Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

193-D:2. State board rulemaking authority; Public school district policies.
I. The state board of education shall adopt rules relative to safe school zones, under RSA 541-A, for public school pupils and public school employees regarding:
   (a) Disciplinary proceedings, including procedures assuring due process.
   (b) (1) Standards and procedures for suspension and expulsion of pupils, including procedures assuring due process.
       (2) Standards and procedures which shall require expulsion of a pupil for knowingly possessing a firearm in a safe school zone without written authorization from the superintendent or designee.
   (c) Procedures pertaining to discipline of pupils with special needs, including procedures assuring due process.
   (d) Procedures for reporting acts of theft, destruction, or violence under RSA 193-D:4.
II. Nothing in this chapter shall prohibit local school boards from adopting and implementing policies relative to pupil conduct and disciplinary procedures.

193-D:4. Written report required.
I. (a) Any public or private school employee who has witnessed or who has information from the victim of an act of theft, destruction, or violence in a safe school zone shall report such act in writing immediately to a supervisor. A supervisor receiving such report shall immediately forward such information to the school principal who shall file it with the local law enforcement authority. Such report shall be made by the principal to the local law enforcement authority immediately, by telephone or otherwise, and shall be followed within 48 hours by a report in writing. If the alleged victim is a student, the principal shall also immediately notify the person responsible for the victim’s welfare, as defined in RSA 169-C:3, XXII, that a report was made to the local law enforcement authority.
   (b) The provisions of subparagraph (a) shall not apply to any simple assault involving pupils in kindergarten through grade 12 if the local school board has adopted a discipline policy which sets forth circumstances under which parents shall be notified of simple assaults.
   (c) Each school district, in conjunction with the local law enforcement authority, shall establish a memorandum of understanding for administering the provisions of RSA 193-D:4, I(a)-(c).

I. The school board of each school district and the board of trustees of a chartered public school shall, no later than 6 months after the effective date of this section, adopt a written policy prohibiting bullying and cyberbullying. Such policy shall include the definitions set forth in RSA 193-F:3. The policy shall contain, at a minimum, the following components:
   (a) A statement prohibiting bullying or cyberbullying of a pupil.
   (b) A statement prohibiting retaliation or false accusations against a victim, witness, or anyone else who in good faith provides information about an act of bullying or cyberbullying and, at the time a report is made, a process for developing, as needed, a plan to protect pupils from retaliation.
   (c) A requirement that all pupils are protected regardless of their status under the law.
(d) A statement that there shall be disciplinary consequences or interventions, or both, for a pupil who commits an act of bullying or cyberbullying, or falsely accuses another of the same as a means of retaliation or reprisal.

(e) A statement indicating how the policy shall be made known to school employees, regular school volunteers, pupils, parents, legal guardians, or employees of a company under contract to a school, school district, or chartered public school. Recommended methods of communication include, but are not limited to, handbooks, websites, newsletters, and workshops.

(f) A procedure for reporting bullying or cyberbullying that identifies all persons to whom a pupil or another person may report bullying or cyberbullying.

(g) A procedure outlining the internal reporting requirements within the school or school district or chartered public school.

(h) A procedure for notification, within 48 hours of the incident report, to the parent or parents or guardian of a victim of bullying or cyberbullying and the parent or parents or guardian of the perpetrator of the bullying or cyberbullying. The content of the notification shall comply with the Family Educational Rights and Privacy Act, 20 U.S.C. 1232g.

(i) A provision that the superintendent or designee may, within the 48-hour period, grant the school principal or designee a waiver from the notification requirement if the superintendent or designee deems such waiver to be in the best interest of the victim or perpetrator. Any such waiver granted shall be in writing. Granting of a waiver shall not negate the school's responsibility to adhere to the remainder of its approved written policy.

(j) A written procedure for investigation of reports, to be initiated within 5 school days of the reported incident, identifying either the principal or the principal's designee as the person responsible for the investigation and the manner and time period in which the results of the investigation shall be documented. The superintendent or designee may grant in writing an extension of the time period for the investigation and documentation of reports for up to an additional 7 school days, if necessary. The superintendent or superintendent's designee shall notify in writing all parties involved of the granting of an extension.

(k) A requirement that the principal or designee develop a response to remediate any substantiated incident of bullying or cyberbullying, including imposing discipline if appropriate, to reduce the risk of future incidents and, where deemed appropriate, to offer assistance to the victim or perpetrator. When indicated, the principal or designee shall recommend a strategy for protecting all pupils from retaliation of any kind.

(l) A requirement that the principal or designee report all substantiated incidents of bullying or cyberbullying to the superintendent or designee.

(m) A written procedure for communication with the parent or parents or guardian of victims and perpetrators regarding the school's remedies and assistance, within the boundaries of applicable state and federal law. **126-U:1. Definitions.**
In this chapter:
I. "Child" means a person who has not reached the age of 18 years and who is not under adult criminal prosecution or sentence of actual incarceration resulting therefrom, either due to having reached the age of 17 years or due to the completion of proceedings for transfer to the adult criminal justice system under RSA 169-B:24, RSA 169-B:25, or RSA 169-B:26. "Child" also includes a person in actual attendance at a school who is less than 22 years of age and who has not received a high school diploma.

II. "Director" refers to the program director, school principal, or other official highest in rank and with authority over the activities of a school or facility.

IV. "Restraint" means bodily physical restriction, mechanical devices, or any device that immobilizes a person or restricts the freedom of movement of the torso, head, arms, or legs. It includes mechanical restraint, physical restraint, and medication restraint used to control behavior in an emergency or any involuntary medication. It is limited to actions taken by persons who are school or facility staff members, contractors, or otherwise under the control or direction of a school or facility.

(a) "Medication restraint" occurs when a child is given medication involuntarily for the purpose of immediate control of the child's behavior.

(b) "Mechanical restraint" occurs when a physical device or devices are used to restrict the movement of a child or the movement or normal function of a portion of his or her body.
(c) "Physical restraint" occurs when a manual method is used to restrict a child's freedom of movement or normal access to his or her body.

(d) Restraint shall not include:

(1) Brief touching or holding to calm, comfort, encourage, or guide a child, so long as limitation of freedom of movement of the child does not occur.

(2) The temporary holding of the hand, wrist, arm, shoulder, or back for the purpose of inducing a child to stand, if necessary, and then walk to a safe location, so long as the child is in an upright position and moving toward a safe location.

(3) Physical devices, such as orthopedically prescribed appliances, surgical dressings and bandages, and supportive body bands, or other physical holding when necessary for routine physical examinations and tests or for orthopedic, surgical, and other similar medical treatment purposes, or when used to provide support for the achievement of functional body position or proper balance or to protect a person from falling out of bed, or to permit a child to participate in activities without the risk of physical harm.

(4) The use of seat belts, safety belts, or similar passenger restraints during the transportation of a child in a motor vehicle.

(5) The use of force by a person to defend himself or herself or a third person from what the actor reasonably believes to be the imminent use of unlawful force by a child, when the actor uses a degree of such force which he or she reasonably believes to be necessary for such purpose and the actor does not immobilize a child or restrict the freedom of movement of the torso, head, arms, or legs of any child.

V. "School" means:

(a) A school operated by a school district.

(b) A chartered public school governed by RSA 194-B.

(c) A public academy as defined in RSA 194:23, II.

(d) A nonpublic school subject to the approval authority of the state board of education under RSA 186:11, XXIX.

(e) A private or public provider of any component of a child's individualized education program under RSA 186-C.

V-a. "Seclusion" means the involuntary placement of a child alone in a place where no other person is present and from which the particular child is unable to exit, either due to physical manipulation by a person, a lock, or other mechanical device or barrier. The term shall not include the voluntary separation of a child from a stressful environment for the purpose of allowing the child to regain self-control, when such separation is to an area which a child is able to leave. Seclusion does not include circumstances in which there is no physical barrier between the child and any other person or the child is physically able to leave the place. A circumstance may be considered seclusion even if a window or other device for visual observation is present, if the other elements of this definition are satisfied.

VI. "Serious injury" means any harm to the body which requires hospitalization or results in the fracture of any bone, non-superficial lacerations, injury to any internal organ, second- or third-degree burns, or any severe, permanent, or protracted loss of or impairment to the health or function of any part of the body.

126-U:2. Written policies required.

Each facility and school shall have a written policy and procedures for managing the behavior of children. Such policy shall describe how and under what circumstances seclusion or restraint is used and shall be provided to the parent, guardian, or legal representative of each child at such facility or school.
No school or facility shall use or threaten to use any of the following restraint and behavior control techniques:

I. Any physical restraint or containment technique that:
   (a) Obstructs a child's respiratory airway or impairs the child's breathing or respiratory capacity or restricts the movement required for normal breathing;
   (b) Places pressure or weight on, or causes the compression of, the chest, lungs, sternum, diaphragm, back, or abdomen of a child;
   (c) Obstructs the circulation of blood;
   (d) Involves pushing on or into the child's mouth, nose, eyes, or any part of the face or involves covering the face or body with anything, including soft objects such as pillows, blankets, or washcloths; or
   (e) Endangers a child's life or significantly exacerbates a child's medical condition.

II. The intentional infliction of pain, including the use of pain inducement to obtain compliance.

III. The intentional release of noxious, toxic, caustic, or otherwise unpleasant substances near a child for the purpose of controlling or modifying the behavior of or punishing the child.

IV. Any technique that unnecessarily subjects the child to ridicule, humiliation, or emotional trauma.

126-U:5. Limitation of the use of restraint to emergencies only.

I. Restraint shall only be used in a school or facility to ensure the immediate physical safety of persons when there is a substantial and imminent risk of serious bodily harm to the child or others. The determination of whether the use of restraint is justified under this section may be made with consideration of all relevant circumstances, including whether continued acts of violence by a child to inflict damage to property will create a substantial risk of serious bodily harm to the child or others. Restraint shall be used only by trained personnel using extreme caution when all other interventions have failed or have been deemed inappropriate.

II. Restraint shall never be used explicitly or implicitly as punishment for the behavior of a child.

126-U:5-a. Limitation on the use of seclusion.

I. Seclusion may not be used as a form of punishment or discipline. It may only be used when a child's behavior poses a substantial and imminent risk of physical harm to the child or to others, and may only continue until that danger has dissipated.

II. Seclusion shall only be used by trained personnel after other approaches to the control of behavior have been attempted and been unsuccessful, or are reasonably concluded to be unlikely to succeed based on the history of actual attempts to control the behavior of a particular child.

III. Seclusion shall not be used in a manner that that unnecessarily subjects the child to the risk of ridicule, humiliation, or emotional or physical harm.

I. When permitted by this chapter, seclusion may only be imposed in rooms which:
   (a) Are of a size which is appropriate for the chronological and developmental age, size, and behavior of the children placed in them.
   (b) Have a ceiling height that is comparable to the ceiling height of the other rooms in the building in which they are located.
(c) Are equipped with heating, cooling, ventilation, and lighting systems that are comparable to the
systems that are in use in the other rooms of the building in which they are located.
(d) Are free of any object that poses a danger to the children being placed in the rooms.
(e) Have doors which are either not equipped with locks, or are equipped with devices that
automatically disengage the lock in case of an emergency. For the purposes of this subparagraph, an
"emergency" includes, but is not limited to:
   (1) The need to provide direct and immediate medical attention to a child;
   (2) Fire;
   (3) The need to remove a child to a safe location during a building lockdown; or
   (4) Other critical situations that may require immediate removal of a child from seclusion to a safe
       location.
(f) Are equipped with unbreakable observation windows or equivalent devices to allow the safe, direct,
and uninterrupted observation of every part of the room.
II. Each use of seclusion shall be directly and continuously visually and auditorily monitored by a person
trained in the safe use of seclusion.

126-U:5-c. Room confinement at the youth development center.
Notwithstanding any other provision of this chapter, the youth development center may confine children in
their rooms when such confinement is part of a routine practice applicable to substantial portions of the
population at the center and not imposed as a consequence in response to the behavior of one or more
children. Such confinement is not subject to the notice and reporting requirements of RSA 126-U:7.

126-U:6. Schools limited to physical restraint.
Use of restraint in schools shall be limited to physical restraint as permitted by this chapter. Schools shall
not use medication restraint and shall not use mechanical restraint except as otherwise permitted in the
transportation of children pursuant to RSA 126-U:12.

126-U:7. Notice and record-keeping requirements.
I. Unless prohibited by court order, the facility or school shall, make reasonable efforts to verbally notify
the child’s parent or guardian and guardian ad litem whenever seclusion or restraint has been used on the
child. Such notification shall be made as soon as practicable and in no event later than the time of the
return of the child to the parent or guardian or the end of the business day, whichever is earlier.
Notification shall be made in a manner calculated to give the parent or guardian actual notice of the
incident at the earliest practicable time.

II. A facility employee or school employee who uses seclusion or restraint, or if the facility employee or
school employee is unavailable, a supervisor of such employee, shall, within 5 business days after the
occurrence, submit a written notification containing the following information to the director or his or her
designee:

       occurrence.

(g) A description of the seclusion or restraint used, including any hold used and the reason the hold was necessary.

(h) A description of any injuries sustained by, and any medical care administered to, the child, employees, or others before, during, or after the use of seclusion or restraint.

(k) A description of future actions to be taken to control the child's problem behaviors.

(l) The name and position of the employee completing the notification.

(m) The anticipated date of the final report.

III. Unless prohibited by court order, the director or his or her designee shall, within 2 business days of receipt of the notification required in paragraph II, send or transmit by first class mail or electronic transmission to the child's parent or guardian and the guardian ad litem the information contained in the notification. Each notification prepared under this section shall be retained by the school or facility for review in accordance with rules adopted under RSA 541-A by the state board of education and the department of health and human services.

IV. Whenever a facility or school employee has intentional physical contact with a child which is in response to a child's aggression, misconduct, or disruptive behavior, a representative of the school or facility shall make reasonable efforts to promptly notify the child's parent or guardian. Such notification shall be made no later than the time of the return of the child to the parent or guardian or the end of the business day, whichever is earlier. Notification shall be made in a manner calculated to give the parent or guardian actual notice of the incident at the earliest practicable time.

V. In any case requiring notification under paragraph IV, the school or facility shall, within 5 business days of the occurrence, prepare a written description of the incident. Such description shall include at least the following information:

(a) The date and time of the incident.

(b) A brief description of the actions of the child before, during, and after the occurrence.

(c) The names of the persons involved in the occurrence.

(d) A brief description of the actions of the facility or school employees involved before, during, and after the occurrence.

(e) A description of any injuries sustained by, and any medical care administered to, the child, employees, or others before, during, or after the incident.

However, if the child is actively combative, assaultive, or self-injurious while being escorted, the requirements of paragraphs IV and V shall apply.

(b) When actions are taken such as separating children from each other, inducing a child to stand, or otherwise physically preparing a child to be escorted.

(c) When the contact with the child is incidental or minor, such as for the purpose of gaining a misbehaving child's attention. However, blocking of a blow, forcible release from a grasp, or other significant and intentional physical contact with a disruptive or assaultive child shall be subject to the requirements.
(d) When an incident is subject to the requirements of paragraphs I-III.

126-U:8. Review of restraint records by Department of Education.
I. The state board of education shall adopt rules, pursuant to RSA 541-A, relative to:
   (a) Periodic, regular review by the department of education of records maintained by schools relative to
       the use of seclusion and restraint.
   (b) A process for the department of education's receipt of complaints and its conduct of investigations of
       improper use of seclusion and restraint in schools. The process shall provide for:
       (1) Investigation of complaints regarding any violation of this chapter, regardless of whether injury
           results.
       (2) Investigation by persons not affiliated with the school district which is the subject of the complaint.
       (3) Resolution of complaints and completion of investigations within 30 days, with provision for limited
           extensions for good cause.
       (4) Protection of children before and after completion of the investigation.
       (5) Appropriate remedial measures to address physical and other injuries, protect against retaliation,
           and reduce the incidence of violations of this chapter.
II. Beginning November 1, 2010, and each November 1 thereafter, the state board of education shall
    provide an annual report to the chairpersons of the education committees of the senate and house of
    representatives regarding the use of seclusion and restraint in schools. The annual report shall be
    prepared from the periodic, regular review of such records, and shall include the number and location of
    reported incidents and the status of any outstanding investigations.

126-U:10. Injury or death during incidents of restraint or seclusion.
I. In cases involving serious injury or death to a child subject to restraint or seclusion in a facility, the
   facility shall, in addition to the provisions of RSA 126-U:7, notify the commissioner of the department of
   health and human services, the attorney general, and the state's federally-designated protection and
   advocacy agency for individuals with disabilities. Such notice shall include the notification required in RSA
   126-U:7, II. The department of health and human services shall annually notify facilities of their

   substantial and imminent risk of serious bodily harm.
II. Children in restraint shall be the subject of continuous direct observation by personnel trained in the
    safe use of restraint.
III. No period of restraint of a child may exceed 15 minutes without the approval of the director or a
    supervisory employee designated by the director to provide such approval.
IV. No period of restraint of a child may exceed 30 minutes unless a face-to-face assessment of the
    mental, emotional, and physical well-being of the child is conducted by the facility or school director or by
a supervisory employee designated by the director who is trained to conduct such assessments. The
assessment shall also include a determination of whether the restraint is being conducted safely and for a
purpose authorized by this chapter. Such assessments shall be repeated at least every 30 minutes during
the period of restraint. Each such assessment shall be documented in writing and such records shall be
retained by the facility or school as part of the written notification required in RSA 126-U:7, II.

126-U:12. Restriction of the use of mechanical restraint during the transport of children.

I. All pupils have the right to attend public schools, including chartered public schools, that are safe, secure, and peaceful environments. IV. The sole purpose of this chapter is to protect all children from bullying and cyberbullying, and no other legislative purpose is intended, nor should any other intent be construed from the enactment of this chapter.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

LAWS

Pupils in the public schools shall comply with the rules established in pursuance of law for the
government of such schools, pursue the prescribed course of study and submit to the authority of the
teachers and others in authority over them.

Any pupil who is guilty of continued and willful disobedience, or of open defiance of the authority of any
teacher or person having authority over him, or of the habitual use of profanity or of obscene language, or
who shall cut, deface or otherwise injure any school property, shall be liable to punishment and to
suspension or expulsion from school.

18A:37-15. Adoption of policy concerning harassment, intimidating or bullying by each school
district.
a. Each school district shall adopt a policy prohibiting harassment, intimidation or bullying on school
property, at a school-sponsored function or on a school bus. The school district shall adopt the policy
through a process that includes representation of parents or guardians, school employees, volunteers,
students, administrators, and community representatives.
b. A school district shall have local control over the content of the policy, except that the policy shall
contain, at a minimum, the following components:
   (1) a statement prohibiting harassment, intimidation or bullying of a student;
   (2) a definition of harassment, intimidation or bullying no less inclusive than that set forth in section 2 of

18A:40A-10. Local boards to establish comprehensive substance abuse intervention, prevention
and treatment referral programs.
Each local board of education shall, pursuant to guidelines developed by the Commissioner of Education,
in consultation with the Commissioner of Health, establish a comprehensive substance abuse
intervention, prevention and treatment referral program in the public elementary and secondary schools of
the district. The purpose of the program shall be to identify pupils who are substance abusers, assess the
extent of these pupils' involvement with these substances and, where appropriate, refer pupils and their
families to organizations and agencies approved by the Department of Health to offer competent
professional treatment. Treatment shall not be at the expense of the local board of education.
Each school district shall develop a clear written policy statement which outlines the district's program to
combat substance abuse and which provides for the identification, evaluation, referral for treatment and
discipline of pupils who are substance abusers. Copies of the policy statement shall be distributed to pupils and their parents at the beginning of each school year.

18A:40A-11. Local boards to establish policies and procedures for evaluation, referral, and treatment of students abusing substances on school property.

Any student that is removed from the regular education program pursuant to this section shall be placed in an alternative education program. If placement in an alternative education program is not available, the pupil shall be provided home instruction or other suitable facilities and programs until placement is available. The provisions herein shall be construed in a manner consistent with 20 U.S.C. § 1400 et seq. Nothing herein shall be construed as prohibiting the expulsion of a pupil.

18A:37-15. Adoption of policy concerning harassment, intimidating or bullying by each school district.

a. Each school district shall adopt a policy prohibiting harassment, intimidation or bullying on school property, at a school-sponsored function or on a school bus. The school district shall adopt the policy through a process that includes representation of parents or guardians, school employees, volunteers, students, administrators, and community representatives.

b. A school district shall have local control over the content of the policy, except that the policy shall contain, at a minimum, the following components:

(1) a statement prohibiting harassment, intimidation or bullying of a student;
(2) a definition of harassment, intimidation or bullying no less inclusive than that set forth in section 2 of P.L.2002, c.83 (C.18A:37-14);

All acts of harassment, intimidation, or bullying shall be reported verbally to the school principal on the same day when the school employee or contracted service provider witnessed or received reliable
information regarding any such incident. The principal shall inform the parents or guardians of all students involved in the alleged incident, and may discuss, as appropriate, the availability of counseling and other intervention services. All acts of harassment, intimidation, or bullying shall be reported in writing to the school principal within two school days of when the school employee or contracted service provider witnessed or received reliable information that a student had been subject to harassment, intimidation, or bullying;

(b) the results of the investigation shall be reported to the superintendent of schools within two school days of the completion of the investigation, and in accordance with regulations promulgated by the State Board of Education pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), the superintendent may decide to provide intervention services, establish training programs to reduce harassment, intimidation, or bullying and enhance school climate, impose discipline, order counseling as a result of the findings of the investigation, or take or recommend other appropriate action;

(d) parents or guardians of the students who are parties to the investigation shall be entitled to receive information about the investigation, in accordance with federal and State law and regulation, including the nature of the investigation, whether the district found evidence of harassment, intimidation, or bullying, or whether discipline was imposed or services provided to address the incident of harassment, intimidation, or bullying. This information shall be provided in writing within 5 school days after the results of the investigation are reported to the board. A parent or guardian may request a hearing before the board after receiving the information, and the hearing shall be held within 10 days of the request. The board shall meet in executive session for the hearing to protect the confidentiality of the students. At the hearing the board may hear from the school anti-bullying specialist about the incident, recommendations for discipline or services, and any programs instituted to reduce such incidents;

(e) at the next board of education meeting following its receipt of the report, the board shall issue a decision, in writing, to affirm, reject, or modify the superintendent's decision. The board's decision may be appealed to the Commissioner of Education, in accordance with the procedures set forth in law and regulation, no later than 90 days after the issuance of the board's decision; and

(f) a parent, student, guardian, or organization may file a complaint with the Division on Civil Rights within 180 days of the occurrence of any incident of harassment, intimidation, or bullying based on membership in a protected group as enumerated in the "Law Against Discrimination," P.L.1945, c.169 (C.10:5-1 et seq.).

In the event that the necessary programs and services are not available within the district, the district may apply to the Department of Education for a grant from the "Bullying Prevention Fund" established pursuant to section 25 of P.L.2010, c.122 (C.18A:37-28) to support the provision of out-of-district programs and services;

(8) a statement that prohibits reprisal or retaliation against any person who reports an act of harassment, intimidation or bullying and the consequence and appropriate remedial action for a person who engages in reprisal or retaliation;

(9) consequences and appropriate remedial action for a person found to have falsely accused another as a means of retaliation or as a means of harassment, intimidation or bullying;

   any offense which the juvenile alleges is related to the juvenile being a victim of human trafficking.

18A:36-25.2. Investigation, reporting of certain pupil absences, transfers.

a. If any child enrolled in a school district has an unexcused absence from school for five consecutive
   school days, the attendance officer of the district shall investigate the absence and notify the district
   superintendent of the absence. In the event the investigation leads the district superintendent to have
   reasonable cause to believe the child has been abused or neglected as defined in section 1 of P.L.1974,
   c.119 (C.9:6-8.21), the district superintendent shall then notify the Division of Child Protection and
   Permanency in the Department of Children and Families for its determination of whether the division is or
   has been involved with the child and whether action, as appropriate, is warranted.

b. When a child's parent, guardian, or other person having charge and control of the child notifies a
   school district that the child will be withdrawing from the district and transferring to another school district,
   the principal of the school from which the child is withdrawing shall request that the parent, guardian, or

   not been so enrolled, the attendance officer of the transfer district shall investigate the failure to enroll and

   the superintendent of the transfer district to have reasonable cause to believe the child has been abused
   or neglected as defined in section 1 of P.L.1974, c.119 (C.9:6-8.21), the superintendent of the transfer
   district shall then notify the Division of Child Protection and Permanency in the Department of Children

   section.

Such regular attendance shall be during all the days and hours that the public schools are in session in the district, unless it is shown to the satisfaction of the board of education of the district that the mental condition of the child is such that he cannot benefit from instruction in the school or that the bodily condition of the child is such as to prevent his attendance at school, but nothing herein shall be construed as permitting the temporary or permanent exclusion from school by the board of education of any district of any child between the ages of five and 20, except as explicitly otherwise provided by law.

Any child between the ages of six and 16 years who shall repeatedly be absent from school, and any child of such age found away from school during school hours whose parent, guardian or other person having charge and control of the child is unable to cause him to attend school and any pupil who is incorrigible, actually vagrant, vicious, or immoral in conduct, shall be deemed to be a juvenile delinquent and shall be proceeded against as such.

18A:38-28. Truants; return to parents or school.
Any attendance officer who shall find any child between six and 16 years of age who is a truant from school, shall take the child and deliver him to the parent, guardian or other person having charge and control of the child, or to the teacher of the school which such child is lawfully required to attend.

b. Detailed information concerning the availability of help and assistance for pupils and their families
with chemical dependency problems;

c. Decision making and coping skills; and,

d. The development of activities and attitudes which are consistent with a healthy life style.

The guidelines shall include model instructional units, shall define specific behavioral and learning
objectives and shall recommend instructional materials suitable for each grade level.

18A:40A-3. Initial inservice training programs; curriculum; availability.

a. Upon completion of the curriculum guidelines required pursuant to section 2 of this act, the
Commissioner of Education, in consultation with the Commissioner of Health, shall establish inservice
workshops and training programs to train selected public school teachers to teach an education program
on drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances. The inservice training
programs may utilize existing county or regional offices, or such other institutions, agencies or persons as
the Commissioner of Education deems appropriate. The programs and workshops shall provide
instructional preparation for the teaching of the drug, alcohol, anabolic steroids, tobacco and controlled
dangerous substances curriculum, and shall, in addition to the curriculum material, include information on
the history, pharmacology, physiology and psychosocial aspects of drugs, alcohol, anabolic steroids,
tobacco and controlled dangerous substances, symptomatic behavior associated with substance abuse,
the availability of rehabilitation and treatment programs, and the legal aspects of substance abuse. Each
local board of education shall provide time for the inservice training during the usual school schedule in
order to insure that appropriate teaching staff members are prepared to teach the education program in
each grade in each school district.

b. Upon completion of the initial inservice training program, the Commissioner of Education shall insure
that programs and workshops that reflect the most current information on substance abuse are prepared
and are made available to teaching staff members at regular intervals.
c. In addition to providing inservice training programs for teaching staff members who will provide instruction on substance abuse in the public schools, the Commissioner of Education shall make these training programs available to such other instructional and supervisory personnel as he deems necessary and appropriate.

**18A:40A-4. Preservice training.**

In addition to the provisions for inservice training established pursuant to this act, the commissioner shall insure that the preservice training of individuals intending to enter the teaching profession provides for an adequate treatment of the subject of substance abuse.

No certificate to teach in the public schools shall be issued to any teaching staff member who has not passed a satisfactory examination in (1) physiology and hygiene; and (2) substance abuse issues which includes material on the physiological, psychological, sociological and legal aspects of drug and alcohol abuse, methods of educating students on the negative effects of substance abuse, and intervention strategies for dealing with students engaged in substance abuse.

**18A:40A-5. Loan of materials to nonpublic schools.**

The board of education in each school district in the State in which a nonpublic school is located shall have the power and duty to loan to all pupils attending nonpublic schools located within the district all educational materials developed by the Commissioner of Education pursuant to this act for the instruction of public school pupils on the nature and effects of drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances. The Commissioner of Education shall make these materials available so that the local board of education shall not be required to expend funds for the loan of these materials.

**18A:40A-6. Evaluation.**

The Commissioner of Education, in consultation with the Commissioner of Health, shall establish and administer a system for the evaluation of the effectiveness of instructional programs established pursuant to this act. Programs which are shown to be effective shall be made available to other school districts throughout the State.

**18A:40A-7.1. Confidentiality of certain information provided by pupil; exceptions.**

a. Except as provided by section 3 of P.L.1971, c.437 (C.9:6-8.10), if a public or private elementary or secondary school pupil who is participating in a school-based drug and alcohol abuse counseling program provides information during the course of a counseling session in that program which indicates that the pupil's parent or guardian or other person residing in the pupil's household is dependent upon or illegally using a substance as that term is defined in section 2 of P.L.1987, c.387 (C.18A:40A-9), that information shall be kept confidential and may be disclosed only under the circumstances expressly authorized under subsection b. of this section.

b. The information provided by a pupil pursuant to subsection a. of this section may be disclosed:

1. subject to the pupil's written consent, to another person or entity whom the pupil specifies in writing in the case of a secondary school pupil, or to a member of the pupil's immediate family or the appropriate school personnel in the case of an elementary school pupil;
2. pursuant to a court order;
3. to a person engaged in a bona fide research purpose, except that no names or other information identifying the pupil or the person with respect to whose substance abuse the information was provided, shall be made available to the researcher; or
4. to the Division of Child Protection and Permanency or to a law enforcement agency, if the information would cause a person to reasonably suspect that the elementary or secondary school pupil
or another child may be an abused or neglected child as the terms are used in R.S.9:6-1, or as the
terms are defined in section 2 of P.L.1971, c.437 (C.9:6-8.9), or section 1 of P.L.1974, c.119 (C.9:6-
8.21).

c. Any disclosure made pursuant to paragraph (1) or (2) of subsection b. of this section shall be limited to
that information which is necessary to carry out the purpose of the disclosure, and the person or entity to
whom the information is disclosed shall be prohibited from making any further disclosure of that
information without the pupil's written consent. The disclosure shall be accompanied by a written
statement advising the recipient that the information is being disclosed from records the confidentiality of
which is protected by P.L.1997, c.362 (C.18A:40A-7.1 et seq.), and that this law prohibits any further
disclosure of this information without the written consent of the person from whom the information
originated. Nothing in P.L.1997, c.362 (C.18A:40A-7.1 et seq.) shall be construed as prohibiting the
Division of Child Protection and Permanency or a law enforcement agency from using or disclosing the
information in the course of conducting an investigation or prosecution. Nothing in P.L.1997, c.362 shall
be construed as authorizing the violation of any federal law.
d. The prohibition on the disclosure of information provided by a pupil pursuant to subsection a. of this
section shall apply whether the person to whom the information was provided believes that the person
seeking the information already has it, has other means of obtaining it, is a law enforcement or other
public official, has obtained a subpoena, or asserts any other justification for the disclosure of this
information.

