(d)(1) Each school district, charter school, non-public school, approved private day or residential school and collaborative school shall develop, adhere to and update a plan to address bullying prevention and intervention in consultation with teachers, school staff, professional support personnel, school volunteers, administrators, community representatives, local law enforcement agencies, students, parents and guardians. The plan shall apply to students and members of a school staff, including, but not limited to, educators, administrators, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to an extracurricular activity and paraprofessionals. The consultation shall include, but not be limited to, notice and a public comment period; provided, however, that a non-public school shall only be required to give notice to and provide a comment period for families that have a child attending the school. The plan shall be updated at least biennially.

(2) Each plan shall include, but not be limited to: (i) descriptions of and statements prohibiting bullying, cyber-bullying and retaliation, including procedures for collecting, maintaining and reporting bullying incident data required under subsection (k); (ii) clear procedures for students, staff, parents, guardians and others to report bullying or retaliation; (iii) a provision that reports of bullying or retaliation may be made anonymously; provided, however, that no disciplinary action shall be taken against a student solely on the basis of an anonymous report; (iv) clear procedures for promptly responding to and investigating reports of bullying or retaliation; (v) the range of disciplinary actions that may be taken against a perpetrator for bullying or retaliation; provided, however, that the disciplinary actions shall balance the need for accountability with the need to teach appropriate behavior; (vi) clear procedures for restoring a sense of safety for a victim and assessing that victim's needs for protection; (vii) strategies for protecting from bullying or retaliation a person who reports bullying, provides information during an investigation of bullying or witnesses or has reliable information about an act of bullying; (viii) procedures consistent with state and federal law for promptly notifying the parents or guardians of a victim and a perpetrator; provided, that the parents or guardians of a victim shall also be notified of the action taken to prevent any further acts of bullying or retaliation; and provided, further, that the procedures shall provide for immediate notification pursuant to regulations promulgated under this subsection by the principal or person who holds a comparable role to the local law enforcement agency when criminal charges may be pursued against the perpetrator; (ix) a provision that a student who
knowingly makes a false accusation of bullying or retaliation shall be subject to disciplinary action; and
(x) a strategy for providing counseling or referral to appropriate services for perpetrators and victims
and for appropriate family members of said students. The plan shall afford all students the same
protection regardless of their status under the law.

district, charter school, non-public school, approved private day or residential school and collaborative
school shall take to support vulnerable students and to provide all students with the skills, knowledge
and strategies needed to prevent or respond to bullying or harassment. A school district, charter school,
non-public school, approved private day or residential school or collaborative school may establish
separate discrimination or harassment policies that include additional categories of students. Nothing in
this section shall alter the obligations of a school district, charter school, non-public school, approved
private day or residential school or collaborative school to remediate any discrimination or harassment
based on a person's membership in a legally protected category under local, state or federal law.

(4) The plan for a school district, charter school, approved private day or residential school and
collaborative school shall include a provision for ongoing professional development to build the skills of
all staff members, including, but not limited to, educators, administrators, school nurses, cafeteria
workers, custodians, bus drivers, athletic coaches, advisors to extracurricular activities and
paraprofessionals, to prevent, identify and respond to bullying. The content of such professional
development shall include, but not be limited to: (i) developmentally appropriate strategies to prevent
bullying incidents; (ii) developmentally appropriate strategies for immediate, effective interventions to
stop bullying incidents; (iii) information regarding the complex interaction and power differential that can
take place between and among a perpetrator, victim and witnesses to the bullying; (iv) research findings
on bullying, including information about students who have been shown to be particularly at risk for
bullying in the school environment; (v) information on the incidence and nature of cyber-bullying; and

information on alternative methods for fulfilling the professional development requirements of this
section, at least 1 of these alternative methods shall be available at no cost to school districts, charter
schools, approved private day or residential schools and collaborative schools.

districts, charter schools, approved private day or residential schools and collaborative schools shall be
subject to the regulations. A non-public school shall develop procedures for immediate notification by
the principal or person who holds a comparable role to the local law enforcement agency when criminal
charges may be pursued against the perpetrator.

(e)(1) Each school district, charter school, non-public school, approved private day or residential school
and collaborative school shall provide to students and parents or guardians, in age-appropriate terms and

The faculty and staff at each school shall be trained annually on the plan applicable to the school. Relevant sections of the plan relating to the duties of faculty and staff shall be included in a school district or school employee handbook.

(3) The plan shall be posted on the website of each school district, charter school, non-public school, approved private day or residential school and collaborative school.

(f) Each school principal or the person who holds a comparable position shall be responsible for the implementation and oversight of the plan at his school.

(g) A member of a school staff, including, but not limited to, an educator, administrator, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity or paraprofessional, shall immediately report any instance of bullying or retaliation the staff member has witnessed or become aware of to the principal or to the school official identified in the plan as responsible for receiving such reports or both. Upon receipt of such a report, the school principal or a designee shall promptly conduct an investigation. If the school principal or a designee determines that bullying or retaliation has occurred, the school principal or designee shall (i) notify the local law enforcement agency if the school principal or designee believes that criminal charges may be pursued against a perpetrator; (ii) take appropriate disciplinary action; (iii) notify the parents or guardians of a perpetrator; (iv) notify the parents or guardians of the victim, and to the extent consistent with state and federal law, notify them of the action taken to prevent any further acts of bullying or retaliation; and (v) inform the parents or guardians of the victim about the department's problem resolution system and the process for seeking assistance or filing a claim through the problem resolution system.

(h) If an incident of bullying or retaliation involves students from more than one school district, charter school, non-public school, approved private day or residential school or collaborative school, the school district or school first informed of the bullying or retaliation shall, consistent with state and federal law, promptly notify the appropriate administrator of the other school district or school so that both may take appropriate action. If an incident of bullying or retaliation occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in a local school district, charter school, non-public school, approved private day or residential school or collaborative school, the school district or school informed of the bullying or retaliation shall contact law enforcement consistent with the provisions of clause (viii) of the second paragraph of subsection (d).

(i) Nothing in this section shall supersede or replace existing rights or remedies under any other general or special law, nor shall this section create a private right of action.

(j) The department, after consultation with the department of public health, the department of mental health, the attorney general, the Massachusetts District Attorneys Association and experts on bullying shall: (i) publish a model plan for school districts and schools to consider when creating their plans; and (ii) compile a list of bullying prevention and intervention resources, evidence-based curricula, best practices and academic-based research that shall be made available to schools. The model plan shall be consistent with the behavioral health and public schools framework developed by the department in accordance with section 19 of chapter 321 of the acts of 2008. The resources may include, but shall not be limited to, print, audio, video or digital media; subscription based online services; and on-site or technology-enabled professional development and training sessions. The department shall biennially update the model plan and the list of the resources, curricula, best practices and research and shall post them on its website.

(k) Each school district, charter school, approved private day or residential school and collaborative school shall annually report bullying incident data to the department. The data shall include, but not be limited to: (i) the number of reported allegations of bullying or retaliation; (ii) the number and nature of
substantiated incidents of bullying or retaliation; (iii) the number of students disciplined for engaging in bullying or retaliation; and (iv) any other information required by the department. Said incident data shall be reported in the form and manner established by the department, in consultation with the attorney general; provided, that the department shall minimize the costs and resources needed to comply with said reporting requirements; and provided further, that the department may use existing data collection and reporting mechanisms to collect the information from school districts. The department shall analyze the bullying incident data and shall publish an annual report containing aggregate statewide information on the frequency and nature of bullying in schools. The department shall file the annual report with the attorney general and with the clerks of the senate and the house of representatives who shall forward the same to the chairs of the joint committee on education, the joint committee on the judiciary and the house and senate committees on ways and means.

(l) The department shall develop a student survey to assess school climate and the prevalence, nature and severity of bullying in schools. The survey shall be administered by each school district, charter school, approved private day or residential school and collaborative school at least once every 4 years. The survey shall be designed to protect student privacy and allow for anonymous participation by students.

The school official identified in the plan as responsible for receiving reports of bullying or retaliation shall verify the completion of the student surveys. All completed surveys shall be forwarded to the department. The department shall use the survey results to help assess the effectiveness of bullying prevention curricula and instruction developed and administered under subsection (c). The department shall collect and analyze the student survey data in order to: compare the survey results with the bullying incident data reported under subsection (k); identify long-term trends and areas of improvement; and monitor bullying prevention efforts in schools over time. The department shall make its findings available to the school official.

(m) Each school district, charter school, approved private day or residential school or collaborative school may adopt an anti-bullying seal to represent the district or school's commitment to bullying prevention and intervention.

(n) The department may investigate certain alleged incidents of bullying. If, upon completion of investigation by the department, a school district, charter school, approved private day or residential school or collaborative school is found to not have properly implemented its prevention plan as outlined in subsection (d), the department may require that school district, charter school, approved private day or residential school or collaborative school to properly implement the plan or take other actions to address the findings of the investigation.

The student shall receive the written notification and shall have the opportunity to meet with the principal or headmaster, or a designee, to discuss the charges and reasons for the suspension or expulsion prior to the suspension or expulsion taking effect. The principal or headmaster, or a designee, shall ensure that the parent or guardian of the student is included in the meeting, provided that such meeting may take place without the parent or guardian only if the principal or headmaster, or a designee, can document reasonable efforts to include the parent or guardian in that meeting. (d) If a decision is made to suspend or expel the student after the meeting, the principal or headmaster, or a designee, shall update the notification for the suspension or expulsion to reflect the meeting with the student. At the hearing, the student shall have the right to present oral and written testimony, cross-examine witnesses and shall have the right to counsel. The superintendent shall render a decision on the appeal in writing within 5 calendar days of the hearing. That decision shall be the final decision of the school district with regard to the suspension or expulsion.

ALM GL ch. 76, § 1A. Pupil absence notification programs.
Upon the acceptance of this section by the local legislative body of a city or town, or by a majority vote of two-thirds of the member communities of a regional school district, the school committee of a city, town or regional school district shall establish a pupil absence notification program in all schools under its control. Said program may be developed with the assistance of the department of education. The parents or guardians of each pupil shall, annually, at the commencement of each school year, be sent a notice instructing them to call a designated telephone number at a designated time to inform the school of the absence of a pupil and the reason therefor. Said notice shall also require such parent or guardian to furnish the school with a home, work or other emergency telephone number where they can be contacted during the school day. If a pupil is absent and the school has not been notified by the designated time, the school shall call the telephone number or numbers furnished to inquire about said absence.

ALM GL ch. 76, § 1B. Pupil absence notification program.
The school committee of each city, town or regional school district shall have a pupil absence notification program in each of its schools. Each school committee shall have a policy of notifying the parent or guardian of a student who has at least 5 days in which the student has missed 2 or more periods unexcused in a school year or who has missed 5 or more school days unexcused in a school year. The notification policy shall require that the school principal or headmaster, or a designee, make a reasonable effort to meet with the parent or guardian of a student who has 5 or more unexcused absences to develop action steps for student attendance. The action steps shall be developed jointly and agreed upon by the school principal or headmaster, or a designee, the student and the student's parent or guardian and with input from other relevant school personnel and officials from relevant public safety, health and human service, housing and nonprofit agencies.

ALM GL ch. 76, § 18. Notice to parent or guardian and meeting with school committee prerequisite to student permanently leaving school; annual report; application of section.
No student who has not graduated from high school shall be considered to have permanently left public school unless an administrator of the school which the student last attended has sent notice within a period of 5 days from the student's tenth consecutive absence to the student and the parent or guardian of that student in both the primary language of the parent or guardian, to the extent practicable, and English. The notice shall initially offer at least 2 dates and times for an exit interview between the superintendent, or a designee, and the student and the parent or guardian of the student to occur prior to the student permanently leaving school and shall include contact information for scheduling the exit interview. The notice shall indicate that the parties shall agree upon a date and time for the exit interview, and that interview shall occur within 10 days after the sending of the notice. The time for the exit interview may be extended at the request of the parent or guardian and no extension shall be for longer than 14 days. The superintendent, or a designee, may proceed with any such interview without a parent or guardian if the superintendent, or a designee, makes a good faith effort to include the parent or guardian. The principal shall send the written determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or other method of delivery agreed to by the principal and the parent. The principal shall also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting shall be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. **REGULATIONS**

**603 CMR 53.01. Purpose and scope.**

(2) 603 CMR 53.00 sets forth, for all public preschool, elementary, and secondary schools and programs in Massachusetts, including charter and virtual schools:

   (c) requirements pertaining to school discipline data reporting and analysis.

**603 CMR 53.14. Student suspension and expulsion data collection and reporting.**

(1) Every school district, charter school, and virtual school shall collect and annually report data to the Department regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals under 603 CMR 53.07, access to education services under 603 CMR 53.13, and such other information as may be required by the Department. Such data shall be reported in a manner and form directed by the Department.

(2) The principal of each school shall periodically review discipline data by selected student populations, including but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status. In reviewing the data, the principal shall assess the extent of in-school suspensions, short- and long-term suspensions, expulsions, and emergency removals under 603 CMR 53.07, and the impact of such disciplinary action on selected student populations. The principal shall further determine whether it is necessary or appropriate to modify disciplinary practices due to over-reliance on expulsion, or in-school school or out-of-school suspension, or emergency removals, or the impact of such suspensions, removals, and expulsions on selected student populations compared with other students.

(3) In the fall of each year, the Department shall publish an analysis and report of student discipline data disaggregated by district and school, and by selected student populations, included but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status. The data shall be reported in a manner that protects the identity of each student and shall be made available to the public online in a machine readable format.

(4) The Department shall annually determine the schools with the highest percentage of students expelled or placed on long-term suspension for more than ten cumulative days in a school year. After review of the discipline data described in 603 CMR 53.14(3) and other relevant school and district information, including but not limited to student demographics, student performance, promotion, attendance, attrition, graduation, and dropout rates, the Commissioner shall identify schools that need assistance to reduce over-reliance on long-term suspension or expulsion as a consequence for student misconduct. The Department shall identify models that such schools may use to incorporate intermediate steps before long-term suspension and expulsion and to foster positive school climate.

Through use of statistical analysis, the Commissioner shall identify schools and districts with data that reflect significant disparities in the rate of suspension and expulsion by race and ethnicity, or disability. Such schools and districts shall develop and implement a plan approved by the Department to address such significant disparities.

Nothing in 603 CMR 49.06 shall be interpreted to require reporting to a law enforcement agency in situations in which bullying and retaliation can be handled appropriately within the school district or school.
(a) In making the determination whether notification to law enforcement is appropriate, the principal may consult with the school resource officer and any other individuals the principal deems appropriate.

(b) Nothing in 603 CMR 49.06 shall prevent the principal from taking appropriate disciplinary or other action pursuant to school district or school policy and state law, provided that disciplinary actions balance the need for accountability with the need to teach appropriate behavior.

Prior to issuing its recommendations, the commission shall provide the opportunity to seek public input across regions of the commonwealth. It shall not constitute a violation of chapter 268A for a person employed by a school district to serve on the commission or to participate in commission deliberations that may have a financial impact on the district or municipality employing that person. The commission may establish procedures to ensure that no such person participates in commission deliberations that may directly affect the school districts employing those persons.

(c) The executive office of public safety and security, in consultation with the department of elementary and secondary education, shall make available to all communities the model memorandum of understanding, statements of operating procedures and advisories on how to establish said documents.

The chief of police shall give preference to candidates who demonstrate the requisite personality and character to work effectively with children, youth and educators in a school environment with a demonstrated ability to work successfully with a population that has a similar racial and ethnic background as those prevalent in the student body, and who have received
specialized training relating to working with adolescents and children, including cognitive development, de-escalation tactics, as defined in section 1 of chapter 6E and alternatives to arrest and diversion strategies. The appointment shall not be based solely on seniority. The performance of a school resource officer shall be reviewed annually by the superintendent and the chief of police.

The superintendent and the chief of police shall adopt, at minimum, the model memorandum of understanding developed by the commission pursuant to subsection (b) and may add further provisions as they mutually deem fit; provided, however, that no further provision included in the memorandum of understanding adopted by said superintendent and said chief of police shall conflict with or omit any provisions of this section. (vi) protocols for diverting and referring at-risk students to school and community-based supports and providers; and
(vii) information sharing between the school resource officer, school staff and parents or guardians.

(e) Each school shall annually file its final memorandum of understanding and operating procedures with the department of elementary and secondary education. The department of elementary and secondary education shall collect data on the number of mental and social emotional health support personnel and the number of school resource officers employed by each local education agency and shall publish a report of the data on its website. The department shall promulgate rules or regulations necessary to carry out this section.

(f) Notwithstanding subsection (d), if the chief of police, in consultation with the superintendent, determines that there are not sufficient resources to assign a school resource officer to serve the city, town, regional school district or county agricultural school, the chief of police shall consult with the department of state police to ensure that a school resource officer is assigned, subject to appropriation, pursuant to the requirements of this section; provided, further, that if a state police officer is assigned to a city, town, regional school district or county agricultural school, said assignment shall not be based solely on seniority and a candidate shall be considered who would strive to foster an optimal learning environment and educational community; provided, further, that there shall be placed on file in the office of the superintendent and the department of state police the final memorandum of understanding clearly defining the roles and duties of the school resource officer.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. (1) A pupil who uses a locker that is the property of a school district, local act school district, intermediate school district, or public school academy is presumed to have no expectation of privacy in that locker or that locker's contents.

(2) If the board of a school district, local act school district, or intermediate school district or board of directors of a public school academy operates a school that has pupil lockers, then not later than 180 days after the effective date of this section the board or board of directors shall adopt a policy on searches of pupils' lockers and locker contents. This policy shall provide that, in the course of a search conducted pursuant to the policy, the privacy rights of the pupil shall be respected regarding any items that are not illegal or against school policy. The board or board of directors shall provide a copy of this policy to each pupil at a school that has lockers and to the parent or legal guardian of each of those pupils. The board or board of directors shall also provide a copy of the policy to the department upon request by the department.

380.1307a. Use of seclusion and restraint in public schools; adoption and implementation of local policy; noncompliance as violation of act.

Not later than the beginning of the 2017-2018 school year, the board of a school district or intermediate school district or board of directors of a public school academy shall adopt and implement a local policy that is consistent with the state policy under this section. 380.1309. Conduct constituting suspension; action by teacher; report; supervision; conference; return by student; adoption of local policy by school board; definitions.

(1) If a teacher in a public school has good reason to believe that a pupil's conduct in a class, subject, or activity constitutes conduct for which the pupil may be suspended from a class, subject, or activity according to the local policy required under subsection (2), the teacher may cause the pupil to be suspended from the class, subject, or activity for up to 1 full school day. The teacher shall immediately report the suspension and the reason for the suspension to the school principal and send the pupil to the school principal or the school principal's designee for appropriate action. If that action requires the continued presence of the pupil at school, the pupil shall be under appropriate supervision. As soon as possible after a suspension under this section, the teacher shall ask the parent or guardian of the pupil to attend a parent-teacher conference regarding the suspension. Whenever practicable, a school counselor, school psychologist, or school social worker shall attend the conference. A school administrator shall attend the conference if the teacher or the parent or guardian so requests. During a suspension under this section, the pupil shall not be returned that school day to the class, subject, or activity from which he

(2) Subject to subsection (3), before adopting the policy required under subsection (1) or any modification to the policy, the board or board of directors shall hold at least 1 public hearing on the proposed policy or modification. This public hearing may be held as part of a regular board meeting. Subject to subsection (3), not later than 30 days after adopting or modifying the policy under subsection (1), the board or board of directors shall submit a copy of its policy to the department.

(3) If, as of March 31, 2015, a school district, intermediate school district, or public school academy has already adopted and implemented an existing policy prohibiting bullying at school and that policy is in compliance with subsections (1) and (5), the board of the school district or intermediate school district or board of directors of the public school academy is not required to adopt and implement a modified policy under subsection (1). However, this subsection applies to a school district, intermediate school district, or public school academy described in this subsection only if the board or board of directors submits a copy of its policy to the department not later than May 31, 2015.

(4) Not later than 1 year after the deadline under subsection (2) for districts and public school academies to submit copies of their modified policies to the department, the department shall submit a report to the senate and house standing committees on education summarizing the status of the implementation of the modifications to policies required under 2014 PA 478.

(6) The legislature encourages a board or board of directors to include all of the following in the policy required under this section:

(d) Provisions for considering the use of restorative practices in the correction of bullying behavior, as described in section 1310c.

380.1310c. Restorative practices as alternative or in addition to suspension or expulsion; definitions.

(1) A school board or its designee shall consider using restorative practices as an alternative or in addition to suspension or expulsion under this act. If a school board or its designee suspends or expels a pupil under this act, the school board or its designee shall consider using restorative practices in addition to suspension or expulsion. If a school board or its designee decides not to suspend or expel a pupil for a disciplinary issue, the school board or its designee shall consider using restorative practices to address the disciplinary issue.

(2) Restorative practices may include victim-offender conferences that are initiated by the victim; that are approved by the victim's parent or legal guardian or, if the victim is at least age 15, by the victim; that are attended voluntarily by the victim, a victim advocate, the offender, members or the school community, and supporters of the victim and the offender; and that provide an opportunity for the offender to accept responsibility for the harm caused to those affected by the misconduct and to participate in setting consequences to repair the harm. The attendees, known as a restorative practices team, may require the pupil to do 1 or more of the following: apologize; participate in community service, restoration, or counseling; or pay restitution. The selected consequences shall be incorporated into an agreement that sets time limits for completion of the consequences and is signed by all participants. Restorative practices should be the first consideration to remediate offenses such as interpersonal conflicts, bullying, verbal and physical conflicts, theft, damage to property, class disruption, and harassment and cyberbullying.

(3) As used in this section:

(a) "Bullying" and "cyberbullying" mean those terms as defined in section 1310b.

(b) "Restorative practices" means practices that emphasize repairing the harm to the victim and the school community caused by a pupil's misconduct.

(c) "School board" means a school board, intermediate school board, or the board of directors of a public school academy.

(d) "School district" means a school district, an intermediate school district, or a public school academy.

380.1310d. Suspension or expulsion of pupil; factors; exercise of discretion; rebuttable presumption; section inapplicable for possession of firearm in weapon free school zone; consideration of factors mandatory; definitions.

(1) Before suspending or expelling a pupil under section 1310, 1311(1), 1311(2), or 1311a, the board of a school district or intermediate school district or board of directors of a public school academy, or a
superintendent, school principal, or other designee under section 1311(1), shall consider each of the following factors:

(a) The pupil's age.
(b) The pupil's disciplinary history.
(c) Whether the pupil is a student with a disability.
(d) The seriousness of the violation or behavior committed by the pupil.
(e) Whether the violation or behavior committed by the pupil threatened the safety of any pupil or staff member.
(f) Whether restorative practices will be used to address the violation or behavior committed by the pupil.
(g) Whether a lesser intervention would properly address the violation or behavior committed by the pupil.

(2) Except as provided in subsection (3), this section applies to give the board of a school district or intermediate school district or board of directors of a public school academy, or its designee, discretion over whether or not to suspend or expel a pupil under section 1310, 1311(1), 1311(2), or 1311a. In exercising this discretion with regard to a suspension of more than 10 days or an expulsion, there is a rebuttable presumption that a suspension or expulsion is not justified unless the board or board of directors, or its designee, can demonstrate that it considered each of the factors listed under subsection (1). For a suspension of 10 or fewer days, there is no rebuttable presumption, but the board or board of directors, or its designee, shall consider each of the factors listed under subsection (1).

(3) This section does not apply to a pupil being expelled under section 1311(2) for possessing a firearm in a weapon free school zone.

(4) Except as provided in subsection (3), consideration of the factors listed in subsection (1) is mandatory before suspending or expelling a student under section 1310, 1311(1), 1311(2), or 1311a. The method used for consideration of the factors is at the sole discretion of the board of a school district or intermediate school district or board of directors of a public school academy, or its designee.

