Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

LAWS

33-133. Definitions - Student data - Use and limitations - Penalties.
(4) The state board of education shall adopt rules to implement the provisions of this act.

33-205. Denial of school attendance.
The board of trustees of each school district shall establish the procedure to be followed by the superintendent and principals under its jurisdiction for the purpose of effecting a temporary suspension, which procedure must conform to the minimal requirements of due process.

33-512. Governance of schools.
The board of trustees of each school district shall have the following powers and duties:

   (6) To prescribe rules for the disciplining of unruly or insubordinate pupils, including rules on student harassment, intimidation and bullying, such rules to be included in a district discipline code adopted by the board of trustees and a summarized version thereof to be provided in writing at the beginning of each school year to the teachers and students in the district in a manner consistent with the student's age, grade and level of academic achievement;

In the absence of any statute or rule or regulation of the board of trustees, any teacher employed by a school district shall have the right to direct how and when each pupil shall attend to his appropriate duties, and the manner in which a pupil shall demean himself while in attendance at the school. It is the duty of a teacher to carry out the rules and regulations of the board of trustees in controlling and maintaining discipline, and a teacher shall have the power to adopt any reasonable rule or regulation to control and maintain discipline in, and otherwise govern, the classroom, not inconsistent with any statute or rule or regulation of the board of trustees.

33-1612. Thorough system of public schools.
The constitution of the state of Idaho, section 1, article IX, charges the legislature with the duty to establish and maintain a general, uniform and thorough system of public, free common schools. In fulfillment of this duty, the people of the state of Idaho have long enjoyed the benefits of a public school system, supported by the legislature, which has recognized the value of education to the children of this state.

In continuing recognition of the fundamental duty established by the constitution, the legislature finds it in the public interest to define thoroughness and thereby establish the basic assumptions which govern provision of a thorough system of public schools.

A thorough system of public schools in Idaho is one in which:

1. A safe environment conducive to learning is provided;
2. Educators are empowered to maintain classroom discipline;
3. The basic values of honesty, self-discipline, unselfishness, respect for authority and the central importance of work are emphasized;
4. The skills necessary to communicate effectively are taught;
5. A basic curriculum necessary to enable students to enter academic or professional-technical postsecondary educational programs is provided;
6. The skills necessary for students to enter the work force are taught;
7. The students are introduced to current technology; and
8. The importance of students acquiring the skills to enable them to be responsible citizens of their homes, schools and communities is emphasized.

The state board shall adopt rules, pursuant to the provisions of chapter 52, title 67, Idaho Code, and section 33-105(3), Idaho Code, to establish a thorough system of public schools with uniformity as required by the constitution, but shall not otherwise impinge upon the authority of the board of trustees of the school districts. Authority to govern the school district, vested in the board of trustees of the school district, not delegated to the state board, is reserved to the board of trustees. Fulfillment of the expectations of a thorough system of public schools will continue to depend upon the vigilance of district patrons, the dedication of school trustees and educators, the responsiveness of state rules, and meaningful oversight by the legislature.

Any pupil having been denied enrollment or expelled may be enrolled or readmitted to the school by the board of trustees upon such reasonable conditions as may be prescribed by the board; but such enrollment or readmission shall not prevent the board from again expelling such pupil for cause.

No pupil shall be expelled nor denied enrollment without the board of trustees having first given written notice to the parent or guardian of the pupil, which notice shall state the grounds for the proposed expulsion or denial of enrollment and the time and place where such parent or guardian may appear to contest the action of the board to deny school attendance, and which notice shall also state the rights of
the pupil to be represented by counsel, to produce witnesses and submit evidence on his own behalf, and to cross-examine any adult witnesses who may appear against him. Within a reasonable period of time following such notification, the board of trustees shall grant the pupil and his parents or guardian a full and fair hearing on the proposed expulsion or denial of enrollment. However, the board shall allow a reasonable period of time between such notification and the holding of such hearing to allow the pupil and his parents or guardian to prepare their response to the charge.

Alternative secondary programs are those that provide special instructional courses and offer special services to eligible at-risk youth to enable them to earn a high school diploma. Some designated differences must be established between the alternative school programs and the regular secondary school programs. Alternative secondary school programs will include course offerings, teacher/pupil ratios and evidence of teaching strategies that are clearly designed to serve at-risk youth as defined in this section. Alternative high school programs conducted during the regular school year will be located on a separate site from the regular high school facility or be scheduled at a time different from the regular school hours.

01. Student Qualifications. An at-risk youth is any secondary student grade seven through twelve (7-12) who meets any three (3) of the following criteria, Subsections 110.01.a. through 110.01.f., or any one (1) of criteria in Subsections 110.01.g. through 110.01.m. (3-30-07)

   a. Has repeated at least one (1) grade. (4-1-97)

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

LAWS

§ 105 ILCS 5/2-3.6. Rules and policies.
To make rules, in accordance with the Illinois Administrative Procedure Act, that are necessary to carry into efficient and uniform effect all laws for establishing and maintaining free schools in the State. The State Board of Education may not adopt any rule or policy that alters the intent of the authorizing law or that supersedes federal or State law. The Board may not make policies affecting school districts that have the effect of rules without following the procedures of the Illinois Administrative Procedure Act.

§ 105 ILCS 5/10-20.5. Rules.
To adopt and enforce all necessary rules for the management and government of the public schools of their district. Rules adopted by the school board shall be filed for public inspection in the administrative office of the district.

§ 105 ILCS 5/10-20.5b. Tobacco prohibition.
Each school board shall prohibit the use of tobacco on school property by any school personnel, student, or other person when such property is being used for any school purposes. The school board may not authorize or permit any exception to or exemption from the prohibition at any place or at any time, including without limitation outside of school buildings or before or after the regular school day or on days when school is not in session. “School purposes” include but are not limited to all events or activities or other use of school property that the school board or school officials authorize or permit on school property, including without limitation all interscholastic or extracurricular athletic, academic, or other events sponsored by the school board or in which pupils of the district participate. For purposes of this Section “tobacco” shall mean cigarette, cigar, or tobacco in any other form, including smokeless tobacco which is any loose, cut, shredded, ground, powdered, compressed or leaf tobacco that is intended to be placed in the mouth without being smoked.

(a) To establish and maintain a parent-teacher advisory committee to develop with the school board or governing body of a charter school policy guidelines on pupil discipline, including school searches and bullying prevention as set forth in Section 27-23.7 of this Code. School authorities shall furnish a copy of the policy to the parents or guardian of each pupil within 15 days after the beginning of the school year, or within 15 days after starting classes for a pupil who transfers into the district during the school year, and the school board or governing body of a charter school shall require that a school inform its pupils of the contents of the policy. School boards and the governing bodies of charter schools, along with the parent-teacher advisory committee, must annually review their pupil discipline policies, the implementation of those policies, and any other factors related to the safety of their schools, pupils, and staff.

(a-5) On or before September 15, 2016, each elementary and secondary school and charter school shall, at a minimum, adopt pupil discipline policies that fulfill the requirements set forth in this Section, subsections (a) and (b) of Section 10-22.6 of this Code, Section 34-19 of this Code if applicable, and federal and State laws that provide special requirements for the discipline of students with disabilities.
(b) The school board may establish appropriate rules and disciplinary procedures governing the use or possession of cellular radio telecommunication devices by a student while in a school or on school property, during regular school hours, or at any other time.

(c) The school board shall develop and promulgate written standards under which the board:
   (1) may authorize the use or possession of a pocket pager or similar electronic paging device by a student while in a school building or on school property as an approved exception to the general prohibition of this Section against such use or possession; and
   (2) may impose appropriate discipline or other sanctions against any student who violates any provision of this Section.

Subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], teachers, other certificated educational employees, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student shall maintain discipline in the schools, including school grounds which are owned or leased by the board and used for school purposes and activities. In all matters relating to the discipline in and conduct of the schools and the school children, they stand in the relation of parents and guardians to the pupils. This relationship shall extend to all activities connected with the school program, including all athletic and extracurricular programs, and may be exercised at any time for the safety and supervision of the pupils in the absence of their parents or guardians.

School districts shall adopt policies, consistent with rules adopted by the State Board of Education, which identify the appropriate supportive services and available resources which are provided for truants and chronic truants.

(d) Each school district, charter school, and non-public, non-sectarian elementary or secondary school shall create, maintain, and implement a policy on bullying, which policy must be filed with the State Board of Education. The policy or implementing procedure shall include a process to investigate whether a reported act of bullying is within the permissible scope of the district's or school's jurisdiction and shall require that the district or school provide the victim with information regarding services that are available within the district and community, such as counseling, support services, and other programs. School personnel available for help with a bully or to make a report about bullying shall be made known to parents or legal guardians, students, and school personnel. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. The policy must be filed with the State Board of Education after being updated. The State Board of Education shall monitor and provide technical support for the implementation of policies created under this subsection (d).

§ 105 ILCS 5/34-19. By-laws, rules and regulations; business transacted at regular meetings; voting; records.
The board shall, subject to the limitations in this Article, establish by-laws, rules and regulations, which shall have the force of ordinances, for the proper maintenance of a uniform system of discipline for both employees and pupils, and for the entire management of the schools, and may fix the school age of
pupils, the minimum of which in kindergartens shall not be under 4 years, except that, based upon an assessment of the child's readiness, children who have attended a non-public preschool and continued their education at that school through kindergarten, were taught in kindergarten by an appropriately certified teacher, and will attain the age of 6 years on or before December 31 of the year of the 2009-2010 school term and each school term thereafter may attend first grade upon commencement of such term, and in grade schools shall not be under 6 years. It may expel, suspend or, subject to the limitations of all policies established or adopted under Section 10-22.6 or 14-8.05, otherwise discipline any pupil found guilty of gross disobedience, misconduct, or other violation of the by-laws, rules, and regulations, including gross disobedience or misconduct perpetuated by electronic means. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. The bylaws, rules and regulations of the board shall be enacted, money shall be appropriated or expended, salaries shall be fixed or changed, and textbooks, electronic textbooks, and courses of instruction shall be adopted or changed only at the regular meetings of the board and by a vote of a majority of the full membership of the board; provided that notwithstanding any other provision of this Article or the School Code, neither the board or any local school council may purchase any textbook for use in any public school of the district from any textbook publisher that fails to furnish any computer diskettes as required under Section 28-21. Funds appropriated for textbook purchases must be available for electronic textbook purchases and the technological equipment necessary to gain access to and use electronic textbooks at the local school council's discretion. The board shall be further encouraged to provide opportunities for public hearing and testimony before the adoption of bylaws, rules and regulations. Upon all propositions requiring for their adoption at least a majority of all the members of the board the yeas and nays shall be taken and reported. The by-laws, rules and regulations of the board shall not be repealed, amended or added to, except by a vote of 2/3 of the full membership of the board. The board shall keep a record of all its proceedings. Such records and all by-laws, rules and regulations, or parts thereof, may be proved by a copy thereof certified to be such by the secretary of the board, but if they are printed in book or pamphlet form which are purported to be published by authority of the board they need not be otherwise published and the book or pamphlet shall be received as evidence, without further proof, of the records, by-laws, rules and regulations, or any part thereof, as of the dates thereof as shown in such book or pamphlet, in all courts and places where judicial proceedings are had. Notwithstanding any other provision in this Article or in the School Code, the board may delegate to the general superintendent or to the attorney the authorities granted to the board in the School Code, provided such delegation and appropriate oversight procedures are made pursuant to board by-laws, rules and regulations, adopted as herein provided, except that the board may not delegate its authorities and responsibilities regarding (1) budget approval obligations; (2) rule-making functions; (3) desegregation obligations; (4) real estate acquisition, sale or lease in excess of 10 years as provided in Section 34-21; (5) the levy of taxes; or (6) any mandates imposed upon the board by "An Act in relation to school reform in cities over 500,000, amending Acts herein named", approved December 12, 1988.

REGULATIONS

1.280. Discipline.

Section 24-24 of the School Code [105 ILCS 5/24-24] provides for teachers, other licensed educational employees (except for individuals holding an educator license with stipulations endorsed for
paraprofessional educator) and persons providing a related service for or with respect to a student as determined by the board of education to maintain discipline in the schools.

b) The board of education shall establish a policy on the administration of discipline in accordance with the requirements of Sections 10-20.14 and 24-24 of the School Code [105 ILCS 5/10-20.14 and 24-24] and disseminate that policy as provided in Section 10-20.14 of the School Code.

Scope

LAWS

§ 105 ILCS 5/10-20.5b. Tobacco prohibition.
Each school board shall prohibit the use of tobacco on school property by any school personnel, student, or other person when such property is being used for any school purposes. The school board may not authorize or permit any exception to or exemption from the prohibition at any place or at any time, including without limitation outside of school buildings or before or after the regular school day or on days when school is not in session. “School purposes” include but are not limited to all events or activities or other use of school property that the school board or school officials authorize or permit on school property, including without limitation all interscholastic or extracurricular athletic, academic, or other events sponsored by the school board or in which pupils of the district participate. For purposes of this Section "tobacco" shall mean cigarette, cigar, or tobacco in any other form, including smokeless tobacco which is any loose, cut, shredded, ground, powdered, compressed or leaf tobacco that is intended to be placed in the mouth without being smoked.

(a) The General Assembly finds that a safe and civil school environment is necessary for students to learn and achieve and that bullying causes physical, psychological, and emotional harm to students and interferes with students’ ability to learn and participate in school activities. The General Assembly further finds that bullying has been linked to other forms of antisocial behavior, such as vandalism, shoplifting, skipping and dropping out of school, fighting, using drugs and alcohol, sexual harassment, and sexual violence. Because of the negative outcomes associated with bullying in schools, the General Assembly finds that school districts, charter schools, and non-public, non-sectarian elementary and secondary schools should educate students, parents, and school district, charter school, or non-public, non-sectarian elementary or secondary school personnel about what behaviors constitute prohibited bullying.

Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in all school districts, charter schools, and non-public, non-sectarian elementary and secondary schools. No student shall be subjected to bullying:

(1) during any school-sponsored education program or activity;
(2) while in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities;
(3) through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment; or
(4) through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to
the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

(a-5) Nothing in this Section is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the United States Constitution or under Section 3 of Article I of the Illinois Constitution.

(b) In this Section:

"Bullying" includes "cyber-bullying" and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. causing a substantially detrimental effect on the student's or students' physical or mental health;
3. substantially interfering with the student's or students' academic performance; or
4. substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying, as defined in this subsection (b), may take various forms, including without limitation one or more of the following: harassment, threats, intimidation, stalking, physical violence, sexual harassment, sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying. This list is meant to be illustrative and non-exhaustive.

"Cyber-bullying" means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photoelectronic system, or photooptical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. "Cyber-bullying" includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying in this Section. "Cyber-bullying" also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying in this Section.

§ 105 ILCS 5/34-18.11. Tobacco prohibition.

The Board of Education shall prohibit the use of tobacco on school property when such property is being used for any school purposes. Neither the board nor the local school council may authorize or permit any exception to or exemption from the prohibition at any place or at any time, including without limitation outside of school buildings or before or after the regular school day or on days when school is not in session. "School purposes" include but are not limited to all events or activities or other use of school property that the school board or school officials authorize or permit on school property, including without limitation all interscholastic or extracurricular athletic, academic or other events sponsored by the school board or in which pupils of the district participate. For purposes of this Section "tobacco" shall mean cigarette, cigar, or tobacco in any other form, including smokeless tobacco which is any loose, cut, shredded, ground, powdered, compressed or leaf tobacco that is intended to be placed in the mouth without being smoked.

Subject to the limitations of all policies established or adopted under Section 14-8.05, teachers, other certificated educational employees, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student shall maintain discipline in the schools, including school grounds which are owned or leased by the board and used for school purposes and activities. In all matters relating to the discipline in and conduct of the schools and the school children, they stand in the relation of parents and guardians to the pupils. This relationship shall extend to all activities connected with the school program, including all athletic and extracurricular programs, and may be exercised at any time for the safety and supervision of the pupils in the absence of their parents or guardians. Nothing in this Section affects the power of the board to establish rules with respect to discipline, except that the rules of the board must provide, subject to the limitations of all policies established or adopted under Section 14-8.05, that a teacher, other certificated employee, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student may use reasonable force as needed to maintain safety for the other students, shall provide that a teacher may remove a student from the classroom for disruptive behavior, and must include provisions which provide due process to students.

Communication of policy

LAWS

(a) To establish and maintain a parent-teacher advisory committee to develop with the school board or governing body of a charter school policy guidelines on pupil discipline, including school searches and bullying prevention as set forth in Section 27-23.7 of this Code. School authorities shall furnish a copy of the policy to the parents or guardian of each pupil within 15 days after the beginning of the school year, or within 15 days after starting classes for a pupil who transfers into the district during the school year, and the school board or governing body of a charter school shall require that a school inform its pupils of the contents of the policy. School boards and the governing bodies of charter schools, along with the parent-teacher advisory committee, must annually review their pupil discipline policies, the implementation of those policies, and any other factors related to the safety of their schools, pupils, and staff.

(b) In this Section:

"Policy on bullying" means a bullying prevention policy that meets the following criteria:

(10) Is posted on the school district's, charter school's, or non-public, non-sectarian elementary or secondary school's existing Internet website, is included in the student handbook, and, where applicable, posted where other policies, rules, and standards of conduct are currently posted in the school and provided periodically throughout the school year to students and faculty, and is distributed annually to parents, guardians, students, and school personnel, including new employees when hired.
REGULATIONS

1.280. Discipline.

Section 24-24 of the School Code [105 ILCS 5/24-24] provides for teachers, other licensed educational employees (except for individuals holding an educator license with stipulations endorsed for paraprofessional educator) and persons providing a related service for or with respect to a student as determined by the board of education to maintain discipline in the schools.

b) The board of education shall establish a policy on the administration of discipline in accordance with the requirements of Sections 10-20.14 and 24-24 of the School Code [105 ILCS 5/10-20.14 and 24-24] and disseminate that policy as provided in Section 10-20.14 of the School Code.
In-School Discipline

Use of multi-tiered discipline approaches

LAWS

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.
(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. School officials shall limit the number and duration of expulsions and suspensions to the greatest extent practicable, and it is recommended that they use them only for legitimate educational purposes. To ensure that students are not excluded from school unnecessarily, it is recommended that school officials consider forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions.
(b-10) Unless otherwise required by federal law or this Code, school boards may not institute zero-tolerance policies by which school administrators are required to suspend or expel students for particular behaviors.

Use of student and locker searches

LAWS

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(e) To maintain order and security in the schools, school authorities may inspect and search places and areas such as lockers, desks, parking lots, and other school property and equipment owned or controlled by the school, as well as personal effects left in those places and areas by students, without notice to or the consent of the student, and without a search warrant. As a matter of public policy, the General Assembly finds that students have no reasonable expectation of privacy in these places and areas or in their personal effects left in these places and areas. School authorities may request the assistance of law enforcement officials for the purpose of conducting inspections and searches of lockers, desks, parking lots, and other school property and equipment owned or controlled by the school for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs. If a search conducted in accordance with this Section produces evidence that the student has violated or is violating either the law, local ordinance, or the school's policies or rules, such evidence may be seized by school authorities, and disciplinary action may be taken. School authorities may also turn over such evidence to law enforcement authorities.

§ 105 ILCS 5/10-22.10a. Inspection for drugs.

School boards are empowered to adopt a policy to authorize school officials to request the assistance of law enforcement officials for the purpose of conducting reasonable searches of school grounds and lockers for illegal drugs, including searches conducted through the use of specially trained dogs.

Grounds for possible suspension or expulsion

LAWS

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(b) To suspend or by policy to authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of gross disobedience or misconduct, or to suspend pupils guilty of gross disobedience or misconduct on the school bus from riding the school bus, pursuant to subsections (b-15) and (b-20) of this Section, and no action shall lie against them for such suspension. The board may by policy authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of such acts for a period not to exceed 10 school days. If a pupil is suspended due to gross disobedience or misconduct on a school bus, the board may suspend the pupil in excess of 10 school days for safety reasons. Any suspension shall be reported immediately to the parents or guardian of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardian the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review the parents or guardian of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(c) The Department of Human Services shall be invited to send a representative to consult with the board at such meeting whenever there is evidence that mental illness may be the cause for expulsion or suspension.

(d-5) The board may suspend or by regulation authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend a student for a period not to exceed 10 school days or may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case by case basis, if (i) that student has been determined to have made an explicit threat on an Internet website against a school employee, a student, or any school-related personnel, (ii) the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and (iii) the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

Limitations, conditions or exclusions for use of suspension or expulsion

LAWS

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. School officials shall limit the number and duration of expulsions and suspensions to the greatest extent practicable, and it is recommended that they use them only for legitimate educational purposes. To ensure that students are not excluded from school unnecessarily, it is recommended that school officials consider forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions.

(b-10) Unless otherwise required by federal law or this Code, school boards may not institute zero-tolerance policies by which school administrators are required to suspend or expel students for particular behaviors.

(b-15) Out-of-school suspensions of 3 days or less may be used only if the student's continuing presence in school would pose a threat to school safety or a disruption to other students' learning opportunities. For purposes of this subsection (b-15), "threat to school safety or a disruption to other students' learning opportunities" shall be determined on a case-by-case basis by the school board or its designee. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of suspensions to the greatest extent practicable.

(b-20) Unless otherwise required by this Code, out-of-school suspensions of longer than 3 days, expulsions, and disciplinary removals to alternative schools may be used only if other appropriate and available behavioral and disciplinary interventions have been exhausted and the student's continuing presence in school would either (i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school. For purposes of this subsection (b-20), "threat to the safety of other students, staff, or members of the school community" and "substantially disrupt, impede, or interfere with the operation of the school" shall be determined on a case-by-case basis by school officials. For purposes of this subsection (b-20), the determination of whether "appropriate and available behavioral and disciplinary interventions have been exhausted" shall be made by school officials. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of student exclusions to the greatest extent practicable. Within the suspension decision described in subsection (b) of this Section or the expulsion decision described in subsection (a) of this Section, it shall be documented whether other interventions were attempted or whether it was determined that there were no other appropriate and available interventions.

(b-25) Students who are suspended out-of-school for longer than 4 school days shall be provided appropriate and available support services during the period of their suspension. For purposes of this subsection (b-25), "appropriate and available support services" shall be determined by school authorities. Within the suspension decision described in subsection (b) of this Section, it shall be documented whether such services are to be provided or whether it was determined that there are no such appropriate and available services. A school district may refer students who are expelled to appropriate and available support services. A school district shall create a policy to facilitate the re-engagement of students who are suspended out-of-school, expelled, or returning from an alternative school setting.

(b-30) A school district shall create a policy by which suspended pupils, including those pupils suspended from the school bus who do not have alternate transportation to school, shall have the opportunity to make up work for equivalent academic credit. It shall be the responsibility of a pupil's parent or guardian
to notify school officials that a pupil suspended from the school bus does not have alternate transportation to school.

(d) The board may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case by case basis. A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year:

(1) A firearm. For the purposes of this Section, "firearm" means any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 2012. The expulsion period under this subdivision (1) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

(2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined in subdivision (1) of this subsection (d). The expulsion requirement under this subdivision (2) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis. Expulsion or suspension shall be construed in a manner consistent with the Federal Individuals with Disabilities Education Act. A student who is subject to suspension or expulsion as provided in this Section may be eligible for a transfer to an alternative school program in accordance with Article 13A of the School Code.

(d-5) The board may suspend or by regulation authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend a student for a period not to exceed 10 school days or may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case by case basis, if (i) that student has been determined to have made an explicit threat on an Internet website against a school employee, a student, or any school-related personnel, (ii) the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and (iii) the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

(f) Suspension or expulsion may include suspension or expulsion from school and all school activities and a prohibition from being present on school grounds.

(i) A student may not be issued a monetary fine or fee as a disciplinary consequence, though this shall not preclude requiring a student to provide restitution for lost, stolen, or damaged property.

(j) Subsections (a) through (i) of this Section shall apply to elementary and secondary schools, charter schools, special charter districts, and school districts organized under Article 34 of this Code.

(k) The expulsion of children enrolled in programs funded under Section 1C-2 of this Code is subject to the requirements under paragraph (7) of subsection (a) of Section 2-3.71 of this Code.

No punitive action including out of school suspensions, expulsions or court action, shall be taken against chronic truants for such truancy unless available supportive services and other school resources have been provided to the student.

Administrative procedures related to suspension and expulsion

LAWS

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(a) To expel pupils guilty of gross disobedience or misconduct, including gross disobedience or misconduct perpetuated by electronic means, pursuant to subsection (b-20) of this Section, and no action shall lie against them for such expulsion. Expulsion shall take place only after the parents have been requested to appear at a meeting of the board, or with a hearing officer appointed by it, to discuss their child's behavior. Such request shall be made by registered or certified mail and shall state the time, place and purpose of the meeting. The board, or a hearing officer appointed by it, at such meeting shall state the reasons for dismissal and the date on which the expulsion is to become effective. If a hearing officer is appointed by the board he shall report to the board a written summary of the evidence heard at the meeting and the board may take such action thereon as it finds appropriate. If the board acts to expel a pupil, the written expulsion decision shall detail the specific reasons why removing the pupil from the learning environment is in the best interest of the school. The expulsion decision shall also include a rationale as to the specific duration of the expulsion. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(b) To suspend or by policy to authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of gross disobedience or misconduct, or to suspend pupils guilty of gross disobedience or misconduct on the school bus from riding the school bus, pursuant to subsections (b-15) and (b-20) of this Section, and no action shall lie against them for such suspension. The board may by policy authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of such acts for a period not to exceed 10 school days. If a pupil is suspended due to gross disobedience or misconduct on a school bus, the board may suspend the pupil in excess of 10 school days for safety reasons. Any suspension shall be reported immediately to the parents or guardian of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardian the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review the parents or guardian of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. (b-10) Unless otherwise required by federal law or this Code, school boards may not institute zero-tolerance policies by which school administrators are required to suspend or expel students for particular behaviors.

(b-15) Out-of-school suspensions of 3 days or less may be used only if the student's continuing presence in school would pose a threat to school safety or a disruption to other students' learning opportunities. For purposes of this subsection (b-15), "threat to school safety or a disruption to other students' learning opportunities" shall be determined on a case-by-case basis by the school board or its designee. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of suspensions to the greatest extent practicable.

(b-20) Unless otherwise required by this Code, out-of-school suspensions of longer than 3 days, expulsions, and disciplinary removals to alternative schools may be used only if other appropriate and available behavioral and disciplinary interventions have been exhausted and the student's continuing presence in school would either (i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school. For purposes of this subsection (b-20), "threat to the safety of other students, staff, or members of the school community" and "substantially disrupt, impede, or interfere with the operation of the school" shall be determined on a case-by-case basis by school officials. For purposes of this subsection (b-20), the determination of whether "appropriate and available behavioral and disciplinary interventions have been exhausted" shall be made by school officials. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of student exclusions to the greatest extent practicable. Within the suspension decision described in subsection (b) of this Section or the expulsion decision described in subsection (a) of this Section, it shall be documented whether other interventions were attempted or whether it was determined that there were no other appropriate and available interventions.

(b-25) Students who are suspended out-of-school for longer than 4 school days shall be provided appropriate and available support services during the period of their suspension. For purposes of this subsection (b-25), "appropriate and available support services" shall be determined by school authorities. Within the suspension decision described in subsection (b) of this Section, it shall be documented whether such services are to be provided or whether it was determined that there are no such appropriate and available services. A school district may refer students who are expelled to appropriate and available support services. (b-30) A school district shall create a policy by which suspended pupils, including those pupils suspended from the school bus who do not have alternate transportation to school, shall have the opportunity to make up work for equivalent academic credit. It shall be the responsibility of a pupil's parent or guardian to notify school officials that a pupil suspended from the school bus does not have alternate transportation to school.

(c) The Department of Human Services shall be invited to send a representative to consult with the board at such meeting whenever there is evidence that mental illness may be the cause for expulsion or suspension.

(c-5) School districts shall make reasonable efforts to provide ongoing professional development to teachers, administrators, school board members, school resource officers, and staff on the adverse consequences of school exclusion and justice-system involvement, effective classroom management strategies, culturally responsive discipline, and developmentally appropriate disciplinary methods that promote positive and healthy school climates.
(d) The board may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case by case basis. A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year:

1) A firearm. For the purposes of this Section, "firearm" means any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 2012. The expulsion period under this subdivision (1) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined in subdivision (1) of this subsection (d). The expulsion requirement under this subdivision (2) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis. Expulsion or suspension shall be construed in a manner consistent with the Federal Individuals with Disabilities Education Act. A student who is subject to suspension or expulsion as provided in this Section may be eligible for a transfer to an alternative school program in accordance with Article 13A of the School Code.

(d-5) The board may suspend or by regulation authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend a student for a period not to exceed 10 school days or may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case by case basis, if (i) that student has been determined to have made an explicit threat on an Internet website against a school employee, a student, or any school-related personnel, (ii) the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and (iii) the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

(e) To maintain order and security in the schools, school authorities may inspect and search places and areas such as lockers, desks, parking lots, and other school property and equipment owned or controlled by the school, as well as personal effects left in those places and areas by students, without notice to or the consent of the student, and without a search warrant. As a matter of public policy, the General Assembly finds that students have no reasonable expectation of privacy in these places and areas or in their personal effects left in these places and areas. School authorities may request the assistance of law enforcement officials for the purpose of conducting inspections and searches of lockers, desks, parking lots, and other school property and equipment owned or controlled by the school for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs. If a search conducted in accordance with this Section produces evidence that the student has violated or is violating either the law, local ordinance, or the school's policies or rules, such evidence may be seized by school authorities, and disciplinary action may be taken. School authorities may also turn over such evidence to law enforcement authorities.

(f) Suspension or expulsion may include suspension or expulsion from school and all school activities and a prohibition from being present on school grounds.

(g) A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion in an alternative school program under Article 13A of this Code or an alternative learning opportunities program under Article 13B of this Code before being admitted into the school district if there is no threat to the safety of students or staff in the alternative program.
(h) School officials shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties.

(i) A student may not be issued a monetary fine or fee as a disciplinary consequence, though this shall not preclude requiring a student to provide restitution for lost, stolen, or damaged property.

(j) Subsections (a) through (i) of this Section shall apply to elementary and secondary schools, charter schools, special charter districts, and school districts organized under Article 34 of this Code.

(k) The expulsion of children enrolled in programs funded under Section 1C-2 of this Code is subject to the requirements under paragraph (7) of subsection (a) of Section 2-3.71 of this Code.

Use of restraint and seclusion

LAWS

§ 105 ILCS 5/2-3.130. Time out and physical restraint rules.
The State Board of Education shall promulgate rules governing the use of time out and physical restraint in the public schools. The rules shall include provisions governing recordkeeping that is required when physical restraint or more restrictive forms of time out are used.

§ 105 ILCS 5/10-20.33. Time out and physical restraint.
Until rules are adopted under Section 2-3.130 of this Code, the use of any of the following rooms or enclosures for time out purposes is prohibited:

1. a locked room other than one with a locking mechanism that engages only when a key or handle is being held by a person;
2. a confining space such as a closet or box;
3. a room where the student cannot be continually observed; or
4. any other room or enclosure or time out procedure that is contrary to current guidelines of the State Board of Education.

The use of physical restraints is prohibited except when (i) the student poses a physical risk to himself, herself, or others, (ii) there is no medical contraindication to its use, and (iii) the staff applying the restraint have been trained in its safe application. For the purposes of this Section, "restraint" does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and that are designed (i) to prevent a student from completing an act that would result in potential physical harm to himself, herself, or another or damage to property or (ii) to remove a disruptive student who is unwilling to voluntarily leave the area. The use of physical restraints that meet the requirements of this Section may be included in a student's individualized education plan where deemed appropriate by the student's individualized education plan team. Whenever physical restraints are used, school personnel shall fully document the incident, including the events leading up to the incident, the type of restraint used, the length of time the student is restrained, and the staff involved. The parents or guardian of a student shall be informed whenever physical restraints are used.

