(d) Progressive discipline processes developed pursuant to this subpart shall be designed to create the expectation that the degree of discipline will be in proportion to the severity of the behavior leading to the discipline, that the previous discipline history of the student being disciplined and other relevant factors will be taken into account, and that all due process procedures required by federal and state law will be followed.

Teacher authority to remove students from classrooms

LAWS

20-2-738. Authority of teacher over classroom; procedures following removal of student from classroom; placement review committees.

(a) A teacher shall have the authority, consistent with local board policy, to manage his or her classroom, discipline students, and refer a student to the principal or the principal's designee to maintain discipline in the classroom. The principal or the principal's designee shall respond when a student is referred by a teacher by employing appropriate discipline management techniques that are consistent with local board policy.

(b) A teacher shall have the authority to remove from his or her class a student who repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn, where the student's behavior is in violation of the student code of conduct, provided that the teacher has previously filed a report pursuant to Code Section 20-2-737 or determines that such behavior of the student poses an immediate threat to the safety of the student's classmates or the teacher. Each school principal shall fully support the authority of every teacher in his or her school to remove a student from the classroom under this Code section. Each school principal shall implement the policies and procedures of the superintendent and local board of education relating to the authority of every teacher to remove a student from the classroom and shall disseminate such policies and procedures to faculty, staff, and parents or guardians of students. The teacher shall file with the principal or the principal's designee a report describing the student's behavior, in one page or less, by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall, within one school day after the student's removal from class, send to the student's parents or guardians written notification that the student was removed from class, a copy of the report filed by the teacher, and information regarding how the student's parents or guardians may contact the principal or the principal's designee.

(c) If a teacher removes a student from class pursuant to subsection (b) of this Code section, the principal or the principal's designee shall discuss the matter with the teacher and the student by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall give the student oral or written notice of the grounds for his or her removal from class and, if the student denies engaging in such conduct, the principal or the principal's designee shall explain the evidence which supports his or her removal from class and give the student an opportunity to present his or her explanation of the situation. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher gives his or her consent, the
student shall be returned to the class, and the principal or the principal's designee may take action to
discipline the student, as may be warranted, pursuant to paragraph (1) of subsection (e) of this Code
section. If, after such discussions, the principal or the principal's designee seeks to return the student to
the teacher's class and the teacher withholds his or her consent to the student's return to his or her class,
the principal or the principal's designee shall determine an appropriate temporary placement for the
student by the end of the first school day following such removal and shall also take steps to convene a
meeting of a placement review committee. The placement review committee shall convene by the end of
the second school day following such removal by the teacher and shall issue a decision by the end of the
third school day following such removal by the teacher. An appropriate temporary placement for the
student shall be a placement that, in the judgment of the principal or the principal's designee, provides the
least interruption to the student's education and reflects other relevant factors, including, but not limited
to, the severity of the behavior that was the basis for the removal, the student's behavioral history, the
student's need for support services, and the available education settings; provided, however, that the
student shall not be returned to the class of the teacher who removed him or her, as an appropriate
temporary placement, unless the teacher gives his or her consent. The temporary placement shall be in
effect from the time of removal until the decision of the placement review committee is issued or, if
applicable, a placement determination is made pursuant to paragraph (2) of subsection (e) of this Code
section.

(d) Local board policies adopted pursuant to Code Section 20-2-735 shall provide for the establishment at
each school of one or more placement review committees, each of which is to be composed of three
members, to determine the placement of a student when a teacher withholds his or her consent to the
return of a student to the teacher's class. For each committee established, the faculty shall choose two
teachers to serve as members and one teacher to serve as an alternate member, and the principal shall
choose one member of the professional staff of the school to serve as a member. The teacher
withholding consent to readmit the student may not serve on the committee. The placement review
committee shall have the authority to:

(1) Return the student to the teacher's class upon determining that such placement is the best
alternative or the only available alternative; or

(2) Refer the student to the principal or the principal's designee for appropriate action consistent with
paragraph (2) of subsection (e) of this Code section.

The decision of the placement review committee shall be in writing and shall be made within three school
days after the teacher withholds consent to the return of a student. Local boards of education shall
provide training for members of placement review committees regarding the provisions of this subpart,
including procedural requirements; local board policies relating to student discipline; and the student code
of conduct that is applicable to the school.

(e)(1) If a placement review committee decides to return a student to a class from which he or she was
removed, the principal or the principal's designee shall implement such decision of the placement review
committee. In addition, the principal or the principal's designee may, consistent with any applicable
procedural requirements of the Constitutions of the United States and this state and after considering the
use of any appropriate student support services, take any of the following actions which are authorized as
a response to the alleged violation of the student code of conduct by local board policies adopted
pursuant to Code Section 20-2-735:

(A) Place the student in an alternative education program;

(B) Impose out-of-school suspension for not more than ten school days, including any time during
which the student was subject to out-of-school suspension after his or her removal from class
pursuant to subsection (b) of this Code section; or

(C) Make another disciplinary decision or recommendation consistent with local board policy.
(2) If a placement review committee decides not to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee shall determine an appropriate placement for the student and may take action to discipline the student, in a manner consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, as follows, provided that the placement or disciplinary action is authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student into another appropriate classroom or an alternative education program;

(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section;

(C) Make another placement or disciplinary decision or recommendation consistent with local board policy; or

(D) Implement or recommend any appropriate combination of the above and return the student to the class from which he or she was removed upon the completion of any disciplinary or placement action taken pursuant to this paragraph.

(f) Within one school day of taking action pursuant to subsection (e) of this Code section, the principal or the principal's designee shall send written notification of such action to the teacher and the parents or guardians of the student and shall make a reasonable attempt to confirm that such written notification has been received by the student's parents or guardians.

(g) Parents or guardians of a student who has been removed from class pursuant to subsection (b) of this Code section may be required to participate in conferences that may be requested by the principal or the principal's designee; provided, however, that a student may not be penalized for the failure of his or her parent or guardian to attend such a conference.

(h) The procedures contained in this Code section relating to student conferences and notification of parents or guardians are minimum requirements. Nothing in this Code section shall be construed to limit the authority of a local board of education to establish additional requirements relating to student conferences, notification of parents or guardians, conferences with parents or guardians, or other procedures required by the Constitutions of the United States or this state.

20-2-751.5. Student codes of conduct; safety rules on school buses; distribution.

An area, county, or independent board of education may, upon the adoption of written policies, authorize any principal or teacher employed by the board to administer, in the exercise of his sound discretion, corporal punishment on any pupil or pupils placed under his supervision in order to maintain proper control and discipline. Any such authorization shall be subject to the following requirements:

(3) Corporal punishment must be administered in the presence of a principal or assistant principal, or the designee of the principal or assistant principal, employed by the board of education authorizing such punishment, and the other principal or assistant principal, or the designee of the principal or assistant principal, must be informed beforehand and in the presence of the pupil of the reason for the punishment;

(5) Corporal punishment shall not be administered to a child whose parents or legal guardian has upon the day of enrollment of the pupil filed with the principal of the school a statement from a medical doctor licensed in Georgia stating that it is detrimental to the child's mental or emotional stability.

(2) Authority of school personnel.

(a) School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the other requirements of this Rule, is appropriate for a child with a disability who violates a code of student conduct.

(a) As used in this Code section, the term "physical violence" means:
(1) Intentionally making physical contact of an insulting or provoking nature with the person of another; or

(2) Intentionally making physical contact which causes physical harm to another unless such physical contacts or physical harms were in defense of himself or herself, as provided in Code Section 16-3-21.

(b) Local board of education policies and student codes of conduct shall provide for the penalties to be assessed against a student found by a disciplinary hearing officer, panel, or tribunal pursuant to Code Section 20-2-752 to have committed any act of physical violence against a teacher, school bus driver, or other school official or employee. Such disciplinary hearing officer, panel, or tribunal shall hold any disciplinary hearing in accordance with the provisions of Code Section 20-2-754. (a) In addition to any proceedings which are authorized in Code Section 20-2-752, local boards of education shall appoint a disciplinary hearing officer, panel, or tribunal of school officials to hold a disciplinary hearing following any instance of an alleged violation of the student code of conduct where the principal recommends a suspension or expulsion of longer than ten school days or an alleged assault or battery by a student upon any teacher or other school official or employee, if such teacher or other school official or employee so requests.

(b) Nothing in this Code section shall be construed to infringe on any right provided to students with Individualized Education Programs pursuant to the federal Individuals with Disabilities Education Act, Section 504 of the federal Rehabilitation Act of 1973, or the federal Americans with Disabilities Act of 1990.

20-2-754. Procedures to be followed by disciplinary officer, panel, or tribunal; review.

(a) The provisions of Code Section 20-2-1160 shall apply to disciplinary proceedings under this subpart.

(b) A disciplinary officer, panel, or tribunal of school officials appointed as required by Code Section 20-2-753 shall, in addition to any other requirements imposed by rules and regulations which may have been promulgated pursuant to Code Section 20-2-752, ensure that:

(1) All parties are afforded an opportunity for a hearing after reasonable notice served personally or by mail. This notice shall be given to all parties and to the parent or guardian of the student or students involved and shall include a statement of the time, place, and nature of the hearing; a short and plain statement of the matters asserted; and a statement as to the right of all parties to present evidence and to be represented by legal counsel;

(2) The hearing is held no later than ten school days after the beginning of the suspension unless the school system and parents or guardians mutually agree to an extension;

(3) All parties are afforded an opportunity to present and respond to evidence and to examine and cross-examine witnesses on all issues unresolved;

(4) Any teacher who is called as a witness by the school system shall be given notice no later than three days prior to the hearing; and

(c) If appointed to review an instance pursuant to Code Section 20-2-753, the disciplinary officer, panel, or tribunal shall conduct the hearing and, after receiving all evidence, render its decision, which decision shall be based solely on the evidence received at the hearing. The decision shall be in writing and shall be given to all parties within ten days of the close of the record. Any decision by such disciplinary officer, panel, or tribunal may be appealed to the local board of education by filing a written notice of appeal within 20 days from the date the decision is rendered. Any disciplinary action imposed by such officer, panel, or tribunal may be suspended by the school superintendent pending the outcome of the appeal.

(d) The local board of education shall review the record and shall render a decision in writing. The decision shall be based solely on the record and shall be given to all parties within ten days, excluding
weeks of weekends and public and legal holidays provided for in Code Section 1-4-1, from the date the local board of education receives the notice of appeal. The board may take any action it determines appropriate, and any decision of the board shall be final. All parties shall have the right to be represented by legal counsel at any such appeal and during all subsequent proceedings.

(e) Either or both parents or guardians or legal counsel of the student involved may obtain a copy of any documents relating to a disciplinary proceeding conducted pursuant to this Code section.

20-2-755. Authorization of disciplinary officer, panel, or tribunal to determine disciplinary action.

The disciplinary officer, panel, or tribunal of school officials, when appointed as required in Code Section 20-2-753, shall determine what, if any, disciplinary action shall be taken. Such action may include, but is not limited to, expulsion, long-term suspension, or short-term suspension. Any action taken by such officer, panel, or tribunal shall be subject to modification by the local school board on appeal.

20-2-757. Applicability of public inspection and open meeting laws.

(a) All proceedings and hearings conducted under this subpart shall be confidential and shall not be subject to the open meetings requirement of Code Section 50-14-1 or other open meetings laws.

(b) All electronic or other written records of all hearings conducted under this subpart; all statements of charges; all notices of hearings; and all written decisions rendered by a hearing officer, tribunal, the local board of education, or the State Board of Education shall not be subject to public inspection or other disclosure under Article 4 of Chapter 18 of Title 50 or other public disclosure laws; provided, however, the board of education shall prepare a written summary of any proceeding conducted under this subpart, which summary shall include a description of the incident and the disposition thereof but shall not contain the names of any party to the incident. The summary shall be a public record.

20-2-758. Legal actions not prohibited, restricted, or limited by disciplinary hearing; rights to appeal from decision of school board.

Nothing in this subpart shall be construed to prohibit, restrict, or limit in any manner any cause of action otherwise provided by law and available to any teacher, school official, employee, or student. The provisions of subsections (b) through (f) of Code Section 20-2-1160 shall apply to all proceedings under this subpart.

REGULATIONS

160-4-7-.10. Discipline.

(2) Authority of school personnel.

(b) School personnel may remove a child with a disability who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to children without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under this Rule).

(c) After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, during any subsequent days of removal the LEA must provide services to the extent required under this Rule.

(d) For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child’s disability under this Rule, school personnel may apply the relevant disciplinary procedures to children
with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities except as provided in (e) of this Rule.

(e) Services. A child with a disability who is removed from his or her current placement for more than 10 consecutive school days must:

1. Continue to receive educational services, as provided in Rule 160-4-7-.02 Free and Appropriate Public Education, so as to enable the child to continue to participate in the general educational curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and

2. Receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications as set forth in the behavioral intervention plan and IEP, where appropriate, that are designed to address the behavior violation so it does not recur.

3. The LEA is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if services are provided to a child without disabilities who has been similarly removed.

4. After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, if the current removal is not for more than 10 consecutive school days and is not a change in placement because of disciplinary removals, school personnel, in consultation with at least one of the child's teachers, determine the extent to which services are needed in order to provide a free, appropriate public education, so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

5. If the removal is for more than 10 consecutive school days or is a change in placement because of disciplinary removals, the child's IEP Team determines appropriate services needed in order to provide a free, appropriate public education, so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

6. The services required in (e) may be provided in an interim alternative educational setting.

(3) Manifestation determination.

(a) Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the LEA, the parent, and the relevant members of the child's IEP Team (as determined by the parent and the LEA) must review all relevant information in the child's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:

1. If the conduct in question was caused by, or had a direct and substantial relationship to, the Child's disability; or

2. If the conduct in question was the direct result of the LEA's failure to implement the IEP.

(b) The conduct must be determined to be a manifestation of the child's disability if the LEA, the parent and relevant members of the child's IEP Team determine that the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or the conduct in question was the direct result of the LEA's failure to implement the IEP.

(c) If the LEA, the parent and the relevant members of the child's IEP Team determines the conduct in question was a direct result of the failure of the LEA to implement the IEP, the LEA must take immediate steps to remedy those deficiencies.

(4) Determination that behavior was a manifestation.
(a) If the LEA, the parent and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child's disability, the IEP Team must either:

1. Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or

2. If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior, and except as provided in paragraph (5) below, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.

(5) Special circumstances.

(a) School personnel may remove a child to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability, if the child:

1. Carries a weapon to or possesses a weapon at school, on school premises, or at a school function under the jurisdiction of the State or the LEA;

2. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or to a school function under the jurisdiction of the State or the LEA; or

3. Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the State or the LEA.

(b) The interim alternative educational setting is determined by the IEP Team.

(6) Notification.

(a) On the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of child conduct, the LEA must notify the parents of that decision, and provide the parents the procedural safeguards notice described in Rule 160-4-7-.09 Procedural Safeguards.

(7) Definitions.

For purpose of this section, the following definitions apply:

(a) Controlled substance - a drug or other substance identified under schedules I, 11, 111, IV, or V in section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).

(b) Illegal drug - a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.

(c) Serious bodily injury - has the meaning given the term "serious bodily injury" under paragraph (3) of subsection (h) of section 1365 of title 18, United States Code.

(d) Weapon - has the meaning given the term "dangerous weapon" under paragraph (2) of the first subsection (g) of section 930 of title 18, United States Code.

(8) Appeal

(a) The parent of a child with a disability who disagrees with any decision regarding placement or the manifestation determination under this Rule, or an LEA that believes that maintaining the current placement of the child is substantially likely to result in injury to the child or others, may appeal the decision by requesting a hearing. The hearing is requested by filing a due process hearing request pursuant to Rule 160-4-7-.12 Dispute Resolution.
(b) Authority of administrative law judge or hearing officer. A judge or hearing officer under Rule 160-4-7-.12 Dispute Resolution makes a determination regarding an appeal under the disagreement C.F.R. § 300.531(b)(1)) administrative law hears the facts and in (8)(a) above.

1. In making a determination under this Rule, the administrative law judge or hearing officer may:
   (i) Return the child with a disability to the placement from which the child was removed if the administrative law judge or hearing officer determines that the removal was a violation of this Rule or that the child’s behavior was a manifestation of the child’s disability; or
   (ii) Order a change of placement of the child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the administrative law judge or hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

(c) These appeal procedures may be repeated, if the LEA believes that returning the child to the original placement is substantially likely to result in injury to the child or to others.

(d) Expedited due process hearing. Whenever a hearing is requested under paragraph (8)(a) this Rule, the parents or the LEA involved in the dispute must have an opportunity for an impartial due process hearing consistent with Rule 160-4-7-.12 Dispute Resolution, except as provided in (d) 1 and 2 below.

1. The State is responsible for arranging the expedited due process hearing, which must occur within 20 school days of the date the complaint requesting the hearing is filed. The administrative law judge or hearing officer must make a determination within 10 school days after the hearing.

2. Unless the parents and LEA agree in writing to waive the resolution meeting described in Rule 160-4-7-.12 Dispute Resolution or agree to use the mediation process described in the same Rule:
   (a) A resolution meeting must occur within seven days of receiving notice of the due process hearing request/complaint; and
   (b) The due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of the receipt of the due process hearing request/complaint.
   (c) The decisions on expedited due process hearings are appealable consistent with Rule 160-4-7-.12 Dispute Resolution.

(9) Placement during appeals.

(a) When an appeal under this Rule has been made by either the parent or the LEA, the child must remain in the interim alternative educational setting pending the decision of the administrative law judge or hearing officer or until the expiration of the 45 school day time period provided for in this Rule, section 5, Special Circumstances, whichever comes first, unless the parent and the LEA agree otherwise.

(10) Protections for children not yet eligible for special education and related services.

(a) A child who has not been determined to be eligible for special education and related services and who has engaged in behavior that violated a code of student conduct, may assert any of the protections provided for in this Rule if the LEA had knowledge (as determined in accordance with this Rule) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

1. An LEA must be deemed to have knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred -
   (i) The parent of the child expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency or a teacher of the child, that the child is in need of special education and related services;
   (ii) The parent of the child requested an evaluation of the child pursuant to Rule 160-4-7-.04 Eligibility Determinations and Criteria; or
(iii) The teacher of the child or other personnel of the LEA expressed specific concerns about a pattern of behavior demonstrated by the child directly to the director of special education of the LEA or to other supervisory personnel of the LEA.

2. An LEA would not be deemed to have knowledge that a child is a child with a disability if the parent of the child has not allowed an evaluation of the child or has refused services or the child has been evaluated and determined not to be a child with a disability as described in Rule 160-4-7-.04 Eligibility Determinations and Criteria.

3. If an LEA does not have knowledge that a child is a child with a disability prior to taking disciplinary measures against the child, the child may be subjected to the disciplinary measures applied to children without disabilities who engaged in comparable behaviors.

4. If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures, the evaluation must be conducted in an expedited manner. Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and the information provided by the parents, the agency must provide special education and related services.

(11) Referral to and action by law enforcement and judicial authorities.

(a) Nothing in this Rule prohibits a LEA from reporting a crime committed by a child with a disability to appropriate authorities or prevents State law enforcement or judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child with a disability.

(b) A LEA reporting a crime committed by a child with a disability must ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom the agency reports the crime.

(c) A LEA reporting a crime under this Rule may transmit copies of the child's special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act.

(12) Change of placement because of disciplinary removals.

(a) For purposes of removals of a child with a disability from the child’s current educational placement under this Rule, a change in placement occurs if:

1. The removal is for more than 10 consecutive school days, or

2. The child has been subjected to a series of removals that constitute a pattern -
   (i) Because the series of removals total more than 10 school days in a school year;
   (ii) Because the child’s behavior is substantially similar to the child’s behavior in previous incidents that resulted in the series of removals, and;
   (iii) Because of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another.

(b) The LEA determines on a case-by-case basis whether a pattern of removals constitutes a change of placement.

1. This determination is subject to review through due process hearings and judicial proceedings.

160-4-8-.15. Student discipline.

(2) Requirements.
(f) It is the preferred policy of the board that disruptive students are placed in alternative education settings in lieu of being suspended or expelled.

(g) Local board policies shall require the filing of a report by a teacher documenting a student’s violation of the student code of conduct which repeatedly or substantially interferes with the teacher’s ability to communicate effectively with the students in his or her class or with the ability of such student’s classmates to learn within one school day of the most recent occurrence of such behavior. The report shall be filed with the principal or principal’s designee, shall not exceed one page, and shall describe the behavior. The principal or principal’s designee shall, within one day of receiving such report, send to the student’s parents or guardians a copy of the report, and information regarding how the principal or principal’s designee may be contacted.

(h) The principal or the principal’s designee shall send written notification to the teacher and to the student’s parents or guardians of the student support services being utilized or the disciplinary action taken within one school day and shall make a reasonable attempt to confirm receipt of such written notification by the student’s parents or guardians. Written notification shall include information regarding how student’s parents or guardians may contact the principal or principal’s designee.

(i) Each local board of education shall approve Tribunal Training Provider(s).

(j) Each local board of education shall make available to all Qualified Student Discipline Hearing Officers and Disciplinary Tribunal or Panel Members the initial and ongoing tribunal training course prior to the individual(s) serving in such capacity. The local board of education shall ensure initially trained student discipline hearing officers and disciplinary tribunal or panel members undergo continuing education so as to continue to serve in such capacity.

(k) Each local board of education shall observe Georgia law in developing and implementing disciplinary hearings held by a disciplinary hearing officer, disciplinary panel, or disciplinary tribunal pursuant to O.C.G.A. § 20-2-751 through § 20-2-759 including the ability to honor disciplinary orders of private schools and other public schools/school systems pursuant to O.C.G.A. § 20-2-751.2.

   1. Disciplinary hearings shall be held no later than ten school days after the beginning of the student’s suspension unless the school system and parents or guardians mutually agree to an extension.

   2. Any teacher who is called as a witness by the school system shall be given notice no later than three days prior to the hearing.

Return to school following removal

LAWS

20-2-738. Authority of teacher over classroom; procedures following removal of student from classroom; placement review committees.

(c) If a teacher removes a student from class pursuant to subsection (b) of this Code section, the principal or the principal’s designee shall discuss the matter with the teacher and the student by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall give the student oral or written notice of the grounds for his or her removal from class and, if the student denies engaging in such conduct, the principal or the principal's designee shall explain the evidence which supports his or her removal from class and give the student an opportunity to present his or her explanation of the situation. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher’s class and the teacher gives his or her consent, the student shall be returned to the class, and the principal or the principal's designee may take action to discipline the student, as may be warranted, pursuant to paragraph (1) of subsection (e) of this Code section. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher’s class and the teacher withholds his or her consent to the student's return to his or her class, the principal or the principal's designee shall determine an appropriate temporary placement for the student by the end of the first school day following such removal and shall also take steps to convene a meeting of a placement review committee. The placement review committee shall convene by the end of the second school day following such removal by the teacher and shall issue a decision by the end of the third school day following such removal by the teacher. An appropriate temporary placement for the student shall be a placement that, in the judgment of the principal or the principal's designee, provides the least interruption to the student's education and reflects other relevant factors, including, but not limited to, the severity of the behavior that was the basis for the removal, the student's behavioral history, the student's need for support services, and the available education settings; provided, however, that the student shall not be returned to the class of the teacher who removed him or her, as an appropriate temporary placement, unless the teacher gives his or her consent. The temporary placement shall be in effect from the time of removal until the decision of the placement review committee is issued or, if applicable, a placement determination is made pursuant to paragraph (2) of subsection (e) of this Code section.

(d) Local board policies adopted pursuant to Code Section 20-2-735 shall provide for the establishment at each school of one or more placement review committees, each of which is to be composed of three members, to determine the placement of a student when a teacher withholds his or her consent to the return of a student to the teacher’s class. For each committee established, the faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member, and the principal shall choose one member of the professional staff of the school to serve as a member. The teacher withholding consent to readmit the student may not serve on the committee. The placement review committee shall have the authority to:

1. Return the student to the teacher's class upon determining that such placement is the best alternative or the only available alternative; or

2. Refer the student to the principal or the principal's designee for appropriate action consistent with paragraph (2) of subsection (e) of this Code section.

The decision of the placement review committee shall be in writing and shall be made within three school days after the teacher withholds consent to the return of a student. Local boards of education shall provide training for members of placement review committees regarding the provisions of this subpart,
including procedural requirements; local board policies relating to student discipline; and the student code of conduct that is applicable to the school.

(e)(1) If a placement review committee decides to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee may, consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, take any of the following actions which are authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student in an alternative education program;
(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section; or
(C) Make another disciplinary decision or recommendation consistent with local board policy.

20-2-766. Students returning from expulsion or suspension; notice to parents; conference with principal or teacher to devise disciplinary and behavioral correction plan.

The LSS shall submit
to the Georgia Department of Education for approval the corrective action plan. This plan shall be submitted within 20 school days after the Georgia Department of Education notifies the local school system that a school has been classified as a persistently dangerous school.

(b) No later than January 1, 2007, each local board of education shall adopt an acceptable-use policy for its school system. At a minimum, an acceptable-use policy shall contain provisions which are reasonably designed to:

1. Prevent students and employees of the school system from using any computer equipment and communication services owned or leased by the school system for sending, receiving, viewing, or downloading visual depictions of obscenity, child pornography, or material that is harmful to minors;
2. Establish appropriate measures to be taken against students and school employees who willfully violate the acceptable-use policy; and
3. Provide for expedited review and resolution of a claim that the policy is denying a student or school employee access to material that is not within the prohibition of the acceptable-use policy.

(c) A local board of education shall take such steps as it deems appropriate to implement and enforce the acceptable-use policy, which shall include, but not be limited to:

1. Use of software programs reasonably designed to block access to visual depictions of obscenity, child pornography, and material that is harmful to minors; or
2. Selection of online servers that block access to visual depictions of obscenity, child pornography, and material that is harmful to minors.

(d) Each local school system shall provide, upon written request of a parent or guardian, a copy of the acceptable-use policy adopted pursuant to subsection (b) of this Code section.

(e) The Attorney General and the department shall consult with and assist any local board of education in the development and implementation of an acceptable-use policy pursuant to this Code section.

(f)(1) No later than January 31, 2007, each local board of education shall submit a copy of the acceptable-use policy adopted pursuant to subsection (b) of this Code section to the State Board of Education. Such submission shall also include the identification of any software program or online server that is being utilized to block access to material in accordance with subsection (c) of this Code section.

2. The State Board of Education shall review each acceptable-use policy and any subsequent revisions submitted pursuant to paragraph (3) of this subsection. If the state board determines after review that a policy or revision is not reasonably designed to achieve the requirements of this Code section, the state board shall provide written notice to the local board of education explaining the nature of such noncompliance and the local board of education shall have 30 days from the receipt of written notice to correct such noncompliance. The state board may provide an extension to the 30 day period on a showing of good cause.

3. No revision of an acceptable-use policy which has been approved by the state board pursuant to paragraph (2) of this subsection shall be implemented until such revision is approved by the state board. If the state board fails to disapprove the revision within 60 days after the submission is received, the local board of education may proceed with the implementation of the revision.

4. The state board shall be authorized to withhold a portion of state funding to a local school system if the local board of education:

(A) Fails to timely submit an acceptable-use policy in accordance with paragraph (1) of this subsection;

(B) Submits an acceptable-use policy that is not reasonably designed to achieve the requirements of this Code section; or

(C) Is not enforcing or is substantially disregarding its acceptable-use policy.
(5) If the state board disapproves an acceptable-use policy of a local board of education or any revision thereof or notifies the local board of education that it is subject to the withholding of funding pursuant to paragraph (4) of this subsection, the local board of education may appeal the decision to the superior court of the county where the local board of education is situated.

(g)(1) The state board shall be responsible for conducting investigations and making written determinations as to whether a local board of education has violated the requirements of this Code section.

(2) If the state board determines that a local board of education is in violation of the requirements of this Code section, it shall direct the local board of education to acknowledge and correct the violation within 30 days and to develop a corrective plan for preventing future recurrences.

(h)(1) Notwithstanding any other provision of this Code section to the contrary, an administrator or supervisor of a local school system, or designee thereof, may disable the software program or online server that is being utilized to block access to material for an adult or for a minor who provides written consent from his or her parent or guardian to enable access to the Internet for bona fide research or other lawful purpose.

(2) Nothing in paragraph (1) of this subsection shall be construed to permit any person to have access to material the character of which is illegal under federal or state law.

(i) A local board of education which is fulfilling the requirements of the federal Children's Internet Protection Act, P.L. 106-554, is not required to comply with this Code section.

20-2-324.2. Video monitoring cameras in classrooms providing special education services; requirements; evaluations; funding.

(a) The Department of Education is authorized to provide guidance for the placement of video monitoring cameras and equipment by a school in self-contained classrooms in which students receive special education services. The Department of Education is authorized to approve local school systems for participation and may approve local school systems which already utilize video monitoring cameras and equipment in their special education self-contained classrooms through an application process. The department or an approved local school system may approve schools in the local school system for participation. A local school system or school may, in its sole discretion, agree to participate.

(b) Participating local school systems or schools shall provide, at a minimum, for:

(1) Prior notice of the placement of video monitoring cameras to the parents or guardians of each student in the approved classrooms;

(2) The retention of videos recorded from video monitoring cameras placed pursuant to this Code section for no less than three months nor more than 12 months from the date of the recording;

(3) The coverage by video monitoring cameras of all areas of the approved classrooms, to the extent practical; and

(4) Procedures and requirements to protect the confidentiality of student records contained in videos recorded from video monitoring cameras placed pursuant to this Code section in accordance with the federal Family Educational Rights and Privacy Act and Article 15 of this chapter.

(c) The video monitoring cameras shall only be used for purposes of monitoring classroom instruction, monitoring classroom interactions, and teacher observation, and review of recorded material shall only be for such purposes, except with the written permission of the parent or guardian of a child or pursuant to the subpoena of a court of competent jurisdiction. Recorded material, including identity of students or demographics of students, shall not be used for marketing purposes.

(d) The Department of Education shall provide guidelines and criteria regarding the effectiveness, feasibility, and benefits, including any impact on safety, and the Department of Education may require
participating local school systems or schools to conduct an evaluation. If the department requires such evaluations, the department shall collect and report the results of such evaluation to the House Committee on Education and the Senate Education and Youth Committee.

(e)(1) The department shall serve as a state level flow through point for any available state or federal funding.

(2) Local school systems may solicit and accept gifts, grants, and donations from any person or entity for use in placing video monitoring cameras in classrooms pursuant to this Code section.

20-2-751.7. State mandated process for students to follow in reporting instances of alleged inappropriate behavior by teacher or other school personnel; notice of process; training; investigations.

(a) The Professional Standards Commission shall establish a state mandated process for students to follow in reporting instances of alleged inappropriate behavior by a teacher, administrator, or other school employee toward a student which shall not prohibit the ability of a student to report the incident to law enforcement authorities. Each local school system shall be required to implement and follow such state mandated process and shall include the mandated process in student handbooks and in employee handbooks or policies.

(b) If it is determined through the state mandated process established pursuant to subsection (a) of this Code section that a complaint against a teacher, administrator, or other school employee is unsubstantiated and without merit, the local school system shall, at the request of the aggrieved party, submit a written statement to that effect to all local print and television media outlets that published any articles or reported any news relating to such complaint against the teacher, administrator, or employee.

(c) The Professional Standards Commission shall coordinate a training program on educator sexual misconduct. Such program shall be delivered by trained staff from the Professional Standards Commission, regional educational service agencies, and local school systems. The superintendent of each local school system shall ensure that all certified staff in its school system receive such training.

(d)(1) The staff of the Professional Standards Commission shall be authorized, without notification to the Professional Standards Commission, to immediately open an investigation submitted to the commission by a local school superintendent, with approval of the local board of education, of a complaint by a student against an educator alleging a sexual offense, as provided for in Code Sections 16-6-1 through 16-6-17, 16-6-20, 16-6-22.2, or 16-12-100.

(2) The Professional Standards Commission shall have on staff a minimum of one investigator specifically trained in investigating educator sexual misconduct. The investigation of any complaint of sexual misconduct shall be completed in no more than 60 days and shall be presented at the commission meeting immediately following the conclusion of the investigation.

(3) If the Professional Standards Commission's review of the investigative report results in a sanction against the educator, the educator shall have the right to appeal the commission decision to a hearing before an administrative law judge within 90 days of such sanction.

(e) Nothing in this Code section shall be construed to infringe on any right provided to students with Individualized Education Programs pursuant to the federal Individuals with Disabilities Education Act, Section 504 of the federal Rehabilitation Act of 1973, or the federal Americans with Disabilities Act of 1990.

20-2-1185. School safety plans; drills.

(a) Every public school shall prepare a school safety plan to help curb the growing incidence of violence in schools, to respond effectively to such incidents, and to provide a safe learning environment for Georgia's children, teachers, and other school personnel. Such plan shall also address preparedness for
natural disasters, hazardous materials or radiological accidents, acts of violence, and acts of terrorism. School safety plans of public schools shall be prepared with input from students enrolled in that school, parents or legal guardians of such students, teachers in that school, community leaders, other school employees and school district employees, and local law enforcement, juvenile court, fire service, public safety, and emergency management agencies. As part of such plans, public schools shall provide for the coordination with local law enforcement agencies and the local juvenile court system. School safety plans shall include, at a minimum, the following strategy areas:

(1) Training school administrators, teachers, and support staff, including, but not limited to, school resource officers, security officers, secretaries, custodians, and bus drivers, on school violence prevention, school security, school threat assessment, mental health awareness, and school emergency planning best practices;

(2) Evaluating and refining school security measures;

(3) Updating and exercising school emergency preparedness plans;

(4) Strengthening partnerships with public safety officials; and

(5) Creating enhanced crisis communications plans and social media strategies.

School safety plans of private schools may be prepared with input from students enrolled in that school, parents or legal guardians of such students, teachers in that school, other school employees, and local law enforcement, fire service, public safety, and emergency management agencies. Such plans shall be reviewed and, if necessary, updated annually. Such plans of public schools shall be submitted to the local emergency management agency and the local law enforcement agency for approval.

(b) A public school may request funding assistance from the state for facilities, technology, or other safety improvements or initiatives, such as the installation of safety equipment, including, but not limited to, video surveillance cameras, metal detectors, alarms, communications systems, building access controls, and other similar security devices. The Department of Education shall establish criteria that will be applied in reviewing funding requests pursuant to this subsection which shall take into consideration the physical security needs of the public school in evaluating how the school safety plan and funding request will support such physical security needs. Funding may be provided to a public school in accordance with a school safety plan prepared by the school and approved by the local board of education, the local law enforcement agency, the Department of Education, and the Georgia Emergency Management and Homeland Security Agency; provided, however, that a public school shall be required to match the state funding with local funds unless the school can demonstrate a substantial hardship.

(c) School safety plans prepared by public schools shall address security issues in school safety zones as defined in Code Section 16-11-127.1. School safety plans should also address security issues involving the transportation of pupils to and from school and school functions when such transportation is furnished by the school or school system and school functions held during noninstructional hours.

(d) The Georgia Emergency Management and Homeland Security Agency shall provide training and technical assistance to public school systems and may provide this same training and technical assistance to private school systems and independent private schools throughout this state in the area of emergency management and safe school operations. This training and technical assistance shall include, but not be limited to, crisis response team development, site surveys and safety audits, crisis management planning, exercise design, safe school planning, emergency operations planning, search and seizure, bomb threat management, and model school safety plans.

(e) Every public school shall conduct drills with students, teachers, and other school personnel on the execution of school safety plans in such form and at such intervals based upon guidance from the Georgia Emergency Management and Homeland Security Agency.
REGULATIONS

160-1-3-.04. School law tribunals and appeals.

(1) Purpose. The purpose of this rule is to specify the procedures for appeals from local boards of education (LBOEs) to the State Board of Education on issues respecting the administration or construction of school law.

(2) Role of the Vice Chairperson.

(a) The vice chairperson for appeals of the state board or a hearing officer contracted with or employed by the state board shall conduct a review of appeals to the state board and shall acquaint state board members with the matters to be considered.

(b) The vice chairperson for appeals or the hearing officer shall draft the ruling of the state board.

(3) Procedures before the Local Board of Education.

(a) LBOEs shall hold hearings when required by law. The LBOE shall adopt, except as otherwise provided for by law, the following hearing procedures:

1. The LBOE shall notify the parties of the time and place of the hearing.
2. The LBOE shall sign and issue subpoenas.
3. All witnesses shall testify under oath and shall be subject to cross-examination.
4. The LBOE shall require the testimony and other evidence to be transcribed by a court reporter or recorded by other appropriate means.
5. The strict rules of evidence prevailing in courts of law shall not be applicable to hearings before LBOEs.
6. At the conclusion of the hearing, or within 15 days thereafter, the LBOE shall notify the parties of its decision in writing and shall notify the parties of their right to appeal the decision to the State Board of Education.

(4) Appeals to the State Board of Education.

(a) After a hearing by the LBOE when held in accordance with state law and/or state board policies, regulations or rules, any party aggrieved by a decision of the LBOE rendered on an issue respecting the administration or construction of school law may appeal to the state board by filing the appeal in writing with the local school superintendent. The appeal shall set forth:

1. The question in dispute;
2. The decision of the local board; and
3. A concise statement of the reasons why the decision is being appealed.

(b) The party making the appeal shall file with the appeal the complete record, including a transcript of testimony certified as true and correct by the local school superintendent or a request that the superintendent transcribe and prepare such transcript. The party making the appeal shall assume the costs of such preparation.

(c) When any party is unable to pay the cost of a transcript of the hearing because of indigence, the party shall be relieved from paying the cost if said party provides to the local school superintendent an affidavit to that effect. The party's rights shall be the same as those had the party paid the cost of the transcript. Upon receipt of an affidavit, the local school superintendent may inquire into the ability of the applicant to pay the cost of the transcript. After a hearing, the local school superintendent may order the party to pay the cost of the transcript by a certain date. Such decision of the local school superintendent may be appealed by the party to the State Board of Education in the same manner as other issues. If a party appeals the order of the local board to pay the cost, the local school superintendent shall submit to the State Board of Education a transcript of the hearing on indigence that is certified by the local
school superintendent. If no appeal of the issue of indigence is filed and the cost is not paid as ordered by the LBOE, or if an appeal is filed and the State Board of Education affirms the local board decision, the appeal shall not be docketed.

(d) The appeal to the State Board of Education shall be filed with the local school superintendent within 30 days of the decision in question.

(e) Transmission to the State School Superintendent. The local superintendent shall within 10 days after the filing of the appeal, transmit to the state school superintendent a copy of the appeal, together with the transcript of evidence and proceedings, the decision of the local board and other matters in the file relating to the appeal. All materials should be certified as true and correct. The appeal may be amended and a transcript filed any time prior to transmission to the state board.

(f) Notice. After a determination by the state school superintendent or designee that the appeal is in proper form for hearing, the appeal shall be docketed and placed on the calendar for review before the hearing officer of the state board at the earliest practical time.

(g) The party requesting the appeal shall file a brief with the state board discussing the party's position within 20 days of the date of docketing. The opposing party shall have 40 days from the date of docketing to file a brief.

(h) Oral arguments shall not be heard unless requested by a party or requested by the hearing officer. Oral arguments must be requested by a party within 10 days of the date the appeal is docketed.

(i) Procedure at Oral Argument. If oral argument is ordered or granted, the appellant may be represented by counsel. The argument shall be confined to the issues in the record and the evidence transmitted from previous proceedings. No new evidence shall be received. The state board shall not consider any question not specifically raised in the written appeal or the statement of contentions.