380.1311a. Physical assault by pupil against employee, volunteer, or contractor; expulsion; verbal assault or bomb threat; suspension or expulsion; alternative services; referral; reinstatement; immunity from liability; petition for reinstatement form; rights of pupils eligible for special education programs and services; eligibility of school for prorated share of foundation allowance; report of assaults; responsibility for enrollment in educational program; definitions.

(5) The parent or legal guardian of an individual permanently expelled pursuant to this section or, if the individual is at least age 18 or is an emancipated minor, the individual may petition the expelling school board for reinstatement of the individual to public education in the school district. If the expelling school board denies a petition for reinstatement, the parent or legal guardian or, if the individual is at least age 18 or is an emancipated minor, the individual may petition another school board for reinstatement of the individual in that other school district. All of the following apply to reinstatement under this subsection:

(g) A school board may require an individual and, if the petition was filed by a parent or legal guardian, his or her parent or legal guardian to agree in writing to specific conditions before reinstating the individual in a conditional reinstatement. The conditions may include, but are not limited to, agreement to a behavior contract, which may involve the individual, parent or legal guardian, and an outside agency; participation in or completion of an anger management program or other appropriate counseling; periodic progress reviews; and specified immediate consequences for failure to abide by a condition. A parent or legal guardian or, if the individual is at least age 18 or is an emancipated minor,
the individual may include proposed conditions in a petition for reinstatement submitted under this subsection.

(6) A person who willfully or through gross negligence violates subsection (3) or who willfully or through gross negligence violates subsection (4) may be appropriately disciplined by his or her school board or public school academy. This subsection does not limit a school board's or public school academy’s authority to discipline an employee for a violation of its own policies.

(7) In determining whether an employee, volunteer, or contractor has acted in accordance with subsection (4), deference shall be given to reasonable good-faith judgments made by that person.

(8) A local or intermediate school district or a public school academy shall develop and implement a code of student conduct and shall enforce its provisions with regard to pupil misconduct in a classroom, elsewhere on school premises, on a school bus or other school-related vehicle, or at a school sponsored activity or event whether or not it is held on school premises.

(9) The department shall develop a model list of alternatives to the use of corporal punishment. (1) It is the intent of the legislature that sections 1307 to 1307h shall provide for a uniform policy regarding the use of seclusion and restraint in the public schools that accomplishes the following objectives:

(a) Promotes the care, safety, welfare, and security of the school community and the dignity of each pupil.

(b) Encourages the use of proactive, effective, evidence- and research-based strategies and best practices to reduce the occurrence of challenging behaviors, eliminate the use of seclusion and restraint, and increase meaningful instructional time for all pupils.

(c) Ensures that seclusion and physical restraint are used only as a last resort in an emergency situation and are subject to diligent assessment, monitoring, documentation, and reporting by trained personnel.

(d) Clearly defines the terms "seclusion", "restraint", "emergency seclusion", and "emergency physical restraint" and clearly states the procedures for the use of emergency seclusion and emergency physical restraint.

(2) Sections 1307 to 1307h do not limit any right or remedy of an individual under state or federal law.

380.1307a. Use of seclusion and restraint in public schools; adoption and implementation of local policy; noncompliance as violation of act.

Not later than December 1, 2016, the department shall develop a state policy regarding the use of seclusion and restraint in the public schools that includes all of the elements under sections 1307b to
1307h, along with guidelines as the department considers appropriate. Not later than the beginning of the 2017-2018 school year, the board of a school district or intermediate school district or board of directors of a public school academy shall adopt and implement a local policy that is consistent with the state policy under this section. (d) A requirement that school personnel shall call key identified personnel for help from within the school building either immediately at the onset of an emergency situation or, if it is reasonable under the particular circumstances for school personnel to believe that diverting their attention to calling for help would increase the risk to the safety of the pupil or to the safety of others, as soon as possible once the circumstances no longer support such a belief.
(e) A requirement that the school district, intermediate school district, or public school academy must ensure that substitute teachers are informed of and understand the procedures regarding use of emergency seclusion and emergency physical restraint. This requirement may be satisfied using online
training and an online acknowledgment of understanding developed or approved by the department and completed by the substitute teacher.

(f) Emergency seclusion should not be used any longer than necessary, based on research and evidence, to allow a pupil to regain control of his or her behavior to the point that the emergency situation necessitating the use of emergency seclusion is ended and generally no longer than 15 minutes for an elementary school pupil or 20 minutes for a middle school or high school pupil. If an emergency seclusion lasts longer than 15 minutes for an elementary school pupil or 20 minutes for a middle school or high school pupil, all of the following are required:

   (v) Ensure that at all times during the use of emergency seclusion or emergency physical restraint there are school personnel present who can communicate with the pupil using the pupil's primary mode of communication.

380.1307d. Documentation and reporting of seclusion and restraint; state policy; provisions.

The state policy under section 1307a shall include at least all of the following provisions concerning documentation and reporting of seclusion and restraint:

(i) Conduct a functional behavioral assessment.
(ii) Develop or revise a positive behavioral intervention and support plan to facilitate the elimination of the use of seclusion and restraint.
(iii) Develop an assessment and planning process conducted by a team knowledgeable about the pupil, including at least the parent or guardian; the pupil, if appropriate; the individuals responsible for implementation of the positive behavioral intervention and support plan; and individuals knowledgeable in positive behavioral intervention and support.

380.1307e. Development and implementation of emergency intervention plan; state policy; provisions.

The state policy under section 1307a shall include at least all of the following provisions concerning development and implementation of an emergency intervention plan:

(b) A pupil who is the subject of an emergency intervention plan should be told or shown the circumstances under which emergency seclusion or emergency physical restraint could be used.
Emergency seclusion or emergency physical restraint must only be used in response to an ongoing emergency situation and not as a planned response for the convenience of school personnel, as discipline or punishment, or as a substitute for an appropriate educational program. The development of an emergency intervention plan shall be solely for the purpose of protecting the health, safety, and dignity of the pupil and does not expand the legally permissible use of emergency seclusion or emergency physical restraint.

(1) If a teacher in a public school has good reason to believe that a pupil's conduct in a class, subject, or activity constitutes conduct for which the pupil may be suspended from a class, subject, or activity according to the local policy required under subsection (2), the teacher may cause the pupil to be suspended from the class, subject, or activity for up to 1 full school day. The teacher shall immediately report the suspension and the reason for the suspension to the school principal and send the pupil to the school principal or the school principal's designee for appropriate action. If that action requires the continued presence of the pupil at school, the pupil shall be under appropriate supervision. As soon as possible after a suspension under this section, the teacher shall ask the parent or guardian of the pupil to attend a parent-teacher conference regarding the suspension. Whenever practicable, a school counselor, school psychologist, or school social worker shall attend the conference. A school administrator shall attend the conference if the teacher or the parent or guardian so requests. During a suspension under this section, the pupil shall not be returned that school day to the class, subject, or activity from which he or she was suspended without the concurrence of the teacher of the class, subject, or activity and the school principal.

The attendees, known as a restorative practices team, may require the pupil to do 1 or more of the following: apologize; participate in community service, restoration, or counseling; or pay restitution. The selected consequences shall be incorporated into an agreement that sets time limits for completion of the consequences and is signed by all participants. The office for safe schools in the department shall compile information on and catalog existing alternative education programs or schools and nonpublic schools that may be open to enrollment of individuals expelled pursuant to this section and pursuant to section 1311(2), and shall periodically distribute this information to school districts for distribution to expelled individuals. A school board that establishes an alternative education program or school described in this subsection shall notify the office of safe schools about the program or school and the types of pupils it serves. The office for safe schools also shall work with and provide technical assistance to school districts, authorizing bodies for public school academies, and other interested parties in developing these types of alternative education programs or schools in geographic areas that are not being served.

380.1311g. Strict discipline academy; location; tuition; admission policies or practices; enrollment; types of pupils; special education pupil; pupils committed to high-security or medium-security juvenile facility, mental health facility, or child caring institution; pupil ceasing to meet requirements under subsections (3) to (5); custody of or jurisdiction over child by department of corrections; residence requirements; grades.

(1) A strict discipline academy may be located in all or part of an existing public school building. Except for a strict discipline academy that includes pupils who are the responsibility of a county juvenile agency, a strict discipline academy shall not operate at a site other than the single site requested for the configuration of grades that will use the site, as specified in the application required under section 1311d and in the contract.

(2) A strict discipline academy shall not charge tuition. Except as otherwise provided in subsection (6), a strict discipline academy shall not discriminate in its pupil admissions policies or practices on the basis of intellectual or athletic ability, measures of achievement or aptitude, status as a student with a disability, or any other basis that would be illegal if used by a school district. However, a strict discipline academy may limit admission to pupils who are within a particular range of age or grade level or on any other basis that would be legal if used by a school district.

(3) A strict discipline academy shall be established under sections 1311b to 1311m specifically for enrolling 1 or more of the following types of pupils:

(a) Pupils placed in the strict discipline academy by a court or by the department of health and human services or a county juvenile agency under the direction of a court.

(b) Pupils who have been expelled under section 1311(2).
(c) Pupils who have been expelled under section 1311a or another provision of this act.

(d) Other pupils who have been expelled from school, or pupils who have been suspended from school for a suspension that is for a period in excess of 10 school days, and who are referred to the strict discipline academy by that pupil's school or placed in the strict discipline academy by the pupil's parent or legal guardian.

(4) In addition to the types of pupils specified in subsection (3), a strict discipline academy shall be open for enrollment of a special education pupil who does not meet the requirements of subsection (3) if the special education pupil's individualized education program team recommends that the special education pupil be placed in the strict discipline academy. As used in this subsection, "individualized education program team" means that term as defined in section 614 of the individuals with disabilities education act, 20 USC 1414.

(5) In addition to the types of pupils specified in subsections (3) and (4), a strict discipline academy may enroll a pupil who is placed in a high-security or medium-security juvenile facility, mental health facility, or child caring institution that is operated by a private agency or a pupil who became a resident of this state as an unaccompanied or resettled minor under the care of the department of health and human services and who is less than 22 years of age as of September 1 of the current school year.

(6) A strict discipline academy shall enroll only 1 or more of the types of pupils described in subsections (3) to (5). A pupil who is enrolled in a strict discipline academy under subsections (3) to (5) may, at the option of his or her parent or legal guardian, continue to remain enrolled in the strict discipline academy after he or she ceases to meet the requirements for enrollment under subsections (3) to (5) as long as he or she meets the other applicable requirements for enrollment.

(7) A strict discipline academy is not required to keep any group of pupils described in subsections (3) to (5) physically separated from another group of those pupils, as might otherwise be required under section 1311, section 1311a, or another provision of this act.

(8) Strict discipline academies are not intended to enroll or otherwise be used to educate individuals who are committed to a high-security or medium-security juvenile facility operated by the department of health and human services or another state department or agency. Further, if the department of corrections or another state department or agency other than the department of health and human services has custody or jurisdiction over a child, that state department or agency has the financial responsibility for educating the child.

(9) Except for a foreign exchange student who is not a United States citizen, a strict discipline academy shall not enroll a pupil who is not a resident of this state. Enrollment in the strict discipline academy may be open to all individuals who reside in this state who meet the admission policy under subsections (3) to (5) and shall be open to all pupils who reside within the geographic boundaries, if any, of the authorizing body as described in section 1311d who meet the admission policy under subsections (3) to (5), except that enrollment to a strict discipline academy authorized by the board of a community college to operate, or operated by the board of a community college, on the grounds of a federal military installation, as described in section 1311d, shall be open to all pupils who reside in the county in which the federal military installation is located who meet the admission policy under subsections (3) to (5). For a strict discipline academy authorized by a state public university, enrollment shall be open to all pupils who reside in this state who meet the admission policy under subsections (3) to (5). If there are more applications to enroll in the strict discipline academy than there are spaces available, pupils shall be selected to attend using a random selection process. However, a strict discipline academy may give enrollment priority to a sibling of a pupil enrolled in the strict discipline academy. A strict discipline academy shall allow any pupil who was enrolled in the strict discipline academy in the immediately preceding school year to enroll in the strict discipline academy in the appropriate grade unless the appropriate grade is not offered at that strict discipline academy.
(10) A strict discipline academy may include any grade up to grade 12 or any configuration of those grades, including kindergarten and early childhood education, as specified in its contract. The authorizing body may approve amendment of a contract with respect to ages of pupils or grades offered.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. Each school board shall establish uniform criteria for dismissal and adopt written policies and rules to effectuate the purposes of sections 121A.40 to 121A.56. The policies shall emphasize preventing dismissals through early detection of problems and shall be designed to address students’ inappropriate behavior from recurring. The policies shall recognize the continuing responsibility of the school for the education of the pupil during the dismissal period. The alternative educational services, if the pupil wishes to take advantage of them, must be adequate to allow the pupil to make progress towards meeting the graduation standards adopted under section 120B.02 and help prepare the pupil for readmission.
(b) An area learning center under section 123A.05 may not prohibit an expelled or excluded pupil from enrolling solely because a district expelled or excluded the pupil. The board of the area learning center may use the provisions of the Pupil Fair Dismissal Act to exclude a pupil or to require an admission plan.
(c) Each school district shall develop a policy and report it to the commissioner on the appropriate use of peace officers and crisis teams to remove students who have an individualized education plan from school grounds.

121A.61. Discipline and removal of students from class.
Subdivision 1. Required policy. - Each school board must adopt a written districtwide school discipline policy which includes written rules of conduct for students, minimum consequences for violations of the rules, and grounds and procedures for removal of a student from class. The policy must be developed in consultation with administrators, teachers, employees, pupils, parents, community members, law enforcement agencies, county attorney offices, social service agencies, and such other individuals or organizations as the board determines appropriate. A school site council may adopt additional provisions to the policy subject to the approval of the school board.

121A.69. Hazing policy.
Subd. 3. School board policy. - Each school board shall adopt a written policy governing student or staff hazing. The policy must apply to student behavior that occurs on or off school property and during and after school hours. The policy must include reporting procedures and disciplinary consequences for violating the policy. Disciplinary consequences must be sufficiently severe to deter violations and
appropriately discipline prohibited behavior. Disciplinary consequences must conform with sections 121A.41 to 121A.56. Each school must include the policy in the student handbook on school policies.

Parent notification and meeting. - If a pupil's total days of removal from school exceeds ten cumulative days in a school year, the school district shall make reasonable attempts to convene a meeting with the pupil and the pupil’s parent or guardian before subsequently removing the pupil from school and, with the permission of the parent or guardian, arrange for a mental health screening for the pupil. The district is not required to pay for the mental health screening. The purpose of this meeting is to attempt to determine the pupil's need for assessment or other services or whether the parent or guardian should have the pupil assessed or diagnosed to determine whether the pupil needs treatment for a mental health disorder.
121A.575. Alternatives to pupil suspension.

Notwithstanding any law to the contrary and in accordance with sections 121A.40 to 121A.56, after a school administration notifies a pupil of the grounds for suspension, the school administration may, instead of imposing the suspension, do one or more of the following:

1. strongly encourage a parent or guardian of the pupil to attend school with the pupil for one day;
2. assign the pupil to attend school on Saturday as supervised by the principal or the principal's designee; and
3. petition the juvenile court that the student is in need of services under chapter 260C.

The commissioner, after consultation with interested parent organizations and advocacy groups, the Minnesota Administrators for Special Education, the Minnesota Association of School Administrators, Education Minnesota, the Minnesota School Boards Association, the Minnesota Police Officers Association, a representative of a bargaining unit that represents paraprofessionals, the Elementary School Principals Association, and the Secondary School Principals Association, must amend rules governing the use of aversive and deprivation procedures by school district employees or persons under contract with a school district. The rules must:

(1) promote the use of positive behavioral interventions and supports and must not encourage or require the use of aversive or deprivation procedures;
(2) require that planned application of aversive and deprivation procedures only be instituted after completing a functional behavior assessment and developing a behavior intervention plan that is included in or maintained with the individual education plan;

(3) require educational personnel to notify a parent or guardian of a pupil with an individual education plan on the same day aversive or deprivation procedures are used in an emergency or in writing within two school days if district personnel are unable to provide same-day notice;

(4) establish health and safety standards for the use of locked time-out procedures that require a safe environment, continuous monitoring of the child, ventilation, adequate space, a locking mechanism that disengages automatically when not continuously engaged by school personnel, and full compliance with state and local fire and building codes, including state rules on time-out rooms;

(5) contain a list of prohibited procedures;

(6) consolidate and clarify provisions related to behavior intervention plans;

(7) require school districts to register with the commissioner any room used for locked time-out, which the commissioner must monitor by making announced and unannounced on-site visits;

(8) place a student in locked time-out only if the intervention is:

   (i) part of the comprehensive behavior intervention plan that is included in or maintained with the student's individual education plan, and the plan uses positive behavioral interventions and supports, and data support its continued use; or

   (ii) used in an emergency for the duration of the emergency only; and

Subd. 2. Removal by peace officer. - If a pupil who has an individual education plan is restrained or removed from a classroom, school building, or school grounds by a peace officer at the request of a school administrator or a school staff person during the school day twice in a 30-day period, the pupil's individual education program team must meet to determine if the pupil's individual education plan is adequate or if additional evaluation is needed.

125A.0941. Definitions.

(a) The following terms have the meanings given them.

(b) "Emergency" means a situation where immediate intervention is needed to protect a child or other individual from physical injury. Emergency does not mean circumstances such as: a child who does not respond to a task or request and instead places his or her head on a desk or hides under a desk or table; a child who does not respond to a staff person's request unless failing to respond would result in physical injury to the child or other individual; or an emergency incident has already occurred and no threat of physical injury currently exists.

(c) "Physical holding" means physical intervention intended to hold a child immobile or limit a child's movement, where body contact is the only source of physical restraint, and where immobilization is used to effectively gain control of a child in order to protect a child or other individual from physical injury. The term physical holding does not mean physical contact that:

   (1) helps a child respond or complete a task;

   (2) assists a child without restricting the child's movement;

   (3) is needed to administer an authorized health-related service or procedure; or

   (4) is needed to physically escort a child when the child does not resist or the child's resistance is minimal.
(d) "Positive behavioral interventions and supports" means interventions and strategies to improve the school environment and teach children the skills to behave appropriately, including the key components under section 122A.627.

(e) "Prone restraint" means placing a child in a face down position.

(f) "Restrictive procedures" means the use of physical holding or seclusion in an emergency. Restrictive procedures must not be used to punish or otherwise discipline a child.

(g) "Seclusion" means confining a child alone in a room from which egress is barred. Egress may be barred by an adult locking or closing the door in the room or preventing the child from leaving the room. Removing a child from an activity to a location where the child cannot participate in or observe the activity is not seclusion.

125A.0942. Standards for restrictive procedures.

Subd. 1. Restrictive procedures plan.

(a) Schools that intend to use restrictive procedures shall maintain and make publicly accessible in an electronic format on a school or district Web site or make a paper copy available upon request describing a restrictive procedures plan for children with disabilities that at least:

1. lists the restrictive procedures the school intends to use;
2. describes how the school will implement a range of positive behavior strategies and provide links to mental health services;
3. describes how the school will provide training on de-escalation techniques, consistent with section 122A.187, subdivision 4;
4. describes how the school will monitor and review the use of restrictive procedures, including:
   i. conducting post-use debriefings, consistent with subdivision 3, paragraph (a), clause (5); and
   ii. convening an oversight committee to undertake a quarterly review of the use of restrictive procedures based on patterns or problems indicated by similarities in the time of day, day of the week, duration of the use of a procedure, the individuals involved, or other factors associated with the use of restrictive procedures; the number of times a restrictive procedure is used schoolwide and for individual children; the number and types of injuries, if any, resulting from the use of restrictive procedures; whether restrictive procedures are used in nonemergency situations; the need for additional staff training; and proposed actions to minimize the use of restrictive procedures; and
5. includes a written description and documentation of the training staff completed under subdivision 5.

(b) Schools annually must publicly identify oversight committee members who must at least include:

1. a mental health professional, school psychologist, or school social worker;
2. an expert in positive behavior strategies;
3. a special education administrator; and
4. a general education administrator.

Subd. 2. Restrictive procedures.

(a) Restrictive procedures may be used only by a licensed special education teacher, school social worker, school psychologist, behavior analyst certified by the National Behavior Analyst Certification Board, a person with a master's degree in behavior analysis, other licensed education professional, paraprofessional under section 120B.363, or mental health professional under section 245.4871, subdivision 27, who has completed the training program under subdivision 5.
(b) A school shall make reasonable efforts to notify the parent on the same day a restrictive procedure is used on the child, or if the school is unable to provide same-day notice, notice is sent within two days by written or electronic means or as otherwise indicated by the child’s parent under paragraph (f).

(c) The district must hold a meeting of the individualized education program team, conduct or review a functional behavioral analysis, review data, consider developing additional or revised positive behavioral interventions and supports, consider actions to reduce the use of restrictive procedures, and modify the individualized education program or behavior intervention plan as appropriate. The district must hold the meeting: within ten calendar days after district staff use restrictive procedures on two separate school days within 30 calendar days or a pattern of use emerges and the child’s individualized education program or behavior intervention plan does not provide for using restrictive procedures in an emergency; or at the request of a parent or the district after restrictive procedures are used. The district must review use of restrictive procedures at a child’s annual individualized education program meeting when the child’s individualized education program provides for using restrictive procedures in an emergency.

(d) If the individualized education program team under paragraph (c) determines that existing interventions and supports are ineffective in reducing the use of restrictive procedures or the district uses restrictive procedures on a child on ten or more school days during the same school year, the team, as appropriate, either must consult with other professionals working with the child; consult with experts in behavior analysis, mental health, communication, or autism; consult with culturally competent professionals; review existing evaluations, resources, and successful strategies; or consider whether to reevaluate the child.

(e) At the individualized education program meeting under paragraph (c), the team must review any known medical or psychological limitations, including any medical information the parent provides voluntarily, that contraindicate the use of a restrictive procedure, consider whether to prohibit that restrictive procedure, and document any prohibition in the individualized education program or behavior intervention plan.

(f) An individualized education program team may plan for using restrictive procedures and may include these procedures in a child’s individualized education program or behavior intervention plan; however, the restrictive procedures may be used only in response to behavior that constitutes an emergency, consistent with this section. The individualized education program or behavior intervention plan shall indicate how the parent wants to be notified when a restrictive procedure is used.

Subd. 3. Physical holding or seclusion.

(a) Physical holding or seclusion may be used only in an emergency. A school that uses physical holding or seclusion shall meet the following requirements:

(1) physical holding or seclusion is the least intrusive intervention that effectively responds to the emergency;
(2) physical holding or seclusion is not used to discipline a noncompliant child;
(3) physical holding or seclusion ends when the threat of harm ends and the staff determines the child can safely return to the classroom or activity;
(4) staff directly observes the child while physical holding or seclusion is being used;
(5) each time physical holding or seclusion is used, the staff person who implements or oversees the physical holding or seclusion documents, as soon as possible after the incident concludes, the following information:
  (i) a description of the incident that led to the physical holding or seclusion;
  (ii) why a less restrictive measure failed or was determined by staff to be inappropriate or impractical;
(iii) the time the physical holding or seclusion began and the time the child was released; and
(iv) a brief record of the child's behavioral and physical status;

(6) the room used for seclusion must:
   (i) be at least six feet by five feet;
   (ii) be well lit, well ventilated, adequately heated, and clean;
   (iii) have a window that allows staff to directly observe a child in seclusion;
   (iv) have tamperproof fixtures, electrical switches located immediately outside the door, and secure ceilings;
   (v) have doors that open out and are unlocked, locked with keyless locks that have immediate release mechanisms, or locked with locks that have immediate release mechanisms connected with a fire and emergency system; and
   (vi) not contain objects that a child may use to injure the child or others;

(7) before using a room for seclusion, a school must:
   (i) receive written notice from local authorities that the room and the locking mechanisms comply with applicable building, fire, and safety codes; and
   (ii) register the room with the commissioner, who may view that room; and

(b) By February 1, 2015, and annually thereafter, stakeholders may, as necessary, recommend to the commissioner specific and measurable implementation and outcome goals for reducing the use of restrictive procedures and the commissioner must submit to the legislature a report on districts’ progress in reducing the use of restrictive procedures that recommends how to further reduce these procedures and eliminate the use of prone restraints. The statewide plan includes the following components: measurable goals; the resources, training, technical assistance, mental health services, and collaborative efforts needed to significantly reduce districts’ use of prone restraints; and recommendations to clarify and improve the law governing districts’ use of restrictive procedures. The commissioner must consult with interested stakeholders when preparing the report, including representatives of advocacy organizations, special education directors, teachers, paraprofessionals, intermediate school districts, school boards, day treatment providers, county social services, state human services department staff, mental health professionals, and autism experts. By June 30 each year, districts must report summary data on their use of restrictive procedures to the department, in a form and manner determined by the commissioner. The summary data must include information about the use of restrictive procedures, including use of reasonable force under section 121A.582.