§ 105 ILCS 5/34-18.20. Time out and physical restraint.
Until rules are adopted under Section 2-3.130 of this Code, the use of any of the following rooms or enclosures for time out purposes is prohibited:

1. a locked room other than one with a locking mechanism that engages only when a key or handle is being held by a person;
2. a confining space such as a closet or box;
3. a room where the student cannot be continually observed; or
4. any other room or enclosure or time out procedure that is contrary to current guidelines of the State Board of Education. The use of physical restraints is prohibited except when (i) the student poses a physical risk to himself, herself, or others, (ii) there is no medical contraindication to its use, and (iii) the staff applying the restraint have been trained in its safe application. For the purposes of this Section, "restraint" does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and that are designed (i) to prevent a student from completing an act that would result in potential physical harm to
himself, herself, or another or damage to property or (ii) to remove a disruptive student who is unwilling to voluntarily leave the area. The use of physical restraints that meet the requirements of this Section may be included in a student's individualized education plan where deemed appropriate by the student's individualized education plan team. Whenever physical restraints are used, school personnel shall fully document the incident, including the events leading up to the incident, the type of restraint used, the length of time the student is restrained, and the staff involved. The parents or guardian of a student shall be informed whenever physical restraints are used.

REGULATIONS

1.280. Discipline.
Section 24-24 of the School Code [105 ILCS 5/24-24] provides for teachers, other licensed educational employees (except for individuals holding an educator license with stipulations endorsed for paraprofessional educator) and persons providing a related service for or with respect to a student as determined by the board of education to maintain discipline in the schools.

c) Any use of isolated time out or physical restraint permitted by a board's policy shall conform to the requirements of Section 1.285 of this Part. If isolated time out or physical restraint is to be permitted, the policy shall include:

1) the circumstances under which isolated time out or physical restraint will be applied;
2) a written procedure to be followed by staff in cases of isolated time out or physical restraint;
3) designation of a school official who will be informed of incidents and maintain the documentation required pursuant to Section 1.285 of this Part when isolated time out or physical restraint is used;
4) the process the district or other administrative entity will use to evaluate any incident that results in an injury that the affected student (or the responsible parent or guardian), staff member, or other individual identifies as serious;
5) a description of the alternative strategies that will be implemented when determined advisable pursuant to Section 1.285(f)(4) of this Part; and
6) a description of the district's or other administrative entity's annual review of the use of isolated time out or physical restraint, which shall include at least:
   A) the number of incidents involving the use of these interventions,
   B) the location and duration of each incident,
   C) identification of the staff members who were involved,
   D) any injuries or property damage that occurred, and
   E) the timeliness of parental notification and administrative review.

d) In addition to, or as part of, its policy on the maintenance of discipline, each board of education shall adopt policies and procedures regarding the use of behavioral interventions for students with disabilities who require intervention. Each board's policies and procedures shall conform to the requirements of Section 14-8.05(c) of the School Code [105 ILCS 5/14-8.05(c)].

1.285. Requirements for the use of isolated time out and physical restraint.
Isolated time out and physical restraint as defined in this Section shall be used only as means of maintaining discipline in schools (that is, as means of maintaining a safe and orderly environment for learning) and only to the extent that they are necessary to preserve the safety of students and others. Neither isolated time out nor physical restraint shall be used in administering discipline to individual students, i.e., as a form of punishment. Nothing in this Section or in Section 1.280 of this Part shall be
construed as regulating the restriction of students' movement when that restriction is for a purpose other than the maintenance of an orderly environment (e.g., the appropriate use of safety belts in vehicles).

a) "Isolated time out" means the confinement of a student in a time-out room or some other enclosure, whether within or outside the classroom, from which the student's egress is restricted. The use of isolated time out shall be subject to the following requirements.

1) Any enclosure used for isolated time out shall:
   A) have the same ceiling height as the surrounding room or rooms and be large enough to accommodate not only the student being isolated but also any other individual who is required to accompany that student;
   B) be constructed of materials that cannot be used by students to harm themselves or others, be free of electrical outlets, exposed wiring, and other objects that could be used by students to harm themselves or others, and be designed so that students cannot climb up the walls (including walls far enough apart so as not to offer the student being isolated sufficient leverage for climbing); and
   C) be designed to permit continuous visual monitoring of and communication with the student.

2) If an enclosure used for isolated time out is fitted with a door, either a steel door or a wooden door of solid-core construction shall be used. If the door includes a viewing panel, the panel shall be unbreakable.

3) An adult who is responsible for supervising the student shall remain within two feet of the enclosure.

4) The adult responsible for supervising the student must be able to see the student at all times. If a locking mechanism is used on the enclosure, the mechanism shall be constructed so that it will engage only when a key, handle, knob, or other similar device is being held in position by a person, unless the mechanism is an electrically or electronically controlled one that is automatically released when the building's fire alarm system is triggered. Upon release of the locking mechanism by the supervising adult, the door must be able to be opened readily.

b) "Physical restraint" means holding a student or otherwise restricting his or her movements. "Physical restraint" as permitted pursuant to this Section includes only the use of specific, planned techniques (e.g., the "basket hold" and "team control").

c) The requirements set forth in subsections (d) through (h) of this Section shall not apply to the actions described in this subsection (c) because, pursuant to Section 10-20.33 of the School Code [105 ILCS 5/10-20.33], "restraint" does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and designed to:

1) prevent a student from completing an act that would result in potential physical harm to himself, herself, or another or damage to property; or

2) remove a disruptive student who is unwilling to leave the area voluntarily.

d) The use of physical restraint shall be subject to the following requirements.

1) Pursuant to Section 10-20.33 of the School Code, physical restraint may only be employed when:
   A) the student poses a physical risk to himself, herself, or others,
   B) there is no medical contraindication to its use, and
   C) the staff applying the restraint have been trained in its safe application as specified in subsection (h)(2) of this Section.

2) Students shall not be subjected to physical restraint for using profanity or other verbal displays of disrespect for themselves or others. A verbal threat shall not be considered as constituting a physical danger unless a student also demonstrates a means of or intent to carry out the threat.
3) Except as permitted by the administrative rules of another State agency operating or licensing a facility in which elementary or secondary educational services are provided (e.g., the Illinois Department of Corrections or the Illinois Department of Human Services), mechanical or chemical restraint (i.e., the use of any device other than personal physical force to restrict the limbs, head, or body) shall not be employed.

4) Medically prescribed restraint procedures employed for the treatment of a physical disorder or for the immobilization of a person in connection with a medical or surgical procedure shall not be used as means of physical restraint for purposes of maintaining discipline.

5) Any application of physical restraint shall take into consideration the safety and security of the student. Further, physical restraint shall not rely upon pain as an intentional method of control.

6) In determining whether a student who is being physically restrained should be removed from the area where the restraint was initiated, the supervising adult shall consider the potential for injury to the student, the student's need for privacy, and the educational and emotional well-being of other students in the vicinity.

7) If physical restraint is imposed upon a student whose primary mode of communication is sign language or an augmentative mode, the student shall be permitted to have his or her hands free of restraint for brief periods, unless the supervising adult determines that this freedom appears likely to result in harm to the student or others.

e) Time Limits

1) A student shall not be kept in isolated time out for longer than is therapeutically necessary, which shall not be for more than 30 minutes after he or she ceases presenting the specific behavior for which isolated time out was imposed or any other behavior for which it would be an appropriate intervention.

2) A student shall be released from physical restraint immediately upon a determination by the staff member administering the restraint that the student is no longer in imminent danger of causing physical harm to himself, herself, or others.

f) Documentation and Evaluation

1) A written record of each episode of isolated time out or physical restraint shall be maintained in the student's temporary record. The official designated pursuant to Section 1.280(c)(3) of this Part shall also maintain a copy of each of these records. Each record shall include:

   A) the student's name;
   B) the date of the incident;
   C) the beginning and ending times of the incident;
   D) a description of any relevant events leading up to the incident;
   E) a description of any interventions used prior to the implementation of isolated time out or physical restraint;
   F) a description of the incident and/or student behavior that resulted in isolated time out or physical restraint;
   G) a log of the student's behavior in isolated time out or during physical restraint, including a description of the restraint techniques used and any other interaction between the student and staff;
   H) a description of any injuries (whether to students, staff, or others) or property damage;
   I) a description of any planned approach to dealing with the student's behavior in the future;
   J) a list of the school personnel who participated in the implementation, monitoring, and supervision of isolated time out or physical restraint;
K) the date on which parental notification took place as required by subsection (g) of this Section.

2) The school official designated pursuant to Section 1.280(c)(3) of this Part shall be notified of the incident as soon as possible, but no later than the end of the school day on which it occurred.

3) The record described in subsection (f)(1) of this Section shall be completed by the beginning of the school day following the episode of isolated time out or physical restraint.

4) The requirements of this subsection (f)(4) shall apply whenever an episode of isolated time out exceeds 30 minutes, an episode of physical restraint exceeds 15 minutes, or repeated episodes have occurred during any three-hour period.

   A) A licensed educator knowledgeable about the use of isolated time out or trained in the use of physical restraint, as applicable, shall evaluate the situation.

   B) The evaluation shall consider the appropriateness of continuing the procedure in use, including the student's potential need for medication, nourishment, or use of a restroom, and the need for alternate strategies (e.g., assessment by a mental health crisis team, assistance from police, or transportation by ambulance).

   C) The results of the evaluation shall be committed to writing and copies of this documentation shall be placed into the student's temporary student record and provided to the official designated pursuant to Section 1.280(c)(3) of this Part.

5) When a student has first experienced three instances of isolated time out or physical restraint, the school personnel who initiated, monitored, and supervised the incidents shall initiate a review of the effectiveness of the procedures used and prepare an individual behavior plan for the student that provides either for continued use of these interventions or for the use of other, specified interventions. The plan shall be placed into the student's temporary student record. The review shall also consider the student's potential need for an alternative program or for special education.

   A) The district or other entity serving the student shall invite the student's parents or guardians to participate in this review and shall provide ten days' notice of its date, time, and location.

   B) The notification shall inform the parents or guardians that the student's potential need for special education or an alternative program will be considered and that the results of the review will be entered into the temporary student record.

g) Notification to Parents

1) A district whose policies on the maintenance of discipline include the use of isolated time out or physical restraint shall notify parents to this effect as part of the information distributed annually or upon enrollment pursuant to Sections 10-20.14 and 14-8.05(c) of the School Code [105 ILCS 5/10-20.14 and 14-8.05(c)].

2) Within 24 hours after any use of isolated time out or physical restraint, the school district or other entity serving the student shall send written notice of the incident to the student's parents, unless the parent has provided the district or other entity with a written waiver of this requirement for notification. The notification shall include the student's name, the date of the incident, a description of the intervention used, and the name of a contact person with a telephone number to be called for further information.

h) Requirements for Training

1) Isolated Time Out. Each district, cooperative, or joint agreement whose policy permits the use of isolated time out shall provide orientation to its staff members covering at least the written procedure established pursuant to Section 1.280(c)(2) of this Part.

2) Physical Restraint
A) Physical restraint as defined in this Section shall be applied only by individuals who have received systematic training that includes all the elements described in subsection (h)(2)(B) of this Section and who have received a certificate of completion or other written evidence of participation. An individual who applies physical restraint shall use only techniques in which he or she has received training within the preceding two years, as indicated by written evidence of participation.

B) Training with respect to physical restraint may be provided either by the employer or by an external entity and shall include, but need not be limited to:

i) appropriate procedures for preventing the need for physical restraint, including the de-escalation of problematic behavior, relationship-building, and the use of alternatives to restraint;

ii) a description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;

iii) the simulated experience of administering and receiving a variety of physical restraint techniques, ranging from minimal physical involvement to very controlling interventions;

iv) instruction regarding the effects of physical restraint on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;

v) instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and

vi) demonstration by participants of proficiency in administering physical restraint.

C) An individual may provide training to others in a particular method of physical restraint only if he or she has received written evidence of completing training in that technique that meets the requirements of subsection (h)(2)(B) of this Section within the preceding one-year period.

Alternative placements

LAWS

§ 105 ILCS 5/2-3.66. Truants' alternative and optional education programs.

To establish projects to offer modified instructional programs or other services designed to prevent students from dropping out of school, including programs pursuant to Section 2-3.41, and to serve as a part time or full time option in lieu of regular school attendance and to award grants to local school districts, educational service regions or community college districts from appropriated funds to assist districts in establishing such projects. The education agency may operate its own program or enter into a contract with another not-for-profit entity to implement the program. The projects shall allow dropouts, up to and including age 21, potential dropouts, including truants, uninvolved, unmotivated and disaffected students, as defined by State Board of Education rules and regulations, to enroll, as an alternative to regular school attendance, in an optional education program which may be established by school board policy and is in conformance with rules adopted by the State Board of Education. Truants' Alternative and Optional Education programs funded pursuant to this Section shall be planned by a student, the student's parents or legal guardians, unless the student is 18 years or older, and school officials and shall culminate in an individualized optional education plan. Such plan shall focus on academic or vocational skills, or both, and may include, but not be limited to, evening school, summer school, community college courses, adult education, preparation courses for high school equivalency testing, vocational training, work experience, programs to enhance self concept and parenting courses. School districts which are awarded grants pursuant to this Section shall be authorized to provide day care services to children of students who are eligible and desire to enroll in programs established and funded under this Section, but only if and to the extent that such day care is necessary to enable those eligible students to attend and
participate in the programs and courses which are conducted pursuant to this Section. School districts and regional offices of education may claim general State aid under Section 18-8.05 for students enrolled in truants' alternative and optional education programs, provided that such students are receiving services that are supplemental to a program leading to a high school diploma and are otherwise eligible to be claimed for general State aid under Section 18-8.05.

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(b) [...] A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(d) The board may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case by case basis. A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year:

(1) A firearm. For the purposes of this Section, "firearm" means any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 2012. The expulsion period under this subdivision (1) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

(2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined in subdivision (1) of this subsection (d). The expulsion requirement under this subdivision (2) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis. Expulsion or suspension shall be construed in a manner consistent with the Federal Individuals with Disabilities Education Act. A student who is subject to suspension or expulsion as provided in this Section may be eligible for a transfer to an alternative school program in accordance with Article 13A of the School Code.

(g) A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion in an alternative school program under Article 13A of this Code or an alternative learning opportunities program under Article 13B of this Code before being admitted into the school district if there is no threat to the safety of students or staff in the alternative program.

§ 105 ILCS 5/13A-1. Legislative Declaration.

The General Assembly finds and declares as follows:

(e) Disruptive students typically derive little benefit from traditional school programs and may benefit substantially by being transferred from their current school into an alternative public school program, where their particular needs may be more appropriately and individually addressed and where they may benefit from the opportunity for a fresh start in a new educational environment. At those alternative school programs, innovative academic and school-to-work programs, including but not limited to the techniques of work based learning and technology delivered learning, can be utilized to best help the students enrolled in those schools to become productive citizens.

For information on establishing truants’ alternative and optional education programs as authorized in Section 2-3.66 of the School Code. [105 ILCS 5/2-3.66] see http://www.isbe.net/rules/archive/pdfs/205ARK.pdf.
(h) Every school district in the State shall do all it can to ensure a safe and appropriate educational environment for all of its students, and the first, but not the only, step school districts must take to achieve that goal is to administratively transfer disruptive students from the schools they currently attend to the alternative school programs created by this Article. Those administrative transfers will also provide optional educational programs to best fit the needs of the transferred students.

(i) Administrative transfers may prove more productive for dealing with disruptive students than out-of-school suspensions or expulsions, which have been the subject of much criticism.

§ 105 ILCS 5/13A-2.5. Disruptive student.
"Disruptive student" includes suspension or expulsion eligible students in any of grades 6 through 12. Suspension or expulsion eligible students are those students that have been found to be eligible for suspension or expulsion through the discipline process established by a school district.

(a) Except with respect to the Chicago public school system as provided in Section 13A-11, beginning with the 1996-97 school year, there is hereby created in this State a system of alternative school education programs. At least one alternative school program may be located within each educational service region or established jointly by more than one regional office of education to serve more than one educational service region.

(b) Each regional superintendent shall hold a public hearing, by December 1 of the school year following the effective date of this amendatory Act of 1995, to determine the need for an alternative school. The hearing shall be held before the regional board. The regional superintendent, after consulting with the district superintendent of each school district located within the regional superintendent's educational service region and the regional board, shall determine the location and need of the alternative school within that region. In making this determination, the regional superintendent shall consider the following:

(1) the possible utilization of existing buildings, including but not limited to governmental buildings, that are, or could reasonably be made, usable as an alternative school;

(2) which available option would be least costly; and

(3) distances that administratively transferred students would need to travel and the costs of that travel.

(c) Upon determination of the need for establishment of an alternative school program, each school district located within the region shall provide the regional superintendent with a copy of the district's discipline policy and procedure for effecting the suspension or expulsion of the students of that district. Thereafter, the regional superintendent in cooperation with a representative from each school district in the region shall establish and each school district in the region shall adopt policies and procedures that shall guide each district in the identification and placement of students in the alternative school program.

(d) The regional superintendent shall locate the alternative school program so that it is as far away from any other school buildings or school grounds in that educational service region as circumstances permit.

(e) With the approval of the State board, additional alternative school programs may be established in an educational service region. If the regional superintendent determines that an additional alternative school is required in the regional superintendent's educational service region, he or she may petition the State board to authorize one or more additional alternative school programs in that region.

(f) In determining whether an additional alternative school program is necessary and appropriate for an educational service region requesting it, the State board shall consider, among other factors, the following:

(1) the geographic size of the educational service region and distances that students within that region must travel in order to attend the existing alternative school program;
(2) the student population of schools comprising the educational service region and the likely student population of all alternative school programs within that region if the petition is granted;
(3) any other logistical considerations; and
(4) the costs necessitated by establishing an additional alternative school in that educational service region.

(g) In the event the State board grants a petition for an additional alternative school program, then the State board, after consulting the regional superintendent, shall decide where the additional alternative school program shall be located within that region.

A student who is determined to be subject to suspension or expulsion in the manner provided by Section 10-22.6 (or, in the case of a student enrolled in the public schools of a school district organized under Article 34, in accordance with the uniform system of discipline established under Section 34-19) may be immediately transferred to the alternative program. At the earliest time following that transfer appropriate personnel from the sending school district and appropriate personnel of the alternative program shall meet to develop an alternative education plan for the student. The student's parent or guardian shall be invited to this meeting. The student may be invited. The alternative educational plan shall include, but not be limited to all of the following:

(1) The duration of the plan, including a date after which the student may be returned to the regular educational program in the public schools of the transferring district. If the parent or guardian of a student who is scheduled to be returned to the regular education program in the public schools of the district files a written objection to the return with the principal of the alternative school, the matter shall be referred by the principal to the regional superintendent of the educational service region in which the alternative school program is located for a hearing. Notice of the hearing shall be given by the regional superintendent to the student's parent or guardian. After the hearing, the regional superintendent may take such action as he or she finds appropriate and in the best interests of the student. The determination of the regional superintendent shall be final.

(2) The specific academic and behavioral components of the plan.

(3) A method and time frame for reviewing the student's progress.

Notwithstanding any other provision of this Article, if a student for whom an individualized educational program has been developed under Article 14 is transferred to an alternative school program under this Article 13A, that individualized educational program shall continue to apply to that student following the transfer unless modified in accordance with the provisions of Article 14.

§ 105 ILCS 5/13B-5. Legislative findings and declarations.
The General Assembly finds and declares the following:

(1) It is the responsibility of each school district to provide educational support for every student to meet Illinois Learning Standards.

(2) School districts need flexibility and financial support to assist local schools in their efforts to provide students with educational and other services needed for students to successfully master the curriculum.

(3) Alternative education in this State has traditionally provided student-centered curriculum, social services, and other support needed to help students succeed.

(4) Standards-based reform requires a comprehensive approach to alternative education to ensure that every student has the opportunity to meet the State's rigorous learning standards.
(5) While school districts operating alternative learning opportunities programs must comply with all applicable State and federal laws and rules, these districts should do so in a manner consistent with the goals and policies stated in this Article.

The purpose of this Article is to specify the requirements for the operation of alternative learning opportunities programs, which are intended to provide students at risk of academic failure with the education and support services needed to meet Illinois Learning Standards and to complete their education in an orderly, safe, and secure learning environment. Services provided under this Article should be provided in a manner that addresses individual learning styles, career development, and social needs to enable students to successfully complete their education.

§ 105 ILCS 5/13B-15.10. Student at risk of academic failure.
"Student at risk of academic failure" means a student at risk of not meeting the Illinois Learning Standards or not graduating from elementary or high school and who demonstrates a need for educational support or social services beyond that provided by the regular school program. Such students are eligible for services up to the age of 21.

"Student Success Plan" means a plan based on an assessment of a student's educational and social functioning and skills and that establishes goals and objectives for satisfactory performance in an alternative learning opportunities program. The Plan must (i) specify the curriculum and instructional methods to be used in improving the student's educational performance, (ii) outline the support services needed to remove barriers to learning, (iii) specify, when appropriate, the career development experiences the student will receive to enhance his or her career awareness, (iv) set objectives to ensure a successful transition back to the regular school program or to post-secondary educational options, and (v) outline the student's responsibilities under the Plan.

"Support services" include alcohol and drug rehabilitation; individual, group, and family counseling; mentoring; tutoring; school physicals; health and nutrition education; classroom aides; career counseling; child care; and any other social, health, or supplemental service approved as part of the Student Success Plan that is required by students for their academic success.

An alternative learning opportunities program shall provide a flexible standards-based learning environment, innovative and varied instructional strategies, a student-centered curriculum, social programs, and supplemental social, health, and support services to improve the educational achievement of students at risk of academic failure.

§ 105 ILCS 5/13B-20.5. Eligible activities and services.
Alternative learning opportunities programs may include without limitation evening high school, in-school tutoring and mentoring programs, in-school suspension programs, high school completion programs to assist high school dropouts in completing their education, support services, parental involvement programs, and programs to develop, enhance, or extend the transition for students transferring back to the regular school program, an adult education program, or a post-secondary education program.
§ 105 ILCS 5/13B-20.10. Who may establish and operate programs.
School districts may establish alternative learning opportunities programs or may contract with regional offices of education, intermediate service centers, public community colleges, non-profit or for-profit education providers, youth service agencies, community-based organizations, or other appropriate entities to establish alternative learning opportunities programs within the public school system and provide a range of alternative learning opportunities for those students in the State who do not meet Illinois Learning Standards. Districts may individually operate alternative learning opportunities programs or may collaborate with 2 or more districts or one or more regional offices of education or both or with intermediate service centers to create and operate alternative learning opportunities programs.

§ 105 ILCS 5/13B-20.15. Other eligible providers of alternative learning opportunities.
School districts may contract with health, mental health, or human service organizations, workforce development boards or agencies, juvenile court services, juvenile justice agencies, juvenile detention programs, programs operated by the Department of Juvenile Justice, or other appropriate agencies or organizations to serve students whose needs are not being met in the regular school program by providing alternative learning opportunities.

§ 105 ILCS 5/13B-20.20. Enrollment in other programs.
High school equivalency testing preparation programs are not eligible for funding under this Article. A student may enroll in a program approved under Section 18-8.05 of this Code, as appropriate, or attend both the alternative learning opportunities program and the regular school program to enhance student performance and facilitate on-time graduation.

Students in grades 4 through 12 who meet enrollment criteria established by the school district and who meet the definition of "student at risk of academic failure" are eligible to participate in an alternative learning opportunities program funded under this Article. Notwithstanding any other provision of law to the contrary, enrollment in a charter alternative learning opportunities program shall be open to any pupil who has been expelled or suspended for more than 20 days under Section 10-22.6 or 34-19 of this Code. All rights granted under this Article to a student's parent or guardian become exclusively those of the student upon the student's 18th birthday.

Before being enrolled in an alternative learning opportunities program, the student and each of his or her parents or guardians shall receive written notice to attend a conference to determine if the student would benefit from attending an alternative learning opportunities program. The conference must provide all of the information necessary for the student and parent or guardian to make an informed decision regarding enrollment in an alternative learning opportunities program. The conference shall include a discussion of the extent to which the student, if enrolled in the program, may participate in school activities. No student shall be enrolled in an alternative learning opportunities program without the consent of the student's parent or guardian.

§ 105 ILCS 5/13B-70. Truancy and attendance problems.
If a student is a chronic or habitual truant as defined in Section 26-2a of this Code or if a child has been ordered to attend school, the school district may consider the student for placement in an alternative learning opportunities program specifically designed to prevent truancy, supplement instruction for students with attendance problems, intervene to decrease chronic truancy, and provide alternatives to
high school completion. A program operating pursuant to the truants' alternative and optional education program may contract with a school district or consortium to provide these services.

(a) The board shall establish and implement a policy governing the transfer of a student from one attendance center to another within the school district upon the request of the student's parent or guardian. Any request by a parent or guardian to transfer his or her child from one attendance center to another within the school district pursuant to Section 1116 of the federal Elementary and Secondary Education Act of 1965 (20 U.S.C. Sec. 6317) must be made no later than 30 days after the parent or guardian receives notice of the right to transfer pursuant to that law. A student may not transfer to any of the following attendance centers, except by change in residence if the policy authorizes enrollment based on residence in an attendance area or unless approved by the board on an individual basis:

1. An attendance center that exceeds or as a result of the transfer would exceed its attendance capacity.
2. An attendance center for which the board has established academic criteria for enrollment if the student does not meet the criteria, provided that the transfer must be permitted if the attendance center is the only attendance center serving the student's grade that has not been identified for school improvement, corrective action, or restructuring under Section 1116 of the federal Elementary and Secondary Education Act of 1965 (20 U.S.C. Sec. 6317).
3. Any attendance center if the transfer would prevent the school district from meeting its obligations under a State or federal law, court order, or consent decree applicable to the school district.

(b) The board shall establish and implement a policy governing the transfer of students within the school district from a persistently dangerous attendance center to another attendance center in that district that is not deemed to be persistently dangerous. In order to be considered a persistently dangerous attendance center, the attendance center must meet all of the following criteria for 2 consecutive years:

1. Have greater than 3% of the students enrolled in the attendance center expelled for violence-related conduct.
2. Have one or more students expelled for bringing a firearm to school as defined in 18 U.S.C. 921.
3. Have at least 3% of the students enrolled in the attendance center exercise the individual option to transfer attendance centers pursuant to subsection (c) of this Section.

(c) A student may transfer from one attendance center to another attendance center within the district if the student is a victim of a violent crime as defined in Section 3 of the Rights of Crime Victims and Witnesses Act. The violent crime must have occurred on school grounds during regular school hours or during a school-sponsored event.

(d) Transfers made pursuant to subsections (b) and (c) of this Section shall be made in compliance with the federal No Child Left Behind Act of 2001 (Public Law 107-110).

§ 105 ILCS 5/34-19. By-laws, rules and regulations; business transacted at regular meetings; voting; records.

[...], It may expel, suspend or, subject to the limitations of all policies established or adopted under Section 10-22.6 or 14-8.05, otherwise discipline any pupil found guilty of gross disobedience, misconduct, or other violation of the by-laws, rules, and regulations, including gross disobedience or misconduct perpetuated by electronic means. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this
Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. […]

REGULATIONS

205.35. Truants’ alternative and optional education programs - Required program components.

Each program funded pursuant to Section 2-3.66 of the School Code shall include at least the following components.

a) A comprehensive community-based program planning process that includes, but is not limited to, the participation of business, community organizations, social service providers, government agencies, parents, school administrators and other staff members, including teachers, and students, and that leads to the development and implementation of a strategic plan.

1) The plan shall contain program goals and objectives developed by analyzing social and academic challenges in the community to be served by the truants’ alternative and optional education program.

2) The plan shall identify available community resources and services and describe how these will be coordinated to meet the needs of students identified as eligible for the program (see Section 205.20(b) of this Part).

b) An Individualized Optional Education Plan, which is a written document developed in accordance with Section 2-3.66 of the School Code and this Part, that outlines an individual's academic, vocational and/or life skill needs, as well as goals and objectives and various educational and social experiences needed to reach those goals and objectives. The development of this plan shall include school officials, the student, and the student's parents or legal guardians if the student is less than 18 years old. The individualized optional education plan for each student shall include:

1) learning objectives or individual outcomes, such as increased school attendance, course credit, graduation, gains in achievement level, or employment;

2) the basis upon which the student is referred to the program;

3) the services that will be provided in relation to the student’s educational, social, and/or career development needs necessary to achieve the learning objectives or individual outcomes pursuant to subsection (b)(1) of this Section;

Students with chronic disciplinary issues

LAWS

§ 105 ILCS 5/2-3.41. Chronic truants and truancy prevention.
The State Board of Education is empowered to enter into contracts with public or private agencies for the provision of educational services to chronic truants and for the prevention of truancy including training and developmental assistance provided an appropriation is made specifically for such purpose.
§ 105 ILCS 5/13B-70. Truancy and attendance problems.

If a student is a chronic or habitual truant as defined in Section 26-2a of this Code or if a child has been ordered to attend school, the school district may consider the student for placement in an alternative learning opportunities program specifically designed to prevent truancy, supplement instruction for students with attendance problems, intervene to decrease chronic truancy, and provide alternatives to high school completion. A program operating pursuant to the truants' alternative and optional education program may contract with a school district or consortium to provide these services.

§ 105 ILCS 5/34-4.5. Chronic truants.

(a) Office of Chronic Truant Adjudication. The board shall establish and implement an Office of Chronic Truant Adjudication, which shall be responsible for administratively adjudicating cases of chronic truancy and imposing appropriate sanctions. The board shall appoint or employ hearing officers to perform the adjudicatory functions of that Office. Principals and other appropriate personnel may refer pupils suspected of being chronic truants, as defined in Section 26-2a of this Code, to the Office of Chronic Truant Adjudication.

(b) Notices. Before any hearing may be held under subsection (c), the principal of the school attended by the pupil or the principal's designee shall notify the pupil's parent or guardian by personal visit, letter, or telephone of each unexcused absence of the pupil. After giving the parent or guardian notice of the tenth unexcused absence of the pupil, the principal or the principal's designee shall send the pupil's parent or guardian a letter, by certified mail, return receipt requested, notifying the parent or guardian that he or she is subjecting himself or herself to a hearing procedure as provided under subsection (c) and clearly describing any and all possible penalties that may be imposed as provided for in subsections (d) and (e) of this Section.

(c) Hearing. Once a pupil has been referred to the Office of Chronic Truant Adjudication, a hearing shall be scheduled before an appointed hearing officer, and the pupil and the pupil's parents or guardian shall be notified by certified mail, return receipt requested stating the time, place, and purpose of the hearing. The hearing officer shall hold a hearing and render a written decision within 14 days determining whether the pupil is a chronic truant as defined in Section 26-2a of this Code and whether the parent or guardian took reasonable steps to assure the pupil's attendance at school. The hearing shall be private unless a public hearing is requested by the pupil's parent or guardian, and the pupil may be present at the hearing with a representative in addition to the pupil's parent or guardian. The board shall present evidence of the pupil's truancy, and the pupil and the parent or guardian or representative of the pupil may cross examine witnesses, present witnesses and evidence, and present defenses to the charges. All testimony at the hearing shall be taken under oath administered by the hearing officer. The decision of the hearing officer shall constitute an "administrative decision" for purposes of judicial review under the Administrative Review Law.

(d) Penalties. The hearing officer may require the pupil or the pupil's parent or guardian or both the pupil and the pupil's parent or guardian to do any or all of the following: perform reasonable school or community services for a period not to exceed 30 days; complete a parenting education program; obtain counseling or other supportive services; and comply with an individualized educational plan or service plan as provided by appropriate school officials. If the parent or guardian of the chronic truant shows that he or she took reasonable steps to insure attendance of the pupil at school, he or she shall not be required to perform services.

