**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. **LAWS**

**16-1-14. Removal, isolation, or separation of pupils creating disciplinary problems; state approval necessary for rules implementing such measures; deprivation of right to equal and adequate education may not result.**

Any city, county, or other local public school board shall, consistent with Section 16-28-12, prescribe rules and regulations with respect to behavior and discipline of pupils enrolled in the schools under its jurisdiction and, in order to enforce such rules and regulations, may remove, isolate, or separate pupils who create disciplinary problems in any classroom or other school activity and whose presence in the class may be detrimental to the best interest and welfare of the pupils of such class as a whole. Any rules and regulations adopted pursuant to this section shall be approved by the State Board of Education. Any such removal, isolation, or separation may not deprive such pupils of their full right to an equal and adequate education.

**16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.**

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

**16-1-24.3. Local boards of education to implement policies requiring expulsion of students who possess firearms in school areas.**

(a) All city and county boards of education shall develop and implement local policies and procedures requiring the expulsion of students, for a period of one year, who are determined to have brought to school or have in their possession a firearm in a school building, on school grounds, on school buses, or at other school-sponsored functions. Notwithstanding the foregoing, city and county boards of education and the local superintendent of education of each board may modify the expulsion requirement for a student on a case-by-case basis. Students who are expelled for violation of this section shall not be allowed to attend regular school classes in any public school in the state during the expulsion period. Students who are expelled from schools for firearm possession may be permitted to attend alternative schools designed to provide education services. Discipline of students with disabilities who violate the
firearm possession policies of city and county boards of education shall be determined on a case-by-case basis in accordance with the requirements of the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act.

(b) For the purposes of this section, the term "firearm" has the same meaning as defined in Section 921 of Title 18 of the United States Code.

(c) When there are violations of the prohibition on firearms being brought to school or the possession of firearms by students, the school principal shall notify the appropriate law enforcement authority which may include city police, county sheriffs, and the local district attorney. In addition to notification of law enforcement officials, the school principal shall notify the parents of students who violate the firearm-free school environment provided for in this section.

Law enforcement authorities involved with students charged with firearm violations shall refer the violators of this section to the appropriate authority in the judicial system when the action is feasible.

(d) Local education agencies submitting applications for federal funds to the State Department of Education shall include in the application:

(1) An affidavit to affirm that the local education agency has developed and implemented a policy to provide for a gun-free environment in all its public schools.

(2) A description of the circumstances surrounding an expulsion imposed under this section including:
   a. The name of the school concerned.
   b. The number of students expelled.
   c. The types of weapons concerned.

The State Department of Education shall report the information collected from the local education agencies to the Secretary of Education.

16-6B-1. Student achievement.

(a) The Legislature finds that the people of Alabama desire two basic things from their public schools:

   (1) High achievement for students.
   (2) A safe and orderly environment in which to learn.

(b) The Legislature encourages the State Board of Education to assist local boards of education in the development of a strong disciplinary policy and directs the State Board of Education to develop a program to closely monitor student achievement.

   (1) The State Board of Education shall require implementation of an assessment program for the public schools of Alabama. The assessment program may include nationally normed tests or criterion referenced tests, or both. These tests may be used to assist in the assessment of student achievement. The State Board of Education may also require the use of other tests and assessments as the board may deem necessary.

   (2) In grades 11 and 12, the State Board of Education shall implement an assessment and remediation program to monitor and promote the academic achievement of students in those grades and prepare them for successfully completing the graduation examination.

(c) There is no legislative intent to interfere with the provisions of Section 16-3-18.3 [repealed], and it is the intent of the Legislature that the development of the total assessment program for student performance, exclusive of the requirements of student performance herein, shall be the function of the State Board of Education. The State Board of Education is instructed to develop courses of study to provide Alabama students with the content and information to enter the workforce, to compete nationally and internationally with other students, and to successfully compete at the postsecondary level. This shall
include the content necessary to successfully achieve on nationally normed tests and any other tests that may be required by the State Board of Education.

### 16-6B-5. School safety and discipline accountability.

In addition to providing quality instruction in classrooms and fiscal soundness, all local boards of education shall be accountable for compliance with statutes and regulations regarding school safety and discipline. The State Department of Education shall send to all local boards of education and all local superintendents of education, on or before August 1 of each year, a manual containing all acts of the Legislature and all regulations promulgated by the State Board of Education which pertain to school safety and discipline. Within thirty (30) days of receipt of this manual, each local board of education shall provide to the State Board of Education a report, in the form prescribed by the State Department of Education, describing its compliance with these acts and regulations. If a local board of education is determined by the State Board of Education to have failed to comply in any material respect with these acts and regulations, the State Department of Education shall provide assistance to obtain compliance. If after one year, the State Board of Education determines that a local board of education refuses or fails to come into compliance with these acts and regulations, the State Superintendent of Education shall intervene in and assume the direct management and day-to-day operation of the local board of education for such period of time as the State Board of Education deems necessary to bring that local board of education into compliance with these acts and regulations.

### 16-28-21. Adoption of standards for mandatory attendance policy; parents held accountable; enforcement.

The Legislature finds that mandatory attendance policies for schools differ from school system to school system throughout the State of Alabama. The State Board of Education shall adopt standards for a mandatory and enforceable attendance policy for all students in public schools in the State of Alabama. Parents shall be held accountable in accordance with Sections 16-28-12 and 16-28-7, for the failure of the child who is of compulsory attendance age to attend either public, private or church-school. Enforcement of this section shall lie with the local board of education and the juvenile court system.

### 16-28-12. Person in loco parentis responsible for child’s school attendance and behavior; noncompliance; local boards to promulgate written behavior policy, contents, annual distribution, receipt to be documented; school officials required to report noncompliance; failure to report suspected violation; district attorneys vigorously to enforce provisions.

(a) Each parent, guardian, or other person having control or custody of any child required to attend school or receive regular instruction by a private tutor who fails to have the child enrolled in school or who fails to send the child to school, or have him or her instructed by a private tutor during the time the child is required to attend a public school, private school, church school, denominational school, or parochial school, or be instructed by a private tutor, or fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in any public school in accordance with the written policy on school behavior adopted by the local board of education pursuant to this section and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be guilty of a misdemeanor and, upon conviction, shall be fined not more than one hundred dollars ($100) and may also be sentenced to hard labor for the county for not more than 90 days. The absence of a child without the consent of the principal teacher of the public school he or she attends or should attend, or of the tutor who instructs or should instruct the child, shall be prima facie evidence of the violation of this section.

(b) Each local public board of education shall adopt a written policy for its standards on school behavior. Each local public school superintendent shall provide at the commencement of each academic year a
copy of the written policy on school behavior to each parent, guardian, or other person having care or control of a child who is enrolled. Included in the written policy shall be a copy of this section. The signature of the student and the parent, guardian, or other person having control or custody of the child shall document receipt of the policy.

(c) Any parent, guardian, or other person having control or custody of any child enrolled in public school who fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in accordance with the written policy on school behavior adopted by the local board of education and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be reported by the principal to the superintendent of education of the school system in which the suspected violation occurred. The superintendent of education or his or her designee shall report suspected violations to the district attorney within 10 days. Any principal or superintendent of education or his or her designee intentionally failing to report a suspected violation shall be guilty of a Class C misdemeanor. The district attorney shall vigorously enforce this section to ensure proper conduct and required attendance by any child enrolled in public school.

16-28A-1. Legislative findings.
It is the finding of the Alabama Legislature that the people of Alabama have two basic expectations of their public schools: (1) that students be allowed to learn in a safe classroom setting where order and discipline are maintained; and (2) that students learn at the level of their capabilities and achieve accordingly. The Legislature finds further that every child in Alabama is entitled to have access to a program of instruction which gives him or her the right to learn in a non-disruptive environment. No student has a right to be unruly in his or her classroom to the extent that such disruption denies fellow students of their right to learn. The teacher in each classroom is expected to maintain order and discipline. Teachers are hereby given the authority and responsibility to use appropriate means of discipline up to and including corporal punishment as may be prescribed by the local board of education. So long as teachers follow approved policy in the exercise of their responsibility to maintain discipline in their classroom, such teacher shall be immune from civil or criminal liability. It shall be the responsibility of the local boards of education and the administrators employed by them to provide legal support to each teacher exercising his or her authority and responsibility to maintain order and discipline in his or her classroom as long as the teacher follows the local board of education's policy. Such support for the teacher shall include, but not be limited to, providing appropriate legal representation to defend the teacher against charges, filing of a written report pursuant to Section 16-1-24, seeking the issuance of a warrant or warrants for any person or persons threatening or assaulting a teacher, and the timely assistance and cooperation with the appropriate authorities in the prosecution of any person or persons threatening or assaulting a teacher. Local school board authorities and school administrators providing such support shall be absolutely immune from civil and criminal liability for actions authorized or required by this section.

16-28A-3. Local boards of education required to develop and disseminate student discipline and behavior policies.
To fully implement the provisions of this chapter, the State Board of Education shall require each local board of education to develop a written policy on student discipline and behavior and to broadly disseminate them following its adoption. Copies of the student discipline and behavior policy shall be given to all teachers, staff, parents and students.

16-28B-2. Legislative intent.
It is the intent of the Legislature to provide for the adoption of policies in public school systems to prevent the bullying of students. It is the further intent of the Legislature that this chapter apply only to student
against student bullying, intimidation, violence, and threats of violence in the public schools of Alabama, and between students while not on school property, in grades prekindergarten through 12, and that the State Department of Education develop, and each local board of education adopt procedural policies to manage and possibly prevent these acts against any student by another student or students based on the characteristics of a student.

Additionally, it is the intent of the Legislature that the filing of a complaint of bullying be in writing and submitted by the affected student, or the parent or guardian of the affected student, and not by an education employee on behalf of an affected student or his or her parent or guardian.

16-28B-9. Adoption of local policies.
Each local board shall establish a policy in compliance with this chapter on or before July 1, 2010. Each local policy or model policy adopted by a local board or the department, respectively, shall be consistent with this chapter.

REGULATIONS

290-3-1-.02. Regulations governing public schools.
   (a) Safety precautions must be implemented and adequate facilities must be provided for implementations of programs prescribed by SDE Bulletin(s).
   (b) Effective with the 1995-96 school year and thereafter, local boards of education must:

      2. Adopt a uniform policy prohibiting the use of tobacco products on school property and prescribing specific penalties for violating this policy.
      3.    (c) Local school systems which operate alternative educational programs shall provide a curriculum that stresses skills in recognizing and managing anger, alternatives to aggression (verbal and physical assault), strategies for developing self-control and personal responsibility, skills for getting along with others, success through academic achievement, and skills for success in the workplace.
   (d) All policies and actions implemented under these mandatory regulations affecting students with disabilities must comply with federal and state special education laws, regulations, and court rulings.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.

(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

(e)(1) A copy of the school system's discipline plan shall be distributed to all students enrolled in the system and their parents, guardians, or custodians shall read the plan and sign a statement verifying that they have been given notice of the discipline policies of their respective school system. The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and
procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

However, this section shall not apply to parents whose parental control of any child has been removed by court order or decree or to parents of exceptional children with specific mental and physical impairments if the damage is determined to result from the impairments. The action authorized in this section shall be in addition to all other actions which the school system is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents or guardian, or both, for damages to which such minor other person would otherwise be liable.

(11) A clearly defined procedure for students to use in reporting bullying, including, but not limited to, written reports on local board approved complaint forms and written reports of instances of bullying, intimidation, violence, and threats of violence based on the personal characteristics of a student. The complaint form may be served in person or by mail on the principal, or his or her designee, or his or her office. The procedures shall be made known and be readily available to each student, employee, and the parent or guardian of each student. It is the sole responsibility of the affected student, or the parent or guardian of the affected student, to report incidences of bullying to the principal, or his or her designee.

Based upon experience, a local board of education may add, but not remove, characteristics from the list. The additional characteristics or perceived characteristics that cause bullying shall be identified by the local board on a case-by-case basis and added to the local board policy. Conditions on Use of Certain Forms of Discipline

Corporal Punishment

LAWS

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(g) Except in the case of excessive force or cruel and unusual punishment, no certified or noncertified employee of the State Board of Education or any local board of education shall be civilly liable for any action carried out in conformity with state law and system or school rules regarding the control, discipline, suspension, and expulsion of students.

16-28A-1. Legislative findings.

It is the finding of the Alabama Legislature that the people of Alabama have two basic expectations of their public schools: (1) that students be allowed to learn in a safe classroom setting where order and discipline are maintained; and (2) that students learn at the level of their capabilities and achieve accordingly. The Legislature finds further that every child in Alabama is entitled to have access to a program of instruction which gives him or her the right to learn in a non-disruptive environment. No student has a right to be unruly in his or her classroom to the extent that such disruption denies fellow students of their right to learn. The teacher in each classroom is expected to maintain order and discipline. Teachers are hereby given the authority and responsibility to use appropriate means of discipline up to and including corporal punishment as may be prescribed by the local board of education. So long as teachers follow approved policy in the exercise of their responsibility to maintain discipline in their classroom, such teacher shall be immune from civil or criminal liability. It shall be the responsibility of the local boards of education and the administrators employed by them to provide legal support to each teacher exercising his or her authority and responsibility to maintain order and discipline in his or her classroom as long as the teacher follows the local board of education's policy. Such support for the teacher shall include, but not be limited to, providing appropriate legal representation to defend the teacher against charges, filing of a written report pursuant to Section 16-1-24, seeking the issuance of a warrant or warrants for any person or persons threatening or assaulting a teacher, and the timely assistance and cooperation with the appropriate authorities in the prosecution of any person or persons threatening or assaulting a teacher. Local school board authorities and school administrators providing such support shall be absolutely immune from civil and criminal liability for actions authorized or required by this section.

16-28A-2. Exemption of teachers and other employees from application of Title 26.

The provisions of Title 26 shall not apply to public school teachers in relation to corporal punishment of students when the punishment is consistent with established written policies of the employing board of education. Neither shall the provisions of Title 26 apply to public school teachers or other employees while maintaining order and discipline in the classroom and on public school property, including school buses, consistent with written policies of the employing board of education.
16-28A-5. Immunity for other authorized school personnel.

It is the intent of the Legislature to include under the provisions of this chapter, principals, assistant principals and any other school personnel authorized to use corporal punishment under the policies and guidelines developed by the local board of education.

Use of chemical restraint is prohibited in Alabama public schools and educational programs.

The term does not include an adaptive or protective device recommended by a physician or therapist when used as recommended by the physician or therapist to promote normative body positioning and physical functioning, and/or to prevent self injurious behavior. The term also does not include seatbelts and other safety equipment when used to secure students
during transportation. Use of mechanical restraint is prohibited in Alabama public schools and educational programs.

(iii) Physical Restraint - Direct physical contact from an adult that prevents or significantly restricts a student's movement. The term physical restraint does not include mechanical restraint or chemical restraint. Additionally, physical restraint does not include: providing limited physical contact and/or redirection to promote student safety or prevent self-injurious behavior, providing physical guidance or prompting when teaching a skill, redirecting attention, providing guidance to a location, providing comfort, or providing limited physical contact as reasonably needed to prevent imminent destruction to school or another person's property.

(iv) Physical Restraint that restricts the flow of air to the student's lungs - Any method (face-down, face-up, or on your side) of physical restraint in which physical pressure is applied to the student's body that restricts the flow of air into the student's lungs. Use of this type of restraint is prohibited in Alabama public schools and educational programs.

(v) Seclusion - A procedure that isolates and confines the student in a separate, locked area until he or she is no longer an immediate danger to himself/herself or others. The seclusion occurs in a specifically constructed or designated room or space that is physically isolated from common areas and from which the student is physically prevented from leaving. Seclusion does not include situations in which a staff member trained in the use of de-escalation techniques or restraint is physically present in the same unlocked room as the student, time-out as defined in paragraph (1.)(vi) of this rule, in-school suspension, detention, or a student-requested break in a different location in the room or in a separate room. Use of seclusion is prohibited in Alabama public schools and educational programs.

(vi) Time-out - A behavioral intervention in which the student is temporarily removed from the learning activity. Time-out is appropriately used when:

(I) The non-locking setting used for time-out is appropriately lighted, ventilated, and heated or cooled.

(II) The duration of the time-out is reasonable in light of the purpose of the time-out and the age of the child; however, each time-out should not exceed 45 minutes.

(III) The student is reasonably monitored by an attending adult who is in reasonable physical proximity of the student and has sight of the student while in time-out.

(IV) The time-out space is free of objects that unreasonably expose the student or others to harm.

2. Requirements.

(i) The use of seclusion is prohibited in Alabama public schools and educational programs.

(ii) The use of any method of physical restraint that restricts the flow of air to a student's lungs is prohibited in Alabama public schools and educational programs.

(iii) The use of mechanical restraint is prohibited in Alabama public schools and educational programs.

(iv) The use of chemical restraint is prohibited in Alabama public schools and educational programs.

(v) The use of physical restraint is prohibited in Alabama public schools and educational programs except in those situations in which the student is an immediate danger to himself or others and the student is not responsive to less intensive behavioral interventions including verbal directives or other de-escalation techniques. Notwithstanding the foregoing, physical restraint is prohibited in Alabama public schools and educational programs when used as a form of discipline or punishment.
(vi) All physical restraint must be immediately terminated when the student is no longer an immediate danger to himself or others or if the student is observed to be in severe distress.

(vii) Schools and programs that use physical restraint in accordance with paragraph (2.)(v-xiv) of this rule must develop and implement written policies to govern the use of physical restraint. Parents must be provided information regarding the school or program’s policies governing the use of physical restraint. The written policies must include the following provisions:

(I) Staff and faculty training on the use of physical restraint and the school or program’s policy and procedures,

(II) Written parental notification when physical restraint is used to restrain their student within a reasonable time not to exceed one school day from the use of restraint,

(IV) Procedures for the periodic review of the use of restraint and the documentation described in paragraph (2.)(vii)(III),

(V) Procedures for reporting the use of restraint and the documentation described in paragraph (2.)(vii)(III) and any prohibited use of seclusion and chemical, mechanical, or physical restraint to the local board of education annually,

(VII) The written policies described in paragraph (2.)(vii)(I and II) are to be included in each local education agencies’ code of conduct and/or the student handbook.

(viii) Schools and programs that use physical restraints in accordance with paragraph (2.)(v-xiv) of this rule, must ensure that staff and faculty are trained in the use of physical restraint. This training shall be provided as a part of a program which addresses prevention and de-escalation techniques as well as positive behavioral intervention strategies. Schools and programs must maintain written or electronic documentation on training provided and the list of participants in each training. Records of such training must be made available to the Alabama Department of Education or any member of the public upon request.

(ix) Nothing in this rule shall be construed to interfere with a school system, school or program, or school or program employee’s authority to utilize time-out as defined in paragraph (1.)(vi) of this rule or any other classroom management technique or approach, including a student’s removal from the classroom, that is not specifically addressed in this rule.

(x) Nothing in this rule modifies the rights of school personnel to use reasonable force as permitted under the Code of Ala. 1975, § 16-1-14 or modifies the rules and procedures governing discipline under the Code of Ala. 1975, § 16-28-12.

However, federal funds already budgeted for at-risk students may not be counted toward the minimum one hundred dollars ($100) requirement set aside to be expended for at-risk students as defined in this chapter. In addition, these funds may be expended for any of the following purposes:

(3) Programs to ensure strict enforcement of truancy laws.

16-28-2.1. Adoption of standards for mandatory attendance policy; parents held accountable; enforcement.

The Legislature finds that mandatory attendance policies for schools differ from school system to school system throughout the State of Alabama. The State Board of Education shall adopt standards for a
mandatory and enforceable attendance policy for all students in public schools in the State of Alabama. Parents shall be held accountable in accordance with Sections 16-28-12 and 16-28-7, for the failure of the child who is of compulsory attendance age to attend either public, private or church-school. Enforcement of this section shall lie with the local board of education and the juvenile court system.

16-28-12. Person in loco parentis responsible for child’s school attendance and behavior; noncompliance; local boards to promulgate written behavior policy, contents, annual distribution, receipt to be documented; school officials required to report noncompliance; failure to report suspected violation; district attorneys vigorously to enforce provisions.

(c) Any parent, guardian, or other person having control or custody of any child enrolled in public school who fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in accordance with the written policy on school behavior adopted by the local board of education and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be reported by the principal to the superintendent of education of the school system in which the suspected violation occurred. The superintendent of education or his or her designee shall report suspected violations to the district attorney within 10 days. Any principal or superintendent of education or his or her designee intentionally failing to report a suspected violation shall be guilty of a Class C misdemeanor. The district attorney shall vigorously enforce this section to ensure proper conduct and required attendance by any child enrolled in public school.

16-28-15. Absence must be explained.

Every parent, guardian, or other person having control or charge of any child required to attend public school, private school, or church school, shall as soon as practical explain the cause of any absence of the child under his control or charge which was without permission of the teacher, and a failure to furnish such explanation shall be admissible as evidence of such child being a truant with the consent and connivance of the person in control or charge of said child, unless such person can show to the reasonable satisfaction of the court that he had no knowledge of such absence and that he has been diligent in his efforts to secure the attendance of such child.

16-28-16. Cases of nonenrollment and nonattendance; withdrawal of enrollment.

(a) It shall be the duty of the county superintendent of education or the city superintendent of education, as the case may be, to require the attendance officer to investigate all cases of nonenrollment and of nonattendance. In all cases investigated where no valid reason for nonenrollment or nonattendance is found, the attendance officer shall give written notice to the parent, guardian, or other person having control of the child. In the event of the absence of the parent, guardian, or other person having control of the child from his or her usual place of residence, the attendance officer shall leave a copy of the notice with some person over 12 years of age residing at the usual place of residence, with instructions to hand the notice to the parent, guardian, or other person having control of the child, which notice shall require the attendance of the child at the school within three days from the date of the notice. In the event the investigation discloses that the nonenrollment or nonattendance was without valid excuse or good reason and intentional, the attendance officer shall be required to bring criminal prosecution against the parent, guardian, or other person having control of the child.

(b) Each child who is enrolled in a public school shall be subject to the attendance and truancy provisions of this article except that any parent or parents, guardian or guardians who voluntarily enrolls their child in public school, who feels that it is in the best interest of that child shall have the right to withdraw the child at anytime prior to the current minimum compulsory attendance age.
16-28-17. When child may be taken into custody.

It shall be the duty of the attendance officer, probation officer or other officer authorized to execute writs of arrest to take into custody without warrant any child required to attend school or be instructed by a private tutor who is found away from home and not in the custody of the person having charge or control of such child during school hours and who has been reported by any person authorized to begin proceedings or prosecutions under the provisions of this article as a truant. Such child shall forthwith be delivered to the person having charge or control of said child or to the principal teacher of the school or the private tutor from whom said child is a truant. If such child is an habitual truant, he shall be brought before the juvenile court for such disposition as the judge of said court finds proper from the facts.

(b) For each fiscal year, beginning October 1, 1999, contingent upon the Children First Trust Fund receiving tobacco revenues, the remainder of the Children First Trust Fund, in the amounts provided for in Section 41-15B-2.1 shall be allocated as follows:

REGULATIONS

290-3-1-.02. Regulations governing public schools.

(7) Student Personnel - Admission.

(b) The local board of education, is responsible for adopting policies of admission and attendance within the framework of state law and State Board of Education policies. (1) Regulations Governing School Attendance Standards and the Operation of Motor Vehicles.

(i) Local Education Agency (LEA) Responsibilities

(I) The school system shall provide adequate information to each student concerning the rights, penalties, and guidelines provided in this act. […]

(iv) Suspension and Expulsion Definition. For purposes of implementing Code of Ala. 1995, § 16-28-40 regarding Governing School Attendance Standards and the Operation of Motor Vehicles, suspension and expulsion shall mean a disciplinary action taken by a local school system against a student that requires the student to be removed and absent for a day or more from the instructional program.

(c) Truancy Definition. A parent, guardian, or other person having charge of any child officially enrolled in Alabama public schools (K-12) shall explain in writing the cause of any and every absence of the child no later than three (3) school days following return to school. A failure to furnish such explanation shall be evidence of the child being truant each day he is absent. The child shall also be deemed truant for any absence determined by the principal to be unexcused based upon the State Department of Education's current School Attendance Manual. Seven unexcused absences within a school year constitute a student being truant for the purpose of filing a petition with the Court. The Interagency
Committee on Youth Truancy Task Force recommendations known as the Early Warning Truancy Prevention Program timeline for reporting truancy shall define the truancy status of any student as follows:

1. First truancy/unexcused absence (warning)
   (i) Parent/guardian shall be notified by the school principal or his/her designee that the student was truant and the date of the truancy.
   (ii) Parent/guardian shall also be provided with a copy of Alabama’s compulsory school attendance laws and advised of the penalties that can be applied and the procedures that shall be followed in the event that other unexcused absences occur.

2. No earlier than the fifth unexcused absence (conference)

   (iii) Failure to appear at the school conference and/or to appear at the early warning program shall result in the filing of a complaint/petition against the parent under Code of Ala. 1975, § 16-28-12(c)(failure to cooperate), or a truancy against the child, whichever is appropriate.

3. No earlier than seventh unexcused absence, but within ten (10) school days (court)
   (i) File complaint/petition against the child and/or parent/guardian, if appropriate.

4. Child under probation
   (i) The school attendance officer should be notified by the juvenile probation officer of all children in the school system under probation supervision by the juvenile court as consistent with state statute, Code of Ala. 1975, § 12-15-100 and 105.
   (ii) Where a child under probation is truant, the school attendance officer should immediately notify the juvenile probation officer.

5. Any local education agency may adopt a policy more rigorous than the State policy.

Substance Use

LAWS

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt
from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.

(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

A teacher or administrator who, in good faith, reports suspected drug abuse by a student to the appropriate authorities shall be immune from civil or criminal liability.

16-40A-1. Legislative findings; purpose of chapter.
(a) The Legislature finds that:

(1) Pregnancy and childbirth among unmarried adolescents, particularly young adolescents, often results in severe adverse health, social, and economic consequences, including: a higher percentage of pregnancy and childbirth complications; a higher incidence of low birth weight babies; a higher frequency of developmental disabilities; higher infant mortality and morbidity; a decreased likelihood of completing school; a greater likelihood that an adolescent marriage will end in divorce; and higher risks of unemployment and welfare dependency.

(2) Drug and alcohol abuse diminish the strength and vitality of the young people of our nation and state; an increasing number of substances, both legal and illegal, are being abused by increasing numbers of school children, even at the grade school level; abuse of any substance causes human behavior that influences many forces, including school, family, church, community, media, and peer groups. Prevention and early intervention in such behavior requires cooperation and coordination involving strategies designed to respond to carefully defined problems in which the education system of the state can play an important role.

(b) The purposes of this chapter are:

(1) To find effective means, within the context of the school environment, of reaching adolescents before they become sexually active in order to maximize the guidance and support available to adolescents from teachers, parents, and other family members, and to promote self discipline and other
prudent approaches to the problem of premarital sexual relations of adolescents, including adolescent pregnancy.

(2) To encourage the prevention of alcohol and drug abuse among children in the public schools; to stimulate the development of improved approaches to the prevention of alcohol and drug abuse; to demonstrate the use of such approaches in model educational programs and to evaluate the effectiveness thereof; to disseminate successful approaches and significant information for use in educational programs throughout the public schools; and to provide training programs for school administrators, teachers, and counselors.

16-40A-3. Minimum contents to be included in drug education program or curriculum.

(a) Any program or curriculum in the public schools of Alabama that includes drug education or instructs on the use of drugs or alcohol shall, as a minimum, include the following:

   (1) Age-appropriate, developmentally-based drug and alcohol education and prevention programs that address the legal, social, and health consequences of drug and alcohol use and that provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol for students in all grades of the public schools from early childhood level through grade 12.

   (2) Information conveying to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful and is punishable by fines and imprisonment.

   (3) Standards of conduct that are applicable to students and employees in all public schools and that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on school premises, or as part of any activities of the school.

   (4) A clear statement that sanctions, consistent with local, state, and federal law, up to and including expulsion or termination of employment and referral for prosecution, will be imposed on students and employees who violate the standards of conduct required by subdivision (3). A description of those sanctions shall be included.

16-40A-4. Illegal conduct not to be encouraged or proposed to public school children.

Conduct that is illegal under state or federal law, including but not limited to, illegal use or distribution of controlled substances, underage alcohol use or distribution, sexual intercourse imposed by means of force, or sexual actions which are otherwise illegal, shall not be encouraged or proposed to public school children in such a manner as to indicate that they have a legitimate right to decide or choose illegal conduct.

(a) For each fiscal year, beginning October 1, 1999, contingent upon the Children First Trust Fund receiving tobacco revenues and upon appropriation by the Legislature, an amount of up to and including two hundred twenty-five thousand dollars ($225,000), or equivalent percentage of the total fund, shall be designated for the administration of the fund by the council and the Commissioner of Children's Affairs.

(b) For each fiscal year, beginning October 1, 1999, contingent upon the Children First Trust Fund receiving tobacco revenues, the remainder of the Children First Trust Fund, in the amounts provided for in Section 41-15B-2.1 shall be allocated as follows:

   (1) Ten percent of the fund shall be allocated to the Department of Public Health for distribution to one or more of the following:

      b. Programs for tobacco control among children with the purpose being to reduce the consumption of all tobacco products by children. To be eligible to initially receive a portion of these funds, any county health department, school, local civic club, charity, or not-for-profit corporation shall submit a grant application pursuant to the guidelines promulgated by the State Department of Public Health, with
provisions for annual renewal of the grants. Provisions for program evaluation in order to determine effectiveness, number of children served, and financial accountability shall be included in the guidelines. The Department of Public Health may employ personnel to carry out the purposes of this section and may not expend these funds for any purpose other than those set out in this section.

16-28B-1. Short title.
This chapter shall be known and may be cited as the Jamari Terrell Williams Student Bullying Prevention Act.

16-28B-2. Legislative intent.
It is the intent of the Legislature to provide for the adoption of policies in public school systems to prevent the bullying of students. It is the further intent of the Legislature that this chapter apply only to student against student bullying, intimidation, violence, and threats of violence in the public schools of Alabama, and between students while not on school property, in grades prekindergarten through 12, and that the State Department of Education develop, and each local board of education adopt procedural policies to manage and possibly prevent these acts against any student by another student or students based on the characteristics of a student.

Additionally, it is the intent of the Legislature that the filing of a complaint of bullying be in writing and submitted by the affected student, or the parent or guardian of the affected student, and not by an education employee on behalf of an affected student or his or her parent or guardian.

The following terms have the following meanings:

(1) Bullying. A continuous pattern of intentional behavior that takes place on or off of school property, on a school bus, or at a school-sponsored function including, but not limited to, cyberbullying or written, electronic, verbal, or physical acts that are reasonably perceived as being motivated by any characteristic of a student, or by the association of a student with an individual who has a particular characteristic, if the characteristic falls into one of the categories of personal characteristics contained in the model policy adopted by the department or by a local board, and implemented at each school. To constitute bullying, a pattern of behavior may do any of the following:
   a. Place a student in reasonable fear of harm to his or her person or damage to his or her property.
   b. Have the effect of substantially interfering with the educational performance, opportunities, or benefits of a student.
   c. Have the effect of substantially disrupting or interfering with the orderly operation of the school, whether the conduct occurs on or off school property, online, or electronically.

   e. Have the effect of being sufficiently severe, persistent, or pervasive enough to create an intimidating, threatening, or abusive educational environment for a student.

(2) Department. The State Department of Education.

(3) Hostile Environment. The perception by an affected student or victim that the conduct of another student constitutes a threat of violence or bullying and that the conduct is objectively severe or
pervasive enough that a reasonable person, under the circumstances, would agree that the conduct constitutes bullying, threat of assault, or assault.

(4) Local Board. A city or county board of education.

(5) School. Each public school, grades prekindergarten through 12, the Alabama Institute for Deaf and Blind, the Alabama High School of Mathematics and Science, and the Alabama School of Fine Arts.

(6) School System. The schools under the jurisdiction of a local board.

(7) Threat. A statement of an intention to inflict pain, injury, damage, or other hostile action to cause fear of harm. The intention may be communicated through an electronic, written, verbal, or physical act to cause fear, mental distress, or interference in the school environment. The intention may be expressly stated or implied and the person communicating the threat has the ability to carry out the threat.

16-28B-4. Prohibited behavior; complaints; school plans or programs.

(a) No student shall engage in or be subjected to bullying, intimidation, violence, or threats of violence on or off school property, on a school bus, or at any school-sponsored function by any other student in his or her school system.

(b) No person shall engage in reprisal, retaliation, or false accusation against a victim, witness, or other person who has reliable information about an act of bullying, violence, or threat of violence.

(c) Any student, or parent or guardian of the student, who is the object of bullying may file a complaint outlining the details of the bullying, on a form authorized by the local board, and submit the form to the official designated by the local board to receive complaints at the school. A copy of the form shall be prominently posted and accessible on the website of each local board of education and school, shall be available at each school office, and shall be included in the student handbook that is distributed to each student at the beginning of each school year.

(d) Each school shall develop plans or programs, including, but not limited to, peer mediation teams, in an effort to encourage students to report and address incidents of bullying, violence, or threats of violence. At the beginning of each school year, each school shall programmatically address the issue of bullying and school violence with faculty and students. The program shall include a discussion of available resources and shall encourage the reporting of incidents of bullying. Each school shall also periodically convene a committee of faculty and students to review and discuss the issue of bullying and make recommendations to school administrators regarding school climate, safety, and bullying. The local superintendent of education may report any recommendations to the local board for its consideration.

16-28B-5. Model policy.

The department shall develop a model policy prohibiting bullying, violence, and threats of violence on or off of school property, on a school bus, or at any school-sponsored function. The model policy, at a minimum, shall contain all of the following components:

(11) A clearly defined procedure for students to use in reporting bullying, including, but not limited to, written reports on local board approved complaint forms and written reports of instances of bullying, intimidation, violence, and threats of violence based on the personal characteristics of a student. The complaint form may be served in person or by mail on the principal, or his or her designee, or his or her office. The procedures shall be made known and be readily available to each student, employee, and the parent or guardian of each student. It is the sole responsibility of the affected student, or the parent or guardian of the affected student, to report incidences of bullying to the principal, or his or her designee.

(12) A procedure for promulgating rules to implement this chapter, including the development of a model student complaint form. The department shall seek public input in developing and revising the model policy, model complaint form, and any other necessary forms.

(13) A procedure for the development of a nonexhaustive list of the specific personal characteristics of a student which may often lead to bullying. Based upon experience, a local board of education may add, but not remove, characteristics from the list. The additional characteristics or perceived characteristics that cause bullying shall be identified by the local board on a case-by-case basis and added to the local board policy. The list shall be included in the code of conduct policy of each local board and included in the student handbook.

16-28B-6. Duties of schools.

Each school shall do all of the following:

(1) Develop and implement evidence-based practices to promote a school environment that is free of harassment, intimidation, violence, and threats of violence.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

16-6B-3. Assistance programs.

(a) Student strategy. - The superintendent of the local board of education along with the staff of each school shall develop an assistance program at each school for at-risk students performing below the standards set by the State Board of Education. The standards shall include the results of the required assessment program adopted by the State Board of Education with emphasis on students who are found to be at one or more grade levels below the prescribed norm. The local board of education shall budget at least one hundred dollars ($100) per student so identified to be expended on tutorial assistance programs including, but not limited to, after-school, Saturday school, or summer school, or any combination of these programs. These funds may be budgeted from state or federal funds. However, federal funds already budgeted for at-risk students may not be counted toward the minimum one hundred dollars ($100) requirement set aside to be expended for at-risk students as defined in this chapter. In addition, these funds may be expended for any of the following purposes:

(1) Programs to encourage at-risk five-year olds to attend an approved preschool program.
(2) Programs to identify at-risk students in the first grade.
(3) Programs to ensure strict enforcement of truancy laws.
(4) Programs to create alternative or disciplinary schools in which children who consistently exhibit behaviors or patterns of behaviors that interfere with the learning environment of other students would be placed and would be provided counseling and instruction in basic skills.
(5) Programs to encourage parental involvement of parents of at-risk children.
(6) Programs to encourage literacy of parents of at-risk children.
(b) School strategy. - The State Board of Education shall develop an assistance program for a school in need of assistance. A school in need of assistance shall mean any school which has a majority of its students scoring one or more grade levels below the prescribed norm on the state adopted student assessments. Local superintendents and local boards of education will be expected to make the effort and commit the resources necessary to improve the instructional program for a school in need of assistance and shall be required to budget all funds earned by that school in the cost calculations of the foundation program. Local superintendents and local boards of education are encouraged to use assistance from the State Department of Education, colleges of education, accrediting agencies and other sources.

The State Board of Education's plan for an assistance program shall consist of the following components:

1. The faculty and staff of each school in need of assistance shall engage in a self-study to examine the problem of low achievement within that school and shall develop steps which may be taken to improve student achievement. Parents of students in the schools shall be consulted as part of this self-study.

2. If, after two years, student achievement has not improved, the State Superintendent of Education shall designate a team of practicing professionals to visit the school, conduct a study, consult with parents of students in the school, analyze causes of poor student achievement, and make specific recommendations which shall become a part of a school improvement plan for the succeeding year.

3. As a final step, when insufficient or no improvement as determined by the State Board of Education is evident from the implementation of steps one and two above, the State Superintendent of Education is required to intervene and to appoint a person or persons to run the day-to-day operation of the school. In considering intervention, the State Board of Education shall consider factors which may have affected the prescribed norm test score. Factors shall include drop-out rates, attendance rates, special education enrollment, and any other data necessary to properly interpret student achievement in each school.

(c) School system strategy. - The State Board of Education shall develop an assistance program for a local board of education identified as being in need of assistance. A local board of education in need of assistance shall mean any local board of education which has a majority of its schools, or a majority of the students in a system, in which the students are scoring one or more grade levels below the prescribed norm.

The State Board of Education shall require a local board of education in need of assistance to do the following:

1. The local board of education and the local superintendent with input from other administrators, teachers, staff, parents of students in the school, and the local community shall engage in a self-study to examine the problem of low achievement within the system and to develop steps which may be taken to improve student achievement.

2. If, after two years, student achievement has not improved, the state superintendent shall develop a system-wide school improvement plan in consultation with teachers, parents of students in the school, and the local community. This school improvement plan shall become a part of the local board of education's program and financial operations for the succeeding year.

3. If, after the implementation of the school improvement plan, student achievement has not sufficiently improved, relative to the previous year's performance, the State Board of Education shall require the State Superintendent of Education to intervene and assume the direct management and day-to-day operation of the local board of education for such period of time as may be necessary for student achievement to improve. In considering intervention, the State Board of Education shall consider factors which may have affected the prescribed norm test score. Factors shall include drop-out rates,
attendance rates, special education enrollment, and any other data necessary to properly interpret student achievement in each system.

(d) It is the intent of the Legislature that intervention is not to occur when a school or school system scores below the prescribed average. Intervention by the State Board of Education is to occur only after the three-year period provided in this chapter during which a school or school system fails to show improvement. So long as improvement is being shown, the State Board of Education shall not intervene but shall continue to encourage the school to improve.

(7) A response procedure for a school to follow upon confirmation of an incident of intimidation, bullying, violence, or threats of violence.

(11) A clearly defined procedure for students to use in reporting bullying, including, but not limited to, written reports on local board approved complaint forms and written reports of instances of bullying, intimidation, violence, and threats of violence based on the personal characteristics of a student. The complaint form may be served in person or by mail on the principal, or his or her designee, or his or her office. The procedures shall be made known and be readily available to each student, employee, and the parent or guardian of each student. It is the sole responsibility of the affected student, or the parent or guardian of the affected student, to report incidences of bullying to the principal, or his or her designee.

Based upon experience, a local board of education may add, but not remove, characteristics from the list. The additional characteristics or perceived characteristics that cause bullying shall be identified by the local board on a case-by-case basis and added to the local board policy. The list shall be included in the code of conduct policy of each local board and included in the student handbook.

RtI combines core instruction, assessment, and intervention with a multi-tiered system to increase student achievement and reduce behavior problems.

(b) Decisions regarding the number of PSTs needed by a school should be determined at the school level; however, a minimum of one PST per school is required to review data-based documentation regarding students' progress regularly, advise teachers on specific interventions matched to student needs, and communicate with parents regarding student intervention needs being provided.

(c) The Problem Solving Teams will analyze screening and progress-monitoring data to assist teachers in planning and implementing appropriate instruction and evidence-based interventions for all students with academic and/or behavioral difficulties, including those students who exhibit the characteristics of dyslexia.

(d) The documentation requirements for a referral to special education found in the Alabama Administrative Code, Chapter 290-8-9.01(2) and (4)(Child Identification) and Chapter 290-8-9.03(10)(b)1, (10)(c)2.(ii), (10)(d)2.(I)(II)(ii) and (10)(d)4 (Disability Definitions, Criteria, and Minimum Required Evaluative Components) must be collected and provided by the PST to rule out the lack of appropriate instruction in reading or math including the essential components of reading instruction or Limited English Proficiency (LEP), as the determining factor in the eligibility decision.

(e) Any student who is reevaluated and determined not eligible for special education services must be referred to the PST to determine the appropriate supplemental services to facilitate successful transition in the general education program.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student’s exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.

(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

16-1-24.3. Local boards of education to implement policies requiring expulsion of students who possess firearms in school areas.

(a) All city and county boards of education shall develop and implement local policies and procedures requiring the expulsion of students, for a period of one year, who are determined to have brought to school or have in their possession a firearm in a school building, on school grounds, on school buses, or at other school-sponsored functions. Notwithstanding the foregoing, city and county boards of education and the local superintendent of education of each board may modify the expulsion requirement for a student on a case-by-case basis. Students who are expelled for violation of this section shall not be
allowed to attend regular school classes in any public school in the state during the expulsion period. Students who are expelled from schools for firearm possession may be permitted to attend alternative schools designed to provide education services. Discipline of students with disabilities who violate the firearm possession policies of city and county boards of education shall be determined on a case-by-case basis in accordance with the requirements of the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act.

(b) For the purposes of this section, the term "firearm" has the same meaning as defined in Section 921 of Title 18 of the United States Code.

(c) When there are violations of the prohibition on firearms being brought to school or the possession of firearms by students, the school principal shall notify the appropriate law enforcement authority which may include city police, county sheriffs, and the local district attorney. In addition to notification of law enforcement officials, the school principal shall notify the parents of students who violate the firearm-free school environment provided for in this section.

Law enforcement authorities involved with students charged with firearm violations shall refer the violators of this section to the appropriate authority in the judicial system when the action is feasible.

(d) Local education agencies submitting applications for federal funds to the State Department of Education shall include in the application:

(b) Each local public board of education shall adopt a written policy for its standards on school behavior. Each local public school superintendent shall provide at the commencement of each academic year a copy of the written policy on school behavior to each parent, guardian, or other person having care or
control of a child who is enrolled. Included in the written policy shall be a copy of this section. The signature of the student and the parent, guardian, or other person having control or custody of the child shall document receipt of the policy.

(c) Any parent, guardian, or other person having control or custody of any child enrolled in public school who fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in accordance with the written policy on school behavior adopted by the local board of education and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be reported by the principal to the superintendent of education of the school system in which the suspected violation occurred. The superintendent of education or his or her designee shall report suspected violations to the district attorney within 10 days. Any principal or superintendent of education or his or her designee intentionally failing to report a suspected violation shall be guilty of a Class C misdemeanor. Such child shall forthwith be delivered to the person having charge or control of said child or to the principal teacher of the school or the private tutor from whom said child is a truant. Alaska
Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. The crisis response team may include one member of the governing board or advisory school board, a school counselor, a member from local law enforcement authorities, and one student in grade 10 or higher if the school has those grades. The district and each school within the district shall consult with local social services agencies and local law enforcement authorities when developing the school crisis response plan.

(b) A school specific crisis response plan must meet standards as determined by the department by regulation. A school specific crisis response plan must include

(c) Each district shall annually review and update as appropriate each school's crisis response plan. A copy of each school's crisis response plan, as annually updated, shall be retained by the district and a copy provided to each local agency that has a role in the plan. Notice of completion of the annual review and update and the location of a school's crisis response plan shall be posted at each school in the district. A school crisis response plan shall be printed and available for inspection by the public.

(d) Each district shall provide to each district employee training in crisis response, including evacuation and lockdown drills. New district employees who have not previously received the training required under this subsection shall receive the required training within two years after the first day of employment and, thereafter, according to the schedule adopted by the governing body of a school district.

(a) Notwithstanding any other provision of law, a school district shall
   (1) expel for at least one year a student who violates AS 11.61.210(a)(8) while possessing a firearm, as that term is defined under 18 U.S.C. 921;
   (2) suspend for at least 30 days, or expel for the school year or permanently, a student who violates AS 11.61.210(a)(8) while possessing a deadly weapon, other than a firearm as that term is defined under 18 U.S.C. 921.
(b) The administrative officer of a school district may on a case-by-case basis reduce or otherwise modify the expulsion or suspension of a student under (a) of this section.
(c) A prior conviction, or adjudication of delinquency or child in need of aid, for violation of AS 11.61.210(a)(8) is not necessary for a school board to suspend or expel a student under this section.
(d) Each school district shall adopt a policy providing for the
   (1) referral to law enforcement authorities of students who violate AS 11.61.210(a)(8);
   (2) identification of procedures and conditions for early reinstatement of students suspended or expelled under this section.
(e) Annually on a date set by the department, each school district shall report to the department the number of students expelled under this section and the types of weapons involved.
(f) In this section,
   (1) “deadly weapon” has the meaning given in AS 11.81.900;
   (2) “district” has the meaning given in AS 14.17.990.

14.30.045. Grounds for suspension or denial of admission.
A school age child may be suspended from or denied admission to the public school that the child is otherwise entitled to attend only for the following causes:
   (1) continued wilful disobedience or open and persistent defiance of reasonable school authority;
   (2) behavior that is inimicable to the welfare, safety, or morals of other pupils or a person employed or volunteering at the school;
   (3) a physical or mental condition that in the opinion of a competent medical authority will render the child unable to reasonably benefit from the programs available;
   (4) a physical or mental condition that in the opinion of a competent medical authority will cause the attendance of the child to be inimicable to the welfare of other pupils;
   (5) conviction of a felony that the governing body of the district determines will cause the attendance of the child to be inimicable to the welfare or education of other pupils.

(a) By July 1, 2007, each school district shall adopt a policy that prohibits the harassment, intimidation, or bullying of any student. Each school district shall share this policy with parents or guardians, students, volunteers, and school employees.

(b) The policy must be adopted through the standard policy-making procedure for each district that includes the opportunity for participation by parents or guardians, school employees, volunteers, students, administrators, and community representatives. The policy must emphasize positive character traits and values, including the importance of civil and respectful speech and conduct, and the responsibility of students to comply with the district's policy prohibiting harassment, intimidation, or bullying. The policy must also include provisions for an appropriate punishment schedule up to and including expulsion and reporting of criminal activity to local law enforcement authorities. School employees, volunteers, students, and administrators shall adhere to this policy.

(c) By January 1, 2007, the department, in consultation with representatives of parents or guardians, school personnel, and other interested parties, may provide to school districts a model harassment, intimidation, and bullying prevention policy and training materials on the components that should be included in a district policy. Training materials may be disseminated in a variety of ways, including workshops and other staff developmental activities, and through the Internet website of the department. Materials included on the Internet website must include the model policy and recommended training and instructional materials. (a) In a public school, the superintendent or principal may suspend a pupil under the provisions of AS 14.30.045, and the pupil may be reinstated by the superintendent or principal or by the school board. A child who is diagnosed as having acquired immune deficiency syndrome (AIDS) or the human immunodeficiency virus (HIV) does not have a condition which "will cause the attendance of the child to be inimical of the welfare of other pupils," within the meaning of AS 14.30.045(4), unless the child has uncoverable oozing lesions or other symptoms, or displays behavior, such as biting, which in the opinion of a team made up of the child's physician, public health personnel, the child's parent or guardian, and school personnel associated with the child's educational placement, substantially increases the risk of transmission of HIV to other pupils.

(b) Expulsion or denial of admission of a pupil shall be only upon the action of the governing school board in a district school.

(c) A pupil suspended or expelled under this section may appeal to the district board.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

Arkansas
Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer's knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center's website.

Restraint and Seclusion

LAWS

No relevant laws found.
005.18.020-20.01. General.
20.01.1 The time-out seclusion room is an extension of such techniques as turning a chair away from a group or placing a student in a corner or in the hallway.
20.01.2 Time-out is only effective if the classroom environment from which the student is removed is more reinforcing than the isolation area in which he is placed.

005.18.020-20.02. Definition.
20.02.1 Time-out
As used in these regulations, time-out is defined as the removal of the opportunity to engage in reinforced behavior.

