelled from school. If the county board determines that the student should or must be expelled from school, it also may determine whether the student is a dangerous student pursuant to subsection (g) of this section. At this, or any hearing before a county board conducted pursuant to this section, the student may be represented by counsel, may call his or her own witnesses to verify his or her version of the incident and may confront and cross examine witnesses supporting the charge against him or her. The hearing shall be recorded by mechanical means unless recorded by a certified court reporter. The hearing may be postponed for good cause shown by the student but he or she shall remain under suspension until after the hearing. The state board may adopt other supplementary rules of procedure to be followed in these hearings. At the conclusion of the hearing the county board shall either: (1) Order the student reinstated immediately at the end of his or her initial suspension; (2) suspend the student for a further designated number of days; or (3) expel the student from the public schools of the county.

(g) A county board that did not intend prior to a hearing to assert a dangerous student claim, that did not notify the student prior to the hearing that a dangerous student determination would be considered and that determines through the course of the hearing that the student may be a dangerous student shall schedule a second hearing within ten days to decide the issue. The hearing may be postponed for good cause shown by the student, but he or she remains under suspension until after the hearing. A county board that expels a student, and finds that the student is a dangerous student, may refuse to provide alternative education. However, after a hearing conducted pursuant to this section for determining whether a student is a dangerous student, when the student is found to be a dangerous student, is expelled and is denied alternative education, a hearing shall be conducted within three months after the refusal by the board to provide alternative education to reexamine whether or not the student remains a dangerous student and whether the student shall be provided alternative education. Thereafter, a hearing for the purpose of reexamining whether or not the student remains a dangerous student and whether the student shall be provided alternative education shall be conducted every three months for so long as the student remains a dangerous student and is denied alternative education. During the initial hearing, or in any subsequent hearing, the board may consider the history of the student’s conduct as well as any improvements made subsequent to the expulsion. If it is determined during any of the hearings that the student is no longer a dangerous student or should be provided alternative education, the student shall be provided alternative education during the remainder of the expulsion period.

(h) The superintendent may apply to a circuit judge or magistrate for authority to subpoena witnesses and documents, upon his or her own initiative, in a proceeding related to a recommended student expulsion or dangerous student determination, before a county board conducted pursuant to the provisions of this section. Upon the written request of any other party, the superintendent shall apply to a circuit judge or magistrate for the authority to subpoena witnesses, documents or both on behalf of the other party in a proceeding related to a recommended student expulsion or dangerous student determination before a county board. If the authority to subpoena is granted, the superintendent shall subpoena the witnesses, documents or both requested by the other party. Furthermore, if the authority to subpoena is granted, it shall be exercised in accordance with the provisions of section one [§ 29A-5-1], article five, chapter twenty-nine-a of this code.

Any hearing conducted pursuant to this subsection may be postponed: (1) For good cause shown by the student; (2) when proceedings to compel a subpoenaed witness to appear must be instituted; or (3) when
a delay in service of a subpoena hinders either party’s ability to provide sufficient notice to appear to a witness. A student remains under suspension until after the hearing in any case where a postponement occurs.

(i) Students may be expelled pursuant to this section for a period not to exceed one school year, except that if a student is determined to have violated the provisions of subsection (a) of this section the student shall be expelled for a period of not less than twelve consecutive months, subject to the following:

(1) The county superintendent may lessen the mandatory period of twelve consecutive months for the expulsion of the student if the circumstances of the student’s case demonstrably warrant;

(2) Upon the reduction of the period of expulsion, the county superintendent shall prepare a written statement setting forth the circumstances of the student’s case which warrant the reduction of the period of expulsion. The county superintendent shall submit the statement to the county board, the principal, the faculty senate and the local school improvement council for the school from which the student was expelled. The county superintendent may use the following factors as guidelines in determining whether or not to reduce a mandatory twelve-month expulsion:

(A) The extent of the student’s malicious intent;

(B) The outcome of the student’s misconduct;

(C) The student’s past behavior history;

(D) The likelihood of the student’s repeated misconduct; and

(E) If applicable, successful completion or making satisfactory progress toward successful completion of Juvenile Drug Court pursuant to section one-d of this section.

(j) In all hearings under this section, facts shall be found by a preponderance of the evidence.

(k) For purposes of this section, nothing herein may be construed to be in conflict with the federal provisions of the Individuals with Disabilities Education Act, 20 U. S. C. §§ 1400, et seq.

(l) Each suspension or expulsion imposed upon a student under the authority of this section shall be recorded in the uniform integrated regional computer information system (commonly known as the West Virginia Education Information System) described in subsection (f), section twenty-six [§ 18-2-26], article two, chapter eighteen of this code.

(1) The principal of the school at which the student is enrolled shall create an electronic record within twenty-four hours of the imposition of the suspension or expulsion.

(2) Each record of a suspension or expulsion shall include the student’s name and identification number, the reason for the suspension or expulsion and the beginning and ending dates of the suspension or expulsion.

(3) The state board shall collect and disseminate data so that any principal of a public school in West Virginia can review the complete history of disciplinary actions taken by West Virginia public schools against any student enrolled or seeking to enroll at that principal’s school. The purposes of this provision are to allow every principal to fulfill his or her duty under subsection (b), section fifteen-f [§ 18-5-15f], article five, chapter eighteen of this code to determine whether a student requesting to enroll at a public school in West Virginia is currently serving a suspension or expulsion from another public school in West Virginia and to allow principals to obtain general information about students’ disciplinary histories.

(m) Principals may exercise any other authority and perform any other duties to discipline students consistent with state and federal law, including policies of the state board.

(n) Each county board is solely responsible for the administration of proper discipline in the public schools of the county and shall adopt policies consistent with the provisions of this section to govern disciplinary actions.
(o) For the purpose of this section, principal means the principal, assistant principal, vice principal or the administrative head of the school or a professional personnel designee of the principal or the administrative head of the school.

§18A-5-1d. Return to school through Juvenile Drug Court for certain students.

(a) When a student is expelled from school pursuant to §18A-5-1a of this code, the county board, county superintendent, or principal for the school from which the student was expelled or the parent, guardian, or custodian may refer the student to a Juvenile Drug Court, operated pursuant to §49-4-703 of this code. Upon referral, the judge assigned to Juvenile Drug Court shall determine whether the student is an appropriate candidate for Juvenile Drug Court.

(b) If the judge determines the student is an appropriate candidate for Juvenile Drug Court, then the court has jurisdiction over the student in the same manner as it has jurisdiction over all other persons in Juvenile Drug Court. Jurisdiction over students includes the ability to issue any of the various sanctions available to the Juvenile Drug Court, including temporary detention.

(c)(1) Successful completion of Juvenile Drug Court or certification by the Juvenile Drug Court judge that the student is making satisfactory progress toward successful completion of Juvenile Drug Court warrants consideration for reduction of the expulsion period, pursuant to §18A-5-1a of this code.

(2) The Juvenile Drug Court shall notify the county superintendent of the completion or certification. The county superintendent shall arrange a meeting with the Juvenile Drug Court treatment team, the court, and the student assistance team of the school from which the student was expelled to discuss the student's history, progress, and potential for improvement.

(3) The student assistance team shall evaluate and recommend whether the student's expulsion period should be reduced, and the student reinstated in school.

(4) The student assistance team's recommendation shall be presented to the superintendent, who shall make the final determination. The superintendent shall prepare a statement detailing reasons for or against school reinstatement and submit the statement to the county board. If the superintendent determines to reduce the expulsion period, he or she shall submit the statement required by §18A-5-1a(i) of this code and place the student in an appropriate school within the district.

(5) A student to be reinstated shall be permitted to return to school no later than the 10th regular school day following notice by the court to the superintendent regarding the student's successful completion or satisfactory progress toward successful completion of Juvenile Drug Court.

REGULATIONS

§126-99-5. Severability.

Out-of-school suspension strategies should be used sparingly and shall never deny students access to instructional material and information necessary to maintain their academic progress. Out-of-school suspension should only be considered when all other interventions and consequences have not proven to correct the behavior. The determination of interventions and consequences is at the discretion of the school administrator, with input considered from teachers/service personnel. W. Va. Code requires that the principal shall suspend a student who commits a behavior classified as Level 4 in this policy. Level 3 and 4 behaviors are to be referred directly to the appropriate administrator because of the serious and/or unlawful nature of the misconduct. […]

Section 2. Guidelines for Specific Responses to Inappropriate Behavior

A student is entitled to an informal hearing when faced with an out-of-school suspension of 10 days or less. At this hearing, the principal must explain why the student is being suspended, and the student must be given the opportunity to present reasons why she/he should not be suspended. However, a student
whose conduct is detrimental to the safety of the school may be suspended immediately and a hearing held as soon as practical after the suspension. Other procedures the school must follow when dealing with out-of-school suspensions are outlined in W. Va. Code § 18A-5-1 and § 18A-5-1a and include:

- student may not be suspended from school solely for not attending class.

§18-8-4. Duties of attendance director and assistant directors; complaints, warrants, and hearings.

(e) The magistrate court clerk, or the clerk of the circuit court performing the duties of the magistrate court as authorized in §50-1-8 of this code, shall assign the case to a magistrate within 10 days of execution of the summons or warrant. The hearing shall be held within 20 days of the assignment to the magistrate, subject to lawful continuance. The magistrate shall provide to the accused at least 10 days' advance notice of the date, time and place of the hearing.

§18A-5-1a. Possessing deadly weapons on premises of educational facilities; possessing a controlled substance on premises of educational facilities; assaults and batteries committed by students upon teachers or other school personnel; temporary suspension, hearing; procedure, notice and formal hearing; extended suspension; sale of narcotic; expulsion; exception; alternative education.

(a) A principal shall suspend a student from school or from transportation to or from the school on any school bus if the student, in the determination of the principal after an informal hearing pursuant to subsection (d) of this section, has: (i) Violated the provisions of subsection (b), section fifteen [§ 61-2-15], article two, chapter sixty-one of this code; (ii) violated the provisions of subsection (b), section eleven-a [§ 61-7-11a], article seven of said chapter; or (iii) sold a narcotic drug, as defined in section one hundred one [§ 60A-1-101], article one, chapter sixty-one of this code, on the premises of an educational facility, at a school-sponsored function or on a school bus. If a student has been suspended pursuant to this subsection, the principal shall, within twenty-four hours, request that the county superintendent recommend to the county board that the student be expelled. Upon such a request by a principal, the county superintendent shall recommend to the county board that the student be expelled. Upon such recommendation, the county board shall conduct a hearing in accordance with subsections (e), (f) and (g) of this section to determine if the student committed the alleged violation. If the county board finds that the student did commit the alleged violation, the county board shall expel the student.

(b) A principal shall suspend a student from school, or from transportation to or from the school on any school bus, if the student, in the determination of the principal after an informal hearing pursuant to subsection (d) of this section, has: (i) Committed an act or engaged in conduct that would constitute a felony under the laws of this state if committed by an adult; or (ii) unlawfully possessed on the premises of an educational facility or at a school-sponsored function a controlled substance governed by the Uniform Controlled Substances Act as described in chapter sixty-one [§§ 60A-1-101 et seq.] of this code. If a student has been suspended pursuant to this subsection, the principal may request that the superintendent recommend to the county board that the student be expelled. Upon such recommendation by the county superintendent, the county board may hold a hearing in accordance with the provisions of subsections (e), (f) and (g) of this section to determine if the student committed the alleged violation. If the county board finds that the student did commit the alleged violation, the county board may expel the student.

(c) A principal may suspend a student from school, or transportation to or from the school on any school bus, if the student, in the determination of the principal after an informal hearing pursuant to subsection (d) of this section: (i) Threatened to injure, or in any manner injured, a student, teacher, administrator or
other school personnel; (ii) willfully disobeyed a teacher; (iii) possessed alcohol in an educational facility, on school grounds, a school bus or at any school-sponsored function; (iv) used profane language directed at a school employee or student; (v) intentionally defaced any school property; (vi) participated in any physical altercation with another person while under the authority of school personnel; or (vii) habitually violated school rules or policies. If a student has been suspended pursuant to this subsection, the principal may request that the superintendent recommend to the county board that the student be expelled. Upon such recommendation by the county superintendent, the county board may hold a hearing in accordance with the provisions of subsections (e), (f) and (g) of this section to determine if the student committed the alleged violation. If the county board finds that the student did commit the alleged violation, the county board may expel the student.

