REGULATIONS
(a) Definitions. The following terms, when used in this Section, shall have the following meanings unless the context clearly indicates otherwise:

(1) "Behavior Intervention Plan (BIP)" means a plan that is based on the results of a functional behavioral assessment (FBA) and, at a minimum, includes a description of the problem behavior, global and specific hypotheses as to why the problem behavior occurs, and intervention strategies that include positive behavioral supports and services to address the behavior.

(2) "Chemical restraint" means a drug or medication used on a student to control behavior or restrict freedom of movement, when such substance is not administered as prescribed to the student by a licensed physician or other qualified health professional acting under the scope of their professional authority.

(3) "Corporal punishment" means, as defined in 70 O.S. § 13-116, the deliberate infliction of physical pain by hitting, paddling, spanking, slapping, or any other physical force used as a means of discipline.

(4) "Functional Behavioral Assessment (FBA)" means a process that uses direct and indirect data collection to determine why a student engages in behaviors that impede learning, and how the student's behavior relates to the environment. The FBA includes, but is not limited to: the identification of the problem behavior, the definition of the behavior in concrete terms, the identification of the contextual factors that contribute to the behavior, and the formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probably consequences that serve to maintain it.

(5) "Mechanical restraint" means the use of any device or equipment to restrict a student's freedom of movement. This term does not include motor vehicle safety restraints or devices utilized by a student, or appropriately trained school personnel, which are used as prescribed by a medical or related services professional for specific approved purposes such as: mechanical supports used to achieve proper body position or allow greater freedom of mobility, restraints for medical immobilization, or orthopedically prescribed devices.

(6) "Physical escort" means a temporary touching or holding of the hand, wrist, arm, shoulder, or back for the purpose of directing a student to move to a safe location if they are in distress or acting out.

(7) "Physical restraint" means a personal restriction that immobilizes or reduces the ability of a student to move their torso, arms, legs, or head freely. Physical restraint does not include an appropriately applied temporary physical escort.

(8) "Prone restraint" means a prohibited type of physical restraint that positions a student face down on their stomach, potentially restricting the student's ability to breathe freely.

(9) "Seclusion" means the involuntary confinement of a student alone in a room or area which the student is physically prevented from leaving. Seclusion does not include short-term monitored separation in a monitored and non-locked timeout setting.
(10) "Seclusion room" means a room or other confined area in which a student is involuntarily placed in isolation from other persons and which the student is physically prevented from leaving.

(11) "Timeout" means a technique that is part of an approved behavior management program and involves the monitored separation of the student in a non-locked setting for the purpose of calming.

(b) Student seclusion. Seclusion should never be used for the purposes of discipline, punishment, forcing compliance, or as a convenience to staff. Seclusion may only be used under emergency circumstances as outlined below.

(1) Circumstances under which seclusion of a student is authorized. A student may be placed in seclusion only if:
   (A) The student's actions pose an imminent danger of serious physical harm to the student or other individuals, and not merely a threat to property;
   (B) Positive behavior intervention strategies and less restrictive measures appropriate to the behavior exhibited by the student are currently being implemented, but have not effectively de-escalated the threat of danger or harm;
   (C) School personnel are present who have completed appropriate training that addresses conflict de-escalation, the crisis cycle and associated interventions, appropriate use of seclusion rooms, and possible effects of seclusion; and
   (D) The seclusion only lasts as long as necessary to resolve the threat of danger or harm.

(2) Conditions required during an authorized use of seclusion. If a student is placed in seclusion during an emergency situation that meets the criteria of (b)(1) above, the following precautions must be exercised throughout the time the student is in seclusion:
   (A) The student must be continuously monitored visually and aurally by an appropriately trained school employee;
   (B) The student must be allowed to go to the restroom upon request;
   (C) The student must be permitted to drink water upon request; and
   (D) Immediate action must be taken if the student displays any signs of medical distress.

(3) Requirements for seclusion rooms. A room or area where a student is placed in seclusion must meet the following criteria:
   (A) Continuous visual and aural monitoring of a secluded student is possible;
   (B) There must be adequate space for the student to sit or lie down;
   (C) There must be adequate lighting;
   (D) The room must be equipped with heating, cooling, and ventilation systems comparable to such systems in the rest of the building where the seclusion room or area is located;
   (E) The room or area used for seclusion must be free of any objects that pose a potential risk of harm to a student with disabilities or a student in distress; and
   (F) If equipped with a door that locks, the lock must automatically disengage in case of an emergency such as a fire or severe weather.

(c) Student restraint. Chemical restraint and/or mechanical restraint of a student is prohibited in Oklahoma public schools. Physical restraint of a student should never be used for the purposes of discipline, punishment, forcing compliance, or as a convenience to staff. In cases where a student has a history of dangerous behavior for which physical restraint was used or considered, the school should have a plan in place for teaching and supporting more appropriate behavior and determining positive methods to prevent behavioral escalations that have previously resulted in the use or consideration of restraint. Physical restraint may only be used under emergency circumstances as outlined below.

(1) Circumstances under which physical restraint of a student is authorized. A student may be physically restrained only if:
(A) The student’s actions pose an imminent danger of serious physical harm to the student or other individuals, and not merely a threat to property;

(B) Positive behavior intervention strategies and less restrictive measures appropriate to the behavior exhibited by the student are currently being implemented, but have not effectively de-escalated the threat of danger or harm;

(C) The physical restraint is applied by school personnel who have completed appropriate training that addresses conflict de-escalation, the crisis cycle and associated interventions, CPR and First Aid (including certifications), possible effects of physical restraint, and monitoring the wellbeing of a restrained student; and

(D) The physical restraint lasts only as long as necessary to resolve the threat of danger or harm.

(2) Conditions required during an authorized use of physical restraint. If a student is placed in physical restraint during an emergency situation that meets the criteria of (c)(1) above, the following precautions must be exercised throughout the time the student is restrained:

(A) Under no circumstances may a student be restrained using a prone (facedown) restraint, any restraint that prevents the student from breathing or speaking, or any maneuver that places pressure or weight on the chest, sternum, lungs, diaphragm, neck, throat, or back;

(B) The degree of restriction of the student’s freedom of movement may not exceed what is necessary to protect the student or other individuals from the threat of serious physical harm; and

(C) The restraint of the student is continuously witnessed by at least one school employee who is not involved in the physical restraint.

(d) Corporal punishment of students with disabilities not authorized. For all students, the State Department of Education strongly encourages Oklahoma schools to implement disciplinary policies and practices that use evidence based, developmentally appropriate methods informed by an awareness that many students have endured Adverse Childhood Experiences (ACEs) and related trauma. As applied to students with disabilities entitled to special education services under the Individuals with Disabilities Education Act (IDEA), the use of corporal punishment by employees or agents of an Oklahoma public school is prohibited beginning in the 2020-2021 school year.

(e) Incident reporting. Each incident of seclusion, restraint, or corporal punishment of a student with disabilities shall be reported immediately to a school site administrator and documented using the statewide online IEP reporting system. A copy of the documentation shall be placed in the student’s file and provided to the student’s parent(s) or guardian(s). For each incident of seclusion, restraint, or corporal punishment of a student, the student’s parent(s) or guardian(s) shall be notified as soon as possible, and must be notified no later than the school day following the incident or within twenty-four (24) hours of the incident, whichever is first. An IEP meeting may be needed to review or implement a Behavior Intervention Plan (BIP) for the student.

(f) End-of-year reporting. At the end of each school year, and no later than June 30th, each school district or charter school shall report to the State Department of Education (OSDE) Office of Special Education Services information regarding all incidents of seclusion, restraint, or corporal punishment of a student with disabilities within the district during the school year that just closed. The end-of-year summary report shall include the total number of each type of incident, as well as the number and type of incidents associated with each student to whom seclusion, physical restraint, or corporal punishment was applied. This information will be used to identify districts in need of additional support, training, and guidance in the areas of conflict de-escalation, crisis intervention, Functional Behavior Assessments, the possible effects of seclusion and restraint, and effective behavior intervention planning.

REGULATIONS

The following words and terms, when used in this Subchapter, shall have the following meaning, unless the context clearly indicates otherwise.

"Alternative Education" means an educational process incorporating appropriate structure, curriculum, interaction, and reinforcement strategies to stimulate learning with students who have not utilized their capacity to do so within traditional educational settings. Alternative education programs must meet all requirements listed at 70 O.S. § 1210.568 and at section 210:35-29-7 of this title.

210:35-29-8. Requirements for alternative education programs.

Alternative education is an educational process incorporating appropriate structure, curriculum, interaction, and reinforcement strategies to stimulate learning with students who are at risk of failing to complete their secondary education for reasons which may include academic deficiency, behavioral difficulties, excessive absences, pregnancy or parenting, family issues, substance abuse, financial issues, physical or mental health issues, state custody, juvenile justice involvement, and/or other such factors, not including disability status. An alternative education program must provide the additional services and supports outlined in statute, and not merely an opportunity for credit recovery.

To qualify as an approved alternative education program, a school district's alternative school or alternative education program must meet all requirements listed at 70 O.S. § 1210.568, including:

(1) Student-teacher ratios conducive to effective learning for at-risk students;

(4) Appropriately certified teaching faculty;
(5) Teaching faculty with experiences or personal traits that qualify them for successful work with at-risk students;

(6) Collaboration with state and local agencies;

(7) Courses that meet the curricular standards adopted by the State Board of Education and additional remedial courses;

(8) Individualized instruction;

(9) Clear and measurable program goals and objectives;

(10) Counseling and social service components;

(11) Graduation plan for each student;

(12) Life skills instruction;

(13) Opportunities for arts education;

(14) A proposed annual budget;

(15) An evaluation component that includes an annual written self-evaluation;

(16) Service to students in grades six (6) through twelve (12) who are most at risk of not completing high school for reasons other than disability; and

(17) Opportunities for student participation in vocational programs and extra-curricular activities such as athletics, band, and clubs.

(b) Submission of alternative education plan. Each school district shall submit and certify an Alternative Education Implementation Plan to the State Department of Education by September 15 of each year. This plan shall outline how the district will meet the criteria listed in subsection (a) to serve its at-risk students. The plan must be submitted and certified by school districts providing their own alternative education programs, as well as districts which offer alternative education through interlocal cooperative arrangements, and districts which have no alternative education program and receive no alternative education funding.

(c) Alternative education waiver available for elementary school districts. For an elementary school district, which does not offer high school grades, the State Board of Education is authorized at 70 O.S. § 1210.568(F) to grant a waiver from the statutory requirement to implement and provide an alternative education program. §1210.229-2. Findings and intent of legislature.

The Legislature finds that for the purpose of preventing drug and alcohol abuse among our young people, and for preventing or alleviating problems which lead to and are closely associated with drug and alcohol abuse, it is desirable that all Oklahoma school districts develop and implement a curriculum for drug and alcohol abuse prevention for all grade levels. Such curriculum may include training in life skills, such as problem-solving, responsibility, communication and decision-making skills, which enable young people to successfully resist social and other pressures to engage in activities which are destructive to their health and future. The Legislature encourages all school districts to adopt as a goal for the year 1990 the full implementation of drug and alcohol abuse prevention programs in their schools. In order to expand and enhance the ability of school districts to implement drug and alcohol prevention programs, it is the intent of the Legislature that local school districts participate in the federal Drug-Free Schools and Communities Act of 1986, 20 A.S.C., Section 4601 et seq. and the provisions of Public Law No. 101-647, Drug-Free School Zones.

In order to derive maximum benefit from their drug and alcohol prevention programs, it is further the intent of the Legislature that the school districts coordinate their efforts and activities with the Oklahoma Drug and Alcohol Abuse Policy Board, and with appropriate state and local drug and alcohol abuse, health and law enforcement agencies and programs within the community which provide drug education, prevention, treatment and rehabilitation.

It is further the intent of the Legislature to encourage school districts to establish programs concerning the danger and criminal consequences of the possession and/or use of firearms or other dangerous or deadly weapons in school zones.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

The rules shall be distributed by the Superintendent of Public Instruction to all school districts.

(2) Every district school board shall adopt and attempt to give the widest possible distribution of copies of reasonable written rules regarding pupil conduct, discipline and rights and procedures pertaining thereto. Such rules must comply with minimum standards adopted by the State Board of Education under subsection (1) of this section.

(3) Every district school board shall enforce consistently and fairly its written rules regarding pupil conduct, discipline and rights. This subsection does not apply to a pupil who is eligible for special education as a child with a disability under ORS 343.035.

(2) Each district school board shall adopt written policies for the discipline, suspension or expulsion of any refractory student. The policies:

(a) May allow discipline, suspension or expulsion for conduct that includes, but is not limited to:
   (A) Willful disobedience;

   (G) Assault of a school employee or another student; or
   (H) Intentional attempts, by word or conduct, to place a school employee or another student in fear of imminent serious physical injury.

(b) Must require consideration of the age of a student and the past pattern of behavior of a student prior to imposing the suspension or expulsion of a student.

(c) Must limit the use of expulsion to the following circumstances:
   (A) For conduct that poses a threat to the health or safety of students or school employees;
   (B) When other strategies to change student conduct have been ineffective, except that expulsion may not be used to address truancy; or

(d) In addition to any limitations imposed by paragraph (c) of this subsection, for a student who is in fifth grade or lower, must limit the use of out-of-school suspension or of expulsion to the following circumstances:

(A) For nonaccidental conduct causing serious physical harm to a student or school employee;
(B) When a school administrator determines, based upon the administrator’s observation or upon a report from a school employee, that the student’s conduct poses a direct threat to the health or safety of students or school employees; or
(C) When the suspension or expulsion is required by law.

(e) When an out-of-school suspension is imposed as provided under paragraph (d) of this subsection, must require the school district to take steps to prevent the recurrence of the behavior that led to the out-of-school suspension and return the student to a classroom setting so that the disruption of the student’s academic instruction is minimized.

339.356. District policy required.
(1) Each school district shall adopt a policy prohibiting harassment, intimidation or bullying and prohibiting cyberbullying. School districts shall develop the policy after consultation with parents, guardians, school employees, volunteers, students, administrators and community representatives.

A procedure established under this paragraph shall identify by job title the school officials responsible for investigating such a report.

(i) A statement of the manner in which a school and a school district will respond after an act of harassment, intimidation or bullying or an act of cyberbullying is reported, investigated and, if applicable, confirmed.

(c) Must limit the use of expulsion to the following circumstances:

(A) For conduct that poses a threat to the health or safety of students or school employees;

   (B) Propose alternative programs of instruction or instruction combined with counseling for a student that are appropriate and accessible to the student. If alternative programs are appropriate for a student, the superintendent shall ensure that information about programs of instruction or instruction combined with counseling is provided in writing to the student and the parent, legal

REGULATIONS

581-015-2405. Disciplinary removals for up to 10 school days for children with disabilities.

(1) School districts may remove a child with a disability who violates a code of student conduct from the child’s current educational placement to an appropriate interim alternative educational setting, another setting, or suspension, for up to ten school days in a school year to the same extent, and with the same notice, as for children without disabilities. These removals are not considered a change in placement.

(2) During disciplinary removals described in section (1) of this rule:

(a) School districts are not required to provide access to special education and the general curriculum unless students without disabilities are provided access during this time.

(b) School districts are not required to determine whether the child's behavior resulting in disciplinary removal is a manifestation of the child's disability.

(3) For the purpose of counting days of suspensions under OAR 581-015-2405 through 581-015-2445:

(a) Suspensions of a half day or less are counted as a half day; and

(b) Suspensions of more than a half-day are counted as a whole day.

(4) For the purposes of determining “current educational placement” in subsection (1) of this rule:
(a) Children who received special education services in another state and are found eligible for special education in Oregon are treated as initially placed in special education in Oregon, and any days of suspension accrued in the former state are not counted toward the ten days.

(b) For children who move from one school district to another school district in Oregon, any days of suspension from the former district carry over to the new school district unless the school district does not have actual knowledge of the previous suspensions.

581-015-2410. Additional disciplinary removals of up to 10 school days each (no pattern).

(1) School districts may remove a child with a disability who violates a code of student conduct from the child’s current educational placement to an appropriate interim alternative educational setting, another setting, or suspension for additional periods of up to ten school days in a school year to the same extent, and with the same notice, as for children without disabilities, if the removals do not constitute a pattern under section (2) of this rule. These removals are not considered a change in placement.

(2) School personnel must determine, on a case-by-case basis, whether the series of removals constitute a pattern:

   (a) Because the child’s behavior is substantially similar to the child’s behavior in previous incidents that resulted in the series of removals; and

   (b) Because of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of removals to one another.

(3) Services. During removals described in section (1) of this rule:

   (a) School districts must provide services that are necessary to enable the child:

      (A) To continue to participate in the general education curriculum, although in another setting; and

      (B) To progress toward meeting the goals in the child’s IEP.

   (b) School personnel, in consultation with at least one of the child’s teachers, determine the extent to which the services described in subsection (3)(a) of this rule are needed, and the location for delivery of those services.

   (c) School districts are not required to determine whether the behavior resulting in removal is a manifestation of the child’s disability.

(4) The determination in subsection (2) is subject to review under OAR 581-015-2445.

581-021-0055. Standards of conduct.

(1) Students shall comply with the written rules of the school district board, pursue the prescribed course of study, submit to the lawful authority of teachers and school officials, and conduct themselves in an orderly fashion.

(2) Students shall be liable to discipline, suspension, or expulsion for misconduct, including but not limited to:

   (a) Theft;

   (b) Disruption of the school;

   (c) Damage or destruction of school property;

   (d) Damage or destruction of private property on school premises or during a school activity;

   (e) Assault or threats of harm;

   (f) Unauthorized use of weapons or dangerous instruments;

      (B) Propose alternative programs of instruction or instruction combined with counseling for a student that are appropriate and accessible to the student. If alternative programs are appropriate for a student, the superintendent shall ensure that information about programs of instruction or instruction combined with counseling is provided in writing to the student and the parent, legal guardian or person in parental relationship with the student at least once every six months, or at any time the information changes because of the availability of new programs.
(d) Require a referral to the appropriate law enforcement agency of any student who is expelled under this subsection.

(e) Require an annual reporting to the Department of Education of the name of each school that had an expulsion under this subsection and the number of students expelled from each school.

(8) Each district school board shall adopt and disseminate written policies for the use of physical force upon a student. The policies must allow an individual who is a teacher, administrator, school employee or school volunteer to use reasonable physical force upon a student when and to the extent the application of force is consistent with ORS 339.285 to 339.303.

(9)(a) The authority to discipline a student does not authorize the infliction of corporal punishment. Every resolution, bylaw, rule, ordinance or other act of a district school board, a public charter school or the Department of Education that permits or authorizes the infliction of corporal punishment upon a student is void and unenforceable.

(b) As used in this subsection:

(A) “Corporal punishment” means the willful infliction of, or willfully causing the infliction of, physical pain on a student.

(B) “Corporal punishment” does not include:

(i) The use of physical force authorized by ORS 161.205 for the reasons specified therein; or

(ii) Physical pain or discomfort resulting from or caused by participation in athletic competition or other such recreational activity, voluntarily engaged in by a student.

(10) For purposes of this section, calculations of the number of school days that a student is removed from a classroom setting shall be as follows:

(a) As a half day if the student is out of school for half, or less than half, of the scheduled school day; and

(b) As a full day if the student is out of school for more than half of the scheduled school day.

REGULATIONS

581-015-2415. Disciplinary removals of more than 10 school days (pattern or consecutive).

(1) A disciplinary removal is considered a change in educational placement and the school district must follow special education due process procedures if:

(a) The removal will be for more than 10 consecutive school days (e.g. expulsion); or

(b) The child will be removed for more than 10 cumulative school days from their current educational placement in a school year, and those removals constitute a pattern under OAR 581-015-2410(2).

(2) School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a disciplinary removal under subsection (1) for a child with a disability who violates a code of conduct.

(3) Manifestation determination. Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the school district must determine whether the child’s behavior is a manifestation of the students disability in accordance with OAR 581-015-2420.

(4) Manifestation. If the determination under subsection (3) is that the child’s behavior is a manifestation of the child’s disability, the school district must:

(a) Return the child to the placement from which the child was removed, unless:

(A) The parent and school district agree to a change of placement as part of the modification of the behavioral intervention plan under subsection (4)(b);
(B) The school district removes the child to an interim alternative educational setting under OAR 581-015-2425 for a weapons or drug violation or for infliction of serious bodily injury; or
(C) The school district obtains an order from an administrative law judge under OAR 581-015-2430 allowing a change in placement to an interim alternative educational setting for injurious behavior; and
(b) Either:
   (A) Conduct a functional behavioral assessment, unless the school district conducted a functional behavioral assessment before the behavior occurred that prompted the disciplinary action, and implement a behavior intervention plan; or
   (B) If the student already has a behavior plan, review the behavioral intervention plan and modify it, as necessary, to address the behavior.

(5) No manifestation. If the determination under subsection (3) is that the child's behavior is not a manifestation of the child's disability:
   (a) The school district may proceed with disciplinary action applicable to children without disabilities under section (1) of this rule, in the same manner and for the same duration in which the procedures would be applied to children without disabilities.
   (b) If the school district takes such action applicable to all children, the school district must:
      (A) On the date on which the decision is made to remove the student under subsection (5), notify the parents of that decision and provide the parents with notice of procedural safeguards under OAR 581-015-2315.
      (B) Provide services to the student in an interim alternative educational setting, determined by the IEP team, in accordance with OAR 581-015-2435; and
      (C) Provide, as appropriate, a functional behavioral assessment, and behavior intervention services and modifications that are designed to address the behavior violation so that it does not recur.

(6) Placement pending due process hearing. If a parent requests a due process hearing because of a disagreement with the manifestation determination or any decision about placement related to the disciplinary removal in section (1) of this rule, the child remains in the interim alternative educational setting pending the decision of the administrative law judge under OAR 581-015-2445, or until the end of the disciplinary removal under subsection (1), whichever occurs first, unless the parent and school district agree otherwise.

581-015-2420. Manifestation determination.
(1) In determining whether the child's behavior is a manifestation of the child's disability, the school district, the parent, and relevant members of the IEP team (as determined by the parent and the district) must review all relevant information in the students file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:
   (a) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
   (b) If the conduct in question was the direct result of the school districts failure to implement the IEP.
(2) If the school district, the parent, and relevant members of the IEP team determine that either subsection (1)(a) or (b) is applicable for the child, the conduct must be determined to be a manifestation of the child's disability.
(3) If the basis for the teams determination is that the school district did not implement the child's IEP, the school district must take immediate steps to remedy those deficiencies.
581-021-0065. Suspension.

(1) Students may be suspended when such suspension contains within its procedures the elements of prior notice (OAR 581-021-0075), specification of charges, and an opportunity for the student to present his or her view of the alleged misconduct. The suspending official shall notify the student's parent or guardian of the suspension, the conditions for reinstatement, and appeal procedures, where applicable. These procedures may be postponed in emergency situations relating to health and safety.

(2) Emergency situations shall be limited to those instances where there is a serious risk that substantial harm will occur if suspension does not take place immediately.

(3) School district boards shall provide students suspended under emergency conditions with the rights outlined in section (1) of this rule as soon as the emergency condition has passed.

(4) In all suspensions ordered by the executive officer of the school district or designated representative, the district school board shall have the right of final review if the action is not taken by the school board itself.

(5) School district boards shall limit suspension to a specific maximum number of days. That maximum shall not exceed ten school days.

(6) School district boards shall adopt policies that require consideration of the age of a student and the past pattern of behavior of a student prior to imposing the suspension or expulsion of a student. For students in fifth grade or lower, the policies must limit the use of out-of-school suspension to the following circumstances:

(a) for non-accidental conduct causing serious physical harm to a student or school employee;

(b) when a school administrator determines, based upon the administrator's observation or upon a report from a school employee, that the students conduct poses a direct threat to the health or safety of students or school employees; or

(c) when the suspension or expulsion is required by law

(7) When an out of school suspension is imposed for a student who is fifth grade or younger, district policies must require schools to take steps to prevent the recurrence of the behavior that led to the out-of-school suspension and return the student to a classroom setting so that the disruption of the students' academic instruction is minimized.

(8) School district boards or designated representatives shall specify the methods and conditions, if any, under which the student's school work can be made up. Students shall be allowed to make up school work upon their return from the suspension if that work reflects achievement over a greater period of time than the length of the suspension. For example, the students shall be allowed to make up final, midterm, and unit examinations, without an academic penalty, but it is within the districts' discretion as to whether the students may be allowed to make up daily assignments, laboratory experiments, class discussions or presentations.

(9) In special circumstances a suspension may be continued until some specific pending action occurs, such as a physical or mental examination, or incarceration by court action.

(1) Each district school board shall adopt written policies that limit the use of expulsion to the following circumstances:

(a) For conduct that poses a threat to the health or safety of students of school employees;

(b) When other strategies to change student conduct have been ineffective, except that expulsion may not be used to address truancy; or

(c) When the expulsion is required by law

(d) In addition to any limitations imposed by paragraphs (a) to (c) of this subsection, board policies must limit the use of expulsion for students in fifth grade or lower to the following circumstances:
(i) For nonaccidental conduct causing serious physical harm to a student or school employee;
(ii) When a school administrator determines, based upon the administrators observation or upon a report from a school employee, that the students conduct poses a direct threat to the health or safety of students or school employees.

(i) For nonaccidental conduct causing serious physical harm to a student or school employee;

(ii) When a school administrator determines, based upon the administrators observation or upon a report from a school employee, that the students conduct poses a direct threat to the health or safety of students or school employees;

(2) A school district board may expel, or delegate authority to a hearings officer to expel, a student provided the student is not expelled without a hearing unless the student's parent(s) or guardian, or the student, if 18 years of age, waives the right to a hearing. Waiver may take place by the parent or the student, if 18 years of age, notifying the school district in writing of waiver of the right to a hearing. Waiver may also take place by the parent, or the student, if age 18 or over, failing to appear after notice, at the place and time set for the hearing:

(a) If the school board acts to expel, the hearing may be conducted by a hearings officer designated by the board. In cases where the hearings officer is conducting the expulsion hearing for the board, the hearings officer shall provide to the board the findings as to the facts, the recommended decision and whether or not the student is guilty of the conduct alleged. Where notice is given by certified mail to a parent of a suspended student the notice shall be placed in the mail at least five days before the date of the hearing;

(b) Where the student or the student's parent cannot understand the spoken English language, an interpreter shall be provided by the district;

(c) The student may be represented by counsel or other persons;

(d) The student shall be permitted to introduce evidence by testimony, writings, or other exhibits;

(5) No manifestation. If the determination under subsection (3) is that the child’s behavior is not a manifestation of the child’s disability:

(a) The school district may proceed with disciplinary action applicable to children without disabilities under section (1) of this rule, in the same manner and for the same duration in which the procedures would be applied to children without disabilities.

(b) If the school district takes such action applicable to all children, the school district must:

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

**LAWS**

(a) No later than January 1, 2009, each school entity shall adopt a policy or amend its existing policy relating to bullying and incorporate the policy into the school entity's code of student conduct required under 22 Pa. Code § 12.3(c)(relating to school rules). The policy shall delineate disciplinary consequences for bullying and may provide for prevention, intervention and education programs, provided that no school entity shall be required to establish a new policy under this section if one currently exists and reasonably fulfills the requirements of this section. The policy shall identify the appropriate school staff person to receive reports of incidents of alleged bullying.

24 P.S. § 13-1317.3. Uniforms.

The board of directors in any school entity may impose limitations on dress and may require pupils to wear standard dress or uniforms. Dress policies may be applicable throughout the school entity or may be applicable to one or more school buildings within the school entity.

**REGULATIONS**

(a) Each school board shall adopt written policies concerning district child accounting, attendance, admission, excusal and program procedures as necessary to implement this chapter. The policies shall be a matter of public record.

(b) Each school board shall adopt, and distribute yearly to parents, written rules governing student admissions, attendance, absences and excusals, that are in conformity with this chapter.

(c) Each school board shall adopt a written policy permitting students to be excused for participation in agricultural fairs in conformity with section 1329(b) of the Public School Code of 1949 (24 P. S. § 13-1329.(b)).

(a) The governing board has the authority to make reasonable and necessary rules governing the conduct of students in school. The rulemaking power, however, is not unlimited; it must operate within statutory and constitutional restraints. A governing board has only those powers that are enumerated in the statutes of the Commonwealth, or that may reasonably be implied or necessary for the orderly operation of the school.

(b) Governing boards may not make rules that are arbitrary, capricious, discriminatory or outside their grant of authority from the General Assembly. A rule is generally considered reasonable if it uses a rational means of accomplishing some legitimate school purpose.

(c) Each governing board shall adopt a code of student conduct that includes policies governing student discipline and a listing of students' rights and responsibilities as outlined in this chapter. This conduct code shall be published and distributed to students and parents or guardians. Copies of the code shall also be available in each school library.

