(a) All local boards of education shall develop and implement written policies and procedures, as required by the federal Gun Free Schools Act, 20 U.SC. § 7151, requiring suspension for 365 calendar days of any student who is determined to have brought or been in possession of a firearm or destructive device on educational property, or to a school-sponsored event off of educational property. LAWS

§ 115C-397.1. Management and placement of disruptive students.

This section shall be in addition to the supplemental to disciplinary action taken in accordance with any other law. The recommendation of the committee is final and shall not be appealed under G.S. 115C-45(c). § 115C-407.18. Construction of this Article.

(a) This Article shall not be construed to permit school officials to punish student expression or speech based on an undifferentiated fear or apprehension of disturbance or out of a desire to avoid the discomfort and unpleasantness that always accompany an unpopular viewpoint.

(b) This Article shall not be interpreted to prevent a victim of bullying or harassing behavior from seeking redress under any other available law, either civil or criminal.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

e. Has pled guilty or nolo contendere, been found guilty, or been adjudicated delinquent of any crime against another individual which is not otherwise specified in this section if the court determines that registration is warranted by the nature of the crime and therefore orders registration for the individual. If the court orders an individual to register as an offender under this section, the individual shall comply with all of the registration requirements in this chapter.

7. Registration consists of a written statement signed by the individual, giving the information required by the attorney general, and the fingerprints and photograph of the individual. The collection, submission, testing and analysis of, and records produced from, samples of blood and other body fluids, are subject to chapter 31-13. Evidence of the DNA profile comparison is admissible in accordance with section 31-13-02. A report of the DNA analysis certified by the state crime laboratory is admissible in accordance with section 31-13-05. A district court shall order an individual who refuses to submit a sample of blood or other body fluids for registration purposes to show cause at a specified time and place why the individual should not be required to submit the sample required under this subsection. Within three days after registration, the registering law enforcement agency shall forward the statement, fingerprints, and photograph to the attorney general and shall submit the sample of the individual's blood and body fluids to the state crime laboratory. If an individual required to register under this section has a change in vehicle or computer online identity, the individual shall inform in writing, within three days after the change, the law enforcement agency with which that individual last registered of the individual's new vehicle or computer online identity. If an individual required to register pursuant to this section has a change in name, school, or residence or employment address, that individual shall inform in writing, at least ten days before the change, the law enforcement agency with which that individual last registered of the individual's new name, school, residence address, or employment address. A change in school or employment address includes the termination of school or employment for which an individual required to register under this section shall inform in writing within five days of the termination the law enforcement agency with which the individual last registered. The law enforcement agency, within three days after receipt of the information, shall forward it to the attorney general. The attorney general shall forward the appropriate registration data to the law enforcement agency having local jurisdiction of the new place of residence, school, or employment. Upon a change of address, the individual required to register shall also register within three days at the law enforcement agency having local jurisdiction of the new place of residence, school, or employment. The individual registering under this section shall periodically confirm the information required under this subsection in a manner and at an interval determined by the attorney general. A law enforcement agency that has previously registered an offender may omit the fingerprint portion of the registration if that agency has a set of fingerprints on file for that individual and is personally familiar with and can visually identify the offender. These provisions also apply in any other state that requires registration.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

Limitations, conditions or exclusions for use of suspension and expulsion

LAWS

**ORC 3313.66. Suspension, expulsion or permanent exclusion - removal from curricular or extracurricular activities.**

(A) Except as provided under division (B)(2) of this section, and subject to section 3313.668 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district, or the principal of a public school may suspend a pupil from school for not more than ten school days. The board of education of a city, exempted village, or local school district may adopt a policy granting assistant principals and other administrators the authority to suspend a pupil from school for a period of time as specified in the policy of the board of education, not to exceed ten school days. If at the time an out-of-school suspension is imposed there are fewer than ten school days remaining in the school year in which the incident that gives rise to the suspension takes place, the superintendent shall not apply any remaining part of the period of the suspension to the following school year. The superintendent may instead require the pupil to participate in a community service program or another alternative consequence for a number of hours equal to the remaining part of the period of the suspension. The pupil shall be required to begin the pupil's community service or alternative consequence during the first full week day of summer break. Each school district, in its discretion, may develop an appropriate list of alternative consequences. In the event that a pupil fails to complete community service or the assigned alternative consequence, the school district may determine the next course of action, which shall not include requiring the pupil to serve the remaining time of the out-of-school suspension at the beginning of the following school year.

Except in the case of a pupil given an in-school suspension, no pupil shall be suspended unless prior to the suspension the superintendent or principal does both of the following:

1. Gives the pupil written notice of the intention to suspend the pupil and the reasons for the intended suspension and, if the proposed suspension is based on a violation listed in division (A) of section 3313.662 of the Revised Code and if the pupil is sixteen years of age or older, includes in the notice a statement that the superintendent may seek to permanently exclude the pupil if the pupil is convicted of or adjudicated a delinquent child for that violation;

2. Provides the pupil an opportunity to appear at an informal hearing before the principal, assistant principal, superintendent, or superintendent's designee and challenge the reason for the intended suspension or otherwise to explain the pupil's actions.

If a pupil is suspended pursuant to division (A) of this section, the school district board may, in its discretion, permit the pupil to complete any classroom assignments missed because of the suspension.

(B)(1) Except as provided under division (B)(2), (3), or (4) of this section, and subject to section 3313.668 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district may expel a pupil from school for a period not to exceed the greater of eighty school days or the number of school days remaining in the semester or term in which the incident that gives rise to the expulsion takes place, unless the expulsion is extended pursuant to division (F) of this section. If at the
time an expulsion is imposed there are fewer than eighty school days remaining in the school year in which the incident that gives rise to the expulsion takes place, the superintendent may apply any remaining part or all of the period of the expulsion to the following school year.

(2)(a) Unless a pupil is permanently excluded pursuant to section 3313.662 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district shall expel a pupil from school for a period of one year for bringing a firearm to a school operated by the board of education of the district or onto any other property owned or controlled by the board, except that the superintendent may reduce this requirement on a case-by-case basis in accordance with the policy adopted by the board under section 3313.661 of the Revised Code.

(b) The superintendent of schools of a city, exempted village, or local school district may expel a pupil from school for a period of one year for bringing a firearm to an interscholastic competition, an extracurricular event, or any other school program or activity that is not located in a school or on property that is owned or controlled by the district. The superintendent may reduce this disciplinary action on a case-by-case basis in accordance with the policy adopted by the board under section 3313.661 of the Revised Code.

(c) Any expulsion pursuant to division (B)(2) of this section shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place. As used in this division, "firearm" has the same meaning as provided pursuant to the "Gun-Free Schools Act," 115 Stat. 1762, 20 U.S.C. 7151.

(3) The board of education of a city, exempted village, or local school district may adopt a resolution authorizing the superintendent of schools to expel a pupil from school for a period not to exceed one year for bringing a knife to a school operated by the board, onto any other property owned or controlled by the board, or to an interscholastic competition, an extracurricular event, or any other program or activity sponsored by the school district or in which the district is a participant, or for possessing a firearm or knife at a school, on any other property owned or controlled by the board, or at an interscholastic competition, an extracurricular event, or any other program or activity, which firearm or knife was initially brought onto school board property by another person. The resolution may authorize the superintendent to extend such an expulsion, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

(4) The board of education of a city, exempted village, or local school district may adopt a resolution establishing a policy under section 3313.661 of the Revised Code that authorizes the superintendent of schools to expel a pupil from school for a period not to exceed one year for committing an act that is a criminal offense when committed by an adult and that results in serious physical harm to persons as defined in division (A)(5) of section 2901.01 of the Revised Code or serious physical harm to property as defined in division (A)(6) of section 2901.01 of the Revised Code while the pupil is at school, on any other property owned or controlled by the board, or at an interscholastic competition, an extracurricular event, or any other program or activity. Any expulsion under this division shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

(5) The board of education of any city, exempted village, or local school district may adopt a resolution establishing a policy under section 3313.661 of the Revised Code that authorizes the superintendent of schools to expel a pupil from school for a period not to exceed one year for making a bomb threat to a school building or to any premises at which a school activity is occurring at the time of the threat. Any expulsion under this division shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

(6) No pupil shall be expelled under division (B)(1), (2), (3), (4), or (5) of this section unless, prior to the pupil's expulsion, the superintendent does both of the following:
(a) Gives the pupil and the pupil's parent, guardian, or custodian written notice of the intention to expel the pupil;

(b) Provides the pupil and the pupil's parent, guardian, custodian, or representative an opportunity to appear in person before the superintendent or the superintendent's designee to challenge the reasons for the intended expulsion or otherwise to explain the pupil's actions.

The notice required in this division shall include the reasons for the intended expulsion, notification of the opportunity of the pupil and the pupil's parent, guardian, custodian, or representative to appear before the superintendent or the superintendent's designee to challenge the reasons for the intended expulsion or otherwise to explain the pupil's action, and notification of the time and place to appear. The time to appear shall not be earlier than three nor later than five school days after the notice is given, unless the superintendent grants an extension of time at the request of the pupil or the pupil's parent, guardian, custodian, or representative. If an extension is granted after giving the original notice, the superintendent shall notify the pupil and the pupil's parent, guardian, custodian, or representative of the new time and place to appear. If the proposed expulsion is based on a violation listed in division (A) of section 3313.662 of the Revised Code and if the pupil is sixteen years of age or older, the notice shall include a statement that the superintendent may seek to permanently exclude the pupil if the pupil is convicted of or adjudicated a delinquent child for that violation.

(7) A superintendent of schools of a city, exempted village, or local school district shall initiate expulsion proceedings pursuant to this section with respect to any pupil who has committed an act warranting expulsion under the district's policy regarding expulsion even if the pupil has withdrawn from school for any reason after the incident that gives rise to the hearing but prior to the hearing or decision to impose the expulsion. If, following the hearing, the pupil would have been expelled for a period of time had the pupil still been enrolled in the school, the expulsion shall be imposed for the same length of time as on a pupil who has not withdrawn from the school.

(C) If a pupil's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process taking place either within a classroom or elsewhere on the school premises, the superintendent or a principal or assistant principal may remove a pupil from curricular activities or from the school premises, and a teacher may remove a pupil from curricular activities under the teacher's supervision, without the notice and hearing requirements of division (A) or (B) of this section. As soon as practicable after making such a removal, the teacher shall submit in writing to the principal the reasons for such removal.

If a pupil is removed under this division from a curricular activity or from the school premises, written notice of the hearing and of the reason for the removal shall be given to the pupil as soon as practicable prior to the hearing, which shall be held within three school days from the time the initial removal is ordered. The hearing shall be held in accordance with division (A) of this section unless it is probable that the pupil may be subject to expulsion, in which case a hearing in accordance with division (B) of this section shall be held, except that the hearing shall be held within three school days of the initial removal. The individual who ordered, caused, or requested the removal to be made shall be present at the hearing.

If the superintendent or the principal reinstates a pupil in a curricular activity under the teacher's supervision prior to the hearing following a removal under this division, the teacher shall be given in writing the reasons for such reinstatement.

(D) The superintendent or principal, within one school day after the time of a pupil's expulsion or suspension, shall notify in writing the parent, guardian, or custodian of the pupil and the treasurer of the board of education of the expulsion or suspension. The notice shall include the reasons for the expulsion or suspension, notification of the right of the pupil or the pupil's parent, guardian, or custodian to appeal the expulsion or suspension to the board of education or to its designee, to be represented in all appeal proceedings, to be granted a hearing before the board or its designee in order to be heard against the
suspension or expulsion, and to request that the hearing be held in executive session, notification that the
expulsion may be subject to extension pursuant to division (F) of this section if the pupil is sixteen years
of age or older, and notification that the superintendent may seek the pupil's permanent exclusion if the
expulsion or suspension was based on a violation listed in division (A) of section 3313.662 of the Revised
Code that was committed when the child was sixteen years of age or older and if the pupil is convicted of
or adjudicated a delinquent child for that violation.

In accordance with the policy adopted by the board of education under section 3313.661 of the Revised
Code, the notice provided under this division shall specify the manner and date by which the pupil or the
pupil's parent, guardian, or custodian shall notify the board of the pupil's, parent's, guardian's, or
custodian's intent to appeal the expulsion or suspension to the board or its designee.

Any superintendent expelling a pupil under this section for more than twenty school days or for any period
of time if the expulsion will extend into the following semester or school year shall, in the notice required
under this division, provide the pupil and the pupil's parent, guardian, or custodian with information about
services or programs offered by public and private agencies that work toward improving those aspects of
the pupil's attitudes and behavior that contributed to the incident that gave rise to the pupil's expulsion.
The information shall include the names, addresses, and phone numbers of the appropriate public and
private agencies.

(E) A pupil or the pupil's parent, guardian, or custodian may appeal the pupil's expulsion by a
superintendent or suspension by a superintendent, principal, assistant principal, or other administrator to
the board of education or to its designee. If the pupil or the pupil's parent, guardian, or custodian intends
to appeal the expulsion or suspension to the board or its designee, the pupil or the pupil's parent,
guardian, or custodian shall notify the board in the manner and by the date specified in the notice
provided under division (D) of this section. The pupil or the pupil's parent, guardian, or custodian may be
represented in all appeal proceedings and shall be granted a hearing before the board or its designee in
order to be heard against the suspension or expulsion. At the request of the pupil or of the pupil's parent,
guardian, custodian, or attorney, the board or its designee may hold the hearing in executive session but
shall act upon the suspension or expulsion only at a public meeting. The board, by a majority vote of its
full membership or by the action of its designee, may affirm the order of suspension or expulsion,
reinstate the pupil, or otherwise reverse, vacate, or modify the order of suspension or expulsion.
The board or its designee shall make a verbatim record of hearings held under this division. The
decisions of the board or its designee may be appealed under Chapter 2506. of the Revised Code.

This section shall not be construed to require notice and hearing in accordance with division (A), (B), or
(C) of this section in the case of normal disciplinary procedures in which a pupil is removed from a
curricular activity for a period of less than one school day and is not subject to suspension or expulsion.

(F)(1) If a pupil is expelled pursuant to division (B) of this section for committing any violation listed in
division (A) of section 3313.662 of the Revised Code and the pupil was sixteen years of age or older at
the time of committing the violation, if a complaint, indictment, or information is filed alleging that the
pupil is a delinquent child based upon the commission of the violation or the pupil is prosecuted as an
adult for the commission of the violation, and if the resultant juvenile court or criminal proceeding is
pending at the time that the expulsion terminates, the superintendent of schools that expelled the pupil
may file a motion with the court in which the proceeding is pending requesting an order extending the
expulsion for the lesser of an additional eighty days or the number of school days remaining in the
school year. Upon the filing of the motion, the court immediately shall schedule a hearing and give
written notice of the time, date, and location of the hearing to the superintendent and to the pupil and
the pupil's parent, guardian, or custodian. At the hearing, the court shall determine whether there is
reasonable cause to believe that the pupil committed the alleged violation that is the basis of the
expulsion and, upon determining that reasonable cause to believe the pupil committed the violation does exist, shall grant the requested extension.

(2) If a pupil has been convicted of or adjudicated a delinquent child for a violation listed in division (A) of section 3313.662 of the Revised Code for an act that was committed when the child was sixteen years of age or older, if the pupil has been expelled pursuant to division (B) of this section for that violation, and if the board of education of the school district of the school from which the pupil was expelled has adopted a resolution seeking the pupil's permanent exclusion, the superintendent may file a motion with the court that convicted the pupil or adjudicated the pupil a delinquent child requesting an order to extend the expulsion until an adjudication order or other determination regarding permanent exclusion is issued by the superintendent of public instruction pursuant to section 3301.121 and division (D) of section 3313.662 of the Revised Code. Upon the filing of the motion, the court immediately shall schedule a hearing and give written notice of the time, date, and location of the hearing to the superintendent of the school district, the pupil, and the pupil's parent, guardian, or custodian. At the hearing, the court shall determine whether there is reasonable cause to believe the pupil's continued attendance in the public school system may endanger the health and safety of other pupils or school employees and, upon making that determination, shall grant the requested extension.

(G) The failure of the superintendent or the board of education to provide the information regarding the possibility of permanent exclusion in the notice required by divisions (A), (B), and (D) of this section is not jurisdictional, and the failure shall not affect the validity of any suspension or expulsion procedure that is conducted in accordance with this section or the validity of a permanent exclusion procedure that is conducted in accordance with sections 3301.121 and 3313.662 of the Revised Code.

(H) With regard to suspensions and expulsions pursuant to divisions (A) and (B) of this section by the board of education of any city, exempted village, or local school district, this section shall apply to any student, whether or not the student is enrolled in the district, attending or otherwise participating in any curricular program provided in a school operated by the board or provided on any other property owned or controlled by the board.

(1) Whenever a student is expelled under this section, the expulsion shall result in removal of the student from the student's regular school setting. However, during the period of the expulsion, the board of education of the school district that expelled the student or any board of education admitting the student during that expulsion period may provide educational services to the student in an alternative setting.

(J)(1) Notwithstanding sections 3109.51 to 3109.80, 3313.64, and 3313.65 of the Revised Code, any school district, after offering an opportunity for a hearing, may temporarily deny admittance to any pupil if one of the following applies:

(a) The pupil has been suspended from the schools of another district under division (A) of this section and the period of suspension, as established under that division, has not expired;

(b) The pupil has been expelled from the schools of another district under division (B) of this section and the period of the expulsion, as established under that division or as extended under division (F) of this section, has not expired.

If a pupil is temporarily denied admission under this division, the pupil shall be admitted to school in accordance with sections 3109.51 to 3109.80, 3313.64, or 3313.65 of the Revised Code no later than upon expiration of the suspension or expulsion period, as applicable.

(2) Notwithstanding sections 3109.51 to 3109.80, 3313.64, and 3313.65 of the Revised Code, any school district, after offering an opportunity for a hearing, may temporarily deny admittance to any pupil if the pupil has been expelled or otherwise removed for disciplinary purposes from a public school in another state and the period of expulsion or removal has not expired. If a pupil is temporarily denied
admission under this division, the pupil shall be admitted to school in accordance with sections 3109.51 to 3109.80, 3313.64, or 3313.65 of the Revised Code no later than the earlier of the following:

(a) Upon expiration of the expulsion or removal period imposed by the out-of-state school;
(b) Upon expiration of a period established by the district, beginning with the date of expulsion or removal from the out-of-state school, that is no greater than the period of expulsion that the pupil would have received under the policy adopted by the district under section 3313.661 of the Revised Code had the offense that gave rise to the expulsion or removal by the out-of-state school been committed while the pupil was enrolled in the district.

(K) As used in this section:

(1) “Permanently exclude” and "permanent exclusion" have the same meanings as in section 3313.662 of the Revised Code.
(2) "In-school suspension" means the pupil will serve all of the suspension in a school setting.

**ORC 3313.668. Removal from school based on absences.**

On and after July 1, 2017, no school district or school shall suspend, expel, or remove a student from school under section 3313.66 of the Revised Code solely on the basis of the student's absences from school without legitimate excuse.

The notice shall include all of the following:

(a) The date, time, and place of the permanent exclusion adjudication hearing;

(b) A statement informing the pupil and the pupil's parent, guardian, or custodian that the pupil may attend the adjudication hearing at the date, time, and place set forth in the notice, that the failure of the pupil or the pupil's parent, guardian, or custodian to attend the adjudication hearing will result in a waiver of the pupil's right to present evidence, testimony, and factors in mitigation of the pupil's permanent exclusion at an adjudication hearing on the proposed permanent exclusion, and that the pupil shall be accorded all of the following rights:
(i) The right to testify, to present evidence and the testimony of witnesses, and to confront, cross-
examine, and compel the attendance of witnesses;

(ii) The right to a record of the hearing;

(iii) The right to written findings.

(c) A statement informing the pupil and the pupil’s parent, guardian, or custodian that the pupil has the
right to be represented by counsel at the adjudication hearing.

(d) A statement informing the pupil and the pupil's parent, guardian, or custodian that, if the pupil by
failing to attend the hearing waives the pupil's right to present evidence, testimony, and factors in
mitigation of the pupil's permanent exclusion at an adjudication hearing on the proposed permanent
exclusion, the superintendent is required to review the information relevant to the permanent
exclusion that is available to the superintendent and is permitted to enter an order requiring the pupil's
permanent exclusion from attending any of the public schools of this state at any time within seven
days after the conclusion of the adjudication hearing.

(2) The superintendent or the superintendent's designee shall provide the notice required by division
(B)(1) of this section to the pupil and to the pupil’s parent, guardian, or custodian by certified mail or
personal service.

(3) (a) If a pupil who is the subject of a resolution forwarded to the superintendent of public instruction
by a board of education pursuant to section 3313.662 of the Revised Code is in the custody of the
department of youth services pursuant to a disposition under any provision of Chapter 2152. of the
Revised Code, other than division (A)(1)(a) of section 2152.16 of the Revised Code, at the time the
resolution is forwarded, the department shall notify in writing the superintendent of public instruction and
the board of education that forwarded the resolution of that fact. Upon receipt of the notice, the
superintendent shall delay providing the notice required by division (B)(1) of this section and the
adjudication of the request for permanent exclusion until the superintendent receives further notice from
the department pursuant to division (B)(3)(b) of this section.

(b) At least sixty days before a pupil described in division (B)(3)(a) of this section will be released from
institutionalization or institutionalization in a secure facility by the department of youth services, the
department shall notify in writing the superintendent of public instruction and the board of education
that forwarded the resolution pursuant to section 3313.662 of the Revised Code of the impending
release and shall provide in that notice information regarding the extent of the education the pupil
received while in the custody of the department, including whether the pupil has obtained a certificate
of high school equivalence. If the pupil has not obtained a certificate of high school equivalence while
in the custody of the department of youth services, the superintendent of public instruction shall
provide the notice required by division (B)(1) of this section and, at least thirty days before the pupil is
to be released from institutionalization or institutionalization in a secure facility, conduct an
adjudication procedure to determine whether to permanently exclude the pupil from attending the
public schools of this state in accordance with this section. If the pupil has obtained a certificate of
high school equivalence while in the custody of the department, the superintendent, in the
superintendent's discretion, may conduct the adjudication.

(C) (1) Except as provided in division (B)(3) of this section, the date of the adjudication hearing set forth in
the notice required by division (B)(1) of this section shall be a date no less than fourteen days nor more
than twenty-one days from the date the superintendent sends the notice by certified mail or initiates
personal service of the notice.

(2) The superintendent, for good cause shown on the written request of the pupil or the pupil's parent,
guardian, or custodian, or on the superintendent's own motion, may grant reasonable continuances of
any adjudication hearing held under this section but shall not grant either party total continuances in
excess of ten days.
(3) If a pupil or the pupil's parent, guardian, or custodian does not appear at the adjudication hearing on a proposed permanent exclusion, the superintendent or the referee appointed by the superintendent shall proceed to conduct an adjudication hearing on the proposed permanent exclusion on the date for the adjudication hearing that is set forth in the notice provided pursuant to division (B)(1) of this section or on the date to which the hearing was continued pursuant to division (C)(2) of this section.

(D)(1) The superintendent or a referee appointed by the superintendent may conduct an adjudication hearing to determine whether to permanently exclude a pupil in one of the following counties:

(a) The county in which the superintendent holds the superintendent's office;

(b) Upon the request of the pupil or the pupil's parent, guardian, custodian, or attorney, in the county in which the board of education that forwarded the resolution requesting the permanent exclusion is located if the superintendent, in the superintendent's discretion and upon consideration of evidence of hardship presented on behalf of the requesting pupil, determines that the hearing should be conducted in that county.

(2) The superintendent of public instruction or a referee appointed by the superintendent shall conduct an adjudication hearing on a proposed permanent exclusion of a pupil. The referee may be an attorney admitted to the practice of law in this state but shall not be an attorney that represents the board of education that forwarded the resolution requesting the permanent exclusion.

(3) The superintendent or referee who conducts an adjudication hearing under this section may administer oaths, issue subpoenas to compel the attendance of witnesses and evidence, and enforce the subpoenas by a contempt proceeding in the court of common pleas as provided by law. The superintendent or referee may require the separation of witnesses and may bar from the proceedings any person whose presence is not essential to the proceedings.

(4) The superintendent of public instruction shall request the department of rehabilitation and correction, the sheriff, the department of youth services, or any publicly funded out-of-home care entity that has legal custody of a pupil who is the subject of an adjudication hearing held pursuant to this section to transport the pupil to the place of the adjudication hearing at the time and date set for the hearing. The department, sheriff, or publicly funded out-of-home care entity that receives the request shall provide transportation for the pupil who is the subject of the adjudication hearing to the place of the hearing at the time and date set for the hearing. The department, sheriff, or entity shall pay the cost of transporting the pupil to and from the hearing.

(E)(1) An adjudication hearing held pursuant to this section shall be adversary in nature, shall be conducted fairly and impartially, and may be conducted without the formalities of a criminal proceeding. A pupil whose permanent exclusion is being adjudicated has the right to be represented by counsel at the adjudication hearing. If the pupil has the financial capacity to retain counsel, the superintendent or the referee is not required to provide counsel for the pupil. At the adjudication hearing, the pupil also has the right to cross-examine witnesses against the pupil, to testify, to present evidence and the testimony of witnesses on the pupil's behalf, and to raise factors in mitigation of the pupil's being permanently excluded.

(2) In an adjudication hearing held pursuant to this section and section 3313.662 of the Revised Code, a representative of the school district of the board of education that adopted and forwarded the resolution requesting the permanent exclusion of the pupil shall present the case for permanent exclusion to the superintendent or the referee. The representative of the school district may be an attorney admitted to the practice of law in this state. At the adjudication hearing, the representative of the school district shall present evidence in support of the requested permanent exclusion. The superintendent or the superintendent's designee shall consider the entire school record of the pupil who is the subject of the adjudication and shall consider any of the following information that is available:
(a) The academic record of the pupil and a record of any extracurricular activities in which the pupil previously was involved;
(b) The disciplinary record of the pupil and any available records of the pupil's prior behavioral problems other than the behavioral problems contained in the disciplinary record;
(c) The social history of the pupil;
(d) The pupil's response to the imposition of prior discipline and sanctions imposed for behavioral problems;
(e) Evidence regarding the seriousness of and any aggravating factors related to the offense that is the basis of the resolution seeking permanent exclusion;
(f) Any mitigating circumstances surrounding the offense that gave rise to the request for permanent exclusion;
(g) Evidence regarding the probable danger posed to the health and safety of other pupils or of school employees by the continued presence of the pupil in a public school setting;
(h) Evidence regarding the probable disruption of the teaching of any school district's graded course of study by the continued presence of the pupil in a public school setting;
(i) Evidence regarding the availability of alternative sanctions of a less serious nature than permanent exclusion that would enable the pupil to remain in a public school setting without posing a significant danger to the health and safety of other pupils or of school employees and without posing a threat of the disruption of the teaching of any district's graded course of study.

(3) In any adjudication hearing conducted pursuant to this section and section 3313.662 of the Revised Code, a court order that proves the adjudication or conviction that is the basis for the resolution of the board of education seeking permanent exclusion is sufficient evidence to prove that the pupil committed a violation as specified in division (F)(1) of this section.

(4) The superintendent or the referee shall make or cause to be made a record of any adjudication hearing conducted pursuant to this section.

(5) A referee who conducts an adjudication hearing pursuant to this section shall promptly report the referee's findings in writing to the superintendent at the conclusion of the adjudication hearing.

(F) If an adjudication hearing is conducted or a determination is made pursuant to this section and section 3313.662 of the Revised Code, the superintendent shall review and consider the evidence presented, the entire school record of the pupil, and any available information described in divisions (E)(2)(a) to (i) of this section and shall not enter an order of permanent exclusion unless the superintendent or the superintendent's appointed referee finds, by a preponderance of the evidence, both of the following:

1. That the pupil was convicted of or adjudicated a delinquent child for committing a violation listed in division (A) of section 3313.662 of the Revised Code and that the violation was committed when the child was sixteen years of age or older;
2. That the pupil's continued attendance in the public school system may endanger the health and safety of other pupils or school employees.

(G)(1) Within seven days after the conclusion of an adjudication hearing that is conducted pursuant to this section, the superintendent of public instruction shall enter an order in relation to the permanent exclusion of the pupil who is the subject of the hearing or determination.