Subd. 4. Prohibitions. — The following actions or procedures are prohibited:

(1) engaging in conduct prohibited under section 121A.58;

(2) requiring a child to assume and maintain a specified physical position, activity, or posture that induces physical pain;

(3) totally or partially restricting a child’s senses as punishment;

(4) presenting an intense sound, light, or other sensory stimuli using smell, taste, substance, or spray as punishment;

(5) denying or restricting a child’s access to equipment and devices such as walkers, wheelchairs, hearing aids, and communication boards that facilitate the child’s functioning, except when temporarily removing the equipment or device is needed to prevent injury to the child or others or serious damage to the equipment or device, in which case the equipment or device shall be returned to the child as soon as possible;
(6) interacting with a child in a manner that constitutes sexual abuse, neglect, or physical abuse under chapter 260E;
(7) withholding regularly scheduled meals or water;
(8) denying access to bathroom facilities;
(9) physical holding that restricts or impairs a child's ability to breathe, restricts or impairs a child's ability to communicate distress, places pressure or weight on a child's head, throat, neck, chest, lungs, sternum, diaphragm, back, or abdomen, or results in straddling a child's torso; and
(10) prone restraint.

Subd. 5. Training for staff.

(a) To meet the requirements of subdivision 1, staff who use restrictive procedures, including paraprofessionals, shall complete training in the following skills and knowledge areas:

(1) positive behavioral interventions;
(2) communicative intent of behaviors;
(3) relationship building;
(4) alternatives to restrictive procedures, including techniques to identify events and environmental factors that may escalate behavior;
(5) de-escalation methods;
(6) standards for using restrictive procedures only in an emergency;
(7) obtaining emergency medical assistance;
(8) the physiological and psychological impact of physical holding and seclusion;
(9) monitoring and responding to a child's physical signs of distress when physical holding is being used;
(10) recognizing the symptoms of and interventions that may cause positional asphyxia when physical holding is used;
(11) district policies and procedures for timely reporting and documenting each incident involving use of a restricted procedure; and
(12) schoolwide programs on positive behavior strategies.

(b) The commissioner, after consulting with the commissioner of human services, must develop and maintain a list of training programs that satisfy the requirements of paragraph (a). The commissioner also must develop and maintain a list of experts to help individualized education program teams reduce the use of restrictive procedures. The district shall maintain records of staff who have been trained and the organization or professional that conducted the training. The district may collaborate with children's community mental health providers to coordinate trainings.

Subd. 6. Behavior supports; reasonable force.

(a) School districts are encouraged to establish effective schoolwide systems of positive behavior interventions and supports.

(b) Nothing in this section or section 125A.0941 precludes the use of reasonable force under sections 121A.582; 609.06, subdivision 1; and 609.379. For the 2014-2015 school year and later, districts must collect and submit to the commissioner summary data, consistent with subdivision 3, paragraph (b), on district use of reasonable force that is consistent with the definition of physical holding or seclusion for a child with a disability under this section.

For the purposes of this section, firearm is as defined in United States Code, title 18, section 921.
(b) Notwithstanding chapter 13, a student's expulsion or withdrawal or transfer from a school after an expulsion action is initiated against the student for a weapons violation under paragraph (a) may be disclosed by the school district initiating the expulsion proceeding. Unless the information is otherwise public, the disclosure may be made only to another school district in connection with the possible admission of the student to the other district.

121A.45. Grounds for dismissal.
Subd. 2. Grounds for dismissal. A pupil may be dismissed on any of the following grounds:
(a) willful violation of any reasonable school board regulation. Such regulation must be clear and definite to provide notice to pupils that they must conform their conduct to its requirements;
(b) willful conduct that significantly disrupts the rights of others to an education, or the ability of school personnel to perform their duties, or school sponsored extracurricular activities; or

Limitations or Conditions on Exclusionary Discipline

LAWS

121A.41. Definitions.
Subd. 10. Suspension. - "Suspension" means an action by the school administration, under rules promulgated by the school board, prohibiting a pupil from attending school for a period of no more than ten school days. If a suspension is longer than five days, the suspending administrator must provide the superintendent with a reason for the longer suspension. This definition does not apply to dismissal from school for one school day or less, except as provided in federal law for a student with a disability. Each suspension action may include a readmission plan. The readmission plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission and may not be used to extend the current suspension. Consistent with section 125A.091, subdivision 5, the readmission plan must not obligate a parent to provide a sympathomimetic medication for the parent's child as a condition of readmission. The school administration may not impose consecutive suspensions against the same pupil for the same course of conduct, or incident of misconduct, except where the pupil will create an immediate and substantial danger to self or to surrounding persons or property, or where the district is in the process of initiating an expulsion, in which case the school administration may extend the suspension to a total of 15 school days.

121A.44. Expulsion for possession of firearm.
(a) Notwithstanding the time limitation in section 121A.41, subdivision 5, a school board must expel for a period of at least one year a pupil who is determined to have brought a firearm to school except the board may modify this expulsion requirement for a pupil on a case-by-case basis. For the purposes of this section, firearm is as defined in United States Code, title 18, section 921.
(b) Notwithstanding chapter 13, a student's expulsion or withdrawal or transfer from a school after an expulsion action is initiated against the student for a weapons violation under paragraph (a) may be disclosed by the school district initiating the expulsion proceeding. Unless the information is otherwise public, the disclosure may be made only to another school district in connection with the possible admission of the student to the other district.

121A.575. Alternatives to pupil suspension.
Notwithstanding any law to the contrary and in accordance with sections 121A.40 to 121A.56, after a school administration notifies a pupil of the grounds for suspension, the school administration may, instead of imposing the suspension, do one or more of the following:

(1) strongly encourage a parent or guardian of the pupil to attend school with the pupil for one day;
(2) assign the pupil to attend school on Saturday as supervised by the principal or the principal's designee; and
(3) petition the juvenile court that the student is in need of services under chapter 260C.

121A.42. Policy.
No public school shall deny due process or equal protection of the law to any public school pupil involved in a dismissal proceeding which may result in suspension, exclusion, or expulsion.

121A.46. Suspension procedures.
Subdivision 1. Informal administrative conference before suspension. - The school administration shall not suspend a pupil from school without an informal administrative conference with the pupil. The informal administrative conference shall take place before the suspension, except where it appears that the pupil will create an immediate and substantial danger to self or to surrounding persons or property, in which case the conference shall take place as soon as practicable following the suspension.

Subd. 2. Subd. 3. Written notice of grounds for suspension. - A written notice containing the grounds for suspension, a brief statement of the facts, a description of the testimony, a readmission plan, and a copy of sections 121A.40 to 121A.56, shall be personally served upon the pupil at or before the time the suspension is to take effect, and upon the pupil's parent or guardian by mail within 48 hours of the conference. The district shall make reasonable efforts to notify the parents of the suspension by telephone as soon as possible following suspension. In the event a pupil is suspended without an informal administrative conference on the grounds that the pupil will create an immediate and substantial danger to surrounding persons or property, the written notice shall be served upon the pupil and the pupil's parent or guardian within 48 hours of the suspension. Service by mail is complete upon mailing.

Subd. 4. Suspension pending expulsion or exclusion hearing. - Notwithstanding the provisions of subdivisions 1 and 3, the pupil may be suspended pending the school board's decision in the expulsion or exclusion hearing; provided that alternative educational services are implemented to the extent that suspension exceeds five days.

121A.47. Exclusion and expulsion procedures.
Subdivision 1. Requiring a hearing; pupil may waive hearing. - No exclusion or expulsion shall be imposed without a hearing, unless the right to a hearing is waived in writing by the pupil and parent or guardian. The action shall be initiated by the school board or its agent.

   (d) be accompanied by a copy of sections 121A.40 to 121A.56;
   (e) describe alternative educational services accorded the pupil in an attempt to avoid the expulsion proceedings; and
(f) inform the pupil and parent or guardian of the right to:

(2) examine the pupil's records before the hearing;

(3) present evidence; and

(4) confront and cross-examine witnesses.

Subd. 3. Hearing schedule. - The hearing shall be scheduled within ten days of the service of the written notice unless an extension, not to exceed five days, is requested for good cause by the school board, pupil, parent or guardian.

Subd. 4. Convenient time and place of hearing. - The hearing shall be at a time and place reasonably convenient to pupil, parent or guardian.

Subd. 5. Closed or open hearing. - The hearing shall be closed unless the pupil, parent or guardian requests an open hearing.

Subd. 6. Impartial hearer. - The hearing shall take place before:

(1) an independent hearing officer;

(2) a member of the school board;

(3) a committee of the school board; or

(4) the full school board;

as determined by the school board. The hearing shall be conducted in a fair and impartial manner.

Subd. 7. Creating hearing record. - The school board shall record the hearing proceedings at district expense, and a party may obtain a transcript at its own expense. Testimony shall be given under oath. The hearing officer or a member of the school board shall have the power to issue subpoenas and administer oaths.

Subd. 8. Access to pupil's records. - At a reasonable time prior to the hearing, the pupil, parent or guardian, or representative, shall be given access to all public school system records pertaining to the pupil, including any tests or reports upon which the proposed action may be based.

Subd. 9. Pupil's right to compel testimony. - The pupil, parent or guardian, or representative, shall have the right to compel the attendance of any official employee or agent of the public school system or any public employee or any other person who may have evidence upon which the proposed action may be based, and to confront and to cross-examine any witness testifying for the public school system.

Subd. 10. Pupil's right to present evidence and testimony. - The pupil, parent or guardian, or representative, shall have the right to present evidence and testimony, including expert psychological or educational testimony.

Subd. 11. Pupil not compelled to testify. - The pupil cannot be compelled to testify in the dismissal proceedings.

Subd. 12. Hearer's recommendation limited to evidence at hearing; service within two days. - The recommendation of the hearing officer or school board member or committee shall be based solely upon substantial evidence presented at the hearing and must be made to the school board and served upon the parties within two days of the end of the hearing.

Subd. 13. Basis of school board decision; opportunity for comment. - The school board shall base its decision upon the recommendation of the hearing officer or school board member or committee and shall render its decision at a meeting held within five days after receiving the recommendation. The school board may provide the parties with the opportunity to present exceptions and comments to the hearing
officer’s recommendations provided that neither party presents any evidence not admitted at the hearing. The decision by the school board must be based on the record, must be in writing, and must state the controlling facts on which the decision is made in sufficient detail to apprise the parties and the commissioner of education of the basis and reason for the decision.

121A.48. Good faith exception.
A violation of the technical provisions of the Pupil Fair Dismissal Act, made in good faith, is not a defense to a disciplinary procedure under the act unless the pupil can demonstrate actual prejudice as a result of the violation.

121A.49. Appeal.
A party to an exclusion or expulsion decision made under sections 121A.40 to 121A.56 may appeal the decision to the commissioner of education within 21 calendar days of school board action. The commissioner or the commissioner’s representative shall make a final decision based upon the record. Return to School Following Removal

LAWS

121A.41. Definitions.

Subd. 10. Suspension. - "Suspension" means an action by the school administration, under rules promulgated by the school board, prohibiting a pupil from attending school for a period of no more than ten school days. If a suspension is longer than five days, the suspending administrator must provide the superintendent with a reason for the longer suspension. This definition does not apply to dismissal from school for one school day or less, except as provided in federal law for a student with a disability. Each suspension action may include a readmission plan. The readmission plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission and may not be used to extend the current suspension. Consistent with section 125A.091, subdivision 5, the readmission plan must not obligate a parent to provide a sympathomimetic medication for the parent's child as a condition of readmission. The school administration may not impose consecutive suspensions against the same pupil for the same course of conduct, or incident of misconduct, except where the pupil will create an immediate and substantial danger to self or to surrounding persons or property, or where the district is in the process of initiating an expulsion, in which case the school administration may extend the suspension to a total of 15 school days.

121A.47. Exclusion and expulsion procedures.

(a) A school administrator shall prepare and enforce an admission or readmission plan for any pupil who is excluded or expelled from school. The plan may include measures to improve the pupil's behavior, including completing a character education program, consistent with section 120B.232, subdivision 1, and require parental involvement in the admission or readmission process, and may indicate the consequences to the pupil of not improving the pupil's behavior.

(b) The definition of suspension under section 121A.41, subdivision 10, does not apply to a student's dismissal from school for one school day or less, except as provided under federal law for a student with a disability. Each suspension action may include a readmission plan. A readmission plan must provide, where appropriate, alternative education services, which must not be used to extend the student's current suspension period. Consistent with section 125A.091, subdivision 5, a readmission plan must not obligate a parent or guardian to provide psychotropic drugs to their student as a condition of readmission. School officials must not use the refusal of a parent or guardian to consent to the administration of psychotropic drugs to their student or to consent to a psychiatric evaluation, screening or examination of the student as a ground, by itself, to prohibit the student from attending class or
participating in a school-related activity, or as a basis of a charge of child abuse, child neglect or medical or educational neglect.

121A.54. Notice of right to be reinstated.
Whenever a pupil fails to return to school within ten school days of the termination of dismissal, a school administrator shall inform the pupil and the pupil's parents by mail of the pupil's right to attend and to be reinstated in the public school.

121A.55. Policies to be established.
(a) The commissioner of education shall promulgate guidelines to assist each school board. Each school board shall establish uniform criteria for dismissal and adopt written policies and rules to effectuate the purposes of sections 121A.40 to 121A.56. The policies shall emphasize preventing dismissals through early detection of problems and shall be designed to address students' inappropriate behavior from recurring. The policies shall recognize the continuing responsibility of the school for the education of the pupil during the dismissal period. The alternative educational services, if the pupil wishes to take advantage of them, must be adequate to allow the pupil to make progress towards meeting the graduation standards adopted under section 120B.02 and help prepare the pupil for readmission.
(b) An area learning center under section 123A.05 may not prohibit an expelled or excluded pupil from enrolling solely because a district expelled or excluded the pupil. The board of the area learning center may use the provisions of the Pupil Fair Dismissal Act to exclude a pupil or to require an admission plan.
(c) Each school district shall develop a policy and report it to the commissioner on the appropriate use of peace officers and crisis teams to remove students who have an individualized education plan from school grounds.

121A.61. Discipline and removal of students from class.
Subd. 3. Policy components.- The policy must include at least the following components:
(g) the procedures for return of a student to the specified class from which the student has been removed.

124D.8957. Prekindergarten through grade 12 parental rights code elsewhere.

Such referral may be made only after consulting the principal, area learning center director, student, and parent or guardian and only if, in the school administrator's professional judgment, the referral is in the best

Subd. 11. Alternative educational services. - "Alternative educational services" may include, but are not limited to, special tutoring, modified curriculum, modified instruction, other modifications or adaptations, instruction through electronic media, special education services as indicated by appropriate assessment, homebound instruction, supervised homework, or enrollment in another district or in an alternative learning center under section 123A.05 selected to allow the pupil to progress toward meeting graduation standards under section 120B.02, although in a different setting.

121A.53. Report to commissioner of education.
Subdivision 1. Exclusions and expulsions; physical assaults.- The school board must report through the department electronic reporting system each exclusion or expulsion and each physical assault of a district employee by a student within 30 days of the effective date of the dismissal action or assault to the commissioner of education. This report must include a statement of alternative educational services, or other sanction, intervention, or resolution in response to the assault given the pupil and the reason for, the effective date, and the duration of the exclusion or expulsion or other sanction, intervention, or resolution. The report must also include the student's age, grade, gender, race, and special education status.
121A.55. Policies to be established.

The alternative educational services, if the pupil wishes to take advantage of them, must be adequate to allow the pupil to make progress towards meeting the graduation standards adopted under section 120B.02 and help prepare the pupil for readmission.

121A.575. Alternatives to pupil suspension.
Notwithstanding any law to the contrary and in accordance with sections 121A.40 to 121A.56, after a school administration notifies a pupil of the grounds for suspension, the school administration may, instead of imposing the suspension, do one or more of the following:

(1) strongly encourage a parent or guardian of the pupil to attend school with the pupil for one day;
(2) assign the pupil to attend school on Saturday as supervised by the principal or the principal's designee; and

(b) An area learning center is encouraged to cooperate with a service cooperative, an intermediate school district, a local education and employment transitions partnership, public and private secondary and postsecondary institutions, public agencies, businesses, and foundations. Except for a district located in a city of the first class, an area learning center must be established in cooperation with other districts and must serve the geographic area of at least two districts. An area learning center must provide comprehensive educational services to enrolled secondary students throughout the year, including a daytime school within a school or separate site for both high school and middle school level students.

Reserve revenue. - Each district that is a member of an area learning center or alternative learning program must reserve revenue in an amount equal to the sum of (1) at least 90 and no more than 100 percent of the district average general education revenue per adjusted pupil unit minus an amount equal to the product of the formula allowance according to section 126C.10, subdivision 2, times .0466, calculated without basic skills revenue, local optional revenue, and transportation sparsity revenue, times the number of pupil units attending an area learning center or alternative learning program under this section, plus (2) the amount of basic skills revenue generated by pupils attending the area learning center or alternative learning program. The amount of reserved revenue under this subdivision may only be spent on program costs associated with the area learning center or alternative learning program.
Subd. 3. Access to services. - A state-approved alternative program shall have access to the district's regular education programs, special education programs, technology facilities, and staff. It may contract with individuals or postsecondary institutions. It shall seek the involvement of community education programs, postsecondary institutions, interagency collaboratives, culturally based organizations, mutual assistance associations, and other community resources, businesses, and other federal, state, and local public agencies.

Subd. 4. Nonresident pupils. - A pupil who does not reside in the district may attend a state-approved alternative program without consent of the school board of the district of residence.

123A.06. State-approved alternative programs and services.
Subd. 2. People to be served. - A state-approved alternative program shall provide programs for secondary pupils. A center may also provide programs and services for elementary and secondary pupils who are not attending the state-approved alternative program to assist them in being successful in school. A center shall use research-based best practices for serving English learners and their parents, taking into account the variations in students' backgrounds and needs and the amount of time and the staff resources necessary for students to overcome gaps in their education and to develop English proficiency and work-related skills. An individualized education program team may identify a state-approved alternative program as an appropriate placement to the extent a state-approved alternative program can provide the student with the appropriate special education services described in the student's plan. Pupils eligible to be served are those who qualify under the graduation incentives program in section 124D.68, subdivision 2, those enrolled under section 124D.02, subdivision 2, or those pupils who are eligible to receive special education services under sections 125A.03 to 125A.24, and 125A.65.

School districts, county attorneys, and law enforcement may establish the programs and coordinate them with other community-based truancy services in order to provide the necessary and most effective intervention for children and their families. (5) increased school response, including in-school suspension, better attendance monitoring and enforcement, after-school study programs, and in-service training for teachers and staff.

Subd. 3. Truancy service centers.
(a) Truancy service centers may be established as facilities to receive truant students from peace officers and probation officers and provide other appropriate services. A truancy service center may:

1. assess a truant student's attendance situation, including enrollment status, verification of truancy, and school attendance history;

1. juveniles taken into custody for violations of law that would be crimes if committed by adults;
2. intoxicated juveniles;
3. ill or injured juveniles; or
4. juveniles older than mandatory school attendance age.

(c) Truancy service centers may expand their service capability in order to receive curfew violators and take appropriate action, such as coordination of intervention efforts, contacting parents, and developing strategies to ensure that parents assume responsibility for their children's curfew violations.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. § 37-7-301. General powers and duties.

The school boards of all school districts shall have the following powers, authority and duties in addition to all others imposed or granted by law, to wit:

(e) To suspend or to expel a pupil or to change the placement of a pupil to the school district's alternative school or homebound program for misconduct in the school or on school property, as defined in Section 37-11-29, on the road to and from school, or at any school-related activity or event, or for conduct occurring on property other than school property or other than at a school-related activity or event when such conduct by a pupil, in the determination of the school superintendent or principal, renders that pupil's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole, and to delegate such authority to the appropriate officials of the school district.

§ 37-9-71. Suspension or expulsion of pupils.

The superintendent of schools and the principal of a school shall have the power to suspend or expel a pupil for good cause, including misconduct in the school or on school property, as defined in Section 37-11-29, on the road to and from school, or at any school-related activity or event when such conduct by a pupil, in the determination of the superintendent or principal, renders that pupil's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole, or for any reason for which such pupil might be suspended, dismissed or expelled by the school board under state or federal law or any rule, regulation or policy of the local school district. For any suspension of more than ten (10) days or expulsions, a student shall have the right to a due process hearing, be represented by legal counsel, to present evidence and cross-examine witnesses presented by the district. The student and the student's parent, legal guardian or person in custody of the student may appeal suspension of more than ten (10) days and expulsions to the school board. The standard of proof in all disciplinary proceedings shall be substantial evidence. The parent or guardian of the child shall be advised of this right to a hearing by the appropriate superintendent or principal and the proper form shall be provided for requesting such a hearing.

§ 37-11-53. School district discipline plans; appearance by parents, guardians or custodians at discipline conferences; recovery from parents for damage or destruction of school property; parent allowed to accompany child to school as alternative to child's suspension.

(1) A copy of the school district's discipline plan shall be distributed to each student enrolled in the district, and the parents, guardian or custodian of such student shall sign a statement verifying that they have been given notice of the discipline policies of their respective school district. The school board shall have its official discipline plan and code of student conduct legally audited on an annual basis to insure that its policies and procedures are currently in compliance with applicable statutes, case law and state and federal constitutional provisions. As part of the first legal audit occurring after July 1, 2001, the provisions of this section, Section 37-11-55 and Section 37-11-18.1, shall be fully incorporated into the school district's discipline plan and code of student conduct.
(2) All discipline plans of school districts shall include, but not be limited to, the following:

(a) A parent, guardian or custodian of a compulsory-school-age child enrolled in a public school district shall be responsible financially for his or her minor child's destructive acts against school property or persons;

(b) A parent, guardian or custodian of a compulsory-school-age child enrolled in a public school district may be requested to appear at school by the school attendance officer or an appropriate school official for a conference regarding acts of the child specified in paragraph (a) of this subsection, or for any other discipline conference regarding the acts of the child;

(c) Any parent, guardian or custodian of a compulsory-school-age child enrolled in a school district who refuses or willfully fails to attend such discipline conference specified in paragraph (b) of this section may be summoned by proper notification by the superintendent of schools or the school attendance officer and be required to attend such discipline conference; and

(d) A parent, guardian or custodian of a compulsory-school-age child enrolled in a public school district shall be responsible for any criminal fines brought against such student for unlawful activity occurring on school grounds or buses.

(3) Any parent, guardian or custodian of a compulsory-school-age child who (a) fails to attend a discipline conference to which such parent, guardian or custodian has been summoned under the provisions of this section, or (b) refuses or willfully fails to perform any other duties imposed upon him or her under the provisions of this section, shall be guilty of a misdemeanor and, upon conviction, shall be fined not to exceed Two Hundred Fifty Dollars ($250.00).