005.18.020-20.03. Restrictions on the use of a time-out seclusion room.
20.03.1 Time-out seclusion should be used only for behaviors that are destructive to property, aggressive toward others or severely disruptive to the class environment. General noncompliance, self-stimulation, academic refusal, etc., can be responded to with less stringent and restrictive techniques.
20.03.2 The time-out seclusion room should be used only as a last resort if and when less restrictive means of controlling behavior have proven ineffective.
20.03.3 The necessity of using physical force to place a student in a time-out seclusion room is inappropriate beyond that reasonably managed by the classroom teacher.
   20.03.3.1 Involuntary time-out must not be used with such students and, in general, time-out is not an appropriate intervention for classroom use with any students older than 12 unless they have made a contractual agreement for its use.
   20.03.3.2 It is important that teachers realistically evaluate their ability to physically remove a student to the time-out room.
   20.03.3.3 If there is a reasonable doubt concerning the capability of the teacher to physically remove the resistant student, the teacher should not begin to attempt the time-out procedure. In such a case, an alternative strategy should be implemented.
20.03.4 Time-out seclusion rooms must meet structural guidelines and provide for continuous monitoring, visually and auditorily, of the student's behavior by an adult. (Refer to § 20.04.9 of this part for structural guidelines.)

005.18.020-20.04. Guidelines for appropriate use of a time-out seclusion room.
20.04.1 The teacher or behavioral specialist should have documentation that milder forms of time-out or other reduction techniques have proven ineffective in suppressing the inappropriate behavior.
20.04.2 The use of seclusion time-out and the behaviors which will result in its use must be explicitly stated in the student's IEP. Parent consent for the use of a time-out seclusion procedure should be documented.
20.04.3 Time-out must be paired with a behavioral plan to provide positive reinforcement for appropriate behaviors. This must also be included in the student's IEP.
20.04.4 Written procedures must be developed and followed for each student whose IEP includes the use of time-out.
20.04.5 The following guidelines should be adhered to for effective use of the timeout seclusion room.
   20.04.5.1 Avoid lengthy verbal explanations. Behaviors resulting in time-out should be clearly explained prior to implementing the time-out program. Explanations provided during use of time-out should be
brief, but should adequately inform the student of his/her misbehavior, such as, "Because you
______________, you must go to time-out for ________minutes." All other verbal interaction should be
avoided.

20.04.5.2 To maximize opportunities to exercise self-control, students should be given the opportunity
to take their own time-out after receiving instructions from the teacher. However, if students refuse to
take their own time-out, or if they fail to respond to the teacher's instructions within a reasonable time
interval (5 to 10 seconds), the teacher should physically remove them to the time-out area. (Refer to §
20.03.3 of these regulations regarding physically removing the child to the time-out area.)

20.04.5.3 For high intensity behavior (e.g., kicking, screaming), the student should immediately be
escorted to the time-out room.

20.04.6 Time Spent In Time-Out Seclusion Room

20.04.6.1 Length of time spent in the time-out seclusion room must be documented and kept within the
specified time limits
   A. Preschool - no more than 5 minutes for each exclusion.
   B. Lower elementary - no more than 15 minutes for each exclusion.
   C. Middle/upper elementary - no more than 20 minutes for each exclusion.

20.04.6.2 At the end of the prescribed time, the student should be offered the opportunity to rejoin the
class. If the student chooses to stay in time-out, the door must be left open at this time. When a student
consistently chooses to stay in the time-out seclusion room beyond the prescribed time limit, the use of
this procedure must be reviewed. The time-out room may be providing more reinforcement than the
environment from which the student was removed.

20.04.6.3 Should there be a need for a time-out period to extend past the prescribed time limits, the
appropriateness of continuing the time-out procedure should be evaluated immediately by
knowledgeable professionals (i.e., principal, counselor, special education staff).

20.04.6.4 Careful consideration must be taken in extending the prescribed length of the time-out
seclusion. The effectiveness of the time-out procedure is the result of its consistent use, rather than the
length of stay in the timeout seclusion room.

20.04.7 Records Must Be Kept Of Each Occasion When Time-Out Seclusion Is Used. The Records
Should Include
   20.04.7.1 The student's name;
   20.04.7.2 The behavior for which time-out is being used, as specified in the IEP; and
   20.04.7.3 The time of day the student was placed in and released from time-out.

20.04.8 When the use of time-out seclusion is included in a student's IEP, it is recommended that the use
of time-out to address specific student behaviors be reviewed by a knowledgeable professional(s) twice
monthly.

   20.04.8.1 The use of the time-out seclusion procedure shall be altered or discontinued as a behavioral
management technique if data do not support its effectiveness.
   20.04.8.2 The continued and/or frequent need for this type of behavioral intervention could indicate that
behavioral objectives, management techniques or other factors affecting the learning environment are
not appropriately matched with the student's needs and behaviors.

20.04.9 If A Time-Out Room Is To Be Employed, The Time-Out Room Should
   20.04.9.1 Be at least 4' X 4' and no larger than 6' X 6' in size;
   20.04.9.2 Be properly lighted (preferably recessed lighting, with switches outside the room). Lighting
should remain on at all times;
20.04.9.3 Be properly ventilated;
20.04.9.4 Be free of objects and fixtures;
20.04.9.5 Provide the means by which an adult can continuously monitor, visually and auditorily, the student's behavior;
20.04.9.6 The door should be such that it cannot be locked; and
20.04.9.7 Meet state and county fire and safety codes.

20.04.10 In addition, it is necessary that all personnel involved in designing and implementing behavioral management procedures, including the use of timeout seclusion, be adequately trained and supervised. It is imperative that these persons have attained levels of skill and competency so that their qualifications correspond to their responsibilities.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

**LAWS**

**EDC 221.1.**
The State Board of Education shall adopt regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, commonly referred to as the rulemaking provisions of the Administrative Procedure Act, to implement this chapter.

**EDC 32280.**
It is the intent of the Legislature that all California public schools, in kindergarten, and grades 1 to 12, inclusive, operated by school districts, in cooperation with local law enforcement agencies, community leaders, parents, pupils, teachers, administrators, classified employees, and other persons who may be interested in the prevention of campus crime and violence, develop a comprehensive school safety plan that addresses the safety concerns identified through a systematic planning process. It is also the intent of the Legislature that all school staff be trained on the comprehensive school safety plan. For the purposes of this section, law enforcement agencies include local police departments, county sheriffs' offices, school district police or security departments, probation departments, and district attorneys' offices. For purposes of this section, a "safety plan" means a plan to develop strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on the school campus.

**EDC 33031.**
The board shall adopt rules and regulations not inconsistent with the laws of this state (a) for its own government, (b) for the government of its appointees and employees, (c) for the government of the day and evening elementary schools, the day and evening secondary schools, and the technical and vocational schools of the state, and (d) for the government of other schools, excepting the University of California, the California State University, and the California Community Colleges, as may receive in whole or in part financial support from the state.

EDC 44667.

(a) It is the intent of the Legislature to encourage school districts to plan and implement alternative models of school-based management projects, or advanced career opportunities for classroom teachers projects, or a combination of both, for one or more schools in the district. Further, it is the intent of the Legislature that school district governing boards and administrators work with classroom teachers and teacher bargaining units to develop and strengthen procedures that increase teachers’ decisionmaking authority in responsibilities that affect their ability to teach. These procedures may include, but need not be limited to, the following:

(1) Selection of new teachers and administrators.
(2) Evaluation of teacher and administrator performance.
(3) Selection of curricular areas for improvement.
(4) Tailoring and coordination of curriculum and instruction across grade levels and within departments at the schoolsite level.
(5) Establishment of pupil discipline policies.
(6) Design and conduct of staff development programs and policies.
(7) Assignment of pupils and scheduling of classes.
(8) Schoolwide problem solving and program development.
(9) Organization of the school for effective instruction.
(10) Development of procedures designed to institutionalize teacher involvement in decisionmaking.
(11) Determining the roles and functions of teachers, administrators, and classified employees at the school site.
(12) Development of alternative methods of teacher compensation that reward teaching excellence, exceptional achievement or the assumption of additional educational responsibilities.
(13) Establishment of policies to decentralize district decisionmaking by providing schoolsite administrators and teachers with greater budget authority including the allocation of fiscal, personnel, and other resources at the schoolsite.

(b) Participation of school districts in the programs established pursuant to this article shall be on a voluntary basis. A school district shall be eligible to participate only upon the approval of participation by
both the governing board of the district and the exclusive representative of certificated employees of the
district.

**EDC 48914.**

Each school district is authorized to establish a policy that permits school officials to conduct a meeting
with the parent or guardian of a suspended pupil to discuss the causes, the duration, the school policy
involved, and other matters pertinent to the suspension.

**EDC 48918.**

The governing board of each school district shall establish rules and regulations governing procedures for
the expulsion of pupils. These procedures shall include, but are not necessarily limited to, all of the
following:

(a)(1) The pupil shall be entitled to a hearing to determine whether the pupil should be expelled. An
expulsion hearing shall be held within 30 schooldays after the date the principal or the superintendent of
schools determines that the pupil has committed any of the acts enumerated in Section 48900, unless the
pupil requests, in writing, that the hearing be postponed. The adopted rules and regulations shall specify
that the pupil is entitled to at least one postponement of an expulsion hearing, for a period of not more
than 30 calendar days. Any additional postponement may be granted at the discretion of the governing
board of the school district.

(2) Within 10 schooldays after the conclusion of the hearing, the governing board of the school district
shall decide whether to expel the pupil, unless the pupil requests in writing that the decision be
postponed. If the hearing is held by a hearing officer or an administrative panel, or if the governing
board of the school district does not meet on a weekly basis, the governing board of the school district
shall decide whether to expel the pupil within 40 schooldays after the date of the pupil's removal from
his or her school of attendance for the incident for which the recommendation for expulsion is made by
the principal or the superintendent of schools, unless the pupil requests in writing that the decision
be postponed.

(3) If compliance by the governing board of the school district with the time requirements for the
conducting of an expulsion hearing under this subdivision is impracticable during the regular school
year, the superintendent of schools or the superintendent's designee may, for good cause, extend the
time period for the holding of the expulsion hearing for an additional five schooldays. If compliance by
the governing board of the school district with the time requirements for the conducting of an expulsion
hearing under this subdivision is impractical due to a summer recess of governing board meetings of
more than two weeks, the days during the recess period shall not be counted as schooldays in meeting
the time requirements. The days not counted as schooldays in meeting the time requirements for an
expulsion hearing because of a summer recess of governing board meetings shall not exceed 20
schooldays, as defined in subdivision (c) of Section 48925, and unless the pupil requests in writing that
the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days before
the first day of school for the school year. Reasons for the extension of the time for the hearing shall be
included as a part of the record at the time the expulsion hearing is conducted. Upon the
commencement of the hearing, all matters shall be pursued and conducted with reasonable diligence
and shall be concluded without any unnecessary delay.

For the purposes of this section, "community service" may include, but is not limited to, work performed in the community or on school grounds in the areas of outdoor beautification, community or campus betterment, and teacher, peer, or youth assistance programs. This section does not apply if a pupil has been suspended, pending expulsion, pursuant to Section 48915.    (3) The supervised suspension classroom promotes completion of schoolwork and tests missed by the pupil during the suspension.

   (4) Each pupil is responsible for contacting his or her teacher or teachers to receive assignments to be completed while the pupil is assigned to the supervised suspension classroom. The teacher shall provide all assignments and tests that the pupil will miss while suspended. If no classroom work is assigned, the person supervising the suspension classroom shall assign schoolwork.

(d) At the time a pupil is assigned to a supervised suspension classroom, a school employee shall notify, in person or by telephone, the pupil's parent or guardian. Whenever a pupil is assigned to a supervised suspension classroom for longer than one class period, a school employee shall notify, in writing, the pupil's parent or guardian.
(e) This section does not place any limitation on a school district's ability to transfer a pupil to an opportunity school or class or a continuation education school or class.

(f) Apportionments claimed by a school district for pupils assigned to supervised suspension shall be used specifically to mitigate the cost of implementing this section.

**EDC 48911.2.**

(a) If the number of pupils suspended from school during the prior school year exceeded 30 percent of the school's enrollment, the school should consider doing at least one of the following:

1. Implement the supervised suspension program described in Section 48911.1.

2. Implement an alternative to the school's off-campus suspension program, which involves a progressive discipline approach that occurs during the schoolday on campus, using any of the following activities:
   - Conferences between the school staff, parents, and pupils.
   - Referral to the school counselor, psychologist, child welfare attendance personnel, or other school support service staff.
   - Detention.
   - Study teams, guidance teams, resource panel teams, or other assessment-related teams.

(b) At the end of the academic year, the school may report to the district superintendent in charge of school support services, or other comparable administrator if that position does not exist, on the rate of reduction in the school's off-campus suspensions and the plan or activities used to comply with subdivision (a).

(c) It is the intent of the Legislature to encourage schools that choose to implement this section to examine alternatives to off-campus suspensions that lead to resolution of pupil misconduct without sending pupils off campus. Schools that use this section should not be precluded from suspending pupils to an off-campus site.

**EDC 48917.**

(a) The governing board, upon voting to expel a pupil, may suspend the enforcement of the expulsion order for a period of not more than one calendar year and may, as a condition of the suspension of enforcement, assign the pupil to a school, class, or program that is deemed appropriate for the rehabilitation of the pupil. The rehabilitation program to which the pupil is assigned may provide for the involvement of the pupil's parent or guardian in his or her child's education in ways that are specified in the rehabilitation program. A parent or guardian's refusal to participate in the rehabilitation program shall not be considered in the governing board's determination as to whether the pupil has satisfactorily completed the rehabilitation program.

(b) The governing board shall apply the criteria for suspending the enforcement of the expulsion order equally to all pupils, including individuals with exceptional needs as defined in Section 56026.

(c) During the period of the suspension of the expulsion order, the pupil is deemed to be on probationary status.

(d) The governing board may revoke the suspension of an expulsion order under this section if the pupil commits any of the acts enumerated in Section 48900 or violates any of the district's rules and regulations governing pupil conduct. When the governing board revokes the suspension of an expulsion order, a pupil may be expelled under the terms of the original expulsion order.

(e) Upon satisfactory completion of the rehabilitation assignment of a pupil, the governing board shall reinstate the pupil in a school of the district and may also order the expungement of any or all records of the expulsion proceedings.
(f) A decision of the governing board to suspend an expulsion order does not affect the time period and requirements for the filing of an appeal of the expulsion order with the county board of education required under Section 48919. Any appeal shall be filed within 30 days of the original vote of the governing board.

EDC 49600.

(c) A person aggrieved by a violation of subdivision (a) may bring a civil action to enjoin the violation, for compensatory and punitive damages, for injunctive relief, and for the cost of suit and reasonable attorney's and expert witness' fees. With respect to compensatory damages, the plaintiff may elect, at any time prior to the rendering of a final judgment, to recover, in lieu of actual damages, an award of statutory damages in the amount of five thousand dollars ($5,000) per violation of paragraph (1) of subdivision (a), and one thousand dollars ($1,000) per violation of paragraph (2) of subdivision (a).

**EDC 44807.**
Every teacher in the public schools shall hold pupils to a strict account for their conduct on the way to and from school, on the playgrounds, or during recess. A teacher, vice principal, principal, or any other certificated employee of a school district, shall not be subject to criminal prosecution or criminal penalties for the exercise, during the performance of his duties, of the same degree of physical control over a pupil that a parent would be legally privileged to exercise but which in no event shall exceed the amount of physical control reasonably necessary to maintain order, protect property, or protect the health and safety of pupils, or to maintain proper and appropriate conditions conducive to learning. The provisions of this section are in addition to and do not supersede the provisions of Section 49000.

**EDC 49000.**
The Legislature finds and declares that the protection against corporal punishment, which extends to other citizens in other walks of life, should include children while they are under the control of the public schools. Children of school age are at the most vulnerable and impressionable period of their lives and it is wholly reasonable that the safeguards to the integrity and sanctity of their bodies should be, at this tender age, at least equal to that afforded to other citizens.

**EDC 49001.**
(a) For the purposes of this section "corporal punishment" means the willful infliction of, or willfully causing the infliction of, physical pain on a pupil. An amount of force that is reasonable and necessary for a person employed by or engaged in a public school to quell a disturbance threatening physical injury to persons or damage to property, for purposes of self-defense, or to obtain possession of weapons or other dangerous objects within the control of the pupil, is not and shall not be construed to be corporal punishment within the meaning and intent of this section. Physical pain or discomfort caused by athletic competition or other such recreational activity, voluntarily engaged in by the pupil, is not and shall not be construed to be corporal punishment within the meaning and intent of this section.

(b) No person employed by or engaged in a public school shall inflict, or cause to be inflicted corporal punishment upon a pupil. Every resolution, bylaw, rule, ordinance, or other act or authority permitting or authorizing the infliction of corporal punishment upon a pupil attending a public school is void and unenforceable.

EDC 49005.
The Legislature finds and declares all of the following:
(a) While it is appropriate to intervene in an emergency to prevent a pupil from imminent risk of serious physical self-harm or harm of others, restraint and seclusion are dangerous interventions, with certain known practices posing a great risk to child health and safety.
(b) United States Department of Education guidelines specify that the use of restraint and seclusion must be consistent with the child's right to be treated with dignity and to be free from abuse.
(c) Restraint and seclusion should only be used as a safety measure of last resort, and should never be used as punishment or discipline or for staff convenience.
(d) Restraint and seclusion may cause serious injury or long lasting trauma and death, even when done safely and correctly.
(e) There is no evidence that restraint or seclusion is effective in reducing the problem behaviors that frequently precipitate the use of those techniques.
(f) Pupils with disabilities and pupils of color, especially African American boys, are disproportionately subject to restraint and seclusion.
(g) Well-established California law already regulates restraint techniques in a number of settings, including general acute care hospitals, acute psychiatric hospitals, psychiatric health facilities, crisis stabilization units, community treatment facilities, group homes, skilled nursing facilities, intermediate care facilities, community care facilities, and mental health rehabilitation centers. These minimal protections should be provided to all pupils in schools.
(h) It is the intent of the Legislature to ensure that schools foster learning in a safe and healthy environment and provide adequate safeguards to prevent harm, and even death, to children in school.
(i) This article is intended to be read to be consistent with, and does not change any requirements, limitations, or protections in, existing law pertaining to pupils with exceptional needs.
(j) It is the intent of the Legislature to prohibit dangerous practices. Restraint and seclusion, as described in this article, do not further a child's education. At the same time, the Legislature recognizes that if an emergency situation arises, the ability of education personnel to act in that emergency to safeguard a pupil or others from imminent physical harm should not be restricted.

**EDC 49005.1.**

The following definitions apply to this article:

(a) "Behavioral restraint" means "mechanical restraint" or "physical restraint," as defined in this section, used as an intervention when a pupil presents an immediate danger to self or to others. "Behavioral restraint" does not include postural restraints or devices used to improve a pupil's mobility and independent functioning rather than to restrict movement.

(b) "Educational provider" means a person who provides educational or related services, support, or other assistance to a pupil enrolled in an educational program provided by a local educational agency or a nonpublic school or agency.

(c) "Local educational agency" means a school district, county office of education, charter school, the California Schools for the Deaf, and the California School for the Blind.

(d)(1) "Mechanical restraint" means the use of a device or equipment to restrict a pupil's freedom of movement.

(2)(A) "Mechanical restraint" does not include the use of devices by peace officers or security personnel for detention or for public safety purposes.

(B) "Mechanical restraint" does not include the use of devices by trained school personnel, or by a pupil, prescribed by an appropriate medical or related services professional, if the device is used for the specific and approved purpose for which the device or equipment was prescribed, which shall include, but not be limited to, all of the following:

(i) Adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports.

(ii) Vehicle safety restraints when used as intended during the transport of a pupil in a moving vehicle.

(iii) Restraints for medical immobilization.

(iv) Orthopedically prescribed devices that permit a pupil to participate in activities without risk of harm.

(e) "Nonpublic school or agency" means any nonpublic school or nonpublic agency, including both in-state and out-of-state nonpublic schools and nonpublic agencies.

(f)(1) "Physical restraint" means a personal restriction that immobilizes or reduces the ability of a pupil to move the pupil's torso, arms, legs, or head freely. "Physical restraint" does not include a physical escort, which means a temporary touching or holding of the hand, wrist, arm, shoulder, or back for the purpose of inducing a pupil who is acting out to walk to a safe location.

(2) "Physical restraint" does not include the use of force by peace officers or security personnel for detention or for public safety purposes.

(g) "Prone restraint" means the application of a behavioral restraint on a pupil in a facedown position.

(h) "Pupil" means a pupil enrolled in preschool, kindergarten, or any of grades 1 to 12, inclusive, and receiving educational services from an educational provider.

(i) "Seclusion" means the involuntary confinement of a pupil alone in a room or area from which the pupil is physically prevented from leaving. "Seclusion" does not include a timeout, which is a behavior
management technique that is part of an approved program, that involves the monitored separation of
the pupil in a nonlocked setting, and is implemented for the purpose of calming.

**EDC 49005.2.**
A pupil has the right to be free from the use of seclusion and behavioral restraints of any form imposed as
a means of coercion, discipline, convenience, or retaliation by staff. This right includes, but is not limited
to, the right to be free from the use of a drug administered to the pupil in order to control the pupil's
behavior or to restrict the pupil's freedom of movement, if that drug is not a standard treatment for the
pupil's medical or psychiatric condition.

**EDC 49005.4.**
An educational provider may use seclusion or a behavioral restraint only to control behavior that poses a
clear and present danger of serious physical harm to the pupil or others that cannot be immediately
prevented by a response that is less restrictive.

**EDC 49005.6.**
An educational provider shall avoid, whenever possible, the use of seclusion or behavioral restraint
techniques.

**EDC 49005.8.**
(a) An educational provider shall not do any of the following:

1. Use seclusion or a behavioral restraint for the purpose of coercion, discipline, convenience, or
   retaliation.

2. Use locked seclusion, unless it is in a facility otherwise licensed or permitted by state law to use a
   locked room.

3. Use a physical restraint technique that obstructs a pupil's respiratory airway or impairs the pupil's
   breathing or respiratory capacity, including techniques in which a staff member places pressure on a
   pupil's back or places his or her body weight against the pupil's torso or back.

4. Use a behavioral restraint technique that restricts breathing, including, but not limited to, using
   a pillow, blanket, carpet, mat, or other item to cover a pupil's face.

5. Place a pupil in a facedown position with the pupil's hands held or restrained behind the pupil's
   back.

6. Use a behavioral restraint for longer than is necessary to contain the behavior that poses a clear
   and present danger of serious physical harm to the pupil or others.

(b) An educational provider shall keep constant, direct observation of a pupil who is in seclusion, which
may be through observation of the pupil through a window, or another barrier, through which the
educational provider is able to make direct eye contact with the pupil. The observation required pursuant
to this subdivision shall not be through indirect means, including through a security camera or a closed-
circuit television.

(c) An educational provider shall afford to pupils who are restrained the least restrictive alternative and
the maximum freedom of movement, and shall use the least number of restraint points, while ensuring the
physical safety of the pupil and others.

(d) If prone restraint techniques are used, a staff member shall observe the pupil for any signs of physical
distress throughout the use of prone restraint. Whenever possible, the staff member monitoring the pupil
shall not be involved in restraining the pupil.
EDC 49006.

**EDC 49006.4.**

(a) This article applies with regard to all pupils, including individuals with exceptional needs. For an individual with exceptional needs, if a behavioral restraint or seclusion is used, the procedures for followup contained in subdivisions (e), (f), (g), and (h) of Section 56521.1 also apply.

(b) For purposes of this section, “individual with exceptional needs” has the same meaning specified in Section 56026.

**EDC 56520.**

(a) The Legislature finds and declares all of the following:

(1) That the state has continually sought to provide an appropriate and meaningful educational program in a safe and healthy environment for all children regardless of possible physical, mental, or emotionally disabling conditions.

(2) That some schoolage individuals with exceptional needs have significant behavioral challenges that have an adverse impact on their learning or the learning of other pupils, or both.

(3) Section 1400(c)(5)(F) of Title 20 of the United States Code states that research and experience demonstrate that the education of children with disabilities can be made more effective by providing incentives for positive behavioral interventions and supports to address the learning and behavioral needs of those children.

(4) That procedures for the elimination of maladaptive behaviors shall not include those deemed unacceptable under Section 49001 or those that cause pain or trauma.

(b) It is the intent of the Legislature:

(1) That children exhibiting serious behavioral challenges receive timely and appropriate assessments and positive supports and interventions in accordance with the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.) and its implementing regulations.

(2) That assessments and positive behavioral interventions and supports be developed and implemented in a manner informed by guidance from the United States Department of Education and technical assistance centers sponsored by the Office of Special Education Programs of the United States Department of Education.

(3) That when behavioral interventions, supports, and other strategies are used, they be used in consideration of the pupil's physical freedom and social interaction, be administered in a manner that respects human dignity and personal privacy, and that ensure a pupil's right to placement in the least restrictive educational environment.

(4) That behavioral intervention plans be developed and used, to the extent possible, in a consistent manner when the pupil is also the responsibility of another agency for residential care or related services.

(5) That training programs be developed and implemented in institutions of higher education that train teachers and that in-service training programs be made available as necessary in school districts and county offices of education to ensure that adequately trained staff are available to work effectively with the behavioral intervention needs of individuals with exceptional needs.
EDC 56521.
(a) This chapter applies to any individual with exceptional needs who is in a public school program, including a state school for the disabled pursuant to Part 32 (commencing with Section 59000), or who is placed in a nonpublic school program pursuant to Sections 56365 to 56366.5, inclusive.
(b) The Superintendent of Public Instruction shall monitor and supervise the implementation of this chapter.

EDC 56521.1.
(a) Emergency interventions may only be used to control unpredictable, spontaneous behavior that poses clear and present danger of serious physical harm to the individual with exceptional needs, or others, and that cannot be immediately prevented by a response less restrictive than the temporary application of a technique used to contain the behavior.
(b) Emergency interventions shall not be used as a substitute for the systematic behavioral intervention plan that is designed to change, replace, modify, or eliminate a targeted behavior.
(c) No emergency intervention shall be employed for longer than is necessary to contain the behavior. A situation that requires prolonged use of an emergency intervention shall require the staff to seek assistance of the schoolsite administrator or law enforcement agency, as applicable to the situation.
(d) Emergency interventions shall not include:
   (1) Locked seclusion, unless it is in a facility otherwise licensed or permitted by state law to use a locked room.

The IEP team shall document the reasons for not conducting the functional behavioral assessment, not developing an interim plan, or both.
(h) If a behavioral emergency report is written regarding an individual with exceptional needs who has a positive behavioral intervention plan, an incident involving a previously unseen serious behavior problem, or where a previously designed intervention is ineffective, shall be referred to the IEP team to review and determine if the incident constitutes a need to modify the positive behavioral intervention plan.

(b) This chapter is necessary to implement the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.) and associated federal regulations. This chapter is intended to provide the clarity, definition, and specificity necessary for local educational agencies to comply with the federal Individuals with Disabilities Education Act (20 U.S.C. (d) As a condition of receiving funding from the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), a local educational agency shall agree to adhere to this chapter and implementing federal regulations set forth in this chapter.
(e) The Superintendent may monitor local educational agency compliance with this chapter and may take appropriate action, including fiscal repercussions, if either of the following is found:

(1) The local educational agency failed to comply with this chapter and failed to comply substantially with corrective action orders issued by the department resulting from monitoring findings or complaint investigations.

(2) The local educational agency failed to implement the decision of a due process hearing officer based on noncompliance with this part, provisions of the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), or the federal implementing regulations, wherein noncompliance resulted in the denial of, or impeded the delivery of, a free appropriate public education for an individual with exceptional needs.

(f) Commencing with the 2010-11 fiscal year, if any activities authorized pursuant to this chapter and implementing regulations are found to be a state reimbursable mandate pursuant to Section 6 of Article XIII B of the California Constitution, state funding provided for purposes of special education pursuant to Item 6110-161-0001 of Section 2.00 of the annual Budget Act shall first be used to directly offset any mandated costs.

**EDC 48900.2.**

In addition to the reasons specified in Section 48900, a pupil may be suspended from school or recommended for expulsion if the superintendent or the principal of the school in which the pupil is enrolled determines that the pupil has committed sexual harassment as defined in Section 212.5.

For the purposes of this chapter, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall not apply to pupils enrolled in kindergarten and grades 1 to 3, inclusive.

**EDC 48900.7.**

(a) In addition to the reasons specified in Sections 48900, 48900.2, 48900.3, and 48900.4, a pupil may be suspended from school or recommended for expulsion if the superintendent or the principal of the school in which the pupil is enrolled determines that the pupil has made terroristic threats against school officials or school property, or both.

(b) For the purposes of this section, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family's safety, or for the protection of school district property, or the personal property of the person threatened or his or her immediate family.
EDC 48915.

(a)(1) Except as provided in subdivisions (c) and (e), the principal or the superintendent of schools shall recommend the expulsion of a pupil for any of the following acts committed at school or at a school activity off school grounds, unless the principal or superintendent determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct:

(A) Causing serious physical injury to another person, except in self-defense.
(B) Possession of any knife or other dangerous object of no reasonable use to the pupil.
(C) Unlawful possession of any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, except for either of the following:

(b) Upon recommendation by the principal or the superintendent of schools, or by a hearing officer or administrative panel appointed pursuant to subdivision (d) of Section 48918, the governing board of a school district may order a pupil expelled upon finding that the pupil committed an act listed in paragraph (1) of subdivision (a) or in subdivision (a), (b), (c), (d), or (e) of Section 48900. A decision to expel a pupil for any of those acts shall be based on a finding of one or both of the following:

(1) Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
(2) Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

(c) The principal or superintendent of schools shall immediately suspend, pursuant to Section 48911, and shall recommend expulsion of a pupil that he or she determines has committed any of the following acts at school or at a school activity off school grounds:

(1) Possessing, selling, or otherwise furnishing a firearm. This subdivision does not apply to an act of possessing a firearm if the pupil had obtained prior written permission to possess the firearm from a certificated school employee, which is concurred in by the principal or the designee of the principal. This subdivision applies to an act of possessing a firearm only if the possession is verified by an employee of a school district. The act of possessing an imitation firearm, as defined in subdivision (m) of Section 48900, is not an offense for which suspension or expulsion is mandatory pursuant to this subdivision and subdivision (d), but it is an offense for which suspension, or expulsion pursuant to subdivision (e), may be imposed.
(2) Brandishing a knife at another person.
(3) Unlawfully selling a controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code.

1. Is appropriately prepared to accommodate pupils who exhibit discipline problems.
2. Is not provided at a comprehensive middle, junior, or senior high school, or at any elementary school.
3. Is not housed at the schoolsite attended by the pupil at the time of suspension.

(e) Upon recommendation by the principal or the superintendent of schools, or by a hearing officer or administrative panel appointed pursuant to subdivision (d) of Section 48918, the governing board of a school district may order a pupil expelled upon finding that the pupil, at school or at a school activity off of school grounds violated subdivision (f), (g), (h), (i), (j), (k), (l), or (m) of Section 48900, or Section 48900.2, 48900.3, or 48900.4, and either of the following:

1. That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
2. That due to the nature of the violation, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

(f) The governing board of a school district shall refer a pupil who has been expelled pursuant to subdivision (b) or (e) to a program of study that meets all of the conditions specified in subdivision (d). Notwithstanding this subdivision, with respect to a pupil expelled pursuant to subdivision (e), if the county superintendent of schools certifies that an alternative program of study is not available at a site away from a comprehensive middle, junior, or senior high school, or an elementary school, and that the only option for placement is at another comprehensive middle, junior, or senior high school, or another elementary school, the pupil may be referred to a program of study that is provided at a comprehensive middle, junior, or senior high school, or at an elementary school.

(II) Creating a credible impersonation of another actual pupil for the purpose of having one or more of the effects listed in paragraph (1). "Credible impersonation" means to knowingly and without consent impersonate a pupil for the purpose of bullying the pupil and such that another pupil would reasonably believe, or has reasonably believed, that the pupil was or is the pupil who was impersonated.

(III) Creating a false profile for the purpose of having one or more of the effects listed in paragraph (1). "False profile" means a profile of a fictitious pupil or a profile using the likeness or attributes of an actual pupil other than the pupil who created the false profile.

(iii) An act of cyber sexual bullying.

(II) For purposes of this clause, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (A) to (D), inclusive, of paragraph (1). A photograph or other visual recording, as described in this subclause, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual
recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

(III) For purposes of this clause, “cyber sexual bullying” does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

(B) Notwithstanding paragraph (1) and subparagraph (A), an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the internet or is currently posted on the internet.

(3) “Reasonable pupil” means a pupil, including, but not limited to, a pupil with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of that age, or for a person of that age with the pupil’s exceptional needs.

(s) A pupil shall not be suspended or expelled for any of the acts enumerated in this section unless the act is related to a school activity or school attendance occurring within a school under the jurisdiction of the superintendent of the school district or principal or occurring within any other school district. A pupil may be suspended or expelled for acts that are enumerated in this section and related to a school activity or school attendance that occur at any time, including, but not limited to, any of the following:

(1) While on school grounds.

(2) While going to or coming from school.

(3) During the lunch period whether on or off the campus.

(4) During, or while going to or coming from, a school-sponsored activity.

(t) A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, pursuant to this section, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (a).

(u) As used in this section, “school property” includes, but is not limited to, electronic files and databases.

(v) For a pupil subject to discipline under this section, a superintendent of the school district or principal is encouraged to provide alternatives to suspension or expulsion, using a research-based framework with strategies that improve behavioral and academic outcomes, that are age appropriate and designed to address and correct the pupil’s specific misbehavior as specified in Section 48900.5.

(w) (1) It is the intent of the Legislature that alternatives to suspension or expulsion be imposed against a pupil who is truant, tardy, or otherwise absent from school activities.

(2) It is further the intent of the Legislature that the Multi-Tiered System of Supports, which includes restorative justice practices, trauma-informed practices, social and emotional learning, and schoolwide positive behavior interventions and support, may be used to help pupils gain critical social and emotional skills, receive support to help transform trauma-related responses, understand the impact of their actions, and develop meaningful methods for repairing harm to the school community.

EDC 48900.2.

In addition to the reasons specified in Section 48900, a pupil may be suspended from school or recommended for expulsion if the superintendent or the principal of the school in which the pupil is enrolled determines that the pupil has committed sexual harassment as defined in Section 212.5.

For the purposes of this chapter, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual’s academic performance or to create an intimidating, hostile, or
offensive educational environment. This section shall not apply to pupils enrolled in kindergarten and grades 1 to 3, inclusive.

EDC 48903.

(a) Except as provided in subdivision (g) of Section 48911 and in Section 48912, the total number of days for which a pupil may be suspended from school shall not exceed 20 schooldays in any school year, unless for purposes of adjustment, a pupil enrolls in or is transferred to another regular school, an opportunity school or class, or a continuation education school or class, in which case the total number of schooldays for which the pupil may be suspended shall not exceed 30 days in any school year.

(b) For the purposes of this section, a school district may count suspensions that occur while a pupil is enrolled in another school district toward the maximum number of days for which a pupil may be suspended in any school year.

EDC 48911.

(a) The principal of the school, the principal's designee, or the district superintendent of schools may suspend a pupil from the school for any of the reasons enumerated in Section 48900, and pursuant to Section 48900.5, for no more than five consecutive schooldays.

(b) Suspension by the principal, the principal's designee, or the district superintendent of schools shall be preceded by an informal conference conducted by the principal, the principal's designee, or the district superintendent of schools between the pupil and, whenever practicable, the teacher, supervisor, or school employee who referred the pupil to the principal, the principal's designee, or the district superintendent of schools. At the conference, the pupil shall be informed of the reason for the disciplinary action, including the other means of correction that were attempted before the suspension as required under Section 48900.5, and the evidence against him or her, and shall be given the opportunity to present his or her version and evidence in his or her defense.

(c) A principal, the principal's designee, or the district superintendent of schools may suspend a pupil without affording the pupil an opportunity for a conference only if the principal, the principal's designee, or the district superintendent of schools determines that an emergency situation exists. "Emergency situation," as used in this article, means a situation determined by the principal, the principal's designee, or the district superintendent of schools to constitute a clear and present danger to the life, safety, or health of pupils or school personnel. If a pupil is suspended without a conference before suspension, both the parent and the pupil shall be notified of the pupil's right to a conference and the pupil's right to return to school for the purpose of a conference. The conference shall be held within two schooldays, unless the pupil waives this right or is physically unable to attend for any reason, including, but not limited to, incarceration or hospitalization. The conference shall then be held as soon as the pupil is physically able to return to school for the conference.

(d) At the time of suspension, a school employee shall make a reasonable effort to contact the pupil's parent or guardian in person or by telephone. If a pupil is suspended from school, the parent or guardian shall be notified in writing of the suspension.

(e) A school employee shall report the suspension of the pupil, including the cause for the suspension, to the governing board of the school district or to the district superintendent of schools in accordance with the regulations of the governing board of the school district.

(f)(1) The parent or guardian of a pupil shall respond without delay to a request from school officials to attend a conference regarding his or her child's behavior.

(2) No penalties shall be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with school officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.
(g) In a case where expulsion from a school or suspension for the balance of the semester from
continuation school is being processed by the governing board of the school district, the district
superintendent of schools or other person designated by the district superintendent of schools in writing
may extend the suspension until the governing board of the school district has rendered a decision in the
action. However, an extension may be granted only if the district superintendent of schools or the district
superintendent's designee has determined, following a meeting in which the pupil and the pupil's parent
or guardian are invited to participate, that the presence of the pupil at the school or in an alternative
school placement would cause a danger to persons or property or a threat of disrupting the instructional
process. If the pupil is a foster child, as defined in Section 48853.5, the district superintendent of schools
or the district superintendent's designee, including, but not limited to, the educational liaison for the school
district, shall also invite the pupil's attorney and an appropriate representative of the county child welfare
agency to participate in the meeting. If the pupil or the pupil's parent or guardian has requested a meeting
to challenge the original suspension pursuant to Section 48914, the purpose of the meeting shall be to
decide upon the extension of the suspension order under this section and may be held in conjunction with
the initial meeting on the merits of the suspension.

EDC 48911.5.
The site principal of a contracting nonpublic, nonsectarian school providing services to individuals with
exceptional needs under Sections 56365 and 56366, shall have the same duties and responsibilities with
respect to the suspension of pupils with previously identified exceptional needs prescribed for the
suspension of pupils under Section 48911.

EDC 48912.5.
The governing board of a school district may suspend a pupil enrolled in a continuation school or class for
a period not longer than the remainder of the semester if any of the acts enumerated in Section 48900
occurred. The suspension shall meet the requirements of Section 48915.

EDC 48915.01.
If the governing board of a school district has established a community day school pursuant to Section
48661 on the same site as a comprehensive middle, junior, or senior high school, or at any elementary
school, the governing board does not have to meet the condition in paragraph (2) of subdivision (d) of
Section 48915 when the board, pursuant to subdivision (f) of Section 48915, refers a pupil to a program of
study and that program of study is at the community day school. All the other conditions of subdivision (d)
of Section 48915 are applicable to the referral as required by subdivision (f) of Section 48915.

EDC 48915.5.
(a) A pupil expelled from school for any of the offenses listed in subdivision (a) or (c) of Section 48915,
shall not be permitted to enroll in any other school or school district during the period of expulsion unless
it is a county community school pursuant to subdivision (c) of Section 1981, or a juvenile court school, as
described in Section 48645.1, or a community day school pursuant to Article 3 (commencing with Section
48660) of Chapter 4 of Part 27.

(b) After a determination has been made, pursuant to a hearing under Section 48918, that an individual
expelled from another school district for any act described in subdivision (a) or (c) of Section 48915 does
not pose a danger to either the pupils or employees of the school district, the governing board of a school
district may permit the individual to enroll in the school district after the term of expulsion, subject to one
of the following conditions:

(1) He or she has established legal residence in the school district, pursuant to Section 48200.
(2) He or she is enrolled in the school pursuant to an interdistrict agreement executed between the affected school districts pursuant to Chapter 5 (commencing with Section 46600) of Part 26.

REGULATIONS

§ 352. Detention during recess or noon intermission.
A pupil shall not be required to remain in school during the intermission at noon, or during any recess.

§ 353. Detention after school.
A pupil shall not be detained in school for disciplinary or other reasons for more than one hour after the close of the maximum school day, except as otherwise provided in Section 307.

Due Process

LAWS

EDC 35146.
Notwithstanding the provisions of Section 35145 of this code and Section 54950 of the Government Code, the governing body of a school district shall, unless a request by the parent has been made pursuant to this section, hold closed sessions if the board is considering the suspension of, or disciplinary action or any other action except expulsion in connection with any pupil of the school district, if a public hearing upon such question would lead to the giving out of information concerning school pupils which would be in violation of Article 5 (commencing with Section 49073) of Chapter 6.5 of Part 27 of this code.

Before calling such closed session of the governing board of the district to consider these matters, the governing board of the district shall, in writing, by registered or certified mail or by personal service, if the pupil is a minor, notify the pupil and his or her parent or guardian, or the pupil if the pupil is an adult, of the intent of the governing board of the district to call and hold such closed session. Unless the pupil, or his or her parent, or guardian shall, in writing, within 48 hours after receipt of such written notice of intention, request that the hearing of the governing board be held as a public meeting, then the hearing to consider such matters shall be conducted by the governing board in closed session. If such written request is served upon the clerk or secretary of the governing board, the meeting shall be public except that any discussion at such meeting that might be in conflict with the right to privacy of any pupil other than the pupil requesting the public meeting or on behalf of whom such meeting is requested, shall be in closed session. Whether the matter is considered at a closed session or at a public meeting, the final action of the governing board of the school district shall be taken at a public meeting and the result of such action shall be a public record of the school district.

EDC 35181.
The governing board of each school district may convene hearings, make findings, and adopt and issue policy statements setting forth the responsibilities of the pupils of that school district regarding academic performance, attendance, in-school behavior, and any other aspects of school life which the school district governing board may deem relevant to this task.

EDC 48911.
(a) The principal of the school, the principal’s designee, or the district superintendent of schools may suspend a pupil from the school for any of the reasons enumerated in Section 48900, and pursuant to Section 48900.5, for no more than five consecutive school days.
(b) Suspension by the principal, the principal's designee, or the district superintendent of schools shall be preceded by an informal conference conducted by the principal, the principal's designee, or the district superintendent of schools between the pupil and, whenever practicable, the teacher, supervisor, or school employee who referred the pupil to the principal, the principal's designee, or the district superintendent of schools. At the conference, the pupil shall be informed of the reason for the disciplinary action, including the other means of correction that were attempted before the suspension as required under Section 48900.5, and the evidence against him or her, and shall be given the opportunity to present his or her version and evidence in his or her defense.

(c) A principal, the principal's designee, or the district superintendent of schools may suspend a pupil without affording the pupil an opportunity for a conference only if the principal, the principal's designee, or the district superintendent of schools determines that an emergency situation exists. "Emergency situation," as used in this article, means a situation determined by the principal, the principal's designee, or the district superintendent of schools to constitute a clear and present danger to the life, safety, or health of pupils or school personnel. If a pupil is suspended without a conference before suspension, both the parent and the pupil shall be notified of the pupil's right to a conference and the pupil's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the pupil waives this right or is physically unable to attend for any reason, including, but not limited to, incarceration or hospitalization. The conference shall then be held as soon as the pupil is physically able to return to school for the conference.

(d) At the time of suspension, a school employee shall make a reasonable effort to contact the pupil's parent or guardian in person or by telephone. If a pupil is suspended from school, the parent or guardian shall be notified in writing of the suspension.

(e) A school employee shall report the suspension of the pupil, including the cause for the suspension, to the governing board of the school district or to the district superintendent of schools in accordance with the regulations of the governing board of the school district.

(f)(1) The parent or guardian of a pupil shall respond without delay to a request from school officials to attend a conference regarding his or her child's behavior.

(2) No penalties shall be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with school officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.

(g) In a case where expulsion from a school or suspension for the balance of the semester from continuation school is being processed by the governing board of the school district, the district superintendent of schools or other person designated by the district superintendent of schools in writing may extend the suspension until the governing board of the school district has rendered a decision in the action. However, an extension may be granted only if the district superintendent of schools or the district superintendent's designee has determined, following a meeting in which the pupil and the pupil's parent or guardian are invited to participate, that the presence of the pupil at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. If the pupil is a foster child, as defined in Section 48853.5, the district superintendent of schools or the district superintendent's designee, including, but not limited to, the educational liaison for the school district, shall also invite the pupil's attorney and an appropriate representative of the county child welfare agency to participate in the meeting. If the pupil or the pupil's parent or guardian has requested a meeting to challenge the original suspension pursuant to Section 48914, the purpose of the meeting shall be to decide upon the extension of the suspension order under this section and may be held in conjunction with the initial meeting on the merits of the suspension.
EDC 48912.

(a) The governing board may suspend a pupil from school for any of the acts enumerated in Section 48900 for any number of schooldays within the limits prescribed by Section 48903.

(b) Notwithstanding the provisions of Section 35145 of this code and Section 54950 of the Government Code, the governing board of a school district shall, unless a request has been made to the contrary, hold closed sessions if the board is considering the suspension of, disciplinary action against, or any other action against, except expulsion, any pupil, if a public hearing upon that question would lead to the giving out of information concerning a school pupil which would be in violation of Article 5 (commencing with Section 49073) of Chapter 6.5.

(c) Before calling a closed session to consider these matters, the governing board shall, in writing, by registered or certified mail or by personal service, notify the pupil and the pupil's parent or guardian, or the pupil if the pupil is an adult, of the intent of the governing board to call and hold a closed session. Unless the pupil or the pupil's parent or guardian shall, in writing, within 48 hours after receipt of the written notice of the board's intention, request that the hearing be held as a public meeting, the hearing to consider these matters shall be conducted by the governing board in closed session. In the event that a written request is served upon the clerk or secretary of the governing board, the meeting shall be public, except that any discussion at that meeting which may be in conflict with the right to privacy of any pupil other than the pupil requesting the public meeting, shall be in closed session.

EDC 48915.1.

(a) If the governing board of a school district receives a request from an individual who has been expelled from another school district for an act other than those described in subdivision (a) or (c) of Section 48915, for enrollment in a school maintained by the school district, the board shall hold a hearing to determine whether that individual poses a continuing danger either to the pupils or employees of the school district. The hearing and notice shall be conducted in accordance with the rules and regulations governing procedures for the expulsion of pupils as described in Section 48918. A school district may request information from another school district regarding a recommendation for expulsion or the expulsion of an applicant for enrollment. The school district receiving the request shall respond to the request with all deliberate speed but shall respond no later than five working days from the date of the receipt of the request.

(b) If a pupil has been expelled from his or her previous school for an act other than those listed in subdivision (a) or (c) of Section 48915, the parent, guardian, or pupil, if the pupil is emancipated or otherwise legally of age, shall, upon enrollment, inform the receiving school district of his or her status with the previous school district. If this information is not provided to the school district and the school district later determines the pupil was expelled from the previous school, the lack of compliance shall be recorded and discussed in the hearing required pursuant to subdivision (a).

(c) The governing board of a school district may make a determination to deny enrollment to an individual who has been expelled from another school district for an act other than those described in subdivision (a) or (c) of Section 48915, for the remainder of the expulsion period after a determination has been made, pursuant to a hearing, that the individual poses a potential danger to either the pupils or employees of the school district.

(d) The governing board of a school district, when making its determination whether to enroll an individual who has been expelled from another school district for these acts, may consider the following options:

   (1) Deny enrollment.
   (2) Permit enrollment.
   (3) Permit conditional enrollment in a regular school program or another educational program.
(e) Notwithstanding any other provision of law, the governing board of a school district, after a
determination has been made, pursuant to a hearing, that an individual expelled from another school
district for an act other than those described in subdivision (a) or (c) of Section 48915 does not pose a
danger to either the pupils or employees of the school district, shall permit the individual to enroll in a
school in the school district during the term of the expulsion, provided that he or she, subsequent to the
expulsion, either has established legal residence in the school district, pursuant to Section 48200, or has
enrolled in the school pursuant to an interdistrict agreement executed between the affected school
districts pursuant to Chapter 5 (commencing with Section 46600).

EDC 48917.
(a) The governing board, upon voting to expel a pupil, may suspend the enforcement of the expulsion
order for a period of not more than one calendar year and may, as a condition of the suspension of
enforcement, assign the pupil to a school, class, or program that is deemed appropriate for the
rehabilitation of the pupil. The rehabilitation program to which the pupil is assigned may provide for the
involvement of the pupil's parent or guardian in his or her child's education in ways that are specified in
the rehabilitation program. A parent or guardian's refusal to participate in the rehabilitation program shall
not be considered in the governing board's determination as to whether the pupil has satisfactorily
completed the rehabilitation program.

(b) The governing board shall apply the criteria for suspending the enforcement of the expulsion order
equally to all pupils, including individuals with exceptional needs as defined in Section 56026.

(c) During the period of the suspension of the expulsion order, the pupil is deemed to be on probationary
status.