(2) If the superintendent or a referee makes the findings described in divisions (F)(1) and (2) of this section, the superintendent shall issue a written order that permanently excludes the pupil from attending any of the public schools of this state and immediately shall send a written notice of the order to the board of education that forwarded the resolution, to the pupil who was the subject of the
resolution, to that pupil's parent, guardian, or custodian, and to that pupil's attorney, that includes all of the following:

(a) A copy of the order of permanent exclusion;
(b) A statement informing the pupil and the pupil's parent, guardian, or custodian of the pupil's right to appeal the order of permanent exclusion pursuant to division (H) of this section and of the possible revocation of the permanent exclusion pursuant to division (I) of this section if a final judicial determination reverses the conviction or adjudication that was the basis for the permanent exclusion;
(c) A statement informing the pupil and the pupil's parent, guardian, or custodian of the provisions of divisions (F), (G), and (H) of section 3313.662 of the Revised Code.

(3) If the superintendent or a referee does not make the findings described in divisions (F)(1) and (2) of this section, the superintendent shall issue a written order that rejects the resolution of the board of education and immediately shall send written notice of that fact to the board of education that forwarded the resolution, to the pupil who was the subject of the proposed resolution, and to that pupil's parent, guardian, or custodian.

(H) A pupil may appeal an order of permanent exclusion made by the superintendent of public instruction pursuant to this section and section 3313.662 of the Revised Code to the court of common pleas of the county in which the board of education that forwarded the resolution requesting the permanent exclusion is located. The appeal shall be conducted in accordance with Chapter 2505. of the Revised Code.

(I) If a final judicial determination reverses the conviction or adjudication that is the basis of a permanent exclusion ordered under this section, the superintendent of public instruction, upon receipt of a certified copy of an order reflecting that final determination from the pupil or that pupil's parent, guardian, custodian, or attorney, shall revoke the order of permanent exclusion.

(J) As used in this section:

(1) "Permanently exclude" and "permanent exclusion" have the same meanings as in section 3313.662 of the Revised Code.
(2) "Out-of-home care" and "legal custody" have the same meanings as in section 2151.011 of the Revised Code.
(3) "Certificate of high school equivalence" has the same meaning as in section 4109.06 of the Revised Code.

ORC 3313.66. Suspension, expulsion, or permanent exclusion – removal from curricular or extracurricular activities.

(A) Except as provided under division (B)(2) of this section, and subject to section 3313.668 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district, or the principal of a public school may suspend a pupil from school for not more than ten school days. The board of education of a city, exempted village, or local school district may adopt a policy granting assistant principals and other administrators the authority to suspend a pupil from school for a period of time as specified in the policy of the board of education, not to exceed ten school days. If at the time an out-of-school suspension is imposed there are fewer than ten school days remaining in the school year in which the incident that gives rise to the suspension takes place, the superintendent shall not apply any remaining part of the period of the suspension to the following school year. The superintendent may instead require the pupil to participate in a community service program or another alternative consequence for a number of hours equal to the remaining part of the period of the suspension. The pupil shall be required to begin the pupil's community service or alternative consequence during the first full week day of summer break. Each school district, in its discretion, may develop an appropriate list of alternative consequences. In the event that a pupil fails to complete community service or the assigned
alternative consequence, the school district may determine the next course of action, which shall not include requiring the pupil to serve the remaining time of the out-of-school suspension at the beginning of the following school year.

Except in the case of a pupil given an in-school suspension, no pupil shall be suspended unless prior to the suspension the superintendent or principal does both of the following:

(1) Gives the pupil written notice of the intention to suspend the pupil and the reasons for the intended suspension and, if the proposed suspension is based on a violation listed in division (A) of section 3313.662 of the Revised Code and if the pupil is sixteen years of age or older, includes in the notice a statement that the superintendent may seek to permanently exclude the pupil if the pupil is convicted of or adjudicated a delinquent child for that violation;

(2) Provides the pupil an opportunity to appear at an informal hearing before the principal, assistant principal, superintendent, or superintendent's designee and challenge the reason for the intended suspension or otherwise to explain the pupil's actions.

If a pupil is suspended pursuant to division (A) of this section, the school district board may, in its discretion, permit the pupil to complete any classroom assignments missed because of the suspension.

(B)(1) Except as provided under division (B)(2), (3), or (4) of this section, and subject to section 3313.668 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district may expel a pupil from school for a period not to exceed the greater of eighty school days or the number of school days remaining in the semester or term in which the incident that gives rise to the expulsion takes place, unless the expulsion is extended pursuant to division (F) of this section. If at the time an expulsion is imposed there are fewer than eighty school days remaining in the school year in which the incident that gives rise to the expulsion takes place, the superintendent may apply any remaining part or all of the period of the expulsion to the following school year.

(2)(a) Unless a pupil is permanently excluded pursuant to section 3313.662 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district shall expel a pupil from school for a period of one year for bringing a firearm to a school operated by the board of education of the district or onto any other property owned or controlled by the board, except that the superintendent may reduce this requirement on a case-by-case basis in accordance with the policy adopted by the board under section 3313.661 of the Revised Code.

(b) The superintendent of schools of a city, exempted village, or local school district may expel a pupil from school for a period of one year for bringing a firearm to an interscholastic competition, an extracurricular event, or any other school program or activity that is not located in a school or on property that is owned or controlled by the district. The superintendent may reduce this disciplinary action on a case-by-case basis in accordance with the policy adopted by the board under section 3313.661 of the Revised Code.

(c) Any expulsion pursuant to division (B)(2) of this section shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place. As used in this division, "firearm" has the same meaning as provided pursuant to the "Gun-Free Schools Act," 115 Stat. 1762, 20 U.S.C. 7151.

(3) The board of education of a city, exempted village, or local school district may adopt a resolution authorizing the superintendent of schools to expel a pupil from school for a period not to exceed one year for bringing a knife to a school operated by the board, onto any other property owned or controlled by the board, or to an interscholastic competition, an extracurricular event, or any other program or activity sponsored by the school district or in which the district is a participant, or for possessing a firearm or knife at a school, on any other property owned or controlled by the board, or at an interscholastic competition, an extracurricular event, or any other school program or activity, which firearm or knife was initially brought onto school board property by another person. The resolution may
authorize the superintendent to extend such an expulsion, as necessary, into the school year following
the school year in which the incident that gives rise to the expulsion takes place.

(4) The board of education of a city, exempted village, or local school district may adopt a resolution
establishing a policy under section 3313.661 of the Revised Code that authorizes the superintendent of
schools to expel a pupil from school for a period not to exceed one year for committing an act that is a
criminal offense when committed by an adult and that results in serious physical harm to persons as
defined in division (A)(5) of section 2901.01 of the Revised Code or serious physical harm to property
as defined in division (A)(6) of section 2901.01 of the Revised Code while the pupil is at school, on any
other property owned or controlled by the board, or at an interscholastic competition, an extracurricular
event, or any other school program or activity. Any expulsion under this division shall extend, as
necessary, into the school year following the school year in which the incident that gives rise to the
expulsion takes place.

(5) The board of education of any city, exempted village, or local school district may adopt a resolution
establishing a policy under section 3313.661 of the Revised Code that authorizes the superintendent of
schools to expel a pupil from school for a period not to exceed one year for making a bomb threat to a
school building or to any premises at which a school activity is occurring at the time of the threat. Any
expulsion under this division shall extend, as necessary, into the school year following the school year
in which the incident that gives rise to the expulsion takes place.

(6) No pupil shall be expelled under division (B)(1), (2), (3), (4), or (5) of this section unless, prior to the
pupil's expulsion, the superintendent does both of the following:

(а) Gives the pupil and the pupil's parent, guardian, or custodian written notice of the intention to
expel the pupil;

(b) Provides the pupil and the pupil's parent, guardian, custodian, or representative an opportunity to
appear in person before the superintendent or the superintendent's designee to challenge the
reasons for the intended expulsion or otherwise to explain the pupil's actions.

The notice required in this division shall include the reasons for the intended expulsion, notification of
the opportunity of the pupil and the pupil's parent, guardian, custodian, or representative to appear
before the superintendent or the superintendent's designee to challenge the reasons for the intended
expulsion or otherwise to explain the pupil's action, and notification of the time and place to appear.
The time to appear shall not be earlier than three nor later than five school days after the notice is
given, unless the superintendent grants an extension of time at the request of the pupil or the pupil's
parent, guardian, custodian, or representative. If an extension is granted after giving the original
notice, the superintendent shall notify the pupil and the pupil's parent, guardian, custodian, or
representative of the new time and place to appear. If the proposed expulsion is based on a violation
listed in division (A) of section 3313.662 of the Revised Code and if the pupil is sixteen years of age
or older, the notice shall include a statement that the superintendent may seek to permanently
exclude the pupil if the pupil is convicted of or adjudicated a delinquent child for that violation.

(7) A superintendent of schools of a city, exempted village, or local school district shall initiate expulsion
proceedings pursuant to this section with respect to any pupil who has committed an act warranting
expulsion under the district's policy regarding expulsion even if the pupil has withdrawn from school for
any reason after the incident that gives rise to the hearing but prior to the hearing or decision to impose
the expulsion. If, following the hearing, the pupil would have been expelled for a period of time had the
pupil still been enrolled in the school, the expulsion shall be imposed for the same length of time as on
a pupil who has not withdrawn from the school.

(C) If a pupil's presence poses a continuing danger to persons or property or an ongoing threat of
disrupting the academic process taking place either within a classroom or elsewhere on the school
premises, the superintendent or a principal or assistant principal may remove a pupil from curricular
activities or from the school premises, and a teacher may remove a pupil from curricular activities under
the teacher's supervision, without the notice and hearing requirements of division (A) or (B) of this
section. As soon as practicable after making such a removal, the teacher shall submit in writing to the
principal the reasons for such removal.

If a pupil is removed under this division from a curricular activity or from the school premises, written
notice of the hearing and of the reason for the removal shall be given to the pupil as soon as practicable
prior to the hearing, which shall be held within three school days from the time the initial removal is
ordered. The hearing shall be held in accordance with division (A) of this section unless it is probable that
the pupil may be subject to expulsion, in which case a hearing in accordance with division (B) of this
section shall be held, except that the hearing shall be held within three school days of the initial removal.
The individual who ordered, caused, or requested the removal to be made shall be present at the hearing.

If the superintendent or the principal reinstates a pupil in a curricular activity under the teacher's
supervision prior to the hearing following a removal under this division, the teacher, upon request, shall
be given in writing the reasons for such reinstatement.

(D) The superintendent or principal, within one school day after the time of a pupil's expulsion or
suspension, shall notify in writing the parent, guardian, or custodian of the pupil and the treasurer of the
board of education of the expulsion or suspension. The notice shall include the reasons for the expulsion
or suspension, notification of the right of the pupil or the pupil's parent, guardian, or custodian to appeal
the expulsion or suspension to the board of education or to its designee, to be represented in all appeal
proceedings, to be granted a hearing before the board or its designee in order to be heard against the
suspension or expulsion, and to request that the hearing be held in executive session, notification that the
expulsion may be subject to extension pursuant to division (F) of this section if the pupil is sixteen years
of age or older, and notification that the superintendent may seek the pupil's permanent exclusion if the
expulsion or suspension was based on a violation listed in division (A) of section 3313.662 of the Revised
Code that was committed when the child was sixteen years of age or older and if the pupil is convicted of
or adjudicated a delinquent child for that violation.

In accordance with the policy adopted by the board of education under section 3313.661 of the Revised
Code, the notice provided under this division shall specify the manner and date by which the pupil or the
pupil's parent, guardian, or custodian shall notify the board of the pupil's, parent's, guardian's, or
custodian's intent to appeal the expulsion or suspension to the board or its designee.

Any superintendent expelling a pupil under this section for more than twenty school days or for any period
of time if the expulsion will extend into the following semester or school year shall, in the notice required
under this division, provide the pupil and the pupil's parent, guardian, or custodian with information about
services or programs offered by public and private agencies that work toward improving those aspects of
the pupil's attitudes and behavior that contributed to the incident that gave rise to the pupil's expulsion.
The information shall include the names, addresses, and phone numbers of the appropriate public and
private agencies.

(E) A pupil or the pupil's parent, guardian, or custodian may appeal the pupil's expulsion by a
superintendent or suspension by a superintendent, principal, assistant principal, or other administrator to
the board of education or to its designee. If the pupil or the pupil's parent, guardian, or custodian intends
to appeal the expulsion or suspension to the board or its designee, the pupil or the pupil's parent,
guardian, or custodian shall notify the board in the manner and by the date specified in the notice
provided under division (D) of this section. The pupil or the pupil's parent, guardian, or custodian may be
represented in all appeal proceedings and shall be granted a hearing before the board or its designee in
order to be heard against the suspension or expulsion. At the request of the pupil or of the pupil's parent,
guardian, custodian, or attorney, the board or its designee may hold the hearing in executive session but
shall act upon the suspension or expulsion only at a public meeting. The board, by a majority vote of its
full membership or by the action of its designee, may affirm the order of suspension or expulsion, reinstate the pupil, or otherwise reverse, vacate, or modify the order of suspension or expulsion.

The board or its designee shall make a verbatim record of hearings held under this division. The decisions of the board or its designee may be appealed under Chapter 2506. of the Revised Code.

This section shall not be construed to require notice and hearing in accordance with division (A), (B), or (C) of this section in the case of normal disciplinary procedures in which a pupil is removed from a curricular activity for a period of less than one school day and is not subject to suspension or expulsion.

(F)(1) If a pupil is expelled pursuant to division (B) of this section for committing any violation listed in division (A) of section 3313.662 of the Revised Code and the pupil was sixteen years of age or older at the time of committing the violation, if a complaint, indictment, or information is filed alleging that the pupil is a delinquent child based upon the commission of the violation or the pupil is prosecuted as an adult for the commission of the violation, and if the resultant juvenile court or criminal proceeding is pending at the time that the expulsion terminates, the superintendent of schools that expelled the pupil may file a motion with the court in which the proceeding is pending requesting an order extending the expulsion for the lesser of an additional eighty days or the number of school days remaining in the school year. Upon the filing of the motion, the court immediately shall schedule a hearing and give written notice of the time, date, and location of the hearing to the superintendent and to the pupil and the pupil's parent, guardian, or custodian. At the hearing, the court shall determine whether there is reasonable cause to believe that the pupil committed the alleged violation that is the basis of the expulsion and, upon determining that reasonable cause to believe the pupil committed the violation does exist, shall grant the requested extension.

(2) If a pupil has been convicted of or adjudicated a delinquent child for a violation listed in division (A) of section 3313.662 of the Revised Code for an act that was committed when the child was sixteen years of age or older, if the pupil has been expelled pursuant to division (B) of this section for that violation, and if the board of education of the school district of the school from which the pupil was expelled has adopted a resolution seeking the pupil's permanent exclusion, the superintendent may file a motion with the court that convicted the pupil or adjudicated the pupil a delinquent child requesting an order to extend the expulsion until an adjudication order or other determination regarding permanent exclusion is issued by the superintendent of public instruction pursuant to section 3301.121 and division (D) of section 3313.662 of the Revised Code. Upon the filing of the motion, the court immediately shall schedule a hearing and give written notice of the time, date, and location of the hearing to the superintendent of the school district, the pupil, and the pupil's parent, guardian, or custodian. At the hearing, the court shall determine whether there is reasonable cause to believe the pupil's continued attendance in the public school system may endanger the health and safety of other pupils or school employees and, upon making that determination, shall grant the requested extension.

(G) The failure of the superintendent or the board of education to provide the information regarding the possibility of permanent exclusion in the notice required by divisions (A), (B), and (D) of this section is not jurisdictional, and the failure shall not affect the validity of any suspension or expulsion procedure that is conducted in accordance with this section or the validity of a permanent exclusion procedure that is conducted in accordance with sections 3301.121 and 3313.662 of the Revised Code.

(H) With regard to suspensions and expulsions pursuant to divisions (A) and (B) of this section by the board of education of any city, exempted village, or local school district, this section shall apply to any student, whether or not the student is enrolled in the district, attending or otherwise participating in any curricular program provided in a school operated by the board or provided on any other property owned or controlled by the board.

(1) Whenever a student is expelled under this section, the expulsion shall result in removal of the student from the student's regular school setting. However, during the period of the expulsion, the board
of education of the school district that expelled the student or any board of education admitting the student during that expulsion period may provide educational services to the student in an alternative setting.

(J)(1) Notwithstanding sections 3109.51 to 3109.80, 3313.64, and 3313.65 of the Revised Code, any school district, after offering an opportunity for a hearing, may temporarily deny admittance to any pupil if one of the following applies:

(a) The pupil has been suspended from the schools of another district under division (A) of this section and the period of suspension, as established under that division, has not expired;

(b) The pupil has been expelled from the schools of another district under division (B) of this section and the period of the expulsion, as established under that division or as extended under division (F) of this section, has not expired.

If a pupil is temporarily denied admission under this division, the pupil shall be admitted to school in accordance with sections 3109.51 to 3109.80, 3313.64, or 3313.65 of the Revised Code no later than upon expiration of the suspension or expulsion period, as applicable.

(2) Notwithstanding sections 3109.51 to 3109.80, 3313.64, and 3313.65 of the Revised Code, any school district, after offering an opportunity for a hearing, may temporarily deny admittance to any pupil if the pupil has been expelled or otherwise removed for disciplinary purposes from a public school in another state and the period of expulsion or removal has not expired. If a pupil is temporarily denied admission under this division, the pupil shall be admitted to school in accordance with sections 3109.51 to 3109.80, 3313.64, or 3313.65 of the Revised Code no later than the earlier of the following:

(a) Upon expiration of the expulsion or removal period imposed by the out-of-state school;

(b) Upon expiration of a period established by the district, beginning with the date of expulsion or removal from the out-of-state school, that is no greater than the period of expulsion that the pupil would have received under the policy adopted by the district under section 3313.661 of the Revised Code had the offense that gave rise to the expulsion or removal by the out-of-state school been committed while the pupil was enrolled in the district.

(K) As used in this section:

(1) "Permanently exclude" and "permanent exclusion" have the same meanings as in section 3313.662 of the Revised Code.

(2) "In-school suspension" means the pupil will serve all of the suspension in a school setting.

**ORC 3313.661. Policy regarding suspension, expulsion, removal, and permanent exclusion**

(A) […] If a board of education adopts a resolution pursuant to division (B)(4) or (5) of section 3313.66 of the Revised Code, the policy shall specify any reasons for which the superintendent of the district may reduce any required expulsion period on a case-by-case basis. The policy also shall set forth the acts listed in section 3313.662 of the Revised Code for which a pupil may be permanently excluded. The policy adopted under this division shall specify the date and manner by which a pupil or a pupil’s parent, guardian, or custodian may notify the board of the pupil’s, parent’s, guardian’s, or custodian’s intent to appeal an expulsion or suspension to the board or its designee pursuant to division (E) of section 3313.66 of the Revised Code. In the case of any expulsion, the policy shall not specify a date that is less than fourteen days after the date of the notice provided to the pupil or the pupil’s parent, guardian, or custodian under division (D) of that section. A copy of the policy shall be posted in a central location in the school and made available to pupils upon request. No pupil shall be suspended, expelled, or removed except in accordance with the policy adopted by the board of education of the school district in which the pupil attends school, and no pupil shall be permanently excluded except in accordance with sections 3301.121 and 3313.662 of the Revised Code.
ORC 3313.662. Adjudication order permanently excluding pupil from public schools.

(F)(1)(c) Upon receipt of a resolution of a board of education requesting the revocation of a permanent exclusion of a pupil, the superintendent of public instruction, in accordance with the adjudication procedures of Chapter 119. of the Revised Code, shall issue an adjudication order that revokes the permanent exclusion of the pupil from public school attendance or that rejects the resolution of the board of education.

ORC 3313.662. Adjudication order permanently excluding pupil from public schools.

(A) The superintendent of public instruction, pursuant to this section and the adjudication procedures of section 3301.121 of the Revised Code, may issue an adjudication order that permanently excludes a pupil from attending any of the public schools of this state if the pupil is convicted of, or adjudicated a delinquent child for, committing, when the pupil was sixteen years of age or older, an act that would be a criminal offense if committed by an adult and if the act is any of the following:

(1) A violation of section 2923.122 of the Revised Code;

(2) A violation of section 2923.12 of the Revised Code, of a substantially similar municipal ordinance, or of section 2925.03 of the Revised Code that was committed on property owned or controlled by, or at an activity held under the auspices of, a board of education of a city, local, exempted village, or joint vocational school district;

(3) A violation of section 2925.11 of the Revised Code, other than a violation of that section that would be a minor drug possession offense, that was committed on property owned or controlled by, or at an activity held under the auspices of, the board of education of a city, local, exempted village, or joint vocational school district;

(4) A violation of section 2903.01, 2903.02, 2903.03, 2903.04, 2903.11, 2903.12, 2907.02, or 2907.05 or of former section 2907.12 of the Revised Code that was committed on property owned or controlled by, or at an activity held under the auspices of, a board of education of a city, local, exempted village, or joint vocational school district, if the victim at the time of the commission of the act was an employee of that board of education;

(5) Complicity in any violation described in division (A)(1), (2), (3), or (4) of this section that was alleged to have been committed in the manner described in division (A)(1), (2), (3), or (4) of this section, regardless of whether the act of complicity was committed on property owned or controlled by, or at an activity held under the auspices of, a board of education of a city, local, exempted village, or joint vocational school district.

(B) A pupil may be suspended or expelled in accordance with section 3313.66 of the Revised Code prior to being permanently excluded from public school attendance under this section and section 3301.121 of the Revised Code.

(C)(1) If the superintendent of a city, local, exempted village, or joint vocational school district in which a pupil attends school obtains or receives proof that the pupil has been convicted of committing when the pupil was sixteen years of age or older a violation listed in division (A) of this section or adjudicated a delinquent child for the commission when the pupil was sixteen years of age or older of a violation listed in division (A) of this section, the superintendent may issue to the board of education of the school district a request that the pupil be permanently excluded from public school attendance, if both of the following apply:

(a) After obtaining or receiving proof of the conviction or adjudication, the superintendent or the superintendent's designee determines that the pupil's continued attendance in school may endanger the health and safety of other pupils or school employees and gives the pupil and the pupil's parent, guardian, or custodian written notice that the superintendent intends to recommend to the board of
education that the board adopt a resolution requesting the superintendent of public instruction to permanently exclude the pupil from public school attendance.

(b) The superintendent or the superintendent's designee forwards to the board of education the superintendent's written recommendation that includes the determinations the superintendent or designee made pursuant to division (C)(1)(a) of this section and a copy of the proof the superintendent received showing that the pupil has been convicted of or adjudicated a delinquent child for a violation listed in division (A) of this section that was committed when the pupil was sixteen years of age or older.

(2) Within fourteen days after receipt of a recommendation from the superintendent pursuant to division (C)(1)(b) of this section that a pupil be permanently excluded from public school attendance, the board of education of a city, local, exempted village, or joint vocational school district, after review and consideration of all of the following available information, may adopt a resolution requesting the superintendent of public instruction to permanently exclude the pupil who is the subject of the recommendation from public school attendance:

(a) The academic record of the pupil and a record of any extracurricular activities in which the pupil previously was involved;

(b) The disciplinary record of the pupil and any available records of the pupil's prior behavioral problems other than the behavioral problems contained in the disciplinary record;

(c) The social history of the pupil;

(d) The pupil's response to the imposition of prior discipline and sanctions imposed for behavioral problems;

(e) Evidence regarding the seriousness of and any aggravating factors related to the offense that is the basis of the resolution seeking permanent exclusion;

(f) Any mitigating circumstances surrounding the offense that gave rise to the request for permanent exclusion;

(g) Evidence regarding the probable danger posed to the health and safety of other pupils or of school employees by the continued presence of the pupil in a public school setting;

(h) Evidence regarding the probable disruption of the teaching of any school district's graded course of study by the continued presence of the pupil in a public school setting;

(i) Evidence regarding the availability of alternative sanctions of a less serious nature than permanent exclusion that would enable the pupil to remain in a public school setting without posing a significant danger to the health and safety of other pupils or of school employees and without posing a threat of the disruption of the teaching of any district's graded course of study.

(3) If the board does not adopt a resolution requesting the superintendent of public instruction to permanently exclude the pupil, it immediately shall send written notice of that fact to the superintendent who sought the resolution, to the pupil who was the subject of the proposed resolution, and to that pupil's parent, guardian, or custodian.

(D)(1) Upon adoption of a resolution under division (C) of this section, the board of education immediately shall forward to the superintendent of public instruction the written resolution, proof of the conviction or adjudication that is the basis of the resolution, a copy of the pupil's entire school record, and any other relevant information and shall forward a copy of the resolution to the pupil who is the subject of the recommendation and to that pupil's parent, guardian, or custodian.

(2) The board of education that adopted and forwarded the resolution requesting the permanent exclusion of the pupil to the superintendent of public instruction promptly shall designate a representative of the school district to present the case for permanent exclusion to the superintendent
or the referee appointed by the superintendent. The representative of the school district may be an attorney admitted to the practice of law in this state. At the adjudication hearing held pursuant to section 3301.121 of the Revised Code, the representative of the school district shall present evidence in support of the requested permanent exclusion.

(3) Upon receipt of a board of education's resolution requesting the permanent exclusion of a pupil from public school attendance, the superintendent of public instruction, in accordance with the adjudication procedures of section 3301.121 of the Revised Code, promptly shall issue an adjudication order that either permanently excludes the pupil from attending any of the public schools of this state or that rejects the resolution of the board of education.

(E) Notwithstanding any provision of section 3313.64 of the Revised Code or an order of any court of this state that otherwise requires the admission of the pupil to a school, no school official in a city, local, exempted village, or joint vocational school district knowingly shall admit to any school in the school district a pupil who has been permanently excluded from public school attendance by the superintendent of public instruction.

(F)(1)(a) Upon determining that the school attendance of a pupil who has been permanently excluded from public school attendance no longer will endanger the health and safety of other students or school employees, the superintendent of any city, local, exempted village, or joint vocational school district in which the pupil desires to attend school may issue to the board of education of the school district a recommendation, including the reasons for the recommendation, that the permanent exclusion of a pupil be revoked and the pupil be allowed to return to the public schools of the state. If any violation which in whole or in part gave rise to the permanent exclusion of any pupil involved the pupil's bringing a firearm to a school operated by the board of education of a school district or onto any other property owned or operated by such a board, no superintendent shall recommend under this division an effective date for the revocation of the pupil's permanent exclusion that is less than one year after the date on which the last such firearm incident occurred. However, on a case-by-case basis, a superintendent may recommend an earlier effective date for such a revocation for any of the reasons for which the superintendent may reduce the one-year expulsion requirement in division (B)(2) of section 3313.66 of the Revised Code.

(b) Upon receipt of the recommendation of the superintendent that a permanent exclusion of a pupil be revoked, the board of education of a city, local, exempted village, or joint vocational school district may adopt a resolution by a majority vote of its members requesting the superintendent of public instruction to revoke the permanent exclusion of the pupil. Upon adoption of the resolution, the board of education shall forward a copy of the resolution, the reasons for the resolution, and any other relevant information to the superintendent of public instruction.

(c) Upon receipt of a resolution of a board of education requesting the revocation of a permanent exclusion of a pupil, the superintendent of public instruction, in accordance with the adjudication procedures of Chapter 119. of the Revised Code, shall issue an adjudication order that revokes the permanent exclusion of the pupil from public school attendance or that rejects the resolution of the board of education.

(2)(a) A pupil who has been permanently excluded pursuant to this section and section 3301.121 of the Revised Code may request the superintendent of any city, local, exempted village, or joint vocational school district in which the pupil desires to attend school to admit the pupil on a probationary basis for a period not to exceed ninety school days. Upon receiving the request, the superintendent may enter into discussions with the pupil and with the pupil's parent, guardian, or custodian or a person designated by the pupil's parent, guardian, or custodian to develop a probationary admission plan designed to assist the pupil's probationary admission to the school. The plan may include a treatment program, a behavioral modification program, or any other program
reasonably designed to meet the educational needs of the child and the disciplinary requirements of the school.