(j) Decision of State Board. The state board shall render its decision in a written order within 25 days after it hears the case and shall notify the parties in writing of its decision and of their right to appeal the decision to the Superior Court of the county wherein the LBOE is located.

(k) Dismissal of Appeal. Failure to comply with any of the provisions herein may be grounds for dismissal.

(l) No Supersedeas. No appeal shall act as a stay of a local board's order unless so ordered by the local board or by the vice chairperson for appeals of the state board.

(5) Severability. The provisions of this rule are hereby declared to be severable, and the invalidation of any part hereof shall not affect or invalidate any other part.

Hawaii
Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

REGULATIONS
"Search" means if after requesting the student to voluntarily relinquish the contraband item(s) and the student refuses and there are reasonable grounds to believe that the student has violated the law or provisions prohibited under this chapter, or if there is a health or safety issue with illicit drugs, dangerous weapons, dangerous instruments or firearms, or a combination of the foregoing, the school official may examine the contents and belongings which may include but are not limited to purses, fanny packs, backpacks, jackets, shoes, socks, or any other outer clothing.
"Seizure" means to take possession of the contraband item(s) that is or are uncovered during a search.

School lockers provided to the students on campus are subject to opening and inspection (and external dog sniffs) by school officials at any time with or without cause, provided that the searches are not because of the student's race, color, national origin, ancestry, sex, gender identity and expression, religion, disability, or sexual orientation. Section 8-19-15 shall have no applicability to the opening and inspection (and external dog sniffs) of student lockers. None of the restrictions in sections 8-19-15 through 8-19-18 or related to general school searches and seizures shall in any way be construed to create an expectation of privacy in student §8-19-16 19-30 lockers. Students should assume that their lockers are subject to opening and inspection (and external dog sniffs) any time with or without cause.

Except as provided in section 8-19-14 regarding student lockers, students have a reasonable expectation of privacy in their persons on campus, or other department of education premises, on department of education transportation, or during a department of education sponsored activity or event on or off school property. Schools have an equally legitimate need to maintain order and an environment where learning can take place. In fulfilling this legitimate need, school officials may on occasions need to carry out searches and seizures on campus, or other department of education premises, on department of education transportation, or during a department of education sponsored activity or event on or off school property. As a general policy, except as provided in section 8-19-14 regarding student lockers, the searches and seizures are permissible if there are reasonable grounds to suspect, based on the attendant circumstances that the search will turn up evidence that the student or students have violated
or are violating either the law or the student conduct prohibited under this chapter. Searches and seizures conducted by school officials shall abide by the provisions of this subchapter.

8-19-16. Authority.
Except as provided in section 8-19-14 regarding student lockers, property may be searched if there are reasonable grounds to suspect, based on the attendant circumstances that the search will turn up evidence that student or students, or others on campus, or other department of education premises, on department of education transportation, or during a department of education sponsored activity or event on or off school property have violated the law or the provisions of this chapter. A school official conducting a search shall be accompanied by another school official serving as a witness, unless it is an emergency where prompt action is necessary to protect the health or safety, or both of any person or persons.

8-19-17. Conditions under which general school searches and seizures may be carried out.
(a) Except as provided in section 8-19-14 regarding student lockers searches and seizures may be carried out by school officials when all of the following conditions are met:
   (1) If at the time of the search, there are reasonable grounds to suspect based on the attendant circumstances that the search will turn up evidence that the student or students have violated the law or provisions prohibited under this chapter.
   (2) The manner in which the search is to be conducted is reasonably related to the purpose of the search.
   (3) The student who will be subjected to a search shall be informed of the purpose of the search and shall be given an opportunity to voluntarily relinquish the evidence sought by the school official.
(b) The principal or designee of the school shall be informed by the school official who will conduct the search that a search is to be conducted and of the purpose of the search unless it is an emergency where immediate action is necessary to protect the health or safety, or both of a person or persons.
(c) If more than one student is suspected of committing a violation, then, if practical and not a risk to health or safety, the school official conducting the search shall start with the student most suspected of having the item sought in the search.

Except as provided in section 8-19-14 regarding student lockers:
   (1) Random searches are prohibited.
   (2) Strip searches are prohibited.
   (3) A school official shall not conduct a search requiring bodily contact of a student except when such a search is necessary to prevent harm to the health or safety, or both of a person or persons.§8-19-19
   (4) In the course of a search, the use of force against a student is prohibited unless the school official believes that the force to be used is necessary to prevent harm to the health or safety, or both of a person or persons or where the student physically resists the search.
   (5) A search conducted under the provisions of this subchapter shall be limited to the object or objects for which the search was conducted. However, any other object observed during a search may be seized by a school official when possession of the object is a violation of law or the provisions of this chapter, or when non-seizure may pose a threat to the health or safety, or both of a person or persons, including the school official conducting the search.

If the pupil and parent or guardian do not agree with the findings made by the principal, the principal shall report the findings, including all the records and documents regarding the investigation and conference, to the complex area superintendent, who shall review the findings and may refer the matter to the attorney general for any further action pursuant to section 577-3.

(e) If the damages exceed $3,500, the principal shall report the matter to the complex area superintendent, who shall refer the matter to the attorney general for any further action pursuant to section 577-3.

(f) Notwithstanding any provisions in this section to the contrary, the State may elect to bring any appropriate action for the recovery of all damages to school properties. Nothing in this section shall limit the right of the State to bring an action against any person to recover these damages.

REGULATIONS

8-19-6. Prohibited student conduct; class offenses.

(c) For "any student who possesses, sells, or uses [...] intoxicating substance(s), or illicit drug(s) while attending school [...] [or [...] who reasonably appears to be under the influence of, have consumed or used intoxicating substance(s) or illicit drug(s) prior to attending school or attending department-supervised activities held on campus, or other department of education premises, on department of education transportation, or during a department of education sponsored activity or event on or off school property, [...] the school administrator shall comply with the provisions of this chapter by conducting an
investigation of the reported incident and inform the parent of the disciplinary action. In addition, the school administrator shall arrange for the student to be screened by a trained screener. The designated screener will summarize the results with the student, and inform the school administrator of the results. The school administrator shall then inform the family of the screening results, the early return provisions of the law, and provide a contact list of medical insurance agencies that conduct substance abuse assessments."

(b) Upon imposition of a crisis removal, schools shall make a good faith effort to inform the parent immediately by telephone.

(c) A follow-up written notice of the crisis removal shall be personally delivered or mailed to the parent. The notice of the crisis removal shall contain the following written statements:

1. Allegations of the specific acts committed by the student that form the basis of the crisis removal;
2. The allegations of the specific acts that were substantiated;
3. A statement of the disciplinary action(s); and
4. A statement of a conference date, time, and place offered by the school administration to meet with the parent.

8-19-7.1. Investigation.

(b) When conducting an investigation, the principal or designee shall make a good faith effort at the earliest point possible to inform the parent about the school’s investigation. If after making reasonable attempts, the principal or designee is unable to contact the parent, the school may engage in and complete the investigation.

(c) The principal or designee shall give to the parent notice of the findings against the student. If the student or parent denies the charge(s), the principal or designee shall indicate to the parent and the student the evidence to support the findings of the school official. The student or parent shall be given an opportunity to present the student’s version of the incident.

8-19-8. Suspension.

(a) Whenever a principal or designee has reason to believe that a student has engaged in activity warranting the imposition of suspension, the principal or designee shall immediately conduct an investigation of the incident. Upon completion of the investigation and findings, the … principal or designee shall inform the parent in writing of the findings and the disciplinary actions.

(b) If the student or parent denies the charge(s), the principal or designee shall indicate to the student and parent what evidence school authorities have to support the findings of the school official. The student or parent, or both shall be given an opportunity to present the student’s version of the incident. However, where the student is unable to understand the seriousness of the charges, the nature of the proceedings, and consequences thereof, or is of such age, intelligence or experience as to make meaningful discussion difficult, the principal or designee shall request that the parent be present to participate in the discussion.

(d) The parent shall be given verbal notice of any suspension regardless of its length. Prior notice for suspension shall be by telephone, if feasible, and the written notice personally delivered or mailed to the parent upon completion of the investigation. The suspension notice shall contain the following written statements:

1. Allegations of the specific acts committed by the student that form the basis of the suspension;
2. The allegations of the specific acts that were substantiated;
(3) A statement of the disciplinary action(s); and
(4) A statement of a conference date, time, and place offered by the school administration to meet with the parent.

In addition to the notice required by this subsection, the principal shall attempt to confirm the notice by telephoning the parent.

8-19-9. Due process for suspensions exceeding ten days, disciplinary transfers, and dismissal.

(a) If, based upon the investigation, the principal or designee believes that a student engaged in an activity which constitutes a violation of this chapter, and if the principal or designee recommends that serious discipline other than crisis removal be imposed, the principal or designee shall immediately notify the complex area superintendent to initiate disciplinary proceedings by obtaining verbal authorization from the complex area superintendent.

(b) Upon obtaining verbal authorization from the complex area superintendent, the principal or the designee will make a good faith effort to inform the parent of:

1. The serious discipline incident,
2. The opportunity to appeal, and
3. That the disciplinary action will be implemented immediately.

(c) Within three school days of the verbal authorization from the complex area superintendent, the principal or designee shall mail a written notice of the serious discipline incident with the appeal form to the parent. A facsimile signature of or an electronic approval confirmation of the complex area superintendent on the serious discipline incident form is sufficient. The written notice of serious discipline shall contain the following statements:

1. Allegations of the specific acts committed by the student that form the basis of the serious discipline;
2. The allegations of the specific acts that were substantiated;
3. A statement of the disciplinary action(s); and
4. A statement that the parent has a right to an appeal to the complex area superintendent at which time the parent may present evidence, call and cross-examine witnesses, and be represented by legal counsel and to the extent the parent provides a written notice of legal representation at least ten calendar days prior to the appeal.

5. If the student or parent would like to file an appeal, the appeal must be submitted in writing and received by the complex area superintendent by the close of business of the seventh school day from the date of the issued serious discipline notice. The student shall be permitted to attend the school of the student pending the appeal unless the principal finds the continued presence of the student creates a substantial risk to self or others or to the rights of other students to pursue their education free from disruption. However, the student shall not participate in any extracurricular activities, including but are not limited to athletics, trips, or clubs.

For more information on appeal procedures, refer to §8-19-9 (d), (e) and (f)

If permission to interview a student is to be granted, the principal or designee shall make an effort to inform the parent of the police interview and the right to be present when the interview is conducted. The interview may be conducted if the principal or designee is unable to inform the parent or if the parent is informed and declines to be present, or if after a reasonable period of time after the notice is given the parent fails to appear at school for the police interview.
(b) The principal or designee shall be present during a police interview unless excluded by the police officer.

(c) If a student is arrested, the principal or designee shall follow the procedures prescribed in section 8-19-24.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. The constitution of the state of Idaho, section 1, article IX, charges the legislature with the duty to establish and maintain a general, uniform and thorough system of public, free common schools. In fulfillment of this duty, the people of the state of Idaho have long enjoyed the benefits of a public school system, supported by the legislature, which has recognized the value of education to the children of this state.

In continuing recognition of the fundamental duty established by the constitution, the legislature finds it in the public interest to define thoroughness and thereby establish the basic assumptions which govern provision of a thorough system of public schools.

A thorough system of public schools in Idaho is one in which:

1. A safe environment conducive to learning is provided;
2. Educators are empowered to maintain classroom discipline;
3. The basic values of honesty, self-discipline, unselfishness, respect for authority and the central importance of work are emphasized;
4. The skills necessary to communicate effectively are taught;
5. A basic curriculum necessary to enable students to enter academic or professional-technical postsecondary educational programs is provided;
6. The skills necessary for students to enter the work force are taught;
7. The students are introduced to current technology; and
8. The importance of students acquiring the skills to enable them to be responsible citizens of their homes, schools and communities is emphasized.

The state board shall adopt rules, pursuant to the provisions of chapter 52, title 67, Idaho Code, and section 33-105(3), Idaho Code, to establish a thorough system of public schools with uniformity as required by the constitution, but shall not otherwise impinge upon the authority of the board of trustees of the school districts. Authority to govern the school district, vested in the board of trustees of the school district, not delegated to the state board, is reserved to the board of trustees. Fulfillment of the expectations of a thorough system of public schools will continue to depend upon the vigilance of district patrons, the dedication of school trustees and educators, the responsiveness of state rules, and meaningful oversight by the legislature.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

§ 105 ILCS 5/2-3.6. Rules and policies.
To make rules, in accordance with the Illinois Administrative Procedure Act, that are necessary to carry into efficient and uniform effect all laws for establishing and maintaining free schools in the State. The State Board of Education may not adopt any rule or policy that alters the intent of the authorizing law or that supersedes federal or State law. The Board may not make policies affecting school districts that have the effect of rules without following the procedures of the Illinois Administrative Procedure Act.

§ 105 ILCS 5/10-20.5. Rules.
To adopt and enforce all necessary rules for the management and government of the public schools of their district. Rules adopted by the school board shall be filed for public inspection in the administrative office of the district.

§ 105 ILCS 5/10-20.5b. Tobacco prohibition.
Each school board shall prohibit the use of tobacco on school property by any school personnel, student, or other person when such property is being used for any school purposes. The school board may not authorize or permit any exception to or exemption from the prohibition at any place or at any time, including without limitation outside of school buildings or before or after the regular school day or on days when school is not in session. “School purposes” include but are not limited to all events or activities or other use of school property that the school board or school officials authorize or permit on school property, including without limitation all interscholastic or extracurricular athletic, academic, or other events sponsored by the school board or in which pupils of the district participate. For purposes of this Section “tobacco” shall mean cigarette, cigar, or tobacco in any other form, including smokeless tobacco which is any loose, cut, shredded, ground, powdered, compressed or leaf tobacco that is intended to be placed in the mouth without being smoked.

(a) To establish and maintain a parent-teacher advisory committee to develop with the school board or governing body of a charter school policy guidelines on pupil discipline, including school searches and bullying prevention as set forth in Section 27-23.7 of this Code. School authorities shall furnish a copy of the policy to the parents or guardian of each pupil within 15 days after the beginning of the school year, or within 15 days after starting classes for a pupil who transfers into the district during the school year, and the school board or governing body of a charter school shall require that a school inform its pupils of the contents of the policy. School boards and the governing bodies of charter schools, along with the parent-teacher advisory committee, must annually review their pupil discipline policies, the implementation of those policies, and any other factors related to the safety of their schools, pupils, and staff.
(a-5) On or before September 15, 2016, each elementary and secondary school and charter school shall, at a minimum, adopt pupil discipline policies that fulfill the requirements set forth in this Section, subsections (a) and (b) of Section 10-22.6 of this Code, Section 34-19 of this Code if applicable, and federal and State laws that provide special requirements for the discipline of students with disabilities.
(b) The school board may establish appropriate rules and disciplinary procedures governing the use or possession of cellular radio telecommunication devices by a student while in a school or on school property, during regular school hours, or at any other time.

(c) The school board shall develop and promulgate written standards under which the board:
   (1) may authorize the use or possession of a pocket pager or similar electronic paging device by a student while in a school building or on school property as an approved exception to the general prohibition of this Section against such use or possession; and
   (2) may impose appropriate discipline or other sanctions against any student who violates any provision of this Section.

Subject to the limitations of all policies established or adopted under Section 14-8.05 [105 ILCS 5/14-8.05], teachers, other certificated educational employees, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student shall maintain discipline in the schools, including school grounds which are owned or leased by the board and used for school purposes and activities. In all matters relating to the discipline in and conduct of the schools and the school children, they stand in the relation of parents and guardians to the pupils. This relationship shall extend to all activities connected with the school program, including all athletic and extracurricular programs, and may be exercised at any time for the safety and supervision of the pupils in the absence of their parents or guardians.

School districts shall adopt policies, consistent with rules adopted by the State Board of Education, which identify the appropriate supportive services and available resources which are provided for truants and chronic truants.

(d) Each school district, charter school, and non-public, non-sectarian elementary or secondary school shall create, maintain, and implement a policy on bullying, which policy must be filed with the State Board of Education. The policy or implementing procedure shall include a process to investigate whether a reported act of bullying is within the permissible scope of the district's or school's jurisdiction and shall require that the district or school provide the victim with information regarding services that are available within the district and community, such as counseling, support services, and other programs. School personnel available for help with a bully or to make a report about bullying shall be made known to parents or legal guardians, students, and school personnel. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. The policy must be filed with the State Board of Education after being updated. The State Board of Education shall monitor and provide technical support for the implementation of policies created under this subsection (d).

The board shall, subject to the limitations in this Article, establish by-laws, rules and regulations, which shall have the force of ordinances, for the proper maintenance of a uniform system of discipline for both employees and pupils, and for the entire management of the schools, and may fix the school age of
pupils, the minimum of which in kindergartens shall not be under 4 years, except that, based upon an assessment of the child's readiness, children who have attended a non-public preschool and continued their education at that school through kindergarten, were taught in kindergarten by an appropriately certified teacher, and will attain the age of 6 years on or before December 31 of the year of the 2009-2010 school term and each school term thereafter may attend first grade upon commencement of such term, and in grade schools shall not be under 6 years. It may expel, suspend or, subject to the limitations of all policies established or adopted under Section 10-22.6 or 14-8.05, otherwise discipline any pupil found guilty of gross disobedience, misconduct, or other violation of the by-laws, rules, and regulations, including gross disobedience or misconduct perpetuated by electronic means. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program. The bylaws, rules and regulations of the board shall be enacted, money shall be appropriated or expended, salaries shall be fixed or changed, and textbooks, electronic textbooks, and courses of instruction shall be adopted or changed only at the regular meetings of the board and by a vote of a majority of the full membership of the board; provided that notwithstanding any other provision of this Article or the School Code, neither the board or any local school council may purchase any textbook for use in any public school of the district from any textbook publisher that fails to furnish any computer diskettes as required under Section 28-21. Funds appropriated for textbook purchases must be available for electronic textbook purchases and the technological equipment necessary to gain access to and use electronic textbooks at the local school council's discretion. The board shall be further encouraged to provide opportunities for public hearing and testimony before the adoption of bylaws, rules and regulations. Upon all propositions requiring for their adoption at least a majority of all the members of the board the yeas and nays shall be taken and reported. The by-laws, rules and regulations of the board shall not be repealed, amended or added to, except by a vote of 2/3 of the full membership of the board. The board shall keep a record of all its proceedings. Such records and all by-laws, rules and regulations, or parts thereof, may be proved by a copy thereof certified to be such by the secretary of the board, but if they are printed in book or pamphlet form which are purported to be published by authority of the board they need not be otherwise published and the book or pamphlet shall be received as evidence, without further proof, of the records, by-laws, rules and regulations, or any part thereof, as of the dates thereof as shown in such book or pamphlet, in all courts and places where judicial proceedings are had.

Notwithstanding any other provision in this Article or in the School Code, the board may delegate to the general superintendent or to the attorney the authorities granted to the board in the School Code, provided such delegation and appropriate oversight procedures are made pursuant to board by-laws, rules and regulations, adopted as herein provided, except that the board may not delegate its authorities and responsibilities regarding (1) budget approval obligations; (2) rule-making functions; (3) desegregation obligations; (4) real estate acquisition, sale or lease in excess of 10 years as provided in Section 34-21; (5) the levy of taxes; or (6) any mandates imposed upon the board by "An Act in relation to school reform in cities over 500,000, amending Acts herein named", approved December 12, 1988.

REGULATIONS

1.280. Discipline.
Section 24-24 of the School Code [105 ILCS 5] provides for teachers, other licensed educational employees (except for individuals employed as a paraprofessional educator) and persons providing a
related service for or with respect to a student as determined by the board of education to maintain discipline in the schools.

b) The board of education shall establish a policy on the administration of discipline in accordance with the requirements of Sections 10-20.14 and 24-24 of the School Code and disseminate that policy as provided in Section 10-20.14 of the School Code.

Scope

LAWS

§ 105 ILCS 5/10-20.5b. Tobacco prohibition.
Each school board shall prohibit the use of tobacco on school property by any school personnel, student, or other person when such property is being used for any school purposes. The school board may not authorize or permit any exception to or exemption from the prohibition at any place or at any time, including without limitation outside of school buildings or before or after the regular school day or on days when school is not in session. “School purposes” include but are not limited to all events or activities or other use of school property that the school board or school officials authorize or permit on school property, including without limitation all interscholastic or extracurricular athletic, academic, or other events sponsored by the school board or in which pupils of the district participate. For purposes of this Section “tobacco” shall mean cigarette, cigar, or tobacco in any other form, including smokeless tobacco which is any loose, cut, shredded, ground, powdered, compressed or leaf tobacco that is intended to be placed in the mouth without being smoked.

(a) The General Assembly finds that a safe and civil school environment is necessary for students to learn and achieve and that bullying causes physical, psychological, and emotional harm to students and interferes with students’ ability to learn and participate in school activities. The General Assembly further finds that bullying has been linked to other forms of antisocial behavior, such as vandalism, shoplifting, skipping and dropping out of school, fighting, using drugs and alcohol, sexual harassment, and sexual violence. Because of the negative outcomes associated with bullying in schools, the General Assembly finds that school districts, charter schools, and non-public, non-sectarian elementary and secondary schools should educate students, parents, and school district, charter school, or non-public, non-sectarian elementary or secondary school personnel about what behaviors constitute prohibited bullying.

Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in all school districts, charter schools, and non-public, non-sectarian elementary and secondary schools. No student shall be subjected to bullying:

(1) during any school-sponsored education program or activity;
(2) while in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities;
(3) through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment; or
(4) through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to
the educational process or orderly operation of a school. This item (4) applies only in cases in which a
school administrator or teacher receives a report that bullying through this means has occurred and
does not require a district or school to staff or monitor any nonschool-related activity, function, or
program.

(a-5) Nothing in this Section is intended to infringe upon any right to exercise free expression or the free
exercise of religion or religiously based views protected under the First Amendment to the United States
Constitution or under Section 3 of Article I of the Illinois Constitution.

(b) In this Section:

"Bullying" includes "cyber-bullying" and means any severe or pervasive physical or verbal act or
conduct, including communications made in writing or electronically, directed toward a student or
students that has or can be reasonably predicted to have the effect of one or more of the following:

(1) placing the student or students in reasonable fear of harm to the student's or students' person or
property;

(2) causing a substantially detrimental effect on the student's or students' physical or mental health;

(3) substantially interfering with the student's or students’ academic performance; or

(4) substantially interfering with the student's or students’ ability to participate in or benefit from the
services, activities, or privileges provided by a school.

Bullying, as defined in this subsection (b), may take various forms, including without limitation one or
more of the following: harassment, threats, intimidation, stalking, physical violence, sexual harassment,
sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or alleging
an act of bullying. This list is meant to be illustrative and non-exhaustive.

"Cyber-bullying" means bullying through the use of technology or any electronic communication,
including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of
any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photoelectronic
system, or photooptical system, including without limitation electronic mail, Internet communications,
instant messages, or facsimile communications. "Cyber-bullying" includes the creation of a webpage or
weblog in which the creator assumes the identity of another person or the knowing impersonation of
another person as the author of posted content or messages if the creation or impersonation creates
any of the effects enumerated in the definition of bullying in this Section. "Cyber-bullying" also includes
the distribution by electronic means of a communication to more than one person or the posting of
material on an electronic medium that may be accessed by one or more persons if the distribution or
posting creates any of the effects enumerated in the definition of bullying in this Section.

§ 105 ILCS 5/34-18.11. Tobacco prohibition.

The Board of Education shall prohibit the use of tobacco on school property when such property is being
used for any school purposes. Neither the board nor the local school council may authorize or permit any
exception to or exemption from the prohibition at any place or at any time, including without limitation
outside of school buildings or before or after the regular school day or on days when school is not in
session. "School purposes" include but are not limited to all events or activities or other use of school
property that the school board or school officials authorize or permit on school property, including without
limitation all interscholastic or extracurricular athletic, academic or other events sponsored by the school
board or in which pupils of the district participate. For purposes of this Section "tobacco" shall mean
cigarette, cigar, or tobacco in any other form, including smokeless tobacco which is any loose, cut,
shredded, ground, powdered, compressed or leaf tobacco that is intended to be placed in the mouth
without being smoked.
Subject to the limitations of all policies established or adopted under Section 14-8.05, teachers, other certificated educational employees, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student shall maintain discipline in the schools, including school grounds which are owned or leased by the board and used for school purposes and activities. In all matters relating to the discipline in and conduct of the schools and the school children, they stand in the relation of parents and guardians to the pupils. This relationship shall extend to all activities connected with the school program, including all athletic and extracurricular programs, and may be exercised at any time for the safety and supervision of the pupils in the absence of their parents or guardians. Nothing in this Section affects the power of the board to establish rules with respect to discipline, except that the rules of the board must provide, subject to the limitations of all policies established or adopted under Section 14-8.05, that a teacher, other certificated employee, and any other person, whether or not a certificated employee, providing a related service for or with respect to a student may use reasonable force as needed to maintain safety for the other students, shall provide that a teacher may remove a student from the classroom for disruptive behavior, and must include provisions which provide due process to students.

Communication of policy

LAWS

(a) To establish and maintain a parent-teacher advisory committee to develop with the school board or governing body of a charter school policy guidelines on pupil discipline, including school searches and bullying prevention as set forth in Section 27-23.7 of this Code. School authorities shall furnish a copy of the policy to the parents or guardian of each pupil within 15 days after the beginning of the school year, or within 15 days after starting classes for a pupil who transfers into the district during the school year, and the school board or governing body of a charter school shall require that a school inform its pupils of the contents of the policy. School boards and the governing bodies of charter schools, along with the parent-teacher advisory committee, must annually review their pupil discipline policies, the implementation of those policies, and any other factors related to the safety of their schools, pupils, and staff.

(b) In this Section:
"Policy on bullying" means a bullying prevention policy that meets the following criteria:
(10) Is posted on the school district's, charter school's, or non-public, non-sectarian elementary or secondary school's existing Internet website, is included in the student handbook, and, where applicable, posted where other policies, rules, and standards of conduct are currently posted in the school and provided periodically throughout the school year to students and faculty, and is distributed annually to parents, guardians, students, and school personnel, including new employees when hired.
REGULATIONS

1.280. Discipline.
Section 24-24 of the School Code [105 ILCS 5] provides for teachers, other licensed educational employees (except for individuals employed as a paraprofessional educator) and persons providing a related service for or with respect to a student as determined by the board of education to maintain discipline in the schools.

b) The board of education shall establish a policy on the administration of discipline in accordance with the requirements of Sections 10-20.14 and 24-24 of the School Code and disseminate that policy as provided in Section 10-20.14 of the School Code.

LAWS

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.
(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. School officials shall limit the number and duration of expulsions and suspensions to the greatest extent practicable, and it is recommended that they use them only for legitimate educational purposes. To ensure that students are not excluded from school unnecessarily, it is recommended that school officials consider forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions.
(b-10) Unless otherwise required by federal law or this Code, school boards may not institute zero-tolerance policies by which school administrators are required to suspend or expel students for particular behaviors.

Use of student and locker searches

LAWS

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(e) To maintain order and security in the schools, school authorities may inspect and search places and areas such as lockers, desks, parking lots, and other school property and equipment owned or controlled by the school, as well as personal effects left in those places and areas by students, without notice to or the consent of the student, and without a search warrant. As a matter of public policy, the General Assembly finds that students have no reasonable expectation of privacy in these places and areas or in their personal effects left in these places and areas. School authorities may request the assistance of law enforcement officials for the purpose of conducting inspections and searches of lockers, desks, parking lots, and other school property and equipment owned or controlled by the school for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs. If a search conducted in accordance with this Section produces evidence that the student has violated or is violating either the law, local ordinance, or the school's policies or rules, such evidence may be seized by school authorities, and disciplinary action may be taken. School authorities may also turn over such evidence to law enforcement authorities.

§ 105 ILCS 5/10-22.10a. Inspection for drugs.

Out-of-School and Exclusionary Discipline: Suspensions, Expulsion, Restraint and Seclusion, and Alternative Placements

Grounds for possible suspension or expulsion

LAWS

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(b) To suspend or by policy to authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of gross disobedience or misconduct, or to suspend pupils guilty of gross disobedience or misconduct on the school bus from riding the school bus, pursuant to subsections (b-15) and (b-20) of this Section, and no action shall lie against them for such suspension. The board may by policy authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of such acts for a period not to exceed 10 school days. If a pupil is suspended due to gross disobedience or misconduct on a school bus, the board may suspend the pupil in excess of 10 school days for safety reasons.

Any suspension shall be reported immediately to the parents or guardian of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardian, the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review, the parents or guardian of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(c) The Department of Human Services shall be invited to send a representative to consult with the board at such meeting whenever there is evidence that mental illness may be the cause for expulsion or suspension.

(d-5) The board may suspend or by regulation authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend a student for a period not to exceed 10 school days or may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis, if (i) that student has been determined to have made an explicit threat on an Internet website against a school employee, a student, or any school-related personnel, (ii) the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and (iii) the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

Limitations, conditions or exclusions for use of suspension or expulsion

LAWS

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. School officials shall limit the number and duration of expulsions and suspensions to the greatest extent practicable, and it is recommended that they use them only for legitimate educational purposes. To ensure that students are not excluded from school unnecessarily, it is recommended that school officials consider forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions.

(b-10) Unless otherwise required by federal law or this Code, school boards may not institute zero-tolerance policies by which school administrators are required to suspend or expel students for particular behaviors.

(b-15) Out-of-school suspensions of 3 days or less may be used only if the student's continuing presence in school would pose a threat to school safety or a disruption to other students' learning opportunities. For purposes of this subsection (b-15), "threat to school safety or a disruption to other students' learning opportunities" shall be determined on a case-by-case basis by the school board or its designee. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of suspensions to the greatest extent practicable.

(b-20) Unless otherwise required by this Code, out-of-school suspensions of longer than 3 days, expulsions, and disciplinary removals to alternative schools may be used only if other appropriate and available behavioral and disciplinary interventions have been exhausted and the student's continuing presence in school would either (i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school. For purposes of this subsection (b-20), "threat to the safety of other students, staff, or members of the school community" and "substantially disrupt, impede, or interfere with the operation of the school" shall be determined on a case-by-case basis by school officials. For purposes of this subsection (b-20), the determination of whether "appropriate and available behavioral and disciplinary interventions have been exhausted" shall be made by school officials. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of student exclusions to the greatest extent practicable. Within the suspension decision described in subsection (b) of this Section or the expulsion decision described in subsection (a) of this Section, it shall be documented whether other interventions were attempted or whether it was determined that there were no other appropriate and available interventions.

(b-25) Students who are suspended out-of-school for longer than 4 school days shall be provided appropriate and available support services during the period of their suspension. For purposes of this subsection (b-25), "appropriate and available support services" shall be determined by school authorities. Within the suspension decision described in subsection (b) of this Section, it shall be documented whether such services are to be provided or whether it was determined that there are no such appropriate and available services.

A school district may refer students who are expelled to appropriate and available support services.

A school district shall create a policy to facilitate the re-engagement of students who are suspended out-of-school, expelled, or returning from an alternative school setting.
(b-30) A school district shall create a policy by which suspended pupils, including those pupils suspended from the school bus who do not have alternate transportation to school, shall have the opportunity to make up work for equivalent academic credit. It shall be the responsibility of a pupil's parent or guardian to notify school officials that a pupil suspended from the school bus does not have alternate transportation to school.

(c) The Department of Human Services shall be invited to send a representative to consult with the board at such meeting whenever there is evidence that mental illness may be the cause for expulsion or suspension.

(c-5) School districts shall make reasonable efforts to provide ongoing professional development to teachers, administrators, school board members, school resource officers, and staff on the adverse consequences of school exclusion and justice-system involvement, effective classroom management strategies, culturally responsive discipline, the appropriate and available supportive services for the promotion of student attendance and engagement, and developmentally appropriate disciplinary methods that promote positive and healthy school climates.

(d) The board may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis. A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year:

(1) A firearm. For the purposes of this Section, "firearm" means any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 2012. The expulsion period under this subdivision (1) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

(2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined in subdivision (1) of this subsection (d). The expulsion requirement under this subdivision (2) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

Expulsion or suspension shall be construed in a manner consistent with the Federal Individuals with Disabilities Education Act. A student who is subject to suspension or expulsion as provided in this Section may be eligible for a transfer to an alternative school program in accordance with Article 13A of the School Code.

(d-5) The board may suspend or by regulation authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend a student for a period not to exceed 10 school days or may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis, if (i) that student has been determined to have made an explicit threat on an Internet website against a school employee, a student, or any school-related personnel, (ii) the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and (iii) the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

(f) Suspension or expulsion may include suspension or expulsion from school and all school activities and a prohibition from being present on school grounds.

(g) A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion in an alternative school program under Article 13A of this Code or an
alternative learning opportunities program under Article 13B of this Code before being admitted into the
school district if there is no threat to the safety of students or staff in the alternative program.
(h) School officials shall not advise or encourage students to drop out voluntarily due to behavioral or
academic difficulties.
(i) A student may not be issued a monetary fine or fee as a disciplinary consequence, though this shall
not preclude requiring a student to provide restitution for lost, stolen, or damaged property.
(j) Subsections (a) through (i) of this Section shall apply to elementary and secondary schools, charter
schools, special charter districts, and school districts organized under Article 34 of this Code.
(k) The expulsion of children enrolled in programs funded under Section 1C-2 of this Code is subject to
the requirements under paragraph (7) of subsection (a) of Section 2-3.71 of this Code.

(a) No punitive action, including out of school suspensions, expulsions or court action, shall be taken
against chronic truants for such truancy unless appropriate and available supportive services and other
school resources have been provided to the student.
(b) A school district may not refer a truant, chronic truant, or truant minor to any other local public entity,
as defined under Section 1-206 of the Local Governmental and Governmental Employees Tort Immunity
Act, for that local public entity to issue the child a fine or a fee as punishment for his or her truancy.
(c) A school district may refer any person having custody or control of a truant, chronic truant, or truant
minor to any other local public entity, as defined under Section 1-206 of the Local Governmental and
Governmental Employees Tort Immunity Act, for that local public entity to issue the person a fine or fee
for the child's truancy only if the school district's truant officer, regional office of education, or intermediate
service center has been notified of the truant behavior and the school district, regional office of education,
or intermediate service center has offered all appropriate and available supportive services and other
school resources to the child. Before a school district may refer a person having custody or control of a
child to a municipality, as defined under Section 1-1-2 of the Illinois Municipal Code, the school district
must provide the following appropriate and available services:

1. For any child who is a homeless child, as defined under Section 1-5 of the Education for Homeless
Children Act, a meeting between the child, the person having custody or control of the child, relevant
school personnel, and a homeless liaison to discuss any barriers to the child's attendance due to the
child's transitional living situation and to construct a plan that removes these barriers.
2. For any child with a documented disability, a meeting between the child, the person having custody
or control of the child, and relevant school personnel to review the child's current needs and address
the appropriateness of the child's placement and services. For any child subject to Article 14 of this
Code, this meeting shall be an individualized education program meeting and shall include relevant
members of the individualized education program team. For any child with a disability under Section
504 of the federal Rehabilitation Act of 1973 (29 U.S.C. 794), this meeting shall be a Section 504 plan
review and include relevant members of the Section 504 plan team.
3. For any child currently being evaluated by a school district for a disability or for whom the school has
a basis of knowledge that the child is a child with a disability under 20 U.S.C. 1415(k)(5), the completion
of the evaluation and determination of the child's eligibility for special education services.
(d) Before a school district may refer a person having custody or control of a child to a local public entity
under this Section, the school district must document any appropriate and available supportive services
offered to the child. In the event a meeting under this Section does not occur, a school district must have
documentation that it made reasonable efforts to convene the meeting at a mutually convenient time and
date for the school district and the person having custody or control of the child and, but for the conduct of that person, the meeting would have occurred.

Administrative procedures related to suspension and expulsion

LAWS

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.
(a) To expel pupils guilty of gross disobedience or misconduct, including gross disobedience or misconduct perpetrated by electronic means, pursuant to subsection (b-20) of this Section, and no action shall lie against them for such expulsion. Expulsion shall take place only after the parents have been requested to appear at a meeting of the board, or with a hearing officer appointed by it, to discuss their child's behavior. Such request shall be made by registered or certified mail and shall state the time, place and purpose of the meeting. The board, or a hearing officer appointed by it, at such meeting shall state the reasons for dismissal and the date on which the expulsion is to become effective. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting and the board may take such action thereon as it finds appropriate. If the board acts to expel a pupil, the written expulsion decision shall detail the specific reasons why removing the pupil from the learning environment is in the best interest of the school. The expulsion decision shall also include a rationale as to the specific duration of the expulsion. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(b) To suspend or by policy to authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of gross disobedience or misconduct, or to suspend pupils guilty of gross disobedience or misconduct on the school bus from riding the school bus, pursuant to subsections (b-15) and (b-20) of this Section, and no action shall lie against them for such suspension. The board may by policy authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of such acts for a period not to exceed 10 school days. If a pupil is suspended due to gross disobedience or misconduct on a school bus, the board may suspend the pupil in excess of 10 school days for safety reasons. Any suspension shall be reported immediately to the parents or guardian of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardian, the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review, the parents or guardian of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases
in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. School officials shall limit the number and duration of expulsions and suspensions to the greatest extent practicable, and it is recommended that they use them only for legitimate educational purposes. To ensure that students are not excluded from school unnecessarily, it is recommended that school officials consider forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions.

(b-10) Unless otherwise required by federal law or this Code, school boards may not institute zero-tolerance policies by which school administrators are required to suspend or expel students for particular behaviors.

(b-15) Out-of-school suspensions of 3 days or less may be used only if the student's continuing presence in school would pose a threat to school safety or a disruption to other students' learning opportunities. For purposes of this subsection (b-15), "threat to school safety or a disruption to other students' learning opportunities" shall be determined on a case-by-case basis by the school board or its designee. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of suspensions to the greatest extent practicable.

(b-20) Unless otherwise required by this Code, out-of-school suspensions of longer than 3 days, expulsions, and disciplinary removals to alternative schools may be used only if other appropriate and available behavioral and disciplinary interventions have been exhausted and the student's continuing presence in school would either (i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school. For purposes of this subsection (b-20), "threat to the safety of other students, staff, or members of the school community" and "substantially disrupt, impede, or interfere with the operation of the school" shall be determined on a case-by-case basis by school officials. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of student exclusions to the greatest extent practicable. Within the suspension decision described in subsection (b) of this Section or the expulsion decision described in subsection (a) of this Section, it shall be documented whether other interventions were attempted or whether it was determined that there were no other appropriate and available interventions.

(b-25) Students who are suspended out-of-school for longer than 4 school days shall be provided appropriate and available support services during the period of their suspension. For purposes of this subsection (b-25), "appropriate and available support services" shall be determined by school authorities. Within the suspension decision described in subsection (b) of this Section, it shall be documented whether such services are to be provided or whether it was determined that there are no such appropriate and available services.

A school district may refer students who are expelled to appropriate and available support services. A school district shall create a policy to facilitate the re-engagement of students who are suspended out-of-school, expelled, or returning from an alternative school setting.

