**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

REGULATIONS

6.11.2.8 General provisions.
A. Jurisdiction over students. All officials, employees and authorized agents of the public schools whose responsibilities include supervision of students shall have comprehensive authority within constitutional bounds to maintain order and discipline in school. In exercising this authority, such officials, employees and authorized agents of the public schools may exercise such powers of control, supervision, and correction over students as may be reasonably necessary to enable them to properly perform their duties and accomplish the purposes of education. This authority applies whenever students are lawfully subject to the schools' control, regardless of place. During such periods, public school authorities shall have the right to supervise and control the conduct of students, and students shall have the duty to submit to the schools' authority. The foregoing is intended to reflect the common law regarding the rights, duties and liabilities of public school authorities in supervising, controlling and disciplining students. Nothing herein shall be construed as enlarging the liability of public school authorities beyond that imposed by statute, common law or public education department rule.

B. School authority over non-students. In furtherance of the state's compelling interest in the orderly operation of the public schools and school activities, school officials have the following forms of authority over non-students whose actions adversely affect school operations or activities.

(1) On school property: Local school boards may prohibit entry to and provide for the removal from any public school building or grounds of any person who refuses to identify him/herself and state a lawful purpose for entering. Any person who refuses may be removed by school authorities, who may use reasonable physical force to accomplish the removal. Alternately, a person who refuses and who then refuses a lawful request to leave school premises may be subject to arrest by law officers for criminal offenses including but not limited to criminal trespass, interference with the educational process or disorderly conduct. A person who does identify him/herself and states a lawful purpose may nevertheless be subject to removal by school officials for engaging in activities prohibited by this rule. The person may also be subject to arrest by law officers if (s)he is committing any crime.

(2) Off school property: Public school authorities have indirect and limited authority over the activities of non-students off school property. To the extent that non-students' conduct at or near schools or school-sponsored activities may constitute a criminal offense, including the crimes of interference with the educational process, disorderly conduct or criminal trespass (after refusing a lawful request to leave), school authorities may request law enforcement agencies to arrest the offenders.

C. Statement of policy. A primary responsibility of the New Mexico public schools and their professional staffs shall be to instill in students an appreciation of our representative form of government, the rights and responsibilities of the individual or group and the legal processes whereby necessary changes are effected.

(1) The school is a community and the rules and regulations of a school are the laws of that community. All persons enjoying the rights of citizenship are subject to the laws of their community. Each carries with it a corresponding obligation.
(2) The right to attend public school is not absolute. It is conditioned on each student's acceptance of the obligation to abide by the lawful rules of the school community until and unless the rules are changed through lawful processes.

(3) Teachers, administrators and other school employees also have rights and duties. Teachers are required by law to maintain a suitable environment for teaching in their classes and to assist in maintaining school order and discipline. Administrators are responsible for maintaining and facilitating the educational program by ensuring an orderly, safe environment in the public schools. In discharging their duties, all school employees have the right to be free from intimidation or abuse and to have their lawful requests and instructions followed.

(4) Nothing in this rule shall be held to affect the due process rights of school employees or their use of any local school district grievance procedure. This rule does not address employment disputes.

D. Local school board authority: Local school boards have both the authority and the responsibility to ensure that suitable rules of student conduct and appropriate disciplinary processes are established within their school districts. Within legal limits as defined in Subsection L. of 6.11.2.7 NMAC above, and subject to the minimums prescribed in this rule, local boards have discretion to develop such rules, regulations, policies and procedures as they deem appropriate to local conditions, including policies which afford students more protection than the minimums established here. Local school boards and administrative authorities which deem it appropriate may provide for student, community or appropriate state and local agency participation in the formulation and enforcement of school rules.

E. Severability: Any part of this rule found by adjudication before a competent tribunal to be contrary to law shall be stricken without effect to the remainder.

Each local school board or governing body shall establish a tobacco, alcohol and drug free school policy:

A. The policy shall provide specific rules of conduct prohibiting the use, possession and distribution of tobacco products, e-cigarettes and nicotine liquid containers, alcoholic beverages, mood-altering substances and illicit drugs in school buildings, on school premises and by students at school-sponsored activities away from school grounds.

B. Each school district and state-chartered charter school shall detail the prohibited acts and activities under the policy, and shall establish adequate provisions for its enforcement, including the enumeration of possible sanctions or disciplinary action, consistent with applicable statutory and case law.

C. The policy shall provide that no school employee who in good faith reports any known or suspected use, possession or distribution of alcoholic beverages, mood-altering substances or illicit drugs shall be held liable for any civil damages as a result of such report or efforts to enforce the policy.

D. Each school district and state-chartered charter school shall develop and implement a procedure for effectively communicating the policy to students, their parents and families, school personnel, visitors on school premises, and to local residents, groups, businesses and organizations served by the school.

E. Each school district and state-chartered charter school shall post conspicuous notices on all school premises prohibiting the use, possession and distribution of tobacco products, e-cigarettes and nicotine liquid containers, alcoholic beverages, mood-altering substances and illicit drugs, in school buildings, on school premises and by students at school-sponsored activities away from school grounds.

A. By January 1, 2020, each local school board or governing body shall adopt and enforce policies to:

(1) prevent bullying and cyberbullying:

(a) on its property, including electronic communication on or with the use of its property;
(b) at school or district-sponsored events; and
(c) on any school-sponsored transportation; and
(2) prohibit electronic communication directed at a student that is published with the intent that it be seen by or disclosed to that student and that substantially interferes with the student's ability to participate in or benefit from the services, activities, or privileges provided by the public school.

B. Each local school board and governing body shall control the content of its policy, provided that the policy includes:

(1) the definitions as set forth in this rule;
(2) a statement prohibiting bullying;
(3) a statement prohibiting retaliation against persons who report or witness incidents of bullying;
(4) a list of consequences, exclusive of suspension and expulsion, that can result from an incident of bullying, and with consequences that are designed to:
   (a) appropriately correct the bullying behavior;
   (b) prevent another occurrence of bullying or retaliation;
   (c) protect the target of the bullying;
   (d) be flexible so that, in application, the consequences can vary in method and severity based on:
      (i) the nature of the incident;
      (ii) the developmental age and/or cognitive level of the student who is bullying; and
      (iii) historical problem behavior from the student who is bullying; and
   (e) limit the restrictive nature of consequences for cyberbullying incidents, such that while correcting cyberbullying behavior and preventing further incidents of cyberbullying, a student with cyberbullying behavior is able to participate in or benefit from the services, activities, or privileges provided by the school to the greatest extent possible;
(5) a procedure for reporting bullying and for reporting retaliation for reporting an act of bullying, including:
   (a) an allowance for reporting orally and in the preferred language of the person reporting;
   (b) a method for anonymous reporting; provided that no formal disciplinary measures shall be taken solely on the basis of an anonymous report of an actual bullying incident; and
   (c) a method for parents to file written reports of suspected bullying; and
(6) a procedure for prompt investigation of reports of violations of the bullying prevention policy and of complaints of bullying or retaliation, including:
   (a) designation of a school or district administrator who has the responsibility to:
      (i) investigate or supervise the investigation of all reports of bullying and
      (ii) to ensure that investigations are completed promptly after the receipt of any report made under this rule;
   (b) a procedure for notification of the parents of the student alleged to have committed an act of bullying and the parents of the student targeted by the alleged act; provided that if, in the administrator's professional opinion, notifying the parents would endanger the health or well-being of a student, the administrator may delay such notification as appropriate;
   (c) a requirement that school employees who witness bullying or who receive reports of bullying notify the designated administrator within two calendar days of the employee witnessing or receiving a report of bullying;
(d) an appeal process for a student who is accused of bullying or who is the target of bullying and who is unsatisfied with the outcome of the initial investigation; and

(e) development of a student safety support plan for students who are targets of bullying that addresses safety measures the school will take to protect targeted students against further acts of bullying.

C. Each local school board and governing body shall include bullying prevention policies and procedures for reporting bullying in student handbooks using developmentally and culturally appropriate language. Policies shall be produced and disseminated in appropriate languages in any school district in which a substantial portion of the student population speaks a language other than English at home.

D. Each public school shall document reports and investigations of bullying and shall maintain those records for no less than four years.

E. Each local school board or governing body shall establish procedures for public schools to report the number of bullying incidents and the number of harassment incidents, as defined by federal or state law, along with responses to these incidents, and shall report this information annually to the department at such time as determined by the department and through the department's student teacher accountability reporting or through other means as determined by the department.

REGULATIONS

6.11.2.7. Definitions.
A. "Administrative authority" means the local school district superintendent, a principal or a person authorized by either to act officially in a matter involving school discipline or the maintenance of order. The term may include school security officers, but only to the extent of their authority as established under written local school board policies.
E. "Disciplinarian" means a person or group authorized to impose punishment after the facts have been determined by a hearing authority.
F. "Disruptive conduct" means willful conduct which:
   (1) materially and in fact disrupts or interferes with the operation of the public schools or the orderly conduct of any public school activity, including individual classes; or
   (2) leads an administrative authority reasonably to forecast that such disruption or interference is likely to occur unless preventive action is taken.
J. "Immediate removal" means the removal of a student from school for one school day or less under emergency conditions and without a prior hearing.
R. "Refusal to cooperate with school personnel" means a student's willful refusal to obey the lawful instructions or orders of school personnel whose responsibilities include supervision of students.
X. "School personnel" means all members of the staff, faculty and administration employed by the local school board. The term includes school security officers, school bus drivers and their aides, and also authorized agents of the schools, such as volunteers or chaperons, whose responsibilities include supervision of students.
Y. "Student" means a person who is enrolled in one or more classes at a public school or a person who was a student during the previous school year and is participating in a school sponsored activity connected with his or her prior status as a student.
AA. "Temporary suspension" means the removal of a student from school for a specified period of 10 school days or less after a rudimentary hearing.

The authority of the state and of local school boards to prescribe and enforce standards of conduct for public school students must be exercised consistently with constitutional safeguards of individual student rights. The right to a public education is not absolute; it may be taken away, temporarily or permanently, for violations of school rules. But it is a property right which may only be denied where school authorities have adhered to the minimum procedural safeguards required to afford the student due process of law. This section prescribes minimum requirements for detention, in-school suspension and temporary, long-term or permanent removal of students from the public schools. Local school boards may adopt procedures which afford students more protection than this rule requires. The procedures in this section apply only to disciplinary detentions, suspensions and expulsions. […]

A. Post-suspension placement of students. Any student suspended from school shall be delivered directly by a school official to the student's parent(s), legal guardian or an adult designated by the parent(s) or the legal guardian, or kept on school grounds until the usual end of the school day.

B. Students with disabilities. This section does not apply to long-term suspension or expulsion of students who are disabled pursuant to the IDEA or Section 504. The procedures for long-term suspension or expulsion of disabled students are set forth in Section 6.11.2.11 NMAC above. School personnel under this section may remove a student with a disability who violates a rule of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to students without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under Subsection G of 6.11.2.11 NMAC.)

C. Immediate removal: Students whose presence poses a continuing danger to persons or property or an ongoing threat of interfering with the educational process may be immediately removed from school, subject to the following rules.

   (1) A rudimentary hearing, as required for temporary suspensions, shall follow as soon as possible.

   (2) Students shall be reinstated after no more than one school day unless within that time a temporary suspension is also imposed after the required rudimentary hearing. In such circumstances, a single hearing will support both the immediate removal and a temporary suspension imposed in connection with the same incident(s).

   (3) The school shall exert reasonable efforts to inform the student's parent of the charges against the student and the action taken as soon as practicable. If the school has not communicated with the parent by telephone or in person by the end of the school day following the immediate removal, the school shall on that day mail a written notice with the required information to the parent's address of record.

D. Temporary suspension.

   (1) A local school board may limit temporary suspensions to periods shorter than ten (10) school days.

   (2) A student facing temporary suspension shall first be informed of the charges against him or her and, if (s)he denies them, shall be told what evidence supports the charge(s) and be given an opportunity to present his or her version of the facts. The following rules apply.

      (a) The hearing may be an informal discussion and may follow immediately after the notice of the charges is given.

      (b) Unless the administrative authority decides a delay is essential to permit a fuller exploration of the facts, this discussion may take place and a temporary suspension may be imposed within minutes after the alleged misconduct has occurred.

      (c) A student who denies a charge of misconduct shall be told what act(s) (s)he is accused of committing, shall be given an explanation of the evidence supporting the accusation(s) and shall then
be given the opportunity to explain his or her version of the facts. The administrative authority is not required to divulge the identity of informants, although (s)he should not withhold such information without good cause. (S)He is required to disclose the substance of all evidence on which (s)he proposes to base a decision in the matter.

(d) The administrative authority is not required to allow the student to secure counsel, to confront or cross-examine witnesses supporting the charge(s), or to call witnesses to verify the student's version of the incident, but none of these is prohibited.

(e) The school shall exert reasonable efforts to inform the student's parent of the charges against the student and their possible or actual consequence as soon as practicable. If the school has not communicated with the parent by telephone or in person by the end of the first full day of suspension, the school shall on that day mail a written notice with the required information to the parent's address of record.

E. In-school suspension.

(1) In-school suspension may be imposed with or without further restriction of student privileges. Any student who is placed in an in-school suspension which exceeds ten (10) school days must be provided with an instructional program that meets both state and local educational requirements. Student privileges, however, may be restricted for longer than ten (10) school days.

(2) In-school suspensions of any length shall be accomplished according to the procedures for a temporary suspension as set forth above. A local school board may limit the length of in-school suspensions which may be accomplished under temporary suspension procedures. No in-school suspension student shall be denied an opportunity to eat lunch or reasonable opportunities to go to the restroom.

F. Detention.

(1) Detention may be imposed in connection with in-school suspension, but is distinct from in-school suspension in that it does not entail removing the student from any of his or her regular classes.

(2) The authority of the schools to supervise and control the conduct of students includes the authority to impose reasonable periods of detention during the day or outside normal school hours as a disciplinary measure. No detained student shall be denied an opportunity to eat lunch or reasonable opportunities to go to the restroom. Reasonable periods of detention may be imposed in accordance with the procedures for temporary suspension.

G. Long-term suspension and expulsion.

(1) Each local school board shall authorize appropriate administrative authorities to initiate procedures leading to long-term suspension or expulsion. Where prompt action to suspend a student long-term is deemed appropriate, a temporary suspension may be imposed while the procedures for long-term suspension or expulsion are activated. However, where a decision following the required formal hearing is delayed beyond the end of the temporary suspension, the student must be returned to school pending the final outcome unless the provisions of Subsection G, Paragraph (4), Subparagraphs (j) and (k) of Section 6.11.2.12 NMAC below apply.

(2) A student who has been validly expelled or suspended is not entitled to receive any educational services from the local district during the period of the exclusion from school. A local school board may provide alternative arrangements, including correspondence courses at the student's or parent's expense pursuant to public education department requirements, if the board deems such arrangements appropriate.

(3) Each local school board shall establish, or shall authorize appropriate administrative authorities to establish, appropriate processes for handling long-term suspensions and expulsions. Unless the terms expressly indicate otherwise, nothing in the procedures below shall be construed as directing that any
required decision be made by any particular person or body or at any particular level of administrative organization.

(4) The following rules shall govern the imposition of long-term suspensions or expulsions:

(a) Hearing authority; disciplinarian. The same person or group may, but need not, perform the functions of both hearing authority and disciplinarian. Where the functions are divided, the hearing authority's determination of the facts is conclusive on the disciplinarian, but the disciplinarian may reject any punishment recommended by the hearing authority.

(b) Review authority. Unless the local school board provides otherwise, a review authority shall have discretion to modify or overrule the disciplinarian's decision, but may not impose a harsher punishment. A review authority shall be bound by a hearing authority's factual determinations except as provided in Subsection G, Paragraph (4), Subparagraph (o) of Section 6.11.2.12 NMAC below.

(c) Disqualification. No person shall act as hearing authority, disciplinarian or review authority in a case where (s)he was directly involved in or witnessed the incident(s) in question, or if (s)he has prejudged disputed facts or is biased for or against any person who will actively participate in the proceedings.

(d) Local board participation. A local board may act as hearing authority, disciplinarian or review authority for any cases involving proposed long-term suspensions or expulsions. Whenever a quorum of the local board acts in any such capacity, however, the Open Meetings Act, Section 10-15-1 et seq., NMSA 1978, requires a public meeting.

(e) Initiation of procedures. An authorized administrative authority shall initiate procedures for long-term suspension or expulsion of a student by designating a hearing authority and disciplinarian in accordance with local board policies, scheduling a formal hearing in consultation with the hearing authority and preparing and serving a written notice meeting the requirements of Subsection G, Paragraph (4), Subparagraph (h) of Section 6.11.2.12 NMAC below.

(f) Service of notice. The written notice shall be addressed to the student, through his or her parent(s), and shall be served upon the parent(s) personally or by mail.

(g) Timing of hearing. The hearing shall be scheduled no sooner than five (5) nor later than ten (10) school days from the date of receipt of the notice by the parent(s). The hearing authority may grant or deny a request to delay the hearing in accordance with the provisions of Subsection G, Paragraph (4), Subparagraph (i) of Section 6.11.2.12 NMAC below.

(h) Contents of notice. The written notice must contain all of the following information, parts of which may be covered by appropriate reference to copies of any policies or regulations furnished with the notice:

(i) the school rule(s) alleged to have been violated, a concise statement of the alleged act(s) of the student on which the charge(s) are based and a statement of the possible penalty;

(ii) the date, time and place of the hearing, and a statement that both the student and parent are entitled and urged to be present;

(iii) a clear statement that the hearing will take place as scheduled unless the hearing authority grants a delay or the student and parent agree to waive the hearing and comply voluntarily with the proposed disciplinary action or with a negotiated penalty, and a clear and conspicuous warning that a failure to appear will not delay the hearing and may lead to the imposition of the proposed penalty by default;

(iv) a statement that the student has the right to be represented at the hearing by legal counsel, a parent or some other representative designated in a written notice filed at least seventy-two (72) hours before the hearing with the contact person named pursuant to Subsection G, Paragraph (4), Subparagraph (h), Sub-subparagraph (vi) of Section 6.11.2.12 NMAC below;
(v) a description of the procedures governing the hearing;
(vi) the name, business address and telephone number of a contact person through whom the
student, parent or designated representative may request a delay or seek further information,
including access to any documentary evidence or exhibits which the school proposes to introduce at
the hearing; and
(vii) any other information, materials or instructions deemed appropriate by the administrative
authority who prepares the notice.

(i) Delay of hearing. The hearing authority shall have discretion to grant or deny a request by the
student or the appropriate administrative authority to postpone the hearing. Such discretion may be
limited or guided by local school board policies not otherwise inconsistent with this rule.

(j) Students status pending hearing. Where a student has been suspended temporarily and a formal
hearing on long-term suspension or expulsion will not occur until after the temporary suspension has
expired, the student shall be returned to school at the end of the temporary suspension unless:

   (i) the provisions of Subsection G, Paragraph (4), Subparagraph (k) of Section 6.11.2.12 NMAC
       below apply, or
   (ii) the student and parent(s) have knowingly and voluntarily waived the students right to return to
        school pending the outcome of the formal proceedings, or
   (iii) the appropriate administrative authority has conducted an interim hearing pursuant to a written
        local school board policy made available to the student which affords further due process protection
        sufficient to support the student's continued exclusion pending the outcome of the formal
        procedures.

(k) Waiver of hearing; voluntary compliance or negotiated penalty. A student and his or her parent(s)
may elect to waive the formal hearing and review procedures and comply voluntarily with the
proposed penalty, or may waive the hearing and review and negotiate a mutually acceptable penalty
with the designated disciplinarian. Such a waiver and compliance agreement shall be made
voluntarily, with knowledge of the rights being relinquished, and shall be evidenced by a written
document signed by the student, the parent(s), and the appropriate school official.

(l) Procedure for hearing and decision. The formal hearing is not a trial. It is an adminis-
trative hearing
designed to ensure a calm, orderly determination by an impartial hearing authority of the facts of a
case of alleged serious misconduct. Technical rules of evidence and procedure do not apply. The
following-rules govern the conduct of the hearing and the ultimate decision.

   (i) The school shall have the burden of proof of misconduct.
   (ii) The student and his or her parent shall have the following rights: The right to be represented by
        legal counsel or other designated representative, however, the school is not required to provide
        representation; the right to present evidence, subject to reasonable requirements of substantiation
        at the discretion of the hearing authority and subject to exclusion of evidence deemed irrelevant or
        redundant; the right to confront and cross-examine adverse witnesses, subject to reasonable
        limitation by the hearing authority; the right to have a decision based solely on the evidence
        presented at the hearing and the applicable legal rules, including the governing rules of student
        conduct.
   (iii) The hearing authority shall determine whether the alleged act(s) of misconduct have been
        proved by a preponderance of the evidence presented at a hearing at which the student or a
        designated representative has appeared.
   (iv) If no one has appeared on the student’s behalf within a reasonable time after the announced
time for the hearing, the hearing authority shall determine whether the student, through the parent,
received notice of the hearing. If so, the hearing authority shall review the schools’ evidence to
determine whether it is sufficient to support the charges(s) of misconduct.

(v) A hearing authority who is also a disciplinarian shall impose an appropriate sanction if (s)he
finds that the allegations of misconduct have been proved under the standards of either Subsection
G, Paragraph (4), Subparagraph (l), Sub-subparagraph (iii) or Sub-subparagraph (iv) of Section
6.11.2.12 NMAC above. A hearing authority who is not a disciplinarian shall report its findings,
together with any recommended sanction, to the disciplinarian promptly after the hearing.

(vi) Arrangements to make a tape recording or keep minutes of the proceedings shall be made by
the administrative authority who scheduled the hearing and prepared the written notice. A verbatim
written transcript is not required, but any minutes or other written record shall fairly reflect the
substance of the evidence presented.

(vii) The hearing authority may announce a decision on the question of whether the allegation(s) of
misconduct have been proved at the close of the hearing. A hearing authority who is also a
disciplinarian may also impose a penalty at the close of the hearing.

(viii) In any event, the hearing authority shall prepare and mail or deliver to the student, through the
parent, a written decision within five (5) working days after the hearing. The decision shall include a
concise summary of the evidence upon which the hearing authority based its factual determinations.
A hearing authority who is also a disciplinarian shall include in the report a statement of the penalty,
if any, to be imposed, and shall state reasons for the chosen penalty. A hearing authority who is not
a disciplinarian shall forward a copy of his or her written decision to the disciplinarian forthwith. The
disciplinarian shall prepare a written decision, including reasons for choosing any penalty imposed,
and mail or deliver it to the student, through the parent, within five (5) working days of receipt of the
hearing authority's report.

(ix) A disciplinarian who is not a hearing authority may observe but not participate in the
proceedings at a formal hearing. If the disciplinarian has done so and if the hearing authority
announces a decision at the close of the hearing, the disciplinarian may also announce his or her
decision at that time.

(x) The disciplinarian’s decision shall take effect immediately upon initial notification to the parent,
either at the close of the hearing or upon receipt of the written decision. If initial notification is by
mail, the parent shall be presumed to have received the notice on the fifth calendar day after the
date of mailing unless a receipt for certified mail, if used, indicates a different date of receipt.

(m) Effect of decision. If the hearing authority decides that no allegation(s) of misconduct have been
proved, or if the disciplinarian declines to impose a penalty despite a finding that an act or acts of
misconduct have been proved, the matter shall be closed. If the disciplinarian imposes any sanction
on the student, the decision shall take effect immediately upon notification to the parent and shall
continue in force during any subsequent review.

(n) Right of review. Unless the local school board was the disciplinarian, a student aggrieved by a
disciplinarian’s decision after a formal hearing shall have the right to have the decision reviewed if the
penalty imposed was at least as severe as a long-term suspension or expulsion, an in-school
suspension exceeding one school semester or a denial or restriction of student privileges for one
semester or longer. A local school board may grant a right of review for less severe penalties. Local
school boards shall establish appropriate mechanisms for review except where the local board was
the disciplinarian, in which case its decision is final and not reviewable administratively. A student
request for review must be submitted to the review authority within ten (10) school days after the
student is informed of the disciplinarian's decision.

(o) Conduct of review. Unless the local board provides otherwise, a review authority shall have
discretion to modify the disciplinarian’s decision, including imposing any lesser sanction deemed
appropriate. A review authority shall be bound by the hearing authority's factual determinations unless the student persuades the review authority that a finding of fact was arbitrary, capricious or unsupported by substantial evidence or that new evidence which has come to light since the hearing and which could not with reasonable diligence have been discovered in time for the hearing would manifestly change the factual determination. Upon any such finding, the review authority shall have discretion to receive new evidence, reconsider evidence introduced at the hearing or conduct a de novo hearing. In the absence of any such finding, the review shall be limited to an inquiry into the appropriateness of the penalty imposed.

(p) Form of review. Unless the local board provides otherwise, a review authority shall have discretion to conduct a review on the written record of the hearing and decision in the case, to limit new submissions by the aggrieved student and school authorities to written materials or to grant a conference or hearing at which the student and his or her representative, and school authorities may present their respective views in person. Where a conference or hearing is granted, the record-keeping requirements of Subsection G., Paragraph (4), Sub-paragraph (l), Sub-paragraph (vi) of Section 6.11.2.12 NMAC above apply.

(q) Timing of review. Except in extraordinary circumstances, a review shall be concluded no later than fifteen (15) working days after a student's written request for review is received by the appropriate administrative authority.

(r) Decision. A review authority may announce a decision at the close of any conference or hearing held on review. In any event, the review authority shall prepare a written decision, including concise reasons, and mail or deliver it to the disciplinarian, the hearing authority and the student, through the parent, within ten (10) working days after the review is concluded.

(s) Effect of decision. Unless the local school board provides otherwise, a review authority's decision shall be the final administrative action to which a student is entitled.

Alternatives to suspension

LAWS

G. “progressive discipline” means disciplinary action other than suspension or expulsion from school that is designed to correct and address the basic causes of a student's specific misbehavior while retaining the student in class or in school, or restorative school practices to repair the harm done to relationships and other students from the student's misbehavior, and may include:

(1) meeting with the student and the student's parents;
(2) reflective activities, such as requiring the student to write an essay about the student's misbehavior;
(3) counseling;
(4) anger management;
(5) health counseling or intervention;
(6) mental health counseling;
(7) participation in skill-building and resolution activities, such as social-emotional cognitive skills building, resolution circles and restorative conferencing;

22-35-3. Bullying prevention policies; adoption and enforcement.

B. Each local school board shall control the content of its policy; provided that the policy includes:

(4) a list of consequences, including progressive discipline approaches that can result from an identified incident of bullying that are designed to:

(a) appropriately correct the bullying behavior;
(b) prevent another occurrence of bullying or retaliation;
(c) protect the target of the bullying;
(d) be flexible so that, in application, the consequences can be unique to the individual incident and varied in method and severity based on: 1) the nature of the incident; 2) the developmental age of the student who is bullying; and 3) any history of problem behavior from the student who is bullying; and
(e) for cyberbullying incidents, use the least restrictive means necessary to address the interference with the student's ability to participate in or benefit from the services, activities or privileges provided by the school;

K. “In-school suspension” means suspending a student from one or more regular classes while requiring the student to spend the time in a designated area at the same school or elsewhere.

The authority of the state and of local school boards to prescribe and enforce standards of conduct for public school students must be exercised consistently with constitutional safeguards of individual student rights

E. In-school suspension.

(1) In-school suspension may be imposed with or without further restriction of student privileges. Any student who is placed in an in-school suspension which exceeds ten (10) school days must be provided with an instructional program that meets both state and local educational requirements. Student privileges, however, may be restricted for longer than ten (10) school days.

(2) In-school suspensions of any length shall be accomplished according to the procedures for a temporary suspension as set forth above. A local school board may limit the length of in-school suspensions which may be accomplished under temporary suspension procedures. No in-school suspension student shall be denied an opportunity to eat lunch or reasonable opportunities to go to the restroom.

F. Detention.

(1) Detention may be imposed in connection with in-school suspension, but is distinct from in-school suspension in that it does not entail removing the student from any of his or her regular classes.

(2) The authority of the schools to supervise and control the conduct of students includes the authority to impose reasonable periods of detention during the day or outside normal school hours as a disciplinary measure. No detained student shall be denied an opportunity to eat lunch or reasonable opportunities to go to the restroom. Reasonable periods of detention may be imposed in accordance with the procedures for temporary suspension.

B. Search and seizure: School property assigned to a student and a student's person or property while under the authority of the public schools are subject to search, and items found are subject to seizure, in accordance with the requirements below.

(1) Notice of search policy. Students shall be given reasonable notice, through distribution of written policies or otherwise, of each school's policy on searches at the beginning of each school year or upon admission for students entering during the school year.

(2) Who may search. Certified school personnel, school security personnel and school bus drivers are "authorized persons" to conduct searches when a search is permissible as set forth below. An authorized person who is conducting a search may request the assistance of some other person(s), who upon consent become(s) an authorized person for the purpose of that search only.

(3) When search permissible. Unless local school board policy provides otherwise, an authorized person may conduct a search when the authorized person has a reasonable suspicion that a crime or other breach of disciplinary rules is occurring or has occurred. An administrative authority may direct or conduct a search under the same conditions and also when the administrative authority has reasonable cause to believe that a search is necessary to help maintain school discipline.

(4) Conduct of searches; witnesses. The following requirements govern the conduct of permissible searches by authorized persons.

(a) School property, including lockers and school buses, may be searched with or without students present unless a local school board or administrative authority provides otherwise. When students are not present for locker searches, another authorized person shall serve as a witness whenever possible. Locks furnished by students should not be destroyed unless a student refuses to open one
or circumstances otherwise render such action necessary in the judgment of the administrative authority.

(b) Student vehicles when on campus or otherwise under school control and students' personal effects which are not within their immediate physical possession may be searched in accordance with the requirements for locker searches.

(c) Physical searches of a student's person may be conducted only by an authorized person who is of the same sex as the student, and except when circumstances render it impossible may be conducted only in the presence of another authorized person of the same sex. The extent of the search must be reasonably related to the infraction, and the search must not be excessively intrusive in light of the student's age and sex, and the nature of the infraction.

(5) Seizure of items: Illegal items, legal items which threaten the safety or security of others and items which are used to disrupt or interfere with the educational process may be seized by authorized persons. Seized items shall be released to appropriate authorities or a student's parent or returned to the student when and if the administrative authority deems appropriate.

(6) Notification of law enforcement authorities: Unless a local school board policy provides otherwise, an administrative authority shall have discretion to notify the local children's court attorney, district attorney or other law enforcement officers when a search discloses illegally possessed contraband material or evidence of some other crime or delinquent act.

6.11.2.12 Procedure for detentions, suspensions, and expulsions.
This section prescribes minimum requirements for detention, in-school suspension and temporary, long-term or permanent removal of students from the public schools. Local school boards may adopt procedures which afford students more protection than this rule requires. The procedures in this section apply only to disciplinary detentions, suspensions and expulsions. They do not apply to disenrollment of students who fail to meet immunization, age, residence or other requirements for valid enrollment, nor to the removal from school membership reports of students who have been absent from school for ten (10) consecutive school days in accordance with Subsection B of Section 22-8-2 NMSA 1978. Nothing in this section should be construed as prohibiting school boards or administrative authorities from involving other school staff, students and members of the community in the enforcement of rules of student conduct to the extent they believe is appropriate. […]

B. Students with disabilities. This section does not apply to long-term suspension or expulsion of students who are disabled pursuant to the IDEA or Section 504. The procedures for long-term suspension or expulsion of disabled students are set forth in Section 6.11.2.11 NMAC above. School personnel under this section may remove a student with a disability who violates a rule of student conduct from his or her
current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to students without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under Subsection G of 6.11.2.11 NMAC above). (1) In-school suspension may be imposed with or without further restriction of student privileges. Any student who is placed in an in-school suspension which exceeds ten (10) school days must be provided with an instructional program that meets both state and local educational requirements. Student privileges, however, may be restricted for longer than ten (10) school days.

S. "Refusal to identify self" means a person's willful refusal, upon request from school personnel known or identified as such to the person, to identify himself or herself accurately.

T. "Restraint" when not otherwise modified means mechanical or physical restraint.

U. "Review authority" is a person or group authorized by the local board to review a disciplinarian's final decision to impose a long-term suspension or expulsion.

V. "Seclusion" means the involuntary confinement of a student alone in a room from which egress is prevented. "Seclusion" does not mean the use of a voluntary behavior management technique, including a timeout location, as part of a student's education plan, individual safety plan, behavioral plan or individualized education program that involves the student's separation from a larger group for purposes of calming.

W. "Sexual harassment", regarding students, means unwelcome or unwanted conduct of a sexual nature (verbal, non-verbal or physical) when:

   (1) submission to such conduct is made either explicitly or implicitly a term or condition of the advancement of a student in school programs or activities;

   (2) submission to or rejection of such conduct by a student is used as the basis for decisions/opportunities affecting the student;

   (3) such conduct substantially interferes with a student's learning or creates an intimidating, hostile or offensive learning environment.

X. "School personnel" means all members of the staff, faculty and administration employed by the local school board. The term includes school security officers, school bus drivers and their aides, and also...
authorized agents of the schools, such as volunteers or chaperons, whose responsibilities include supervision of students.

Z. "Student experiencing homelessness" means children and youth as defined by Section 725(2) of the federal McKinney-Vento Act.