(d) The actions of any student which may be grounds for his or her suspension or expulsion under the provisions of this section shall be reported immediately to the principal of the school in which the student is enrolled. If the principal determines that the alleged actions of the student would be grounds for suspension, he or she shall conduct an informal hearing for the student immediately after the alleged actions have occurred. The hearing shall be held before the student is suspended unless the principal believes that the continued presence of the student in the school poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process, in which case the student shall be suspended immediately and a hearing held as soon as practicable after the suspension.

The student and his or her parent(s), guardian(s) or custodian(s), as the case may be, shall be given telephonic notice, if possible, of this informal hearing, which notice shall briefly state the grounds for suspension.

At the commencement of the informal hearing, the principal shall inquire of the student as to whether he or she admits or denies the charges. If the student does not admit the charges, he or she shall be given an explanation of the evidence possessed by the principal and an opportunity to present his or her version of the occurrence. At the conclusion of the hearing or upon the failure of the noticed student to appear, the principal may suspend the student for a maximum of ten school days, including the time prior to the hearing, if any, for which the student has been excluded from school.

The principal shall report any suspension the same day it has been decided upon, in writing, to the parent(s), guardian(s) or custodian(s) of the student by regular United States mail. The suspension also shall be reported to the county superintendent and to the faculty senate of the school at the next meeting after the suspension.

(e) Prior to a hearing before the county board, the county board shall cause a written notice which states the charges and the recommended disposition to be served upon the student and his or her parent(s), guardian(s) or custodian(s), as the case may be. The notice shall state clearly whether the board will attempt at hearing to establish the student as a dangerous student, as defined by section one [§ 18A-1-1], article one of this chapter. The notice also shall include any evidence upon which the board will rely in asserting its claim that the student is a dangerous student. The notice shall set forth a date and time at which the hearing shall be held, which date shall be within the ten-day period of suspension imposed by the principal.

(f) The county board shall hold the scheduled hearing to determine if the student should be reinstated or should, under the provisions of this section, must be expelled from school. If the county board determines that the student should or must be expelled from school, it also may determine whether the student is a dangerous student pursuant to subsection (g) of this section. At this, or any hearing before a county board conducted pursuant to this section, the student may be represented by counsel, may call his or her own witnesses to verify his or her version of the incident and may confront and cross examine witnesses supporting the charge against him or her. The hearing shall be recorded by mechanical means unless recorded by a certified court reporter. The hearing may be postponed for good cause shown by the
student but he or she shall remain under suspension until after the hearing. The state board may adopt other supplementary rules of procedure to be followed in these hearings. At the conclusion of the hearing the county board shall either: (1) Order the student reinstated immediately at the end of his or her initial suspension; (2) suspend the student for a further designated number of days; or (3) expel the student from the public schools of the county.

(g) A county board that did not intend prior to a hearing to assert a dangerous student claim, that did not notify the student prior to the hearing that a dangerous student determination would be considered and that determines through the course of the hearing that the student may be a dangerous student shall schedule a second hearing within ten days to decide the issue. The hearing may be postponed for good cause shown by the student, but he or she remains under suspension until after the hearing.

A county board that expels a student, and finds that the student is a dangerous student, may refuse to provide alternative education. However, after a hearing conducted pursuant to this section for determining whether a student is a dangerous student, when the student is found to be a dangerous student, is expelled and is denied alternative education, a hearing shall be conducted within three months after the refusal by the board to provide alternative education to reexamine whether or not the student remains a dangerous student and whether the student shall be provided alternative education. Thereafter, a hearing for the purpose of reexamining whether or not the student remains a dangerous student and whether the student shall be provided alternative education shall be conducted every three months for so long as the student remains a dangerous student and is denied alternative education. During the initial hearing, or in any subsequent hearing, the board may consider the history of the student's conduct as well as any improvements made subsequent to the expulsion. If it is determined during any of the hearings that the student is no longer a dangerous student or should be provided alternative education, the student shall be provided alternative education during the remainder of the expulsion period.

(h) The superintendent may apply to a circuit judge or magistrate for authority to subpoena witnesses and documents, upon his or her own initiative, in a proceeding related to a recommended student expulsion or dangerous student determination, before a county board conducted pursuant to the provisions of this section. Upon the written request of any other party, the superintendent shall apply to a circuit judge or magistrate for the authority to subpoena witnesses, documents or both on behalf of the other party in a proceeding related to a recommended student expulsion or dangerous student determination before a county board. If the authority to subpoena is granted, the superintendent shall subpoena the witnesses, documents or both requested by the other party. Furthermore, if the authority to subpoena is granted, it shall be exercised in accordance with the provisions of section one [§ 29A-5-1], article five, chapter twenty-nine-a of this code.

Any hearing conducted pursuant to this subsection may be postponed: (1) For good cause shown by the student; (2) when proceedings to compel a subpoenaed witness to appear must be instituted; or (3) when a delay in service of a subpoena hinders either party's ability to provide sufficient notice to appear to a witness. A student remains under suspension until after the hearing in any case where a postponement occurs.

(i) Students may be expelled pursuant to this section for a period not to exceed one school year, except that if a student is determined to have violated the provisions of subsection (a) of this section the student shall be expelled for a period of not less than twelve consecutive months, subject to the following:

(1) The county superintendent may lessen the mandatory period of twelve consecutive months for the expulsion of the student if the circumstances of the student's case demonstrably warrant;

(2) Upon the reduction of the period of expulsion, the county superintendent shall prepare a written statement setting forth the circumstances of the student's case which warrant the reduction of the period of expulsion. The county superintendent shall submit the statement to the county board, the principal, the faculty senate and the local school improvement council for the school from which the
student was expelled. The county superintendent may use the following factors as guidelines in
determining whether or not to reduce a mandatory twelve-month expulsion:

(A) The extent of the student’s malicious intent;
(B) The outcome of the student’s misconduct;
(C) The student’s past behavior history;
(D) The likelihood of the student’s repeated misconduct; and
(E) If applicable, successful completion or making satisfactory progress toward successful completion
of Juvenile Drug Court pursuant to section one-d of this section.

(j) In all hearings under this section, facts shall be found by a preponderance of the evidence.

(k) For purposes of this section, nothing herein may be construed to be in conflict with the federal

(l) Each suspension or expulsion imposed upon a student under the authority of this section shall be
recorded in the uniform integrated regional computer information system (commonly known as the West
Virginia Education Information System) described in subsection (f), section twenty-six [§ 18-2-26], article
two, chapter eighteen of this code.

(1) The principal of the school at which the student is enrolled shall create an electronic record within
twenty-four hours of the imposition of the suspension or expulsion.

(2) Each record of a suspension or expulsion shall include the student’s name and identification
number, the reason for the suspension or expulsion and the beginning and ending dates of the
suspension or expulsion.

(3) The state board shall collect and disseminate data so that any principal of a public school in West
Virginia can review the complete history of disciplinary actions taken by West Virginia public schools
against any student enrolled or seeking to enroll at that principal’s school. The purposes of this
provision are to allow every principal to fulfill his or her duty under subsection (b), section fifteen-f [§
18-5-15f], article five, chapter eighteen of this code to determine whether a student requesting to enroll
at a public school in West Virginia is currently serving a suspension or expulsion from another public
school in West Virginia and to allow principals to obtain general information about students’ disciplinary
histories.

(m) Principals may exercise any other authority and perform any other duties to discipline students
consistent with state and federal law, including policies of the state board.

(n) Each county board is solely responsible for the administration of proper discipline in the public schools
of the county and shall adopt policies consistent with the provisions of this section to govern disciplinary
actions.

(o) For the purpose of this section, principal means the principal, assistant principal, vice principal or the
administrative head of the school or a professional personnel designee of the principal or the
administrative head of the school.

§18A-5-1b. Alternative procedures for expulsion hearings by county boards.
The county boards may employ a hearing examiner to conduct the expulsion hearings required by this
article. The hearing examiner shall be an attorney, duly licensed to practice law in the State of West
Virginia and shall not be employed by the State or county boards for any other reason.

The hearing examiner shall conduct hearings in compliance with the guidelines of section one-a [§ 18A-5-
1a] of this article. All hearings shall be recorded by mechanical means, unless recorded by a certified
court reporter. The hearing examiner shall issue a decision and written findings of fact and conclusions of
law within five days of the conclusion of the hearing. Hearings by a hearing examiner shall have the same
force and effect as a decision made by a county board. Upon the written request of a parent, guardian, or
custodian of the student, or the county superintendent, the county board shall review the decision of the
hearing examiner. Within ten calendar days from the date of the request of the review, the county board
shall enter an order affirming, reversing, or modifying the decision of the hearing examiner. A county
board may, in its own discretion, hold a hearing to determine any issues in question.
The authority of the county superintendent shall be the same as contained in section one-a of this article.

§126-99-5. Severability.

A student is entitled to an informal hearing when faced with an out-of-school suspension of 10 days or
less. At this hearing, the principal must explain why the student is being suspended, and the student must
be given the opportunity to present reasons why she/he should not be suspended. However, a student
whose conduct is detrimental to the safety of the school may be suspended immediately and a hearing
held as soon as practical after the suspension. Other procedures the school must follow when dealing
with out-of-school suspensions are outlined in W. Va. Code § 18A-5-1 and § 18A-5-1a and include:

- parent or guardian must be notified promptly in all cases of suspension;
- county superintendent or designee must be notified, preferably in writing, of the time and conditions
  pertaining to the suspension;
- student may not participate in any school-sponsored activities and is not permitted on school grounds
  during the period of suspension; or
- student may not be suspended from school solely for not attending class.

An out-of-school suspension of more than 10 days requires a formal hearing before the county board of
education. The school and county must adhere to the following procedures as outlined in W. Va. Code §
18A-5-1 and § 18A-5-1a when dealing with suspensions of more than 10 days:

§18-5-15f. Affirmation regarding the suspension or expulsion of a pupil from school.
(d) Notwithstanding any other provision of this code to the contrary, any pupil who has been suspended or expelled from school pursuant to section one-a [§ 18A-5-1a], article five, chapter eighteen-a of this code, or who has been suspended or expelled from a public or private school in another state, due to actions described in section one-a, article five, chapter eighteen-a of this code, may not be admitted to any public school within the State of West Virginia until the period of suspension or expulsion has expired.

§18-8-8. Child suspended for failure to comply with requirements and regulations treated as unlawfully absent.
If a child be suspended from school because of improper conduct or refusal of such child to comply with the requirements of the school, the school shall immediately notify the county superintendent of such suspension, and specify the time or conditions of such suspension. Further admission of the child to school may be refused until such requirements and regulations be complied with. Any such child shall be treated by the school as being unlawfully absent from the school during the time he refuses to comply with such requirements and regulations, and any person having legal or actual control of such child shall be liable to prosecution under the provisions of this article for the absence of such child from school:
Provided, That the county board of education does not exclude or expel the suspended child from school.

§18A-5-1. Authority of teachers and other school personnel; exclusion of students having infectious diseases; suspension or expulsion of disorderly students; corporal punishment abolished.
(c) The teacher, may exclude from his or her classroom or school bus any student who is guilty of disorderly conduct; who in any manner interferes with an orderly educational process; who behaves in a manner that obstructs the teaching or learning process of others in the classroom; who threatens, abuses or otherwise intimidates or attempts to intimidate a school employee or a student; who willfully disobeys a school employee; or who uses abusive or profane language directed at a school employee. Any student excluded shall be placed under the control of the principal of the school or a designee. The excluded student may be admitted to the classroom or school bus only when the principal, or a designee, provides written certification to the teacher that the student may be readmitted and specifies the specific type of disciplinary action, if any, that was taken. If the principal finds that disciplinary action is warranted, he or she shall provide written and, if possible, telephonic notice of the action to the parent(s), guardian(s), or custodian(s). When a student is excluded from a classroom or a school bus two times in one semester, and after exhausting all reasonable methods of classroom discipline provided in the school discipline plan, the student may be readmitted to the classroom or the school bus only after the principal, teacher and, if possible, the parent(s), guardian(s), or custodian(s) of the student have held a conference to discuss the student's disruptive behavior patterns, and the teacher and the principal agree on a course of discipline for the student and inform the parent(s), guardian(s), or custodian(s) of the course of action. Thereafter, if the student's disruptive behavior persists, upon the teacher's request, the principal may, to the extent feasible, transfer the student to another setting. The Legislature finds that isolating students or placing them in alternative learning centers may be the best setting for chronically disruptive students. The county board shall create more alternative learning centers or expand its capacity for alternative placements, subject to funding, to correct these students' behaviors so they can return to a regular classroom without engaging in further disruptive behavior.
§18A-5-1d. Return to school through Juvenile Drug Court for certain students.

(c)(3) The student assistance team shall evaluate and recommend whether the student's expulsion period should be reduced, and the student reinstated in school.