Except as provided by section 6 of P.L.1971, c.437 (C.9:6-8.13), a person who discloses or willfully
permits the disclosure of information provided by a pupil in violation of the provisions of section 1 of this
act is subject to a fine of not more than $500 for a first offense and not more than $5,000 for a second
and each subsequent offense. The penalty shall be collected and enforced in summary proceedings
under "the penalty enforcement law" (N.J.S.2A:58-1 et seq.).

18A:40A-8. Legislative findings and declaration.
The Legislature finds and declares that:
   a. A significant number of young people are unfortunately already involved in the abuse of alcohol and
other drugs;
   b. Research indicates that particular groups of youngsters, such as the children of alcoholic parents,
may in fact face an increased risk of developing alcohol and other substance abuse problems and that
early intervention services can be critical in their prevention, detection and treatment; and,
   c. School-based initiatives have proven particularly effective in identifying and assisting students at a
high risk of developing alcohol and other drug disturbances and in reducing absenteeism, decreasing
the consumption of alcohol and other drugs, and in lessening the problems associated with such
addictions.

For the purposes of this act:
"Substance" shall mean alcoholic beverages, controlled dangerous substances as defined in section 2
of P.L.1970, c.266 (C.24:21-2), anabolic steroids or any chemical or chemical compound which
releases vapors or fumes causing a condition of intoxication, inebriation, excitement, stupefaction or
dulling of the brain or nervous system including, but not limited to, glue containing a solvent having the
property of releasing toxic vapors or fumes as defined in section 1 of P.L.1965, c.41 (C.2A:170-25.9).
“Substance abuse” shall mean the consumption or use of any substance as defined herein for purposes other than for the treatment of sickness or injury as prescribed or administered by a person duly authorized by law to treat sick and injured human beings.

18A:40A-10. Local boards to establish comprehensive substance abuse intervention, prevention and treatment referral programs.
Each local board of education shall, pursuant to guidelines developed by the Commissioner of Education, in consultation with the Commissioner of Health, establish a comprehensive substance abuse intervention, prevention and treatment referral program in the public elementary and secondary schools of the district. The purpose of the program shall be to identify pupils who are substance abusers, assess the extent of these pupils' involvement with these substances and, where appropriate, refer pupils and their families to organizations and agencies approved by the Department of Health to offer competent professional treatment. Treatment shall not be at the expense of the local board of education.
Each school district shall develop a clear written policy statement which outlines the district's program to combat substance abuse and which provides for the identification, evaluation, referral for treatment and discipline of pupils who are substance abusers. Copies of the policy statement shall be distributed to pupils and their parents at the beginning of each school year.

18A:40A-11. Local boards to establish policies and procedures for evaluation, referral, and treatment of students abusing substances on school property.
Each board of education shall adopt and implement, in accordance with rules and regulations promulgated by the State board, policies and procedures for the evaluation, referral for treatment and discipline of pupils involved in incidents of possession or abuse of substances as defined in section 2 [18A:40A-9] of this act, on school property or at school functions, or who show significant symptoms of the use of those substances on school property or at school functions. In adopting and implementing these policies and procedures, the board shall consult and work closely with a local organization involved with the prevention, detection and treatment of substance abuse approved by the Department of Health.

18A:40A-12. Reporting of pupils under influence; examination; report; return home; evaluation of possible need for treatment; referral for treatment.
a. Whenever it shall appear to any teaching staff member, school nurse or other educational personnel of any public school in this State that a pupil may be under the influence of substances as defined pursuant to section 2 of this act, other than anabolic steroids, that teaching staff member, school nurse, or other educational personnel shall report the matter as soon as possible to the school nurse or medical inspector, as the case may be, or to a student assistance coordinator, and to the principal or, in his absence, to his designee. The principal or his designee, shall immediately notify the parent or guardian and the superintendent of schools, if there be one, or the administrative principal and shall arrange for an immediate examination of the pupil by a doctor selected by the parent or guardian, or if that doctor is not immediately available, by the medical inspector, if he is available. If a doctor or medical inspector is not immediately available, the pupil shall be taken to the emergency room of the nearest hospital for examination accompanied by a member of the school staff designated by the principal and a parent or guardian of the pupil if available. The pupil shall be examined as soon as possible for the purpose of diagnosing whether or not the pupil is under such influence. A written report of that examination shall be furnished within 24 hours by the examining physician to the parent or guardian of the pupil and to the superintendent of schools or administrative principal. If it is determined that the pupil was under the influence of a substance, the pupil shall be returned to the pupil's home as soon as possible and shall not resume attendance at school until the pupil submits to the principal a written report certifying that the pupil
is physically and mentally able to return thereto, which report shall be prepared by a personal physician, the medical inspector, or the physician who examined the pupil pursuant to the provisions of this act.

In addition, the pupil shall be interviewed by a student assistance coordinator or another appropriately trained teaching staff member for the purpose of determining the extent of the pupil's involvement with these substances and possible need for treatment. In order to make this determination the coordinator or other teaching staff member may conduct a reasonable investigation which may include interviews with the pupil's teachers and parents. The coordinator or other teaching staff member may also consult with experts in the field of substance abuse as may be necessary and appropriate. If it is determined that the pupil's involvement with and use of these substances represents a danger to the pupil's health and well-being, the coordinator or other teaching staff member shall refer the pupil to an appropriate treatment program which has been approved by the Commissioner of Health.

b. Whenever any teaching staff member, school nurse, or other educational personnel of any public school in this State shall have reason to believe that a pupil has used or may be using anabolic steroids, that teaching staff member, school nurse, or other educational personnel shall report the matter as soon as possible to the school nurse or medical inspector, as the case may be, or to a student assistance coordinator, and to the principal or, in his absence, to his designee. The principal or his designee, shall immediately notify the parent or guardian and the superintendent of schools, if there be one, or the administrative principal and shall arrange for an examination of the pupil by a doctor selected by the parent or guardian or by the medical inspector. The pupil shall be examined as soon as possible for the purpose of diagnosing whether or not the pupil has been using anabolic steroids. A written report of that examination shall be furnished by the examining physician to the parent or guardian of the pupil and to the superintendent of schools or administrative principal. If it is determined that the pupil has been using anabolic steroids, the pupil shall be interviewed by a student assistance coordinator or another appropriately trained teaching staff member for the purpose of determining the extent of the pupil's involvement with these substances and possible need for treatment. In order to make this determination the coordinator or other teaching staff member may conduct a reasonable investigation which may include interviews with the pupil's teachers and parents. The coordinator or other teaching staff member may also consult with experts in the field of substance abuse as may be necessary and appropriate. If it is determined that the pupil's involvement with and use of these substances represents a danger to the pupil's health and well-being, the coordinator or other teaching staff member shall refer the pupil to an appropriate treatment program which has been approved by the Commissioner of Health.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall develop an inservice training program for public school teachers to enable the teachers to recognize and respond to substance abuse by public school pupils. The program shall, at a minimum, include:

1. Instruction to assist the teacher in the identification of the symptoms and behavioral patterns which might indicate that a child may be involved in substance abuse;

2. Appropriate intervention strategies; and,

3. Information on the State, local and community organizations which are available for the prevention, early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.

The inservice training program required pursuant to this section shall be updated at regular intervals in order to insure that teaching staff members have the most current information available on this subject.

b. Each local board of education shall ensure that all teaching staff members in the district who are involved in the instruction of pupils are provided with the inservice training program developed pursuant to this section. The inservice training program of the local board of education shall also include information
concerning the policy of the board regarding the referral for treatment of pupils involved in substance abuse, as required pursuant to section 5 of this act.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall establish guidelines for substance abuse education programs to be offered by local boards of education to the parents or legal guardians of public school pupils. The program shall, at a minimum, provide:

(1) A thorough and comprehensive review of the substance abuse education curriculum which will be taught to the child of the parent or guardian during the school year, with recommendations as to the ways in which the parent or guardian may enhance, reinforce and supplement that program;

(2) Information on the pharmacology, physiology, psychosocial and legal aspects of substance abuse, and instruction to assist the parent or guardian in the identification of the symptoms and behavioral patterns which might indicate that a child may be involved in substance abuse; and

(3) Information on the State, local and community organizations which are available for the prevention, early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.

b. In addition to the guidelines required pursuant this section, the Commissioner of Education, in consultation with the Commissioner of Health, shall develop and provide to local boards of education suggested materials for the substance abuse education program for parents or legal guardians of school pupils, and shall maintain and continuously update a roster of individuals or groups available to assist boards of education in implementing this program and a list of State and local agencies and organizations which are approved by the Department of Health to provide services for the prevention, early intervention, treatment or rehabilitation of individuals who show symptoms of substance abuse.

18A:40A-17. Outreach program.
a. Under the guidelines established by the Commissioner of Education, each local board of education shall establish an outreach program to provide substance abuse education for the parents or legal guardians of the pupils of the district. In establishing the program, the local board of education shall consult with such local organizations and agencies as are recommended by the commissioner. The board of education shall insure that the program is offered at times and places convenient to the parents of the district on school premises, or in other suitable facilities.

b. In addition to the substance abuse education program required pursuant to this section, each local board of education shall establish policies and procedures to provide assistance to parents or legal guardians who believe that their child may be involved in substance abuse. These policies and procedures shall be consistent with the policies and procedures for intervention by school personnel developed pursuant to this act.

c. The board of education in each school district in the State in which a nonpublic school is located shall have the power and duty to loan to the parents or legal guardians of all pupils attending nonpublic schools located within the district all educational materials developed by the Commissioner of Education for the instruction of the parents or legal guardians of public school pupils on the nature and effects of substances and substance abuse. The Commissioner of Education shall make these materials available so that the local board of education shall not be required to expend funds for the loan of these materials.

The Commissioner of Education, in consultation with the Commissioner of Health, shall develop and administer a program which provides for the employment of student assistance coordinators in certain school districts.
a. Within 90 days of the effective date of this act, the Commissioner of Education shall forward to each local school board a request for a proposal for the employment of a student assistance coordinator. A board which wants to participate in the program shall submit a proposal to the commissioner which outlines the district's plan to provide substance abuse prevention, intervention, and treatment referral services to students through the employment of a student assistance coordinator. Nothing shall preclude a district which employs a student assistance coordinator at the time of the effective date of this act from participating in this program. The commissioner shall select school districts to participate in the program through a competitive grant process. The participating districts shall include urban, suburban, and rural districts from the north, central, and southern geographic regions of the State with at least one school district per county. In addition to all other State aid to which the local district is entitled under the provisions of P.L.2007, c.260 (C.18A:7F-43 et al.) and other pertinent statutes, each board of education participating in the program shall receive from the State, for a three-year period, the amount necessary to pay the salary of its student assistance coordinator.

b. The position of student assistance coordinator shall be separate and distinct from any other employment position in the district, including, but not limited to district guidance counselors, school social workers, and school psychologists. The State Board of Education shall approve the education and experience criteria necessary for employment as a student assistance coordinator. The criteria shall include a requirement for certification by the State Board of Examiners. In addition to the criteria established by the State board, the Department of Education and the Department of Health shall jointly conduct orientation and training programs for student assistance coordinators, and shall also provide for continuing education programs for coordinators.

c. It shall be the responsibility of student assistance coordinators to assist local school districts in the effective implementation of this act. Coordinators shall assist with the in service training of school district staff concerning substance abuse issues and the district program to combat substance abuse; serve as an information resource for substance abuse curriculum development and instruction; assist the district in revising and implementing substance abuse policies and procedures; develop and administer intervention services in the district; provide counseling services to pupils regarding substance abuse problems; and, where necessary and appropriate, cooperate with juvenile justice officials in the rendering of substance abuse treatment services.

d. The Commissioner of Education, in consultation with the Commissioner of Health, shall implement a plan to collect data on the effectiveness of the program in treating problems associated with substance abuse and in reducing the incidence of substance abuse in local school districts. Six months prior to the expiration of the program authorized pursuant to this section, the Commissioner of Education shall submit to the Governor and the Legislature an evaluation of the program and a recommendation on the advisability of its continuation or expansion to all school districts in the State.

The Commissioner of Education is authorized to make grants to local school districts in such amounts as he shall determine, to assist the districts in the implementation of innovative pilot programs designed to educate pupils of elementary and secondary schools and members of the general public on the subject of substance abuse, and to prevent the abuse of those substances. Application for grants shall be made on forms furnished by the Commissioner of Education and shall set forth the program proposed and appropriate administrative procedures for the proper and efficient implementation of the program. These pilot programs shall, at a minimum, include:

a. An early intervention competitive grant pilot program to be established by the Commissioner of Education, in consultation with the Commissioner of Health and the Commissioner of Human Services, to enable local school districts to identify and assist elementary school pupils who are affected by family
substance abuse problems or who are at risk of developing such problems themselves. The purpose of the program shall be to encourage the creation of effective model programs for the early identification of children at risk for substance abuse related problems and to provide for effective intervention when these children are identified.

Grants shall be awarded to boards of education through a competitive grant process based upon written applications submitted by local boards of education. The Commissioner of Education shall select not more than eight of the proposals submitted by boards of education for participation in the pilot program. The commissioner, in addition to considering the overall quality of each proposal and the likelihood that the proposal can be replicated in other districts, shall seek to achieve the broadest geographic distribution of recipients consistent with the purposes of this act.

b. The pilot program established in Ocean County by the Department of Education in conjunction with the Juvenile Services Unit in the Family Division of the Administrative Office of the Courts, to coordinate the efforts of school and juvenile justice personnel in the county to combat alcohol and substance abuse by students.

The commissioner shall evaluate the effectiveness of the model program developed and tested pursuant to this section and disseminate information about successful model programs to school districts that do not participate in the pilot program.

The Commissioner of Education, in consultation with the Commissioner of Health and the Commissioner of Human Services, shall develop procedures for the evaluation of the impact of the programs established pursuant to this act and shall report annually to the Governor and the Legislature on the effects of these programs. That report shall include data concerning the incidence of substance abuse in the public schools; the nature and scope of intervention, prevention and treatment referral programs; an assessment of the impact of those programs on the problem of substance abuse; and, any recommendations for modifications in the programs established pursuant to this act.

18A:40A-22. Findings, declarations relative to substance abuse testing policies in public school districts.
The Legislature finds and declares that there are many school districts within the State with a growing problem of drug abuse among their students. The Legislature further finds that federal and State courts have held that it may be appropriate for school districts to combat this problem through the random drug testing of students participating in extracurricular activities, including interscholastic athletics, and students who possess school parking permits. The Legislature also finds that a random drug testing program may have a positive effect on attaining the important objectives of deterring drug use and providing a means for the early detection of students with drug problems so that counseling and rehabilitative treatment may be offered.

18A:40A-23. Adoption of policy for random testing of certain students.
A board of education may adopt a policy, pursuant to rules and regulations adopted by the State Board of Education in consultation with the Department of Human Services, which are consistent with the New Jersey Constitution and the federal Constitution, for the random testing of the district's students in grades 9-12 who participate in extracurricular activities, including interscholastic athletics, or who possess school parking permits, for the use of controlled dangerous substances as defined in N.J.S.2C:35-2 and anabolic steroids. The testing shall be conducted by the school physician, school nurse or a physician, laboratory or health care facility designated by the board of education and the cost shall be paid by the board. Any disciplinary action taken against a student who tests positive for drug use or who refuses to consent to
testing shall be limited to the student's suspension from or prohibition against participation in extracurricular activities, or revocation of the student's parking permits.

23:2-13. Hooked on Fishing-Not on Drugs Program.

1.a. There is established in the Department of Environmental Protection, Division of Fish and Wildlife, a Hooked on Fishing-Not on Drugs Program, which shall be based on a national program developed by the Future Fisherman Foundation that encourages school-aged children to avoid drug usage by providing alternative activities that involve learning to fish, appreciating aquatic and environmental resources, and developing positive life skills. The division shall assign staff to develop strategies for assisting school districts or other interested public service organizations in implementing this program throughout the State. Statewide program implementation shall be modeled after the pilot program implemented in Ocean County in calendar year 2000, which may include, but not be limited to, the distribution of materials to promote and operate the program throughout the State. To the maximum extent possible, the division shall implement and operate the program in every county in the State.

b. The division may work with educational, public safety and environmental groups in order to promote volunteerism among these groups for the purpose of acting as program instructors, mentors or advisors. The division may also work with public service organizations, sportsman groups and local merchants to encourage the donation of technical, material and financial assistance to the program.

23:2-14. Collection, maintenance of data; annual report.

2. The division shall collect and maintain data on the Hooked on Fishing-Not on Drugs Program and provide an annual report to the Legislature pursuant to section 2 of P.L.1991, c.164 (C.52:14-19.1), including information on the number of school districts or municipalities that have implemented the program and the number of pupils that are participating in the program. The report shall also include information on the effectiveness of the program in terms of drug usage avoidance or incidents among participating students.

3. The Department of Environmental Protection shall adopt, pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), such rules and regulations as may be necessary to effectuate the provisions of this act.

The chief school administrator shall disclose to law enforcement authorities the identity of a student reasonably believed to be in possession of a controlled dangerous substance or related paraphernalia or a student reasonably believed to be involved or implicated in distribution activities regarding controlled dangerous substances.

4. The medical examination, pursuant to (a)2ii above, shall be performed by a physician licensed to practice medicine or osteopathy who is selected by the parent.

   i. The school district, in cooperation with medical professionals licensed to practice medicine or osteopathy, shall establish minimum requirements for the medical examination.

   ii. The examination shall be at the expense of the parent and not the district board of education.

5. If the physician chosen by the parent is not immediately available, the medical examination shall be conducted by the school physician.

   i. If the school physician is not available, the student shall be accompanied by a member of the school staff designated by the principal to the emergency room of the nearest hospital for examination.
ii. The student's parent, if available, also shall accompany the student.

iii. When the medical examination is conducted by the school physician or a physician at the emergency room of the nearest hospital, the examination shall be at the expense of the district board of education.

6. Each district board of education shall have a plan in place for the appropriate supervision of the student:

i. While waiting for a parent to take the student to the physician selected by the parent, or while the student is waiting for and receiving the medical examination by the school physician or a physician in an emergency room; and

ii. Provisions shall be made for the appropriate care of the student while awaiting the results of the medical examination.

7. A written report of the medical examination shall be furnished to the student's parent, the principal, and the chief school administrator by the examining physician within 24 hours of the referral of the student for suspected alcohol or other drug use.

i. The school district, in cooperation with the school physician or medical professionals licensed to practice medicine or osteopathy, shall establish minimum requirements for the medical report.

ii. The report's findings shall verify whether the student's alcohol or other drug use interferes with his or her physical and mental ability to perform in school.

8. When the medical examination is performed by a physician other than the school physician or a physician at the emergency room of the nearest hospital, the school district shall require the parent to verify within 24 hours of the notification that the student is suspected of alcohol or other drug use that a medical examination was performed in compliance with (a)7i above.

i. The verification shall include, at a minimum, the signature, printed name, address, and phone number of the examining physician, the date and time of the medical examination, and the date by which the report required in (a)7 above will be provided.

ii. Refusal or failure by a parent to comply with this requirement shall be treated as a policy violation and handled in accordance with (d) below.

9. If the written report of the medical examination is not submitted to the parent, principal, and chief school administrator within 24 hours of the referral of the student for suspected alcohol or other drug use, the student shall be allowed to return to school until such time as a positive determination of alcohol or other drug use is received from the examining physician, unless the student was also removed for violating the code of student conduct.

10. If the written report of the medical examination verifies that alcohol or other drugs do not interfere with the student's physical and mental ability to perform in school, the student shall be immediately returned to school.

11. If there is a positive determination from the medical examination indicating the student's alcohol or other drug use interferes with his or her physical or mental ability to perform in school:

i. The student shall be returned as soon as possible to the care of a parent;

ii. Attendance at school shall not resume until a written report has been submitted to the parent, the principal and chief school administrator from a physician licensed to practice medicine or osteopathy who has examined the student to determine whether alcohol or other drug use interferes with his or her physical or mental ability to perform in school;

   (1) The report shall verify that the student's alcohol or other drug use no longer interferes with his or her physical and mental ability to perform in school; and

iii. Removal of a student with a disability shall be made in accordance with N.J.A.C. 6A:14.
12. While the student is at home because of the medical examination or after the student returns to school, an individual who holds the educational services certificate with the student assistance coordinator endorsement issued by the New Jersey State Board of Examiners, or an individual who holds one of the following educational services certificate endorsements: school nurse; school nurse/non-instructional; school psychologist; school counselor; school social worker; or student personnel services and is trained to assess alcohol and other drug abuse shall:

i. Conduct an alcohol and other drug assessment of the student and a reasonable investigation of the situation, which may include interviews with the student's teachers and parents and consultation with experts in student alcohol or other drug abuse, for the purpose of making a preliminary determination of the student's need for educational programs, supportive services, or treatment that extend beyond the general school program by virtue of the student's use of alcohol or other drugs.

(1) The findings of the assessment alone shall not be used to prevent a student from attending school; and

ii. Cooperate with community agencies as defined in N.J.A.C. 6A:16-4.1(b) and juvenile justice officials in providing evaluation, referral and continuity of care for alcohol or other drug abuse treatment.

13. While the student is at home because of the medical examination or after his or her return to school, the principal or chief school administrator may recommend or require alcohol and other drug assessment of the student or evaluation by appropriately certified or licensed professionals to make a positive determination of a student's need for programs and services that extend beyond the general school program, as necessary.

i. The findings of additional evaluations alone shall not be used to prevent a student from attending school.

14. If at any time it is determined that the student's use of alcohol or other drugs presents a danger to the student's health and well-being, an individual who holds the educational services certificate with the student assistance coordinator endorsement issued by the New Jersey State Board of Examiners or an individual who holds one of the following educational services certificate endorsements: school nurse; school nurse/non-instructional; school psychologist; school counselor; school social worker; or student personnel services and is trained in alcohol and other drug abuse treatment referral shall initiate a referral for alcohol or other drug abuse treatment.

15. The district board of education may provide additional intervention and referral services for the student according to N.J.S.A. 18A:40A-10 and N.J.A.C. 6A:16-8.

(b) In instances involving the suspected use of anabolic steroids, the following shall apply according to N.J.S.A. 18A:40A-12(b):

1. Whenever a teaching staff member, certified or non-certified school nurse, or other educational personnel has reason to believe that a student has used or may be using anabolic steroids, the person shall report the matter as soon as possible to the principal or, in his or her absence, to his or her designee and either the certified or non-certified school nurse, school physician, or student assistance coordinator.

2. In response to a report of suspected anabolic steroid use pursuant to (b)1 above, including instances when a report is made to law enforcement, the principal or his or her designee shall immediately notify the parent and the chief school administrator and shall arrange for an examination of the student by a physician licensed to practice medicine or osteopathy selected by the parent.

i. If the physician chosen by the parent is not available to perform the examination, it shall be conducted by the school physician or other physician identified by the principal.
ii. The student shall be examined as soon as possible for the purpose of determining whether he or she has been using anabolic steroids.

4. The examining physician shall provide to the parent, principal, and chief school administrator a written report of the examination.

5. If it is determined the student has used anabolic steroids, an individual who holds the educational services certificate with the student assistance coordinator endorsement issued by the New Jersey State Board of Examiners or an individual who holds one of the following educational services certificate endorsements: school nurse; school nurse/non-instructional; school psychologist; school counselor; school social worker; or student personnel services and is trained to assess alcohol and other drug abuse shall interview the student and others, as necessary, for the purpose of determining the extent of the student's involvement with and use of anabolic steroids and the possible need for referral for treatment.
   i. To make this determination, school staff members identified in (b)5 above may conduct a reasonable investigation, which may include interviews with the student's teachers and parents and consultation with experts in student alcohol or other drug abuse.

6. If results of a referral for evaluation positively determine the student's involvement with and use of anabolic steroids represents a danger to the student's health and well-being, an individual who holds the educational services certificate with the student assistance coordinator endorsement issued by the New Jersey State Board of Examiners or an individual who holds one of the following educational services certificate endorsements: school nurse; school nurse/non-instructional; school psychologist; school counselor; school social worker; or student personnel services and is trained to assess alcohol and other drug abuse shall initiate a referral for treatment to appropriate community agencies, as defined in N.J.A.C. 6A:16-4.1(b), to out-of-State agencies licensed by the appropriate state regulatory agency for alcohol and other drug services, or to private practitioners certified by the appropriate drug and alcohol licensing board.

(c) Any educational or non-educational district board of education employee who in good faith reports to the principal or his or her designee a student in compliance with the provisions of this subsection shall not be liable in civil damages as a result of making a report, as specified in N.J.S.A. 18A:40A-13 and 14.

Bullying, harassment, or hazing

LAWS

Any pupil who is guilty of continued and willful disobedience, or of open defiance of the authority of any teacher or person having authority over him, or of the habitual use of profanity or of obscene language, or
who shall cut, deface or otherwise injure any school property, shall be liable to punishment and to
suspension or expulsion from school.

Conduct which shall constitute good cause for suspension or expulsion of a pupil guilty of such conduct
shall include, but not be limited to, any of the following:

k. Harassment, intimidation, or bullying.

18A:37-13. Findings, declarations relative to adoption of harassment and bullying prevention
policies.
The Legislature finds and declares that: a safe and civil environment in school is necessary for students
to learn and achieve high academic standards; harassment, intimidation or bullying, like other disruptive
or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to
educate its students in a safe environment; and since students learn by example, school administrators,
faculty, staff, and volunteers should be commended for demonstrating appropriate behavior, treating
others with civility and respect, and refusing to tolerate harassment, intimidation or bullying.

The Legislature finds and declares that:

a. A 2009 study by the United States Departments of Justice and Education, "Indicators of School
Crime and Safety," reported that 32% of students aged 12 through 18 were bullied in the previous
school year. The study reported that 25% of the responding public schools indicated that bullying was a
daily or weekly problem;

b. A 2009 study by the United States Centers for Disease Control and Prevention, "Youth Risk Behavior
Surveillance," reported that the percentage of students bullied in New Jersey is 1 percentage point
higher than the national median;

c. In 2010, the chronic persistence of school bullying has led to student suicides across the country,
including in New Jersey;

d. Significant research has emerged since New Jersey enacted its public school anti-bullying statute in
2002, and since the State amended that law in 2007 to include cyber-bullying and in 2008 to require
each school district to post its anti-bullying policy on its website and distribute it annually to parents or
guardians of students enrolled in the district;

e. School districts and their students, parents, teachers, principals, other school staff, and board of
education members would benefit by the establishment of clearer standards on what constitutes
harassment, intimidation, and bullying, and clearer standards on how to prevent, report, investigate, and
respond to incidents of harassment, intimidation, and bullying;

f. It is the intent of the Legislature in enacting this legislation to strengthen the standards and
procedures for preventing, reporting, investigating, and responding to incidents of harassment,
imimidation, and bullying of students that occur in school and off school premises;

g. Fiscal responsibility requires New Jersey to take a smarter, clearer approach to fight school bullying
by ensuring that existing resources are better managed and used to make our schools safer for
students;

h. In keeping with the aforementioned goal of fiscal responsibility and in an effort to minimize any
burden placed on schools and school districts, existing personnel and resources shall be utilized in
every possible instance to accomplish the goals of increased prevention, reporting, and responsiveness
to incidents of harassment, intimidation, or bullying, including in the appointment of school anti-bullying
specialists and district anti-bullying coordinators;
i. By strengthening standards for preventing, reporting, investigating, and responding to incidents of bullying this act will help to reduce the risk of suicide among students and avert not only the needless loss of a young life, but also the tragedy that such loss represents to the student's family and the community at large; and

j. Harassment, intimidation, and bullying is also a problem which occurs on the campuses of institutions of higher education in this State, and by requiring the public institutions to include in their student codes of conduct a specific prohibition against bullying, this act will be a significant step in reducing incidents of such activity.

Sections 1, 2, and 16 through 30 of this act and P.L.2002, c.83 (C.18A:37-13 et seq.) shall be known and may be cited as the "Anti-Bullying Bill of Rights Act."

As used in this act:

"Electronic communication" means a communication transmitted by means of an electronic device, including, but not limited to, a telephone, cellular phone, computer, or pager;

"Harassment, intimidation or bullying" means any gesture, any written, verbal or physical act, or any electronic communication, whether it be a single incident or a series of incidents, that is reasonably perceived as being motivated either by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability, or by any other distinguishing characteristic, that takes place on school property, at any school-sponsored function, on a school bus, or off school grounds as provided for in section 16 of P.L.2010, c.122 (C.18A:37-15.3), that substantially disrupts or interferes with the orderly operation of the school or the rights of other students and that:

a. a reasonable person should know, under the circumstances, will have the effect of physically or emotionally harming a student or damaging the student's property, or placing a student in reasonable fear of physical or emotional harm to his person or damage to his property;

b. has the effect of insulting or demeaning any student or group of students; or

c. creates a hostile educational environment for the student by interfering with a student's education or by severely or pervasively causing physical or emotional harm to the student.

18A:37-15. Adoption of policy concerning harassment, intimidating or bullying by each school district.

a. Each school district shall adopt a policy prohibiting harassment, intimidation or bullying on school property, at a school-sponsored function or on a school bus. The school district shall adopt the policy through a process that includes representation of parents or guardians, school employees, volunteers, students, administrators, and community representatives.

b. A school district shall have local control over the content of the policy, except that the policy shall contain, at a minimum, the following components:

(1) a statement prohibiting harassment, intimidation or bullying of a student;

(2) a definition of harassment, intimidation or bullying no less inclusive than that set forth in section 2 of P.L.2002, c.83 (C.18A:37-14);

(3) a description of the type of behavior expected from each student;

(4) consequences and appropriate remedial action for a person who commits an act of harassment, intimidation or bullying;
(5) a procedure for reporting an act of harassment, intimidation or bullying, including a provision that permits a person to report an act of harassment, intimidation or bullying anonymously; however, this shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.