AA. "Temporary suspension" means the removal of a student from school for a specified period of 10 school days or less after a rudimentary hearing.

6.11.2.10. Enforcing rules of conduct.

I. Discipline of students with disabilities: Students with disabilities are not immune from school disciplinary processes, nor are they entitled to remain in a particular educational program when their behavior substantially impairs the education of other children in the program. However, the public schools are required by state law and regulations to meet the individual educational needs of students with disabilities to the extent that current educational expertise permits. Public school personnel may consider any unique circumstances on a case-by-case basis when determining whether a change of placement, consistent with the other requirements of 6.11.2.11 NMAC, is appropriate for a student with a disability who violates a code of conduct as provided in 34 CFR Sec. 300.530.

(1) Long-term suspensions or expulsions of students with disabilities shall be governed by the procedures set forth in 6.11.2.11 NMAC below.

(2) Temporary suspensions of students with disabilities may be imposed in accordance with the normal procedures prescribed in Subsection D of 6.11.2.12 NMAC below, provided that the student is returned to the same educational placement after the temporary suspension and unless a temporary suspension is prohibited under the provisions of Paragraph (3) of Subsection I of 6.11.2.10 NMAC below.

(3) Program prescriptions. A student with a disability's individualized education program (IEP), under the Individuals with Disabilities Education Improvement Act of 2004 (IDEA), need not affirmatively authorize disciplinary actions which are not otherwise in conflict with this rule. However, the IEP team may prescribe or prohibit specified disciplinary measures for an individual student with a disability by including appropriate provisions in the student's IEP. Administrative authorities shall adhere to any such provisions contained in a student with a disability’s IEP, except that an IEP team may not prohibit the initiation of proceedings for long-term suspension or expulsion which are conducted in accordance with this rule.

(4) Immediate removal. Immediate removal of students with disabilities may be done in accordance with the procedures of Subsection C of 6.11.2.12 NMAC below.

(5) A student who has not been determined to be eligible for special education and related services under 6.31.2 NMAC and who has engaged in behavior that violated a code of student conduct may assert any of the protections provided for in this subsection if the conditions set forth in 34 CFR Sec. 300.534 have been met.

(6) Referral to and action by law enforcement and judicial authorities.
(a) Nothing in these rules of conduct prohibits an administrative authority from reporting a crime committed by a student with a disability to appropriate authorities or prevents state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a student with a disability.

(b) Transmittal of records.

(i) An administrative authority reporting a crime committed by a student with a disability must ensure that copies of the special education and disciplinary records of the student are transmitted, for consideration by the appropriate authorities, to whom the administrative authority reports the crime.

(ii) An administrative authority reporting a crime under this section may transmit copies of the student’s special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act.

6.11.2.11. Disciplinary removals of students with disabilities.

A. General. The following rules shall apply when a student with a disability under IDEA violates a rule of conduct as set forth in this rule which may result in:

(1) long-term suspension or expulsion; or

(2) any other disciplinary change of the student’s current educational placement as specified in the federal regulations implementing IDEA at 34 CFR Secs. 300.530 through 300.536 and these or other public education department rules and standards.

B. When behavior is not a manifestation of disability. For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child’s disability pursuant to Subsection C of this section, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in Subsection I of this section.

C. Manifestation determination.

(1) Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a rule of student conduct, the administrative authority, the parent and relevant members of the child’s IEP team (as determined by the parent and the administrative authority) must review all relevant information in the student’s file, including the child’s IEP, any teacher observations and any relevant information provided by the parents to determine:

(a) if the conduct in question was caused by, or had a direct and substantial relationship to the child’s disability; or

(b) if the conduct in question was the direct result of the administrative authority’s failure to implement the IEP.

(2) The conduct must be determined to be a manifestation of the child’s disability if the administrative authority, the parent and relevant members of the child’s IEP team determine that a condition in either Subparagraph (a) or (b) of Paragraph (1) of Subsection C of 6.11.2.11 NMAC was met.

(3) If the administrative authority, the parent and relevant members of the child’s IEP team determine the condition described in Subparagraph (b) of Paragraph (1) of Subsection C of 6.11.2.11 NMAC was met, the administrative authority must take immediate steps to remedy those deficiencies.

D. Determination that behavior is manifestation of disability. If the administrative authority, the parent and relevant members of the IEP team make the determination that the conduct was a manifestation of the child’s disability, the IEP team must comply within 34 CFR Sec. 300.530(f).
E. Special circumstances. School personnel may remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child’s disability, if the child’s behavior involves one of the special circumstances listed in 34 CFR Sec. 300.530(g). For purposes of this subsection, the definitions provided in 34 CFR Sec. 300.530(i) shall apply.

F. Determination of setting. The student’s IEP team determines the interim alternative educational setting for services under Subsections B and E of this section.

G. Change of placement because of disciplinary removals. For purposes of removals of a student with a disability from the child’s current educational placement under 6.11.2.11 and 6.11.2.12 NMAC, a change of placement occurs if the conditions provided in 34 CFR Sec. 300.536 are met.

H. Parental notification. On the date on which the decision is made to make a removal that constitutes a change of placement of a student with a disability because of a violation of a code of student conduct, the administrative authority must notify the parents of that decision, and provide the parents the procedural safeguards notice described in 34 CFR Sec. 300.504.

I. Services. A student with a disability who is removed from the student’s current placement pursuant to this section must continue to receive special education and related services as provided in 34 CFR Sec. 300.530(d).

J. Appeal.

1. The parent of a student with a disability who disagrees with any decision regarding the placement or the manifestation determination under this section, or an administrative authority that believes that maintaining the current placement of the student is substantially likely to result in injury to the student or others, may appeal the decision by requesting a hearing. The hearing is requested by filing a complaint pursuant to Subsection I of 6.31.2.13 NMAC.

2. A hearing officer who hears a matter under Paragraph (1) of Subsection J of 6.11.2.11 NMAC, has the authority provided in 34 CFR Sec. 300.532(b).

3. When an appeal under this subsection has been made by either the parent or the administrative authority, the student must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period specified in Subsections B or E of this section, which ever occurs first, unless the parent and the administrative authority agree otherwise.

6.12.10.11. Students.

B. No school shall discipline a student who is a qualified student on the basis that the student requires medical cannabis as necessary for the student to attend school.

**Administrative procedures related to suspension and expulsion**

**LAWS**

22-12A-12. Excessive absenteeism; enforcement.

A. Each local school board and each governing body of a charter school or private school shall initiate the enforcement of the provisions of the Attendance for Success Act for excessively absent students.

B. If unexcused absences continue after written notice of excessive absenteeism as provided in Section 11 of the Attendance for Success Act, the local school board or governing body of a charter school or private school, after consultation with the local superintendent or head administrator of a charter school or private school, shall report the excessively absent student to the probation services office of the judicial district in which the student resides for an investigation as to whether the student should be considered to
be a neglected child or a child in a family in need of family services because of excessive absenteeism and, thus, subject to the provisions of the Children’s Code. The record of the public school’s interventions and the student’s and parent’s responses to the interventions shall be provided to the juvenile probation services office. The local superintendent or head administrator of a charter school or private school shall provide the documentation to the juvenile probation services office within ten business days of the student being identified as excessively absent.

C. If the juvenile probation services office determines that the student is a child in a family in need of family services, a caseworker from the child or family in need of family services program shall meet with the family at the public school in which the student is enrolled to determine if there are other intervention services that may be provided. The meeting shall involve the school principal or other school personnel and, unless the parent objects in writing, appropriate community partners that provide services to children and families. The children, youth and families department shall determine if additional interventions, including monitoring, will positively affect the student’s behavior.

REGULATIONS

6.11.2.7. Definitions.

A. and related functions. There are special limitations arising from constitutional guarantees of protected free speech and expression which must be balanced against the schools need to foster an educational atmosphere free from undue disruptions to appropriate discipline.

M. "Long-term suspension" means the removal of a student from school for a specified time exceeding either 10 school days or any lesser period a local school board may set as a limit on temporary suspension.

N. "Seclusion" does not mean the use of a voluntary behavior management technique, including a timeout location, as part of a student's education plan, individual safety plan, behavioral plan or individualized education program that involves the student's separation from a larger group for purposes of calming.

W. "Sexual harassment", regarding students, means unwelcome or unwanted conduct of a sexual nature (verbal, non-verbal or physical) when:

1. submission to such conduct is made either explicitly or implicitly a term or condition of the advancement of a student in school programs or activities;

2. submission to or rejection of such conduct by a student is used as the basis for decisions/opportunities affecting the student;

3. such conduct substantially interferes with a student's learning or creates an intimidating, hostile or offensive learning environment.

X. "School personnel" means all members of the staff, faculty and administration employed by the local school board. The term includes school security officers, school bus drivers and their aides, and also authorized agents of the schools, such as volunteers or chaperons, whose responsibilities include supervision of students.
Y. “Student” means a person who is enrolled in one or more classes at a public school or a person who was a student during the previous school year and is participating in a school sponsored activity connected with his or her prior status as a student.

BB. "Weapon" as set forth in Section 22-5-4.7 NMSA 1978 means:

   (1) any firearm that is designed to, may readily be converted to or will expel a projectile by the action of an explosion; and
   (2) any destructive device that is an explosive or incendiary device, bomb, grenade, rocket having a propellant charge of more than four ounces, missile having an explosive or incendiary charge of more than one-quarter ounce, mine or similar device.

This section prescribes minimum requirements for detention, in-school suspension and temporary, long-term or permanent removal of students from the public schools. Local school boards may adopt procedures which afford students more protection than this rule requires. The procedures in this section apply only to disciplinary detentions, suspensions and expulsions. They do not apply to disenrollment of students who fail to meet immunization, age, residence or other requirements for valid enrollment, nor to the removal from school membership reports of students who have been absent from school for ten (10) consecutive school days in accordance with Subsection B of Section 22-8-2 NMSA 1978. Nothing in this section should be construed as prohibiting school boards or administrative authorities from involving other school staff, students and members of the community in the enforcement of rules of student conduct to the extent they believe is appropriate. […]

A. Post-suspension placement of students. Any student suspended from school shall be delivered directly by a school official to the student's parent(s), legal guardian or an adult designated by the parent(s) or the legal guardian, or kept on school grounds until the usual end of the school day.

B. Students with disabilities. This section does not apply to long-term suspension or expulsion of students who are disabled pursuant to the IDEA or Section 504. The procedures for long-term suspension or expulsion of disabled students are set forth in Section 6.11.2.11 NMAC above. School personnel under this section may remove a student with a disability who violates a rule of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to students without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under Subsection G of 6.11.2.11 NMAC above).

C. Immediate removal: Students whose presence poses a continuing danger to persons or property or an ongoing threat of interfering with the educational process may be immediately removed from school, subject to the following rules.

   (1) A rudimentary hearing, as required for temporary suspensions, shall follow as soon as possible.
   (2) Students shall be reinstated after no more than one school day unless within that time a temporary suspension is also imposed after the required rudimentary hearing. In such circumstances, a single hearing will support both the immediate removal and a temporary suspension imposed in connection with the same incident(s).
(3) The school shall exert reasonable efforts to inform the student's parent of the charges against the student and the action taken as soon as practicable. If the school has not communicated with the parent by telephone or in person by the end of the school day following the immediate removal, the school shall on that day mail a written notice with the required information to the parent's address of record.

D. Temporary suspension.

(1) A local school board may limit temporary suspensions to periods shorter than ten (10) school days.

(2) A student facing temporary suspension shall first be informed of the charges against him or her and, if (s)he denies them, shall be told what evidence supports the charge(s) and be given an opportunity to present his or her version of the facts. The following rules apply.

(a) The hearing may be an informal discussion and may follow immediately after the notice of the charges is given.

(b) Unless the administrative authority decides a delay is essential to permit a fuller exploration of the facts, this discussion may take place and a temporary suspension may be imposed within minutes after the alleged misconduct has occurred.

(c) A student who denies a charge of misconduct shall be told what act(s) (s)he is accused of committing, shall be given an explanation of the evidence supporting the accusation(s) and shall then be given the opportunity to explain his or her version of the facts. The administrative authority is not required to divulge the identity of informants, although (s)he should not withhold such information without good cause. (S)he is required to disclose the substance of all evidence on which (s)he proposes to base a decision in the matter.

(d) The administrative authority is not required to allow the student to secure counsel, to confront or cross-examine witnesses supporting the charge(s), or to call witnesses to verify the student's version of the incident, but none of these is prohibited.

(e) The school shall exert reasonable efforts to inform the student's parent of the charges against the student and their possible or actual consequence as soon as practicable. If the school has not communicated with the parent by telephone or in person by the end of the first full day of suspension, the school shall on that day mail a written notice with the required information to the parent's address of record. […]

G. Long-term suspension and expulsion.

(1) Each local school board shall authorize appropriate administrative authorities to initiate procedures leading to long-term suspension or expulsion. Where prompt action to suspend a student long-term is deemed appropriate, a temporary suspension may be imposed while the procedures for long-term suspension or expulsion are activated. However, where a decision following the required formal hearing is delayed beyond the end of the temporary suspension, the student must be returned to school pending the final outcome unless the provisions of Subsection G, Paragraph (4), Subparagraphs (j) and (k) of Section 6.11.2.12 NMAC below apply.

(2) A student who has been validly expelled or suspended is not entitled to receive any educational services from the local district during the period of the exclusion from school. A local school board may provide alternative arrangements, including correspondence courses at the student's or parent's expense pursuant to public education department requirements, if the board deems such arrangements appropriate.

(3) Each local school board shall establish, or shall authorize appropriate administrative authorities to establish, appropriate processes for handling long-term suspensions and expulsions. Unless the terms expressly indicate otherwise, nothing in the procedures below shall be construed as directing
that any required decision be made by any particular person or body or at any particular level of administrative organization.

(4) The following rules shall govern the imposition of long-term suspensions or expulsions:

(a) Hearing authority; disciplinarian. The same person or group may, but need not, perform the functions of both hearing authority and disciplinarian. Where the functions are divided, the hearing authority’s determination of the facts is conclusive on the disciplinarian, but the disciplinarian may reject any punishment recommended by the hearing authority.

(b) Review authority. Unless the local school board provides otherwise, a review authority shall have discretion to modify or overrule the disciplinarian’s decision, but may not impose a harsher punishment. A review authority shall be bound by a hearing authority’s factual determinations except as provided in Subsection G, Paragraph (4), Subparagraph (o) of Section 6.11.2.12 NMAC below.

(c) Disqualification. No person shall act as hearing authority, disciplinarian or review authority in a case where (s)he was directly involved in or witnessed the incident(s) in question, or if (s)he has prejudged disputed facts or is biased for or against any person who will actively participate in the proceedings.

(d) Local board participation. A local board may act as hearing authority, disciplinarian or review authority for any cases involving proposed long-term suspensions or expulsions. Whenever a quorum of the local board acts in any such capacity, however, the Open Meetings Act, Section 10-15-1 et seq., NMSA 1978 requires a public meeting.

(e) Initiation of procedures. An authorized administrative authority shall initiate procedures for long-term suspension or expulsion of a student by designating a hearing authority and disciplinarian in accordance with local board policies, scheduling a formal hearing in consultation with the hearing authority and preparing and serving a written notice meeting the requirements of Subsection G, Paragraph (4), Subparagraph (h) of Section 6.11.2.12 NMAC below.

(f) Service of notice. The written notice shall be addressed to the student, through his or her parent(s), and shall be served upon the parent(s) personally or by mail.

(g) Timing of hearing. The hearing shall be scheduled no sooner than five (5) nor later than ten (10) school days from the date of receipt of the notice by the parent(s). The hearing authority may grant or deny a request to delay the hearing in accordance with the provisions of Subsection G, Paragraph (4), Subparagraph (i) of Section 6.11.2.12 NMAC below.

(h) Contents of notice. The written notice must contain all of the following information, parts of which may be covered by appropriate reference to copies of any policies or regulations furnished with the notice:

(i) the school rule(s) alleged to have been violated, a concise statement of the alleged act(s) of the student on which the charge(s) are based and a statement of the possible penalty;

(ii) the date, time and place of the hearing, and a statement that both the student and parent are entitled and urged to be present;

(iii) a clear statement that the hearing will take place as scheduled unless the hearing authority grants a delay or the student and parent agree to waive the hearing and comply voluntarily with the proposed disciplinary action or with a negotiated penalty, and a clear and conspicuous warning that a failure to appear will not delay the hearing and may lead to the imposition of the proposed penalty by default;

(iv) a statement that the student has the right to be represented at the hearing by legal counsel, a parent or some other representative designated in a written notice filed at least seventy-two (72)
hours before the hearing with the contact person named pursuant to Subsection G, Paragraph (4), Subparagraph (h), Sub-subparagraph (vi) of Section 6.11.2.12 NMAC below;

(v) a description of the procedures governing the hearing;

(vi) the name, business address and telephone number of a contact person through whom the student, parent or designated representative may request a delay or seek further information, including access to any documentary evidence or exhibits which the school proposes to introduce at the hearing; and

(vii) any other information, materials or instructions deemed appropriate by the administrative authority who prepares the notice.

(i) Delay of hearing. The hearing authority shall have discretion to grant or deny a request by the student or the appropriate administrative authority to postpone the hearing. Such discretion may be limited or guided by local school board policies not otherwise inconsistent with this rule.

(j) Students status pending hearing. Where a student has been suspended temporarily and a formal hearing on long-term suspension or expulsion will not occur until after the temporary suspension has expired, the student shall be returned to school at the end of the temporary suspension unless:

   (i) the provisions of Subsection G, Paragraph (4), Subparagraph (k) of Section 6.11.2.12 NMAC below apply, or
   
   (ii) the student and parent(s) have knowingly and voluntarily waived the students right to return to school pending the outcome of the formal proceedings, or
   
   (iii) the appropriate administrative authority has conducted an interim hearing pursuant to a written local school board policy made available to the student which affords further due process protection sufficient to support the student's continued exclusion pending the outcome of the formal procedures.

(k) Waiver of hearing; voluntary compliance or negotiated penalty. A student and his or her parent(s) may elect to waive the formal hearing and review procedures and comply voluntarily with the proposed penalty, or may waive the hearing and review and negotiate a mutually acceptable penalty with the designated disciplinarian. Such a waiver and compliance agreement shall be made voluntarily, with knowledge of the rights being relinquished, and shall be evidenced by a written document signed by the student, the parent(s), and the appropriate school official.

(l) Procedure for hearing and decision. The formal hearing is not a trial. It is an administrative hearing designed to ensure a calm, orderly determination by an impartial hearing authority of the facts of a case of alleged serious misconduct. Technical rules of evidence and procedure do not apply. The following-rules govern the conduct of the hearing and the ultimate decision.

   (i) The school shall have the burden of proof of misconduct.
   
   (ii) The student and his or her parent shall have the following rights: The right to be represented by legal counsel or other designated representative, however, the school is not required to provide representation; the right to present evidence, subject to reasonable requirements of substantiation at the discretion of the hearing authority and subject to exclusion of evidence deemed irrelevant or redundant; the right to confront and cross-examine adverse witnesses, subject to reasonable limitation by the hearing authority; the right to have a decision based solely on the evidence presented at the hearing and the applicable legal rules, including the governing rules of student conduct.
   
   (iii) The hearing authority shall determine whether the alleged act(s) of misconduct have been proved by a preponderance of the evidence presented at a hearing at which the student or a designated representative have appeared.
(iv) If no one has appeared on the students behalf within a reasonable time after the announced
time for the hearing, the hearing authority shall determine whether the student, through the
parent, received notice of the hearing. If so, the hearing authority shall review the schools’
evidence to determine whether it is sufficient to support the charges(s) of misconduct.
(v) A hearing authority who is also a disciplinarian shall impose an appropriate sanction if (s)he
finds that the allegations of misconduct have been proved under the standards of either
Subsection G, Paragraph (4), Subparagraph (I), Sub-subparagraph (iii) or Sub-subparagraph (iv)
of Section 6.11.2.12 NMAC above. A hearing authority who is not a disciplinarian shall report its
findings, together with any recommended sanction, to the disciplinarian promptly after the
hearing.
(vi) Arrangements to make a tape recording or keep minutes of the proceed
ings shall be made by the administrative authority who scheduled the hearing and prepared the written notice. A
verbatim written transcript is not required, but any minutes or other written record shall fairly
reflect the substance of the evidence presented.
(vii) The hearing authority may announce a decision on the question of whether the allegation(s)
of misconduct have been proved at the close of the hearing. A hearing authority who is also a
disciplinarian may also impose a penalty at the close of the hearing.
(viii) In any event, the hearing authority shall prepare and mail or deliver to the student, through
the parent, a written decision within five (5) working days after the hearing. The decision shall
include a concise summary of the evidence upon which the hearing authority based its factual
determinations. A hearing authority who is also a disciplinarian shall include in the report a
statement of the penalty, if any, to be imposed, and shall state reasons for the chosen penalty. A
hearing authority who is not a disciplinarian shall forward a copy of his or her written decision to
the disciplinarian forthwith. The disciplinarian shall prepare a written decision, including reasons
for choosing any penalty imposed, and mail or deliver it to the student, through the parent, within
five (5) working days of receipt of the hearing authority's report.
(ix) A disciplinarian who is not a hearing authority may observe but not participate in the
proceedings at a formal hearing. If the disciplinarian has done so and if the hearing authority
announces a decision at the close of the hearing, the disciplinarian may also announce his or her
decision at that time.
(x) The disciplinarian's decision shall take effect immediately upon initial notification to the parent,
either at the close of the hearing or upon receipt of the written decision. If initial notification is by
mail, the parent shall be presumed to have received the notice on the fifth calendar day after the
date of mailing unless a receipt for certified mail, if used, indicates a different date of receipt.
(m) Effect of decision. If the hearing authority decides that no allegation(s) of misconduct have been
proved, or if the disciplinarian declines to impose a penalty despite a finding that an act or acts of
misconduct have been proved, the matter shall be closed. If the disciplinarian imposes any sanction
on the student, the decision shall take effect immediately upon notification to the parent and shall
continue in force during any subsequent review.
(n) Right of review. Unless the local school board was the disciplinarian, a student aggrieved by a
disciplinarian's decision after a formal hearing shall have the right to have the decision reviewed if
the penalty imposed was at least as severe as a long-term suspension or expulsion, an in-school
suspension exceeding one school semester or a denial or restriction of student privileges for one
semester or longer. A local school board may grant a right of review for less severe penalties. Local
school boards shall establish appropriate mechanisms for review except where the local board was
the disciplinarian, in which case its decision is final and not reviewable administratively. A student
request for review must be submitted to the review authority within ten (10) school days after the student is informed of the disciplinarian's decision.

(o) Conduct of review. Unless the local board provides otherwise, a review authority shall have discretion to modify the disciplinarian's decision, including imposing any lesser sanction deemed appropriate. A review authority shall be bound by the hearing authority's factual determinations unless the student persuades the review authority that a finding of fact was arbitrary, capricious or unsupported by substantial evidence or that new evidence which has come to light since the hearing and which could not with reasonable diligence have been discovered in time for the hearing would manifestly change the factual determination. Upon any such finding, the review authority shall have discretion to receive new evidence, reconsider evidence introduced at the hearing or conduct a de novo hearing. In the absence of any such finding, the review shall be limited to an inquiry into the appropriateness of the penalty imposed.

(p) Form of review. Unless the local board provides otherwise, a review authority shall have discretion to conduct a review on the written record of the hearing and decision in the case, to limit new submissions by the aggrieved student and school authorities to written materials or to grant a conference or hearing at which the student and his or her representative, and school authorities may present their respective views in person. Where a conference or hearing is granted, the record-keeping requirements of Subsection G., Paragraph (4), Sub-paragraph (I), Sub-sub-paragraph (vi) of Section 6.11.2.12 NMAC above apply.

(q) Timing of review. Except in extraordinary circumstances, a review shall be concluded no later than fifteen (15) working days after a student's written request for review is received by the appropriate administrative authority.

(r) Decision. A review authority may announce a decision at the close of any conference or hearing held on review. In any event, the review authority shall prepare a written decision, including concise reasons, and mail or deliver it to the disciplinarian, the hearing authority and the student, through the parent, within ten (10) working days after the review is concluded.

(s) Effect of decision. Unless the local school board provides otherwise, a review authority’s decision shall be the final administrative action to which a student is entitled.

6.11.2.7 Definitions.

D. "Detention" means requiring a student to remain inside or otherwise restricting his or her liberty at times when other students are free for recess or to leave school.

K. "In-school suspension" means suspending a student from one or more regular classes while requiring the student to spend the time in a designated area at the same school or elsewhere.

6.11.2.12 Procedure for detention, suspension and expulsions.

The authority of the state and of local school boards to prescribe and enforce standards of conduct for public school students must be exercised consistently with constitutional safeguards of individual student rights. [...] 

E. In-school suspension.
(1) In-school suspension may be imposed with or without further restriction of student privileges. Any student who is placed in an in-school suspension which exceeds ten (10) school days must be provided with an instructional program that meets both state and local educational requirements. Student privileges, however, may be restricted for longer than ten (10) school days.

(2) In-school suspensions of any length shall be accomplished according to the procedures for a temporary suspension as set forth above. A local school board may limit the length of in-school suspensions which may be accomplished under temporary suspension procedures. REGULATIONS

6.11.2.7. Definitions.
AA. “Temporary suspension” means the removal of a student from school for a specified period of 10 school days or less after a rudimentary hearing.

6.11.2.10. Enforcing rules of conduct.
I. Discipline of students with disabilities: Students with disabilities are not immune from school disciplinary processes, nor are they entitled to remain in a particular educational program when their behavior substantially impairs the education of other children in the program. However, the public schools are required by state law and regulations to meet the individual educational needs of students with disabilities to the extent that current educational expertise permits. Public school personnel may consider any unique circumstances on a case-by-case basis when determining whether a change of placement, consistent with the other requirements of 6.11.2.11 NMAC, is appropriate for a student with a disability who violates a code of conduct as provided in 34 CFR Sec. 300.530.

(2) Temporary suspensions of students with disabilities may be imposed in accordance with the normal procedures prescribed in Subsection D of 6.11.2.12 NMAC below, provided that the student is returned to the same educational placement after the temporary suspension and unless a temporary suspension is prohibited under the provisions of Paragraph (3) of Subsection I of 6.11.2.10 NMAC below.

Use of restraint and seclusion

LAWS

22-5-4.12. Use of restraint and seclusion; techniques; requirements.
A. A school may permit the use of restraint or seclusion techniques on any student only if both of the following apply:
   (1) the student's behavior presents an imminent danger of serious physical harm to the student or others; and
   (2) less restrictive interventions appear insufficient to mitigate the imminent danger of serious physical harm.
B. If a restraint or seclusion technique is used on a student:
(1) school employees shall maintain continuous visual observation and monitoring of the student while the restraint or seclusion technique is in use;
(2) the restraint or seclusion technique shall end when the student's behavior no longer presents an imminent danger of serious physical harm to the student or others;
(3) the restraint or seclusion technique shall be used only by school employees who are trained in the safe and effective use of restraint and seclusion techniques unless an emergency situation does not allow sufficient time to summon those trained school employees;
(4) the restraint technique employed shall not impede the student's ability to breathe or speak; and
(5) the restraint technique shall not be out of proportion to the student's age or physical condition.
C. Schools shall establish policies and procedures for the use of restraint or seclusion techniques in a school safety plan; provided that:
(1) the school safety plan shall not be specific to any individual student; and
(2) any school safety plan shall be drafted by a planning team that includes at least one special education expert.
D. Schools shall establish reporting and documentation procedures to be followed when a restraint or seclusion technique has been used on a student. The procedures shall include the following provisions:
(1) a school employee shall provide the student's parent or guardian with written or oral notice on the same day that the incident occurred, unless circumstances prevent same-day notification. If the notice is not provided on the same day of the incident, notice shall be given within twenty-four hours after the incident;
(2) within a reasonable time following the incident, a school employee shall provide the student's parent or guardian with written documentation that includes information about any persons, locations or activities that may have triggered the behavior, if known, and specific information about the behavior and its precursors, the type of restraint or seclusion technique used and the duration of its use; and
(3) schools shall review strategies used to address a student's dangerous behavior if use of restraint or seclusion techniques for an individual student has occurred two or more times during any thirty-calendar-day period. The review shall include:
(a) a review of the incidents in which restraint or seclusion techniques were used and an analysis of how future incidents may be avoided, including whether the student requires a functional behavioral assessment; and
(b) a meeting of the student's individualized education program team, behavioral intervention plan team or student assistance team within two weeks of each use of restraint or seclusion after the second use within a thirty-calendar-day period to provide recommendations for avoiding future incidents requiring the use of restraint or seclusion.
E. If a school summons law enforcement instead of using a restraint or seclusion technique on a student, the school shall comply with the reporting, documentation and review procedures established pursuant to Subsection D of this section.
F. Policies regarding restraint and seclusion shall consider school district support and strategies for school employees to successfully reintegrate a student who has been restrained or secluded back into the school or classroom environment.
G. The provisions of this section shall not be interpreted as addressing the conduct of law enforcement or first responders.
H. The provisions of this section do not apply to any school located within a county juvenile detention center or a state-operated juvenile facility.
I. For the purposes of this section:
(1) “first responder” means a person based outside of a school who functions within the emergency medical services system and who is dispatched to a school to provide initial emergency aid;

(2) “mechanical restraint” means the use of any device or material attached or adjacent to the student's body that restricts freedom of movement or normal access to any portion of the student's body and that the student cannot easily remove, but “mechanical restraint” does not include mechanical supports or protective devices;

(3) “physical restraint” means the use of physical force without the use of any device or material that restricts the free movement of all or a portion of a student's body, but “physical restraint” does not include physical escort;

(4) “restraint” when not otherwise modified means mechanical or physical restraint; and

(5) “seclusion” means the involuntary confinement of a student alone in a room from which egress is prevented. "Seclusion" does not mean the use of a voluntary behavior management technique, including a timeout location, as part of a student's education plan, individual safety plan, behavioral plan or individualized education program that involves the student's separation from a larger group for purposes of calming.

If a student is in attendance up to one half the total instructional time during a school day, the student will be counted as having attended one-half of a school day. If the student attends school for more than one-half of the total instructional time, the student will be counted as having attended for the full day.

B. "Early identification" means the process by which school districts including charter schools promptly determine and identify students who have excessive absences and tardiness from an instructional day. To that end, a school-age person shall attend public school, private school, home school or a state institution until the school-age person is at least eighteen years of age unless that person has graduated from high school or received a general educational development certificate. (c) provides four days per semester of excused absences, in addition to the number of allowed absences for all students, for a student who provides appropriate documentation of pregnancy or that the student is the parent of a child under the age of thirteen needing care and allows the student a time period to make up the work that the student missed that equals the number of days the student was absent;

(a) if a student is in need of early intervention, the school district or charter school shall contact the student’s parent(s)/guardian(s) to inform them that the student has unexcused absences from school and to discuss possible interventions unless the parent(s)/guardian(s) has contacted the school to explain the absence and the excuse compiles with the school district attendance policy;

(b) a representative of the school district or charter school shall meet with the student in need of early intervention and his or her parent(s)/guardian(s) to identify the causes for the student’s unexcused absences, identify what actions can be taken that might prevent the student’s unexcused absences, identify possible school district, charter school and community resources to address the causes for the student’s unexcused absences, and establish a corrective action plan to address the student’s unexcused absences;

(c) the notification to the student’s parent(s)/guardian(s) and the meeting with the parent(s)/guardian(s) must be respectful and in a language and in manner that is understandable to the student and the parent(s)/guardian(s);

(d) the corrective action plan must contain follow-up procedures to ensure that the causes for the student’s unexcused absences are being addressed;

(e) if the student is a habitual truant, the local school board, charter school or their authorized representatives shall, in addition, give written notice of the habitual truancy by mail to or by personal
service on the student’s parent(s)/guardian(s); the notice shall include a date, time and place for the parent to meet with the local school district or charter to develop intervention strategies that focus on keeping the student in an educational setting;

(f) if there is another unexcused absence after delivery of a written notice of habitual truancy, the student shall within seven (7) days of this unexcused absence be reported to the probation services office of the judicial district where the student resides;

D. If a determination and finding has been made by the juvenile probation office that the habitual truancy by a student may have been caused by the parent or guardian of the student, and no charges have been filed against the parent or guardian, the school district may contact the district attorney’s office to determine what action will be taken.

E. A copy of the local school board or charter school’s attendance policy shall be provided to the public education department’s health education coordinator or designated staff for approval within ten (10) days of its adoption by the local school board or governing body of a charter school.

F. The public education department’s truancy prevention coordinator shall be permitted access to any records and information related to students in need of early intervention or habitual truancy in any school district, any particular school within a district, or any charter school.

6.10.8.9. Intergovernmental agreements.

In carrying out its duties under this rule and the compulsory school attendance law, school districts and charter schools shall take into consideration the sovereignty of a Native American tribe. While all children attending public schools will still be subject to being reported to the public education department if they are habitually truant, a school district or charter school shall respect tribal laws and traditions in carrying out its duties of early identification, intervention, and parental notification. To do so, school districts and charter schools shall adopt policies that:

6.10.8.11. Home schools.

Upon receipt of verified information that a school age child whose parent(s)/guardian(s) have previously filed a home school notification about that child with the department but that child has failed or refused to participate in, or is no longer being offered, any home-study program of instruction, the department may obtain a reasonable assurance from the parent(s) or guardian that the child is actually engaged in a home-study program of instruction. In addition to any other remedies permitted by the compulsory school attendance law or the children’s code, upon a determination that a home school student is repeatedly not (or no longer) engaged in a home-study program of instruction, the department may order that the home school habitual truant attend a public school, or at the election of his parent/guardian, a private school. Prior to pursuing these other remedies, the public education department shall make a reasonable effort to accommodate the parents'/guardians’ preference for maintaining their child in a home school.