REGULATIONS

(a) Positive, rather than negative, measures must form the basis of behavior support programs to ensure that all students and eligible young children shall be free from demeaning treatment, the use of aversive techniques and the unreasonable use of restraints. Behavior support programs must include research based practices and techniques to develop and maintain skills that will enhance an individual student's or eligible young child's opportunity for learning and self-fulfillment. Behavior support programs and plans
must be based on a functional assessment of behavior and utilize positive behavior techniques. When an intervention is needed to address problem behavior, the types of intervention chosen for a particular student or eligible young child shall be the least intrusive necessary. The use of restraints is considered a measure of last resort, only to be used after other less restrictive measures, including de-escalation techniques, in accord with subsection (c)(2).

(b) Notwithstanding the requirements incorporated by reference in 34 CFR 300.34, 300.324 and 300.530 (relating to related services; development, review, and revision of IEP; and authority of school personnel), with regard to a child's behavior, the following words and terms, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

Aversive techniques - Deliberate activities designed to establish a negative association with a specific behavior.

Behavior support - The development, change and maintenance of selected behaviors through the systematic application of behavior change techniques.

Positive behavior support plans - A plan for students with disabilities and eligible young children who require specific intervention to address behavior that interferes with learning. A positive behavior support plan shall be developed by the IEP team, be based on a functional behavior assessment, and become part of the individual eligible young child's or student's IEP. These plans must include methods that utilize positive reinforcement and other positive techniques to shape a student's or eligible young child's behavior, ranging from the use of positive verbal statements as a reward for good behavior to specific tangible rewards.

Restraints -

(i) The application of physical force, with or without the use of any device, for the purpose of restraining the free movement of a student's or eligible young child's body.

(ii) The term does not include briefly holding, without force, a student or eligible young child to calm or comfort him, guiding a student or eligible young child to an appropriate activity, or holding a student's or eligible young child's hand to safely escort her from one area to another.

(iii) The term does not include hand-over-hand assistance with feeding or task completion and techniques prescribed by a qualified medical professional for reasons of safety or for therapeutic or medical treatment, as agreed to by the student's or eligible young child's parents and specified in the IEP. Devices used for physical or occupational therapy, seatbelts in wheelchairs or on toilets used for balance and safety, safety harnesses in buses, and functional positioning devices are examples of mechanical restraints which are excluded from this definition, and governed by subsection (d).

(c) Restraints to control acute or episodic aggressive or self-injurious behavior may be used only when the student is acting in a manner as to be a clear and present danger to himself, to other students or to employees, and only when less restrictive measures and techniques have proven to be or are less effective.

(1) The use of restraints to control the aggressive behavior of an individual student or eligible young child shall cause the school entity to notify the parent of the use of restraint and shall cause a meeting of the IEP team within 10 school days of the inappropriate behavior causing the use of restraints, unless the parent, after written notice, agrees in writing to waive the meeting. At this meeting, the IEP team shall consider whether the student or eligible young child needs a functional behavioral assessment, reevaluation, a new or revised positive behavior support plan, or a change of placement to address the inappropriate behavior.

(2) The use of restraints may only be included in a student's or eligible young child's IEP when the following conditions apply:

(i) The restraint is utilized with specific component elements of positive behavior support.
(ii) The restraint is used in conjunction with the teaching of socially acceptable alternative skills to replace problem behavior.

(iii) Staff are authorized to use the procedure and have received the staff training required.

(iv) There is a plan in place for eliminating the use of restraint through the application of positive behavior support.

(3) The use of prone restraints is prohibited in educational programs. Prone restraints are those in which a student or eligible young child is held face down on the floor.

(4) The use of restraints may not be included in the IEP for the convenience of staff, as a substitute for an educational program, or employed as punishment.

(5) School entities shall maintain and report data on the use of restraints as prescribed by the Secretary. The report shall be reviewed during cyclical compliance monitoring conducted by the Department.

(d) Mechanical restraints, which are used to control involuntary movement or lack of muscular control of students when due to organic causes or conditions, may be employed only when specified by an IEP and as determined by a medical professional qualified to make the determination, and as agreed to by the student's parents. Mechanical restraints shall prevent a student from injuring himself or others or promote normative body positioning and physical functioning.

(e) The following aversive techniques of handling behavior are considered inappropriate and may not be used by agencies in educational programs:

(1) Corporal punishment.

(2) Punishment for a manifestation of a student's disability.

(3) Locked rooms, locked boxes or other structures or spaces from which the student cannot readily exit.

(4) Noxious substances.

(5) Deprivation of basic human rights, such as withholding meals, water or fresh air.

(6) Suspensions constituting a pattern under § 14.143(a)(relating to disciplinary placement).

(7) Treatment of a demeaning nature.

(8) Electric shock.

(f) School entities have the primary responsibility for ensuring that positive behavior support programs are in accordance with this chapter, including the training of personnel for the use of specific procedures, methods and techniques, and for having a written policy and procedures on the use of positive behavior support techniques and obtaining parental consent prior to the use of restraints or intrusive procedures as provided in subsection (c).

(g) In accordance with their plans, agencies may convene a review, including the use of human rights committees, to oversee the use of restrictive or intrusive procedures or restraints.

(h) Subsequent to a referral to law enforcement, for students with disabilities who have positive behavior support plans, an updated functional behavior assessment and positive behavior support plan shall be required.

   (1) a weapon being used as part of a program approved by a school by an individual who is participating in the program; or

   (2) a weapon that is unloaded and is possessed by an individual while traversing school property for the purpose of obtaining access to public or private lands used for lawful hunting, if the entry on school premises is authorized by school authorities.

(e) Nothing in this section shall be construed as limiting the authority or duty of a school or area career and technical school to make an alternative assignment or provide alternative educational services during the period of expulsion.

(e.1) A school district receiving a student who transfers from a public or private school during a period of expulsion for an act or offense involving a weapon may assign that student to an alternative assignment or provide alternative education services, provided that the assignment may not exceed the period of expulsion.

   (1) The school superintendent or chief administrator shall report the discovery of any weapon prohibited by this section to local law enforcement officials.

   (2) The school superintendent or chief administrator shall report to the Department of Education all incidents relating to expulsions for possession of a weapon on school grounds, school-sponsored activities or public conveyances providing transportation to a school or school-sponsored activity. (i) Suspensions may be given by the principal or person in charge of the public school.

A student may not be excluded from school for longer than 15 school days without a formal hearing unless mutually agreed upon by both parties. Any student so excluded shall be provided with alternative education, which may include home study.

(2) Within 30 days of action by the governing board, the parents or guardians shall submit to the school district written evidence that the required education is being provided as described in paragraph (1) or that they are unable to do so. The policy must conform to the provisions of this act relating to compulsory attendance.

(b) Notwithstanding section 1333.2(a), in the case of a child enrolled in a cyber charter school the venue for the filing of a citation under section 1333.1 shall be based upon the residence of the child. A cyber charter school may participate in a proceeding under sections 1333.1, 1333.2 and 1333.3 in person, by phone conferencing, by video conferencing or by any other electronic means.

(b) If the child continues to incur unexcused absences after the school has issued the notice under subsection (a), the school shall then offer by advance written notice a school attendance improvement conference to the child and the person in parental relation, unless a conference was previously held following the notice provided under subsection (a). The following shall apply:

(1) This subsection does not place a legal requirement upon the child or person in parental relation to attend the conference. The conference shall occur even if the person in parental relation declines to participate or fails to attend the scheduled conference after advance written notice and attempts to communicate via telephone.
(2) The outcome of the conference shall be documented in a written school attendance improvement plan. The department shall develop a form to be used for this purpose, and each school shall use a form substantially similar to the form developed by the department.

(3) Further legal action may not be taken by the school to address unexcused absences by the child until after the date for the scheduled school attendance improvement conference has passed.

(c) Schools shall not expel or impose out-of-school suspension, disciplinary reassignment or transfer for truant behavior.

(d) Nothing in this section shall be construed to apply to a parent, guardian or person in parental relation whose child or children are in a home education program under section 1327.1.

(a) When a child is habitually truant and under fifteen (15) years of age at the time of referral, the school:

Behavior support programs and plans must be based on a functional assessment of behavior and utilize positive behavior techniques. When an intervention is needed to address problem behavior, the types of intervention chosen for a particular student or eligible young child shall be the least intrusive necessary. The use of restraints is considered a measure of last resort, only to be used after other less restrictive measures, including de-escalation techniques, in accord with subsection (c)(2).

(b) Notwithstanding the requirements incorporated by reference in 34 CFR 300.34, 300.324 and 300.530 (relating to related services; development, review, and revision of IEP; and authority of school personnel), with regard to a child's behavior, the following words and terms, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

1. The use of restraints to control the aggressive behavior of an individual student or eligible young child shall cause the school entity to notify the parent of the use of restraint and shall cause a meeting of the IEP team within 10 school days of the inappropriate behavior causing the use of restraints, unless the parent, after written notice, agrees in writing to waive the meeting. (d) Mechanical restraints, which are used to control involuntary movement or lack of muscular control of students when due to organic causes or conditions, may be employed only when specified by an IEP and as determined by a medical professional qualified to make the determination, and as agreed to by the student's parents. Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2023. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

REGULATIONS
200-RICR-20-30-2 Section 2.1. Authority, scope, purpose, and construction.
A. Authority.

B. Scope.
   1. These regulations govern the use of physical restraint and crisis intervention on all students in publicly funded elementary and secondary education programs, including all Rhode Island public school districts and regional public school districts, all Rhode Island State Operated Schools, all Public Charter Schools, educational programs operated by the Department for Children Youth and Families, Educational Collaborative Programs, and Local Educational Agencies operating a public education program; all of which shall hereafter be referred to as public education programs.

C. Purpose.
   1. The purpose of these regulations is to ensure that every student participating in a Rhode Island public education program be free from the unreasonable use of physical restraint and crisis intervention. Physical intervention, the use of manual or mechanical restraint or escort involving physical contact
should only be used as a crisis intervention for the purpose of preventing harm or injury. The crisis intervention must not include procedures that intentionally cause pain, injury, trauma or humiliation. A physical restraint crisis intervention should not be used for the purpose of changing behavior in situations where no protection from harm or injury is needed. Only the least intrusive physical interaction needed to adequately protect the child or others shall be used and shall be terminated as soon as the need for protection has abated.

D. Construction.

1. Nothing in these regulations shall be construed to limit the protection offered publicly funded students under other state or federal laws nor do these regulations preclude any teacher, employee or agent of a public education program from using reasonable force to protect students, other persons or themselves from imminent, serious, physical harm.

200-RICR-20-30-2 Section 2.2. Definitions.

A. For the purposes of these Rules and Regulations, the following terms shall have the following meaning:

2. "Aversive interventions/strategies" means the specific strategies set forth in R.I. Gen. Laws § 40.1-26-4.1, including but not limited to the following:
   a. Noxious, painful, intrusive stimuli or activities that result in pain;
   b. Any form of noxious, painful or intrusive spray or inhalant;
   c. Electric shock;
   d. Water spray to the face;
   e. Pinches and deep muscle squeezes;
   f. Shouting, screaming or using a loud, sharp, harsh voice to frighten or threaten or the use of obscene language;
   g. Withholding adequate sleep;
   h. Withholding adequate shelter or bedding;
   i. Withholding bathroom facilities;
   j. Withholding meals, essential nutrition or hydration;
   k. Removal of an individual's personal property as punishment;
   l. Unobserved time-out or room/area solely used for time out;
   m. Facial or auditory screening devices; and
   n. Use of chemical restraints instead of positive programs or medical treatments. [...] 

16. "Mechanical restraint" means the use of devices such as mittens, straps, or restraint chairs to limit a person's movement or hold a person immobile as an intervention precipitated by the person's behavior. Mechanical restraint applies to uses intended to prevent injury with persons who engage in behaviors such as head-banging, gouging, or other self-injurious actions that result in tissue damage and medical problems. Mechanical restraint does not apply to restraint used to treat a person's medical needs or to position a person with physical disabilities. [...] 

20. "Physical restraint/crisis intervention" means:
   a. "Manual restraint" means the use of physical intervention intended to hold a person immobile or limit a person's movement by using body contact as the only source of physical restraint. Prone restraint is a type of manual restraint or hold that limits or controls the movement or normal functioning of any portion, or all, of a person's body while the person is in a face-down position, but
...does not include the temporary controlling of a person in a prone position while transitioning to an alternative, safer form of restraint.

b. "Seclusion restraint" means physically confining a student alone in a room or limited space without access to school staff. The use of "time out" procedures during which a staff member remains accessible to the student shall not be considered "seclusion restraint." The use of seclusion restraint is prohibited in public education programs.

c. "Chemical restraint" means the administration of medication for the purpose of restraint. The use of medication restraint is prohibited in public education programs. [...] 24. "Seclusion" means placing a child alone in a locked room without supervision. Such action is strictly prohibited in Rhode Island. [...] 27. "Timeout" means a Punishment (Type II) procedure in which access to reinforcement is withdrawn for a certain period of time.

a. Isolation "from the group" - Reinforcement is withdrawn and the student remains in a separate room or booth for a certain period of time. The small room or booth may or may not have a door.

200-RICR-20-30-2 Section 2.3. Procedures and training.

A. Procedures. Public education programs shall develop written procedures regarding appropriate responses to student behavior that may require the use of physical restraint/crisis intervention. Such procedures shall be annually reviewed and provided to school staff and made available to parents of enrolled students. Such procedures shall include, but not be limited to:

1. Methods for preventing student violence, self-injurious behavior, and suicide, including de-escalation of potentially dangerous behavior occurring among groups of students or with an individual student;
2. A school policy regarding intervention that provides a description and explanation of the school's or program's method of physical restraint/crisis intervention, a description of the school's or program's training requirements, monitoring and reporting requirements, internal review and follow-up procedures, and a procedure for receiving and investigating complaints regarding restraint practices.

B. Required Training For All Staff. Each public education program shall designate personnel to determine a time and methods to provide all staff with training regarding the school's physical restraint/crisis intervention policies. Such training shall occur at least annually not later than within the first month of each school year. For employees hired after the school year begins, this training shall take place within the first month of their employment. Training shall be approved by the Commissioner of Elementary and Secondary Education and shall include information as required by R.I. Gen. Laws § 42-158-5 in addition to the following:

1. The program's restraint policy;
2. Interventions that may preclude the need for restraint, including de-escalation of problematic behaviors;
3. Types of restraints and related safety considerations, including information regarding the increased risk of injury to a student when an extended restraint is used;
4. Administering physical restraint in accordance with known medical or psychological limitations and/or behavioral intervention plans applicable to an individual student; and
5. Identification of program staff who have received advanced training pursuant to § 2.3(C) of this Part in the use of physical restraint/crisis intervention.

C. Advanced Staff Training on the Use of Physical Restraint/Crisis Intervention. At the start of each school year, every public education program shall identify staff that are authorized to serve as a school-wide based resource to assist other staff in ensuring proper administration of physical restraint and crisis...
interventions. These staff members shall participate in advanced training in the use of physical restraint/crisis intervention beyond the basic training offered to all staff and the public education program shall document the extent of such training.

D. Content of Advanced Training. The advanced training required by § 2.3(C) of this Part in the proper administration of physical restraint/crisis intervention shall include, but not be limited to:

1. Appropriate procedures for preventing the need for physical restraint/crisis intervention, including the de-escalation of problematic behavior, relationship building and the use of alternatives to such restraints;

2. A description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint/crisis intervention and methods for evaluating the risk of harm in individual situations in order to determine whether the use of physical restraint and crisis interventions are warranted;

3. The simulated experience of administering and receiving physical restraint/crisis intervention, instruction regarding the effect(s) on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;

4. Instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and

5. Demonstration by participants of proficiency in administering physical restraint/crisis intervention.

200-RICR-20-30-2 Section 2.4. Determining when physical restraint/crisis intervention may be used.

A. Use of Restraint/Intervention. Physical restraint/crisis intervention may be used only in the following circumstances:

1. Non-physical interventions would not be effective; and

2. The student's behavior poses a threat of imminent, serious, physical harm to self and/or others; and

3. If a behavioral intervention plan has been developed for the student, those various positive reinforcement techniques have been implemented appropriately and the child has failed to respond to those reinforcement techniques.

200-RICR-20-30-2 Section 2.5. Limitations and prohibitions.

A. Limitations on the Use of Restraints. Physical restraint/crisis intervention in a public education program shall be limited to the use of such reasonable force as necessary to protect a student or another member of the school community from assault or imminent, serious, physical harm.

B. Prohibitions. Physical restraint/crisis intervention are prohibited in the following circumstances:

1. As a means of punishment;

2. As an intervention designed to, or likely to cause physical pain;

3. As in any intervention which denies adequate sleep, food, water, shelter, bedding or access to bathroom facilities;

4. As in any intervention which is designed to subject, used to subject, or likely to subject the individual to verbal abuse, ridicule or humiliation, physical pain, or which can be expected to cause excessive emotional trauma;

5. As in a restrictive intervention which employs a device or material or objects that simultaneously immobilize all four extremities, including the procedure known as prone containment, except that prone containment may be used by trained personnel as a limited emergency intervention when a documented part of a previously agreed upon written behavioral intervention plan;
6. As in seclusion, unless under constant surveillance and observation when documented as part of a previously agreed upon written behavioral intervention plan;
7. As in any intervention that precludes adequate supervision of the child;
8. Any intervention which deprives the individual of one or more of his or her senses.

**200-RICR-20-30-2 Section 2.6. Proper administration of physical restraint/crisis intervention.**

A. Trained Personnel. Only personnel who have had training pursuant to § 2.3 of this Part may administer physical restraint/crisis intervention with students. Whenever possible, the administration of a physical restraint/crisis intervention shall be witnessed by at least one adult who does not participate in the restraint. The training requirement contained in § 2.3 of this Part shall not preclude a teacher, employee or agent of a public education program from using reasonable force to protect students, other persons, or themselves from imminent, serious physical harm.

B. Use of Force. A person administering a physical restraint/crisis intervention shall use only the amount of force necessary to protect the student or others from physical injury or harm and shall discontinue the physical restraint/crisis intervention as soon as possible.

C. Safety Requirements. Additional requirements for the use of physical restraint/crisis intervention are:

1. No restraint shall be administered in such a way that the student is prevented from breathing or speaking. During the administration of a restraint, a staff member shall continuously monitor the physical status of the student, including skin color and respiration. A restraint shall be released immediately upon a determination by the staff member administering the restraint that the student is no longer at risk of causing imminent physical harm to him or herself or others.
2. Restraint shall be administered in such a way so as to prevent or minimize physical harm. Prone restraint shall not be used. If, at any time during a physical restraint/crisis intervention, the student demonstrates significant physical distress, the student shall be released from the restraint immediately, and school staff shall take steps to seek medical assistance.
3. Program staff shall review and consider any known medical or psychological limitations and/or behavioral intervention plans regarding the use of physical restraint/crisis intervention on an individual student.
4. Following the release of a student from a restraint, the Public Education Program shall implement follow-up procedures. These procedures shall include reviewing the incident with the student, as appropriate, to address the behavior that precipitated the restraint, reviewing the incident with the staff person(s) who administered the restraint to discuss whether proper restraint procedures were followed, and consideration of whether any follow-up is appropriate for students who witnessed the incident.

**200-RICR-20-30-2 Section 2.7. Reporting requirements.**

A. Informing School Administration. The staff member who administered the physical restraint/crisis intervention shall inform the administration of any public education program of the use of a physical restraint/crisis intervention as soon as possible, and by a written report not later than the next working day. The administration shall maintain an ongoing written record of all reported instances of physical restraint/crisis intervention.

B. Informing Parents. The school administration shall have procedures to inform the student's parent(s) or guardian(s) of the use of a restraint as soon as possible, and not later than two (2) school days after each incident. Written documentation of this notification shall be maintained by the public education program.

C. Contents of Report. The written report required by § 2.7(A) of this Part shall include:
1. The names and job titles of the staff who administered the restraint, and observers, if any, the date of the restraint, the time the restraint began and ended, and the name of the administrator who was verbally informed following the restraint;

2. A description of the activity in which the restrained student and other students and staff in the same room or vicinity were engaged immediately preceding the use of physical restraint/crisis intervention, the behavior that prompted the restraint, the efforts made to deescalate the situation, alternatives to restraint that were attempted, and the justification for initiating physical restraint/crisis intervention;

3. A description of the administration of the restraint including the holds used and reasons such holds were necessary, the student's behavior and reactions during the restraint, how the restraint ended, and documentation of injury to the student and/or staff, if any, during the restraint and any medical care provided;

4. Information regarding any further action(s) that the school has taken or may take, including any disciplinary sanctions that may be imposed on the student, and a behavioral intervention plan was developed or modified as a result of the restraint;

5. Information regarding opportunities for the student's parents or guardians to discuss with school officials the administration of the restraint, any disciplinary sanctions that may be imposed on the student and/or any other related matter.

D. Report to the R.I. Department of Education. Each public educational program shall provide the R.I. Department of Education a record of every incident of the use of a physical restraint/crisis intervention on an annual basis.

200-RICR-20-30-2 Section 2.8. Emergency situations.
These regulations shall not create a barrier to maintaining a safe school environment. While these regulations govern the use of physical restraint/crisis interventions, they do not limit the ability of school personnel or their agents from using reasonable force to protect students, other persons or themselves from imminent, serious physical harm.

200-RICR-20-30-2 Section 2.9. Behavioral intervention plans.
Once the use of physical restraint/crisis intervention has been employed on a student, school personnel shall determine if the student requires a behavioral intervention plan as part of the student's education program, and if one already exists, whether that plan needs to be modified or adjusted.

16-85-2. Legislative findings.

The general assembly hereby finds, determines and declares that when a student is a victim of dating violence, his or her academic life suffers and his or her safety at school is jeopardized. The general assembly therefore finds that a policy to create an environment free of dating violence shall be a part of each school district. It is the intent of the general assembly to enact legislation that would require each school district to establish a policy for responding to incidents of dating violence and to provide dating violence education to students, parents, staff, faculty and administrators, in order to prevent dating violence and to address incidents involving dating violence. All students have a right to work and study in a safe, supportive environment that is free from harassment, intimidation and violence.

The provisions of §§ 16-21.5-2 and 16-21.5-3 shall not apply if any of the following conditions exist:

(a) The law enforcement officer reasonably believes that, due to exigent circumstances, the inability of the officer to immediately question the pupil will materially interfere with the ability of the officer to conduct his or her investigation and any delay would significantly impede the timely apprehension of a suspect. In that case, if an elementary school pupil is being questioned, the principal or his or her designee shall be present during the questioning and shall take immediate and continuous steps to notify the parent or guardian by telephone about the questioning, and if unsuccessful in doing so before the questioning, shall take immediate steps to notify the parent or guardian about the questioning after the questioning has been completed. If a high school pupil is being questioned, the pupil shall be given the option of having the principal, or his or her designee, present during the questioning.

(b) The law enforcement officer reasonably believes that there is a substantial risk of immediate personal injury or substantial property damage. In that case, if an elementary school pupil is being questioned, the principal or his or her designee shall be present during the questioning and shall take immediate and continuous steps to notify the parent or guardian by telephone regarding the questioning, and if unsuccessful in doing so before the questioning is completed, shall take immediate steps to notify the parent or guardian regarding the questioning after it has been completed. If a high school pupil is being questioned, the pupil shall be given the option of having the principal or his or her designee present during the questioning.

(c) The minor pupil being questioned is suspected of being a victim of child abuse or neglect, and either the principal or his or her designee or the law enforcement officer has reasonable belief that the pupil would be endangered by the notification requirements of § 16-21.5-2 or § 16-21.5-3. In that case, if the pupil is an elementary school pupil, the principal of the school, or his or her designee, shall inform the pupil that the pupil has the right to select a school administrator, school counselor or school teacher who is reasonably available to be present during the questioning, as provided in paragraphs (c) and (d) of § 16-21.5-2. If the pupil is a high school pupil, the principal of the school, or his or her designee, shall inform the pupil that the pupil has the right to select another person to be present during the questioning as provided in subsection 16-21.5-3(b).

(d)(1) In the case of an elementary school pupil, the law enforcement officer's questioning of the pupil concerns the commission of criminal activity by the person who would otherwise be present during the
questioning pursuant to § 16-21.5-2. In that case, the principal of the school, or his or her designee, shall inform the pupil that the pupil has the right to select a school administrator, school counselor, or school teacher who is reasonably available to be present during the questioning as provided in subsection 16-21.5-2(c).

(2) In the case of a high school pupil, the law enforcement officer's questioning of the pupil concerns the commission of criminal activity by the person selected by the pupil pursuant to § 16-21.5-3. In that case, the principal of the school, or his or her designee, shall so inform the pupil and advise that the pupil has the right to select another person to be present during the questioning as provided in subsection 16-21.5-3(c).

(e) The pupil is on probation or parole and is being interviewed or otherwise contacted by a probation or parole officer.

(f) Except in exigent circumstances as determined by the law enforcement officer, any questioning of a pupil by a law enforcement officer for any reason other than the ordinary, day-to-day conversation that is to be expected among members of a school community, shall take place in a private location, including, but not limited to, the principal's office, and may not take place in a classroom or hallway or other areas where pupils or others may be present.

(g) A school official present during the questioning of a pupil under this section may not disclose matters discussed with the pupil other than to the parent or guardian of the pupil, the attorney for the pupil, other school officials, or a court.

(h) Any school officer or staff member present at the questioning of the pupil by a law enforcement officer pursuant to this section is immune from civil or criminal liability arising from his or her participation during the questioning of the pupil.

(i) For the purposes of this section, "questioning" means only formal questioning in which the principal, or his or her designee, makes a pupil available to a law enforcement officer, at the request of the law enforcement officer, the principal or his or her designee, for questioning as a victim, suspect, or person with information concerning a suspected violation of a school rule that constitutes grounds for expulsion or a suspected commission of a crime. For the purposes of this section, "formal questioning" means only questioning of a pupil by a law enforcement officer that occurs on school grounds. "Formal questioning" does not include ordinary, day-to-day conversations between a pupil and a law enforcement officer.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2023. **59-63-1330. Discretion of school board.**

Nothing in this article shall abrogate the authority of any public school district and its governing board to take such disciplinary action as it is otherwise empowered by law to take against any student for misconduct including, but not limited to, expulsion, and nothing in this chapter shall require that any student be assigned to such an alternative school. These decisions shall rest solely in the discretion of the district and school board, regardless of the offense, record of the child, or other information presented from any source.

Limitations or Conditions on Exclusionary Discipline

LAWS

59-17-135. Character education.

(C) Beginning with the 2000-2001 school year, each school district board of trustees is encouraged to require students in the public schools under the jurisdiction of the board to exhibit appropriate conduct, as required in subsection (D) of this section.

(D) When a public school student is speaking with a public school employee while on school property or at a school sponsored event, the student may be encouraged to address and respond to the public school employee by using terms indicative of or reflecting courtesy and respect for a public school's employees position of authority including, but not limited to, sir, ma'am, thank you, and please.

(E) Each school district board of trustees is encouraged to provide for incorporation of the requirements of subsections (C) and (D) into any existing discipline policy or policies or any code of conduct of the school district or of each school within its jurisdiction.

(F) No school board may provide suspension or expulsion from school as an appropriate punishment for violation of subsection (D).

59-63-210. Grounds for which trustees may expel, suspend or transfer pupils; petition for readmission; expulsion, suspension, or transfer.

(A) Any district board of trustees may authorize or order the expulsion, suspension, or transfer of any pupil for the commission of any crime, gross immorality, gross misbehavior, persistent disobedience, or for violation of written rules and promulgated regulations established by the district board, county board, or the State Board of Education, or when the presence of the pupil is detrimental to the best interest of the school. Each expelled pupil has the right to petition for readmission for the succeeding school year. Expulsion or suspension must be construed to prohibit a pupil from entering the school or school grounds, except for a prearranged conference with an administrator, attending any day or night school functions, or riding a school bus. The provisions of this section do not preclude enrollment and attendance in any adult or night school.

(B) A district board of trustees shall not authorize or order the expulsion, suspension, or transfer of any pupil for a violation of Section 59-150-250(B).

59-63-220. Suspension of pupils by administrator.

Any district board may confer upon any administrator the authority to suspend a pupil from a teacher's class or from the school not in excess of ten days for any one offense and for not more than thirty days in any one school year but no such administrator may suspend a pupil from school during the last ten days of a year if the suspension will make the pupil ineligible to receive credit for the school year without the approval of the school board unless the presence of the pupil constitutes an actual threat to a class or a school or a hearing is granted within twenty-four hours of the suspension.

59-63-1330. Discretion of school board.

Nothing in this article shall abrogate the authority of any public school district and its governing board to take such disciplinary action as it is otherwise empowered by law to take against any student for misconduct including, but not limited to, expulsion, and nothing in this chapter shall require that any student be assigned to such an alternative school. These decisions shall rest solely in the discretion of the district and school board, regardless of the offense, record of the child, or other information presented from any source.
REGULATIONS

43-279. Minimum standards of student conduct and disciplinary enforcement procedures to be implemented by local school districts.

I. Expectations for Student Conduct in South Carolina Public Schools

The mission of the SCDE is to provide leadership and support so that all public education students graduate prepared for success in citizenship, college, and careers as envisioned by the Profile of the South Carolina Graduate. Students in the public schools of South Carolina enjoy the same basic rights of United States citizenship as do other United States citizens. The rights of students are supported by the responsibility to insure that the rights of others are respected. This regulation is adopted with the intent to better assure that the opportunity to enjoy the benefits of public education is available to all those attending the public schools of the state of South Carolina.