If any violation which in whole or in part gave rise to the permanent exclusion of the pupil involved the pupil's bringing a firearm to a school operated by the board of education of any school district or onto any other property owned or operated by such a board, no plan developed under this division for the pupil shall include an effective date for the probationary admission of the pupil that is less than one year after the date on which the last such firearm incident occurred except that on a case-by-case basis, a plan may include an earlier effective date for such an admission for any of the reasons for which the superintendent of the district may reduce the one-year expulsion requirement in division (B)(2) of section 3313.66 of the Revised Code.

(b) If the superintendent of a school district, a pupil, and the pupil's parent, guardian, or custodian or a person designated by the pupil's parent, guardian, or custodian agree upon a probationary admission plan prepared pursuant to division (F)(2)(a) of this section, the superintendent of the school district shall issue to the board of education of the school district a recommendation that the pupil be allowed to attend school within the school district under probationary admission, the reasons for the recommendation, and a copy of the agreed upon probationary admission plan. Within fourteen days after the board of education receives the recommendation, reasons, and plan, the board may adopt the recommendation by a majority vote of its members. If the board adopts the recommendation, the pupil may attend school under probationary admission within that school district for a period not to exceed ninety days or any additional probationary period permitted under divisions (F)(2)(d) and (e) of this section in accordance with the probationary admission plan prepared pursuant to division (F)(2)(a) of this section.

(c) If a pupil who is permitted to attend school under probationary admission pursuant to division (F)(2)(b) of this section fails to comply with the probationary admission plan prepared pursuant to division (F)(2)(a) of this section, the superintendent of the school district immediately may remove the pupil from the school and issue to the board of education of the school district a recommendation that the probationary admission be revoked. Within five days after the board of education receives the recommendation, the board may adopt the recommendation to revoke the pupil's probationary admission by a majority vote of its members. If a majority of the board does not adopt the recommendation to revoke the pupil's probationary admission, the pupil shall continue to attend school in compliance with the pupil's probationary admission plan.

(d) If a pupil who is permitted to attend school under probationary admission pursuant to division (F)(2)(b) of this section complies with the probationary admission plan prepared pursuant to division (F)(2)(a) of this section, the pupil or the pupil's parent, guardian, or custodian, at any time before the expiration of the ninety-day probationary admission period, may request the superintendent of the school district to extend the terms and period of the pupil's probationary admission for a period not to exceed ninety days or to issue a recommendation pursuant to division (F)(1) of this section that the pupil's permanent exclusion be revoked and the pupil be allowed to return to the public schools of this state.

(e) If a pupil is granted an extension of the pupil's probationary admission pursuant to division (F)(2)(d) of this section, the pupil or the pupil's parent, guardian, or custodian, in the manner described in that division, may request, and the superintendent and board, in the manner described in that division, may recommend and grant, subsequent probationary admission periods not to exceed ninety days each. If a pupil who is permitted to attend school under an extension of a probationary admission plan complies with the probationary admission plan prepared pursuant to the extension, the pupil or the pupil's parent, guardian, or custodian may request a revocation of the pupil's permanent exclusion in the manner described in division (F)(2)(d) of this section.
(f) Any extension of a probationary admission requested by a pupil or a pupil's parent, guardian, or custodian pursuant to divisions (F)(2)(d) or (e) of this section shall be subject to the adoption and approval of a probationary admission plan in the manner described in divisions (F)(2)(a) and (b) of this section and may be terminated as provided in division (F)(2)(c) of this section.

(g) If the pupil has complied with any probationary admission plan and the superintendent issues a recommendation that seeks revocation of the pupil's permanent exclusion pursuant to division (F)(1) of this section, the pupil's compliance with any probationary admission plan may be considered along with other relevant factors in any determination or adjudication conducted pursuant to division (F)(1) of this section.

(G)(1) Except as provided in division (G)(2) of this section, any information regarding the permanent exclusion of a pupil shall be included in the pupil's official records and shall be included in any records sent to any school district that requests the pupil's records.

(2) When a pupil who has been permanently excluded from public school attendance reaches the age of twenty-two or when the permanent exclusion of a pupil has been revoked, all school districts that maintain records regarding the pupil's permanent exclusion shall remove all references to the exclusion from the pupil's file and shall destroy them.

A pupil who has reached the age of twenty-two or whose permanent exclusion has been revoked may send a written notice to the superintendent of any school district maintaining records of the pupil's permanent exclusion requesting the superintendent to ensure that the records are removed from the pupil's file and destroyed. Upon receipt of the request and a determination that the pupil is twenty-two years of age or older or that the pupil's permanent exclusion has been revoked, the superintendent shall ensure that the records are removed from the pupil's file and destroyed.

(H)(1) This section does not apply to any of the following:

(a) An institution that is a residential facility, that receives and cares for children, that is maintained by the department of youth services, and that operates a school chartered by the state board of education under section 3301.16 of the Revised Code;

LAWS

OHC 3313.66. Suspension, expulsion or permanent exclusion - removal from curricular or extracurricular activities.

(A) Except as provided under division (B)(2) of this section, and subject to section 3313.668 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district, or the principal of a public school may suspend a pupil from school for not more than ten school days. The board of education of a city, exempted village, or local school district may adopt a policy granting assistant principals and other administrators the authority to suspend a pupil from school for a period of time as specified in the policy of the board of education, not to exceed ten school days. If at the time an out-of-school suspension is imposed there are fewer than ten school days remaining in the school year in which the incident that gives rise to the suspension takes place, the superintendent shall not apply any remaining part of the period of the suspension to the following school year. The superintendent may instead require the pupil to participate in a community service program or another alternative consequence for a number of hours equal to the remaining part of the period of the suspension. The student may not be required to begin the pupil's community service or alternative consequence during the first full week day of summer break. Each school district, in its discretion, may develop an appropriate list of alternative consequences. In the event that a pupil fails to complete community service or the assigned alternative consequence, the school district may determine the next course of action, which shall not include requiring the pupil to serve the remaining time of the out-of-school suspension at the beginning of the following school year.

Except in the case of a pupil given an in-school suspension, no pupil shall be suspended unless prior to the suspension the superintendent or principal does both of the following:

(1) Gives the pupil written notice of the intention to suspend the pupil and the reasons for the intended suspension and, if the proposed suspension is based on a violation listed in division (A) of section 3313.662 of the Revised Code and if the pupil is sixteen years of age or older, includes in the notice a statement that the superintendent may seek to permanently exclude the pupil if the pupil is convicted of or adjudicated a delinquent child for that violation;
(2) Provides the pupil an opportunity to appear at an informal hearing before the principal, assistant principal, superintendent, or superintendent's designee and challenge the reason for the intended suspension or otherwise to explain the pupil's actions.

If a pupil is suspended pursuant to division (A) of this section, the school district board may, in its discretion, permit the pupil to complete any classroom assignments missed because of the suspension.

(K) As used in this section:

(1) "Permanently exclude" and "permanent exclusion" have the same meanings as in section 3313.662 of the Revised Code.

(2) "In-school suspension" means the pupil will serve all of the suspension in a school setting.

If the board of education of a school district adopts a resolution providing that the provisions of division (B)(2) of this section apply within the district, and if the superintendent of schools of that district receives information that, during any semester or term, a child of compulsory school age has been absent without legitimate excuse from the school the child is supposed to attend for more than sixty consecutive hours in a single month or for at least ninety hours in a school year, the superintendent shall notify the child and the child’s parent, guardian, or custodian, in writing, that the information has been provided to the superintendent, that as a result of that information the child’s temporary instruction permit or driver's license will be suspended or the opportunity to obtain such a permit or license will be denied, and that the child and the child's parent, guardian, or custodian may appear in person at a scheduled date, time, and place before the superintendent or a designee to challenge the information provided to the superintendent.

The notification to the child and the child’s parent, guardian, or custodian required by division (B)(2) of this section shall set forth the information received by the superintendent and shall inform the child and the child's parent, guardian, or custodian of the scheduled date, time, and place of the appearance that they may have before the superintendent or a designee. If the child and the child’s parent, guardian, or custodian do not appear before the superintendent or a designee on the scheduled date and at the scheduled time and place, or if the child and the child’s parent, guardian, or custodian do not appear before the superintendent or a designee on the scheduled date and at the scheduled time and place but the superintendent or a designee determines that the information the superintendent received indicating that, during the semester or term, the child had been absent without legitimate excuse from the school the child was supposed to attend for more than sixty consecutive hours or for at least ninety total hours, the superintendent shall notify the registrar of motor vehicles and the juvenile judge of the county in which the district is located that the child has been absent for that period of time and that the child does not have any legitimate excuse for the habitual absence. A notification to the registrar required by this division shall be given in the manner the registrar by rule requires and a notification to the juvenile judge required by this division shall be given in writing. Each notification shall be given within two weeks after the receipt of the information of the habitual absence from school without legitimate excuse, or, if the child and the child’s parent, guardian, or custodian do not appear before the superintendent or a designee to challenge the information, within two weeks after the appearance.

Any such notification of suspension or expulsion shall be given to the registrar, in the manner the registrar by rule requires and shall be given to the juvenile judge in writing. The notifications shall be given within two weeks after the suspension or expulsion.

(4) Whenever a pupil is suspended, expelled, removed, or permanently excluded from a school for misconduct included in a policy that the board of education of a city, exempted village, or local school district has adopted under division (A) of section 3313.661 of the Revised Code, and the misconduct involves a firearm or a knife or other weapon as defined in that policy, the superintendent of schools of that district shall notify the registrar and the juvenile judge of the county in which the district is located of the suspension, expulsion, removal, or permanent exclusion. The notification shall be given to the registrar in the manner the registrar, by rule, requires and shall be given to the juvenile judge in writing. The notifications shall be given within two weeks after the suspension, expulsion, removal, or permanent exclusion.

has failed to cause the student's attendance at school, the board may require the parent, guardian, or other person having care of the child pursuant to division (B) of this section to attend an educational program established pursuant to rules adopted by the state board of education for the purpose of encouraging parental involvement in compelling the attendance of the child at school.

No parent, guardian, or other person having care of a child shall fail without good cause to attend an educational program described in this division if the parent, guardian, or other person has been served notice pursuant to division (C) of this section.

(C) On the request of the superintendent of schools, the superintendent of any educational service center, the board of education of any city, exempted village, local, joint vocational, or cooperative education school district, or the governing board of any educational service center or when it otherwise comes to the notice of the attendance officer or other appropriate officer of the school district, the attendance officer or other appropriate officer shall examine into any case of supposed truancy within the district and shall warn the child, if found truant, and the child's parent, guardian, or other person having care of the child, in writing, of the legal consequences of being truant. When any child of compulsory school age, in violation of law, is not attending school, the attendance or other appropriate officer shall notify the parent, guardian, or other person having care of that child of the fact, and require the parent, guardian, or other person to cause the child to attend school immediately. The parent, guardian, or other person having care of the child shall cause the child's attendance at school. Upon the failure of the parent, guardian, or other person having care of the child to do so, the attendance officer or other appropriate officer, if so directed by the superintendent, the district board, or the educational service center governing board, shall send notice requiring the attendance of that parent, guardian, or other person at a parental education program established pursuant to division (B) of this section and, subject to divisions (D) and (E) of this section, may file a complaint against the parent, guardian, or other person having care of the child in any court of competent jurisdiction.

(D)(1) Upon the failure of the parent, guardian, or other person having care of the child to cause the child's attendance at school, if the child is considered an habitual truant, the board of education of the school district or the governing board of the educational service center, within ten days, subject to division (E) of this section, shall assign the student to an absence intervention team as described in division (C) of section 3321.191 of the Revised Code.

The board shall incorporate into the policy as an intervention strategy the assignment of an habitual truant to an alternative school pursuant to section 3313.533 of the Revised Code if an alternative school has been established by the board under that section.

(B) The policy developed under division (A) of this section may include as an intervention strategy any of the following actions, if appropriate:

If the parent, guardian, or other person in charge of that child fails to cause the child's attendance at the part-time school or class, the attendance officer shall make complaint against the parent, guardian, or other person in charge of the child in the juvenile court of the county in which the child has a residence or legal settlement or in which the child is supposed to attend the part-time school or class.

**ORC 4510.32. Suspension of license of minor upon withdrawal from school or habitual absence.**

(A) The registrar of motor vehicles shall record within ten days of receipt and keep at the main office of the bureau of motor vehicles all information provided to the registrar by the superintendent of a school district in accordance with division (B) of section 3321.13 of the Revised Code.

(B) Whenever the registrar receives a notice under division (B) of section 3321.13 of the Revised Code, the registrar shall impose a class F suspension of the temporary instruction permit or driver's license of the person who is the subject of the notice for the period of time specified in division (B)(6) of section 4510.02 of the Revised Code, or, if the person has not been issued a temporary instruction permit or driver's license, the registrar shall deny to the person the issuance of a permit or license. The requirements of the second paragraph of section 119.06 of the Revised Code do not apply to a suspension of a person's temporary instruction permit or driver's license or a denial of a person's opportunity to obtain a temporary instruction permit or driver's license by the registrar under this division.
(C) Upon suspending the temporary instruction permit or driver's license of any person or denying any
person the opportunity to be issued such a license or permit as provided in division (B) of this section, the
registrar immediately shall notify the person in writing of the suspension or denial and inform the person
that the person may petition for a hearing as provided in division (E) of this section.

(D) Any person whose permit or license is suspended under this section shall mail or deliver the person's
permit or license to the registrar of motor vehicles within twenty days of notification of the suspension;
however, the person's permit or license and the person's driving privileges shall be suspended
immediately upon receipt of the notification. The registrar may retain the permit or license during the
period of the suspension or the registrar may destroy it under section 4510.52 of the Revised Code.

(E) Any person whose temporary instruction permit or driver's license has been suspended, or whose
opportunity to obtain such a permit or license has been denied pursuant to this section, may file a petition
in the juvenile court in whose jurisdiction the person resides alleging error in the action taken by the
registrar under division (B) of this section or alleging one or more of the matters within the scope of the
hearing, as described in this division, or both. The petitioner shall notify the registrar and the

result in substantial hardship to the petitioner.

The registrar shall furnish the court a copy of the record created in accordance with division (A) of this
section. The registrar and the superintendent shall furnish the court with any other relevant information
required by the court.

In hearing the matter and determining whether the petitioner has shown that the petitioner's temporary
instruction permit or driver's license should not be suspended or that the petitioner's opportunity to obtain
such a permit or license should not be denied, the court shall decide the issue upon the information
furnished by the registrar and the superintendent and any such additional evidence that the registrar, the
superintendent, or the petitioner submits.

If the court finds from the evidence submitted that the petitioner has failed to show error in the action
taken by the registrar under division (B) of this section and has failed to prove any of the matters within
the scope of the hearing, then the court may assess the cost of the proceeding against the petitioner and
shall uphold the suspension of the petitioner's permit or license or the denial of the petitioner's opportunity
to obtain a permit or license. If the court finds that the petitioner has shown error in the action taken by
the registrar under division (B) of this section or has proved one or more of the matters within the scope
of the hearing, or both, the cost of the proceeding shall be paid out of the county treasury of the county in
which the proceedings were held, and the suspension of the petitioner's permit or license or the denial of
the person's opportunity to obtain a permit or license shall be terminated.

(F) The registrar shall cancel the record created under this section of any person who is the subject of a
notice given under division (B) of section 3321.13 of the Revised Code and shall terminate the
suspension of the person's permit or license or the denial of the person's opportunity to obtain a permit or
license, if any of the following applies:

diploma or a certificate of high school equivalence.

(5) The suspension or denial was imposed subsequent to a notification given under division (B)(1) of section 3321.13 of the Revised Code, and the superintendent of a school district informs the registrar that the person in question is now attending school or enrolled in and attending an approved program to obtain a diploma or its equivalent to the satisfaction of the school superintendent.

(6) The suspension or denial was imposed subsequent to a notification given under division (B)(2) of section 3321.13 of the Revised Code, the person has completed at least one semester or term of school after the one in which the notification was given, the person requests the superintendent of the school district to notify the registrar that the person no longer is habitually absent without legitimate excuse, the superintendent determines that the person has not been absent from school without legitimate excuse in the current semester or term, as determined under that division, for more than sixty consecutive hours or for more than ninety total hours, and the superintendent informs the registrar of that fact. If a person described in division (F)(6) of this section requests the superintendent of the school district to notify the registrar that the person no longer is habitually absent without legitimate excuse and the superintendent makes the determination described in this division, the superintendent shall provide the information described in division (F)(6) of this section to the registrar within five days after receiving the request.

(7) The suspension or denial was imposed subsequent to a notification given under division (B)(2) of section 3321.13 of the Revised Code, and the superintendent of a school district informs the registrar that the person in question has received an age and schooling certificate in accordance with section 3331.01 of the Revised Code.

(8) The person filed a petition in court under division (E) of this section and the court found that the person showed error in the action taken by the registrar under division (B) of this section or proved one or more of the matters within the scope of the hearing on the petition, as set forth in division (E) of this section, or both.

At the end of the suspension period under this section and upon the request of the person whose temporary instruction permit or driver's license was suspended, the registrar shall return the driver's license or permit to the person or reissue the person's license or permit under section 4510.52 of the Revised Code, if the registrar destroyed the suspended license or permit under that section.

(B)

(2) The board of education of a school district may adopt a resolution providing that the provisions of division (B)(2) of this section apply within the district. The provisions of division (B) (2) of this section do not apply within any school district, and no superintendent of a school district shall send a notification of the type described in division (B)(2) of this section to the registrar of motor vehicles or the juvenile judge of the county in which the district is located, unless the board of education of the district has adopted such a resolution. If the board of education of a school district adopts a resolution providing that the
provisions of division (B)(2) of this section apply within the district, and if the superintendent of schools of that district receives information that, during any semester or term, a child of compulsory school age has been absent without legitimate excuse from the school the child is supposed to attend for more than sixty consecutive hours in a single month or for at least ninety hours in a school year, the superintendent shall notify the child and the child's parent, guardian, or custodian, in writing, that the information has been provided to the superintendent, that as a result of that information the child's temporary instruction permit or driver's license will be suspended or the opportunity to obtain such a permit or license will be denied, and that the child and the child's parent, guardian, or custodian may appear in person at a scheduled date, time, and place before the superintendent or a designee to challenge the information provided to the superintendent.

If an extension is granted, the superintendent shall schedule a new date, time, and place for the appearance and shall inform the child and the child's parent, guardian, or custodian of the new date, time, and place.

If the child and the child's parent, guardian, or custodian do not appear before the superintendent or a designee on the scheduled date and at the scheduled time and place, or if the child and the child's parent, guardian, or custodian appear before the superintendent or a designee on the scheduled date and at the scheduled time and place but the superintendent or a designee determines that the information the superintendent received indicating that, during the semester or term, the child had been absent without legitimate excuse from the school the child was supposed to attend for more than sixty consecutive hours or for at least ninety total hours, the superintendent shall notify the registrar of motor vehicles and the juvenile judge of the county in which the district is located that the child has been absent for that period of time and that the child does not have any legitimate excuse for the habitual absence. A notification to the registrar required by this division shall be given in the manner the registrar by rule requires and a notification to the juvenile judge required by this division shall be given in writing. Each notification shall be given within two weeks after the receipt of the information of the habitual absence from school without legitimate excuse, or, if the child and the child's parent, guardian, or custodian appear before the superintendent or a designee to challenge the information, within two weeks after the appearance.

For purposes of division (B)(2) of this section, a legitimate excuse for absence from school includes, but is not limited to, the fact that the child in question has enrolled in another school or school district in this or another state, the fact that the child in question was excused from attendance for any of the reasons specified in section 3321.04 of the Revised Code, or the fact that the child in question has received an age and schooling certificate in accordance with section 3331.01 of the Revised Code.

writing, of the legal consequences of being truant. When any child of compulsory school age, in violation
of law, is not attending school, the attendance or other appropriate officer shall notify the parent,
guardian, or other person having care of that child of the fact, and require the parent, guardian, or other
person to cause the child to attend school immediately. The parent, guardian, or other person having care
of the child shall cause the child's attendance at school. Upon the failure of the parent, guardian, or other
person having care of the child to do so, the attendance officer or other appropriate officer, if so directed
by the superintendent, the district board, or the educational service center governing board, shall send
notice requiring the attendance of that parent, guardian, or other person at a parental education program

(L)
(1) In accordance with division (L)(2) of this section and the rules adopted under division (L)(10) of this section, the department of education may sanction any school district that reports incomplete or inaccurate data, reports data that does not conform to data requirements and descriptions published by the department, fails to report data in a timely manner, or otherwise does not make a good faith effort to report data as required by this section.

(2) If the department decides to sanction a school district under this division, the department shall take the following sequential actions:

(a) Notify the district in writing that the department has determined that data has not been reported as required under this section and require the district to review its data submission and submit corrected data by a deadline established by the department. The department also may require the district to develop a corrective action plan, which shall include provisions for the district to provide mandatory staff training on data reporting procedures.

(b) Withhold up to ten per cent of the total amount of state funds due to the district for the current fiscal year and, if not previously required under division (L)(2)(a) of this section, require the district to develop a corrective action plan in accordance with that division;

(c) Withhold an additional amount of up to twenty per cent of the total amount of state funds due to the district for the current fiscal year;

(d) Direct department staff or an outside entity to investigate the district's data reporting practices and make recommendations for subsequent actions. The recommendations may include one or more of the following actions:

(viii) If the district is issued a report card under section 3302.03 of the Revised Code and incomplete or inaccurate data submitted by the district likely caused the district to receive a higher performance rating than it deserved under that section, issue a revised report card for the district;

(ix) Any other action designed to correct the district's data reporting problems.

(3) Any time the department takes an action against a school district under division (L)(2) of this section, the department shall make a report of the circumstances that prompted the action. The department shall send a copy of the report to the district superintendent or chief administrator and maintain a copy of the report in its files.

(4) If any action taken under division (L)(2) of this section resolves a school district's data reporting problems to the department's satisfaction, the department shall not take any further actions described by that division. If the department withheld funds from the district under that division, the department may release those funds to the district, except that if the department withheld funding under division (L)(2)(c) of this section, the department shall not release the funds withheld under division (L)(2)(b) of
this section and, if the department withheld funding under division (L)(2)(d) of this section, the
department shall not release the funds withheld under division (L)(2)(b) or (c) of this section.

(5) Notwithstanding anything in this section to the contrary, the department may use its own staff or an
outside entity to conduct an audit of a school district's data reporting practices any time the department
has reason to believe the district has not made a good faith effort to report data as required by this
section. If any audit conducted by an outside entity under division (L)(2)(d)(j) or (5) of this section
confirms that a district has not made a good faith effort to report data as required by this section, the
district shall reimburse the department for the full cost of the audit. The department may withhold state
funds due to the district for this purpose.

(6) Prior to issuing a revised report card for a school district under division (L)(2)(d)(viii) of this section,
the department may hold a hearing to provide the district with an opportunity to demonstrate that it
made a good faith effort to report data as required by this section. The hearing shall be conducted by a
referee appointed by the department. Based on the information provided in the hearing, the referee
shall recommend whether the department should issue a revised report card for the district. If the
referee affirms the department’s contention that the district did not make a good faith effort to report
data as required by this section, the district shall bear the full cost of conducting the hearing and of
issuing any revised report card.

(7) If the department determines that any inaccurate data reported under this section caused a school
district to receive excess state funds in any fiscal year, the district shall reimburse the department an
amount equal to the excess funds, in accordance with a payment schedule determined by the
department. The department may withhold state funds due to the district for this purpose.

(8) Any school district that has funds withheld under division (L)(2) of this section may appeal the
withholding in accordance with Chapter 119. of the Revised Code.

(9) In all cases of a disagreement between the department and a school district regarding the
appropriateness of an action taken under division (L)(2) of this section, the burden of proof shall be on
the district to demonstrate that it made a good faith effort to report data as required by this section.

(10) The state board of education shall adopt rules under Chapter 119. of the Revised Code to
implement division (L) of this section.

(M) No information technology center or school district shall acquire, change, or update its student

Code, may suspend or revoke a license as defined under division (A) of section 3319.31 of the Revised
Code that has been issued to any school district employee found to have willfully reported erroneous,
inaccurate, or incomplete data to the education management information system.

(O) No person shall release or maintain any information about any student in violation of this section.
Whoever violates this division is guilty of a misdemeanor of the fourth degree.

(P) The department shall disaggregate the data collected under division (B)(1)(n) of this section according
to the race and socioeconomic status of the students assessed.

(Q) If the department cannot compile any of the information required by division (H) of section 3302.03 of
the Revised Code based upon the data collected under this section, the department shall develop a plan
and a reasonable timeline for the collection of any data necessary to comply with that division.

4. Requesting or requiring a parent, guardian, or other person having care of an habitual truant to attend truancy prevention mediation programs;
5. Notification of the registrar of motor vehicles under section 3321.13 of the Revised Code;
6. Taking legal action under section 2919.222, 3321.20, or 3321.38 of the Revised Code.

(C)(1) In the event that a child of compulsory school age is absent with or without legitimate excuse from the public school the child is supposed to attend for thirty-eight or more hours in one school month, or sixty-five or more hours in a school year, the attendance officer of that school shall notify the child's parent, guardian, or custodian of the child's absences, in writing, within seven days after the date that triggered the notice requirement. At the time notice is given, the school also may take any appropriate action as an intervention strategy contained in the policy developed by the board pursuant to division (A) of this section.

(2)(a) If the absences of a student surpass the threshold for an habitual truant as set forth in section 2151.011 of the Revised Code, the principal or chief administrator of the school or the superintendent of the school district shall assign the student to an absence intervention team. Within fourteen school days after the assignment of a student to an absence intervention team, the team shall develop an intervention plan for that student in an effort to reduce or eliminate further absences. Each intervention plan shall vary based on the individual needs of the student, but the plan shall state that the attendance officer shall file a complaint not later than sixty-one days after the date the plan was implemented, if the child has refused to participate in, or failed to make satisfactory progress on, the intervention plan or an alternative to adjudication under division (C)(2)(b) of section 3321.191 of the Revised Code. Within seven days after the development of the plan, the school district or school shall make reasonable efforts to provide the student's parent, guardian, custodian, guardian ad litem, or temporary custodian with written notice of the plan.

(b) As part of the absence intervention plan described in division (C)(2) of this section, the school district or school, in its discretion, may contact the appropriate juvenile court and ask to have a
student informally enrolled in any alternative to adjudication described in division (G) of section 2 151.27 of the Revised Code. If the school district or school chooses to have students informally enrolled in an alternative to adjudication, the school district or school shall develop a written policy regarding the use of, and selection process for, offering alternatives to adjudication to ensure fairness.

(c) The superintendent of each school district, or the superintendent's designee, shall establish an absence intervention team for the district to be used by any schools of the district that do not establish their own absence intervention team as permitted under division (C)(2)(d) of this section. Membership of each absence intervention team may vary based on the needs of each individual student but shall include a representative from the child's school district or school, another representative from the child's school district or school who knows the child, and the child's parent or parent's designee, or the child's guardian, custodian, guardian ad litem, or temporary custodian. The team also may include a school psychologist, counselor, social worker, or representative of a public or nonprofit agency designed to assist students and their families in reducing absences.

(d) The principal or chief administrator of each school may establish an absence intervention team or series of teams to be used in lieu of the district team established pursuant to division (C)(2)(c) of this section. Membership of each absence intervention team may vary based on the needs of each individual student but shall include a representative from the child's school district or school, another representative from the child's school district or school who knows the child, and the child's parent or parent's designee, or the child's guardian, custodian, guardian ad litem, or temporary custodian. The team also may include a school psychologist, counselor, social worker, or representative of a public or nonprofit agency designed to assist students and their families in reducing absences.

(e) A superintendent, as described in division (C)(2)(c) of this section, or principal or chief administrator, as described in division (C)(2)(d) of this section, shall select the members of an absence intervention team within seven school days of the triggering event described in division (C)(2)(a) of this section. The superintendent, principal, or chief administrator, within the same period of seven school days, shall make at least three meaningful, good faith attempts to secure the participation of the student's parent, guardian, custodian, guardian ad litem, or temporary custodian on that team. If the student's parent responds to any of those attempts, but is unable to participate for any reason, the representative of the school district shall inform the parent of the parent's right to appear by designee. If seven school days elapse and the student's parent, guardian, custodian, guardian ad litem, or temporary custodian fails to respond to the attempts to secure participation, the school district or school shall do both of the following:

(i) Investigate whether the failure to respond triggers mandatory reporting to the public children services agency for the county in which the child resides in the manner described in section 2151.421 of the Revised Code;
(ii) Instruct the absence intervention team to develop an intervention plan for the child notwithstanding the absence of the child's parent, guardian, custodian, guardian ad litem, or temporary custodian.