(d) The governing board may revoke the suspension of an expulsion order under this section if the pupil
commits any of the acts enumerated in Section 48900 or violates any of the district's rules and regulations
governing pupil conduct. When the governing board revokes the suspension of an expulsion order, a
pupil may be expelled under the terms of the original expulsion order.

(e) Upon satisfactory completion of the rehabilitation assignment of a pupil, the governing board shall
reinstate the pupil in a school of the district and may also order the expungement of any or all records of
the expulsion proceedings.

(f) A decision of the governing board to suspend an expulsion order does not affect the time period and
requirements for the filing of an appeal of the expulsion order with the county board of education required
under Section 48919. Any appeal shall be filed within 30 days of the original vote of the governing board.

EDC 48918.
The governing board of each school district shall establish rules and regulations governing procedures for
the expulsion of pupils. These procedures shall include, but are not necessarily limited to, all of the
following:

(a)(1) The pupil shall be entitled to a hearing to determine whether the pupil should be expelled. An
expulsion hearing shall be held within 30 schooldays after the date the principal or the superintendent of
schools determines that the pupil has committed any of the acts enumerated in Section 48900, unless the
pupil requests, in writing, that the hearing be postponed. The adopted rules and regulations shall specify
that the pupil is entitled to at least one postponement of an expulsion hearing, for a period of not more
than 30 calendar days. Any additional postponement may be granted at the discretion of the governing
board of the school district.

(2) Within 10 schooldays after the conclusion of the hearing, the governing board of the school district
shall decide whether to expel the pupil, unless the pupil requests in writing that the decision be
postponed. If the hearing is held by a hearing officer or an administrative panel, or if the governing
board of the school district does not meet on a weekly basis, the governing board of the school district shall decide whether to expel the pupil within 40 schooldays after the date of the pupil's removal from his or her school of attendance for the incident for which the recommendation for expulsion is made by the principal or the superintendent of schools, unless the pupil requests in writing that the decision be postponed.

(3) If compliance by the governing board of the school district with the time requirements for the conducting of an expulsion hearing under this subdivision is impracticable during the regular school year, the superintendent of schools or the superintendent's designee may, for good cause, extend the time period for the holding of the expulsion hearing for an additional five schooldays. If compliance by the governing board of the school district with the time requirements for the conducting of an expulsion hearing under this subdivision is impractical due to a summer recess of governing board meetings of more than two weeks, the days during the recess period shall not be counted as schooldays in meeting the time requirements. The days not counted as schooldays in meeting the time requirements for an expulsion hearing because of a summer recess of governing board meetings shall not exceed 20 schooldays, as defined in subdivision (c) of Section 48925, and unless the pupil requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days before the first day of school for the school year. Reasons for the extension of the time for the hearing shall be included as a part of the record at the time the expulsion hearing is conducted. Upon the commencement of the hearing, all matters shall be pursued and conducted with reasonable diligence and shall be concluded without any unnecessary delay.

(b) Written notice of the hearing shall be forwarded to the pupil at least 10 calendar days before the date of the hearing. The notice shall include all of the following:

(1) The date and place of the hearing.
(2) A statement of the specific facts and charges upon which the proposed expulsion is based.
(3) A copy of the disciplinary rules of the school district that relate to the alleged violation.
(4) A notice of the parent, guardian, or pupil's obligation pursuant to subdivision (b) of Section 48915.1.
(5) Notice of the opportunity for the pupil or the pupil's parent or guardian to appear in person or to be represented by legal counsel or by a nonattorney adviser, to inspect and obtain copies of all documents to be used at the hearing, to confront and question all witnesses who testify at the hearing, to question all other evidence presented, and to present oral and documentary evidence on the pupil's behalf, including witnesses. In a hearing in which a pupil is alleged to have committed or attempted to commit a sexual assault as specified in subdivision (n) of Section 48900 or to have committed a sexual battery as defined in subdivision (n) of Section 48900, a complaining witness shall be given five days' notice before being called to testify, and shall be entitled to have up to two adult support persons, including, but not limited to, a parent, guardian, or legal counsel, present during his or her testimony. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential. This subdivision shall not preclude the person presiding over an expulsion hearing from removing a support person whom the presiding person finds is disrupting the hearing. If one or both of the support persons is also a witness, the provisions of Section 868.5 of the Penal Code shall be followed for the hearing. This section does not require a pupil or the pupil's parent or guardian to be represented by legal counsel or by a nonattorney adviser at the hearing.

(A) For purposes of this section, "legal counsel" means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.
(B) For purposes of this section, "nonattorney adviser" means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case, and has been selected by the pupil or pupil's parent or guardian to provide assistance at the hearing.
(c)(1) Notwithstanding Section 35145, the governing board of the school district shall conduct a hearing to consider the expulsion of a pupil in a session closed to the public, unless the pupil requests, in writing, at least five days before the date of the hearing, that the hearing be conducted at a public meeting. Regardless of whether the expulsion hearing is conducted in a closed or public session, the governing board of the school district may meet in closed session for the purpose of deliberating and determining whether the pupil should be expelled.

(2) If the governing board of the school district or the hearing officer or administrative panel appointed under subdivision (d) to conduct the hearing admits any other person to a closed deliberation session, the parent or guardian of the pupil, the pupil, and the counsel of the pupil also shall be allowed to attend the closed deliberations.

(3) If the hearing is to be conducted at a public meeting, and there is a charge of committing or attempting to commit a sexual assault as defined in subdivision (n) of Section 48900 or to commit a sexual battery as defined in subdivision (n) of Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

d) Instead of conducting an expulsion hearing itself, the governing board of the school district may contract with the county hearing officer, or with the Office of Administrative Hearings pursuant to Chapter 14 (commencing with Section 27720) of Part 3 of Division 2 of Title 3 of the Government Code and Section 35207 of this code, for a hearing officer to conduct the hearing. The governing board of the school district may also appoint an impartial administrative panel of three or more certificated persons, none of whom is a member of the governing board of the school district or employed on the staff of the school in which the pupil is enrolled. The hearing shall be conducted in accordance with all of the procedures established under this section.

e) Within three schooldays after the hearing, the hearing officer or administrative panel shall determine whether to recommend the expulsion of the pupil to the governing board of the school district. If the hearing officer or administrative panel decides not to recommend expulsion, the expulsion proceedings shall be terminated and the pupil immediately shall be reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent, guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, irresponsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final.

(f)(1) If the hearing officer or administrative panel recommends expulsion, findings of fact in support of the recommendation shall be prepared and submitted to the governing board of the school district. All findings of fact and recommendations shall be based solely on the evidence adduced at the hearing. If the governing board of the school district accepts the recommendation calling for expulsion, acceptance shall be based either upon a review of the findings of fact and recommendations submitted by the hearing
officer or panel or upon the results of any supplementary hearing conducted pursuant to this section that
the governing board of the school district may order.

(2) The decision of the governing board of the school district to expel a pupil shall be based upon
substantial evidence relevant to the charges adduced at the expulsion hearing or hearings. Except as
provided in this section, no evidence to expel shall be based solely upon hearsay evidence. The
governing board of the school district or the hearing officer or administrative panel may, upon a finding
that good cause exists, determine that the disclosure of either the identity of a witness or the testimony
of that witness at the hearing, or both, would subject the witness to an unreasonable risk of
psychological or physical harm. Upon this determination, the testimony of the witness may be presented
at the hearing in the form of sworn declarations that shall be examined only by the governing board of
the school district or the hearing officer or administrative panel. Copies of these sworn declarations,
edited to delete the name and identity of the witness, shall be made available to the pupil.

(g) A record of the hearing shall be made. The record may be maintained by any means, including
electronic recording, so long as a reasonably accurate and complete written transcription of the
proceedings can be made.

(h)(1) Technical rules of evidence shall not apply to the hearing, but relevant evidence may be admitted
and given probative effect only if it is the kind of evidence upon which reasonable persons are
accustomed to rely in the conduct of serious affairs. A decision of the governing board of the school
district to expel shall be supported by substantial evidence showing that the pupil committed any of the
acts enumerated in Section 48900.

(2) In hearings that include an allegation of committing or attempting to commit a sexual assault as
defined in subdivision (n) of Section 48900 or to commit a sexual battery as defined in subdivision (n) of
Section 48900, evidence of specific instances, of a complaining witness’ prior sexual conduct is to be
presumed inadmissible and shall not be heard absent a determination by the person conducting the
hearing that extraordinary circumstances exist requiring the evidence be heard. Before the person
conducting the hearing makes the determination on whether extraordinary circumstances exist requiring
that specific instances of a complaining witness’ prior sexual conduct be heard, the complaining witness
shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In
the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be
represented by a parent, guardian, legal counsel, or other support person. Reputation or opinion
evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

(i)(1) Before the hearing has commenced, the governing board of the school district may issue subpoenas
at the request of either the superintendent of schools or the superintendent’s designee or the pupil, for the
personal appearance of percipient witnesses at the hearing. After the hearing has commenced, the
governing board of the school district or the hearing officer or administrative panel may, upon request of
either the county superintendent of schools or the superintendent's designee or the pupil, issue
subpoenas. All subpoenas shall be issued in accordance with Sections 1985, 1985.1, and 1985.2 of the
Code of Civil Procedure. Enforcement of subpoenas shall be done in accordance with Section 11455.20

(2) Any objection raised by the superintendent of schools or the superintendent's designee or the pupil
to the issuance of subpoenas may be considered by the governing board of the school district in closed
session, or in open session, if so requested by the pupil before the meeting. Any decision by the
governing board of the school district in response to an objection to the issuance of subpoenas shall be
final and binding.

(3) If the governing board of the school district, hearing officer, or administrative panel determines, in
accordance with subdivision (f), that a percipient witness would be subject to an unreasonable risk of
harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of
that witness at the hearing. However, that witness may be compelled to testify by means of a sworn
declaration as provided for in subdivision (f).

(4) Service of process shall be extended to all parts of the state and shall be served in accordance with
Section 1987 of the Code of Civil Procedure. All witnesses appearing pursuant to subpoena, other than
the parties or officers or employees of the state or any political subdivision of the state, shall receive
fees, and all witnesses appearing pursuant to subpoena, except the parties, shall receive mileage in the
same amount and under the same circumstances as prescribed for witnesses in civil actions in a
superior court. Fees and mileage shall be paid by the party at whose request the witness is
subpoenaed.

(j) Whether an expulsion hearing is conducted by the governing board of the school district or before a
hearing officer or administrative panel, final action to expel a pupil shall be taken only by the governing
board of the school district in a public session. Written notice of any decision to expel or to suspend the
enforcement of an expulsion order during a period of probation shall be sent by the superintendent of
schools or his or her designee to the pupil or the pupil's parent or guardian and shall be accompanied by
all of the following:

(1) Notice of the right to appeal the expulsion to the county board of education.
(2) Notice of the education alternative placement to be provided to the pupil during the time of
expulsion.
(3) Notice of the obligation of the parent, guardian, or pupil under subdivision (b) of Section 48915.1,
upon the pupil's enrollment in a new school district, to inform that school district of the pupil's expulsion.

(k)(1) The governing board of the school district shall maintain a record of each expulsion, including the
cause for the expulsion. Records of expulsions shall be nonprivileged, disclosable public records.
(2) The expulsion order and the causes for the expulsion shall be recorded in the pupil's mandatory
interim record and shall be forwarded to any school in which the pupil subsequently enrolls upon receipt
of a request from the admitting school for the pupil's school records.

EDC 48918.1.

(a)(1) If the decision to recommend expulsion is a discretionary act and the pupil is a foster child, as
defined in Section 48853.5, the governing board of the school district shall provide notice of the expulsion
hearing to the pupil's attorney and an appropriate representative of the county child welfare agency at
least 10 calendar days before the date of the hearing. The notice may be made using the most cost-
effective method possible, which may include, but is not limited to, electronic mail or a telephone call.

(2) If a recommendation of expulsion is required and the pupil is a foster child, as defined in Section
48853.5, the governing board of the school district may provide notice of the expulsion hearing to the
pupil's attorney and an appropriate representative of the county child welfare agency at least 10
calendar days before the date of the hearing. The notice may be made using the most cost-effective
method possible, which may include, but is not limited to, electronic mail or a telephone call.

(b)(1) If the decision to recommend expulsion is a discretionary act and the pupil is a homeless child or
youth, as defined in Section 11434a(2) of Title 42 of the United States Code, the governing board of the
school district shall provide notice of the expulsion hearing to the local educational agency liaison for
homeless children and youth designated pursuant to Section 11432(g)(1)(J)(ii) of Title 42 of the United
States Code at least 10 calendar days before the date of the hearing. The notice may be made using the
most cost-effective method possible, which may include, but is not limited to, electronic mail or a
telephone call.

(2) If a recommendation of expulsion is required and the pupil is a homeless child or youth, as defined
in Section 11434a(2) of Title 42 of the United States Code, the governing board of the school district
may provide notice of the expulsion hearing to the local educational agency liaison for homeless children and youth designated pursuant to Section 11432(g)(1)(J)(ii) of Title 42 of the United States Code at least 10 calendar days before the date of the hearing. The notice may be made using the most cost-effective method possible, which may include, but is not limited to, electronic mail or a telephone call.

EDC 48918.5.
In expulsion hearings involving allegations brought pursuant to subdivision (n) of Section 48900, the governing board of each school district shall establish rules and regulations governing procedures. The procedures shall include, but are not limited to, all of the following:

(a) At the time that the expulsion hearing is recommended, the complaining witness shall be provided with a copy of the applicable disciplinary rules and advised of his or her right to: (1) receive five days’ notice of the complaining witness’s scheduled testimony at the hearing, (2) have up to two adult support persons of his or her choosing, present in the hearing at the time he or she testifies; and (3) to have the hearing closed during the time they testify pursuant to subdivision (c) of Section 48918.

(b) An expulsion hearing may be postponed for one schoolday in order to accommodate the special physical, mental, or emotional needs of a pupil who is the complaining witness where the allegations arise under subdivision (n) of Section 48900.

(c) The district shall provide a nonthreatening environment for a complaining witness in order to better enable them to speak freely and accurately of the experiences that are the subject of the expulsion hearing, and to prevent discouragement of complaints. Each school district shall provide a room separate from the hearing room for the use of the complaining witness prior to and during breaks in testimony. In the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he or she may leave the hearing room. The person conducting the hearing may arrange the seating within the hearing room of those present in order to facilitate a less intimidating environment for the complaining witness. The person conducting the hearing may limit the time for taking the testimony of a complaining witness to the hours he or she is normally in school, if there is no good cause to take the testimony during other hours. The person conducting the hearing may permit one of the complaining witness’s support persons to accompany him or her to the witness stand.

(d) Whenever any allegation is made of conduct violative of subdivision (n) of Section 48900, complaining witnesses and accused pupils are to be advised immediately to refrain from personal or telephonic contact with each other during the pendency of any expulsion process.

EDC 48918.6.
In addition to any other immunity that may exist, any testimony provided by a pupil witness in an expulsion hearing conducted pursuant to this article is expressly deemed to be a communication protected by subdivision (b) of Section 47 of the Civil Code.

EDC 48919.
If a pupil is expelled from school, the pupil or the pupil's parent or guardian may, within 30 days following the decision of the governing board to expel, file an appeal to the county board of education which shall hold a hearing thereon and render its decision.

The county board of education, or in a class 1 or class 2 county a hearing officer or impartial administrative panel, shall hold the hearing within 20 schooldays following the filing of a formal request under this section. If the county board of education hears the appeal without a hearing conducted pursuant to Section 48919.5, then the board shall render a decision within three schooldays of the hearing conducted pursuant to Section 48920, unless the pupil requests a postponement.
The period within which an appeal is to be filed shall be determined from the date a governing board votes to expel even if enforcement of the expulsion action is suspended and the pupil is placed on probation pursuant to Section 48917. A pupil who fails to appeal the original action of the board within the prescribed time may not subsequently appeal a decision of the board to revoke probation and impose the original order of expulsion.

The county board of education shall adopt rules and regulations establishing procedures for expulsion appeals conducted under this section. If the county board of education in a class 1 or class 2 county elects to use the procedures in Section 48919.5, then the board shall adopt rules and regulations establishing procedures for expulsion appeals conducted under Section 48919.5. The adopted rules and regulations shall include, but need not be limited to, the requirements for filing a notice of appeal, the setting of a hearing date, the furnishing of notice to the pupil and the governing board regarding the appeal, the furnishing of a copy of the expulsion hearing record to the county board of education, procedures for the conduct of the hearing, and the preservation of the record of the appeal.

The pupil shall submit a written request for a copy of the written transcripts and supporting documents from the school district simultaneously with the filing of the notice of appeal with the county board of education. The school district shall provide the pupil with the transcriptions, supporting documents, and records within 10 school days following the pupil’s written request. Upon receipt of the records, the pupil shall immediately file suitable copies of these records with the county board of education.

**EDC 48919.5.**

(a) A county board of education in a class 1 or class 2 county may have a hearing officer pursuant to Chapter 14 (commencing with Section 27720) of Part 3 of Title 3 of the Government Code, or an impartial administrative panel of three or more certificated persons appointed by the county board of education, hear appeals filed pursuant to Section 48919. The members of the impartial administrative panel shall not be members of the governing board of the school district nor employees of the school district, from which the pupil filing the appeal was expelled. Neither the hearing officer, nor any member of the administrative panel, hearing a pupil’s appeal shall have been the hearing officer or a member of the administrative panel that conducted the pupil’s expulsion hearing.

(b) A hearing conducted pursuant to this section shall not issue a final order of the county board. The hearing officer or impartial administrative panel shall prepare a recommended decision, including any findings or conclusions required for that decision, and shall submit that recommendation and the record to the county board of education within three school days of hearing the appeal.

(c) Sections 48919, 48920, 48921, 48922, 48923, and 48925 are applicable to a hearing conducted pursuant to this section.

(d) Within 10 school days of receiving the recommended decision and record from the hearing officer or the impartial administrative panel, the county board of education shall review the recommended decision and record and render a final order of the board.

(e) For purposes of this article, the following definitions shall apply:

1. “Countywide ADA” means the aggregate number of annual units of regular average daily attendance for the fiscal year in all school districts within the county.

2. “Class 1 county” means a county with 1994/95 countywide ADA of more than 500,000.

3. “Class 2 county” means a county with 1994/95 countywide ADA of at least 180,000 but less than 500,000.

**EDC 48920.**

Notwithstanding the provisions of Section 54950 of the Government Code and Section 35145 of this code, the county board of education shall hear an appeal of an expulsion order in closed session, unless
the pupil requests, in writing, at least five days prior to the date of the hearing, that the hearing be conducted in a public meeting. Upon the timely submission of a request for a public meeting, the county board of education shall be required to honor the request. Whether the hearing is conducted in closed or public session, the county board may meet in closed session for the purpose of deliberations. If the county board admits any representative of the pupil or the school district, the board shall, at the same time, admit representatives from the opposing party.

**EDC 48921.**

The county board of education shall determine the appeal from a pupil expulsion upon the record of the hearing before the district governing board, together with such applicable documentation or regulations as may be ordered. No evidence other than that contained in the record of the proceedings of the school board may be heard unless a de novo proceeding is granted as provided in Section 48923.

It shall be the responsibility of the pupil to submit a written transcription for review by the county board. The cost of the transcript shall be borne by the pupil except in either of the following situations:

1. Where the pupil's parent or guardian certifies to the school district that he or she cannot reasonably afford the cost of the transcript because of limited income or exceptional necessary expenses, or both.
2. In a case in which the county board reverses the decision of the local governing board, the county board shall require that the local board reimburse the pupil for the cost of such transcription.

**EDC 48922.**

(a) The review by the county board of education of the decision of the governing board shall be limited to the following questions:

1. Whether the governing board acted without or in excess of its jurisdiction.
2. Whether there was a fair hearing before the governing board.
3. Whether there was a prejudicial abuse of discretion in the hearing.
4. Whether there is relevant and material evidence which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the governing board.

(b) As used in this section, a proceeding without or in excess of jurisdiction includes, but is not limited to, a situation where an expulsion hearing is not commenced within the time periods prescribed by this article, a situation where an expulsion order is not based upon the acts enumerated in Section 48900, or a situation involving acts not related to school activity or attendance.

(c) For purposes of this section, an abuse of discretion is established in any of the following situations:

1. If school officials have not met the procedural requirements of this article.
2. If the decision to expel a pupil is not supported by the findings prescribed by Section 48915.
3. If the findings are not supported by the evidence.

A county board of education may not reverse the decision of a governing board to expel a pupil based upon a finding of an abuse of discretion unless the county board of education also determines that the abuse of discretion was prejudicial.

**EDC 48923.**

The decision of the county board shall be limited as follows:

(a) If the county board finds that relevant and material evidence exists which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the governing board, it may do either of the following:
(1) Remand the matter to the governing board for reconsideration and may in addition order the pupil reinstated pending the reconsideration.

(2) Grant a hearing de novo upon reasonable notice thereof to the pupil and to the governing board. The hearing shall be conducted in conformance with the rules and regulations adopted by the county board under Section 48919.

(b) If the county board determines that the decision of the governing board is not supported by the findings required to be made by Section 48915, but evidence supporting the required findings exists in the record of the proceedings, the county board shall remand the matter to the governing board for adoption of the required findings. This remand for the adoption and inclusion of the required findings shall not result in an additional hearing pursuant to Section 48918, except that final action to expel the pupil based on the revised findings of fact shall meet all requirements of subdivisions (j) and (k) of Section 48918.

(c) In all other cases, the county board shall enter an order either affirming or reversing the decision of the governing board. In any case in which the county board enters a decision reversing the local board, the county board may direct the local board to expunge the record of the pupil and the records of the district of any references to the expulsion action and the expulsion shall be deemed not to have occurred.

Return to School Following Removal

LAWS

EDC 1981.5.
(a) A pupil who is involuntarily enrolled in a county community school pursuant to subdivision (a) of, or subparagraph (A) of paragraph (1) or paragraph (3) of subdivision (c) of, Section 1981 shall have the right to reenroll in his or her former school or another comprehensive school immediately after being readmitted from the expulsion order pursuant to Section 48916 or court-ordered placement. Nothing in this section is intended to limit the school placement options that a school district may recommend for a pupil being readmitted.

(b) Consistent with the process and procedures set forth in Section 48916, only the governing board of the school district that issued the initial order or subsequent order to expel may extend the duration of an expelled pupil's placement in a county community school.

EDC 48915.1.
(a) If the governing board of a school district receives a request from an individual who has been expelled from another school district for an act other than those described in subdivision (a) or (c) of Section 48915, for enrollment in a school maintained by the school district, the board shall hold a hearing to determine whether that individual poses a continuing danger either to the pupils or employees of the school district. The hearing and notice shall be conducted in accordance with the rules and regulations governing procedures for the expulsion of pupils as described in Section 48918. A school district may request information from another school district regarding a recommendation for expulsion or the expulsion of an applicant for enrollment. The school district receiving the request shall respond to the request with all deliberate speed but shall respond no later than five working days from the date of the receipt of the request.
(b) If a pupil has been expelled from his or her previous school for an act other than those listed in subdivision (a) or (c) of Section 48915, the parent, guardian, or pupil, if the pupil is emancipated or otherwise legally of age, shall, upon enrollment, inform the receiving school district of his or her status with the previous school district. If this information is not provided to the school district and the school district later determines the pupil was expelled from the previous school, the lack of compliance shall be recorded and discussed in the hearing required pursuant to subdivision (a).

(c) The governing board of a school district may make a determination to deny enrollment to an individual who has been expelled from another school district for an act other than those described in subdivision (a) or (c) of Section 48915, for the remainder of the expulsion period after a determination has been made, pursuant to a hearing, that the individual poses a potential danger to either the pupils or employees of the school district.

(d) The governing board of a school district, when making its determination whether to enroll an individual who has been expelled from another school district for these acts, may consider the following options:

   1. Deny enrollment.
   2. Permit enrollment.
   3. Permit conditional enrollment in a regular school program or another educational program.

(e) Notwithstanding any other provision of law, the governing board of a school district, after a determination has been made, pursuant to a hearing, that an individual expelled from another school district for an act other than those described in subdivision (a) or (c) of Section 48915 does not pose a danger to either the pupils or employees of the school district, shall permit the individual to enroll in a school in the school district during the term of the expulsion, provided that he or she, subsequent to the expulsion, either has established legal residence in the school district, pursuant to Section 48200, or has enrolled in the school pursuant to an interdistrict agreement executed between the affected school districts pursuant to Chapter 5 (commencing with Section 46600).

EDC 48915.2.

(a) A pupil expelled from school for any of the offenses listed in subdivision (a) or (c) of Section 48915, shall not be permitted to enroll in any other school or school district during the period of expulsion unless it is a county community school pursuant to subdivision (c) of Section 1981, or a juvenile court school, as described in Section 48645.1, or a community day school pursuant to Article 3 (commencing with Section 48660) of Chapter 4 of Part 27.

(b) After a determination has been made, pursuant to a hearing under Section 48918, that an individual expelled from another school district for any act described in subdivision (a) or (c) of Section 48915 does not pose a danger to either the pupils or employees of the school district, the governing board of a school district may permit the individual to enroll in the school district after the term of expulsion, subject to one of the following conditions:

    1. He or she has established legal residence in the school district, pursuant to Section 48200.
    2. He or she is enrolled in the school pursuant to an interdistrict agreement executed between the affected school districts pursuant to Chapter 5 (commencing with Section 46600) of Part 26.

EDC 48916.

(a) An expulsion order shall remain in effect until the governing board, in the manner prescribed in this article, orders the readmission of a pupil. At the time an expulsion of a pupil is ordered for an act other than those described in subdivision (c) of Section 48915, the governing board shall set a date, not later than the last day of the semester following the semester in which the expulsion occurred, when the pupil shall be reviewed for readmission to a school maintained by the district or to the school the pupil last attended. If an expulsion is ordered during summer session or the intersession period of a year-round
program the governing board shall set a date, not later than the last day of the semester following the
summer session or intersession period in which the expulsion occurred, when the pupil shall be reviewed
for readmission to a school maintained by the district or to the school the pupil last attended. For a pupil
who has been expelled pursuant to subdivision (c) of Section 48915, the governing board shall set a date
of one year from the date the expulsion occurred, when the pupil shall be reviewed for readmission to a
school maintained by the district, except that the governing board may set an earlier date for readmission
on a case-by-case basis.

(b) The governing board shall recommend a plan of rehabilitation for the pupil at the time of the expulsion
order, which may include, but not be limited to, periodic review as well as assessment at the time of
review for readmission. The plan may also include recommendations for improved academic
performance, tutoring, special education assessments, job training, counseling, employment, community
service, or other rehabilitative programs.

(c) The governing board of each school district shall adopt rules and regulations establishing a procedure
for the filing and processing of requests for readmission and the process for the required review of all
expelled pupils for readmission. Upon completion of the readmission process, the governing board shall
readmit the pupil, unless the governing board makes a finding that the pupil has not met the conditions of
the rehabilitation plan or continues to pose a danger to campus safety or to other pupils or employees of
the school district. A description of the procedure shall be made available to the pupil and the pupil's
parent or guardian at the time the expulsion order is entered.

(d) If the governing board denies the readmission of an expelled pupil pursuant to subdivision (c), the
governing board shall make a determination either to continue the placement of the pupil in the alternative
educational program initially selected for the pupil during the period of the expulsion order or to place the
pupil in another program that may include, but need not be limited to, serving expelled pupils, including
placement in a county community school.

(e) The governing board shall provide written notice to the expelled pupil and the pupil's parent or
guardian describing the reasons for denying the pupil readmittance into the regular school district
program. The written notice shall also include the determination of the educational program for the
expelled pupil pursuant to subdivision (d). The expelled pupil shall enroll in that educational program
unless the parent or guardian of the pupil elects to enroll the pupil in another school district.

EDC 48916.5.

The governing board may require a pupil who is expelled from school for reasons relating to controlled
substances, as defined in Sections 11054 to 11058, inclusive, of the Health and Safety Code, or alcohol,
prior to returning to school to enroll in a county-supported drug rehabilitation program. No pupil shall be
required to enroll in a rehabilitation program pursuant to this section without the consent of his or her
parent or guardian.

EDC 48918.

The governing board of each school district shall establish rules and regulations governing procedures for
the expulsion of pupils. These procedures shall include, but are not necessarily limited to, all of the
following:

(e) Within three schooldays after the hearing, the hearing officer or administrative panel shall determine
whether to recommend the expulsion of the pupil to the governing board of the school district. If the
hearing officer or administrative panel decides not to recommend expulsion, the expulsion proceedings
shall be terminated and the pupil immediately shall be reinstated and permitted to return to the
classroom instructional program from which the expulsion referral was made, unless the parent,
guardian, or responsible adult of the pupil requests another school placement in writing. Before the
placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools
or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, irresponsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final.

Alternative Placements

LAWS

EDC 1980.
A county board of education may establish and maintain one or more community schools.

EDC 1981.
The county board of education may enroll pupils in a county community school who are any of the following:
(a) Expelled from a school district for any reason other than those specified in subdivision (a) or (c) of Section 48915.
(3) If the parent, guardian, or responsible adult of the pupil objects for any of the reasons described in subclauses (I) to (IV), inclusive, of clause (i) of subparagraph (C) of paragraph (1), the school district may either address the express objection or find an alternative placement in another comprehensive or continuation school within the school district. If the school district has offered the pupil all other options, the school district may refer the pupil to the county community school.

EDC 1981.5.
(a) A pupil who is involuntarily enrolled in a county community school pursuant to subdivision (a) or, or subparagraph (A) of paragraph (1) or paragraph (3) of subdivision (c) of, Section 1981 shall have the right to reenroll in his or her former school or another comprehensive school immediately after being readmitted from the expulsion order pursuant to Section 48916 or court-ordered placement. Nothing in this section is intended to limit the school placement options that a school district may recommend for a pupil being readmitted.
(b) Consistent with the process and procedures set forth in Section 48916, only the governing board of the school district that issued the initial order or subsequent order to expel may extend the duration of an expelled pupil's placement in a county community school.

EDC 1983.
(a) Pupils enrolled in county community schools shall be assigned to classes or programs deemed most appropriate for reinforcing or reestablishing educational development.
(b) These classes or programs may include, but need not be limited to, basic educational skill development, on-the-job training, school credit recovery assistance, tutorial assistance, and individual guidance activities.
(c) To the extent that independent study is determined to satisfy the individually planned educational program described in subdivision (d) for a pupil attending a county community school, it shall meet all the requirements of Article 5.5 (commencing with Section 51745) of Chapter 5 of Part 28 of Division 4 of Title 2, including the requirement that entry into that program is voluntary.

(d) An individually planned educational program based upon an educational assessment shall be prescribed for each pupil.

(e) The course of study of a county community school shall be adopted by the county board of education and shall enable each pupil to continue academic work leading to the completion of a regular high school program.

(f) Pursuant to Part 30 (commencing with Section 56000) of Division 4 of Title 2, Chapter 33 (commencing with Section 1400) of Title 20 of the United States Code, and accompanying state and federal regulatory provisions, county boards of education operating county community schools shall ensure that assessments are administered in all areas of suspected disability and appropriate services and programs, as specified in a pupil's individualized education program, are provided.

(g) County boards of education operating county community schools shall ensure that appropriate services and programs designed to address the language needs of pupils identified as English learners are provided in compliance with all applicable state and federal laws and regulatory provisions.

(h) For purposes of this section, "school credit recovery assistance" refers to a pupil passing, and receiving credit for, a course that the pupil previously attempted, but for which the pupil was unsuccessful in earning academic credit towards graduation. The pupil can recover the credit by satisfying requirements for the course in which they were unsuccessful and can focus on earning credit based on competency in the content standards for that particular course. Credit recovery programs aim to help schools graduate more pupils by giving pupils who have fallen behind the chance to recover credits through a multitude of different strategies. Different programs allow pupils to work on their credit recovery classes over the summer, on school breaks, after school, on weekends, at home on their own, at night in school computer labs, online, or even during the schoolday.

(d) This section shall become operative on July 1, 1990.

The county school attendance review board may encourage local school attendance review boards to maintain a continuing inventory of community resources, including alternative educational programs, and to make recommendations for the improvement of such resources and programs or for the creation of new resources and programs where none exist.

EDC 48432.
The governing board of each high school district and each unified school district shall establish and maintain within its boundaries special continuation education classes and may establish and maintain regional occupational centers or programs, in accordance with the provisions of Section 52301, whenever there are any minors residing within the district who are subject to compulsory continuation education; provided, that if there are fewer than 100 students enrolled in grade 12 in any school of the district maintaining that grade, the governing board of the district may apply to the State Department of Education for exemption of that school from the requirements of this section and such exemption may be granted in accordance with rules and regulations that shall be adopted by the State Board of Education to govern the granting of the exemptions. An exemption may also be granted to schools having an enrollment of more than 100 pupils in grade 12 if the district seeking the exemption has entered into an agreement with another high school district or unified school district to maintain special continuation education classes for minors residing in either of the districts, but shall not be granted if the agreement would make it necessary for such minors to travel an excessive distance from their homes to the continuation education classes.

Nothing in this section shall prohibit a minor from enrolling in a program of continuation education or a regular high school program if the minor voluntarily chooses to enroll in the program.

EDC 48660.
(a) The governing board of a school district may establish one or more community day schools for pupils who meet one or more of the conditions described in subdivision (b) of Section 48662. A community day school may serve pupils in any of kindergarten and grades 1 to 6, inclusive, or any of grades 7 to 12, inclusive, or the same or lesser included range of grades as may be found in an individual middle or junior high school operated by the school district. If a school district is organized as a school district that serves kindergarten and grades 1 to 8, inclusive, but no higher grades, the governing board of the school district may establish a community day school for any kindergarten and grades 1 to 8, inclusive, upon a two-thirds vote of the governing board of the school district. It is the intent of the Legislature, that to the extent possible, the governing board of a school district operating a community day school for any of
kindergarten and grades 1 to 8, inclusive, separate younger pupils from older pupils within that community day school.

(b) The average daily attendance of a community day school shall be determined by dividing the total number of days of attendance in all full school months, by a divisor of 70 in the first period of each fiscal year, by a divisor of 135 in the second period of each fiscal year, and by a divisor of 180 at the annual time of each fiscal year.

EDC 48660.1.

It is the intent of the Legislature that school districts operating community day schools to the extent possible include the following program components:

(a) School district cooperation with the county office of education, law enforcement, probation, and human services agencies personnel who work with at-risk youth.

(b) Low pupil-teacher ratio.

(c) Individualized instruction and assessment.

(1) When the governing board of a school district with 2,500 or fewer units of average daily attendance reported for the most recent second principal apportionment certifies by a two-thirds vote of its membership that satisfactory alternative facilities are not available for a community day school.

(2) When the governing board of a school district that is organized as a district to serve kindergarten and grades 1 to 8, inclusive, but no higher grades, certifies by a two-thirds vote of its membership that satisfactory alternative facilities are not available for a community day school.

(3) When the governing board of a school district that desires to operate a community day school to serve any of kindergarten and grades 1 to 6, inclusive, but no higher grades, certifies by a two-thirds vote of its membership that satisfactory alternative facilities are not available for a community day school.

(b) A certification made pursuant to this section is valid for not more than one school year and may be renewed by a subsequent two-thirds vote of the governing board.

EDC 48662.

(a) The governing board of a school district that establishes a community day school shall adopt policies that provide procedures for the involuntary transfer of pupils to a community day school.

(b) A pupil may be assigned to a community day school only if he or she meets one or more of the following conditions:

(1) The pupil is expelled for any reason.

(2) The pupil is probation referred pursuant to Sections 300 and 602 of the Welfare and Institutions Code.

(3) The pupil is referred to a community day school by a school attendance review board or other district level referral process.

(4) First priority for assignment to a community day school shall be given to a pupil expelled pursuant to subdivision (d) of Section 48915, second priority shall be given to pupils expelled for any other reasons,
and third priority shall be given for placement to all other pupils pursuant to this section, unless there is an agreement that the county superintendent of schools shall serve any of these pupils.

EDC 48663.
(a) The minimum schoolday in a community day school is 360 minutes of classroom instruction provided by a certificated employee of the district reporting the attendance of the pupils for apportionment funding.
(b) A pupil enrolled in a community day school may not generate more than one day of community day school attendance credit in a schoolday for any purpose.
(c) For the purposes of calculating the additional funding provided to a school district pursuant to Section 48664, only community day school attendance shall be reported in clock hours. Attendance of less than five clock hours in a schoolday shall be disregarded for purposes of Section 48664. Five clock hours of attendance in one schoolday shall be deemed to be one-half day of attendance, for purposes of additional funding pursuant to Section 48664. Six clock hours or more of attendance in one schoolday shall be deemed to be one day of attendance, for purposes of additional funding pursuant to Section 48664.
(d) Independent study may not be utilized as a means of providing any part of the minimum instructional day provided pursuant to subdivision (a).
(e) A community day school's academic programs shall be comparable to those available to pupils of a similar age in the school district.

EDC 48903.
(a) Except as provided in subdivision (g) of Section 48911 and in Section 48912, the total number of days for which a pupil may be suspended from school shall not exceed 20 schooldays in any school year, unless for purposes of adjustment, a pupil enrolls in or is transferred to another regular school, an opportunity school or class, or a continuation education school or class, in which case the total number of schooldays for which the pupil may be suspended shall not exceed 30 days in any school year.
(b) For the purposes of this section, a school district may count suspensions that occur while a pupil is enrolled in another school district toward the maximum number of days for which a pupil may be suspended in any school year.

EDC 48910.
(a) A teacher may suspend any pupil from class, for any of the acts enumerated in Section 48900, for the day of the suspension and the day following. The teacher shall immediately report the suspension to the principal of the school and send the pupil to the principal or the designee of the principal for appropriate action. If that action requires the continued presence of the pupil at the schoolsite, the pupil shall be under appropriate supervision, as defined in policies and related regulations adopted by the governing board of the school district. As soon as possible, the teacher shall ask the parent or guardian of the pupil to attend a parent-teacher conference regarding the suspension. If practicable, a school counselor or a school psychologist may attend the conference. A school administrator shall attend the conference if the teacher or the parent or guardian so requests. The pupil shall not be returned to the class from which he or she was suspended, during the period of the suspension, without the concurrence of the teacher of the class and the principal.
(b) A pupil suspended from a class shall not be placed in another regular class during the period of suspension. However, if the pupil is assigned to more than one class per day this subdivision shall apply only to other regular classes scheduled at the same time as the class from which the pupil was suspended.
(c) A teacher may also refer a pupil, for any of the acts enumerated in Section 48900, to the principal or the designee of the principal for consideration of a suspension from the school.
EDC 48911.1.
(a) A pupil suspended from a school for any of the reasons enumerated in Sections 48900 and 48900.2 may be assigned, by the principal or the principal's designee, to a supervised suspension classroom for the entire period of suspension if the pupil poses no imminent danger or threat to the campus, pupils, or staff, or if an action to expel the pupil has not been initiated.

(b) Pupils assigned to a supervised suspension classroom shall be separated from other pupils at the schoolsite for the period of suspension in a separate classroom, building, or site for pupils under suspension.

(c) School districts may continue to claim apportionments for each pupil assigned to and attending a supervised suspension classroom provided as follows:

(1) The supervised suspension classroom is staffed as otherwise provided by law.

(2) Each pupil has access to appropriate counseling services.

(3) The supervised suspension classroom promotes completion of schoolwork and tests missed by the pupil during the suspension.

(4) Each pupil is responsible for contacting his or her teacher or teachers to receive assignments to be completed while the pupil is assigned to the supervised suspension classroom. The teacher shall provide all assignments and tests that the pupil will miss while suspended. If no classroom work is assigned, the person supervising the suspension classroom shall assign schoolwork.

(d) At the time a pupil is assigned to a supervised suspension classroom, a school employee shall notify, in person or by telephone, the pupil's parent or guardian. Whenever a pupil is assigned to a supervised suspension classroom for longer than one class period, a school employee shall notify, in writing, the pupil's parent or guardian.

(e) This section does not place any limitation on a school district's ability to transfer a pupil to an opportunity school or class or a continuation education school or class.

(f) Apportionments claimed by a school district for pupils assigned to supervised suspension shall be used specifically to mitigate the cost of implementing this section.

EDC 48915.
(a)(1) Except as provided in subdivisions (c) and (e), the principal or the superintendent of schools shall recommend the expulsion of a pupil for any of the following acts committed at school or at a school activity off school grounds, unless the principal or superintendent determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct:

(A) Causing serious physical injury to another person, except in self-defense.

(B) Possession of any knife or other dangerous object of no reasonable use to the pupil.

(C) Unlawful possession of any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, except for either of the following:

   (i) The first offense for the possession of not more than one avoirdupois ounce of marijuana, other than concentrated cannabis.

   (ii) The possession of over-the-counter medication for use by the pupil for medical purposes or medication prescribed for the pupil by a physician.

(D) Robbery or extortion.

(E) Assault or battery, as defined in Sections 240 and 242 of the Penal Code, upon any school employee.
(2) If the principal or the superintendent of schools makes a determination as described in paragraph (1), he or she is encouraged to do so as quickly as possible to ensure that the pupil does not lose instructional time.

(b) Upon recommendation by the principal or the superintendent of schools, or by a hearing officer or administrative panel appointed pursuant to subdivision (d) of Section 48918, the governing board of a school district may order a pupil expelled upon finding that the pupil committed an act listed in paragraph (1) of subdivision (a) or in subdivision (a), (b), (c), (d), or (e) of Section 48900. A decision to expel a pupil for any of those acts shall be based on a finding of one or both of the following:

(1) Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.

(2) Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

(c) The principal or superintendent of schools shall immediately suspend, pursuant to Section 48911, and shall recommend expulsion of a pupil that he or she determines has committed any of the following acts at school or at a school activity off school grounds:

(1) Possessing, selling, or otherwise furnishing a firearm. This subdivision does not apply to an act of possessing a firearm if the pupil had obtained prior written permission to possess the firearm from a certificated school employee, which is concurred in by the principal or the designee of the principal. This subdivision applies to an act of possessing a firearm only if the possession is verified by an employee of a school district. The act of possessing an imitation firearm, as defined in subdivision (m) of Section 48900, is not an offense for which suspension or expulsion is mandatory pursuant to this subdivision and subdivision (d), but it is an offense for which suspension, or expulsion pursuant to subdivision (e), may be imposed.

(2) Brandishing a knife at another person.

(3) Unlawfully selling a controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code.

(4) Committing or attempting to commit a sexual assault as defined in subdivision (n) of Section 48900 or committing a sexual battery as defined in subdivision (n) of Section 48900.

(5) Possession of an explosive.

(d) The governing board of a school district shall order a pupil expelled upon finding that the pupil committed an act listed in subdivision (c), and shall refer that pupil to a program of study that meets all of the following conditions:

(1) Is appropriately prepared to accommodate pupils who exhibit discipline problems.

(2) Is not provided at a comprehensive middle, junior, or senior high school, or at any elementary school.

(3) Is not housed at the schoolsite attended by the pupil at the time of suspension.

(e) Upon recommendation by the principal or the superintendent of schools, or by a hearing officer or administrative panel appointed pursuant to subdivision (d) of Section 48918, the governing board of a school district may order a pupil expelled upon finding that the pupil, at school or at a school activity off of school grounds violated subdivision (f), (g), (h), (i), (j), (k), (l), or (m) of Section 48900, or Section 48900.2, 48900.3, or 48900.4, and either of the following:

(1) That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.

(2) That due to the nature of the violation, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.
(f) The governing board of a school district shall refer a pupil who has been expelled pursuant to subdivision (b) or (e) to a program of study that meets all of the conditions specified in subdivision (d). Notwithstanding this subdivision, with respect to a pupil expelled pursuant to subdivision (e), if the county superintendent of schools certifies that an alternative program of study is not available at a site away from a comprehensive middle, junior, or senior high school, or an elementary school, and that the only option for placement is at another comprehensive middle, junior, or senior high school, or another elementary school, the pupil may be referred to a program of study that is provided at a comprehensive middle, junior, or senior high school, or at an elementary school.

(g) As used in this section, "knife" means any dirk, dagger, or other weapon with a fixed, sharpened blade fitted primarily for stabbing, a weapon with a blade fitted primarily for stabbing, a weapon with a blade longer than 3½ inches, a folding knife with a blade that locks into place, or a razor with an unguarded blade.

EDC 48915.01.

If the governing board of a school district has established a community day school pursuant to Section 48661 on the same site as a comprehensive middle, junior, or senior high school, or at any elementary school, the governing board does not have to meet the condition in paragraph (2) of subdivision (d) of Section 48915 when the board, pursuant to subdivision (f) of Section 48915, refers a pupil to a program of study and that program of study is at the community day school. All the other conditions of subdivision (d) of Section 48915 are applicable to the referral as required by subdivision (f) of Section 48915.

EDC 48915.2.

(a) A pupil expelled from school for any of the offenses listed in subdivision (a) or (c) of Section 48915, shall not be permitted to enroll in any other school or school district during the period of expulsion unless it is a county community school pursuant to subdivision (c) of Section 1981, or a juvenile court school, as described in Section 48645.1, or a community day school pursuant to Article 3 (commencing with Section 48660) of Chapter 4 of Part 27.

(b) After a determination has been made, pursuant to a hearing under Section 48918, that an individual expelled from another school district for any act described in subdivision (a) or (c) of Section 48915 does not pose a danger to either the pupils or employees of the school district, the governing board of a school district may permit the individual to enroll in the school district after the term of expulsion, subject to one of the following conditions:

   (1) He or she has established legal residence in the school district, pursuant to Section 48200.

   (2) He or she is enrolled in the school pursuant to an interdistrict agreement executed between the affected school districts pursuant to Chapter 5 (commencing with Section 46600) of Part 26.

EDC 48915.5.

(a) A pupil expelled from school for any of the offenses listed in subdivision (a) or (c) of Section 48915, shall not be permitted to enroll in any other school or school district during the period of expulsion unless it is a county community school pursuant to subdivision (c) of Section 1981, or a juvenile court school, as described in Section 48645.1, or a community day school pursuant to Article 3 (commencing with Section 48660) of Chapter 4 of Part 27.

(b) After a determination has been made, pursuant to a hearing under Section 48918, that an individual expelled from another school district for any act described in subdivision (a) or (c) of Section 48915 does not pose a danger to either the pupils or employees of the school district, the governing board of a school district may permit the individual to enroll in the school district after the term of expulsion, subject to one of the following conditions:
(1) He or she has established legal residence in the school district, pursuant to Section 48200.

(2) He or she is enrolled in the school pursuant to an interdistrict agreement executed between the affected school districts pursuant to Chapter 5 (commencing with Section 46600) of Part 26.

EDC 48916.

(c) The governing board of each school district shall adopt rules and regulations establishing a procedure for the filing and processing of requests for readmission and the process for the required review of all expelled pupils for readmission. Upon completion of the readmission process, the governing board shall readmit the pupil, unless the governing board makes a finding that the pupil has not met the conditions of the rehabilitation plan or continues to pose a danger to campus safety or to other pupils or employees of the school district. A description of the procedure shall be made available to the pupil and the pupil's parent or guardian at the time the expulsion order is entered.

(d) If the governing board denies the readmission of an expelled pupil pursuant to subdivision (c), the governing board shall make a determination either to continue the placement of the pupil in the alternative educational program initially selected for the pupil during the period of the expulsion order or to place the pupil in another program that may include, but need not be limited to, serving expelled pupils, including placement in a county community school.

EDC 48916.1.

(a) At the time an expulsion of a pupil is ordered, the governing board of the school district shall ensure that an educational program is provided to the pupil who is subject to the expulsion order for the period of the expulsion. Except for pupils expelled pursuant to subdivision (d) of Section 48915, the governing board of a school district is required to implement the provisions of this section only to the extent funds are appropriated for this purpose in the annual Budget Act or other legislation, or both.

(b) Notwithstanding any other provision of law, any educational program provided pursuant to subdivision (a) may be operated by the school district, the county superintendent of schools, or a consortium of districts or in joint agreement with the county superintendent of schools.

(c) Any educational program provided pursuant to subdivision (b) may not be situated within or on the grounds of the school from which the pupil was expelled.

(d) If the pupil who is subject to the expulsion order was expelled from any of kindergarten or grades 1 to 6, inclusive, the educational program provided pursuant to subdivision (b) may not be combined or merged with educational programs offered to pupils in any of grades 7 to 12, inclusive. The district or county program is the only program required to be provided to expelled pupils as determined by the governing board of the school district. This subdivision, as it relates to the separation of pupils by grade levels, does not apply to community day schools offering instruction in any of kindergarten and grades 1 to 8, inclusive, and established in accordance with Section 48660.

(e)(1) Each school district shall maintain the following data:

   (A) The number of pupils recommended for expulsion.
   (B) The grounds for each recommended expulsion.
   (C) Whether the pupil was subsequently expelled.
   (D) Whether the expulsion order was suspended.
   (E) The type of referral made after the expulsion.
   (F) The disposition of the pupil after the end of the period of expulsion.

