Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

   (1) Suspension is exclusion from school for a period of from 1 to 10 consecutive school days.
      (i) Suspensions may be given by the principal or person in charge of the public school.
      (ii) A student may not be suspended until the student has been informed of the reasons for the suspension and given an opportunity to respond. Prior notice of the intended suspension need not be given when it is clear that the health, safety or welfare of the school community is threatened.

A student may not be excluded from school for longer than 15 school days without a formal hearing unless mutually agreed upon by both parties. Any student so excluded shall be provided with alternative education, which may include home study.
(e) Students who are under 17 years of age are still subject to the compulsory school attendance law even though expelled and shall be provided an education.
(1) The initial responsibility for providing the required education rests with the student’s parents or guardian, through placement in another school, tutorial or correspondence study, or another educational program approved by the district’s superintendent.

(2) Within 30 days of action by the governing board, the parents or guardians shall submit to the school district written evidence that the required education is being provided as described in paragraph (1) or that they are unable to do so. If the parents or guardians are unable to provide the required education, the school entity shall, within 10 days of receipt of the notification, make provision for the student’s education. A student with a disability shall be provided educational services as required by the Individuals With Disabilities Education Act (20 U.S.C.A. §§1400-1482).

(3) If the approved educational program is not complied with, the school entity may take action in accordance with 42 Pa.C.S. Chapter 63 (relating to the Juvenile Act) to ensure that the child will receive a proper education. See §12.1(b) (relating to free education and attendance).

(a) General. Education is a statutory right, and students shall be afforded due process if they are to be excluded from school. In a case involving a possible expulsion, the student is entitled to a formal hearing.

(b) Formal hearings. A formal hearing is required in all expulsion actions. This hearing may be held before the governing board or an authorized committee of the board, or a qualified hearing examiner appointed by the board. (2) At least 3 days’ notice of the time and place of the hearing shall be given. A copy of the expulsion policy, notice that legal counsel may represent the student and hearing procedures shall be included with the hearing notice. A student may request the rescheduling of the hearing when the student demonstrates good cause for an extension.

   (i) Laboratory reports are needed from law enforcement agencies.

   (ii) Evaluations or other court or administrative proceedings are pending due to a student invoking his rights under the Individuals With Disabilities Education Act (20 U.S.C.A. § 1400-1482).

(10) Notice of a right to appeal the results of the hearing shall be provided to the student with the expulsion decision.

(c) Informal hearings. The purpose of the informal hearing is to enable the student to meet with the appropriate school official to explain the circumstances surrounding the event for which the student is being suspended or to show why the student should not be suspended.

Use of restraint and seclusion

LAWS

No relevant laws found.

REGULATIONS

(a) Positive, rather than negative, measures must form the basis of behavior support programs to ensure that all students and eligible young children shall be free from demeaning treatment, the use of aversive techniques and the unreasonable use of restraints. Behavior support programs must include research based practices and techniques to develop and maintain skills that will enhance an individual student’s or eligible young child’s opportunity for learning and self-fulfillment. Behavior support programs and plans must be based on a functional assessment of behavior and utilize positive behavior techniques. When an intervention is needed to address problem behavior, the types of intervention chosen for a particular student or eligible young child shall be the least intrusive necessary. The use of restraints is considered a measure of last resort, only to be used after other less restrictive measures, including de-escalation techniques, in accord with subsection (c)(2).

(b) Notwithstanding the requirements incorporated by reference in 34 CFR 300.34, 300.324 and 300.530 (relating to related services; development, review, and revision of IEP; and authority of school personnel), with regard to a child’s behavior, the following words and terms, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

Aversive techniques. Deliberate activities designed to establish a negative association with a specific behavior.

Behavior support. The development, change and maintenance of selected behaviors through the systematic application of behavior change techniques.

Positive behavior support plans. A plan for students with disabilities and eligible young children who require specific intervention to address behavior that interferes with learning. A positive behavior support plan shall be developed by the IEP team, be based on a functional behavior assessment, and become part of the individual eligible young child’s or student’s IEP. These plans must include methods that utilize positive reinforcement and other positive techniques to shape a student’s or eligible young child’s behavior, ranging from the use of positive verbal statements as a reward for good behavior to specific tangible rewards.
Restraints

(i) The application of physical force, with or without the use of any device, for the purpose of restraining the free movement of a student’s or eligible young child’s body.

(ii) The term does not include briefly holding, without force, a student or eligible young child to calm or comfort him, guiding a student or eligible young child to an appropriate activity, or holding a student’s or eligible young child’s hand to safely escort her from one area to another.

(iii) The term does not include hand-over-hand assistance with feeding or task completion and techniques prescribed by a qualified medical professional for reasons of safety or for therapeutic or medical treatment, as agreed to by the student’s or eligible young child’s parents and specified in the IEP. Devices used for physical or occupational therapy, seatbelts in wheelchairs or on toilets used for balance and safety, safety harnesses in buses, and functional positioning devices are examples of mechanical restraints which are excluded from this definition, and governed by subsection (d).

(c) Restraints to control acute or episodic aggressive or self-injurious behavior may be used only when the student is acting in a manner as to be a clear and present danger to himself, to other students or to employees, and only when less restrictive measures and techniques have proven to be or are less effective.

(1) The use of restraints to control the aggressive behavior of an individual student or eligible young child shall cause the school entity to notify the parent of the use of restraint and shall cause a meeting of the IEP team within 10 school days of the inappropriate behavior causing the use of restraints, unless the parent, after written notice, agrees in writing to waive the meeting. At this meeting, the IEP team shall consider whether the student or eligible young child needs a functional behavioral assessment, reevaluation, a new or revised positive behavior support plan, or a change of placement to address the inappropriate behavior.

(2) The use of restraints may only be included in a student’s or eligible young child’s IEP when the following conditions apply:

(i) The restraint is utilized with specific component elements of positive behavior support.

(ii) The restraint is used in conjunction with the teaching of socially acceptable alternative skills to replace problem behavior.

(iii) Staff are authorized to use the procedure and have received the staff training required.

(iv) There is a plan in place for eliminating the use of restraint through the application of positive behavior support.

(3) The use of prone restraints is prohibited in educational programs. Prone restraints are those in which a student or eligible young child is held face down on the floor.

(4) The use of restraints may not be included in the IEP for the convenience of staff, as a substitute for an educational program, or employed as punishment.

(5) School entities shall maintain and report data on the use of restraints as prescribed by the Secretary. The report shall be reviewed during cyclical compliance monitoring conducted by the Department.

(d) Mechanical restraints, which are used to control involuntary movement or lack of muscular control of students when due to organic causes or conditions, may be employed only when specified by an IEP and as determined by a medical professional qualified to make the determination, and as agreed to by the student’s parents. Mechanical restraints shall prevent a student from injuring himself or others or promote normative body positioning and physical functioning.

(e) The following aversive techniques of handling behavior are considered inappropriate and may not be used by agencies in educational programs:
(1) Corporal punishment.
(2) Punishment for a manifestation of a student's disability.
(3) Locked rooms, locked boxes or other structures or spaces from which the student cannot readily exit.
(4) Noxious substances.
(5) Deprivation of basic human rights, such as withholding meals, water or fresh air.
(6) Suspensions constituting a pattern under §14.143(a) (relating to disciplinary placement).
(7) Treatment of a demeaning nature.
(8) Electric shock.

(f) School entities have the primary responsibility for ensuring that positive behavior support programs are in accordance with this chapter, including the training of personnel for the use of specific procedures, methods and techniques, and for having a written policy and procedures on the use of positive behavior support techniques and obtaining parental consent prior to the use of restraints or intrusive procedures as provided in subsection (c).

(g) In accordance with their plans, agencies may convene a review, including the use of human rights committees, to oversee the use of restrictive or intrusive procedures or restraints.

(h) Subsequent to a referral to law enforcement, for students with disabilities who have positive behavior support plans, an updated functional behavior assessment and positive behavior support plan shall be required.

(2) Toward students who attend a persistently dangerous school.

(i) Under the act of June 30, 1995 (P. L. 220, No. 26) known as the Pennsylvania's Safe Schools Act, all school entities as defined by the act shall report to the Department incidents involving acts of violence; possession of a weapon; or the possession, use, or sale of a controlled substance, alcohol or tobacco by any person on school property or at school-sponsored events or on school transportation to and from school or school-sponsored activities.

(x) The LEA shall submit a corrective action plan to the Department within 30 calendar days of receiving notification that a school has been identified as persistently dangerous.

(xi) The LEA shall receive approval from the Department for its corrective action plan and shall implement all steps contained in its corrective action plan within the time periods specified in that plan.
(xii) After the Department has notified an LEA that a school is no longer identified as a persistently dangerous school, the LEA is encouraged to permit students who transferred to complete their education at their new school. LEAs may not require students to return to their original school if the students are enrolled in a charter school.

(e) Responsibilities of Department.

1) The Department will identify those schools that meet or exceed the criteria for a persistently dangerous school by analyzing the Annual Report on School Violence and Weapons Possession (PDE-360). In identifying persistently dangerous schools, the Department will use the most recent data available to it from the reporting LEA, and will take all reasonable steps to verify that the data is valid and reliable.

2) After review and verification of PDE-360 data, the Department will promptly inform an LEA when any of its schools meets the definition of persistently dangerous school.

3) The Department will provide technical assistance to the LEA in developing a corrective action plan. The Department will review proposed corrective action plans submitted by LEAs and approve suitable corrective action plans.

4) After approval of the corrective action plan, the Department will conduct a site visit to each persistently dangerous school to assess the school's progress in implementing the plan. If no significant improvement is observed, the Department may require the LEA to submit a revised corrective action plan for that school.

5) The Department will reassess a school’s designation as persistently dangerous at the end of the school year during which its corrective action plan is completed.

6) During the reassessment described in this section, the Department will remove the designation if the school no longer meets the definition of persistently dangerous school.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

Authority to develop and establish rules of conduct

LAWS

§ 16-2-17. Right to a safe school.

(a) Each student, staff member, teacher, and administrator has a right to attend and/or work at a school which is safe and secure, and which is conducive to learning, and which is free from the threat, actual or implied, of physical harm by a disruptive student. A disruptive student is a person who is subject to compulsory school attendance, who exhibits persistent conduct which substantially impedes the ability of other students to learn, or otherwise substantially interferes with the rights stated above, and who has failed to respond to corrective and rehabilitative measures presented by staff, teachers, or administrators.

(b) The school committee, or a school principal as designated by the school committee, may suspend all pupils found guilty of this conduct, or of violation of those school regulations which relate to the rights set forth in subsection (a), or where a student represents a threat to those rights of students, teachers, or administrators, as described in subsection (a). Nothing in this section shall relieve the school committee or school principals from following all procedures required by state and federal law regarding discipline of students with disabilities.

(c) A student suspended under this section may appeal the action of the school committee, or a school principal as designee, to the commissioner of elementary and secondary education who, after notice to the parties interested of the time and place of hearing, shall examine and decide the appeal without cost to the parties involved. Any decision of the commissioner in these matters shall be subject to appeal by the student to the board of regents for elementary and secondary education and any decision of the board of regents may be appealed by the student to the family court for the county in which the school is located as provided in § 42-35-15.

(d) All school superintendents, or their designees, shall review annually, the discipline data for their school district, collected in accordance with the specifications set forth in § 16-60-4(21), to determine whether the discipline imposed has a disproportionate impact on students based on race, ethnicity, or disability status and to appropriately respond to any such disparity. REGULATIONS

200-RICR-20-30-2 Section 2.1. Authority, scope, purpose and construction.
A. Authority.
B. Scope.
   1. These regulations govern the use of physical restraint and crisis intervention on all students in publicly funded elementary and secondary education programs, including all Rhode Island public school districts and regional public school districts, all Rhode Island State Operated Schools, all Public Charter Schools, educational programs operated by the Department for Children Youth and Families, Educational Collaborative Programs, and Local Educational Agencies operating a public education program; all of which shall hereafter be referred to as public education programs.
C. Purpose.
   1. The purpose of these regulations is to ensure that every student participating in a Rhode Island public education program be free from the unreasonable use of physical restraint and crisis intervention. Physical intervention, the use of manual or mechanical restraint or escort involving physical contact should only be used as a crisis intervention for the purpose of preventing harm or injury. The crisis intervention must not include procedures that intentionally cause pain, injury, trauma or humiliation. A physical restraint crisis intervention should not be used for the purpose of changing behavior in situations where no protection from harm or injury is needed. Only the least intrusive physical interaction needed to adequately protect the child or others shall be used and shall be terminated as soon as the need for protection has abated.
D. Construction.
   1. Nothing in these regulations shall be construed to limit the protection offered publicly funded students under other state or federal laws nor do these regulations preclude any teacher, employee or agent of a public education program from using reasonable force to protect students, other persons or themselves from imminent, serious, physical harm.

200-RICR-20-30-2 Section 2.3. Procedures and training.

A. Procedures. Public education programs shall develop written procedures regarding appropriate responses to student behavior that may require the use of physical restraint/crisis intervention. Such procedures shall be annually reviewed and provided to school staff and made available to parents of enrolled students. Such procedures shall include, but not be limited to:

1. Methods for preventing student violence, self-injurious behavior, and suicide, including de-escalation of potentially dangerous behavior occurring among groups of students or with an individual student;
2. A school policy regarding intervention that provides a description and explanation of the school’s or program’s method of physical restraint/crisis intervention, a description of the school’s or program’s training requirements, monitoring and reporting requirements, internal review and follow-up procedures, and a procedure for receiving and investigating complaints regarding restraint practices.

B. Required Training For All Staff. Each public education program shall designate personnel to determine a time and methods to provide all staff with training regarding the school’s physical restraint/crisis intervention policies. Such training shall occur at least annually not later than within the first month of each school year. For employees hired after the school year begins, this training shall take place within the first month of their employment. Training shall be approved by the Commissioner of Elementary and Secondary Education and shall include information as required by R.I. Gen. Laws § 42-158-5 in addition to the following:

1. The program’s restraint policy;
2. Interventions that may preclude the need for restraint, including de-escalation of problematic behaviors;
3. Types of restraints and related safety considerations, including information regarding the increased risk of injury to a student when an extended restraint is used;
4. Administering physical restraint in accordance with known medical or psychological limitations and/or behavioral intervention plans applicable to an individual student; and
5. Identification of program staff who have received advanced training pursuant to § 2.3(C) of this Part in the use of physical restraint/crisis intervention.

C. Advanced Staff Training on the Use of Physical Restraint/Crisis Intervention. At the start of each school year, every public education program shall identify staff that are authorized to serve as a school-wide based resource to assist other staff in ensuring proper administration of physical restraint and crisis interventions. These staff members shall participate in advanced training in the use of physical restraint/crisis intervention beyond the basic training offered to all staff and the public education program shall document the extent of such training.

D. Content of Advanced Training. The advanced training required by § 2.3(C) of this Part in the proper administration of physical restraint/crisis intervention shall include, but not be limited to:

1. Appropriate procedures for preventing the need for physical restraint/crisis intervention, including the de-escalation of problematic behavior, relationship building and the use of alternatives to such restraints;
2. A description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint/ crisis intervention and methods for evaluating the risk of harm in individual situations in order to determine whether the use of physical restraint and crisis interventions are warranted;
3. The simulated experience of administering and receiving physical restraint/crisis intervention, instruction regarding the effect(s) on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;

4. Instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and

5. Demonstration by participants of proficiency in administering physical restraint/crisis intervention.

**200-RICR-20-30-2 Section 2.4. Determining when physical restraint/Crisis intervention may be used.**

A. Use of Restraint/Intervention. Physical restraint/crisis intervention may be used only in the following circumstances:

1. Non-physical interventions would not be effective; and

2. The student's behavior poses a threat of imminent, serious, physical harm to self and/or others; and

3. If a behavioral intervention plan has been developed for the student, those various positive reinforcement techniques have been implemented appropriately and the child has failed to respond to those reinforcement techniques.

**200-RICR-20-30-2 Section 2.5. Limitations and prohibitions.**

A. Limitations on the Use of Restraints. Physical restraint/crisis intervention in a public education program shall be limited to the use of such reasonable force as necessary to protect a student or another member of the school community from assault or imminent, serious, physical harm.

B. Prohibitions. Physical restraint/crisis intervention are prohibited in the following circumstances:

1. As a means of punishment;

2. As an intervention designed to, or likely to cause physical pain;

3. As in any intervention which denies adequate sleep, food, water, shelter, bedding or access to bathroom facilities;

4. As in any intervention which is designed to subject, used to subject, or likely to subject the individual to verbal abuse, ridicule or humiliation, physical pain, or which can be expected to cause excessive emotional trauma;

5. As in a restrictive intervention which employs a device or material or objects that simultaneously immobilize all four extremities, including the procedure known as prone containment, except that prone containment may be used by trained personnel as a limited emergency intervention when a documented part of a previously agreed upon written behavioral intervention plan;

6. As in seclusion, unless under constant surveillance and observation when documented as part of a previously agreed upon written behavioral intervention plan;

7. As in any intervention that precludes adequate supervision of the child;

8. Any intervention which deprives the individual of one or more of his or her senses

**200-RICR-20-30-2 Section 2.6. Proper administration of physical restraint/crisis intervention.**

A. Trained Personnel. Only personnel who have had training pursuant to § 2.3 of this Part may administer physical restraint/crisis intervention with students. Whenever possible, the administration of a physical restraint/crisis intervention shall be witnessed by at least one adult who does not participate in the restraint. The training requirement contained in § 2.3 of this Part shall not preclude a teacher, employee or agent of a public education program from using reasonable force to protect students, other persons, or themselves from imminent, serious physical harm.
B. Use of Force. A person administering a physical restraint/crisis intervention shall use only the amount of force necessary to protect the student or others from physical injury or harm and shall discontinue the physical restraint/crisis intervention as soon as possible.

C. Safety Requirements. Additional requirements for the use of physical restraint/crisis intervention are:

1. No restraint shall be administered in such a way that the student is prevented from breathing or speaking. During the administration of a restraint, a staff member shall continuously monitor the physical status of the student, including skin color and respiration. A restraint shall be released immediately upon a determination by the staff member administering the restraint that the student is no longer at risk of causing imminent physical harm to him or herself or others.

2. Restraint shall be administered in such a way so as to prevent or minimize physical harm. Prone restraint shall not be used. If, at any time during a physical restraint/crisis intervention, the student demonstrates significant physical distress, the student shall be released from the restraint immediately, and school staff shall take steps to seek medical assistance.

3. Program staff shall review and consider any known medical or psychological limitations and/or behavioral intervention plans regarding the use of physical restraint/crisis intervention on an individual student.

4. Following the release of a student from a restraint, the Public Education Program shall implement follow-up procedures. These procedures shall include reviewing the incident with the student, as appropriate, to address the behavior that precipitated the restraint, reviewing the incident with the staff person(s) who administered the restraint to discuss whether proper restraint procedures were followed, and consideration of whether any follow-up is appropriate for students who witnessed the incident.

---

**200-RICR-20-30-2 Section 2.7. Reporting requirements.**

A. Informing School Administration. The staff member who administered the physical restraint/crisis intervention shall inform the administration of any public education program of the use of a physical restraint/crisis intervention as soon as possible, and by a written report not later than the next working day. The administration shall maintain an ongoing written record of all reported instances of physical restraint/crisis intervention.

B. Informing Parents. The school administration shall have procedures to inform the student’s parent(s) or guardian(s) of the use of a restraint as soon as possible, and not later than two (2) school days after each incident. Written documentation of this notification shall be maintained by the public education program.

C. Contents of Report. The written report required by § 2.7(A) of this Part shall include:

1. The names and job titles of the staff who administered the restraint, and observers, if any, the date of the restraint, the time the restraint began and ended, and the name of the administrator who was verbally informed following the restraint;

5. Information regarding opportunities for the student’s parents or guardians to discuss with school officials the administration of the restraint, any disciplinary sanctions that may be imposed on the student and/or any other related matter.

D. Report to the R.I. Department of Education. Each public educational program shall provide the R.I. Department of Education a record of every incident of the use of a physical restraint/crisis intervention on an annual basis.

**200-RICR-20-30-2 Section 2.8. Emergency situations.**

These regulations shall not create a barrier to maintaining a safe school environment. While these regulations govern the use of physical restraint/crisis interventions, they do not limit the ability of school personnel or their agents from using reasonable force to protect students, other persons or themselves from imminent, serious physical harm.

**200-RICR-20-30-2 Section 2.9. Behavioral intervention plans.**

Once the use of physical restraint/crisis intervention has been employed on a student, school personnel shall determine if the student requires a behavioral intervention plan as part of the student's education program, and if one already exists, whether that plan needs to be modified or adjusted.

G. Student, Family, and Community Engagement

   a. Establish policies, processes, and procedures that facilitate regular (i.e., at least quarterly) participation of a representative group of school youth in discussions regarding how to improve the school environment, curriculum, and instruction to ensure increased access to challenging, hands-on learning experiences and supports and to ensure student success on state and local achievement measures;

These strategies shall:
   a. Be driven by needs identified through school and community data;

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. The State Board of Education shall have the power to:

(1) Adopt policies, rules and regulations not inconsistent with the laws of the State for its own government and for the government of the free public schools.

59-5-65. Powers and responsibilities of State Board of Education.
The State Board of Education shall have the power and responsibility to:

(1) Establish on or before August 15, 1985, regulations prescribing minimum standards of conduct and behavior that must be met by all pupils as a condition to the right of pupils to attend the public schools of the State. The rules shall take into account the necessity of proper conduct on the part of all pupils in order that the welfare of the greatest possible number of pupils shall be promoted notwithstanding that the rules may result in suspension or expulsion of pupils, provided, however, that disciplinary procedures shall be in compliance with Public Law 94-142.

(2) Promulgate on or before August 15, 1985, regulations prescribing a uniform system of minimum enforcement by the various school districts of the rules of conduct and behavior.

(3) Promulgate rules prescribing scholastic standards of achievement. The rules shall take into account the necessity for scholastic progress in order that the welfare of the greatest possible number of pupils shall be promoted. School districts may impose additional standards of conduct and may impose additional penalties for the violation of such standards of behavior, provided, however, that disciplinary procedures shall be in compliance with Public Law 94-142;

(4) Establish on or before July 1, 1985, regulations prescribing a uniform system of enforcement by the various school districts of the state compulsory attendance laws and regulations promulgated pursuant to 59-65-90.

59-17-135. Character education.
(B) Each local school board of trustees of the State must develop a policy addressing character education. Any character education program implemented by a district as a result of an adopted policy must, to the extent possible, incorporate character traits including, but not limited to, the following: respect for authority and respect for others, honesty, self-control, cleanliness, courtesy, good manners, cooperation, citizenship, patriotism, courage, fairness, kindness, self-respect, compassion, diligence, good work ethics, sound educational habits, generosity, punctuality, cheerfulness, patience, sportsmanship, loyalty, and virtue. Local school boards must include all sectors of the community, as referenced in subsection (A)(4), in the development of a policy and in the development of any program implemented as a result of the policy. As part of any policy and program developed by the local school board, an evaluation component must be included.

The board of trustees shall also:

(3) Promulgate rules and regulations. Promulgate rules prescribing scholastic standards of achievement and standards of conduct and behavior that must be met by all pupils as a condition to the right of such
pupils to attend the public schools of such district. The rules shall take into account the necessity of proper conduct on the part of all pupils and the necessity for scholastic progress in order that the welfare of the greatest possible number of pupils shall be promoted notwithstanding that such rules may result in the ineligibility of pupils who fail to observe the required standards, and require the suspension or permanent dismissal of such pupils;

59-63-140. Local school districts to adopt policies prohibiting harassment; required components; model policies by State Board of Education; bullying prevention programs.

(A) Before January 1, 2007, each local school district shall adopt a policy prohibiting harassment, intimidation, or bullying at school. The school district shall involve parents and guardians, school employees, volunteers, students, administrators, and community representatives in the process of creating the policy.

(B) The policy must include, but not be limited to, the following components:

3. a description of appropriate student behavior;

4. consequences and appropriate remedial actions for persons committing acts of harassment, intimidation, or bullying, and for persons engaging in reprisal or retaliation;

5. procedures for reporting acts of harassment, intimidation, or bullying, to include a provision for reporting anonymously. However, formal disciplinary action must not be taken solely on the basis of an anonymous report. The procedures must identify the appropriate school personnel responsible for taking the report and investigating the complaint;

6. procedures for prompt investigation of reports of serious violations and complaints;

7. a statement that prohibits reprisal or retaliation against a person who reports an act of harassment, intimidation, or bullying;

8. consequences and appropriate remedial action for persons found to have falsely accused another;

10. a statement of how the policy is to be publicized, including notice that the policy applies to participation in school sponsored functions.

(C) To assist local school districts in developing policies for the prevention of harassment, intimidation, or bullying, the State Board of Education shall develop model policies applicable to grades kindergarten through twelve. Additionally, the State Board of Education shall develop teacher preparation program standards on the identification and prevention of bullying. The model policies and standards must be developed no later than September 1, 2006.

(D) The local school board shall ensure that the school district's policy developed pursuant to this article is included in the school district's publication of the comprehensive rules, procedures, and standards of conduct for schools and in the student's handbook.

(E) Information regarding a local school district policy against harassment, intimidation, or bullying must be incorporated into a school's employee training program. Training also should be provided to school volunteers who have significant contact with students.

(F) Schools and school districts are encouraged to establish bullying prevention programs and other initiatives involving school staff, students, administrators, volunteers, parents, law enforcement, and community members.
**59-63-220. Suspension of pupils by administrator.**
Any district board may confer upon any administrator the authority to suspend a pupil from a teacher's class or from the school not in excess of ten days for any one offense and for not more than thirty days in any one school year but no such administrator may suspend a pupil from school during the last ten days of a year if the suspension will make the pupil ineligible to receive credit for the school year without the approval of the school board unless the presence of the pupil constitutes an actual threat to a class or a school or a hearing is granted within twenty four hours of the suspension.

**59-63-280. "Paging device" defined; adoption of policies addressing student possession.**
(A) For purposes of this section, "paging device" means a telecommunications, to include mobile telephones, device that emits an audible signal, vibrates, displays a message, or otherwise summons or delivers a communication to the possessor.

(B) The board of trustees of each school district shall adopt a policy that addresses student possession of paging devices as defined in subsection (A). This policy must be included in the district's written student conduct standards. If the policy includes confiscation of a paging device, as defined in subsection (A), it should also provide for the return of the device to the owner.

**59-63-1330. Discretion of school board.**
Nothing in this article shall abrogate the authority of any public school district and its governing board to take such disciplinary action as it is otherwise empowered by law to take against any student for misconduct including, but not limited to, expulsion, and nothing in this chapter shall require that any student be assigned to such an alternative school. These decisions shall rest solely in the discretion of the district and school board, regardless of the offense, record of the child, or other information presented from any source.

Students in the public schools of South Carolina enjoy the same basic rights of
United States citizenship as do other United States citizens. The rights of students are supported by the responsibility to insure that the rights of others are respected. This regulation is adopted with the intent to better assure that the opportunity to enjoy the benefits of public education is available to all those attending the public schools of the state of South Carolina.

II. Previously Adopted School District Discipline Policies

This regulation is established as a uniform system of minimum disciplinary enforcement for the school districts of South Carolina. School districts that previously have adopted discipline policies that are consistent with and contain the elements included in this regulation may retain their local policies as adopted.

I. Expectations for Student Conduct in South Carolina Public Schools
The mission of the SCDE is to provide leadership and support so that all public education students graduate prepared for success in citizenship, college, and careers as envisioned by the Profile of the South Carolina Graduate. Students in the public schools of South Carolina enjoy the same basic rights of United States citizenship as do other United States citizens. The rights of students are supported by the responsibility to insure that the rights of others are respected. This regulation is adopted with the intent to better assure that the opportunity to enjoy the benefits of public education is available to all those attending the public schools of the state of South Carolina.

II. Previously Adopted School District Discipline Policies
This regulation is established as a uniform system of minimum disciplinary enforcement for the school districts of South Carolina. School districts that previously have adopted discipline policies that are consistent with and contain the elements included in this regulation may retain their local policies as adopted.

III. Levels of Student Misconduct
A. The levels of student misconduct considered in this regulation are arranged by degrees of seriousness. The levels are arranged from the least serious to the most serious.
B. Three levels of student misconduct are identified: behavioral misconduct, disruptive conduct, and criminal conduct. The levels are defined in this regulation.
C. This regulation includes a listing of possible consequences and/or sanctions for the three levels of student misconduct. As the levels increase in seriousness, the severity of possible disciplinary consequences and/or sanctions increases.
D. Suggested consequences within the Level I misconduct category range from verbal reprimand to detention. Level II misconduct includes sanctions ranging from temporary removal from class to expulsion. Level III misconduct includes sanctions ranging from out-of-school suspension to appropriate action within the criminal justice system.
E. A local school board, in its discretion, may authorize more stringent standards and consequences than those contained in this regulation.

IV. Minimum Standards
A. Behavioral Misconduct-Level I
1. Behavioral misconduct is defined as those activities engaged in by student(s) which tend to impede orderly classroom procedures or instructional activities, orderly operation of the school, or the frequency or seriousness of which disturb the classroom or school. The provisions of this regulation
apply not only to within-school activities, but also to student conduct on school bus transportation vehicles, and during other school-sponsored activities.

Disruptive conduct is defined as those activities engaged in by student(s) which are directed against persons or property, and the consequences of which tend to endanger the health or safety of oneself or others in the school. Some instances of disruptive conduct may overlap certain criminal offenses, justifying both administrative sanctions and court proceedings. Behavioral misconduct (Level I) may be reclassified as disruptive conduct (Level II) if it occurs three or more times. The

      (2) witnessed involvement of the student by school administrators’ staff
      (3) parental admission of student involvement
      (4) evidence obtained through investigation by school administrators and staff
   c. The administrator may refer the student to the appropriate intervention team to establish behavioral management strategies (e.g., restorative justice, counseling, service-learning projects) and propose the appropriate disciplinary action.
   d. The administrator or other school officials may refer Level II misconduct to the School Resource Officer or other local law enforcement authorities only when the conduct rises to a level of criminality, and the conduct presents an immediate safety risk to one or more people or it is the third or subsequent act which rises to a level of criminality in that school year.

When school officials have a reasonable belief that students have engaged in such actions, then these activities usually require administrative actions which result in the immediate removal of the student from the school, the intervention of the School Resource Officer or other law enforcement authorities, and/or action by the local school board. The provisions of this regulation apply not only to within-school activities, but also to student conduct on school bus transportation vehicles, and during other school-sponsored activities.

Disruptive conduct is defined as those activities engaged in by student(s) which are directed against persons or property, and the consequences of which tend to endanger the health or safety of oneself or others in the school. Some instances of disruptive conduct may overlap certain criminal offenses, justifying both administrative sanctions and court proceedings. (3) parental admission of student involvement
(4) evidence obtained through investigation by school administrators and staff

c. The administrator may refer the student to the appropriate intervention team to establish behavioral management strategies (e.g., restorative justice, counseling, service-learning projects) and propose the appropriate disciplinary action.

d. The administrator or other school officials may refer Level II misconduct to the School Resource Officer or other local law enforcement authorities only when the conduct rises to a level of criminality, and the conduct presents an immediate safety risk to one or more people or it is the third or subsequent act which rises to a level of criminality in that school year.

When school officials have a reasonable belief that students have engaged in such actions, then these activities usually require administrative actions which result in the immediate removal of the student from the school, the intervention of the School Resource Officer or other law enforcement authorities, and/or action by the local school board. The provisions of this regulation apply not only to within-school activities, but also to student conduct on school bus transportation vehicles, and during other school-sponsored activities.

2. Acts of criminal conduct may include, but are not limited to:

Grounds for mandatory suspension or expulsion

LAWS

59-63-235. Expulsion of student determined to have brought firearm to school.

The district board must expel for no less than one year a student who is determined to have brought a firearm to a school or any setting under the jurisdiction of a local board of trustees. The expulsion must follow the procedures established pursuant to Section 59-63-240. The one-year expulsion is subject to modification by the district superintendent of education on a case-by-case basis. Students expelled pursuant to this section are not precluded from receiving educational services in an alternative setting. Each local board of trustees is to establish a policy which requires the student to be referred to the local county office of the Department of Juvenile Justice or its representative.
Limitations, conditions or exclusions for use of suspension and expulsion

LAWS

59-63-210. Grounds for which trustees may expel, suspend or transfer pupils; petition for readmission; expulsion, suspension, or transfer.

(A) Any district board of trustees may authorize or order the expulsion, suspension, or transfer of any pupil for the commission of any crime, gross immorality, gross misbehavior, persistent disobedience, or for violation of written rules and promulgated regulations established by the district board, county board, or the State Board of Education, or when the presence of the pupil is detrimental to the best interest of the school. Each expelled pupil has the right to petition for readmission for the succeeding school year. Expulsion or suspension must be construed to prohibit a pupil from entering the school or school grounds, except for a prearranged conference with an administrator, attending any day or night school functions, or riding a school bus. The provisions of this section do not preclude enrollment and attendance in any adult or night school.

(B) A district board of trustees shall not authorize or order the expulsion, suspension, or transfer of any pupil for a violation of Section 59-150-250(B).

59-63-220. Suspension of pupils by administrator.

Any district board may confer upon any administrator the authority to suspend a pupil from a teacher's class or from the school not in excess of ten days for any one offense and for not more than thirty days in any one school year but no such administrator may suspend a pupil from school during the last ten days of a year if the suspension will make the pupil ineligible to receive credit for the school year without the approval of the school board unless the presence of the pupil constitutes an actual threat to a class or a school or a hearing is granted within twenty four hours of the suspension.

59-63-1330. Discretion of school board.

Nothing in this article shall abrogate the authority of any public school district and its governing board to take such disciplinary action as it is otherwise empowered by law to take against any student for misconduct including, but not limited to, expulsion, and nothing in this chapter shall require that any student be assigned to such an alternative school. These decisions shall rest solely in the discretion of the district and school board, regardless of the offense, record of the child, or other information presented from any source.

59-63-230. Notices of suspensions; conferences with parents or guardian.

When a pupil is suspended from a class or a school, the administrator shall notify, in writing, the parents or legal guardian of the pupil, giving the reason for such suspension and setting a time and place when the administrator shall be available for a conference with the parents or guardian. REGULATIONS

43-279. Minimum standards of student conduct and disciplinary enforcement procedures to be implemented by local school districts.
I. Expectations for Student Conduct in South Carolina Public Schools
The mission of the SCDE is to provide leadership and support so that all public education students graduate prepared for success in citizenship, college, and careers as envisioned by the Profile of the South Carolina Graduate. Students in the public schools of South Carolina enjoy the same basic rights of United States citizenship as do other United States citizens. The rights of students are supported by the responsibility to insure that the rights of others are respected. This regulation is adopted with the intent to better assure that the opportunity to enjoy the benefits of public education is available to all those attending the public schools of the state of South Carolina.
II. Previously Adopted School District Discipline Policies
This regulation is established as a uniform system of minimum disciplinary enforcement for the school districts of South Carolina. School districts that previously have adopted discipline policies that are consistent with and contain the elements included in this regulation may retain their local policies as adopted.
III. Levels of Student Misconduct
A. The levels of student misconduct considered in this regulation are arranged by degrees of seriousness. The levels are arranged from the least serious to the most serious.