All acts of harassment, intimidation, or bullying shall be reported verbally to the school principal on the same day when the school employee or contracted service provider witnessed or received reliable information regarding any such incident. The principal shall inform the parents or guardians of all students involved in the alleged incident, and may discuss, as appropriate, the availability of counseling and other intervention services. All acts of harassment, intimidation, or bullying shall be reported in writing to the school principal within two school days of when the school employee or contracted service provider witnessed or received reliable information that a student had been subject to harassment, intimidation, or bullying;

(6) a procedure for prompt investigation of reports of violations and complaints, which procedure shall at a minimum provide that:

(a) the investigation shall be initiated by the principal or the principal's designee within one school day of the report of the incident and shall be conducted by a school anti-bullying specialist. The principal may appoint additional personnel who are not school anti-bullying specialists to assist in the investigation. The investigation shall be completed as soon as possible, but not later than 10 school days from the date of the written report of the incident of harassment, intimidation, or bullying. In the event that there is information relative to the investigation that is anticipated but not yet received by the end of the 10-day period, the school anti-bullying specialist may amend the original report of the results of the investigation to reflect the information;

(b) the results of the investigation shall be reported to the superintendent of schools within two school days of the completion of the investigation, and in accordance with regulations promulgated by the State Board of Education pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), the superintendent may decide to provide intervention services, establish training programs to reduce harassment, intimidation, or bullying and enhance school climate, impose discipline, order counseling as a result of the findings of the investigation, or take or recommend other appropriate action;

(c) the results of each investigation shall be reported to the board of education no later than the date of the board of education meeting next following the completion of the investigation, along with information on any services provided, training established, discipline imposed, or other action taken or recommended by the superintendent;

(d) parents or guardians of the students who are parties to the investigation shall be entitled to receive information about the investigation, in accordance with federal and State law and regulation, including the nature of the investigation, whether the district found evidence of harassment, intimidation, or bullying, or whether discipline was imposed or services provided to address the incident of harassment, intimidation, or bullying. This information shall be provided in writing within 5 school days after the results of the investigation are reported to the board. A parent or guardian may request a hearing before the board after receiving the information, and the hearing shall be held within 10 days of the request. The board shall meet in executive session for the hearing to protect the confidentiality of the students. At the hearing the board may hear from the school anti-bullying specialist about the incident, recommendations for discipline or services, and any programs instituted to reduce such incidents;

(e) at the next board of education meeting following its receipt of the report, the board shall issue a decision, in writing, to affirm, reject, or modify the superintendent's decision. The board's decision may be appealed to the Commissioner of Education, in accordance with the procedures set forth in law and regulation, no later than 90 days after the issuance of the board's decision; and
(f) a parent, student, guardian, or organization may file a complaint with the Division on Civil Rights within 180 days of the occurrence of any incident of harassment, intimidation, or bullying based on membership in a protected group as enumerated in the "Law Against Discrimination," P.L.1945, c.169 (C.10:5-1 et seq.);

(7) the range of ways in which a school will respond once an incident of harassment, intimidation or bullying is identified, which shall be defined by the principal in conjunction with the school anti-bullying specialist, but shall include an appropriate combination of services that are available within the district such as counseling, support services, intervention services, and other programs, as defined by the commissioner. In the event that the necessary programs and services are not available within the district, the district may apply to the Department of Education for a grant from the "Bullying Prevention Fund" established pursuant to section 25 of P.L.2010, c.122 (C.18A:37-28) to support the provision of out-of-district programs and services;

(8) a statement that prohibits reprisal or retaliation against any person who reports an act of harassment, intimidation or bullying and the consequence and appropriate remedial action for a person who engages in reprisal or retaliation;

(9) consequences and appropriate remedial action for a person found to have falsely accused another as a means of retaliation or as a means of harassment, intimidation or bullying;

(10) a statement of how the policy is to be publicized, including notice that the policy applies to participation in school-sponsored functions;

(11) a requirement that a link to the policy be prominently posted on the home page of the school district's website and distributed annually to parents and guardians who have children enrolled in a school in the school district; and

(12) a requirement that the name, school phone number, school address and school email address of the district anti-bullying coordinator be listed on the home page of the school district's website and that on the home page of each school's website the name, school phone number, school address and school email address of the school anti-bullying specialist and the district anti-bullying coordinator be listed. The information concerning the district anti-bullying coordinator and the school anti-bullying specialists shall also be maintained on the department's website.

c. A school district shall adopt a policy and transmit a copy of its policy to the appropriate executive county superintendent of schools by September 1, 2003. A school district shall annually conduct a re-evaluation, reassessment, and review of its policy, making any necessary revisions and additions. The board shall include input from the school anti-bullying specialists in conducting its re-evaluation, reassessment, and review. The district shall transmit a copy of the revised policy to the appropriate executive county superintendent of schools within 30 school days of the revision. The first revised policy following the effective date of P.L.2010, c.122 (C.18A:37-13.1 et al.) shall be transmitted to the executive county superintendent of schools by September 1, 2011.

d. (1) To assist school districts in developing policies for the prevention of harassment, intimidation, or bullying, the Commissioner of Education shall develop a model policy applicable to grades kindergarten through 12. This model policy shall be issued no later than December 1, 2002.

A school district may, at its own discretion, implement bullying prevention programs and approaches which impose a cost on the district.

A school district may apply to the Department of Education for a grant to be used for programs, approaches, or personnel established pursuant to this act, to the extent funds are appropriated for these purposes or funds are made available through the "Bullying Prevention Fund" established pursuant to section 25 of P.L.2010, c.122 (C.18A:37-28). A school district may make an application for a grant only after exploring bullying prevention programs and approaches that are available at no cost, and making an affirmative demonstration of that exploration in its grant application.

b. A school district shall: (1) provide training on the school district's harassment, intimidation, or bullying policies to school employees and volunteers who have significant contact with students; (2) ensure that the training includes instruction on preventing bullying on the basis of the protected categories enumerated in section 2 of P.L.2002, c.83 (C.18A:37-14) and other distinguishing characteristics that may incite incidents of discrimination, harassment, intimidation, or bullying; and (3) develop a process for discussing the district's harassment, intimidation or bullying policy with students.

A school district may satisfy the training required pursuant to this subsection by utilizing training that may be provided at no cost by the Department of Education, the New Jersey State Bar Foundation, or any other entity. There is created a special fund in the Department of Education, which shall be designated the "Bullying Prevention Fund." The fund shall be maintained in a separate account and administered by the commissioner to carry out the provisions of this act. The fund shall consist of: (1) any monies appropriated by the State for the purposes of the fund; (2) any monies donated for the purposes of the fund; and (3) all interest and investment earnings received on monies in the fund. The fund shall be used to offer grants to school districts to provide training on harassment, intimidation, and bullying prevention and on the effective creation of positive school climates, and to help fund related personnel expenses.

The Legislature finds and declares that: a safe and civil environment in school is necessary for students to learn and achieve high academic standards; a student who is a victim of dating violence suffers academically, and the student's safety at school is jeopardized; and since all students have a right to learn and study in a safe, supportive environment that is free from violence, each school district should have a policy to prevent, and for responding to, incidents of dating violence, and should provide dating violence education to students in order to prevent dating violence and address incidents involving dating violence.
18A:37-34. Definitions relative to dating violence policy and education.

Instructional programs on the nature of drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances, as defined in section 2 of P.L.1970, c.226 (C.24:21-2), and their physiological, psychological, sociological and legal effects on the individual, the family and society shall be taught in each public school and in each grade from kindergarten through 12 in a manner adapted to the age and understanding of the pupils. 18A:40A-10. Local boards to establish comprehensive substance abuse intervention, prevention and treatment referral programs.
Each local board of education shall, pursuant to guidelines developed by the Commissioner of Education, in consultation with the Commissioner of Health, establish a comprehensive substance abuse intervention, prevention and treatment referral program in the public elementary and secondary schools of the district. The purpose of the program shall be to identify pupils who are substance abusers, assess the extent of these pupils' involvement with these substances and, where appropriate, refer pupils and their families to organizations and agencies approved by the Department of Health to offer competent professional treatment. The board of education shall insure that the program is offered at times and places convenient to the parents of the district on school premises, or in other suitable facilities.

b. In addition to the substance abuse education program required pursuant to this section, each local board of education shall establish policies and procedures to provide assistance to parents or legal guardians who believe that their child may be involved in substance abuse. These policies and procedures shall be consistent with the policies and procedures for intervention by school personnel developed pursuant to this act.

c. The board of education in each school district in the State in which a nonpublic school is located shall have the power and duty to loan to the parents or legal guardians of all pupils attending nonpublic schools located within the district all educational materials developed by the Commissioner of Education for the instruction of the parents or legal guardians of public school pupils on the nature and effects of substances and substance abuse. The inservice training programs may utilize the offices of the executive county superintendent of schools, or such other institutions, agencies, or persons as the commissioner deems appropriate. Each board of education shall provide time for the inservice training during the usual school schedule in order to ensure that appropriate personnel are prepared to act in the district as district anti-bullying coordinators and school anti-bullying specialists.

b. The Commissioner of Education shall develop, in consultation with the Division on Civil Rights, and make available on the Department of Education's Internet site, an online tutorial on harassment, intimidation, and bullying. The online tutorial shall, at a minimum, include best practices in the prevention of harassment, intimidation, and bullying, applicable laws, and such other information that the commissioner determines to be appropriate. The online tutorial shall be accompanied by a test to assess a person's understanding of the information provided in the tutorial.

Upon completion of the curriculum guidelines required pursuant to section 2 of this act, the Commissioner of Education, in consultation with the Commissioner of Health, shall establish inservice workshops and training programs to train selected public school teachers to teach an education program on drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances. The inservice training programs may utilize existing county or regional offices, or such other institutions, agencies or persons as the Commissioner of Education deems appropriate. The programs and workshops shall provide instructional preparation for the teaching of the drug, alcohol, anabolic steroids, tobacco and controlled dangerous substances curriculum, and shall, in addition to the curriculum material, include information on the history, pharmacology, physiology and psychosocial aspects of drugs, alcohol, anabolic steroids, tobacco and controlled dangerous substances, symptomatic behavior associated with substance abuse, the availability of rehabilitation and treatment programs, and the legal aspects of substance abuse. Each local board of education shall provide time for the inservice training during the usual school schedule in order to insure that appropriate teaching staff members are prepared to teach the education program in each grade in each school district.

b. Upon completion of the initial inservice training program, the Commissioner of Education shall insure that programs and workshops that reflect the most current information on substance abuse are prepared and are made available to teaching staff members at regular intervals.

c. In addition to providing inservice training programs for teaching staff members who will provide instruction on substance abuse in the public schools, the Commissioner of Education shall make these training programs available to such other instructional and supervisory personnel as he deems necessary and appropriate.

In addition to the provisions for inservice training established pursuant to this act, the commissioner shall
insure that the preservice training of individuals intending to enter the teaching profession provides for an
adequate treatment of the subject of substance abuse.

No certificate to teach in the public schools shall be issued to any teaching staff member who has not
passed a satisfactory examination in (1) physiology and hygiene; and (2) substance abuse issues which
includes material on the physiological, psychological, sociological and legal aspects of drug and alcohol
abuse, methods of educating students on the negative effects of substance abuse, and intervention
strategies for dealing with students engaged in substance abuse.

The Commissioner of Education, in consultation with the Commissioner of Health, shall establish and
administer a system for the evaluation of the effectiveness of instructional programs established pursuant
to this act. Programs which are shown to be effective shall be made available to other school districts
throughout the State.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall develop an
inservice training program for public school teachers to enable the teachers to recognize and respond to
substance abuse by public school pupils. The program shall, at a minimum, include:

(1) Instruction to assist the teacher in the identification of the symptoms and behavioral patterns which
might indicate that a child may be involved in substance abuse;

(2) Appropriate intervention strategies; and,

(3) Information on the State, local and community organizations which are available for the prevention,
éarly intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.

The inservice training program required pursuant to this section shall be updated at regular intervals in
order to insure that teaching staff members have the most current information available on this subject.

involved in the instruction of pupils are provided with the inservice training program developed pursuant
to this section. The inservice training program of the local board of education shall also include information
concerning the policy of the board regarding the referral for treatment of pupils involved in substance
abuse, as required pursuant to section 5 [18A:40A-12] of this act.

a. The Commissioner of Education, in consultation with the Commissioner of Health, shall establish
guidelines for substance abuse education programs to be offered by local boards of education to the
parents or legal guardians of public school pupils. The program shall, at a minimum, provide:

taught to the child of the parent or guardian during the school year, with recommendations as to the
ways in which the parent or guardian may enhance, reinforce and supplement that program;

and instruction to assist the parent or guardian in the identification of the symptoms and behavioral
patterns which might indicate that a child may be involved in substance abuse; and

early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse.
b. In addition to the guidelines required pursuant this section, the Commissioner of Education, in consultation with the Commissioner of Health, shall develop and provide to local boards of education suggested materials for the substance abuse education program for parents or legal guardians of school pupils, and shall maintain and continuously update a roster of individuals or groups available to assist boards of education in implementing this program and a list of State and local agencies and organizations which are approved by the Department of Health to provide services for the prevention, early intervention, treatment or rehabilitation of individuals who show symptoms of substance abuse.

18A:17-42. Preamble; purpose of article.

The legislature finds that the safety and welfare of the public school students of this state while attending sessions of the public schools is a matter of prime concern to the citizens of this state; that, in several isolated instances throughout this state, unlawful intruders into the public schools have subjected public school students and their teachers to physical and verbal attacks during sessions of the public schools and on the property of said public schools; that such attacks might have been prevented, and similar attacks will be prevented, if public school law enforcement officers are stationed in said schools; and that state aid to local boards is necessary to help such boards bear the cost of employing and stationing public school law enforcement officers.

(a) The commissioner may, in accordance with rules and regulations promulgated pursuant to this article and upon a finding of need therefor, authorize any board of education to employ, subject to the provisions of Title 11, Civil Service, of the Revised Statutes, one or more public school law enforcement officers, and to station such public school law enforcement officers in public schools of this state during hours when said public schools are normally in session or are occupied by public school students or their teachers.

(b) No such public school law enforcement officer shall be employed, except upon the application of a board of education and with the approval of the county superintendent.

2. The principal or his or her designee shall be responsible for the removal of any pupil pursuant to section 1 of P.L.1995, c.128 (C.18A:37-2.2). The principal or his or her designee shall immediately report the removal of any pupil to the district's chief school administrator. The principal shall also notify the appropriate law enforcement agency of a possible violation of the New Jersey Code of Criminal Justice.

The State Board of Education, in consultation and cooperation with the Attorney General, shall adopt, pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.) rules and regulations regarding law enforcement activities on school grounds and the reporting of suspected offenses and acts of delinquency to law enforcement.

The principal or his or her designee shall be responsible for the removal of any pupil pursuant to section 2 of P.L.1995, c.127 (C.18A:37-8). The principal or his or her designee shall immediately report the removal
of any pupil to the district's chief school administrator. The district's chief school administrator may modify such removal of a pupil on a case-by-case basis. The principal shall also notify the appropriate law enforcement agency of a possible violation of the New Jersey Code of Criminal Justice.

c. It shall be the responsibility of student assistance coordinators to assist local school districts in the effective implementation of this act. Coordinators shall assist with the in service training of school district staff concerning substance abuse issues and the district program to combat substance abuse; serve as an information resource for substance abuse curriculum development and instruction; assist the district in revising and implementing substance abuse policies and procedures; develop and administer intervention services in the district; provide counseling services to pupils regarding substance abuse problems; and, where necessary and appropriate, cooperate with juvenile justice officials in the rendering of substance abuse treatment services.

a. If at least one school building of a school district is equipped with video surveillance equipment that is capable of streaming live video wirelessly to a remote location, the board of education shall enter into a memorandum of understanding with local law enforcement authorities providing the authorities with the capacity to activate the equipment and view live streaming video. The memorandum of understanding shall include, but need not be limited to, the following:
   (1) the designation of individuals who shall be authorized to view live streaming video;
   (2) the circumstances under which the designated individuals would view live streaming video; and
   (3) a detailed plan for preventing and detecting unauthorized access to live streaming video.
b. In the case of a school building that is located in a municipality in which there is no municipal police department, the board shall enter into a memorandum of understanding with an entity designated by the Superintendent of the State Police.
c. In the event that the parties to the memorandum of understanding are unable to reach an agreement regarding any provision required to be included pursuant to subsection a. of this section, the county prosecutor shall make the final determination regarding that provision.
d. A board shall enter into the memorandum of understanding no later than 180 days following the effective date of this act.
e. Nothing in this section shall be construed as to require the installation of video surveillance equipment capable of streaming live video wirelessly to a remote site.

This act shall be known and may be cited as the "Secure Schools for All Children Act."

As used in this act:
"Nonpublic school" means an elementary or secondary school within the State, other than a public school, offering education for grades kindergarten through 12, or any combination of them, wherein any child may legally fulfill compulsory school attendance requirements and which complies with the requirements of Title VI of the "Civil Rights Act of 1964," Pub.L.88-352, (42 U.S.C. s.2000d et seq.).
"Support limit" means the maximum amount which may be appropriated each year for the purposes of this act for each student enrolled full-time in nonpublic schools of the State.
A board of education of a school district in which a nonpublic school is located shall within the limit of funds appropriated or otherwise made available, adopt policies and procedures to provide the students who are enrolled full-time in the nonpublic school with security services, equipment, or technology to help ensure a safe and secure school environment.

a. The superintendent of schools of each school district in which a nonpublic school is located shall confer annually with the chief school administrator of each of the nonpublic schools to:
   (1) advise the nonpublic school of the limit of funds available pursuant to this act;
   (2) agree upon the security services, equipment, or technology to be provided to the students of the nonpublic school, within the limit of the funds that are available; and
   (3) agree on the date when the board of education will meet to approve how the security services, equipment, or technology will be provided to the students of the nonpublic school.

b. In the event that the superintendent of schools and the chief school administrator of the nonpublic school are unable to agree regarding the security services, equipment, or technology to be provided for a safe and secure school environment, the executive county superintendent shall be consulted to determine the security services, equipment, or technology to be provided. The decision of the executive county superintendent shall be final.

a. The support limit for the 2016-2017 school year shall be $75. For each school year thereafter the commissioner shall determine the support limit by multiplying the support limit for the previous school year times the sum of 1.0 plus the average annual percentage increase in the consumer price index for the New York and Philadelphia areas during the fiscal year preceding the prebudget year as reported by the United States Department of Labor.

b. On or before November 5 of each year, each board of education shall forward to the Commissioner of Education an estimate of the cost of providing, during the next school year, the security services, equipment, or technology required pursuant to this act and the number of students attending nonpublic schools located within the district as of the last school day of October of the current school year. The commissioner shall provide State aid to each school district in an amount equal to the number of nonpublic school students within the district identified by the district on or before November 5 multiplied by the State support limit. In the event that the expenditure incurred by any district is less than the amount of State aid received, the district shall refund the unexpended State aid after the completion of the school year, but not later than December 1 of the following school year.

c. If in any year, the amount of State aid appropriated is insufficient to carry out in full the provisions of this act, the commissioner shall apportion that appropriation among the districts in proportion to the State aid each district would have received had the full amount of State aid been appropriated. In any year, no district shall be required to make expenditures for the purposes of this act in excess of the amount of State aid received for these purposes.

A school district and a nonpublic school and their employees shall be immune from civil liability in the provision of security services, equipment, or technology pursuant to the provisions of this act, except for actions that constitute gross negligence or willful misconduct.

The State Board of Education shall promulgate rules pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), to effectuate the provisions of this act in a manner that comports with the provisions of the State and federal Constitutions, including a list of allowable expenditures for security services, equipment, or technology to ensure a safe and secure school environment for nonpublic school students.

f. Any person who at any time prior to his appointment had served as a duly qualified, fully-trained, full-time officer in any municipality or county of this State and who was separated from that prior service in good standing, shall be eligible to serve as a special law enforcement officer consistent with guidelines promulgated by the commission. The training requirements set forth in section 4 of P.L.1985, c.439 (C.40A:14-146.11) may be waived by the commission with regard to any person eligible to be appointed as a special law enforcement officer pursuant to the provisions of this section.

g. In addition to the qualifications established in subsection b. of this section, a person shall not be appointed as a Class Three special law enforcement officer unless the person:

For the purposes of this subsection, "good standing" shall exclude a retirement resulting from injury or incapacity.

40A:14-146.11. Training; classifications.

a. A person shall not commence the duties of a special law enforcement officer unless the person has successfully completed a training course approved by the commission and a special law enforcement officer shall not be issued a firearm unless the officer has successfully completed the basic firearms course approved by the commission for permanent, regularly appointed police and annual requalification examinations as required by subsection b. of section 7 of P.L.1985, c.439 (C.40A:14-146.14). There shall be three classifications for special police officers. The commission shall prescribe by rule or regulation the training standards to be established for each classification. Training may be in a commission approved academy or in any other training program which the commission may determine appropriate. The classifications shall be based upon the duties to be performed by the special law enforcement officer as follows:

1. Class One. Officers of this class shall be authorized to perform routine traffic detail, spectator control, and similar duties. If authorized by ordinance or resolution, as appropriate, Class One officers shall have the power to issue summonses for disorderly persons and petty disorderly persons offenses, violations of municipal ordinances, and violations of Title 39 of the Revised Statutes. The use of a firearm by an officer of this class shall be strictly prohibited and a Class One officer shall not be assigned any duties which may require the carrying or use of a firearm.

2. Class Two. Officers of this class shall be authorized to exercise full powers and duties similar to those of a permanent, regularly appointed full-time police officer. The use of a firearm by an officer of this class may be authorized only after the officer has been fully certified as successfully completing training as prescribed by the commission.

3. Class Three. Officers of this class shall be authorized to exercise full powers and duties similar to those of a permanent, regularly appointed full-time police officer while providing security at a public or nonpublic school or a county college on the school or college premises during hours when the public or nonpublic school or county college is normally in session or when it is occupied by public or nonpublic school or county college students or their teachers or professors. While on duty in the jurisdiction of employment, an officer may respond to offenses or emergencies off school or college grounds if they occur in the officer's presence while traveling to a school facility or county college, but an officer shall not otherwise be dispatched or dedicated to any assignment off school or college property. The use of a firearm by an officer of this class shall be authorized pursuant to the provisions of subsection b. of section 7 of P.L.1985, c.439 (C.40A:14-146.14). An officer of this class shall not be authorized to carry a firearm while off duty unless the officer complies with the requirements set forth in subsection l. of N.J.S.2C:39-6 authorizing a retired law enforcement officer to carry a handgun.

b. The commission may, in its discretion, except from the requirements of this section any person who demonstrates to the commission's satisfaction that the person has successfully completed a police training course conducted by any federal, state or other public or private agency, the requirements of which are substantially equivalent to the requirements of this act.

c. The commission shall certify officers who have satisfactorily completed training programs and issue appropriate certificates to those officers. The certificate shall clearly state the category of certification for which the officer has been certified by the commission.
d. All special law enforcement officers appointed and in service on the effective date of this act may continue in service if within 24 months of the effective date of this act they will have completed all training and certification requirements of this act.

40A:14-146.12. Uniforms.

Every special law enforcement officer prior to the commencement of his duties shall be furnished with a uniform which shall identify the officer's function. The uniform shall include, but not be limited to, a hat and appropriate badges which shall bear an identification number or name tag and the name of the local unit in which the officer is employed. The uniform shall also include an insignia issued by the commission which clearly indicates the officer's status as a special law enforcement officer and the type of certification issued pursuant to section 4 of this act. Within six months following the effective date of this act the commission shall issue the insignia. All special law enforcement officers prior to the commencement of duties shall be in uniform properly displaying the appropriate insignia. Nothing in this section shall preclude the designation on an insignia to read either "special police" or "special law enforcement officer."

40A:14-146.13. Fees.

a. Except as specified in subsection b. of this section, a local unit may charge a reasonable fee as may be fixed by the governing body for equipment and uniforms supplied pursuant to this act, but may not charge a fee for the costs of training or issuing a certificate of appointment. The local unit shall not be required to compensate a special law enforcement officer for time spent in training;

b. In addition to charging a reasonable fee as fixed by the governing body for equipment and uniforms supplied pursuant to this act, a local unit with a population in excess of 300,000, according to the 1980 federal decennial census, may charge a fee for the costs of training and for the administrative costs of issuing a certificate of appointment for a special law enforcement officer whose duties consist solely of performing public safety functions for a private employer.

a. Special law enforcement officers may be appointed for terms not to exceed one year, and the appointments may be revoked by the local unit for cause after adequate hearing, unless the appointment is for four months or less, in which event the appointment may be revoked without cause or hearing. Nothing herein shall be construed to require reappointment upon the expiration of the term. The special law enforcement officers so appointed shall not be members of the police force of the local unit, and their powers and duties as determined pursuant to this act shall cease at the expiration of the term for which they were appointed.

b. A special law enforcement officer shall not carry a firearm except while engaged in the actual performance of the officer's official duties and when specifically authorized by the chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit to carry a firearm and provided that the officer has satisfactorily completed the basic firearms course required by the commission for regular police officers and annual requalification examinations as required for permanent, regularly appointed full-time officers in the local unit.

A special law enforcement officer shall be deemed to be on duty only while the officer is performing the public safety functions on behalf of the local unit pursuant to this act and when the officer is receiving compensation, if any, from the local unit at the rates or stipends as shall be established by ordinance. A special law enforcement officer shall not be deemed to be on duty for purposes of this act while performing private security duties for private employers, which duties are not assigned by the chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit, or while receiving compensation for those duties from a private employer. A special law enforcement officer may, however, be assigned by the chief of police or, in the absence of the chief, other chief law enforcement
officer, to perform public safety functions for a private entity if the chief of police or other chief law enforcement officer supervises the performance of the public safety functions. If the chief of police or other chief law enforcement officer assigns the public safety duties and supervises the performance of those duties, then, notwithstanding that the local unit is reimbursed for the cost of assigning a special law enforcement officer at a private entity, the special law enforcement officer shall be deemed to be on duty. The reimbursement for the duties of a special law enforcement officer, which is made to a municipality with a population in excess of 300,000, according to the 1980 federal decennial census, may be by direct payments from the employer to the special law enforcement officer, provided that records of the hours worked are forwarded to and maintained by the chief of police or other chief law enforcement officer responsible for assigning the special law enforcement officer those public safety duties.

Any firearm utilized by a special law enforcement officer shall be returned at the end of the officer’s workday to the officer in charge of the station house, unless the firearm is owned by the special law enforcement officer and was acquired in compliance with a condition of employment established by the local unit. Any special law enforcement officer first appointed after the effective date of this act shall only use a firearm supplied by the local unit. A special law enforcement officer shall not carry a revolver or other similar weapon when off duty; but if any special law enforcement officer appointed by the governing body of any municipality having a population in excess of 300,000, according to the 1980 federal census, who is a resident of the municipality and is employed as a special law enforcement officer at least 35 hours per week, or less at the discretion of the chief of police and mayor, shall, at the direction of the chief of police, have taken and successfully completed a firearms training course administered by the Police Training Commission, pursuant to P.L.1961, c.56 (C.52:17B-66 et seq.), and has successfully completed within three years of the effective date of P.L.1985, c.45 or three years of the date of appointment of the special law enforcement officer, whichever is later, 280 hours of training in arrest, search and seizure, criminal law, and the use of deadly force, and shall annually qualify in the use of a revolver or similar weapon, the special law enforcement officer shall be permitted to carry a revolver or other similar weapon when off duty within the municipality where the officer is employed. Specific authorization shall be in the form of a permit which shall not be unreasonably withheld, which is subject to renewal annually and may be revoked at any time by the chief of police. The permit shall be on the person of the special law enforcement officer whenever a revolver or other similar weapon is carried off duty. A permit shall not be issued until the special law enforcement officer has successfully completed all training courses required under this section. Any training courses completed by a special law enforcement officer under the direction of the chief of police in a school and a curriculum approved by the Police Training Commission, pursuant to P.L.1961, c.56 (C.52:17B-66 et seq.), shall be credited towards the 280 hours of training required to be completed by this section. Any training required by this section shall commence within 90 days of the effective date of P.L.1985, c.45 or within 90 days of the date of the appointment of the special law enforcement officer, whichever is later.

c. A special law enforcement officer shall be under the supervision and direction of the chief of police or, in the absence of the chief, other chief law enforcement officer of the local unit wherein the officer is appointed, and shall perform the officer's duties only in the local unit except when in fresh pursuit of any person pursuant to chapter 156 of Title 2A of the New Jersey Statutes or when authorized to perform duties in another unit pursuant to a mutual aid agreement enacted in accordance with section 1 of P.L.1976, c.45 (C.40A:14-156.1).

d. The officer shall comply with the rules and regulations applicable to the conduct and decorum of the permanent, regularly appointed police officers of the local unit, as well as any rules and regulations applicable to the conduct and decorum of special law enforcement officers.

e. Notwithstanding any provision of P.L.1985, c.439 (C.40A:14-146.8 et seq.) to the contrary, a special law enforcement officer may travel through another local unit to reach a noncontiguous area of the local
unit in which the officer’s appointment was issued or to transport persons to and from a correctional facility.

40A:14-146.15. Powers.
The chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit wherein the officer is appointed, may authorize special law enforcement officers when on duty to exercise the same powers and authority as permanent, regularly appointed police officers of the local unit, including, but not limited to, the carrying of firearms and the power of arrest, subject to rules and regulations, not inconsistent with the certification requirements of this act, as may be established by local ordinance or resolution, as appropriate, adopted by the appropriate authority of the local unit in which they are employed.

40A:14-146.16. Limitation on hours.
a. Except as provided in subsection c. of this section, a special law enforcement officer shall not be employed for more than 20 hours per week by the local unit except that special law enforcement officers may be employed by the local unit for those hours as the governing body may determine necessary in accordance with the limits prescribed below:

(1) In resort municipalities not to exceed 48 hours per week during any seasonal period.
(2) In all municipalities or counties without limitation as to hours during periods of emergency.
(3) In all municipalities or counties in addition to not more than 20 hours per week including duties assigned pursuant to the provisions of section 7 of P.L.1985, c.439 (C.40A:14-146.14) a special law enforcement officer may be assigned for not more than 20 hours per week to provide public safety and law enforcement services to a public entity.
(4) In municipalities or counties, as provided in subsection b. of section 7 of P.L.1985, c.439 (C.40A:14-146.14), for hours to be determined at the discretion of the director of the municipal or county police force.
(5) A Class Three special law enforcement officer in all municipalities without limitation.

b. Notwithstanding any provision of P.L.1985, c.439 (C.40A:14-146.8 et seq.) to the contrary, special law enforcement officers may be employed only to assist the local law enforcement unit but may not be employed to replace or substitute for full-time, regular police officers or in any way diminish the number of full-time officers employed by the local unit. A Class Three special law enforcement officer may be employed only to assist the local law enforcement unit with security duties and shall not supplant a law enforcement officer employed pursuant to the provisions of N.J.S.18A:17-43 or a safe schools resource officer employed pursuant to the provisions of section 3 of P.L.2005, c.276 (C.18A:17-43.1).

c. Each municipality or county may designate one special law enforcement officer to whom the limitations on hours employed set forth in subsection a. of this section shall not be applicable.

d. A Class Three special law enforcement officer appointed pursuant to the provisions of P.L.1985, c.439 (C.40A:14-146.8 et seq.) shall not, based on this appointment, be eligible for health care benefits or enrollment in any State-administered retirement system.

40A:14-146.17. Limitations on number, categories.
The local governing body shall by ordinance or resolution, as appropriate, establish limitations upon the number and categories of special law enforcement officers which may be employed by the local unit in accordance with the certification and other requirements provided for in this act. In communities other than resort municipalities, the number of Class Two special law enforcement officers shall not exceed 25% of the total number of regular police officers, except that no municipality shall be required to reduce the number of Class Two special law enforcement officers or the equivalent thereof in the employ of the
municipality as of March 1, 1985. Notwithstanding the provisions of this section, each local unit may appoint two Class Two special law enforcement officers.