(2) The Superintendent may require a school district to report this data as part of the coordinated compliance review. If a school district does not report outcome data as required by this subdivision, the Superintendent may not apportion any further money to the school district pursuant to Section 48664.
until the school district is in compliance with this subdivision. Before withholding the apportionment of funds to a school district pursuant to this subdivision, the Superintendent shall give written notice to the governing board of the school district that the school district has failed to report the data required by paragraph (1) and that the school district has 30 calendar days from the date of the written notice of noncompliance to report the requested data and thereby avoid the withholding of the apportionment of funds.

(f) If the county superintendent of schools is unable for any reason to serve the expelled pupils of a school district within the county, the governing board of that school district may enter into an agreement with a county superintendent of schools in another county to provide education services for the district's expelled pupils.

EDC 48926.
Each county superintendent of schools in counties that operate community schools pursuant to Section 1980, in conjunction with superintendents of the school districts within the county, shall develop a plan for providing education services to all expelled pupils in that county. The plan shall be adopted by the governing board of each school district within the county and by the county board of education. The plan shall enumerate existing educational alternatives for expelled pupils, identify gaps in educational services to expelled pupils, and strategies for filling those service gaps. The plan shall also identify alternative placements for pupils who are expelled and placed in district community day school programs, but who fail to meet the terms and conditions of their rehabilitation plan or who pose a danger to other district pupils, as determined by the governing board.

Each county superintendent of schools, in conjunction with the superintendents of the school districts, shall submit to the Superintendent of Public Instruction the county plan for providing educational services to all expelled pupils in the county no later than June 30, 1997, and shall submit a triennial update to the plan to the Superintendent of Public Instruction, including the outcome data pursuant to Section 48916.1, on June 30th thereafter.

EDC 48929.
Notwithstanding any other law, the governing board of a school district may transfer to another school in that school district a pupil enrolled in that school district who has been convicted of a violent felony, as defined in subdivision (c) of Section 667.5 of the Penal Code, or convicted of a misdemeanor listed in Section 29805 of the Penal Code if the pupil to be transferred and the victim of the crime for which the pupil was convicted are enrolled at the same school, subject to satisfaction of both of the following conditions:

(a) The governing board of the school district has adopted a policy at a regularly scheduled meeting that contains all of the following provisions:

(1) A requirement that the pupil and pupil's parent or guardian be notified of the right to request a meeting with the school principal or designee of the school or school district.

(2) A requirement that the school first attempt to resolve the conflict before transferring a pupil, including, but not limited to, using restorative justice, counseling, or other services.

(3) Whether the decision to transfer a pupil is subject to periodic review and the procedure for conducting the review.

(4) The process to be used by the governing board of the school district to consider and approve or disapprove of the recommendation of the school principal or other school or school district designee to transfer the pupil.

(b) The governing board of the school district has provided notice of the policy to parents or guardians as part of the annual notification required pursuant to Section 48980.
**EDC 58500.**
The governing board of any school district may establish and maintain one or more alternative schools within the district.

For the purposes of this article, an alternative school is defined as a school or separate class group within a school which is operated in a manner designed to:

These interests may be conceived by him totally and independently or may result in whole or in part from a presentation by his teachers of choices of learning projects.

(d) Maximize the opportunity for teachers, parents and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process.

(e) Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located.

(e) Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located.

In the event any parent, pupil, or teacher is interested in further information concerning alternative schools, the county superintendent of schools, the administrative office of this district, and the principal's office in each attendance unit have copies of the law available for your information. This law particularly authorizes interested persons to request the governing board of the district to establish alternative school programs in each district.

Further, a copy shall be posted in at least two places normally visible to pupils, teachers, and visiting parents in each attendance unit for the entire month of March in each year.

(a) The Legislature finds and declares all of the following:

1. The educational mission of schools may be thwarted when school campuses are not safe, secure, and peaceful.
2. Effective school management can improve school safety and decrease violence and criminal behavior.
3. In many school districts and neighborhoods, violence and criminal behavior are increasingly frequent.
4. Teachers and other educators who are well prepared in principles of school safety may be able to mitigate, to some degree, the detrimental behavior of pupils and others on school campuses.

The school attendance review board or probation officer may require, at any time that it determines proper, the pupil or parents or guardians of the pupil, or both, to furnish satisfactory evidence of participation in the available community services.

(2) If the school attendance review board or probation officer determines that available community services cannot resolve the problem of the truant or insubordinate pupil or if the pupil or the parents or guardians of the pupil, or both, have failed to respond to directives of the school attendance review board or probation officer or to services provided, the school attendance review board may, pursuant to Section 48263.5, notify the district attorney or the probation officer, or both, of the county in which the school district is located, or the probation officer may, pursuant to Section 48263.5, notify the district attorney, if the district attorney or the probation officer has elected to participate in the truancy mediation program described in that section.

(2) Provide, in any proposed alternative, for maximum utilization of community and regional resources appropriately employed in behalf of minors prior to any involvement with the judicial system.

It is therefore the intent of the Legislature in enacting this section to do the following:

Encourage the cooperation, coordination, and development of strategies to support county school attendance review boards in carrying out their responsibilities to establish local school attendance review boards as necessary. These strategies may include, but need not be limited to, plans for the training of school attendance review board personnel.

2. Divert pupils with serious attendance and behavioral problems from the juvenile justice system to agencies more directly related to the state public school system by developing a system for gathering and dispensing information on successful community-based and school-based programs.

3. Reduce duplication of the services of state and county agencies in serving high-risk youth, including youth with school attendance or behavioral problems.

4. Reduce the number of dropouts in the state public education system by promoting interagency cooperation among those agencies which have as their goals preventing students from dropping out, and increasing the holding power of the public schools.

To the extent feasible, members of the board shall include persons who are currently members of county or local school attendance review boards. For every year after the first year that the board is convened, the purpose of the invitations of participation shall be to inform appropriate groups, state agencies, and departments of the purposes of the board, to fill vacancies, and to supplement the membership of the board as necessary.

(2) The superintendent shall prescribe an appropriate deadline for acceptance of invitations of participation as a member of the state school attendance review board for that particular year, and the invitations accepted on or before the deadline shall constitute the board for that year, except that the board shall also include a representative of the State Department of Education designated by the director of that department. The representative of the State Department of Education shall be the chairperson of the board.

The Legislature finds and declares that a substantial drug abuse and drug trafficking problem exists among school-age children on and around school campuses in the State of California. By enacting this chapter, it is the intention of the Legislature to support increased efforts by local law enforcement agencies, working in conjunction with school districts and county drug offices to suppress trafficking and prevent drug abuse among school age children on and around school campuses through the development of innovative and model programs by local law enforcement agencies and schools and drug abuse agencies. As used in this chapter, drugs are defined as marijuana, inhalants, narcotics, dangerous drugs, pharmaceuticals, glue and alcohol. It is the further intention of the Legislature to establish a program of financial and technical assistance for local law enforcement and school districts.

PEN 13861.
There is hereby created in the Office of Emergency Services the Suppression of Drug Abuse in Schools Program. All funds made available to the Office of Emergency Services for the purposes of this chapter shall be administered and disbursed by the Director of Emergency Services in consultation with the State Suppression of Drug Abuse in Schools Advisory Committee established pursuant to Section 13863.

(a) The Director of Emergency Services, in consultation with the State Suppression of Drug Abuse in Schools Advisory Committee, is authorized to allocate and award funds to local law enforcement agencies and public schools jointly working to develop drug abuse prevention and drug trafficking suppression programs in substantial compliance with the policies and criteria set forth in Sections 13862 and 13863.

(b) The allocation and award of funds shall be made upon the joint application by the chief law enforcement officer of the coapplicant law enforcement agency and approved by the law enforcement agency’s legislative body and the superintendent and board of the school district coapplicant. The joint application of the law enforcement agency and the school district shall be submitted for review to the
Local Suppression of Drug Abuse in Schools Advisory Committee established pursuant to paragraph (4) of subdivision (a) of Section 13862. After review, the application shall be submitted to the Office of Emergency Services. Funds disbursed under this chapter may enhance but shall not supplant local funds that would, in the absence of the Suppression of Drug Abuse in Schools Program, be made available to suppress and prevent drug abuse among schoolage children and to curtail drug trafficking in and around school areas.

(c) The coapplicant local law enforcement agency and the coapplicant school district may enter into interagency agreements between themselves which will allow the management and fiscal tasks created pursuant to this chapter and assigned to both the law enforcement agency and the school district to be performed by only one of them.

(d) Within 90 days of the effective date of this chapter, the Director of Emergency Services, in consultation with the State Suppression of Drug Abuse in Schools Advisory Committee established pursuant to Section 13863, shall prepare and issue administrative guidelines and procedures for the Suppression of Drug Abuse in Schools Program consistent with this chapter. In addition to all other formal requirements that may apply to the enactment of these guidelines and procedures, a complete and final draft shall be submitted within 60 days of the effective date of this chapter to the Chairpersons of the Committee on Criminal Law and Public Safety of the Assembly and the Judiciary Committee of the Senate of the California Legislature.

**PEN 13862.**

Law enforcement agencies and school districts receiving funds under this chapter shall concentrate enhanced apprehension, prevention, and education efforts and resources on drug abuse and drug trafficking in and around school campuses.

(a) These enhanced apprehension, prevention, and education efforts shall include, but not be limited to:

1. Drug traffic intervention programs.
2. School and classroom-oriented programs, using tested drug abuse education curriculum that provides in-depth and accurate information on drugs, which may include the participation of local law enforcement agencies and qualified drug abuse prevention specialists and which are designed to increase teachers' and students' awareness of drugs and their effects.
3. Family oriented programs aimed at preventing drug abuse which may include the participation of community-based organizations experienced in the successful operation of such programs.
4. The establishment of a Local Suppression of Drug Abuse in Schools Advisory Committee. The committee shall be established and appointed by the board of supervisors of each county and city and county. However, if the agency receiving funds under this chapter is a city agency and the program does not involve any county agency, or if a county agency is involved and the county board of supervisors consents, the committee shall be established and appointed by the city council. The committee may be a newly created committee or an existing local drug abuse committee as designated by the board or city council. The committee shall be composed of, at a minimum, the following:
   - Local law enforcement executives.
   - School district executives.
   - Schoolsite staff, which includes administrators, teachers, or other credentialed personnel.
   - Parents.
   - Students.
   - School peace officers.
(G) County drug program administrators designated pursuant to Section 11962 of the Health and Safety Code.

(H) Drug prevention program executives.

(5) Development and distribution of appropriate written and audio-visual aids for training of school and law enforcement staff for handling drug-related problems and offenses. Appropriate existing aids may be utilized in lieu of development of new materials.

(6) Development of prevention and intervention programs for elementary school teachers and students, including utilization of existing prevention and intervention programs.

(7) Development of a coordinated intervention system that identifies students with chronic drug abuse problems and facilitates their referral to a drug abuse treatment program.

(b) Enhanced apprehension, prevention, and education efforts commenced under this section shall be a joint effort between local law enforcement and local school districts in cooperation with county drug program offices. These efforts shall include, but not be limited to, the concentration of apprehension efforts in "problem" areas identified by local school authorities.

(c) Funds appropriated pursuant to this chapter may be used in part to support state-level development and statewide distribution of appropriate written and audio-visual aids for public awareness and training of school and law enforcement staff for handling drug-related problems and offenses. When existing aids can be identified, these aids may be utilized in lieu of the development of new aids.

PEN 13864.

There is hereby created in the Office of Emergency Services the Comprehensive Alcohol and Drug Prevention Education component of the Suppression of Drug Abuse in Schools Program in public elementary schools in grades 4 to 6, inclusive. Notwithstanding Section 13861 or any other provision in this code, all Comprehensive Alcohol and Drug Prevention Education component funds made available to the Office of Emergency Services in accordance with the Classroom Instructional Improvement and Accountability Act shall be administered by and disbursed to county superintendents of schools in this state by the Director of Emergency Services. All applications for that funding shall be reviewed and evaluated by the Office of Emergency Services, in consultation with the State Department of Health Care Services and the State Department of Education.

(a) The Director of Emergency Services is authorized to allocate and award funds to county department superintendents of schools for allocation to individual school districts or to a consortium of two or more school districts. Applications funded under this section shall comply with the criteria, policies, and procedures established under subdivision (b) of this section.

(b) As a condition of eligibility for the funding described in this section, the school district or consortium of school districts shall have entered into an agreement with a local law enforcement agency to jointly implement a comprehensive alcohol and drug abuse prevention, intervention, and suppression program developed by the Office of Emergency Services, in consultation with the State Department of Health Care Services and the State Department of Education, containing all of the following components:

(1) A standardized age-appropriate curriculum designed for pupils in grades 4 to 6, inclusive, specifically tailored and sensitive to the socioeconomic and ethnic characteristics of the target pupil population. Although new curricula shall not be required to be developed, existing curricula may be modified and adapted to meet local needs. The elements of the standardized comprehensive alcohol and drug prevention education program curriculum shall be defined and approved by the Governor's Policy Council on Drug and Alcohol Abuse, as established by Executive Order No. D-70-80.
(2) A planning process that includes assessment of the school district’s characteristics, resources,
and the extent of problems related to juvenile drug abuse, and input from local law enforcement
agencies.

(3) A school district governing board policy that provides for a coordinated intervention system that, at
a minimum, includes procedures for identification, intervention, and referral of at-promise alcohol- and
drug-involved youth, and identifies the roles and responsibilities of law enforcement, school
personnel, parents, and pupils.

(4) Early intervention activities that include, but are not limited to, the identification of pupils who are
high risk or have chronic drug abuse problems, assessment, and referral for appropriate services,
including ongoing support services.

(5) Parent education programs to initiate and maintain parental involvement, with an emphasis for
parents of at-risk pupils.

(6) Staff and in-service training programs, including both indepth training for the core team involved in
providing program services and general awareness training for all school faculty and administrative,
credentialed, and noncredentialed school personnel.

(7) In-service training programs for local law enforcement officers.

(8) School, law enforcement, and community involvement to ensure coordination of program services.
Pursuant to that coordination, the school district or districts and other local agencies are encouraged
to use a single community advisory committee or task force for drug, alcohol, and tobacco abuse
prevention programs, as an alternative to the creation of a separate group for that purpose under
each state or federally funded program.

(c) The application of the county superintendent of schools shall be submitted to the Office of
Emergency Services. Funds made available to the Office of Emergency Services for allocation under
this section are intended to enhance, but shall not supplant, local funds that would, in the absence of
the Comprehensive Alcohol and Drug Prevention Education component, be made available to prevent,
intervene in, or suppress drug abuse among schoolage children. For districts that are already
implementing a comprehensive drug abuse prevention program for pupils in grades 4 to 6, inclusive, the
county superintendent shall propose the use of the funds for drug prevention activities in school grades
other than 4 to 6, inclusive, compatible with the program components of this section. The expenditure of
funds for that alternative purpose shall be approved by the Director of Emergency Services.

(1) Unless otherwise authorized by the Office of Emergency Services, each county superintendent of
schools shall be the fiscal agent for any Comprehensive Alcohol and Drug Prevention Education
component award, and shall be responsible for ensuring that each school district within that county
receives the allocation prescribed by the Office of Emergency Services. Each county superintendent
shall develop a countywide plan that complies with program guidelines and procedures established by
the Office of Emergency Services pursuant to subdivision (d). A maximum of 5 percent of the county’s
allocation may be used for administrative costs associated with the project.

(2) Each county superintendent of schools shall establish and chair a local coordinating committee to
assist the superintendent in developing and implementing a countywide implementation plan. This
committee shall include the county drug administrator, law enforcement executives, school district
governing board members and administrators, school faculty, parents, and drug prevention and
intervention program executives selected by the superintendent and approved by the county board of
superintendents.

(d) The Director of Emergency Services, in consultation with the State Department of Health Care
Services and the State Department of Education, shall prepare and issue guidelines and procedures for
the Comprehensive Alcohol and Drug Prevention Education component consistent with this section.
(e) The Comprehensive Alcohol and Drug Prevention Education component guidelines shall set forth the terms and conditions upon which the Office of Emergency Services is prepared to award grants of funds pursuant to this section. The guidelines shall not constitute rules, regulations, orders, or standards of general application.

Gang-related Activity

LAWS

EDC 32261.
(a) The Legislature hereby recognizes that all pupils enrolled in the state public schools have the inalienable right to attend classes on school campuses that are safe, secure, and peaceful. The Legislature also recognizes that pupils cannot fully benefit from an educational program unless they attend school on a regular basis. In addition, the Legislature further recognizes that school crime, vandalism, truancy, and excessive absenteeism are significant problems on far too many school campuses in the state.

(b) The Legislature hereby finds and declares that the establishment of an interagency coordination system is the most efficient and long-lasting means of resolving school and community problems of truancy and crime, including vandalism, drug and alcohol abuse, gang membership, gang violence, and hate crimes.

(c) It is the intent of the Legislature in enacting this chapter to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses, and that address the safety concerns of local law enforcement agencies, community leaders, parents, pupils, teachers, administrators, school police, and other school employees interested in the prevention of school crime and violence.

(d) It is the intent of the Legislature in enacting this chapter to encourage school districts, county offices of education, law enforcement agencies, and agencies serving youth to develop and implement interagency strategies, in-service training programs, and activities that will improve school attendance and reduce school crime and violence, including vandalism, drug and alcohol abuse, gang membership, gang violence, hate crimes, bullying, including bullying committed personally or by means of an electronic act, teen relationship violence, and discrimination and harassment, including, but not limited to, sexual harassment.

(e) It is the intent of the Legislature in enacting this chapter that the School/Law Enforcement Partnership shall not duplicate any existing gang or drug and alcohol abuse program currently provided for schools.

(f) As used in this chapter, "bullying" has the same meaning as set forth in subdivision (r) of Section 48900.

(g) As used in this chapter, "electronic act" has the same meaning as set forth in subdivision (r) of Section 48900.

EDC 32270.
(a) The partnership shall establish a statewide school safety cadre for the purpose of facilitating interagency coordination and collaboration among school districts, county offices of education, agencies serving youth, allied agencies, community-based organizations, and law enforcement agencies to
improve school attendance, encourage good citizenship, and to reduce school violence, school crime, including hate crimes, vandalism, drug and alcohol abuse, gang membership and gang violence, truancy rates, bullying, including acts that are committed personally or by means of an electronic act, teen relationship violence, and discrimination and harassment, including, but not limited to, sexual harassment.

(b) The partnership may appoint up to 100 professionals from educational agencies, community-based organizations, allied agencies, and law enforcement to the statewide cadre.

(c) The partnership shall provide training to the statewide cadre representatives to enable them to initiate and maintain school community safety programs among school districts, county offices of education, agencies serving youth, allied agencies, community-based organizations, and law enforcement agencies in each region.

EDC 32282.

(a) The comprehensive school safety plan shall include, but not be limited to, both of the following: […]

(F) The provisions of any schoolwide dress code, pursuant to Section 35183, that prohibits pupils from wearing "gang-related apparel," if the school has adopted that type of a dress code. For those purposes, the comprehensive school safety plan shall define "gang-related apparel." The definition shall be limited to apparel that, if worn or displayed on a school campus, reasonably could be determined to threaten the health and safety of the school environment. A schoolwide dress code established pursuant to this section and Section 35183 shall be enforced on the school campus and at any school-sponsored activity by the principal of the school or the person designated by the principal. For purposes of this paragraph, "gang-related apparel" shall not be considered a protected form of speech pursuant to Section 48950.

EDC 35183.

(a) The Legislature finds and declares each of the following:

(1) The children of this state have the right to an effective public school education. Both students and staff of the primary, elementary, junior and senior high school campuses have the constitutional right to be safe and secure in their persons at school. However, children in many of our public schools are forced to focus on the threat of violence and the messages of violence contained in many aspects of our society, particularly reflected in gang regalia that disrupts the learning environment.

(2) "Gang-related apparel" is hazardous to the health and safety of the school environment.

(3) Instructing teachers and administrators on the subtleties of identifying constantly changing gang regalia and gang affiliation takes an increasing amount of time away from educating our children.

(4) Weapons, including firearms and knives, have become common place upon even our elementary school campuses. Students often conceal weapons by wearing clothing, such as jumpsuits and overcoats, and by carrying large bags.

(5) The adoption of a schoolwide uniform policy is a reasonable way to provide some protection for students. A required uniform may protect students from being associated with any particular gang. Moreover, by requiring schoolwide uniforms teachers and administrators may not need to occupy as much of their time learning the subtleties of gang regalia.

(6) To control the environment in public schools to facilitate and maintain an effective learning environment and to keep the focus of the classroom on learning and not personal safety, schools need the authorization to implement uniform clothing requirements for our public school children.

(7) Many educators believe that school dress significantly influences pupil behavior. This influence is evident on school dressup days and color days. Schools that have adopted school uniforms experience a "coming together feeling," greater school pride, and better behavior in and out of the classroom.
(b) The governing board of any school district may adopt or rescind a reasonable dress code policy that requires pupils to wear a schoolwide uniform or prohibits pupils from wearing "gang-related apparel" if the governing board of the school district approves a plan that may be initiated by an individual school's principal, staff, and parents and determines that the policy is necessary for the health and safety of the school environment. Individual schools may include the reasonable dress code policy as part of its school safety plan, pursuant to Section 32281.

(c) Adoption and enforcement of a reasonable dress code policy pursuant to subdivision (b) is not a violation of Section 48950. For purposes of this section, Section 48950 shall apply to elementary, high school, and unified school districts. If a schoolwide uniform is required, the specific uniform selected shall be determined by the principal, staff, and parents of the individual school.

(d) A dress code policy that requires pupils to wear a schoolwide uniform shall not be implemented with less than six months’ notice to parents and the availability of resources to assist economically disadvantaged pupils.

(e) The governing board shall provide a method whereby parents may choose not to have their children comply with an adopted school uniform policy.

(f) If a governing board chooses to adopt a policy pursuant to this section, the policy shall include a provision that no pupil shall be penalized academically or otherwise discriminated against nor denied attendance to school if the pupil's parents chose not to have the pupil comply with the school uniform policy. The governing board shall continue to have responsibility for the appropriate education of those pupils.

(g) A policy adopted pursuant to this section shall not preclude pupils that participate in a nationally recognized youth organization from wearing organization uniforms on days that the organization has a scheduled meeting.

**EDC 51264.**

(a) The State Department of Education shall prepare and distribute to school districts and county offices of education guidelines for incorporating in-service training in gang violence and drug and alcohol abuse prevention for teachers, counselors, athletic directors, school board members, and other educational personnel into the staff development plans of all school districts and county offices of education.

(b) The department shall, upon request, assist school districts and county offices of education in developing comprehensive gang violence and drug and alcohol abuse prevention in-service training programs. The department's information and guidelines, to the maximum extent possible, shall encourage school districts and county offices of education to avoid duplication of effort by sharing resources, adapting or adopting model in-service training programs, developing joint and collaborative programs, and coordinating efforts with existing state staff development programs, county gang violence and drug and alcohol staff development programs, county health departments, county and city law enforcement agencies, and other public and private agencies providing health, drug, alcohol, gang violence prevention, or other related services at the local level.

(c) The department shall assist school districts and county offices of education in qualifying for the receipt of federal and state funds to support their gang violence and drug and alcohol abuse prevention in-service training programs.

(d) Each school that chooses to utilize the provisions of this article related to in-service training in gang violence and drug and alcohol abuse prevention, is encouraged to develop a single plan to strengthen its gang violence and drug and alcohol abuse prevention efforts. If a school develops or has developed a school improvement plan pursuant to Article 2 (commencing with Section 52010) of Chapter 6 of Part 28, or a school safety plan pursuant to Article 5 (commencing with Section 32280) of Chapter 2.5 of Part 19,
it is encouraged to incorporate into that plan, where appropriate, the gang violence and drug and alcohol prevention plan that it has developed.

(e) The department shall consult with the Office of Emergency Services regarding gang violence.

**EDC 51265.**

It is the intent of the Legislature that school districts and county offices of education give high priority to gang violence and drug and alcohol abuse prevention in-service training programs, which shall be part of the overall strategy for comprehensive gang violence and drug and alcohol abuse prevention education. "Gang violence and drug and alcohol abuse prevention in-service training" for purposes of this article means the presentation of programs, instruction and curricula that will help educators develop competencies in interacting in a positive manner with children and youth to assist them in developing the positive values, self-esteem, knowledge, and skills to lead productive, gang-free and drug-free lives; develop knowledge of the causes of gang violence and substance abuse, and the properties and effects of tobacco, alcohol, narcotics, and dangerous drugs, including the risk of contracting acquired immune deficiency syndrome (AIDS) associated with intravenous drug use; receive training regarding available information and resources concerning gang violence and drug and alcohol abuse prevention as well as antigang and antisubstance abuse crime trends; develop familiarity with teaching social skills and resistance skills to children and youth; and develop skills in conducting effective education, which includes methods and techniques for helping children and youth to freely express ideas and opinions in a responsible manner and to understand the nature and consequences of their decisions as they relate to gang involvement and drug and alcohol abuse.

**EDC 51266.**

(a) The Office of Emergency Services, in collaboration with the State Department of Education, shall develop a model gang violence suppression and substance abuse prevention curriculum for grades 2, 4, and 6. The curriculum for grades 2, 4, and 6 shall be modeled after a similar curriculum that has been developed by the Orange County Office of Education for grades 3, 5, and 7. The Office of Emergency Services, in collaboration with the State Department of Education, may contract with a county office of education for the development of the model curriculum. The model curriculum shall be made available to school districts and county offices of education and shall, at a minimum, provide for each of the following:

1. Lessons for grades 2, 4, and 6 that are aligned with the state curriculum frameworks for history, social science, and English and language arts.
2. Instructional resources that address issues of ethnic diversity and at-promise pupils.
3. The integration of the instructional resources of the Office of Emergency Services and the School/Law Enforcement Partnership in order to support the school curriculum and assist in the alignment of the state curriculum framework.

(b) The Office of Emergency Services shall develop an independent evaluation of the pupil outcomes of the model gang violence suppression and substance abuse prevention curriculum program.

**PEN 13825.4.**

(a) Community-based organizations and nonprofit agencies that receive funds under this chapter shall utilize the funds to provide services and activities designed to prevent or deter at-promise youth from participating in gangs, criminal activity, or violent behavior.

(b) These prevention and intervention efforts shall include, but not be limited to, any of the following:

1. Services and activities designed to do any of the following:
   1A. Teach alternative methods for resolving conflicts and responding to violence, drugs, and crime.
(B) Develop positive and life-affirming attitudes and behaviors.

(C) Build self-esteem.

(2) Recreational, educational, or cultural activities.

(3) Counseling or mentoring services.

(4) Economic development activities.

(c)(1) Funds allocated under this chapter may not be used for services or activities related to suppression, law enforcement, incarceration, or other purposes not related to the prevention and deterrence of gangs, crime, and violence.

(2) Nothing in this section shall prevent funds allocated under this chapter from being used for violence prevention and gang crime deterrence services provided by community-based organizations and nonprofit agencies to youths incarcerated in juvenile detention facilities.

(d) Services and activities provided with funds under this chapter shall be used for at-promise youth who are defined as persons from age 5 to 20 years of age and who fall into one or more of the following categories:

(1) Live in a high-crime or high-violence neighborhood as identified by local or federal law enforcement agencies.

(2) Live in a low-economic neighborhood as identified by the U.S. Census or come from an impoverished family.

(3) Are excessively absent from school or are doing poorly in school as identified by personnel from the youth's school.

(4) Come from a socially dysfunctional family as identified by local or state social service agencies.

(5) Have had one or more contacts with the police.

(6) Have entered the juvenile justice system.

(7) Are identified by the juvenile justice system as being at risk.

(8) Are current or former gang members.

(9) Have one or more family members living at home who are current or former members of a gang.

(10) Are identified as wards of the court, as defined in Section 601 of the Welfare and Institutions Code.

(e) Except as provided in subdivision (f), in carrying out a program of prevention and intervention services and activities with funds received under this chapter, community-based organizations and nonprofit agencies shall do all of the following:

(1) Collaborate with other local community-based organizations, nonprofit agencies or local agencies providing similar services, local schools, local law enforcement agencies, residents and families of the local community, private businesses in the local community, and charitable or religious organizations, for purposes of developing plans to provide a program of prevention and intervention services and activities with funds provided under this chapter.

PEN 13826.

The Legislature finds and declares all of the following:

(a) That violent activity by gangs is a serious and growing problem in the State of California.

(b) There is an increasing percentage of school age pupils involved in gang activity.

(c) There are many schools that serve a disproportionate number of youth involved in gang activity which are unable to effectively implement programs designed to prevent youth from becoming involved in gang activity. There is no statewide funded educational program developed for this purpose.
(d) There is evidence that gang involvement among youth begins at an early age.
(e) There is evidence that the parents of gang members lack appropriate parenting skills.
(f) There is evidence that drug activity is increasing among youth involved in gang activity.
(g) There is evidence that gang members have no contact with positive role models.
(h) There is evidence that most gang members lack basic educational skills.

In enacting this chapter, the Legislature intends to support increased efforts by district attorneys' offices to prosecute the perpetrators of gang violence, support increased efforts by local law enforcement agencies to identify, investigate, and apprehend perpetrators of gang violence, support increased efforts by county probation departments to intensively supervise gang members who are on court-ordered probation, support gang violence prevention and intervention efforts by school districts and county offices of education, and support gang violence suppression efforts by community-based organizations.

**PEN 13826.1.**

(a) There is hereby established in the Board of State and Community Corrections, the Gang Violence Suppression Program, a program of financial and technical assistance for district attorneys' offices, local law enforcement agencies, county probation departments, school districts, county offices of education, or any consortium thereof, and community-based organizations which are primarily engaged in the suppression of gang violence.

(b) Funds made available pursuant to this chapter are intended to ensure the highest quality provision of services and to reduce unnecessary duplication. Funds disbursed under this chapter shall not be used by local agencies to supplant other funding for Public Safety Services, as defined in Section 36 of Article XIII of the California Constitution. Funds awarded under this program as local assistance grants shall not be subject to review as specified in Section 10295 of the Public Contract Code.

**PEN 13826.65.**

School districts, county offices of education, or any consortium thereof, receiving funding under this chapter shall develop or adopt and implement a gang violence prevention curriculum, provide gang violence prevention and intervention services for school-aged children, and shall be encouraged to do all of the following:

(1) The LEA failed to follow its complaint procedures, and/or
(2) Relative to the allegations of the complaint, the LEA Investigation Report lacks material findings of fact necessary to reach a conclusion of law, and/or
(3) The material findings of fact in the LEA Investigation Report are not supported by substantial evidence, and/or
(4) The legal conclusion in the LEA Investigation Report is inconsistent with the law, and/or
(5) In a case in which the LEA found noncompliance, the corrective actions fail to provide a proper remedy.

(c) The appeal shall be accompanied by:
   (1) a copy of the locally filed complaint; and
   (2) a copy of the LEA Investigation Report.

(d) Appeals that do not comply with subsections (a) through (c), or do not pertain to subject matter described in section 4610(b), will not be processed. The CDE will notify the appellant of the deficiencies.

(e) If the CDE determines the appeal raises issues not contained in the local complaint, the CDE will refer those new issues back to the LEA for resolution as a new complaint under section 4630 or 4631.

(f) If the CDE determines that the LEA Investigation Report failed to address an allegation raised by the complaint and subject to the UCP process, the CDE shall notify the LEA of such failure and direct the LEA to investigate and address such allegation(s) in accordance with this chapter. The LEA must provide both the CDE and the appellant with an amended investigation report that addresses the complaint allegation(s) that was not addressed in the original Investigation Report within 20 days of such notification. The amended report must also inform the appellant of the right to separately appeal, in accordance with this section, the amended investigation report with respect to the complaint allegation(s) that was not addressed in the original report. The CDE will proceed with its resolution of the appeal of the LEA Investigation Report as to allegations that have been addressed even while, at the same time, the LEA is preparing an amended investigation report as to any allegation(s) that the CDE identified as not having been addressed.

§ 4633. Appeal of LEA investigation report.

(a) If the LEA Investigation Report is appealed and meets the requirements of section 4632, subdivisions (a) through (c), the CDE shall notify the LEA of the appeal. Upon notification by the CDE that the LEA Investigation Report has been appealed, the LEA shall forward the following to the CDE within 10 days of the date of notification:
   (1) A copy of the original complaint;
   (2) A copy of the LEA Investigation Report;
   (3) A copy of the investigation file, including but not limited to, all notes, interviews and documents submitted by the parties or gathered by the investigator;
   (4) A report of any action taken to resolve the complaint;
   (5) A copy of the LEA complaint procedures; and
   (6) Such other relevant information as the CDE may request.

An LEA's failure to provide a timely and complete response may result in the CDE ruling on the appeal without considering information from the LEA.

(b) In deciding an appeal, the CDE shall not consider any information not previously presented to the LEA investigator during the investigation, unless requested by the CDE. Any confidential information or pupil information in the investigative file shall remain confidential and shall not be disclosed by the CDE, to the extent permitted by law.
(c) The CDE may contact the parties for further information, if necessary.

(d) The CDE shall review the investigation file, the complaint procedures, documents and any other evidence received from the LEA and determine whether:

1. The LEA followed its complaint procedures;
2. The LEA Investigation Report includes material findings of fact necessary to reach a conclusion of law on the subject of the appeal;
3. The material findings of fact in the LEA Investigation Report are supported by substantial evidence;
4. The LEA Investigation Report includes a legal conclusion(s) that is consistent with the law; and
5. In a case in which the LEA found noncompliance, the corrective actions provide a proper remedy.

(e) If the CDE determines that the LEA Investigation Report meets the criteria in subsection (d) above, the appeal shall be denied.

(f) If the CDE determines that the LEA Investigation Report is deficient because it does not meet the criteria in subsection (d) above, the CDE may:

1. Notify the LEA of such deficiencies and return the LEA Investigation Report to the LEA for further processing and instruct the LEA to provide both the CDE and the complainant with an amended Investigation Report within 20 days of such notification, which amended report must inform the complainant of the right to appeal in accordance with section 4632.; or
2. Issue a Decision based on the evidence in the investigation file received from the LEA; or
3. Conduct a further investigation of the allegations which are the basis for the appeal and issue a Decision.

(g) An appeal decision issued by the CDE shall include the following:

1. A finding that the LEA complied or did not comply with its complaint procedures;
2. The CDE's determination as to the LEA's findings of fact and conclusions of law regarding the issue on appeal; and
3. Corrective actions as appropriate and including a remedy to the affected pupil, or in the case of complaints related to subsections (a)(1)(I), (a)(1)(J), (a)(1)(K), and (a)(1)(L) of Education Code section 33315, or as otherwise required by law, a remedy to all affected pupils, parents, and guardians. With respect to a pupil fee complaint, corrective actions shall include a remedy that comports with Education Code section 49013(d) and section 4600(t).

(h) The CDE must issue a written Decision regarding an appeal to the appellant within 60 days of the CDE's receipt of the appeal, unless extended by written agreement with the appellant, or the CDE documents exceptional circumstances and informs the appellant, or the CDE receives notice that the matter has been resolved at the local level, or the CDE receives notice that the matter has been judicially decided.

§ 4640. Filing a state complaint that has not first been filed at the Local Educational Agency (LEA); time lines, notice, appeal rights.

(a) If a complaint is erroneously filed with the CDE without first being filed with and investigated by the LEA, the CDE shall immediately forward the complaint to the LEA for processing in accordance with article 4 of this chapter, unless extraordinary circumstances exist necessitating direct state intervention as described at section 4650.

(b) The CDE will notify the complainant in writing that:

1. The CDE does not have jurisdiction, at this time, over the complaint and that the complaint should have been filed with the LEA in the first instance;
(2) That the complaint has been transferred to the LEA requesting the LEA to process and investigate
the allegation in the complaint; and
(3) That the complainant may file an appeal to the CDE following the issuance of the LEA Investigation
Report, pursuant to section 4632.

§ 4650. Basis of direct state intervention.
(a) The CDE may at its discretion directly intervene without waiting for an LEA investigation if one or more
of the following situations exist:
(1) The complaint includes an allegation that an LEA failed to comply with the complaint procedures
required by this chapter and its local rules and regulations, including, but not limited to, the failure or
refusal of the LEA to cooperate with the investigation;
(2) The complainant requests anonymity because the complainant would be in danger of retaliation and
would suffer immediate and irreparable harm if the complainant filed a complaint with the LEA (except
for complaints identified in section 4630(e), which may be filed anonymously at the local level);
(3) The complainant alleges that the LEA failed or refused to implement the final LEA Investigation
Report resulting from its local investigation or local mediation agreement or a CDE appeal Decision;
(4) The complainant alleges that through no fault of the complainant, no action has been taken by the
LEA within 60 calendar days of the date the complaint was filed. Prior to direct intervention, the CDE
shall attempt to work with the LEA to allow it to complete the investigation and issue an LEA
Investigation Report; or
(5) The complainant alleges that the complainant would suffer immediate and irreparable harm as a
result of an application of a district-wide policy that is in conflict with state or federal law covered by this
chapter, and that filing a complaint with the LEA would be futile.
(b) The CDE shall directly intervene without waiting for LEA investigation if the complaint alleges that an
agency that is not an LEA violated laws relating to a Child Care and Development program;
(c) The complaint shall identify the basis, as described in subdivision (a) or subdivision (b) above, for filing
the complaint directly to the CDE. The complainant must present the CDE with evidence that supports the
basis for the direct filing.

§ 4651. Notification.
(a) When the Department accepts, a complaint requesting direct state intervention pursuant to section
4650, it will immediately notify the complainant in writing of the determination. If the complaint is not
accepted, it shall be referred to the LEA for local investigation, or referred to another agency pursuant to
section 4611.
(b) When the CDE declines direct intervention for a complainant who requests anonymity pursuant to
section 4650(a)(2), the CDE will not forward the complaint to the LEA pursuant to section 4640 without
the complainant's permission.

§ 4663. Department investigation procedures.
(a) The investigator(s) shall request all documentation and other evidence regarding the allegations in the
complaint.
(b) The investigation shall include an opportunity for the complainant, or the complainant's representative,
or both, to present the evidence or information leading to evidence to support the allegations of non-
compliance with state and federal laws and/or regulations.
(c) Refusal by the complainant to provide the investigator with documents or other evidence related to the
allegations in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in
any other obstruction of the investigation may result in the dismissal of the complaint because of a lack of evidence to support the allegations.

(d) Refusal by the local educational agency to provide the investigator with access to records and/or other information related to the allegation in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation may result in a finding based on evidence collected that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

§ 4664. Department investigation report.
(a) In cases of direct state intervention, the CDE shall issue a Department Investigation Report. The Department Investigation Report shall include the following:
   (1) A summary of the allegations in the complaint;
   (2) A description of the general procedures of the investigation;
   (3) Citations of applicable law and regulations;
   (4) Department findings of facts;
   (5) Department conclusions;
   (6) Corrective actions for the LEA or other public agency as defined in section 3200, if applicable;
   (7) Time line for corrective actions, if applicable;
   (8) Notice that any party may request reconsideration of the Department Investigation Report from the Superintendent within 30 days of the date of the report;
   (9) For those federal programs for which there is a right to appeal to the United States Secretary of Education, the parties shall be notified of that right.

(b) The CDE must issue a written Department Investigation Report to the complainant within 60 days of receipt of the complaint, unless the parties have agreed to extend the time line or the CDE documents exceptional circumstances and informs the complainant, or the matter has been resolved at the local level or judicially decided.

§ 4665. Reconsideration of department investigation report.
(a) Within 30 days of the date of the Department Investigation Report, either party may request reconsideration by the Superintendent or the Superintendent's designee. The request for reconsideration shall specify and explain why:
   (1) Relative to the allegation(s), the Department Investigation Report lacks material findings of fact necessary to reach a conclusion of law on the subject of the complaint, and/or
   (2) The material findings of fact in the Department Investigation Report are not supported by substantial evidence, and/or
   (3) The legal conclusion in the Department Investigation Report is inconsistent with the law, and/or
   (4) In a case in which the CDE found noncompliance, the corrective actions fail to provide a proper remedy.

(b) In evaluating or deciding on a request for reconsideration, the CDE will not consider any information not previously submitted to the CDE by a party during the investigation unless such information was unknown to the party at time of the investigation and, with due diligence, could not have become known to the party. This prohibition does not prohibit the CDE from seeking and obtaining information from any source necessary to issue an accurate Department Investigation Report.

(c) Within 60 days of the receipt of the request for reconsideration, the Superintendent or the Superintendent's designee shall respond in writing to the parties. Such response may include a denial of
the request for reconsideration, or modifications to the Department Investigation Report necessary to ensure factual and legal accuracy. Pending the Superintendent's response to a request for reconsideration, the Department Investigation Report remains in effect and enforceable, unless stayed by a court.

(d) Appeals from investigations of complaints involving Child Development contractors, whether public or private, shall be made to the Superintendent of Public Instruction as provided in subsection (a) except as otherwise provided in division 19 of title 5 of the Code of California Regulations.

(e) For those federal programs for which there is a right to appeal to the United States Secretary of Education, the parties shall be notified of that right.

§ 4670.  Enforcement.

(a) Upon determination that a local agency violated the provisions of this chapter, the Department shall notify the local agency pursuant to sections 4633(g)(3) or 4664(b) that it must take corrective action to come into compliance. If corrective action is not taken, the Department may use any means authorized by law to effect compliance, including, but not limited to:

(1) The withholding of all or part of the local agency's relevant state or federal fiscal support in accordance with state or federal statute or regulation;

(2) Probationary eligibility for future state or federal support, conditional on compliance with specified conditions;

(3) Proceeding in a court of competent jurisdiction for an appropriate order compelling compliance.

(b) No decision to curtail state or federal funding to a local agency under this chapter shall be made until the Department has determined that compliance cannot be secured by other means.

(c) If the Department determines that a Child Development Contractor's Agreement shall be terminated, the procedures set forth in sections 8257(b) or 8400 through 8409 of the Education Code and the regulations promulgated pursuant thereto (chapter 19 of title 5, CCR, commencing with section 18118), shall be followed.

EDC 32261.
(a) The Legislature hereby recognizes that all pupils enrolled in the state public schools have the inalienable right to attend classes on school campuses that are safe, secure, and peaceful. The Legislature also recognizes that pupils cannot fully benefit from an educational program unless they attend school on a regular basis. In addition, the Legislature further recognizes that school crime, vandalism, truancy, and excessive absenteeism are significant problems on far too many school campuses in the state.

(b) The Legislature hereby finds and declares that the establishment of an interagency coordination system is the most efficient and long-lasting means of resolving school and community problems of truancy and crime, including vandalism, drug and alcohol abuse, gang membership, gang violence, and hate crimes.

(c) It is the intent of the Legislature in enacting this chapter to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses, and that address the safety concerns of local law enforcement agencies, community leaders, parents, pupils, teachers, administrators, school police, and other school employees interested in the prevention of school crime and violence.

(d) It is the intent of the Legislature in enacting this chapter to encourage school districts, county offices of education, law enforcement agencies, and agencies serving youth to develop and implement interagency strategies, in-service training programs, and activities that will improve school attendance and reduce school crime and violence, including vandalism, drug and alcohol abuse, gang membership, gang violence, hate crimes, bullying, including bullying committed personally or by means of an electronic act, teen relationship violence, and discrimination and harassment, including, but not limited to, sexual harassment.

(e) It is the intent of the Legislature in enacting this chapter that the School/Law Enforcement Partnership shall not duplicate any existing gang or drug and alcohol abuse program currently provided for schools.

(f) As used in this chapter, "bullying" has the same meaning as set forth in subdivision (r) of Section 48900.

(g) As used in this chapter, "electronic act" has the same meaning as set forth in subdivision (r) of Section 48900.

(A) Child abuse reporting procedures consistent with Article 2.5 (commencing with Section 11164) of Chapter 2 of Title 1 of Part 4 of the Penal Code.

(II) A drop procedure whereby each pupil and staff member takes cover under a table or desk, dropping to his or her knees, with the head protected by the arms, and the back to the windows. A drop procedure practice shall be held at least once each school quarter in elementary schools and at least once a semester in secondary schools.

(III) Protective measures to be taken before, during, and following an earthquake.

(iv) Establishing a procedure to allow a public agency, including the American Red Cross, to use school buildings, grounds, and equipment for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The school district or county office of education shall cooperate with the public agency in furnishing and maintaining the services as the school district or county office of education may deem necessary to meet the needs of the community.

(C) Policies pursuant to subdivision (d) of Section 48915 for pupils who committed an act listed in subdivision (c) of Section 48915 and other school-designated serious acts that would lead to suspension, expulsion, or mandatory expulsion recommendations pursuant to Article 1 (commencing with Section 48900) of Chapter 6 of Part 27 of Division 4 of Title 2.

(D) Procedures to notify teachers of dangerous pupils pursuant to Section 49079.

For those purposes, the comprehensive school safety plan shall define "gang-related apparel." The definition shall be limited to apparel that, if worn or displayed on a school campus, reasonably could be determined to threaten the health and safety of the school environment. A schoolwide dress code established pursuant to this section and Section 35183 shall be enforced on the school campus and at any school-sponsored activity by the principal of the school or the person designated by the
principal. For purposes of this paragraph, "gang-related apparel" shall not be considered a protected form of speech pursuant to Section 48950.

(J) Procedures for conducting tactical responses to criminal incidents, including procedures related to individuals with guns on school campuses and at school-related functions. The procedures to prepare for active shooters or other armed assailants shall be based on the specific needs and context of each school and community.

(b) It is the intent of the Legislature that schools develop comprehensive school safety plans using existing resources, including the materials and services of the partnership, pursuant to this chapter. It is also the intent of the Legislature that schools use the handbook developed and distributed by the School/Law Enforcement Partnership Program entitled "Safe Schools: A Planning Guide for Action" in conjunction with developing their plan for school safety.

(c) Each schoolsite council or school safety planning committee, in developing and updating a comprehensive school safety plan, shall, where practical, consult, cooperate, and coordinate with other schoolsite councils or school safety planning committees.

(d) The comprehensive school safety plan may be evaluated and amended, as needed, by the school safety planning committee, but shall be evaluated at least once a year, to ensure that the comprehensive school safety plan is properly implemented. An updated file of all safety-related plans and materials shall be readily available for inspection by the public.

(e) As comprehensive school safety plans are reviewed and updated, the Legislature encourages all plans, to the extent that resources are available, to include policies and procedures aimed at the prevention of bullying.

(f) The comprehensive school safety plan, as written and updated by the schoolsite council or school safety planning committee, shall be submitted for approval pursuant to subdivision (a) of Section 32288.

(g) The department shall maintain and conspicuously post on its Internet Web site a compliance checklist for developing a comprehensive school safety plan, and shall update the checklist when necessary.

(b) It shall be the duty of the county superintendent of such county to examine such reports and draw to the attention of the county board of education and local district board of education any cases in which the interests of the child or the welfare of the state may need further examination.

(c) After preliminary study of available information in cases so referred to it, the county board of education may, on its own action, hold hearings on such cases in the manner provided in Sections 48915 through 48920 and with the same powers of final decision as therein provided.
EDC 48261.

The IEP team shall document the reasons for not conducting the functional behavioral assessment, not developing an interim plan, or both.

(h) If a behavioral emergency report is written regarding an individual with exceptional needs who has a positive behavioral intervention plan, an incident involving a previously unseen serious behavior problem, or where a previously designed intervention is ineffective, shall be referred to the IEP team to review and determine if the incident constitutes a need to modify the positive behavioral intervention plan.

(c) Refusal by the complainant to provide the investigator with documents or other evidence related to the allegations in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegations.

(d) Refusal by the LEA to provide the investigator with access to records and/or other information related to the allegation in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation, may result in a finding based on evidence collected that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

(e) The LEA shall issue an LEA Investigation Report based on the evidence. The LEA Investigation Report shall be in writing and sent to the complainant within 60 days from receipt of the complaint by the LEA, subject to any extension under subsection (a) above. (f) Nothing in this chapter shall prohibit the parties from utilizing alternative methods to resolve the allegations in the complaint, including, but not limited to, local mediation.

(g) Nothing in this chapter shall prohibit an LEA from resolving complaints prior to the formal filing of a written complaint.

§ 4632. Appeal of LEA investigation report - grounds.

(a) The complainant may appeal an LEA Investigation Report for a complaint described in section 4610(b) to the CDE by filing a written appeal within 30 days of the date of the LEA Investigation Report.

(b) In order to request an appeal, the complainant must specify and explain the basis for the appeal, including at least one of the following:

   (1) The LEA failed to follow its complaint procedures, and/or

   (2) Relative to the allegations of the complaint, the LEA Investigation Report lacks material findings of fact necessary to reach a conclusion of law, and/or

   (3) The material findings of fact in the LEA Investigation Report are not supported by substantial evidence, and/or

   (4) The legal conclusion in the LEA Investigation Report is inconsistent with the law, and/or

   (5) In a case in which the LEA found noncompliance, the corrective actions fail to provide a proper remedy.