II. Previously Adopted School District Discipline Policies

This regulation is established as a uniform system of minimum disciplinary enforcement for the school districts of South Carolina. School districts that previously have adopted discipline policies that are consistent with and contain the elements included in this regulation may retain their local policies as adopted.

III. Levels of Student Misconduct

Each expelled pupil has the right to petition for readmission for the succeeding school year. Expulsion or suspension must be construed to prohibit a pupil from entering the school or school grounds, except for a prearranged conference with an administrator, attending any day or night school functions, or riding a school bus. The provisions of this section do not preclude enrollment and attendance in any adult or night school.
(B) A district board of trustees shall not authorize or order the expulsion, suspension, or transfer of any pupil for a violation of Section 59-150-250(B).

Any district board may confer upon any administrator the authority to suspend a pupil from a teacher's class or from the school not in excess of ten days for any one offense and for not more than thirty days in any one school year but no such administrator may suspend a pupil from school during the last ten days of a year if the suspension will make the pupil ineligible to receive credit for the school year without the approval of the school board unless the presence of the pupil constitutes an actual threat to a class or a school or a hearing is granted within twenty-four hours of the suspension.

59-63-230. Notices of suspensions; conferences with parents or guardian.

At the hearing the parents or legal guardian shall have the right to legal counsel and to all other regular legal rights including the right to question all witnesses. If the hearing is held by any authority other than the board of trustees, the right to appeal the decision to the board is reserved to either party. The hearing shall take place within fifteen days of the written notification at a time and place designated by the board and a decision shall be rendered within ten days of the hearing. The pupil may be suspended from school and all school activities during the time of the expulsion procedures. The action of the board may be appealed to the proper court. The board may permanently expel any incorrigible pupil.

59-63-250. Transfer of pupils.

(A) Any district board of trustees may authorize or order the expulsion, suspension, or transfer of any pupil for the commission of any crime, gross immorality, gross misbehavior, persistent disobedience, or for violation of written rules and promulgated regulations established by the district board, county board, or the State Board of Education, or when the presence of the pupil is detrimental to the best interest of the school. The provisions of this section do not preclude enrollment and attendance in any adult or night school.

(B) A district board of trustees shall not authorize or order the expulsion, suspension, or transfer of any pupil for a violation of Section 59-150-250(B).

59-63-217. Barring enrollment of student; grounds; notice and hearing; duration of bar.

(A) In determining whether or not a student meets the standards of conduct and behavior promulgated by the board of trustees necessary for first time enrollment and attendance in a school in the district, the board shall consider nonschool records, the student's disciplinary records in any school in which the student was previously enrolled as these records relate to the adjudication of delinquency in any jurisdiction, within or without this State, of violations or activities which constitute violent crimes under Section 16-1-60, adjudications for assault and battery of a high and aggravated nature, the unlawful use or possession of weapons, or the unlawful sale of drugs whether or not considered to be drug trafficking.
Based on this consideration of the student's record, the board may bar his enrollment in the schools of the district.

**LAWS**

59-63-235. Expulsion of student determined to have brought firearm to school.

The district board must expel for no less than one year a student who is determined to have brought a firearm to a school or any setting under the jurisdiction of a local board of trustees. The expulsion must follow the procedures established pursuant to Section 59-63-240. The one-year expulsion is subject to modification by the district superintendent of education on a case-by-case basis. Students expelled pursuant to this section are not precluded from receiving educational services in an alternative setting. Each local board of trustees is to establish a policy which requires the student to be referred to the local county office of the Department of Juvenile Justice or its representative.

59-63-1300. Alternative school programs established.

The General Assembly finds that a child who does not complete his education is greatly limited in obtaining employment, achieving his full potential, and becoming a productive member of society. It is, therefore, the intent of this article to encourage district school boards throughout the State to establish alternative school programs. These programs shall be designed to provide appropriate services to students who for behavioral or academic reasons are not benefiting from the regular school program or may be interfering with the learning of others. It is further the intent of this article that cooperative agreements may be developed among school districts in order to implement innovative exemplary programs.

59-63-1310. Individual or cooperative programs; funding; sites.

School districts which choose to establish, maintain, and operate, either individually or as a cooperative agreement among districts, alternative school programs shall be eligible for funding provided by the General Assembly for this purpose. The program must be operated at a site separate from other schools unless operated at a time when those schools are not in session or in another building on campus which would provide complete separation from other students. However, an existing alternative school program located in a defined area within a building which provides complete separation from other students and which otherwise meets the criteria established herein may continue at this site if the location is approved by the Department of Education. Provided, that a school district or consortium may apply for a waiver to the site requirement for a new program if it demonstrates to the satisfaction of the State Department of Education that no separate site is available and the cost of temporary classroom space cannot be justified, then the alternative school program may be established in a defined area within a building which provides complete separation from other students if the location is approved by the Department of Education.
Education. This waiver may be granted for a period of two years. In order for the district or consortium to reapply for a waiver, they must outline efforts made to acquire a separate facility.

59-63-1320. Referral or placement of students in alternative school programs.

Eligible alternative school programs shall be provided for, but not limited to, students in grades 6-12 as follows:

(1) Students referred for voluntary attendance at the alternative school program and meeting the district criteria to attend based upon a documented need for the attention and assistance beyond that of a traditional program as established by the academic history of the student, including the student's academic plan as required in Section 59-18-500, and following other policies and procedures for documenting need established by the district board of trustees.

(2) Students referred for voluntary attendance at the alternative school program and meeting the district criteria to attend based upon a documented need for the program due to habitual exhibitions of disruptive behavior in violation of the student conduct policies and behavior codes approved by the school board of trustees.

Districts must establish clear guidelines and procedures for the referral of any student into an alternative school program and before a decision is made to assign a student to an alternative school program, a determination must be made that the written and distributed academic and disciplinary policies of the district have been followed.

(3) Students placed in an alternative school program by the district board of trustees as an option to suspension or expulsion or by the dispositive order of a family court judge, with the consent of the local board of trustees. However, before a student may be placed in an alternative school program, a determination must be made by the local board that the written and distributed disciplinary policy of the district has been followed. Districts must establish clear guidelines and procedures for the placement of any student into an alternative school program and at a minimum they shall prescribe due process procedures for placement actions.

When students are being considered for placement in an alternative school program, districts must consider the requirements of the Federal Individuals with Disabilities Education Act (IDEA).

If a student placed by the board of trustees in an alternative school program enrolls in another school district before the expiration of the period of placement, the board of trustees of the district requiring the placement shall provide to the district in which the student enrolls, at the same time other records of the student are provided, information concerning the student's placement in an alternative school program. Upon review of the information, the district in which the student enrolls may continue an alternative education program placement or may allow the student to attend regular classes without completing the period of the placement.

59-63-1330. Discretion of school board.

Nothing in this article shall abrogate the authority of any public school district and its governing board to take such disciplinary action as it is otherwise empowered by law to take against any student for misconduct including, but not limited to, expulsion, and nothing in this chapter shall require that any student be assigned to such an alternative school. These decisions shall rest solely in the discretion of the district and school board, regardless of the offense, record of the child, or other information presented from any source.

59-63-1340. Permissible divergence from traditional programs and schools.

Within the requirements of Section 59-1-440, alternative school programs may differ from traditional education programs and schools in scheduling, administrative structure, curriculum, or setting and state
requirements may be waived in these areas if such waiver assists the alternative school in meeting its purpose.

59-63-1350. Eligibility for funding.
To be eligible for funding, a district or consortium must submit a plan for the program which includes:

(a) mission statement;
(b) the policy for the basis of enrollment in the school;
(c) location of the alternative school program; and
(d) description of how the school will focus on the educational and behavioral needs of the students. This description must include strategies for individual student instruction plans, evaluations at regular intervals of the student's educational and behavioral progress, instructional methods in meeting academic achievement standards in the core academic areas, provisions for a low pupil-teacher ratio, utilization of available technology, strict codes of student conduct, counseling, strategies to gain strong parental input and support, strategies to ensure students will adapt to a regular school setting upon departure from the alternative school program, and student time lines for meeting the academic and conduct standards set. The alternative program may be provided in conjunction with the adult education program, where appropriate. Goals, interim goals, and data collection for program evaluation must be a part of the program plan.

The instructional program should enable students to make the transition to a regular school program, earn a high school diploma or GED, or seek postsecondary education. Steps should be taken to ensure that credit earned by students participating in the alternative school program can be transferred to other public schools in the State; provided, nothing herein shall prohibit school districts and/or the South Carolina Department of Education from establishing and providing new and innovative programs as may be authorized otherwise under law to meet the unique needs of alternative school students who otherwise might drop out of school or never be able successfully to complete the requirements for a diploma.

59-63-1380. Funding for alternative school programs.
A school district shall allocate to an alternative school program the same per student expenditure to include federal, state, and local funds that would be allocated to the student's school if the student were attending the student's regularly assigned school. This shall include any appropriate special education funding.

Districts or consortia meeting the eligibility requirements for alternative school funding shall receive an annual base funding minimum of $30,000 or up to $200,000 depending on the student population of the district; however, districts forming consortia will have as their base funding an amount equal to the total of the individual district’s base funding, not to exceed $350,000. The State Department of Education, for the purposes of establishing base funding, shall group districts according to their average daily membership and assign the amount of base funding that districts in a grouping would receive for eligible programs. Unobligated funds from state appropriations for base funding which become available during a fiscal year may be redistributed on a per pupil basis to eligible programs in countywide districts receiving base funding of less than $100,000; however, this redistributed funding shall not become part of the base funding for the following year. Increases in fiscal year 2000-2001 funding over the fiscal year 1999-2000 recurring and nonrecurring funding shall be used to increase countywide districts' base funding by fifty percent and this new amount shall constitute their base funding.

It is the intent of the General Assembly that, after meeting the funding requirements for base funding, eligible programs, beginning with school year 2000-2001, shall also receive per pupil funding based on the average daily membership of the students served by the program at an Education Finance Act weighting of 1.49 and beginning with school year 2001-2002 a weighting of 1.74. Per pupil funds for the
alternative school program shall be distributed through the Education Finance Act formula provided for in Section 59-20-40. Beginning with school year 2002-2003, every district or district consortium shall provide alternative school opportunities for their students in grades 6-12, provided that state funding for alternative school programs is not reduced below the appropriation received in fiscal year 2001-2002. These funds shall be used for the establishment, maintenance, and operation of alternative schools programs. Funds also may be used to provide for staff development needs pursuant to Section 59-63-1370.

Districts or consortia developing plans for the establishment of an alternative school shall be eligible for a planning grant of no more than $5,000 if criteria established by the State Board of Education are met.

59-63-1390. Regulations; annual review.

The State Board of Education shall promulgate regulations for establishment, maintenance, and operation of alternative school programs to include clear procedures for annual review of the implementation and progress of the alternative school program and a three-year cycle evaluation shall examine the success of this initiative. If an annual review or the evaluation finds a program is not making progress to carry out the alternative school plan or meeting the locally established measures of success, the Department of Education shall provide technical assistance and future funding may be terminated.

59-63-1400. Review; technical assistance.

The State Department of Education shall review alternative school plans for eligibility for funding and provide technical assistance for planning, establishing, and implementing an alternative school based on best practice. The department shall assist any district or consortia whose plan does not meet the eligibility criteria; however, no funding will be approved until the plan ensures implementation of appropriate services for students served by the alternative school.

III. Levels of Student Misconduct
A. The levels of student misconduct considered in this regulation are arranged by degrees of seriousness. The levels are arranged from the least serious to the most serious.
B. Three levels of student misconduct are identified: behavioral misconduct, disruptive conduct, and criminal conduct. The levels are defined in this regulation.
C. This regulation includes a listing of possible consequences and/or sanctions for the three levels of student misconduct. As the levels increase in seriousness, the severity of possible disciplinary consequences and/or sanctions increases.

Level II misconduct includes sanctions ranging from temporary removal from class to expulsion. Level III misconduct includes sanctions ranging from out-of-school suspension to appropriate action within the criminal justice system.
E. A local school board, in its discretion, may authorize more stringent standards and consequences than those contained in this regulation. […]

IV. Minimum Standards

B. Disruptive Conduct-Level II

1. Disruptive conduct is defined as those activities engaged in by student(s) which are directed against persons or property, and the consequences of which tend to endanger the health or safety of oneself or others in the school. Some instances of disruptive conduct may overlap certain criminal offenses, justifying both administrative sanctions and court proceedings. Behavioral misconduct (Level I) may be reclassified as disruptive conduct (Level II) if it occurs three or more times. The provisions of this regulation apply not only to within school activities, but also to student conduct on school bus transportation vehicles, and during other school-sponsored activities.

2. Acts of disruptive conduct may include, but are not limited to:
   a. Violation of a Level I intervention plan and/or behavioral contract;
   b. Use of an intoxicant;
   c. Fighting;
   d. Vandalism (minor);
   e. Stealing;
   f. Threats against others;
   g. Trespass;
   h. Abusive language to staff;
   i. Repeated refusal to comply with directives from school personnel or agents (such as volunteer aides or chaperones);
   j. Possession or use of unauthorized substances, as defined by law and/or local school board policy;
   k. Illegally occupying or blocking in any way school property with the intent to deprive others of its use;
   l. Unlawful assembly;
   m. Disrupting lawful assembly;
   n. Inappropriate use of technology (e.g., bullying, harassing, or intimidating other students or district employees, plagiarizing copyrighted materials, and accessing inappropriate websites);
   o. Other acts as determined and communicated by local school authorities.

3. The basic enforcement procedures to be followed in instances of disruptive conduct are:
   a. Upon observation or notification and verification of an offense, the administrator shall investigate the circumstances of the misconduct and shall confer with staff on the extent of the consequences.
   b. The administrator shall notify the parent or guardian of the student's misconduct and related proceedings. The administrator shall meet with the student and, if necessary, the parent or guardian, confer with them about the student's misconduct and impose the appropriate disciplinary action. Verification shall be defined as the following:
      (1) self-admittance by the student
      (2) witnessed involvement of the student by school administrators staff
      (3) parental admission of student involvement
      (4) evidence obtained through investigation by school administrators and staff
c. The administrator may refer the student to the appropriate intervention team to establish behavioral management strategies (e.g., restorative justice, counseling, service learning projects) and propose the appropriate disciplinary action.

d. The administrator or other school officials may refer Level II misconduct to the School Resource Officer or other local law enforcement authorities only when the conduct rises to a level of criminality, and the conduct presents an immediate safety risk to one or more people or it is the third or subsequent act which rises to a level of criminality in that school year.

e. A complete record of the procedures shall be maintained.

4. Possible sanctions to be applied in cases of disruptive conduct may include, but are not limited to:
   a. Temporary removal from class;
   b. Alternative education program;
   c. In-school suspension;
   d. Out-of-school suspension;

Chronic Absenteeism and Truancy

LAWS

59-5-65. Powers and responsibilities of State Board of Education.
The State Board of Education shall have the power and responsibility to:

(4) Establish on or before July 1, 1985, regulations prescribing a uniform system of enforcement by the various school districts of the state compulsory attendance laws and regulations promulgated pursuant to § 59-65-90.

If the board of trustees of a school district or its designee is unable to obtain the school attendance of a child in the age group specified in § 59-65-10, the board or its designee shall report such nonattendance in writing to the juvenile court or such other court in the county as may have jurisdiction of juveniles but exclusive of magistrate's courts notwithstanding the provisions of § 22-3-540; provided, that no one except the board of trustees or its designee shall have the authority to institute the proceedings herein.

59-65-60. Procedure upon receipt by court of report of nonattendance.
(a) Upon receipt of such report, the court may forthwith order the appearance before such court of the responsible parent or guardian and if it deems necessary, the minor involved, for such action as the court may deem necessary to carry out the provisions of this article.

(b) The court may, after hearing upon ten days notice, order such parent or guardian to require such child to attend school and upon failure of such parent to comply with such order may punish such parent or guardian as by contempt, provided, that punishment for such contempt cannot exceed fifty dollars or thirty days imprisonment for each offense.
The procedure herein provided shall be alternative to the penalties provided in § 59-65-20.

59-65-70. Court empowered to declare child delinquent.

If the court determines that the reported absence occurred without the knowledge, consent or connivance of the responsible parent or guardian or that a bona fide attempt has been made to control and keep the child in school, the court may declare such child to be a delinquent and subject to the provisions of law in such cases.

59-65-80. Enrollment or attendance of expelled or suspended child not authorized.

Nothing herein shall be construed as granting authority to require enrollment or attendance of a child who has been or may be expelled or suspended by the board of trustees of the district or any other person acting with authority from the board of trustees.

The State Board of Education shall establish regulations defining lawful and unlawful absences beyond those specifically named in this article and additional regulations as are necessary for the orderly enrollment of pupils so as to provide for uniform dates of entrance. These regulations shall require: (1) that school officials shall immediately intervene to encourage the student's future attendance when the student has three consecutive unlawful absences or a total of five unlawful absences and (2) that the district board of trustees or its designee shall promptly approve or disapprove any student absence in excess of ten days. As used in this section, "intervene" means to identify the reasons for the child's continued absence and to develop a plan in conjunction with the student and his parent or guardian to improve his future attendance.

Provided, However, That nothing within this section shall interfere with the Board's authority to at any time refer a child to a truancy prevention program or to the court pursuant to § 59-65-50.

The attendance supervisor shall, upon receiving the list of nonattending children from the county superintendent of education, contact as rapidly as possible the parents or guardians of such nonattending children with the object in mind of interesting nonattending children in school work, and influencing them by means of persuasion to attend school regularly. All principals shall report to such attendance supervisor on continuous absences which appear to be unwarranted, and the attendance supervisor shall make an earnest effort to have enrolled and keep enrolled all children of school age in the county.

REGULATIONS

43-274. Student attendance.

I. Lawful and Unlawful Absences

School districts must adopt policies to define and list lawful and unlawful absences.

(A) Lawful absences include but are not limited to

(1) absences caused by a student's own illness and whose attendance in school would endanger his or her health or the health of others,

(2) absences due to an illness or death in the student's immediate family,

(3) absences due to a recognized religious holiday of the student's faith, and

(4) absences due to activities that are approved in advance by the principal.

(B) Unlawful absences include but are not limited to

(1) absences of a student without the knowledge of his or her parents, or
II. Truancy

The State Board of Education recognizes that truancy is primarily an educational issue and that all reasonable, educationally sound, corrective actions should be undertaken by the school district prior to resorting to the juvenile justice system.

(A) Truant

A child ages 6 to 17 years meets the definition of a truant when the child has three consecutive unlawful absences or a total of five unlawful absences.

(B) Habitual Truant

A "habitual" truant is a child age 12 to 17 years who fails to comply with the intervention plan developed by the school, the child, and the parent(s) or guardian(s) and who accumulates two or more additional unlawful absences. This child may need court intervention and an initial truancy petition may be filed.

The written intervention plan, and documentation of non-compliance, must be attached to the truancy petition asking for court intervention.

(C) Chronic Truant

A "chronic" truant is a child ages 12 to 17 years who has been through the school intervention process, has reached the level of a "habitual" truant, has been referred to Family Court and placed on an order to attend school, and continues to accumulate unlawful absences. Should other community alternatives and referrals fail to remedy the attendance problem, the "chronic" truant may be referred to the Family Court for violation of a previous court order. All school intervention plans existing to this point for this child and family must accompany the Contempt of Court petition as well as a written recommendation from the school to the court on action the court should take.

III. Intervention Plans

(A) Each district must develop a policy relating to requirements for intervention. The district plan for improving students' attendance must be in accordance with any applicable statutes.

(B) Once a child is determined to be truant as defined in Section II(A), school officials must make every reasonable effort to meet with the parent(s) or guardian(s) to identify the reasons for the student's continued absence. These efforts should include telephone calls and home visits, both during and after normal business hours, as well as written messages and e-mails. School officials must develop a written "intervention plan" to address the student's continued absence in conjunction with the student and parent(s) or guardian(s).

(C) The intervention plan must include but is not limited to

1. Designation of a person to lead the intervention team. The team leader may be someone from another agency.
2. Reasons for the unlawful absences.
3. Actions to be taken by the parent(s) or guardian(s) and student to resolve the causes of the unlawful absences.
4. Documentation of referrals to appropriate service providers and, if available, alternative school and community-based programs.
5. Actions to be taken by intervention team members.
6. Actions to be taken in the event unlawful absences continue.
7. Signature of the parent(s) or guardian(s) or evidence that attempts were made to involve the parents(s) or guardian(s).
(8) Documentation of involvement of team members.

(9) Guidelines for making revisions to the plan.

(D) School officials may utilize a team intervention approach. Team members may include representatives from social services, community mental health, substance abuse, and prevention, and other persons the district deems appropriate to formulate the written intervention plans.

IV. Referrals and Judicial Intervention

At no time should a child ages 6 to 17 years be referred to the Family Court to be placed on an order to attend school prior to the written intervention planning being completed with the parent(s) or guardian(s) by the school. A consent order must not be used as an intervention plan from any local school or school district. Should the parent(s) or guardian(s) refuse to cooperate with the intervention planning to remedy the attendance problem, the school district has the authority to refer the student to Family Court in accordance with S.C. Code Ann. Section 59-65-50 (2004), and a report shall be filed against the parent(s) or guardian(s) with the Department of Social Services in compliance with S.C. Code Ann. Section 20-7-490(2)(c)(Supp. 2002).

(A) Petition for a School Attendance Order

If the intervention plan is not successful and further inquiry by school officials fails to cause the truant student and/or parent(s) or guardian(s) to comply with the written intervention plan or if the student and/or parent(s) or guardian(s) refuses to participate in intervention and the student accumulates two or more additional unlawful absences, the student is considered an "habitual" truant. Each referral must include a copy of the plan and specify any corrective action regarding the student and/or the parent(s) or guardian(s) that the district recommends that the court adopt as well as any other available programs or alternatives identified by the school district. The intervention plan must be attached to the petition to the Family Court and served on the student and the parent(s) or guardian(s).

(B) Petition for Contempt of Court

Once a school attendance order has been issued by the Family Court and the student continues to accumulate unlawful absences, the student is considered to be a "chronic" truant and school officials may refer the case back to Family Court. The school and district must exhaust all reasonable alternatives prior to petitioning the Family Court to hold the student and/or the parent(s) or guardian(s) in contempt of court. Any petition for contempt of court must include a written report indicating the corrective actions that were attempted by the school district and what graduated sanctions or alternatives to incarceration are available to the court in the community. The school district must include in the written report its recommendation to the court should the student and/or parent(s) or guardian(s) be found in contempt of court.

V. Coordination with the South Carolina Department of Juvenile Justice

Each school district should coordinate with the local office of the South Carolina Department of Juvenile Justice to establish a system of graduated sanctions and alternatives to incarceration in truancy cases.

VI. Transfer of Plans

If a student transfers to another public school in South Carolina, intervention plans shall be forwarded to the receiving school. School officials will contact the parent(s) or guardian(s) and local team members to review the plan and revise as appropriate. Court ordered plans may be amended through application to the court.

VII. Approval of Absences in Excess of Ten Days and Approval of Credit

(A) Approval or Disapproval of Absences

The district board of trustees, or its designee, shall approve or disapprove any student's absence in excess of ten days, whether lawful, unlawful, or a combination thereof, for students in grades K-12. For
the purpose of awarding credit for the year, school districts must approve or disapprove absences in excess of ten days regardless as to whether those absences are lawful, unlawful, or a combination of the two.

(B) High School Credit
In order to receive one Carnegie unit of credit, a student must be in attendance at least 120 hours, per unit, regardless of the number of days missed, or must demonstrate proficiency as determined by the local school district. This exception to the 120-hour requirement is to be administered by local school districts on a case-by-case basis and only for students who have excessive absences that have been approved by the local school board. General request for proficiency-based credit must be made through the process described in Regulation 43-234. Students whose absences are approved should be allowed to make up any work missed in order to satisfy this requirement. Local school boards should develop policies governing student absences giving appropriate consideration to unique situations that may arise within their districts when students do not meet the minimum attendance requirements.
Therefore, districts should allow students, whose excessive absences are approved in part 1 of this section, to make-up work missed to satisfy this requirement.
Examples of make-up work may include

(1) after-school and/or weekend make-up programs that address both time and academic requirements of the course(s), or
(2) extended-year programs that address both time and academic requirements of the course(s). All make-up time and work must be completed within thirty days from the last day of the course(s). The district board of trustees or its designee may extend the time for student's completion of the requirements due to extenuating circumstances that include but are not limited to the student's medical condition, family emergencies, and other student academic requirements that are considered to be a maximum load. Make-up requirements that extend beyond thirty days due to extenuating circumstances must be completed prior to the beginning of the subsequent new year.

VIII. Reporting Requirements
The South Carolina Department of Education will develop and implement a standard reporting system for the adequate collection and reporting of truancy rates on a school-by-school basis.

IX. Guidelines
Additional information relating to the implementation of this regulation will be contained in South Carolina Department of Education Guidelines. The South Carolina Department of Education will review and update these guidelines as needed.

(A) By August 1, 2019, every local school district in the State shall adopt, implement, and enforce a written policy prohibiting at all times the use of any tobacco product or alternative nicotine product by any person in school buildings, in school facilities, on school campuses, and in or on any other school property owned or operated by the local school administrative unit. The policy also must prohibit the use of any tobacco product or alternative nicotine product by persons attending a school-sponsored event at a location not listed in this subsection when in the presence of students or school personnel or in an area where smoking or other tobacco use is otherwise prohibited by law.

(B) The policy must include at least all of the following elements:

(D) The local school district shall collaborate with the Department of Health and Environmental Control, the Department of Alcohol and Other Drug Abuse Services, and the South Carolina Department of Education, as appropriate, to implement the policy, including as part of tobacco education and cessation programs and substance use prevention efforts.

(E) The policy may permit tobacco products or alternative nicotine products to be included in instructional or research activities in public school buildings if the activity is conducted or supervised by the faculty member overseeing the instruction or research and the activity does not include smoking, chewing, inhaling, or otherwise ingesting the tobacco product or alternative nicotine product.

(F) For purposes of this section:

   1. 'Tobacco product' has the same meaning as defined in Section 16-17-501.
   2. 'Alternative nicotine product' has the same meaning as defined in Section 16-17-501.

1. Disruptive conduct is defined as those activities engaged in by student(s) which are directed against persons or property, and the consequences of which tend to endanger the health or safety of oneself or others in the school. Some instances of disruptive conduct may overlap certain criminal offenses, justifying both administrative sanctions and court proceedings. Behavioral misconduct (Level I) may be reclassified as disruptive conduct (Level II) if it occurs three or more times. The provisions of this regulation apply not only to within-school activities, but also to student conduct on school bus transportation vehicles, and during other school-sponsored activities.

2. Acts of disruptive conduct may include, but are not limited to:

(A) The governing body of a municipality or county may upon the request of another governing body or of another political subdivision of the State, including school districts, designate certain officers to be assigned to the duty of a school resource officer and to work within the school systems of the municipality or county. The person assigned as a school resource officer shall have statewide jurisdiction to arrest persons committing crimes in connection with a school activity or school-sponsored event. In all circumstances in which a school resource officer arrests a student for a misdemeanor offense, the officer may issue a courtesy summons to appear to a student involved in the particular incident in connection with a school activity or school-sponsored event. Notwithstanding another provision of law, a student arrested for a misdemeanor offense by a school resource officer must have a bond hearing in magistrates court within twenty-four hours of his arrest. When acting pursuant to this section and outside of the sworn municipality or county of the school resource officer, the officer shall enjoy all authority, rights, privileges, and immunities, including coverage under the workers’ compensation laws that he would have enjoyed if operating in his sworn jurisdiction.
(B) For purposes of this section, a “school resource officer” is defined as a person who is a sworn law enforcement officer pursuant to the requirements of any jurisdiction of this State, who has completed the basic course of instruction for School Resource Officers as provided or recognized by the National Association of School Resource Officers or the South Carolina Criminal Justice Academy, and who is assigned to one or more school districts within this State to have as a primary duty the responsibility to act as a law enforcement officer, advisor, and teacher for that school district.

59-24-60. Requirement of school officials to contact law enforcement authorities when criminal conduct occurs.
In addition to other provisions required by law or by regulation of the State Board of Education, school administrators must contact law enforcement authorities immediately upon notice that a person is engaging or has engaged in activities on school property or at a school sanctioned or sponsored activity which may result or results in injury or serious threat of injury to the person or to another person or his property as defined in local board policy.

59-63-235. Expulsion of student determined to have brought firearm to school.
The district board must expel for no less than one year a student who is determined to have brought a firearm to a school or any setting under the jurisdiction of a local board of trustees. The expulsion must follow the procedures established pursuant to Section 59-63-240. The one-year expulsion is subject to modification by the district superintendent of education on a case-by-case basis. Students expelled pursuant to this section are not precluded from receiving educational services in an alternative setting. Each local board of trustees is to establish a policy which requires the student to be referred to the local county office of the Department of Juvenile Justice or its representative.