6.10.8.12. Failure to comply with this rule.

Failure to comply with this rule may be good and just grounds for the suspension or revocation of a department-issued license or certificate, may result in notification by the department to the local school board, superintendent, school principal or governing body of a charter school that they have failed to meet requirements as prescribed by law or rules promulgated by the department, and may be grounds for seeking a court order to ensure compliance with the requirements of this rule.

A. Enforcing attendance requirements. Formal enforcement action under the Compulsory School Attendance Law, supra, and the Family Services Act, Section 32A-3A-1 et seq. NMSA 1978 shall be initiated whenever a student's absences indicate that the law is being violated. An administrative authority who has reason to believe a student is violating local school board attendance policies may take whatever further disciplinary action is deemed appropriate under local policies.
B. Search and seizure: School property assigned to a student and a student’s person or property while under the authority of the public schools are subject to search, and items found are subject to seizure, in accordance with the requirements below.

(1) Notice of search policy. Students shall be given reasonable notice, through distribution of written policies or otherwise, of each school's policy on searches at the beginning of each school year or upon admission for students entering during the school year.

(2) Who may search. Certified school personnel, school security personnel and school bus drivers are "authorized persons" to conduct searches when a search is permissible as set forth below. An authorized person who is conducting a search may request the assistance of some other person(s), who upon consent become(s) an authorized person for the purpose of that search only.

(3) When search permissible. Unless local school board policy provides otherwise, an authorized person may conduct a search when the authorized person has a reasonable suspicion that a crime or other breach of disciplinary rules is occurring or has occurred. An administrative authority may direct or conduct a search under the same conditions and also when the administrative authority has reasonable cause to believe that a search is necessary to help maintain school discipline.

(4) Conduct of searches; witnesses. The following requirements govern the conduct of permissible searches by authorized persons.

(a) School property, including lockers and school buses, may be searched with or without students present unless a local school board or administrative authority provides otherwise. When students are not present for locker searches, another authorized person shall serve as a witness whenever possible. Locks furnished by students should not be destroyed unless a student refuses to open one or circumstances otherwise render such action necessary in the judgment of the administrative authority.

(b) Student vehicles when on campus or otherwise under school control and students' personal effects which are not within their immediate physical possession may be searched in accordance with the requirements for locker searches.

(c) Physical searches of a student’s person may be conducted only by an authorized person who is of the same sex as the student, and except when circumstances render it impossible may be conducted only in the presence of another authorized person of the same sex. The extent of the search must be
reasonably related to the infraction, and the search must not be excessively intrusive in light of the student's age and sex, and the nature of the infraction.

(5) Seizure of items: Illegal items, legal items which threaten the safety or security of others and items which are used to disrupt or interfere with the educational process may be seized by authorized persons. Seized items shall be released to appropriate authorities or a student's parent or returned to the student when and if the administrative authority deems appropriate.

(6) Notification of law enforcement authorities: Unless a local school board policy provides otherwise, an administrative authority shall have discretion to notify the local children's court attorney, district attorney or other law enforcement officers when a search discloses illegally possessed contraband material or evidence of some other crime or delinquent act.

C. Basis for disciplinary action: A student may appropriately be disciplined by administrative authorities in the following circumstances:

(1) for committing any act which endangers the health or safety of students, school personnel or others for whose safety the public school is responsible, or for conduct which reasonably appears to threaten such dangers if not restrained, regardless of whether an established rule of conduct has been violated;

(2) for violating valid rules of student conduct established by the local school board or by an administrative authority to whom the board has delegated rulemaking authority, when the student knew or should have known of the rule in question or that the conduct was prohibited; or

(3) for committing acts prohibited by this rule, when the student knew or should have known that the conduct was prohibited.

D. Selection of disciplinary sanctions: Within legal limits as defined in Subsection L of 6.11.2.7 NMAC above, local school boards have discretion to determine the appropriate sanction(s) to be imposed for violations of rules of student conduct, or to authorize appropriate administrative authorities to make such determinations.

(1) School discipline and criminal charges: Appropriate disciplinary actions may be taken against students regardless of whether criminal charges are also filed in connection with an incident.

(2) Nondiscriminatory enforcement: Local school boards and administrative authorities shall not enforce school rules or impose disciplinary punishments in a manner which discriminates against any student on the basis of race, religion, color, national origin, ancestry, sex, or disability, except to the extent otherwise permitted or required by law or regulation. This statement shall not be construed as requiring identical treatment of students for violation of the same rule; it shall be read as prohibiting differential treatment, which is based on race, religion, color, national origin, ancestry, sex, or disability rather than on other differences in individual cases or students.

E. Restraint and seclusion: In accordance with Section 22-5-4.12 NMSA 1978, each school shall follow requirements for the use of restraint and seclusion techniques.

(1) Schools shall establish and review annually policies and procedures, as approved by the local school board or governing body, for the use of restraint and seclusion techniques. Such policies and procedures shall require and describe appropriate training for school personnel and shall include requirements in relation to the use of restraint and seclusion techniques.

(a) A school may permit the use of restraint and seclusion techniques on any student pursuant to the requirements in Section 22-5-4.12 NMSA 1978.

(b) Less restrictive interventions, including positive behavioral intervention supports or other comparable behavior management techniques, shall be implemented prior to the use of restraint and seclusion techniques.
(c) If a restraint or seclusion technique is used on a student, trained and authorized school employees shall maintain continuous visual observation and monitoring of the student while the restraint or seclusion technique is in use, pursuant to the requirements in Section 22-5-4.12 NMSA 1978.

(1) Public schools shall develop discipline policies and procedures that are reviewed at least annually and align with local school board or governing body policies. Policies and procedures shall:

(a) through professional development activities, create an awareness among educators and administrators of the types of behaviors that students experiencing homelessness may exhibit due to homelessness and provide strategies and supports to address the behaviors through the student assistance team process in accordance with Subsection D of 6.29.1.9 NMAC;

The collection and review of such records shall be in compliance with the Family Educational Rights and Privacy Act, as well as any other applicable federal or state laws or rules governing the privacy of such documents.

I. Discipline of students with disabilities: Students with disabilities are not immune from school disciplinary processes, nor are they entitled to remain in a particular educational program when their behavior substantially impairs the education of other children in the program. However, the public schools are required by state law and regulations to meet the individual educational needs of students with disabilities to the extent that current educational expertise permits. Public school personnel may consider any unique circumstances on a case-by-case basis when determining whether a change of placement, consistent with the other requirements of 6.11.2.11 NMAC, is appropriate for a student with a disability who violates a code of conduct as provided in 34 CFR Sec. 300.530.

(3) Program prescriptions. A student with a disability’s individualized education program (IEP), under the Individuals with Disabilities Education Improvement Act of 2004 (IDEA), need not affirmatively authorize disciplinary actions which are not otherwise in conflict with this rule. However, the IEP team may prescribe or prohibit specified disciplinary measures for an individual student with a disability by including appropriate provisions in the student’s IEP. Administrative authorities shall adhere to any such provisions contained in a student with a disability’s IEP, except that an IEP team may not prohibit the initiation of proceedings for long-term suspension or expulsion which are conducted in accordance with this rule.

(4) Immediate removal. Immediate removal of students with disabilities may be done in accordance with the procedures of Subsection C of 6.11.2.12 NMAC below.

(5) A student who has not been determined to be eligible for special education and related services under 6.31.2 NMAC and who has engaged in behavior that violated a code of student conduct may assert any of the protections provided for in this subsection if the conditions set forth in 34 CFR Sec. 300.534 have been met.

(6) Referral to and action by law enforcement and judicial authorities.

(a) Nothing in these rules of conduct prohibits an administrative authority from reporting a crime committed by a student with a disability to appropriate authorities or prevents state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a student with a disability.

(b) Transmittal of records.
(i) An administrative authority reporting a crime committed by a student with a disability must ensure that copies of the special education and disciplinary records of the student are transmitted, for consideration by the appropriate authorities, to whom the administrative authority reports the crime.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Where a pupil has been suspended in accordance with this subdivision by a superintendent of schools, district superintendent of schools, or community superintendent, the superintendent shall personally hear and determine the proceeding or may, in his discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him. A record of the hearing shall be maintained, but no stenographic transcript shall be required, and a tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof. An appeal will lie from the decision of the superintendent to the board of education who shall make its decision solely upon the record before it. The board may adopt in whole or in part the decision of the superintendent of schools. Where the basis for the suspension is, in whole or in part, the possession on school grounds or school property by the student of any firearm, rifle, shotgun, dagger, dangerous knife, dirk, razor, stiletto or any of the weapons, instruments or appliances specified in subdivision one of section 265.01 of the penal law, the hearing officer or superintendent shall not be barred from considering the admissibility of such weapon, instrument or appliance as evidence, notwithstanding a determination by a court in a criminal or juvenile delinquency proceeding that the recovery of such weapon, instrument or appliance was the result of an unlawful search or seizure.

(2) Where a pupil has been suspended in accordance with this section by a board of education, the board may in its discretion hear and determine the proceeding or appoint a hearing officer who shall have the same powers and duties with respect to the board that a hearing officer has with respect to a superintendent where the suspension was ordered by him. The findings and recommendations of the hearing officer conducting the proceeding shall be advisory and subject to final action by the board of education, each member of which shall before voting review the testimony and acquaint himself with the evidence in the case. The board may reject, confirm or modify the conclusions of the hearing officer.

g. Discipline of students with disabilities and students presumed to have a disability for discipline purposes.

(1) Notwithstanding any other provision of this subdivision to the contrary, a student with a disability as such term is defined in section forty-four hundred one of this chapter and a student presumed to have a disability for discipline purposes, may be suspended or removed from his or her current educational placement for violation of school rules only in accordance with the procedures established in this section, the regulations of the commissioner implementing this paragraph, and subsection (k) of section fourteen hundred fifteen of title twenty of the United States code and the federal regulations implementing such statute, as such federal law and regulations are from time to time amended. Nothing in this paragraph shall be construed to confer greater rights on such students than are conferred under applicable federal law and regulations, or to limit the ability of a school district to change the educational placement of a student with a disability in accordance with the procedures in article eighty-nine of this chapter.

(2) As used in this paragraph, a "student presumed to have a disability for discipline purposes" shall mean a student who the school district is deemed to have knowledge was a student with a disability before the behavior that precipitated disciplinary action under the criteria in subsection (k)(8) of section fourteen hundred fifteen of title twenty of the United States code and the federal regulations implementing such statute.
(3) In applying the federal law consistent with this section:

(i) in the event of a conflict between the procedures established in this section and those established in subsection (k) of section fourteen hundred fifteen of title twenty of the United States code and the federal regulations implementing such statute, such federal statute and regulations shall govern.

(ii) the trustees or board of education of any school district, a district superintendent of schools or a building principal shall have authority to order the placement of a student with a disability into an appropriate interim alternative educational setting, another setting or suspension for a period not to exceed five consecutive school days where such student is suspended pursuant to this subdivision and, except as otherwise provided in clause (vi) of this subparagraph, the suspension does not result in a change in placement under federal law.

(iii) the superintendent of schools of a school district, either directly or upon recommendation of a hearing officer designated pursuant to paragraph c of this subdivision, may order the placement of a student with a disability into an interim alternative educational setting, another setting or suspension for up to ten consecutive school days, inclusive of any period in which the student is placed in an appropriate interim alternative educational placement, another setting or suspension pursuant to clause (ii) of this subparagraph for the behavior, where the superintendent determines in accordance with the procedures set forth in this subdivision that the student has engaged in behavior that warrants a suspension, and, except as otherwise provided in clause (vi) of this subparagraph, the suspension does not result in a change in placement under federal law.

(iv) the superintendent of schools of a school district, either directly or upon recommendation of a hearing officer designated pursuant to paragraph c of this subdivision, may order the change in placement of a student with a disability to an interim alternative educational setting for up to forty-five days, but not to exceed the period of suspension ordered by a superintendent in accordance with this subdivision, under the circumstances specified in subsection (k)(1) of section fourteen hundred fifteen of title twenty of the United States code and the federal regulations implementing such statute.

(v) the terms "day," "business day," and "school day" shall be as defined in section 300.9 of title thirty-four of the code of federal regulations.

(vi) notwithstanding any other provision of this subdivision to the contrary, upon a determination by the committee on special education that the behavior of a student with a disability was not a manifestation of the student's disability, such student may be disciplined pursuant to this section in the same manner as a nondisabled student, except that such student shall continue to receive services to the extent required under federal law and regulations.

(vii) an impartial hearing officer appointed pursuant to subdivision one of section forty-four hundred four of this chapter may order a change in placement of a student with a disability to an appropriate interim alternative educational setting for not more than forty-five days under the circumstances specified in subsections (k)(2) and (k)(7) of section fourteen hundred fifteen of title twenty of the United States code and the federal regulations implementing such statutes, provided that such procedure may be repeated, as necessary.

(viii) nothing in this section shall be construed to authorize the suspension or removal of a student with a disability from his or her current educational placement for violation of school rules following a determination by the committee on special education that the behavior is a manifestation of the student's disability, except as authorized under federal law and regulations.

(ix) the commissioner shall implement this paragraph by adopting regulations which coordinate the procedures required for discipline of students with disabilities, and students presumed to have a disability for discipline purposes, pursuant to subsection (k) of section fourteen hundred fifteen of
title twenty of the United States code and the federal regulations implementing such statute, with the general procedures for student discipline under this section.

REGULATIONS

8 CRR-NY 100.2 (l)(1) School conduct and discipline.
1. Policy on school conduct and discipline.
   i. On or before January 1, 1986 each school district shall adopt and implement a written policy on school conduct and discipline … and shall include:
      d. procedures within each building to involve pupil service personnel, administrators, teachers, parents and students in the early identification and resolution of discipline problems. For students identified as having a disability, such policy shall include procedures for determining when a student's conduct shall constitute a reason for referral to the committee of special education for review and modification if appropriate of the student's individualized education program;

8 CRR-NY 100.2 (l)(2) Code of conduct.
   ii. The code of conduct shall include, but is not limited to:
      j. provisions ensuring such code and the enforcement thereof are in compliance with State and Federal laws relating to students with disabilities;

8 CRR-NY 201.1. Purpose.
The purpose of this Part is to implement the procedural protections of paragraph g of subdivision 3 of section 3214 and subdivision 1 of section 4404 of the Education Law relating to student discipline by coordinating the general procedures for suspension of students under Education Law section 3214 with the requirements of section 615(k) of the Individuals with Disabilities Education Act (20 U.S.C. section 1415[k]) and the Federal regulations implementing such statute.

8 CRR-NY 201.2. Definitions.
As used in this Part, the following terms shall have the following meanings:
   (a) Behavioral intervention plan means a plan that is based on the results of the functional behavioral assessment and, at a minimum, includes a description of the problem behavior, global and specific hypotheses as to why the problem behavior occurs and intervention strategies that include positive behavioral supports and services to address the behavior.
   (b) Committee on special education or CSE means a committee on special education, subcommittee on special education, or other multidisciplinary team established in accordance with Education Law section 4402 or, in the case of a preschool student with a disability, the committee on preschool special education.

   (1) for more than 10 consecutive school days; or
   
   (2) for a period of 10 consecutive days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year; because the student’s behavior is substantially similar to the student’s behavior in previous incidents that resulted in the series of removals; and because of such additional factors as the length of each suspension or removal, the total amount of time the student has been removed and the proximity of the suspensions or removals to one another. The school district determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

(f) Expedited due process hearing means an impartial hearing conducted in an expedited manner under the circumstances and in accordance with the procedures specified in section 201.11 of this Part.

(g) Expedited evaluation means an individual evaluation conducted in an expedited manner under the circumstances and in accordance with the procedures specified in section 201.6 of this Part.

(k) Interim alternative educational setting or IAES means a temporary educational placement, other than the student's current placement at the time the behavior precipitating the IAES placement occurred. A student who is placed in an IAES shall:

   (1) continue to receive educational services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student’s IEP; and
   
   (2) receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur.
(l) Removal means:

(1) a removal of a student with a disability for disciplinary reasons from that student’s current educational placement, other than a suspension as defined in subdivision (r) of this section; and

(2) the change in placement of a student with a disability to an IAES by an impartial hearing officer pursuant to section 201.8 of this Part. Such term shall also include the change of placement of a student with a disability to an IAES pursuant to section 201.7(e) of this Part made in conjunction with a suspension.

(r) Suspension means suspension pursuant to Education Law section 3214(3)(a) through (d).

(s) Weapon means a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than two and one-half inches in length.

8 CRR-NY 201.3. CSE responsibilities for functional behavioral assessments and behavioral intervention plans.

If the manifestation team pursuant to section 201.4 of this Part, makes the determination that the conduct subject to the disciplinary action was a manifestation of the student’s disability, the CSE must either:

(a) conduct a functional behavioral assessment, unless the school district had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the student; or

(b) if a behavioral intervention plan has already been developed, review the behavioral intervention plan and modify it as necessary to address the behavior.

8 CRR-NY 201.4. Manifestation determinations.

(a) General requirement for manifestation review. A review of the relationship between the student’s disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability must be made immediately, if possible, but in no case later than 10 school days after:

(1) a decision is made by a superintendent of schools to change the placement of a student to an interim alternative educational setting pursuant to section 201.7(e) of this Part; or

(2) a decision is made by an impartial hearing officer to place a student in an interim alternative educational setting pursuant to section 201.8 of this Part; or
(3) a decision is made by a board of education, district superintendent of schools, building principal or superintendent pursuant to section 201.7(a) or (b) of this Part to impose a suspension that constitutes a disciplinary change in placement.

(b) Individuals to carry out review. A review described in subdivision (a) of this section shall be conducted by a manifestation team in a meeting, which shall include a representative of the school district knowledgeable about the student and the interpretation of information about child behavior, the parent and relevant members of the CSE as determined by the parent and the school district. The parent must receive written notification prior to any manifestation team meeting to ensure that the parent has an opportunity to attend. The notification shall inform the parent of the purpose of the meeting, the names of the individuals expected to attend and inform the parent of his or her right to have relevant members of the CSE participate at the parent’s request.

c) Conduct of review. The manifestation team shall review all relevant information in the student’s file including the student’s IEP, any teacher observations, and any relevant information provided by the parents to determine if:

(1) the conduct in question was caused by or had a direct and substantial relationship to the student’s disability; or

(2) the conduct in question was the direct result of the school district’s failure to implement the IEP.

d) Determination.

(1) The conduct must be determined to be a manifestation of the student’s disability if the manifestation team determines that a condition in either paragraph (c)(1) or (2) of this section was met.

(2) If the manifestation team determines that the conduct was a manifestation of the student’s disability, the CSE shall:

(i) conduct a functional behavioral assessment and implement a behavioral intervention plan for such student in accordance with section 201.3 of this Part; and

(ii) except as provided in section 201.7(e) of this Part, return the student to the placement from which the student was removed, unless the parent and the school district agree to a change of placement as part of the modification of the behavioral intervention plan.

e) Deficiencies in IEP. If the manifestation team determines the conduct in question was the direct result of the school district’s failure to implement the IEP, the school district must take immediate steps to remedy those deficiencies.

8 CRR-NY 201.5. Students presumed to have a disability for discipline purposes.

(a) General provision. The parent of a student who has violated any rule or code of conduct of the school district and was not identified as a student with a disability at the time of such behavior may assert any of the protections set forth in this Part, if the school district is deemed to have had knowledge as determined in accordance with subdivision (b) of this section, that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred. Where the school district is deemed to have had knowledge that the student was a student with a disability before such behavior occurred, such student is a “student presumed to have a disability for discipline purposes.”

(b) Basis of knowledge. Except as otherwise provided in subdivision (c) of this section, a school district shall be deemed to have knowledge that such student had a disability if prior to the time the behavior occurred:

(1) the parent of such student has expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency or to a teacher of the student that the student is in need of special education, provided that such expression of concern may be oral if the parent does not know how to write or has a disability that prevents a written statement; or
(2) the parent of the student has requested an evaluation of the student pursuant to section 200.4 or 200.16 of this Title; or

(3) a teacher of the student, or other personnel of the school district, has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the director of special education of the school district or to other supervisory personnel of the school district.

(c) Exception. A student is not a student presumed to have a disability for discipline purposes if, as a result of receiving the information specified in subdivision (b) of this section:

(1) the parent of the student has not allowed an evaluation of the student pursuant to section 200.4 of this Title; or

(2) the parent of the student has refused services under this Part; or

(3) it was determined that the student is not a student with a disability pursuant to section 200.4 or 200.16 of this Title.

(d) Responsibility for determining whether a student is a student presumed to have a disability. If it is claimed by the parent of the student or by school district personnel that the school district had a basis for knowledge, in accordance with paragraph (b) of this section, that the student was a student with a disability prior to the time the behavior subject to disciplinary action occurred, it shall be the responsibility of the superintendent of schools, building principal or other school official imposing the suspension or removal to determine whether the student is a student presumed to have a disability.

(e) Conditions that apply if there is no basis for knowledge. If the superintendent of schools, building principal or other school official imposing the disciplinary removal determines that there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other nondisabled student who engaged in comparable behaviors. However, if a request for an individual evaluation is made while such nondisabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted in accordance with 201.6 of this Part.

8 CRR-NY 201.6. CSE responsibilities for expedited evaluations.

(a) If a request for an individual evaluation is made during the period that a nondisabled student, who is not a student presumed to have a disability for discipline purposes, is suspended pursuant to Education Law section 3214 or is subjected to a removal as defined in section 201.2(l) of this Part if imposed on a student with a disability, the evaluation must be conducted in an expedited manner in accordance with this section.

(b) An expedited evaluation shall be completed no later than 15 school days after receipt of parent consent for evaluation, and shall be conducted in accordance with the procedural requirements of sections 200.4 and 200.5 of this Title. The CSE shall make a determination of eligibility of such student in a meeting held no later than five school days after completion of the expedited evaluation.

(c) Until the expedited evaluation is completed, the nondisabled student shall remain in the educational placement determined by the school district, which can include suspension.

(d) If, as a result of an expedited evaluation, the student is determined to be a student with a disability, the school district shall provide special education to the student pursuant to Part 200 of this Title and the provisions of this Part relating to students with disabilities shall apply.

8 CRR-NY 201.7. General procedures for suspensions and removals of students with disabilities.

(a) Parental notice of disciplinary removal. No later than the date on which a decision is made to change the placement of a student with a disability to an IAES pursuant to subdivision (e) of this section or pursuant to section 201.8 of this Part, or a decision is to impose a suspension or removal pursuant to this
Part that constitutes a disciplinary change in placement, the parent shall be notified of such decision and shall be provided the procedural safeguards notice in accordance with section 200.5(f) of this Title.

(b) Five school day suspension or removal. Except as otherwise provided in subdivision (d) of this section, the trustees or board of education of any school district, a district superintendent of schools or a building principal with authority to suspend students pursuant to Education Law section 3214(3)(b) and (g), shall have authority to order the placement of a student with a disability into an appropriate interim alternative educational setting, another setting or suspension for a period not to exceed five consecutive school days, and not to exceed the amount of time that a nondisabled student would be subject to suspension for the same behavior.

(c) Ten school day suspension or removal. Except as otherwise provided in subdivision (d) of this section, a superintendent of schools, either directly or upon recommendation of a hearing officer designated to conduct a superintendent's hearing pursuant to Education Law, section 3214(3)(c) and (g), may order the placement of a student with a disability into an interim alternative educational setting, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed pursuant to subdivision (b) of this section for the same behavior, where the superintendent determines in accordance with the procedures set forth in Education Law section 3214(3)(c) that the student has engaged in behavior that warrants a suspension, provided that the duration of any such suspension or removal shall not exceed the amount of time that a nondisabled student would be subject to suspension for the same behavior. Except as otherwise provided in subdivision (d) of this section, a superintendent of schools may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct.

(d) Exception for pattern of suspensions or removals. A student with a disability may not be removed pursuant to subdivision (b) or (c) of this section if imposition of the 5 school day or 10 school day suspension or removal would result in a disciplinary change in placement based on a pattern of suspensions or removals as determined by school personnel in accordance with the criteria set forth in section 201.2(e)(2) of this Part, except where the manifestation team pursuant to section 201.4 of this Part has determined that the behavior was not a manifestation of such student's disability, or the student is placed in an IAES as authorized under subdivision (e) of this section.

(e) Change in placement to an IAES for behavior involving serious bodily injury, weapons, illegal drugs or controlled substances.

1. A superintendent of schools, either directly or upon recommendation of a hearing officer designated to conduct a superintendent's hearing pursuant to Education Law, section 3214(3)(c), may order the change in placement of a student with a disability to an appropriate IAES, to be determined by the CSE, for up to 45 school days, but not to exceed the period of suspension ordered by the superintendent in accordance with Education Law, section 3214(3), where the student:

   (i) has inflicted serious bodily injury, as defined in section 201.2(m) of this Part, upon another person while at school, on school premises or at a school function under the jurisdiction of the educational agency;

   (ii) carries or possesses a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of the educational agency; or

   (iii) knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises or at a school function under the jurisdiction of the educational agency.

2. The period of suspension or removal ordered by the superintendent may not exceed the amount of time that a nondisabled student would be suspended for the same behavior.
(f) School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement consistent with the other requirements of this Part is appropriate for a student with a disability who violates a school district’s code of student conduct.

8 CRR-NY 201.8. Authority of impartial hearing officer to order a change in placement to an IAES in a dangerous situation.

(a) An impartial hearing officer appointed pursuant to Education Law section 4404(1), in an expedited due process hearing conducted pursuant to section 201.11 of this Part, may order a change in placement of a student with a disability to an appropriate interim alternative educational setting (IAES) for not more than 45 school days, if the hearing officer determines that maintaining the current placement of the student is substantially likely to result in injury to the student or others.

(b) The procedures established in this section may be repeated if the school district believes that returning the student to the original placement is substantially likely to result in injury to the student or others.

(c) A school district shall not be required to commence disciplinary action against a student with a disability as a prerequisite for initiating an expedited due process hearing to obtain an order of an impartial hearing officer pursuant to this section.

(d) A determination that the student’s behavior is a manifestation of the student’s disability shall not preclude an impartial hearing officer from ordering a change in placement to an IAES pursuant to this section.

8 CRR-NY 201.9. Coordination with superintendent’s hearing and other due process procedures applicable to all students.

(a) Procedures for suspensions of five school days or less. In the case of a suspension for five consecutive school days or less pursuant to paragraph b of subdivision 3 of section 3214 of the Education Law and section 201.7(b) of this Part, the parents or persons in parental relation to the student shall be provided an opportunity for an informal conference in accordance with paragraph d of subdivision 3 of section 3214 of the Education Law.

(b) Procedures for removals other than suspensions. A removal of a student with a disability, as defined in Section 201.2(l) of this Part, to which the provisions of paragraphs (a) through (d) of subdivision 3 of section 3214 of the Education Law do not apply, other than a change in placement to an IAES, shall be conducted in accordance with the due process procedures applicable to such removals of nondisabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless there has been a determination that the behavior is not a manifestation of the student’s disability. The removal of a student with a disability to an IAES shall be conducted in accordance with the applicable provisions of section 201.7(e) of this Part and paragraph (c)(3) of this section, or of section 201.8 of this Part.

(c) Procedures for suspensions of more than five school days (superintendent’s hearings). Superintendent’s hearings on disciplinary charges against students with disabilities and students presumed to have a disability for discipline purposes shall be bifurcated into a guilt phase and a penalty phase and conducted in accordance with the following procedures:

   (1) The superintendent of schools or hearing officer in the superintendent’s hearing shall proceed with the guilt phase and determine whether the student is guilty of the alleged misconduct. If it is determined that the student is guilty of the alleged misconduct, the superintendent of schools or hearing officer in the superintendent’s hearing shall make a threshold determination of whether a suspension or removal in excess of 10 consecutive school days or that would otherwise constitute a disciplinary change in placement should be considered. If the threshold determination is that such a suspension or removal
should be considered, before the superintendent of schools orders or the hearing officer in the superintendent's hearing recommends any such removal, the superintendent's hearing shall be adjourned until a manifestation determination is made by the manifestation team, except as otherwise provided in paragraph (3) of this subdivision. If the superintendent of schools or hearing officer in the superintendent's hearing determines that a suspension or removal that would constitute a disciplinary change in placement should not be considered, the hearing shall proceed to the penalty phase.

(2) Upon a determination by the manifestation team that the behavior of a student with a disability was not a manifestation of the student's disability, such student may be disciplined in the same manner as a nondisabled student, except that such student shall continue to receive services in accordance with section 201.10 of this Part. Upon receipt of notice of such determination, the superintendent or hearing officer in the superintendent's hearing shall proceed with the penalty phase of the hearing. If the manifestation team determines that the behavior was a manifestation of the student's disability, the superintendent or hearing officer in the superintendent’s hearing shall dismiss the superintendent's hearing, except as otherwise provided in paragraph (3) of this subdivision.

(3) Notwithstanding the provisions of paragraphs (1) and (2) of this subdivision, if the superintendent or hearing officer in the superintendent's hearing is considering the change in placement of a student with a disability to an IAES pursuant to section 201.7(e) of this Part, upon a determination that the student is guilty of the alleged misconduct relating to serious bodily injury, weapons, illegal drugs or controlled substances, the superintendent of schools may order, or the hearing officer in the superintendent's hearing may recommend, such change in placement to an IAES, to be determined by the CSE, for up to 45 school days, but not to exceed the length of time that a nondisabled student would be suspended for the same misconduct under the school district's student discipline policy. The superintendent of schools may order such change in placement of a student with a disability to an IAES, directly or upon recommendation of a hearing officer in the superintendent's hearing, even where the manifestation team determines that the student's behavior is a manifestation of the student's disability.

(4) The penalty phase of a superintendent's hearing for a student with a disability or a student presumed to have a disability for discipline purposes shall be conducted in the same manner as the penalty phase of a hearing involving a nondisabled student, including the admission of anecdotal evidence of past instances of misconduct. The school district shall assure that copies of the special education and disciplinary records of the student are transmitted to the superintendent of schools or hearing officer in the superintendent's hearing for consideration. Such records shall be transmitted whether or not the manifestation team has determined that the student's behavior is a manifestation of the student's disability.

(5) Nothing in this section shall be construed to authorize the suspension or removal of a student with a disability from his or her current educational placement for violation of school rules following a determination by the manifestation team that the behavior is a manifestation of the student's disability, except where the student is placed in an IAES for behavior involving serious bodily injury, weapons, illegal drugs or controlled substances pursuant to section 201.7(e) of this Part or the student is placed in an IAES by an impartial hearing officer pursuant to section 201.8 of this Part.

8 CRR-NY 201.10. Provision of services during suspensions.

(a) During any period of suspension, a student with a disability shall be provided services to the extent required under this section and paragraph (e) of subdivision 3 of section 3214 of the Education Law. Nothing in this section shall be construed to confer a greater right to services than is required under Education Law, section 3214(3)(e) and Federal law and regulations.

(b) During suspensions or removals for periods of up to 10 school days in a school year that do not constitute a disciplinary change in placement, students with disabilities of compulsory attendance age shall be provided with alternative instruction pursuant to Education Law, section 3214(3)(e) on the same
basis as nondisabled students. Students with disabilities who are not of compulsory attendance age shall
be entitled to receive services during such suspensions only to the extent that services are provided to
nondisabled students of the same age who have been similarly suspended.

(c) During subsequent suspensions or removals for periods of 10 consecutive school days or less that in
the aggregate total more than 10 school days in a school year but do not constitute a disciplinary change
in placement, regardless of the manifestation determination, students with disabilities shall be provided
with services necessary to enable the student to continue to participate in the general education
curriculum and to progress toward meeting the goals set out in the student's IEP and to receive, as
appropriate, a functional behavioral assessment, behavioral intervention services and modifications that
are designed to address the behavior violation so it does not recur. School personnel, in consultation with
at least one of the student’s teachers, shall determine the extent to which services are needed, so as to
enable the student to continue to participate in the general education curriculum, although in another
setting, and to progress in meeting the goals set out in the student’s IEP.

(d) During suspensions or other disciplinary removals, including suspensions or removals pursuant to
section 201.7(e) of this Part, for periods in excess of 10 school days in a school year which constitute a
disciplinary change in placement, regardless of the manifestation determination, students with disabilities
shall be provided with services necessary to enable the student to continue to participate in the general
education curriculum, to progress toward meeting the goals set out in the student’s IEP, and to receive,
as appropriate pursuant to section 201.3 of this Part, a functional behavioral assessment, behavioral
intervention services and modifications that are designed to address the behavior violation so it does not
recur. The IAES and services shall be determined by the CSE.

