(c) Not later than September 1, 2014, each local and regional board of education that has not had a safe school climate plan, developed pursuant to this section, previously reviewed and approved by the Department of Education shall submit a safe school climate plan to the department for review and approval in accordance with the provisions of section 10-222p. Not later than thirty calendar days after approval by the department of such safe school climate plan, the board shall make such plan available on the board's and each individual school in the school district's Internet web site and ensure that such plan is included in the school district's publication of the rules, procedures and standards of conduct for schools and in all student handbooks.

(d) On and after July 1, 2012, and biennially thereafter, each local and regional board of education shall require each school in the district to complete an assessment using the school climate assessment instruments, including surveys, approved and disseminated by the Department of Education pursuant to section 10-222h. Each local and regional board of education shall collect the school climate assessments for each school in the district and submit such school climate assessments to the department.

LAWS

10-233c. Suspension of pupils.

(a) Any local or regional board of education may authorize the administration of the schools under its direction to suspend from school privileges a pupil whose conduct on school grounds or at a school sponsored activity is violative of a publicized policy of such board or is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process. In making a determination as to whether conduct is seriously disruptive of the educational process, the administration may consider, but such consideration shall not be limited to: (1) Whether the incident occurred within close proximity of a school; (2) whether other students from the school were involved or whether there was any gang involvement; (3) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (4) whether the conduct involved the use of alcohol. Any such board may authorize the administration to suspend transportation services for a pupil whose conduct while awaiting or receiving transportation to and from school endangers persons or property or is violative of a publicized policy of such board. Unless an emergency exists, no pupil shall be suspended without an informal hearing by the administration, at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided nothing herein shall be construed to prevent a more formal hearing from being held if the circumstances surrounding the incident so require, and further provided no pupil shall be suspended more than ten times or a total of fifty days in one school year, whichever results in fewer days of exclusion, unless such pupil is granted a formal hearing pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.

(b) In determining the length of a suspension period, the administration may receive and consider evidence of past disciplinary problems which have led to removal from a classroom, suspension or expulsion of such pupil.

(c) Whenever any administration suspends a pupil, such administration shall not later than twenty-four hours after the suspension notify the superintendent or such superintendent's designee as to the name of the pupil against whom such disciplinary action was taken and the reason therefor.

(d) Any pupil who is suspended shall be given an opportunity to complete any classwork including, but not limited to, examinations which such pupil missed during the period of suspension.

(e) For any pupil who is suspended for the first time pursuant to this section and who has never been expelled pursuant to section 10-233d, the administration may shorten the length of or waive the suspension period if the pupil successfully completes an administration-specified program and meets any other conditions required by the administration. Such administration-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(f) Whenever a pupil is suspended pursuant to the provisions of this section, notice of the suspension and the conduct for which the pupil was suspended shall be included on the pupil's cumulative educational record. Such notice shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or in the case of a suspension of a pupil for which the length of the suspension period is shortened or the suspension period is waived pursuant to
subsection (e) of this section, such notice shall be expunged from the cumulative educational record by the local or regional board of education (1) if the pupil graduates from high school, or (2) if the administration so chooses, at the time the pupil completes the administration-specified program and meets any other conditions required by the administration pursuant to said subsection (e), whichever is earlier.

(g) On and after July 1, 2015, all suspensions pursuant to this section shall be in-school suspensions, except a local or regional board of education may authorize the administration of schools under its direction to impose an out-of-school suspension on any pupil in (1) grades three to twelve, inclusive, if, during the hearing held pursuant to subsection (a) of this section, (A) the administration determines that the pupil being suspended poses such a danger to persons or property or such a disruption of the educational process that the pupil shall be excluded from school during the period of suspension, or (B) the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence of (i) previous disciplinary problems that have led to suspensions or expulsion of such pupil, and (ii) efforts by the administration to address such disciplinary problems through means other than out-of-school suspension or expulsion, including positive behavioral support strategies, or (2) grades preschool to two, inclusive, if during the hearing held pursuant to subsection (a) of this section, the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence that such pupil's conduct on school grounds is of a violent or sexual nature that endangers persons. An in-school suspension may be served in the school that the pupil attends, or in any school building under the jurisdiction of the local or regional board of education, as determined by such board. Nothing in this section shall limit a person's duty as a mandated reporter pursuant to section 17-101a to report suspected child abuse or neglect.

10-233c. Suspension of pupils.

(a) Any local or regional board of education may authorize the administration of the schools under its direction to suspend from school privileges a pupil whose conduct on school grounds or at a school sponsored activity is violative of a publicized policy of such board or is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process. In making a determination as to whether conduct is seriously disruptive of the educational process, the administration may consider, but such consideration shall not be limited to: (1) Whether the incident occurred within close proximity of a school; (2) whether other students from the school were involved or whether there was any gang involvement; (3) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (4) whether the conduct involved the use of alcohol. Any such board may authorize the administration to suspend transportation services for a pupil whose conduct while awaiting or receiving transportation to and from school endangers persons or property or is violative of a publicized policy of such board. Unless an emergency exists, no pupil shall be suspended without an informal hearing by the administration, at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided nothing herein shall be construed to prevent a more formal hearing from being held if the circumstances surrounding the incident so require, and further provided no pupil shall be suspended more than ten times or a total of fifty days in one school year, whichever results in fewer days of exclusion, unless such pupil is granted a formal hearing pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.

(b) In determining the length of a suspension period, the administration may receive and consider evidence of past disciplinary problems which have led to removal from a classroom, suspension or expulsion of such pupil.

(c) Whenever any administration suspends a pupil, such administration shall not later than twenty-four hours after the suspension notify the superintendent or such superintendent's designee as to the name of the pupil against whom such disciplinary action was taken and the reason therefor.

(d) Any pupil who is suspended shall be given an opportunity to complete any classwork including, but not limited to, examinations which such pupil missed during the period of suspension.

(e) For any pupil who is suspended for the first time pursuant to this section and who has never been expelled pursuant to section 10-233d, the administration may shorten the length of or waive the suspension period if the pupil successfully completes an administration-specified program and meets any other conditions required by the administration. Such administration-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(f) Whenever a pupil is suspended pursuant to the provisions of this section, notice of the suspension and the conduct for which the pupil was suspended shall be included on the pupil's cumulative educational record. Such notice shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or in the case of a suspension of a pupil for which the length of the suspension period is shortened or the suspension period is waived pursuant to subsection (e) of this section, such notice shall be expunged from the cumulative educational record by
the local or regional board of education (1) if the pupil graduates from high school, or (2) if the
administration so chooses, at the time the pupil completes the administration-specified program and
meets any other conditions required by the administration pursuant to said subsection (e), whichever is
earlier.

(g) On and after July 1, 2015, all suspensions pursuant to this section shall be in-school suspensions,
except a local or regional board of education may authorize the administration of schools under its
direction to impose an out-of-school suspension on any pupil in (1) grades three to twelve, inclusive, if,
during the hearing held pursuant to subsection (a) of this section, (A) the administration determines that
the pupil being suspended poses such a danger to persons or property or such a disruption of the
educational process that the pupil shall be excluded from school during the period of suspension, or (B)
the administration determines that an out-of-school suspension is appropriate for such pupil based on
evidence of (i) previous disciplinary problems that have led to suspensions or expulsion of such pupil, and
(ii) efforts by the administration to address such disciplinary problems through means other than out-of-
school suspension or expulsion, including positive behavioral support strategies, or (2) grades preschool
to two, inclusive, if during the hearing held pursuant to subsection (a) of this section, the administration
determines that an out-of-school suspension is appropriate for such pupil based on evidence that such
pupil's conduct on school grounds is of a violent or sexual nature that endangers persons. An in-school
suspension may be served in the school that the pupil attends, or in any school building under the
jurisdiction of the local or regional board of education, as determined by such board. Nothing in this
section shall limit a person's duty as a mandated reporter pursuant to section 17-101a to report suspected
child abuse or neglect.

10-233d. Expulsion of pupils.

(a)(1) Any local or regional board of education, at a meeting at which three or more members of such
board are present, or the impartial hearing board established pursuant to subsection (b) of this section,
may expel, subject to the provisions of this subsection, any pupil in grades three to twelve, inclusive,
whose conduct on school grounds or at a school-sponsored activity is violative of a publicized policy of
such board and is seriously disruptive of the educational process or endangers persons or property or
whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational
process, provided a majority of the board members sitting in the expulsion hearing vote to expel and that
at least three affirmative votes for expulsion are cast. In making a determination as to whether conduct is
seriously disruptive of the educational process, the board of education or impartial hearing board may
consider, but such consideration shall not be limited to: (A) Whether the incident occurred within close
proximity of a school; (B) whether other students from the school were involved or whether there was any
gang involvement; (C) whether the conduct involved violence, threats of violence or the unlawful use of a
weapon, as defined in section 29-38, and whether any injuries occurred; and (D) whether the conduct
involved the use of alcohol.

(2) Expulsion proceedings pursuant to this section, except as provided in subsection (i) of this section,
shall be required for any pupil in grades kindergarten to twelve, inclusive, whenever there is reason to
believe that any pupil (A) on school grounds or at a school-sponsored activity, was in possession of a
firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous
instrument or martial arts weapon, as defined in section 53a-3, (B) off school grounds, did possess such
a firearm in violation of section 29-35 or did possess and use such a firearm, instrument or weapon in
the commission of a crime under chapter 952, or (C) on or off school grounds, offered for sale or
distribution a controlled substance, as defined in subdivision (9) of section 21a-240, whose
manufacture, distribution, sale, prescription, dispensing, transporting or possessing with intent to sell or
dispense, offering, or administering is subject to criminal penalties under sections 21a-277 and 21a-
278. Such a pupil shall be expelled for one calendar year if the local or regional board of education or
impartial hearing board finds that the pupil did so possess or so possess and use, as appropriate, such a firearm, instrument or weapon or did so offer for sale or distribution such a controlled substance, provided the board of education or the hearing board may modify the period of expulsion for a pupil on a case-by-case basis, and as provided for in subdivision (2) of subsection (c) of this section.

(3) Unless an emergency exists, no pupil shall be expelled without a formal hearing held pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a, provided whenever such pupil is a minor, the notice required by section 4-177 and section 4-180 shall also be given to the parents or guardian of the pupil at least five business days before such hearing. If an emergency exists, such hearing shall be held as soon after the expulsion as possible. The notice shall include information concerning the parent's or guardian's and the pupil's legal rights and concerning legal services provided free of charge or at a reduced rate that are available locally and how to access such services. An attorney or other advocate may represent any pupil subject to expulsion proceedings. The parent or guardian of the pupil shall have the right to have the expulsion hearing postponed for up to one week to allow time to obtain representation, except that if an emergency exists, such hearing shall be held as soon after the expulsion as possible.

(b) For purposes of conducting expulsion hearings as required by subsection (a) of this section, any local or regional board of education or any two or more of such boards in cooperation may establish an impartial hearing board of one or more persons. No member of any such board or boards shall be a member of the hearing board. The hearing board shall have the authority to conduct the expulsion hearing and render a final decision in accordance with the provisions of sections 4-176e to 4-180a, inclusive, and section 4-181a.

(c)(1) In determining the length of an expulsion and the nature of the alternative educational opportunity to be offered under subsection (d) of this section, the local or regional board of education, or the impartial hearing board established pursuant to subsection (b) of this section, may receive and consider evidence of past disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(2) For any pupil expelled for the first time pursuant to this section and who has never been suspended pursuant to section 10-233c, except for a pupil who has been expelled based on possession of a firearm or deadly weapon as described in subsection (a) of this section, the local or regional board of education may shorten the length of or waive the expulsion period if the pupil successfully completes a board-specified program and meets any other conditions required by the board. Such board-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(d) No local or regional board of education is required to offer an alternative educational opportunity, except in accordance with this section. Any pupil under sixteen years of age who is expelled shall be offered an alternative educational opportunity, which shall be (1) alternative education, as defined by section 10-74j, with an individualized learning plan, if such board provides such alternative education, or (2) in accordance with the standards adopted by the State Board of Education, pursuant to section 10-233o, during the period of expulsion, provided any parent or guardian of such pupil who does not choose to have his or her child enrolled in an alternative educational opportunity shall not be subject to the provisions of section 10-184. Any pupil expelled for the first time who is between the ages of sixteen and eighteen and who wishes to continue his or her education shall be offered such an alternative educational opportunity if he or she complies with conditions established by his or her local or regional board of education. Such alternative educational opportunity may include, but shall not be limited to, the placement of a pupil who is at least seventeen years of age in an adult education program pursuant to section 10-69. Any pupil participating in any such adult education program during a period of expulsion shall not be required to withdraw from school under section 10-184. A local or regional board of education shall count
the expulsion of a pupil when he was under sixteen years of age for purposes of determining whether an alternative educational opportunity is required for such pupil when he is between the ages of sixteen and eighteen. A local or regional board of education may offer an alternative educational opportunity to a pupil for whom such alternative educational opportunity is not required pursuant to this section.

(e) If a pupil is expelled pursuant to this section for possession of a firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, the board of education shall report the violation to the local police department or in the case of a student enrolled in a technical education and career school to the state police. If a pupil is expelled pursuant to this section for the sale or distribution of a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with the intent to sell or dispense, offering, or administration is subject to criminal penalties under sections 21a-277 and 21a-278, the board of education shall refer the pupil to an appropriate state or local agency for rehabilitation, intervention or job training, or any combination thereof, and inform the agency of its action.

(f) Whenever a pupil is expelled pursuant to the provisions of this section, notice of the expulsion and the conduct for which the pupil was expelled shall be included on the pupil's cumulative educational record. Such notice, except for notice of an expulsion of a pupil in grades nine to twelve, inclusive, based on possession of a firearm or deadly weapon as described in subsection (a) of this section, (1) shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or (2) may be expunged from the cumulative educational record by the local or regional board of education before a pupil graduates from high school if (A) in the case of a pupil for which the length of the expulsion period is shortened or the expulsion period is waived pursuant to subdivision (2) of subsection (c) of this section, such board determines that an expungement is warranted at the time such pupil completes the board-specified program and meets any other conditions required by such board pursuant to subdivision (2) of subsection (c) of this section, or (B) such pupil has demonstrated to such board that the conduct and behavior of such pupil in the years following such expulsion warrants an expungement. A local or regional board of education, in determining whether to expunge such notice under subparagraph (B) of this subdivision, may receive and consider evidence of any subsequent disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(g) A local or regional board of education may adopt the decision of a pupil expulsion hearing conducted by another school district provided such local or regional board of education or impartial hearing board shall hold a hearing pursuant to the provisions of subsection (a) of this section which shall be limited to a determination of whether the conduct which was the basis for the expulsion would also warrant expulsion under the policies of such board. The pupil shall be excluded from school pending such hearing. The excluded student shall be offered an alternative educational opportunity in accordance with the provisions of subsections (d) and (e) of this section.

(h) Whenever a pupil against whom an expulsion hearing is pending withdraws from school after notification of such hearing but before the hearing is completed and a decision rendered pursuant to this section, (1) notice of the pending expulsion hearing shall be included on the pupil's cumulative educational record, and (2) the local or regional board of education or impartial hearing board shall complete the expulsion hearing and render a decision. If such pupil enrolls in school in another school district, such pupil shall not be excluded from school in the other district pending completion of the expulsion hearing pursuant to this subsection unless an emergency exists, provided nothing in this subsection shall limit the authority of the local or regional board of education for such district to suspend the pupil or to conduct its own expulsion hearing in accordance with this section.
(i) Prior to conducting an expulsion hearing for a child requiring special education and related services described in subparagraph (A) of subdivision (5) of section 10-76a, a planning and placement team shall convene to determine whether the misconduct was caused by the child's disability. If it is determined that the misconduct was caused by the child's disability, the child shall not be expelled. The planning and placement team shall reevaluate the child for the purpose of modifying the child's individualized education program to address the misconduct and to ensure the safety of other children and staff in the school. If it is determined that the misconduct was not caused by the child's disability, the child may be expelled in accordance with the provisions of this section applicable to children who do not require special education and related services. Notwithstanding the provisions of subsections (d) and (e) of this section, whenever a child requiring such special education and related services is expelled, an alternative educational opportunity, consistent with such child's educational needs shall be provided during the period of expulsion.

(j) An expelled pupil may apply for early readmission to school. Except as provided in this subsection, such readmission shall be at the discretion of the local or regional board of education. The board of education may delegate authority for readmission decisions to the superintendent of schools for the school district. If the board delegates such authority, readmission shall be at the discretion of the superintendent. Readmission decisions shall not be subject to appeal to Superior Court. The board or superintendent, as appropriate, may condition such readmission on specified criteria.

(k) Local and regional boards of education shall submit to the Commissioner of Education such information on expulsions for the possession of weapons as required for purposes of the Gun-Free Schools Act of 1994, 20 USC 8921 et seq., as amended from time to time.

(l)(1) Any student who commits an expellable offense and is subsequently placed in a juvenile detention center or any other residential placement for such offense may be expelled by a local or regional board of education in accordance with the provisions of this section. The period of expulsion shall run concurrently with the period of placement in a juvenile detention center or other residential placement.

(2) If a student who committed an expellable offense seeks to return to a school district after participating in a diversionary program or having been placed in a juvenile detention center or any other residential placement and such student has not been expelled by the local or regional board of education for such offense under subdivision (1) of this subsection, the local or regional board of education for the school district to which the student is returning shall allow such student to return and may not expel the student for additional time for such offense.

(a) Any local or regional board of education may authorize the administration of schools under its direction to impose an in-school suspension on any pupil whose conduct endangers persons or property or is seriously disruptive of the educational process, or is violative of a publicized policy of such board. No pupil shall be placed in in-school suspension without an informal hearing before the building principal or such principal's designee at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided no pupil shall be placed in in-school suspension more than fifteen times or a total of fifty days in one school year, whichever results in fewer days of exclusion.

(b) A local or regional board of education may reassign a pupil to a regular classroom program in a different school in the school district and such reassignment shall not constitute a suspension pursuant to section 10-233c, or an expulsion pursuant to section 10-233d.

54-33n. Search of school lockers and property.
All local and regional boards of education and all private elementary and secondary schools may authorize the search by school or law enforcement officials of lockers and other school property available for use by students for the presence of weapons, contraband or the fruits of a crime if (1) the search is justified at its inception and (2) the search as actually conducted is reasonably related in scope to the circumstances which justified the interference in the first place. A search is justified at its inception when there are reasonable grounds for suspecting that the search will turn up evidence that the student has violated or is violating either the law or the rules of the school. A search is reasonably related in scope when the measures adopted are reasonably related to the objectives of the search and not excessively intrusive in light of the age and sex of the student and the nature of the infraction.

In the case where transportation of the person at risk is necessary, the written authorization to continue the use of seclusion is not required if immediate or imminent injury to the person at risk or to others is a concern.

(e) The PPT shall, at least annually, review the continued use of seclusion as a behavior intervention for the person at risk. When the use of seclusion as an emergency intervention to prevent immediate or imminent injury to the person at risk or to others is repeated more than two times in any marking period, the PPT (1) shall convene to review the IEP of the person at risk, provided the PPT may agree to waive this meeting, (2) may consider additional evaluations or assessments to address the child's behaviors, and (3) may revise the child's IEP, as appropriate.

(f) The PPT shall inquire as to whether there are any known medical or psychological conditions that would be directly and adversely impacted by the use of seclusion as a behavior intervention. A person at risk shall not be placed in seclusion if such person is known to have any medical or psychological condition that a licensed health care provider has indicated will be directly and adversely impacted by the use of seclusion. For purposes of this subsection, a "licensed health care provider" means (1) a legally qualified practitioner of medicine, (2) an advanced practice registered nurse, (3) a registered nurse licensed pursuant to chapter 378 of the Connecticut General Statutes, or (4) a physician assistant licensed pursuant to chapter 370 of the Connecticut General Statutes. Such licensed health care provider may be the person at risk's licensed health care provider or a licensed health care provider utilized by the public schools to provide an evaluation of the person at risk for purposes of determining the appropriate use of seclusion as a behavior intervention in the person at risk's IEP. As part of the assessments described in subsection (b) of this section, the PPT may request a medical or psychological evaluation of the child for purposes of determining whether there is a medical or psychological condition that will be directly and adversely impacted by the use of seclusion as a behavior intervention. The parent may
provide that information to the PPT. Any written statement provided by a licensed health care provider shall be included in the educational record of the person at risk.

(g) A person at risk in seclusion shall be monitored as described in the child's IEP by a provider or assistant specifically trained in physical management, physical restraint and seclusion procedures including, but not limited to, training to recognize health and safety issues for children placed in seclusion to ensure the safe use of seclusion as a behavior intervention.

(h) Any room used for the seclusion of a person at risk shall:

(1) Be of a size that is appropriate to the chronological and developmental age, size and behavior of the person at risk;

(2) Have a ceiling height that is comparable to the ceiling height of the other rooms in the building in which it is located;

(3) Be equipped with heating, cooling, ventilation and lighting systems that are comparable to the systems that are in use in the other rooms of the building in which it is located;

(4) Be free of any object that poses a danger to the person at risk who is being placed in the room;

(5) Conform to applicable building code requirements. If the door or doors to a room used for seclusion are to be locked, latched or otherwise secured, a modification from the State Fire Marshal's office shall be secured prior to the installation of a locking mechanism. If a door locking mechanism is used, the person at risk shall be constantly monitored notwithstanding any other provisions of the Connecticut General Statutes or Regulations to the contrary. The locking mechanism to be used shall be a device that shall be readily released by staff as soon as possible but in no case longer than within two minutes of the onset of an emergency and is connected to the fire alarm system so that the locking mechanism is released automatically when a fire alarm is sounded. An "emergency" for purposes of this subdivision includes, but is not limited to, (A) the need to provide direct and immediate medical attention to the person at risk, (B) fire, (C) the need to remove the person at risk to a safe location during a building lockdown, or (D) other critical situations that may require immediate removal of the person at risk from seclusion to a safe location; and

(6) Have an unbreakable observation window located in a wall or door to permit frequent visual monitoring of the person at risk and any provider or assistant in such room. The requirement for an unbreakable observation window does not apply if it is necessary to clear and use a classroom or other room in the school building as a seclusion room for a person at risk.

10-76b-9. Parental notification of physical restraint, seclusion.

(a) If a person at risk is physically restrained or placed in seclusion, an attempt shall be made to notify the parent on the day of, or within twenty-four hours after, physical restraint or seclusion is used with the child as an emergency intervention to prevent immediate or imminent injury to the person or others, as permitted under sections 46a-150 to 46a-154, inclusive, of the Connecticut General Statutes. Such notification shall be made by phone, e-mail or other method which may include, but is not limited to, sending a note home with the child. The parent of such child, regardless of whether he or she received such notification, shall be sent a copy of the incident report no later than two business days after the emergency use of physical restraint or seclusion. The incident report shall contain, at a minimum, the information required under subsection (d) of section 46a-152 of the Connecticut General Statutes.

(b) Where seclusion is included in the IEP of a person at risk, the PPT and the parents shall determine a timeframe and manner of notification of each incident of seclusion.

(c) The Department of Education shall develop a plain language notice for use in the public schools to advise parents of the laws and regulations concerning the emergency use of physical restraint or seclusion or the use of seclusion as a behavior intervention in a child's IEP. On and after October 1,
2009, this notice shall be provided to the child’s parent at the first PPT meeting following the child’s referral for special education. For children who were eligible for special education prior to October 1, 2009, the notice shall be provided to the parent at the first PPT meeting convened after October 1, 2009. The notice shall also be provided to a child’s parent at the first PPT meeting at which the use of seclusion as a behavior intervention is included in the child’s IEP.

10-76b-10. Required training for providers or assistants on the use of physical restraint or seclusion.

A person at risk may be physically restrained or removed to seclusion only by a provider or assistant who has received training in physical management, physical restraint and seclusion procedures. Providers or assistants shall also be provided with training as described in subdivision (2) of subsection (a) of section 46a-154 of the Connecticut General Statutes.

10-76b-11. Reports of physical restraint, seclusion.

The recording and reporting of instances of physical restraint or seclusion and the compilation of this information shall be in accordance with section 46a-153 of the Connecticut General Statutes. The recording of such instances shall be done on an incident report that contains the information and documentation required by sections 46a-152 and 46a-153 of the Connecticut General Statutes. Such reports shall be completed no later than the school day following the incident. The Department of Education shall develop and make available a model incident report.
Exclusionary Discipline: Suspension, Expulsion, and Alternative Placement

Grounds for Suspension or Expulsion

LAWS

10-233c. Suspension of pupils.
(a) Any local or regional board of education may authorize the administration of the schools under its direction to suspend from school privileges a pupil whose conduct on school grounds or at a school sponsored activity is violative of a publicized policy of such board or is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process. In making a determination as to whether conduct is seriously disruptive of the educational process, the administration may consider, but such consideration shall not be limited to: (1) Whether the incident occurred within close proximity of a school; (2) whether other students from the school were involved or whether there was any gang involvement; (3) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (4) whether the conduct involved the use of alcohol. Any such board may authorize the administration to suspend transportation services for a pupil whose conduct while awaiting or receiving transportation to and from school endangers persons or property or is violative of a publicized policy of such board. Unless an emergency exists, no pupil shall be suspended without an informal hearing by the administration, at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided nothing herein shall be construed to prevent a more formal hearing from being held if the circumstances surrounding the incident so require, and further provided no pupil shall be suspended more than ten times or a total of fifty days in one school year, whichever results in fewer days of exclusion, unless such pupil is granted a formal hearing pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.
(b) In determining the length of a suspension period, the administration may receive and consider evidence of past disciplinary problems which have led to removal from a classroom, suspension or expulsion of such pupil.
(c) Whenever any administration suspends a pupil, such administration shall not later than twenty-four hours after the suspension notify the superintendent or such superintendent's designee as to the name of the pupil against whom such disciplinary action was taken and the reason therefor.
(d) Any pupil who is suspended shall be given an opportunity to complete any classwork including, but not limited to, examinations which such pupil missed during the period of suspension.
(e) For any pupil who is suspended for the first time pursuant to this section and who has never been expelled pursuant to section 10-233d, the administration may shorten the length of or waive the suspension period if the pupil successfully completes an administration-specified program and meets any other conditions required by the administration. Such administration-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.
(f) Whenever a pupil is suspended pursuant to the provisions of this section, notice of the suspension and the conduct for which the pupil was suspended shall be included on the pupil's cumulative educational record. Such notice shall be expunged from the cumulative educational record by the local or regional
board of education if a pupil graduates from high school, or in the case of a suspension of a pupil for
which the length of the suspension period is shortened or the suspension period is waived pursuant to
subsection (e) of this section, such notice shall be expunged from the cumulative educational record by
the local or regional board of education (1) if the pupil graduates from high school, or (2) if the
administration so chooses, at the time the pupil completes the administration-specified program and
meets any other conditions required by the administration pursuant to said subsection (e), whichever is
earlier.

(g) On and after July 1, 2015, all suspensions pursuant to this section shall be in-school suspensions,
except a local or regional board of education may authorize the administration of schools under its
direction to impose an out-of-school suspension on any pupil in (1) grades three to twelve, inclusive, if,
during the hearing held pursuant to subsection (a) of this section, (A) the administration determines that
the pupil being suspended poses such a danger to persons or property or such a disruption of the
educational process that the pupil shall be excluded from school during the period of suspension, or (B)
the administration determines that an out-of-school suspension is appropriate for such pupil based on
evidence of (i) previous disciplinary problems that have led to suspensions or expulsion of such pupil, and
(ii) efforts by the administration to address such disciplinary problems through means other than out-of-
school suspension or expulsion, including positive behavioral support strategies, or (2) grades preschool
to two, inclusive, if during the hearing held pursuant to subsection (a) of this section, the administration
determines that an out-of-school suspension is appropriate for such pupil based on evidence that such
pupil's conduct on school grounds is of a violent or sexual nature that endangers persons. An in-school
suspension may be served in the school that the pupil attends, or in any school building under the
jurisdiction of the local or regional board of education, as determined by such board. Nothing in this
section shall limit a person's duty as a mandated reporter pursuant to section 17-101a to report suspected
child abuse or neglect.

10-233d. Expulsion of pupils.

(a)(1) Any local or regional board of education, at a meeting at which three or more members of such
board are present, or the impartial hearing board established pursuant to subsection (b) of this section,
may expel, subject to the provisions of this subsection, any pupil in grades three to twelve, inclusive,
whose conduct on school grounds or at a school-sponsored activity is violative of a publicized policy of
such board and is seriously disruptive of the educational process or endangers persons or property or
whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational
process, provided a majority of the board members sitting in the expulsion hearing vote to expel and that
at least three affirmative votes for expulsion are cast. In making a determination as to whether conduct is
seriously disruptive of the educational process, the board of education or impartial hearing board may
consider, but such consideration shall not be limited to: (A) Whether the incident occurred within close
proximity of a school; (B) whether other students from the school were involved or whether there was any
gang involvement; (C) whether the conduct involved violence, threats of violence or the unlawful use of a
weapon, as defined in section 29-38, and whether any injuries occurred; and (D) whether the conduct
involved the use of alcohol.

(2) Expulsion proceedings pursuant to this section, except as provided in subsection (i) of this section,
shall be required for any pupil in grades kindergarten to twelve, inclusive, whenever there is reason to
believe that any pupil (A) on school grounds or at a school-sponsored activity, was in possession of a
firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous
instrument or martial arts weapon, as defined in section 53a-3, (B) off school grounds, did possess such
a firearm in violation of section 29-35 or did possess and use such a firearm, instrument or weapon in
the commission of a crime under chapter 952, or (C) on or off school grounds, offered for sale or
distribution a controlled substance, as defined in subdivision (9) of section 21a-240, whose
manufacture, distribution, sale, prescription, dispensing, transporting or possessing with intent to sell or dispense, offering, or administering is subject to criminal penalties under sections 21a-277 and 21a-278. Such a pupil shall be expelled for one calendar year if the local or regional board of education or impartial hearing board finds that the pupil did so possess or so possess and use, as appropriate, such a firearm, instrument or weapon or did so offer for sale or distribution such a controlled substance, provided the board of education or the hearing board may modify the period of expulsion for a pupil on a case-by-case basis, and as provided for in subdivision (2) of subsection (c) of this section.

(3) Unless an emergency exists, no pupil shall be expelled without a formal hearing held pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a, provided whenever such pupil is a minor, the notice required by section 4-177 and section 4-180 shall also be given to the parents or guardian of the pupil at least five business days before such hearing. If an emergency exists, such hearing shall be held as soon after the expulsion as possible. The notice shall include information concerning the parent's or guardian's and the pupil's legal rights and concerning legal services provided free of charge or at a reduced rate that are available locally and how to access such services. An attorney or other advocate may represent any pupil subject to expulsion proceedings. The parent or guardian of the pupil shall have the right to have the expulsion hearing postponed for up to one week to allow time to obtain representation, except that if an emergency exists, such hearing shall be held as soon after the expulsion as possible.

(b) For purposes of conducting expulsion hearings as required by subsection (a) of this section, any local or regional board of education or any two or more of such boards in cooperation may establish an impartial hearing board of one or more persons. No member of any such board or boards shall be a member of the hearing board. The hearing board shall have the authority to conduct the expulsion hearing and render a final decision in accordance with the provisions of sections 4-176e to 4-180a, inclusive, and section 4-181a.

(c)(1) In determining the length of an expulsion and the nature of the alternative educational opportunity to be offered under subsection (d) of this section, the local or regional board of education, or the impartial hearing board established pursuant to subsection (b) of this section, may receive and consider evidence of past disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(2) For any pupil expelled for the first time pursuant to this section and who has never been suspended pursuant to section 10-233c, except for a pupil who has been expelled based on possession of a firearm or deadly weapon as described in subsection (a) of this section, the local or regional board of education may shorten the length of or waive the expulsion period if the pupil successfully completes a board-specified program and meets any other conditions required by the board. Such board-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(d) No local or regional board of education is required to offer an alternative educational opportunity, except in accordance with this section. Any pupil under sixteen years of age who is expelled shall be offered an alternative educational opportunity, which shall be (1) alternative education, as defined by section 10-74j, with an individualized learning plan, if such board provides such alternative education, or (2) in accordance with the standards adopted by the State Board of Education, pursuant to section 10-233o, during the period of expulsion, provided any parent or guardian of such pupil who does not choose to have his or her child enrolled in an alternative educational opportunity shall not be subject to the provisions of section 10-184. Any pupil expelled for the first time who is between the ages of sixteen and eighteen and who wishes to continue his or her education shall be offered such an alternative educational opportunity if he or she complies with conditions established by his or her local or regional board of education. Such alternative educational opportunity may include, but shall not be limited to, the placement
of a pupil who is at least seventeen years of age in an adult education program pursuant to section 10-69. Any pupil participating in any such adult education program during a period of expulsion shall not be required to withdraw from school under section 10-184. A local or regional board of education shall count the expulsion of a pupil when he was under sixteen years of age for purposes of determining whether an alternative educational opportunity is required for such pupil when he is between the ages of sixteen and eighteen. A local or regional board of education may offer an alternative educational opportunity to a pupil for whom such alternative educational opportunity is not required pursuant to this section.

(e) If a pupil is expelled pursuant to this section for possession of a firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, the board of education shall report the violation to the local police department or in the case of a student enrolled in a technical education and career school to the state police. If a pupil is expelled pursuant to this section for the sale or distribution of a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with the intent to sell or dispense, offering, or administration is subject to criminal penalties under sections 21a-277 and 21a-278, the board of education shall refer the pupil to an appropriate state or local agency for rehabilitation, intervention or job training, or any combination thereof, and inform the agency of its action.

(f) Whenever a pupil is expelled pursuant to the provisions of this section, notice of the expulsion and the conduct for which the pupil was expelled shall be included on the pupil’s cumulative educational record. Such notice, except for notice of an expulsion of a pupil in grades nine to twelve, inclusive, based on possession of a firearm or deadly weapon as described in subsection (a) of this section, (1) shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or (2) may be expunged from the cumulative educational record by the local or regional board of education before a pupil graduates from high school if (A) in the case of a pupil for which the length of the expulsion period is shortened or the expulsion period is waived pursuant to subdivision (2) of subsection (c) of this section, such board determines that an expungement is warranted at the time such pupil completes the board-specified program and meets any other conditions required by such board pursuant to subdivision (2) of subsection (c) of this section, or (B) such pupil has demonstrated to such board that the conduct and behavior of such pupil in the years following such expulsion warrants an expungement. A local or regional board of education, in determining whether to expunge such notice under subparagraph (B) of this subdivision, may receive and consider evidence of any subsequent disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(g) A local or regional board of education may adopt the decision of a pupil expulsion hearing conducted by another school district provided such local or regional board of education or impartial hearing board shall hold a hearing pursuant to the provisions of subsection (a) of this section which shall be limited to a determination of whether the conduct which was the basis for the expulsion would also warrant expulsion under the policies of such board. The pupil shall be excluded from school pending such hearing. The excluded student shall be offered an alternative educational opportunity in accordance with the provisions of subsections (d) and (e) of this section.

(h) Whenever a pupil against whom an expulsion hearing is pending withdraws from school after notification of such hearing but before the hearing is completed and a decision rendered pursuant to this section, (1) notice of the pending expulsion hearing shall be included on the pupil’s cumulative educational record, and (2) the local or regional board of education or impartial hearing board shall complete the expulsion hearing and render a decision. If such pupil enrolls in school in another school district, such pupil shall not be excluded from school in the other district pending completion of the expulsion hearing pursuant to this subsection unless an emergency exists, provided nothing in this
subsection shall limit the authority of the local or regional board of education for such district to suspend the pupil or to conduct its own expulsion hearing in accordance with this section.

(i) Prior to conducting an expulsion hearing for a child requiring special education and related services described in subparagraph (A) of subdivision (5) of section 10-76a, a planning and placement team shall convene to determine whether the misconduct was caused by the child's disability. If it is determined that the misconduct was caused by the child's disability, the child shall not be expelled. The planning and placement team shall reevaluate the child for the purpose of modifying the child's individualized education program to address the misconduct and to ensure the safety of other children and staff in the school. If it is determined that the misconduct was not caused by the child's disability, the child may be expelled in accordance with the provisions of this section applicable to children who do not require special education and related services. Notwithstanding the provisions of subsections (d) and (e) of this section, whenever a child requiring such special education and related services is expelled, an alternative educational opportunity, consistent with such child's educational needs shall be provided during the period of expulsion.

(j) An expelled pupil may apply for early readmission to school. Except as provided in this subsection, such readmission shall be at the discretion of the local or regional board of education. The board of education may delegate authority for readmission decisions to the superintendent of schools for the school district. If the board delegates such authority, readmission shall be at the discretion of the superintendent. Readmission decisions shall not be subject to appeal to Superior Court. The board or superintendent, as appropriate, may condition such readmission on specified criteria.

(k) Local and regional boards of education shall submit to the Commissioner of Education such information on expulsions for the possession of weapons as required for purposes of the Gun-Free Schools Act of 1994, 20 USC 8921 et seq., as amended from time to time.

(l)(1) Any student who commits an expellable offense and is subsequently placed in a juvenile detention center or any other residential placement for such offense may be expelled by a local or regional board of education in accordance with the provisions of this section. The period of expulsion shall run concurrently with the period of placement in a juvenile detention center or other residential placement.

(2) If a student who committed an expellable offense seeks to return to a school district after participating in a diversionary program or having been placed in a juvenile detention center or any other residential placement and such student has not been expelled by the local or regional board of education for such offense under subdivision (1) of this subsection, the local or regional board of education for the school district to which the student is returning shall allow such student to return and may not expel the student for additional time for such offense.

10-233c. Suspension of pupils.

(a) Any local or regional board of education may authorize the administration of the schools under its direction to suspend from school privileges a pupil whose conduct on school grounds or at a school-sponsored activity is violative of a publicized policy of such board or is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process. In making a determination as to whether conduct is seriously disruptive of the educational process, the administration may consider, but such consideration shall not be limited to: (1) Whether the incident occurred within close proximity of a school; (2) whether other students from the school were involved or whether there was any gang involvement; (3) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (4) whether the conduct involved the use of alcohol. Any such board may authorize the administration to suspend transportation services for a pupil whose conduct while awaiting or receiving transportation to and from school endangers persons or property or is violative of a publicized policy of such board. Unless an emergency exists, no pupil shall be suspended without an informal hearing by the administration, at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided nothing herein shall be construed to prevent a more formal hearing from being held if the circumstances surrounding the incident so require, and further provided no pupil shall be suspended more than ten times or a total of fifty days in one school year, whichever results in fewer days of exclusion, unless such pupil is granted a formal hearing pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.

(b) In determining the length of a suspension period, the administration may receive and consider evidence of past disciplinary problems which have led to removal from a classroom, suspension or expulsion of such pupil.

(c) Whenever any administration suspends a pupil, such administration shall not later than twenty-four hours after the suspension notify the superintendent or such superintendent's designee as to the name of the pupil against whom such disciplinary action was taken and the reason therefor.
(d) Any pupil who is suspended shall be given an opportunity to complete any classwork including, but not limited to, examinations which such pupil missed during the period of suspension.

(e) For any pupil who is suspended for the first time pursuant to this section and who has never been expelled pursuant to section 10-233d, the administration may shorten the length of or waive the suspension period if the pupil successfully completes an administration-specified program and meets any other conditions required by the administration. Such administration-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(f) Whenever a pupil is suspended pursuant to the provisions of this section, notice of the suspension and the conduct for which the pupil was suspended shall be included on the pupil's cumulative educational record. Such notice shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or in the case of a suspension of a pupil for which the length of the suspension period is shortened or the suspension period is waived pursuant to subsection (e) of this section, such notice shall be expunged from the cumulative educational record by the local or regional board of education (1) if the pupil graduates from high school, or (2) if the administration so chooses, at the time the pupil completes the administration-specified program and meets any other conditions required by the administration pursuant to said subsection (e), whichever is earlier.

(g) On and after July 1, 2015, all suspensions pursuant to this section shall be in-school suspensions, except a local or regional board of education may authorize the administration of schools under its direction to impose an out-of-school suspension on any pupil in (1) grades three to twelve, inclusive, if, during the hearing held pursuant to subsection (a) of this section, (A) the administration determines that the pupil being suspended poses such a danger to persons or property or such a disruption of the educational process that the pupil shall be excluded from school during the period of suspension, or (B) the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence of (i) previous disciplinary problems that have led to suspensions or expulsion of such pupil, and (ii) efforts by the administration to address such disciplinary problems through means other than out-of-school suspension or expulsion, including positive behavioral support strategies, or (2) grades preschool to two, inclusive, if during the hearing held pursuant to subsection (a) of this section, the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence that such pupil's conduct on school grounds is of a violent or sexual nature that endangers persons. An in-school suspension may be served in the school that the pupil attends, or in any school building under the jurisdiction of the local or regional board of education, as determined by such board. Nothing in this section shall limit a person's duty as a mandated reporter pursuant to section 17-101a to report suspected child abuse or neglect.

10-233d. Expulsion of pupils.

(a)(1) Any local or regional board of education, at a meeting at which three or more members of such board are present, or the impartial hearing board established pursuant to subsection (b) of this section, may expel, subject to the provisions of this subsection, any pupil in grades three to twelve, inclusive, whose conduct on school grounds or at a school-sponsored activity is violative of a publicized policy of such board and is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process, provided a majority of the board members sitting in the expulsion hearing vote to expel and that at least three affirmative votes for expulsion are cast. In making a determination as to whether conduct is seriously disruptive of the educational process, the board of education or impartial hearing board may consider, but such consideration shall not be limited to: (A) Whether the incident occurred within close proximity of a school; (B) whether other students from the school were involved or whether there was any gang involvement; (C) whether the conduct involved violence, threats of violence or the unlawful use of a
weapon, as defined in section 29-38, and whether any injuries occurred; and (D) whether the conduct involved the use of alcohol.

(2) Expulsion proceedings pursuant to this section, except as provided in subsection (i) of this section, shall be required for any pupil in grades kindergarten to twelve, inclusive, whenever there is reason to believe that any pupil (A) on school grounds or at a school-sponsored activity, was in possession of a firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, (B) off school grounds, did possess such a firearm in violation of section 29-35 or did possess and use such a firearm, instrument or weapon in the commission of a crime under chapter 952, or (C) on or off school grounds, offered for sale or distribution a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with intent to sell or dispense, offering, or administering is subject to criminal penalties under sections 21a-277 and 21a-278. Such a pupil shall be expelled for one calendar year if the local or regional board of education or impartial hearing board finds that the pupil did so possess or so possess and use, as appropriate, such a firearm, instrument or weapon or did so offer for sale or distribution such a controlled substance, provided the board of education or the hearing board may modify the period of expulsion for a pupil on a case-by-case basis, and as provided for in subdivision (2) of subsection (c) of this section.

(3) Unless an emergency exists, no pupil shall be expelled without a formal hearing held pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a, provided whenever such pupil is a minor, the notice required by section 4-177 and section 4-180 shall also be given to the parents or guardian of the pupil at least five business days before such hearing. If an emergency exists, such hearing shall be held as soon after the expulsion as possible. The notice shall include information concerning the parent's or guardian's and the pupil's legal rights and concerning legal services provided free of charge or at a reduced rate that are available locally and how to access such services. An attorney or other advocate may represent any pupil subject to expulsion proceedings. The parent or guardian of the pupil shall have the right to have the expulsion hearing postponed for up to one week to allow time to obtain representation, except that if an emergency exists, such hearing shall be held as soon after the expulsion as possible.

(b) For purposes of conducting expulsion hearings as required by subsection (a) of this section, any local or regional board of education or any two or more of such boards in cooperation may establish an impartial hearing board of one or more persons. No member of any such board or boards shall be a member of the hearing board. The hearing board shall have the authority to conduct the expulsion hearing and render a final decision in accordance with the provisions of sections 4-176e to 4-180a, inclusive, and section 4-181a.