59-63-350. Local law enforcement.
Local law enforcement officials are required to contact the Attorney General's "school safety phone line" when any felony, assault and battery of a high and aggravated nature, crime involving a weapon, or drug offense is committed on school property or at a school-sanctioned or school-sponsored activity or any crime reported pursuant to Section 59-24-60.
The Attorney General shall monitor all reported school crimes. The Attorney General or his designee may represent the local school district when a criminal case is appealed to an appellate court of competent jurisdiction.

If the board of trustees of a school district or its designee is unable to obtain the school attendance of a child in the age group specified in § 59-65-10, the board or its designee shall report such nonattendance in writing to the juvenile court or such other court in the county as may have jurisdiction of juveniles but exclusive of magistrate's courts notwithstanding the provisions of § 22-3-540; provided, that no one except the board of trustees or its designee shall have the authority to institute the proceedings herein.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2023. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

Any person adjudicated, convicted, the subject of an informal adjustment or court-approved diversion program, or the subject of a suspended imposition of sentence or suspended adjudication of delinquency for possession, use, or distribution of controlled drugs or substances or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by § 22-42-15, is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education for one calendar year from the date of adjudication, conviction, diversion, or suspended imposition of sentence. The one-year suspension may be reduced to thirty calendar days if the person participates in an assessment with a certified or licensed addiction counselor. If the
assessment indicates the need for a higher level of care, the student is required to complete the prescribed program before becoming eligible to participate in extracurricular activities. Upon a second adjudication, conviction, diversion, or suspended imposition of a sentence for possession, use, or distribution of controlled drugs, substances, or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substance as prohibited by § 22-42-15, by a court of competent jurisdiction, that person is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education for one year from the date of adjudication, conviction, diversion, or suspended imposition of sentence. The one year suspension may be reduced to sixty calendar days if the person completes an accredited intensive prevention or treatment program. Upon a third or subsequent adjudication, conviction, diversion, or suspended imposition of sentence for possession, use, or distribution of controlled drugs or substances or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by § 22-42-15, by a court of competent jurisdiction, that person is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education. Upon such a determination in any juvenile court proceeding the Unified Judicial System shall give notice of that determination to the South Dakota High School Activities Association and the chief administrator of the school in which the person is participating in any extracurricular activity. The Unified Judicial System shall give notice to the chief administrators of secondary schools accredited by the Department of Education for any such determination in a court proceeding for any person eighteen to twenty-one years of age without regard to current status in school or involvement in extracurricular activities. The notice shall include name, date of birth, city of residence, and offense. The chief administrator shall give notice to the South Dakota High School Activities Association if any such person is participating in extracurricular activities. Upon placement of the person in an informal adjustment or court-approved diversion program, the state’s attorney who placed the person in that program shall give notice of that placement to the South Dakota High School Activities Association and chief administrator of the school in which the person is participating in any extracurricular activity.

As used in this section, the term, extracurricular activity, means any activity sanctioned by the South Dakota High School Activities Association. Students are ineligible to participate in activity events, competitions, and performances, but a local school district may allow a student to participate in practices.

No local school board may impose a lesser consequence than those established in § 13-32-9, but a local school district may adopt a policy, by local school board action, with more strict consequences to meet the needs of the district.

If a suspension is reduced pursuant to § 13-32-9, a suspension for a first offense shall make the student ineligible for a minimum of two South Dakota High School Activities Association sanctioned events. If two sanctioned events for which the student is ineligible do not take place within the reduced suspension period, the student's suspension remains in effect until two sanctioned events for which the student is ineligible have taken place. If a suspension is reduced pursuant to § 13-32-9, a suspension for a second offense shall make the student ineligible for a minimum of six South Dakota High School Activities Association sanctioned events. If six sanctioned events for which the student is ineligible do not take place within the reduced suspension period, the student's suspension remains in effect until six sanctioned events for which the student is ineligible have taken place. To count toward the minimum number of events, the student must participate in the entire activity season and may not drop out or quit the activity to avoid suspension and the failure of a student to complete the entire activity season shall result in the student being ineligible for one year from the date of adjudication, conviction, the subject of
an internal adjustment or court approved diversion program, or the subject of a suspended imposition of sentence or suspended adjudication of delinquency. A suspension that is not completed by the student during one activity season shall carry over to the next activity season in which the student participates. In addition, a suspension that is reduced pursuant to § 13-32-9 is only in effect during the South Dakota High School Activities Association's activity year, which begins on the first day of its first sanctioned event and concludes on the last day of its last sanctioned event. A reduced suspension that is not completed by the end of one activity year shall carry over to the next activity year.

A suspension begins on:

(1) The day following the notification to a school administrator by the Unified Judicial System that a student has been adjudicated, convicted, the subject of an informal adjustment or court approved diversion program, or the subject of a suspended imposition of a sentence or a suspended adjudication of delinquency for possession, use, or distribution of controlled drugs, substances, or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substance prohibited by § 22-42-15 and the school administrator gives notice to the South Dakota High School Activities Association and the students; or

(2) The day following the student's admission to a school administrator that the student committed an offense enumerated in subdivision (1), which shall be made with the student's parent or guardian present if the student is an unemancipated minor, and the school administrator gives notice to the South Dakota High School Activities Association.

The rules or policies may include prohibiting the following:

(1) The consumption or possession of beer or alcoholic beverages on the school premises or at school activities;

(2) The use or possession of a controlled substance, without a valid prescription, on the school premises or at school activities; and

(3) The use or possession of a firearm, as provided in § 13-32-7, on or in any elementary or secondary school premises, vehicle, or building or any premises, vehicle, or building used or leased for elementary or secondary school functions or activities.

In addition to administrative and school board disciplinary action, any violation of § 13-32-7 shall be reported to local law enforcement authorities.

The period of expulsion may extend beyond the semester in which the violation, insubordination, or misconduct occurred. Any expulsion for consumption or possession of beer or alcoholic beverages may not extend beyond ninety school days. If a student has intentionally brought a firearm onto school premises, the expulsion may not be for less than twelve months.

However, the superintendent or chief administering officer of each local school district or system may increase or decrease the length of a firearm-related expulsion on a case-by-case basis. The South Dakota Board of Education shall promulgate rules pursuant to chapter 1-26 to establish administrative due process procedures for the protection of a student's rights. The administrative due process procedures shall include a requirement that the school give notice of a student's due process rights to the parent or guardian of the student at the time of suspension or expulsion. Each school district board shall provide a procedural due process hearing, if requested, for a student in accordance with such rules if the suspension or expulsion of the student extends into the eleventh school day.

This section does not preclude other forms of discipline which may include suspension or expulsion from a class or activity.

The school board in any district may authorize the summary suspension of pupils by principals of schools for not more than ten school days and by the superintendent of schools for not more than ninety school days. In case of a suspension by the superintendent for more than ten school days, the pupil or his parents or others having his custodial care may appeal the decision of the superintendent to the board of education. Any suspension by a principal shall be immediately reported to the superintendent who may revoke the suspension at any time. In event of an appeal to the board, the superintendent shall promptly transmit to the board a full report in writing of the facts relating to the suspension, the action taken by him and the reasons for such action; and the board, upon request, shall grant a hearing to the appealing party. No pupil may be suspended unless:
(1) The pupil is given oral or written notice of the charges against him;
(2) The pupil is given an oral or written explanation of the facts that form the basis of the proposed suspension; and
(3) The pupil is given an opportunity to present his version of the incident.

In the event of a suspension for more than ten school days, if the pupil gives notice that he wishes to appeal the suspension to the board, the suspension shall be stayed until the board renders its decision, unless in the judgment of the superintendent of schools, the pupil's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process, in which case the pupil may be immediately removed from school, and the notice and hearing shall follow as soon as practicable.

The administrative due process procedures established in ARSD 24:07:04 for the protection of students' rights in an expulsion procedure apply to the early reinstatement process established in §§ 13-32-4.4 to 13-32-4.7, and the South Dakota Board of Education may promulgate rules pursuant to chapter 1-26 to establish additional procedures for the early reinstatement process, including the development of early reinstatement conditions by school boards.

No local school board may impose a lesser consequence than those established in § 13-32-9, but a local school district may adopt a policy, by local school board action, with more strict consequences to meet the needs of the district.

The pupil, if of the age of majority or emancipated, or the pupil's parent may waive the right to a hearing in writing to the superintendent. LAWS

§ 13-32-4.3. Effect of student's suspension or expulsion on enrollment.

If any student is under suspension or expulsion in a school district, the student may not enroll in any school district until the suspension or expulsion has expired. The superintendent or school administrator of any school district may prohibit a student from enrolling in that school district if the student is under suspension or expulsion in a school in another state or in a nonpublic school in this state. Upon receiving a request for a student's permanent school records from the receiving district, the sending school shall provide the receiving district with written notice of any suspension or expulsion.

If a student is expelled from school as provided in § 13-32-4, the school board may grant the student an early reinstatement allowing the student to return to school before the end of the period of expulsion.

Any early reinstatement granted by a school board pursuant to § 13-31-4.4 may include one or more specific conditions established by the school board that the expelled student must meet, either prior to the granting of the early reinstatement or after the early reinstatement is granted and before the end of the period of expulsion. Any early reinstatement conditions established by the school board for an expelled student shall pertain to the reasons why the student was expelled, and the board shall provide notice of any early reinstatement conditions to the student's parent or guardian or to the student, if the student is at least eighteen years of age or is an emancipated minor, at the time the student is expelled.

§ 13-32-4.6. Return to school upon fulfillment of conditions-Revocation of early reinstatement.

If the superintendent of a school district determines that an expelled student has met the early reinstatement conditions established pursuant to § 13-32-4.5 that the student is required to meet before the student may be granted early reinstatement, the superintendent may grant the student early reinstatement and allow the student to return to school.

If a student violates an early reinstatement condition that the student was required to meet after the student's early reinstatement, but before the end of the expulsion period, the superintendent of the school
district may revoke the student's early reinstatement. Within five days after revoking an early reinstatement, the superintendent shall provide written notice of the revocation including any early reinstatement condition that was violated by the student to the student's parent or guardian or to the student, if the student is at least eighteen years of age or an emancipated minor.

If a student's early reinstatement is revoked, the student's expulsion shall continue until the end of the original period of expulsion unless the student's expulsion is firearm-related and the original period of expulsion is modified by the superintendent pursuant to § 13-32-4.

The administrative due process procedures established in ARSD 24:07:04 for the protection of students' rights in an expulsion procedure apply to the early reinstatement process established in §§ 13-32-4.4 to 13-32-4.7, and the South Dakota Board of Education may promulgate rules pursuant to chapter 1-26 to establish additional procedures for the early reinstatement process, including the development of early reinstatement conditions by school boards.

Bullying, Harassment, or Hazing

LAWS

If a school district does not have a bullying policy, the school district shall follow the model bullying policy in § 13-32-19 until such time as the school district adopts its own bullying policy. Nothing in §§ 13-32-14 to 13-32-19, inclusive, supplants or preempts an existing school district policy, except that no school district policy prohibiting bullying, whether it is existing or adopted pursuant to §§ 13-32-14 to 13-32-19, inclusive, may contain any protected classes of students.

Bullying is a pattern of repeated conduct that causes physical hurt or psychological distress on one or more students that may include threats, intimidation, stalking as defined in chapter 22-19A, physical violence, theft, destruction of property, any threatening use of data or computer software, written or verbal communication, or conduct directed against a student that:

(1) Places a student in reasonable fear of harm to his or her person or damage to his or her property; and either
(2) Substantially interferes with a student's educational performance; or
(3) Substantially disrupts the orderly operation of a school.

For the purposes of §§ 13-32-14 to 13-32-19, inclusive, bullying also includes retaliation against a student for asserting or alleging an act of bullying.

§ 13-32-16. Bullying policy requirements.
Each school district policy developed pursuant to §§ 13-32-14 to 13-32-19, inclusive, shall contain the following provisions:

(1) A statement prohibiting bullying and a definition of bullying that includes the definition listed in § 13-32-15;
(2) A description of the type of behavior expected from each student of the school district, and the consequences for a student of the school district who commits an act of bullying;
(3) A procedure for reporting an act of bullying, including provisions that permit a person to anonymously report such an act, although formal disciplinary action may not be based solely on an anonymous report; and
(4) A procedure for the prompt investigation and response to any report of bullying, including a requirement that an investigation be conducted on any alleged incident of bullying committed against a child while the child is aboard a school bus, at a school bus stop, or at a school-sponsored event.

Any school district employee, school volunteer, student, or parent who promptly reports in good faith an act of bullying to the appropriate school district official as designated in the school district's policy, and who makes the report in compliance with the provisions of the school district's policy is immune from any cause of action for damages arising from failure to remedy the reported incident. Moreover, the provisions of §§ 13-32-14 to 13-32-19, inclusive, do not create a cause of action against any school district, school.
district employee, school volunteer, student, or parent unless there has been substantial noncompliance with the school district's policy resulting in injury to a protected person.

Neither the physical location nor the time of day of any incident involving the use of computers or other electronic devices is a defense to any disciplinary action taken by a school district for conduct determined to meet the definition of bullying in § 13-32-15.

The model bullying policy pursuant to §§ 13-32-14 to 13-32-19 is as follows:

Prohibition of Harassment, Intimidation, AND Bullying
The School District is committed to maintaining a constructive, safe school climate that is conducive to student learning and fostering an environment in which all students are treated with respect and dignity. Persistent bullying can severely inhibit a student's ability to learn and may have lasting negative effects on a student's life. The bullying of students by students, staff, or third parties is strictly prohibited and will not be tolerated.

Bullying consists of repeated physical, verbal, non-verbal, written, electronic, or any conduct directed toward a student that is so pervasive, severe, and objectively offensive that it:

(1) Has the purpose of creating or resulting in an intimidating, hostile, or offensive academic environment; or

(2) Has the purpose or effect of substantially or unreasonably interfering with a student's academic performance which deprives the student access to educational opportunities.

Any staff member observing or suspecting bullying toward another individual is required to report the issue to his or her building supervisor.

This policy is in effect while students are on property within the jurisdiction of the School Board; while students are in school-owned or school-operated vehicles; and while students are attending or engaged in school-sponsored activities.

The District will act to investigate all complaints (formal or informal, verbal or written) of bullying. A formal complaint may be submitted to the building principal. Any student engaging in an act of bullying is subject to discipline pursuant to the District's student discipline procedure.

This policy may not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions if the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

Persistent bullying can severely inhibit a student's ability to learn and may have lasting negative effects on a student's life. The bullying of students by students, staff, or third parties is strictly prohibited and will not be tolerated.

Bullying consists of repeated physical, verbal, non-verbal, written, electronic, or any conduct directed toward a student that is so pervasive, severe, and objectively offensive that it:

(1) Has the purpose of creating or resulting in an intimidating, hostile, or offensive academic environment; or

(2) Has the purpose or effect of substantially or unreasonably interfering with a student's academic performance which deprives the student access to educational opportunities.

Any staff member observing or suspecting bullying toward another individual is required to report the issue to his or her building supervisor.
This policy is in effect while students are on property within the jurisdiction of the School Board; while students are in school-owned or school-operated vehicles; and while students are attending or engaged in school-sponsored activities.

The District will act to investigate all complaints (formal or informal, verbal or written) of bullying. A formal complaint may be submitted to the building principal. Any student engaging in an act of bullying is subject to discipline pursuant to the District's student discipline procedure.

This policy may not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions if the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

He shall include reasons for the absences in the report.

**REGULATIONS**

The report must remain in the possession of the school board secretary or business manager, sealed and unavailable for review by individual school board members, until the time set for a hearing. The superintendent must send a copy of the report to the pupil's parent or to the pupil if the pupil is 18 years of age or older or an emancipated minor at the same time the report is filed with the school board's secretary or business manager.

24:07:04:01. Written report required.

If expulsion is anticipated because of a student's violation of a rule or policy or for insubordination or misconduct, the superintendent must file a sealed written report with the school board no later than the end of the fifth school day following the first day of the student's removal; from one or more classes or from school and schedule a hearing before the school board. The report must remain in the possession of the school board secretary sealed and unavailable for review by individual school board members, until the time set for a hearing.

At the same time that the report is filed with the school board's secretary, the superintendent must send a copy of the report to the student's parent or to the student if the student is 18 years of age or older or is an emancipated minor.
Parental Notification

LAWS

Each school board shall warn parents or persons in control of children of compulsory school age that the children must enter school and attend regularly, and shall report the parents or persons in control of the children to the truancy officer for the district if the warning is not heeded. All school board members, superintendents, and teachers shall cooperate in the enforcement of the school attendance laws.

The school board of every school district shall assist and cooperate with the administration and teachers in the government and discipline of the schools. The board may suspend or expel from school any student for violation of rules or policies or for insubordination or misconduct, and the superintendent or principal in charge of the school may temporarily suspend any student in accordance with § 13-32-4.2. The rules or policies may include prohibiting the following:

(1) The consumption or possession of beer or alcoholic beverages on the school premises or at school activities;
(2) The use or possession of a controlled substance, without a valid prescription, on the school premises or at school activities; and
(3) The use or possession of a firearm, as provided in § 13-32-7, on or in any elementary or secondary school premises, vehicle, or building or any premises, vehicle, or building used or leased for elementary or secondary school functions or activities.

In addition to administrative and school board disciplinary action, any violation of § 13-32-7 shall be reported to local law enforcement authorities.

The period of expulsion may extend beyond the semester in which the violation, insubordination, or misconduct occurred. Any expulsion for consumption or possession of beer or alcoholic beverages may not extend beyond ninety school days. If a student has intentionally brought a firearm onto school premises, the expulsion may not be for less than twelve months.

However, the superintendent or chief administering officer of each local school district or system may increase or decrease the length of a firearm-related expulsion on a case-by-case basis. The South Dakota Board of Education shall promulgate rules pursuant to chapter 1-26 to establish administrative due process procedures for the protection of a student's rights. The administrative due process procedures shall include a requirement that the school give notice of a student's due process rights to the parent or guardian of the student at the time of suspension or expulsion. Each school district board shall provide a procedural due process hearing, if requested, for a student in accordance with such rules if the suspension or expulsion of the student extends into the eleventh school day.

This section does not preclude other forms of discipline which may include suspension or expulsion from a class or activity.

This section does not prohibit a local school district from providing educational services to an expelled student in an alternative setting.
REGULATIONS

24:05:26:01:07.03. Parental notification.
On the date on which the decision is made to make a removal that constitutes a change of placement of a student with a disability because of a violation of a code of student conduct, the school district must notify the parents of that decision and provide the parents the procedural safeguards notice described in chapter 24:05:30.

24:05:26.08.03. Parental notification.
On the date on which the decision is made to make a removal that constitutes a change of placement of a student with a disability because of a violation of a code of student conduct, the school district shall notify the parents of that decision and provide the parents the procedural safeguards notice described in chapter 24:05:30.

24:07:02:01. Short-term suspension procedure.
If a short-term suspension from a class, classes, or school is anticipated because of a pupil's violation of a policy, the principal or superintendent shall give oral or written notice to the pupil as soon as possible after discovery of the alleged violation, stating the facts that form the basis for the suspension. The pupil must be given the opportunity to answer the charges. If a pupil is suspended, the principal or superintendent shall give the parent oral notice, if possible, and shall send the parent or a pupil who is 18 years of age or older or an emancipated minor a written notice which provides information regarding the pupil's due process rights. A pupil who is an unemancipated minor may not be removed from the school premises before the end of the school day without contacting a parent unless the pupil's presence poses a continuing threat or danger, in which case the pupil may be immediately removed from the school and transferred into the custody of a parent or law enforcement.

24:07:03:01. Written report required.
The superintendent must file a sealed, written report with the school board by the end of the fifth school day following the first day of the long-term suspension and may request that a hearing be held before the school board. The report must include the facts of the situation, the action taken, the reasons for the action, and the superintendent's decision or recommendation. The report must remain in the possession of the school board secretary or business manager, sealed and unavailable for review by individual school board members, until the time set for a hearing. The superintendent must send a copy of the report to the pupil's parent or to the pupil if the pupil is 18 years of age or older or an emancipated minor at the same time the report is filed with the school board's secretary or business manager.

24:07:03:02. Right to request hearing-Notice of hearing.
If the superintendent finds grounds for a long-term suspension from a class or classes, the superintendent may exclude the pupil from a class or classes by using the short-term suspension procedure in § 24:07:02:01. The superintendent shall give a written notice to the pupil's parent or to a pupil who is 18 years of age or older or an emancipated minor and may schedule a hearing. The notice shall contain the following minimum information:
(1) The policy allegedly violated;
(2) The reason for the disciplinary proceedings;
(3) Notice of the right to request a hearing or waive the right to a hearing.
(4) A description of the hearing procedure;
(5) A statement that the pupil's records are available at the school for examination by the pupil's parent or authorized representative; and
(6) A statement that the pupil may present witnesses.

If a hearing is requested, the superintendent shall give notice to each school board member of an appeal to the board for a hearing. The superintendent shall set the date, time, and place for the hearing and send notice by first class mail to each school board member and by certified mail, return receipt requested, to the pupil's parent or to a pupil who is 18 years of age or older or an emancipated minor. If no hearing is requested or the hearing is waived, the action of the superintendent is final.

24:07:04:01. Written report required.

If expulsion is anticipated because of a student's violation of a rule or policy or for insubordination or misconduct, the superintendent must file a sealed written report with the school board no later than the end of the fifth school day following the first day of the student's removal; from one or more classes or from school and schedule a hearing before the school board. The report must include the facts of the situation, the action, the reasons for the action and the superintendent's recommendation. The report must remain in the possession of the school board secretary sealed and unavailable for review by individual school board members, until the time set for a hearing.

At the same time that the report is filed with the school board's secretary, the superintendent must send a copy of the report to the student's parent or to the student if the student is 18 years of age or older or is an emancipated minor.

If the Superintendent finds grounds for expulsion from one or more classes or from school, the superintendent may exclude the student immediately by using the short-term suspension procedure in § 24:07:02:01. The superintendent shall give a written notice to one or both of student's parents or to a student who is 18 years of age or older or an emancipated minor. The notice must contain the following information at a minimum:

1. The rule, regulation, or policy allegedly violated;
2. The reason for the disciplinary proceedings;
3. Notice of the right to request a hearing;
4. A description of the hearing procedure;
5. A statement that the student's records are available at the school for examination by the student's parent or parents or another authorized representative;
6. A statement that the student may present witnesses; and
7. A statement that the student may be represented by an attorney.

The superintendent shall set the date, time, and place for the school board hearing. The superintendent shall send notice of the hearing to each school board member by first class mail and to the student's parent or to a student who is 18 years of age or older or an emancipated minor by certified mail, return receipt requested. If the superintendent recommend expulsion, the school board must act on the recommendation before it is implemented.

This section does not prohibit a local school district from providing educational services to an expelled student in an alternative setting.

Any person adjudicated, convicted, the subject of an informal adjustment or court-approved diversion program, or the subject of a suspended imposition of sentence or suspended adjudication of delinquency for possession, use, or distribution of controlled drugs or substances or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by § 22-42-15, is ineligible to participate in any extracurricular activity at any secondary school accredited by the
Department of Education for one calendar year from the date of adjudication, conviction, diversion, or suspended imposition of sentence. The one-year suspension may be reduced to thirty calendar days if the person participates in an assessment with a certified or licensed addiction counselor. If the assessment indicates the need for a higher level of care, the student is required to complete the prescribed program before becoming eligible to participate in extracurricular activities. Upon a second adjudication, conviction, diversion, or suspended imposition of a sentence for possession, use, or distribution of controlled drugs, substances, or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substance as prohibited by § 22-42-15, by a court of competent jurisdiction, that person is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education for one year from the date of adjudication, conviction, diversion, or suspended imposition of sentence. The one year suspension may be reduced to sixty calendar days if the person completes an accredited intensive prevention or treatment program. Upon a third or subsequent adjudication, conviction, diversion, or suspended imposition of sentence for possession, use, or distribution of controlled drugs or substances or marijuana as defined in chapter 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by § 22-42-15, by a court of competent jurisdiction, that person is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education. Upon such a determination in any juvenile court proceeding the Unified Judicial System shall give notice of that determination to the South Dakota High School Activities Association and the chief administrator of the school in which the person is participating in any extracurricular activity. The Unified Judicial System shall give notice to the chief administrators of secondary schools accredited by the Department of Education for any such determination in a court proceeding for any person eighteen to twenty-one years of age without regard to current status in school or involvement in extracurricular activities. The notice shall include name, date of birth, city of residence, and offense. The chief administrator shall give notice to the South Dakota High School Activities Association if any such person is participating in extracurricular activities.

Upon placement of the person in an informal adjustment or court-approved diversion program, the state's attorney who placed the person in that program shall give notice of that placement to the South Dakota High School Activities Association and chief administrator of the school in which the person is participating in any extracurricular activity.

As used in this section, the term, extracurricular activity, means any activity sanctioned by the South Dakota High School Activities Association. Students are ineligible to participate in activity events, competitions, and performances, but a local school district may allow a student to participate in practices.

The following allegations of delinquency and children in need of supervision shall be treated as juvenile cited violations by law enforcement:

(1) Petty theft in the second degree pursuant to § 22-30A-17.3;

(2) Intentional damage to property, four hundred dollars or less, pursuant to § 22-34-1;

(3) Purchase, possession, or consumption of alcoholic beverage by person under twenty-one years pursuant to § 35-9-2 in accordance with subdivision 26-8B-2(5); and

(4) Truancy pursuant to subdivision 26-8B-2(1).

The issuing officer shall notify the child and the child's parent, guardian, or custodian that a hearing on the citation for a cited violation shall be held before a judicial circuit court judge within ten days of issuance of the citation or on the next available court date and be treated as a confidential juvenile matter. The hearing shall be held pursuant to § 26-7A-36 and the case records shall be treated as confidential consistent with the provisions of §§ 26-7A-114, 26-7A-115, 26-7A-116, 26-7A-120, and 26-7A-27. A cited
violation is not an adjudication or a child in need of supervision or delinquency proceeding. In lieu of a
citation, pursuant to subdivision 26-7A-126(4), a school official may file a report with the state's attorney.
A report may also be filed with the state's attorney in lieu of a citation if the conduct occurs in conjunction
with another offense that is not subject to the juvenile cited violation process.

If a state's attorney is informed that a citation or report has been issued for a juvenile cited violation, the
state's attorney may take any action permitted pursuant to § 26-7A-10, except that a state's attorney
may only file a petition pursuant to subdivision 26-7A-10(5) if:
(1) The child is cited or a report is filed pursuant to subdivision 26-7A-126(1), (2), or (4); or
(2) The child is cited pursuant to subdivision 26-7A-126(3), and has two or more prior judgments for the

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2023. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

After the teacher files the report required under this subsection (c), the student is subject to additional disciplinary action that may include suspension or expulsion from the school. The principal or the principal's designee must notify the teacher involved of the actions taken to address the behavior of the relocated student.

The report must be kept either in a student discipline file, in which case the report does not become a part of the student's permanent record, or it must be filed in the student's permanent record, if the student's behavior violated the applicable zero tolerance policy. After the teacher files the report required under this subsection (c), the student is subject to additional disciplinary action that may include suspension or expulsion from the school. If the student's account is deemed to be valid, albeit different from the teacher's account, and changes the principal's, or the principal's designee's, perspective of the incident, then the principal or the principal's designee must render a decision regarding the student's placement.

(c) Principals and their designees shall respect the professional judgment of a teacher requesting to remove a student from the teacher's classroom under subsection (a) and shall take an action consistent with the student discipline policy or code of conduct adopted pursuant to § 49-6-4002 in response to the request, which may include:

The report must document the actions taken by the teacher's principal, or the principal's designee, in response to each request for a student's removal. Each director of schools must compile the data provided in each school's report and issue a district-wide report to the local board of education by August 1 immediately following the July 1 deadline for school reports.

(i) The commissioner of education may review the school and district-wide reports required under subsection (h) and provide training and other resources to schools and LEAs to address any needs identified through the commissioner's review.

Due Process

LAWS

49-6-3002. State attendance guidelines - No penalty for period of hospital or homebound instruction.
(a) The state board of education shall promulgate rules, in accordance with the Uniform Administrative Procedures Act, compiled in title 4, chapter 5, that prescribe guidelines for use by local boards of education in establishing standards and policies governing student attendance, subject to availability of funds. The guidelines shall include, but not be limited to, the following stipulations:

(4) Appeal procedures shall be included to assure the student's right of due process.

49-6-3401. Suspension of students - Expulsion of students - Exception for self-defense.
(c)(4)(A) If, at the time of the suspension, the principal, principal-teacher or assistant principal determines that an offense has been committed that would justify a suspension for more than ten (10) days, the person may suspend a student unconditionally for a specified period of time or upon such terms and conditions as are deemed reasonable.

(B) The principal, principal-teacher or assistant principal shall immediately give written or actual notice to the parent or guardian and the student of the right to appeal the decision to suspend for more than ten (10) days. All appeals must be filed, orally or in writing, within five (5) days after receipt of the notice and may be filed by the parent or guardian, the student or any person holding a teaching license who is employed by the school system if requested by the student.