8 CRR-NY 201.11. Expedited due process hearings.

(a) An expedited due process hearing shall be conducted pursuant to this Part under the following
circumstances:

(1) the school district requests an expedited due process hearing to obtain an order of an impartial
hearing officer placing a student with a disability in an IAES pursuant to section 201.8 of this Part where
school personnel maintain that it is dangerous for the student to be in his or her current educational
placement;

(2) the school district requests an expedited due process hearing to obtain an order of an impartial
hearing officer placing a student with a disability in an IAES during the pendency of due process
hearings where school personnel maintain that it is dangerous for the student to be in his or her current
educational placement during such proceedings;

(3) the parent requests a hearing from a determination that the student's behavior was not a
manifestation of the student's disability; or

(4) the parent requests a hearing relating to any decision regarding placement under section 201.7 of
this Part, including but not limited to any decision to place the student in an IAES.

(b) An expedited due process hearing shall be conducted in accordance with the procedures specified in
section 200.5(j) of this Title, except as follows:

(1) Upon receipt of or filing of a due process complaint notice for an expedited hearing, the board of
education shall arrange for an impartial hearing and the appointment of an impartial hearing officer
using the list in accordance with the rotational selection process established in section 200.2(e)(l) of this
Title and the administrative procedures established by the board of education pursuant to section
200.2(b)(9) of this Title.

(2) The impartial officer may not accept appointment unless available to hold the hearing and render the
decision within the time period for expedited hearings pursuant to paragraph (3) of this subdivision.
(3) The school district shall arrange the expedited due process hearing according to the following time period, unless the parent and school district agree in writing to waive the resolution meeting or agree to use mediation:

(i) A resolution meeting shall occur within seven days of receiving notice of the due process complaint.

(ii) The expedited due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of receipt of the due process complaint.

(iii) The expedited due process hearing shall occur within 20 school days of the date the complaint requesting the hearing is filed; and

(iv) The impartial hearing officer shall make a determination within 10 school days after the hearing.

(4) No extension to an expedited impartial hearing timeline may be granted.

(5) The impartial hearing officer shall mail a copy of the written, or at the option of the parents, electronic findings of fact and the decision to the parents, to the board of education and the Office of Special Education of the New York State Education Department within 10 school days after the hearing.

(c) If a parent requests a hearing or an appeal regarding the change in placement of a student to an IAES by a superintendent of schools, or regarding a change in placement by an impartial hearing officer pursuant to section 201.8 of this Part where the school district maintains that it is dangerous for the student to remain in his or her current educational placement, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the time period determined in accordance with section 201.7 or 201.8 of this Part, as applicable, whichever occurs first, unless the parents and the school district otherwise agree.

(d) When an expedited due process hearing has been requested because of a disciplinary change in placement, the manifestation determination or because the school district believes that maintaining the student in the current placement is likely to result in injury to the student or others, the student shall remain in the IAES pending the decision of the impartial hearing officer or until the expiration of the period of removal, whichever occurs first, unless the parent and the school district agree otherwise.

**LAWS**

**2801. Codes of conduct on school property.**

2. The board of education or the trustees, as defined in section two of this chapter, of every school district within the state, however created, and every board of cooperative educational services and county vocational extension board, shall adopt and amend, as appropriate, a code of conduct for the maintenance of order on school property, including a school function, which shall govern the conduct of students, teachers and other school personnel as well as visitors and shall provide for the enforcement thereof... Such code of conduct shall include, at a minimum:

f. procedures by which violations are reported, determined, discipline measures imposed and discipline measures carried out;

g. provisions ensuring such code and the enforcement thereof are in compliance with state and federal laws relating to students with disabilities;

**3214. Student placement, suspensions and transfers.**

3. Suspension of a pupil.
a. The board of education, board of trustees or sole trustee, the superintendent of schools, district superintendent of schools or principal of a school may suspend the following pupils from required attendance upon instruction: A pupil who is insubordinate or disorderly or violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

b. (1) The board of education, board of trustees, or sole trustee, superintendent of schools, district superintendent of schools and the principal of the school where the pupil attends shall have the power to suspend a pupil for a period not to exceed five school days. In the case of such a suspension, the suspending authority shall provide the pupil with notice of the charged misconduct. If the pupil denies the misconduct, the suspending authority shall provide an explanation of the basis for the suspension. The pupil and the person in parental relation to the pupil shall, on request, be given an opportunity for an informal conference with the principal at which the pupil and/or person in parental relation shall be authorized to present the pupil's version of the event and to ask questions of the complaining witnesses. The aforesaid notice and opportunity for an informal conference shall take place prior to suspension of the pupil unless the pupil's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the pupil's notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

(2) A teacher shall immediately report and refer a violent pupil to the principal or superintendent for a violation of the code of conduct and a minimum suspension period pursuant to section twenty-eight hundred one of this chapter.

c. (1) No pupil may be suspended for a period in excess of five school days unless such pupil and the person in parental relation to such pupil shall have had an opportunity for a fair hearing, upon reasonable notice, at which such pupil shall have the right of representation by counsel, with the right to question witnesses against such pupil and to present witnesses and other evidence on his behalf. Where a pupil has been suspended in accordance with this subdivision by a superintendent of schools, district superintendent of schools, or community superintendent, the superintendent shall personally hear and determine the proceeding or may, in his discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him. A record of the hearing shall be maintained, but no stenographic transcript shall be required, and a tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof. An appeal will lie from the decision of the superintendent to the board of education who shall make its decision solely upon the record before it. The board may adopt in whole or in part the decision of the superintendent of schools. Where the basis for the suspension is, in whole or in part, the possession on school grounds or school property by the student of any firearm, rifle, shotgun, dagger, dangerous knife, dirk, razor, stiletto or any of the weapons, instruments or appliances specified in subdivision one of section 265.01 of the penal law, the hearing officer or superintendent shall not be barred from considering the admissibility of such weapon, instrument or appliance as evidence, notwithstanding a determination by a court in a criminal or juvenile delinquency proceeding that the recovery of such weapon, instrument or appliance was the result of an unlawful search or seizure.

(2) Where a pupil has been suspended in accordance with this section by a board of education, the board may in its discretion hear and determine the proceeding or appoint a hearing officer who shall have the same powers and duties with respect to the board that a hearing officer has with respect to a superintendent where the suspension was ordered by him. The findings and recommendations of the hearing officer conducting the proceeding shall be advisory and subject to final action by the board of education, each member of which shall before voting review the testimony and acquaint himself with
the evidence in the case. The board may reject, confirm or modify the conclusions of the hearing officer.

d. Consistent with the federal gun-free schools act of nineteen hundred ninety-four, any public school pupil who is determined under this subdivision to have brought a weapon to school shall be suspended for a period of not less than one calendar year and any nonpublic school pupil participating in a program operated by a public school district using funds from the elementary and secondary education act of nineteen hundred sixty-five who is determined under this subdivision to have brought a weapon to a public school or other premises used by the school district to provide such programs shall be suspended for a period of not less than one calendar year from participation in such program. The procedures of this subdivision shall apply to such a suspension of a nonpublic school pupil. A superintendent of schools, district superintendent of schools or community superintendent shall have the authority to modify this suspension requirement for each student on a case-by-case basis. The determination of a superintendent shall be subject to review by the board of education pursuant to paragraph c of this subdivision and the commissioner pursuant to section three hundred ten of this chapter. Nothing in this subdivision shall be deemed to authorize the suspension of a student with a disability in violation of the individuals with disabilities education act or article eighty-nine of this chapter. A superintendent shall refer the pupil under the age of sixteen who has been determined to have brought a weapon to school in violation of this subdivision to a presentment agency for a juvenile delinquency proceeding consistent with article three of the family court act except a student fourteen or fifteen years of age who qualifies for juvenile offender status under subdivision forty-two of section 1.20 of the criminal procedure law. A superintendent shall refer any pupil sixteen years of age or older or a student fourteen or fifteen years of age who qualifies for juvenile offender status under subdivision forty-two of section 1.20 of the criminal procedure law, who has been determined to have brought a weapon to school in violation of this subdivision to the appropriate law enforcement officials.

e. Procedure after suspension. Where a pupil has been suspended pursuant to this subdivision and said pupil is of compulsory attendance age, immediate steps shall be taken for his or her attendance upon instruction elsewhere or for supervision or detention of said pupil pursuant to the provisions of article seven of the family court act. Where a pupil has been suspended or cause, the suspension may be revoked by the board of education whenever it appears to be for the best interest of the school and the pupil to do so. The board of education may also condition a student's early return to school and suspension revocation on the pupil's voluntary participation in counseling or specialized classes, including anger management or dispute resolution, where applicable.

f. Whenever the term “board of education or superintendent of schools” is used in this subdivision, it shall be deemed to include community boards of education and community superintendents governing community districts in accordance with the provisions of article fifty-two-A of this chapter. For the purpose of this subdivision, the term “weapon” means a firearm as such term is defined in section nine hundred twenty-one of title eighteen of the United States code.

g. Discipline of students with disabilities and students presumed to have a disability for discipline purposes.

(1) Notwithstanding any other provision of this subdivision to the contrary, a student with a disability as such term is defined in section forty-four hundred one of this chapter and a student presumed to have a disability for discipline purposes, may be suspended or removed from his or her current educational placement for violation of school rules only in accordance with the procedures established in this section, the regulations of the commissioner implementing this paragraph, and subsection (k) of section fourteen hundred fifteen of title twenty of the United States code and the federal regulations implementing such statute, as such federal law and regulations are from time to time amended. Nothing in this paragraph shall be construed to confer greater rights on such students
than are conferred under applicable federal law and regulations, or to limit the ability of a school district to change the educational placement of a student with a disability in accordance with the procedures in article eighty-nine of this chapter.

(2) As used in this paragraph, a "student presumed to have a disability for discipline purposes" shall mean a student who the school district is deemed to have knowledge was a student with a disability before the behavior that precipitated disciplinary action under the criteria in subsection (k)(8) of section fourteen hundred fifteen of title twenty of the United States code and the federal regulations implementing such statute.

(3) In applying the federal law consistent with this section:

(i) in the event of a conflict between the procedures established in this section and those established in subsection (k) of section fourteen hundred fifteen of title twenty of the United States code and the federal regulations implementing such statute, such federal statute and regulations shall govern.

(ii) the trustees or board of education of any school district, a district superintendent of schools or a building principal shall have authority to order the placement of a student with a disability into an appropriate interim alternative educational setting, another setting or suspension for a period not to exceed five consecutive school days where such student is suspended pursuant to this subdivision and, except as otherwise provided in clause (vi) of this subparagraph, the suspension does not result in a change in placement under federal law.

(iii) the superintendent of schools of a school district, either directly or upon recommendation of a hearing officer designated pursuant to paragraph c of this subdivision, may order the placement of a student with a disability into an interim alternative educational setting, another setting or suspension for up to ten consecutive school days, inclusive of any period in which the student is placed in an appropriate interim alternative educational placement, another setting or suspension pursuant to clause (ii) of this subparagraph for the behavior, where the superintendent determines in accordance with the procedures set forth in this subdivision that the student has engaged in behavior that warrants a suspension, and, except as otherwise provided in clause (vi) of this subparagraph, the suspension does not result in a change in placement under federal law.

(iv) the superintendent of schools of a school district, either directly or upon recommendation of a hearing officer designated pursuant to paragraph c of this subdivision, may order the change in placement of a student with a disability to an interim alternative educational setting for up to forty-five days, but not to exceed the period of suspension ordered by a superintendent in accordance with this subdivision, under the circumstances specified in subsection (k)(1) of section fourteen hundred fifteen of title twenty of the United States code and the federal regulations implementing such statute.

(v) the terms "day," "business day," and "school day" shall be as defined in section 300.9 of title thirty-four of the code of federal regulations.

(vi) notwithstanding any other provision of this subdivision to the contrary, upon a determination by the committee on special education that the behavior of a student with a disability was not a manifestation of the student's disability, such student may be disciplined pursuant to this section in the same manner as a nondisabled student, except that such student shall continue to receive services to the extent required under federal law and regulations.

(vii) an impartial hearing officer appointed pursuant to subdivision one of section forty-four hundred four of this chapter may order a change in placement of a student with a disability to an appropriate interim alternative educational setting for not more than forty-five days under the circumstances specified in subsections (k)(2) and (k)(7) of section fourteen hundred fifteen of title twenty of the...
United States code and the federal regulations implementing such statutes, provided that such procedure may be repeated, as necessary.

(viii) nothing in this section shall be construed to authorize the suspension or removal of a student with a disability from his or her current educational placement for violation of school rules following a determination by the committee on special education that the behavior is a manifestation of the student's disability, except as authorized under federal law and regulations.

(ix) the commissioner shall implement this paragraph by adopting regulations which coordinate the procedures required for discipline of students with disabilities, and students presumed to have a disability for discipline purposes, pursuant to subsection (k) of section fourteen hundred fifteen of title twenty of the United States code and the federal regulations implementing such statute, with the general procedures for student discipline under this section.

3-a. Teacher removal of a disruptive pupil. In addition, any teacher shall have the power and authority to remove a disruptive pupil, as defined in subdivision two-a of this section, from such teacher's classroom consistent with discipline measures contained in the code of conduct adopted by the board pursuant to section twenty-eight hundred one of this chapter. The school authorities of any school district shall establish policies and procedures to ensure the provision of continued educational programming and activities for students removed from the classroom pursuant to this subdivision and provided further that nothing in this subdivision shall authorize the removal of a pupil in violation of any state or federal law or regulation. No pupil shall return to the classroom until the principal makes a final determination pursuant to paragraph c of this subdivision, or the period of removal expires, whichever is less.

   a. Such teacher shall inform the pupil and the school principal of the reasons for the removal. If the teacher finds that the pupil's continued presence in the classroom does not pose a continuing danger to persons or property and does not present an ongoing threat of disruption to the academic process, the teacher shall, prior to removing the student from the classroom, provide the student with an explanation of the basis for the removal and allow the pupil to informally present the pupil's version of relevant events. In all other cases, the teacher shall provide the pupil with an explanation of the basis for the removal and an informal opportunity to be heard within twenty-four hours of the pupil's removal.

   b. The principal shall inform the person in parental relation to such pupil of the removal and the reasons therefor within twenty-four hours of the pupil's removal. The pupil and the person in parental relation shall, upon request, be given an opportunity for an informal conference with the principal to discuss the reasons for the removal. If the pupil denies the charges, the principal shall provide an explanation of the basis for the removal and allow the pupil and/or person in parental relation to the pupil an opportunity to present the pupil's version of relevant events. Such informal hearing shall be held within forty-eight hours of the pupil's removal.

   c. The principal shall not set aside the discipline imposed by the teacher unless the principal finds that the charges against the pupil are not supported by substantial evidence or that the pupil's removal is otherwise in violation of law or that the conduct warrants suspension from school pursuant to this section and a suspension will be imposed. The principal's determination made pursuant to this paragraph shall be made by the close of business on the day succeeding the forty-eight-hour period for an informal hearing contained in paragraph b of this subdivision.

   d. The principal may, in his or her discretion, designate a school district administrator, to carry out the functions required of the principal under this subdivision.

5. Involuntary transfers of pupils who have not been determined to be a student with a disability or a student presumed to have a disability for discipline purposes.

   a. The board of education, board of trustees or sole trustee, the superintendent of schools, or district superintendent of schools may transfer a pupil who has not been determined to be a student with a disability as defined in section forty-four hundred one of this chapter, or a student presumed to have a
disability for discipline purposes as defined in paragraph g of subdivision three of this section from regular classroom instruction to an appropriate educational setting in another school upon the written recommendation of the school principal and following independent review thereof. For purposes of this section of the law, "involuntary transfer" does not include a transfer made by a school district as part of a plan to reduce racial imbalance within the schools or as a change in school attendance zones or geographical boundaries.

b. A school principal may initiate a non-requested transfer where it is believed that such a pupil would benefit from the transfer, or when the pupil would receive an adequate and appropriate education in another school program or facility.

No recommendation for pupil transfer shall be initiated by the principal until such pupil and a person in parental relation has been sent written notification of the consideration of transfer recommendation. Such notice shall set a time and place of an informal conference with the principal and shall inform such person in parental relation and such pupil of their right to be accompanied by counsel or an individual of their choice.

c. After the conference and if the principal concludes that the pupil would benefit from a transfer or that the pupil would receive an adequate and appropriate education in another school program or facility, the principal may issue a recommendation of transfer to the superintendent. Such recommendation shall include a description of behavior and/or academic problems indicative of the need for transfer; a description of alternatives explored, and prior action taken to resolve the problem. A copy of that letter shall be sent to the person in parental relation and to the pupil.

d. Upon receipt of the principal's recommendation for transfer and a determination to consider that recommendation, the superintendent shall notify the person in parental relation and the pupil of the proposed transfer and of their right to a fair hearing as provided in paragraph c of subdivision three of this section and shall list community agencies and free legal assistance which may be of assistance. The written notice shall include a statement that the pupil or person in parental relation has ten days to request a hearing and that the proposed transfer shall not take effect, except upon written parental consent, until the ten day period has elapsed, or, if a fair hearing is requested, until after a formal decision following the hearing is rendered, whichever is later. Parental consent to a transfer shall not constitute a waiver of the right to a fair hearing.

6. Transfer of a pupil. Where a suspended pupil is to be transferred pursuant to subdivision five of this section, he or she shall remain on the register of the original school for two school days following transmittal of his or her records to the school to which he or she is to be transferred. The receiving school shall immediately upon receiving those records transmitted by the original school, review them to insure proper placement of the pupil. Staff members who are involved in the pupil's education must be provided with pertinent records and information relating to the background and problems of the pupil before the pupil is placed in a classroom.

REGULATIONS

8 CRR-NY 19.5. Prohibition of corporal punishment and aversive interventions.

(a) Prohibition of corporal punishment.

   (1) No teacher, administrator, officer, employee or agent of a school district in this State, a board of cooperative educational services (BOCES), a charter school, State-operated or State-supported school, an approved preschool program, an approved private school, an approved out-of-state day or residential school, or a registered nonpublic nursery, kindergarten, elementary or secondary school in this State, shall use corporal punishment against a pupil.

   (2) As used in this section, corporal punishment means any act of physical force upon a pupil for the purpose of punishing that pupil, except as otherwise provided in paragraph (3) of this subdivision.

   (3) In situations in which alternative procedures and methods not involving the use of physical force cannot reasonably be employed, nothing contained in this section shall be construed to prohibit the use of reasonable physical force for the following purposes:

       (i) to protect oneself from physical injury;

       (ii) to protect another pupil or teacher or any person from physical injury;

       (iii) to protect the property of the school, school district or others; or

       (iv) to restrain or remove a pupil whose behavior is interfering with the orderly exercise and performance of school or school district functions, powers and duties, if that pupil has refused to comply with a request to refrain from further disruptive acts.

(b) Prohibition of the use of aversive interventions.

   (1) No public school, BOCES, charter school, approved preschool program, approved private school, State-operated or State-supported school in this State, approved out-of-state day or residential school, or registered nonpublic nursery, kindergarten, elementary or secondary school in this State shall employ the use of aversive behavioral interventions to reduce or eliminate maladaptive behaviors, except as provided pursuant to section 200.22(e) and (f) of this Title.

   (2) As used in this section, aversive intervention means: an intervention that is intended to induce pain or discomfort to a student for the purpose of eliminating or reducing maladaptive behaviors, including such interventions as:

Behavioral interventions for students with disabilities shall be provided in accordance with this section and those other applicable provisions of this Part and/or Part 201 that are not inconsistent with this section.

(c) Use of time out rooms. A time out room is an area for a student to safely deescalate, regain control and prepare to meet expectations to return to his or her education program. Time out rooms are to be used in conjunction with a behavioral intervention plan in which a student is removed to a supervised area in order to facilitate self-control or to remove a student from a potentially dangerous situation and as provided in paragraph (3) of this subdivision.

(1) Each school which uses a time out room as part of its behavior management approach shall ensure that the school’s policy and procedures on the use of the time out room are developed and implemented consistent with this subdivision, including the physical and monitoring requirements, parental rights and IEP requirements for students with disabilities. The school’s policy and procedures shall minimally include:

(i) prohibiting placing a student in a locked room or space or in a room where the student cannot be continuously observed and supervised;
(ii) factors which may precipitate the use of the time out room;
(iii) time limitations for the use of the time out room;
(iv) staff training on the policies and procedures related to the use of time out room;
(v) data collection to monitor the effectiveness of the use of time out rooms; and
(vi) information to be provided to parents.

(2) A student’s IEP shall specify when a behavioral intervention plan includes the use of a time out room for a student with a disability, including the maximum amount of time a student will need to be in a time out room as a behavioral consequence as determined on an individual basis in consideration of the student’s age and individual needs.

(3) Except for unanticipated situations that pose an immediate concern for the physical safety of a student or others, the use of a time out room shall be used only in conjunction with a behavioral intervention plan that is designed to teach and reinforce alternative appropriate behaviors.

(4) The school district shall inform the student’s parents prior to the initiation of a behavioral intervention plan that will incorporate the use of a time out room for a student and shall give the parent the opportunity to see the physical space that will be used as a time out room and provide the parent with a copy of the school’s policy on the use of time out rooms.

(5) The physical space used as a time out room shall provide a means for continuous visual and auditory monitoring of the student. The room shall be of adequate width, length and height to allow
the student to move about and recline comfortably. Wall and floor coverings should be designed to prevent injury to the student and there shall be adequate lighting and ventilation. The temperature of the room shall be within the normal comfort range and consistent with the rest of the building. The room shall be clean and free of objects and fixtures that could be potentially dangerous to a student and shall meet all local fire and safety codes.

(6) The time out room shall be unlocked and the door must be able to be opened from the inside. The use of locked rooms or spaces for purposes of time out is prohibited.

(7) Staff shall continuously monitor the student in a time out room. The staff must be able to see and hear the student at all times.

(8) The school shall establish and implement procedures to document the use of the time out room, including information to monitor the effectiveness of the use of the time out room to decrease specified behaviors.

(9) For an education program operated pursuant to section 112 of the Education Law and Part 116 of this Title, if a provision of this section relating to use of time out rooms conflicts with the rules of the respective State agency operating such program, the rules of such State agency shall prevail and the conflicting provisions of this section shall not apply.

d) Emergency/interventions.

(1) For purposes of this subdivision, emergency means a situation in which immediate intervention involving the use of reasonable physical force pursuant to section 19.5(a)(3) of this Title is necessary.

(2) Use of emergency interventions

   (i) Emergency interventions shall be used only in situations in which alternative procedures and methods not involving the use of physical force cannot reasonably be employed.

   (ii) Emergency interventions shall not be used as a punishment or as a substitute for systematic behavioral interventions that are designed to change, replace, modify or eliminate a targeted behavior.

(3) Staff training. Staff who may be called upon to implement emergency interventions shall be provided with appropriate training in safe and effective restraint procedures in accordance with sections 100.2(l)(1)(i)(h) of this Title and 200.15(f)(1) of this Part as applicable.

(4) Documentation. The school must maintain documentation on the use of emergency interventions for each student, which shall include the name and date of birth of the student; the setting and the location of the incident; the name of the staff or other persons involved; a description of the incident and the emergency intervention used, including duration; a statement as to whether the student has a current behavioral intervention plan; and details of any injuries sustained by the student or others, including staff, as a result of the incident. The parent of the student shall be notified and documentation of emergency interventions shall be reviewed by school supervisory personnel and, as necessary, the school nurse or other medical personnel.

(5) Applicability. For an education program operated pursuant to section 112 of the Education Law and Part 116 of this Title, if a provision of this section relating to emergency interventions conflicts with the rules of the respective State agency operating such program, the rules of such State agency shall prevail and the conflicting provision of this section shall not apply.

LAWS

3214. Student placement, suspensions and transfers.
2. Special day schools. The school authorities of any city or school district may establish schools or set apart rooms in public school buildings for the instruction of school delinquents and fix the number of days per week and the hours per day of required attendance, which shall not be less than is required of minors attending the full-time day schools.
3. Suspension of a pupil.
   e. Procedure after suspension. Where a pupil has been suspended pursuant to this subdivision and said pupil is of compulsory attendance age, immediate steps shall be taken for his or her attendance upon instruction elsewhere or for supervision or detention of said pupil pursuant to the provisions of article seven of the family court act. Where a pupil has been suspended or cause, the suspension may be revoked by the board of education whenever it appears to be for the best interest of the school and the pupil to do so. The board of education may also condition a student's early return to school and suspension revocation on the pupil's voluntary participation in counseling or specialized classes, including anger management or dispute resolution, where applicable.

4112. Commissioner of education to contract for keeping of truants.
The commissioner of education may contract with any city or district having a school for delinquents, for the confinement, maintenance and instruction therein of any child who shall be committed to such school as a truant by any magistrate before whom such child shall have been examined upon the charge of truancy. The costs and expenses attending the support and maintenance of any truant, as herein provided, shall be audited by the commissioner of education and paid in the same manner as the expenses of supporting and maintaining the schools on a reservation are paid.

4404. Appeal procedures for children with handicapping conditions.
1. If the recommendation of the committee on special education is not acceptable to the parent or person in parental relationship of a student, or if the committee or board of education or trustees fails to make or effectuate such a recommendation within such periods of time as may be required by regulations of the commissioner, such parents or persons in parental relationship shall notify the board of education of this situation and the board shall appoint an impartial hearing officer to hear the appeal and make a determination within such period of time as the commissioner by regulation shall determine, provided that the board of education or trustees shall offer the parent or person in parental relationship the option of mediation pursuant to section forty-four hundred four-a of this article as an alternative to an impartial hearing. Individuals so appointed by a board of education shall be selected from a list of available hearing officers who have successfully completed a hearing officer training program conducted by the department according to a rotation selection process prescribed in regulations of the commissioner; except that a city school district of a city having a population of more than one million inhabitants shall be exempt from such regulations to the extent it maintains its rotational selection process in effect prior to July first, nineteen ninety-three. A record of proceedings before the hearing officer shall be maintained and made available to the parties. The board of education or trustees of the school district or the state agency responsible for providing education to students with disabilities shall have the burden of proof, including the burden of persuasion and burden of production, in any such impartial hearing, except that a parent or person in parental relation seeking tuition reimbursement for a unilateral parental placement shall have the burden of persuasion and burden of production on the appropriateness of such placement. The decision of the hearing officer shall be binding upon both parties unless appealed to the state review
officer. The commissioner shall establish a department training program which shall be completed to the satisfaction of the commissioner as a condition of certification. The commissioner shall develop and implement a plan to ensure that no individual employed by a school district, school or program serving students with disabilities placed by a school district committee on special education acts as an impartial hearing officer and that no individual employed by such schools or programs serves as an impartial hearing officer for two years following the termination of such employment. Such plan shall be fully implemented no later than July first, nineteen hundred ninety-six. The commissioner shall promulgate regulations establishing procedures for the suspension or revocation of impartial hearing officer certification for good cause. The commissioner shall establish maximum rates for the compensation of impartial hearing officers subject to the approval of the director of the division of the budget. The commissioner shall promulgate regulations establishing procedures and timelines for expedited hearings in cases involving: (a) review of a decision that a student with a disability's behavior was not a manifestation of such student's disability, or (b) review of an interim alternative educational setting or other placement to the extent required under federal law, or (c) a request by the school district for a determination that maintaining the current educational placement of the student is substantially likely to result in injury to the student or to others.

2. Review by state review officer. A state review officer of the education department shall review and may modify, in such cases and to the extent that the review officer deems necessary, in order to properly effectuate the purposes of this article, any determination of the impartial hearing officer relating to the determination of the nature of a child's handicapping condition, selection of an appropriate special education program or service and the failure to provide such program and require such board to comply with the provisions of such modification. The commissioner shall adopt regulations governing the practice and procedure in such appeals to the state review officer; provided, however, that in no event shall any fee or charge whatsoever be imposed for any appeal taken pursuant to this subdivision. The state review officer is empowered to make all orders which are proper or necessary to give effect to the decision of the review officer.

3. Review of the determination of a state review officer regarding children with disabilities.
   a. Any final determination or order of a state review officer rendered pursuant to subdivision two of this section may only be reviewed in a proceeding brought in the supreme court pursuant to article four of the civil practice law and rules, and paragraph b of this subdivision, or in United States district court.
   b. In any such proceeding under article four of the civil practice law and rules, the court may grant any relief authorized by the provisions of rule four hundred eleven of such law and rules, which shall include any relief available in a civil action under section six hundred fifteen of the individuals with disabilities education act (20 U.S.C. section 1415) and also may, in its discretion remand the proceedings to the state review officer for further consideration upon a finding that any relevant and material evidence is then available which was not previously considered by the state review officer. Such proceeding shall be deemed a proceeding against a body or officer for purposes of sections two hundred seventeen and five hundred six of the civil practice law and rules. The court shall receive the records of the administrative proceedings, shall hear additional evidence at the request of a party, and basing its decision on the preponderance of the evidence, shall grant the relief that the court determines to be appropriate.

4. a. During the pendency of any proceedings conducted pursuant to this section, other than a proceeding subject to paragraph b of this subdivision, and during the initial identification, evaluation and placement procedure pursuant to this section and during the initial identification, evaluation and placement procedure pursuant to section forty-four hundred two of this article, unless the local school district and the parents or persons in parental relationship otherwise agree, the student shall remain in the then current
educational placement of such student, or, if applying for initial admission to a public school, shall be placed in the public school program until all such proceedings have been completed.

b. For students with disabilities placed in an interim alternative educational setting pursuant to clause (iv) or (vii) of subparagraph three of paragraph g of subdivision three of section thirty-two hundred fourteen of this chapter, during the pendency of proceedings conducted pursuant to this section in which the parents or persons in parental relationship challenge the interim alternative educational setting or a manifestation determination, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer or until expiration of the time period of the student’s interim alternative placement, whichever comes first, unless the local school district and the parents or persons in parental relationship otherwise agree. After the expiration of such interim alternative educational placement, if the school district proposes to change the student’s placement, during the pendency of any proceedings to challenge the proposed change in placement, the student shall return to and remain in the current educational placement, which shall be the student’s placement prior to the interim alternative educational setting, unless the local school district and the parents or persons in parental relationship otherwise agree or unless as a result of a decision by an impartial hearing officer in an expedited hearing, the interim alternative educational setting is extended or another appropriate placement is ordered for a period not to exceed forty-five days based on a determination that maintaining the current educational placement of the student is substantially likely to result in injury to the student or to others. Such procedure for extension of an interim alternative educational setting may be repeated as necessary.

5. For purposes of this section, to the extent required by federal law, a student presumed to have a disability for discipline purposes shall be deemed to be a student with a disability and the parents or persons in parental relationship of a student presumed to have a disability for discipline purposes shall be afforded the procedural rights of the parents or persons in parental relationship of a student with a disability. Nothing in this section shall be construed to confer upon a student presumed to have a disability for disciplinary purposes greater procedural rights than such student would have under the provisions of section six hundred fifteen of the individuals with disabilities education act.

A supervisor of attendance, attendance teacher, attendance officer, or other person authorized by the school district, as the case may be, shall, where a request for notification has been made pursuant to paragraph c of this subdivision, notify a person in parental relation to any elementary school pupil by the means designated in such request when such pupil is deemed absent from required attendance at his designated school without prior notification and consent to such absence by the person in parental relation. No civil or criminal liability shall arise or attach to any school district or employee thereof for any act or omission to act as a result of, or in connection with, the duties or activities authorized or directed by this paragraph.

3214. Student placement, suspensions and transfers.
   3-a. Teacher removal of a disruptive pupil. In addition, any teacher shall have the power and authority to remove a disruptive pupil, as defined in subdivision two-a of this section, from such teacher's classroom consistent with discipline measures contained in the code of conduct adopted by the board pursuant to section twenty-eight hundred one of this chapter. The school authorities of any school district shall establish policies and procedures to ensure the provision of continued educational programming and activities for students removed from the classroom pursuant to this subdivision and provided further that nothing in this subdivision shall authorize the removal of a pupil in violation of any state or federal law or regulation. No pupil shall return to the classroom until the principal makes a final determination pursuant to paragraph c of this subdivision, or the period of removal expires, whichever is less.
b. The principal shall inform the person in parental relation to such pupil of the removal and the reasons therefor within twenty-four hours of the pupil's removal. The pupil and the person in parental relation shall, upon request, be given an opportunity for an informal conference with the principal to discuss the reasons for the removal. If the pupil denies the charges, the principal shall provide an explanation of the basis for the removal and allow the pupil and/or person in parental relation to the pupil an opportunity to present the pupil's version of relevant events. Such informal hearing shall be held within forty-eight hours of the pupil's removal.

5. Involuntary transfers of pupils who have not been determined to be a student with a disability or a student presumed to have a disability for discipline purposes.

a. The board of education, board of trustees or sole trustee, the superintendent of schools, or district superintendent of schools may transfer a pupil who has not been determined to be a student with a disability as defined in section forty-four hundred one of this chapter, or a student presumed to have a disability for discipline purposes as defined in paragraph g of subdivision three of this section from regular classroom instruction to an appropriate educational setting in another school upon the written recommendation of the school principal and following independent review thereof. For purposes of this section of the law, "involuntary transfer" does not include a transfer made by a school district as part of a plan to reduce racial imbalance within the schools or as a change in school attendance zones or geographical boundaries.

b. A school principal may initiate a non-requested transfer where it is believed that such a pupil would benefit from the transfer, or when the pupil would receive an adequate and appropriate education in another school program or facility.