(b-30) A school district shall create a policy by which suspended pupils, including those pupils suspended from the school bus who do not have alternate transportation to school, shall have the opportunity to make up work for equivalent academic credit. It shall be the responsibility of a pupil's parent or guardian to notify school officials that a pupil suspended from the school bus does not have alternate transportation to school.
(c) The Department of Human Services shall be invited to send a representative to consult with the board at such meeting whenever there is evidence that mental illness may be the cause for expulsion or suspension.

(c-5) School districts shall make reasonable efforts to provide ongoing professional development to teachers, administrators, school board members, school resource officers, and staff on the adverse consequences of school exclusion and justice-system involvement, effective classroom management strategies, culturally responsive discipline, the appropriate and available supportive services for the promotion of student attendance and engagement, and developmentally appropriate disciplinary methods that promote positive and healthy school climates.

(d) The board may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis. A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year:

(1) A firearm. For the purposes of this Section, "firearm" means any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 2012. The expulsion period under this subdivision (1) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

(2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined in subdivision (1) of this subsection (d). The expulsion requirement under this subdivision (2) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

Expulsion or suspension shall be construed in a manner consistent with the Federal Individuals with Disabilities Education Act. A student who is subject to suspension or expulsion as provided in this Section may be eligible for a transfer to an alternative school program in accordance with Article 13A of the School Code.

(d-5) The board may suspend or by regulation authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend a student for a period not to exceed 10 school days or may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis, if (i) that student has been determined to have made an explicit threat on an Internet website against a school employee, a student, or any school-related personnel, (ii) the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and (iii) the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

(e) To maintain order and security in the schools, school authorities may inspect and search places and areas such as lockers, desks, parking lots, and other school property and equipment owned or controlled by the school, as well as personal effects left in those places and areas by students, without notice to or the consent of the student, and without a search warrant. As a matter of public policy, the General Assembly finds that students have no reasonable expectation of privacy in these places and areas or in their personal effects left in these places and areas. School authorities may request the assistance of law enforcement officials for the purpose of conducting inspections and searches of lockers, desks, parking lots, and other school property and equipment owned or controlled by the school for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs. If a search conducted in accordance with this Section produces
 evidence that the student has violated or is violating either the law, local ordinance, or the school's policies or rules, such evidence may be seized by school authorities, and disciplinary action may be taken. School authorities may also turn over such evidence to law enforcement authorities.

(f) Suspension or expulsion may include suspension or expulsion from school and all school activities and a prohibition from being present on school grounds.

(g) A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion in an alternative school program under Article 13A of this Code or an alternative learning opportunities program under Article 13B of this Code before being admitted into the school district if there is no threat to the safety of students or staff in the alternative program.

(h) School officials shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties.

(i) A student may not be issued a monetary fine or fee as a disciplinary consequence, though this shall not preclude requiring a student to provide restitution for lost, stolen, or damaged property.

(j) Subsections (a) through (i) of this Section shall apply to elementary and secondary schools, charter schools, special charter districts, and school districts organized under Article 34 of this Code.

(k) The expulsion of children enrolled in programs funded under Section 1C-2 of this Code is subject to the requirements under paragraph (7) of subsection (a) of Section 2-3.71 of this Code.

2) a written procedure to be followed by staff in cases of isolated time out or physical restraint;
3) designation of a school official who will be informed of incidents and maintain the documentation required pursuant to Section 1.285 when isolated time out or physical restraint is used;
4) the process the district or other administrative entity will use to evaluate any incident that results in an injury that the affected student (or the responsible parent or guardian), staff member, or other individual identifies as serious;
5) a description of the alternative strategies that will be implemented when determined advisable pursuant to Section 1.285(f)(4); and
6) a description of the district's or other administrative entity's annual review of the use of isolated time out or physical restraint, which shall include at least:
   A) the number of incidents involving the use of these interventions,
   B) the location and duration of each incident,
   C) identification of the staff members who were involved,
   D) any injuries or property damage that occurred, and
   E) the timeliness of parental notification and administrative review.

d) In addition to, or as part of, its policy on the maintenance of discipline, each board of education shall adopt policies and procedures regarding the use of behavioral interventions for students with disabilities
who require intervention. Each board's policies and procedures shall conform to the requirements of Section 14-8.05(c) of the School Code.

1.285. Requirements for the use of isolated time out and physical restraint.

Isolated time out and physical restraint as defined in this Section shall be used only as means of maintaining discipline in schools (that is, as means of maintaining a safe and orderly environment for learning) and only to the extent that they are necessary to preserve the safety of students and others. Neither isolated time out nor physical restraint shall be used in administering discipline to individual students, i.e., as a form of punishment. Nothing in this Section or in Section 1.280 of this Part shall be construed as regulating the restriction of students' movement when that restriction is for a purpose other than the maintenance of an orderly environment (e.g., the appropriate use of safety belts in vehicles).

a) "Isolated time out" means the confinement of a student in a time-out room or some other enclosure, whether within or outside the classroom, from which the student's egress is restricted. The use of isolated time out shall be subject to the following requirements.

1) Any enclosure used for isolated time out shall:
   A) have the same ceiling height as the surrounding room or rooms and be large enough to accommodate not only the student being isolated but also any other individual who is required to accompany that student;
   B) be constructed of materials that cannot be used by students to harm themselves or others, be free of electrical outlets, exposed wiring, and other objects that could be used by students to harm themselves or others, and be designed so that students cannot climb up the walls (including walls far enough apart so as not to offer the student being isolated sufficient leverage for climbing); and
   C) be designed to permit continuous visual monitoring of and communication with the student.

2) If an enclosure used for isolated time out is fitted with a door, either a steel door or a wooden door of solid-core construction shall be used. If the door includes a viewing panel, the panel shall be unbreakable.

3) An adult who is responsible for supervising the student shall remain within two feet of the enclosure.

4) The adult responsible for supervising the student must be able to see the student at all times. If a locking mechanism is used on the enclosure, the mechanism shall be constructed so that it will engage only when a key, handle, knob, or other similar device is being held in position by a person, unless the mechanism is an electrically or electronically controlled one that is automatically released when the building's fire alarm system is triggered. Upon release of the locking mechanism by the supervising adult, the door must be able to be opened readily.

b) "Physical restraint" means holding a student or otherwise restricting his or her movements. "Physical restraint" as permitted pursuant to this Section includes only the use of specific, planned techniques (e.g., the "basket hold" and "team control").

c) The requirements set forth in subsections (d) through (h) of this Section shall not apply to the actions described in this subsection (c) because, pursuant to Section 10-20.33 of the School Code [105 ILCS 5/10-20.33], "restraint" does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and designed to:

   1) prevent a student from completing an act that would result in potential physical harm to himself, herself, or another or damage to property; or
   2) remove a disruptive student who is unwilling to leave the area voluntarily.

d) The use of physical restraint shall be subject to the following requirements.
1) Pursuant to Section 10-20.33 of the School Code, physical restraint may only be employed when:
   A) the student poses a physical risk to himself, herself, or others,
   B) there is no medical contraindication to its use, and
   C) the staff applying the restraint have been trained in its safe application as specified in subsection (h)(2) of this Section.

2) Students shall not be subjected to physical restraint for using profanity or other verbal displays of disrespect for themselves or others. A verbal threat shall not be considered as constituting a physical danger unless a student also demonstrates a means of or intent to carry out the threat.

3) Except as permitted by the administrative rules of another State agency operating or licensing a facility in which elementary or secondary educational services are provided (e.g., the Illinois Department of Corrections or the Illinois Department of Human Services), mechanical or chemical restraint (i.e., the use of any device other than personal physical force to restrict the limbs, head, or body) shall not be employed.

4) Medically prescribed restraint procedures employed for the treatment of a physical disorder or for the immobilization of a person in connection with a medical or surgical procedure shall not be used as means of physical restraint for purposes of maintaining discipline.

5) Any application of physical restraint shall take into consideration the safety and security of the student. Further, physical restraint shall not rely upon pain as an intentional method of control.

6) In determining whether a student who is being physically restrained should be removed from the area where the restraint was initiated, the supervising adult shall consider the potential for injury to the student, the student's need for privacy, and the educational and emotional well-being of other students in the vicinity.

7) If physical restraint is imposed upon a student whose primary mode of communication is sign language or an augmentative mode, the student shall be permitted to have his or her hands free of restraint for brief periods, unless the supervising adult determines that this freedom appears likely to result in harm to the student or others.

e) Time Limits

1) A student shall not be kept in isolated time out for longer than is therapeutically necessary, which shall not be for more than 30 minutes after he or she ceases presenting the specific behavior for which isolated time out was imposed or any other behavior for which it would be an appropriate intervention.

2) A student shall be released from physical restraint immediately upon a determination by the staff member administering the restraint that the student is no longer in imminent danger of causing physical harm to himself, herself, or others.

f) Documentation and Evaluation

1) A written record of each episode of isolated time out or physical restraint shall be maintained in the student's temporary record. The official designated pursuant to Section 1.280(c)(3) of this Part shall also maintain a copy of each of these records. Each record shall include:
   A) the student's name;
   B) the date of the incident;
   C) the beginning and ending times of the incident;
   D) a description of any relevant events leading up to the incident;
   E) a description of any interventions used prior to the implementation of isolated time out or physical restraint;
F) a description of the incident and/or student behavior that resulted in isolated time out or physical restraint;

G) a log of the student's behavior in isolated time out or during physical restraint, including a description of the restraint techniques used and any other interaction between the student and staff;

H) a description of any injuries (whether to students, staff, or others) or property damage;

I) a description of any planned approach to dealing with the student's behavior in the future;

J) a list of the school personnel who participated in the implementation, monitoring, and supervision of isolated time out or physical restraint;

K) the date on which parental notification took place as required by subsection (g) of this Section.

2) The school official designated pursuant to Section 1.280(c)(3) of this Part shall be notified of the incident as soon as possible, but no later than the end of the school day on which it occurred.

3) The record described in subsection (f)(1) of this Section shall be completed by the beginning of the school day following the episode of isolated time out or physical restraint.

4) The requirements of this subsection (f)(4) shall apply whenever an episode of isolated time out exceeds 30 minutes, an episode of physical restraint exceeds 15 minutes, or repeated episodes have occurred during any three-hour period.

A) A licensed educator knowledgeable about the use of isolated time out or trained in the use of physical restraint, as applicable, shall evaluate the situation.

B) The evaluation shall consider the appropriateness of continuing the procedure in use, including the student's potential need for medication, nourishment, or use of a restroom, and the need for alternate strategies (e.g., assessment by a mental health crisis team, assistance from police, or transportation by ambulance).

C) The results of the evaluation shall be committed to writing and copies of this documentation shall be placed into the student's temporary student record and provided to the official designated pursuant to Section 1.280(c)(3) of this Part.

5) When a student has first experienced three instances of isolated time out or physical restraint, the school personnel who initiated, monitored, and supervised the incidents shall initiate a review of the effectiveness of the procedures used and prepare an individual behavior plan for the student that provides either for continued use of these interventions or for the use of other, specified interventions. The plan shall be placed into the student's temporary student record. The review shall also consider the student's potential need for an alternative program or for special education.

A) The district or other entity serving the student shall invite the student's parents or guardians to participate in this review and shall provide ten days' notice of its date, time, and location.

B) The notification shall inform the parents or guardians that the student's potential need for special education or an alternative program will be considered and that the results of the review will be entered into the temporary student record.

g) Notification to Parents

1) A district whose policies on the maintenance of discipline include the use of isolated time out or physical restraint shall notify parents to this effect as part of the information distributed annually or upon enrollment pursuant to Sections 10-20.14 and 14-8.05(c) of the School Code [105 ILCS 5/10-20.14 and 14-8.05(c)].

2) Within 24 hours after any use of isolated time out or physical restraint, the school district or other entity serving the student shall send written notice of the incident to the student's parents, unless the parent has provided the district or other entity with a written waiver of this requirement for notification. The notification shall include the student's name, the date of the incident, a description of the
intervention used, and the name of a contact person with a telephone number to be called for further information.

h) Requirements for Training

1) Isolated Time Out. Each district, cooperative, or joint agreement whose policy permits the use of isolated time out shall provide orientation to its staff members covering at least the written procedure established pursuant to Section 1.280(c)(2) of this Part.

2) Physical Restraint

   A) Physical restraint as defined in this Section shall be applied only by individuals who have received systematic training that includes all the elements described in subsection (h)(2)(B) of this Section and who have received a certificate of completion or other written evidence of participation. An individual who applies physical restraint shall use only techniques in which he or she has received training within the preceding two years, as indicated by written evidence of participation.

   B) Training with respect to physical restraint may be provided either by the employer or by an external entity and shall include, but need not be limited to:

      i) appropriate procedures for preventing the need for physical restraint, including the de-escalation of problematic behavior, relationship-building, and the use of alternatives to restraint;

      ii) a description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;

      iii) the simulated experience of administering and receiving a variety of physical restraint techniques, ranging from minimal physical involvement to very controlling interventions;

      iv) instruction regarding the effects of physical restraint on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;

      v) instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and

      vi) demonstration by participants of proficiency in administering physical restraint.

   C) An individual may provide training to others in a particular method of physical restraint only if he or she has received written evidence of completing training in that technique that meets the requirements of subsection (h)(2)(B) of this Section within the preceding one-year period.

830.150 Behavior Intervention.

a) Behavior intervention is a therapeutic measure which is to be used only to prevent a student from causing damage to property or physical harm to himself/herself or others. The following procedures shall be used, as part of a behavior modification or management program. In no event shall restraint be used to punish or discipline a student or as a convenience to staff.

b) Behavior intervention may include physically holding, or otherwise restricting the movement of the student's limbs, head or body. No mechanical or chemical restraint shall be permitted. Medically prescribed or monitored procedures for the treatment of an existing physical condition or the amelioration of a physical disability, such as braces and other medical equipment, are not considered restraints. The partial or total immobilization of a student for the purpose of performing a medical/surgical procedure is not restraint.

c) Procedures for the use of physical restraint at the State Schools are as follows:

   1) physical restraint shall be employed in a humane and therapeutic manner. In no event shall restraint be used when it is medically contraindicated (i.e., could adversely affect the health of the student).
2) whenever physical restraint is used with a student whose primary communication is sign language, writing, or computer, the student shall be permitted to have his/her hands free from restraint for brief periods, except when freedom may result in physical harm to the student or others. A staff member skilled in the student's mode of communication shall be in attendance when the student's hands are free.

3) the student must be released from restraint as soon as possible. The use of restraint shall not exceed 30 consecutive minutes.

4) the person who initiates the restraint shall inform his/her supervisor as soon as possible and must submit a written detailed anecdotal report of the cause/conditions that called for the use of physical restraint. The report shall include the date, time, and location that the physical restraint took place. This report will be placed in the student's temporary records maintained by the State School with a copy to be sent to the parent of the student and through the chain of command to the facility administrator.

d) All direct care staff shall be trained in behavior intervention techniques, including physical restraint, to prevent injury to the students. Documentation of training shall be maintained in the employee personnel files kept at each State School. Employees that have not completed the training may not employ physical restraint.

### Alternative placements

**LAWS**

§ 105 ILCS 5/2-3.66. Truants' alternative and optional education programs.

To establish projects to offer modified instructional programs or other services designed to prevent students from dropping out of school, including programs pursuant to Section 2-3.41, and to serve as a part time or full time option in lieu of regular school attendance and to award grants to local school districts, educational service regions or community college districts from appropriated funds to assist districts in establishing such projects. The education agency may operate its own program or enter into a contract with another not-for-profit entity to implement the program. The projects shall allow dropouts, up to and including age 21, potential dropouts, including truants, uninvolved, unmotivated and disaffected students, as defined by State Board of Education rules and regulations, to enroll, as an alternative to regular school attendance, in an optional education program which may be established by school board policy and is in conformance with rules adopted by the State Board of Education. Truants' Alternative and Optional Education programs funded pursuant to this Section shall be planned by a student, the student's parents or legal guardians, unless the student is 18 years or older, and school officials and shall culminate in an individualized optional education plan. Such plan shall focus on academic or vocational skills, or both, and may include, but not be limited to, evening school, summer school, community college courses, adult education, preparation courses for high school equivalency testing, vocational training, work experience, programs to enhance self concept and parenting courses. School districts which are awarded grants pursuant to this Section shall be authorized to provide day care services to children of students who are eligible and desire to enroll in programs established and funded under this Section, but only if and to the extent that such day care is necessary to enable those eligible students to attend and participate in the programs and courses which are conducted pursuant to this Section. School districts and regional offices of education may claim general State aid under Section 18-8.05 or evidence-based funding under Section 18-8.15 for students enrolled in truants' alternative and optional education programs, provided that such students are receiving services that are supplemental to a program leading to a high school diploma and are otherwise eligible to be claimed for general State aid under Section 18-8.05 or evidence-based funding under Section 18-8.15, as applicable.
§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(b) [...] A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(d) The board may expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis. A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year:

1. A firearm. For the purposes of this Section, "firearm" means any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 2012. The expulsion period under this subdivision (1) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

2. A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined in subdivision (1) of this subsection (d). The expulsion requirement under this subdivision (2) may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

Expulsion or suspension shall be construed in a manner consistent with the Federal Individuals with Disabilities Education Act. A student who is subject to suspension or expulsion as provided in this Section may be eligible for a transfer to an alternative school program in accordance with Article 13A of the School Code.

(g) A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion in an alternative school program under Article 13A of this Code or an alternative learning opportunities program under Article 13B of this Code before being admitted into the school district if there is no threat to the safety of students or staff in the alternative program.

§ 105 ILCS 5/13A-1. Legislative Declaration.

The General Assembly finds and declares as follows:

(e) Disruptive students typically derive little benefit from traditional school programs and may benefit substantially by being transferred from their current school into an alternative public school program, where their particular needs may be more appropriately and individually addressed and where they may benefit from the opportunity for a fresh start in a new educational environment. At those alternative school programs, innovative academic and school-to-work programs, including but not limited to the techniques of work based learning and technology delivered learning, can be utilized to best help the students enrolled in those schools to become productive citizens.

For information on establishing truants' alternative and optional education programs as authorized in Section 2-3.66 of the School Code, [105 ILCS 5/2-3.66] see http://www.isbe.net/rules/archive/pdfs/205ARK.pdf.

(h) Every school district in the State shall do all it can to ensure a safe and appropriate educational environment for all of its students, and the first, but not the only, step school districts must take to achieve that goal is to administratively transfer disruptive students from the schools they currently attend to the alternative school programs created by this Article. Those administrative transfers will also provide optional educational programs to best fit the needs of the transferred students.
(i) Administrative transfers may prove more productive for dealing with disruptive students than out-of-school suspensions or expulsions, which have been the subject of much criticism.

§ 105 ILCS 5/13A-2.5. Disruptive student.

"Disruptive student" includes suspension or expulsion eligible students in any of grades 6 through 12. Suspension or expulsion eligible students are those students that have been found to be eligible for suspension or expulsion through the discipline process established by a school district.

(a) Except with respect to the Chicago public school system as provided in Section 13A-11, beginning with the 1996-97 school year, there is hereby created in this State a system of alternative school education programs. At least one alternative school program may be located within each educational service region or established jointly by more than one regional office of education to serve more than one educational service region.

(b) Each regional superintendent shall hold a public hearing, by December 1 of the school year following the effective date of this amendatory Act of 1995, to determine the need for an alternative school. The hearing shall be held before the regional board. The regional superintendent, after consulting with the district superintendent of each school district located within the regional superintendent's educational service region and the regional board, shall determine the location and the need of the alternative school within that region. In making this determination, the regional superintendent shall consider the following:

   (1) the possible utilization of existing buildings, including but not limited to governmental buildings, that are, or could reasonably be made, usable as an alternative school;

   (2) which available option would be least costly; and

   (3) distances that administratively transferred students would need to travel and the costs of that travel.

(c) Upon determination of the need for establishment of an alternative school program, each school district located within the region shall provide the regional superintendent with a copy of the district's discipline policy and procedure for effecting the suspension or expulsion of the students of that district. Thereafter, the regional superintendent in cooperation with a representative from each school district in the region shall establish and each school district in the region shall adopt policies and procedures that shall guide each district in the identification and placement of students in the alternative school program.

(d) The regional superintendent shall locate the alternative school program so that it is as far away from any other school buildings or school grounds in that educational service region as circumstances permit.

(e) With the approval of the State board, additional alternative school programs may be established in an educational service region. If the regional superintendent determines that an additional alternative school is required in the regional superintendent's educational service region, he or she may petition the State board to authorize one or more additional alternative school programs in that region.

(f) In determining whether an additional alternative school program is necessary and appropriate for an educational service region requesting it, the State board shall consider, among other factors, the following:

   (1) the geographic size of the educational service region and distances that students within that region must travel in order to attend the existing alternative school program;

   (2) the student population of schools comprising the educational service region and the likely student population of all alternative school programs within that region if the petition is granted;

   (3) any other logistical considerations; and

   (4) the costs necessitated by establishing an additional alternative school in that educational service region.
(g) In the event the State board grants a petition for an additional alternative school program, then the State board, after consulting the regional superintendent, shall decide where the additional alternative school program shall be located within that region.

A student who is determined to be subject to suspension or expulsion in the manner provided by Section 10-22.6 (or, in the case of a student enrolled in the public schools of a school district organized under Article 34, in accordance with the uniform system of discipline established under Section 34-19) may be immediately transferred to the alternative program. At the earliest time following that transfer appropriate personnel from the sending school district and appropriate personnel of the alternative program shall meet to develop an alternative education plan for the student. The student's parent or guardian shall be invited to this meeting. The student may be invited. The alternative educational plan shall include, but not be limited to all of the following:

(1) The duration of the plan, including a date after which the student may be returned to the regular educational program in the public schools of the transferring district. If the parent or guardian of a student who is scheduled to be returned to the regular education program in the public schools of the district files a written objection to the return with the principal of the alternative school, the matter shall be referred by the principal to the regional superintendent of the educational service region in which the alternative school program is located for a hearing. Notice of the hearing shall be given by the regional superintendent to the student's parent or guardian. After the hearing, the regional superintendent may take such action as he or she finds appropriate and in the best interests of the student. The determination of the regional superintendent shall be final.

(2) The specific academic and behavioral components of the plan.

(3) A method and time frame for reviewing the student's progress.

Notwithstanding any other provision of this Article, if a student for whom an individualized educational program has been developed under Article 14 is transferred to an alternative school program under this Article 13A, that individualized educational program shall continue to apply to that student following the transfer unless modified in accordance with the provisions of Article 14.

§ 105 ILCS 5/13B-5. Legislative findings and declarations.
The General Assembly finds and declares the following:

(1) It is the responsibility of each school district to provide educational support for every student to meet Illinois Learning Standards.

(2) School districts need flexibility and financial support to assist local schools in their efforts to provide students with educational and other services needed for students to successfully master the curriculum.

(3) Alternative education in this State has traditionally provided student-centered curriculum, social services, and other support needed to help students succeed.

(4) Standards-based reform requires a comprehensive approach to alternative education to ensure that every student has the opportunity to meet the State's rigorous learning standards.

(5) While school districts operating alternative learning opportunities programs must comply with all applicable State and federal laws and rules, these districts should do so in a manner consistent with the goals and policies stated in this Article.

The purpose of this Article is to specify the requirements for the operation of alternative learning opportunities programs, which are intended to provide students at risk of academic failure with the education and support services needed to meet Illinois Learning Standards and to complete their
education in an orderly, safe, and secure learning environment. Services provided under this Article should be provided in a manner that addresses individual learning styles, career development, and social needs to enable students to successfully complete their education.

§ 105 ILCS 5/13B-15.10. Student at risk of academic failure.
"Student at risk of academic failure" means a student at risk of not meeting the Illinois Learning Standards or not graduating from elementary or high school and who demonstrates a need for educational support or social services beyond that provided by the regular school program. Such students are eligible for services up to the age of 21.

"Student Success Plan" means a plan based on an assessment of a student's educational and social functioning and skills and that establishes goals and objectives for satisfactory performance in an alternative learning opportunities program. The Plan must (i) specify the curriculum and instructional methods to be used in improving the student's educational performance, (ii) outline the support services needed to remove barriers to learning, (iii) specify, when appropriate, the career development experiences the student will receive to enhance his or her career awareness, (iv) set objectives to ensure a successful transition back to the regular school program or to post-secondary educational options, and (v) outline the student's responsibilities under the Plan.

"Support services" include alcohol and drug rehabilitation; individual, group, and family counseling; mentoring; tutoring; school physicals; health and nutrition education; classroom aides; career counseling; child care; and any other social, health, or supplemental service approved as part of the Student Success Plan that is required by students for their academic success.

An alternative learning opportunities program shall provide a flexible standards-based learning environment, innovative and varied instructional strategies, a student-centered curriculum, social programs, and supplemental social, health, and support services to improve the educational achievement of students at risk of academic failure.

§ 105 ILCS 5/13B-20.5. Eligible activities and services.
Alternative learning opportunities programs may include without limitation evening high school, in-school tutoring and mentoring programs, in-school suspension programs, high school completion programs to assist high school dropouts in completing their education, support services, parental involvement programs, and programs to develop, enhance, or extend the transition for students transferring back to the regular school program, an adult education program, or a post-secondary education program.

§ 105 ILCS 5/13B-20.10. Who may establish and operate programs.
School districts may establish alternative learning opportunities programs or may contract with regional offices of education, intermediate service centers, public community colleges, non-profit or for-profit education providers, youth service agencies, community-based organizations, or other appropriate entities to establish alternative learning opportunities programs within the public school system and provide a range of alternative learning opportunities for those students in the State who do not meet Illinois Learning Standards. Districts may individually operate alternative learning opportunities programs or may collaborate with 2 or more districts or one or more regional offices of education or both or with intermediate service centers to create and operate alternative learning opportunities programs.
§ 105 ILCS 5/13B-20.15. Other eligible providers of alternative learning opportunities.
School districts may contract with health, mental health, or human service organizations, workforce development boards or agencies, juvenile court services, juvenile justice agencies, juvenile detention programs, programs operated by the Department of Juvenile Justice, or other appropriate agencies or organizations to serve students whose needs are not being met in the regular school program by providing alternative learning opportunities.

§ 105 ILCS 5/13B-20.20. Enrollment in other programs.
High school equivalency testing preparation programs are not eligible for funding under this Article. A student may enroll in a program approved under Section 18-8.05 or 18-8.15 of this Code, as appropriate, or attend both the alternative learning opportunities program and the regular school program to enhance student performance and facilitate on-time graduation.

Students in grades 4 through 12 who meet enrollment criteria established by the school district and who meet the definition of “student at risk of academic failure” are eligible to participate in an alternative learning opportunities program funded under this Article. Notwithstanding any other provision of law to the contrary, enrollment in a charter alternative learning opportunities program shall be open to any pupil who has been expelled or suspended for more than 20 days under Section 10-22.6 or 34-19 of this Code. All rights granted under this Article to a student's parent or guardian become exclusively those of the student upon the student’s 18th birthday.

Before being enrolled in an alternative learning opportunities program, the student and each of his or her parents or guardians shall receive written notice to attend a conference to determine if the student would benefit from attending an alternative learning opportunities program. The conference must provide all of the information necessary for the student and parent or guardian to make an informed decision regarding enrollment in an alternative learning opportunities program. The conference shall include a discussion of the extent to which the student, if enrolled in the program, may participate in school activities. No student shall be enrolled in an alternative learning opportunities program without the consent of the student’s parent or guardian.

§ 105 ILCS 5/13B-70. Truancy and attendance problems.
If a student is a chronic or habitual truant as defined in Section 26-2a of this Code or if a child has been ordered to attend school, the school district may consider the student for placement in an alternative learning opportunities program specifically designed to prevent truancy, supplement instruction for students with attendance problems, intervene to decrease chronic truancy, and provide alternatives to high school completion. A program operating pursuant to the truants’ alternative and optional education program may contract with a school district or consortium to provide these services.

(a) The board shall establish and implement a policy governing the transfer of a student from one attendance center to another within the school district upon the request of the student's parent or guardian. A student may not transfer to any of the following attendance centers, except by change in residence if the policy authorizes enrollment based on residence in an attendance area or unless approved by the board on an individual basis:
   (1) An attendance center that exceeds or as a result of the transfer would exceed its attendance capacity.
(2) An attendance center for which the board has established academic criteria for enrollment if the student does not meet the criteria.

(3) Any attendance center if the transfer would prevent the school district from meeting its obligations under a State or federal law, court order, or consent decree applicable to the school district.

(b) The board shall establish and implement a policy governing the transfer of students within the school district from a persistently dangerous attendance center to another attendance center in that district that is not deemed to be persistently dangerous. In order to be considered a persistently dangerous attendance center, the attendance center must meet all of the following criteria for 2 consecutive years:

(1) Have greater than 3% of the students enrolled in the attendance center expelled for violence-related conduct.

§ 105 ILCS 5/2-3.41. Chronic truants and truancy prevention.
The State Board of Education is empowered to enter into contracts with public or private agencies for the provision of educational services to chronic truants and for the prevention of truancy including training and developmental assistance provided an appropriation is made specifically for such purpose.

§ 105 ILCS 5/13B.70. Truancy and attendance problems.
If a student is a chronic or habitual truant as defined in Section 26-2a of this Code or if a child has been ordered to attend school, the school district may consider the student for placement in an alternative learning opportunities program specifically designed to prevent truancy, supplement instruction for students with attendance problems, intervene to decrease chronic truancy, and provide alternatives to high school completion. A program operating pursuant to the truants’ alternative and optional education program may contract with a school district or consortium to provide these services.

§ 105 ILCS 5/34-4.5. Chronic truants.

(a) Office of Chronic Truant Adjudication. The board shall establish and implement an Office of Chronic Truant Adjudication, which shall be responsible for administratively adjudicating cases of chronic truancy and imposing appropriate sanctions. The board shall appoint or employ hearing officers to perform the adjudicatory functions of that Office. Principals and other appropriate personnel may refer pupils suspected of being chronic truants, as defined in Section 26-2a of this Code, to the Office of Chronic Truant Adjudication.

(b) Notices. Before any hearing may be held under subsection (c), the principal of the school attended by the pupil or the principal's designee shall notify the pupil's parent or guardian by personal visit, letter, or telephone of each unexcused absence of the pupil. After giving the parent or guardian notice of the tenth unexcused absence of the pupil, the principal or the principal's designee shall send the pupil's parent or guardian a letter, by certified mail, return receipt requested, notifying the parent or guardian that he or she is subjecting himself or herself to a hearing procedure as provided under subsection (c) and clearly describing any and all possible penalties that may be imposed as provided for in subsections (d) and (e) of this Section.

(c) Hearing. Once a pupil has been referred to the Office of Chronic Truant Adjudication, a hearing shall be scheduled before an appointed hearing officer, and the pupil and the pupil's parents or guardian shall be notified by certified mail, return receipt requested stating the time, place, and purpose of the hearing. The hearing officer shall hold a hearing and render a written decision within 14 days determining whether the pupil is a chronic truant as defined in Section 26-2a of this Code and whether the parent or guardian took reasonable steps to assure the pupil's attendance at school. The hearing shall be private unless a public hearing is requested by the pupil's parent or guardian, and the pupil may be present at the hearing with a representative in addition to the pupil's parent or guardian. The board shall present evidence of the pupil's truancy, and the pupil and the parent or guardian or representative of the pupil may cross examine witnesses, present witnesses and evidence, and present defenses to the charges. All testimony at the hearing shall be taken under oath administered by the hearing officer. The decision of the hearing officer shall constitute an “administrative decision” for purposes of judicial review under the Administrative Review Law.

(d) Penalties. The hearing officer may require the pupil or the pupil's parent or guardian or both the pupil and the pupil's parent or guardian to do any or all of the following: perform reasonable school or community services for a period not to exceed 30 days; complete a parenting education program; obtain

Illinois Compilation of School Discipline Laws and Regulations  Page 42
counseling or other supportive services; and comply with an individualized educational plan or service plan as provided by appropriate school officials. If the parent or guardian of the chronic truant shows that he or she took reasonable steps to insure attendance of the pupil at school, he or she shall not be required to perform services.

(e) Non-compliance with sanctions. If a pupil determined by a hearing officer to be a chronic truant or the parent or guardian of the pupil fails to comply with the sanctions ordered by the hearing officer under subsection (c) of this Section, the Office of Chronic Truant Adjudication may refer the matter to the State's Attorney for prosecution under Section 3-33.5 of the Juvenile Court Act of 1987.

(f) Limitation on applicability. Nothing in this Section shall be construed to apply to a parent or guardian of a pupil not required to attend a public school pursuant to Section 26-1.

3) The identification of supportive services to be made available to truant or chronically truant students. The school's administration may waive this 2-day notification requirement if the student did not receive at least 2 days advance notice, but the student shall notify the school's administration as soon as possible of the absence. A student whose absence is excused under this paragraph 7 shall be counted as if the student attended school for purposes of calculating the average daily attendance of students in the school district. A student whose absence is excused under this paragraph 7 must be allowed a reasonable time to make up school work missed during the absence. If the student satisfactorily completes the school work, the day of absence shall be counted as a day of compulsory attendance and he or she may not be penalized for that absence; and

Such a student shall be granted 5 days of excused absences in any

In the case of excused absences pursuant to this paragraph 8, the student and parent or legal guardian shall be responsible for obtaining assignments from the student's teacher prior to any period of excused absence and for ensuring that such assignments are completed by the student prior to his or her return to school from such period of excused absence.

§ 105 ILCS 5/26-2a. [Terms defined].

A "dropout" is defined as any child enrolled in grades 9 through 12 whose name has been removed from the district enrollment roster for any reason other than the student's death, extended illness, removal for medical non-compliance, expulsion, aging out, graduation, or completion of a program of studies and who has not transferred to another public or private school and is not known to be home-schooled by his or her parents or guardians or continuing school in another country.

"Religion" for the purposes of this Article, includes all aspects of religious observance and practice, as well as belief.

The clerk or secretary of the school board of all school districts except those employing district truant officers shall furnish the superintendent of schools at the beginning of the school year a list of the names and addresses of the children living in the district who come under the provisions of this Article and of persons having custody or control of such children. The superintendent shall at the opening of school and at other times when required by the regional superintendent of schools compare the list with the enrollment of the school or schools and report to the regional superintendent of schools the names of persons having custody or control of children included under the provisions of this Article who are truant or who are chronic or habitual truants for whom supportive services and other school resources have failed to correct the truant behavior and who are not in regular attendance at the public school, and the names of such children and their ages, stating in each case, if known, the cause of such absence. The report shall also contain the names of any other persons who were not enumerated in the list at the beginning of school and who have the custody or control of children not attending school. Such list shall include the names and addresses of pupils formerly in attendance, the names and addresses of persons having custody or control of such pupils, the reason, if known, such pupils are no longer in attendance and the date of removal from the attendance rolls. The list shall also include the names of: pupils whose withdrawal is due to extraordinary circumstances, including but not limited to economic or medical necessity or family hardship, as determined by the criteria established by the school district; pupils who have re-enrolled in school since their names were removed from the attendance rolls; any pupil certified to be a chronic or habitual truant, as defined in Section 26-2a; and pupils previously certified as chronic or habitual truants who have resumed regular school attendance. Each local school district shall establish, in writing, a set of criteria for use by the local superintendent of schools in determining whether a pupil's failure to attend school is the result of extraordinary circumstances, including but not limited to economic or medical necessity or family hardship.

If a pupil re-enrolls in school after his or her name was removed from the attendance rolls or resumes regular attendance after being certified a chronic or habitual truant, the pupil must obtain and forward to the Secretary of State, on a form designated by the Secretary of State, verification of his or her re-enrollment. The verification may be in the form of a signature or seal or in any other form determined by the school board.

The truant officer of the school district, whenever notified by the Superintendent, teacher, or other person of violations of this Article, or the county truant officer, when notified by the County Superintendent, shall investigate all cases of truancy or non-attendance at school in their respective jurisdictions, and if the children complained of are not exempt under the provisions of this Article, the truant officer shall proceed as is provided in this Article. The county truant officer, within the county and the district truant officers, within their respective districts, shall in the exercise of their duties be conservators of the peace and shall keep the same, suppress riots, routs, affray, fighting, breaches of the peace, and prevent crime; and may arrest offenders on view and cause them to be brought before proper officials for trial or examination.

In school districts which employ truant officers the clerk or secretary of the school board shall at the beginning of each school year furnish a copy of the last school census to the superintendent of schools (or principal teacher) in the district, together with the names and addresses of the truant officers in the district, and the superintendent, (or principal teacher) shall compare the census list with the enrollment of the school or schools and, from time to time, report to the proper truant officers the names and addresses of persons having custody or control of children included under the provisions of this Article who are truant or who are chronic or habitual truants for whom supportive services and other school resources have failed to correct the truant behavior and who are not in regular attendance at public schools and also the names of persons having custody or control of children who are not in regular attendance at school and whose names are not included in the census list.

If any person fails to send any child under his custody or control to some lawful school, the truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or
her designee shall, as soon as practicable after he is notified thereof, give notice in person or by mail to such person that such child shall be present at the proper public school on the day following the receipt of such notice. The notice shall state the date that attendance at school must begin and that such attendance must be continuous and consecutive in the district during the remainder of the school year. The truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee shall at the same time that such notice is given notify the teacher or superintendent of the proper public school thereof and the teacher or superintendent shall notify the truant officer or regional superintendent of schools of any non-compliance therewith.

A truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee, after giving the notice provided in Section 26-7, shall determine whether the notice has been complied with. If 3 notices have been given and the notices have not been complied with, and if the persons having custody or control have knowingly and willfully permitted the truant behavior to continue, the regional superintendent of schools, or his or her designee, of the school district where the child resides shall conduct a truancy hearing. If the regional superintendent determines as a result of the hearing that the child is truant, the regional superintendent shall, if age appropriate at the discretion of the regional superintendent, require the student to complete 20 to 40 hours of community service over a period of 90 days. If the truancy persists, the regional superintendent shall (i) make complaint against the persons having custody or control to the state's attorney or in the circuit court in the county where such person resides for failure to comply with the provisions of this Article or (ii) conduct truancy mediation and encourage the student to enroll in a graduation incentives program under Section 26-16 of this Code. If, however, after giving the notice provided in Section 26-7 the truant behavior has continued, and the child is beyond the control of the parents, guardians or custodians, a truancy petition shall be filed under the provisions of Article III of the Juvenile Court Act of 1987.

§ 105 ILCS 5/26-8a. [Court petition content]
The petition for court action shall include the name of the truant minor, the names and addresses of persons having custody or control of the student, the dates of the truant behavior, the dates and nature of contacts or conferences with the student and the persons having custody or control of the student, and the nature of the supportive services, alternative programs and other school resources the school district provided to that child in an effort to correct that child's truant behavior.

§ 105 ILCS 5/26-8b. [Court petition filing]
When a petition is filed, it shall be set for an adjudicatory hearing within 10 days and acted upon within 30 days, subject to the provisions of the Juvenile Court Act or the Juvenile Court Act of 1987 if filed thereunder.

School officers, superintendents, teachers or other persons shall render such assistance and furnish such information as they have to aid truant officers in the performance of their duties.

§ 105 ILCS 5/26-10. Fine for noncompliance.
Any person having custody or control of a child subject to the provisions of this Article to whom notice has been given of the child's truancy and who knowingly and willfully permits such a child to persist in his truancy within that school year, upon conviction thereof shall be guilty of a Class C misdemeanor and shall be subject to not more than 30 days imprisonment and/or a fine of up to $500.
Any person who induces or attempts to induce any child to be absent from school unlawfully, or who knowingly employs or harbors, while school is in session, any child absent unlawfully from school for 3 consecutive school days, is guilty of a Class C misdemeanor.