(5) A student to be reinstated shall be permitted to return to school no later than the 10th regular school day following notice by the court to the superintendent regarding the student's successful completion or satisfactory progress toward successful completion of Juvenile Drug Court.

LAWS

§18-2-6. Classification and standardization of schools; standards for degrees and diplomas; certificates of proficiency; establishment of alternative education programs.

(d) The state board shall promulgate a rule for the approval of alternative education programs for disruptive students who are at risk of not succeeding in the traditional school structure.

(1) This rule may provide for the waiver of other policies of the state board, the establishment and delivery of a nontraditional curriculum, the establishment of licensure requirements for alternative education program teachers, and the establishment of performance measures for school accreditation.

(2) This rule shall provide uniform definitions of disruptive student behavior and uniform standards for the placement of students in alternative settings or providing other interventions including referrals to local juvenile courts to correct student behavior so that they can return to a regular classroom without engaging in further disruptive behavior.

(e) The state board shall establish up to five pilot projects at the elementary or middle school levels, or both, that employ alternative schools or other placements for disruptive students to learn appropriate behaviors so they can return to the regular classroom without further disrupting the learning environment. The state board shall report to the Legislative Oversight Commission on Education Accountability by December 1, 2010, on its progress in establishing the pilot projects and by December 1 in each year after that for the duration of the pilot projects on the effect of the projects on maintaining student discipline.

(f) If a student attends an approved alternative education program or the Mountaineer Challenge Academy, which is designated as a special alternative education program pursuant to §15-1B-24 of this code, and the student graduates or passes the high school equivalency tests within five years of beginning ninth grade, that student shall be considered graduated for the purposes of calculating the high school graduation rate used for school accreditation and school system approval, subject to the following:

(1) The student shall be considered graduated only to the extent that this is not in conflict with any provision of federal law relating to graduation rates;

(2) If the state board determines that this is in conflict with a provision of federal law relating to graduation rates, the state board shall request a waiver from the United States Department of Education; and

(3) If the waiver is granted, notwithstanding the provisions of §18-2-6(f)(1) of this code, the student graduating or passing the high school equivalency tests within five years shall be considered graduated.

(g) The state board shall promulgate a rule to support the operation of the National Guard Youth Challenge Program operated by the Adjutant General and known as the Mountaineer Challenge Academy which is designated as a special alternative education program pursuant to §15-1B-24 of this code for students who are at risk of not succeeding in the traditional school structure. The rule shall set forth policies and procedures applicable only to the Mountaineer Challenge Academy that provide for, but are not limited to, the following:

(1) Implementation of provisions set forth in §15-1B-24 of this code;

(2) Precedence of the policies and procedures designated by the National Guard Bureau for the operation of the Mountaineer Challenge Academy special alternative education program;

(3) Consideration of a student participating in the Mountaineer Challenge Academy special alternative education program at full enrollment status in the referring county for the purposes of funding and calculating attendance and graduation rates, subject to the following:
(A) The student shall be considered at full enrollment status only for the purposes of calculating attendance and graduation rates to the extent that this is not in conflict with any provision of federal law relating to attendance or graduation rates;

(B) If the state board determines that this is in conflict with a provision of federal law relating to attendance or graduation rates, the state board shall request a waiver from the United States Department of Education;

(C) If the waiver is granted, notwithstanding the provisions of §18-2-6(g)(3)(A) of this code, the student shall be considered at full enrollment status in the referring county for the purposes of calculating attendance and graduation rates; and

(D) Consideration of the student at full enrollment status in the referring county is for the purposes of funding and calculating attendance and graduation rates only. For any other purpose, a student participating in the academy is considered withdrawn from the public school system;

(4) Articulation of the knowledge, skills, and competencies gained through alternative education so that students who return to regular education may proceed toward attainment or may attain the standards for graduation without duplication;

(5) Consideration of eligibility to take the high school equivalency tests by qualifying within the extraordinary circumstances provisions established by state board rule for a student participating in the Mountaineer Challenge Academy special alternative education program who does not meet any other criteria for eligibility; and

(6) Payment of tuition by a county board to the Mountaineer Challenge Academy for each student graduating from the academy with a high school diploma that resides in that county board's school district. For purposes of this subdivision, "tuition" means an amount equal to 75 percent of the amount allotted per pupil under the school aid formula.

(h) Nothing in this section or the rules promulgated under this section compels the Mountaineer Challenge Academy to be operated as a special alternative education program or to be subject to any other laws governing the public schools except by its consent.

(i) The Legislature makes the following findings regarding students at risk:

   (1) Defeated and discouraged learners. -

      (A) Any child who is unlikely to graduate on schedule with both the skills and self-esteem necessary to exercise meaningful options in the areas of work, leisure, culture, civic affairs, and personal relationships may be defined as being an at-risk student;

      (B) Problems associated with students at risk often begin for them in the early grades as they gradually fall further behind in the essential skills of reading, writing, and math;

      (C) These problems may be accompanied by such behavior patterns as poor attendance, inattentiveness, negative attitudes, and acting out in class. These patterns are both symptoms of and added catalysts for students to become increasingly defeated and discouraged learners;

      (D) By the middle grades, students with growing skill deficits usually know they are behind other students and have good reason to feel discouraged. A growing lack of self-confidence and self-worth, limited optimism for the future, avoidance of school and adults, and a dimming view of the relationship between effort and achievement are among the characteristics of defeated and discouraged learners;

      (E) Public schools are expected to address the needs of all students, minimizing the likelihood that they will become at risk and giving additional attention to those who do; however, the circumstances involved with a becoming at risk often are complex and may include influences both within and outside of the school environment; and
(F) In fragile homes, a child who is at risk and is becoming a discouraged and defeated learner often lacks adequate support and may develop peer relationships that further exacerbate the difficulty of reengaging him or her in learning, school, and responsible social behavior.

(2) The Legislature further finds that the public schools should not be deterred from seeking and assisting with enrollment of students in an alternative program that helps remedy the discouragement, lessens skill deficits, and facilitates a successful return to public school.

(j) For this purpose, subject to approval of the county superintendent, a student enrolled in the public schools of the county may continue to be enrolled while also enrolled in an alternative program subject to the following conditions:

1. The alternative program is approved by the state board;
2. The student meets the general description of an at-risk student and exhibits behaviors and characteristics associated with a discouraged and defeated learner;
3. The alternative program complies with all requests of the county superintendent for information on the educational program and progress of the student;
4. The alternative program includes a family involvement component in its program. This component shall include, but is not limited to, providing for student and parent participation in activities that help address the challenging issues that have hindered the student's engagement and progress in learning;
5. The alternative program includes an on-site boarding option for students;
6. The alternative program provides an individualized education program for students that is designed to prepare them for a successful transition back into the public schools; and
7. The parents or legal guardian of the student make application for enrollment of the student in the alternative program, agree to the terms and conditions for enrollment, and enroll the student in the program.

§18A-5-1. Authority of teachers and other school personnel; exclusion of students having infectious diseases; suspension or expulsion of disorderly students; corporal punishment abolished.

(c) The teacher, may exclude from his or her classroom or school bus any student who is guilty of disorderly conduct; who in any manner interferes with an orderly educational process; who behaves in a manner that obstructs the teaching or learning process of others in the classroom; who threatens, abuses or otherwise intimidates or attempts to intimidate a school employee or a student; who willfully disobeys a school employee; or who uses abusive or profane language directed at a school employee. Any student excluded shall be placed under the control of the principal of the school or a designee. The excluded student may be admitted to the classroom or school bus only when the principal, or a designee, provides written certification to the teacher that the student may be readmitted and specifies the specific type of disciplinary action, if any, that was taken. If the principal finds that disciplinary action is warranted, he or she shall provide written and, if possible, telephonic notice of the action to the parent(s), guardian(s), or custodian(s). When a student is excluded from a classroom or a school bus two times in one semester, and after exhausting all reasonable methods of classroom discipline provided in the school discipline plan, the student may be readmitted to the classroom or the school bus only after the principal, teacher and, if possible, the parent(s), guardian(s), or custodian(s) of the student have held a conference to discuss the student's disruptive behavior patterns, and the teacher and the principal agree on a course of discipline for the student and inform the parent(s), guardian(s), or custodian(s) of the course of action. Thereafter, if the student's disruptive behavior persists, upon the teacher's request, the principal may, to the extent feasible, transfer the student to another setting. The Legislature finds that isolating students or placing them in alternative learning centers may be the best setting for chronically disruptive students. The county board shall create more alternative learning centers or expand its capacity for alternative placements, subject to funding, to correct these students' behaviors so they can return to a regular classroom without engaging in further disruptive behavior. [...]
(e) The Legislature finds that suspension from school is not appropriate solely for a student's failure to attend class. Therefore, a student may not be suspended from school solely for not attending class. Other methods of discipline may be used for the student which may include, but are not limited to, detention, extra class time or alternative class settings.

§18A-5-1a. Possessing deadly weapons on premises of educational facilities; possessing a controlled substance on premises of educational facilities; assaults and batteries committed by students upon teachers or other school personnel; temporary suspension, hearing; procedure, notice and formal hearing; extended suspension; sale of narcotic; expulsion; exception; alternative education.

A county board that expels a student, and finds that the student is a dangerous student, may refuse to provide alternative education. However, after a hearing conducted pursuant to this section for determining whether a student is a dangerous student, when the student is found to be a dangerous student, is expelled and is denied alternative education, a hearing shall be conducted within three months after the refusal by the board to provide alternative education to reexamine whether or not the student remains a dangerous student and whether the student shall be provided alternative education. Thereafter, a hearing for the purpose of reexamining whether or not the student remains a dangerous student and whether the student shall be provided alternative education shall be conducted every three months for so long as the student remains a dangerous student and is denied alternative education. During the initial hearing, or in any subsequent hearing, the board may consider the history of the student's conduct as well as any improvements made subsequent to the expulsion. If it is determined during any of the hearings that the student is no longer a dangerous student or should be provided alternative education, the student shall be provided alternative education during the remainder of the expulsion period.

§18A-5-1c. Bill of rights and responsibilities for students and school personnel.

(a) The Legislature finds that:

(1) The mission of public schools is to prepare students for equal and responsible citizenship and productive adulthood;

(2) Democratic citizenship and productive adulthood begin with standards of conduct in schools;

(3) Schools should be safe havens for learning with high standards of conduct for students; and

(4) Rights necessarily carry responsibilities.

(b) In recognition of the findings in this section, the following Bill of Rights and Responsibilities for Students and School Personnel is established:

(3) The right to learn and work in a school that has alternative educational placements for violent or chronically disruptive students.

REGULATIONS

§126-42-7. County board of education responsibilities.

7.1.f. Alternate Delivery of Education Programs. The school shall follow county policies and procedures when providing for alternative delivery of education and service programs for students. A thorough and efficient education must be available to all students, whether they are placed in regular or alternative programs.

§126-81-5. Responsibilities.

5.2. Each county's attendance policy shall address the following components:

5.2.b. County school systems are responsible for:

5.2.b.7. assuring that a student may not be suspended solely for failure to attend class. Other methods of discipline may include, but are not limited to, detention, extra class time, or alternative class settings.

Chapter 4 Procedures for Taking Action on Substantiated Inappropriate Behaviors

Section 1. Interventions and Consequences of Inappropriate Behavior

When a student is excluded from a classroom or a school bus two times in one semester, and after exhausting all reasonable methods of classroom discipline provided in the school discipline plan, the student may be readmitted to the classroom or the school bus only after the principal, teacher and, if possible, the parent or guardian of the student have held a conference to discuss the student's disruptive behavior patterns and agree on a course of action. If they are not present at the conference then the parent or guardian must be notified of the course of action. Thereafter, if the student's disruptive behavior persists, upon the teacher's request, the principal may, to the extent feasible, transfer the student to another setting. [...] 

Chapter 5 Alternative Education Requirements for Disruptive Students

W. Va. Code § 18-5-19 provides for the creation of alternative education programs to allow for the provision of a free and appropriate education to students whose disruptive behavior has caused them to be removed from the regular classroom/school setting. Nothing in this manual precludes county boards of education from operating alternative education programs for non-disruptive students. The guidelines in this manual apply solely to alternative education programs for disruptive students. The State Superintendent of School's approval of the county alternative education policies and procedures is required for authorization to operate an alternative education program under these regulations.

Alternative education program is a temporarily authorized departure from the regular school program designed to provide educational and social development for students whose disruptive behavior places them at risk of not succeeding in the traditional school structures and in adult life without positive interventions. These programs provide a safe and orderly learning environment for the education of all students in West Virginia public schools and meet the educational needs of disruptive students.