(4) Any public school district shall be entitled to recover damages in an amount not to exceed Twenty Thousand Dollars ($20,000.00), plus necessary court costs, from the parents of any minor under the age of eighteen (18) years and over the age of six (6) years, who maliciously and willfully damages or destroys property belonging to such school district. However, this section shall not apply to parents whose parental control of such child has been removed by court order or decree. The action authorized in this section shall be in addition to all other actions which the school district is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents, for damages to which such minor or other person would otherwise be liable.

(5) A school district's discipline plan may provide that as an alternative to suspension, a student may remain in school by having the parent, guardian or custodian, with the consent of the student's teacher or teachers, attend class with the student for a period of time specifically agreed upon by the reporting teacher and school principal. If the parent, guardian or custodian does not agree to attend class with the student or fails to attend class with the student, the student shall be suspended in accordance with the code of student conduct and discipline policies of the school district.

The local school board shall adopt and make available to all teachers, school personnel, students and parents or guardians, at the beginning of each school year, a code of student conduct developed in consultation with teachers, school personnel, students and parents or guardians. The code shall be based on the rules governing student conduct and discipline adopted by the school board and shall be made available at the school level in the student handbook or similar publication. The code shall include, but not be limited to:

(a) Specific grounds for disciplinary action under the school district's discipline plan;

(b) Procedures to be followed for acts requiring discipline, including suspensions and expulsion, which comply with due process requirements;
(c) An explanation of the responsibilities and rights of students with regard to: attendance; respect for persons and property; knowledge and observation of rules of conduct; free speech and student publications; assembly; privacy; and participation in school programs and activities;

(d) Policies and procedures recognizing the teacher as the authority in classroom matters, and supporting that teacher in any decision in compliance with the written discipline code of conduct. Such recognition shall include the right of the teacher to remove from the classroom any student who, in the professional judgment of the teacher, is disrupting the learning environment, to the office of the principal or assistant principal. The principal or assistant principal shall determine the proper placement for the student, who may not be returned to the classroom until a conference of some kind has been held with the parent, guardian or custodian during which the disrupting behavior is discussed and agreements are reached that no further disruption will be tolerated. If the principal does not approve of the determination of the teacher to remove the student from the classroom, the student may not be removed from the classroom, and the principal, upon request from the teacher, must provide justification for his disapproval;

(e) Policies and procedures for dealing with a student who causes a disruption in the classroom, on school property or vehicles, or at school-related activities;

(f) Procedures for the development of behavior modification plans by the school principal, reporting teacher and student's parent for a student who causes a disruption in the classroom, on school property or vehicles, or at school-related activities for a second time during the school year; and

(g) Policies and procedures specifically concerning gang-related activities in the school, on school property or vehicles, or at school-related activities.

§ 37-11-69. Anti-bullying personnel and discipline policies and code of student conduct.

(1) Each local school district shall include in its personnel policies, discipline policies and code of student conduct a prohibition against bullying or harassing behavior and adopt procedures for reporting, investigating and addressing such behavior, that:

(a) Prohibit the bullying of a student.

REGULATIONS

5. Administrative Procedures
   a. Local school districts that utilize physical restraint and seclusion for all students shall develop written policies and procedures that govern the use of restraint and/or seclusion and shall periodically review and update them as appropriate.

CMSR 07-000-003. Rule 97.1. Weapons.

Each local school district shall have a policy concerning weapons on school premises. It shall contain at least the following provisions and may include such additional provisions as the local school district deems appropriate:

The (Name of District) Board of Education recognizes that the possession of pistols, firearms, or other weapons on school premises or at school functions by persons other than duly authorized law enforcement officials creates an unreasonable and unwarranted risk of injury or death to District employees, students, visitors, and guests and further creates an unreasonable and unwarranted risk of damage to properties of District employees, students, visitors, and guests. Because of such dangers, the Board hereby prohibits the possession of pistols, firearms, or weapons in any form by any person other
than duly authorized law enforcement officials on school premises or at school functions, regardless of whether any such person possesses a valid permit to carry such pistols, firearms, or weapons.

**CMSR 07-000-192. Part 192: Mississippi school safety manual.**

**Operational Approach**

MDE is focusing on the school safety plan as the primary foundation instrument by which schools can evaluate their status as well as design and implement changes to policies, procedures, and emergency protocols based on research results. MDE has established broad principles of student intervention, discipline, and management. Implementing these principles daily, as part of normal routine, will ensure schools are maintaining a safe environment. Operational approaches deal with routine procedures and typically yield an almost immediate safe school environment when rigorously implemented. A safe environment requires the support from all levels, starting with the school board and working down through the superintendent, principals, teachers, and students to implement the school safety as well as disciplinary policies and procedures. This includes student monitoring, implementation of student codes of conduct, properly utilized disciplinary procedures, deployment of School Resource Officers (SRO) and School Safety Officers (SSO), proper enforcement procedures, compliance with state statutes as well as liaison with law enforcement, emergency services, youth court, and community service agencies. [...] Accreditation Standards and the School Safety Plan

The School Safety Plan is essentially the foundation the school uses to maintain a safe and secure educational environment. The existence of a comprehensive school safety plan is a generally accepted standard of school safety, as well as a mandatory requirement of Miss. Code Ann. § 37-3-83, and Mississippi Public School Accountability Standards, 2017 (Process Standard 31). Specific accreditation standards for school safety include:

1. The school must be compliant with all pertinent Mississippi Codes: (District Policy and Procedure Manual Review)
   b. Must possess and enforce the Student Disciplinary Plan.

**Scope**

**LAWS**

**§ 37-7-301. General powers and duties.**

The school boards of all school districts shall have the following powers, authority and duties in addition to all others imposed or granted by law, to wit:

**§ 37-9-69. General duties of superintendents, principals and teachers.**

§ 37-9-71. Suspension or expulsion of pupils.
The superintendent of schools and the principal of a school shall have the power to suspend or expel a pupil for good cause, including misconduct in the school or on school property, as defined in Section 37-11-29, on the road to and from school, or at any school-related activity or event when such conduct by a pupil, in the determination of the superintendent or principal, renders that pupil's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole, or for any reason for which such pupil might be suspended, dismissed or expelled by the school board under state or federal law or any rule, regulation or policy of the local school district. A copy of said report shall be sent to the Secretary of the Board of Trustees of State Institutions of Higher Learning of the State of Mississippi, at Jackson, Mississippi.

Accreditation Standards and the School Safety Plan

The School Safety Plan is essentially the foundation the school uses to maintain a safe and secure educational environment. The existence of a comprehensive school safety plan is a generally accepted standard of school safety, as well as a mandatory requirement of Miss. Code Ann. § 37-3-83, and Mississippi Public School Accountability Standards, 2017 (Process Standard 31). Specific accreditation standards for school safety include:

7. The school must be compliant with all pertinent Mississippi Codes: (District Policy and Procedure Manual Review)

School Safety Plan Components

There are three (3) components to a School Safety Plan.

Policies and procedures that are clearly communicated and consistently enforced to afford a safe school operating environment. A listing of policies, procedures, and regulations the district and/or school has enacted are typically those items listed in:

b. Parent/Student Handbook: Uniform policies, code of conduct policies, etc.

c. Discipline Code: Hearing procedures and prohibited conduct.

d. District Policies and Procedures: Safety policies, campus security policy, assessments conducted, needs identified, alternative school/detention policy.

Corporal Punishment

LAWS

§ 37-11-57. Immunity of school personnel from liability for carrying out action in enforcing rules regarding control, discipline, suspension and expulsion of students; exception for students with disabilities.

(1) Except in the case of excessive force or cruel and unusual punishment, a public school teacher, assistant teacher, principal, or an assistant principal acting within the course and scope of his employment shall not be liable for any action carried out in conformity with state or federal law or rules or regulations of the State Board of Education or the local school board or governing board of a charter school regarding the control, discipline, suspension and expulsion of students. The local school board shall provide any necessary legal defense to a teacher, assistant teacher, principal, or assistant principal in the school district who was acting within the course and scope of his employment in any action which may be filed against such school personnel. A school district or charter school, as the case may be, shall be entitled to reimbursement for legal fees and expenses from its employee if a court finds that the act of the employee was outside the course and scope of his employment, or that the employee was acting with criminal intent. Any action by a school district or charter school against its employee and any action by the employee against the school district or charter school for necessary legal fees and expenses shall be tried to the court in the same suit brought against the school employee.

(2) Corporal punishment administered in a reasonable manner, or any reasonable action to maintain control and discipline of students taken by a public school teacher, assistant teacher, principal or assistant principal acting within the scope of his employment or function and in accordance with any state or federal laws or rules or regulations of the State Board of Education or the local school board or governing board of a charter school does not constitute negligence or child abuse. No public school teacher, assistant teacher, principal or assistant principal so acting shall be held liable in a suit for civil damages alleged to have been suffered by a student as a result of the administration of corporal punishment, or the taking of action to maintain control and discipline of a student, unless the court determines that the teacher, assistant teacher, principal or assistant principal acted in bad faith or with malicious purpose or in a manner exhibiting a wanton and willful disregard of human rights or safety. For the purposes of this subsection, "corporal punishment" means the reasonable use of physical force or physical contact by a teacher, assistant teacher, principal or assistant principal, as may be necessary to maintain discipline, to enforce a school rule, for self-protection or for the protection of other students from disruptive students.

(3) Notwithstanding subsection (2) of this section a public school teacher, assistant teacher, principal, assistant principal or other school personnel is prohibited from using corporal punishment, as defined in subsection (2) of this section, on any student with a disability. No school personnel shall be granted immunity from liability under subsection (2) of this section for the use of corporal punishment on a student with a disability. For purposes of this subsection, the term "student with a disability" means a student who has an individualized education plan (IEP) under the Individuals with Disabilities Education Act (IDEA) or a Section 504 plan under the Rehabilitation Act of 1973. The term "school personnel" includes all individuals employed on a full-time or part-time basis by a public school.

REGULATIONS

1. Introduction
The Mississippi Department of Education and the State Board of Education supports a positive approach to behavior that uses proactive strategies to create a safe school climate that promotes dignity, creates authentic student engagement, and improves student achievement for all students. When teachers and administrators implement evidence-based positive behavior supports with fidelity, a safe and orderly school environment is created that is conducive to learning and students are able to achieve without the constant interruptions that occur when teachers are required to address discipline in the classroom.

Research indicates that the most effective response to school violence is to establish a school culture that emphasizes prevention, early identification, teaching, reinforcement of appropriate behavior and continuous data-based problem solving. One primary method is to structure the environment using a non-aversive effective behavioral system, such as Positive Behavior Interventions and Supports (PBIS).

Effective positive behavioral systems are comprehensive, in that they are comprised of a framework or approach for assisting school personnel in adopting and organizing evidence-based behavioral interventions into an integrated continuum that enhances academic and social behavioral outcomes for all students. The PBIS prevention-oriented framework or approach applies to all students, all staff, and all settings. When integrated with effective academic instruction, such systems can help provide the supports children need to become actively engaged in their own learning and academic success. Schools successfully implementing comprehensive behavioral systems create school-wide environments that
reinforce appropriate behaviors while reducing instances of dangerous behaviors that may lead to the need to use restraint or seclusion. In schools implementing comprehensive behavioral systems, trained school staff use preventive assessments to identify where, under what conditions, with whom, and why specific inappropriate behavior may occur, as well as implement de-escalation techniques to defuse potentially violent dangerous behavior. Preventive assessments should include (1) a review of existing records; (2) interviews with parents, family members, and students; and (3) examination of previous and existing behavioral intervention plans. Using these data from such assessments helps schools identify the conditions when inappropriate behavior is likely to occur and the factors that lead to the occurrence of these behaviors; and develop and implement preventive behavioral interventions that teach appropriate behavior and modify the environmental factors that escalate the inappropriate behavior. The use of comprehensive behavioral systems significantly decreases the likelihood that restraint or seclusion would be used, supports the attainment of more appropriate behavior, and, when implemented as described, can help to improve academic achievement and behavior. In order to reduce the use of aversive techniques in response to student behavior, restraint and seclusion, school wide behavior systems should include a comprehensive behavior management system that includes: (a) socially valued and measurable outcomes, (b) empirically validated and practical practices (c) systems that efficiently and effectively support the implementation of these practices, and (d) continuous collection and use of data for decision making.

However, at times, some students exhibit behaviors which place themselves and others in imminent danger. Schools shall implement proactive strategies and interventions to reduce the likelihood of these situations, and they shall have clearly identified responses to address such situations when they occur. Additionally, schools shall have policies in place that address the responses needed to ensure the safety of all students and staff.

2. Restraint and Seclusion Policy

A Restraint and Seclusion Policy is defined through written local school board-approved policies and procedures that define appropriate means of restraint and seclusion to provide for a safe and orderly education. These policies and procedures shall apply to all students in the local school district and shall not focus on one or more subgroups of students.

In accordance with Miss. Code Ann. §§ 37-9-69. and 37-11-57, it is recognized that staff may intercede in situations wherein students are displaying physically violent behavior or are deemed to be a danger to themselves or others. State Board policy positively prohibits the use of excessive force, or cruel and unusual punishment regarding student management. Restraint and/or seclusion shall not be utilized as a punitive measure.

This policy in no way shall inhibit the right of staff to reasonable self-defense in accordance with the provisions of the 5 [th] and 14 [th] amendments to the Constitution of the United States, or the Constitution of Mississippi, nor negate the obligation of the district to provide a safe work environment.

3. Definitions

   a. Aversive behavioral interventions is defined as a physical or sensory intervention program intended to modify behavior that the implementer knows would cause physical trauma, emotional trauma, or both, to a student even when the substance or stimulus appears to be pleasant or neutral to others and may include hitting, pinching, slapping, water spray, noxious fumes, extreme physical exercise, loud auditory stimuli, withholding of meals, or denial of reasonable access to toileting facilities.

   b. Aversive procedure is defined as the use of a substance or stimulus, intended to modify behavior, which the person administering it knows or should know is likely to cause physical and/or emotional trauma to a student, even when the substance or stimulus appears to be pleasant or neutral to others. Such substances and stimuli include but are not limited to: infliction of bodily pain, (e.g., hitting, pinching, slapping), water spray, noxious fumes, extreme physical exercise, costumes, or signs.
c. Aversive technique is defined as physical, emotional or mental distress as a method of redirecting or controlling behavior.

d. Behavioral intervention is defined as the implementation of strategies to address behavior that is dangerous, inappropriate, detrimental, or otherwise impedes the learning of the students.

e. Behavior Intervention Plan (BIP) is defined as a plan of action for managing a student's behavior. The BIP includes a set of strategies and supports intended to increase the occurrence of behaviors that school personnel encourage and to decrease behaviors that school personnel want to lessen or eliminate. The BIP shall include:
   i. Observable and measurable description of the problem behavior;
   ii. Identified purpose of the problem behavior as a result of the FBA;
   iii. General strategy or combination of strategies for changing the problem behavior;
   iv. Written description of when, where, and how often the strategy will be implemented; and
   v. Consistent system of monitoring and evaluating the effectiveness of the plan.

f. Chemical restraint is defined as “the administration of medication for the purpose of restraint.” Chemical restraint does not apply to medication prescribed by and administered in accordance with the directions of a licensed physician. The use of chemical restraint is prohibited in Mississippi Public Schools.

g. Dangerous behavior is defined as behavior that presents an imminent danger of physical harm to self or others but does not include inappropriate behaviors such as disrespect, noncompliance, insubordination, or out-of-seat behaviors.

h. De-escalation techniques are defined as strategically employed verbal or non-verbal interventions used to reduce the intensity of threatening behavior before a crisis situation occurs.

i. Emergency situation is defined as spontaneous unpredictable events posing an imminent threat of serious bodily injury.

j. Functional Behavioral Assessment (FBA) is defined as a school-based, collaborative process that includes the parent and, as appropriate, the child, to determine why a child engages in challenging behaviors and how the behavior relates to the child's environment.

   i. The term includes direct assessments, indirect assessments and data analysis designed to assist the team to identify and define the problem behavior in concrete terms.
   ii. Contextual factors (including affective and cognitive factors) are identified that contribute to the behavior, and a hypothesis is formulated regarding the general conditions under which a behavior usually occurs and the probable consequences that maintain the behavior.
   iii. Formal documentation of the assessment by appropriately qualified individuals become part of the child's educational record.

   iv. The FBA must include all of the following:
      a. Clear description of the problematic behavior;
      b. Identification of the antecedent events, times, and situations that predict when the problem behavior will and will not occur;
      c. Identification of the consequences of the problem behavior;
      d. Development of hypotheses and summary statements that describes the problem behavior and its functions; and
      e. Collection of data from a variety of sources: interviews, direct observation data, etc.

k. Imminent danger is defined as a danger which is impending, close at hand, threatening, or about to happen.
I. Individualized Education Plan (IEP) is defined as a written statement for a child with a disability that is developed, reviewed, and revised in accordance with §§ 300.320-300.324.

m. Mechanical restraint is defined as "any device that attaches to a student's body that restricts movement and cannot be removed by the student." Examples include: straps, tie downs, boards, and harnesses. Handcuffs are also considered mechanical restraints, but may only be used by certified school resource officers, as defined in Miss. Code Ann. §§ 37-7-321. and 37-7-323. The use of mechanical restraints is prohibited in Mississippi Public Schools, except as provided in §§ 37-7-321. and 37-7-323.

Devices not considered mechanical restraints include: adaptive equipment, protective devices, or assistive technology devices documented in a student's individualized education plan (IEP), Section 504 plan, behavior intervention plan, or otherwise prescribed for the student by a medical or related service provider, seatbelts, and other safety equipment when used to secure students during transportation.

n. Physical escort is defined as the temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out (with minimal resistance) and able to respond to such physical prompt, to move to a safe location.

o. Physical prompt is defined as a teaching technique that involves physical contact with the student and that enable the student to learn or model the physical movement necessary for the development of the desired competency.

p. Physical Restraint is defined as "the use of physical force, without the use of any device or material that restricts the free movement of all or a portion of a student's body." Physical restraint does not include briefly holding a student's hand or arm to calm them or escort them to another area. A physical restraint shall be removed as soon as the student is no longer a danger to himself/herself or others. The term physical restraint does not include:

i. Physical restraint that restricts the flow of air to the student's lungs.

ii. Prone restraint in which a student is placed face down on the floor or other surface, and physical pressure is applied to the student's body to keep the student in the prone position.

q. Positive Behavior Interventions and Supports (PBIS) is defined as a proactive approach to establishing the behavioral supports and social culture needed for all students in a school to achieve social, emotional and academic success. Attention is focused on creating and sustaining primary (school-wide), secondary (classroom), and tertiary (individual) systems of support that improve lifestyle results (personal, health, social, family, work, recreation) for all youth by making targeted misbehavior less effective, efficient, and relevant, and desired behavior more functional.

r. Positive Behavior Support Plan is defined as the design, implementation, and evaluation of individual or group instructional and environmental modifications, including programs of behavioral instruction, to produce significant improvements in behavior through skill acquisition and the reduction of problematic behavior.

s. Seclusion is defined as "the confinement of a student in an enclosure from which the student's egress is restricted." Seclusion does not include in-school suspension, detention, or alternative school.

t. Section 504 Plan is defined as an individualized plan of accommodations and modifications to provide a free appropriate public education to a student who has a disability that substantially limits a major life activity. A 504 plan spells out the modifications and accommodations that will be needed for a student to have the opportunity to perform at the same level as their peers.

u. Written report is defined as a printed paper filings and electronic filings that can be printed.

4. General Procedures
Restraint

a. Physical restraint is considered to be an emergency response after all other verbal and non-verbal de-escalation measures have failed in effectiveness based on the following criteria:

i. The student or other person is engaged in actions that would constitute a danger to themselves or others;

ii. The student or other person is engaged in actions that would constitute potential or actual destruction of property;

iii. To remove a non-compliant student or person from the scene of an incident;

iv. The restraint should be removed as soon as the student is no longer a danger to themselves or others.

b. When using physical restraint for students who are a danger to themselves or others, staff should take precautions necessary to ensure the safety of the student and the staff members engaged in restraining the student. Physical restraints that restrict the flow of air are prohibited in all situations. When deemed it is necessary to restrain a student who is a danger to themselves or others, the following procedures shall be used:

i. Restraint shall be conducted by staff who are trained in the restraint procedures adopted by the school district;

ii. Staff shall carefully observe the student throughout the restraint to observe the student's physical and emotional status;

iii. Restraint shall be immediately terminated if the student appears to be, or claims to be, in severe stress;

iv. The restraint shall be removed as soon as the staff determines the student is no longer a danger to himself/herself or others;

v. When the student is able, he/she should be returned to the instructional activity, or to a less restrictive environment;

vi. Parents must be notified on the same school day of the incident. At the time the parent is notified, the school shall schedule a debriefing with the parent to discuss the incident. In the event a parent cannot be reached by telephone, a letter shall be sent informing the parent of the incident and the person who can be contacted at the school to address any questions the parent may have.

vii. Within two school days after the restraint incident occurs, the staff shall conduct a debriefing of the circumstances leading to the restraint and discuss any alternative behaviors that could have been utilized;

viii. The school shall report the restraint and/or seclusion incident to the local school district and the Mississippi Department of Education.

c. School districts that permit restraint and seclusion shall ensure that staff members are trained in the use of restraint. This training shall be provided as part of a program which addresses a full continuum of positive behavioral intervention strategies, crisis intervention, and de-escalation techniques. Absent an imminent danger to health or safety, physical restraint shall only be practiced by staff trained in the physical restraint approach adopted by the local school district. The Mississippi Department of Education does not endorse a particular training program. The local school district shall select programs which are approved by the MDE and those that are founded on evidence-based techniques which focus on:

i. Certification for school personnel and recertification as required by the training program;

ii. Preventing the need for restraint;
iii. Training in first aid;
iv. Identification of antecedent behaviors;
v. Use of positive behavior supports, de-escalation, and conflict management;
vi. Keeping staff and students safe during required restraints.

Local school district administrators shall monitor the use of physical restraint to ensure fidelity of implementation. Additional and follow-up training shall be provided on an ongoing basis and any situations in which procedures are not followed shall be addressed immediately.

d. The use of mechanical restraints is prohibited in Mississippi Public Schools, except by law enforcement.
e. The use of chemical restraints is prohibited in Mississippi Public Schools.

Behavioral Interventions

a. Behavioral intervention must be consistent with the child's right to be treated as an individual. Schools shall implement an evidence-based system of positive behavioral intervention strategies and support. Elements of the system of support shall include universal screening to identify potential students, teaching school-wide expected behaviors and social skills, and a system to monitor the effectiveness of the interventions and supports.

b. Behavioral strategies, in conjunction with the school-wide system of positive behavioral interventions shall be used to help identify the causes of dangerous behavior and reduce the need for restraint or seclusion. Information about a student through interviews, observation, and records help identify the causes of the dangerous behavior and shall guide the development of a behavioral plan for the student. A complete plan shall include:
   i. Addressing the characteristics of the setting and the event;
   ii. If possible, removing the antecedents that triggered the event;
   iii. Adding antecedents that promote appropriate behavior;
   iv. Teaching appropriate behaviors to replace the dangerous behaviors.

Seclusion

a. The use of seclusion occurs in a specially designated room or space that is physically isolated from common areas and from which the student is physically prevented from leaving. The room or space used for seclusion may not be locked and staff shall be present to monitor the student. Seclusion shall cease once the student regains control of his or her behavior.