No recommendation for pupil transfer shall be initiated by the principal until such pupil and a person in parental relation has been sent written notification of the consideration of transfer recommendation. Such notice shall set a time and place of an informal conference with the principal and shall inform such person in parental relation and such pupil of their right to be accompanied by counsel or an individual of their choice.

c. After the conference and if the principal concludes that the pupil would benefit from a transfer or that the pupil would receive an adequate and appropriate education in another school program or facility, the principal may issue a recommendation of transfer to the superintendent. Such recommendation shall include a description of behavior and/or academic problems indicative of the need for transfer; a description of alternatives explored, and prior action taken to resolve the problem. A copy of that letter shall be sent to the person in parental relation and to the pupil.

d. Upon receipt of the principal's recommendation for transfer and a determination to consider that recommendation, the superintendent shall notify the person in parental relation and the pupil of the proposed transfer and of their right to a fair hearing as provided in paragraph c of subdivision three of this section and shall list community agencies and free legal assistance which may be of assistance. The written notice shall include a statement that the pupil or person in parental relation has ten days to request a hearing and that the proposed transfer shall not take effect, except upon written parental consent, until the ten day period has elapsed, or, if a fair hearing is requested, until after a formal decision following the hearing is rendered, whichever is later. Parental consent to a transfer shall not constitute a waiver of the right to a fair hearing.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. **LAWS**

§ 115C-12. Powers and duties of the board generally.

The general supervision and administration of the free public school system shall be vested in the State Board of Education. The State Board of Education shall establish all needed rules and regulations for the system of free public schools, subject to laws enacted by the General Assembly. In accordance with Sections 7 and 8 of Article III of the North Carolina Constitution, the Superintendent of Public Instruction, as an elected officer and Council of State member, shall administer all needed rules and regulations adopted by the State Board of Education through the Department of Public Instruction. The powers and duties of the State Board of Education are defined as follows:

(9) Miscellaneous Powers and Duties. - All the powers and duties exercised by the State Board of Education shall be in conformity with the Constitution and subject to such laws as may be enacted from time to time by the General Assembly. Among such duties are:

d. To formulate rules and regulations for the enforcement of the compulsory attendance law.

§ 115C-238.66. Board of directors; powers and duties.

The board of directors shall have the following powers and duties:

(2) Standards of performance and conduct. - The board of directors shall establish policies and standards for academic performance, attendance, and conduct for students of the regional school. The policies of the board of directors shall comply with Article 27 of this Chapter.

(3) School attendance. - Every parent, guardian, or other person in this State having charge or control of a child who is enrolled in the regional school and who is less than 16 years of age shall cause such child to attend school continuously for a period equal to the time that the regional school shall be in session. No person shall encourage, entice, or counsel any child to be unlawfully absent from the regional school. Any person who aids or abets a student's unlawful absence from the regional school shall, upon conviction, be guilty of a Class 1 misdemeanor. The principal shall be responsible for implementing such additional policies concerning compulsory attendance as shall be adopted by the board of directors, including regulations concerning lawful and unlawful absences, permissible excuses for temporary absences, maintenance of attendance records, and attendance counseling.

(12) Policy against bullying. - A regional school is encouraged to adopt a policy against bullying or harassing behavior, including cyber-bullying, that is consistent with the provisions of Article 29C of this Chapter. If a regional school adopts a policy to prohibit bullying and harassing behavior, the regional school shall, at the beginning of each school year, provide the policy to staff, students, and parents as defined in G.S. 115C-390.1(b)(8).

(e) To Discipline Students and to Assign Duties to Teachers with Regard to the Discipline, General Well-being, and Medical Care of Students. -

The principal shall have authority to exercise discipline over the pupils of the school under policies adopted by the local board of education in accordance with G.S. 115C-390.1 through G.S. 115C-390.12. The principal may use reasonable force pursuant to G.S. 115C-390.3 and may suspend students.
pursuant to G.S. 115C-390.5. The principal shall assign duties to teachers with regard to the general well-being and the medical care of students under G.S. 115C-307 and Article 26A of this Chapter.

§ 115C-390.2. Discipline policies.
(a) Local boards of education shall adopt policies to govern the conduct of students and establish procedures to be followed by school officials in disciplining students. These policies must be consistent with the provisions of this Article and the constitutions, statutes, and regulations of the United States and the State of North Carolina.
(b) Board policies shall include or provide for the development of a Code of Student Conduct that notifies students of the standards of behavior expected of them, conduct that may subject them to discipline, and the range of disciplinary measures that may be used by school officials.
(c) Board policies may authorize suspension for conduct not occurring on educational property, but only if the student's conduct otherwise violates the Code of Student Conduct and the conduct has or is reasonably expected to have a direct and immediate impact on the orderly and efficient operation of the schools or the safety of individuals in the school environment.
(d) Board policies shall not allow students to be long-term suspended or expelled from school solely for truancy or tardiness offenses and shall not allow short-term suspension of more than two days for such offenses.
(e) Board policies shall not impose mandatory long-term suspensions or expulsions for specific violations unless otherwise provided in State or federal law.
(f) Board policies shall minimize the use of long-term suspension and expulsion by restricting the availability of long-term suspension or expulsion to those violations deemed to be serious violations of the board's Code of Student Conduct that either threaten the safety of students, staff, or school visitors or threaten to substantially disrupt the educational environment. Examples of conduct that would not be deemed to be a serious violation include the use of inappropriate or disrespectful language, noncompliance with a staff directive, dress code violations, and minor physical altercations that do not involve weapons or injury. The principal may, however, in his or her discretion, determine that aggravating circumstances justify treating a minor violation as a serious violation.
(g) Board policies shall not prohibit the superintendent and principals from considering the student's intent, disciplinary and academic history, the potential benefits to the student of alternatives to suspension, and other mitigating or aggravating factors when deciding whether to recommend or impose long-term suspension.
(h) Board policies shall include the procedures to be followed by school officials in suspending, expelling, or administering corporal punishment to any student, which shall be consistent with this Article.
(i) Each local board shall publish all policies, administrative procedures, or school rules mandated by this section and make them available to each student and his or her parent at the beginning of each school year and upon request.
(j) Local boards of education are encouraged to include in their safe schools plans, adopted pursuant to G.S. 115C-105.47, research-based behavior management programs that take positive approaches to improving student behaviors.
(k) School officials are encouraged to use a full range of responses to violations of disciplinary rules, such as conferences, counseling, peer mediation, behavior contracts, instruction in conflict resolution and anger management, detention, academic interventions, community service, and other similar tools that do not remove a student from the classroom or school building.
(l) (Applicable to children enrolling in the public schools for the first time beginning with the 2016-2017 school year) Board policies shall state that absences under G.S. 130A-440 shall not be suspensions. A student subject to an absence under G.S. 130A-440 shall be provided the following:

1. The opportunity to take textbooks and school-furnished digital devices home for the duration of the absence.
2. Upon request, the right to receive all missed assignments and, to the extent practicable, the materials distributed to students in connection with the assignment.
3. The opportunity to take any quarterly, semester, or grading period examinations missed during the absence period.

§ 115C-407. Policy prohibiting tobacco use in school buildings, grounds, and at school-sponsored events.

(a) Not later than August 1, 2008, local boards of education shall adopt, implement, and enforce a written policy prohibiting at all times the use of any tobacco product by any person in school buildings, in school facilities, on school campuses, and in or on any other school property owned or operated by the local school administrative unit. The policy shall further prohibit the use of all tobacco products by persons attending a school-sponsored event at a location not listed in this subsection when in the presence of students or school personnel or in an area where smoking is otherwise prohibited by law.

(b) The policy shall include at least all of the following elements:

1. Adequate notice to students, parents, the public, and school personnel of the policy.
2. Posting of signs prohibiting at all times the use of tobacco products by any person in and on school property.
3. Requirements that school personnel enforce the policy.

(c) The policy may permit tobacco products to be included in instructional or research activities in public school buildings if the activity is conducted or supervised by the faculty member overseeing the instruction or research and the activity does not include smoking, chewing, or otherwise ingesting the tobacco product.

(d) The North Carolina Health and Wellness Trust Fund Commission shall work with local boards of education to provide assistance with the implementation of this policy including providing information regarding smoking cessation and prevention resources. Nothing in this section, G.S. 143-595 through G.S. 143-601, or any other section prohibits a local board of education from adopting and enforcing a more restrictive policy on the use of tobacco in school buildings, in school facilities, on school campuses, or at school-related or school-sponsored events, and in or on other school property.

§ 115C-407.16. Policy against bullying or harassing behavior.

(a) Before December 31, 2009, each local school administrative unit shall adopt a policy prohibiting bullying or harassing behavior.

(b) The policy shall contain, at a minimum, the following components:

1. A statement prohibiting bullying or harassing behavior.
2. A definition of bullying or harassing behavior no less inclusive than that set forth in this Article.
3. A description of the type of behavior expected for each student and school employee.
4. Consequences and appropriate remedial action for a person who commits an act of bullying or harassment.
(5) A procedure for reporting an act of bullying or harassment, including a provision that permits a person to report such an act anonymously. This shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.

(6) A procedure for prompt investigation of reports of serious violations and complaints of any act of bullying or harassment, identifying either the principal or the principal's designee as the person responsible for the investigation.

(7) A statement that prohibits reprisal or retaliation against any person who reports an act of bullying or harassment, and the consequence and appropriate remedial action for a person who engages in reprisal or retaliation.

(8) A statement of how the policy is to be disseminated and publicized, including notice that the policy applies to participation in school-sponsored functions.

(c) Nothing in this Article shall prohibit a local school administrative unit from adopting a policy that includes components beyond the minimum components provided in this section or that is more inclusive than the requirements of this Article.

(d) At the beginning of each school year, the principal shall provide the local school administrative unit's policy prohibiting bullying and harassing behavior, including cyber-bullying, to staff, students, and parents as defined in G.S. 115C-390.1(b)(8). Notice of the local policy shall appear in any school unit publication that sets forth the comprehensive rules, procedures, and standards of conduct for schools within the school unit and in any student and school employee handbook.

(e) Information regarding the local policy against bullying or harassing behavior shall be incorporated into a school's employee training program.

(f) To the extent funds are appropriated for these purposes, a local school administrative unit shall, by March 1, 2010, provide training on the local policy to school employees and volunteers who have significant contact with students.

§ 115C-390.1. State policy and definitions.

(a) In order to create and maintain a safe and orderly school environment conducive to learning, school officials and teachers need adequate tools to maintain good discipline in schools. However, the General Assembly also recognizes that removal of students from school, while sometimes necessary, can exacerbate behavioral problems, diminish academic achievement, and hasten school dropout. School discipline must balance these interests to provide a safe and productive learning environment, to continually teach students to respect themselves, others, and property, and to conduct themselves in a manner that fosters their own learning and the learning of those around them.

(b) The following definitions apply in this Article:

(4) Educational property. Any school building or bus, school campus, grounds, recreational area, athletic field, or other property under the control of any local board of education or charter school.
§ 115C-390.2. Discipline policies.

(c) Board policies may authorize suspension for conduct not occurring on educational property, but only if the student’s conduct otherwise violates the Code of Student Conduct and the conduct has or is reasonably expected to have a direct and immediate impact on the orderly and efficient operation of the schools or the safety of individuals in the school environment.

For the purposes of this section, the committee shall notify the student's parent, guardian, or legal custodian and shall encourage that person's participation in the proceedings of the committee concerning the student. Nothing in this section requires a student to be screened, evaluated, or identified as a child with a disability under Article 9 of this Chapter. The committee shall review the matter and shall take one or more of the following actions: (i) advise the teacher on managing the student's behavior more effectively, (ii) recommend to the principal the transfer of the student to another class within the school, (iii) recommend to the principal a multidisciplinary evaluation of the student, (iv) recommend to the principal that the student be assigned to an alternative learning program, or (v) recommend to the principal that the student receive any additional services that the school or the school unit has the resources to provide for the student. LAWS

§ 115C-390.1. State policy and definitions.
(a) In order to create and maintain a safe and orderly school environment conducive to learning, school officials and teachers need adequate tools to maintain good discipline in schools. However, the General Assembly also recognizes that removal of students from school, while sometimes necessary, can exacerbate behavioral problems, diminish academic achievement, and hasten school dropout. School discipline must balance these interests to provide a safe and productive learning environment, to continually teach students to respect themselves, others, and property, and to conduct themselves in a manner that fosters their own learning and the learning of those around them.
(b) The following definitions apply in this Article:
   (2) Corporal punishment. The intentional infliction of physical pain upon the body of a student as a disciplinary measure.

§ 115C-390.4. Corporal punishment.
(a) Each local board of education shall determine whether corporal punishment will be permitted in its school administrative unit. Notwithstanding a local board of education's prohibition on the use of corporal punishment, school personnel may use physical restraint in accordance with federal law and G.S. 115C-391.1 and reasonable force pursuant to G.S. 115C-390.3.
(b) To the extent that corporal punishment is permitted, the policies adopted for the administration of corporal punishment shall include at a minimum the following:
   (1) Corporal punishment shall not be administered in a classroom with other students present.
   (2) Only a teacher, principal, or assistant principal may administer corporal punishment and may do so only in the presence of a principal, assistant principal, or teacher who shall be informed beforehand and in the student's presence of the reason for the punishment.
   (3) A school person shall provide the student's parent with notification that corporal punishment has been administered, and the person who administered the corporal punishment shall provide the student's parent a written explanation of the reasons and the name of the second person who was present.
(4) The school shall maintain records of each administration of corporal punishment and the reasons for its administration.

(5) In no event shall excessive force be used in the administration of corporal punishment. Excessive force includes force that results in injury to the child that requires medical attention beyond simple first aid.

(6) Corporal punishment shall not be administered on a student whose parent or guardian has stated in writing that corporal punishment shall not be administered to that student. Parents and guardians shall be given a form to make such an election at the beginning of the school year or when the student first enters the school during the year. The form shall advise the parent or guardian that the student may be subject to suspension, among other possible punishments, for offenses that would otherwise not require suspension if corporal punishment were available. If the parent or guardian does not return the form, corporal punishment may be administered on the student.

c) Each local board of education shall report annually to the State Board of Education, in a manner prescribed by the State Board of Education, on the number of times that corporal punishment was administered. The report shall be in compliance with the federal Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g, and shall include the following:

1. The number of students who received corporal punishment.
2. The number of students who received corporal punishment who were also students with disabilities and were eligible to receive special education and related services under the federal Individuals with Disabilities Education Act, 20 U.S.C. § 1400, et seq.
3. The grade level of the students who received corporal punishment.
4. The race, gender, and ethnicity of the students who received corporal punishment.
5. The reason for the administration of the corporal punishment for each student who received corporal punishment.

§ 115C-390.2. Discipline policies.

(c) Board policies may authorize suspension for conduct not occurring on educational property, but only if the student's conduct otherwise violates the Code of Student Conduct and the conduct has or is

Examples of conduct that would not be deemed to be a serious violation include the use of inappropriate or disrespectful language, noncompliance with a staff directive, dress code violations, and minor physical altercations that do not involve weapons or injury. The principal may, however, in his or her discretion, determine that aggravating circumstances justify treating a minor violation as a serious violation.

(g) Board policies shall not prohibit the superintendent and principals from considering the student's intent, disciplinary and academic history, the potential benefits to the student of alternatives to suspension, and other mitigating or aggravating factors when deciding whether to recommend or impose long-term suspension.

(h) Board policies shall include the procedures to be followed by school officials in suspending, expelling, or administering corporal punishment to any student, which shall be consistent with this Article.

(i) Each local board shall publish all policies, administrative procedures, or school rules mandated by this section and make them available to each student and his or her parent at the beginning of each school year and upon request.

(j) Local boards of education are encouraged to include in their safe schools plans, adopted pursuant to G.S. 115C-105.47, research-based behavior management programs that take positive approaches to improving student behaviors.

(k) School officials are encouraged to use a full range of responses to violations of disciplinary rules, such as conferences, counseling, peer mediation, behavior contracts, instruction in conflict resolution and anger management, detention, academic interventions, community service, and other similar tools that do not remove a student from the classroom or school building.

(l) (Applicable to children enrolling in the public schools for the first time beginning with the 2016-2017 school year) Board policies shall state that absences under G.S. 130A-440 shall not be suspensions. A student subject to an absence under G.S. 130A-440 shall be provided the following:

1. The opportunity to take textbooks and school-furnished digital devices home for the duration of the absence.
2. Upon request, the right to receive all missed assignments and, to the extent practicable, the materials distributed to students in connection with the assignment.
3. The opportunity to take any quarterly, semester, or grading period examinations missed during the absence period.

§ 115C-390.5. Short-term suspension.

(b) If a student's short-term suspensions accumulate to more than 10 days in a semester, to the extent the principal has not already done so, he or she shall invoke the mechanisms provided for in the applicable safe schools plan adopted pursuant to G.S. 115C-105.47(b)(5) and (b)(6).

(c) A student subject to short-term suspension shall be provided the following:
(1) The opportunity to take textbooks home for the duration of the suspension.
(2) Upon request, the right to receive all missed assignments and, to the extent practicable, the materials distributed to students in connection with the assignment.
(3) The opportunity to take any quarterly, semester, or grading period examinations missed during the suspension period.

§ 115C-390.6. Short-term suspension procedures.
(a) Except as authorized in this section, no short-term suspension shall be imposed upon a student without first providing the student an opportunity for an informal hearing with the principal. The notice to the student of the charges may be oral or written, and the hearing may be held immediately after the notice is given. The student has the right to be present, to be informed of the charges and the basis for the accusations, and to make statements in defense or mitigation of the charges.

§ 115C-390.7. Long-term suspension.
(a) Only the superintendent has the authority to long-term suspend a student.
(b) Before the superintendent's imposition of a long-term suspension, the student must be provided an opportunity for a hearing consistent with G.S. 115C-390.8.
(c) If the student recommended for long-term suspension declines the opportunity for a hearing, the superintendent shall review the circumstances of the recommended long-term suspension. Following such review, the superintendent (i) may impose the suspension if is it consistent with board policies and appropriate under the circumstances, (ii) may impose another appropriate penalty authorized by board policy, or (iii) may decline to impose any penalty.
(d) If a teacher is assaulted or injured by a student and as a result the student is long-term suspended or reassigned to alternative education services, the student shall not be returned to that teacher's classroom unless the teacher consents.

§ 115C-390.11. Expulsion.
(b) During the expulsion, the student is not entitled to be present on any property of the local school administrative unit and is not considered a student of the local board of education. Nothing in this section shall prevent a local board of education from offering access to some type of alternative educational services that can be provided to the student in a manner that does not create safety risks to other students and school staff.

The student has the right to be present, to be informed of the charges and the basis for the accusations, and to make statements in defense or mitigation of the charges.

(b) The principal may impose a short-term suspension without providing the student an opportunity for a hearing if the presence of the student creates a direct and immediate threat to the safety of other students or staff, or substantially disrupts or interferes with the education of other students or the maintenance of discipline at the school. In such cases, the notice of the charges and informal hearing described in subsection (a) of this section shall occur as soon as practicable.

(c) The principal shall provide notice to the student's parent of any short-term suspension, including the reason for the suspension and a description of the alleged student conduct upon which the suspension is based. The notice shall be given by the end of the workday during which the suspension is imposed when reasonably possible, but in no event more than two days after the suspension is imposed. The notice shall be given by certified mail, telephone, facsimile, e-mail, or any other method reasonably designed to achieve actual notice.

(d) If English is the second language of the parent, the notice shall be provided in the parent's primary language, when the appropriate foreign language resources are readily available, and in English, and both versions shall be in plain language and shall be easily understandable.

(e) A student is not entitled to appeal the principal's decision to impose a short-term suspension to the superintendent or local board of education. Notwithstanding this subsection, the local board of education, in its discretion, may provide students an opportunity for a review or appeal of a short-term suspension to the superintendent or local board of education.

(a) When a student is recommended by the principal for long-term suspension, the principal shall give written notice to the student's parent. The notice shall be provided to the student's parent by the end of
the workday during which the suspension was recommended when reasonably possible or as soon thereafter as practicable. The written notice shall provide at least the following information:

(1) A description of the incident and the student's conduct that led to the long-term suspension recommendation.

(2) A reference to the provisions of the Code of Student Conduct that the student is alleged to have violated.

(3) The specific process by which the parent may request a hearing to contest the decision, including the number of days within which the hearing must be requested.

(4) The process by which a hearing will be held, including, at a minimum, the procedures described in subsection (e) of this section.

(5) Notice that the parent is permitted to retain an attorney to represent the student in the hearing process.

(6) The extent to which the local board policy permits the parent to have an advocate, instead of an attorney, accompany the student to assist in the presentation of his or her appeal.

(7) Notice that the parent has the right to review and obtain copies of the student's educational records before the hearing.

(8) A reference to the local board policy on the expungement of discipline records as required by G.S. 115C-402.

(b) Written notice may be provided by certified mail, fax, e-mail, or any other written method reasonably designed to achieve actual notice of the recommendation for long-term suspension. When school personnel are aware that English is not the primary language of the parent or guardian, the notice shall be written in both English and in the primary language of the parent or guardian when the appropriate foreign language resources are readily available. All notices described in this section shall be written in plain English, and shall include the following information translated into the dominant non-English language used by residents within the local school administrative unit:

(1) The nature of the document, i.e., that it is a long-term suspension notice.

(2) The process by which the parent may request a hearing to contest the long-term suspension.

(3) The identity and phone number of a school employee that the parent may call to obtain assistance in understanding the English language information included in the document.

(c) No long-term suspension shall be imposed on a student until an opportunity for a formal hearing is provided to the student. If a hearing is timely requested, it shall be held and a decision issued before a long-term suspension is imposed, except as otherwise provided in this subsection. The student and parent shall be given reasonable notice of the time and place of the hearing.

(1) If no hearing is timely requested, the superintendent shall follow the procedures described in G.S. 115C-390.7(c).

(3) If neither the student nor parent appears for the scheduled hearing, after having been given reasonable notice of the time and place of the hearing, the parent and student are deemed to have waived the right to a hearing and the superintendent shall conduct the review required by G.S. 115C-390.7(c).

(d) The formal hearing may be conducted by the local board of education, by the superintendent, or by a person or group of persons appointed by the local board or superintendent to serve as a hearing officer or hearing panel. If the hearing is conducted by an appointed hearing officer or hearing panel, such officer or panel shall determine the relevant facts and credibility of witnesses based on the evidence presented at the hearing. Following the hearing, the superintendent or local board shall make a final decision regarding the suspension. The superintendent or board shall adopt the hearing officer's or panel's factual determinations unless they are not supported by substantial evidence in the record.

(e) Long-term suspension hearings shall be conducted in accordance with policies adopted by the board of education. Such policies shall offer the student procedural due process including, but not limited to, the following:

4. The right of the student, parent, or the student's representative to question witnesses appearing at the hearing.

7. The right to make his or her own audio recording of the hearing.
8. The right to a written decision, based on substantial evidence presented at the hearing, either upholding, modifying, or rejecting the principal's recommendation of suspension and containing at least the following information:
   a. The basis for the decision, including a reference to any policy or rule that the student is determined to have violated.
   b. Notice of what information will be included in the student's official record pursuant to G.S. 115C-402.
   c. The student's right to appeal the decision and notice of the procedures for such appeal.

(f) Following the issuance of the decision, the superintendent shall implement the decision by authorizing the student's return to school or by imposing the suspension reflected in the decision.

(g) Unless the decision was made by the local board, the student may appeal the decision to the local board in accordance with G.S. 115C-45(c) and policies adopted by the board. Notwithstanding the provisions of G.S. 115C-45(c), a student's appeal to the board of a decision upholding a long-term suspension shall be heard and a final written decision issued in not more than 30 calendar days following the request for such appeal.

(h) Nothing in this section shall compel school officials to release names or other information that could allow the student or his or her representative to identify witnesses when such identification could create a safety risk for the witness.

(i) A decision of the local board to uphold the long-term suspension of a student is subject to judicial review in accordance with Article 4 of Chapter 150B of the General Statutes. The action must be brought within 30 days of the local board's decision. A person seeking judicial review shall file a petition in the
superior court of the county where the local board made its decision. Local rules notwithstanding, petitions for judicial review of a long-term suspension shall be set for hearing in the first succeeding term of superior court in the county following the filing of the certified copy of the official record.

(e) The procedures described in G.S. 115C-390.8 apply to students facing a 365-day suspension pursuant to this section.

§ 115C-390.11. Expulsion.
(a) Upon recommendation of the superintendent, a local board of education may expel any student 14 years of age or older whose continued presence in school constitutes a clear threat to the safety of other students or school staff. Prior to the expulsion of any student, the local board shall conduct a hearing to determine whether the student's continued presence in school constitutes a clear threat to the safety of other students or school staff. The student shall be given reasonable notice of the recommendation in accordance with G.S. 115C-390.8(a) and (b), as well as reasonable notice of the time and place of the scheduled hearing.

   (1) The procedures described in G.S. 115C-390.8(e)(1)-(8) apply to students facing expulsion pursuant to this section, except that the decision to expel a student by the local board of education shall be based on clear and convincing evidence that the student's continued presence in school constitutes a clear threat to the safety of other students and school staff.

   (2) A local board of education may expel any student subject to G.S. 14-208.18 in accordance with the procedures of this section. Prior to ordering the expulsion of a student, the local board of education shall consider whether there are alternative education services that may be offered to the student. As provided by G.S. 14-208.18(f), if the local board of education determines that the student shall be provided educational services on school property, the student shall be under the supervision of school personnel at all times.

   (3) At the time a student is expelled under this section, the student shall be provided notice of the right to petition for readmission pursuant to G.S. 115C-390.12.

LAWS

§ 115C-12. Powers and duties of the board generally.
The general supervision and administration of the free public school system shall be vested in the State Board of Education. The State Board of Education shall establish all needed rules and regulations for the system of free public schools, subject to laws enacted by the General Assembly. In accordance with Sections 7 and 8 of Article III of the North Carolina Constitution, the Superintendent of Public Instruction, as an elected officer and Council of State member, shall administer all needed rules and regulations adopted by the State Board of Education through the Department of Public Instruction. The powers and duties of the State Board of Education are defined as follows:

(24) Duty to Develop Standards for Alternative Learning Programs, Provide Technical Assistance on Implementation of Programs, and Evaluate Programs. - The State Board of Education shall adopt standards for assigning students to alternative learning programs. These standards shall include (i) a description of the programs and services that are recommended to be provided in alternative learning programs and (ii) a process for ensuring that an assignment is appropriate for the student and that the student’s parents are involved in the decision. The State Board also shall adopt policies that define what constitutes an alternative school and an alternative learning program.

The State Board of Education shall also adopt standards to require that local school administrative units shall use (i) the teachers allocated for students assigned to alternative learning programs pursuant to the regular teacher allotment and (ii) the teachers allocated for students assigned to alternative learning programs only to serve the needs of these students.

The State Board of Education shall provide technical support to local school administrative units to assist them in developing and implementing plans and proposals for alternative learning programs.

The State Board shall evaluate the effectiveness of alternative learning programs and, in its discretion, of any other programs funded from the Alternative Schools/At-Risk Student allotment. Local school administrative units shall report to the State Board of Education on how funds in the Alternative Schools/At-Risk Student allotment are spent and shall otherwise cooperate with the State Board of Education in evaluating the alternative learning programs. As part of its evaluation of the effectiveness of these programs, the State Board shall, through the application of the accountability system developed
under G.S. 115C-83.15 and G.S. 115C-105.35, measure the educational performance and growth of students placed in alternative schools and alternative programs. If appropriate, the Board may modify this system to adapt to the specific characteristics of these schools. Also as part of its evaluation, the State Board shall evaluate its standards adopted under this subdivision and make any necessary changes to those standards based on strategies that have been proven successful in improving student achievement and shall report to the Joint Legislative Education Oversight Committee by April 15, 2006 to determine if any changes are necessary to improve the implementation of successful alternative learning programs and alternative schools.

(44) Duty to Ensure Educational Services in Private Psychiatric Residential Treatment Facilities (PRTFs). - The Board, in collaboration with the Department of Health and Human Services, shall ensure that educational services are provided to all students in PRTFs as required under Part 4 of Article 6 of Chapter 122C of the General Statutes. The Board shall ensure that a child with a disability as defined under G.S. 115C-106.3(1) in a PRTF receives educational services and procedural safeguards as provided in Article 9 of this Chapter.

§ 115C-105.47A. Proposals to establish alternative learning programs or alternative schools.

(a) Before establishing any alternative learning program or alternative school, the local board of education shall develop a proposal to implement the program or school that includes all of the following:

(1) The educational and behavioral goals for students assigned to the program or school.

(2) The policies and procedures for the operation of the program or school based on the State Board's standards adopted under G.S. 115C-12(24). The policies and procedures shall address the assignment of students to the program or school.

(3) Identified strategies that will be used to improve student achievement and behavior.

(4) Documentation that similar programs and schools in or out of the State, or both, have demonstrated success in improving the academic achievement and behavior of students assigned to them.

(5) The estimated actual cost of operating the program or school. To the extent practicable, this shall include the cost of:

a. Staffing the program or school with teachers who have at least four years' teaching experience and who have received an overall rating of at least above standard on a formal evaluation and are certified in the areas and grade levels being taught;

b. Providing optimum learning environments, resources and materials, and high quality, ongoing professional development that will ensure students who are placed in the program or school are provided enhanced educational opportunities in order to achieve their full potential;

c. Providing support personnel, including school counselors, psychiatrists, clinical psychologists, social workers, nurses, and other professionals to help students and their families work out complex issues and problems;

d. Maintaining safe and orderly learning environments; and

e. Providing transitional supports for students exiting the program or school and reentering the referring school.

(6) Documented support of school personnel and the community for the implementation of the program or school.

(b) After the local board completes the proposal under subsection (a) of this section, the board shall submit the proposal to the State Board of Education for its review. The State Board shall review the proposal expeditiously and, if appropriate, may offer recommendations to modify the proposal. The local board shall consider any recommendations made by the State Board before implementing the alternative learning program or alternative school.
§ 115C-105.48. Placement of students in alternative schools/alternative learning programs.

(1) Document the procedures that were used to identify the student as being at risk of academic failure or as being disruptive or disorderly.

(2) Provide the reasons for referring the student to an alternative school or an alternative learning program.

(3) Provide to the alternative school or alternative learning program all relevant student records, including anecdotal information.

(b) When a student is placed in an alternative school or an alternative learning program, the appropriate staff of the alternative school or alternative learning program shall meet to review the records forwarded by the referring school and to determine what support services and intervention strategies are recommended for the student. The parents shall be encouraged to provide input regarding the students' needs.

§ 115C-390.1. State policy and definitions.

(a) In order to create and maintain a safe and orderly school environment conducive to learning, school officials and teachers need adequate tools to maintain good discipline in schools. However, the General Assembly also recognizes that removal of students from school, while sometimes necessary, can exacerbate behavioral problems, diminish academic achievement, and hasten school dropout. School discipline must balance these interests to provide a safe and productive learning environment, to continually teach students to respect themselves, others, and property, and to conduct themselves in a manner that fosters their own learning and the learning of those around them.

(b) The following definitions apply in this Article:

(1) Alternative education services. Part or full-time programs, wherever situated, providing direct or computer-based instruction that allow a student to progress in one or more core academic courses. (5) Expulsion. The indefinite exclusion of a student from school enrollment for disciplinary purposes.

(7) Long-term suspension. The exclusion for more than 10 school days of a student from school attendance for disciplinary purposes from the school to which the student was assigned at the time of the disciplinary action. If the offense leading to the long-term suspension occurs before the final quarter of the school year, the exclusion shall be no longer than the remainder of the school year in which the offense was committed. If the offense leading to the long-term suspension occurs during the final quarter of the school year, the exclusion may include a period up to the remainder of the school year in which the offense was committed and the first semester of the following school year.

(12) Short-term suspension. The exclusion of a student from school attendance for disciplinary purposes for up to 10 school days from the school to which the student was assigned at the time of the disciplinary action.

(13) Substantial evidence. Such relevant evidence as a reasonable person might accept as adequate to support a conclusion; it is more than a scintilla or permissible inference.

§ 115C-390.7. Long-term suspension.

(e) Disciplinary reassignment of a student to a full-time educational program that meets the academic requirements of the standard course of study established by the State Board of Education as provided in G.S. 115C-12 and provides the student with the opportunity to make timely progress towards graduation.
and grade promotion is not a long-term suspension requiring the due process procedures described in G.S. 115C-390.8. No relevant statutes found.

§ 115C-390.9. Alternative education services.
(a) Students who are long-term suspended shall be offered alternative education services unless the superintendent provides a significant or important reason for declining to offer such services. The following may be significant or important reasons, depending on the circumstances and the nature and setting of the alternative education services:
   (1) The student exhibits violent behavior.
   (2) The student poses a threat to staff or other students.
   (3) The student substantially disrupts the learning process.

   (5) Educationally appropriate alternative education services are not available in the local school administrative unit due to limited resources.
   (6) The student failed to comply with reasonable conditions for admittance into an alternative education program.
(b) If the superintendent declines to provide alternative education services to the suspended student, the student may seek review of such decision by the local board of education as permitted by G.S. 115C-45(c)(2). If the student seeks such review, the superintendent shall provide to the student and the local board, in advance of the board's review, a written explanation for the denial of services together with any documents or other information supporting the decision.

§ 115C-390.10. 365-day suspension for gun possession.
(f) Students who are suspended for 365 days pursuant to this section shall be considered for alternative educational services consistent with the provisions of G.S. 115C-390.9.

§ 115C-390.11. Expulsion.