Alternative education programs for disruptive students encompass a range of program options such as:

. in-school suspension;
. a separate part-time or full-time alternative education classroom;
. a school-within-a-school;
. a school at an alternative site;
. an afterschool class/night school program; or
. a combination academic/work-based program.

County boards of education shall have flexibility in developing the type or types of alternative education program options needed to meet the needs of disruptive students in the county. County boards of education may request a waiver of State Board of Education policies and regulations in the development and operation of alternative education programs. Such a waiver request does not have to be submitted in accordance with the procedures for requesting waivers stipulated under W. Va. Code § 18-5A-3, but may be submitted directly to the State Superintendent of Schools.

Program flexibility does not extend to modifying the provisions of Policy 2419 in providing alternative education programs for students with exceptionalities or Section 504 of the Rehabilitation Act of 1973.

Section 1. Policies and Procedure County boards of education policies and procedures shall include, but are not limited to the:

. goals of the program;
. eligibility criteria and process for placement of students in the program as determined by Student Assistance Team as defined by W. Va. 126CSR42, WVBE Policy 2510, Assuring the Quality of Education: Regulations for Education Programs (Policy 2510);
involvement of parent or guardian and community agencies;
length and time of day the after-hours/night school program operates, if applicable;
plan for awarding of grades and/or credits;
behavioral management plan as an alternative to the county’s discipline policy, if applicable;
staffing plan, personnel qualifications, and class size limits;
criteria for completion of the alternative education program or re-entry into general education; and
performance measures and process for program evaluation.

Section 2. Eligibility and Placement A student may be placed in alternative education programs for:
violations of the W. Va. Code § 18A-5-1a;
repeated violations of the county's discipline policy following documented multiple behavioral interventions by the Student Assistance Team at the referring school; or
continuation of educational services during periods of suspension.

A student who has been expelled must be placed in an alternative education program unless found to be a "dangerous student" under the procedures set forth in W. Va. Code § 18A-5-1a.

A student who has been suspended or expelled from a public or private school in West Virginia or another state, currently residing within the county, may not be denied enrollment unless determined to be a "dangerous student" under the procedures set forth in W. Va. Code § 18A-5-1a.

Upon placement, the Student Assistant Team shall develop a student's written plan which includes academic courses and behavioral components, criteria for re-entry to the regular school program, and provisions for periodic review of the student's progress at least on an annual basis. The team for all students with disabilities shall be the IEP team and the written plan shall be the IEP.

Section 3. County Alternative Education Requirements Curriculum. The curriculum will be based upon state-approved standards and include a component for teaching responsible behavior in a climate/culture conducive to teaching and learning.

Instruction. The instruction shall be personalized in a developmentally and age appropriate delivery.

Units of Credit. Units of credit are granted based upon proficiency of state-approved content standards.

Program Completion. A student may complete an alternative education program in one of the following manners:
fulfillment of the criteria for re-entry into the referral school;
completion of high school graduation requirements and awarding of a high school diploma from the referral school; or
completion of a high school equivalency exam in accordance with W. Va. 126CSR32, WVBE Policy 2444.4, Issuance of the State of West Virginia High School Equivalency Diploma and Option Pathway.

State Assessment. A student shall participate in the appropriate assessment according to W. Va. 126CSR14, WVBE Policy 2340, West Virginia Measures of Academic Progress Program. The test scores for these students shall be counted in the results of the referral school.

Support Services. A student shall receive counseling and/or other support services as indicated in the student's written plan.

Special Education. A student's IEP shall comply with applicable state and federal laws and regulations.

Licensure. A teacher assigned to deliver the state-approved content standards within an alternative education program must possess a West Virginia professional teaching certificate in any area. A Temporary Authorization valid for one year shall be granted to the successful candidate for the alternative education program position. The employing county superintendent must verify that the applicant
possesses the required competencies. The Temporary Authorization may be renewed each year based on the applicant's continued employment in an alternative education program.

Personnel Selection Criteria. A certified classroom teacher shall be selected on the basis of the teacher's demonstration of competence in meeting the following standards:

. ability to effect positive behavior in disruptive students;
. effective leadership and/or mentoring skills in working with youth;
. successful experience in providing education to troubled or disruptive youth;
. specialized training or experience in non-traditional programs; and
. specialized training in behavior management skills.

Section 4. Optional Alternative Education Settings Day-School Programs. Absent expulsion, a student attending an alternative education day school program shall have the opportunity to receive a full-time instructional program and full instructional day.

After-Hours/Night School Classes. County boards of education are authorized to provide alternative education programs after regular school hours for expelled students and for students who have repeated serious violations of the county's discipline policy following documented multiple behavioral interventions and out-of-school suspensions. After-hour/night school programs shall include the provision of academic coursework and development of social skills and appropriate behavior. Unless otherwise required by law, regulation, or court order, transportation services for such programs are at the discretion of the county board of education.

Home-Based Programs for Disruptive Students. County boards of education may provide home-based programs solely for students expelled under the Productive and Safe Schools Act (W. Va. Code § 18A-5-1a) or for disruptive students who meet the eligibility criteria for home/hospital instruction under Policy 2510.

Program Evaluation. County boards of education shall conduct an annual evaluation of the effectiveness of the programs. The evaluation shall focus upon the impact on student performance and results using indicators such as:

. academic gains;
. reduction in dropout rates;
. reduction in incidences requiring disciplinary action;
. improvement in attendance rates;
. rates of successful program completion and return to the regular school program;
. rates of successful completion of career and technical training programs;
. rates of successful completion of high school graduation or attainment of a high school equivalency diploma; and
. rates of successful job placement and job retention.

The WVDE shall review compliance with alternative education requirements and the effectiveness of alternative education programs through monitoring and review of the application received annually. The alternative education program shall be evaluated on the basis of its stated goals and the provisions of this policy.

(b) In the case of three total unexcused absences of a student during a school year, the attendance director, assistant, or principal shall make meaningful contact with the parent, guardian, or custodian of the student to ascertain the reasons for the unexcused absences and what measures the school may employ to assist the student in attending and not incurring any additional unexcused absences.

(c) In the case of five total unexcused absences, the attendance director or assistant or principal shall again make meaningful contact with the parent, guardian, or custodian of the student to ascertain the reasons for the unexcused absences and what measures the school may employ to assist the student in attending school and not incurring any additional unexcused absences.

Such reports shall be on the form prescribed for such purpose, by telephone, or in person, and shall include essential information about the child and the name and residence of any parent, guardian or custodian of a child.

school shall be considered as attending the school in which enrolled and shall be included only in the
report of attendance from the school in which the child is enrolled at the time.

provides for the referral of truant juveniles for supervision by the court's probation office pursuant to § 49-
4-711 of this code and (2) requires the county board to pay for the costs of the probation officer or officers
assigned to supervise truant juveniles, shall be reimbursed for one half of the costs of the probation

REGULATIONS

§126-42-7. County board of education responsibilities.
7.1. Schools shall implement WVBE and county policies as well as county and school procedures to ensure high quality delivery of their education program. In meeting this responsibility, schools shall address the following components of a high quality education program.

7.1.a. Administrative Practices.

7.1.a.6. Implement a system to monitor absences and dropout rates and, when appropriate, developing plans to reduce the student absenteeism and dropout rates.

§126-81-1. General.
1.1. Scope. - This legislative rule establishes guidelines for the development of county attendance policies.

§126-81-2. Rationale.
2.1. The WVBE recognizes that a direct relationship exists between students' daily school attendance and academic performance, graduation, and the development of good work habits. This attendance policy promotes students' daily school attendance. Each county shall be required to develop and implement a county attendance policy in accordance with this policy. Daily attendance is necessary for students to meet their schools' academic program standards as each day's learning builds on the work previously completed. While students and parents/guardians/custodians have the ultimate responsibility for daily school attendance, the laws of West Virginia require school administrators to enforce regular attendance of compulsory school aged students, and to provide a school environment conducive to, and encouraging of, attendance.

§126-81-3. Policy development.
3.2. Allowable Deductions for Schools. Beginning with the 2016-2017 school year, absences that result from school approved curricular/co-curricular activities, failure of the bus to run/hazardous conditions, students not in attendance due to disciplinary measures, and school/county directed placements outside the traditional classroom environment including but not limited to homebound placement and in-school suspension.

§126-81-4. Definitions.
4.1. The WVBE shall encourage daily attendance and mandate that county school systems adequately address student absences including tardiness.

4.2. The WVBE shall define allowable deductions for purposes of state attendance reports and statistics. Schools shall not be held accountable for absences resulting from allowable deductions. These absences shall not be calculated in the school's/county's attendance rate.

4.3. Each county board of education shall:

4.3.a. establish an attendance policy as described in section 6.

4.3.b. employ a certified county director of school attendance as required by W. Va. Code §18-8-3.

4.3.c. support and require the county attendance director to implement and execute the duties as defined in W. Va. Code §18-8-4:

4.3.c.1. The attendance director and assistant director shall diligently promote regular school attendance through meaningful contact. They shall ascertain reasons for unexcused absences from school of students of compulsory school age and students who remain enrolled beyond the compulsory school age. They shall take such steps as are, in their discretion, best calculated to
encourage the attendance of students and to impart upon the parents/guardians/custodians the importance of attendance and the seriousness of failing to attend school regularly.

4.3.c.2. In the case of three total Unexcused Absences of a student during a school year, the attendance director, assistant director, or principal shall make meaningful contact with the parent/guardian/custodian of the student to ascertain the reasons for the Unexcused Absences and what measures the school may employ to assist the student in attending and not incurring any additional Unexcused Absences.

4.3.c.3. In the case of five total Unexcused Absences, the attendance director or assistant director or principal shall again make meaningful contact with the parent/guardian/custodian of the student to ascertain the reasons for the Unexcused Absences and what measures the school may employ to assist the student in attending school and not incurring any additional Unexcused Absences.

4.3.c.4. In the case of 10 total Unexcused Absences of a student during a school year, the attendance director or assistant director may make complaint against the parent/guardian/custodian before a magistrate of the county. If it appears from the complaint that there is a probable cause to believe that an offense has been committed and that the accused has committed it, a summons or a warrant for the arrest of the accused shall issue to any officer authorized by law to serve the summons or to arrest persons charged with offenses against the state. More than one parent/guardian/custodian may be charged in a complaint. Initial service of the summons or warrant issued pursuant to the provisions of W. Va. Code §18-8-4 shall be attempted within 10 calendar days of the receipt of the summons or warrant and subsequent attempts at service shall continue until the summons or warrant is executed or until the end of the school term during which the complaint is made, whichever is later.

4.3.c.5. When calculating Unexcused Absences for the purpose of making complaints against a parent/guardian/custodian before a magistrate, Unexcused Absences resulting from suspensions or expulsions from school shall not be considered.

4.3.c.6. The magistrate court clerk, or the clerk of the circuit court performing the duties of the magistrate court as authorized in W. Va. Code §50-1-8, shall assign the case to a magistrate within 10 days of execution of the summons or warrant. The hearing shall be held within 20 days of the assignment to the magistrate, subject to lawful continuance. The magistrate shall provide to the accused at least 10 days advance notice of the date, time, and place of the hearing.

4.3.c.7. When any doubt exists as to the age of a student absent from school, the attendance director or assistant director has authority to require a properly attested birth certificate or an affidavit from the parent/guardian/custodian of the student, stating age of the student. In the performance of their duties, the attendance director or assistant director has authority to take without warrant any student absent from school in violation of the provisions of this article and to place the student in the school in which the student is or should be enrolled.

4.3.c.8. All attendance directors and assistant directors hired for more than 200 days may be assigned other duties determined by the superintendent during the period in excess of 200 days. The county attendance director is responsible under direction of the superintendent for efficiently administering school attendance in the county.