Only school personnel trained in the use of restraint and seclusion should be used to observe and monitor these students. Staff engaged in monitoring students shall have knowledge of effective restraint and seclusion procedures, emergency procedures, and knowledge of how to effectively debrief students after the use of restraint or seclusion.

b. The room or space used for seclusion shall not contain any objects or fixtures with which a student could reasonably be harmed. Additionally, the room shall provide adequate lighting and ventilation.

c. School personnel may use seclusion to address a student's behavior:
   i. If the student's behavior constitutes an emergency and seclusion is necessary to protect a student or other person from imminent, serious physical harm after other less intrusive, nonphysical interventions have failed or been determined inappropriate;
   ii. After less restrictive or alternative approaches have failed or have been determined to be inappropriate.

(c) Any compulsory-school-age child referred to such alternative school program by the dispositive order of a chancellor or youth court judge, with the consent of the superintendent of the child's school district;

(d) Any compulsory-school-age child whose presence in the classroom, in the determination of the school superintendent or principal, is a disruption to the educational environment of the school or a detriment to the interest and welfare of the students and teachers of such class as a whole; and

(e) No school district is required to place a child returning from out-of-home placement in the mental health, juvenile justice or foster care system in alternative school. Placement of a child in the alternative school shall be done consistently, and for students identified under the Individuals with Disabilities Education Act (IDEA), shall adhere to the requirements of the Individuals with Disabilities Education Improvement Act of 2004. If a school district chooses to place a child in alternative school the district will make an individual assessment and evaluation of that child in the following time periods:

(i) Five (5) days for a child transitioning from a group home, mental health care system, and/or the custody of the Department of Human Services, Division of Youth and Family Services;

Before a student may be removed to an alternative school education program, the superintendent of the student's school district must determine that the written and distributed disciplinary policy of the local district is being followed. The policy shall include standards for:

(a) The removal of a student to an alternative education program that will include a process of educational review to develop the student's individual instruction plan and the evaluation at regular intervals of the student's educational progress; the process shall include classroom teachers and/or other appropriate professional personnel, as defined in the district policy, to ensure a continuing educational program for the removed student;

(b) The duration of alternative placement; and

(c) The notification of parents or guardians, and their appropriate inclusion in the removal and evaluation process, as defined in the district policy. Nothing in this paragraph should be defined in a manner to circumvent the principal's or the superintendent's authority to remove a student to alternative education.

(3) The local school board or the superintendent shall provide for the continuing education of a student who has been removed to an alternative school program.

(4) A school district, in its discretion, may provide a program of High School Equivalency Diploma preparatory instruction in the alternative school program. However, any High School Equivalency Diploma preparation program offered in an alternative school program must be administered in compliance with the rules and regulations established for such programs under Sections 37-35-1 through 37-35-11 and by the Mississippi Community College Board. The school district may administer the High School Equivalency Diploma Testing Program under the policies and guidelines of the Testing Service of the American Council on Education in the alternative school program or may authorize the test to be administered through the community/junior college district in which the alternative school is situated.

(5) Any such alternative school program operated under the authority of this section shall meet all appropriate accreditation requirements of the State Department of Education.

(6) The alternative school program may be held within such school district or may be operated by two (2) or more adjacent school districts, pursuant to a contract approved by the State Board of Education. When two (2) or more school districts contract to operate an alternative school program, the school board of a district designated to be the lead district shall serve as the governing board of the alternative school program. Transportation for students attending the alternative school program shall be the responsibility of the local school district. The expense of establishing, maintaining and operating such alternative school program may be paid from funds contributed or otherwise made available to the school district for such purpose or from local district maintenance funds.

(7) The State Board of Education shall promulgate minimum guidelines for alternative school programs. The guidelines shall require, at a minimum, the formulation of an individual instruction plan for each student referred to the alternative school program and, upon a determination that it is in a student's best interest for that student to receive High School Equivalency Diploma preparatory instruction, that the local school board assign the student to a High School Equivalency Diploma preparatory program established
under subsection (4) of this section. The minimum guidelines for alternative school programs shall also require the following components:

(a) Clear guidelines and procedures for placement of students into alternative education programs which at a minimum shall prescribe due process procedures for disciplinary and High School Equivalency Diploma placement;
(b) Clear and consistent goals for students and parents;
(c) Curricula addressing cultural and learning style differences;

(8) On request of a school district, the State Department of Education shall provide the district informational material on developing an alternative school program that takes into consideration size, wealth and existing facilities in determining a program best suited to a district.

(9) Any compulsory-school-age child who becomes involved in any criminal or violent behavior shall be removed from such alternative school program and, if probable cause exists, a case shall be referred to the youth court.

(10) The State Board of Education shall promulgate guidelines for alternative school programs which provide broad authority to school boards of local school districts to establish alternative education programs to meet the specific needs of the school district.

(11) Each school district having an alternative school program shall submit a report by July 31 of each calendar year to the State Department of Education describing the results of its annual alternative school program review and evaluation undertaken pursuant to subsection (7)(k). The report shall include a detailed account of any actions taken by the school district during the previous year to comply with substantive guidelines promulgated by the State Board of Education under subsection (7)(a) through (j). In the report to be implemented under this section, the State Department of Education shall prescribe the appropriate measures on school districts that fail to file the annual report. The report should be made available online via the department's website to ensure transparency, accountability and efficiency.

Thus, unless a child has been suspended or expelled from school for possession of a weapon or other felonious conduct, the student must be assigned to the alternative school for that school district. The district is cautioned not to have policies that remove students from the traditional school setting to an alternative school setting for minor infractions. If the acts of a student, although not rising to the level of a felony, are such that the student poses a threat to the safety of himself or others or will disrupt the educational process at the alternative school, the school district is not required to admit the student into the alternative school.

CMSR 07-000-003. Rule 97.1. Weapons.

CMSR 07-000-003. Rule 30.2. Reporting unexcused absences.
1. Pursuant to Mississippi Code 37-13-91, a parent, guardian or custodian of a compulsory-school-age child in this state shall cause the child to enroll in and attend a public school or legitimate nonpublic for the period of time that the child is of compulsory-school-age. Mississippi Code Section 37-9-14(2)(u) states that School District Superintendents are "to comply in a timely manner with the compulsory education reporting requirements prescribed in Section 37-13-92(6)." The State Department of Education shall prescribe a uniform method for schools to utilize in reporting the unlawful absences to the school attendance officer.
a. An unlawful absence is an absence by any compulsory school-age child missing for thirty-seven (37\%) or more of a school day, in which the absence is not due to a valid excuse for temporary nonattendance.

b. An unlawful absence is an absence by any compulsory school-age child who is removed from school for days missed as a result of disciplinary suspension. Absences due to suspension or expulsion shall not be excused by the school district superintendent, or his designee. A student that is absent due to suspensions or expulsions shall not be reported as truant.

2. Based on Section 37-13-91(6), the school district superintendent or his/her designee, shall report, within two (2) school days or within five (5) calendar days, whichever is less, the absences to the school attendance officers. Therefore, pursuant to Section 37-13-85(o), provides that the MDE shall adopt any other policies that the office deems necessary for the enforcement of the Mississippi Compulsory School Attendance Law; however, the policies or guidelines shall not add or contradict with the requirements of Section 37-13-91. The superintendent, or his designee, also shall report any student suspensions or student expulsions to the school attendance officer when they occur and code them as “unexcused absences”. However, these absences will not be counted towards a student being identified as truant.

3. For the purpose of determining and reporting attendance, a pupil must be present for at least sixty-three percent (63\%) of his/her instructional day, as fixed by the local school board, and defined by the student's schedule, in order to be considered in full-day attendance.

4. Each of the following shall constitute a valid excuse for temporary nonattendance of a compulsory-school-age child enrolled in a public school, provided satisfactory evidence of the excuse is provided to the superintendent of the school district, or his designee:

   a. An absence is excused when the absence results from illness or injury which prevents the compulsory-school-age child from being physically able to attend school.

   b. An absence is excused when isolation of a compulsory-school-age child is ordered by the county health officer, by the State Board of Health or appropriate school official.

   c. An absence is excused when it results from the death or serious illness of a member of the immediate family of a compulsory-school-age child. The immediate family members of a compulsory-school-age child shall include children, spouse, grandparents, parents, brothers and sisters, including stepbrothers and stepsisters.

   d. An absence is excused when it results from a medical or dental appointment of a compulsory-school-age child.

   e. An absence is excused when it results from the attendance of a compulsory-school-age child at the proceedings of a court or an administrative tribunal if the child is a party to the action or under subpoena as a witness.

   f. An absence may be excused if the religion, to which the compulsory-school-age child or the child’s parents adheres, requires or suggests the observance of a religious event. The approval of the absence is within the discretion of the superintendent of the school district, or his designee, but approval should be granted unless the religion’s observance is of such duration as to interfere with the education of the child.

   g. An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that the purpose of the absence is to take advantage of a valid educational opportunity such as travel, including vacations or other family travel. Approval of the absence must be gained from the superintendent of the school district, or his designee, before the absence, but the approval shall not be unreasonably withheld.

   h. An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that conditions are sufficient to warrant the compulsory-school-age
child's nonattendance. However, no absences shall be excused by the school district superintendent, or his designee, when any student suspensions or expulsions circumvent the intent and spirit of the compulsory attendance law.

5. If a compulsory-school-age child is participating in an authorized school activity with the prior approval of the superintendent of the school district, or his/her designee, the student is considered PRESENT for average daily attendance reporting purposes. The activities include, but are not limited to:
   a. Official Organized Events Sponsored by the 4-H

   a. The School Attendance Officer may present evidence to the Director of the Office of Compulsory School Attendance Enforcement that a school superintendent has failed to report unexcused absences in a timely manner. Such a report must be in writing and supported by written evidence.
   b. If no action is warranted, the Director of the Office of Compulsory School Attendance Enforcement will notify the School Attendance Officer in writing of the determination.
   c. If further action is warranted, the Director of the Office of Compulsory School Attendance Enforcement may recommend to the State Superintendent of Education or his/her designee, downgrading of the district's accreditation status.
   d. When information on file in the Mississippi Department of Education indicates that a school district may be in violation of a state law, the superintendent of the district will be informed in writing by appropriate staff in the Department responsible for monitoring compliance with the compulsory school attendance law.
   e. School district officials will be given thirty (30) days from the date of receipt of notification to provide a written response verifying accuracy or inaccuracy of the notice of possible noncompliance with the compulsory school attendance law. If the written response includes appropriate evidence to correct or refute the alleged violation, the superintendent of the district will be notified by appropriate staff.
   f. The appropriate staff member in the Office of Accreditation will notify the superintendent of the district in writing of the verified violation. Although the accreditation status of the district may not be subject to change until the next assignment of annual district status, the superintendent is required to provide a written response specifying how and when the violation will be corrected.

In an effort to ensure compliance with federal guidelines, this policy sets forth the distinction between excused and unlawful absences and provides formulas for truancy, habitual truancy, suspension and expulsion rate calculations. This information will serve to establish a uniform reporting method.

2. Definitions
   a. Cumulative Enrollment - sum of all entering students within a school year.
   c. Habitual Truant - a student who has accumulated twelve (12) or more unlawful absences, excluding suspension and expulsion days, in a school year, which shall result in the filing of a petition in a court of competent jurisdiction by the school attendance officer.

   a. Truancy shall only apply to students of compulsory-school-age.
   b. Each local school district shall determine whether an absence is excused or unlawful based on the Compulsory School Attendance Law § 37-13-91. of the Mississippi Code 1972 Annotated.
   c. For the purpose of calculating truancy rates, out of school suspensions shall not be considered unlawful absences. Out of school suspension days shall not be factored into truancy rate calculations.
   d. Students that satisfy the school day attendance requirements shall not be considered absent and/or calculated in the truancy rate, including students enrolled in alternative education programs, GED Options programs, and students detained in juvenile detention centers.

ii. The Habitual Truancy Rate shall be calculated using the following formula: Numerator: Number of students with twelve or more unlawful absences (habitual truant)
Denominator: Count of Student Membership - Cumulative Enrollment Multiplied by 100 to create a percentage value

iii. The Student Out-of-School Suspension Rate shall be calculated using the following formula:
Numerator: Total number of student out-of-school suspensions in a school year
Denominator: Count of Student Membership - Cumulative Enrollment Multiplied by 100 to create a percentage value

iv. The Overall Out-of-School Suspension Rate shall be calculated using the following formula:
Numerator: Total number of out-of-school suspension days in a school year

REGULATIONS

1. Introduction

The Mississippi Department of Education and the State Board of Education supports a positive approach to behavior that uses proactive strategies to create a safe school climate that promotes dignity, creates authentic student engagement, and improves student achievement for all students. When teachers and administrators implement evidence-based positive behavior supports with fidelity, a safe and orderly school environment is created that is conducive to learning and students are able to achieve without the constant interruptions that occur when teachers are required to address discipline in the classroom.
Research indicates that the most effective response to school violence is to establish a school culture that emphasizes prevention, early identification, teaching, reinforcement of appropriate behavior and continuous data-based problem solving. One primary method is to structure the environment using a non-aversive effective behavioral system, such as Positive Behavior Interventions and Supports (PBIS). Effective positive behavioral systems are comprehensive, in that they are comprised of a framework or approach for assisting school personnel in adopting and organizing evidence-based behavioral interventions into an integrated continuum that enhances academic and social behavioral outcomes for all students. The PBIS prevention-oriented framework or approach applies to all students, all staff, and all settings. When integrated with effective academic instruction, such systems can help provide the supports children need to become actively engaged in their own learning and academic success. Schools successfully implementing comprehensive behavioral systems create school-wide environments that reinforce appropriate behaviors while reducing instances of dangerous behaviors that may lead to the need to use restraint or seclusion. In schools implementing comprehensive behavioral systems, trained school staff use preventive assessments to identify where, under what conditions, with whom, and why specific inappropriate behavior may occur, as well as implement de-escalation techniques to defuse potentially violent dangerous behavior. Preventive assessments should include (1) a review of existing records; (2) interviews with parents, family members, and students; and (3) examination of previous and existing behavioral intervention plans. Using these data from such assessments helps schools identify the conditions when inappropriate behavior is likely to occur and the factors that lead to the occurrence of these behaviors; and develop and implement preventive behavioral interventions that teach appropriate behavior and modify the environmental factors that escalate the inappropriate behavior. The use of comprehensive behavioral systems significantly decreases the likelihood that restraint or seclusion would be used, supports the attainment of more appropriate behavior, and, when implemented as described, can help to improve academic achievement and behavior. In order to reduce the use of aversive techniques in response to student behavior, restraint and seclusion, school-wide behavior systems should include a comprehensive behavior management system that includes: (a) socially valued and measurable outcomes, (b) empirically validated and practical practices (c) systems that efficiently and effectively support the implementation of these practices, and (d) continuous collection and use of data for decision making.

However, at times, some students exhibit behaviors which place themselves and others in imminent danger. Schools shall implement proactive strategies and interventions to reduce the likelihood of these situations, and they shall have clearly identified responses to address such situations when they occur. Additionally, schools shall have policies in place that address the responses needed to ensure the safety of all students and staff. […]

3. Definitions

q. Positive Behavior Interventions and Supports (PBIS) is defined as a proactive approach to establishing the behavioral supports and social culture needed for all students in a school to achieve social, emotional and academic success. Attention is focused on creating and sustaining primary (school-wide), secondary (classroom), and tertiary (individual) systems of support that improve lifestyle results (personal, health, social, family, work, recreation) for all youth by making targeted misbehavior less effective, efficient, and relevant, and desired behavior more functional.

**CMSR 07-000-003. Rule 41.1. Intervention.**

1. The purpose of this policy is to ensure that the behavioral and academic needs of every student are met through an instructional model that is designed to address student learning with quality classroom instruction and opportunities for intervention. The Mississippi Department Education (MDE) shall require every school district to follow the instructional model, which consists of three (3) tiers of instruction:

   a. Tier 1: Quality classroom instruction based on Mississippi Curriculum Frameworks
b. Tier 2: Focused supplemental instruction
c. Tier 3: Intensive interventions specifically designed to meet the individual needs of students

2. If strategies at Tier 1 and Tier 2 are unsuccessful, students must be referred to the Teacher Support Team (TST). The TST is the problem-solving unit responsible for interventions developed at Tier 3. Each school must have a Teacher Support Team (TST) implemented in accordance with the process developed by the MDE. The chairperson of the TST shall be the school principal as the school's instructional leader or the principal's designee. The designee may not be an individual whose primary responsibility is special education. Interventions will be:
   a. designed to address the deficit areas;
   b. evidence based;
   c. implemented as designed by the TST;
   d. supported by data regarding the effectiveness of interventions.

3. Teachers should use progress monitoring information to:
   a. determine if students are making adequate progress,
   b. identify students as soon as they begin to fall behind, and
   c. modify instruction early enough to ensure each student gains essential skills.

   Monitoring of student progress is an ongoing process that may be measured through informal classroom assessment, benchmark assessment instruments, and large-scale assessments.

4. After a referral is made, the TST must develop and begin implementation of an intervention(s) within two weeks. No later than eight weeks after implementation of the intervention(s) the TST must conduct a documented review of the interventions to determine success of the intervention(s). No later than 16 weeks after implementation of the intervention(s), a second review must be conducted to determine whether the intervention(s) is successful. If the intervention(s) is determined to be unsuccessful, then the student will be referred for a comprehensive assessment.

(2) The school board of each school district, with the assistance of the State Department of Education School Safety Center, shall adopt a comprehensive local school district school safety plan and shall update the plan on an annual basis.

In schools implementing comprehensive behavioral systems, trained school staff use preventive assessments to identify where, under what conditions, with whom, and why specific inappropriate behavior may occur, as well as implement de-escalation techniques to defuse potentially violent dangerous behavior. Preventive assessments should include (1) a review of existing records; (2) interviews with parents, family members, and students; and (3) examination of previous and existing behavioral intervention plans. Using these data from such assessments helps schools identify the conditions when inappropriate behavior is likely to occur and the factors that lead to the occurrence of these behaviors; and develop and implement preventive behavioral interventions that teach appropriate behavior and modify the environmental factors that escalate the inappropriate behavior. The use of comprehensive behavioral systems significantly decreases the likelihood that restraint or seclusion would be used, supports the attainment of more appropriate behavior, and, when implemented as described, can help to improve academic achievement and behavior. In order to reduce the use of aversive techniques in response to student behavior, restraint and seclusion, school wide behavior systems should include a comprehensive behavior management system that includes: (a) socially valued and measurable outcomes, (b) empirically validated and practical practices (c) systems that efficiently and effectively support the implementation of these practices, and (d) continuous collection and use of data for decision making.

However, at times, some students exhibit behaviors which place themselves and others in imminent danger. Schools shall implement proactive strategies and interventions to reduce the likelihood of these situations, and they shall have clearly identified responses to address such situations when they occur. Additionally, schools shall have policies in place that address the responses needed to ensure the safety of all students and staff.

School Safety Plan Components
There are three (3) components to a School Safety Plan.

If the proposed character education program is rejected, the State Board of Education shall set forth in writing the specific areas of objection. These objections must be based on and limited to the following criteria: the definition of the character traits chosen by the school district for implementation shall reflect and be in keeping with both the spirit and letter of our founding documents; no instruction shall promote or encourage participation in any conduct that would violate existing state or federal law; and no student shall be assessed or evaluated as to whether or not the student evidences a specific character trait in his or her own life.

Accreditation Standards and the School Safety Plan

The School Safety Plan is essentially the foundation the school uses to maintain a safe and secure educational environment. 4) SROs must be armed and deployed in accordance with the generally accepted standards of police practice. They must qualify with firearms bi-annually.
5) SROs must attend Active Shooter Training (ALERRT) every third year.
6) All school safety personnel must receive a minimum of 40 hours service training as approved by MDE each year. [...]

(1) The governing authority of any municipality or the board of supervisors of any county are hereby authorized and empowered to appropriate money or dedicate and convey municipally-owned buildings and property or county-owned buildings and property, as the case may be, to the school district or districts situated within that municipality or county for the purpose of erecting, purchasing or otherwise providing the school building or a site for such school building of such school district, in cases where the governing authority or board of supervisors are of the opinion that the location of such school building within the corporate limits of the municipality or the county, or in close proximity thereto, will be of special benefit to the inhabitants of the municipality or county.

(2) Municipalities, municipal police departments and the sheriffs’ departments may contract with the school board of any school district to provide additional Law Enforcement Officers Training Academy-certified police protection to said school district on such terms and for such reimbursement as the school district and the entity may agree in their discretion.

(3) The governing authority of any municipality or the board of supervisors of any county may allow off-duty municipal or county law enforcement officers who are hired individually for security purposes by the school district or districts within that municipality or county to use municipal or county law enforcement uniforms and equipment during such off-duty employment.

(4) The governing authority of any municipality, in its discretion, may donate funds, equipment or in-kind services to any school district located within the boundaries of the municipality to assist the voluntary character development or public service programs of that school district.
§ 37-3-82. Mississippi Community Oriented Policing Services in Schools grant program established; purpose; use of funds.

(1) There is hereby established the Mississippi Community Oriented Policing Services in Schools (MCOPS) grant program in the State Department of Education to provide funding, pursuant to specific appropriation by the Legislature therefor, to assist law enforcement agencies in providing additional School Resource Officers to engage in community policing in and around primary and secondary schools. The MCOPS program shall authorize the State Department of Education to make grants to increase deployment of law enforcement officers in order (a) to increase or enhance community policing in this state, (b) that trained, sworn enforcement officers assigned to schools play an integral part in the development and/or enhancement of a comprehensive school safety plan, and (c) that the presence of these officers shall provide schools with a direct link to local law enforcement agencies.

(2) The MCOPS program shall meet the following requirements and standards:

(a) This program shall provide an incentive for law enforcement agencies to build collaborative partnerships with the school community and to use community policing efforts to combat school violence and implement educational programs to improve student and school safety.

(b) The additional School Resource Officers must devote at least seventy-five percent (75%) of their time to work in and around primary and secondary schools, in addition to the time that School Resource Officers are devoting in the absence of the MCOPS in Schools grant.

(c) Beginning with the 2019-2020 school year, the MCOPS in Schools program shall provide a minimum state contribution of up to Ten Thousand Dollars ($10,000.00) per officer position over the one-year grant period, to be matched from local funds on a 50/50 matching basis. Officers paid with MCOPS funds may be employed by the local law enforcement agency or by the local school district. MCOPS funds may be used to pay for entry-level salaries and benefits of newly trained additional School Resource Officers and may be used to pay the salaries and benefits of School Resource Officers employed prior to July 1, 2013. All jurisdictions that apply must demonstrate that they have primary law enforcement authority over the school(s) identified in their application and demonstrate their inability to implement this project without state assistance. Schools or law enforcement agencies may not reduce its overall federal, state, locally funded level of sworn officers (including other School Resource Officers or other sworn officers assigned to the schools) as a result of applying for or receiving MCOPS in Schools grant funding. MCOPS in Schools funding may be used to rehire sworn officers previously employed who have been laid off for financial reasons unrelated to the availability of the MCOPS in Schools grant, but must obtain prior written approval from the State Department of Education. MCOPS in Schools funding may be used to train school resource officers. In order to be eligible for such program, each local school board desiring to participate shall apply to the State Department of Education by May 31 before the beginning of the applicable fiscal year on forms provided by the department. The State Department of Education shall determine by July 1 of each succeeding year which local school districts have submitted approved applications for School Resource Officer funding.

(d) School Resource Officers (SROs) may serve in a variety of roles, including, but not limited to, that of a law enforcement officer/safety specialist, law-related educator, and problem-solver/community liaison. These officers may teach programs such as crime prevention, substance abuse prevention, and gang resistance as well as monitor and assist troubled students through mentoring programs. The School Resource Officer(s) may also identify physical changes in the environment that may reduce crime in and around the schools, as well as assist in developing school policies which address criminal activity and school safety. The application must also include a Memorandum of Understanding (MOU), signed by the law enforcement executive and the appropriate school official(s), to document the roles and responsibilities to be undertaken by the law enforcement agency and the educational school partner(s) through this collaborative effort. The application must also include a Narrative Addendum to document
that the School Resource Officer(s) will be assigned to work in and around primary or secondary schools and provide supporting documentation in the following areas: problem identification and justification, community policing strategies to be used by the officers, quality and level of commitment to the effort, and the link to community policing.