(c) The appeal shall be accompanied by:

   (1) a copy of the locally filed complaint; and

   (2) a copy of the LEA Investigation Report.

(d) Appeals that do not comply with subsections (a) through (c), or do not pertain to subject matter described in section 4610(b), will not be processed. The CDE will notify the appellant of the deficiencies.

(f) If the CDE determines that the LEA Investigation Report failed to address an allegation raised by the complaint and subject to the UCP process, the CDE shall notify the LEA of such failure and direct the LEA to investigate and address such allegation(s) in accordance with this chapter. The LEA must provide both the CDE and the appellant with an amended investigation report that addresses the complaint allegation(s) that was not addressed in the original Investigation Report within 20 days of such notification. The amended report must also inform the appellant of the right to separately appeal, in accordance with this section, the amended investigation report with respect to the complaint allegation(s) that was not addressed in the original report. The CDE will proceed with its resolution of the appeal of the LEA Investigation Report as to allegations that have been addressed even while, at the same time, the LEA is preparing an amended investigation report as to any allegation(s) that the CDE identified as not having been addressed.

§ 4633. Appeal of LEA investigation report.

(a) If the LEA Investigation Report is appealed and meets the requirements of section 4632, subdivisions (a) through (c), the CDE shall notify the LEA of the appeal. (4) A report of any action taken to resolve the complaint;
(5) A copy of the LEA complaint procedures; and
(6) Such other relevant information as the CDE may request.

An LEA's failure to provide a timely and complete response may result in the CDE ruling on the appeal without considering information from the LEA.

(b) In deciding an appeal, the CDE shall not consider any information not previously presented to the LEA investigator during the investigation, unless requested by the CDE. Any confidential information or pupil information in the investigative file shall remain confidential and shall not be disclosed by the CDE, to the extent permitted by law.

(c) The CDE may contact the parties for further information, if necessary.

(d) The CDE shall review the investigation file, the complaint procedures, documents and any other evidence received from the LEA and determine whether:

(2) The LEA Investigation Report includes material findings of fact necessary to reach a conclusion of law on the subject of the appeal;
(3) The material findings of fact in the LEA Investigation Report are supported by substantial evidence;
(4) The LEA Investigation Report includes a legal conclusion(s) that is consistent with the law; and
(5) In a case in which the LEA found noncompliance, the corrective actions provide a proper remedy.

(e) If the CDE determines that the LEA Investigation Report meets the criteria in subsection (d) above, the appeal shall be denied.

(f) If the CDE determines that the LEA Investigation Report is deficient because it does not meet the criteria in subsection (d) above, the CDE may:

(1) Notify the LEA of such deficiencies and return the LEA Investigation Report to the LEA for further processing and instruct the LEA to provide both the CDE and the complainant with an amended Investigation Report within 20 days of such notification, which amended report must inform the complainant of the right to appeal in accordance with section 4632.; or
(2) Issue a Decision based on the evidence in the investigation file received from the LEA; or
(3) Conduct a further investigation of the allegations which are the basis for the appeal and issue a Decision.

(g) An appeal decision issued by the CDE shall include the following:

(1) A finding that the LEA complied or did not comply with its complaint procedures;
(2) The CDE's determination as to the LEA's findings of fact and conclusions of law regarding the issue on appeal; and
(3) Corrective actions as appropriate and including a remedy to the affected pupil, or in the case of complaints related to subsections (a)(1)(j), (a)(1)(k), and (a)(1)(l) of Education Code section 33315, or as otherwise required by law, a remedy to all affected pupils, parents, and guardians. With respect to a pupil fee complaint, corrective actions shall include a remedy that comports with Education Code section 49013(d) and section 4600(t).

(h) The CDE must issue a written Decision regarding an appeal to the appellant within 60 days of the CDE's receipt of the appeal, unless extended by written agreement with the appellant, or the CDE documents exceptional circumstances and informs the appellant, or the CDE receives notice that the
matter has been resolved at the local level, or the CDE receives notice that the matter has been judicially decided.

§ 4640. Filing a state complaint that has not first been filed at the Local Educational Agency (LEA); time lines, notice, appeal rights.
(a) If a complaint is erroneously filed with the CDE without first being filed with and investigated by the LEA, the CDE shall immediately forward the complaint to the LEA for processing in accordance with article 4 of this chapter, unless extraordinary circumstances exist necessitating direct state intervention as described at section 4650.
(b) The CDE will notify the complainant in writing that:
   (1) The CDE does not have jurisdiction, at this time, over the complaint and that the complaint should have been filed with the LEA in the first instance;
   (2) That the complaint has been transferred to the LEA requesting the LEA to process and investigate the allegation in the complaint; and
   (3) That the complainant may file an appeal to the CDE following the issuance of the LEA Investigation Report, pursuant to section 4632.

§ 4650. Basis of direct state intervention.
(a) The CDE may at its discretion directly intervene without waiting for an LEA investigation if one or more of the following situations exist:
   (1) The complaint includes an allegation that an LEA failed to comply with the complaint procedures required by this chapter and its local rules and regulations, including, but not limited to, the failure or refusal of the LEA to cooperate with the investigation;
   (2) The complainant requests anonymity because the complainant would be in danger of retaliation and would suffer immediate and irreparable harm if the complainant filed a complaint with the LEA (except for complaints identified in section 4630(e), which may be filed anonymously at the local level);
   (3) The complainant alleges that the LEA failed or refused to implement the final LEA Investigation Report resulting from its local investigation or local mediation agreement or a CDE appeal Decision;
   (4) The complainant alleges that through no fault of the complainant, no action has been taken by the LEA within 60 calendar days of the date the complaint was filed. Prior to direct intervention, the CDE shall attempt to work with the LEA to allow it to complete the investigation and issue an LEA Investigation Report; or
   (5) The complainant alleges that the complainant would suffer immediate and irreparable harm as a result of an application of a district-wide policy that is in conflict with state or federal law covered by this chapter, and that filing a complaint with the LEA would be futile.
(b) The CDE shall directly intervene without waiting for LEA investigation if the complaint alleges that an agency that is not an LEA violated laws relating to a Child Care and Development program;
(c) The complaint shall identify the basis, as described in subdivision (a) or subdivision (b) above, for filing the complaint directly to the CDE. The complainant must present the CDE with evidence that supports the basis for the direct filing.

§ 4651. Notification.
(a) When the Department accepts, a complaint requesting direct state intervention pursuant to section 4650, it will immediately notify the complainant in writing of the determination. If the complaint is not accepted, it shall be referred to the LEA for local investigation, or referred to another agency pursuant to section 4611.
(b) When the CDE declines direct intervention for a complainant who requests anonymity pursuant to section 4650(a)(2), the CDE will not forward the complaint to the LEA pursuant to section 4640 without the complainant's permission.

§ 4664. Department investigation report.
(a) In cases of direct state intervention, the CDE shall issue a Department Investigation Report. The Department Investigation Report shall include the following:

1. A summary of the allegations in the complaint;
2. A description of the general procedures of the investigation;
3. Citations of applicable law and regulations;
4. Department findings of facts;
5. Department conclusions;
6. Corrective actions for the LEA or other public agency as defined in section 3200, if applicable;
7. Time line for corrective actions, if applicable;
8. Notice that any party may request reconsideration of the Department Investigation Report from the Superintendent within 30 days of the date of the report;
9. For those federal programs for which there is a right to appeal to the United States Secretary of Education, the parties shall be notified of that right.

(b) The CDE must issue a written Department Investigation Report to the complainant within 60 days of receipt of the complaint, unless the parties have agreed to extend the time line or the CDE documents exceptional circumstances and informs the complainant, or the matter has been resolved at the local level or judicially decided.

§ 4665. Reconsideration of department investigation report.
(a) Within 30 days of the date of the Department Investigation Report, either party may request reconsideration by the Superintendent or the Superintendent's designee. The request for reconsideration shall specify and explain why:

1. Relative to the allegation(s), the Department Investigation Report lacks material findings of fact necessary to reach a conclusion of law on the subject of the complaint, and/or
2. The material findings of fact in the Department Investigation Report are not supported by substantial evidence, and/or
3. The legal conclusion in the Department Investigation Report is inconsistent with the law, and/or
4. In a case in which the CDE found noncompliance, the corrective actions fail to provide a proper remedy.

(b) In evaluating or deciding on a request for reconsideration, the CDE will not consider any information not previously submitted to the CDE by a party during the investigation unless such information was unknown to the party at time of the investigation and, with due diligence, could not have become known to the party. This prohibition does not prohibit the CDE from seeking and obtaining information from any source necessary to issue an accurate Department Investigation Report.

(c) Within 60 days of the receipt of the request for reconsideration, the Superintendent or the Superintendent's designee shall respond in writing to the parties. Such response may include a denial of the request for reconsideration, or modifications to the Department Investigation Report necessary to ensure factual and legal accuracy. Pending the Superintendent's response to a request for reconsideration, the Department Investigation Report remains in effect and enforceable, unless stayed by a court.
(d) Appeals from investigations of complaints involving Child Development contractors, whether public or private, shall be made to the Superintendent of Public Instruction as provided in subsection (a) except as otherwise provided in division 19 of title 5 of the Code of California Regulations.

(e) For those federal programs for which there is a right to appeal to the United States Secretary of Education, the parties shall be notified of that right.

LAWS

EDC 48213.

If a pupil is excluded from attendance pursuant to Section 120230 of the Health and Safety Code or Section 49451 of this code, or if a principal or his or her designee determines that the continued presence of the child would constitute a clear and present danger to the life, safety, or health of a pupil or school personnel, the governing board is not required to send prior notice of the exclusion to the parent or guardian of the pupil. The governing board shall send a notice of the exclusion as soon as is reasonably possible after the exclusion.

EDC 48240.

(a) The governing board of each school district and each county superintendent of schools shall appoint a supervisor of attendance and any assistant supervisors of attendance as may be necessary to supervise the attendance of pupils in the school district or county. The governing board of the school district or county superintendent of schools shall prescribe the duties of the supervisor of attendance and assistant supervisors of attendance to include, among other duties that may be required, those specific duties related to compulsory full-time education, truancy, work permits, compulsory continuation education, and opportunity schools, classes, and programs, now required of the attendance supervisors by this chapter and Article 4 (commencing with Section 48450) of Chapter 3 and Article 2 (commencing with Section 48640) of Chapter 4.

(b) It is the intent of the Legislature that in performing his or her duties, the supervisor of attendance promote a culture of attendance and establish a system to accurately track pupil attendance in order to achieve all of the following:

2. Identify and respond to grade level or pupil subgroup patterns of chronic absenteeism or truancy.

3. Identify and address factors contributing to chronic absenteeism and habitual truancy, including suspension and expulsion.

4. Ensure that pupils with attendance problems are identified as early as possible to provide applicable support services and interventions.

5. Evaluate the effectiveness of strategies implemented to reduce chronic absenteeism rates and truancy rates.

(c) When a pupil with a temporary disability, as defined in Section 48206.3, is receiving individual instruction in the home or a hospital or other residential health facility, the supervisor of attendance shall ensure that absences from the pupil's regular school program are excused until the pupil is able to return to the regular school program.
(d) The supervisor of attendance may provide support services and interventions, which may include, but are not limited to, any or all of the following:

1. A conference between school personnel, the pupil's parent or guardian, and the pupil.
2. Promoting cocurricular and extracurricular activities that increase pupil connectedness to school, such as tutoring, mentoring, the arts, service learning, or athletics.
3. Recognizing pupils who achieve excellent attendance or demonstrate significant improvement in attendance.
4. Referral to a school nurse, school counselor, school psychologist, school social worker, and other pupil support personnel for case management and counseling.
5. Collaboration with child welfare services, law enforcement, courts, public health care agencies, or government agencies, or medical, mental health, and oral health care providers to receive necessary services.
6. Collaborating with school study teams, guidance teams, school attendance review teams, or other intervention-related teams to assess the attendance or behavior problem in partnership with the pupil and his or her parents, guardians, or caregivers.
7. In schools with significantly higher rates of chronic absenteeism, identify barriers to attendance that may require schoolwide strategies rather than case management.
8. Referral for a comprehensive psychosocial or psychoeducational assessment, including for purposes of creating an individualized education program for an individual with exceptional needs, as that term is defined in Section 56026, or plan adopted for a qualified handicapped person, as that term is defined in regulations promulgated by the United States Department of Education pursuant to Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. Sec. 794).
9. Referral to a school attendance review board established by the county or by a school district pursuant to Section 48321 or to the probation department pursuant to Section 48263.
10. Referral to a truancy mediation program operated by the county's district attorney or probation officer pursuant to Section 48260.6.

**EDC 48260.5.**
Upon a pupil's initial classification as a truant, the school district shall notify the pupil's parent or guardian using the most cost-effective method possible, which may include electronic mail or a telephone call:

(a) That the pupil is truant.
(b) That the parent or guardian is obligated to compel the attendance of the pupil at school.
(c) That parents or guardians who fail to meet this obligation may be guilty of an infraction and subject to prosecution pursuant to Article 6 (commencing with Section 48290).
(d) That alternative educational programs are available in the school district.
(e) That the parent or guardian has the right to meet with appropriate school personnel to discuss solutions to the pupil's truancy.

EDC 48262.
Any pupil is deemed an habitual truant who has been reported as a truant three or more times per school year, provided that no pupil shall be deemed an habitual truant unless an appropriate district officer or employee has made a conscientious effort to hold at least one conference with a parent or guardian of the pupil and the pupil himself, after the filing of either of the reports required by Section 48260 or Section 48261. For purposes of this section, a conscientious effort means attempting to communicate with the parents of the pupil at least once using the most cost-effective method possible, which may include electronic mail or a telephone call.

EDC 48263.
(a) If a minor pupil in a school district of a county is a habitual truant, or is a chronic absentee, as defined in Section 60901, or is habitually insubordinate or disorderly during attendance at school, the pupil may be referred to a school attendance review board, or to the probation department for services if the probation department has elected to receive these referrals. The school district supervisor of attendance, or any other persons the governing board of the school district or county may designate, making the referral shall provide documentation of the interventions undertaken at the school to the pupil, the pupil's parents or guardians, and the school attendance review board or probation department and shall notify the pupil and parents or guardians of the pupil, in writing, of the name and address of the school attendance review board or probation department to which the matter has been referred and of the reason for the referral. The notice shall indicate that the pupil and parents or guardians of the pupil will be required, along with the referring person, to meet with the school attendance review board or probation officer to consider a proper disposition of the referral.

(b)(1) If the school attendance review board or probation officer determines that available community services can resolve the problem of the truant or insubordinate pupil, then the school attendance review board or probation officer shall direct the pupil or the pupil's parents or guardians, or both, to make use of those community services. The school attendance review board or probation officer may require, at any time that it determines proper, the pupil or parents or guardians of the pupil, or both, to furnish satisfactory evidence of participation in the available community services.

(2) If the school attendance review board or probation officer determines that available community services cannot resolve the problem of the truant or insubordinate pupil or if the pupil or the parents or guardians of the pupil, or both, have failed to respond to directives of the school attendance review board or probation officer or to services provided, the school attendance review board may, pursuant to Section 48263.5, notify the district attorney or the probation officer, or both, of the county in which the school district is located, or the probation officer may, pursuant to Section 48263.5, notify the district attorney, if the district attorney or the probation officer has elected to participate in the truancy mediation program described in that section.

(c) In any county that has not established a school attendance review board, if the school district determines that available community resources cannot resolve the problem of the truant or insubordinate pupil, or if the pupil or the pupil's parents or guardians, or both, have failed to respond to the directives of the school district or the services provided, the school district, pursuant to Section 48260.6, may notify the district attorney or the probation officer, or both, of the county in which the school district is located, if the district attorney or the probation officer has elected to participate in the truancy mediation program described in Section 48260.6.

EDC 48263.5.

attorney, by first-class mail or other reasonable means, of the following if the district attorney or the probation officer has elected to participate in the truancy mediation program described in subdivision (b):

EDC 48266.

Any person taking action pursuant to Sections 48264 and 48265 shall report the matter, and the disposition made by him of the minor to the school authorities of the city, or city and county, or school district and to the minor's parent or guardian.

EDC 48900.1.

(a) The governing board of each school district may adopt a policy authorizing teachers to require the parent or guardian of a pupil who has been suspended by a teacher pursuant to Section 48910 for reasons specified in subdivision (i) or (k) of Section 48900, to attend a portion of a schoolday in the classroom of his or her child or ward. The policy shall take into account reasonable factors that may prevent compliance with a notice to attend. The attendance of the parent or guardian shall be limited to the class from which the pupil was suspended.

(b) The policy shall be adopted pursuant to the procedures set forth in Sections 35291 and 35291.5. Parents and guardians shall be notified of this policy prior to its implementation. A teacher shall apply any policy adopted pursuant to this section uniformly to all pupils within the classroom.

The adopted policy shall include the procedures that the district will follow to accomplish the following:

(1) Ensure that parents or guardians who attend school for the purposes of this section meet with the school administrator or his or her designee after completing the classroom visitation and before leaving the schoolsite.

(2) Contact parents or guardians who do not respond to the request to attend school pursuant to this section.

(c) If a teacher imposes the procedure pursuant to subdivision (a), the principal shall send a written notice to the parent or guardian stating that attendance by the parent or guardian is pursuant to law. This section shall apply only to a parent or guardian who is actually living with the pupil.

(d) A parent or guardian who has received a written notice pursuant to subdivision (c) shall attend class as specified in the written notice. The notice may specify that the attendance of the parent or guardian be on the day the pupil is scheduled to return to class, or within a reasonable period of time thereafter, as established by the policy of the board adopted pursuant to subdivision (a).
EDC 48904.

(a)(1) Notwithstanding Section 1714.1 of the Civil Code, the parent or guardian of any minor whose willful misconduct results in injury or death to any pupil or any person employed by, or performing volunteer services for, a school district or private school or who willfully cuts, defaces, or otherwise injures in any way any property, real or personal, belonging to a school district or private school, or personal property of any school employee, shall be liable for all damages so caused by the minor. The liability of the parent or guardian shall not exceed ten thousand dollars ($10,000), adjusted annually for inflation. The parent or guardian shall be liable also for the amount of any reward not exceeding ten thousand dollars ($10,000), adjusted annually for inflation, paid pursuant to Section 53069.5 of the Government Code. The parent or guardian of a minor shall be liable to a school district or private school for all property belonging to the school district or private school loaned to the minor and not returned upon demand of an employee of the school district or private school authorized to make the demand.

(2) The Superintendent annually shall compute an adjustment of the liability limits prescribed by this subdivision to reflect the percentage change in the average annual value of the Implicit Price Deflator for State and Local Government Purchases of Goods and Services for the United States, as published by the United States Department of Commerce for the 12-month period ending in the prior fiscal year. The annual adjustment shall be rounded to the nearest one hundred dollars ($100).

(b)(1) Any school district or private school whose real or personal property has been willfully cut, defaced, or otherwise injured, or whose property is loaned to a pupil and willfully not returned upon demand of an employee of the school district or private school authorized to make the demand may, after affording the pupil his or her due process rights, withhold the grades, diploma, and transcripts of the pupil responsible for the damage until the pupil or the pupil's parent or guardian has paid for the damages thereto, as provided in subdivision (a).

(2) The school district or private school shall notify the parent or guardian of the pupil in writing of the pupil's alleged misconduct before withholding the pupil's grades, diploma, or transcripts pursuant to this subdivision. When the minor and parent are unable to pay for the damages, or to return the property, the school district or private school shall provide a program of voluntary work for the minor in lieu of the payment of monetary damages. Upon completion of the voluntary work, the grades, diploma, and transcripts of the pupil shall be released.

(3) The governing board of each school district or governing body of each private school shall establish rules and regulations governing procedures for the implementation of this subdivision. The procedures shall conform to, but are not necessarily limited to, those procedures established in this code for the expulsion of pupils.

EDC 48906.

When a principal or other school official releases a minor pupil to a peace officer for the purpose of removing the minor from the school premises, the school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to the officer, and regarding the place to which the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse, as defined in Section 11165.6 of the Penal Code, or pursuant to Section 305 of the Welfare and Institutions Code. In those cases, the school official shall provide the peace officer with the address and telephone number of the minor’s parent or guardian. The peace officer shall take immediate steps to notify the parent, guardian, or responsible relative of the minor that the minor is in custody and the place where he or she is being held. If the officer has a reasonable belief that the minor would be endangered by a disclosure of the place where the minor is being held, or that the disclosure would cause the custody of the minor to be disturbed, the officer may refuse to disclose the place where the minor is being held for a period not to exceed 24 hours. The officer shall, however, inform the parent, guardian, or responsible relative whether the child requires and is receiving
medical or other treatment. The juvenile court shall review any decision not to disclose the place where
the minor is being held at a subsequent detention hearing.

EDC 48909.
When a petition is requested in juvenile court or a complaint is filed in any court alleging that a minor of
compulsory school attendance age or any pupil currently enrolled in a public school in a grade to and
including grade 12 is a person who (a) has used, sold, or possessed narcotics or other hallucinogenic
drugs or substances; (b) has inhaled or breathed the fumes of, or ingested any poison classified as such
in Section 4160 of the Business and Professions Code; or (c) has committed felonious assault, homicide,
or rape the district attorney may, within 48 hours, provide written notice to the superintendent of the
school district of attendance, notwithstanding the provisions of Section 827 of the Welfare and Institutions
Code, and to the pupil's parent or guardian.

EDC 48910.
(a) A teacher may suspend any pupil from class, for any of the acts enumerated in Section 48900, for the
day of the suspension and the day following. The teacher shall immediately report the suspension to the
principal of the school and send the pupil to the principal or the designee of the principal for appropriate
action. If that action requires the continued presence of the pupil at the schoolsite, the pupil shall be
under appropriate supervision, as defined in policies and related regulations adopted by the governing
board of the school district. As soon as possible, the teacher shall ask the parent or guardian of the pupil
to attend a parent-teacher conference regarding the suspension. If practicable, a school counselor or a
school psychologist may attend the conference. A school administrator shall attend the conference if the
teacher or the parent or guardian so requests. The pupil shall not be returned to the class from which he
or she was suspended, during the period of the suspension, without the concurrence of the teacher of the
class and the principal.

(b) A pupil suspended from a class shall not be placed in another regular class during the period of
suspension. However, if the pupil is assigned to more than one class per day this subdivision shall apply
only to other regular classes scheduled at the same time as the class from which the pupil was
suspended.

(c) A teacher may also refer a pupil, for any of the acts enumerated in Section 48900, to the principal or
the designee of the principal for consideration of a suspension from the school.

EDC 48911.
(a) The principal of the school, the principal's designee, or the district superintendent of schools may
suspend a pupil from the school for any of the reasons enumerated in Section 48900, and pursuant to
Section 48900.5, for no more than five consecutive school days.

(b) Suspension by the principal, the principal's designee, or the district superintendent of schools shall be
preceded by an informal conference conducted by the principal, the principal's designee, or the district
superintendent of schools between the pupil and, whenever practicable, the teacher, supervisor, or
school employee who referred the pupil to the principal, the principal's designee, or the district
superintendent of schools. At the conference, the pupil shall be informed of the reason for the disciplinary
action, including the other means of correction that were attempted before the suspension as required
under Section 48900.5, and the evidence against him or her, and shall be given the opportunity to present
his or her version and evidence in his or her defense.

(c) A principal, the principal's designee, or the district superintendent of schools may suspend a pupil
without affording the pupil an opportunity for a conference only if the principal, the principal's designee, or
the district superintendent of schools determines that an emergency situation exists. "Emergency
situation," as used in this article, means a situation determined by the principal, the principal's designee,
or the district superintendent of schools to constitute a clear and present danger to the life, safety, or health of pupils or school personnel. If a pupil is suspended without a conference before suspension, both the parent and the pupil shall be notified of the pupil's right to a conference and the pupil's right to return to school for the purpose of a conference. The conference shall be held within two schooldays, unless the pupil waives this right or is physically unable to attend for any reason, including, but not limited to, incarceration or hospitalization. The conference shall then be held as soon as the pupil is physically able to return to school for the conference.

(d) At the time of suspension, a school employee shall make a reasonable effort to contact the pupil's parent or guardian in person or by telephone. If a pupil is suspended from school, the parent or guardian shall be notified in writing of the suspension.

(e) A school employee shall report the suspension of the pupil, including the cause for the suspension, to the governing board of the school district or to the district superintendent of schools in accordance with the regulations of the governing board of the school district.

(f)(1) The parent or guardian of a pupil shall respond without delay to a request from school officials to attend a conference regarding his or her child's behavior.

(2) No penalties shall be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with school officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.

(g) In a case where expulsion from a school or suspension for the balance of the semester from continuation school is being processed by the governing board of the school district, the district superintendent of schools or other person designated by the district superintendent of schools in writing may extend the suspension until the governing board of the school district has rendered a decision in the action. However, an extension may be granted only if the district superintendent of schools or the district superintendent's designee has determined, following a meeting in which the pupil and the pupil's parent or guardian are invited to participate, that the presence of the pupil at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. If the pupil is a foster child, as defined in Section 48853.5, the district superintendent of schools or the district superintendent's designee, including, but not limited to, the educational liaison for the school district, shall also invite the pupil's attorney and an appropriate representative of the county child welfare agency to participate in the meeting. If the pupil or the pupil's parent or guardian has requested a meeting to challenge the original suspension pursuant to Section 48914, the purpose of the meeting shall be to decide upon the extension of the suspension order under this section and may be held in conjunction with the initial meeting on the merits of the suspension.

EDC 48911.1.

(a) A pupil suspended from a school for any of the reasons enumerated in Sections 48900 and 48900.2 may be assigned, by the principal or the principal's designee, to a supervised suspension classroom for the entire period of suspension if the pupil poses no imminent danger or threat to the campus, pupils, or staff, or if an action to expel the pupil has not been initiated.

(b) Pupils assigned to a supervised suspension classroom shall be separated from other pupils at the schoolsite for the period of suspension in a separate classroom, building, or site for pupils under suspension.

(c) School districts may continue to claim apportionments for each pupil assigned to and attending a supervised suspension classroom provided as follows:

(1) The supervised suspension classroom is staffed as otherwise provided by law.

(2) Each pupil has access to appropriate counseling services.
(3) The supervised suspension classroom promotes completion of schoolwork and tests missed by the pupil during the suspension.

(4) Each pupil is responsible for contacting his or her teacher or teachers to receive assignments to be completed while the pupil is assigned to the supervised suspension classroom. The teacher shall provide all assignments and tests that the pupil will miss while suspended. If no classroom work is assigned, the person supervising the suspension classroom shall assign schoolwork.

(d) At the time a pupil is assigned to a supervised suspension classroom, a school employee shall notify, in person or by telephone, the pupil's parent or guardian. Whenever a pupil is assigned to a supervised suspension classroom for longer than one class period, a school employee shall notify, in writing, the pupil's parent or guardian.

(e) This section does not place any limitation on a school district's ability to transfer a pupil to an opportunity school or class or a continuation education school or class.

(f) Apportionments claimed by a school district for pupils assigned to supervised suspension shall be used specifically to mitigate the cost of implementing this section.

EDC 48912.

(a) The governing board may suspend a pupil from school for any of the acts enumerated in Section 48900 for any number of schooldays within the limits prescribed by Section 48903.

(b) Notwithstanding the provisions of Section 35145 of this code and Section 54950 of the Government Code, the governing board of a school district shall, unless a request has been made to the contrary, hold closed sessions if the board is considering the suspension of, disciplinary action against, or any other action against, except expulsion, any pupil, if a public hearing upon that question would lead to the giving out of information concerning a school pupil which would be in violation of Article 5 (commencing with Section 49073) of Chapter 6.5.

(c) Before calling a closed session to consider these matters, the governing board shall, in writing, by registered or certified mail or by personal service, notify the pupil and the pupil's parent or guardian, or the pupil if the pupil is an adult, of the intent of the governing board to call and hold a closed session. Unless the pupil or the pupil's parent or guardian shall, in writing, within 48 hours after receipt of the written notice of the board's intention, request that the hearing be held as a public meeting, the hearing to consider these matters shall be conducted by the governing board in closed session. In the event that a written request is served upon the clerk or secretary of the governing board, the meeting shall be public, except that any discussion at that meeting which may be in conflict with the right to privacy of any pupil other than the pupil requesting the public meeting, shall be in closed session.

EDC 48914.

Each school district is authorized to establish a policy that permits school officials to conduct a meeting with the parent or guardian of a suspended pupil to discuss the causes, the duration, the school policy involved, and other matters pertinent to the suspension.

EDC 48929.

Notwithstanding any other law, the governing board of a school district may transfer to another school in that school district a pupil enrolled in that school district who has been convicted of a violent felony, as defined in subdivision (c) of Section 667.5 of the Penal Code, or convicted of a misdemeanor listed in Section 29805 of the Penal Code if the pupil to be transferred and the victim of the crime for which the pupil was convicted are enrolled at the same school, subject to satisfaction of both of the following conditions:
(a) The governing board of the school district has adopted a policy at a regularly scheduled meeting that contains all of the following provisions:

1. A requirement that the pupil and pupil's parent or guardian be notified of the right to request a meeting with the school principal or designee of the school or school district.

2. A requirement that the school first attempt to resolve the conflict before transferring a pupil, including, but not limited to, using restorative justice, counseling, or other services.

3. Whether the decision to transfer a pupil is subject to periodic review and the procedure for conducting the review.

4. The process to be used by the governing board of the school district to consider and approve or disapprove of the recommendation of the school principal or other school or school district designee to transfer the pupil.

(b) The governing board of the school district has provided notice of the policy to parents or guardians as part of the annual notification required pursuant to Section 48980.

EDC 49332.
The parent or guardian of a pupil from whom an injurious object has been taken pursuant to this section may be notified by school personnel of the taking.

School personnel may retain protective possession of any injurious object taken pursuant to this section until the risk of its use as a weapon has dissipated, unless prior to dissipation of the risk, the parent or guardian requests that the school personnel retain the object, in which case, the school personnel shall retain the object until the parent or guardian or another adult with the written consent of the parent or guardian appears personally to take possession of the injurious object from the school personnel.

EDC 56521.1.
(a) Emergency interventions may only be used to control unpredictable, spontaneous behavior that poses clear and present danger of serious physical harm to the individual with exceptional needs, or others, and that cannot be immediately prevented by a response less restrictive than the temporary application of a technique used to contain the behavior. [...]

(e) To prevent emergency interventions from being used in lieu of planned, systematic behavioral interventions, the parent, guardian, and residential care provider, if appropriate, shall be notified within one schoolday if an emergency intervention is used or serious property damage occurs. A behavioral emergency report shall immediately be completed and maintained in the file of the individual with exceptional needs. The behavioral emergency report shall include all of the following:

(a) Contingent upon the receipt of federal funds for this purpose, the department, in consultation with the Department of Finance and the Legislative Analyst's Office, shall prepare the California Longitudinal Pupil Achievement Data System established pursuant to Section 60900 to include data on a quarterly rate of pupil attendance. Preparation shall include all of the following:

(f) A local educational agency that reports attendance data for pupils to the system established pursuant to Section 60900 may request, and the department shall provide, the early warning report described in subdivision (d) up to four times each school year.

(g) The department shall notify local educational agencies that reporting pupil attendance and chronic absentee data pursuant to this section is voluntary. The notice shall include a description of the benefits of reporting pupil attendance and chronic absentee data in fostering the development of effective supports and interventions for at-risk pupils.

(1) Each administrator of a school site or county office of education program, or designee, shall complete a California Safe Schools Assessment School Crime and Incident Reporting Form (July 1, 2001) for each incident of crime, including hate crime or hate motivated incidents. The information on the form includes, but is not limited to, identification of the crime or hate motivated incident, victim characteristics, suspect characteristics, if known at the time of the incident, and the actual or estimated dollar loss to the school district or county office of education resulting from a criminal act directed against property of the school district or county office of education. The site or program administrator shall use the crime and hate motivated incident classification definitions as specified above in Section 700(b) and (d) and the reporting guidelines as specified below in Section 702(a) to determine if a crime or an incident is reportable for the purposes of the Safe Schools Assessment Program.

(2) The site or program administrator, or designee, shall retain on file for not less than three years the individual reports of crimes and hate motivated incidents on which the aggregate data is based, and any other required documentation, as specified below in Section 702(b).

(3) Each month the data regarding reportable school crimes and hate motivated incidents shall be reported to the designated person at the respective school district or county office of education.

(4) Any school district that has its own police department may have the chief of its police force or other administrator of the police department prepare the California Safe Schools Assessment School Crime and Incident Reporting Form (July 1, 2001) for its schools and submit the aggregated data to the California Department of Education.

(5) On or before February 1 and August 1 of each year, the respective school district or county office of education superintendent, or designee, shall aggregate the school crime and hate motivated incident data reported by schools or programs within their jurisdiction and report the aggregated data to the California Department of Education.

(6) Beginning February 1, 1997 and thereafter, if a school district or county office of education chooses to submit its data to the California Department of Education in an electronic format, it must do so in a format designated by the California Department of Education. For the purposes of this section, an electronic format includes, computer disk, modem transfer, or other electronic means.
(b) Reportable crimes and hate motivated incidents occurring at a school in the jurisdiction of another school district or county office of education shall be reported by the education agency in which the crime or hate motivated incident occurred.

§ 702. Guidelines for reporting and required documentation.

Site or program administrators and school district and county office of education superintendents shall use (1) crime and hate motivated incident classifications based on existing statutes, as specified above in Section 700(b) and (d), (2) reporting guidelines as specified in subsection (a) below, and (3) guidelines for required documentation as specified in subsection (b) below to complete the reporting procedures as specified above in Section 701.

(a) Reporting guidelines

The site or program administrator or designee shall report a crime or hate motivated incident when it has been determined that a reportable crime or hate motivated incident, as specified above in Section 700(b) and (d), has been committed on a school location, as specified above in Section 700(f). If more than one crime or hate motivated incident is committed during an occurrence, the most serious crime or incident in the judgment of the site or program administrator or designee shall be reported. The suspect(s) need not be apprehended for a crime or hate motivated incident to be reportable. The site or program administrator or designee may consult with local law enforcement to confirm that the occurrences reported on the forms are crimes or hate motivated incidents as defined in statute.

(b) Required documentation

The school district or county office of education superintendent responsible for reporting school crime and hate motivated incident data shall make available, for not less than three years from the date the report was submitted, supporting data which verifies information contained on the California Safe Schools Assessment School Crime and Incident Reporting Form (July 1, 2001). Such data shall include, but not be limited to, reports to local law enforcement officers and suspension and expulsion reports which have been reported to the respective local governing board, for the crime classifications specified in Education Code section 48915(a) through (d); and insurance claims, maintenance records, and other documents to verify economic loss, if applicable. In addition, staff should be available to participate in interviews during site visits from the California Department of Education.

§ 704. Certification of report.

Each school district or county office of education superintendent or designee shall certify to the best of their knowledge and belief that the information in each crime and hate motivated incident reporting form is true, accurate, and complete prior to submission to the California Department of Education.

§ 705. Failure to submit or intentionally submitting misleading data.

School districts or county offices of education failing to submit a report or intentionally submitting misleading data may be sanctioned by the Superintendent of Public Instruction. The sanction is withholding a dollar amount not to exceed one-half of the annual salary of the superintendent of either the reporting school district or the county office of education from the school district's or county office of education's next state funding apportionment.

(a) A California public elementary or secondary school is "persistently dangerous" if, in each of three consecutive fiscal years, one of the following criteria has been met:

(1) For a school of fewer than 300 enrolled students, the number of incidents of firearm violations committed by non-students on school grounds during school hours or during a school-sponsored
activity, plus the number of student expulsions for any of the violations delineated in subsection (b) is greater than three.

(2) For a larger school, the number of incidents of firearm violations committed by non-students on school grounds during school hours or during a school-sponsored activity, plus the number of student expulsions for any of the violations delineated in subsection (b) is greater than one per 100 enrolled students or a fraction thereof.

(b) Applicable violations include:

(1) Assault or battery upon a school employee (Education Code section 48915(a)(5));
(2) Brandishing a knife (Education Code section 48915(c)(2));
(3) Causing serious physical injury to another person, except in self-defense (Education Code section 48915(a)(1));
(4) Hate violence (Education Code section 48900.3);
(5) Possessing, selling or furnishing a firearm (Education Code section 48915(c)(1));
(6) Possession of an explosive (Education Code section 48915(c)(5));
(7) Robbery or extortion (Education Code section 48915(a)(4));
(8) Selling a controlled substance (Education Code section 48915(c)(3)); and
(9) Sexual assault or sexual battery (Education Code section 48915(c)(4)).

(c) In instances where a student committed a violation enumerated in subsection (b) for which expulsion proceedings would have been instituted, but is no longer a student and therefore cannot be expelled, that violation must be reported in the total number of incidents and expulsions referenced in subsection (a).

§ 11993. Definitions.

(k) An "incident" of a firearm violation by non-student(s) for the purpose of section 11992 is an event on school grounds during school hours, or at a school-sponsored activity, involving a person or persons not enrolled in the school who unlawfully brings or possesses a handgun, rifle, shotgun, or other type of firearm. An event shall be counted as a single incident when it happens at the same time in the same location, regardless of the number of non-students involved. School site administrators or designees are responsible for documenting the incident and reporting the incident to the local educational agency (LEA) staff who are responsible for collecting expulsion data.

§ 11994. Data collection.

Local educational agencies (LEAs) will submit to the California Department of Education (CDE) the number of incidents of non-student firearm violations and student expulsions specified in section 11992 above for determining persistently dangerous schools. The CDE will use the information collected to determine if a school site meets the criteria in this subchapter. If an LEA contests the CDE's determination that one or more of its schools is persistently dangerous, the LEA may appeal that determination to the State Board of Education based on incorrect data or circumstances that caused the school to be identified as persistently dangerous, but actually increased student and teacher safety at the school.

LAWS

EDC 32281. (a) Each school district and county office of education is responsible for the overall development of all comprehensive school safety plans for its schools operating kindergarten or any of grades 1 to 12, inclusive.

(b)(1) Except as provided in subdivision (d) with regard to a small school district, the schoolsite council established pursuant to former Section 52012, as it existed before July 1, 2005, or Section 52852 shall write and develop a comprehensive school safety plan relevant to the needs and resources of that particular school.

(2) The schoolsite council may delegate this responsibility to a school safety planning committee made up of the following members:

(A) The principal or the principal's designee.

(B) One teacher who is a representative of the recognized certificated employee organization.

(C) One parent whose child attends the school.

(D) One classified employee who is a representative of the recognized classified employee organization.

(E) Other members, if desired.

(3) The schoolsite council shall consult with a representative from a law enforcement agency, a fire department, and other first responder entities in the writing and development of the comprehensive school safety plan. The comprehensive school safety plan and any updates to the plan shall be shared with the law enforcement agency, the fire department, and the other first responder entities.

(4) In the absence of a schoolsite council, the members specified in paragraph (2) shall serve as the school safety planning committee.

(c) This article does not limit or take away the authority of school boards as guaranteed under this code.

(d)(1) Subdivision (b) shall not apply to a small school district, as defined in paragraph (2), if the small school district develops a districtwide comprehensive school safety plan that is applicable to each schoolsite.

(2) As used in this article, "small school district" means a school district that has fewer than 2,501 units of average daily attendance at the beginning of each fiscal year.

(e)(1) When a principal or his or her designee verifies through local law enforcement officials that a report has been filed of the occurrence of a violent crime on the schoolsite of an elementary or secondary school at which he or she is the principal, the principal or the principal's designee may send to each pupil's parent or legal guardian and each school employee a written notice of the occurrence and general nature of the crime. If the principal or his or her designee chooses to send the written notice, the Legislature encourages the notice be sent no later than the end of business on the second regular workday after the verification. If, at the time of verification, local law enforcement officials determine that notification of the violent crime would hinder an ongoing investigation, the notification authorized by this subdivision shall be made within a reasonable period of time, to be determined by the local law enforcement agency and the school district. For purposes of this section, an act considered a "violent
crime” shall meet the definition of Section 67381 and be an act for which a pupil could or would be expelled pursuant to Section 48915.

(2) This subdivision does not create any liability in a school district or its employees for complying with paragraph (1).

(f)(1) Notwithstanding subdivision (b), a school district or county office of education may, in consultation with law enforcement officials, elect to not have its schoolsite council develop and write those portions of its comprehensive school safety plan that include tactical responses to criminal incidents that may result in death or serious bodily injury at the schoolsite. The portions of a comprehensive school safety plan that include tactical responses to criminal incidents may be developed by administrators of the school district or county office of education in consultation with law enforcement officials and with a representative of an exclusive bargaining unit of employees of that school district or county office of education, if he or she chooses to participate. The school district or county office of education may elect not to disclose those portions of the comprehensive school safety plan that include tactical responses to criminal incidents.

(2) As used in this article, “tactical responses to criminal incidents” means steps taken to safeguard pupils and staff, to secure the affected school premises, and to apprehend the criminal perpetrator or perpetrators.

(3) This subdivision does not preclude the governing board of a school district or county office of education from conferring in a closed session with law enforcement officials pursuant to Section 54957 of the Government Code to approve a tactical response plan developed in consultation with those officials pursuant to this subdivision. Any vote to approve the tactical response plan shall be announced in open session following the closed session.

(4) This subdivision does not reduce or eliminate the requirements of Section 32282.

EDC 48240.

(a) The governing board of each school district and each county superintendent of schools shall appoint a supervisor of attendance and any assistant supervisors of attendance as may be necessary to supervise the attendance of pupils in the school district or county. The governing board of the school district or county superintendent of schools shall prescribe the duties of the supervisor of attendance and assistant supervisors of attendance to include, among other duties that may be required, those specific duties related to compulsory full-time education, truancy, work permits, compulsory continuation education, and opportunity schools, classes, and programs, now required of the attendance supervisors by this chapter and Article 4 (commencing with Section 48450) of Chapter 3 and Article 2 (commencing with Section 48640) of Chapter 4.

(b) It is the intent of the Legislature that in performing his or her duties, the supervisor of attendance promote a culture of attendance and establish a system to accurately track pupil attendance in order to achieve all of the following:

(1) Raise the awareness of school personnel, parents, guardians, caregivers, community partners, and local businesses of the effects of chronic absenteeism and truancy and other challenges associated with poor attendance.

(2) Identify and respond to grade level or pupil subgroup patterns of chronic absenteeism or truancy.

(3) Identify and address factors contributing to chronic absenteeism and habitual truancy, including suspension and expulsion.

(4) Ensure that pupils with attendance problems are identified as early as possible to provide applicable support services and interventions.

(5) Evaluate the effectiveness of strategies implemented to reduce chronic absenteeism rates and truancy rates.
(c) When a pupil with a temporary disability, as defined in Section 48206.3, is receiving individual instruction in the home or a hospital or other residential health facility, the supervisor of attendance shall ensure that absences from the pupil's regular school program are excused until the pupil is able to return to the regular school program.

(d) The supervisor of attendance may provide support services and interventions, which may include, but are not limited to, any or all of the following:

1. A conference between school personnel, the pupil's parent or guardian, and the pupil.
2. Promoting cocurricular and extracurricular activities that increase pupil connectedness to school, such as tutoring, mentoring, the arts, service learning, or athletics.
3. Recognizing pupils who achieve excellent attendance or demonstrate significant improvement in attendance.
4. Referral to a school nurse, school counselor, school psychologist, school social worker, and other pupil support personnel for case management and counseling.
5. Collaboration with child welfare services, law enforcement, courts, public health care agencies, or government agencies, or medical, mental health, and oral health care providers to receive necessary services.
6. Collaborating with school study teams, guidance teams, school attendance review teams, or other intervention-related teams to assess the attendance or behavior problem in partnership with the pupil and his or her parents, guardians, or caregivers.
7. In schools with significantly higher rates of chronic absenteeism, identify barriers to attendance that may require schoolwide strategies rather than case management.
8. Referral for a comprehensive psychosocial or psychoeducational assessment, including for purposes of creating an individualized education program for an individual with exceptional needs, as that term is defined in Section 56026, or plan adopted for a qualified handicapped person, as that term is defined in regulations promulgated by the United States Department of Education pursuant to Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. Sec. 794).
9. Referral to a school attendance review board established by the county or by a school district pursuant to Section 48321 or to the probation department pursuant to Section 48263.
10. Referral to a truancy mediation program operated by the county's district attorney or probation officer pursuant to Section 48260.6.

EDC 48246.
The attendance supervisor, who is a full-time attendance supervisor performing no other duties, of any county, city and county, or school district in which any place of employment is situated, or the probation officer of the county, may at any time enter into any such place of employment for the purpose of examining permits to work or to employ of all minors employed in such place of employment, or for the purpose of investigating violations of the provisions of the Labor Code or of the provisions of this chapter, or Chapter 7 (commencing with Section 49100) of this part. If the attendance supervisor or probation officer is denied entrance to such place of employment, or if any violation of laws relating to the education of minors is found to exist, the attendance supervisor or probation officer shall report the denial of entrance or the violation to the Labor Commissioner. Such report shall be made within 48 hours and shall be in writing, setting forth the fact that he has good cause to believe that such laws are being violated in such place of employment and describing the nature of the violation.
EDC 48260.6.
(a) In any county which has not established a county school attendance review board pursuant to Section 48321, the school district may notify the district attorney or the probation officer, or both, of the county in which the school district is located, by first-class mail or other reasonable means, of the following if the district attorney or the probation officer has elected to participate in the truancy mediation program described in subdivision (d):

(1) The name of each pupil who has been classified as a truant.
(2) The name and address of the parent or guardian of each pupil who has been classified as a truant.

(b) The school district may also notify the district attorney or the probation officer, or both, as to whether the pupil continues to be classified as a truant after the parents have been notified pursuant to subdivision (a) of Section 48260.5.

(c) In any county which has not established a county school attendance review board, the district attorney or the probation officer of the county in which the school district is located may notify the parents or guardians of every truant, by first-class mail or other reasonable means, that they may be subject to prosecution pursuant to Article 6 (commencing with Section 48290) of Chapter 2 of Part 27 for failure to compel the attendance of the pupil at school.

(d) If the district attorney or the probation officer, or both, are notified by a school district that a child continues to be classified as a truant after the parents or guardians have been notified pursuant to subdivision (a) of Section 48260.5, the district attorney or the probation officer in any county which has not established a county school attendance review board may request the parents or guardians and the child to attend a meeting in the district attorney's office or at the probation department pursuant to Section 601.3 of the Welfare and Institutions Code to discuss the possible legal consequences of the child's truancy. Notice of the meeting shall be given pursuant to Section 601.3 of the Welfare and Institutions Code.

EDC 48263.
(a) If a minor pupil in a school district of a county is a habitual truant, or is a chronic absentee, as defined in Section 60901, or is habitually insubordinate or disorderly during attendance at school, the pupil may be referred to a school attendance review board, or to the probation department for services if the probation department has elected to receive these referrals. The school district supervisor of attendance, or any other persons the governing board of the school district or county may designate, making the referral shall provide documentation of the interventions undertaken at the school to the pupil, the pupil's parents or guardians, and the school attendance review board or probation department and shall notify the pupil and parents or guardians of the pupil, in writing, of the name and address of the school attendance review board or probation department to which the matter has been referred and of the reason for the referral. The notice shall indicate that the pupil and parents or guardians of the pupil will be required, along with the referring person, to meet with the school attendance review board or probation officer to consider a proper disposition of the referral.

(b)(1) If the school attendance review board or probation officer determines that available community services can resolve the problem of the truant or insubordinate pupil, then the school attendance review board or probation officer shall direct the pupil or the pupil's parents or guardians, or both, to make use of those community services. The school attendance review board or probation officer may require, at any time that it determines proper, the pupil or parents or guardians of the pupil, or both, to furnish satisfactory evidence of participation in the available community services.

(2) If the school attendance review board or probation officer determines that available community services cannot resolve the problem of the truant or insubordinate pupil or if the pupil or the parents or guardians of the pupil, or both, have failed to respond to directives of the school attendance review
board or probation officer or to services provided, the school attendance review board may, pursuant to Section 48263.5, notify the district attorney or the probation officer, or both, of the county in which the school district is located, or the probation officer may, pursuant to Section 48263.5, notify the district attorney, if the district attorney or the probation officer has elected to participate in the truancy mediation program described in that section.

(c) In any county that has not established a school attendance review board, if the school district determines that available community resources cannot resolve the problem of the truant or insubordinate pupil, or if the pupil or the pupil's parents or guardians, or both, have failed to respond to the directives of the school district or the services provided, the school district, pursuant to Section 48260.6, may notify the district attorney or the probation officer, or both, of the county in which the school district is located, if the district attorney or the probation officer has elected to participate in the truancy mediation program described in Section 48260.6.

EDC 48263.5.

(1) The name of each pupil who has been classified as a truant and concerning whom the school attendance review board or the probation officer has determined:

(A) That available community services cannot resolve the truancy or insubordination problem.

(B) That the pupil or the parents or guardians of the pupil, or both, have failed to respond to directives of the school attendance review board or probation officer or to services provided.