LAWS

59-63-210. Grounds for which trustees may expel, suspend or transfer pupils; petition for readmission; expulsion, suspension, or transfer.

(A) Any district board of trustees may authorize or order the expulsion, suspension, or transfer of any pupil for the commission of any crime, gross immorality, gross misbehavior, persistent disobedience, or for violation of written rules and promulgated regulations established by the district board, county board, or the State Board of Education, or when the presence of the pupil is detrimental to the best interest of the school. Each expelled pupil has the right to petition for readmission for the succeeding school year. Expulsion or suspension must be construed to prohibit a pupil from entering the school or school grounds,
except for a prearranged conference with an administrator, attending any day or night school functions, or riding a school bus. The provisions of this section do not preclude enrollment and attendance in any adult or night school.

(B) A district board of trustees shall not authorize or order the expulsion, suspension, or transfer of any pupil for a violation of Section 59-150-250(B).

59-63-217. Barring enrollment of student; grounds; notice and hearing; duration of bar.

(A) In determining whether or not a student meets the standards of conduct and behavior promulgated by the board of trustees necessary for first time enrollment and attendance in a school in the district, the board shall consider nonschool records, the student's disciplinary records in any school in which the student was previously enrolled as these records relate to the adjudication of delinquency in any jurisdiction, within or without this State, of violations or activities which constitute violent crimes under Section 16 1 60, adjudications for assault and battery of a high and aggravated nature, the unlawful use or possession of weapons, or the unlawful sale of drugs whether or not considered to be drug trafficking. Based on this consideration of the student's record, the board may bar his enrollment in the schools of the district.

(B) If the boardbars a student from enrolling pursuant to this section, notice must be provided to the student's parent or legal guardian and the student is entitled to a hearing and all other procedural rights afforded under state law to a student subject to expulsion.

(C) The bar to enrollment allowed by this section applies for a maximum of one year. After the bar is lifted, a student may reapply for enrollment and the board shall order the student enrolled if he otherwise meets enrollment criteria.

LAWS

59-63-210. Grounds for which trustees may expel, suspend or transfer pupils; petition for readmission; expulsion, suspension, or transfer.

(A) Any district board of trustees may authorize or order the expulsion, suspension, or transfer of any pupil for the commission of any crime, gross immorality, gross misbehavior, persistent disobedience, or for violation of written rules and promulgated regulations established by the district board, county board, or the State Board of Education, or when the presence of the pupil is detrimental to the best interest of the school. Each expelled pupil has the right to petition for readmission for the succeeding school year. Expulsion or suspension must be construed to prohibit a pupil from entering the school or school grounds, except for a prearranged conference with an administrator, attending any day or night school functions, or
riding a school bus. The provisions of this section do not preclude enrollment and attendance in any adult or night school.

(B) A district board of trustees shall not authorize or order the expulsion, suspension, or transfer of any pupil for a violation of Section 59-150-250(B).

59-63-1300. Alternative school programs established.

The General Assembly finds that a child who does not complete his education is greatly limited in obtaining employment, achieving his full potential, and becoming a productive member of society. It is, therefore, the intent of this article to encourage district school boards throughout the State to establish alternative school programs. These programs shall be designed to provide appropriate services to students who for behavioral or academic reasons are not benefiting from the regular school program or may be interfering with the learning of others. It is further the intent of this article that cooperative agreements may be developed among school districts in order to implement innovative exemplary programs.

59-63-1320. Referral or placement of students in alternative school programs.

Eligible alternative school programs shall be provided for, but not limited to, students in grades 6-12 as follows:

(1) Students referred for voluntary attendance at the alternative school program and meeting the district criteria to attend based upon a documented need for the attention and assistance beyond that of a traditional program as established by the academic history of the student, including the student's academic plan as required in Section 59-18-500, and following other policies and procedures for documenting need established by the district board of trustees.

(2) Students referred for voluntary attendance at the alternative school program and meeting the district criteria to attend based upon a documented need for the program due to habitual exhibitions of disruptive behavior in violation of the student conduct policies and behavior codes approved by the school board of trustees.

Districts must establish clear guidelines and procedures for the referral of any student into an alternative school program and before a decision is made to assign a student to an alternative school program, a determination must be made that the written and distributed academic and disciplinary policies of the district have been followed.

(3) Students placed in an alternative school program by the district board of trustees as an option to suspension or expulsion or by the dispositive order of a family court judge, with the consent of the local board of trustees. However, before a student may be placed in an alternative school program, a determination must be made by the local board that the written and distributed disciplinary policy of the district has been followed. Districts must establish clear guidelines and procedures for the placement of any student into an alternative school program and at a minimum they shall prescribe due process procedures for placement actions.

When students are being considered for placement in an alternative school program, districts must consider the requirements of the Federal Individuals with Disabilities Education Act (IDEA).

If a student placed by the board of trustees in an alternative school program enrolls in another school district before the expiration of the period of placement, the board of trustees of the district requiring the placement shall provide to the district in which the student enrolls, at the same time other records of the student are provided, information concerning the student's placement in an alternative school program. Upon review of the information, the district in which the student enrolls may continue an alternative education program placement or may allow the student to attend regular classes without completing the period of the placement.
59-63-1330. Discretion of school board.

Nothing in this article shall abrogate the authority of any public school district and its governing board to take such disciplinary action as it is otherwise empowered by law to take against any student for misconduct including, but not limited to, expulsion, and nothing in this chapter shall require that any student be assigned to such an alternative school. These decisions shall rest solely in the discretion of the district and school board, regardless of the offense, record of the child, or other information presented from any source.

REGULATIONS

43-274.1. At-risk students.
I. At-Risk Student Definition
   A. A student at risk of dropping out of school is any student who, because of his or her individual needs, requires temporary or ongoing intervention in order to achieve in school and to graduate with meaningful options for his or her future.
   B. Students depending on their degree of resiliency and connectedness to caring adults in the home, in the community, and/or at school may respond differently to those things frequently cited as barriers, predictors, or indicators of being “at risk.” Therefore, educators and other responsible adults working with students should consider the whole child, who might have both short-term and long-term needs requiring intervention.

II. At-Risk Student Indicators, Predictors, and Barriers The South Carolina Education and Economic Development Act mandates the promulgation of State Board of Education regulations outlining specific objective criteria for districts to use in identifying students who may be poorly prepared for the next level of study or who are at risk of dropping out of school. The Act calls for these criteria to include diagnostic assessments for districts to use in order to identify the strengths and weaknesses of individual students in the core academic areas.

   A. Poor academic performance—generally, a grade point average of 2.0 or lower on a 4.0 scale in the core content areas is a significant predictor that districts must consider in identifying at-risk students. Careful consideration should be given to students demonstrating declining academic performance. School districts are encouraged to carefully review a variety of assessments, including the following, in diagnosing students’ academic difficulties and selecting appropriate short-term and long-term interventions:
      1. results of statewide assessments used for accountability purposes and other state-funded (e.g., formative) assessments,
      2. Preliminary Scholastic Assessment Test (PSAT) or PLAN test results,
      3. district- or school-adopted CAI (computer-aided instruction) assessments,
      4. end-of-course examination results,
      5. classroom-level assessments related to the state’s academic standards, and
      6. other district-approved diagnostic assessments.
   B. The following are among the specific behaviors and characteristics that school districts must consider as indicators, predictors, and barriers in identifying at-risk students:
      1. being overage for their grade level due to retention attributable to risk factors such as a high rate of absences and truancy;
      2. showing a lack of effort or interest in their academic work;
      3. working an excessive number of hours per day or week;
      4. having a history of discipline problems leading to suspension, expulsion, and/or probation;
      5. showing or expressing feelings of being disconnected from the school environment;
6. showing evidence of physical and/or emotional abuse;
7. coming from and/or living in a disadvantaged socioeconomic environment;
8. living in a home situation that does not include at least one parent;
9. being a single parent; and
10. having limited proficiency in the English language.

III. At-Risk Student Model, Initiative, and Program Selection

By the 2007-08 school year each high of the state must implement one or more model programs approved by the South Carolina Department of Education (SCDE). Schools must select at-risk student models, initiatives, and programs that meet the needs of the at-risk populations to be served and must ensure that models, initiatives, and programs selected provide students with the opportunity to graduate with a high school diploma. The SCDE will provide an implementation document that will include a tiered matrix of approved evidence-based models, initiatives, and programs to facilitate the selection process in accordance with the Education and Economic Development Act requirements for implementing evidence-based models, initiatives, and programs. The document will also contain a more extensive list of indicators, predictors, and barriers as well as one-page descriptions for each evidence-based model, initiative, and program included in the matrix.

IV. Population and Model, Initiative, and Program Identification Parameters

Each high school either must implement a model, initiative, or program that is chosen from a list provided by the SCDE or must submit to the SCDE for approval a specific dropout prevention model, comprehensive initiative, or multifaceted program that it wants to use. High schools may explore and implement newly developed models with approval from the SCDE. One criterion for SCDE approval of any newly developed model will be evidence presented by the district and/or school that the model is centered in research-based dropout-prevention strategies.

A. Implementation efforts related to any model, initiative, or program (or combination of models, initiatives, and programs) must ensure that students are properly identified and provided timely, appropriate guidance and assistance and must ensure that no group is disproportionately represented.

B. When subpopulations are identified, high schools must ensure that these groups reflect the demographics of populations identified as at risk of dropping out of school.

C. When no subpopulations are identified, high schools implementing comprehensive initiatives will not have to address the disproportionate representation of any one group of students. In such cases, methods of determining the effectiveness of the at-risk initiative must be given careful consideration with regard to collecting data and preparing necessary reports.

D. Parental involvement must be part of final placement decisions in any model, initiative, or program where small groups of students are identified for service in a particular school or district.

E. The target population must reflect the demographics of the population identified in Section II, above, as being at risk of dropping out of school.

F. High schools must provide relevant data related to identifying the at-risk student population and to addressing the needs of these at-risk students as required for SCDE reports.

V. Building-Level Program Evaluation

A. Evaluation Criteria

All high schools must annually evaluate their dropout-prevention models, initiatives, and/or programs using, at a minimum, the following criteria:

1. an identification process, including (where appropriate and based on the particular model, initiative, or program) the number of at-risk students identified and the specific risk factors identified;
2. the extent of parental involvement in the school’s dropout-prevention efforts;
3. the number of students served;
4. a formative assessment of strengths and weaknesses of the model, initiative, and/or program; and
5. a qualitative assessment of desired outcomes (see item B, immediately below).

B. Desired Outcomes
Schools should establish desired outcomes or performance criteria based on the specific needs of the at-risk population identified and, on the nature, and structure of the particular model, initiative, and/or program they are implementing. Examples of desired outcomes among the target population include, but are not limited to, the following:

1. decreased percentages of truancy, absenteeism, discipline problems, and retentions;
2. increases in students’ grade point averages; and
3. increased percentages of students who are on grade level and students who graduate on time.

Model-, initiative-, and/or program-specific data and PowerSchool data elements should be used to assess desired outcomes on the basis of specific evaluation criteria. The state’s PowerSchool data management system can be used to collect, sort, and report data related to each student’s attendance record; age and grade level; gender; ethnicity; grade point average; and retention, truancy, and dropout status.

C. Teacher and/or counselor assessments may be used to provide supplemental anecdotal documentation and insights related to the effectiveness of the model, initiative, and/or program implemented. A district or school checklist may be beneficial in the evaluation process.

VI. Model, Initiative, and/or Program Evaluation and Assessment Reporting
All high schools must annually provide reports requested by the SCDE that relate to the implementation and effectiveness of models, initiatives, and/or programs addressing the needs of students at risk of dropping out of school. District and school report card contents must contain information on the disciplinary climate, promotion and retention ratios, dropout ratios, dropout reduction data, and attendance data. Districts and schools must be prepared to provide accurate and relevant data to the SCDE.

Attendance and truancy

LAWS

If the board of trustees of a school district or its designee is unable to obtain the school attendance of a child in the age group specified in Section 59-65-10, the board or its designee shall report such nonattendance in writing to the juvenile court or such other court in the county as may have jurisdiction of juveniles but exclusive of magistrate’s courts notwithstanding the provisions of Section 22-3-540; provided, that no one except the board of trustees or its designee shall have the authority to institute the proceedings herein.

59-65-60. Procedure upon receipt by court of report of nonattendance.
(a) Upon receipt of such report, the court may forthwith order the appearance before such court of the responsible parent or guardian and if it deems necessary, the minor involved, for such action as the court may deem necessary to carry out the provisions of this article.
(b) The court may, after hearing upon ten days notice, order such parent or guardian to require such child to attend school and upon failure of such parent to comply with such order may punish such parent or
guardian as by contempt, provided, that punishment for such contempt cannot exceed fifty dollars or thirty
days imprisonment for each offense.
The procedure herein provided shall be alternative to the penalties provided in Section 59-65-20.

59-65-70. Court empowered to declare child delinquent.
If the court determines that the reported absence occurred without the knowledge, consent or connivance
of the responsible parent or guardian or that a bona fide attempt has been made to control and keep the
child in school, the court may declare such child to be a delinquent and subject to the provisions of law in
such cases.

59-65-80. Enrollment or attendance of expelled or suspended child not authorized.
Nothing herein shall be construed as granting authority to require enrollment or attendance of a child who
has been or may be expelled or suspended by the board of trustees of the district or any other person
acting with authority from the board of trustees.

The State Board of Education shall establish regulations defining lawful and unlawful absences beyond
those specifically named in this article and additional regulations as are necessary for the orderly
enrollment of pupils so as to provide for uniform dates of entrance. These regulations shall require: (1)
that school officials shall immediately intervene to encourage the student's future attendance when the
student has three consecutive unlawful absences or a total of five unlawful absences and (2) that the
district board of trustees or its designee shall promptly approve or disapprove any student absence in
excess of ten days. As used in this section, "intervene" means to identify the reasons for the child's
continued absence and to develop a plan in conjunction with the student and his parent or guardian to
improve his future attendance.
Provided, However, That nothing within this section shall interfere with the Board's authority to at any time
refer a child to a truancy prevention program or to the court pursuant to Section 59-65-50.

REGULATIONS

43-274. Student Attendance.
II. Truancy
The State Board of Education recognizes that truancy is primarily an educational issue and that all
reasonable, educationally sound, corrective actions should be undertaken by the school district prior to
resorting to the juvenile justice system.

(A) Truant. A child ages 6 to 17 years meets the definition of a truant when the child has three
consecutive unlawful absences or a total of five unlawful absences.

(B) Habitual Truant. A "habitual" truant is a child age 12 to 17 years who fails to comply with the
intervention plan developed by the school, the child, and the parent(s) or guardian(s) and who
accumulates two or more additional unlawful absences. This child may need court intervention and an
initial truancy petition may be filed. The written intervention plan, and documentation of non-compliance,
must be attached to the truancy petition asking for court intervention.

(C) Chronic Truant. A "chronic" truant is a child ages 12 to 17 years who has been through the school
intervention process, has reached the level of a "habitual" truant, has been referred to Family Court and
placed on an order to attend school, and continues to accumulate unlawful absences. Should other
community alternatives and referrals fail to remedy the attendance problem, the "chronic" truant may be
referred to the Family Court for violation of a previous court order. All school intervention plans existing
to this point for this child and family must accompany the Contempt of Court petition as well as a written recommendation from the school to the court on action the court should take.

III. Intervention Plans

(A) Each district must develop a policy relating to requirements for intervention. The district plan for improving students' attendance must be in accordance with any applicable statutes.

(B) Once a child is determined to be truant as defined in Section II(A), school officials must make every reasonable effort to meet with the parent(s) or guardian(s) to identify the reasons for the student's continued absence. These efforts should include telephone calls and home visits, both during and after normal business hours, as well as written messages and e-mails. School officials must develop a written "intervention plan" to address the student's continued absence in conjunction with the student and parent(s) or guardian(s).

(C) The intervention plan must include but is not limited to

(1) Designation of a person to lead the intervention team. The team leader may be someone from another agency.

(2) Reasons for the unlawful absences.

(3) Actions to be taken by the parent(s) or guardian(s) and student to resolve the causes of the unlawful absences.

(4) Documentation of referrals to appropriate service providers and, if available, alternative school and community-based programs.

(5) Actions to be taken by intervention team members.

(6) Actions to be taken in the event unlawful absences continue.

(7) Signature of the parent(s) or guardian(s) or evidence that attempts were made to involve the parents(s) or guardian(s).

(8) Documentation of involvement of team members.

(9) Guidelines for making revisions to the plan.

(D) School officials may utilize a team intervention approach. Team members may include representatives from social services, community mental health, substance abuse and prevention, and other persons the district deems appropriate to formulate the written intervention plans.

IV. Referrals and Judicial Intervention

At no time should a child ages 6 to 17 years be referred to the Family Court to be placed on an order to attend school prior to the written intervention planning being completed with the parent(s) or guardian(s) by the school. A consent order must not be used as an intervention plan from any local school or school district. Should the parent(s) or guardian(s) refuse to cooperate with the intervention planning to remedy the attendance problem, the school district has the authority to refer the student to Family Court in accordance with S.C. Code Ann. Section 59-65-50 (1990), and a report shall be filed against the parent(s) or guardian(s) with the Department of Social Services in compliance with S.C. Code Ann. Section 20-7-490 (2)(c)(Supp. 2002).

(A) Petition for a School Attendance Order. If the intervention plan is not successful and further inquiry by school officials fails to cause the truant student and/or parent(s) or guardian(s) to comply with the written intervention plan or if the student and/or parent(s) or guardian(s) refuses to participate in intervention and the student accumulates two or more additional unlawful absences, the student is considered an "habitual" truant. Each referral must include a copy of the plan and specify any corrective action regarding the student and/or the parent(s) or guardian(s) that the district recommends that the court adopt as well as any other available programs or alternatives identified by the school district. The
intervention plan must be attached to the petition to the Family Court and served on the student and the
parent(s) or guardian(s).

(B) Petition for Contempt of Court. Once a school attendance order has been issued by the Family
Court and the student continues to accumulate unlawful absences, the student is considered to be a
"chronic" truant and school officials may refer the case back to Family Court. The school and district
must exhaust all reasonable alternatives prior to petitioning the Family Court to hold the student and/or
the parent(s) or guardian(s) in contempt of court. Any petition for contempt of court must include a
written report indicating the corrective actions that were attempted by the school district and what
graduated sanctions or alternatives to incarceration are available to the court in the community. The
school district must include in the written report its recommendation to the court should the student
and/or parent(s) or guardian(s) be found in contempt of court.

V. Coordination with the South Carolina Department of Juvenile Justice

Each school district should coordinate with the local office of the South Carolina Department of Juvenile
Justice to establish a system of graduated sanctions and alternatives to incarceration in truancy cases.

VI. Transfer of Plans

If a student transfers to another public school in South Carolina, intervention plans shall be forwarded to
the receiving school. School officials will contact the parent(s) or guardian(s) and local team members to
review the plan and revise as appropriate. Court ordered plans may be amended through application to
the court.

VII. Approval of Absences in Excess of Ten Days and Approval of Credit

(A) The district board of trustees, or its designee, shall approve or disapprove any student’s absence in
excess of ten days, whether lawful, unlawful, or a combination thereof, for students in grades K-12. For
the purpose of awarding credit for the year, school districts must approve or disapprove absences in
excess of ten days regardless as to whether those absences are lawful, unlawful, or a combination of
the two.

(B) In order to receive one Carnegie unit of credit, a student must be in attendance at least 120 hours,
per unit, regardless of the number of days missed, or must demonstrate proficiency as determined by
the local school district. This exception to the 120-hour requirement is to be administered by local
school districts on a case-by-case basis and only for students who have excessive absences that have
been approved by the local school board. General request for proficiency-based credit must be made
through the process described in Regulation 43-234. Students whose absences are approved should
be allowed to make up any work missed in order to satisfy this requirement. Local school boards should
develop policies governing student absences giving appropriate consideration to unique situations that
may arise within their districts when students do not meet the minimum attendance requirements.
Therefore, districts should allow students, whose excessive absences are approved in part 1 of this
section, to make-up work missed to satisfy this requirement.

Examples of make-up work may include

(1) after-school and/or weekend make-up programs that address both time and academic
requirements of the course(s), or

(2) extended-year programs that address both time and academic requirements of the course(s). All
make-up time and work must be completed within thirty days from the last day of the course(s). The
district board of trustees or its designee may extend the time for student’s completion of the
requirements due to extenuating circumstances that include but are not limited to the student’s
medical condition, family emergencies, and other student academic requirements that are considered
to be a maximum load. Make-up requirements that extend beyond thirty days due to extenuating
circumstances must be completed prior to the beginning of the subsequent new year.
VIII. Reporting Requirements
The State Department of Education will develop and implement a standard reporting system for the adequate collection and reporting of truancy rates on a school-by-school basis.

IX. Guidelines
Additional information relating to the implementation of this regulation will be contained in State Department of Education Guidelines. The State Department of Education will review and update these guidelines as needed.

Substance use

LAWS

59-1-380. Mandatory tobacco and alternative nicotine product-free local school board policy.

(A) By August 1, 2019, every local school district in the State shall adopt, implement, and enforce a written policy prohibiting at all times the use of any tobacco product or alternative nicotine product by any person in school buildings, in school facilities, on school campuses, and in or on any other school property owned or operated by the local school administrative unit. The policy also must prohibit the use of any tobacco product or alternative nicotine product by persons attending a school-sponsored event at a location not listed in this subsection when in the presence of students or school personnel or in an area where smoking or other tobacco use is otherwise prohibited by law.

(B) The policy must include at least all of the following elements:

(1) adequate notice to students, parents or guardians, the public, and school personnel of the policy;

(2) posting of signs prohibiting at all times the use of tobacco products or alternative nicotine products by any person in and on school property; and

(3) requirements that school personnel enforce the policy, including appropriate disciplinary action.

(C) Disciplinary actions for violating the policy may include, but not be limited to:

(1) for students: administrator and parent or legal guardian conference, mandatory enrollment in tobacco prevention education or cessation programs, community service, in-school suspension, suspension for extracurricular activities, or out-of-school suspension;

(2) for staff: verbal reprimand, written notification in personnel file, mandatory enrollment in tobacco prevention education, voluntary enrollment in cessation programs, or suspension;

(3) for contract or other workers: verbal reprimand, notification to contract employer, or removal from district property; and

(4) for visitors: verbal request to leave district property or prosecution for disorderly conduct for repeated offenses.

(D) The local school district shall collaborate with the Department of Health and Environmental Control, the Department of Alcohol and Other Drug Abuse Services, and the South Carolina Department of Education, as appropriate, to implement the policy, including as part of tobacco education and cessation programs and substance use prevention efforts.

(E) The policy may permit tobacco products or alternative nicotine products to be included in instructional or research activities in public school buildings if the activity is conducted or supervised by the faculty member overseeing the instruction or research and the activity does not include smoking, chewing, inhaling, or otherwise ingesting the tobacco product or alternative nicotine product.

(F) For purposes of this section:

(1) "Tobacco product” has the same meaning as defined in Section 16-17-501.
(2) "Alternative nicotine product" has the same meaning as defined in Section 16-17-501.

REGULATIONS

43-279. Minimum standards of student conduct and disciplinary enforcement procedures to be implemented by local school districts.

I. Expectations for Student Conduct in South Carolina Public Schools

The mission of the SCDE is to provide leadership and support so that all public education students graduate prepared for success in citizenship, college, and careers as envisioned by the Profile of the South Carolina Graduate. Students in the public schools of South Carolina enjoy the same basic rights of United States citizenship as do other United States citizens. The rights of students are supported by the responsibility to insure that the rights of others are respected. This regulation is adopted with the intent to better assure that the opportunity to enjoy the benefits of public education is available to all those attending the public schools of the state of South Carolina.

II. Previously Adopted School District Discipline Policies

This regulation is established as a uniform system of minimum disciplinary enforcement for the school districts of South Carolina. School districts that previously have adopted discipline policies that are consistent with and contain the elements included in this regulation may retain their local policies as adopted.

III. Levels of Student Misconduct

A. The levels of student misconduct considered in this regulation are arranged by degrees of seriousness. The levels are arranged from the least serious to the most serious.

B. Three levels of student misconduct are identified: behavioral misconduct, disruptive conduct, and criminal conduct. The levels are defined in this regulation.

C. This regulation includes a listing of possible consequences and/or sanctions for the three levels of student misconduct. As the levels increase in seriousness, the severity of possible disciplinary consequences and/or sanctions increases.

D. Suggested consequences within the Level I misconduct category range from verbal reprimand to detention. Level II misconduct includes sanctions ranging from temporary removal from class to expulsion. Level III misconduct includes sanctions ranging from out-of-school suspension to appropriate action within the criminal justice system.

E. A local school board, in its discretion, may authorize more stringent standards and consequences than those contained in this regulation.

IV. Minimum Standards

A. Behavioral Misconduct-Level I

1. Behavioral misconduct is defined as those activities engaged in by student(s) which tend to impede orderly classroom procedures or instructional activities, orderly operation of the school, or the frequency or seriousness of which disturb the classroom or school. The provisions of this regulation apply not only to within-school activities, but also to student conduct on school bus transportation vehicles, and during other school-sponsored activities.

2. Acts of behavioral misconduct shall include, but are not limited to:
   a. Classroom tardiness;
   b. Cheating on examinations or classroom assignments;
   c. Lying;
   d. Abusive language between or among students;
e. Failure to comply with directives from school/district personnel or agents (to include volunteer aides or chaperones);

f. Use of forged notes or excuses;

g. Cutting class;

h. School tardiness;

i. Truancy (three consecutive unlawful absences from school or a total of five unlawful absences);

j. Possession of an electronic communication device (including, but not limited to, cell phones, tablets, computers, and iPods) inconsistent with school board policy. An electronic communication device is a device that emits an audible signal, vibrates, displays a message, image or otherwise summons or delivers a communication to the possessor;

k. Other acts of behavioral misconduct as determined and communicated by local school authorities

3. The basic enforcement procedures to be followed in instances of behavioral misconduct are:

a. Upon observation or notification and verification of acts of behavioral misconduct, the staff member shall take immediate action to rectify the misconduct. The staff member shall impose an appropriate consequence and maintain a record of the misconduct and the consequence.

b. If, either in the opinion of the staff member or according to local school board policy, a certain misconduct is not immediately rectifiable, the problem shall be referred to the appropriate administrator for action specified by local school board policy.

c. The administrator shall meet with the reporting staff member, and, if necessary, the student and the parent or guardian, and impose the appropriate consequence and/or establish an intervention plan and/or behavioral contract.

d. A complete record of the procedures shall be maintained.

4. Possible consequences to be applied in cases of behavioral misconduct may include, but are not limited to:

a. Verbal reprimand;

b. Withdrawal of privileges;

c. Demerits;

d. Detention (silent lunch, after school, weekends, or another time that does not interfere with the instructional day);

e. Other consequences as approved and communicated by local school authorities.

B. Disruptive Conduct-Level II

1. Disruptive conduct is defined as those activities engaged in by student(s) which are directed against persons or property, and the consequences of which tend to endanger the health or safety of oneself or others in the school. Some instances of disruptive conduct may overlap certain criminal offenses, justifying both administrative sanctions and court proceedings. Behavioral misconduct (Level I) may be reclassified as disruptive conduct (Level II) if it occurs three or more times. The provisions of this regulation apply not only to within school activities, but also to student conduct on school bus transportation vehicles, and during other school-sponsored activities.

2. Acts of disruptive conduct may include, but are not limited to:

a. Violation of a Level I intervention plan and/or behavioral contract;

b. Use of an intoxicant;

c. Fighting;

d. Vandalism (minor);
e. Stealing;
f. Threats against others;
g. Trespass;
h. Abusive language to staff;
i. Repeated refusal to comply with directives from school personnel or agents (such as volunteer aides or chaperones);
j. Possession or use of unauthorized substances, as defined by law and/or local school board policy;
k. Illegally occupying or blocking in any way school property with the intent to deprive others of its use;
l. Unlawful assembly;

3. The basic enforcement procedures to be followed in instances of disruptive conduct are:
   a. Upon observation or notification and verification of an offense, the administrator shall investigate the circumstances of the misconduct and shall confer with staff on the extent of the consequences.
   b. The administrator shall notify the parent or guardian of the student’s misconduct and related proceedings. The administrator shall meet with the student and, if necessary, the parent or guardian, confer with them about the student’s misconduct and impose the appropriate disciplinary action. Verification shall be defined as the following:
      (1) self-admittance by the student
      (2) witnessed involvement of the student by school administrators’ staff

   d. The administrator or other school officials may refer Level II misconduct to the School Resource Officer or other local law enforcement authorities only when the conduct rises to a level of criminality, and the conduct presents an immediate safety risk to one or more people or it is the third or subsequent act which rises to a level of criminality in that school year.
   e. A complete record of the procedures shall be maintained.

4. Possible sanctions to be applied in cases of disruptive conduct may include, but are not limited to:

C. Criminal Conduct-Level III

1. Criminal conduct is defined as those activities engaged in by student(s) which result in violence to oneself or another’s person or property or which pose a direct and serious threat to the safety of oneself or others in the school. When school officials have a reasonable belief that students have engaged in such actions, then these activities usually require administrative actions which result in the immediate removal of the student from the school, the intervention of the School Resource Officer or other law enforcement authorities, and/or action by the local school board. The provisions of this regulation apply not only to within-school activities, but also to student conduct on school bus transportation vehicles, and during other school-sponsored activities.

2. Acts of criminal conduct may include, but are not limited to:
   a. Assault and battery that poses a serious threat of injury or results in physical harm;
   b. Extortion;
   c. Threat of the use of a destructive device (bomb, grenade, pipe bomb or other similar device);
   d. Possession, use, or transfer of dangerous weapons;
   e. Sexual offenses;
   f. Vandalism (major);
   g. Theft, possession, or sale of stolen property;
   h. Arson;
   i. Furnishing or selling unauthorized substances, as defined by law and/or local school board policy;
   j. Furnishing, selling, or possession of controlled substances (drugs, narcotics, or poisons);
   k. Illegal use of technology (e.g., communicating a threat of a destructive device, weapon, or event with the intent of intimidating, threatening, or interfering with school activities and maliciously transmitting sexual images of minors other than images of the student or images transmitted with the uncoerced consent of the individual in the images).

3. “Acts of criminal conduct,” for purposes of defining Level III conduct, do not include acts that only amount to disturbing schools, breach of peace, disorderly conduct, or affray under South Carolina law.

4. The basic enforcement procedures to be followed in instances of criminal conduct are:
   a. Upon observation or notification and verification of a criminal offense, the administrator shall contact the School Resource Officer or local law enforcement authorities immediately.
   b. An administrator shall notify the student’s parent or guardian as soon as possible.
   c. An administrator shall impose the appropriate disciplinary action. If warranted, the student shall be removed immediately from the school environment.
   d. Established due process procedures shall be followed when applicable.
   e. A complete record of the incident shall be maintained in accordance with district policy.

5. Possible sanctions to be applied in cases of criminal conduct may include, but are not limited to:
   a. Out-of-school suspension;
   b. Assignment to alternative schools;
   c. Expulsion;
d. Restitution of property and damages, where appropriate, shall be sought by local school authorities;
e. Other sanctions as approved by local school authorities.

D. Extenuating, Mitigating or Aggravating Circumstances
1. A local school board may confer upon the appropriate administrator the authority to consider extenuating or mitigating circumstances which may exist in a particular case of misconduct, excluding criminal conduct. Such circumstances shall be considered in determining the most appropriate sanction to be used.
2. A local school board may confer upon the appropriate administrator the authority to consider aggravating circumstances which may exist in a particular case of misconduct or criminal conduct. Such circumstances shall be considered in determining the most appropriate sanction to be used.

The procedures must identify the appropriate school personnel responsible for taking the report and investigating the complaint;
6. procedures for prompt investigation of reports of serious violations and complaints;
7. a statement that prohibits reprisal or retaliation against a person who reports an act of harassment, intimidation, or bullying;

Additionally, the State Board of Education shall develop teacher preparation program standards on the identification and prevention of bullying. The model policies and standards must be developed no later than September 1, 2006.

(D) The local school board shall ensure that the school district's policy developed pursuant to this article is included in the school district's publication of the comprehensive rules, procedures, and standards of conduct for schools and in the student's handbook.

Each expelled pupil has the right to petition for readmission for the succeeding school year. Expulsion or suspension must be construed to prohibit a pupil from entering the school or school grounds, except for a prearranged conference with an administrator, attending any day or night school functions, or riding a school bus. The provisions of this section do not preclude enrollment and attendance in any adult or night school.

(B) A district board of trustees shall not authorize or order the expulsion, suspension, or transfer of any pupil for a violation of Section 59-150-250(B).

59-63-217. Barring enrollment of student; grounds; notice and hearing; duration of bar.

(A) In determining whether or not a student meets the standards of conduct and behavior promulgated by the board of trustees necessary for first time enrollment and attendance in a school in the district, the board shall consider nonschool records, the student’s disciplinary records in any school in which the student was previously enrolled as these records relate to the adjudication of delinquency in any jurisdiction, within or without this State, of violations or activities which constitute violent crimes under Section 16-1-60, adjudications for assault and battery of a high and aggravated nature, the unlawful use or possession of weapons, or the unlawful sale of drugs whether or not considered to be drug trafficking. Based on this consideration of the student’s record, the board may bar his enrollment in the schools of the district.

(B) If the board bars a student from enrolling pursuant to this section, notice must be provided to the student’s parent or legal guardian and the student is entitled to a hearing and all other procedural rights afforded under state law to a student subject to expulsion.

(C) The bar to enrollment allowed by this section applies for a maximum of one year. After the bar is lifted, a student may reapply for enrollment and the board shall order the student enrolled if he otherwise meets enrollment criteria.

43-274.1. At-risk students.

I. At-Risk Student Definition

A. A student at risk of dropping out of school is any student who, because of his or her individual needs, requires temporary or ongoing intervention in order to achieve in school and to graduate with meaningful options for his or her future.

B. Students-depending on their degree of resiliency and connectedness to caring adults in the home, in the community, and/or at school-may respond differently to those things frequently cited as barriers, predictors, or indicators of being “at risk.” Therefore, educators and other responsible adults working with students should consider the whole child, who might have both short-term and long-term needs requiring intervention.