52:17B-71.8. Training course for safe schools resource officers, liaisons to law enforcement.
a. The Police Training Commission in the Division of Criminal Justice in the Department of Law and Public Safety, in consultation with the Attorney General, shall develop a training course for safe schools resource officers and public school employees assigned by a board of education to serve as a school liaison to law enforcement. The Attorney General, in conjunction with the Police Training Commission, shall ensure that the training course is developed within 180 days of the effective date of this act. The course shall at a minimum provide comprehensive and consistent training in current school resource officer practices and concepts. The course shall include training in the protection of students from harassment, intimidation, and bullying, including incidents which occur through electronic communication. The course shall be made available to:

(1) any law enforcement officer or public school employee referred by the board of education of the public school to which assignment as a safe schools resource officer or school liaison to law enforcement is sought; and

(2) any safe schools resource officer or school liaison to law enforcement assigned to a public school prior to the effective date of P.L.2005, c.276 (C.52:17B-71.8 et al.).

b. The training course developed by the commission pursuant to subsection a. of this section shall be offered at each school approved by the commission to provide police training courses pursuant to the provisions of P.L.1961, c.56 (C.52:17B-66 et seq.). The commission shall ensure that an individual assigned to instruct the course is proficient and experienced in current school resource officer practices and concepts.

c. The commission shall award a certificate to each individual who successfully completes the course.

d. The Police Training Commission, in consultation with the Commissioner of Education, shall adopt rules and regulations pursuant to the "Administrative Procedure Act," P.L.1968, c.410 (C.52:14B-1 et seq.), to implement the provisions of this section.

18A:17-42. Preamble; purpose of article.
The legislature finds that the safety and welfare of the public school students of this state while attending sessions of the public schools is a matter of prime concern to the citizens of this state; that, in several isolated instances throughout this state, unlawful intruders into the public schools have subjected public school students and their teachers to physical and verbal attacks during sessions of the public schools and on the property of said public schools; that such attacks might have been prevented, and similar attacks will be prevented, if public school law enforcement officers are stationed in said schools; and that state aid to local boards is necessary to help such boards bear the cost of employing and stationing public school law enforcement officers.

(a) The commissioner may, in accordance with rules and regulations promulgated pursuant to this article and upon a finding of need therefor, authorize any board of education to employ, subject to the provisions of Title 11, Civil Service, of the Revised Statutes, one or more public school law enforcement officers, and to station such public school law enforcement officers in public schools of this state during hours when said public schools are normally in session or are occupied by public school students or their teachers.

(b) No such public school law enforcement officer shall be employed, except upon the application of a board of education and with the approval of the county superintendent.

The attendance officer shall examine into all violations of this article, shall warn any child violating any of the provisions of this article and the parent, guardian or other person having charge and control of the child of the consequences of the violation if persisted in, and shall notify such person in writing to cause the child to attend school within five days from the date on which notice is served, and regularly thereafter. The attendance officer shall have full police power to enforce the provisions of this article and may arrest without warrant any vagrant child or habitual truant or any child who is habitually incorrigible or who is vicious or immoral in conduct or illegally absent from school.

18A:38-30. Assistance of sheriffs, police officers, etc.
The sheriff and his officers and all police officers and constables shall assist attendance officers in the performance of their duties.

18A:38-31. Failure to comply with provisions of article; fine.
A parent, guardian or other person having charge and control of a child between the ages of 6 and 16 years, who shall fail to comply with any of the provisions of this article relating to his duties, shall be deemed to be a disorderly person and shall be subject to a fine of not more than $25.00 for a first offense and not more than $100.00 for each subsequent offense, in the discretion of the court.

In any such proceeding, the summons issuing therein, or in special circumstances a warrant, shall be directed to the alleged disorderly person and the child.
For the purpose of enforcing the provisions of this article, the board of education of each school district and the board of education of each county vocational school shall appoint a suitable number of qualified persons to be designated as attendance officers, and shall fix their compensation; except that if a county attendance officer or officers are appointed for any county, any district board of education of such county may be exempt from the appointment of a local attendance officer if such exemption is approved by the county superintendent. Each board shall make rules not inconsistent with the provisions of this article and subject to the approval of the commissioner, for the government of the attendance officers.

The services of all attendance officers of the public schools of a city district shall, after employment in such district for one year, be under tenure during good behavior and efficiency and they shall not be dismissed or reduced in compensation except for inefficiency, conduct unbecoming an officer, or other just cause, and only in the manner prescribed by subarticle B of article 2 of chapter 6 of this title.

18A:38-34. Attendance officers in counties other than counties of first class; duties; terms; salaries.
Whenever a majority of the boards of education of any county other than counties of the first class has by resolution requested the appointment of a county attendance officer or officers and, upon investigation, the commissioner and the state board shall deem the appointment of a county attendance officer or officers to be for the best interest of the schools of that county, the commissioner shall appoint, subject to the approval of the state board, a suitable person or persons to be known as the county attendance officer or officers for the county who shall perform in all districts of the county exclusive of city school districts such duties as may be prescribed by rules of the state board. Each county attendance officer shall have the same power to enforce the compulsory school law and rules connected therewith as is conferred upon attendance officers appointed by local boards of education. If any such person so appointed a county attendance officer is in possession of a proper visiting teacher's certificate, in full force and effect, such county attendance officer shall be designated "home and school counsellor," and such "home and school counsellor," in addition to the powers of a county attendance officer, shall have all the powers of a visiting teacher. The term of office of such county attendance officer shall be for one year and the commissioner shall fix the salary of such county attendance officer or officers with the approval of the state board.

The salary of each county attendance officer shall be paid as other state salaries are paid. The director of the division of budget and accounting shall on order of the commissioner draw his warrant for such salary on the state treasurer. b. A special law enforcement officer shall not carry a firearm except while engaged in the actual performance of the officer's official duties and when specifically authorized by the chief of police, or, in the absence of the chief, other chief law enforcement officer of the local unit to carry a firearm and provided that the officer has satisfactorily completed the basic firearms course required by the commission for regular police officers and annual requalification examinations as required for permanent, regularly appointed full-time officers in the local unit.

If the chief of police or other chief law enforcement officer assigns the public safety duties and supervises the performance of those duties, then, notwithstanding that the local unit is reimbursed for the cost of assigning a special law enforcement officer at a private entity, the special law enforcement officer shall be deemed to be on duty. The reimbursement for the duties of a special law enforcement officer, which is made to a municipality with a population in excess of 300,000, according to the 1980 federal decennial census, may be by direct payments from the employer to the special law enforcement officer, provided that records of the hours worked are forwarded to and maintained by the chief of police or other chief law enforcement officer responsible for assigning the special law enforcement officer those public safety duties.

Any firearm utilized by a special law enforcement officer shall be returned at the end of the officer's workday to the officer in charge of the station house, unless the firearm is owned by the special law

Compilation of School Discipline Laws and Regulations

Updated: January 26, 2018
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this New Mexico Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Because of their recent enactment, the 2014 session laws have not been compiled into the official New Mexico Statutes Annotated 1978, nor have corresponding administrative rules or regulations been promulgated for those session laws. Readers should note that the information in this document was compiled from individual state sources that are maintained and updated at differing intervals. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

The New Mexico Public Education Department has reviewed and updated the laws and regulations of the State of New Mexico on public school discipline, as those were last published in the previous edition of the *Compendium of School Discipline Laws and Regulations*, and although every reasonable effort was made to insure the accuracy of the information in this document, no representations or warranties to that effect are made by or on behalf of the New Mexico Public Education Department, or any of its divisions or bureaus.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

3. "unexcused absence" means an absence from school or classes for which the student does not have an allowable excuse pursuant to the Compulsory School Attendance Law or rules of the local school board or governing authority of a charter school or private school.

B. An unexcused absence of two or more classes up to fifty percent of an instructional day shall be counted as one-half day absence, and the unexcused absence of more than fifty percent of an instructional day shall be counted as one full-day absence.

C. Each school district and charter school shall maintain an attendance policy that:
(1) provides for early identification of students with unexcused absences, students in need of early

need of early intervention in an educational setting and prohibit out-of-school suspension and expulsion

REGULATIONS

6.11.2.8 General provisions.
A. Jurisdiction over students. All officials, employees and authorized agents of the public schools whose
responsibilities include supervision of students shall have comprehensive authority within constitutional
bounds to maintain order and discipline in school. In exercising this authority, such officials, employees
and authorized agents of the public schools may exercise such powers of control, supervision, and
correction over students as may be reasonably necessary to enable them to properly perform their duties
and accomplish the purposes of education. This authority applies whenever students are lawfully subject
to the schools’ control, regardless of place. During such periods, public school authorities shall have the
right to supervise and control the conduct of students, and students shall have the duty to submit to the
schools’ authority. The foregoing is intended to reflect the common law regarding the rights, duties and
liabilities of public school authorities in supervising, controlling and disciplining students. Nothing herein
shall be construed as enlarging the liability of public school authorities beyond that imposed by statute,
common law or public education department rule.
B. School authority over non-students. In furtherance of the state’s compelling interest in the orderly
operation of the public schools and school activities, school officials have the following forms of authority
over non-students whose actions adversely affect school operations or activities.
   (1) On school property: Local school boards may prohibit entry to and provide for the removal from any
public school building or grounds of any person who refuses to identify him/herself and state a lawful
purpose for entering. Any person who refuses may be removed by school authorities, who may use
reasonable physical force to accomplish the removal. Alternately, a person who refuses and who then
refuses a lawful request to leave school premises may be subject to arrest by law officers for criminal
offenses including but not limited to criminal trespass, interference with the educational process or
disorderly conduct. A person who does identify him/herself and states a lawful purpose may
nevertheless be subject to removal by school officials for engaging in activities prohibited by this rule. The person may also be subject to arrest by law officers if (s)he is committing any crime.

(2) Off school property: Public school authorities have indirect and limited authority over the activities of non-students off school property. To the extent that non-students' conduct at or near schools or school-sponsored activities may constitute a criminal offense, including the crimes of interference with the educational process, disorderly conduct or criminal trespass (after refusing a lawful request to leave), school authorities may request law enforcement agencies to arrest the offenders.

C. Statement of policy. A primary responsibility of the New Mexico public schools and their professional staffs shall be to instill in students an appreciation of our representative form of government, the rights and responsibilities of the individual or group and the legal processes whereby necessary changes are effected.

(1) The school is a community and the rules and regulations of a school are the laws of that community. All persons enjoying the rights of citizenship are subject to the laws of their community. Each carries with it a corresponding obligation.

(2) The right to attend public school is not absolute. It is conditioned on each student's acceptance of the obligation to abide by the lawful rules of the school community until and unless the rules are changed through lawful processes.

(3) Teachers, administrators and other school employees also have rights and duties. Teachers are required by law to maintain a suitable environment for teaming in their classes and to assist in maintaining school order and discipline. Administrators are responsible for maintaining and facilitating the educational program by ensuring an orderly, safe environment in the public schools. In discharging their duties, all school employees have the right to be free from intimidation or abuse and to have their lawful requests and instructions followed.

(4) Nothing in this rule shall be held to affect the due process rights of school employees or their use of any local school district grievance procedure. This rule does not address employment disputes.

D. Local school board authority: Local school boards have both the authority and the responsibility to ensure that suitable rules of student conduct and appropriate disciplinary processes are established within their school districts. Within legal limits as defined in Subsection L. of 6.11.2.7 NMAC above, and subject to the minimums prescribed in this rule, local boards have discretion to develop such rules, regulations, policies and procedures as they deem appropriate to local conditions, including policies which afford students more protection than the minimums established here. Local school boards and administrative authorities which deem it appropriate may provide for student, community or appropriate state and local agency participation in the formulation and enforcement of school rules.

E. Severability: Any part of this rule found by adjudication before a competent tribunal to be contrary to law shall be stricken without effect to the remainder.

Each local school board or governing body shall establish a tobacco, alcohol and drug free school policy:

A. The policy shall provide specific rules of conduct prohibiting the use, possession and distribution of tobacco products, e-cigarettes and nicotine liquid containers, alcoholic beverages, mood-altering substances and illicit drugs in school buildings, on school premises and by students at school-sponsored activities away from school grounds.

B. Each school district and state-chartered charter school shall detail the prohibited acts and activities under the policy, and shall establish adequate provisions for its enforcement, including the enumeration of possible sanctions or disciplinary action, consistent with applicable statutory and case law.
C. The policy shall provide that no school employee who in good faith reports any known or suspected use, possession or distribution of alcoholic beverages, mood-altering substances or illicit drugs shall be held liable for any civil damages as a result of such report or efforts to enforce the policy.

D. Each school district and state-chartered charter school shall develop and implement a procedure for effectively communicating the policy to students, their parents and families, school personnel, visitors on school premises, and to local residents, groups, businesses and organizations served by the school.

E. Each school district and state-chartered charter school shall post conspicuous notices on all school premises prohibiting the use, possession and distribution of tobacco products, e-cigarettes and nicotine liquid containers, alcoholic beverages, mood-altering substances and illicit drugs, in school buildings, on school premises and by students at school-sponsored activities away from school grounds.

B. Each local school board shall develop and implement a policy that addresses and cyberbullying. Each local school board shall make any necessary revisions to its disciplinary policies to ensure that cyberbullying is addressed in accordance with the requirements of this rule.

C. The anti-bullying policy shall at least include, but shall not be limited to:

   (1) definitions;
   (2) an absolute prohibition against bullying and cyberbullying;
   (3) a method to ensure initial and annual dissemination of the anti-bullying and anti-cyberbullying policy to all students, parents, teachers, administrators and all other school or district employees;
   (4) procedures for reporting incidents of bullying and cyberbullying which ensure confidentiality to those reporting bullying or cyberbullying incidents and protection from reprisal, retaliation or false accusation against victims, witnesses or others with information regarding a bullying or cyberbullying incident;
   (5) consequences for bullying and cyberbullying which include consideration of compliance with state and federal IDEA requirements;
   (6) consequences for knowingly making false reports pursuant to the anti-bullying policy;
   (7) procedures for investigation by administration of incidents reported pursuant to the anti-bullying policy;
   (8) a requirement that teachers and other school staff report any incidents of bullying and cyberbullying; and
   (9) a requirement that anti-bullying is included as part of the health education curriculum as set forth in 6.30.2.19 NMAC (“content standards - health education”).

D. The cyberbullying prevention policy shall require that:

   (1) all licensed school employees complete training on how to recognize signs of cyberbullying;
   (2) any licensed school employee who has information about or a reasonable suspicion of cyberbullying shall report the matter immediately to either or both the school principal and the local superintendent or to the head administrator of a charter school;
   (3) any school administrator or local superintendent who receives a report of cyberbullying take immediate steps to ensure prompt investigation of the report; and
   (4) school administrators take prompt disciplinary action in response to cyberbullying confirmed through investigation; disciplinary action taken pursuant to this subsection must be by the least restrictive means necessary to address a hostile environment on the school campus resulting from the confirmed
cyberbullying and may include counseling, mediation and appropriate disciplinary action that is consistent with the legal rights of the involved students.

E. Every public school shall implement a bullying and cyberbullying prevention program.

F. Every local school board shall submit to the department, as directed by the department, assurances of:
   (1) adoption and implementation of a policy addressing bullying and cyberbullying; and
   (2) review and, if necessary, revision of disciplinary polices to ensure that the policies address cyberbullying; and
   (3) implementation of cyberbullying training for all licensed school employees.

REGULATIONS

6.11.2.7. Definitions.
A. "Administrative authority" means the local school district superintendent, a principal or a person authorized by either to act officially in a matter involving school discipline or the maintenance of order. The term may include school security officers, but only to the extent of their authority as established under written local school board policies.
E. "Disciplinarian" means a person or group authorized to impose punishment after the facts have been determined by a hearing authority.
F. "Disruptive conduct" means willful conduct which:
   (1) materially and in fact disrupts or interferes with the operation of the public schools or the orderly conduct of any public school activity, including individual classes; or
   (2) leads an administrative authority reasonably to forecast that such disruption or interference is likely to occur unless preventive action is taken.
J. "Immediate removal" means the removal of a student from school for one school day or less under emergency conditions and without a prior hearing.
P. "Refusal to cooperate with school personnel" means a student's willful refusal to obey the lawful instructions or orders of school personnel whose responsibilities include supervision of students.
T. "School personnel" means all members of the staff, faculty and administration employed by the local school board. The term includes school security officers, school bus drivers and their aides, and also authorized agents of the schools, such as volunteers or chaperons, whose responsibilities include supervision of students.
U. "Student" means a person who is enrolled in one or more classes at a public school or a person who was a student during the previous school year and is participating in a school sponsored activity connected with his or her prior status as a student.
V. "Temporary suspension" means the removal of a student from school for a specified period of 10 school days or less after a rudimentary hearing.

The authority of the state and of local school boards to prescribe and enforce standards of conduct for public school students must be exercised consistently with constitutional safeguards of individual student rights. The right to a public education is not absolute; it may be taken away, temporarily or permanently, for violations of school rules. But it is a property right which may only be denied where school authorities have adhered to the minimum procedural safeguards required to afford the student due process of law. This section prescribes minimum requirements for detention, in-school suspension and temporary, long-term or permanent removal of students from the public schools. Local school boards may adopt procedures which afford students more protection than this rule requires. The procedures in this section apply only to disciplinary detentions, suspensions and expulsions. […]

A. Post-suspension placement of students. Any student suspended from school shall be delivered directly by a school official to the student's parent(s), legal guardian or an adult designated by the parent(s) or the legal guardian, or kept on school grounds until the usual end of the school day.

B. Students with disabilities. This section does not apply to long-term suspension or expulsion of students who are disabled pursuant to the IDEA or Section 504. The procedures for long-term suspension or expulsion of disabled students are set forth in Section 6.11.2.11 NMAC above. School personnel under this section may remove a student with a disability who violates a rule of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to students without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under Subsection G of 6.11.2.11 NMAC).

C. Immediate removal: Students whose presence poses a continuing danger to persons or property or an ongoing threat of interfering with the educational process may be immediately removed from school, subject to the following rules.

(1) A rudimentary hearing, as required for temporary suspensions, shall follow as soon as possible.

(2) Students shall be reinstated after no more than one school day unless within that time a temporary suspension is also imposed after the required rudimentary hearing. In such circumstances, a single hearing will support both the immediate removal and a temporary suspension imposed in connection with the same incident(s).

(3) The school shall exert reasonable efforts to inform the student's parent of the charges against the student and the action taken as soon as practicable. If the school has not communicated with the parent by telephone or in person by the end of the school day following the immediate removal, the school shall on that day mail a written notice with the required information to the parent's address of record.

D. Temporary suspension.

(1) A local school board may limit temporary suspensions to periods shorter than ten (10) school days.

(2) A student facing temporary suspension shall first be informed of the charges against him or her and, if (s)he denies them, shall be told what evidence supports the charge(s) and be given an opportunity to present his or her version of the facts. The following rules apply.

(a) The hearing may be an informal discussion and may follow immediately after the notice of the charges is given.

(b) Unless the administrative authority decides a delay is essential to permit a fuller exploration of the facts, this discussion may take place and a temporary suspension may be imposed within minutes after the alleged misconduct has occurred.

(c) A student who denies a charge of misconduct shall be told what act(s) (s)he is accused of committing, shall be given an explanation of the evidence supporting the accusation(s) and shall then
be given the opportunity to explain his or her version of the facts. The administrative authority is not required to divulge the identity of informants, although (s)he should not withhold such information without good cause. (S)he is required to disclose the substance of all evidence on which (s)he proposes to base a decision in the matter.

(d) The administrative authority is not required to allow the student to secure counsel, to confront or cross-examine witnesses supporting the charge(s), or to call witnesses to verify the student's version of the incident, but none of these is prohibited.

(e) The school shall exert reasonable efforts to inform the student's parent of the charges against the student and their possible or actual consequence as soon as practicable. If the school has not communicated with the parent by telephone or in person by the end of the first full day of suspension, the school shall on that day mail a written notice with the required information to the parent's address of record.

E. In-school suspension.

(1) In-school suspension may be imposed with or without further restriction of student privileges. Any student who is placed in an in-school suspension which exceeds ten (10) school days must be provided with an instructional program that meets both state and local educational requirements. Student privileges, however, may be restricted for longer than ten (10) school days.

(2) In-school suspensions of any length shall be accomplished according to the procedures for a temporary suspension as set forth above. A local school board may limit the length of in-school suspensions which may be accomplished under temporary suspension procedures. No in-school suspension student shall be denied an opportunity to eat lunch or reasonable opportunities to go to the restroom.

F. Detention.

(1) Detention may be imposed in connection with in-school suspension, but is distinct from in-school suspension in that it does not entail removing the student from any of his or her regular classes.

(2) The authority of the schools to supervise and control the conduct of students includes the authority to impose reasonable periods of detention during the day or outside normal school hours as a disciplinary measure. No detained student shall be denied an opportunity to eat lunch or reasonable opportunities to go to the restroom. Reasonable periods of detention may be imposed in accordance with the procedures for temporary suspension.

G. Long-term suspension and expulsion.

(1) Each local school board shall authorize appropriate administrative authorities to initiate procedures leading to long-term suspension or expulsion. Where prompt action to suspend a student long-term is deemed appropriate, a temporary suspension may be imposed while the procedures for long-term suspension or expulsion are activated. However, where a decision following the required formal hearing is delayed beyond the end of the temporary suspension, the student must be returned to school pending the final outcome unless the provisions of Subsection G, Paragraph (4), Subparagraphs (j) and (k) of Section 6.11.2.12 NMAC below apply.

(2) A student who has been validly expelled or suspended is not entitled to receive any educational services from the local district during the period of the exclusion from school. A local school board may provide alternative arrangements, including correspondence courses at the student's or parent's expense pursuant to public education department requirements, if the board deems such arrangements appropriate.

(3) Each local school board shall establish, or shall authorize appropriate administrative authorities to establish, appropriate processes for handling long-term suspensions and expulsions. Unless the terms expressly indicate otherwise, nothing in the procedures below shall be construed as directing that any
required decision be made by any particular person or body or at any particular level of administrative organization.

(4) The following rules shall govern the imposition of long-term suspensions or expulsions:

(a) Hearing authority; disciplinarian. The same person or group may, but need not, perform the functions of both hearing authority and disciplinarian. Where the functions are divided, the hearing authority's determination of the facts is conclusive on the disciplinarian, but the disciplinarian may reject any punishment recommended by the hearing authority.

(b) Review authority. Unless the local school board provides otherwise, a review authority shall have discretion to modify or overrule the disciplinarian's decision, but may not impose a harsher punishment. A review authority shall be bound by a hearing authority's factual determinations except as provided in Subsection G, Paragraph (4), Subparagraph (o) of Section 6.11.2.12 NMAC below.

(c) Disqualification. No person shall act as hearing authority, disciplinarian or review authority in a case where (s)he was directly involved in or witnessed the incident(s) in question, or if (s)he has prejudged disputed facts or is biased for or against any person who will actively participate in the proceedings.

(d) Local board participation. A local board may act as hearing authority, disciplinarian or review authority for any cases involving proposed long-term suspensions or expulsions. Whenever a quorum of the local board acts in any such capacity, however, the Open Meetings Act, Section 10-15-1 et seq., NMSA 1978, requires a public meeting.

(e) Initiation of procedures. An authorized administrative authority shall initiate procedures for long-term suspension or expulsion of a student by designating a hearing authority and disciplinarian in accordance with local board policies, scheduling a formal hearing in consultation with the hearing authority and preparing and serving a written notice meeting the requirements of Subsection G, Paragraph (4), Subparagraph (h) of Section 6.11.2.12 NMAC below.

(f) Service of notice. The written notice shall be addressed to the student, through his or her parent(s), and shall be served upon the parent(s) personally or by mail.

(g) Timing of hearing. The hearing shall be scheduled no sooner than five (5) nor later than ten (10) school days from the date of receipt of the notice by the parent(s). The hearing authority may grant or deny a request to delay the hearing in accordance with the provisions of Subsection G, Paragraph (4), Subparagraph (i) of Section 6.11.2.12 NMAC below.

(h) Contents of notice. The written notice must contain all of the following information, parts of which may be covered by appropriate reference to copies of any policies or regulations furnished with the notice:

   (i) the school rule(s) alleged to have been violated, a concise statement of the alleged act(s) of the student on which the charge(s) are based and a statement of the possible penalty;

   (ii) the date, time and place of the hearing, and a statement that both the student and parent are entitled and urged to be present;

   (iii) a clear statement that the hearing will take place as scheduled unless the hearing authority grants a delay or the student and parent agree to waive the hearing and comply voluntarily with the proposed disciplinary action or with a negotiated penalty, and a clear and conspicuous warning that a failure to appear will not delay the hearing and may lead to the imposition of the proposed penalty by default;

   (iv) a statement that the student has the right to be represented at the hearing by legal counsel, a parent or some other representative designated in a written notice filed at least seventy-two (72) hours before the hearing with the contact person named pursuant to Subsection G, Paragraph (4), Subparagraph (h), Sub-subparagraph (vi) of Section 6.11.2.12 NMAC below;
(v) a description of the procedures governing the hearing;
(vi) the name, business address and telephone number of a contact person through whom the student, parent or designated representative may request a delay or seek further information, including access to any documentary evidence or exhibits which the school proposes to introduce at the hearing; and
(vii) any other information, materials or instructions deemed appropriate by the administrative authority who prepares the notice.

(i) Delay of hearing. The hearing authority shall have discretion to grant or deny a request by the student or the appropriate administrative authority to postpone the hearing. Such discretion may be limited or guided by local school board policies not otherwise inconsistent with this rule.

(j) Students status pending hearing. Where a student has been suspended temporarily and a formal hearing on long-term suspension or expulsion will not occur until after the temporary suspension has expired, the student shall be returned to school at the end of the temporary suspension unless:
   (i) the provisions of Subsection G, Paragraph (4), Subparagraph (k) of Section 6.11.2.12 NMAC below apply, or
   (ii) the student and parent(s) have knowingly and voluntarily waived the students right to return to school pending the outcome of the formal proceedings, or
   (iii) the appropriate administrative authority has conducted an interim hearing pursuant to a written local school board policy made available to the student which affords further due process protection sufficient to support the student's continued exclusion pending the outcome of the formal procedures.

(k) Waiver of hearing; voluntary compliance or negotiated penalty. A student and his or her parent(s) may elect to waive the formal hearing and review procedures and comply voluntarily with the proposed penalty, or may waive the hearing and review and negotiate a mutually acceptable penalty with the designated disciplinarian. Such a waiver and compliance agreement shall be made voluntarily, with knowledge of the rights being relinquished, and shall be evidenced by a written document signed by the student, the parent(s), and the appropriate school official.

(l) Procedure for hearing and decision. The formal hearing is not a trial. It is an administrative hearing designed to ensure a calm, orderly determination by an impartial hearing authority of the facts of a case of alleged serious misconduct. Technical rules of evidence and procedure do not apply. The following-rules govern the conduct of the hearing and the ultimate decision.
   (i) The school shall have the burden of proof of misconduct.
   (ii) The student and his or her parent shall have the following rights: The right to be represented by legal counsel or other designated representative, however, the school is not required to provide representation; the right to present evidence, subject to reasonable requirements of substantiation at the discretion of the hearing authority and subject to exclusion of evidence deemed irrelevant or redundant; the right to confront and cross-examine adverse witnesses, subject to reasonable limitation by the hearing authority; the right to have a decision based solely on the evidence presented at the hearing and the applicable legal rules, including the governing rules of student conduct.
   (iii) The hearing authority shall determine whether the alleged act(s) of misconduct have been proved by a preponderance of the evidence presented at a hearing at which the student or a designated representative has appeared.
   (iv) If no one has appeared on the student's behalf within a reasonable time after the announced time for the hearing, the hearing authority shall determine whether the student, through the parent,
received notice of the hearing. If so, the hearing authority shall review the schools’ evidence to
determine whether it is sufficient to support the charges(s) of misconduct.

(v) A hearing authority who is also a disciplinarian shall impose an appropriate sanction if (s)he
finds that the allegations of misconduct have been proved under the standards of either Subsection
G, Paragraph (4), Subparagraph (l), Sub-subparagraph (iii) or Sub-subparagraph (iv) of Section
6.11.2.12 NMAC above. A hearing authority who is not a disciplinarian shall report its findings,
 together with any recommended sanction, to the disciplinarian promptly after the hearing.

(vi) Arrangements to make a tape recording or keep minutes of the proceedings shall be made by
the administrative authority who scheduled the hearing and prepared the written notice. A verbatim
written transcript is not required, but any minutes or other written record shall fairly reflect the
substance of the evidence presented.

(vii) The hearing authority may announce a decision on the question of whether the allegation(s) of
misconduct have been proved at the close of the hearing. A hearing authority who is also a
disciplinarian may also impose a penalty at the close of the hearing.

(viii) In any event, the hearing authority shall prepare and mail or deliver to the student, through the
parent, a written decision within five (5) working days after the hearing. The decision shall include a
concise summary of the evidence upon which the hearing authority based its factual determinations.
A hearing authority who is also a disciplinarian shall include in the report a statement of the penalty,
if any, to be imposed, and shall state reasons for the chosen penalty. A hearing authority who is not
a disciplinarian shall forward a copy of his or her written decision to the disciplinarian forthwith. The
disciplinarian shall prepare a written decision, including reasons for choosing any penalty imposed,
and mail or deliver it to the student, through the parent, within five (5) working days of receipt of the
hearing authority's report.

(ix) A disciplinarian who is not a hearing authority may observe but not participate in the
proceedings at a formal hearing. If the disciplinarian has done so and if the hearing authority
announces a decision at the close of the hearing, the disciplinarian may also announce his or her
decision at that time.

(x) The disciplinarian's decision shall take effect immediately upon initial notification to the parent,
either at the close of the hearing or upon receipt of the written decision. If initial notification is by
mail, the parent shall be presumed to have received the notice on the fifth calendar day after the
date of mailing unless a receipt for certified mail, if used, indicates a different date of receipt.

(m) Effect of decision. If the hearing authority decides that no allegation(s) of misconduct have been
proved, or if the disciplinarian declines to impose a penalty despite a finding that an act or acts of
misconduct have been proved, the matter shall be closed. If the disciplinarian imposes any sanction
on the student, the decision shall take effect immediately upon notification to the parent and shall
continue in force during any subsequent review.

(n) Right of review. Unless the local school board was the disciplinarian, a student aggrieved by a
disciplinarian's decision after a formal hearing shall have the right to have the decision reviewed if the
penalty imposed was at least as severe as a long-term suspension or expulsion, an in-school
suspension exceeding one school semester or a denial or restriction of student privileges for one
semester or longer. A local school board may grant a right of review for less severe penalties. Local
school boards shall establish appropriate mechanisms for review except where the local board was
the disciplinarian, in which case its decision is final and not reviewable administratively. A student
request for review must be submitted to the review authority within ten (10) school days after the
student is informed of the disciplinarian's decision.