(a) No punitive action, including out of school suspensions, expulsions or court action, shall be taken against chronic truants for such truancy unless appropriate and available supportive services and other school resources have been provided to the student.
(b) A school district may not refer a truant, chronic truant, or truant minor to any other local public entity, as defined under Section 1-206 of the Local Governmental and Governmental Employees Tort Immunity Act, for that local public entity to issue the child a fine or a fee as punishment for his or her truancy.
(c) A school district may refer any person having custody or control of a truant, chronic truant, or truant minor to any other local public entity, as defined under Section 1-206 of the Local Governmental and Governmental Employees Tort Immunity Act, for that local public entity to issue the person a fine or fee for the child's truancy only if the school district's truant officer, regional office of education, or intermediate service center has been notified of the truant behavior and the school district, regional office of education, or intermediate service center has offered all appropriate and available supportive services and other school resources to the child. Before a school district may refer a person having custody or control of a child to a municipality, as defined under Section 1-1-2 of the Illinois Municipal Code, the school district must provide the following appropriate and available services:

(1) For any child who is a homeless child, as defined under Section 1-5 of the Education for Homeless Children Act, a meeting between the child, the person having custody or control of the child, relevant school personnel, and a homeless liaison to discuss any barriers to the child's attendance due to the child's transitional living situation and to construct a plan that removes these barriers.

(2) For any child with a documented disability, a meeting between the child, the person having custody or control of the child, and relevant school personnel to review the child's current needs and address the appropriateness of the child's placement and services. For any child subject to Article 14 of this Code, this meeting shall be an individualized education program meeting and shall include relevant members of the individualized education program team. For any child with a disability under Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. 794), this meeting shall be a Section 504 plan review and include relevant members of the Section 504 plan team.

(3) For any child currently being evaluated by a school district for a disability or for whom the school has a basis of knowledge that the child is a child with a disability under 20 U.S.C. 1415(k)(5), the completion of the evaluation and determination of the child's eligibility for special education services.

(d) Before a school district may refer a person having custody or control of a child to a local public entity under this Section, the school district must document any appropriate and available supportive services offered to the child. In the event a meeting under this Section does not occur, a school district must have documentation that it made reasonable efforts to convene the meeting at a mutually convenient time and date for the school district and the person having custody or control of the child and, but for the conduct of that person, the meeting would have occurred.

Any dropout, as defined in Section 26-2a, who is 17 years of age may apply to a school district for status as a truant, and the school district shall permit such person to participate in the district's various programs and resources for truants. At the time of the person's application, the district may request documentation of his dropout status for the previous 6 months.
When a regional superintendent has reason to believe that a pupil is a truant minor as defined in Section 26-2a, the regional superintendent may report such pupil under the provisions of the Juvenile Court Act.

(a) The General Assembly finds that it is critical to provide options for children to succeed in school. The purpose of this Section is to provide incentives for and encourage all Illinois students who have experienced or are experiencing difficulty in the traditional education system to enroll in alternative programs.
(b) Any student who is below the age of 20 years is eligible to enroll in a graduation incentives program if he or she:
   (1) is considered a dropout pursuant to Section 26-2a of this Code;
   (2) has been suspended or expelled pursuant to Section 10-22.6 or 34-19 of this Code;
   (3) is pregnant or is a parent;
   (4) has been assessed as chemically dependent; or
   (5) is enrolled in a bilingual education or LEP program.
(c) The following programs qualify as graduation incentives programs for students meeting the criteria established in this Section:
   (1) Any public elementary or secondary education graduation incentives program established by a school district or by a regional office of education.
   (2) Any alternative learning opportunities program established pursuant to Article 13B of this Code.
   (3) Vocational or job training courses approved by the State Superintendent of Education that are available through the Illinois public community college system. Students may apply for reimbursement of 50% of tuition costs for one course per semester or a maximum of 3 courses per school year. Subject to available funds, students may apply for reimbursement of up to 100% of tuition costs upon a showing of employment within 6 months after completion of a vocational or job training program. The qualifications for reimbursement shall be established by the State Superintendent of Education by rule.
   (4) Job and career programs approved by the State Superintendent of Education that are available through Illinois-accredited private business and vocational schools. Subject to available funds, pupils may apply for reimbursement of up to 100% of tuition costs upon a showing of employment within 6 months after completion of a job or career program. The State Superintendent of Education shall establish, by rule, the qualifications for reimbursement, criteria for determining reimbursement amounts, and limits on reimbursement.
   (5) Adult education courses that offer preparation for high school equivalency testing.
(d) Graduation incentives programs established by school districts are entitled to claim general State aid and evidence-based funding, subject to Sections 13B-50, 13B-50.5, and 13B-50.10 of this Code. Graduation incentives programs operated by regional offices of education are entitled to receive general State aid and evidence-based funding at the foundation level of support per pupil enrolled. A school district must ensure that its graduation incentives program receives supplemental general State aid, transportation reimbursements, and special education resources, if appropriate, for students enrolled in the program.

(a) As used in this Section:
“Chronic absence” means absences that total 10% or more of school days of the most recent academic school year, including absences with and without valid cause, as defined in Section 26-2a of this Code, and out-of-school suspensions for an enrolled student.

“Student” means any enrolled student that is subject to compulsory attendance under Section 26-1 of this Code but does not mean a student for whom a documented homebound or hospital record is on file during the student's absence from school.

(b) The General Assembly finds that:

(1) The early years are a critical period in children's learning and development. Every child should be counted present every day. Every day of school matters.

(2) Being absent too many days from school can make it difficult for students to stay on-track academically and maintain the momentum to graduate from high school in order to be college-or career-ready.

(3) Every day of school attendance matters for all students and their families. It is crucial, therefore, that the implications of chronic absence be understood and reviewed regularly.

(c) Beginning July 1, 2018, every school district, charter school, or alternative school or any school receiving public funds shall collect and review its chronic absence data and determine what systems of support and resources are needed to engage chronically absent students and their families to encourage the habit of daily attendance and promote success. The review shall include an analysis of chronic absence data from each attendance center or campus of the school district, charter school, or alternative school or other school receiving public funds.

(d) School districts, charter schools, or alternative schools or any school receiving public funds are encouraged to provide a system of support to students who are at risk of reaching or exceeding chronic absence levels with strategies such as those available through the Illinois Multi-tiered Systems of Support Network. Schools additionally are encouraged to make resources available to families such as those available through the State Board of Education's Family Engagement Framework to support and engage students and their families to encourage heightened school engagement and improved daily school attendance.

§ 105 ILCS 5/34-4.5. Chronic truants.

(a) Office of Chronic Truant Adjudication. The board shall establish and implement an Office of Chronic Truant Adjudication, which shall be responsible for administratively adjudicating cases of chronic truancy and imposing appropriate sanctions. The board shall appoint or employ hearing officers to perform the adjudicatory functions of that Office. Principals and other appropriate personnel may refer pupils suspected of being chronic truants, as defined in Section 26-2a of this Code, to the Office of Chronic Truant Adjudication.

(b) Notices. Before any hearing may be held under subsection (c), the principal of the school attended by the pupil or the principal's designee shall notify the pupil's parent or guardian by personal visit, letter, or telephone of each unexcused absence of the pupil. After giving the parent or guardian notice of the tenth unexcused absence of the pupil, the principal or the principal's designee shall send the pupil's parent or guardian a letter, by certified mail, return receipt requested, notifying the parent or guardian that he or she is subjecting himself or herself to a hearing procedure as provided under subsection (c) and clearly describing any and all possible penalties that may be imposed as provided for in subsections (d) and (e) of this Section.

(c) Hearing. Once a pupil has been referred to the Office of Chronic Truant Adjudication, a hearing shall be scheduled before an appointed hearing officer, and the pupil and the pupil's parents or guardian shall be notified by certified mail, return receipt requested stating the time, place, and purpose of the hearing. The hearing officer shall hold a hearing and render a written decision within 14 days determining whether
the pupil is a chronic truant as defined in Section 26-2a of this Code and whether the parent or guardian took reasonable steps to assure the pupil's attendance at school. The hearing shall be private unless a public hearing is requested by the pupil's parent or guardian, and the pupil may be present at the hearing with a representative in addition to the pupil's parent or guardian. The board shall present evidence of the pupil's truancy, and the pupil and the parent or guardian or representative of the pupil may cross examine witnesses, present witnesses and evidence, and present defenses to the charges. All testimony at the hearing shall be taken under oath administered by the hearing officer. The decision of the hearing officer shall constitute an "administrative decision" for purposes of judicial review under the Administrative Review Law.

(d) Penalties. The hearing officer may require the pupil or the pupil's parent or guardian or both the pupil and the pupil's parent or guardian to do any or all of the following: perform reasonable school or community services for a period not to exceed 30 days; complete a parenting education program; obtain counseling or other supportive services; and comply with an individualized educational plan or service plan as provided by appropriate school officials. If the parent or guardian of the chronic truant shows that he or she took reasonable steps to assure attendance of the pupil at school, he or she shall not be required to perform services.

(e) Non-compliance with sanctions. If a pupil determined by a hearing officer to be a chronic truant or the parent or guardian of the pupil fails to comply with the sanctions ordered by the hearing officer under subsection (c) of this Section, the Office of Chronic Truant Adjudication may refer the matter to the State's Attorney for prosecution under Section 3-33.5 of the Juvenile Court Act of 1987.

(f) Limitation on applicability. Nothing in this Section shall be construed to apply to a parent or guardian of a pupil not required to attend a public school pursuant to Section 26-1.

REGULATIONS

1.290. Absenteeism and truancy policies.  
a) Purpose. This Section establishes guidelines and criteria required by Section 26-13 of the School Code [105 ILCS 5/26-13], which provides that school districts shall adopt absenteeism and truancy policies identifying appropriate supportive services and available resources for truants and chronic truants.

b) Content of Policies. Each school district shall develop an absenteeism and truancy policy including at least the following elements:

1) A definition of a valid cause for absence in accordance with Section 26-2a of the School Code;
2) A description of diagnostic procedures to be used for identifying the causes of unexcused student absenteeism, which shall, at a minimum, include interviews with the student, his or her parents or guardians, and any school officials or other parties who may have information about the reasons for the student's attendance problem; and
3) The identification of supportive services to be made available to truant or chronically truant students. These services shall include, but need not be limited to, parent conferences, student counseling, family counseling, and information about existing community services which are available to truant and chronically truant students and relevant to their needs.

205.20. Truants’ alternative and optional education programs - Purpose.  
b) Programs funded under this grant shall serve students identified as one of the following:

1) a truant, as defined in Section 26-2a of the School Code [105 ILCS 5/26-2a]; or
2) a chronic or habitual truant, as defined in Section 26-2a of the School Code; or
3) a dropout, as defined in Section 26-2a of the School Code; or
4) a potential dropout, which is any student subject to compulsory attendance as defined in Article 26 of the School Code [105 ILCS 5/Art. 26] and whose school absences or pattern of school attendance impedes the student’s learning or contributes to the student’s failure to meet State and/or district learning standards. Attendance problems may include chronic truancy, truancy, selective absences, excessive absences or a pattern of absences or tardiness. In assessing whether marginal school attendance problems would place a student within the definition of "potential dropout," consideration shall be given to a student's personal involvement in the education process, apparent motivation to receive an education, or any continued and obvious apathy or disaffection for education, particularly, when indications of uninvolved, lack of motivation or disaffection are coupled with currently known individual or family circumstances that, if they remain unresolved, would be reasonably expected to result in escalating attendance problems. Bullying, harassment, or hazing

LAWS

(d) The school board, in consultation with the parent-teacher advisory committee and other community-based organizations, must include provisions in the student discipline policy to address students who have demonstrated behaviors that put them at risk for aggressive behavior, including without limitation bullying, as defined in the policy. These provisions must include procedures for notifying parents or legal guardians and early intervention procedures based upon available community-based and district resources.

Each school district must create, maintain, and implement an age-appropriate policy on sexual harassment that must be posted on the school district's website and, if applicable, any other area where policies, rules, and standards of conduct are currently posted in each school and must also be included in the school district's student code of conduct handbook.

§ 105 ILCS 5/22-12. Preventing or interfering with a child's attendance at school.
Whoever by threat, menace, or intimidation prevents any child entitled to attend a public or nonpublic school in this State from attending such school or interferes with any such child's attendance at that school shall be guilty of a Class A misdemeanor.

(a) The purpose of this Section is to inform and protect students from inappropriate or illegal communications and solicitation and to encourage school districts to provide education about Internet threats and risks, including without limitation child predators, fraud, and other dangers.
(c) Each school may adopt an age-appropriate curriculum for Internet safety instruction of students in grades kindergarten through 12. However, beginning with the 2009-2010 school year, a school district must incorporate into the school curriculum a component on Internet safety to be taught at least once each school year to students in grades 3 through 12. The school board shall determine the scope and duration of this unit of instruction. The age-appropriate unit of instruction may be incorporated into the
current courses of study regularly taught in the district’s schools, as determined by the school board, and it is recommended that the unit of instruction include the following topics:

(5) Recognizing and reporting online harassment and cyber-bullying.

(e) The State Board of Education shall make available resource materials for educating children regarding child online safety and may take into consideration the curriculum on this subject developed by other states, as well as any other curricular materials suggested by education experts, child psychologists, or technology companies that work on child online safety issues. Materials may include without limitation safe online communications, privacy protection, cyber-bullying [..]

(a) The General Assembly finds that a safe and civil school environment is necessary for students to learn and achieve and that bullying causes physical, psychological, and emotional harm to students and interferes with students’ ability to learn and participate in school activities. The General Assembly further finds that bullying has been linked to other forms of antisocial behavior, such as vandalism, shoplifting, skipping and dropping out of school, fighting, using drugs and alcohol, sexual harassment, and sexual violence. Because of the negative outcomes associated with bullying in schools, the General Assembly finds that school districts, charter schools, and non-public, non-sectarian elementary and secondary schools should educate students, parents, and school district, charter school, or non-public, non-sectarian elementary or secondary school personnel about what behaviors constitute prohibited bullying.

Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in all school districts, charter schools, and non-public, non-sectarian elementary and secondary schools. No student shall be subjected to bullying:

(1) during any school-sponsored education program or activity;
(2) while in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities;
(3) through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment; or
(4) through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

(a-5) Nothing in this Section is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the United States Constitution or under Section 3 of Article I of the Illinois Constitution.

(b) In this Section:

"Cyber-bullying" includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying in this Section. "Cyber-bullying" also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying in this Section.

"Policy on bullying" means a bullying prevention policy that meets the following criteria:

(1) Includes the bullying definition provided in this Section.

(2) Includes a statement that bullying is contrary to State law and the policy of the school district, charter school, or non-public, non-sectarian elementary or secondary school and is consistent with subsection (a-5) of this Section.

(3) Includes procedures for promptly reporting bullying, including, but not limited to, identifying and providing the school e-mail address (if applicable) and school telephone number for the staff person or persons responsible for receiving such reports and a procedure for anonymous reporting; however, this shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.

(4) Consistent with federal and State laws and rules governing student privacy rights, includes procedures for promptly informing parents or guardians of all students involved in the alleged incident of bullying and discussing, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures.

(5) Contains procedures for promptly investigating and addressing reports of bullying, including the following:

(A) Making all reasonable efforts to complete the investigation within 10 school days after the date the report of the incident of bullying was received and taking into consideration additional relevant information received during the course of the investigation about the reported incident of bullying.

(B) Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.

(C) Notifying the principal or school administrator or his or her designee of the report of the incident of bullying as soon as possible after the report is received.

(D) Consistent with federal and State laws and rules governing student privacy rights, providing parents and guardians of the students who are parties to the investigation information about the
investigation and an opportunity to meet with the principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

(6) Includes the interventions that can be taken to address bullying, which may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.

(7) Includes a statement prohibiting reprisal or retaliation against any person who reports an act of bullying and the consequences and appropriate remedial actions for a person who engages in reprisal or retaliation.

(8) Includes consequences and appropriate remedial actions for a person found to have falsely accused another of bullying as a means of retaliation or as a means of bullying.

(9) Is based on the engagement of a range of school stakeholders, including students and parents or guardians.

(10) Is posted on the school district's, charter school's, or non-public, non-sectarian elementary or secondary school's existing Internet website, is included in the student handbook, and, where applicable, posted where other policies, rules, and standards of conduct are currently posted in the school and provided periodically throughout the school year to students and faculty, and is distributed annually to parents, guardians, students, and school personnel, including new employees when hired.

(11) As part of the process of reviewing and re-evaluating the policy under subsection (d) of this Section, contains a policy evaluation process to assess the outcomes and effectiveness of the policy that includes, but is not limited to, factors such as the frequency of victimization; student, staff, and family observations of safety at a school; identification of areas of a school where bullying occurs; the types of bullying utilized; and bystander intervention or participation. The school district, charter school, or non-public, non-sectarian elementary or secondary school may use relevant data and information it already collects for other purposes in the policy evaluation. The information developed as a result of the policy evaluation must be made available on the Internet website of the school district, charter school, or non-public, non-sectarian elementary or secondary school. If an Internet website is not available, the information must be provided to school administrators, school board members, school personnel, parents, guardians, and students.

(12) Is consistent with the policies of the school board, charter school, or non-public, non-sectarian elementary or secondary school.

"Restorative measures" means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school.

"School personnel" means persons employed by, on contract with, or who volunteer in a school district, charter school, or non-public, non-sectarian elementary or secondary school, including without limitation school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

(c) (Blank).

(d) Each school district, charter school, and non-public, non-sectarian elementary or secondary school shall create, maintain, and implement a policy on bullying, which policy must be filed with the State Board
of Education. The policy or implementing procedure shall include a process to investigate whether a reported act of bullying is within the permissible scope of the district’s or school's jurisdiction and shall require that the district or school provide the victim with information regarding services that are available within the district and community, such as counseling, support services, and other programs. School personnel available for help with a bully or to make a report about bullying shall be made known to parents or legal guardians, students, and school personnel. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. The policy must be filed with the State Board of Education after being updated. The State Board of Education shall monitor and provide technical support for the implementation of policies created under this subsection (d).

(e) This Section shall not be interpreted to prevent a victim from seeking redress under any other available civil or criminal law.

The school district must create, maintain, and implement an age-appropriate policy on sexual harassment that must be posted on the school district’s website and, if applicable, any other area where policies, rules, and standards of conduct are currently posted in each school and must also be included in the school district’s student code of conduct handbook.

The principal of each attendance center shall promptly notify and report to the local law enforcement authorities for inclusion in the Department of State Police's Illinois Uniform Crime Reporting Program each incident of intimidation of which he or she has knowledge and each alleged incident of intimidation which is reported to him or her, either orally or in writing, by any pupil or by any teacher or other certificated or non-certificated personnel employed at the attendance center. "Intimidation" shall have the meaning ascribed to it by Section 12-6 of the Criminal Code of 2012.

LAWS

(a) The General Assembly finds and declares that the educational development of all persons to the limits of their capacities is a fundamental goal of the people of this State and that to achieve such goal it is
essential to provide a safe and secure learning environment within the public schools. While recognizing that cellular radio telecommunication devices may be used for inappropriate activities during school hours and on school property and may, on occasion, cause disruption to the classroom environment, the General Assembly also recognizes that the use of cellular radio telecommunication devices can decrease the response time of officials to emergency situations. In addition, cellular radio telecommunication devices allow parents an additional and timely method of contacting their children should an emergency situation arise. Therefore, it is the purpose and intention of the General Assembly in enacting this legislation to (i) reduce the occurrence of inappropriate and disruptive activities during school hours and on school property occurring through the use of cellular radio telecommunication devices and (ii) increase the safety of students and school personnel during school hours and on school property.

(b) The school board may establish appropriate rules and disciplinary procedures governing the use or possession of cellular radio telecommunication devices by a student while in a school or on school property, during regular school hours, or at any other time.

§ 105 ILCS 5/10-21.4a. Principals and assistant principals - Duties.

[..] It shall also be the responsibility of the principal to utilize resources of proper law enforcement agencies when the safety and welfare of students and teachers are threatened by illegal use of drugs and alcohol, by illegal use or possession of weapons, or by illegal gang activity. [..]

(a) The General Assembly finds and declares that the educational development of all persons to the limits of their capacities is a fundamental goal of the people of this State, that to achieve such goal it is essential to provide a safe and secure learning environment within the public schools, and that the unrestricted and unregulated use by students of pocket pagers and similar electronic paging devices on school grounds or in school buildings which are owned, occupied or leased by a school board for school purposes and activities adversely affects the educational environment, welfare and safety of students enrolled in the public schools, in that pocket pagers and similar electronic paging devices are being regularly used for the conduct of unlawful activities during school hours and on school property, including activities directly related to the unlawful possession, sale, delivery or other trafficking in drugs or other substances which constitute a "controlled substance" as that term is defined in the Illinois Controlled Substances Act. It is the purpose and intention of the General Assembly, in enacting this legislation, to reduce or eliminate the occurrence of such unlawful activities during school hours and on school property by restricting and regulating student use or possession of pocket pagers and similar electronic paging devices as provided in this Section, and by providing for the imposition of appropriate discipline and sanctions for any violation of the provisions of this Section.

(b) No student shall use or have in his or her possession any pocket pager or similar electronic paging device while in any school building or on any school property, during regular school hours or at any other time, unless the use or possession of such device by such student has first been expressly authorized by the school board acting in accordance with standards developed as provided in subsection (c) for the granting of approved exceptions to the general prohibition of this Section against such use or possession.

(c) The school board shall develop and promulgate written standards under which the board:

(1) may authorize the use or possession of a pocket pager or similar electronic paging device by a student while in a school building or on school property as an approved exception to the general prohibition of this Section against such use or possession; and

(2) may impose appropriate discipline or other sanctions against any student who violates any provision of this Section.
§ 105 ILCS 5/31-1. Definition.
A public school fraternity, sorority or secret society, in this Article means any organization, composed wholly or in part of public school pupils, which seeks to perpetuate itself by taking in additional members from the pupils enrolled in such school on the basis of the decision of its membership rather than upon the free choice of any pupil in the school who is qualified by the rules of the school to fill the special aims of the organization.

§ 105 ILCS 5/31-2. Inimical to public good.
Any public school fraternity, sorority or secret society is inimical to the public good.

§ 105 ILCS 5/31-3. Suspension or expulsion of members, pledges and solicitors.
The governing body of any public school shall suspend or expel any pupil who is a member of or joins or promises to join, or who becomes pledged to become a member of, or who solicits any other person to join, promise to join or be pledged to become a member of any public school fraternity, sorority or secret society.

It is unlawful for any person not enrolled in any public school of this State to solicit any pupil enrolled therein to join or pledge himself or herself to become a member of any public school fraternity, sorority or secret society or to solicit any such pupil to attend a meeting thereof or any meeting where the joining of any such fraternity, sorority or secret society is encouraged. Whoever violates this section shall be guilty of a petty offense and fined not less than $25 nor more than $100.

(a) The General Assembly finds and declares that the educational development of all persons to the limits of their capacities is a fundamental goal of the people of this State, that to achieve such goal it is essential to provide a safe and secure learning environment within the public schools, and that the unrestricted and unregulated use by students of pocket pagers and similar electronic paging devices on school grounds or in school buildings which are owned, occupied or leased by the board of education for school purposes and activities adversely affects the educational environment, welfare and safety of students enrolled in the public schools, in that pocket pagers and similar electronic paging devices are being regularly used for the conduct of unlawful activities during school hours and on school property, including activities directly related to the unlawful possession, sale, delivery or other trafficking in drugs or other substances which constitute a “controlled substance” as that term is defined in the Illinois Controlled Substances Act. It is the purpose and intention of the General Assembly, in enacting this legislation, to reduce or eliminate the occurrence of such unlawful activities during school hours and on school property by restricting and regulating student use or possession of pocket pagers and similar electronic paging devices as provided in this Section, and by providing for the imposition of appropriate discipline and sanctions for any violation of the provisions of this Section.

(b) No student shall use or have in his or her possession any pocket pager or similar electronic paging device while in any school building or on any school property, during regular school hours or at any other time, unless the use or possession of such device by such student has first been expressly authorized by the principal acting in accordance with standards developed as provided in subsection (c) for the granting of approved exceptions to the general prohibition of this Section against such use or possession.

(c) The board of education shall develop and promulgate written standards, which shall be furnished by the board of education to each principal, under which a principal:
(1) may authorize the use or possession of a pocket pager or similar electronic paging device by a student while in a school building or on school property as an approved exception to the general prohibition of this Section against such use or possession; and

(2) may impose appropriate discipline or other sanctions against any student who violates any provision of this Section.

(a) The General Assembly finds and declares that the educational development of all persons to the limits of their capacities is a fundamental goal of the people of this State and that to achieve such goal it is essential to provide a safe and secure learning environment within the public schools. While recognizing that cellular radio telecommunication devices may be used for inappropriate activities during school hours and on school property and may, on occasion, cause disruption to the classroom environment, the General Assembly also recognizes that the use of cellular radio telecommunication devices can decrease the response time of officials to emergency situations. In addition, cellular radio telecommunication devices allow parents an additional and timely method of contacting their children should an emergency situation arise. Therefore, it is the purpose and intention of the General Assembly in enacting this legislation to (i) reduce the occurrence of inappropriate and disruptive activities during school hours and on school property occurring through the use of cellular radio telecommunication devices and (ii) increase the safety of students and school personnel during school hours and on school property.

(b) The board may establish appropriate rules and disciplinary procedures governing the use or possession of cellular radio telecommunication devices by a student while in a school or on school property, during regular school hours, or at any other time.

§ 105 ILCS 5/2-3.148. Disability history and awareness campaign.
The State Board of Education shall promote an annual campaign about disability history and awareness in this State. The campaign shall be designed to increase public awareness and respect for people with disabilities who comprise a substantial percentage of this State’s population, teach future generations that people with disabilities have a rich history and have made valuable contributions throughout this State and the United States, and teach future generations that disability is a natural part of life and that people with disabilities have a right to be treated with civil, legal, and human rights and as full human beings above all else.

Every public school teacher shall teach character education, which includes the teaching of respect, responsibility, fairness, caring, trustworthiness, and citizenship, in order to raise pupils' honesty, kindness, justice, discipline, respect for others, and moral courage for the purpose of lessening crime and raising the standard of good character.

School districts shall provide instruction in violence prevention and conflict resolution education for grades kindergarten through 12 and may include such instruction in the courses of study regularly taught therein. School districts may give regular school credit for satisfactory completion by the student of such courses.

(a) The General Assembly finds that a safe and civil school environment is necessary for students to learn and achieve and that bullying causes physical, psychological, and emotional harm to students and interferes with students’ ability to learn and participate in school activities. The General Assembly further finds that bullying has been linked to other forms of antisocial behavior, such as vandalism, shoplifting, skipping and dropping out of school, fighting, using drugs and alcohol, sexual harassment, and sexual violence. Because of the negative outcomes associated with bullying in schools, the General Assembly finds that school districts, charter schools, and non-public, non-sectarian elementary and secondary schools should educate students, parents, and school district, charter school, or non-public, non-sectarian elementary or secondary school personnel about what behaviors constitute prohibited bullying.

Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in all school districts, charter schools, and non-public, non-sectarian elementary and secondary schools. No student shall be subjected to bullying:

(1) during any school-sponsored education program or activity;

(2) while in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities;
(3) through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment; or
(4) through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

(a) The General Assembly finds that the instance of youth delinquent gangs continues to rise on a statewide basis. Given the higher rates of criminal offending among gang members, as well as the availability of increasingly lethal weapons, the level of criminal activity by gang members has taken on new importance for law enforcement agencies, schools, the community, and prevention efforts.
(b) As used in this Section:
"Gang resistance education and training" means and includes instruction in, without limitation, each of the following subject matters when accompanied by a stated objective of reducing gang activity and educating children in grades K through 12 about the consequences of gang involvement:
   (1) conflict resolution;
   (2) cultural sensitivity;
   (3) personal goal setting; and
   (4) resisting peer pressure.
(c) Each school district and non-public, non-sectarian elementary or secondary school in this State may make suitable provisions for instruction in gang resistance education and training in all grades and include that instruction in the courses of study regularly taught in those grades. For the purposes of gang resistance education and training, a school board or the governing body of a non-public, non-sectarian elementary or secondary school must collaborate with State and local law enforcement agencies. The State Board of Education may assist in the development of instructional materials and teacher training in relation to gang resistance education and training.

§ 105 ILCS 5/34-18.7. Youth mental illness and suicide detection and intervention.

At least once every 2 years, licensed school personnel and administrators who work with pupils in kindergarten through grade 12 shall be trained to identify the warning signs of mental illness and suicidal behavior in youth and shall be taught various intervention techniques. Such training shall be provided within the framework of existing in-service training programs offered by the Board or as part of the professional development activities required under Section 21-14 of this Code.

§ 105 ILCS 5/2-3.41. Chronic truants and truancy prevention.
The State Board of Education is empowered to enter into contracts with public or private agencies for the provision of educational services to chronic truants and for the prevention of truancy including training and developmental assistance provided an appropriation is made specifically for such purpose.

§ 105 ILCS 5/2-3.163. Prioritization of urgency of need for services database.
(a) The General Assembly makes all of the following findings:
   (1) The Department of Human Services maintains a statewide database known as the Prioritization of Urgency of Need for Services that records information about individuals with developmental disabilities who are potentially in need of services.
   (2) The Department of Human Services uses the data on Prioritization of Urgency of Need for Services to select individuals for services as funding becomes available, to develop proposals and materials for budgeting, and to plan for future needs.
   (3) Prioritization of Urgency of Need for Services is available for children and adults with a developmental disability who have an unmet service need anticipated in the next 5 years.
   (4) Prioritization of Urgency of Need for Services is the first step toward getting developmental disabilities services in this State. If individuals are not on the Prioritization of Urgency of Need for Services waiting list, they are not in queue for State developmental disabilities services.
   (5) Prioritization of Urgency of Need for Services may be underutilized by children and their parents or guardians due to lack of awareness or lack of information.
(b) The State Board of Education may work with school districts to inform all students with developmental disabilities and their parents or guardians about the Prioritization of Urgency of Need for Services database.
(c) Subject to appropriation, the Department of Human Services and State Board of Education shall develop and implement an online, computer-based training program for at least one designated employee in every public school in this State to educate him or her about the Prioritization of Urgency of Need for Services database and steps to be taken to ensure children and adolescents are enrolled. The training shall include instruction for at least one designated employee in every public school in contacting the appropriate developmental disabilities Independent Service Coordination agency to enroll children and adolescents in the database. At least one designated employee in every public school shall ensure the opportunity to enroll in the Prioritization of Urgency of Need for Services database is discussed during annual individualized education program (IEP) meetings for all children and adolescents believed to have a developmental disability.
(d) The State Board of Education, in consultation with the Department of Human Services, shall inform parents and guardians of students through school districts about the Prioritization of Urgency of Need for Services waiting list, including the consideration required in subsection (e) of this Section.
(e) The Department of Human Services shall consider the length of time spent on the Prioritization of Urgency of Need for Services waiting list, in addition to other factors considered, when selecting individuals on the list for services.
§ 105 ILCS 5/10-20.36. Psychotropic or psychostimulant medication; disciplinary action.

(b) Each school board must adopt and implement a policy that prohibits any disciplinary action that is based totally or in part on the refusal of a student's parent or guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student. The policy must require that, at least once every 2 years, the in-service training of certified school personnel and administrators include training on current best practices regarding the identification and treatment of attention deficit disorder and attention deficit hyperactivity disorder, the application of non-aversive behavioral interventions in the school environment, and the use of psychotropic or psychostimulant medication for school-age children.

§ 105 ILCS 5/10-20.60. School social worker.

A school board may employ school social workers who have graduated with a master's or higher degree in social work from an accredited graduate school of social work and have such additional qualifications as may be required by the State Board of Education and who hold a Professional Educator License with a school support personnel endorsement for school social work pursuant to Section 21B-25 of this Code. Only persons so licensed and endorsed may use the title "school social worker". A school social worker may provide individual and group services to the general student population and to students with disabilities pursuant to Article 14 of this Code and rules set forth in 23 Ill. Adm. Code 226, Special Education, adopted by the State Board of Education and may provide support and consultation to administrators, teachers, and other school personnel consistent with their professional qualifications and the provisions of this Code and other applicable laws. School districts may employ a sufficient number of school social workers to address the needs of their students and schools and may maintain the nationally recommended student-to-school social worker ratio of 250 to 1. A school social worker may not provide such services outside his or her employment to any student in the district or districts that employ the school social worker.

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(b-5) Among the many possible disciplinary interventions and consequences available to school officials, school exclusions, such as out-of-school suspensions and expulsions, are the most serious. School officials shall limit the number and duration of expulsions and suspensions to the greatest extent practicable, and it is recommended that they use them only for legitimate educational purposes. To ensure that students are not excluded from school unnecessarily, it is recommended that school officials consider forms of non-exclusionary discipline prior to using out-of-school suspensions or expulsions. (b-20) Unless otherwise required by this Code, out-of-school suspensions of longer than 3 days, expulsions, and disciplinary removals to alternative schools may be used only if other appropriate and available behavioral and disciplinary interventions have been exhausted and the student's continuing presence in school would either (i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school. For purposes of this subsection (b-20), "threat to the safety of other students, staff, or members of the school community" and "substantially disrupt, impede, or interfere with the operation of the school" shall be determined on a case-by-case basis by school officials. For purposes of this subsection (b-20), the determination of whether "appropriate and available behavioral and disciplinary interventions have been exhausted" shall be made by school officials. School officials shall make all reasonable efforts to resolve such threats, address such disruptions, and minimize the length of student exclusions to the greatest extent practicable. Within the suspension decision described in subsection (b) of this Section or the expulsion decision described in subsection (a) of this Section, it shall be documented whether other interventions were attempted or whether it was determined that there were no other appropriate and available interventions.
(b-25) Students who are suspended out-of-school for longer than 4 school days shall be provided appropriate and available support services during the period of their suspension. For purposes of this subsection (b-25), "appropriate and available support services" shall be determined by school authorities. Within the suspension decision described in subsection (b) of this Section, it shall be documented whether such services are to be provided or whether it was determined that there are no such appropriate and available services.

(b-30) A school district shall create a policy by which suspended pupils, including those pupils suspended from the school bus who do not have alternate transportation to school, shall have the opportunity to make up work for equivalent academic credit. It shall be the responsibility of a pupil's parent or guardian to notify school officials that a pupil suspended from the school bus does not have alternate transportation to school.

§ 105 ILCS 5/24-26. Intervening to help students or their family members who may have alcohol or other drug problems.

Teachers and other employees of school districts may intervene to help students or their family members who appear to have problems with alcohol and other drugs by encouraging them to seek an assessment and treatment. School personnel who intervene shall have immunity from civil liability in accordance with the Alcoholism and Drug Addiction Intervenor and Reporter Immunity Law. School personnel shall not be subject to disciplinary action by the school because of an intervention and may not be prohibited by school policy from intervening.

(a) The General Assembly finds that it is critical to provide options for children to succeed in school. The purpose of this Section is to provide incentives for and encourage all Illinois students who have experienced or are experiencing difficulty in the traditional education system to enroll in alternative programs.

(b) Any student who is below the age of 20 years is eligible to enroll in a graduation incentives program if he or she:

(1) is considered a dropout pursuant to Section 26-2a of this Code;
(2) has been suspended or expelled pursuant to Section 10-22.6 or 34-19 of this Code;
(3) is pregnant or is a parent;
(4) has been assessed as chemically dependent; or
(5) is enrolled in a bilingual education or LEP program.

(c) The following programs qualify as graduation incentives programs for students meeting the criteria established in this Section:

(1) Any public elementary or secondary education graduation incentives program established by a school district or by a regional office of education.
(2) Any alternative learning opportunities program established pursuant to Article 13B of this Code.
(3) Vocational or job training courses approved by the State Superintendent of Education that are available through the Illinois public community college system. Students may apply for reimbursement of 50% of tuition costs for one course per semester or a maximum of 3 courses per school year. Subject to available funds, students may apply for reimbursement of up to 100% of tuition costs upon a showing of employment within 6 months after completion of a vocational or job training program. The qualifications for reimbursement shall be established by the State Superintendent of Education by rule.
(4) Job and career programs approved by the State Superintendent of Education that are available through Illinois-accredited private business and vocational schools. Subject to available funds, pupils
may apply for reimbursement of up to 100% of tuition costs upon a showing of employment within 6 months after completion of a job or career program. The State Superintendent of Education shall establish, by rule, the qualifications for reimbursement, criteria for determining reimbursement amounts, and limits on reimbursement.

(5) Adult education courses that offer preparation for high school equivalency testing.

(d) Graduation incentives programs established by school districts are entitled to claim general State aid and evidence-based funding, subject to Sections 13B-50, 13B-50.5, and 13B-50.10 of this Code. Graduation incentives programs operated by regional offices of education are entitled to receive general State aid and evidence-based funding at the foundation level of support per pupil enrolled. A school district must ensure that its graduation incentives program receives supplemental general State aid, transportation reimbursements, and special education resources, if appropriate, for students enrolled in the program.

(a) As used in this Section:

"Chronic absence" means absences that total 10% or more of school days of the most recent academic school year, including absences with and without valid cause, as defined in Section 26-2a of this Code, and out-of-school suspensions for an enrolled student.

"Student" means any enrolled student that is subject to compulsory attendance under Section 26-1 of this Code but does not mean a student for whom a documented homebound or hospital record is on file during the student's absence from school.

(b) The General Assembly finds that:

(1) The early years are a critical period in children's learning and development. Every child should be counted present every day. Every day of school matters.

(2) Being absent too many days from school can make it difficult for students to stay on-track academically and maintain the momentum to graduate from high school in order to be college-or career-ready.

(3) Every day of school attendance matters for all students and their families. It is crucial, therefore, that the implications of chronic absence be understood and reviewed regularly.

(c) Beginning July 1, 2018, every school district, charter school, or alternative school or any school receiving public funds shall collect and review its chronic absence data and determine what systems of support and resources are needed to engage chronically absent students and their families to encourage the habit of daily attendance and promote success. The review shall include an analysis of chronic absence data from each attendance center or campus of the school district, charter school, or alternative school or other school receiving public funds.

(d) School districts, charter schools, or alternative schools or any school receiving public funds are encouraged to provide a system of support to students who are at risk of reaching or exceeding chronic absence levels with strategies such as those available through the Illinois Multi-tiered Systems of Support Network. Schools additionally are encouraged to make resources available to families such as those available through the State Board of Education's Family Engagement Framework to support and engage students and their families to encourage heightened school engagement and improved daily school attendance.
School districts shall provide instruction in violence prevention and conflict resolution education for grades kindergarten through 12 and may include such instruction in the courses of study regularly taught therein. School districts may give regular school credit for satisfactory completion by the student of such courses.

(b) In this Section:

"Policy on bullying" means a bullying prevention policy that meets the following criteria:

(6) Includes the interventions that can be taken to address bullying, which may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.

"Restorative measures" means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school.

(d) Each school district, charter school, and non-public, non-sectarian elementary or secondary school shall create, maintain, and implement a policy on bullying, which policy must be filed with the State Board of Education. The policy or implementing procedure shall include a process to investigate whether a reported act of bullying is within the permissible scope of the district's or school's jurisdiction and shall require that the district or school provide the victim with information regarding services that are available within the district and community, such as counseling, support services, and other programs. School personnel available for help with a bully or to make a report about bullying shall be made known to parents or legal guardians, students, and school personnel. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. The policy must be filed with the State Board of Education after being updated. The State Board of Education shall monitor and provide technical support for the implementation of policies created under this subsection (d).