II. At-Risk Student Indicators, Predictors, and Barriers The South Carolina Education and Economic Development Act mandates the promulgation of State Board of Education regulations outlining specific objective criteria for districts to use in identifying students who may be poorly prepared for the next level of study or who are at risk of dropping out of school. The Act calls for these criteria to include diagnostic assessments for districts to use in order to identify the strengths and weaknesses of individual students in the core academic areas.

A. Poor academic performance-generally, a grade point average of 2.0 or lower on a 4.0 scale-in the core content areas is a significant predictor that districts must consider in identifying at-risk students. Careful consideration should be given to students demonstrating declining academic performance. School districts are encouraged to carefully review a variety of assessments, including the following, in diagnosing students’ academic difficulties and selecting appropriate short-term and long term interventions:

1. results of statewide assessments used for accountability purposes and other state-funded (e.g., formative) assessments,
2. Preliminary Scholastic Assessment Test (PSAT) or PLAN test results,
3. district- or school-adopted CAI (computer-aided instruction) assessments,
4. end-of-course examination results,
5. classroom-level assessments related to the state’s academic standards, and
6. other district-approved diagnostic assessments.
B. The following are among the specific behaviors and characteristics that school districts must consider as indicators, predictors, and barriers in identifying at-risk students:

1. being overage for their grade level due to retention attributable to risk factors such as a high rate of absences and truancy;
2. showing a lack of effort or interest in their academic work;
3. working an excessive number of hours per day or week;
4. having a history of discipline problems leading to suspension, expulsion, and/or probation;
5. showing or expressing feelings of being disconnected from the school environment;
6. showing evidence of physical and/or emotional abuse;
7. coming from and/or living in a disadvantaged socioeconomic environment;
8. living in a home situation that does not include at least one parent;
9. being a single parent; and
10. having limited proficiency in the English language.

III. At-Risk Student Model, Initiative, and Program Selection

By the 2007-08 school year each high of the state must implement one or more model programs approved by the South Carolina Department of Education (SCDE).

Schools must select at-risk student models, initiatives, and programs that meet the needs of the at risk populations to be served and must ensure that models, initiatives, and programs selected provide students with the opportunity to graduate with a high school diploma. The SCDE will provide an implementation document that will include a tiered matrix of approved evidence-based models, initiatives, and programs to facilitate the selection process in accordance with the Education and Economic Development Act requirements for implementing evidence-based models, initiatives, and programs. The document will also contain a more extensive list of indicators, predictors, and barriers as well as one-page descriptions for each evidence-based model, initiative, and program included in the matrix.

IV. Population and Model, Initiative, and Program Identification Parameters

Each high school either must implement a model, initiative, or program that is chosen from a list provided by the SCDE or must submit to the SCDE for approval a specific dropout prevention model, comprehensive initiative, or multifaceted program that it wants to use. High schools may explore and implement newly developed models with approval from the SCDE. One criterion for SCDE approval of any newly developed model will be evidence presented by the district and/or school that the model is centered in research-based dropout-prevention strategies.

A. Implementation efforts related to any model, initiative, or program (or combination of models, initiatives, and programs) must ensure that students are properly identified and provided timely, appropriate guidance and assistance and must ensure that no group is disproportionately represented.

B. When subpopulations are identified, high schools must ensure that these groups reflect the demographics of populations identified as at risk of dropping out of school.

C. When no subpopulations are identified, high schools implementing comprehensive initiatives will not have to address the disproportionate representation of any one group of students. In such cases, methods of determining the effectiveness of the at-risk initiative must be given careful consideration with regard to collecting data and preparing necessary reports.

D. Parental involvement must be part of final placement decisions in any model, initiative, or program where small groups of students are identified for services in a particular school or district.

E. The target population must reflect the demographics of the population identified in Section II, above, as being at risk of dropping out of school.
F. High schools must provide relevant data related to identifying the at-risk student population and to addressing the needs of these at-risk students as required for SCDE reports.

V. Building-Level Program Evaluation

A. Evaluation Criteria

All high schools must annually evaluate their dropout-prevention models, initiatives, and/or programs using, at a minimum, the following criteria:

1. an identification process, including (where appropriate and based on the particular model, initiative, or program) the number of at-risk students identified and the specific risk factors identified;
2. the extent of parental involvement in the school’s dropout-prevention efforts;
3. the number of students served;
4. a formative assessment of strengths and weaknesses of the model, initiative, and/or program; and
5. a qualitative assessment of desired outcomes (see item B, immediately below).

B. Desired Outcomes

Schools should establish desired outcomes or performance criteria based on the specific needs of the at-risk population identified and, on the nature, and structure of the particular model, initiative, and/or program they are implementing. Examples of desired outcomes among the target population include, but are not limited to, the following:

1. decreased percentages of truancy, absenteeism, discipline problems, and retentions;
2. increases in students’ grade point averages; and
3. increased percentages of students who are on grade level and students who graduate on time.

Model-, initiative-, and/or program-specific data and PowerSchool data elements should be used to assess desired outcomes on the basis of specific evaluation criteria. The state’s PowerSchool data management system can be used to collect, sort, and report data related to each student’s attendance record; age and grade level; gender; ethnicity; grade point average; and retention, truancy, and dropout status.

C. Teacher and/or counselor assessments may be used to provide supplemental anecdotal documentation and insights related to the effectiveness of the model, initiative, and/or program implemented. A district or school checklist may be beneficial in the evaluation process.

VI. Model, Initiative, and/or Program Evaluation and Assessment Reporting

All high schools must annually provide reports requested by the SCDE that relate to the implementation and effectiveness of models, initiatives, and/or programs addressing the needs of students at risk of dropping out of school. District and school report card contents must contain information on the disciplinary climate, promotion and retention ratios, dropout ratios, dropout reduction data, and attendance data. Districts and schools must be prepared to provide accurate and relevant data to the SCDE.

43-279. Minimum standards of student conduct and disciplinary enforcement procedures to be implemented by local school districts.

c. The administrator may refer the student to the appropriate intervention team to establish behavioral management strategies (e.g., restorative justice, counseling, service-learning projects) and propose the appropriate disciplinary action.

The model policies and standards must be developed no later than September 1, 2006.

(E) Information regarding a local school district policy against harassment, intimidation, or bullying must be incorporated into a school’s employee training program. Training also should be provided to school volunteers who have significant contact with students.

59-63-1150. Compliance with case law; training of school administrators.

Notwithstanding any other provision of this article, all searches conducted pursuant to this article must comply fully with the “reasonableness standard” set forth in New Jersey v. T.L.O., 469 U.S. 328 (1985). All school administrators must receive training in the “reasonableness standard” under existing case law and in district procedures established to be followed in conducting searches of persons entering the school premises and of the students attending the school.

REGULATIONS

43-166. Student and school safety.

A. School Safety Assessment
1. The State Department of Education shall develop a Model Safe Schools Checklist designed to assess schools’ safety strengths and weaknesses. The checklist must include items addressing the following topics:
   a. the existence of a comprehensive safety plan;
   b. communication of discipline policies and procedures;
   c. intra-agency and interagency emergency planning;

Monitoring and Accountability

Formal incident reporting of conduct violations

LAWS

By December 31, 1990, the State Department of Education, after consultation with the State Law Enforcement Division, shall develop a standard school crime reporting form which must be used by all school districts in the State. State funds may be awarded for not more than one safety coordinator for each county. The amount of the award for a county for fiscal year 1995-96 may not exceed twenty-five thousand dollars, except for counties which are designated as economically distressed pursuant to Section 41-43-180. Economically distressed counties participating in the program shall receive additional state funds for fiscal year 1995-96 in the amount of five thousand five hundred dollars. The amount which may be awarded for a county, including the additional state funds for economically distressed counties, must be increased each fiscal year after 1995-96 by the same percentage as the average teacher salary.

(B) An award of state funds to school districts under this program is contingent upon a district or group of districts jointly matching the state grant with an equal amount of funds and in-kind contributions; however, school districts located primarily within an economically distressed county are not required to match any portion of the state grant. Additionally, funds only may be awarded where the duties of the safety coordinator relate exclusively to school and district safety functions. It is the intent of the General Assembly that the safety coordinator have a strong background in law enforcement, safety matters, or coordination of relevant services.

(C) If a county consists of more than one school district, any or all school districts within the county may apply jointly for funds for a safety coordinator. Each participating school district must provide a portion of the local matching funds based upon the relationship the district’s student membership bears to the total student membership of all participating districts within the county. Nonparticipating school districts in multi-district counties may begin participation in the program by contributing to the local match in the same manner as those school districts originally participating in the program.
(D) When more than one school district in a multi-district county is provided funds under this section, the safety coordinator must be an employee of the school district with the largest student membership during the immediately preceding school year, unless the participating school districts have a memorandum of agreement providing otherwise; however, the safety coordinator must provide services to all participating school districts.

(E) For purposes of this section, "student membership" means the cumulative one hundred thirty-five day average daily membership during the immediately preceding school year.

(F) The State Board of Education, through the State Department of Education, shall develop and implement regulations establishing the safety coordinator grant program.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. The administrative due process procedures shall include a requirement that the school give notice of a student's due process rights to the parent or guardian of the student at the time of suspension or expulsion. Each school district board shall provide a procedural due process hearing, if requested, for a student in accordance with such rules if the suspension or expulsion of the student extends into the eleventh school day.

This section does not preclude other forms of discipline which may include suspension or expulsion from a class or activity.

This section does not prohibit a local school district from providing educational services to an expelled student in an alternative setting.

Any person adjudicated, convicted, the subject of an informal adjustment or court-approved diversion program, or the subject of a suspended imposition of sentence or suspended adjudication of delinquency for possession, use, or distribution of controlled drugs or substances or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by § 22-42-15, is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education for one calendar year from the date of adjudication, conviction, diversion, or suspended imposition of sentence. The one-year suspension may be reduced to thirty calendar days if the person participates in an assessment with a certified or licensed addiction counselor. If the assessment indicates the need for a higher level of care, the student is required to complete the prescribed program before becoming eligible to participate in extracurricular activities. Upon a second adjudication, conviction, diversion, or suspended imposition of a sentence for possession, use, or distribution of controlled drugs, substances, or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substance as prohibited by § 22-42-15, by a court of competent jurisdiction, that person is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education for one year from the date of adjudication, conviction, diversion, or suspended imposition of sentence. The one year suspension may be reduced to sixty calendar days if the person completes an accredited intensive prevention or treatment program. Upon a third or subsequent adjudication, conviction, diversion, or suspended imposition of sentence for possession, use, or distribution of controlled drugs or substances or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by § 22-42-15, by a court of competent jurisdiction, that person is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education. Upon such a determination in any juvenile court proceeding the Unified Judicial System shall give notice of that determination to the South Dakota High School Activities Association and the chief administrator of the school in which the person is participating in any extracurricular activity. The Unified Judicial System shall give notice to the chief administrators of secondary schools accredited by the Department of Education for any such determination in a court proceeding for any person eighteen to twenty-one years of age without regard to current status in school or involvement in extracurricular activities. The notice shall include name, date of birth, city of residence, and offense. The chief administrator shall give notice to the South Dakota High School Activities Association if any such person is participating in extracurricular activities. Upon placement of the person in an informal adjustment or court-approved diversion program, the state's attorney who placed the person in that program shall give notice of that placement to the South Dakota High School Activities Association and chief administrator of the school in which the person is participating in any extracurricular activity.
As used in this section, the term, extracurricular activity, means any activity sanctioned by the South Dakota High School Activities Association. Students are ineligible to participate in activity events, competitions, and performances, but a local school district may allow a student to participate in practices.

No local school board may impose a lesser consequence than those established in §13-32-9, but a local school district may adopt a policy, by local school board action, with more strict consequences to meet the needs of the district.

If a suspension is reduced pursuant to § 13-32-9, a suspension for a first offense shall make the student ineligible for a minimum of two South Dakota High School Activities Association sanctioned events. If two sanctioned events for which the student is ineligible do not take place within the reduced suspension period, the student's suspension remains in effect until two sanctioned events for which the student is ineligible have taken place. If a suspension is reduced pursuant to § 13-32-9, a suspension for a second offense shall make the student ineligible for a minimum of six South Dakota High School Activities Association sanctioned events. If six sanctioned events for which the student is ineligible do not take place within the reduced suspension period, the student's suspension remains in effect until six sanctioned events for which the student is ineligible have taken place. To count toward the minimum number of events, the student must participate in the entire activity season and may not drop out or quit the activity to avoid suspension and the failure of a student to complete the entire activity season shall result in the student being ineligible for one year from the date of adjudication, conviction, the subject of an internal adjustment or court approved diversion program, or the subject of a suspended imposition of sentence or suspended adjudication of delinquency. A suspension that is not completed by the student during one activity season shall carry over to the next activity season in which the student participates. In addition, a suspension that is reduced pursuant to § 13-32-9 is only in effect during the South Dakota High School Activities Association's activity year, which begins on the first day of its first sanctioned event and concludes on the last day of its last sanctioned event. A reduced suspension that is not completed by the end of one activity year shall carry over to the next activity year. A suspension begins on:

(1) The day following the notification to a school administrator by the Unified Judicial System that a student has been adjudicated, convicted, the subject of an informal adjustment or court approved diversion program, or the subject of a suspended imposition of a sentence or a suspended adjudication of delinquency for possession, use, or distribution of controlled drugs, substances, or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substance prohibited by § 22-42-15 and the school administrator gives notice to the South Dakota High School Activities Association and the students; or

(2) The day following the student's admission to a school administrator that the student committed an offense enumerated in subdivision (1), which shall be made with the student's parent or guardian present if the student is an unemancipated minor, and the school administrator gives notice to the South Dakota High School Activities Association.

Administrative procedures related to suspension and expulsion

LAWS

§ 13-32-4. School board cooperation in enforcement of discipline-Suspension and expulsion by the board-Grounds-Length of firearm-related suspension-Due process-Local authorities
Alternative solutions.
The school board of every school district shall assist and cooperate with the administration and teachers in the government and discipline of the schools. The board may suspend or expel from school any student for violation of rules or policies or for insubordination or misconduct, and the superintendent or principal in charge of the school may temporarily suspend any student in accordance with § 13-32-4.2. The rules or policies may include prohibiting the following:

(1) The consumption or possession of beer or alcoholic beverages on the school premises or at school activities;
(2) The use or possession of a controlled substance, without a valid prescription, on the school premises or at school activities; and
(3) The use or possession of a firearm, as provided in § 13-32-7, on or in any elementary or secondary school premises, vehicle, or building or any premises, vehicle, or building used or leased for elementary or secondary school functions or activities.
In addition to administrative and school board disciplinary action, any violation of § 13-32-7 shall be reported to local law enforcement authorities.
The period of expulsion may extend beyond the semester in which the violation, insubordination, or misconduct occurred. Any expulsion for consumption or possession of beer or alcoholic beverages may not extend beyond ninety school days. If a student has intentionally brought a firearm onto school premises, the expulsion may not be for less than twelve months.
However, the superintendent or chief administering officer of each local school district or system may increase or decrease the length of a firearm-related expulsion on a case-by-case basis. The South Dakota Board of Education shall promulgate rules pursuant to chapter 1-26 to establish administrative due process procedures for the protection of a student's rights. The administrative due process
procedures shall include a requirement that the school give notice of a student's due process rights to the
parent or guardian of the student at the time of suspension or expulsion. Each school district board shall
provide a procedural due process hearing, if requested, for a student in accordance with such rules if the
suspension or expulsion of the student extends into the eleventh school day
This section does not preclude other forms of discipline which may include suspension or expulsion from
a class or activity.
This section does not prohibit a local school district from providing educational services to an expelled
student in an alternative setting.

The school board in any district may authorize the summary suspension of pupils by principals of schools
for not more than ten school days and by the superintendent of schools for not more than ninety school
days. In case of a suspension by the superintendent for more than ten school days, the pupil or his
parents or others having his custodial care may appeal the decision of the superintendent to the Board of
Education Standards. Any suspension by a principal shall be immediately reported to the superintendent
who may revoke the suspension at any time. In event of an appeal to the board, the superintendent shall
promptly transmit to the board a full report in writing of the facts relating to the suspension, the action
taken by him and the reasons for such action; and the board, upon request, shall grant a hearing to the
appealing party. No pupil may be suspended unless:

1. The pupil is given oral or written notice of the charges against him;
2. The pupil is given an oral or written explanation of the facts that form the basis of the proposed
   suspension; and
3. The pupil is given an opportunity to present his version of the incident.

In the event of a suspension for more than ten school days, if the pupil gives notice that he wishes to
appeal the suspension to the board, the suspension shall be stayed until the board renders its decision,
unless in the judgment of the superintendent of schools, the pupil's presence poses a continuing danger
to persons or property or an ongoing threat of disrupting the academic process, in which case the pupil
may be immediately removed from school, and the notice and hearing shall follow as soon as practicable.

The administrative due process procedures established in ARSD 24:07:04 for the protection of students' rights in an expulsion procedure apply to the early reinstatement process established in §§ 13-32-4.4 to
13-32-4.6, inclusive, and the South Dakota Board of Education Standards may promulgate rules pursuant
to chapter 1-26 to establish additional procedures for the early reinstatement process, including the
development of early reinstatement conditions by school boards.

No local school board may impose a lesser consequence than those established in §13-32-9, but a local
school district may adopt a policy, by local school board action, with more strict consequences to meet
the needs of the district.

If a suspension is reduced pursuant to § 13-32-9, a suspension for a first offense shall make the student
ineligible for a minimum of two South Dakota High School Activities Association sanctioned events. If two
sanctioned events for which the student is ineligible do not take place within the reduced suspension
period, the student's suspension remains in effect until two sanctioned events for which the student is
ineligible have taken place. If a suspension is reduced pursuant to § 13-32-9, a suspension for a second
offense shall make the student ineligible for a minimum of six South Dakota High School Activities Association sanctioned events. If six sanctioned events for which the student is ineligible do not take place within the reduced suspension period, the student's suspension remains in effect until six sanctioned events for which the student is ineligible have taken place. To count toward the minimum number of events, the student must participate in the entire activity season and may not drop out or quit the activity to avoid suspension and the failure of a student to complete the entire activity season shall result in the student being ineligible for one year from the date of adjudication, conviction, the subject of an internal adjustment or court approved diversion program, or the subject of a suspended imposition of sentence or suspended adjudication of delinquency. A suspension that is not completed by the student during one activity season shall carry over to the next activity season in which the student participates. In addition, a suspension that is reduced pursuant to § 13-32-9 is only in effect during the South Dakota High School Activities Association's activity year, which begins on the first day of its first sanctioned event and concludes on the last day of its last sanctioned event. A reduced suspension that is not completed by the end of one activity year shall carry over to the next activity year.

A suspension begins on:

1. The day following the notification to a school administrator by the Unified Judicial System that a student has been adjudicated, convicted, the subject of an informal adjustment or court approved diversion program, or the subject of a suspended imposition of a sentence or a suspended adjudication of delinquency for possession, use, or distribution of controlled drugs, substances, or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substance prohibited by § 22-42-15 and the school administrator gives notice to the South Dakota High School Activities Association and the students; or

2. The day following the student's admission to a school administrator that the student committed an offense enumerated in subdivision (1), which shall be made with the student's parent or guardian present if the student is an unemancipated minor, and the school administrator gives notice to the South Dakota High School Activities Association.

REGULATIONS

24:07:01:01. Definitions.

1. "Expulsion," the action of the school board that terminates a pupil's membership in school for not more than 12 consecutive months;

2. "Long-term suspension," the exclusion of a pupil by the superintendent or school board from a class or classes or from school for more than 10 but not more than 90 school days;

3. "Parent," a parent, guardian, or person in charge of a pupil;

4. "Policy," a rule, regulation, or standard enacted by a school district board;

5. "Short-term suspension," the exclusion of a pupil by a principal or superintendent from a class or from school for not more than 10 school days.

24:07:02:01. Short-term suspension procedure.

If a short-term suspension from a class, classes, or school is anticipated because of a pupil's violation of a policy, the principal or superintendent shall give oral or written notice to the pupil as soon as possible after discovery of the alleged violation, stating the facts that form the basis for the suspension. The pupil must be given the opportunity to answer the charges. If a pupil is suspended, the principal or superintendent shall give the parent oral notice, if possible, and shall send the parent or a pupil who is 18 years of age or older or an emancipated minor a written notice which provides information regarding the
pupil's due process rights. A pupil who is an unemancipated minor may not be removed from the school premises before the end of the school day without contacting a parent unless the pupil's presence poses a continuing threat or danger, in which case the pupil may be immediately removed from the school and transferred into the custody of a parent or law enforcement.

24:07:03:01. Written report required.
The superintendent must file a sealed, written report with the school board by the end of the fifth school day following the first day of the long-term suspension and may request that a hearing be held before the school board. The report must include the facts of the situation, the action taken, the reasons for the action, and the superintendent's decision or recommendation. The report must remain in the possession of the school board secretary or business manager, sealed and unavailable for review by individual school board members, until the time set for a hearing. The superintendent must send a copy of the report to the pupil's parent or to the pupil if the pupil is 18 years of age or older or an emancipated minor at the same time the report is filed with the school board's secretary or business manager.

24:07:03:02. Right to request hearing-Notice of hearing.
If the superintendent finds grounds for a long-term suspension from a class or classes, the superintendent may exclude the pupil from a class or classes by using the short-term suspension procedure in § 24:07:02:01. The superintendent shall give a written notice to the pupil's parent or to a pupil who is 18 years of age or older or an emancipated minor and may schedule a hearing. The notice shall contain the following minimum information:

1. The policy allegedly violated;
2. The reason for the disciplinary proceedings;
3. Notice of the right to request a hearing or waive the right to a hearing.
4. A description of the hearing procedure;
5. A statement that the pupil's records are available at the school for examination by the pupil's parent or authorized representative; and
6. A statement that the pupil may present witnesses.

If a hearing is requested, the superintendent shall give notice to each school board member of an appeal to the board for a hearing. The superintendent shall set the date, time, and place for the hearing and send notice by first class mail to each school board member and by certified mail, return receipt requested, to the pupil's parent or to a pupil who is 18 years of age or older or an emancipated minor.

If no hearing is requested or the hearing is waived, the action of the superintendent is final.

24:07:03:03. Right of waiver.
The pupil, if of the age of majority or emancipated, or the pupil's parent may waive the right to a hearing in writing to the superintendent. If the hearing is not waived, the hearing shall be held on the date, time, and place set in the notice unless a different date, time, and place are agreed to by the parties.

The school board is the hearing board and shall conduct the hearing in the following manner:

1. The school board shall appoint a school board member or a person who is not an employee of the school district as the hearing officer;

(5) The school administration shall present its case first;

(6) The hearing is closed to the public. A verbatim record of the hearing will be made and will be sealed pending court order;

(7) Witnesses may be present only when testifying. All witnesses must take an oath or affirmation administered by the school board president or business manager;

(8) Each party may raise objections; however, objections are limited to relevancy and scope of the question;

(9) All relevant evidence must be admitted; however, unproductive or repetitious evidence may be limited by the hearing officer;

(10) The hearing officer may ask questions of witnesses and may allow other school board members to interrogate witnesses;

(11) Each party may make a closing statement;

(12) After the hearing, the school board shall continue to meet in executive session for deliberation. No one other than the hearing officer may meet with the school board during deliberation. The school board may seek advice during deliberation from an attorney. Consultation with any other person during deliberation may occur only if a representative of the pupil is present; and

(13) The decision of the school board must be based solely on the evidence presented at the hearing and must be formalized by a motion made in open meeting. The motion must omit the name of the pupil and must state the reason for the board's action. The school board shall notify the pupil or the pupil's parents in writing of the decision. The notice must state the length of the suspension or expulsion.

24:07:03:06. Right of appeal.
The student may appeal an adverse decision by the school board to the circuit court.

If a pupil identified as in need of special education or special education and related services pursuant to SDCL 13-37-1 is expelled or subjected to long-term suspension, the procedure in § 24:05:26:09 applies.

24:07:04:01. Written report required.
If expulsion is anticipated because of a student's violation of a rule or policy or for insubordination or misconduct, the superintendent must file a sealed written report with the school board no later than the end of the fifth school day following the first day of the student's removal; from one or more classes or from school and schedule a hearing before the school board. The report must include the facts of the situation, the action, the reasons for the action and the superintendent's recommendation. The report must remain in the possession of the school board secretary sealed and unavailable for review by individual school board members, until the time set for a hearing.

At the same time that the report is filed with the school board's secretary, the superintendent must send a copy of the report to the student's parent or to the student if the student is 18 years of age or older or is an emancipated minor.

If the Superintendent finds grounds for expulsion from one or more classes or from school, the superintendent may exclude the student immediately by using the short-term suspension procedure in § 24:07:02:01. The superintendent shall give a written notice to one or both of student's parents or to a student who is 18 years of age or older or an emancipated minor. The notice must contain the following information at a minimum:
(1) The rule, regulation, or policy allegedly violated;  
(2) The reason for the disciplinary proceedings;

(4) A description of the hearing procedure;  
(5) A statement that the student's records are available at the school for examination by the student's parent or parents or another authorized representative;  
(6) A statement that the student may present witnesses; and  
(7) A statement that the student may be represented by an attorney.

The superintendent shall set the date, time, and place for the school board hearing. The superintendent shall send notice of the hearing to each school board member by first class mail and to the student's parent or to a student who is 18 years of age or older or an emancipated minor by certified mail, return receipt requested. If the superintendent recommend expulsion, the school board must act on the recommendation before it is implemented.

24:07:04:03. Right of waiver.

The student, if of the age of majority or emancipated, or the student's parent may waive the right to a hearing in writing to the superintendent. If the hearing is not waived, the hearing shall be held on the date and at the time and place set in the hearing notice unless a different date, time, and place are agreed to by the parties. If the hearing is waived in writing, the school board may consider the matter at a regular or special meeting without further notice to the student or the student's parents.

The school board is the hearing board and shall conduct the hearing in the following manner:

(1) The school board shall appoint a school board member or a person who is not an employee of the school district as the hearing officer;  
(2) Each party may make an opening statement;  
(3) Each party may introduce evidence, present witnesses, and examine and cross-examine witnesses;  
(4) Each party may be represented by an attorney;  
(5) The school administration shall present its case first;  
(6) The hearing is closed to the public. The school board shall make a verbatim record of the hearing by means of an electronic or mechanical device or by court reporter. This record and any exhibits must be sealed and must remain with the hearing officer until the appeal process has been completed;  
(7) Witnesses may present only when testifying. All witnesses must take an oath or affirmation administered by the school board president, hearing officer or other person authorized by law to take oaths and affirmations;  
(8) Each party may rise any legal objection to evidence;  
(9) The hearing officer shall admit all relevant evidence; however, the hearing officer may limit unproductive or repetitious evidence;

The school board may seek advice during deliberation from an attorney who has not represented any if the parties to the
hearing. Consultation with any other person during deliberation may occur only of a representative of the student is present; and

(13) The decision of the school board must be based solely on the evidence presented at the hearing and must be formalized by a motion made in open reason for the board's action. The school board shall notify the student's parent or parents or a student who is 18 years of age or older or who is an emancipated minor in writing of the decision. The notice shall state the length of the expulsion.

24:07:04:05. Right of appeal.
The student may appeal an adverse decision by the school board to the circuit Court.

24:07:04:07. Referral to placement committee of students in need of special education or special education and related services.
If a student identified as in need of special education or special education and related services pursuant to SDCl 13-37-1 is a subject of proposed expulsion, the procedure in § 24:06:26.01:08 applies.

24:05:26:01. Suspension from school.
The suspension of pupils in need of special education or special education and related services includes the general due process procedures used for all pupils and the additional steps in the process specified in this chapter that a district must take if the student is receiving special education or special education and related services under an individualized education program.

24:05:26:01.01. Suspension from school—Definitions.
Terms used in this chapter and chapter 24:05:26.01 mean:

(1) “Controlled substance,” a drug or other substance identified under SDCL 34-20B-11 to 34-20B-26, inclusive;
(2) “Dangerous weapon,” a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury. The term does not include a pocket knife with a blade of less than 2 1/2 inches in length;
(3) “Illegal drug,” a controlled substance, but does not include such a substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under SDCL 34-20B-11 to 34-20B-26, inclusive, or under any provision of federal law; and
(4) “Serious bodily injury,” bodily injury that involves:
   (a) A substantial risk of death;
   (b) Extreme physical pain;
   (c) Protracted and obvious disfigurement; or
   (d) Protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

24:05:26:01.02. Case-by-case determination.
School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the other requirements of this chapter, is appropriate for a student with a disability who violates a code of student conduct.

24:05:26:02. Short-term suspension procedure.
If a short-term suspension from a class, classes, or school is anticipated because of a pupil's violation of a policy, the procedure in § 24:07:02:01 applies.
24:05:26:02.01. Change of placement for disciplinary removals.

For purposes of removal of a student with a disability from the student's current educational placement under this chapter, a change of placement occurs if:

1. The removal is for more than ten consecutive school days; or
2. The student is subjected to a series of removals that constitute a pattern because:
   a. They cumulate to more than ten school days in a school year;
   b. Of factors such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another; and
   c. The student's behavior is substantially similar to the student's behavior in previous incidents that resulted in the series of removals.

The public agency determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

24:05:26:02.02. Removals—Ten school days or less.

To the extent removal would be applied to students without disabilities, including alternative settings, school personnel may order the removal of a student with a disability from the student's current placement to an appropriate interim alternative educational setting or another setting, or they may order suspension for not more than ten consecutive school days, for any violation of a code of student conduct. Additional removals of not more than ten consecutive school days in that same school year may be ordered for separate incidents of misconduct if those removals do not constitute a change of placement under § 24:05:26:02.01.

24:05:26:02.03. Required services—No change of placement.

A school district need not provide services during periods of removal under § 24:05:26:02.02 to a student with a disability who has been removed from his or her current placement for ten school days or less in that school year, if services are not provided to a student without disabilities who has been similarly removed. If a student with a disability has been removed from his or her current placement for more than ten school days in that school year, and the removal is not for more than ten consecutive school days and is not a change in placement, the district, for the remainder of the removals, shall provide services to the extent necessary to enable the student to participate in the general curriculum and to progress toward meeting the goals set out in the student's IEP. School personnel, in consultation with at least one of the student's teachers, shall determine the extent to which services are necessary to enable the student to participate in the general curriculum and to progress toward meeting the goals set out in the student's IEP.

24:05:26.03. Written report required.

If a long-term suspension is anticipated because of a pupil's violation of a policy, the procedure in § 24:07:03:01 applies.

If the superintendent finds grounds for a long-term suspension from a class or classes, the procedure in § 24:07:03:02 applies.
24:05:26:05. Right of waiver.  
The pupil, if of the age of majority or emancipated, or the pupil's parent may waive the right to a hearing in writing to the superintendent. If the hearing is not waived, the hearing shall be held on the date, time, and place set in the notice unless a different date, time, and place are agreed to by the parties.

24:05:26:06. Hearing procedure.  
The school board is the hearing board and shall conduct the hearing in the following manner:

   (1) The school board shall appoint a school board member or a person who is not an employee of the school district as the hearing officer;
   (2) Each party may make an opening statement;
   (3) Each party may introduce evidence, present witnesses, and examine and cross-examine witnesses;
   (4) Each party may be represented by an attorney;
   (5) The school administration shall present its case first;
   (6) The hearing is closed to the public. The school board shall make a verbatim record of the hearing by means of an electronic or mechanical device;
   (7) Witnesses may be present only when testifying. All witnesses must take an oath or affirmation administered by the school board president or business manager;
   (8) Each party may raise objections; however, objections are limited to relevancy and scope of the question;
   (9) The hearing officer shall admit all relevant evidence; however, the hearing officer may limit unproductive or repetitious evidence;
   (10) The hearing officer may ask questions of witnesses and may allow other school board members to interrogate witnesses;
   (11) Each party may make a closing statement;
   (12) After the hearing, the school board shall continue to meet in executive session for deliberation. No one other than the hearing officer may meet with the school board during deliberation. The school board may seek advice during deliberation from an attorney who has not represented any of the parties to the hearing. Consultation with any other person during deliberation may occur only if a representative of the pupil is present; and
   (13) The decision of the school board must be based solely on the evidence presented at the hearing and must be formalized by a motion made in open meeting. The motion shall omit the name of the pupil and shall state the reason for the board's action. The school board shall notify the pupil's parents or a pupil who is 18 years of age or older or an emancipated minor in writing of the decision. The notice shall state the length of the suspension.

The pupil may appeal an adverse decision by the school board to the circuit court.

24:05:26:08.02. Authority of hearing officer.  
A hearing officer under this article hears and makes a determination regarding an appeal under this chapter. In making the determination under this section, the hearing officer may:

   (1) Return the student with a disability to the placement from which the student was removed if the hearing officer determines that the removal was a violation of this chapter or that the student's behavior was a manifestation of the student's disability; or
(2) Order a change of placement of the student with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the student is substantially likely to result in injury to the student or to others. The procedures under this section may be repeated if the school district believes that returning the student to the original placement is substantially likely to result in injury to the student or to others.

24:05:26:09.03. Manifestation determination review requirement.
Within ten school days of any decision to change the placement of a student with a disability because of a violation of a code of student conduct, the school district, the parent, and relevant members of the student's IEP team, as determined by the parent and the district, shall review all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information provided by the parents to determine:

(1) Whether the conduct in question was caused by, or had a direct and substantial relationship to, the student's disability; or

(2) Whether the conduct in question was the direct result of the school district's failure to implement the IEP.

The conduct must be determined to be a manifestation of the student's disability if the district, the parent, and relevant members of the student's IEP team determine that a condition in either subdivision (1) or (2) of this section was met.

If the district, the parent, and relevant members of the student's IEP team determine that the condition described in subdivision (2) of this section was met, the district shall take immediate steps to remedy those deficiencies.

24:05:26:09.04. Determination that behavior was a manifestation.
If the school district, the parent, and relevant members of the IEP team determine that the conduct was a manifestation of the student's disability, the IEP team shall either:

(1) Conduct a functional behavioral assessment, unless the district had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the student; or

(2) If a behavioral intervention plan already has been developed, review the behavioral intervention plan and modify it, as necessary, to address the behavior.

In addition, and except as provided in § 24:05:26:08.01, the IEP team shall return the student to the placement from which the student was removed, unless the parent and the district agree to a change of placement as part of the modification of the behavioral intervention plan.

24:05:26:09.05. Determination that behavior was not manifestation of disability-Additional authority of school personnel.
For disciplinary changes in placement that would exceed ten consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the student's disability pursuant to this chapter, school personnel may apply the relevant disciplinary procedures to students with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities, except as provided in this section.