(c)(1) In determining the length of an expulsion and the nature of the alternative educational opportunity to be offered under subsection (d) of this section, the local or regional board of education, or the impartial hearing board established pursuant to subsection (b) of this section, may receive and consider evidence of past disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(2) For any pupil expelled for the first time pursuant to this section and who has never been suspended pursuant to section 10-233c, except for a pupil who has been expelled based on possession of a firearm or deadly weapon as described in subsection (a) of this section, the local or regional board of education may shorten the length of or waive the expulsion period if the pupil successfully completes a board-specified program and meets any other conditions required by the board. Such board-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.
(d) No local or regional board of education is required to offer an alternative educational opportunity, except in accordance with this section. Any pupil under sixteen years of age who is expelled shall be offered an alternative educational opportunity, which shall be (1) alternative education, as defined by section 10-74j, with an individualized learning plan, if such board provides such alternative education, or (2) in accordance with the standards adopted by the State Board of Education, pursuant to section 10-233o, during the period of expulsion, provided any parent or guardian of such pupil who does not choose to have his or her child enrolled in an alternative educational opportunity shall not be subject to the provisions of section 10-184. Any pupil expelled for the first time who is between the ages of sixteen and eighteen and who wishes to continue his or her education shall be offered such an alternative educational opportunity if he or she complies with conditions established by his or her local or regional board of education. Such alternative educational opportunity may include, but shall not be limited to, the placement of a pupil who is at least seventeen years of age in an adult education program pursuant to section 10-69. Any pupil participating in any such adult education program during a period of expulsion shall not be required to withdraw from school under section 10-184. A local or regional board of education shall count the expulsion of a pupil when he was under sixteen years of age for purposes of determining whether an alternative educational opportunity is required for such pupil when he is between the ages of sixteen and eighteen. A local or regional board of education may offer an alternative educational opportunity to a pupil for whom such alternative educational opportunity is not required pursuant to this section.

(e) If a pupil is expelled pursuant to this section for possession of a firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, the board of education shall report the violation to the local police department or in the case of a student enrolled in a technical education and career school to the state police. If a pupil is expelled pursuant to this section for the sale or distribution of a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with the intent to sell or dispense, offering, or administration is subject to criminal penalties under sections 21a-277 and 21a-278, the board of education shall refer the pupil to an appropriate state or local agency for rehabilitation, intervention or job training, or any combination thereof, and inform the agency of its action.

(f) Whenever a pupil is expelled pursuant to the provisions of this section, notice of the expulsion and the conduct for which the pupil was expelled shall be included on the pupil’s cumulative educational record. Such notice, except for notice of an expulsion of a pupil in grades nine to twelve, inclusive, based on possession of a firearm or deadly weapon as described in subsection (a) of this section, (1) shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or (2) may be expunged from the cumulative educational record by the local or regional board of education before a pupil graduates from high school if (A) in the case of a pupil for which the length of the expulsion period is shortened or the expulsion period is waived pursuant to subdivision (2) of subsection (c) of this section, such board determines that an expungement is warranted at the time such pupil completes the board-specified program and meets any other conditions required by such board pursuant to subdivision (2) of subsection (c) of this section, or (B) such pupil has demonstrated to such board that the conduct and behavior of such pupil in the years following such expulsion warrants an expungement. A local or regional board of education, in determining whether to expunge such notice under subparagraph (B) of this subdivision, may receive and consider evidence of any subsequent disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(g) A local or regional board of education may adopt the decision of a pupil expulsion hearing conducted by another school district provided such local or regional board of education or impartial hearing board shall hold a hearing pursuant to the provisions of subsection (a) of this section which shall be limited to a determination of whether the conduct which was the basis for the expulsion would also warrant expulsion.
under the policies of such board. The pupil shall be excluded from school pending such hearing. The
excluded student shall be offered an alternative educational opportunity in accordance with the provisions
of subsections (d) and (e) of this section.

(h) Whenever a pupil against whom an expulsion hearing is pending withdraws from school after
notification of such hearing but before the hearing is completed and a decision rendered pursuant to this
section, (1) notice of the pending expulsion hearing shall be included on the pupil's cumulative
educational record, and (2) the local or regional board of education or impartial hearing board shall
complete the expulsion hearing and render a decision. If such pupil enrolls in school in another school
district, such pupil shall not be excluded from school in the other district pending completion of the
expulsion hearing pursuant to this subsection unless an emergency exists, provided nothing in this
subsection shall limit the authority of the local or regional board of education for such district to suspend
the pupil or to conduct its own expulsion hearing in accordance with this section.

(i) Prior to conducting an expulsion hearing for a child requiring special education and related services
described in subparagraph (A) of subdivision (5) of section 10-76a, a planning and placement team shall
convene to determine whether the misconduct was caused by the child's disability. If it is determined that
the misconduct was caused by the child's disability, the child shall not be expelled. The planning and
placement team shall reevaluate the child for the purpose of modifying the child's individualized education
program to address the misconduct and to ensure the safety of other children and staff in the school. If it
is determined that the misconduct was not caused by the child's disability, the child may be expelled in
accordance with the provisions of this section applicable to children who do not require special education
and related services. Notwithstanding the provisions of subsections (d) and (e) of this section, whenever
a child requiring such special education and related services is expelled, an alternative educational
opportunity, consistent with such child's educational needs shall be provided during the period of
expulsion.

(j) An expelled pupil may apply for early readmission to school. Except as provided in this subsection,
such readmission shall be at the discretion of the local or regional board of education. The board of
education may delegate authority for readmission decisions to the superintendent of schools for the
school district. If the board delegates such authority, readmission shall be at the discretion of the
superintendent. Readmission decisions shall not be subject to appeal to Superior Court. The board or
superintendent, as appropriate, may condition such readmission on specified criteria.

(k) Local and regional boards of education shall submit to the Commissioner of Education such
information on expulsions for the possession of weapons as required for purposes of the Gun-Free
Schools Act of 1994, 20 USC 8921 et seq., as amended from time to time.

(l)(1) Any student who commits an expellable offense and is subsequently placed in a juvenile detention
center or any other residential placement for such offense may be expelled by a local or regional board of
education in accordance with the provisions of this section. The period of expulsion shall run concurrently
with the period of placement in a juvenile detention center or other residential placement.

(2) If a student who committed an expellable offense seeks to return to a school district after
participating in a diversionary program or having been placed in a juvenile detention center or any other
residential placement and such student has not been expelled by the local or regional board of
education for such offense under subdivision (1) of this subsection, the local or regional board of
education for the school district to which the student is returning shall allow such student to return and
may not expel the student for additional time for such offense.

(a) Any local or regional board of education may authorize the administration of schools under its
direction to impose an in-school suspension on any pupil whose conduct endangers persons or property
or is seriously disruptive of the educational process, or is violative of a publicized policy of such board. No pupil shall be placed in in-school suspension without an informal hearing before the building principal or such principal's designee at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided no pupil shall be placed in in-school suspension more than fifteen times or a total of fifty days in one school year, whichever results in fewer days of exclusion.

(b) A local or regional board of education may reassign a pupil to a regular classroom program in a different school in the school district and such reassignment shall not constitute a suspension pursuant to section 10-233c, or an expulsion pursuant to section 10-233d.

LAWS

10-233c. Suspension of pupils.
(a) Any local or regional board of education may authorize the administration of the schools under its direction to suspend from school privileges a pupil whose conduct on school grounds or at a school sponsored activity is violative of a publicized policy of such board or is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process. In making a determination as to whether conduct is seriously disruptive of the educational process, the administration may consider, but such consideration shall not be limited to: (1) Whether the incident occurred within close proximity of a school; (2) whether other students from the school were involved or whether there was any gang involvement; (3) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (4) whether the conduct involved the use of alcohol. Any such board may authorize the administration to suspend transportation services for a pupil whose conduct while awaiting or receiving transportation to and from school endangers persons or property or is violative of a publicized policy of such board. Unless an emergency exists, no pupil shall be suspended without an informal hearing by the administration, at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided nothing herein shall be construed to prevent a more formal hearing from being held if the circumstances surrounding the incident so require, and further provided no pupil shall be suspended more than ten times or a total of fifty days in one school year, whichever results in fewer days of exclusion, unless such pupil is granted a formal hearing pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.

(b) In determining the length of a suspension period, the administration may receive and consider evidence of past disciplinary problems which have led to removal from a classroom, suspension or expulsion of such pupil.

(c) Whenever any administration suspends a pupil, such administration shall not later than twenty-four hours after the suspension notify the superintendent or such superintendent's designee as to the name of the pupil against whom such disciplinary action was taken and the reason therefor.

(d) Any pupil who is suspended shall be given an opportunity to complete any classwork including, but not limited to, examinations which such pupil missed during the period of suspension.
(e) For any pupil who is suspended for the first time pursuant to this section and who has never been expelled pursuant to section 10-233d, the administration may shorten the length of or waive the suspension period if the pupil successfully completes an administration-specified program and meets any other conditions required by the administration. Such administration-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(f) Whenever a pupil is suspended pursuant to the provisions of this section, notice of the suspension and the conduct for which the pupil was suspended shall be included on the pupil's cumulative educational record. Such notice shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or in the case of a suspension of a pupil for which the length of the suspension period is shortened or the suspension period is waived pursuant to subsection (e) of this section, such notice shall be expunged from the cumulative educational record by the local or regional board of education (1) if the pupil graduates from high school, or (2) if the administration so chooses, at the time the pupil completes the administration-specified program and meets any other conditions required by the administration pursuant to said subsection (e), whichever is earlier.

(g) On and after July 1, 2015, all suspensions pursuant to this section shall be in-school suspensions, except a local or regional board of education may authorize the administration of schools under its direction to impose an out-of-school suspension on any pupil in (1) grades three to twelve, inclusive, if, during the hearing held pursuant to subsection (a) of this section, (A) the administration determines that the pupil being suspended poses such a danger to persons or property or such a disruption of the educational process that the pupil shall be excluded from school during the period of suspension, or (B) the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence of (i) previous disciplinary problems that have led to suspensions or expulsion of such pupil, and (ii) efforts by the administration to address such disciplinary problems through means other than out-of-school suspension or expulsion, including positive behavioral support strategies, or (2) grades preschool to two, inclusive, if during the hearing held pursuant to subsection (a) of this section, the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence that such pupil's conduct on school grounds is of a violent or sexual nature that endangers persons. An in-school suspension may be served in the school that the pupil attends, or in any school building under the jurisdiction of the local or regional board of education, as determined by such board. Nothing in this section shall limit a person's duty as a mandated reporter pursuant to section 17-101a to report suspected child abuse or neglect.

10-233d. Expulsion of pupils.

(a) (1) Any local or regional board of education, at a meeting at which three or more members of such board are present, or the impartial hearing board established pursuant to subsection (b) of this section, may expel, subject to the provisions of this subsection, any pupil in grades three to twelve, inclusive, whose conduct on school grounds or at a school-sponsored activity is violative of a publicized policy of such board and is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process, provided a majority of the board members sitting in the expulsion hearing vote to expel and that at least three affirmative votes for expulsion are cast. In making a determination as to whether conduct is seriously disruptive of the educational process, the board of education or impartial hearing board may consider, but such consideration shall not be limited to: (A) Whether the incident occurred within close proximity of a school; (B) whether other students from the school were involved or whether there was any gang involvement; (C) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (D) whether the conduct involved the use of alcohol.
(2) Expulsion proceedings pursuant to this section, except as provided in subsection (i) of this section, shall be required for any pupil in grades kindergarten to twelve, inclusive, whenever there is reason to believe that any pupil (A) on school grounds or at a school-sponsored activity, was in possession of a firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, (B) off school grounds, did possess such a firearm in violation of section 29-35 or did possess and use such a firearm, instrument or weapon in the commission of a crime under chapter 952, or (C) on or off school grounds, offered for sale or distribution a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with intent to sell or dispense, offering, or administering is subject to criminal penalties under sections 21a-277 and 21a-278. Such a pupil shall be expelled for one calendar year if the local or regional board of education or impartial hearing board finds that the pupil did so possess or so possess and use, as appropriate, such a firearm, instrument or weapon or did so offer for sale or distribution such a controlled substance, provided the board of education or the hearing board may modify the period of expulsion for a pupil on a case-by-case basis, and as provided for in subdivision (2) of subsection (c) of this section.

(3) Unless an emergency exists, no pupil shall be expelled without a formal hearing held pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a, provided whenever such pupil is a minor, the notice required by section 4-177 and section 4-180 shall also be given to the parents or guardian of the pupil at least five business days before such hearing. If an emergency exists, such hearing shall be held as soon after the expulsion as possible. The notice shall include information concerning the parent's or guardian's and the pupil's legal rights and concerning legal services provided free of charge or at a reduced rate that are available locally and how to access such services. An attorney or other advocate may represent any pupil subject to expulsion proceedings. The parent or guardian of the pupil shall have the right to have the expulsion hearing postponed for up to one week to allow time to obtain representation, except that if an emergency exists, such hearing shall be held as soon after the expulsion as possible.

(b) For purposes of conducting expulsion hearings as required by subsection (a) of this section, any local or regional board of education or any two or more of such boards in cooperation may establish an impartial hearing board of one or more persons. No member of any such board or boards shall be a member of the hearing board. The hearing board shall have the authority to conduct the expulsion hearing and render a final decision in accordance with the provisions of sections 4-176e to 4-180a, inclusive, and section 4-181a.

(c)(1) In determining the length of an expulsion and the nature of the alternative educational opportunity to be offered under subsection (d) of this section, the local or regional board of education, or the impartial hearing board established pursuant to subsection (b) of this section, may receive and consider evidence of past disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(2) For any pupil expelled for the first time pursuant to this section and who has never been suspended pursuant to section 10-233c, except for a pupil who has been expelled based on possession of a firearm or deadly weapon as described in subsection (a) of this section, the local or regional board of education may shorten the length of or waive the expulsion period if the pupil successfully completes a board-specified program and meets any other conditions required by the board. Such board-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program. [...]
determination of whether the conduct which was the basis for the expulsion would also warrant expulsion under the policies of such board. The pupil shall be excluded from school pending such hearing. The excluded student shall be offered an alternative educational opportunity in accordance with the provisions of subsections (d) and (e) of this section.

(h) Whenever a pupil against whom an expulsion hearing is pending withdraws from school after notification of such hearing but before the hearing is completed and a decision rendered pursuant to this section, (1) notice of the pending expulsion hearing shall be included on the pupil's cumulative educational record, and (2) the local or regional board of education or impartial hearing board shall complete the expulsion hearing and render a decision. If such pupil enrolls in school in another school district, such pupil shall not be excluded from school in the other district pending completion of the expulsion hearing pursuant to this subsection unless an emergency exists, provided nothing in this subsection shall limit the authority of the local or regional board of education for such district to suspend the pupil or to conduct its own expulsion hearing in accordance with this section.

(i) Prior to conducting an expulsion hearing for a child requiring special education and related services described in subparagraph (A) of subdivision (5) of section 10-76a, a planning and placement team shall convene to determine whether the misconduct was caused by the child's disability. If it is determined that the misconduct was caused by the child's disability, the child shall not be expelled. The planning and placement team shall reevaluate the child for the purpose of modifying the child's individualized education program to address the misconduct and to ensure the safety of other children and staff in the school. If it is determined that the misconduct was not caused by the child's disability, the child may be expelled in accordance with the provisions of this section applicable to children who do not require special education and related services. Notwithstanding the provisions of subsections (d) and (e) of this section, whenever a child requiring such special education and related services is expelled, an alternative educational opportunity, consistent with such child's educational needs shall be provided during the period of expulsion.

(j) An expelled pupil may apply for early readmission to school. Except as provided in this subsection, such readmission shall be at the discretion of the local or regional board of education. The board of education may delegate authority for readmission decisions to the superintendent of schools for the school district. If the board delegates such authority, readmission shall be at the discretion of the superintendent. Readmission decisions shall not be subject to appeal to Superior Court. The board or superintendent, as appropriate, may condition such readmission on specified criteria.

(k) Local and regional boards of education shall submit to the Commissioner of Education such information on expulsions for the possession of weapons as required for purposes of the Gun-Free Schools Act of 1994, 20 USC 8921 et seq., as amended from time to time.

(l)(1) Any student who commits an expellable offense and is subsequently placed in a juvenile detention center or any other residential placement for such offense may be expelled by a local or regional board of education in accordance with the provisions of this section. The period of expulsion shall run concurrently with the period of placement in a juvenile detention center or other residential placement.

(2) If a student who committed an expellable offense seeks to return to a school district after participating in a diversionary program or having been placed in a juvenile detention center or any other residential placement and such student has not been expelled by the local or regional board of education for such offense under subdivision (1) of this subsection, the local or regional board of education for the school district to which the student is returning shall allow such student to return and may not expel the student for additional time for such offense.
(a) Any local or regional board of education may authorize the administration of schools under its
direction to impose an in-school suspension on any pupil whose conduct endangers persons or property
or is seriously disruptive of the educational process, or is violative of a publicized policy of such board. No
pupil shall be placed in in-school suspension without an informal hearing before the building principal or
such principal's designee at which such pupil shall be informed of the reasons for the disciplinary action
and given an opportunity to explain the situation, provided no pupil shall be placed in in-school
suspension more than fifteen times or a total of fifty days in one school year, whichever results in fewer
days of exclusion.

10-233h. Commissioner's network of schools. Turnaround committees. Operations and
instructional audit. Turnaround plans. Reports.

(a) The Department of Education shall develop guidelines for the provision of alternative education, as defined in section 10-74j. Such guidelines shall include, but not be limited to, a description of the purpose and expectations of alternative education, criteria for who is eligible to receive alternative education and criteria for how and when a student may enter or exit alternative education.
(b) The department shall assign an identification code and organization code to each school or program of alternative education provided by a local or regional board of education for purposes of collecting, tracking and monitoring such alternative education in the public school information system, pursuant to section 10-10a.

10-233d. Expulsion of pupils.
(1) In determining the length of an expulsion and the nature of the alternative educational opportunity to be offered under subsection (d) of this section, the local or regional board of education, or the impartial hearing board established pursuant to subsection (b) of this section, may receive and consider evidence of past disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.
(2) For any pupil expelled for the first time pursuant to this section and who has never been suspended pursuant to section 10-233c, except for a pupil who has been expelled based on possession of a firearm or deadly weapon as described in subsection (a) of this section, the local or regional board of education may shorten the length of or waive the expulsion period if the pupil successfully completes a board-specified program and meets any other conditions required by the board. Such board-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.
(d) No local or regional board of education is required to offer an alternative educational opportunity, except in accordance with this section. Any pupil under sixteen years of age who is expelled shall be offered an alternative educational opportunity, which shall be (1) alternative education, as defined by section 10-74j, with an individualized learning plan, if such board provides such alternative education, or (2) in accordance with the standards adopted by the State Board of Education, pursuant to section 10-233o, during the period of expulsion, provided any parent or guardian of such pupil who does not choose
to have his or her child enrolled in an alternative educational opportunity shall not be subject to the provisions of section 10-184. Any pupil expelled for the first time who is between the ages of sixteen and eighteen and who wishes to continue his or her education shall be offered such an alternative educational opportunity if he or she complies with conditions established by his or her local or regional board of education. Such alternative educational opportunity may include, but shall not be limited to, the placement of a pupil who is at least seventeen years of age in an adult education program pursuant to section 10-69. Any pupil participating in any such adult education program during a period of expulsion shall not be required to withdraw from school under section 10-184. A local or regional board of education shall count the expulsion of a pupil when he was under sixteen years of age for purposes of determining whether an alternative educational opportunity is required for such pupil when he is between the ages of sixteen and eighteen. A local or regional board of education may offer an alternative educational opportunity to a pupil for whom such alternative educational opportunity is not required pursuant to this section. [...]

(g) A local or regional board of education may adopt the decision of a pupil expulsion hearing conducted by another school district provided such local or regional board of education or impartial hearing board shall hold a hearing pursuant to the provisions of subsection (a) of this section which shall be limited to a determination of whether the conduct which was the basis for the expulsion would also warrant expulsion under the policies of such board. The pupil shall be excluded from school pending such hearing. The excluded student shall be offered an alternative educational opportunity in accordance with the provisions of subsections (d) and (e) of this section. [...]

(i) Prior to conducting an expulsion hearing for a child requiring special education and related services described in subparagraph (A) of subdivision (5) of section 10-76a, a planning and placement team shall convene to determine whether the misconduct was caused by the child's disability. If it is determined that the misconduct was caused by the child's disability, the child shall not be expelled. The planning and placement team shall reevaluate the child for the purpose of modifying the child's individualized education program to address the misconduct and to ensure the safety of other children and staff in the school. If it is determined that the misconduct was not caused by the child's disability, the child may be expelled in accordance with the provisions of this section applicable to children who do not require special education and related services. Notwithstanding the provisions of subsections (d) and (e) of this section, whenever a child requiring such special education and related services is expelled, an alternative educational opportunity, consistent with such child's educational needs shall be provided during the period of expulsion.

(b) A local or regional board of education may reassign a pupil to a regular classroom program in a different school in the school district and such reassignment shall not constitute a suspension pursuant to section 10-233c, or an expulsion pursuant to section 10-233d.

10-233o. Standards re alternative educational opportunities.

Not later than August 15, 2017, the State Board of Education shall adopt standards for the provision of an adequate alternative educational opportunity, offered pursuant to subsection (d) of section 10-233d. Such standards shall include, but need not be limited to, the kind of instruction and number of hours to be provided to a student enrolled in an alternative educational opportunity.

10-233c. Suspension of pupils.
(a) Any local or regional board of education may authorize the administration of the schools under its direction to suspend from school privileges a pupil whose conduct on school grounds or at a school sponsored activity is violative of a publicized policy of such board or is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process. In making a determination as to whether conduct is seriously disruptive of the educational process, the administration may consider, but such consideration shall not be limited to: (1) Whether the incident occurred within close proximity of a school; (2) whether other students from the school were involved or whether there was any gang involvement; (3) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (4) whether the conduct involved the use of alcohol. Any such board may authorize the administration to suspend transportation services for a pupil whose conduct while awaiting or receiving transportation to and from school endangers persons or property or is violative of a publicized policy of such board. Unless an emergency exists, no pupil shall be suspended without an informal hearing by the administration, at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided nothing herein shall be construed to prevent a more formal hearing from being held if the circumstances surrounding the incident so require, and further provided no pupil shall be suspended more than ten times or a total of fifty days in one school year, whichever results in fewer days of suspension as possible.

10-233d. Expulsion of pupils.
(a)(1) Any local or regional board of education, at a meeting at which three or more members of such board are present, or the impartial hearing board established pursuant to subsection (b) of this section, may expel, subject to the provisions of this subsection, any pupil in grades three to twelve, inclusive, whose conduct on school grounds or at a school-sponsored activity is violative of a publicized policy of such board and is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process, provided a majority of the board members sitting in the expulsion hearing vote to expel and that at least three affirmative votes for expulsion are cast. In making a determination as to whether conduct is seriously disruptive of the educational process, the board of education or impartial hearing board may consider, but such consideration shall not be limited to: (A) Whether the incident occurred within close proximity of a school; (B) whether other students from the school were involved or whether there was any gang involvement; (C) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (D) whether the conduct involved the use of alcohol.

(2) Expulsion proceedings pursuant to this section, except as provided in subsection (i) of this section, shall be required for any pupil in grades kindergarten to twelve, inclusive, whenever there is reason to believe that any pupil (A) on school grounds or at a school-sponsored activity, was in possession of a
firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, (B) off school grounds, did possess such a firearm in violation of section 29-35 or did possess and use such a firearm, instrument or weapon in the commission of a crime under chapter 952, or (C) on or off school grounds, offered for sale or distribution a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with intent to sell or dispense, offering, or administering is subject to criminal penalties under sections 21a-277 and 21a-278. Such a pupil shall be expelled for one calendar year if the local or regional board of education or impartial hearing board finds that the pupil did so possess or so possess and use, as appropriate, such a firearm, instrument or weapon or did so offer for sale or distribution such a controlled substance, provided the board of education or the hearing board may modify the period of expulsion for a pupil on a case-by-case basis, and as provided for in subdivision (2) of subsection (c) of this section.

(3) Unless an emergency exists, no pupil shall be expelled without a formal hearing held pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a, provided whenever such pupil is a minor, the notice required by section 4-177 and section 4-180 shall also be given to the parents or guardian of the pupil at least five business days before such hearing. If an emergency exists, such hearing shall be held as soon after the expulsion as possible. The notice shall include information concerning the parent's or guardian's and the pupil's legal rights and concerning legal services provided free of charge or at a reduced rate that are available locally and how to access such services. An attorney or other advocate may represent any pupil subject to expulsion proceedings. The parent or guardian of the pupil shall have the right to have the expulsion hearing postponed for up to one week to allow time to obtain representation, except that if an emergency exists, such hearing shall be held as soon after the expulsion as possible.

(b) For purposes of conducting expulsion hearings as required by subsection (a) of this section, any local or regional board of education or any two or more of such boards in cooperation may establish an impartial hearing board of one or more persons. No member of any such board or boards shall be a member of the hearing board. The hearing board shall have the authority to conduct the expulsion hearing and render a final decision in accordance with the provisions of sections 4-176e to 4-180a, inclusive, and section 4-181a.

(c)(1) In determining the length of an expulsion and the nature of the alternative educational opportunity to be offered under subsection (d) of this section, the local or regional board of education, or the impartial hearing board established pursuant to subsection (b) of this section, may receive and consider evidence of past disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(2) For any pupil expelled for the first time pursuant to this section and who has never been suspended pursuant to section 10-233c, except for a pupil who has been expelled based on possession of a firearm or deadly weapon as described in subsection (a) of this section, the local or regional board of education may shorten the length of or waive the expulsion period if the pupil successfully completes a board-specified program and meets any other conditions required by the board. Such board-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(d) No local or regional board of education is required to offer an alternative educational opportunity, except in accordance with this section. Any pupil under sixteen years of age who is expelled shall be offered an alternative educational opportunity, which shall be (1) alternative education, as defined by section 10-74j, with an individualized learning plan, if such board provides such alternative education, or (2) in accordance with the standards adopted by the State Board of Education, pursuant to section 10-233o, during the period of expulsion, provided any parent or guardian of such pupil who does not choose
to have his or her child enrolled in an alternative educational opportunity shall not be subject to the provisions of section 10-184. Any pupil expelled for the first time who is between the ages of sixteen and eighteen and who wishes to continue his or her education shall be offered such an alternative educational opportunity if he or she complies with conditions established by his or her local or regional board of education. Such alternative educational opportunity may include, but shall not be limited to, the placement of a pupil who is at least seventeen years of age in an adult education program pursuant to section 10-69. Any pupil participating in any such adult education program during a period of expulsion shall not be required to withdraw from school under section 10-184. A local or regional board of education shall count the expulsion of a pupil when he was under sixteen years of age for purposes of determining whether an alternative educational opportunity is required for such pupil when he is between the ages of sixteen and eighteen. A local or regional board of education may offer an alternative educational opportunity to a pupil for whom such alternative educational opportunity is not required pursuant to this section.

(e) If a pupil is expelled pursuant to this section for possession of a firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, the board of education shall report the violation to the local police department or in the case of a student enrolled in a technical education and career school to the state police. If a pupil is expelled pursuant to this section for the sale or distribution of a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with the intent to sell or dispense, offering, or administration is subject to criminal penalties under sections 21a-277 and 21a-278, the board of education shall refer the pupil to an appropriate state or local agency for rehabilitation, intervention or job training, or any combination thereof, and inform the agency of its action.

(f) Whenever a pupil is expelled pursuant to the provisions of this section, notice of the expulsion and the conduct for which the pupil was expelled shall be included on the pupil’s cumulative educational record. Such notice, except for notice of an expulsion of a pupil in grades nine to twelve, inclusive, based on possession of a firearm or deadly weapon as described in subsection (a) of this section, (1) shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or (2) may be expunged from the cumulative educational record by the local or regional board of education before a pupil graduates from high school if (A) in the case of a pupil for which the length of the expulsion period is shortened or the expulsion period is waived pursuant to subdivision (2) of subsection (c) of this section, such board determines that an expungement is warranted at the time such pupil completes the board-specified program and meets any other conditions required by such board pursuant to subdivision (2) of subsection (c) of this section, or (B) such pupil has demonstrated to such board that the conduct and behavior of such pupil in the years following such expulsion warrants an expungement. A local or regional board of education, in determining whether to expunge such notice under subparagraph (B) of this subdivision, may receive and consider evidence of any subsequent disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(g) A local or regional board of education may adopt the decision of a pupil expulsion hearing conducted by another school district provided such local or regional board of education or impartial hearing board shall hold a hearing pursuant to the provisions of subsection (a) of this section which shall be limited to a determination of whether the conduct which was the basis for the expulsion would also warrant expulsion under the policies of such board. The pupil shall be excluded from school pending such hearing. The excluded student shall be offered an alternative educational opportunity in accordance with the provisions of subsections (d) and (e) of this section.

(h) Whenever a pupil against whom an expulsion hearing is pending withdraws from school after notification of such hearing but before the hearing is completed and a decision rendered pursuant to this section, (1) notice of the pending expulsion hearing shall be included on the pupil’s cumulative
educational record, and (2) the local or regional board of education or impartial hearing board shall complete the expulsion hearing and render a decision. If such pupil enrolls in school in another school district, such pupil shall not be excluded from school in the other district pending completion of the expulsion hearing pursuant to this subsection unless an emergency exists, provided nothing in this subsection shall limit the authority of the local or regional board of education for such district to suspend the pupil or to conduct its own expulsion hearing in accordance with this section.

(i) Prior to conducting an expulsion hearing for a child requiring special education and related services described in subparagraph (A) of subdivision (5) of section 10-76a, a planning and placement team shall convene to determine whether the misconduct was caused by the child's disability. If it is determined that the misconduct was caused by the child's disability, the child shall not be expelled. The planning and placement team shall reevaluate the child for the purpose of modifying the child's individualized education program to address the misconduct and to ensure the safety of other children and staff in the school. If it is determined that the misconduct was not caused by the child's disability, the child may be expelled in accordance with the provisions of this section applicable to children who do not require special education and related services. Notwithstanding the provisions of subsections (d) and (e) of this section, whenever a child requiring such special education and related services is expelled, an alternative educational opportunity, consistent with such child's educational needs shall be provided during the period of expulsion.

(j) An expelled pupil may apply for early readmission to school. Except as provided in this subsection, such readmission shall be at the discretion of the local or regional board of education. The board of education may delegate authority for readmission decisions to the superintendent of schools for the school district. If the board delegates such authority, readmission shall be at the discretion of the superintendent. Readmission decisions shall not be subject to appeal to Superior Court. The board or superintendent, as appropriate, may condition such readmission on specified criteria.

(k) Local and regional boards of education shall submit to the Commissioner of Education such information on expulsions for the possession of weapons as required for purposes of the Gun-Free Schools Act of 1994, 20 USC 8921 et seq., as amended from time to time.

(l)(1) Any student who commits an expellable offense and is subsequently placed in a juvenile detention center or any other residential placement for such offense may be expelled by a local or regional board of education in accordance with the provisions of this section. The period of expulsion shall run concurrently with the period of placement in a juvenile detention center or other residential placement.

(2) If a student who committed an expellable offense seeks to return to a school district after participating in a diversionary program or having been placed in a juvenile detention center or any other residential placement and such student has not been expelled by the local or regional board of education for such offense under subdivision (1) of this subsection, the local or regional board of education for the school district to which the student is returning shall allow such student to return and may not expel the student for additional time for such offense.

In making a determination as to whether conduct is seriously disruptive of the educational process, the administration may consider, but such consideration shall not be limited to: (1) Whether the incident occurred within close proximity of a school; (2) whether other students from the school were involved or whether there was any gang involvement; (3) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (4) whether the conduct involved the use of alcohol. Any such board may authorize the administration to suspend transportation services for a pupil whose conduct while awaiting or receiving transportation to and from school endangers persons or property or is violative of a publicized policy of such board. Unless an emergency exists, no pupil shall be suspended without an informal hearing by the administration, at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided nothing herein shall be construed to prevent a more formal hearing from being held if the circumstances surrounding the incident so require, and further provided no pupil shall be suspended more than ten times or a total of fifty days in one school year, whichever results in fewer days of exclusion, unless such pupil is granted a formal hearing pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.

(b) In determining the length of a suspension period, the administration may receive and consider evidence of past disciplinary problems which have led to removal from a classroom, suspension or expulsion of such pupil.

(c) Whenever any administration suspends a pupil, such administration shall not later than twenty-four hours after the suspension notify the superintendent or such superintendent's designee as to the name of the pupil against whom such disciplinary action was taken and the reason therefor.

(d) Any pupil who is suspended shall be given an opportunity to complete any classwork including, but not limited to, examinations which such pupil missed during the period of suspension.

(e) For any pupil who is suspended for the first time pursuant to this section and who has never been expelled pursuant to section 10-233d, the administration may shorten the length of or waive the suspension period if the pupil successfully completes an administration-specified program and meets any other conditions required by the administration. Such administration-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(f) Whenever a pupil is suspended pursuant to the provisions of this section, notice of the suspension and the conduct for which the pupil was suspended shall be included on the pupil's cumulative educational record. Such notice shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or in the case of a suspension of a pupil for which the length of the suspension period is shortened or the suspension period is waived pursuant to subsection (e) of this section, such notice shall be expunged from the cumulative educational record by the local or regional board of education (1) if the pupil graduates from high school, or (2) if the administration so chooses, at the time the pupil completes the administration-specified program and
meets any other conditions required by the administration pursuant to said subsection (e), whichever is earlier.

(g) On and after July 1, 2015, all suspensions pursuant to this section shall be in-school suspensions, except a local or regional board of education may authorize the administration of schools under its direction to impose an out-of-school suspension on any pupil in (1) grades three to twelve, inclusive, if, during the hearing held pursuant to subsection (a) of this section, (A) the administration determines that the pupil being suspended poses such a danger to persons or property or such a disruption of the educational process that the pupil shall be excluded from school during the period of suspension, or (B) the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence of (i) previous disciplinary problems that have led to suspensions or expulsion of such pupil, and (ii) efforts by the administration to address such disciplinary problems through means other than out-of-school suspension or expulsion, including positive behavioral support strategies, or (2) grades preschool to two, inclusive, if during the hearing held pursuant to subsection (a) of this section, the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence that such pupil's conduct on school grounds is of a violent or sexual nature that endangers persons. An in-school suspension may be served in the school that the pupil attends, or in any school building under the jurisdiction of the local or regional board of education, as determined by such board. Nothing in this section shall limit a person's duty as a mandated reporter pursuant to section 17-101a to report suspected child abuse or neglect.

**10-233d. Expulsion of pupils.**

Such a pupil shall be expelled for one calendar year if the local or regional board of education or impartial hearing board finds that the pupil did so possess or so possess and use, as appropriate, such a firearm, instrument or weapon or did so offer for sale or distribution such a controlled substance,
provided the board of education or the hearing board may modify the period of expulsion for a pupil on a case-by-case basis, and as provided for in subdivision (2) of subsection (c) of this section.

(3) Unless an emergency exists, no pupil shall be expelled without a formal hearing held pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a, provided whenever such pupil is a minor, the notice required by section 4-177 and section 4-180 shall also be given to the parents or guardian of the pupil at least five business days before such hearing. If an emergency exists, such hearing shall be held as soon after the expulsion as possible. The notice shall include information concerning the parent's or guardian's and the pupil's legal rights and concerning legal services provided free of charge or at a reduced rate that are available locally and how to access such services. An attorney or other advocate may represent any pupil subject to expulsion proceedings. The parent or guardian of the pupil shall have the right to have the expulsion hearing postponed for up to one week to allow time to obtain representation, except that if an emergency exists, such hearing shall be held as soon after the expulsion as possible.

(b) For purposes of conducting expulsion hearings as required by subsection (a) of this section, any local or regional board of education or any two or more of such boards in cooperation may establish an impartial hearing board of one or more persons. No member of any such board or boards shall be a member of the hearing board. The hearing board shall have the authority to conduct the expulsion hearing and render a final decision in accordance with the provisions of sections 4-176e to 4-180a, inclusive, and section 4-181a.

(c)(1) In determining the length of an expulsion and the nature of the alternative educational opportunity to be offered under subsection (d) of this section, the local or regional board of education, or the impartial hearing board established pursuant to subsection (b) of this section, may receive and consider evidence of past disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

   (2) For any pupil expelled for the first time pursuant to this section and who has never been suspended pursuant to section 10-233c, except for a pupil who has been expelled based on possession of a firearm or deadly weapon as described in subsection (a) of this section, the local or regional board of education may shorten the length of or waive the expulsion period if the pupil successfully completes a board-specified program and meets any other conditions required by the board. Such board-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(d) No local or regional board of education is required to offer an alternative educational opportunity, except in accordance with this section. Any pupil under sixteen years of age who is expelled shall be offered an alternative educational opportunity, which shall be (1) alternative education, as defined by section 10-74j, with an individualized learning plan, if such board provides such alternative education, or (2) in accordance with the standards adopted by the State Board of Education, pursuant to section 10-233o, during the period of expulsion, provided any parent or guardian of such pupil who does not choose to have his or her child enrolled in an alternative educational opportunity shall not be subject to the provisions of section 10-184. Any pupil expelled for the first time who is between the ages of sixteen and eighteen and who wishes to continue his or her education shall be offered such an alternative educational opportunity if he or she complies with conditions established by his or her local or regional board of education. Such alternative educational opportunity may include, but shall not be limited to, the placement of a pupil who is at least seventeen years of age in an adult education program pursuant to section 10-69. Any pupil participating in any such adult education program during a period of expulsion shall not be required to withdraw from school under section 10-184. A local or regional board of education shall count the expulsion of a pupil when he was under sixteen years of age for purposes of determining whether an alternative educational opportunity is required for such pupil when he is between the ages of sixteen and
eighteen. A local or regional board of education may offer an alternative educational opportunity to a pupil for whom such alternative educational opportunity is not required pursuant to this section.

(e) If a pupil is expelled pursuant to this section for possession of a firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, the board of education shall report the violation to the local police department or in the case of a student enrolled in a technical education and career school to the state police. If a pupil is expelled pursuant to this section for the sale or distribution of a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with the intent to sell or dispense, offering, or administration is subject to criminal penalties under sections 21a-277 and 21a-278, the board of education shall refer the pupil to an appropriate state or local agency for rehabilitation, intervention or job training, or any combination thereof, and inform the agency of its action.

(f) Whenever a pupil is expelled pursuant to the provisions of this section, notice of the expulsion and the conduct for which the pupil was expelled shall be included on the pupil's cumulative educational record. Such notice, except for notice of an expulsion of a pupil in grades nine to twelve, inclusive, based on possession of a firearm or deadly weapon as described in subsection (a) of this section, (1) shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or (2) may be expunged from the cumulative educational record by the local or regional board of education before a pupil graduates from high school if (A) in the case of a pupil for which the length of the expulsion period is shortened or the expulsion period is waived pursuant to subdivision (2) of subsection (c) of this section, such board determines that an expungement is warranted at the time such pupil completes the board-specified program and meets any other conditions required by such board pursuant to subdivision (2) of subsection (c) of this section, or (B) such pupil has demonstrated to such board that the conduct and behavior of such pupil in the years following such expulsion warrants an expungement. A local or regional board of education, in determining whether to expunge such notice under subparagraph (B) of this subdivision, may receive and consider evidence of any subsequent disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(g) A local or regional board of education may adopt the decision of a pupil expulsion hearing conducted by another school district provided such local or regional board of education or impartial hearing board shall hold a hearing pursuant to the provisions of subsection (a) of this section which shall be limited to a determination of whether the conduct which was the basis for the expulsion would also warrant expulsion under the policies of such board. The pupil shall be excluded from school pending such hearing. The excluded student shall be offered an alternative educational opportunity in accordance with the provisions of subsections (d) and (e) of this section.

(h) Whenever a pupil against whom an expulsion hearing is pending withdraws from school after notification of such hearing but before the hearing is completed and a decision rendered pursuant to this section, (1) notice of the pending expulsion hearing shall be included on the pupil's cumulative educational record, and (2) the local or regional board of education or impartial hearing board shall complete the expulsion hearing and render a decision. the misconduct was caused by the child's disability, the child shall not be expelled. The planning and placement team shall reevaluate the child for the purpose of modifying the child's individualized education program to address the misconduct and to ensure the safety of other children and staff in the school. Compilation of School
Discipline Laws and
Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

6.1.2 If students from either a school district or DSCYF facility are children with disabilities, appropriate special education staff shall be included in placement considerations. The Alternative Placement Team and the Individual Education Program (IEP) Team may be the same so long as the membership of the IEP Team meets the requirements of 14 DE Admin. Code 925.

14 DE Admin. Code §614. Uniform definitions for student conduct which may result in alternative placement or expulsion.

1.0 Purpose

Pursuant to 14 Del.C. § 122(b)(26), this regulation provides uniform definitions for student conduct which may result in alternative placement or expulsion. This regulation shall apply to all school districts and charter schools. Nothing contained here shall be interpreted to require the alternative placement or expulsion of a student, nor shall this regulation be interpreted to restrict the ability of school districts and charter schools to determine which student conduct shall result in expulsion or an alternative placement. [...]

1.0 Purpose
Pursuant to 14 Del.C. § 122(b)(26), this regulation, which applies to all public school districts and charter schools, provides uniform procedures for the following situations: referral of students who warrant consideration for placement outside the Regular School Program into an Alternative Program; placement of students into an Alternative Program; monitoring student progress while in Alternative Placement; return of students back into the Regular School Program from an Alternative Program; Suspensions; and Expulsion hearings. 14 Del.C. §701. Authority of teachers and administrators to control the disruptive behavior of
students.

(a) As used in this chapter:

(1) "Department" means the Department of Education.
(2) "Disruptive behavior" means conduct that is so unruly, disruptive, or abusive that it seriously
interferes with a school teacher's or school administrator's ability to communicate with the students in a
classroom, with a student's ability to learn, or with the operation of a school or a school-sponsored
activity.
(3) "Racial subgroup" means the racial and ethnic subgroups of students as defined under the

disadvantaged students, children with disabilities, and English learners.

(b) While a student is entrusted in their care or supervision, public school teachers, and administrators
have the same authority to control the behavior of the student and to discipline or punish the student as a
parent, custodian, guardian, or other person similarly responsible for the care and supervision of the
student except as provided in §§ 702 and 4112F of this title. The authority includes removing a student
from a classroom or school-sponsored activity.

(c) When a teacher removes a student from a classroom or school-sponsored activity in an effort to
control the student's disruptive behavior, an on-site school administrator may, upon a written showing of
good cause, override the teacher's decision to remove the student from the classroom or school-
sponsored activity. Before overriding a teacher's decision, the administrator shall strongly presume that
the teacher's decision to remove the student was reasonable and necessary under the circumstances.

agree, the superintendent or the superintendent's designee shall make the determination.

(f) When a teacher or school administrator removes a student from a classroom or school-sponsored
activity or disciplines or punishes a student, a rebuttable presumption exists that the teacher or
administrator acted reasonably, in good faith, and in accordance with State or local board of education
policy. The burden of overcoming the presumption shall be upon the student.

(g) Each local board of education shall establish, adopt, publish, and distribute to students in the district
and their parents or guardians policy or standards that are consistent with the regulations developed
under § 122(b)(26) of this title and include all of the following:

   disruptive behavior and to remove a student from a classroom or school-sponsored activity.
2. Provide an explanation or examples of "disruptive behavior" set forth in paragraph (a)(2) of this
   section.

(h) A district shall not establish or adopt a policy or standards that prohibit the removal of a student from a
   classroom or school-sponsored activity.

(i) No teacher who purports to have acted pursuant to the teacher's rights established by this chapter
   shall be found liable for civil damages arising from that action unless that teacher's conduct shocks the
   conscience.