(f) In the event that a student becomes habitually truant within twenty-one school days prior to the last day of instruction of a school year, the school district or school may, in its discretion, assign one school official to work with the child's parent, guardian, custodian, guardian ad litem, or temporary custodian to develop an absence intervention plan during the summer. If the school district or school selects this method, the plan shall be implemented not later than seven days prior to the first day of instruction of the next school year. In the alternative, the school district or school may toll the time periods to accommodate for the summer months and reconvene the absence intervention process upon the first day of instruction of the next school year.
(3) For purposes of divisions (C)(2)(c) and (d) of this section, the state board of education shall develop a format for parental permission to ensure compliance with the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232g, as amended, and any regulations promulgated under that act, and section 3319.321 of the Revised Code.

(D) Each school district or school may consult or partner with public and nonprofit agencies to provide assistance as appropriate to students and their families in reducing absences.

(E) Beginning with the 2017-2018 school year, each school district shall report to the department of education, as soon as practicable, and in a format and manner determined by the department, any of the following occurrences:

1. When a notice required by division (C)(1) of this section is submitted to a parent, guardian, or custodian;
2. When a child of compulsory school age has been absent without legitimate excuse from the public school the child is supposed to attend for thirty or more consecutive hours, forty-two or more hours in one school month, or seventy-two or more hours in a school year;
3. When a child of compulsory school age who has been adjudicated an unruly child for being an habitual truant violates the court order regarding that adjudication;
4. When an absence intervention plan has been implemented for a child under this section.

(F) Nothing in this section shall be construed to limit the duty or authority of a district board of education or governing body of an educational service center to develop other policies related to truancy or to limit the duty or authority of any employee of the school district or service center to respond to pupil truancy. However, a board shall be subject to the prohibition against suspending, expelling, or otherwise preventing a student from attending school for excessive absences as prescribed by section 3313.668 of the Revised Code.

Compilation of School
Discipline Laws and
Regulations

Prepared: January 26, 2018
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. LAWS

70 O.S. §24-100.4. Control and discipline of child.

A. Each district board of education shall adopt a policy for the discipline of all children attending public school in that district, and for the investigation of reported incidents of bullying. The policy shall provide options for the discipline of the students and shall define standards of conduct to which students are expected to conform. The policy shall:

1. Specifically address bullying by students at school and by electronic communication, if the communication is specifically directed at students or school personnel and concerns bullying at school;
2. Contain a procedure for reporting an act of bullying to a school official or law enforcement agency, including a provision that permits a person to report an act anonymously. No formal disciplinary action shall be taken solely on the basis of an anonymous report;
3. Contain a requirement that any school employee that has reliable information that would lead a reasonable person to suspect that a person is a target of bullying shall immediately report it to the principal or a designee of the principal;
4. Contain a statement of how the policy is to be publicized including a requirement that:
   a. an annual written notice of the policy be provided to parents, guardians, staff, volunteers and students, with age-appropriate language for students,
   b. notice of the policy be posted at various locations within each school site, including but not limited to cafeterias, school bulletin boards, and administration offices,
   c. the policy be posted on the Internet website for the school district and each school site that has an Internet website, and
   d. the policy be included in all student and employee handbooks;
5. Require that appropriate school district personnel involved in investigating reports of bullying make a determination regarding whether the conduct is actually occurring;
6. Contain a procedure for providing timely notification to the parents or guardians of a victim of documented and verified bullying and to the parents or guardians of the perpetrator of the documented and verified bullying;
7. Identify by job title the school official responsible for enforcing the policy;
8. Contain procedures for reporting to law enforcement all documented and verified acts of bullying which may constitute criminal activity or reasonably have the potential to endanger school safety;
9. Require annual training for administrators and school employees as developed and provided by the State Department of Education in preventing, identifying, responding to and reporting incidents of bullying;

70 O.S. §1210.561. Competitive grants to agencies providing services to high challenge children and youth.

A. Contingent upon the provision of appropriated funds designated for Alternative Approaches grants, the State Board of Education is authorized to award one or more such competitive grants to local education agencies, nonprofit organizations, or entities formed by interlocal cooperative agreements pursuant to Section 5-117b of this title. The grant awards shall be made to school districts located in counties with a high number of dropouts for the school year preceding the year for which the grant is being sought, and a high number of referrals to the juvenile justice system. If the grant award is to a nonprofit organization or
entity formed by an interlocal cooperative agreement, the program shall serve students in school districts
located in counties with a high number of dropouts and a high number of referrals to the juvenile justice
system. The funds shall be awarded to programs specifically providing targeted services to high
challenge children. High challenge children are those at risk of failing to complete a satisfactory
education. Alternative Approaches grants shall include high challenge grants for programs serving
elementary and middle grade students and grants for middle grade level and other specified alternative
education programs. Competitive grants shall be of statewide significance and shall be replicable across
the state. Beginning July 1, 1993, at least twenty percent (20%) of the total dollar amount of Alternative
Approaches grants shall be awarded to districts replicating state-validated programs. State validation is a
process carried out by the Alternative Approaches Programs Technical Assistance Center by which grant-
funded programs are evaluated for effectiveness in reaching the targeted population, local and state
significance, and replicability. The Technical Assistance Center shall report to the State Department of
Education the name and description of any program which receives state validation.

B. To be eligible for a High Challenge grant, a program shall meet research-based criteria set by the
State Department of Education. The Alternative Approaches Technical Assistance Center shall provide
the Department with research and recommendations on effective programming for high challenge
children.

C. The State Board of Education is further authorized to award one competitive grant for operation of an
Alternative Approaches Programs Technical Assistance Center. Said programs shall not supplant
programs or activities funded by the United States Government pursuant to Chapter 1 of Title I of the
Elementary and Secondary Education Act of 1965, as amended. The Alternative Approaches Technical
Assistance Center grant recipient shall have priority, if its operations are deemed satisfactory by the State
Board of Education and if funds are available, for annual renewal of the grant.

D. Service program grant recipients shall have priority, if recommended by the Technical Assistance
Center and if funds are available, for annual renewal of grants by the State Board of Education in
amounts and on conditions as provided in this section. If a district has received grants for an at risk or
high challenge program for three consecutive school years and if the program upon evaluation by the
Technical Assistance Center meets the criteria set forth in subsection A of this section and satisfies
criteria set forth in rules adopted by the State Board of Education pursuant to subsection E of this section,
funding shall be as follows:

1. Funding for the fourth consecutive school year shall be in the amount of fifty percent (50%) of the
average amount of grants awarded for the program pursuant to this section for the first three (3)
consecutive school years; and

2. Except as otherwise provided, funding for the fifth consecutive school year shall be awarded only if
the program has been state-validated and replicated by another district; for programs that have
received funding for three (3) years prior to July 1, 1992, funding will be awarded only if the program is
state-validated and the grantee documents attempts to have the program replicated; if funding is
awarded, it shall be in the amount of twenty-five percent (25%) of the average amount of grants
awarded to the program pursuant to this section for the first three (3) consecutive school years.

All grants for the fourth and fifth school years as provided above shall be matched with local funds or in-
kind contributions. Programs which received grants continuously for five (5) consecutive school years
shall not thereafter be eligible for grants pursuant to this section.

E. Rules adopted by the State Board of Education shall incorporate or provide for, but not necessarily be
limited to:

1. Definition of the children deemed high challenge for whom services are sought; provided the
definition shall be consistent with the description of high challenge children set forth in subsection A of
this section;
2. The possibility of awards for one or more of a variety of program proposals targeted for services to limited portions of the high challenge population according to such distinctions as age groupings, rural or urban settings, other cultural characteristics, or innovative service delivery strategies;

3. Requirements that service program grant recipients have clear and measurable goals and objectives; show evidence of having given reasonable consideration to coordination with other community agencies and resources, where appropriate, in the development of their proposals; and agree to comply with all requirements of the Technical Assistance Center regarding use of assessment instruments, provision of data, and provision of information necessary for program evaluation;

4. Requirements that the recipient of the Technical Assistance Center grant show command of relevant research and demonstrate capability for: Providing technical assistance, including operation of clearinghouse functions; coordinating with agencies such as the Oklahoma Arts Council; performing assessment of high challenge children; evaluating programs for effectiveness; making program cost assessments; promoting replication of successful programs; and capability for assisting program providers in attaining national validation of their programs and qualifying for federal funding;

5. Utilization of a selection committee to review applications for program and Technical Assistance Center grants and make recommendations to the State Board of Education, said selection committee to include, to the greatest extent feasible under constraints of time and funding, nationally recognized experts in the education of high challenge children; and

6. Revocation of any high challenge or at risk grant awarded to, and ineligibility for award of any future high challenge grant pursuant to this act to, any grant recipient who has employed prior to May 24, 1991, any person who served as a volunteer assisting with the initial preparation of proposed rules for high challenge (formerly designated as at risk) grant programs or any person serving as a member of a selection committee during or within two (2) years following such person's service pursuant to paragraph 5 of this subsection.

A. Each year by December 1, every school district that serves middle school, junior high school and secondary school students shall conduct and report to the State Department of Education a needs assessment to identify those students in grades six through twelve who are most at risk of not completing a high school education for a reason other than that identified in Section 13-101 of this title, including students under the age of nineteen (19) who reside in the district and have dropped out of school or are or have been suspended from school. Districts shall utilize data and information from juvenile justice agencies and the Office of Accountability in conducting the needs assessments. The results of the needs assessments shall be reported to the State Department of Education in a format specified by the Department.

B. C. The alternative education program of a school district shall be operational and serving students by September 15 of each school year.

D. Each alternative education program of a school district shall receive funding based on the combined number of dropouts and students within the district who have been referred to a county juvenile service unit, a county juvenile bureau or who have been committed to the custody of the Office of Juvenile Affairs. Provided, any school district not receiving such a recommendation for continued funding may request a hearing before the Board with a review of the evaluation prior to the Board's final determination.

H. All alternative education programs shall be subject to statutes and rules applicable to alternative education, including any exemptions from statutory or regulatory requirements authorized by statutes or rule.

I. An alternative education program may be offered by an individual school district or may be offered jointly by school districts that have formed interlocal cooperative agreements pursuant to Section 5-117b of this title. 70 O.S. §1210.561. Competitive grants to agencies providing services to high challenge children and youth.

A. Contingent upon the provision of appropriated funds designated for Alternative Approaches grants, the State Board of Education is authorized to award one or more such competitive grants to local education agencies, nonprofit organizations, or entities formed by interlocal cooperative agreements pursuant to Section 5-117b of this title. The grant awards shall be made to school districts located in counties with a high number of dropouts for the school year preceding the year for which the grant is being sought, and a high number of referrals to the juvenile justice system. If the grant award is to a nonprofit organization or entity formed by an interlocal cooperative agreement, the program shall serve students in school districts located in counties with a high number of dropouts and a high number of referrals to the juvenile justice system. The funds shall be awarded to programs specifically providing targeted services to high challenge children. High challenge children are those at risk of failing to complete a satisfactory education. Alternative Approaches grants shall include high challenge grants for programs serving elementary and middle grade students and grants for middle grade level and other specified alternative education programs. Competitive grants shall be of statewide significance and shall be replicable across the state. Beginning July 1, 1993, at least twenty percent (20%) of the total dollar amount of Alternative Approaches grants shall be awarded to districts replicating state-validated programs. State validation is a process carried out by the Alternative Approaches Programs Technical Assistance Center by which grant-funded programs are evaluated for effectiveness in reaching the targeted population, local and state significance, and replicability. The Technical Assistance Center shall report to the State Department of Education the name and description of any program which receives state validation.

B. To be eligible for a High Challenge grant, a program shall meet research-based criteria set by the State Department of Education. The Alternative Approaches Technical Assistance Center shall provide the Department with research and recommendations on effective programming for high challenge children.

C. The State Board of Education is further authorized to award one competitive grant for operation of an Alternative Approaches Programs Technical Assistance Center. Said programs shall not supplant programs or activities funded by the United States Government pursuant to Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, as amended. The Alternative Approaches Technical Assistance Center grant recipient shall have priority, if its operations are deemed satisfactory by the State Board of Education and if funds are available, for annual renewal of the grant.

D. Service program grant recipients shall have priority, if recommended by the Technical Assistance Center and if funds are available, for annual renewal of grants by the State Board of Education in amounts and on conditions as provided in this section. If a district has received grants for an at risk or high challenge program for three consecutive school years and if the program upon evaluation by the Technical Assistance Center meets the criteria set forth in subsection A of this section and satisfies criteria set forth in rules adopted by the State Board of Education pursuant to subsection E of this section, funding shall be as follows:

1. Funding for the fourth consecutive school year shall be in the amount of fifty percent (50%) of the average amount of grants awarded for the program pursuant to this section for the first three (3) consecutive school years; and

2. Except as otherwise provided, funding for the fifth consecutive school year shall be awarded only if the program has been state-validated and replicated by another district; for programs that have
received funding for three (3) years prior to July 1, 1992, funding will be awarded only if the program is state-validated and the grantee documents attempts to have the program replicated; if funding is awarded, it shall be in the amount of twenty-five percent (25%) of the average amount of grants awarded to the program pursuant to this section for the first three (3) consecutive school years.

All grants for the fourth and fifth school years as provided above shall be matched with local funds or in-kind contributions. Programs which received grants continuously for five (5) consecutive school years shall not thereafter be eligible for grants pursuant to this section.

E. Rules adopted by the State Board of Education shall incorporate or provide for, but not necessarily be limited to:

1. Definition of the children deemed high challenge for whom services are sought; provided the definition shall be consistent with the description of high challenge children set forth in subsection A of this section;

2. The possibility of awards for one or more of a variety of program proposals targeted for services to limited portions of the high challenge population according to such distinctions as age groupings, rural or urban settings, other cultural characteristics, or innovative service delivery strategies;

3. Requirements that service program grant recipients have clear and measurable goals and objectives; show evidence of having given reasonable consideration to coordination with other community agencies and resources, where appropriate, in the development of their proposals; and agree to comply with all requirements of the Technical Assistance Center regarding use of assessment instruments, provision of data, and provision of information necessary for program evaluation;

4. Requirements that the recipient of the Technical Assistance Center grant show command of relevant research and demonstrate capability for: Providing technical assistance, including operation of clearinghouse functions; coordinating with agencies such as the Oklahoma Arts Council; performing assessment of high challenge children; evaluating programs for effectiveness; making program cost assessments; promoting replication of successful programs; and capability for assisting program providers in attaining national validation of their programs and qualifying for federal funding;

5. Utilization of a selection committee to review applications for program and Technical Assistance Center grants and make recommendations to the State Board of Education, said selection committee to include, to the greatest extent feasible under constraints of time and funding, nationally recognized experts in the education of high challenge children; and

6. 70 O.S. §1210.229-2. Findings and intent of legislature.
The Legislature finds that for the purpose of preventing drug and alcohol abuse among our young people, and for preventing or alleviating problems which lead to and are closely associated with drug and alcohol abuse, it is desirable that all Oklahoma school districts develop and implement a curriculum for drug and alcohol abuse prevention for all grade levels. Such curriculum may include training in life skills, such as problem-solving, responsibility, communication and decision-making skills, which enable young people to successfully resist social and other pressures to engage in activities which are destructive to their health and future. The Legislature encourages all school districts to adopt as a goal for the year 1990 the full implementation of drug and alcohol abuse prevention programs in their schools. In order to expand and enhance the ability of school districts to implement drug and alcohol prevention programs, it is the intent of the Legislature that local school districts participate in the federal Drug-Free Schools and Communities Act of 1986, 20 U.S.C., Section 4601 et seq. and the provisions of Public Law No. 101-647, Drug-Free School Zones.

In order to derive maximum benefit from their drug and alcohol prevention programs, it is further the intent of the Legislature that the school districts coordinate their efforts and activities with the Oklahoma Drug and Alcohol Abuse Policy Board, and with appropriate state and local drug and alcohol abuse, health and law enforcement agencies and programs within the community which provide drug education, prevention, treatment and rehabilitation.

It is further the intent of the Legislature to encourage school districts to establish programs concerning the danger and criminal consequences of the possession and/or use of firearms or other dangerous or deadly weapons in school zones.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

(h) Persistent failure to comply with rules of the lawful directions of teachers or school officials.

Limitations, conditions or exclusions for use of suspension and expulsion

LAWS

339.250. Duty of student to comply with rules; policies on discipline, suspension, expulsion, threats of violence or harm, firearms and physical force; student handbook or code of conduct; enforcement of policies.

(2) Each district school board shall adopt written policies for the discipline, suspension or expulsion of any refractory student. The policies:
(b) Must require consideration of the age of a student and the past pattern of behavior of a student prior to imposing the suspension or expulsion of a student.

(c) Must limit the use of expulsion to the following circumstances:
   (A) For conduct that poses a threat to the health or safety of students or school employees;
   (B) When other strategies to change student conduct have been ineffective, except that expulsion may not be used to address truancy; or
   (C) When the expulsion is required by law.

(d) In addition to any limitations imposed by paragraph (c) of this subsection, for a student who is in fifth grade or lower, must limit the use of out-of-school suspension or of expulsion to the following circumstances:
   (A) For nonaccidental conduct causing serious physical harm to a student or school employee;
   (B) When a school administrator determines, based upon the administrator’s observation or upon a report from a school employee, that the student’s conduct poses a direct threat to the health or safety of students or school employees; or
   (C) When the suspension or expulsion is required by law.

(e) When an out-of-school suspension is imposed as provided under paragraph (d) of this subsection, must require the school district to take steps to prevent the recurrence of the behavior that led to the out-of-school suspension and return the student to a classroom setting so that the disruption of the student’s academic instruction is minimized.

(f) Must be limited so that:
   (A) The duration of an expulsion may not be more than one calendar year.
   (B) The duration of a suspension may not be more than 10 school days.

(g) Notwithstanding ORS 336.010, may require a student to attend school during nonschool hours as an alternative to suspension if the total number of hours does not exceed the equivalent of 10 school days.

(7) Each district school board shall adopt a written policy involving firearms, as defined in 18 U.S.C. 921. The policy shall:
   (b) Allow exceptions:
      (A) For courses, programs and activities approved by the school district that are conducted on school property, including, but not limited to, hunter safety courses, Reserve Officer Training Corps programs, firearm-related sports or firearm-related vocational courses; and
      (B) Identified by and adopted by the State Board of Education by rule.
   (c) Allow a superintendent of a school district to:
      (A) Modify the expulsion requirement for a student on a case-by-case basis.

339.252. Child with disability continues to be entitled to free appropriate public education if removed for disciplinary reasons; due process procedures.

(1) As used in this section, “child with a disability” has the meaning given that term in ORS 343.035.

(2) A child with a disability continues to be entitled to a free appropriate public education if the child has been removed for disciplinary reasons from the child’s current educational placement for more than 10 school days in a school year.

(3) A disciplinary removal is considered a change in educational placement and the school district shall follow special education due process procedures under ORS 343.155(5) if:
   (a) The removal is for more than 10 consecutive school days; or
(b) The child is removed for more than 10 cumulative school days in a school year, and those removals constitute a pattern based on the length and total time of removals and the proximity of the removals to one another.

(4) A child with a disability shall not be removed for disciplinary reasons under subsection(3) of this section for misconduct that is a manifestation of the child's disability, except as provided under ORS 343.177.

(5) Notwithstanding ORS 339.250(5)(h) or(7)(c)(B), a school district shall provide a free appropriate public education in an alternative setting to a child with a disability even if the basis for expulsion was a weapon violation pursuant to ORS 339.250(7).

(6) School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

REGULATIONS

581-015-2415. Disciplinary removals of more than 10 school days (pattern or consecutive).

(1) A disciplinary removal is considered a change in educational placement and the school district must follow special education due process procedures if:

(a) The removal will be for more than 10 consecutive school days (e.g. expulsion); or

(b) The child will be removed for more than 10 cumulative school days from their current educational placement in a school year, and those removals constitute a pattern under OAR 581-015-2410(2).

(2) School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a disciplinary removal under subsection (1) for a child with a disability who violates a code of conduct.

(3) Manifestation determination. Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the school district must determine whether the child's behavior is a manifestation of the student's disability in accordance with OAR 581-015-2420.

(4) Manifestation. If the determination under subsection (3) is that the child's behavior is a manifestation of the child's disability, the school district must:

(a) Return the child to the placement from which the child was removed, unless:

(A) The parent and school district agree to a change of placement as part of the modification of the behavioral intervention plan under subsection (4)(b);

(B) The school district removes the child to an interim alternative educational setting under OAR 581-015-2425 for a weapons or drug violation or for infliction of serious bodily injury; or

(C) The school district obtains an order from an administrative law judge under OAR 581-015-2430 allowing a change in placement to an interim alternative educational setting for injurious behavior; and

(b) Either:

(A) Conduct a functional behavioral assessment, unless the school district conducted a functional behavioral assessment before the behavior occurred that prompted the disciplinary action, and implement a behavior intervention plan; or

(B) If the student already has a behavior plan, review the behavioral intervention plan and modify it, as necessary, to address the behavior.

(5) No manifestation. If the determination under subsection (3) is that the child's behavior is not a manifestation of the child's disability:
(a) The school district may proceed with disciplinary action applicable to children without disabilities under section (1) of this rule, in the same manner and for the same duration in which the procedures would be applied to children without disabilities.

(b) If the school district takes such action applicable to all children, the school district must:

   (A) On the date on which the decision is made to remove the student under subsection (5), notify the parents of that decision and provide the parents with notice of procedural safeguards under OAR 581-015-2315.

   (B) Provide services to the student in an interim alternative educational setting, determined by the IEP team, in accordance with OAR 581-015-2435; and

   (C) Provide, as appropriate, a functional behavioral assessment, and behavior intervention services and modifications that are designed to address the behavior violation so that it does not recur.

(6) Placement pending due process hearing. If a parent requests a due process hearing because of a disagreement with the manifestation determination or any decision about placement related to the disciplinary removal in section (1) of this rule, the child remains in the interim alternative educational setting pending the decision of the administrative law judge under OAR 581-015-2445, or until the end of the disciplinary removal under subsection (1), whichever occurs first, unless the parent and school district agree otherwise.

581-015-2420. Manifestation determination.

(1) In determining whether the child's behavior is a manifestation of the child's disability, the school district, the parent, and relevant members of the IEP team (as determined by the parent and the district) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:

   (a) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

   (b) If the conduct in question was the direct result of the school district's failure to implement the IEP.

(2) If the school district, the parent, and relevant members of the IEP team determine that either subsection (1)(a) or (b) is applicable for the child, the conduct must be determined to be a manifestation of the child's disability.

(3) If the basis for the team's determination is that the school district did not implement the child's IEP, the school district must take immediate steps to remedy those deficiencies.

581-021-0065. Suspension.

(5) School district boards shall limit suspension to a specific maximum number of days. That maximum shall not exceed ten school days.

(6) School district boards or designated representatives shall specify the methods and conditions, if any, under which the student's school work can be made up. Students shall be allowed to make up school work upon their return from the suspension if that work reflects achievement over a greater period of time than the length of the suspension. For example, the students shall be allowed to make up final, mid-term, and unit examinations, without an academic penalty, but it is within the districts' discretion as to whether the students may be allowed to make up daily assignments, laboratory experiments, class discussions or presentations.

(7) In special circumstances a suspension may be continued until some specific pending action occurs, such as a physical or mental examination, or incarceration by court action.
Administrative procedures related to suspension and expulsion

LAWS

339.115. Admission of students; waiver; denial.
(1) Except as provided in ORS 339.141, authorizing tuition for courses not part of the regular school program, the district school board shall admit free of charge to the schools of the district all persons between the ages of 5 and 19 who reside within the school district. A person whose 19th birthday occurs during the school year shall continue to be eligible for a free and appropriate public education for the remainder of the school year. A district school board may admit nonresident persons, determine who is not a resident of the district and fix rates of tuition for nonresidents.

(8) Notwithstanding subsection (1) of this section, a school district:
   (a) May for the remaining period of an expulsion deny admission to the regular school to a resident student who is expelled from another school district; and
   (b) Shall for at least one calendar year from the date of the expulsion and if the expulsion is for more than one calendar year, may for the remaining period of time deny admission to the regular school program to a student who is under expulsion from another school district for an offense that constitutes a violation of a school district policy adopted pursuant to ORS 339.250 (7).

339.250. Duty of student to comply with rules; policies on discipline, suspension, expulsion, threats of violence or harm, firearms and physical force; student handbook or code of conduct; enforcement of policies.
(1) Public school students shall comply with rules for the government of such schools, pursue the prescribed course of study, use the prescribed textbooks and submit to the teachers’ authority.

(2) Each district school board shall adopt written policies for the discipline, suspension or expulsion of any refractory student. The policies:
   (a) May allow discipline, suspension or expulsion for conduct that includes, but is not limited to:
      (A) Willful disobedience;
      (B) Open defiance of the authority of a school employee;
      (C) Possession or distribution of tobacco, alcohol, drugs or other controlled substances;
      (D) Use or display of profane or obscene language;
      (E) Willful damage or injury to school property;
      (F) Use of threats, intimidation, harassment or coercion against a student or a school employee;
      (G) Assault of a school employee or another student; or
      (H) Intentional attempts, by word or conduct, to place a school employee or another student in fear of imminent serious physical injury.
   (b) Must require consideration of the age of a student and the past pattern of behavior of a student prior to imposing the suspension or expulsion of a student.
   (c) Must limit the use of expulsion to the following circumstances:
      (A) For conduct that poses a threat to the health or safety of students or school employees;
      (B) When other strategies to change student conduct have been ineffective, except that expulsion may not be used to address truancy; or
      (C) When the expulsion is required by law.
(d) In addition to any limitations imposed by paragraph (c) of this subsection, for a student who is in fifth grade or lower, must limit the use of out-of-school suspension or of expulsion to the following circumstances:

(A) For nonaccidental conduct causing serious physical harm to a student or school employee;

(B) When a school administrator determines, based upon the administrator’s observation or upon a report from a school employee, that the student's conduct poses a direct threat to the health or safety of students or school employees; or

(C) When the suspension or expulsion is required by law.

(e) When an out-of-school suspension is imposed as provided under paragraph (d) of this subsection, must require the school district to take steps to prevent the recurrence of the behavior that led to the out-of-school suspension and return the student to a classroom setting so that the disruption of the student’s academic instruction is minimized.

(f) Must be limited so that:

(A) The duration of an expulsion may not be more than one calendar year.

(B) The duration of a suspension may not be more than 10 school days.

(g) Notwithstanding ORS 336.010, may require a student to attend school during nonschool hours as an alternative to suspension if the total number of hours does not exceed the equivalent of 10 school days.

(3) Pursuant to the policies adopted as provided by subsection (2) of this section, each school district shall develop a student handbook, code of conduct or other document that:

(a) Defines and helps create a learning environment that students respect;

(b) Defines acceptable norms of behavior for students and the types of behavior that are subject to discipline;

(c) Establishes procedures to address behavior or circumstances that pose a threat to the safety of students or employees of the school;

(d) Establishes a system of consequences that are designed to correct student misconduct and promote behavior within acceptable norms; and

(e) Makes the system of consequences known to the school community through the dissemination of information to students, parents, legal guardians and school district employees.

(4) Each district school board shall adopt written policies on managing students who threaten violence or harm in public schools. The policies adopted by a district school board under this section shall include all of the following:

(a) Staff reporting methods.

(b) Provisions that allow an administrator to consider and implement any of the following options:

   (A) Immediately removing from the classroom setting any student who has threatened to injure another person or to severely damage school property.

   (B) Placing the student in a setting where the behavior will receive immediate attention, including, but not limited to, the office of the school principal, vice principal, assistant principal, counselor or a school psychologist licensed by the Teacher Standards and Practices Commission or the office of any licensed mental health professional.

   (C) Requiring that a school obtain an evaluation of a student by a licensed mental health professional before allowing the student to return to the classroom setting. A student who is removed from the classroom setting for an evaluation may not be removed for more than 10 school days unless the administrator is able to show good cause that an evaluation could not be completed in that time period. The policy must describe the circumstances under which the district school board may enter
into contracts with licensed mental health professionals to perform any evaluations required under this subparagraph.