(o) Conduct of review. Unless the local board provides otherwise, a review authority shall have
discretion to modify the disciplinarian's decision, including imposing any lesser sanction deemed
appropriate. A review authority shall be bound by the hearing authority's factual determinations unless the student persuades the review authority that a finding of fact was arbitrary, capricious or unsupported by substantial evidence or that new evidence which has come to light since the hearing and which could not with reasonable diligence have been discovered in time for the hearing would manifestly change the factual determination. Upon any such finding, the review authority shall have discretion to receive new evidence, reconsider evidence introduced at the hearing or conduct a de novo hearing. In the absence of any such finding, the review shall be limited to an inquiry into the appropriateness of the penalty imposed.

(p) Form of review. Unless the local board provides otherwise, a review authority shall have discretion to conduct a review on the written record of the hearing and decision in the case, to limit new submissions by the aggrieved student and school authorities to written materials or to grant a conference or hearing at which the student and his or her representative, and school authorities may present their respective views in person. Where a conference or hearing is granted, the record-keeping requirements of Subsection G., Paragraph (4), Sub-paragraph (l), Sub-paragraph (vi) of Section 6.11.2.12 NMAC above apply.

(q) Timing of review. Except in extraordinary circumstances, a review shall be concluded no later than fifteen (15) working days after a student's written request for review is received by the appropriate administrative authority.

(r) Decision. A review authority may announce a decision at the close of any conference or hearing held on review. In any event, the review authority shall prepare a written decision, including concise reasons, and mail or deliver it to the disciplinarian, the hearing authority and the student, through the parent, within ten (10) working days after the review is concluded.

(s) Effect of decision. Unless the local school board provides otherwise, a review authority's decision shall be the final administrative action to which a student is entitled.

6.11.2.7. Definitions.

D. "Detention" means requiring a student to remain inside or otherwise restricting his or her liberty at times when other students are free for recess or to leave school.

K. "In-school suspension" means suspending a student from one or more regular classes while requiring the student to spend the time in a designated area at the same school or elsewhere.

The authority of the state and of local school boards to prescribe and enforce standards of conduct for public school students must be exercised consistently with constitutional safeguards of individual student rights

E. In-school suspension.

(1) In-school suspension may be imposed with or without further restriction of student privileges. Any student who is placed in an in-school suspension which exceeds ten (10) school days must be provided with an instructional program that meets both state and local educational requirements. Student privileges, however, may be restricted for longer than ten (10) school days.
(2) In-school suspensions of any length shall be accomplished according to the procedures for a temporary suspension as set forth above. A local school board may limit the length of in-school suspensions which may be accomplished under temporary suspension procedures. No in-school suspension student shall be denied an opportunity to eat lunch or reasonable opportunities to go to the restroom.

F. Detention.

(1) Detention may be imposed in connection with in-school suspension, but is distinct from in-school suspension in that it does not entail removing the student from any of his or her regular classes.

(2) The authority of the schools to supervise and control the conduct of students includes the authority to impose reasonable periods of detention during the day or outside normal school hours as a disciplinary measure. Use of student and locker searches

LAWS

22-5-4.12. Use of restraint and seclusion; techniques; requirements.
A. A school may permit the use of restraint or seclusion techniques on any student only if both of the following apply:

(1) the student's behavior presents an imminent danger of serious physical harm to the student or others; and

(2) less restrictive interventions appear insufficient to mitigate the imminent danger of serious physical harm.

B. If a restraint or seclusion technique is used on a student:

(1) school employees shall maintain continuous visual observation and monitoring of the student while the restraint or seclusion technique is in use;

(2) the restraint or seclusion technique shall end when the student's behavior no longer presents an imminent danger of serious physical harm to the student or others;
(3) the restraint or seclusion technique shall be used only by school employees who are trained in the safe and effective use of restraint and seclusion techniques unless an emergency situation does not allow sufficient time to summon those trained school employees;
(4) the restraint technique employed shall not impede the student's ability to breathe or speak; and
(5) the restraint technique shall not be out of proportion to the student's age or physical condition.

C. Schools shall establish policies and procedures for the use of restraint or seclusion techniques in a school safety plan; provided that:
(1) the school safety plan shall not be specific to any individual student; and
(2) any school safety plan shall be drafted by a planning team that includes at least one special education expert.

D. Schools shall establish reporting and documentation procedures to be followed when a restraint or seclusion technique has been used on a student. The procedures shall include the following provisions:
(1) a school employee shall provide the student's parent or guardian with written or oral notice on the same day that the incident occurred, unless circumstances prevent same-day notification. If the notice is not provided on the same day of the incident, notice shall be given within twenty-four hours after the incident;
(2) within a reasonable time following the incident, a school employee shall provide the student's parent or guardian with written documentation that includes information about any persons, locations or activities that may have triggered the behavior, if known, and specific information about the behavior and its precursors, the type of restraint or seclusion technique used and the duration of its use; and
(3) schools shall review strategies used to address a student's dangerous behavior if use of restraint or seclusion techniques for an individual student has occurred two or more times during any thirty-calendar-day period. The review shall include:
   (a) a review of the incidents in which restraint or seclusion techniques were used and an analysis of how future incidents may be avoided, including whether the student requires a functional behavioral assessment; and
   (b) a meeting of the student's individualized education program team, behavioral intervention plan team or student assistance team within two weeks of each use of restraint or seclusion after the second use within a thirty-calendar-day period to provide recommendations for avoiding future incidents requiring the use of restraint or seclusion.

E. If a school summons law enforcement instead of using a restraint or seclusion technique on a student, the school shall comply with the reporting, documentation and review procedures established pursuant to Subsection D of this section.

F. Policies regarding restraint and seclusion shall consider school district support and strategies for school employees to successfully reintegrate a student who has been restrained or secluded back into the school or classroom environment.

G. The provisions of this section shall not be interpreted as addressing the conduct of law enforcement or first responders.

H. The provisions of this section do not apply to any school located within a county juvenile detention center or a state-operated juvenile facility.

I. For the purposes of this section:
   (1) "first responder" means a person based outside of a school who functions within the emergency medical services system and who is dispatched to a school to provide initial emergency aid;
   (2) "mechanical restraint" means the use of any device or material attached or adjacent to the student's body that restricts freedom of movement or normal access to any portion of the student's body and that
the student cannot easily remove, but "mechanical restraint" does not include mechanical supports or protective devices;

(3) "physical restraint" means the use of physical force without the use of any device or material that restricts the free movement of all or a portion of a student's body, but "physical restraint" does not include physical escort;

(4) "restraint" when not otherwise modified means mechanical or physical restraint; and

(5) "seclusion" means the involuntary confinement of a student alone in a room from which egress is prevented. "Seclusion" does not mean the use of a voluntary behavior management technique, including a timeout location, as part of a student's education plan, individual safety plan, behavioral plan or individualized education program that involves the student's separation from a larger group for purposes of calming.

REGULATIONS

6.11.2.10. Enforcing rules of conduct.

B. Search and seizure: School property assigned to a student and a student's person or property while under the authority of the public schools are subject to search, and items found are subject to seizure, in accordance with the requirements below.

(1) Notice of search policy. Students shall be given reasonable notice, through distribution of written policies or otherwise, of each school's policy on searches at the beginning of each school year or upon admission for students entering during the school year.

(2) Who may search. Certified school personnel, school security personnel and school bus drivers are "authorized persons" to conduct searches when a search is permissible as set forth below. An authorized person who is conducting a search may request the assistance of some other person(s), who upon consent become(s) an authorized person for the purpose of that search only.

(3) When search permissible. Unless local school board policy provides otherwise, an authorized person may conduct a search when (s)he has a reasonable suspicion that a crime or other breach of disciplinary rules is occurring or has occurred. An administrative authority may direct or conduct a search under the same conditions and also when (s)he has reasonable cause to believe that a search is necessary to help maintain school discipline.

(4) Conduct of searches; witnesses. The following requirements govern the conduct of permissible searches by authorized persons:

(a) School property, including lockers and school buses, may be searched with or without students present unless a local school board or administrative authority provides otherwise. When students are not present for locker searches, another authorized person shall serve as a witness whenever possible. Locks furnished by students should not be destroyed unless a student refuses to open one or circumstances otherwise render such action necessary in the judgment of the administrative authority.

(b) Student vehicles when on campus or otherwise under school control and students' personal effects which are not within their immediate physical possession may be searched in accordance with the requirements for locker searches.

(c) Physical searches of a student's person may be conducted only by an authorized person who is of the same sex as the student, and except when circumstances render it impossible may be conducted only in the presence of another authorized person of the same sex. The extent of the search must be reasonably related to the infraction, and the search must not be excessively intrusive in light of the student's age and sex, and the nature of the infraction.
(5) Seizure of items: Illegal items, legal items which threaten the safety or security of others and items which are used to disrupt or interfere with the educational process may be seized by authorized persons. Seized items shall be released to appropriate authorities or a student's parent or returned to the student when and if the administrative authority deems appropriate.

(6) Notification of law enforcement authorities: Unless a local school board policy provides otherwise, an administrative authority shall have discretion to notify the local children's court attorney, district attorney or other law enforcement officers when a search discloses illegally possessed contraband material or evidence of some other crime or delinquent act.

22-12-2.1. Interscholastic extracurricular activities; student participation.
A. A student shall have a 2.0 grade point average on a 4.0 scale, or its equivalent, either cumulatively or for the grading period immediately preceding participation, in order to be eligible to participate in any interscholastic extracurricular activity. For purposes of this section, "grading period" is a period of time not less than six weeks. The provisions of this subsection shall not apply to special education students placed in class C and class D programs.
B. No student shall be absent from school for school-sponsored interscholastic extracurricular activities in excess of fifteen days per semester, and no class may be missed in excess of fifteen times per semester.

K. "In-school suspension" means suspending a student from one or more regular classes while requiring the student to spend the time in a designated area at the same school or elsewhere.

6.11.2.12 Procedure for detentions, suspensions, and expulsions.
This section prescribes minimum requirements for detention, in-school suspension and temporary, long-term or permanent removal of students from the public schools. Local school boards may adopt procedures which afford students more protection than this rule requires. The procedures in this section apply only to disciplinary detentions, suspensions and expulsions. They do not apply to disenrollment of students who fail to meet immunization, age, residence or other requirements for valid enrollment, nor to the removal from school membership reports of students who have been absent from school for ten (10) consecutive school days in accordance with Subsection B of Section 22-8-2 NMSA 1978. Nothing in this section should be construed as prohibiting school boards or administrative authorities from involving other school staff, students and members of the community in the enforcement of rules of student conduct to the extent they believe is appropriate. […]
B. Students with disabilities. This section does not apply to long-term suspension or expulsion of students who are disabled pursuant to the IDEA or Section 504. The procedures for long-term suspension or expulsion of disabled students are set forth in Section 6.11.2.11 NMAC above. School personnel under this section may remove a student with a disability who violates a rule of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to students without disabilities), and for additional removals of not more than 10 consecutive school days in
that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under Subsection G of 6.11.2.11 NMAC above). […]

E. In-school suspension.

(1) In-school suspension may be imposed with or without further restriction of student privileges. Any student who is placed in an in-school suspension which exceeds ten (10) school days must be provided with an instructional program that meets both state and local educational requirements. Student privileges, however, may be restricted for longer than ten (10) school days.

(2) In-school suspensions of any length shall be accomplished according to the procedures for a temporary suspension as set forth above. A local school board may limit the length of in-school suspensions which may be accomplished under temporary suspension procedures. No in-school suspension student shall be denied an opportunity to eat lunch or reasonable opportunities to go to the restroom.

F. Detention.

(1) Detention may be imposed in connection with in-school suspension, but is distinct from in-school suspension in that it does not entail removing the student from any of his or her regular classes.

(2) The authority of the schools to supervise and control the conduct of students includes the authority to impose reasonable periods of detention during the day or outside normal school hours as a disciplinary measure. No detained student shall be denied an opportunity to eat lunch or reasonable opportunities to go to the restroom. Reasonable periods of detention may be imposed in accordance with the procedures for temporary suspension. […]

22-5-4.7. Additional student discipline policies; weapon-free schools.
A. In addition to other student discipline policies, each school district shall adopt a policy providing for the expulsion from school, for a period of not less than one year, of any student who is determined to have knowingly brought a weapon to a school under the jurisdiction of the local board. The local school board or the superintendent of the school district may modify the expulsion requirement on a case-by-case basis.
B. Student discipline polices shall also provide for placement in an alternative educational setting, for not more than forty-five days, of any student with a disability who is determined to have knowingly brought a weapon to a school under the jurisdiction of the local board. If a parent or guardian of the student requests a due process hearing, then the student shall remain in the alternative educational setting during the pendency of any proceeding, unless the parent or guardian and the school district agree otherwise.

REGULATIONS

6.11.2.7. Definitions.
L. "Legal limits" include the requirements of the federal and state constitutions and governing statutes, standards and regulations, and also include the fundamental common-law requirement that rules of student conduct be reasonable exercises of the schools' authority in pursuance of legitimate educational and related functions. There are special limitations arising from constitutional guarantees of protected free speech and expression which must be balanced against the schools need to foster an educational atmosphere free from undue disruptions to appropriate discipline.
W. "Weapon" as set forth in Section 22-5-4.7 NMSA 1978 means:
(1) any firearm that is designed to, may readily be converted to or will expel a projectile by the action of an explosion; and

The local school board or the superintendent of the school district may modify the expulsion requirement on a case-by-case basis.

22-12-3.1. Excused absences for pregnant and parenting students.

A. Each school district and charter school shall maintain an attendance policy that:

(1) provides ten days of excused absences for a student who provides documentation of the birth of the student's child; provided that the student shall be allowed a time period to make up the work that the student missed that equals the number of days the student was absent for the birth of a child; and

(2) provides four days of excused absences for a student who provides appropriate documentation of pregnancy or that the student is the parent of a child under the age of thirteen needing care; and allows the student a time period to make up the work that the student missed that equals the number of days the student was absent.

22-12-9. Unexcused absences and truancy; attendance policies.

A. As used in this section and Sections 22-12-7 and 22-12-8 NMSA 1978:

(1) "habitual truant" means a student who has accumulated the equivalent of ten days or more of unexcused absences within a school year;

(2) "student in need of early intervention" means a student who has accumulated five unexcused absences within a school year; and
(3) “unexcused absence” means an absence from school or classes for which the student does not have an allowable excuse pursuant to the Compulsory School Attendance Law or rules of the local school board or governing authority of a charter school or private school.

C. Each school district and charter school shall maintain an attendance policy that:

1) provides for early identification of students with unexcused absences, students in need of early intervention and habitual truants and provides intervention strategies that focus on keeping students in need of early intervention in an educational setting and prohibit out-of-school suspension and expulsion as the punishment for unexcused absences and habitual truancy;

6.11.2.10. Enforcing rules of conduct.

G. Discipline of students with disabilities: Students with disabilities are not immune from school disciplinary processes, nor are they entitled to remain in a particular educational program when their behavior substantially impairs the education of other children in the program. However, the public schools
are required by state law and regulations to meet the individual educational needs of students with disabilities to the extent that current educational expertise permits. Public school personnel may consider any unique circumstances on a case-by-case basis when determining whether a change of placement, consistent with the other requirements of 6.11.2.11 NMAC, is appropriate for a student with a disability who violates a code of conduct as provided in 34 CFR Sec. 300.530. […]

(1) Long-term suspensions or expulsions of students with disabilities shall be governed by the procedures set forth in Section 6.11.2.11 NMAC below.

(2) Temporary suspensions of students with disabilities may be imposed in accordance with the normal procedures prescribed in Subsection D of Section 6.11.2.12 NMAC below, provided that the student is returned to the same educational placement after the temporary suspension and unless a temporary suspension is prohibited under the provisions of Subsection G, Paragraph (3) of 6.11.2.10 NMAC below.

(3) Program prescriptions. A student with a disability's individualized education program (IEP), under the Individuals with Disabilities Education Improvement Act of 2004 (IDEA), need not affirmatively authorize disciplinary actions which are not otherwise in conflict with this rule. However, the IEP team may prescribe or prohibit specified disciplinary measures for an individual student with a disability by including appropriate provisions in the student's IEP. Administrative authorities shall adhere to any such provisions contained in a student with a disability's IEP, except that an IEP team may not prohibit the initiation of proceedings for long-term suspension or expulsion which are conducted in accordance with this rule.

(4) Immediate removal. Immediate removal of students with disabilities may be done in accordance with the procedures of Subsection C of Section 6.11.2.12 NMAC below.

(5) A student who has not been determined to be eligible for special education and related services under 6.31.2 NMAC and who has engaged in behavior that violated a code of student conduct may assert any of the protections provided for in this subsection if the conditions set forth in 34 CFR Sec. 300.534 have been met.

(6) Referral to and action by law enforcement and judicial authorities.
   (a) Nothing in these rules of conduct prohibits an administrative authority from reporting a crime committed by a student with a disability to appropriate authorities or prevents state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a student with a disability.
   (b) Transmittal of records.
      (i) An administrative authority reporting a crime committed by a student with a disability must ensure that copies of the special education and disciplinary records of the student are transmitted, for consideration by the appropriate authorities, to whom the administrative authority reports the crime.
      (ii) An administrative authority reporting a crime under this section may transmit copies of the student’s special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act.

6.11.2.11. Disciplinary removals of students with disabilities.
A. General. The following rules shall apply when a student with a disability under IDEA violates a rule of conduct as set forth in this rule which may result in:
   (1) long-term suspension or expulsion; or
   (2) any other disciplinary change of the student’s current educational placement as specified in the federal regulations implementing IDEA at 34 CFR Secs. 300.530 through 300.536 and these or other public education department rules and standards.
B. When behavior is not a manifestation of disability. For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child’s disability pursuant to Subsection C of this section, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in Subsection I of this section.

C. Manifestation determination.

   (1) Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a rule of student conduct, the administrative authority, the parent and relevant members of the child’s IEP team (as determined by the parent and the administrative authority) must review all relevant information in the student’s file, including the child’s IEP, any teacher observations and any relevant information provided by the parents to determine:

      (a) if the conduct in question was caused by, or had a direct and substantial relationship to the child’s disability; or

      (b) if the conduct in question was the direct result of the administrative authority’s failure to implement the IEP.

   (2) The conduct must be determined to be a manifestation of the child’s disability if the administrative authority, the parent and relevant members of the child’s IEP team determine that a condition in either Subparagraph (a) or (b) of Paragraph (1) of Subsection C of 6.11.2.11 NMAC was met.

   (3) If the administrative authority, the parent and relevant members of the child’s IEP team determine the condition described in Subparagraph (b) of Paragraph (1) of Subsection C of 6.11.2.11 NMAC was met, the administrative authority must take immediate steps to remedy those deficiencies.

D. Determination that behavior is manifestation of disability. If the administrative authority, the parent and relevant members of the IEP team make the determination that the conduct was a manifestation of the child’s disability, the IEP team must comply within 34 CFR Sec. 300.530(f).

E. Special circumstances. School personnel may remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child’s disability, if the child’s behavior involves one of the special circumstances listed in 34 CFR Sec. 300.530(g). For purposes of this subsection, the definitions provided in 34 CFR Sec. 300.530(i) shall apply.

F. Determination of setting. The student’s IEP team determines the interim alternative educational setting for services under Subsections B and E of this section.

G. Change of placement because of disciplinary removals. For purposes of removals of a student with a disability from the child’s current educational placement under 6.11.2.11 and 6.11.2.12 NMAC, a change of placement occurs if the conditions provided in 34 CFR Sec. 300.536 are met.

H. Parental notification. On the date on which the decision is made to make a removal that constitutes a change of placement of a student with a disability because of a violation of a code of student conduct, the administrative authority must notify the parents of that decision, and provide the parents the procedural safeguards notice described in 34 CFR Sec. 300.504.

I. Services. A student with a disability who is removed from the student’s current placement pursuant to this section must continue to receive special education and related services as provided in 34 CFR Sec. 300.530(d).

J. Appeal.

   (1) The parent of a student with a disability who disagrees with any decision regarding the placement or the manifestation determination under this section, or an administrative authority that believes that
maintaining the current placement of the student is substantially likely to result in injury to the student or others, may appeal the decision by requesting a hearing. The hearing is requested by filing a complaint pursuant to Subsection I of 6.31.2.13 NMAC.

(2) A hearing officer who hears a matter under Paragraph (1) of Subsection J of 6.11.2.11 NMAC, has the authority provided in 34 CFR Sec. 300.532(b).

(3) When an appeal under this subsection has been made by either the parent or the administrative authority, the student must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period specified in Subsections B or E of this section, which ever occurs first, unless the parent and the administrative authority agree otherwise.

6.11.2.12 Procedure for detention, suspension and expulsions.

This section prescribes minimum requirements for detention, in-school suspension and temporary, long-term or permanent removal of students from the public schools. Local school boards may adopt procedures which afford students more protection than this rule requires. The procedures in this section apply only to disciplinary detentions, suspensions and expulsions. They do not apply to disenrollment of students who fail to meet immunization, age, residence or other requirements for valid enrollment, nor to the removal from school membership reports of students who have been absent from school for ten (10) consecutive school days in accordance with Subsection B of Section 22-8-2 NMSA 1978. Nothing in this section should be construed as prohibiting school boards or administrative authorities from involving other school staff, students and members of the community in the enforcement of rules of student conduct to the extent they believe is appropriate. […]

A. Post-suspension placement of students. Any student suspended from school shall be delivered directly by a school official to the student's parent(s), legal guardian or an adult designated by the parent(s) or the legal guardian, or kept on school grounds until the usual end of the school day.

B. Students with disabilities. This section does not apply to long-term suspension or expulsion of students who are disabled pursuant to the IDEA or Section 504. The procedures for long-term suspension or expulsion of disabled students are set forth in Section 6.11.2.11 NMAC above. School personnel under this section may remove a student with a disability who violates a rule of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to students without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under Subsection G of 6.11.2.11 NMAC above).

C. Immediate removal: Students whose presence poses a continuing danger to persons or property or an ongoing threat of interfering with the educational process may be immediately removed from school, subject to the following rules.

   (1) A rudimentary hearing, as required for temporary suspensions, shall follow as soon as possible.

   (2) Students shall be reinstated after no more than one school day unless within that time a temporary suspension is also imposed after the required rudimentary hearing. In such circumstances, a single hearing will support both the immediate removal and a temporary suspension imposed in connection with the same incident(s).

   (3) The school shall exert reasonable efforts to inform the student's parent of the charges against the student and the action taken as soon as practicable. If the school has not communicated with the parent by telephone or in person by the end of the school day following the immediate removal, the school shall on that day mail a written notice with the required information to the parent's address of record.

D. Temporary suspension.

   (1) A local school board may limit temporary suspensions to periods shorter than ten (10) school days.

   (2) A student facing temporary suspension shall first be informed of the charges against him or her and, if (s)he denies them, shall be told what evidence supports the charge(s) and be given an opportunity to present his or her version of the facts. The following rules apply.

      (a) The hearing may be an informal discussion and may follow immediately after the notice of the charges is given.
(b) Unless the administrative authority decides a delay is essential to permit a fuller exploration of the facts, this discussion may take place and a temporary suspension may be imposed within minutes after the alleged misconduct has occurred.

(c) A student who denies a charge of misconduct shall be told what act(s) (s)he is accused of committing, shall be given an explanation of the evidence supporting the accusation(s) and shall then be given the opportunity to explain his or her version of the facts. The administrative authority is not required to divulge the identity of informants, although (s)he should not withhold such information without good cause. (S)he is required to disclose the substance of all evidence on which (s)he proposes to base a decision in the matter.

(d) The administrative authority is not required to allow the student to secure counsel, to confront or cross-examine witnesses supporting the charge(s), or to call witnesses to verify the student's version of the incident, but none of these is prohibited.

(e) The school shall exert reasonable efforts to inform the student's parent of the charges against the student and their possible or actual consequence as soon as practicable. If the school has not communicated with the parent by telephone or in person by the end of the first full day of suspension, the school shall on that day mail a written notice with the required information to the parent's address of record [...] 

G. Long-term suspension and expulsion.

(1) Each local school board shall authorize appropriate administrative authorities to initiate procedures leading to long-term suspension or expulsion. Where prompt action to suspend a student long-term is deemed appropriate, a temporary suspension may be imposed while the procedures for long-term suspension or expulsion are activated. However, where a decision following the required formal hearing is delayed beyond the end of the temporary suspension, the student must be returned to school pending the final outcome unless the provisions of Subsection G, Paragraph (4), Subparagraphs (j) and (k) of Section 6.11.2.12 NMAC below apply.

(2) A student who has been validly expelled or suspended is not entitled to receive any educational services from the local district during the period of the exclusion from school. A local school board may provide alternative arrangements, including correspondence courses at the student's or parent's expense pursuant to public education department requirements, if the board deems such arrangements appropriate.

(3) Each local school board shall establish, or shall authorize appropriate administrative authorities to establish, appropriate processes for handling long-term suspensions and expulsions. Unless the terms expressly indicate otherwise, nothing in the procedures below shall be construed as directing that any required decision be made by any particular person or body or at any particular level of administrative organization.

(4) The following rules shall govern the imposition of long-term suspensions or expulsions:

(a) Hearing authority; disciplinarian. The same person or group may, but need not, perform the functions of both hearing authority and disciplinarian. Where the functions are divided, the hearing authority's determination of the facts is conclusive on the disciplinarian, but the disciplinarian may reject any punishment recommended by the hearing authority.

(b) Review authority. Unless the local school board provides otherwise, a review authority shall have discretion to modify or overrule the disciplinarian's decision, but may not impose a harsher punishment. A review authority shall be bound by a hearing authority's factual determinations except as provided in Subsection G, Paragraph (4), Subparagraph (o) of Section 6.11.2.12 NMAC below.
(c) Disqualification. No person shall act as hearing authority, disciplinarian or review authority in a case where (s)he was directly involved in or witnessed the incident(s) in question, or if (s)he has prejudged disputed facts or is biased for or against any person who will actively participate in the proceedings.

(d) Local board participation. A local board may act as hearing authority, disciplinarian or review authority for any cases involving proposed long-term suspensions or expulsions. Whenever a quorum of the local board acts in any such capacity, however, the Open Meetings Act, Section 10-15-1 et seq., NMSA 1978 requires a public meeting.

(e) Initiation of procedures. An authorized administrative authority shall initiate procedures for long-term suspension or expulsion of a student by designating a hearing authority and disciplinarian in accordance with local board policies, scheduling a formal hearing in consultation with the hearing authority and preparing and serving a written notice meeting the requirements of Subsection G, Paragraph (4), Subparagraph (h) of Section 6.11.2.12 NMAC below.

(f) Service of notice. The written notice shall be addressed to the student, through his or her parent(s), and shall be served upon the parent(s) personally or by mail.

(g) Timing of hearing. The hearing shall be scheduled no sooner than five (5) nor later than ten (10) school days from the date of receipt of the notice by the parent(s). The hearing authority may grant or deny a request to delay the hearing in accordance with the provisions of Subsection G, Paragraph (4), Subparagraph (i) of Section 6.11.2.12 NMAC below.

(h) Contents of notice. The written notice must contain all of the following information, parts of which may be covered by appropriate reference to copies of any policies or regulations furnished with the notice:

   (i) the school rule(s) alleged to have been violated, a concise statement of the alleged act(s) of the student on which the charge(s) are based and a statement of the possible penalty;
   
   (ii) the date, time and place of the hearing, and a statement that both the student and parent are entitled and urged to be present;

   (iii) a clear statement that the hearing will take place as scheduled unless the hearing authority grants a delay or the student and parent agree to waive the hearing and comply voluntarily with the proposed disciplinary action or with a negotiated penalty, and a clear and conspicuous warning that a failure to appear will not delay the hearing and may lead to the imposition of the proposed penalty by default;

   (iv) a statement that the student has the right to be represented at the hearing by legal counsel, a parent or some other representative designated in a written notice filed at least seventy-two (72) hours before the hearing with the contact person named pursuant to Subsection G, Paragraph (4), Subparagraph (h), Sub-subparagraph (vi) of Section 6.11.2.12 NMAC below;

   (v) a description of the procedures governing the hearing;

   (vi) the name, business address and telephone number of a contact person through whom the student, parent or designated representative may request a delay or seek further information, including access to any documentary evidence or exhibits which the school proposes to introduce at the hearing; and

   (vii) any other information, materials or instructions deemed appropriate by the administrative authority who prepares the notice.

(i) Delay of hearing. The hearing authority shall have discretion to grant or deny a request by the student or the appropriate administrative authority to postpone the hearing. Such discretion may be limited or guided by local school board policies not otherwise inconsistent with this rule.
(j) Students status pending hearing. Where a student has been suspended temporarily and a formal hearing on long-term suspension or expulsion will not occur until after the temporary suspension has expired, the student shall be returned to school at the end of the temporary suspension unless:

(i) the provisions of Subsection G, Paragraph (4), Subparagraph (k) of Section 6.11.2.12 NMAC below apply, or

(ii) the student and parent(s) have knowingly and voluntarily waived the students right to return to school pending the outcome of the formal proceedings, or

(iii) the appropriate administrative authority has conducted an interim hearing pursuant to a written local school board policy made available to the student which affords further due process protection sufficient to support the student's continued exclusion pending the outcome of the formal procedures.

(k) Waiver of hearing; voluntary compliance or negotiated penalty. A student and his or her parent(s) may elect to waive the formal hearing and review procedures and comply voluntarily with the proposed penalty, or may waive the hearing and review and negotiate a mutually acceptable penalty with the designated disciplinarian. Such a waiver and compliance agreement shall be made voluntarily, with knowledge of the rights being relinquished, and shall be evidenced by a written document signed by the student, the parent(s), and the appropriate school official.

(l) Procedure for hearing and decision. The formal hearing is not a trial. It is an administrative hearing designed to ensure a calm, orderly determination by an impartial hearing authority of the facts of a case of alleged serious misconduct. Technical rules of evidence and procedure do not apply. The following rules govern the conduct of the hearing and the ultimate decision.

(i) The school shall have the burden of proof of misconduct.

(ii) The student and his or her parent shall have the following rights: The right to be represented by legal counsel or other designated representative, however, the school is not required to provide representation; the right to present evidence, subject to reasonable requirements of substantiation at the discretion of the hearing authority and subject to exclusion of evidence deemed irrelevant or redundant; the right to confront and cross-examine adverse witnesses, subject to reasonable limitation by the hearing authority; the right to have a decision based solely on the evidence presented at the hearing and the applicable legal rules, including the governing rules of student conduct.

(iii) The hearing authority shall determine whether the alleged act(s) of misconduct have been proved by a preponderance of the evidence presented at a hearing at which the student or a designated representative have appeared.

(iv) If no one has appeared on the students behalf within a reasonable time after the announced time for the hearing, the hearing authority shall determine whether the student, through the parent, received notice of the hearing. If so, the hearing authority shall review the schools' evidence to determine whether it is sufficient to support the charges(s) of misconduct.