(C) The appeal from this decision shall be to the board of education or to a disciplinary hearing authority appointed by the board. The disciplinary hearing authority, if appointed, shall consist of at least one (1) licensed employee of the LEA, but no more than the number of members of the local board.

(D) The hearing shall be held no later than ten (10) days after the beginning of the suspension. The local board of education or the disciplinary hearing authority shall give written notice of the time and place of the hearing to the parent or guardian, the student and the school official designated in subdivision (c)(4)(A) who ordered the suspension. Notice shall also be given to the LEA employee referred to in subdivision (c)(4)(B) who requests a hearing on behalf of a suspended student.
(5) After the hearing, the board of education or the disciplinary hearing authority may affirm the decision of the principal, order removal of the suspension unconditionally or upon such terms and conditions as it deems reasonable, assign the student to an alternative program or night school or suspend the student for a specified period of time.

(6) If the decision is determined by a disciplinary hearing authority, a written record of the proceedings, including a summary of the facts and the reasons supporting the decision, shall be made by the disciplinary hearing authority. The student, principal, principal-teacher or assistant principal may, within five (5) days of the decision, request review by the board of education; provided, that local school board policy may require an appeal to the director of schools prior to a request for review to the board. Absent a timely appeal, the decision shall be final. The board of education, based upon a review of the record, may grant or deny a request for a board hearing and may affirm or overturn the decision of the hearing authority with or without a hearing before the board; provided, that the board may not impose a more severe penalty than that imposed by the hearing authority without first providing an opportunity for a hearing before the board. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher or assistant principal, then, notwithstanding any provision of the open meetings laws compiled in title 8, chapter 44, or other law to the contrary, the hearing shall be closed to the public, unless the student or student's parent or guardian requests in writing within five (5) days after receipt of written notice of the hearing that the hearing be conducted as an open meeting. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher, or assistant principal that is closed to the public, then the board shall not conduct any business, discuss any subject or take a vote on any matter other than the appeal to be heard. Nothing in this subdivision (c)(6) shall act to exclude the department of children’s services from the disciplinary hearings when the department is exercising its obligations under § 37-1-140. The action of the board of education shall be final.

REGULATIONS

0520-01-02-.17. State attendance guidelines.

(5) Each local board of education shall adopt an attendance policy in accordance with the State Board's School Attendance Policy 4.100 that is firm, but fair; includes effective accounting and reporting procedures; accounts for extenuating circumstances; includes appeal procedures; and establishes and maintains alternative programs for students who fail to meet minimum attendance requirements. [...]

(7) Whenever possible, attendance issues should be resolved at the school level. To ensure due process, Local boards of education must adopt a policy that affords students with excessive (more than 5) unexcused absences the opportunity to appeal. Such policy must, at minimum, include written or actual notice to the student or their parent/guardian and the opportunity to be heard. The burden of proof rests on the student or their parent/guardian. The appeal process for determining unexcused absences is ancillary to a truancy decision rendered by a juvenile court judge as described in T.C.A. § 49-6-3010.

(b) Alternative schools and alternative programs shall be operated pursuant to rules of the state board of education pertaining to them, and instruction shall proceed as nearly as practicable in accordance with the instructional programs at the student's home school. All course work completed and credits earned in alternative schools or alternative programs shall be transferred to and recorded in the student's home school, which shall grant credit earned and progress thereon as if earned in the home school.

(c)(1)(A) Attendance in an alternative school or alternative program is mandatory for students in grades seven through twelve (7-12) who have been suspended for more than ten (10) days or expelled from the regular school program if there is space and staff available.

(B)(i) Notwithstanding subdivision (c)(1)(A), attendance in an alternative school or alternative program is not mandatory for students in grades seven through twelve (7-12) who have been expelled from the regular school program for committing a zero tolerance offense.

(ii) This subdivision (c)(1)(B) does not prohibit a director of schools, or a director's designee, from assigning a student who has been expelled from the regular school program for committing a zero tolerance offense to an alternative school or alternative program.

(iii) The director of schools, or the director's designee, shall determine whether to assign a student who has been expelled from the regular school program for committing a zero tolerance offense to an alternative school or alternative program on a case-by-case basis.

(ii) This subdivision (c)(1)(C) does not prohibit a director of schools, or a director's designee, from assigning a student who has been suspended for more than ten (10) days or expelled from the regular school program for an offense of violence or threatened violence, or an offense that threatened the safety of persons attending or assigned to the student's school, to an alternative school or alternative program. The director of schools, or the director's designee, shall determine
whether to assign a student to an alternative school or alternative program under this subdivision (c)(1)(C) on a case-by-case basis.

(D) Attendance in an alternative school or alternative program is voluntary for students in grades one through six (1-6) who have been suspended or expelled from the regular school program unless the local board of education adopts a policy mandating attendance in either instance.

(3) If a student is under suspension or expulsion and transfers to another LEA during the student's suspension or expulsion period, then the director of schools, or the director's designee, of the LEA to which the student transfers may review the grounds of the student's suspension or expulsion, but is not required to enforce the suspension or expulsion. If the director of schools, or the director's designee, elects to enforce the student's suspension or expulsion, then, notwithstanding subdivision (c)(1), the LEA to which the student transferred is not required to assign the student to an alternative school or alternative program for the remainder of the suspension or expulsion period. This subdivision (c)(3) does not limit or impair an LEA's ability to deny enrollment to a student who is under suspension or expulsion in another LEA or state pursuant to § 49-6-3401(f).

(d) Any student attending an alternative school shall continue to earn state education funds in the student's home school system and shall be counted for all school purposes by that system as if still in attendance there.

Teachers and other employees shall be notified of emergency procedures prior to the beginning of classes for any school year.

(2) The state board of education shall provide a curriculum for alternative schools to ensure students receive specialized attention needed to maximize student success. Alternative schools shall offer alternative learning environments in which students are offered a variety of educational opportunities, such as learning at different rates of time or utilizing different, but successful, learning strategies, techniques and tools.

(g) Notwithstanding this section or other law to the contrary, local boards of education may establish evening alternative schools for students in grades six through twelve (6-12).
(h)(1) LEAs establishing alternative schools or contracting for the operation of alternative schools shall develop and implement formal transition plans for the integration of students from regular schools to alternative schools and from alternative schools to regular schools. The plans shall be targeted to improve communication between regular and alternative school staff, provide professional development opportunities shared by regular school staff and alternative school staff, align curricula between regular schools and alternative schools, develop quality in-take procedures for students returning to regular school and provide student follow-up upon return to regular school.

(2) The state board of education shall adopt policies or guidelines to assist LEAs in developing transition plans.

The written notice must inform the parent, guardian, or other person having control of a student that a student who accumulates five (5) days of unexcused absences during the school year is subject to the LEA's progressive truancy interventions and that continued unexcused absences may result in a referral
to juvenile court. The five (5) days of unexcused absences need not be five (5) consecutive days of unexcused absences.

(2) The principal of a public school must report promptly to the director of schools, or to the attendance supervisor, the names of all students who have withdrawn from school or who have accumulated three days of unexcused absences. (C) This section does not prohibit a local board of education from adopting a progressive truancy plan that allows the LEA to take intervention actions before those required in this subsection (e). Such actions may include any of the truancy intervention actions required for the second or third tier of the LEA's progressive truancy plan.

(f) Except as otherwise provided by § 49-6-3001 or § 49-6-3005, this section is applicable to a child less than six (6) years of age and the child's parent, guardian, or other person having control of a child, when such person has enrolled the child in a public school; provided, that a child may be withdrawn within six (6) weeks of initial enrollment without penalty.

(g) For the purposes of this part, for recording and coding student absences from school because of disciplinary actions, the following definitions apply:

(1) "Expulsion" means removal from attendance for more than ten (10) consecutive days or more than fifteen (15) days in a month of school attendance. Multiple suspensions that occur consecutively constitute expulsion. The LEA is not eligible to receive funding for an expelled student;

(2) "Remand" means assignment to an alternative school. The student so assigned shall be included in average daily attendance and average daily membership and shall continue to be counted as present for funding purposes. The department of education shall establish a set of codes to be used for reporting reasons that students are remanded to an alternative school; and

(3) "Suspension" means dismissal for any reason from attendance at school not exceeding ten (10) consecutive days. Multiple suspensions shall not run consecutively, nor shall multiple suspensions be applied to avoid expulsion from school. The LEA remains eligible to receive funding for a suspended student.
(h)(1)(A) An LEA may enter into an agreement with the local law enforcement agency serving the LEA’s area and the appropriate local government in that area to assist in the enforcement of compulsory attendance upon complying with the following conditions:

(i) Creation by the local board of education of an advisory council to assist the board in formulating the agreement. The board must include representatives of teachers, parents, administrators, and other community representatives;

(ii) Receipt of input from neighborhood groups and other interested parties; and

(iii) At least one (1) public hearing on the proposed agreement prior to its adoption by the board.

(B) The agreement must provide for:

(i) Training teachers, principals, social workers, and other school personnel concerning truancy issues;

(ii) Training of involved law enforcement personnel in the truancy law, including categories of students to which the law does not apply, such as nonpublic school students or home school students; and

(iii) Safeguards to protect students from discriminatory or selective enforcement and to protect the civil rights of students and parents.

(C) If an LEA enters into an agreement, then every public school principal or teacher employed by the LEA must report promptly to the director of schools, or the director’s designated representative, the names of all students who accumulated five (5) days of unexcused absences and continue to report each subsequent unexcused absence. The five (5) days of unexcused absences need not be five (5) consecutive days of unexcused absences.

(2) If a student accumulates five (5) days of unexcused absences, the director of schools shall serve, or cause to be served, upon the parent, guardian, or other person having control of the student written notice that the student's attendance at school is required. The notice must inform the parent, guardian, or other person having control of the student of this subsection (h).

(3) Under the agreement, and for purposes of this section and § 37-1-102(b)(32)(A), a student who accumulates three (3) days of unexcused absences may be deemed habitually truant.

(4) The director of schools or the director's representative may issue a list of truant students to the local law enforcement agency for the purpose of allowing the law enforcement agency to take the student into temporary custody when the student is found away from the school premises, without adequate excuse, during school hours, in a public place, in any public or private conveyance, or in any place of business open to the public, unless accompanied by a parent, guardian, or other person having control of the student. The agreement shall specify that the law enforcement officer's sole function is to deliver the student to:

(A) The parent, guardian, or other person having control of the student;

(B) The principal of the school in which the student is enrolled;

(C) A truancy center established by the LEA; or

(D) The juvenile court, if the juvenile court and the local law enforcement agency have entered into a local interagency agreement.

49-6-3009. Educational neglect – Progressive truancy plans that implement tiers of intervention – Referral to juvenile court.

(a) Any parent, guardian, or other person who has control of a child, and who violates this part commits educational neglect, which is a Class C misdemeanor.

(b) Each day's unlawful absence constitutes a separate offense.

(c) A director of schools or attendance supervisor shall devise and recommend, and the local board of education shall adopt, a progressive truancy plan that implements tiers of intervention for students
who violate compulsory attendance requirements prior to the filing of a truancy petition or a criminal prosecution for educational neglect. These interventions must be designed to address student conduct related to truancy in the school setting and minimize the need for referrals to juvenile court.

(d) Progressive truancy plans adopted by local boards of education pursuant to subsection (c) must be applied prior to referral to juvenile court as described in § 49-6-3007(e)(1). Beginning with the 2021-2022 school year, progressive truancy plans must include a first tier of truancy prevention that is applicable to all enrolled students, and a second and third tier of truancy intervention required for students who have accumulated a minimum of five (5) days of unexcused absences. Beginning with the 2021-2022 school year, progressive truancy plans must meet the following requirements:

(1) Tier one of the progressive truancy plan must include schoolwide, prevention-oriented supports;
(2) Tier two must be implemented upon a student's accumulation of five (5) unexcused absences, as specified in the LEA's progressive truancy plan, and must include, at a minimum:
   (A) A conference with the student and the parent, guardian, or other person having control of the student;
   (B) A resulting attendance contract to be signed by the student, the parent, guardian, or other person having control of the student, and an attendance supervisor or designee. The contract must include:
      (i) A specific description of the school's attendance expectations for the student;
      (ii) The period for which the contract is in effect; and
      (iii) Penalties for additional absences and alleged school offenses, including additional disciplinary action and potential referral to juvenile court;
   (C) Regularly scheduled follow-up meetings, which may be with the student and the parent, guardian, or other person having control of the student to discuss the student's progress;
   (D) An individualized assessment by a school employee of the reasons a student has been absent from school; and
   (E) If necessary, referral of the child to counseling, community-based services, or other in-school or out-of-school services aimed at addressing the student's attendance problems; and
(3) Tier three must be implemented if the truancy interventions under tier two are unsuccessful. Tier three may consist of one (1) or more of the following:
   (A) School-based community services;
   (B) Participation in a school-based restorative justice program;
   (C) Referral to a school-based teen court; or
   (D) Saturday or after-school courses designed to improve attendance and behavior.

(e) In-school suspension or out-of-school suspension must not be used as part of the progressive truancy plans adopted by schools for unexcused absence from class or school.

(f)(1) Notwithstanding subsections (d) and (g), if any tier of progressive truancy intervention is unsuccessful with a student and the school can document that the student's parent or guardian is unwilling to cooperate with the truancy intervention requirements outlined in the progressive truancy plan, then the director of schools, or the director's designee, may report the student's absences to the appropriate judge pursuant to subsection (g) without first having to implement subsequent intervention tiers, if any.

(2) For purposes of this subsection (f), evidence of a parent's or guardian's unwillingness to cooperate with the truancy intervention requirements outlined in the progressive truancy plan includes, but is not limited to, a parent's or guardian's failure or refusal, on multiple occasions, to attend conferences, return telephone calls, attend follow-up meetings, enter into an attendance contract, or actively participate in any of the tiers of truancy intervention outlined in subsection (d) or in the local board of education's progressive truancy plan.

(g) If an LEA has applied a progressive truancy plan that complies with subsection (d) and interventions under the plan have failed to meaningfully address the student's school attendance, the director of schools, after written notice to the parent, guardian, or other person having control of the student, shall report the student who is unlawfully absent from school to the appropriate judge having juvenile
jurisdiction in that county. Each case must be dealt with in such manner as the judge may determine to be in the best interest of the student, consistent with §§ 37-1-132, 37-1-168, and 37-1-169. In the event a student in kindergarten through grade twelve (K-12) is adjudicated to be unruly because the student has accumulated five (5) days or more of unexcused absences during any school year, the judge may assess a fine of up to fifty dollars ($50.00) or five (5) hours of community service, in the discretion of the judge, against the parent or legal guardian of the student.

(h) Each referral to juvenile court for conduct described in subsection (g) and § 49-6-3007(h)(4)(D) must be accompanied by a statement from the student's school certifying that:

1. The school applied the progressive truancy interventions of the progressive truancy plan adopted under subsection (d) for the student; and

2. The progressive truancy interventions failed to meaningfully address the student's school attendance.

(i) A court shall dismiss a complaint or referral made by an LEA under this section that is not made in compliance with subsection (h).

(j) Notwithstanding any other law, each LEA having previously adopted an effective progressive truancy intervention program that substantially conforms to this section may present the intervention program to the commissioner of education for approval in lieu of strict compliance with this section. If the commissioner does not approve the intervention plan, the LEA shall modify the plan according to the commissioner's recommendations and resubmit the revised plan for approval by the commissioner.

(k) Each head of school of a nonpublic or church-related school shall recommend, and the governing board of the school shall adopt, a policy addressing compulsory attendance and truancy that describes the interventions that the school will employ for violations of the compulsory attendance laws. The policy shall provide that the director of schools or the attendance supervisor in the LEA where the student's home of record is located will be notified in the event that a student at a nonpublic or church-related school is expelled or withdraws from school.

(l) Parents, guardians, or other persons having control of a student who is required to attend remedial instruction under § 49-6-3021 commit educational neglect, as defined in subsection (a), if the student is truant from the instruction.

(m) For purposes of this section, all references to "intervention," "truancy intervention," or "progressive truancy intervention" are deemed references to the truancy interventions of the second and third tiers of a progressive truancy plan.

49-6-3012. Truancy schools.

(a) The board of education having charge of the public schools of any local school system having a population of ten thousand (10,000) or more, according to the federal census of 1950 or any subsequent federal census, may establish a truancy school, either within or without the city limits, for children who are between seven (7) and sixteen (16) years of age, both inclusive, and who are habitual truants, or while in attendance at school are incorrigible, vicious, immoral or who habitually wander or loiter about without lawful employment.

(b) Such children shall be deemed disorderly juvenile persons, and may be compelled by the board to attend the truancy school or any department of the public school as the board may direct.

(c) Any board of education having charge of schools affected by this part shall have authority to exclude any delinquent pupil whose influence is deemed by the board to be demoralizing or injurious to other pupils attending the schools.

49-6-7005. Improving parental involvement in children's education.

(d) Parenting classes in these parent involvement programs should provide parents with information and skills related to improving student performance. For example, these classes may address:

7. The importance of school attendance and the consequences of truancy.
REGULATIONS

0520-01-02-.17. State attendance guidelines.
(5) Each local board of education shall adopt an attendance policy in accordance with the State Board's School Attendance Policy 4.100 that is firm, but fair; includes effective accounting and reporting procedures; accounts for extenuating circumstances; includes appeal procedures; and establishes and maintains alternative programs for students who fail to meet minimum attendance requirements.

(a) The policy shall address the excusing of absences in accordance with the State Board's School Attendance Policy 4.100.

(b) The policy shall address unexcused absences in accordance with the State Board's School Attendance Policy 4.100.

(c) The policy shall align with the McKinney-Vento Homeless Assistance Act [found at 42 U.S.C. §§ 11431., et seq.].

(d) Local attendance policies shall not be used to penalize students academically.

(e) The attendance policy adopted by the local board of education shall be posted at each school, and school counselors shall be supplied copies for discussion with students. The policy shall be referenced in all school handbooks. All teachers, administrative staff, and parents/guardians shall be provided copies of the policy.

(6) Pursuant to T.C.A. § 49-6-3009., each local board of education shall adopt a progressive truancy intervention plan for students who violate compulsory attendance requirements prior to the filing of a truancy petition or a criminal prosecution for educational neglect. These interventions must be designed to address student conduct related to truancy in the school setting and minimize the need for referrals to juvenile court.

(7) Whenever possible, attendance issues should be resolved at the school level. To ensure due process, Local boards of education must adopt a policy that affords students with excessive (more than 5) unexcused absences the opportunity to appeal. Such policy must, at minimum, include written or actual notice to the student or their parent/guardian and the opportunity to be heard. The burden of proof rests on the student or their parent/guardian. The appeal process for determining unexcused absences is ancillary to a truancy decision rendered by a juvenile court judge as described in T.C.A. § 49-6-3010.

(8) LEAs are encouraged to develop truancy boards, youth courts, or other alternative programs to serve as an intervention for students with excessive absences. These may be in addition to, or a part of, the progressive truancy intervention plan required by T.C.A. § 49-6-3009.

(3) Nothing in this section prohibits the assignment of students who are subject to expulsion from school to an alternative school.

(B) "Zero tolerance offense" means an offense committed by a student requiring the student to be expelled from school for at least one (1) calendar year that can only be modified on a case-by-case basis by the director of schools or the head of a charter school.

(d) Each discipline policy or code of conduct must contain the type of behavior expected from each student, the consequences of failure to obey the standards, and the importance of the standards to the maintenance of a safe learning environment where orderly learning is possible and encouraged. Each policy must address:

An electronic pager in the possession of a student shall be included in this definition if used or intended for use as defined by this subdivision (3).

49-6-4203. Legislative intent.

(e) The general assembly further finds that:

(1) The removal of dangerous weapons, drug paraphernalia and drugs from school property is necessary to lessen hazards to students and that removal can only be accomplished by searches of areas of the school buildings or grounds where those materials may be stored;
(2) On occasions when the use of dangerous weapons or drugs has reached a life or health threatening level, searches of students themselves may be necessary to protect the larger student body, and that often the searches must be conducted in emergency situations;

(3) Individual circumstances and local particularities require that individual principals must be relied on to exercise their professionally trained judgments in determining what action is appropriate within this part; and

(4) The presence on school property of students with drugs in their bodies may pose a threat to the safety and well-being of that student and other students, may be disruptive of school classes and other programs and may interfere with the educational opportunities and progress of all students.

49-6-4204. Search of lockers, vehicles, and other property.

(a) When individual circumstances in a school dictate, a principal may order that vehicles parked on school property by students or visitors, containers, packages, lockers or other enclosures used for storage by students or visitors, and other areas accessible to students or visitors be searched in the principal's presence or in the presence of other members of the principal's staff.

(b) Individual circumstances requiring a search may include incidents on school property, including school buses, involving, but not limited to, the use of dangerous weapons, drugs or drug paraphernalia by students that are known to the principal or other staff members, information received from law enforcement, juvenile or other authorities indicating a pattern of drug dealing or drug use by students of that school, any assault or attempted assault on school property with dangerous weapons or any other actions or incidents known by the principal that give rise to reasonable suspicion that dangerous weapons, drugs or drug paraphernalia are held on school property by one (1) or more students.

(c) A notice shall be posted in the school that lockers and other storage areas, containers, and packages brought into the school by students or visitors are subject to search for drugs, drug paraphernalia, dangerous weapons or any property that is not properly in the possession of the student.

(d) A notice shall be posted where it is visible from the school parking lot that vehicles parked on school property by students or visitors are subject to search for drugs, drug paraphernalia or dangerous weapons.

49-6-4205. Search of students.

   (2) The search will yield evidence of the violation of school policy or will lead to disclosure of a dangerous weapon, drug paraphernalia or drug.

49-6-4207. Use of metal detectors.

To facilitate a search that is found to be necessary of students, school visitors, containers or packages, metal detectors and other devices designed to indicate the presence of dangerous weapons, drug paraphernalia or drugs may be used in searches, including hand-held models that are passed over or round a student's or visitor's body, and students, visitors, containers and packages may be required to pass through a stationary detector.

49-6-4210. Disposal of contraband.

Any dangerous weapon or drug located by the principal or other staff member in the course of a search shall be turned over to the appropriate law enforcement officer for proper disposal.
49-6-4213. Testing of students for drugs - Referral information and assistance for students testing positive.

(a)(1) A student may be subject to testing for the presence of drugs in the student's body in accordance with this section and the policy of the LEA if there are reasonable indications to the principal that such student may have used or be under the influence of drugs. The need for testing may be brought to the attention of the principal through a search authorized by § 49-6-4204 or § 49-6-4205, observed or reported use of drugs by the student on school property, or other reasonable information received from a teacher, staff member or other student. All of the following standards of reasonableness shall be met:

(A) A particular student has violated school policy;
(B) The test will yield evidence of the violation of school policy or will establish that a student either was impaired due to drug use or did not use drugs;
(C) The test is in pursuit of legitimate interests of the school in maintaining order, discipline, safety, supervision and education of students;
(D) The test is not conducted for the sole purpose of discovering evidence to be used in a criminal prosecution; and
(E) Tests shall be conducted in the presence of a witness. Persons who shall act as witnesses shall be designated in the policy of the local board of education.

(2) A student participating in voluntary extracurricular activities may be subject to random drug testing in the absence of individualized reasonable suspicion provided the standards set forth in subdivisions (a)(1)(B)-(E) are met.

(b) As used in this section and § 49-6-4203, "drugs" means:

(1) Any scheduled drug as specified in §§ 39-17-405 - 39-17-416; and

(c) Before a drug testing program is implemented in any LEA, the local board of education in that LEA shall establish policies, procedures and guidelines to implement this section within that LEA. The state board of education shall prepare a model policy, procedure and guidelines that may be adopted by local boards of education.

(d) Tests shall be conducted by properly trained persons in circumstances that ensure the integrity, validity and accuracy of the test results but are minimally intrusive and provide maximum privacy to the tested student. All tests shall be performed by an accredited laboratory. Specimens confirmed as positive shall be retained for at least ten (10) days for possible retesting or reanalysis.

(e) Students shall be advised in writing at the time of their enrollment that they are subject to testing. Notice to each student shall include grounds for testing, the procedures that will be followed and possible penalties. Students shall be advised of their right to refuse to undergo drug testing and the consequences of refusal.

(f)(1) A parent of the student or a person legally responsible for the student shall be notified before any drug test is administered to the student.

(2) If an LEA adopts a policy permitting random drug testing of students in voluntary extracurricular activities, then, prior to a student participating in an extracurricular activity, the LEA shall notify the parents and guardians of any such student that the student may be subjected to random drug testing. A parent or guardian of a student participating in a volunteer extracurricular activity shall provide written consent for random drug testing prior to the student participating in the voluntary extracurricular activity.

(g) The LEA shall pay the cost of any testing required under this section.

(h) In any school where LEA or school policy allows tests provided for by this section, in-service training of principals and teachers will be conducted in signs and symptoms of student drug use and abuse and in the school policy for handling of these students. The department of mental health and substance abuse services shall cause qualified trainers to be available to the schools to conduct this training.
(i) Test reports from laboratories shall include the specimen number assigned by the submitting LEA, the drug testing laboratory accession number and results of the drug tests. Certified copies of all analytical results shall be available from the laboratory when requested by the LEA or the parents of the student. The laboratory shall not be permitted to provide testing results verbally by telephone.

(j)(1) All specimens testing negative on the initial screening test or negative on the confirmatory test shall be reported as negative.

(2) If a student is tested and the results of the test are negative, all records of the test, request for a test or indication a student has been tested shall be expunged from all records, including school records.

(k)(1) If a student is tested in a drug testing program and the results of the test are positive, all records of the test, request for a test or indication a student has been tested shall be confidential student records in accordance with § 10-7-504(a)(4)(A).

(2) No student who is tested under a random drug testing program and who tests positive shall be suspended or expelled from school solely as the result of the positive test.

(3) The principal or school counselor of the school in which a student who tests positive in a drug testing program is enrolled shall provide referral information to the student and to the student's parents or guardian. The information shall include information on inpatient, outpatient and community-based drug and alcohol treatment programs.

(l) Each LEA participating in the drug testing of students authorized in subsection (a) shall promulgate policies and procedures to ensure that those students testing positive receive the assistance needed. The assistance shall include an assessment to determine the severity of the student's alcohol and drug problem and a recommendation for referral to intervention or treatment resources as appropriate. Nothing in this section shall be construed to require LEAs to administer drug tests to students. Any system that elects to participate shall supply the testing materials and any subsequent counseling within existing local funds.

(m) Malicious use of authority granted by this section may be grounds for dismissal of the person so acting.

(4)(A) If a MOU entered into pursuant to this subsection (c) would permit law enforcement officers to

the MOU shall not take effect until approved in writing by the chief law enforcement officer of the law
enforcement agency with law enforcement jurisdiction for the school.

(B) Notwithstanding title 6, chapter 54, part 3, or any other law to the contrary, a law enforcement
officer who is serving as an armed school security officer pursuant to this section for a school located
outside of the jurisdictional boundaries of the officer's employing agency shall, while acting within the
scope of the officer's employment as an armed school security officer, have the jurisdiction and
authority to enforce all laws of this state and of the county or municipality in which the school at which

distribute a list of its law enforcement officers who the chief law enforcement officer deems qualified and
who are interested in serving as armed school security officers pursuant to this section to each LEA that
is located within the law enforcement agency's jurisdictional boundaries and with which a MOU has been

school safety measures adopted by an LEA and shall not supplant school resource officers or other
school security measures. An LEA shall not replace a school resource officer or other school security
measure with an armed school security officer. A law enforcement agency shall not terminate a MOU for
the
provision of school resource officers based solely upon an LEA's adoption of a policy authorizing the use of armed school security officers.

(h) Following the conclusion of the 2020-2021 school year, the chief law enforcement officer of each law enforcement agency with law enforcement jurisdiction for a school that has utilized armed school security officers pursuant to this section shall submit a report to the governor, the chair of the education committee of the house of representatives, the chair of the education committee of the senate, and the commissioner of education on or before September 1, 2021, that details any school security deficiencies and that provides recommendations for security improvements for each such school. If the report requirement of this subsection (h) affects more than one (1) law enforcement agency within any one (1) county, then the affected chief law enforcement officers shall submit a single, consolidated report covering the schools that have utilized armed school security officers pursuant to this section.

Any reserve funding awarded pursuant to this subsection (e) is subject to a twenty-five percent (25%) match by the LEA, adjusted for the LEA's fiscal capacity under the BEP formula, and must be available for school safety grants awarded for the 2019-2020 and 2020-2021 fiscal years. Any reserve funds that are not awarded pursuant to this subsection (e) must be reallocated in accordance with subsection (d). [...] 

(h) LEAs are authorized to act in partnership with local law enforcement agencies for the purpose of hiring school resource officers under the state grant program set forth in § 38-8-115.

(9) Provide post-incident assessments and evaluate the effectiveness and response of the LEA to incidents.

(d) The threat assessment team shall document all behaviors and incidents deemed to pose a risk to school safety or that result in intervention and shall provide the information to the LEA. All information shall be documented in accordance with the Family Educational Rights and Privacy Act (FERPA)(20 U.S.C. 1232g), § 10-7-504, and all other relevant state and federal privacy laws. The LEA must consider the information when reviewing and developing a building-level school safety plan.