(c) The requirement that an administrator provide to the parent or legal guardian of the student notification that describes the student’s behavior and the school’s response.

(d) A provision for the allocation of any funds necessary for the school district to implement the policies described in this subsection.

(5) In establishing and enforcing discipline, suspension and expulsion policies, a district school board shall ensure that the policy is designed to:

(a) Protect students and school employees from harm;

(b) Provide opportunities for students to learn from their mistakes;

(c) Foster positive learning communities;

(d) Keep students in school and attending class;

(e) Impose disciplinary sanctions without bias against students from a protected class, as defined in ORS 339.351;

(f) Implement a graduated set of age-appropriate responses to misconduct that are fair, nondiscriminatory and proportionate in relation to each student’s individual conduct;

(g) Employ a range of strategies for prevention, intervention and discipline that take into account a student’s developmental capacities and that are proportionate to the degree and severity of the student’s misbehavior;

(h) Propose, prior to a student’s expulsion or leaving school, alternative programs of instruction or instruction combined with counseling for the student that are appropriate and accessible to the student in the following circumstances:

   (A) Following a second or subsequent occurrence within any three-year period of a severe disciplinary problem with the student; or

   (B) When a parent or legal guardian applies for the student’s exemption from compulsory attendance on a semiannual basis as provided in ORS 339.030 (2);

(i) To the extent practicable, use approaches that are shown through research to be effective in reducing student misbehavior and promoting safe and productive social behavior; and

(j) Ensure that school conduct and discipline codes comply with all state and federal laws concerning the education of students with disabilities.

(6) Except for policies adopted under subsection (7) of this section, any policies adopted under this section must provide for the dissemination of information about alternative programs of instruction or instruction combined with counseling, as described in subsection (5)(h) of this section, in writing to the student and the parent, legal guardian or person in parental relationship with the student at least once every six months, unless the information has changed because of the availability of new programs.

(7) Each district school board shall adopt a written policy involving firearms, as defined in 18 U.S.C. 921. The policy shall:

(a) Require expulsion from school for a period of not less than one year of any student who is determined to have:

   (A) Brought a firearm to a school, to school property under the jurisdiction of the school district or to an activity under the jurisdiction of the school district;

   (B) Possessed, concealed or used a firearm in a school, on school property under the jurisdiction of the school district or at an activity under the jurisdiction of the school district; or
(C) Brought to or possessed, concealed or used a firearm at an interscholastic activity administered by a voluntary organization.

(b) Allow exceptions:

(A) For courses, programs and activities approved by the school district that are conducted on school property, including, but not limited to, hunter safety courses, Reserve Officer Training Corps programs, firearm-related sports or firearm-related vocational courses; and

(B) Identified by and adopted by the State Board of Education by rule.

(c) Allow a superintendent of a school district to:

(A) Modify the expulsion requirement for a student on a case-by-case basis.

(B) Propose alternative programs of instruction or instruction combined with counseling for a student that are appropriate and accessible to the student. If alternative programs are appropriate for a student, the superintendent shall ensure that information about programs of instruction or instruction combined with counseling is provided in writing to the student and the parent, legal guardian or person in parental relationship with the student at least once every six months, or at any time the information changes because of the availability of new programs.

(d) Require a referral to the appropriate law enforcement agency of any student who is expelled under this subsection.

(e) Require an annual reporting to the Department of Education of the name of each school that had an expulsion under this subsection and the number of students expelled from each school.

(8) Each district school board shall adopt and disseminate written policies for the use of physical force upon a student. The policies must allow an individual who is a teacher, administrator, school employee or school volunteer to use reasonable physical force upon a student when and to the extent the application of force is consistent with ORS 339.291.

(9)

(a) The authority to discipline a student does not authorize the infliction of corporal punishment. Every resolution, bylaw, rule, ordinance or other act of a district school board, a public charter school or the Department of Education that permits or authorizes the infliction of corporal punishment upon a student is void and unenforceable.

(b) As used in this subsection:

(A) “Corporal punishment” means the willful infliction of, or willfully causing the infliction of, physical pain on a student.

(B) “Corporal punishment” does not include:

(i) The use of physical force authorized by ORS 161.205 for the reasons specified therein; or

(ii) Physical pain or discomfort resulting from or caused by participation in athletic competition or other such recreational activity, voluntarily engaged in by a student.

(10) For purposes of this section, calculations of the number of school days that a student is removed from a classroom setting shall be as follows:

(a) As a half day if the student is out of school for half, or less than half, of the scheduled school day; and

(b) As a full day if the student is out of school for more than half of the scheduled school day.
REGULATIONS

For the purposes of OAR 581-015-2400 through 581-015-2445, the following definitions apply:

(1) "Behavioral intervention plan" means an individualized plan, including positive interventions, designed to assist a student to decrease inappropriate behavior and increase or teach an alternative appropriate behavior.

(2) "Current educational placement" means the type of educational placement of the child as described in the child's "annual determination of placement" document at the time of the disciplinary removal. It does not mean the specific location or school but the type of placement on the continuum of placement options (e.g. regular classroom with support; regular classroom with resource room support; special class; special school; home instruction, etc.).

(3) "Disciplinary removal" means suspension, expulsion, or other removal from school for disciplinary reasons, including removals for mental health examinations for students who threaten violence or harm in public schools under ORS 339.250(4)(b)(C). It does not include:

(a) Removals by other agencies;
(b) Removals for public health reasons (e.g. head lice, immunizations, communicable diseases, etc.);
(c) In-school suspensions if the child continues to have access to the general curriculum and to special education and related services as described in the child's IEP, and continues to participate with children without disabilities to the extent they would in their current placement; or
(d) Bus suspensions, unless the student's IEP includes transportation as a related service, the district makes no alternative transportation arrangements for the student, and the student does not attend school as a result of the bus suspension.

(4) "Functional behavioral assessment" means an individualized assessment of the student that results in a hypothesis about the function of a student's behavior and, as appropriate, recommendations for a behavior intervention plan.

(5) "Suspension" means any disciplinary removal other than expulsion.

581-015-2405. Disciplinary removals for up to 10 school days for children with disabilities.
(1) School districts may remove a child with a disability who violates a code of student conduct from the child's current educational placement to an appropriate interim alternative educational setting, another setting, or suspension, for up to ten school days in a school year to the same extent, and with the same notice, as for children without disabilities. These removals are not considered a change in placement.

(2) During disciplinary removals described in section (1) of this rule:

(a) School districts are not required to provide access to special education and the general curriculum unless students without disabilities are provided access during this time.
(b) School districts are not required to determine whether the child's behavior resulting in disciplinary removal is a manifestation of the child's disability.

(3) For the purpose of counting days of suspensions under OAR 581-015-2405 through 581-015-2445:

(a) Suspensions of a half day or less are counted as a half day; and
(b) Suspensions of more than a half-day are counted as a whole day.

(4) For the purposes of determining "current educational placement" in subsection (1) of this rule:

(a) Children who received special education services in another state and are found eligible for special education in Oregon are treated as initially placed in special education in Oregon, and any days of suspension accrued in the former state are not counted toward the ten days.
(b) For children who move from one school district to another school district in Oregon, any days of suspension from the former district carry over to the new school district unless the school district does not have actual knowledge of the previous suspensions.

581-015-2410. Additional disciplinary removals of up to 10 school days each (no pattern).

(1) School districts may remove a child with a disability who violates a code of student conduct from the child's current educational placement to an appropriate interim alternative educational setting, another setting, or suspension for additional periods of up to ten school days in a school year to the same extent, and with the same notice, as for children without disabilities, if the removals do not constitute a pattern under section (2) of this rule. These removals are not considered a change in placement.

(2) School personnel must determine, on a case-by-case basis, whether the series of removals constitute a pattern:

   (a) Because the child's behavior is substantially similar to the child's behavior in previous incidents that resulted in the series of removals; and

   (b) Because of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of removals to one another.

(3) Services. During removals described in section (1) of this rule:

   (a) School districts must provide services that are necessary to enable the child:

      (A) To continue to participate in the general education curriculum, although in another setting; and

      (B) To progress toward meeting the goals in the child's IEP.

   (b) School personnel, in consultation with at least one of the child's teachers, determine the extent to which the services described in subsection (3)(a) of this rule are needed, and the location for delivery of those services.

   (c) School districts are not required to determine whether the behavior resulting in removal is a manifestation of the child's disability.

(4) The determination in subsection (2) is subject to review under OAR 581-015-2445.

581-015-2415. Disciplinary removals of more than 10 school days (pattern or consecutive).

(1) A disciplinary removal is considered a change in educational placement and the school district must follow special education due process procedures if:

   (a) The removal will be for more than 10 consecutive school days (e.g. expulsion); or

   (b) The child will be removed for more than 10 cumulative school days from their current educational placement in a school year, and those removals constitute a pattern under OAR 581-015-2410(2).

(2) School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a disciplinary removal under subsection (1) for a child with a disability who violates a code of conduct.

(3) Manifestation determination. Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the school district must determine whether the child's behavior is a manifestation of the student's disability in accordance with OAR 581-015-2420.

(4) Manifestation. If the determination under subsection (3) is that the child's behavior is a manifestation of the child's disability, the school district must:

   (a) Return the child to the placement from which the child was removed, unless:

      (A) The parent and school district agree to a change of placement as part of the modification of the behavioral intervention plan under subsection (4)(b);
(B) The school district removes the child to an interim alternative educational setting under OAR 581-015-2425 for a weapons or drug violation or for infliction of serious bodily injury; or
(C) The school district obtains an order from an administrative law judge under OAR 581-015-2430 allowing a change in placement to an interim alternative educational setting for injurious behavior; and
(b) Either:
(A) Conduct a functional behavioral assessment, unless the school district conducted a functional behavioral assessment before the behavior occurred that prompted the disciplinary action, and implement a behavior intervention plan; or
(B) If the student already has a behavior plan, review the behavioral intervention plan and modify it, as necessary, to address the behavior.
(5) No manifestation. If the determination under subsection (3) is that the child's behavior is not a manifestation of the child's disability:
(a) The school district may proceed with disciplinary action applicable to children without disabilities under section (1) of this rule, in the same manner and for the same duration in which the procedures would be applied to children without disabilities.
(b) If the school district takes such action applicable to all children, the school district must:
(A) On the date on which the decision is made to remove the student under subsection (5), notify the parents of that decision and provide the parents with notice of procedural safeguards under OAR 581-015-2315.
(B) Provide services to the student in an interim alternative educational setting, determined by the IEP team, in accordance with OAR 581-015-2435; and
(C) Provide, as appropriate, a functional behavioral assessment, and behavior intervention services and modifications that are designed to address the behavior violation so that it does not recur.
(6) Placement pending due process hearing. If a parent requests a due process hearing because of a disagreement with the manifestation determination or any decision about placement related to the disciplinary removal in section (1) of this rule, the child remains in the interim alternative educational setting pending the decision of the administrative law judge under OAR 581-015-2445, or until the end of the disciplinary removal under subsection (1), whichever occurs first, unless the parent and school district agree otherwise.

581-015-2420. Manifestation determination.
(1) In determining whether the child's behavior is a manifestation of the child's disability, the school district, the parent, and relevant members of the IEP team (as determined by the parent and the district) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:
(a) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
(b) If the conduct in question was the direct result of the school district's failure to implement the IEP.
(2) If the school district, the parent, and relevant members of the IEP team determine that either subsection (1)(a) or (b) is applicable for the child, the conduct must be determined to be a manifestation of the child's disability.
(3) If the basis for the team's determination is that the school district did not implement the child's IEP, the school district must take immediate steps to remedy those deficiencies.
581-015-2425. Removal to an interim alternative educational setting by school district.

(1) Definitions:
   (a) "Drug" means illegal drug or controlled substance but does not include a substance that is legally possessed or used under the supervision of a licensed health-care professional or otherwise legally possessed. It does not include alcohol or tobacco.
   (b) "Drug violation" means the use, possession, sale or solicitation of drugs at school or a school function.
   (c) "Serious bodily injury" means bodily injury, which involves substantial risk of death; extreme physical pain; protracted and obvious disfigurement; or protracted loss or impairment of the function of a bodily member, organ or mental faculty.
   (d) "Weapon" means a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except that it does not include a pocket knife with a blade of less than 2 1/2 inches in length.
   (e) "Weapon violation" means carrying a weapon to school or to a school function or acquiring a weapon at school.

(2) School districts may remove a child with disabilities from their current educational placement to an appropriate interim alternative educational setting for the same amount of time that a child without a disability would be subject to discipline, but for not more than 45 school days in a school year without regard to whether the behavior is determined to be a manifestation of the child's disability for:
   (a) A drug or weapon violation as defined in subsection (1); or
   (b) If the child has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the Department or a school district.

(3) A removal for a drug or weapon violation, or for inflicting serious bodily injury, is considered a change in placement.

(4) School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a removal under subsection (2) for a child with a disability who violates a code of conduct.

(5) For removals described in subsection (2) of this rule, school districts must:
   (a) On the date on which the decision is made to remove the student under subsection (2), notify the parents of that decision and provide the parents with notice of procedural safeguards under OAR 581-015-2315;
   (b) Provide the services to the student in an interim alternative educational setting, determined by the IEP team, in accordance with OAR 581-015-2435;
   (c) Within 10 school days of any decision to remove a child under subsection (2), determine whether the child's behavior is a manifestation of the child's disability in accordance with OAR 581-015-2420; and
   (d) Provide, as appropriate, a functional behavioral assessment, and behavior intervention services and modifications that are designed to address the behavior violation so that it does not recur.

(6) Placement pending due process hearing. If a parent requests a due process hearing because of a disagreement with the manifestation determination, removal to the interim alternative educational setting, or any decision about placement related to a disciplinary removal under section (2) of this rule, the child remains in the interim alternative educational setting pending the decision of the administrative law judge under OAR 581-015-2445, or until the end of the removal under section (2), whichever occurs first, unless the parent and school district agree otherwise.
581-015-2430. Removal to an interim alternative educational setting by administrative law judge (injurious behavior).

(1) "Injurious behavior" means behavior that is substantially likely to result in injury to the child or to others.

(2) School districts may request an expedited due process hearing under OAR 581-015-2445 to obtain an order from an administrative law judge to order a change in placement of the child to an interim alternative educational setting for not more than 45 school days for injurious behavior.

(3) The interim alternative educational setting must meet the requirements of OAR 581-015-2435(2).

(4) The procedures in subsection (2) may be repeated if the school district believes that returning the child to the original placement is substantially likely to result in injurious behavior.

(5) Nothing in this rule precludes a school district from seeking a court order to remove a child from the child's current educational placement to another placement if the district believes that the maintaining the child in the child's current educational placement is substantially likely to result in injurious behavior.

581-021-0065. Suspension.

(1) Students may be suspended when such suspension contains within its procedures the elements of prior notice (OAR 581-021-0075), specification of charges, and an opportunity for the student to present his or her view of the alleged misconduct. The suspending official shall notify the student's parent or guardian of the suspension, the conditions for reinstatement, and appeal procedures, where applicable. These procedures may be postponed in emergency situations relating to health and safety.

(2) Emergency situations shall be limited to those instances where there is a serious risk that substantial harm will occur if suspension does not take place immediately.

(3) School district boards shall provide students suspended under emergency conditions with the rights outlined in section (1) of this rule as soon as the emergency condition has passed.

(4) In all suspensions ordered by the executive officer of the school district or designated representative, the district school board shall have the right of final review if the action is not taken by the school board itself.

(5) School district boards shall limit suspension to a specific maximum number of days. That maximum shall not exceed ten school days.

(6) School district boards or designated representatives shall specify the methods and conditions, if any, under which the student's school work can be made up. Students shall be allowed to make up school work upon their return from the suspension if that work reflects achievement over a greater period of time than the length of the suspension. For example, the students shall be allowed to make up final, mid-term, and unit examinations, without an academic penalty, but it is within the districts' discretion as to whether the students may be allowed to make up daily assignments, laboratory experiments, class discussions or presentations.

(7) In special circumstances a suspension may be continued until some specific pending action occurs, such as a physical or mental examination, or incarceration by court action.

(1) A school district board may expel, or delegate authority to a hearings officer to expel, a student provided the student is not expelled without a hearing unless the student's parent(s) or guardian, or the student, if 18 years of age, waives the right to a hearing. Waiver may take place by the parent or the student, if 18 years of age, notifying the school district in writing of waiver of the right to a hearing. Waiver may also take place by the parent, or the student, if age 18 or over, failing to appear after notice, at the place and time set for the hearing:
(a) If the school board acts to expel, the hearing may be conducted by a hearings officer designated by
the board. In cases where the hearings officer is conducting the expulsion hearing for the board, the
hearings officer shall provide to the board the findings as to the facts, the recommended decision and
whether or not the student is guilty of the conduct alleged. This material shall be made available at the
same time to the parent or guardian, and to the student, if age 18 or over;
(b) If the authority to expel a student is delegated to a hearings officer, the parent, or student, if age 18
or over, shall have the right upon appeal to a board review of the decision. If the decision is appealed to
the board for review, the board shall be provided findings as to the facts and the decision of the
hearings officer. This material shall be made available at the same time to the parent or guardian, and
to the student, if age 18 or over. When appealed, the board will affirm, modify, or rescind the decision of
the hearings officer.

(2) Student expulsion hearings shall be conducted pursuant to ORS 332.061.
(3) Expulsion hearing policies or rules shall contain provisions for the following:
   (a) Notice to the student and to the parent or guardian shall be given by personal service or certified
       mail of the charge or charges and the specific facts that support the charge or charges. The notice shall
       include the statement of intent to consider the charges as reason for expulsion. Where notice is given
       by personal service, the person serving the notice shall file a return of service. Where notice is given by
       certified mail to a parent of a suspended student the notice shall be placed in the mail at least five days
       before the date of the hearing;
   (b) Where the student or the student's parent cannot understand the spoken English language, an
       interpreter shall be provided by the district;
   (c) The student may be represented by counsel or other persons;
   (d) The student shall be permitted to introduce evidence by testimony, writings, or other exhibits;
   (e) The student shall be permitted to be present and hear the evidence presented by the district;
   (f) Strict rules of evidence shall not apply to the proceedings. However, this provision shall not limit the
       hearings officer's control of the hearing;
   (g) The hearings officer or the student may make a record of the hearing.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. LAWS

24 Pa PS 1318. Suspension and expulsion of pupils.
Every principal or teacher in charge of a public school may temporarily suspend any pupil on account of disobedience or misconduct, and any principal or teacher suspending any pupil shall promptly notify the district superintendent or secretary of the board of school directors. The board may, after a proper hearing, suspend such child for such time as it may determine, or may permanently expel him. Such hearings, suspension, or expulsion may be delegated to a duly authorized committee of the board, or to a duly qualified hearing examiner, who need not be a member of the board, but whose adjudication must be approved by the board.

REGULATIONS

(a) The governing board shall define and publish the types of offenses that would lead to exclusion from school. Exclusions affecting certain students with disabilities shall be governed by §14.143 (relating to disciplinary placements) and 34 CFR 300.519—300.529 (relating to discipline procedures).
(b) Exclusion from school may take the form of suspension or expulsion.
(1) Suspension is exclusion from school for a period of from 1 to 10 consecutive school days.
   (i) Suspensions may be given by the principal or person in charge of the public school.
   (ii) A student may not be suspended until the student has been informed of the reasons for the suspension and given an opportunity to respond. Prior notice of the intended suspension need not be given when it is clear that the health, safety or welfare of the school community is threatened.
   (iii) The parents or guardians and the superintendent of the district shall be notified immediately in writing when the student is suspended.
   (iv) When the suspension exceeds 3 school days, the student and parent shall be given the opportunity for an informal hearing consistent with the requirements in §12.8(c) (relating to hearings).
   (v) Suspensions may not be made to run consecutively beyond the 10 school day period.
   (vi) Students shall have the responsibility to make up exams and work missed while being disciplined by suspension and shall be permitted to complete these assignments within guidelines established by the governing board.

(c) During the period prior to the hearing and decision of the governing board in an expulsion case, the student shall be placed in his normal class except as set forth in subsection (d).
(d) If it is determined after an informal hearing that a student’s presence in his normal class would constitute a threat to the health, safety or welfare of others and it is not possible to hold a formal hearing within the period of a suspension, the student may be excluded from school for more than 10 school days. A student may not be excluded from school for longer than 15 school days without a formal hearing unless mutually agreed upon by both parties. Any student so excluded shall be provided with alternative education, which may include home study.
(e) Students who are under 17 years of age are still subject to the compulsory school attendance law even though expelled and shall be provided an education.
(1) The initial responsibility for providing the required education rests with the student’s parents or guardian, through placement in another school, tutorial or correspondence study, or another educational program approved by the district’s superintendent.

(2) Within 30 days of action by the governing board, the parents or guardians shall submit to the school district written evidence that the required education is being provided as described in paragraph (1) or that they are unable to do so. If the parents or guardians are unable to provide the required education, the school entity shall, within 10 days of receipt of the notification, make provision for the student’s education. A student with a disability shall be provided educational services as required by the Individuals With Disabilities Education Act (20 U.S.C.A. §§1400—1482).

(3) If the approved educational program is not complied with, the school entity may take action in accordance with 42 Pa.C.S. Chapter 63 (relating to the Juvenile Act) to ensure that the child will receive a proper education. See §12.1(b) (relating to free education and attendance).

(a) General. Education is a statutory right, and students shall be afforded due process if they are to be excluded from school. In a case involving a possible expulsion, the student is entitled to a formal hearing.

(b) Formal hearings. A formal hearing is required in all expulsion actions. This hearing may be held before the governing board or an authorized committee of the board, or a qualified hearing examiner appointed by the board. When a committee of the board or a hearing examiner conducts the hearing, a majority vote of the entire governing board is required to expel a student. The following due process requirements shall be observed with regard to the formal hearing:

(1) Notification of the charges shall be sent to the student’s parents or guardians by certified mail.

(2) At least 3 days’ notice of the time and place of the hearing shall be given. A copy of the expulsion policy, notice that legal counsel may represent the student and hearing procedures shall be included with the hearing notice. A student may request the rescheduling of the hearing when the student demonstrates good cause for an extension.

(3) The hearing shall be held in private unless the student or parent requests a public hearing.

(4) The student may be represented by counsel, at the expense of the parents or guardians, and may have a parent or guardian attend the hearing.

(5) The student has the right to be presented with the names of witnesses against the student, and copies of the statements and affidavits of those witnesses.

(6) The student has the right to request that the witnesses appear in person and answer questions or be cross-examined.

(7) The student has the right to testify and present witnesses on his own behalf.

(8) A written or audio record shall be kept of the hearing. The student is entitled, at the student’s expense, to a copy. A copy shall be provided at no cost to a student who is indigent.

   (i) Laboratory reports are needed from law enforcement agencies.

   (ii) Evaluations or other court or administrative proceedings are pending due to a student invoking his rights under the Individuals With Disabilities Education Act (20 U.S.C.A. § §1400—1482).

   (iii) In cases in juvenile or criminal court involving sexual assault or serious bodily injury, delay is necessary due to the condition or best interests of the victim.
(10) Notice of a right to appeal the results of the hearing shall be provided to the student with the expulsion decision.

(c) Informal hearings. The purpose of the informal hearing is to enable the student to meet with the appropriate school official to explain the circumstances surrounding the event for which the student is being suspended or to show why the student should not be suspended.

(1) The informal hearing is held to bring forth all relevant information regarding the event for which the student may be suspended and for students, their parents or guardians and school officials to discuss ways by which future offenses might be avoided.

(2) The following due process requirements shall be observed in regard to the informal hearing:

(i) Notification of the reasons for the suspension shall be given in writing to the parents or guardians and to the student.

Use of restraint and seclusion

LAWS
No relevant laws found.

REGULATIONS

(a) Positive, rather than negative, measures must form the basis of behavior support programs to ensure that all students and eligible young children shall be free from demeaning treatment, the use of aversive techniques and the unreasonable use of restraints. Behavior support programs must include research based practices and techniques to develop and maintain skills that will enhance an individual student’s or eligible young child’s opportunity for learning and self-fulfillment. Behavior support programs and plans must be based on a functional assessment of behavior and utilize positive behavior techniques. When an intervention is needed to address problem behavior, the types of intervention chosen for a particular student or eligible young child shall be the least intrusive necessary. The use of restraints is considered a measure of last resort, only to be used after other less restrictive measures, including de-escalation techniques, in accord with subsection (c)(2).

(b) Notwithstanding the requirements incorporated by reference in 34 CFR 300.34, 300.324 and 300.530 (relating to related services; development, review, and revision of IEP; and authority of school personnel), with regard to a child’s behavior, the following words and terms, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

Aversive techniques. Deliberate activities designed to establish a negative association with a specific behavior.

Behavior support. The development, change and maintenance of selected behaviors through the systematic application of behavior change techniques.

Positive behavior support plans. A plan for students with disabilities and eligible young children who require specific intervention to address behavior that interferes with learning. A positive behavior support plan shall be developed by the IEP team, be based on a functional behavior assessment, and become part of the individual eligible young child’s or student’s IEP. These plans must include methods that utilize positive reinforcement and other positive techniques to shape a student’s or eligible young child’s behavior, ranging from the use of positive verbal statements as a reward for good behavior to specific tangible rewards.
Restraints

(i) The application of physical force, with or without the use of any device, for the purpose of restraining the free movement of a student’s or eligible young child’s body.

(ii) The term does not include briefly holding, without force, a student or eligible young child to calm or comfort him, guiding a student or eligible young child to an appropriate activity, or holding a student’s or eligible young child’s hand to safely escort her from one area to another.

(iii) The term does not include hand-over-hand assistance with feeding or task completion and techniques prescribed by a qualified medical professional for reasons of safety or for therapeutic or medical treatment, as agreed to by the student’s or eligible young child’s parents and specified in the IEP. Devices used for physical or occupational therapy, seatbelts in wheelchairs or on toilets used for balance and safety, safety harnesses in buses, and functional positioning devices are examples of mechanical restraints which are excluded from this definition, and governed by subsection (d).

c) Restraints to control acute or episodic aggressive or self-injurious behavior may be used only when the student is acting in a manner as to be a clear and present danger to himself, to other students or to employees, and only when less restrictive measures and techniques have proven to be or are less effective.

1) The use of restraints to control the aggressive behavior of an individual student or eligible young child shall cause the school entity to notify the parent of the use of restraint and shall cause a meeting of the IEP team within 10 school days of the inappropriate behavior causing the use of restraints, unless the parent, after written notice, agrees in writing to waive the meeting. At this meeting, the IEP team shall consider whether the student or eligible young child needs a functional behavioral assessment, reevaluation, a new or revised positive behavior support plan, or a change of placement to address the inappropriate behavior.

2) The use of restraints may only be included in a student’s or eligible young child’s IEP when the following conditions apply:

   (i) The restraint is utilized with specific component elements of positive behavior support.
   (ii) The restraint is used in conjunction with the teaching of socially acceptable alternative skills to replace problem behavior.
   (iii) Staff are authorized to use the procedure and have received the staff training required.
   (iv) There is a plan in place for eliminating the use of restraint through the application of positive behavior support.

3) The use of prone restraints is prohibited in educational programs. Prone restraints are those in which a student or eligible young child is held face down on the floor.

4) The use of restraints may not be included in the IEP for the convenience of staff, as a substitute for an educational program, or employed as punishment.

5) School entities shall maintain and report data on the use of restraints as prescribed by the Secretary. The report shall be reviewed during cyclical compliance monitoring conducted by the Department.

d) Mechanical restraints, which are used to control involuntary movement or lack of muscular control of students when due to organic causes or conditions, may be employed only when specified by an IEP and as determined by a medical professional qualified to make the determination, and as agreed to by the student’s parents. Mechanical restraints shall prevent a student from injuring himself or others or promote normative body positioning and physical functioning.

e) The following aversive techniques of handling behavior are considered inappropriate and may not be used by agencies in educational programs:
(1) Corporal punishment.
(2) Punishment for a manifestation of a student’s disability.
(3) Locked rooms, locked boxes or other structures or spaces from which the student cannot readily exit.
(4) Noxious substances.
(5) Deprivation of basic human rights, such as withholding meals, water or fresh air.
(6) Suspensions constituting a pattern under §14.143(a) (relating to disciplinary placement).
(7) Treatment of a demeaning nature.
(8) Electric shock.