(v) A hearing authority who is also a disciplinarian shall impose an appropriate sanction if (s)he finds that the allegations of misconduct have been proved under the standards of either Subsection G, Paragraph (4), Subparagraph (l), Sub-subparagraph (iii) or Sub-subparagraph (iv) of Section 6.11.2.12 NMAC above. A hearing authority who is not a disciplinarian shall report its findings, together with any recommended sanction, to the disciplinarian promptly after the hearing.

(vi) Arrangements to make a tape recording or keep minutes of the proceedings shall be made by the administrative authority who scheduled the hearing and prepared the written notice. A
verbatim written transcript is not required, but any minutes or other written record shall fairly reflect the substance of the evidence presented.

(vii) The hearing authority may announce a decision on the question of whether the allegation(s) of misconduct have been proved at the close of the hearing. A hearing authority who is also a disciplinarian may also impose a penalty at the close of the hearing.

(viii) In any event, the hearing authority shall prepare and mail or deliver to the student, through the parent, a written decision within five (5) working days after the hearing. The decision shall include a concise summary of the evidence upon which the hearing authority based its factual determinations. A hearing authority who is also a disciplinarian shall include in the report a statement of the penalty, if any, to be imposed, and shall state reasons for the chosen penalty. A hearing authority who is not a disciplinarian shall forward a copy of his or her written decision to the disciplinarian forthwith. The disciplinarian shall prepare a written decision, including reasons for choosing any penalty imposed, and mail or deliver it to the student, through the parent, within five (5) working days of receipt of the hearing authority's report.

(ix) A disciplinarian who is not a hearing authority may observe but not participate in the proceedings at a formal hearing. If the disciplinarian has done so and if the hearing authority announces a decision at the close of the hearing, the disciplinarian may also announce his or her decision at that time.

(x) The disciplinarian's decision shall take effect immediately upon initial notification to the parent, either at the close of the hearing or upon receipt of the written decision. If initial notification is by mail, the parent shall be presumed to have received the notice on the fifth calendar day after the date of mailing unless a receipt for certified mail, if used, indicates a different date of receipt.

(m) Effect of decision. If the hearing authority decides that no allegation(s) of misconduct have been proved, or if the disciplinarian declines to impose a penalty despite a finding that an act or acts of misconduct have been proved, the matter shall be closed. If the disciplinarian imposes any sanction on the student, the decision shall take effect immediately upon notification to the parent and shall continue in force during any subsequent review.

(n) Right of review. Unless the local school board was the disciplinarian, a student aggrieved by a disciplinarian's decision after a formal hearing shall have the right to have the decision reviewed if the penalty imposed was at least as severe as a long-term suspension or expulsion, an in-school suspension exceeding one school semester or a denial or restriction of student privileges for one semester or longer. A local school board may grant a right of review for less severe penalties. Local school boards shall establish appropriate mechanisms for review except where the local board was the disciplinarian, in which case its decision is final and not reviewable administratively. A student request for review must be submitted to the review authority within ten (10) school days after the student is informed of the disciplinarian's decision.

(o) Conduct of review. Unless the local board provides otherwise, a review authority shall have discretion to modify the disciplinarian's decision, including imposing any lesser sanction deemed appropriate. A review authority shall be bound by the hearing authority's factual determinations unless the student persuades the review authority that a finding of fact was arbitrary, capricious or unsupported by substantial evidence or that new evidence which has come to light since the hearing and which could not with reasonable diligence have been discovered in time for the hearing would manifestly change the factual determination. Upon any such finding, the review authority shall have discretion to receive new evidence, reconsider evidence introduced at the hearing or conduct a de novo hearing. In the absence of any such finding, the review shall be limited to an inquiry into the appropriateness of the penalty imposed.
(p) Form of review. Unless the local board provides otherwise, a review authority shall have
discretion to conduct a review on the written record of the hearing and decision in the case, to limit
new submissions by the aggrieved student and school authorities to written materials or to grant a
conference or hearing at which the student and his or her representative, and school authorities
may present their respective views in person. Where a conference or hearing is granted, the record-
keeping requirements of Subsection G., Paragraph (4), Sub-paragraph (l), Sub-sub-paragraph (vi)
of Section 6.11.2.12 NMAC above apply.

(q) Timing of review. Except in extraordinary circumstances, a review shall be concluded no later
than fifteen (15) working days after a student's written request for review is received by the
appropriate administrative authority.

(r) Decision. A review authority may announce a decision at the close of any conference or hearing
held on review. In any event, the review authority shall prepare a written decision, including concise
reasons, and mail or deliver it to the disciplinarian, the hearing authority and the student, through
the parent, within ten (10) working days after the review is concluded.

(s) Effect of decision. Unless the local school board provides otherwise, a review authority's
decision shall be the final administrative action to which a student is entitled.

However, the public schools are required by state law and regulations to meet the individual educational needs of students with disabilities to the extent that current educational expertise permits. Public school personnel may consider any unique circumstances on a case-by-case basis when determining whether a change of placement, consistent with the other requirements of 6.11.2.11 NMAC, is appropriate for a student with a disability who violates a code of conduct as provided in 34 CFR Sec. 300.530.

(2) Temporary suspensions of students with disabilities may be imposed in accordance with the normal procedures prescribed in Subsection D of Section 6.11.2.12 NMAC below, provided that the student is returned to the same educational placement after the temporary suspension and unless a temporary suspension is prohibited under the provisions of Subsection G, Paragraph (3) of 6.11.2.10 NMAC below.

The department shall compile school district and charter school reports on rates of unexcused absences and habitual truancy and require school districts and charter schools to certify that the information is being reported consistently.

REGULATIONS

6.10.8.6 Objective.
To set forth the requirements for the implementation of the compulsory school attendance law. Specifically, this rule establishes requirements for the identification, reduction and reporting of truancy in all public schools including charter schools. In addressing truancy, the goal is to keep children in school until age eighteen and not to suspend, expel or outright punish them for being truant.

6.10.8.7 Definitions.
A. "Attendance" means students who are in class or in a school-approved activity. If a student is in attendance up to one half the total instructional time during a school day, the student will be counted as having attended one-half of a school day. If the student attends school for more than one-half of the total instructional time, the student will be counted as having attended for the full day.

B. "Early identification" means the process by which school districts including charter schools promptly determine and identify students who have excessive absences and tardiness from an instructional day. Early identification includes the school district’s, individual school’s or charter school’s defined system for recording, reporting, and summarizing daily attendance of its students and then providing that data to the district’s or charter school’s central administration.

C. "Habitual truant" means a student who has accumulated the equivalent of ten or more unexcused absences within a school year.

D. "Home school" means the operation by the parent of a school-age person of a home study program of instruction that provides a basic academic educational program, including reading, language arts, mathematics, social studies and science.

E. "Home school truant" means a school age child whose parent(s)/guardian(s) have filed a home school notification about that child with the department but the child has failed or refused to participate in, or is no longer being offered, any home-study program of instruction.

F. "Intervention" means the partnering that schools engage in with other agencies to implement administrative remedies, provide services and provide support programs that aggressively reduce if not eliminate truancy in a school district or charter school.
G. "Prevention" means school-based innovative or proven successful programs, including alternative programs whether school-based or non-school based, that encourage regular and on-time attendance for students.

H. "School-age person" means a person who is at least five years of age prior to 12:01 a.m. on September 1 of the school year and who has not received a high school diploma or its equivalent. A maximum age of twenty-one shall be used for a person who is classified as special education membership as defined in Section 22-8-21 NMSA 1978 or as a resident of a state institution.

I. "Student in need of early intervention" means a student who has accumulated five unexcused absences within a school year.

J. "Tribe" means an Indian nation, tribe or pueblo located within New Mexico.

K. "Unexcused absence" means an absence from school or a class for which the student does not have an allowable excuse pursuant to the compulsory school attendance law or rules of the local school board, governing authority of a private school, or governing board of a charter school.

6.10.8.8 Requirements.

A. It is the policy of this state that school age persons receive an education and do not dropout or otherwise withdraw prematurely prior to completing an educational program. To that end, a school-age person shall attend public school, private school, home school or a state institution until the school-age person is at least eighteen years of age unless that person has graduated from high school or received a general educational development certificate. A parent may give written, signed permission for the school-age person to leave school in case of a documented hardship approved by the local superintendent.

B. Each local school board and charter school shall develop a written attendance policy that:

   (1) in accordance with the definition of "attendance" stated in this rule, requires that class attendance be taken and maintained by class period for every instructional day for each student in each school or school program in the school district;

   (2) provides excused absences for pregnant and parenting students as follows:

      (a) provides at least ten days of excused absences for a student who provides documentation of the birth of the student's child and allows the student a time period to make up the work that the student missed that equals the number of days the student was absent for the birth of a child;

      (b) provides excused absences for any additional days missed by a pregnant or parenting student for which a longer period of absence is deemed medically necessary by the student's physician and allows the student a time period to make up the work that the student missed that equals the number of days the student was absent;

      (c) provides four days per semester of excused absences, in addition to the number of allowed absences for all students, for a student who provides appropriate documentation of pregnancy or that the student is the parent of a child under the age of thirteen needing care and allows the student a time period to make up the work that the student missed that equals the number of days the student was absent;

      (d) clearly states that the pregnant or parenting student is responsible for communicating the student's pregnancy and parenting status to the appropriate school personnel if the student chooses to disclose the information; and

      (e) provides that the school district or charter school shall provide a copy of the pregnant and parenting student absence policies to all students in middle, junior high and high schools; and

   (3) requires each school to report unexcused absences of two or more classes up to fifty percent of an instructional day as one-half day absence, and the unexcused absence of more than fifty percent of an instructional day to be counted as one full-day absence;
(4) prohibits out-of-school suspension and expulsion as a punishment for unexcused absences and habitual truancy;

(5) uses withdrawal as provided in Section 22-8-2 NMSA 1978 only after exhausting intervention efforts to keep students in educational settings;

(6) provides for early identification of students with unexcused absences, students in need of early intervention, and habitual truants; provides for intervention strategies that focus on keeping students in need of early intervention in an educational setting; and further provides that:

(a) if a student is in need of early intervention, the school district or charter school shall contact the student’s parent(s)/guardian(s) to inform them that the student has unexcused absences from school and to discuss possible interventions unless the parent(s)/guardian(s) has contacted the school to explain the absence and the excuse compiles with the school district attendance policy;

NMSA 1978 shall be initiated whenever a student's absences indicate that the law is being violated. An administrative authority who has reason to believe a student is violating local school board attendance policies may take whatever further disciplinary action is deemed appropriate under local policies.

B. Search and seizure: School property assigned to a student and a students person or property while under the authority of the public schools are subject to search, and items found are subject to seizure, in accordance with the requirements below.

(1) Notice of search policy. Students shall be given reasonable notice, through distribution of written policies or otherwise, of each school's policy on searches at the beginning of each school year or upon admission for students entering during the school year.

(2) Who may search. Certified school personnel, school security personnel and school bus drivers are "authorized persons" to conduct searches when a search is permissible as set forth below. An authorized person who is conducting a search may request the assistance of some other person(s), who upon consent become(s) an authorized person for the purpose of that search only.

(3) When search permissible. Unless local school board policy provides otherwise, an authorized person may conduct a search when (s)he has a reasonable suspicion that a crime or other breach of disciplinary rules is occurring or has occurred. An administrative authority may direct or conduct a
search under the same conditions and also when (s)he has reasonable cause to believe that a search is necessary to help maintain school discipline.

(4) Conduct of searches; witnesses. The following requirements govern the conduct of permissible searches by authorized persons:

(a) School property, including lockers and school buses, may be searched with or without students present unless a local school board or administrative authority provides otherwise. When students are not present for locker searches, another authorized person shall serve as a witness whenever possible. Locks furnished by students should not be destroyed unless a student refuses to open one or circumstances otherwise render such action necessary in the judgment of the administrative authority.

(b) Student vehicles when on campus or otherwise under school control and students' personal effects which are not within their immediate physical possession may be searched in accordance with the requirements for locker searches.

(c) Physical searches of a student's person may be conducted only by an authorized person who is of the same sex as the student, and except when circumstances render it impossible may be conducted only in the presence of another authorized person of the same sex. The extent of the search must be reasonably related to the infraction, and the search must not be excessively intrusive in light of the student's age and sex, and the nature of the infraction.

(5) Seizure of items: Illegal items, legal items which threaten the safety or security of others and items which are used to disrupt or interfere with the educational process may be seized by authorized persons. Seized items shall be released to appropriate authorities or a student's parent or returned to the student when and if the administrative authority deems appropriate.

(6) Notification of law enforcement authorities: Unless a local school board policy provides otherwise, an administrative authority shall have discretion to notify the local children's court attorney, district attorney or other law enforcement officers when a search discloses illegally possessed contraband material or evidence of some other crime or delinquent act.

C. Basis for disciplinary action: A student may appropriately be disciplined by administrative authorities in the following circumstances:

(1) for committing any act which endangers the health or safety of students, school personnel or others for whose safety the public school is responsible, or for conduct which reasonably appears to threaten such dangers if not restrained, regardless of whether an established rule of conduct has been violated;

(2) for violating valid rules of student conduct established by the local school board or by an administrative authority to whom the board has delegated rulemaking authority, when the student knew or should have known of the rule in question or that the conduct was prohibited; or

(3) for committing acts prohibited by this rule, when the student knew or should have known that the conduct was prohibited.

D. Selection of disciplinary sanctions: Within legal limits as defined in Subsection L. of 6.11.2.7 NMAC above, local school boards have discretion to determine the appropriate sanction(s) to be imposed for violations of rules of student conduct, or to authorize appropriate administrative authorities to make such determinations.

(1) School discipline and criminal charges: Appropriate disciplinary actions may be taken against students regardless of whether criminal charges are also filed in connection with an incident.

(2) Nondiscriminatory enforcement: Local school boards and administrative authorities shall not enforce school rules or impose disciplinary punishments in a manner which discriminates against any student on the basis of race, religion, color, national origin, ancestry, sex or disability, except to the extent otherwise permitted or required by law or regulation. This statement shall not be construed as requiring
identical treatment of students for violation of the same rule; it shall be read as prohibiting differential treatment which is based on race, religion, color, national origin, ancestry, sex or disability rather than on other differences in individual cases or students.

E. Corporal punishment: Corporal punishment shall not be utilized as a means of enforcing rules of conduct in public schools.

F. Detention, suspension and expulsion: Where detention, suspension or expulsion is determined to be the appropriate penalty, it may be imposed only in accordance with procedures that provide at least the minimum safeguards prescribed in Section 6.11.2.12 NMAC, below. Suspensions or expulsions of students with disabilities shall be subject to the further requirements of Subsection G of Section 6.11.2.10 NMAC and Section 6.11.2.11 NMAC below.

G. Discipline of students with disabilities: Students with disabilities are not immune from school disciplinary processes, nor are they entitled to remain in a particular educational program when their behavior substantially impairs the education of other children in the program. However, the public schools are required by state law and regulations to meet the individual educational needs of students with disabilities to the extent that current educational expertise permits. Public school personnel may consider any unique circumstances on a case-by-case basis when determining whether a change of placement, consistent with the other requirements of 6.11.2.11 NMAC, is appropriate for a student with a disability who violates a code of conduct as provided in 34 CFR Sec. 300.530.

(1) Long-term suspensions or expulsions of students with disabilities shall be governed by the procedures set forth in Section 6.11.2.11 NMAC below.

(2) Temporary suspensions of students with disabilities may be imposed in accordance with the normal procedures prescribed in Subsection D of Section 6.11.2.12 NMAC below, provided that the student is returned to the same educational placement after the temporary suspension and unless a temporary suspension is prohibited under the provisions of Subsection G, Paragraph (3) of 6.11.2.10 NMAC below.

(3) Program prescriptions. A student with a disability's individualized education program (IEP), under the Individuals with Disabilities Education Improvement Act of 2004 (IDEA), need not affirmatively authorize disciplinary actions which are not otherwise in conflict with this rule. However, the IEP team may prescribe or prohibit specified disciplinary measures for an individual student with a disability by including appropriate provisions in the student's IEP. Administrative authorities shall adhere to any such provisions contained in a student with a disability's IEP, except that an IEP team may not prohibit the initiation of proceedings for long-term suspension or expulsion which are conducted in accordance with this rule.

(4) Immediate removal. Immediate removal of students with disabilities may be done in accordance with the procedures of Subsection C of Section 6.11.2.12 NMAC below.

(5) A student who has not been determined to be eligible for special education and related services under 6.31.2 NMAC and who has engaged in behavior that violated a code of student conduct may assert any of the protections provided for in this subsection if the conditions set forth in 34 CFR Sec. 300.534 have been met.

(6) Referral to and action by law enforcement and judicial authorities.

(a) Nothing in these rules of conduct prohibits an administrative authority from reporting a crime committed by a student with a disability to appropriate authorities or prevents state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a student with a disability.

(b) Transmittal of records.
(i) An administrative authority reporting a crime committed by a student with a disability must ensure that copies of the special education and disciplinary records of the student are transmitted, for consideration by the appropriate authorities, to whom the administrative authority reports the crime.

(ii) An administrative authority reporting a crime under this section may transmit copies of the student’s special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act.

However, the public schools are required by state law and regulations to meet the individual educational needs of students with disabilities to the extent that current educational expertise permits. Public school personnel may consider any unique circumstances on a case-by-case basis when determining whether a change of placement, consistent with the other requirements of 6.11.2.11 NMAC, is appropriate for a student with a disability who violates a code of conduct as provided in 34 CFR Sec. 300.530.

(b) Transmittal of records.

(i) An administrative authority reporting a crime committed by a student with a disability must ensure that copies of the special education and disciplinary records of the student are transmitted, for consideration by the appropriate authorities, to whom the administrative authority reports the crime.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. 8 CRR-NY 201.3. CSE responsibilities for functional behavioral assessments and behavioral intervention plans.

If the manifestation team pursuant to section 201.4 of this Part, makes the determination that the conduct subject to the disciplinary action was a manifestation of the student’s disability, the CSE must either:

(a) conduct a functional behavioral assessment, unless the school district had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the student; or

(b) if a behavioral intervention plan has already been developed, review the behavioral intervention plan and modify it as necessary to address the behavior.

8 CRR-NY 201.4. Manifestation determinations.

(a) General requirement for manifestation review. A review of the relationship between the student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability must be made immediately, if possible, but in no case later than 10 school days after:

(1) a decision is made by a superintendent of schools to change the placement of a student to an interim alternative educational setting pursuant to section 201.7(e) of this Part; or

(2) a decision is made by an impartial hearing officer to place a student in an interim alternative educational setting pursuant to section 201.8 of this Part; or

(3) a decision is made by a board of education, district superintendent of schools, building principal or superintendent pursuant to section 201.7(a) or (b) of this Part to impose a suspension that constitutes a disciplinary change in placement.

(b) Individuals to carry out review. A review described in subdivision (a) of this section shall be conducted by a manifestation team in a meeting, which shall include a representative of the school district knowledgeable about the student and the interpretation of information about child behavior, the parent and relevant members of the CSE as determined by the parent and the school district. The parent must receive written notification prior to any manifestation team meeting to ensure that the parent has an
opportunity to attend. The notification shall inform the parent of the purpose of the meeting, the names of the individuals expected to attend and inform the parent of his or her right to have relevant members of the CSE participate at the parent's request.

(c) Conduct of review. The manifestation team shall review all relevant information in the student’s file including the student's IEP, any teacher observations, and any relevant information provided by the parents to determine if:

1) the conduct in question was caused by or had a direct and substantial relationship to the student’s disability; or
2) the conduct in question was the direct result of the school district’s failure to implement the IEP.

(d) Determination.

1) The conduct must be determined to be a manifestation of the student’s disability if the manifestation team determines that a condition in either paragraph (c)(1) or (2) of this section was met.
2) If the manifestation team determines that the conduct was a manifestation of the student’s disability, the CSE shall:
   (i) conduct a functional behavioral assessment and implement a behavioral intervention plan for such student in accordance with section 201.3 of this Part; and
   (ii) except as provided in section 201.7(e) of this Part, return the student to the placement from which the student was removed, unless the parent and the school district agree to a change of placement as part of the modification of the behavioral intervention plan.

(e) Deficiencies in IEP. If the manifestation team determines the conduct in question was the direct result of the school district’s failure to implement the IEP, the school district must take immediate steps to remedy those deficiencies.

8 CRR-NY 201.5. Students presumed to have a disability for discipline purposes.

(a) General provision. The parent of a student who has violated any rule or code of conduct of the school district and was not identified as a student with a disability at the time of such behavior may assert any of the protections set forth in this Part, if the school district is deemed to have had knowledge as determined in accordance with subdivision (b) of this section, that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred. Where the school district is deemed to have had knowledge that the student was a student with a disability before such behavior occurred, such student is a "student presumed to have a disability for discipline purposes."

(b) Basis of knowledge. Except as otherwise provided in subdivision (c) of this section, a school district shall be deemed to have knowledge that such student had a disability if prior to the time the behavior occurred:

1) the parent of such student has expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency or to a teacher of the student that the student is in need of special education, provided that such expression of concern may be oral if the parent does not know how to write or has a disability that prevents a written statement; or
2) the parent of the student has requested an evaluation of the student pursuant to section 200.4 or 200.16 of this Title; or
3) a teacher of the student, or other personnel of the school district, has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the director of special education of the school district or to other supervisory personnel of the school district.

(c) Exception. A student is not a student presumed to have a disability for discipline purposes if, as a result of receiving the information specified in subdivision (b) of this section:
(1) the parent of the student has not allowed an evaluation of the student pursuant to section 200.4 of this Title; or

(2) the parent of the student has refused services under this Part; or

(3) it was determined that the student is not a student with a disability pursuant to section 200.4 or 200.16 of this Title.

d) Responsibility for determining whether a student is a student presumed to have a disability. If it is claimed by the parent of the student or by school district personnel that the school district had a basis for knowledge, in accordance with paragraph (b) of this section, that the student was a student with a disability prior to the time the behavior subject to disciplinary action occurred, it shall be the responsibility of the superintendent of schools, building principal or other school official imposing the suspension or removal to determine whether the student is a student presumed to have a disability.

e) Conditions that apply if there is no basis for knowledge. If the superintendent of schools, building principal or other school official imposing the disciplinary removal determines that there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other nondisabled student who engaged in comparable behaviors. However, if a request for an individual evaluation is made while such nondisabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted in accordance with 201.6 of this Part.

8 CRR-NY 201.7. General procedures for suspensions and removals of students with disabilities.

(a) Parental notice of disciplinary removal. No later than the date on which a decision is made to change the placement of a student with a disability to an IAES pursuant to subdivision (e) of this section or pursuant to section 201.8 of this Part, or a decision is to impose a suspension or removal pursuant to this Part that constitutes a disciplinary change in placement, the parent shall be notified of such decision and shall be provided the procedural safeguards notice in accordance with section 200.5(f) of this Title.

(b) Five school day suspension or removal. Except as otherwise provided in subdivision (d) of this section, the trustees or board of education of any school district, a district superintendent of schools or a building principal with authority to suspend students pursuant to Education Law section 3214(3)(b) and (g), shall have authority to order the placement of a student with a disability into an appropriate interim alternative educational setting, another setting or suspension for a period not to exceed five consecutive
school days, and not to exceed the amount of time that a nondisabled student would be subject to suspension for the same behavior.

(c) Ten school day suspension or removal. Except as otherwise provided in subdivision (d) of this section, a superintendent of schools, either directly or upon recommendation of a hearing officer designated to conduct a superintendent's hearing pursuant to Education Law, section 3214(3)(c) and (g), may order the placement of a student with a disability into an interim alternative educational setting, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed pursuant to subdivision (b) of this section for the same behavior, where the superintendent determines in accordance with the procedures set forth in Education Law section 3214(3)(c) that the student has engaged in behavior that warrants a suspension, provided that the duration of any such suspension or removal shall not exceed the amount of time that a nondisabled student would be subject to suspension for the same behavior. Except as otherwise provided in subdivision (d) of this section, a superintendent of schools may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct.

(d) Exception for pattern of suspensions or removals. A student with a disability may not be removed pursuant to subdivision (b) or (c) of this section if imposition of the 5 school day or 10 school day suspension or removal would result in a disciplinary change in placement based on a pattern of suspensions or removals as determined by school personnel in accordance with the criteria set forth in section 201.2(e)(2) of this Part, except where the manifestation team pursuant to section 201.4 of this Part has determined that the behavior was not a manifestation of such student's disability, or the student is placed in an IAES as authorized under subdivision (e) of this section.

(e) Change in placement to an IAES for behavior involving serious bodily injury, weapons, illegal drugs or controlled substances.

(1) A superintendent of schools, either directly or upon recommendation of a hearing officer designated to conduct a superintendent's hearing pursuant to Education Law, section 3214(3)(c), may order the change in placement of a student with a disability to an appropriate IAES, to be determined by the CSE, for up to 45 school days, but not to exceed the period of suspension ordered by the superintendent in accordance with Education Law, section 3214(3), where the student:

(i) has inflicted serious bodily injury, as defined in section 201.2(m) of this Part, upon another person while at school, on school premises or at a school function under the jurisdiction of the educational agency;

(ii) carries or possesses a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of the educational agency; or

(iii) knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises or at a school function under the jurisdiction of the educational agency.

(2) The period of suspension or removal ordered by the superintendent may not exceed the amount of time that a nondisabled student would be suspended for the same behavior.

(f) School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement consistent with the other requirements of this Part is appropriate for a student with a disability who violates a school district's code of student conduct.

8 CRR-NY 201.8. Authority of impartial hearing officer to order a change in placement to an IAES in a dangerous situation.

(a) An impartial hearing officer appointed pursuant to Education Law section 4404(1), in an expedited due process hearing conducted pursuant to section 201.11 of this Part, may order a change in placement of a student with a disability to an appropriate interim alternative educational setting (IAES) for not more than
45 school days, if the hearing officer determines that maintaining the current placement of the student is substantially likely to result in injury to the student or others.

(b) The procedures established in this section may be repeated if the school district believes that returning the student to the original placement is substantially likely to result in injury to the student or others.

(c) A school district shall not be required to commence disciplinary action against a student with a disability as a prerequisite for initiating an expedited due process hearing to obtain an order of an impartial hearing officer pursuant to this section.

(d) A determination that the student’s behavior is a manifestation of the student’s disability shall not preclude an impartial hearing officer from ordering a change in placement to an IAES pursuant to this section.

8 CRR-NY 201.9. Coordination with superintendent's hearing and other due process procedures applicable to all students.

(a) Procedures for suspensions of five school days or less. In the case of a suspension for five consecutive school days or less pursuant to paragraph b of subdivision 3 of section 3214 of the Education Law and section 201.7(b) of this Part, the parents or persons in parental relation to the student shall be provided an opportunity for an informal conference in accordance with paragraph d of subdivision 3 of section 3214 of the Education Law.

(b) Procedures for removals other than suspensions. A removal of a student with a disability, as defined in Section 201.2(l) of this Part, to which the provisions of paragraphs (a) through (d) of subdivision 3 of section 3214 of the Education Law do not apply, other than a change in placement to an IAES, shall be conducted in accordance with the due process procedures applicable to such removals of nondisabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless there has been a determination that the behavior is not a manifestation of the student's disability. The removal of a student with a disability to an IAES shall be conducted in accordance with the applicable provisions of section 201.7(e) of this Part and paragraph (c)(3) of this section, or of section 201.8 of this Part.

(c) Procedures for suspensions of more than five school days (superintendent's hearings). Superintendent's hearings on disciplinary charges against students with disabilities and students presumed to have a disability for discipline purposes shall be bifurcated into a guilt phase and a penalty phase and conducted in accordance with the following procedures:

1. The superintendent of schools or hearing officer in the superintendent's hearing shall proceed with the guilt phase and determine whether the student is guilty of the alleged misconduct. If it is determined that the student is guilty of the alleged misconduct, the superintendent of schools or hearing officer in the superintendent's hearing shall make a threshold determination of whether a suspension or removal in excess of 10 consecutive school days or that would otherwise constitute a disciplinary change in placement should be considered. If the threshold determination is that such a suspension or removal should be considered, before the superintendent of schools orders or the hearing officer in the superintendent's hearing recommends any such removal, the superintendent's hearing shall be adjourned until a manifestation determination is made by the manifestation team, except as otherwise provided in paragraph (3) of this subdivision. If the superintendent of schools or hearing officer in the superintendent's hearing determines that a suspension or removal that would constitute a disciplinary change in placement should not be considered, the hearing shall proceed to the penalty phase.

2. Upon a determination by the manifestation team that the behavior of a student with a disability was not a manifestation of the student's disability, such student may be disciplined in the same manner as a nondisabled student, except that such student shall continue to receive services in accordance with
section 201.10 of this Part. Upon receipt of notice of such determination, the superintendent or hearing officer in the superintendent's hearing shall proceed with the penalty phase of the hearing. If the manifestation team determines that the behavior was a manifestation of the student's disability, the superintendent or hearing officer in the superintendent's hearing shall dismiss the superintendent's hearing, except as otherwise provided in paragraph (3) of this subdivision.

(3) Notwithstanding the provisions of paragraphs (1) and (2) of this subdivision, if the superintendent or hearing officer in the superintendent's hearing is considering the change in placement of a student with a disability to an IAES pursuant to section 201.7(e) of this Part, upon a determination that the student is guilty of the alleged misconduct relating to serious bodily injury, weapons, illegal drugs or controlled substances, the superintendent of schools may order, or the hearing officer in the superintendent's hearing may recommend, such change in placement to an IAES, to be determined by the CSE, for up to 45 school days, but not to exceed the length of time that a nondisabled student would be suspended for the same misconduct under the school district's student discipline policy. The superintendent of schools may order such change in placement of a student with a disability to an IAES, directly or upon recommendation of a hearing officer in the superintendent's hearing, even where the manifestation team determines that the student's behavior is a manifestation of the student's disability.

(4) The penalty phase of a superintendent's hearing for a student with a disability or a student presumed to have a disability for discipline purposes shall be conducted in the same manner as the penalty phase of a hearing involving a nondisabled student, including the admission of anecdotal evidence of past instances of misconduct. The school district shall assure that copies of the special education and disciplinary records of the student are transmitted to the superintendent of schools or hearing officer in the superintendent's hearing for consideration. Such records shall be transmitted whether or not the manifestation team has determined that the student's behavior is a manifestation of the student's disability.

(5) Nothing in this section shall be construed to authorize the suspension or removal of a student with a disability from his or her current educational placement for violation of school rules following a determination by the manifestation team that the behavior is a manifestation of the student's disability, except where the student is placed in an IAES for behavior involving serious bodily injury, weapons, illegal drugs or controlled substances pursuant to section 201.7(e) of this Part or the student is placed in an IAES by an impartial hearing officer pursuant to section 201.8 of this Part.