4.3.c.9. In addition to those duties directly relating to the administration of attendance, the attendance director and assistant director shall:

4.3.c.9.A. assist in directing the taking of the school census to see that it is taken at the time and in the manner provided by law;

4.3.c.9.B. confer with principals and teachers on the comparison of school census and enrollment for the detection of possible non-enrollees;
4.3.c.9.C. cooperate with existing state and federal agencies charged with enforcing child labor laws;
4.3.c.9.D. promote attendance in the county by compiling data for schools and by furnishing suggestions and recommendations for publication through media, or in such manner as the superintendent may direct;
4.3.c.9.E. participate in teachers’ conferences with parents/guardians/custodians and students;
4.3.c.9.F. assist in such other ways as the superintendent may direct for improving school attendance; and
4.3.c.9.G. make home visits of students who have excessive Unexcused Absences or if requested by the chief administrator, principal, or assistant principal.
4.3.c.10. The attendance director shall serve as the liaison for homeless children and youth as defined in W. Va. Code §18-8-4 and defined in McKinney-Vento Act. The attendance director shall:
4.3.c.10.A. ensure that public notice of the educational rights of students in homeless situations is disseminated where children and youth receive services;
4.3.c.10.B. ensure that parents/guardians/custodians are informed of educational and related opportunities available to their children, and are provided with meaningful opportunities to participate in the education of their children;
4.3.c.10.C. ensure that parents/guardians/custodians are informed of, and assisted in accessing, all transportation services for their children, including to the school of origin;
4.3.c.10.D. help unaccompanied youth choose and enroll in a school, after considering the youth’s wishes, and provide the youth with notice of the right to appeal the county’s decision;

4.3.c.10.G. ensure that homeless children and youths enroll in, and have a full and equal opportunity to succeed in, schools of that county;
4.3.c.10.H. ensure that homeless families, children, and youth receive educational services for which such families, children, and youths are eligible including Head Start and preschool programs administered by the local educational agency, and referrals to health care services, dental services, mental health services, and other appropriate services; and
4.3.c.10.I. ensure that enrollment disputes are mediated as outlined in Paragraph (3)(E) of the McKinney-Vento Act.
4.3.c.11. The attendance director shall file with the superintendent and county board of education, at the close of each month, a report showing activities of the attendance office and the status of attendance in the county at the time due to provisions in W. Va. Code §18-8-4.
4.3.d. support and require the principal to implement and execute the duties as defined in W. Va. Code §18-8-5:
4.3.d.1. The principal shall compare school numbers with school enrollment monthly.
4.3.d.2. In the case of five total Unexcused Absences, the attendance director or assistant director or principal shall make meaningful contact with the parent/guardian/custodian of the student to ascertain the reasons for the Unexcused Absences and what measures the school may employ to assist the student in attending and not incurring any additional Unexcused Absences.
4.3.d.3. It shall be the duty of the principal of each school, whether public or private, to make meaningful contact and provide prompt reports to the attendance director, or proper assistant director, of all cases of Unexcused Absences arising within the school which require the services of an attendance worker.

4.3.d.4. A student whose educational services are guided by an existing SAT Plan, IEP, or Section 504 Plan may warrant special consideration when a pattern of single, multiple, or chronic absences exist. The student's current status should be reviewed by the SAT, IEP, or Section 504 Plan team as deemed appropriate and in accordance with state and federal laws.

4.4. Each parent/guardian/custodian is responsible for fully cooperating in and completing the enrollment process by providing:

4.4.a. immunization documentation (W. Va. Code §16-3-4),
4.4.b. copy of a certified birth certificate or affidavit (W. Va. Code §18-2-5c),
4.4.c. signed suspension and expulsion document (W. Va. Code §18-5-15), and
4.4.d. any other documents required by federal, state, and/or local policies or code.

4.5. Jurisdiction to enforce compulsory school attendance law lies in the county in which a student resides and in the county where the school in which the student is enrolled is located. When the county of residence and enrollment are different, an action to enforce compulsory school attendance may be brought in either county and the magistrates and circuit courts of either county have noncurrent jurisdiction for the trial of offenses arising under W. Va. Code §18-8-4.

4.6. Nothing in this policy is intended to limit the ability of a person having knowledge of a student's habitual absence from school from filing a petition with the circuit court pursuant to W. Va. Code §49-4-704.

(a) The state board in conjunction with the Division of Homeland Security and Emergency Management shall promulgate by December 31, 2011, a legislative rule in accordance with article three-b [§§ 29A-3B-1 et seq.], chapter twenty-nine-a of this code, and if necessary may promulgate an emergency rule in accordance with said article, for the establishment of an up-to-date, school specific crisis response plan at every school in the state. 3.1. The CSCP is an integral part of the total school program and is aligned with the school's mission. The CSCP is a proactive, systemic approach to assist students with the acquisition of attitudes, knowledge, skills, and behaviors necessary to maximize student success and preparation for a variety of postsecondary options. The CSCP provides universal prevention for all students, targeted interventions for at-risk students, and intensive interventions for the most at-risk students. The CSCP is standards-based and designed to developmentally and sequentially address the WVSSS within each programmatic level. The CSCP utilizes school and community data to identify student needs in relation to the CSCP and to set annual priorities for the WVSSS. A certified school counselor, in collaboration with school and community stakeholders, will develop an Annual CSCP Plan in order to coordinate and implement a CSCP designed to address student needs. The CSCP contains four distinct delivery systems.

4.1. Each county board of education shall ensure that the CSCP:
   4.1.e. is aligned with the West Virginia School Counseling Model, a three-tiered system of student support that provides universal prevention, targeted interventions, and intensive interventions.

§126-67-5. Delivery components of comprehensive school counseling program.
5.1. This section defines components of a standards-focused and evidence-based CSCP to be addressed by county policy and monitored by county and school leadership. Delivery components include:
   5.1.c. Responsive Services are provided when events and situations in students' lives or in the school climate and culture impedes student success. Responsive services offer preventive activities and programs to address the identified needs of students in each school, as well as evidence-based interventions to address targeted student needs. The services include working with at-risk students to provide the help and support needed to ensure grade level success. Usually short-term in nature, responsive services include individual and small group counseling, academic and behavior intervention plans, crisis prevention and response, consultation with parents/guardians and other school staff, and referrals to school and community resources. Some students may require an immediate and expert response to assist with an academic, emotional, or behavioral crisis. In cases where students require ongoing support or therapy, the counselor makes appropriate referrals and works with families to secure appropriate resources within the school or community. Schools identify who will coordinate and follow-up on each referral. The school counselor collaborates with stakeholders to create a school-wide, prevention-based approach to individual and school crises and has a crisis plan in place to address the mental health component of common school-wide crises. The school crisis team educates other stakeholders to assist with school-wide crisis preparedness, prevention, intervention, and response, outlining responsibilities and best practices in the school crisis planning and response.

LAWS

§18A-5-1. Authority of teachers and other school personnel; exclusion of students having infectious diseases; suspension or expulsion of disorderly students; corporal punishment abolished.
(g) Each county board is solely responsible for the administration of proper discipline in the public schools of the county and shall adopt policies consistent with the provisions of this section to govern disciplinary
actions. These policies shall encourage the use of alternatives to discipline practices, provide for the training of school personnel in alternatives to discipline practices, and provide for encouraging the involvement of parent(s), guardian(s) or custodian(s) in the maintenance of school discipline. To promote a teaching and learning environment free from substantial classroom disturbances, each county board shall ensure that each school implements a tier system policy, with teacher input, to provide a framework for student behaviors and punishments. The policy shall be clear and concise with specific guidelines and examples. The principal shall support the teacher in the discipline of the students if proper cause and documentation is provided following the schoolwide discipline policy. The teacher may not be reprimanded if their actions are legal and within the structure of the county board’s policy for student behavior and punishment. The county board policies shall also include an appeal procedure whereby a teacher may appeal to the county superintendent if a school principal refuses to allow the exclusion of a student from the classroom or if a teacher believes the school principal has prematurely ended the exclusion of a student from the classroom. The county boards shall provide for the immediate incorporation and implementation in schools of a preventive discipline program which may include the responsible student program and a student involvement program, which may include the peer mediation program, devised by the West Virginia Board of Education. Each county board may modify those programs to meet the particular needs of the county. The county boards shall provide in-service training for teachers and principals relating to assertive discipline procedures and conflict resolution. The county boards also may establish cooperatives with private entities to provide middle educational programs, which may include programs focusing on developing individual coping skills, conflict resolution, anger control, self-esteem issues, stress management and decision making for students, and any other program related to preventive discipline.

REGULATIONS

2.1. The West Virginia Board of Education (WVBE) recognizes the need for students, teachers, administrators, and other school personnel to have a safe and supportive educational environment. This rule requires county boards of education to design and implement procedures to create and support continuous school climate and culture improvement processes within all schools that will ensure an orderly and safe environment that is conducive to learning.

Section 1. Procedures for Reporting Complaints of Inappropriate Behavior School employees are responsible for assuring a safe and supportive school climate and culture. Inappropriate behaviors observed by students or guests must be reported to the appropriate personnel for action to be taken according to county policy.

County boards of education shall develop procedures to assure that any person who believes he or she is a victim or witness to a violation of Policy 4373 has an identified mechanism to report the alleged acts immediately to the appropriate official(s) designated by the county. These procedures do not deny the right of any individual to pursue other avenues of recourse which may include filing charges with the West Virginia Human Rights Commission, initiating civil action, or seeking redress under the state criminal statutes and/or federal law.

County boards of education shall develop appropriate procedures for investigating, reporting, responding, and determining consequences for the failure of an employee to appropriately respond to violations of Policy 4373, in accordance with W. Va. §126CSR142, Policy 5310, Performance Evaluation of School Personnel, in a manner that promotes understanding and respect.

These procedures do not deny the right of any individual to pursue other avenues of recourse which may include filing charges with the West Virginia Human Rights Commission, initiating civil action, or seeking redress under the state criminal statutes and/or federal law.

All alleged incidents of harassment or violence observed by faculty or staff must be reported to the appropriate official(s) and appropriate action should be taken as specified in Section 2 of this chapter.

§18-8-4. Duties of attendance director and assistant directors; complaints, warrants, and hearings.

(b) In the case of three total unexcused absences of a student during a school year, the attendance director, assistant, or principal shall make meaningful contact with the parent, guardian, or custodian of the student to ascertain the reasons for the unexcused absences and what measures the school may employ to assist the student in attending and not incurring any additional unexcused absences.

(c) In the case of five total unexcused absences, the attendance director or assistant or principal shall again make meaningful contact with the parent, guardian, or custodian of the student to ascertain the reasons for the unexcused absences and what measures the school may employ to assist the student in attending school and not incurring any additional unexcused absences.

If it appears from the complaint that there is probable cause to believe that an offense has been committed and that the accused has committed it, a summons or a warrant for the arrest of the accused shall issue to any officer authorized by law to serve the summons or to arrest persons charged with offenses against the state. More than one parent, guardian or custodian may be charged in a complaint. Initial service of a summons or warrant issued pursuant to the provisions of this section shall be attempted within ten calendar days of receipt of the summons or warrant and subsequent attempts at service shall continue until the summons or warrant is executed or until the end of the school term during which the complaint is made, whichever is later.

§18-8-5. Duties of principal, administrative head or other chief administrator.

If the principal, administrative head or other chief administrator of a school determines that an enrolled pupil has accumulated unexcused absences from attendance at such school for five instructional days during any one half of the instructional term, the principal, administrative head or other chief administrator shall contact any parent, guardian or custodian of the pupil and shall hold a meeting with any person so contacted, and the pupil, and any other person that the administrator deems a relevant participant in such meeting.

§18A-5-1. Authority of teachers and other school personnel; exclusion of students having infectious diseases; suspension or expulsion of disorderly students; corporal punishment abolished.

(c) The teacher, may exclude from his or her classroom or school bus any student who is guilty of disorderly conduct; who in any manner interferes with an orderly educational process; who behaves in a manner that obstructs the teaching or learning process of others in the classroom; who threatens, abuses or otherwise intimidates or attempts to intimidate a school employee or a student; who willfully disobeys a school employee; or who uses abusive or profane language directed at a school employee. Any student excluded shall be placed under the control of the principal of the school or a designee. The excluded student may be admitted to the classroom or school bus only when the principal, or a designee, provides written certification to the teacher that the student may be readmitted and specifies the specific type of disciplinary action, if any, that was taken. If the principal finds that disciplinary action is warranted, he or she shall provide written and, if possible, telephonic notice of the action to the parent(s), guardian(s), or custodian(s). When a student is excluded from a classroom or a school bus two times in one semester, and after exhausting all reasonable methods of classroom discipline provided in the school discipline plan, the student may be readmitted to the classroom or the school bus only after the principal, teacher and, if possible, the parent(s), guardian(s), or custodian(s) of the student have held a conference to
discuss the student's disruptive behavior patterns, and the teacher and the principal agree on a course of discipline for the student and inform the parent(s), guardian(s), or custodian(s) of the course of action. Thereafter, if the student's disruptive behavior persists, upon the teacher's request, the principal may, to the extent feasible, transfer the student to another setting. The Legislature finds that isolating students or placing them in alternative learning centers may be the best setting for chronically disruptive students. The county board shall create more alternative learning centers or expand its capacity for alternative placements, subject to funding, to correct these students' behaviors so they can return to a regular classroom without engaging in further disruptive behavior.