A student with a disability who is removed from the student's current placement pursuant to this section or § 24:05:26:08.01 must:
(1) Continue to receive educational services, as provided in this article, so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP; and

(2) Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

24:05:26:09.06. Appeal.
The parent of a student with a disability who disagrees with any decision regarding placement under this chapter or with the manifestation determination, or a school district that believes that maintaining the current placement of the student is substantially likely to result in injury to the student or others, may appeal the decision by requesting a hearing. The hearing is requested by filing a complaint pursuant to this article.

If an appeal under this chapter has been made by either the parent or the school district, the student must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period specified in § 24:05:26:08.01 or 24:05:26:09.05, whichever occurs first, unless the parent and the state education agency or school district agree otherwise.

24:05:26:09.08. Expedited hearing-Procedures.
If a hearing is requested under this chapter, the parents or the school district involved in the dispute must have an opportunity for an impartial due process hearing consistent with the requirements of this article, except as provided in this section.

The department shall arrange the expedited due process hearing, which must occur within 20 school days of the date of the complaint requesting the hearing is filed. The hearing officer shall make a determination within ten school days after the hearing.

Unless the parents and school district agree in writing to waive the resolution meeting described in this section, or agree to use the mediation process described in chapter 24:05:30:

(1) A resolution meeting must occur within seven days of receiving notice of the due process complaint; and

(2) The due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of the receipt of the due process complaint.

The decisions on expedited due process hearings are appealable consistent with chapter 24:05:30.

24:05:26.01:01. Expulsion from school.
The expulsion of students in need of special education or special education and related services includes the general due process procedures used for all students and the additional steps in the process specified in this chapter that a district must take when the student is receiving special education or related services under an individual education plan.

24:05:26.01:01. Case-by-case determination.
School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the other requirements of this chapter, is appropriate for a student with a disability who violates a code of student conduct.
24:05:26.01:02. Written report required.
If an expulsion is anticipated because of a student's violation of rules or policies or for insubordination or misconduct, the procedure in § 24:07:04:01 applies.

24:05:26.01:03. Request and notice of hearing.
If the superintendent finds grounds for expulsion from school, the procedure in § 24:07:04:02 applies.

24:05:26.01:04. Right to waiver.
A competent student, if of the age of majority or emancipated, or the student's parent may waive the right to a hearing in writing to the superintendent. If the hearing is not waived, the hearing shall be held on the date and at the time and place set in the hearing notice unless a different date, time, and place are agreed to by the parties. If the hearing is waived in writing, the school board may consider the matter at a regular or special meeting without further notice to the student or student's parents.

24:05:26.01:05. Hearing procedure.
The school board is the hearing board and shall conduct the hearing in the following manner:

(1) The school board shall appoint a school board member or a person who is not an employee of the school district as the hearing officer;

(2) Each party may make an opening statement;

(3) Each party may introduce evidence, present witnesses, and examine and cross-examine witnesses;

(4) Each party may be represented by an attorney;

(5) The school administration shall present its case first;

(6) The hearing is closed to the public. The school board shall make a verbatim record of the hearing by means of an electronic or mechanical device or by court reporter. This record and any exhibits must be sealed and must remain with the hearing officer until the appeal process has been completed;

(7) Witnesses may be present only when testifying. All witnesses must take an oath or affirmation administered by the school board president, hearing officer, or other person authorized by law to take oaths or affirmations;

(8) Each party may raise any legal objections to evidence;

(9) The hearing officer shall admit all relevant evidence; however, the hearing officer may limit unproductive or repetitious evidence;

(10) The hearing officer may ask questions of witnesses and may allow other school board members to interrogate witnesses;

(11) Each party may make a closing statement;

(12) After the hearing, the school board shall continue to meet in executive session for deliberation. No one other than the hearing officer may meet with the school board during deliberation. The school board may seek advice during hearing. Consultation with any other person during deliberation may occur only if a representative of the student is present; and

(13) The decision of the school board must be based solely on the evidence presented at the hearing and must be formalized by a motion made in open meeting. The motion shall omit the name of the student and shall state the reason for the board's action. The school board shall notify the student's parent or parents or a student who is 18 years of age or older or who is an emancipated minor in writing of the decision. The notice shall state the length of the expulsion.

24:05:26.01:06. Right of appeal.
The student may appeal an adverse decision by the school board to the circuit court.
24:05:26.01:07.01. Authority of school personnel.
Weapons, drugs, and serious bodily injury. School district personnel shall follow the procedures under § 24:05:26:08.01 if an expulsion is anticipated because of a student's violation of rules or policies pertaining to weapons and drugs.

24:05:26.01:07.02. Authority of hearing officer.
The authority of a hearing officer, in an expedited due process hearing, described under § 24:05:26:08.02, applies if an expulsion is anticipated because a student's behavior is substantially likely to result in injury to the student or to others.

24:05:26.01:08.01. Applicability of suspension procedures.
The suspension procedures described in §§ 24:05:26:09.02 to 24:05:26:09.08, inclusive, apply if an expulsion is anticipated.

The procedures under § 24:05:26:14 apply for students who have not been determined eligible for special education or special education and related services if an expulsion is anticipated.

A student who has not been determined to be eligible for special education and related services under this article and who has engaged in behavior that violated any rule or code of conduct of the school district, including any behavior described in this chapter, may assert any of the protections provided for in this article if the school district had knowledge that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred. A school district is deemed to have knowledge that a student is a student with a disability if:

(1) The parent of the student has expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency, or a teacher of the student, that the student is in need of special education and related services;

(2) The parent of the student has requested an evaluation of the student pursuant to this article; or

(3) The teacher of the student, or other personnel of the district or other public agency has expressed specific concerns about a pattern of behavior demonstrated by the student directly to the director of special education of the district or to other supervisory personnel of the district.

A district is not deemed to have knowledge that the student is a student with a disability under this section, if the parent of the student has not allowed an evaluation of the student pursuant to this article, or has refused services under this article, or the district conducted an evaluation consistent with this article and determined that the student was not a student with a disability.

If the district does not have knowledge that a student is a student with a disability before taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as measures applied to students without disabilities who engaged in comparable behaviors consistent with this chapter.

If a request is made for an evaluation of a student during the time period in which the student is subjected to disciplinary measures under this chapter, the evaluation must be conducted in an expedited manner. Until the evaluation is completed, the student shall remain in the educational placement determined by school authorities, which can include suspension or expulsion without educational services. If the student is determined to be a student with a disability taking into consideration information from the evaluation conducted by the district and information provided by the parents, the district shall provide special
education and related services in accordance with the provisions of this article including the discipline procedures and free appropriate public education requirements.

§ 13-32-4.3. **Enrollment in other school after suspension or expulsion-Duties of sending and receiving schools.**
If any student is under suspension or expulsion in a school district, the student may not enroll in any school district until the suspension or expulsion has expired. The superintendent or school administrator of any school district may prohibit a student from enrolling in that school district if the student is under suspension or expulsion in a school in another state or in a nonpublic school in this state. Upon receiving a request for a student's permanent school records from the receiving district, the sending school shall provide the receiving district with written notice of any suspension or expulsion.

§ 13-32-4.4. **Early reinstatement of expelled student.**
If a student is expelled from school as provided in § 13-32-4, the school board may grant the student an early reinstatement allowing the student to return to school before the end of the period of expulsion.

§ 13-32-4.5. **Early reinstatement with conditions.**
Any early reinstatement granted by a school board pursuant to § 13-31-4.4 may include one or more specific conditions established by the school board that the expelled student must meet, either prior to the granting of the early reinstatement or after the early reinstatement is granted and before the end of the period of expulsion. Any early reinstatement conditions established by the school board for an expelled student shall pertain to the reasons why the student was expelled, and the board shall provide notice of any early reinstatement conditions to the student's parent or guardian or to the student, if the student is at least eighteen years of age or is an emancipated minor, at the time the student is expelled.

§ 13-32-4.6. **Revocation of early reinstatement.**
If the superintendent of a school district determines that an expelled student has met the early reinstatement conditions established pursuant to § 13-32-4.5 that the student is required to meet before the student may be granted early reinstatement, the superintendent may grant the student early reinstatement and allow the student to return to school.

If a student violates an early reinstatement condition that the student was required to meet after the student's early reinstatement, but before the end of the expulsion period, the superintendent of the school district may revoke the student's early reinstatement. Within five days after revoking an early reinstatement, the superintendent shall provide written notice of the revocation including any early reinstatement condition that was violated by the student to the student's parent or guardian or to the student, if the student is at least eighteen years of age or an emancipated minor.
If a student's early reinstatement is revoked, the student's expulsion shall continue until the end of the original period of expulsion unless the student's expulsion is firearm-related and the original period of expulsion is modified by the superintendent pursuant to § 13-32-4.

The administrative due process procedures established in ARSD 24:07:04 for the protection of students' rights in an expulsion procedure apply to the early reinstatement process established in §§ 13-32-4 to 13-32-4.6, inclusive, and the South Dakota Board of Education Standards may promulgate rules pursuant to chapter 1-26 to establish additional procedures for the early reinstatement process, including the development of early reinstatement conditions by school boards.

REGULATIONS

24:05:26:02.01. Change of placement for disciplinary removals.
For purposes of removal of a student with a disability from the student's current educational placement under this chapter, a change of placement occurs if:

(1) The removal is for more than ten consecutive school days; or

(2) The student is subjected to a series of removals that constitute a pattern because:
   (a) They cumulate to more than ten school days in a school year;
   (b) Of factors such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another; and
   (c) The student's behavior is substantially similar to the student's behavior in previous incidents that resulted in the series of removals.

The public agency determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

24:05:26:02.02. Removals-Ten school days or less.
To the extent removal would be applied to students without disabilities, including alternative settings, school personnel may order the removal of a student with a disability from the student's current placement to an appropriate interim alternative educational setting or another setting, or they may order suspension for not more than ten consecutive school days, for any violation of a code of student conduct. Additional removals of not more than ten consecutive school days in that same school year may be ordered for separate incidents of misconduct if those removals do not constitute a change of placement under § 24:05:26:02.01.

24:05:26:02.03. Required services-No change of placement.
A school district need not provide services during periods of removal under § 24:05:26:02.02 to a student with a disability who has been removed from his or her current placement for ten school days or less in that school year, if services are not provided to a student without disabilities who has been similarly removed. If a student with a disability has been removed from his or her current placement for more than ten school days in that school year, and the removal is not for more than ten consecutive school days and
is not a change in placement, the district, for the remainder of the removals, shall provide services to the extent necessary to enable the student to participate in the general curriculum and to progress toward meeting the goals set out in the student's IEP. School personnel, in consultation with at least one of the student's teachers, shall determine the extent to which services are necessary to enable the student to participate in the general curriculum and to progress toward meeting the goals set out in the student's IEP.

24:05:26:08.01. Authority of school personnel-Weapons, drugs, and serious bodily injury.
School personnel may remove a student to an appropriate interim alternative setting for not more than 45 school days, without regard to whether the behavior is determined to be a manifestation of the student's disability, if:

(1) The student carries a weapon to or possesses a weapon at school, on school premises, or at school or to a school function under the jurisdiction of a state or local education agency;

(2) The student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency; or

(2) Order a change of placement of the student with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the student is substantially likely to result in injury to the student or to others.

The procedures under this section may be repeated if the school district believes that returning the student to the original placement is substantially likely to result in injury to the student or to others.

24:05:26:09.02. Determination of interim alternative educational setting.
The student's IEP team shall determine the interim alternative educational setting in which a student is placed under §§ 24:05:26:08.01, 24:05:26:02.01, and 24:05:26:09.05.

Bullying, harassment, or hazing

LAWS

If a school district does not have a bullying policy, the school district shall follow the model bullying policy in § 13-32-19 until such time as the school district adopts its own bullying policy. Nothing in §§ 13-32-14 to 13-32-19, inclusive, supplants or preempts an existing school district policy, except that no school district policy prohibiting bullying, whether it is existing or adopted pursuant to §§ 13-32-14 to 13-32-19, inclusive, may contain any protected classes of students.

Bullying is a pattern of repeated conduct that causes physical hurt or psychological distress on one or more students that may include threats, intimidation, stalking as defined in chapter 22-19A, physical violence, theft, destruction of property, any threatening use of data or computer software, written or verbal communication, or conduct directed against a student that:

(1) Places a student in reasonable fear of harm to his or her person or damage to his or her property; and either
(2) Substantially interferes with a student's educational performance; or
(3) Substantially disrupts the orderly operation of a school.

For the purposes of §§ 13-32-14 to 13-32-19, inclusive, bullying also includes retaliation against a student for asserting or alleging an act of bullying.

Each school district policy developed pursuant to §§ 13-32-14 to 13-32-19, inclusive, shall contain the following provisions:

(1) A statement prohibiting bullying and a definition of bullying that includes the definition listed in § 13-32-15;
(2) A description of the type of behavior expected from each student of the school district, and the consequences for a student of the school district who commits an act of bullying;
(3) A procedure for reporting an act of bullying, including provisions that permit a person to anonymously report such an act, although formal disciplinary action may not be based solely on an anonymous report; and

A procedure for the prompt investigation and response to any report of bullying, including a requirement that an investigation be conducted on any alleged incident of bullying committed against a child while the child is aboard a school bus, at a school bus stop, or at a school-sponsored event.

§ 13-32-17. Immunity from liability for good faith report of bullying-No cause of action without substantial noncompliance resulting in injury.
Any school district employee, school volunteer, student, or parent who promptly reports in good faith an act of bullying to the appropriate school district official as designated in the school district's policy, and who makes the report in compliance with the provisions of the school district's policy is immune from any cause of action for damages arising from failure to remedy the reported incident. Moreover, the provisions
of §§ 13-32-14 to 13-32-19, inclusive, do not create a cause of action against any school district, school district employee, school volunteer, student, or parent unless there has been substantial noncompliance with the school district's policy resulting in injury to a protected person.

**§ 13-32-18. Bullying via computers or electronic devices subject to disciplinary action regardless of time or place.**

Neither the physical location nor the time of day of any incident involving the use of computers or other electronic devices is a defense to any disciplinary action taken by a school district for conduct determined to meet the definition of bullying in § 13-32-15.

**§ 13-32-19. Model bullying policy established.**

The model bullying policy pursuant to §§ 13-32-14 to 13-32-19 is as follows:

Prohibition of harassment, intimidation, and bullying

The School District is committed to maintaining a constructive, safe school climate that is conducive to student learning and fostering an environment in which all students are treated with respect and dignity.

Persistent bullying can severely inhibit a student's ability to learn and may have lasting negative effects on a student's life. The bullying of students by students, staff, or third parties is strictly prohibited and will not be tolerated.

Bullying consists of repeated physical, verbal, non-verbal, written, electronic, or any conduct directed toward a student that is so pervasive, severe, and objectively offensive that it:

1. Has the purpose of creating or resulting in an intimidating, hostile, or offensive academic environment; or
2. Has the purpose or effect of substantially or unreasonably interfering with a student's academic performance which deprives the student access to educational opportunities.

Any staff member observing or suspecting bullying toward another individual is required to report the issue to his or her building supervisor.

This policy is in effect while students are on property within the jurisdiction of the School Board; while students are in school-owned or school-operated vehicles; and while students are attending or engaged in school-sponsored activities.

The District will act to investigate all complaints (formal or informal, verbal or written) of bullying. A formal complaint may be submitted to the building principal. Any student engaging in an act of bullying is subject to discipline pursuant to the District's student discipline procedure.

This policy may not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions if the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

   c) A written statement from the student's physician or other licensed health care provider, signed by the physician or provider, that states:
      i) The student has asthma or anaphylaxis or both, and is capable of self-administering the prescription medication;

The physician's or provider's statement must be kept on file in the office of the school nurse of the school the student attends or, if there is not a school nurse, in the office of the principal of the school the student attends.

If any student uses the medication in a manner other than prescribed, the student may be subject to disciplinary action by the school. However, the disciplinary action may not limit or restrict the student's immediate access to the medication.

Upon a third or subsequent adjudication, conviction, diversion, or suspended imposition of sentence for possession, use, or distribution of controlled drugs or substances or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by § 22-42-15, by a court of competent jurisdiction, that person is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education. Upon such a determination in any juvenile court proceeding the Unified Judicial System shall give notice of that determination to the South Dakota High School Activities Association and the chief administrator of the school in which the person is participating in any extracurricular activity. The Unified Judicial System shall give notice to the chief administrators of secondary schools accredited by the Department of Education for any such determination in a court proceeding for any person eighteen to twenty-one years of age without regard to current status in school or involvement in extracurricular activities. The notice shall include name, date of birth, city of residence, and offense. The chief administrator shall give notice to the South Dakota High School Activities Association if any such person is participating in extracurricular activities. Upon placement of the person in an informal adjustment or court-approved diversion program, the state's attorney who placed the person in that program shall give notice of that placement to the South Dakota High School Activities Association and chief administrator of the school in which the person is participating in any extracurricular activity. As used in this section, the term, extracurricular activity, means any activity sanctioned by the South Dakota High School Activities Association. Students are ineligible to participate in activity events, competitions, and performances, but a local school district may allow a student to participate in practices.

The following allegations of delinquency and children in need of supervision shall be treated as juvenile cited violations by law enforcement:

1. Petty theft in the second degree pursuant to § 22-30A-17.3;
2. Intentional damage to property, four hundred dollars or less, pursuant to § 22-34-1;
3. Purchase, possession, or consumption of alcoholic beverage by person under twenty-one years pursuant to § 35-9-2 in accordance with subdivision 26-8B-2(5); and
4. Truancy pursuant to subdivision 26-8B-2(1).

The issuing officer shall notify the child and the child's parent, guardian, or custodian that a hearing on the citation for a cited violation shall be held before a judicial circuit court judge within ten days of issuance of the citation or on the next available court date and be treated as a confidential juvenile matter. The hearing shall be held pursuant to § 26-7A-36 and the case records shall be treated as confidential consistent with the provisions of §§ 26-7A-114, 26-7A-115, 26-7A-116, 26-7A-120, and 26-7A-27. A cited violation is not an adjudication or a child in need of supervision or delinquency proceeding. In lieu of a citation, pursuant to subdivision 26-7A-126(4), a school official may file a report with the state's attorney. A report may also be filed with the state's attorney in lieu of a citation if the conduct occurs in conjunction with another offense that is not subject to the juvenile cited violation process.

If a state's attorney is informed that a citation or report has been issued for a juvenile cited violation, the state's attorney may take any action permitted pursuant to § 26-7A-10, except that a state's attorney may only file a petition pursuant to subdivision 26-7A-10(5) if:

(1) The child is cited, or a report is filed pursuant to subdivision 26-7A-126(1), (2), or (4); or

(2) The child is cited pursuant to subdivision 26-7A-126(3) and has two or more prior judgments for the same violation.

If the state's attorney intends to proceed on a petition for a violation of the provisions in § 26-7A-126 pursuant to subdivision (1) or (2) in this section, the provisions of § 26-7A-11.1 apply.

State model policies and implementation support

LAWS

If a school district does not have a bullying policy, the school district shall follow the model bullying policy in § 13-32-19 until such time as the school district adopts its own bullying policy. Nothing in §§ 13-32-14 to 13-32-19, inclusive, supplants or preempts an existing school district policy, except that no school district policy prohibiting bullying, whether it is existing or adopted pursuant to §§ 13-32-14 to 13-32-19, inclusive, may contain any protected classes of students.

Each school district policy developed pursuant to §§ 13-32-14 to 13-32-19, inclusive, shall contain the following provisions:

(1) A statement prohibiting bullying and a definition of bullying that includes the definition listed in § 13-32-15;

(2) A description of the type of behavior expected from each student of the school district, and the consequences for a student of the school district who commits an act of bullying;

(3) A procedure for reporting an act of bullying, including provisions that permit a person to anonymously report such an act, although formal disciplinary action may not be based solely on an anonymous report; and

A procedure for the prompt investigation and response to any report of bullying, including a requirement that an investigation be conducted on any alleged incident of bullying committed against a child while the child is aboard a school bus, at a school bus stop, or at a school-sponsored event.

The model bullying policy pursuant to §§ 13-32-14 to 13-32-19 is as follows:

Prohibition of harassment, intimidation, and bullying

The School District is committed to maintaining a constructive, safe school climate that is conducive to student learning and fostering an environment in which all students are treated with respect and dignity. Persistent bullying can severely inhibit a student's ability to learn and may have lasting negative effects on a student's life. The bullying of students by students, staff, or third parties is strictly prohibited and will not be tolerated.

Bullying consists of repeated physical, verbal, non-verbal, written, electronic, or any conduct directed toward a student that is so pervasive, severe, and objectively offensive that it:

(1) Has the purpose of creating or resulting in an intimidating, hostile, or offensive academic environment; or

(2) Has the purpose or effect of substantially or unreasonably interfering with a student's academic performance which deprives the student access to educational opportunities.

Any staff member observing or suspecting bullying toward another individual is required to report the issue to his or her building supervisor.
This policy is in effect while students are on property within the jurisdiction of the School Board; while students are in school-owned or school-operated vehicles; and while students are attending or engaged in school-sponsored activities.

The District will act to investigate all complaints (formal or informal, verbal or written) of bullying. A formal complaint may be submitted to the building principal. Any student engaging in an act of bullying is subject to discipline pursuant to the District’s student discipline procedure.

This policy may not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions if the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

Authority to develop and establish rules of conduct

LAW

(a) The commissioner of education, in consultation with the commissioner of safety, shall develop advisory guidelines for LEAs to use in developing safe and secure learning environments in schools. Such guidelines shall emphasize consultation at the local level with appropriate law enforcement authorities.

(b) The department of education may prepare and distribute to LEAs guidelines for incorporating into local staff development and in-service training the materials and speakers necessary to help educators reduce gang and individual violence, to assist in drug and alcohol abuse prevention and to provide educators with the tools for nonintrusive identification of potentially violent individuals in and around schools. The department may, upon request, assist LEAs in developing comprehensive violence, drug and alcohol abuse prevention in-service training programs. Department guidelines shall encourage the sharing of resources, the development of joint or collaborative programs and the coordination of efforts with local health departments, county and city law enforcement agencies and other public agencies providing health, drug, alcohol, gang violence prevention and other related services.

(c) The department may assist LEAs in qualifying for the receipt of federal and state funds that may support local efforts to provide the in-service training programs in this section. The department shall encourage LEAs to provide written materials to assist teachers and parents working to develop a safe and secure learning environment in system schools. Within available resources, the department may provide technical assistance directly to LEAs seeking to expand teacher and student safety programs.

49-6-4001. Short title.
This part shall be known and may be cited as the "Student and Employee Safe Environment Act of 1996."

49-6-4002. Formulation and administration of behavior and discipline codes.
(a) The governing body of each LEA shall be responsible for formulating a code of acceptable behavior and discipline to apply to the students in each school operated by the LEA.

(b) The director of schools or other administrative head of the LEA shall be responsible for overall implementation and supervision, and each school principal shall be responsible for administration and implementation within that school.

(c) In formulating the behavior and discipline codes, the governing body of each LEA shall seek recommendations from parents, employees, law enforcement personnel and youth-related agencies in the community.

49-6-4004. Uniform and fair application of codes.
The principal of each school shall apply the code uniformly and fairly to each student at the school without partiality or discrimination.

49-6-4005. Different codes for different classes of schools.
The governing body of the LEA may choose to adopt different but consistent codes of behavior and discipline to apply to different classes of schools, such as elementary, middle, junior high and senior high,
under its jurisdiction. The codes shall be uniform to the extent of maximum consideration for the safety and well-being of students and employees.

49-6-4101. Short title.
This part shall be known and may be cited as the "School Discipline Act."

49-6-4102. Students accountable for conduct.
Every teacher is authorized to hold every pupil strictly accountable for any disorderly conduct in school or on the playground of the school, during intermission or recess period or on any school bus going to or returning from school. Every school bus driver is authorized to hold every pupil strictly accountable for any disorderly conduct on any school bus going to or returning from school or a school activity.

49-6-4109. Trauma-informed discipline policy.
(a) As a strategy to address adverse childhood experiences, as defined in § 49-1-230, each LEA and public charter school shall adopt a trauma-informed discipline policy. Each trauma-informed discipline policy must:
   (1) Balance accountability with an understanding of traumatic behavior;
   (2) Teach school and classroom rules while reinforcing that violent or abusive behavior is not allowed at school;
   (3) Minimize disruptions to education with an emphasis on positive behavioral supports and behavioral intervention plans;
   (4) Create consistent rules and consequences; and
   (5) Model respectful, nonviolent relationships.
(b) The department of education shall develop guidance on trauma-informed discipline practices that LEAs must use to develop the policy required under subsection (a).

49-6-4201. Short title.
This part shall be known and may be cited as the "School Security Act of 1981."

49-6-4203. Legislative intent.
(a) It is the intent of the general assembly in enacting this part to secure a safe environment in which the education of the students of this state may occur.
(b) The general assembly recognizes the position of the schools in loco parentis and the responsibility this places on principals and teachers within each school to secure order and to protect students from harm while in their custody.
(c) It is the intent of this part to extend further, rather than limit, the authority of principals and teachers to secure order and provide protection of students within each school.
(d) The general assembly further recognizes that a rising level of violent activity and use of drugs is occurring in some public schools, especially in urban areas, and that these activities threaten the well-being of all students in those schools.
(e) The general assembly further finds that:
   (1) The removal of dangerous weapons, drug paraphernalia and drugs from school property is necessary to lessen hazards to students and that removal can only be accomplished by searches of areas of the school buildings or grounds where those materials may be stored;
(2) On occasions when the use of dangerous weapons or drugs has reached a life or health threatening level, searches of students themselves may be necessary to protect the larger student body, and that often the searches must be conducted in emergency situations;

(3) Individual circumstances and local particularities require that individual principals must be relied on to exercise their professionally trained judgments in determining what action is appropriate within this part; and

(4) The presence on school property of students with drugs in their bodies may pose a threat to the safety and well-being of that student and other students, may be disruptive of school classes and other programs and may interfere with the educational opportunities and progress of all students.

   (6) A procedure for the prompt and immediate investigation when an act of harassment, intimidation, bullying, or cyber-bullying is reported to the principal, the principal’s designee, teacher, or school counselor. The principal or the principal’s designee shall initiate the investigation within forty-eight (48) hours of receipt of the report, unless the need for more time is appropriately documented, and the principal or the principal's designee shall initiate an appropriate intervention within twenty (20) calendar days of receipt of the report, unless the need for more time is appropriately documented;

(14) A procedure for a referral for appropriate counseling and support services for students involved in an act of harassment, intimidation, bullying, or cyber-bullying, when deemed necessary by the principal. The counseling and support services may be conducted by school counseling personnel who are appropriately trained, such as psychologists, social workers, school counselors, or any other personnel or resources available.

49-6-4504. Adoption of policy prohibiting harassment, intimidation, bullying or cyber-bullying by LEA.

If neither the principal nor the designee is available, school personnel may report violations of title 39, chapter 17, part 4 or § 39-17-1307 committed on school property to the appropriate authorities.

**49-6-4210. Disposal of contraband.**

Any dangerous weapon or drug located by the principal or other staff member in the course of a search shall be turned over to the appropriate law enforcement officer for proper disposal.

**49-6-4212. Training program for school principals - Notice of policies to parents and students.**

(a) The LEA and the local law enforcement agency shall establish and maintain an orientation and training program designed to familiarize school principals with this part and with local policies and procedures for implementing and enforcing this part.

(b) The LEA shall provide parents and students with reasonable notice of the local policies and procedures.

**49-6-4213. Testing of students for drugs - Referral information and assistance for students testing positive.**

(a)(1) A student may be subject to testing for the presence of drugs in the student's body in accordance with this section and the policy of the LEA if there are reasonable indications to the principal that such student may have used or be under the influence of drugs. The need for testing may be brought to the attention of the principal through a search authorized by § 49-6-4204 or § 49-6-4205, observed or reported use of drugs by the student on school property, or other reasonable information received from a teacher, staff member or other student. All of the following standards of reasonableness shall be met:

(A) A particular student has violated school policy;

(B) The test will yield evidence of the violation of school policy or will establish that a student either was impaired due to drug use or did not use drugs;

(C) The test is in pursuit of legitimate interests of the school in maintaining order, discipline, safety, supervision and education of students;

(D) The test is not conducted for the sole purpose of discovering evidence to be used in a criminal prosecution; and
(E) Tests shall be conducted in the presence of a witness. Persons who shall act as witnesses shall be designated in the policy of the local board of education.

(2) A student participating in voluntary extracurricular activities may be subject to random drug testing in the absence of individualized reasonable suspicion provided the standards set forth in subdivisions (a)(1)(B)-(E) are met.

(b) As used in this section and § 49-6-4203, "drugs" means:

(1) Any scheduled drug as specified in §§ 39-17-405 - 39-17-416; and

(2) Alcohol.

(c) Before a drug testing program is implemented in any LEA, the local board of education in that LEA shall establish policies, procedures and guidelines to implement this section within that LEA. The state board of education shall prepare a model policy, procedure and guidelines that may be adopted by local boards of education.

(d) Tests shall be conducted by properly trained persons in circumstances that ensure the integrity, validity and accuracy of the test results but are minimally intrusive and provide maximum privacy to the tested student. All tests shall be performed by an accredited laboratory. Specimens confirmed as positive shall be retained for at least ten (10) days for possible retesting or reanalysis.

(e) Students shall be advised in writing at the time of their enrollment that they are subject to testing. Notice to each student shall include grounds for testing, the procedures that will be followed and possible penalties. Students shall be advised of their right to refuse to undergo drug testing and the consequences of refusal.

(f)(1) A parent of the student or a person legally responsible for the student shall be notified before any drug test is administered to the student.

(2) If an LEA adopts a policy permitting random drug testing of students in voluntary extracurricular activities, then, prior to a student participating in an extracurricular activity, the LEA shall notify the parents and guardians of any such student that the student may be subjected to random drug testing. A parent or guardian of a student participating in a volunteer extracurricular activity shall provide written consent for random drug testing prior to the student participating in the voluntary extracurricular activity.

(g) The LEA shall pay the cost of any testing required under this section.

(h) In any school where LEA or school policy allows tests provided for by this section, in-service training of principals and teachers will be conducted in signs and symptoms of student drug use and abuse and in the school policy for handling of these students. The department of mental health and substance abuse services shall cause qualified trainers to be available to the schools to conduct this training.

(i) Test reports from laboratories shall include the specimen number assigned by the submitting LEA, the drug testing laboratory accession number and results of the drug tests. Certified copies of all analytical results shall be available from the laboratory when requested by the LEA or the parents of the student. The laboratory shall not be permitted to provide testing results verbally by telephone.

(j)(1) All specimens testing negative on the initial screening test or negative on the confirmatory test shall be reported as negative.

(2) If a student is tested and the results of the test are negative, all records of the test, request for a test or indication a student has been tested shall be expunged from all records, including school records.

(k)(1) If a student is tested in a drug testing program and the results of the test are positive, all records of the test, request for a test or indication a student has been tested shall be confidential student records in accordance with § 10-7-504(a)(4)(A).

(2) No student who is tested under a random drug testing program and who tests positive shall be suspended or expelled from school solely as the result of the positive test.
(3) The principal or school counselor of the school in which a student who tests positive in a drug testing program is enrolled shall provide referral information to the student and to the student's parents or guardian. The information shall include information on inpatient, outpatient and community-based drug and alcohol treatment programs.

(I) Each LEA participating in the drug testing of students authorized in subsection (a) of this section shall promulgate policies and procedures to ensure that those students testing positive receive the assistance needed. The assistance shall include an assessment to determine the severity of the student's alcohol and drug problem and a recommendation for referral to intervention or treatment resources as appropriate. Nothing in this section shall be construed to require LEAs to administer drug tests to students. Any system that elects to participate shall supply the testing materials and any subsequent counseling within existing local funds.

(m) Malicious use of authority granted by this section may be grounds for dismissal of the person so acting.

49-2-203. Duties and powers.

(a) It is the duty of the local board of education to:

(7) Suspend, dismiss or alternatively place pupils, when the progress, safety or efficiency of the school makes it necessary or when disruptive, threatening or violent students endanger the safety of other students or school system employees;

49-6-3401. Suspension of students - Expulsion of students - Exception for self-defense.

(a) Any principal, principal-teacher or assistant principal of any public school in this state is authorized to suspend a pupil from attendance at the school, including its sponsored activities, or from riding a school bus, for good and sufficient reasons. Good and sufficient reasons for suspension include, but are not limited to:

(1) Willful and persistent violation of the rules of the school;
(2) Immoral or disreputable conduct or vulgar or profane language;
(3) Violence or threatened violence against the person of any personnel attending or assigned to any public school;
(4) Willful or malicious damage to real or personal property of the school, or the property of any person attending or assigned to the school;
(5) Inciting, advising or counseling of others to engage in any of the acts enumerated in subdivisions (a)(1)-(4);
(6) Marking, defacing or destroying school property;
(7) Possession of a pistol, gun or firearm on school property;
(8) Possession of a knife and other weapons, as defined in § 39-17-1301 on school property;

(12) Making a threat, including a false report, to use a bomb, dynamite, any other deadly explosive or destructive device, including chemical weapons, on school property or at a school sponsored event;
(13) Any other conduct prejudicial to good order or discipline in any public school; and
(14) Off campus criminal behavior that results in the student being legally charged with an offense that would be classified as a felony if the student was charged as an adult or if adjudicated delinquent for an offense that would be classified as a felony if the student was an adult, or if the student was convicted of a felony, and the student's continued presence in school poses a danger to persons or property or disrupts the educational process. Notwithstanding § 37-1-131 or any other law to the contrary, the
principal of the school in which the student is enrolled and the director of schools shall determine the appropriate educational assignment for the student released for readmission.

(b)(1) Any principal, principal-teacher or assistant principal may suspend any pupil from attendance at a specific class, classes or school-sponsored activity without suspending the pupil from attendance at school pursuant to an in-school suspension policy adopted by the local board of education. Good and sufficient reasons for in-school suspension include, but are not limited to, behavior:

(A) That adversely affects the safety and well-being of other pupils;

(B) That disrupts a class or school sponsored activity; or

(C) Prejudicial to good order and discipline occurring in class, during school-sponsored activities or on the school campus.

(2) In-school suspension policies shall provide that pupils given an in-school suspension in excess of one (1) day from classes shall attend either special classes attended only by students guilty of misconduct or be placed in an isolated area appropriate for study. Students given in-school suspension shall be required to complete academic requirements.

(c)(1) Except in an emergency, no principal, principal-teacher or assistant principal shall suspend any student until that student has been advised of the nature of the student's misconduct, questioned about it and allowed to give an explanation.