(f) School entities have the primary responsibility for ensuring that positive behavior support programs are in accordance with this chapter, including the training of personnel for the use of specific procedures, methods and techniques, and for having a written policy and procedures on the use of positive behavior support techniques and obtaining parental consent prior to the use of restraints or intrusive procedures as provided in subsection (c).

(g) In accordance with their plans, agencies may convene a review, including the use of human rights committees, to oversee the use of restrictive or intrusive procedures or restraints.

(h) Subsequent to a referral to law enforcement, for students with disabilities who have positive behavior support plans, an updated functional behavior assessment and positive behavior support plan shall be required.

(xi) The LEA shall receive approval from the Department for its corrective action plan and shall implement all steps contained in its corrective action plan within the time periods specified in that plan.

(xii) After the Department has notified an LEA that a school is no longer identified as a persistently dangerous school, the LEA is encouraged to permit students who transferred to complete their education at their new school. LEAs may not require students to return to their original school if the students are enrolled in a charter school.

(e) Responsibilities of Department.

(1) The Department will identify those schools that meet or exceed the criteria for a persistently dangerous school by analyzing the Annual Report on School Violence and Weapons Possession (PDE-360). In identifying persistently dangerous schools, the Department will use the most recent data available to it from the reporting LEA, and will take all reasonable steps to verify that the data is valid and reliable.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

LAWS

§ 16-21-21. Student discipline codes.
Each school committee shall make, maintain, and enforce a student discipline code. The purpose of the code is to foster a positive environment that promotes learning. The department of elementary and secondary education shall provide necessary technical assistance in the development of the student discipline code. The school committee shall cause the school discipline code to be distributed to each student enrolled in the district. Each student and his or her parent, guardian, or custodian shall sign a statement verifying that they have been given a copy of the student discipline code of their respective school district.

§ 16-2-17. Right to a safe school.
(a) Each student, staff member, teacher, and administrator has a right to attend and/or work at a school which is safe and secure, and which is conducive to learning, and which is free from the threat, actual or implied, of physical harm by a disruptive student. A disruptive student is a person who is subject to compulsory school attendance, who exhibits persistent conduct which substantially impedes the ability of other students to learn, or otherwise substantially interferes with the rights stated above, and who has failed to respond to corrective and rehabilitative measures presented by staff, teachers, or administrators.
(b) The school committee, or a school principal as designated by the school committee, may suspend all pupils found guilty of this conduct, or of violation of those school regulations which relate to the rights set forth in subsection (a), or where a student represents a threat to those rights of students, teachers, or administrators, as described in subsection (a). Nothing in this section shall relieve the school committee or school principals from following all procedures required by state and federal law regarding discipline of students with disabilities.
(c) A student suspended under this section may appeal the action of the school committee, or a school principal as designee, to the commissioner of elementary and secondary education who, after notice to the parties interested of the time and place of hearing, shall examine and decide the appeal without cost to the parties involved. Any decision of the commissioner in these matters shall be subject to appeal by the student to the board of regents for elementary and secondary education and any decision of the board of regents may be appealed by the student to the family court for the county in which the school is located as provided in § 42-35-15.
(d) All school superintendents, or their designees, shall review annually, the discipline data for their school district, collected in accordance with the specifications set forth in § 16-60-4(21), to determine whether the discipline imposed has a disproportionate impact on students based on race, ethnicity, or disability status and to appropriately respond to any such disparity. In addition to the data submitted, if a disparity exists, the school district shall submit a report to the council on elementary and secondary education describing the conduct of the student, the frequency of the conduct, prior disciplinary actions for the conduct, any other relevant information and corrective actions to address the disparity, after consultation with representatives of the faculty has been taken to address the disparity. The reports shall be deemed to be public records for purposes of title 38.
REGULATIONS

2.1 Authority. These regulations are promulgated by the Rhode Island Board of Regents for Elementary and Secondary Education pursuant to R.I.G.L. 16-60-4.

2.2 Scope. These regulations govern the use of physical restraint and crisis intervention on all students in publicly funded elementary and secondary education programs, including all Rhode Island public school districts and regional public school districts, all Rhode Island State Operated Schools, all Public Charter Schools, educational programs operated by the Department for Children Youth and Families, Educational Collaborative Programs, and Local Educational Agencies operating a public education program; all of which shall hereafter be referred to as public education programs.

2.3 Purpose. The purpose of these regulations is to ensure that every student participating in a Rhode Island public education program be free from the unreasonable use of physical restraint and crisis intervention. Physical intervention, the use of manual or mechanical restraint or escort involving physical contact should only be used as a crisis intervention for the purpose of preventing harm or injury. The crisis intervention must not include procedures that intentionally cause pain, injury, trauma or humiliation. A physical restraint crisis intervention should not be used for the purpose of changing behavior in situations where no protection from harm or injury is needed. Only the least intrusive physical interaction needed to adequately protect the child or others shall be used and shall be terminated as soon as the need for protection has abated.

2.4 Construction. Nothing in these regulations shall be construed to limit the protection offered publicly funded students under other state or federal laws nor do these regulations preclude any teacher, employee or agent of a public education program from using reasonable force to protect students, other persons or themselves from imminent, serious, physical harm.

Each LEA shall ensure that schools promote a positive climate with emphasis on mutual respect, self-control, good attendance, order and organization, and proper security. Each LEA shall develop protocols that define a set of discipline strategies and constructs that ensure that students and adults make positive behavioral choices and that are conducive to a safe and nurturing environment that promotes academic success. Each LEA shall ensure that:

-- Schools engage in a participatory process (involving students and staff) to assess periodically the school climate and to adopt or develop strategies to improve conditions (see the Board of Regents Policy Statement on Student Rights);

-- Students and parents/guardians are notified of district and school rules related to conduct and shall receive regular instruction regarding these rules. In addition, parents/guardians, and students shall be provided with information about early warning signs of harassing and intimidating behaviors, such as bullying, as well as prevention and intervention strategies;

-- Schools provide a structure of incentives that adequately reward students for their efforts and achievements. Attention shall be given to rewarding a diversity of accomplishments and to broadening the availability of rewards;

-- Schools have a clearly delineated system for ensuring compulsory attendance for children six (6) to sixteen (16) that includes:
  a) Procedures for noting daily absenteeism and investigating unexcused absences;
b) Procedures for noting the required period of attendance of students attending at-home instruction approved by the school committee or at a private day school approved by the Commissioner of Education; and

c) The appointment of truant (or attendance) officers whose duties shall include referring truant students to appropriate school support services and procedures for enforcing any given case through civil action filed in Family Court;

-- Disciplinary actions are fairly administered for all students and comply with state laws mandating that certain violations be considered on a case by case basis; recognizing that there is no mechanism in Rhode Island law for expulsion of students; and

-- Schools shall provide a continuum of interim alternative educational placement options to continue a student's education while suspended that ensure the safety of the student and the school community.

ERLID 7377. Details for Regulations Governing the Education of Children with Disabilities. Section 300.530. Authority of school personnel; emergency removal.
(a) Case-by-case determination.
  (1) School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the other requirements of this section, is appropriate for a child with a disability who violates a code of student conduct.
  (2) If school personnel determine that a child with a disability presents an immediate threat to him or herself or to others, the child may be removed from school for the remainder of the school day regardless of the number of days of suspension the child had already accrued during that school year.
  (3) For any emergency removal under paragraph (2) of this section the public agency must follow the requirements of this section.
(b) School Removal.
  (1) Removals for less than ten (10) days cumulative. School personnel under this section may remove a child with a disability who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to children without disabilities).
    (i) During the first ten (10) school days of removal (cumulative) during the course of a school year, a public agency may, but is not required to:
      (A) Provide educational services to the child;
      (B) Conduct a manifestation determination prior to the disciplinary removal;
      (C) Perform a functional behavioral assessment of the child; or
      (D) Develop a behavioral intervention plan to address the behavioral factors such as the length of each removal, the total amount of time the child is removed, and the proximity of the removals to one another.
  (2) Removals for more than ten (10) days cumulative. After a child with a disability has been removed from his or her current placement for more than ten (10) school days cumulative in the same school...
year, during any subsequent days of removal the public agency must provide services to the extent required under paragraph (d) of this section.

(c) Additional authority. For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child's disability pursuant to paragraph (e) of this section, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in paragraph (d) of this section.

(d) Services.

1. A child with a disability who is removed from the child's current placement pursuant to paragraphs (c), or (g) of this section must:
   i. Continue to receive educational services, as provided in § 300.101(a), so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and
   ii. Receive a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

2. The services required by paragraph (d)(1), (d)(3), (d)(4), and (d)(5) of this section may be provided in an interim alternative educational setting.

3. A public agency is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if it provides services to a child without disabilities who is similarly removed.

4. After a child with a disability has been removed from his or her current placement for ten (10) school days cumulative in the same school year, any subsequent removal constitutes a change in placement under § 300.536.

5. If the removal is a change of placement under § 300.536, the child's IEP Team determines appropriate services under paragraph (d)(1) of this section.

(e) Manifestation determination.

1. Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the LEA, the parent, and relevant members of the child's IEP Team (as determined by the parent and the LEA) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:
   i. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
   ii. If the conduct in question was the direct result of the LEA's failure to implement the IEP.

2. The conduct must be determined to be a manifestation of the child's disability if the LEA, the parent, and relevant members of the child's IEP Team determine that a condition in either paragraph (e)(1)(i) or (1)(ii) of this section was met.

3. If the LEA, the parent, and relevant members of the child's IEP Team determine the condition described in paragraph (e)(1)(ii) of this section was met, the LEA must take immediate steps to remedy those deficiencies.

(f) Determination that behavior was a manifestation. If the LEA, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child's disability, the IEP Team must:

1. Either:
(i) Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or

(ii) If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; and

(2) Except as provided in paragraph (g) of this section, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.

(g) Special circumstances. The LEA may remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child’s disability, if the child:

(1) Carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of an SEA or an LEA;

(2) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA; or

(3) Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA.

(h) Notification. On the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct, the LEA must notify the parents of that decision, and provide the parents the procedural safeguards notice described in § 300.504.

(i) Definitions. For purposes of this section, the following definitions apply:

(1) Controlled substance means a drug or other substance identified under schedules I, II, III, IV, or V in § 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).

(2) Illegal drug means a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.

(3) Serious bodily injury has the meaning given the term “serious bodily injury” under paragraph (3) of subsection (h) of § 1365 of title 18, United States Code.

(4) Weapon has the meaning given the term “dangerous weapon” under paragraph (2) of the first subsection (g) of § 930 of title 18, United States Code.

The child’s IEP Team determines the interim alternative educational setting for services under §300.530(c), (d)(5), and (g).

(a) General. The parent of a child with a disability who disagrees with any decision regarding placement under §§ 300.530 and 300.531, or the manifestation determination under § 300.530(e), or an LEA that believes that maintaining the current placement of the child is substantially likely to result in injury to the child or others, may appeal the decision by requesting a hearing. The hearing is requested by filing a complaint pursuant to §§ 300.507 and 300.508(a) and (b).

(b) Authority of hearing officer.
(1) A hearing officer under § 300.511 hears, and makes a determination regarding an appeal under paragraph (a) of this section.

(2) In making the determination under paragraph (b)(1) of this section, the hearing officer may:
   (i) Return the child with a disability to the placement from which the child was removed if the hearing officer determines that the removal was a violation of § 300.530 or that the child’s behavior was a manifestation of the child’s disability; or
   (ii) Order a change of placement of the child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

(3) The procedures under paragraphs (a) and (b)(1) and (2) of this section may be repeated, if the LEA believes that returning the child to the original placement is substantially likely to result in injury to the child or to others.

(c) Expedit ed due process hearing.
   (1) Whenever a hearing is requested under paragraph (a) of this section, the parents or the LEA involved in the dispute must have an opportunity for an impartial due process hearing consistent with the requirements of §§ 300.507 and 300.508(a) through (c) and §§300.510 through 300.514, except as provided in paragraph (c)(2) through (4) of this section.
   (2) RIDE shall arrange the expedited due process hearing, which must conclude within 20 school days of the date that the complaint requesting the hearing is filed. The due process hearing officer must render a decision within 10 school days of the conclusion of the hearing.
   (3) Unless the parents and LEA agree in writing to waive the resolution meeting described in paragraph (c)(3)(i) of this section, or agree to use the mediation process described in § 300.506:
      (i) A resolution meeting must occur within seven days of receiving notice of the due process complaint; and
      (ii) The due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of the receipt of the due process complaint.
   (4) The decisions on expedited due process hearings are appealable consistent with § 300.514.

When an appeal under § 300.532 has been made by either the parent or the LEA, the child must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period specified in § 300.530(c) or (g), whichever occurs first, unless the parent and the SEA or LEA agree otherwise.

(a) General. A child who has not been determined to be eligible for special education and related services under this part and who has engaged in behavior that violated a code of student conduct, may assert any of the protections provided for in this part if the public agency had knowledge (as determined in accordance with paragraph (b) of this section) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

(b) Basis of knowledge. A public agency must be deemed to have knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred:
(1) The parent of the child expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency, or a teacher of the child, that the child is in need of special education and related services;

(2) The parent of the child requested an evaluation of the child pursuant to §§ 300.300 through 300.311; or

(3) The teacher of the child, or other personnel of the LEA, expressed specific concerns about a pattern of behavior demonstrated by the child directly to the director of special education of the agency or to other supervisory personnel of the agency.

c) Exception. A public agency would not be deemed to have knowledge under paragraph (b) of this section if:

(1) The parent of the child:
   (i) Has not allowed an evaluation of the child pursuant to §§ 300.300 through 300.311; or
   (ii) Has refused services under this part; or

(2) The child has been evaluated in accordance with §§ 300.300 through 300.311 and determined to not be a child with a disability under this part.

(d) Conditions that apply if no basis of knowledge.

(1) If a public agency does not have knowledge that a child is a child with a disability (in accordance with paragraphs (b) and (c) of this section) prior to taking disciplinary measures against the child, the child may be subjected to the disciplinary measures applied to children without disabilities who engage in comparable behaviors consistent with paragraph (d)(2) of this section.

   (2)(i) If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures under § 300.530, the evaluation must be conducted in an expedited manner.

   (ii) Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services.

   (iii) If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and information provided by the parents, the agency must provide special education and related services in accordance with this part, including the requirements of §§ 300.530 through 300.536 and § 612(a)(1)(A) of the Act.

ERLID 7377. Details for Regulations Governing the Education of Children with Disabilities. Section 300.536. Change of placement because of disciplinary removals.
For purposes of removals of a child with a disability from the child’s current educational placement under §§ 300.530 through 300.535, a change of placement occurs if the removal is for more than 10 school days cumulative in the same school year.

**LAWS**

§ 16-2-17. Right to a safe school.

(a) Each student, staff member, teacher, and administrator has a right to attend and/or work at a school which is safe and secure, and which is conducive to learning, and which is free from the threat, actual or implied, of physical harm by a disruptive student. A disruptive student is a person who is subject to
compulsory school attendance, who exhibits persistent conduct which substantially impedes the ability of other students to learn, or otherwise substantially interferes with the rights stated above, and who has failed to respond to corrective and rehabilitative measures presented by staff, teachers, or administrators.

(b) The school committee, or a school principal as designated by the school committee, may suspend all pupils found guilty of this conduct, or of violation of those school regulations which relate to the rights set forth in subsection (a), or where a student represents a threat to those rights of students, teachers, or administrators, as described in subsection (a). Nothing in this section shall relieve the school committee or school principals from following all procedures required by state and federal law regarding discipline of students with disabilities.

(c) A student suspended under this section may appeal the action of the school committee, or a school principal as designee, to the commissioner of elementary and secondary education who, after notice to the parties interested of the time and place of hearing, shall examine and decide the appeal without cost to the parties involved. Any decision of the commissioner in these matters shall be subject to appeal by the student to the board of regents for elementary and secondary education and any decision of the board of regents may be appealed by the student to the family court for the county in which the school is located as provided in § 42-35-15.

(d) All school superintendents, or their designees, shall review annually, the discipline data for their school district, collected in accordance with the specifications set forth in § 16-60-4(21), to determine whether the discipline imposed has a disproportionate impact on students based on race, ethnicity, or disability status and to appropriately respond to any such disparity. In addition to the data submitted, if a disparity exists, the school district shall submit a report to the council on elementary and secondary education describing the conduct of the student, the frequency of the conduct, prior disciplinary actions for the conduct, any other relevant information and corrective actions to address the disparity, after consultation with representatives of the faculty has been taken to address the disparity. The reports shall be deemed to be public records for purposes of title 38.

§ 16-77-6.1. Additional standards.

(d) A student who is not under suspension or expulsion for discipline reasons may withdraw from a charter public school at any time and enroll in another public school in the district where the student resides as determined by the school committee of the district. A student may be suspended or expelled from a charter public school in accordance with the board of regents regulations for suspensions and/or expulsions, and other public schools may give full faith and credit to that suspension or expulsion...

REGULATIONS

ERLID 7377. Details for Regulations Governing the Education of Children with Disabilities. Section 300.530. Authority of school personnel; emergency removal.

(b) School Removal.

(1) Removals for less than ten (10) days cumulative. School personnel under this section may remove a child with a disability who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to children without disabilities).

(i) During the first ten (10) school days of removal (cumulative) during the course of a school year, a public agency may, but is not required to:

(A) Provide educational services to the child;

(B) Conduct a manifestation determination prior to the disciplinary removal;

(C) Perform a functional behavioral assessment of the child; or
(D) Develop a behavioral intervention plan to address the behavioral factors such as the length of each removal, the total amount of time the child is removed, and the proximity of the removals to one another.

(2) Removals for more than ten (10) days cumulative. After a child with a disability has been removed from his or her current placement for more than ten (10) school days cumulative in the same school year, during any subsequent days of removal the public agency must provide services to the extent required under paragraph (d) of this section.

(c) Additional authority. For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child’s disability pursuant to paragraph (e) of this section, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in paragraph (d) of this section.

(d) Services.

(1) A child with a disability who is removed from the child’s current placement pursuant to paragraphs (c), or (g) of this section must:

   (i) Continue to receive educational services, as provided in § 300.101(a), so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child’s IEP; and

   (ii) Receive a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

(2) The services required by paragraph (d)(1), (d)(3), (d)(4), and (d)(5) of this section may be provided in an interim alternative educational setting.

(3) A public agency is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if it provides services to a child without disabilities who is similarly removed.

(4) After a child with a disability has been removed from his or her current placement for ten (10) school days cumulative in the same school year, any subsequent removal constitutes a change in placement under § 300.536.

(5) If the removal is a change of placement under § 300.536, the child’s IEP Team determines appropriate services under paragraph (d)(1) of this section.

(e) Manifestation determination.

(1) Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the LEA, the parent, and relevant members of the child’s IEP Team (as determined by the parent and the LEA) must review all relevant information in the student’s file, including the child’s IEP, any teacher observations, and any relevant information provided by the parents to determine:

   (i) If the conduct in question was caused by, or had a direct and substantial relationship to, the child’s disability; or

   (ii) If the conduct in question was the direct result of the LEA’s failure to implement the IEP.

(2) The conduct must be determined to be a manifestation of the child’s disability if the LEA, the parent, and relevant members of the child’s IEP Team determine that a condition in either paragraph (e)(1)(i) or (1)(ii) of this section was met.
(3) If the LEA, the parent, and relevant members of the child’s IEP Team determine the condition described in paragraph (e)(1)(ii) of this section was met, the LEA must take immediate steps to remedy those deficiencies.

(f) Determination that behavior was a manifestation. If the LEA, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child’s disability, the IEP Team must:

(1) Either:

(i) Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or

(ii) If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; and

(2) Except as provided in paragraph (g) of this section, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.

(g) Special circumstances. The LEA may remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child’s disability, if the child:

(1) Carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of an SEA or an LEA;

(2) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA; or

(3) Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA.

(h) Notification. On the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct, the LEA must notify the parents of that decision, and provide the parents the procedural safeguards notice described in § 300.504.

(i) Definitions. For purposes of this section, the following definitions apply:

(1) Controlled substance means a drug or other substance identified under schedules I, II, III, IV, or V in § 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).

(2) Illegal drug means a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.

(3) Serious bodily injury has the meaning given the term “serious bodily injury” under paragraph (3) of subsection (h) of § 1365 of title 18, United States Code.

(4) Weapon has the meaning given the term “dangerous weapon” under paragraph (2) of the first subsection (g) of § 930 of title 18, United States Code.

(a) General. The parent of a child with a disability who disagrees with any decision regarding placement under §§ 300.530 and 300.531, or the manifestation determination under § 300.530(e), or an LEA that believes that maintaining the current placement of the child is substantially likely to result in injury to the
child or others, may appeal the decision by requesting a hearing. The hearing is requested by filing a complaint pursuant to §§ 300.507 and 300.508(a) and (b).

(b) Authority of hearing officer.

(1) A hearing officer under § 300.511 hears, and makes a determination regarding an appeal under paragraph (a) of this section.

(2) In making the determination under paragraph (b)(1) of this section, the hearing officer may:

(i) Return the child with a disability to the placement from which the child was removed if the hearing officer determines that the removal was a violation of § 300.530 or that the child's behavior was a manifestation of the child's disability; or

(ii) Order a change of placement of the child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

(3) The procedures under paragraphs (a) and (b)(1) and (2) of this section may be repeated, if the LEA believes that returning the child to the original placement is substantially likely to result in injury to the child or to others.

(c) Expedited due process hearing.

(1) Whenever a hearing is requested under paragraph (a) of this section, the parents or the LEA involved in the dispute must have an opportunity for an impartial due process hearing consistent with the requirements of §§ 300.507 and 300.508(a) through (c) and §§300.510 through 300.514, except as provided in paragraph (c)(2) through (4) of this section.

(2) RIDE shall arrange the expedited due process hearing, which must conclude within 20 school days of the date that the complaint requesting the hearing is filed. The due process hearing officer must render a decision within 10 school days of the conclusion of the hearing.

(3) Unless the parents and LEA agree in writing to waive the resolution meeting described in paragraph (c)(3)(i) of this section, or agree to use the mediation process described in § 300.506:

(i) A resolution meeting must occur within seven days of receiving notice of the due process complaint; and

(ii) The due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of the receipt of the due process complaint.

(4) The decisions on expedited due process hearings are appealable consistent with § 300.514.

REGULATIONS

The Rhode Island Department of Education recognizes the right to effective structural strategies to be the basic educational right of each child. Furthermore, the Rhode Island Department of Education believes that positive behavioral support and educational strategies should be used, as they relate to behavioral intervention, to respect each child's dignity and personal privacy. Intervention techniques must focus not only on eliminating a certain undesirable behavior, but also upon a determination of the purpose of that behavior, and the provision/instruction of a more appropriate behavior. Behavior intervention plans must be individually designed to meet the needs of the student, including students served in general education, special education, and students protected by Section 504 of the Rehabilitation Act of 1973. These behavioral interventions must not be confused with a physical restraint/crisis intervention. Physical restraint/crisis intervention are not part of a behavioral intervention plan designed to alter a child's behavior but rather are utilized as one method of preventing harm or injury. Once the use of physical restraint/crisis intervention has been employed on a student, school personnel shall determine if the student requires a behavioral intervention plan as part of the student's education program, and if one already exists, whether that plan needs to be modified or adjusted.

2.1 Authority. These regulations are promulgated by the Rhode Island Board of Regents for Elementary and Secondary Education pursuant to R.I.G.L. 16-60-4.

2.2 Scope. These regulations govern the use of physical restraint and crisis intervention on all students in publicly funded elementary and secondary education programs, including all Rhode Island public school districts and regional public school districts, all Rhode Island State Operated Schools, all Public Charter Schools, educational programs operated by the Department for Children Youth and Families, Educational
Collaborative Programs, and Local Educational Agencies operating a public education program; all of which shall hereafter be referred to as public education programs.

2.3 Purpose. The purpose of these regulations is to ensure that every student participating in a Rhode Island public education program be free from the unreasonable use of physical restraint and crisis intervention. Physical intervention, the use of manual or mechanical restraint or escort involving physical contact should only be used as a crisis intervention for the purpose of preventing harm or injury. The crisis intervention must not include procedures that intentionally cause pain, injury, trauma or humiliation. A physical restraint crisis intervention should not be used for the purpose of changing behavior in situations where no protection from harm or injury is needed. Only the least intrusive physical interaction needed to adequately protect the child or others shall be used and shall be terminated as soon as the need for protection has abated.

2.4 Construction. Nothing in these regulations shall be construed to limit the protection offered publicly funded students under other state or federal laws nor do these regulations preclude any teacher, employee or agent of a public education program from using reasonable force to protect students, other persons or themselves from imminent, serious, physical harm.

3.1 Antecedent- A preceding circumstance, event, object or phenomenon which may trigger a particular behavior or chain of behaviors.

3.2 Aversive Interventions/Strategies- The specific strategies include but are not limited to the following:

(a) Noxious, painful, intrusive stimuli or activities that result in pain;
(b) Any form of noxious, painful or intrusive spray or inhalant;
(c) Electric shock;
(d) Water spray to the face;
(e) Pinches and deep muscle squeezes;
(f) Shouting, screaming or using a loud, sharp, harsh voice to frighten or threaten or the use of obscene language;
(g) Withholding adequate sleep;
(h) Withholding adequate shelter or bedding;
(i) Withholding bathroom facilities;
(j) Withholding meals, essential nutrition or hydration;
(k) Removal of an individual's personal property as punishment;
(l) Unobserved time-out or room/area solely used for time out;
(m) Facial or auditory screening devices; and
(n) Use of chemical restraints instead of positive programs or medical treatments. (RI 40.1-26-4.1)

3.3 Behavioral Analysis- A functional analysis with the addition of operationally defining a target behaviors and the grouping of behaviors for an intervention plan.

3.4 Behavior Intervention Plan: A plan, developed by a team, that delineates emotional, social and/or behavioral goals for a student and the steps that the school, student, parent and/or others will take to positively support the student's progress toward those goals. A Behavior Intervention Plan is comprised of practical and specific strategies to increase or reduce defined behaviors or a pattern of behavior exhibited by a student. A Behavior Intervention Plan includes the following:

1. Definition of the behavior in specific, measurable terms.
2. A plan for prevention of the behavior by changing some of the who, what, when, and where information from the Functional Behavioral Assessment (FBA).
3. A plan to teach the student new ways to meet his or her needs.
4. A description of how to react to the student's behavior in a way that will reinforce appropriate behavior.
5. A plan for how to manage a crisis situation.
6. A data collection, analysis and evaluation system.
7. Timelines for review.

3.5 Behavioral Momentum- The speed or force of behavior in a behavior chain, often beginning with an antecedent.

3.6 Corporal Punishment- is defined as the infliction of bodily pain as a penalty for disapproved behavior. Corporal punishment as defined shall not be used in public education programs.

3.7 De-Escalation- The withdrawal or presentation of stimulus to a situation which causes it to become more controlled, calm and less dangerous.

3.8 Environmental Engineering- The arrangement or manipulation of the physical environment and stimuli in order to facilitate more appropriate behavioral responses.

3.9 Escalation- The withdrawal or presentation of new stimulus to a situation which causes it to become more out of control and potentially dangerous.

3.10 Forceful Physical Guidance- An inappropriate response to a child's perceived misbehavior that consists of an adult/supervisory person physically forcing to engage in the desired behavior or to comply with a directive.

3.11 Functional Behavioral Analysis- The evaluation of behavioral assessment information that occurs at specific points in time. The analysis provides the information necessary to develop a behavior intervention plan.

3.12 Functional Behavioral Assessment- is an ongoing process for gathering information that can be used to hypothesize about the function of student behavior. The components of the process are as follows:
   1. Define/describe behavior
   2. Gather information
   3. Identify when, where and under what circumstances does the behavior occur
   4. Identify the consequences that maintain the behavior
   5. Develop a theory as to the functional intent of the behavior

3.13 IDEA- Individuals with Disabilities Education Act 20, USCA 1400, 34 CFR Part 300

3.14 IEP- Individual Education Program - A written statement for a child with a disability that is developed, reviewed, and revised in a meeting in accordance with § 300.341-§ 300.350 of 34 CFR 300.341-350 and RI Regulations Governing The Education Of Children With Disabilities 300.341-300.350.