§ 105 ILCS 5/34-4.5. Chronic truants.
(d) Penalties. The hearing officer may require the pupil or the pupil's parent or guardian or both the pupil and the pupil's parent or guardian to do any or all of the following: perform reasonable school or community services for a period not to exceed 30 days; complete a parenting education program; obtain counseling or other supportive services; and comply with an individualized educational plan or service plan as provided by appropriate school officials. If the parent or guardian of the chronic truant shows that he or she took reasonable steps to insure attendance of the pupil at school, he or she shall not be required to perform services.

§ 105 ILCS 5/34-18.25. Psychotropic or psychostimulant medication; disciplinary action.
(b) The board must adopt and implement a policy that prohibits any disciplinary action that is based totally or in part on the refusal of a student's parent or guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student. The policy must require that, at least once every 2 years, the in-service training of certified school personnel and administrators include training on current best practices regarding the identification and treatment of attention deficit disorder and attention deficit hyperactivity disorder, the application of non-aversive behavioral interventions in the school environment, and the use of psychotropic or psychostimulant medication for school-age children.
The board shall establish a pilot program to prevent crime by developing guidelines to identify students at risk of committing crimes. "Students at risk of committing crimes" shall be limited to those students who have engaged in serious acts of misconduct in violation of the board's policy on discipline. This program, in cooperation with the Department of Corrections, shall include a guided tour of a prison for each student so identified in order to discourage criminal behavior. The touring of a prison under this Section shall be subject to approval, in writing, of a student's parent or guardian.

REGULATIONS

1.280. Discipline.
Section 24-24 of the School Code [105 ILCS 5/24-24] provides for teachers, other licensed educational employees (except for individuals holding an educator license with stipulations endorsed for paraprofessional educator) and persons providing a related service for or with respect to a student as determined by the board of education to maintain discipline in the schools.

d) In addition to, or as part of, its policy on the maintenance of discipline, each board of education shall adopt policies and procedures regarding the use of behavioral interventions for students with disabilities who require intervention. Each board's policies and procedures shall conform to the requirements of Section 14-8.05(c) of the School Code [105 ILCS 5/14-8.05(c)].

1.290. Absenteeism and truancy policies.
a) Purpose. This Section establishes guidelines and criteria required by Section 26-13 of the School Code [105 ILCS 5/26-13], which provides that school districts shall adopt absenteeism and truancy policies identifying appropriate supportive services and available resources for truants and chronic truants.
b) Content of Policies. Each school district shall develop an absenteeism and truancy policy including at least the following elements:

1) A definition of a valid cause for absence in accordance with Section 26-2a of the School Code;

2) A description of diagnostic procedures to be used for identifying the causes of unexcused student absenteeism, which shall, at a minimum, include interviews with the student, his or her parents or guardians, and any school officials or other parties who may have information about the reasons for the student's attendance problem; and

3) The identification of supportive services to be made available to truant or chronically truant students. These services shall include, but need not be limited to, parent conferences, student counseling, family counseling, and information about existing community services which are available to truant and chronically truant students and relevant to their needs.

LAWS

§ 105 ILCS 5/2-3.163. Prioritization of urgency of need for services database.
(c) Subject to appropriation, the Department of Human Services and State Board of Education shall develop and implement an online, computer-based training program for at least one designated employee in every public school in this State to educate him or her about the Prioritization of Urgency of Need for Services database and steps to be taken to ensure children and adolescents are enrolled. The training shall include instruction for at least one designated employee in every public school in contacting the appropriate developmental disabilities Independent Service Coordination agency to enroll children and
adolescents in the database. At least one designated employee in every public school shall ensure the opportunity to enroll in the Prioritization of Urgency of Need for Services database is discussed during annual individualized education program (IEP) meetings for all children and adolescents believed to have a developmental disability.

§ 105 ILCS 5/10-20.36. Psychotropic or psychostimulant medication; disciplinary action.
(b) Each school board must adopt and implement a policy that prohibits any disciplinary action that is based totally or in part on the refusal of a student's parent or guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student. The policy must require that, at least once every 2 years, the in-service training of certified school personnel and administrators include training on current best practices regarding the identification and treatment of attention deficit disorder and attention deficit hyperactivity disorder, the application of non-aversive behavioral interventions in the school environment, and the use of psychotropic or psychostimulant medication for school-age children.

§ 105 ILCS 5/10-20.60. Implicit bias training.
(a) The General Assembly makes the following findings:
   (1) implicit racial bias influences evaluations of and behavior toward those who are the subject of the bias;
   (2) understanding implicit racial bias is needed in order to reduce that bias;
   (3) marginalized students would benefit from having access to educators who have worked to reduce their biases; and
   (4) training that helps educators overcome implicit racial bias has implication for classroom interactions, student evaluation, and classroom engagement; it also affects student academic self-concept.
(b) Each school board shall require in-service training for school personnel to include training to develop cultural competency, including understanding and reducing implicit racial bias.
(c) As used in this Section, "implicit racial bias" means a preference, positive or negative, for a racial or ethnic group that operates outside of awareness. This bias has 3 different components: affective, behavioral, and cognitive.

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.
(c-5) School districts shall make reasonable efforts to provide ongoing professional development to teachers, administrators, school board members, school resource officers, and staff on the adverse consequences of school exclusion and justice-system involvement, effective classroom management strategies, culturally responsive discipline, the appropriate and available supportive services for the promotion of student attendance and engagement, and developmentally appropriate disciplinary methods that promote positive and healthy school climates.

(a) To conduct in-service training programs for teachers.
(b) In addition to other topics at in-service training programs, at least once every 2 years, licensed school personnel and administrators who work with pupils in kindergarten through grade 12 shall be trained to identify the warning signs of mental illness and suicidal behavior in youth and shall be taught appropriate intervention and referral techniques.
(c) School guidance counselors, nurses, teachers and other school personnel who work with pupils may be trained to have a basic knowledge of matters relating to acquired immunodeficiency syndrome (AIDS), including the nature of the disease, its causes and effects, the means of detecting it and preventing its transmission, and the availability of appropriate sources of counseling and referral, and any other
information that may be appropriate considering the age and grade level of such pupils. The School Board shall supervise such training. The State Board of Education and the Department of Public Health shall jointly develop standards for such training.

(d) In this subsection (d): "Domestic violence" means abuse by a family or household member, as "abuse" and "family or household members" are defined in Section 103 of the Illinois Domestic Violence Act of 1986.

"Sexual violence" means sexual assault, abuse, or stalking of an adult or minor child proscribed in the Criminal Code of 1961 or the Criminal Code of 2012 in Sections 11-1.20, 11-1.30, 11-1.40, 11-1.50, 11-1.60, 12-7.3, 12-7.4, 12-7.5, 12-12, 12-13, 12-14, 12-14.1, 12-15, and 12-16, including sexual violence committed by perpetrators who are strangers to the victim and sexual violence committed by perpetrators who are known or related by blood or marriage to the victim.

At least once every 2 years, an in-service training program for school personnel who work with pupils, including, but not limited to, school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, and school nurses, must be conducted by persons with expertise in domestic and sexual violence and the needs of expectant and parenting youth and shall include training concerning (i) communicating with and listening to youth victims of domestic or sexual violence and expectant and parenting youth, (ii) connecting youth victims of domestic or sexual violence and expectant and parenting youth to appropriate in-school services and other agencies, programs, and services as needed, and (iii) implementing the school district's policies, procedures, and protocols with regard to such youth, including confidentiality. At a minimum, school personnel must be trained to understand, provide information and referrals, and address issues pertaining to youth who are parents, expectant parents, or victims of domestic or sexual violence.

(e) At least every 2 years, an in-service training program for school personnel who work with pupils must be conducted by persons with expertise in anaphylactic reactions and management.

(f) At least once every 2 years, a school board shall conduct in-service training on educator ethics, teacher-student conduct, and school employee-student conduct for all personnel.

§ 105 ILCS 5/21B-45. Professional educator license renewal.

(a) Individuals holding a Professional Educator License are required to complete the licensure renewal requirements as specified in this Section, unless otherwise provided in this Code.

(e) For each renewal cycle, each professional educator licensee shall engage in professional development activities. Prior to renewal, the licensee shall enter electronically into the Educator Licensure Information System (ELIS) the name, date, and location of the activity, the number of professional development hours, and the provider’s name. The following provisions shall apply concerning professional development activities:

(1) Each licensee shall complete a total of 120 hours of professional development per 5-year renewal cycle in order to renew the license, except as otherwise provided in this Section.

(h) Approved providers under subsection (g) of this Section shall make available professional development opportunities that satisfy at least one of the following:

(10) provide educators with training on inclusive practices in the classroom that examines instructional and behavioral strategies that improve academic and social-emotional outcomes for all students, with or without disabilities, in a general education setting.

§ 105 ILCS 5/34-18.7. Youth mental illness and suicide detection and intervention.

At least once every 2 years, licensed school personnel and administrators who work with pupils in kindergarten through grade 12 shall be trained to identify the warning signs of mental illness and suicidal behavior in youth and shall be taught various intervention techniques. Such training shall be provided
within the framework of existing in-service training programs offered by the Board or as part of the professional development activities required under Section 21-14 of this Code.

§ 105 ILCS 5/34-18.25. Psychotropic or psychostimulant medication; disciplinary action.
(b) The board must adopt and implement a policy that prohibits any disciplinary action that is based totally or in part on the refusal of a student's parent or guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student. The policy must require that, at least once every 2 years, the in-service training of certified school personnel and administrators include training on current best practices regarding the identification and treatment of attention deficit disorder and attention deficit hyperactivity disorder, the application of non-aversive behavioral interventions in the school environment, and the use of psychotropic or psychostimulant medication for school-age children.

(a) The General Assembly makes the following findings:
   (1) implicit racial bias influences evaluations of and behavior toward those who are the subject of the bias;
   (2) understanding implicit racial bias is needed in order to reduce that bias;
   (3) marginalized students would benefit from having access to educators who have worked to reduce their biases; and
   (4) training that helps educators overcome implicit racial bias has implication for classroom interactions, student evaluation, and classroom engagement; it also affects student academic self-concept.
(b) The board shall require in-service training for school personnel to include training to develop cultural competency, including understanding and reducing implicit racial bias.
(c) As used in this Section, "implicit racial bias" means a preference, positive or negative, for a racial or ethnic group that operates outside of awareness. This bias has 3 different components: affective, behavioral, and cognitive.

REGULATIONS

1.285. Requirements for the use of isolated time out and physical restraint.
Isolated time out and physical restraint as defined in this Section shall be used only as means of maintaining discipline in schools (that is, as means of maintaining a safe and orderly environment for learning) and only to the extent that they are necessary to preserve the safety of students and others. Neither isolated time out nor physical restraint shall be used in administering discipline to individual students, i.e., as a form of punishment. Nothing in this Section or in Section 1.280 of this Part shall be construed as regulating the restriction of students' movement when that restriction is for a purpose other than the maintenance of an orderly environment (e.g., the appropriate use of safety belts in vehicles).

h) Requirements for Training
   1) Isolated Time Out. Each district, cooperative, or joint agreement whose policy permits the use of isolated time out shall provide orientation to its staff members covering at least the written procedure established pursuant to Section 1.280(c)(2) of this Part.
   2) Physical Restraint
      A) Physical restraint as defined in this Section shall be applied only by individuals who have received systematic training that includes all the elements described in subsection (h)(2)(B) of this Section and who have received a certificate of completion or other written evidence of participation. An individual who applies physical restraint shall use only techniques in which he or she has received training within the preceding two years, as indicated by written evidence of participation.
B) Training with respect to physical restraint may be provided either by the employer or by an external entity and shall include, but need not be limited to:
   i) appropriate procedures for preventing the need for physical restraint, including the de-escalation of problematic behavior, relationship-building, and the use of alternatives to restraint;
   ii) a description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;
   iii) the simulated experience of administering and receiving a variety of physical restraint techniques, ranging from minimal physical involvement to very controlling interventions;
   iv) instruction regarding the effects of physical restraint on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;
   v) instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and
   vi) demonstration by participants of proficiency in administering physical restraint.

C) An individual may provide training to others in a particular method of physical restraint only if he or she has received written evidence of completing training in that technique that meets the requirements of subsection (h)(2)(B) of this Section within the preceding one-year period.

830.150 Behavior Intervention.
   a) Behavior intervention is a therapeutic measure which is to be used only to prevent a student from causing damage to property or physical harm to himself/herself or others. The following procedures shall be used, as part of a behavior modification or management program. In no event shall restraint be used to punish or discipline a student or as a convenience to staff.
   b) Behavior intervention may include physically holding, or otherwise restricting the movement of the student's limbs, head or body. No mechanical or chemical restraint shall be permitted. Medically prescribed or monitored procedures for the treatment of an existing physical condition or the amelioration of a physical disability, such as braces and other medical equipment, are not considered restraints. The partial or total immobilization of a student for the purpose of performing a medical/surgical procedure is not restraint.
   c) Procedures for the use of physical restraint at the State Schools are as follows:
      1) physical restraint shall be employed in a humane and therapeutic manner. In no event shall restraint be used when it is medically contraindicated (i.e., could adversely affect the health of the student).
      2) whenever physical restraint is used with a student whose primary communication is sign language, writing, or computer, the student shall be permitted to have his/her hands free from restraint for brief periods, except when freedom may result in physical harm to the student or others. A staff member skilled in the student's mode of communication shall be in attendance when the student's hands are free.
      3) the student must be released from restraint as soon as possible. The use of restraint shall not exceed 30 consecutive minutes.
      4) the person who initiates the restraint shall inform his/her supervisor as soon as possible and must submit a written detailed anecdotal report of the cause/conditions that called for the use of physical restraint. The report shall include the date, time, and location that the physical restraint took place. This report will be placed in the student's temporary records maintained by the State School with a copy to be sent to the parent of the student and through the chain of command to the facility administrator.
d) All direct care staff shall be trained in behavior intervention techniques, including physical restraint, to prevent injury to the students. Documentation of training shall be maintained in the employee personnel files kept at each State School. Employees that have not completed the training may not employ physical restraint.
Monitoring and Accountability

Formal incident reporting of conduct violations

LAWS

(b) The parent-teacher advisory committee in cooperation with local law enforcement agencies shall develop, with the school board, policy guideline procedures to establish and maintain a reciprocal reporting system between the school district and local law enforcement agencies regarding criminal offenses committed by students. School districts are encouraged to create memoranda of understanding with local law enforcement agencies that clearly define law enforcement's role in schools, in accordance with Section 10-22.6 of this Code.

(3) Includes procedures for promptly reporting bullying, including, but not limited to, identifying and providing the school e-mail address (if applicable) and school telephone number for the staff person or persons responsible for receiving such reports and a procedure for anonymous reporting; however, this shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.
(5) Contains procedures for promptly investigating and addressing reports of bullying, including the following:
(A) Making all reasonable efforts to complete the investigation within 10 school days after the date the report of the incident of bullying was received and taking into consideration additional relevant information received during the course of the investigation about the reported incident of bullying.
(B) Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
(C) Notifying the principal or school administrator or his or her designee of the report of the incident of bullying as soon as possible after the report is received.
(D) Consistent with federal and State laws and rules governing student privacy rights, providing parents and guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.
§ 105 ILCS 5/34-8.05. Reporting firearms in schools.
On or after January 1, 1997, upon receipt of any written, electronic, or verbal report from any school personnel regarding a verified incident involving a firearm in a school or on school owned or leased property, including any conveyance owned, leased, or used by the school for the transport of students or school personnel, the general superintendent or his or her designee shall report all such firearm-related incidents occurring in a school or on school property to the local law enforcement authorities no later than 24 hours after the occurrence of the incident and to the Department of State Police in a form, manner, and frequency as prescribed by the Department of State Police. The State Board of Education shall receive an annual statistical compilation and related data associated with incidents involving firearms in schools from the Department of State Police. As used in this Section, the term "firearm" shall have the meaning ascribed to it in Section 1.1 of the Firearm Owners Identification Card Act.

§ 105 ILCS 5/34-84a.1. Principals shall report incidents of intimidation.
The principal of each attendance center shall promptly notify and report to the local law enforcement authorities for inclusion in the Department of State Police's Illinois Uniform Crime Reporting Program each incident of intimidation of which he or she has knowledge and each alleged incident of intimidation which is reported to him or her, either orally or in writing, by any pupil or by any teacher or other certificated or non-certificated personnel employed at the attendance center. "Intimidation" shall have the meaning ascribed to it by Section 12-6 of the Criminal Code of 2012.

REGULATIONS

1.285. Requirements for the use of isolated time out and physical restraint.
Isolated time out and physical restraint as defined in this Section shall be used only as means of maintaining discipline in schools (that is, as means of maintaining a safe and orderly environment for learning) and only to the extent that they are necessary to preserve the safety of students and others. Neither isolated time out nor physical restraint shall be used in administering discipline to individual students, i.e., as a form of punishment. Nothing in this Section or in Section 1.280 of this Part shall be construed as regulating the restriction of students' movement when that restriction is for a purpose other than the maintenance of an orderly environment (e.g., the appropriate use of safety belts in vehicles).

f) Documentation and Evaluation

1) A written record of each episode of isolated time out or physical restraint shall be maintained in the student's temporary record. The official designated pursuant to Section 1.280(c)(3) of this Part shall also maintain a copy of each of these records. Each record shall include:

A) the student's name;
B) the date of the incident;
C) the beginning and ending times of the incident;
D) a description of any relevant events leading up to the incident;
E) a description of any interventions used prior to the implementation of isolated time out or physical restraint;

J) a list of the school personnel who participated in the implementation, monitoring, and supervision of isolated time out or physical restraint;

K) the date on which parental notification took place as required by subsection (g) of this Section.

2) The school official designated pursuant to Section 1.280(c)(3) of this Part shall be notified of the incident as soon as possible, but no later than the end of the school day on which it occurred.

3) The record described in subsection (f)(1) of this Section shall be completed by the beginning of the school day following the episode of isolated time out or physical restraint.

4) The requirements of this subsection (f)(4) shall apply whenever an episode of isolated time out exceeds 30 minutes, an episode of physical restraint exceeds 15 minutes, or repeated episodes have occurred during any three-hour period.

A) A licensed educator knowledgeable about the use of isolated time out or trained in the use of physical restraint, as applicable, shall evaluate the situation.

B) The evaluation shall consider the appropriateness of continuing the procedure in use, including the student's potential need for medication, nourishment, or use of a restroom, and the need for alternate strategies (e.g., assessment by a mental health crisis team, assistance from police, or transportation by ambulance).

C) The results of the evaluation shall be committed to writing and copies of this documentation shall be placed into the student's temporary student record and provided to the official designated pursuant to Section 1.280(c)(3) of this Part.

5) When a student has first experienced three instances of isolated time out or physical restraint, the school personnel who initiated, monitored, and supervised the incidents shall initiate a review of the effectiveness of the procedures used and prepare an individual behavior plan for the student that provides either for continued use of these interventions or for the use of other, specified interventions. The plan shall be placed into the student's temporary student record. The review shall also consider the student's potential need for an alternative program or for special education.

A) The district or other entity serving the student shall invite the student's parents or guardians to participate in this review and shall provide ten days' notice of its date, time, and location.

§ 105 ILCS 5/2-3.163. Prioritization of urgency of need for services database.

(a) The General Assembly makes all of the following findings:

1) The Department of Human Services maintains a statewide database known as the Prioritization of Urgency of Need for Services that records information about individuals with developmental disabilities who are potentially in need of services.

5) Prioritization of Urgency of Need for Services may be underutilized by children and their parents or guardians due to lack of awareness or lack of information.

(b) The State Board of Education may work with school districts to inform all students with developmental disabilities and their parents or guardians about the Prioritization of Urgency of Need for Services database.
(d) The State Board of Education, in consultation with the Department of Human Services, shall inform parents and guardians of students through school districts about the Prioritization of Urgency of Need for Services waiting list, including the consideration required in subsection (e) of this Section.

(d) The school board, in consultation with the parent-teacher advisory committee and other community-based organizations, must include provisions in the student discipline policy to address students who have demonstrated behaviors that put them at risk for aggressive behavior, including without limitation bullying, as defined in the policy. These provisions must include procedures for notifying parents or legal guardians and early intervention procedures based upon available community-based and district resources.

§ 105 ILCS 5/10-20.33. Time out and physical restraint.

[…] The parents or guardian of a student shall be informed whenever physical restraints are used.

§ 105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

(a) To expel pupils guilty of gross disobedience or misconduct, including gross disobedience or misconduct perpetrated by electronic means, pursuant to subsection (b-20) of this Section, and no action shall lie against them for such expulsion. Expulsion shall take place only after the parents have been requested to appear at a meeting of the board, or with a hearing officer appointed by it, to discuss their child's behavior. Such request shall be made by registered or certified mail and shall state the time, place and purpose of the meeting. The board, or a hearing officer appointed by it, at such meeting shall state the reasons for dismissal and the date on which the expulsion is to become effective. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting and the board may take such action thereon as it finds appropriate. If the board acts to expel a pupil, the written expulsion decision shall detail the specific reasons why removing the pupil from the learning environment is in the best interest of the school. The expulsion decision shall also include a rationale as to the specific duration of the expulsion. An expelled pupil may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the expulsion, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

(b) To suspend or by policy to authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of gross disobedience or misconduct, or to suspend pupils guilty of gross disobedience or misconduct on the school bus from riding the school bus, pursuant to subsections (b-15) and (b-20) of this Section, and no action shall lie against them for such suspension. The board may by policy authorize the superintendent of the district or the principal, assistant principal, or dean of students of any school to suspend pupils guilty of such acts for a period not to exceed 10 school days. If a pupil is suspended due to gross disobedience or misconduct on a school bus, the board may suspend the pupil in excess of 10 school days for safety reasons.

Any suspension shall be reported immediately to the parents or guardian of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardian, the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review, the parents or guardian of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant
to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

Before being enrolled in an alternative learning opportunities program, the student and each of his or her parents or guardians shall receive written notice to attend a conference to determine if the student would benefit from attending an alternative learning opportunities program. The conference must provide all of the information necessary for the student and parent or guardian to make an informed decision regarding enrollment in an alternative learning opportunities program. The conference shall include a discussion of the extent to which the student, if enrolled in the program, may participate in school activities. No student shall be enrolled in an alternative learning opportunities program without the consent of the student's parent or guardian.

(a) In this Section, “school grounds” means the real property comprising an active and operational elementary or secondary school during the regular hours in which school is in session and when students are present.
(b) Before detaining and questioning a student on school grounds who is under 18 years of age and who is suspected of committing a criminal act, a law enforcement officer, school resource officer, or other school security personnel must do all of the following:
(1) Ensure that notification or attempted notification of the student’s parent or guardian is made.
(2) Document the time and manner in which the notification or attempted notification under paragraph (1) occurred.
(3) Make reasonable efforts to ensure that the student’s parent or guardian is present during the questioning or, if the parent or guardian is not present, ensure that school personnel, including, but not limited to, a school social worker, a school psychologist, a school nurse, a school guidance counselor, or any other mental health professional, are present during the questioning.
(4) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning. An officer who received training in youth investigations approved or certified by his or her law enforcement agency or under Section 10.22 of the Police Training Act or a juvenile police officer, as defined under Section 1-3 of the Juvenile Court Act of 1987, satisfies the requirement under this paragraph.
(c) This Section does not limit the authority of a law enforcement officer to make an arrest on school grounds. This Section does not apply to circumstances that would cause a reasonable person to believe that urgent and immediate action is necessary to do any of the following:
(1) Prevent bodily harm or injury to the student or any other person.
(2) Apprehend an armed or fleeing suspect.
(3) Prevent the destruction of evidence.
(4) Address an emergency or other dangerous situation.

(b) Notices. Before any hearing may be held under subsection (c), the principal of the school attended by the pupil or the principal's designee shall notify the pupil's parent or guardian by personal visit, letter, or telephone of each unexcused absence of the pupil. After giving the parent or guardian notice of the tenth unexcused absence of the pupil, the principal or the principal's designee shall send the pupil's parent or guardian a letter, by certified mail, return receipt requested, notifying the parent or guardian that he or she is subjecting himself or herself to a hearing procedure as provided under subsection (c) and clearly describing any and all possible penalties that may be imposed as provided for in subsections (d) and (e) of this Section.

§ 105 ILCS 5/34-18.28. Prison tour pilot program
The board shall establish a pilot program to prevent crime by developing guidelines to identify students at risk of committing crimes. "Students at risk of committing crimes" shall be limited to those students who have engaged in serious acts of misconduct in violation of the board's policy on discipline. This program, in cooperation with the Department of Corrections, shall include a guided tour of a prison for each student so identified in order to discourage criminal behavior. The touring of a prison under this Section shall be subject to approval, in writing, of a student's parent or guardian.

REGULATIONS

1.285. Requirements for the use of isolated time out and physical restraint.
Isolated time out and physical restraint as defined in this Section shall be used only as means of maintaining discipline in schools (that is, as means of maintaining a safe and orderly environment for learning) and only to the extent that they are necessary to preserve the safety of students and others. Neither isolated time out nor physical restraint shall be used in administering discipline to individual students, i.e., as a form of punishment. Nothing in this Section or in Section 1.280 of this Part shall be construed as regulating the restriction of students' movement when that restriction is for a purpose other than the maintenance of an orderly environment (e.g., the appropriate use of safety belts in vehicles).

f) Documentation and Evaluation

5) When a student has first experienced three instances of isolated time out or physical restraint, the school personnel who initiated, monitored, and supervised the incidents shall initiate a review of the effectiveness of the procedures used and prepare an individual behavior plan for the student that provides either for continued use of these interventions or for the use of other, specified interventions.
The plan shall be placed into the student's temporary student record. The review shall also consider the student's potential need for an alternative program or for special education.

A) The district or other entity serving the student shall invite the student's parents or guardians to participate in this review and shall provide ten days' notice of its date, time, and location.

B) The notification shall inform the parents or guardians that the student's potential need for special education or an alternative program will be considered and that the results of the review will be entered into the temporary student record.

g) Notification to Parents

1) A district whose policies on the maintenance of discipline include the use of isolated time out or physical restraint shall notify parents to this effect as part of the information distributed annually or upon enrollment pursuant to Sections 10-20.14 and 14-8.05(c) of the School Code [105 ILCS 5/10-20.14 and 14-8.05(c)].

2) Within 24 hours after any use of isolated time out or physical restraint, the school district or other entity serving the student shall send written notice of the incident to the student's parents, unless the parent has provided the district or other entity with a written waiver of this requirement for notification. The notification shall include the student's name, the date of the incident, a description of the intervention used, and the name of a contact person with a telephone number to be called for further information.

§ 105 ILCS 85/5. Definitions.

In this Act:

"Covered information" means personally identifiable information or material or information that is linked to personally identifiable information or material in any media or format that is not publicly available and is any of the following:

(1) Created by or provided to an operator by a student or the student's parent or legal guardian in the course of the student's, parent's, or legal guardian's use of the operator's site, service, or application for K through 12 school purposes.

(2) Created by or provided to an operator by an employee or agent of a school or school district for K through 12 school purposes.

"Interactive computer service" has the meaning ascribed to that term in Section 230 of the federal Communications Decency Act of 1996 (47 U.S.C. 230).

"K through 12 school purposes" means purposes that are directed by or that customarily take place at the direction of a school, teacher, or school district; aid in the administration of school activities, including, but not limited to, instruction in the classroom or at home, administrative activities, and collaboration between students, school personnel, or parents; or are otherwise for the use and benefit of the school.
“Operator” means, to the extent that an entity is operating in this capacity, the operator of an Internet website, online service, online application, or mobile application with actual knowledge that the site, service, or application is used primarily for K through 12 school purposes and was designed and marketed for K through 12 school purposes.

“School” means (1) any preschool, public kindergarten, elementary or secondary educational institution, vocational school, special educational facility, or any other elementary or secondary educational agency or institution or (2) any person, agency, or institution that maintains school student records from more than one school. “School” includes a private or nonpublic school.

"Targeted advertising" means presenting advertisements to a student where the advertisement is selected based on information obtained or inferred over time from that student's online behavior, usage of applications, or covered information. The term does not include advertising to a student at an online location based upon that student's current visit to that location or in response to that student's request for information or feedback, without the retention of that student's online activities or requests over time for the purpose of targeting subsequent ads.

An operator shall not knowingly do any of the following:

(1) Engage in targeted advertising on the operator's site, service, or application or target advertising on any other site, service, or application if the targeting of the advertising is based on any information, including covered information and persistent unique identifiers, that the operator has acquired because of the use of that operator's site, service, or application for K through 12 school purposes.

(2) Use information, including persistent unique identifiers, created or gathered by the operator's site, service, or application to amass a profile about a student, except in furtherance of K through 12 school purposes. (A) In furtherance of the K through 12 school purposes of the site, service, or application if the recipient of the covered information disclosed under this clause (A) does not further disclose the information, unless done to allow or improve operability and functionality of the operator's site, service, or application.

(B) To ensure legal and regulatory compliance or take precautions against liability.

(C) To respond to the judicial process.

(D) To protect the safety or integrity of users of the site or others or the security of the site, service, or application.

(E) For a school, educational, or employment purpose requested by the student or the student's parent or legal guardian, provided that the information is not used or further disclosed for any other purpose.

(F) To a third party if the operator contractually prohibits the third party from using any covered information for any purpose other than providing the contracted service to or on behalf of the operator, prohibits the third party from disclosing any covered information provided by the operator with subsequent third parties, and requires the third party to implement and maintain reasonable security procedures and practices.
Nothing in this Section prohibits the operator's use of information for maintaining, developing, supporting, improving, or diagnosing the operator's site, service, or application.

§ 105 ILCS 85/25. Operator actions that are not prohibited.
This Act does not prohibit an operator from doing any of the following:

1. Using covered information to improve educational products if that information is not associated with an identified student within the operator's site, service, or application or other sites, services, or applications owned by the operator.
2. Using covered information that is not associated with an identified student to demonstrate the effectiveness of the operator's products or services, including in their marketing.

   (B) Additional services relating to an educational, other learning, or employment opportunity purpose within an online site, service, or application if the recommendation is not determined in whole or in part by payment or other consideration from a third party.
5. Responding to a student's request for information or for feedback without the information or response being determined in whole or in part by payment or other consideration from a third party.

This Act does not do any of the following:

1. Limit the authority of a law enforcement agency to obtain any content or information from an operator as authorized by law or under a court order.
2. Limit the ability of an operator to use student data, including covered information, for adaptive learning or customized student learning purposes.

4. Limit service providers from providing Internet connectivity to schools or students and their families.
5. Prohibit an operator of an Internet website, online service, online application, or mobile application from marketing educational products directly to parents if the marketing did not result from the use of covered information obtained by the operator through the provision of services covered under this Act.
6. Impose a duty upon a provider of an interactive computer service to review or enforce compliance with this Act on those applications or software.
7. Impose a duty upon a provider of an interactive computer service to review or enforce compliance with this Act by third-party content providers.

Data collection, review, and reporting of disciplinary policies and actions

LAWS

§ 105 ILCS 5/2-3.130. Time out and physical restraint rules.
The State Board of Education shall promulgate rules governing the use of time out and physical restraint in the public schools. The rules shall include provisions governing recordkeeping that is required when physical restraint or more restrictive forms of time out are used.

§ 105 ILCS 5/2-3.162. Student discipline report; school discipline improvement plan.
(a) On or before October 31, 2015 and on or before October 31 of each subsequent year, the State Board of Education, through the State Superintendent of Education, shall prepare a report on student discipline in all school districts in this State, including State-authorized charter schools. This report shall include data from all public schools within school districts, including district-authorized charter schools. This report must be posted on the Internet website of the State Board of Education. The report shall include data on the issuance of out-of-school suspensions, expulsions, and removals to alternative settings in lieu of another disciplinary action, disaggregated by race and ethnicity, gender, age, grade level, whether a student is an English learner, incident type, and discipline duration.

(b) The State Board of Education shall analyze the data under subsection (a) of this Section on an annual basis and determine the top 20% of school districts for the following metrics:

1. Total number of out-of-school suspensions divided by the total district enrollment by the last school day in September for the year in which the data was collected, multiplied by 100.

2. Total number of out-of-school expulsions divided by the total district enrollment by the last school day in September for the year in which the data was collected, multiplied by 100.

3. Racial disproportionality, defined as the overrepresentation of students of color or white students in comparison to the total number of students of color or white students on October 1st of the school year in which data are collected, with respect to the use of out-of-school suspensions and expulsions, which must be calculated using the same method as the U.S. Department of Education's Office for Civil Rights uses.

The analysis must be based on data collected over 3 consecutive school years, beginning with the 2014-2015 school year.

Beginning with the 2017-2018 school year, the State Board of Education shall require each of the school districts that are identified in the top 20% of any of the metrics described in this subsection (b) for 3 consecutive years to submit a plan identifying the strategies the school district will implement to reduce the use of exclusionary disciplinary practices or racial disproportionality or both, if applicable. School districts that no longer meet the criteria described in any of the metrics described in this subsection (b) for 3 consecutive years shall no longer be required to submit a plan.

This plan may be combined with any other improvement plans required under federal or State law.
The calculation of the top 20% of any of the metrics described in this subsection (b) shall exclude all school districts, State-authorized charter schools, and special charter districts that issued fewer than a total of 10 out-of-school suspensions or expulsions, whichever is applicable, during the school year. The calculation of the top 20% of metric described in subdivision (3) of this subsection (b) shall exclude all school districts with an enrollment of fewer than 50 white students or fewer than 50 students of color.

The plan must be approved at a public school board meeting and posted on the school district's Internet website. Within one year after being identified, the school district shall submit to the State Board of Education and post on the district's Internet website a progress report describing the implementation of the plan and the results achieved.

(a) To establish and maintain a parent-teacher advisory committee to develop with the school board or governing body of a charter school policy guidelines on pupil discipline, including school searches and bullying prevention as set forth in Section 27-23.7 of this Code. School authorities shall furnish a copy of the policy to the parents or guardian of each pupil within 15 days after the beginning of the school year, or within 15 days after starting classes for a pupil who transfers into the district during the school year, and the school board or governing body of a charter school shall require that a school inform its pupils of the contents of the policy. School boards and the governing bodies of charter schools, along with the parent-teacher advisory committee, must annually review their pupil discipline policies, the implementation of those policies, and any other factors related to the safety of their schools, pupils, and staff.

§ 105 ILCS 5/26-3d [Truants; collection of data].

All regional superintendents, district superintendents, and special education joint agreement directors shall collect data concerning truants, chronic truants, and truant minor pupils as designated by the State Board of Education. On or before August 15 of each year, this data must be submitted to the State Board of Education.

(a) As used in this Section:

"Chronic absence" means absences that total 10% or more of school days of the most recent academic school year, including absences with and without valid cause, as defined in Section 26-2a of this Code, and out-of-school suspensions for an enrolled student.

"Student" means any enrolled student that is subject to compulsory attendance under Section 26-1 of this Code but does not mean a student for whom a documented homebound or hospital record is on file during the student's absence from school.

(b) The General Assembly finds that:

1. The early years are a critical period in children's learning and development. Every child should be counted present every day. Every day of school matters.
2. Being absent too many days from school can make it difficult for students to stay on-track academically and maintain the momentum to graduate from high school in order to be college-or career-ready.
3. Every day of school attendance matters for all students and their families. It is crucial, therefore, that the implications of chronic absence be understood and reviewed regularly.

(c) Beginning July 1, 2018, every school district, charter school, or alternative school or any school receiving public funds shall collect and review its chronic absence data and determine what systems of support and resources are needed to engage chronically absent students and their families to encourage the habit of daily attendance and promote success. The review shall include an analysis of chronic
absence data from each attendance center or campus of the school district, charter school, or alternative school or other school receiving public funds.

(d) School districts, charter schools, or alternative schools or any school receiving public funds are encouraged to provide a system of support to students who are at risk of reaching or exceeding chronic absence levels with strategies such as those available through the Illinois Multi-tiered Systems of Support Network. Schools additionally are encouraged to make resources available to families such as those available through the State Board of Education's Family Engagement Framework to support and engage students and their families to encourage heightened school engagement and improved daily school attendance.

(b) In this Section:

"Policy on bullying" means a bullying prevention policy that meets the following criteria:

(9) Is based on the engagement of a range of school stakeholders, including students and parents or guardians.

(11) As part of the process of reviewing and re-evaluating the policy under subsection (d) of this Section, contains a policy evaluation process to assess the outcomes and effectiveness of the policy that includes, but is not limited to, factors such as the frequency of victimization; student, staff, and family observations of safety at a school; identification of areas of a school where bullying occurs; the types of bullying utilized; and bystander intervention or participation. The school district, charter school, or non-public, non-sectarian elementary or secondary school may use relevant data and information it already collects for other purposes in the policy evaluation. The information developed as a result of the policy evaluation must be made available on the Internet website of the school district, charter school, or non-public, non-sectarian elementary or secondary school. If an Internet website is not available, the information must be provided to school administrators, school board members, school personnel, parents, guardians, and students.

The prohibition does not prohibit or affect the establishment or maintenance of any place operated by or under the control of law enforcement personnel, school resource officers, or other security personnel that does not also qualify as a student booking station as defined in paragraph (2) of subsection (d) of this Section. The prohibition does not affect or limit the powers afforded law enforcement officers to perform their duties within schools as otherwise prescribed by law.
(c) When the underlying suspected or alleged criminal act is an act of violence, and isolation of a student or students is deemed necessary to the interest of public safety, and no other location is adequate for secure isolation of the student or students, offices as described in paragraph (1) of subsection (d) of this Section may be employed to detain students for a period no longer than that required to alleviate that threat to public safety.
(d) As used in this Section, “student booking station” means a building, office, room, or any indefinitely established space or site, mobile or fixed, which operates concurrently as:
   (1) predominantly or regularly a place of operation for a municipal police department, county sheriff department, or other law enforcement agency, or under the primary control thereof; and
   (2) a site at which students are detained in connection with criminal charges or allegations against those students, taken into custody, or engaged with law enforcement personnel in any process that creates a law enforcement record of that contact with law enforcement personnel or processes.

§ 105 ILCS 5/10-20.64 Booking stations on school grounds.
(a) There shall be no student booking station established or maintained on the grounds of any school.
(b) This prohibition shall be applied to student booking stations only, as defined in this Section. The prohibition does not prohibit or affect the establishment or maintenance of any place operated by or under the control of law enforcement personnel, school resource officers, or other security personnel that does not also qualify as a student booking station as defined in paragraph (2) of subsection (d) of this Section. 1) predominantly or regularly a place of operation for a municipal police department, county sheriff department, or other law enforcement agency, or under the primary control thereof; and

2) a site at which students are detained in connection with criminal charges or allegations against those students, taken into custody, or engaged with law enforcement personnel in any process that creates a law enforcement record of that contact with law enforcement personnel or processes.

§ 105 ILCS 5/22-85. Parental notification of law enforcement detainment and questioning on school grounds.

(a) In this Section, “school grounds” means the real property comprising an active and operational elementary or secondary school during the regular hours in which school is in session and when students are present.

(b) Before detaining and questioning a student on school grounds who is under 18 years of age and who is suspected of committing a criminal act, a law enforcement officer, school resource officer, or other school security personnel must do all of the following:

2) Document the time and manner in which the notification or attempted notification under paragraph (1) occurred.