(2) Upon suspension of any student other than for in-school suspension of one (1) day or less, the principal shall, within twenty-four (24) hours, notify the parent or guardian and the director of schools or the director of schools' designee of:

(A) The suspension, which shall be for a period of no more than ten (10) days;

(B) The cause for the suspension; and

(C) The conditions for readmission, which may include, at the request of either party, a meeting of the parent or guardian, student and principal.

(3) If the suspension is for more than five (5) days, the principal shall develop and implement a plan for improving the behavior, which shall be made available for review by the director of schools upon request.

(4) (A) If, at the time of the suspension, the principal, principal-teacher or assistant principal determines that an offense has been committed that would justify a suspension for more than ten (10) days, the person may suspend a student unconditionally for a specified period of time or upon such terms and conditions as are deemed reasonable.

(B) The principal, principal-teacher or assistant principal shall immediately give written or actual notice to the parent or guardian and the student of the right to appeal the decision to suspend for more than ten (10) days. All appeals must be filed, orally or in writing, within five (5) days after receipt of the notice and may be filed by the parent or guardian, the student or any person holding a teaching license who is employed by the school system if requested by the student.

(C) The appeal from this decision shall be to the board of education or to a disciplinary hearing authority appointed by the board. The disciplinary hearing authority, if appointed, shall consist of at least one (1) licensed employee of the LEA, but no more than the number of members of the local board.

(D) The hearing shall be held no later than ten (10) days after the beginning of the suspension. The local board of education or the disciplinary hearing authority shall give written notice of the time and place of the hearing to the parent or guardian, the student and the school official designated in subdivision (c)(4)(A) who ordered the suspension. Notice shall also be given to the LEA employee referred to in subdivision (c)(4)(B) who requests a hearing on behalf of a suspended student.
(5) After the hearing, the board of education or the disciplinary hearing authority may affirm the decision of the principal, order removal of the suspension unconditionally or upon such terms and conditions as it deems reasonable, assign the student to an alternative program or night school or suspend the student for a specified period of time.

(6) If the decision is determined by a disciplinary hearing authority, a written record of the proceedings, including a summary of the facts and the reasons supporting the decision, shall be made by the disciplinary hearing authority. The student, principal, principal-teacher or assistant principal may, within five (5) days of the decision, request review by the board of education; provided, that local school board policy may require an appeal to the director of schools prior to a request for review to the board. Absent a timely appeal, the decision shall be final. The board of education, based upon a review of the record, may grant or deny a request for a board hearing and may affirm or overturn the decision of the hearing authority with or without a hearing before the board; provided, that the board may not impose a more severe penalty than that imposed by the hearing authority without first providing an opportunity for a hearing before the board. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher, or assistant principal, then, notwithstanding any provision of the open meetings laws compiled in title 8, chapter 44, or other law to the contrary, the hearing shall be closed to the public, unless the student or student's parent or guardian requests in writing within five (5) days after receipt of written notice of the hearing that the hearing be conducted as an open meeting. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher, or assistant principal that is closed to the public, then the board shall not conduct any business, discuss any subject or take a vote on any matter other than the appeal to be heard. Nothing in this subdivision (c)(6) shall act to exclude the department of children's services from the disciplinary hearings when the department is exercising its obligations under § 37-1-140. The action of the board of education shall be final.

(d) In the event the suspension occurs during the last ten (10) days of any term or semester, the pupil may be permitted to take final examinations or submit required work that is necessary to complete the course of instruction for that semester, subject to the action of the principal, or the final action of the board of education upon any appeal from an order of a principal continuing a suspension.

(e) Students under in-school suspension shall be recorded as constituting a part of the public school attendance in the same manner as students who attend regular classes.

(f) Nothing in this title shall require an LEA to enroll a student who is under suspension or expelled in an LEA either in Tennessee or another state. The director of schools for the school system in which the suspended student requests enrollment shall make a recommendation to the local board of education to approve or deny the request. The recommendation shall occur only after investigation of the facts surrounding the suspension from the former school system. If the recommendation is to deny admission and if the local board approves the director of schools' recommendation, the director of schools shall, on behalf of the board of education, notify the commissioner of the decision. Nothing in this subsection (f) shall affect children in state custody or their enrollment in any LEA. Any LEA that accepts enrollment of a student from another LEA may dismiss the student if it is determined subsequent to enrollment that the student had been suspended or expelled by the other LEA.

(g) Notwithstanding this section or any other law to the contrary, a pupil determined to have brought to school or to be in unauthorized possession on school property of a firearm, as defined in 18 U.S.C. § 921, shall be expelled for a period of not less than one (1) calendar year, except that the director may modify this expulsion on a case-by-case basis. In addition to the other provisions of this part, a student committing aggravated assault as defined in § 39-13-102 upon any teacher, principal, administrator, any other employee of an LEA or school resource officer, or unlawfully possessing any drug including any controlled substance, as defined in §§ 39-17-403 - 39-17-415, controlled substance analogue, as defined
by § 39-17-454, or legend drug, as defined by § 53-10-101, shall be expelled for a period of not less than one (1) calendar year, except that the director may modify this expulsion on a case-by-case basis. For purposes of this subsection (g), "expelled" means removed from the pupil's regular school program at the location where the violation occurred or removed from school attendance altogether, as determined by the school official. Nothing in this section shall be construed to prohibit the assignment of such students to an alternative school. Disciplinary policies and procedures for all other student offenses, including terms of suspensions and expulsions, shall be determined by local board of education policy.

(h) The commissioner of education shall report on a semi-annual basis to the education committee of the senate and the education committee of the house of representatives regarding disciplinary actions in Tennessee schools. The reports shall include the reason for the disciplinary action, the number of such students suspended or expelled and the number of such students who have been placed in an alternative educational setting. Data shall be sorted by school as well as by various demographic factors, including grade, race and sex.

(i) Notwithstanding subsection (a) or (b) or any other law to the contrary, if a pupil is determined, via a fair and thorough investigation made by the principal or the principal's appointed representative, to have acted in self-defense under a reasonable belief that the student, or another to whom the student was coming to the defense of, may have been facing the threat of imminent danger of death or serious bodily injury, which the student honestly believed to be real at that time, then, at the principal's recommendation, the student may not face any disciplinary action.

If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher, or assistant principal that is closed to the public, then the board shall not conduct any business, discuss any subject or take a vote on any matter other than the appeal to be heard. Nothing in this subdivision (c)(6) shall act to exclude the department of children's services from the disciplinary hearings when the department is exercising its obligations under § 37-1-140. The action of the board of education shall be final.

(d) In the event the suspension occurs during the last ten (10) days of any term or semester, the pupil may be permitted to take final examinations or submit required work that is necessary to complete the course of instruction for that semester, subject to the action of the principal, or the final action of the board of education upon any appeal from an order of a principal continuing a suspension.
(e) Students under in-school suspension shall be recorded as constituting a part of the public school attendance in the same manner as students who attend regular classes.

(f) Nothing in this title shall require an LEA to enroll a student who is under suspension or expelled in an LEA either in Tennessee or another state. The director of schools for the school system in which the suspended student requests enrollment shall make a recommendation to the local board of education to approve or deny the request. The recommendation shall occur only after investigation of the facts surrounding the suspension from the former school system. If the recommendation is to deny admission and if the local board approves the director of schools' recommendation, the director of schools shall, on behalf of the board of education, notify the commissioner of the decision. Nothing in this subsection (f) shall affect children in state custody or their enrollment in any LEA. Any LEA that accepts enrollment of a student from another LEA may dismiss the student if it is determined subsequent to enrollment that the student had been suspended or expelled by the other LEA.

(g) Notwithstanding this section or any other law to the contrary, a pupil determined to have brought to school or to be in unauthorized possession on school property of a firearm, as defined in 18 U.S.C. § 921, shall be expelled for a period of not less than one (1) calendar year, except that the director may modify this expulsion on a case-by-case basis. In addition to the other provisions of this part, a student committing aggravated assault as defined in § 39-13-102 upon any teacher, principal, administrator, any other employee of an LEA or school resource officer, or unlawfully possessing any drug including any controlled substance, as defined in §§ 39-17-403 - 39-17-415, controlled substance analogue, as defined by § 39-17-454, or legend drug, as defined by § 53-10-101, shall be expelled for a period of not less than one (1) calendar year, except that the director may modify this expulsion on a case-by-case basis. For purposes of this subsection (g), "expelled" means removed from the pupil's regular school program at the location where the violation occurred or removed from school attendance altogether, as determined by the school official. Nothing in this section shall be construed to prohibit the assignment of such students to an alternative school. Disciplinary policies and procedures for all other student offenses, including terms of suspensions and expulsions, shall be determined by local board of education policy.

(h) The commissioner of education shall report on a semi-annual basis to the education committee of the senate and the education committee of the house of representatives regarding disciplinary actions in Tennessee schools. The reports shall include the reason for the disciplinary action, the number of such students suspended or expelled and the number of such students who have been placed in an alternative educational setting. Data shall be sorted by school as well as by various demographic factors, including grade, race and sex.

(i) Notwithstanding subsection (a) or (b) or any other law to the contrary, if a pupil is determined, via a fair and thorough investigation made by the principal or the principal's appointed representative, to have acted in self-defense under a reasonable belief that the student, or another to whom the student was coming to the defense of, may have been facing the threat of imminent danger of death or serious bodily injury, which the student honestly believed to be real at that time, then, at the principal's recommendation, the student may not face any disciplinary action.

(1) For the purposes of recording and coding student absences from school because of disciplinary actions, the following definitions shall apply:

(a) "Suspension" shall be defined as dismissal from attendance at school for any reason not more than ten (10) consecutive days. The student on suspension shall be included in ADM and will continue to be counted for funding purposes. Multiple suspensions shall not run consecutively nor shall multiple suspensions be applied to avoid expulsion from school.
(b) "Remand" shall be defined as assignment to an alternative school. The student so assigned shall be included in ADA/ADM and will continue to be counted as present for funding purposes. The State Department of Education shall establish a set of codes to be used for reporting reasons for students on remand to an alternative school.

(c) “Expulsion” shall be defined as removal from attendance for more than ten (10) consecutive days or more than fifteen (15) days in a month of school attendance. Multiple suspensions that occur consecutively shall constitute expulsion. The school district shall not be eligible to receive funding for an expelled student.

(2) Students who qualify for services under the Individuals with Disabilities Education Act, 20 U.S.C. 1400, et seq., and 34 C.F.R. 300 et seq., may be suspended, remanded, or expelled only within the provisions of said acts. Removals from school for students receiving services under the act shall not be applied in such a manner so as to constitute a pattern of exclusion of the student nor shall any change of placement occur absent the application of procedural safeguards as defined in the act.

(3) The parents or legal guardians of students who are suspended or expelled in accordance with the provisions of T.C.A. 49-6-3401 shall receive notices provided for therein.

This part shall be known and may be cited as the "Special Education Behavioral Supports Act."

49-10-1302. Purpose of part.

The purposes of this part are:

(1) To ensure that every student receiving special education services is free from the unreasonable, unsafe and unwarranted uses of isolation and restraint practices;

(2) To encourage the use of positive behavioral interventions and support methods in schools;

(3) To develop properly trained staff in order to promote positive behavioral supports that reduce dependence on isolation and restraint practices; and

Mechanical restraint does not include the use of restraints for medical immobilization, adaptive support, or medical protection;

(7) "Noxious substance" means the use of any defense spray or substance as defined by departmental rule;

(8) "Physical holding restraint" means the use of body contact by school personnel with a student to restrict freedom of movement or normal access to the student's body;

(b) Alternative schools and alternative programs shall be operated pursuant to rules of the state board of education pertaining to them, and instruction shall proceed as nearly as practicable in accordance with the instructional programs at the student's home school. All course work completed and credits earned in the alternative schools or alternative programs shall be transferred to and recorded in the student's home school, which shall grant credit earned and progress thereon as if earned in the home school.

(c) Students in grades seven through twelve (7-12) who have been suspended or expelled from the regular school program must be assigned to an alternative school or alternative program if there is space and staff available. Attendance in an alternative school or alternative program shall be voluntary for students in grades one through six (1-6) who have been suspended or expelled from the regular school program unless the local board of education adopts a policy mandating attendance in either instance. The student shall be subject to all rules pertaining thereto. A violation of the rules by a student may result in the student's removal from this school for the duration of the original suspension or expulsion, but shall
not constitute grounds for any extension of the original suspension or expulsion. The final decision on removal shall be made by the chief administrator of the alternative school.

(d) Any student attending an alternative school shall continue to earn state education funds in the student's home school system and shall be counted for all school purposes by that system as if still in attendance there.

(e) A pupil who has been properly found to be eligible for special education and related services shall be placed and served in accordance with the laws and rules relating to special education.

(f)(1) The state board of education, in its rules and regulations for the operation of alternative schools, shall require documentation of the reasons for a student attending an alternative school and provide safeguards to assure that no child with disabilities or other special student is arbitrarily placed in an alternative school. The state board of education, in its rules and regulations, shall require that all alternative school classrooms have working two-way communication systems making it possible for teachers or other employees to notify a principal, supervisor or other administrator that there is an emergency. Teachers and other employees shall be notified of emergency procedures prior to the beginning of classes for any school year.

(2) The state board of education shall provide a curriculum for alternative schools to ensure students receive specialized attention needed to maximize student success. Alternative schools shall offer alternative learning environments in which students are offered a variety of educational opportunities, such as learning at different rates of time or utilizing different, but successful, learning strategies, techniques and tools.

(g) Notwithstanding this section or other law to the contrary, local boards of education may establish evening alternative schools for students in grades six through twelve (6-12).

(h)(1) LEAs establishing alternative schools or contracting for the operation of alternative schools shall develop and implement formal transition plans for the integration of students from regular schools to alternative schools and from alternative schools to regular schools. The plans shall be targeted to improve communication between regular and alternative school staff, provide professional development opportunities shared by regular school staff and alternative school staff, align curricula between regular schools and alternative schools, develop quality in-take procedures for students returning to regular school and provide student follow-up upon return to regular school.

(2) The state board of education shall adopt policies or guidelines to assist LEAs in developing transition plans.

49-6-3405. Alternative school success.

(1) Academic indicators shall include, but not be limited to, grade point averages or other student academic performance measures, performance on the Tennessee comprehensive assessment program (TCAP), performance on the end-of-course assessments, attendance, dropout rates and graduation rates, for students in alternative schools or who have been in alternative schools.

(2) Behavioral indicators shall include, but not be limited to, disciplinary reports and subsequent remands to alternative schools.

(3) The department of education shall provide guidance in the reporting of the required data.

(b) The state board of education shall seek to improve performance of alternative school programs by promulgating or revising rules and regulations requiring greater accountability by the department of education and LEAs for outcomes of students served by alternative schools.

If the minor child ceases to reside with the caregiver, then the caregiver shall notify any person, school or health care provider that has been provided documentation of the power of attorney for care of a minor child. Except where limited by federal law, the caregiver shall be assigned the rights, duties and responsibilities that would otherwise be assigned to the parent, legal guardian or legal custodian pursuant to this title. A new notice shall be sent after each successive accumulation of five (5) unexcused absences.

(3) If it appears that, within three (3) days after receipt of the notice, any child, parent, guardian or other person in parental relation has failed to comply with this part, the director of schools, in the name of the local school system, shall report the facts of the unlawful attendance to the sheriff, constable, city police officer, district attorney general or the foreman of the grand jury, who shall proceed against the parent, guardian or other person in parental relation in accordance with this part, unless the parent, guardian or person having charge and control of the child shall at once place the child in some day school.

(f) The director of schools of any local school system, after written notice to the parent or guardian of a child, shall report any child who is habitually and unlawfully absent from school to the appropriate judge having juvenile jurisdiction in that county, each case to be dealt with in such manner as the judge may determine to be in the best interest of the child, consistent with §§ 37-1-132, 37-1-168 and 37-1-169 and in the event the child is adjudicated to be unruly, the judge may assess a fine of up to fifty dollars ($50.00) or five (5) hours of community service, in the discretion of the judge, against the parents or legal guardians of children in kindergarten through grade twelve (K-12) if the child is absent more than five (5) days during any school year.

(g) Except as otherwise provided by § 49-6-3001 or § 49-6-3005, this section shall be applicable to children less than six (6) years of age and their parent, guardian or other person in a parental relation when the parent, guardian or other person in a parental relation has enrolled the child in any school that receives funding based on average daily membership; provided, that a child may be withdrawn within six (6) weeks of initial enrollment without penalty.

(h) For the purposes of this part, for recording and coding student absences from school because of disciplinary actions, the following definitions shall apply:
(1) "Expulsion" is defined as removal from attendance for more than ten (10) consecutive days or more than fifteen (15) days in a month of school attendance. Multiple suspensions that occur consecutively shall constitute expulsion. The school district shall not be eligible to receive funding for an expelled student;

(2) "Remand" is defined as assignment to an alternative school. The student so assigned shall be included in ADA/ADM and will continue to be counted as present for funding purposes. The department of education shall establish a set of codes to be used for reporting reasons for students on remand to an alternative school; and

(3) "Suspension" is defined as dismissed from attendance at school for any reason not exceeding ten (10) consecutive days. (a) For purposes of this section:

(1) Suspension or expulsion from school or confinement in a correctional institution is not a "circumstance beyond the control of the person";

(2) "Satisfactory academic progress" means making a passing grade in at least three (3) full unit subjects or their equivalency at the conclusion of any grading period; and

(3) "Withdrawal" means more than ten (10) consecutive or fifteen (15) days total unexcused absences during a single semester.

(b) In accordance with title 55, chapter 50, the department of safety shall deny a license or instruction permit for the operation of a motor vehicle to any person under eighteen (18) years of age who does not at the time of application for a driver license present a diploma or other certificate of graduation issued to the person from a secondary high school of this state or any other state, or documentation that the person is:

(1) Enrolled and making satisfactory progress in a course leading to a general educational development certificate (GED(R)) from a state-approved institution or organization, or has obtained a GED(R);

(2) Enrolled and making satisfactory academic progress in a secondary school of this state or any other state;

(3) Excused from such requirement due to circumstances beyond the applicant's control.

(c) The attendance teacher or director of schools shall provide documentation of enrollment status on a form approved by the department of education to any student fifteen (15) years of age or older upon request, who is properly enrolled in a school under the jurisdiction of the official for presentation to the department of safety on application for or reinstatement of an instruction permit or license to operate a motor vehicle. Whenever a student fifteen (15) years of age or older withdraws from school, except as provided in subsection (d), the attendance teacher or director of schools shall notify the department of safety of such withdrawal. Within five (5) days of receipt of the notice, the department shall send notice to the licensee that the license will be suspended under title 55, chapter 50, on the thirtieth day following the date the notice was sent, unless documentation of compliance with this section is received by the department before that time. After having withdrawn from school for the first time for the purpose of this section, a student may not be considered as being in compliance with this section until the student returns to school and makes satisfactory academic progress or attains eighteen (18) years of age. For second or subsequent withdrawals, a student shall have all driving privileges suspended until the student attains
eighteen (18) years of age. When a student licensed to operate a motor vehicle is enrolled in a secondary school and fails to maintain satisfactory academic progress based on end of semester grading, the attendance teacher or director of schools shall follow the procedure set out in this subsection (c) to notify the department of safety. A student who fails to maintain satisfactory academic progress based on end of semester grading may not be considered as being in compliance with this section until such student makes a passing grade in at least three (3) full unit subjects or their equivalency at the conclusion of any subsequent grading period.

(d) Whenever the withdrawal from school of the student, the student's failure to enroll in a course leading to a GED(R) or high school diploma or the student's failure to maintain satisfactory academic progress based on end of semester grading is beyond the control of the student, or is for the purpose of transfer to another school as confirmed in writing by the student's parent or guardian, no notice shall be sent to the department to suspend the student's motor vehicle driver license. If the student is applying for a license, the attendance teacher or director of schools shall provide the student with documentation to present to the department of safety to excuse the student from this section. The school district director of schools, or the appropriate school official of any private secondary school, with the assistance of the attendance teacher and any other staff or school personnel, shall be the sole judge of whether withdrawal or the student's failure to maintain satisfactory academic progress based on end of semester grading is due to circumstances beyond the control of the person.

(e) A copy of the notice sent to the department of safety by the attendance teacher or the director of schools upon failure of a student to maintain satisfactory academic progress shall also be mailed to that student's parents or guardian.

(f) Notwithstanding any provision of this section to the contrary, any student under eighteen (18) years of age enrolled in a course leading to a GED(R) who has more than ten (10) consecutive or fifteen (15) days total unexcused absences in a semester shall not be considered as making satisfactory academic progress and the student's motor vehicle driver license shall be suspended; or if the student does not have a motor vehicle driver license, the student shall be ineligible to obtain a motor vehicle driver license until the student reaches eighteen (18) years of age. The attendance teacher, director of schools or director of a GED(R) program shall notify the department of safety whenever any student under eighteen (18) years of age enrolled in a course leading to a GED(R) has more than ten (10) consecutive or fifteen (15) days total unexcused absences in a semester.

(g) By September 1 of each year, the department of safety shall report to the education committee of the senate and the education committee of the house of representatives the number of students whose driver licenses were suspended in accordance with this section and title 55, chapter 50 during the school year immediately preceding the report date. The department of safety shall also report the number of students whose licenses were reinstated during such school year after such students had their licenses suspended and the total number of licenses granted to students during the school year.

(7)(A) Ordering the child to perform community service work with such work being in compliance with federal and state child labor laws. For first-time delinquent acts involving alcohol or beer, in its order for community service work, the court may require the juvenile to spend a portion of such time in the emergency room of a hospital, only if, and to the extent, the hospital agrees with such action;

(B) No charitable organization, municipality, county or political subdivision thereof utilizing juveniles performing community service work pursuant to this chapter shall be liable for any injury sustained by the juvenile or other person, proximately caused by the juvenile, while the juvenile is performing a work project for such organization or governmental entity, if the organization or governmental entity exercised due care in the supervision of the juvenile;

(C) No charitable organization, municipality, county or political subdivision thereof, nor any employee or officer thereof, shall be liable to any person for any act of a juvenile while the juvenile is on a community work project for such organization or governmental entity, if the organization or governmental entity exercised due care in the supervision of the juvenile;

(D) No charitable organization, municipality, county or political subdivision thereof, nor any employee or officer thereof, shall be liable to any juvenile or the juvenile’s family for death or injuries received, proximately caused by the juvenile, while the juvenile is on a community work project for such organization or governmental entity, if the organization or governmental entity exercised due care in the supervision of the juvenile;

(E) The authority and protection from liability provided by this section is supplemental and in addition to any other authority and protection provided by law;

(F) The court shall not order a child placed in the custody of the department or otherwise remove the child from the child's home, including the home of a parent, guardian, or other legal custodian for any length of time, for failure to complete community service work or satisfy conditions associated with community service work as ordered by the court; and

(8)(A) In lieu of committing a child to the custody of the department of children’s services and subject to the requirements of subdivision (a)(8)(B), the court may order any of the following if the child is found to be a delinquent child:

(i) Assign a long-term mentor to such child; or

(ii) Require that the delinquent child or any of the child's family members receive counseling services from any counseling service provided through or approved by the juvenile court;

(B) An order may be issued under subdivision (a)(8)(A) only if the funding necessary to implement such order is appropriated by the legislative body of the county in which the court is located or is provided by grants from public or private sources.

(b)(1) If the child is found to be delinquent, the court shall determine if any monetary damages actually resulted from the child's delinquent conduct. Upon a determination that monetary damages resulted from such conduct, the court shall order the child to make restitution for such damages unless the court further determines that the specific circumstances of the individual case render such restitution, or a specified portion thereof, inappropriate. The court shall identify whether a restorative justice program addressing loss resulting from a delinquent act is available and may be utilized appropriately in the place of financial restitution. Any financial obligations or restitution assessed against the child or the child's parents, legal custodians, or guardians shall be considered collectively with community service work to ensure that the order of disposition is reasonable and, where applicable, prioritizes restitution to the victim. In determining
whether an order of disposition is reasonable, the court may consider whether the child and the child’s parents, legal custodians, or guardians have the ability to complete the requirements of the order within six (6) months.

(2)(A) IF restitution is ordered pursuant to this subsection (b) in those cases where the court has made a finding that:

(i) A specified amount is owed;

(ii) Such amount is ordered to be paid pursuant to a specific payment schedule; and

(iii) The total amount of such ordered restitution is not paid by the time the juvenile court determines that discharge of a case is appropriate or no longer has jurisdiction over the child;

THEN, notwithstanding § 37-1-133(b) or any other law to the contrary, the recipient of such restitution may convert the unpaid balance of the restitution ordered by the court into a civil judgment in accordance with the procedure set out in this subsection (b). The payment of such civil judgment shall be at the same payment schedule as that as when the offender was a juvenile.

(B) Under such judgment, payments shall be continued to be made under the specific payment schedule ordered by the juvenile court until the judgment has been satisfied.

(3) The restitution recipient shall file a certified copy of the juvenile court’s restitution order with any court having jurisdiction over the total amount of restitution ordered.

(4) Upon receipt of such a restitution order, the court shall take proof as to the amount of ordered restitution actually paid. If the court finds that the amount of restitution actually paid is less than the total amount of restitution ordered by the juvenile court, it shall enter a judgment in favor of the restitution recipient and against the offender for the amount of the unpaid balance of such restitution.

(5) A judgment entered pursuant to this subsection (b) shall remain in effect for a period of ten (10) years from the date of entry and shall be enforceable by the restitution recipient in the same manner and to the same extent as other civil judgments; however, such civil judgment shall not be referred to any collection service as defined by § 62-20-102.

(c)(1) This subsection (c) shall apply to a juvenile who is adjudicated delinquent, but not committed to the custody of the department of children’s services, for an act that if committed by an adult would be one (1) or more of the following offenses:

(A) First degree murder, as prohibited by § 39-13-202;

(J) Especially aggravated robbery, as prohibited by § 39-13-403;

(K) Kidnapping, as prohibited by § 39-13-303;

(L) Aggravated kidnapping, as prohibited by § 39-13-304;

(M) Especially aggravated kidnapping, as prohibited by § 39-13-305;

(N) Aggravated assault, as prohibited by § 39-13-102;

(f) If the director of schools of any local school system, after written notice to the parent or guardian of a child, shall report any child who is habitually and unlawfully absent from school to the appropriate judge having juvenile jurisdiction in that county, each case to be dealt with in such manner as the judge may determine to be in the best interest of the child, consistent with §§ 37-1-132, 37-1-168 and 37-1-169 and
in the event the child is adjudicated to be unruly, the judge may assess a fine of up to fifty dollars ($50.00) or five (5) hours of community service, in the discretion of the judge, against the parents or legal guardians of children in kindergarten through grade twelve (K-12) if the child is absent more than five (5) days during any school year.

(g) Except as otherwise provided by § 49-6-3001 or § 49-6-3005, this section shall be applicable to children less than six (6) years of age and their parent, guardian or other person in a parental relation when the parent, guardian or other person in a parental relation has enrolled the child in any school that receives funding based on average daily membership; provided, that a child may be withdrawn within six (6) weeks of initial enrollment without penalty.

(h) For the purposes of this part, for recording and coding student absences from school because of disciplinary actions, the following definitions shall apply:

(1) "Expulsion" is defined as removal from attendance for more than ten (10) consecutive days or more than fifteen (15) days in a month of school attendance. Multiple suspensions that occur consecutively shall constitute expulsion. The school district shall not be eligible to receive funding for an expelled student;

(2) "Remand" is defined as assignment to an alternative school. The student so assigned shall be included in ADA/ADM and will continue to be counted as present for funding purposes. The department of education shall establish a set of codes to be used for reporting reasons for students on remand to an alternative school; and

(3) "Suspension" is defined as dismissed from attendance at school for any reason not exceeding ten (10) consecutive days. Multiple suspensions shall not run consecutively nor shall multiple suspensions be applied to avoid expulsion from school. The school district shall remain eligible to receive funding for a suspended student.

(i)(1)(A) An LEA may enter into an agreement with the local law enforcement agency serving the area of the LEA and the appropriate local government in that area to assist in the enforcement of compulsory attendance upon complying with the following conditions:

(i) Creation by the local school board of an advisory council to assist the board in formulating the agreement. The board shall include representatives of teachers, parents, administrators and other community representatives;

(ii) Receipt of input from neighborhood groups and other interested parties;

(iii) At least one (1) public hearing on the proposed plan prior to its adoption by the board;

(iv) Provisions for training teachers, principals, social workers and other personnel involved in the schools in truancy issues;

(v) Provisions for assuring the training of involved law enforcement personnel in the truancy law, including categories of students to which the law does not apply, such as private school students or home school students; and

(vi) Inclusion in the agreement of safeguards to protect students from discriminatory or selective enforcement and to protect the civil rights of students and parents.

(B) If such an agreement is entered into, then it shall be the duty of the principal or teacher of every public school to report promptly to the director of schools, or the director of schools' designated representative, the names of all children who have been absent two (2) days without adequate excuse and shall continue to report each subsequent absence without adequate excuse. This means an aggregate of two (2) days during the school year and not necessarily two (2) consecutive days.
(2) The director of schools shall thereupon serve, or cause to be served, upon the parent, guardian or other person in this state in parental relation to the children unlawfully absent from school, written notice that attendance of the children at school is required and of the provisions of this subsection (i).

(3) Under such an agreement, and for purposes of this section and § 37-1-102(b)(26)(A), a student who has been absent an aggregate three (3) days without adequate excuse may be deemed habitually truant.

(4) The director of schools or director of schools' representative may issue a list of such truant students to the local law enforcement agency for the purpose of allowing the law enforcement agency to take the student into temporary custody when the student is found away from the school premises during school hours, in a public place, in any public or private conveyance or in any public place of business open to the public, without adequate excuse, unless accompanied by a parent, foster parent or legal guardian. The agreement shall further specify that the law enforcement officer's sole function shall be to deliver the child to:

(A) The parent, foster parent, legal guardian or other person having control or custody of the child;
(B) The principal of the school in which the child is enrolled;
(C) A truancy center established by the LEA; or
(D) The juvenile court, if there has been a local interagency agreement entered into by the juvenile court and the local law enforcement agency.

(5) The powers conferred under such agreements may be exercised without warrant and without subsequent legal proceedings.

(6) This subsection (i) shall not apply to students enrolled in home or nonpublic schools in accordance with § 49-6-3050 or § 49-50-801.

(7) Upon issuance of a standing order by the juvenile court, LEA officials shall be allowed to release student record information to local law enforcement agencies and to juvenile justice system officials to assist the officials in effectively serving the student whose record is released. Officials and authorities receiving the information shall not disclose the information to any other party without prior written consent of the parent.

49-6-3009. Penalty for violations - Alternative to prosecution - Truancy.

(a) Any parent, guardian or other person who has control of a child, or children, and who violates this part commits educational neglect, which shall be a Class C misdemeanor.

(b) Each day's unlawful absence constitutes a separate offense.

(c) As an alternative to the filing of a truancy petition or for criminal prosecution for educational neglect, a director of schools or attendance supervisor shall devise and recommend, and the school board shall adopt, progressive truancy interventions for students who violate compulsory attendance requirements. These interventions must be designed to address student conduct related to truancy in the school setting and minimize the need for referrals to juvenile court.

(d) Progressive truancy interventions adopted by a school district pursuant to subsection (c) shall be applied prior to referral to juvenile court for the conduct described in § 49-6-3007 and shall meet the following requirements:

(1) The first tier of progressive truancy interventions is triggered by at least three (3) unexcused absences within a school year;

(2) The first tier of progressive truancy interventions must include, at a minimum:

(A) A conference with the student and the student's parent or guardian;
(B) A resulting attendance contract to be signed by the student, the student's parent or guardian, and an attendance officer, which shall include:

(i) A specific description of the school’s attendance expectations for the child;
(ii) The period for which the contract is effective, not to exceed ninety (90) school days, or the last day of the semester after the date the contract becomes effective, whichever comes first; and
(iii) Penalties for additional absences and alleged school offenses, including additional disciplinary action and potential referral to juvenile court; and

(C) Regularly scheduled follow-up meetings to discuss the student's progress;

(3) The progressive truancy interventions shall include, in addition to the first tier, at least two (2) additional tiers of interventions that are applied if the student accumulates additional unexcused absences in violation of the attendance contract;

(4) At least one (1) tier shall include an individualized assessment by a school employee of the reasons a student has been absent from school, and if necessary, referral of the child to counseling, community-based services, or other in-school or out-of-school services aimed at addressing the student's attendance problems;

(5) Additional interventions may consist of one (1) or more of the following:

(A) School-based community services;
(B) Participation in a school-based restorative justice program;
(C) Referral to a school-based teen court; or
(D) Saturday courses designed to improve attendance and behavior;

(6) In-school suspension or out-of-school suspension shall not be used as part of the progressive truancy interventions adopted by schools for unexcused absences from class or school; and

(7) A referral made under subdivisions (d)(1)-(5) may include participation by the child’s parent or guardian if necessary.

(e) Each referral to juvenile court for conduct described in § 49-6-3007(f) and § 49-6-3007(i)(4)(D) shall be accompanied by a statement from the student’s school certifying that:

(1) The school applied the progressive truancy interventions adopted under subsection (d) to the student; and

(2) The progressive truancy interventions failed to meaningfully address the student’s school attendance.

(f) A court shall dismiss a complaint or referral made by a school district under this section that is not made in compliance with subsection (e).

(g) Each intervention program shall report school attendance of program participants to the director of schools or the attendance supervisor in the year following the intervention.

(h) Notwithstanding any other law, each LEA having previously adopted an effective progressive truancy intervention program that substantially conforms to the provisions of this section may present such intervention program to the commissioner of education for approval in lieu of strict compliance with the provisions specified herein.

(i) Each head of school of a private or parochial school shall recommend, and the board of the school shall adopt, a policy addressing compulsory attendance and truancy that describes the interventions that such school shall employ for violations of the compulsory attendance laws. Such policy shall contain a provision that the director of schools or the attendance supervisor in the system where the child’s home of record is located shall be notified in the event that a student at such private or parochial school is expelled or withdraws from school.
(j) Parents, guardians or other persons having control of a child who is required to attend remedial instruction under § 49-6-3021 commit educational neglect as defined in subsection (a), if the child is truant from the instruction.

49-6-3024. Review of laws and policies related to exclusionary discipline of students in pre-kindergarten through kindergarten.

(a) The department of education, in consultation with juvenile court officials, shall review all current laws and policies related to exclusionary discipline practices in public schools for students in pre-kindergarten through kindergarten (pre-K-K). For purposes of this section, "exclusionary discipline" means any type of school disciplinary action that removes or excludes a student from the student's traditional educational setting.