(e) The threat assessment team shall report threat assessment team activities to the local board of education and the director of schools on a regular basis. The report must include quantitative data on threat assessment team activities, including post-incident assessments, and must provide information on the effectiveness of the team's response to incidents deemed to pose a risk to school safety. The report must comply with the FERPA, § 10-7-504, and all other relevant state and federal privacy laws.

(f) Documents produced or obtained pursuant to this section are not open for public inspection. Threat assessment team meetings do not constitute an open meeting as defined by § 8-44-102.

49-6-2702. Request for law enforcement or court records upon determination that individual poses threat or exhibits significantly disruptive behavior or need for assistance - Use of information - Disclosure of student's education record.

(a)(1) Upon a preliminary determination by the threat assessment team that an individual poses a threat of violence or exhibits significantly disruptive behavior or need for assistance, the threat assessment team may:

(A) Request law enforcement information or records, which may be provided as deemed appropriate by the law enforcement agency in accordance with state and federal privacy laws; and

(B) Request court files and records, which may be provided as deemed appropriate by the juvenile court pursuant to § 37-1-153.

(2) A member of a threat assessment team shall not disclose any court files or records obtained pursuant to this section or otherwise use any record of an individual beyond the purpose for which the
disclosure was made. This section does not require a law enforcement agency or juvenile court to produce a record or limit a law enforcement agency's or juvenile court's discretion.

(3) Law enforcement and juvenile justice information obtained pursuant to this part cannot be used:

(A) To discipline or exclude a child from educational services unless the information is provided to a school pursuant to § 37-1-131(a)(2)(B); or

(B) By a juvenile court system to assess legal consequences against a person for any action, unless the information is brought before the juvenile court pursuant to a properly filed petition and addressed through the proper court proceedings in accordance with title 37, chapter 1.

(b) An LEA may disclose information contained in a student's education record to appropriate parties, including members of the threat assessment team and the members' respective agencies, in the event of an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. Any disclosure under this subsection (b) must comply with the Family Educational Rights and Privacy Act (FERPA)(20 U.S.C. 1232g), § 10-7-504, the Data Accessibility, Transparency and Accountability Act, compiled in chapter 1, part 7 of this title, and all other relevant state and federal privacy laws. This section does not limit an LEA's ability to disclose information to the fullest extent otherwise permitted by state or federal law.

(c) Agencies, entities, and individuals subject to the Health Insurance Portability and Accountability Act of 1996 (HIPAA)(42 U.S.C. § 1320d et seq.) may disclose information contained in a medical record to the threat assessment team if the agency, entity, or individual believes that the disclosure is necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public. Any disclosure under this subsection (c) must comply with HIPAA. Nothing in this subsection (c) limits an agency's, entity's or individual's ability to disclose information to the fullest extent otherwise permitted by state or federal law.

(d) The threat assessment team shall certify to any agency or individual providing confidential information that the information will not be disclosed to any other party, except as provided by law. The agency providing the information to the threat assessment team shall retain ownership of the information provided, and such information remains subject to any confidentiality laws applicable to the agency. The provision of information to the threat assessment team does not waive any applicable confidentiality standards. Confidential information may be shared with the threat assessment team only as necessary to protect the safety of the individual or others. Nothing in this part compels an agency or individual to share records or information unless required by law.

49-6-2703. Immunity of threat assessment team.

A threat assessment team and individual members of a threat assessment team, and any person providing information to a threat assessment team, are not liable in any action for damages or for other relief for any lawful actions taken in accordance with this part. A threat assessment team and individual members of a threat assessment team are immune from liability arising from:

(1) The provision of information to a threat assessment team, if the information is provided to the threat assessment team in good faith, without malice, and on the basis of facts known or reasonably believed to exist; or

(2) Any decisions, opinions, actions, and proceedings rendered, entered, or acted upon by a threat assessment team within the scope or function of the duties of the threat assessment team if made in good faith, without malice, and on the basis of facts known or reasonably believed to exist.

Compilation of School
Discipline Laws and
Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

(7) prohibit bullying, harassment, and making hit lists and ensure that district employees enforce those prohibitions;

(8) provide, as appropriate for students at each grade level, methods, including options, for:

If the student's behavior does not improve, the campus behavior coordinator shall employ alternative discipline management techniques, including any progressive interventions designated as the responsibility of the campus behavior coordinator in the student code of conduct.
(b) A teacher may remove from class a student:
(1) who has been documented by the teacher to repeatedly interfere with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn; or

The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. (d) A teacher shall remove from class and send to the principal for placement in a disciplinary alternative education program or for expulsion, as appropriate, a student who engages in conduct described under Section 37.006 or 37.007. The student may not be returned to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. If the teacher removed the student from class because the student has engaged in the elements of any offense listed in Section 37.006(a)(2)(B) or Section 37.007(a)(2)(A) or (b)(2)(C) against the teacher, the student may not be returned to the teacher's class without the teacher's consent. The teacher may not be coerced to consent.

§ 37.021. Opportunity to complete courses during in-school and certain other placements.

(a) If a school district removes a student from the regular classroom and places the student in in-school suspension or another setting other than a disciplinary alternative education program, the district shall offer the student the opportunity to complete before the beginning of the next school year each course in which the student was enrolled at the time of the removal.

REGULATIONS

19 TAC 89.1053. Procedures for use of restraint and time-out.

(a) Requirement to implement. In addition to the requirements of 34 Code of Federal Regulations (CFR), § 300.324(a)(2)(i), school districts and charter schools must implement the provisions of this section regarding the use of restraint and time-out. In accordance with the provisions of Texas Education Code (TEC), § 37.0021 (Use of Confinement, Restraint, Seclusion, and Time-Out), it is the policy of the state to treat with dignity and respect all students, including students with disabilities who receive special education services under TEC, Chapter 29, Subchapter A.

(b) Definitions.

(1) Emergency means a situation in which a student's behavior poses a threat of:

(A) imminent, serious physical harm to the student or others; or
(B) imminent, serious property destruction.

(2) Restraint means the use of physical force or a mechanical device to significantly restrict the free movement of all or a portion of the student's body.

(3) Time-out means a behavior management technique in which, to provide a student with an opportunity to regain self-control, the student is separated from other students for a limited period in a setting:

(A) that is not locked; and
(B) from which the exit is not physically blocked by furniture, a closed door held shut from the outside, or another inanimate object.

(c) Use of restraint. A school employee, volunteer, or independent contractor may use restraint only in an emergency as defined in subsection (b) of this section and with the following limitations.

(1) Restraint must be limited to the use of such reasonable force as is necessary to address the emergency.

(2) Restraint must be discontinued at the point at which the emergency no longer exists.

(3) Restraint must be implemented in such a way as to protect the health and safety of the student and others.

(4) Restraint must not deprive the student of basic human necessities.

(d) Training on use of restraint. Training for school employees, volunteers, or independent contractors must be provided according to the following requirements.
(1) A core team of personnel on each campus must be trained in the use of restraint, and the team must include a campus administrator or designee and any general or special education personnel likely to use restraint.

(2) Personnel called upon to use restraint in an emergency and who have not received prior training must receive training within 30 school days following the use of restraint.

(3) Training on use of restraint must include prevention and de-escalation techniques and provide alternatives to the use of restraint.

(4) All trained personnel must receive instruction in current professionally accepted practices and standards regarding behavior management and the use of restraint.

(e) Documentation and notification on use of restraint. In a case in which restraint is used, school employees, volunteers, or independent contractors must implement the following documentation requirements.

(1) On the day restraint is utilized, the campus administrator or designee must be notified verbally or in writing regarding the use of restraint.

(2) On the day restraint is utilized, a good faith effort must be made to verbally notify the parent(s) regarding the use of restraint.

(3) Written notification of the use of restraint must be placed in the mail or otherwise provided to the parent within one school day of the use of restraint.

(4) Written documentation regarding the use of restraint must be placed in the student's special education eligibility folder in a timely manner so the information is available to the admission, review, and dismissal (ARD) committee when it considers the impact of the student's behavior on the student's learning and/or the creation or revision of a behavioral intervention plan (BIP).

(5) Written notification to the parent(s) and documentation to the student's special education eligibility folder must include the following:

   (A) name of the student;
   (B) name of the staff member(s) administering the restraint;
   (C) date of the restraint and the time the restraint began and ended;

   (H) the efforts made to de-escalate the situation and alternatives to restraint that were attempted; and
   (I) information documenting parent contact and notification.

(f) Clarification regarding restraint. The provisions adopted under this section do not apply to the use of physical force or a mechanical device that does not significantly restrict the free movement of all or a portion of the student's body. Restraint that involves significant restriction as referenced in subsection (b)(2) of this section does not include:

(1) physical contact or appropriately prescribed adaptive equipment to promote normative body positioning and/or physical functioning;

(2) limited physical contact with a student to promote safety (e.g., holding a student's hand), prevent a potentially harmful action (e.g., running into the street), teach a skill, redirect attention, provide guidance to a location, or provide comfort;

(3) limited physical contact or appropriately prescribed adaptive equipment to prevent a student from engaging in ongoing, repetitive self-injurious behaviors, with the expectation that instruction will be
reflected in the individualized education program (IEP) as required by 34 CFR, § 300.324(a)(2)(i) to promote student learning and reduce and/or prevent the need for ongoing intervention; or

(4) seat belts and other safety equipment used to secure students during transportation.

(g) Use of time-out. A school employee, volunteer, or independent contractor may use time-out in accordance with subsection (b)(3) of this section with the following limitations.

(1) Physical force or threat of physical force must not be used to place a student in time-out.

(2) Time-out may only be used in conjunction with an array of positive behavior intervention strategies and techniques and must be included in the student's IEP and/or BIP if it is utilized on a recurrent basis to increase or decrease a targeted behavior.

(3) Use of time-out must not be implemented in a fashion that precludes the ability of the student to be involved in and progress in the general curriculum and advance appropriately toward attaining the annual goals specified in the student's IEP.

(h) Training on use of time-out. Training for school employees, volunteers, or independent contractors must be provided according to the following requirements.

(1) General or special education personnel who implement time-out based on requirements established in a student's IEP and/or BIP must be trained in the use of time-out.

(2) Newly-identified personnel called upon to implement time-out based on requirements established in a student's IEP and/or BIP must receive training in the use of time-out within 30 school days of being assigned the responsibility for implementing time-out.

(3) Training on the use of time-out must be provided as part of a program which addresses a full continuum of positive behavioral intervention strategies, and must address the impact of time-out on the ability of the student to be involved in and progress in the general curriculum and advance appropriately toward attaining the annual goals specified in the student's IEP.

(4) All trained personnel must receive instruction in current professionally accepted practices and standards regarding behavior management and the use of time-out.

(i) Documentation on use of time-out. Necessary documentation or data collection regarding the use of time-out, if any, must be addressed in the IEP or BIP. The ARD committee must use any collected data to judge the effectiveness of the intervention and provide a basis for making determinations regarding its continued use.

(j) Student safety. Any behavior management technique and/or discipline management practice must be implemented in such a way as to protect the health and safety of the student and others. No discipline management practice may be calculated to inflict injury, cause harm, demean, or deprive the student of basic human necessities.

§ 37.001. Student code of conduct.

(a) The board of trustees of an independent school district shall, with the advice of its district-level committee established under Subchapter F, Chapter 11, adopt a student code of conduct for the district. 8. provide, as appropriate for students at each grade level, methods, including options, for:
   A. managing students in the classroom, on school grounds, and on a vehicle owned or operated by the district;
   B. disciplining students; and
(C) preventing and intervening in student discipline problems, including bullying, harassment, and making hit lists; and

(9) include an explanation of the provisions regarding refusal of entry to or ejection from district property under Section 37.105, including the appeal process established under Section 37.105(h).

(c) Once the student code of conduct is promulgated, any change or amendment must be approved by the board of trustees.

d) Each school year, a school district shall provide parents notice of and information regarding the student code of conduct.

(e) Except as provided by Section 37.007(e), this subchapter does not require the student code of conduct to specify a minimum term of a removal under Section 37.006 or an expulsion under Section 37.007.

§ 37.005. Suspension.

(a) The principal or other appropriate administrator may suspend a student who engages in conduct identified in the student code of conduct adopted under Section 37.001 as conduct for which a student may be suspended.

The campus behavior coordinator may coordinate with the school district's homeless education liaison to identify appropriate alternatives to out-of-school suspension for a student who is homeless. In this subsection, "student who is homeless" has the meaning assigned to the term "homeless children and youths" under 42 U.S.C. Section 11434a.

(e) A school district shall provide to a student during the period of the student's suspension under this section, regardless of whether the student is placed in in-school or out-of-school suspension, an alternative means of receiving all course work provided in the classes in the foundation curriculum under Section 28.002(a)(1) that the student misses as a result of the suspension. § 37.0081. Expulsion and placement of certain students in alternative settings.

(a) Subject to Subsection (h), but notwithstanding any other provision of this subchapter, the board of trustees of a school district, or the board's designee, after an opportunity for a hearing may expel a student and elect to place the student in an alternative setting as provided by Subsection (a-1) if:

(E) has received probation or deferred adjudication for a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code;

(F) has been convicted of a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code; or

(G) has been arrested for or charged with a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code; and

(2) the board or the board's designee determines that the student's presence in the regular classroom:

(B) will be detrimental to the educational process; or

(C) is not in the best interests of the district's students.

(a-1) The student must be placed in:

(g) The board of trustees shall reimburse a juvenile justice alternative education program in which a student is placed under this section for the actual cost incurred each day for the student while the student is enrolled in the program. For purposes of this subsection:

(1) the actual cost incurred each day for the student is determined by the juvenile board of the county operating the program; and
(2) the juvenile board shall determine the actual cost each day of the program based on the board's annual audit.

(h) To the extent of a conflict between this section and Section 37.007, Section 37.007 prevails.

§ 37.019. Emergency placement or expulsion.

(a) This subchapter does not prevent the principal or the principal's designee from ordering the immediate placement of a student in a disciplinary alternative education program if the principal or the principal's designee reasonably believes the student's behavior is so unruly, disruptive, or abusive that it seriously interferes with a teacher's ability to communicate effectively with the students in a class, with the ability of the student's classmates to learn, or with the operation of school or a school-sponsored activity.

(b) This subchapter does not prevent the principal or the principal's designee from ordering the immediate expulsion of a student if the principal or the principal's designee reasonably believes that action is necessary to protect persons or property from imminent harm.

(c) At the time of an emergency placement or expulsion, the student shall be given oral notice of the reason for the action. The reason must be a reason for which placement in a disciplinary alternative education program or expulsion may be made on a nonemergency basis. Within a reasonable time after
the emergency placement or expulsion, but not later than the 10th day after the date of the placement or expulsion, the student shall be accorded the appropriate due process as required under Section 37.009. If the student subject to the emergency placement or expulsion is a student with disabilities who receives special education services, the emergency placement or expulsion is subject to federal law and regulations and must be consistent with the consequences that would apply under this subchapter to a student without a disability.

(d) A principal or principal’s designee is not liable in civil damages for an emergency placement under this section.

At the hearing, the student is entitled to be represented by the student's parent or guardian or another adult who can provide guidance to the student and who is not an employee of the school district. If the school district makes a good-faith effort to inform the student and the student's parent or guardian of the time and place of the hearing, the district may hold the hearing regardless of whether the student, the student's parent or guardian, or another adult representing the student attends. Before ordering the expulsion of a student, the board of trustees must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the board concerns a mandatory or discretionary action. If the decision to expel a student is made by the board's designee, the decision may be appealed to the board. The decision of the board may be appealed by trial de novo to a district court of the county in which the school district's central administrative office is located.

§ 37.010. Court involvement.

(g-1) If a student was expelled by a school district in another state for a period that exceeds one year and a school district in this state continues the expulsion or places the student in a disciplinary alternative education program under Subsection (g), the district shall reduce the period of the expulsion or placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student.

§ 37.021. Opportunity to complete courses during in-school and certain other placements.

(a) If a school district removes a student from the regular classroom and places the student in in-school suspension or another setting other than a disciplinary alternative education program, the district shall
offer the student the opportunity to complete before the beginning of the next school year each course in which the student was enrolled at the time of the removal.

(b) The district may provide the opportunity to complete courses by any method available, including a correspondence course, distance learning, or summer school.

Due Process

LAWS

§ 37.001. Student code of conduct.

(a) The board of trustees of an independent school district shall, with the advice of its district-level committee established under Subchapter F, Chapter 11, adopt a student code of conduct for the district. The student code of conduct must be posted and prominently displayed at each school campus or made available for review at the office of the campus principal. In addition to establishing standards for student conduct, the student code of conduct must:

(9) include an explanation of the provisions regarding refusal of entry to or ejection from district property under Section 37.105, including the appeal process established under Section 37.105(h).

§ 37.006. Removal for certain conduct.

(i) The student or the student's parent or guardian may appeal the superintendent's decision under Subsection (h) to the board of trustees. The student may not be returned to the regular classroom pending the appeal. The board shall, at the next scheduled meeting, review the notice provided under Article 15.27(g), Code of Criminal Procedure, and receive information from the student, the student's parent or guardian, and the superintendent or superintendent's designee and confirm or reverse the decision under Subsection (h). The board shall make a record of the proceedings. If the board confirms the decision of the superintendent or superintendent's designee, the board shall inform the student and the student's parent or guardian of the right to appeal to the commissioner under Subsection (j).

(j) Notwithstanding Section 7.057(e), the decision of the board of trustees under Subsection (i) may be appealed to the commissioner as provided by Sections 7.057(b), (c), (d), and (f). The student may not be returned to the regular classroom pending the appeal.

§ 37.009. Conference; hearing; review.

(a) Not later than the third class day after the day on which a student is removed from class by the teacher under Section 37.002(b) or (d) or by the school principal or other appropriate administrator under Section 37.001(a)(2) or 37.006, the campus behavior coordinator or other appropriate administrator shall schedule a conference among the campus behavior coordinator or other appropriate administrator, a parent or guardian of the student, the teacher removing the student from class, if any, and the student. At the conference, the student is entitled to written or oral notice of the reasons for the removal, an explanation of the basis for the removal, and an opportunity to respond to the reasons for the removal. The student may not be returned to the regular classroom pending the conference. Following the conference, and whether or not each requested person is in attendance after valid attempts to require the person's attendance, the campus behavior coordinator, after consideration of the factors under Section 37.001(a)(4), shall order the placement of the student for a period consistent with the student code of conduct. Before ordering the suspension, expulsion, removal to a disciplinary alternative education program, or placement in a juvenile justice alternative education program of a student, the behavior
coordinator must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the behavior coordinator concerns a mandatory or discretionary action. If school district policy allows a student to appeal to the board of trustees or the board's designee a decision of the campus behavior coordinator or other appropriate administrator, other than an expulsion under Section 37.007, the decision of the board or the board's designee is final and may not be appealed. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that the student is a threat to the safety of other students or to district employees.

(b) If a student's placement in a disciplinary alternative education program is to extend beyond 60 days or the end of the next grading period, whichever is earlier, a student's parent or guardian is entitled to notice of and an opportunity to participate in a proceeding before the board of trustees of the school district or the board's designee, as provided by policy of the board of trustees of the district. Any decision of the board or the board's designee under this subsection is final and may not be appealed.

(c) Before it may place a student in a disciplinary alternative education program for a period that extends beyond the end of the school year, the board or the board's designee must determine that:

(1) the student's presence in the regular classroom program or at the student's regular campus presents a danger of physical harm to the student or to another individual; or

(2) the student has engaged in serious or persistent misbehavior that violates the district's student code of conduct.

(d) The board or the board's designee shall set a term for a student's placement in a disciplinary alternative education program. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student.

(e) A student placed in a disciplinary alternative education program shall be provided a review of the student's status, including a review of the student's academic status, by the board's designee at intervals not to exceed 120 days. In the case of a high school student, the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The district is not required under this subsection to provide a course in the district's disciplinary alternative education program except as required by Section 37.008(l). At the review, the student or the student's parent or guardian must be given the opportunity to present arguments for the student's return to the regular classroom or campus. The student may not be returned to the classroom of the teacher who removed the student without that teacher's consent. The teacher may not be coerced to consent.

(f) Before a student may be expelled under Section 37.007, the board or the board's designee must provide the student a hearing at which the student is afforded appropriate due process as required by the federal constitution and which the student's parent or guardian is invited, in writing, to attend. At the hearing, the student is entitled to be represented by the student's parent or guardian or another adult who can provide guidance to the student and who is not an employee of the school district. If the school district makes a good-faith effort to inform the student and the student's parent or guardian of the time and place of the hearing, the district may hold the hearing regardless of whether the student, the student's parent or guardian, or another adult representing the student attends. Before ordering the expulsion of a
student, the board of trustees must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the board concerns a mandatory or discretionary action. If the decision to expel a student is made by the board's designee, the decision may be appealed to the board. The decision of the board may be appealed by trial de novo to a district court of the county in which the school district's central administrative office is located.

(g) The board or the board's designee shall deliver to the student and the student's parent or guardian a copy of the order placing the student in a disciplinary alternative education program under Section 37.001, 37.002, or 37.006 or expelling the student under Section 37.007.

(h) If the period of an expulsion is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of an expulsion may not exceed one year unless, after a review, the district determines that:

1. the student is a threat to the safety of other students or to district employees; or
2. extended placement is in the best interest of the student. After a school district notifies the parents or guardians of a student that the student has been expelled, the parent or guardian shall provide adequate supervision of the student during the period of expulsion.

(i) If a student withdraws from the district before an order for placement in a disciplinary alternative education program or expulsion is entered under this section, the principal or board, as appropriate, may complete the proceedings and enter an order. If the student subsequently enrolls in the district during the same or subsequent school year, the district may enforce the order at that time except for any period of the placement or expulsion that has been served by the student on enrollment in another district that honored the order. If the principal or board fails to enter an order after the student withdraws, the next district in which the student enrolls may complete the proceedings and enter an order.

(j) If, during the term of a placement or expulsion ordered under this section, a student engages in additional conduct for which placement in a disciplinary alternative education program or expulsion is required or permitted, additional proceedings may be conducted under this section regarding that conduct and the principal or board, as appropriate, may enter an additional order as a result of those proceedings.

§ 37.010. Court involvement.

(g) If an expelled student enrolls in another school district, the board of trustees of the district that expelled the student shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the expulsion order and the referral to the authorized officer of the juvenile court. The district in which the student enrolls may continue the expulsion under the terms of the order, may place the student in a disciplinary alternative education program for the period specified by the expulsion order, or may allow the student to attend regular classes without completing the period of expulsion. A district may take any action permitted by this subsection if the student was expelled by a school district in another state if:

1. the out-of-state district provides to the district a copy of the expulsion order; and
2. the grounds for the expulsion are also grounds for expulsion in the district in which the student is enrolling.

(g-1) If a student was expelled by a school district in another state for a period that exceeds one year and a school district in this state continues the expulsion or places the student in a disciplinary alternative education program under Subsection (g), the district shall reduce the period of the expulsion or placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

1. the student is a threat to the safety of other students or to district employees; or
(2) extended placement is in the best interest of the student.

(h) A person is not liable in civil damages for a referral to juvenile court as required by this section.

§ 37.056. Court supervision.
(a) In this section, "court" means a juvenile court or alternate juvenile court designated under Chapter 51, Family Code. The court may delegate responsibility under this section to a referee appointed under Section 51.04, Family Code.
(b) If a representative of the school district, the student, and the parent or guardian for any reason fail to reach an agreement under Section 37.055, the court may, on the request of any party and after a hearing, enter an order establishing the responsibilities and duties of each of the parties as the court considers appropriate.
(c) The court may compel attendance at any hearing held under this section through any legal process, including subpoena and habeas corpus.
(d) If the parties reach an agreement under Section 37.055, and if the written agreement so provides, the court may enter an order that incorporates the terms of the agreement.
(e) Any party who violates an order issued under this section may be punished for contempt of court.
(f) A school district may enter into an agreement to share the costs incurred by a county under this section.

§ 37.0081. Expulsion and placement of certain students in alternative settings.
(a) Subject to Subsection (h), but notwithstanding any other provision of this subchapter, the board of trustees of a school district, or the board's designee, after an opportunity for a hearing may expel a student and elect to place the student in an alternative setting as provided by Subsection (a-1) if:
(1) the student:
   (A) has received deferred prosecution under Section 53.03, Family Code, for conduct defined as:
      (i) a felony offense in Title 5, Penal Code; or
      (ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;
   (B) has been found by a court or jury to have engaged in delinquent conduct under Section 54.03, Family Code, for conduct defined as:
      (i) a felony offense in Title 5, Penal Code; or
      (ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;
   (C) is charged with engaging in conduct defined as:
      (i) a felony offense in Title 5, Penal Code; or
      (ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;
   (D) has been referred to a juvenile court for allegedly engaging in delinquent conduct under Section 54.03, Family Code, for conduct defined as:
      (i) a felony offense in Title 5, Penal Code; or
      (ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;
   (E) has received probation or deferred adjudication for a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code;
   (F) has been convicted of a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code; or
   (G) has been arrested for or charged with a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code; and
(2) the board or the board's designee determines that the student's presence in the regular classroom:
   (A) threatens the safety of other students or teachers;
   (B) will be detrimental to the educational process; or
   (C) is not in the best interests of the district's students.

§ 37.146. Requisites of complaint.
(a) A complaint alleging the commission of a school offense must, in addition to the requirements imposed by Article 45.019, Code of Criminal Procedure:
   (1) be sworn to by a person who has personal knowledge of the underlying facts giving rise to probable cause to believe that an offense has been committed; and
   (2) be accompanied by a statement from a school employee stating:
       (A) whether the child is eligible for or receives special services under Subchapter A, Chapter 29; and
       (B) the graduated sanctions, if required under Section 37.144, that were imposed on the child before the complaint was filed.

(b) After a complaint has been filed under this subchapter, a summons may be issued under Articles 23.04 and 45.057(e), Code of Criminal Procedure.

(c) A complaint under this subchapter may include a recommendation by a school employee that the child attend a teen court program under Article 45.052, Code of Criminal Procedure, if the school employee believes attending a teen court program is in the best interest of the child.

Return to School Following Removal

LAWS

§ 37.001. Student code of conduct.
(a) The board of trustees of an independent school district shall, with the advice of its district-level committee established under Subchapter F, Chapter 11, adopt a student code of conduct for the district. The student code of conduct must be posted and prominently displayed at each school campus or made available for review at the office of the campus principal. In addition to establishing standards for student conduct, the student code of conduct must:
   (9) include an explanation of the provisions regarding refusal of entry to or ejection from district property under Section 37.105, including the appeal process established under Section 37.105(h).

(a) A teacher may send a student to the campus behavior coordinator's office to maintain effective discipline in the classroom. The campus behavior coordinator shall respond by employing appropriate discipline management techniques consistent with the student code of conduct adopted under Section 37.001 that can reasonably be expected to improve the student's behavior before returning the student to the classroom. If the student's behavior does not improve, the campus behavior coordinator shall employ alternative discipline management techniques, including any progressive interventions designated as the responsibility of the campus behavior coordinator in the student code of conduct. […]

(c) If a teacher removes a student from class under Subsection (b), the principal may place the student into another appropriate classroom, into in-school suspension, or into a disciplinary alternative education
program as provided by Section 37.008. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. The terms of the removal may prohibit the student from attending or participating in school-sponsored or school-related activity.

(d) A teacher shall remove from class and send to the principal for placement in a disciplinary alternative education program or for expulsion, as appropriate, a student who engages in conduct described under Section 37.006 or 37.007. The student may not be returned to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. If the teacher removed the student from class because the student has engaged in the elements of any offense listed in Section 37.006(a)(2)(B) or Section 37.007(a)(2)(A) or (b)(2)(C) against the teacher, the student may not be returned to the teacher's class without the teacher's consent. The teacher may not be coerced to consent.

§ 37.003. Placement review committee.

(a) Each school shall establish a three-member committee to determine placement of a student when a teacher refuses the return of a student to the teacher's class and make recommendations to the district regarding readmission of expelled students. Members shall be appointed as follows:

(1) the campus faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member; and

(2) the principal shall choose one member from the professional staff of a campus.

(b) The teacher refusing to readmit the student may not serve on the committee.

(c) The committee's placement determination regarding a student with a disability who receives special education services under Subchapter A, Chapter 29, is subject to the requirements of the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.) and federal regulations, state statutes, and agency requirements necessary to carry out federal law or regulations or state law relating to special education.

§ 37.006. Removal for certain conduct.

(h) On receipt of notice under Article 15.27(g), Code of Criminal Procedure, the superintendent or the superintendent's designee shall review the student's placement in the disciplinary alternative education program. The student may not be returned to the regular classroom pending the review. The superintendent or the superintendent's designee shall schedule a review of the student's placement with the student's parent or guardian not later than the third class day after the superintendent or superintendent's designee receives notice from the office or official designated by the court. After reviewing the notice and receiving information from the student's parent or guardian, the superintendent or the superintendent's designee may continue the student's placement in the disciplinary alternative education program if there is reason to believe that the presence of the student in the regular classroom threatens the safety of other students or teachers.