The Department of Education shall establish a program component which will provide alternative
educational and related services for the more severe discipline problems in the public schools. This
component will serve primarily secondary school students, including but not limited to: youngsters who
have been expelled from regular schools, students who may be subject to expulsion, and others who
have serious violations of the local school district discipline code. The Department of Education shall
provide rules and regulations for the conduct of programs authorized under this section subject to the
following limitations:

1. School districts shall make application to the Department of Education for funding to implement
   programs authorized under this section. Preference shall be given to applications from consortia of
   school districts. To the extent feasible, programs offered under this component should serve eligible
   pupils within a county, however, multiple sites may be operated by a single consortia of school districts
   within a county.
2. Any application submitted under this section shall specify the types and level of services to be
   provided and an estimate of the number of youngsters to be served. The application shall also include a
   budget of proposed expenditures during a fiscal year. That budget shall indicate, at a minimum, the
   funds being requested from appropriations authorized under this section and funds to be obtained from
   all other sources.
(3) All applications submitted to the Department of Education under this section shall indicate an agreement to fund at least 30 percent of the total cost of services provided from sources of funding other than those authorized under this section.

(4) All projects funded under this section shall submit an annual evaluation report on the effectiveness of the program to the Department of Education. Such report shall incorporate the data and information specified by the Department.

(5) School districts shall be permitted to use funds collected in accordance with the provisions of Chapter 6 of this title to make tuition payments for youngsters assigned to programs authorized under this section.

(6) Nothing in this section shall prohibit a consortia of school districts from contracting for educational or related services with public or private agencies when operating programs authorized under this section.

(7) The provisions of § 4130 of this title shall not apply to youngsters enrolled in programs authorized under this section.

(8) A student 16 years of age or less who is expelled or suspended pending expulsion by a local school district or charter school shall be presumed appropriate for placement in a Consortium Discipline Alternative Program site, provided the student is not otherwise ineligible by statute or regulation for placement in such a program. The burden of establishing that a student is not appropriate for placement in a Consortium Discipline Alternative Program shall be on the local school district or charter school. Any student not shown by preponderance of evidence to be inappropriate for placement in a Consortium Discipline Alternative Program shall be placed in such a program.

14 Del.C. §1605. School and district level component.

The Department of Education shall be authorized to approve and provide financial support for programs to provide alternative educational and related services to disruptive students in the public schools. This component will serve students, in schools enrolling pupils in grades K through 12, who are causing repeated disruptions in the regular classes to which they are assigned. Services may be delivered in a variety of modes with students assigned to the specific programs for short- or long-term assistance. Programs authorized under this section could also serve as a transition for youngsters returning from programs operated under the provisions of § 1604 of this title. The Department of Education shall provide rules and regulations for the conduct of programs authorized under this section subject to the following limitations:

(1) School districts shall be permitted to use personnel authorized by any of the provisions of this title to establish alternative educational and related service programs for disruptive students. Such personnel shall continue to be paid in accordance with salary schedules specified in Chapter 13 of this title.

(2) In the event that a school district uses personnel authorized under various sections of this title to establish and operate a program for disruptive students, the district may elect to employ 2 service paraprofessionals or 2 instructional paraprofessionals, paid in accordance with § 1324 of this title, in lieu of 1 staff member paid in accordance with § 1305 of this title.

(3) Any school which either enrolls pupils in at least 2 of the grades 3 through 12 or enrolls pupils solely in 1 or more of grades K through 3, and which establishes a program for disruptive students in accordance with the provisions of this section and the rules and regulations of the Department of Education may make application to the Department for an incentive grant to help defray the cost of operating such program. No school may qualify for more than 1 incentive grant per fiscal year, and all applications for such grants must have the prior approval of the board of education of the school district in which the applicant school is located. The maximum dollar value of an incentive grant shall be specified in the annual budget appropriation bill. Funds available to the Department of Education shall
be allocated on a competitive basis if in any fiscal year more schools are eligible for funding than there are funds appropriated for the incentive grants.

REGULATIONS

1.0 Provision of Services

Each school district shall provide services for students whose behavior disrupts the classroom setting and creates distractions that impede the learning process, but who are not eligible for placement in an alternative program pursuant to 14 DE Admin. 2.0 Application for Funding

4.2 A School Based Intervention Program shall include both short term and long term intervention strategies. Such strategies may include character education, short or long term counseling to improve behavior which impacts educational performance, and methods to identify the need to refer students for additional services either within the district or to other agencies. The Program shall also include support services to provide a smooth transition for students who are returning to their regular school from a Consortium Discipline Alternative Program or from a Department of Services to Children, Youth and their Families (DSCYF) setting.

4.3 The decision to place a student in the School Based Intervention Program shall be made by the student's Intervention Team. The Intervention Team shall include the building principal or assistant principal, school nurse, counselor, social worker (if the student receives social work services), and a teacher familiar with the student. Other individuals, including parents, guardians or Relative Caregivers, may be invited as appropriate.

Code 925. When placing a student with a disability identified under Section 504 of the Rehabilitation Act, the Intervention Team may be the same as a multidisciplinary team authorized to make placement decisions as long the Intervention Team also meets the requirements of 34 C.F.R. 104.35

1.3 School districts may place a student in a Consortium Discipline Alternative Program for classroom or school environment disruptions only if:

   1.3.1 Such disruptions are chronic and repetitive; and

   1.3.2 The student has participated in all available School Based Intervention Programs pursuant to 14 DE Admin. Code 609 and continues to routinely and seriously disrupt the classroom and impede the learning of other students.

7.0 Assignment to an Alternative Program

7.1 Procedures for Student Referral

   7.1.1 Criteria for student referral to an Alternative Placement.

   7.1.1.4 A Principal may refer a student for Alternative Placement in conjunction with chronic disruptive behaviors which result in Repeated Violations of the Student Code of Conduct after all school-based best practice interventions have been put into place for said student. This may include, but is not limited to, counseling services, the development and implementation of a behavior support or modification plan, mentoring, referral to mediation, and participation in an available In-School Alternative Program.

14 Del.C. §2724. Notification to parents and students.
At the beginning of a school year each school district or public school shall notify each student and the parent of each student of the school attendance requirements of this Code, including the procedures and penalties applicable to truancy. The school district or school may determine the form of the notification.
14 Del.C. §2725. Absences without excuse; truancy conferences.
(a) If a student has been absent from school without a valid excuse 1 or more days, the principal of the school may take such action as the principal considers appropriate.
(b) If a student is truant, the principal shall schedule a truancy conference with the student, the student's parent and the principal pursuant to § 2726 of this title. The conference may be attended by other persons as the principal may include.
(c) Following a truancy conference the school shall decide whether or not to file a charge against the parent for a violation of § 2702 of this title; provided however, that the principal shall refer the case for prosecution following the twentieth day of unexcused absence by a student during the school year, in compliance with § 2702(d) of this title, and may refer the case before the twentieth day of unexcused absence if the principal determines it is appropriate to do so.
(d) The fact that a student or student's parent attended or failed to attend a truancy conference does not bar the principal from filing a complaint with the Justice of the Peace Court.

The provisions of § 4122 of this title shall apply to truancy conferences. The principal shall determine the date, time and place of the conference and shall give all participants notice at least 1 week prior to the conference. In conducting a truancy conference, the principal may exclude any person, including a parent or a student, from the conference or part of a conference.

No person shall be prosecuted for violation of § 2702 of this title if that person, within 3 days from the time that the person is notified by the superintendent of schools or persons authorized by the superintendent, presents an excuse in writing satisfactory to such superintendent of schools, and complies with the requirements of such § 2702 of this title. The mailing of a notice to the usual address of the offending party shall be sufficient notification.

(a) When the school charges a parent or a student with a violation of § 2702 of this title, the school shall file a written complaint in the court. The complaint shall be on such form(s) as the court may require. The school shall be the complainant and the parent or the student shall be the defendant. The court must determine whether probable cause exists to issue a warrant or summons against the person charged. When there is probable cause to find that a student is truant, probable cause to issue a warrant or summons for a parent shall exist when the parent is named as the parent or guardian on the student's school records and the parent resides in Delaware.

14 Del.C. §2730. Failure to attend; penalties.
(a) The school may file a civil charge of truancy against the student in the Justice of the Peace Court if:
   (1) The student is age 12 or older; and/or
   (2) The Court determines that a parent who is charged with violating § 2702 of this title has a valid affirmative defense under § 2729(b) of this title.
(b) The court shall determine whether a preponderance of the evidence establishes that the student has violated § 2702 of this title.
(c) If the Court determines the student has violated § 2702 of this title, it shall adjudicate the student a truant and may order the following remedial dispositions:
   (1) Community service;
(2) Counseling;
(3) Substance abuse evaluation and treatment;
(4) Mental health evaluation and treatment;
(5) A curfew with hours set by the court;

(9) A recommendation that the student enroll in the school in alternative educational and related services in accordance with Chapter 16 of this title; and
(10) Such other action as is permitted by statute or by court rule.

(a) The court with jurisdiction over the matter shall retain jurisdiction until all terms of the court's order have been complied with regardless of any change in the student's age, marital status or choice of educational source or location.
(b) Notwithstanding any provision of this Code to the contrary, if it is alleged that a student has not complied with the terms of the court's order, the noncompliant student may be charged with criminal contempt pursuant to § 1271 of Title 11, which shall, in the first instance, be brought in the Family Court.
(c) A juvenile against whom criminal contempt proceedings pursuant to this section and § 1271 of Title 11 have been initiated shall have the right to counsel at all stages.

(a) A parent convicted within the Justice of the Peace Court of a violation of § 2702 of this title may appeal to the Court of Common Pleas in the county in which the judgment was given. The appeal shall be filed within 15 days from the date of conviction. On appeal the Court of Common Pleas shall make a de novo determination. [...] 
(c) A student who has been adjudicated truant within the Justice of the Peace Court pursuant to § 2730 of this title may appeal to the Family Court in the county in which the adjudication occurred. The appeal shall be filed within 15 days of the date of the adjudication. On appeal the Family Court shall make a de novo determination based on the record below.
(d) No appeal of the adjudication of truancy or truancy-related contempt pursuant to subsection (c) of this section shall stay execution of the remedial disposition unless a judge of the Family Court orders a stay.

14 Del.C. §2733. Jurisdiction; venue.
(a) The Justice of the Peace Court and the Family Court shall have concurrent jurisdiction of complaints filed pursuant to this subchapter.
(b) All complaints under this subchapter shall be filed in a Justice of the Peace Court in the county where the school the child is required to attend is located or in the county in which the office of the school district which contains the child's school is located.
(c) The matter shall proceed within the Justice of the Peace Court unless that Court determines, upon the complaint's filing, that the matter shall be transferred to the Family Court due to the existence of any of the following conditions:
    (1) Pending delinquency proceedings involving the child;
    (2) Pending civil proceedings involving a determination of the child's best interests pursuant to § 722 of Title 13;
(3) Pending proceedings with involvement by the Department of Services for Children, Youth and Their Families with the child's family; or

(4) Any other condition exists related to the child that reasonably warrants transfer to Family Court.

(d) In the event that a student withdraws from school for any reason other than age and does not re-enroll in another public school, the Family Court or Justice of the Peace Court, in its discretion, may retain jurisdiction for the purpose of ensuring that the student's alternative educational environment was not an attempt to avoid the compulsory attendance requirements of § 2702 of this title.

(c) If the Court determines the student has violated § 2702 of this title, it shall adjudicate the student a truant and may order the following remedial dispositions:

(3) Substance abuse evaluation and treatment.

The General Assembly finds and declares that a substantial drug and alcohol trafficking and abuse problem exists in this State among school age children, in schools and on school campuses, parks and playgrounds. It is the purpose of this chapter to support increased efforts by local law enforcement agencies, working in conjunction with school districts and with state and local drug and alcohol prevention agencies, to suppress trafficking, and to prevent drug and alcohol abuse among school-age children in schools and on school campuses, through the development of innovative and model programs jointly
undertaken by local law-enforcement agencies and school districts. Further, it is the intent of the General Assembly to establish a program of financial and technical assistance for local law enforcement and school districts, and to formulate a joint policy of pursuing both demand reduction (through education and prevention programs), and supply reduction (through law enforcement).

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

(1) "Division" shall mean the Division of Substance Abuse and Mental Health.

All applications for such funds shall be applications made jointly by the school and law-enforcement entities involved in the proposed project.

(b) In the allocation and awarding of funds to joint law enforcement and public school recipients, the Division shall obtain the comments and recommendations of the State Drug-free School Advisory Committee. All allocation and awarding of funds by the Division shall be in accordance with the Administrative Procedures Act [Chapter 101 of Title 29], and with those guidelines promulgated by the State Drug-free School Advisory Committee which do not conflict with existing state laws.

(c) Each application shall be accompanied by a fiscal note, prepared by the joint applicants, which sets forth all anticipated first-year costs and the anticipated total costs of the project or program. The Division may return any application to the applicant with a request that any or all expenses be more fully set out, together with the applicant's explanations or reasons for each projected cost or expense.

14 Del.C. §3804. State drug-free school advisory committee.
(a) All criteria for the rating of applications for funds under this chapter shall be developed by the State Drug-free School Advisory Committee. of the school both believe that a parent or parents are a cause of or are involved in the violation or problem.

(f) Other defenses. -

(1) The physical location or time of access of a technology-related incident is not a valid defense in any disciplinary action by the school district or charter school initiated under this section provided there is sufficient school nexus.

(2) This section does not apply to any person who uses data or computer software that is accessed through a computer, computer system, computer network, or other electronic technology when acting within the scope of that person's lawful employment or investigation of a violation of this section in accordance with school district or charter school policy.

Nothing in this section or in the policies promulgated as a result of this section prevents school officials from fulfilling all of the reporting requirements of § 4112 of this title or from reporting probable crimes that occur on school property or at a school function which are not required to be reported under § 4112 of this title. Nothing in this section abrogates the reporting requirements for child abuse or sexual abuse set forth in Chapter 9 of Title 16 or any other reporting requirement under state or federal law.

14 Del.C. §1605A. Prevention component.
The Family Services Cabinet Council (Council), with the Department of Education and the Department of Services for Children, Youth and Their Families acting as lead agencies, shall administer a program to
offer prevention-related student support services (prevention services) to students to prevent them from becoming discipline problems and from failing academically in our schools. Within the limits of appropriations made for this purpose, the Council shall provide rules and regulations for the award of prevention grants and the conduct of prevention programs authorized under this section, subject to the following limitations:

(1) The Council shall issue prevention funding to local school districts proposing to establish an integrated plan to deliver prevention services including, but not limited to, academic tutoring and student mentoring programs to provide at-risk students with the extra help they may need to succeed academically and with positive adult role models; outreach programs to promote parental, family and community involvement in students' academic studies and in reducing and resolving school discipline problems; school-linked support services to help students with family or health problems that may be adversely affecting their academic performance and their conduct at school; training to help students and school personnel resolve conflicts peacefully and non-disruptively; and assistance to help teachers better manage the behavior of students in their classrooms.

(2) Applications for funding pursuant to this section shall be made by school districts in accordance with procedures and standards established by the Council. Each applicant shall set forth an integrated plan to provide prevention services consistent with paragraph (1) of this section. To avoid duplication of effort, maximize the impact of limited resources, and increase the effect of efforts by state, local, community and private, nonprofit agencies through increased coordination and cooperation, the Council shall give preference to applications which:

a. Are submitted by 2 or more school districts working in concert, where appropriate;

b. Include private, nonprofit agencies and community organizations as partners in the application, and identify the roles those agencies and organizations are to play in delivering prevention services in the community;

c. Indicate how grants from the federal government and foundations will be used or sought to help deliver prevention services in the community; and

d. Identify the roles state and local agencies are to play in delivering prevention services in the community.

(3) The Council shall provide technical assistance to districts preparing applications and ongoing assistance to districts awarded funding pursuant to this section.

(4) The Council shall establish a timetable for the award of grants pursuant to this section which shall provide, at minimum, for a period of 1 month for joint planning between the Council and the applicants that the Council selects as finalists eligible for a funding award. During such joint planning, the Council and the applicant shall refine the applicant's prevention plan, ensure that the plan makes cost-effective use of the resources and services of state, local, community and private, nonprofit agencies, and consider the incorporation of successful elements of other districts' prevention programs into the applicant's plans. Final awards shall be made by the Council on or before January 15 of each year for the subsequent school year, contingent upon the appropriation of funds for such purpose in the annual appropriations act.

In addition to the funds appropriated to school districts by other sections of this chapter, school districts shall be eligible to make application to the Department of Education for the development and implementation of school discipline improvement programs as specified in Chapter 16 of this title.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources.
related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

Their responsibilities include staff development, public K-12 school student education including education for exceptional students and students in juvenile justice programs, special programs, adult education programs, and career education programs. Additionally, district school boards must:

However, the State Board of Education or the district
school board may, by rules, subject each student to the control and direction of the principal or teacher in charge of the school during the time she or he is otherwise en route to or from school or is presumed by law to be attending school. Each district school board, each district school superintendent, and each school principal shall fully support the authority of teachers, according to s. 1003.32, and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting.

**1003.32. Authority of teacher; responsibility for control of students; district school board and principal duties.**

Subject to law and to the rules of the district school board, each teacher or other member of the staff of any school shall have such authority for the control and discipline of students as may be assigned to him or her by the principal or the principal's designated representative and shall keep good order in the classroom and in other places in which he or she is assigned to be in charge of students.

(1) In accordance with this section and within the framework of the district school board's code of student conduct, teachers and other instructional personnel shall have the authority to undertake any of the following actions in managing student behavior and ensuring the safety of all students in their classes and school and their opportunity to learn in an orderly and disciplined classroom:

The plan must include a goal for reducing the use of restraint and seclusion and must include activities, skills, and resources needed to achieve that goal. Activities may include, but are not limited to:

a. Additional training in positive behavioral support and crisis management;
b. Parental involvement;
c. Data review;

1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(2) Code of student conduct. - Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(a) Consistent policies and specific grounds for disciplinary action, including in-school suspension, out-of-school suspension, expulsion, and any disciplinary action that may be imposed for the possession or use of alcohol on school property or while attending a school function or for the illegal use, sale, or possession of controlled substances as defined in chapter 893.

(b) Procedures to be followed for acts requiring discipline, including corporal punishment.

(c) An explanation of the responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.

(d)1. An explanation of the responsibilities of each student with regard to appropriate dress, respect for self and others, and the role that appropriate dress and respect for self and others has on an orderly learning environment. Each district school board shall adopt a dress code policy that prohibits a student, while on the grounds of a public school during the regular school day, from wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the orderly learning environment.

2. Any student who violates the dress policy described in subparagraph 1. is subject to the following disciplinary actions:

   a. For a first offense, a student shall be given a verbal warning and the school principal shall call the student's parent or guardian.

   b. For a second offense, the student is ineligible to participate in any extracurricular activity for a period of time not to exceed 5 days and the school principal shall meet with the student's parent or guardian.

   c. For a third or subsequent offense, a student shall receive an in-school suspension pursuant to s. 1003.01(5) for a period not to exceed 3 days, the student is ineligible to participate in any extracurricular activity for a period not to exceed 30 days, and the school principal shall call the student's parent or guardian and send the parent or guardian a written letter regarding the student's in-school suspension and ineligibility to participate in extracurricular activities.

(e) Notice that illegal use, possession, or sale of controlled substances, as defined in chapter 893, by any student while the student is upon school property or in attendance at a school function is grounds for disciplinary action by the school and may also result in criminal penalties being imposed.
(f) Notice that use of a wireless communications device includes the possibility of the imposition of disciplinary action by the school or criminal penalties if the device is used in a criminal act. A student may possess a wireless communications device while the student is on school property or in attendance at a school function. Each district school board shall adopt rules governing the use of a wireless communications device by a student while the student is on school property or in attendance at a school function.

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.

5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student's parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

(h) Notice that violence against any district school board personnel by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(i) Notice that violation of district school board transportation policies, including disruptive behavior on a school bus or at a school bus stop, by a student is grounds for suspension of the student's privilege of riding on a school bus and may be grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(j) Notice that violation of the district school board's sexual harassment policy by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(k) Policies to be followed for the assignment of violent or disruptive students to an alternative educational program or referral of such students to mental health services identified by the school district pursuant to s. 1012.584(4).
(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year and referred to mental health services identified by the school district pursuant to s. 1012.584(4) and the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

(m) Notice that any student who is determined to have made a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel's property, school transportation, or a school-sponsored activity will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year and referred for criminal prosecution and mental health services identified by the school district pursuant to s. 1012.584(4) for evaluation or treatment, when appropriate. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if it is determined to be in the best interest of the student and the school system.

1006.13. Policy of zero tolerance for crime and victimization.

(1) District school boards shall promote a safe and supportive learning environment in schools by protecting students and staff from conduct that poses a threat to school safety. A threat assessment team may use alternatives to expulsion or referral to law enforcement agencies to address disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. Zero-tolerance policies may not be rigorously applied to petty acts of misconduct. Zero-tolerance policies must apply equally to all students regardless of their economic status, race, or disability.

(2) Each district school board shall adopt a policy of zero tolerance that:

   (a) Defines criteria for reporting to a law enforcement agency any act that poses a threat to school safety that occurs whenever or wherever students are within the jurisdiction of the district school board.

   (b) Defines acts that pose a threat to school safety.

   (c) Defines petty acts of misconduct which are not a threat to school safety and do not require consultation with law enforcement.

   (d) Minimizes the victimization of students, staff, or volunteers, including taking all steps necessary to protect the victim of any violent crime from any further victimization.

   (e) Establishes a procedure that provides each student with the opportunity for a review of the disciplinary action imposed pursuant to s. 1006.07.

   (f) Requires the threat assessment team to consult with law enforcement when a student exhibits a pattern of behavior, based upon previous acts or the severity of an act, that would pose a threat to school safety.

1006.135. Hazing prohibited at schools with any of grades 6-12.

(2) School district policy. - Each school district shall adopt in rule a policy that prohibits hazing and establishes consequences for a student who commits an act of hazing. The policy must include:
(a) A definition of hazing, which must include the definition provided in this section.

(b) A procedure for reporting an alleged act of hazing, including provisions that permit a person to anonymously report such an act. However, disciplinary action may not be based solely on an anonymous report.

(c) A requirement that a school with any of grades 9 through 12 report an alleged act of hazing to a local law enforcement agency if the alleged act meets the criteria established under subsection (3).

(d) A provision for referral of victims and perpetrators of hazing to a certified school counselor.

(e) A requirement that each incident of hazing be reported in the school’s safety and discipline report required under s. 1006.09(6). The report must include the number of hazing incidents reported, the number of incidents referred to a local law enforcement agency, the number of incidents that result in disciplinary action taken by the school, and the number of incidents that do not result in either referral to a local law enforcement agency or disciplinary action taken by the school.

1006.147. Bullying and harassment prohibited.

(4) Each school district shall adopt and review at least every 3 years a policy prohibiting bullying and harassment of a student or employee of a public K-12 educational institution. Each school district's policy shall be in substantial conformity with the Department of Education's model policy. The school district bullying and harassment policy shall afford all students the same protection regardless of their status under the law. The school district may establish separate discrimination policies that include categories of students. The school district shall involve students, parents, teachers, administrators, school staff, school volunteers, community representatives, and local law enforcement agencies in the process of adopting and reviewing the policy. The school district policy must be implemented by each school principal in a manner that is ongoing throughout the school year and integrated with the school's curriculum, bullying prevention and intervention program, discipline policies, and other violence prevention efforts.

1006.195. District school board, charter school authority and responsibility to establish student eligibility regarding participation in interscholastic and intrascholastic extracurricular activities.

Notwithstanding any provision to the contrary in ss. 1006.15, 1006.18, and 1006.20, regarding student eligibility to participate in interscholastic and intrascholastic extracurricular activities:

(1)(a) A district school board must establish, through its code of student conduct, student eligibility standards and related student disciplinary actions regarding student participation in interscholastic and intrascholastic extracurricular activities. The code of student conduct must provide that:

1. A student not currently suspended from interscholastic or intrascholastic extracurricular activities, or suspended or expelled from school, pursuant to a district school board's suspension or expulsion powers provided in law, including ss. 1006.07, 1006.08, and 1006.09, is eligible to participate in interscholastic and intrascholastic extracurricular activities.

2. A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets the criteria in s. 1006.15(3)(h).

3. A student's eligibility to participate in any interscholastic or intrascholastic extracurricular activity may not be affected by any alleged recruiting violation until final disposition of the allegation pursuant to s. 1006.20(2)(b).

(b) Students who participate in interscholastic and intrascholastic extracurricular activities for, but are not enrolled in, a public school pursuant to s. 1006.15(3)(c)-(e) and (8), are subject to the district school board's code of student conduct for the limited purpose of establishing and maintaining the student's eligibility to participate at the school.

LAWS

1003.01. Definitions.
As used in this chapter, the term:

(5)(b) "In-school suspension" means the temporary removal of a student from the student's regular school program and placement in an alternative program, such as that provided in s. 1003.53, under the supervision of district school board personnel, for a period not to exceed 10 school days.

1003.02. District school board operation and control of public K-12 education within the school district.
As provided in part II of chapter 1001, district school boards are constitutionally and statutorily charged with the operation and control of public K-12 education within their school districts. The district school boards must establish, organize, and operate their public K-12 schools and educational programs, employees, and facilities. Their responsibilities include staff development, public K-12 school student education including education for exceptional students and students in juvenile justice programs, special programs, adult education programs, and career education programs. Additionally, district school boards must:

(1) Provide for the proper accounting for all students of school age, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students in the following areas:

(c) Control of students.

1. Adopt rules for the control, attendance, discipline, in-school suspension, suspension, and expulsion of students and decide all cases recommended for expulsion.

2. Maintain a code of student conduct as provided in chapter 1006.

Subject to law and to the rules of the district school board, each teacher or other member of the staff of any school shall have such authority for the control and discipline of students as may be assigned to him or her by the principal or the principal's designated representative and shall keep good order in the classroom and in other places in which he or she is assigned to be in charge of students.

(3) A teacher may send a student to the principal's office to maintain effective discipline in the classroom and may recommend an appropriate consequence consistent with the student code of conduct under s. 1006.07. The principal shall respond by employing the teacher's recommended consequence or a more serious disciplinary action if the student's history of disruptive behavior warrants it. If the principal determines that a lesser disciplinary action is appropriate, the principal should consult with the teacher prior to taking disciplinary action. [..]

(5) If a teacher removes a student from class under subsection (4), the principal may place the student in another appropriate classroom, in in-school suspension, or in a dropout prevention and academic
intervention program as provided by s. 1003.53; or the principal may recommend the student for out-of-
school suspension or expulsion, as appropriate. The student may be prohibited from attending or
participating in school-sponsored or school-related activities. The principal may not return the student to
that teacher's class without the teacher's consent unless the committee established under subsection

placement review committee must render decisions within 5 days of the removal of the student from the
classroom.

1003.53. Dropout prevention and academic intervention.
(1)(d)6. Prior to assignment of students to second chance schools, district school boards are encouraged

more effective interpersonal skills.

1006.07. District school board duties relating to student discipline and school safety.

suspension. Each suspension and the reasons for the suspension shall be reported in writing within 24
hours to the student's parent by United States mail. Each suspension and the reasons for the suspension

district school board. Such rules shall require oral and written notice to the student of the charges and an
explanation of the evidence against him or her prior to the suspension. Each student shall be given an
opportunity to present his or her side of the story. No student shall be suspended for unexcused
tardiness, lateness, absence, or truancy. The principal or the principal's designee may suspend any
student transported to or from school at public expense from the privilege of riding on a school bus for
violation of district school board transportation policies, which shall include a policy regarding behavior at
school bus stops, and the principal or the principal's designee shall give notice in writing to the student's
parent and to the district school superintendent within 24 hours. School personnel shall not be held legally

willful disobedience, open defiance of authority of a member of his or her staff, violence against persons or property, or any other act which substantially disrupts the orderly conduct of the school. A recommendation of expulsion or assignment to a second chance school may also be made for any student found to have intentionally made false accusations that jeopardize the professional reputation, employment, or professional certification of a teacher or other member of the school staff, according to the district school board code of student conduct. Any recommendation of expulsion shall include a detailed report by the principal or the principal's designated representative on the alternative measures taken prior to the recommendation of expulsion.

1006.13. Policy of zero tolerance for crime and victimization.
(1) District school boards shall promote a safe and supportive learning environment in schools by protecting students and staff from conduct that poses a threat to school safety. A threat assessment team may use alternatives to expulsion or referral to law enforcement agencies to address disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. Zero-tolerance policies may not be rigorously applied to petty acts of misconduct. Zero-tolerance policies must apply equally to all students regardless of their economic status, race, or disability.

1003.01. Definitions.
As used in this chapter, the term:

(5)(b) "In-school suspension" means the temporary removal of a student from the student's regular school program and placement in an alternative program, such as that provided in s. 1003.53, under the supervision of district school board personnel, for a period not to exceed 10 school days.

The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) Contact, refer, and enforce.

(a) Upon each unexcused absence, or absence for which the reason is unknown, the school principal or his or her designee shall contact the student's parent to determine the reason for the absence. If the absence is an excused absence, as defined by district school board policy, the school shall provide opportunities for the student to make up assigned work and not receive an academic penalty unless the work is not made up within a reasonable time. […]

(c) If an initial meeting does not resolve the problem, the child study team shall implement the following:

2. Evaluation for alternative education programs.

1003.31. Students subject to control of school.
(1) Subject to law and rules of the State Board of Education and of the district school board, each student enrolled in a school shall:
(a) During the time she or he is being transported to or from school at public expense;
(b) During the time she or he is attending school;
(c) During the time she or he is on the school premises participating with authorization in a school-sponsored activity; and
(d) During a reasonable time before and after the student is on the premises for attendance at school or for authorized participation in a school-sponsored activity, and only when on the premises, be under the control and direction of the principal or teacher in charge of the school, and under the immediate control and direction of the teacher or other member of the instructional staff or of the bus driver to whom such responsibility may be assigned by the principal. However, the State Board of Education or the district school board may, by rules, subject each student to the control and direction of the principal or teacher in charge of the school during the time she or he is otherwise en route to or from school or is presumed by law to be attending school. Each district school board, each district school superintendent, and each school principal shall fully support the authority of teachers, according to s. 1003.32, and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting.

1003.53. Dropout prevention and academic intervention.
(1)(d)6. Prior to assignment of students to second chance schools, district school boards are encouraged to use alternative programs, such as in-school suspension, which provide instruction and counseling leading to improved student behavior, a reduction in the incidence of truancy, and the development of more effective interpersonal skills.

1006.07. District school board duties relating to student discipline and school safety.
The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:
(1) Control of students.
(b)3. The district school superintendent of the receiving school district may recommend to the district school board that the final order of expulsion be waived and the student be admitted to the school district, or that the final order of expulsion be honored and the student not be admitted to the school district. If the student is admitted by the district school board, with or without the recommendation of the district school superintendent, the student may be placed in an appropriate educational program and referred to mental health services identified by the school district pursuant to s. 1012.584(4), when appropriate, at the direction of the district school board. […]
(2)(k) Policies to be followed for the assignment of violent or disruptive students to an alternative educational program or referral of such students to mental health services identified by the school district pursuant to s. 1012.584(4).

1006.08. District school superintendent duties relating to student discipline and school safety.
(1) The district school superintendent shall recommend plans to the district school board for the proper accounting for all students of school age, for the attendance and control of students at school, and for the proper attention to health, safety, and other matters which will best promote the welfare of students. Each district school superintendent shall fully support the authority of his or her principals, teachers, and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, to place such students in an alternative educational setting. When the district school superintendent makes a recommendation for
expulsion to the district school board, he or she shall give written notice to the student and the student's parent of the recommendation, setting forth the charges against the student and advising the student and his or her parent of the student's right to due process as prescribed by ss. 120.569 and 120.57(2). When district school board action on a recommendation for the expulsion of a student is pending, the district school superintendent may extend the suspension assigned by the principal beyond 10 school days if such suspension period expires before the next regular or special meeting of the district school board.

1006.09. Duties of school principal relating to student discipline and school safety.

(1)(a) Subject to law and to the rules of the State Board of Education and the district school board, the principal in charge of the school or the principal's designee shall develop policies for delegating to any teacher or other member of the instructional staff or to any bus driver transporting students of the school responsibility for the control and direction of students. Each school principal shall fully support the authority of his or her teachers and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrolable, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting. The principal or the principal's designee must give full consideration to the recommendation for discipline made by a teacher, other member of the instructional staff, or a bus driver when making a decision regarding student referral for discipline.

(2) Suspension proceedings, pursuant to rules of the State Board of Education, may be initiated against any enrolled student who is formally charged with a felony, or with a delinquent act which would be a felony if committed by an adult, by a proper prosecuting attorney for an incident which allegedly occurred on property other than public school property, if that incident is shown, in an administrative hearing with notice provided to the parents of the student by the principal of the school pursuant to rules adopted by the State Board of Education and to rules developed pursuant to s. 1001.54, to have an adverse impact on the educational program, discipline, or welfare in the school in which the student is enrolled. Any student who is suspended as the result of such proceedings may be suspended from all classes of instruction on public school grounds during regular classroom hours for a period of time, which may exceed 10 days, as determined by the district school superintendent. The suspension shall not affect the delivery of educational services to the student, and the student shall be immediately enrolled in a daytime alternative education program, or an evening alternative education program, where appropriate. If the court determines that the student did commit the felony or delinquent act which would have been a felony if committed by an adult, the district school board may expel the student, provided that expulsion under this subsection shall not affect the delivery of educational services to the student in any residential, nonresidential, alternative, daytime, or evening program outside of the regular school setting. Any student who is subject to discipline or expulsion for unlawful possession or use of any substance controlled under chapter 893 may be entitled to a waiver of the discipline or expulsion:

(a) If the student divulges information leading to the arrest and conviction of the person who supplied the controlled substance to him or her, or if the student voluntarily discloses his or her unlawful possession of the controlled substance prior to his or her arrest. Any information divulged which leads to arrest and conviction is not admissible in evidence in a subsequent criminal trial against the student divulging the information.

(b) If the student commits himself or herself, or is referred by the court in lieu of sentence, to a state-licensed drug abuse program and successfully completes the program.

1006.13. Policy of zero tolerance for crime and victimization.

(5) Notwithstanding any other provision of law, each district school board shall adopt rules providing that any student found to have committed any offense in s. 784.081(1), (2), or (3) shall be expelled or placed in an alternative school setting or other program, as appropriate. Upon being charged with the offense,
the student shall be removed from the classroom immediately and placed in an alternative school setting pending disposition.

**1001.43. Supplemental powers and duties of district school board.**

The district school board may exercise the following supplemental powers and duties as authorized by this code or State Board of Education rule.

(1) Student management. - The district school board may adopt programs and policies to ensure the safety and welfare of individuals, the student body, and school personnel, which programs and policies may:

(a) Prohibit the possession of weapons and drugs on campus, student hazing, and other activities that could threaten the operation of the school or the safety and welfare of the student body or school personnel.

**1003.53. Dropout prevention and academic intervention.**

(1)(d)5. A student may be assigned to a second chance school if the district school board in which the student resides has a second chance school and if the student meets one of the following criteria:

- c. The student has committed a serious offense which warrants suspension or expulsion from school according to the district school board's code of student conduct. For the purposes of this program, "serious offense" is behavior which:

  (III) Includes possession of weapons or drugs.

**1006.07. District school board duties relating to student discipline and school safety.**

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(2) Code of student conduct. - Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student's parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

1006.13. Policy of zero tolerance for crime and victimization.
(3) Zero-tolerance policies must require students found to have committed one of the following offenses to be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year, and to be referred to the criminal justice or juvenile justice system.

(a) Bringing a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation or possessing a firearm at school.

1003.53. Dropout prevention and academic intervention.
(1)(c) A student shall be identified as being eligible to receive services funded through the dropout prevention and academic intervention program based upon one of the following criteria:

3. The student has a history of disruptive behavior in school or has committed an offense that warrants out-of-school suspension or expulsion from school according to the district school board's code of student conduct. For the purposes of this program, "disruptive behavior" is behavior that:

   a. Interferes with the student's own learning or the educational process of others and requires attention and assistance beyond that which the traditional program can provide or results in frequent conflicts of a disruptive nature while the student is under the jurisdiction of the school either in or out of the classroom; or

   b. Severely threatens the general welfare of students or others with whom the student comes into contact. […]

(d) A student who is habitually truant may be assigned to a second chance school only if the case staffing committee, established pursuant to s. 984.12, determines that such placement could be beneficial to the student and the criteria included in subparagraph 3. are met.
5. A student may be assigned to a second chance school if the district school board in which the student resides has a second chance school and if the student meets one of the following criteria:
   a. The student habitually exhibits disruptive behavior in violation of the code of student conduct adopted by the district school board. [...] 
6. Prior to assignment of students to second chance schools, district school boards are encouraged to use alternative programs, such as in-school suspension, which provide instruction and counseling leading to improved student behavior, a reduction in the incidence of truancy, and the development of more effective interpersonal skills.

1006.09. Duties of school principal relating to student discipline and school safety.
(1)(c) The principal or the principal's designee may recommend to the district school superintendent the expulsion of any student who has committed a serious breach of conduct, including, but not limited to, willful disobedience, open defiance of authority of a member of his or her staff, violence against persons or property, or any other act which substantially disrupts the orderly conduct of the school. A recommendation of expulsion or assignment to a second chance school may also be made for any student found to have intentionally made false accusations that jeopardize the professional reputation, employment, or professional certification of a teacher or other member of the school staff, according to the district school board code of student conduct. Any recommendation of expulsion shall include a detailed report by the principal or the principal's designated representative on the alternative measures taken prior to the recommendation of expulsion.

1001.42. Powers and duties of district school board.
(18) Implement school improvement and accountability. [...] 
   (b) Early warning system. -

1. A school that serves any students in kindergarten through grade 8 shall implement an early warning system to identify students in such grades who need additional support to improve academic performance and stay engaged in school. The early warning system must include the following early warning indicators:

a. Attendance below 90 percent, regardless of whether absence is excused or a result of out-of-school suspension.

b. One or more suspensions, whether in school or out of school.

c. Course failure in English Language Arts or mathematics during any grading period.

d. A Level 1 score on the statewide, standardized assessments in English Language Arts or mathematics or, for students in kindergarten through grade 3, a substantial reading deficiency under s. 1008.25(5)(a).

A school district may identify additional early warning indicators for use in a school's early warning system. The system must include data on the number of students identified by the system as exhibiting two or more early warning indicators, the number of students by grade level who exhibit
each early warning indicator, and a description of all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

2. A school-based team responsible for implementing the requirements of this paragraph shall monitor the data from the early warning system. The team may include a school psychologist. When a student exhibits two or more early warning indicators, the team, in consultation with the student's parent, shall determine appropriate intervention strategies for the student unless the student is already being served by an intervention program at the direction of a school-based, multidisciplinary team. Data and information relating to a student's early warning indicators must be used to inform any intervention strategies provided to the student.

1003.01. Definitions.
As used in this chapter, the term:

(8) "Habitual truant" means a student who has 15 unexcused absences within 90 calendar days with or without the knowledge or consent of the student's parent, is subject to compulsory school attendance under s. 1003.21(1) and (2)(a), and is not exempt under s. 1003.21(3) or s. 1003.24, or by meeting the criteria for any other exemption specified by law or rules of the State Board of Education. Such a student must have been the subject of the activities specified in ss. 1003.26 and 1003.27(3), without resultant successful remediation of the truancy problem before being dealt with as a child in need of services according to the provisions of chapter 984.

The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) Contact, refer, and enforce.

(a) Upon each unexcused absence, or absence for which the reason is unknown, the school principal or his or her designee shall contact the student's parent to determine the reason for the absence. If the absence is an excused absence, as defined by district school board policy, the school shall provide opportunities for the student to make up assigned work and not receive an academic penalty unless the work is not made up within a reasonable time.

(b) If a student has had at least five unexcused absences, or absences for which the reasons are unknown, within a calendar month or 10 unexcused absences, or absences for which the reasons are unknown, within a 90-calendar-day period, the student's primary teacher shall report to the school principal or his or her designee that the student may be exhibiting a pattern of nonattendance. The principal shall, unless there is clear evidence that the absences are not a pattern of nonattendance,
refer the case to the school's child study team to determine if early patterns of truancy are developing. If the child study team finds that a pattern of nonattendance is developing, whether the absences are excused or not, a meeting with the parent must be scheduled to identify potential remedies, and the principal shall notify the district school superintendent and the school district contact for home education programs that the referred student is exhibiting a pattern of nonattendance.

(c) If an initial meeting does not resolve the problem, the child study team shall implement the following:

1. Frequent attempts at communication between the teacher and the family.
2. Evaluation for alternative education programs.
3. Attendance contracts.

The child study team may, but is not required to, implement other interventions, including referral to other agencies for family services or recommendation for filing a truancy petition pursuant to s. 984.151.

(d) The child study team shall be diligent in facilitating intervention services and shall report the case to the district school superintendent only when all reasonable efforts to resolve the nonattendance behavior are exhausted.

(e) If the parent refuses to participate in the remedial strategies because he or she believes that those strategies are unnecessary or inappropriate, the parent may appeal to the district school board. The district school board may provide a hearing officer, and the hearing officer shall make a recommendation for final action to the district school board. If the district school board's final determination is that the strategies of the child study team are appropriate, and the parent still refuses to participate or cooperate, the district school superintendent may seek criminal prosecution for noncompliance with compulsory school attendance.

(f)(1) If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district's regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(d). The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(d).

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a), (b), (c), or (e), within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(e).
(g) If a student subject to compulsory school attendance will not comply with attempts to enforce school attendance, the parent or the district school superintendent or his or her designee shall refer the case to the case staffing committee pursuant to s. 984.12, and the district school superintendent or his or her designee may file a truancy petition pursuant to the procedures in s. 984.151.

(2) Give written notice.

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt mail, to the parent when no valid reason is found for a student's nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, who may refer the case to the child study team in paragraph (1)(b) at the school the student would be assigned according to district school board attendance area policies or to the case staffing committee, established pursuant to s. 984.12. The child study team shall diligently facilitate intervention services and shall report the case back to the district school superintendent only when all reasonable efforts to resolve the nonenrollment behavior are exhausted. If the parent still refuses to cooperate or enroll the child in school, the district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

(b) Subsequent to the activities required under subsection (1), the district school superintendent or his or her designee shall give written notice in person or by return-receipt mail to the parent that criminal prosecution is being sought for nonattendance. The district school superintendent may file a truancy petition, as defined in s. 984.03, following the procedures outlined in s. 984.151.

(3) Return student to parent. — A designated school representative may visit the home or place of residence of a student and any other place in which he or she is likely to find any student who is required to attend school when the student is not enrolled or is absent from school during school hours without an excuse, and, when the student is found, shall return the student to his or her parent or to the principal or teacher in charge of the school, or to the private tutor from whom absent, or to the juvenile assessment center or other location established by the district school board to receive students who are absent from school. Upon receipt of the student, the parent shall be immediately notified.

(4) Report to appropriate authority. — A designated school representative shall report to the appropriate authority designated by law to receive such notices, all violations of the Child Labor Law that may come to his or her knowledge.

(5) Right to inspect. — A designated school representative shall have the right of access to, and inspection of, establishments where minors may be employed or detained only for the purpose of ascertaining whether students of compulsory school age are actually employed there and are actually working there regularly. The designated school representative shall, if he or she finds unsatisfactory working conditions or violations of the Child Labor Law, report his or her findings to the appropriate authority.

1003.27. Court procedure and penalties.
The court procedure and penalties for the enforcement of the provisions of this part, relating to compulsory school attendance, shall be as follows:

(3) Habitual truancy cases. - The district school superintendent is authorized to file a truancy petition, as defined in s. 984.03, following the procedures outlined in s. 984.151. If the district school superintendent chooses not to file a truancy petition, procedures for filing a child-in-need-of-services petition shall be commenced pursuant to this subsection and chapter 984. In accordance with procedures established by the district school board, the designated school representative shall refer a student who is habitually truant and the student's family to the children-in-need-of-services and families-in-need-of-services
provider or the case staffing committee, established pursuant to s. 984.12, as determined by the cooperative agreement required in this section. The case staffing committee may request the Department of Juvenile Justice or its designee to file a child-in-need-of-services petition based upon the report and efforts of the district school board or other community agency or may seek to resolve the truant behavior through the school or community-based organizations or agencies. Prior to and subsequent to the filing of a child-in-need-of-services petition due to habitual truancy, the appropriate governmental agencies must allow a reasonable time to complete actions required by this section and s. 1003.26 to remedy the conditions leading to the truant behavior. Prior to the filing of a petition, the district school board must have complied with the requirements of s. 1003.26, and those efforts must have been unsuccessful.