(e) Non-compliance with sanctions. If a pupil determined by a hearing officer to be a chronic truant or the parent or guardian of the pupil fails to comply with the sanctions ordered by the hearing officer under subsection (c) of this Section, the Office of Chronic Truant Adjudication may refer the matter to the State's Attorney for prosecution under Section 3-33.5 of the Juvenile Court Act of 1987.
(f) Limitation on applicability. Nothing in this Section shall be construed to apply to a parent or guardian of a pupil not required to attend a public school pursuant to Section 26-1.

b) Content of Policies. Each school district shall develop an absenteeism and truancy policy including at least the following elements:

1) A definition of a valid cause for absence in accordance with Section 26-2a of the School Code;

3) The identification of supportive services to be made available to truant or chronically truant students. A "dropout" is defined as any child enrolled in grades 9 through 12 whose name has been removed from the district enrollment roster for any reason other than the student's death, extended illness, removal for medical non-compliance, expulsion, aging out, graduation, or completion of a program of studies and who has not transferred to another public or private school and is not known to be home-schooled by his or her parents or guardians or continuing school in another country.

The clerk or secretary of the school board of all school districts except those employing district truant officers shall furnish the superintendent of schools at the beginning of the school year a list of the names and addresses of the children living in the district who come under the provisions of this Article and of persons having custody or control of such children. The superintendent shall at the opening of school and at other times when required by the regional superintendent of schools compare the list with the enrollment of the school or schools and report to the regional superintendent of schools the names of persons having custody or control of children included under the provisions of this Article who are truant or who are chronic or habitual truants for whom supportive services and other school resources have failed to correct the truant behavior and who are not in regular attendance at the public school, and the names of such children and their ages, stating in each case, if known, the cause of such absence. The report shall also contain the names of any other persons who were not enumerated in the list at the beginning of school and who have the custody or control of children not attending school. The regional superintendent shall, without delay, place such information at the disposal of the regional truant officer.

The clerk or secretary of the school board of all school districts shall furnish quarterly on the first school day of October, January, April and July to the regional superintendent and to the Secretary of State a list of pupils, excluding transferees, who have been expelled or have withdrawn or who have left school and have been removed from the regular attendance rolls during the period of time school was in regular session from the time of the previous quarterly report. Such list shall include the names and addresses of pupils formerly in attendance, the names and addresses of persons having custody or control of such pupils, the reason, if known, such pupils are no longer in attendance and the date of removal from the attendance rolls. The list shall also include the names of: pupils whose withdrawal is due to extraordinary circumstances, including but not limited to economic or medical necessity or family hardship, as determined by the criteria established by the school district; pupils who have re-enrolled in school since their names were removed from the attendance rolls; any pupil certified to be a chronic or habitual truant, as defined in Section 26-2a; and pupils previously certified as chronic or habitual truants who have
resumed regular school attendance. The regional superintendent shall inform the county or district truant officer who shall investigate to see that such pupils are in compliance with the requirements of this Article.

Each local school district shall establish, in writing, a set of criteria for use by the local superintendent of schools in determining whether a pupil's failure to attend school is the result of extraordinary circumstances, including but not limited to economic or medical necessity or family hardship.

If a pupil re-enrolls in school after his or her name was removed from the attendance rolls or resumes regular attendance after being certified a chronic or habitual truant, the pupil must obtain and forward to the Secretary of State, on a form designated by the Secretary of State, verification of his or her re-enrollment. The verification may be in the form of a signature or seal or in any other form determined by the school board.

The State Board of Education shall, if possible, make available to any person, upon request, a comparison of dropout rates before and after the effective date of this amendatory Act of the 94th General Assembly.

§ 105 ILCS 5/26-5. Duties of truant officers.
The truant officer of the school district, whenever notified by the Superintendent, teacher, or other person of violations of this Article, or the county truant officer, when notified by the County Superintendent, shall investigate all cases of truancy or non-attendance at school in their respective jurisdictions, and if the children complained of are not exempt under the provisions of this Article, the truant officer shall proceed as is provided in this Article. The county truant officer, within the county and the district truant officers, within their respective districts, shall in the exercise of their duties be conservators of the peace and shall keep the same, suppress riots, routs, affray, fighting, breaches of the peace, and prevent crime; and may arrest offenders on view and cause them to be brought before proper officials for trial or examination.

In school districts which employ truant officers the clerk or secretary of the school board shall at the beginning of each school year furnish a copy of the last school census to the superintendent of schools (or principal teacher) in the district, together with the names and addresses of the truant officers in the district, and the superintendent, (or principal teacher) shall compare the census list with the enrollment of the school or schools and, from time to time, report to the proper truant officers the names and addresses of persons having custody or control of children included under the provisions of this Article who are truant or who are chronic or habitual truants for whom supportive services and other school resources have failed to correct the truant behavior and who are not in regular attendance at public schools and also the names of persons having custody or control of children who are not in regular attendance at school and whose names are not included in the census list.

If any person fails to send any child under his custody or control to some lawful school, the truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee shall, as soon as practicable after he is notified thereof, give notice in person or by mail to such person that such child shall be present at the proper public school on the day following the receipt of such notice. The notice shall state the date that attendance at school must begin and that such attendance must be continuous and consecutive in the district during the remainder of the school year. The truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee shall at the same time that such notice is given notify the teacher or superintendent of the proper public school thereof and the teacher or superintendent shall notify the truant officer or regional superintendent of schools of any non-compliance therewith.
A truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee, after giving the notice provided in Section 26-7, shall determine whether the notice has been complied with. If 3 notices have been given and the notices have not been complied with, and if the persons having custody or control have knowingly and willfully permitted the truant behavior to continue, the regional superintendent of schools, or his or her designee, of the school district where the child resides shall conduct a truancy hearing. If the regional superintendent determines as a result of the hearing that the child is truant, the regional superintendent shall, if age appropriate at the discretion of the regional superintendent, require the student to complete 20 to 40 hours of community service over a period of 90 days. If the truancy persists, the regional superintendent shall (i) make complaint against the persons having custody or control to the state's attorney or in the circuit court in the county where such person resides for failure to comply with the provisions of this Article or (ii) conduct truancy mediation and encourage the student to enroll in a graduation incentives program under Section 26-16 of this Code. If, however, after giving the notice provided in Section 26-7 the truant behavior has continued, and the child is beyond the control of the parents, guardians or custodians, a truancy petition shall be filed under the provisions of Article III of the Juvenile Court Act of 1987.

§ 105 ILCS 5/26-8a. [Court petition content]
The petition for court action shall include the name of the truant minor, the names and addresses of persons having custody or control of the student, the dates of the truant behavior, the dates and nature of contacts or conferences with the student and the persons having custody or control of the student, and the nature of the supportive services, alternative programs and other school resources the school district provided to that child in an effort to correct that child's truant behavior.

§ 105 ILCS 5/26-8b. [Court petition filing]
When a petition is filed, it shall be set for an adjudicatory hearing within 10 days and acted upon within 30 days, subject to the provisions of the Juvenile Court Act or the Juvenile Court Act of 1987 if filed thereunder.

School officers, superintendents, teachers or other persons shall render such assistance and furnish such information as they have to aid truant officers in the performance of their duties.

§ 105 ILCS 5/26-10. Fine for noncompliance.
Any person having custody or control of a child subject to the provisions of this Article to whom notice has been given of the child's truancy and who knowingly and willfully permits such a child to persist in his truancy within that school year, upon conviction thereof shall be guilty of a Class C misdemeanor and shall be subject to not more than 30 days imprisonment and/or a fine of up to $500.

Any person who induces or attempts to induce any child to be absent from school unlawfully, or who knowingly employs or harbors, while school is in session, any child absent unlawfully from school for 3 consecutive school days, is guilty of a Class C misdemeanor.

No punitive action including out of school suspensions, expulsions or court action, shall be taken against chronic truants for such truancy unless available supportive services and other school resources have been provided to the student.
Any dropout, as defined in Section 26-2a, who is 17 years of age may apply to a school district for status as a truant, and the school district shall permit such person to participate in the district's various programs and resources for truants. At the time of the person's application, the district may request documentation of his dropout status for the previous 6 months.

When a regional superintendent has reason to believe that a pupil is a truant minor as defined in Section 26-2a, the regional superintendent may report such pupil under the provisions of the Juvenile Court Act.

Students may apply for reimbursement of 50% of tuition costs for one course per semester or a maximum of 3 courses per school year. Subject to available funds, students may apply for reimbursement of up to 100% of tuition costs upon a showing of employment within 6 months after completion of a vocational or job training program. The qualifications for reimbursement shall be established by the State Superintendent of Education by rule.
   (4) Job and career programs approved by the State Superintendent of Education that are available through Illinois-accredited private business and vocational schools. Subject to available funds, pupils may apply for reimbursement of up to 100% of tuition costs upon a showing of employment within 6 months after completion of a job or career program. The State Superintendent of Education shall, by rule, the qualifications for reimbursement, criteria for determining reimbursement amounts, and limits on reimbursement.
   (5) Adult education courses that offer preparation for high school equivalency testing.
(d) Graduation incentives programs established by school districts are entitled to claim general State aid and evidence-based funding, subject to Sections 13B-50, 13B-50.5, and 13B-50.10 of this Code. Graduation incentives programs operated by regional offices of education are entitled to receive general State aid and evidence-based funding at the foundation level of support per pupil enrolled. A school district must ensure that its graduation incentives program receives supplemental general State aid,
transportation reimbursements, and special education resources, if appropriate, for students enrolled in the program.

(a) As used in this Section:
"Chronic absence" means absences that total 10% or more of school days of the most recent academic school year, including absences with and without valid cause, as defined in Section 26-2a of this Code, and out-of-school suspensions for an enrolled student.
"Student" means any enrolled student that is subject to compulsory attendance under Section 26-1 of this Code but does not mean a student for whom a documented homebound or hospital record is on file during the student's absence from school.

(b) The General Assembly finds that:
(1) The early years are a critical period in children's learning and development. Every child should be counted present every day. Every day of school matters.
(2) Being absent too many days from school can make it difficult for students to stay on-track academically and maintain the momentum to graduate from high school in order to be college- or career-ready.
(3) Every day of school attendance matters for all students and their families. It is crucial, therefore, that the implications of chronic absence be understood and reviewed regularly.

(c) Beginning July 1, 2018, every school district, charter school, or alternative school or any school receiving public funds shall collect and review its chronic absence data and determine what systems of support and resources are needed to engage chronically absent students and their families to encourage the habit of daily attendance and promote success. The review shall include an analysis of chronic absence data from each attendance center or campus of the school district, charter school, or alternative school or other school receiving public funds.

(d) School districts, charter schools, or alternative schools or any school receiving public funds are encouraged to provide a system of support to students who are at risk of reaching or exceeding chronic absence levels with strategies such as those available through the Illinois Multi-tiered Systems of Support Network. Schools additionally are encouraged to make resources available to families such as those available through the State Board of Education's Family Engagement Framework to support and engage students and their families to encourage heightened school engagement and improved daily school attendance.

§ 105 ILCS 5/34-4.5. Chronic truants.
(a) Office of Chronic Truant Adjudication. The board shall establish and implement an Office of Chronic Truant Adjudication, which shall be responsible for administratively adjudicating cases of chronic truancy and imposing appropriate sanctions. The board shall appoint or employ hearing officers to perform the adjudicatory functions of that Office. Principals and other appropriate personnel may refer pupils suspected of being chronic truants, as defined in Section 26-2a of this Code, to the Office of Chronic Truant Adjudication.

(b) Notices. Before any hearing may be held under subsection (c), the principal of the school attended by the pupil or the principal's designee shall notify the pupil's parent or guardian by personal visit, letter, or telephone of each unexcused absence of the pupil. After giving the parent or guardian notice of the tenth unexcused absence of the pupil, the principal or the principal's designee shall send the pupil's parent or guardian a letter, by certified mail, return receipt requested, notifying the parent or guardian that he or she is subjecting himself or herself to a hearing procedure as provided under subsection (c) and clearly
describing any and all possible penalties that may be imposed as provided for in subsections (d) and (e) of this Section.

(c) Hearing. Once a pupil has been referred to the Office of Chronic Truant Adjudication, a hearing shall be scheduled before an appointed hearing officer, and the pupil and the pupil's parents or guardian shall be notified by certified mail, return receipt requested stating the time, place, and purpose of the hearing. The hearing officer shall hold a hearing and render a written decision within 14 days determining whether the pupil is a chronic truant as defined in Section 26-2a of this Code and whether the parent or guardian took reasonable steps to assure the pupil's attendance at school. The hearing shall be private unless a public hearing is requested by the pupil's parent or guardian, and the pupil may be present at the hearing with a representative in addition to the pupil's parent or guardian. The board shall present evidence of the pupil's truancy, and the pupil and the parent or guardian or representative of the pupil may cross examine witnesses, present witnesses and evidence, and present defenses to the charges. All testimony at the hearing shall be taken under oath administered by the hearing officer. The decision of the hearing officer shall constitute an "administrative decision" for purposes of judicial review under the Administrative Review Law.

(d) Penalties. The hearing officer may require the pupil or the pupil's parent or guardian or both the pupil and the pupil's parent or guardian to do any or all of the following: perform reasonable school or community services for a period not to exceed 30 days; complete a parenting education program; obtain counseling or other supportive services; and comply with an individualized educational plan or service plan as provided by appropriate school officials. If the parent or guardian of the chronic truant shows that he or she took reasonable steps to insure attendance of the pupil at school, he or she shall not be required to perform services.

(e) Non-compliance with sanctions. If a pupil determined by a hearing officer to be a chronic truant or the parent or guardian of the pupil fails to comply with the sanctions ordered by the hearing officer under subsection (c) of this Section, the Office of Chronic Truant Adjudication may refer the matter to the State's Attorney for prosecution under Section 3-33.5 of the Juvenile Court Act of 1987.

(f) Limitation on applicability. Nothing in this Section shall be construed to apply to a parent or guardian of a pupil not required to attend a public school pursuant to Section 26-1.

REGULATIONS

1.290. Absenteeism and truancy policies.

a) Purpose. This Section establishes guidelines and criteria required by Section 26-13 of the School Code [105 ILCS 5/26-13], which provides that school districts shall adopt absenteeism and truancy policies identifying appropriate supportive services and available resources for truants and chronic truants.

b) Content of Policies. Each school district shall develop an absenteeism and truancy policy including at least the following elements:

1) A definition of a valid cause for absence in accordance with Section 26-2a of the School Code;

2) A description of diagnostic procedures to be used for identifying the causes of unexcused student absenteeism, which shall, at a minimum, include interviews with the student, his or her parents or guardians, and any school officials or other parties who may have information about the reasons for the student's attendance problem; and

3) The identification of supportive services to be made available to truant or chronically truant students. These services shall include, but need not be limited to, parent conferences, student counseling, family counseling, and information about existing community services which are available to truant and chronically truant students and relevant to their needs.
205.20. Truants’ alternative and optional education programs - Purpose.

b) Programs funded under this grant shall serve students identified as one of the following:

1) a truant, as defined in Section 26-2a of the School Code [105 ILCS 5/26-2a]; or
2) a chronic or habitual truant, as defined in Section 26-2a of the School Code; or
3) a dropout, as defined in Section 26-2a of the School Code; or
4) a potential dropout, which is any student subject to compulsory attendance as defined in Article 26 of the School Code [105 ILCS 5/Art. 26] and whose school absences or pattern of school attendance impedes the student’s learning or contributes to the student’s failure to meet State and/or district learning standards. Attendance problems may include chronic truancy, truancy, selective absences, excessive absences or a pattern of absences or tardiness. In assessing whether marginal school attendance problems would place a student within the definition of “potential dropout,” consideration shall be given to a student's personal involvement in the education process, apparent motivation to receive an education, or any continued and obvious apathy or disaffection for education, particularly, when indications of uninvolved, lack of motivation or disaffection are coupled with currently known individual or family circumstances that, if they remain unresolved, would be reasonably expected to result in escalating attendance problems. Bullying, harassment, or hazing

LAWS

(d) The school board, in consultation with the parent-teacher advisory committee and other community-based organizations, must include provisions in the student discipline policy to address students who have demonstrated behaviors that put them at risk for aggressive behavior, including without limitation bullying, as defined in the policy. These provisions must include procedures for notifying parents or legal guardians and early intervention procedures based upon available community-based and district resources.

105 ILCS 5/22-12. Preventing or interfering with a child’s attendance at school.

Whoever by threat, menace, or intimidation prevents any child entitled to attend a public or nonpublic school in this State from attending such school or interferes with any such child's attendance at that school shall be guilty of a Class A misdemeanor.

(a) The purpose of this Section is to inform and protect students from inappropriate or illegal communications and solicitation and to encourage school districts to provide education about Internet threats and risks, including without limitation child predators, fraud, and other dangers.

(c) Each school may adopt an age-appropriate curriculum for Internet safety instruction of students in grades kindergarten through 12. However, beginning with the 2009-2010 school year, a school district must incorporate into the school curriculum a component on Internet safety to be taught at least once each school year to students in grades 3 through 12. The school board shall determine the scope and duration of this unit of instruction. The age-appropriate unit of instruction may be incorporated into the
current courses of study regularly taught in the district's schools, as determined by the school board, and it is recommended that the unit of instruction include the following topics:

(5) Recognizing and reporting online harassment and cyber-bullying.

(e) The State Board of Education shall make available resource materials for educating children regarding child online safety and may take into consideration the curriculum on this subject developed by other states, as well as any other curricular materials suggested by education experts, child psychologists, or technology companies that work on child online safety issues. Materials may include without limitation safe online communications, privacy protection, cyber-bullying […]

(a) The General Assembly finds that a safe and civil school environment is necessary for students to learn and achieve and that bullying causes physical, psychological, and emotional harm to students and interferes with students' ability to learn and participate in school activities. The General Assembly further finds that bullying has been linked to other forms of antisocial behavior, such as vandalism, shoplifting, skipping and dropping out of school, fighting, using drugs and alcohol, sexual harassment, and sexual violence. Because of the negative outcomes associated with bullying in schools, the General Assembly finds that school districts, charter schools, and non-public, non-sectarian elementary and secondary schools should educate students, parents, and school district, charter school, or non-public, non-sectarian elementary or secondary school personnel about what behaviors constitute prohibited bullying.

Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in all school districts, charter schools, and non-public, non-sectarian elementary and secondary schools. No student shall be subjected to bullying:

(1) during any school-sponsored education program or activity;

(2) while in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities;

(3) through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment; or

(4) through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

(a-5) Nothing in this Section is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the United States Constitution or under Section 3 of Article I of the Illinois Constitution.

(b) In this Section:

(2) causing a substantially detrimental effect on the student's or students' physical or mental health;
(3) substantially interfering with the student's or students' academic performance; or

instant messages, or facsimile communications. "Cyber-bullying" includes the creation of a webpage or
weblog in which the creator assumes the identity of another person or the knowing impersonation of
another person as the author of posted content or messages if the creation or impersonation creates
any of the effects enumerated in the definition of bullying in this Section. "Cyber-bullying" also includes
the distribution by electronic means of a communication to more than one person or the posting of
material on an electronic medium that may be accessed by one or more persons if the distribution or
posting creates any of the effects enumerated in the definition of bullying in this Section.

"Policy on bullying" means a bullying prevention policy that meets the following criteria:

(1) Includes the bullying definition provided in this Section.
(2) Includes a statement that bullying is contrary to State law and the policy of the school district,
charter school, or non-public, non-sectarian elementary or secondary school and is consistent with
subsection (a-5) of this Section.
(3) Includes procedures for promptly reporting bullying, including, but not limited to, identifying and
providing the school e-mail address (if applicable) and school telephone number for the staff person
or persons responsible for receiving such reports and a procedure for anonymous reporting; however,
this shall not be construed to permit formal disciplinary action solely on the basis of an anonymous
report.
(4) Consistent with federal and State laws and rules governing student privacy rights, includes
procedures for promptly informing parents or guardians of all students involved in the alleged incident
of bullying and discussing, as appropriate, the availability of social work services, counseling, school
psychological services, other interventions, and restorative measures.
(5) Contains procedures for promptly investigating and addressing reports of bullying, including the
following:
   (A) Making all reasonable efforts to complete the investigation within 10 school days after the date
the report of the incident of bullying was received and taking into consideration additional relevant
information received during the course of the investigation about the reported incident of bullying.
   (B) Involving appropriate school support personnel and other staff persons with knowledge,
experience, and training on bullying prevention, as deemed appropriate, in the investigation
process.
   (C) Notifying the principal or school administrator or his or her designee of the report of the incident
of bullying as soon as possible after the report is received.
   (D) Consistent with federal and State laws and rules governing student privacy rights, providing
parents and guardians of the students who are parties to the investigation information about the
investigation and an opportunity to meet with the principal or school administrator or his or her
designee to discuss the investigation, the findings of the investigation, and the actions taken to
address the reported incident of bullying.

(6) Includes the interventions that can be taken to address bullying, which may include, but are not
limited to, school social work services, restorative measures, social-emotional skill building,
counseling, school psychological services, and community-based services.

(7) Includes a statement prohibiting reprisal or retaliation against any person who reports an act of
bullying and the consequences and appropriate remedial actions for a person who engages in reprisal
or retaliation.

(8) Includes consequences and appropriate remedial actions for a person found to have falsely
accused another of bullying as a means of retaliation or as a means of bullying.

(9) Is based on the engagement of a range of school stakeholders, including students and parents or
guardians.

secondary school's existing Internet website, is included in the student handbook, and, where
applicable, posted where other policies, rules, and standards of conduct are currently posted in the
school and provided periodically throughout the school year to students and faculty, and is distributed
annually to parents, guardians, students, and school personnel, including new employees when hired.

(11) As part of the process of reviewing and re-evaluating the policy under subsection (d) of this
Section, contains a policy evaluation process to assess the outcomes and effectiveness of the policy
that includes, but is not limited to, factors such as the frequency of victimization; student, staff, and
family observations of safety at a school; identification of areas of a school where bullying occurs; the
types of bullying utilized; and bystander intervention or participation. The school district, charter
school, or non-public, non-sectarian elementary or secondary school may use relevant data and
information it already collects for other purposes in the policy evaluation. The information developed
as a result of the policy evaluation must be made available on the Internet website of the school
district, charter school, or non-public, non-sectarian elementary or secondary school. If an Internet
website is not available, the information must be provided to school administrators, school board
members, school personnel, parents, guardians, and students.

(12) Is consistent with the policies of the school board, charter school, or non-public, non-sectarian
elementary or secondary school.

"Restorative measures" means a continuum of school-based alternatives to exclusionary discipline,
such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and
community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and
productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be
successful in school and society, (v) serve to build and restore relationships among students, families,
schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability
with an understanding of students' behavioral health needs in order to keep students in school.

"School personnel" means persons employed by, on contract with, or who volunteer in a school district,
charter school, or non-public, non-sectarian elementary or secondary school, including without limitation
school and school district administrators, teachers, school guidance counselors, school social workers,
school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers,
school resource officers, and security guards.

(c) (Blank).

(d) Each school district, charter school, and non-public, non-sectarian elementary or secondary school
shall create, maintain, and implement a policy on bullying, which policy must be filed with the State Board
of Education. The policy or implementing procedure shall include a process to investigate whether a reported act of bullying is within the permissible scope of the district's or school's jurisdiction and shall require that the district or school provide the victim with information regarding services that are available within the district and community, such as counseling, support services, and other programs. School personnel available for help with a bully or to make a report about bullying shall be made known to parents or legal guardians, students, and school personnel. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. The policy must be filed with the State Board of Education after being updated. The State Board of Education shall monitor and provide technical support for the implementation of policies created under this subsection (d).

(e) This Section shall not be interpreted to prevent a victim from seeking redress under any other available civil or criminal law.

§ 105 ILCS 5/34-84a.1. Principals shall report incidents of intimidation.
The principal of each attendance center shall promptly notify and report to the local law enforcement authorities for inclusion in the Department of State Police's Illinois Uniform Crime Reporting Program each incident of intimidation of which he or she has knowledge and each alleged incident of intimidation which is reported to him or her, either orally or in writing, by any pupil or by any teacher or other certificated or non-certificated personnel employed at the attendance center. "Intimidation" shall have the meaning ascribed to it by Section 12-6 of the Criminal Code of 2012.

LAWS

(a) The General Assembly finds and declares that the educational development of all persons to the limits of their capacities is a fundamental goal of the people of this State and that to achieve such goal it is essential to provide a safe and secure learning environment within the public schools. While recognizing that cellular radio telecommunication devices may be used for inappropriate activities during school hours and on school property and may, on occasion, cause disruption to the classroom environment, the General Assembly also recognizes that the use of cellular radio telecommunication devices can decrease the response time of officials to emergency situations. In addition, cellular radio telecommunication devices allow parents an additional and timely method of contacting their children should an emergency situation arise. Therefore, it is the purpose and intention of the General Assembly in enacting this legislation to (i) reduce the occurrence of inappropriate and disruptive activities during school hours and on school property occurring through the use of cellular radio telecommunication devices and (ii) increase the safety of students and school personnel during school hours and on school property.

(b) The school board may establish appropriate rules and disciplinary procedures governing the use or possession of cellular radio telecommunication devices by a student while in a school or on school property, during regular school hours, or at any other time.
§ 105 ILCS 5/10-21.4a. Principals and assistant principals - Duties.

[...] It shall also be the responsibility of the principal to utilize resources of proper law enforcement agencies when the safety and welfare of students and teachers are threatened by illegal use of drugs and alcohol, by illegal use or possession of weapons, or by illegal gang activity. […]

(a) The General Assembly finds and declares that the educational development of all persons to the limits of their capacities is a fundamental goal of the people of this State, that to achieve such goal it is essential to provide a safe and secure learning environment within the public schools, and that the unrestricted and unregulated use by students of pocket pagers and similar electronic paging devices on school grounds or in school buildings which are owned, occupied or leased by a school board for school purposes and activities adversely affects the educational environment, welfare and safety of students enrolled in the public schools, in that pocket pagers and similar electronic paging devices are being regularly used for the conduct of unlawful activities during school hours and on school property, including activities directly related to the unlawful possession, sale, delivery or other trafficking in drugs or other substances which constitute a "controlled substance" as that term is defined in the Illinois Controlled Substances Act. It is the purpose and intention of the General Assembly, in enacting this legislation, to reduce or eliminate the occurrence of such unlawful activities during school hours and on school property by restricting and regulating student use or possession of pocket pagers and similar electronic paging devices as provided in this Section, and by providing for the imposition of appropriate discipline and sanctions for any violation of the provisions of this Section.

(b) No student shall use or have in his or her possession any pocket pager or similar electronic paging device while in any school building or on any school property, during regular school hours or at any other time, unless the use or possession of such device by such student has first been expressly authorized by the school board acting in accordance with standards developed as provided in subsection (c) for the granting of approved exceptions to the general prohibition of this Section against such use or possession.

(c) The school board shall develop and promulgate written standards under which the board:

(1) may authorize the use or possession of a pocket pager or similar electronic paging device by a student while in a school building or on school property as an approved exception to the general prohibition of this Section against such use or possession; and

(2) may impose appropriate discipline or other sanctions against any student who violates any provision of this Section.

§ 105 ILCS 5/31-1. Definition.

A public school fraternity, sorority or secret society, in this Article means any organization, composed wholly or in part of public school pupils, which seeks to perpetuate itself by taking in additional members from the pupils enrolled in such school on the basis of the decision of its membership rather than upon the free choice of any pupil in the school who is qualified by the rules of the school to fill the special aims of the organization.

§ 105 ILCS 5/31-2. Inimical to public good.

Any public school fraternity, sorority or secret society is inimical to the public good.

§ 105 ILCS 5/31-3. Suspension or expulsion of members, pledges and solicitors.

The governing body of any public school shall suspend or expel any pupil who is a member of or joins or promises to join, or who becomes pledged to become a member of, or who solicits any other person to join, promise to join or be pledged to become a member of any public school fraternity, sorority or secret society.
It is unlawful for any person not enrolled in any public school of this State to solicit any pupil enrolled therein to join or pledge himself or herself to become a member of any public school fraternity, sorority or secret society or to solicit any such pupil to attend a meeting thereof or any meeting where the joining of any such fraternity, sorority or secret society is encouraged. Whoever violates this section shall be guilty of a petty offense and fined not less than $25 nor more than $100.

(a) The General Assembly finds and declares that the educational development of all persons to the limits of their capacities is a fundamental goal of the people of this State, that to achieve such goal it is essential to provide a safe and secure learning environment within the public schools, and that the unrestricted and unregulated use by students of pocket pagers and similar electronic paging devices on school grounds or in school buildings which are owned, occupied or leased by the board of education for school purposes and activities adversely affects the educational environment, welfare and safety of students enrolled in the public schools, in that pocket pagers and similar electronic paging devices are being regularly used for the conduct of unlawful activities during school hours and on school property, including activities directly related to the unlawful possession, sale, delivery or other trafficking in drugs or other substances which constitute a "controlled substance" as that term is defined in the Illinois Controlled Substances Act. (b) No student shall use or have in his or her possession any pocket pager or similar electronic paging device while in any school building or on any school property, during regular school hours or at any other time, unless the use or possession of such device by such student has first been expressly authorized by the principal acting in accordance with standards developed as provided in subsection (c) for the granting of approved exceptions to the general prohibition of this Section against such use or possession.

(c) The board of education shall develop and promulgate written standards, which shall be furnished by the board of education to each principal, under which a principal:

   (1) may authorize the use or possession of a pocket pager or similar electronic paging device by a student while in a school building or on school property as an approved exception to the general prohibition of this Section against such use or possession; and

   (2) may impose appropriate discipline or other sanctions against any student who violates any provision of this Section.

LAWS

§ 105 ILCS 5/2-3.148. Disability history and awareness campaign.
The State Board of Education shall promote an annual campaign about disability history and awareness in this State. The campaign shall be designed to increase public awareness and respect for people with disabilities who comprise a substantial percentage of this State's population, teach future generations that people with disabilities have a rich history and have made valuable contributions throughout this State and the United States, and teach future generations that disability is a natural part of life and that people with disabilities have a right to be treated with civil, legal, and human rights and as full human beings above all else.

Every public school teacher shall teach character education, which includes the teaching of respect, responsibility, fairness, caring, trustworthiness, and citizenship, in order to raise pupils' honesty, kindness, justice, discipline, respect for others, and moral courage for the purpose of lessening crime and raising the standard of good character.

School districts shall provide instruction in violence prevention and conflict resolution education for grades kindergarten through 12 and may include such instruction in the courses of study regularly taught therein. School districts may give regular school credit for satisfactory completion by the student of such courses.

(a) The General Assembly finds that a safe and civil school environment is necessary for students to learn and achieve and that bullying causes physical, psychological, and emotional harm to students and interferes with students' ability to learn and participate in school activities. The General Assembly further finds that bullying has been linked to other forms of antisocial behavior, such as vandalism, shoplifting, skipping and dropping out of school, fighting, using drugs and alcohol, sexual harassment, and sexual violence. Because of the negative outcomes associated with bullying in schools, the General Assembly finds that school districts, charter schools, and non-public, non-sectarian elementary and secondary schools should educate students, parents, and school district, charter school, or non-public, non-sectarian elementary or secondary school personnel about what behaviors constitute prohibited bullying. Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in all school districts, charter schools, and non-public, non-sectarian elementary and secondary schools. No student shall be subjected to bullying:

(1) during any school-sponsored education program or activity;
(2) while in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities;
(3) through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment; or
(4) through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

(a) The General Assembly finds that the instance of youth delinquent gangs continues to rise on a statewide basis. Given the higher rates of criminal offending among gang members, as well as the availability of increasingly lethal weapons, the level of criminal activity by gang members has taken on new importance for law enforcement agencies, schools, the community, and prevention efforts.
(b) As used in this Section:
"Gang resistance education and training" means and includes instruction in, without limitation, each of the following subject matters when accompanied by a stated objective of reducing gang activity and educating children in grades K through 12 about the consequences of gang involvement:
   (1) conflict resolution;
   (2) cultural sensitivity;
   (3) personal goal setting; and
   (4) resisting peer pressure.
(c) Each school district and non-public, non-sectarian elementary or secondary school in this State may make suitable provisions for instruction in gang resistance education and training in all grades and include that instruction in the courses of study regularly taught in those grades. For the purposes of gang resistance education and training, a school board or the governing body of a non-public, non-sectarian elementary or secondary school must collaborate with State and local law enforcement agencies. The State Board of Education may assist in the development of instructional materials and teacher training in relation to gang resistance education and training.