The district attorney or the probation officer may also request the parents or guardians and the child to attend a meeting in the district attorney's office or at the probation department pursuant to Section 601.3 of the Welfare and Institutions Code to discuss the possible legal consequences of the child's truancy. EDC 48269.
If the parent, guardian, or other person having control or charge of the pupil, within three days after the rendition of the judgment executes a bond to the governing board of the school district in the sum of two hundred dollars ($200), conditioned that the pupil will, during the remainder of the current school year, regularly attend a public or private school in the city, or city and county, or school district, the court may make an order suspending the execution of the judgment so long as the condition of the bond is complied with. The bond shall be filed with the secretary of the board of education, or clerk of the board of trustees. All other persons and group representatives shall be appointed by the county board of education.

The juvenile court does not have jurisdiction to order detention in any secure facility or other confinement for failure to comply with a subpoena issued pursuant to this section.

(d) Nothing in this section shall be construed to authorize a county or local school attendance review board to issue a subpoena for the production of written materials or the attendance of any person except as specifically provided in subdivision (a) with respect to the limited purpose of making a proper disposition of the referral of a minor pupil made pursuant to Section 48263.

(e) Nothing in this section shall be construed to authorize a county or local school attendance review board to issue a subpoena to be issued for the production of written materials or the attendance of any person if it is verified that the minor pupil is enrolled and in regular attendance in a private school maintaining kindergarten or any of grades 1 to 12, inclusive, that has filed an affidavit pursuant to Sections 33190 and 48222 of the Education Code.

(a) The Legislature encourages each county superintendent of schools or governing board of a school district, as determined by the county board of education pursuant to subdivision (b) of Section 48645.2, and the county chief probation officer to enter into a memorandum of understanding or equivalent mutual agreement to support a collaborative process for meeting the needs of wards of the court who are receiving their education in juvenile court schools. The memorandum of understanding or equivalent mutual agreement may include, but is not limited to, a process for communication, decisionmaking, mutually established goals, and conflict resolution. The purpose of this memorandum of understanding or equivalent mutual agreement is to develop a collaborative model that will foster an educational and
residential environment that nurtures the whole child and consistently supports services that will meet the educational needs of the pupils.

(b) A memorandum of understanding or equivalent mutual agreement on providing educational and related services for juvenile court school pupils developed in accordance with this section may include, but is not limited to, the following provisions:

The working group is responsible for establishing and maintaining open communication, collaboration, and resolution of issues that arise.

   (B) Result in an educational plan for a ward while assigned to a local juvenile facility that is integrated with other rehabilitative and behavioral management programs, and that supports the educational needs of the pupil.

It is the intent that this shared information about each ward placed in a juvenile court school shall assist both the county superintendent of schools and the county chief probation officer in meeting the needs of wards in their care and promoting a system of comprehensive services.

PEN 13864.

There is hereby created in the Office of Emergency Services the Comprehensive Alcohol and Drug Prevention Education component of the Suppression of Drug Abuse in Schools Program in public elementary schools in grades 4 to 6, inclusive. All applications for that funding shall be reviewed and evaluated by the Office of Emergency Services, in consultation with the State Department of Health Care Services and the State Department of Education.

(a) The Director of Emergency Services is authorized to allocate and award funds to county department superintendents of schools for allocation to individual school districts or to a consortium of two or more school districts. If the principal or his or her designee chooses to send the written notice, the Legislature encourages the notice be sent no later than the end of business on the second regular workday after the verification. If, at the time of verification, local law enforcement officials determine that notification of the violent crime would hinder an ongoing investigation, the notification authorized by this subdivision shall be made within a reasonable period of time, to be determined by the local law enforcement agency and the school district. For purposes of this section, an act considered a "violent crime" shall meet the definition of Section 67381 and be an act for which a pupil could or would be expelled pursuant to Section 48915.

(2) This subdivision does not create any liability in a school district or its employees for complying with paragraph (1).

(f)(1) Notwithstanding subdivision (b), a school district or county office of education may, in consultation with law enforcement officials, elect to not have its schoolsite council develop and write those portions of its comprehensive school safety plan that include tactical responses to criminal incidents that may result in death or serious bodily injury at the schoolsite. The portions of a comprehensive school safety plan that include tactical responses to criminal incidents may be developed by administrators of the school district or county office of education in consultation with law enforcement officials and with a representative of an exclusive bargaining unit of employees of that school district or county office of education, if he or she chooses to participate. The school district or county office of education may elect not to disclose those portions of the comprehensive school safety plan that include tactical responses to criminal incidents.

(2) As used in this article, “tactical responses to criminal incidents” means steps taken to safeguard pupils and staff, to secure the affected school premises, and to apprehend the criminal perpetrator or perpetrators.

(3) This subdivision does not preclude the governing board of a school district or county office of education from conferring in a closed session with law enforcement officials pursuant to Section 54957 of the Government Code to approve a tactical response plan developed in consultation with those officials pursuant to this subdivision. Any vote to approve the tactical response plan shall be announced in open session following the closed session.

(4) This subdivision does not reduce or eliminate the requirements of Section 32282.
EDC 35021.5.
(a) The governing board of a school district may establish a school police reserve officer corps to supplement a police department established pursuant to Section 38000. Any person deputized by a school district as a school police reserve officer shall complete the training prescribed by Section 832.2 of the Penal Code.

(b) It is the intent of the Legislature to allow school districts to use volunteer school police reserve officers to the extent necessary to provide a safe and secure school environment.

EDC 38000.
(a) The governing board of a school district may establish a security department under the supervision of a chief of security as designated by, and under the direction of, the superintendent of the school district. In accordance with Chapter 5 (commencing with Section 45100) of Part 25, the governing board of a school district may employ personnel to ensure the safety of school district personnel and pupils and the security of the real and personal property of the school district. It is the intent of the Legislature in enacting this section that a school district security department is supplementary to city and county law enforcement agencies and is not vested with general police powers.

(b) The governing board of a school district may establish a school police department under the supervision of a school chief of police and, in accordance with Chapter 5 (commencing with Section 45100) of Part 25, may employ peace officers, as defined in subdivision (b) of Section 830.32 of the Penal Code, to ensure the safety of school district personnel and pupils, and the security of the real and personal property of the school district.

(c) The governing board of a school district that establishes a security department or a police department shall set minimum qualifications of employment for the chief of security or school chief of police, respectively, including, but not limited to, prior employment as a peace officer or completion of a peace officer training course approved by the Commission on Peace Officer Standards and Training. A chief of security or school chief of police shall comply with the prior employment or training requirement set forth in this subdivision as of January 1, 1993, or a date one year subsequent to the initial employment of the chief of security or school chief of police by the school district, whichever occurs later. This subdivision shall not be construed to require the employment by a school district of additional personnel.

(d) A school district may assign a school police reserve officer who is deputized pursuant to Section 35021.5 to a schoolsite to supplement the duties of school police officers pursuant to this section.

(e) It is the intent of the Legislature to evaluate the presence of peace officers and other law enforcement on school campuses and to identify and consider alternative options to ensure pupil safety based on the needs of the local school communities. It is the intent of the Legislature to consider encouraging local educational agencies to use school resources currently allocated to such personnel, including school police departments and contracts with local police or sheriff departments, for pupil support services, such as mental health services and professional development for school employees on cultural competency and restorative justice, as needed, if found to be a more appropriate use of resources based upon the needs of the pupils and campuses that serve them.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. (2) Safe school plan. In order to provide a learning environment that is safe, conducive to the learning process, and free from unnecessary disruption, each school district board of education or institute charter school board for a charter school authorized by the charter school institute shall, following consultation with the school district accountability committee and school accountability committees, parents, teachers, administrators, students, student councils where available, and, where appropriate, the community at large, adopt and implement a safe school plan, or review and revise, as necessary in response to any relevant data collected by the school district, any existing plans or policies already in effect. In addition to the aforementioned parties, each school district board of education, in adopting and implementing its safe school plan, may consult with victims' advocacy organizations, school psychologists, local law enforcement, and community partners. The plan, at a minimum, must include the following:

(a) Conduct and discipline code.

(I) A concisely written conduct and discipline code that shall be enforced uniformly, fairly, and consistently for all students. Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:

(A) General policies on student conduct, safety, and welfare;

(B) General policies and procedures for dealing with students who cause a disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event, including a specific policy allowing a teacher to remove a disruptive student from his or her classroom. The policy shall state that, upon the third such removal from a teacher's class, the teacher may remove the disruptive student from the teacher's class for the remainder of the term of the class; except that a disruptive student shall not be removed from a teacher's class for the remainder of the term of the class unless the principal of the student's school or his or her designee has developed and implemented a behavior plan for the student. A behavior plan may be developed after the first such removal from class and shall be developed after the second removal from class. The general policies and procedures shall include a due process procedure, which at a minimum shall require that, as soon as possible after a removal, the teacher or the school principal shall contact the parent or legal guardian of the student to request his or her attendance at a student-teacher conference regarding the removal. Any policy or procedure adopted shall comply with applicable federal and state laws, including but not limited to laws regarding students with disabilities.

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school district to identify a student for participation in an expulsion-prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion proceeding.

(2) Each school district may provide educational services to students who are identified as at risk of suspension or expulsion from school. Any school district that provides educational services to students who are at risk of suspension or expulsion may apply for moneys through the expelled and at-risk student services grant program established in section 22-33-205 to assist in providing such educational services.

Alternatives to Suspension

LAWS

(1) Definitions. As used in this section, unless the context otherwise requires:

(a) "Action taken" means a specific type of discipline, including but not limited to the following categories of discipline:

(I) In-school suspension;
(II) Out-of-school suspension;
(III) Classroom removal in accordance with board policy;
(IV) Expulsion;
(V) Referral to law enforcement; or
(VI) Any other form of discipline, which shall be officially identified as part of a board policy.

(b) "Bullying" means any written or verbal expression, or physical or electronic act or gesture, or a pattern thereof, that is intended to coerce, intimidate, or cause any physical, mental, or emotional harm to any student. Bullying is prohibited against any student for any reason, including but not limited to any such behavior that is directed toward a student on the basis of his or her academic performance or against whom federal and state laws prohibit discrimination upon any of the bases described in section 22-32-109 (1)(II)(I). This definition is not intended to infringe upon any right guaranteed to any person by the first amendment to the United States constitution or to prevent the expression of any religious, political, or philosophical views.

(b.5) "Community partners" means, collectively, local fire departments, state and local law enforcement, local 911 agencies, interoperable communications providers, the safe2tell program described in section 24-31-606, C.R.S., local emergency medical service personnel, local mental health organizations, local public health agencies, local emergency management personnel, local or regional homeland security personnel, and school resource officers.

(2) Safe school plan. In order to provide a learning environment that is safe, conducive to the learning process, and free from unnecessary disruption, each school district board of education or institute charter school board for a charter school authorized by the charter school institute shall, following consultation with the school district accountability committee and school accountability committees, parents, teachers, administrators, students, student councils where available, and, where appropriate, the community at large, adopt and implement a safe school plan, or review and revise, as necessary in response to any relevant data collected by the school district, any existing plans or policies already in effect. In addition to the aforementioned parties, each school district board of education, in adopting and implementing its safe school plan, may consult with victims' advocacy organizations, school psychologists, local law enforcement, and community partners. The plan, at a minimum, must include the following:

(a) Conduct and discipline code.

(II) In creating and enforcing a school conduct and discipline code pursuant to subparagraph (I) of this paragraph (a), each school district board of education, on and after August 1, 2013, shall:

(A) Impose proportionate disciplinary interventions and consequences, including but not limited to in-school suspensions, in response to student misconduct, which interventions and consequences are designed to reduce the number of expulsions, out-of-school suspensions, and referrals to law enforcement, except for such referrals to law enforcement as are required by state or federal law;

(B) Include plans for the appropriate use of prevention, intervention, restorative justice, peer mediation, counseling, or other approaches to address student misconduct, which approaches are designed to minimize student exposure to the criminal and juvenile justice system. The plans shall state that a school administration shall not order a victim's participation in a restorative justice practice or peer mediation if the alleged victim of an offending student's misconduct alleges that the misconduct constitutes unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S.; a crime in which the underlying factual basis involves domestic violence, as defined in section 18-6-800.3 (1), C.R.S.; stalking as defined in section 18-3-602, C.R.S.; or violation of a protection order, as defined in section 18-6-803.5, C.R.S.;

(C) Ensure that the implementation of the code complies with all state and federal laws concerning the education of students with disabilities, as defined in section 22-20-103 (5); and

(D) Ensure that, in implementing the code, each school of the school district shows due consideration of the impact of certain violations of the code upon victims of such violations, in
accordance with the provisions of title IX of the United States Code and other state and federal laws.

22-32-144. Restorative justice practices - legislative declaration.

(1) The general assembly hereby finds that:

(a) Conflicts and offenses arising during the school day interrupt learning, threaten school safety, and often lead to suspensions, expulsions, and an increase in the likelihood of a student dropping out of school;

(b) Students who drop out of high school face diminished job opportunities, lower lifetime earnings, and increased unemployment and more often require public assistance. They are more likely to participate in criminal activity, resulting in higher incarceration rates, and they face much greater challenges to becoming productive, contributing members of their communities.

(c) School conflicts can result in offenses that violate school rules and local laws and damage relationships among members of the school and surrounding community;

(d) Restorative justice, which requires the offender to accept responsibility and accountability for his or her actions, teaches conflict resolution, repairs the harm from the offense, reduces classroom disruptions, suspensions, expulsions, and consequent dropouts, promotes school safety, and enables victims, offenders, and community members to rebuild the community and restore relationships; and

(e) The general assembly has a vital interest in reducing classroom disruptions, suspensions, expulsions, and dropout rates and in assisting victims, reducing referrals to the justice system, and building safer, more cohesive school communities to promote learning.

(2)(a) Therefore, the general assembly supports and encourages the use of restorative justice as a school's first consideration to remediate offenses such as interpersonal conflicts, bullying, verbal and physical conflicts, theft, damage to property, class disruption, harassment and internet harassment, and attendance issues.

(b) The general assembly encourages each school district to implement training and education in the principles and practices of restorative justice to ensure that capable personnel and resources are available to successfully facilitate all steps of the restorative justice process.

(3) For purposes of this section, "restorative justice" means practices that emphasize repairing the harm to the victim and the school community caused by a student's misconduct. Restorative justice practices may include victim-initiated victim-offender conferences attended voluntarily by the victim, a victim advocate, the offender, school members, and supporters of the victim and the offender, which program provides an opportunity for the offender to accept responsibility for the harm caused to those affected by the act and to participate in setting consequences to repair the harm. Consequences recommended by the participants may include, but need not be limited to, apologies, community service, restitution, restoration, and counseling. The selected consequences shall be incorporated into an agreement that sets time limits for completion of the consequences and is signed by all participants.

(4) Each school district is encouraged to develop and utilize restorative justice practices that are part of the disciplinary program of each school in the district.

22-33-105. Suspension, expulsion, and denial of admission.

(4) The board of education of each district shall establish, as an alternative to suspension, a policy that allows the pupil to remain in school by encouraging the parent, guardian, or legal custodian, with the consent of the pupil's teacher or teachers, to attend class with the pupil for a period of time specified by the suspending authority. If the parent, guardian, or legal custodian does not agree to attend class with the pupil or fails to attend class with the pupil, the pupil shall be suspended in accordance with the conduct and discipline code of the district.
22-33-106. Grounds for suspension, expulsion, and denial of admission.

(1.2) Each school district is encouraged to consider each of the following factors before suspending or expelling a student pursuant to a provision of subsection (1) of this section:

(a) The age of the student;
(b) The disciplinary history of the student;
(c) Whether the student has a disability;
(d) The seriousness of the violation committed by the student;
(e) Whether the violation committed by the student threatened the safety of any student or staff member; and
(f) Whether a lesser intervention would properly address the violation committed by the student.

22-33-106.1. Suspension - expulsion - preschool through second grade - definitions.

(1) As used in this section, unless the context otherwise requires:

(a) "Charter school" means a charter school that is authorized by a school district board of education pursuant to part 1 of article 30.5 of this title 22 or an institute charter school that is authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(b) "Enrolling entity" means:

(I) A community-based preschool program that includes students who are funded through the "Colorado Preschool Program Act", article 28 of this title 22, or students who are funded with state or federal money to educate children with disabilities;

(II) A school district; or

(III) A charter school.

(2) Notwithstanding any provision of this article 33 to the contrary, an enrolling entity may impose an out-of-school suspension or expel a student enrolled in preschool, kindergarten, first grade, or second grade only if:

(a) The enrolling entity determines that the student has engaged in conduct on school grounds, in a school vehicle, or at a school activity or sanctioned event that:

(I) Involves the possession of a dangerous weapon without the authorization of the public school or enrolling entity, if different;

(II) Involves the use, possession, or sale of a drug or controlled substance, as defined in section 18-18-102 (5); or

(III) Endangers the health or safety of others;

(b) The enrolling entity determines that failure to remove the student from the school building would create a safety threat that cannot otherwise be addressed; and

(c) The enrolling entity, on a case-by-case basis, considers each of the factors set forth in section 22-33-106 (1.2) before suspending or expelling the student. The enrolling entity shall document any alternative behavioral and disciplinary interventions that it employs before suspending or expelling the student.

(3) If an enrolling entity imposes an out-of-school suspension on a student who meets the criteria specified in subsection (2) of this section, the out-of-school suspension shall not exceed three school days unless the executive officer or chief administrative officer of the enrolling entity, or designee of either, determines that a longer period of suspension is necessary to resolve the safety threat or recommends that the student be expelled in accordance with section 22-33-105 (2)(c).
(4) This section does not prevent an enrolling entity from excluding, removing, or disenrolling a student for reasons unrelated to student discipline.

(5) For purposes of this section, if an enrolling entity requests that a parent remove a child for disciplinary reasons from the school grounds for any length of time during a school day, the request constitutes a suspension and is subject to the requirements of this section.

(6) The state board shall annually review the data concerning the number of students who are suspended or expelled pursuant to this section and, if available, the reasons for the suspensions and expulsions.

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school district to identify a student for participation in an expulsion-prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion proceeding.

(2) Each school district may provide educational services to students who are identified as at risk of suspension or expulsion from school. Any school district that provides educational services to students who are at risk of suspension or expulsion may apply for moneys through the expelled and at-risk student services grant program established in section 22-33-205 to assist in providing such educational services.

Each annual review process must include a review of each incident in which restraint was used on a student during the preceding year. (c) During physical restraint of an individual, an agent or employee of the agency shall check to ensure that the breathing of the individual in such physical restraint is not compromised;

(d) A chemical restraint shall be given only on the order of a physician or an advanced practice nurse with prescriptive authority who has determined, either while present during the course of the emergency justifying the use of the chemical restraint or after telephone consultation with a registered nurse, licensed physician assistant, or other authorized staff person who is present at the time and site of the emergency and who has participated in the evaluation of the individual, that such form of restraint is the least restrictive, most appropriate alternative available. Nothing in this subsection (1) shall modify the requirements of section 26-20-102 (2) or 26-20-103 (3).

(e) An order for a chemical restraint, along with the reasons for its issuance, shall be recorded in writing at the time of its issuance;

During such relief periods, the staff shall ensure proper positioning of the individual and provide movement of limbs, as necessary. (I) A qualified mental health professional, or, if such professional is not available, the facility director or his or her designee, determines that referral of the youth in seclusion to a mental health facility is not warranted; and

(II) The director of the division of youth services, or his or her designee, approves at or before the conclusion of four hours, and every hour thereafter, the continued use of seclusion.

(c) A youth may not be held in seclusion under any circumstances for more than eight total hours in two consecutive calendar days without a written court order.

(3) Notwithstanding any other provision of this section, the division of youth services may place a youth alone in a room or area from which egress is involuntarily prevented if such confinement is part of a routine practice that is applicable to substantial portions of the population. Such confinement must be imposed only for the completion of administrative tasks and should last no longer than necessary to achieve the task safely and effectively.

This written approval must include documentation of specific facts to demonstrate that the emergency was ongoing and specific reasons why a referral to a mental health facility was not warranted.

(3) The division of youth services shall maintain the following documentation each time one or more youths are placed in confinement for administrative reasons pursuant to section 26-20-104.5 (3) in a secure state-operated or state-owned facility:

(a) The number of youth confined;

26-20-109. Limitations.
(1) Nothing in this article shall be deemed to form an independent basis of statutory authority for the use of restraint.

(2) Nothing in this article shall be deemed to authorize an agency to implement policies, procedures, or standards or promulgate rules or adopt ordinances that would limit, decrease, or adversely impact any policies, procedures, standards, rules, or ordinances in effect on April 22, 1999, that provided greater protection concerning the use of restraint than is set forth in this article.

Exclusionary Discipline: Suspension, Expulsion, and Alternative Placement

Grounds for Suspension or Expulsion

LAWS

(1) Definitions. As used in this section, unless the context otherwise requires:

(a) "Action taken" means a specific type of discipline, including but not limited to the following categories of discipline:

(I) Out-of-school suspension;

(II) Classroom removal in accordance with board policy;

(IV) Expulsion;

(2) Safe school plan.

The plan, at a minimum, shall include the following:

(a) Conduct and discipline code.

(I) A concisely written conduct and discipline code that shall be enforced uniformly, fairly, and consistently for all students. Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:

(C) Provisions for the initiation of suspension or expulsion proceedings for students who qualify as habitually disruptive students;

(E) General policies and procedures for determining the circumstances under which disciplinary actions, including suspension and expulsion, shall be imposed in accordance with the provisions of sections 22-33-105 and 22-33-106;

22-33-105. Suspension, expulsion, and denial of admission.

(5)(a) Whenever a petition filed in juvenile court alleges that a child at least twelve years of age but under eighteen years of age has committed an offense that would constitute unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S., or a crime of violence, as defined in section 18-1.3-406, C.R.S., if committed by an adult whenever charges filed in district court allege that a child has committed such an offense, basic identifying information concerning such child and the details of the alleged delinquent act or offense shall be provided immediately to the school district in which the child is enrolled in accordance with the provisions of section 19-1-304 (5), C.R.S. Upon receipt of such information, the board of education of the school district or its designee shall determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or of school personnel in the school and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for
students, teachers, and other school personnel. The determination may be made in executive session to
the extent allowed by section 24-6-402 (4)(h), C.R.S. If the board of education or its designee, in
accordance with the provisions of this subsection (5), makes a determination that the student should not
be educated in the school, it may proceed with suspension or expulsion in accordance with subsection (2)
of this section and section 22-33-106. Alternatively, the board of education or its designee may determine
that it will wait until the conclusion of the juvenile proceedings to consider the expulsion matter, in which
case it shall be the responsibility of the district to provide the student with an appropriate alternate
education program, including but not limited to an on-line program or on-line school authorized pursuant
to article 30.7 of this title, or a home-based education program during the period pending the resolution of
the juvenile proceedings. Information made available to the school district and not otherwise available to
the public pursuant to the provisions of section 19-1-304, C.R.S., shall remain confidential.

(b) No student who is being educated in an alternate education program or a home-based education
program pursuant to paragraph (a) of this subsection (5) shall be allowed to return to the education
program in the public school until there has been a disposition of the charge. If the student pleads
guilty, is found guilty, or is adjudicated a delinquent juvenile, the school district may proceed in
accordance with section 22-33-106 to expel the student. The time that a student spends in an alternate
education program pursuant to paragraph (a) of this subsection (5) shall not be considered a period of
expulsion.

22-33-106. Grounds for suspension, expulsion, and denial of admission.
(1) The following may be grounds for suspension or expulsion of a child from a public school during a
school year:

(a) Continued willful disobedience or open and persistent defiance of proper authority;

(b) Willful destruction or defacing of school property;

(c) Behavior on or off school property that is detrimental to the welfare or safety of other pupils or of
school personnel, including behavior that creates a threat of physical harm to the child or to other
children; except that, if the child who creates the threat is a child with a disability pursuant to section 22-
20-103 (5), the child may not be expelled if the actions creating the threat are a manifestation of the
child's disability. However, the child shall be removed from the classroom to an appropriate alternative
setting within the district in which the child is enrolled for a length of time that is consistent with federal
law, during which time the school in which the student is enrolled shall give priority to and arrange
within ten days for a reexamination of the child's individualized education program to amend his or her
program as necessary to ensure that the needs of the child are addressed in a more appropriate
manner or setting that is less disruptive to other students and is in accordance with the provisions of
article 20 of this title. Nothing in this paragraph (c) shall be construed to limit a school district's authority
to suspend a child with a disability for a length of time that is consistent with federal law.

(c.5)(I) Declaration as a habitually disruptive student.

(II) For purposes of this paragraph (c.5), "habitually disruptive student" means a child who has caused
a material and substantial disruption on school grounds, in a school vehicle, or at a school activity or
sanctioned event three or more times during the course of a school year. Any student who is enrolled
in a public school may be subject to being declared a habitually disruptive student.

(III) The student and the parent, legal guardian, or legal custodian shall have been notified in writing
of each disruption counted toward declaring the student as habitually disruptive pursuant to this
paragraph (c.5), and the student and parent, legal guardian, or legal custodian shall have been
notified in writing and by telephone or other means at the home or the place of employment of the
parent or legal guardian of the definition of "habitually disruptive student".

(IV) (Deleted by amendment, L. 2000, p. 1971, § 12, effective June 2, 2000.)
(d) Committing one of the following offenses on school grounds, in a school vehicle, or at a school activity or sanctioned event:

(I) Possession of a dangerous weapon without the authorization of the school or the school district;
(II) The use, possession, or sale of a drug or controlled substance as defined in section 18-18-102 (5), C.R.S.; or
(III) The commission of an act that, if committed by an adult, would be robbery pursuant to part 3 of article 4 of title 18, C.R.S., or assault pursuant to part 2 of article 3 of title 18, C.R.S., other than the commission of an act that would be third degree assault under section 18-3-204, C.R.S., if committed by an adult.

(e) Repeated interference with a school's ability to provide educational opportunities to other students.

(f) Carrying, using, actively displaying, or threatening with the use of a firearm facsimile that could reasonably be mistaken for an actual firearm in a school building or in or on school property. Each school district shall develop a policy that shall authorize a student to carry, bring, use, or possess a firearm facsimile on school property for either a school-related or a nonschool-related activity. Such policy shall also consider student violations under this section on a case-by-case basis using the individual facts and circumstances to determine whether suspension, expulsion, or any other disciplinary action, if any, is necessary.

(g) Pursuant to section 22-12-105 (3), making a false accusation of criminal activity against an employee of an educational entity to law enforcement authorities or school district officials or personnel.

(1.2) Each school district is encouraged to consider each of the following factors before suspending or expelling a student pursuant to a provision of subsection (1) of this section:

(a) The age of the student;
(b) The disciplinary history of the student;
(c) Whether the student has a disability;
(d) The seriousness of the violation committed by the student;
(e) Whether the violation committed by the student threatened the safety of any student or staff member; and
(f) Whether a lesser intervention would properly address the violation committed by the student.

(1.5) Notwithstanding any other provision of law, in accordance with the provisions of 20 U.S.C. sec. 7961, a student who is determined to have brought a firearm to a school, or to have possessed a firearm at a school, shall be expelled for a period of not less than one year; except that the superintendent of the student's school district may modify this requirement for a student on a case-by-case basis if such modification is in writing.

(2) Subject to the district's responsibilities under article 20 of this title, the following may be grounds for expulsion from or denial of admission to a public school, or diversion to an appropriate alternate program:

(a) Physical or mental disability such that the child cannot reasonably benefit from the programs available;
(b) Physical or mental disability or disease causing the attendance of the child suffering therefrom to be inimical to the welfare of other pupils.

(3) The following may constitute additional grounds for denial of admission to a public school:

(a) Graduation from the twelfth grade of any school or receipt of any document evidencing completion of the equivalent of a secondary curriculum;
(b) Failure to meet the requirements of age, by a child who has reached the age of six at a time after
the beginning of the school year, as fixed by the board of education of the district in which the child
applies for enrollment, as provided in section 22-1-115;

(c) Having been expelled from any school district during the preceding twelve months;

(d) Not being a resident of the district, unless otherwise entitled to attend under the provisions of article
23, 32, or 36 of this title;

(e) Failure to comply with the provisions of part 9 of article 4 of title 25, C.R.S. Any suspension,
expulsion, or denial of admission for such failure to comply shall not be recorded as a disciplinary action
but may be recorded with the student's immunization record with an appropriate explanation.

(f) Behavior in another school district during the preceding twelve months that is detrimental to the
welfare or safety of other pupils or of school personnel.

(4)(a) Except as provided in paragraph (b) of this subsection (4), a school district shall prohibit any
student who is expelled from a public school of the school district pursuant to paragraph (c) or (d) of
subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in
the same school in which the victim of the offense or member of a victim's immediate family is enrolled or
employed. If the school district has no actual knowledge of the name of the victim of the offense for which
the student was expelled, the provisions of this subsection (4) shall be implemented only upon request of
the victim or a member of the victim's immediate family.

(b) In any school district that has only one school in which the expelled student can enroll, the school
district shall either:

(I) Prohibit the student expelled from the school district pursuant to paragraph (c) or (d) of subsection
(1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in the
same school in which the victim of the offense or member of a victim's immediate family is enrolled or
employed; or

(II) Design a schedule for the expelled student that, to the extent possible, avoids contact between the
expelled student and the victim or a member of the victim's immediate family.

(c) The provisions of this subsection (4) shall not apply to an offense that constitutes a crime against
property.

(d) The provisions of this subsection (4) shall apply only if the expelled student is convicted, is
adjudicated a juvenile delinquent, receives a deferred judgment, or is placed in a diversion program as
a result of committing the offense for which the student was expelled. Prior to implementation of the
provisions of this subsection (4), the school district shall contact the appropriate court to determine
whether the provisions of this subsection (4) apply to an expelled student. The school district shall be
authorized by the provisions of section 19-1-303 (1)(b), C.R.S., to obtain such information.

(e)(I) Notwithstanding any other provision of law to the contrary, any county or district court shall have
original concurrent jurisdiction to issue a temporary or permanent civil restraining order that enjoins the
expelled student from enrolling or reenrolling in the same school in which the victim of the offense or
member of a victim's immediate family is enrolled or employed.

(II) A motion for a temporary civil restraining order pursuant to this paragraph (e) shall be set for
hearing, which hearing shall be ex parte, at the earliest possible time and shall take precedence over
all matters except those matters of the same character that have been on the court docket for a
longer period of time. The court shall hear all such motions as expeditiously as possible.

22-33-106.1. Suspension - expulsion - preschool through second grade - definitions.

(1) As used in this section, unless the context otherwise requires:
(a) "Charter school" means a charter school that is authorized by a school district board of education pursuant to part 1 of article 30.5 of this title 22 or an institute charter school that is authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(b) "Enrolling entity" means:

(I) A community-based preschool program that includes students who are funded through the "Colorado Preschool Program Act", article 28 of this title 22, or students who are funded with state or federal money to educate children with disabilities;

(II) A school district; or

(III) A charter school.

(2) Notwithstanding any provision of this article 33 to the contrary, an enrolling entity may impose an out-of-school suspension or expel a student enrolled in preschool, kindergarten, first grade, or second grade only if:

(a) The enrolling entity determines that the student has engaged in conduct on school grounds, in a school vehicle, or at a school activity or sanctioned event that:

(I) Involves the possession of a dangerous weapon without the authorization of the public school or enrolling entity, if different;

(II) Involves the use, possession, or sale of a drug or controlled substance, as defined in section 18-18-102 (5); or

(III) Endangers the health or safety of others;

(b) The enrolling entity determines that failure to remove the student from the school building would create a safety threat that cannot otherwise be addressed; and

(c) The enrolling entity, on a case-by-case basis, considers each of the factors set forth in section 22-33-106 (1.2) before suspending or expelling the student. The enrolling entity shall document any alternative behavioral and disciplinary interventions that it employs before suspending or expelling the student.

(3) If an enrolling entity imposes an out-of-school suspension on a student who meets the criteria specified in subsection (2) of this section, the out-of-school suspension shall not exceed three school days unless the executive officer or chief administrative officer of the enrolling entity, or designee of either, determines that a longer period of suspension is necessary to resolve the safety threat or recommends that the student be expelled in accordance with section 22-33-105 (2)(c).

(4) This section does not prevent an enrolling entity from excluding, removing, or disenrolling a student for reasons unrelated to student discipline.

(5) For purposes of this section, if an enrolling entity requests that a parent remove a child for disciplinary reasons from the school grounds for any length of time during a school day, the request constitutes a suspension and is subject to the requirements of this section.

(6) The state board shall annually review the data concerning the number of students who are suspended or expelled pursuant to this section and, if available, the reasons for the suspensions and expulsions.

22-33-106.5. Information concerning offenses committed by students.

(2) Upon adjudication or conviction of a person under the age of eighteen years for an offense that constitutes a crime of violence, as defined in section 18-1.3-406, C.R.S., or for an offense involving
controlled substances, or, for a person under eighteen years of age but at least twelve years of age, for an offense that would constitute unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S., if committed by an adult the adjudicating or convicting court shall notify the school district in which the person is enrolled of the person's adjudication or conviction.

22-33-105. Suspension, expulsion, and denial of admission.
(1) No child who has attained the age of six years and is under the age of twenty-one shall be suspended or expelled from or be denied admission to the public schools, except as provided by this article. (3)(d) The suspending authority shall:
(II) Not extend a period of suspension because of the failure of the suspending authority to meet with the parent, guardian, or legal custodian during the period of suspension.

22-33-106. Grounds for suspension, expulsion, and denial of admission.
(1) The following may be grounds for suspension or expulsion of a child from a public school during a school year:
(a) Continued willful disobedience or open and persistent defiance of proper authority;
(b) Willful destruction or defacing of school property;
(c) Behavior on or off school property that is detrimental to the welfare or safety of other pupils or of school personnel, including behavior that creates a threat of physical harm to the child or to other children; except that, if the child who creates the threat is a child with a disability pursuant to section 22-20-103 (5), the child may not be expelled if the actions creating the threat are a manifestation of the child's disability. However, the child shall be removed from the classroom to an appropriate alternative setting within the district in which the child is enrolled for a length of time that is consistent with federal law, during which time the school in which the student is enrolled shall give priority to and arrange within ten days for a reexamination of the child's individualized education program to amend his or her program as necessary to ensure that the needs of the child are addressed in a more appropriate manner or setting that is less disruptive to other students and is in accordance with the provisions of article 20 of this title. Nothing in this paragraph (c) shall be construed to limit a school district's authority to suspend a child with a disability for a length of time that is consistent with federal law.
(c.5)(I) Declaration as a habitually disruptive student.
(II) For purposes of this paragraph (c.5), "habitually disruptive student" means a child who has caused a material and substantial disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event three or more times during the course of a school year. Any student who is enrolled in a public school may be subject to being declared a habitually disruptive student.
(III) The student and the parent, legal guardian, or legal custodian shall have been notified in writing of each disruption counted toward declaring the student as habitually disruptive pursuant to this paragraph (c.5), and the student and parent, legal guardian, or legal custodian shall have been notified in writing and by telephone or other means at the home or the place of employment of the parent or legal guardian of the definition of "habitually disruptive student".
(IV)(Deleted by amendment, L. 2000, p. 1971, § 12, effective June 2, 2000.)

(I) Possession of a dangerous weapon without the authorization of the school or the school district;

(II) The use, possession, or sale of a drug or controlled substance as defined in section 18-18-102 (5), C.R.S.; or

(III) The commission of an act that, if committed by an adult, would be robbery pursuant to part 3 of article 4 of title 18, C.R.S., or assault pursuant to part 2 of article 3 of title 18, C.R.S., other than the commission of an act that would be third degree assault under section 18-3-204, C.R.S., if committed by an adult.

(e) Repeated interference with a school's ability to provide educational opportunities to other students.

(f) Carrying, using, actively displaying, or threatening with the use of a firearm facsimile that could reasonably be mistaken for an actual firearm in a school building or in or on school property. Each school district shall develop a policy that shall authorize a student to carry, bring, use, or possess a firearm facsimile on school property for either a school-related or a nonschool-related activity. Such policy shall also consider student violations under this section on a case-by-case basis using the individual facts and circumstances to determine whether suspension, expulsion, or any other disciplinary action, if any, is necessary.

(g) Pursuant to section 22-12-105 (3), making a false accusation of criminal activity against an employee of an educational entity to law enforcement authorities or school district officials or personnel.

(1.2) Each school district is encouraged to consider each of the following factors before suspending or expelling a student pursuant to a provision of subsection (1) of this section:

(a) The age of the student;

(b) The disciplinary history of the student;

(c) Whether the student has a disability;

(d) The seriousness of the violation committed by the student;

(e) Whether the violation committed by the student threatened the safety of any student or staff member; and

(f) Whether a lesser intervention would properly address the violation committed by the student.

(1.5) Notwithstanding any other provision of law, in accordance with the provisions of 20 U.S.C. sec. 7961, a student who is determined to have brought a firearm to a school, or to have possessed a firearm at a school, shall be expelled for a period of not less than one year; except that the superintendent of the student's school district may modify this requirement for a student on a case-by-case basis if such modification is in writing.

(2) Subject to the district's responsibilities under article 20 of this title, the following may be grounds for expulsion from or denial of admission to a public school, or diversion to an appropriate alternate program:

(a) Physical or mental disability such that the child cannot reasonably benefit from the programs available;

(b) Physical or mental disability or disease causing the attendance of the child suffering therefrom to be inimical to the welfare of other pupils.

(3) The following may constitute additional grounds for denial of admission to a public school:

(a) Graduation from the twelfth grade of any school or receipt of any document evidencing completion of the equivalent of a secondary curriculum;
(b) Failure to meet the requirements of age, by a child who has reached the age of six at a time after the beginning of the school year, as fixed by the board of education of the district in which the child applies for enrollment, as provided in section 22-1-115;

(c) Having been expelled from any school district during the preceding twelve months;

(d) Not being a resident of the district, unless otherwise entitled to attend under the provisions of article 23, 32, or 36 of this title;

(e) Failure to comply with the provisions of part 9 of article 4 of title 25, C.R.S. Any suspension, expulsion, or denial of admission for such failure to comply shall not be recorded as a disciplinary action but may be recorded with the student's immunization record with an appropriate explanation.

(f) Behavior in another school district during the preceding twelve months that is detrimental to the welfare or safety of other pupils or of school personnel.

(4)(a) Except as provided in paragraph (b) of this subsection (4), a school district shall prohibit any student who is expelled from a public school of the school district pursuant to paragraph (c) or (d) of subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed. If the school district has no actual knowledge of the name of the victim of the offense for which the student was expelled, the provisions of this subsection (4) shall be implemented only upon request of the victim or a member of the victim's immediate family.

(b) In any school district that has only one school in which the expelled student can enroll, the school district shall either:

(I) Prohibit the student expelled from the school district pursuant to paragraph (c) or (d) of subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed; or

(II) Design a schedule for the expelled student that, to the extent possible, avoids contact between the expelled student and the victim or a member of the victim's immediate family.

(c) The provisions of this subsection (4) shall not apply to an offense that constitutes a crime against property.

(d) The provisions of this subsection (4) shall apply only if the expelled student is convicted, is adjudicated a juvenile delinquent, receives a deferred judgment, or is placed in a diversion program as a result of committing the offense for which the student was expelled. Prior to implementation of the provisions of this subsection (4), the school district shall contact the appropriate court to determine whether the provisions of this subsection (4) apply to an expelled student. The school district shall be authorized by the provisions of section 19-1-303 (1)(b), C.R.S., to obtain such information.

(e)(I) Notwithstanding any other provision of law to the contrary, any county or district court shall have original concurrent jurisdiction to issue a temporary or permanent civil restraining order that enjoins the expelled student from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed.

(II) A motion for a temporary civil restraining order pursuant to this paragraph (e) shall be set for hearing, which hearing shall be ex parte, at the earliest possible time and shall take precedence over all matters except those matters of the same character that have been on the court docket for a longer period of time. The court shall hear all such motions as expeditiously as possible.

22-33-106.1. Suspension - expulsion - preschool through second grade - definitions.

(1) As used in this section, unless the context otherwise requires:
(a) "Charter school" means a charter school that is authorized by a school district board of education pursuant to part 1 of article 30.5 of this title 22 or an institute charter school that is authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(b) "Enrolling entity" means:

(I) A community-based preschool program that includes students who are funded through the "Colorado Preschool Program Act", article 28 of this title 22, or students who are funded with state or federal money to educate children with disabilities;

(II) A school district; or

(III) A charter school.

(2) Notwithstanding any provision of this article 33 to the contrary, an enrolling entity may impose an out-of-school suspension or expel a student enrolled in preschool, kindergarten, first grade, or second grade only if:

(a) The enrolling entity determines that the student has engaged in conduct on school grounds, in a school vehicle, or at a school activity or sanctioned event that:

(I) Involves the possession of a dangerous weapon without the authorization of the public school or enrolling entity, if different;

(II) Involves the use, possession, or sale of a drug or controlled substance, as defined in section 18-18-102 (5); or

(III) Endangers the health or safety of others;

(b) The enrolling entity determines that failure to remove the student from the school building would create a safety threat that cannot otherwise be addressed; and

(c) The enrolling entity, on a case-by-case basis, considers each of the factors set forth in section 22-33-106 (1.2) before suspending or expelling the student. The enrolling entity shall document any alternative behavioral and disciplinary interventions that it employs before suspending or expelling the student.

(3) If an enrolling entity imposes an out-of-school suspension on a student who meets the criteria specified in subsection (2) of this section, the out-of-school suspension shall not exceed three school days unless the executive officer or chief administrative officer of the enrolling entity, or designee of either, determines that a longer period of suspension is necessary to resolve the safety threat or recommends that the student be expelled in accordance with section 22-33-105 (2)(c).

(4) This section does not prevent an enrolling entity from excluding, removing, or disenrolling a student for reasons unrelated to student discipline.

(5) For purposes of this section, if an enrolling entity requests that a parent remove a child for disciplinary reasons from the school grounds for any length of time during a school day, the request constitutes a suspension and is subject to the requirements of this section.

(6) The state board shall annually review the data concerning the number of students who are suspended or expelled pursuant to this section and, if available, the reasons for the suspensions and expulsions.

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit
organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

22-33-204.5. Legislative declaration.
The general assembly finds that a student who is placed in a residential child care facility or other facility licensed by the department of human services or in a hospital or who is receiving educational services through a day treatment center is, in most cases, dealing with significant behavioral and emotional issues. These issues make it difficult, if not impossible, for the student to function within a regular school and often severely impact the student's ability to participate in a facility school. The general assembly further finds that, although a student who is placed in a facility cannot be expelled due to the nature of the placement, the student is at risk of being unable to prosper academically and should be considered an at-risk student for purposes of section 22-33-205.

Due Process

LAWS

(2) Safe school plan.
(a) Conduct and discipline code.
(I)(B) General policies and procedures for dealing with students who cause a disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event, including a specific policy allowing a teacher to remove a disruptive student from his or her classroom. The policy shall state that, upon the third such removal from a teacher's class, the teacher may remove the disruptive student from the teacher's class for the remainder of the term of the class; except that a disruptive student shall not be removed from a teacher's class for the remainder of the term of the class unless the principal of the student's school or his or her designee has developed and implemented a behavior plan for the student. A behavior plan may be developed after the first such removal from class and shall be developed after the second removal from class. The general policies and procedures shall include a due process procedure, which at a minimum shall require that, as soon as possible after a removal, the teacher or the school principal shall contact the parent or legal guardian of the student to request his or her attendance at a student-teacher conference regarding the removal. Any policy or procedure adopted shall comply with applicable federal and state laws, including but not limited to laws regarding students with disabilities.

22-33-105. Suspension, expulsion, and denial of admission.
(2) In addition to the powers provided in section 22-32-110, the board of education of each district may:
(c) Deny admission to, or expel for any period not extending beyond one year, any child whom the board of education, in accordance with the limitations imposed by this article, shall determine does not qualify for admission to, or continued attendance at, the public schools of the district. A board of education may delegate such powers to its executive officer or to a designee who shall serve as a hearing officer. If the hearing is conducted by a designee acting as a hearing officer, the hearing officer shall forward findings of fact and recommendations to the executive officer at the conclusion of the
hearing. The executive officer shall render a written opinion within five days after a hearing conducted
by the executive officer or by a hearing officer. The executive officer shall report on each case acted
upon at the next meeting of the board of education, briefly describing the circumstances and the
reasons for the executive officer's action. A child who is denied admission or expelled as an outcome of
the hearing shall have ten days after the denial of admission or expulsion to appeal the decision of the
executive officer to the board of education, after which time the decision to grant or deny the appeal
shall be at the discretion of the board of education. The appeal shall consist of a review of the facts that
were presented and that were determined at the hearing conducted by the executive officer or by a
designee acting as a hearing officer, arguments relating to the decision, and questions of clarification
from the board of education. No board of education shall deny admission to, or expel, any child without
a hearing, if one is requested by the parent, guardian, or legal custodian of the child, at which evidence
may be presented in the child's behalf. If the child is denied admission or expelled, the child shall be
entitled to a review of the decision of the board of education in accordance with section 22-33-108
(3)(c) A pupil suspended for a period of ten days or less shall receive an informal hearing by the school
principal or the principal's designee prior to the pupil's removal from school, unless an emergency
requires immediate removal from school, in which case an informal hearing shall follow as soon after the
pupil's removal as practicable. Any pupil suspended for more than ten days shall be given the opportunity
to request a review of the suspension before an appropriate official of the school district.

22-33-106. Grounds for suspension, expulsion, and denial of admission.
(4)(a) Except as provided in paragraph (b) of this subsection (4), a school district shall prohibit any
student who is expelled from a public school of the school district pursuant to paragraph (c) or (d) of
subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in
the same school in which the victim of the offense or member of a victim's immediate family is enrolled or
employed. If the school district has no actual knowledge of the name of the victim of the offense for which
the student was expelled, the provisions of this subsection (4) shall be implemented only upon request of
the victim or a member of the victim's immediate family. [...] 

(e)(I) Notwithstanding any other provision of law to the contrary, any county or district court shall have
original concurrent jurisdiction to issue a temporary or permanent civil restraining order that enjoins the
expelled student from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed.

(II) A motion for a temporary civil restraining order pursuant to this paragraph (e) shall be set for
hearing, which hearing shall be ex parte, at the earliest possible time and shall take precedence over
all matters except those matters of the same character that have been on the court docket for a
longer period of time. The court shall hear all such motions as expeditiously as possible.

22-33-106.3. Disciplinary investigations - parental presence - student statements.
(1) A public school employee shall not use a student's statement concerning an act alleged to have been
committed by the student that results in mandatory expulsion pursuant to section 22-33-106 (1)(d), in the
expulsion hearing, unless the statement is signed by the student and a parent, guardian, or legal or
physical custodian is present when the student signs the statement or admission or a reasonable attempt
was made to contact the parent, guardian, or legal or physical custodian to have the parent, guardian, or
legal or physical custodian present when the student signed the statement. The school shall be deemed
to have made a reasonable attempt to contact the parent, guardian, or legal or physical custodian if the
school calls each of the phone numbers the parent, guardian, or legal or physical custodian provides to
the school and all phone numbers the student provides to the school for the parent, guardian, or legal or
physical custodian.
(2) Notwithstanding the provisions of subsection (1) of this section, the student and his or her parent, guardian, or legal or physical custodian may expressly waive the requirement that the parent, guardian, or legal or physical custodian be present when a student signs a statement or admission. This express waiver shall be in writing and shall be obtained only after full advisement of the student and his or her parent, guardian, or legal or physical custodian of the student's rights prior to the signing of the statement or admission by the student.

(3) The requirements of subsection (1) of this section shall not apply if the student makes any deliberate misrepresentations affecting the applicability or requirements of this section and a school official, acting in good faith and in reasonable reliance on such deliberate misrepresentation, obtains a signed statement or admission of the student that does not comply with the requirements of subsection (1) of this section.

(4) Nothing in this section shall be construed to prevent or interfere with a fact-finding or information-gathering investigation by a school or school employee.

(2) If a child or his parent desires court review of an order of the board of education issued pursuant to this article, he shall notify the board in writing within five days after receiving official notification of the board's action. The board of education shall thereupon issue, or cause to be issued, to the child or his parent a statement of the reasons for the board's action. Within ten days thereafter the child or his parents may file with the court a petition requesting that the order of the board of education be set aside, to which shall be appended the statement of the board of education. No docket or other fees shall be collected by the court in connection with this proceeding.

(3) After the petition is filed, the court shall notify the board and shall hold a hearing on the matter. The court shall conduct judicial review of a hearing decision pursuant to rule 106 (a)(4) of the Colorado rules of civil procedure and rule 3.8 of the Colorado rules of juvenile procedure.

(4) It is the duty of the attorney for the school district, an employee authorized by the local board of education pursuant to section 13-1-127 (7), C.R.S., to represent the school district in truancy proceedings, the attendance officer designated by the local board of education, or the local board of education to initiate, when appropriate, proceedings for the enforcement of the compulsory attendance provisions of this article upon request by the attendance officer of the district or of the state.