(4) Cooperative agreements. - The circuit manager of the Department of Juvenile Justice or the circuit manager's designee, the district administrator of the Department of Children and Families or the district administrator's designee, and the district school superintendent or the superintendent's designee must develop a cooperative interagency agreement that:

(a) Clearly defines each department's role, responsibility, and function in working with habitual truants and their families.

(b) Identifies and implements measures to resolve and reduce truant behavior.

(c) Addresses issues of streamlining service delivery, the appropriateness of legal intervention, case management, the role and responsibility of the case staffing committee, student and parental intervention and involvement, and community action plans.

(d) Delineates timeframes for implementation and identifies a mechanism for reporting results by the circuit juvenile justice manager or the circuit manager's designee and the district school superintendent or the superintendent's designee to the Department of Juvenile Justice and the Department of Education and other governmental entities as needed.

(e) Designates which agency is responsible for each of the intervention steps in this section, to yield more effective and efficient intervention services. [...] 

(7) Penalties. - The penalties for refusing or failing to comply with this chapter shall be as follows:

(d) The student.

1. In addition to any other authorized sanctions, the court shall order a student found to be a habitual truant to make up all school work missed and may order the student to pay a civil penalty of up to $2, based on the student's ability to pay, for each day of school missed, perform up to 25 community service hours at the school, or participate in counseling or other services, as appropriate.

2. Upon a second or subsequent finding that a student is a habitual truant, the court, in addition to any other authorized sanctions, shall order the student to make up all school work missed and may order the student to pay a civil penalty of up to $5, based on the student's ability to pay, for each day of school missed, perform up to 50 community service hours at the school, or participate in counseling or other services, as appropriate.

1006.09. Duties of school principal relating to student discipline and school safety.

(1)(b) The principal or the principal's designee may suspend a student only in accordance with the rules of the district school board. The principal or the principal's designee shall make a good faith effort to immediately inform a student's parent by telephone of a student's suspension and the reasons for the suspension. Each suspension and the reasons for the suspension shall be reported in writing within 24 hours to the student's parent by United States mail. Each suspension and the reasons for the suspension shall also be reported in writing within 24 hours to the district school superintendent. A good faith effort
shall be made by the principal or the principal's designee to employ parental assistance or other
alternative measures prior to suspension, except in the case of emergency or disruptive conditions which
require immediate suspension or in the case of a serious breach of conduct as defined by rules of the
district school board. Such rules shall require oral and written notice to the student of the charges and an
explanation of the evidence against him or her prior to the suspension. Each student shall be given an
opportunity to present his or her side of the story. No student shall be suspended for unexcused
tardiness, lateness, absence, or truancy. The principal or the principal's designee may suspend any
student transported to or from school at public expense from the privilege of riding on a school bus for
violation of district school board transportation policies, which shall include a policy regarding behavior at
school bus stops, and the principal or the principal's designee shall give notice in writing to the student's
parent and to the district school superintendent within 24 hours. School personnel shall not be held legally
responsible for suspensions of students made in good faith.

Following notification, the parent or guardian must provide identifying information, including name, address, date of birth, social security number, and driver license number or identification card number of the parent or guardian to the person taking the child into custody or the department.

(c) Corporal punishment.

1. In accordance with the provisions of s. 1003.32, corporal punishment of a public school student may only be administered by a teacher or school principal within guidelines of the school principal and according to district school board policy. Another adult must be present and must be informed in the student's presence of the reason for the punishment. Upon request, the teacher or school principal must provide the parent with a written explanation of the reason for the punishment and the name of the other adult who was present.

2. A district school board having a policy authorizing the use of corporal punishment as a form of discipline shall review its policy on corporal punishment once every 3 years during a district school board meeting held pursuant to s. 1001.372. The district school board shall take public testimony at the board meeting. If such board meeting is not held in accordance with this subparagraph, the portion of the district school board's policy authorizing corporal punishment expires.

The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(2) Give written notice.

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt mail, to the parent when no valid reason is found for a student's nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, who may refer the case to the child study team in paragraph (1)(b) at the school the student would be assigned according to district school board attendance area policies or to the case staffing committee, established pursuant to s. 984.12. The child study team shall diligently facilitate intervention services and shall report the case back to the district school superintendent only when all reasonable efforts to resolve the nonenrollment behavior are exhausted. If the parent still refuses to cooperate or enroll the child in
school, the district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

(b) Subsequent to the activities required under subsection (1), the district school superintendent or his or her designee shall give written notice in person or by return-receipt mail to the parent that criminal prosecution is being sought for nonattendance. The district school superintendent may file a truancy petition, as defined in s. 984.03, following the procedures outlined in s. 984.151.

1003.573. Use of restraint and seclusion on students with disabilities.

(1) Documentation and reporting.

(b) The following must be included in the incident report:

f. Evidence of steps taken to notify the student's parent or guardian.

(c) A school shall notify the parent or guardian of a student each time manual or physical restraint or seclusion is used. Such notification must be in writing and provided before the end of the school day on which the restraint or seclusion occurs. Reasonable efforts must also be taken to notify the parent or guardian by telephone or computer e-mail, or both, and these efforts must be documented. The school shall obtain, and keep in its records, the parent's or guardian's signed acknowledgment that he or she was notified of his or her child's restraint or seclusion.

(d) A school shall also provide the parent or guardian with the completed incident report in writing by mail within 3 school days after a student was manually or physically restrained or secluded. The school shall obtain, and keep in its records, the parent's or guardian's signed acknowledgment that he or she received a copy of the incident report.

1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(1) Control of students.

(a) Adopt rules for the control, discipline, in-school suspension, suspension, and expulsion of students and decide all cases recommended for expulsion. Suspension hearings are exempted from the provisions of chapter 120. Expulsion hearings shall be governed by ss. 120.569 and 120.57(2) and are exempt from s. 286.011. However, the student's parent must be given notice of the provisions of s. 286.011 and may elect to have the hearing held in compliance with that section. The district school board may prohibit the use of corporal punishment, if the district school board adopts or has adopted a written program of alternative control or discipline. [...] 

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.

7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student's parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

1006.08. District school superintendent duties relating to student discipline and school safety.

(1) The district school superintendent shall recommend plans to the district school board for the proper accounting for all students of school age, for the attendance and control of students at school, and for the proper attention to health, safety, and other matters which will best promote the welfare of students. Each district school superintendent shall fully support the authority of his or her principals, teachers, and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, to place such students in an alternative educational setting. When the district school superintendent makes a recommendation for expulsion to the district school board, he or she shall give written notice to the student and the student's parent of the recommendation, setting forth the charges against the student and advising the student and his or her parent of the student's right to the due process as prescribed by ss. 120.569 and 120.57(2). When district school board action on a recommendation for the expulsion of a student is pending, the district school superintendent may extend the suspension assigned by the principal beyond 10 school days if such suspension period expires before the next regular or special meeting of the district school board.

1006.09. Duties of school principal relating to student discipline and school safety.

(1)(b) The principal or the principal's designee may suspend a student only in accordance with the rules of the district school board. The principal or the principal's designee shall make a good faith effort to immediately inform a student's parent by telephone of a student's suspension and the reasons for the suspension. Each suspension and the reasons for the suspension shall be reported in writing within 24 hours to the student's parent by United States mail. Each suspension and the reasons for the suspension shall also be reported in writing within 24 hours to the district school superintendent. A good faith effort shall be made by the principal or the principal's designee to employ parental assistance or other alternative measures prior to suspension, except in the case of emergency or disruptive conditions which require immediate suspension or in the case of a serious breach of conduct as defined by rules of the district school board. Such rules shall require oral and written notice to the student of the charges and an explanation of the evidence against him or her prior to the suspension. Each student shall be given an opportunity to present his or her side of the story. No student shall be suspended for unexcused tardiness, lateness, absence, or truancy. The principal or the principal's designee may suspend any student transported to or from school at public expense from the privilege of riding on a school bus for violation of district school board transportation policies, which shall include a policy regarding behavior at school bus stops, and the principal or the principal's designee shall give notice in writing to the student's parent and to the district school superintendent within 24 hours. School personnel shall not be held legally responsible for suspensions of students made in good faith. [...]

(2) Suspension proceedings, pursuant to rules of the State Board of Education, may be initiated against any enrolled student who is formally charged with a felony, or with a delinquent act which would be a felony if committed by an adult, by a proper prosecuting attorney for an incident which allegedly occurred on property other than public school property, if that incident is shown, in an administrative hearing with notice provided to the parents of the student by the principal of the school pursuant to rules adopted by the State Board of Education and to rules developed pursuant to s. 1001.54, to have an adverse impact on the educational program, discipline, or welfare in the school in which the student is enrolled. Any student who is suspended as the result of such proceedings may be suspended from all classes of instruction on public school grounds during regular classroom hours for a period of time, which may exceed 10 days, as determined by the district school superintendent. The suspension shall not affect the delivery of educational services to the student, and the student shall be immediately enrolled in a daytime alternative education program, or an evening alternative education program, where appropriate. If the court determines that the student did commit the felony or delinquent act which would have been a felony if committed by an adult, the district school board may expel the student, provided that expulsion under this subsection shall not affect the delivery of educational services to the student in any residential, nonresidential, alternative, daytime, or evening program outside of the regular school setting. Any student who is subject to discipline or expulsion for unlawful possession or use of any substance controlled under chapter 893 may be entitled to a waiver of the discipline or expulsion:

(a) If the student divulges information leading to the arrest and conviction of the person who supplied the controlled substance to him or her, or if the student voluntarily discloses his or her unlawful possession of the controlled substance prior to his or her arrest. Any information divulged which leads to arrest and conviction is not admissible in evidence in a subsequent criminal trial against the student divulging the information.

(b) If the student commits himself or herself, or is referred by the court in lieu of sentence, to a state-licensed drug abuse program and successfully completes the program. […]

(8) The school principal shall require all school personnel to report to the principal or principal's designee any suspected unlawful use, possession, or sale by a student of any controlled substance, as defined in s. 893.02; any counterfeit controlled substance, as defined in s. 831.31; any alcoholic beverage, as defined in s. 561.01(4); or model glue. School personnel are exempt from civil liability when reporting in good faith to the proper school authority such suspected unlawful use, possession, or sale by a student. Only a principal or principal's designee is authorized to contact a parent or legal guardian of a student regarding this situation. Reports made and verified under this subsection shall be forwarded to an appropriate agency. The principal or principal's designee shall timely notify the student's parent that a verified report made under this subsection with respect to the student has been made and forwarded.

1006.147. Bullying and harassment prohibited.

(4) Each school district shall adopt and review at least every 3 years a policy prohibiting bullying and harassment of a student or employee of a public K-12 educational institution. Each school district's policy shall be in substantial conformity with the Department of Education's model policy. The school district bullying and harassment policy shall afford all students the same protection regardless of their status under the law. The school district may establish separate discrimination policies that include categories of students. The school district shall involve students, parents, teachers, administrators, school staff, school volunteers, community representatives, and local law enforcement agencies in the process of adopting and reviewing the policy. The school district policy must be implemented by each school principal in a manner that is ongoing throughout the school year and integrated with the school's curriculum, bullying prevention and intervention program, discipline policies, and other violence prevention efforts. The school district policy must contain, at a minimum, the following components:

(4)(a) Law enforcement dispatch centers, school districts, schools, and other entities identified by the department must be made aware of the mobile suspicious activity reporting tool.
   (b) The district school board shall promote the use of the mobile suspicious activity reporting tool by advertising it on the school district website, in newsletters, on school campuses, and in school publications, by installing it on all mobile devices issued to students, and by bookmarking the website on all computer devices issued to students.

(5) The department, in collaboration with the Division of Victim Services within the Office of the Attorney General and the Office of Safe Schools within the Department of Education, shall develop and provide a comprehensive training and awareness program on the use of the mobile suspicious activity reporting tool.

(6) The identity of the reporting party received through the mobile suspicious activity reporting tool and held by the department, law enforcement agencies, or school officials is confidential and exempt from s. 119.07 (1) and s. 24 (a), Art. I of the State Constitution. Any other information received through the mobile suspicious activity reporting tool and held by the department, law enforcement agencies, or school officials is exempt from s. 119.07 (1) and s. 24 (a), Art. This subsection is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2023, unless reviewed and saved from repeal through reenactment by the Legislature.

985.101. Taking a child into custody.
(1) A child may be taken into custody under the following circumstances:
   (a) Pursuant to an order of the circuit court issued under this chapter, based upon sworn testimony, either before or after a petition is filed.
(b) For a delinquent act or violation of law, pursuant to Florida law pertaining to a lawful arrest. If such delinquent act or violation of law would be a felony if committed by an adult or involves a crime of violence, the arresting authority shall immediately notify the district school superintendent, or the superintendent's designee, of the school district with educational jurisdiction of the child. Such notification shall include other education providers such as the Florida School for the Deaf and the Blind, university developmental research schools, and private elementary and secondary schools. The information obtained by the superintendent of schools pursuant to this section must be released within 48 hours after receipt to appropriate school personnel, including the principal of the child's school, or as otherwise provided by law. The principal must immediately notify the child's immediate classroom teachers. Information provided by an arresting authority under this paragraph may not be placed in the student's permanent record and shall be removed from all school records no later than 9 months after the date of the arrest.

(c) By a law enforcement officer for failing to appear at a court hearing after being properly noticed.

(d) By a law enforcement officer who has probable cause to believe that the child is in violation of the conditions of the child's probation, supervised release detention, postcommitment probation, or conditional release supervision; has absconded from nonresidential commitment; or has escaped from residential commitment.

Nothing in this subsection shall be construed to allow the detention of a child who does not meet the detention criteria in part V.

(2) Except in emergency situations, a child may not be placed into or transported in any police car or similar vehicle that at the same time contains an adult under arrest, unless the adult is alleged or believed to be involved in the same offense or transaction as the child.

(3) When a child is taken into custody as provided in this section, the person taking the child into custody shall attempt to notify the parent, guardian, or legal custodian of the child. The person taking the child into custody shall continue such attempt until the parent, guardian, or legal custodian of the child is notified or the child is delivered to the department under ss. 985.14 and 985.145, whichever occurs first. If the child is delivered to the department before the parent, guardian, or legal custodian is notified, the department shall continue the attempt to notify until the parent, guardian, or legal custodian of the child is notified. Following notification, the parent or guardian must provide identifying information, including name, address, date of birth, social security number, and driver license number or identification card number of the parent or guardian to the person taking the child into custody or the department.

(4) Taking a child into custody is not an arrest except for the purpose of determining whether the taking into custody or the obtaining of any evidence in conjunction therewith is lawful.

There is created in the Department of Education the Office of Safe Schools. The office is fully accountable to the Commissioner of Education. The office shall serve as a central repository for best practices, training standards, and compliance oversight in all matters regarding school safety and security, including prevention efforts, intervention efforts, and emergency preparedness planning. The office shall:

(12) By August 1, 2019, develop a standardized, statewide behavioral threat assessment instrument for use by all public schools, including charter schools, which addresses early identification, evaluation, early intervention, and student support.

(a) The standardized, statewide behavioral threat assessment instrument must include, but need not be limited to, components and forms that address:

4. The response to a serious substantive threat, including mental health and law enforcement referrals.
The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(4) Report to appropriate authority. - A designated school representative shall report to the appropriate authority designated by law to receive such notices, all violations of the Child Labor Law that may come to his or her knowledge.

1003.29. Notice to schools of court action.
If a court takes action that directly involves a student's school, including, but not limited to, an order that a student attend school, attend school with his or her parent, perform at grade level, or perform community service hours at the school, the office of the clerk of the court shall provide notice to the school of the court's action.

1003.32. Authority of teacher; responsibility for control of students; district school board and principal duties.
Subject to law and to the rules of the district school board, each teacher or other member of the staff of any school shall have such authority for the control and discipline of students as may be assigned to him or her by the principal or the principal's designated representative and shall keep good order in the classroom and in other places in which he or she is assigned to be in charge of students.

(5) If a teacher removes a student from class under subsection (4), the principal may place the student in another appropriate classroom, in in-school suspension, or in a dropout prevention and academic intervention program as provided by s. 1003.53; or the principal may recommend the student for out-of-school suspension or expulsion, as appropriate. The student may be prohibited from attending or participating in school-sponsored or school-related activities. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under subsection (6) determines that such placement is the best or only available alternative. The teacher and the placement review committee must render decisions within 5 days of the removal of the student from the classroom.

(6)(a) Each school shall establish a placement review committee to determine placement of a student when a teacher withholds consent to the return of a student to the teacher's class. A school principal must notify each teacher in that school about the availability, the procedures, and the criteria for the placement review committee as outlined in this section.
1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(2) Code of student conduct. - Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student's parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy. [...]
disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

1006.13. Policy of zero tolerance for crime and victimization.
(1) District school boards shall promote a safe and supportive learning environment in schools by protecting students and staff from conduct that poses a threat to school safety. A threat assessment team may use alternatives to expulsion or referral to law enforcement agencies to address disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. Zero-tolerance policies may not be rigorously applied to petty acts of misconduct. Zero-tolerance policies must apply equally to all students regardless of their economic status, race, or disability.

(2) Each district school board shall adopt a policy of zero tolerance that:
   (a) Defines criteria for reporting to a law enforcement agency any act that poses a threat to school safety that occurs whenever or wherever students are within the jurisdiction of the district school board. [...] 
   (f) Requires the threat assessment team to consult with law enforcement when a student exhibits a pattern of behavior, based upon previous acts or the severity of an act, that would pose a threat to school safety. [...] 

(8) A threat assessment team may use alternatives to expulsion or referral to law enforcement agencies unless the use of such alternatives will pose a threat to school safety.

Onsite school personnel shall report all such situations and actions taken to the threat assessment team, which shall contact the other agencies involved with the student and any known service providers to share information and coordinate any necessary followup actions. Upon the student's transfer to a different
school, the threat assessment team shall verify that any intervention services provided to the student
remain in place until the threat assessment team of the receiving school independently determines
the need for intervention services.

(f) Each threat assessment team established pursuant to this subsection shall report quantitative data
on its activities to the Office of Safe Schools in accordance with guidance from the office and shall
utilize the threat assessment database developed pursuant to s. 1001.212(13) upon the availability of
the database.

1006.12. Safe-school officers at each public school.
For the protection and safety of school personnel, property, students, and visitors, each district school
board and school district superintendent shall partner with law enforcement agencies or security agencies

I of the State Constitution. This subsection is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2023, unless reviewed and saved from repeal through reenactment by the Legislature.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources.
related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. 20-2-730. Policies and regulations on use of corporal punishment.
All area, county, and independent boards of education shall be authorized to determine and adopt policies and regulations relating to the use of corporal punishment by school principals and teachers employed by such boards.

20-2-735. Adoption of policies by local boards to improve student learning environment.
(a) No later than July 1, 2000, each local board of education shall adopt policies designed to improve the student learning environment by improving student behavior and discipline. These policies shall provide for the development of age-appropriate student codes of conduct containing standards of behavior, a student support process, a progressive discipline process, and a parental involvement process. The State Board of Education shall establish minimum standards for such local board policies. The Department of Education shall make available for utilization by each local board of education model student codes of conduct, a model student support process, a model progressive discipline process, and a model parental involvement process.

(b) Student standards of behavior developed pursuant to this subpart shall be designed to create the expectation that students will behave themselves in such a way so as to facilitate a learning environment for themselves and other students, respect each other and school district employees, obey student behavior policies adopted by the local board of education, and obey student behavior rules established by individual schools.

(c) Student support processes developed pursuant to this subpart shall be designed to create the expectation that the process of disciplining students will include due consideration, as appropriate in light of the severity of the behavioral problem, of student support services that may help the student address behavioral problems and that may be available through the school, the school system, other public entities, or community organizations.

(d) Progressive discipline processes developed pursuant to this subpart shall be designed to create the expectation that the degree of discipline will be in proportion to the severity of the behavior leading to the discipline, that the previous discipline history of the student being disciplined and other relevant factors will be taken into account, and that all due process procedures required by federal and state law will be followed.

(e) Parental involvement processes developed pursuant to this subpart shall be designed to create the expectation that parents and guardians, teachers, and school administrators will work together to improve and enhance student behavior and academic performance and will communicate freely their concerns about and actions in response to student behavior that detracts from the learning environment. The student code of conduct developed pursuant to this Code section shall encourage parents and guardians to inform their children of the consequences, including potential criminal penalties, of underage sexual conduct and crimes for which a minor can be tried as an adult.

(f) It is the policy of this state that it is preferable to reassign disruptive students to alternative educational settings rather than to suspend or expel such students from school.
20-2-736. Student codes of conduct; distribution; disciplinary action for violations; parental involvement.

(a) At the beginning of each school year, local boards of education shall provide for the distribution of student codes of conduct developed pursuant to Code Section 20-2-735 to each student upon enrollment. Local boards of education shall provide for the distribution of such student codes of conduct to the parents or guardians of each student through such means as may best accomplish such distribution at the local level and are appropriate in light of the grade level of the student, including distribution of student codes of conduct to students and parents or guardians jointly. Local boards of education shall solicit or require the signatures or confirmation of receipt of students and parents or guardians in acknowledgment of the receipt of such student codes of conduct. A signature or confirmation of receipt may be obtained in writing, via electronic mail or facsimile, or by any other electronic or other means as designated by the local board. A parent or legal guardian that does not acknowledge receipt of the student code of conduct shall not be absolved of any responsibility with respect to the information contained in the student code of conduct. In addition, student codes of conduct shall be available in each school and classroom.

(b) Local boards of education shall provide for disciplinary action against students who violate student codes of conduct.

(c) Local boards of education shall provide opportunities for parental involvement in developing and updating student codes of conduct.

Teacher Authority to Remove Students From Classrooms

LAWS

20-2-738. Authority of teacher over classroom; procedures following removal of student from classroom; placement review committees.

(a) A teacher shall have the authority, consistent with local board policy, to manage his or her classroom, discipline students, and refer a student to the principal or the principal's designee to maintain discipline in the classroom. The principal or the principal's designee shall respond when a student is referred by a teacher by employing appropriate discipline management techniques that are consistent with local board policy.

(b) A teacher shall have the authority to remove from his or her class a student who repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn, where the student's behavior is in violation of the student code of conduct, provided that the teacher has previously filed a report pursuant to Code Section 20-2-737 or determines that such behavior of the student poses an immediate threat to the safety of the student's classmates or the teacher. Each school principal shall fully support the authority of every teacher in his or her school to remove a student from the classroom under this Code section. Each school principal shall implement the policies and procedures of the superintendent and local board of education relating to the authority of every teacher to remove a student from the classroom and shall disseminate such policies and procedures to faculty, staff, and parents or guardians of students. The teacher shall file with the principal or the principal's designee a report describing the student's behavior, in one page or less, by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall, within one school day after the student's removal from class, send to the student's parents or guardians written notification that the student was removed from class, a copy of the report filed by the teacher, and information regarding how the student's parents or guardians may contact the principal or the principal's designee.

(c) If a teacher removes a student from class pursuant to subsection (b) of this Code section, the principal or the principal's designee shall discuss the matter with the teacher and the student by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall give the student oral or written notice of the grounds for his or her removal from class and, if the student denies engaging in such conduct, the principal or the principal's designee shall explain the evidence which supports his or her removal from class and give the student an opportunity to present his or her explanation of the situation. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher gives his or her consent, the student shall be returned to the class, and the principal or the principal's designee may take action to discipline the student, as may be warranted, pursuant to paragraph (1) of subsection (e) of this Code section. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher withholds his or her consent to the student's return to his or her class, the principal or the principal's designee shall determine an appropriate temporary placement for the student by the end of the first school day following such removal and shall also take steps to convene a meeting of a placement review committee. The placement review committee shall convene by the end of the second school day following such removal by the teacher and shall issue a decision by the end of the third school day following such removal by the teacher. An appropriate temporary placement for the student shall be a placement that, in the judgment of the principal or the principal's designee, provides the least interruption to the student's education and reflects other relevant factors, including, but not limited to, the severity of the behavior that was the basis for the removal, the student's behavioral history, the student's need for support services, and the available education settings; provided, however, that the
student shall not be returned to the class of the teacher who removed him or her, as an appropriate temporary placement, unless the teacher gives his or her consent. The temporary placement shall be in effect from the time of removal until the decision of the placement review committee is issued or, if applicable, a placement determination is made pursuant to paragraph (2) of subsection (e) of this Code section.

(d) Local board policies adopted pursuant to Code Section 20-2-735 shall provide for the establishment at each school of one or more placement review committees, each of which is to be composed of three members, to determine the placement of a student when a teacher withholds his or her consent to the return of a student to the teacher's class. For each committee established, the faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member, and the principal shall choose one member of the professional staff of the school to serve as a member. The teacher withholding consent to readmit the student may not serve on the committee. The placement review committee shall have the authority to:

(1) Return the student to the teacher's class upon determining that such placement is the best alternative or the only available alternative; or
(2) Refer the student to the principal or the principal's designee for appropriate action consistent with paragraph (2) of subsection (e) of this Code section.

The decision of the placement review committee shall be in writing and shall be made within three school days after the teacher withholds consent to the return of a student. Local boards of education shall provide training for members of placement review committees regarding the provisions of this subpart, including procedural requirements; local board policies relating to student discipline; and the student code of conduct that is applicable to the school.

(e)(1) If a placement review committee decides to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee may, consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, take any of the following actions which are authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student in an alternative education program;
(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section; or
(C) Make another disciplinary decision or recommendation consistent with local board policy.

(2) If a placement review committee decides not to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee shall determine an appropriate placement for the student and may take action to discipline the student, in a manner consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, as follows, provided that the placement or disciplinary action is authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student into another appropriate classroom or an alternative education program;
(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section;
(C) Make another placement or disciplinary decision or recommendation consistent with local board policy; or

(D) Implement or recommend any appropriate combination of the above and return the student to the class from which he or she was removed upon the completion of any disciplinary or placement action taken pursuant to this paragraph.

(f) Within one school day of taking action pursuant to subsection (e) of this Code section, the principal or the principal's designee shall send written notification of such action to the teacher and the parents or guardians of the student and shall make a reasonable attempt to confirm that such written notification has been received by the student's parents or guardians.

(g) Parents or guardians of a student who has been removed from class pursuant to subsection (b) of this Code section may be required to participate in conferences that may be requested by the principal or the principal's designee; provided, however, that a student may not be penalized for the failure of his or her parent or guardian to attend such a conference.

(h) The procedures contained in this Code section relating to student conferences and notification of parents or guardians are minimum requirements. Nothing in this Code section shall be construed to limit the authority of a local board of education to establish additional requirements relating to student conferences, notification of parents or guardians, conferences with parents or guardians, or other procedures required by the Constitutions of the United States or this state.

If such student is receiving or has received a multi-tiered system of supports, the school shall be deemed to have met the requirements of this Code section. The school or program shall comply with all federal laws and requirements regarding obtaining parental consent during any advanced tier within the system of supports prior to certain screenings or evaluations.

(c) In addition to the requirements in subsection (b) of this Code section, prior to assigning any student in preschool through third grade to out-of-school suspension for more than five consecutive or cumulative days during a school year, if such student has an Individualized Education Program (IEP) pursuant to the federal Individuals with Disabilities Education Act or a plan under Section 504 of the federal Rehabilitation Act of 1973, the school or program shall also convene an IEP or Section 504 meeting to review appropriate supports being provided as part of such Individualized Education Program or Section 504 plan.

Return to School Following Removal

LAWS

20-2-738. Authority of teacher over classroom; procedures following removal of student from classroom; placement review committees.

(c) If a teacher removes a student from class pursuant to subsection (b) of this Code section, the principal or the principal's designee shall discuss the matter with the teacher and the student by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall give the student oral or written notice of the grounds for his or her removal from class and, if the student denies engaging in such conduct, the principal or the principal's designee shall explain the evidence which supports his or her removal from class and give the student an opportunity to present his or her explanation of the situation. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher gives his or her consent, the student shall be returned to the class, and the principal or the principal's designee may take action to discipline the student, as may be warranted, pursuant to paragraph (1) of subsection (e) of this Code section. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher withholds his or her consent to the student's return to his or her class, the principal or the principal's designee shall determine an appropriate temporary placement for the student by the end of the first school day following such removal and shall also take steps to convene a meeting of a placement review committee. The placement review committee shall convene by the end of the second school day following such removal by the teacher and shall issue a decision by the end of the third school day following such removal by the teacher. An appropriate temporary placement for the student shall be a placement that, in the judgment of the principal or the principal's designee, provides the least interruption to the student's education and reflects other relevant factors, including, but not limited to, the severity of the behavior that was the basis for the removal, the student's behavioral history, the student's need for support services, and the available education settings; provided, however, that the student shall not be returned to the class of the teacher who removed him or her, as an appropriate temporary placement, unless the teacher gives his or her consent. The temporary placement shall be in effect from the time of removal until the decision of the placement review committee is issued or, if applicable, a placement determination is made pursuant to paragraph (2) of subsection (e) of this Code section.

(d) Local board policies adopted pursuant to Code Section 20-2-735 shall provide for the establishment at each school of one or more placement review committees, each of which is to be composed of three members, to determine the placement of a student when a teacher withholds his or her consent to the return of a student to the teacher's class. For each committee established, the faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member, and the principal shall choose one member of the professional staff of the school to serve as a member. The teacher withholding consent to readmit the student may not serve on the committee. The placement review committee shall have the authority to:
(1) Return the student to the teacher's class upon determining that such placement is the best alternative or the only available alternative; or

(2) Refer the student to the principal or the principal's designee for appropriate action consistent with paragraph (2) of subsection (e) of this Code section.

The decision of the placement review committee shall be in writing and shall be made within three school days after the teacher withholds consent to the return of a student. Local boards of education shall provide training for members of placement review committees regarding the provisions of this subpart, including procedural requirements; local board policies relating to student discipline; and the student code of conduct that is applicable to the school.

(e)(1) If a placement review committee decides to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee may, consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, take any of the following actions which are authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student in an alternative education program;

(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section; or

(C) Make another disciplinary decision or recommendation consistent with local board policy.

(2) If a placement review committee decides not to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee shall determine an appropriate placement for the student and may take action to discipline the student, in a manner consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, as follows, provided that the placement or disciplinary action is authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student into another appropriate classroom or an alternative education program;

(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section;

(C) Make another placement or disciplinary decision or recommendation consistent with local board policy; or

(D) Implement or recommend any appropriate combination of the above and return the student to the class from which he or she was removed upon the completion of any disciplinary or placement action taken pursuant to this paragraph.

20-2-766. Students returning from expulsion or suspension; notice to parents; conference with principal or teacher to devise disciplinary and behavioral correction plan.

Before any chronic disciplinary problem student is permitted to return from an expulsion or suspension, the school to which the student is to be readmitted shall request by telephone call and by either certified mail or statutory overnight delivery with return receipt requested or first-class mail at least one parent or guardian to schedule and attend a conference with the principal or his or her designee to devise a disciplinary and behavioral correction plan. Failure of the parent or guardian to attend shall not preclude
the student from being readmitted to the school. At the discretion of the principal, a teacher, counselor, or other person may attend the conference. The principal shall ensure that a notation of the conference is placed in the student's permanent file.

Course credit shall be earned in an alternative education program in the same manner as in other education programs. It is the policy of this state that it is preferable to reassign disruptive students to an alternative education program rather than suspending or expelling such students from school.

   (5) Provides for students' educational and behavioral needs; and
   (6) Provides supervision and counseling.
(e) An alternative education program may provide for a student's transfer to a different campus, a school-community guidance center, or a community based alternative school.

(2) “Expulsion” means expulsion of a student from a public school beyond the current school quarter or semester.

**LAWS**

20-2-690.1. Mandatory education for children between ages six and 16.

(a) Mandatory attendance in a public school, private school, or home school program shall be required for children between their sixth and sixteenth birthdays. Such mandatory attendance shall not be required where the child has successfully completed all requirements for a high school diploma.

(b) Every parent, guardian, or other person residing within this state having control or charge of any child or children during the ages of mandatory attendance as required in subsection (a) of this Code section shall enroll and send such child or children to a public school, a private school, or a home study program that meets the requirements for a public school, a private school, or a home study program; and such child shall be responsible for enrolling in and attending a public school, a private school, or a home study program that meets the requirements for a public school, a private school, or a home study program under such penalty for noncompliance with this subsection as is provided in Chapter 11 of Title 15, unless the child's failure to enroll and attend is caused by the child's parent, guardian, or other person, in which case the parent, guardian, or other person alone shall be responsible; provided, however, that tests and physical exams for military service and the National Guard and such other approved absences shall be excused absences. The requirements of this subsection shall apply to a child during the ages of mandatory attendance as required in subsection (a) of this Code section who has been assigned by a local board of education or its delegate to attend an alternative public school program established by that local board of education, including an alternative public school program provided for in Code Section 20-2-154.1, regardless of whether such child has been suspended or expelled from another public school program by that local board of education or its delegate, and to the parent, guardian, or other person residing in this state who has control or charge of such child. Nothing in this Code section shall be construed to require a local board of education or its delegate to assign a child to attend an alternative public school program rather than suspending or expelling the child.

(c) Any parent, guardian, or other person residing in this state who has control or charge of a child or children and who violates this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be subject to a fine of not less than $25.00 and not greater than $100.00, imprisonment not to exceed 30 days, community service, or any combination of such penalties, at the discretion of the court having jurisdiction. Each day's absence from school in violation of this part after the child's school system notifies the parent, guardian, or other person who has control or charge of a child of five unexcused days
of absence for a child shall constitute a separate offense. After two reasonable attempts to notify the parent, guardian, or other person who has control or charge of a child of five unexcused days of absence without response, the school system shall send a notice to such parent, guardian, or other person by certified mail, return receipt requested, or first-class mail. Prior to any action to commence judicial proceedings to impose a penalty for violating this subsection on a parent, guardian, or other person residing in this state who has control or charge of a child or children, a school system shall send a notice to such parent, guardian, or other person by certified mail, return receipt requested. Public schools shall provide to the parent, guardian, or other person having control or charge of each child enrolled in public school a written summary of possible consequences and penalties for failing to comply with compulsory attendance under this Code section for children and their parents, guardians, or other persons having control or charge of children. The parent, guardian, or other person who has control or charge of a child or children shall sign a statement indicating receipt of such written statement of possible consequences and penalties; children who are age ten years or older by September 1 shall sign a statement indicating receipt of such written statement of possible consequences and penalties. After two reasonable attempts by the school to secure such signature or signatures, the school shall be considered to be in compliance with this subsection if it sends a copy of the statement, via certified mail, return receipt requested, or first-class mail, to such parent, guardian, or other person who has control or charge of a child or children. Public schools shall retain signed copies of statements through the end of the school year.

(d) Local school superintendents in the case of private schools, the Department of Education in the case of home study programs, and visiting teachers and attendance officers in the case of public schools shall have authority and it shall be their duty to file proceedings in court to enforce this subpart. Prior to accepting such permission, the school principal or designee shall convene a conference with the child and parent or legal guardian within two school days of receiving notice of the intent of the child to withdraw from school. The principal or designee shall make a reasonable attempt to share with the student and parent or guardian the educational options available, including the opportunity to pursue a general educational development (GED) diploma and the consequences of not having earned a high school diploma, including lower lifetime earnings, fewer jobs for which the student will be qualified, and the inability to avail oneself of higher educational opportunities. Every local board of education shall adopt a policy on the process of voluntary withdrawal of unemancipated minors who are older than the mandatory attendance age. The policy shall be filed with the Department of Education no later than January 1, 2007. The Department of Education shall provide annually to all local school superintendents model forms for the parent or guardian signature requirement contained in this subsection and updated information from reliable sources relating to the consequences of withdrawing from school without completing all requirements for a high school diploma. Such form shall include information relating to the opportunity to pursue a general educational development (GED) diploma and the consequences of not having earned a high school diploma, including lower lifetime earnings, fewer jobs for which the student will be qualified, and the inability to avail oneself of higher educational opportunities. Each local school superintendent shall provide such forms and information to all of its principals of schools serving grades six through twelve for the principals to use during the required conference with the child and parent or legal guardian.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes

**LAWS**

(a) Any child who possesses, sells, or uses a dangerous weapon or switchblade knife, while attending school or while attending department-supervised activities held on or off school property, may be excluded from attending school for up to ninety-two school days, as determined by the principal and approved by the superintendent or other individuals designated pursuant to rules adopted by the board.

(b) Except as provided in subsection (f), any child who possesses, sells, consumes, or uses intoxicating liquor or illegal drugs, while attending school or while attending department-supervised activities held on or off school property, may be excluded from attending school for up to ninety-two school days, as determined by the principal and approved by the superintendent or other individuals designated pursuant to rules adopted by the board.

(c) Except as provided in subsection (f), any child who reasonably appears to have consumed or used intoxicating liquor or illegal drugs prior to attending school or attending department-supervised activities held on or off school property, may be excluded from attending school for up to ninety-two school days, as determined by the principal and approved by the superintendent or other individuals designated pursuant to rules adopted by the board.

(d) In any case of exclusion from school, the due process procedures as set forth in the provisions of Hawaii administrative rules relating to student discipline shall apply.

(e) If a child is excluded from attending school for more than ten days, the superintendent or the superintendent's designee shall ensure that substitute educational activities or other appropriate assistance are provided, such as referral for appropriate intervention and treatment services, as determined by the principal in consultation with the appropriate school staff.

(f) A child determined to be in violation of subsection (b) or (c) shall be subject to the department's disciplinary rules; provided that:

1. The school shall administer a screening tool approved by the department to determine whether there is a need for the child to be referred for a substance abuse assessment;

2. The child shall be allowed to return to school earlier than the department's original disciplinary determination; provided that the child gives the school evidence of the following:

   A. A substance abuse assessment has been completed; and

   B. The child is progressing toward clinical discharge from any substance abuse treatment or substance abuse counseling recommended by the substance abuse assessment;

3. If the substance abuse assessment finds that the child does not need substance abuse treatment or substance abuse counseling, the school may allow the child to return to school earlier than originally indicated; provided that:

   A. The child provides a certified copy of the assessment; and

   B. The child's parent or legal guardian consents to the child and the child's family receiving follow-up counseling or other student support services to be provided by the department.
In determining whether to allow the child to return to school early, the school administrator shall review and determine the nature and severity of the offense, the impact of the offense on others, the age of the offender, and whether the offender is a repeat offender; and

(4) For the child's first violation of subsection (b) or (c), if the child provides evidence of clinical discharge from the substance abuse treatment program or substance abuse counseling, all records of disciplinary action relating to the original offense shall be expunged. For the purposes of this paragraph, "expunged" means the records of substance abuse assessment shall be segregated and kept confidential but shall be destroyed upon graduation of the child.

(g) For purposes of this section:

"Switchblade knife" is as defined in section 134-52.

(h) The board of education shall adopt rules in accordance with chapter 91 to implement this section.

REGULATIONS

8-19-1. Philosophy.

(a) Hawaii has established and supports a statewide system of public education. The compulsory nature of school attendance ensures that a student shall have the opportunity for an education. In addition to the education provided during the regular school year, the department offers students the opportunity to receive additional instruction and educational services through a self-supporting summer school program on a voluntary attendance basis. The department is committed to:

(1) Provide the student with optimal learning conditions;
(2) Select appropriate teachers for the student’s instruction; and
(3) Other programs that will help the student to succeed.

In 1996, the Hawaii state department of education initiated a collaborative and systemic reform known as the Comprehensive Student Support System (CSSS), which provides a continuum of academic, social, emotional, and physical environmental supports and services to all students to facilitate their learning and their meeting of high educational standards. It is a CSSS community of caring and supportive relationships among students, teachers, families, and agencies working together that promote timely and appropriate services for all students. The goal of the school system is to provide a learning experience that allows all students to achieve the Vision of the Public School Graduate, 2005-2008 DEPARTMENT OF EDUCATION Strategic Plan, State of Hawaii Department of Education, Office of Superintendent, June 2005, in safe, caring, nurturing, and orderly teaching and learning environments.

(b) It is the responsibility of every student to demonstrate respectful, responsible, safe, and ethical behaviors on department of education transportation, or during a department of education sponsored activity on or off school property. The department supports this through the establishment of a proactive systems approach to schoolwide discipline.

(c) However, when a student's behavior violates established policies, rules, or regulations of the department, state or local laws, the department may take appropriate disciplinary action in accordance with this chapter. The purpose of school-administered discipline is to:

(1) Promote and maintain a safe and secure educational environment;
(2) Teach and acknowledge proper behavior which is beneficial to the educational process and self-development;

(3) Deter students from acts which interfere with the purpose of education or which are self-destructive, self-defeating or anti-social; and

(4) Maintain proper student conduct to ensure that educational activities and responsibilities remain uninterrupted.

(d) An educational worker conducting or participating in a school program, activity, or function sponsored or approved by the department, or hired to engage in carrying out an educational function, has a reasonable expectation to be free of undue disruption and threat of disorder or acts of violence, or both, committed against them by students.

(e) In addition to the disciplinary action taken under this chapter, restitution for vandalism or for negligence shall be made in accordance with the provisions of this chapter. The purpose of restitution is to discourage acts of vandalism and negligence and to ensure recovery of the cost of public property damaged by acts of vandalism and negligence.

(f) On occasions it is necessary for police officers to interview students or to take them into custody. This chapter is also intended to safeguard the rights and interests of students in attendance, to cooperate with police officers in the performance of their duties, to preserve the school milieu, and to delineate responsibilities of school personnel.

Search and Seizure

LAWS
No relevant laws found.

REGULATIONS

As used in this chapter:

"Search" means if after requesting the student to voluntarily relinquish the contraband item(s) and the student refuses and there are reasonable grounds to believe that the student has violated the law or provisions prohibited under this chapter, or if there is a health or safety issue with illicit drugs, dangerous weapons, dangerous instruments or firearms, or a combination of the foregoing, the school official may examine the contents and belongings which may include but are not limited to purses, fanny packs, backpacks, jackets, shoes, socks, or any other outer clothing.

"Seizure" means to take possession of the contraband item(s) that is or are uncovered during a search. [...] "Strip search" means searches, which require the removal of clothing that results in the exposure of the genitals, the female breasts, or underwear or combination thereof.

School lockers provided to the students on campus are subject to opening and inspection (and external dog sniffs) by school officials at any time with or without cause, provided that the searches are not because of the student's race, color, national origin, ancestry, sex, gender identity and expression, religion, disability, or sexual orientation. Section 15 shall have no applicability to the opening and inspection (and external dog sniffs) of student lockers. None of the restrictions in sections 8-19-15 through 8-19-18 or related to general school searches and seizures shall in any way be construed to create an expectation of privacy in student lockers. Students should assume that their lockers are subject to opening and inspection (and external dog sniffs) any time with or without cause.

Except as provided in section 8-19-14 regarding student lockers, students have a reasonable expectation of privacy in their persons on campus, or other department of education premises, on department of education transportation, or during a department of education sponsored activity or event on or off school
property. Schools have an equally legitimate need to maintain order and an environment where learning can take place. In fulfilling this legitimate need, school officials may on occasions need to carry out searches and seizures on campus, or other department of education premises, on department of education transportation, or during a department of education sponsored activity or event on or off school property. As a general policy, except as provided in section 8-19-14 regarding student lockers, the searches and seizures are permissible if there are reasonable grounds to suspect, based on the attendant circumstances that the search will turn up evidence that the student or students have violated or are violating either the law or the student conduct prohibited under this chapter. Searches and seizures conducted by school officials shall abide by the provisions of this subchapter.