(b) The review shall:

(1) Examine the number of exclusionary discipline actions issued by an LEA and the length of each respective disciplinary action;

(2) Detail the type of offenses committed by the students that led to the exclusionary discipline action;

(3) Review the impact exclusionary discipline has on students;

(4) Examine recommendations from lawmakers, juvenile court officials, judges, district attorneys, the Tennessee commission on children and youth, and representatives from LEAs on alternatives to exclusionary discipline;

(5) Identify free resources to support teachers and parents in addressing children's social, emotional, and behavioral health, strengthening family relationships, and increasing developmental and behavioral screening; and

(6) Research the possibility of:

(A) Eliminating exclusionary discipline for non-violent offenses; and

(B) Encouraging schools to adopt restorative justice discipline practices.

(c) The department shall develop guidelines and standards for alternatives to exclusionary discipline practices based on the findings of the review required under subsection (b).

(d) The department shall present its findings and a written report to the education committees of the senate, the education administration and planning committee of the house of representatives, and the education instruction and programs committee of the house of representatives no later than May 1, 2018.

(e) After submission of the report required in subsection (d), the department shall develop a model policy for alternatives to exclusionary discipline practices that districts may adopt for students in pre-kindergarten through kindergarten (pre-K-K). If a district does not adopt the model policy developed by the department, the district shall develop and implement a policy that meets the guidelines and standards developed under subsection (c). Each LEA shall adopt the model policy or develop their own policy prior to the 2018-2019 school year.

49-6-3401. Suspension of students - Expulsion of students - Exception for self-defense.

(c)(1) Except in an emergency, no principal, principal-teacher or assistant principal shall suspend any student until that student has been advised of the nature of the student's misconduct, questioned about it and allowed to give an explanation.

(2) Upon suspension of any student other than for in-school suspension of one (1) day or less, the principal shall, within twenty-four (24) hours, notify the parent or guardian and the director of schools or the director of schools' designee of:

(A) The suspension, which shall be for a period of no more than ten (10) days;
(B) The cause for the suspension; and

(C) The conditions for readmission, which may include, at the request of either party, a meeting of the
parent or guardian, student and principal.

(3) If the suspension is for more than five (5) days, the principal shall develop and implement a plan for
improving the behavior, which shall be made available for review by the director of schools upon
request.

(4)(A) If, at the time of the suspension, the principal, principal-teacher or assistant principal determines
that an offense has been committed that would justify a suspension for more than ten (10) days, the
person may suspend a student unconditionally for a specified period of time or upon such terms and
conditions as are deemed reasonable.

(B) The principal, principal-teacher or assistant principal shall immediately give written or actual notice
to the parent or guardian and the student of the right to appeal the decision to suspend for more than
ten (10) days. All appeals must be filed, orally or in writing, within five (5) days after receipt of the
notice and may be filed by the parent or guardian, the student or any person holding a teaching
license who is employed by the school system if requested by the student.

(C) The appeal from this decision shall be to the board of education or to a disciplinary hearing
authority appointed by the board. The disciplinary hearing authority, if appointed, shall consist of at
least one (1) licensed employee of the LEA, but no more than the number of members of the local
board.

(D) The hearing shall be held no later than ten (10) days after the beginning of the suspension. The
local board of education or the disciplinary hearing authority shall give written notice of the time and
place of the hearing to the parent or guardian, the student and the school official designated in
subdivision (c)(4)(A) who ordered the suspension. Notice shall also be given to the LEA employee
referred to in subdivision (c)(4)(B) who requests a hearing on behalf of a suspended student.

(5) After the hearing, the board of education or the disciplinary hearing authority may affirm the decision
of the principal, order removal of the suspension unconditionally or upon such terms and conditions as it
deems reasonable, assign the student to an alternative program or night school or suspend the student
for a specified period of time.

(6) If the decision is determined by a disciplinary hearing authority, a written record of the proceedings,
including a summary of the facts and the reasons supporting the decision, shall be made by the
disciplinary hearing authority. The student, principal, principal-teacher or assistant principal may, within
five (5) days of the decision, request review by the board of education; provided, that local school board
policy may require an appeal to the director of schools prior to a request for review to the board. Absent
a timely appeal, the decision shall be final. The board of education, based upon a review of the record,
may grant or deny a request for a board hearing and may affirm or overturn the decision of the hearing
authority with or without a hearing before the board; provided, that the board may not impose a more
severe penalty than that imposed by the hearing authority without first providing an opportunity for a
hearing before the board. If the board conducts a hearing as a result of a request for review by a
student, principal, principal-teacher or assistant principal, then, notwithstanding any provision of the
open meetings laws compiled in title 8, chapter 44, or other law to the contrary, the hearing shall be
closed to the public, unless the student or student's parent or guardian requests in writing within five (5)
days after receipt of written notice of the hearing that the hearing be conducted as an open meeting. If
the board conducts a hearing as a result of a request for review by a student, principal, principal-
teacher, or assistant principal that is closed to the public, then the board shall not conduct any
business, discuss any subject or take a vote on any matter other than the appeal to be heard. Nothing
in this subdivision (c)(6) shall act to exclude the department of children's services from the disciplinary
hearings when the department is exercising its obligations under § 37-1-140. The action of the board of education shall be final.

(h) The commissioner of education shall report on a semi-annual basis to the education committee of the senate and the education committee of the house of representatives regarding disciplinary actions in Tennessee schools. The reports shall include the reason for the disciplinary action, the number of such students suspended or expelled and the number of such students who have been placed in an alternative educational setting. Data shall be sorted by school as well as by various demographic factors, including grade, race and sex.

49-6-4216. School policies and procedures - Contents - Notice to students and parents.

(a) Each local and county board of education shall file annually with the commissioner of education written policies and procedures developed and adopted by the board:

(1) To ensure safe and secure learning environments free of drugs, drug paraphernalia, violence and dangerous weapons; and

(2) To impose swift, certain and severe disciplinary sanctions on any student:

(A) Who brings a drug, drug paraphernalia or a dangerous weapon onto a school bus, onto school property or to any school event or activity;

(B) Who, while on a school bus, on school property or while attending any school event or activity:

(i) Is under the influence of a drug;

(ii) Possesses a drug, drug paraphernalia or dangerous weapon; or

(iii) Assaults or threatens to assault a teacher, student or other person; or

(C) Who transmits by an electronic device any communication containing a credible threat to cause bodily injury or death to another student or school employee and the transmission of such threat creates actual disruptive activity at the school that requires administrative intervention.

(b)(1) It is the legislative intent that any rule or policy designated as a zero tolerance policy means that violations of that rule or policy will not be tolerated, and that violators will receive certain, swift and reasoned punishment. Reasoned punishment may include a spectrum of disciplinary measures designed to correct student misbehavior and promote student respect and compliance with codes of conduct and board policies. A zero tolerance violation shall not necessarily result in a presumptive one (1) calendar year expulsion except for those types of student misconduct set forth in § 49-6-3401(g). It is the legislative intent that the local school boards shall retain responsibility for development of disciplinary policies and student codes of conduct including assurances that students are afforded fair due process procedures. Nothing in this section shall be construed to prohibit assignment to an alternative school for those students under suspension or expulsion including students engaging in misconduct set forth in § 49-6-3401(g).

(2) Nothing in this section shall be construed to alter, diminish or supersede the director's authority to modify expulsion on a case-by-case basis under § 49-6-3401(g).

(c) At the beginning of fall classes each school year, each local and county board of education shall provide students and their parents with written notification of the policies and procedures. Additionally, each school shall conspicuously post a summary of the policies and procedures within each school.

(d)(1) The state board of education shall develop a standard form for collection of statistical information relative to zero tolerance violations in local school systems. In developing the form, the state board of education shall consult the local school boards, the Tennessee school board association, the office of research and education accountability and the department of education.
(2) The form shall include, but shall not be limited to, grade level, age, gender, race, offense, disposition of each zero tolerance violation and any modification in penalty.

(3) The form shall be completed annually by the director of schools of each school system or the director's designee, and copies of the form shall be filed with the department of education and the state board of education by July 1 of each school year.

(4) [Deleted by 2016 amendment.]

(e) The department of education shall track all students expelled from their home school and report on their progress.

49-6-4302. Tennessee school safety center.

(a) The department of education shall establish a Tennessee school safety center to develop and evaluate training materials and guidelines on school safety issues, including behavior, discipline and violence prevention.

(b) The Tennessee school safety center shall be responsible for the collection and analysis of data related to school safety, including alleged violent or assaulitive acts against school employees and students. Analysis of data shall include the number of arrests, the charges and whether civil damages were pursued by the injured party or school system. The center shall make periodic reports to the education committee of the senate and the education administration and planning committee of the house of representatives on the status of school safety efforts.

49-6-4503. Adoption of policy prohibiting harassment, intimidation, bullying or cyber-bullying by the school district.

(a) Each school district shall adopt a policy prohibiting harassment, intimidation, bullying or cyber-bullying. School districts are encouraged to develop the policy after consultation with parents and guardians, school employees, volunteers, students, administrators and community representatives.

(c)(2) Each LEA shall also:

(B) Beginning August 1, 2016, and annually thereafter, complete and submit a report to the department of education. The report shall be in a format provided by the department and shall include:

(i) The number of harassment, intimidation, bullying, or cyber-bullying cases brought to the attention of school officials during the preceding year;

(ii) The number of harassment, intimidation, bullying, or cyber-bullying cases where the investigation supported a finding that bullying had taken place;

(iii) The number of harassment, intimidation, bullying, or cyber-bullying case investigations not initiated within forty-eight (48) hours of the receipt of the report and the reason the investigation was not initiated within forty-eight (48) hours;

(iv) The number of harassment, intimidation, bullying, or cyber-bullying cases where an appropriate intervention was not initiated within twenty (20) calendar days of receipt of the report and the reason the intervention took longer than twenty (20) calendar days to initiate; and

(v) The type of harassment, intimidation, bullying, or cyber-bullying identified and manner in which the harassment, intimidation, bullying, or cyber-bullying cases were resolved, including any disciplinary action against the student who was harassing, intimidating, bullying, or cyber-bullying.

(3) The department shall annually submit a report to the education committee of the house of representatives and the education committee of the senate updating membership on the number of harassment, intimidation, bullying, or cyber-bullying cases reported statewide, the number of LEAs implementing this part, the status of any investigations, including disciplinary actions against students,
and any other information relating to the subjects of harassment, intimidation, bullying, or cyber-bullying as will be helpful to the committees in establishing policy in this area.

49-6-809. Policy authorizing off-duty law enforcement officers to serve as armed school security officers - Memorandum of understanding - List of qualified officers - Funding - Report.

(a) For purposes of this section, “law enforcement officer” means the sheriff, sheriff’s deputies, or any police officer employed by the state, a municipality, county, or political subdivision of the state certified by the peace officer standards and training (POST) commission; any commissioned member of the Tennessee highway patrol; and any Tennessee county constable authorized to carry a firearm and who has been certified by the POST commission.

(b)(1) To increase the protection and safety of students and school personnel, local boards of education may adopt a policy authorizing off-duty law enforcement officers to serve as armed school security officers during regular school hours when children are present on the school's premises, as well as during school-sponsored events.

(2) Nothing in this section shall require a local board of education to adopt a policy permitting an off-duty law enforcement officer to serve as an armed school security officer.

(c)(1) If a local board of education adopts a policy authorizing off-duty law enforcement officers to serve as armed school security officers, the LEA shall execute a written memorandum of understanding (MOU) with each law enforcement agency that employs the law enforcement officers selected by the chief law enforcement officer of the law enforcement agency to serve as armed school security officers.

(2) Any MOU entered into pursuant to subdivision (c)(1) shall contain the following:

(A) A provision that prescribes the types of firearms that may be carried by an armed school security officer on school premises and the manner in which the armed school security officer's firearm may be carried; provided, that the MOU shall not prohibit an off-duty law enforcement officer who is serving as an armed school security officer from carrying a loaded handgun on school premises;

(A) Whether an armed school security officer is required to be uniformed while on school premises; or

(4)(A) If a MOU entered into pursuant to this subsection (c) would permit law enforcement officers to serve as armed school security officers at a school that is located within the jurisdictional boundaries of another law enforcement agency that is not the law enforcement officers' employing agency, then the MOU shall not take effect until approved in writing by the chief law enforcement officer of the law enforcement agency with law enforcement jurisdiction for the school.

(2) The chief law enforcement officer of a law enforcement agency may prohibit a law enforcement officer employed by another law enforcement agency from serving as an armed school security officer at a school located within the chief law enforcement officer's jurisdiction for reasons the chief law enforcement officer deems sufficient, including, but not limited to, if the law enforcement officer has received a disciplinary action within the last five (5) years that resulted in, at a minimum, a written reprimand. The chief law enforcement officer shall notify any such officer the chief prohibits from serving as an armed school security officer by sending a written notice of the prohibition to the law enforcement officer and the law enforcement officer's employing agency. The law enforcement officer is entitled to compensation pursuant to this section for any service as an armed school security officer performed by the officer prior to receipt of the written notice by the earlier of the law enforcement officer or the law enforcement officer's employing agency.

(e) If an LEA adopts a policy authorizing the use of armed school security officers, then funding for the armed school security officers may come from a law enforcement agency or from the LEA, including, but not limited to, local, state, or federal funds received by the LEA, for which purpose such funds may be lawfully expended.

(f)(1) Nothing in this section shall be construed to require an LEA or a law enforcement agency of the county to assign or provide funding for an armed school security officer.

(2) Nothing in § 49-3-315 shall be construed to require an LEA or a law enforcement agency of the county to assign or provide funding for an armed school security officer as defined in this section to any school system within that county on the basis of the WFTEADA, as defined by § 49-3-302. The provision of armed school security officers by local law enforcement agencies shall be considered a law enforcement function and not a school operation or maintenance purpose that requires the apportionment of funds pursuant to § 49-3-315.
(g) The use of armed school security officers shall be supplemental to school resource officers and school safety measures adopted by an LEA and shall not supplant school resource officers or other school security measures. An LEA shall not replace a school resource officer or other school security measure with an armed school security officer. A law enforcement agency shall not terminate a MOU for the provision of school resource officers based solely upon an LEA's adoption of a policy authorizing the use of armed school security officers.

(h) Following the conclusion of the 2020-2021 school year, the chief law enforcement officer of each law enforcement agency with law enforcement jurisdiction for a school that has utilized armed school security officers pursuant to this section shall submit a report to the governor, the chair of the education committee of the house of representatives, the chair of the education committee of the senate, and the commissioner of education on or before September 1, 2021, that details any school security deficiencies and that provides recommendations for security improvements for each such school. If the report requirement of this subsection (h) affects more than one (1) law enforcement agency within any one (1) county, then the affected chief law enforcement officers shall submit a single, consolidated report covering the schools that have utilized armed school security officers pursuant to this section.

49-6-815. People permitted to possess and carry a firearm on school grounds.

(a) Notwithstanding § 39-17-1309 or any other provision of title 39, chapter 17, part 13 to the contrary, the following people are permitted to possess and carry a firearm on the grounds of the school at which they are assigned:

(1) A person employed by an LEA as a faculty or staff member at a school within the LEA; or

(2) A person assigned to a school in accordance with a memorandum of understanding between the chief of the appropriate law enforcement agency and the LEA.

(b) In order to possess and carry a firearm on the grounds of the school pursuant to subsection (a), the person must:

(1) Be authorized to possess and carry a firearm pursuant to § 39-17-1351;

(2) Have the joint written authorization of the director of schools in conjunction with the principal of the school to carry or possess a firearm on school property; and

(3) Be a law enforcement officer, or have prior service as a law enforcement officer, as defined in § 39-11-106, and be in compliance with all laws, rules and regulations of the peace officer standards and training (POST) commission, and have successfully completed forty (40) hours in basic training in school policing as required by § 49-6-4217. Any such training shall be approved by the LEA and the cost of the training, firearm and ammunition shall be at the expense of the person seeking authorization and not the LEA.

(c)(1) Within ten (10) days after the director of schools has authorized a person to carry or possess a firearm on school property pursuant to subdivision (a)(1) or (a)(2), the director shall notify the chief of the appropriate law enforcement agency of each such authorization.

(2) The notification pursuant to this subsection (c) shall contain basic information about each such person including name, address, contact information and whether the person is authorized under subdivision (a)(1) or (a)(2).

(d) The joint written authorization of the director of schools and the principal of the school given pursuant to subdivision (b)(2), the notification transmitted to the chief of the appropriate law enforcement agency pursuant to subdivision (c)(1), the names and contact information of any person authorized to carry or possess a firearm on school property pursuant to subdivision (c)(2), any listing or compilation of names or individual names of persons who are authorized to carry or possess a firearm on school property, whether the director of schools and the principal of the school have or have not issued joint written authorization to
carry or possess a firearm on school property, or any other document, file, record, information or material relating to the carrying or possessing of a firearm on school property pursuant to this section that is received by, transmitted to, maintained, stored or compiled by the director of schools, the principal of the school, any LEA, or city, county or municipal law enforcement agency, shall be confidential and not open for public inspection.

(e) Nothing in § 49-3-315 shall be construed to require an LEA or a law enforcement agency of the county to assign or provide funding for a school resource officer as defined in § 49-6-4202 to any city school system within that county on the basis of the WFTEADA as defined by § 49-3-302. The providing of security or school resource officers by a sheriff shall be considered a law enforcement function and not a school operation or maintenance purpose that requires the apportionment of funds pursuant to § 49-3-315.

49-6-3006. Attendance teachers.
(a) The sole responsibility and authority for the enforcement of the compulsory attendance laws, compiled in this part, are placed in the local board of education and its designated employees and officers.

(b) To facilitate the enforcement of this part, the director of schools shall designate at least one (1) qualified employee who shall be identified as the system attendance supervisor. The duties of an attendance supervisor shall include, but shall not be limited to, assisting the board, under the direction of the director of schools, with the enforcement of the compulsory attendance laws of the state and to discharge such other duties that are necessary to effectuate enforcement of laws and local policies related to absenteeism and truancy. The attendance supervisor may also be directed to devise and recommend to the director of schools, for board approval, a progressive truancy intervention plan consistent with the provisions of this part.

(c) Any local school system that, because of its size, the paucity of its school population or other good cause, does not need the services of a full-time attendance teacher, may, with the approval of the commissioner, employ either a part-time attendance teacher or join with a neighboring school system in the joint employment of an attendance teacher, as authorized by the commissioner of education; provided, that no such authorization shall be valid for a longer period than one (1) year, but it may be renewed as often as conditions justify.

(d) (1) Each local board of education shall fix the compensation of each attendance teacher employed, payable from the school funds of the school system, and shall prescribe the duties of the attendance teacher and make rules and regulations for the performance of the duties not inconsistent with law or the rules and regulations of the state board of education that will promote the purposes of this part.

(2) Two (2) or more school systems, served by one (1) attendance teacher, shall jointly fix the compensation of the attendance teacher, payable from the school funds of the school systems concerned. The local boards of education shall prescribe the duties of the attendance teacher, jointly employed, and make rules and regulations for the performance of the duties that are not in conflict with law or with the rules and regulations of the state board of education.

(e) Training, certification and employment qualifications of attendance teachers shall be in compliance with rules and regulations prescribed by the commissioner and approved by the state board.

(f) Attendance teachers appointed under this part or other persons authorized to serve under this section shall have all the powers and duties now vested, or that hereafter may be vested, in attendance teachers by the compulsory attendance laws of this state.

(g) In the discharge of the duties of their office, attendance teachers or other persons authorized to serve under this section shall work under the direction and supervision of the director of schools and shall comply with the rules and regulations of the local board of education and of the commissioner, as approved by the state board of education.
(h) Attendance teachers employed under this part shall have the same status with respect to tenure and teacher retirement as other public school personnel under the laws of this state.

(i) Local school systems participating in the state equalizing funds may, with the approval of the commissioner, include attendance teachers in the minimum program under the rules and regulations prescribed by the state board of education.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

(6) Address the notification of a student's parent or guardian of a violation of the student code of conduct committed by the student that results in suspension, removal to a disciplinary alternative education program, or expulsion;

(7) Prohibit bullying, harassment, and making hit lists and ensure that district employees enforce those prohibitions;

(8) Provide, as appropriate for students at each grade level, methods, including options, for:

(c) Once the student code of conduct is promulgated, any change or amendment must be approved by the board of trustees.

(d) Each school year, a school district shall provide parents notice of and information regarding the student code of conduct.

The campus behavior coordinator shall respond by employing appropriate discipline management techniques consistent with the student code of conduct adopted under Section 37.001 that can reasonably be expected to improve the student's behavior before returning the student to the classroom. If the student's behavior does not improve, the campus behavior coordinator shall employ alternative discipline management techniques, including any progressive interventions designated as the responsibility of the campus behavior coordinator in the student code of conduct.

LAWS

§ 37.001. Student code of conduct.
(a) The board of trustees of an independent school district shall, with the advice of its district-level committee established under Subchapter F, Chapter 11, adopt a student code of conduct for the district. The student code of conduct must be posted and prominently displayed at each school campus or made
available for review at the office of the campus principal. In addition to establishing standards for student conduct, the student code of conduct must

(1) Specify the circumstances, in accordance with this subchapter, under which a student may be removed from a classroom, campus, disciplinary alternative education program, or vehicle owned or operated by the district;

(2) Specify conditions that authorize or require a principal or other appropriate administrator to transfer a student to a disciplinary alternative education program;

(3) Outline conditions under which a student may be suspended as provided by Section 37.005 or expelled as provided by Section 37.007;

(4) Specify that consideration will be given, as a factor in each decision concerning suspension, removal to a disciplinary alternative education program, expulsion, or placement in a juvenile justice alternative education program, regardless of whether the decision concerns a mandatory or discretionary action, to:

(A) Self-defense;

(B) Intent or lack of intent at the time the student engaged in the conduct;

(C) A student’s disciplinary history; or

(D) A disability that substantially impairs the student’s capacity to appreciate the wrongfulness of the student’s conduct;

(E) a student’s status in the conservatorship of the Department of Family and Protective Services; or

(F) a student’s status as a student who is homeless;

(5) Provide guidelines for setting the length of a term of:

(A) A removal under Section 37.006; and

(B) An expulsion under Section 37.007;

§ 37.005. Suspension.

(a) The principal or other appropriate administrator may suspend a student who engages in conduct identified in the student code of conduct adopted under Section 37.001 as conduct for which a student may be suspended.

(b) A suspension under this section may not exceed three school days.

(c) A student who is enrolled in a grade level below grade three may not be placed in out-of-school suspension unless while on school property or while attending a school-sponsored or school-related activity on or off of school property, the student engages in:

(1) Conduct that contains the elements of an offense related to weapons under Section 46.02 or 46.05, Penal Code;

(2) Conduct that contains the elements of a violent offense under Section 22.01, 22.011, 22.02, or 22.021, Penal Code; or

(3) Selling, giving, or delivering to another person or possessing, using, or being under the influence of any amount of:

   (A) Marihuana or a controlled substance, as defined by Chapter 481, Health and Safety Code, or by 21 U.S.C. Section 801 et seq.;

   (B) A dangerous drug, as defined by Chapter 483, Health and Safety Code; or

   (C) An alcoholic beverage, as defined by Section 1.04, Alcoholic Beverage Code.

(d) A school district or open-enrollment charter school may not place a student who is homeless in out-of-school suspension unless the student engages in conduct described by Subsections (c)(1)-(3) while on
school property or while attending a school-sponsored or school-related activity on or off of school property. The campus behavior coordinator may coordinate with the school district’s homeless education liaison to identify appropriate alternatives to out-of-school suspension for a student who is homeless. In this subsection, “student who is homeless” has the meaning assigned to the term “homeless children and youths” under 42 U.S.C. Section 11434a.

(e) A school district shall provide to a student during the period of the student’s suspension under this section, regardless of whether the student is placed in in-school or out-of-school suspension, an alternative means of receiving all course work provided in the classes in the foundation curriculum under Section 28.002(a)(1) that the student misses as a result of the suspension. The district must provide at least one option for receiving the course work that does not require the use of the Internet.

§ 37.007. Expulsion for serious offenses.

(d) A student shall be expelled if the student engages in conduct that contains the elements of any offense listed in Subsection (a), and may be expelled if the student engages in conduct that contains the elements of any offense listed in Subsection (b)(2)(C), against any employee or volunteer in retaliation for or as a result of the person’s employment or association with a school district, without regard to whether the conduct occurs on or off of school property or while attending a school-sponsored or school-related activity on or off of school property.

(e) In accordance with 20 U.S.C. Section 7151, a local educational agency, including a school district, home-rule school district, or open-enrollment charter school, shall expel a student who brings a firearm, as defined by 18 U.S.C. Section 921, to school. The student must be expelled from the student's regular campus for a period of at least one year, except that:

1. The superintendent or other chief administrative officer of the school district or of the other local educational agency, as defined by 20 U.S.C. Section 7801, may modify the length of the expulsion in the case of an individual student;

2. The district or other local educational agency shall provide educational services to an expelled student in a disciplinary alternative education program as provided by Section 37.008 if the student is younger than 10 years of age on the date of expulsion; and

3. The district or other local educational agency may provide educational services to an expelled student who is 10 years of age or older in a disciplinary alternative education program as provided in Section 37.008.

(f) A student who engages in conduct that contains the elements of the offense of criminal mischief under Section 28.03, Penal Code, may be expelled at the district’s discretion if the conduct is punishable as a felony under that section. The student shall be referred to the authorized officer of the juvenile court regardless of whether the student is expelled.

(g) In addition to any notice required under Article 15.27, Code of Criminal Procedure, a school district shall inform each educator who has responsibility for, or is under the direction and supervision of an educator who has responsibility for, the instruction of a student who has engaged in any violation listed in this section of the student's misconduct. Each educator shall keep the information received under this subsection confidential from any person not entitled to the information under this subsection, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law. The State Board for Educator Certification may revoke or suspend the certification of an educator who intentionally violates this subsection.

(h) Subject to Subsection (e), notwithstanding any other provision of this section, a student who is younger than 10 years of age may not be expelled for engaging in conduct described by this section.

(i) A student who engages in conduct described by Subsection (a) may be expelled from school by the district in which the student attends school if the student engages in that conduct:
(1) On school property of another district in this state; or
(2) While attending a school-sponsored or school-related activity of a school in another district in this state.

(k) A student may not be expelled solely on the basis of the student's use, exhibition, or possession of a firearm that occurs:

(1) At an approved target range facility that is not located on a school campus; and
(2) While participating in or preparing for a school-sponsored shooting sports competition or a shooting sports educational activity that is sponsored or supported by the Parks and Wildlife Department or a shooting sports sanctioning organization working with the department.

(l) Subsection (k) does not authorize a student to bring a firearm on school property to participate in or prepare for a school-sponsored shooting sports competition or a shooting sports educational activity described by that subsection.

§ 37.021. Opportunity to complete courses during in-school and certain other placements.

(a) If a school district removes a student from the regular classroom and places the student in in-school suspension or another setting other than a disciplinary alternative education program, the district shall offer the student the opportunity to complete before the beginning of the next school year each course in which the student was enrolled at the time of the removal.

(b) The district may provide the opportunity to complete courses by any method available, including a correspondence course, distance learning, or summer school.

Administrative procedures related to suspension and expulsion

LAWS

§ 37.009. Conference; Hearing; Review.

(a) Not later than the third class day after the day on which a student is removed from class by the teacher under Section 37.002(b) or (d) or by the school principal or other appropriate administrator under Section 37.001(a)(2) or 37.006, the campus behavior coordinator or other appropriate administrator shall schedule a conference among the campus behavior coordinator or other appropriate administrator, a parent or guardian of the student, the teacher removing the student from class, if any, and the student. At the conference, the student is entitled to written or oral notice of the reasons for the removal, an explanation of the basis for the removal, and an opportunity to respond to the reasons for the removal. The student may not be returned to the regular classroom pending the conference. Following the conference, and whether or not each requested person is in attendance after valid attempts to require the person's attendance, the campus behavior coordinator, after consideration of the factors under Section 37.001(a)(4), shall order the placement of the student for a period consistent with the student code of conduct. Before ordering the suspension, expulsion, removal to a disciplinary alternative education program, or placement in a juvenile justice alternative education program of a student, the behavior coordinator must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the behavior coordinator concerns a mandatory or discretionary action. If school district policy allows a student to appeal to the board of trustees or the
board's designee a decision of the campus behavior coordinator or other appropriate administrator, other than an expulsion under Section 37.007, the decision of the board or the board's designee is final and may not be appealed. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that the student is a threat to the safety of other students or to district employees.

(b) If a student's placement in a disciplinary alternative education program is to extend beyond 60 days or the end of the next grading period, whichever is earlier, a student's parent or guardian is entitled to notice of and an opportunity to participate in a proceeding before the board of trustees of the school district or the board's designee, as provided by policy of the board of trustees of the district. Any decision of the board or the board's designee under this subsection is final and may not be appealed.

(c) Before it may place a student in a disciplinary alternative education program for a period that extends beyond the end of the school year, the board or the board's designee must determine that:

(1) The student's presence in the regular classroom program or at the student's regular campus presents a danger of physical harm to the student or to another individual; or

(2) The student has engaged in serious or persistent misbehavior that violates the district's student code of conduct.

(d) The board or the board's designee shall set a term for a student's placement in a disciplinary alternative education program. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that:

(1) The student is a threat to the safety of other students or to district employees; or

(2) Extended placement is in the best interest of the student.

(e) A student placed in a disciplinary alternative education program shall be provided a review of the student's status, including a review of the student's academic status, by the board's designee at intervals not to exceed 120 days. In the case of a high school student, the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The district is not required under this subsection to provide a course in the district's disciplinary alternative education program except as required by Section 37.008(l). At the review, the student or the student's parent or guardian must be given the opportunity to present arguments for the student's return to the regular classroom or campus. The student may not be returned to the classroom of the teacher who removed the student without that teacher's consent. The teacher may not be coerced to consent.

(f) Before a student may be expelled under Section 37.007, the board or the board's designee must provide the student a hearing at which the student is afforded appropriate due process as required by the federal constitution and which the student's parent or guardian is invited, in writing, to attend. At the hearing, the student is entitled to be represented by the student's parent or guardian or another adult who can provide guidance to the student and who is not an employee of the school district. If the school district makes a good-faith effort to inform the student and the student's parent or guardian of the time and place of the hearing, the district may hold the hearing regardless of whether the student, the student's parent or guardian, or another adult representing the student attends. Before ordering the expulsion of a student, the board of trustees must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the board concerns a mandatory or discretionary action. If the decision to expel a student is made by the board's designee, the decision may
be appealed to the board. The decision of the board may be appealed by trial de novo to a district court of the county in which the school district's central administrative office is located.

(g) The board or the board's designee shall deliver to the student and the student's parent or guardian a copy of the order placing the student in a disciplinary alternative education program under Section 37.001, 37.002, or 37.006 or expelling the student under Section 37.007.

(h) If the period of an expulsion is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of an expulsion may not exceed one year unless, after a review, the district determines that:

(1) The student is a threat to the safety of other students or to district employees; or
(2) Extended placement is in the best interest of the student. After a school district notifies the parents or guardians of a student that the student has been expelled, the parent or guardian shall provide adequate supervision of the student during the period of expulsion.

(i) If a student withdraws from the district before an order for placement in a disciplinary alternative education program or expulsion is entered under this section, the principal or board, as appropriate, may complete the proceedings and enter an order. If the student subsequently enrolls in the district during the same or subsequent school year, the district may enforce the order at that time except for any period of the placement or expulsion that has been served by the student on enrollment in another district that honored the order. If the principal or board fails to enter an order after the student withdraws, the next district in which the student enrolls may complete the proceedings and enter an order.

(j) If, during the term of a placement or expulsion ordered under this section, a student engages in additional conduct for which placement in a disciplinary alternative education program or expulsion is required or permitted, additional proceedings may be conducted under this section regarding that conduct and the principal or board, as appropriate, may enter an additional order as a result of those proceedings.

§ 37.010. Court involvement.

(a) Not later than the second business day after the date a hearing is held under Section 37.009, the board of trustees of a school district or the board's designee shall deliver a copy of the order placing a student in a disciplinary alternative education program under Section 37.006 or expelling a student under Section 37.007 and any information required under Section 52.04, Family Code, to the authorized officer of the juvenile court in the county in which the student resides. In a county that operates a program under Section 37.011, an expelled student shall to the extent provided by law or by the memorandum of understanding immediately attend the educational program from the date of expulsion, except that in a county with a population greater than 125,000, every expelled student who is not detained or receiving treatment under an order of the juvenile court must be enrolled in an educational program.

(b) If a student is expelled under Section 37.007(c), the board or its designee shall refer the student to the authorized officer of the juvenile court for appropriate proceedings under Title 3, Family Code.

(c) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding with the district's board of trustees concerning the juvenile probation department's role in supervising and providing other support services for students in disciplinary alternative education programs, a court may not order a student expelled under Section 37.007 to attend a regular classroom, a regular campus, or a school district disciplinary alternative education program as a condition of probation.

(d) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding as described by Subsection (c), if a court orders a student to attend a disciplinary alternative education program as a condition of probation once during a school year and the student is referred to juvenile court again during that school year, the juvenile court may not order the student to attend a disciplinary alternative education program in a district without the
district’s consent until the student has successfully completed any sentencing requirements the court imposes.

(e) Any placement in a disciplinary alternative education program by a court under this section must prohibit the student from attending or participating in school-sponsored or school-related activities.

(f) If a student is expelled under Section 37.007, on the recommendation of the committee established under Section 37.003 or on its own initiative, a district may readmit the student while the student is completing any court disposition requirements the court imposes. After the student has successfully completed any court disposition requirements the court imposes, including conditions of a deferred prosecution ordered by the court, or such conditions required by the prosecutor or probation department, if the student meets the requirements for admission into the public schools established by this title, a district may not refuse to admit the student, but the district may place the student in the disciplinary alternative education program. Notwithstanding Section 37.002(d), the student may not be returned to the classroom of the teacher under whose supervision the offense occurred without that teacher’s consent. The teacher may not be coerced to consent.

(g) If an expelled student enrolls in another school district, the board of trustees of the district that expelled the student shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the expulsion order and the referral to the authorized officer of the juvenile court. The district in which the student enrolls may continue the expulsion under the terms of the order, may place the student in a disciplinary alternative education program for the period specified by the expulsion order, or may allow the student to attend regular classes without completing the period of expulsion. A district may take any action permitted by this subsection if the student was expelled by a school district in another state if:

(1) The out-of-state district provides to the district a copy of the expulsion order; and

(2) The grounds for the expulsion are also grounds for expulsion in the district in which the student is enrolling.