Section 6. Collaboration with Law Enforcement Police can enter schools if they suspect a crime has been committed, have a warrant for an arrest or search, or if their assistance has been requested by school officials. It is the duty of the school officials, teachers, and students to cooperate with the police and each other to ensure that the rights of all involved persons are respected.
Prevention Resource Officers (PRO). PRO are certified police officers, working fulltime within a public school. The PRO duties, salary, and responsibilities should be determined through an agreement with the county board of education and the authorized police department. The principal is the immediate supervisor while the PRO officer is present in the school. There may be a time during the course of PRO duties when the officer's position as law enforcement would take precedence.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2023. Grounds for Suspension or Expulsion

LAWS

119.25. Expulsion of pupils.

(1) The board may adopt a resolution, which is effective only during the school year in which it is adopted, authorizing any of the following to determine pupil expulsion from school under sub. (2) instead of using the procedure under s. 120.13 (1)(c):

(a) An independent hearing panel appointed by the board.

(b) An independent hearing officer appointed by the board.

(2)(a) During any school year in which a resolution adopted under sub. (1) is effective, the independent hearing officer or independent hearing panel appointed by the board:

1. May expel a pupil from school whenever the hearing officer or panel finds that the pupil engaged in conduct that constitutes grounds for expulsion under s. 120.13 (1)(c) 1. or 2.

2. Shall commence proceedings under par. (b) and expel a pupil from school for not less than one year whenever the hearing officer or panel finds that the pupil engaged in conduct that constitutes grounds for expulsion under s. 120.13 (1)(c) 2m.

(b) No administrator may be designated to participate in an expulsion hearing if he or she was involved in the incident that led to the expulsion proceeding. Prior to expelling a pupil, the hearing officer or panel shall hold a hearing. Upon request of the pupil and, if the pupil is a minor, the pupil's parent or guardian, the hearing shall be closed. The pupil and, if the pupil is a minor, the pupil's parent or guardian, may be represented at the hearing by counsel. The hearing officer or panel shall keep a full record of the hearing. The hearing officer or panel shall inform each party of the right to a complete record of the proceeding. Upon request, the hearing officer or panel shall direct that a transcript of the record be prepared and that a copy of the transcript be given to the pupil and, if the pupil is a minor, the pupil's parent or guardian. Upon the ordering by the hearing officer or panel of the expulsion of a pupil, the school district shall mail a copy of the order to the board, the pupil and, if the pupil is a minor, the pupil's parent or guardian. A school board, hearing officer or panel may disclose the transcript to the parent or guardian of an adult pupil, if the adult pupil is a dependent of his or her parent or guardian under section 152 of the internal revenue code. Within 30 days after the date on which the order is issued, the board shall review the expulsion order and shall, upon review, approve, reverse or modify the order. The order of the hearing officer or panel shall be enforced while the board reviews the order. The expelled pupil or, if the pupil is a minor, the pupil's parent or guardian may appeal the board's decision to the state superintendent. If the board's decision is appealed to the state superintendent, within 60 days after the date on which the state superintendent receives the appeal, the state superintendent shall review the decision and shall, upon review, approve, reverse or modify the decision. The decision of the board shall be enforced while the state superintendent reviews the decision. An appeal from the decision of the state superintendent may be taken within 30 days to the circuit court for the county in which the school is located.

(c) Not less than 5 days' written notice of the hearing under par. (b) shall be sent to the pupil and, if the pupil is a minor, to the pupil's parent or guardian. The notice shall include all of the information specified in s. 120.13 (1)(e) 4.(d)1. In this paragraph:
a. "Early reinstatement" means the reinstatement to school of an expelled pupil before the expiration of the term of expulsion specified in the pupil's expulsion order under par. (b).

b. "Early reinstatement condition" means a condition that a pupil is required to meet before he or she may be granted early reinstatement or a condition that a pupil is required to meet after his or her early reinstatement but before the expiration of the term of expulsion specified in the pupil's expulsion order under par. (b).

2. An independent hearing panel or independent hearing officer appointed by the board may specify one or more early reinstatement conditions in the expulsion order under par. (b) if the early reinstatement conditions are related to the reasons for the pupil's expulsion. Within 15 days after the date on which the expulsion order is issued, the expelled pupil or, if the pupil is a minor, the pupil's parent or guardian may appeal the determination regarding whether an early reinstatement condition specified in the expulsion order is related to the reasons for the pupil's expulsion to the board. The decision of the board regarding that determination is final and not subject to appeal.

3. If the superintendent of schools or his or her designee, who shall be someone other than a principal, administrator or teacher in the pupil's school, determines that a pupil has met the early reinstatement conditions that he or she is required to meet before he or she may be granted early reinstatement, the superintendent of schools or designee may grant the pupil early reinstatement. The determination of the superintendent of schools or designee is final.

4. If a pupil violates an early reinstatement condition that the pupil was required to meet after his or her early reinstatement but before the expiration of the term of expulsion, the superintendent of schools or a principal or teacher designated by the superintendent of schools may revoke the pupil's early reinstatement as provided in s. 120.13 (1)(h) 4.

5. Except as provided in subd. 6., if the pupil's early reinstatement is revoked under subd. 4., the pupil's expulsion shall continue to the expiration of the term specified in the expulsion order unless the pupil or, if the pupil is a minor, the pupil's parent or guardian and the board, independent hearing panel or independent hearing officer agree, in writing, to modify the expulsion order.

6. Within 5 school days after the revocation of a pupil's early reinstatement under subd. 4., the pupil or, if the pupil is a minor, the pupil's parent or guardian may request a conference with the superintendent of schools or his or her designee, who shall be someone other than a principal, administrator or teacher in the pupil's school. If a conference is requested, it shall be held within 5 school days following the request. If, after the conference, the superintendent of schools or his or her designee finds that the pupil did not violate an early reinstatement condition or that the revocation was inappropriate, the pupil shall be reinstated to school under the same reinstatement conditions as in the expulsion order and the early reinstatement revocation shall be expunged from the pupil's record. If the superintendent of schools or his or her designee finds that the pupil violated an early reinstatement condition and that the revocation was appropriate, he or she shall mail separate copies of the decision to the pupil and, if the pupil is a minor, to the pupil's parent or guardian. The decision of the superintendent of schools or his or her designee is final.

120.13. School board powers.

The school board of a common or union high school district may do all things reasonable to promote the cause of education, including establishing, providing and improving school district programs, functions and activities for the benefit of pupils, and including all of the following:

(1) School government rules; suspension; expulsion.

(b) 1. In addition to rule-making authority granted school boards under par. (a), the school district administrator, or any principal or teacher designated by the school district administrator, may make rules with the consent of the school board.
2. The school district administrator or any principal or teacher designated by the school district administrator may suspend a pupil for not more than 5 school days or, if a notice of expulsion hearing has been sent under par. (c) 4. or (e) 4. or s. 119.25 (2)(c), for not more than a total of 15 consecutive school days for any of the following reasons:
   a. Noncompliance with rules adopted under subd. 1. or school board rules.
   b. Knowingly conveying any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives.
   c. Conduct by the pupil while at school or while under the supervision of a school authority that endangers the property, health or safety of others.
   d. Conduct while not at school or while not under the supervision of a school authority that endangers the property, health or safety of others at school or under the supervision of a school authority or endangers the property, health or safety of any employee or school board member of the school district in which the pupil is enrolled.

2m. In subd. 2. c. and d., conduct that endangers a person or property includes making a threat to the health or safety of a person or making a threat to damage property.

3. Prior to any suspension, the pupil shall be advised of the reason for the proposed suspension. The pupil may be suspended if it is determined that the pupil is guilty of noncompliance with a school board rule or a rule adopted under subd. 1., or of the conduct charged, and that the pupil's suspension is reasonably justified. The parent or guardian of a suspended minor pupil shall be given prompt notice of the suspension and the reason for the suspension.

4. The suspended pupil or the pupil's parent or guardian may, within 5 school days following the commencement of the suspension, have a conference with the school district administrator or his or her designee who shall be someone other than a principal, administrator or teacher in the suspended pupil's school. If the school district administrator or his or her designee finds that the pupil was suspended unfairly or unjustly, or that the suspension was inappropriate, given the nature of the alleged offense, or that the pupil suffered undue consequences or penalties as a result of the suspension, reference to the suspension on the pupil's school record shall be expunged. The administrator, or the administrator's designee, shall make a finding within 15 days of the conference.

5. A pupil suspended under this paragraph shall not be denied the opportunity to take any quarterly, semester or grading period examinations or to complete course work missed during the suspension period, as provided in the attendance policy established under s. 118.16 (4)(a).

(bm) The school district administrator or any principal or teacher designated by the school district administrator shall suspend a pupil under par. (b) if the school district administrator, principal or teacher determines that the pupil, while at school or while under the supervision of a school authority, possessed a firearm, as defined in 18 USC 921 (a)(3). This paragraph does not apply to the possession of a firearm while legally hunting in a school forest if allowed under s. 120.13 (38).

(c) 1. The school board may expel a pupil from school whenever it finds the pupil guilty of repeated refusal or neglect to obey the rules, or finds that a pupil knowingly conveyed or caused to be conveyed any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives, or finds that the pupil engaged in conduct while at school or while under the supervision of a school authority which endangered the property, health or safety of others, or finds that a pupil while not at school or while not under the supervision of a school authority engaged in conduct which endangered the property, health or safety of others at school or under the supervision of a school authority or endangered the property, health or safety of any employee or school board member of the school district in which the pupil is enrolled,
and is satisfied that the interest of the school demands the pupil's expulsion. In this subdivision, conduct that endangers a person or property includes making a threat to the health or safety of a person or making a threat to damage property.

2. In addition to the grounds for expulsion under subd. 1., the school board may expel from school a pupil who is at least 16 years old if the school board finds that the pupil repeatedly engaged in conduct while at school or while under the supervision of a school authority that disrupted the ability of school authorities to maintain order or an educational atmosphere at school or at an activity supervised by a school authority and that such conduct does not constitute grounds for expulsion under subd. 1., and is satisfied that the interest of the school demands the pupil's expulsion.

2m. The school board shall commence proceedings under subd. 3. and expel a pupil from school for not less than one year whenever it finds that the pupil, while at school or while under the supervision of a school authority, possessed a firearm, as defined in 18 USC 921 (a)(3). Annually, the school board shall report to the department the information specified under 20 USC 8921 (d)(1) and (2). This subdivision does not apply to the possession of a firearm while legally hunting in a school forest if allowed under s. 120.13 (38).

3. Prior to expelling a pupil, the school board shall hold a hearing. Upon request of the pupil and, if the pupil is a minor, the pupil's parent or guardian, the hearing shall be closed. The pupil and, if the pupil is a minor, the pupil's parent or guardian may be represented at the hearing by counsel. The school board shall keep written minutes of the hearing. Upon the ordering by the school board of the expulsion of a pupil, the school district clerk shall mail a copy of the order to the pupil and, if the pupil is a minor, to the pupil's parent or guardian. The expelled pupil or, if the pupil is a minor, the pupil's parent or guardian may appeal the expulsion to the state superintendent. If the school board's decision is appealed to the state superintendent, within 60 days after the date on which the state superintendent receives the appeal, the state superintendent shall review the decision and shall, upon review, approve, reverse or modify the decision. The decision of the school board shall be enforced while the state superintendent reviews the decision. An appeal from the decision of the state superintendent may be taken within 30 days to the circuit court of the county in which the school is located.

The policies under this paragraph shall specify the conditions under which credit may be given for work completed during the period of detention or assignment to a supervised, directed study program. A pupil shall be permitted to take any examinations missed during a period of assignment to a supervised, directed study program.

A school district may not use law enforcement officers’ records obtained under s. 938.396 (1) (c) 3. as the sole basis for expelling or suspending a pupil or as the sole basis for taking any other disciplinary action against a pupil, but may use law enforcement officers’ records obtained under s. 938.396 (1) (c) 3. as the sole basis for taking action against a pupil under the school district's athletic code.

LAWS

119.25. Expulsion of pupils.

(1) The board may adopt a resolution, which is effective only during the school year in which it is adopted, authorizing any of the following to determine pupil expulsion from school under sub. (2) instead of using the procedure under s. 120.13 (1)(c):

(a) An independent hearing panel appointed by the board.

(b) An independent hearing officer appointed by the board.

(2)(a) During any school year in which a resolution adopted under sub. (1) is effective, the independent hearing officer or independent hearing panel appointed by the board:

1. May expel a pupil from school whenever the hearing officer or panel finds that the pupil engaged in conduct that constitutes grounds for expulsion under s. 120.13 (1)(c) 1. or 2.