8-19-16. Authority.
Except as provided in section 8-19-14 regarding student lockers, property may be searched if there are reasonable grounds to suspect, based on the attendant circumstances that the search will turn up evidence that student or students, or others on campus, or other department of education premises, on department of education transportation, or during a department of education sponsored activity or event on or off school property have violated the law or the provisions of this chapter. A school official conducting a search shall be accompanied by another school official serving as a witness, unless it is an emergency where prompt action is necessary to protect the health or safety, or both of any person or persons.

8-19-17. Conditions under which general school searches and seizures may be carried out.
(a) Except as provided in section 8-19-14 regarding student lockers searches and seizures may be carried out by school officials when all of the following conditions are met:
   (1) If at the time of the search, there are reasonable grounds to suspect based on the attendant circumstances that the search will turn up evidence that the student or students have violated the law or provisions prohibited under this chapter.
   (2) The manner in which the search is to be conducted is reasonably related to the purpose of the search.
   (3) The student who will be subjected to a search shall be informed of the purpose of the search and shall be given an opportunity to voluntarily relinquish the evidence sought by the school official.
(b) The principal or designee of the school shall be informed by the school official who will conduct the search that a search is to be conducted and of the purpose of the search unless it is an emergency where immediate action is necessary to protect the health or safety, or both of a person or persons.
(c) If more than one student is suspected of committing a violation, then, if practical and not a risk to health or safety, the school official conducting the search shall start with the student most suspected of having the item sought in the search.

Except as provided in section 8-19-14 regarding student lockers:
   (1) Random searches are prohibited.
   (2) Strip searches are prohibited.
   (3) A school official shall not conduct a search requiring bodily contact of a student except when such a search is necessary to prevent harm to the health or safety, or both of a person or persons.
   (4) In the course of a search, the use of force against a student is prohibited unless the school official believes that the force to be used is necessary to prevent harm to the health or safety, or both of a person or persons or where the student physically resists the search.
(5) A search conducted under the provisions of this subchapter shall be limited to the object or objects for which the search was conducted. However, any other object observed during a search may be seized by a school official when possession of the object is a violation of law or the provisions of this chapter, or when non-seizure may pose a threat to the health or safety, or both of a person or persons, including the school official conducting the search.

   (1) A brief summary describing the training received by public school staff in using restraint in facilities or programs;
   (2) Information describing board policy;
   (3) Information on the procedures for determining when restraint can and cannot be properly used in public school settings;

3. Evidence-based skills related to positive behavioral supports and interventions, safe physical escort, conflict prevention, understanding antecedents, de-escalation, and conflict management;
4. A wide array of prevention and intervention modalities; and
5. Information describing state policies and procedures that meet the minimum standards established by state statutes and administrative rules.

(h) No less than annually, there shall be a review of data on students at each public school who were restrained, which shall be conducted as directed by each complex area superintendent. The review shall determine whether:

1. There are strategies in place to address the students with dangerous behaviors at issue;
2. The strategies in place are effective in increasing appropriate behaviors of students with dangerous behaviors; and
3. New strategies need to be developed or current strategies need to be revised or changed to prevent the reoccurrence of dangerous behaviors.

Patterns and trends in the data that are identified by the review shall be reported to the department.

(i) Each public school shall maintain records of its reviews of restraint data and any resulting decisions or actions regarding the use of restraint.

(j) The department shall review policies and procedures on the use of restraint, including by reviewing available data on such use, outcomes, settings, individual staff involvement, and programs, and the frequency of use for student populations categorized by: individual students; groups of students; gender; race; national origin; disability status and type of disability; and limited English proficiency, for the purposes of determining:

1. Whether policies for restraint are being applied consistently;
2. The accuracy and consistency with which restraint data is being collected, as well as the extent to which this data is being used to plan behavioral interventions and staff training;
3. Whether policies and procedures are being implemented with fidelity;
4. Whether policies and procedures continue to protect students; and
5. Whether policies and procedures remain properly aligned with applicable state statutes and administrative rules and consistent with privacy laws.

8-31-1. Purpose.
The public school system strives to provide its students with a safe and secure learning environment, as well as appropriate instruction and school experiences that mutually reinforce good personal health and safety practices. The present practice of condoning tobacco use by employees and other adults on public school campuses, at off-campus events, and at district and state offices seriously undermines and contradicts instruction to students regarding the health hazards of tobacco use. The purpose of this chapter is to implement the tobacco free school system policy. Accordingly, this chapter sets forth who shall be responsible for implementing the tobacco free school system policy, as well as how the policy shall be enforced. This chapter also provides for counseling and rehabilitation assistance to employees who wish to stop smoking.

8-31-2. Definitions.

(2) In all buildings and facilities, or portions thereof, which are assigned to the district and state offices of the department of education, and which are under the supervision of the district superintendent, assistant superintendents, the superintendent of education, or their designees.

(b) The above prohibitions shall apply to all persons, including the following:

(1) Students enrolled in community schools for adults, school employees, authorized school visitors and guests;

(2) Persons participating in or attending a non-school activity or event conducted on the school campus when school is not in session; and

REGULATIONS
8-19-1. Philosophy.

(a) Hawaii has established and supports a statewide system of public education. The compulsory nature of school attendance ensures that a student shall have the opportunity for an education. In addition to the education provided during the regular school year, the department offers students the opportunity to receive additional instruction and educational services through a self-supporting summer school program on a voluntary attendance basis. The department is committed to:

(1) Provide the student with optimal learning conditions;
(2) Select appropriate teachers for the student's instruction; and
(3) Other programs that will help the student to succeed.

In 1996, the Hawaii state department of education initiated a collaborative and systemic reform known as the Comprehensive Student Support System (CSSS), which provides a continuum of academic, social, emotional, and physical environmental supports and services to all students to facilitate their learning and their meeting of high educational standards. It is a CSSS community of caring and
supportive relationships among students, teachers, families, and agencies working together that promote timely and appropriate services for all students. The goal of the school system is to provide a learning experience that allows all students to achieve the Vision of the Public School Graduate, 2005-2008 DEPARTMENT OF EDUCATION Strategic Plan, State of Hawaii Department of Education, Office of Superintendent, June 2005, in safe, caring, nurturing, and orderly teaching and learning environments.

(b) It is the responsibility of every student to demonstrate respectful, responsible, safe, and ethical behaviors on department of education transportation, or during a department of education sponsored activity on or off school property. The department supports this through the establishment of a proactive systems approach to schoolwide discipline.

A formal substance abuse assessment serves to provide expert clinical opinion to determine if a substance abuse problem exists, and if so, offer treatment recommendations. If referred for a substance abuse assessment, students with medical health insurance shall be asked to contact their medical health carrier to schedule an appointment. Professionals who can provide substance abuse assessments include certified substance abuse counselors (CSAC), psychiatrists, advanced practice registered nurses (APRN), psychologists, and licensed clinical social workers. The principal or designee can approve suspensions of one to ten school days. The complex area superintendent shall approve suspensions
exceeding ten school days. In exercising this discretion and determining disciplinary actions, the principal or designee shall consider, the nature and severity of the offense, the impact of the offense on others, the age of the offender, and if the offender is a repeat offender. If the student is excluded from attending school, the principal or designee shall ensure that alternate educational activities or other appropriate student support assistance shall be provided, and that the student is referred for appropriate intervention or treatment services, or both, as determined by the principal or designee in consultation with the appropriate school staff or in accordance with the Hawaii administrative rules for students with disabilities, if applicable.

(b) Upon imposition of a crisis removal, schools shall make a good faith effort to inform the parent immediately by telephone.

(c) A follow-up written notice of the crisis removal shall be personally delivered or mailed to the parent. The notice of the crisis removal shall contain the following written statements:

(1) Allegations of the specific acts committed by the student that form the basis of the crisis removal;
(2) The allegations of the specific acts that were substantiated;
(3) A statement of the disciplinary action(s); and
(4) A statement of a conference date, time, and place offered by the school administration to meet with the parent.

A copy of the crisis removal notice shall be mailed to the complex area superintendent. In addition to the crisis removal notice required by this subsection, the principal or designee shall attempt to confirm the notice by telephoning the parent.

8-19-8. Suspension.
(a) Whenever a principal or designee has reason to believe that a student has engaged in activity warranting the imposition of suspension, the principal or designee shall immediately conduct an investigation of the incident. Upon completion of the investigation and findings, the student may be suspended if the principal or designee finds that the findings are sustained. The principal or designee shall inform the parent in writing of the findings and the disciplinary actions. [...] 

(d) The parent shall be given verbal notice of any suspension regardless of its length. Prior notice for suspension shall be by telephone, if feasible, and the written notice personally delivered or mailed to the parent upon completion of the investigation. The suspension notice shall contain the following written statements:

(1) Allegations of the specific acts committed by the student that form the basis of the suspension;
(2) The allegations of the specific acts that were substantiated;
(3) A statement of the disciplinary action(s); and
(4) A statement of a conference date, time, and place offered by the school administration to meet with the parent.

A copy of the notice shall be mailed to the complex area superintendent. In addition to the notice required by this subsection, the principal shall attempt to confirm the notice by telephoning the parent.

8-19-9. Due process for suspensions exceeding ten days, disciplinary transfers, and dismissal.
(b) Upon obtaining verbal authorization from the complex area superintendent, the principal or the designee will make a good faith effort to inform the parent of:

(1) The serious discipline incident,
(2) The opportunity to appeal, and
(3) That the disciplinary action will be implemented immediately.

(c) Within three school days of the verbal authorization from the complex area superintendent, the principal or designee shall mail a written notice of the serious discipline incident with the appeal form to the parent.

(a) Police officers may appear at a school to question a student. Upon arrival at the school, the police officer shall be directed to the principal or designee to request permission to interview a student. If permission to interview a student is to be granted, the principal or designee shall make an effort inform the parent of the police interview and the right to be present when the interview is conducted. The interview may be conducted if the principal or designee is unable to inform the parent or if the parent is informed and declines to be present, or if after a reasonable period of time after the notice is given the parent fails to appear at school for the police interview.

(b) The principal or designee shall be present during a police interview unless excluded by the police officer.

(c) If a student is arrested, the principal or designee shall follow the procedures prescribed in section 8-19-24.

8-19-23. Police interviews in school for non-school-related offenses.

(b) Prior to any interview, the principal or designee shall inform the parent of the right to be present while the police interview is conducted. The interview can take place upon obtaining verbal consent from the parent. The notification and consent requirements of this subsection shall not be followed if the nature of the interview involves child abuse or other offenses where a parent or household member is suspected of committing an offense against the student.

Police shall be directed to the principal or designee. Whenever possible the student shall be sent to the principal's office for the police officer to effect the pending arrest. Upon police arrival to arrest a student, the principal or designee shall make a good faith effort to inform the parent.

Data shall be reported as required by this section when the number of students in a particular data subgroup is greater than ten and shall be redacted when the number of students in a particular data subgroup is ten or fewer; provided that the personally identifiable information of each student shall be kept private. This accountability system shall:

These performance indicators shall include but not be limited to:

(A) Student performance relative to statewide content and performance standards;

(x) Other data that the board may approve. […]

(b) The department shall annually post on the department’s website:

(3) Data collected pursuant to subsection (a)(6)(C) on student discipline, as follows:

(A) The total number of students enrolled in the State by complex, school, and subgroup;
(B) The percentage of the school, complex, and State’s total enrollment that the subgroup represents;
(C) The number of students who appear in more than one subgroup;
(D) The disciplinary rate for each discipline measure described in subsection (a)(6)(C), based on the total student enrollment in each school and each complex;
(E) The disciplinary rate for each discipline measure described in subsection (a)(6)(C) with respect to each subgroup; and
(F) The rate of disciplinary disparity for each discipline measure described in subsection (a)(6)(C), with respect to each subgroup, as compared with the subgroup with the lowest disciplinary rate.

(c) The department shall also annually post on its website a state-, complex-, and school-level report for each school that details the past three years and includes an analysis of any disproportionality among student subgroups using the performance indicators in subsection (a)(6). Each report shall be uniformly formatted and designed by the department so as to provide school-based users and the public with all pertinent information. Report data shall be downloadable in raw form. Report information shall include:

(6) Student discipline, seclusion, and restraint information by school, as required by this section. […]

(f) The department shall:

(1) Annually submit a report to the board and to the legislature, as follows:

absenteeism, all early childhood education items, advanced placement test-taking items, references to gender identity in the definition of "harassment on the basis of sex", number of English language learner students enrolled in English language programs by disability status, participation in credit recovery programs, and any civil rights concerns or complaints from children with disabilities placed by school districts in nonpublic schools; and

(iii) Information regarding staffing and contact information for school- and complex-level equity specialists; and

(B) The report may include additional information, as determined by the department, that would assist in better understanding the disciplinary rate or rate of disciplinary disparity of a particular school or complex;

(2) Track the progress made by schools and complexes over the past three years in reducing the disciplinary rates and rate of disciplinary disparity that are referenced in subsection (b)(3)(D) through (F);

(3) Assess the changes in student academic achievement and absenteeism rates over the past three years that correspond to any reduction in disciplinary rates and rates of disciplinary disparity that are referenced in subsection (b)(3)(D) through (F);

(h) No less than annually, there shall be a review of data on students at each public school who were restrained, which shall be conducted as directed by each complex area superintendent. The review shall determine whether:

(1) There are strategies in place to address the students with dangerous behaviors at issue;

(2) The strategies in place are effective in increasing appropriate behaviors of students with dangerous behaviors; and

(3) New strategies need to be developed or current strategies need to be revised or changed to prevent the reoccurrence of dangerous behaviors.

Patterns and trends in the data that are identified by the review shall be reported to the department.
(i) Each public school shall maintain records of its reviews of restraint data and any resulting decisions or actions regarding the use of restraint.

(j) The department shall review policies and procedures on the use of restraint, including by reviewing available data on such use, outcomes, settings, individual staff involvement, and programs, and the frequency of use for student populations categorized by: individual students; groups of students; gender; race; national origin; disability status and type of disability; and limited English proficiency, for the purposes of determining:

1. Whether policies for restraint are being applied consistently;

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources.
related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

(1) It is legislative intent that parental involvement in all aspects of a child's education in the public school system remain a priority. Substance abuse prevention programs and counseling for students attending public schools are no exception. Consequently, it is the duty of the board of trustees of each school district, including specially chartered school districts, and governing boards of charter schools, to adopt and implement policies specifying how personnel shall respond when a student discloses or is reasonably suspected of using or being under the influence of alcohol or any controlled substance defined by section 37-2732C, Idaho Code. Such policies shall include provisions that anonymity will be provided to the student on a faculty “need to know” basis, when a student voluntarily discloses using or being under the influence of alcohol or any controlled substance while on school property or at a school function, except as deemed reasonably necessary to protect the health and safety of others. Notification of the disclosure and availability of counseling for students shall be provided to parents, the legal guardian or child's custodian. However, once a student is reasonably suspected of using or being under the influence of alcohol or a controlled substance in violation of section 37-2732C, Idaho Code, regardless of any previous voluntary disclosure, the school administrator or designee shall contact the student's parent, legal guardian or custodian, and report the incident to law enforcement. The fact that a student has previously disclosed use of alcohol or a controlled substance shall not be deemed a factor in determining reasonable suspicion at a later date.

(2) In addition to policies adopted pursuant to this section, students may, at the discretion of the district board of trustees or governing board of a charter school, be subject to other disciplinary or safety policies, regardless whether the student voluntarily discloses or is reasonably suspected of using or being under
the influence of alcohol or a controlled substance in violation of district or charter school policy or section 37-2732C, Idaho Code.

(3) The district board of trustees or the governing board of the charter school shall ensure that procedures are developed for contacting law enforcement and the student's parents, legal guardian or custodian regarding a student reasonably suspected of using or being under the influence of alcohol or a controlled substance. District and charter school policies formulated to meet the provisions of section 37-2732C, Idaho Code, and this section shall be made available to each student, parent, guardian or custodian by August 31, 2002, and thereafter as provided by section 33-512(6), Idaho Code.

(4) Any school district employee or independent contractor of an educational institution who has a reasonable suspicion that a student is using or is under the influence of alcohol or a controlled substance and, acting upon that suspicion, reports that suspicion to a school administrator or initiates procedures adopted by the board of trustees or governing board of the charter school pursuant to this section, shall have immunity from any liability, civil or criminal, that might otherwise be incurred or imposed. Any such participant shall have the same immunity with respect to participation in any judicial proceeding resulting from such report. Any person who reports in bad faith or with malice shall not be protected by this section. Employees and independent contractors of educational institutions who intentionally harass a student through the misuse of the authority provided in this section shall not be immune from civil liability arising from the wrongful exercise of that authority and shall be guilty of a misdemeanor punishable by a fine not to exceed three hundred dollars ($300).

(5) For the purposes of this section, the following definitions shall apply:

(a) "Reasonable suspicion" means an act of judgment by a school employee or independent contractor of an educational institution which leads to a reasonable and prudent belief that a student is in violation of school board or charter school governing board policy regarding alcohol or controlled substance use, or the "use" or "under the influence" provisions of section 37-2732C, Idaho Code. Said judgment shall be based on training in recognizing the signs and symptoms of alcohol and controlled substance use.

(b) "Intentionally harass" means a knowing and willful course of conduct directed at a specific student which seriously alarms, annoys, threatens or intimidates the student and which serves no legitimate purpose. The course of conduct must be such as would cause a reasonable person to suffer substantial emotional distress.

(6) School districts seeking to have one (1) or more teen early intervention specialists placed within its district may apply to the department of health and welfare for such placement. The department of health and welfare shall establish by rule a simple application process and criteria for placement of teen early intervention specialists in districts. The number of teen early intervention specialists placed in school districts in any given year shall be limited by the funds appropriated to the teen early intervention specialist program in that fiscal year. In evaluating applications for the three (3) year pilot project, the department of health and welfare shall give special consideration to rural districts and shall consider:
(a) The demonstrated need for mental health and substance abuse counseling and treatment for teens at risk in the school district;
(b) The resources and cooperation which the school district has proposed to contribute to the support of the teen early intervention specialist program for teens at risk; and
(c) The funding appropriated to the teen early intervention specialist program for teens at risk.
16.07.37.101. Teens at risk program.
The Teens at Risk program is for individuals attending Idaho secondary public schools who have been identified by school personnel or their designee as expressing or exhibiting indications of depression, suicidal inclination, emotional trauma, substance use, or other behaviors or symptoms that indicate the existence of, or that may lead to, the development of mental illness or a substance use disorder. The Department may enter into contracts for Teens at Risk programs in cooperation with Idaho public school districts subject to Department appropriations and available funding for this program. The Department reserves the right to make the final determination to award a school district a Teens at Risk contract. (5-8-09)

01. Application. School districts may apply to the Department through a competitive application process. The Department will provide written information to the State Department of Education and interested school districts on the amount of funding available, closing date for submission of applications, and information on how to obtain application forms and instructions by July 1 of each year that funding is available. Only applications submitted on the prescribed forms and consistent with Department instructions will be considered for evaluation. (5-8-09)

02. Contracting Process. (5-8-09)

a. A team comprised of at least one (1) Department staff person, a representative from the state Department of Education, a representative from the local school district, and a parent, will evaluate the applications from school districts for contracts for Teens at Risk programs. The evaluation criteria will include the demonstrated need for the program in the school district and the contribution the school district is providing to the program, with a preference for rural school districts. The Department will consider the team recommendations and make the final determination of contracts for Teens at Risk programs. (5-8-09)

b. The number of school districts awarded a Teens at Risk program will depend upon the amount of specific funding appropriated by the legislature for this program. (5-8-09)

c. The Department will enter into a written contract with each school district awarded a Teens at Risk program. The contract will set forth the terms, services, data collecting, funding, and other activities prior to the implementation of the program. (5-8-09)

03. Services. Teen early intervention specialists hired or under contract with the school district will be available to serve teens at risk within the school setting and offer group counseling, recovery support, suicide prevention and other mental health and substance use disorder counseling services as needed. Teens at risk who are not enrolled in public schools may only participate in services if assigned by a judge and with the permission of the local school administrator who administers the Teens at Risk program. Parents of teens participating in the Teens at Risk program will not incur a financial obligation for services provided by the program. (5-8-09)

04. Outcomes. The Department will gather data and evaluate the effectiveness of the Teens at Risk program. In accordance with Section 16-2404A(7), Idaho Code, the Department may contract with state universities or colleges to assist in the identification of appropriate data elements, data collection, and evaluation. Data elements used to evaluate the program may include: (5-8-09)

a. Teen arrests, detention, and commitments to state custody; (5-8-09)

b. Teen suicide rates; (5-8-09)

c. Impacts on juvenile mental health and drug courts; (5-8-09)

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources.
related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2021. LAWS

(a) To establish and maintain a parent-teacher advisory committee to develop with the school board or governing body of a charter school policy guidelines on pupil discipline, including school searches and bullying prevention as set forth in Section 27-23.7 of this Code [105 ILCS 5/27-23.7]. School authorities shall furnish a copy of the policy to the parents or guardian of each pupil within 15 days after the beginning of the school year, or within 15 days after starting classes for a pupil who transfers into the district during the school year, and the school board or governing body of a charter school shall require that a school inform its pupils of the contents of the policy. School boards and the governing bodies of charter schools, along with the parent-teacher advisory committee, must annually review their pupil discipline policies, the implementation of those policies, and any other factors related to the safety of their schools, pupils, and staff.

(a-5) On or before September 15, 2016, each elementary and secondary school and charter school shall, at a minimum, adopt pupil discipline policies that fulfill the requirements set forth in this Section, subsections (a) and (b) of Section 10-22.6 of this Code [105 ILCS 5/10-22.6], Section 34-19 of this Code [105 ILCS 5/10-34-19] if applicable, and federal and State laws that provide special requirements for the discipline of students with disabilities.

Subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], teachers, other certificated educational employees, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student shall maintain discipline in the schools, including school grounds which are owned or leased by the board and used for school purposes and activities. In all matters relating to the discipline in and conduct of the schools and the school children, they stand in the relation of parents and guardians to the pupils. This relationship shall extend to all activities connected with the school program, including all athletic and extracurricular programs, and may be exercised at any time for the safety and supervision of the pupils in the absence of their parents or guardians.

Nothing in this Section affects the power of the board to establish rules with respect to discipline; except that each board shall establish a policy on discipline, and the policy so established shall provide, subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], that a teacher, other certificated employee, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student may use reasonable force as needed to maintain safety for the other students, school personnel or persons or for the purpose of self defense or the defense of property, shall provide that a teacher may remove a student from the classroom for disruptive behavior, and shall include provisions which provide due process to students. The policy shall not include slapping, paddling or prolonged maintenance of students in physically painful positions nor shall it include the intentional infliction of bodily harm.

The board may make and enforce reasonable rules of conduct and sportsmanship for athletic and extracurricular school events. Any person who violates such rules may be denied admission to school events for not more than one year, provided that written 10 days notice of the violation is given such
person and a hearing had thereon by the board pursuant to its rules and regulations. The administration of any school may sign complaints as agents of the school against persons committing any offense at school events.

(d) Each school district, charter school, and non-public, non-sectarian elementary or secondary school shall create, maintain, and implement a policy on bullying, which policy must be filed with the State Board of Education. The policy or implementing procedure shall include a process to investigate whether a reported act of bullying is within the permissible scope of the district's or school's jurisdiction and shall require that the district or school provide the victim with information regarding services that are available within the district and community, such as counseling, support services, and other programs. School personnel available for help with a bully or to make a report about bullying shall be made known to parents or legal guardians, students, and school personnel. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. The policy must be filed with the State Board of Education after being updated. The State Board of Education shall monitor and provide technical support for the implementation of policies created under this subsection (d).

105 ILCS 5/34-19. By-laws, rules and regulations; business transacted at regular meetings; voting; records.
The board shall, subject to the limitations in this Article, establish by-laws, rules and regulations, which shall have the force of ordinances, for the proper maintenance of a uniform system of discipline for both employees and pupils, and for the entire management of the schools, and may fix the school age of pupils, the minimum of which in kindergartens shall not be under 4 years, except that, based upon an assessment of the child's readiness, children who have attended a non-public preschool and continued their education at that school through kindergarten, were taught in kindergarten by an appropriately certified teacher, and will attain the age of 6 years on or before December 31 of the year of the 2009-2010 school term and each school term thereafter may attend first grade upon commencement of such term, and in grade schools shall not be under 6 years. It may expel, suspend or, subject to the limitations of all policies established or adopted under Section 10-22.6 or 14-8.05 [105 ILCS 5/10-22.6 or 105 ILCS 5/14-8.05], otherwise discipline any pupil found guilty of gross disobedience, misconduct, or other violation of the by-laws, rules, and regulations, including gross disobedience or misconduct perpetuated by electronic means. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code [105 ILCS 5/13A-0.5 or 105 ILCS 5/13B-1]. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. The bylaws, rules and regulations of the board shall be enacted, money shall be appropriated or expended, salaries shall be fixed or changed, and textbooks, electronic textbooks, and courses of instruction shall be adopted or changed only at the regular meetings of the board and by a vote of a majority of the full membership of the board; provided that notwithstanding any other provision of this Article or the School Code, neither the board or any local school council may purchase any textbook for use in any public school of the district from any textbook publisher that fails to furnish any computer diskettes as required under Section 28-21 [105 ILCS 5/28-21]. Funds appropriated for textbook purchases must be available for electronic textbook purchases and the technological equipment necessary to gain access to and use electronic textbooks at the local school council's discretion. The board shall be further encouraged to provide opportunities for public hearing and
testimony before the adoption of bylaws, rules and regulations. Upon all propositions requiring for their adoption at least a majority of all the members of the board the yeas and nays shall be taken and reported. The by-laws, rules and regulations of the board shall not be repealed, amended or added to, except by a vote of 2/3 of the full membership of the board. The board shall keep a record of all its proceedings. Such records and all by-laws, rules and regulations, or parts thereof, may be proved by a copy thereof certified to be such by the secretary of the board, but if they are printed in book or pamphlet form which are purported to be published by authority of the board they need not be otherwise published and the book or pamphlet shall be received as evidence, without further proof, of the records, by-laws, rules and regulations, or any part thereof, as of the dates thereof as shown in such book or pamphlet, in all courts and places where judicial proceedings are had.

Subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], teachers, other certificated educational employees, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student shall maintain discipline in the schools, including school grounds which are owned or leased by the board and used for school purposes and activities. In all matters relating to the discipline in and conduct of the schools and the school children, they stand in the relation of parents and guardians to the pupils. This relationship shall extend to all activities connected with the school program, including all athletic and extracurricular programs, and may be exercised at any time for the safety and supervision of the pupils in the absence of their parents or guardians.

Nothing in this Section affects the power of the board to establish rules with respect to discipline, except that the rules of the board must provide, subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], that a teacher, other certificated employee, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student may use reasonable force as needed to maintain safety for the other students, shall provide that a teacher may remove a student from the classroom for disruptive behavior, and must include provisions which provide due process to students.

REGULATIONS

1.280. Discipline.

Section 24-24 of the School Code [105 ILCS 5] provides for teachers, other licensed educational employees (except for individuals employed as a paraprofessional educator) and persons providing a related service for or with respect to a student as determined by the board of education to maintain discipline in the schools.

a) The board of education shall establish and maintain a parent-teacher advisory committee as provided in Section 10-20.14 of the School Code.

b) The board of education shall establish a policy on the administration of discipline in accordance with the requirements of Sections 10-20.14 and 24-24 of the School Code and disseminate that policy as provided in Section 10-20.14 of the School Code. Under no circumstance shall the policy authorize the use of time out or physical restraint as a form of discipline or punishment.

c) In addition to, or as part of, its policy on the maintenance of discipline, each board of education shall adopt policies and procedures regarding the use of behavioral interventions for students with disabilities who require intervention. Each board's policies and procedures shall conform to the requirements of Section 14-8.05(c) of the School Code.
Scope

LAWS

105 ILCS 5/10-20.5b. Tobacco prohibition.
Each school board shall prohibit the use of tobacco on school property by any school personnel, student, or other person when such property is being used for any school purposes. The school board may not authorize or permit any exception to or exemption from the prohibition at any place or at any time, including without limitation outside of school buildings or before or after the regular school day or on days when school is not in session. "School purposes" include but are not limited to all events or activities or other use of school property that the school board or school officials authorize or permit on school property, including without limitation all interscholastic or extracurricular athletic, academic, or other events sponsored by the school board or in which pupils of the district participate. For purposes of this Section "tobacco" shall mean cigarette, cigar, or tobacco in any other form, including smokeless tobacco which is any loose, cut, shredded, ground, powdered, compressed or leaf tobacco that is intended to be placed in the mouth without being smoked.

Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in all school districts, charter schools, and non-public, non-sectarian elementary and secondary schools. No student shall be subjected to bullying:

(1) during any school-sponsored education program or activity;
(2) while in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities;
(3) through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment; or
(4) through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

The Board of Education shall prohibit the use of tobacco on school property when such property is being used for any school purposes. Neither the board nor the local school council may authorize or permit any exception to or exemption from the prohibition at any place or at any time, including without limitation outside of school buildings or before or after the regular school day or on days when school is not in session. "School purposes" include but are not limited to all events or activities or other use of school property that the school board or school officials authorize or permit on school property, including without limitation all interscholastic or extracurricular athletic, academic or other events sponsored by the school board or in which pupils of the district participate. For purposes of this Section "tobacco" shall mean cigarette, cigar, or tobacco in any other form, including smokeless tobacco which is any loose, cut,
shredded, ground, powdered, compressed or leaf tobacco that is intended to be placed in the mouth without being smoked.

Subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], teachers, other certificated educational employees, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student shall maintain discipline in the schools, including school grounds which are owned or leased by the board and used for school purposes and activities. In all matters relating to the discipline in and conduct of the schools and the school children, they stand in the relation of parents and guardians to the pupils. This relationship shall extend to all activities connected with the school program, including all athletic and extracurricular programs, and may be exercised at any time for the safety and supervision of the pupils in the absence of their parents or guardians.

Nothing in this Section affects the power of the board to establish rules with respect to discipline, except that the rules of the board must provide, subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], that a teacher, other certificated employee, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student may use reasonable force as needed to maintain safety for the other students, shall provide that a teacher may remove a student from the classroom for disruptive behavior, and must include provisions which provide due process to students.

105 ILCS 5/10-20.14. **Student discipline policies; Parent-teacher advisory committee.**

(a) To establish and maintain a parent-teacher advisory committee to develop with the school board or governing body of a charter school policy guidelines on pupil discipline, including school searches and bullying prevention as set forth in Section 27-23.7 of this Code [105 ILCS 5/27-23.7]. School authorities shall furnish a copy of the policy to the parents or guardian of each pupil within 15 days after the beginning of the school year, or within 15 days after starting classes for a pupil who transfers into the district during the school year, and the school board or governing body of a charter school shall require that a school inform its pupils of the contents of the policy. School boards and the governing bodies of charter schools, along with the parent-teacher advisory committee, must annually review their pupil discipline policies, the implementation of those policies, and any other factors related to the safety of their schools, pupils, and staff.

(a-5) On or before September 15, 2016, each elementary and secondary school and charter school shall, at a minimum, adopt pupil discipline policies that fulfill the requirements set forth in this Section, subsections (a) and (b) of Section 10-22.6 of this Code [105 ILCS 5/10-22.6], Section 34-19 of this Code [105 ILCS 5/10-34-19] if applicable, and federal and State laws that provide special requirements for the discipline of students with disabilities.

(b) The parent-teacher advisory committee in cooperation with local law enforcement agencies shall develop, with the school board, policy guideline procedures to establish and maintain a reciprocal reporting system between the school district and local law enforcement agencies regarding criminal offenses committed by students. School districts are encouraged to create memoranda of understanding with local law enforcement agencies that clearly define law enforcement's role in schools, in accordance with Section 10-22.6 of this Code.

(c) The parent-teacher advisory committee, in cooperation with school bus personnel, shall develop, with the school board, policy guideline procedures to establish and maintain school bus safety procedures. These procedures shall be incorporated into the district's pupil discipline policy.

(d) The school board, in consultation with the parent-teacher advisory committee and other community-based organizations, must include provisions in the student discipline policy to address students who have demonstrated behaviors that put them at risk for aggressive behavior, including without limitation bullying, as defined in the policy. These provisions must include procedures for notifying parents or legal guardians and early intervention procedures based upon available community-based and district resources.

105 ILCS 5/10-22.6. **Suspension or expulsion of pupils; school searches.**

(a) To expel pupils guilty of gross disobedience or misconduct, including gross disobedience or misconduct perpetrated by electronic means, pursuant to subsection (b-20) of this Section, and no action shall lie against them for such expulsion. Expulsion shall take place only after the parents have been requested to appear at a meeting of the board, or with a hearing officer appointed by it, to discuss their child's behavior. Such request shall be made by registered or certified mail and shall state the time, place and purpose of the meeting. The board, or a hearing officer appointed by it, at such meeting shall state the reasons for dismissal and the date on which the expulsion is to become effective. If a hearing officer
is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting and the board may take such action thereon as it finds appropriate. If the board acts to expel a pupil, the written expulsion decision shall detail the specific reasons why removing the pupil from the learning environment is in the best interest of the school. The expulsion decision shall also include a rationale as to the specific duration of the expulsion. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code [105 ILCS 5/13A-0.5 et seq. or 105 ILCS 5/13B-1 et seq.]. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(b) To suspend or by policy to authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of gross disobedience or misconduct, or to suspend pupils guilty of gross disobedience or misconduct on the school bus from riding the school bus, pursuant to subsections (b-15) and (b-20) of this Section, and no action shall lie against them for such suspension. The board may by policy authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of such acts for a period not to exceed 10 school days. If a pupil is suspended due to gross disobedience or misconduct on a school bus, the board may suspend the pupil in excess of 10 school days for safety reasons.

Any suspension shall be reported immediately to the parents or guardian of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardian, the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review, the parents or guardian of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. School officials shall limit the number and duration of expulsions and suspensions to the greatest extent practicable, and it is recommended that they use them only for legitimate educational purposes. To ensure that students are not excluded from school unnecessarily, it is recommended that school officials consider forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions.

(b-10) Unless otherwise required by federal law or this Code, school boards may not institute zero-tolerance policies by which school administrators are required to suspend or expel students for particular behaviors.

(b-15) Out-of-school suspensions of 3 days or less may be used only if the student's continuing presence in school would pose a threat to school safety or a disruption to other students' learning opportunities. For purposes of this subsection (b-15), "threat to school safety or a disruption to other students' learning opportunities" shall be determined on a case-by-case basis by the school board or its designee. School
officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of suspensions to the greatest extent practicable.

(b-20) Unless otherwise required by this Code, out-of-school suspensions of longer than 3 days, expulsions, and disciplinary removals to alternative schools may be used only if other appropriate and available behavioral and disciplinary interventions have been exhausted and the student's continuing presence in school would either(i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school. For purposes of this subsection (b-20), “threat to the safety of other students, staff, or members of the school community” and “substantially disrupt, impede, or interfere with the operation of the school” shall be determined on a case-by-case basis by school officials. For purposes of this subsection (b-20), the determination of whether “appropriate and available behavioral and disciplinary interventions have been exhausted” shall be made by school officials. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of student exclusions to the greatest extent practicable. Within the suspension decision described in subsection (b) of this Section or the expulsion decision described in subsection (a) of this Section, it shall be documented whether other interventions were attempted or whether it was determined that there were no other appropriate and available interventions.

(b-25) Students who are suspended out-of-school for longer than 4 school days shall be provided appropriate and available support services during the period of their suspension. For purposes of this subsection (b-25), “appropriate and available support services” shall be determined by school authorities. Within the suspension decision described in subsection (b) of this Section, it shall be documented whether such services are to be provided or whether it was determined that there are no such appropriate and available services.

A school district may refer students who are expelled to appropriate and available support services.
A school district shall create a policy to facilitate the re-engagement of students who are suspended out-of-school, expelled, or returning from an alternative school setting.

(b-30) A school district shall create a policy by which suspended pupils, including those pupils suspended from the school bus who do not have alternate transportation to school, shall have the opportunity to make up work for equivalent academic credit. It shall be the responsibility of a pupil’s parent or guardian to notify school officials that a pupil suspended from the school bus does not have alternate transportation to school.

(c) The Department of Human Services shall be invited to send a representative to consult with the board at such meeting whenever there is evidence that mental illness may be the cause for expulsion or suspension.

(c-5) School districts shall make reasonable efforts to provide ongoing professional development to teachers, administrators, school board members, school resource officers, and staff on the adverse consequences of school exclusion and justice-system involvement, effective classroom management strategies, culturally responsive discipline, the appropriate and available supportive services for the promotion of student attendance and engagement, and developmentally appropriate disciplinary methods that promote positive and healthy school climates.

(d) The board may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis. A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year:

(1) A firearm. For the purposes of this Section, "firearm" means any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 [430 ILCS 65/1.1] of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 [720
ILCS 5/24-1] of the Criminal Code of 2012. The expulsion period under this subdivision (1) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

(2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined in subdivision (1) of this subsection (d). The expulsion requirement under this subdivision (2) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

Expulsion or suspension shall be construed in a manner consistent with the federal Individuals with Disabilities Education Act. A student who is subject to suspension or expulsion as provided in this Section may be eligible for a transfer to an alternative school program in accordance with Article 13A of the School Code.

(d-5) The board may suspend or by regulation authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend a student for a period not to exceed 10 school days or may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis, if (i) that student has been determined to have made an explicit threat on an Internet website against a school employee, a student, or any school-related personnel, (ii) the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and (iii) the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

(e) To maintain order and security in the schools, school authorities may inspect and search places and areas such as lockers, desks, parking lots, and other school property and equipment owned or controlled by the school, as well as personal effects left in those places and areas by students, without notice to or the consent of the student, and without a search warrant. As a matter of public policy, the General Assembly finds that students have no reasonable expectation of privacy in these places and areas or in their personal effects left in these places and areas. School authorities may request the assistance of law enforcement officials for the purpose of conducting inspections and searches of lockers, desks, parking lots, and other school property and equipment owned or controlled by the school for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs. If a search conducted in accordance with this Section produces evidence that the student has violated or is violating either the law, local ordinance, or the school's policies or rules, such evidence may be seized by school authorities, and disciplinary action may be taken. School authorities may also turn over such evidence to law enforcement authorities.

(f) Suspension or expulsion may include suspension or expulsion from school and all school activities and a prohibition from being present on school grounds.

(g) A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion in an alternative school program under Article 13A of this Code or an alternative learning opportunities program under Article 13B of this Code before being admitted into the school district if there is no threat to the safety of students or staff in the alternative program.

(h) School officials shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties.

(i) A student may not be issued a monetary fine or fee as a disciplinary consequence, though this shall not preclude requiring a student to provide restitution for lost, stolen, or damaged property.
(j) Subsections (a) through (i) of this Section shall apply to elementary and secondary schools, charter schools, special charter districts, and school districts organized under Article 34 [105 ILCS 5/34-1 et seq.] of this Code.

(k) The expulsion of children enrolled in programs funded under Section 1C-2 of this Code [105 ILCS 5/1C-2] is subject to the requirements under paragraph (7) of subsection (a) of Section 2-3.71 [105 ILCS 5/2-3.71] of this Code.

(l) Beginning with the 2018-2019 school year, an in-school suspension program provided by a school district for any students in kindergarten through grade 12 may focus on promoting non-violent conflict resolution and positive interaction with other students and school personnel. A school district may employ a school social worker or a licensed mental health professional to oversee an in-school suspension program in kindergarten through grade 12.

Subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], teachers, other certificated educational employees, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student shall maintain discipline in the schools, including school grounds which are owned or leased by the board and used for school purposes and activities. In all matters relating to the discipline in and conduct of the schools and the school children, they stand in the relation of parents and guardians to the pupils. This relationship shall extend to all activities connected with the school program, including all athletic and extracurricular programs, and may be exercised at any time for the safety and supervision of the pupils in the absence of their parents or guardians.

Nothing in this Section affects the power of the board to establish rules with respect to discipline; except that each board shall establish a policy on discipline, and the policy so established shall provide, subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], that a teacher, other certificated employee, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student may use reasonable force as needed to maintain safety for the other students, school personnel or persons or for the purpose of self defense or the defense of property, shall provide that a teacher may remove a student from the classroom for disruptive behavior, and shall include provisions which provide due process to students. The policy shall not include slapping, paddling or prolonged maintenance of students in physically painful positions nor shall it include the intentional infliction of bodily harm.

The board may make and enforce reasonable rules of conduct and sportsmanship for athletic and extracurricular school events. Any person who violates such rules may be denied admission to school events for not more than one year, provided that written 10 days notice of the violation is given such person and a hearing had thereon by the board pursuant to its rules and regulations. The administration of any school may sign complaints as agents of the school against persons committing any offense at school events.

105 ILCS 5/10-20.33. Time out and physical restraint.
Until rules are adopted under Section 2-3.130 of this Code [105 ILCS 5/2-3.130], the use of any of the following rooms or enclosures for time out purposes is prohibited:

For the purposes of this Section, "restraint" does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and that are designed (i) to prevent a student from completing an act that would result in potential physical harm to himself, herself, or another or damage to property or (ii) to remove a disruptive student who is unwilling to voluntarily leave the area. The use of physical restraints that meet the requirements of this Section may be included in a student's individualized education plan where deemed appropriate by the student's individualized education plan team. Whenever physical restraints are used, school personnel shall fully document the incident, including the events leading up to the incident, the type of restraint used, the length of time the student is restrained, and the staff involved. The parents or guardian of a student shall be informed whenever physical restraints are used.

105 ILCS 5/34-18.20. Time out and physical restraint.

The use of physical restraints is prohibited except when (i) the student poses a physical risk to himself, herself, or others, (ii) there is no medical contraindication to its use, and (iii) the staff applying the restraint have been trained in its safe application. For the purposes of this Section, "restraint" does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and that are designed (i) to prevent a student from
completing an act that would result in potential physical harm to himself, herself, or another or damage to property or (ii) to remove a disruptive student who is unwilling to voluntarily leave the area. The use of physical restraints that meet the requirements of this Section may be included in a student's individualized education plan where deemed appropriate by the student's individualized education plan team. Whenever physical restraints are used, school personnel shall fully document the incident, including the events leading up to the incident, the type of restraint used, the length of time the student is restrained, and the staff involved. The parents or guardian of a student shall be informed whenever physical restraints are used.

REGULATIONS

1.280. Discipline.
Section 24-24 of the School Code [105 ILCS 5] provides for teachers, other licensed educational employees (except for individuals employed as a paraprofessional educator) and persons providing a related service for or with respect to a student as determined by the board of education to maintain discipline in the schools.

b) The board of education shall establish a policy on the administration of discipline in accordance with the requirements of Sections 10-20.14 and 24-24 of the School Code and disseminate that policy as provided in Section 10-20.14 of the School Code. Under no circumstance shall the policy authorize the use of time out or physical restraint as a form of discipline or punishment.

1.285. Requirements for the use of isolated time out, time out, and physical restraint.
Isolated time out, time out, and physical restraint, as defined in this Section, shall be used only when the student's behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures have been tried and proven ineffective in stopping the imminent danger of serious physical harm. Isolated time out, time out, or physical restraint shall not be used as discipline or punishment, convenience for staff, retaliation, a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others.

a) Isolated Time Out or Time Out

1) "Isolated time out" means the involuntary confinement of a student alone in a time out room or other enclosure outside the classroom without a supervising adult in the time out room or enclosure. Isolated time out is allowed only under limited circumstances. If all other requirements under this Section are met, isolated time out may be used only when the adult in the time out room or enclosure is in imminent danger of serious physical harm because the student is unable to cease actively engaging in extreme physical aggression.

2) "Time out" means a behavior management technique for the purpose of calming or de-escalation that involves the involuntary monitored separation of a student from classmates with an adult trained under subsection (i) for part of the school day, only for a brief time, in a non-locked setting. 

3) "Isolated time out" or "time out" does not include a student-initiated or student-requested break, a student-initiated or teacher-initiated sensory break, including a sensory room containing sensory tools to assist a student to calm and de-escalate, an in-school suspension or detention, or any other appropriate disciplinary measure, including a student's brief removal to the hallway or similar environment.