8 CRR-NY 201.10. Provision of services during suspensions.

(a) During any period of suspension, a student with a disability shall be provided services to the extent required under this section and paragraph (e) of subdivision 3 of section 3214 of the Education Law. Nothing in this section shall be construed to confer a greater right to services than is required under Education Law, section 3214(3)(e) and Federal law and regulations.

(b) During suspensions or removals for periods of up to 10 school days in a school year that do not constitute a disciplinary change in placement, students with disabilities of compulsory attendance age shall be provided with alternative instruction pursuant to Education Law, section 3214(3)(e) on the same basis as nondisabled students. Students with disabilities who are not of compulsory attendance age shall be entitled to receive services during such suspensions only to the extent that services are provided to nondisabled students of the same age who have been similarly suspended.

(c) During subsequent suspensions or removals for periods of 10 consecutive school days or less that in the aggregate total more than 10 school days in a school year but do not constitute a disciplinary change in placement, regardless of the manifestation determination, students with disabilities shall be provided with services necessary to enable the student to continue to participate in the general education curriculum and to progress toward meeting the goals set out in the student's IEP and to receive, as appropriate, a functional behavioral assessment, behavioral intervention services and modifications that
are designed to address the behavior violation so it does not recur. School personnel, in consultation with at least one of the student’s teachers, shall determine the extent to which services are needed, so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress in meeting the goals set out in the student’s IEP.

(d) During suspensions or other disciplinary removals, including suspensions or removals pursuant to section 201.7(e) of this Part, for periods in excess of 10 school days in a school year which constitute a disciplinary change in placement, regardless of the manifestation determination, students with disabilities shall be provided with services necessary to enable the student to continue to participate in the general education curriculum, to progress toward meeting the goals set out in the student's IEP, and to receive, as appropriate pursuant to section 201.3 of this Part, a functional behavioral assessment, behavioral intervention services and modifications that are designed to address the behavior violation so it does not recur. The IAES and services shall be determined by the CSE.

8 CRR-NY 201.11. Expedited due process hearings.

(a) An expedited due process hearing shall be conducted pursuant to this Part under the following circumstances:

(1) the school district requests an expedited due process hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES pursuant to section 201.8 of this Part where school personnel maintain that it is dangerous for the student to be in his or her current educational placement;

(2) the school district requests an expedited due process hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings;

(3) the parent requests a hearing from a determination that the student's behavior was not a manifestation of the student's disability; or

(4) the parent requests a hearing relating to any decision regarding placement under section 201.7 of this Part, including but not limited to any decision to place the student in an IAES.

(b) An expedited due process hearing shall be conducted in accordance with the procedures specified in section 200.5(j) of this Title, except as follows:

(1) Upon receipt of or filing of a due process complaint notice for an expedited hearing, the board of education shall arrange for an impartial hearing and the appointment of an impartial hearing officer using the list in accordance with the rotational selection process established in section 200.2(e)(1) of this Title and the administrative procedures established by the board of education pursuant to section 200.2(b)(9) of this Title.

(2) The impartial officer may not accept appointment unless available to hold the hearing and render the decision within the time period for expedited hearings pursuant to paragraph (3) of this subdivision.

(3) The school district shall arrange the expedited due process hearing according to the following time period, unless the parent and school district agree in writing to waive the resolution meeting or agree to use mediation:

(i) A resolution meeting shall occur within seven days of receiving notice of the due process complaint.

(ii) The expedited due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of receipt of the due process complaint.

(iii) The expedited due process hearing shall occur within 20 school days of the date the complaint requesting the hearing is filed; and
(iv) The impartial hearing officer shall make a determination within 10 school days after the hearing.

(4) No extension to an expedited impartial hearing timeline may be granted.

(5) The impartial hearing officer shall mail a copy of the written, or at the option of the parents, electronic findings of fact and the decision to the parents, to the board of education and the Office of Special Education of the New York State Education Department within 10 school days after the hearing.

(c) If a parent requests a hearing or an appeal regarding the change in placement of a student to an IAES by a superintendent of schools, or regarding a change in placement by an impartial hearing officer pursuant to section 201.8 of this Part where the school district maintains that it is dangerous for the student to remain in his or her current educational placement, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing office or until expiration of the time period determined in accordance with section 201.7 or 201.8 of this Part, as applicable, whichever occurs first, unless the parents and the school district otherwise agree.

(d) When an expedited due process hearing has been requested because of a disciplinary change in placement, the manifestation determination or because the school district believes that maintaining the student in the current placement is likely to result in injury to the student or others, the student shall remain in the IAES pending the decision of the impartial hearing officer or until the expiration of the period of removal, whichever occurs first, unless the parent and the school district agree otherwise.

b. (1) The board of education, board of trustees, or sole trustee, superintendent of schools, district superintendent of schools and the principal of the school where the pupil attends shall have the power to suspend a pupil for a period not to exceed five school days. In the case of such a suspension, the suspending authority shall provide the pupil with notice of the charged misconduct. If the pupil denies the misconduct, the suspending authority shall provide an explanation of the basis for the suspension. The pupil and the person in parental relation to the pupil shall, on request, be given an opportunity for
an informal conference with the principal at which the pupil and/or person in parental relation shall be authorized to present the pupil's version of the event and to ask questions of the complaining witnesses. The aforesaid notice and opportunity for an informal conference shall take place prior to suspension of the pupil unless the pupil's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the pupil's notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

(2) A teacher shall immediately report and refer a violent pupil to the principal or superintendent for a violation of the code of conduct and a minimum suspension period pursuant to section twenty-eight hundred one of this chapter.

c. * (1) No pupil may be suspended for a period in excess of five school days unless such pupil and the person in parental relation to such pupil shall have had an opportunity for a fair hearing, upon reasonable notice, at which such pupil shall have the right of representation by counsel, with the right to question witnesses against such pupil and to present witnesses and other evidence on his or her behalf. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof. An appeal will lie from the decision of the superintendent to the board of education who shall make its decision solely upon the record before it. The board may adopt in whole or in part the decision of the superintendent of schools. Where the basis for the suspension is, in whole or in part, the possession on school grounds or school property by the student of any firearm, rifle, shotgun, dagger, dangerous knife, dirk, razor, stiletto or any of the weapons, instruments or appliances specified in subdivision one of section 265.01 of the penal law, the hearing officer or superintendent shall not be barred from considering the admissibility of such weapon, instrument or appliance as evidence, notwithstanding a determination by a court in a criminal or juvenile delinquency proceeding that the recovery of such weapon, instrument or appliance was the result of an unlawful search or seizure.

* NB Effective until June 30, 2018

5. Involuntary transfers of pupils who have not been determined to be a student with a disability or a student presumed to have a disability for discipline purposes.

a. The board of education, board of trustees or sole trustee, the superintendent of schools, or district superintendent of schools may transfer a pupil who has not been determined to be a student with a disability as defined in section forty-four hundred one of this chapter, or a student presumed to have a disability for discipline purposes as defined in paragraph g of subdivision three of this section from regular classroom instruction to an appropriate educational setting in another school upon the written recommendation of the school principal and following independent review thereof. For purposes of this section of the law, "involuntary transfer" does not include a transfer made by a school district as part of a plan to reduce racial imbalance within the schools or as a change in school attendance zones or geographical boundaries.

b. A school principal may initiate a non-requested transfer where it is believed that such a pupil would benefit from the transfer, or when the pupil would receive an adequate and appropriate education in another school program or facility.

No recommendation for pupil transfer shall be initiated by the principal until such pupil and a person in parental relation has been sent written notification of the consideration of transfer recommendation. Such notice shall set a time and place of an informal conference with the principal and shall inform such person in parental relation and such pupil of their right to be accompanied by counsel or an individual of their choice.

c. After the conference and if the principal concludes that the pupil would benefit from a transfer or that the pupil would receive an adequate and appropriate education in another school program or facility, the principal may issue a recommendation of transfer to the superintendent. Such recommendation shall include a description of behavior and/or academic problems indicative of the need for transfer; a description of alternatives explored, and prior action taken to resolve the problem. A copy of that letter shall be sent to the person in parental relation and to the pupil.
d. Upon receipt of the principal's recommendation for transfer and a determination to consider that recommendation, the superintendent shall notify the person in parental relation and the pupil of the proposed transfer and of their right to a fair hearing as provided in paragraph c of subdivision three of this section and shall list community agencies and free legal assistance which may be of assistance. The written notice shall include a statement that the pupil or person in parental relation has ten days to request a hearing and that the proposed transfer shall not take effect, except upon written parental consent, until the ten day period has elapsed, or, if a fair hearing is requested, until after a formal decision following the hearing is rendered, whichever is later. Parental consent to a transfer shall not constitute a waiver of the right to a fair hearing.

The receiving school shall immediately upon receiving those records transmitted by the original school, review them to insure proper placement of the pupil. Staff members who are involved in the pupil's education must be provided with pertinent records and information relating to the background and problems of the pupil before the pupil is placed in a classroom.

(2) As used in this section, corporal punishment means any act of physical force upon a pupil for the purpose of punishing that pupil, except as otherwise provided in paragraph (3) of this subdivision.

(3) In situations in which alternative procedures and methods not involving the use of physical force cannot reasonably be employed, nothing contained in this section shall be construed to prohibit the use of reasonable physical force for the following purposes:

(i) to protect oneself from physical injury;

(ii) to protect another pupil or teacher or any person from physical injury;

(iii) to protect the property of the school, school district or others; or

(iv) to restrain or remove a pupil whose behavior is interfering with the orderly exercise and performance of school or school district functions, powers and duties, if that pupil has refused to comply with a request to refrain from further disruptive acts.

(b) Prohibition of the use of aversive interventions.

(1) No public school, BOCES, charter school, approved preschool program, approved private school, State-operated or State-supported school in this State, approved out-of-state day or residential school, or registered nonpublic nursery, kindergarten, elementary or secondary school in this State shall employ the use of aversive behavioral interventions to reduce or eliminate maladaptive behaviors, except as provided pursuant to section 200.22(e) and (f) of this Title.

(2) As used in this section, aversive intervention means: an intervention that is intended to induce pain or discomfort to a student for the purpose of eliminating or reducing maladaptive behaviors, including such interventions as:

(i) contingent application of noxious, painful, intrusive stimuli or activities; strangling, shoving, deep muscle squeezes or other similar stimuli;

(ii) any form of noxious, painful or intrusive spray, inhalant or tastes;

prompts to interrupt or prevent a specific behavior; interventions medically necessary for the treatment or protection of the student; or other similar interventions.

Behavioral interventions for students with disabilities shall be provided in accordance with this section and those other applicable provisions of this Part and/or Part 201 that are not inconsistent with this section.

(c) Use of time out rooms. A time out room is an area for a student to safely deescalate, regain control and prepare to meet expectations to return to his or her education program. Time out rooms are to be used in conjunction with a behavioral intervention plan in which a student is removed to a supervised area in order to facilitate self-control or to remove a student from a potentially dangerous situation and as provided in paragraph (3) of this subdivision.

(1) Each school which uses a time out room as part of its behavior management approach shall ensure that the school's policy and procedures on the use of the time out room are developed and implemented consistent with this subdivision, including the physical and monitoring requirements, parental rights and IEP requirements for students with disabilities. The school's policy and procedures shall minimally include:

(v) data collection to monitor the effectiveness of the use of time out rooms; and

(vi) information to be provided to parents.

(2) A student's IEP shall specify when a behavioral intervention plan includes the use of a time out room for a student with a disability, including the maximum amount of time a student will need to be in a time out room as a behavioral consequence as determined on an individual basis in consideration of the student's age and individual needs.

(3) Except for unanticipated situations that pose an immediate concern for the physical safety of a student or others, the use of a time out room shall be used only in conjunction with a behavioral intervention plan that is designed to teach and reinforce alternative appropriate behaviors.

(4) The school district shall inform the student's parents prior to the initiation of a behavioral intervention plan that will incorporate the use of a time out room for a student and shall give the parent the opportunity to see the physical space that will be used as a time out room and provide the parent with a copy of the school's policy on the use of time out rooms.

(5) The physical space used as a time out room shall provide a means for continuous visual and auditory monitoring of the student. The room shall be of adequate width, length and height to allow the student to move about and recline comfortably. Wall and floor coverings should be designed to prevent injury to the student and there shall be adequate lighting and ventilation. The temperature of the room shall be within the normal comfort range and consistent with the rest of the building. The room shall be clean and free of objects and fixtures that could be potentially dangerous to a student and shall meet all local fire and safety codes.

(6) The time out room shall be unlocked and the door must be able to be opened from the inside. The use of locked rooms or spaces for purposes of time out is prohibited.

(7) Staff shall continuously monitor the student in a time out room. The staff must be able to see and hear the student at all times.
(8) The school shall establish and implement procedures to document the use of the time out room, including information to monitor the effectiveness of the use of the time out room to decrease specified behaviors.

(9) For an education program operated pursuant to section 112 of the Education Law and Part 116 of this Title, if a provision of this section relating to use of time out rooms conflicts with the rules of the respective State agency operating such program, the rules of such State agency shall prevail and the conflicting provisions of this section shall not apply.

(d) Emergency/interventions.

(1) For purposes of this subdivision, emergency means a situation in which immediate intervention involving the use of reasonable physical force pursuant to section 19.5(a)(3) of this Title is necessary.

(2) Use of emergency interventions

(i) Emergency interventions shall be used only in situations in which alternative procedures and methods not involving the use of physical force cannot reasonably be employed.

(ii) Emergency interventions shall not be used as a punishment or as a substitute for systematic behavioral interventions that are designed to change, replace, modify or eliminate a targeted behavior.

(3) Staff training. Staff who may be called upon to implement emergency interventions shall be provided with appropriate training in safe and effective restraint procedures in accordance with sections 100.2(l)(1)(i)(h) of this Title and 200.15(f)(1) of this Part as applicable.

(4) Documentation. The school must maintain documentation on the use of emergency interventions for each student, which shall include the name and date of birth of the student; the setting and the location of the incident; the name of the staff or other persons involved; a description of the incident and the emergency intervention used, including duration; a statement as to whether the student has a current behavioral intervention plan; and details of any injuries sustained by the student or others, including staff, as a result of the incident. The parent of the student shall be notified and documentation of emergency interventions shall be reviewed by school supervisory personnel and, as necessary, the school nurse or other medical personnel.

[Eff. until June 30, 2018, pursuant to L.2005, c. 352, § 22. See, also, subd. 1 below.]
1. a. If the parent or person in parental relation of a student, the board of education or trustees of a school district or a state agency responsible for providing education to students with disabilities presents a complaint with respect to any matter relating to the identification, evaluation or educational placement of the student or the provision of a free appropriate public education to the student or a manifestation determination or other matter relating to placement upon discipline of a student with a disability that may be the subject of an impartial hearing pursuant to subsection (k) of section fourteen hundred fifteen of title twenty of the United States code and the implementing federal regulations, and the party presenting the complaint or their attorney provides a due process complaint notice in accordance with federal law and regulations and such complaint sets forth an alleged violation that occurred not more than two years before the date the parent or public agency knew or should have known about the alleged action that forms the basis for the complaint, the board or agency shall appoint an impartial hearing officer to review the due process complaint notice when challenged and, if the matter is not resolved in a resolution session that has been convened as required by federal law, to preside over an impartial due process hearing and make a determination within such period of time as the commissioner by regulation shall determine, provided that the board of education or trustees shall offer the parent or person in parental relation the option of mediation pursuant to section forty-four hundred four-a of this article as an alternative to an impartial hearing. Where the parent or person in parental relation or a school district or public agency presents a complaint, the school district or public agency responsible for appointing the impartial hearing officer shall provide the parent or person in parental relation with a procedural safeguards notice as required pursuant to subsection (d) of section fourteen hundred fifteen of title twenty of the United States code and the implementing federal regulations. Notwithstanding any provision of this subdivision to the contrary, the time limitation on presenting a complaint shall not apply to a parent or person in parental relation to the student if the parent or person in parental relation was prevented from requesting the impartial hearing due to specific misrepresentations by the school district or other public agency that it had resolved the problem forming the basis of the complaint or due to the school district's or other public agency's withholding of information from the parent or person in parental relation that was required under federal law to be provided. Nothing in this subdivision shall be construed to authorize the board of education or trustees to bring an impartial hearing to override the refusal of a parent or person in parental relation to consent where a local educational agency is prohibited by federal law from initiating such a hearing.

b. If a resolution session resolves the complaint, the parties shall execute a legally binding agreement that is signed by both the parent or person in parental relation and a representative of the school district or public agency who has the authority to bind such district or agency and shall be enforceable in any
state court of competent jurisdiction or a United States district court. A party may void such agreement within three business days of the agreement's execution.

c. Individuals so appointed by a board of education or a state agency shall be selected from a list of available impartial hearing officers who have successfully completed an impartial hearing officer training program conducted by the department according to a rotation selection process prescribed in regulations of the commissioner; except that a city school district of a city having a population of more than one million inhabitants shall be exempt from such regulations to the extent it maintains its rotational selection process in effect prior to July first, nineteen hundred ninety-three. A record of proceedings before the impartial hearing officer shall be maintained and made available to the parties, and the hearing shall be conducted in accordance with the regulations of the commissioner. The board of education or trustees of the school district or the state agency responsible for providing education to students with disabilities shall have the burden of proof, including the burden of persuasion and burden of production, in any such impartial hearing, except that a parent or person in parental relation seeking tuition reimbursement for a unilateral parental placement shall have the burden of persuasion and burden of production on the appropriateness of such placement. The decision of the impartial hearing officer shall be binding upon both parties unless appealed to the state review officer. The commissioner shall establish a department training program which shall be completed to the satisfaction of the commissioner as a condition of certification. Impartial hearing officers shall have the qualifications specified in subsection (f) of section fourteen hundred fifteen of title twenty of the United States code, the implementing federal regulations and the regulations of the commissioner. The commissioner shall promulgate regulations to ensure that no individual employed by a school district, school or program serving students with disabilities placed by a school district committee on special education acts as an impartial hearing officer and that no individual employed by such schools or programs serves as an impartial hearing officer for two years following the termination of such employment. The commissioner shall promulgate regulations establishing procedures for the suspension or revocation of impartial hearing officer certification for good cause. The commissioner shall establish maximum rates for the compensation of impartial hearing officers subject to the approval of the director of the division of the budget.

d. The commissioner shall promulgate regulations establishing procedures and timelines for expedited hearings in cases involving: (1) review of a decision that a student with a disability's behavior was not a manifestation of such student's disability, or (2) review of an interim alternative educational setting or other placement to the extent required under federal law, or (3) a request by the school district for a determination that maintaining the current educational placement of the student is substantially likely to result in injury to the student or to others.

[Eff. June 30, 2018, pursuant to L.2005, c. 352, § 22. See, also, subd. 1 above.]

1. If the recommendation of the committee on special education is not acceptable to the parent or person in parental relationship of a student, or if the committee or board of education or trustees fails to make or effectuate such a recommendation within such periods of time as may be required by regulations of the commissioner, such parents or persons in parental relationship shall notify the board of education of this situation and the board shall appoint an impartial hearing officer to hear the appeal and make a determination within such period of time as the commissioner by regulation shall determine, provided that the board of education or trustees shall offer the parent or person in parental relationship the option of mediation pursuant to section forty-four hundred four-a of this article as an alternative to an impartial hearing. Individuals so appointed by a board of education shall be selected from a list of available hearing officers who have successfully completed a hearing officer training program conducted by the department according to a rotation selection process prescribed in regulations of the commissioner; except that a city school district of a city having a population of more than one million inhabitants shall be exempt from such regulations to the extent it maintains its rotational selection process in effect prior to July first, nineteen
hundred ninety-three. A record of proceedings before the hearing officer shall be maintained and made available to the parties. The board of education or trustees of the school district or the state agency responsible for providing education to students with disabilities shall have the burden of proof, including the burden of persuasion and burden of production, in any such impartial hearing, except that a parent or person in parental relation seeking tuition reimbursement for a unilateral parental placement shall have the burden of persuasion and burden of production on the appropriateness of such placement. The decision of the hearing officer shall be binding upon both parties unless appealed to the state review officer. The commissioner shall establish a department training program which shall be completed to the satisfaction of the commissioner as a condition of certification. The commissioner shall develop and implement a plan to ensure that no individual employed by a school district, school or program serving students with disabilities placed by a school district committee on special education acts as an impartial hearing officer and that no individual employed by such schools or programs serves as an impartial hearing officer for two years following the termination of such employment. Such plan shall be fully implemented no later than July first, nineteen hundred ninety-six. The commissioner shall promulgate regulations establishing procedures for the suspension or revocation of impartial hearing officer certification for good cause. The commissioner shall establish maximum rates for the compensation of impartial hearing officers subject to the approval of the director of the division of the budget. The commissioner shall promulgate regulations establishing procedures and timelines for expedited hearings in cases involving: (a) review of a decision that a student with a disability's behavior was not a manifestation of such student's disability, or (b) review of an interim alternative educational setting or other placement to the extent required under federal law, or (c) a request by the school district for a determination that maintaining the current educational placement of the student is substantially likely to result in injury to the student or to others.

2. Review by state review officer. A state review officer of the education department shall review and may modify, in such cases and to the extent that the review officer deems necessary, in order to properly effectuate the purposes of this article, any determination of the impartial hearing officer relating to the determination of the nature of a child's handicapping condition, selection of an appropriate special education program or service and the failure to provide such program and require such board to comply with the provisions of such modification. The commissioner shall adopt regulations governing the practice and procedure in such appeals to the state review officer; provided, however, that in no event shall any fee or charge whatsoever be imposed for any appeal taken pursuant to this subdivision. The state review officer is empowered to make all orders which are proper or necessary to give effect to the decision of the review officer.

2. The board of education or the trustees, as defined in section two of this chapter, of every school district within the state, however created, and every board of cooperative educational services and county vocational extension board, shall adopt and amend, as appropriate, a code of conduct for the maintenance of order on school property, including a school function, which shall govern the conduct of students, teachers and other school personnel as well as visitors and shall provide for the enforcement thereof… Such code of conduct shall include, at a minimum:
   i. provisions setting forth the circumstances under and procedures by which persons in parental relation to the student shall be notified of code violations;

3213. Supervisors of attendance; attendance teachers; attendance officers; appointment, compensation, powers and duties.
c. Notification upon absence. It shall be the duty of every school district to inform persons in parental relation to elementary school pupils of such person's right to be notified when such pupil is deemed absent from attendance at his designated school. Persons in parental relation to elementary school pupils shall, if such notification is desired, forward a request in writing to the principal of the pupil's designated school. Such request shall contain the telephone number of person or persons in parental relation to the pupil or other information to facilitate communication with such persons by the most expeditious means available. No civil or criminal liability shall arise or attach to any school district or employee thereof for any act or omission to act as a result of, or in connection with, the duties or activities authorized or directed by this paragraph.
d. Notification when deemed absent. A supervisor of attendance, attendance teacher, attendance officer, or other person authorized by the school district, as the case may be, shall, where a request for notification has been made pursuant to paragraph c of this subdivision, notify a person in parental relation to any elementary school pupil by the means designated in such request when such pupil is deemed absent from required attendance at his designated school without prior notification and consent to such absence by the person in parental relation. No civil or criminal liability shall arise or attach to any school district or employee thereof for any act or omission to act as a result of, or in connection with, the duties or activities authorized or directed by this paragraph.

In addition, any teacher shall have the power and authority to remove a disruptive pupil, as defined in subdivision two-a of this section, from such teacher's classroom consistent with discipline measures contained in the code of conduct adopted by the board pursuant to section twenty-eight hundred one of this chapter. The school authorities of any school district shall establish policies and procedures to ensure the provision of continued educational programming and activities for students removed from the classroom pursuant to this subdivision and provided further that nothing in this subdivision shall authorize the removal of a pupil in violation of any state or federal law or regulation. No pupil shall return to the classroom until the principal makes a final determination pursuant to paragraph c of this subdivision, or the period of removal expires, whichever is less.
* b. The principal shall inform the person in parental relation to such pupil of the removal and the reasons therefore within twenty-four hours of the pupil's removal, provided that if such twenty-four-hour period does not end on a school day, it shall be extended to the corresponding time on the next school day. The pupil and the person in parental relation shall, upon request, be given an opportunity for an informal conference with the principal to discuss the reasons for the removal. If the pupil denies the charges, the principal shall provide an explanation of the basis for the removal and allow the pupil and/or person in parental relation to the pupil an opportunity to present the pupil's version of relevant events. Such informal hearing shall be held within forty-eight hours of the pupil's removal, provided that if such forty-eight-hour period does not end on a school day, it shall be extended to the corresponding time on the second school day next following the pupil's removal. For purposes of this section of the law, "involuntary transfer" does not include a transfer made by a school district as part of a plan to reduce racial imbalance within the schools or as a change in school attendance zones or geographical boundaries.

b. A school principal may initiate a non-requested transfer where it is believed that such a pupil would benefit from the transfer, or when the pupil would receive an adequate and appropriate education in another school program or facility.

No recommendation for pupil transfer shall be initiated by the principal until such pupil and a person in parental relation has been sent written notification of the consideration of transfer recommendation. Such notice shall set a time and place of an informal conference with the principal and shall inform such person in parental relation and such pupil of their right to be accompanied by counsel or an individual of their choice.

c. After the conference and if the principal concludes that the pupil would benefit from a transfer or that the pupil would receive an adequate and appropriate education in another school program or facility, the principal may issue a recommendation of transfer to the superintendent. Such recommendation shall include a description of behavior and/or academic problems indicative of the need for transfer; a description of alternatives explored, and prior action taken to resolve the problem. A copy of that letter shall be sent to the person in parental relation and to the pupil.
d. Upon receipt of the principal's recommendation for transfer and a determination to consider that recommendation, the superintendent shall notify the person in parental relation and the pupil of the proposed transfer and of their right to a fair hearing as provided in paragraph c of subdivision three of this section and shall list community agencies and free legal assistance which may be of assistance. The written notice shall include a statement that the pupil or person in parental relation has ten days to request a hearing and that the proposed transfer shall not take effect, except upon written parental consent, until the ten day period has elapsed, or, if a fair hearing is requested, until after a formal decision following the hearing is rendered, whichever is later. Parental consent to a transfer shall not constitute a waiver of the right to a fair hearing.

If the district promptly and fully complies with the agreement and is in full compliance with this section and section twenty-eight hundred one of this article, the commissioner shall abate the withholding in its entirety. Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

LAWS

§ 115C-12. Powers and duties of the Board generally.
The general supervision and administration of the free public school system shall be vested in the State Board of Education. The State Board of Education shall establish policy for the system of free public schools, subject to laws enacted by the General Assembly. The powers and duties of the State Board of Education are defined as follows:

(9) Miscellaneous Powers and Duties. All the powers and duties exercised by the State Board of Education shall be in conformity with the Constitution and subject to such laws as may be enacted from time to time by the General Assembly. Among such duties are:

d. To formulate rules and regulations for the enforcement of the compulsory attendance law.

§ 115C-238.66. Board of directors; powers and duties.
The board of directors shall have the following powers and duties:

(2) Standards of performance and conduct. The board of directors shall establish policies and standards for academic performance, attendance, and conduct for students of the regional school. The policies of the board of directors shall comply with Article 27 of this Chapter.

(3) School attendance. Every parent, guardian, or other person in this State having charge or control of a child who is enrolled in the regional school and who is less than 16 years of age shall cause such child to attend school continuously for a period equal to the time that the regional school shall be in session. No person shall encourage, entice, or counsel any child to be unlawfully absent from the regional school. Any person who aids or abets a student's unlawful absence from the regional school shall, upon conviction, be guilty of a Class 1 misdemeanor. The principal shall be responsible for implementing such additional policies concerning compulsory attendance as shall be adopted by the board of directors, including regulations concerning lawful and unlawful absences, permissible excuses for temporary absences, maintenance of attendance records, and attendance counseling.

(12) Policy against bullying. A regional school is encouraged to adopt a policy against bullying or harassing behavior, including cyber-bullying, that is consistent with the provisions of Article 29C of this Chapter. If a regional school adopts a policy to prohibit bullying and harassing behavior, the regional school shall, at the beginning of each school year, provide the policy to staff, students, and parents as defined in G.S. 115C-390.1(b)(8).

(e) To Discipline Students and to Assign Duties to Teachers with Regard to the Discipline, General Well-being, and Medical Care of Students.

The principal shall have authority to exercise discipline over the pupils of the school under policies adopted by the local board of education in accordance with G.S. 115C-390.1 through G.S. 115C-390.12. The principal may use reasonable force pursuant to G.S. 115C-390.3 and may suspend students pursuant to G.S. 115C-390.5. The principal shall assign duties to teachers with regard to the general well-being and the medical care of students under G.S. 115C-307 and Article 26A of this Chapter.
§ 115C-390.2. Discipline policies.

(a) Local boards of education shall adopt policies to govern the conduct of students and establish procedures to be followed by school officials in disciplining students. These policies must be consistent with the provisions of this Article and the constitutions, statutes, and regulations of the United States and the State of North Carolina.

(b) Board policies shall include or provide for the development of a Code of Student Conduct that notifies students of the standards of behavior expected of them, conduct that may subject them to discipline, and the range of disciplinary measures that may be used by school officials.

(c) Board policies may authorize suspension for conduct not occurring on educational property, but only if the student's conduct otherwise violates the Code of Student Conduct and the conduct has or is reasonably expected to have a direct and immediate impact on the orderly and efficient operation of the schools or the safety of individuals in the school environment.

(d) Board policies shall not allow students to be long-term suspended or expelled from school solely for truancy or tardiness offenses and shall not allow short-term suspension of more than two days for such offenses.

(e) Board policies shall not impose mandatory long-term suspensions or expulsions for specific violations unless otherwise provided in State or federal law.

(f) Board policies shall minimize the use of long-term suspension and expulsion by restricting the availability of long-term suspension or expulsion to those violations deemed to be serious violations of the board's Code of Student Conduct that either threaten the safety of students, staff, or school visitors or threaten to substantially disrupt the educational environment. Examples of conduct that would not be deemed to be a serious violation include the use of inappropriate or disrespectful language, noncompliance with a staff directive, dress code violations, and minor physical altercations that do not involve weapons or injury. The principal may, however, in his or her discretion, determine that aggravating circumstances justify treating a minor violation as a serious violation.

(g) Board policies shall not prohibit the superintendent and principals from considering the student's intent, disciplinary and academic history, the potential benefits to the student of alternatives to suspension, and other mitigating or aggravating factors when deciding whether to recommend or impose long-term suspension.

(h) Board policies shall include the procedures to be followed by school officials in suspending, expelling, or administering corporal punishment to any student, which shall be consistent with this Article.

(i) Each local board shall publish all policies, administrative procedures, or school rules mandated by this section and make them available to each student and his or her parent at the beginning of each school year and upon request.

(j) Local boards of education are encouraged to include in their safe schools plans, adopted pursuant to G.S. 115C-105.47, research-based behavior management programs that take positive approaches to improving student behaviors.