(e) All agencies receiving awards through the MCOPS in Schools program are required to send the School Resource Officer position(s) funded by this grant, to the Mississippi Law Enforcement Officers' Training Academy where they shall be required to participate in training through the Advanced Law Enforcement Rapid Response Training Program at the academy, with the cost to be defrayed from the MCOPS program. The MCOPS Office of the State Department of Education will reimburse grantees for training, per diem, travel, and lodging costs for attendance of required participants up to a maximum of One Thousand Two Hundred Dollars ($1,200.00) per person attending. Applicants receiving an MCOPS in Schools grant, will receive additional training information following notification of the grant award. The MCOPS in Schools training requirement must be completed prior to the end of twelve-month grant funding for officer positions.

(3) The State Department of Education shall promulgate rules and regulations prescribing procedures for the application, expenditure requirements and the administration of the Mississippi Community Oriented Policing Services in Schools (MCOPS) program established in this section, and shall make a report on the implementation of the MCOPS program with any recommendations to the 2020 Regular Session of the Legislature.

§ 37-3-821. Schools unable to meet financial requirements for participation in MCOPS program authorized to develop alternative plans for student security.
In the event that a public school district is unable to participate in the MCOPS program due to the district's inability to meet the necessary financial requirements of the local fund match, the local school board of that school district may develop a plan for the security of its students, faculty and administration, which must be approved by the State Board of Education and the Mississippi Department of Public Safety prior to its implementation. The local school board may still apply for grants under the MCOPS program for training of security personnel employed by the school district.

§ 37-7-321. Employment and designation of peace officers; minimum level of basic law enforcement training required; operation of radio broadcasting and transmission station; interlocal agreements with other law enforcement entities for provision of certain equipment or services.
(1) The school board of any school district within the State of Mississippi, in its discretion, may employ one or more persons as security personnel and may designate such persons as peace officers in or on any property operated for school purposes by such board upon their taking such oath and making such bond as required of a constable of the county in which the school district is situated.

(2) Any person employed by a school board as a security guard or school resource officer or in any other position that has the powers of a peace officer must receive a minimum level of basic law enforcement training, as jointly determined and prescribed by the Board on Law Enforcement Officer Standards and Training and the State Board of Education, within two (2) years of the person's initial employment in such position. Upon the failure of any person employed in such position to receive the required training within the designated time, the person may not exercise the powers of a peace officer in or on the property of the school district.

(3) The school board is authorized and empowered, in its discretion, and subject to the approval of the Federal Communications Commission, to install and operate a noncommercial radio broadcasting and transmission station for educational and vocational educational purposes.
(4) If a law enforcement officer is duly appointed to be a peace officer by a school district under this section, the local school board may enter into an interlocal agreement with other law enforcement entities for the provision of equipment or traffic control duties, however, the duty to enforce traffic regulations and to enforce the laws of the state or municipality off of school property lies with the local police or sheriff's department which cannot withhold its services solely because of the lack of such an agreement.

§ 37-7-323. Application and enforcement of general criminal laws of state.

Any act which, if committed within the limits of a city, town or village, or in any public place, would be a violation of the general laws of this state, shall be criminal and punishable if done on the campus, grounds or roads of any of the public schools of this state. The peace officers duly appointed by the school board of any school district are vested with the powers and subjected to the duties of a constable for the purpose of preventing all violations of law on school property within the district, and for preserving order and decorum thereon. The peace officers duly appointed by the school board of any school district are also vested with the powers and subjected to the duties of a constable for the purpose of preventing all violations of law that occur within five hundred (500) feet of any property owned by the school district, if reasonably determined to have a possible impact on the safety of students, faculty or staff of the school district while on said property. Provided, however, that nothing in this section shall be interpreted to require action by any such peace officer appointed by a school district to events occurring outside the boundaries of school property, nor shall any such school district or its employees be liable for any failure to act to any event occurring outside the boundaries of property owned by the school district.

Missouri
Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Discipline, written policy established by local boards of education-contents-reporting requirements-additional restrictions for certain suspensions-weapons offense, mandatory suspension or expulsion-no civil liability for authorized personnel-spanking not child abuse, when-investigation procedure-officials falsifying reports, penalty.**

1. The local board of education of each school district shall clearly establish a written policy of discipline, including the district's determination on the use of corporal punishment and the procedures in which punishment will be applied. A written copy of the district's discipline policy and corporal punishment procedures, if applicable, shall be provided to the pupil and parent or legal guardian of every pupil enrolled in the district at the beginning of each school year and also made available in the office of the superintendent of such district, during normal business hours, for public inspection. All employees of the district shall annually receive instruction related to the specific contents of the policy of discipline and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities and instruction in the necessity and requirements for confidentiality.

2. The policy shall require school administrators to report acts of school violence to all teachers at the attendance center and, in addition, to other school district employees with a need to know. For the purposes of this chapter or chapter 167, "need to know" is defined as school personnel who are directly responsible for the student's education or who otherwise interact with the student on a professional basis while acting within the scope of their assigned duties. As used in this section, the phrase "act of school violence" or "violent behavior" means the exertion of physical force by a student with the intent to do serious physical injury as defined in section 556.061 to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. The policy shall at a minimum require school administrators to report, as soon as reasonably practical, to the appropriate law enforcement agency any of the following crimes, or any act which if committed by an adult would be one of the following crimes:

   (1) First degree murder under section 565.020;
   (2) Second degree murder under section 565.021;

(12) Arson in the first degree under section 569.040;
(13) Voluntary manslaughter under section 565.023;
(14) Involuntary manslaughter under section 565.024 as it existed prior to January 1, 2017, involuntary manslaughter in the first degree under section 565.024, or involuntary manslaughter in the second degree under section 565.027;
(15) Second degree assault under section 565.060 as it existed prior to January 1, 2017, or second degree assault under section 565.052;

committed on school property, including but not limited to actions on any school bus in service on behalf of the district or while involved in school activities. The policy shall require that any portion of a student's individualized education program that is related to demonstrated or potentially violent behavior shall be provided to any teacher and other school district employees who are directly responsible for the student's education or who otherwise interact with the student on an educational basis while acting within the scope of their assigned duties. The policy shall also contain the consequences of failure to obey standards of conduct set by the local board of education, and the importance of the standards to the maintenance of an atmosphere where orderly learning is possible and encouraged.

3. The policy shall provide that any student who is on suspension for any of the offenses listed in subsection 2 of this section or any act of violence or drug-related activity defined by school district policy as a serious violation of school discipline pursuant to subsection 9 of this section shall have as a condition of his or her suspension the requirement that such student is not allowed, while on such suspension, to be within one thousand feet of any school property in the school district where such student attended school or any activity of that district, regardless of whether or not the activity takes place on district property unless:
1. Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the superintendent or the superintendent's designee has authorized the student to be on school property;

2. Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student and the superintendent or the superintendent's designee has authorized the student to be on school property;

3. Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the school district where such student attended school; or

4. Such student resides within one thousand feet of any public school in the school district where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.

4. Any student who violates the condition of suspension required pursuant to subsection 3 of this section may be subject to expulsion or further suspension pursuant to the provisions of sections 167.161, 167.164, and 167.171. In making this determination consideration shall be given to whether the student poses a threat to the safety of any child or school employee and whether such student's unsupervised presence within one thousand feet of the school is disruptive to the educational process or undermines the effectiveness of the school's disciplinary policy. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. This section shall not limit a school district's ability to:

   (1) Prohibit all students who are suspended from being on school property or attending an activity while on suspension;

   (2) Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.

5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:

   (1) The superintendent or, in a school district with no high school, the principal of the school which such child attends may modify such suspension on a case-by-case basis; and

   (2) This section shall not prevent the school district from providing educational services in an alternative setting to a student suspended under the provisions of this section.

160.263. Confinement of a student prohibited, when-policy on restrictive behavioral interventions required-model policy to be developed.

1. The school discipline policy under section 160.261 shall prohibit confining a student in an unattended, locked space except for an emergency situation while awaiting the arrival of law enforcement personnel.

2. By July 1, 2011, the local board of education of each school district shall adopt a written policy that comprehensively addresses the use of restrictive behavioral interventions as a form of discipline or behavior management technique. The policy shall be consistent with professionally accepted practices and standards of student discipline, behavior management, health and safety, including the safe schools act. The policy shall include but not be limited to:

   (1) Definitions of restraint, seclusion, and time-out and any other terminology necessary to describe the continuum of restrictive behavioral interventions available for use or prohibited in the district;

   (2) Description of circumstances under which a restrictive behavioral intervention is allowed and prohibited and any unique application requirements for specific groups of students such as differences based on age, disability, or environment in which the educational services are provided;
(3) Specific implementation requirements associated with a restrictive behavioral intervention such as
time limits, facility specifications, training requirements or supervision requirements; and
(4) Documentation, notice and permission requirements associated with use of a restrictive behavioral
intervention.

3. The department of elementary and secondary education shall, in cooperation with appropriate
associations, organizations, agencies and individuals with specialized expertise in behavior management,
develop a model policy that satisfies the requirements of subsection 2 of this section by July 1, 2010.

160.775. Antibullying policy required-definition- content, requirements.

1. Every district shall adopt an antibullying policy by September 1, 2007.

2. "Bullying" means intimidation, unwanted aggressive behavior, or harassment that is repetitive or is
substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or
property; substantially interferes with the educational performance, opportunities, or benefits of any
student without exception; or substantially disrupts the orderly operation of the school. Bullying may
consist of physical actions, including gestures, or oral, cyberbullying, electronic, or written communication,
and any threat of retaliation for reporting of such acts. Bullying of students is prohibited on school
property, at any school function, or on a school bus. "Cyberbullying" means bullying as defined in this
subsection through the transmission of a communication including, but not limited to, a message, text,
sound, or image by means of an electronic device including, but not limited to, a telephone, wireless
telephone, or other wireless communication device, computer, or pager.

3. Each district's antibullying policy shall be founded on the assumption that all students need a safe
learning environment. Policies shall treat all students equally and shall not contain specific lists of
protected classes of students who are to receive special treatment. Policies may include age-appropriate
differences for schools based on the grade levels at the school. Each such policy shall contain a
statement of the consequences of bullying.

4. Each district's antibullying policy shall be included in the student handbook and shall require, at a
minimum, the following components:

(1) A statement prohibiting bullying, defined no less inclusively than in subsection 2 of this section;

(2) A statement requiring district employees to report any instance of bullying of which the employee
has firsthand knowledge. The policy shall require a district employee who witnesses an incident of
bullying to report the incident to the district's designated individual at the school within two school days
of the employee witnessing the incident;

(3) A procedure for reporting an act of bullying. The policy shall also include a statement requiring that
the district designate an individual at each school in the district to receive reports of incidents of
bullying. Such individual shall be a district employee who is teacher level staff or above;

(4) A procedure for prompt investigation of reports of violations and complaints, identifying one or more
employees responsible for the investigation including, at a minimum, the following requirements:

(a) Within two school days of a report of an incident of bullying being received, the school principal, or
his or her designee, shall initiate an investigation of the incident;

(b) The school principal may appoint other school staff to assist with the investigation; and

(c) The investigation shall be completed within ten school days from the date of the written report
unless good cause exists to extend the investigation;

(5) A statement that prohibits reprisal or retaliation against any person who reports an act of bullying
and the consequence and appropriate remedial action for a person who engages in reprisal or
repraliation;
(6) A statement of how the policy is to be publicized; and 

(7) A process for discussing the district's antibullying policy with students and training school employees and volunteers who have significant contact with students in the requirements of the policy, including, at a minimum, the following statements:

(a) The school district shall provide information and appropriate training to the school district staff who have significant contact with students regarding the policy;

(b) The school district shall give annual notice of the policy to students, parents or guardians, and staff;

(c) The school district shall provide education and information to students regarding bullying, including information regarding the school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to address bullying, including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have engaged in bullying, reprisal, or retaliation against any person who reports an act of bullying;

(d) The administration of the school district shall instruct its school counselors, school social workers, licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for students to overcome bullying's negative effects. Such techniques shall include, but not be limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself or herself assertively and effectively; helping the student develop social skills; or encouraging the student to develop an internal locus of control. The provisions of this paragraph shall not be construed to contradict or limit any other provision of this section; and

(e) The administration of the school district shall implement programs and other initiatives to address bullying, to respond to such conduct in a manner that does not stigmatize the victim, and to make resources or referrals available to victims of bullying.

5. Notwithstanding any other provision of law to the contrary, any school district shall have jurisdiction to prohibit cyberbullying that originates on a school's campus or at a district activity if the electronic communication was made using the school's technological resources, if there is a sufficient nexus to the educational environment, or if the electronic communication was made on the school's campus or at a district activity using the student's own personal technological resources. The school district may discipline any student for such cyberbullying to the greatest extent allowed by law.

6. Each district shall review its antibullying policy and revise it as needed. The district's school board shall receive input from school personnel, students, and administrators when reviewing and revising the policy.

Discipline, written policy established by local boards of education-contents-reporting requirements-additional restrictions for certain suspensions-weapons offense, mandatory suspension or expulsion-no civil liability for authorized personnel-spanking not child abuse, when-investigation procedure-officials falsifying reports, penalty.

1. The local board of education of each school district shall clearly establish a written policy of discipline, including the district's determination on the use of corporal punishment and the procedures in which punishment will be applied. A written copy of the district's discipline policy and corporal punishment procedures, if applicable, shall be provided to the pupil and parent or legal guardian of every pupil enrolled in the district at the beginning of each school year and also made available in the office of the superintendent of such district, during normal business hours, for public inspection. All employees of the district shall annually receive instruction related to the specific contents of the policy of discipline and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities and instruction in the necessity and requirements for confidentiality.

2. The policy shall require school administrators to report acts of school violence to all teachers at the attendance center and, in addition, to other school district employees with a need to know. For the purposes of this chapter or chapter 167, "need to know" is defined as school personnel who are directly responsible for the student's education or who otherwise interact with the student on a professional basis while acting within the scope of their assigned duties. As used in this section, the phrase "act of school violence" or "violent behavior" means the exertion of physical force by a student with the intent to do serious physical injury as defined in section 566.061 to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. The policy shall at a minimum require school administrators to report, as soon as reasonably practical, to the appropriate law enforcement agency any of the following crimes, or any act which if committed by an adult would be one of the following crimes:

   (1) First degree murder under section 565.020;
   (2) Second degree murder under section 565.021;

(11) Distribution of drugs to a minor under section 195.212 as it existed prior to January 1, 2017, or delivery of a controlled substance under section 579.020;

(12) Arson in the first degree under section 569.040;

(13) Voluntary manslaughter under section 565.023;

(14) Involuntary manslaughter under section 565.024 as it existed prior to January 1, 2017, involuntary manslaughter in the first degree under section 565.024, or involuntary manslaughter in the second degree under section 565.027;

(15) Second degree assault under section 565.060 as it existed prior to January 1, 2017, or second degree assault under section 565.052;

committed on school property, including but not limited to actions on any school bus in service on behalf of the district or while involved in school activities. The policy shall require that any portion of a student's individualized education program that is related to demonstrated or potentially violent behavior shall be provided to any teacher and other school district employees who are directly responsible for the student's education or who otherwise interact with the student on an educational basis while acting within the scope of their assigned duties. The policy shall also contain the consequences of failure to obey standards of conduct set by the local board of education, and the importance of the standards to the maintenance of an atmosphere where orderly learning is possible and encouraged.

3. The policy shall provide that any student who is on suspension for any of the offenses listed in subsection 2 of this section or any act of violence or drug-related activity defined by school district policy as a serious violation of school discipline pursuant to subsection 9 of this section shall have as a condition of his or her suspension the requirement that such student is not allowed, while on such suspension, to be within one thousand feet of any school property in the school district where such student attended school or any activity of that district, regardless of whether or not the activity takes place on district property unless:

(1) Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the superintendent or the superintendent's designee has authorized the student to be on school property;

(2) Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the
student and the superintendent or the superintendent's designee has authorized the student to be on school property;

(3) Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the school district where such student attended school; or

(4) Such student resides within one thousand feet of any public school in the school district where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.

4. Any student who violates the condition of suspension required pursuant to subsection 3 of this section may be subject to expulsion or further suspension pursuant to the provisions of sections 167.161, 167.164, and 167.171. In making this determination consideration shall be given to whether the student poses a threat to the safety of any child or school employee and whether such student's unsupervised presence within one thousand feet of the school is disruptive to the educational process or undermines the effectiveness of the school's disciplinary policy. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. This section shall not limit a school district's ability to:

(1) Prohibit all students who are suspended from being on school property or attending an activity while on suspension;

(2) Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.

5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:

(1) The superintendent or, in a school district with no high school, the principal of the school which such child attends may modify such suspension on a case-by-case basis; and

(2) This section shall not prevent the school district from providing educational services in an alternative setting to a student suspended under the provisions of this section.

6. For the purpose of this section, the term "weapon" shall mean a firearm as defined under 18 U.S.C. Section 921 and the following items, as defined in section 571.010: a blackjack, a concealable firearm, an explosive weapon, a firearm, a firearm silencer, a gas gun, a knife, knuckles, a machine gun, a projectile weapon, a rifle, a shotgun, a spring gun or a switchblade knife; except that this section shall not be construed to prohibit a school board from adopting a policy to allow a Civil War reenactor to carry a Civil War era weapon on school property for educational purposes so long as the firearm is unloaded. The local board of education shall define weapon in the discipline policy. Such definition shall include the weapons defined in this subsection but may also include other weapons.

7. All school district personnel responsible for the care and supervision of students are authorized to hold every pupil strictly accountable for any disorderly conduct in school or on any property of the school, on any school bus going to or returning from school, during school-sponsored activities, or during intermission or recess periods.

8. Teachers and other authorized district personnel in public schools responsible for the care, supervision, and discipline of schoolchildren, including volunteers selected with reasonable care by the school district, shall not be civilly liable when acting in conformity with the established policies developed by each board, including but not limited to policies of student discipline or when reporting to his or her supervisor or other person as mandated by state law acts of school violence or threatened acts of school violence, within the course and scope of the duties of the teacher, authorized district personnel or volunteer, when such individual is acting in conformity with the established policies developed by the
board. Nothing in this section shall be construed to create a new cause of action against such school district, or to relieve the school district from liability for the negligent acts of such persons.

9. Each school board shall define in its discipline policy acts of violence and any other acts that constitute a serious violation of that policy. "Acts of violence" as defined by school boards shall include but not be limited to exertion of physical force by a student with the intent to do serious bodily harm to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. School districts shall for each student enrolled in the school district compile and maintain records of any serious violation of the district's discipline policy. Such records shall be made available to teachers and other school district employees with a need to know while acting within the scope of their assigned duties, and shall be provided as required in section 167.020 to any school district in which the student subsequently attempts to enroll.

10. Spanking, when administered by certificated personnel and in the presence of a witness who is an employee of the school district, or the use of reasonable force to protect persons or property, when administered by personnel of a school district in a reasonable manner in accordance with the local board of education's written policy of discipline, is not abuse within the meaning of chapter 210. The provisions of sections 210.110 to 210.165 notwithstanding, the children's division shall not have jurisdiction over or investigate any report of alleged child abuse arising out of or related to the use of reasonable force to protect persons or property when administered by personnel of a school district or any spanking administered in a reasonable manner by any certificated school personnel in the presence of a witness who is an employee of the school district pursuant to a written policy of discipline established by the board of education of the school district, as long as no allegation of sexual misconduct arises from the spanking or use of force.

11. If a student reports alleged sexual misconduct on the part of a teacher or other school employee to a person employed in a school facility who is required to report such misconduct to the children's division under section 210.115, such person and the superintendent of the school district shall report the allegation to the children's division as set forth in section 210.115. Reports made to the children's division under this subsection shall be investigated by the division in accordance with the provisions of sections 210.145 to 210.153 and shall not be investigated by the school district under subsections 12 to 20 of this section for purposes of determining whether the allegations should or should not be substantiated. The district may investigate the allegations for the purpose of making any decision regarding the employment of the accused employee.

12. Upon receipt of any reports of child abuse by the children's division other than reports provided under subsection 11 of this section, pursuant to sections 210.110 to 210.165 which allegedly involve personnel of a school district, the children's division shall notify the superintendent of schools of the district or, if the person named in the alleged incident is the superintendent of schools, the president of the school board of the school district where the alleged incident occurred.

13. If, after an initial investigation, the superintendent of schools or the president of the school board finds that the report involves an alleged incident of child abuse other than the administration of a spanking by certificated school personnel or the use of reasonable force to protect persons or property when administered by school personnel pursuant to a written policy of discipline or that the report was made for the sole purpose of harassing a public school employee, the superintendent of schools or the president of the school board shall immediately refer the matter back to the children's division and take no further action. In all matters referred back to the children's division, the division shall treat the report in the same manner as other reports of alleged child abuse received by the division.

14. If the report pertains to an alleged incident which arose out of or is related to a spanking administered by certificated personnel or the use of reasonable force to protect persons or property when administered by personnel of a school district pursuant to a written policy of discipline or a report made for the sole
purpose of harassing a public school employee, a notification of the reported child abuse shall be sent by the superintendent of schools or the president of the school board to the law enforcement in the county in which the alleged incident occurred.

15. The report shall be jointly investigated by the law enforcement officer and the superintendent of schools or, if the subject of the report is the superintendent of schools, by a law enforcement officer and the president of the school board or such president's designee.

16. The investigation shall begin no later than forty-eight hours after notification from the children's division is received, and shall consist of, but need not be limited to, interviewing and recording statements of the child and the child's parents or guardian within two working days after the start of the investigation, of the school district personnel allegedly involved in the report, and of any witnesses to the alleged incident.

17. The law enforcement officer and the investigating school district personnel shall issue separate reports of their findings and recommendations after the conclusion of the investigation to the school board of the school district within seven days after receiving notice from the children's division.

18. The reports shall contain a statement of conclusion as to whether the report of alleged child abuse is substantiated or is unsubstantiated.

19. The school board shall consider the separate reports referred to in subsection 17 of this section and shall issue its findings and conclusions and the action to be taken, if any, within seven days after receiving the last of the two reports. The findings and conclusions shall be made in substantially the following form:

   (1) The report of the alleged child abuse is unsubstantiated. The law enforcement officer and the investigating school board personnel agree that there was not a preponderance of evidence to substantiate that abuse occurred;

   (2) The report of the alleged child abuse is substantiated. The law enforcement officer and the investigating school district personnel agree that the preponderance of evidence is sufficient to support a finding that the alleged incident of child abuse did occur;

   (3) The issue involved in the alleged incident of child abuse is unresolved. The law enforcement officer and the investigating school personnel are unable to agree on their findings and conclusions on the alleged incident.

20. The findings and conclusions of the school board under subsection 19 of this section shall be sent to the children's division. If the findings and conclusions of the school board are that the report of the alleged child abuse is unsubstantiated, the investigation shall be terminated, the case closed, and no record shall be entered in the children's division central registry. If the findings and conclusions of the school board are that the report of the alleged child abuse is substantiated, the children's division shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school district and shall include the information in the division's central registry. If the findings and conclusions of the school board are that the issue involved in the alleged incident of child abuse is unresolved, the children's division shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school board, however, the incident and the names of the parties allegedly involved shall not be entered into the central registry of the children's division unless and until the alleged child abuse is substantiated by a court of competent jurisdiction.