(i) The student or the student's parent or guardian may appeal the superintendent's decision under Subsection (h) to the board of trustees. The student may not be returned to the regular classroom pending the appeal. The board shall, at the next scheduled meeting, review the notice provided under Article 15.27(g), Code of Criminal Procedure, and receive information from the student, the student's parent or guardian, and the superintendent or superintendent's designee and confirm or reverse the decision under Subsection (h). The board shall make a record of the proceedings. If the board confirms the decision of the superintendent or superintendent's designee, the board shall inform the student and the student's parent or guardian of the right to appeal to the commissioner under Subsection (j).
(j) Notwithstanding Section 7.057(e), the decision of the board of trustees under Subsection (i) may be appealed to the commissioner as provided by Sections 7.057(b), (c), (d), and (f). The student may not be returned to the regular classroom pending the appeal.

§ 37.009. Conference; hearing; review.
(e) A student placed in a disciplinary alternative education program shall be provided a review of the student's status, including a review of the student's academic status, by the board's designee at intervals not to exceed 120 days. In the case of a high school student, the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The district is not required under this subsection to provide a course in the district's disciplinary alternative education program except as required by Section 37.008(l). At the review, the student or the student's parent or guardian must be given the opportunity to present arguments for the student's return to the regular classroom or campus. The student may not be returned to the classroom of the teacher who removed the student without that teacher's consent. The teacher may not be coerced to consent.

(2) "Licensed clinical social worker" has the meaning assigned by Section 505.002, Occupations Code.
(b) As soon as practicable after an alternative education program determines the date of a student's release from the program, the alternative education program administrator shall:
   (1) provide written notice of that date to:
      (A) the student's parent or a person standing in parental relation to the student; and
      (B) the administrator of the campus to which the student intends to transition; and
   (2) provide the campus administrator:
      (A) an assessment of the student's academic growth while attending the alternative education program; and
      (B) the results of any assessment instruments administered to the student.
(c) Not later than five instructional days after the date of a student's release from an alternative education program, the campus administrator shall coordinate the student's transition to a regular classroom. The coordination must include assistance and recommendations from:
   (1) school counselors;
   (2) school district peace officers;
   (3) school resource officers;
   (4) licensed clinical social workers;
   (5) campus behavior coordinators;
   (6) classroom teachers who are or may be responsible for implementing the student's personalized transition plan developed under Subsection (d); and
(7) any other appropriate school district personnel.

d) The assistance required by Subsection (c) must include a personalized transition plan for the student
developed by the campus administrator. A personalized transition plan:

(1) must include recommendations for the best educational placement of the student; and

(2) may include:

(A) recommendations for counseling, behavioral management, or academic assistance for the student
with a concentration on the student's academic or career goals;

(B) recommendations for assistance for obtaining access to mental health services provided by the
district or school, a local mental health authority, or another private or public entity;

student about the process to request a full individual and initial evaluation of the student for purposes
of special education services under Section 29.004; and

(D) a regular review of the student's progress toward the student's academic or career goals.

(e) If practicable, the campus administrator, or the administrator's designee, shall meet with the student's
parent or a person standing in parental relation to the student to coordinate plans for the student's
transition.

(f) This section applies only to a student subject to compulsory attendance requirements under Section
25.085.

procedures shall include:

(1) an established timeline for the student's transition from the DAEP to the student's locally assigned
campus; and

§ 37.001. Student code of conduct.

(a) The board of trustees of an independent school district shall, with the advice of its district-level committee established under Subchapter F, Chapter 11, adopt a student code of conduct for the district. The student code of conduct must be posted and prominently displayed at each school campus or made available for review at the office of the campus principal. The program must:

(1) be age-appropriate and research-based;
(2) provide models for positive behavior;

   (A) positive behavioral intervention and support;
   (B) trauma-informed practices;
   (C) social and emotional learning;
   (D) a referral for services, as necessary; and
   (E) restorative practices.

(b) Each school district and open-enrollment charter school may annually conduct training for staff employed by the district or school on the program adopted under Subsection (a).

(a) A teacher may send a student to the campus behavior coordinator's office to maintain effective discipline in the classroom. The campus behavior coordinator shall respond by employing appropriate discipline management techniques consistent with the student code of conduct adopted under Section 37.001 that can reasonably be expected to improve the student's behavior before returning the student to the classroom. If the student's behavior does not improve, the campus behavior coordinator shall employ
alternative discipline management techniques, including any progressive interventions designated as the responsibility of the campus behavior coordinator in the student code of conduct.

(b) A teacher may remove from class a student:

(1) who has been documented by the teacher to repeatedly interfere with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn; or

(2) whose behavior the teacher determines is so unruly, disruptive, or abusive that it seriously interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn.

(b-1) A teacher may document any conduct by a student that does not conform to the student code of conduct adopted under Section 37.001 and may submit that documentation to the principal. A school district may not discipline a teacher on the basis of documentation submitted under this subsection.

(c) If a teacher removes a student from class under Subsection (b), the principal may place the student into another appropriate classroom, into in-school suspension, or into a disciplinary alternative education program as provided by Section 37.008. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. The terms of the removal may prohibit the student from attending or participating in school-sponsored or school-related activity.

(d) A teacher shall remove from class and send to the principal for placement in a disciplinary alternative education program or for expulsion, as appropriate, a student who engages in conduct described under Section 37.006 or 37.007. The student may not be returned to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. If the teacher removed the student from class because the student has engaged in the elements of any offense listed in Section 37.006(a)(2)(B) or Section 37.007(a)(2)(A) or (b)(2)(C) against the teacher, the student may not be returned to the teacher's class without the teacher's consent. The teacher may not be coerced to consent.

(e) A student who is sent to the campus behavior coordinator's or other administrator's office under Subsection (a) or removed from class under Subsection (b) is not considered to have been removed from the classroom for the purposes of reporting data through the Public Education Information Management System (PEIMS) or other similar reports required by state or federal law.

§ 37.003. Placement review committee.

(a) Each school shall establish a three-member committee to determine placement of a student when a teacher refuses the return of a student to the teacher's class and make recommendations to the district regarding readmission of expelled students. Members shall be appointed as follows:

(1) the campus faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member; and

(2) the principal shall choose one member from the professional staff of a campus.

(b) The teacher refusing to readmit the student may not serve on the committee.

(c) The committee's placement determination regarding a student with a disability who receives special education services under Subchapter A, Chapter 29, is subject to the requirements of the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.) and federal regulations, state statutes, and agency requirements necessary to carry out federal law or regulations or state law relating to special education.
§ 37.005. Suspension.
(e) A school district shall provide to a student during the period of the student's suspension under this section, regardless of whether the student is placed in in-school or out-of-school suspension, an alternative means of receiving all course work provided in the classes in the foundation curriculum under Section 28.002(a)(1) that the student misses as a result of the suspension. The district must provide at least one option for receiving the course work that does not require the use of the Internet.

§ 37.0051. Placement of students committing sexual assault against another student.
(a) As provided by Section 25.0341(b)(2), a student shall be removed from class and placed in a disciplinary alternative education program under Section 37.008 or a juvenile justice alternative education program under Section 37.011.
(b) A limitation imposed by this subchapter on the length of a placement in a disciplinary alternative education program or a juvenile justice alternative education program does not apply to a placement under this section.

§ 37.0052. Placement or expulsion of students who have engaged in certain bullying behavior.
(b) A student may be removed from class and placed in a disciplinary alternative education program as provided by Section 37.008 or expelled if the student:
(1) engages in bullying that encourages a student to commit or attempt to commit suicide;
(2) incites violence against a student through group bullying; or
(3) releases or threatens to release intimate visual material of a minor or a student who is 18 years of age or older without the student's consent.

§ 37.006. Removal for certain conduct.
(a) A student shall be removed from class and placed in a disciplinary alternative education program as provided by Section 37.008 if the student:
(1) engages in conduct involving a public school that contains the elements of the offense of false alarm or report under Section 42.06, Penal Code, or terroristic threat under Section 22.07, Penal Code; or
(2) commits the following on or within 300 feet of school property, as measured from any point on the school's real property boundary line, or while attending a school-sponsored or school-related activity on or off of school property:
   (A) engages in conduct punishable as a felony;
   (B) engages in conduct that contains the elements of the offense of assault under Section 22.01(a)(1), Penal Code;
   (C) sells, gives, or delivers to another person or possesses or uses or is under the influence of:
      (i) marihuana or a controlled substance, as defined by Chapter 481, Health and Safety Code, or by 21 U.S.C. Section 801 et seq.; or
      (ii) a dangerous drug, as defined by Chapter 483, Health and Safety Code;
   (D) sells, gives, or delivers to another person an alcoholic beverage, as defined by Section 1.04, Alcoholic Beverage Code, commits a serious act or offense while under the influence of alcohol, or possesses, uses, or is under the influence of an alcoholic beverage;
   (E) engages in conduct that contains the elements of an offense relating to an abusable volatile chemical under Sections 485.031 through 485.034, Health and Safety Code;
   (F) engages in conduct that contains the elements of the offense of public lewdness under Section 21.07, Penal Code, or indecent exposure under Section 21.08, Penal Code; or
(G) engages in conduct that contains the elements of the offense of harassment under Section 42.07(a)(1), (2), (3), or (7), Penal Code, against an employee of the school district.

(b) Except as provided by Section 37.007(d), a student shall be removed from class and placed in a disciplinary alternative education program under Section 37.008 if the student engages in conduct on or off of school property that contains the elements of the offense of retaliation under Section 36.06, Penal Code, against any school employee.

(c) In addition to Subsections (a) and (b), a student shall be removed from class and placed in a disciplinary alternative education program under Section 37.008 based on conduct occurring off campus and while the student is not in attendance at a school-sponsored or school-related activity if:

(1) the student receives deferred prosecution under Section 53.03, Family Code, for conduct defined as:

   (A) a felony offense in Title 5, Penal Code; or
   (B) the felony offense of aggravated robbery under Section 29.03, Penal Code;

(2) a court or jury finds that the student has engaged in delinquent conduct under Section 54.03, Family Code, for conduct defined as:

   (A) a felony offense in Title 5, Penal Code; or
   (B) the felony offense of aggravated robbery under Section 29.03, Penal Code; or

(3) the superintendent or the superintendent's designee has a reasonable belief that the student has engaged in a conduct defined as:

   (A) a felony offense in Title 5, Penal Code; or
   (B) the felony offense of aggravated robbery under Section 29.03, Penal Code.

(d) In addition to Subsections (a), (b), and (c), a student may be removed from class and placed in a disciplinary alternative education program under Section 37.008 based on conduct occurring off campus and while the student is not in attendance at a school-sponsored or school-related activity if:

(1) the superintendent or the superintendent's designee has a reasonable belief that the student has engaged in conduct defined as a felony offense other than aggravated robbery under Section 29.03, Penal Code, or those offenses defined in Title 5, Penal Code; and

(2) the continued presence of the student in the regular classroom threatens the safety of other students or teachers or will be detrimental to the educational process.

(e) In determining whether there is a reasonable belief that a student has engaged in conduct defined as a felony offense by the Penal Code, the superintendent or the superintendent's designee may consider all available information, including the information furnished under Article 15.27, Code of Criminal Procedure, other than information requested under Article 15.27(k-1), Code of Criminal Procedure.

(f) Subject to Section 37.007(e), a student who is younger than 10 years of age shall be removed from class and placed in a disciplinary alternative education program under Section 37.008 if the student engages in conduct described by Section 37.007. An elementary school student may not be placed in a disciplinary alternative education program with any other student who is not an elementary school student.

(g) The terms of a placement under this section must prohibit the student from attending or participating in a school-sponsored or school-related activity.

(h) On receipt of notice under Article 15.27(g), Code of Criminal Procedure, the superintendent or the superintendent's designee shall review the student's placement in the disciplinary alternative education program. The student may not be returned to the regular classroom pending the review. The superintendent or the superintendent's designee shall schedule a review of the student's placement with the student's parent or guardian not later than the third class day after the superintendent or
superintendent's designee receives notice from the office or official designated by the court. After reviewing the notice and receiving information from the student's parent or guardian, the superintendent or the superintendent's designee may continue the student's placement in the disciplinary alternative education program if there is reason to believe that the presence of the student in the regular classroom threatens the safety of other students or teachers.

(i) The student or the student's parent or guardian may appeal the superintendent's decision under Subsection (h) to the board of trustees. The student may not be returned to the regular classroom pending the appeal. The board shall, at the next scheduled meeting, review the notice provided under Article 15.27(g), Code of Criminal Procedure, and receive information from the student, the student's parent or guardian, and the superintendent or superintendent's designee and confirm or reverse the decision under Subsection (h). The board shall make a record of the proceedings. If the board confirms the decision of the superintendent or superintendent's designee, the board shall inform the student and the student's parent or guardian of the right to appeal to the commissioner under Subsection (j).

(j) Notwithstanding Section 7.057(e), the decision of the board of trustees under Subsection (i) may be appealed to the commissioner as provided by Sections 7.057(b), (c), (d), and (f). The student may not be returned to the regular classroom pending the appeal.

(k) Subsections (h), (i), and (j) do not apply to placements made in accordance with Subsection (a).

(l) Notwithstanding any other provision of this code, other than Section 37.007(e)(2), a student who is younger than six years of age may not be removed from class and placed in a disciplinary alternative education program.

(m) Removal to a disciplinary alternative education program under Subsection (a) is not required if the student is expelled under Section 37.007 for the same conduct for which removal would be required.

(n) A principal or other appropriate administrator may but is not required to remove a student to a disciplinary alternative education program for off-campus conduct for which removal is required under this section if the principal or other appropriate administrator does not have knowledge of the conduct before the first anniversary of the date the conduct occurred.

(o) In addition to any notice required under Article 15.27, Code of Criminal Procedure, a principal or a principal's designee shall inform each educator who has responsibility for, or is under the direction and supervision of an educator who has responsibility for, the instruction of a student who has engaged in any violation listed in this section of the student's misconduct. Each educator shall keep the information received under this subsection confidential from any person not entitled to the information under this subsection, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law. The State Board for Educator Certification may revoke or suspend the certification of an educator who intentionally violates this subsection.

§ 37.0061. Funding for alternative education services in juvenile residential facilities.

A school district that provides education services to pre-adjudicated and post-adjudicated students who are confined by court order in a juvenile residential facility operated by a juvenile board is entitled to count such students in the district's average daily attendance for purposes of receipt of state funds under the Foundation School Program. If the district has a local revenue level greater than the guaranteed local revenue level but less than the level established under Section 48.257, the district in which the student is enrolled on the date a court orders the student to be confined to a juvenile residential facility shall transfer to the district providing education services an amount equal to the difference between the average Foundation School Program costs per student of the district providing education services and the sum of the state aid and the money from the available school fund received by the district that is attributable to the student for the portion of the school year for which the district provides education services to the student.
§ 37.007. Expulsion for serious offenses.

(c) A student may be expelled if the student, while placed in a disciplinary alternative education program, engages in documented serious misbehavior while on the program campus despite documented behavioral interventions. For purposes of this subsection, "serious misbehavior" means:

(1) deliberate violent behavior that poses a direct threat to the health or safety of others;
(2) extortion, meaning the gaining of money or other property by force or threat;
(3) conduct that constitutes coercion, as defined by Section 1.07, Penal Code; or
(4) conduct that constitutes the offense of:
   (A) public lewdness under Section 21.07, Penal Code;
   (B) indecent exposure under Section 21.08, Penal Code;
   (C) criminal mischief under Section 28.03, Penal Code;
   (D) personal hazing under Section 37.152; or
   (E) harassment under Section 42.07(a)(1), Penal Code, of a student or district employee.

(e) In accordance with 20 U.S.C. Section 7151, a local educational agency, including a school district, home-rule school district, or open-enrollment charter school, shall expel a student who brings a firearm, as defined by 18 U.S.C. Section 921, to school. The student must be expelled from the student's regular campus for a period of at least one year, except that:

(1) the superintendent or other chief administrative officer of the school district or of the other local educational agency, as defined by 20 U.S.C. Section 7801, may modify the length of the expulsion in the case of an individual student;
(2) the district or other local educational agency shall provide educational services to an expelled student in a disciplinary alternative education program as provided by Section 37.008 if the student is younger than 10 years of age on the date of expulsion; and
(3) the district or other local educational agency may provide educational services to an expelled student who is 10 years of age or older in a disciplinary alternative education program as provided in Section 37.008.

§ 37.008. Disciplinary alternative education programs.

(a) Each school district shall provide a disciplinary alternative education program that:

(1) is provided in a setting other than a student's regular classroom;
(2) is located on or off of a regular school campus;
(3) provides for the students who are assigned to the disciplinary alternative education program to be separated from students who are not assigned to the program;
(4) focuses on English language arts, mathematics, science, history, and self-discipline;
(5) provides for students' educational and behavioral needs;
(6) provides supervision and counseling; and
(7) employs only teachers who meet all certification requirements established under Subchapter B, Chapter 21.

(a-1) The agency shall adopt minimum standards for the operation of disciplinary alternative education programs, including standards relating to:

(1) student/teacher ratios;
(2) student health and safety;
(3) reporting of abuse, neglect, or exploitation of students;
(4) training for teachers in behavior management and safety procedures; and

(5) planning for a student's transition from a disciplinary alternative education program to a regular campus.

(a-2) [Expired pursuant to Acts 2007, 80th Leg., ch. 1171 (H.B. 426), § 1, effective January 15, 2009.]
(a-3) [Expired pursuant to Acts 2007, 80th Leg., ch. 1171 (H.B. 426), § 1, effective January 15, 2009.]

(b) A disciplinary alternative education program may provide for a student's transfer to:

(1) a different campus;

(2) a school-community guidance center; or

(3) a community-based alternative school.

(c) An off-campus disciplinary alternative education program is not subject to a requirement imposed by this title, other than a limitation on liability, a reporting requirement, or a requirement imposed by this chapter or by Chapter 39 or 39A.

(d) A school district may provide a disciplinary alternative education program jointly with one or more other districts.

(e) Each school district shall cooperate with government agencies and community organizations that provide services in the district to students placed in a disciplinary alternative education program.

(f) A student removed to a disciplinary alternative education program is counted in computing the average daily attendance of students in the district for the student's time in actual attendance in the program.

(g) A school district shall allocate to a disciplinary alternative education program the same expenditure per student attending the disciplinary alternative education program, including federal, state, and local funds, that would be allocated to the student's school if the student were attending the student's regularly assigned education program, including a special education program.

(h) A school district may not place a student, other than a student suspended as provided under Section 37.005 or expelled as provided under Section 37.007, in an unsupervised setting as a result of conduct for which a student may be placed in a disciplinary alternative education program.

(i) On request of a school district, a regional education service center may provide to the district information on developing a disciplinary alternative education program that takes into consideration the district's size, wealth, and existing facilities in determining the program best suited to the district.

(j) If a student placed in a disciplinary alternative education program enrolls in another school district before the expiration of the period of placement, the board of trustees of the district requiring the placement shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the placement order. The district in which the student enrolls shall inform each educator who will have responsibility for, or will be under the direction and supervision of an educator who will have responsibility for, the instruction of the student of the contents of the placement order. Each educator shall keep the information received under this subsection confidential from any person not entitled to the information under this subsection, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law. The district in which the student enrolls may continue the disciplinary alternative education program placement under the terms of the order or may allow the student to attend regular classes without completing the period of placement. A district may take any action permitted by this subsection if:

(1) the student was placed in a disciplinary alternative education program by an open-enrollment charter school under Section 12.131 and the charter school provides to the district a copy of the placement order; or

(2) the student was placed in a disciplinary alternative education program by a school district in another state and:
(A) the out-of-state district provides to the district a copy of the placement order; and
(B) the grounds for the placement by the out-of-state district are grounds for placement in the district in which the student is enrolling.

(j-1) If a student was placed in a disciplinary alternative education program by a school district in another state for a period that exceeds one year and a school district in this state in which the student enrolls continues the placement under Subsection (j), the district shall reduce the period of the placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or
(2) extended placement is in the best interest of the student.

(k) A program of educational and support services may be provided to a student and the student's parents when the offense involves drugs or alcohol as specified under Section 37.006 or 37.007. A disciplinary alternative education program that provides chemical dependency treatment services must be licensed under Chapter 464, Health and Safety Code.

(l) A school district is required to provide in the district's disciplinary alternative education program a course necessary to fulfill a student's high school graduation requirements only as provided by this subsection. A school district shall offer a student removed to a disciplinary alternative education program an opportunity to complete coursework before the beginning of the next school year. The school district may provide the student an opportunity to complete coursework through any method available, including a correspondence course, distance learning, or summer school. The district may not charge the student for a course provided under this subsection.

(l-1) A school district shall provide the parents of a student removed to a disciplinary alternative education program with written notice of the district's obligation under Subsection (l) to provide the student with an opportunity to complete coursework required for graduation. The notice must:

(1) include information regarding all methods available for completing the coursework; and
(2) state that the methods are available at no cost to the student.

(m) The commissioner shall adopt rules necessary to evaluate annually the performance of each district's disciplinary alternative education program established under this subchapter. The evaluation required by this section shall be based on indicators defined by the commissioner, but must include student performance on assessment instruments required under Sections 39.023(a) and (c). Academically, the mission of disciplinary alternative education programs shall be to enable students to perform at grade level.

(m-1) The commissioner shall develop a process for evaluating a school district disciplinary alternative education program electronically. The commissioner shall also develop a system and standards for review of the evaluation or use systems already available at the agency. The system must be designed to identify districts that are at high risk of having inaccurate disciplinary alternative education program data or of failing to comply with disciplinary alternative education program requirements. The commissioner shall notify the board of trustees of a district of any objection the commissioner has to the district's disciplinary alternative education program data or of a violation of a law or rule revealed by the data, including any violation of disciplinary alternative education program requirements, or of any recommendation by the commissioner concerning the data. If the data reflect that a penal law has been violated, the commissioner shall notify the county attorney, district attorney, or criminal district attorney, as appropriate, and the attorney general. The commissioner is entitled to access to all district records the commissioner considers necessary or appropriate for the review, analysis, or approval of disciplinary alternative education program data.
§ 37.0081. Expulsion and placement of certain students in alternative settings.

(a) Subject to Subsection (h), but notwithstanding any other provision of this subchapter, the board of trustees of a school district, or the board's designee, after an opportunity for a hearing may expel a student and elect to place the student in an alternative setting as provided by Subsection (a-1) if:

(1) the student:

   (A) has received deferred prosecution under Section 53.03, Family Code, for conduct defined as:

      (i) a felony offense in Title 5, Penal Code; or

      (ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;

   (B) has been found by a court or jury to have engaged in delinquent conduct under Section 54.03, Family Code, for conduct defined as:

      (i) a felony offense in Title 5, Penal Code; or

      (ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;

   (C) is charged with engaging in conduct defined as:

      (i) a felony offense in Title 5, Penal Code; or

      (ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;

   (D) has been referred to a juvenile court for allegedly engaging in delinquent conduct under Section 54.03, Family Code, for conduct defined as:

      (i) a felony offense in Title 5, Penal Code; or

      (ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;

   (E) has received probation or deferred adjudication for a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code;

   (F) has been convicted of a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code; or

   (G) has been arrested for or charged with a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code; and

(2) the board or the board's designee determines that the student's presence in the regular classroom:

   (A) threatens the safety of other students or teachers;

   (B) will be detrimental to the educational process; or

   (C) is not in the best interests of the district's students.

(a-1) The student must be placed in:

   (1) a juvenile justice alternative education program, if the school district is located in a county that operates a juvenile justice alternative education program or the school district contracts with the juvenile board of another county for the provision of a juvenile justice alternative education program; or

   (2) a disciplinary alternative education program.

(b) Any decision of the board of trustees or the board's designee under this section is final and may not be appealed.

(c) The board of trustees or the board's designee may expel the student and order placement in accordance with this section regardless of:

   (1) the date on which the student's conduct occurred;

   (2) the location at which the conduct occurred;

   (3) whether the conduct occurred while the student was enrolled in the district; or
(4) whether the student has successfully completed any court disposition requirements imposed in connection with the conduct.

(d) Notwithstanding Section 37.009(c) or (d) or any other provision of this subchapter, a student expelled and ordered placed in an alternative setting by the board of trustees or the board’s designee is subject to that placement until:

1. the student graduates from high school;
2. the charges described by Subsection (a)(1) are dismissed or reduced to a misdemeanor offense; or
3. the student completes the term of the placement or is assigned to another program.

(e) A student placed in an alternative setting in accordance with this section is entitled to the periodic review prescribed by Section 37.009(e).

(f) Subsection (d) continues to apply to the student if the student transfers to another school district in the state.

(g) The board of trustees shall reimburse a juvenile justice alternative education program in which a student is placed under this section for the actual cost incurred each day for the student while the student is enrolled in the program. For purposes of this subsection:

1. the actual cost incurred each day for the student is determined by the juvenile board of the county operating the program; and
2. the juvenile board shall determine the actual cost each day of the program based on the board's annual audit.

(h) To the extent of a conflict between this section and Section 37.007, Section 37.007 prevails.

§ 37.0082. Assessment of academic growth of students in disciplinary alternative education programs.

(a) To assess a student's academic growth during placement in a disciplinary alternative education program, a school district shall administer to a student placed in a program for a period of 90 school days or longer an assessment instrument approved by the commissioner for that purpose. The instrument shall be administered:

1. initially on placement of the student in the program; and
2. subsequently on the date of the student's departure from the program, or as near that date as possible.

(b) The assessment instrument required by this section:

1. must be designed to assess at least a student's basic skills in reading and mathematics;
2. may be:
   A. comparable to any assessment instrument generally administered to students placed in juvenile justice alternative education programs for a similar purpose; or
   B. based on an appropriate alternative assessment instrument developed by the agency to measure student academic growth; and
3. is in addition to the assessment instruments required to be administered under Chapter 39.

(c) The commissioner shall adopt rules necessary to implement this section.

§ 37.009. Conference; hearing; review.

(a) Not later than the third class day after the day on which a student is removed from class by the teacher under Section 37.002(b) or (d) or by the school principal or other appropriate administrator under Section 37.001(a)(2) or 37.006, the campus behavior coordinator or other appropriate administrator shall
schedule a conference among the campus behavior coordinator or other appropriate administrator, a parent or guardian of the student, the teacher removing the student from class, if any, and the student. At the conference, the student is entitled to written or oral notice of the reasons for the removal, an explanation of the basis for the removal, and an opportunity to respond to the reasons for the removal. The student may not be returned to the regular classroom pending the conference. Following the conference, and whether or not each requested person is in attendance after valid attempts to require the person's attendance, the campus behavior coordinator, after consideration of the factors under Section 37.001(a)(4), shall order the placement of the student for a period consistent with the student code of conduct. Before ordering the suspension, expulsion, removal to a disciplinary alternative education program, or placement in a juvenile justice alternative education program of a student, the behavior coordinator must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the behavior coordinator concerns a mandatory or discretionary action. If school district policy allows a student to appeal to the board of trustees or the board's designee a decision of the campus behavior coordinator or other appropriate administrator, other than an expulsion under Section 37.007, the decision of the board or the board's designee is final and may not be appealed. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that the student is a threat to the safety of other students or to district employees.

(b) If a student's placement in a disciplinary alternative education program is to extend beyond 60 days or the end of the next grading period, whichever is earlier, a student's parent or guardian is entitled to notice of and an opportunity to participate in a proceeding before the board of trustees of the school district or the board's designee, as provided by policy of the board of trustees of the district. Any decision of the board or the board's designee under this subsection is final and may not be appealed.

(c) Before it may place a student in a disciplinary alternative education program for a period that extends beyond the end of the school year, the board or the board's designee must determine that:

(1) the student's presence in the regular classroom program or at the student's regular campus presents a danger of physical harm to the student or to another individual; or

(2) the student has engaged in serious or persistent misbehavior that violates the district's student code of conduct.

(d) The board or the board's designee shall set a term for a student's placement in a disciplinary alternative education program. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student.

(e) A student placed in a disciplinary alternative education program shall be provided a review of the student's status, including a review of the student's academic status, by the board's designee at intervals not to exceed 120 days. In the case of a high school student, the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The district is not required under this subsection to provide a course in the district's disciplinary alternative education program except as required by Section 37.008(l). At the review, the student or the student's parent or guardian must be given the opportunity to present arguments for the student's return to the regular classroom or campus.
The student may not be returned to the classroom of the teacher who removed the student without that teacher's consent. The teacher may not be coerced to consent.

(f) Before a student may be expelled under Section 37.007, the board or the board's designee must provide the student a hearing at which the student is afforded appropriate due process as required by the federal constitution and which the student's parent or guardian is invited, in writing, to attend. At the hearing, the student is entitled to be represented by the student's parent or guardian or another adult who can provide guidance to the student and who is not an employee of the school district. If the school district makes a good-faith effort to inform the student and the student's parent or guardian of the time and place of the hearing, the district may hold the hearing regardless of whether the student, the student's parent or guardian, or another adult representing the student attends. Before ordering the expulsion of a student, the board of trustees must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the board concerns a mandatory or discretionary action. If the decision to expel a student is made by the board's designee, the decision may be appealed to the board. The decision of the board may be appealed by trial de novo to a district court of the county in which the school district's central administrative office is located.