2. Shall commence proceedings under par. (b) and expel a pupil from school for not less than one year whenever the hearing officer or panel finds that the pupil engaged in conduct that constitutes grounds for expulsion under s. 120.13 (1)(c) 2m.

(b) No administrator may be designated to participate in an expulsion hearing if he or she was involved in the incident that led to the expulsion proceeding. Prior to expelling a pupil, the hearing officer or panel shall hold a hearing. Upon request of the pupil and, if the pupil is a minor, the pupil's parent or guardian, the hearing shall be closed. The pupil and, if the pupil is a minor, the pupil's parent or guardian, may be represented at the hearing by counsel. The hearing officer or panel shall keep a full record of the hearing. The hearing officer or panel shall inform each party of the right to a complete record of the proceeding. Upon request, the hearing officer or panel shall direct that a transcript of the record be prepared and that a copy of the transcript be given to the pupil and, if the pupil is a minor, the pupil's parent or guardian. Upon the ordering by the hearing officer or panel of the expulsion of a pupil, the school district shall mail a copy of the order to the board, the pupil and, if the pupil is a minor, the pupil's parent or guardian. A school board, hearing officer or panel may disclose the transcript to the parent or guardian of an adult pupil, if the adult pupil is a dependent of his or her parent or guardian under section 152 of the internal revenue code. Within 30 days after the date on which the order is issued, the board shall review the expulsion order and shall, upon review, approve, reverse or modify the order. The order of the hearing officer or panel shall be enforced while the board reviews the order. The expelled pupil or, if the pupil is a minor, the pupil's parent or guardian may appeal the board's decision to the state superintendent. If the board's decision is appealed to the state superintendent, within 60 days after the date on which the state superintendent receives the appeal, the state superintendent shall review the decision and shall, upon review, approve, reverse or modify the decision. The decision of the board shall be enforced while the state superintendent reviews the decision. An appeal from the decision of the state superintendent may be taken within 30 days to the circuit court for the county in which the school is located.

(c) Not less than 5 days' written notice of the hearing under par. (b) shall be sent to the pupil and, if the pupil is a minor, to the pupil's parent or guardian. The notice shall include all of the information specified in s. 120.13 (1)(e) 4.(d)1. In this paragraph:

a. "Early reinstatement" means the reinstatement to school of an expelled pupil before the expiration of the term of expulsion specified in the pupil's expulsion order under par. (b).

b. "Early reinstatement condition" means a condition that a pupil is required to meet before he or she may be granted early reinstatement or a condition that a pupil is required to meet after his
or her early reinstatement but before the expiration of the term of expulsion specified in the pupil's expulsion order under par. (b).

2. An independent hearing panel or independent hearing officer appointed by the board may specify one or more early reinstatement conditions in the expulsion order under par. (b) if the early reinstatement conditions are related to the reasons for the pupil's expulsion. Within 15 days after the date on which the expulsion order is issued, the expelled pupil or, if the pupil is a minor, the pupil's parent or guardian may appeal the determination regarding whether an early reinstatement condition specified in the expulsion order is related to the reasons for the pupil's expulsion to the board. The decision of the board regarding that determination is final and not subject to appeal.

3. If the superintendent of schools or his or her designee, who shall be someone other than a principal, administrator or teacher in the pupil's school, determines that a pupil has met the early reinstatement conditions that he or she is required to meet before he or she may be granted early reinstatement, the superintendent of schools or designee may grant the pupil early reinstatement. The determination of the superintendent of schools or designee is final.

4. If a pupil violates an early reinstatement condition that the pupil was required to meet after his or her early reinstatement but before the expiration of the term of expulsion, the superintendent of schools or a principal or teacher designated by the superintendent of schools may revoke the pupil's early reinstatement as provided in s. 120.13 (1)(h) 4.

5. Except as provided in subd. 6., if the pupil's early reinstatement is revoked under subd. 4., the pupil's expulsion shall continue to the expiration of the term specified in the expulsion order unless the pupil or, if the pupil is a minor, the pupil's parent or guardian and the board, independent hearing panel or independent hearing officer agree, in writing, to modify the expulsion order.

6. Within 5 school days after the revocation of a pupil's early reinstatement under subd. 4., the pupil or, if the pupil is a minor, the pupil's parent or guardian may request a conference with the superintendent of schools or his or her designee, who shall be someone other than a principal, administrator or teacher in the pupil's school. If a conference is requested, it shall be held within 5 school days following the request. If, after the conference, the superintendent of schools or his or her designee finds that the pupil did not violate an early reinstatement condition or that the revocation was inappropriate, the pupil shall be reinstated to school under the same reinstatement conditions as in the expulsion order and the early reinstatement revocation shall be expunged from the pupil's record. If the superintendent of schools or his or her designee finds that the pupil violated an early reinstatement condition and that the revocation was appropriate, he or she shall mail separate copies of the decision to the pupil and, if the pupil is a minor, to the pupil's parent or guardian. The decision of the superintendent of schools or his or her designee is final.

120.13. School board powers.

The school board of a common or union high school district may do all things reasonable to promote the cause of education, including establishing, providing and improving school district programs, functions and activities for the benefit of pupils, and including all of the following:

(1) School government rules; suspension; expulsion.

(b) 1. In addition to rule-making authority granted school boards under par. (a), the school district administrator, or any principal or teacher designated by the school district administrator, may make rules with the consent of the school board.

2. The school district administrator or any principal or teacher designated by the school district administrator may suspend a pupil for not more than 5 school days or, if a notice of expulsion hearing has been sent under par. (c) 4. or (e) 4. or s. 119.25 (2)(c), for not more than a total of 15 consecutive school days for any of the following reasons:

a. Noncompliance with rules adopted under subd. 1. or school board rules.
b. Knowingly conveying any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives.

c. Conduct by the pupil while at school or while under the supervision of a school authority that endangers the property, health or safety of others.

d. Conduct while not at school or while not under the supervision of a school authority that endangers the property, health or safety of others at school or under the supervision of a school authority or endangers the property, health or safety of any employee or school board member of the school district in which the pupil is enrolled.

2m. In subd. 2. c. and d., conduct that endangers a person or property includes making a threat to the health or safety of a person or making a threat to damage property.

3. Prior to any suspension, the pupil shall be advised of the reason for the proposed suspension. The pupil may be suspended if it is determined that the pupil is guilty of noncompliance with a school board rule or a rule adopted under subd. 1., or of the conduct charged, and that the pupil's suspension is reasonably justified. The parent or guardian of a suspended minor pupil shall be given prompt notice of the suspension and the reason for the suspension.

4. The suspended pupil or the pupil's parent or guardian may, within 5 school days following the commencement of the suspension, have a conference with the school district administrator or his or her designee who shall be someone other than a principal, administrator or teacher in the suspended pupil's school. If the school district administrator or his or her designee finds that the pupil was suspended unfairly or unjustly, or that the suspension was inappropriate, given the nature of the alleged offense, or that the pupil suffered undue consequences or penalties as a result of the suspension, reference to the suspension on the pupil's school record shall be expunged. The administrator, or the administrator's designee, shall make a finding within 15 days of the conference.

5. A pupil suspended under this paragraph shall not be denied the opportunity to take any quarterly, semester or grading period examinations or to complete course work missed during the suspension period, as provided in the attendance policy established under s. 118.16 (4)(a).

(bm) The school district administrator or any principal or teacher designated by the school district administrator shall suspend a pupil under par. (b) if the school district administrator, principal or teacher determines that the pupil, while at school or while under the supervision of a school authority, possessed a firearm, as defined in 18 USC 921(a)(3). This paragraph does not apply to the possession of a firearm while legally hunting in a school forest if allowed under s. 120.13 (38).

(c) 1. The school board may expel a pupil from school whenever it finds the pupil guilty of repeated refusal or neglect to obey the rules, or finds that a pupil knowingly conveyed or caused to be conveyed any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives, or finds that the pupil engaged in conduct while at school or while under the supervision of a school authority which endangered the property, health or safety of others, or finds that a pupil while not at school or while not under the supervision of a school authority engaged in conduct which endangered the property, health or safety of others at school or under the supervision of a school authority or endangered the property, health or safety of any employee or school board member of the school district in which the pupil is enrolled, and is satisfied that the interest of the school demands the pupil's expulsion. In this subdivision, conduct that endangers a person or property includes making a threat to the health or safety of a person or making a threat to damage property.

2. In addition to the grounds for expulsion under subd. 1., the school board may expel from school a pupil who is at least 16 years old if the school board finds that the pupil repeatedly engaged in conduct while at school or while under the supervision of a school authority that disrupted the ability of school authorities to maintain order or an educational atmosphere at school or at an
activity supervised by a school authority and that such conduct does not constitute grounds for expulsion under subd. 1., and is satisfied that the interest of the school demands the pupil's expulsion.

2m. The school board shall commence proceedings under subd. 3. and expel a pupil from school for not less than one year whenever it finds that the pupil, while at school or while under the supervision of a school authority, possessed a firearm, as defined in 18 USC 921 (a)(3). Annually, the school board shall report to the department the information specified under 20 USC 8921 (d)(1) and (2). This subdivision does not apply to the possession of a firearm while legally hunting in a school forest if allowed under s. 120.13 (38).

3. Prior to expelling a pupil, the school board shall hold a hearing. Upon request of the pupil and, if the pupil is a minor, the pupil's parent or guardian, the hearing shall be closed. The pupil and, if the pupil is a minor, the pupil's parent or guardian may be represented at the hearing by counsel. The school board shall keep written minutes of the hearing. Upon the ordering by the school board of the expulsion of a pupil, the school district clerk shall mail a copy of the order to the pupil and, if the pupil is a minor, to the pupil's parent or guardian. The expelled pupil or, if the pupil is a minor, the pupil's parent or guardian may appeal the expulsion to the state superintendent. If the school board's decision is appealed to the state superintendent, within 60 days after the date on which the state superintendent receives the appeal, the state superintendent shall review the decision and shall, upon review, approve, reverse or modify the decision. The decision of the school board shall be enforced while the state superintendent reviews the decision. An appeal from the decision of the state superintendent may be taken within 30 days to the circuit court of the county in which the school is located.

4. Not less than 5 days' written notice of the hearing under subd. 3. shall be sent to the pupil and, if the pupil is a minor, to the pupil's parent or guardian. The notice shall state all of the following:

   h. That if the pupil is expelled by the school board the expelled pupil or, if the pupil is a minor, the pupil's parent or guardian may appeal the school board's decision to the department.
   i. That if the school board's decision is appealed to the department, within 60 days after the date on which the department receives the appeal, the department shall review the decision and shall, upon review, approve, reverse or modify the decision.
   j. That the decision of the school board shall be enforced while the department reviews the school board's decision.
   k. That an appeal from the decision of the department may be taken within 30 days to the circuit court for the county in which the school is located.

L. That the state statutes related to pupil expulsion are ss. 119.25 and 120.13 (1).

Return to School Following Removal

LAWS

118.16. School attendance enforcement.

(4)(cm)1. The school board may establish policies which provide that a pupil of an age eligible for high school enrollment in the school district, as determined by the school board, may be assigned to a period of assessment as a consequence of the pupil's truancy or upon the pupil's return to school from placement in a correctional facility, mental health treatment facility, alcohol and other drug abuse treatment facility or other out-of-school placement. The policies shall specify the conditions under which a pupil may participate in the assessment without being in violation of s. 118.15 and the maximum length of time that a pupil may be assigned to an assessment period.

2. A school board may not assign a pupil to an assessment period without the written approval of the pupil's parent or guardian. A school board may not assign a pupil to an assessment period for longer than the time necessary to complete the assessment and place the pupil in an appropriate education program or 8 weeks, whichever is less. A school board may not assign a pupil to an assessment period more than once and may not assign a pupil to an assessment period if the school district has an alternative education program, as defined in s. 115.28 (7)(e) 1., available for the pupil that is appropriate for the pupil's needs. An assessment need not be conducted during the regular school day.

3. The goals of an assessment period are to develop an educational plan for the pupil, implement an appropriate transitional plan and facilitate the pupil's placement in an education program in which the pupil will be able to succeed. The school board shall provide pupils who are assigned to an assessment period with information on other education programs that the school district or other community providers have available for the pupil. The assessment may include any of the following new or previously completed activities:

   a. An assessment for problems with alcohol or other drugs.

   b. An assessment of individual educational needs.
c. An assessment of whether the pupil is encountering problems in the community or at home that require intervention by a social worker.

d. A vocational assessment, which may include career counseling.

e. A medical assessment.