(5)(a) It is the intent of the general assembly that, in enforcing the compulsory school attendance requirements of this article, a school district shall employ best practices and research-based strategies to minimize the need for court action and the risk that a court will issue detention orders against a child or parent.

(b) A school district shall initiate court proceedings to compel a child and the child's parent to comply with the attendance requirements specified in this article but only as a last-resort approach to address the child's truancy and only if a child continues to be habitually truant after school or school district personnel have created and implemented a plan pursuant to section 22-33-107 (3) to improve the child's school attendance.

(c) Before initiating court proceedings to compel compliance with the attendance requirements specified in this article, the school district shall give the child and the child's parent written notice that the school district will initiate proceedings if the child does not comply with the attendance requirements of this article. The school district may combine the notice and summons. If combined, the petition must state the date on which the school district will initiate proceedings, which date must not be less than five days after the date of the notice and summons. The notice must state the provisions of this article with which compliance is required and must state that the school district will not initiate proceedings if the child complies with the identified provisions before the proceedings are filed.
If a school district initiates court proceedings pursuant to this subsection (5), the school district, at a minimum, must submit to the court evidence of:

(I) The child's attendance record prior to and after the point at which the child was identified as habitually truant;

(II) Whether the child was identified as chronically absent and, if so, the strategies the school district used to improve the child's attendance;

(III) The interventions and strategies used to improve the child's attendance before school or school district personnel created the child's plan described in section 22-33-107 (3); and

(IV) The child's plan and the efforts of the child, the child's parent, and school or school district personnel to implement the plan.

The court before which a proceeding to compel attendance is brought may issue, in its discretion, an order against the child or the child's parent or both compelling the child to attend school as provided by this article or compelling the parent to take reasonable steps to assure the child's attendance. The order must require the child and parent to cooperate with the school district in complying with the plan created for the child pursuant to section 22-33-107 (3).

(a) If the child or youth does not comply with the valid court order issued against the child or youth or against both the parent and the child or youth, the court may order that an assessment for neglect as described in section 19-3-102 (1) be conducted as provided in section 19-3-501. In addition, the court may order the child or youth to show cause why he or she should not be held in contempt of court. When instituting contempt of court proceedings pursuant to this subsection (7), the court shall provide all procedural protections mandated in rule 107 of the Colorado rules of civil procedure, or any successor rule, concerning punitive sanctions for contempt.

A judge or magistrate of any court may issue a warrant that authorizes the taking into temporary custody of a child or youth who has failed to appear for a court hearing for a truancy or contempt action; except that any such warrant must provide for release of the child or youth from temporary custody on an unsecured personal recognizance bond that is cosigned by the child's or youth's parent or legal guardian or, if the child or youth is in the custody of the department of human services, cosigning may be accomplished by a representative of the department of human services. In the alternative, the warrant may direct that the child or youth must only be arrested while court is in session and that he or she be taken directly to court for an appearance rather than booked into secure confinement.

The court may impose sanctions after a finding of contempt that may include, but need not be limited to, community service to be performed by the child or youth, supervised activities, participation in services for at-risk students, as described by section 22-33-204, and other activities having the goal of ensuring that the child or youth has an opportunity to obtain a quality education.

If the court finds that the child or youth has refused to comply with the plan created for the child or youth pursuant to section 22-33-107 (3), the court may impose on the child or youth, as a sanction for contempt of court, a sentence of detention for no more than forty-eight hours in a juvenile detention facility operated by or under contract with the department of human services pursuant to section 19-2-402 and any rules promulgated by the Colorado supreme court. The court shall not sentence a child or youth to detention as a sanction for contempt of court unless the court finds that detention is in the best interest of the child or youth as well as the public. In making such a finding, the court shall consider the following factors, including that:

(A) The child or youth has violated a valid court order;

(B) National and Colorado-specific evidence shows that detaining children and youth for truancy alone is counterproductive and harmful to children and youth;
(C) The legislative intent is that a child or youth who is truant must not be placed in secure confinement for truancy alone;

(D) Detention is likely to have a detrimental effect on the child's or youth's school attendance; and

(E) Detention is likely to have an effect on the child's or youth's future involvement with the criminal justice system.

(II) There is a rebuttable presumption that a child or youth must receive credit for time served if he or she is sentenced to detention pursuant to subsection (7)(c)(I) of this section for violating a valid court order to attend school. If the court rebuts this presumption, it shall explain its reasoning on the record.

(8) If the parent refuses or neglects to obey the order issued against the parent or against both the parent and the child, the court may order the parent to show cause why he or she should not be held in contempt of court, and, if the parent fails to show cause, the court may impose a fine of up to but not more than twenty-five dollars per day or confine the parent in the county jail until the order is complied with.

LAWS

22-33-105. Suspension, expulsion, and denial of admission.

(3)(b) Except as provided in paragraph (c) of this subsection (3), a suspended pupil shall:

(II) Not be readmitted to a public school until a meeting between the parent, guardian, or legal custodian and the suspending authority has taken place or until, in the discretion of the suspending authority, the parent, guardian, or legal custodian of the suspended pupil has substantially agreed to review the suspension with such suspending authority; except that, if the suspending authority cannot contact the parent, guardian, or legal custodian of such pupil or if such parent, guardian, or legal custodian repeatedly fails to appear for scheduled meetings, the suspending authority may readmit the pupil. The meeting shall address whether there is a need to develop a remedial discipline plan for the pupil in an effort to prevent further disciplinary action.

(d) The suspending authority shall:

(III) Provide an opportunity for a pupil to make up school work during the period of suspension for full or partial academic credit to the extent possible. The intent of this provision is to provide an opportunity for the pupil to reintegrate into the educational program of the district and to help prevent the pupil from dropping out of school because of an inability to reintegrate into the educational program following the period of suspension. The school district should take this intent into consideration when determining the amount of credit a student will receive for this makeup work.

(5)(b) No student who is being educated in an alternate education program or a home-based education program pursuant to paragraph (a) of this subsection (5) shall be allowed to return to the education program in the public school until there has been a disposition of the charge. If the student pleads guilty, is found guilty, or is adjudicated a delinquent juvenile, the school district may proceed in accordance with section 22-33-106 to expel the student. The time that a student spends in an alternate education program pursuant to paragraph (a) of this subsection (5) shall not be considered a period of expulsion.

LAWS

22-33-105. Suspension, expulsion, and denial of admission.
(5)(a) Whenever a petition filed in juvenile court alleges that a child at least twelve years of age but under eighteen years of age has committed an offense that would constitute unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S., or a crime of violence, as defined in section 18-1.3-406, C.R.S., if committed by an adult or whenever charges filed in district court allege that a child has committed such an offense, basic identification information concerning such child and the details of the alleged delinquent act or offense shall be provided immediately to the school district in which the child is enrolled in accordance with the provisions of section 19-1-304 (5), C.R.S. Upon receipt of such information, the board of education of the school district or its designee shall determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or of school personnel in the school and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The determination may be made in executive session to the extent allowed by section 24-6-402 (4)(h), C.R.S. If the board of education or its designee, in accordance with the provisions of this subsection (5), makes a determination that the student should not be educated in the school, it may proceed with suspension or expulsion in accordance with subsection (2) of this section and section 22-33-106. Alternatively, the board of education or its designee may determine that it will wait until the conclusion of the juvenile proceedings to consider the expulsion matter, in which case it shall be the responsibility of the district to provide the student with an appropriate alternate education program, including but not limited to an online program or online school authorized pursuant to article 30.7 of this title, or a home-based education program during the period pending the resolution of the juvenile proceedings. Information made available to the school district and not otherwise available to the public pursuant to the provisions of section 19-1-304, C.R.S., shall remain confidential.

(b) No student who is being educated in an alternate education program or a home-based education program pursuant to paragraph (a) of this subsection (5) shall be allowed to return to the education program in the public school until there has been a disposition of the charge. If the student pleads guilty, is found guilty, or is adjudicated a delinquent juvenile, the school district may proceed in accordance with section 22-33-106 to expel the student. The time that a student spends in an alternate education program pursuant to paragraph (a) of this subsection (5) shall not be considered a period of expulsion.

22-33-203. Educational alternatives for expelled students.
(1) Upon expelling a student, the school district shall provide information to the student's parent or guardian concerning the educational alternatives available to the student during the period of expulsion. If the parent or guardian chooses to provide a home-based educational program for the student, the school district shall assist the parent in obtaining appropriate curricula for the student if requested by the parent or guardian.

(2)(a) Except as otherwise provided in paragraph (b) of this subsection (2), upon request of a student or the student's parent or guardian, the school district shall provide, for any student who is expelled from the school district, any educational services that are deemed appropriate for the student by the school district. The educational services provided must be designed to enable the student to return to the school in which he or she was enrolled prior to expulsion, to successfully complete the high school equivalency examination, or to enroll in a nonpublic, nonparochial school or in an alternative school, including but not limited to a charter school or a pilot school established pursuant to article 38 of this title. The expelling
school district shall determine the amount of credit the student must receive toward graduation for the educational services provided pursuant to this section.

(b) The educational services provided pursuant to this section are designed to provide a second chance for the student to succeed in achieving an education. While receiving educational services, a student may be suspended or expelled pursuant to the conduct and discipline code of the school district providing the educational services and the provisions of part 1 of this article. Except as required by federal law, the expelling school district is not required to provide educational services to any student who is suspended or expelled while receiving educational services pursuant to this section until the period of the suspension or expulsion is completed.

(c)(I) Educational services provided pursuant to this section shall be provided by the expelling school district; except that the expelling school district may provide educational services either directly or in cooperation with one or more other school districts, boards of cooperative services, charter schools, nonpublic, nonparochial schools, or pilot schools established pursuant to article 38 of this title under contract with the expelling school district. Any program of educational services provided by a nonpublic, nonparochial school shall be subject to approval by the state board of education pursuant to section 22-2-107.

(II) Educational services may be provided by the school district through agreements entered into pursuant to section 22-33-204. The expelling school district need not provide the educational services on school district property. Any expelled student receiving educational services shall be included in the expelling school district's pupil enrollment as defined in section 22-54-103 (10).

(d) If an expelled student is receiving educational services delivered by a school district other than the expelling school district, by a charter school in a school district other than the expelling school district, by a board of cooperative services, by a nonpublic, nonparochial school, or by a pilot school pursuant to an agreement entered into pursuant to subparagraph (I) of paragraph (c) of this subsection (2), the expelling school district shall transfer ninety-five percent of the district per pupil revenues, as defined in section 22-30.5-112 (2)(a.5)(II) to the school district, charter school, nonpublic, nonparochial school, board of cooperative services, or pilot school that is providing educational services, reduced in proportion to the amount of time remaining in the school year at the time the student begins receiving educational services.

(e) Any school district, charter school, nonpublic, nonparochial school, board of cooperative services, or pilot school that is providing educational services to expelled students pursuant to this subsection (2) may apply for moneys through the expelled student services grant program established in section 22-33-205 to assist in providing educational services.

(3) If a student is expelled and the student is not receiving educational services pursuant to this section, the school district shall contact the expelled student's parent or guardian at least once every sixty days until the beginning of the next school year to determine whether the student is receiving educational services from some other source; except that the school district need not contact a student's parent or guardian after the student is enrolled in another school district or in an independent or parochial school or if the student is committed to the department of human services or is sentenced pursuant to ARTICLE 2.5 OF TITLE 19.

(4) In addition to the educational services required under this section, a student who is at risk of suspension or expulsion or has been suspended or expelled, or the student's parent or guardian, may request any of the services provided by the school district through an agreement entered into pursuant to section 22-33-204, and the school district may provide such services.
22-33-204. Services for at-risk students - agreements with state agencies and community organizations.

(1) Each school district, regardless of the number of students expelled by the district, may enter into agreements with appropriate local governmental agencies and, to the extent necessary, with the managing state agencies, including the department of human services and the department of public health and environment; with community-based nonprofit and faith-based organizations; with nonpublic, nonparochial schools; with the department of military and veterans affairs; and with public and private institutions of higher education to work with the student's parent or guardian to provide services to any student, or the student's family, who is identified as being at risk of suspension or expulsion or who has been suspended or expelled. Any services provided pursuant to an agreement with a nonpublic, nonparochial school are subject to approval by the state board of education pursuant to section 22-2-107. Services provided through such agreements may include, but are not limited to:

(a) Educational services required to be provided under section 22-33-203 (2) and any educational services provided to at-risk students identified pursuant to section 22-33-202;

(b) Counseling services;

(c) Substance use disorder treatment programs;

(d) Family preservation services.

(e) and (f)(Deleted by amendment, L. 98, p. 570, § 3, effective April 30, 1998.)

(2) At a minimum, each agreement entered into pursuant to this section shall specify the services to be provided under the agreement, the entity that will coordinate and oversee provision of the services, and the responsibilities of each entity entering into the agreement. In addition, each agreement shall require each entity entering into the agreement to contribute the services or funds for the provision of the services specified in the agreement. The agreement shall specify the services or the amount and source of funds that each entity will provide and the mechanism for providing said services or funds.

(3) Each school district shall use a portion of its per pupil revenues to provide services under agreements entered into pursuant to this section for each student who is at risk of suspension or expulsion or who is suspended or expelled. In addition, the school district may use federal moneys, moneys received from any other state appropriation, and moneys received from any other public or private grant to provide said services.

A public school may submit an application on its own, with approval from the Institute or local school board. Each request shall contain sufficient information to establish that the public school meets the requirements established by these rules. The application will include the selection of the evaluation measures described in section 3.05 of these rules, below.

3.03 On or before August 20 of each year, the State Board shall approve the designation as an Alternative Education Campus for any public school for which a request has been filed and that is found by the State Board to meet the requirements of these rules.

application with any relevant information, within ten (10) business days of the State Board’s initial determination. On or before September of each year, the State Board shall reconsider the public school’s designation as an Alternative Education Campus and shall issue a final determination on the matter.

3.05 The Department shall annually review the performance of each Alternative Education Campus based on the following indicators, and using the following measures:

If sufficient data on the Statewide Assessments is not available, or if the Alternative Education Campus provides sufficient rationale for why information in addition to the Statewide Assessment data is necessary, student achievement also shall be measured on an alternative standardized assessment selected by the Alternative Education Campus, agreed to by the local school board for that Alternative Education Campus or the Institute, whichever is applicable, and approved by the Department pursuant to section 3.08 of these rules. Assessments other than the Statewide Assessments must be aligned with the academic standards adopted by the local school board or Institute pursuant to § 22-7-1013;

3.05(B) Student longitudinal academic growth. Student longitudinal academic growth shall be measured on the Statewide Assessments, if sufficient data is available. Student engagement may include attendance rates, truancy rates, student re-engagement rate or other measures of student/parent attitude or behavior that promote positive educational outcomes.

3.06 The measures used to evaluate the performance of each Alternative Education Campus shall reflect the unique purposes of the campus and unique circumstances of and challenges that must be met by the students enrolled in the campus, as well as consider the statewide performance targets established pursuant to § 22-11-201, C.R.S. .

3.07 Prior to being evaluated, each Alternative Education Campus, after having received approval from its local school board or the Institute, whichever is applicable, shall submit the following to the Department for approval:

3.08 Department approval of the measures and targets used to evaluate the performance of each Alternative Education Campus shall be based on:

3.08(A) Whether the measures fairly evaluate the performance of the Alternative Education Campus based on the size and distinctive student population and mission of the school, and whether those measures can reasonably demonstrate successful changes in student attitudes, behaviors and performance;

3.08(B) Whether the targets are achievable but ambitious, and allow for evaluation of progress towards attainment on each of the indicators described in section 3.05 of these rules;

3.08(C) Whether the measures and targets reflect expectations established for students becoming postsecondary and workforce ready as described in Part 10 of Article 7 of Title 22 (the Preschool to Postsecondary Education Alignment Act) and § 22-2-136, C.R.S.;

3.08(D) Whether the measures and targets recognize and make appropriate use of well-established or widespread existing practices in education of High-Risk Students or subgroups of such students; and

3.08(E) Whether the measures and targets are based on data that will allow the Department to collect, evaluate, and, if needed, audit said data.

3.09 In evaluating the performance of each Alternative Education Campus, greatest emphasis shall be placed on student academic growth and postsecondary and workforce readiness.

3.10 Each August, the Department shall conduct a review of the performance of each Alternative Education Campus based on the school performance evaluation framework described in 1 CCR 301-1 and the performance evaluation framework described in section 3.05 of these rules. Following this annual review, the Department shall recommend to the Commissioner and the State Board whether the Alternative Education Campus shall adopt a performance, improvement, priority improvement, or turnaround plan, as said plans are described in § 22-11-403 to 22-11-406, C.R.S. Based on the recommendations, the State Board shall notify each Alternative Education Campus and its district school board or the Charter School Institute, if the Alternative Education Campus is an Institute Charter School, of the type of plan the Alternative Education Campus shall adopt. In adopting its plan, each Alternative Education Campus shall comply with the provisions of § 22-11-403 to 22-11-406, C.R.S., as applicable.

The burden of proving the violation shall
rest with the plaintiff and must be established by clear and convincing evidence to the court as part of a summary proceeding. Compliance with the provisions of this subsection (3) shall be a jurisdictional prerequisite to any action brought under the provisions of this article, and failure of compliance shall forever bar any such action.

(1) Definitions. As used in this section, unless the context otherwise requires:

(c) "Dangerous weapon" has the same meaning as set forth in section 22-33-102 (4).

(2) Safe school plan. [...] The plan, at a minimum, shall include the following:

Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:

(G) Written prohibition, consistent with section 22-33-106, of students from bringing or possessing dangerous weapons, drugs, or other controlled substances on school grounds, in a school vehicle, or at a school activity or sanctioned event and from using drugs or other controlled substances on school grounds, in a school vehicle, or at a school activity or sanctioned event;

A policy whereby the principal of each public school in a school district is required to submit annually, in a manner and by a date specified by rule of the state board, a written report to the board of education of the school district concerning the learning environment in the school during that school year. The board of education of the school district shall annually compile the reports from every school in the district and submit the compiled report to the department of education in a format specified by rule of the state board. The compiled report must be easily accessible by the general public through a link on the department of education's web site homepage. The report must include, but need not be limited to, the following specific information for the preceding school year:

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(1) The following may be grounds for suspension or expulsion of a child from a public school during a school year:

(a) Continued willful disobedience or open and persistent defiance of proper authority;

(b) Willful destruction or defacing of school property;

(c) Behavior on or off school property that is detrimental to the welfare or safety of other pupils or of school personnel, including behavior that creates a threat of physical harm to the child or to other children; except that, if the child who creates the threat is a child with a disability pursuant to section 22-20-103 (5), the child may not be expelled if the actions creating the threat are a manifestation of the child's disability. However, the child shall be removed from the classroom to an appropriate alternative setting within the district in which the child is enrolled for a length of time that is consistent with federal law, during which time the school in which the student is enrolled shall give priority to and arrange within ten days for a reexamination of the child's individualized education program to amend his or her program as necessary to ensure that the needs of the child are addressed in a more appropriate manner or setting that is less disruptive to other students and is in accordance with the provisions of article 20 of this title. Nothing in this paragraph (c) shall be construed to limit a school district's authority to suspend a child with a disability for a length of time that is consistent with federal law.

(c.5)(I) Declaration as a habitually disruptive student.

(II) For purposes of this paragraph (c.5), "habitually disruptive student" means a child who has caused a material and substantial disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event three or more times during the course of a school year. Any student who is enrolled in a public school may be subject to being declared a habitually disruptive student.

(III) The student and the parent, legal guardian, or legal custodian shall have been notified in writing of each disruption counted toward declaring the student as habitually disruptive pursuant to this paragraph (c.5), and the student and parent, legal guardian, or legal custodian shall have been notified in writing and by telephone or other means at the home or the place of employment of the parent or legal guardian of the definition of "habitually disruptive student".
(d) Committing one of the following offenses on school grounds, in a school vehicle, or at a school activity or sanctioned event:

(II) The use, possession, or sale of a drug or controlled substance as defined in section 18-18-102 (5), C.R.S.; or

(III) The commission of an act that, if committed by an adult, would be robbery pursuant to part 3 of article 4 of title 18, C.R.S., or assault pursuant to part 2 of article 3 of title 18, C.R.S., other than the commission of an act that would be third degree assault under section 18-3-204, C.R.S., if committed by an adult.

(e) Repeated interference with a school's ability to provide educational opportunities to other students.

(f) Carrying, using, actively displaying, or threatening with the use of a firearm facsimile that could reasonably be mistaken for an actual firearm in a school building or in or on school property. Each school district shall develop a policy that shall authorize a student to carry, bring, use, or possess a firearm facsimile on school property for either a school-related or a nonschool-related activity. Such policy shall also consider student violations under this section on a case-by-case basis using the individual facts and circumstances to determine whether suspension, expulsion, or any other disciplinary action, if any, is necessary.

(g) Pursuant to section 22-12-105 (3), making a false accusation of criminal activity against an employee of an educational entity to law enforcement authorities or school district officials or personnel.

(1.2) Each school district is encouraged to consider each of the following factors before suspending or expelling a student pursuant to a provision of subsection (1) of this section:

(a) The age of the student;

(b) The disciplinary history of the student;

(c) Whether the student has a disability;

(d) The seriousness of the violation committed by the student;

(e) Whether the violation committed by the student threatened the safety of any student or staff member; and

(f) Whether a lesser intervention would properly address the violation committed by the student.

(1.5) Notwithstanding any other provision of law, in accordance with the provisions of 20 U.S.C. sec. 7961, a student who is determined to have brought a firearm to a school, or to have possessed a firearm at a school, shall be expelled for a period of not less than one year; except that the superintendent of the student's school district may modify this requirement for a student on a case-by-case basis if such modification is in writing.

(2) Subject to the district's responsibilities under article 20 of this title, the following may be grounds for expulsion from or denial of admission to a public school, or diversion to an appropriate alternate program:

(a) Physical or mental disability such that the child cannot reasonably benefit from the programs available;

(b) Physical or mental disability or disease causing the attendance of the child suffering therefrom to be inimical to the welfare of other pupils.

(3) The following may constitute additional grounds for denial of admission to a public school:

(a) Graduation from the twelfth grade of any school or receipt of any document evidencing completion of the equivalent of a secondary curriculum;
(b) Failure to meet the requirements of age, by a child who has reached the age of six at a time after the beginning of the school year, as fixed by the board of education of the district in which the child applies for enrollment, as provided in section 22-1-115;

(c) Having been expelled from any school district during the preceding twelve months;

(d) Not being a resident of the district, unless otherwise entitled to attend under the provisions of article 23, 32, or 36 of this title;

(e) Failure to comply with the provisions of part 9 of article 4 of title 25, C.R.S. Any suspension, expulsion, or denial of admission for such failure to comply shall not be recorded as a disciplinary action but may be recorded with the student's immunization record with an appropriate explanation.

(f) Behavior in another school district during the preceding twelve months that is detrimental to the welfare or safety of other pupils or of school personnel.

(4)(a) Except as provided in paragraph (b) of this subsection (4), a school district shall prohibit any student who is expelled from a public school of the school district pursuant to paragraph (c) or (d) of subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed. If the school district has no actual knowledge of the name of the victim of the offense for which the student was expelled, the provisions of this subsection (4) shall be implemented only upon request of the victim or a member of the victim's immediate family.

(b) In any school district that has only one school in which the expelled student can enroll, the school district shall either:

(I) Prohibit the student expelled from the school district pursuant to paragraph (c) or (d) of subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed; or

(II) Design a schedule for the expelled student that, to the extent possible, avoids contact between the expelled student and the victim or a member of the victim's immediate family.

(c) The provisions of this subsection (4) shall not apply to an offense that constitutes a crime against property.

(d) The provisions of this subsection (4) shall apply only if the expelled student is convicted, is adjudicated a juvenile delinquent, receives a deferred judgment, or is placed in a diversion program as a result of committing the offense for which the student was expelled. Prior to implementation of the provisions of this subsection (4), the school district shall contact the appropriate court to determine whether the provisions of this subsection (4) apply to an expelled student. The school district shall be authorized by the provisions of section 19-1-303 (1)(b), C.R.S., to obtain such information.

(e)(I) Notwithstanding any other provision of law to the contrary, any county or district court shall have original concurrent jurisdiction to issue a temporary or permanent civil restraining order that enjoins the expelled student from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed.

(II) A motion for a temporary civil restraining order pursuant to this paragraph (e) shall be set for hearing, which hearing shall be ex parte, at the earliest possible time and shall take precedence over all matters except those matters of the same character that have been on the court docket for a longer period of time. The court shall hear all such motions as expeditiously as possible.

(1) As used in this section, unless the context otherwise requires:
(a) "Charter school" means a charter school that is authorized by a school district board of education pursuant to part 1 of article 30.5 of this title 22 or an institute charter school that is authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(b) "Enrolling entity" means:

(I) A community-based preschool program that includes students who are funded through the "Colorado Preschool Program Act", article 28 of this title 22, or students who are funded with state or federal money to educate children with disabilities;

(III) A charter school.

(2) Notwithstanding any provision of this article 33 to the contrary, an enrolling entity may impose an out-of-school suspension or expel a student enrolled in preschool, kindergarten, first grade, or second grade only if:

(I) Involves the possession of a dangerous weapon without the authorization of the public school or enrolling entity, if different;

(II) Involves the use, possession, or sale of a drug or controlled substance, as defined in section 18-18-102 (5); or

(III) Endangers the health or safety of others;

(b) The enrolling entity determines that failure to remove the student from the school building would create a safety threat that cannot otherwise be addressed; and

(c) The enrolling entity, on a case-by-case basis, considers each of the factors set forth in section 22-33-106 (1.2) before suspending or expelling the student. The enrolling entity shall document any alternative behavioral and disciplinary interventions that it employs before suspending or expelling the student.

(3) If an enrolling entity imposes an out-of-school suspension on a student who meets the criteria specified in subsection (2) of this section, the out-of-school suspension shall not exceed three school days unless the executive officer or chief administrative officer of the enrolling entity, or designee of either, determines that a longer period of suspension is necessary to resolve the safety threat or recommends that the student be expelled in accordance with section 22-33-105 (2)(c).

(4) This section does not prevent an enrolling entity from excluding, removing, or disenrolling a student for reasons unrelated to student discipline.

(5) For purposes of this section, if an enrolling entity requests that a parent remove a child for disciplinary reasons from the school grounds for any length of time during a school day, the request constitutes a suspension and is subject to the requirements of this section.

(6) The state board shall annually review the data concerning the number of students who are suspended or expelled pursuant to this section and, if available, the reasons for the suspensions and expulsions.

(II) A motion for a temporary civil restraining order pursuant to this paragraph (e) shall be set for hearing, which hearing shall be ex parte, at the earliest possible time and shall take precedence over all matters except those matters of the same character that have been on the court docket for a longer period of time. The court shall hear all such motions as expeditiously as possible.

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

Chronic Absenteeism and Truancy

LAWS

13-5-145. Truancy detention reduction policy - legislative declaration.
(1) The general assembly finds that:
   (a) Imposing a sentence of detention on a juvenile who violates a court order to attend school does not improve the likelihood that the juvenile will attend school and does not address the underlying causes of the juvenile's truancy;
   (b) The best methods to address truancy and its underlying causes and the resources needed to implement those methods are different in each community;
   (c) Since 2014, the juvenile courts in many judicial districts around the state have successfully reduced the use of detention for juveniles who are truant by implementing pilot projects through which the juvenile court imposes reasonable sanctions and, where possible, provides incentives to attend school, reserving detention as a sanction of last resort; and
   (d) These pilot projects need additional time to produce meaningful data regarding the effectiveness of the alternate sanctions and incentives and to determine whether they result in improved outcomes for juveniles and their families.

(2) The chief judge in each judicial district, or his or her designee, shall convene a meeting of community stakeholders to create a policy for addressing truancy cases that seeks alternatives to the use of detention as a sanction for truancy. Community stakeholders may include, but need not be limited to:
   (a) Parents;
(b) Representatives from school districts;
(c) Representatives from county departments of human or social services;
(d) Guardians ad litem;
(e) Court-appointed special advocates;
(f) Juvenile court judges;
(g) Respondent counsel;
(h) Representatives from law enforcement agencies;
(i) Mental health care providers;
(j) Substance use disorder treatment providers;
(k) Representatives from the division of criminal justice in the department of public safety;
(l) Representatives from the state department of human services; and
(m) Representatives from the department of education.

(3) The chief judge in each judicial district shall adopt a policy for addressing truancy cases no later than March 15, 2016. In developing the policy for addressing truancy cases, the chief judge and the community stakeholders shall consider, at a minimum:
   (a) Best practices for addressing truancy that are used in other judicial districts and in other states;
   (b) Evidence-based practices to address and reduce truancy;
   (c) Using a wide array of reasonable sanctions and reasonable incentives to address and reduce truancy;
   (d) Using detention only as a last resort after exhausting all other reasonable sanctions and, when imposing detention, appropriately reducing the number of days served; and
   (e) Research regarding the effect of detention on juveniles.

(4) The state court administrator's office shall report to the judiciary committees of the house of representatives and the senate, or any successor committees, no later than April 15, 2016, regarding the policy for addressing truancy cases adopted by each judicial district.

22-11-302. School district accountability committee - powers and duties.

(1) Each school district accountability committee has the following powers and duties:
   (g) To increase the level of parent engagement in the school district and in the public schools of the school district, especially the engagement of parents of students in the populations described in section 22-11-301 (3). The committee's activities to increase parent engagement must include, but need not be limited to:
      (III) Assisting school personnel to increase parents' engagement with educators, including but not limited to parents' engagement in creating students' READ plans pursuant to part 12 of article 7 of this title, in creating individual career and academic plans pursuant to section 22-32-109 (1)(oo), and in creating plans to address habitual truancy pursuant to section 22-33-107 (3).

22-11-402. School accountability committee - powers and duties - meetings.

(1) Each school accountability committee has the following powers and duties:
   (h) To increase the level of parent engagement in the school, especially the engagement of parents of students in the populations described in section 22-11-401 (1)(d). The committee's activities to increase parent engagement must include, but need not be limited to:
      (III) Assisting school personnel to increase parents' engagement with teachers, including but not limited to parents' engagement in creating students' READ plans pursuant to part 12 of article 7 of this
title, in creating individual career and academic plans pursuant to section 22-32-109 (1)(oo) or 22-30.5-525, and in creating plans to address habitual truancy pursuant to section 22-33-107 (3).

22-32-118.5. Intervention strategies - students at risk of dropping out - legislative declaration.

(1) The general assembly finds that research shows there are certain behaviors such as truancy, low academic achievement, and misbehavior that results in suspension or expulsion that, when exhibited by a student, are clear indications that the student is at increased risk of dropping out of school before graduation. These behaviors are often noticeable as early as grades six through nine and, even at this relatively early stage of a student's academic career, are accurate predictors of whether the student will graduate or drop out of high school. The general assembly further finds that interventions with students who demonstrate these behaviors in these middle grades can be very successful in enabling the student to refocus his or her efforts, improve in academic achievement, and successfully graduate from high school. Therefore, it is the intent of the general assembly that school districts and public schools focus attention on the data collected for students in these middle grades, identify students who require interventions, and provide the appropriate interventions to assist students in graduating from high school.

(2)(a) Each school district board of education shall consider adopting procedures by which the schools of the school district, including charter schools, that include any of grades six through nine shall review the relevant data for students in those grades and identify students who are demonstrating behaviors that indicate the student is at greater risk of dropping out of school. The behaviors may include, but need not be limited to, low academic achievement, truancy, insubordinate behavior, and disengagement.

(b) The procedures may specify that, after a school identifies a student as being at increased risk of dropping out of school, the school shall provide appropriate interventions that are designed to assist the student in improving his or her academic performance and behavior and in increasing his or her overall level of engagement in school. Interventions may include, but need not be limited to, counseling, tutoring, parent engagement, and developmental education services.

(c) If a school district board of education adopts procedures pursuant to this subsection (2), the school district shall notify a student's parents as soon as possible after the school district identifies the student as being at greater risk of dropping out of school. The school district shall provide to the student's parents a description of the interventions that the school district intends to implement for the student, if any. The parent may approve or reject the described interventions. If the parent rejects the interventions, the school district shall not implement the interventions. The parent may terminate the interventions at any time after the school district begins providing the interventions.

(d) A parent may contact the school district in which his or her student is enrolled to request interventions pursuant to this subsection (2) if the parent determines that the student is at greater risk of dropping out of school.

22-33-104. Compulsory school attendance.

(4)(a) The board of education shall adopt a written policy setting forth the district's attendance requirements. The policy must provide for excused absences, including those listed as exclusions from compulsory school attendance in accordance with subsection (2) of this section, as well as temporary absences due to behavioral health concerns. An attendance policy developed pursuant to this section may include appropriate penalties for nonattendance due to unexcused absence.

(b) The attendance policy adopted pursuant to this subsection (4) shall specify the maximum number of unexcused absences a child may incur before the attorney for the school district, the attendance officer, or the local board of education may initiate judicial proceedings pursuant to section 22-33-108. Calculation of the number of unexcused absences a child has incurred includes all unexcused absences occurring during any calendar year or during any school year.
Each board of education is encouraged to establish attendance procedures for identifying students who are chronically absent and to implement best practices and research-based strategies to improve the attendance of students who are chronically absent.

On or before January 1, 2009, the state board shall adopt rules establishing a standardized calculation for counting unexcused absences of students, including the circumstance in which a student is absent for part of a school day, and the format for reporting the information to the department pursuant to section 22-33-107.

(1) The board of education of each school district shall designate one or more of the employees of the district to act as attendance officer for the district. It is the attendance officer's duty in appropriate cases to counsel with students and parents and investigate the causes of nonattendance and report to the local board of education so as to enforce the provisions of this article which relate to compulsory attendance.

(2) The commissioner of education shall designate an employee of the department of education whose duty it is to assist the individual school districts and to supervise the enforcement of compulsory school attendance for the entire state.

(3)(a) As used in this subsection (3):

   (II) "Local community services group" means the local juvenile services planning committee created pursuant to section 19-2-211, C.R.S., the local collaborative management group created by a memorandum of understanding entered into pursuant to section 24-1.9-102, C.R.S., or another local group of public agencies that collaborate with the school district to identify and provide support services for students.

(b) The board of education of each school district shall adopt and implement policies and procedures concerning elementary and secondary school attendance, including but not limited to policies and procedures to work with children who are habitually truant. The policies and procedures must include provisions for the development of a plan. The plan must be developed with the goal of assisting the child to remain in school and, when practicable, with the full participation of the child's parent, guardian, or legal custodian. Appropriate school personnel shall make all reasonable efforts to meet with the parent, guardian, or legal custodian of the child to review and evaluate the reasons for the child's truancy. The appropriate school personnel are encouraged to work with the local community services group to develop the plan. The plan must be in compliance with section 22-33-108 (7) and include appropriate sanctions other than placement in a juvenile detention facility for a child who is habitually truant and who has refused to comply with the plan. The policies and procedures may also include but need not be limited to the following:

   (I.5) Procedures to monitor the attendance of each child enrolled in the school district to identify each child who has a significant number of unexcused absences and to work with the local community services group and the child's parent to identify and address the likely issues underlying the child's truancy, including any nonacademic issues;

   (II) Annually at the beginning of the school year and upon any enrollment during the school year, notifying the parent of each child enrolled in the public schools in writing of the parent's obligations pursuant to section 22-33-104 (5) and requesting that the parent acknowledge in writing awareness of such obligations;

   (III) Annually at the beginning of the school year and upon any enrollment during the school year, obtaining from the parent of each child a telephone number or other means of contacting such parent during the school day; and

   (IV) Establishing a system of monitoring individual unexcused absences of children which shall provide that, whenever a child who is enrolled in a public school fails to report to school on a regularly
scheduled school day and school personnel have received no indication that the child's parent is aware of the child's absence, school personnel or volunteers under the direction of school personnel shall make a reasonable effort to notify by telephone such parent. Any person who, in good faith, gives or fails to give notice pursuant to this subparagraph (IV) shall be immune from any liability, civil or criminal, which might otherwise be incurred or imposed and shall have the same immunity with respect to any judicial proceeding which results from such notice or failure to give such notice.

(4) On or before September 15, 2010, and on or before September 15 each year thereafter, the board of education of each school district shall report to the department of education the number of children who are habitually truant, as defined in section 22-33-102 (3.5), for the preceding academic year. The department shall post this information for each school district on its website for the public to access and may post additional information reported by school districts related to truancy.

(5) The department of education may post on its website information concerning effective, research-based, truancy- and dropout-prevention programs for the benefit of school districts.

22-33-107.5. Notice of failure to attend.

(1) Except as otherwise provided in subsection (2) of this section, a school district shall notify the appropriate court or parole board if a student fails to attend all or any portion of a school day where the school district has received notice from the court or parole board:

(a) Pursuant to section 19-2-508 (3)(a)(X) that the student is required to attend school as a condition of release pending an adjudicatory trial;

(b) Pursuant to section 17-22.5-404, 18-1.3-204 (2.3), 19-2-907 (4), 19-2-925 (9), or 19-2-1002 (1) or (3) that the student is required to attend school as a condition of or in connection with any sentence imposed by the court, including a condition of probation or parole; or

(c) Pursuant to section 13-10-113 (8), C.R.S., that the student is required to attend school as a condition of or in connection with any sentence imposed by a municipal court.

(2) If the school district has notice that a student who is required to attend school as a condition of release or as a condition of or in connection with any sentence imposed by a court, including a condition of probation or parole, has enrolled in a nonpublic home-based educational program, pursuant to section 22-33-104.5, or in an independent or parochial school, the school district shall notify the appropriate court or parole board and shall no longer be required to notify the court or parole board, pursuant to subsection (1) of this section, if the student fails to attend.

(2) If a child or his parent desires court review of an order of the board of education issued pursuant to this article, he shall notify the board in writing within five days after receiving official notification of the board's action. The board of education shall thereupon issue, or cause to be issued, to the child or his parent a statement of the reasons for the board's action. Within ten days thereafter the child or his parents may file with the court a petition requesting that the order of the board of education be set aside, to which shall be appended the statement of the board of education. No docket or other fees shall be collected by the court in connection with this proceeding.

(3) After the petition is filed, the court shall notify the board and shall hold a hearing on the matter. The court shall conduct judicial review of a hearing decision pursuant to rule 106 (a)(4) of the Colorado rules of civil procedure and rule 3.8 of the Colorado rules of juvenile procedure.

(4) It is the duty of the attorney for the school district, an employee authorized by the local board of education pursuant to section 13-1-127 (7), C.R.S., to represent the school district in truancy proceedings, the attendance officer designated by the local board of education, or the local board of
education to initiate, when appropriate, proceedings for the enforcement of the compulsory attendance provisions of this article upon request by the attendance officer of the district or of the state.

(5)(a) It is the intent of the general assembly that, in enforcing the compulsory school attendance requirements of this article, a school district shall employ best practices and research-based strategies to minimize the need for court action and the risk that a court will issue detention orders against a child or parent.

(b) A school district shall initiate court proceedings to compel a child and the child’s parent to comply with the attendance requirements specified in this article but only as a last-resort approach to address the child’s truancy and only if a child continues to be habitually truant after school or school district personnel have created and implemented a plan pursuant to section 22-33-107 (3) to improve the child’s school attendance.

(c) Before initiating court proceedings to compel compliance with the attendance requirements specified in this article, the school district shall give the child and the child’s parent written notice that the school district will initiate proceedings if the child does not comply with the attendance requirements of this article. The school district may combine the notice and summons. If combined, the petition must state the date on which the school district will initiate proceedings, which date must not be less than five days after the date of the notice and summons. The notice must state the provisions of this article with which compliance is required and must state that the school district will not initiate proceedings if the child complies with the identified provisions before the proceedings are filed.

(d) If a school district initiates court proceedings pursuant to this subsection (5), the school district, at a minimum, must submit to the court evidence of:

(I) The child’s attendance record prior to and after the point at which the child was identified as habitually truant;

(II) Whether the child was identified as chronically absent and, if so, the strategies the school district used to improve the child’s attendance;

(III) The interventions and strategies used to improve the child’s attendance before school or school district personnel created the child’s plan described in section 22-33-107 (3); and

(IV) The child’s plan and the efforts of the child, the child’s parent, and school or school district personnel to implement the plan.

(6) The court before which a proceeding to compel attendance is brought may issue, in its discretion, an order against the child or the child’s parent or both compelling the child to attend school as provided by this article or compelling the parent to take reasonable steps to assure the child’s attendance. The order must require the child and parent to cooperate with the school district in complying with the plan created for the child pursuant to section 22-33-107 (3).

(7)(a) If the child or youth does not comply with the valid court order issued against the child or youth or against both the parent and the child or youth, the court may order that an assessment for neglect as described in section 19-3-102 (1) be conducted as provided in section 19-3-501. In addition, the court may order the child or youth to show cause why he or she should not be held in contempt of court. When instituting contempt of court proceedings pursuant to this subsection (7), the court shall provide all procedural protections mandated in rule 107 of the Colorado rules of civil procedure, or any successor rule, concerning punitive sanctions for contempt.

(a.5) A judge or magistrate of any court may issue a warrant that authorizes the taking into temporary custody of a child or youth who has failed to appear for a court hearing for a truancy or contempt action; except that any such warrant must provide for release of the child or youth from temporary custody on an unsecured personal recognizance bond that is cosigned by the child’s or youth’s parent or legal guardian or, if the child or youth is in the custody of the department of human services, cosigning may
be accomplished by a representative of the department of human services. In the alternative, the
warrant may direct that the child or youth must only be arrested while court is in session and that he or
she be taken directly to court for an appearance rather than booked into secure confinement.

(b) The court may impose sanctions after a finding of contempt that may include, but need not be
limited to, community service to be performed by the child or youth, supervised activities, participation in
services for at-risk students, as described by section 22-33-204, and other activities having the goal of
ensuring that the child or youth has an opportunity to obtain a quality education.

(c)(1) If the court finds that the child or youth has refused to comply with the plan created for the child or
youth pursuant to section 22-33-107 (3), the court may impose on the child or youth, as a sanction for
contempt of court, a sentence of detention for no more than forty-eight hours in a juvenile detention
facility operated by or under contract with the department of human services pursuant to section 19-2-402 and any rules promulgated by the Colorado supreme court. The court shall not sentence a child or
youth to detention as a sanction for contempt of court unless the court finds that detention is in the best
interest of the child or youth as well as the public. In making such a finding, the court shall consider the
following factors, including that:

(A) The child or youth has violated a valid court order;

(B) National and Colorado-specific evidence shows that detaining children and youth for truancy
alone is counterproductive and harmful to children and youth;

(C) The legislative intent is that a child or youth who is truant must not be placed in secure
confinement for truancy alone;

(D) Detention is likely to have a detrimental effect on the child's or youth's school attendance; and

(E) Detention is likely to have an effect on the child's or youth's future involvement with the criminal
justice system.

(II) There is a rebuttable presumption that a child or youth must receive credit for time served if he or
she is sentenced to detention pursuant to subsection (7)(c)(I) of this section for violating a valid court
order to attend school. If the court rebuts this presumption, it shall explain its reasoning on the record.

(8) If the parent refuses or neglects to obey the order issued against the parent or against both the parent
and the child, the court may order the parent to show cause why he or she should not be held in contempt
of court, and, if the parent fails to show cause, the court may impose a fine of up to but not more than
twenty-five dollars per day or confine the parent in the county jail until the order is complied with.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion
from school. Students identified may include those who are truant, who have been or are likely to be
declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall
provide students who are identified as at risk of suspension or expulsion with a plan to provide the
necessary support services to help them avoid expulsion. The school district shall work with the student's
parent or guardian in providing the services and may provide the services through agreements with
appropriate local governmental agencies, appropriate state agencies, community-based organizations,
and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school
district to identify a student for participation in an expulsion-prevention program or the failure of such
program to remediate a student's behavior shall not be grounds to prevent school personnel from
proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion
proceeding.

(2) Each school district may provide educational services to students who are identified as at risk of
suspension or expulsion from school. Any school district that provides educational services to students
who are at risk of suspension or expulsion may apply for moneys through the expelled and at-risk student services grant program established in section 22-33-205 to assist in providing such educational services.

REGULATIONS

1 CCR 301-78. Section 1.00. Statement of basis and purpose.
1.00 Statement of Basis and Purpose
This regulation is adopted pursuant to the authority in section 22-33-104 (4)(c), C.R.S. and is intended to be consistent with the requirements of the State Administrative Procedures Act, section 24-4-101 et seq. (the “APA”), C.R.S.

This regulation shall govern the standardized calculation for counting unexcused absences of students, including the circumstance in which a student is absent for part of a school day, and the format for reporting the number of students identified as habitually truant. Many research studies have concluded that truancy is a problem that impacts a student's ability to attain the maximum benefit from the education process. Families, schools and communities must work together to ensure regular daily and punctual school attendance. Students should be advised that each scheduled school day will count in their attendance records. Further, students are required to attend classes, unless excused for good reason, in accordance with the Colorado School Attendance Law (C.R.S. 22-33-101). The purpose of this regulation is to provide specificity for consistency in reporting attendance and truancy data across school districts and BOCES. This regulation intends to increase data accuracy by generating uniform indicators for aggregate excused and unexcused absences and habitually truant student numbers. Another purpose is to allow the usage of these indicators to leverage resources to support the complete success of children and youth in school.

1 CCR 301-78. Section 3.00. Standardized calculation for counting absences for students.

3.00 Standardized Calculation for Counting Absences of Students

3.01 District/BOCES Uphold Written Attendance Policy.

(1) The local board of education shall adopt a written policy setting forth the district's or BOCES' attendance requirements. Said policy shall provide for Excused Absences, including those listed as exclusions from compulsory school attendance as declared in 22-33-104 (4)(a).

(2) The school district or BOCES shall uphold its written attendance policy. To ensure consistency in reporting attendance and Truancy data, districts and BOCES shall enforce uniform interpretations of the definitions of Excused Absences and Unexcused Absences across all schools within the school district or BOCES, according to the adopted district/BOCES attendance policy.

(3) The district/BOCES attendance policy shall be implemented in accordance with 22-33-107 C.R.S. which states that school district/BOCES policies shall include provisions for the development of a plan with the goal of assisting the child who is habitually truant to remain in school and when practicable, with the full participation of the child's parent, guardian or legal custodian.

3.02 Excused Versus Unexcused Absences.

3.02(1) Excused Absences.

(1)(a) Excused Absences occur when the student is absent for an acceptable reason as identified within the attendance policy set by local school board of education as declared in 22-33-104 (4)(a) C.R.S. which may include, but is not limited to, the following reasons: funeral, illness, injury, legal obligation, medical procedure and religious observation.

(1)(b) Local schools may require appropriate documentation to verify excused absences.

(1)(c) Absences due to suspension or expulsion of a child shall be considered excused absences for purposes of calculating habitually truant students (22-33-107 (3)(a) C.R.S.).

(2) Unexcused Absences.

(2)(a) Unexcused Absences occur when the student is absent without a reason or for an unacceptable reason as identified within the attendance rules set by local school board of education policy as declared in 22-33-104 (4)(a) C.R.S.

(2)(b) If authorized school officials determine that the parent's excuse is not valid or verified, the absence shall be unexcused.

(2)(c) Unexcused Absences are used to calculate Truancy rates.

3.03 Aggregation of Absences.
(1) A district or BOCES, and its schools, shall report truancy/attendance data as specifically as its student information system (SIS) allows, i.e., by minutes, hours or by periods.

(2) At a minimum, attendance shall be recorded once during each scheduled school day.

(3) For Department reporting purposes, a student who is absent more than 50 percent of any Attendance Period during a scheduled school day shall be considered absent for that entire recorded and reported period. For the 2020-21 academic year, during any period during which students are participating in remote learning due to public health and safety requirements, students may be recorded as present when participating in that remote learning. Districts should record absences and attendance consistent with the district's attendance policy as it applies to these remote learning situations.

(4) For Department reporting purposes, a student who is present 50 percent or more of any Attendance Period during a scheduled school day shall be considered present for that entire recorded and reported period. For the 2020-21 academic year, during any period during which students are participating in remote learning due to public health and safety requirements, students may be recorded as present when participating in that remote learning. Districts should record absences and attendance consistent with the district's attendance policy as it applies to these remote learning situations.

(5) All units of time shall be summed and converted to the number of days absent for reporting to the Department.

(6) Student Excused Absences shall be totaled for each student utilizing the most specific Level of Detail collected and reported to the Department through the Attendance collection. When totaling this sum, the calculation shall include percentages of each student's scheduled instructional day as applicable.

(7) Student Unexcused Absences shall be totaled for each student utilizing the most specific Level of Detail collected and reported to the Department through the Attendance collection. When totaling this sum, the calculation shall include percentages of each student's scheduled instructional day as applicable.

(1) Days suspended or expelled shall be totaled within the student Total Days Excused reported to the Department in accordance with 22-33-107 C.R.S. through the Attendance collection.