(g) The board or the board's designee shall deliver to the student and the student's parent or guardian a copy of the order placing the student in a disciplinary alternative education program under Section 37.001, 37.002, or 37.006 or expelling the student under Section 37.007.

(h) If the period of an expulsion is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of an expulsion may not exceed one year unless, after a review, the district determines that:

1. the student is a threat to the safety of other students or to district employees; or
2. extended placement is in the best interest of the student. After a school district notifies the parents or guardians of a student that the student has been expelled, the parent or guardian shall provide adequate supervision of the student during the period of expulsion.

(i) If a student withdraws from the district before an order for placement in a disciplinary alternative education program or expulsion is entered under this section, the principal or board, as appropriate, may complete the proceedings and enter an order. If the student subsequently enrolls in the district during the same or subsequent school year, the district may enforce the order at that time except for any period of the placement or expulsion that has been served by the student on enrollment in another district that honored the order. If the principal or board fails to enter an order after the student withdraws, the next district in which the student enrolls may complete the proceedings and enter an order.

(j) If, during the term of a placement or expulsion ordered under this section, a student engages in additional conduct for which placement in a disciplinary alternative education program or expulsion is required or permitted, additional proceedings may be conducted under this section regarding that conduct and the principal or board, as appropriate, may enter an additional order as a result of those proceedings.

§ 37.010. Court involvement.

(a) Not later than the second business day after the date a hearing is held under Section 37.009, the board of trustees of a school district or the board's designee shall deliver a copy of the order placing a student in a disciplinary alternative education program under Section 37.006 or expelling a student under Section 37.007 and any information required under Section 52.04, Family Code, to the authorized officer of the juvenile court in the county in which the student resides. In a county that operates a program under Section 37.011, an expelled student shall to the extent provided by law or by the memorandum of understanding immediately attend the educational program from the date of expulsion, except that in a
county with a population greater than 125,000, every expelled student who is not detained or receiving treatment under an order of the juvenile court must be enrolled in an educational program.

(b) If a student is expelled under Section 37.007(c), the board or its designee shall refer the student to the authorized officer of the juvenile court for appropriate proceedings under Title 3, Family Code.

(c) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding with the district's board of trustees concerning the juvenile probation department's role in supervising and providing other support services for students in disciplinary alternative education programs, a court may not order a student expelled under Section 37.007 to attend a regular classroom, a regular campus, or a school district disciplinary alternative education program as a condition of probation.

(d) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding as described by Subsection (c), if a court orders a student to attend a disciplinary alternative education program as a condition of probation once during a school year and the student is referred to juvenile court again during that school year, the juvenile court may not order the student to attend a disciplinary alternative education program in a district without the district's consent until the student has successfully completed any sentencing requirements the court imposes.

(e) Any placement in a disciplinary alternative education program by a court under this section must prohibit the student from attending or participating in school-sponsored or school-related activities.

(f) If a student is expelled under Section 37.007, on the recommendation of the committee established under Section 37.003 or on its own initiative, a district may readmit the student while the student is completing any court disposition requirements the court imposes. After the student has successfully completed any court disposition requirements the court imposes, including conditions of a deferred prosecution ordered by the court, or such conditions required by the prosecutor or probation department, if the student meets the requirements for admission into the public schools established by this title, a district may not refuse to admit the student, but the district may place the student in the disciplinary alternative education program. Notwithstanding Section 37.002(d), the student may not be returned to the classroom of the teacher under whose supervision the offense occurred without that teacher's consent. The teacher may not be coerced to consent.

(g) If an expelled student enrolls in another school district, the board of trustees of the district that expelled the student shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the expulsion order and the referral to the authorized officer of the juvenile court. The district in which the student enrolls may continue the expulsion under the terms of the order, may place the student in a disciplinary alternative education program for the period specified by the expulsion order, or may allow the student to attend regular classes without completing the period of expulsion. A district may take any action permitted by this subsection if the student was expelled by a school district in another state if:

(1) the out-of-state district provides to the district a copy of the expulsion order; and

(2) the grounds for the expulsion are also grounds for expulsion in the district in which the student is enrolling.

(g-1) If a student was expelled by a school district in another state for a period that exceeds one year and a school district in this state continues the expulsion or places the student in a disciplinary alternative education program under Subsection (g), the district shall reduce the period of the expulsion or placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student.
(h) A person is not liable in civil damages for a referral to juvenile court as required by this section.

§ 37.011. Juvenile justice alternative education program.

(a) The juvenile board of a county with a population greater than 125,000 shall develop a juvenile justice alternative education program, subject to the approval of the Texas Juvenile Justice Department. The juvenile board of a county with a population of 125,000 or less may develop a juvenile justice alternative education program. For the purposes of this subchapter, only a disciplinary alternative education program operated under the authority of a juvenile board of a county is considered a juvenile justice alternative education program. A juvenile justice alternative education program in a county with a population of 125,000 or less:

(1) is not required to be approved by the department; and
(2) is not subject to Subsection (c), (d), (f), or (g).

(a-1) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000 is considered to be a county with a population of 125,000 or less if:

(1) the county had a population of 125,000 or less according to the 2000 federal census; and
(2) the juvenile board of the county enters into, with the approval of the Texas Juvenile Justice Department, a memorandum of understanding with each school district within the county that:

(A) outlines the responsibilities of the board and school districts in minimizing the number of students expelled without receiving alternative educational services; and
(B) includes the coordination procedures required by Section 37.013.

(a-2) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000 is considered to be a county with a population of 125,000 or less if the county:

(1) has a population of 180,000 or less; and
(2) has a population of more than 1.7 million; and
(3) has seven or more school districts located wholly within the county's boundaries.

(a-3) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000 is considered to be a county with a population of 125,000 or less if the county:

(1) has a population of more than 200,000 and less than 220,000; and
(2) has five or more school districts located wholly within the county's boundaries; and
(3) has located in the county a juvenile justice alternative education program that, on May 1, 2011, served fewer than 15 students.

(a-4) A school district located in a county considered to be a county with a population of 125,000 or less under Subsection (a-3) shall provide educational services to a student who is expelled from school under this chapter. The district is entitled to count the student in the district's average daily attendance for purposes of receipt of state funds under the Foundation School Program. An educational placement under this section may include:

(1) the district's disciplinary alternative education program; or
(2) a contracted placement with:

(A) another school district;
(B) an open-enrollment charter school;
(C) an institution of higher education;
(D) an adult literacy council; or
(E) a community organization that can provide an educational program that allows the student to complete the credits required for high school graduation.
(a-5) For purposes of Subsection (a-4), an educational placement other than a school district's disciplinary alternative education program is subject to the educational and certification requirements applicable to an open-enrollment charter school under Subchapter D, Chapter 12.

(b) If a student admitted into the public schools of a school district under Section 25.001(b) is expelled from school for conduct for which expulsion is required under Section 37.007(a), (d), or (e), or for conduct that contains the elements of the offense of terroristic threat as described by Section 22.07(c-1), (d), or (e), Penal Code, the juvenile court, the juvenile board, or the juvenile board's designee, as appropriate, shall:

1. if the student is placed on probation under Section 54.04, Family Code, order the student to attend the juvenile justice alternative education program in the county in which the student resides from the date of disposition as a condition of probation, unless the child is placed in a post-adjudication treatment facility;

2. if the student is placed on deferred prosecution under Section 53.03, Family Code, by the court, prosecutor, or probation department, require the student to immediately attend the juvenile justice alternative education program in the county in which the student resides for a period not to exceed six months as a condition of the deferred prosecution;

3. in determining the conditions of the deferred prosecution or court-ordered probation, consider the length of the school district's expulsion order for the student; and

4. provide timely educational services to the student in the juvenile justice alternative education program in the county in which the student resides, regardless of the student's age or whether the juvenile court has jurisdiction over the student.

(b-1) Subsection (b)(4) does not require that educational services be provided to a student who is not entitled to admission into the public schools of a school district under Section 25.001(b).

(c) A juvenile justice alternative education program shall adopt a student code of conduct in accordance with Section 37.001.

(d) A juvenile justice alternative education program must focus on English language arts, mathematics, science, social studies, and self-discipline. Each school district shall consider course credit earned by a student while in a juvenile justice alternative education program as credit earned in a district school. Each program shall administer assessment instruments under Subchapter B, Chapter 39, and shall offer a high school equivalency program. The juvenile board or the board's designee, with the parent or guardian of each student, shall regularly review the student's academic progress. In the case of a high school student, the board or the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The program is not required to provide a course necessary to fulfill a student's high school graduation requirements other than a course specified by this subsection.

(e) A juvenile justice alternative education program may be provided in a facility owned by a school district. A school district may provide personnel and services for a juvenile justice alternative education program under a contract with the juvenile board.

(f) A juvenile justice alternative education program must operate at least seven hours per day and 180 days per year, except that a program may apply to the Texas Juvenile Justice Department for a waiver of the 180-day requirement. The department may not grant a waiver to a program under this subsection for a number of days that exceeds the highest number of instructional days waived by the commissioner during the same school year for a school district served by the program.

(g) A juvenile justice alternative education program shall be subject to a written operating policy developed by the local juvenile justice board and submitted to the Texas Juvenile Justice Department for review and comment. A juvenile justice alternative education program is not subject to a requirement imposed by this title, other than a reporting requirement or a requirement imposed by this chapter or by Chapter 39 or 39A.
(h) Academically, the mission of juvenile justice alternative education programs shall be to enable students to perform at grade level. For purposes of accountability under Chapters 39 and 39A, a student enrolled in a juvenile justice alternative education program is reported as if the student were enrolled at the student's assigned campus in the student's regularly assigned education program, including a special education program. Annually the Texas Juvenile Justice Department, with the agreement of the commissioner, shall develop and implement a system of accountability consistent with Chapters 39 and 39A, where appropriate, to assure that students make progress toward grade level while attending a juvenile justice alternative education program. The department shall adopt rules for the distribution of funds appropriated under this section to juvenile boards in counties required to establish juvenile justice alternative education programs. Except as determined by the commissioner, a student served by a juvenile justice alternative education program on the basis of an expulsion required under Section 37.007(a), (d), or (e) is not eligible for Foundation School Program funding under Chapter 31 or 48 if the juvenile justice alternative education program receives funding from the department under this subchapter.

(i) A student transferred to a juvenile justice alternative education program must participate in the program for the full period ordered by the juvenile court unless the student's school district agrees to accept the student before the date ordered by the juvenile court. The juvenile court may not order a period of transfer under this section that exceeds the term of any probation ordered by the juvenile court.

(j) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's professional employees and volunteers are immune from liability to the same extent as a school district's professional employees and volunteers.

(k) Each school district in a county with a population greater than 125,000 and the county juvenile board shall annually enter into a joint memorandum of understanding that:

1. outlines the responsibilities of the juvenile board concerning the establishment and operation of a juvenile justice alternative education program under this section;
2. defines the amount and conditions on payments from the school district to the juvenile board for students of the school district served in the juvenile justice alternative education program whose placement was not made on the basis of an expulsion required under Section 37.007(a), (d), or (e);
3. establishes that a student may be placed in the juvenile justice alternative education program if the student engages in serious misbehavior, as defined by Section 37.007(c);
4. identifies and requires a timely placement and specifies a term of placement for expelled students for whom the school district has received a notice under Section 52.041(d), Family Code;
5. establishes services for the transitioning of expelled students to the school district prior to the completion of the student's placement in the juvenile justice alternative education program;
6. establishes a plan that provides transportation services for students placed in the juvenile justice alternative education program;
7. establishes the circumstances and conditions under which a juvenile may be allowed to remain in the juvenile justice alternative education program setting once the juvenile is no longer under juvenile court jurisdiction; and
8. establishes a plan to address special education services required by law.

(l) The school district shall be responsible for providing an immediate educational program to students who engage in behavior resulting in expulsion under Section 37.007(b) and (f) but who are not eligible for admission into the juvenile justice alternative education program in accordance with the memorandum of understanding required under this section. The school district may provide the program or the school district may contract with a county juvenile board, a private provider, or one or more other school districts to provide the program. The memorandum of understanding shall address the circumstances under which
such students who continue to engage in serious misbehavior, as defined by Section 37.007(c), shall be admitted into the juvenile justice alternative education program.

(m) Each school district in a county with a population greater than 125,000 and the county juvenile board shall adopt a joint memorandum of understanding as required by this section not later than September 1 of each school year.

(n) If a student who is ordered to attend a juvenile justice alternative education program moves from one county to another, the juvenile court may request the juvenile justice alternative education program in the county to which the student moves to provide educational services to the student in accordance with the local memorandum of understanding between the school district and juvenile board in the receiving county.

(o) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's employees and volunteers are immune from liability to the same extent as a school district's employees and volunteers.

(p) If a district elects to contract with the juvenile board for placement in the juvenile justice alternative education program of students expelled under Section 37.007(b), (c), and (f) and the juvenile board and district are unable to reach an agreement in the memorandum of understanding, either party may request that the issues of dispute be referred to a binding arbitration process that uses a qualified alternative dispute resolution arbitrator in which each party will pay its pro rata share of the arbitration costs. Each party must submit its final proposal to the arbitrator. If the parties cannot agree on an arbitrator, the juvenile board shall select an arbitrator, the school districts shall select an arbitrator, and those two arbitrators shall select an arbitrator who will decide the issues in dispute. An arbitration decision issued under this subsection is enforceable in a court in the county in which the juvenile justice alternative education program is located. Any decision by an arbitrator concerning the amount of the funding for a student who is expelled and attending a juvenile justice alternative education program must provide an amount sufficient based on operation of the juvenile justice alternative education program in accordance with this chapter. In determining the amount to be paid by a school district for an expelled student enrolled in a juvenile justice alternative education program, the arbitrator shall consider the relevant factors, including evidence of:

1. the actual average total per student expenditure in the district's alternative education setting;
2. the expected per student cost in the juvenile justice alternative education program as described and agreed on in the memorandum of understanding and in compliance with this chapter; and
3. the costs necessary to achieve the accountability goals under this chapter.

(q) In accordance with rules adopted by the board of trustees for the Teacher Retirement System of Texas, a certified educator employed by a juvenile board in a juvenile justice alternative education program shall be eligible for membership and participation in the system to the same extent that an employee of a public school district is eligible. The juvenile board shall make any contribution that otherwise would be the responsibility of the school district if the person were employed by the school district, and the state shall make any contribution to the same extent as if the person were employed by a school district.

§ 37.012. Funding of juvenile justice alternative education programs.

(a) Subject to Section 37.011(n), the school district in which a student is enrolled on the date the student is expelled for conduct for which expulsion is permitted but not required under Section 37.007 shall, if the student is served by the juvenile justice alternative education program, provide funding to the juvenile board for the portion of the school year for which the juvenile justice alternative education program provides educational services in an amount determined by the memorandum of understanding under Section 37.011(k)(2).
(b) Funds received under this section must be expended on juvenile justice alternative education programs.

(c) The Office of State-Federal Relations shall assist a local juvenile probation department in identifying additional state or federal funds to assist local juvenile probation departments conducting educational or job training programs within juvenile justice alternative education programs.

(d) A school district is not required to provide funding to a juvenile board for a student who is assigned by a court to a juvenile justice alternative education program but who has not been expelled.

(e) Except as otherwise authorized by law, a juvenile justice alternative education program may not require a student or the parent or guardian of a student to pay any fee, including an entrance fee or supply fee, for participating in the program.

§ 37.019. Emergency placement or expulsion.

(a) This subchapter does not prevent the principal or the principal's designee from ordering the immediate placement of a student in a disciplinary alternative education program if the principal or the principal's designee reasonably believes the student's behavior is so unruly, disruptive, or abusive that it seriously interferes with a teacher's ability to communicate effectively with the students in a class, with the ability of the student's classmates to learn, or with the operation of school or a school-sponsored activity.

(b) This subchapter does not prevent the principal or the principal's designee from ordering the immediate expulsion of a student if the principal or the principal's designee reasonably believes that action is necessary to protect persons or property from imminent harm.

(c) At the time of an emergency placement or expulsion, the student shall be given oral notice of the reason for the action. The reason must be a reason for which placement in a disciplinary alternative education program or expulsion may be made on a nonemergency basis. Within a reasonable time after the emergency placement or expulsion, but not later than the 10th day after the date of the placement or expulsion, the student shall be accorded the appropriate due process as required under Section 37.009. If the student subject to the emergency placement or expulsion is a student with disabilities who receives special education services, the emergency placement or expulsion is subject to federal law and regulations and must be consistent with the consequences that would apply under this subchapter to a student without a disability.

(d) A principal or principal's designee is not liable in civil damages for an emergency placement under this section.

§ 37.021. Opportunity to complete courses during in-school and certain other placements.

(a) If a school district removes a student from the regular classroom and places the student in in-school suspension or another setting other than a disciplinary alternative education program, the district shall offer the student the opportunity to complete before the beginning of the next school year each course in which the student was enrolled at the time of the removal.

(b) The district may provide the opportunity to complete courses by any method available, including a correspondence course, distance learning, or summer school.

§ 37.022. Notice of disciplinary action.

(a) In this section:

(1) "Disciplinary action" means a suspension, expulsion, placement in an alternative education program, or other limitation in enrollment eligibility of a student by a district or school.

(2) "District or school" includes an independent school district, a home-rule school district, a campus or campus program charter holder, or an open-enrollment charter school.

(b) If a district or school takes disciplinary action against a student and the student subsequently enrolls in another district or school before the expiration of the period of disciplinary action, the governing body of the district or school taking the disciplinary action shall provide to the district or school in which the
§ 37.023. Transition from alternative education program to regular classroom.

(B) a juvenile justice alternative education program; and

(C) a residential program or facility operated by or under contract with the Texas Juvenile Justice Department, a juvenile board, or any other governmental entity.

(2) "Licensed clinical social worker" has the meaning assigned by Section 505.002, Occupations Code.

(b) As soon as practicable after an alternative education program determines the date of a student's release from the program, the alternative education program administrator shall:

(1) provide written notice of that date to:

(A) the student's parent or a person standing in parental relation to the student; and

(B) the administrator of the campus to which the student intends to transition; and

(2) provide the campus administrator:

(A) an assessment of the student's academic growth while attending the alternative education program; and

(B) the results of any assessment instruments administered to the student.

(c) Not later than five instructional days after the date of a student's release from an alternative education program, the campus administrator shall coordinate the student's transition to a regular classroom. The coordination must include assistance and recommendations from:

(1) school counselors;

(2) school district peace officers;

(3) school resource officers;

(4) licensed clinical social workers;

(5) campus behavior coordinators;

(6) classroom teachers who are or may be responsible for implementing the student's personalized transition plan developed under Subsection (d); and

(7) any other appropriate school district personnel.

§ 37.115. Threat assessment and safe and supportive school program and team.

(a) In this section:

(1) "Harmful, threatening, or violent behavior" includes behaviors, such as verbal threats, threats of self harm, bullying, cyberbullying, fighting, the use or possession of a weapon, sexual assault, sexual harassment, dating violence, stalking, or assault, by a student that could result in:

(A) specific interventions, including mental health or behavioral supports;

(B) in-school suspension;

(C) out-of-school suspension; or

student enrolls, at the same time other records of the student are provided, a copy of the order of disciplinary action.

(c) Subject to Section 37.007(e), the district or school in which the student enrolls may continue the disciplinary action under the terms of the order or may allow the student to attend regular classes without completing the period of disciplinary action.
(D) the student's expulsion or removal to a disciplinary alternative education program or a juvenile justice alternative education program. [...]

(k) A team must report to the agency in accordance with guidelines developed by the agency the following information regarding the team's activities and other information for each school district campus the team serves:

(4) the total number, disaggregated by student gender, race, and status as receiving special education services, being at risk of dropping out of school, being in foster care, experiencing homelessness, being a dependent of military personnel, being pregnant or a parent, having limited English proficiency, or being a migratory child, of, in connection with an assessment or reported threat by the team:

(D) changes in school placement, including placement in a juvenile justice alternative education program or disciplinary alternative education program.

§ 37.121. Fraternities, sororities, secret societies, and gangs.

(a) A person commits an offense if the person:

(2) is not enrolled in a public school and solicits another person to attend a meeting of a public school fraternity, sorority, secret society, or gang or a meeting at which membership in one of those groups is encouraged.

(b) A school district board of trustees or an educator shall recommend placing in a disciplinary alternative education program any student under the person's control who violates Subsection (a).

(c) An offense under this section is a Class C misdemeanor.

(d) In this section, "public school fraternity, sorority, secret society, or gang" means an organization composed wholly or in part of students of public primary or secondary schools that seeks to perpetuate itself by taking in additional members from the students enrolled in school on the basis of the decision of its membership rather than on the free choice of a student in the school who is qualified by the rules of the school to fill the special aims of the organization. The term does not include an agency for public welfare, including Boy Scouts, Hi-Y, Girl Reserves, DeMolay, Rainbow Girls, Pan-American Clubs, scholarship societies, or other similar educational organizations sponsored by state or national education authorities.

LAWS

§ 37.001. Student code of conduct.
(a) The board of trustees of an independent school district shall, with the advice of its district-level committee established under Subchapter F, Chapter 11, adopt a student code of conduct for the district. The student code of conduct must be posted and prominently displayed at each school campus or made available for review at the office of the campus principal. In addition to establishing standards for student conduct, the student code of conduct must:

(7) prohibit bullying, harassment, and making hit lists and ensure that district employees enforce those prohibitions.
(8) provide, as appropriate for students at each grade level, methods, including options, for:

(C) preventing and intervening in student discipline problems, including bullying, harassment, and making hit lists. [...] (b) In this section:

   (4) being the principal income earner for the student's family.

(a-4) If a student fails to attend school without excuse on three or more days or parts of days within a four-week period but does not fail to attend school for the time described by Section 25.0951(a), the school district shall initiate truancy prevention measures under this section on the student.

At least annually, the truancy prevention facilitator shall meet to discuss effective truancy prevention measures with a case manager or other individual designated by a truancy court to provide services to students of the school district in truancy cases.

      (B) the student is subject to truancy prevention measures under Section 25.0915; and
   (2) request a conference between school officials and the parent to discuss the absences.

(d) In this section, "parent" includes a person standing in parental relation.

§ 25.0951. School district complaint or referral for failure to attend school.

(b) If a student fails to attend school without excuse as specified by Subsection (a), a school district may file a complaint against the student's parent in a county, justice, or municipal court for an offense under Section 25.093 if the school district provides evidence of the parent's criminal negligence.    (4) is otherwise substantively defective.

(d) Notwithstanding Subsection (a), a school district may delay a referral of a student for truant conduct, or may choose to not refer a student for truant conduct, if the school district:
(1) is applying truancy prevention measures to the student under Section 25.0915; and
(2) determines that the truancy prevention measures are succeeding and it is in the best interest of the student that a referral be delayed or not be made.

REGULATIONS

19 TAC 129.21. Requirements for student attendance accounting for state funding purposes.

(h) Attendance for all grades must be determined by the absences recorded at the official attendance-taking time during the campus’s instructional day, unless the local school board adopts a district policy, or delegates to the superintendent the authority to establish procedures, for recording absences in an alternative hour, or unless the students for which attendance is being taken are enrolled in and participating in an alternative attendance accounting program approved by the commissioner.

(1) Students enrolled on a half-day basis may earn only one half day of attendance each school day. Attendance is determined for these pupils by recording absences in a period during the half day that they are scheduled to be present. Students enrolled on a full-day basis may earn one full day of attendance each school day.

(2) Students who are enrolled in and participating in an alternative attendance accounting program approved by the commissioner will earn attendance according to the statutory and rule provisions applicable to that program.

(3) The established period in which absences are recorded may not be changed during the school year.

(4) Students absent at the time the attendance roll is taken, during the daily period selected, are counted absent for the entire day, unless the students are enrolled in and participating in an alternative attendance accounting program approved by the commissioner. Students present at the time the attendance roll is taken, during the daily period selected, are counted present for the entire day, unless the students are enrolled in and participating in an alternative attendance accounting program approved by the commissioner.

19 TAC 129.1049. Truancy reporting requirements.

Each school district and open-enrollment charter school shall report truancy data annually through the Texas Student Data System Public Education Information Management System to include:

(1) the number of children who are required to attend school under TEC, § 25.085, are not exempted under TEC, § 25.086, and fail to attend school without excuse for 10 or more days or parts of days within a 6-month period in the same school year;

(2) the number of students for whom the district initiates a truancy prevention measure under TEC, § 25.0915(a-4); and

(3) the number of parents of students against whom an attendance officer or other appropriate school official has filed a complaint under TEC, § 25.093.

The minimum standards for the truancy prevention measure(s) implemented by a school district under Texas Education Code, § 25.0915, include:

(1) identifying the root cause of the student's unexcused absences and actions to address each cause;

(2) maintaining ongoing communication with students and parents on the actions to be taken to improve attendance;

(3) establishing reasonable timelines for completion of the truancy prevention measure; and
(4) establishing procedures to notify the admission, review, and dismissal committee or the Section 504 committee of attendance issues relating to a student with a disability and ensure that the committee considers whether the student’s attendance issues warrant an evaluation, a reevaluation, and/or modifications to the student’s individualized education program or Section 504 plan, as appropriate.

19 TAC 129.1045. Best practices.

(a) A school district shall consider the following best practices for truancy prevention measures.

(1) Develop an attendance policy that clearly outlines requirements related to truancy in accordance with Texas Education Code (TEC), Chapter 25, Subchapter C, and communicate this information to parents at the beginning of the school year.

(2) Create a culture of attendance that includes training staff to talk meaningfully with students and parents about the attendance policy and the root causes of unexcused absences.

(3) Create incentives for perfect attendance and improved attendance.

(4) Educate students and their families on the positive impact of school attendance on performance.

(5) Provide opportunities for students and parents to address causes of absence and/or truancy with district staff and link families to relevant community programs and support.

(6) Develop collaborative partnerships, including planning, referral, and cross-training opportunities, between appropriate school staff, attendance officers, program-related liaisons, and external partners such as court representatives, community and faith-based organizations, state or locally funded community programs for truancy intervention or prevention, and law enforcement to assist students.

(7) Determine root causes of unexcused absences and review campus- and district-level data on unexcused absences to identify systemic issues that affect attendance.

(8) Use existing school programs such as Communities In Schools, 21st Century Community Learning Centers, Restorative Discipline, and Positive Behavior Interventions and Supports (PBIS) to provide students and their parents with services.

(9) At the beginning of each school year, conduct a needs assessment and identify and list, or map, services and programs available within the school district and the community that a school, a student, or a student’s parent or guardian may access to address the student’s barriers to attendance and make the information available to staff, students, and parents. The information must include, but is not limited to:

(A) services for pregnant and parenting students;
(B) services for students experiencing homelessness;
(C) services for students in foster care;
(D) federal programs including, but not limited to, Title 1, Part A, of the Elementary and Secondary Education Act;

(M) juvenile justice services and programs;
(N) child welfare services and programs;
(O) other state or locally funded programs for truancy prevention and intervention; and
(P) other supportive services that are locally available for students and families through faith-based
organizations, local governments, and community-based organizations.

(10) After identifying and listing, or mapping, services available in the district and community, school
districts should target any new resources, programs, or services to gaps in services identified during the
needs assessment.

(11) School districts should ensure that personnel, including truancy prevention facilitators or juvenile
case managers, attendance officers, McKinney-Vento liaisons, foster care liaisons, Title IX coordinators,
504 coordinators, pregnancy and parenting coordinators, dropout prevention coordinators, special
education staff, and other appropriate student services personnel, meet to contribute to the needs
assessment, discuss opportunities to work together, and identify strategies to coordinate both internally
and externally to address students' attendance barriers.

(b) In determining services offered to students identified in TEC, § 25.0915(a-3), a school district shall
consider:
(1) offering an optional flexible school day program and evening and online alternatives;
(2) working with businesses that employ students to help students coordinate job and school
responsibilities; and
(3) offering before school, after school, and/or Saturday prevention or intervention programs or services
that implement best and promising practices.

19 TAC 129.1047. Sanctions.

(a) An aggrieved party may file a written complaint with the Texas Education Agency (TEA) regarding an
allegation that a school district has failed to comply with the provisions set forth in Texas Education Code
(TEC), § 25.0915, or this subchapter related to truancy prevention measures.

(b) TEA may request that a school district provide documentation regarding its compliance with required
truancy prevention measures in response to a complaint filed with the TEA. If, after a review of this
documentation or a school district's failure to provide this documentation, TEA determines that the school
district is not in compliance with required truancy prevention measure provisions, TEA may issue a
preliminary report of its findings to the school district in accordance with § 157.1122 of this title (relating to
Notice).

(c) A school district may request in writing an informal review of TEA's preliminary report of findings in
accordance with § 157.1123 of this title (relating to Informal Review). Following the informal review, or if
no informal review is requested by the deadline, a final report will be issued.

(d) The commissioner of education may implement any sanction listed in TEC, § 39.102(a), against a
school district found to be out of compliance with TEC, § 25.0915, or this subchapter.