3.15 Instructional Physical Guidance- a teaching technique that involves physical contact between the adult/supervisory person and the child. This enables the child to learn or model the physical movement necessary for the development of the desired competency. Example: Hand over hand guidance in instructing a child in writing technique.

3.16 Mechanical Restraint- means the use of devices such as mittens, straps, or restraint chairs to limit a person's movement or hold a person immobile as an intervention precipitated by the person's behavior. Mechanical restraint applies to uses intended to prevent injury with persons who engage in behaviors such as head-banging, gouging, or other self-injurious actions that result in tissue damage and medical
problems. Mechanical restraint does not apply to restraint used to treat a person's medical needs or to position a person with physical disabilities.

3.17 Misting- The release of noxious, toxic or otherwise unpleasant sprays, mists or substances in proximity to the child’s face.

3.18 Negative Practice Overcorrection- Having a child repeat an activity/task with an arbitrarily selected frequency. Example: Writing a classroom rule on the chalkboard 100 times.

3.19 Parental Consent- Parental consent means that (a) the parent has been fully informed of all information relevant to the activity for which consent is sought, in his or her native language or other mode of communication; (b) the parent understands and agrees in writing to the carrying out of the activity for which his/her consent is sought, and the consent describes that activity and lists the records (if any) that will be released and to whom; and (c) the parent understands that the granting of consent is voluntary on the part of the parent and may be revoked at any time.

3.20 Physical Restraint/Crisis Intervention.
   (a) Manual Restraint- The use of physical intervention intended to hold a person immobile or limit a person's movement by using body contact as the only source of physical restraint.
   (b) Seclusion Restraint: Physically confining a student alone in a room or limited space without access to school staff. The use of "time out" procedures during which a staff member remains accessible to the student shall not be considered "seclusion restraint." The use of seclusion restraint is prohibited in public education programs.
   (c) Chemical Restraint: The administration of medication for the purpose of restraint. The use of medication restraint is prohibited in public education programs.

3.21 Positive Behavioral Supports- a set of practices used to organize teaching and learning environments and experiences for students which facilitate the student's successful self-awareness, self-management, engagement with others and with the learning process.

3.22 Redirection encompasses a number of techniques which serve to: (1) Divert the student from an unwanted task or a problematic behavior. (2) Return the student to a more desirable task or more appropriate behavior. Redirection occurs without the coercion of negative consequences. Among these techniques are:
   Proximity, Cueing, Regrouping, Restructuring, Diversions, Hurdle Help.

3.23 Satiation- The repetition of a task/activity/behavior to the point that a person is unable to perform the task even one more time.

3.24 Seclusion- placing a child alone in a locked room without supervision. Such action is strictly prohibited in Rhode Island.

3.25 Section 504 of The Rehabilitation Act of 1973. A Civil Rights law prohibiting discrimination against individuals with disabilities from federally assisted programs or activities.

3.26 Self Management- The monitoring, regulation, care, guidance and treatment of one's own behavior.

3.27 Timeout- A Punishment (Type II) procedure in which access to reinforcement is withdrawn for a certain period of time.
   (a) Isolation "from the group" -- Reinforcement is withdrawn and the student remains in a separate room or booth for a certain period of time. The small room or booth may or may not have a door.

3.28 Zero Tolerance- (as defined by state policy) the purpose is to provide a school environment that is conducive to learning. The underlying belief of this policy is that all children have the right to be educated in a safe and nurturing environment. Therefore, each school system shall adopt a policy of zero tolerance for weapons, violence and illegal drugs in schools. Any student found to be in possession of a weapon, or involved in an aggravated assault as defined herein, will immediately be suspended in accordance with
applicable due process provisions. During this suspension, the school district will take the necessary steps in determining any additional action to be taken, which may include long-term suspension. Zero tolerance policies cannot supersede other Federal and State Regulations, such as the Individuals with Disabilities Act (IDEA), Section 504 of the Rehabilitation Act of 1973, and R.I. Special Education Regulations.

4.1 Procedures. Public education programs shall develop written procedures regarding appropriate responses to student behavior that may require the use of physical restraint/crisis intervention. Such procedures shall be annually reviewed and provided to school staff and made available to parents of enrolled students. Such procedures shall include, but not be limited to:

(a) Methods for preventing student violence, self-injurious behavior, and suicide, including de-escalation of potentially dangerous behavior occurring among groups of students or with an individual student;
(b) A school policy regarding intervention that provides a description and explanation of the school's or program's method of physical restraint/crisis intervention, a description of the school's or program's training requirements, reporting requirements and follow-up procedures, and a procedure for receiving and investigating complaints regarding restraint practices.

4.2 Required Training For All Staff. Each public education program shall designate personnel to determine a time and methods to provide all staff with training regarding the school's physical restraint/crisis intervention policies. Such training shall occur at least annually not later than within the first month of each school year. For employees hired after the school year begins, this training shall take place within the first month of their employment. Training shall include information on the following:

(a) The program’s restraint policy;
(b) Interventions that may preclude the need for restraint, including de-escalation of problematic behaviors;
(c) Types of restraints and related safety considerations, including information regarding the increased risk of injury to a student when an extended restraint is used;
(d) Administering physical restraint in accordance with known medical or psychological limitations and/or behavioral intervention plans applicable to an individual student; and
(e) Identification of program staff who have received advanced training pursuant to Regulation 4.3 in the use of physical restraint/crisis intervention.

4.3 Advanced Staff Training on the Use of Physical Restraint/Crisis Intervention.

At the start of each school year, every public education program shall identify staff that are authorized to serve as a school-wide based resource to assist other staff in ensuring proper administration of physical restraint and crisis interventions. These staff members shall participate in advanced training in the use of physical restraint/crisis intervention beyond the basic training offered to all staff and the public education program shall document the extent of such training.

4.4 Content of Advanced Training. The advanced training required by Regulation 4.3 in the proper administration of physical restraint/crisis intervention shall include, but not be limited to:

(a) Appropriate procedures for preventing the need for physical restraint/crisis intervention, including the de-escalation of problematic behavior, relationship building and the use of alternatives to such restraints;
(b) A description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint/crisis intervention and methods for evaluating the risk of harm in individual situations in order to determine whether the use of physical restraint and crisis interventions are warranted;
(c) The simulated experience of administering and receiving physical restraint/crisis intervention, instruction regarding the effect(s) on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;
(d) Instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and
(e) Demonstration by participants of proficiency in administering physical restraint/crisis intervention.

**ERLID 3826. Physical Restraint Regulations. Section 5.0. Determining when physical restraint/crisis intervention may be used.**

5.1 Use of Restraint/Intervention. Physical restraint/crisis intervention may be used only in the following circumstances:

(a) Non-physical interventions would not be effective; and
(b) The student's behavior poses a threat of imminent, serious, physical harm to self and/or others; and
(c) If a behavioral intervention plan has been developed for the student, those various positive reinforcement techniques have been implemented appropriately and the child has failed to respond to those reinforcement techniques.

**ERLID 3826. Physical Restraint Regulations. Section 6.0 Limitations and prohibitions.**

6.1 Limitations on the Use of Restraints. Physical restraint/crisis intervention in a public education program shall be limited to the use of such reasonable force as necessary to protect a student or another member of the school community from assault or imminent, serious, physical harm.

6.2 Prohibitions. Physical restraint/crisis intervention are prohibited in the following circumstances:

(a) As a means of punishment;
(b) As an intervention designed to, or likely to cause physical pain;
(c) As in any intervention which denies adequate sleep, food, water, shelter, bedding or access to bathroom facilities;
(d) As in any intervention which is designed to subject, used to subject, or likely to subject the individual to verbal abuse, ridicule or humiliation, physical pain, or which can be expected to cause excessive emotional trauma;
(e) As in a restrictive intervention which employs a device or material or objects that simultaneously immobilize all four extremities, including the procedure known as prone containment, except that prone containment may be used by trained personnel as a limited emergency intervention when a documented part of a previously agreed upon written behavioral intervention plan;
(f) As in seclusion, unless under constant surveillance and observation when documented as part of a previously agreed upon written behavioral intervention plan;
(g) As in any intervention that precludes adequate supervision of the child;
(h) Any intervention which deprives the individual of one or more of his or her senses

**ERLID 3826. Physical Restraint Regulations. Section 7.0 Proper administration of physical restraint/crisis intervention.**

7.1 Trained Personnel. Only personnel who have had training pursuant to Regulation 4.1 may administer physical restraint/crisis intervention with students. Whenever possible, the administration of a physical restraint/crisis intervention shall be witnessed by at least one adult who does not participate in the restraint. The training requirement contained in Regulation 4.1 shall not preclude a teacher, employee or agent of a public education program from using reasonable force to protect students, other persons, or themselves from imminent, serious physical harm.
7.2 Use of Force. A person administering a physical restraint/crisis intervention shall use only the amount of force necessary to protect the student or others from physical injury or harm and shall discontinue the physical restraint/crisis intervention as soon as possible.

7.3 Safety Requirements. Additional requirements for the use of physical restraint/crisis intervention are:

(a) No restraint shall be administered in such a way that the student is prevented from breathing or speaking. During the administration of a restraint, a staff member shall continuously monitor the physical status of the student, including skin color and respiration. A restraint shall be released immediately upon a determination by the staff member administering the restraint that the student is no longer at risk of causing imminent physical harm to him or herself or others.

(b) Restraint shall be administered in such a way as to prevent or minimize physical harm. If, at any time during a physical restraint/crisis intervention, the student demonstrates significant physical distress, the student shall be released from the restraint immediately, and school staff shall take steps to seek medical assistance.

(c) Program staff shall review and consider any known medical or psychological limitations and/or behavioral intervention plans regarding the use of physical restraint/crisis intervention on an individual student.

(d) Following the release of a student from a restraint, the Public Education Program shall implement follow-up procedures. These procedures shall include reviewing the incident with the student, as appropriate, to address the behavior that precipitated the restraint, reviewing the incident with the staff person(s) who administered the restraint to discuss whether proper restraint procedures were followed, and consideration of whether any follow-up is appropriate for students who witnessed the incident.

ERLID 3826. Physical Restraint Regulations. Section 8.0 Reporting requirements.

8.1 Informing School Administration. The staff member who administered the physical restraint/crisis intervention shall inform the administration of any public education program of the use of a physical restraint/crisis intervention as soon as possible, and by a written report not later than the next working day. The administration shall maintain an ongoing written record of all reported instances of physical restraint/crisis intervention.

8.2 Informing Parents. The school administration shall have procedures to inform the student's parent(s) or guardian(s) of the use of a restraint as soon as possible, and not later than two (2) school days after each incident. Written documentation of this notification shall be maintained by the public education program.

8.3 Contents of Report. The written report required by Regulation 8.1 shall include:

(a) The names and job titles of the staff who administered the restraint, and observers, if any, the date of the restraint, the time the restraint began and ended, and the name of the administrator who was verbally informed following the restraint;

(b) A description of the activity in which the restrained student and other students and staff in the same room or vicinity were engaged immediately preceding the use of physical restraint/crisis intervention, the behavior that prompted the restraint, the efforts made to deescalate the situation, alternatives to restraint that were attempted, and the justification for initiating physical restraint/crisis intervention;

(c) A description of the administration of the restraint including the holds used and reasons such holds were necessary, the student's behavior and reactions during the restraint, how the restraint ended, and documentation of injury to the student and/or staff, if any, during the restraint and any medical care provided;
(d) Information regarding any further action(s) that the school has taken or may take, including any
disciplinary sanctions that may be imposed on the student, and a behavioral intervention plan was
developed or modified as a result of the restraint;

(e) Information regarding opportunities for the student's parents or guardians to discuss with school
officials the administration of the restraint, any disciplinary sanctions that may be imposed on the
student and/or any other related matter.

8.4 Report to the R.I. Department of Education. Each public educational program shall provide the R.I.
Department of Education a record of every incident of the use of a physical restraint/crisis intervention on
an annual basis.

**ERLID 3826 Physical Restraint Regulations. Section 9.0 Emergency situations.**

These regulations shall not create a barrier to maintaining a safe school environment. While these
regulations govern the use of physical restraint/crisis interventions, they do not limit the ability of school
personnel or their agents from using reasonable force to protect students, other persons or themselves
from imminent, serious physical harm.

**ERLID 3826 Physical Restraint Regulations. Section 10.0 Behavioral intervention plans.**

Once the use of physical restraint/crisis intervention has been employed on a student, school personnel
shall determine if the student requires a behavioral intervention plan as part of the student's education
program, and if one already exists, whether that plan needs to be modified or adjusted.

Alternative placements

LAWS

§ 16-19-1. Attendance required.
(b) A waiver to the compulsory attendance requirement may be granted by the superintendent only upon proof that the pupil is sixteen (16) years of age or older and has an alternative learning plan for obtaining either a high school diploma or its equivalent.

(1) Alternative-learning plans shall include age-appropriate academic rigor and the flexibility to incorporate the pupil's interests and manner of learning. These plans may include, but are not limited to, such components, or combination of components, of extended learning opportunities as independent study, private instruction, performing groups, internships, community service, apprenticeships, and online courses that are currently funded and available to the school department and/or the community.

(2) Alternative-learning plans shall be developed, and amended if necessary, in consultation with the pupil, a school guidance counselor, the school principal, and at least one parent or guardian of the pupil, and submitted to the superintendent for approval.

(3) If the superintendent does not approve the alternative-learning plan, the parent or guardian of the pupil may appeal such decision to the school committee. A parent or guardian may appeal the decision of the school committee to the commissioner of education pursuant to chapter 39 of title 16.

(c) Nothing in this section shall be deemed to limit or otherwise interfere with the rights of teachers and other school employees to collectively bargain pursuant to chapters 9.3 and 9.4 of title 28 or to allow any school committee to abrogate any agreement reached by collective bargaining.

§ 16-21-20. Alternative placement and prevention activities.
The department of elementary and secondary education in conjunction with the attorney general's task force to prevent violence in schools shall develop requirements for the alternative placement of students suspended under the provision of § 16-21-18. The placements shall be cooperative efforts between the
local school district, which shall be responsible for instruction of students, and other appropriate state and local agencies. Further, the department of elementary and secondary education in conjunction with the attorney general's task force shall establish policies in support of locally developed prevention and education activities that include broad parent, teacher, and community involvement.

§ 16-21-27. Alternative education programs.
Each school district shall adopt a plan to ensure continued education of students who are removed from the classroom because of a suspension of more than ten (10) days or who are chronically truant. The plan shall be adopted by the school committee and shall be submitted to Rhode Island department of elementary and secondary education as part of its annual strategic plan submission.

REGULATIONS

Each LEA shall ensure that schools promote a positive climate with emphasis on mutual respect, self-control, good attendance, order and organization, and proper security. Each LEA shall develop protocols that define a set of discipline strategies and constructs that ensure that students and adults make positive behavioral choices and that are conducive to a safe and nurturing environment that promotes academic success. Each LEA shall ensure that:

[...]

-- Schools have a clearly delineated system for ensuring compulsory attendance for children six (6) to sixteen (16) that includes:

[...]

-- The appointment of truant (or attendance) officers whose duties shall include referring truant students to appropriate school support services and procedures for enforcing any given case through civil action filed in Family Court;

-- Disciplinary actions are fairly administered for all students and comply with state laws mandating that certain violations be considered on a case by case basis; recognizing that there is no mechanism in Rhode Island law for expulsion of students; and

-- Schools shall provide a continuum of interim alternative educational placement options to continue a student's education while suspended that ensure the safety of the student and the school community.

ERLID 7377. Details for Regulations Governing the Education of Children with Disabilities. Section 300.530. Authority of school personnel; emergency removal.

(a) Case-by-case determination.

(1) School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the other requirements of this section, is appropriate for a child with a disability who violates a code of student conduct.

(2) If school personnel determine that a child with a disability presents an immediate threat to him or herself or to others, the child may be removed from school for the remainder of the school day regardless of the number of days of suspension the child had already accrued during that school year.

(3) For any emergency removal under paragraph (2) of this section the public agency must follow the requirements of this section.

(b) School Removal.

(1) Removals for less than ten (10) days cumulative. School personnel under this section may remove a child with a disability who violates a code of student conduct from his or her current placement to an
appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to children without disabilities).

(i) During the first ten (10) school days of removal (cumulative) during the course of a school year, a public agency may, but is not required to:

(A) Provide educational services to the child;
(B) Conduct a manifestation determination prior to the disciplinary removal;
(C) Perform a functional behavioral assessment of the child; or
(D) Develop a behavioral intervention plan to address the behavioral factors such as the length of each removal, the total amount of time the child is removed, and the proximity of the removals to one another.

(2) Removals for more than ten (10) days cumulative. After a child with a disability has been removed from his or her current placement for more than ten (10) school days cumulative in the same school year, during any subsequent days of removal the public agency must provide services to the extent required under paragraph (d) of this section.

(c) Additional authority. For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child’s disability pursuant to paragraph (e) of this section, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in paragraph (d) of this section.

(d) Services.

(1) A child with a disability who is removed from the child’s current placement pursuant to paragraphs (c), or (g) of this section must:

(i) Continue to receive educational services, as provided in § 300.101(a), so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child’s IEP; and
(ii) Receive a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

(2) The services required by paragraph (d)(1), (d)(3), (d)(4), and (d)(5) of this section may be provided in an interim alternative educational setting.

(3) A public agency is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if it provides services to a child without disabilities who is similarly removed.

(4) After a child with a disability has been removed from his or her current placement for ten (10) school days cumulative in the same school year, any subsequent removal constitutes a change in placement under § 300.536.

(5) If the removal is a change of placement under § 300.536, the child’s IEP Team determines appropriate services under paragraph (d)(1) of this section.

(e) Manifestation determination.

(1) Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the LEA, the parent, and relevant members of the child’s IEP Team (as determined by the parent and the LEA) must review all relevant information in the student’s file, including the child’s IEP, any teacher observations, and any relevant information provided by the parents to determine:
(i) If the conduct in question was caused by, or had a direct and substantial relationship to, the child’s disability; or

(ii) If the conduct in question was the direct result of the LEA’s failure to implement the IEP.

(2) The conduct must be determined to be a manifestation of the child’s disability if the LEA, the parent, and relevant members of the child’s IEP Team determine that a condition in either paragraph (e)(1)(i) or (1)(ii) of this section was met.

(3) If the LEA, the parent, and relevant members of the child’s IEP Team determine the condition described in paragraph (e)(1)(ii) of this section was met, the LEA must take immediate steps to remedy those deficiencies.

(f) Determination that behavior was a manifestation. If the LEA, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child’s disability, the IEP Team must:

(1) Either:

(i) Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or

(ii) If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; and

(2) Except as provided in paragraph (g) of this section, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.

(g) Special circumstances. The LEA may remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child’s disability, if the child:

(1) Carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of an SEA or an LEA;

(2) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA; or

(3) Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA.

(h) Notification. On the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct, the LEA must notify the parents of that decision, and provide the parents the procedural safeguards notice described in § 300.504.

(i) Definitions. For purposes of this section, the following definitions apply:

(1) Controlled substance means a drug or other substance identified under schedules I, II, III, IV, or V in § 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).

(2) Illegal drug means a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.

(3) Serious bodily injury has the meaning given the term “serious bodily injury” under paragraph (3) of subsection (h) of § 1365 of title 18, United States Code.

(4) Weapon has the meaning given the term “dangerous weapon” under paragraph (2) of the first subsection (g) of § 930 of title 18, United States Code.
**ERLID 7377. Details for Regulations Governing the Education of Children with Disabilities. Section 300.531. Determination of setting.**

The child’s IEP Team determines the interim alternative educational setting for services under §300.530(c), (d)(5), and (g).

**ERLID 7377. Details for Regulations Governing the Education of Children with Disabilities. Section 300.533. Placement during appeals.**

When an appeal under § 300.532 has been made by either the parent or the LEA, the child must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period specified in § 300.530(c) or (g), whichever occurs first, unless the parent and the SEA or LEA agree otherwise.

**ERLID 7377. Details for Regulations Governing the Education of Children with Disabilities. Section 300.536. Change of placement because of disciplinary removals.**

For purposes of removals of a child with a disability from the child’s current educational placement under §§ 300.530 through 300.535, a change of placement occurs if the removal is for more than 10 school days cumulative in the same school year.

**REGULATIONS**

**ERLID 3826. Physical Restraint Regulations. Section 1.0. Preamble.**

The Rhode Island Department of Education recognizes the right to effective structural strategies to be the basic educational right of each child. Furthermore, the Rhode Island Department of Education believes that positive behavioral support and educational strategies should be used, as they relate to behavioral intervention, to respect each child's dignity and personal privacy. Intervention techniques must focus not only on eliminating a certain undesirable behavior, but also upon a determination of the purpose of that behavior, and the provision/instruction of a more appropriate behavior. Behavior intervention plans must be individually designed to meet the needs of the student, including students served in general education, special education, and students protected by Section 504 of the Rehabilitation Act of 1973. These behavioral interventions must not be confused with a physical restraint/crisis intervention. Physical restraint/crisis intervention are not part of a behavioral intervention plan designed to alter a child's
behavior but rather are utilized as one method of preventing harm or injury. Once the use of physical restraint/crisis intervention has been employed on a student, school personnel shall determine if the student requires a behavioral intervention plan as part of the student's education program, and if one already exists, whether that plan needs to be modified or adjusted.

**ERLID 3826. Physical Restraint Regulations. Section 3.0. Definitions.**

3.4 Behavior Intervention Plan: A plan, developed by a team, that delineates emotional, social and/or behavioral goals for a student and the steps that the school, student, parent and/or others will take to positively support the student's progress toward those goals. A Behavior Intervention Plan is comprised of practical and specific strategies to increase or reduce defined behaviors or a pattern of behavior exhibited by a student. A Behavior Intervention Plan includes the following:

1. Definition of the behavior in specific, measurable terms.
2. A plan for prevention of the behavior by changing some of the who, what, when, and where information from the Functional Behavioral Assessment (FBA).
3. A plan to teach the student new ways to meet his or her needs.
4. A description of how to react to the student's behavior in a way that will reinforce appropriate behavior.
5. A plan for how to manage a crisis situation.
6. A data collection, analysis and evaluation system.
7. Timelines for review.

3.12 Functional Behavioral Assessment- is an ongoing process for gathering information that can be used to hypothesize about the function of student behavior. The components of the process are as follows:

1. Define/describe behavior
2. Gather information
3. Identify when, where and under what circumstances does the behavior occur
4. Identify the consequences that maintain the behavior

3.21 Positive Behavioral Supports- a set of practices used to organize teaching and learning environments and experiences for students which facilitate the student's successful self-awareness, self-management, engagement with others and with the learning process.

In addition, parents/guardians, and students shall be provided with information about early warning signs of harassing and intimidating behaviors, such as bullying, as well as prevention and intervention strategies;

-- Schools provide a structure of incentives that adequately reward students for their efforts and achievements. Attention shall be given to rewarding a diversity of accomplishments and to broadening the availability of rewards;

Community input or involvement

LAWS

§ 16-21.5-1. Legislative intent.
(a) Community policing and the presence of school resource officers on school campuses serve a vital role fostering a safe learning environment for pupils, faculty and staff.
(b) In order to enable school resource officers to more effectively fulfill this role, it is the intent of the legislature to encourage them to form positive relationships with both parents and pupils who are part of the school community.
(c) It is also vitally important that parents be given meaningful opportunity to be active and informed participants in situations involving interaction with school resource officers or other members of the law enforcement community in the school setting.
(d) In furtherance of this objective, it is the intent of the legislature to increase the level of participation of parents when their minor children are being questioned by law enforcement in school or at a school-sponsored activity.

Further, the department of elementary and secondary education in conjunction with the attorney general's task force shall establish policies in support of locally developed prevention and education activities that include broad parent, teacher, and community involvement.

REGULATIONS

(a) Students can offer viable solutions to some of the policy, program, and funding challenges our changing schools face. In addition, it is both possible and desirable to create structures and processes to facilitate student engagement at the district and school levels. Each LEA, therefore, shall:
   Establish policies, processes, and procedures that facilitate regular (i.e., at least quarterly) participation of a representative group of school youth in discussions regarding how to improve the school environment, curriculum, and instruction to ensure increased access to challenging, hands-on learning experiences and supports and to ensure student success on state and local achievement measures;
   Document the process of selection and orientation of these youth as well as the proposals that they put forth, how these proposals were evaluated, and the extent to which they were incorporated in LEA decision-making; and
   Authorize and support youth led events to solicit input from and provide feedback to the larger school community.
(b) Each LEA shall provide a broad spectrum of activities, programs, and services that directly involve families in their children’s education and personally engage families in the school. Therefore, each LEA shall adopt the national Parent-Teacher Association (PTA) Standards for Parent/Family Involvement Programs, which state:
   Communication: Communication between home and school is regular, two-way, and meaningful;
Parenting: Parenting skills are promoted and supported;  
Student Learning: Parents play an integral role in assisting student learning;  
Volunteering: Parents are welcome in the school, and their support and assistance are sought; and  
School Decision Making and Advocacy: Parents are full partners in the decisions that affect children and families.

(c) Each LEA shall facilitate partnerships with community organizations and agencies, municipal entities, and businesses to meet the needs of students and families. Therefore, each LEA shall establish communication strategies that will engage community partners, including:

- Ensuring community representation on the school improvement team or other decision making teams;
- Identifying and recruiting businesses to provide career exploration activities for students;
- Soliciting community organizations or business members to mentor students;
- Facilitating on-site services of local organizations at the school, e.g., counseling, food pantry, tax assistance, legal aid; and
- Recruiting volunteers from community organizations and businesses.

REGULATIONS

08-010-002. Education of Children with Disabilities 300.530 Authority of school personnel; emergency removal.

(a) Case-by-case determination.

(1) School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the other requirements of this section, is appropriate for a child with a disability who violates a code of student conduct.

(2) If school personnel determine that a child with a disability presents an immediate threat to him or herself or to others, the child may be removed from school for the remainder of the school day regardless of the number of days of suspension the child had already accrued during that school year.

(3) For any emergency removal under paragraph (2) of this section the public agency must follow the requirements of this section.

(b) School Removal.

(1) Removals for less than ten (10) days cumulative. School personnel under this section may remove a child with a disability who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to children without disabilities).

(i) During the first ten (10) school days of removal (cumulative) during the course of a school year, a public agency may, but is not required to:

(A) Provide educational services to the child;

(B) Conduct a manifestation determination prior to the disciplinary removal;

(C) Perform a functional behavioral assessment of the child; or

Rhode Island Compilation of School Discipline Laws and Regulations
(D) Develop a behavioral intervention plan to address the behavioral factors such as the length of each removal, the total amount of time the child is removed, and the proximity of the removals to one another.102

(2) Removals for more than ten (10) days cumulative. After a child with a disability has been removed from his or her current placement for more than ten (10) school days cumulative in the same school year, during any subsequent days of removal the public agency must provide services to the extent required under paragraph (d) of this section.

(c) Additional authority. For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child's disability pursuant to paragraph (e) of this section, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in paragraph (d) of this section.

(d) Services.

(1) A child with a disability who is removed from the child's current placement pursuant to paragraphs (c), or (g) of this section must —

   (i) Continue to receive educational services, as provided in § 300.101(a), so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and

   (ii) Receive a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

(2) The services required by paragraph (d)(1), (d)(3), (d)(4), and (d)(5) of this section may be provided in an interim alternative educational setting.

(3) A public agency is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if it provides services to a child without disabilities who is similarly removed.

(4) After a child with a disability has been removed from his or her current placement for ten (10) school days cumulative in the same school year, any subsequent removal constitutes a change in placement under § 300.536.

(5) If the removal is a change of placement under § 300.536, the child's IEP Team determines appropriate services under paragraph (d)(1) of this section.

(e) Manifestation determination.

(1) Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the LEA, the parent, and relevant members of the child's IEP Team (as determined by the parent and the LEA) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine —

   (i) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

   (ii) If the conduct in question was the direct result of the LEA's failure to implement the IEP.

(2) The conduct must be determined to be a manifestation of the child's disability if the LEA, the parent, and relevant members of the child's IEP Team determine that a condition in either paragraph (e)(1)(i) or (1)(ii) of this section was met.
(3) If the LEA, the parent, and relevant members of the child’s IEP Team determine the condition described in paragraph (e)(1)(ii) of this section was met, the LEA must take immediate steps to remedy those deficiencies.