§ 105 ILCS 5/34-18.7. Adolescent and teen mental illness and suicide detection and intervention.
School guidance counselors, teachers, school social workers, and other school personnel who work with pupils in grades 7 through 12 shall be trained to identify the warning signs of mental illness and suicidal behavior in adolescents and teens and shall be taught various intervention techniques. Such training shall be provided within the framework of existing in-service training programs offered by the Board or as part of the professional development activities required under Section 21-14 of this Code.

LAWS

§ 105 ILCS 5/2-3.41. Chronic truants and truancy prevention.
The State Board of Education is empowered to enter into contracts with public or private agencies for the provision of educational services to chronic truants and for the prevention of truancy including training and developmental assistance provided an appropriation is made specifically for such purpose.
§ 105 ILCS 5/2-3.163. Prioritization of urgency of need for services database.

(a) The General Assembly makes all of the following findings:

(1) The Department of Human Services maintains a statewide database known as the Prioritization of Urgency of Need for Services that records information about individuals with developmental disabilities who are potentially in need of services.

(2) The Department of Human Services uses the data on Prioritization of Urgency of Need for Services to select individuals for services as funding becomes available, to develop proposals and materials for budgeting, and to plan for future needs.

(3) Prioritization of Urgency of Need for Services is available for children and adults with a developmental disability who have an unmet service need anticipated in the next 5 years.

(4) Prioritization of Urgency of Need for Services is the first step toward getting developmental disabilities services in this State. If individuals are not on the Prioritization of Urgency of Need for Services waiting list, they are not in queue for State developmental disabilities services.

(5) Prioritization of Urgency of Need for Services may be underutilized by children and their parents or guardians due to lack of awareness or lack of information.

(b) The State Board of Education may work with school districts to inform all students with developmental disabilities and their parents or guardians about the Prioritization of Urgency of Need for Services database.

(c) Subject to appropriation, the Department of Human Services and State Board of Education shall develop and implement an online, computer-based training program for at least one designated employee in every public school in this State to educate him or her about the Prioritization of Urgency of Need for Services database and steps to be taken to ensure children and adolescents are enrolled. The training shall include instruction for at least one designated employee in every public school in contacting the appropriate developmental disabilities Independent Service Coordination agency to enroll children and adolescents in the database. At least one designated employee in every public school shall ensure the opportunity to enroll in the Prioritization of Urgency of Need for Services database is discussed during annual individualized education program (IEP) meetings for all children and adolescents believed to have a developmental disability.

(d) The State Board of Education, in consultation with the Department of Human Services, shall inform parents and guardians of students through school districts about the Prioritization of Urgency of Need for Services waiting list, including the consideration required in subsection (e) of this Section.

(e) The Department of Human Services shall consider the length of time spent on the Prioritization of Urgency of Need for Services waiting list, in addition to other factors considered, when selecting individuals on the list for services.

§ 105 ILCS 5/10-20.60. School social worker.

A school board may employ school social workers who have graduated with a master's or higher degree in social work from an accredited graduate school of social work and have such additional qualifications as may be required by the State Board of Education and who hold a Professional Educator License with a school support personnel endorsement for school social work pursuant to Section 21B-25 of this Code. Only persons so licensed and endorsed may use the title "school social worker". A school social worker may provide individual and group services to the general student population and to students with disabilities pursuant to Article 14 of this Code and rules set forth in 23 Ill. Adm. Code 226, Special Education, adopted by the State Board of Education and may provide support and consultation to administrators, teachers, and other school personnel consistent with their professional qualifications and the provisions of this Code and other applicable laws. School districts may employ a sufficient number of
school social workers to address the needs of their students and schools and may maintain the nationally recommended student-to-school social worker ratio of 250 to 1. A school social worker may not provide such services outside his or her employment to any student in the district or districts that employ the school social worker.

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. School officials shall limit the number and duration of expulsions and suspensions to the greatest extent practicable, and it is recommended that they use them only for legitimate educational purposes. To ensure that students are not excluded from school unnecessarily, it is recommended that school officials consider forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions.

(b-20) Unless otherwise required by this Code, out-of-school suspensions of longer than 3 days, expulsions, and disciplinary removals to alternative schools may be used only if other appropriate and available behavioral and disciplinary interventions have been exhausted and the student's continuing presence in school would either (i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school. For purposes of this subsection (b-20), "threat to the safety of other students, staff, or members of the school community" and "substantially disrupt, impede, or interfere with the operation of the school" shall be determined on a case-by-case basis by school officials. For purposes of this subsection (b-20), the determination of whether "appropriate and available behavioral and disciplinary interventions have been exhausted" shall be made by school officials. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of student exclusions to the greatest extent practicable. Within the suspension decision described in subsection (b) of this Section or the expulsion decision described in subsection (a) of this Section, it shall be documented whether other interventions were attempted or whether it was determined that there were no other appropriate and available interventions.

(b-25) Students who are suspended out-of-school for longer than 4 school days shall be provided appropriate and available support services during the period of their suspension. For purposes of this subsection (b-25), "appropriate and available support services" shall be determined by school authorities. Within the suspension decision described in subsection (b) of this Section, it shall be documented whether such services are to be provided or whether it was determined that there are no such appropriate and available services. A school district may refer students who are expelled to appropriate and available support services. A school district shall create a policy to facilitate the re-engagement of students who are suspended out-of-school, expelled, or returning from an alternative school setting.

(b-30) A school district shall create a policy by which suspended pupils, including those pupils suspended from the school bus who do not have alternate transportation to school, shall have the opportunity to make up work for equivalent academic credit. It shall be the responsibility of a pupil's parent or guardian to notify school officials that a pupil suspended from the school bus does not have alternate transportation to school.

§ 105 ILCS 5/10-20.36. Psychotropic or psychostimulant medication; disciplinary action.

(b) Each school board must adopt and implement a policy that prohibits any disciplinary action that is based totally or in part on the refusal of a student's parent or guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student. The policy must require that, at least once every 2 years, the in-service training of certified school personnel and administrators include training on current best practices regarding the identification and treatment of attention deficit disorder
and attention deficit hyperactivity disorder, the application of non-aversive behavioral interventions in the school environment, and the use of psychotropic or psychostimulant medication for school-age children.

§ 105 ILCS 5/24-26. Intervening to help students or their family members who may have alcohol or other drug problems.

Teachers and other employees of school districts may intervene to help students or their family members who appear to have problems with alcohol and other drugs by encouraging them to seek an assessment and treatment. School personnel who intervene shall have immunity from civil liability in accordance with the Alcoholism and Drug Addiction Intervenor and Reporter Immunity Law. School personnel shall not be subject to disciplinary action by the school because of an intervention and may not be prohibited by school policy from intervening.

(a) The General Assembly finds that it is critical to provide options for children to succeed in school. The purpose of this Section is to provide incentives for and encourage all Illinois students who have experienced or are experiencing difficulty in the traditional education system to enroll in alternative programs.

(b) Any student who is below the age of 20 years is eligible to enroll in a graduation incentives program if he or she:

(1) is considered a dropout pursuant to Section 26-2a of this Code;
(2) has been suspended or expelled pursuant to Section 10-22.6 or 34-19 of this Code;
(3) is pregnant or is a parent;
(4) has been assessed as chemically dependent; or
(5) is enrolled in a bilingual education or LEP program.

(c) The following programs qualify as graduation incentives programs for students meeting the criteria established in this Section:

(1) Any public elementary or secondary education graduation incentives program established by a school district or by a regional office of education.
(2) Any alternative learning opportunities program established pursuant to Article 13B of this Code.
(3) Vocational or job training courses approved by the State Superintendent of Education that are available through the Illinois public community college system. Students may apply for reimbursement of 50% of tuition costs for one course per semester or a maximum of 3 courses per school year. Subject to available funds, students may apply for reimbursement of up to 100% of tuition costs upon a showing of employment within 6 months after completion of a vocational or job training program. The qualifications for reimbursement shall be established by the State Superintendent of Education by rule.
(4) Job and career programs approved by the State Superintendent of Education that are available through Illinois-accredited private business and vocational schools. Subject to available funds, pupils may apply for reimbursement of up to 100% of tuition costs upon a showing of employment within 6 months after completion of a job or career program. The State Superintendent of Education shall establish, by rule, the qualifications for reimbursement, criteria for determining reimbursement amounts, and limits on reimbursement.
(5) Adult education courses that offer preparation for high school equivalency testing.

(d) Graduation incentives programs established by school districts are entitled to claim general State aid and evidence-based funding, subject to Sections 13B-50, 13B-50.5, and 13B-50.10 of this Code. Graduation incentives programs operated by regional offices of education are entitled to receive general State aid and evidence-based funding at the foundation level of support per pupil enrolled. A school
district must ensure that its graduation incentives program receives supplemental general State aid, transportation reimbursements, and special education resources, if appropriate, for students enrolled in the program.

(a) As used in this Section:

"Chronic absence" means absences that total 10% or more of school days of the most recent academic school year, including absences with and without valid cause, as defined in Section 26-2a of this Code, and out-of-school suspensions for an enrolled student.

"Student" means any enrolled student that is subject to compulsory attendance under Section 26-1 of this Code but does not mean a student for whom a documented homebound or hospital record is on file during the student's absence from school.

(b) The General Assembly finds that:

(1) The early years are a critical period in children's learning and development. Every child should be counted present every day. Every day of school matters.

(2) Being absent too many days from school can make it difficult for students to stay on-track academically and maintain the momentum to graduate from high school in order to be college-or career-ready.

(3) Every day of school attendance matters for all students and their families. It is crucial, therefore, that the implications of chronic absence be understood and reviewed regularly.

(c) Beginning July 1, 2018, every school district, charter school, or alternative school or any school receiving public funds shall collect and review its chronic absence data and determine what systems of support and resources are needed to engage chronically absent students and their families to encourage the habit of daily attendance and promote success. The review shall include an analysis of chronic absence data from each attendance center or campus of the school district, charter school, or alternative school or other school receiving public funds.

(d) School districts, charter schools, or alternative schools or any school receiving public funds are encouraged to provide a system of support to students who are at risk of reaching or exceeding chronic absence levels with strategies such as those available through the Illinois Multi-tiered Systems of Support Network. Schools additionally are encouraged to make resources available to families such as those available through the State Board of Education's Family Engagement Framework to support and engage students and their families to encourage heightened school engagement and improved daily school attendance.

School districts shall provide instruction in violence prevention and conflict resolution education for grades kindergarten through 12 and may include such instruction in the courses of study regularly taught therein. School districts may give regular school credit for satisfactory completion by the student of such courses.

(b) In this Section:

"Policy on bullying" means a bullying prevention policy that meets the following criteria:

(6) Includes the interventions that can be taken to address bullying, which may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.
"Restorative measures" means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school.

(d) Each school district, charter school, and non-public, non-sectarian elementary or secondary school shall create, maintain, and implement a policy on bullying, which policy must be filed with the State Board of Education. The policy or implementing procedure shall include a process to investigate whether a reported act of bullying is within the permissible scope of the district's or school's jurisdiction and shall require that the district or school provide the victim with information regarding services that are available within the district and community, such as counseling, support services, and other programs. School personnel available for help with a bully or to make a report about bullying shall be made known to parents or legal guardians, students, and school personnel. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. The policy must be filed with the State Board of Education after being updated. The State Board of Education shall monitor and provide technical support for the implementation of policies created under this subsection (d).

§ 105 ILCS 5/34-4.5. Chronic truants.
(d) Penalties. The hearing officer may require the pupil or the pupil's parent or guardian or both the pupil and the pupil's parent or guardian to do any or all of the following: perform reasonable school or community services for a period not to exceed 30 days; complete a parenting education program; obtain counseling or other supportive services; and comply with an individualized educational plan or service plan as provided by appropriate school officials. If the parent or guardian of the chronic truant shows that he or she took reasonable steps to insure attendance of the pupil at school, he or she shall not be required to perform services.

§ 105 ILCS 5/34-18.25. Psychotropic or psychostimulant medication; disciplinary action.
(b) The board must adopt and implement a policy that prohibits any disciplinary action that is based totally or in part on the refusal of a student's parent or guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student. The policy must require that, at least once every 2 years, the in-service training of certified school personnel and administrators include training on current best practices regarding the identification and treatment of attention deficit disorder and attention deficit hyperactivity disorder, the application of non-aversive behavioral interventions in the school environment, and the use of psychotropic or psychostimulant medication for school-age children.

§ 105 ILCS 5/34-18.28. Prison tour pilot program
The board shall establish a pilot program to prevent crime by developing guidelines to identify students at risk of committing crimes. "Students at risk of committing crimes" shall be limited to those students who have engaged in serious acts of misconduct in violation of the board's policy on discipline. This program, in cooperation with the Department of Corrections, shall include a guided tour of a prison for each student so identified in order to discourage criminal behavior. The touring of a prison under this Section shall be subject to approval, in writing, of a student's parent or guardian.
REGULATIONS

1.280. Discipline.
Section 24-24 of the School Code [105 ILCS 5/24-24] provides for teachers, other licensed educational employees (except for individuals holding an educator license with stipulations endorsed for paraprofessional educator) and persons providing a related service for or with respect to a student as determined by the board of education to maintain discipline in the schools.

d) In addition to, or as part of, its policy on the maintenance of discipline, each board of education shall adopt policies and procedures regarding the use of behavioral interventions for students with disabilities who require intervention. Each board's policies and procedures shall conform to the requirements of Section 14-8.05(c) of the School Code [105 ILCS 5/14-8.05(c)].

1.290. Absenteeism and truancy policies.
a) Purpose. This Section establishes guidelines and criteria required by Section 26-13 of the School Code [105 ILCS 5/26-13], which provides that school districts shall adopt absenteeism and truancy policies identifying appropriate supportive services and available resources for truants and chronic truants.
b) Content of Policies. Each school district shall develop an absenteeism and truancy policy including at least the following elements:

1) A definition of a valid cause for absence in accordance with Section 26-2a of the School Code;
2) A description of diagnostic procedures to be used for identifying the causes of unexcused student absenteeism, which shall, at a minimum, include interviews with the student, his or her parents or guardians, and any school officials or other parties who may have information about the reasons for the student's attendance problem; and
3) The identification of supportive services to be made available to truant or chronically truant students. These services shall include, but need not be limited to, parent conferences, student counseling, family counseling, and information about existing community services which are available to truant and chronically truant students and relevant to their needs.

§ 105 ILCS 5/10-20.36. Psychotropic or psychostimulant medication; disciplinary action.
(b) Each school board must adopt and implement a policy that prohibits any disciplinary action that is based totally or in part on the refusal of a student's parent or guardian to administer or consent to the
administration of psychotropic or psychostimulant medication to the student. The policy must require that, at least once every 2 years, the in-service training of certified school personnel and administrators include training on current best practices regarding the identification and treatment of attention deficit disorder and attention deficit hyperactivity disorder, the application of non-aversive behavioral interventions in the school environment, and the use of psychotropic or psychostimulant medication for school-age children.

§ 105 ILCS 5/10-20.60. Implicit bias training.
(a) The General Assembly makes the following findings:
(1) implicit racial bias influences evaluations of and behavior toward those who are the subject of the bias;
(2) understanding implicit racial bias is needed in order to reduce that bias;
(3) marginalized students would benefit from having access to educators who have worked to reduce their biases; and
(4) training that helps educators overcome implicit racial bias has implication for classroom interactions, student evaluation, and classroom engagement; it also affects student academic self-concept.

(b) Each school board shall require in-service training for school personnel to include training to develop cultural competency, including understanding and reducing implicit racial bias.

(c) As used in this Section, "implicit racial bias" means a preference, positive or negative, for a racial or ethnic group that operates outside of awareness. This bias has 3 different components: affective, behavioral, and cognitive.

(c-5) School districts shall make reasonable efforts to provide ongoing professional development to teachers, administrators, school board members, school resource officers, and staff on the adverse consequences of school exclusion and justice-system involvement, effective classroom management strategies, culturally responsive discipline, and developmentally appropriate disciplinary methods that promote positive and healthy school climates.

(a) To conduct in-service training programs for teachers.

(b) In addition to other topics at in-service training programs, school guidance counselors, teachers, school social workers, and other school personnel who work with pupils in grades 7 through 12 shall be trained to identify the warning signs of mental illness and suicidal behavior in adolescents and teens and shall be taught appropriate intervention and referral techniques.

(c) School guidance counselors, nurses, teachers and other school personnel who work with pupils may be trained to have a basic knowledge of matters relating to acquired immunodeficiency syndrome (AIDS), including the nature of the disease, its causes and effects, the means of detecting it and preventing its transmission, and the availability of appropriate sources of counseling and referral, and any other information that may be appropriate considering the age and grade level of such pupils. The School Board shall supervise such training. The State Board of Education and the Department of Public Health shall jointly develop standards for such training.

At least once every 2 years, an in-service training program for school personnel who work with pupils, including, but not limited to, school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, and school nurses, must be conducted by persons with expertise in domestic and sexual violence and the needs of expectant and parenting youth and shall include training concerning (i) communicating with and listening to youth victims of domestic or sexual violence and expectant and parenting youth, (ii) connecting youth victims of domestic or sexual violence and expectant and parenting youth to appropriate in-school services and other agencies, programs, and services as needed, and (iii) implementing the school district's policies, procedures, and protocols with regard to such youth, including confidentiality. At a minimum, school personnel must be trained to understand, provide information and referrals, and address issues pertaining to youth who are parents, expectant parents, or victims of domestic or sexual violence.

REGULATIONS

1.285. Requirements for the use of isolated time out and physical restraint.

Isolated time out and physical restraint as defined in this Section shall be used only as means of maintaining discipline in schools (that is, as means of maintaining a safe and orderly environment for learning) and only to the extent that they are necessary to preserve the safety of students and others. Neither isolated time out nor physical restraint shall be used in administering discipline to individual students, i.e., as a form of punishment. Nothing in this Section or in Section 1.280 of this Part shall be construed as regulating the restriction of students' movement when that restriction is for a purpose other than the maintenance of an orderly environment (e.g., the appropriate use of safety belts in vehicles).

h) Requirements for Training

1) Isolated Time Out. Each district, cooperative, or joint agreement whose policy permits the use of isolated time out shall provide orientation to its staff members covering at least the written procedure established pursuant to Section 1.280(c)(2) of this Part.

2) Physical Restraint

A) Physical restraint as defined in this Section shall be applied only by individuals who have received systematic training that includes all the elements described in subsection (h)(2)(B) of this Section and who have received a certificate of completion or other written evidence of participation. An individual who applies physical restraint shall use only techniques in which he or she has received training within the preceding two years, as indicated by written evidence of participation.

B) Training with respect to physical restraint may be provided either by the employer or by an external entity and shall include, but need not be limited to:

i) appropriate procedures for preventing the need for physical restraint, including the de-escalation of problematic behavior, relationship-building, and the use of alternatives to restraint;

ii) a description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;

iii) the simulated experience of administering and receiving a variety of physical restraint techniques, ranging from minimal physical involvement to very controlling interventions;

iv) instruction regarding the effects of physical restraint on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;

v) instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and

vi) demonstration by participants of proficiency in administering physical restraint.

C) An individual may provide training to others in a particular method of physical restraint only if he or she has received written evidence of completing training in that technique that meets the requirements of subsection (h)(2)(B) of this Section within the preceding one-year period.

(b) The parent-teacher advisory committee in cooperation with local law enforcement agencies shall develop, with the school board, policy guideline procedures to establish and maintain a reciprocal reporting system between the school district and local law enforcement agencies regarding criminal offenses committed by students. School districts are encouraged to create memoranda of understanding with local law enforcement agencies that clearly define law enforcement's role in schools, in accordance with Section 10-22.6 of this Code.

"Policy on bullying" means a bullying prevention policy that meets the following criteria:

(3) Includes procedures for promptly reporting bullying, including, but not limited to, identifying and providing the school e-mail address (if applicable) and school telephone number for the staff person or persons responsible for receiving such reports and a procedure for anonymous reporting; however, this shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.

(5) Contains procedures for promptly investigating and addressing reports of bullying, including the following:

(A) Making all reasonable efforts to complete the investigation within 10 school days after the date the report of the incident of bullying was received and taking into consideration additional relevant information received during the course of the investigation about the reported incident of bullying.

(B) Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.

(C) Notifying the principal or school administrator or his or her designee of the report of the incident of bullying as soon as possible after the report is received.

(D) Consistent with federal and State laws and rules governing student privacy rights, providing parents and guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

§ 105 ILCS 5/34-8.05. Reporting firearms in schools.
On or after January 1, 1997, upon receipt of any written, electronic, or verbal report from any school personnel regarding a verified incident involving a firearm in a school or on school owned or leased
property, including any conveyance owned, leased, or used by the school for the transport of students or
school personnel, the general superintendent or his or her designee shall report all such firearm-related
incidents occurring in a school or on school property to the local law enforcement authorities no later than
24 hours after the occurrence of the incident and to the Department of State Police in a form, manner,
and frequency as prescribed by the Department of State Police. The State Board of Education shall

REGULATIONS

1.285. Requirements for the use of isolated time out and physical restraint.
Isolated time out and physical restraint as defined in this Section shall be used only as means of
maintaining discipline in schools (that is, as means of maintaining a safe and orderly environment for
learning) and only to the extent that they are necessary to preserve the safety of students and others.
Neither isolated time out nor physical restraint shall be used in administering discipline to individual
students, i.e., as a form of punishment. Nothing in this Section or in Section 1.280 of this Part shall be
construed as regulating the restriction of students' movement when that restriction is for a purpose other
than the maintenance of an orderly environment (e.g., the appropriate use of safety belts in vehicles).

f) Documentation and Evaluation
1) A written record of each episode of isolated time out or physical restraint shall be maintained in the
student's temporary record. The official designated pursuant to Section 1.280(c)(3) of this Part shall
also maintain a copy of each of these records. Each record shall include:
   A) the student's name;
   B) the date of the incident;
   C) the beginning and ending times of the incident;
   D) a description of any relevant events leading up to the incident;
   E) a description of any interventions used prior to the implementation of isolated time out or physical
      restraint;
   F) a description of the incident and/or student behavior that resulted in isolated time out or physical
      restraint;
   G) a log of the student's behavior in isolated time out or during physical restraint, including a
description of the restraint techniques used and any other interaction between the student and staff;
   H) a description of any injuries (whether to students, staff, or others) or property damage;
   I) a description of any planned approach to dealing with the student's behavior in the future;
   J) a list of the school personnel who participated in the implementation, monitoring, and supervision
      of isolated time out or physical restraint;
   K) the date on which parental notification took place as required by subsection (g) of this Section.
2) The school official designated pursuant to Section 1.280(c)(3) of this Part shall be notified of the incident as soon as possible, but no later than the end of the school day on which it occurred.

3) The record described in subsection (f)(1) of this Section shall be completed by the beginning of the school day following the episode of isolated time out or physical restraint.

4) The requirements of this subsection (f)(4) shall apply whenever an episode of isolated time out exceeds 30 minutes, an episode of physical restraint exceeds 15 minutes, or repeated episodes have occurred during any three-hour period.

   A) A licensed educator knowledgeable about the use of isolated time out or trained in the use of physical restraint, as applicable, shall evaluate the situation.

   B) The evaluation shall consider the appropriateness of continuing the procedure in use, including the student's potential need for medication, nourishment, or use of a restroom, and the need for alternate strategies (e.g., assessment by a mental health crisis team, assistance from police, or transportation by ambulance).

   C) The results of the evaluation shall be committed to writing and copies of this documentation shall be placed into the student's temporary student record and provided to the official designated pursuant to Section 1.280(c)(3) of this Part.

5) When a student has first experienced three instances of isolated time out or physical restraint, the school personnel who initiated, monitored, and supervised the incidents shall initiate a review of the effectiveness of the procedures used and prepare an individual behavior plan for the student that provides either for continued use of these interventions or for the use of other, specified interventions. The plan shall be placed into the student's temporary student record. The review shall also consider the student's potential need for an alternative program or for special education.

   A) The district or other entity serving the student shall invite the student's parents or guardians to participate in this review and shall provide ten days' notice of its date, time, and location.

   B) The notification shall inform the parents or guardians that the student's potential need for special education or an alternative program will be considered and that the results of the review will be entered into the temporary student record.

§ 105 ILCS 5/2-3.163. Prioritization of urgency of need for services database.

(a) The General Assembly makes all of the following findings:

   (1) The Department of Human Services maintains a statewide database known as the Prioritization of Urgency of Need for Services that records information about individuals with developmental disabilities who are potentially in need of services.

   (5) Prioritization of Urgency of Need for Services may be underutilized by children and their parents or guardians due to lack of awareness or lack of information.

(b) The State Board of Education may work with school districts to inform all students with developmental disabilities and their parents or guardians about the Prioritization of Urgency of Need for Services database.

(d) The State Board of Education, in consultation with the Department of Human Services, shall inform parents and guardians of students through school districts about the Prioritization of Urgency of Need for Services waiting list, including the consideration required in subsection (e) of this Section.

(d) The school board, in consultation with the parent-teacher advisory committee and other community-based organizations, must include provisions in the student discipline policy to address students who have demonstrated behaviors that put them at risk for aggressive behavior, including without limitation bullying, as defined in the policy. These provisions must include procedures for notifying parents or legal guardians and early intervention procedures based upon available community-based and district resources.

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(a) To expel pupils guilty of gross disobedience or misconduct, including gross disobedience or misconduct perpetuated by electronic means, pursuant to subsection (b-20) of this Section, and no action shall lie against them for such expulsion. Expulsion shall take place only after the parents have been requested to appear at a meeting of the board, or with a hearing officer appointed by it, to discuss their child's behavior. Such request shall be made by registered or certified mail and shall state the time, place and purpose of the meeting. The board, or a hearing officer appointed by it, at such meeting shall state the reasons for dismissal and the date on which the expulsion is to become effective. If a hearing officer is appointed by the board he shall report to the board a written summary of the evidence heard at the meeting and the board may take such action thereon as it finds appropriate. If the board acts to expel a pupil, the written expulsion decision shall detail the specific reasons why removing the pupil from the learning environment is in the best interest of the school. The expulsion decision shall also include a rationale as to the specific duration of the expulsion. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(b) To suspend or by policy to authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of gross disobedience or misconduct, or to suspend pupils guilty of gross disobedience or misconduct on the school bus from riding the school bus, pursuant to subsections (b-15) and (b-20) of this Section, and no action shall lie against them for such suspension. The board may by policy authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of such acts for a period not to exceed 10 school days. If a pupil is suspended due to gross disobedience or misconduct on a school bus, the board may suspend the pupil in excess of 10 school days for safety reasons. Any suspension shall be reported immediately to the parents or guardian of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardian the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review the parents or guardian of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.
§ 105 ILCS 5/10-20.33. Time out and physical restraint.
[... ] The parents or guardian of a student shall be informed whenever physical restraints are used.

Before being enrolled in an alternative learning opportunities program, the student and each of his or her parents or guardians shall receive written notice to attend a conference to determine if the student would benefit from attending an alternative learning opportunities program. The conference must provide all of the information necessary for the student and parent or guardian to make an informed decision regarding enrollment in an alternative learning opportunities program. The conference shall include a discussion of the extent to which the student, if enrolled in the program, may participate in school activities. No student shall be enrolled in an alternative learning opportunities program without the consent of the student's parent or guardian.

(b) Notices. Before any hearing may be held under subsection (c), the principal of the school attended by the pupil or the principal's designee shall notify the pupil's parent or guardian by personal visit, letter, or telephone of each unexcused absence of the pupil. After giving the parent or guardian notice of the tenth unexcused absence of the pupil, the principal or the principal's designee shall send the pupil's parent or guardian a letter, by certified mail, return receipt requested, notifying the parent or guardian that he or she is subjecting himself or herself to a hearing procedure as provided under subsection (c) and clearly describing any and all possible penalties that may be imposed as provided for in subsections (d) and (e) of this Section.

§ 105 ILCS 5/34-18.28. Prison tour pilot program
The board shall establish a pilot program to prevent crime by developing guidelines to identify students at risk of committing crimes. "Students at risk of committing crimes" shall be limited to those students who have engaged in serious acts of misconduct in violation of the board's policy on discipline. This program, in cooperation with the Department of Corrections, shall include a guided tour of a prison for each student so identified in order to discourage criminal behavior. The touring of a prison under this Section shall be subject to approval, in writing, of a student's parent or guardian.

Isolated time out and physical restraint as defined in this Section shall be used only as means of maintaining discipline in schools (that is, as means of maintaining a safe and orderly environment for learning) and only to the extent that they are necessary to preserve the safety of students and others. Neither isolated time out nor physical restraint shall be used in administering discipline to individual students, i.e., as a form of punishment. Nothing in this Section or in Section 1.280 of this Part shall be construed as regulating the restriction of students' movement when that restriction is for a purpose other than the maintenance of an orderly environment (e.g., the appropriate use of safety belts in vehicles).

f) Documentation and Evaluation
5) When a student has first experienced three instances of isolated time out or physical restraint, the school personnel who initiated, monitored, and supervised the incidents shall initiate a review of the effectiveness of the procedures used and prepare an individual behavior plan for the student that provides either for continued use of these interventions or for the use of other, specified interventions. The plan shall be placed into the student's temporary student record. The review shall also consider the student's potential need for an alternative program or for special education.

   A) The district or other entity serving the student shall invite the student's parents or guardians to participate in this review and shall provide ten days' notice of its date, time, and location.

   B) The notification shall inform the parents or guardians that the student's potential need for special education or an alternative program will be considered and that the results of the review will be entered into the temporary student record.

2) Within 24 hours after any use of isolated time out or physical restraint, the school district or other entity serving the student shall send written notice of the incident to the student's parents, unless the parent has provided the district or other entity with a written waiver of this requirement for notification. The notification shall include the student's name, the date of the incident, a description of the intervention used, and the name of a contact person with a telephone number to be called for further information.

This Act may be cited as the Student Online Personal Protection Act.

Senate Bill 1796 (Public Act 100-0315). Section 3. Legislative intent.
Schools today are increasingly using a wide range of beneficial online services and other technologies to help students learn, but concerns have been raised about whether sufficient safeguards exist to protect the privacy and security of data about students when it is collected by educational technology companies. This Act is intended to ensure that student data will be protected when it is collected by educational technology companies and that the data may be used for beneficial purposes such as providing personalized learning and innovative educational technologies.

Senate Bill 1796 (Public Act 100-0315). Section 5. Definitions.
In this act:

"Covered information" means personally identifiable information or material or information that is linked to personally identifiable information or material in any media or format that is not publicly available and is any of the following:
(1) Created by or provided to an operator by a student or the student's parent or legal guardian in the course of the student's, parent's, or legal guardian's use of the operator's site, service, or application for K through 12 school purposes.

(2) Created by or provided to an operator by an employee or agent of a school or school district for K through 12 school purposes.

(3) Gathered by an operator through the operation of its site, service, or application for K through 12 school purposes and personally identifies a student, including, but not limited to, information in the student's educational record or electronic mail, first and last name, home address, telephone number, electronic mail address, or other information that allows physical or online contact, discipline records, test results, special education data, juvenile dependency records, grades, evaluations, criminal records, medical records, health records, a social security number, biometric information, disabilities, socioeconomic information, food purchases, political affiliations, religious information, text messages, documents, student identifiers, search activity, photos, voice recordings, or geolocation information.