(2) Absences due to suspension or expulsion of a student shall not be totaled into the student Total Days Unexcused reported to the Department through Attendance collection.

(3) For expelled students enrolled in a district-sponsored or BOCES-sponsored expulsion program, attendance shall be taken and counted toward the school that administers the program or the student's school of record at the discretion of the district/BOCES. Absences for students in such programs shall be determined to be excused or unexcused in accordance with the rules in this document.

1 CCR 301-78. Section 4.00. Format for reporting habitually truant student data to the department.

4.00 Format for Reporting Habitually Truant Student Data to the Department

(1) A Habitually Truant student is one who is at least the age of six on or before August 1 of the year in question and under the age of seventeen years having four total days of Unexcused Absences from public school in any one calendar Month or ten total days of Unexcused Absences from public school during the Reported School Year.

4.02 Habitually Truant Status.

(1) The status of a Habitually Truant student is calculated using the sum of Unexcused Absences converted to days and fractions of days.
(2) A student shall be reported as a Habitually Truant student if, at any time during the Reported School Year, their Unexcused Absences from public school in any one calendar Month equals or exceeds four total days.

4.04 Tardies.

(1) Tardies shall not be included in the calculation of Habitually Truant students for Department reporting purposes.

(1) An educational entity and its employees are immune from suit for taking an action regarding the supervision, grading, suspension, expulsion, or discipline of a student while the student is on the property of the educational entity or under the supervision of the educational entity or its employees; except that immunity shall not apply if the action is committed willfully and wantonly and violates a statute, rule, or regulation or a clearly articulated policy of the educational entity. The burden of proving the violation shall rest with the plaintiff and must be established by clear and convincing evidence to the court as part of a summary proceeding. If at the summary proceeding the court finds a violation exists, the educational entity and its employee may raise immunity at trial under the provisions of this article and the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S.

(2) An educational entity and its employees are immune from suit for making a report consistent with federal law to the appropriate law enforcement authorities or officials of an educational entity if the individual making the report has reasonable grounds to suspect that a student is:
   (a) Under the influence of alcoholic beverages or of a controlled substance not lawfully prescribed to the student;
   (b) In possession of a firearm or alcoholic beverages or of a controlled substance not lawfully prescribed to the student;
   (c) Involved in the illegal solicitation, sale, or distribution of firearms or alcoholic beverages or of a controlled substance.

(3) A person claiming to have suffered an injury by an educational entity or an employee, whether or not by a violation of a statute, rule, or regulation or a clearly articulated policy of the educational entity, shall file a written notice as provided in section 24-10-109, C.R.S., within one hundred eighty days after the date of discovery of the injury, regardless of whether the person then knew all of the elements of a claim or of a cause of action for the injury. Compliance with the provisions of this subsection (3) shall be a jurisdictional prerequisite to any action brought under the provisions of this article, and failure of compliance shall forever bar any such action.

22-25-102. Legislative declaration.
(1) The general assembly hereby finds and declares that comprehensive health education is an essential element of public education in the state of Colorado. The school system is a logical vehicle for conveying to children and parents significant health information, developing an awareness of the value of good health to the individual and to the community, promoting healthy behavior and positive self-concepts, and providing means for dealing with peer and other pressures. It is further declared that many serious health problems in Colorado, including high-risk behaviors, are directly attributable to the insufficient health knowledge and motivation of the school-age population and the general public and that studies have demonstrated the effectiveness of a planned school curriculum throughout the elementary and secondary grades in developing healthy behavior. The purpose of this article is to foster healthy behaviors in our children and communities through a comprehensive educational plan which has as its goal not only the increase of health knowledge but also the modification of high-risk behaviors.

(2) Since the enactment of this article, the general assembly has further determined that the insidious attractions of gangs and substance abuse are endangering the youth of Colorado and, by doing so, are endangering all Colorado citizens. Accordingly, the general assembly finds and declares that the
implementation of educational programs in the public schools, including facility schools, is necessary to assist young people in avoiding gang involvement and substance abuse.

(3) The general assembly further finds that:

(a) For students to reach their full potential, school communities need to address comprehensive issues of student wellness, including but not limited to addressing the physical, mental, emotional, and social needs of students;

(b) High-quality physical education programs taught by persons who are licensed and endorsed in physical education may be a factor in battling the rising incidence of obesity by ensuring not only that children receive a healthy level of physical activity but that they also learn skills and develop knowledge that will enable them to maintain a healthy level of activity throughout their lifetimes;

(c) It is therefore appropriate for the general assembly to expand the “Colorado Comprehensive Health Education Act” to include funding for local student wellness programs that are coordinated with local comprehensive health education programs in public schools, including facility schools.

22-25-103. Definitions.

25.5-1-206. School-based substance abuse prevention and intervention program - creation - reporting - legislative declaration - definitions.

(1)(a) The general assembly finds and declares that:
   (I) The 2011 healthy kids Colorado survey indicates that the top three substances that high school students report they use are alcohol, marijuana, and prescription drugs;
   (II) With the legalization of marijuana by citizen initiative in Colorado, there is an increased availability of marijuana in the community and, at the same time, a decreased perception of harm related to marijuana use;
   (III) Evidence-based prevention and intervention programs and education awareness programs targeted to school children who are twelve to nineteen years of age are needed to:
      (A) Increase the perceived risk of harm associated with marijuana and alcohol use and prescription drug misuse;
      (B) Decrease the rates of youth marijuana and alcohol use and prescription drug misuse and delay the age of first-time use; and
      (C) Decrease the number of drug- and alcohol-related violations, suspensions, and expulsions reported by schools.
   (b) Therefore, the general assembly declares that it is appropriate to award grants to schools, community-based organizations, and health organizations to provide school-based prevention and intervention programs that use evidence-based strategies, practices, and approaches to reduce the risk of marijuana and alcohol use and prescription drug misuse by school-aged children. Successful school-based programs will lead to increased overall health, behavioral health, and educational outcomes for Colorado's youth.

(3)(a) The school-based substance abuse prevention and intervention grant program is created within the state department. The purpose of the grant program is to award competitive grants to entities to provide school-based prevention and intervention programs for youth twelve to nineteen years of age primarily focused on reducing marijuana use, but including strategies and efforts to reduce alcohol use and prescription drug misuse.
   (b) To be considered for a competitive grant, the entity must demonstrate in the grant proposal that:
      (I) The grant will be used to implement evidence-based programs and strategies delivered in the school setting that are designed to improve overall health, behavioral health, and educational outcomes for youth who are twelve to nineteen years of age;
      (II) The entity is delivering the program and strategies to at-risk youth, regardless of the youths’ eligibility for Colorado's medical assistance program; and
      (III) The evidence-based programs and strategies are designed to achieve the following outcomes:
         (A) An increase in the perceived risk of harm associated with marijuana use, prescription drug misuse, and underage alcohol use among youth who are twelve to nineteen years of age;
         (B) A decrease in the rates of youth marijuana use, alcohol use, and prescription drug misuse;
         (C) A delay in the age of first use of marijuana, alcohol, or prescription drug misuse;
(D) A decrease in the rates of youth who have ever used marijuana or alcohol or misused prescription drugs in their lifetime; and

(E) A decrease in the number of drug- and alcohol-related violations on school property, suspensions, and expulsions reported by schools.

(4) On or before September 1, 2014, the state department shall establish procedures and timelines for grant applications, criteria for determining grant amounts and grantee reporting requirements, and any other grant program policies. The state department may amend these policies at any time.

(5) Subject to available appropriations, the state department shall award grants for the 2014-15 academic year and for each academic year thereafter. There is no limit on the number of grants that the state department may award, and the same entity may receive more than one grant if the state department considers the needs of at-risk students in communities throughout the state for school-based substance abuse prevention and intervention programs.

25-14-103.5. Prohibition against the use of tobacco products and retail marijuana on school property - legislative declaration - education program - special account - definitions.

(1) The general assembly finds that many of the schools in this state permit the use of tobacco products in and around school property. The general assembly further finds that secondhand smoke generated by such activity and the negative example set and frequently imitated by our school children are detrimental to the health and well-being of such children as well as to school teachers, staff, and visitors. Accordingly, the general assembly finds and declares that it is appropriate to create a safe and healthy school environment by prohibiting the use of tobacco products on all school property.

(b) Signs regarding such prohibition and the consequences of violation shall be displayed prominently on all school property to ensure compliance no later than September 1, 1994.

(4) This section shall not be applicable to the use of a tobacco product in a limited classroom demonstration to show the health hazards of tobacco.
(5) The board of education of each school district is authorized to seek and accept gifts, donations, or grants of any kind from any private or charitable source or from any governmental agency to meet expenses required by this section. Such gifts, donations, and grants shall be accounted for separately, and, to the extent that such moneys are available, the board of education of each school district may maintain and operate an educational program designed to assist students, faculty, and staff to avoid and discontinue the use of tobacco products. Such program shall be offered at each school under the board's direction and control.

(6) This section shall not prohibit any school from enacting more stringent policies or rules than required by this section.

The grant program shall provide grants for school-based health centers selected by the division. The division, in consultation with school-based health centers, shall develop criteria under which the grants are distributed and evaluated. In developing the criteria for grants, the division shall give priority to centers that serve a disproportionate number of uninsured children or a low-income population or both and may award grants to establish new school-based health centers; to expand primary health services, behavioral health services, including education, intervention, and prevention services for opioid, alcohol, and marijuana, and other substance use disorders, or oral health services offered by existing school-based health centers; to expand enrollment in the children's basic health plan; or to provide support for ongoing operations of school-based health centers. None of the grants shall be awarded to provide abortion services in violation of section 50 of article V of the state constitution.

(b)(I) On or before July 1, 2018, the general assembly shall appropriate seven hundred seventy-five thousand dollars to the department from the marijuana tax cash fund created in section 39-28.8-501 for the purposes of expanding behavioral health therapy, intervention, and prevention services for opioid, alcohol, and marijuana, and other substance use disorders pursuant to this subsection (2). The department shall prioritize funding to school-based health centers that serve communities with high-risk factors for substance abuse combined with limited access to treatment services according to state needs assessments, Colorado health indicator data, and national best practice trends.

Bullying, Harassment, or Hazing

LAWS

(1)(a) The general assembly finds that, while some forms of initiation constitute acceptable behavior, hazing sometimes degenerates into a dangerous form of intimidation and degradation. The general assembly also recognizes that although certain criminal statutes cover the more egregious hazing activities, other activities that may not be covered by existing criminal statutes may threaten the health of students or, if not stopped early enough, may escalate into serious injury.

(b) In enacting this section, it is not the intent of the general assembly to change the penalty for any activity that is covered by any other criminal statute. It is rather the intent of the general assembly to define hazing activities not covered by any other criminal statute.

(2) As used in this section, unless the context otherwise requires:

(a) "Hazing" means any activity by which a person recklessly endangers the health or safety of or causes a risk of bodily injury to an individual for purposes of initiation or admission into or affiliation with any student organization; except that "hazing" does not include customary athletic events or other similar contests or competitions, or authorized training activities conducted by members of the armed forces of the state of Colorado or the United States.

The research and model policy described in this subsection (2)(a) must be updated every three years.

(b) On or before July 1, 2019, and every three years thereafter, the department shall publish the results of the research and model policy required by subsection (2)(a) of this section on its website as guidance for school districts, charter schools, and the charter school institute to consider when developing and implementing bullying prevention and education policies.

[...]
(5) A local education provider or charter school that receives a grant through the program must use the grant money to implement a ninth-grade success program that, at a minimum, must include the following elements:

(e) Providing instructional support for ninth-grade students including attendance support, content-specific academic interventions, tutoring, course-completion programs, social-emotional learning, and trauma-informed instruction.

22-25-103. Definitions.
As used in this article 25, unless the context otherwise requires:

(3) "Comprehensive health education" means a planned, sequential health program of learning experiences in preschool, kindergarten, and grades one through twelve that must include, but is not limited to, the following topics:

(h) Mental and emotional health.

22-29-101. Legislative declaration.
The general assembly finds and declares that, while parents are the primary and most important moral educators of their children, such efforts should be reinforced in the school and community environments. The general assembly further finds that research indicating that core character qualities such as family support, community involvement, positive peer influence, motivation to achieve, respect for person and property, common courtesy, conflict resolution, integrity, honesty, fairness, a sense of civil and personal responsibility, purpose, and self-respect help give youth the basic interpersonal skills and attributes that are critical building blocks for successful relationships. The general assembly recognizes each school district's authority to exercise control over the specific instruction of students, yet also recognizes and hereby asserts a significant statewide interest in providing direction to school districts with regard to the character education of Colorado's youth. Therefore, the general assembly hereby encourages school districts to develop and strengthen character education instruction to students. By enacting this article, the general assembly acknowledges the importance of character development and encourages school districts, parents, and communities to work together to prepare youth for positive relationships in today's society.

22-29-103. Character education - development - resource.
1) Each school district, either individually or through a board of cooperative services, is strongly encouraged to establish a character education program designed to help students cultivate honesty, respect, responsibility, courtesy, respect for and compliance with the law, integrity, respect for parents, home, and community, and the dignity and necessity of a strong work ethic, conflict resolution, and other skills, habits, and qualities of character that will promote an upright, moral, and desirable citizenry and better prepare students to become positive contributors to society. The program may include information concerning this country's founding documents and concerning religion in American history. Such character education program should be designed to stress the importance that each teacher model and promote the guidelines of behavior established in the character education program for youth to follow at all times, in every class.

(2) The general assembly encourages each school district to work with parents and legal guardians of students enrolled in the school district and the community in which the school district operates in the development of any character education program established pursuant to subsection (1) of this section.

The short title of this article 102 is the "Colorado K-5 Social and Emotional Health Act".

(1) The general assembly finds that:

(a) School mental health professionals, including school social workers, positively impact the school environment by working with young students and their families to identify safety-net insecurities, social and emotional skills deficits, instances of abuse and neglect, and mental health challenges;

(b) Identifying these student issues as early as possible increases the likelihood that problems can be resolved successfully and in a manner that decreases long-term problems with learning and other barriers to student success in the future;

(c) A pilot program that places a team of school mental health professionals in every pilot program school will allow the team, in partnership with classroom teachers, to provide needed support for young students and their families at a critical time in their education;

(d) A significant goal of the pilot program is to ensure that students of elementary age receive the right level of necessary services, in the right place, and at the right time;

(e) Receiving the right level of services, in the right place, and at the right time helps remove the burden placed on teachers to be everything to a student, from therapist to family counselor, and instead allows teachers to return to their primary task: Teaching; and

(f) The pilot program will enable parents, students, teachers, administrators, and school mental health professionals to create a safe, positive, and successful school learning environment.

(2) Therefore, the general assembly declares that the creation and successful implementation of a Colorado K-5 social and emotional health pilot program could have a profound impact on the early educational and social experiences of kindergarten through fifth-grade students, resulting in those students graduating to middle and high school programs with fewer social, emotional, and behavioral issues; adverse childhood experiences; disciplinary referrals and delinquent conduct; school absences and truancy; and incidences of self-harm.

22-96-103. Behavioral health care professional matching grant program - created - rules.

(1)(a) There is created in the department the behavioral health care professional matching grant program, referred to in this article 96 as the "program", to provide funding to education providers for the following purposes:

(II) To provide training and resources for school staff on the implementation of evidence-based programming on behavioral health education for all students.

(1) In the first and subsequent years of operation of the pilot program, each pilot school shall employ or contract with additional school mental health professionals so that each of grades one through five and the kindergarten program in each pilot school has a school mental health professional dedicated to each
grade and the kindergarten program. If a single grade or the kindergarten program has more than two hundred fifty students, additional school mental health professionals must be added to the grade or kindergarten program to maintain a ratio of approximately one school mental health professional per two hundred fifty students, as determined by the pilot school. A small pilot school shall maintain a ratio of approximately one school mental health professional per two hundred fifty students, as determined by the pilot school. At least one of the school mental health professionals at each pilot school must be a school social worker.

(2) The goal of the pilot program is for a school mental health professional to develop an ongoing relationship with pilot school students and to follow those students, to the extent possible, as the students advance through the grades at the pilot school. This will allow the school mental health professional to understand the needs of the students and their families over time and to help address those needs over time, if necessary. To achieve this goal, school mental health professionals may be assigned to a cohort of students by grade or, in a smaller school, by multiple grades. School mental health professionals in each pilot school shall work as a team to address the academic and social-emotional needs of the pilot school's students and to create a safe and positive school learning environment through additional behavioral health supports.

(3) For purposes of implementing this pilot program, the general assembly shall appropriate to the department for distribution to the pilot schools, or to the governing body for the pilot school, the amount of money necessary for the pilot schools to employ or contract with the number of additional school mental health professionals necessary to implement the pilot program, as described in subsection (1) of this section. Throughout the duration of the pilot program, the pilot school must employ or contract with, at the pilot school's expense, the same number of school mental health professionals employed by or contracted with the pilot school during the 2019-20 school year, so that the appropriation to the pilot school for the pilot program supplements, but does not supplant, the pilot school's existing expenditures for school mental health professional positions prior to the operation of the pilot program.

(4)(a) In implementing the pilot program, the school mental health professionals shall work as a team, with each professional providing services to students and offering training and resources to school faculty and administrators that are authorized under the school mental health professional's special services license and endorsement.

(7) Grant applications and reporting will be designed to limit administrative burden on applicants and recipients.

22-96-105. Reporting.

(1) In any fiscal year in which the general assembly makes an appropriation to the department for the purposes of the program, each education provider that receives a grant through the program shall report the following information to the department each year during the term of the grant:

(a) The number of school health professionals hired using grant moneys;

(b) A list and explanation of the services provided using grant moneys; and

(c) Any additional information that the state board, by rule, may require.

(2) On or before May 1, 2015, and on or before May 1 in each fiscal year thereafter in which the general assembly makes an appropriation to the department for the purposes of the program, the department shall submit to the education committees of the senate and the house of representatives, or any
successor committees, a report that, at a minimum, summarizes the information received by the department pursuant to subsection (1) of this section. The department shall also post the report to its website.

(1) The general assembly finds that:
   (a) School mental health professionals, including school social workers, positively impact the school environment by working with young students and their families to identify safety-net insecurities, social and emotional skills deficits, instances of abuse and neglect, and mental health challenges;
   (b) Identifying these student issues as early as possible increases the likelihood that problems can be resolved successfully and in a manner that decreases long-term problems with learning and other barriers to student success in the future;
   (c) A pilot program that places a team of school mental health professionals in every pilot program school will allow the team, in partnership with classroom teachers, to provide needed support for young students and their families at a critical time in their education;
   (d) A significant goal of the pilot program is to ensure that students of elementary age receive the right level of necessary services, in the right place, and at the right time;
   (e) Receiving the right level of services, in the right place, and at the right time helps remove the burden placed on teachers to be everything to a student, from therapist to family counselor, and instead allows teachers to return to their primary task: Teaching; and
   (f) The pilot program will enable parents, students, teachers, administrators, and school mental health professionals to create a safe, positive, and successful school learning environment.

(2) Therefore, the general assembly declares that the creation and successful implementation of a Colorado K-5 social and emotional health pilot program could have a profound impact on the early educational and social experiences of kindergarten through fifth-grade students, resulting in those students graduating to middle and high school programs with fewer social, emotional, and behavioral issues; adverse childhood experiences; disciplinary referrals and delinquent conduct; school absences and truancy; and incidences of self-harm.

(1) There is created the K-5 social and emotional health pilot program in the department to determine the impact of dedicated school mental health professionals in kindergarten through fifth grade in elementary schools that have high-poverty, high-need students. The pilot program is implemented within the selected pilot schools and administered by the department as a pilot program for three consecutive school years, unless extended by the general assembly. Subject to available appropriations or gifts, grants, or donations for the three-year term of the pilot program, pursuant to section 22-102-106, the department shall employ or contract with a pilot program coordinator and contract for preliminary and final program evaluations of the pilot program. The department shall promulgate any rules necessary for the administration of the pilot program.

(2)(a) Subject to available appropriations or gifts, grants, or donations for the three-year term of the pilot program, no later than January 15 immediately preceding the first implementation year, the department shall select up to ten pilot schools to participate in the pilot program. If available appropriations and gifts, grants, or donations are insufficient to fully fund the pilot program, the department may select fewer than ten pilot schools to participate in the pilot program. The department shall select pilot schools that exhibit the characteristics set forth in subsection (2)(b) of this section and that are appropriate test schools to evaluate the impact and effectiveness of the pilot program. The pilot schools must demonstrate a willingness to participate in the pilot program and to collect the data and information necessary for the evaluation of the pilot program.

(b) The department shall select pilot schools, including rural, small, and geographically diverse schools, which schools shall be located in a school district that has a high rate of youth suicide, attempted suicide, or suicidal ideation; have a high-poverty student population and a high percentage of students who experience or may experience food insecurity, as evidenced by the number or percentage of students in the school who are eligible for free and reduced-priced meals; and may include schools:

(V) That are in a school district that has a plan in place to recruit, hire, and retain a diverse workforce that reflects the race, ethnicity, and other characteristics of the student body.
Prior to a selected school implementing the pilot program pursuant to this article 102, the school must notify all parents or legal guardians of students at the school of the school's selection as a pilot school.

(1) In the first and subsequent years of operation of the pilot program, each pilot school shall employ or contract with additional school mental health professionals so that each of grades one through five and the kindergarten program in each pilot school has a school mental health professional dedicated to each grade and the kindergarten program. If a single grade or the kindergarten program has more than two hundred fifty students, additional school mental health professionals must be added to the grade or kindergarten program to maintain a ratio of approximately one school mental health professional per two hundred fifty students, as determined by the pilot school. A small pilot school shall maintain a ratio of approximately one school mental health professional per two hundred fifty students, as determined by the pilot school. At least one of the school mental health professionals at each pilot school must be a school social worker.

(2) The goal of the pilot program is for a school mental health professional to develop an ongoing relationship with pilot school students and to follow those students, to the extent possible, as the students advance through the grades at the pilot school. This will allow the school mental health professional to understand the needs of the students and their families over time and to help address those needs over time, if necessary. To achieve this goal, school mental health professionals may be assigned to a cohort of students by grade or, in a smaller school, by multiple grades. School mental health professionals in each pilot school shall work as a team to address the academic and social-emotional needs of the pilot school's students and to create a safe and positive school learning environment through additional behavioral health supports.

(3) Throughout the duration of the pilot program, the pilot school must employ or contract with, at the pilot school's expense, the same number of school mental health professionals employed by or contracted with the pilot school during the school year immediately preceding the first year of implementation of the pilot program so that additional money for the pilot program supplements, but does not supplant, the pilot school's existing expenditures for school mental health professional positions prior to the operation of the pilot program.

(4)(a) In implementing the pilot program, the school mental health professionals shall work as a team, with each professional providing services to students and offering training and resources to school faculty and administrators that are authorized under the school mental health professional's special services license and endorsement.

(b) In addition, school mental health professionals shall, consistent with the school mental health professional's job duties and licensure:

(I) Provide the school with resources to develop and improve the social and emotional health of students, including resources translated into the primary languages of the student population to the extent possible, and create a safe and positive learning environment through additional behavioral health supports; and

(II) Provide social and emotional skill building in the school and with students in the classroom.

(c) School mental health professionals may, consistent with the school mental health professional's job duties and licensure:

(I) Assist students and their families with applying for and obtaining necessary public benefits for which each student and the student's family is eligible;

(II) Provide services and supports to students who have an individualized education program, as provided in section 22-20-108;
(III) Consult and coordinate with other school professionals on behalf of students and support families accessing community-based resources as needed and appropriate; and

(IV) Identify food insecurity, homelessness, and other issues affecting students and make referrals to services within the community, bringing those services into the school setting where possible.

d) As appropriate, and to the extent possible, the school mental health professional must provide services or arrange for services to be provided for students at the school and during school hours or when student busing is available.

e) Services provided by the school mental health professional to the student must include the student's family and household, where appropriate. The school mental health professional is specifically authorized to make home visits when appropriate under the circumstances and consistent with licensure.

(5) Each pilot school's team of school mental health professionals shall participate in the school's or school district's multi-tiered systems of support process to assist in developing appropriate plans for the mental health and behavioral needs of individual students.

(6) Each pilot school, or each pilot school's governing body, where appropriate, shall collect, transmit, and retain any data and information necessary for the evaluation of the pilot program pursuant to section 22-102-106. Each pilot school shall record the unique student identifier, as defined in section 22-16-103, for all students enrolled in the pilot school.

(7) A student who is home-schooled but who participates in extracurricular activities or athletic programs at a school that is selected as a pilot school is excluded from any data collection or reporting requirements pursuant to this article 102.

22-102-106. Pilot program coordinator - evaluation of pilot program - student impacts and outcomes.

(1) The department shall employ or contract with a pilot program coordinator to oversee the implementation of the pilot program across the pilot schools. The pilot program coordinator must be a school social worker who shall work with each pilot school's team of school mental health professionals. The duties of the pilot program coordinator include, at a minimum:

(a) Coordinating data collection and program evaluation requirements with the professional program evaluator retained pursuant to subsection (2) of this section;

(b) Serving as a contact person and resource for teams of school mental health professionals in the pilot schools;

(d) Sharing best practices relating to the pilot program and its implementation at the pilot schools; and

(e) Ensuring fidelity to the goals of the pilot program across the pilot schools.

(2)(a) The department shall select a professional program evaluator to complete a preliminary evaluation of the pilot program on or before September 1 of the second full school year of implementation of the pilot program and a final evaluation of the pilot program to be completed on or before September 1 immediately following the conclusion of the final school year of the pilot program. Subject to available appropriations or gifts, grants, or donations for the three-year term of the pilot program, the department shall contract with the evaluator in the school year prior to the implementation of the pilot program in the pilot schools to create a process for the collection and transmission of data and information to the evaluator to ensure that the evaluator has the data and information necessary to complete the preliminary and final reports concerning the impact and outcomes of the pilot program. The pilot program evaluator, in conjunction with the department, shall select a group of control schools that have school characteristics
and student demographics similar to those of the pilot schools to serve as a control group for purposes of evaluating the impacts and outcomes of the pilot program on participating students and pilot schools. Data collected for pilot schools and control group schools must include data from school climate and healthy schools surveys for any grade in which such surveys have been created.

(b) The department shall select a professional program evaluator that has the knowledge and skills necessary to evaluate the effectiveness of services provided by the pilot program and the resulting impacts and outcomes of the pilot program on the student cohorts participating in the pilot program. The department is encouraged, but is not required, to contract with a state institution of higher education to complete the evaluation of the pilot program.

(c) The department and the pilot schools shall cooperate fully with the pilot program evaluator’s collection and analysis of data and information relating to the pilot program’s impact and outcomes. The department, pilot schools, the pilot program coordinator, and the contracted evaluator shall comply with all state and federal laws relating to the confidentiality of academic and medical records of students and shall provide aggregated data where appropriate.

(d) The pilot program evaluator shall determine the impact of the pilot program on students’ academic, mental, social-emotional, and physical health and well-being. The evaluator shall collect and analyze data relating to student and school outcomes, which outcomes may include:

(I) The increase or decrease in students’ disciplinary referrals, either within the pilot school, or pilot school’s district, if relevant, or with law enforcement, and the increase or decrease in students adjudicated delinquent within the pilot school's district;

(II) For purposes of this paragraph (c.5), "habitually disruptive student" means a child who has caused a material and substantial disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event three or more times during the course of a school year. Any student who is enrolled in a public school may be subject to being declared a habitually disruptive student.
(III) The student and the parent, legal guardian, or legal custodian shall have been notified in writing of each disruption counted toward declaring the student as habitually disruptive pursuant to this paragraph (c.5), and the student and parent, legal guardian, or legal custodian shall have been notified in writing and by telephone or other means at the home or the place of employment of the parent or legal guardian of the definition of "habitually disruptive student".

(1) The board of education of each school district shall designate one or more of the employees of the district to act as attendance officer for the district. It is the attendance officer's duty in appropriate cases to counsel with students and parents and investigate the causes of nonattendance and report to the local board of education so as to enforce the provisions of this article which relate to compulsory attendance.

(2) The commissioner of education shall designate an employee of the department of education whose duty it is to assist the individual school districts and to supervise the enforcement of compulsory school attendance for the entire state.

(3)(a) As used in this subsection (3):

(II) "Local community services group" means the local juvenile services planning committee created pursuant to section 19-2-211, C.R.S., the local collaborative management group created by a memorandum of understanding entered into pursuant to section 24-1.9-102, C.R.S., or another local group of public agencies that collaborate with the school district to identify and provide support services for students.

(b) The board of education of each school district shall adopt and implement policies and procedures concerning elementary and secondary school attendance, including but not limited to policies and procedures to work with children who are habitually truant. The policies and procedures must include provisions for the development of a plan. The plan must be developed with the goal of assisting the child to remain in school and, when practicable, with the full participation of the child's parent, guardian, or legal custodian. Appropriate school personnel shall make all reasonable efforts to meet with the parent, guardian, or legal custodian of the child to review and evaluate the reasons for the child's truancy. The appropriate school personnel are encouraged to work with the local community services group to develop the plan. The plan must be in compliance with section 22-33-108 (7) and include appropriate sanctions other than placement in a juvenile detention facility for a child who is habitually truant and who has refused to comply with the plan. The policies and procedures may also include but need not be limited to the following:

(I.5) Procedures to monitor the attendance of each child enrolled in the school district to identify each child who has a significant number of unexcused absences and to work with the local community services group and the child's parent to identify and address the likely issues underlying the child's truancy, including any nonacademic issues;

(II) Annually at the beginning of the school year and upon any enrollment during the school year, notifying the parent of each child enrolled in the public schools in writing of such parent's obligations pursuant to section 22-33-104 (5) and requesting that the parent acknowledge in writing awareness of such obligations;

(III) Annually at the beginning of the school year and upon any enrollment during the school year, obtaining from the parent of each child a telephone number or other means of contacting such parent during the school day; and

(IV) Establishing a system of monitoring individual unexcused absences of children which shall provide that, whenever a child who is enrolled in a public school fails to report to school on a regularly scheduled school day and school personnel have received no indication that the child's parent is aware of the child's absence, school personnel or volunteers under the direction of school personnel
shall make a reasonable effort to notify by telephone such parent. Any person who, in good faith,
gives or fails to give notice pursuant to this subparagraph (IV) shall be immune from any liability, civil
or criminal, which might otherwise be incurred or imposed and shall have the same immunity with
respect to any judicial proceeding which results from such notice or failure to give such notice.

(4) On or before September 15, 2010, and on or before September 15 each year thereafter, the board of
education of each school district shall report to the department of education the number of children who
are habitually truant, as defined in section 22-33-102 (3.5), for the preceding academic year. The
department shall post this information for each school district on its website for the public to access and
may post additional information reported by school districts related to truancy.

(5) The department of education may post on its website information concerning effective, research-
based, truancy- and dropout-prevention programs for the benefit of school districts.

**22-33-108. Judicial proceedings.**

(5)(a) It is the intent of the general assembly that, in enforcing the compulsory school attendance
requirements of this article, a school district shall employ best practices and research-based strategies to
minimize the need for court action and the risk that a court will issue detention orders against a child or
parent.

(b) A school district shall initiate court proceedings to compel a child and the child's parent to comply
with the attendance requirements specified in this article but only as a last-resort approach to address
the child's truancy and only if a child continues to be habitually truant after school or school district
personnel have created and implemented a plan pursuant to section 22-33-107 (3) to improve the
child's school attendance.

(c) Before initiating court proceedings to compel compliance with the attendance requirements specified
in this article, the school district shall give the child and the child's parent written notice that the school
district will initiate proceedings if the child does not comply with the attendance requirements of this
article. The school district may combine the notice and summons. If combined, the petition must state
the date on which the school district will initiate proceedings, which date must not be less than five days
after the date of the notice and summons. The notice must state the provisions of this article with which
compliance is required and must state that the school district will not initiate proceedings if the child
complies with the identified provisions before the proceedings are filed.

REGULATIONS

1 CCR 301-78. Section 1.00. Statement of basis and purpose.
1.00 Statement of Basis and Purpose
This regulation is adopted pursuant to the authority in section 22-33-104 (4)(c), C.R.S. and is intended to be consistent with the requirements of the State Administrative Procedures Act, section 24-4-101 et seq. (the "APA"), C.R.S.
This regulation shall govern the standardized calculation for counting unexcused absences of students, including the circumstance in which a student is absent for part of a school day, and the format for reporting the number of students identified as habitually truant. Many research studies have concluded that truancy is a problem that impacts a student's ability to attain the maximum benefit from the education process. Families, schools and communities must work together to ensure regular daily and punctual school attendance. Students should be advised that each scheduled school day will count in their attendance records. Further, students are required to attend classes, unless excused for good reason, in accordance with the Colorado School Attendance Law (C.R.S. 22-33-101). The purpose of this regulation is to provide specificity for consistency in reporting attendance and truancy data across school districts and BOCES. This regulation intends to increase data accuracy by generating uniform indicators for aggregate excused and unexcused absences and habitually truant student numbers. Another purpose is to allow the usage of these indicators to leverage resources to support the complete success of children and youth in school.

[...] 

(3) Agreements with state agencies. Each board of education shall cooperate and, to the extent possible, develop written agreements with law enforcement, the juvenile justice system, and social services, as allowed under state and federal law, to keep each school environment safe. Each board of education shall adopt a policy whereby procedures will be used following instances of assault upon, disorderly conduct toward, harassment of, the making knowingly of a false allegation of child abuse against, or any alleged offense under the "Colorado Criminal Code" directed toward a school teacher or school employee or instances of damage occurring on the premises to the personal property of a school teacher or school employee by a student. Such procedures shall include, at a minimum, the following provisions:

   (c) The school administration shall report the incident to the district attorney or appropriate local law enforcement, which shall, upon receiving such report, investigate the incident to determine the appropriateness of filing criminal charges or initiating delinquency proceedings.

22-32-146. School use of on-site peace officers as school resource officers.

(1) If a school resource officer or other law enforcement officer acting in his or her official capacity on school grounds, in a school vehicle, or at a school activity or sanctioned event arrests a student of the school, the officer shall notify the principal of the school or his or her designee of the arrest within twenty-four hours after the arrest.

(2) If a school resource officer or other law enforcement officer acting in his or her official capacity on school grounds, in a school vehicle, or at a school activity or sanctioned event issues a summons, ticket, or other notice requiring the appearance of a student of the school in court or at a police station for investigation relating to an offense allegedly committed on school grounds, in a school vehicle, or at a school activity or sanctioned event, the officer shall notify the principal of the school or his or her designee of the issuance of the summons, ticket, or other notice within ten days after the issuance of the summons, ticket, or other notice.

Failure to submit a timely report to the division of criminal justice pursuant to this subsection (4) does not relieve a law enforcement agency of its responsibility to file the report required by this subsection (4). A law enforcement agency that has failed to file a timely report shall file all such reports with the division of criminal justice no later than August 15, 2015. Each such report must include, at a minimum, the following information:

   (b) The number of students arrested by the officer, including the offense for which each such arrest was made;

   (c) The number of summonses or tickets issued by the officer to students; and
(d) The age, gender, school, and race or ethnicity of each student whom the officer arrested or to whom the officer issued a summons, ticket, or other notice requiring the appearance of the student in court or at a police station for investigation relating to an offense allegedly committed on school grounds, in a school vehicle, or at a school activity or sanctioned event.

(5)(a) On or before August 1, 2015, each law enforcement agency that is acting or has acted in its official capacity on school grounds, in a school vehicle, or at a school activity or sanctioned event shall report to the division of criminal justice, in the formats developed by the division in conjunction with local law enforcement agencies, the information required pursuant to paragraph (c) of this subsection (5) that is related to all student tickets, summons, or arrests that occurred during the 2014-15 academic year, excluding incidents that occurred during the summer of 2014, at a public elementary school, middle or junior high school, or high school; in a school vehicle; or at a school activity or sanctioned event.

(b) Notwithstanding the provisions of section 19-1-303 (5), C.R.S., on or before August 1, 2016, and every August 1 thereafter, each law enforcement agency that is acting or has acted in its official capacity on school grounds, in a school vehicle, or at a school activity or sanctioned event shall report to the division of criminal justice, in formats developed by the division in conjunction with local law enforcement agencies, the information required pursuant to paragraph (c) of this subsection (5) that is related to all student tickets, summons, or arrests that occurred for the previous academic year, including incidents that occurred during the previous summer months, at a public elementary school, middle or junior high school, or high school; in a school vehicle; or at a school activity or sanctioned event.

(c) For each report required pursuant to paragraph (a) or (b) of this subsection (5), the law enforcement agency shall report:

(I) The student's full name;

22-33-105. Suspension, expulsion, and denial of admission.

(5)(a) Whenever a petition filed in juvenile court alleges that a child at least twelve years of age but under eighteen years of age has committed an offense that would constitute unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S., or a crime of violence, as defined in section 18-1.3-406, C.R.S., if committed by an adult or whenever charges filed in district court allege that a child has committed such an offense, basic identification information concerning such child and the details of the alleged delinquent
act or offense shall be provided immediately to the school district in which the child is enrolled in accordance with the provisions of section 19-1-304 (5), C.R.S. Upon receipt of such information, the board of education of the school district or its designee shall determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or of school personnel in the school and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The determination may be made in executive session to the extent allowed by section 24-6-402 (4)(h), C.R.S. If the board of education or its designee, in accordance with the provisions of this subsection (5), makes a determination that the student should not be educated in the school, it may proceed with suspension or expulsion in accordance with subsection (2) of this section and section 22-33-106. Alternatively, the board of education or its designee may determine that it will wait until the conclusion of the juvenile proceedings to consider the expulsion matter, in which case it shall be the responsibility of the district to provide the student with an appropriate alternate education program, including but not limited to an on-line program or on-line school authorized pursuant to article 30.7 of this title, or a home-based education program during the period pending the resolution of the juvenile proceedings. Information made available to the school district and not otherwise available to the public pursuant to the provisions of section 19-1-304, C.R.S., shall remain confidential.

22-33-106.5. Information concerning offenses committed by students. (1) Upon adjudication or conviction of a person under the age of eighteen years for an offense specified in section 22-33-106 (1)(d), the adjudicating juvenile court or the convicting district court, whichever is applicable, shall notify the school district in which the person is enrolled that the person is subject to mandatory expulsion based on the adjudication or conviction.

(2) Upon adjudication or conviction of a person under the age of eighteen years for an offense that constitutes a crime of violence, as defined in section 18-1.3-406, C.R.S., or for an offense involving controlled substances, or, for a person under eighteen years of age but at least twelve years of age, for an offense that would constitute unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S., if committed by an adult the adjudicating or convicting court shall notify the school district in which the person is enrolled of the person's adjudication or conviction.

22-33-107.5. Notice of failure to attend. (1) Except as otherwise provided in subsection (2) of this section, a school district shall notify the appropriate court or parole board if a student fails to attend all or any portion of a school day where the school district has received notice from the court or parole board:

(a) Pursuant to section 19-2-508 (3)(a)(X) that the student is required to attend school as a condition of release pending an adjudicatory trial;

(b) Pursuant to section 17-22.5-404, 18-1.3-204 (2.3), 19-2-907 (4), 19-2-925 (9), or 19-2-1002 (1) or (3) that the student is required to attend school as a condition of or in connection with any sentence imposed by the court, including a condition of probation or parole; or

(c) Pursuant to section 13-10-113 (8), C.R.S., that the student is required to attend school as a condition of or in connection with any sentence imposed by a municipal court.

(2) If the school district has notice that a student who is required to attend school as a condition of release or as a condition of or in connection with any sentence imposed by a court, including a condition of probation or parole, has enrolled in a nonpublic home-based educational program, pursuant to section 22-33-104.5, or in an independent or parochial school, the school district shall notify the appropriate court or parole board and shall no longer be required to notify the court or parole board, pursuant to subsection (1) of this section, if the student fails to attend.

(2) If a child or his parent desires court review of an order of the board of education issued pursuant to this article, he shall notify the board in writing within five days after receiving official notification of the board's action. The board of education shall thereupon issue, or cause to be issued, to the child or his parent a statement of the reasons for the board's action. Within ten days thereafter the child or his parents may file with the court a petition requesting that the order of the board of education be set aside, to which shall be appended the statement of the board of education. No docket or other fees shall be collected by the court in connection with this proceeding.

(3) After the petition is filed, the court shall notify the board and shall hold a hearing on the matter. The court shall conduct judicial review of a hearing decision pursuant to rule 106 (a)(4) of the Colorado rules of civil procedure and rule 3.8 of the Colorado rules of juvenile procedure.

(4) It is the duty of the attorney for the school district, an employee authorized by the local board of education pursuant to section 13-1-127 (7), C.R.S., to represent the school district in truancy proceedings, the attendance officer designated by the local board of education, or the local board of education to initiate, when appropriate, proceedings for the enforcement of the compulsory attendance provisions of this article upon request by the attendance officer of the district or of the state.

(5)(a) It is the intent of the general assembly that, in enforcing the compulsory school attendance requirements of this article, a school district shall employ best practices and research-based strategies to minimize the need for court action and the risk that a court will issue detention orders against a child or parent.

(b) A school district shall initiate court proceedings to compel a child and the child's parent to comply with the attendance requirements specified in this article but only as a last-resort approach to address the child's truancy and only if a child continues to be habitually truant after school or school district personnel have created and implemented a plan pursuant to section 22-33-107 (3) to improve the child's school attendance.

(c) Before initiating court proceedings to compel compliance with the attendance requirements specified in this article, the school district shall give the child and the child's parent written notice that the school district will initiate proceedings if the child does not comply with the attendance requirements of this article. The school district may combine the notice and summons. If combined, the petition must state the date on which the school district will initiate proceedings, which date must not be less than five days after the date of the notice and summons. The notice must state the provisions of this article with which compliance is required and must state that the school district will not initiate proceedings if the child complies with the identified provisions before the proceedings are filed.

(d) If a school district initiates court proceedings pursuant to this subsection (5), the school district, at a minimum, must submit to the court evidence of:

(I) The child's attendance record prior to and after the point at which the child was identified as habitually truant;

(II) Whether the child was identified as chronically absent and, if so, the strategies the school district used to improve the child's attendance;

(III) The interventions and strategies used to improve the child's attendance before school or school district personnel created the child's plan described in section 22-33-107 (3); and

(IV) The child's plan and the efforts of the child, the child's parent, and school or school district personnel to implement the plan.

(6) The court before which a proceeding to compel attendance is brought may issue, in its discretion, an order against the child or the child's parent or both compelling the child to attend school as provided by this article or compelling the parent to take reasonable steps to assure the child's attendance. The order
must require the child and parent to cooperate with the school district in complying with the plan created for the child pursuant to section 22-33-107 (3).

(7)(a) If the child or youth does not comply with the valid court order issued against the child or youth or against both the parent and the child or youth, the court may order that an assessment for neglect as described in section 19-3-102 (1) be conducted as provided in section 19-3-501. In addition, the court may order the child or youth to show cause why he or she should not be held in contempt of court. When instituting contempt of court proceedings pursuant to this subsection (7), the court shall provide all procedural protections mandated in rule 107 of the Colorado rules of civil procedure, or any successor rule, concerning punitive sanctions for contempt.

(a.5) A judge or magistrate of any court may issue a warrant that authorizes the taking into temporary custody of a child or youth who has failed to appear for a court hearing for a truancy or contempt action; except that any such warrant must provide for release of the child or youth from temporary custody on an unsecured personal recognizance bond that is cosigned by the child's or youth's parent or legal guardian or, if the child or youth is in the custody of the department of human services, cosigning may be accomplished by a representative of the department of human services. In the alternative, the warrant may direct that the child or youth must only be arrested while court is in session and that he or she be taken directly to court for an appearance rather than booked into secure confinement.

(b) The court may impose sanctions after a finding of contempt that may include, but need not be limited to, community service to be performed by the child or youth, supervised activities, participation in services for at-risk students, as described by section 22-33-204, and other activities having the goal of ensuring that the child or youth has an opportunity to obtain a quality education.

(c)(I) If the court finds that the child or youth has refused to comply with the plan created for the child or youth pursuant to section 22-33-107 (3), the court may impose on the child or youth, as a sanction for contempt of court, a sentence of detention for no more than forty-eight hours in a juvenile detention facility operated by or under contract with the department of human services pursuant to section 19-2-402 and any rules promulgated by the Colorado supreme court. The court shall not sentence a child or youth to detention as a sanction for contempt of court unless the court finds that detention is in the best interest of the child or youth as well as the public. In making such a finding, the court shall consider the following factors, including that:

(A) The child or youth has violated a valid court order;
(B) National and Colorado-specific evidence shows that detaining children and youth for truancy alone is counterproductive and harmful to children and youth;
(C) The legislative intent is that a child or youth who is truant must not be placed in secure confinement for truancy alone;
(D) Detention is likely to have a detrimental effect on the child's or youth's school attendance; and
(E) Detention is likely to have an effect on the child's or youth's future involvement with the criminal justice system.

(II) There is a rebuttable presumption that a child or youth must receive credit for time served if he or she is sentenced to detention pursuant to subsection (7)(c)(I) of this section for violating a valid court order to attend school. If the court rebuts this presumption, it shall explain its reasoning on the record.

(8) If the parent refuses or neglects to obey the order issued against the parent or against both the parent and the child, the court may order the parent to show cause why he or she should not be held in contempt of court, and, if the parent fails to show cause, the court may impose a fine of up to but not more than twenty-five dollars per day or confine the parent in the county jail until the order is complied with.
24-10-106.3. Immunity and partial waiver - claims for serious bodily injury or death on public school property or at school-sponsored events resulting from incidents of school violence - short title - definitions.

(1) This section shall be known and may be cited as the "Claire Davis School Safety Act".

(c) "Incident of school violence" means an occurrence at a public school or public school-sponsored activity in which a person:

(i) Engaged in a crime of violence; and

(ii) The actions described in subparagraph (i) of this paragraph (c) by that person caused serious bodily injury or death to any other person.

(d) "Public school" has the same meaning as provided in section 22-1-101, C.R.S., and includes a charter school or institute charter school.

(e) "School district" means a school district organized pursuant to article 30 of title 22, C.R.S., and the charter school institute established pursuant to section 22-30.5-503, C.R.S.

All school districts and charter schools and their employees in this state have a duty to exercise reasonable care to protect all students, faculty, and staff from harm from acts committed by another person when the harm is reasonably foreseeable, while such students, faculty, and staff are within the school facilities or are participating in school-sponsored activities.

(4) Limited waiver of sovereign immunity. Notwithstanding any other provision of this article, a public school district or charter school is immune from liability in all claims for injury that lie in tort or could lie in tort regardless of whether that may be the type of action or the form of relief chosen by the claimant except as otherwise provided in this section or in this article. In addition to any other claims for which the "Colorado Governmental Immunity Act" waives sovereign immunity in this article, sovereign immunity is waived under the "Colorado Governmental Immunity Act" with respect to school districts and charter schools for a claim of a breach of the duty of care established in subsection (3) of this section by the school district, a charter school, or an employee of the school district or charter school arising from an incident of school violence on or after June 3, 2015, and, with respect to such claims, the provisions of article 12 of title 22, C.R.S., do not apply to school districts and charter schools. An employee of a public school, school district, or a charter school is not subject to suit under this section in his or her individual capacity unless the employee's actions or omissions are willful and wanton.

(5) A public school, school district, or charter school shall not be found negligent under this section solely as a result of not expelling or suspending any student.

(6) Nothing in this section shall be construed to constitute a waiver of sovereign immunity by a school district or charter school if the injury arises from any act, or failure to act, of an employee of the school
district or charter school if the act is the type of act for which the school district or charter school employee would be or heretofore has been personally immune from liability.

(7) In addition to the immunity provided under this section, the school district and charter school shall also have the same immunity as a school district or charter school employee for any act or failure to act for which a school district or charter school employee would be or heretofore has been personally immune from liability.

(8) No rule of law imposing absolute or strict liability shall be applied in any action filed against a school district or charter school pursuant to this section for serious bodily injury or death caused by a breach of the duty of care, established pursuant to subsection (3) of this section. No liability shall be imposed in any such action unless negligence is proven.

(9)(a) Except as provided in paragraph (b) of this subsection (9), the maximum amount of damages that may be recovered under this article in any single occurrence from a school district or charter school for a claim brought under this section is governed by the limits set forth in section 24-10-114 (1).

(10) In order to promote vigorous discovery of events leading to an incident of school violence in any action brought under this section, an offer of judgment by a defendant under section 13-17-202, C.R.S., prior to the completion of discovery, is not deemed rejected if not accepted until fourteen days after the completion of discovery, and the plaintiff is not liable for costs due to not accepting such an offer of judgment until fourteen days after the completion of discovery. If a defendant refuses to answer a complaint, or a default judgment is entered against a defendant for failure to answer a complaint, or a defendant confesses liability in an action brought under this section, the court shall allow full discovery upon request of the plaintiff.

The report must analyze the data by race, age, gender, ethnicity, and the specific type of offense with all national crime information center crime codes. Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.