(f) Determination that behavior was a manifestation. If the LEA, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child’s disability, the IEP Team must —

(1) Either —

   (i) Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or

   (ii) If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; and

(2) Except as provided in paragraph (g) of this section, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.

(g) Special circumstances. The LEA may remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child’s disability, if the child —

(1) Carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of an SEA or an LEA;

(2) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA;

(3) Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA.

(h) Notification. On the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct, the LEA must notify the parents of that decision, and provide the parents the procedural safeguards notice described in § 300.504.

(i) Definitions. For purposes of this section, the following definitions apply:

   (1) Controlled substance means a drug or other substance identified under schedules I, II, III, IV, or V in § 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).

   (2) Illegal drug means a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.

   (3) Serious bodily injury has the meaning given the term “serious bodily injury” under paragraph (3) of subsection (h) of § 1365 of title 18, United States Code.

   (4) Weapon has the meaning given the term “dangerous weapon” under paragraph (2) of the first subsection (g) of § 930 of title 18, United States Code.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. 59-5-65. Powers and responsibilities of State Board of Education.
The State Board of Education shall have the power and responsibility to:

59-17-135. Character education.

(B) Each local school board of trustees of the State must develop a policy addressing character education. Any character education program implemented by a district as a result of an adopted policy must, to the extent possible, incorporate character traits including, but not limited to, the following: respect for authority and respect for others, honesty, self-control, cleanliness, courtesy, good manners, cooperation, citizenship, patriotism, courage, fairness, kindness, self-respect, compassion, diligence, good work ethics, sound educational habits, generosity, punctuality, cheerfulness, patience,
sportsmanship, loyalty, and virtue. Local school boards must include all sectors of the community, as referenced in subsection (A)(4), in the development of a policy and in the development of any program implemented as a result of the policy. As part of any policy and program developed by the local school board, an evaluation component must be included.

59-63-140. Local school districts to adopt policies prohibiting harassment; required components; model policies by State Board of Education; bullying prevention programs.

(A) Before January 1, 2007, each local school district shall adopt a policy prohibiting harassment, intimidation, or bullying at school. The school district shall involve parents and guardians, school employees, volunteers, students, administrators, and community representatives in the process of creating the policy.

(B) The policy must include, but not be limited to, the following components:

4. consequences and appropriate remedial actions for persons committing acts of harassment, intimidation, or bullying, and for persons engaging in reprisal or retaliation;
5. procedures for reporting acts of harassment, intimidation, or bullying, to include a provision for reporting anonymously. However, formal disciplinary action must not be taken solely on the basis of an anonymous report. The procedures must identify the appropriate school personnel responsible for taking the report and investigating the complaint;
6. procedures for prompt investigation of reports of serious violations and complaints;
7. a statement that prohibits reprisal or retaliation against a person who reports an act of harassment, intimidation, or bullying;
8. consequences and appropriate remedial action for persons found to have falsely accused another;
9. a process for discussing the district's harassment, intimidation, or bullying policy with students; and
10. a statement of how the policy is to be publicized, including notice that the policy applies to participation in school sponsored functions.

(C) To assist local school districts in developing policies for the prevention of harassment, intimidation, or bullying, the State Board of Education shall develop model policies applicable to grades kindergarten through twelve. Additionally, the State Board of Education shall develop teacher preparation program standards on the identification and prevention of bullying. The model policies and standards must be developed no later than September 1, 2006.

(D) The local school board shall ensure that the school district's policy developed pursuant to this article is included in the school district's publication of the comprehensive rules, procedures, and standards of conduct for schools and in the student's handbook.

(E) Information regarding a local school district policy against harassment, intimidation, or bullying must be incorporated into a school's employee training program. Training also should be provided to school volunteers who have significant contact with students.

(F) Schools and school districts are encouraged to establish bullying prevention programs and other initiatives involving school staff, students, administrators, volunteers, parents, law enforcement, and community members.

Any district board may confer upon any administrator the authority to suspend a pupil from a teacher's class or from the school not in excess of ten days for any one offense and for not more than thirty days in any one school year but no such administrator may suspend a pupil from school during the last ten days of a year if the suspension will make the pupil ineligible to receive credit for the school year without the approval of the school board unless the presence of the pupil constitutes an actual threat to a class or a school or a hearing is granted within twenty four hours of the suspension.

59-63-280. "Paging device" defined; adoption of policies addressing student possession.
(A) For purposes of this section, "paging device" means a telecommunications, to include mobile telephones, device that emits an audible signal, vibrates, displays a message, or otherwise summons or delivers a communication to the possessor.

(B) The board of trustees of each school district shall adopt a policy that addresses student possession of paging devices as defined in subsection (A). This policy must be included in the district's written student conduct standards. If the policy includes confiscation of a paging device, as defined in subsection (A), it should also provide for the return of the device to the owner.

59-63-1330. Discretion of school board.
Nothing in this article shall abrogate the authority of any public school district and its governing board to take such disciplinary action as it is otherwise empowered by law to take against any student for misconduct including, but not limited to, expulsion, and nothing in this chapter shall require that any student be assigned to such an alternative school. These decisions shall rest solely in the discretion of the district and school board, regardless of the offense, record of the child, or other information presented from any source.

   b. The administrator should notify the parent or guardian of the student's misconduct and related proceedings. The administrator should meet with the student and, if necessary, the parent or guardian, confer with them about the student's misconduct, and effect the appropriate disciplinary action.
   c. A complete record of the procedures should be maintained.

4. Possible sanctions to be applied in cases of disruptive conduct may include, but are not limited to:
   a. Temporary removal from class;
   b. Alternative education program;
   c. In-school suspension;
   d. Out-of-school suspension;
   e. Transfer;
   f. Referral to outside agency;
   g. Expulsion;
   h. Restitution of property and damages, where appropriate, should be sought by local school authorities;
   i. Other sanctions as approved by local school authorities.

C. Criminal Conduct--Level III

1. Criminal conduct is defined as those activities engaged in by student(s) which result in violence to oneself or another's person or property or which pose a direct and serious threat to the safety of oneself or others in the school. These activities usually require administrative actions which result in the immediate removal of the student from the school, the intervention of law enforcement authorities, and/or action by the local school board. The provisions of this regulation apply not only to within-school activities, but also to student conduct on school bus transportation vehicles, and other school sponsored activities.
2. Acts of criminal conduct may include, but are not limited to:
   a. Assault and battery;
   b. Extortion;
   c. Bomb threat;
   d. Possession, use, or transfer of dangerous weapons;
   e. Sexual offenses;
   f. Vandalism (major);
   g. Theft, possession, or sale of stolen property;
   h. Arson;
   i. Furnishing or selling unauthorized substances, as defined by local school board policy;
   j. Furnishing, selling, or possession of controlled substances (drugs, narcotics, or poisons).
3. The basic enforcement procedures to be followed in instances of criminal conduct are:
   a. Upon observation or notification and verification of an offense, the administrator should confer
      with the staff involved, should effect the appropriate disciplinary action, and, if appropriate, should
      meet with the student.
   b. If warranted, the student should be removed immediately from the school environment. A parent
      or guardian should be notified as soon as possible.
   c. If appropriate, school officials should contact law enforcement authorities.
   d. Established due process procedures shall be followed when applicable.
   e. A complete record of the procedures should be maintained.
4. Possible sanctions to be applied in cases of criminal conduct may include, but are not limited to:
   a. Out-of-school suspension;
   b. Assignment to alternative schools;
   c. Expulsion;
   d. Restitution of property and damages, where appropriate, should be sought by local school
      authorities;
   e. Other sanctions as approved by local school authorities.
D. Extenuating, Mitigating or Aggravating Circumstances. A local school board may confer upon
   the appropriate administrator the authority to consider extenuating, mitigating or aggravating circumstances
   which may exist in a particular case of misconduct. Such circumstances should be considered in
determining the most appropriate sanction to be used.
V. Discipline of Handicapped Students
For additional information regarding Disciplinary Procedures for students with disabilities, see R 43-243.
VI. Other Areas of Student Conduct Which May Be Regulated by Local School Board Policy
   A. Other areas of student conduct which are subject to regulation by local school boards include, but
      are not limited to:
      1. School attendance;
      2. Use of and access to public school property;
      3. Student dress and personal appearance;
      4. Use of tobacco in the public schools;
      5. Speech and assembly within the public schools;
6. Publications produced and/or distributed in the public schools;
7. The existence, scope and conditions of availability of student privileges, including extracurricular activities and rules governing participation;
8. Other activities not in conflict with existing state statutes or regulations.

B. Other areas of student conduct may be regulated within legal limits by local school boards as they deem appropriate to local conditions. The term "legal limits" signifies the requirements of the federal and state constitutions and governing statutes, standards and regulations, the fundamental common-law requirement that rules of student conduct be reasonable exercises of the school's authority in pursuance of legitimate educational and related functions, and special limitations arising from constitutional guarantees.

LAWS

59-63-210. Grounds for which trustees may expel, suspend or transfer pupils; petition for readmission; expulsion, suspension, or transfer.
(A) Any district board of trustees may authorize or order the expulsion, suspension, or transfer of any pupil for the commission of any crime, gross immorality, gross misbehavior, persistent disobedience, or for violation of written rules and promulgated regulations established by the district board, county board, or the State Board of Education, or when the presence of the pupil is detrimental to the best interest of the school. Each expelled pupil has the right to petition for readmission for the succeeding school year. Expulsion or suspension must be construed to prohibit a pupil from entering the school or school grounds, except for a prearranged conference with an administrator, attending any day or night school functions, or riding a school bus. The provisions of this section do not preclude enrollment and attendance in any adult or night school.
(B) A district board of trustees shall not authorize or order the expulsion, suspension, or transfer of any pupil for a violation of Section 59-150-250(B).

59-63-217. Barring enrollment of student; grounds; notice and hearing; duration of bar.
(A) In determining whether or not a student meets the standards of conduct and behavior promulgated by the board of trustees necessary for first time enrollment and attendance in a school in the district, the board shall consider nonschool records, the student's disciplinary records in any school in which the student was previously enrolled as these records relate to the adjudication of delinquency in any jurisdiction, within or without this State, of violations or activities which constitute violent crimes under Section 16 1 60, adjudications for assault and battery of a high and aggravated nature, the unlawful use or possession of weapons, or the unlawful sale of drugs whether or not considered to be drug trafficking. Based on this consideration of the student's record, the board may bar his enrollment in the schools of the district.
(B) If the board bars a student from enrolling pursuant to this section, notice must be provided to the student's parent or legal guardian and the student is entitled to a hearing and all other procedural rights afforded under state law to a student subject to expulsion.
(C) The bar to enrollment allowed by this section applies for a maximum of one year. After the bar is lifted, a student may reapply for enrollment and the board shall order the student enrolled if he otherwise meets enrollment criteria.

LAWS

59-63-210. Grounds for which trustees may expel, suspend or transfer pupils; petition for readmission; expulsion, suspension, or transfer.

(A) Any district board of trustees may authorize or order the expulsion, suspension, or transfer of any pupil for the commission of any crime, gross immorality, gross misbehavior, persistent disobedience, or for violation of written rules and promulgated regulations established by the district board, county board, or the State Board of Education, or when the presence of the pupil is detrimental to the best interest of the school. Each expelled pupil has the right to petition for readmission for the succeeding school year. Expulsion or suspension must be construed to prohibit a pupil from entering the school or school grounds, except for a prearranged conference with an administrator, attending any day or night school functions, or riding a school bus. The provisions of this section do not preclude enrollment and attendance in any adult or night school.

(B) A district board of trustees shall not authorize or order the expulsion, suspension, or transfer of any pupil for a violation of Section 59-150-250(B).

59-63-1300. Alternative school programs established.

The General Assembly finds that a child who does not complete his education is greatly limited in obtaining employment, achieving his full potential, and becoming a productive member of society. It is, therefore, the intent of this article to encourage district school boards throughout the State to establish alternative school programs. These programs shall be designed to provide appropriate services to students who for behavioral or academic reasons are not benefiting from the regular school program or may be interfering with the learning of others. It is further the intent of this article that cooperative agreements may be developed among school districts in order to implement innovative exemplary programs.

59-63-1320. Referral or placement of students in alternative school programs.

Eligible alternative school programs shall be provided for, but not limited to, students in grades 6 12 as follows:

(1) Students referred for voluntary attendance at the alternative school program and meeting the district criteria to attend based upon a documented need for the attention and assistance beyond that of a traditional program as established by the academic history of the student, including the student's academic plan as required in Section 59 18 500, and following other policies and procedures for documenting need established by the district board of trustees.
(2) Students referred for voluntary attendance at the alternative school program and meeting the district criteria to attend based upon a documented need for the program due to habitual exhibitions of disruptive behavior in violation of the student conduct policies and behavior codes approved by the school board of trustees.

Districts must establish clear guidelines and procedures for the referral of any student into an alternative school program and before a decision is made to assign a student to an alternative school program, a determination must be made that the written and distributed academic and disciplinary policies of the district have been followed.

(3) Students placed in an alternative school program by the district board of trustees as an option to suspension or expulsion or by the dispositive order of a family court judge, with the consent of the local board of trustees. However, before a student may be placed in an alternative school program, a determination must be made by the local board that the written and distributed disciplinary policy of the district has been followed. Districts must establish clear guidelines and procedures for the placement of any student into an alternative school program and at a minimum they shall prescribe due process procedures for placement actions.

When students are being considered for placement in an alternative school program, districts must consider the requirements of the Federal Individuals with Disabilities Education Act (IDEA).

If a student placed by the board of trustees in an alternative school program enrolls in another school district before the expiration of the period of placement, the board of trustees of the district requiring the placement shall provide to the district in which the student enrolls, at the same time other records of the student are provided, information concerning the student's placement in an alternative school program. Upon review of the information, the district in which the student enrolls may continue an alternative education program placement or may allow the student to attend regular classes without completing the period of the placement.

59-63-1330. Discretion of school board.

Nothing in this article shall abrogate the authority of any public school district and its governing board to take such disciplinary action as it is otherwise empowered by law to take against any student for misconduct including, but not limited to, expulsion, and nothing in this chapter shall require that any student be assigned to such an alternative school. These decisions shall rest solely in the discretion of the district and school board, regardless of the offense, record of the child, or other information presented from any source.

REGULATIONS

R43-274.1. At-risk students.
II. At-Risk Student Indicators, Predictors, and Barriers

The South Carolina Education and Economic Development Act mandates the promulgation of State Board of Education regulations outlining specific objective criteria for districts to use in identifying students who may be poorly prepared for the next level of study or who are at risk of dropping out of school. The Act calls for these criteria to include diagnostic assessments for districts to use in order to identify the strengths and weaknesses of individual students in the core academic areas.

B. The following are among the specific behaviors and characteristics that school districts must consider as indicators, predictors, and barriers in identifying at-risk students:

4. having a history of discipline problems leading to suspension, expulsion, and/or probation;

III. At-Risk Student Model, Initiative, and Program Selection

By the 2007-08 school year each high school of the state must implement one or more model programs approved by the South Carolina Department of Education (SCDE).

Schools must select at-risk student models, initiatives, and programs that meet the needs of the at-risk populations to be served and must ensure that models, initiatives, and programs selected provide students with the opportunity to graduate with a high school diploma. The SCDE will provide an implementation document that will include a tiered matrix of approved evidence-based models, initiatives, and programs to facilitate the selection process in accordance with the Education and Economic Development Act requirements for implementing evidence-based models, initiatives, and programs. The document will also contain a more extensive list of indicators, predictors, and barriers as well as one-page descriptions for each evidence-based model, initiative, and program included in the matrix.

IV. Population and Model, Initiative, and Program Identification Parameters

Each high school either must implement a model, initiative, or program that is chosen from a list provided by the SCDE or must submit to the SCDE for approval a specific dropout prevention model, comprehensive initiative, or multifaceted program that it wants to use. High schools may explore and implement newly developed models with approval from the SCDE. One criterion for SCDE approval of any newly developed model will be evidence presented by the district and/or school that the model is centered in research-based dropout-prevention strategies.

A. Implementation efforts related to any model, initiative, or program (or combination of models, initiatives, and programs) must ensure that students are properly identified and provided timely, appropriate guidance and assistance and must ensure that no group is disproportionately represented.

B. When subpopulations are identified, high schools must ensure that these groups reflect the demographics of populations identified as at risk of dropping out of school.

C. When no subpopulations are identified, high schools implementing comprehensive initiatives will not have to address the disproportionate representation of any one group of students. In such cases, methods of determining the effectiveness of the at-risk initiative must be given careful consideration with regard to collecting data and preparing necessary reports.
D. Parental involvement must be part of final placement decisions in any model, initiative, or program where small groups of students are identified for services in a particular school or district.

E. The target population must reflect the demographics of the population identified in Section II, above, as being at risk of dropping out of school.

F. High schools must provide relevant data related to identifying the at-risk student population and to addressing the needs of these at-risk students as required for SCDE reports.

V. Building-Level Program Evaluation

A. Evaluation Criteria. All high schools must annually evaluate their dropout-prevention models, initiatives, and/or programs using, at a minimum, the following criteria:

1. an identification process, including (where appropriate and based on the particular model, initiative, or program) the number of at-risk students identified and the specific risk factors identified;
2. the extent of parental involvement in the school's dropout-prevention efforts;
3. the number of students served;
4. a formative assessment of strengths and weaknesses of the model, initiative, and/or program; and
5. a qualitative assessment of desired outcomes (see item B, immediately below).

B. Desired Outcomes. Schools should establish desired outcomes or performance criteria based on the specific needs of the at-risk population identified and on the nature and structure of the particular model, initiative, and/or program they are implementing. Examples of desired outcomes among the target population include, but are not limited to, the following:

1. decreased percentages of truancy, absenteeism, discipline problems, and retentions;
2. increases in students' grade point averages; and
3. increased percentages of students who are on grade level and students who graduate on time.

Model-, initiative-, and/or program-specific data and PowerSchoolTM data elements should be used to assess desired outcomes on the basis of specific evaluation criteria. The state's PowerSchoolTM data management system can be used to collect, sort, and report data related to each student's attendance record; age and grade level; gender; ethnicity; grade point average; and retention, truancy, and dropout status.

C. Teacher and/or counselor assessments may be used to provide supplemental anecdotal documentation and insights related to the effectiveness of the model, initiative, and/or program implemented. A district or school checklist may be beneficial in the evaluation process.

VI. Model, Initiative, and/or Program Evaluation and Assessment Reporting

All high schools must annually provide reports requested by the SCDE that relate to the implementation and effectiveness of models, initiatives, and/or programs addressing the needs of students at risk of dropping out of school. District and school report card contents must contain information on the disciplinary climate, promotion and retention ratios, dropout ratios, dropout reduction data, and attendance data. Districts and schools must be prepared to provide accurate and relevant data to the SCDE.

### Attendance and truancy

**LAWS**

**59-65-50. Nonattendance reported to court having jurisdiction of juveniles.**

If the board of trustees of a school district or its designee is unable to obtain the school attendance of a child in the age group specified in Section 59-65-10, the board or its designee shall report such
nonattendance in writing to the juvenile court or such other court in the county as may have jurisdiction of
juveniles but exclusive of magistrate's courts notwithstanding the provisions of Section 22-3-540; provided, that no one except the board of trustees or its designee shall have the authority to institute the proceedings herein.

59-65-60. Procedure upon receipt by court of report of nonattendance.
(a) Upon receipt of such report, the court may forthwith order the appearance before such court of the responsible parent or guardian and if it deems necessary, the minor involved, for such action as the court may deem necessary to carry out the provisions of this article.

(b) The court may, after hearing upon ten days notice, order such parent or guardian to require such child to attend school and upon failure of such parent to comply with such order may punish such parent or guardian as by contempt, provided, that punishment for such contempt cannot exceed fifty dollars or thirty days imprisonment for each offense.

The procedure herein provided shall be alternative to the penalties provided in Section 59-65-20.

59-65-70. Court empowered to declare child delinquent.
If the court determines that the reported absence occurred without the knowledge, consent or connivance of the responsible parent or guardian or that a bona fide attempt has been made to control and keep the child in school, the court may declare such child to be a delinquent and subject to the provisions of law in such cases.

59-65-80. Enrollment or attendance of expelled or suspended child not authorized.
Nothing herein shall be construed as granting authority to require enrollment or attendance of a child who has been or may be expelled or suspended by the board of trustees of the district or any other person acting with authority from the board of trustees.

The State Board of Education shall establish regulations defining lawful and unlawful absences beyond those specifically named in this article and additional regulations as are necessary for the orderly enrollment of pupils so as to provide for uniform dates of entrance. These regulations shall require: (1) that school officials shall immediately intervene to encourage the student's future attendance when the student has three consecutive unlawful absences or a total of five unlawful absences and (2) that the district board of trustees or its designee shall promptly approve or disapprove any student absence in excess of ten days. As used in this section, "intervene" means to identify the reasons for the child's continued absence and to develop a plan in conjunction with the student and his parent or guardian to improve his future attendance.

Provided, However, That nothing within this section shall interfere with the Board's authority to at any time refer a child to a truancy prevention program or to the court pursuant to Section 59-65-50.

REGULATIONS

R43-274. Student Attendance.
II. Truancy
The State Board of Education recognizes that truancy is primarily an educational issue and that all reasonable, educationally sound, corrective actions should be undertaken by the school district prior to resorting to the juvenile justice system.

(A) Truant. A child ages 6 to 17 years meets the definition of a truant when the child has three consecutive unlawful absences or a total of five unlawful absences.
(B) Habitual Truant. A "habitual" truant is a child age 12 to 17 years who fails to comply with the intervention plan developed by the school, the child, and the parent(s) or guardian(s) and who accumulates two or more additional unlawful absences. This child may need court intervention and an initial truancy petition may be filed. The written intervention plan, and documentation of non-compliance, must be attached to the truancy petition asking for court intervention.

(C) Chronic Truant. A "chronic" truant is a child ages 12 to 17 years who has been through the school intervention process, has reached the level of a "habitual" truant, has been referred to Family Court and placed on an order to attend school, and continues to accumulate unlawful absences. Should other community alternatives and referrals fail to remedy the attendance problem, the "chronic" truant may be referred to the Family Court for violation of a previous court order. All school intervention plans existing to this point for this child and family must accompany the Contempt of Court petition as well as a written recommendation from the school to the court on action the court should take.

III. Intervention Plans

(A) Each district must develop a policy relating to requirements for intervention. The district plan for improving students' attendance must be in accordance with any applicable statutes.

(B) Once a child is determined to be truant as defined in Section II(A), school officials must make every reasonable effort to meet with the parent(s) or guardian(s) to identify the reasons for the student's continued absence. These efforts should include telephone calls and home visits, both during and after normal business hours, as well as written messages and e-mails. School officials must develop a written "intervention plan" to address the student's continued absence in conjunction with the student and parent(s) or guardian(s).

(C) The intervention plan must include but is not limited to

(1) Designation of a person to lead the intervention team. The team leader may be someone from another agency.

(2) Reasons for the unlawful absences.

(3) Actions to be taken by the parent(s) or guardian(s) and student to resolve the causes of the unlawful absences.

(4) Documentation of referrals to appropriate service providers and, if available, alternative school and community-based programs.

(5) Actions to be taken by intervention team members.

(6) Actions to be taken in the event unlawful absences continue.

(7) Signature of the parent(s) or guardian(s) or evidence that attempts were made to involve the parents(s) or guardian(s).

(8) Documentation of involvement of team members.

(9) Guidelines for making revisions to the plan.

(D) School officials may utilize a team intervention approach. Team members may include representatives from social services, community mental health, substance abuse and prevention, and other persons the district deems appropriate to formulate the written intervention plans.

IV. Referrals and Judicial Intervention

At no time should a child ages 6 to 17 years be referred to the Family Court to be placed on an order to attend school prior to the written intervention planning being completed with the parent(s) or guardian(s) by the school. A consent order must not be used as an intervention plan from any local school or school district. Should the parent(s) or guardian(s) refuse to cooperate with the intervention planning to remedy the attendance problem, the school district has the authority to refer the student to Family Court in accordance with S.C. Code Ann. Section 59-65-50 (1990), and a report shall be filed against the parent(s)
or guardian(s) with the Department of Social Services in compliance with S.C. Code Ann. Section 20-7-

(A) Petition for a School Attendance Order. If the intervention plan is not successful and further inquiry
by school officials fails to cause the truant student and/or parent(s) or guardian(s) to comply with the
written intervention plan or if the student and/or parent(s) or guardian(s) refuses to participate in
intervention and the student accumulates two or more additional unlawful absences, the student is
considered an "habitual" truant. Each referral must include a copy of the plan and specify any corrective
action regarding the student and/or the parent(s) or guardian(s) that the district recommends that the
court adopt as well as any other available programs or alternatives identified by the school district. The
intervention plan must be attached to the petition to the Family Court and served on the student and the
parent(s) or guardian(s).

(B) Petition for Contempt of Court. Once a school attendance order has been issued by the Family
Court and the student continues to accumulate unlawful absences, the student is considered to be a
"chronic" truant and school officials may refer the case back to Family Court. The school and district
must exhaust all reasonable alternatives prior to petitioning the Family Court to hold the student and/or
the parent(s) or guardian(s) in contempt of court. Any petition for contempt of court must include a
written report indicating the corrective actions that were attempted by the school district and what
graduated sanctions or alternatives to incarceration are available to the court in the community. The
school district must include in the written report its recommendation to the court should the student
and/or parent(s) or guardian(s) be found in contempt of court.

V. Coordination with the South Carolina Department of Juvenile Justice

Each school district should coordinate with the local office of the South Carolina Department of Juvenile
Justice to establish a system of graduated sanctions and alternatives to incarceration in truancy cases.

VI. Transfer of Plans

If a student transfers to another public school in South Carolina, intervention plans shall be forwarded to
the receiving school. School officials will contact the parent(s) or guardian(s) and local team members to
review the plan and revise as appropriate. Court ordered plans may be amended through application to
the court.

VII. Approval of Absences in Excess of Ten Days and Approval of Credit

(A) The district board of trustees, or its designee, shall approve or disapprove any student’s absence in
excess of ten days, whether lawful, unlawful, or a combination thereof, for students in grades K-12. For
the purpose of awarding credit for the year, school districts must approve or disapprove absences in
excess of ten days regardless as to whether those absences are lawful, unlawful, or a combination of
the two.

(B) In order to receive one Carnegie unit of credit, a student must be in attendance at least 120 hours,
per unit, regardless of the number of days missed, or must demonstrate proficiency as determined by
the local school district. This exception to the 120-hour requirement is to be administered by local
school districts on a case-by-case basis and only for students who have excessive absences that have
been approved by the local school board. General request for proficiency-based credit must be made
through the process described in Regulation 43-234. Students whose absences are approved should
be allowed to make up any work missed in order to satisfy this requirement. Local school boards should
develop policies governing student absences giving appropriate consideration to unique situations that
may arise within their districts when students do not meet the minimum attendance requirements.
Therefore, districts should allow students, whose excessive absences are approved in part 1 of this
section, to make-up work missed to satisfy this requirement.

Examples of make-up work may include
(1) after-school and/or weekend make-up programs that address both time and academic requirements of the course(s), or

(2) extended-year programs that address both time and academic requirements of the course(s). All make-up time and work must be completed within thirty days from the last day of the course(s). I. Expectations for Student Conduct in South Carolina Public Schools
Students in the public schools of South Carolina enjoy the same basic rights of United States citizenship as do other United States citizens. The rights of students are supported by the responsibility to insure that the rights of others are respected. This regulation is adopted with the intent to better assure that the opportunity to enjoy the benefits of public education is available to all those attending the public schools of the state of South Carolina.

II. Previously Adopted School District Discipline Policies
This regulation is established as a uniform system of minimum disciplinary enforcement for the school districts of South Carolina. School districts, which previously have adopted discipline policies that are consistent with and contain the elements included in this regulation, may retain their local policies as adopted.

III. Levels of Student Misconduct
A. The levels of student misconduct considered in this regulation are arranged by degrees of seriousness. The levels are arranged from the least serious to the most serious.

B. Three levels of student misconduct are identified: disorderly conduct, disruptive conduct, and criminal conduct. The levels are defined in this regulation.

C. This regulation includes a listing of possible sanctions for the three levels of student misconduct. As the levels increase in seriousness, the severity of possible disciplinary sanctions increases.