(g-1) If a student was expelled by a school district in another state for a period that exceeds one year and a school district in this state continues the expulsion or places the student in a disciplinary alternative education program under Subsection (g), the district shall reduce the period of the expulsion or placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

(1) The student is a threat to the safety of other students or to district employees; or

(2) Extended placement is in the best interest of the student.

(h) A person is not liable in civil damages for a referral to juvenile court as required by this section.

§ 37.146. Requisites of complaint.

(a) A complaint alleging the commission of a school offense must, in addition to the requirements imposed by Article 45.019, Code of Criminal Procedure:

(1) Be sworn to by a person who has personal knowledge of the underlying facts giving rise to probable cause to believe that an offense has been committed; and

(2) Be accompanied by a statement from a school employee stating:

(A) Whether the child is eligible for or receives special services under Subchapter A, Chapter 29; and

(B) The graduated sanctions, if required under Section 37.144, that were imposed on the child before the complaint was filed.

(b) After a complaint has been filed under this subchapter, a summons may be issued under Articles 23.04 and 45.057(e), Code of Criminal Procedure.
(c) A complaint under this subchapter may include a recommendation by a school employee that the child attend a teen court program under Article 45.052, Code of Criminal Procedure, if the school employee believes attending a teen court program is in the best interest of the child.

LAWS

(c) If a teacher removes a student from class under Subsection (b), the principal may place the student into another appropriate classroom, into in-school suspension, or into a disciplinary alternative education program as provided by Section 37.008. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. The terms of the removal may prohibit the student from attending or participating in school-sponsored or school-related activity.

§ 37.021. Opportunity to complete courses during in-school and certain other placements.
(a) If a school district removes a student from the regular classroom and places the student in in-school suspension or another setting other than a disciplinary alternative education program, the district shall offer the student the opportunity to complete before the beginning of the next school year each course in which the student was enrolled at the time of the removal.

(a) In order to promote student safety, on receipt of a written request authorized under Subsection (a-1), a school district or open-enrollment charter school shall provide equipment, including a video camera, to the school or schools in the district or the charter school campus or campuses specified in the request. A school or campus that receives equipment as provided by this subsection shall place, operate, and maintain one or more video cameras in self-contained classrooms and other special education settings in which a majority of the students in regular attendance are provided special education and related services and are assigned to one or more self-contained classrooms or other special education settings for at least 50 percent of the instructional day, provided that:

(1) A school or campus that receives equipment as a result of the request by a parent or staff member is required to place equipment only in classrooms or settings in which the parent's child is in regular attendance or to which the staff member is assigned, as applicable; and

(2) A school or campus that receives equipment as a result of the request by a board of trustees, governing body, principal, or assistant principal is required to place equipment only in classrooms or settings identified by the requestor, if the requestor limits the request to specific classrooms or settings subject to this subsection.

(a-1) For purposes of Subsection (a):

(1) A parent of a child who receives special education services in one or more self-contained classrooms or other special education settings may request in writing that equipment be provided to the school or campus at which the child receives those services;

(4) A staff member assigned to work with one or more children receiving special education services in self-contained classrooms or other special education settings may request in writing that equipment be provided to the school or campus at which the staff member works.
(a-2) Each school district or open-enrollment charter school shall designate an administrator at the primary administrative office of the district or school with responsibility for coordinating the provision of equipment to schools and campuses in compliance with this section.

(a-3) A written request must be submitted and acted on as follows:

1. A parent, staff member, or assistant principal must submit a request to the principal or the principal's designee of the school or campus addressed in the request, and the principal or designee must provide a copy of the request to the administrator designated under Subsection (a-2);
2. A principal must submit a request by the principal to the administrator designated under Subsection (a-2); and
3. A board of trustees or governing body must submit a request to the administrator designated under Subsection (a-2), and the administrator must provide a copy of the request to the principal or the principal's designee of the school or campus addressed in the request.

(b) A school or campus that places a video camera in a classroom or other special education setting in accordance with Subsection (a) shall operate and maintain the video camera in the classroom or setting, as long as the classroom or setting continues to satisfy the requirements under Subsection (a), for the remainder of the school year in which the school or campus received the request, unless the requestor withdraws the request in writing. If for any reason a school or campus will discontinue operation of a video camera during a school year, not later than the fifth school day before the date the operation of the video camera will be discontinued, the school or campus must notify the parents of each student in regular attendance in the classroom or setting that operation of the video camera will not continue unless requested by a person eligible to make a request under Subsection (a-1). Not later than the 10th school day before the end of each school year, the school or campus must notify the parents of each student in regular attendance in the classroom or setting that operation of the video camera will not continue during the following school year unless a person eligible to make a request for the next school year under Subsection (a-1) submits a new request.

(c) Except as provided by Subsection (c-1), video cameras placed under this section must be capable of:

1. Covering all areas of the classroom or other special education setting, including a room attached to the classroom or setting used for time-out; and

(e) Except as provided by Subsection (e-1), a school district or open-enrollment charter school shall retain video recorded from a video camera placed under this section for at least three months after the date the video was recorded.

(e-1) If a person described by Subsection (i) requests to view a video recording from a video camera placed under this section, a school district or open-enrollment charter school must retain the recording from the date of receipt of the request until the person has viewed the recording and a determination has been made as to whether the recording documents an alleged incident. If the recording documents an alleged incident, the district or school shall retain the recording until the alleged incident has been resolved, including the exhaustion of all appeals.
(f) A school district or open-enrollment charter school may solicit and accept gifts, grants, and donations from any person for use in placing video cameras in classrooms or other special education settings under this section.

(g) This section does not:

1. Waive any immunity from liability of a school district or open-enrollment charter school, or of district or school officers or employees; or

2. Create any liability for a cause of action against a school district or open-enrollment charter school or against district or school officers or employees.

(h) A school district or open-enrollment charter school may not:

5. Appropriate agency or State Board for Educator Certification personnel or agents as part of an investigation.

(i-1) A contractor or employee performing job duties relating to the installation, operation, or maintenance of video equipment or the retention of video recordings who incidentally views a video recording is not in violation of Subsection (i).

(j) If a person described by Subsection (i)(4) or (5) who views the video recording believes that the recording documents a possible violation under Subchapter E, Chapter 261, Family Code, the person shall notify the Department of Family and Protective Services for investigation in accordance with Section 261.406, Family Code. If any person described by Subsection (i)(3), (4), or (5) who views the recording believes that the recording documents a possible violation of district or school policy, the person may allow access to the recording to appropriate legal and human resources personnel. A recording believed to document a possible violation of district or school policy relating to the neglect or abuse of a student may be used as part of a disciplinary action against district or school personnel and shall be released at the request of the student's parent in a legal proceeding. This subsection does not limit the access of a student's parent to a record regarding the student under the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Section 1232g) or other law.

(k) The commissioner may adopt rules to implement and administer this section, including rules regarding the special education settings to which this section applies.
(l) A school district or open-enrollment charter school policy relating to the placement, operation, or maintenance of video cameras under this section must:

3. Except as provided by Subdivision (5), require that a school or a campus begin operation of a video camera in compliance with this section not later than the 45th school business day, or the first school day after the 45th school business day if that day is not a school day, after the request is authorized unless the agency grants an extension of time;
4. Permit the parent of a student whose admission, review, and dismissal committee has determined that the student's placement for the following school year will be in a classroom or other special education setting in which a video camera may be placed under this section to make a request for the video camera by the later of:
   (A) The date on which the current school year ends; or
   (B) The 10th school business day after the date of the placement determination by the admission, review, and dismissal committee; and
5. If a request is made by a parent in compliance with Subdivision (4), unless the agency grants an extension of time, require that a school or campus begin operation of a video camera in compliance with this section not later than the later of:
   (A) The 10th school day of the fall semester; or

(n) If a school district, parent, staff member, or administrator requests an expedited review under Subsection (m), the agency shall notify all other interested parties of the request.

(o) If an expedited review has been requested under Subsection (m), the agency shall issue a preliminary judgment as to whether the district is likely to prevail on the issue under a full review by the agency. If the agency determines that the district is not likely to prevail, the district must fully comply with this section notwithstanding an appeal of the agency's decision. The agency shall notify the requestor and the district, if the district is not the requestor, of the agency's determination.

(p) The commissioner:

1. Shall adopt rules relating to the expedited review process under Subsections (m), (n), and (o), including standards for making a determination under Subsection (o); and
2. May adopt rules relating to an expedited review process under Subsections (m), (n), and (o) for an open-enrollment charter school.
(q) The agency shall collect data relating to requests made under this section and actions taken by a school district or open-enrollment charter school in response to a request, including the number of requests made, authorized, and denied.

(r) A video recording under this section is a governmental record only for purposes of Section 37.10, Penal Code.

(s) This section applies to the placement, operation, and maintenance of a video camera in a self-contained classroom or other special education setting during the regular school year and extended school year services.

§ 37.0021. Use of confinement, restraint, seclusion, and time-out.

(a) It is the policy of this state to treat with dignity and respect all students, including students with disabilities who receive special education services under Subchapter A, Chapter 29. A student with a disability who receives special education services under Subchapter A, Chapter 29, may not be confined in a locked box, locked closet, or other specially designed locked space as either a discipline management practice or a behavior management technique.

(A) Is designed solely to seclude a person; and

(B) Contains less than 50 square feet of space.

(3) “Time-out” means a behavior management technique in which, to provide a student with an opportunity to regain self-control, the student is separated from other students for a limited period in a setting:

(B) From which the exit is not physically blocked by furniture, a closed door held shut from the outside, or another inanimate object.

(4) “Law enforcement duties” means activities of a peace officer relating to the investigation and enforcement of state criminal laws and other duties authorized by the Code of Criminal Procedure.

(c) A school district employee or volunteer or an independent contractor of a district may not place a student in seclusion. (e) In the case of a conflict between a rule adopted under Subsection (d) and a rule adopted under Subchapter A, Chapter 29, the rule adopted under Subsection (d) controls.

(f) For purposes of this subsection, "weapon" includes any weapon described under Section 37.007(a)(1). This section does not prevent a student's locked, unattended confinement in an emergency situation while awaiting the arrival of law enforcement personnel if:
(1) The student possesses a weapon; and

(3) involves the directed release of a noxious, toxic, or otherwise unpleasant spray, mist, or substance near the student’s face;
(4) denies adequate sleep, air, food, water, shelter, bedding, physical comfort, or access to a restroom facility;
(5) ridicules or demeans the student in a manner that adversely affects or endangers the learning or mental health of the student or constitutes verbal abuse;
(6) employs a device, material, or object that simultaneously immobilizes all four extremities, including any procedure that results in such immobilization known as prone or supine floor restraint;
(7) impairs the student’s breathing, including any procedure that involves:
   (A) applying pressure to the student’s torso or neck; or

(12) constitutes a use of timeout that precludes the student from being able to be involved in and progress appropriately in the required curriculum and, if applicable, toward the annual goals included in the student’s individualized education program, including isolating the student by the use of physical barriers; or
(13) except as provided by Subsection (c), deprives the student of the use of one or more of the student’s senses.

(b) A school district or school district employee or volunteer or an independent contractor of a school district may not apply an aversive technique, or by authorization, order, or consent, cause an aversive technique to be applied, to a student.

(c) Notwithstanding Subsection (a)(13), an aversive technique described by Subsection (a)(13) may be used if the technique is executed in a manner that:
   (1) does not cause the student discomfort or pain; or
   (2) complies with the student’s individualized education program or behavior intervention plan.

(d) Nothing in this section may be construed to prohibit a teacher from removing a student from class under Section 37.002.

(e) In adopting procedures under this section, the commissioner shall provide guidance to school district employees, volunteers, and independent contractors of school districts in avoiding a violation of Subsection (b).

REGULATIONS

19 TAC 89.1053. Procedures for use of restraint and time-out.
(a) Requirement to implement. In addition to the requirements of 34 Code of Federal Regulations (CFR), §300.324(a)(2)(i), school districts and charter schools must implement the provisions of this section
regarding the use of restraint and time-out. In accordance with the provisions of Texas Education Code (TEC), §37.0021 (Use of Confinement, Restraint, Seclusion, and Time-Out), it is the policy of the state to treat with dignity and respect all students, including students with disabilities who receive special education services under TEC, Chapter 29, Subchapter A.

(b) Definitions.

(1) Emergency means a situation in which a student's behavior poses a threat of:
   (A) Imminent, serious physical harm to the student or others; or
   (B) Imminent, serious property destruction.

(2) Restraint means the use of physical force or a mechanical device to significantly restrict the free movement of all or a portion of the student's body.

(3) Time-out means a behavior management technique in which, to provide a student with an opportunity to regain self-control, the student is separated from other students for a limited period in a setting:
   (A) That is not locked; and
   (B) From which the exit is not physically blocked by furniture, a closed door held shut from the outside, or another inanimate object.

(c) Use of restraint. A school employee, volunteer, or independent contractor may use restraint only in an emergency as defined in subsection (b) of this section and with the following limitations.

   (1) Restraint must be limited to the use of such reasonable force as is necessary to address the emergency.

   (2) Restraint must be discontinued at the point at which the emergency no longer exists.

   (3) Restraint must be implemented in such a way as to protect the health and safety of the student and others.

   (4) Restraint must not deprive the student of basic human necessities.

(d) Training on use of restraint. Training for school employees, volunteers, or independent contractors must be provided according to the following requirements.

   (1) A core team of personnel on each campus must be trained in the use of restraint, and the team must include a campus administrator or designee and any general or special education personnel likely to use restraint.

   (2) Personnel called upon to use restraint in an emergency and who have not received prior training must receive training within 30 school days following the use of restraint.

   (3) Training on use of restraint must include prevention and de-escalation techniques and provide alternatives to the use of restraint.

   (4) All trained personnel must receive instruction in current professionally accepted practices and standards regarding behavior management and the use of restraint.

(e) Documentation and notification on use of restraint. In a case in which restraint is used, school employees, volunteers, or independent contractors must implement the following documentation requirements.

   (1) On the day restraint is utilized, the campus administrator or designee must be notified verbally or in writing regarding the use of restraint.

   (2) On the day restraint is utilized, a good faith effort must be made to verbally notify the parent(s) regarding the use of restraint.

   (3) Written notification of the use of restraint must be placed in the mail or otherwise provided to the parent within one school day of the use of restraint.
(4) Written documentation regarding the use of restraint must be placed in the student's special education eligibility folder in a timely manner so the information is available to the admission, review, and dismissal (ARD) committee when it considers the impact of the student's behavior on the student's learning and/or the creation or revision of a behavioral intervention plan (BIP).

(5) Written notification to the parent(s) and documentation to the student's special education eligibility folder must include the following:

   (A) Name of the student;
   (B) Name of the staff member(s) administering the restraint;
   (C) Date of the restraint and the time the restraint began and ended;
   (D) Location of the restraint;
   (E) Nature of the restraint;
   (F) A description of the activity in which the student was engaged immediately preceding the use of restraint;

   (H) The efforts made to de-escalate the situation and alternatives to restraint that were attempted; and
   (I) Information documenting parent contact and notification.

(f) Clarification regarding restraint. The provisions adopted under this section do not apply to the use of physical force or a mechanical device that does not significantly restrict the free movement of all or a portion of the student's body. Restraint that involves significant restriction as referenced in subsection (b)(2) of this section does not include:

   (1) Physical contact or appropriately prescribed adaptive equipment to promote normative body positioning and/or physical functioning;
   (2) Limited physical contact with a student to promote safety (e.g., holding a student's hand), prevent a potentially harmful action (e.g., running into the street), teach a skill, redirect attention, provide guidance to a location, or provide comfort;
   (3) Limited physical contact or appropriately prescribed adaptive equipment to prevent a student from engaging in ongoing, repetitive self-injurious behaviors, with the expectation that instruction will be reflected in the individualized education program (IEP) as required by 34 CFR, §300.324(a)(2)(i) to promote student learning and reduce and/or prevent the need for ongoing intervention; or
   (4) Seat belts and other safety equipment used to secure students during transportation.

(g) Use of time-out. A school employee, volunteer, or independent contractor may use time-out in accordance with subsection (b)(3) of this section with the following limitations.

   (1) Physical force or threat of physical force must not be used to place a student in time-out.
   (2) Time-out may only be used in conjunction with an array of positive behavior intervention strategies and techniques and must be included in the student's IEP and/or BIP if it is utilized on a recurrent basis to increase or decrease a targeted behavior.
   (3) Use of time-out must not be implemented in a fashion that precludes the ability of the student to be involved in and progress in the general curriculum and advance appropriately toward attaining the annual goals specified in the student's IEP.

(h) Training on use of time-out. Training for school employees, volunteers, or independent contractors must be provided according to the following requirements.

   (1) General or special education personnel who implement time-out based on requirements established in a student's IEP and/or BIP must be trained in the use of time-out.
(2) Newly-identified personnel called upon to implement time-out based on requirements established in a student's IEP and/or BIP must receive training in the use of time-out within 30 school days of being assigned the responsibility for implementing time-out.

(3) Training on the use of time-out must be provided as part of a program which addresses a full continuum of positive behavioral intervention strategies, and must address the impact of time-out on the ability of the student to be involved in and progress in the general curriculum and advance appropriately toward attaining the annual goals specified in the student's IEP.

(4) All trained personnel must receive instruction in current professionally accepted practices and standards regarding behavior management and the use of time-out.

(i) Documentation on use of time-out. Necessary documentation or data collection regarding the use of time-out, if any, must be addressed in the IEP or BIP. The ARD committee must use any collected data to judge the effectiveness of the intervention and provide a basis for making determinations regarding its continued use.

(j) Student safety. Any behavior management technique and/or discipline management practice must be implemented in such a way as to protect the health and safety of the student and others. No discipline management practice may be calculated to inflict injury, cause harm, demean, or deprive the student of basic human necessities.

(k) Data reporting. With the exception of actions covered by subsection (f) of this section, data regarding the use of restraint must be electronically reported to the Texas Education Agency (TEA) in accordance with reporting standards specified by the TEA.

(l) Peace officers. The provisions adopted under this section apply to a peace officer only if the peace officer is employed or commissioned by the school district or provides, as a school resource officer, a regular police presence on a school district campus under a memorandum of understanding between the school district and a local law enforcement agency, except that the data reporting requirements in subsection (k) of this section apply to the use of restraint by any peace officer performing law enforcement duties on school property or during a school-sponsored or school-related activity.

(m) The provisions adopted under this section do not apply to:

(1) Juvenile probation, detention, or corrections personnel; or

(2) An educational services provider with whom a student is placed by a judicial authority, unless the services are provided in an educational program of a school district.

LAWS

§ 25.0342. Transfer of students who Are victims of or have engaged in bullying.

(a) In this section, "bullying" has the meaning assigned by Section 37.0832.

(b) On the request of a parent or other person with authority to act on behalf of a student who is a victim of bullying, the board of trustees of a school district or the board's designee shall transfer the victim to:

(1) Another classroom at the campus to which the victim was assigned at the time the bullying occurred; or

(2) A campus in the school district other than the campus to which the victim was assigned at the time the bullying occurred.

(b-1) The board of trustees of a school district may transfer the student who engaged in bullying to:
(1) Another classroom at the campus to which the victim was assigned at the time the bullying occurred; or

(2) A campus in the district other than the campus to which the victim was assigned at the time the bullying occurred, in consultation with a parent or other person with authority to act on behalf of the student who engaged in bullying.

(b-2) Section 37.004 applies to a transfer under Subsection (b-1) of a student with a disability who receives special education services.

(c) The board of trustees or the board's designee shall verify that a student has been a victim of bullying before transferring the student under this section.

(d) The board of trustees or the board's designee may consider past student behavior when identifying a bully.

(e) The determination by the board of trustees or the board's designee is final and may not be appealed.

(f) A school district is not required to provide transportation to a student who transfers to another campus under Subsection (b)(2).

(g) Section 25.034 does not apply to a transfer under this section.

(a) A teacher may send a student to the campus behavior coordinator's office to maintain effective discipline in the classroom. The campus behavior coordinator shall respond by employing appropriate discipline management techniques consistent with the student code of conduct adopted under Section 37.001 that can reasonably be expected to improve the student's behavior before returning the student to the classroom. If the student's behavior does not improve, the campus behavior coordinator shall employ alternative discipline management techniques, including any progressive interventions designated as the responsibility of the campus behavior coordinator in the student code of conduct.

(b) A teacher may remove from class a student:

(1) Who has been documented by the teacher to repeatedly interfere with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn; or

(2) Whose behavior the teacher determines is so unruly, disruptive, or abusive that it seriously interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn.

(b-1) A teacher may document any conduct by a student that does not conform to the student code of conduct adopted under Section 37.001 and may submit that documentation to the principal. A school district may not discipline a teacher on the basis of documentation submitted under this subsection.

(c) If a teacher removes a student from class under Subsection (b), the principal may place the student into another appropriate classroom, into in-school suspension, or into a disciplinary alternative education program as provided by Section 37.008. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. The terms of the removal may prohibit the student from attending or participating in school-sponsored or school-related activity.

(d) A teacher shall remove from class and send to the principal for placement in a disciplinary alternative education program or for expulsion, as appropriate, a student who engages in conduct described under Section 37.006 or 37.007. The student may not be returned to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. If the teacher removed the student from class because the student has engaged in the elements of any offense listed in Section 37.006(a)(2)(B) or Section 37.007(a)(2)(A) or
(b)(2)(C) against the teacher, the student may not be returned to the teacher's class without the teacher's consent. The teacher may not be coerced to consent.

Section 1415(k)(4) and its subsequent amendments. Any disciplinary action regarding the student shall be determined in accordance with federal law and regulations, including laws or regulations requiring the provision of:

The board shall make a record of the proceedings. If the board confirms the decision of the superintendent or superintendent's designee, the board shall inform the student and the student's parent or guardian of the right to appeal to the commissioner under Subsection (j).

Each educator shall keep the information received under this subsection confidential from any person not entitled to the information under this subsection, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law. The State Board for Educator Certification may revoke or suspend the certification of an educator who intentionally violates this subsection.

§ 37.0061. Funding for alternative education services in juvenile residential facilities.

A school district that provides education services to pre-adjudicated and post-adjudicated students who are confined by court order in a juvenile residential facility operated by a juvenile board is entitled to count such students in the district's average daily attendance for purposes of receipt of state funds under the Foundation School Program. If the district has a wealth per student greater than the guaranteed wealth level but less than the equalized wealth level, the district in which the student is enrolled on the date a court orders the student to be confined to a juvenile residential facility shall transfer to the district providing education services an amount equal to the difference between the average Foundation School Program costs per student of the district providing education services and the sum of the state aid and the money from the available school fund received by the district that is attributable to the student for the portion of the school year for which the district provides education services to the student.

§ 37.0062. Instructional requirements for alternative education services in juvenile residential facilities.

(a) The commissioner shall determine the instructional requirements for education services provided by a school district or open-enrollment charter school in a pre-adjudication secure detention facility or a post-adjudication secure correctional facility operated by a juvenile board or a post-adjudication secure correctional facility operated under contract with the Texas Juvenile Justice Department, including requirements relating to:

(c) The commissioner shall adopt rules necessary to administer this section. The rules must ensure that:

   (1) A student who receives education services in a pre-adjudication secure detention facility described by this section is offered courses that enable the student to maintain progress toward completing high school graduation requirements; and
(2) A student who receives education services in a post-adjudication secure correctional facility described by this section is offered, at a minimum, the courses necessary to enable the student to complete high school graduation requirements.

(d) The Texas Juvenile Justice Department shall coordinate with the commissioner in establishing standards for:

(1) Ensuring security in the provision of education services in the facilities; and

(2) Providing children in the custody of the facilities access to education services.

(e) In accordance with 20 U.S.C. Section 7151, a local educational agency, including a school district, home-rule school district, or open-enrollment charter school, shall expel a student who brings a firearm, as defined by 18 U.S.C. Section 921, to school. The student must be expelled from the student's regular campus for a period of at least one year, except that:

(d) A school district may provide a disciplinary alternative education program jointly with one or more other districts.

(e) Each school district shall cooperate with government agencies and community organizations that provide services in the district to students placed in a disciplinary alternative education program.

(f) A student removed to a disciplinary alternative education program is counted in computing the average daily attendance of students in the district for the student's time in actual attendance in the program.

(g) A school district shall allocate to a disciplinary alternative education program the same expenditure per student attending the disciplinary alternative education program, including federal, state, and local funds, that would be allocated to the student's school if the student were attending the student's regularly assigned education program, including a special education program.

(h) A school district may not place a student, other than a student suspended as provided under Section 37.005 or expelled as provided under Section 37.007, in an unsupervised setting as a result of conduct for which a student may be placed in a disciplinary alternative education program.

(i) On request of a school district, a regional education service center may provide to the district information on developing a disciplinary alternative education program that takes into consideration the district's size, wealth, and existing facilities in determining the program best suited to the district.

(j) If a student placed in a disciplinary alternative education program enrolls in another school district before the expiration of the period of placement, the board of trustees of the district requiring the placement shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the placement order. The district in which the student enrolls shall inform each educator who will have responsibility for, or will be under the direction and supervision of an educator who will have responsibility for, the instruction of the student of the contents of the placement order. Each educator shall keep the information received under this subsection confidential from any person not entitled to the information under this subsection, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law. The district in which the student enrolls may continue the disciplinary alternative education program placement under the terms of the order or may allow the student to attend regular classes without completing the period of placement. A district may take any action permitted by this subsection if:

   A. The out-of-state district provides to the district a copy of the placement order; and
   B. The grounds for the placement by the out-of-state district are grounds for placement in the district in which the student is enrolling.

(j-1) If a student was placed in a disciplinary alternative education program by a school district in another state for a period that exceeds one year and a school district in this state in which the student enrolls continues the placement under Subsection (j), the district shall reduce the period of the placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

1. The student is a threat to the safety of other students or to district employees; or

2. Extended placement is in the best interest of the student.
(k) A program of educational and support services may be provided to a student and the student’s parents when the offense involves drugs or alcohol as specified under Section 37.006 or 37.007. A disciplinary alternative education program that provides chemical dependency treatment services must be licensed under Chapter 464, Health and Safety Code.

(l) A school district is required to provide in the district’s disciplinary alternative education program a course necessary to fulfill a student’s high school graduation requirements only as provided by this subsection. A school district shall offer a student removed to a disciplinary alternative education program an opportunity to complete coursework before the beginning of the next school year. The school district may provide the student an opportunity to complete coursework through any method available, including a correspondence course, distance learning, or summer school. The district may not charge the student for a course provided under this subsection.

Academically, the mission of disciplinary alternative education programs shall be to enable students to perform at grade level.

(m-1) The commissioner shall develop a process for evaluating a school district disciplinary alternative education program electronically. The commissioner shall also develop a system and standards for review of the evaluation or use systems already available at the agency. The system must be designed to identify districts that are at high risk of having inaccurate disciplinary alternative education program data or of failing to comply with disciplinary alternative education program requirements. The commissioner shall notify the board of trustees of a district of any objection the commissioner has to the district’s disciplinary alternative education program data or of a violation of a law or rule revealed by the data, including any violation of disciplinary alternative education program requirements, or of any recommendation by the commissioner concerning the data. If the data reflect that a penal law has been violated, the commissioner shall notify the county attorney, district attorney, or criminal district attorney, as appropriate, and the attorney general. The commissioner is entitled to access to all district records the commissioner considers necessary or appropriate for the review, analysis, or approval of disciplinary alternative education program data.

1. The actual cost incurred each day for the student is determined by the juvenile board of the county operating the program; and
2. The juvenile board shall determine the actual cost each day of the program based on the board's annual audit.

(h) To the extent of a conflict between this section and Section 37.007, Section 37.007 prevails.

§ 37.0082. Assessment of academic growth of students in disciplinary alternative education programs.

(a) To assess a student's academic growth during placement in a disciplinary alternative education program, a school district shall administer to a student placed in a program for a period of 90 school days or longer an assessment instrument approved by the commissioner for that purpose. (b-1) Subsection (b)(4) does not require that educational services be provided to a student who is not entitled to admission into the public schools of a school district under Section 25.001(b).

(c) A juvenile justice alternative education program shall adopt a student code of conduct in accordance with Section 37.001.

(d) A juvenile justice alternative education program must focus on English language arts, mathematics, science, social studies, and self-discipline. Each school district shall consider course credit earned by a student while in a juvenile justice alternative education program as credit earned in a district school. Each program shall administer assessment instruments under Subchapter B, Chapter 39, and shall offer a high school equivalency program. The juvenile board or the board's designee, with the parent or guardian of each student, shall regularly review the student's academic progress. In the case of a high school student, the board or the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The program is not required to provide a course necessary to fulfill a student's high school graduation requirements other than a course specified by this subsection.

(e) A juvenile justice alternative education program may be provided in a facility owned by a school district. A school district may provide personnel and services for a juvenile justice alternative education program under a contract with the juvenile board.

(f) A juvenile justice alternative education program must operate at least seven hours per day and 180 days per year, except that a program may apply to the Texas Juvenile Justice Department for a waiver of the 180-day requirement. The department may not grant a waiver to a program under this subsection for a number of days that exceeds the highest number of instructional days waived by the commissioner during the same school year for a school district served by the program.

(g) A juvenile justice alternative education program shall be subject to a written operating policy developed by the local juvenile justice board and submitted to the Texas Juvenile Justice Department for review and comment. A juvenile justice alternative education program is not subject to a requirement imposed by this title, other than a reporting requirement or a requirement imposed by this chapter or by Chapter 39 or 39A.

(h) Academically, the mission of juvenile justice alternative education programs shall be to enable students to perform at grade level. For purposes of accountability under Chapters 39 and 39A, a student enrolled in a juvenile justice alternative education program is reported as if the student were enrolled at the student's assigned campus in the student's regularly assigned education program, including a special education program. Annually the Texas Juvenile Justice Department, with the agreement of the commissioner, shall develop and implement a system of accountability consistent with Chapters 39 and 39A, where appropriate, to assure that students make progress toward grade level while attending a juvenile justice alternative education program. The department shall adopt rules for the distribution of funds appropriated under this section to juvenile boards in counties required to establish juvenile justice alternative education programs. Except as determined by the commissioner, a student served by a juvenile justice alternative education program on the basis of an expulsion required under Section 37.007(a), (d), or (e) is not eligible for Foundation School Program funding under Chapter 31 or 48 if the juvenile justice alternative education program receives funding from the department under this subchapter.

(i) A student transferred to a juvenile justice alternative education program must participate in the program for the full period ordered by the juvenile court unless the student's school district agrees to
accept the student before the date ordered by the juvenile court. The juvenile court may not order a period of transfer under this section that exceeds the term of any probation ordered by the juvenile court.

(j) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's professional employees and volunteers are immune from liability to the same extent as a school district's professional employees and volunteers.

(k) Each school district in a county with a population greater than 125,000 and the county juvenile board shall annually enter into a joint memorandum of understanding that:

(1) Outlines the responsibilities of the juvenile board concerning the establishment and operation of a juvenile justice alternative education program under this section;

(2) Defines the amount and conditions on payments from the school district to the juvenile board for students of the school district served in the juvenile justice alternative education program whose placement was not made on the basis of an expulsion required under Section 37.007(a), (d), or (e);

(3) Establishes that a student may be placed in the juvenile justice alternative education program if the student engages in serious misbehavior, as defined by Section 37.007(c);

(4) Identifies and requires a timely placement and specifies a term of placement for expelled students for whom the school district has received a notice under Section 52.041(d), Family Code;

(5) Establishes services for the transitioning of expelled students to the school district prior to the completion of the student's placement in the juvenile justice alternative education program;

(6) Establishes a plan that provides transportation services for students placed in the juvenile justice alternative education program;

(7) Establishes the circumstances and conditions under which a juvenile may be allowed to remain in the juvenile justice alternative education program setting once the juvenile is no longer under juvenile court jurisdiction; and

(8) Establishes a plan to address special education services required by law.

(l) The school district shall be responsible for providing an immediate educational program to students who engage in behavior resulting in expulsion under Section 37.007(b) and (f) but who are not eligible for admission into the juvenile justice alternative education program in accordance with the memorandum of understanding required under this section. The school district may provide the program or the school district may contract with a county juvenile board, a private provider, or one or more other school districts to provide the program. The memorandum of understanding shall address the circumstances under which such students who continue to engage in serious misbehavior, as defined by Section 37.007(c), shall be admitted into the juvenile justice alternative education program.

(m) Each school district in a county with a population greater than 125,000 and the county juvenile board shall adopt a joint memorandum of understanding as required by this section not later than September 1 of each school year.

(n) If a student who is ordered to attend a juvenile justice alternative education program moves from one county to another, the juvenile court may request the juvenile justice alternative education program in the county to which the student moves to provide educational services to the student in accordance with the local memorandum of understanding between the school district and juvenile board in the receiving county.

(o) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's employees and volunteers are immune from liability to the same extent as a school district's employees and volunteers.
(p) If a district elects to contract with the juvenile board for placement in the juvenile justice alternative education program of students expelled under Section 37.007(b), (c), and (f) and the juvenile board and district are unable to reach an agreement in the memorandum of understanding, either party may request that the issues of dispute be referred to a binding arbitration process that uses a qualified alternative dispute resolution arbitrator in which each party will pay its pro rata share of the arbitration costs. Each party must submit its final proposal to the arbitrator. If the parties cannot agree on an arbitrator, the juvenile board shall select an arbitrator, the school districts shall select an arbitrator, and those two arbitrators shall select an arbitrator who will decide the issues in dispute. An arbitration decision issued under this subsection is enforceable in a court in the county in which the juvenile justice alternative education program is located. Any decision by an arbitrator concerning the amount of the funding for a student who is expelled and attending a juvenile justice alternative education program must provide an amount sufficient based on operation of the juvenile justice alternative education program in accordance with this chapter. In determining the amount to be paid by a school district for an expelled student enrolled in a juvenile justice alternative education program, the arbitrator shall consider the relevant factors, including evidence of:

(1) The actual average total per student expenditure in the district’s alternative education setting;

(2) The expected per student cost in the juvenile justice alternative education program as described and agreed on in the memorandum of understanding and in compliance with this chapter; and

(3) The costs necessary to achieve the accountability goals under this chapter.

(q) In accordance with rules adopted by the board of trustees for the Teacher Retirement System of Texas, a certified educator employed by a juvenile board in a juvenile justice alternative education program shall be eligible for membership and participation in the system to the same extent that an employee of a public school district is eligible. The juvenile board shall make any contribution that otherwise would be the responsibility of the school district if the person were employed by the school district, and the state shall make any contribution to the same extent as if the person were employed by a school district.

§ 37.012. Funding of juvenile justice alternative education programs.