4) Any enclosure used for isolated time out or time out shall:

A) meet all of the health/life safety requirements of 23 Ill. Adm. Code 180;
B) have the same ceiling height as the surrounding room or rooms and be large enough to accommodate not only the student being placed in isolated time out or time out but also, if applicable, any other individual who is required to accompany that student under this Section;

C) be constructed of materials that cannot be used by students to harm themselves or others, be free of electrical outlets, exposed wiring, and other objects that could be used by students to harm themselves or others, and be designed so that students cannot climb up the walls;

D) be designed to permit continuous visual monitoring of and communication with the student; and

E) if fitted with a door, be fitted with either a steel door or a wooden door of solid-core construction. If the door includes a viewing panel, the panel shall be unbreakable. The door shall not be fitted with a locking mechanism or be physically blocked by furniture or any other inanimate object at any time during the isolated time out or time out.

5) For an isolated time out, an adult who is responsible for supervising the student must remain within two feet of the enclosure. The supervising staff member must always be able to see, hear, and communicate with the student. The door shall not be locked or held to block egress. A student in isolated time out shall not be supervised using cameras, audio recording, or any other electronic monitoring device.

6) For time out, an adult trained under subsection (i) who is responsible for supervising the student must remain in the same room as the student at all times during the time out.

7) A student placed in isolated time out or time out must have reasonable access to food, water, medication, and toileting facilities. Except in circumstances in which there is a risk of self-injury or injury to staff or others, a student in isolated time out or time out shall not have his or her clothing removed, including, but not limited to, shoes, shoelaces, boots, or belts.

b) "Physical restraint" means holding a student or otherwise restricting a student's movements. "Physical restraint" as permitted pursuant to this Section includes only the use of specific, planned techniques.

c) The requirements set forth in subsections (d) through (i) of this Section shall not apply to the actions described in this subsection (c) because, pursuant to Section 10-20.33 of the School Code [105 ILCS 5], "restraint" does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and designed to:

1) prevent a student from completing an act that would result in potential physical harm to himself, herself, or another or damage to property; or

2) remove a disruptive student who is unwilling to leave the area voluntarily.

d) The use of physical restraint shall be subject to the following requirements and limitations.

1) Pursuant to Section 10-20.33 of the School Code, physical restraint may only be employed when:

   A) the student poses a physical risk to himself, herself, or others,

   B) there is no medical contraindication to its use, and

   C) the staff applying the restraint have been trained in its safe application as specified in subsection (i) of this Section.

2) Physical restraint must end immediately when:

   A) the threat of imminent danger of serious physical harm ends; or

   B) the student indicates that he or she cannot breathe or staff supervising the student recognizes that the student may be in respiratory distress.
3) The staff involved in physically restraining a student must periodically halt the restraint to evaluate if the imminent danger of serious physical harm continues to exist. If the imminent danger of serious physical harm continues to exist, staff may continue to use the physical restraint and the continued use may not be considered a separate instance of physical restraint.

4) A physical restraint shall not impair a student's ability to breathe or communicate normally, obstruct a student's airway, or interfere with a student's ability to speak. If physical restraint is imposed upon a student whose primary mode of communication is sign language or an augmentative mode, the student shall be permitted to have his or her hands free of restraint for brief periods, unless the supervising adult determines that this freedom appears likely to result in harm to the student or others.

5) "Prone physical restraint" means a physical restraint in which a student is held face down on the floor or other surface and physical pressure is applied to the student's body to keep the student in the prone position. "Supine physical restraint" means a physical restraint in which a student is held face up on the floor or other surface and physical pressure is applied to the student's body to keep the student in the supine position. Until July 1, 2021, prone and supine physical restraint is prohibited, unless all of the following criteria are met:

A) Before using a prone or supine physical restraint, the school district or other entity serving the student shall review and determine if there are any known medical or psychological limitations that contraindicate the use of a prone or supine physical restraint.

B) The school district or other entity serving the student deems the situation an emergency, defined as a situation in which immediate intervention is needed to protect a student or other individual from imminent danger of serious physical harm to himself, herself, or others and less restrictive and intrusive interventions have been tried and proven ineffective in stopping the imminent danger.

C) Prone or supine physical restraint is used in a manner that does not restrict or impair a student's ability to breathe or communicate normally, obstruct a student's airway, or interfere with a student's primary mode of communication.

D) Prone or supine physical restraint is used only by personnel who have completed required training under subsection (i).

E) Prone or supine physical restraint is used only if those interventions are the least restrictive and intrusive interventions to address the emergency and stop the imminent danger of serious physical harm to the student or others. During each incident, one school staff person trained in identifying the signs of distress must be assigned to observe and monitor the student during the entire incident. That staff person may not be involved in the physical holding of the student. The number of staff involved in physically restraining the student may not exceed the number necessary to safely hold the student. Staff involved in the restraint must use the least amount of force and the fewest points of contact necessary and must afford the student maximum freedom of movement while maintaining safety.

F) The prone or supine physical restraint ends immediately when the threat of imminent danger of serious physical harm ends, but in no event shall prone or supine physical restraint last longer than 30 minutes. If after 30 minutes the emergency has not resolved, or if an additional emergency arises the same school day that meets the standards of this subsection (d), a school administrator, in consultation with a psychologist, social worker, nurse, or behavior specialist, may authorize the continuation of the restraint or an additional prone or supine physical restraint. No restraint may be continued, nor may additional restraints be applied, unless continuation is authorized by a school administrator.

G) If the student is restrained in a prone or supine physical restraint in at least 2 separate instances within a 30-school day period, the school personnel who initiated, monitored, and supervised the
incidents shall initiate a Restraint Review, which is a review of the effectiveness of the procedures used. If the personnel involved in the restraints do not include a psychologist, social worker, nurse, or behavior specialist, at least one of those staff members shall be included in the Restraint Review. The Restraint Review must include, but is not limited to:

i) conducting or reviewing a functional behavioral analysis, reviewing data, considering the development of additional or revised positive behavioral interventions and supports, considering actions to reduce the use of restrictive procedures, or, if applicable, modifying the student's individualized educational program, federal Section 504 plan, behavior intervention plan, or other plan of care, as appropriate; and

ii) reviewing any known medical or psychological limitations that contraindicate the use of a restrictive procedure, considering whether to prohibit that restrictive procedure, and, if applicable, documenting any prohibitions in the student's individualized education program, federal Section 504 plan, behavior intervention plan, or other plan of care.

6) Students shall not be subjected to physical restraint for using profanity or other verbal displays of disrespect for themselves or others. A verbal threat shall not be considered as constituting a physical danger unless a student also demonstrates a means of or intent to immediately carry out the threat.

7) Except as permitted by the administrative rules of another State agency operating or licensing a facility in which elementary or secondary educational services are provided (e.g., the Illinois Department of Corrections, the Illinois Department of Juvenile Justice, or the Illinois Department of Human Services), mechanical restraint or chemical restraint, as defined in subsection (d)(12), shall not be employed.

8) Medically prescribed restraint procedures employed for the treatment of a physical disorder or for the immobilization of a person in connection with a medical or surgical procedure shall not be used as means of physical restraint for purposes of maintaining discipline.

9) Any application of physical restraint shall take into consideration the safety and security of the student. Physical restraint shall not rely upon pain as an intentional method of control.

10) In determining whether a student who is being physically restrained should be removed from the area where the restraint was initiated, the supervising adult shall consider the potential for injury to the student, the student's need for privacy, and the educational and emotional well-being of other students in the vicinity.

11) "Chemical restraint" means the use of medication to control a student's behavior or restrict a student's freedom of movement. Chemical restraint is prohibited. "Chemical restraint" does not include medication that is legally prescribed and administered as part of a student's regular medical regimen to manage behavioral symptoms and treat medical symptoms.

12) "Mechanical restraint" means the use of any device or equipment to limit a student's movement or hold a student immobile. Mechanical restraint is prohibited. "Mechanical restraint" does not include any restraint used to:

A) treat a student's medical needs;

B) protect a student known to be at risk of injury resulting from lack of coordination or frequent loss of consciousness;

C) position a student with physical disabilities in a manner specified in the student's individualized education program, federal Section 504 plan, or other plan of care;

D) provide a supplementary aid or service or an accommodation, including, but not limited to, assistive technology that provides proprioceptive input or aids in self-regulation; or

E) promote student safety in vehicles used to transport students.
e) Time Limits

1) A student shall be released from isolated time out or time out immediately upon determination by the staff member that the student is no longer an imminent danger of serious physical harm to the student or others. No less than once every 15 minutes, an adult trained under subsection (i) must assess whether the student has ceased presenting the specific behavior for which the time out was imposed.

2) A student shall be released from physical restraint immediately upon a determination by the staff member administering the restraint that the student is no longer in imminent danger of causing serious physical harm to the student or others.

f) Documentation and Evaluation

1) In a form and manner prescribed by the State Superintendent, a written record of each episode of isolated time out, time out, or physical restraint shall be maintained in the student's temporary record. The official designated under this Section shall also maintain a copy of each of these records. Each record shall include, but is not limited to, all of the following:

A) the student's name;
B) the date of the incident;
C) the beginning and ending times of the incident;
D) a description of any relevant events leading up to the incident;
E) a description of any interventions used prior to the implementation of isolated time out, time out, or physical restraint;
F) a description of the incident or student behavior that resulted in isolated time out, time out, or physical restraint, including the specific imminent danger of serious physical harm to the student or others;
G) for isolated time out, a description of the rationale of why the needs of the student cannot be met by a lesser restrictive intervention and why an adult could not be present in the time out room;
H) a log of the student's behavior in isolated time out, time out, or during physical restraint, including a description of the restraint techniques used and any other interaction between the student and staff;
I) a description of any injuries (whether to students, staff, or others) or property damage;
J) a description of any planned approach to dealing with the student's behavior in the future, including any de-escalation methods or procedures that may be used to avoid the use of isolated time out, time out, or physical restraint;
K) a list of the school personnel who participated in the implementation, monitoring, and supervision of isolated time out, time out, or physical restraint; and
L) the date on which parental or guardian notification took place, as required by subsection (g).

2) The school official designated under subsection (j)(3) shall be notified of the incident as soon as possible, but no later than the end of the school day on which it occurred.

3) The requirements of this subsection (f)(3) shall apply whenever an episode of isolated time out or time out exceeds 30 minutes, an episode of physical restraint exceeds 15 minutes, or repeated episodes have occurred during any three-hour period.

A) A licensed educator or licensed clinical practitioner knowledgeable about the use of isolated time out or time out or trained in the use of physical restraint, as applicable, shall evaluate the situation.
B) The evaluation shall consider the appropriateness of continuing the procedure in use, including the student's potential need for medication, nourishment, or use of a restroom, and the need for
alternate strategies (e.g., assessment by a mental health crisis team, assistance from police, or transportation by ambulance).

C) The results of the evaluation shall be committed to writing and copies of this documentation shall be placed into the student's temporary student record and provided to the official designated under subsection (j)(3).

4) When a student experiences instances of isolated time out, time out, or physical restraint on 3 days within a 30-day period, the school personnel who initiated, monitored, and supervised the incidents shall initiate a review of the effectiveness of the procedures used and prepare an individual behavior plan for the student that provides either for continued use of these interventions or for the use of other, specified interventions. The plan shall be placed into the student's temporary student record. The review shall also consider the student's potential need for an alternative program, for special education eligibility, or, for a student already eligible for special education, for a change in program.

A) The district or other entity serving the student shall invite the student's parents or guardians to participate in this review and shall provide ten days' notice of its date, time, and location.

B) The notification shall inform the parents or guardians that the student's potential need for special education, an alternative program, or, for students already eligible for special education, the student's potential need for a change in program, will be considered and that the results of the review will be entered into the temporary student record.

g) Notification to Parents or Guardians

1) A district whose policies allow for the use of isolated time out, time out, or physical restraint shall notify parents or guardians to this effect as part of the information distributed annually or upon enrollment pursuant to Sections 10-20.14 and 14-8.05(c) of the School Code.

2) If a student is subject to isolated time out, time out, or physical restraint, the school must make a reasonable attempt to notify the student's parent or guardian on the same day the isolated time out, time out, or physical restraint is imposed.

3) Within one business day after any use of isolated time out, time out, or physical restraint, the school district or other entity serving the student shall send the form required under subsection (f)(1) to the student's parents or guardians.

h) Report to the State Superintendent

1) No later than 2 school days after any use of isolated time out, time out, or physical restraint, the school district or other entity serving the student shall, in a form and manner prescribed by the State Superintendent, submit the information required under subsection (f)(1) to the State Superintendent.

2) The State Superintendent reserves the authority to require districts to submit the information required under subsection (f)(1) for previous school years.

i) Requirements for Training

1) Any adult who is supervising a student in isolated time out or time out, or who is involved in a physical restraint, shall receive at least 8 hours of developmentally appropriate training annually. Except for training on physical restraint, online training may be utilized for all training areas under this subsection (i)(1). Training is required in the following areas:

A) crisis de-escalation;
B) restorative practices;
C) identifying signs of distress during physical restraint and time out;
D) trauma-informed practices; and
E) behavior management practices.
2) All adults trained under this subsection (i) must be provided a copy of the district's policies on isolated time out, time out, and physical restraint.

Isolated time out, time out, or physical restraint, as defined in this Section, shall be applied only by individuals who have received annual systematic training on less restrictive and intrusive strategies and techniques to reduce the use of isolated time out, time out, and physical restraint based on best practices and how to safely use time out and physical restraint when those alternative strategies and techniques have been tried and proven ineffective. This training must include all the elements described in this subsection (i) and must result in the receipt of a certificate of completion or other written evidence of participation. No individual may use isolated time out, time out, or physical restraint before receiving the required training and certificate. An individual who applies isolated time out, time out, or physical restraint shall use only techniques in which he or she has received prior annual training, as indicated by written evidence of participation.

The training required under this subsection (i) with respect to isolated time out, time out, or physical restraint may be provided either by the employer or by an external entity.

A) All persons or entities who provide training must be trained and certified in the:

i) effective use of less restrictive and intrusive alternatives to prevent imminent danger of serious physical harm to the student or others; and

ii) safe application of isolated time out, time out, and physical restraint when less restrictive and intrusive alternatives have been tried and proven ineffective.

B) The training shall include, but need not be limited to:

i) the dangers associated with the use of isolated time out, time out, and physical restraint and the need to use interventions that are less restrictive and intrusive to reduce the risk of harm to students;

ii) appropriate procedures for preventing the need for isolated time out, time out, or physical restraint, including the deescalation of problematic behavior, relationship-building, and the use of alternatives to restraint;

iii) recognizing and responding appropriately to the antecedent of a student's behavior;

iv) recognizing contraindications and other conditions and events that increase risk of death;

v) a description and identification of dangerous behaviors on the part of students that may indicate the need for isolated time out, time out, or physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;

vi) the simulated experience of administering and receiving a variety of isolated time out, time out, and physical restraint techniques, ranging from minimal physical involvement to very controlling interventions;

vii) instruction regarding the effects of isolated time out, time out, and physical restraint on the person in restraint, isolated time out, or time out, including instruction on monitoring physical signs of distress and obtaining medical assistance;

viii) instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and

ix) demonstration by participants of proficiency in administering isolated time out, time out, and physical restraint.

5) An individual may provide training to others in a particular method of time out and physical restraint only if he or she has received written evidence of completing training in those techniques that meet the requirements of this subsection (i) within the preceding one-year period.
j) Any use of isolated time out, time out, or physical restraint permitted by a board's policy shall be implemented in accordance with written procedures that include:

1) the circumstances under which isolated time out, time out, or physical restraint will be applied;
2) a written procedure to be followed by staff in cases of isolated time out, time out, or physical restraint;
3) designation of a school official who will be informed of incidents and maintain the documentation required under this Section when isolated time out, time out, or physical restraint is used;
4) the process the district or other entity serving public school students will use to evaluate any incident that results in an injury to the affected student; and
5) a description of the district's or other entity's annual review of the use of isolated time out, time out, or physical restraint, which, at a minimum, shall include:
   A) the number of incidents involving the use of these interventions;
   B) the location and duration of each incident;
   C) identification of the staff members who were involved;
   D) any injuries or property damage that occurred; and
   E) the timeliness of parental or guardian notification, timelines of agency notification, and administrative review.

k) Complaint Procedures

1) Any parent or guardian, individual, organization, or advocate may file a signed, written complaint with the State Superintendent alleging that a local school district or other entity serving the student has violated this Section. The complaint shall include all of the following:
   A) the facts on which the complaint is based;
   B) the signature and contact information for the complainant;
   C) if known, the names and addresses of the students involved and the name of the school of attendance;
   D) a description of the nature of the problem, including any facts relating to the problem; and
   E) a proposed resolution of the problem to the extent known.
2) The State Superintendent shall only consider a complaint if it alleges a violation occurring not more than one year prior to the date in which the complaint is received.
3) After receiving a complaint that meets the requirements of this subsection (k), the State Superintendent shall:
   A) carry out an independent on-site investigation, if deemed necessary by the State Superintendent;
   B) give the complainant the opportunity to submit additional information, either orally or in writing, about the allegations in the complaint; and
   C) require that the public entity that is the subject of the complaint submit a written response to the complaint. The public entity shall submit its response and all other documentation to the State Superintendent and the parent, individual, or organization filing the complaint no later than the date indicated in the written correspondence received under this subsection (k).
4) The State Superintendent must issue a written decision to the complainant that addresses each allegation in the complaint and that contains all of the following:
   A) findings of fact and conclusion;
   B) the reasons for the State Board of Education's final decision; and
   C) orders for any action, including technical assistance.
5) The complaint procedure under this subsection (k) does not limit, diminish, or otherwise deny the federal and State rights and procedural safeguards afforded to students.

401.250. Staff training.

Each provider subject to this Part shall develop and implement ongoing inservice training programs related to the duties of all staff.

a) Each provider shall prepare and keep on file an annual plan for inservice training in areas where improvement is desirable. The provider shall identify these areas based upon an analysis of each program’s outcome data and based on student achievement in relation to the goals and objectives of the program. Training sessions shall be planned and designed to assist staff members in improving their ability to fulfill their duties as defined in their job descriptions, as necessary to educate the student population served and with specific reference to areas of need identified in the annual plan.

b) As appropriate to the student population served, each provider shall provide specific training to all personnel, including, but not limited to, the following:

1) The policy and procedures regarding the maintenance of student privacy and dignity;
2) Disposal of hazardous waste materials;
3) Procedures for preventing the transmission of blood-borne pathogens;
4) The use of isolated time out or physical restraint, if any, subject to the requirements of 23 Ill. Adm. Code 1.280 (Discipline) and 1.285 (Requirements for the Use of Isolated Time Out and Physical Restraint);
5) Behavioral intervention strategies; and
6) The administration of medication.

c) Each provider shall provide training to all paraprofessionals and individual student aides (noninstructional duties) before they assume their duties.

d) Each provider shall maintain accurate, written and dated records of all training provided, as described in Section 401.260.

830.150. Behavior Intervention.

a) Behavior intervention is a therapeutic measure which is to be used only to prevent a student from causing damage to property or physical harm to himself/herself or others. The following procedures shall be used, as part of a behavior modification or management program. In no event shall restraint be used to punish or discipline a student or as a convenience to staff.

b) Behavior intervention may include physically holding, or otherwise restricting the movement of the student’s limbs, head or body. No mechanical or chemical restraint shall be permitted. Medically prescribed or monitored procedures for the treatment of an existing physical condition or the amelioration of a physical disability, such as braces and other medical equipment, are not considered restraints. The partial or total immobilization of a student for the purpose of performing a medical/surgical procedure is not restraint.

c) Procedures for the use of physical restraint at the State Schools are as follows:

1) physical restraint shall be employed in a humane and therapeutic manner. In no event shall restraint be used when it is medically contraindicated (i.e., could adversely affect the health of the student).
2) whenever physical restraint is used with a student whose primary communication is sign language, writing, or computer, the student shall be permitted to have his/her hands free from restraint for brief periods, except when freedom may result in physical harm to the student or others. A staff member
skilled in the student's mode of communication shall be in attendance when the student's hands are free.

3) the student must be released from restraint as soon as possible. The use of restraint shall not exceed 30 consecutive minutes.

4) the person who initiates the restraint shall inform his/her supervisor as soon as possible and must submit a written detailed anecdotal report of the cause/conditions that called for the use of physical restraint. The report shall include the date, time, and location that the physical restraint took place. This report will be placed in the student's temporary records maintained by the State School with a copy to be sent to the parent of the student and through the chain of command to the facility administrator.

d) All direct care staff shall be trained in behavior intervention techniques, including physical restraint, to prevent injury to the students. Documentation of training shall be maintained in the employee personnel files kept at each State School. Employees that have not completed the training may not employ physical restraint.
Exclusionary Discipline: Suspension, Expulsion, and Alternative Placement

Grounds for Suspension or Expulsion

LAWS

105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(a) To expel pupils guilty of gross disobedience or misconduct, including gross disobedience or misconduct perpetuated by electronic means, pursuant to subsection (b-20) of this Section, and no action shall lie against them for such expulsion. Expulsion shall take place only after the parents have been requested to appear at a meeting of the board, or with a hearing officer appointed by it, to discuss their child's behavior. Such request shall be made by registered or certified mail and shall state the time, place and purpose of the meeting. The board, or a hearing officer appointed by it, at such meeting shall state the reasons for dismissal and the date on which the expulsion is to become effective. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting and the board may take such action thereon as it finds appropriate. If the board acts to expel a pupil, the written expulsion decision shall detail the specific reasons why removing the pupil from the learning environment is in the best interest of the school. The expulsion decision shall also include a rationale as to the specific duration of the expulsion. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code [105 ILCS 5/13A-0.5 et seq. or 105 ILCS 5/13B-1 et seq.]. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(b) To suspend or by policy to authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of gross disobedience or misconduct, or to suspend pupils guilty of gross disobedience or misconduct on the school bus from riding the school bus, pursuant to subsections (b-15) and (b-20) of this Section, and no action shall lie against them for such suspension. The board may by policy authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of such acts for a period not to exceed 10 school days. If a pupil is suspended due to gross disobedience or misconduct on a school bus, the board may suspend the pupil in excess of 10 school days for safety reasons.

Any suspension shall be reported immediately to the parents or guardian of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardian, the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review, the parents or guardian of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases
in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. School officials shall limit the number and duration of expulsions and suspensions to the greatest extent practicable, and it is recommended that they use them only for legitimate educational purposes. To ensure that students are not excluded from school unnecessarily, it is recommended that school officials consider forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions.

(b-10) Unless otherwise required by federal law or this Code, school boards may not institute zero-tolerance policies by which school administrators are required to suspend or expel students for particular behaviors.

(b-15) Out-of-school suspensions of 3 days or less may be used only if the student's continuing presence in school would pose a threat to school safety or a disruption to other students' learning opportunities. For purposes of this subsection (b-15), "threat to school safety or a disruption to other students' learning opportunities" shall be determined on a case-by-case basis by the school board or its designee. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of suspensions to the greatest extent practicable.

(b-20) Unless otherwise required by this Code, out-of-school suspensions of longer than 3 days, expulsions, and disciplinary removals to alternative schools may be used only if other appropriate and available behavioral and disciplinary interventions have been exhausted and the student's continuing presence in school would either (i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school. For purposes of this subsection (b-20), "threat to the safety of other students, staff, or members of the school community" and "substantially disrupt, impede, or interfere with the operation of the school" shall be determined on a case-by-case basis by school officials. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of student exclusions to the greatest extent practicable.

Within the suspension decision described in subsection (b) of this Section or the expulsion decision described in subsection (a) of this Section, it shall be documented whether other interventions were attempted or whether it was determined that there were no other appropriate and available interventions.

(b-25) Students who are suspended out-of-school for longer than 4 school days shall be provided appropriate and available support services during the period of their suspension. For purposes of this subsection (b-25), "appropriate and available support services" shall be determined by school authorities. Within the suspension decision described in subsection (b) of this Section, it shall be documented whether such services are to be provided or whether it was determined that there are no such appropriate and available services.

A school district may refer students who are expelled to appropriate and available support services.

A school district shall create a policy to facilitate the re-engagement of students who are suspended out-of-school, expelled, or returning from an alternative school setting.

(b-30) A school district shall create a policy by which suspended pupils, including those pupils suspended from the school bus who do not have alternate transportation to school, shall have the opportunity to make up work for equivalent academic credit. It shall be the responsibility of a pupil's parent or guardian to notify school officials that a pupil suspended from the school bus does not have alternate transportation to school.
The Department of Human Services shall be invited to send a representative to consult with the board at such meeting whenever there is evidence that mental illness may be the cause for expulsion or suspension.

(c-5) School districts shall make reasonable efforts to provide ongoing professional development to teachers, administrators, school board members, school resource officers, and staff on the adverse consequences of school exclusion and justice-system involvement, effective classroom management strategies, culturally responsive discipline, the appropriate and available supportive services for the promotion of student attendance and engagement, and developmentally appropriate disciplinary methods that promote positive and healthy school climates.

(d) The board may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis. A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year:

(1) A firearm. For the purposes of this Section, "firearm" means any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 [430 ILCS 65/1.1] of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 [720 ILCS 5/24-1] of the Criminal Code of 2012. The expulsion period under this subdivision (1) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

(2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined in subdivision (1) of this subsection (d). The expulsion requirement under this subdivision (2) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

Expulsion or suspension shall be construed in a manner consistent with the federal Individuals with Disabilities Education Act. A student who is subject to suspension or expulsion as provided in this Section may be eligible for a transfer to an alternative school program in accordance with Article 13A of the School Code.

(d-5) The board may suspend or by regulation authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend a student for a period not to exceed 10 school days or may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis, if (i) that student has been determined to have made an explicit threat on an Internet website against a school employee, a student, or any school-related personnel, (ii) the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and (iii) the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

(e) To maintain order and security in the schools, school authorities may inspect and search places and areas such as lockers, desks, parking lots, and other school property and equipment owned or controlled by the school, as well as personal effects left in those places and areas by students, without notice to or the consent of the student, and without a search warrant. As a matter of public policy, the General Assembly finds that students have no reasonable expectation of privacy in these places and areas or in their personal effects left in these places and areas. School authorities may request the assistance of law enforcement officials for the purpose of conducting inspections and searches of lockers, desks, parking lots, and other school property and equipment owned or controlled by the school for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through
the use of specially trained dogs. If a search conducted in accordance with this Section produces evidence that the student has violated or is violating either the law, local ordinance, or the school's policies or rules, such evidence may be seized by school authorities, and disciplinary action may be taken. School authorities may also turn over such evidence to law enforcement authorities.

(f) Suspension or expulsion may include suspension or expulsion from school and all school activities and a prohibition from being present on school grounds.

(g) A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion in an alternative school program under Article 13A of this Code or an alternative learning opportunities program under Article 13B of this Code before being admitted into the school district if there is no threat to the safety of students or staff in the alternative program.

(h) School officials shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties.

(i) A student may not be issued a monetary fine or fee as a disciplinary consequence, though this shall not preclude requiring a student to provide restitution for lost, stolen, or damaged property.

(j) Subsections (a) through (i) of this Section shall apply to elementary and secondary schools, charter schools, special charter districts, and school districts organized under Article 34 [105 ILCS 5/34-1 et seq.] of this Code.

(k) The expulsion of children enrolled in programs funded under Section 1C-2 of this Code [105 ILCS 5/1C-2] is subject to the requirements under paragraph (7) of subsection (a) of Section 2-3.71 [105 ILCS 5/2-3.71] of this Code.

(l) Beginning with the 2018-2019 school year, an in-school suspension program provided by a school district for any students in kindergarten through grade 12 may focus on promoting non-violent conflict resolution and positive interaction with other students and school personnel. A school district may employ a school social worker or a licensed mental health professional to oversee an in-school suspension program in kindergarten through grade 12.

105 ILCS 5/34-19. By-laws, rules and regulations; business transacted at regular meetings; voting; records.
The board shall, subject to the limitations in this Article, establish by-laws, rules and regulations, which shall have the force of ordinances, for the proper maintenance of a uniform system of discipline for both employees and pupils, and for the entire management of the schools, and may fix the school age of pupils, the minimum of which in kindergartens shall not be under 4 years, except that, based upon an assessment of the child's readiness, children who have attended a non-public preschool and continued their education at that school through kindergarten, were taught in kindergarten by an appropriately certified teacher, and will attain the age of 6 years on or before December 31 of the year of the 2009-2010 school term and each school term thereafter may attend first grade upon commencement of such term, and in grade schools shall not be under 6 years. It may expel, suspend or, subject to the limitations of all policies established or adopted under Section 10-22.6 or 14-8.05 [105 ILCS 5/10-22.6 or 105 ILCS 5/14-8.05], otherwise discipline any pupil found guilty of gross disobedience, misconduct, or other violation of the by-laws, rules, and regulations, including gross disobedience or misconduct perpetuated by electronic means. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code [105 ILCS 5/13A-0.5 or 105 ILCS 5/13B-1]. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the
suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. The bylaws, rules and regulations of the board shall be enacted, money shall be appropriated or expended, salaries shall be fixed or changed, and textbooks, electronic textbooks, and courses of instruction shall be adopted or changed only at the regular meetings of the board and by a vote of a majority of the full membership of the board; provided that notwithstanding any other provision of this Article or the School Code, neither the board or any local school council may purchase any textbook for use in any public school of the district from any textbook publisher that fails to furnish any computer diskettes as required under Section 28-21 [105 ILCS 5/28-21]. Funds appropriated for textbook purchases must be available for electronic textbook purchases and the technological equipment necessary to gain access to and use electronic textbooks at the local school council's discretion. The board shall be further encouraged to provide opportunities for public hearing and testimony before the adoption of bylaws, rules and regulations. Upon all propositions requiring for their adoption at least a majority of all the members of the board the yeas and nays shall be taken and reported. The by-laws, rules and regulations of the board shall not be repealed, amended or added to, except by a vote of 2/3 of the full membership of the board. The board shall keep a record of all its proceedings. Such records and all by-laws, rules and regulations, or parts thereof, may be proved by a copy thereof certified to be such by the secretary of the board, but if they are printed in book or pamphlet form which are purported to be published by authority of the board they need not be otherwise published and the book or pamphlet shall be received as evidence, without further proof, of the records, by-laws, rules and regulations, or any part thereof, as of the dates thereof as shown in such book or pamphlet, in all courts and places where judicial proceedings are had.

Limitations or Conditions on Exclusionary Discipline

LAWS

105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.
(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. School officials shall limit the number and duration of expulsions and suspensions to the greatest extent practicable, and it is recommended that they use them only for legitimate educational purposes. To ensure that students are not excluded from school unnecessarily, it is recommended that school officials consider forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions.
(b-10) Unless otherwise required by federal law or this Code, school boards may not institute zero-tolerance policies by which school administrators are required to suspend or expel students for particular behaviors.
(b-15) Out-of-school suspensions of 3 days or less may be used only if the student's continuing presence in school would pose a threat to school safety or a disruption to other students' learning opportunities. For purposes of this subsection (b-15), "threat to school safety or a disruption to other students' learning opportunities" shall be determined on a case-by-case basis by the school board or its designee. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of suspensions to the greatest extent practicable.
(b-20) Unless otherwise required by this Code, out-of-school suspensions of longer than 3 days, expulsions, and disciplinary removals to alternative schools may be used only if other appropriate and available behavioral and disciplinary interventions have been exhausted and the student's continuing
presence in school would either (i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school. For purposes of this subsection (b-20), "threat to the safety of other students, staff, or members of the school community" and "substantially disrupt, impede, or interfere with the operation of the school" shall be determined on a case-by-case basis by school officials. For purposes of this subsection (b-20), the determination of whether "appropriate and available behavioral and disciplinary interventions have been exhausted" shall be made by school officials. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of student exclusions to the greatest extent practicable. Within the suspension decision described in subsection (b) of this Section or the expulsion decision described in subsection (a) of this Section, it shall be documented whether other interventions were attempted or whether it was determined that there were no other appropriate and available interventions. [...] 

(d) The board may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis. A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year:

(1) A firearm. For the purposes of this Section, "firearm" means any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 [430 ILCS 65/1.1] of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 [720 ILCS 5/24-1] of the Criminal Code of 2012. The expulsion period under this subdivision (1) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

(2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined in subdivision (1) of this subsection (d). The expulsion requirement under this subdivision (2) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

(a) No punitive action, including out-of-school suspensions, expulsions, or court action, shall be taken against truant minors for such truancy unless appropriate and available supportive services and other school resources have been provided to the student. Notwithstanding the provisions of Section 10-22.6 of this Code [105 ILCS 5/10-22.6], a truant minor may not be expelled for nonattendance unless he or she has accrued 15 consecutive days of absences without valid cause and the student cannot be located by the school district or the school district has located the student but cannot, after exhausting all available supportive services, compel the student to return to school.

Due Process

LAWS

105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(a) To expel pupils guilty of gross disobedience or misconduct, including gross disobedience or misconduct perpetrated by electronic means, pursuant to subsection (b-20) of this Section, and no action shall lie against them for such expulsion. Expulsion shall take place only after the parents have been
requested to appear at a meeting of the board, or with a hearing officer appointed by it, to discuss their child's behavior. Such request shall be made by registered or certified mail and shall state the time, place and purpose of the meeting. The board, or a hearing officer appointed by it, at such meeting shall state the reasons for dismissal and the date on which the expulsion is to become effective. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting and the board may take such action thereon as it finds appropriate. If the board acts to expel a pupil, the written expulsion decision shall detail the specific reasons why removing the pupil from the learning environment is in the best interest of the school. The expulsion decision shall also include a rationale as to the specific duration of the expulsion. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code [105 ILCS 5/13A-0.5 et seq. or 105 ILCS 5/13B-1 et seq.]. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. [...] 

Any suspension shall be reported immediately to the parents or guardian of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardian, the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review, the parents or guardian of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

**105 ILCS 5/13A-3. Alternative schools.**

(b) Each regional superintendent shall hold a public hearing, by December 1 of the school year following the effective date of this amendatory Act of 1995, to determine the need for an alternative school. The hearing shall be held before the regional board. The regional superintendent, after consulting with the district superintendent of each school district located within the regional superintendent's educational service region and the regional board, shall determine the location and the need of the alternative school within that region. In making this determination, the regional superintendent shall consider the following:

1. the possible utilization of existing buildings, including but not limited to governmental buildings, that are, or could reasonably be made, usable as an alternative school;
2. which available option would be least costly; and
3. distances that administratively transferred students would need to travel and the costs of that travel.

**105 ILCS 5/13A-4. Administrative transfers.**

A student who is determined to be subject to suspension or expulsion in the manner provided by Section 10-22.6 [105 ILCS 5/10-22.6] (or, in the case of a student enrolled in the public schools of a school district organized under Article 34, in accordance with the uniform system of discipline established under Section 34-19 [105 ILCS 5/34-19]) may be immediately transferred to the alternative program. At the earliest time following that transfer appropriate personnel from the sending school district and appropriate personnel of
the alternative program shall meet to develop an alternative education plan for the student. The student's parent or guardian shall be invited to this meeting. The student may be invited. The alternative educational plan shall include, but not be limited to all of the following:

(1) The duration of the plan, including a date after which the student may be returned to the regular educational program in the public schools of the transferring district. If the parent or guardian of a student who is scheduled to be returned to the regular education program in the public schools of the district files a written objection to the return with the principal of the alternative school, the matter shall be referred by the principal to the regional superintendent of the educational service region in which the alternative school program is located for a hearing. Notice of the hearing shall be given by the regional superintendent to the student's parent or guardian. After the hearing, the regional superintendent may take such action as he or she finds appropriate and in the best interests of the student. The determination of the regional superintendent shall be final.

(2) The specific academic and behavioral components of the plan.

(3) A method and time frame for reviewing the student's progress.

Notwithstanding any other provision of this Article, if a student for whom an individualized educational program has been developed under Article 14 is transferred to an alternative school program under this Article 13A, that individualized educational program shall continue to apply to that student following the transfer unless modified in accordance with the provisions of Article 14.

Nothing in this Section affects the power of the board to establish rules with respect to discipline; except that each board shall establish a policy on discipline, and the policy so established shall provide, subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], that a teacher, other certificated employee, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student may use reasonable force as needed to maintain safety for the other students, school personnel or persons or for the purpose of self defense or the defense of property, shall provide that a teacher may remove a student from the classroom for disruptive behavior, and shall include provisions which provide due process to students. The policy shall not include slapping, paddling or prolonged maintenance of students in physically painful positions nor shall it include the intentional infliction of bodily harm.

The board may make and enforce reasonable rules of conduct and sportsmanship for athletic and extracurricular school events. Any person who violates such rules may be denied admission to school events for not more than one year, provided that written 10 days notice of the violation is given such person and a hearing had thereon by the board pursuant to its rules and regulations. The administration of any school may sign complaints as agents of the school against persons committing any offense at school events.

105 ILCS 5/34-4.5. Chronic truants.

(a) Office of Chronic Truant Adjudication. The board shall establish and implement an Office of Chronic Truant Adjudication, which shall be responsible for administratively adjudicating cases of chronic truancy and imposing appropriate sanctions. The board shall appoint or employ hearing officers to perform the adjudicatory functions of that Office. Principals and other appropriate personnel may refer pupils suspected of being chronic truants, as defined in Section 26-2a of this Code [105 ILCS 5/26-2a], to the Office of Chronic Truant Adjudication.

(b) Notices. Before any hearing may be held under subsection (c), the principal of the school attended by the pupil or the principal's designee shall notify the pupil's parent or guardian by personal visit, letter, or telephone of each unexcused absence of the pupil. After giving the parent or guardian notice of the tenth
unexcused absence of the pupil, the principal or the principal's designee shall send the pupil's parent or guardian a letter, by certified mail, return receipt requested, notifying the parent or guardian that he or she is subjecting himself or herself to a hearing procedure as provided under subsection (c) and clearly describing any and all possible penalties that may be imposed as provided for in subsections (d) and (e) of this Section.

(c) Hearing. Once a pupil has been referred to the Office of Chronic Truant Adjudication, a hearing shall be scheduled before an appointed hearing officer, and the pupil and the pupil's parents or guardian shall be notified by certified mail, return receipt requested stating the time, place, and purpose of the hearing. The hearing officer shall hold a hearing and render a written decision within 14 days determining whether the pupil is a chronic truant as defined in Section 26-2a of this Code [105 ILCS 5/26-2a] and whether the parent or guardian took reasonable steps to assure the pupil's attendance at school. The hearing shall be private unless a public hearing is requested by the pupil's parent or guardian, and the pupil may be present at the hearing with a representative in addition to the pupil's parent or guardian. The board shall present evidence of the pupil's truancy, and the pupil and the parent or guardian or representative of the pupil may cross examine witnesses, present witnesses and evidence, and present defenses to the charges. All testimony at the hearing shall be taken under oath administered by the hearing officer. The decision of the hearing officer shall constitute an "administrative decision" for purposes of judicial review under the Administrative Review Law [735 ILCS 5/3-101 et seq.].

(d) Penalties. The hearing officer may require the pupil or the pupil's parent or guardian or both the pupil and the pupil's parent or guardian to do any or all of the following: perform reasonable school or community services for a period not to exceed 30 days; complete a parenting education program; obtain counseling or other supportive services; and comply with an individualized educational plan or service plan as provided by appropriate school officials. If the parent or guardian of the chronic truant shows that he or she took reasonable steps to insure attendance of the pupil at school, he or she shall not be required to perform services.

(e) Non-compliance with sanctions. If a pupil determined by a hearing officer to be a chronic truant or the parent or guardian of the pupil fails to comply with the sanctions ordered by the hearing officer under subsection (c) of this Section, the Office of Chronic Truant Adjudication may refer the matter to the State's Attorney for prosecution under Section 3-33.5 of the Juvenile Court Act of 1987 [705 ILCS 405/3-33.5].

(f) Limitation on applicability. Nothing in this Section shall be construed to apply to a parent or guardian of a pupil not required to attend a public school pursuant to Section 26-1 [105 ILCS 5/26-1].

Subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], teachers, other certificated educational employees, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student shall maintain discipline in the schools, including school grounds which are owned or leased by the board and used for school purposes and activities. In all matters relating to the discipline in and conduct of the schools and the school children, they stand in the relation of parents and guardians to the pupils. This relationship shall extend to all activities connected with the school program, including all athletic and extracurricular programs, and may be exercised at any time for the safety and supervision of the pupils in the absence of their parents or guardians.

Nothing in this Section affects the power of the board to establish rules with respect to discipline, except that the rules of the board must provide, subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], that a teacher, other certificated employee, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student may use reasonable force as needed to maintain safety for the other students, shall provide that a
teacher may remove a student from the classroom for disruptive behavior, and must include provisions which provide due process to students.

Return to School Following Removal

LAWS

105 ILCS 5/2-3.13a. School records; transferring students.

(a) The State Board of Education shall establish and implement rules requiring all of the public schools and all private or nonpublic elementary and secondary schools located in this State, whenever any such school has a student who is transferring to any other public elementary or secondary school located in this or in any other state, to forward within 10 days of notice of the student's transfer an unofficial record of that student's grades to the school to which such student is transferring. Each public school at the same time also shall forward to the school to which the student is transferring the remainder of the student's school student records as required by the Illinois School Student Records Act [105 ILCS 10/1 et seq.]. In addition, if a student is transferring from a public school, whether located in this or any other state, from which the student has been suspended or expelled for knowingly possessing in a school building or on school grounds a weapon as defined in the Gun Free Schools Act [20 U.S.C.S. § 7151 et seq.], for knowingly possessing, selling, or delivering in a school building or on school grounds a controlled substance or cannabis, or for battering a staff member of the school, and if the period of suspension or expulsion has not expired at the time the student attempts to transfer into another public school in the same or any other school district: (i) any school student records required to be transferred shall include the date and duration of the period of suspension or expulsion; and (ii) with the exception of transfers into the Department of Juvenile Justice school district, the student shall not be permitted to attend class in the public school into which he or she is transferring until the student has served the entire period of the suspension or expulsion imposed by the school from which the student is transferring, provided that the school board may approve the placement of the student in an alternative school program established under Article 13A of this Code [105 ILCS 5/13A-0.5 et seq.]. A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion before being admitted into the school district. This policy may allow placement of the student in an alternative school program established under Article 13A of this Code, if available, for the remainder of the suspension or expulsion. Each public school and each private or nonpublic elementary or secondary school in this State shall within 10 days after the student has paid all of his or her outstanding fines and fees and at its own expense forward an official transcript of the scholastic records of each student transferring from that school in strict accordance with the provisions of this Section and the rules established by the State Board of Education as herein provided.

Before receiving State funds for an alternative learning opportunities program, a school district must adopt policies and guidelines for the admission and transfer of students to the program and for transitioning students as appropriate back to the regular school program in a manner consistent with guidelines provided by the State Board. A school district must adopt policies and procedures for the establishment of a new alternative learning opportunities program or for securing State approval for an
existing program. Any district that plans to establish an alternative learning opportunities program must notify the State Superintendent of Education before enrolling students in the program.

105 ILCS 5/13B-25.20. Requirements for the district plan.
The district plan must be consistent with the school district's overall mission and goals and aligned with the local school improvement plans of each participating school. The district plan must include all of the following:

(12) How students will be admitted to the program and how students will make an effective transition back to the regular school program, as appropriate.

105 ILCS 5/26-2. Enrolled pupils not of compulsory school age.
(c) A school or school district may deny enrollment to a student 17 years of age or older for one semester for failure to meet minimum attendance standards if all of the following conditions are met:

(1) The student was absent without valid cause for 20% or more of the attendance days in the semester immediately prior to the current semester.

(2) The student and the student’s parent or guardian are given written notice warning that the student is subject to denial from enrollment for one semester unless the student is absent without valid cause less than 20% of the attendance days in the current semester.

(3) The student’s parent or guardian is provided with the right to appeal the notice, as determined by the State Board of Education in accordance with due process.

(4) The student is provided with attendance remediation services, including without limitation assessment, counseling, and support services.