"Interactive computer service" has the meaning ascribed to that term in Section 230 of the federal Communications Decency Act of 1996 (47 U.S.C. 230).

"K through 12 school purposes" means purposes that are directed by or that customarily take place at the direction of a school, teacher, or school district; aid in the administration of school activities, including, but not limited to, instruction in the classroom or at home, administrative activities, and collaboration between students, school personnel, or parents; or are otherwise for the use and benefit of the school.

"Operator" means, to the extent that an entity is operating in this capacity, the operator of an Internet website, online service, online application, or mobile application with actual knowledge that the site, service, or application is used primarily for K through 12 school purposes and was designed and marketed for K through 12 school purposes.

"School" means (1) any preschool, public kindergarten, elementary or secondary educational institution, vocational school, special educational facility, or any other elementary or secondary educational agency or institution or (2) any person, agency, or institution that maintains school student records from more than one school. "School" includes a private or nonpublic school.

"Targeted advertising" means presenting advertisements to a student where the advertisement is selected based on information obtained or inferred over time from that student's online behavior, usage of applications, or covered information. The term does not include advertising to a student at an online location based upon that student's current visit to that location or in response to that student's request for information or feedback, without the retention of that student's online activities or requests over time for the purpose of targeting subsequent ads.

**Senate Bill 1796 (Public Act 100-0315). Section 10. Operator prohibitions.**

An operator shall not knowingly do any of the following:

(1) Engage in targeted advertising on the operator's site, service, or application or target advertising on any other site, service, or application if the targeting of the advertising is based on any information, including covered information and persistent unique identifiers, that the operator has acquired because of the use of that operator's site, service, or application for K through 12 school purposes.

(2) Use information, including persistent unique identifiers, created or gathered by the operator's site, service, or application to amass a profile about a student, except in furtherance of K through 12 school purposes. "Amass a profile" does not include the collection and retention of account information that remains under the control of the student, the student's parent or legal guardian, or the school.
(3) Sell or rent a student's information, including covered information. This subdivision (3) does not apply to the purchase, merger, or other type of acquisition of an operator by another entity if the operator or successor entity complies with this Act regarding previously acquired student information.

(4) Except as otherwise provided in Section 20 of this Act, disclose covered information, unless the disclosure is made for the following purposes:

(A) In furtherance of the K through 12 school purposes of the site, service, or application if the recipient of the covered information disclosed under this clause (A) does not further disclose the information, unless done to allow or improve operability and functionality of the operator's site, service, or application.

(B) To ensure legal and regulatory compliance or take precautions against liability.

(C) To respond to the judicial process.

(D) To protect the safety or integrity of users of the site or others or the security of the site, service, or application.

(E) For a school, educational, or employment purpose requested by the student or the student's parent or legal guardian, provided that the information is not used or further disclosed for any other purpose.

(F) To a third party if the operator contractually prohibits the third party from using any covered information for any purpose other than providing the contracted service to or on behalf of the operator, prohibits the third party from disclosing any covered information provided by the operator with subsequent third parties, and requires the third party to implement and maintain reasonable security procedures and practices.

Nothing in this Section prohibits the operator's use of information for maintaining, developing, supporting, improving, or diagnosing the operator's site, service, or application.

**Senate Bill 1796 (Public Act 100-0315). Section 25. Operator actions that are not prohibited.**

This Act does not prohibit an operator from doing any of the following:

(1) Using covered information to improve educational products if that information is not associated with an identified student within the operator's site, service, or application or other sites, services, or applications owned by the operator.

(2) Using covered information that is not associated with an identified student to demonstrate the effectiveness of the operator's products or services, including in their marketing.

(3) Sharing covered information that is not associated with an identified student for the development and improvement of educational sites, services, or applications.

(4) Using recommendation engines to recommend to a student either of the following:

   (A) Additional content relating to an educational, other learning, or employment opportunity purpose within an online site, service, or application if the recommendation is not determined in whole or in part by payment or other consideration from a third party.

   (B) Additional services relating to an educational, other learning, or employment opportunity purpose within an online site, service, or application if the recommendation is not determined in whole or in part by payment or other consideration from a third party.

(5) Responding to a student's request for information or for feedback without the information or response being determined in whole or in part by payment or other consideration from a third party.

**Senate Bill 1796 (Public Act 100-0315). Section 30. Applicability.**

This act does not do any of the following:
(1) Limit the authority of a law enforcement agency to obtain any content or information from an operator as authorized by law or under a court order.

(2) Limit the ability of an operator to use student data, including covered information, for adaptive learning or customized student learning purposes.

(3) Apply to general audience Internet websites, general audience online services, general audience online applications, or general audience mobile applications, even if login credentials created for an operator's site, service, or application may be used to access those general audience sites, services, or applications.

(4) Limit service providers from providing Internet connectivity to schools or students and their families.

(5) Prohibit an operator of an Internet website, online service, online application, or mobile application from marketing educational products directly to parents if the marketing did not result from the use of covered information obtained by the operator through the provision of services covered under this Act.

(6) Impose a duty upon a provider of an interactive computer service to review or enforce compliance with this Act by third-party content providers.

(7) Impose a duty upon a provider of an interactive computer service to review or enforce compliance with this Act by third-party content providers.

(8) Prohibit students from downloading, exporting, transferring, saving, or maintaining their own student data or documents.

Data collection, review, and reporting of disciplinary policies and actions

LAWS

§ 105 ILCS 5/2-3.162. Student discipline report; school discipline improvement plan.
(a) On or before October 31, 2015 and on or before October 31 of each subsequent year, the State Board of Education, through the State Superintendent of Education, shall prepare a report on student discipline in all school districts in this State, including State-authorized charter schools. This report shall include data from all public schools within school districts, including district-authorized charter schools. This report must be posted on the Internet website of the State Board of Education. The report shall include data on the issuance of out-of-school suspensions, expulsions, and removals to alternative settings in lieu of another disciplinary action, disaggregated by race and ethnicity, gender, age, grade level, whether a student is an English learner, incident type, and discipline duration.

(b) The State Board of Education shall analyze the data under subsection (a) of this Section on an annual basis and determine the top 20% of school districts for the following metrics:
(1) Total number of out-of-school suspensions divided by the total district enrollment by the last school day in September for the year in which the data was collected, multiplied by 100.

(2) Total number of out-of-school expulsions divided by the total district enrollment by the last school day in September for the year in which the data was collected, multiplied by 100.

(3) Racial disproportionality, defined as the overrepresentation of students of color or white students in comparison to the total number of students of color or white students on October 1st of the school year in which data are collected, with respect to the use of out-of-school suspensions and expulsions, which must be calculated using the same method as the U.S. Department of Education’s Office for Civil Rights uses.

The analysis must be based on data collected over 3 consecutive school years, beginning with the 2014-2015 school year.

Beginning with the 2017-2018 school year, the State Board of Education shall require each of the school districts that are identified in the top 20% of any of the metrics described in this subsection (b) for 3 consecutive years to submit a plan identifying the strategies the school district will implement to reduce the use of exclusionary disciplinary practices or racial disproportionality or both, if applicable. School districts that no longer meet the criteria described in any of the metrics described in this subsection (b) for 3 consecutive years shall no longer be required to submit a plan.

This plan may be combined with any other improvement plans required under federal or State law.

The calculation of the top 20% of any of the metrics described in this subsection (b) shall exclude all school districts, State-authorized charter schools, and special charter districts that issued fewer than a total of 10 out-of-school suspensions or expulsions, whichever is applicable, during the school year. The calculation of the top 20% of metric described in subdivision (3) of this subsection (b) shall exclude all school districts with an enrollment of fewer than 50 white students or fewer than 50 students of color.

The plan must be approved at a public school board meeting and posted on the school district’s Internet website. Within one year after being identified, the school district shall submit to the State Board of Education and post on the district’s Internet website a progress report describing the implementation of the plan and the results achieved.

§ 105 ILCS 5/2-3.130. Time out and physical restraint rules.

The State Board of Education shall promulgate rules governing the use of time out and physical restraint in the public schools. The rules shall include provisions governing recordkeeping that is required when physical restraint or more restrictive forms of time out are used.

(a) To establish and maintain a parent-teacher advisory committee to develop with the school board or governing body of a charter school policy guidelines on pupil discipline, including school searches and bullying prevention as set forth in Section 27-23.7 of this Code. School authorities shall furnish a copy of the policy to the parents or guardian of each pupil within 15 days after the beginning of the school year, or within 15 days after starting classes for a pupil who transfers into the district during the school year, and the school board or governing body of a charter school shall require that a school inform its pupils of the contents of the policy. School boards and the governing bodies of charter schools, along with the parent-teacher advisory committee, must annually review their pupil discipline policies, the implementation of those policies, and any other factors related to the safety of their schools, pupils, and staff.

(a) As used in this Section:
“Chronic absence” means absences that total 10% or more of school days of the most recent academic school year, including absences with and without valid cause, as defined in Section 26-2a of this Code, and out-of-school suspensions for an enrolled student.

“Student” means any enrolled student that is subject to compulsory attendance under Section 26-1 of this Code but does not mean a student for whom a documented homebound or hospital record is on file during the student's absence from school.

(b) The General Assembly finds that:

(1) The early years are a critical period in children's learning and development. Every child should be counted present every day. Every day of school matters.

(2) Being absent too many days from school can make it difficult for students to stay on-track academically and maintain the momentum to graduate from high school in order to be college-or career-ready.

(3) Every day of school attendance matters for all students and their families. It is crucial, therefore, that the implications of chronic absence be understood and reviewed regularly.

(c) Beginning July 1, 2018, every school district, charter school, or alternative school or any school receiving public funds shall collect and review its chronic absence data and determine what systems of support and resources are needed to engage chronically absent students and their families to encourage the habit of daily attendance and promote success. The review shall include an analysis of chronic absence data from each attendance center or campus of the school district, charter school, or alternative school or other school receiving public funds.

(d) School districts, charter schools, or alternative schools or any school receiving public funds are encouraged to provide a system of support to students who are at risk of reaching or exceeding chronic absence levels with strategies such as those available through the Illinois Multi-tiered Systems of Support Network. Schools additionally are encouraged to make resources available to families such as those available through the State Board of Education's Family Engagement Framework to support and engage students and their families to encourage heightened school engagement and improved daily school attendance.

(b) In this Section:

"Policy on bullying" means a bullying prevention policy that meets the following criteria:

(9) Is based on the engagement of a range of school stakeholders, including students and parents or guardians.

(11) As part of the process of reviewing and re-evaluating the policy under subsection (d) of this Section, contains a policy evaluation process to assess the outcomes and effectiveness of the policy that includes, but is not limited to, factors such as the frequency of victimization; student, staff, and family observations of safety at a school; identification of areas of a school where bullying occurs; the types of bullying utilized; and bystander intervention or participation. The school district, charter school, or non-public, non-sectarian elementary or secondary school may use relevant data and information it already collects for other purposes in the policy evaluation. The information developed as a result of the policy evaluation must be made available on the Internet website of the school district, charter school, or non-public, non-sectarian elementary or secondary school. If an Internet website is not available, the information must be provided to school administrators, school board members, school personnel, parents, guardians, and students.

(d) As used in this Section, "student booking station" means a building, office, room, or any indefinitely established space or site, mobile or fixed, which operates concurrently as:
   (1) predominantly or regularly a place of operation for a municipal police department, county sheriff department, or other law enforcement agency, or under the primary control thereof; and

Such list shall include the names and addresses of pupils formerly in attendance, the names and addresses of persons having custody or control of such pupils, the reason, if known, such pupils are no longer in attendance and the date of removal from the attendance rolls. The list shall also include the names of: pupils whose withdrawal is due to extraordinary circumstances, including but not limited to economic or medical necessity or family hardship, as determined by the criteria established by the school district; pupils who have re-enrolled in school since their names were removed from the attendance rolls; any pupil certified to be a chronic or habitual truant, as defined in Section 26-2a; and pupils previously certified as chronic or habitual truants who have resumed regular school attendance. The regional superintendent shall inform the county or district truant officer who shall investigate to see that such pupils are in compliance with the requirements of this Article.

Each local school district shall establish, in writing, a set of criteria for use by the local superintendent of schools in determining whether a pupil's failure to attend school is the result of extraordinary circumstances, including but not limited to economic or medical necessity or family hardship.

If a pupil re-enrolls in school after his or her name was removed from the attendance rolls or resumes regular attendance after being certified a chronic or habitual truant, the pupil must obtain and forward to the Secretary of State, on a form designated by the Secretary of State, verification of his or her re-enrollment. The verification may be in the form of a signature or seal or in any other form determined by the school board.

The State Board of Education shall, if possible, make available to any person, upon request, a comparison of dropout rates before and after the effective date of this amendatory Act of the 94th General Assembly.

§ 105 ILCS 5/ 26-5. Duties of truant officers.
The truant officer of the school district, whenever notified by the Superintendent, teacher, or other person of violations of this Article, or the county truant officer, when notified by the County Superintendent, shall investigate all cases of truancy or non-attendance at school in their respective jurisdictions, and if the children complained of are not exempt under the provisions of this Article, the truant officer shall proceed as is provided in this Article. If any person fails to send any child under his custody or control to some lawful school, the truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee shall, as soon as practicable after he is notified thereof, give notice in person or by mail to such person that such child shall be present at the proper public school on the day following the receipt of such notice. The notice shall state the date that attendance at school must begin and that such attendance must be continuous and consecutive in the district during the remainder of the school year. The truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee shall at the same time that such notice is given notify the teacher or superintendent of the proper public school thereof and the teacher or superintendent shall notify the truant officer or regional superintendent of schools of any non-compliance therewith.

A truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee, after giving the notice provided in Section 26-7, shall determine whether the notice has been complied with. If 3 notices have been given and the notices have not been complied with, and if the persons having custody or control have knowingly and willfully permitted the truant behavior to continue, the regional superintendent of schools, or his or her designee, of the school district where the child resides shall conduct a truancy hearing. If the regional superintendent determines as a result of the hearing that the child is truant, the regional superintendent shall, if age appropriate at the discretion of the regional superintendent, require the student to complete 20 to 40 hours of community service over a period of 90 days. If the truancy persists, the regional superintendent shall (i) make complaint against the persons having custody or control to the state’s attorney or in the circuit court in the county where such person resides for failure to comply with the provisions of this Article or (ii) conduct truancy mediation and encourage the student to enroll in a graduation incentives program under Section 26-16 of this Code. If, however, after giving the notice provided in Section 26-7 the truant behavior has continued, and the child is beyond the control of the parents, guardians or custodians, a truancy petition shall be filed under the provisions of Article III of the Juvenile Court Act of 1987.

§ 105 ILCS 5/26-8a. [Court petition content]
The petition for court action shall include the name of the truant minor, the names and addresses of persons having custody or control of the student, the dates of the truant behavior, the dates and nature of contacts or conferences with the student and the persons having custody or control of the student, and the nature of the supportive services, alternative programs and other school resources the school district provided to that child in an effort to correct that child’s truant behavior.

§ 105 ILCS 5/26-8b. [Court petition filing]
When a petition is filed, it shall be set for an adjudicatory hearing within 10 days and acted upon within 30 days, subject to the provisions of the Juvenile Court Act or the Juvenile Court Act of 1987 if filed thereunder.

School officers, superintendents, teachers or other persons shall render such assistance and furnish such information as they have to aid truant officers in the performance of their duties.
§ 105 ILCS 5/26-10. Fine for noncompliance.
Any person having custody or control of a child subject to the provisions of this Article to whom notice has been given of the child's truancy and who knowingly and willfully permits such a child to persist in his truancy within that school year, upon conviction thereof shall be guilty of a Class C misdemeanor and shall be subject to not more than 30 days imprisonment and/or a fine of up to $500.

Any person who induces or attempts to induce any child to be absent from school unlawfully, or who knowingly employs or harbors, while school is in session, any child absent unlawfully from school for 3 consecutive school days, is guilty of a Class C misdemeanor.

Any dropout, as defined in Section 26-2a, who is 17 years of age may apply to a school district for status as a truant, and the school district shall permit such person to participate in the district's various programs and resources for truants. At the time of the person's application, the district may request documentation of his dropout status for the previous 6 months.

When a regional superintendent has reason to believe that a pupil is a truant minor as defined in Section 26-2a, the regional superintendent may report such pupil under the provisions of the Juvenile Court Act.

§ 105 ILCS 5/13A-1. Legislative Declaration.
The General Assembly finds and declares as follows:

REGULATIONS

205.20. Truants’ alternative and optional education programs - Purpose.
a) This Part establishes the procedure and criteria for approval of applications, submitted by eligible applicants to the State Board of Education, for grants to assist the applicants in establishing truants’ alternative and optional education programs as authorized in Section 2-3.66 of the School Code. [105 ILCS 5/2-3.66]
b) Programs funded under this grant shall serve students identified as one of the following:

1) a truant, as defined in Section 26-2a of the School Code [105 ILCS 5/26-2a]; or
2) a chronic or habitual truant, as defined in Section 26-2a of the School Code; or
3) a dropout, as defined in Section 26-2a of the School Code; or
4) a potential dropout, which is any student subject to compulsory attendance as defined in Article 26 of the School Code [105 ILCS 5/Art. 26] and whose school absences or pattern of school attendance impedes the student’s learning or contributes to the student’s failure to meet State and/or district learning standards. Attendance problems may include chronic truancy, truancy, selective absences, excessive absences or a pattern of absences or tardiness. In assessing whether marginal school attendance problems would place a student within the definition of “potential dropout,” consideration shall be given to a student’s personal involvement in the education process, apparent motivation to receive an education, or any continued and obvious apathy or disaffection for education, particularly, when indications of uninvolved, lack of motivation or disaffection are coupled with currently known individual or family circumstances that, if they remain unresolved, would be reasonably expected to result in escalating attendance problems. (Source: Amended at 25 Ill. Reg. 2399, effective January 25, 2001)
205.30. Truants’ alternative and optional education programs - Eligible applicants.

a) Proposals for grant awards under Section 2-3.66 of the School Code may be submitted only by public school districts, regional offices of education, public university laboratory schools approved by the State Board of Education pursuant to Section 18-8.05(K) of the School Code [105 ILCS 5/18-8.05(K)], charter schools, community college districts, or area vocational centers.

b) Joint applications for funds may be submitted. If a joint application is submitted, then an administrative agent shall be designated.

1) The superintendent from each of the participating school districts and the official authorized to submit a proposal on behalf of any other eligible entity as defined in subsection (a) of this Section shall sign the joint application.

2) A school district or other eligible entity shall only participate in one proposal for a program. (Source: Amended at 26 Ill. Reg. 882, effective January 15, 2002)

205.40. Truants’ alternative and optional education programs - Application procedure and content.

It is the intention of the State Board of Education to approve truants’ alternative and optional education programs for a three- year period. Funding for the second and third years of operation (i.e., beginning the year following the initial grant award) shall be contingent upon the availability of funds for the program, the grantee’s progress toward meeting its objectives, and the evidence presented in the proposal that a sufficient need continues to exist for the program (see Section 205.40(f) of this Part).

a) The State Board of Education will issue a Request for Proposals (RFP) specifying the information that applicants shall include in their proposals and requiring that proposals be submitted to the State Board of Education no later than the date specified in the RFP. The RFP shall provide at least 45 calendar days in which to submit proposals.

b) Each RFP shall indicate the descriptive information (e.g., needs assessment, community-based planning procedures, indicators used to identify students for the program, program objectives and activities, individualized optional education plan development, means of evaluation) that initial applicants will be required to provide about their proposed programs. Initial applicants are those that did not receive funding under this Part for a truants’ alternative and optional education program in the year previous to an application or that are completing the last year in a three-year funding cycle.       the previous year's experience, then the grantee has provided its rationale for such deletion or
      change and has described how the program's goals for the renewal period will be met in light of the
      change.

c) The selection of proposals for funding may be based in part on geographic distribution and/or the need
to provide resources to public school districts and communities with varying demographic characteristics.

b) the program needs, resources, and amounts requested in the top-ranked proposals determined pursuant to Section 205.50(a) and (b) of this Part; and

c) the need to assure delivery of truancy prevention services and truants' alternative and optional education programs on a statewide basis and in a manner that will have the greatest impact in preventing truancy and students from dropping out of school.

c) Orders for payment will be submitted to the Office of the Comptroller by the State Board of Education according to a negotiated payment schedule. Payments may be reduced from scheduled amounts if periodic reports show excessive cash on hand.

d) The grantee may operate its own program or enter into a subcontract with another not-for-profit entity to implement the program.

e) Grant recipients must submit a final project report to the State Board of Education within 30 days after the ending date of the grant period.

f) An approved budget may be amended by completing an amendment to the approved budget, using forms supplied by the State Board of Education, to show the new amounts required and attaching an explanation for the changes. A budget amendment is necessary whenever an approved individual line item changes by more than $1,000 or 20 percent (whichever is larger) from the approved budget. A budget amendment must also be submitted for approval when a grantee proposes to use funds for allowable expenditures not identified in the approved budget. Changes will be approved if the proposed distribution of resources or activities would have been approvable within the original application.

g) The annual RFP shall indicate the proportion of grant funds that can be used for administrative expenses.

Indiana
Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

the rules. The board shall include in its rules provisions regulating the loading and unloading of pupils
from a school bus stopped on the highway during a period of reduced highway visibility caused by fog,
snow or other weather conditions. The board shall have the authority to include in its rules provisions
allowing school corporation employees to use school credit cards to pay for the actual and necessary
expenses incurred in the performance of work-related duties.

Employees of a school corporation maintaining a high school who have the custody of funds belonging to
the corporation or funds derived from extracurricular activities and other sources in the conduct of their
duties, shall be required to furnish suitable bond indemnifying the corporation or any activity group
connected with the school against loss, and employees who have the custody of property belonging to
the corporation or any activity group connected with the school may be required to furnish such bond.
Said bond or bonds may be in such form and penalty as the board may approve and the premiums on
same shall be paid from the general fund of the corporation.

279.58. School dress code policies.

2. The board of directors of a school district may adopt, for the district or for an individual school within
the district, a dress code policy that prohibits students from wearing gang-related or other specific apparel

operation of the school. Adoption and enforcement of a dress code policy is not a violation of section
280.22.

279.66. Discipline and personal conduct standards.

3. Policy. On or before September 1, 2007, the board of directors of a school district and the authorities in charge of each accredited nonpublic school shall adopt a policy declaring harassment and bullying in schools, on school property, and at any school function, or school-sponsored activity regardless of its location, in a manner consistent with this section, as against state and school policy.

LAWS
1. An employee of an accredited public school district, accredited nonpublic school, or area education agency shall not inflict, or cause to be inflicted, corporal punishment upon a student. For purposes of this

The department of education shall adopt rules to implement this section.

REGULATIONS

In conjunction with Iowa Code section 280.21, the purpose of this chapter is to define and exemplify generally the limitations placed on employees of public schools, accredited nonpublic schools, and area education agencies in applying physical contact or force to enrolled students, and to require that any such force or contact is reasonable and necessary under the circumstances. These rules also provide requirements for administrators and staff of public schools, accredited nonpublic schools, and area education agencies regarding the use of physical restraints and physical confinement and detention. The applicability of this chapter to physical restraint or physical confinement and detention does not depend on the terminology employed by the organization to describe physical restraint or physical confinement and detention.

281-103.2(256B,280). Ban on corporal punishment.
An employee of a public school district, accredited nonpublic school, or area education agency shall not inflict, or cause to be inflicted, corporal punishment upon a student. "Corporal punishment" is defined to mean the intentional physical punishment of a student. It includes the use of unreasonable or unnecessary physical force, or physical contact made with the intent to harm or cause pain.

281-103.3(256B,280). Exclusions.
Corporal punishment does not include the following:

1. Verbal recrimination or chastisement directed toward a student;
2. Reasonable requests or requirements of a student engaged in activities associated with physical education class or extracurricular athletics;
3. Actions consistent with and included in an individualized education program developed under the Individuals with Disabilities Education Act, as reauthorized, Iowa Code chapter 256B, and 281-Chapter 41; however, under no circumstance shall an individualized education program violate the provisions of this chapter;
4. Reasonable periods of detention, not in excess of school hours, or brief periods of before- and after-school detention, in a seat, classroom or other part of a school facility, unless the detention is accomplished by the use of material restraints applied to the person. If detention meets this chapter’s definition of "physical confinement and detention," the provisions of this chapter on physical confinement and detention must be followed. For purposes of this chapter, material restraints do not include devices, objects, or techniques required or ordered for reasons of safety (e.g., safety harnesses on school buses) or for therapeutic or medical treatment (e.g., devices used for physical or occupational therapy), provided those devices, objects, or techniques are so used, and used for no other purpose;
5. Actions by an employee subject to these rules toward a person who is not a student of the school or receiving the services of an area education agency employing or utilizing the services of the employee.

Notwithstanding rule 103.2(256B,280), no employee subject to these rules is prohibited from:
1. Using reasonable and necessary force, not designed or intended to cause pain, in order to accomplish any of the following:
   - To quell a disturbance or prevent an act that threatens physical harm to any person.
   - To obtain possession of a weapon or other dangerous object within a pupil's control.
   - For the purposes of self-defense or defense of others as provided for in Iowa Code section 704.3.

   - To prevent a student from the self-infliction of harm.

**808A.2. Searches of students, protected student areas, lockers, desks, and other facilities or spaces.**

1. The school board of each public school and the authorities in charge of each nonpublic school shall establish and may search a student or protected student area pursuant to a student search rule. The student search rule shall be published in each public school's and each nonpublic school's student handbook. A school official may search individual students and individual protected student areas if both of the following apply:
   a. The official has reasonable grounds for suspecting that the search will produce evidence that a student has violated or is violating either the law or a school rule or regulation.
   b. The search is conducted in a manner which is reasonably related to the objectives of the search and which is not excessively intrusive in light of the age and gender of the student and the nature of the infraction.

2. School officials may conduct periodic inspections of all, or a randomly selected number of, school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student. The furnishing of a school locker, desk, or other facility or space owned by the school and provided as a courtesy to a student shall not create a protected student area, and shall not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. Allowing students to use a separate lock on a locker, desk, or other facility or space owned by the school and provided to the student shall also not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. However, each year when school begins, the school district shall provide written notice to all students and the students' parents, guardians, or legal custodians, that school officials may conduct periodic inspections of school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student without prior notice. An inspection under this subsection shall either occur in the presence of the students whose lockers are being inspected or the inspection shall be conducted in the presence of at least one other person.

However, the superintendent or chief administering officer of a school or school district may modify expulsion requirements on a case-by-case basis. This section shall not be construed to prevent the board of directors of a school district or the authorities in charge of a nonpublic school that have expelled a student from the student’s regular school setting from providing educational services to the student in an alternative setting. If both this section and section 282.4 apply, this section takes precedence over section 282.4. For purposes of this section, “weapon” means a firearm as defined in 18 U.S.C. § 921. REGULATIONS

In conjunction with Iowa Code section 280.21, the purpose of this chapter is to define and exemplify generally the limitations placed on employees of public schools, accredited nonpublic schools, and area education agencies in applying physical contact or force to enrolled students, and to require that any such
force or contact is reasonable and necessary under the circumstances. These rules also provide requirements for administrators and staff of public schools, accredited nonpublic schools, and area education agencies regarding the use of physical restraints and physical confinement and detention. The applicability of this chapter to physical restraint or physical confinement and detention does not depend on the terminology employed by the organization to describe physical restraint or physical confinement and detention.

281-103.5(256B,280). Reasonable force.
In determining the reasonableness of the physical force used by a school employee, the following factors shall be applied:

1. The size and physical, mental, and psychological condition of the student;
2. The nature of the student’s behavior or misconduct provoking the use of physical force;
3. The instrumentality used in applying the physical force;
4. The extent and nature of resulting injury to the student, if any;
5. The motivation of the school employee using physical force.

Reasonable physical force, privileged at its inception, does not lose its privileged status by reasons of an injury to the student, not reasonably foreseeable or otherwise caused by intervening acts of another, including the student.

281-103.6(256B,280). Physical confinement and detention.
If a student is physically confined and detained in a portion of a school facility, the following conditions shall be observed. For the purposes of this chapter, “physical confinement and detention” means the confinement of a student in a time-out room or some other enclosure, whether within or outside the classroom, from which the student’s egress is restricted.

1. The area of confinement and detention shall be of reasonable dimensions, and shall be free from hazards and dangerous objects or instruments, considering the age, size, and physical and mental condition of the student subject to confinement and detention;
2. There shall be sufficient light and adequate ventilation for human habitation;
3. A comfortable temperature shall be maintained, consistent with the facility that includes the confinement and detention area;
4. Reasonable break periods shall be afforded the student to attend to bodily needs. However, sleep shall not be considered a “bodily need” for purposes of this subrule;
5. The period of detention and confinement is reasonable, considering the age, size, and physical and mental condition of the student subject to confinement and detention, and not in excess of the hours in a school day as defined by local board policy or rule; however, reasonable periods of before- and after-school detention are permissible. If a period of physical confinement and detention exceeds the shorter of 60 minutes or the school’s typical class period, staff members shall evaluate the continued need for physical confinement and detention, shall obtain administrator (or designee) approval for any continued confinement and detention, and shall comply with any administrator (or designee) directives concerning any continued confinement and detention;
6. Adequate and continuous adult supervision is provided;
7. Material restraints applied to the person are not used to effect confinement;
8. If a room or enclosure used for physical confinement and detention has a locking mechanism, such room and mechanism shall comply with all applicable building code requirements and the following additional requirements:
If a locking mechanism is used, it shall be constructed so it will engage only when a handle, knob, or other device is held in position by a person, unless the mechanism is electrically or electronically controlled and automatically releases when the building’s fire alarm system is activated, the building’s severe weather warning system is activated, or electrical power to the mechanism is interrupted.

When the locking mechanism is released, the door must be able to be readily opened from the inside.

If a locking mechanism requires a handle, knob, or other device to be held in position by a person before the mechanism is engaged, no person shall take any action, or cause such action to be taken, or employ any object, device, or instrument, or cause such to be employed, that disables the handle, knob, or other device such that the locking mechanism engages or remains engaged without the handle, knob, or other device being held in position by a person.

281-103.7(256B,280). Additional minimum mandatory procedures.

If a public school, accredited nonpublic school, or area education agency seeks to use physical restraint or physical confinement and detention, or both, it shall do so in compliance with the minimum requirements of this chapter. The board of a public school, accredited nonpublic school, or area education agency may adopt policies and procedures regarding the use of physical restraint or physical confinement and detention, or both, that exceed the minimum requirements contained in this chapter. Additional minimum mandatory procedures are as follows:

1. Physical restraint and physical confinement and detention shall not be used as discipline for minor infractions and may be used only after other disciplinary techniques have been attempted, if reasonable under the circumstances;

2. All school employees, before using physical restraint or physical confinement and detention, shall receive adequate and periodic training, which shall be documented and which shall include training on these rules and the employer’s policies and procedures; positive behavior interventions and supports; disciplinary alternatives to seclusion and restraint; crisis prevention, crisis intervention, and crisis de-escalation techniques; student and staff debriefing; and the safe and effective use of physical restraint and physical confinement and detention;

3. Parents and students are notified at least annually of the provisions of this chapter and of any additional policies and procedures of the public school, accredited nonpublic school, or area education agency on physical restraint and physical confinement and detention;

4. Any physical restraint shall be reasonable and necessary in duration, in light of the provisions of this chapter;

5. If a student is subjected to physical restraint or physical confinement and detention, the public school, accredited nonpublic school, or area education agency shall maintain documentation for each such occurrence, which shall contain at least the following information:
   - The names of the student and the employees involved in the restraint, confinement, or detention, as well as the administrator who authorizes any additional periods of confinement or detention pursuant to numbered paragraph “5” of rule 103.6(256B,280);
   - The date, time, and duration of the occurrence;
   - The actions of the student before, during, and after the occurrence;
   - The actions of the employees involved in the occurrence before, during, and after the occurrence, including student and staff debriefing;
   - The alternatives to physical restraint or physical confinement and detention attempted before the occurrence;
   - A description of any injuries (whether to the student or others) and any property damage;
A description of future approaches to the student’s behavior;

6. The public school, accredited nonpublic school, or area education agency shall attempt to notify a child’s parent or guardian on the same day the child is subjected to physical restraint or physical confinement and detention; and

7. The student’s parent or guardian must be provided a written copy of the documentation required by numbered paragraph “5” of this rule, which shall be postmarked within three school days of the occurrence. The student’s parent or guardian may elect, in writing, to receive the communication required by this numbered paragraph via electronic mail or facsimile transmission.