§ 115C-407.15. Bullying and harassing behavior.
(a) As used in this Article, "bullying or harassing behavior" is any pattern of gestures or written, electronic, or verbal communications, or any physical act or any threatening communication, that takes place on school property, at any school-sponsored function, or on a school bus, and that:

1. Places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property; or
2. Creates or is certain to create a hostile environment by substantially interfering with or impairing a student's educational performance, opportunities, or benefits. For purposes of this section, "hostile environment" means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior.

Bullying or harassing behavior includes, but is not limited to, acts reasonably perceived as being motivated by any actual or perceived differentiating characteristic, such as race, color, religion, ancestry, national origin, gender, socioeconomic status, academic status, gender identity, physical appearance, sexual orientation, or mental, physical, developmental, or sensory disability, or by association with a person who has or is perceived to have one or more of these characteristics.

(b) No student or school employee shall be subjected to bullying or harassing behavior by school employees or students.

(c) No person shall engage in any act of reprisal or retaliation against a victim, witness, or a person with reliable information about an act of bullying or harassing behavior.

§ 115C-407.16. Policy against bullying or harassing behavior.
(a) Before December 31, 2009, each local school administrative unit shall adopt a policy prohibiting bullying or harassing behavior.

(b) The policy shall contain, at a minimum, the following components:

1. A statement prohibiting bullying or harassing behavior.
2. A definition of bullying or harassing behavior no less inclusive than that set forth in this Article.
3. A description of the type of behavior expected for each student and school employee.
4. Consequences and appropriate remedial action for a person who commits an act of bullying or harassment.
5. A procedure for reporting an act of bullying or harassment, including a provision that permits a person to report such an act anonymously. This shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.
6. A procedure for prompt investigation of reports of serious violations and complaints of any act of bullying or harassment, identifying either the principal or the principal's designee as the person responsible for the investigation.
7. A statement that prohibits reprisal or retaliation against any person who reports an act of bullying or harassment, and the consequence and appropriate remedial action for a person who engages in reprisal or retaliation.
(8) A statement of how the policy is to be disseminated and publicized, including notice that the policy applies to participation in school-sponsored functions.

c) Nothing in this Article shall prohibit a local school administrative unit from adopting a policy that includes components beyond the minimum components provided in this section or that is more inclusive than the requirements of this Article.

d) At the beginning of each school year, the principal shall provide the local school administrative unit's policy prohibiting bullying and harassing behavior, including cyber-bullying, to staff, students, and parents as defined in G.S. 115C-390.1(b)(8). Notice of the local policy shall appear in any school unit publication that sets forth the comprehensive rules, procedures, and standards of conduct for schools within the school unit and in any student and school employee handbook.

e) Information regarding the local policy against bullying or harassing behavior shall be incorporated into a school's employee training program.

(f) To the extent funds are appropriated for these purposes, a local school administrative unit shall, by March 1, 2010, provide training on the local policy to school employees and volunteers who have significant contact with students.

Schools shall develop and implement methods and strategies for promoting school environments that are free of bullying or harassing behavior.

§ 115C-407.18. Construction of this Article.

(a) This Article shall not be construed to permit school officials to punish student expression or speech based on an undifferentiated fear or apprehension of disturbance or out of a desire to avoid the discomfort and unpleasantness that always accompany an unpopular viewpoint.

(b) This Article shall not be interpreted to prevent a victim of bullying or harassing behavior from seeking redress under any other available law, either civil or criminal.

(c) Nothing in this Article shall be construed to require an exhaustion of the administrative complaint process before civil or criminal law remedies may be pursued regarding bullying or harassing behavior.

(d) The provisions of this Article are severable, and if any provision of this Article is held invalid by a court of competent jurisdiction, the invalidity shall not affect other provisions of this Article which can be given effect without the invalid provision.

(e) The provisions of this Article shall be liberally construed to give effect to its purposes.

(f) Nothing in this act shall be construed to create any classification, protected class, suspect category, or preference beyond those existing in present statute or case law.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

LAWS

ORC 3313.66. Suspension, expulsion or permanent exclusion - removal from curricular or extracurricular activities.
(A)(1) Except as provided under division (B)(2) of this section, and subject to section 3313.668 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district, or the principal of a public school may suspend a pupil from school for not more than ten school days. The board of education of a city, exempted village, or local school district may adopt a policy granting assistant principals and other administrators the authority to suspend a pupil from school for a period of time as specified in the policy of the board of education, not to exceed ten school days. If at the time an out-of-school suspension is imposed there are fewer than ten school days remaining in the school year in which the incident that gives rise to the suspension takes place, the superintendent shall not apply any remaining part of the period of the suspension to the following school year. The superintendent may instead require the pupil to participate in a community service program or another alternative consequence for a number of hours equal to the remaining part of the period of the suspension. The pupil shall be required to begin the pupil's community service or alternative consequence during the first full weekday of summer break. Each school district, in its discretion, may develop an appropriate list of alternative consequences. In the event that a pupil fails to complete community service or the assigned alternative consequence, the school district may determine the next course of action, which shall not include requiring the pupil to serve the remaining time of the out-of-school suspension at the beginning of the following school year.

No pupil shall be issued an out-of-school suspension unless prior to the suspension the superintendent or principal does both of the following:

(a) Gives the pupil written notice of the intention to suspend the pupil and the reasons for the intended suspension and, if the proposed suspension is based on a violation listed in division (A) of section
3313.662 of the Revised Code and if the pupil is sixteen years of age or older, includes in the notice a statement that the superintendent may seek to permanently exclude the pupil if the pupil is convicted of or adjudicated a delinquent child for that violation;

(b) Provides the pupil an opportunity to appear at an informal hearing before the principal, assistant principal, superintendent, or superintendent’s designee and challenge the reason for the intended suspension or otherwise to explain the pupil’s actions.

(2) If a pupil is issued an in-school suspension, the superintendent or principal shall ensure the pupil is serving the suspension in a supervised learning environment.

(3) Each school district board shall adopt a policy establishing parameters for completing and grading assignments missed because of a pupil’s suspension.

(a) The policy shall provide the pupil an opportunity to do both of the following:

(i) Complete any classroom assignments missed because of the suspension;

(ii) Receive at least partial credit for a completed assignment.

(b) The policy may permit grade reductions on account of the pupil’s suspension.

(c) The policy shall prohibit the receipt of a failing grade on a completed assignment solely on account of the pupil’s suspension. (B)

(1) Except as provided under division (B)(2), (3), or (4) of this section, and subject to section 3313.668 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district may expel a pupil from school for a period not to exceed the greater of eighty school days or the number of school days remaining in the semester or term in which the incident that gives rise to the expulsion takes place, unless the expulsion is extended pursuant to division (F) of this section. If at the time an expulsion is imposed there are fewer than eighty school days remaining in the school year in which the incident that gives rise to the expulsion takes place, the superintendent may apply any remaining part or all of the period of the expulsion to the following school year.

(2)(a) Unless a pupil is permanently excluded pursuant to section 3313.662 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district shall expel a pupil from school for a period of one year for bringing a firearm to a school operated by the board of education of the district or onto any other property owned or controlled by the board, except that the superintendent may reduce this requirement on a case-by-case basis in accordance with the policy adopted by the board under section 3313.661 of the Revised Code.

(b) The superintendent of schools of a city, exempted village, or local school district may expel a pupil from school for a period of one year for bringing a firearm to an interscholastic competition, an extracurricular event, or any other school program or activity that is not located in a school or on property that is owned or controlled by the district. The superintendent may reduce this disciplinary action on a case-by-case basis in accordance with the policy adopted by the board under section 3313.661 of the Revised Code.

(c) Any expulsion pursuant to division (B)(2) of this section shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place. As used in this division, “firearm” has the same meaning as provided pursuant to the “Gun-Free Schools Act,” 115 Stat. 1762, 20 U.S.C. 7151.

(3) The board of education of a city, exempted village, or local school district may adopt a resolution authorizing the superintendent of schools to expel a pupil from school for a period not to exceed one year for bringing a knife capable of causing serious bodily injury to a school operated by the board, onto any other property owned or controlled by the board, or to an interscholastic competition, an extracurricular event, or any other program or activity sponsored by the school district or in which the district is a participant, or for possessing a firearm or knife capable of serious bodily injury, at a school,
on any other property owned or controlled by the board, or at an interscholastic competition, an extracurricular event, or any other school program or activity, which firearm or knife was initially brought onto school board property by another person. The resolution may authorize the superintendent to extend such an expulsion, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

(4) The board of education of a city, exempted village, or local school district may adopt a resolution establishing a policy under section 3313.661 of the Revised Code that authorizes the superintendent of schools to expel a pupil from school for a period not to exceed one year for committing an act that is a criminal offense when committed by an adult and that results in serious physical harm to persons as defined in division (A)(5) of section 2901.01 of the Revised Code or serious physical harm to property as defined in division (A)(6) of section 2901.01 of the Revised Code while the pupil is at school, on any other property owned or controlled by the board, or at an interscholastic competition, an extracurricular event, or any other school program or activity. Any expulsion under this division shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

(5) The board of education of any city, exempted village, or local school district may adopt a resolution establishing a policy under section 3313.661 of the Revised Code that authorizes the superintendent of schools to expel a pupil from school for a period not to exceed one year for making a bomb threat to a school building or to any premises at which a school activity is occurring at the time of the threat. Any expulsion under this division shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

(6) No pupil shall be expelled under division (B)(1), (2), (3), (4), or (5) of this section unless, prior to the pupil's expulsion, the superintendent does both of the following:

(a) Gives the pupil and the pupil's parent, guardian, or custodian written notice of the intention to expel the pupil;

(b) Provides the pupil and the pupil's parent, guardian, custodian, or representative an opportunity to appear in person before the superintendent or the superintendent's designee to challenge the reasons for the intended expulsion or otherwise to explain the pupil's actions.

The notice required in this division shall include the reasons for the intended expulsion, notification of the opportunity of the pupil and the pupil's parent, guardian, custodian, or representative to appear before the superintendent or the superintendent's designee to challenge the reasons for the intended expulsion or otherwise to explain the pupil's action, and notification of the time and place to appear. The time to appear shall not be earlier than three nor later than five school days after the notice is given, unless the superintendent grants an extension of time at the request of the pupil or the pupil's parent, guardian, custodian, or representative. If an extension is granted after giving the original notice, the superintendent shall notify the pupil and the pupil's parent, guardian, custodian, or representative of the new time and place to appear. If the proposed expulsion is based on a violation listed in division (A) of section 3313.662 of the Revised Code and if the pupil is sixteen years of age or older, the notice shall include a statement that the superintendent may seek to permanently exclude the pupil if the pupil is convicted of or adjudicated a delinquent child for that violation.

(7) A superintendent of schools of a city, exempted village, or local school district shall initiate expulsion proceedings pursuant to this section with respect to any pupil who has committed an act warranting expulsion under the district's policy regarding expulsion even if the pupil has withdrawn from school for any reason after the incident that gives rise to the hearing but prior to the hearing or decision to impose the expulsion. If, following the hearing, the pupil would have been expelled for a period of time had the pupil still been enrolled in the school, the expulsion shall be imposed for the same length of time as on a pupil who has not withdrawn from the school.
(C)(1) Subject to division (C)(2) of this section, if a pupil's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process taking place either within a classroom or elsewhere on the school premises, the superintendent or a principal or assistant principal may remove a pupil from curricular activities or from the school premises, and a teacher may remove a pupil from curricular activities under the teacher's supervision, without the notice and hearing requirements of division (A) or (B) of this section. As soon as practicable after making such a removal, the teacher shall submit in writing to the principal the reasons for such removal.

(2) A pupil in any of grades pre-kindergarten through three may be removed pursuant to division (C)(1) of this section only for the remainder of the school day and shall be permitted to return to curricular and extracurricular activities on the school day following the day in which the student was removed.

(a) A school district or school that returns a student in any of grades pre-kindergarten through three to curricular and extracurricular activities on the next school day shall not be required to follow division (C)(3) of this section with regard to that student.

(b) A school district shall not initiate a suspension or expulsion proceeding against a student in any of grades pre-kindergarten through three who was removed from a curricular or extracurricular activity under division (C) of this section unless the student has committed an act described in division (B)(1)(a) or (b) of section 3313.668 of the Revised Code.

(3) If a pupil is removed under division (C)(1) or (2) of this section from a curricular activity or from the school premises, written notice of the hearing and of the reason for the removal shall be given to the pupil as soon as practicable prior to the hearing, which shall be held on the next school day after the initial removal is ordered. The hearing shall be held in accordance with division (A) of this section unless it is probable that the pupil may be subject to expulsion, in which case a hearing in accordance with division (B) of this section shall be held, except that the hearing shall be held on the next school day after the date of the initial removal. The individual who ordered, caused, or requested the removal to be made shall be present at the hearing.

(4) If the superintendent or the principal reinstates a pupil in a curricular activity under the teacher's supervision prior to the hearing following a removal under this division, the teacher, upon request, shall be given in writing the reasons for such reinstatement.

(D) The superintendent or principal, within one school day after the time of a pupil's expulsion or suspension, shall notify in writing the parent, guardian, or custodian of the pupil of the expulsion or suspension. In the case of an expulsion, the superintendent or principal, within one school day after the time of a pupil's expulsion, also shall notify in writing the treasurer of the board of education. Each notice shall include the reasons for the expulsion or suspension, notification of the right of the pupil or the pupil's parent, guardian, or custodian to appeal the expulsion or suspension to the board of education or to its designee, to be represented in all appeal proceedings, to be granted a hearing before the board or its designee in order to be heard against the suspension or expulsion, and to request that the hearing be held in executive session, notification that the expulsion may be subject to extension pursuant to division (F) of this section if the pupil is sixteen years of age or older, and notification that the superintendent may seek the pupil's permanent exclusion if the suspension or expulsion was based on a violation listed in division (A) of section 3313.662 of the Revised Code that was committed when the child was sixteen years of age or older and if the pupil is convicted of or adjudicated a delinquent child for that violation. In accordance with the policy adopted by the board of education under section 3313.661 of the Revised Code, the notice provided under this division shall specify the manner and date by which the pupil or the pupil's parent, guardian, or custodian shall notify the board of the pupil's, parent's, guardian's, or custodian's intent to appeal the expulsion or suspension to the board or its designee.

Any superintendent expelling a pupil under this section for more than twenty school days or for any period of time if the expulsion will extend into the following semester or school year shall, in the notice required
under this division, provide the pupil and the pupil's parent, guardian, or custodian with information about services or programs offered by public and private agencies that work toward improving those aspects of the pupil's attitudes and behavior that contributed to the incident that gave rise to the pupil's expulsion. The information shall include the names, addresses, and phone numbers of the appropriate public and private agencies.

(E) A pupil or the pupil's parent, guardian, or custodian may appeal the pupil's expulsion by a superintendent or suspension by a superintendent, principal, assistant principal, or other administrator to the board of education or to its designee. If the pupil or the pupil's parent, guardian, or custodian intends to appeal the expulsion or suspension to the board or its designee, the pupil or the pupil's parent, guardian, or custodian shall notify the board in the manner and by the date specified in the notice provided under division (D) of this section. The pupil or the pupil's parent, guardian, or custodian may be represented in all appeal proceedings and shall be granted a hearing before the board or its designee in order to be heard against the suspension or expulsion. At the request of the pupil or of the pupil's parent, guardian, custodian, or attorney, the board or its designee may hold the hearing in executive session but shall act upon the suspension or expulsion only at a public meeting. The board, by a majority vote of its full membership or by the action of its designee, may affirm the order of suspension or expulsion, reinstate the pupil, or otherwise reverse, vacate, or modify the order of suspension or expulsion.

The board or its designee shall make a verbatim record of hearings held under this division. The decisions of the board or its designee may be appealed under Chapter 2506. of the Revised Code.

This section shall not be construed to require notice and hearing in accordance with division (A), (B), or (C) of this section in the case of normal disciplinary procedures in which a pupil is removed from a curricular activity for a period of less than one school day and is not subject to suspension or expulsion.

(F)(1) If a pupil is expelled pursuant to division (B) of this section for committing any violation listed in division (A) of section 3313.662 of the Revised Code and the pupil was sixteen years of age or older at the time of committing the violation, if a complaint, indictment, or information is filed alleging that the pupil is a delinquent child based upon the commission of the violation or the pupil is prosecuted as an adult for the commission of the violation, and if the resultant juvenile court or criminal proceeding is pending at the time that the expulsion terminates, the superintendent of schools that expelled the pupil may file a motion with the court in which the proceeding is pending requesting an order extending the expulsion for the lesser of an additional eighty days or the number of school days remaining in the school year. Upon the filing of the motion, the court immediately shall schedule a hearing and give written notice of the time, date, and location of the hearing to the superintendent and to the pupil and the pupil's parent, guardian, or custodian. At the hearing, the court shall determine whether there is reasonable cause to believe that the pupil committed the alleged violation that is the basis of the expulsion and, upon determining that reasonable cause to believe the pupil committed the violation does exist, shall grant the requested extension.

(2) If a pupil has been convicted of or adjudicated a delinquent child for a violation listed in division (A) of section 3313.662 of the Revised Code for an act that was committed when the child was sixteen years of age or older, if the pupil has been expelled pursuant to division (B) of this section for that violation, and if the board of education of the school district of the school from which the pupil was expelled has adopted a resolution seeking the pupil's permanent exclusion, the superintendent may file a motion with the court that convicted the pupil or adjudicated the pupil a delinquent child requesting an order to extend the expulsion until an adjudication order or other determination regarding permanent exclusion is issued by the superintendent of public instruction pursuant to section 3301.121 and division (D) of section 3313.662 of the Revised Code. Upon the filing of the motion, the court immediately shall schedule a hearing and give written notice of the time, date, and location of the hearing to the superintendent of the school district, the pupil, and the pupil's parent, guardian, or custodian. At the
hearing, the court shall determine whether there is reasonable cause to believe the pupil's continued attendance in the public school system may endanger the health and safety of other pupils or school employees and, upon making that determination, shall grant the requested extension.

(G) The failure of the superintendent or the board of education to provide the information regarding the possibility of permanent exclusion in the notice required by divisions (A), (B), and (D) of this section is not jurisdictional, and the failure shall not affect the validity of any suspension or expulsion procedure that is conducted in accordance with this section or the validity of a permanent exclusion procedure that is conducted in accordance with sections 3301.121 and 3313.662 of the Revised Code.

(H) With regard to suspensions and expulsions pursuant to divisions (A) and (B) of this section by the board of education of any city, exempted village, or local school district, this section shall apply to any student, whether or not the student is enrolled in the district, attending or otherwise participating in any curricular program provided in a school operated by the board or provided on any other property owned or controlled by the board.

(I) Whenever a student is expelled under this section, the expulsion shall result in removal of the student from the student's regular school setting. However, during the period of the expulsion, the board of education of the school district that expelled the student or any board of education admitting the student during that expulsion period may provide educational services to the student in an alternative setting.

(J)(1) Notwithstanding sections 3109.51 to 3109.80, 3313.64, and 3313.65 of the Revised Code, any school district, after offering an opportunity for a hearing, may temporarily deny admittance to any pupil if one of the following applies:

(a) The pupil has been suspended from the schools of another district under division (A) of this section and the period of suspension, as established under that division, has not expired;

(b) The pupil has been expelled from the schools of another district under division (B) of this section and the period of the expulsion, as established under that division or as extended under division (F) of this section, has not expired.

If a pupil is temporarily denied admission under this division, the pupil shall be admitted to school in accordance with sections 3109.51 to 3109.80, 3313.64, or 3313.65 of the Revised Code no later than upon expiration of the suspension or expulsion period, as applicable.

(2) Notwithstanding sections 3109.51 to 3109.80, 3313.64, and 3313.65 of the Revised Code, any school district, after offering an opportunity for a hearing, may temporarily deny admittance to any pupil if the pupil has been expelled or otherwise removed for disciplinary purposes from a public school in another state and the period of expulsion or removal has not expired. If a pupil is temporarily denied admission under this division, the pupil shall be admitted to school in accordance with sections 3109.51 to 3109.80, 3313.64, or 3313.65 of the Revised Code no later than the earlier of the following:

(a) Upon expiration of the expulsion or removal period imposed by the out-of-state school;

(b) Upon expiration of a period established by the district, beginning with the date of expulsion or removal from the out-of-state school, that is no greater than the period of expulsion that the pupil would have received under the policy adopted by the district under section 3313.661 of the Revised Code had the offense that gave rise to the expulsion or removal by the out-of-state school been committed while the pupil was enrolled in the district.

(K) As used in this section:

(1) "Permanently exclude" and "permanent exclusion" have the same meanings as in section 3313.662 of the Revised Code.

(2) "In-school suspension" means the pupil will serve all of the suspension in a supervised learning environment within a school setting.
**ORC 3313.668. Removal from school based on absences.**

(A) On and after July 1, 2017, no school district or school shall suspend, expel, or remove a student from school under section 3313.66 of the Revised Code solely on the basis of the student's absences from school without legitimate excuse.

**ORC 3301.121. Adjudication procedure to determine whether to permanently exclude pupil.**

(A) In addition to the duties and responsibilities of the superintendent of public instruction set forth in section 3301.12 of the Revised Code, the superintendent, in accordance with this section and section 3313.662 of the Revised Code, shall conduct an adjudication procedure to determine whether to permanently exclude from attending any of the public schools of this state any pupil who is the subject of a resolution forwarded to the superintendent by a board of education pursuant to division (D) of section 3313.662 of the Revised Code.

(B)(1) Except as provided in division (B)(3) of this section, within fourteen days after receipt of a resolution forwarded by a board of education pursuant to division (D) of section 3313.662 of the Revised Code, the superintendent of public instruction or the superintendent's designee shall provide the pupil who is the subject of the resolution and that pupil's parent, guardian, or custodian with a notice of an opportunity for an adjudication hearing on the proposed permanent exclusion of the pupil from attending any of the public schools of this state. The notice shall include all of the following:

(a) The date, time, and place of the permanent exclusion adjudication hearing;

(b) A statement informing the pupil and the pupil's parent, guardian, or custodian that the pupil may attend the adjudication hearing at the date, time, and place set forth in the notice, that the failure of the pupil or the pupil's parent, guardian, or custodian to attend the adjudication hearing will result in a waiver of the pupil's right to present evidence, testimony, and factors in mitigation of the pupil's permanent exclusion at an adjudication hearing on the proposed permanent exclusion, and that the pupil shall be accorded all of the following rights:

(i) The right to testify, to present evidence and the testimony of witnesses, and to confront, cross-examine, and compel the attendance of witnesses;

(ii) The right to a record of the hearing;

(iii) The right to written findings.

(c) A statement informing the pupil and the pupil's parent, guardian, or custodian that the pupil has the right to be represented by counsel at the adjudication hearing.

(d) A statement informing the pupil and the pupil's parent, guardian, or custodian that, if the pupil by failing to attend the hearing waives the pupil's right to present evidence, testimony, and factors in mitigation of the pupil's permanent exclusion at an adjudication hearing on the proposed permanent exclusion, the superintendent is required to review the information relevant to the permanent exclusion that is available to the superintendent and is permitted to enter an order requiring the pupil's permanent exclusion from attending any of the public schools of this state at any time within seven days after the conclusion of the adjudication hearing.
(2) The superintendent or the superintendent's designee shall provide the notice required by division (B)(1) of this section to the pupil and to the pupil's parent, guardian, or custodian by certified mail or personal service.

(3)(a) If a pupil who is the subject of a resolution forwarded to the superintendent of public instruction by a board of education pursuant to section 3313.662 of the Revised Code is in the custody of the department of youth services pursuant to a disposition under any provision of Chapter 2152. of the Revised Code, other than division (A)(1)(a) of section 2152.16 of the Revised Code, at the time the resolution is forwarded, the department shall notify in writing the superintendent of public instruction and the board of education that forwarded the resolution of that fact. Upon receipt of the notice, the superintendent shall delay providing the notice required by division (B)(1) of this section and the adjudication of the request for permanent exclusion until the superintendent receives further notice from the department pursuant to division (B)(3)(b) of this section.

(b) At least sixty days before a pupil described in division (B)(3)(a) of this section will be released from institutionalization or institutionalization in a secure facility by the department of youth services, the department shall notify in writing the superintendent of public instruction and the board of education that forwarded the resolution pursuant to section 3313.662 of the Revised Code of the impending release and shall provide in that notice information regarding the extent of the education the pupil received while in the custody of the department, including whether the pupil has obtained a certificate of high school equivalence. If the pupil has not obtained a certificate of high school equivalence while in the custody of the department of youth services, the superintendent of public instruction shall provide the notice required by division (B)(1) of this section and, at least thirty days before the pupil is to be released from institutionalization or institutionalization in a secure facility, conduct an adjudication procedure to determine whether to permanently exclude the pupil from attending the public schools of this state in accordance with this section. If the pupil has obtained a certificate of high school equivalence while in the custody of the department, the superintendent, in the superintendent's discretion, may conduct the adjudication.

(C)(1) Except as provided in division (B)(3) of this section, the date of the adjudication hearing set forth in the notice required by division (B)(1) of this section shall be a date no less than fourteen days nor more than twenty-one days from the date the superintendent sends the notice by certified mail or initiates personal service of the notice.

(2) The superintendent, for good cause shown on the written request of the pupil or the pupil's parent, guardian, or custodian, or on the superintendent's own motion, may grant reasonable continuances of any adjudication hearing held under this section but shall not grant either party total continuances in excess of ten days.

(3) If a pupil or the pupil's parent, guardian, or custodian does not appear at the adjudication hearing on a proposed permanent exclusion, the superintendent or the referee appointed by the superintendent shall proceed to conduct an adjudication hearing on the proposed permanent exclusion on the date for the adjudication hearing that is set forth in the notice provided pursuant to division (B)(1) of this section or on the date to which the hearing was continued pursuant to division (C)(2) of this section.

(D)(1) The superintendent or a referee appointed by the superintendent may conduct an adjudication hearing to determine whether to permanently exclude a pupil in one of the following counties:

(a) The county in which the superintendent holds the superintendent's office;

(b) Upon the request of the pupil or the pupil's parent, guardian, custodian, or attorney, in the county in which the board of education that forwarded the resolution requesting the permanent exclusion is located if the superintendent, in the superintendent's discretion and upon consideration of evidence of hardship presented on behalf of the requesting pupil, determines that the hearing should be conducted in that county.
(2) The superintendent of public instruction or a referee appointed by the superintendent shall conduct an adjudication hearing on a proposed permanent exclusion of a pupil. The referee may be an attorney admitted to the practice of law in this state but shall not be an attorney that represents the board of education that forwarded the resolution requesting the permanent exclusion.

(3) The superintendent or referee who conducts an adjudication hearing under this section may administer oaths, issue subpoenas to compel the attendance of witnesses and evidence, and enforce the subpoenas by a contempt proceeding in the court of common pleas as provided by law. The superintendent or referee may require the separation of witnesses and may bar from the proceedings any person whose presence is not essential to the proceedings.

(4) The superintendent of public instruction shall request the department of rehabilitation and correction, the sheriff, the department of youth services, or any publicly funded out-of-home care entity that has legal custody of a pupil who is the subject of an adjudication hearing held pursuant to this section to transport the pupil to the place of the adjudication hearing at the time and date set for the hearing. The department, sheriff, or publicly funded out-of-home care entity that receives the request shall provide transportation for the pupil who is the subject of the adjudication hearing to the place of the hearing at the time and date set for the hearing. The department, sheriff, or entity shall pay the cost of transporting the pupil to and from the hearing.

(E)(1) An adjudication hearing held pursuant to this section shall be adversary in nature, shall be conducted fairly and impartially, and may be conducted without the formalities of a criminal proceeding. A pupil whose permanent exclusion is being adjudicated has the right to be represented by counsel at the adjudication hearing. If the pupil has the financial capacity to retain counsel, the superintendent or the referee is not required to provide counsel for the pupil. At the adjudication hearing, the pupil also has the right to cross-examine witnesses against the pupil, to testify, to present evidence and the testimony of witnesses on the pupil's behalf, and to raise factors in mitigation of the pupil's being permanently excluded.

(2) In an adjudication hearing held pursuant to this section and section 3313.662 of the Revised Code, a representative of the school district of the board of education that adopted and forwarded the resolution requesting the permanent exclusion of the pupil shall present the case for permanent exclusion to the superintendent or the referee. The representative of the school district may be an attorney admitted to the practice of law in this state. At the adjudication hearing, the representative of the school district shall present evidence in support of the requested permanent exclusion. The superintendent or the superintendent's designee shall consider the entire school record of the pupil who is the subject of the adjudication and shall consider any of the following information that is available:

(a) The academic record of the pupil and a record of any extracurricular activities in which the pupil previously was involved;
(b) The disciplinary record of the pupil and any available records of the pupil's prior behavioral problems other than the behavioral problems contained in the disciplinary record;
(c) The social history of the pupil;
(d) The pupil's response to the imposition of prior discipline and sanctions imposed for behavioral problems;
(e) Evidence regarding the seriousness of and any aggravating factors related to the offense that is the basis of the resolution seeking permanent exclusion;
(f) Any mitigating circumstances surrounding the offense that gave rise to the request for permanent exclusion;
(g) Evidence regarding the probable danger posed to the health and safety of other pupils or of school employees by the continued presence of the pupil in a public school setting;
(h) Evidence regarding the probable disruption of the teaching of any school district's graded course of study by the continued presence of the pupil in a public school setting;

(i) Evidence regarding the availability of alternative sanctions of a less serious nature than permanent exclusion that would enable the pupil to remain in a public school setting without posing a significant danger to the health and safety of other pupils or of school employees and without posing a threat of the disruption of the teaching of any district's graded course of study.

(3) In any adjudication hearing conducted pursuant to this section and section 3313.662 of the Revised Code, a court order that proves the adjudication or conviction that is the basis for the resolution of the board of education seeking permanent exclusion is sufficient evidence to prove that the pupil committed a violation as specified in division (F)(1) of this section.

(4) The superintendent or the referee shall make or cause to be made a record of any adjudication hearing conducted pursuant to this section.

(5) A referee who conducts an adjudication hearing pursuant to this section shall promptly report the referee's findings in writing to the superintendent at the conclusion of the adjudication hearing.

(F) If an adjudication hearing is conducted or a determination is made pursuant to this section and section 3313.662 of the Revised Code, the superintendent shall review and consider the evidence presented, the entire school record of the pupil, and any available information described in divisions (E)(2)(a) to (i) of this section and shall not enter an order of permanent exclusion unless the superintendent or the superintendent's appointed referee finds, by a preponderance of the evidence, both of the following:

1. That the pupil was convicted of or adjudicated a delinquent child for committing a violation listed in division (A) of section 3313.662 of the Revised Code and that the violation was committed when the child was sixteen years of age or older;

2. That the pupil's continued attendance in the public school system may endanger the health and safety of other pupils or school employees.

(G)(1) Within seven days after the conclusion of an adjudication hearing that is conducted pursuant to this section, the superintendent of public instruction shall enter an order in relation to the permanent exclusion of the pupil who is the subject of the hearing or determination.

(2) If the superintendent or a referee makes the findings described in divisions (F)(1) and (2) of this section, the superintendent shall issue a written order that permanently excludes the pupil from attending any of the public schools of this state and immediately shall send a written notice of the order to the board of education that forwarded the resolution, to the pupil who was the subject of the resolution, to that pupil's parent, guardian, or custodian, and to that pupil's attorney, that includes all of the following:

   a. A copy of the order of permanent exclusion;

   b. A statement informing the pupil and the pupil's parent, guardian, or custodian of the pupil's right to appeal the order of permanent exclusion pursuant to division (H) of this section and of the possible revocation of the permanent exclusion pursuant to division (I) of this section if a final judicial determination reverses the conviction or adjudication that was the basis for the permanent exclusion;

   c. A statement informing the pupil and the pupil's parent, guardian, or custodian of the provisions of divisions (F), (G), and (H) of section 3313.662 of the Revised Code.

(3) If the superintendent or a referee does not make the findings described in divisions (F)(1) and (2) of this section, the superintendent shall issue a written order that rejects the resolution of the board of education and immediately shall send written notice of that fact to the board of education that forwarded the resolution, to the pupil who was the subject of the proposed resolution, and to that pupil's parent, guardian, or custodian.
(H) A pupil may appeal an order of permanent exclusion made by the superintendent of public instruction pursuant to this section and section 3313.662 of the Revised Code to the court of common pleas of the county in which the board of education that forwarded the resolution requesting the permanent exclusion is located. The appeal shall be conducted in accordance with Chapter 2505. of the Revised Code.

(I) If a final judicial determination reverses the conviction or adjudication that is the basis of a permanent exclusion ordered under this section, the superintendent of public instruction, upon receipt of a certified copy of an order reflecting that final determination from the pupil or that pupil's parent, guardian, custodian, or attorney, shall revoke the order of permanent exclusion.

(J) As used in this section:

(1) “Permanently exclude” and “permanent exclusion” have the same meanings as in section 3313.662 of the Revised Code.

(2) “Out-of-home care” and “legal custody” have the same meanings as in section 2151.011 of the Revised Code.

(3) "Certificate of high school equivalence" has the same meaning as in section 4109.06 of the Revised Code.

ORC 3313.66. Suspension, expulsion, or permanent exclusion - removal from curricular or extracurricular activities.