(5) The student is absent without valid cause for 20% or more of the attendance days in the current semester.

A school or school district may not deny enrollment to a student (or reenrollment to a dropout) who is at least 17 years of age or older but below 19 years for more than one consecutive semester for failure to meet attendance standards.

REGULATIONS

240.20. Requirements for Student Participation.
Students in grades 4 through 12 who meet enrollment criteria established by the school district and who meet the definition of "at risk of academic failure" are eligible to participate in an Alternative Learning Opportunities Program [105 ILCS 5/13B-20.25] approved under this Part.

p) Notwithstanding the eligibility criteria stated in Section 13B-20.25 of the School Code, a school district may enroll in its Alternative Learning Opportunities Program any student it has suspended or expelled, in accordance with the provisions of Section 10-22.6 or 34-19 of the School Code [105 ILCS 5/10-22.6 or 34-19].

1) The enrolling school district shall ensure that the educational program and other services provided for the suspended or expelled student meet each of the requirements set forth in this Part.

2) A suspended or expelled student shall not be permitted to return to or re-enroll in his or her home school pursuant to subsection (j) of this Section until the term of the suspension or expulsion is completed.

240.50. Requirements for returning the student to the regular school program.
a) It shall be the goal of the Alternative Learning Opportunities Program (ALOP) to assist students in successfully completing their education, including, but not limited to, returning to the regular school
program, or to a postsecondary or adult education program, as soon as appropriate. In establishing procedures for the transition of students to the regular or another program, districts shall ensure that:

1) an assessment is conducted prior to the student's leaving the ALOP to identify the educational supports and/or other support services the student would need to successfully progress in the regular school curriculum;

2) a staff member is assigned to monitor the student's progress in the regular school program for not less than two semesters after the student leaves the ALOP; and

3) for a student who has been suspended or expelled from his or her home school and enrolled by a district in its ALOP, the student shall not be permitted to return to or re-enroll in his or her home school until the term of the suspension or expulsion is completed.

b) The requirements of subsection (a) of this Section apply in instances where a student is removed from the ALOP by his or her parent or guardian before completion of the objectives stated in his or her Student Success Plan.

A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion before being admitted into the school district. This policy may allow placement of the student in an alternative school program established under Article 13A of this Code, if available, for the remainder of the suspension or expulsion. Each public school and each private or nonpublic elementary or secondary school in this State shall within 10 days after the student has paid all of his or her outstanding fines and fees and at its own expense forward an official transcript of the scholastic records of each student transferring from that school in strict accordance with the provisions of this Section and the rules established by the State Board of Education as herein provided.
105 ILCS 5/2-3.66. Truants' alternative and optional education programs.

To establish projects to offer modified instructional programs or other services designed to prevent students from dropping out of school, including programs pursuant to Section 2-3.41 [105 ILCS 5/2-3.41], and to serve as a part time or full time option in lieu of regular school attendance and to award grants to local school districts, educational service regions or community college districts from appropriated funds to assist districts in establishing such projects. The education agency may operate its own program or enter into a contract with another not-for-profit entity to implement the program. The projects shall allow dropouts, up to and including age 21, potential dropouts, including truants, uninvolved, unmotivated and disaffected students, as defined by State Board of Education rules and regulations, to enroll, as an alternative to regular school attendance, in an optional education program which may be established by school board policy and is in conformance with rules adopted by the State Board of Education. Truants' Alternative and Optional Education programs funded pursuant to this Section shall be planned by a student, the student's parents or legal guardians, unless the student is 18 years or older, and school officials and shall culminate in an individualized optional education plan. Such plan shall focus on academic or vocational skills, or both, and may include, but not be limited to, evening school, summer school, community college courses, adult education, preparation courses for high school equivalency testing, vocational training, work experience, programs to enhance self concept and parenting courses. School districts which are awarded grants pursuant to this Section shall be authorized to provide day care services to children of students who are eligible and desire to enroll in programs established and funded under this Section, but only if and to the extent that such day care is necessary to enable those eligible students to attend and participate in the programs and courses which are conducted pursuant to this Section. School districts and regional offices of education may claim general State aid under Section 18-8.05 [105 ILCS 5/18-8.05] or evidence-based funding under Section 18-8.15 [105 ILCS 5/18-8.15] for students enrolled in truants' alternative and optional education programs, provided that such students are receiving services that are supplemental to a program leading to a high school diploma and are otherwise eligible to be claimed for general State aid under Section 18-8.05 or evidence-based funding under Section 18-8.15, as applicable.

105 ILCS 5/3-16. Grants to alternative schools, safe schools, and alternative learning opportunities programs.

The State Board of Education, subject to appropriation, shall award grants to alternative schools, safe schools, and alternative learning opportunities programs operated by a regional office of education. For fiscal year 2018, to calculate grant amounts to the programs operated by regional offices of education, the State Board shall calculate an amount equal to the greater of the regional program's best 3 months of average daily attendance for the 2016-2017 school year or the average of the best 3 months of average daily attendance for the 2014-2015 school year through the 2016-2017 school year, multiplied by the amount of $6,119. For fiscal year 2019, to calculate grant amounts to the programs operated by regional offices of education, the State Board shall calculate an amount equal to the greater of the regional program's best 3 months of average daily attendance for the 2017-2018 school year or the average of the best 3 months of average daily attendance for the 2015-2016 school year through the 2017-2018 school year, multiplied by the amount of $6,119. These amounts shall be termed the "Regional Program Increased Enrollment Recognition". If the amount of the Regional Program Increased Enrollment Recognition is greater than the amount of the regional office of education program's Base Funding Minimum for fiscal year 2018 or fiscal year 2019, calculated under Section 18-8.15 [105 ILCS 5/18-8.15], then the State Board of Education shall pay the regional program a grant equal to the difference between the regional program's Regional Program Increased Enrollment Recognition and the Base Funding Minimum for fiscal year 2018 or fiscal year 2019, respectively. Nothing in this Section shall be construed to alter any payments or calculations under Section 18-8.15.
105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(a) To expel pupils guilty of gross disobedience or misconduct, including gross disobedience or misconduct perpetuated by electronic means, pursuant to subsection (b-20) of this Section, and no action shall lie against them for such expulsion. Expulsion shall take place only after the parents have been requested to appear at a meeting of the board, or with a hearing officer appointed by it, to discuss their child's behavior. Such request shall be made by registered or certified mail and shall state the time, place and purpose of the meeting. The board, or a hearing officer appointed by it, at such meeting shall state the reasons for dismissal and the date on which the expulsion is to become effective. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting and the board may take such action thereon as it finds appropriate. If the board acts to expel a pupil, the written expulsion decision shall detail the specific reasons why removing the pupil from the learning environment is in the best interest of the school. The expulsion decision shall also include a rationale as to the specific duration of the expulsion. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code [105 ILCS 5/13A-0.5 et seq. or 105 ILCS 5/13B-1 et seq.]. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. [...] Any suspension shall be reported immediately to the parents or guardian of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardian, the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review, the parents or guardian of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. [...] (g) A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion in an alternative school program under Article 13A of this Code or an alternative learning opportunities program under Article 13B of this Code before being admitted into the school district if there is no threat to the safety of students or staff in the alternative program.

105 ILCS 5/13A-1. Legislative declaration.
The General Assembly finds and declares as follows: [...] (e) Disruptive students typically derive little benefit from traditional school programs and may benefit substantially by being transferred from their current school into an alternative public school program, where their particular needs may be more appropriately and individually addressed and where they may benefit from the opportunity for a fresh start in a new educational environment. At those alternative school programs, innovative academic and school-to-work programs, including but not limited to the techniques of work based learning and technology delivered learning, can be utilized to best help the students enrolled in those schools to become productive citizens. [...]
(h) Every school district in the State shall do all it can to ensure a safe and appropriate educational environment for all of its students, and the first, but not the only, step school districts must take to achieve that goal is to administratively transfer disruptive students from the schools they currently attend to the alternative school programs created by this Article. Those administrative transfers will also provide optional educational programs to best fit the needs of the transferred students.

(i) Administrative transfers may prove more productive for dealing with disruptive students than out-of-school suspensions or expulsions, which have been the subject of much criticism.

(j) Because of the urgency of the problems described in this Section, as well as their statewide impact, the State of Illinois bears the responsibility to establish and fully fund alternative schools as soon as possible, thereby providing school districts with an option for dealing with disruptive students that they do not now possess.

(k) While school districts shall comply with all applicable federal laws and regulations, they should do so consistent with the goals and policies stated in this Article. Further, this Article is intended to be consistent with all applicable federal laws and regulations.

(l) An alternative school program established under this Article is subject to the other provisions of this Code that apply generally in the public schools of this State and to the rules and regulations promulgated thereunder, except as otherwise provided in this Article.

(m) The provisions of the Illinois Educational Labor Relations Act [115 ILCS 5/1 et seq.] apply to those alternative school programs that are created on or after the effective date of this amendatory Act of 1995.

(a) Except with respect to the Chicago public school system as provided in Section 13A-11 [105 ILCS 5/13A-11], beginning with the 1996-97 school year, there is hereby created in this State a system of alternative school education programs. At least one alternative school program may be located within each educational service region or established jointly by more than one regional office of education to serve more than one educational service region.

(b) Each regional superintendent shall hold a public hearing, by December 1 of the school year following the effective date of this amendatory Act of 1995, to determine the need for an alternative school. The hearing shall be held before the regional board. The regional superintendent, after consulting with the district superintendent of each school district located within the regional superintendent's educational service region and the regional board, shall determine the location and the need of the alternative school within that region. In making this determination, the regional superintendent shall consider the following:

(1) the possible utilization of existing buildings, including but not limited to governmental buildings, that are, or could reasonably be made, usable as an alternative school;

(2) which available option would be least costly; and

(3) distances that administratively transferred students would need to travel and the costs of that travel.

(c) Upon determination of the need for establishment of an alternative school program, each school district located within the region shall provide the regional superintendent with a copy of the district's discipline policy and procedure for effecting the suspension or expulsion of the students of that district. Thereafter, the regional superintendent in cooperation with a representative from each school district in the region shall adopt policies and procedures that shall guide each district in the identification and placement of students in the alternative school program.

(d) The regional superintendent shall locate the alternative school program so that it is as far away from any other school buildings or school grounds in that educational service region as circumstances permit.
(e) With the approval of the State board, additional alternative school programs may be established in an educational service region. If the regional superintendent determines that an additional alternative school is required in the regional superintendent's educational service region, he or she may petition the State board to authorize one or more additional alternative school programs in that region.

(f) In determining whether an additional alternative school program is necessary and appropriate for an educational service region requesting it, the State board shall consider, among other factors, the following:

1. the geographic size of the educational service region and distances that students within that region must travel in order to attend the existing alternative school program;
2. the student population of schools comprising the educational service region and the likely student population of all alternative school programs within that region if the petition is granted;
3. any other logistical considerations; and
4. the costs necessitated by establishing an additional alternative school in that educational service region.

(g) In the event the State board grants a petition for an additional alternative school program, then the State board, after consulting the regional superintendent, shall decide where the additional alternative school program shall be located within that region.

A student who is determined to be subject to suspension or expulsion in the manner provided by Section 10-22.6 [105 ILCS 5/10-22.6] (or, in the case of a student enrolled in the public schools of a school district organized under Article 34, in accordance with the uniform system of discipline established under Section 34-19 [105 ILCS 5/34-19]) may be immediately transferred to the alternative program. At the earliest time following that transfer appropriate personnel from the sending school district and appropriate personnel of the alternative program shall meet to develop an alternative education plan for the student. The student's parent or guardian shall be invited to this meeting. The student may be invited. The alternative educational plan shall include, but not be limited to all of the following:

1. The duration of the plan, including a date after which the student may be returned to the regular educational program in the public schools of the transferring district. If the parent or guardian of a student who is scheduled to be returned to the regular education program in the public schools of the district files a written objection to the return with the principal of the alternative school, the matter shall be referred by the principal to the regional superintendent of the educational service region in which the alternative school program is located for a hearing. Notice of the hearing shall be given by the regional superintendent to the student's parent or guardian. After the hearing, the regional superintendent may take such action as he or she finds appropriate and in the best interests of the student. The determination of the regional superintendent shall be final.
2. The specific academic and behavioral components of the plan.
3. A method and time frame for reviewing the student's progress.

Notwithstanding any other provision of this Article, if a student for whom an individualized educational program has been developed under Article 14 is transferred to an alternative school program under this Article 13A, that individualized educational program shall continue to apply to that student following the transfer unless modified in accordance with the provisions of Article 14.

(a) The regional superintendent shall implement, or contract with one or more school districts to implement, a multi-disciplinary curriculum, which may include work-based learning and community service
work approved by the regional superintendent of schools in consultation with the State Board of Education for which academic credit is earned, for the alternative school program designed to address the individualized needs of the students of that program, with special emphasis toward making the educational experience of each student meaningful and worthwhile. In the design and implementation of that curriculum, the regional superintendent or school district shall give due consideration to the rules and regulations adopted by the State Board of Education for alternative schools and optional education programs. The regional superintendent or school district (i) may contract with third parties for any services otherwise performed by employees and (ii) may apply for waivers or modifications of mandates of this Code or of administrative rules as provided in Section 2-3.25g of this Code [105 ILCS 5/2-3.25g] and as are necessary for the alternative school program.

(b) An administratively transferred student who successfully completes the requirements for his or her high school graduation shall receive a diploma identifying the student as graduating from the transferring high school. In the event the student is administratively transferred before enrolling in a high school, then that student shall receive a diploma from the high school the student would have attended if the student had not attended an alternative school program.

105 ILCS 5/13A-6. Administration; contracts; waivers.

(a) The regional superintendent shall administer, or contract with one or more school districts to administer, alternative school programs located within the educational service region. The regional superintendent or school district (i) may contract with third parties for any services otherwise performed by employees and (ii) may apply for waivers or modifications of mandates of this Code or of administrative rules as provided in Section 2-3.25g of this Code [105 ILCS 5/2-3.25g] and as are necessary for the alternative school program.

(b) The regional superintendent is responsible for the administrative and fiscal structure for the program.

(a) The State of Illinois shall provide funding for the alternative school programs within each educational service region and within the Chicago public school system by line item appropriation made to the State Board of Education for that purpose. This money, when appropriated, shall be provided to the regional superintendent and to the Chicago Board of Education, who shall establish a budget, including salaries, for their alternative school programs. Each program shall receive funding in the amount of $30,000 plus an amount based on the ratio of the region's or Chicago's best 3 months' average daily attendance in grades pre-kindergarten through 12 to the statewide totals of these amounts. For purposes of this calculation, the best 3 months' average daily attendance for each region or Chicago shall be calculated by adding to the best 3 months' average daily attendance the number of low-income students identified in the most recently available federal census multiplied by one-half times the percentage of the region's or Chicago's low-income students to the State's total low-income students. The State Board of Education shall retain up to 1.1% of the appropriation to be used to provide technical assistance, professional development, and evaluations for the programs.

(a-5) Notwithstanding any other provisions of this Section, for the 1998-1999 fiscal year, the total amount distributed under subsection (a) for an alternative school program shall be not less than the total amount that was distributed under that subsection for that alternative school program for the 1997-1998 fiscal year. If an alternative school program is to receive a total distribution under subsection (a) for the 1998-1999 fiscal year that is less than the total distribution that the program received under that subsection for the 1997-1998 fiscal year, that alternative school program shall also receive, from a separate appropriation made for purposes of this subsection (a-5), a supplementary payment equal to the amount by which its total distribution under subsection (a) for the 1997-1998 fiscal year exceeds the amount of the total distribution that the alternative school program receives under that subsection for the 1998-1999
fiscal year. If the amount appropriated for supplementary payments to alternative school programs under this subsection (a-5) is insufficient for that purpose, those supplementary payments shall be prorated among the alternative school programs entitled to receive those supplementary payments according to the aggregate amount of the appropriation made for purposes of this subsection (a-5).

(b) An alternative school program shall be entitled to receive general State aid as calculated in subsection (K) of Section 18-8.05 [105 ILCS 5/18-8.05] or evidence-based funding as calculated in subsection (g) of Section 18-8.15 [105 ILCS 5/18-8.15] upon filing a claim as provided therein. Any time that a student who is enrolled in an alternative school program spends in work-based learning, community service, or a similar alternative educational setting shall be included in determining the student's minimum number of clock hours of daily school work that constitute a day of attendance for purposes of calculating general State aid or evidence-based funding.

(c) An alternative school program may receive additional funding from its school districts in such amount as may be agreed upon by the parties and necessary to support the program. In addition, an alternative school program is authorized to accept and expend gifts, legacies, and grants, including but not limited to federal grants, from any source for purposes directly related to the conduct and operation of the program.

The purpose of this Article is to specify the requirements for the operation of alternative learning opportunities programs, which are intended to provide students at risk of academic failure with the education and support services needed to meet Illinois Learning Standards and to complete their education in an orderly, safe, and secure learning environment. Services provided under this Article should be provided in a manner that addresses individual learning styles, career development, and social needs to enable students to successfully complete their education.

"Student Success Plan" means a plan based on an assessment of a student's educational and social functioning and skills and that establishes goals and objectives for satisfactory performance in an alternative learning opportunities program. The Plan must (i) specify the curriculum and instructional methods to be used in improving the student's educational performance, (ii) outline the support services needed to remove barriers to learning, (iii) specify, when appropriate, the career development experiences the student will receive to enhance his or her career awareness, (iv) set objectives to ensure a successful transition back to the regular school program or to post-secondary educational options, and (v) outline the student's responsibilities under the Plan.

An alternative learning opportunities program shall provide a flexible standards-based learning environment, innovative and varied instructional strategies, a student-centered curriculum, social programs, and supplemental social, health, and support services to improve the educational achievement of students at risk of academic failure.

105 ILCS 5/13B-20.5. Eligible activities and services.
Alternative learning opportunities programs may include without limitation evening high school, in-school tutoring and mentoring programs, in-school suspension programs, high school completion programs to assist high school dropouts in completing their education, support services, parental involvement programs, and programs to develop, enhance, or extend the transition for students transferring back to the regular school program, an adult education program, or a post-secondary education program.
105 ILCS 5/13B-20.10. Who may establish and operate programs.
School districts may establish alternative learning opportunities programs or may contract with regional offices of education, intermediate service centers, public community colleges, non-profit or for-profit education providers, youth service agencies, community-based organizations, or other appropriate entities to establish alternative learning opportunities programs within the public school system and provide a range of alternative learning opportunities for those students in the State who do not meet Illinois Learning Standards. Districts may individually operate alternative learning opportunities programs or may collaborate with 2 or more districts or one or more regional offices of education or both or with intermediate service centers to create and operate alternative learning opportunities programs.

105 ILCS 5/13B-20.15. Other eligible providers of alternative learning opportunities.
School districts may contract with health, mental health, or human service organizations, workforce development boards or agencies, juvenile court services, juvenile justice agencies, juvenile detention programs, programs operated by the Department of Juvenile Justice, or other appropriate agencies or organizations to serve students whose needs are not being met in the regular school program by providing alternative learning opportunities.

105 ILCS 5/13B-20.20. Enrollment in other programs.
High school equivalency testing preparation programs are not eligible for funding under this Article. A student may enroll in a program approved under Section 18-8.05 or 18-8.15 of this Code [105 ILCS 5/18-8.05 or 105 ILCS 5/18-8.15], as appropriate, or attend both the alternative learning opportunities program and the regular school program to enhance student performance and facilitate on-time graduation.

Students in grades 4 through 12 who meet enrollment criteria established by the school district and who meet the definition of "student at risk of academic failure" are eligible to participate in an alternative learning opportunities program funded under this Article. Notwithstanding any other provision of law to the contrary, enrollment in a charter alternative learning opportunities program shall be open to any pupil who has been expelled or suspended for more than 20 days under Section 10-22.6 or 34-19 of this Code [105 ILCS 5/10-22.6 or 105 ILCS 5/34-19]. All rights granted under this Article to a student's parent or guardian become exclusively those of the student upon the student's 18th birthday.

105 ILCS 5/13B-20.30. Location of program.
A school district must consider offering an alternative learning opportunities program on-site in the regular school. An alternative learning opportunities program may be provided at facilities separate from the regular school or in classrooms elsewhere on school premises.

105 ILCS 5/13B-25. Eligibility for funding.
The criteria set forth in the following Sections preceding Section 13B-30 of this Code [105 ILCS 5/13B-30] shall determine the eligibility of an alternative learning opportunities program for funding.

105 ILCS 5/13B-25.5. General standards for eligibility for funding.
To be eligible for funding, an alternative learning opportunities program must provide evidence of an administrative structure, program activities, program staff, a budget, and a specific curriculum that is consistent with Illinois Learning Standards but may be different from the regular school program in terms of location, length of school day, program sequence, pace, instructional activities, or any combination of these.
105 ILCS 5/13B-25.10. District policies, guidelines, and procedures; notification.
Before receiving State funds for an alternative learning opportunities program, a school district must adopt policies and guidelines for the admission and transfer of students to the program and for transitioning students as appropriate back to the regular school program in a manner consistent with guidelines provided by the State Board. A school district must adopt policies and procedures for the establishment of a new alternative learning opportunities program or for securing State approval for an existing program. Any district that plans to establish an alternative learning opportunities program must notify the State Superintendent of Education before enrolling students in the program.

105 ILCS 5/13B-25.15. Planning process and district plan.
To apply for funding to establish or maintain an alternative learning opportunities program, a school district must initiate a planning process to specify the type of program needed by the district. Before submission of the district plan, the school district or consortium may apply for a one-year planning grant. The planning process may involve key education and community stakeholders, such as teachers, administrators, parents, interested members of the community, and other agencies or organizations as appropriate.

105 ILCS 5/13B-25.20. Requirements for the district plan.
The district plan must be consistent with the school district's overall mission and goals and aligned with the local school improvement plans of each participating school. The district plan must include all of the following:

(5) A detailed program budget that includes sources of funding to be used in conjunction with alternative learning opportunities grant funds and a plan for allocating costs to those funds.

(6) A plan that outlines how funding for alternative learning opportunities will be coordinated with other State and federal funds to ensure the efficient and effective delivery of the program.

105 ILCS 5/13B-30.5. Program assistance, evaluation, and monitoring.
Subject to the availability of State funds, the State Board is authorized to assist school districts in developing and implementing alternative learning opportunities programs to meet the educational needs of students at risk of academic failure. The State Board shall develop research-based guidelines for alternative learning opportunities programs, provide technical assistance to ensure the establishment of quality programs aligned with Illinois Learning Standards, and contract for services to conduct an annual statewide evaluation. The State Board shall conduct compliance visits of and monitor programs, as appropriate. The State Board may conduct other program-related research and planning projects, as appropriate, to enhance student outcomes.

The State Board is responsible for ensuring that all alternative learning opportunities programs are in compliance with all applicable federal and State laws, unless otherwise specified in this Article.

105 ILCS 5/13B-5. Legislative findings and declarations.
The General Assembly finds and declares the following:

(1) It is the responsibility of each school district to provide educational support for every student to meet Illinois Learning Standards.

(2) School districts need flexibility and financial support to assist local schools in their efforts to provide students with educational and other services needed for students to successfully master the curriculum.
(3) Alternative education in this State has traditionally provided student-centered curriculum, social services, and other support needed to help students succeed.

(4) Standards-based reform requires a comprehensive approach to alternative education to ensure that every student has the opportunity to meet the State's rigorous learning standards.

(5) While school districts operating alternative learning opportunities programs must comply with all applicable State and federal laws and rules, these districts should do so in a manner consistent with the goals and policies stated in this Article.

Before being enrolled in an alternative learning opportunities program, the student and each of his or her parents or guardians shall receive written notice to attend a conference to determine if the student would benefit from attending an alternative learning opportunities program. The conference must provide all of the information necessary for the student and parent or guardian to make an informed decision regarding enrollment in an alternative learning opportunities program. The conference shall include a discussion of the extent to which the student, if enrolled in the program, may participate in school activities. No student shall be enrolled in an alternative learning opportunities program without the consent of the student's parent or guardian.

105 ILCS 5/13B-70. Truancy and attendance problems.
If a student is a chronic or habitual truant as defined in Section 26-2a of this Code [105 ILCS 5/26-2a] or if a child has been ordered to attend school, the school district may consider the student for placement in an alternative learning opportunities program specifically designed to prevent truancy, supplement instruction for students with attendance problems, intervene to decrease chronic truancy, and provide alternatives to high school completion. A program operating pursuant to the truants' alternative and optional education program may contract with a school district or consortium to provide these services.

105 ILCS 5/26-8a. [Court petition content].
The petition for court action shall include the name of the truant minor, the names and addresses of persons having custody or control of the student, the dates of the truant behavior, the dates and nature of contacts or conferences with the student and the persons having custody or control of the student, and the nature of the supportive services, alternative programs and other school resources the school district provided to that child in an effort to correct that child's truant behavior.

(a) The General Assembly finds that it is critical to provide options for children to succeed in school. The purpose of this Section is to provide incentives for and encourage all Illinois students who have experienced or are experiencing difficulty in the traditional education system to enroll in alternative programs.

105 ILCS 5/34-19. By-laws, rules and regulations; business transacted at regular meetings; voting; records.
The board shall, subject to the limitations in this Article, establish by-laws, rules and regulations, which shall have the force of ordinances, for the proper maintenance of a uniform system of discipline for both employees and pupils, and for the entire management of the schools, and may fix the school age of pupils, the minimum of which in kindergartens shall not be under 4 years, except that, based upon an assessment of the child's readiness, children who have attended a non-public preschool and continued their education at that school through kindergarten, were taught in kindergarten by an appropriately certified teacher, and will attain the age of 6 years on or before December 31 of the year of the 2009-
2010 school term and each school term thereafter may attend first grade upon commencement of such term, and in grade schools shall not be under 6 years. It may expel, suspend or, subject to the limitations of all policies established or adopted under Section 10-22.6 or 14-8.05 [105 ILCS 5/10-22.6 or 105 ILCS 5/14-8.05], otherwise discipline any pupil found guilty of gross disobedience, misconduct, or other violation of the by-laws, rules, and regulations, including gross disobedience or misconduct perpetuated by electronic means. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code [105 ILCS 5/13A-0.5 or 105 ILCS 5/13B-1]. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. The bylaws, rules and regulations of the board shall be enacted, money shall be appropriated or expended, salaries shall be fixed or changed, and textbooks, electronic textbooks, and courses of instruction shall be adopted or changed only at the regular meetings of the board and by a vote of a majority of the full membership of the board; provided that notwithstanding any other provision of this Article or the School Code, neither the board or any local school council may purchase any textbook for use in any public school of the district from any textbook publisher that fails to furnish any computer diskettes as required under Section 28-21 [105 ILCS 5/28-21]. Funds appropriated for textbook purchases must be available for electronic textbook purchases and the technological equipment necessary to gain access to and use electronic textbooks at the local school council’s discretion. The board shall be further encouraged to provide opportunities for public hearing and testimony before the adoption of bylaws, rules and regulations. Upon all propositions requiring for their adoption at least a majority of all the members of the board the yeas and nays shall be taken and reported. The by-laws, rules and regulations of the board shall not be repealed, amended or added to, except by a vote of 2/3 of the full membership of the board. The board shall keep a record of all its proceedings. REGULATIONS

205.20. Purpose.

a) This Part establishes the procedure and criteria for approval of applications, submitted by eligible applicants to the State Board of Education, for grants to assist the applicants in establishing truants’ alternative and optional education programs as authorized in Section 2-3.66 of the School Code. [105 ILCS 5/2-3.66]

b) Programs funded under this grant shall serve students identified as one of the following:

1) a truant, as defined in Section 26-2a of the School Code [105 ILCS 5/26-2a]; or
2) a chronic or habitual truant, as defined in Section 26-2a of the School Code; or
3) a dropout, as defined in Section 26-2a of the School Code; or
4) a potential dropout, which is any student subject to compulsory attendance as defined in Article 26 of the School Code [105 ILCS 5/Art. 26] and whose school absences or pattern of school attendance impedes the student's learning or contributes to the student's failure to meet State and/or district learning standards. Attendance problems may include chronic truancy, truancy, selective absences,
excessive absences or a pattern of absences or tardiness. In assessing whether marginal school attendance problems would place a student within the definition of "potential dropout," consideration shall be given to a student's personal involvement in the education process, apparent motivation to receive an education, or any continued and obvious apathy or disaffection for education, particularly, when indications of uninvolvment, lack of motivation or disaffection are coupled with currently known individual or family circumstances that, if they remain unresolved, would be reasonably expected to result in escalating attendance problems.

205.30. Eligible applicants.

a) Proposals for grant awards under Section 2-3.66 of the School Code may be submitted only by public school districts, regional offices of education, public university laboratory schools approved by the State Board of Education pursuant to Section 18-8.05(K) of the School Code [105 ILCS 5/18-8.05(K)], charter schools, community college districts, or area vocational centers.

b) Joint applications for funds may be submitted. If a joint application is submitted, then an administrative agent shall be designated.

1) The superintendent from each of the participating school districts and the official authorized to submit a proposal on behalf of any other eligible entity as defined in subsection (a) of this Section shall sign the joint application.

2) A school district or other eligible entity shall only participate in one proposal for a program.

205.35. Required program components.

Each program funded pursuant to Section 2-3.66 of the School Code shall include at least the following components.

a) A comprehensive community-based program planning process that includes, but is not limited to, the participation of business, community organizations, social service providers, government agencies, parents, school administrators and other staff members, including teachers, and students, and that leads to the development and implementation of a strategic plan.

1) The plan shall contain program goals and objectives developed by analyzing social and academic challenges in the community to be served by the truants' alternative and optional education program.

2) The plan shall identify available community resources and services and describe how these will be coordinated to meet the needs of students identified as eligible for the program (see Section 205.20(b) of this Part).

205.60. Allocation of funds.

The State Superintendent of Education shall determine the amount of individual grant awards on the basis of the following criteria. The final award amounts will be based on these criteria following negotiation with the grant recipient:

a) the total funds appropriated for truants' alternative and optional education programs;

b) the program needs, resources, and amounts requested in the top-ranked proposals determined pursuant to Section 205.50(a) and (b) of this Part; and

c) the need to assure delivery of truancy prevention services and truants' alternative and optional education programs on a statewide basis and in a manner that will have the greatest impact in preventing truancy and students from dropping out of school.
240.10. Purpose.

This Subpart A establishes the requirements for approval of Alternative Learning Opportunities Programs established pursuant to Article 13B of the School Code [105 ILCS 5/Art. 13B] by school districts, either individually or as specified in subsection (b) of this Section.

a) Alternative Learning Opportunities Programs shall broaden the range of academic, behavioral and social/emotional interventions that schools provide in order to increase the academic performance of students who are determined to be at risk of academic failure, as defined in Section 240.20 of this Part, so that those students can meet State standards (see 23 Ill. Adm. Code 1.Appendix D) and successfully complete their education.

b) School districts may establish Alternative Learning Opportunities Programs or may contract with one or more entities specified in Section 13B-20.10 of the School Code [105 ILCS 5/13B-20.10] to operate such programs.

1) A school district may collaborate with two or more school districts or with one or more Regional Offices of Education, or both, or with Intermediate Service Centers to create and operate an Alternative Learning Opportunities Program.

2) The school board of each school district operating a program jointly or under contract with eligible entities shall establish the local governance of the Alternative Learning Opportunities Program through a cooperative or intergovernmental agreement (see 105 ILCS 5/13B-35.5).

c) A school district may provide instructional services through a subcontractor only if the entity providing those instructional services is recognized by the State Board of Education (see 105 ILCS 5/13B-75). (See Section 240.30(a)(4) of this Part.)

240.20. Requirements for Student Participation.

Students in grades 4 through 12 who meet enrollment criteria established by the school district and who meet the definition of "at risk of academic failure" are eligible to participate in an Alternative Learning Opportunities Program [105 ILCS 5/13B-20.25] approved under this Part.

a) A student shall be considered "at risk of academic failure" if he or she:

1) is at risk of failing to meet the Illinois Learning Standards or failing to graduate from elementary or high school; and

2) demonstrates a need for educational support or social services beyond those provided by the regular school program [105 ILCS 5/13B-15.10].

b) For purposes of this Section, "poor academic performance" is defined as the student's:

1) scoring in the 50th percentile or below on district-administered standardized tests; or

2) receiving a score on the State assessment that does not meet standards in one or more of the fundamental learning areas defined in Section 27-1 of the School Code [105 ILCS 5/27-1], as applicable for the student's grade level; or

3) not meeting grade-level expectations on a district-designed assessment.

c) In determining whether a particular student is at risk of academic failure, a school district shall at least consider whether any of the following applies.

1) The student demonstrates poor academic performance lasting for more than a semester, which has not responded to interventions routinely employed by the school.

2) The student exhibited poor academic performance on district and State assessments in the previous school year that may be due to factors other than the student's academic ability (e.g., social, emotional, or behavioral problems; substance abuse; poor health and/or nutrition; changes in life...
circumstances that affect the student's ability to succeed or motivation to participate in the educational program).

3) The student's poor academic performance has resulted in his or her not meeting district requirements for promotion in the current school year; however, the student could meet these requirements with modifications made to the instructional program that would include the provision of educational supports and/or other support services not currently available in the regular school program.

4) The student's poor academic performance has resulted in the student's lacking sufficient high school credits for his or her grade level to such a degree that he or she is likely to drop out of high school or otherwise fail to graduate as a consequence of this credit deficiency.

d) Each district's specific admission criteria shall conform to the following requirements.

1) The criteria used to determine a student's need for an Alternative Learning Opportunities Program shall be nondiscriminatory in purpose and effect (i.e., without regard to race, national origin, gender, religion or disability).

2) The performance of a student recommended for enrollment in the program must be deficient in one or more of the fundamental learning areas (see Section 27-1 of the School Code) and not have shown improvement with interventions currently available at the student's school or within the student's school district. The district shall document the interventions that it employed and the results of those interventions before determining that the student would be served best in the Alternative Learning Opportunities Program.

3) Indicators in addition to academic performance (e.g., family stress, problems with classmates, teachers' evaluations, excessive absences, information received from family members and other school personnel) should be considered when assessing the student's inability to successfully complete school work and achieve learning objectives for his or her grade level.

4) The home school must be unable to provide, as part of its regular program, the educational supports and/or other support services (as identified by a review of evidence pursuant to subsection (c)(2) of this Section) needed by the student to improve his or her academic achievement. (See Section 240.70(c)(6) of this Part.)

5) In instances where the student considered for enrollment in the program has an Individualized Education Program (IEP), the district has followed the procedures specified in Subpart E of the State Board of Education's rules for Special Education (23 Ill. Adm. Code 226, Subpart E).

e) Each school district that establishes an Alternative Learning Opportunities Program shall provide information about the program to the parents or guardians of all students enrolled in grades 4 through 12 and shall identify a staff member who may be contacted for information or assistance.

f) When school district personnel believe that a student is eligible for and would benefit from enrollment in an Alternative Learning Opportunities Program, the district shall send a written notification to the student and the student's parent or guardian to attend a conference about the program (see 105 ILCS 5/13B-60.10). This notification also shall contain a statement of the rights of the parent or guardian (e.g., requirement for written parental permission to enroll in the program, ability to withdraw consent for enrollment, participation in development of the Student Success Plan).

1) The conference shall be designed to help the parent or guardian determine whether the student's participation in the Alternative Learning Opportunities Program would be beneficial.

2) Relevant educational records and information yielded by diagnostic assessments (e.g., academic, behavioral, risk) shall be available at the time of the conference.

3) The district shall provide documentation identifying the interventions available in the school district and demonstrate that these have already been provided to the student.
4) If the parent or guardian fails to participate in the conference (i.e., either attendance at the conference or participation through a telephone conference call), the student shall not be enrolled in the program (see 105 ILCS 5/13B-60.5).

5) If the parent or guardian attends the conference and determines that the program would be beneficial to the student, the parent or guardian may request the student's enrollment by providing written consent.

g) If a student's parent or guardian believes that the student is eligible for and would benefit from enrollment in an Alternative Learning Opportunities Program, the parent or guardian may initiate the conference described in subsection (f) of this Section by sending a written request to the contact person identified by the district pursuant to subsection (e) of this Section.

1) The district shall conduct the conference requested by a parent or guardian no later than ten school days after receipt of the written request.

2) The requirements of subsection (f) of this Section shall apply to any conference held pursuant to this subsection (g).

3) The district may limit the frequency with which a parent or guardian may request a conference in a given school year, provided that the limit imposed does not exceed 45 calendar days.

h) No student shall be enrolled in the Alternative Learning Opportunities Program without the consent of the student's parent or guardian (Section 13B-60.10 of the School Code). In the case of an existing alternative education program that receives approval to operate as an Alternative Learning Opportunities Program, the program shall provide written notification to the parent or guardian of each student enrolled in the existing program that:

1) the program has been changed to an Alternative Learning Opportunities Program;

2) the parent or guardian has a right to attend a conference about the program, held pursuant to the requirements of subsection (f) of this Section;

3) consent for the student's continued participation in the program shall be deemed granted unless the parent or guardian requests, within ten school days after receiving notification, that the student be returned to the regular school program; and

4) the parent or guardian has a right to participate in the development of the Student Success Plan (see Section 240.40 of this Part).

i) In no instance shall a student in grade 4 or 5 who is enrolled in an Alternative Learning Opportunities Program participate in that program or receive services outside of his or her home school. Every effort should be made to ensure that the educational supports and other services are provided to the student as part of his or her activities in the classroom to which he or she is originally assigned, unless the nature of the services dictates otherwise (e.g., due to a need for privacy, services would cause a disruption for other students or interrupt instruction, one-on-one intervention is required).

j) A student enrolled in an Alternative Learning Opportunities Program shall be returned to the regular school program no later than ten school days after the district receives a written request to that effect from the parent or guardian (see 105 ILCS 5/13B-60.15). If notice is received within two weeks before the end of a grading period (i.e., a quarter or semester), then the student shall remain in the Alternative Learning Opportunities Program until the start of the next grading period.

k) A student may be enrolled both in an Alternative Learning Opportunities Program and in the regular school program (see 105 ILCS 13B-20.20).

l) A student enrolled in an Alternative Learning Opportunities Program with the intention of graduating from high school or qualifying to participate in the High School Equivalency Testing Program pursuant
to Section 3-15.12 of the School Code [105 ILCS 5/3-15.12] may receive services up to the age of 21 (see Section 13B-15.10 of the School Code).

m) An approved Alternative Learning Opportunities Program may enroll nonresident students in accordance with Section 13B-55 of the School Code [105 ILCS 5/13B-55].

n) The enrollment of students with Individualized Education Programs in Alternative Learning Opportunities Programs shall be subject to the additional requirements set forth in Section 240.25 of this Part.

o) In accordance with Section 13B-20.25 of the School Code, all rights granted under Article 13B of the School Code and this Part to the student's parent or guardian shall become those of the student once the student reaches 18 years of age, subject to the provisions of the Emancipation of Mature Minors Act [750 ILCS 5/Art. 11a].

p) Notwithstanding the eligibility criteria stated in Section 13B-20.25 of the School Code, a school district may enroll in its Alternative Learning Opportunities Program any student it has suspended or expelled, in accordance with the provisions of Section 10-22.6 or 34-19 of the School Code [105 ILCS 5/10-22.6 or 34-19].

1) The enrolling school district shall ensure that the educational program and other services provided for the suspended or expelled student meet each of the requirements set forth in this Part.

2) A suspended or expelled student shall not be permitted to return to or re-enroll in his or her home school pursuant to subsection (j) of this Section until the term of the suspension or expulsion is completed.

240.50. Requirements for returning the student to the regular school program.

a) It shall be the goal of the Alternative Learning Opportunities Program (ALOP) to assist students in successfully completing their education, including, but not limited to, returning to the regular school program, or to a postsecondary or adult education program, as soon as appropriate. In establishing procedures for the transition of students to the regular or another program, districts shall ensure that:

1) an assessment is conducted prior to the student's leaving the ALOP to identify the educational supports and/or other support services the student would need to successfully progress in the regular school curriculum;

2) a staff member is assigned to monitor the student's progress in the regular school program for not less than two semesters after the student leaves the ALOP; and

3) for a student who has been suspended or expelled from his or her home school and enrolled by a district in its ALOP, the student shall not be permitted to return to or re-enroll in his or her home school until the term of the suspension or expulsion is completed.

b) The requirements of subsection (a) of this Section apply in instances where a student is removed from the ALOP by his or her parent or guardian before completion of the objectives stated in his or her Student Success Plan.

**105 ILCS 5/2-3.13a. School records; transferring students.**

(a) The State Board of Education shall establish and implement rules requiring all of the public schools and all private or nonpublic elementary and secondary schools located in this State, whenever any such school has a student who is transferring to any other public elementary or secondary school located in this or in any other state, to forward within 10 days of notice of the student's transfer an unofficial record of that student's grades to the school to which such student is transferring. Each public school at the same time also shall forward to the school to which the student is transferring the remainder of the student's school student records as required by the Illinois School Student Records Act [105 ILCS 10/1 et seq.]. In addition, if a student is transferring from a public school, whether located in this or any other state, from which the student has been suspended or expelled for knowingly possessing in a school building or on school grounds a weapon as defined in the Gun Free Schools Act [20 U.S.C.S. § 7151 et seq.], for knowingly possessing, selling, or delivering in a school building or on school grounds a controlled substance or cannabis, or for battering a staff member of the school, and if the period of suspension or expulsion has not expired at the time the student attempts to transfer into another public school in the same or any other school district: (i) any school student records required to be transferred shall include the date and duration of the period of suspension or expulsion; and (ii) with the exception of transfers into the Department of Juvenile Justice school district, the student shall not be permitted to attend class in the public school into which he or she is transferring until the student has served the entire period of the suspension or expulsion imposed by the school from which the student is transferring, provided that the school board may approve the placement of the student in an alternative school program established under Article 13A of this Code [105 ILCS 5/13A-0.5 et seq.]. A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion before being admitted into the school district. This policy may allow placement of the student in an alternative school program established under Article 13A of this Code, if available, for the remainder of the suspension or expulsion. Each public school and each private or nonpublic elementary or secondary school in this State shall within 10 days after the student has paid all of his or her outstanding fines and fees and at its own expense forward an official transcript of the scholastic records of each student transferring from that school in strict accordance with the provisions of this Section and the rules established by the State Board of Education as herein provided.

**105 ILCS 5/10-21.4a. Principals and assistant principals - Duties.**

It shall also be the responsibility of the principal to utilize resources of proper law enforcement agencies when the safety and welfare of students and teachers are threatened by illegal use of drugs and alcohol, by illegal use or possession of weapons, or by illegal gang activity.

**105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.**

(d) The board may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis. A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year:
(1) A firearm. For the purposes of this Section, "firearm" means any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 [430 ILCS 65/1.1] of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 [720 ILCS 5/24-1] of the Criminal Code of 2012. The expulsion period under this subdivision (1) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

(2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined in subdivision (1) of this subsection (d). The expulsion requirement under this subdivision (2) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

105 ILCS 5/10-27.1A. Firearms in schools.

(a) All school officials, including teachers, guidance counselors, and support staff, shall immediately notify the office of the principal in the event that they observe any person in possession of a firearm on school grounds; provided that taking such immediate action to notify the office of the principal would not immediately endanger the health, safety, or welfare of students who are under the direct supervision of the school official or the school official. If the health, safety, or welfare of students under the direct supervision of the school official or of the school official is immediately endangered, the school official shall notify the office of the principal as soon as the students under his or her supervision and he or she are no longer under immediate danger. A report is not required by this Section when the school official knows that the person in possession of the firearm is a law enforcement official engaged in the conduct of his or her official duties. Any school official acting in good faith who makes such a report under this Section shall have immunity from any civil or criminal liability that might otherwise be incurred as a result of making the report. The identity of the school official making such report shall not be disclosed except as expressly and specifically authorized by law. Knowingly and willfully failing to comply with this Section is a petty offense. A second or subsequent offense is a Class C misdemeanor.