(a) Subject to Section 37.011(n), the school district in which a student is enrolled on the date the student is expelled for conduct for which expulsion is permitted but not required under Section 37.007 shall, if the student is served by the juvenile justice alternative education program, provide funding to the juvenile board for the portion of the school year for which the juvenile justice alternative education program provides educational services in an amount determined by the memorandum of understanding under Section 37.011(k)(2).

(b) Funds received under this section must be expended on juvenile justice alternative education programs.

(c) The Office of State-Federal Relations shall assist a local juvenile probation department in identifying additional state or federal funds to assist local juvenile probation departments conducting educational or job training programs within juvenile justice alternative education programs.

(d) A school district is not required to provide funding to a juvenile board for a student who is assigned by a court to a juvenile justice alternative education program but who has not been expelled.

(e) Except as otherwise authorized by law, a juvenile justice alternative education program may not require a student or the parent or guardian of a student to pay any fee, including an entrance fee or supply fee, for participating in the program.
§ 37.019. Emergency placement or expulsion.

(a) This subchapter does not prevent the principal or the principal's designee from ordering the immediate placement of a student in a disciplinary alternative education program if the principal or the principal's designee reasonably believes the student's behavior is so unruly, disruptive, or abusive that it seriously interferes with a teacher's ability to communicate effectively with the students in a class, with the ability of the student's classmates to learn, or with the operation of school or a school-sponsored activity.

(b) This subchapter does not prevent the principal or the principal's designee from ordering the immediate expulsion of a student if the principal or the principal's designee reasonably believes that action is necessary to protect persons or property from imminent harm.

(c) At the time of an emergency placement or expulsion, the student shall be given oral notice of the reason for the action. The reason must be a reason for which placement in a disciplinary alternative education program or expulsion may be made on a nonemergency basis. Within a reasonable time after the emergency placement or expulsion, but not later than the 10th day after the date of the placement or expulsion, the student shall be accorded the appropriate due process as required under Section 37.009. If the student subject to the emergency placement or expulsion is a student with disabilities who receives special education services, the emergency placement or expulsion is subject to federal law and regulations and must be consistent with the consequences that would apply under this subchapter to a student without a disability.

(d) A principal or principal's designee is not liable in civil damages for an emergency placement under this section.

REGULATIONS

19 TAC 89.1052. Discretionary placements in Juvenile Justice Alternative Education Programs (JJAEP).

(a) This section applies only to the expulsion of a student with a disability under:

(1) Texas Education Code (TEC), §37.007(b), (c), or (f); or

(2) TEC, §37.007(d), as a result of conduct that contains the elements of any offense listed in TEC, §37.007(b)(2)(C), against any employee or volunteer in retaliation for or as a result of the person's employment or association with a school district.

(b) In a county with a Juvenile Justice Alternative Education Program (JJAEP), a local school district must invite the administrator of the JJAEP or the administrator's designee to an admission, review, and dismissal (ARD) committee meeting convened to discuss the expulsion of a student with a disability under one of the provisions listed in subsection (a) of this section, relating to offenses for which a school district may expel a student. The school district must provide written notice of the meeting at least five school days before the meeting or a shorter timeframe agreed to by the student's parents. A copy of the student's current individualized education program (IEP) must be provided to the JJAEP representative with the notice. If the JJAEP representative is unable to attend the ARD committee meeting, the representative must be given the opportunity to participate in the meeting through alternative means, including conference telephone calls. The JJAEP representative may participate in the meeting to the extent that the meeting relates to the student's placement in the JJAEP and implementation of the student's current IEP in the JJAEP.

(c) For a student with a disability who was expelled under one of the provisions listed in subsection (a) of this section and placed in the JJAEP, an ARD committee meeting must be convened to reconsider placement of the student in the JJAEP if the JJAEP provides written notice to the school district of specific concerns that the student's educational or behavioral needs cannot be met in the JJAEP. The school district must invite the JJAEP administrator or the administrator's designee to the meeting and must
provide written notice of the meeting at least five school days before the meeting or a shorter timeframe agreed to by the student's parents. If the JJAEP representative is unable to attend the ARD committee meeting, the representative must be given the opportunity to participate in the meeting through alternative means, including conference telephone calls. The JJAEP representative may participate in the meeting to the extent that the meeting relates to the student's continued placement in the JJAEP.

19 TAC 103.1201 Standards for the operation of school district disciplinary alternative education programs.

(a) A disciplinary alternative education program (DAEP) established in conformance with the Tex. Educ. Code (TEC), § 37.008, and this section is defined as an educational and self-discipline alternative instructional program, adopted by local policy, for students in elementary through high school grades who are removed from their regular classes for mandatory or discretionary disciplinary reasons and placed in a DAEP.

(b) Each school district participating in a shared services arrangement (SSA) for DAEP services shall be responsible for ensuring that the board-approved district improvement plan and the improvement plans for each campus required by the TEC, § 11.251 and § 11.252, include the performance of the DAEP student group for the respective district. The identified objectives for the improvement plans shall include:

(1) Student groups served, including overrepresentation of students from economically disadvantaged families, with ethnic and racial representations, and with a disability who receive special education and limited English proficiency services;

(2) Attendance rates;

(3) Pre- and post-assessment results;

(4) Dropout rates;

(5) Graduation rates; and

(6) Recidivism rates.

(c) A DAEP may be located on-campus or off-campus in adherence with requirements specified in § 129.1025 of this title (relating to Adoption By Reference: Student Attendance Accounting Handbook). For reporting purposes, the DAEP shall use the county-district-campus number of the student's locally assigned campus (the campus the student would be attending if the student was not attending the DAEP).

(d) An individual school district or an SSA may contract with third parties for DAEP services. The district must require and ensure compliance with district responsibilities that are transferred to the third-party provider.

(e) The campus of accountability for student performance must be the student's locally assigned campus, including when the individual school district or SSA contracts with a third party for DAEP services.

(f) Each school district shall provide an academic and self-discipline program that leads to graduation and includes instruction in each student's currently enrolled foundation curriculum necessary to meet the student's individual graduation plan, including special education services.

(1) A student's four-year graduation plan (minimum, recommended, or distinguished achievement-advanced) may not be altered when the student is assigned to a DAEP. A student must be offered an opportunity to complete a foundation curriculum course in which the student was enrolled at the time of removal before the beginning of the next school year, including correspondence or distance learning opportunities or summer school. A district may not charge for a course required under this section.

(2) The school day for a DAEP shall be at least seven hours but no more than ten hours in length each day, including intermissions and recesses as required under the TEC, § 25.082(a).
(3) Notwithstanding the TEC, § 37.008(a)(3), summer programs provided by the district may serve students assigned to a DAEP in conjunction with other students, as determined by local policy.

(g) A DAEP program serving a student with a disability who receives special education services shall provide educational services that will support the student in meeting the goals identified in the individualized education program (IEP) established by a duly-constituted admission, review, and dismissal (ARD) committee, in accordance with the TEC, § 37.004, and federal requirements.

(h) Each school district is responsible for the safety and supervision of the students assigned to the DAEP; however, the immunity from the liability established in the TEC, § 22.0511, shall not be impacted.

(1) The certified teacher-to-student ratio in a DAEP shall be one teacher for each 15 students in elementary through high school grades. Elementary grade students assigned to the DAEP shall be separated from secondary grade students assigned to the DAEP. The designation of elementary and secondary will be determined by adopted local policy.

(2) The DAEP staff shall be prepared and trained to respond to health issues and emergencies.

(3) Students in the DAEP shall be separated from students in a juvenile justice alternative education program (JJAEP) and students who are not assigned to the DAEP.

(4) Each district shall establish a board-approved policy for discipline and intervention measures to prevent and intervene against unsafe behavior and include disciplinary actions that do not jeopardize students' physical health and safety, harm emotional well-being, or discourage physical activity.

(i) Staff at each DAEP shall participate in training programs on education, behavior management, and safety procedures that focus on positive and proactive behavior management strategies. The training programs must also target prevention and intervention that include:

(1) Training on the education and discipline of students with disabilities who receive special education services;

(2) Instruction in social skills and problem-solving skills that addresses diversity, dating violence, anger management, and conflict resolution to teach students how to interact with teachers, family, peers, authority figures, and the general public; and

(3) Annual training on established procedures for reporting abuse, neglect, or exploitation of students.

(j) Procedures for each DAEP shall be developed and implemented for newly-entering students and their parents or guardians on the expectations of the DAEP, including written contracts between students, parents or guardians, and the DAEP that formalize expectations and establish the students' individual plans for success.

(k) The transition procedures established for a student who is exiting a DAEP and returning to the student's locally assigned campus shall be implemented and updated annually as needed. The transition procedures shall include:

(1) An established timeline for the student's transition from the DAEP to the student's locally assigned campus; and

(2) Written and oral communication from the DAEP staff to the locally assigned campus during the student's assignment to the DAEP, including the student's educational performance and tasks completed.

19 TAC 103.1203. Assessment of academic growth of students in disciplinary alternative education programs.

(a) Each school district shall be responsible for administering a pre- and post-assessment for each student assigned to the district's disciplinary alternative education program (DAEP) for a period of 90 school days or longer as required by the Tex. Educ. Code (TEC), § 37.0082. Released state
assessments for reading and mathematics for the appropriate grade may be used. A school district may apply for approval of an assessment that includes the Texas Essential Knowledge and Skills (TEKS) for reading and mathematics for the student's assigned grade. The commissioner of education will publish on the Texas Education Agency website a list of assessments approved for use in each school year.

(b) The grade level of an assessment shall be based upon the academic grade completed prior to the student being assigned to a DAEP if placement occurs in the fall or first semester of the academic school year. If placement occurs in the spring or second semester of the academic school year, the student shall be administered an assessment based on the current grade level.

(c) Each school district shall provide an academic report to the student's locally assigned campus, which shall include the pre- and post-assessment results of the student's basic skills in reading and mathematics, within ten days of the student completing the post-assessment.

(d) Procedures for administering the pre- and post-assessment shall be developed and implemented in accordance with local school district policy.

(e) A student in the district's DAEP must also be assessed under the requirements of the TEC, Chapter 39.

Attendance and truancy

LAWS

§ 25.001. Admission.
(a) A person who, on the first day of September of any school year, is at least five years of age and under 21 years of age, or is at least 21 years of age and under 26 years of age and is admitted by a school district to complete the requirements for a high school diploma is entitled to the benefits of the available school fund for that year. Any other person enrolled in a prekindergarten class under Section 29.153 or Subchapter E-1, Chapter 29, is entitled to the benefits of the available school fund.

(b) The board of trustees of a school district or its designee shall admit into the public schools of the district free of tuition a person who is over five and younger than 21 years of age on the first day of September of the school year in which admission is sought, and may admit a person who is at least 21 years of age and under 26 years of age for the purpose of completing the requirements for a high school diploma, if:
   (1) The person and either parent of the person reside in the school district;
   (2) The person does not reside in the school district but a parent of the person resides in the school district and that parent is a joint managing conservator or the sole managing conservator or possessory conservator of the person;
   (3) The person and the person's guardian or other person having lawful control of the person under a court order reside within the school district;
   (4) The person has established a separate residence under Subsection (d);
(5) The person is homeless, as defined by 42 U.S.C. Section 11302, regardless of the residence of the person, of either parent of the person, or of the person's guardian or other person having lawful control of the person;

(6) The person is a foreign exchange student placed with a host family that resides in the school district by a nationally recognized foreign exchange program, unless the school district has applied for and been granted a waiver by the commissioner under Subsection (e);

(7) The person resides at a residential facility located in the district;

(8) The person resides in the school district and is 18 years of age or older or the person's disabilities of minority have been removed; or

(9) The person does not reside in the school district but the grandparent of the person:

   (A) Resides in the school district; and

   (B) Provides a substantial amount of after-school care for the person as determined by the board.

(b-1) A person who is 21 years of age or older and is admitted by a school district for the purpose stated in Subsection (b) is not eligible for placement in a disciplinary alternative education program or a juvenile justice alternative education program if the person engages in conduct that would require or authorize such placement for a student under the age of 21. If the student engages in conduct that would otherwise require such placement, the district shall revoke admission of the student into the public schools of the district.

(b-2) A person who is 21 years of age or older who is admitted by a school district to complete the requirements for a high school diploma and who has not attended school in the three preceding school years may not be placed with a student who is 18 years of age or younger in a classroom setting, a cafeteria, or another district-sanctioned school activity. Nothing in this subsection prevents a student described by this subsection from attending a school-sponsored event that is open to the public as a member of the public.

(c) The board of trustees of a school district or the board's designee may require evidence that a person is eligible to attend the public schools of the district at the time the board or its designee considers an application for admission of the person. The board of trustees or its designee shall establish minimum proof of residency acceptable to the district. The board of trustees or its designee may make reasonable inquiries to verify a person's eligibility for admission.

(d) For a person under the age of 18 years to establish a residence for the purpose of attending the public schools separate and apart from the person's parent, guardian, or other person having lawful control of the person under a court order, it must be established that the person's presence in the school district is not for the primary purpose of participation in extracurricular activities. The board of trustees shall determine whether an applicant for admission is a resident of the school district for purposes of attending the public schools and may adopt reasonable guidelines for making a determination as necessary to protect the best interests of students. The board of trustees is not required to admit a person under this subsection if the person:

   (1) Has engaged in conduct or misbehavior within the preceding year that has resulted in:

   (A) Removal to a disciplinary alternative education program; or

   (B) Expulsion;

   (2) Has engaged in delinquent conduct or conduct in need of supervision and is on probation or other conditional release for that conduct; or

   (3) Has been convicted of a criminal offense and is on probation or other conditional release.

(e) A school district may request that the commissioner waive the requirement that the district admit a foreign exchange student who meets the conditions of Subsection (b)(6). The commissioner shall
respond to a district's request not later than the 60th day after the date of receipt of the request. The commissioner shall grant the request and issue a waiver effective for a period not to exceed three years if the commissioner determines that admission of a foreign exchange student would:

(1) Create a financial or staffing hardship for the district;
(2) Diminish the district's ability to provide high quality educational services for the district's domestic students; or
(3) Require domestic students to compete with foreign exchange students for educational resources.

(f) A child placed in foster care by an agency of the state or by a political subdivision shall be permitted to attend the public schools in the district in which the foster parents reside free of any charge to the foster parents or the agency. A durational residence requirement may not be used to prohibit that child from fully participating in any activity sponsored by the school district.

(g) A student who was enrolled in a primary or secondary public school before the student entered the conservatorship of the Department of Family and Protective Services and who is placed at a residence outside the attendance area for the school or outside the school district is entitled to continue to attend the school in which the student was enrolled immediately before entering conservatorship until the student successfully completes the highest grade level offered by the school at the time of placement without payment of tuition. The student is entitled to continue to attend the school regardless of whether the student remains in the conservatorship of the department for the duration of the student's enrollment in the school.

(g-1) If a student who is in the conservatorship of the department is enrolled in a primary or secondary public school, other than the school in which the student was enrolled at the time the student was placed in the conservatorship of the department, the student is entitled to continue to attend that school without payment of tuition until the student successfully completes the highest grade level offered by the school at the time of enrollment in the school, even if the child's placement is changed to a residence outside the attendance area for that school or outside the school district. The student is entitled to continue to attend the school regardless of whether the student remains in the conservatorship of the department for the duration of the student's enrollment in the school.

(h) In addition to the penalty provided by Section 37.10, Penal Code, a person who knowingly falsifies information on a form required for enrollment of a student in a school district is liable to the district if the student is not eligible for enrollment in the district but is enrolled on the basis of the false information. The person is liable, for the period during which the ineligible student is enrolled, for the greater of:

1. The maximum tuition fee the district may charge under Section 25.038; or
2. The amount the district has budgeted for each student as maintenance and operating expenses.

(i) A school district may include on an enrollment form notice of the penalties provided by Section 37.10, Penal Code, and of the liability provided by Subsection (h) for falsifying information on the form.

(j) For the purposes of this subchapter, the board of trustees of a school district by policy may allow a person showing evidence of legal responsibility for a child other than an order of a court to substitute for a guardian or other person having lawful control of the child under an order of a court.

§ 25.085. Compulsory student attendance.

(a) A child who is required to attend school under this section shall attend school each school day for the entire period the program of instruction is provided.

(b) Unless specifically exempted by Section 25.086, a child who is at least six years of age, or who is younger than six years of age and has previously been enrolled in first grade, and who has not yet reached the child's 19th birthday shall attend school.

(c) On enrollment in prekindergarten or kindergarten, a child shall attend school.
(d) Unless specifically exempted by Section 25.086, a student enrolled in a school district must attend:

1. An extended-year program for which the student is eligible that is provided by the district for students identified as likely not to be promoted to the next grade level or tutorial classes required by the district under Section 29.084;
2. An accelerated reading instruction program to which the student is assigned under Section 28.006(g);
3. An accelerated instruction program to which the student is assigned under Section 28.0211;
4. A basic skills program to which the student is assigned under Section 29.086; or
5. A summer program provided under Section 37.008(l) or Section 37.021.

(e) A person who voluntarily enrolls in school or voluntarily attends school after the person's 19th birthday shall attend school each school day for the entire period the program of instruction is offered. A school district may revoke for the remainder of the school year the enrollment of a person who has more than five absences in a semester that are not excused under Section 25.087, except a school district may not revoke the enrollment of a person under this subsection on a day on which the person is physically present at school. A person whose enrollment is revoked under this subsection may be considered an unauthorized person on school district grounds for purposes of Section 37.107.

(f) The board of trustees of a school district may adopt a policy requiring a person described by Subsection (e) who is under 21 years of age to attend school until the end of the school year. Section 65.003(a), Family Code, does not apply to a person subject to a policy adopted under this subsection. Sections 25.093 and 25.095 do not apply to the parent of a person subject to a policy adopted under this subsection.

(g) After the third unexcused absence of a person described by Subsection (e), a school district shall issue a warning letter to the person that states the person's enrollment may be revoked for the remainder of the school year if the person has more than five unexcused absences in a semester.

(h) As an alternative to revoking a person's enrollment under Subsection (e), a school district may impose a behavior improvement plan described by Section 25.0915(a-1)(1).

§ 25.0915. Truancy prevention measures.

(a) A school district shall adopt truancy prevention measures designed to:

1. Address student conduct related to truancy in the school setting before the student engages in conduct described by Section 65.003(a), Family Code; and
2. Minimize the need for referrals to truancy court for conduct described by Section 65.003(a), Family Code.

(a-1) As a truancy prevention measure under Subsection (a), a school district shall take one or more of the following actions:

1. Impose:
   (A) A behavior improvement plan on the student that must be signed by an employee of the school, that the school district has made a good faith effort to have signed by the student and the student’s parent or guardian, and that includes:
      (i) A specific description of the behavior that is required or prohibited for the student;
      (ii) the period for which the plan will be effective, not to exceed 45 school days after the date the contract becomes effective; or
      (iii) The penalties for additional absences, including additional disciplinary action or the referral of the student to a truancy court; or
   (B) School-based community service; or
(2) Refer the student to counseling, mediation, mentoring, a teen court program, community-based services, or other in-school or out-of-school services aimed at addressing the student's truancy.

(a-2) A referral made under Subsection (a-1)(2) may include participation by the child's parent or guardian if necessary.

(a-3) A school district shall offer additional counseling to a student and may not refer the student to truancy court if the school determines that the student's truancy is the result of:

(1) Pregnancy;
(2) Being in the state foster program;
(3) Homelessness; or
(4) Being the principal income earner for the student's family.

(a-4) If a student fails to attend school without excuse on three or more days or parts of days within a four-week period but does not fail to attend school for the time described by Section 25.0951(a), the school district shall initiate truancy prevention measures under this section on the student.

(b) Each referral to truancy court for conduct described by Section 65.003(a), Family Code, must:

(1) Be accompanied by a statement from the student's school certifying that:
   (A) The school applied the truancy prevention measures adopted under Subsection (a) or (a-4) to the student; and
   (B) The truancy prevention measures failed to meaningfully address the student's school attendance; and
(2) Specify whether the student is eligible for or receives special education services under Subchapter A, Chapter 29.

(c) A truancy court shall dismiss a petition filed by a truant conduct prosecutor under Section 65.054, Family Code, if the court determines that the school district's referral:

(1) Does not comply with Subsection (b);
(2) Does not satisfy the elements required for truant conduct;
(3) Is not timely filed, unless the school district delayed the referral under Section 25.0951(d); or
(4) Is otherwise substantively defective.

(d) Except as provided by Subsection (e), a school district shall employ a truancy prevention facilitator or juvenile case manager to implement the truancy prevention measures required by this section and any other effective truancy prevention measures as determined by the school district or campus. At least annually, the truancy prevention facilitator shall meet to discuss effective truancy prevention measures with a case manager or other individual designated by a truancy court to provide services to students of the school district in truancy cases.

(e) Instead of employing a truancy prevention facilitator, a school district may designate an existing district employee or juvenile case manager to implement the truancy prevention measures required by this section and any other effective truancy prevention measures as determined by the school district or campus.

(f) The agency shall adopt rules:

(1) Creating minimum standards for truancy prevention measures adopted by a school district under this section; and
(2) Establishing a set of best practices for truancy prevention measures.

(g) The agency shall adopt rules to provide for sanctions for a school district found to be not in compliance with this section.
§ 25.093. Parent contributing to nonattendance.

(a) If a warning is issued as required by Section 25.095(a), the parent with criminal negligence fails to require the child to attend school as required by law, and the child has absences for the amount of time specified under Section 65.003(a), Family Code, the parent commits an offense.

(b) The attendance officer or other appropriate school official shall file a complaint against the parent in:

1. The constitutional county court of the county in which the parent resides or in which the school is located, if the county has a population of 1.75 million or more;
2. A justice court of any precinct in the county in which the parent resides or in which the school is located; or
3. A municipal court of the municipality in which the parent resides or in which the school is located.

(c) An offense under Subsection (a) is a misdemeanor, punishable by fine only, in an amount not to exceed:

1. $100 for a first offense;
2. $200 for a second offense;
3. $300 for a third offense;
4. $400 for a fourth offense; or
5. $500 for a fifth or subsequent offense.

(c-1) Each day the child remains out of school may constitute a separate offense. Two or more offenses under Subsection (a) may be consolidated and prosecuted in a single action. If the court orders deferred disposition under Article 45.051, Code of Criminal Procedure, the court may require the defendant to provide personal services to a charitable or educational institution as a condition of the deferral.

(d) A fine collected under this section shall be deposited as follows:

1. One-half shall be deposited to the credit of the operating fund of, as applicable:
   A. The school district in which the child attends school;
   B. The open-enrollment charter school the child attends; or
   C. The juvenile justice alternative education program that the child has been ordered to attend; and
2. One-half shall be deposited to the credit of:
   A. The general fund of the county, if the complaint is filed in the justice court or the constitutional county court; or
   B. The general fund of the municipality, if the complaint is filed in municipal court.

(e) At the trial of any person charged with violating this section, the attendance records of the child may be presented in court by any authorized employee of the school district or open-enrollment charter school, as applicable.

(f) The court in which a conviction, deferred adjudication, or deferred disposition for an offense under Subsection (a) occurs may order the defendant to attend a program for parents of students with unexcused absences that provides instruction designed to assist those parents in identifying problems that contribute to the students' unexcused absences and in developing strategies for resolving those problems if a program is available.

(g) If a parent refuses to obey a court order entered under this section, the court may punish the parent for contempt of court under Section 21.002, Government Code.

(h) It is an affirmative defense to prosecution for an offense under Subsection (a) that one or more of the absences required to be proven under Subsection (a) was excused by a school official or should be excused by the court. The burden is on the defendant to show by a preponderance of the evidence that
the absence has been or should be excused. A decision by the court to excuse an absence for purposes of this section does not affect the ability of the school district to determine whether to excuse the absence for another purpose.

(i) In this section, "parent" includes a person standing in parental relation.

§ 25.094. Failure to attend school.

(a) An individual commits an offense if the individual:

(1) Is 12 years of age or older and younger than 18 years of age;
(2) Is required to attend school under Section 25.085; and
(3) Fails to attend school on 10 or more days or parts of days within a six-month period in the same school year or on three or more days or parts of days within a four-week period.

(b) An offense under this section may be prosecuted in:

(1) The constitutional county court of the county in which the individual resides or in which the school is located, if the county has a population of 1.75 million or more;
(2) A justice court of any precinct in the county in which the individual resides or in which the school is located; or
(3) A municipal court in the municipality in which the individual resides or in which the school is located.

(c) On a finding by the county, justice, or municipal court that the individual has committed an offense under Subsection (a) or on a finding by a juvenile court in a county with a population of less than 100,000 that the individual has engaged in conduct that violates Subsection (a), the court may enter an order that includes one or more of the requirements listed in Article 45.054, Code of Criminal Procedure, as added by Chapter 1514, Acts of the 77th Legislature, Regular Session, 2001.

(d) If the county, justice, or municipal court believes that a child has violated an order issued under Subsection (c), the court may proceed as authorized by Article 45.050, Code of Criminal Procedure.

(d-1) Pursuant to an order of the county, justice, or municipal court based on an affidavit showing probable cause to believe that an individual has committed an offense under this section, a peace officer may take the individual into custody. A peace officer taking an individual into custody under this subsection shall:

(1) Promptly notify the individual's parent, guardian, or custodian of the officer's action and the reason for that action; and
(2) Without unnecessary delay:
   (A) Release the individual to the individual's parent, guardian, or custodian or to another responsible adult, if the person promises to bring the individual to the county, justice, or municipal court as requested by the court; or
   (B) Bring the individual to a county, justice, or municipal court with venue over the offense.

(e) An offense under this section is a Class C misdemeanor.

(f) It is an affirmative defense to prosecution under this section that one or more of the absences required to be proven under Subsection (a) were excused by a school official or by the court or that one or more of the absences were involuntary, but only if there is an insufficient number of unexcused or voluntary absences remaining to constitute an offense under this section. The burden is on the defendant to show by a preponderance of the evidence that the absence has been excused or that the absence was involuntary. A decision by the court to excuse an absence for purposes of this section does not affect the ability of the school district to determine whether to excuse the absence for another purpose.
(g) It is an affirmative defense to prosecution under this section that one or more of the absences required to be proven under Subsection (a) was involuntary. The burden is on the defendant to show by a preponderance of the evidence that the absence was involuntary.

§ 25.095. Warning notices.

(a) A school district or open-enrollment charter school shall notify a student's parent in writing at the beginning of the school year that if the student is absent from school on 10 or more days or parts of days within a six-month period in the same school year:

(1) The student's parent is subject to prosecution under Section 25.093; and

(2) The student is subject to referral to a truancy court for truant conduct under Section 65.003(a), Family Code.

(b) A school district shall notify a student's parent if the student has been absent from school, without excuse under Section 25.087, on three days or parts of days within a four-week period. The notice must:

(1) Inform the parent that:

(A) It is the parent's duty to monitor the student's school attendance and require the student to attend school; and

(B) The student is subject to truancy prevention measures under Section 25.0915; and

(2) Request a conference between school officials and the parent to discuss the absences.

(c) The fact that a parent did not receive a notice under Subsection (a) or (b) does not create a defense under Section 25.093 or under Section 65.003(a), Family Code.

(d) In this section, "parent" includes a person standing in parental relation.

§ 25.0951. School district complaint or referral for failure to attend school.

(a) If a student fails to attend school without excuse on 10 or more days or parts of days within a six-month period in the same school year, a school district shall within 10 school days of the student's 10th absence refer the student to a truancy court for truant conduct under Section 65.003(a), Family Code.

(b) If a student fails to attend school without excuse as specified by Subsection (a), a school district may file a complaint against the student's parent in a county, justice, or municipal court for an offense under Section 25.093 if the school district provides evidence of the parent's criminal negligence. In this subsection, "parent" includes a person standing in parental relation.

(c) A court shall dismiss a complaint made by a school district under Subsection (b) that:

(1) Does not comply with this section;

(2) Does not allege the elements required for the offense;

(3) Is not timely filed, unless the school district delayed the referral under Subsection (d); or

(4) Is otherwise substantively defective.

(d) Notwithstanding Subsection (a), a school district may delay a referral of a student for truant conduct, or may choose to not refer a student for truant conduct, if the school district:

(1) Is applying truancy prevention measures to the student under Section 25.0915; and

(2) Determines that the truancy prevention measures are succeeding and it is in the best interest of the student that a referral be delayed or not be made.

§ 25.0952. Procedures applicable to school attendance-related offenses.

In a proceeding based on a complaint under Section 25.093, the court shall, except as otherwise provided by this chapter, use the procedures and exercise the powers authorized by Chapter 45, Code of Criminal Procedure.
REGULATIONS

19 TAC 129.21. Requirements for student attendance accounting for state funding purposes.
(a) All public schools in Texas must maintain records to reflect the average daily attendance (ADA) for the allocation of Foundation School Program (FSP) funds and other funds allocated by the Texas Education Agency (TEA). Superintendents, principals, and teachers are responsible to their school boards and to the state to maintain accurate, current attendance records.

(l) Before a district or charter school may count a student in attendance under this section or in attendance when the student was allowed to leave campus during any part of the school day, the local school board or governing body must adopt a policy, or delegate to the superintendent the authority to establish procedures, addressing parental consent for a student to leave campus, and the district or charter school must distribute the policy or procedures to staff and to all parents of students in the district or charter school.

The minimum standards for the truancy prevention measure(s) implemented by a school district under Texas Education Code, § 25.0915, include:

(1) identifying the root cause of the student's unexcused absences and actions to address each cause;

(2) maintaining ongoing communication with students and parents on the actions to be taken to improve attendance;

(3) establishing reasonable timelines for completion of the truancy prevention measure; and

(4) establishing procedures to notify the admission, review, and dismissal committee or the Section 504 committee of attendance issues relating to a student with a disability and ensure that the committee considers whether the student's attendance issues warrant an evaluation, a reevaluation, and/or modifications to the student's individualized education program or Section 504 plan, as appropriate.

19 TAC 129.1045. Best practices.
(a) A school district shall consider the following best practices for truancy prevention measures.

(1) Develop an attendance policy that clearly outlines requirements related to truancy in accordance with Texas Education Code (TEC), Chapter 25, Subchapter C, and communicate this information to parents at the beginning of the school year.

(2) Create a culture of attendance that includes training staff to talk meaningfully with students and parents about the attendance policy and the root causes of unexcused absences.

(3) Create incentives for perfect attendance and improved attendance.

(4) Educate students and their families on the positive impact of school attendance on performance.

(5) Provide opportunities for students and parents to address causes of absence and/or truancy with district staff and link families to relevant community programs and support.

(6) Develop collaborative partnerships, including planning, referral, and cross-training opportunities, between appropriate school staff, attendance officers, program-related liaisons, and external partners such as court representatives, community and faith-based organizations, state or locally funded community programs for truancy intervention or prevention, and law enforcement to assist students.

(7) Determine root causes of unexcused absences and review campus- and district-level data on unexcused absences to identify systemic issues that affect attendance.

(8) Use existing school programs such as Communities In Schools, 21st Century Community Learning Centers, Restorative Discipline, and Positive Behavior Interventions and Supports (PBIS) to provide students and their parents with services.
(9) At the beginning of each school year, conduct a needs assessment and identify and list, or map, services and programs available within the school district and the community that a school, a student, or a student’s parent or guardian may access to address the student’s barriers to attendance and make the information available to staff, students, and parents. The information must include, but is not limited to:

(A) services for pregnant and parenting students;
(B) services for students experiencing homelessness;
(C) services for students in foster care;
(D) federal programs including, but not limited to, Title 1, Part A, of the Elementary and Secondary Education Act;
(E) state programs including, but not limited to, State Compensatory Education programs;
(F) dropout prevention programs and programs for "at risk" youth;
(G) programs that occur outside of school time;
(H) counseling services;
(I) tutoring programs and services available at no or low cost;
(J) mental health services;
(K) alcohol and substance abuse prevention and treatment programs;
(L) mentoring programs and services;
(M) juvenile justice services and programs;
(N) child welfare services and programs;
(O) other state or locally funded programs for truancy prevention and intervention; and
(P) other supportive services that are locally available for students and families through faith-based organizations, local governments, and community-based organizations.

(10) After identifying and listing, or mapping, services available in the district and community, school districts should target any new resources, programs, or services to gaps in services identified during the needs assessment.

(11) School districts should ensure that personnel, including truancy prevention facilitators or juvenile case managers, attendance officers, McKinney-Vento liaisons, foster care liaisons, Title IX coordinators, 504 coordinators, pregnancy and parenting coordinators, dropout prevention coordinators, special education staff, and other appropriate student services personnel, meet to contribute to the needs assessment, discuss opportunities to work together, and identify strategies to coordinate both internally and externally to address students’ attendance barriers.

(b) In determining services offered to students identified in TEC, § 25.0915(a-3), a school district shall consider:

(1) offering an optional flexible school day program and evening and online alternatives;
(2) working with businesses that employ students to help students coordinate job and school responsibilities; and
(3) offering before school, after school, and/or Saturday prevention or intervention programs or services that implement best and promising practices.

19 TAC 129.1047. Sanctions.

(a) An aggrieved party may file a written complaint with the Texas Education Agency (TEA) regarding an allegation that a school district has failed to comply with the provisions set forth in Texas Education Code (TEC), § 25.0915, or this subchapter related to truancy prevention measures.
(b) TEA may request that a school district provide documentation regarding its compliance with required truancy prevention measures in response to a complaint filed with the TEA. If, after a review of this documentation or a school district’s failure to provide this documentation, TEA determines that the school district is not in compliance with required truancy prevention measure provisions, TEA may issue a preliminary report of its findings to the school district in accordance with § 157.1122 of this title (relating to Notice).

(c) A school district may request in writing an informal review of TEA’s preliminary report of findings in accordance with § 157.1123 of this title (relating to Informal Review). Following the informal review, or if no informal review is requested by the deadline, a final report will be issued.

(d) The commissioner of education may implement any sanction listed in TEC, § 39.102(a), against a school district found to be out of compliance with TEC, § 25.0915, or this subchapter.

LAWS

§ 37.005. Suspension.
(a) The principal or other appropriate administrator may suspend a student who engages in conduct identified in the student code of conduct adopted under Section 37.001 as conduct for which a student may be suspended.

(b) A suspension under this section may not exceed three school days.

(c) A student who is enrolled in a grade level below grade three may not be placed in out-of-school suspension unless while on school property or while attending a school-sponsored or school-related activity on or off of school property, the student engages in:

1. Conduct that contains the elements of an offense related to weapons under Section 46.02 or 46.05, Penal Code;
2. Conduct that contains the elements of a violent offense under Section 22.01, 22.011, 22.02, or 22.021, Penal Code; or
3. Selling, giving, or delivering to another person or possessing, using, or being under the influence of any amount of:
   A. Marihuana or a controlled substance, as defined by Chapter 481, Health and Safety Code, or by 21 U.S.C. Section 801 et seq.;