281-103.8(256B,280). Additional provisions concerning physical restraint.

If an employee of a public school, accredited nonpublic school, or area education agency employs physical restraint, the following provisions shall apply:

1. No employee shall use any prone restraints. For the purposes of this rule, “prone restraints” means those in which an individual is held face down on the floor. Employees who find themselves involved in the use of a prone restraint as the result of responding to an emergency must take immediate steps to end the prone restraint;

2. No employee shall use any restraint that obstructs the airway of any child;

3. If an employee physically restrains a student who uses sign language or an augmentative mode of communication as the student’s primary mode of communication, the student shall be permitted to have the student’s hands free of restraint for brief periods, unless an employee determines that such freedom appears likely to result in harm to self or others;

4. Nothing in this rule shall be construed as limiting or eliminating any immunity conferred by Iowa Code section 280.21 or any other provision of law;

5. An agency covered by this chapter shall investigate any complaint or allegation that one or more of its employees violated one or more of the provisions of this chapter. If an agency covered by this chapter determines that one or more of its employees violated one or more of the provisions of this chapter, the agency shall take appropriate corrective action. If any allegation involves a specific student, the agency shall transmit to the parents of the student the results of its investigation, including, to the extent permitted by law, any required corrective action;

6. If any alleged violation of this chapter is also an allegation of “abuse” as defined in rule 281-102.2(280), the procedures in 281-Chapter 102 shall be applicable.

However, the superintendent or chief administering officer of a school or school district may modify expulsion requirements on a case-by-case basis. This section shall not be construed to prevent the board of directors of a school district or the authorities in charge of a nonpublic school that have expelled a student from the student's regular school setting from providing educational services to the student in an alternative setting. If both this section and section 282.4 apply, this section takes precedence over section 282.4. For purposes of this section, “weapon” means a firearm as defined in 18 U.S.C. § 921. 282.18. Open enrollment.
1.
   a. It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.
   b. For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent’s or guardian’s child in a public school in another school district in the manner provided in this section.
2.
a. By March 1 of the preceding school year for students entering grades one through twelve, or by September 1 of the current school year for students entering kindergarten, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that the parent or guardian intends to enroll the parent’s or guardian’s child in a public school in another school district. If a parent or guardian fails to file a notification that the parent intends to enroll the parent’s or guardian’s child in a public school in another district by the deadline specified in this subsection, the procedures of subsection 4 apply.

b. The board of the receiving district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district has insufficient classroom space for the pupil. The board of directors of a receiving district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action, but not later than June 1 of the preceding school year. The parent or guardian may withdraw the request at any time prior to the start of the school year. A denial of a request by the board of a receiving district is not subject to appeal.

c. Every school district shall adopt a policy which defines the term “insufficient classroom space” for that district.

3.  

a. The superintendent of a district subject to a voluntary diversity or court-ordered desegregation plan, as recognized by rule of the state board of education, may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district’s implementation of the desegregation order or diversity plan, unless the transfer is requested by a pupil whose sibling is already participating in open enrollment to another district, or unless the request for transfer is submitted to the district in a timely manner as required under subsection 2 prior to the adoption of a desegregation plan by the district. If a transfer request would facilitate a voluntary diversity or court-ordered desegregation plan, the district shall give priority to granting the request over other requests.

b. A parent or guardian, whose request has been denied because of a desegregation order or diversity plan, may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent’s decision. A decision of the board to uphold the denial of the request is subject to appeal to the district court in the county in which the primary business office of the district is located. The state board of education shall adopt rules establishing definitions, guidelines, and a review process for school districts that adopt voluntary diversity plans. The guidelines shall include criteria and standards that school districts must follow when developing a voluntary diversity plan. The department of education shall provide technical assistance to a school district that is seeking to adopt a voluntary diversity plan. A school district implementing a voluntary diversity plan prior to July 1, 2008, shall have until July 1, 2009, to comply with guidelines adopted by the state board pursuant to this section.

c. The board of directors of a school district subject to voluntary diversity or court-ordered desegregation shall develop a policy for implementation of open enrollment in the district. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order or voluntary diversity plan and criteria for prioritizing requests that do not have an adverse impact on the order or plan.

4.  

a. After March 1 of the preceding school year and until the date specified in section 257.6, subsection 1, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that good cause, as defined in paragraph “b”, exists
for failure to meet the March 1 deadline. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline. The board of the receiving district shall take action to approve the request if good cause exists. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action. A denial of a request by the board of a receiving district is not subject to appeal.

b. For purposes of this section, "good cause" means a change in a child’s residence due to a change in family residence, a change in the state in which the family residence is located, a change in a child’s parents’ marital status, a guardianship or custody proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, a change in the status of a child’s resident district such as removal of accreditation by the state board, surrender of accreditation, or permanent closure of a nonpublic school, revocation of a charter school contract as provided in section 256F.8, the failure of negotiations for a whole grade sharing, reorganization, dissolution agreement or the rejection of a current whole grade sharing agreement, or reorganization plan. If the good cause relates to a change in status of a child’s school district of residence, however, action by a parent or guardian must be taken to file the notification within forty-five days of the last board action or within thirty days of the certification of the election, whichever is applicable to the circumstances.

c. If a resident district believes that a receiving district is violating this subsection, the resident district may, within fifteen days after board action by the receiving district, submit an appeal to the director of the department of education.

d. The director, or the director’s designee, shall attempt to mediate the dispute to reach approval by both boards as provided in subsection 14. If approval is not reached under mediation, the director or the director’s designee shall conduct a hearing and shall hear testimony from both boards. Within ten days following the hearing, the director shall render a decision upholding or reversing the decision by the board of the receiving district. Within five days of the director’s decision, the board may appeal the decision of the director to the state board of education under the procedures set forth in chapter 290.

5. Open enrollment applications filed after March 1 of the preceding school year that do not qualify for good cause as provided in subsection 4 shall be subject to the approval of the board of the resident district and the board of the receiving district. The parent or guardian shall send notification to the district of residence and the receiving district that the parent or guardian seeks to enroll the parent’s or guardian’s child in the receiving district. A decision of either board to deny an application filed under this subsection involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address is subject to appeal under section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

6. A request under this section is for a period of not less than one year. If the request is for more than one year and the parent or guardian desires to have the pupil enroll in a different district, the parent or guardian may petition the current receiving district by March 1 of the previous school year for permission to enroll the pupil in a different district for a period of not less than one year. Upon receipt of such a request, the current receiving district board may act on the request to transfer to the other school district at the next regularly scheduled board meeting after the receipt of the request. The new receiving district shall enroll the pupil in a school in the district unless there is insufficient classroom space in the district or unless enrollment of the pupil would adversely affect the court-ordered or voluntary desegregation plan of the district. A denial of a request to change district enrollment within the approved period is not subject to appeal. However, a pupil who has been in attendance in another district under this section may return to
the district of residence and enroll at any time, once the parent or guardian has notified the district of residence and the receiving district in writing of the decision to enroll the pupil in the district of residence.

7. A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil’s district of residence. A pupil’s residence, for purposes of this section, means a residence under section 282.1. The board of directors of the district of residence shall pay to the receiving district the sum of the state cost per pupil for the previous school year plus either the teacher leadership supplement state cost per pupil for the previous fiscal year as provided in section 257.9 or the teacher leadership supplement foundation aid for the previous fiscal year as provided in section 284.13, subsection 1, paragraph “e”, if both the district of residence and the receiving district are receiving such supplements, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year. If the pupil participating in open enrollment is also an eligible pupil under section 261E.6, the receiving district shall pay the tuition reimbursement amount to an eligible postsecondary institution as provided in section 261E.7.

8. If a request filed under this section is for a child requiring special education under chapter 256B, the request to transfer to the other district shall only be granted if the receiving district maintains a special education instructional program which is appropriate to meet the child’s educational needs and the enrollment of the child in the receiving district’s program would not cause the size of the class in that special education instructional program in the receiving district to exceed the maximum class size in rules adopted by the state board of education for that program. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

9.
   a. If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district’s academic year, the child’s first district of residence shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments during succeeding years.
   b. If a request to transfer is due to a change in family residence, change in the state in which the family residence is located, a change in a child’s parents’ marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, and the child who is the subject of the request is enrolled in any grade from kindergarten through grade twelve at the time of the request and is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child’s original district of residence under open enrollment with no interruption in the child’s kindergarten through grade twelve educational program. If a parent or guardian exercises this option, the child’s new district of residence is not required to pay the amount calculated in subsection 7 until the start of the first full year of enrollment of the child.
   c. The receiving district shall bill the first resident district according to the timeline in section 282.20, subsection 3. Payments shall be made to the receiving district in a timely manner.
   d. If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district’s area education agency. The receiving district shall forward a copy of the request to the receiving district’s area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district’s area education agency.
e. A district of residence may apply to the school budget review committee if a student was not included in the resident district's enrollment count during the fall of the year preceding the student's transfer under open enrollment.

10.  

a. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district. For purposes of this subsection, "a point on a regular school bus route of the receiving district" includes any school bus stop on the regular school bus route of the receiving district that existed prior to road construction that necessitates a change in the regular school bus route, whether or not the change in the regular school bus route resulting from the road construction necessitates sending school vehicles from the receiving district into the district of residence in order to safely, economically, or efficiently transport students to or from the preexisting point.

b. A receiving district may send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the boards of both the sending and receiving districts agree to this arrangement.

c. If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold, from the district cost per pupil amount that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

11. A pupil who participates in open enrollment for purposes of attending a grade in grades nine through twelve in a school district other than the district of residence is ineligible to participate in varsity interscholastic athletic contests and athletic competitions during the pupil's first ninety school days of enrollment in the district except that the pupil may participate immediately in a varsity interscholastic sport if the pupil is entering grade nine for the first time and did not participate in an interscholastic athletic competition for another school or school district during the summer immediately following eighth grade, if the district of residence and the other school district jointly participate in the sport, if the sport in which the pupil wishes to participate is not offered in the district of residence, if the pupil chooses to use open enrollment to attend school in another school district because the district in which the student previously attended school was dissolved and merged with one or more contiguous school districts under section 256.11, subsection 12, if the pupil participates in open enrollment because the pupil's district of residence has entered into a whole grade sharing agreement with another district for the pupil's grade, or if the parent or guardian of the pupil participating in open enrollment is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services, or if the district of residence determines that the pupil was previously subject to a founded incident of harassment or bullying as defined in section 280.28 while attending school in the district of residence. A pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil's district of residence for at least one school year is also eligible to participate immediately in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that pupil had attended. For purposes
of this subsection, “school days of enrollment” does not include enrollment in summer school. For purposes of this subsection, "varsity" means the same as defined in section 256.46.

12. If a pupil, for whom a request to transfer has been filed with a district, has been suspended or expelled in the district, the pupil shall not be permitted to transfer until the pupil has been reinstated in the sending district. Once the pupil has been reinstated, however, the pupil shall be permitted to transfer in the same manner as if the pupil had not been suspended or expelled by the sending district. If a pupil, for whom a request to transfer has been filed with a district, is expelled in the district, the pupil shall be permitted to transfer to a receiving district under this section if the pupil applies for and is reinstated in the sending district. However, if the pupil applies for reinstatement but is not reinstated in the sending district, the receiving district may deny the request to transfer. The decision of the receiving district is not subject to appeal.

13. If a request under this section is for transfer to a laboratory school, as described in chapter 265, the student, who is the subject of the request, shall not be included in the basic enrollment of the student’s district of residence, and the laboratory school shall report the enrollment of the student directly to the department of education, unless the number of students from the district attending the laboratory school during the current school year, as a result of open enrollment under this section, exceeds the number of students enrolled in the laboratory school from that district during the 1989-1990 school year. If the number of students enrolled in the laboratory school from a district during the current year exceeds the number of students enrolled from that district during the 1989-1990 school year, those students who represent the difference between the current and the 1988-1989 school year enrollment figures shall be included in the basic enrollment of the students’ districts of residence and the districts shall retain any moneys received as a result of the inclusion of the student in the district enrollment. The total number of students enrolled at a laboratory school during a school year shall not exceed six hundred seventy students. The regents institution operating the laboratory school and the board of directors of the school district in the community in which the regents institution is located shall develop a student transfer policy designed to protect and promote the quality and integrity of the teacher education program at the laboratory school, the viability of the education program of the local school district in which the regents institution is located, and to indicate the order in which and reasons why requests to transfer to a laboratory school shall be considered. A laboratory school may deny a request for transfer under the policy. A denial of a request to transfer under this subsection is not subject to appeal under section 290.1.

14. An application for open enrollment may be granted at any time with approval of the resident and receiving districts.

15. 

a. If a request under this section is for transfer to the research and development school, as described in chapter 256G, the student who is the subject of the request shall be included in the basic enrollment of the student’s district of residence and the board of directors of the district of residence shall pay to the research and development school the state cost per pupil for the previous school year, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year.

b. Notwithstanding subsection 7, a district of residence shall not be required to pay the state cost per pupil for a student attending the research and development school during the school year beginning July 1, 2010, if the student was not included in the district of residence’s enrollment count for funding purposes in the school year beginning July 1, 2009.

16. 

a. The total enrollment of the research and development school shall be limited to six hundred fifty students.
b. Open enrollment requests accepted by the research and development school shall be limited to a five percent increase per year of students from each of the Cedar Falls community school district and the Waterloo school district over the previous year's enrollment at the research and development school.

c. The total number of students enrolled in the research and development school from the Cedar Falls community school district shall be limited to not more than ten percent of the total district enrollment of the Cedar Falls community school district.

d. Open enrollment requests accepted by the research and development school from a school district shall be limited to not more than two percent of a school district's previous year's total enrollment count. This subsection does not apply to the Cedar Falls community and Waterloo school districts.

17. The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.

299.1. Attendance requirements.

1. Except as provided in section 299.2, the parent, guardian, or legal or actual custodian of a child who is of compulsory attendance age shall cause the child to attend some public school or an accredited nonpublic school, or place the child under competent private instruction or independent private instruction in accordance with the provisions of chapter 299A, during a school year, as defined under section 279.10.

2. The board of directors of a public school district or the governing body of an accredited nonpublic school shall set the number of days or hours of required attendance for the schools under its control. The board of directors of a public school district or the governing body of an accredited nonpublic school may, by resolution, require attendance for the entire time when the schools are in session in any school year and adopt a policy or rules relating to the reasons considered to be valid or acceptable excuses for absence from school.

299.8. "Truant" defined.

Any child of compulsory attendance age who fails to attend school as provided in this chapter, or as required by the school board's or school governing body's attendance policy, or who fails to attend competent private instruction or independent private instruction under chapter 299A, without reasonable excuse for the absence, shall be deemed to be a truant. A finding that a child is truant, however, shall not by itself mean that the child is a child in need of assistance within the meaning of chapter 232 and shall not be the sole basis for a child in need of assistance petition.

The board of directors of a public school district or the authorities in charge of an accredited nonpublic school shall prescribe reasonable rules for the punishment of truants.

299.10. Truancy officers - appointment.

The board of each school district may appoint a truancy officer. The board of each school district, which does not appoint a truancy officer for the district, shall designate a suitable person to collect information on the numbers of children in the district who are truant.

The board may appoint a member of the police force, marshal, teacher, school official, or other suitable person to serve as the district truancy officer.

299.11. Duties of truancy officer.

The truancy officer may take into custody without warrant any apparently truant child and place the child in the charge of the school principal, or the principal's designee, designated by the board of directors of the school district in which the child resides, or of any nonpublic school designated by the parent,
guardian, or legal or actual custodian; but if it is other than a public school, the instruction and maintenance of the child shall be without expense to the school district. If a child is taken into custody under this section, the truancy officer shall make every reasonable attempt to immediately notify the parent, guardian, or legal or actual custodian of the child’s location.

299.12. Violation of attendance policy - attendance cooperation meeting - agreement.
1. For the purposes of this section, “school truancy officer” means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.
2. This section is not applicable to a child who is receiving competent private instruction or independent private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance with the attendance requirements established under section 299.1, and has not completed educational requirements through the sixth grade, and the school has used every means available to assure the child does attend, the school truancy officer shall contact the child’s parent, guardian, or legal or actual custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation meeting may include the child and shall include the child’s parent, guardian, or legal or actual custodian and the school truancy officer. The school truancy officer contacting the participants in the attendance cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney or the county attorney’s designee, or other persons deemed appropriate to participate in the attendance cooperation meeting.
3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to attempt to ascertain the cause of the child’s nonattendance, to cause the parties to arrive at an agreement relative to addressing the child’s attendance, and to initiate referrals to any services or counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall be reduced to writing in an attendance cooperation agreement and signed by the parties to the agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth the cause identified for the child’s nonattendance and future responsibilities of each party.
4. If the parties to an attendance cooperation meeting determine that a monitor would improve compliance with the attendance cooperation agreement, the parties may designate a person to monitor the agreement. The monitor shall be a designee of the public school board or governing body of the accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to the agreement and receives a written authorization for access to confidential information and for performing monitor activities from the child’s parent, guardian, or custodian. A monitor shall contact parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor performance of the agreement.
5. If the parties fail to enter into an attendance cooperation agreement, or the child’s parent, guardian, or custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate in an attendance cooperation meeting, the child shall be deemed to be truant.
6. A public school board or governing body of an accredited nonpublic school shall exercise the authority granted under this section as a means of increasing and ensuring school attendance of young children, as education is a critical element in the success of individuals and good attendance habits should be developed and reinforced at an early age.

299.15. Reports by school officers and employees.
All school officers and employees shall promptly report to the secretary of the school corporation any violations of the truancy law of which they have knowledge, and the secretary shall inform the president of the board of directors who shall, if necessary, call a meeting of the board to take such action thereon as the facts justify.
REGULATIONS

281-17.1(282). Intent and purpose.
It is the intent of Iowa Code section 282.18 to maximize parental choice in providing a wide range of educational opportunities which are not available for pupils because of where they live. It is the purpose of this chapter to give guidance and direction to parents/guardians, public school district administrators and boards in making quality decisions regarding school district choice for the education of pupils.

281-17.2(282). Definitions
For the purpose of this chapter the indicated terms are defined as follows:

“Alternative receiving district” means a district to which a parent/guardian petitions for the open enrollment of a pupil from a receiving district. An alternative receiving district could be the district of residence of the parents/guardians.

“Attendance center” means a public school building that contains classrooms used for instructional purposes for elementary, middle, or secondary school students.

“Court-ordered desegregation plan” means a plan that is under direct court order to avoid racial isolation in the district.

“Department” means the department of education.

“Director” means the director of the department of education or the director’s designee.

“Diversity plan” or “voluntary diversity plan” means a plan that is voluntarily adopted by a local school board to promote diversity and to avoid minority student isolation in the district.

“Eligible district” means a school district whose board had adopted a voluntary desegregation plan under this chapter prior to June 28, 2007.

“Minority student” shall be defined by a local school board in its diversity plan, and may include consideration of any one characteristic or a combination of any of the following characteristics except that race may not be either the sole or the determinative characteristic: socioeconomic status, ethnicity/national origin, English language learner status, or race.

“Open enrollment” is the procedure allowing a parent/guardian to enroll one or more pupils in a public school district other than the district of residence at no tuition cost.

“Receiving district” is the public school district in which a parent/guardian desires to have the pupil enrolled or the district accepting the application for enrollment of a pupil under the provisions of Iowa Code section 282.18.

“Resident district” is the district of residence for school purposes of the parent/guardian and the district in which an open enrollment pupil shall be counted for the purpose of generating state aid regardless of the district in which the pupil is enrolled.

“Sending district” is synonymous with the term resident district.

“Sibling” means a child residing primarily in the same household as the child for whom an open enrollment request is filed and who is related by adoption, blood or marriage to the child for whom an open enrollment request is filed. “Sibling” also includes a foster child who is placed in the same household as the child for whom an open enrollment request is filed.

“Socioeconomic status” means the income level of a student or the student’s family, and shall be measured by whether a student or the student’s family meets the financial eligibility criteria for free meals or reduced price meals offered under the Child Nutrition Program.
281-17.3 (282). Application process.

The following procedure shall be used by parents/guardians and school districts in processing open enrollment applications.

(1) Parent/guardian responsibilities. On or before March 1 of the school year preceding the school year for which open enrollment is requested, a parent/guardian shall formally notify both the district of residence and the receiving district of the request for open enrollment. The request for open enrollment shall be made on forms provided by the department of education. Failure by the parent to send the form to the resident district and receiving district by the deadline may cause the application to be considered untimely. The parent/guardian is required to indicate on the form if the request is for a pupil requiring special education, as provided by Iowa Code chapter 256B. The forms for open enrollment application are available from each public school district and area education agency and from the state department of education.

(2) School district responsibilities.

a. The board of the resident district shall take no action on an open enrollment request except for a request made under rule 281-17.5(282) or 281-17.14(282).

b. The board of the receiving district shall act on an open enrollment request no later than June 1 of the school year preceding the school year for which the request is made.

   (1) The receiving district superintendent shall provide notification of either approval or denial of the request to the parent/guardian and to the resident district within five days of board action.

   (2) As an alternative procedure, the receiving board may by policy authorize the superintendent to approve, but not deny, applications filed on or before March 1. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline, but the board of the receiving district shall take action to approve the request if good cause exists. The board shall have the discretion to determine the scope of the authorization. The authorization may be for regular applications filed on or before March 1, good cause applications, and kindergarten applications filed on or before September 1, or any combination that the board determines. The same timelines for approval, forwarding, and notification shall apply.

c. The parent/guardian may withdraw an open enrollment request anytime prior to the first day of school in the resident district. After the first day of school, an open enrollment request can only be changed during the term of the approval by the procedures of subrules 17.8(4), 17.8(5), 17.8(6), and 17.8(7).

d. The board of the receiving district shall comply with the provisions of rule 281-17.11(282) if the application for open enrollment is for a pupil requiring special education as provided by Iowa Code chapter 256B.

e. Notification to parents.

   (1) By September 30 of each school year, all districts shall notify parents of the following:

   1. Open enrollment deadlines;

   2. Transportation assistance;

   3. That within 30 days of a denial of an open enrollment request by a district board of education, the parent/guardian may file an appeal with the state board of education only if the open enrollment request was based on repeated acts of harassment or a serious health condition of the pupil that the district cannot adequately address; and that all other denials must be appealed to the district court in the county in which the primary business office of the district is located; and

   4. Possible loss of athletic eligibility for open enrollment pupils.
(2) This notification may be published in a school newsletter, a newspaper of general circulation, a Web site, or a parent handbook provided to all patrons of the district. This information shall also be provided to any parent/guardian of a pupil who enrolls in the district during the school year.

(3) Exception to process when resident district is under voluntary or court-ordered desegregation. If the resident district has a voluntary or court-ordered desegregation plan requiring the district to maintain minority and nonminority student ratios, the request for open enrollment shall be filed solely with the district of residence on or before March 1 of the school year preceding the school year for which open enrollment is requested. The superintendent of the resident district may deny a request under this subrule unless the request is made on behalf of a student whose sibling already actively participates in open enrollment to the same receiving district to which open enrollment is sought for this student. A denial by the superintendent may be appealed to the board of the district in which the request was denied. A decision of the local board to uphold the denial may only be appealed to the district court in the county in which is located the primary business office of the district that upheld the denial of the open enrollment request.

281-17.5(282). Filing after the March 1 deadline-harassment or serious health condition.

A parent/guardian may apply for open enrollment after the filing deadline of March 1 of the school year preceding the school year for which open enrollment is requested if the parent's/guardian’s child is the victim of repeated acts of harassment or if the child has a serious health condition that the resident district cannot adequately address. If either of these conditions exists, the parent/guardian shall be permitted to apply for open enrollment by sending notification to both the resident and receiving districts.

(1) The board of the resident district shall act on the request within 30 days of its receipt. If the request is denied, the parent/guardian shall be notified by the district superintendent within 3 days following board action. If the request is approved, the district superintendent shall forward the approved application form to the receiving district within 5 days following board action and shall notify the parent/guardian within 3 days of this action. The board of the receiving district shall act to approve or deny an open enrollment request within 30 days following receipt of the notice of approval from the resident district. The receiving district superintendent shall provide notification of either approval or denial of the request to the parent/guardian and to the resident district within 15 days of board action.

(2) A denial by either board of a request made under this rule involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address may be appealed by a parent/guardian to the state board of education pursuant to Iowa Code section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

281-17.8 (282). Requirements applicable to parents/guardians and students.

(1) Expelled or suspended students. A pupil who has been suspended or expelled by action of the administration or board of the resident district shall not be permitted to enroll if an open enrollment request is filed until the pupil is reinstated for school attendance in the resident district. Once reinstated, the application for open enrollment shall be considered in the same manner as any other open enrollment request. If a pupil for whom an open enrollment request has been filed is subsequently expelled by action of the resident district board, the pupil may be denied enrollment by the receiving district board until the pupil is reinstated for school attendance by the resident district. The provisions of this subrule shall also apply to a pupil who has been suspended or expelled in a receiving district and is requesting open enrollment to an alternative receiving district or is seeking to return to the resident district as outlined in subrule 17.8(4).

(2) Restrictions on participation in interscholastic athletic contests and competitions. A pupil who changes school districts under open enrollment in any of the grades 9 through 12 shall not be eligible to participate
in varsity interscholastic athletic contests and competitions during the first 90 school days of enrollment. This restriction also shall apply to enrollments resulting from an approved petition filed by a parent/guardian to open enroll to an alternative receiving district and when the pupil returns to the district of residence using the process outlined in subrule 17.8(4). This 90-school-day restriction does not prohibit the pupil from practicing with an athletic team during the 90 school days of ineligibility. This 90-school-day restriction is not applicable to a pupil who:

a. Participates in an athletic activity in the receiving district that is not available in the district of residence.

b. Participates in an athletic activity for which the resident district and the receiving district have a “cooperative student participation agreement” in place as provided by rule 281-36.20(280).

c. Has paid tuition for one or more years to the receiving school district prior to making application and being approved for open enrollment.

d. Has attended the receiving district for one or more years, prior to making application and being approved for open enrollment, under a sharing or mutual agreement between the resident district and the receiving district.

e. Has been participating in open enrollment and whose parents/guardians move out of their district of residence but exercise the option of maintaining the open enrollment agreement as provided in subrule 17.8(6) except that the period of 90 school days of ineligibility shall apply to a pupil who open enrolls to another school district. If the pupil has established athletic eligibility under open enrollment, it is continued despite the parent’s or guardian’s change in residence.

f. Obtains open enrollment as provided in subrule 17.8(7) except that the period of 90 school days of ineligibility shall apply to a pupil who open enrolls to another school district.

g. Obtains open enrollment due to the dissolution and merger of the former district of residence under Iowa Code subsection 256.11(12).

h. Obtains open enrollment due to the pupil’s district of residence entering into a whole-grade sharing agreement on or after July 1, 1990, including the grade in which the pupil would be enrolled at the start of the whole-grade sharing agreement.

i. Participates in open enrollment and the parent/guardian is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services.

j. Open enrolls from a district of residence that has determined that the pupil was previously subject to a founded incident of harassment or bullying as defined in Iowa Code section 280.28 while attending school in the district of residence.

(4) Petition for attendance in an alternative receiving district. Once the pupil of a parent/guardian has been accepted for open enrollment, attendance in an alternative receiving district under open enrollment can be initiated by filing a petition for change with the receiving district. The petition shall be filed by the parent/guardian with the receiving district on or before March 1 of the year preceding the school year for which the change is requested. The timelines and notification requirements for such a request shall be the same as outlined in subrule 17.3(2). If the request is approved, the alternative district shall send notice of this action to the parent/guardian, to the original receiving district, and to the resident district of the pupil. Petitions for change shall be effectuated at the start of the next school year. As an alternative procedure, the receiving and alternative receiving district boards by mutual agreement may effectuate the change in enrollment of an open enrollment pupil at any time following receipt of a written request for such change which is approved by the two boards. The parent/guardian and the resident district board shall be notified of the approval and the date for change in open enrollment within 15 days of the mutual agreement action of the receiving and alternative receiving boards. A pupil in good standing may return to
the district of residence at any time following written notice from the parent/guardian to both the resident
district and the receiving district.

(5) Renewal of an open enrollment agreement. An open enrollment agreement shall remain in place
unless canceled by the parent/guardian or terminated as outlined in the provisions of subrule 17.8(10).

(6) Change in residence when participating in open enrollment. If the parent/guardian of a pupil who is
participating in open enrollment changes the school district of residence during the term of the
agreement, the parent/guardian shall have the option to leave the pupil in the receiving district under
open enrollment, to open enroll to another school district, or to enroll the pupil in the new district of
residence, thus terminating the open enrollment agreement. If the choice is to leave the pupil under open
enrollment or to open enroll to another school district, the original district of residence shall be responsible
for payment of the cost per pupil plus any applicable weightings or special education costs for the balance
of the school year, if any, in which the move took place, providing the move took place on or after the
date specified in Iowa Code section 257.6, subsection 1. The new district of residence shall be
responsible for these payments during succeeding years of the agreement. If the move takes place
between the end of one school year and the date specified in Iowa Code section 257.6, subsection 1, of
the following school year, the new district of residence shall be responsible for that year’s payment as
well as succeeding years. If the pupil is to remain under open enrollment or to open enroll to another
school district, the parent/guardian shall write a letter, delivered by mail or by hand on or before the date
specified in Iowa Code section 257.6, subsection 1, to notify the original resident district, the new resident
district, and the receiving district of this decision. Timely requests under this rule shall not be denied. If
the request is for a high school pupil, the pupil shall not be subject to the initial 90-school-day ineligibility
period of subrule 17.8(2).

(7) Change in residence when not participating in open enrollment. If a parent/guardian moves out of the
school district of residence, and the pupil is not currently under open enrollment, the parent/guardian has
the option for the pupil to remain in the original district of residence as an open enrollment pupil with no
interruption in the education program or to open enroll to another school district. This option is not
available to the parent/guardian of a student who is entering kindergarten for the first time. The
parent/guardian exercising this option shall file an open enrollment request form with the new district of
residence for processing and record purposes. This request shall be made on or before the date specified
in Iowa Code section 257.6, subsection 1. Timely requests under this subrule shall not be denied. If the
request is for a high school pupil, the pupil shall not be subject to the initial 90-school-day ineligibility
period of subrule 17.8(2). If the move is on or after the date specified in Iowa Code section 257.6,
subsection 1, the new district of residence is not required to pay per-pupil costs or applicable weighting or
special education costs to the receiving district until the first full year of the open enrollment.

(8) Pupil governance. An open enrollment pupil, and where applicable the pupil’s parent/guardian, shall
be governed by the rules and policies established by the board of directors of the receiving district. Any
complaint or appeal by the parent/guardian concerning the educational system, its process, or
administration in the receiving district shall be initially directed to the board of directors of that district in
compliance with the policy of that district.