(k) School officials are encouraged to use a full range of responses to violations of disciplinary rules, such as conferences, counseling, peer mediation, behavior contracts, instruction in conflict resolution and anger management, detention, academic interventions, community service, and other similar tools that do not remove a student from the classroom or school building.

(l) (Applicable to children enrolling in the public schools for the first time beginning with the 2016-2017 school year) Board policies shall state that absences under G.S. 130A-440 shall not be suspensions. A student subject to an absence under G.S. 130A-440 shall be provided the following:

   (1) The opportunity to take textbooks and school-furnished digital devices home for the duration of the absence.
(2) Upon request, the right to receive all missed assignments and, to the extent practicable, the materials distributed to students in connection with the assignment.

(3) The opportunity to take any quarterly, semester, or grading period examinations missed during the absence period.

§ 115C-407. Policy prohibiting tobacco use in school buildings, grounds, and at school-sponsored events.

(a) Not later than August 1, 2008, local boards of education shall adopt, implement, and enforce a written policy prohibiting at all times the use of any tobacco product by any person in school buildings, in school facilities, on school campuses, and in or on any other school property owned or operated by the local school administrative unit. The policy shall further prohibit the use of all tobacco products by persons attending a school-sponsored event at a location not listed in this subsection when in the presence of students or school personnel or in an area where smoking is otherwise prohibited by law.

(b) The policy shall include at least all of the following elements:

1. Adequate notice to students, parents, the public, and school personnel of the policy.
2. Posting of signs prohibiting at all times the use of tobacco products by any person in and on school property.
3. Requirements that school personnel enforce the policy.

(c) The policy may permit tobacco products to be included in instructional or research activities in public school buildings if the activity is conducted or supervised by the faculty member overseeing the instruction or research and the activity does not include smoking, chewing, or otherwise ingesting the tobacco product.

(d) The North Carolina Health and Wellness Trust Fund Commission shall work with local boards of education to provide assistance with the implementation of this policy including providing information regarding smoking cessation and prevention resources. Nothing in this section, G.S. 143-595 through G.S. 143-601, or any other section prohibits a local board of education from adopting and enforcing a more restrictive policy on the use of tobacco in school buildings, in school facilities, on school campuses, or at school-related or school-sponsored events, and in or on other school property.

§ 115C-407.16. Policy against bullying or harassing behavior.

(a) Before December 31, 2009, each local school administrative unit shall adopt a policy prohibiting bullying or harassing behavior.

(b) The policy shall contain, at a minimum, the following components:

1. A statement prohibiting bullying or harassing behavior.
2. A definition of bullying or harassing behavior no less inclusive than that set forth in this Article.
3. A description of the type of behavior expected for each student and school employee.
4. Consequences and appropriate remedial action for a person who commits an act of bullying or harassment.
5. A procedure for reporting an act of bullying or harassment, including a provision that permits a person to report such an act anonymously. This shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.
6. A procedure for prompt investigation of reports of serious violations and complaints of any act of bullying or harassment, identifying either the principal or the principal's designee as the person responsible for the investigation.
(7) A statement that prohibits reprisal or retaliation against any person who reports an act of bullying or harassment, and the consequence and appropriate remedial action for a person who engages in reprisal or retaliation.

(8) A statement of how the policy is to be disseminated and publicized, including notice that the policy applies to participation in school-sponsored functions.

(c) Nothing in this Article shall prohibit a local school administrative unit from adopting a policy that includes components beyond the minimum components provided in this section or that is more inclusive than the requirements of this Article.

(d) At the beginning of each school year, the principal shall provide the local school administrative unit's policy prohibiting bullying and harassing behavior, including cyber-bullying, to staff, students, and parents as defined in G.S. 115C-390.1(b)(8). Notice of the local policy shall appear in any school unit publication that sets forth the comprehensive rules, procedures, and standards of conduct for schools within the school unit and in any student and school employee handbook.

(e) Information regarding the local policy against bullying or harassing behavior shall be incorporated into a school's employee training program.

officials and teachers need adequate tools to maintain good discipline in schools. However, the General
Assembly also recognizes that removal of students from school, while sometimes necessary, can
exacerbate behavioral problems, diminish academic achievement, and hasten school dropout. School
discipline must balance these interests to provide a safe and productive learning environment, to
continually teach students to respect themselves, others, and property, and to conduct themselves in a
manner that fosters their own learning and the learning of those around them.
(b) The following definitions apply in this Article:
   (2) Corporal punishment. The intentional infliction of physical pain upon the body of a student as a
disciplinary measure.

§ 115C-390.4. Corporal punishment.
(a) Each local board of education shall determine whether corporal punishment will be permitted in its
school administrative unit. Notwithstanding a local board of education's prohibition on the use of corporal
punishment, school personnel may use physical restraint in accordance with federal law and G.S. 115C-
391.1 and reasonable force pursuant to G.S. 115C-390.3.
(b) To the extent that corporal punishment is permitted, the policies adopted for the administration of
corporal punishment shall include at a minimum the following:
   (1) Corporal punishment shall not be administered in a classroom with other students present.

only in the presence of a principal, assistant principal, or teacher who shall be informed beforehand and
in the student's presence of the reason for the punishment.
   (3) A school person shall provide the student's parent with notification that corporal punishment has
been administered, and the person who administered the corporal punishment shall provide the
student's parent a written explanation of the reasons and the name of the second person who was
present.
(4) The school shall maintain records of each administration of corporal punishment and the reasons for its administration.

(6) Corporal punishment shall not be administered on a student whose parent or guardian has stated in writing that corporal punishment shall not be administered to that student. Parents and guardians shall be given a form to make such an election at the beginning of the school year or when the student first enters the school during the year. The form shall advise the parent or guardian that the student may be subject to suspension, among other possible punishments, for offenses that would otherwise not require suspension if corporal punishment were available. If the parent or guardian does not return the form, corporal punishment may be administered on the student.

(c) Each local board of education shall report annually to the State Board of Education, in a manner prescribed by the State Board of Education, on the number of times that corporal punishment was administered. The report shall be in compliance with the federal Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g, and shall include the following:

1. The number of students who received corporal punishment.
2. The number of students who received corporal punishment who were also students with disabilities and were eligible to receive special education and related services under the federal Individuals with Disabilities Education Act, 20 U.S.C. § 1400, et seq.

deemed to be a serious violation include the use of inappropriate or disrespectful language,
noncompliance with a staff directive, dress code violations, and minor physical altercations that do not
involve weapons or injury. The principal may, however, in his or her discretion, determine that
aggravating circumstances justify treating a minor violation as a serious violation.
(g) Board policies shall not prohibit the superintendent and principals from considering the student's

suspension, and other mitigating or aggravating factors when deciding whether to recommend or impose

(h) Board policies shall include the procedures to be followed by school officials in suspending, expelling,
or administering corporal punishment to any student, which shall be consistent with this Article.
(i) Each local board shall publish all policies, administrative procedures, or school rules mandated by this

(l) (Applicable to children enrolling in the public schools for the first time beginning with the 2016-2017

   2. Upon request, the right to receive all missed assignments and, to the extent practicable, the
      materials distributed to students in connection with the assignment.
   3. The opportunity to take any quarterly, semester, or grading period examinations missed during the
      absence period.

§ 115C-390.5. Short-term suspension.
(b) If a student's short-term suspensions accumulate to more than 10 days in a semester, to the extent

(c) A student subject to short-term suspension shall be provided the following:
(1) The opportunity to take textbooks home for the duration of the suspension.

§ 115C-390.6. Short-term suspension procedures.
(a) Except as authorized in this section, no short-term suspension shall be imposed upon a student without first providing the student an opportunity for an informal hearing with the principal. The notice to the student of the charges may be oral or written, and the hearing may be held immediately after the notice is given. The student has the right to be present, to be informed of the charges and the basis for the accusations, and to make statements in defense or mitigation of the charges.

§ 115C-390.7. Long-term suspension.
(a) Only the superintendent has the authority to long-term suspend a student.
(b) Before the superintendent's imposition of a long-term suspension, the student must be provided an opportunity for a hearing consistent with G.S. 115C-390.8.
(c) If the student recommended for long-term suspension declines the opportunity for a hearing, the superintendent shall review the circumstances of the recommended long-term suspension. Following such review, the superintendent (i) may impose the suspension if is it consistent with board policies and appropriate under the circumstances, (ii) may impose another appropriate penalty authorized by board policy, or (iii) may decline to impose any penalty.
(d) If a teacher is assaulted or injured by a student and as a result the student is long-term suspended or reassigned to alternative education services, the student shall not be returned to that teacher's classroom unless the teacher consents.

§ 115C-390.11. Expulsion.
(b) During the expulsion, the student is not entitled to be present on any property of the local school administrative unit and is not considered a student of the local board of education. Nothing in this section shall prevent a local board of education from offering access to some type of alternative educational services that can be provided to the student in a manner that does not create safety risks to other students and school staff.

If the offense leading to the long-term suspension occurs during the final quarter of the school year, the exclusion may include a period up to the remainder of the school year in which the offense was committed and the first semester of the following school year.

(8) Parent. Includes a parent, legal guardian, legal custodian, or other caregiver adult who is acting in the place of a parent and is entitled to enroll the student in school under Article 25 of this Chapter.

(9) Principal. Includes the principal and the principal's designee.

(10) School official. A superintendent or any other central office administrator to whom the superintendent has delegated duties under this Article and any principal or assistant principal.

(11) School personnel. Any of the following:
   a. An employee of a local board of education.
   b. Any person working on school grounds or at a school function under a contract or written agreement with the public school system to provide educational or related services to students.
   c. Any person working on school grounds or at a school function for another agency providing educational or related services to students.
(12) Short-term suspension. The exclusion of a student from school attendance for disciplinary purposes for up to 10 school days from the school to which the student was assigned at the time of the disciplinary action.

(13) Substantial evidence. Such relevant evidence as a reasonable person might accept as adequate to support a conclusion; it is more than a scintilla or permissible inference.

(14) Superintendent. Includes the superintendent and the superintendent's designee.

c) Notwithstanding the provisions of this Article, the policies and procedures for the discipline of students shall be consistent with the requirements of the Gun Free Schools Act, 20 U.S.C. § 7151, the Individuals with Disabilities Education Act (IDEA), 29 U.S.C. § 1400, et seq., section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 701, et seq., and with other federal laws and regulations.

§ 115C-390.2. Discipline policies.

(a) Local boards of education shall adopt policies to govern the conduct of students and establish procedures to be followed by school officials in disciplining students. These policies must be consistent with the provisions of this Article and the constitutions, statutes, and regulations of the United States and the State of North Carolina.

(b) Board policies shall include or provide for the development of a Code of Student Conduct that notifies students of the standards of behavior expected of them, conduct that may subject them to discipline, and the range of disciplinary measures that may be used by school officials.

(c) Board policies may authorize suspension for conduct not occurring on educational property, but only if the student's conduct otherwise violates the Code of Student Conduct and the conduct has or is reasonably expected to have a direct and immediate impact on the orderly and efficient operation of the schools or the safety of individuals in the school environment.

(d) Board policies shall not allow students to be long-term suspended or expelled from school solely for truancy or tardiness offenses and shall not allow short-term suspension of more than two days for such offenses.

(e) Board policies shall not impose mandatory long-term suspensions or expulsions for specific violations unless otherwise provided in State or federal law.

(f) Board policies shall minimize the use of long-term suspension and expulsion by restricting the availability of long-term suspension or expulsion to those violations deemed to be serious violations of the board's Code of Student Conduct that either threaten the safety of students, staff, or school visitors or threaten to substantially disrupt the educational environment. Examples of conduct that would not be deemed to be a serious violation include the use of inappropriate or disrespectful language, noncompliance with a staff directive, dress code violations, and minor physical altercations that do not involve weapons or injury. The principal may, however, in his or her discretion, determine that aggravating circumstances justify treating a minor violation as a serious violation.

(g) Board policies shall not prohibit the superintendent and principals from considering the student's intent, disciplinary and academic history, the potential benefits to the student of alternatives to suspension, and other mitigating or aggravating factors when deciding whether to recommend or impose long-term suspension.

(h) Board policies shall include the procedures to be followed by school officials in suspending, expelling, or administering corporal punishment to any student, which shall be consistent with this Article.

(i) Each local board shall publish all policies, administrative procedures, or school rules mandated by this section and make them available to each student and his or her parent at the beginning of each school year and upon request.
(j) Local boards of education are encouraged to include in their safe schools plans, adopted pursuant to G.S. 115C-105.47, research-based behavior management programs that take positive approaches to improving student behaviors.

(k) School officials are encouraged to use a full range of responses to violations of disciplinary rules, such as conferences, counseling, peer mediation, behavior contracts, instruction in conflict resolution and anger management, detention, academic interventions, community service, and other similar tools that do not remove a student from the classroom or school building.

(l) (Applicable to children enrolling in the public schools for the first time beginning with the 2016-2017 school year) Board policies shall state that absences under G.S. 130A-440 shall not be suspensions. A student subject to an absence under G.S. 130A-440 shall be provided the following:

1. The opportunity to take textbooks and school-furnished digital devices home for the duration of the absence.
2. Upon request, the right to receive all missed assignments and, to the extent practicable, the materials distributed to students in connection with the assignment.
3. The opportunity to take any quarterly, semester, or grading period examinations missed during the absence period.

§ 115C-390.6. Short-term suspension procedures.
(a) Except as authorized in this section, no short-term suspension shall be imposed upon a student without first providing the student an opportunity for an informal hearing with the principal. The notice to the student of the charges may be oral or written, and the hearing may be held immediately after the notice is given. The student has the right to be present, to be informed of the charges and the basis for the accusations, and to make statements in defense or mitigation of the charges.

(b) The principal may impose a short-term suspension without providing the student an opportunity for a hearing if the presence of the student creates a direct and immediate threat to the safety of other students or staff, or substantially disrupts or interferes with the education of other students or the maintenance of discipline at the school. In such cases, the notice of the charges and informal hearing described in subsection (a) of this section shall occur as soon as practicable.

(c) The principal shall provide notice to the student's parent of any short-term suspension, including the reason for the suspension and a description of the alleged student conduct upon which the suspension is based. The notice shall be given by the end of the workday during which the suspension is imposed when reasonably possible, but in no event more than two days after the suspension is imposed. The notice shall be given by certified mail, telephone, facsimile, e-mail, or any other method reasonably designed to achieve actual notice.

(d) If English is the second language of the parent, the notice shall be provided in the parent's primary language, when the appropriate foreign language resources are readily available, and in English, and both versions shall be in plain language and shall be easily understandable.

(e) A student is not entitled to appeal the principal's decision to impose a short-term suspension to the superintendent or local board of education. Further, such a decision is not subject to judicial review. Notwithstanding this subsection, the local board of education, in its discretion, may provide students an opportunity for a review or appeal of a short-term suspension to the superintendent or local board of education.

(a) When a student is recommended by the principal for long-term suspension, the principal shall give written notice to the student's parent. The notice shall be provided to the student's parent by the end of
the workday during which the suspension was recommended when reasonably possible or as soon thereafter as practicable. The written notice shall provide at least the following information:

(1) A description of the incident and the student's conduct that led to the long-term suspension recommendation.

(2) A reference to the provisions of the Code of Student Conduct that the student is alleged to have violated.

(3) The specific process by which the parent may request a hearing to contest the decision, including the number of days within which the hearing must be requested.

(4) The process by which a hearing will be held, including, at a minimum, the procedures described in subsection (e) of this section.

(5) Notice that the parent is permitted to retain an attorney to represent the student in the hearing process.

(6) The extent to which the local board policy permits the parent to have an advocate, instead of an attorney, accompany the student to assist in the presentation of his or her appeal.

(7) Notice that the parent has the right to review and obtain copies of the student's educational records before the hearing.

(8) A reference to the local board policy on the expungement of discipline records as required by G.S. 115C-402.

(b) Written notice may be provided by certified mail, fax, e-mail, or any other written method reasonably designed to achieve actual notice of the recommendation for long-term suspension. When school personnel are aware that English is not the primary language of the parent or guardian, the notice shall be written in both English and in the primary language of the parent or guardian when the appropriate foreign language resources are readily available. All notices described in this section shall be written in plain English, and shall include the following information translated into the dominant non-English language used by residents within the local school administrative unit:

(1) The nature of the document, i.e., that it is a long-term suspension notice.

(2) The process by which the parent may request a hearing to contest the long-term suspension.

(3) The identity and phone number of a school employee that the parent may call to obtain assistance in understanding the English language information included in the document.

(c) No long-term suspension shall be imposed on a student until an opportunity for a formal hearing is provided to the student. If a hearing is timely requested, it shall be held and a decision issued before a long-term suspension is imposed, except as otherwise provided in this subsection. The student and parent shall be given reasonable notice of the time and place of the hearing.

(1) If no hearing is timely requested, the superintendent shall follow the procedures described in G.S. 115C-390.7(c).

(2) If the student or parent requests a postponement of the hearing, or if the hearing is requested beyond the time set for such request, the hearing shall be scheduled, but the student shall not have the right to return to school pending the hearing.

(3) If neither the student nor parent appears for the scheduled hearing, after having been given reasonable notice of the time and place of the hearing, the parent and student are deemed to have waived the right to a hearing and the superintendent shall conduct the review required by G.S. 115C-390.7(c).

(d) The formal hearing may be conducted by the local board of education, by the superintendent, or by a person or group of persons appointed by the local board or superintendent to serve as a hearing officer or hearing panel. Neither the board nor the superintendent shall appoint any individual to serve as a hearing
officer or on a hearing panel who is under the direct supervision of the principal recommending suspension. If the hearing is conducted by an appointed hearing officer or hearing panel, such officer or panel shall determine the relevant facts and credibility of witnesses based on the evidence presented at the hearing. Following the hearing, the superintendent or local board shall make a final decision regarding the suspension. The superintendent or board shall adopt the hearing officer's or panel's factual determinations unless they are not supported by substantial evidence in the record.

(e) Long-term suspension hearings shall be conducted in accordance with policies adopted by the board of education. Such policies shall offer the student procedural due process including, but not limited to, the following:

1. The right to be represented at the hearing by counsel or, in the discretion of the local board, a non-attorney advocate.
2. The right to be present at the hearing, accompanied by his or her parents.
3. The right of the student, parent, and the student's representative to review before the hearing any audio or video recordings of the incident and, consistent with federal and State student records laws and regulations, the information supporting the suspension that may be presented as evidence at the hearing, including statements made by witnesses related to the charges consistent with subsection (h) of this section.
4. The right of the student, parent, or the student's representative to question witnesses appearing at the hearing.
5. The right to present evidence on his or her own behalf, which may include written statements or oral testimony, relating to the incident leading to the suspension, as well as any of the factors listed in G.S. 115C-390.2(g).
6. The right to have a record made of the hearing.
7. The right to make his or her own audio recording of the hearing.
8. The right to a written decision, based on substantial evidence presented at the hearing, either upholding, modifying, or rejecting the principal's recommendation of suspension and containing at least the following information:
   a. The basis for the decision, including a reference to any policy or rule that the student is determined to have violated.
   b. Notice of what information will be included in the student's official record pursuant to G.S. 115C-402.
   c. The student's right to appeal the decision and notice of the procedures for such appeal.

(f) Following the issuance of the decision, the superintendent shall implement the decision by authorizing the student's return to school or by imposing the suspension reflected in the decision.

(g) Unless the decision was made by the local board, the student may appeal the decision to the local board in accordance with G.S. 115C-45(c) and policies adopted by the board. Notwithstanding the provisions of G.S. 115C-45(c), a student's appeal to the board of a decision upholding a long-term suspension shall be heard and a final written decision issued in not more than 30 calendar days following the request for such appeal.

(h) Nothing in this section shall compel school officials to release names or other information that could allow the student or his or her representative to identify witnesses when such identification could create a safety risk for the witness.

(i) A decision of the local board to uphold the long-term suspension of a student is subject to judicial review in accordance with Article 4 of Chapter 150B of the General Statutes. The action must be brought within 30 days of the local board's decision. A person seeking judicial review shall file a petition in the
superior court of the county where the local board made its decision. Local rules notwithstanding, petitions for judicial review of a long-term suspension shall be set for hearing in the first succeeding term of superior court in the county following the filing of the certified copy of the official record.

§ 115C-390.10. 365-day suspension for gun possession.
(e) The procedures described in G.S. 115C-390.8 apply to students facing a 365-day suspension pursuant to this section.

§ 115C-390.11. Expulsion.
(a) Upon recommendation of the superintendent, a local board of education may expel any student 14 years of age or older whose continued presence in school constitutes a clear threat to the safety of other students or school staff. Prior to the expulsion of any student, the local board shall conduct a hearing to determine whether the student's continued presence in school constitutes a clear threat to the safety of other students or school staff. The student shall be given reasonable notice of the recommendation in accordance with G.S. 115C-390.8(a) and (b), as well as reasonable notice of the time and place of the scheduled hearing.

(1) The procedures described in G.S. 115C-390.8(e)(1)-(8) apply to students facing expulsion pursuant to this section, except that the decision to expel a student by the local board of education shall be based on clear and convincing evidence that the student's continued presence in school constitutes a clear threat to the safety of other students and school staff.

(2) A local board of education may expel any student subject to G.S. 14-208.18 in accordance with the procedures of this section. Prior to ordering the expulsion of a student, the local board of education shall consider whether there are alternative education services that may be offered to the student. As provided by G.S. 14-208.18(f), if the local board of education determines that the student shall be provided educational services on school property, the student shall be under the supervision of school personnel at all times.

(3) At the time a student is expelled under this section, the student shall be provided notice of the right to petition for readmission pursuant to G.S. 115C-390.12.

These standards shall include (i) a description of the programs and services that are recommended to be provided in alternative learning programs and (ii) a process for ensuring that an assignment is appropriate for the student and that the student's parents are involved in the decision. The State Board also shall adopt policies that define what constitutes an alternative school and an alternative learning program.

The State Board of Education shall also adopt standards to require that local school administrative units shall use (i) the teachers allocated for students assigned to alternative learning programs pursuant to the regular teacher allotment and (ii) the teachers allocated for students assigned to alternative learning programs only to serve the needs of these students.

The State Board of Education shall provide technical support to local school administrative units to assist them in developing and implementing plans and proposals for alternative learning programs.

The State Board shall evaluate the effectiveness of alternative learning programs and, in its discretion, of any other programs funded from the Alternative Schools/At-Risk Student allotment. Local school administrative units shall report to the State Board of Education on how funds in the Alternative Schools/At-Risk Student allotment are spent and shall otherwise cooperate with the State Board of Education in evaluating the alternative learning programs. As part of its evaluation of the effectiveness of these programs, the State Board shall, through the application of the accountability system developed under G.S. 115C-83.15 and G.S. 115C-105.35, measure the educational performance and growth of students placed in alternative schools and alternative programs. If appropriate, the Board may modify this system to adapt to the specific characteristics of these schools. Also as part of its
evaluation, the State Board shall evaluate its standards adopted under this subdivision and make any necessary changes to those standards based on strategies that have been proven successful in improving student achievement and shall report to the Joint Legislative Education Oversight Committee by April 15, 2006 to determine if any changes are necessary to improve the implementation of successful alternative learning programs and alternative schools.

(44) Duty to Ensure Educational Services in Private Psychiatric Residential Treatment Facilities (PRTFs). The Board, in collaboration with the Department of Health and Human Services, shall ensure that educational services are provided to all students in PRTFs as required under Part 4 of Article 6 of Chapter 122C of the General Statutes. The Board shall ensure that a child with a disability as defined under G.S. 115C-106.3(1) in a PRTF receives educational services and procedural safeguards as provided in Article 9 of this Chapter.

§ 115C-105.47A. Proposals to establish alternative learning programs or alternative schools.

(a) Before establishing any alternative learning program or alternative school, the local board of education shall develop a proposal to implement the program or school that includes all of the following:

(1) The educational and behavioral goals for students assigned to the program or school.

(2) The policies and procedures for the operation of the program or school based on the State Board's standards adopted under G.S. 115C-12(24). The policies and procedures shall address the assignment of students to the program or school.

(3) Identified strategies that will be used to improve student achievement and behavior.

(4) Documentation that similar programs and schools in or out of the State, or both, have demonstrated success in improving the academic achievement and behavior of students assigned to them.

(5) The estimated actual cost of operating the program or school. To the extent practicable, this shall include the cost of:

   a. Staffing the program or school with teachers who have at least four years' teaching experience and who have received an overall rating of at least above standard on a formal evaluation and are certified in the areas and grade levels being taught;

   b. Providing optimum learning environments, resources and materials, and high quality, ongoing professional development that will ensure students who are placed in the program or school are provided enhanced educational opportunities in order to achieve their full potential;

   c. Providing support personnel, including school counselors, psychiatrists, clinical psychologists, social workers, nurses, and other professionals to help students and their families work out complex issues and problems;

   d. Maintaining safe and orderly learning environments; and

   e. Providing transitional supports for students exiting the program or school and reentering the referring school.

(6) Documented support of school personnel and the community for the implementation of the program or school.

(b) After the local board completes the proposal under subsection (a) of this section, the board shall submit the proposal to the State Board of Education for its review. The State Board shall review the proposal expeditiously and, if appropriate, may offer recommendations to modify the proposal. The local board shall consider any recommendations made by the State Board before implementing the alternative learning program or alternative school.
§ 115C-105.48. Placement of students in alternative schools/alternative learning programs.
(a) Prior to referring a student to an alternative school or an alternative learning program, the referring school shall:

(1) Document the procedures that were used to identify the student as being at risk of academic failure or as being disruptive or disorderly.

(2) Provide the reasons for referring the student to an alternative school or an alternative learning program.

(3) Provide to the alternative school or alternative learning program all relevant student records, including anecdotal information.

(b) When a student is placed in an alternative school or an alternative learning program, the appropriate staff of the alternative school or alternative learning program shall meet to review the records forwarded by the referring school and to determine what support services and intervention strategies are recommended for the student. The parents shall be encouraged to provide input regarding the students' needs.

§ 115C-390.1. State policy and definitions.
(a) In order to create and maintain a safe and orderly school environment conducive to learning, school officials and teachers need adequate tools to maintain good discipline in schools. However, the General Assembly also recognizes that removal of students from school, while sometimes necessary, can exacerbate behavioral problems, diminish academic achievement, and hasten school dropout. School discipline must balance these interests to provide a safe and productive learning environment, to continually teach students to respect themselves, others, and property, and to conduct themselves in a manner that fosters their own learning and the learning of those around them.

(b) The following definitions apply in this Article:

(1) Alternative education services. Part or full-time programs, wherever situated, providing direct or computer-based instruction that allow a student to progress in one or more core academic courses. Alternative education services include programs established by the local board of education in conformity with G.S. 115C-105.47A and local board of education policies.

(5) Expulsion. The indefinite exclusion of a student from school enrollment for disciplinary purposes.

(7) Long-term suspension. The exclusion for more than 10 school days of a student from school attendance for disciplinary purposes from the school to which the student was assigned at the time of the disciplinary action. If the offense leading to the long-term suspension occurs before the final quarter of the school year, the exclusion shall be no longer than the remainder of the school year in which the offense was committed. If the offense leading to the long-term suspension occurs during the final quarter of the school year, the exclusion may include a period up to the remainder of the school year in which the offense was committed and the first semester of the following school year.

(12) Short-term suspension. The exclusion of a student from school attendance for disciplinary purposes for up to 10 school days from the school to which the student was assigned at the time of the disciplinary action.

(13) Substantial evidence. Such relevant evidence as a reasonable person might accept as adequate to support a conclusion; it is more than a scintilla or permissible inference.

§ 115C-390.7. Long-term suspension.
(e) Disciplinary reassignment of a student to a full-time educational program that meets the academic requirements of the standard course of study established by the State Board of Education as provided in G.S. 115C-12 and provides the student with the opportunity to make timely progress towards graduation
and grade promotion is not a long-term suspension requiring the due process procedures described in G.S. 115C-390.8. No relevant statutes found.

§ 115C-390.9. Alternative education services.
(a) Students who are long-term suspended shall be offered alternative education services unless the superintendent provides a significant or important reason for declining to offer such services. The following may be significant or important reasons, depending on the circumstances and the nature and setting of the alternative education services:

(1) The student exhibits violent behavior.
(2) The student poses a threat to staff or other students.
(3) The student substantially disrupts the learning process.
(4) The student otherwise engaged in serious misconduct that makes the provision of alternative educational services not feasible.
(5) Educationally appropriate alternative education services are not available in the local school administrative unit due to limited resources.
(6) The student failed to comply with reasonable conditions for admittance into an alternative education program.

(b) If the superintendent declines to provide alternative education services to the suspended student, the student may seek review of such decision by the local board of education as permitted by G.S. 115C-45(c)(2). If the student seeks such review, the superintendent shall provide to the student and the local board, in advance of the board's review, a written explanation for the denial of services together with any documents or other information supporting the decision.

§ 115C-390.10. 365-day suspension for gun possession.
(f) Students who are suspended for 365 days pursuant to this section shall be considered for alternative educational services consistent with the provisions of G.S. 115C-390.9.

§ 115C-390.11. Expulsion.
(2) A local board of education may expel any student subject to G.S. 14-208.18 in accordance with the procedures of this section. Prior to ordering the expulsion of a student, the local board of education shall consider whether there are alternative education services that may be offered to the student. As provided by G.S. 14-208.18(f), if the local board of education determines that the student shall be provided educational services on school property, the student shall be under the supervision of school personnel at all times.

§ 115C-397.1. Management and placement of disruptive students.
If, after a teacher has requested assistance from the principal two or more times due to a student's disruptive behavior, the teacher finds that the student's disruptive behavior continues to interfere with the academic achievement of that student or other students in the class, then the teacher may refer the matter to a school-based committee. The teacher may request that additional classroom teachers participate in the committee's proceedings. For the purposes of this section, the committee shall notify the student's parent, guardian, or legal custodian and shall encourage that person's participation in the proceedings of the committee concerning the student. Nothing in this section requires a student to be screened, evaluated, or identified as a child with a disability under Article 9 of this Chapter. The committee shall review the matter and shall take one or more of the following actions:

(i) advise the teacher on managing the student's behavior more effectively,
(ii) recommend to the principal the transfer of the student to another class within the school,
(iii) recommend to the principal a multidisciplinary evaluation of the student,
(iv) recommend to the principal that the student be assigned to an alternative learning program, or
(v) recommend to the principal that the student receive any additional services that the school or the
school unit has the resources to provide for the student. If the principal does not follow the
recommendation of the committee, the principal shall provide a written explanation to the committee,
the teacher who referred the matter to the committee, and the superintendent, of any actions taken to
resolve the matter and of the reason the principal did not follow the recommendation of the committee.
This section shall be in addition to the supplemental to disciplinary action taken in accordance with any
other law. The recommendation of the committee is final and shall not be appealed under G.S. 115C-
45(c). Nothing in this section shall authorize a student to refer a disciplinary matter to this committee or to
have the matter of the student's behavior referred to this committee before any discipline is imposed on
the student.