21. Any superintendent of schools, president of a school board or such person's designee or law enforcement officer who knowingly falsifies any report of any matter pursuant to this section or who knowingly withholds any information relative to any investigation or report pursuant to this section is guilty of a class A misdemeanor.
22. In order to ensure the safety of all students, should a student be expelled for bringing a weapon to school, violent behavior, or for an act of school violence, that student shall not, for the purposes of the accreditation process of the Missouri school improvement plan, be considered a dropout or be included in the calculation of that district's educational persistence ratio.

1. Any suspension issued pursuant to section 167.161, or this section, or expulsion pursuant to section 167.161, shall not relieve the state or the suspended student's parents or guardians of their responsibilities to educate the student. School districts are encouraged to provide an in-school suspension system and to search for other acceptable discipline alternatives prior to using suspensions of more than ten days or expelling a student from the school. Each school district or special school district constituting the domicile of any child for whom alternative education programs are provided or procured under this section shall pay toward the per pupil costs for alternative education programs for such child. A school district which is not a special school district shall pay an amount equal to the average sum produced per child by the local tax effort of the district of domicile. A special school district shall pay an amount not to exceed the average sum produced per child by the local tax efforts of the domiciliary districts. When educational services have been provided by the school district or special school district in which a child actually resides, other than the district of domicile, the amounts as provided in subsection 2 of this section* for which the domiciliary school district or special school district is responsible shall be paid by such district directly to the serving district. The school district, or special school district, as the case may be, shall send a written voucher for payment to the regular or special district constituting the domicile of the child served and the domiciliary school district or special school district receiving such voucher shall pay the district providing or procuring the services an amount not to exceed the average sum produced per child by the local tax efforts of the domiciliary districts. In the event the responsible district fails to pay the appropriate amount to the district within ninety days after a voucher is submitted, the state department of elementary and secondary education shall deduct the appropriate amount due from the next payments of any state financial aid due that district and shall pay the same to the appropriate district.

2. A school district may contract with other political subdivisions, public agencies, not-for-profit organizations, or private agencies for the provision of alternative education services for students whose demonstrated disruptive behavior indicates that they cannot be adequately served in the traditional

Grounds for Suspension or Expulsion

160.261. Discipline, written policy established by local boards of education-contents-reporting requirements-additional restrictions for certain suspensions-weapons offense, mandatory suspension or expulsion-no civil liability for authorized personnel-spanking not child abuse, when-investigation procedure-officials falsifying reports, penalty.

3. The policy shall provide that any student who is on suspension for any of the offenses listed in subsection 2 of this section or any act of violence or drug-related activity defined by school district policy as a serious violation of school discipline pursuant to subsection 9 of this section shall have as a condition of his or her suspension the requirement that such student is not allowed, while on such suspension, to be within one thousand feet of any school property in the school district where such student attended school or any activity of that district, regardless of whether or not the activity takes place on district property unless:

   (1) Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the superintendent or the superintendent's designee has authorized the student to be on school property;

   (2) Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student and the superintendent or the superintendent's designee has authorized the student to be on school property;

   (3) Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the school district where such student attended school; or

   (4) Such student resides within one thousand feet of any public school in the school district where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.

4. Any student who violates the condition of suspension required pursuant to subsection 3 of this section may be subject to expulsion or further suspension pursuant to the provisions of sections 167.161, 167.164, and 167.171. In making this determination consideration shall be given to whether the student poses a threat to the safety of any child or school employee and whether such student's unsupervised presence within one thousand feet of the school is disruptive to the educational process or undermines the effectiveness of the school's disciplinary policy. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. This section shall not limit a school district's ability to:

   (1) Prohibit all students who are suspended from being on school property or attending an activity while on suspension;

   (2) Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.

5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:
(1) The superintendent or, in a school district with no high school, the principal of the school which such child attends may modify such suspension on a case-by-case basis; and

(2) This section shall not prevent the school district from providing educational services in an alternative setting to a student suspended under the provisions of this section.

167.161. Suspension or expulsion of pupil-notice-hearing-felony violation, grounds for suspension.

1. The school board of any district, after notice to parents or others having custodial care and a hearing upon charges preferred, may suspend or expel a pupil for conduct which is prejudicial to good order and discipline in the schools or which tends to impair the morale or good conduct of the pupils. In addition to the authority granted in section 167.171, a school board may authorize, by general rule, the immediate removal of a pupil upon a finding by the principal, superintendent, or school board that the pupil poses a threat of harm to such pupil or others, as evidenced by the prior conduct of such pupil. Prior disciplinary actions shall not be used as the sole basis for removal, suspension or expulsion of a pupil. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. At the hearing upon any such removal, suspension or expulsion, the board shall consider the evidence and statements that the parties present and may consider records of past disciplinary actions, criminal court records or juvenile court records consistent with other provisions of the law, or the actions of the pupil which would constitute a criminal offense. The board may provide by general rule not inconsistent with this section for the procedure and conduct of such hearings. After meeting with the superintendent or his designee to discuss the expulsion, the parent, custodian or the student, if at least eighteen years of age, may, in writing, waive any right to a hearing before the board of education.

2. The school board of any district, after notice to parents or others having custodial care and a hearing upon the matter, may suspend a pupil upon a finding that the pupil has been charged, convicted or pled guilty in a court of general jurisdiction for the commission of a felony criminal violation of state or federal law. At a hearing required by this subsection, the board shall consider statements that the parties present. The board may provide for the procedure and conduct of such hearings.

3. The school board shall make a good-faith effort to have the parents or others having custodial care present at any such hearing. Notwithstanding any other provision of law to the contrary, student discipline hearings or proceedings related to the rights of students to attend school or to receive academic credit shall not be required to comply with the requirements applicable to contested case hearings as provided in chapter 536, provided that appropriate due process procedures shall be observed which shall include the right for a trial de novo by the circuit court.

171.141. Fraternities and sororities may be barred-enforcement.

1. As used in this section, a school fraternity or sorority is any organization composed wholly or in part of public school pupils, which seeks to perpetuate itself by taking in additional members from the pupils enrolled in public high schools, junior high schools or elementary schools on the basis of the decision of its membership rather than upon the free choice of any pupil in the school who is qualified by the rules of the board to fill the aims of the organization.

2. The school board of any school district, by rule, may prohibit membership of pupils in school fraternities or sororities composed of pupils in any high school, junior high school or elementary school in the district, when it deems that membership in the fraternities or sororities detrimentally affects the conduct and discipline of the schools in the district. Any rule adopted under this subsection shall prescribe the aim of school organizations which may be formed and the qualifications of pupils eligible for membership therein. The board may adopt other rules that are necessary to carry out the purposes of this section.

3. Upon the adoption of the rule authorized by subsection 2, the school board may suspend, discipline and expel from the schools under its control, any pupil who remains a member of, who joins or promises
to join, or who becomes pledged to become a member, or who solicits any other person to join, promise to join or be pledged or to become a member of a school fraternity or sorority. Upon direction of the board, by rule or otherwise, the superintendent of schools may suspend and discipline any person who violates the rule authorized by subsection 2 until the time that the matter is considered by the board.

167.171. Summary suspension of pupil—appeal—grounds for suspension—procedure—conference required, when—statewide suspension, when.

1. The school board in any district, by general rule and for the causes provided in section 167.161, may authorize the summary suspension of pupils by principals of schools for a period not to exceed ten school days and by the superintendent of schools for a period not to exceed one hundred and eighty school days. 3. No school board shall readmit or enroll a pupil properly suspended for more than ten consecutive school days for an act of school violence as defined in subsection 2 of section 160.261 regardless of whether or not such act was committed at a public school or at a private school in this state, provided that such act shall have resulted in the suspension or expulsion of such pupil in the case of a private school, or otherwise permit such pupil to attend school without first holding a conference to review the conduct that resulted in the suspension or expulsion and any remedial actions needed to prevent any future occurrences of such or related conduct. The conference shall include the appropriate school officials including any teacher employed in that school or district directly involved with the conduct that resulted in the suspension or expulsion, the pupil, the parent or guardian of the pupil or any agency having legal jurisdiction, care, custody or control of the pupil. The school board shall notify in writing the parents or guardians and all other parties of the time, place, and agenda of any such conference. Failure of any party to attend this conference shall not preclude holding the conference.    (1) Such pupil has been convicted of; or
   (2) An indictment or information has been filed alleging that the pupil has committed one of the acts enumerated in subdivision (4) of this subsection to which there has been no final judgment; or
   (3) A petition has been filed pursuant to section 211.091 alleging that the pupil has committed one of the acts enumerated in subdivision (4) of this subsection to which there has been no final judgment; or
(4) The pupil has been adjudicated to have committed an act which if committed by an adult would be one of the following:

This subsection shall not apply to a student with a disability, as identified under state eligibility criteria, who is convicted or adjudicated guilty as a result of an action related to the student's disability.

Nothing in this subsection shall be construed to prohibit a school district which provides an alternative education program from enrolling a pupil in an alternative education program if the district determines such enrollment is appropriate.

4. If a pupil is attempting to enroll in a school district during a suspension or expulsion from another in-state or out-of-state school district including a private, charter or parochial school or school district, a conference with the superintendent or the superintendent's designee may be held at the request of the parent, court-appointed legal guardian, someone acting as a parent as defined by rule in the case of a special education student, or the pupil to consider if the conduct of the pupil would have resulted in a suspension or expulsion in the district in which the pupil is enrolling. Upon a determination by the superintendent or the superintendent's designee that such conduct would have resulted in a suspension or expulsion in the district in which the pupil is enrolling or attempting to enroll, the school district may make such suspension or expulsion from another school or district effective in the district in which the pupil is enrolling or attempting to enroll. Upon a determination by the superintendent or the superintendent's designee that such conduct would not have resulted in a suspension or expulsion in the district in which the student is enrolling or attempting to enroll, the school district shall not make such suspension or expulsion effective in its district in which the student is enrolling or attempting to enroll.

School districts are encouraged to provide an in-school suspension system and to search for other acceptable discipline alternatives prior to using suspensions of more than ten days or expelling a student from the school. Each school district or special school district constituting the domicile of any child for whom alternative education programs are provided or procured under this section shall pay toward the per pupil costs for alternative education programs for such child. A school district which is not a special school district shall pay an amount equal to the average sum produced per child by the local tax effort of the district of domicile. A special school district shall pay an amount not to exceed the average sum produced per child by the local tax efforts of the domiciliary districts. When educational services have been provided by the school district or special school district in which a child actually resides, other than the district of domicile, the amounts as provided in subsection 2 of this section* for which the domiciliary school district or special school district is responsible shall be paid by such district directly to the serving district. In the event the responsible district fails to pay the appropriate amount to the district within ninety days after a voucher is submitted, the state department of elementary and secondary education shall deduct the appropriate amount due from the next payments of any state financial aid due that district and shall pay the same to the appropriate district.

2. A school district may contract with other political subdivisions, public agencies, not-for-profit organizations, or private agencies for the provision of alternative education services for students whose demonstrated disruptive behavior indicates that they cannot be adequately served in the traditional classroom setting. Such contracting may be included as part of a grant application pursuant to section 167.335 or conducted independent of the provisions of section 167.335.
167.171. Summary suspension of pupil-appeal-grounds for suspension-procedure-conference required, when-statewide suspension, when.

Nothing in this subsection shall prohibit the readmittance or enrollment of any pupil if a petition has been dismissed, or when a pupil has been acquitted or adjudicated not to have committed any of the above acts. This subsection shall not apply to a student with a disability, as identified under state eligibility criteria, who is convicted or adjudicated guilty as a result of an action related to the student's disability. Nothing in this subsection shall be construed to prohibit a school district which provides an alternative education program from enrolling a pupil in an alternative education program if the district determines such enrollment is appropriate.

1. The state board of education shall establish a program to award grants to school districts that apply for assistance in providing alternative educational opportunities for students whose demonstrated disruptive behavior indicates that they cannot be adequately served in the traditional classroom setting. The board shall solicit applications from school districts and shall make grants from funds appropriated for that purpose in such amounts and on such terms as it determines best encourages the development of alternative education programs throughout the state. The board shall give preference to applications that demonstrate a need for alternative education services and stress:

   (1) A comprehensive, kindergarten through grade twelve approach to preventing problems that result in the need for alternative education services;
   
   (2) Rigorous instruction in core academic disciplines;
   
   (3) Activities designed to enable the student to better perform in the regular classroom and to transition students back to the regular classroom when merited by their performance;
   
   (4) A student-centered approach whereby activities are designed to meet the particular needs of individual students; and
   
   (5) Collaboration with existing community-based service providers, such as cooperative education programs, school to work programs, parents-as-teachers programs, programs developed by the department of economic development and programs developed by local service delivery agencies, and other governmental and private agencies to address student needs beyond those traditionally addressed by schools.

2. School districts may submit joint applications and are encouraged to pursue regional approaches to alternative education where warranted. Area vocational learning centers shall be eligible to submit applications and are encouraged to pursue grants to expand and enhance existing alternative education programs established pursuant to sections 167.320 to 167.332, provided that any additional activities are compatible with subdivisions (1) to (5) of subsection 1 of this section. The state board of education shall adopt rules necessary to implement the grant program established pursuant to this section, provided that no rule or portion of a rule promulgated pursuant to this section shall become effective unless it has been promulgated pursuant to the provisions of section 536.024.

The school district may discipline any student for such cyberbullying to the greatest extent allowed by law.

6. Each district shall review its antibullying policy and revise it as needed. The district's school board shall receive input from school personnel, students, and administrators when reviewing and revising the policy.

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes
active hyperlinks to source websites supported or maintained by state legislatures. Additional links to
government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is
complete and current as of March 2021. Readers should also note that the information in this document
was compiled from individual sources that are created by each jurisdiction and which are maintained and
updated with varying frequencies. Readers should consult the source information provided directly in
order to check for updates to laws and regulations reported in this document or to conduct further
research.

For further information, including definitions of the different policy categories, please refer to the Discipline
Laws and Regulations Compendium posted on the Center’s website.

The trustees of the district shall adopt a policy defining the authority and procedure to be used by a teacher, superintendent, or principal in the suspension of a pupil and in defining the circumstances and procedures by which the trustees may expel a pupil. Expulsion is any removal of a pupil for more than 20 school days without the provision of educational services and is a disciplinary action available only to the trustees. A pupil may be suspended from school for an initial period not to exceed 10 school days. Upon a finding by a school administrator that the immediate return to school by a pupil would be detrimental to the health, welfare, or safety of others or would be disruptive of the educational process, a pupil may be suspended for one additional period not to exceed 10 school days if the pupil is granted an informal hearing with the school administrator prior to the additional suspension and if the decision to impose the additional suspension does not violate the Individuals With Disabilities Education Act, 20 U.S.C. 1400, et seq.

(2)(a) The trustees of a district shall adopt a policy for the expulsion of a student who is determined to have brought a firearm, as defined in 18 U.S.C. 921, to school and for referring the matter to the appropriate local law enforcement agency. A student who is determined to have brought a firearm to school under this subsection must be expelled from school for a period of not less than 1 year, except that the trustees may authorize the school administration to modify the requirement for expulsion of a student on a case-by-case basis. The trustees shall annually review the district's weapons policy and any policy adopted under this subsection (2)(a) and update the policies as determined necessary by the trustees based on changing circumstances pertaining to school safety.

(b) A decision to change the placement of a student with a disability who has been expelled pursuant to this section must be made in accordance with the Individuals With Disabilities Education Act.

(3) In accordance with 20-4-302, 20-4-402, 20-4-403, and subsection (1) of this section, a teacher, a superintendent, or a principal shall suspend immediately for good cause a student who is determined to have brought a firearm to school.

(4) Nothing in this section prevents a school district from:

REGULATIONS

10.16.3346. Aversive treatment procedures.

(1) Positive behavioral interventions based on the results of a functional behavioral assessment shall serve as the foundation for any program utilizing aversive procedures to address the behavioral needs of students. Aversive treatment procedures may be appropriate for an individual student who exhibits behaviors which pose a risk of physical harm to the student or others, or a risk of significant damage to property, or significantly disruptive or dangerous behaviors which cannot be modified solely through the use of positive behavioral interventions. Aversive treatment procedures must be designed to address the behavioral needs of an individual student, be approved by the IEP team, and may not be used as punishment, for the convenience of staff, or as a substitute for positive behavioral interventions.

(2) Aversive treatment procedures are defined as:

(a) physical restraint, other than as provided in 20-4-302, MCA, when the IEP team has determined that the frequency, intensity or duration of the restraint warrants an aversive treatment procedure; and

(b) isolation time-out which results in the removal of a student to an isolation room under the following conditions:

(i) the student is alone in the isolation room during the period of isolation;

(ii) the student is prevented from exiting the isolation room during the period of isolation;

(iii) the door to the isolation room remains closed during the period of isolation; and

(iv) the student is prohibited from participating in activities occurring outside the isolation room and from interacting with other students during the period of isolation.

(3) Any student in isolation timeout must be under the direct constant visual observation of a designated staff person throughout the entire period of isolation.

(4) The following procedures are prohibited:

(a) any procedure solely intended to cause physical pain;
(b) isolation in a locked room or mechanical restraint, except in residential treatment facilities and psychiatric hospitals as defined in 20-7-436, MCA, when prescribed by a physician as part of a treatment plan and when implemented in compliance with relevant federal and state law;
(c) the withholding of a meal for a period of greater than one hour from its scheduled starting time;
(d) aversive mists, noxious odors, and unpleasant tastes applied by spray or other means to cause an aversive physical sensation; and
(e) mechanical restraint that physically restricts a student's movement through the use upon the student of any mechanical or restrictive device which is not intended for medical reasons.

(5) Exclusion time-out is not considered an aversive treatment procedure. Exclusion time-out is defined as any removal of a student from a regularly scheduled activity for disciplinary purposes that does not result in placing the student in an isolation room under all of the conditions described in (2)(b).

(6) IEPs may include the use of aversive treatment procedures only when:
   (a) subsequent to a functional behavioral assessment, a series of no less than two written positive behavioral intervention strategies, which were designed to target the behavior to be changed, were previously implemented;
   (b) the IEP team includes a person trained and knowledgeable about best practices in the application of positive behavioral interventions, aversive treatment procedures and nonaversive alternatives for de-escalation of behaviors; and
   (c) a written behavioral intervention plan using aversive treatment procedures is developed and incorporated as a part of the IEP.

(7) A behavioral intervention plan using aversive treatment procedures must be in writing and shall:
   (a) include a statement describing no less than two positive behavioral intervention strategies previously attempted and the results of these interventions, as described in (6)(a);
   (b) describe the target behavior(s) that will be consequented with the use of the aversive treatment procedure(s);
   (c) include short-term objective(s) with measurable criteria stating the expected change in the target behavior(s);
   (d) provide a written description of the aversive treatment procedure(s);
   (e) specify a time limit for the use of the aversive treatment procedure for any one instance;
   (f) include data collection procedures for recording each application of the aversive treatment procedure(s);
   (g) state when the IEP team will meet to review the ongoing use, modification or termination of the aversive procedure;
   (h) designate an individual responsible for ongoing review and analysis of the data on the target behavior;
   (i) state how the student's parents will be regularly informed of the progress toward the short-term objectives in the IEP at a frequency no less than is required in 34 CFR 300.347; and
   (j) state whether any standard school disciplinary measures are waived.

(8) When an aversive treatment plan is incorporated in the IEP, the parents must be informed that their consent to the IEP includes consent for the aversive treatment plan. Failure to obtain consent is subject to due process proceedings under ARM 10.16.3507 through 10.16.3523.

(9) Parents must be informed as soon as possible, but no more than 24 hours after the procedure is used, in writing, or orally if in writing is not possible, in their native language each time an aversive procedure is implemented on their child.

If the child is discovered to be truant after the attendance officer has made a reasonable effort to notify the parent, guardian, or other person responsible for the care of the child, the attendance officer may require that the parent, guardian, or other person responsible for the care of the child and the child meet with an individual designated by the school district to formulate a truancy plan to address and resolve the truancy. If the parent, guardian, or other person responsible for the care of the child fails to meet with the designated individual or fails to uphold the responsibilities under the provisions of the truancy plan, the attendance officer may refer the matter to the prosecuting attorney in a court of competent jurisdiction for a determination regarding whether to prosecute the parent, guardian, or other person responsible for the care of the child.

(3)(a) If convicted, the person shall be fined not more than $100, ordered to perform up to 20 hours of community service, or required to give bond in the penal sum of $100, with sureties, conditioned on the person's agreement to cooperate with the district in implementing the truancy plan provided for in subsection (2) for the remainder of the current school term.

(b) If a person fails to comply with an order of the court issued under subsection (3)(a), the person may be imprisoned in the county jail for a term of not more than 3 days.

(4)(a) If the child is discovered by the attendance officer to be truant on 9 or more days or 54 or more parts of a day in 1 school year, the child may be referred to youth court as habitually truant under Title 41, chapter 5.

(b) Following a referral to youth court under subsection (4)(a), an attendance officer shall inform the youth court of any subsequent truancies by the child, and the youth court may find the child to be a youth in need of intervention as defined in 41-5-103 and make any of the dispositions provided in 41-5-1512.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.
Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

**R.R.S. Neb. § 79-261. School board or board of education; powers; delegation of authority.**

1) The school board or board of education may by rule amplify, supplement, or extend the procedures provided in the Student Discipline Act if such actions are not inconsistent with the act.

The principal shall make a reasonable effort to hold a conference with the parent or guardian before or at the time the student returns to school.

R.R.S. Neb. § 79-268. Long-term suspension, expulsion, or mandatory reassignment; procedures; enumerated.

of (a) interference with an educational function or school purpose or (b) a personal injury to the student himself or herself, other students, school employees, or school volunteers.

The Student Discipline Act does not preclude the student or the student's parent, guardian, or representative from discussing and settling the matter with appropriate school personnel prior to the hearing stage.

At a hearing requested under sections 79-268 and 79-269, the principal shall present to the hearing examiner statements, in affidavit form, of any person having information about the student's conduct and the student's records but not unless such statements and records have been made available to the student or the student's parent, guardian, or representative prior to the hearing. R.R.S. Neb. § 79-281. Hearing; joint hearing; separate hearings; when.
(1) When more than one student is charged with violating the same rule and having acted in concert and when the facts are substantially the same for all such students, a single hearing requested under sections 79-268 and 79-269 may be conducted for such students as a group if the hearing examiner believes that a single hearing is not likely to result in confusion and that no student shall have his or her interests substantially prejudiced by a single hearing.
(2) If during the conduct of the hearing the hearing examiner finds that a student's interests will be substantially prejudiced by a group hearing or that the hearing is resulting in confusion, the hearing examiner may order a separate hearing for any student.
R.R.S. Neb. § 79-282. Hearing; hearing examiner; report; contents; review; final disposition; how determined.

(1) After a hearing requested under sections 79-268 and 79-269, a report shall be made by the hearing examiner of his or her findings and a recommendation of the action to be taken, which report shall explain, in terms of the needs of both the student and the school board, the reasons for the particular action recommended. Such recommendation may range from no action, through the entire field of counseling, to long-term suspension, expulsion, mandatory reassignment, or an alternative educational placement under section 79-266.

(2) A review shall be made of the hearing examiner's report by the superintendent, who may change, revoke, or impose the sanction recommended by the hearing examiner but shall not impose a sanction more severe than that recommended by the hearing examiner.

(3) The findings and recommendations of the hearing examiner, the determination by the superintendent, and any determination on appeal to the governing body, shall be made solely on the basis of the evidence presented at the hearing or, in addition, on any evidence presented on appeal.

(5) Any expulsion that will remain in effect during the first semester of the following school year shall be automatically scheduled for review before the beginning of the school year. The review shall be conducted by the hearing examiner after the hearing examiner has given notice of the review to the student and the student's parent or guardian. This review shall be limited to newly discovered evidence or evidence of changes in the student's circumstances occurring since the original hearing. This review may lead to a recommendation by the hearing examiner that the student be readmitted for the upcoming school year. If the school board or board of education or a committee of such board took the final action to expel the student, the student may be readmitted only by action of the board. Otherwise the student may be readmitted by action of the superintendent.