2) Apprehend an armed or fleeing suspect.

3) Prevent the destruction of evidence.

4) Address an emergency or other dangerous situation.

The clerk or secretary of the school board of all school districts except those employing district truant officers shall furnish the superintendent of schools at the beginning of the school year a list of the names and addresses of the children living in the district who come under the provisions of this Article and of persons having custody or control of such children. The superintendent shall at the opening of school and at other times when required by the regional superintendent of schools compare the list with the enrollment of the school or schools and report to the regional superintendent of schools the names of persons having custody or control of children included under the provisions of this Article who are truant or who are chronic or habitual truants for whom supportive services and other school resources have failed to correct the truant behavior and who are not in regular attendance at the public school, and the names of such children and their ages, stating in each case, if known, the cause of such absence. The report shall also contain the names of any other persons who were not enumerated in the list at the beginning of school and who have the custody or control of children not attending school. The regional superintendent shall, without delay, place such information at the disposal of the regional truant officer.

The clerk or secretary of the school board of all school districts shall furnish quarterly on the first school day of October, January, April and July to the regional superintendent and to the Secretary of State a list of pupils, excluding transferees, who have been expelled or have withdrawn or who have left school and have been removed from the regular attendance rolls during the period of time school was in regular session from the time of the previous quarterly report. Such list shall include the names and addresses of pupils formerly in attendance, the names and addresses of persons having custody or control of such pupils, the reason, if known, such pupils are no longer in attendance and the date of removal from the attendance rolls. The list shall also include the names of: pupils whose withdrawal is due to extraordinary circumstances, including but not limited to economic or medical necessity or family hardship, as determined by the criteria established by the school district; pupils who have re-enrolled in school since their names were removed from the attendance rolls; any pupil certified to be a chronic or habitual truant, as defined in Section 26-2a; and pupils previously certified as chronic or habitual truants who have resumed regular school attendance. The regional superintendent shall inform the county or district truant officer who shall investigate to see that such pupils are in compliance with the requirements of this Article.

Each local school district shall establish, in writing, a set of criteria for use by the local superintendent of schools in determining whether a pupil’s failure to attend school is the result of extraordinary circumstances, including but not limited to economic or medical necessity or family hardship.

If a pupil re-enrolls in school after his or her name was removed from the attendance rolls or resumes regular attendance after being certified a chronic or habitual truant, the pupil must obtain and forward to the Secretary of State, on a form designated by the Secretary of State, verification of his or her re-enrollment. The verification may be in the form of a signature or seal or in any other form determined by the school board.

The State Board of Education shall, if possible, make available to any person, upon request, a comparison of dropout rates before and after the effective date of this amendatory Act of the 94th General Assembly.

§ 105 ILCS 5/26-5. Duties of truant officers.
The truant officer of the school district, whenever notified by the Superintendent, teacher, or other person of violations of this Article, or the county truant officer, when notified by the County Superintendent, shall investigate all cases of truancy or non-attendance at school in their respective jurisdictions, and if the children complained of are not exempt under the provisions of this Article, the truant officer shall proceed as is provided in this Article. The county truant officer, within the county and the district truant officers,
within their respective districts, shall in the exercise of their duties be conservators of the peace and shall keep the same, suppress riots, routs, affray, fighting, breaches of the peace, and prevent crime; and may arrest offenders on view and cause them to be brought before proper officials for trial or examination.

In school districts which employ truant officers the clerk or secretary of the school board shall at the beginning of each school year furnish a copy of the last school census to the superintendent of schools (or principal teacher) in the district, together with the names and addresses of the truant officers in the district, and the superintendent, (or principal teacher) shall compare the census list with the enrollment of the school or schools and, from time to time, report to the proper truant officers the names and addresses of persons having custody or control of children included under the provisions of this Article who are truant or who are chronic or habitual truants for whom supportive services and other school resources have failed to correct the truant behavior and who are not in regular attendance at public schools and also the names of persons having custody or control of children who are not in regular attendance at school and whose names are not included in the census list.

If any person fails to send any child under his custody or control to some lawful school, the truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee shall, as soon as practicable after he is notified thereof, give notice in person or by mail to such person that such child shall be present at the proper public school on the day following the receipt of such notice. The notice shall state the date that attendance at school must begin and that such attendance must be continuous and consecutive in the district during the remainder of the school year. The truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee shall at the same time that such notice is given notify the teacher or superintendent of the proper public school thereof and the teacher or superintendent shall notify the truant officer or regional superintendent of schools of any non-compliance therewith.

A truant officer or, in a school district that does not have a truant officer, the regional superintendent of schools or his or her designee, after giving the notice provided in Section 26-7, shall determine whether the notice has been complied with. If 3 notices have been given and the notices have not been complied with, and if the persons having custody or control have knowingly and willfully permitted the truant behavior to continue, the regional superintendent of schools, or his or her designee, of the school district where the child resides shall conduct a truancy hearing. If the regional superintendent determines as a result of the hearing that the child is truant, the regional superintendent shall, if age appropriate at the discretion of the regional superintendent, require the student to complete 20 to 40 hours of community service over a period of 90 days. If the truancy persists, the regional superintendent shall (i) make complaint against the persons having custody or control to the state's attorney or in the circuit court in the county where such person resides for failure to comply with the provisions of this Article or (ii) conduct truancy mediation and encourage the student to enroll in a graduation incentives program under Section 26-16 of this Code. If, however, after giving the notice provided in Section 26-7 the truant behavior has continued, and the child is beyond the control of the parents, guardians or custodians, a truancy petition shall be filed under the provisions of Article III of the Juvenile Court Act of 1987.

§ 105 ILCS 5/26-8a. [Court petition content]
The petition for court action shall include the name of the truant minor, the names and addresses of persons having custody or control of the student, the dates of the truant behavior, the dates and nature of contacts or conferences with the student and the persons having custody or control of the student, and
the nature of the supportive services, alternative programs and other school resources the school district provided to that child in an effort to correct that child's truant behavior.

§ 105 ILCS 5/26-8b. [Court petition filing]
When a petition is filed, it shall be set for an adjudicatory hearing within 10 days and acted upon within 30 days, subject to the provisions of the Juvenile Court Act or the Juvenile Court Act of 1987 if filed thereunder.

School officers, superintendents, teachers or other persons shall render such assistance and furnish such information as they have to aid truant officers in the performance of their duties.

§ 105 ILCS 5/26-10. Fine for noncompliance.
Any person having custody or control of a child subject to the provisions of this Article to whom notice has been given of the child's truancy and who knowingly and willfully permits such a child to persist in his truancy within that school year, upon conviction thereof shall be guilty of a Class C misdemeanor and shall be subject to not more than 30 days imprisonment and/or a fine of up to $500.

Any person who induces or attempts to induce any child to be absent from school unlawfully, or who knowingly employs or harbors, while school is in session, any child absent unlawfully from school for 3 consecutive school days, is guilty of a Class C misdemeanor.

Any dropout, as defined in Section 26-2a, who is 17 years of age may apply to a school district for status as a truant, and the school district shall permit such person to participate in the district's various programs and resources for truants. At the time of the person's application, the district may request documentation of his dropout status for the previous 6 months.

When a regional superintendent has reason to believe that a pupil is a truant minor as defined in Section 26-2a, the regional superintendent may report such pupil under the provisions of the Juvenile Court Act.

LAWS

§ 105 ILCS 5/2-3.176. Safe schools and healthy learning environment grant program.
(a) The State Board of Education, subject to appropriation, is authorized to award competitive grants on an annual basis under a Safe Schools and Healthy Learning Environments Grant Program. The goal of this grant program is to promote school safety and healthy learning environments by providing schools with additional resources to implement restorative interventions and resolution strategies as alternatives to exclusionary discipline, and to address the full range of students’ intellectual, social, emotional, physical, psychological, and moral developmental needs.

(b) To receive a grant under this program, a school district must submit with its grant application a plan for implementing evidence-based and promising practices that are aligned with the goal of this program. The application may include proposals to (i) hire additional school support personnel, including, but not limited to, restorative justice practitioners, school psychologists, school social workers, and other mental and behavioral health specialists; (ii) use existing school-based resources, community-based resources, or other experts and practitioners to expand alternatives to exclusionary discipline, mental and behavioral health supports, wraparound services, or drug and alcohol treatment; and (iii) provide training for school staff on trauma-informed approaches to meeting students’ developmental needs, addressing the effects of toxic stress, restorative justice approaches, conflict resolution techniques, and the effective utilization of school support personnel and community-based services. For purposes of this subsection, “promising practices” means practices that present, based on preliminary information, potential for becoming evidence-based practices.

Grant funds may not be used to increase the use of school-based law enforcement or security personnel. Nothing in this Section shall prohibit school districts from involving law enforcement personnel when necessary and allowed by law.

(c) The State Board of Education, subject to appropriation for the grant program, shall annually disseminate a request for applications to this program, and funds shall be distributed annually. The criteria to be considered by the State Board of Education in awarding the funds shall be (i) the average
ratio of school support personnel to students in the target schools over the preceding 3 school years, with priority given to applications with a demonstrated shortage of school support personnel to meet student needs; and (ii) the degree to which the proposal articulates a comprehensive approach for reducing exclusionary discipline while building safe and healthy learning environments. Priority shall be given to school districts that meet the metrics under subsection (b) of Section 2-3.162 [105 ILCS 5/2-3.162].

(d) The State Board of Education, subject to appropriation for the grant program, shall produce an annual report on the program in cooperation with the school districts participating in the program. The report shall include available quantitative information on the progress being made in reducing exclusionary discipline and the effects of the program on school safety and school climate. This report shall be posted on the State Board of Education’s website by October 31 of each year, beginning in 2020.

(e) The State Board of Education may adopt any rules necessary for the implementation of this program.

§ 105 ILCS 5/13A-1. Legislative Declaration.
The General Assembly finds and declares as follows:

(j) Because of the urgency of the problems described in this Section, as well as their statewide impact, the State of Illinois bears the responsibility to establish and fully fund alternative schools as soon as possible, thereby providing school districts with an option for dealing with disruptive students that they do not now possess.

REGULATIONS

205.20. Truants’ alternative and optional education programs - Purpose.
a) This Part establishes the procedure and criteria for approval of applications, submitted by eligible applicants to the State Board of Education, for grants to assist the applicants in establishing truants' alternative and optional education programs as authorized in Section 2-3.66 of the School Code. [105 ILCS 5/2-3.66]

b) Programs funded under this grant shall serve students identified as one of the following:

1) a truant, as defined in Section 26-2a of the School Code [105 ILCS 5/26-2a]; or
2) a chronic or habitual truant, as defined in Section 26-2a of the School Code; or
3) a dropout, as defined in Section 26-2a of the School Code; or
4) a potential dropout, which is any student subject to compulsory attendance as defined in Article 26 of the School Code [105 ILCS 5/Art. 26] and whose school absences or pattern of school attendance impedes the student's learning or contributes to the student's failure to meet State and/or district learning standards. Attendance problems may include chronic truancy, truancy, selective absences, excessive absences or a pattern of absences or tardiness. In assessing whether marginal school attendance problems would place a student within the definition of "potential dropout," consideration shall be given to a student's personal involvement in the education process, apparent motivation to receive an education, or any continued and obvious apathy or disaffection for education, particularly, when indications of uninvolve, lack of motivation or disaffection are coupled with currently known individual or family circumstances that, if they remain unresolved, would be reasonably expected to result in escalating attendance problems. (Source: Amended at 25 Ill. Reg. 2399, effective January 25, 2001)

205.30. Truants’ alternative and optional education programs - Eligible applicants.
a) Proposals for grant awards under Section 2-3.66 of the School Code may be submitted only by public school districts, regional offices of education, public university laboratory schools approved by the State
Board of Education pursuant to Section 18-8.05(K) of the School Code [105 ILCS 5/18-8.05(K)], charter schools, community college districts, or area vocational centers.

b) Joint applications for funds may be submitted. If a joint application is submitted, then an administrative agent shall be designated.

1) The superintendent from each of the participating school districts and the official authorized to submit a proposal on behalf of any other eligible entity as defined in subsection (a) of this Section shall sign the joint application.

2) A school district or other eligible entity shall only participate in one proposal for a program. (Source: Amended at 26 Ill. Reg. 882, effective January 15, 2002)

205.40. Truants’ alternative and optional education programs - Application procedure and content.

It is the intention of the State Board of Education to approve truants’ alternative and optional education programs for a three-year period. Funding for the second and third years of operation (i.e., beginning the year following the initial grant award) shall be contingent upon the availability of funds for the program, the grantee’s progress toward meeting its objectives, and the evidence presented in the proposal that a sufficient need continues to exist for the program (see Section 205.40(f) of this Part).

a) The State Board of Education will issue a Request for Proposals (RFP) specifying the information that applicants shall include in their proposals and requiring that proposals be submitted to the State Board of Education no later than the date specified in the RFP. The RFP shall provide at least 45 calendar days in which to submit proposals.

b) Each RFP shall indicate the descriptive information (e.g., needs assessment, community-based planning procedures, indicators used to identify students for the program, program objectives and activities, individualized optional education plan development, means of evaluation) that initial applicants will be required to provide about their proposed programs. Initial applicants are those that did not receive funding under this Part for a truants’ alternative and optional education program in the year previous to an application or that are completing the last year in a three-year funding cycle. Each RFP shall identify any area or areas of high priority for the funding cycle.

c) Each RFP shall describe the proposal format that applicants will be required to follow (e.g., cover page, program staffing, proposal abstract, proposal narrative).

d) Each proposal shall include a budget summary and payment schedule and a narrative budget breakdown (i.e., a detailed explanation of each line item of expenditure), completed on forms provided by the State Board of Education.

e) Each proposal shall include a Certification and Assurances for Application and Award and a Drug-Free.

f) Each proposal for renewal shall contain at least the following:

1) a mid-year report of the current year’s program, documenting the services provided and describing the degree to which the grantee is achieving its stated objectives;

2) an updated narrative description of the objectives, activities, timelines, evaluation procedures and the personnel to be responsible for them in the renewal year, relating the objectives and activities proposed to the results to date, as described in the mid-year report required under subsection (f)(1) of this Section;

3) an updated budget summary and payment schedule, with narrative budget breakdown, for the renewal year; and

4) the assurances and certification forms referred to in subsection (e) of this Section, bearing a current signature and applicable to the renewal period.

g) Incomplete proposals will not be considered for funding.
205.50. Truants’ alternative and optional education programs - Proposal review and approval.

a) Proposals submitted for initial funding under this Part shall be evaluated in accordance with the following criteria and points:

1) There is sufficient need for the program/services, as evidenced by the number or proportion of students identified as eligible for program services (see Section 205.20(b) of this Part). (20 points)

2) Criteria and indicators for identifying students who are eligible for the program are clearly established and likely to target those students most in need of services. (20 points)

3) Program objectives and activities are well-defined, linked to identified needs, and likely to lead to improved outcomes for the students served in the program. (20 points)

4) The program is cost-effective as evidenced by the cost of proposed services in relation to the numbers to be served and the services to be provided. (20 points)

5) The evaluation strategies will effectively gauge the success of the program and yield sufficient data that can be used to improve the program. (10 points)

6) The proposal demonstrates strategies, other than those routinely offered by the regular school program that will be effective in decreasing the dropout rate and increasing school attendance. (10 points)

b) Proposals submitted for a renewal period shall be evaluated in accordance with the following criteria:

1) The evaluation of the current year’s project indicates that its stated objectives are being met, that the project has been conducted in conformance with the proposal approved by the State Superintendent of Education, and that a sufficient need continues to exist for the truants' alternative and optional education program; or

2) In instances where certain objectives of the project are not being met, the grantee has described the relative status of each such objective, the reason(s) for incomplete achievement, and either:
   i) the steps to be taken to ensure that the objective will be met during the renewal period, if the objective remains a valid part of the proposal for renewal; or
   ii) if the grantee has determined that the objective should be deleted from its plan or altered in light of the previous year’s experience, then the grantee has provided its rationale for such deletion or change and has described how the program’s goals for the renewal period will be met in light of the change.

c) The selection of proposals for funding may be based in part on geographic distribution and/or the need to provide resources to public school districts and communities with varying demographic characteristics.

d) Priority consideration may be given to proposals with specific areas of emphasis, as identified by the State Board of Education in a particular RFP.

e) The State Superintendent of Education will make final determinations in accordance with the criteria stated in subsections (a) and (b) of this Section.

205.60. Truants’ alternative and optional education programs - Allocation of funds.

The State Superintendent of Education shall determine the amount of individual grant awards on the basis of the following criteria. The final award amounts will be based on these criteria following negotiation with the grant recipient:

a) the total funds appropriated for truants' alternative and optional education programs;

b) the program needs, resources, and amounts requested in the top-ranked proposals determined pursuant to Section 205.50(a) and (b) of this Part; and
c) the need to assure delivery of truancy prevention services and truants' alternative and optional education programs on a statewide basis and in a manner that will have the greatest impact in preventing truancy and students from dropping out of school.

205.70. Truants' alternative and optional education programs -Terms of the grant.
Each RFP shall inform potential recipients of the terms and conditions that apply to their receipt and use of grant funds under this program, including at least the following:

a) All grants issued under this Part shall be governed by the Illinois Grant Funds Recovery Act [30 ILCS 705].

b) Applicants may be asked to clarify certain aspects of their proposals. A negotiated and finalized proposal returned to the applicant, with an authorized signature affixed to the cover page, will constitute an approved grant agreement with the State Board of Education.

c) Orders for payment will be submitted to the Office of the Comptroller by the State Board of Education according to a negotiated payment schedule. Payments may be reduced from scheduled amounts if periodic reports show excessive cash on hand.

d) The grantee may operate its own program or enter into a subcontract with another not-for-profit entity to implement the program.

e) Grant recipients must submit a final project report to the State Board of Education within 30 days after the ending date of the grant period.

f) An approved budget may be amended by completing an amendment to the approved budget, using forms supplied by the State Board of Education, to show the new amounts required and attaching an explanation for the changes. A budget amendment is necessary whenever an approved individual line item changes by more than $1,000 or 20 percent (whichever is larger) from the approved budget. A budget amendment must also be submitted for approval when a grantee proposes to use funds for allowable expenditures not identified in the approved budget. Changes will be approved if the proposed distribution of resources or activities would have been approvable within the original application.

g) The annual RFP shall indicate the proportion of grant funds that can be used for administrative expenses.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer's knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

Use of corporal punishment

LAWS

1. An employee of a public school district, accredited nonpublic school, or area education agency shall not inflict, or cause to be inflicted, corporal punishment upon a student. For purposes of this section, “corporal punishment” means the intentional physical punishment of a student. An employee’s physical contact with the body of a student shall not be considered corporal punishment if it is reasonable and necessary under the circumstances and is not designed or intended to cause pain or if the employee uses reasonable force, as defined under section 704.1, for the protection of the employee, the student, or other students; to obtain the possession of a weapon or other dangerous object within a student’s control; or for the protection of property. The department of education shall adopt rules to implement this section.

REGULATIONS

In conjunction with Iowa Code section 280.21, the purpose of this chapter is to define and exemplify generally the limitations placed on employees of public schools, accredited nonpublic schools, and area education agencies in applying physical contact or force to enrolled students, and to require that any such force or contact is reasonable and necessary under the circumstances. These rules also provide requirements for administrators and staff of public schools, accredited nonpublic schools, and area education agencies regarding the use of physical restraints and physical confinement and detention. The applicability of this chapter to physical restraint or physical confinement and detention does not depend on the terminology employed by the organization to describe physical restraint or physical confinement and detention.

281-103.2(256B,280). Ban on corporal punishment.
An employee of a public school district, accredited nonpublic school, or area education agency shall not inflict, or cause to be inflicted, corporal punishment upon a student. "Corporal punishment" is defined to mean the intentional physical punishment of a student. It includes the use of unreasonable or unnecessary physical force, or physical contact made with the intent to harm or cause pain.

281-103.3(256B,280). Exclusions.
Corporal punishment does not include the following:
1. Verbal recrimination or chastisement directed toward a student;
2. Reasonable requests or requirements of a student engaged in activities associated with physical education class or extracurricular athletics;
3. Actions consistent with and included in an individualized education program developed under the Individuals with Disabilities Education Act, as reauthorized, Iowa Code chapter 256B, and 281-Chapter 41; however, under no circumstance shall an individualized education program violate the provisions of this chapter;
4. Reasonable periods of detention, not in excess of school hours, or brief periods of before- and after-school detention, in a seat, classroom or other part of a school facility, unless the detention is accomplished by the use of material restraints applied to the person. If detention meets this chapter’s definition of "physical confinement and detention," the provisions of this chapter on physical confinement and detention must be followed. For purposes of this chapter, material restraints do not include devices, objects, or techniques required or ordered for reasons of safety (e.g., safety harnesses.
on school buses) or for therapeutic or medical treatment (e.g., devices used for physical or occupational therapy), provided those devices, objects, or techniques are so used, and used for no other purpose;
5. Actions by an employee subject to these rules toward a person who is not a student of the school or receiving the services of an area education agency employing or utilizing the services of the employee.

Notwithstanding rule 103.2(256B,280), no employee subject to these rules is prohibited from:
1. Using reasonable and necessary force, not designed or intended to cause pain, in order to accomplish any of the following:
   To quell a disturbance or prevent an act that threatens physical harm to any person.
   To obtain possession of a weapon or other dangerous object within a pupil’s control.
   For the purposes of self-defense or defense of others as provided for in Iowa Code section 704.3.
   For the protection of property as provided for in Iowa Code section 704.4 or 704.5.
   To remove a disruptive pupil from class or any area of school premises, or from school-sponsored activities off school premises.
   To prevent a student from the self-infliction of harm.
   To protect the safety of others.
2. Using incidental, minor, or reasonable physical contact to maintain order and control.
An employee subject to these rules is not privileged to use unreasonable force to accomplish any of the purposes listed above.

Use of student and locker searches

LAWS

808A.1. Definitions.
As used in this chapter, unless the context otherwise requires:
1. “Protected student area” includes, but is not limited to:
   a. A student’s body.
   b. Clothing worn or carried by a student.
   c. A student’s pocketbook, briefcase, duffel bag, bookbag, backpack, knapsack, or any other container used by a student for holding or carrying personal belongings of any kind and in the possession or immediate proximity of the student.
2. “School” means a public or nonpublic educational institution offering any of grades kindergarten through twelve.
3. “School official” means a licensed school employee, and includes unlicensed school employees employed for security or supervision purposes.
4. “Student” means a person enrolled in a school for any of grades kindergarten through twelve.
5. “Student search rule” means a rule established by the school board of a public school, pursuant to section 279.8 or 279.9, or the authorities in charge of a nonpublic school controlling the manner of the searching of students or protected student areas and school lockers, desks, and other facilities or spaces owned by the school. A student search rule, to be valid for purposes of this chapter, shall require that all searches of students or protected student areas be reasonably related in scope to the
circumstances which gave rise to the need for the search and based upon consideration of relevant factors which include, but are not limited to, the following:

a. The nature of the violation for which the search is being instituted.

b. The age or ages and gender of the students who may be searched pursuant to the rule.

c. The objectives to be accomplished by the search.

808A.2. Searches of students, protected student areas, lockers, desks, and other facilities or spaces.

1. The school board of each public school and the authorities in charge of each nonpublic school shall establish and may search a student or protected student area pursuant to a student search rule. The student search rule shall be published in each public school's and each nonpublic school's student handbook. A school official may search individual students and individual protected student areas if both of the following apply:

   a. The official has reasonable grounds for suspecting that the search will produce evidence that a student has violated or is violating either the law or a school rule or regulation.

   b. The search is conducted in a manner which is reasonably related to the objectives of the search and which is not excessively intrusive in light of the age and gender of the student and the nature of the infraction.

2. School officials may conduct periodic inspections of all, or a randomly selected number of, school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student. The furnishing of a school locker, desk, or other facility or space owned by the school and provided as a courtesy to a student shall not create a protected student area, and shall not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. Allowing students to use a separate lock on a locker, desk, or other facility or space owned by the school and provided to the student shall also not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. However, each year when school begins, the school district shall provide written notice to all students and the students' parents, guardians, or legal custodians, that school officials may conduct periodic inspections of school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student without prior notice. An inspection under this subsection shall either occur in the presence of the students whose lockers are being inspected or the inspection shall be conducted in the presence of at least one other person.

However, the superintendent or chief administering officer of a school or school district may modify expulsion requirements on a case-by-case basis. This section shall not be construed to prevent the board of directors of a school district or the authorities in charge of a nonpublic school that have expelled a student from the student’s regular school setting from providing educational services to the student in an alternative setting. If both this section and section 282.4 apply, this section takes precedence over section 282.4. For purposes of this section, “weapon” means a firearm as defined in 18 U.S.C. § 921. The designated representative shall disclose this information only to those school employees whose duties require them to be involved with the student. REGULATIONS

In conjunction with Iowa Code section 280.21, the purpose of this chapter is to define and exemplify generally the limitations placed on employees of public schools, accredited nonpublic schools, and area education agencies in applying physical contact or force to enrolled students, and to require that any such force or contact is reasonable and necessary under the circumstances. These rules also provide requirements for administrators and staff of public schools, accredited nonpublic schools, and area education agencies regarding the use of physical restraints and physical confinement and detention. The applicability of this chapter to physical restraint or physical confinement and detention does not depend on the terminology employed by the organization to describe physical restraint or physical confinement and detention.

281-103.5(256B,280). Reasonable force.
In determining the reasonableness of the physical force used by a school employee, the following factors shall be applied:

1. The size and physical, mental, and psychological condition of the student;
2. The nature of the student’s behavior or misconduct provoking the use of physical force;
3. The instrumentality used in applying the physical force;
4. The extent and nature of resulting injury to the student, if any;
5. The motivation of the school employee using physical force.

Reasonable physical force, privileged at its inception, does not lose its privileged status by reasons of an injury to the student, not reasonably foreseeable or otherwise caused by intervening acts of another, including the student.

281-103.6(256B,280). Physical confinement and detention.
If a student is physically confined and detained in a portion of a school facility, the following conditions shall be observed. For the purposes of this chapter, “physical confinement and detention” means the confinement of a student in a time-out room or some other enclosure, whether within or outside the classroom, from which the student’s egress is restricted.

1. The area of confinement and detention shall be of reasonable dimensions, and shall be free from hazards and dangerous objects or instruments, considering the age, size, and physical and mental condition of the student subject to confinement and detention;
2. There shall be sufficient light and adequate ventilation for human habitation;
3. A comfortable temperature shall be maintained, consistent with the facility that includes the confinement and detention area;
4. Reasonable break periods shall be afforded the student to attend to bodily needs. However, sleep shall not be considered a “bodily need” for purposes of this subrule;
5. The period of detention and confinement is reasonable, considering the age, size, and physical and mental condition of the student subject to confinement and detention, and not in excess of the hours in a school day as defined by local board policy or rule; however, reasonable periods of before- and after-school detention are permissible. If a period of physical confinement and detention exceeds the shorter of 60 minutes or the school’s typical class period, staff members shall evaluate the continued need for physical confinement and detention, shall obtain administrator (or designee) approval for any continued confinement and detention, and shall comply with any administrator (or designee) directives concerning any continued confinement and detention;
6. Adequate and continuous adult supervision is provided;
7. Material restraints applied to the person are not used to effect confinement;
8. If a room or enclosure used for physical confinement and detention has a locking mechanism, such room and mechanism shall comply with all applicable building code requirements and the following additional requirements:

If a locking mechanism is used, it shall be constructed so it will engage only when a handle, knob, or other device is held in position by a person, unless the mechanism is electrically or electronically controlled and automatically releases when the building's fire alarm system is activated, the building’s severe weather warning system is activated, or electrical power to the mechanism is interrupted.

When the locking mechanism is released, the door must be able to be readily opened from the inside.

If a locking mechanism requires a handle, knob, or other device to be held in position by a person before the mechanism is engaged, no person shall take any action, or cause such action to be taken, or employ any object, device, or instrument, or cause such to be employed, that disables the handle, knob, or other device such that the locking mechanism engages or remains engaged without the handle, knob, or other device being held in position by a person.

281-103.7(256B,280). Additional minimum mandatory procedures.

If a public school, accredited nonpublic school, or area education agency seeks to use physical restraint or physical confinement and detention, or both, it shall do so in compliance with the minimum requirements of this chapter. The board of a public school, accredited nonpublic school, or area education agency may adopt policies and procedures regarding the use of physical restraint or physical confinement and detention, or both, that exceed the minimum requirements contained in this chapter. Additional minimum mandatory procedures are as follows:

1. Physical restraint and physical confinement and detention shall not be used as discipline for minor infractions and may be used only after other disciplinary techniques have been attempted, if reasonable under the circumstances;
2. All school employees, before using physical restraint or physical confinement and detention, shall receive adequate and periodic training, which shall be documented and which shall include training on these rules and the employer’s policies and procedures; positive behavior interventions and supports; disciplinary alternatives to seclusion and restraint; crisis prevention, crisis intervention, and crisis de-escalation techniques; student and staff debriefing; and the safe and effective use of physical restraint and physical confinement and detention;
3. Parents and students are notified at least annually of the provisions of this chapter and of any additional policies and procedures of the public school, accredited nonpublic school, or area education agency on physical restraint and physical confinement and detention;
4. Any physical restraint shall be reasonable and necessary in duration, in light of the provisions of this chapter;
5. If a student is subjected to physical restraint or physical confinement and detention, the public school, accredited nonpublic school, or area education agency shall maintain documentation for each such occurrence, which shall contain at least the following information:

   The names of the student and the employees involved in the restraint, confinement, or detention, as well as the administrator who authorizes any additional periods of confinement or detention pursuant to numbered paragraph “5” of rule 103.6(256B,280);
   The date, time, and duration of the occurrence;
   The actions of the student before, during, and after the occurrence;
The actions of the employees involved in the occurrence before, during, and after the occurrence, including student and staff debriefing;

The alternatives to physical restraint or physical confinement and detention attempted before the occurrence;

A description of any injuries (whether to the student or others) and any property damage;

A description of future approaches to the student’s behavior;

6. The public school, accredited nonpublic school, or area education agency shall attempt to notify a child’s parent or guardian on the same day the child is subjected to physical restraint or physical confinement and detention; and

7. The student’s parent or guardian must be provided a written copy of the documentation required by numbered paragraph “5” of this rule, which shall be postmarked within three school days of the occurrence. The student’s parent or guardian may elect, in writing, to receive the communication required by this numbered paragraph via electronic mail or facsimile transmission.

281-103.8(256B,280). Additional provisions concerning physical restraint.

If an employee of a public school, accredited nonpublic school, or area education agency employs physical restraint, the following provisions shall apply:

1. No employee shall use any prone restraints. For the purposes of this rule, “prone restraints” means those in which an individual is held face down on the floor. Employees who find themselves involved in the use of a prone restraint as the result of responding to an emergency must take immediate steps to end the prone restraint;

2. No employee shall use any restraint that obstructs the airway of any child;

3. If an employee physically restrains a student who uses sign language or an augmentative mode of communication as the student’s primary mode of communication, the student shall be permitted to have the student's hands free of restraint for brief periods, unless an employee determines that such freedom appears likely to result in harm to self or others;

4. Nothing in this rule shall be construed as limiting or eliminating any immunity conferred by Iowa Code section 280.21 or any other provision of law;

5. An agency covered by this chapter shall investigate any complaint or allegation that one or more of its employees violated one or more of the provisions of this chapter. If an agency covered by this chapter determines that one or more of its employees violated one or more of the provisions of this chapter, the agency shall take appropriate corrective action. If any allegation involves a specific student, the agency shall transmit to the parents of the student the results of its investigation, including, to the extent permitted by law, any required corrective action;

6. If any alleged violation of this chapter is also an allegation of “abuse” as defined in rule 281-102.2(280), the procedures in 281-Chapter 102 shall be applicable.

280.19A. Alternative options education programs - disclosure of records.

1. By January 15, 1995, each school district shall adopt a plan to provide alternative options education programs to students who are either at risk of dropping out or have dropped out. An alternative options education program may be provided in a district, through a sharing agreement with a school in a contiguous district, or through an areawide program available at the community college serving the merged area in which the school district is located. Each area education agency shall provide assistance in establishing a plan to provide alternative education options to students attending a public school in a district served by the agency.

2. If a district has not adopted a plan as required in this section and implemented the plan by January 15, 1996, the area education agency serving the district shall assist the district with developing a plan and an alternative options education program for the pupil. When a plan is developed, the district shall be responsible for the operation of the program and shall reimburse the area education agency for the actual costs incurred by the area education agency under this section.

3. A school official or employee who discloses information received under this section in violation of this subsection shall be subject to disciplinary action, including but not limited to reprimand, suspension, or termination. “School officials and employees” means those officials and persons employed by a nonpublic school or public school district, and area education agency staff members who provide services to schools or school districts.

282.18. Open enrollment.
1.a. It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.
b. For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent's or guardian's child in a public school in another school district in the manner provided in this section.

2.a. By March 1 of the preceding school year for students entering grades one through twelve, or by September 1 of the current school year for students entering kindergarten, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that the parent or guardian intends to enroll the parent's or guardian's child in a public school in another school district. If a parent or guardian fails to file a notification that the parent intends to enroll the parent's or guardian's child in a public school in another district by the deadline specified in this subsection, the procedures of subsection 4 apply.

b. The board of the receiving district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district has insufficient classroom space for the pupil. The board of directors of a receiving district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action, but not later than June 1 of the preceding school year. The parent or guardian may withdraw the request at any time prior to the start of the school year. A denial of a request by the board of a receiving district is not subject to appeal.

c. Every school district shall adopt a policy which defines the term “insufficient classroom space” for that district.

3.a. The superintendent of a district subject to a voluntary diversity or court-ordered desegregation plan, as recognized by rule of the state board of education, may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district's implementation of the desegregation order or diversity plan, unless the transfer is requested by a pupil whose sibling is already participating in open enrollment to another district, or unless the request for transfer is submitted to the district in a timely manner as required under subsection 2 prior to the adoption of a desegregation plan by the district. If a transfer request would facilitate a voluntary diversity or court-ordered desegregation plan, the district shall give priority to granting the request over other requests.

b. A parent or guardian, whose request has been denied because of a desegregation order or diversity plan, may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent's decision. A decision of the board to uphold the denial of the request is subject to appeal to the district court in the county in which the primary business office of the district is located. The state board of education shall adopt rules establishing definitions, guidelines, and a review process for school districts that adopt voluntary diversity plans. The guidelines shall include criteria and standards that school districts must follow when developing a voluntary diversity plan. The department of education shall provide technical assistance to a school district that is seeking to adopt a voluntary diversity plan. A school district implementing a voluntary diversity plan prior to July 1, 2008, shall have until July 1, 2009, to comply with guidelines adopted by the state board pursuant to this section.

c. The board of directors of a school district subject to voluntary diversity or court-ordered desegregation shall develop a policy for implementation of open enrollment in the district. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order or voluntary diversity plan and criteria for prioritizing requests that do not have an adverse impact on the order or plan.

4.a. After March 1 of the preceding school year and until the date specified in section 257.6, subsection 1, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that good cause, as defined in paragraph “b”, exists for
failure to meet the March 1 deadline. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline. The board of the receiving district shall take action to approve the request if good cause exists. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action. A denial of a request by the board of a receiving district is not subject to appeal.

b. For purposes of this section, "good cause" means a change in a child’s residence due to a change in family residence, a change in the state in which the family residence is located, a change in a child’s parents’ marital status, a guardianship or custody proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, a change in the status of a child’s resident district such as removal of accreditation by the state board, surrender of accreditation, or permanent closure of a nonpublic school, revocation of a charter school contract as provided in section 256F.8, the failure of negotiations for a whole grade sharing, reorganization, dissolution agreement or the rejection of a current whole grade sharing agreement, or reorganization plan. If the good cause relates to a change in status of a child’s school district of residence, however, action by a parent or guardian must be taken to file the notification within forty-five days of the last board action or within thirty days of the certification of the election, whichever is applicable to the circumstances.

c. If a resident district believes that a receiving district is violating this subsection, the resident district may, within fifteen days after board action by the receiving district, submit an appeal to the director of the department of education.

d. The director, or the director’s designee, shall attempt to mediate the dispute to reach approval by both boards as provided in subsection 15. If approval is not reached under mediation, the director or the director’s designee shall conduct a hearing and shall hear testimony from both boards. Within ten days following the hearing, the director shall render a decision upholding or reversing the decision by the board of the receiving district. Within five days of the director’s decision, the board may appeal the decision of the director to the state board of education under the procedures set forth in chapter 290.

5. Open enrollment applications filed after March 1 of the preceding school year that do not qualify for good cause as provided in subsection 4 shall be subject to the approval of the board of the resident district and the board of the receiving district. The parent or guardian shall send notification to the district of residence and the receiving district that the parent or guardian seeks to enroll the parent’s or guardian’s child in the receiving district. A decision of either board to deny an application filed under this subsection involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address is subject to appeal under section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

6. A request under this section is for a period of not less than one year. If the request is for more than one year and the parent or guardian desires to have the pupil enroll in a different district, the parent or guardian may petition the current receiving district by March 1 of the previous school year for permission to enroll the pupil in a different district for a period of not less than one year. Upon receipt of such a request, the current receiving district board may act on the request to transfer to the other school district at the next regularly scheduled board meeting after the receipt of the request. The new receiving district shall enroll the pupil in a school in the district unless there is insufficient classroom space in the district or unless enrollment of the pupil would adversely affect the court-ordered or voluntary desegregation plan of the district. A denial of a request to change district enrollment within the approved period is not subject to appeal. However, a pupil who has been in attendance in another district under this section may return to
the district of residence and enroll at any time, once the parent or guardian has notified the district of residence and the receiving district in writing of the decision to enroll the pupil in the district of residence.

7.a. A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil's district of residence. A pupil's residence, for purposes of this section, means a residence under section 282.1.

b. (1) The board of directors of the district of residence shall pay to the receiving district the sum of the state cost per pupil for the previous school year plus either the teacher leadership supplement state cost per pupil for the previous fiscal year as provided in section 257.9 or the teacher leadership supplement foundation aid for the previous fiscal year as provided in section 284.13, subsection 1, paragraph "d", if both the district of residence and the receiving district are receiving such supplements, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year. If the pupil participating in open enrollment is also an eligible pupil under section 261E.6, the receiving district shall pay the tuition reimbursement amount to an eligible postsecondary institution as provided in section 261E.7.

(2) If a pupil participates in cocurricular or extracurricular activities in accordance with subsection 12, the district of residence may deduct up to two hundred dollars per activity, for up to two activities, from the amount calculated in subparagraph (1). For a cocurricular activity, one semester shall equal one activity. Extracurricular activities for which such a resident district may charge up to two hundred dollars per activity for up to two activities under this subparagraph include interscholastic athletics, music, drama, and any other activity with a general fund expenditure exceeding five thousand dollars annually. A pupil may participate in additional extracurricular activities at the discretion of the resident district. The school district of residence may charge the pupil a fee for participation in such cocurricular or extracurricular activities equivalent to the fee charged to and paid in the same manner by other resident pupils.