(9) Appeal procedure. A parent/guardian may appeal the decision of the board of directors of a school
district (resident or receiving) only on an application for open enrollment under Iowa Code section
282.18(5) as amended by 2002 Iowa Acts, House File 2515. This appeal is to the state board of
education and shall comply with the provisions of Iowa Code section 290.1. The appeal shall be filed
within 30 days of the decision of the district board and shall be in the form of an affidavit signed by the
parent/guardian. It shall state in a plain and concise manner what the parent/guardian feels to be the
basis for appeal.

(10) Open enrollment termination. Open enrollment ends when:
a. The pupil graduates, moves into the receiving district, moves into a third district and does not elect to continue attending in the receiving district, moves out of state, elects to attend a nonpublic school instead of the receiving district, or any other circumstance not excepted below that results in the pupil no longer attending the receiving district.

LAWS

281-2.5(17A). Public participation.

(1) Written comments. For at least 20 days after publication of the Notice of Intended Action, persons may submit argument, data, and views, in writing, on the proposed rule. Such written submissions should identify the proposed rule to which they relate and should be submitted to Department of Education, Legal Consultant’s Office, Grimes State Office Building, Des Moines, Iowa 50319-0146, or the person designated in the Notice of Intended Action.

(2) Oral proceedings. The agency may, at any time, schedule an oral proceeding on a proposed rule. The agency shall schedule an oral proceeding on a proposed rule if, within 20 days after the published Notice of Intended Action, a written request for an opportunity to make oral presentations is submitted to the agency by the administrative rules review committee, a governmental subdivision, an agency, an association having not less than 25 members, or at least 25 persons. That request must also contain the following additional information:

A request by one or more individual persons must be signed by each of them and include the address and telephone number of each of them.

A request by an association must be signed by an officer or designee of the association and must contain a statement that the association has at least 25 members and the address and telephone number of the person signing that request.

A request by an agency or governmental subdivision must be signed by an official having authority to act on behalf of the entity and must contain the address and telephone number of the person signing that request.

(3) Conduct of oral proceedings.

a. Applicability. This subrule applies only to those oral rule-making proceedings in which an opportunity to make oral presentations is authorized or required by Iowa Code section 17A.4(1)"b" as amended by 1998 Iowa Acts, chapter 1202, section 8, or this chapter.

b. Scheduling and notice. An oral proceeding on a proposed rule may be held in one or more locations and shall not be held earlier than 20 days after notice of its location and time is published in the Iowa Administrative Bulletin. That notice shall also identify the proposed rule by ARC number and citation to the Iowa Administrative Bulletin.

c. Presiding officer. The agency, a member of the agency, or another person designated by the agency who will be familiar with the substance of the proposed rule, shall preside at the oral proceeding on a proposed rule. If the agency does not preside, the presiding officer shall prepare a memorandum for consideration by the agency summarizing the contents of the presentations made at the oral proceeding unless the agency determines that such a memorandum is unnecessary because the agency will personally listen to or read the entire transcript of the oral proceeding.

d. Conduct of proceeding. At an oral proceeding on a proposed rule, persons may make oral statements and make documentary and physical submissions, which may include data, views, comments or arguments concerning the proposed rule. Persons wishing to make oral presentations at such a proceeding are encouraged to notify the agency at least one business day prior to the proceeding and indicate the general subject of their presentations. At the proceeding, those who participate shall indicate their names and addresses, identify any persons or organizations they may represent, and provide any other information relating to their participation deemed appropriate by the
presiding officer. Oral proceedings shall be open to the public and shall be recorded by stenographic or electronic means.

(1) At the beginning of the oral proceeding, the presiding officer shall give a brief synopsis of the proposed rule, a statement of the statutory authority for the proposed rule, and the reasons for the agency decision to propose the rule. The presiding officer may place time limitations on individual oral presentations when necessary to ensure the orderly and expeditious conduct of the oral proceeding. To encourage joint oral presentations and to avoid repetition, additional time may be provided for persons whose presentations represent the views of other individuals as well as their own views.

(2) Persons making oral presentations are encouraged to avoid restating matters which have already been submitted in writing.

(3) To facilitate the exchange of information, the presiding officer may, where time permits, open the floor to questions or general discussion.

(4) The presiding officer shall have the authority to take any reasonable action necessary for the orderly conduct of the meeting.

(5) Physical and documentary submissions presented by participants in the oral proceeding shall be submitted to the presiding officer. Such submissions become the property of the agency.

(6) The oral proceeding may be continued by the presiding officer to a later time without notice other than by announcement at the hearing.

(7) Participants in an oral proceeding shall not be required to take an oath or to submit to cross-examination. However, the presiding officer in an oral proceeding may question participants and permit the questioning of participants by other participants about any matter relating to that rule-making proceeding, including any prior written submissions made by those participants in that proceeding; but no participant shall be required to answer any question.

(8) The presiding officer in an oral proceeding may permit rebuttal statements and request the filing of written statements subsequent to the adjournment of the oral presentations.

(4) Additional information. In addition to receiving written comments and oral presentations on a proposed rule according to the provisions of this rule, the agency may obtain information concerning a proposed rule through any other lawful means deemed appropriate under the circumstances.

(5) Accessibility. The agency shall schedule oral proceedings in rooms accessible to and functional for persons with physical disabilities. Persons who have special requirements should contact the Legal Consultant’s Office, Department of Education, Grimes State Office Building, Des Moines, Iowa 50319-0146, or telephone (515)281-5295 in advance to arrange access or other needed services.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

LAW

72-3433. Change in placement of child with disability to alternative setting as disciplinary action for certain behavior; duties of IEP team and hearing officer; behavioral assessment and intervention plan; determination and review procedure.

(a) School personnel may order a change in the placement of a child with a disability:

(1) To an appropriate interim alternative educational setting or other setting, or the short-term suspension of the child;

(2) to an appropriate interim alternative educational setting for not more than 45 school days if: (A) The child carries or possesses a weapon to, or at, school, on school premises, or to, or at, a school function under the jurisdiction of an agency; (B) the child knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of an agency; or (C) the child has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an agency; or

(d) If a disciplinary action is contemplated as described in subsection (a)(2) or (a)(3):

(1) Not later than the date on which the decision to take that action is made, the agency shall notify the parents of that decision and of all procedural safeguards afforded under K.S.A. 2012 Supp. 72-992a, and amendments thereto; and

(e) (1) The review described in subsection (d)(2) shall be conducted by the agency, the parent, and relevant members of the child's IEP team as determined by the parent and the agency. In carrying out the review, that group shall review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parent.

(2) Based upon its review of all the relevant information, the group shall determine if the conduct in question:
(A) Was caused by, or had a direct and substantial relationship to, the child's disability; or
(B) was the direct result of the agency's failure to implement the child's IEP.

(3) If it is determined that the conduct of the student is described in either paragraph (2)(A) or (2)(B) of this subsection, then the conduct shall be determined to be a manifestation of the child's disability.

(f) If it is determined that the conduct of a child was a manifestation of the child's disability, the IEP team shall:

(1) Conduct a functional behavioral assessment, and implement a behavioral intervention plan for such child, provided that the agency has not conducted such an assessment prior to the behavior that resulted in a change in placement;
(2) if the child already had a behavioral intervention plan, review and modify it, as necessary, to address the behavior; and
(3) except as provided in paragraph (a)(2), return the child to the placement from which the child was removed, unless the parent and the agency agree to a change of placement as part of the modification of the behavioral intervention plan.

(b) A hearing officer appointed under this act shall hear, and make the determination regarding, an appeal requested under subsection (a).
(c) In making the determination under subsection (b), the hearing officer may order a change in placement of the child. In such situations, the hearing officer may:

(2) If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary action described by this act, an evaluation shall be conducted in an expedited manner. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the school district and information provided by the parents, the school district shall provide special education and related services in accordance with the provisions of this act, except that, pending the results of the evaluation, the child shall remain in the educational placement determined by school authorities, which may be long-term suspension or expulsion from school.

(a) As authorized by K.S.A. 72-6115(a) and amendments thereto, school personnel may impose one or more short-term suspensions upon a child with a disability during a school year for violations of any school rule if these short-term suspensions do not constitute a pattern amounting to a change in placement for disciplinary reasons as specified in paragraph (a)(1)(B) of K.A.R. 91-40-33. (b) As authorized in K.S.A. 72-3433 and amendments thereto, school personnel may order a change in placement of a child with a disability to an interim alternative educational setting. (c) Gifted children shall be subject to suspension or expulsion from school as authorized by K.S.A. 72-6115 and amendments thereto. Administrative procedures related to suspension and expulsion

LAWS

72-6115. Duration of suspension or expulsion; notice; hearings, opportunity afforded, waiver, time, who may conduct.
(a) A suspension may be for a short term not exceeding 10 school days, or for an extended term not exceeding 90 school days. An expulsion may be for a term not exceeding 186 school days. If a suspension or expulsion is for a term exceeding the number of school days remaining in the school year, any remaining part of the term of the suspension or expulsion may be applied to the succeeding school year.

(b) (1) Except as authorized in provision (2), no suspension for a short term shall be imposed upon a pupil without giving the pupil notice of the charges and affording the pupil an opportunity for a hearing thereon. The notice may be oral or written and the hearing may be held immediately after the notice is given. The
hearing may be conducted informally but shall include the following procedural due process requirements:

(A) The right of the pupil to be present at the hearing; (B) the right of the pupil to be informed of the charges; (C) the right of the pupil to be informed of the basis for the accusation; and (D) the right of the pupil to make statements in defense or mitigation of the charges or accusations. Refusal of a pupil to be present at the hearing will constitute a waiver of the pupil's opportunity for a hearing.

(2) A short-term suspension may be imposed upon a pupil forthwith, and without affording the pupil a hearing if the presence of the pupil endangers other persons or property or substantially disrupts, impedes or interferes with the operation of the school.

c) A written notice of any short-term suspension and the reason therefor shall be given to the pupil involved and to the pupil's parent or guardian within 24 hours after the suspension has been imposed and, in the event the pupil has not been afforded a hearing prior to any short-term suspension, an opportunity for an informal hearing shall be afforded the pupil as soon thereafter as practicable but in no event later than 72 hours after such short-term suspension has been imposed. Any notice of the imposition of a short-term suspension that provides an opportunity for an informal hearing after such suspension has been imposed shall state that failure of the pupil to attend the hearing will result in a waiver of the pupil's opportunity for the hearing.

d) No suspension for an extended term and no expulsion shall be imposed upon a pupil until an opportunity for a formal hearing thereon is afforded the pupil. A written notice of any proposal to suspend for an extended term or to expel from school, and the charges upon which the proposal is based shall be given to the pupil proposed to be suspended or expelled from school, and to the pupil's parent or guardian. Any notice of a proposal to suspend for an extended term or to expel from school shall state the time, date and place that the pupil will be afforded an opportunity for a formal hearing, and that failure of the pupil and the pupil's parent or guardian to attend the hearing will result in a waiver of the pupil's opportunity for the hearing. The hearing shall be held not later than 10 days after the date of the notice. The notice shall be accompanied by a copy of this act and the regulations of the board of education adopted under K.S.A. 72-6116, and amendments thereto.

e) Whenever any written notice is required under this act to be given to a pupil or to a pupil's parent or guardian, it shall be sufficient if the notice is mailed to the address on file in the school records of the pupil. In lieu of mailing the written notice, the notice may be personally delivered.

(f) A formal hearing on a suspension or expulsion may be conducted by any person or committee of persons authorized by the board of education to conduct the hearing.

72-6116. Procedural due process requirements; record of appeal, costs; report of findings and result of hearing; information regarding behavior improvement programs.

(a) The formal hearing provided for in K.S.A. 72-6115, and amendments thereto, shall be conducted in accordance with regulations relating thereto adopted by the board of education. Such regulations shall afford procedural due process including, but not limited to, the following

(1) The right of the pupil to have counsel of the pupil's own choice present and to receive the advice of such counsel or other person whom the pupil may select;
(2) the right of the parents or guardians of the pupil to be present at the hearing;
(3) the right of the pupil and the pupil's counsel or advisor to hear or read a full report of testimony of witnesses against the pupil;
(4) the right of the pupil and the pupil's counsel to confront and cross-examine witnesses who appear in person at the hearing, either voluntarily or as a result of the issuance of a subpoena;
(5) the right of the pupil to present the pupil's own witnesses in person or their testimony by affidavit;
(6) the right of the pupil to testify in the pupil's own behalf and give reasons for the pupil's conduct;
(7) the right of the pupil to have an orderly hearing; and
(8) the right of the pupil to a fair and impartial decision based on substantial evidence.

(b) In all extended-term suspension and expulsion from school cases, there shall be made a record of the hearing of an appeal of the suspension or expulsion, whichever is applicable, by mechanical or electronic recording or by an official court reporter, and the costs thereof shall be paid by the school district.

(c) At the conclusion of a formal hearing which results in a suspension for an extended term or an expulsion, the person or committee conducting the hearing shall make a written report of the findings and results of the hearing. The report shall be directed to the board of education of the school district and shall be open to the inspection of the pupil who is suspended or expelled and, if the pupil is a juvenile, to the parents or guardians and counsel or other advisor of the pupil. If the pupil is an adult, the report shall be open to the inspection of the parents or guardians and counsel or other advisor of the pupil only upon written consent of the pupil. Whenever a formal hearing results in suspension for an extended term or expulsion, the person or committee conducting the hearing may make a finding that return to school by the pupil, pending appeal or during the period allowed for notice of appeal, is not reasonably anticipated to endanger the safety of others, to cause continuing repeated material disorder, disruption or interference with the operation of school, or to substantially or materially impinge upon or invade the rights of others, in which case the pupil may return to school until the period for filing a notice of appeal has expired with no notice filed, or until the determination of any appeal if a notice of appeal is filed. Whenever the person or committee conducting a hearing fails to make the findings specified above, the report of the hearing shall provide that the suspension or expulsion of the pupil shall continue until appeal therefrom is determined or until the period of suspension or expulsion has expired, whichever occurs sooner. Any such pupil shall be provided with information concerning services or programs offered by public and private agencies that work toward improving those aspects of the pupil's attitudes and behavior that contributed to the conduct upon which the suspension or expulsion was based. If the pupil is a juvenile, the information shall also be provided to the parents or guardians of the pupil.

72-6118. Nonapplication of compulsory attendance law.
The provisions of K.S.A. 72-1111, and amendments thereto, shall not apply to any pupil while subject to suspension or expulsion from school pursuant to the provisions of this act.

(1) Administer oaths for the purpose of taking testimony;
(2) call and examine witnesses and receive documentary and other evidence; and
(3) take any other action necessary to make the hearing accord with procedural due process.

(b) Any hearing officer, any member of a committee or the board of education holding a formal hearing or an appeal hearing under this act may and, upon the request of any pupil for whom any such hearing is held or upon the request of the pupil's parents or guardians or counsel, shall petition the chief judge of the judicial district in which the school district is located requesting that the clerk of the district court be authorized to issue subpoenas for the attendance and testimony of the principal witness or witnesses and the production of books, records, reports, papers and documents relating to the proposed suspension or expulsion from school in the same manner as provided for the issuance of subpoenas in civil actions pursuant to K.S.A. 60-245, and amendments thereto.
72-6120. Refusal to admit suspended or expelled pupil authorized.

A pupil who has been suspended or expelled from school by any school district may be refused admission to school in any other school district, regardless of residency, until such time as the period of suspension or expulsion has expired.

(a) Each board of education shall designate one or more employees who shall report to the secretary for children and families, or a designee thereof, or to the appropriate county or district attorney pursuant to an agreement as provided in this section, all cases of children who are less than 13 years of age and are not attending school as required by law, and to the appropriate county or district attorney, or a designee thereof, all cases of children who are 13 or more years of age but less than 18 years of age and are not attending school as required by law. The designation shall be made no later than September 1 of each school year and shall be certified no later than 10 days thereafter by the board of education to the secretary for children and families, or the designee thereof, to the county or district attorney, or the designee thereof, and to the commissioner of education. The commissioner of education shall compile and maintain a list of the designated employees of each board of education. The local area office of the Kansas department for children and families may enter into an agreement with the appropriate county or district attorney to provide that the designated employees of such board of education shall make the report as provided in this section for all cases of children who are less than 13 years of age and are not attending school as provided by law to the county or district attorney in lieu of the secretary, or the secretary's designee. If such agreement is made, the county or district attorney shall carry out all duties as otherwise provided by this subsection conferred on the secretary or the secretary's designee. A copy of such agreement shall be provided to the director of such area office of the Kansas department for children and families and to the school districts affected by the agreement.

(b) Whenever a child is required by law to attend school, and the child is not enrolled in a public or nonpublic school, the child shall be considered to be not attending school as required by law and a report
thereof shall be made in accordance with the provisions of subsection (a) by a designated employee of 
the board of education of the school district in which the child resides. The provisions of this subsection 
are subject to the provisions of subsection (d).

(c) (1) Whenever a child is required by law to attend school and is enrolled in school, and the child is 
inexcusably absent therefrom on either three consecutive school days or five school days in any 
semester or seven school days in any school year, whichever of the foregoing occurs first, the child shall 
be considered to be not attending school as required by law. A child is inexcusably absent from school if 
the child is absent therefrom all or a significant part of a school day without a valid excuse acceptable to 
the school employee designated by the board of education to have responsibility for the school 
attendance of such child.

(2) Each board of education shall adopt rules for determination of valid excuse for absence from school 
and for determination of what shall constitute a "significant part of a school day" for the purpose of this 
section.

(3) Each board of education shall designate one or more employees, who shall each be responsible for 
determining the acceptability and validity of offered excuses for absence from school of specified 
children, so that a designee is responsible for making such determination for each child enrolled in 
school.

is not attending school as required by law, the designated employee who is responsible for such 
determination shall make a report thereof in accordance with the provisions of subsection (a), provided

superintendent of the school district pursuant to K.S.A. 2017 Supp. 72-6143(i), and amendments 
thereto.

(5) The provisions of this subsection are subject to the provisions of subsection (d).

the designated employee of the board of education shall serve written notice thereof, by personal delivery 
or by first class mail, upon a parent or person acting as parent of the child. The notice shall inform the 
parent or person acting as parent that continued failure of the child to attend school without a valid 
excuse will result in a report being made to the secretary for children and families or to the county or 
district attorney. Upon failure, on the school day next succeeding personal delivery of the notice or within 
three school days after the notice was mailed, of attendance at school by the child or of an acceptable 
response, as determined by the designated employee, to the notice by a parent or person acting as 
parent of the child, the designated employee shall make a report thereof in accordance with the 
provisions of subsection (a). The designated employee shall submit with the report a certificate verifying 
the manner in which notice was provided to the parent or person acting as parent.

(2) Whenever a law enforcement officer assumes temporary custody of a child who is found away from 
home or school without a valid excuse during the hours school is actually in session, and the law 
enforcement officer delivers the child to the school in which the child is enrolled or to a location 
designated by the school in which the child is enrolled to address truancy issues, the designated 
employee of the board of education shall serve notice thereof upon a parent or person acting as parent 
of the child. The notice may be oral or written and shall inform the parent or person acting as parent of 
the child that the child was absent from school without a valid excuse and was delivered to school by a 
law enforcement officer.

(e) Whenever the secretary for children and families receives a report required under this section, the 
secretary shall investigate the matter. If, during the investigation, the secretary determines that the 
reported child is not attending school as required by law, the secretary shall institute proceedings under 
the revised Kansas code for care of children. If, during the investigation, the secretary determines that a
criminal prosecution should be considered, the secretary shall make a report of the case to the appropriate law enforcement agency.

(f) Whenever a county or district attorney receives a report required under this section, the county or district attorney shall investigate the matter. If, during the investigation, the county or district attorney determines that the reported child is not attending school as required by law, the county or district attorney shall prepare and file a petition alleging that the child is a child in need of care. If, during the investigation, the county or district attorney determines that a criminal prosecution is necessary, the county or district attorney shall commence such action.

(g) As used in this section, "board of education" means the board of education of a school district or the governing authority of a nonpublic school. The provisions of this act shall apply to both public and nonpublic schools.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. 1. That occurs on school premises, on school-sponsored transportation, or at a school-sponsored event; or

2. That disrupts the education process.

(b) This definition shall not be interpreted to prohibit civil exchange of opinions or debate or cultural practices protected under the state or federal Constitution where the opinion expressed does not otherwise materially or substantially disrupt the education process.

(2) In cooperation with the Kentucky Education Association, the Kentucky School Boards Association, the Kentucky Association of School Administrators, the Kentucky Association of Professional Educators, the Kentucky Association of School Superintendents, the Parent-Teachers Association, the Kentucky Chamber of Commerce, the Farm Bureau, members of the Interim Joint Committee on Education, and other interested groups, and in collaboration with the Center for School Safety, the Department of Education shall develop or update as needed and distribute to all districts by August 31 of each even-numbered year, beginning August 31, 2008:

(a) Statewide student discipline guidelines to ensure safe schools, including the definition of serious incident for the reporting purposes as identified in KRS 158.444;

KRS 158.150. Suspension or expulsion of pupils.
(1) All pupils admitted to the common schools shall comply with the lawful regulations for the government of the schools:
   (a) Willful disobedience or defiance of the authority of the teachers or administrators, use of profanity or vulgarity, assault or battery or abuse of other students, the threat of force or violence, the use or possession of alcohol or drugs, stealing or destruction or defacing of school property or personal property of students, the carrying or use of weapons or dangerous instruments, or other incorrigible bad conduct on school property, as well as off school property at school-sponsored activities, constitutes cause for suspension or expulsion from school; and
   (b) Assault or battery or abuse of school personnel; stealing or willfully or wantonly defacing, destroying, or damaging the personal property of school personnel on school property, off school property, or at school-sponsored activities constitutes cause for suspension or expulsion from school; and

(2) (a) Each local board of education shall adopt a policy requiring the expulsion from school for a period of not less than one (1) year for a student who is determined by the board to have brought a weapon to a school under its jurisdiction. In determining whether a student has brought a weapon to school, a local board of education shall use the definition of "unlawful possession of a weapon on school property" stated in KRS 527.070.
   (b) The board shall also adopt a policy requiring disciplinary actions, up to and including expulsion from school, for a student who is determined by the board to have possessed prescription drugs or controlled substances for the purpose of sale or distribution at a school under the board's jurisdiction, or to have physically assaulted or battered or abused educational personnel or other students at a school or school function under the board's jurisdiction. The board may modify the expulsion requirement for students on a case-by-case basis. A board that has expelled a student from the student's regular school setting shall provide or assure that educational services are provided to the student in an appropriate alternative program or setting, unless the board has made a determination, on the record, supported by clear and convincing evidence, that the expelled student posed a threat to the safety of other students or school staff and could not be placed into a state-funded agency program. Behavior which constitutes a threat shall include but not be limited to the physical assault, battery, or abuse of others; the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drugs or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any other behavior which may endanger the safety of others. Limitations, conditions, or exclusions for use of suspension and expulsion

LAWS

**KRS 158.150. Suspension or expulsion of pupils.**
(5) A pupil shall not be suspended from the common schools until after at least the following due process procedures have been provided:

- (a) The pupil has been given oral or written notice of the charge or charges against him which constitute cause for suspension;
- (b) The pupil has been given an explanation of the evidence of the charge or charges if the pupil denies them; and
- (c) The pupil has been given an opportunity to present his own version of the facts relating to the charge or charges.

These due process procedures shall precede any suspension from the common schools unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In such cases, the due process procedures outlined above shall follow the suspension as soon as practicable, but no later than three (3) school days after the suspension.

**KRS 158.153. Punishment based on child's records -- Disclosure of records -- Cause of action -- Districtwide standards of behavior for students participating in extracurricular activities.**
(1) Unless the action is taken pursuant to KRS 158.150, no school, school administrator, teacher, or other school employee shall expel or punish a child based on information contained in a record of an adjudication of delinquency or conviction of an offense received by the school pursuant to KRS 610.345 or from any other source. Nothing in this subsection shall be construed to prohibit a local school board or school official from instituting disciplinary proceedings against any student for violating the discipline policy of the school or school district or taking actions necessary to protect staff and students. Actions to protect staff and students may be taken only after the principal makes a determination that the conduct of the student reflected in the records of the school or obtained by the school from the court indicates a substantial likelihood of an immediate and continuing threat that the student will cause harm to students or staff, and that the restrictions to be ordered represent the least restrictive alternative available and appropriate to remedy the threat, and that the determination and supporting material be documented in the child's record. The action of the principal, in addition to or in lieu of any other procedure available, may be appealed by the child or the child's parent or guardian to the superintendent of the school system or to the Circuit Court in the county in which the school is located, and the appealing party may be represented by counsel.

(2) No school, school administrator, teacher, or other school employee who has custody of records received or maintained by the school pursuant to KRS 610.345 or who has received information contained in or relating to a record received by the school pursuant to KRS 610.345 shall disclose the fact of the record's existence, or any information contained in the record or received from the record to any...
other person, including but not limited to other teachers, school employees, pupils, or parents other than the pupil, or parents of the pupil who is the subject of the record.

(3) The child and his parent or guardian shall have a civil cause of action against the school board and against any school administrator violating subsection (1) or (2) of this section or divulging information in violation of KRS 610.345 or 610.340. This civil cause of action shall be in addition to any other criminal or administrative remedy provided by law.

(4) Nothing in this section shall be construed to prohibit a local board of education from establishing districtwide standards of behavior for students who participate in extracurricular and cocurricular activities, including athletics. A school principal may deny or terminate a student's eligibility to participate in extracurricular or cocurricular activities if the student has violated the local district behavior standards or the council's criteria for participation, as described in KRS 160.345(2)(i)8. A student's right to participate in extracurricular or cocurricular activities, including athletics, may be suspended, pending investigation of an allegation that the standards of behavior have been violated.

Administrative procedures related to suspensions and expulsion

LAWS

KRS 158.150. Suspension or expulsion of pupils.

(2) (a) Each local board of education shall adopt a policy requiring the expulsion from school for a period of not less than one (1) year for a student who is determined by the board to have brought a weapon to a school under its jurisdiction. In determining whether a student has brought a weapon to school, a local board of education shall use the definition of "unlawful possession of a weapon on school property" stated in KRS 527.070.

(b) The board shall also adopt a policy requiring disciplinary actions, up to and including expulsion from school, for a student who is determined by the board to have possessed prescription drugs or controlled substances for the purpose of sale or distribution at a school under the board's jurisdiction, or to have physically assaulted or battered or abused educational personnel or other students at a school or school function under the board's jurisdiction. The board may modify the expulsion requirement for students on a case-by-case basis. A board that has expelled a student from the student's regular school setting shall provide or assure that educational services are provided to the student in an appropriate alternative program or setting, unless the board has made a determination, on the record, supported by clear and convincing evidence, that the expelled student posed a threat to the safety of other students or school staff and could not be placed into a state-funded agency program. Behavior which constitutes a threat shall include but not be limited to the physical assault, battery, or abuse of others; the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drugs or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any other behavior which may endanger the safety of others. Other intervention services as indicated for each student may be provided by the board or by agreement with the appropriate state or community agency. A state agency that provides the service shall be responsible for the cost.

(3) For purposes of this subsection, "charges" means substantiated behavior that falls within the grounds for suspension or expulsion enumerated in subsection (1) of this section, including behavior committed by a student while enrolled in a private or public school, or in a school within another state. A school board may adopt a policy providing that, if a student is suspended or expelled for any reason or faces charges
that may lead to suspension or expulsion but withdraws prior to a hearing from any public or private school in this or any other state, the receiving district may review the details of the charges, suspension, or expulsion and determine if the student will be admitted, and if so, what conditions may be imposed upon the admission.

(4) School administrators, teachers, or other school personnel may immediately remove or cause to be removed threatening or violent students from a classroom setting or from the district transportation system pending any further disciplinary action that may occur. Each board of education shall adopt a policy to assure the implementation of this section and to assure the safety of the students and staff.

(5) A pupil shall not be suspended from the common schools until after at least the following due process procedures have been provided:

(a) The pupil has been given oral or written notice of the charge or charges against him which constitute cause for suspension;

(b) The pupil has been given an explanation of the evidence of the charge or charges if the pupil denies them; and

(c) The pupil has been given an opportunity to present his own version of the facts relating to the charge or charges.

These due process procedures shall precede any suspension from the common schools unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In such cases, the due process procedures outlined above shall follow the suspension as soon as practicable, but no later than three (3) school days after the suspension.

(6) The superintendent, principal, assistant principal, or head teacher of any school may suspend a pupil but shall report the action in writing immediately to the superintendent and to the parent, guardian, or other person having legal custody or control of the pupil. The board of education of any school district may expel any pupil for misconduct as defined in subsection (1) of this section, but the action shall not be taken until the parent, guardian, or other person having legal custody or control of the pupil has had an opportunity to have a hearing before the board. The decision of the board shall be final.

(7) (a) Suspension of exceptional children, as defined in KRS 157.200, shall be considered a change of educational placement if:

1. The child is removed for more than ten (10) consecutive days during a school year; or

2. The child is subjected to a series of removals that constitute a pattern because the removals accumulate to more than ten (10) school days during a school year and because of other factors, such as the length of each removal, the total amount of time the child is removed, and the proximity of removals to one another.

(b) The admissions and release committee shall meet to review the placement and make a recommendation for continued placement or a change in placement and determine whether regular suspension or expulsion procedures apply. Additional evaluations shall be completed, if necessary.

(c) If the admissions and release committee determines that an exceptional child’s behavior is related to his disability, the child shall not be suspended any further or expelled unless the current placement could result in injury to the child, other children, or the educational personnel, in which case an appropriate alternative placement shall be provided that will provide for the child's educational needs and will provide a safe learning and teaching environment for all. If the admissions and release committee determines that the behavior is not related to the disability, the local educational agency may pursue its regular suspension or expulsion procedure for the child, if the behavior so warrants. However, educational services shall not be terminated during a period of expulsion and during a suspension after a student is suspended for more than a total of ten (10) days during a school year. A district may seek temporary injunctive relief through the courts if the parent and the other members of
the admissions and release committee cannot agree upon a placement and the current placement will likely result in injury to the student or others.

(8) Suspension of primary school students shall be considered only in exceptional cases where there are safety issues for the child or others.

(9) Any action under this section related to students with disabilities shall be in compliance with applicable federal law.

(1) (a) Except as provided in KRS 159.030 and paragraphs (b) and (c) of this subsection, each parent, guardian, or other person residing in the state and having in custody or charge any child who has entered the primary school program or any child between the ages of six (6) and sixteen (16) shall send the child to a regular public day school for the full term that the public school of the district in which the child resides is in session or to the public school that the board of education of the district makes provision for the child to attend. A child's age is between six (6) and sixteen (16) when the child has reached his or her sixth birthday and has not passed his or her sixteenth birthday.

(b) 1. Effective with the 2015-2016 school year, a local board of education may, upon the recommendation of the superintendent, adopt a district-wide policy to require, except as provided in KRS 159.030, each parent, guardian, or other person residing in the district and having in custody or charge any child who has entered the primary school program or any child between the ages six (6) and eighteen (18) to send the child to a regular public school for the full term of the district in which the child resides or to the public school that the district makes provisions for the child to attend. 2. All children residing in the district, except as provided in KRS 159.030, shall be subject to the local board's compulsory age policy.

3. A district shall impose the same compulsory age requirement for all students residing in the district, even if the district has entered a contract to permit some students to attend school in another public school district that has not adopted a policy under this paragraph. 4. A local board of education adopting a policy under this paragraph shall certify to the Kentucky Department of Education that the district has, or will have, programs in place to meet the needs of potential dropouts. Implementation of the policy shall be contingent on notice of approval by the department.
(c) When fifty-five percent (55%) of all local school districts have adopted a policy in accordance with paragraph (b) of this subsection, all local school districts shall be required to adopt the compulsory attendance requirements under paragraph (b) of this subsection. This requirement shall be effective with the school year that occurs four (4) years after the fifty-five percent (55%) threshold is met.