(1) The student or the student's parent or guardian may, within seven school days following receipt of the written notice of the determination of the superintendent under section 79-282, appeal the superintendent's determination to the school board or board of education by a written request which shall be filed with the secretary of the board or with the superintendent.

(2) A hearing shall be held before the school board or the board of education within a period of ten school days after it is requested, and such time for a hearing may be changed by mutual agreement of the student and superintendent, except that the hearing may be held before a committee of the school board or board of education of not less than three members. Such appeal shall be made on the record, except that new evidence may be admitted to avoid a substantial threat of unfairness and such new evidence shall be recorded as provided in section 79-280.

R.R.S. Neb. § 79-286. Hearing; appeal; school board or board of education; powers and duties.

(1) After examining the record and taking new evidence pursuant to section 79-285, if any, the school board or board of education or the designated committee thereof may withdraw to deliberate privately upon such record and new evidence. Any such deliberation shall be held in the presence only of board members in attendance at the appeal proceeding but may be held in the presence of legal counsel who has not previously acted as the designee of the principal in presenting the school's case before the hearing examiner.

(2) If any questions arise during such deliberations which require additional evidence, the deliberating body may reopen the hearing to receive such evidence, subject to the right of all parties to be present.
(3) The board may alter the superintendent's disposition of the case if it finds the decision to be too severe but may not impose a more severe sanction.

(1) Proceedings for review under sections 79-288 to 79-292 shall be instituted by filing a petition in the district court of the county where the action is taken within thirty days after the service of the final decision by the school board or board of education under sections 79-286 and 79-287.
(2) All parties of record shall be made parties to the proceedings for review. The court, in its discretion, may permit other interested persons to intervene.
(3) Summons shall be served as in other actions, except that a copy of the petition shall be served upon the board together with the summons. Service of summons upon a duly elected officer of the board or the appointed secretary of the board shall constitute service on the board.
(4) The filing of the petition or the service of summons upon the board shall not stay enforcement of a decision, but the board may stay enforcement, or the court may order a stay after notice to such board of application therefor and upon such terms as it deems proper.
(5) The court may require the party requesting such stay to give bond in such amount and condition as the court may direct but only in cases involving injury or damage to person or property.

**R.R.S. Neb. § 79-290. Judicial review; transcript of record and proceedings; responsive pleading not required.**

   (b) In excess of the statutory authority or jurisdiction of the board;
   (c) Made upon unlawful procedure;
   (d) Affected by other error of law;

At the end of each week each teacher shall report all absences and the cause of absence to the proper superintendent. At the close of each period each teacher shall transmit to the superintendent a report showing (1) the name, age, and address of each child enrolled, (2) the number of half days each child was absent, (3) the number enrolled and the number attending on the last day of the period, and (4) the average daily attendance for the period. The provisions of this section requiring reports from each teacher shall not apply to individual teachers in schools employing more than one teacher but shall in such case apply to the head teacher, principal, or superintendent who shall obtain the required information from the teachers under his or her supervision or control. All reports and lists required in this section shall be upon blanks prescribed by the State Department of Education.

R.R.S. Neb. § 79-209. Compulsory attendance; nonattendance; school district; duties; collaborative plan; considerations; referral to county attorney; notice.
(1) In all school districts in this state, any superintendent, principal, teacher, or member of the school board who knows of any violation of subsection (2) of section 79-201 shall within three days report such violation to the attendance officer of the school, who shall immediately investigate the case. When of his or her personal knowledge or by report or complaint from any resident of the district, the attendance officer believes that there is a violation of subsection (2) of section 79-201, the attendance officer shall immediately investigate such alleged violation.

LAWS

R.R.S. Neb. § 79-209. Compulsory attendance; nonattendance; school district; duties; collaborative plan; considerations; referral to county attorney; notice.

(2) All school boards shall have a written policy on attendance developed and annually reviewed in collaboration with the county attorney of the county in which the principal office of the school district is located. The policy shall include a provision indicating how the school district will handle cases in which excessive absences are due to illness. The policy shall also state the circumstances and number of absences or the hourly equivalent upon which the school shall render all services to address barriers to attendance. Such services shall include, but not be limited to:

(a) Verbal or written communication by school officials with the person or persons who have legal or actual charge or control of any child. […]

(3) The school may report to the county attorney of the county in which the person resides when the school has documented the efforts it has made as required by subsection (2) of this section that the collaborative plan to reduce barriers identified to improve regular attendance has not been successful and that the child has been absent more than twenty days per year. The school shall notify the child's family in writing prior to referring the child to the county attorney. Failure by the school to document the efforts required by subsection (2) of this section is a defense to prosecution under section 79-201 and adjudication for educational neglect under subdivision (3)(a) of section 43-247 and habitual truancy under subdivision (3)(b) of section 43-247. Illness that makes attendance impossible or impracticable shall not be the basis for referral to the county attorney.

R.R.S. Neb. § 79-258. Administrative and teaching personnel; authorized actions.

Administrative and teaching personnel may take actions regarding student behavior, other than those specifically provided in the Student Discipline Act, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but need not be limited to, counseling of students, parent conferences, referral to restorative justice practices or services, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation.

Any statement, notice, recommendation, determination, or similar action specified in the Student Discipline Act shall be effectively given at the time written evidence thereof is delivered personally to or upon receipt of certified or registered mail or upon actual knowledge by a student or his or her parent or guardian.

R.R.S. Neb. § 79-265. Principal; suspend student; grounds; procedure; written statement; conference; guidelines for completion of classwork.

(4) Within twenty-four hours or such additional time as is reasonably necessary following such suspension, the principal shall send a written statement to the student and his or her parent or guardian describing the student's conduct, misconduct, or violation of the rule or standard and the reasons for the action taken. The principal shall make a reasonable effort to hold a conference with the parent or guardian before or at the time the student returns to school.
R.R.S. Neb. § 79-266. Pre-expulsion procedures; when; expelled student; alternative assignments; suspension of enforcement; agreement between school boards; reinstatement; when; expungement.

(2) If a district does not provide an alternative school, class, or educational program for expelled students, the district shall follow the procedures in this subsection prior to expelling a student unless the expulsion was required by subsection (4) of section 79-283: A conference shall be called by a school administrator and held to assist the district in the development of a plan with the participation of a parent or legal guardian, the student, a school representative, and a representative of either a community organization with a mission of assisting young people or a representative of an agency involved with juvenile justice. The plan shall be in writing and adopted by a school administrator and presented to the student and the parent or legal guardian. The plan shall (a) specify guidelines and consequences for behaviors which have been identified as preventing the student from achieving the desired benefits from the educational opportunities provided, (b) identify educational objectives that must be achieved in order to receive credits toward graduation, (c) specify the financial resources and community programs available to meet both the educational and behavioral objectives identified, and (d) require the student to attend monthly reviews in order to assess the student's progress toward meeting the specified goals and objectives.

R.R.S. Neb. § 79-268. Long-term suspension, expulsion, or mandatory reassignment; procedures; enumerated.

If a principal makes a decision to discipline a student by long-term suspension, expulsion, or mandatory reassignment, the following procedures shall be followed:

(1) On the date of the decision, a written charge and a summary of the evidence supporting such charge shall be filed with the superintendent. The school shall, within two school days after the decision, send written notice by registered or certified mail to the student and his or her parent or guardian informing them of the rights established under the Student Discipline Act;

(2) Such written notice shall include the following:

(a) The rule or standard of conduct allegedly violated and the acts of the student alleged to constitute a cause for long-term suspension, expulsion, or mandatory reassignment, including a summary of the evidence to be presented against the student;

(b) The penalty, if any, which the principal has recommended in the charge and any other penalty to which the student may be subject;

(c) A statement that, before long-term suspension, expulsion, or mandatory reassignment for disciplinary purposes can be invoked, the student has a right to a hearing, upon request, on the specified charges;

(d) A description of the hearing procedures provided by the act, along with procedures for appealing any decision rendered at the hearing;

(e) A statement that the principal, legal counsel for the school, the student, the student's parent, or the student's representative or guardian has the right (i) to examine the student's academic and disciplinary records and any affidavits to be used at the hearing concerning the alleged misconduct and (ii) to know the identity of the witnesses to appear at the hearing and the substance of their testimony; and

(f) A form on which the student, the student's parent, or the student's guardian may request a hearing, to be signed by such parties and delivered to the principal or superintendent in person or by registered or certified mail as prescribed in sections 79-271 and 79-272; and

(3) When a notice of intent to discipline a student by long-term suspension, expulsion, or mandatory reassignment is filed with the superintendent, the student may be suspended by the principal until the
date the long-term suspension, expulsion, or mandatory reassignment takes effect if no hearing is requested or, if a hearing is requested, the date the hearing examiner makes the report of his or her findings and a recommendation of the action to be taken to the superintendent, if the principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of (a) interference with an educational function or school purpose or (b) a personal injury to the student himself or herself, other students, school employees, or school volunteers.

The Student Discipline Act does not preclude the student or the student's parent, guardian, or representative from discussing and settling the matter with appropriate school personnel prior to the hearing stage.

**R.R.S. Neb. § 79-271. Hearing; not requested within five days; recommended punishment; effect.**

If a hearing is not requested under sections 79-268 and 79-269 by the student or the student's parent or guardian within five school days following receipt of the written notice, the punishment recommended in the charge by the principal or his or her designee shall automatically go into effect upon the fifth school day following receipt of the written notice by the student or his or her parent or guardian as required in section 79-268.

**R.R.S. Neb. § 79-283. Hearing; final disposition; written notice; effect; period of expulsion; review; when; procedure; readmittance.**

(1) Written notice of the findings and recommendations of the hearing examiner and the determination of the superintendent under section 79-282 shall be made by certified or registered mail or by personal delivery to the student or the student's parent or guardian. Upon receipt of such written notice by the student, parent, or guardian, the determination of the superintendent shall take immediate effect.

**R.R.S. Neb. § 79-294. Removal of minor from school premises; release to peace officer; principal or other school official; duties; peace officer; duties; juvenile court review; when.**

When a principal or other school official releases a minor student to a peace officer as defined in section 49-801 for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to the officer and regarding the place to which the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse, in which case the principal or other school official shall provide the peace officer with the address and telephone number of the minor's parent or guardian. The peace officer shall take immediate steps to notify the parent, guardian, or responsible relative of the minor that the minor is in custody and the place where he or she is being held. If the peace officer has a reasonable belief that the minor would be endangered by a disclosure of the place where the minor is being held or that the disclosure would cause the custody of the minor to be disturbed, the peace officer may refuse to disclose the place where the minor is being held for a period not to exceed twenty-four hours. The peace officer shall, however, inform the parent, guardian, or responsible relative whether the child requires and is receiving medical or other treatment. The juvenile court shall review any decision not to disclose the place where the minor is being held at any subsequent detention hearing.

Authorizations, Memoranda of Understanding (MOUs), and/or Funding

LAWS

R.R.S. Neb. § 79-2,701. Legislative findings and declarations.
The Legislature finds and declares that:

(1) Our public school children, faculty, and staff are entitled to be safe in schools when they attend school and study or work;

(2) Schools have an interest in keeping students safe;

(3) The interest of schools in keeping students safe may include the presence of school resource officers or security guards if a school district determines such resources are necessary to keep schools safe;

(4) Parents and guardians of students have a vested interest in being informed of school discipline matters involving their children and to be notified as soon as possible if their children are contacted in response to a possible law violation, questioned, searched, cited, or arrested by a peace officer working with school officials;

(5) A comprehensive and clear memorandum of understanding between law enforcement and school officials will delineate the roles and responsibilities of school resource officers, security guards, and school officials to balance the interests of safety for students and school staff in relation to parental rights, student success, and family integrity, with the goal that an increased law enforcement presence
at schools will not result in a disparate impact on students in federally identified demographic categories; and

(6) Schools have a duty to respond to and manage disciplinary issues. The primary role of school resource officers and security officers should be to enhance safety with the understanding that school resource officers also work to prevent and respond to law violations and serve as a community resource for students, parents, and school staff.

For purposes of sections 79-2701 to 79-2704, unless the context otherwise requires:

(1) Department means the State Department of Education;

(2) Law enforcement agency means an agency or department of this state or of any political subdivision of this state that is responsible for the prevention and detection of crime, the enforcement of the penal, traffic, or highway laws of this state or any political subdivision of this state, and the enforcement of arrest warrants. Law enforcement agency includes a police department, an office of a town marshal, an office of a county sheriff, the Nebraska State Patrol, and any department to which a deputy state sheriff is assigned as provided in section 84-106;

(3) Peace officer has the same meaning as in section 28-109;

(4) School resource officer means any peace officer who is assigned, as his or her primary duty, to any school district to provide law enforcement and security services to any public elementary or secondary school and does not mean a peace officer responding to a call for service, providing proactive enforcement, providing law enforcement or traffic direction for a school-related event, or providing temporary services as a school resource officer when the assigned school resource officer is not available;

(5) Security agency means a contractor that employs security guards used by a school district; and

(6) Security guard means a person who is contracted or employed by a security agency to protect buildings and people and who does not have law enforcement authority or the power to arrest under any apparent authority in the jurisdiction where such person is contracted or employed as a security guard. A security guard may be an off-duty peace officer.

(2) On and after January 1, 2021, any law enforcement agency which provides school resource officers and any security agency which provides security guards to schools in a school district shall have in effect the model memorandum of understanding or a different written memorandum of understanding with such school district as adopted by such law enforcement agency or security agency. Such different written memorandum of understanding shall be substantially similar to the model memorandum of understanding, shall include provisions in conformance with the minimum standards set forth in the model memorandum of understanding, and may include any other procedures and provisions the school district and the law enforcement agency or security agency mutually deem appropriate.

(3) The superintendent of a school district required to adopt a memorandum of understanding under this section shall, within three months after its adoption, provide a copy of such memorandum of
understanding to the department or publicly post such memorandum of understanding on the school district web site.

(4) On or before January 1, 2021, and each January 1 thereafter, when any school district required to adopt a memorandum of understanding under this section has made any change to its memorandum of understanding, in conjunction with the law enforcement agency or security agency, in the preceding year, the superintendent of such school district shall provide an updated copy of such memorandum of understanding to the department or publicly post such memorandum of understanding on the school district web site.

(1) Require each school resource officer or security guard to attend a minimum of twenty hours of training focused on school-based law enforcement, including, but not limited to, coursework focused on school law, student rights, understanding special needs students and students with disabilities, conflict de-escalation techniques, ethics for school resource officers, teenage brain development, adolescent behavior, implicit bias training, diversity and cultural awareness, trauma-informed responses, and preventing violence in school settings;

(3) Ensure records are kept on each student referral for prosecution from a school resource officer in response to an incident occurring at school, on school grounds, or at a school-sponsored event and ensure that such records allow for analysis of related data and delineate:

(a) The reason for such referral; and

(b) Federally identified demographic characteristics of such student;

(4) Identify school policies that address when a parent or guardian will be notified or present, in a language that such parent or guardian understands, if a student is subjected to questioning or interrogation by a school official or by a school resource officer or security guard operating in conjunction with a school official;

(5) Identify the school or law enforcement agency policies that address under what circumstances a student will be advised of constitutional rights prior to being questioned or interrogated by a school official or by a school resource officer or security guard operating in conjunction with a school official;

(6) Identify the school policy required by section 79-262 that addresses the type or category of student conduct or actions that will be referred to law enforcement for prosecution and the type of student conduct or actions that will be resolved as a disciplinary matter by a school official and not subject to referral to law enforcement; and

(7) Identify a student and parent complaint process to express a concern or file a complaint about a school resource officer or security guard and the practices of such school resource officer or security guard with the law enforcement agency or security agency.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources.
related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

   (a) The provisions of NRS 388.1351 do not apply to the same or similar behavior if the behavior is addressed in the pupil's individualized education program; and
   (b) The administrator or designee shall take any measures necessary to protect the safety of the victim of the violation.

5. The provisions of NRS 388.1351 do not apply to a violation of NRS 388.135 committed by:

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources.
related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

Restraint and Seclusion

LAWS

RSA 126-U:1. Definitions.
In this chapter:
IV. "Restraint" means bodily physical restriction, mechanical devices, or any device that immobilizes a person or restricts the freedom of movement of the torso, head, arms, or legs. It includes mechanical restraint, physical restraint, and medication restraint used to control behavior in an emergency or any involuntary medication. It is limited to actions taken by persons who are school or facility staff members, contractors, or otherwise under the control or direction of a school or facility.
(a) "Medication restraint" occurs when a child is given medication involuntarily for the purpose of immediate control of the child's behavior.
(b) "Mechanical restraint" occurs when a physical device or devices are used to restrict the movement of a child or the movement or normal function of a portion of his or her body.
(c) "Physical restraint" occurs when a manual method is used to restrict a child's freedom of movement or normal access to his or her body.
(d) Restraint shall not include:
(1) Brief touching or holding to calm, comfort, encourage, or guide a child, so long as limitation of freedom of movement of the child does not occur.
(2) The temporary holding of the hand, wrist, arm, shoulder, or back for the purpose of inducing a child to stand, if necessary, and then walk to a safe location, so long as the child is in an upright position and moving toward a safe location.

(3) Physical devices, such as orthopedically prescribed appliances, surgical dressings and bandages, and supportive body bands, or other physical holding when necessary for routine physical examinations and tests or for orthopedic, surgical, and other similar medical treatment purposes, or when used to provide support for the achievement of functional body position or proper balance or to protect a person from falling out of bed, or to permit a child to participate in activities without the risk of physical harm.

(4) The use of seat belts, safety belts, or similar passenger restraints during the transportation of a child in a motor vehicle.

(5) The use of force by a person to defend himself or herself or a third person from what the actor reasonably believes to be the imminent use of unlawful force by a child, when the actor uses a degree of such force which he or she reasonably believes to be necessary for such purpose and the actor does not immobilize a child or restrict the freedom of movement of the torso, head, arms, or legs of any child.

V-a. "Seclusion" means the involuntary placement of a child alone in a place where no other person is present and from which the particular child is unable to exit, either due to physical manipulation by a person, a lock, or other mechanical device or barrier. The term shall not include the voluntary separation of a child from a stressful environment for the purpose of allowing the child to regain self-control, when such separation is to an area which a child is able to leave. Seclusion does not include circumstances in which there is no physical barrier between the child and any other person or the child is physically able to leave the place. A circumstance may be considered seclusion even if a window or other device for visual observation is present, if the other elements of this definition are satisfied.

The department of education and the department of labor shall work cooperatively to develop consistent definitions and applications of this chapter in order to inform school administrators and employees across the state of best practices regarding restraints in schools. The department of education may utilize grant funds that are available through the department's office of student wellness for trauma-responsive training, consultation on de-escalating violent situations, and proper uses of restraint.

RSA 126-U:2. Written policies required.
Each facility and school shall have a written policy and procedures for managing the behavior of children. Such policy shall describe how and under what circumstances seclusion or restraint is used and shall be provided to the parent, guardian, or legal representative of each child at such facility or school.

RSA 126-U:3. Post admission planning in facilities.
I. As soon as possible after admission to a facility, the treatment staff of the facility, the child, and the child's parent or guardian shall develop a plan to:
   (a) Identify the child's history of physical, sexual, or emotional trauma, if any.
   (b) Identify effective responses to potential behavior or situations which will avoid the use of seclusion and restraint.
   (c) Identify health conditions which may make the child vulnerable to injury while at the facility.
II. The plan described in this section is not required if the child is expected to be at the facility for fewer than 72 hours and, after conducting a reasonable inquiry, the staff of the facility is not informed of any history of the use of seclusion or restraint of the child.
No school or facility shall use or threaten to use any of the following restraint and behavior control techniques:

I. Any physical restraint or containment technique that:

I. Restraint shall only be used in a school or facility to ensure the immediate physical safety of persons when there is a substantial and imminent risk of serious bodily harm to the child or others. The determination of whether the use of restraint is justified under this section may be made with consideration of all relevant circumstances, including whether continued acts of violence by a child to inflict damage to property will create a substantial risk of serious bodily harm to the child or others. Restraint shall be used only by trained personnel using extreme caution when all other interventions have failed or have been deemed inappropriate.

II. Restraint shall never be used explicitly or implicitly as punishment for the behavior of a child.

RSA 126-U:5-a. Limitation on the use of seclusion.

II. Seclusion shall only be used by trained personnel after other approaches to the control of behavior have been attempted and been unsuccessful, or are reasonably concluded to be unlikely to succeed based on the history of actual attempts to control the behavior of a particular child.

RSA 193-F:1. Title.
This chapter shall be known, and may be cited as the "Pupil Safety and Violence Prevention Act of 2000."

RSA 193-F:2. Purpose and intent.
I. All pupils have the right to attend public schools, including chartered public schools, that are safe, secure, and peaceful environments. One of the legislature’s highest priorities is to protect our children from physical, emotional, and psychological violence by addressing the harm caused by bullying and cyberbullying in our public schools.
II. Bullying in schools has historically included actions shown to be motivated by a pupil's actual or perceived race, color, religion, national origin, ancestry or ethnicity, sexual orientation, socioeconomic status, age, physical, mental, emotional, or learning disability, gender, gender identity and expression, obesity, or other distinguishing personal characteristics, or based on association with any person identified in any of the above categories.

III. It is the intent of the legislature to protect our children from physical, emotional, and psychological violence by addressing bullying and cyberbullying of any kind in our public schools, for all of the historical reasons set forth in this section, and to prevent the creation of a hostile educational environment.

IV. The sole purpose of this chapter is to protect all children from bullying and cyberbullying, and no other legislative purpose is intended, nor should any other intent be construed from the enactment of this chapter.

RSA 193-F:3. Definitions.

In this chapter:
I. (a) "Bullying" means a single significant incident or a pattern of incidents involving a written, verbal, or electronic communication, or a physical act or gesture, or any combination thereof, directed at another pupil which:

   (2) Causes emotional distress to a pupil;
   (3) Interferes with a pupil's educational opportunities;
   (4) Creates a hostile educational environment; or
   (5) Substantially disrupts the orderly operation of the school.
(b) "Bullying" shall include actions motivated by an imbalance of power based on a pupil's actual or perceived personal characteristics, behaviors, or beliefs, or motivated by the pupil's association with another person and based on the other person's characteristics, behaviors, or beliefs.

II. "Cyberbullying" means conduct defined in paragraph I of this section undertaken through the use of electronic devices.

III. "Electronic devices" include, but are not limited to, telephones, cellular phones, computers, pagers, electronic mail, instant messaging, text messaging, and websites.

II. The school board of each school district and the board of trustees of a chartered public school shall, no later than 6 months after the effective date of this section, adopt a written policy prohibiting bullying and cyberbullying. Such policy shall include the definitions set forth in RSA 193-F:3. The policy shall contain, at a minimum, the following components:
(a) A statement prohibiting bullying or cyberbullying of a pupil.

(b) A statement prohibiting retaliation or false accusations against a victim, witness, or anyone else who in good faith provides information about an act of bullying or cyberbullying and, at the time a report is made, a process for developing, as needed, a plan to protect pupils from retaliation.

(c) A requirement that all pupils are protected regardless of their status under the law.

(d) A statement that there shall be disciplinary consequences or interventions, or both, for a pupil who commits an act of bullying or cyberbullying, or falsely accuses another of the same as a means of retaliation or reprisal.

(e) A statement indicating how the policy shall be made known to school employees, regular school volunteers, pupils, parents, legal guardians, or employees of a company under contract to a school, school district, or chartered public school. The superintendent or superintendent's designee shall notify in writing all parties involved of the granting of an extension.

(k) A requirement that the principal or designee develop a response to remediate any substantiated incident of bullying or cyberbullying, including imposing discipline if appropriate, to reduce the risk of future incidents and, where deemed appropriate, to offer assistance to the victim or perpetrator. New Jersey
Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021.