(b) Upon receiving a report from any school official pursuant to this Section, or from any other person, the principal or his or her designee shall immediately notify a local law enforcement agency. If the person found to be in possession of a firearm on school grounds is a student, the principal or his or her designee shall also immediately notify that student's parent or guardian. Any principal or his or her designee acting in good faith who makes such reports under this Section shall have immunity from any civil or criminal liability that might otherwise be incurred or imposed as a result of making the reports. Knowingly and willfully failing to comply with this Section is a petty offense. A second or subsequent offense is a Class C misdemeanor. If the person found to be in possession of the firearm on school grounds is a minor, the law enforcement agency shall detain that minor until such time as the agency makes a determination pursuant to clause (a) of subsection (1) of Section 5-401 of the Juvenile Court Act of 1987 [705 ILCS 405/5-401], as to whether the agency reasonably believes that the minor is delinquent. If the law enforcement agency determines that probable cause exists to believe that the minor committed a violation of item (4) of subsection (a) of Section 24-1 of the Criminal Code of 2012 [720 ILCS 5/24-1] while on school grounds, the agency shall detain the minor for processing pursuant to Section 5-407 of the Juvenile Court Act of 1987 [705 ILCS 405/5-407].

(c) On or after January 1, 1997, upon receipt of any written, electronic, or verbal report from any school personnel regarding a verified incident involving a firearm in a school or on school owned or leased property, including any conveyance owned, leased, or used by the school for the transport of students or school personnel, the superintendent or his or her designee shall report all such firearm-related incidents occurring in a school or on school property to the local law enforcement authorities immediately and to
the Department of State Police in a form, manner, and frequency as prescribed by the Department of State Police.

The State Board of Education shall receive an annual statistical compilation and related data associated with incidents involving firearms in schools from the Department of State Police. The State Board of Education shall compile this information by school district and make it available to the public.

(d) As used in this Section, the term "firearm" shall have the meaning ascribed to it in Section 1.1 of the Firearm Owners Identification Card Act [430 ILCS 65/1.1].

As used in this Section, the term "school" means any public or private elementary or secondary school.

As used in this Section, the term "school grounds" includes the real property comprising any school, any conveyance owned, leased, or contracted by a school to transport students to or from school or a school-related activity, or any public way within 1,000 feet of the real property comprising any school.

105 ILCS 5/34-8.05. Reporting firearms in schools.

On or after January 1, 1997, upon receipt of any written, electronic, or verbal report from any school personnel regarding a verified incident involving a firearm in a school or on school owned or leased property, including any conveyance owned, leased, or used by the school for the transport of students or school personnel, the general superintendent or his or her designee shall report all such firearm-related incidents occurring in a school or on school property to the local law enforcement authorities no later than 24 hours after the occurrence of the incident and to the Department of State Police in a form, manner, and frequency as prescribed by the Department of State Police.

The State Board of Education shall receive an annual statistical compilation and related data associated with incidents involving firearms in schools from the Department of State Police. As used in this Section, the term "firearm" shall have the meaning ascribed to it in Section 1.1 of the Firearm Owners Identification Card Act [430 ILCS 65/1.1].

The board shall specify in its formal job description for principals, and from and after July 1, 1990 shall specify in the 4 year performance contracts for use with respect to all principals, that his or her primary responsibility is in the improvement of instruction. A majority of the time spent by a principal shall be spent on curriculum and staff development through both formal and informal activities, establishing clear lines of communication regarding school goals, accomplishments, practices and policies with parents and teachers. The principal, with the assistance of the local school council, shall develop a school improvement plan as provided in Section 34-2.4 [105 ILCS 5/34-2.4] and, upon approval of the plan by the local school council, shall be responsible for directing implementation of the plan. The principal, with the assistance of the professional personnel leadership committee, shall develop the specific methods and contents of the school's curriculum within the board's system-wide curriculum standards and objectives and the requirements of the school improvement plan. The board shall ensure that all principals are evaluated on their instructional leadership ability and their ability to maintain a positive education and learning climate. LAWS

105 ILCS 5/2-3.41. Chronic truants and truancy prevention.
The State Board of Education is empowered to enter into contracts with public or private agencies for the provision of educational services to chronic truants and for the prevention of truancy including training and developmental assistance provided an appropriation is made specifically for such purpose.

105 ILCS 5/2-3.66. Truants’ alternative and optional education programs.
To establish projects to offer modified instructional programs or other services designed to prevent students from dropping out of school, including programs pursuant to Section 2-3.41 [105 ILCS 5/2-3.41], and to serve as a part time or full time option in lieu of regular school attendance and to award grants to local school districts, educational service regions or community college districts from appropriated funds to assist districts in establishing such projects. The education agency may operate its own program or enter into a contract with another not-for-profit entity to implement the program. The projects shall allow dropouts, up to and including age 21, potential dropouts, including truants, uninvolved, unmotivated and disaffected students, as defined by State Board of Education rules and regulations, to enroll, as an alternative to regular school attendance, in an optional education program which may be established by school board policy and is in conformance with rules adopted by the State Board of Education. Truants' Alternative and Optional Education programs funded pursuant to this Section shall be planned by a student, the student's parents or legal guardians, unless the student is 18 years or older, and school officials and shall culminate in an individualized optional education plan. Such plan shall focus on academic or vocational skills, or both, and may include, but not be limited to, evening school, summer school, community college courses, adult education, preparation courses for high school equivalency testing, vocational training, work experience, programs to enhance self concept and parenting courses. School districts which are awarded grants pursuant to this Section shall be authorized to provide day care services to children of students who are eligible and desire to enroll in programs established and funded under this Section, but only if and to the extent that such day care is necessary to enable those eligible students to attend and participate in the programs and courses which are conducted pursuant to this Section. School districts and regional offices of education may claim general State aid under Section 18-8.05 [105 ILCS 5/18-8.05] or evidence-based funding under Section 18-8.15 [105 ILCS 5/18-8.15] for students enrolled in truants' alternative and optional education programs, provided that such students are receiving services that are supplemental to a program leading to a high school diploma and are otherwise eligible to be claimed for general State aid under Section 18-8.05 or evidence-based funding under Section 18-8.15, as applicable.

105 ILCS 5/13B-70. Truancy and attendance problems.
If a student is a chronic or habitual truant as defined in Section 26-2a of this Code [105 ILCS 5/26-2a] or if a child has been ordered to attend school, the school district may consider the student for placement in
an alternative learning opportunities program specifically designed to prevent truancy, supplement instruction for students with attendance problems, intervene to decrease chronic truancy, and provide alternatives to high school completion. A program operating pursuant to the truants' alternative and optional education program may contract with a school district or consortium to provide these services.

105 ILCS 5/26-1. Compulsory school age; exemptions.

Whoever has custody or control of any child (i) between the ages of 7 and 17 years (unless the child has already graduated from high school) for school years before the 2014-2015 school year or (ii) between the ages of 6 (on or before September 1) and 17 years (unless the child has already graduated from high school) beginning with the 2014-2015 school year shall cause such child to attend some public school in the district wherein the child resides the entire time it is in session during the regular school term, except as provided in Section 10-19.1 [105 ILCS 5/10-19.1], and during a required summer school program established under Section 10-22.33B [105 ILCS 5/10-22.33B]; provided, that the following children shall not be required to attend the public schools:

1. Any child attending a private or a parochial school where children are taught the branches of education taught to children of corresponding age and grade in the public schools, and where the instruction of the child in the branches of education is in the English language;

2. Any child who is physically or mentally unable to attend school, such disability being certified to the county or district truant officer by a competent physician licensed in Illinois to practice medicine and surgery in all its branches, a chiropractic physician licensed under the Medical Practice Act of 1987 [225 ILCS 60/1 et seq.], a licensed advanced practice registered nurse, a licensed physician assistant, or a Christian Science practitioner residing in this State and listed in the Christian Science Journal; or who is excused for temporary absence for cause by the principal or teacher of the school which the child attends; the exemptions in this paragraph (2) do not apply to any female who is pregnant or the mother of one or more children, except where a female is unable to attend school due to a complication arising from her pregnancy and the existence of such complication is certified to the county or district truant officer by a competent physician;

3. Any child necessarily and lawfully employed according to the provisions of the law regulating child labor may be excused from attendance at school by the county superintendent of schools or the superintendent of the public school which the child should be attending, on certification of the facts by and the recommendation of the school board of the public school district in which the child resides. In districts having part-time continuation schools, children so excused shall attend such schools at least 8 hours each week;

4. Any child over 12 and under 14 years of age while in attendance at confirmation classes;

5. Any child absent from a public school on a particular day or days or at a particular time of day for the reason that he is unable to attend classes or to participate in any examination, study or work requirements on a particular day or days or at a particular time of day, because the tenets of his religion forbid secular activity on a particular day or days or at a particular time of day. Each school board shall prescribe rules and regulations relative to absences for religious holidays including, but not limited to, a list of religious holidays on which it shall be mandatory to excuse a child; but nothing in this paragraph 5 shall be construed to limit the right of any school board, at its discretion, to excuse an absence on any other day by reason of the observance of a religious holiday. A school board may require the parent or guardian of a child who is to be excused from attending school due to the observance of a religious holiday to give notice, not exceeding 5 days, of the child's absence to the school principal or other school personnel. Any child excused from attending school under this paragraph 5 shall not be required to submit a written excuse for such absence after returning to school;
6. Any child 16 years of age or older who (i) submits to a school district evidence of necessary and lawful employment pursuant to paragraph 3 of this Section and (ii) is enrolled in a graduation incentives program pursuant to Section 26-16 of this Code [105 ILCS 5/26-16] or an alternative learning opportunities program established pursuant to Article 13B of this Code [105 ILCS 5/13B-1 et seq.];

7. A child in any of grades 6 through 12 absent from a public school on a particular day or days or at a particular time of day for the purpose of sounding "Taps" at a military honors funeral held in this State for a deceased veteran. In order to be excused under this paragraph 7, the student shall notify the school's administration at least 2 days prior to the date of the absence and shall provide the school's administration with the date, time, and location of the military honors funeral. The school's administration may waive this 2-day notification requirement if the student did not receive at least 2 days advance notice, but the student shall notify the school's administration as soon as possible of the absence. A student whose absence is excused under this paragraph 7 shall be counted as if the student attended school for purposes of calculating the average daily attendance of students in the school district. A student whose absence is excused under this paragraph 7 must be allowed a reasonable time to make up school work missed during the absence. If the student satisfactorily completes the school work, the day of absence shall be counted as a day of compulsory attendance and he or she may not be penalized for that absence; and

8. Any child absent from a public school on a particular day or days or at a particular time of day for the reason that his or her parent or legal guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings. Such a student shall be granted 5 days of excused absences in any school year and, at the discretion of the school board, additional excused absences to visit the student's parent or legal guardian relative to such leave or deployment of the parent or legal guardian. In the case of excused absences pursuant to this paragraph 8, the student and parent or legal guardian shall be responsible for obtaining assignments from the student's teacher prior to any period of excused absence and for ensuring that such assignments are completed by the student prior to his or her return to school from such period of excused absence.

105 ILCS 5/26-2a. [Terms defined].

A "truant" is defined as a child who is subject to compulsory school attendance and who is absent without valid cause, as defined under this Section, from such attendance for more than 1% but less than 5% of the past 180 school days. [...]"Chronic or habitual truant" shall be defined as a child who is subject to compulsory school attendance and who is absent without valid cause from such attendance for 5% or more of the previous 180 regular attendance days.

"Truant minor" is defined as a chronic truant to whom supportive services, including prevention, diagnostic, intervention and remedial services, alternative programs and other school and community resources have been provided and have failed to result in the cessation of chronic truancy, or have been offered and refused.

The clerk or secretary of the school board of all school districts except those employing district truant officers shall furnish the superintendent of schools at the beginning of the school year a list of the names and addresses of the children living in the district who come under the provisions of this Article and of persons having custody or control of such children. The superintendent shall at the opening of school and at other times when required by the regional superintendent of schools compare the list with the enrollment of the school or schools and report to the regional superintendent of schools the names of persons having custody or control of children included under the provisions of this Article who are truant
or who are chronic or habitual truants for whom supportive services and other school resources have failed to correct the truant behavior and who are not in regular attendance at the public school, and the names of such children and their ages, stating in each case, if known, the cause of such absence. The report shall also contain the names of any other persons who were not enumerated in the list at the beginning of school and who have the custody or control of children not attending school. The regional superintendent shall, without delay, place such information at the disposal of the regional truant officer.

The clerk or secretary of the school board of all school districts shall furnish quarterly on the first school day of October, January, April and July to the regional superintendent and to the Secretary of State a list of pupils, excluding transferees, who have been expelled or have withdrawn or who have left school and have been removed from the regular attendance rolls during the period of time school was in regular session from the time of the previous quarterly report. Such list shall include the names and addresses of pupils formerly in attendance, the names and addresses of persons having custody or control of such pupils, the reason, if known, such pupils are no longer in attendance and the date of removal from the attendance rolls. The list shall also include the names of: pupils whose withdrawal is due to extraordinary circumstances, including but not limited to economic or medical necessity or family hardship, as determined by the criteria established by the school district; pupils who have re-enrolled in school since their names were removed from the attendance rolls; any pupil certified to be a chronic or habitual truant, as defined in Section 26-2a [105 ILCS 5/26-2a]; and pupils previously certified as chronic or habitual truants who have resumed regular school attendance. The regional superintendent shall inform the county or district truant officer who shall investigate to see that such pupils are in compliance with the requirements of this Article.

Each local school district shall establish, in writing, a set of criteria for use by the local superintendent of schools in determining whether a pupil's failure to attend school is the result of extraordinary circumstances, including but not limited to economic or medical necessity or family hardship.

If a pupil re-enrolls in school after his or her name was removed from the attendance rolls or resumes regular attendance after being certified a chronic or habitual truant, the pupil must obtain and forward to the Secretary of State, on a form designated by the Secretary of State, verification of his or her re-enrollment. The verification may be in the form of a signature or seal or in any other form determined by the school board.

The State Board of Education shall, if possible, make available to any person, upon request, a comparison of drop out rates before and after the effective date of this amendatory Act of the 94th General Assembly [P.A. 94-916].

105 ILCS 5/26-3b. [Notification of unexcused absence].

Beginning July 1, 1986, if any child enrolled in a public school in grades Kindergarten through 8 is absent from school, and there is no record that such absence is for a valid cause, as defined under Article 26 of this Code [105 ILCS 5/26-1 et seq.], nor notification that the absence has been authorized by the parent, legal guardian or other person having legal custody of such child, an employee or other agent, whether a volunteer or otherwise, designated by the public school in which the child is enrolled shall, within 2 hours after the first class in which the child is enrolled, make a reasonable effort to promptly telephone and notify the parent, legal guardian, or other person having legal custody of the child, of the child's absence from school. Such notification shall not be given for an absence authorized by the parent, legal guardian or other person having legal custody of such child. Prior to any enrollment of a child in a public school, the school district shall notify parents, legal guardians, or other persons having legal custody of a child, of their responsibility to authorize any absence and to notify the school in advance or at the time of any such absence, and that the school requires at least one and not more than 2 telephone numbers be given for
purposes of this Section. The school district shall require that such telephone numbers be given at the
time of enrollment of the child in school, which said numbers may be changed from time to time upon
notification to the school.

The requirements of this Section shall have been met by the school if notification of an absence has been
attempted by telephoning the 1 or 2 numbers given the school by the parent, legal guardian or other
person having legal custody of a child, whether or not there is any answer at such telephone number or
numbers. Further, the requirements of this Section shall have been met if the said notification is given to a
member of the household of the child's parent, legal guardian or other person having legal custody of the
child, which said member of the household must be 10 years of age or older.

An employee or other agent designated by the public school who in good faith makes a reasonable effort
to notify the parent, legal guardian or other person having legal custody of a child of the child's absence
from school, when required by this Section, shall not, as a result of his acts or omissions, except wilful or
wanton misconduct on the part of such employee or agent in attempting to comply with the notification
requirements of this Section, be liable for civil damages.

105 ILCS 5/26-3d. [Truants; collection of data].
All regional superintendents, district superintendents, and special education joint agreement directors
shall collect data concerning truants, chronic truants, and truant minor pupils as designated by the State
Board of Education. On or before August 15 of each year, this data must be submitted to the State Board
of Education.

The truant officer of the school district, whenever notified by the Superintendent, teacher, or other person
of violations of this Article, or the county truant officer, when notified by the County Superintendent, shall
investigate all cases of truancy or non-attendance at school in their respective jurisdictions, and if the
children complained of are not exempt under the provisions of this Article, the truant officer shall proceed
as is provided in this Article. The county truant officer, within the county and the district truant officers,
within their respective districts, shall in the exercise of their duties be conservators of the peace and shall
keep the same, suppress riots, routs, affray, fighting, breaches of the peace, and prevent crime; and may
arrest offenders on view and cause them to be brought before proper officials for trial or examination.

In school districts which employ truant officers the clerk or secretary of the school board shall at the
beginning of each school year furnish a copy of the last school census to the superintendent of schools
(or principal teacher) in the district, together with the names and addresses of the truant officers in the
district, and the superintendent, (or principal teacher) shall compare the census list with the enrollment of
the school or schools and, from time to time, report to the proper truant officers the names and addresses
of persons having custody or control of children included under the provisions of this Article who are
truant or who are chronic or habitual truants for whom supportive services and other school resources
have failed to correct the truant behavior and who are not in regular attendance at public schools and also
the names of persons having custody or control of children who are not in regular attendance at school
and whose names are not included in the census list.

If any person fails to send any child under his custody or control to some lawful school, the truant officer
or, in a school district that does not have a truant officer, the regional superintendent of schools or his or
her designee shall, as soon as practicable after he is notified thereof, give notice in person or by mail to
such person that such child shall be present at the proper public school on the day following the receipt of
such notice. The notice shall state the date that attendance at school must begin and that such attendance must be continuous and consecutive in the district during the remainder of the school year. The truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee shall at the same time that such notice is given notify the teacher or superintendent of the proper public school thereof and the teacher or superintendent shall notify the truant officer or regional superintendent of schools of any non-compliance therewith.

A truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee, after giving the notice provided in Section 26-7 [105 ILCS 5/26-7], shall determine whether the notice has been complied with. If 3 notices have been given and the notices have not been complied with, and if the persons having custody or control have knowingly and wilfully permitted the truant behavior to continue, the regional superintendent of schools, or his or her designee, of the school district where the child resides shall conduct a truancy hearing. If the regional superintendent determines as a result of the hearing that the child is truant, the regional superintendent shall, if age appropriate at the discretion of the regional superintendent, require the student to complete 20 to 40 hours of community service over a period of 90 days. If the truancy persists, the regional superintendent shall (i) make complaint against the persons having custody or control to the state's attorney or in the circuit court in the county where such person resides for failure to comply with the provisions of this Article or (ii) conduct truancy mediation and encourage the student to enroll in a graduation incentives program under Section 26-16 of this Code [105 ILCS 5/26-16]. If, however, after giving the notice provided in Section 26-7 [105 ILCS 5/26-7] the truant behavior has continued, and the child is beyond the control of the parents, guardians or custodians, a truancy petition shall be filed under the provisions of Article III of the Juvenile Court Act of 1987 [705 ILCS 405/3-1 et seq.].

105 ILCS 5/26-8a. [Court petition content].
The petition for court action shall include the name of the truant minor, the names and addresses of persons having custody or control of the student, the dates of the truant behavior, the dates and nature of contacts or conferences with the student and the persons having custody or control of the student, and the nature of the supportive services, alternative programs and other school resources the school district provided to that child in an effort to correct that child's truant behavior.

105 ILCS 5/26-8b. [Court petition filing].
When a petition is filed, it shall be set for an adjudicatory hearing within 10 days and acted upon within 30 days, subject to the provisions of the Juvenile Court Act or the Juvenile Court Act of 1987 [705 ILCS 405/1-1 et seq.] if filed thereunder.

School officers, superintendents, teachers or other persons shall render such assistance and furnish such information as they have to aid truant officers in the performance of their duties.

(a) No punitive action, including out-of-school suspensions, expulsions, or court action, shall be taken against truant minors for such truancy unless appropriate and available supportive services and other school resources have been provided to the student. Notwithstanding the provisions of Section 10-22.6 of this Code [105 ILCS 5/26-10-22.6], a truant minor may not be expelled for nonattendance unless he or she has accrued 15 consecutive days of absences without valid cause and the student cannot be located by the school district or the school district has located the student but cannot, after exhausting all available supportive services, compel the student to return to school.
(b) A school district may not refer a truant, chronic truant, or truant minor to any other local public entity, as defined under Section 1-206 of the Local Governmental and Governmental Employees Tort Immunity Act [745 ILCS 10/1-206], for that local public entity to issue the child a fine or a fee as punishment for his or her truancy.

(c) A school district may refer any person having custody or control of a truant, chronic truant, or truant minor to any other local public entity, as defined under Section 1-206 of the Local Governmental and Governmental Employees Tort Immunity Act, for that local public entity to issue the person a fine or fee for the child's truancy only if the school district's truant officer, regional office of education, or intermediate service center has been notified of the truant behavior and the school district, regional office of education, or intermediate service center has offered all appropriate and available supportive services and other school resources to the child. Before a school district may refer a person having custody or control of a child to a municipality, as defined under Section 1-1-2 of the Illinois Municipal Code [65 ILCS 5/1-1-2], the school district must provide the following appropriate and available services:

(1) For any child who is a homeless child, as defined under Section 1-5 of the Education for Homeless Children Act [105 ILCS 45/1-5], a meeting between the child, the person having custody or control of the child, relevant school personnel, and a homeless liaison to discuss any barriers to the child's attendance due to the child's transitional living situation and to construct a plan that removes these barriers.

(2) For any child with a documented disability, a meeting between the child, the person having custody or control of the child, and relevant school personnel to review the child's current needs and address the appropriateness of the child's placement and services. For any child subject to Article 14 of this Code [105 ILCS 5/14-1.01 et seq.], this meeting shall be an individualized education program meeting and shall include relevant members of the individualized education program team. For any child with a disability under Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. 794), this meeting shall be a Section 504 plan review and include relevant members of the Section 504 plan team.

(3) For any child currently being evaluated by a school district for a disability or for whom the school has a basis of knowledge that the child is a child with a disability under 20 U.S.C. 1415(k)(5), the completion of the evaluation and determination of the child's eligibility for special education services.

(d) Before a school district may refer a person having custody or control of a child to a local public entity under this Section, the school district must document any appropriate and available supportive services offered to the child. In the event a meeting under this Section does not occur, a school district must have documentation that it made reasonable efforts to convene the meeting at a mutually convenient time and date for the school district and the person having custody or control of the child and, but for the conduct of that person, the meeting would have occurred.

School districts shall adopt policies, consistent with rules adopted by the State Board of Education, which identify the appropriate supportive services and available resources which are provided for truants and chronic truants.

Any dropout, as defined in Section 26-2a [105 ILCS 5/26-2a], who is 17 years of age may apply to a school district for status as a truant, and the school district shall permit such person to participate in the district's various programs and resources for truants. At the time of the person's application, the district may request documentation of his dropout status for the previous 6 months.
When a regional superintendent has reason to believe that a pupil is a truant minor as defined in Section 26-2a [105 ILCS 5/26-2a], the regional superintendent may report such pupil under the provisions of the Juvenile Court Act.

"Chronic absence" means absences that total 10% or more of school days of the most recent academic school year, including absences with and without valid cause, as defined in Section 26-2a of this Code [105 ILCS 5/26-2a], and out-of-school suspensions for an enrolled student.

"Student" means any enrolled student that is subject to compulsory attendance under Section 26-1 of this Code [105 ILCS 5/26-1] but does not mean a student for whom a documented homebound or hospital record is on file during the student's absence from school.

The General Assembly finds that:

1. The early years are a critical period in children's learning and development. Every child should be counted present every day. Every day of school matters.
2. Being absent too many days from school can make it difficult for students to stay on-track academically and maintain the momentum to graduate from high school in order to be college-or career-ready.
3. Every day of school attendance matters for all students and their families. It is crucial, therefore, that the implications of chronic absence be understood and reviewed regularly.

Beginning July 1, 2018, every school district, charter school, or alternative school or any school receiving public funds shall collect and review its chronic absence data and determine what systems of support and resources are needed to engage chronically absent students and their families to encourage the habit of daily attendance and promote success. The review shall include an analysis of chronic absence data from each attendance center or campus of the school district, charter school, or alternative school or other school receiving public funds.

School districts, charter schools, or alternative schools or any school receiving public funds are encouraged to provide a system of support to students who are at risk of reaching or exceeding chronic absence levels with strategies such as those available through the Illinois Multi-tiered Systems of Support Network. Schools additionally are encouraged to make resources available to families such as those available through the State Board of Education's Family Engagement Framework to support and engage students and their families to encourage heightened school engagement and improved daily school attendance.

Office of Chronic Truant Adjudication. The board shall establish and implement an Office of Chronic Truant Adjudication, which shall be responsible for administratively adjudicating cases of chronic truancy and imposing appropriate sanctions. The board shall appoint or employ hearing officers to perform the adjudicatory functions of that Office. Principals and other appropriate personnel may refer pupils suspected of being chronic truants, as defined in Section 26-2a of this Code [105 ILCS 5/26-2a], to the Office of Chronic Truant Adjudication.

Before any hearing may be held under subsection (c), the principal of the school attended by the pupil or the principal's designee shall notify the pupil's parent or guardian by personal visit, letter, or telephone of each unexcused absence of the pupil. After giving the parent or guardian notice of the tenth unexcused absence of the pupil, the principal or the principal's designee shall send the pupil's parent or
guardian a letter, by certified mail, return receipt requested, notifying the parent or guardian that he or she is subjecting himself or herself to a hearing procedure as provided under subsection (c) and clearly describing any and all possible penalties that may be imposed as provided for in subsections (d) and (e) of this Section.

(c) Hearing. Once a pupil has been referred to the Office of Chronic Truant Adjudication, a hearing shall be scheduled before an appointed hearing officer, and the pupil and the pupil's parents or guardian shall be notified by certified mail, return receipt requested stating the time, place, and purpose of the hearing. The hearing officer shall hold a hearing and render a written decision within 14 days determining whether the pupil is a chronic truant as defined in Section 26-2a of this Code [105 ILCS 5/26-2a] and whether the parent or guardian took reasonable steps to assure the pupil's attendance at school. The hearing shall be private unless a public hearing is requested by the pupil's parent or guardian, and the pupil may be present at the hearing with a representative in addition to the pupil's parent or guardian. The board shall present evidence of the pupil's truancy, and the pupil and the parent or guardian or representative of the pupil may cross examine witnesses, present witnesses and evidence, and present defenses to the charges. All testimony at the hearing shall be taken under oath administered by the hearing officer. The decision of the hearing officer shall constitute an "administrative decision" for purposes of judicial review under the Administrative Review Law [735 ILCS 5/3-101 et seq.].

(d) Penalties. The hearing officer may require the pupil or the pupil's parent or guardian or both the pupil and the pupil's parent or guardian to do any or all of the following: perform reasonable school or community services for a period not to exceed 30 days; complete a parenting education program; obtain counseling or other supportive services; and comply with an individualized educational plan or service plan as provided by appropriate school officials. If the parent or guardian of the chronic truant shows that he or she took reasonable steps to insure attendance of the pupil at school, he or she shall not be required to perform services.

(e) Non-compliance with sanctions. If a pupil determined by a hearing officer to be a chronic truant or the parent or guardian of the pupil fails to comply with the sanctions ordered by the hearing officer under subsection (c) of this Section, the Office of Chronic Truant Adjudication may refer the matter to the State's Attorney for prosecution under Section 3-33.5 of the Juvenile Court Act of 1987 [705 ILCS 405/3-33.5].

(f) Limitation on applicability. Nothing in this Section shall be construed to apply to a parent or guardian of a pupil not required to attend a public school pursuant to Section 26-1 [105 ILCS 5/26-1].

REGULATIONS

1.290. Absenteeism and truancy policies.

a) Purpose

This Section establishes guidelines and criteria required by Section 26-13 of the School Code [105 ILCS 5/26-13], which provides that school districts shall adopt absenteeism and truancy policies identifying appropriate supportive services and available resources for truants and chronic truants.

b) Content of Policies

Each school district shall develop an absenteeism and truancy policy including at least the following elements:

1) A definition of a valid cause for absence in accordance with Section 26-2a of the School Code;
2) A description of diagnostic procedures to be used for identifying the causes of unexcused student absenteeism, which shall, at a minimum, include interviews with the student, his or her parents or guardians, and any school officials or other parties who may have information about the reasons for the student's attendance problem; and
3) The identification of supportive services to be made available to truant or chronically truant students. These services shall include, but need not be limited to, parent conferences, student counseling, family counseling, and information about existing community services which are available to truant and chronically truant students and relevant to their needs.

205.20. Purpose.

a) This Part establishes the procedure and criteria for approval of applications, submitted by eligible applicants to the State Board of Education, for grants to assist the applicants in establishing truants' alternative and optional education programs as authorized in Section 2-3.66 of the School Code. [105 ILCS 5/2-3.66]

b) Programs funded under this grant shall serve students identified as one of the following:
   1) a truant, as defined in Section 26-2a of the School Code [105 ILCS 5/26-2a]; or
   2) a chronic or habitual truant, as defined in Section 26-2a of the School Code; or
   3) a dropout, as defined in Section 26-2a of the School Code; or
   4) a potential dropout, which is any student subject to compulsory attendance as defined in Article 26 of the School Code [105 ILCS 5/Art. 26] and whose school absences or pattern of school attendance impedes the student's learning or contributes to the student's failure to meet State and/or district learning standards. Attendance problems may include chronic truancy, truancy, selective absences, excessive absences or a pattern of absences or tardiness. In assessing whether marginal school attendance problems would place a student within the definition of "potential dropout," consideration shall be given to a student's personal involvement in the education process, apparent motivation to receive an education, or any continued and obvious apathy or disaffection for education, particularly, when indications of uninvolvelement, lack of motivation or disaffection are coupled with currently known individual or family circumstances that, if they remain unresolved, would be reasonably expected to result in escalating attendance problems.

205.30. Eligible applicants.

a) Proposals for grant awards under Section 2-3.66 of the School Code may be submitted only by public school districts, regional offices of education, public university laboratory schools approved by the State Board of Education pursuant to Section 18-8.05(K) of the School Code [105 ILCS 5/18-8.05(K)], charter schools, community college districts, or area vocational centers.

b) Joint applications for funds may be submitted. If a joint application is submitted, then an administrative agent shall be designated.

   1) The superintendent from each of the participating school districts and the official authorized to submit a proposal on behalf of any other eligible entity as defined in subsection (a) of this Section shall sign the joint application.
   2) A school district or other eligible entity shall only participate in one proposal for a program.

205.35. Required program components.

Each program funded pursuant to Section 2-3.66 of the School Code shall include at least the following components.

a) A comprehensive community-based program planning process that includes, but is not limited to, the participation of business, community organizations, social service providers, government agencies, parents, school administrators and other staff members, including teachers, and students, and that leads to the development and implementation of a strategic plan.
1) The plan shall contain program goals and objectives developed by analyzing social and academic challenges in the community to be served by the truants’ alternative and optional education program.

2) The plan shall identify available community resources and services and describe how these will be coordinated to meet the needs of students identified as eligible for the program (see Section 205.20(b) of this Part).

**205.60. Allocation of funds.**

The State Superintendent of Education shall determine the amount of individual grant awards on the basis of the following criteria. The final award amounts will be based on these criteria following negotiation with the grant recipient:

a) the total funds appropriated for truants' alternative and optional education programs;

b) the program needs, resources, and amounts requested in the top-ranked proposals determined pursuant to Section 205.50(a) and (b) of this Part; and

c) the need to assure delivery of truancy prevention services and truants' alternative and optional education programs on a statewide basis and in a manner that will have the greatest impact in preventing truancy and students from dropping out of school.

**Substance Use**

**LAWS**

**105 ILCS 5/2-3.176. Safe schools and healthy learning environments grant program.**

(a) The State Board of Education, subject to appropriation, is authorized to award competitive grants on an annual basis under a Safe Schools and Healthy Learning Environments Grant Program. The goal of this grant program is to promote school safety and healthy learning environments by providing schools with additional resources to implement restorative interventions and resolution strategies as alternatives to exclusionary discipline, and to address the full range of students' intellectual, social, emotional, physical, psychological, and moral developmental needs.

(b) To receive a grant under this program, a school district must submit with its grant application a plan for implementing evidence-based and promising practices that are aligned with the goal of this program. The application may include proposals to (i) hire additional school support personnel, including, but not limited to, restorative justice practitioners, school psychologists, school social workers, and other mental and behavioral health specialists; (ii) use existing school-based resources, community-based resources, or other experts and practitioners to expand alternatives to exclusionary discipline, mental and behavioral health supports, wraparound services, or drug and alcohol treatment; and (iii) provide training for school staff on trauma-informed approaches to meeting students' developmental needs, addressing the effects of toxic stress, restorative justice approaches, conflict resolution techniques, and the effective utilization of school support personnel and community-based services. For purposes of this subsection, "promising practices" means practices that present, based on preliminary information, potential for becoming evidence-based practices.

**105 ILCS 5/10-20.36. Psychotropic or psychostimulant medication; disciplinary action.**

(a) In this Section:

"Psychostimulant medication" means medication that produces increased levels of mental and physical energy and alertness and an elevated mood by stimulating the central nervous system.

The policy must require that, at least once every 2 years, the in-service training of certified school personnel and administrators include training on current best practices regarding the identification and treatment of attention deficit disorder and attention deficit hyperactivity disorder, the application of non-aversive behavioral interventions in the school environment, and the use of psychotropic or psychostimulant medication for school-age children.

(c) This Section does not prohibit school medical staff, an individualized educational program team, or a professional worker (as defined in Section 14-1.10 of this Code [105 ILCS 5/14-1.10]) from recommending that a student be evaluated by an appropriate medical practitioner or prohibit school personnel from consulting with the practitioner with the consent of the student's parents or guardian.

105 ILCS 5/10-20.5b. Tobacco prohibition.
Each school board shall prohibit the use of tobacco on school property by any school personnel, student, or other person when such property is being used for any school purposes. The school board may not authorize or permit any exception to or exemption from the prohibition at any place or at any time, including without limitation outside of school buildings or before or after the regular school day or on days when school is not in session. “School purposes” include but are not limited to all events or activities or other use of school property that the school board or school officials authorize or permit on school property, including without limitation all interscholastic or extracurricular athletic, academic, or other events sponsored by the school board or in which pupils of the district participate. (a) The General Assembly finds that the instance of youth delinquent gangs continues to rise on a statewide basis. Given the higher rates of criminal offending among gang members, as well as the availability of increasingly lethal weapons, the level of criminal activity by gang members has taken on new importance for law enforcement agencies, schools, the community, and prevention efforts.
(b) As used in this Section:
"Gang resistance education and training" means and includes instruction in, without limitation, each of the following subject matters when accompanied by a stated objective of reducing gang activity and educating children in grades K through 12 about the consequences of gang involvement:
(1) conflict resolution;
(2) cultural sensitivity;
(3) personal goal setting; and
(4) resisting peer pressure.
(c) Each school district and non-public, non-sectarian elementary or secondary school in this State may make suitable provisions for instruction in gang resistance education and training in all grades and include that instruction in the courses of study regularly taught in those grades. For the purposes of gang resistance education and training, a school board or the governing body of a non-public, non-sectarian elementary or secondary school must collaborate with State and local law enforcement agencies. The State Board of Education may assist in the development of instructional materials and teacher training in relation to gang resistance education and training.

The board shall specify in its formal job description for principals, and from and after July 1, 1990 shall specify in the 4 year performance contracts for use with respect to all principals, that his or her primary responsibility is in the improvement of instruction. A majority of the time spent by a principal shall be spent on curriculum and staff development through both formal and informal activities, establishing clear lines of communication regarding school goals, accomplishments, practices and policies with parents and teachers. The principal, with the assistance of the local school council, shall develop a school improvement plan as provided in Section 34-2.4 [105 ILCS 5/34-2.4] and, upon approval of the plan by the local school council, shall be responsible for directing implementation of the plan. The principal, with the assistance of the professional personnel leadership committee, shall develop the specific methods and contents of the school's curriculum within the board's system-wide curriculum standards and objectives and the requirements of the school improvement plan. The board shall ensure that all principals are evaluated on their instructional leadership ability and their ability to maintain a positive education and learning climate. It shall also be the responsibility of the principal to utilize resources of proper law enforcement agencies when the safety and welfare of students and teachers are threatened by illegal use of drugs and alcohol, by illegal use or possession of weapons, or by illegal gang activity.

The Department shall create and maintain an online database and resource page on its website. The database and resource page shall contain mental health resources specifically geared toward school social workers, school counselors, parents, teachers, and school support personnel with the goal of connecting those people with mental health resources related to bullying and school shootings and encouraging information sharing among educational administrators, school security personnel, and school resource officers.

School boards and the governing bodies of charter schools, along with the parent-teacher advisory committee, must annually review their pupil discipline policies, the implementation of those policies, and any other factors related to the safety of their schools, pupils, and staff.

Whoever by threat, menace, or intimidation prevents any child entitled to attend a public or nonpublic school in this State from attending such school or interferes with any such child's attendance at that school shall be guilty of a Class A misdemeanor.

(a) The purpose of this Section is to inform and protect students from inappropriate or illegal communications and solicitation and to encourage school districts to provide education about Internet threats and risks, including without limitation child predators, fraud, and other dangers.
(b) The General Assembly finds and declares the following:

(1) it is the policy of this State to protect consumers and Illinois residents from deceptive and unsafe communications that result in harassment, exploitation, or physical harm;

(2) children have easy access to the Internet at home, school, and public places;

(3) the Internet is used by sexual predators and other criminals to make initial contact with children and other vulnerable residents in Illinois; and

(4) education is an effective method for preventing children from falling prey to online predators, identity theft, and other dangers.

c) Each school may adopt an age-appropriate curriculum for Internet safety instruction of students in grades kindergarten through 12. However, beginning with the 2009-2010 school year, a school district must incorporate into the school curriculum a component on Internet safety to be taught at least once each school year to students in grades 3 through 12. The school board shall determine the scope and duration of this unit of instruction. The age-appropriate unit of instruction may be incorporated into the current courses of study regularly taught in the district's schools, as determined by the school board, and it is recommended that the unit of instruction include the following topics:

d) Curricula devised in accordance with subsection (c) of this Section may be submitted for review to the Office of the Illinois Attorney General.

e) The State Board of Education shall make available resource materials for educating children regarding child online safety and may take into consideration the curriculum on this subject developed by other states, as well as any other curricular materials suggested by education experts, child psychologists, or technology companies that work on child online safety issues. Materials may include without limitation safe online communications, privacy protection, cyber-bullying, viewing inappropriate material, file sharing, and the importance of open communication with responsible adults. The State Board of Education shall make these resource materials available on its Internet website.

(a) The General Assembly finds that a safe and civil school environment is necessary for students to learn and achieve and that bullying causes physical, psychological, and emotional harm to students and interferes with students’ ability to learn and participate in school activities. The General Assembly further finds that bullying has been linked to other forms of antisocial behavior, such as vandalism, shoplifting, skipping and dropping out of school, fighting, using drugs and alcohol, sexual harassment, and sexual violence. Because of the negative outcomes associated with bullying in schools, the General Assembly finds that school districts, charter schools, and non-public, non-sectarian elementary and secondary schools should educate students, parents, and school district, charter school, or non-public, non-sectarian elementary or secondary school personnel about what behaviors constitute prohibited bullying.
Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in all school districts, charter schools, and non-public, non-sectarian elementary and secondary schools. No student shall be subjected to bullying:

(1) during any school-sponsored education program or activity;
(2) while in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities;
(3) through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment; or
(4) through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

(a-5) Nothing in this Section is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the United States Constitution or under Section 3 of Article I of the Illinois Constitution.

School personnel available for help with a bully or to make a report about bullying shall be made known to parents or legal guardians, students, and school personnel. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. The policy must be filed with the State Board of Education after being updated. The State Board of Education shall monitor and provide technical support for the implementation of policies created under this subsection (d).

The use of physical restraints is prohibited except when (i) the student poses a physical risk to himself, herself, or others, (ii) there is no medical contraindication to its use, and (iii) the staff applying the restraint have been trained in its safe application. For the purposes of this Section, “restraint” does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and that are designed (i) to prevent a student from completing an act that would result in potential physical harm to himself, herself, or another or damage to property or (ii) to remove a disruptive student who is unwilling to voluntarily leave the area. The use of physical restraints that meet the requirements of this Section may be included in a student's individualized
education plan where deemed appropriate by the student's individualized education plan team. The policy or implementing procedure shall include a process to investigate whether a reported act of bullying is within the permissible scope of the district's or school's jurisdiction and shall require that the district or school provide the victim with information regarding services that are available within the district and community, such as counseling, support services, and other programs. School personnel available for help with a bully or to make a report about bullying shall be made known to parents or legal guardians, students, and school personnel. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. LAWS

105 ILCS 5/2-3.130. Time out and physical restraint rules.
The State Board of Education shall promulgate rules governing the use of time out and physical restraint in the public schools. The rules shall include provisions governing recordkeeping that is required when physical restraint or more restrictive forms of time out are used.

105 ILCS 5/2-3.162. Student discipline report; school discipline improvement plan.
(a) On or before October 31, 2015 and on or before October 31 of each subsequent year, the State Board of Education, through the State Superintendent of Education, shall prepare a report on student discipline in all school districts in this State, including State-authorized charter schools. This report shall include data from all public schools within school districts, including district-authorized charter schools. This report must be posted on the Internet website of the State Board of Education. The report shall include data on the issuance of out-of-school suspensions, expulsions, and removals to alternative settings in lieu of another disciplinary action, disaggregated by race and ethnicity, gender, age, grade level, whether a student is an English learner, incident type, and discipline duration.

(b) The State Board of Education shall analyze the data under subsection (a) of this Section on an annual basis and determine the top 20% of school districts for the following metrics:

1. Total number of out-of-school suspensions divided by the total district enrollment by the last school day in September for the year in which the data was collected, multiplied by 100.
2. Total number of out-of-school expulsions divided by the total district enrollment by the last school day in September for the year in which the data was collected, multiplied by 100.
3. Racial disproportionality, defined as the overrepresentation of students of color or white students in comparison to the total number of students of color or white students on October 1st of the school year in which data are collected, with respect to the use of out-of-school suspensions and expulsions, which must be calculated using the same method as the U.S. Department of Education's Office for Civil Rights uses.

The analysis must be based on data collected over 3 consecutive school years, beginning with the 2014-2015 school year.

Beginning with the 2017-2018 school year, the State Board of Education shall require each of the school districts that are identified in the top 20% of any of the metrics described in this subsection (b) for 3 consecutive years to submit a plan identifying the strategies the school district will implement to reduce the use of exclusionary disciplinary practices or racial disproportionality or both, if applicable. School districts that no longer meet the criteria described in any of the metrics described in this subsection (b) for 3 consecutive years shall no longer be required to submit a plan.

This plan may be combined with any other improvement plans required under federal or State law.

The calculation of the top 20% of any of the metrics described in this subsection (b) shall exclude all school districts, State-authorized charter schools, and special charter districts that issued fewer than a total of 10 out-of-school suspensions or expulsions, whichever is applicable, during the school year. The calculation of the top 20% of the metric described in subdivision (3) of this subsection (b) shall exclude all school districts with an enrollment of fewer than 50 white students or fewer than 50 students of color.

The plan must be approved at a public school board meeting and posted on the school district's Internet website. Within one year after being identified, the school district shall submit to the State Board of
Education and post on the district's Internet website a progress report describing the implementation of the plan and the results achieved.

The review shall include an analysis of chronic absence data from each attendance center or campus of the school district, charter school, or alternative school or other school receiving public funds.

The school district, charter school, or non-public, non-sectarian elementary or secondary school may use relevant data and information it already collects for other purposes in the policy evaluation. The information developed as a result of the policy evaluation must be made available on the Internet website of the school district, charter school, or non-public, non-sectarian elementary or secondary school.