118.162. Truancy committee and plan.

(4) Not later than September 1, 1989, each school board shall adopt a truancy plan which shall include all of the following:

(b) Plans and procedures for identifying truant children of all ages and returning them to school, including the identity of school personnel to whom a truant child shall be returned.

118.164. Removal of pupils from the class.

(3)(a) The school principal or his or her designee shall place the pupil in one of the following:

1. An alternative education program, as defined in s. 115.28 (7)(e) 1.

2. Another class in the school or another appropriate place in the school, as determined by the school principal or his or her designee.

3. Another instructional setting.

4. The class from which the pupil was removed if, after weighing the interests of the removed pupil, the other pupils in the class and the teacher, the school principal or his or her designee determines that readmission to the class is the best or only alternative.

119.25. Expulsion of pupils.

(2)(d)1. In this paragraph:

a. "Early reinstatement" means the reinstatement to school of an expelled pupil before the expiration of the term of expulsion specified in the pupil's expulsion order under par. (b).

b. "Early reinstatement condition" means a condition that a pupil is required to meet before he or she may be granted early reinstatement or a condition that a pupil is required to meet after his or her early reinstatement but before the expiration of the term of expulsion specified in the pupil's expulsion order under par. (b).

2. An independent hearing panel or independent hearing officer appointed by the board may specify one or more early reinstatement conditions in the expulsion order under par. (b) if the early reinstatement conditions are related to the reasons for the pupil's expulsion. Within 15 days after the date on which the expulsion order is issued, the expelled pupil or, if the pupil is a minor, the pupil's parent or guardian may appeal the determination regarding whether an early reinstatement condition specified in the expulsion order is related to the reasons for the pupil's expulsion to the board. The decision of the board regarding that determination is final and not subject to appeal.

3. If the superintendent of schools or his or her designee, who shall be someone other than a principal, administrator or teacher in the pupil's school, determines that a pupil has met the early reinstatement conditions that he or she is required to meet before he or she may be granted early reinstatement, the superintendent of schools or designee may grant the pupil early reinstatement. The determination of the superintendent of schools or designee is final.

4. If a pupil violates an early reinstatement condition that the pupil was required to meet after his or her early reinstatement but before the expiration of the term of expulsion, the superintendent of schools or a principal or teacher designated by the superintendent of schools may revoke the pupil's early reinstatement as provided in s. 120.13 (1)(h) 4.

5. Except as provided in subd. 6., if the pupil's early reinstatement is revoked under subd. 4., the pupil's expulsion shall continue to the expiration of the term specified in the expulsion order unless
the pupil or, if the pupil is a minor, the pupil's parent or guardian and the board, independent hearing panel or independent hearing officer agree, in writing, to modify the expulsion order.

6. Within 5 school days after the revocation of a pupil's early reinstatement under subd. 4., the pupil or, if the pupil is a minor, the pupil's parent or guardian may request a conference with the superintendent of schools or his or her designee, who shall be someone other than a principal, administrator or teacher in the pupil's school. If a conference is requested, it shall be held within 5 school days following the request. If, after the conference, the superintendent of schools or his or her designee finds that the pupil did not violate an early reinstatement condition or that the revocation was inappropriate, the pupil shall be reinstated to school under the same reinstatement conditions as in the expulsion order and the early reinstatement revocation shall be expunged from the pupil's record. If the superintendent of schools or his or her designee finds that the pupil violated an early reinstatement condition and that the revocation was appropriate, he or she shall mail separate copies of the decision to the pupil and, if the pupil is a minor, to the pupil's parent or guardian. The decision of the superintendent of schools or his or her designee is final.

or (e) 3. if the early reinstatement conditions are related to the reasons for the pupil's expulsion. Within 15 days after the date on which an expulsion order is issued by an independent hearing panel or independent hearing officer, the expelled pupil or, if the pupil is a minor, the pupil's parent or guardian may appeal the determination regarding whether an early reinstatement condition specified in the expulsion order is related to the reasons for the pupil's expulsion to the school board. The decision of a school board regarding that determination is final and not subject to appeal.

2m. A school board other than the school board or out-of-state public school that expelled a pupil may specify in a written order one or more enrollment conditions instead of or in addition to the early reinstatement conditions, if any, imposed under subd. 2. by the school board, or independent...

The decision of the school board under this subdivision regarding that determination is final and not subject to appeal.

3. If the school district administrator or his or her designee, who shall be someone other than a principal, administrator or teacher in the pupil's school, determines that a pupil has met the early reinstatement conditions that he or she is required to meet before he or she may be granted early reinstatement, the school district administrator or designee may grant the pupil early reinstatement. The determination of the school district administrator or designee is final.

3m. If the school district administrator, or his or her designee, of a school district other than the school district or out-of-state public school from which a pupil was expelled determines that the pupil has met the enrollment conditions established in a written order under subd. 2m., the school district administrator or designee may grant the pupil conditional enrollment in a school in the school district. The determination of the school district administrator or designee under this subdivision is final.

4. If a pupil granted early reinstatement under subd. 3. violates an early reinstatement condition that the pupil was required to meet after his or her early reinstatement but before the expiration of the term of expulsion, the school district administrator or a principal or teacher designated by the school district administrator may revoke the pupil's early reinstatement. Before revoking the pupil's early reinstatement, the school district administrator or his or her designee shall advise the pupil of the reason for the proposed revocation, including the early reinstatement condition alleged to have been violated, provide the pupil an opportunity to present his or her explanation of the alleged violation, and make a determination that the pupil violated the early reinstatement condition and that revocation of the pupil's early reinstatement is appropriate. If the school district administrator or designee revokes the pupil's early reinstatement, the school district administrator or designee shall give prompt written notice of the revocation and the reason for the revocation, including the early reinstatement condition violated, to the pupil and, if the pupil is a minor, to the pupil's parent or guardian.

4m. If a pupil granted conditional enrollment under subd. 3m. violates an enrollment condition that the pupil was required to meet after his or her conditional enrollment but before the expiration of the term of expulsion, the school district administrator of the school district in which the pupil is enrolled, or a principal or teacher designated by the school district administrator, may revoke the pupil's conditional enrollment. Before revoking the pupil's conditional enrollment, the school district administrator or his or her designee shall advise the pupil of the reason for the proposed revocation, including the enrollment condition alleged to have been violated, provide the pupil an opportunity to present his or her explanation of the alleged violation, and make a determination that the pupil violated the enrollment condition and that revocation of the pupil's conditional enrollment is appropriate. If the school district administrator or designee revokes the pupil's conditional enrollment, the school district administrator or designee shall give prompt written notice of the
revocation and the reason for the revocation, including the enrollment condition violated, to the pupil and, if the pupil is a minor, to the pupil's parent or guardian.

5. Except as provided in subd. 6., if a pupil's early reinstatement is revoked under subd. 4., the pupil's expulsion shall continue to the expiration of the term of the expulsion specified in the expulsion order unless the pupil or, if the pupil is a minor, the pupil's parent or guardian and the school board, independent hearing panel or independent hearing officer agree, in writing, to modify the expulsion order.

5m. Except as provided in subd. 6m., if a pupil's conditional enrollment is revoked under subd. 4m., the pupil's expulsion shall continue to the expiration of the term of the expulsion specified in the expulsion order unless the pupil or, if the pupil is a minor, the pupil's parent or guardian and the school board that expelled the pupil, or the independent hearing panel or independent hearing officer, or the out-of-state public school, agree, in writing, to modify the expulsion order.

6. Within 5 school days after the revocation of a pupil's early reinstatement under subd. 4., the pupil or, if the pupil is a minor, the pupil's parent or guardian may request a conference with the school district administrator or his or her designee, who shall be someone other than a principal, administrator or teacher in the pupil's school. If a conference is requested, it shall be held within 5 school days following the request. If, after the conference, the school district administrator or his or her designee finds that the pupil did not violate an early reinstatement condition or that the revocation was inappropriate, the pupil shall be reinstated to school under the same reinstatement conditions as in the expulsion order and the early reinstatement revocation shall be expunged from the pupil's record. If the school district administrator or his or her designee finds that the pupil violated an early reinstatement condition and that the revocation was appropriate, he or she shall mail separate copies of the decision to the pupil and, if the pupil is a minor, to the pupil's parent or guardian. The decision of the school district administrator or his or her designee is final.

6m. Within 5 school days after the revocation of a pupil's conditional enrollment under subd. 4m., the pupil or, if the pupil is a minor, the pupil's parent or guardian may request a conference with the administrator of the school district in which the pupil is enrolled, or his or her designee, who shall be someone other than a principal, administrator, or teacher in the pupil's school. If a conference is requested, it shall be held within 5 school days following the request. If, after the conference, the school district administrator or his or her designee finds that the pupil did not violate an enrollment condition or that the revocation was inappropriate, the pupil shall be enrolled in school under the same enrollment conditions as in the order issued under subd. 2m. and the conditional enrollment revocation shall be expunged from the pupil's record. If the school district administrator or his or her designee finds that the pupil violated an enrollment condition and that the revocation was appropriate, he or she shall mail separate copies of the decision to the pupil and, if the pupil is a minor, to the pupil's parent or guardian. Wyoming
Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

Limitations or Conditions on Exclusionary Discipline

LAWS

§ 21-4-305. Suspension or expulsion; authority; procedure.
(a) The board of trustees of any school district is authorized to suspend or expel a student subject to the requirements to provide notice and an opportunity to be heard as set forth in this section. The board of trustees may delegate the authority to suspend or expel a student to disciplinarians chosen from the administrative and supervisory staff.

(b) No student shall be suspended or expelled from school without notice as set forth in this subsection and an opportunity to be heard as set forth in subsection (c) of this section. To provide notice the disciplinarian shall:
   (i) Give the student to be suspended or expelled oral or written notice of the charges against him and an explanation of the evidence the authorities have;
   (ii) In good faith attempt to notify the student's parents, guardians or custodians within twenty-four (24) hours of the student's suspension or expulsion and the reasons for the suspension or expulsion, using contact information on record with the school or district. The disciplinarian shall keep record of the efforts to provide notice under this paragraph and whether the notice was provided successfully;
   (iii) Give the student to be suspended or expelled an opportunity to be heard and to present his version of the charges against him as set forth in subsection (c) of this section;
   (c) To provide an opportunity to be heard the disciplinarian shall give every student to be suspended or expelled the opportunity to be heard as soon as practicable after the misconduct, and in accordance
with the following, unless a student requests an extension of time and the board of trustees or the disciplinarian designee of the board approves the extension:

(i) For a suspension of ten (10) school days or less, notice shall be provided in accordance with paragraph (b)(ii) of this section and a student shall be provided an opportunity to be heard before a student is removed unless the student's presence endangers persons or property or threatens disruption of the academic process, in which case his immediate removal from school may be justified, but the opportunity to be heard shall follow as soon as practicable, and not later than seventy-two (72) hours after his removal, not counting Saturdays and Sundays;

(ii) For a suspension or expulsion longer than ten (10) school days a hearing shall be held in accordance with the Wyoming Administrative Procedure Act and, unless the student requests an extension and the board or the disciplinarian designee of the board approves an extension, the hearing shall be held within ten (10) business days, or as soon thereafter as is reasonably practicable, after the supervisory staff disciplinarian recommends suspension or expulsion to the appropriate administrator. The student's suspension shall continue until the hearing is held.

(d) Repealed by Laws 2019, ch. 164, § 2.

(e) Suspension or expulsion shall not be imposed as an additional punishment for offenses punishable under the laws of the state, except for expulsion by a district superintendent under subsection (a) of this section, or where the offense was committed at a school function, against the property of the school, or is of such nature that continuation of the child in school would clearly be detrimental to the education, welfare, safety or morals of other pupils. No suspension or expulsion shall be for longer than one (1) year.

(f) Any decision of the board, or of a designated superintendent, shall be considered a final decision which may be appealed to the district court of the county in which the school district is located, pursuant to provisions of the Wyoming Administrative Procedure Act. The court may, on application or on its own motion, stay the decision of the board or superintendent pending appeal, considering both the best interests of the child and the need to maintain an orderly environment conducive to learning for other children.

(g) As used in this chapter, an "opportunity to be heard" means at a minimum a meeting in which the disciplinarian or his designee provides the substantive information regarding the suspension or expulsion to the student to be suspended, and the student to be suspended may dispute the substantive information provided. An opportunity to be heard does not require a formal hearing in accordance with the provisions of the Wyoming Administrative Procedure Act except as provided in paragraph (c)(ii) of this section.

No suspension or expulsion shall be for longer than one (1) year.