8. If a request filed under this section is for a child requiring special education under chapter 256B, the request to transfer to the other district shall only be granted if the receiving district maintains a special education instructional program which is appropriate to meet the child's educational needs and the enrollment of the child in the receiving district's program would not cause the size of the class in that special education instructional program in the receiving district to exceed the maximum class size in rules adopted by the state board of education for that program. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

9.a. If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district's academic year, the child's first district of residence shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments during succeeding years.

b. If a request to transfer is due to a change in family residence, change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, and the child who is the subject of the request is enrolled in any grade from kindergarten through grade twelve at the time of the request and is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child's original district of residence under open enrollment with no interruption in the child's kindergarten through grade twelve educational program. If a parent or
guardian exercises this option, the child’s new district of residence is not required to pay the amount calculated in subsection 7 until the start of the first full year of enrollment of the child.

c. The receiving district shall bill the first resident district according to the timeline in section 282.20, subsection 3. Payments shall be made to the receiving district in a timely manner.

d. If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district’s area education agency. The receiving district shall forward a copy of the request to the receiving district’s area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district’s area education agency.

e. A district of residence may apply to the school budget review committee if a student was not included in the resident district’s enrollment count during the fall of the year preceding the student’s transfer under open enrollment.

10.a. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district. For purposes of this subsection, “a point on a regular school bus route of the receiving district” includes any school bus stop on the regular school bus route of the receiving district that existed prior to road construction that necessitates a change in the regular school bus route, whether or not the change in the regular school bus route resulting from the road construction necessitates sending school vehicles from the receiving district into the district of residence in order to safely, economically, or efficiently transport students to or from the preexisting point.

b. A receiving district may send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the boards of both the sending and receiving districts agree to this arrangement.

c. If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold, from the district cost per pupil amount that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

11.a. A pupil who participates in open enrollment for purposes of attending a grade in grades nine through twelve in a school district other than the district of residence is ineligible to participate in varsity interscholastic athletic contests and athletic competitions during the pupil’s first ninety school days of enrollment in the district. However, a pupil may participate immediately in a varsity interscholastic sport under any of the following circumstances:

(1) If the pupil is entering grade nine for the first time and did not participate in an interscholastic athletic competition for another school or school district during the summer immediately following eighth grade.

(2) If the district of residence and the other school district jointly participate in the sport.

(3) If the sport in which the pupil wishes to participate is not offered in the district of residence.
(4) If the pupil chooses to use open enrollment to attend school in another school district because the district in which the student previously attended school was dissolved and merged with one or more contiguous school districts under section 256.11, subsection 12.

(5) If the pupil participates in open enrollment because the pupil’s district of residence has entered into a whole grade sharing agreement with another district for the pupil’s grade.

(6) If the parent or guardian of the pupil participating in open enrollment is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services.

(7) If the district of residence determines that the pupil was previously subject to a founded incident of harassment or bullying as defined in section 280.28 while attending school in the district of residence.

b. A pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil’s district of residence for at least one school year is also eligible to participate immediately in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that pupil had attended.

c. For purposes of this subsection, “school days of enrollment” does not include enrollment in summer school. For purposes of this subsection, “varsity” means the same as defined in section 256.46.

12. A pupil participating in open enrollment for purposes of receiving educational instruction and course content primarily over the internet in accordance with section 256.7, subsection 32, may participate in any cocurricular or extracurricular activities offered to children in the pupil’s grade or group and sponsored by the district of residence under the same conditions and requirements as the pupils enrolled in the district of residence. The pupil may participate in not more than two cocurricular or extracurricular activities during a school year unless the resident district approves the student’s participation in additional activities. The student shall comply with the eligibility, conduct, and other requirements relating to the activity that are established by the district of residence for any student who applies to participate or who is participating in the activity.

13. If a pupil, for whom a request to transfer has been filed with a district, has been suspended or expelled in the district, the pupil shall not be permitted to transfer until the pupil has been reinstated in the sending district. Once the pupil has been reinstated, however, the pupil shall be permitted to transfer in the same manner as if the pupil had not been suspended or expelled by the sending district. If a pupil, for whom a request to transfer has been filed with a district, is expelled in the district, the pupil shall be permitted to transfer to a receiving district under this section if the pupil applies for and is reinstated in the sending district. However, if the pupil applies for reinstatement but is not reinstated in the sending district, the receiving district may deny the request to transfer. The decision of the receiving district is not subject to appeal.

14. If a request under this section is for transfer to a laboratory school, as described in chapter 265, the student, who is the subject of the request, shall not be included in the basic enrollment of the student’s district of residence, and the laboratory school shall report the enrollment of the student directly to the department of education, unless the number of students from the district attending the laboratory school during the current school year, as a result of open enrollment under this section, exceeds the number of students enrolled in the laboratory school from that district during the 1989-1990 school year. If the number of students enrolled in the laboratory school from a district during the current year exceeds the number of students enrolled from that district during the 1989-1990 school year, those students who represent the difference between the current and the 1988-1989 school year enrollment figures shall be included in the basic enrollment of the students’ districts of residence and the districts shall retain any moneys received as a result of the inclusion of the student in the district enrollment. The total number of students enrolled at a laboratory school during a school year shall not exceed six hundred seventy
students. The regents institution operating the laboratory school and the board of directors of the school district in the community in which the regents institution is located shall develop a student transfer policy designed to protect and promote the quality and integrity of the teacher education program at the laboratory school, the viability of the education program of the local school district in which the regents institution is located, and to indicate the order in which and reasons why requests to transfer to a laboratory school shall be considered. A laboratory school may deny a request for transfer under the policy. A denial of a request to transfer under this subsection is not subject to appeal under section 290.1.

15. An application for open enrollment may be granted at any time with approval of the resident and receiving districts.

16.a. If a request under this section is for transfer to the research and development school, as described in chapter 256G, the student who is the subject of the request shall be included in the basic enrollment of the student’s district of residence and the board of directors of the district of residence shall pay to the research and development school the state cost per pupil for the previous school year, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year.

b. Notwithstanding subsection 7, a district of residence shall not be required to pay the state cost per pupil for a student attending the research and development school during the school year beginning July 1, 2010, if the student was not included in the district of residence’s enrollment count for funding purposes in the school year beginning July 1, 2009.

17.a. The total enrollment of the research and development school shall be limited to six hundred fifty students.

b. Open enrollment requests accepted by the research and development school shall be limited to a five percent increase per year of students from each of the Cedar Falls community school district and the Waterloo school district over the previous year’s enrollment at the research and development school.

c. The total number of students enrolled in the research and development school from the Cedar Falls community school district shall be limited to not more than ten percent of the total district enrollment of the Cedar Falls community school district.

d. Open enrollment requests accepted by the research and development school from a school district shall be limited to not more than two percent of a school district’s previous year’s total enrollment count. This subsection does not apply to the Cedar Falls community and Waterloo school districts.

18. The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.

299.1. Attendance requirements.

1. Except as provided in section 299.2, the parent, guardian, or legal or actual custodian of a child who is of compulsory attendance age shall cause the child to attend some public school or an accredited nonpublic school, or place the child under competent private instruction or independent private instruction in accordance with the provisions of chapter 299A, during a school year, as defined under section 279.10.

2. The board of directors of a public school district or the governing body of an accredited nonpublic school shall set the number of days or hours of required attendance for the schools under its control. The board of directors of a public school district or the governing body of an accredited nonpublic school may, by resolution, require attendance for the entire time when the schools are in session in any school year and adopt a policy or rules relating to the reasons considered to be valid or acceptable excuses for absence from school.
Any child of compulsory attendance age who fails to attend school as provided in this chapter, or as required by the school board’s or school governing body’s attendance policy, or who fails to attend competent private instruction or independent private instruction under chapter 299A, without reasonable excuse for the absence, shall be deemed to be a truant. A finding that a child is truant, however, shall not by itself mean that the child is a child in need of assistance within the meaning of chapter 232 and shall not be the sole basis for a child in need of assistance petition.

The board of directors of a public school district or the authorities in charge of an accredited nonpublic school shall prescribe reasonable rules for the punishment of truants.

299.10. Truancy officers - appointment.
The board of each school district may appoint a truancy officer. The board of each school district, which does not appoint a truancy officer for the district, shall designate a suitable person to collect information on the numbers of children in the district who are truant.

The board may appoint a member of the police force, marshal, teacher, school official, or other suitable person to serve as the district truancy officer.

299.11. Duties of truancy officer.
The truancy officer may take into custody without warrant any apparently truant child and place the child in the charge of the school principal, or the principal’s designee, designated by the board of directors of the school district in which the child resides, or of any nonpublic school designated by the parent, guardian, or legal or actual custodian; but if it is other than a public school, the instruction and maintenance of the child shall be without expense to the school district. If a child is taken into custody under this section, the truancy officer shall make every reasonable attempt to immediately notify the parent, guardian, or legal or actual custodian of the child’s location.

299.12. Violation of attendance policy - attendance cooperation meeting - agreement.
1. For the purposes of this section, “school truancy officer” means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.

2. This section is not applicable to a child who is receiving competent private instruction or independent private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance with the attendance requirements established under section 299.1, and has not completed educational requirements through the sixth grade, and the school has used every means available to assure the child does attend, the school truancy officer shall contact the child’s parent, guardian, or legal or actual custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation meeting may include the child and shall include the child’s parent, guardian, or legal or actual custodian and the school truancy officer. The school truancy officer contacting the participants in the attendance cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney or the county attorney’s designee, or other persons deemed appropriate to participate in the attendance cooperation meeting.

3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to attempt to ascertain the cause of the child’s nonattendance, to cause the parties to arrive at an agreement relative to addressing the child’s attendance, and to initiate referrals to any services or counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall be reduced to writing in an attendance cooperation agreement and signed by the parties to the
agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth
the cause identified for the child’s nonattendance and future responsibilities of each party.

4. If the parties to an attendance cooperation meeting determine that a monitor would improve
compliance with the attendance cooperation agreement, the parties may designate a person to monitor
the agreement. The monitor shall be a designee of the public school board or governing body of the
accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to
the agreement and receives a written authorization for access to confidential information and for
performing monitor activities from the child’s parent, guardian, or custodian. A monitor shall contact
parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor
performance of the agreement.

5. If the parties fail to enter into an attendance cooperation agreement, or the child’s parent, guardian, or
custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate
in an attendance cooperation meeting, the child shall be deemed to be truant.

6. A public school board or governing body of an accredited nonpublic school shall exercise the authority
granted under this section as a means of increasing and ensuring school attendance of young children,
as education is a critical element in the success of individuals and good attendance habits should be
developed and reinforced at an early age.

299.15. Reports by school officers and employees.
All school officers and employees shall promptly report to the secretary of the school corporation any
violations of the truancy law of which they have knowledge, and the secretary shall inform the president of
the board of directors who shall, if necessary, call a meeting of the board to take such action thereon as
the facts justify.

REGULATIONS

281-17.1(282). Intent and purpose.
It is the intent of Iowa Code section 282.18 to maximize parental choice in providing a wide range of
educational opportunities which are not available for pupils because of where they live. It is the purpose
of this chapter to give guidance and direction to parents/guardians, public school district administrators
and boards in making quality decisions regarding school district choice for the education of pupils.

281-17.2(282). Definitions
For the purpose of this chapter the indicated terms are defined as follows:

“Alternative receiving district” means a district to which a parent/guardian petitions for the open
enrollment of a pupil from a receiving district. An alternative receiving district could be the district of
residence of the parents/guardians.

“Attendance center” means a public school building that contains classrooms used for instructional
purposes for elementary, middle, or secondary school students.

“Court-ordered desegregation plan” means a plan that is under direct court order to avoid racial
isolation in the district.

“Department” means the department of education.

“Director” means the director of the department of education or the director’s designee.

“Diversity plan” or “voluntary diversity plan” means a plan that is voluntarily adopted by a local school
board to promote diversity and to avoid minority student isolation in the district.

“Eligible district” means a school district whose board had adopted a voluntary desegregation plan
under this chapter prior to June 28, 2007.
“Minority student” shall be defined by a local school board in its diversity plan, and may include consideration of any one characteristic or a combination of any of the following characteristics except that race may not be either the sole or the determinative characteristic: socioeconomic status, ethnicity/national origin, English language learner status, or race.

“Open enrollment” is the procedure allowing a parent/guardian to enroll one or more pupils in a public school district other than the district of residence at no tuition cost.

“Receiving district” is the public school district in which a parent/guardian desires to have the pupil enrolled or the district accepting the application for enrollment of a pupil under the provisions of Iowa Code section 282.18.

“Resident district” is the district of residence for school purposes of the parent/guardian and the district in which an open enrollment pupil shall be counted for the purpose of generating state aid regardless of the district in which the pupil is enrolled.

“Sending district” is synonymous with the term resident district.

“Sibling” means a child residing primarily in the same household as the child for whom an open enrollment request is filed and who is related by adoption, blood or marriage to the child for whom an open enrollment request is filed. “Sibling” also includes a foster child who is placed in the same household as the child for whom an open enrollment request is filed.

“Socioeconomic status” means the income level of a student or the student’s family, and shall be measured by whether a student or the student’s family meets the financial eligibility criteria for free meals or reduced price meals offered under the Child Nutrition Program.

281-17.3(282). Application process.

The following procedure shall be used by parents/guardians and school districts in processing open enrollment applications.

(1) Parent/guardian responsibilities. On or before March 1 of the school year preceding the school year for which open enrollment is requested, a parent/guardian shall formally notify both the district of residence and the receiving district of the request for open enrollment. The request for open enrollment shall be made on forms provided by the department of education. Failure by the parent to send the form to the resident district and receiving district by the deadline may cause the application to be considered untimely. The parent/guardian is required to indicate on the form if the request is for a pupil requiring special education, as provided by Iowa Code chapter 256B. The forms for open enrollment application are available from each public school district and area education agency and from the state department of education.

(2) School district responsibilities.

a. The board of the resident district shall take no action on an open enrollment request except for a request made under rule 281-17.5(282) or 281-17.14(282).

b. The board of the receiving district shall act on an open enrollment request no later than June 1 of the school year preceding the school year for which the request is made.

(1) The receiving district superintendent shall provide notification of either approval or denial of the request to the parent/guardian and to the resident district within five days of board action.

(2) As an alternative procedure, the receiving board may by policy authorize the superintendent to approve, but not deny, applications filed on or before March 1. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline, but the board of the receiving district shall take action to approve the request if good cause exists. The board shall have the discretion to determine the scope of the authorization. The authorization may be for regular
applications filed on or before March 1, good cause applications, and kindergarten applications filed on or before September 1, or any combination that the board determines. The same timelines for approval, forwarding, and notification shall apply.

c. The parent/guardian may withdraw an open enrollment request anytime prior to the first day of school in the resident district. After the first day of school, an open enrollment request can only be changed during the term of the approval by the procedures of subrules 17.8(4), 17.8(5), 17.8(6), and 17.8(7).

d. The board of the receiving district shall comply with the provisions of rule 281-17.11(282) if the application for open enrollment is for a pupil requiring special education as provided by Iowa Code chapter 256B.

e. Notification to parents.

(1) By September 30 of each school year, all districts shall notify parents of the following:

1. Open enrollment deadlines;
2. Transportation assistance;
3. That within 30 days of a denial of an open enrollment request by a district board of education, the parent/guardian may file an appeal with the state board of education only if the open enrollment request was based on repeated acts of harassment or a serious health condition of the pupil that the district cannot adequately address; and that all other denials must be appealed to the district court in the county in which the primary business office of the district is located; and
4. Possible loss of athletic eligibility for open enrollment pupils.

(2) This notification may be published in a school newsletter, a newspaper of general circulation, a Web site, or a parent handbook provided to all patrons of the district. This information shall also be provided to any parent/guardian of a pupil who enrolls in the district during the school year.

(3) Exception to process when resident district is under voluntary or court-ordered desegregation. If the resident district has a voluntary or court-ordered desegregation plan requiring the district to maintain minority and nonminority student ratios, the request for open enrollment shall be filed solely with the district of residence on or before March 1 of the school year preceding the school year for which open enrollment is requested. The superintendent of the resident district may deny a request under this subrule unless the request is made on behalf of a student whose sibling already actively participates in open enrollment to the same receiving district to which open enrollment is sought for this student. A denial by the superintendent may be appealed to the board of the district in which the request was denied. A decision of the local board to uphold the denial may only be appealed to the district court in the county in which is located the primary business office of the district that upheld the denial of the open enrollment request.

281-17.5(282). Filing after the March 1 deadline-harassment or serious health condition.

A parent/guardian may apply for open enrollment after the filing deadline of March 1 of the school year preceding the school year for which open enrollment is requested if the parent’s/guardian’s child is the victim of repeated acts of harassment or if the child has a serious health condition that the resident district cannot adequately address. If either of these conditions exists, the parent/guardian shall be permitted to apply for open enrollment by sending notification to both the resident and receiving districts.

(1) The board of the resident district shall act on the request within 30 days of its receipt. If the request is denied, the parent/guardian shall be notified by the district superintendent within 3 days following board action. If the request is approved, the district superintendent shall forward the approved application form to the receiving district within 5 days following board action and shall notify the parent/guardian within 3 days of this action. The board of the receiving district shall act to approve or
deny an open enrollment request within 30 days following receipt of the notice of approval from the resident district. The receiving district superintendent shall provide notification of either approval or denial of the request to the parent/guardian and to the resident district within 15 days of board action.

(2) A denial by either board of a request made under this rule involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address may be appealed by a parent/guardian to the state board of education pursuant to Iowa Code section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

281-17.8(282). Requirements applicable to parents/guardians and students.

(1) Expelled or suspended students. A pupil who has been suspended or expelled by action of the administration or board of the resident district shall not be permitted to enroll if an open enrollment request is filed until the pupil is reinstated for school attendance in the resident district. Once reinstated, the application for open enrollment shall be considered in the same manner as any other open enrollment request. If a pupil for whom an open enrollment request has been filed is subsequently expelled by action of the resident district board, the pupil may be denied enrollment by the receiving district board until the pupil is reinstated for school attendance by the resident district. The provisions of this subrule shall also apply to a pupil who has been suspended or expelled in a receiving district and is requesting open enrollment to an alternative receiving district or is seeking to return to the resident district as outlined in subrule 17.8(4).

(2) Restrictions on participation in interscholastic athletic contests and competitions. A pupil who changes school districts under open enrollment in any of the grades 9 through 12 shall not be eligible to participate in varsity interscholastic athletic contests and competitions during the first 90 school days of enrollment. This restriction also shall apply to enrollments resulting from an approved petition filed by a parent/guardian to open enroll to an alternative receiving district and when the pupil returns to the district of residence using the process outlined in subrule 17.8(4). This 90-school-day restriction does not prohibit the pupil from practicing with an athletic team during the 90 school days of ineligibility. This 90-school-day restriction is not applicable to a pupil who:

a. Participates in an athletic activity in the receiving district that is not available in the district of residence.

b. Participates in an athletic activity for which the resident district and the receiving district have a “cooperative student participation agreement” in place as provided by rule 281-36.20(280).

c. Has paid tuition for one or more years to the receiving school district prior to making application and being approved for open enrollment.

d. Has attended the receiving district for one or more years, prior to making application and being approved for open enrollment, under a sharing or mutual agreement between the resident district and the receiving district.

e. Has been participating in open enrollment and whose parents/guardians move out of their district of residence but exercise the option of maintaining the open enrollment agreement as provided in subrule 17.8(6) except that the period of 90 school days of ineligibility shall apply to a pupil who open enrolls to another school district. If the pupil has established athletic eligibility under open enrollment, it is continued despite the parent’s or guardian’s change in residence.

f. Obtains open enrollment as provided in subrule 17.8(7) except that the period of 90 school days of ineligibility shall apply to a pupil who open enrolls to another school district.

g. Obtains open enrollment due to the dissolution and merger of the former district of residence under Iowa Code subsection 256.11(12).
h. Obtains open enrollment due to the pupil’s district of residence entering into a whole-grade sharing agreement on or after July 1, 1990, including the grade in which the pupil would be enrolled at the start of the whole-grade sharing agreement.

i. Participates in open enrollment and the parent/guardian is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services.

j. Open enrolls from a district of residence that has determined that the pupil was previously subject to a founded incident of harassment or bullying as defined in Iowa Code section 280.28 while attending school in the district of residence.

(4) Petition for attendance in an alternative receiving district. Once the pupil of a parent/guardian has been accepted for open enrollment, attendance in an alternative receiving district under open enrollment can be initiated by filing a petition for change with the receiving district. The petition shall be filed by the parent/guardian with the receiving district on or before March 1 of the year preceding the school year for which the change is requested. The timelines and notification requirements for such a request shall be the same as outlined in subrule 17.3(2). If the request is approved, the alternative district shall send notice of this action to the parent/guardian, to the original receiving district, and to the resident district of the pupil. Petitions for change shall be effectuated at the start of the next school year. As an alternative procedure, the receiving and alternative receiving district boards by mutual agreement may effectuate the change in enrollment of an open enrollment pupil at any time following receipt of a written request for such change which is approved by the two boards. The parent/guardian and the resident district board shall be notified of the approval and the date for change in open enrollment within 15 days of the mutual agreement action of the receiving and alternative receiving boards. A pupil in good standing may return to the district of residence at any time following written notice from the parent/guardian to both the resident district and the receiving district.

(5) Renewal of an open enrollment agreement. An open enrollment agreement shall remain in place unless canceled by the parent/guardian or terminated as outlined in the provisions of subrule 17.8(10).

(6) Change in residence when participating in open enrollment. If the parent/guardian of a pupil who is participating in open enrollment changes the school district of residence during the term of the agreement, the parent/guardian shall have the option to leave the pupil in the receiving district under open enrollment, to open enroll to another school district, or to enroll the pupil in the new district of residence, thus terminating the open enrollment agreement. If the choice is to leave the pupil under open enrollment or to open enroll to another school district, the original district of residence shall be responsible for payment of the cost per pupil plus any applicable weightings or special education costs for the balance of the school year, if any, in which the move took place, providing the move took place on or after the date specified in Iowa Code section 257.6, subsection 1. The new district of residence shall be responsible for these payments during succeeding years of the agreement. If the move takes place between the end of one school year and the date specified in Iowa Code section 257.6, subsection 1, of the following school year, the new district of residence shall be responsible for that year’s payment as well as succeeding years. If the pupil is to remain under open enrollment or to open enroll to another school district, the parent/guardian shall write a letter, delivered by mail or by hand on or before the date specified in Iowa Code section 257.6, subsection 1, to notify the original resident district, the new resident district, and the receiving district of this decision. Timely requests under this rule shall not be denied. If the request is for a high school pupil, the pupil shall not be subject to the initial 90-school-day ineligibility period of subrule 17.8(2).

(7) Change in residence when not participating in open enrollment. If a parent/guardian moves out of the school district of residence, and the pupil is not currently under open enrollment, the parent/guardian has the option for the pupil to remain in the original district of residence as an open enrollment pupil with no
interruption in the education program or to open enroll to another school district. This option is not available to the parent/guardian of a student who is entering kindergarten for the first time. The parent/guardian exercising this option shall file an open enrollment request form with the new district of residence for processing and record purposes. This request shall be made on or before the date specified in Iowa Code section 257.6, subsection 1. Timely requests under this subrule shall not be denied. If the request is for a high school pupil, the pupil shall not be subject to the initial 90-school-day ineligibility period of subrule 17.8(2). If the move is on or after the date specified in Iowa Code section 257.6, subsection 1, the new district of residence is not required to pay per-pupil costs or applicable weighting or special education costs to the receiving district until the first full year of the open enrollment.

(8) Pupil governance. An open enrollment pupil, and where applicable the pupil’s parent/guardian, shall be governed by the rules and policies established by the board of directors of the receiving district. Any complaint or appeal by the parent/guardian concerning the educational system, its process, or administration in the receiving district shall be initially directed to the board of directors of that district in compliance with the policy of that district.

(9) Appeal procedure. A parent/guardian may appeal the decision of the board of directors of a school district (resident or receiving) only on an application for open enrollment under Iowa Code section 282.18(5) as amended by 2002 Iowa Acts, House File 2515. This appeal is to the state board of education and shall comply with the provisions of Iowa Code section 290.1. The appeal shall be filed within 30 days of the decision of the district board and shall be in the form of an affidavit signed by the parent/guardian. It shall state in a plain and concise manner what the parent/guardian feels to be the basis for appeal.

(10) Open enrollment termination. Open enrollment ends when:

a. The pupil graduates, moves into the receiving district, moves into a third district and does not elect to continue attending in the receiving district, moves out of state, elects to attend a nonpublic school instead of the receiving district, or any other circumstance not excepted below that results in the pupil no longer attending the receiving district.

Exceptions: This rule shall not apply if the pupil is placed temporarily in foster care, a juvenile detention center, mental health or substance abuse treatment facility, or other similar placement. In such cases, the open enrollment status will automatically be reinstated when the pupil returns.

b. The pupil drops out of school. In this instance, if the pupil desires to return to the resident district during the term of the original open enrollment, notice must be given as outlined in the provisions of subrule 17.8(4).

**279.9A. Student transfers - Information sharing.**

The rules referred to in section 279.9 shall provide that upon the request of school officials of a school to which the student seeks to transfer or has transferred, school officials of the sending school shall provide an accurate record of any suspension or expulsion actions taken, and the basis for those actions taken, against the student under sections 279.9, 280.19A, 282.3, 282.4, and 282.5. The designated representative shall disclose this information only to those school employees whose duties require them to be involved with the student. For purposes of this section, “school employees” means persons employed by a nonpublic school or school district, or any area education agency staff member who provides services to a school or school district.

**280.25. Information sharing - interagency agreements.**

1. The board of directors of each public school and the authorities in charge of each accredited nonpublic school shall adopt a policy and the superintendent of each public school shall adopt rules which provide that the school district or school may share information contained within a student’s permanent record pursuant to an interagency agreement with state and local agencies that are part of the juvenile justice system. These agencies include, but are not limited to, juvenile court services, the department of human services, and local law enforcement authorities. The disclosure of information shall be directly related to the juvenile justice system’s ability to effectively serve, prior to adjudication, the student whose records are being released.

2. The purpose of the agreement shall be to reduce juvenile crime by promoting cooperation and collaboration and the sharing of appropriate information among the parties in a joint effort to improve school safety, reduce alcohol and illegal drug use, reduce truancy, reduce in-school and out-of-school suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions which provide structured and well-supervised educational programs supplemented by coordinated and appropriate services designed to correct behaviors that lead to truancy, suspension, and expulsions and to support students in successfully completing their education.

299.10. Truancy officers - appointment.
The board of each school district may appoint a truancy officer. The board of each school district, which does not appoint a truancy officer for the district, shall designate a suitable person to collect information on the numbers of children in the district who are truant.
The board may appoint a member of the police force, marshal, teacher, school official, or other suitable person to serve as the district truancy officer.

299.12. Violation of attendance policy - attendance cooperation meeting - agreement.
1. For the purposes of this section, “school truancy officer” means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.
2. This section is not applicable to a child who is receiving competent private instruction or independent private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance with the attendance requirements established under section 299.1, and has not completed educational
requirements through the sixth grade, and the school has used every means available to assure the child
does attend, the school truancy officer shall contact the child’s parent, guardian, or legal or actual
custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation
meeting may include the child and shall include the child’s parent, guardian, or legal or actual custodian
and the school truancy officer. The school truancy officer contacting the participants in the attendance
cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney
or the county attorney’s designee, or other persons deemed appropriate to participate in the attendance
cooperation meeting.

3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to
attempt to ascertain the cause of the child’s nonattendance, to cause the parties to arrive at an
agreement relative to addressing the child’s attendance, and to initiate referrals to any services or
counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall
be reduced to writing in an attendance cooperation agreement and signed by the parties to the
agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth
the cause identified for the child’s nonattendance and future responsibilities of each party.

4. If the parties to an attendance cooperation meeting determine that a monitor would improve
compliance with the attendance cooperation agreement, the parties may designate a person to monitor
the agreement. The monitor shall be a designee of the public school board or governing body of the
accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to
the agreement and receives a written authorization for access to confidential information and for
performing monitor activities from the child’s parent, guardian, or custodian. A monitor shall contact
parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor
performance of the agreement.

5. If the parties fail to enter into an attendance cooperation agreement, or the child’s parent, guardian, or
custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate
in an attendance cooperation meeting, the child shall be deemed to be truant.

6. A public school board or governing body of an accredited nonpublic school shall exercise the authority
granted under this section as a means of increasing and ensuring school attendance of young children,
as education is a critical element in the success of individuals and good attendance habits should be
developed and reinforced at an early age.

LAWS

281-2.5(17A). Public participation.

(1) Written comments. For at least 20 days after publication of the Notice of Intended Action, persons may submit argument, data, and views, in writing, on the proposed rule. Such written submissions should identify the proposed rule to which they relate and should be submitted to Department of Education, Legal Consultant’s Office, Grimes State Office Building, Des Moines, Iowa 50319-0146, or the person designated in the Notice of Intended Action.

(2) Oral proceedings. The agency may, at any time, schedule an oral proceeding on a proposed rule. The agency shall schedule an oral proceeding on a proposed rule if, within 20 days after the published Notice of Intended Action, a written request for an opportunity to make oral presentations is submitted to the agency by the administrative rules review committee, a governmental subdivision, an agency, an association having not less than 25 members, or at least 25 persons. That request must also contain the following additional information:

A request by one or more individual persons must be signed by each of them and include the address and telephone number of each of them.

A request by an association must be signed by an officer or designee of the association and must contain a statement that the association has at least 25 members and the address and telephone number of the person signing that request.

A request by an agency or governmental subdivision must be signed by an official having authority to act on behalf of the entity and must contain the address and telephone number of the person signing that request.

(3) Conduct of oral proceedings.

a. Applicability. This subrule applies only to those oral rule-making proceedings in which an opportunity to make oral presentations is authorized or required by Iowa Code section 17A.4(1)“b” as amended by 1998 Iowa Acts, chapter 1202, section 8, or this chapter.

b. Scheduling and notice. An oral proceeding on a proposed rule may be held in one or more locations and shall not be held earlier than 20 days after notice of its location and time is published in the Iowa Administrative Bulletin. That notice shall also identify the proposed rule by ARC number and citation to the Iowa Administrative Bulletin.

c. Presiding officer. The agency, a member of the agency, or another person designated by the agency who will be familiar with the substance of the proposed rule, shall preside at the oral proceeding on a proposed rule. If the agency does not preside, the presiding officer shall prepare a memorandum for consideration by the agency summarizing the contents of the presentations made at the oral proceeding unless the agency determines that such a memorandum is unnecessary because the agency will personally listen to or read the entire transcript of the oral proceeding.

d. Conduct of proceeding. At an oral proceeding on a proposed rule, persons may make oral statements and make documentary and physical submissions, which may include data, views, comments or arguments concerning the proposed rule. Persons wishing to make oral presentations at such a proceeding are encouraged to notify the agency at least one business day prior to the proceeding and indicate the general subject of their presentations. At the proceeding, those who participate shall indicate their names and addresses, identify any persons or organizations they may represent, and provide any other information relating to their participation deemed appropriate by the
presiding officer. Oral proceedings shall be open to the public and shall be recorded by stenographic or electronic means.

(1) At the beginning of the oral proceeding, the presiding officer shall give a brief synopsis of the proposed rule, a statement of the statutory authority for the proposed rule, and the reasons for the agency decision to propose the rule. The presiding officer may place time limitations on individual oral presentations when necessary to ensure the orderly and expeditious conduct of the oral proceeding. To encourage joint oral presentations and to avoid repetition, additional time may be provided for persons whose presentations represent the views of other individuals as well as their own views.

(2) Persons making oral presentations are encouraged to avoid restating matters which have already been submitted in writing.

(3) To facilitate the exchange of information, the presiding officer may, where time permits, open the floor to questions or general discussion.

(4) The presiding officer shall have the authority to take any reasonable action necessary for the orderly conduct of the meeting.

(5) Physical and documentary submissions presented by participants in the oral proceeding shall be submitted to the presiding officer. Such submissions become the property of the agency.

(6) The oral proceeding may be continued by the presiding officer to a later time without notice other than by announcement at the hearing.

(7) Participants in an oral proceeding shall not be required to take an oath or to submit to cross-examination. However, the presiding officer in an oral proceeding may question participants and permit the questioning of participants by other participants about any matter relating to that rule-making proceeding, including any prior written submissions made by those participants in that proceeding; but no participant shall be required to answer any question.

(8) The presiding officer in an oral proceeding may permit rebuttal statements and request the filing of written statements subsequent to the adjournment of the oral presentations.

(4) Additional information. In addition to receiving written comments and oral presentations on a proposed rule according to the provisions of this rule, the agency may obtain information concerning a proposed rule through any other lawful means deemed appropriate under the circumstances.

(5) Accessibility. The agency shall schedule oral proceedings in rooms accessible to and functional for persons with physical disabilities. Persons who have special requirements should contact the Legal Consultant's Office, Department of Education, Grimes State Office Building, Des Moines, Iowa 50319-0146, or telephone (515)281-5295 in advance to arrange access or other needed services.

Kansas
Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of the document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

Limitations, conditions or exclusions for use of suspension or expulsion

LAWS

72-3433. Change in placement of child with disability to alternative setting as disciplinary action for certain behavior; duties of IEP team and hearing officer; behavioral assessment and intervention plan; determination and review procedure.

(a) School personnel may order a change in the placement of a child with a disability:

(1) To an appropriate interim alternative educational setting or other setting, or the short-term suspension of the child;

(2) To an appropriate interim alternative educational setting for not more than 45 school days if: (A) The child carries or possesses a weapon to, or at, school, on school premises, or to, or at, a school function under the jurisdiction of an agency; (B) the child knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of an agency; or (C) the child has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an agency; or

(3) To an appropriate interim alternative educational placement for not more than 186 school days, if it is determined that the conduct of the child violated the code of student conduct and was not a manifestation of the child's disability, if the relevant disciplinary procedures applicable to children without disabilities are applied in the same manner and the discipline is for the same duration as would be applied to a child without disabilities, except that services must continue to be provided to the child during the period of disciplinary action.

(b) Any child with a disability whose placement is changed under subsection (a)(2) or (a)(3) shall:

(1) Continue to receive educational services so as to enable the child to continue to participate in the general education curriculum, although in another setting and to progress toward meeting the goals set out in the child's IEP; and

(2) Receive, as appropriate, a functional behavioral assessment, behavioral intervention services, and modifications that are designed to address the inappropriate behavior so that it does not recur.

(c) The alternative educational setting described in subsections (a)(2) and (a)(3) shall be determined by the IEP team.

(d) If a disciplinary action is contemplated as described in subsection (a)(2) or (a)(3):

(1) Not later than the date on which the decision to take that action is made, the agency shall notify the parents of that decision and of all procedural safeguards afforded under K.S.A. 2012 Supp. 72-992a, and amendments thereto; and

(2) Within 10 school days of the date on which the decision to take disciplinary action is made, a review shall be conducted to determine the relationship between the child's disability and the conduct that is subject to disciplinary action.

(e)(1) The review described in subsection (d)(2) shall be conducted by the agency, the parent, and relevant members of the child's IEP team as determined by the parent and the agency. In carrying out the review, that group shall review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parent.

(2) Based upon its review of all the relevant information, the group shall determine if the conduct in question:
(A) Was caused by, or had a direct and substantial relationship to, the child's disability; or
(B) Was the direct result of the agency's failure to implement the child's IEP.

(3) If it is determined that the conduct of the student is described in either paragraph (2)(A) or (2)(B) of this subsection, then the conduct shall be determined to be a manifestation of the child's disability.

(f) If it is determined that the conduct of a child was a manifestation of the child's disability, the IEP team shall:

(1) Conduct a functional behavioral assessment, and implement a behavioral intervention plan for such child, provided that the agency has not conducted such an assessment prior to the behavior that resulted in a change in placement;
(2) If the child already had a behavioral intervention plan, review and modify it, as necessary, to address the behavior; and
(3) Except as provided in paragraph (a)(2), return the child to the placement from which the child was removed, unless the parent and the agency agree to a change of placement as part of the modification of the behavioral intervention plan.

(g) For the purposes of this section, the following definitions apply:

(1) "Controlled substance" means a drug or other substance identified under schedules I, II, III, IV, or V in 21 U.S.C. § 812(c);
(2) "Illegal drug" means a controlled substance but does not include such a substance that is legally possessed or used under the supervision of a licensed healthcare professional or that is legally possessed or used under any other authority under any federal or state law;
(3) "Weapon" means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 21/2 inches in length; and
(4) "Serious bodily injury" means an injury as described in subsection (h)(3) of section 1365 of title 18 of the United States Code.

72-3434. Same; parental disagreement with determination; due process hearing and review.
(a) The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination under K.S.A. 2017 Supp. 72-3433, and amendments thereto, or an agency that believes that maintaining the current placement of a child is substantially likely to result in injury to the child or to others, may request a hearing.
(b) A hearing officer appointed under this act shall hear, and make the determination regarding, an appeal requested under subsection (a).
(c) In making the determination under subsection (b), the hearing officer may order a change in placement of the child. In such situations, the hearing officer may:
(1) Uphold the manifestation determination;
(2) Uphold the interim alternative educational placement of the child;
(3) Return the child to the placement from which the child was removed; or
(4) Order a change in placement of the child to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

72-3435. Same; placement of child during pendency of due process proceedings.
(a) If a parent or agency requests a hearing under K.S.A. 2017 Supp. 72-3434, and amendments thereto, the child shall remain in the interim alternative educational setting pending the decision of the hearing
officer or until the expiration of the forty-five-school-day period described in subsection (a)(2) of K.S.A. 2017 Supp. 72-3433, and amendments thereto, whichever occurs first, unless the parent and the agency agree otherwise.

(b) The agency shall arrange for an expedited hearing, which shall occur within 20 school days of the date the hearing is requested and shall result in a determination within 10 school days after the hearing. To expedite the hearing, the agency, within three school days of receiving the request for a hearing, shall request the state board to appoint a hearing officer to conduct the hearing.

72-3436. School district knowledge that child is child with disability prior to determination, when deemed; subjection of child to disciplinary action, when; evaluation and placement of child.

(a) A child who has not been determined to be eligible for special education and related services under this act and who has engaged in behavior that violated any rule or code of conduct of the school district may assert any of the protections provided for in this act if the school district had knowledge, as determined in accordance with this section, that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

(b) A school district shall be deemed to have knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred:

1. The parent of the child has expressed concern, in writing, to supervisory or administrative personnel of the appropriate educational agency or to a teacher of the child, that the child is in need of special education and related services
2. The parent of the child previously has requested an evaluation of the child; or
3. The teacher of the child, or other personnel of the school district, previously has expressed specific concerns about a pattern of behavior demonstrated by the child directly to the director of special education of such school district or to other supervisory personnel of the district.

(c) A school district shall not be deemed to have knowledge that a child is a child with a disability if the parent of the child has not allowed an evaluation of the child or has refused services under this law, or the child has been evaluated but it was determined that the child was not a child with a disability.

(d) (1) Subject to provision (2) of this subsection, if a school district does not have knowledge that a child is a child with a disability prior to taking disciplinary action against the child, the child may be subjected to the same disciplinary action as is applied to children without disabilities who engage in comparable behaviors.

2. If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary action described by this act, an evaluation shall be conducted in an expedited manner. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the school district and information provided by the parents, the school district shall provide special education and related services in accordance with the provisions of this act, except that, pending the results of the evaluation, the child shall remain in the educational placement determined by school authorities, which may be long-term suspension or expulsion from school.

72-3437. Crimes committed by child with disability, reports to law enforcement and judicial authorities; transmittal of special education and disciplinary records.