(A)(1) Except as provided under division (B)(2) of this section, and subject to section 3313.668 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district, or the principal of a public school may suspend a pupil from school for not more than ten school days. The board of education of a city, exempted village, or local school district may adopt a policy granting assistant principals and other administrators the authority to suspend a pupil from school for a period of time as specified in the policy of the board of education, not to exceed ten school days. If at the time an out-of-school suspension is imposed there are fewer than ten school days remaining in the school year in which the incident that gives rise to the suspension takes place, the superintendent shall not apply any remaining part of the period of the suspension to the following school year. The superintendent may instead require the pupil to participate in a community service program or another alternative consequence for a number of hours equal to the remaining part of the period of the suspension. The pupil shall be required to begin the pupil's community service or alternative consequence during the first full weekday of summer break. Each school district, in its discretion, may develop an appropriate list of alternative consequences. In the event that a pupil fails to complete community service or the assigned alternative consequence, the school district may determine the next course of action, which shall not include requiring the pupil to serve the remaining time of the out-of-school suspension at the beginning of the following school year.

No pupil shall be issued an out-of-school suspension unless prior to the suspension the superintendent or principal does both of the following:

(a) Gives the pupil written notice of the intention to suspend the pupil and the reasons for the intended suspension and, if the proposed suspension is based on a violation listed in division (A) of section 3313.662 of the Revised Code and if the pupil is sixteen years of age or older, includes in the notice a statement that the superintendent may seek to permanently exclude the pupil if the pupil is convicted of or adjudicated a delinquent child for that violation;

(b) Provides the pupil an opportunity to appear at an informal hearing before the principal, assistant principal, superintendent, or superintendent’s designee and challenge the reason for the intended suspension or otherwise to explain the pupil’s actions.

(2) If a pupil is issued an in-school suspension, the superintendent or principal shall ensure the pupil is serving the suspension in a supervised learning environment.
(3) Each school district board shall adopt a policy establishing parameters for completing and grading assignments missed because of a pupil’s suspension.

(a) The policy shall provide the pupil an opportunity to do both of the following:
   (i) Complete any classroom assignments missed because of the suspension;
   (ii) Receive at least partial credit for a completed assignment.

(b) The policy may permit grade reductions on account of the pupil’s suspension.

(c) The policy shall prohibit the receipt of a failing grade on a completed assignment solely on account of the pupil’s suspension.

(B)(1) Except as provided under division (B)(2), (3), or (4) of this section, and subject to section 3313.668 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district may expel a pupil from school for a period not to exceed the greater of eighty school days or the number of school days remaining in the semester or term in which the incident that gives rise to the expulsion takes place, unless the expulsion is extended pursuant to division (F) of this section. If at the time an expulsion is imposed there are fewer than eighty school days remaining in the school year in which the incident that gives rise to the expulsion takes place, the superintendent may apply any remaining part or all of the period of the expulsion to the following school year.

(2)(a) Unless a pupil is permanently excluded pursuant to section 3313.662 of the Revised Code, the superintendent of schools of a city, exempted village, or local school district shall expel a pupil from school for a period of one year for bringing a firearm to a school operated by the board of education of the district or onto any other property owned or controlled by the board, except that the superintendent may reduce this requirement on a case-by-case basis in accordance with the policy adopted by the board under section 3313.661 of the Revised Code.

(b) The superintendent of schools of a city, exempted village, or local school district may expel a pupil from school for a period of one year for bringing a firearm to an interscholastic competition, an extracurricular event, or any other school program or activity that is not located in a school or on property that is owned or controlled by the district. The superintendent may reduce this disciplinary action on a case-by-case basis in accordance with the policy adopted by the board under section 3313.661 of the Revised Code.

(c) Any expulsion pursuant to division (B)(2) of this section shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place. As used in this division, “firearm” has the same meaning as provided pursuant to the “Gun-Free Schools Act,” 115 Stat. 1762, 20 U.S.C. 7151.

(3) The board of education of a city, exempted village, or local school district may adopt a resolution authorizing the superintendent of schools to expel a pupil from school for a period not to exceed one year for bringing a knife capable of causing serious bodily injury to a school operated by the board, onto any other property owned or controlled by the board, or to an interscholastic competition, an extracurricular event, or any other program or activity sponsored by the school district or in which the district is a participant, or for possessing a firearm or knife capable of serious bodily injury, at a school, on any other property owned or controlled by the board, or at an interscholastic competition, an extracurricular event, or any other school program or activity, which firearm or knife was initially brought onto school board property by another person. The resolution may authorize the superintendent to extend such an expulsion, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

(4) The board of education of a city, exempted village, or local school district may adopt a resolution establishing a policy under section 3313.661 of the Revised Code that authorizes the superintendent of schools to expel a pupil from school for a period not to exceed one year for committing an act that is a
criminal offense when committed by an adult and that results in serious physical harm to persons as defined in division (A)(5) of section 2901.01 of the Revised Code or serious physical harm to property as defined in division (A)(6) of section 2901.01 of the Revised Code while the pupil is at school, on any other property owned or controlled by the board, or at an interscholastic competition, an extracurricular event, or any other school program or activity. Any expulsion under this division shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

(5) The board of education of any city, exempted village, or local school district may adopt a resolution establishing a policy under section 3313.661 of the Revised Code that authorizes the superintendent of schools to expel a pupil from school for a period not to exceed one year for making a bomb threat to a school building or to any premises at which a school activity is occurring at the time of the threat. Any expulsion under this division shall extend, as necessary, into the school year following the school year in which the incident that gives rise to the expulsion takes place.

(6) No pupil shall be expelled under division (B)(1), (2), (3), (4), or (5) of this section unless, prior to the pupil's expulsion, the superintendent does both of the following:

(a) Gives the pupil and the pupil's parent, guardian, or custodian written notice of the intention to expel the pupil;

(b) Provides the pupil and the pupil's parent, guardian, custodian, or representative an opportunity to appear in person before the superintendent or the superintendent's designee to challenge the reasons for the intended expulsion or otherwise to explain the pupil's actions.

The notice required in this division shall include the reasons for the intended expulsion, notification of the opportunity of the pupil and the pupil's parent, guardian, custodian, or representative to appear before the superintendent or the superintendent's designee to challenge the reasons for the intended expulsion or otherwise to explain the pupil's action, and notification of the time and place to appear. The time to appear shall not be earlier than three nor later than five school days after the notice is given, unless the superintendent grants an extension of time at the request of the pupil or the pupil's parent, guardian, custodian, or representative. If an extension is granted after giving the original notice, the superintendent shall notify the pupil and the pupil's parent, guardian, custodian, or representative of the new time and place to appear. If the proposed expulsion is based on a violation listed in division (A) of section 3313.662 of the Revised Code and if the pupil is sixteen years of age or older, the notice shall include a statement that the superintendent may seek to permanently exclude the pupil if the pupil is convicted of or adjudicated a delinquent child for that violation.

(7) A superintendent of schools of a city, exempted village, or local school district shall initiate expulsion proceedings pursuant to this section with respect to any pupil who has committed an act warranting expulsion under the district's policy regarding expulsion even if the pupil has withdrawn from school for any reason after the incident that gives rise to the hearing but prior to the hearing or decision to impose the expulsion. If, following the hearing, the pupil would have been expelled for a period of time had the pupil still been enrolled in the school, the expulsion shall be imposed for the same length of time as on a pupil who has not withdrawn from the school.

(C)(1) Subject to division (C)(2) of this section, if a pupil's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process taking place either within a classroom or elsewhere on the school premises, the superintendent or a principal or assistant principal may remove a pupil from curricular activities or from the school premises, and a teacher may remove a pupil from curricular activities under the teacher's supervision, without the notice and hearing requirements of division (A) or (B) of this section. As soon as practicable after making such a removal, the teacher shall submit in writing to the principal the reasons for such removal.
(2) A pupil in any of grades pre-kindergarten through three may be removed pursuant to division (C)(1) of this section only for the remainder of the school day and shall be permitted to return to curricular and extracurricular activities on the school day following the day in which the student was removed.

(a) A school district or school that returns a student in any of grades pre-kindergarten through three to curricular and extracurricular activities on the next school day shall not be required to follow division (C)(3) of this section with regard to that student.

(b) A school district shall not initiate a suspension or expulsion proceeding against a student in any of grades pre-kindergarten through three who was removed from a curricular or extracurricular activity under division (C) of this section unless the student has committed an act described in division (B)(1)(a) or (b) of section 3313.668 of the Revised Code.

(3) If a pupil is removed under division (C)(1) or (2) of this section from a curricular activity or from the school premises, written notice of the hearing and of the reason for the removal shall be given to the pupil as soon as practicable prior to the hearing, which shall be held on the next school day after the initial removal is ordered. The hearing shall be held in accordance with division (A) of this section unless it is probable that the pupil may be subject to expulsion, in which case a hearing in accordance with division (B) of this section shall be held, except that the hearing shall be held on the next school day after the date of the initial removal. The individual who ordered, caused, or requested the removal to be made shall be present at the hearing.

(4) If the superintendent or the principal reinstates a pupil in a curricular activity under the teacher's supervision prior to the hearing following a removal under this division, the teacher, upon request, shall be given in writing the reasons for such reinstatement.

(D) The superintendent or principal, within one school day after the time of a pupil's expulsion or suspension, shall notify in writing the parent, guardian, or custodian of the pupil of the expulsion or suspension. In the case of an expulsion, the superintendent or principal, within one school day after the time of a pupil's expulsion, also shall notify in writing the treasurer of the board of education. Each notice shall include the reasons for the expulsion or suspension, notification of the right of the pupil or the pupil's parent, guardian, or custodian to appeal the expulsion or suspension to the board of education or to its designee, to be represented in all appeal proceedings, to be granted a hearing before the board or its designee in order to be heard against the suspension or expulsion, and to request that the hearing be held in executive session, notification that the expulsion may be subject to extension pursuant to division (F) of this section if the pupil is sixteen years of age or older, and notification that the superintendent may seek the pupil's permanent exclusion if the suspension or expulsion was based on a violation listed in division (A) of section 3313.662 of the Revised Code that was committed when the child was sixteen years of age or older and if the pupil is convicted of or adjudicated a delinquent child for that violation.

In accordance with the policy adopted by the board of education under section 3313.661 of the Revised Code, the notice provided under this division shall specify the manner and date by which the pupil or the pupil's parent, guardian, or custodian shall notify the board of the pupil's, parent's, guardian's, or custodian's intent to appeal the expulsion or suspension to the board or its designee.

Any superintendent expelling a pupil under this section for more than twenty school days or for any period of time if the expulsion will extend into the following semester or school year shall, in the notice required under this division, provide the pupil and the pupil's parent, guardian, or custodian with information about services or programs offered by public and private agencies that work toward improving those aspects of the pupil's attitudes and behavior that contributed to the incident that gave rise to the pupil's expulsion. The information shall include the names, addresses, and phone numbers of the appropriate public and private agencies.

(E) A pupil or the pupil's parent, guardian, or custodian may appeal the pupil's expulsion by a superintendent or suspension by a superintendent, principal, assistant principal, or other administrator to
the board of education or to its designee. If the pupil or the pupil's parent, guardian, or custodian intends to appeal the expulsion or suspension to the board or its designee, the pupil or the pupil's parent, guardian, or custodian shall notify the board in the manner and by the date specified in the notice provided under division (D) of this section. The pupil or the pupil's parent, guardian, or custodian may be represented in all appeal proceedings and shall be granted a hearing before the board or its designee in order to be heard against the suspension or expulsion. At the request of the pupil or of the pupil's parent, guardian, custodian, or attorney, the board or its designee may hold the hearing in executive session but shall act upon the suspension or expulsion only at a public meeting. The board, by a majority vote of its full membership or by the action of its designee, may affirm the order of suspension or expulsion, reinstate the pupil, or otherwise reverse, vacate, or modify the order of suspension or expulsion.

The board or its designee shall make a verbatim record of hearings held under this division. The decisions of the board or its designee may be appealed under Chapter 2506. of the Revised Code.

This section shall not be construed to require notice and hearing in accordance with division (A), (B), or (C) of this section in the case of normal disciplinary procedures in which a pupil is removed from a curricular activity for a period of less than one school day and is not subject to suspension or expulsion.

(F)(1) If a pupil is expelled pursuant to division (B) of this section for committing any violation listed in division (A) of section 3313.662 of the Revised Code and the pupil was sixteen years of age or older at the time of committing the violation, if a complaint, indictment, or information is filed alleging that the pupil is a delinquent child based upon the commission of the violation or the pupil is prosecuted as an adult for the commission of the violation, and if the resultant juvenile court or criminal proceeding is pending at the time that the expulsion terminates, the superintendent of schools that expelled the pupil may file a motion with the court in which the proceeding is pending requesting an order extending the expulsion for the lesser of an additional eighty days or the number of school days remaining in the school year. Upon the filing of the motion, the court immediately shall schedule a hearing and give written notice of the time, date, and location of the hearing to the superintendent and to the pupil and the pupil's parent, guardian, or custodian. At the hearing, the court shall determine whether there is reasonable cause to believe that the pupil committed the alleged violation that is the basis of the expulsion and, upon determining that reasonable cause to believe the pupil committed the violation does exist, shall grant the requested extension.

(2) If a pupil has been convicted of or adjudicated a delinquent child for a violation listed in division (A) of section 3313.662 of the Revised Code for an act that was committed when the child was sixteen years of age or older, if the pupil has been expelled pursuant to division (B) of this section for that violation, and if the board of education of the school district of the school from which the pupil was expelled has adopted a resolution seeking the pupil's permanent exclusion, the superintendent may file a motion with the court that convicted the pupil or adjudicated the pupil a delinquent child requesting an order to extend the expulsion until an adjudication order or other determination regarding permanent exclusion is issued by the superintendent of public instruction pursuant to section 3301.121 and division (D) of section 3313.662 of the Revised Code. Upon the filing of the motion, the court immediately shall schedule a hearing and give written notice of the time, date, and location of the hearing to the superintendent of the school district, the pupil, and the pupil's parent, guardian, or custodian. At the hearing, the court shall determine whether there is reasonable cause to believe the pupil's continued attendance in the public school system may endanger the health and safety of other pupils or school employees and, upon making that determination, shall grant the requested extension.

(G) The failure of the superintendent or the board of education to provide the information regarding the possibility of permanent exclusion in the notice required by divisions (A), (B), and (D) of this section is not jurisdictional, and the failure shall not affect the validity of any suspension or expulsion procedure that is
conducted in accordance with this section or the validity of a permanent exclusion procedure that is conducted in accordance with sections 3301.121 and 3313.662 of the Revised Code.

(H) With regard to suspensions and expulsions pursuant to divisions (A) and (B) of this section by the board of education of any city, exempted village, or local school district, this section shall apply to any student, whether or not the student is enrolled in the district, attending or otherwise participating in any curricular program provided in a school operated by the board or provided on any other property owned or controlled by the board.

(I) Whenever a student is expelled under this section, the expulsion shall result in removal of the student from the student's regular school setting. However, during the period of the expulsion, the board of education of the school district that expelled the student or any board of education admitting the student during that expulsion period may provide educational services to the student in an alternative setting.

(J)(1) Notwithstanding sections 3109.51 to 3109.80, 3313.64, and 3313.65 of the Revised Code, any school district, after offering an opportunity for a hearing, may temporarily deny admittance to any pupil if one of the following applies:

(a) The pupil has been suspended from the schools of another district under division (A) of this section and the period of suspension, as established under that division, has not expired;

(b) The pupil has been expelled from the schools of another district under division (B) of this section and the period of the expulsion, as established under that division or as extended under division (F) of this section, has not expired.

If a pupil is temporarily denied admission under this division, the pupil shall be admitted to school in accordance with sections 3109.51 to 3109.80, 3313.64, or 3313.65 of the Revised Code no later than upon expiration of the suspension or expulsion period, as applicable.

(2) Notwithstanding sections 3109.51 to 3109.80, 3313.64, and 3313.65 of the Revised Code, any school district, after offering an opportunity for a hearing, may temporarily deny admittance to any pupil if the pupil has been expelled or otherwise removed for disciplinary purposes from a public school in another state and the period of expulsion or removal has not expired. If a pupil is temporarily denied admission under this division, the pupil shall be admitted to school in accordance with sections 3109.51 to 3109.80, 3313.64, or 3313.65 of the Revised Code no later than the earlier of the following:

(a) Upon expiration of the expulsion or removal period imposed by the out-of-state school;

(b) Upon expiration of a period established by the district, beginning with the date of expulsion or removal from the out-of-state school, that is no greater than the period of expulsion that the pupil would have received under the policy adopted by the district under section 3313.661 of the Revised Code had the offense that gave rise to the expulsion or removal by the out-of-state school been committed while the pupil was enrolled in the district.

(K) As used in this section:

(1) "Permanently exclude" and "permanent exclusion" have the same meanings as in section 3313.662 of the Revised Code.

(2) "In-school suspension" means the pupil will serve all of the suspension in a supervised learning environment within a school setting.

**ORC 3313.661. Policy regarding suspension, expulsion, removal, and permanent exclusion.**

(A) [...] If a board of education adopts a resolution pursuant to division (B)(3) of section 3313.66 of the Revised Code, the policy shall define the term "knife capable of causing serious bodily injury" or "firearm," as applicable, for purposes of expulsion under that resolution and shall specify any reasons for which the superintendent of the district may reduce any required expulsion period on a case-by-case basis. If a board of education adopts a resolution pursuant to division (B)(4) or (5) of section 3313.66 of the Revised
Code, the policy shall specify any reasons for which the superintendent of the district may reduce any required expulsion period on a case-by-case basis. The policy also shall set forth the acts listed in section 3313.662 of the Revised Code for which a pupil may be permanently excluded.

The policy adopted under this division shall specify the date and manner by which a pupil or a pupil's parent, guardian, or custodian may notify the board of the pupil's, parent's, guardian's, or custodian's intent to appeal an expulsion or suspension to the board or its designee pursuant to division (E) of section 3313.66 of the Revised Code.

**ORC 3313.662. Adjudication order permanently excluding pupil from public schools.**

(A) The superintendent of public instruction, pursuant to this section and the adjudication procedures of section 3301.121 of the Revised Code, may issue an adjudication order that permanently excludes a pupil from attending any of the public schools of this state if the pupil is convicted of, or adjudicated a delinquent child for, committing, when the pupil was sixteen years of age or older, an act that would be a criminal offense if committed by an adult and if the act is any of the following:

1. A violation of section 2923.122 of the Revised Code;
2. A violation of section 2923.12 of the Revised Code, of a substantially similar municipal ordinance, or of section 2925.03 of the Revised Code that was committed on property owned or controlled by, or at an activity held under the auspices of, a board of education of a city, local, exempted village, or joint vocational school district;
3. A violation of section 2925.11 of the Revised Code, other than a violation of that section that would be a minor drug possession offense, that was committed on property owned or controlled by, or at an activity held under the auspices of, the board of education of a city, local, exempted village, or joint vocational school district;
4. A violation of section 2903.01, 2903.02, 2903.03, 2903.04, 2903.11, 2903.12, 2907.02, or 2907.05 or of former section 2907.12 of the Revised Code that was committed on property owned or controlled by, or at an activity held under the auspices of, a board of education of a city, local, exempted village, or joint vocational school district, if the victim at the time of the commission of the act was an employee of that board of education;
5. Complicity in any violation described in division (A)(1), (2), (3), or (4) of this section that was alleged to have been committed in the manner described in division (A)(1), (2), (3), or (4) of this section, regardless of whether the act of complicity was committed on property owned or controlled by, or at an activity held under the auspices of, a board of education of a city, local, exempted village, or joint vocational school district.

(B) A pupil may be suspended or expelled in accordance with section 3313.66 of the Revised Code prior to being permanently excluded from public school attendance under this section and section 3301.121 of the Revised Code.

(C)(1) If the superintendents of a city, local, exempted village, or joint vocational school district in which a pupil attends school obtains or receives proof that the pupil has been convicted of committing when the pupil was sixteen years of age or older a violation listed in division (A) of this section or adjudicated a delinquent child for the commission when the pupil was sixteen years of age or older of a violation listed in division (A) of this section, the superintendent may issue to the board of education of the school district a request that the pupil be permanently excluded from public school attendance, if both of the following apply:
   a. After obtaining or receiving proof of the conviction or adjudication, the superintendent or the superintendent's designee determines that the pupil's continued attendance in school may endanger the health and safety of other pupils or school employees and gives the pupil and the pupil's parent, guardian, or custodian written notice that the superintendent intends to recommend to the board of
education that the board adopt a resolution requesting the superintendent of public instruction to permanently exclude the pupil from public school attendance.

(b) The superintendent or the superintendent's designee forwards to the board of education the superintendent's written recommendation that includes the determinations the superintendent or designee made pursuant to division (C)(1)(a) of this section and a copy of the proof the superintendent received showing that the pupil has been convicted of or adjudicated a delinquent child for a violation listed in division (A) of this section that was committed when the pupil was sixteen years of age or older.

(2) Within fourteen days after receipt of a recommendation from the superintendent pursuant to division (C)(1)(b) of this section that a pupil be permanently excluded from public school attendance, the board of education of a city, local, exempted village, or joint vocational school district, after review and consideration of all of the following available information, may adopt a resolution requesting the superintendent of public instruction to permanently exclude the pupil who is the subject of the recommendation from public school attendance:

(a) The academic record of the pupil and a record of any extracurricular activities in which the pupil previously was involved;

(b) The disciplinary record of the pupil and any available records of the pupil's prior behavioral problems other than the behavioral problems contained in the disciplinary record;

(c) The social history of the pupil;

(d) The pupil's response to the imposition of prior discipline and sanctions imposed for behavioral problems;

(e) Evidence regarding the seriousness of and any aggravating factors related to the offense that is the basis of the resolution seeking permanent exclusion;

(f) Any mitigating circumstances surrounding the offense that gave rise to the request for permanent exclusion;

(g) Evidence regarding the probable danger posed to the health and safety of other pupils or of school employees by the continued presence of the pupil in a public school setting;

(h) Evidence regarding the probable disruption of the teaching of any school district's graded course of study by the continued presence of the pupil in a public school setting;

(i) Evidence regarding the availability of alternative sanctions of a less serious nature than permanent exclusion that would enable the pupil to remain in a public school setting without posing a significant danger to the health and safety of other pupils or of school employees and without posing a threat of the disruption of the teaching of any district's graded course of study.

(3) If the board does not adopt a resolution requesting the superintendent of public instruction to permanently exclude the pupil, it immediately shall send written notice of that fact to the superintendent who sought the resolution, to the pupil who was the subject of the proposed resolution, and to that pupil's parent, guardian, or custodian.

(D)(1) Upon adoption of a resolution under division (C) of this section, the board of education immediately shall forward to the superintendent of public instruction the written resolution, proof of the conviction or adjudication that is the basis of the resolution, a copy of the pupil's entire school record, and any other relevant information and shall forward a copy of the resolution to the pupil who is the subject of the recommendation and to that pupil's parent, guardian, or custodian.

(2) The board of education that adopted and forwarded the resolution requesting the permanent exclusion of the pupil to the superintendent of public instruction promptly shall designate a representative of the school district to present the case for permanent exclusion to the superintendent
or the referee appointed by the superintendent. The representative of the school district may be an attorney admitted to the practice of law in this state. At the adjudication hearing held pursuant to section 3301.121 of the Revised Code, the representative of the school district shall present evidence in support of the requested permanent exclusion.

(3) Upon receipt of a board of education's resolution requesting the permanent exclusion of a pupil from public school attendance, the superintendent of public instruction, in accordance with the adjudication procedures of section 3301.121 of the Revised Code, promptly shall issue an adjudication order that either permanently excludes the pupil from attending any of the public schools of this state or that rejects the resolution of the board of education.

(E) Notwithstanding any provision of section 3313.64 of the Revised Code or an order of any court of this state that otherwise requires the admission of the pupil to a school, no school official in a city, local, exempted village, or joint vocational school district knowingly shall admit to any school in the school district a pupil who has been permanently excluded from public school attendance by the superintendent of public instruction.

(F)(1)(a) Upon determining that the school attendance of a pupil who has been permanently excluded from public school attendance no longer will endanger the health and safety of other students or school employees, the superintendent of any city, local, exempted village, or joint vocational school district in which the pupil desires to attend school may issue to the board of education of the school district a recommendation, including the reasons for the recommendation, that the permanent exclusion of a pupil be revoked and the pupil be allowed to return to the public schools of the state.

If any violation which in whole or in part gave rise to the permanent exclusion of any pupil involved the pupil's bringing a firearm to a school operated by the board of education of a school district or onto any other property owned or operated by such a board, no superintendent shall recommend under this division an effective date for the revocation of the pupil's permanent exclusion that is less than one year after the date on which the last such firearm incident occurred. However, on a case-by-case basis, a superintendent may recommend an earlier effective date for such a revocation for any of the reasons for which the superintendent may reduce the one-year expulsion requirement in division (B)(2) of section 3313.66 of the Revised Code.

(b) Upon receipt of the recommendation of the superintendent that a permanent exclusion of a pupil be revoked, the board of education of a city, local, exempted village, or joint vocational school district may adopt a resolution by a majority vote of its members requesting the superintendent of public instruction to revoke the permanent exclusion of the pupil. Upon adoption of the resolution, the board of education shall forward a copy of the resolution, the reasons for the resolution, and any other relevant information to the superintendent of public instruction.

(c) Upon receipt of a resolution of a board of education requesting the revocation of a permanent exclusion of a pupil, the superintendent of public instruction, in accordance with the adjudication procedures of Chapter 119. of the Revised Code, shall issue an adjudication order that revokes the permanent exclusion of the pupil from public school attendance or that rejects the resolution of the board of education.

(2)(a) A pupil who has been permanently excluded pursuant to this section and section 3301.121 of the Revised Code may request the superintendent of any city, local, exempted village, or joint vocational school district in which the pupil desires to attend school to admit the pupil on a probationary basis for a period not to exceed ninety school days. Upon receiving the request, the superintendent may enter into discussions with the pupil and with the pupil's parent, guardian, or custodian or a person designated by the pupil's parent, guardian, or custodian to develop a probationary admission plan designed to assist the pupil's probationary admission to the school. The plan may include a treatment program, a
behavioral modification program, or any other program reasonably designed to meet the educational needs of the child and the disciplinary requirements of the school.

If any violation which in whole or in part gave rise to the permanent exclusion of the pupil involved the pupil's bringing a firearm to a school operated by the board of education of any school district or onto any other property owned or operated by such a board, no plan developed under this division for the pupil shall include an effective date for the probationary admission of the pupil that is less than one year after the date on which the last such firearm incident occurred except that on a case-by-case basis, a plan may include an earlier effective date for such an admission for any of the reasons for which the superintendent of the district may reduce the one-year expulsion requirement in division (B)(2) of section 3313.66 of the Revised Code.

(b) If the superintendent of a school district, a pupil, and the pupil's parent, guardian, or custodian or a person designated by the pupil's parent, guardian, or custodian agree upon a probationary admission plan prepared pursuant to division (F)(2)(a) of this section, the superintendent of the school district shall issue to the board of education of the school district a recommendation that the pupil be allowed to attend school within the school district under probationary admission, the reasons for the recommendation, and a copy of the agreed upon probationary admission plan. Within fourteen days after the board of education receives the recommendation, reasons, and plan, the board may adopt the recommendation by a majority vote of its members. If the board adopts the recommendation, the pupil may attend school under probationary admission within that school district for a period not to exceed ninety days or any additional probationary period permitted under divisions (F)(2)(d) and (e) of this section in accordance with the probationary admission plan prepared pursuant to division (F)(2)(a) of this section.

(c) If a pupil who is permitted to attend school under probationary admission pursuant to division (F)(2)(b) of this section fails to comply with the probationary admission plan prepared pursuant to division (F)(2)(a) of this section, the superintendent of the school district immediately may remove the pupil from the school and issue to the board of education of the school district a recommendation that the probationary admission be revoked. Within five days after the board of education receives the recommendation, the board may adopt the recommendation to revoke the pupil's probationary admission by a majority vote of its members. If a majority of the board does not adopt the recommendation to revoke the pupil's probationary admission, the pupil shall continue to attend school in compliance with the pupil's probationary admission plan.

(d) If a pupil who is permitted to attend school under probationary admission pursuant to division (F)(2)(b) of this section complies with the probationary admission plan prepared pursuant to division (F)(2)(a) of this section, the pupil or the pupil's parent, guardian, or custodian, at any time before the expiration of the ninety-day probationary admission period, may request the superintendent of the school district to extend the terms and period of the pupil's probationary admission for a period not to exceed ninety days or to issue a recommendation pursuant to division (F)(1) of this section that the pupil's permanent exclusion be revoked and the pupil be allowed to return to the public schools of this state.

(e) If a pupil is granted an extension of the pupil's probationary admission pursuant to division (F)(2)(d) of this section, the pupil or the pupil's parent, guardian, or custodian, in the manner described in that division, may request, and the superintendent and board, in the manner described in that division, may recommend and grant, subsequent probationary admission periods not to exceed ninety days each. If a pupil who is permitted to attend school under an extension of a probationary admission plan complies with the probationary admission plan prepared pursuant to the extension, the pupil or the pupil's parent, guardian, or custodian may request a revocation of the pupil's permanent exclusion in the manner described in division (F)(2)(d) of this section.
(f) Any extension of a probationary admission requested by a pupil or a pupil's parent, guardian, or custodian pursuant to divisions (F)(2)(d) or (e) of this section shall be subject to the adoption and approval of a probationary admission plan in the manner described in divisions (F)(2)(a) and (b) of this section and may be terminated as provided in division (F)(2)(c) of this section.

(g) If the pupil has complied with any probationary admission plan and the superintendent issues a recommendation that seeks revocation of the pupil's permanent exclusion pursuant to division (F)(1) of this section, the pupil's compliance with any probationary admission plan may be considered along with other relevant factors in any determination or adjudication conducted pursuant to division (F)(1) of this section.

(G)(1) Except as provided in division (G)(2) of this section, any information regarding the permanent exclusion of a pupil shall be included in the pupil's official records and shall be included in any records sent to any school district that requests the pupil's records.

(2) When a pupil who has been permanently excluded from public school attendance reaches the age of twenty-two or when the permanent exclusion of a pupil has been revoked, all school districts that maintain records regarding the pupil's permanent exclusion shall remove all references to the exclusion from the pupil's file and shall destroy them.

A pupil who has reached the age of twenty-two or whose permanent exclusion has been revoked may send a written notice to the superintendent of any school district maintaining records of the pupil's permanent exclusion requesting the superintendent to ensure that the records are removed from the pupil's file and destroyed. Upon receipt of the request and a determination that the pupil is twenty-two years of age or older or that the pupil's permanent exclusion has been revoked, the superintendent shall ensure that the records are removed from the pupil's file and destroyed.

(b) Provides the pupil an opportunity to appear at an informal hearing before the principal, assistant principal, superintendent, or superintendent's designee and challenge the reason for the intended suspension or otherwise to explain the pupil's actions.

(2) If a pupil is issued an in-school suspension, the superintendent or principal shall ensure the pupil is serving the suspension in a supervised learning environment.

(3) Each school district board shall adopt a policy establishing parameters for completing and grading assignments missed because of a pupil's suspension.

   (a) The policy shall provide the pupil an opportunity to do both of the following:

   (i) Complete any classroom assignments missed because of the suspension;

   (ii) Receive at least partial credit for a completed assignment.

   (b) The policy may permit grade reductions on account of the pupil's suspension.

The superintendent shall thereupon forward a card showing the essential facts regarding the child and stating the place of the child's new residence to the superintendent of schools of the district to which the child has moved.

**ORC 3321.19. Examination into cases of truancy - failure of parent, guardian or responsible person to cause child's attendance at school.**

(A) As used in this section and section 3321.191 of the Revised Code, "habitual truant" has the same meaning as in section 2151.011 of the Revised Code.

(B) When a board of education of any city, exempted village, local, joint vocational, or cooperative education school district or the governing board of any educational service center determines that a student in its district has been truant and the parent, guardian, or other person having care of the child has failed to cause the student's attendance at school, the board may require the parent, guardian, or other person having care of the child pursuant to division (B) of this section to attend an educational program established pursuant to rules adopted by the state board of education for the purpose of encouraging parental involvement in compelling the attendance of the child at school.

No parent, guardian, or other person having care of a child shall fail without good cause to attend an educational program described in this division if the parent, guardian, or other person has been served notice pursuant to division (C) of this section.

(C) On the request of the superintendent of schools, the superintendent of any educational service center, the board of education of any city, exempted village, local, joint vocational, or cooperative education school district, or the governing board of any educational service center or when it otherwise comes to the notice of the attendance officer or other appropriate officer of the school district, the attendance officer or other appropriate officer shall examine into any case of supposed truancy within the district and shall warn the child, if found truant, and the child's parent, guardian, or other person having care of the child, in writing, of the legal consequences of being truant. When any child of compulsory school age, in violation of law, is not attending school, the attendance or other appropriate officer shall notify the parent, guardian, or other person having care of that child of the fact, and require the parent, guardian, or other person to cause the child to attend school immediately. The parent, guardian, or other person having care of the child shall cause the child's attendance at school. Upon the failure of the parent, guardian, or other person having care of the child to do so, the attendance officer or other appropriate officer, if so directed by the superintendent, the district board, or the educational service center governing board, shall send notice requiring the attendance of that parent, guardian, or other person at a parental education program established pursuant to division (B) of this section and, subject to divisions (D) and (E) of this section, may file a complaint against the parent, guardian, or other person having care of the child in any court of competent jurisdiction.