(2) An unmarried child between the ages of sixteen (16) and eighteen (18) who resides in a district that has not adopted a policy under subsection (1)(b) of this section who wishes to terminate his or her public or nonpublic education prior to graduating from high school shall do so only after a conference with the principal or his or her designee, and the principal shall request a conference with the parent, guardian, or other custodian. Written notification of withdrawal must be received from his parent, guardian, or other person residing in the state and having custody or charge of him. The child and the parent, guardian, or other custodian shall be required to attend a one (1) hour counseling session with a school counselor on potential problems of nongraduates.

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

(2) (a) The teacher, principal, school security guard, or administrator may search the person of a student or his personal effects when, based on the attendant circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law, a school rule, or a school board policy. Such a search shall be conducted in a manner that is reasonably related to the purpose of the search and not excessively intrusive in light of the age or sex of the student and the nature of the suspected offense.

(b) Random searches with a metal detector of students or their personal effects may be conducted at any time, provided they are conducted without deliberate touching of the student.

B. (1) If any teacher, principal, school security guard, or administrator in the public school system is sued for damages by any student, the parent of any student, or other person qualified to bring suit on behalf of the student, based upon a search of that student's person, desk, locker, or any other area of a school building or grounds set aside specifically for that student's personal use, when the teacher, principal,
school security guard, or administrator reasonably believed that the student had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy on his person, or had reasonable belief that such desk, locker, or other area contained such items, or based upon a search using a metal detector, it shall be the responsibility of the school board employing such teacher, principal, school security guard, or administrator to provide the defendant with legal defense, including reasonable attorney's fees, investigatory costs, and other related expenses.

(2) If any such teacher, principal, school security guard, or administrator is cast in judgment for damages in the suit, it shall be the obligation of the school board employing the defendant to indemnify him fully against such judgment, including all principal, interest, and costs.

(3) Nothing in this Section shall require a school board to indemnify a teacher, principal, school security guard, or administrator against a judgment wherein there is a specific finding that the action of the teacher, principal, school security guard, or administrator was maliciously, wilfully, and deliberately intended to harass, embarrass, or intimidate the student.

(iv) Specification of disciplinary action when a principal or designated administrator violates any provision of this Section.

(b) No teacher, principal, school security guard, or administrator shall be held personally liable for any action authorized by this Section and performed in accordance with school board policies adopted pursuant to this Section.

D. (1) Upon the seizure by any public school teacher, principal, school security guard, or administrator of any firearm, bomb, knife, or other implement which can be used as a weapon and the careless use of which might inflict harm or injury or any controlled dangerous substance as defined in R.S. 40:961(7), the principal or his designated administrator shall report the confiscation of such implement or material to the appropriate law enforcement officials. The principal or his designated administrator may report the confiscation of any other implement or material.

(2) Any implement or material required by Paragraph (1) of this Subsection to be reported to law enforcement officials shall be retained and secured by the school principal in such a manner as to prevent the destruction, alteration, or disappearance of it until such time as the law enforcement authority either takes custody of the implement or material or provides notice to the school principal that it need no longer be retained. In the case that it need not be retained, the school principal shall comply with his school board's policy regarding disposal of the item.
(3) The failure of any principal or designated administrator to report the confiscation of such implement or material or the failure to retain and secure such implement or material shall be reported by the law enforcement authority to the employing school board which shall take disciplinary action pursuant to its policy.

E. The provisions of this Section shall apply to the State Board of Elementary and Secondary Education as it relates to state schools operated by the board in the same way it applies to city and parish school boards.

B. If any principal, administrator, or school security guard is sued for damages by any person based upon a search of the person, handbag, briefcase, purse, or other object in possession of that person after the principal, administrator, or school security guard conducts a random search with a metal detector or has a reasonable suspicion that the person had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy, it shall be the responsibility of the school board employing such principal, administrator, or school security guard, to indemnify him fully against such judgment, including all principal, interest, and costs. Nothing in this Section shall require a school board to indemnify a principal, administrator, or school security guard against a judgment wherein there is a specific finding that the action of the principal, administrator, or school security guard was maliciously, wilfully, and deliberately intended to harass, embarrass, or intimidate the visitor.

Administrative procedures related to suspensions and expulsion

LAWS

§17:416. Discipline of students; suspension; expulsion.

A.(3) (b)(i) Prior to any suspension, the school principal, or his designee, shall advise the pupil in question of the particular misconduct of which he is accused as well as the basis for such accusation, and the pupil shall be given an opportunity at that time to explain his version of the facts to the school principal or his designee. In each case of suspension or expulsion the school principal, or his designee, shall contact by telephone at the telephone number shown on the pupil's registration card or send a certified letter at the address shown on the pupil's registration card to the parent, tutor, or legal guardian of the pupil in question giving notice of the suspension or expulsion, the reasons therefor and establishing a date and time for a conference with the principal or his designee as a requirement for readmitting the pupil provided that in the case of expulsion, the contact with the parent or guardian shall include a certified letter. If the parent, tutor, or legal guardian fails to attend the required conference within five school days of mailing the certified letter or other contact with the parent, the truancy laws shall become effective. On not more than one occasion each school year when the parent, tutor, or legal guardian refuses to respond, the principal may determine whether readmitting the pupil is in the best interest of the student. On any subsequent occasions in the same year, the pupil shall not be readmitted unless the parent, tutor, legal guardian, court, or other appointed representative responds. A pupil whose presence in or about a school poses a continued danger to any person or property or an ongoing threat of disruption to the academic process shall be immediately removed from the school premises without the benefit of the procedure described hereinabove; however, the necessary procedure shall follow as soon as is practicable.

(c) Any parent, tutor or legal guardian of a pupil suspended shall have the right to appeal to the city or parish superintendent of schools or his designee, who shall conduct a hearing on the merits. The decision of the superintendent of schools on the merits of the case, as well as the term of suspension, shall be final, reserving to the superintendent of schools the right to remit any portion of the time of suspension.

(d) A pupil suspended for damages to any property belonging to the school system or to property contracted to the school system shall not be readmitted until payment in full has been made for such damage or until directed by the superintendent of schools. If the property damaged is a school bus
owned by, contracted to, or jointly owned by any parish or city school board, a pupil suspended for such damage shall not be permitted to enter or ride any school bus until payment in full has been made for such damage or until directed by the superintendent of schools.

(e) A pupil who is suspended for ten days or fewer shall be assigned school work missed while he is suspended and shall receive either partial or full credit for such work if it is completed satisfactorily and timely as determined by the principal or his designee, upon the recommendation of the pupil's teacher. A pupil who is suspended for more than ten days, or is expelled and receives educational services at an alternative school site, shall be assigned work by a certified teacher and shall receive credit for school work if it is completed satisfactorily and timely as determined by the teacher. Such work shall be aligned with the curriculum used at the school from which the pupil was suspended or expelled.

(f) When a pupil is suspended for a second time within one school year, the principal may require that a counseling session be held with the parent and pupil by the school counselor if a counselor is assigned or available to that school. In the event there is no school counselor available, the principal may require a conference between the parent, pupil, and all the pupil's teachers and the principal or other administrator.

C.(1) Upon the recommendation by a principal for the expulsion of any student as authorized by Subsection B hereof, a hearing shall be conducted by the superintendent or by any other person designated so to do by the superintendent to determine the facts of the case and make a finding of whether or not the student is guilty of conduct warranting a recommendation of expulsion. Upon the conclusion of the hearing and upon a finding that the student is guilty of conduct warranting expulsion, the superintendent, or his designee, shall determine whether such student shall be expelled from the school system or if other corrective or disciplinary action shall be taken. At said hearing the principal or teacher concerned may be represented by any person appointed by the superintendent. The concerned teacher shall be permitted to attend such hearing and shall be permitted to present information the teacher believes relevant. Until such hearing takes place the student shall remain suspended from the school. At such hearing the student may be represented by any person of his choice.

(4) The parent or tutor of the pupil may, within five days after the decision is rendered, request the city or parish school board to review the findings of the superintendent or his designee at a time set by the school board; otherwise the decision of the superintendent shall be final. If requested, as herein provided, and after reviewing the findings of the superintendent or his designee, the school board may affirm, modify, or reverse the action previously taken.

(5) The parent or tutor of the pupil may, within ten days, appeal to the district court for the parish in which the student's school is located, an adverse ruling of the school board in upholding the action of the superintendent or his designee. The court may reverse or revise the ruling of the school board upon a finding that the ruling of the board was based on an absence of any relevant evidence in support thereof.

Intentionally making false reports about bullying to school officials is prohibited conduct and will result in the appropriate disciplinary measures as determined by the governing authority of the school in accordance with the rules and regulations of the State Board of Elementary and Secondary Education.

(3) Investigation Procedure. The State Board of Elementary and Secondary Education shall develop and adopt a procedure for the investigation of reports of bullying of a student by another student. The procedure shall include the following:

(a) Scope of investigation. An investigation shall include an interview of the reporter, the victim, the alleged bully, and any witnesses, and shall include obtaining copies or photographs of any audio-visual evidence.

(b) Timing. The school shall begin an investigation of any complaint that is properly reported and that alleges conduct prohibited in this Section the next business day during which school is in session after the report is received by the school official. The investigation shall be completed not later than ten school days after the date the written report of the incident is submitted to the appropriate school official. If additional information is received after the end of the ten-day period, the school principal or his designee shall amend all documents and reports required by this Section to reflect such information.
(c) Appeal. (i) If the school official does not take timely and effective action pursuant to this Section, the student, parent, or school employee may report the bullying incident to the city, parish, or other local school board or local school governing authority. The school board or school governing authority shall begin an investigation of any complaint that is properly reported and that alleges conduct prohibited in this Section the next business day during which school is in session after the report is received by a school board or governing authority official.

(ii) If the school board does not take timely and effective action, the student, parent, or other school employee may report the bullying incident to the state Department of Education. The department shall track the number of reports, shall notify in writing the superintendent and the president of the school's governing authority, and shall publish the number of reports by school district or governing authority on its website. The department shall provide both the number of actual reports received and the number of reports received by affected student.

(iii) For the purposes of this Section, a report means a written document that meets the requirements of Subparagraph (2)(a) of this Subsection.

(d) Parental Notification.

(ii) Under no circumstances shall the delivery of the notice to the parent or legal guardian, which is required by this Subsection, be the responsibility of an involved student. Delivery of the notice by an involved student shall not constitute notice as is required pursuant to this Subsection.

(iii) Before any student under the age of eighteen is interviewed, his parent or legal guardian shall be notified by the school official of the allegations made and shall have the opportunity to attend any interviews with his child conducted as part of the investigation. If, after three attempts in a forty-eight-hour period, the parents or legal guardians of a student cannot be reached or do not respond, the student may be interviewed.

(iv) The State Board of Elementary and Secondary Education, in collaboration with the state Department of Education, shall develop a procedure for meetings with the parent or legal guardian of the victim and the parent or legal guardian of the alleged perpetrator. This procedure shall include:

(aa) Separate meetings with the parents or legal guardians of the victim and the parents or legal guardians of the alleged perpetrator.

(bb) Notification of parents or legal guardians of the victim and of the alleged perpetrator of the available potential consequences, penalties, and counseling options.

The principal may file a complaint pursuant to Children's Code Article 730(1) or any other applicable ground when, in his judgment, doing so is in the best interests of the student.

(e) Disciplinary Action. If the school has received a report of bullying, has determined that an act of bullying has occurred, and after meeting with the parent or legal guardian of the students involved, the school official shall:
(i) Take prompt and appropriate disciplinary action, pursuant to R.S. 17:416 and 416.1, against the student that the school official determines has engaged in conduct which constitutes bullying, if appropriate.

(ii) Report criminal conduct to law enforcement, if appropriate.

(f) Parental Relief. (i) If a parent, legal guardian, teacher, or other school official has made four or more reports of separate instances of bullying, as provided in Paragraph (2) of this Subsection, and no investigation pursuant to Paragraph (3) of this Subsection has occurred, the parent or legal guardian with responsibility for decisions regarding the education of the victim about whom the report or reports have been made may exercise an option to have the student enroll in or attend another school operated by the governing authority of the public elementary or secondary school in which the student was enrolled on the dates when at least three of the reports were submitted.

(ii) The parent shall file a request with the superintendent for the transfer of the student to another school under the governing authority's jurisdiction.

(iii) The governing authority of the public elementary or secondary school in which the student is enrolled shall make a seat available at another public elementary or secondary school under its jurisdiction within ten school days of the parent or legal guardian's request for a transfer. If the governing authority has no other school under its jurisdiction serving the grade level of the victim, within fifteen school days of receiving the request, the superintendent or director of the governing authority shall:

(iv) If no seat or other placement pursuant to Item (iii) of this Subparagraph is made available within thirty calendar days of the receipt by the superintendent of the request, the parent or legal guardian may request a hearing with the school's governing authority, which shall be public or private at the option of the parent or legal guardian. The school's governing authority shall grant the hearing at the next scheduled meeting or within sixty calendar days, whichever is sooner.

(v) At the end of any school year, the parent or legal guardian may make a request to the governing authority of the school at which the student was enrolled when at least three of the reports were filed to transfer the student back to the school. The governing authority shall make a seat available at the school at which the student was originally enrolled. No other schools shall qualify for transfer under this Subparagraph.

(g) Documentation. (i) The state Department of Education shall develop a behavior incidence checklist that the governing authority of each public elementary and secondary school shall use to document the details of each reported incident of bullying.

(ii) The governing authority of each public elementary and secondary school shall report all such documented incidences of bullying to the state Department of Education as prescribed in rules adopted by the State Board of Elementary and Secondary Education in accordance with the Administrative Procedure Act and documented incidents in reports received by the local superintendent of schools pursuant to R.S. 17:415.

(bb) Promptly notify the complainant of the findings of the investigation and that remedial action has been taken, if such release of information does not violate the law.

(cc) Keep complaints and investigative reports confidential, except as provided in this Section and where disclosure is required to be made pursuant to 20 U.S.C. 1232g or by other applicable federal laws, rules, or regulations or by state law.

(dd) Maintain complaints and investigative reports for three years in the event that disclosure is warranted by law enforcement officials.

(ff) As applicable, provide a copy of any reports and investigative documents to the state Department of Education. Upon receipt, the department shall remove any reports related to the investigative documents from notation on the department's website, but shall maintain a record of those reports for three years.

F. This Section shall not be interpreted to conflict with or supercede the provisions requiring mandatory reporting pursuant to Louisiana Children's Code Article 609 and as enforced through R.S. 14:403.

G. Preclusion. (1) This Section shall not be interpreted to prevent a victim of bullying, or his parent or legal guardian, from seeking redress under any other available law, either civil or criminal.

(a) If the student has a driver's license, the department shall suspend the driver's license for a period of one year beginning as provided for in Subsection C of this Section.

(b) If the student has not obtained a driver's license, or if he applies for a different driver's license, any license which he obtains during the period of one year beginning as provided for in Subsection C of this Section shall be immediately suspended for the duration of such one-year period.

(2) The written notice from the principal or headmaster at a public or private school required in this Subsection shall include a copy of the student's disciplinary documentation and the full name, address, date of birth, social security number, and license number, if available, of the student and the name, address, and telephone number of the student's parents, guardian, or custodial parent.

C.(1)(a) Within fifteen days of receipt of written notice from the principal or headmaster, the department shall send notice of the following by certified mail to the last known address of any student who is subjected to such disciplinary action and the student's parents, guardian, or custodial parent:

(i) That any license he holds will be suspended on the thirtieth day following the date the notice was sent by the department and that the license shall be returned to the office of motor vehicles within five days of its suspension.

(ii) That if he does not hold a license, any license he may obtain during one year from the thirtieth day of the date the notice was mailed shall be immediately suspended for the remainder of such year.

(b) The notice shall also advise that a special identification card may be obtained from the office of motor vehicles pursuant to R.S. 40:1321. The notice shall also include a notice of the student's right to request a hearing or a hardship license as provided for in Subsections D and F of this Section.
(2)(a) Any period of suspension under this Section shall begin upon the occurrence of the first of the following:

(i) The receipt by the department of the driver's license.

(ii) Thirty days after the date the notice of suspension is mailed to the student by the department as provided in Paragraph (1) of this Subsection, or the receipt of a written notice of the disposition of an application for hardship driving privileges if it was applied for prior to the beginning of the suspension pursuant to Subsection D of this Section, whichever occurs last.

(b) A license suspension shall not extend beyond the student's eighteenth birthday. At the conclusion of the suspension, the department, in its discretion, may return the license to the student or issue the student a new license, once a reinstatement fee of sixty dollars has been paid to the department.

D. Prior to or after the start of the suspension period, a student may apply to the Department of Public Safety and Corrections for provisional student or family hardship driving privileges upon presentation of appropriate documentation as determined by the office of motor vehicles. Upon approval, a student may receive provisional driving privileges in order to drive to and from school, work, a drug or alcohol treatment counseling program, or a mental health treatment program, as appropriate, when no other transportation is available. Such driving privileges shall not exceed those granted by the license that was suspended.

E. Any student whose license is suspended pursuant to this Section may otherwise be eligible for reapplication or reinstatement if, after six months from the date of denial or suspension, the principal notifies the department in writing that the student has displayed exemplary student behavior at school, has not violated any school policies or been found guilty of any misconduct pursuant to R.S. 17:416 or any policy of the school or of the local public school board, and no further disciplinary measures have been taken.

F. Within fifteen days of the date of the notice required by Subsection C of this Section the student may request an administrative hearing pursuant to the Administrative Procedure Act. The hearing request shall be made in writing to the Department of Public Safety and Corrections, office of motor vehicles, and the hearing shall be held by the Division of Administrative Law pursuant to Chapter 13-B of Title 49 of the Louisiana Revised Statutes of 1950. The department shall promptly forward the hearing request to the Division of Administrative Law, and the hearing shall be held within thirty days of receipt by the department of the hearing request or as soon as practicable, unless continued at the request of the student. At the request of the student, the hearing may be limited to a review of the written record. The sole issue at the hearing shall be whether the provisions of this Section have been met. The reasons for disciplinary action or the propriety of disciplinary action shall not be an issue at the hearing. The license shall not be suspended until completion of the administrative hearing. Failure of the student or his representative to make an appearance at the time and place noticed for the hearing shall constitute a withdrawal of the hearing request and result in the suspension provided for in this Section.

G. No insurer issuing a policy of automobile insurance covering property damages, personal injury, or accidental death shall increase any rate or premium charges for insurance coverage because of any suspension of a license under the provisions of this Section. The provisions of this Subsection shall not be construed to prohibit the increase of any automobile insurance rate or premium, pursuant to a rate increase which is approved by the commissioner of insurance, for a class of insurance of which the person whose license has been suspended pursuant to this Section.

H. The Department of Public Safety and Corrections shall promulgate all necessary rules and guidelines for the implementation of this Section in accordance with the Administrative Procedure Act as are necessary.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

Such substances and stimuli include but are not limited to: infliction of bodily pain, (e.g. hitting, pinching, slapping), water spray, noxious fumes, extreme physical exercise, costumes, or signs.
2. Behavior Intervention Plan (BIP) is a comprehensive plan for managing problem behavior by changing or removing contextual factors that trigger or maintain it, and by strengthening replacement skills.

The term includes direct assessments, indirect assessments and data analysis designed to assist the team to identify and define the problem behavior in concrete terms, identify the contextual factors (including affective and cognitive factors) that contribute to the behavior, and formulate a hypothesis regarding the general conditions under which a behavior usually occurs and the probable consequences that maintain the behavior. Formal documentation of the assessment by appropriately qualified individuals becomes part of the child’s educational record.
9. Risk of injury or harm describes a situation in which a student has the means to cause physical harm or injury to self or others and such injury or harm is likely to occur; such that a reasonable and prudent person would take steps to protect the student and others against the risk of such injury or harm.

3. Instruction and simulated experience in administering safe physical restraint techniques across a range of increasingly restrictive interventions, including the safe movement of a student, and in
recognizing and avoiding positions involving a high risk of restraint-related positional asphyxia (restricting a student’s ability to breathe);

5. The risks and realities of physical restraint and seclusion; and

Each covered entity shall ensure that a sufficient number of administrators or designees, general and special education staff, maintain certification in an approved training program. C. A person who has been adjudged a truant and has been excused from attendance pursuant to procedures established by the commissioner.

§5001-A. Compulsory attendance.

Attendance at school shall be required of persons in the State as follows.

3. Alternatives to attendance at public day school. Alternatives to attendance at public day school are as follows.

A. Equivalent instruction alternatives are as follows.

2) A student is credited with attendance at a private school only if a certificate showing the name, residence and attendance of the person at the school, signed by the person or persons in charge of the school, has been filed with the school officials of the administrative unit in which the student resides.

4) The following provisions govern a home instruction program.

   (a) The student's parent or guardian shall provide a written notice of intent to provide home instruction simultaneously to the school officials of the administrative unit in which the student resides and to the commissioner within 10 calendar days of the beginning of home instruction. The notice must contain the following information:

For the purpose of this subdivision, a "home instruction tutor" means the parent, guardian or other person who acts or will act as a primary teacher of the student in the home instruction program. This provision must be agreed to by the school officials of the administrative unit in which the student resides prior to submission of the written notice of intent to provide home instruction.

Copies of the information filed under this subparagraph must be maintained by the student's parent or guardian until the home instruction program concludes. The records must be made available to the commissioner upon request.

(d) If the home instruction program is discontinued, students of compulsory school age must be enrolled in a public school or an equivalent instruction alternative as provided for in this paragraph. The receiving school shall determine the placement of the student. At the secondary level, the principal of the receiving school shall determine the value of the prior educational experience toward meeting the standards of the system of learning results as established in section 6209.

§9701. Definitions.

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

1. Drug treatment center. "Drug treatment center" means a facility as defined in Title 22, section 8001, which provides drug and alcohol abuse treatment.

2. Eligible student. "Eligible student" means any resident of the State between the ages of 5 and 20 years who is otherwise eligible for public schooling under this Title.
3. Long-term treatment. "Long-term treatment" means treatment in a drug treatment center designed to provide treatment for a period in excess of 60 days.

§9702. Program responsibility.
A school administrative unit in which a licensed drug treatment center is located or a nearby school administrative unit shall provide an educational program, as prescribed by the commissioner, for each eligible student residing in the center, notwithstanding the student's legal residence within the State. The selection of the school administrative unit to provide that program shall be made by the commissioner pursuant to rules adopted in accordance with the Maine Administrative Procedure Act, Title 5, chapter 375. The rules shall take into account the educational needs of students, the ability of a school administrative unit to meet those needs, the proximity of school administrative units to the facility, the expressed wishes of officials representing school administrative units and other appropriate considerations. The decision of the commissioner may be appealed to the State Board of Education. The decision of the board shall be final.

§9703. Initial program approval.
Each such school unit shall submit a program plan for educational services to be approved by the commissioner. The program plan shall include the following components:

1. Planning; approved. Evidence of collaborative planning with officials and staff of the center and approval of the center's governing board;

The commissioner or a designee shall approve the program plan in a timely manner in order that appropriate budgeting may occur before the start of the school unit's fiscal year. Approval shall include a payment schedule for disbursement of program funds to the school unit in the fiscal year of the program's operation.

§9704. Appeal process.
A school unit required to offer an educational program or a drug treatment center which treats eligible students may appeal to the commissioner in the event agreement cannot be reached between them. The commissioner’s decision on the program in such an appeal shall be rendered within 60 days and shall be final.

§9705. Renewal of program approval.
Each school unit operating an educational program for eligible students at drug treatment centers shall file an annual report, a proposed budget for the ensuing fiscal year and an application for renewal of program approval as prescribed by the commissioner.
§9706. Rule-making authority.
The commissioner shall adopt rules to implement this chapter and the funding scheme under the Essential Programs and Services Funding Act.

REGULATIONS

05-071 CMR 128.13. Developing alternative programs.
The legislation encourages school units to establish alternative programs for dropouts and chronic (habitual) truants. Although the word "encouraged" is used, the primary intent of the legislation is to provide school units with the authority to establish programs for the identified pupils.

When developing alternative programs, local school officials should give consideration to the following questions:

A. Do the programs provide for academic and non-academic pursuits in accordance with the needs of the individual student?
B. Do the programs include that which is necessary for meeting curriculum and graduation requirements provided by statute or local board policy?
C. Do the programs provide adequate instructional time equivalent to that required for regular school programs?
D. Are adequate instructional materials provided?
E. Can the programs be evaluated in terms of meeting stated objectives? Alternative programs may be developed and conducted under the direction of local school officials and may become operative within present school facilities during the regular school day. Likewise, alternative programs may be operated under the direction of local school officials outside the regular school facilities and school day. Regardless of which approach is followed, criteria should be developed to determine pupil eligibility for participation in these programs. A description of locally developed alternative programs is to be filed with this Department and the reporting process can be accomplished by using the data collection form. It is possible that alternative programs may already exist or could be developed completely apart from local school jurisdiction. These programs could be operated by private individuals, groups, or agencies. If programs operated outside the school by private individuals, groups, or agencies seem appropriate in meeting the needs of the pupil, criteria for the programs should be developed by the local school officials and they should serve as a guide for the local approval of these programs. Such criteria should include the following:

1. The instruction is provided by qualified individuals. The qualifications might be evidenced by a valid teaching credential, a valid license (trade, etc.) in the area of content being presented, or expertise gained through long experience in the content of the specific program (adult education programs).
2. The quality of instruction is equivalent to that provided in the regular public school.
3. The facilities housing the program meet all fire safety, health, and sanitation standards.
4. The program is designed to provide adequate instructional time to meet its stated objectives.
5. There is provision for program evaluation. Any alternative programs developed under this legislation shall be submitted to the local school board for approval.

05-071 CMR 128.16. Parental approval of alternative programs.
Regardless of what type of alternative program arrangement is determined for each individual pupil, local school officials should prepare a form for parents to sign to approve the alternative arrangement. Parents should be included in the total process and should provide evidence to the school officials that they understand what has taken place.

E. A person enrolled in an online learning program or course, unless the person is enrolled in a virtual public charter school as defined in section 2401, subsection 11

§5051-A. Truancy

1. Truant. A student is truant if the student is subject to section 5001-A and:
   B. Has completed grade 6 and has the equivalent of 10 full days of unexcused absences or 7 consecutive school days of unexcused absences during a school year; or
   C. Is at least 7 years of age and has not completed grade 6 and has the equivalent of 7 full days of unexcused absences or 5 consecutive school days of unexcused absences during a school year.

2. Procedures; written notice; referral. This subsection governs the procedure to be followed when a student is truant.
   A-1. The principal, upon determining that a student is truant under subsection 1, shall notify the superintendent of the student's truancy within 5 school days of the last unexcused absence.
   A-2. A student who is determined truant under subsection 1 must be referred to the school's student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 to determine the cause of the truancy and assess the effect of the student's absences, as well as any future absences for the student. If it is determined that a negative effect exists, the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 shall develop an intervention plan to address the student's absences and the negative effect of these absences. An intervention plan may include, but is not limited to:
      (1) Frequent communication between the teacher and the family;
      (2) Changes in the learning environment;
      (3) Mentoring;
      (4) Student counseling;
      (5) Tutoring, including peer tutoring;
      (6) Placement into different classes;

      (10) Other interventions, including, but not limited to, referral to the school attendance coordinator, student assistance team or dropout prevention committee.
Failure of the student or the student's parents to appear at scheduled meetings does not preclude the school administrators from implementing an intervention plan to address the student's truancy.

B-1. The superintendent shall develop procedures to refer a student who is truant to the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 in accordance with this section. These procedures may include, but are not limited to:

   (1) Identifying school personnel responsible for notifying the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system when a student is truant;
   
   (2) A process for referral of a student who is truant, including identifying school personnel responsible for inviting the parents and the student to participate in any meeting that results from this referral;
   
   (3) A timeline for setting up a meeting and developing an intervention plan under paragraph A-2;
   
   (4) A plan for dealing with future absences of a student who is truant; and
   
   (5) A plan for reporting of the results of the intervention plan developed pursuant to paragraph A-2.

C. If the intervention plan developed pursuant to paragraph A-2 is unable to correct the truancy of the child, the superintendent shall serve or cause to be served upon the parent in hand or by registered mail a written notice that attendance of the child at school is required by law. The notice must:

   (1) State that the student is required to attend school pursuant to section 5001-A;
   
   (2) Explain the parent's right to inspect the student's attendance records, attendance coordinator's reports and principal's reports;
   
   (3) Explain that the failure to send the student to school and maintain the student in regular attendance is a civil violation in accordance with section 5053-A and will jeopardize the student's status in the grade that the student is in;
   
   (4) State that the superintendent may notify the local law enforcement department of a violation of section 5053-A and the Department of Health and Human Services of a violation under subsection 1, paragraph C; and
   
   (5) Outline the plan developed to address the student's truancy and the steps that have been taken to implement that plan.

D. Prior to notifying the local law enforcement department under paragraph E, the superintendent shall schedule at least one meeting as required in paragraph B-1 and may invite a local prosecutor.

E. If, after 3 school days after service of the notice referred to in paragraph C, the student remains truant and the parent and student refuse to attend the meeting scheduled according to paragraph D, the superintendent shall report the facts of the unlawful absence to the local law enforcement department, which may proceed with an action to enforce section 5053-A against the parent unless the student is at once placed in an appropriate school or otherwise meets the requirements under section 5001-A.

F. When a student is determined to be truant and in violation of section 5001-A and the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 and the superintendent have made a good faith attempt to meet the requirements of paragraph B-1, the superintendent shall notify the school board of the student's truancy.

3. Reports. This subsection applies to reports of truancy.

   A. A superintendent shall submit an annual report to the commissioner before October 1st. The report must:

   (1) Identify the number of truants in the school administrative unit in the preceding school year;
(2) Describe the unit's efforts to deal with truancy;

(3) Account for actions brought under this section including the number of truants reported to the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710; and

(4) Include any other information on truancy requested by the commissioner.

B. The commissioner shall submit an annual report to the Governor and the Legislature before January 15th. The report must aggregate the information provided by superintendents under paragraph A and must evaluate the effect of state laws on the incidence of truancy.

§5053-A. Enforcement.

1. Civil violation. If a parent has control of a student who is truant under section 5051-A, subsection 1 and that parent is primarily responsible for that truancy, that parent commits a civil violation for which a fine of not more than $250 may be adjudged, all or part of which may be suspended upon the parent's compliance with a court order under subsection 2.

2. Dispositions. The court may also order a parent adjudicated as violating subsection 1 to take specific action to ensure the child's attendance at school; comply with the intervention plan developed in accordance with section 5051-A, subsection 2, paragraph A-2; participate in a parent-training class; attend school with the child; perform community service hours at the school; or participate in counseling or other services as appropriate.

3. Notice required. Notice must be provided to the parent pursuant to section 5051-A, subsection 2, paragraph C before a prosecution for violating subsection 1 may be brought against the parent.

4. Prima facie proof. Evidence that shows that the parent received the notice under section 5051-A, subsection 2 and that the child has accumulated 10 cumulative full days of absences or 5 consecutive school days of absences that are not justified under the established attendance policies of the school administrative unit is prima facie proof that the parent is primarily responsible for the child's truancy or the parent failed to take corrective measures for the child's truancy.

5. Defense. It is a defense to a prosecution under subsection 1 that the parent has exercised reasonable diligence in attempting to cause a child in the parent's custody to attend school or that the administrators of the child's school did not perform their duties as required by law.

6. Process. Service of a summons on the parent pursuant to subsection 1 must be in accordance with the Maine Rules of Civil Procedure.

7. Jurisdiction. The District Court has jurisdiction over violations under subsection 1.

A student may be readmitted on satisfactory evidence that the behavior that was the cause of the student being expelled will not likely recur. The school board may authorize the principal to suspend students up to a maximum of 10 days for infractions of school rules. In addition to other powers and duties under this subsection, the school board may develop a policy requiring a student who is in violation of school substance abuse or possession rules to participate in substance abuse services as provided in section 6606. Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer's knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018.