(a) Nothing in this act shall be construed to prohibit an agency from reporting a crime committed by a child with a disability to appropriate authorities or to prevent state or local law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal, state, or local law to crimes committed by a child with a disability.
(b) An agency reporting a crime committed by a child with a disability shall ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom it reports the crime.

72-6115. Duration of suspension or expulsion; notice; hearings, opportunity afforded, waiver, time, who may conduct.

(a) A suspension may be for a short term not exceeding 10 school days, or for an extended term not exceeding 90 school days. An expulsion may be for a term not exceeding 186 school days. If a suspension or expulsion is for a term exceeding the number of school days remaining in the school year, any remaining part of the term of the suspension or expulsion may be applied to the succeeding school year.

72-6132. Policies requiring expulsion of pupils for possession of weapons, adoption, filing; hearings; modification of requirement authorized; referral procedure; annual report; circumstances when policy not applicable.

(h) The provisions of this section do not apply to the possession by pupils of weapons at school, on school property, or at a school supervised activity if the possession of weapons by pupils is connected with a weapons safety course of instruction or a weapons education course approved and authorized by the school or if the possession of weapons by pupils is specifically authorized in writing by the chief administrative officer of the school.

REGULATIONS

91-40-34. Short-term suspensions and interim placements; suspension of gifted children.

(a) As authorized by K.S.A. 72-6115(a) and amendments thereto, school personnel may impose one or more short-term suspensions upon a child with a disability during a school year for violations of any school rule if these short-term suspensions do not constitute a pattern amounting to a change in placement for disciplinary reasons as specified in paragraph (a)(1)(B) of K.A.R. 91-40-33. (b) As authorized in K.S.A. 72-3433 and amendments thereto, school personnel may order a change in placement of a child with a disability to an interim alternative educational setting. (c) Gifted children shall be subject to suspension or expulsion from school as authorized by K.S.A. 72-6115 and amendments thereto. While a gifted child is suspended or expelled from school, an agency shall not be required to provide special education or related services to the child.

Administrative procedures related to suspension and expulsion

LAWS

72-6115. Duration of suspension or expulsion; notice; hearings, opportunity afforded, waiver, time, who may conduct.

(a) A suspension may be for a short term not exceeding 10 school days, or for an extended term not exceeding 90 school days. An expulsion may be for a term not exceeding 186 school days. If a suspension or expulsion is for a term exceeding the number of school days remaining in the school year, any remaining part of the term of the suspension or expulsion may be applied to the succeeding school year.

(b)(1) Except as authorized in provision (2), no suspension for a short term shall be imposed upon a pupil without giving the pupil notice of the charges and affording the pupil an opportunity for a hearing thereon. The notice may be oral or written and the hearing may be held immediately after the notice is given. The
hearing may be conducted informally but shall include the following procedural due process requirements:
(A) The right of the pupil to be present at the hearing; (B) the right of the pupil to be informed of the charges; (C) the right of the pupil to be informed of the basis for the accusation; and (D) the right of the pupil to make statements in defense or mitigation of the charges or accusations. Refusal of a pupil to be present at the hearing will constitute a waiver of the pupil's opportunity for a hearing.

(2) A short-term suspension may be imposed upon a pupil forthwith, and without affording the pupil a hearing if the presence of the pupil endangers other persons or property or substantially disrupts, impedes or interferes with the operation of the school.

c) A written notice of any short-term suspension and the reason therefor shall be given to the pupil involved and to the pupil's parent or guardian within 24 hours after the suspension has been imposed and, in the event the pupil has not been afforded a hearing prior to any short-term suspension, an opportunity for an informal hearing shall be afforded the pupil as soon thereafter as practicable but in no event later than 72 hours after such short-term suspension has been imposed. Any notice of the imposition of a short-term suspension that provides an opportunity for an informal hearing after such suspension has been imposed shall state that failure of the pupil to attend the hearing will result in a waiver of the pupil's opportunity for the hearing.

d) No suspension for an extended term and no expulsion shall be imposed upon a pupil until an opportunity for a formal hearing thereon is afforded the pupil. A written notice of any proposal to suspend for an extended term or to expel from school, and the charges upon which the proposal is based shall be given to the pupil proposed to be suspended or expelled from school, and to the pupil's parent or guardian. Any notice of a proposal to suspend for an extended term or to expel from school shall state the time, date and place that the pupil will be afforded an opportunity for a formal hearing, and that failure of the pupil and the pupil's parent or guardian to attend the hearing will result in a waiver of the pupil's opportunity for the hearing. The hearing shall be held not later than 10 days after the date of the notice. The notice shall be accompanied by a copy of this act and the regulations of the board of education adopted under K.S.A. 72-6116, and amendments thereto.

e) Whenever any written notice is required under this act to be given to a pupil or to a pupil's parent or guardian, it shall be sufficient if the notice is mailed to the address on file in the school records of the pupil. In lieu of mailing the written notice, the notice may be personally delivered.

(f) A formal hearing on a suspension or expulsion may be conducted by any person or committee of persons authorized by the board of education to conduct the hearing.

72-6116. Procedural due process requirements; record of appeal, costs; report of findings and result of hearing; information regarding behavior improvement programs.
(a) The formal hearing provided for in K.S.A. 72-6115, and amendments thereto, shall be conducted in accordance with regulations relating thereto adopted by the board of education. Such regulations shall afford procedural due process including, but not limited to, the following

(1) The right of the pupil to have counsel of the pupil's own choice present and to receive the advice of such counsel or other person whom the pupil may select;
(2) The right of the parents or guardians of the pupil to be present at the hearing;
(3) The right of the pupil and the pupil's counsel or advisor to hear or read a full report of testimony of witnesses against the pupil;
(4) The right of the pupil and the pupil's counsel to confront and cross-examine witnesses who appear in person at the hearing, either voluntarily or as a result of the issuance of a subpoena;
(5) The right of the pupil to present the pupil's own witnesses in person or their testimony by affidavit;
(6) The right of the pupil to testify in the pupil's own behalf and give reasons for the pupil's conduct;
(7) The right of the pupil to have an orderly hearing; and

(8) The right of the pupil to a fair and impartial decision based on substantial evidence.

(b) In all extended-term suspension and expulsion from school cases, there shall be made a record of the hearing of an appeal of the suspension or expulsion, whichever is applicable, by mechanical or electronic recording or by an official court reporter, and the costs thereof shall be paid by the school district.

c) At the conclusion of a formal hearing which results in a suspension for an extended term or an expulsion, the person or committee conducting the hearing shall make a written report of the findings and results of the hearing. The report shall be directed to the board of education of the school district and shall be open to the inspection of the pupil who is suspended or expelled and, if the pupil is a juvenile, to the parents or guardians and counsel or other advisor of the pupil. If the pupil is an adult, the report shall be open to the inspection of the parents or guardians and counsel or other advisor of the pupil only upon written consent of the pupil. Whenever a formal hearing results in suspension for an extended term or expulsion, the person or committee conducting the hearing may make a finding that return to school by the pupil, pending appeal or during the period allowed for notice of appeal, is not reasonably anticipated to endanger the safety of others, to cause continuing repeated material disorder, disruption or interference with the operation of school, or to substantially or materially impinge upon or invade the rights of others, in which case the pupil may return to school until the period for filing a notice of appeal has expired with no notice filed, or until the determination of any appeal if a notice of appeal is filed.

Whenever the person or committee conducting a hearing fails to make the findings specified above, the report of the hearing shall provide that the suspension or expulsion of the pupil shall continue until appeal therefrom is determined or until the period of suspension or expulsion has expired, whichever occurs sooner. Any such pupil shall be provided with information concerning services or programs offered by public and private agencies that work toward improving those aspects of the pupil’s attitudes and behavior that contributed to the conduct upon which the suspension or expulsion was based. If the pupil is a juvenile, the information shall also be provided to the parents or guardians of the pupil.

72-6118. Nonapplication of compulsory attendance law.

The provisions of K.S.A. 72-1111, and amendments thereto, shall not apply to any pupil while subject to suspension or expulsion from school pursuant to the provisions of this act.

72-6119. Powers and duties of persons conducting hearings.

(a) Any person, hearing officer or any member of a committee or the board of education conducting a hearing under this act may:

(1) Administer oaths for the purpose of taking testimony;

(2) Call and examine witnesses and receive documentary and other evidence; and

(3) Take any other action necessary to make the hearing accord with procedural due process.

Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the emergency safety intervention; (C) steps taken to transition the student back into the educational setting; (D) the date and time the incident occurred, the type of emergency safety intervention used, the duration of the emergency safety intervention and the school personnel who used or supervised the emergency safety intervention; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future use of emergency safety interventions; and (G) email and phone information for the parent to contact the school to schedule the emergency safety intervention meeting. (b) If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint or mechanical restraint on a student, the school shall notify the parent the same day using the parent’s preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth in subsection (a)(1) regarding law enforcement use of an emergency safety intervention, or report to the department law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

(c) The department shall compile reports from schools on the use of emergency safety interventions and provide the results based on aggregate data on the department website, and to the governor and the committees on education in the senate and the house of representatives by January 20, 2016, and annually thereafter. (c) The time for calling a meeting pursuant to this section shall be extended beyond the 10-school-day limit if the parent of the student is unable to attend within that time period.

(d) Nothing in this section shall be construed to prohibit the development and implementation of a functional behavioral analysis or a behavior intervention plan for any student if such student may benefit from such measures.

91-42-4. Parent notification; required meeting; filing a complaint.

(a) When an emergency safety intervention is used with a student, the school shall notify the parent the same day the emergency safety intervention was used. The school shall attempt to contact the parent using at least two methods of contact, one of which shall be the preferred method of contact if so designated by the parent as specified in this subsection. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contact. A parent may designate a preferred method of contact to receive the same-day notification required by this subsection. A parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.
(b) The school shall provide written documentation of the emergency safety intervention used to the parent no later than the school day following the day on which the emergency safety intervention was used. This documentation shall include the following:

1. The date and time of the intervention;
2. The type of intervention;
3. The length of time the intervention was used;
4. The school personnel who participated in or supervised the intervention;

10. Email and phone information for the parent to contact the school to schedule the emergency safety intervention meeting. Schools may group incidents together when documenting the items in paragraphs (b)(5) through (7) if the triggering issue necessitating the emergency safety interventions is the same.

(c) In addition to the documentation required by subsection (b), the school shall provide the parent the following information:

1. After the first incident in which an emergency safety intervention is used with a student during the school year, the school shall provide the following information in printed form to the parent or, upon the parent’s written request, by email:
   A. A copy of the standards of when emergency safety interventions can be used;
   B. A flyer on the parent’s rights;
   C. Information on the parent’s right to file a complaint through the local dispute resolution process and the complaint process of the state board of education; and

2. After subsequent incidents in which an emergency safety intervention is used with a student during the school year, the school shall provide a full and direct web site address containing the information in paragraph (c)(1).

(d) After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request the meeting verbally, in writing or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the date on which the parent sent the request. The focus of any meeting convened under this subsection shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

1. For a student who has an individualized education program or a section 504 plan, then the student's individualized education program team or section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral analysis, develop a behavior intervention plan, or amend either if already in existence.
2. For a student with a section 504 plan, the student's section 504 plan team shall discuss and consider the need for an evaluation under the special education for exceptional children act, K.S.A. 72-961 et seq., and amendments thereto.

If the parent requests an individualized education program team meeting, the private school shall help facilitate the meeting.

(4) For a student who does not have an individualized education program or section 504 plan, the parent and school shall discuss the incident and consider the appropriateness of a referral for an evaluation under the special education for exceptional children act, K.S.A. 72-961 et seq. and amendments thereto, the need for a functional behavioral analysis, or the need for a behavior intervention plan. Each meeting called pursuant to this subsection shall include the student's parent, a school administrator for the school where the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for the meeting.

(5) The parent shall determine whether the student shall be invited to any meeting called pursuant to this subsection.

(6) The time for calling a meeting pursuant to this subsection shall be extended beyond the 10-school-day limit if the parent of the student is unable to attend within that time period.

(7) Nothing in this subsection shall be construed to prohibit the development and implementation of a functional behavioral analysis or a behavior intervention plan for any student if the student could benefit from such measures.

(e) If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint or mechanical restraint on a student on school grounds or during a school-sponsored activity, the school shall notify the parent on the same day the school becomes aware of the use, using the parent's preferred method of contact as described in K.A.R. 91-42-4(a). A school shall not be required to provide written documentation to a parent, as set forth in subsection (b) or (c) regarding law enforcement use of an emergency safety intervention, or report to the department law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

(f) If a parent believes that emergency safety interventions have been used in violation of this article or policies of the school district, then within 30 days from being informed of the use of emergency safety intervention, the parent may file a complaint through the local dispute resolution process. Any parent may request an administrative review by the state board within 30 days from the date the final decision was issued pursuant to the local dispute resolution process.

91-42-5. Administrative review.

(a) Any parent who filed a written complaint with a local board regarding the use of emergency safety intervention may request an administrative review by the state board of the local board's final decision.

(b) Each parent seeking administrative review shall provide the following information in the request:

(1) The name of the student and the student's contact information;

(2) The name and contact information, to the extent known, for all involved parties, including teachers, aides, administrators, and district staff;

(3) A detailed statement of the basis for seeking administrative review, with all supporting facts and documentation. The documentation shall include a copy of the complaint filed with the local board and shall include the local board's final decision, if issued. The request shall be legibly written or typed and shall be signed by the parent. Relevant written instruments or documents in the possession of the
parent shall be attached as exhibits or, if unavailable, referenced in the request for administrative review; and

(4) Written consent to disclose any personally identifiable information from the student’s education records necessary to conduct an investigation pursuant to this regulation.

(c)(1) Each request for administrative review shall be filed with the commissioner within 30 days from the date a final decision is issued pursuant to the local dispute resolution process or, if a final decision is not issued, within 60 days from the date a written complaint was filed with the local board.

(2) The hearing officer shall forward a copy of the request for administrative review to the clerk of the local board from whom the administrative review is sought.

(d) Upon receipt of each request for administrative review, the hearing officer shall consider the local board's final decision and may initiate its own investigation of the complaint. Any investigation may include the following:

   (1) A discussion with the parent, during which additional information may be gathered and specific allegations identified, verified, and recorded;

   (2) Contact with the local board or other district staff against which the request for administrative review is filed to allow the local board to respond to the request with facts and information supporting the local board's final decision; and

   (3) An on-site investigation by department officers or employees.

(e) If the hearing officer receives information that the hearing officer determines was not previously made available to both parties during the local board dispute resolution process, the hearing officer may remand the issue back to the local board. The local board then has 30 days to issue a written amended final decision.

Upon remand, the hearing officer's case will be closed. All rights to and responsibilities of an administrative review shall begin again when the local board's amended final decision is issued or upon 30 days from when the hearing officer's remand is issued, whichever occurs first.

(f) Within 60 days of the commissioner's receipt of the request for administrative review, the hearing officer shall inform the parent, the school's head administrator, the district superintendent, the local board clerk, and the state board in writing of the results of the administrative review. This time frame may be extended for good cause upon approval of the commissioner.

(g) The results of the administrative review shall contain findings of fact, conclusions of law, and, if needed, suggested corrective action. The hearing officer shall determine whether the district is in violation of this article based solely on the information obtained by the hearing officer during the course of the investigation and the administrative review process. This determination shall include one of the following:

   (1) The local board appropriately resolved the complaint pursuant to its dispute resolution process.

   (2) The local board should reevaluate the complaint pursuant to its dispute resolution process with suggested findings of fact.

   (3) The hearing officer's suggested corrective action is necessary to ensure that local board policies meet the requirements of law.

(h) Nothing in this regulation shall require exhaustion of remedies under this regulation before using procedures or seeking remedies that are otherwise available.

(a) Each board of education shall designate one or more employees who shall report to the secretary for children and families, or a designee thereof, or to the appropriate county or district attorney pursuant to an agreement as provided in this section, all cases of children who are less than 13 years of age and are not attending school as required by law, and to the appropriate county or district attorney, or a designee thereof, all cases of children who are 13 or more years of age but less than 18 years of age and are not attending school as required by law. If such agreement is made, the county or district attorney shall carry out all duties as otherwise provided by this subsection conferred on the secretary or the secretary's designee. A copy of such agreement shall be provided to the director of such area office of the Kansas department for children and families and to the school districts affected by the agreement.
(b) Whenever a child is required by law to attend school, and the child is not enrolled in a public or nonpublic school, the child shall be considered to be not attending school as required by law and a report thereof shall be made in accordance with the provisions of subsection (a) by a designated employee of the board of education of the school district in which the child resides. The provisions of this subsection are subject to the provisions of subsection (d).
(c)(1) Whenever a child is required by law to attend school and is enrolled in school, and the child is inexcusably absent therefrom on either three consecutive school days or five school days in any semester or seven school days in any school year, whichever of the foregoing occurs first, the child shall be considered to be not attending school as required by law. The notice shall inform the parent or person acting as parent that continued failure of the child to attend school without a valid excuse will result in a report being made to the secretary for children and families or to the county or district attorney. Upon failure, on the school day next succeeding personal delivery of the notice or within three school days after the notice was mailed, of attendance at school by the child or of an acceptable response, as determined by the designated employee, to the notice by a parent or person acting as parent of the child, the designated employee shall make a report thereof in accordance with the provisions of subsection (a). The notice may be oral or written and shall inform the parent or person acting as parent of the child that the child was absent from school without a valid excuse and was delivered to school by a law enforcement officer.

(e) Whenever the secretary for children and families receives a report required under this section, the secretary shall investigate the matter. If, during the investigation, the secretary determines that the reported child is not attending school as required by law, the secretary shall institute proceedings under the revised Kansas code for care of children. If, during the investigation, the secretary determines that a criminal prosecution should be considered, the secretary shall make a report of the case to the appropriate law enforcement agency.

If, during the investigation, the county or district attorney determines that the reported child is not attending school as required by law, the county or district attorney shall prepare and file a petition alleging that the child is a child in need of care. If the pupil is an adult, the report shall be open to the inspection of the parents or guardians and counsel or other advisor of the pupil only upon written consent of the pupil. Whenever a formal hearing results in suspension for an extended term or
expulsion, the person or committee conducting the hearing may make a finding that return to school by the pupil, pending appeal or during the period allowed for notice of appeal, is not reasonably anticipated to endanger the safety of others, to cause continuing repeated material disorder, disruption or interference with the operation of school, or to substantially or materially impinge upon or invade the rights of others, in which case the pupil may return to school until the period for filing a notice of appeal has expired with no notice filed, or until the determination of any appeal if a notice of appeal is filed. Whenever the person or committee conducting a hearing fails to make the findings specified above, the report of the hearing shall provide that the suspension or expulsion of the pupil shall continue until appeal therefrom is determined or until the period of suspension or expulsion has expired, whichever occurs sooner. Any such pupil shall be provided with information concerning services or programs offered by public and private agencies that work toward improving those aspects of the pupil's attitudes and behavior that contributed to the conduct upon which the suspension or expulsion was based. (2)(e) Whenever any written notice is required under this act to be given to a pupil or to a pupil's parent or guardian, it shall be sufficient if the notice is mailed to the address on file in the school records of the pupil. The provisions of this subsection are subject to the provisions of subsection (d).

(c)(1) Whenever a child is required by law to attend school and is enrolled in school, and the child is inexcusably absent therefrom on either three consecutive school days or five school days in any semester or seven school days in any school year, whichever of the foregoing occurs first, the child shall be considered to be not attending school as required by law. A child is inexcusably absent from school if the child is absent therefrom all or a significant part of a school day without a valid excuse acceptable to the school employee designated by the board of education to have responsibility for the school attendance of such child.

   (2) Each board of education shall adopt rules for determination of valid excuse for absence from school and for determination of what shall constitute a "significant part of a school day" for the purpose of this section.

   (3) Each board of education shall designate one or more employees, who shall each be responsible for determining the acceptability and validity of offered excuses for absence from school of specified children, so that a designee is responsible for making such determination for each child enrolled in school.

Upon failure, on the school day next succeeding personal delivery of the notice or within three school days after the notice was mailed, of attendance at school by the child or of an acceptable response, as determined by the designated employee, to the notice by a parent or person acting as parent of the child, the designated employee shall make a report thereof in accordance with the provisions of subsection (a). The designated employee shall submit with the report a certificate verifying the manner in which notice was provided to the parent or person acting as parent.

The notice may be oral or written and shall inform the parent or person acting as parent of the child that the child was absent from school without a valid excuse and was delivered to school by a law enforcement officer.
(e) Whenever the secretary for children and families receives a report required under this section, the secretary shall investigate the matter. If, during the investigation, the secretary determines that the reported child is not attending school as required by law, the secretary shall institute proceedings under the revised Kansas code for care of children. If, during the investigation, the secretary determines that a criminal prosecution should be considered, the secretary shall make a report of the case to the appropriate law enforcement agency.

(f) Whenever a county or district attorney receives a report required under this section, the county or district attorney shall investigate the matter. If, during the investigation, the county or district attorney determines that the reported child is not attending school as required by law, the county or district attorney shall prepare and file a petition alleging that the child is a child in need of care. If, during the investigation, the county or district attorney determines that a criminal prosecution is necessary, the county or district attorney shall commence such action.

(b) The superintendent of schools of the school district that has established a school attendance review board as provided in subsection (a), at the beginning of each school year, shall convene a meeting of the school attendance review board for the purpose of adopting plans to promote interagency and community cooperation and to reduce the duplication of services provided to youth who have serious school attendance problems. If more than one board of education is participating in a school attendance review board, the superintendent of schools of the school district having the most pupils shall convene the meeting provided for by this subsection.

(c) The school attendance review board may elect from among its members a chairperson having responsibility for coordinating the services of the board and may elect such other officers as determined by the board.

Any school attendance review board established pursuant to K.S.A. 2017 Supp. 72-3131 shall maintain a continuing inventory of community resources, including alternative educational programs, and make recommendations for the improvement of such resources and programs or for the creation of new resources and programs where none exist.

72-3135. Referral of students; notice; resolving the problem.

(a) If a pupil is required by law to attend school and is irregular in attendance at school, the pupil may be referred to the school attendance review board. Each board of education shall designate one or more employees to make such referrals. Upon making a referral, the employee shall notify the pupil and the
pupil's parents or guardians, in writing, of the name and address of the school attendance review board and of the reason for the referral. The notice shall indicate that the pupil and parents or guardians of the pupil will be required, along with the referring person, to meet with the school attendance review board to consider a proper disposition of the referral.

(b) If the school attendance review board determines that available community services can resolve the problem of the referred pupil, the board shall direct the pupil or the pupil's parents or guardians, or both, to make use of those community services. The school attendance review board may require, at such time as it determines proper, the pupil or parents or guardians of the pupil, or both, to furnish satisfactory evidence of participation in the available community services.

(c) If the school attendance review board determines that available community services cannot resolve the problem of the referred pupil or if the pupil or the pupil's parents or guardians, or both, have failed to respond to directives of the school attendance review board or to services provided, the school attendance review board may notify the secretary for children and families or the appropriate county or district attorney. If the case is referred to the district court, the school attendance review board shall submit to the district court documentation of efforts to secure attendance as well as the board's recommendations on what action the district court shall take in order to bring about proper disposition of the case.

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

1. That occurs on school premises, on school-sponsored transportation, or at a school-sponsored event; or
2. That disrupts the education process.

(b) This definition shall not be interpreted to prohibit civil exchange of opinions or debate or cultural practices protected under the state or federal Constitution where the opinion expressed does not otherwise materially or substantially disrupt the education process.

(2) In cooperation with the Kentucky Education Association, the Kentucky School Boards Association, the Kentucky Association of School Administrators, the Kentucky Association of Professional Educators, the Kentucky Association of School Superintendents, the Parent-Teachers Association, the Kentucky Chamber of Commerce, the Farm Bureau, members of the Interim Joint Committee on Education, and other interested groups, and in collaboration with the Center for School Safety, the Department of Education shall develop or update as needed and distribute to all districts by August 31 of each even-numbered year, beginning August 31, 2008:

(a) Statewide student discipline guidelines to ensure safe schools, including the definition of serious incident for the reporting purposes as identified in KRS 158.444;

(3) The department shall obtain statewide data on major discipline problems and reasons why students drop out of school. In addition, the department, in collaboration with the Center for School Safety, shall identify successful strategies currently being used in programs in Kentucky and in other states and shall incorporate those strategies into the statewide guidelines and the recommendations under subsection (2) of this section.

(4) Copies of the discipline guidelines shall be distributed to all school districts. The statewide guidelines shall contain broad principles and legal requirements to guide local districts in developing their own discipline code and school councils in the selection of discipline and classroom management techniques under KRS 158.154; and in the development of the district-wide safety plan.

(5)(a) Each local board of education shall be responsible for formulating a code of acceptable behavior and discipline to apply to the students in each school operated by the board. The code shall be updated no less frequently than every two (2) years, with the first update being completed by November 30, 2008.

(b) The superintendent, or designee, shall be responsible for overall implementation and supervision, and each school principal shall be responsible for administration and implementation within each school. Each school council shall select and implement the appropriate discipline and classroom
management techniques necessary to carry out the code. The board shall establish a process for a two-way communication system for teachers and other employees to notify a principal, supervisor, or other administrator of an existing emergency.

(c) The code shall prohibit bullying.

(d) The code shall contain the type of behavior expected from each student, the consequences of failure to obey the standards, and the importance of the standards to the maintenance of a safe learning environment where orderly learning is possible and encouraged.

(e) The code shall contain:

1. Procedures for identifying, documenting, and reporting incidents of bullying, incidents of violations of the code, and incidents for which reporting is required under KRS 158.156;

5. Information regarding the consequences of bullying and violating the code and violations reportable under KRS 158.154, 158.156, or 158.444.

(f) The principal of each school shall apply the code of behavior and discipline uniformly and fairly to each student at the school without partiality or discrimination.

(g) A copy of the code of behavior and discipline adopted by the board of education shall be posted at each school. Guidance counselors shall be provided copies for discussion with students. **KRS 158.150. Suspension or expulsion of pupils.**

(1) All pupils admitted to the common schools shall comply with the lawful regulations for the government of the schools:

(a) Willful disobedience or defiance of the authority of the teachers or administrators, use of profanity or vulgarity, assault or battery or abuse of other students, the threat of force or violence, the use or possession of alcohol or drugs, stealing or destruction or defacing of school property or personal property of students, the carrying or use of weapons or dangerous instruments, or other incorrigible bad conduct on school property, as well as off school property at school-sponsored activities, constitutes cause for suspension or expulsion from school; and

(b) Assault or battery or abuse of school personnel; stealing or willfully or wantonly defacing, destroying, or damaging the personal property of school personnel on school property, off school property, or at school-sponsored activities constitutes cause for suspension or expulsion from school.

(2)(a) Each local board of education shall adopt a policy requiring the expulsion from school for a period of not less than one (1) year for a student who is determined by the board to have brought a weapon to a school under its jurisdiction. In determining whether a student has brought a weapon to school, a local board of education shall use the definition of “unlawful possession of a weapon on school property” stated in KRS 527.070.

(b) The board shall also adopt a policy requiring disciplinary actions, up to and including expulsion from school, for a student who is determined by the board to have possessed prescription drugs or controlled substances for the purpose of sale or distribution at a school under the board's jurisdiction, or to have physically assaulted or battered or abused educational personnel or other students at a school or school function under the board's jurisdiction. The board may modify the expulsion requirement for students on a case-by-case basis. A board that has expelled a student from the student's regular school setting shall provide or assure that educational services are provided to the student in an appropriate alternative program or setting, unless the board has made a determination, on the record, supported by clear and convincing evidence, that the expelled student posed a threat to the safety of other students or school staff and could not be placed into a state-funded agency program. Behavior which constitutes a threat shall include but not be limited to the physical assault, battery, or abuse of others; the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drugs or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any
other behavior which may endanger the safety of others. Other intervention services as indicated for each student may be provided by the board or by agreement with the appropriate state or community agency. A state agency that provides the service shall be responsible for the cost.

Limitations, conditions, or exclusions for use of suspension and expulsion

LAWS

KRS 158.150. Suspension or expulsion of pupils.
(5) A pupil shall not be suspended from the common schools until after at least the following due process procedures have been provided:

(a) The pupil has been given oral or written notice of the charge or charges against him which constitute cause for suspension;
(b) The pupil has been given an explanation of the evidence of the charge or charges if the pupil denies them; and
(c) The pupil has been given an opportunity to present his own version of the facts relating to the charge or charges.

These due process procedures shall precede any suspension from the common schools unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In such cases, the due process procedures outlined above shall follow the suspension as soon as practicable, but no later than three (3) school days after the suspension.

KRS 158.153. Punishment based on child's records - Disclosure of records - Cause of action - Districtwide standards of behavior for students participating in extracurricular activities.
(1) Unless the action is taken pursuant to KRS 158.150, no school, school administrator, teacher, or other school employee shall expel or punish a child based on information contained in a record of an adjudication of delinquency or conviction of an offense received by the school pursuant to KRS 610.345 or from any other source. Nothing in this subsection shall be construed to prohibit a local school board or school official from instituting disciplinary proceedings against any student for violating the discipline policy of the school or school district or taking actions necessary to protect staff and students. Actions to protect staff and students may be taken only after the principal makes a determination that the conduct of the student reflected in the records of the school or obtained by the school from the court indicates a substantial likelihood of an immediate and continuing threat that the student will cause harm to students or staff, and that the restrictions to be ordered represent the least restrictive alternative available and appropriate to remedy the threat, and that the determination and supporting material be documented in the child's record. The action of the principal, in addition to or in lieu of any other procedure available, may be appealed by the child or the child's parent or guardian to the superintendent of the school system or to the Circuit Court in the county in which the school is located, and the appealing party may be represented by counsel.

(2) No school, school administrator, teacher, or other school employee who has custody of records received or maintained by the school pursuant to KRS 610.345 or who has received information contained in or relating to a record received by the school pursuant to KRS 610.345 shall disclose the fact of the record's existence, or any information contained in the record or received from the record to any
other person, including but not limited to other teachers, school employees, pupils, or parents other than the pupil, or parents of the pupil who is the subject of the record.

(3) The child and his parent or guardian shall have a civil cause of action against the school board and against any school administrator violating subsection (1) or (2) of this section or divulging information in violation of KRS 610.345 or 610.340. This civil cause of action shall be in addition to any other criminal or administrative remedy provided by law.

(4) Nothing in this section shall be construed to prohibit a local board of education from establishing districtwide standards of behavior for students who participate in extracurricular and cocurricular activities, including athletics. A school principal may deny or terminate a student's eligibility to participate in extracurricular or cocurricular activities if the student has violated the local district behavior standards or the council's criteria for participation, as described in KRS 160.345(2)(i)8. A student's right to participate in extracurricular or cocurricular activities, including athletics, may be suspended, pending investigation of an allegation that the standards of behavior have been violated.

Administrative procedures related to suspensions and expulsion

LAWS

KRS 158.150. Suspension or expulsion of pupils.

(2)(a) Each local board of education shall adopt a policy requiring the expulsion from school for a period of not less than one (1) year for a student who is determined by the board to have brought a weapon to a school under its jurisdiction. In determining whether a student has brought a weapon to school, a local board of education shall use the definition of “unlawful possession of a weapon on school property” stated in KRS 527.070.

(b) The board shall also adopt a policy requiring disciplinary actions, up to and including expulsion from school, for a student who is determined by the board to have possessed prescription drugs or controlled substances for the purpose of sale or distribution at a school under the board's jurisdiction, or to have physically assaulted or battered or abused educational personnel or other students at a school or school function under the board's jurisdiction. The board may modify the expulsion requirement for students on a case-by-case basis. A board that has expelled a student from the student's regular school setting shall provide or assure that educational services are provided to the student in an appropriate alternative program or setting, unless the board has made a determination, on the record, supported by clear and convincing evidence, that the expelled student posed a threat to the safety of other students or school staff and could not be placed into a state-funded agency program. Behavior which constitutes a threat shall include but not be limited to the physical assault, battery, or abuse of others; the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drugs or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any other behavior which may endanger the safety of others. Other intervention services as indicated for each student may be provided by the board or by agreement with the appropriate state or community agency. A state agency that provides the service shall be responsible for the cost.

(3) For purposes of this subsection, “charges” means substantiated behavior that falls within the grounds for suspension or expulsion enumerated in subsection (1) of this section, including behavior committed by a student while enrolled in a private or public school, or in a school within another state. A school board may adopt a policy providing that, if a student is suspended or expelled for any reason or faces charges
that may lead to suspension or expulsion but withdraws prior to a hearing from any public or private school in this or any other state, the receiving district may review the details of the charges, suspension, or expulsion and determine if the student will be admitted, and if so, what conditions may be imposed upon the admission.

(4) School administrators, teachers, or other school personnel may immediately remove or cause to be removed threatening or violent students from a classroom setting or from the district transportation system pending any further disciplinary action that may occur. Each board of education shall adopt a policy to assure the implementation of this section and to assure the safety of the students and staff.

(5) A pupil shall not be suspended from the common schools until after at least the following due process procedures have been provided:

   (a) The pupil has been given oral or written notice of the charge or charges against him which constitute cause for suspension;

   (b) The pupil has been given an explanation of the evidence of the charge or charges if the pupil denies them; and

   (c) The pupil has been given an opportunity to present his own version of the facts relating to the charge or charges.

These due process procedures shall precede any suspension from the common schools unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In such cases, the due process procedures outlined above shall follow the suspension as soon as practicable, but no later than three (3) school days after the suspension.

(6) The superintendent, principal, assistant principal, or head teacher of any school may suspend a pupil but shall report the action in writing immediately to the superintendent and to the parent, guardian, or other person having legal custody or control of the pupil. The board of education of any school district may expel any pupil for misconduct as defined in subsection (1) of this section, but the action shall not be taken until the parent, guardian, or other person having legal custody or control of the pupil has had an opportunity to have a hearing before the board. The decision of the board shall be final.

(7)(a) Suspension of exceptional children, as defined in KRS 157.200, shall be considered a change of educational placement if:

   1. The child is removed for more than ten (10) consecutive days during a school year; or

   2. The child is subjected to a series of removals that constitute a pattern because the removals accumulate to more than ten (10) school days during a school year and because of other factors, such as the length of each removal, the total amount of time the child is removed, and the proximity of removals to one another.

   (b) The admissions and release committee shall meet to review the placement and make a recommendation for continued placement or a change in placement and determine whether regular suspension or expulsion procedures apply. Additional evaluations shall be completed, if necessary.

   (c) If the admissions and release committee determines that an exceptional child's behavior is related to his disability, the child shall not be suspended any further or expelled unless the current placement could result in injury to the child, other children, or the educational personnel, in which case an appropriate alternative placement shall be provided that will provide for the child's educational needs and will provide a safe learning and teaching environment for all. If the admissions and release committee determines that the behavior is not related to the disability, the local educational agency may pursue its regular suspension or expulsion procedure for the child, if the behavior so warrants. However, educational services shall not be terminated during a period of expulsion and during a suspension after a student is suspended for more than a total of ten (10) days during a school year. A district may seek temporary injunctive relief through the courts if the parent and the other members of
the admissions and release committee cannot agree upon a placement and the current placement will likely result in injury to the student or others.

(8) Suspension of primary school students shall be considered only in exceptional cases where there are safety issues for the child or others.

(9) Any action under this section related to students with disabilities shall be in compliance with applicable federal law.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

A.(1) The parish and city school systems of the state are the exclusive owners of all public school buildings and all desks and lockers within the building assigned to any student and any other area of any public school building or grounds set aside specifically for the personal use of the students. Any teacher, principal, school security guard, or administrator in any parish or city school system of the state may search any building, desk, locker, area, or grounds for evidence that the law, a school rule, or parish or city school board policy has been violated.

(2)(a) The teacher, principal, school security guard, or administrator may search the person of a student or his personal effects when, based on the attendant circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law, a school rule, or a school board policy. Such a search shall be conducted in a manner that is reasonably related to the purpose of the search and not excessively intrusive in light of the age or sex of the student and the nature of the suspected offense.

(b) Random searches with a metal detector of students or their personal effects may be conducted at any time, provided they are conducted without deliberate touching of the student.

B.(1) If any teacher, principal, school security guard, or administrator in the public school system is sued for damages by any student, the parent of any student, or other person qualified to bring suit on behalf of the student, based upon a search of that student's person, desk, locker, or any other area of a school building or grounds set aside specifically for that student's personal use, when the teacher, principal, school security guard, or administrator reasonably believed that the student had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy on his person, or had reasonable belief that such desk, locker, or other area contained such items, or based upon a search using a metal detector, it shall be the responsibility of the school board employing such teacher, principal, school security guard, or administrator to provide the defendant with legal defense, including reasonable attorney's fees, investigatory costs, and other related expenses.
(2) If any such teacher, principal, school security guard, or administrator is cast in judgment for damages in the suit, it shall be the obligation of the school board employing the defendant to indemnify him fully against such judgment, including all principal, interest, and costs.

(3) Nothing in this Section shall require a school board to indemnify a teacher, principal, school security guard, or administrator against a judgment wherein there is a specific finding that the action of the teacher, principal, school security guard, or administrator was maliciously, wilfully, and deliberately intended to harass, embarrass, or intimidate the student.

C.(1)(a) On or before January 1, 1995, each parish and city school board shall adopt a policy that is consistent with Subsection A of this Section to provide for reasonable search and seizure by public school teachers, principals, and other school administrators of students' persons, desks, lockers, or other school areas for evidence that the law, a school rule, or a parish or city school board policy has been violated.

(b) Such policy shall include at a minimum:

   (i) Specification of standards regarding procedures for searching students to prevent excessive intrusion.

   (iv) Specification of disciplinary action when a principal or designated administrator violates any provision of this Section.

   (b) No teacher, principal, school security guard, or administrator shall be held personally liable for any action authorized by this Section and performed in accordance with school board policies adopted pursuant to this Section.

D.(1) Upon the seizure by any public school teacher, principal, school security guard, or administrator of any firearm, bomb, knife, or other implement which can be used as a weapon and the careless use of which might inflict harm or injury or any controlled dangerous substance as defined in R.S. 40:961(7), the principal or his designated administrator shall report the confiscation of such implement or material to the appropriate law enforcement officials. The principal or his designated administrator may report the confiscation of any other implement or material.

(2) Any implement or material required by Paragraph (1) of this Subsection to be reported to law enforcement officials shall be retained and secured by the school principal in such a manner as to prevent the destruction, alteration, or disappearance of it until such time as the law enforcement authority either takes custody of the implement or material or provides notice to the school principal that it need no longer be retained. In the case that it need not be retained, the school principal shall comply with his school board's policy regarding disposal of the item.

(3) The failure of any principal or designated administrator to report the confiscation of such implement or material or the failure to retain and secure such implement or material shall be reported by the law enforcement authority to the employing school board which shall take disciplinary action pursuant to its policy.

E. The provisions of this Section shall apply to the State Board of Elementary and Secondary Education as it relates to state schools operated by the board in the same way it applies to city and parish school boards.

B. If any principal, administrator, or school security guard is sued for damages by any person based upon a search of the person, handbag, briefcase, purse, or other object in possession of that person after the principal, administrator, or school security guard conducts a random search with a metal detector or has a reasonable suspicion that the person had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy, it shall be the responsibility of the school board employing such principal, administrator, or school security guard, to indemnify him fully against such judgment, including all principal, interest, and costs. Nothing in this Section shall require a school board to indemnify a principal, administrator, or school security guard against a judgment wherein there is a specific finding that the action of the principal, administrator, or school security guard was maliciously, wilfully, and deliberately intended to harass, embarrass, or intimidate the visitor.