(D)(1) Upon the failure of the parent, guardian, or other person having care of the child to cause the child's attendance at school, if the child is considered an habitual truant, the board of education of the school district or the governing board of the educational service center, within ten days, subject to division (E) of this section, shall assign the student to an absence intervention team as described in division (C) of section 3321.191 of the Revised Code.

(2) The attendance officer shall file a complaint in the juvenile court of the county in which the child has a residence or legal settlement or in which the child is supposed to attend school jointly against the child and the parent, guardian, or other person having care of the child, in accordance with the timelines and conditions set forth in division (B) of section 3 321.16 of the Revised Code. A complaint filed in the
juvenile court under this division shall allege that the child is an unruly child for being an habitual truant and that the parent, guardian, or other person having care of the child has violated section 3321.38 of the Revised Code.

(E) A school district with a chronic absenteeism percentage that is less than five per cent, as displayed on the district's most recent report card issued under section 3302.03 of the Revised Code, and the school buildings within that district, shall be exempt from the requirement to assign habitually truant students to an intervention team for the following school year and shall instead take any appropriate action as an intervention strategy contained in the policy developed by the district board pursuant to divisions (A) and (B) of section 3321.191 of the Revised Code. In the event that those intervention strategies fail, within sixty-one days after their implementation, the attendance officer shall file a complaint, provided that the conditions described in division (B) of section 3321.16 of the Revised Code are satisfied.

**ORC 3321.141. Contacting parent, guardian, or other person having care of any absent student.**

(A) (1) Within one hundred twenty minutes after the beginning of each school day, the attendance officer, attendance officer’s assistant for each individual school building, or other person the attendance officer designates to take attendance for each school building shall make at least one attempt to contact, in accordance with division (A)(2) of this section, the parent, guardian, or other person having care of any student who was absent without legitimate excuse from the school the student is required to attend as of the beginning of that school day.

(2) An attempt to contact a student’s parent, guardian, or other person having care of the student shall be made through one of the following methods:

(a) A telephone call placed in person;

(b) An automated telephone call via a system that includes verification that each call was actually placed, and either the call was answered by its intended recipient or a voice mail message was left by the automated system relaying the required information;

(c) A notification sent through the school’s automated student information system;

(d) A text-based communication sent to the parent’s, guardian’s, or other person’s electronic wireless communications device, as defined in division (G)(1) of section 4511.204 of the Revised Code;

(e) A notification sent to the electronic mail address of the parent, guardian, or other person;

(f) A visit, in person, to the student’s residence of record;

(g) Any other notification procedure that has been adopted by resolution of the board of education of a school district.

(B) If the parent, guardian, or other person having care of a student initiates a telephone call or other communication notifying the school or building administration of the student’s excused or unexcused absence within one hundred twenty minutes after the beginning of the school day, the school is under no further obligation with respect to the requirement prescribed in division (A) of this section.

(C) A school district, or any officer, director, employee, or member of the school district board of education is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from an employee’s action or inaction in good faith compliance with this section. This section does not eliminate, limit, or reduce any other immunity or defense that a person may be entitled to under Chapter 2744. or any other provision of the Revised Code or under the common law of this state.

(D) This section does not apply to either of the following:

(1) Students who are in home-based, online, or internet-or computer-based instruction;
(2) Instances where a student was not expected to be in attendance at a particular school building due
to that student’s participation in off-campus activities, including but not limited to participation in the
college credit plus program established under Chapter 3365. of the Revised Code.

**ORC 3321.191. Board to adopt policy concerning habitual truancy; intervention strategies.**

(A) Effective beginning with the 2017-2018 school year, the board of education of each city, exempted
village, local, joint vocational, and cooperative education school district and the governing board of each
educational service center shall adopt a new or amended policy to guide employees of the school district
or service center in addressing and ameliorating student absences. In developing the policy, the
appropriate board shall consult with the judge of the juvenile court of the county or counties in which the
district or service center is located, with the parents, guardians, or other persons having care of the pupils
attending school in the district, and with appropriate state and local agencies.

(B) The policy developed under division (A) of this section shall include as an intervention strategy all of
the following actions, if applicable:

1. Providing a truancy intervention plan for any student who is excessively absent from school, as
described in the first paragraph of division (C) of this section;
2. Providing counseling for an habitual truant;
3. Requesting or requiring a parent, guardian, or other person having care of an habitual truant to
attend parental involvement programs, including programs adopted under section 3313.472 or

(C)(1) In the event that a child of compulsory school age is absent with a nonmedical excuse or without
legitimate excuse from the public school the child is supposed to attend for thirty-eight or more hours in
one school month, or sixty-five or more hours in a school year, the attendance officer of that school shall
notify the child’s parent, guardian, or custodian of the child’s absences, in writing, within seven days after
the date after the absence that triggered the notice requirement. At the time notice is given, the school
also may take any appropriate action as an intervention strategy contained in the policy developed by the
board pursuant to division (A) of this section.

(2)(a) If the absences of a student surpass the threshold for an habitual truant as set forth in section
2151.011 of the Revised Code, the principal or chief administrator of the school or the superintendent
of the school district shall assign the student to an absence intervention team. Within fourteen school days
after the assignment of a student to an absence intervention team, the team shall develop an
intervention plan for that student in an effort to reduce or eliminate further absences. Each intervention
plan shall vary based on the individual needs of the student, but the plan shall state that the attendance
officer shall file a complaint not later than sixty-one days after the date the plan was implemented, if the
child has refused to participate in, or failed to make satisfactory progress on, the intervention plan or an
alternative to adjudication under division (C)(2)(b) of section 3321.191 of the Revised Code. Within
seven days after the development of the plan, the school district or school shall make reasonable efforts
to provide the student’s parent, guardian, custodian, guardian ad litem, or temporary custodian with
written notice of the plan.

(b) As part of the absence intervention plan described in division (C)(2) of this section, the school
district or school, in its discretion, may contact the appropriate juvenile court and ask to have a
student informally enrolled in any alternative to adjudication described in division (G) of section
2151.27 of the Revised Code. If the school district or school chooses to have students informally enrolled in an alternative to adjudication, the school district or school shall develop a written policy regarding the use of, and selection process for, offering alternatives to adjudication to ensure fairness.

(c) The superintendent of each school district, or the superintendent’s designee, shall establish an absence intervention team for the district to be used by any schools of the district that do not establish their own absence intervention team as permitted under division (C)(2)(d) of this section. Membership of each absence intervention team may vary based on the needs of each individual student but shall include a representative from the child’s school district or school, another representative from the child’s school district or school who knows the child, and the child’s parent or parent’s designee, or the child’s guardian, custodian, guardian ad litem, or temporary custodian. The team also may include a school psychologist, counselor, social worker, or representative of a public or nonprofit agency designed to assist students and their families in reducing absences.

(d) The principal or chief administrator of each school may establish an absence intervention team or series of teams to be used in lieu of the district team established pursuant to division (C)(2)(c) of this section. Membership of each absence intervention team may vary based on the needs of each individual student but shall include a representative from the child’s school district or school, another representative from the child’s school district or school who knows the child, and the child’s parent or parent’s designee, or the child’s guardian, custodian, guardian ad litem, or temporary custodian. The team also may include a school psychologist, counselor, social worker, or representative of a public or nonprofit agency designed to assist students and their families in reducing absences.

(e) A superintendent, as described in division (C)(2)(c) of this section, or principal or chief administrator, as described in division (C)(2)(d) of this section, shall select the members of an absence intervention team within seven school days of the triggering event described in division (C)(2)(a) of this section. The superintendent, principal, or chief administrator, within the same period of seven school days, shall make at least three meaningful, good faith attempts to secure the participation of the student’s parent, guardian, custodian, guardian ad litem, or temporary custodian on that team. If the student’s parent responds to any of those attempts, but is unable to participate for any reason, the representative of the school district shall inform the parent of the parent’s right to appear by designee. If seven school days elapse and the student’s parent, guardian, custodian, guardian ad litem, or temporary custodian fails to respond to the attempts to secure participation, the school district or school shall do both of the following:

(i) Investigate whether the failure to respond triggers mandatory reporting to the public children services agency for the county in which the child resides in the manner described in section 2151.421 of the Revised Code;

(ii) Instruct the absence intervention team to develop an intervention plan for the child notwithstanding the absence of the child’s parent, guardian, custodian, guardian ad litem, or temporary custodian.

(f) In the event that a student becomes habitually truant within twenty-one school days prior to the last day of instruction of a school year, the school district or school may, in its discretion, assign one school official to work with the child’s parent, guardian, custodian, guardian ad litem, or temporary custodian to develop an absence intervention plan during the summer. If the school district or school selects this method, the plan shall be implemented not later than seven days prior to the first day of instruction of the next school year. In the alternative, the school district or school may toll the time periods to accommodate for the summer months and reconvene the absence intervention process upon the first day of instruction of the next school year.
(3) For purposes of divisions (C)(2)(c) and (d) of this section, the state board of education shall develop a format for parental permission to ensure compliance with the “Family Educational Rights and Privacy Act of 1974,” 88 Stat. 571, 20 U.S.C. 1232g, as amended, and any regulations promulgated under that act, and section 3319.321 of the Revised Code.

(D) Each school district or school may consult or partner with public and nonprofit agencies to provide assistance as appropriate to students and their families in reducing absences.

(E) Beginning with the 2017-2018 school year, each school district shall report to the department of education, as soon as practicable, and in a format and manner determined by the department, any of the following occurrences:

1. When a notice required by division (C)(1) of this section is submitted to a parent, guardian, or custodian;
2. When a child of compulsory school age has been absent without legitimate excuse from the public school the child is supposed to attend for thirty or more consecutive hours, forty-two or more hours in one school month, or seventy-two or more hours in a school year;
3. When a child of compulsory school age who has been adjudicated an unruly child for being an habitual truant violates the court order regarding that adjudication;
4. When an absence intervention plan has been implemented for a child under this section.

(F) Nothing in this section shall be construed to limit the duty or authority of a district board of education or governing body of an educational service center to develop other policies related to truancy or to limit the duty or authority of any employee of the school district or service center to respond to pupil truancy. However, a board shall be subject to the prohibition against suspending, expelling, or otherwise preventing a student from attending school for excessive absences as prescribed by section 3313.668 of the Revised Code.

**ORC 3321.20. Warning of legal consequences of truancy - complaint.**

When any child, in violation of section 3321.08 or 3321.09 of the Revised Code, is not attending a part-time school or class, the attendance officer shall warn the child and the child's parent, guardian, or other person in charge of the child in writing of the legal consequences of the child's failure to attend the part-time school or class. If the parent, guardian, or other person in charge of that child fails to cause the child's attendance at the part-time school or class, the attendance officer shall make complaint against the parent, guardian, or other person in charge of the child in the juvenile court of the county in which the child has a residence or legal settlement or in which the child is required to attend the part-time school or class.

**ORC 4510.32. Suspension of license of minor upon withdrawal from school or habitual absence.**

(A) The registrar of motor vehicles shall record within ten days of receipt and keep at the main office of the bureau of motor vehicles all information provided to the registrar by the superintendent of a school district in accordance with division (B) of section 3321.13 of the Revised Code.

(B) Whenever the registrar receives a notice under division (B) of section 3321.13 of the Revised Code, the registrar shall impose a class F suspension of the temporary instruction permit or driver's license of the person who is the subject of the notice for the period of time specified in division (B)(6) of section 4510.02 of the Revised Code, or, if the person has not been issued a temporary instruction permit or driver's license, the registrar shall deny to the person the issuance of a permit or license. The requirements of the second paragraph of section 119.06 of the Revised Code do not apply to a suspension of a person's temporary instruction permit or driver's license or a denial of a person's opportunity to obtain a temporary instruction permit or driver's license by the registrar under this division.
(C) Upon suspending the temporary instruction permit or driver's license of any person or denying any person the opportunity to be issued such a license or permit as provided in division (B) of this section, the registrar immediately shall notify the person in writing of the suspension or denial and inform the person that the person may petition for a hearing as provided in division (E) of this section.

(D) Any person whose permit or license is suspended under this section shall mail or deliver the person's permit or license to the registrar of motor vehicles within twenty days of notification of the suspension; however, the person's permit or license and the person's driving privileges shall be suspended immediately upon receipt of the notification. The registrar may retain the permit or license during the period of the suspension or the registrar may destroy it under section 4510.52 of the Revised Code.

(E) Any person whose temporary instruction permit or driver's license has been suspended, or whose opportunity to obtain such a permit or license has been denied pursuant to this section, may file a petition in the juvenile court in whose jurisdiction the person resides alleging error in the action taken by the registrar under division (B) of this section or alleging one or more of the matters within the scope of the hearing, as described in this division, or both. The petitioner shall notify the registrar and the superintendent of the school district who gave the notice to the registrar and juvenile judge under division (B) of section 3321.13 of the Revised Code of the filing of the petition and send them copies of the petition. The scope of the hearing is limited to the issues of whether the notice given by the superintendent to the registrar was in error and whether the suspension or denial of driving privileges will result in substantial hardship to the petitioner.

The registrar shall furnish the court a copy of the record created in accordance with division (A) of this section. The registrar and the superintendent shall furnish the court with any other relevant information required by the court.

In hearing the matter and determining whether the petitioner has shown that the petitioner's temporary instruction permit or driver's license should not be suspended or that the petitioner's opportunity to obtain such a permit or license should not be denied, the court shall decide the issue upon the information furnished by the registrar and the superintendent and any such additional evidence that the registrar, the superintendent, or the petitioner submits.

If the court finds from the evidence submitted that the petitioner has failed to show error in the action taken by the registrar under division (B) of this section and has failed to prove any of the matters within the scope of the hearing, then the court may assess the cost of the proceeding against the petitioner and shall uphold the suspension of the petitioner's permit or license or the denial of the petitioner's opportunity to obtain a permit or license. If the court finds that the petitioner has shown error in the action taken by the registrar under division (B) of this section or has proved one or more of the matters within the scope of the hearing, or both, the cost of the proceeding shall be paid out of the county treasury of the county in which the proceedings were held, and the suspension of the petitioner's permit or license or the denial of the person's opportunity to obtain a permit or license shall be terminated.

(F) The registrar shall cancel the record created under this section of any person who is the subject of a notice given under division (B) of section 3321.13 of the Revised Code and shall terminate the suspension of the person's permit or license or the denial of the person's opportunity to obtain a permit or license, if any of the following applies:

1. The person is at least eighteen years of age.
2. The person provides evidence, as the registrar shall require by rule, of receipt of a high school diploma or a certificate of high school equivalence.
3. The superintendent of a school district informs the registrar that the notification of withdrawal, habitual absence without legitimate excuse, suspension, or expulsion concerning the person was in error.
(4) The suspension or denial was imposed subsequent to a notification given under division (B)(3) or (4) of section 3321.13 of the Revised Code, and the superintendent of a school district informs the registrar that the person in question has satisfied any terms or conditions established by the school as necessary to terminate the suspension or denial of driving privileges.

(5) The suspension or denial was imposed subsequent to a notification given under division (B)(1) of section 3321.13 of the Revised Code, and the superintendent of a school district informs the registrar that the person in question is now attending school or enrolled in and attending an approved program to obtain a diploma or its equivalent to the satisfaction of the school superintendent.

(6) The suspension or denial was imposed subsequent to a notification given under division (B)(2) of section 3321.13 of the Revised Code, the person has completed at least one semester or term of school after the one in which the notification was given, the person requests the superintendent of the school district to notify the registrar that the person no longer is habitually absent without legitimate excuse, the superintendent determines that the person has not been absent from school without legitimate excuse in the current semester or term, as determined under that division, for more than sixty consecutive hours or for more than ninety total hours, and the superintendent informs the registrar of that fact. If a person described in division (F)(6) of this section requests the superintendent of the school district to notify the registrar that the person no longer is habitually absent without legitimate excuse and the superintendent makes the determination described in this division, the superintendent shall provide the information described in division (F)(6) of this section to the registrar within five days after receiving the request.

(7) The suspension or denial was imposed subsequent to a notification given under division (B)(2) of section 3321.13 of the Revised Code, and the superintendent of a school district informs the registrar that the person in question has received an age and schooling certificate in accordance with section 3331.01 of the Revised Code.

(8) The person filed a petition in court under division (E) of this section and the court found that the person showed error in the action taken by the registrar under division (B) of this section or proved one or more of the matters within the scope of the hearing on the petition, as set forth in division (E) of this section, or both.

At the end of the suspension period under this section and upon the request of the person whose temporary instruction permit or driver's license was suspended, the registrar shall return the driver's license or permit to the person or reissue the person's license or permit under section 4510.52 of the Revised Code, if the registrar destroyed the suspended license or permit under that section.

warn the child, if found truant, and the child's parent, guardian, or other person having care of the child, in writing, of the legal consequences of being truant. When any child of compulsory school age, in violation of law, is not attending school, the attendance or other appropriate officer shall notify the parent, guardian, or other person having care of that child of the fact, and require the parent, guardian, or other person to cause the child to attend school immediately. The parent, guardian, or other person having care of the child shall cause the child's attendance at school. 2. If the department decides to sanction a school district under this division, the department shall take the following sequential actions:
(a) Notify the district in writing that the department has determined that data has not been reported as required under this section and require the district to review its data submission and submit corrected data by a deadline established by the department. The department also may require the district to develop a corrective action plan, which shall include provisions for the district to provide mandatory staff training on data reporting procedures.

(b) Withhold up to ten per cent of the total amount of state funds due to the district for the current fiscal year and, if not previously required under division (L)(2)(a) of this section, require the district to develop a corrective action plan in accordance with that division;

(c) Withhold an additional amount of up to twenty per cent of the total amount of state funds due to the district for the current fiscal year;

(d) Direct department staff or an outside entity to investigate the district's data reporting practices and make recommendations for subsequent actions. The recommendations may include one or more of the following actions:

   (viii) If the district is issued a report card under section 3302.03 of the Revised Code and incomplete or inaccurate data submitted by the district likely caused the district to receive a higher performance rating than it deserved under that section, issue a revised report card for the district;
   (ix) Any other action designed to correct the district's data reporting problems.

(3) Any time the department takes an action against a school district under division (L)(2) of this section, the department shall make a report of the circumstances that prompted the action. The department shall send a copy of the report to the district superintendent or chief administrator and maintain a copy of the report in its files.

If any audit conducted by an outside entity under division (L)(2)(d)(i) or (5) of this section confirms that a district has not made a good faith effort to report data as required by this section, the
district shall reimburse the department for the full cost of the audit. The department may withhold state funds due to the district for this purpose.

(6) Prior to issuing a revised report card for a school district under division (L)(2)(d)(viii) of this section, the department may hold a hearing to provide the district with an opportunity to demonstrate that it made a good faith effort to report data as required by this section. The hearing shall be conducted by a referee appointed by the department. Based on the information provided in the hearing, the referee shall recommend whether the department should issue a revised report card for the district. If the referee affirms the department’s contention that the district did not make a good faith effort to report data as required by this section, the district shall bear the full cost of conducting the hearing and of issuing any revised report card.

(7) If the department determines that any inaccurate data reported under this section caused a school district to receive excess state funds in any fiscal year, the district shall reimburse the department an amount equal to the excess funds, in accordance with a payment schedule determined by the department. The department may withhold state funds due to the district for this purpose.

(8) Any school district that has funds withheld under division (L)(2) of this section may appeal the withholding in accordance with Chapter 119. of the Revised Code.

(9) In all cases of a disagreement between the department and a school district regarding the appropriateness of an action taken under division (L)(2) of this section, the burden of proof shall be on the district to demonstrate that it made a good faith effort to report data as required by this section.

(10) The state board of education shall adopt rules under Chapter 119. of the Revised Code to implement division (L) of this section.

(M) No information technology center or school district shall acquire, change, or update its student administration software package to manage and report data required to be reported to the department unless it converts to a student software package that is certified by the department.

(C) On the request of the superintendent of schools, the superintendent of any educational service center, the board of education of any city, exempted village, local, joint vocational, or cooperative education school district, or the governing board of any educational service center or when it otherwise comes to the notice of the attendance officer or other appropriate officer of the school district, the attendance officer or other appropriate officer shall examine into any case of supposed truancy within the district and shall warn the child, if found truant, and the child's parent, guardian, or other person having care of the child, in writing, of the legal consequences of being truant. When any child of compulsory school age, in violation of law, is not attending school, the attendance or other appropriate officer shall notify the parent, guardian, or other person having care of that child of the fact, and require the parent, guardian, or other person to cause the child to attend school immediately. The parent, guardian, or other person having care of the child shall cause the child's attendance at school. Upon the failure of the parent, guardian, or other person having care of the child to do so, the attendance officer or other appropriate officer, if so directed by the superintendent, the district board, or the educational service center governing board, shall send notice requiring the attendance of that parent, guardian, or other person at a parental education program established pursuant to division (B) of this section and, subject to divisions (D) and (E) of this section,
may file a complaint against the parent, guardian, or other person having care of the child in any court of competent jurisdiction.

**ORC 3321.191. Board to adopt policy regarding habitual truancy - intervention strategies.**

(A) Effective beginning with the 2017-2018 school year, the board of education of each city, exempted village, local, joint vocational, and cooperative education school district and the governing board of each educational service center shall adopt a new or amended policy to guide employees of the school district or service center in addressing and ameliorating student absences. In developing the policy, the appropriate board shall consult with the judge of the juvenile court of the county or counties in which the district or service center is located, with the parents, guardians, or other persons having care of the pupils attending school in the district, and with appropriate state and local agencies.

(B) The policy developed under division (A) of this section shall include as an intervention strategy all of the following actions, if applicable:

1. Providing a truancy intervention plan for any student who is excessively absent from school, as described in the first paragraph of division (C) of this section;
2. Providing counseling for an habitual truant;
3. Requesting or requiring a parent, guardian, or other person having care of an habitual truant to attend parental involvement programs, including programs adopted under section 3313.472 or 3313.663 of the Revised Code
4. Requesting or requiring a parent, guardian, or other person having care of an habitual truant to attend truancy prevention mediation programs;
5. Notification of the registrar of motor vehicles under section 3321.13 of the Revised Code;
6. Taking legal action under section 2919.222, 3321.20, or 3321.38 of the Revised Code.

(C)(1) In the event that a child of compulsory school age is absent with a nonmedical excuse or without legitimate excuse from the public school the child is supposed to attend for thirty-eight or more hours in one school month, or sixty-five or more hours in a school year, the attendance officer of that school shall notify the child's parent, guardian, or custodian of the child's absences, in writing, within seven days after the date after the absence that triggered the notice requirement. At the time notice is given, the school also may take any appropriate action as an intervention strategy contained in the policy developed by the board pursuant to division (A) of this section.

(2)(a) If the absences of a student surpass the threshold for an habitual truant as set forth in section 2151.011 of the Revised Code, the principal or chief administrator of the school or the superintendent of the school district shall assign the student to an absence intervention team. Within fourteen school days after the assignment of a student to an absence intervention team, the team shall develop an intervention plan for that student in an effort to reduce or eliminate further absences. Each intervention plan shall vary based on the individual needs of the student, but the plan shall state that the attendance officer shall file a complaint not later than sixty-one days after the date the plan was implemented, if the child has refused to participate in, or failed to make satisfactory progress on, the intervention plan or an alternative to adjudication under division (C)(2)(b) of section 3321.191 of the Revised Code. Within seven days after the development of the plan, the school district or school shall make reasonable efforts to provide the student's parent, guardian, custodian, guardian ad litem, or temporary custodian with written notice of the plan.

(b) As part of the absence intervention plan described in division (C)(2) of this section, the school district or school, in its discretion, may contact the appropriate juvenile court and ask to have a student informally enrolled in any alternative to adjudication described in division (G) of section 2151.27 of the Revised Code. If the school district or school chooses to have students informally
enrolled in an alternative to adjudication, the school district or school shall develop a written policy regarding the use of, and selection process for, offering alternatives to adjudication to ensure fairness.

(c) The superintendent of each school district, or the superintendent's designee, shall establish an absence intervention team for the district to be used by any schools of the district that do not establish their own absence intervention team as permitted under division (C)(2)(d) of this section. Membership of each absence intervention team may vary based on the needs of each individual student but shall include a representative from the child's school district or school, another representative from the child's school district or school who knows the child, and the child's parent or parent's designee, or the child's guardian, custodian, guardian ad litem, or temporary custodian. The team also may include a school psychologist, counselor, social worker, or representative of a public or nonprofit agency designed to assist students and their families in reducing absences.

(d) The principal or chief administrator of each school may establish an absence intervention team or series of teams to be used in lieu of the district team established pursuant to division (C)(2)(c) of this section. Membership of each absence intervention team may vary based on the needs of each individual student but shall include a representative from the child's school district or school, another representative from the child's school district or school who knows the child, and the child's parent or parent's designee, or the child's guardian, custodian, guardian ad litem, or temporary custodian. The team also may include a school psychologist, counselor, social worker, or representative of a public or nonprofit agency designed to assist students and their families in reducing absences.

(e) A superintendent, as described in division (C)(2)(c) of this section, or principal or chief administrator, as described in division (C)(2)(d) of this section, shall select the members of an absence intervention team within seven school days of the triggering event described in division (C)(2)(a) of this section. The superintendent, principal, or chief administrator, within the same period of seven school days, shall make at least three meaningful, good faith attempts to secure the participation of the student's parent, guardian, custodian, guardian ad litem, or temporary custodian on that team. If the student's parent responds to any of those attempts, but is unable to participate for any reason, the representative of the school district shall inform the parent of the parent's right to appear by designee. If seven school days elapse and the student's parent, guardian, custodian, guardian ad litem, or temporary custodian fails to respond to the attempts to secure participation, the school district or school shall do both of the following:

(i) Investigate whether the failure to respond triggers mandatory reporting to the public children services agency for the county in which the child resides in the manner described in section 2151.421 of the Revised Code;

(ii) Instruct the absence intervention team to develop an intervention plan for the child notwithstanding the absence of the child's parent, guardian, custodian, guardian ad litem, or temporary custodian.

(f) In the event that a student becomes habitually truant within twenty-one school days prior to the last day of instruction of a school year, the school district or school may, in its discretion, assign one school official to work with the child's parent, guardian, custodian, guardian ad litem, or temporary custodian to develop an absence intervention plan during the summer. If the school district or school selects this method, the plan shall be implemented not later than seven days prior to the first day of instruction of the next school year. In the alternative, the school district or school may toll the time periods to accommodate for the summer months and reconvene the absence intervention process upon the first day of instruction of the next school year.

(3) For purposes of divisions (C)(2)(c) and (d) of this section, the state board of education shall develop a format for parental permission to ensure compliance with the "Family Educational Rights and Privacy

(D) Each school district or school may consult or partner with public and nonprofit agencies to provide assistance as appropriate to students and their families in reducing absences.

(E) Beginning with the 2017-2018 school year, each school district shall report to the department of education, as soon as practicable, and in a format and manner determined by the department, any of the following occurrences:

1. When a notice required by division (C)(1) of this section is submitted to a parent, guardian, or custodian;
2. When a child of compulsory school age has been absent without legitimate excuse from the public school the child is supposed to attend for thirty or more consecutive hours, forty-two or more hours in one school month, or seventy-two or more hours in a school year;
3. When a child of compulsory school age who has been adjudicated an unruly child for being an habitual truant violates the court order regarding that adjudication;
4. When an absence intervention plan has been implemented for a child under this section.

(F) Nothing in this section shall be construed to limit the duty or authority of a district board of education or governing body of an educational service center to develop other policies related to truancy or to limit the duty or authority of any employee of the school district or service center to respond to pupil truancy. However, a board shall be subject to the prohibition against suspending, expelling, or otherwise preventing a student from attending school for excessive absences as prescribed by section 3313.668 of the Revised Code.

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

On an adequate showing of emergency the superintendent of the receiving school district may make and order a transfer, subject to approval by the State Board of Education. An emergency shall include only:

4. The total failure of transportation facilities;
5. The concurrence of both the sending and receiving school districts;
6. B. An emergency transfer previously made may be canceled, with the concurrence of the board of the receiving district and the parent.
70 O.S. §24-100.6. Separation of victim and offender.

A. Students who have been victims of certain felony offenses by other students, as well as the siblings of the student victims, have the right to be kept separated from the student offender both at school and during school transportation.

B. Notwithstanding any provision of law prohibiting the disclosure of the identity of a minor, within thirty (30) days of the time of the adjudication or withholding of adjudication of any juvenile offender for any offense subject to the Juvenile Sex Offender Registration Act, either the juvenile bureau in counties which have juvenile bureaus or the Office of Juvenile Affairs in all other counties shall notify the superintendent of the school district in which the juvenile offender is enrolled or intends to enroll of the adjudication and the offense for which the child was adjudicated. Upon receipt of such notice, the school district shall notify the victim and parent or guardian of the victim of their right to request to be separated from the offender at school and during school transportation. If the victim requests to be separated from the offender, the school district shall take appropriate action to effectuate the provisions of subsection C of this section. The decision of the victim shall be final and not reversible.

C. Any offender described in subsection B of this section shall, upon the request of the victim, not attend any school attended by the victim or a sibling of the victim or ride on a school bus on which the victim or a sibling of the victim is riding. The offender shall be permitted by the school district to attend another school within the district in which the offender resides, provided the other school is not attended by the victim or sibling of the victim. If the offender is unable to attend another school in the district in which the offender resides, the offender shall transfer to another school district pursuant to the provisions of the Education Open Transfer Act.

D. The offender or the parents of the offender, if the offender is a juvenile, shall be responsible for arranging and paying for transportation and any other cost associated with or required for the offender to attend another school or that is required as a consequence of the prohibition against attending a school or riding on a school bus on which the victim or a sibling of the victim is attending or riding. However, the offender or the parents of the offender shall not be charged for existing modes of transportation that can be used by the offender at no additional cost to the school district.

A. Any student who is guilty of an act described in paragraph 1 of subsection C of this section may be suspended out-of-school in accordance with the provisions of this section. Each school district board of education shall adopt a policy with procedures which provides for out-of-school suspension of students. The policy shall address the term of the out-of-school suspension, provide an appeals process as described in subsection B of this section, and provide that before a student is suspended out-of-school, the school or district administration shall consider and apply, if appropriate, alternative in-school placement options that are not to be considered suspension, such as placement in an alternative school setting, reassignment to another classroom, or in-school detention. The policy shall address education for students subject to the provisions of subsection D of this section and whether participation in extracurricular activities shall be permitted.

D. At its discretion a school district may provide an education plan for students suspended out-of-school for five (5) or fewer days pursuant to the provisions of this subsection. The following provisions shall apply to students who are suspended out-of-school for more than five (5) days and who are guilty of acts listed in subparagraphs a and b of paragraph 1 of subsection C of this section. The school administration shall provide the student with an education plan designed for the eventual reintegration of the student into school which provides
only for the core units in which the student is enrolled. A copy of the education plan shall also be provided to the student's parent or guardian. For the purposes of this section, the core units shall consist of the minimum English, mathematics, science, social studies and art units required by the State Board of Education for grade completion in grades kindergarten through eight and for high school graduation in grades nine through twelve. c. who has been removed from a public or private school in the State of Oklahoma or another state by administrative or judicial process for a violent act or an act showing deliberate or reckless disregard for the health or safety of faculty or other students,

d. suspended as provided for in paragraph 3 of subsection C of this section, or

e. has been removed from a public or private school in the state or another state by administrative or judicial process for an act of using electronic communication, as defined in Section 24-100.3 of this title, with intent to terrify, intimidate or harass, or threaten to inflict injury or physical harm to faculty or other students.

2. The school in which a student as described in paragraph 1 of this subsection is subsequently enrolled may elect to not provide education services in the regular school setting until the school determines that the student no longer poses a threat to self, other students or school district faculty or employees. Until the school in which such student subsequently enrolls or re-enrolls determines that the student no longer poses a threat to self, other students or school district faculty or employees, the school may provide education services through an alternative school setting, home-based instruction, or other appropriate setting. If the school provides education services to the student at a district school facility, the school shall notify any student or school district faculty or employee victims of the student, when known, and shall ensure that the student will not be allowed in the general vicinity of or contact with a victim of the student, provided the victim notifies the school of the victim's desire to refrain from contact with the offending student.

G. Students suspended out-of-school who are on an individualized education plan pursuant to the Individuals with Disabilities Education Act, P.L. No. 101-476, or who are subject to the provisions of subsection F of this section and who are on an individualized education plan shall be provided the education and related services in accordance with the student's individualized education plan.

The grant awards shall be made to school districts located in counties with a high number of dropouts for the school year preceding the year for which the grant is being sought, and a high number of referrals to the juvenile justice system. The Technical Assistance Center shall report to the State Department of Education the name and description of any program which receives state validation.

B. To be eligible for a High Challenge grant, a program shall meet research-based criteria set by the State Department of Education. Said programs shall not supplant programs or activities funded by the United States Government pursuant to Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, as amended. The Alternative Approaches Technical Assistance Center grant recipient shall have priority, if its operations are deemed satisfactory by the State Board of Education and if funds are available, for annual renewal of the grant.

D. Service program grant recipients shall have priority, if recommended by the Technical Assistance Center and if funds are available, for annual renewal of grants by the State Board of Education in amounts and on conditions as provided in this section. If a district has received grants for an at risk or high challenge program for three consecutive school years and if the program upon evaluation by the Technical Assistance Center meets the criteria set forth in subsection A of this section and satisfies criteria set forth in rules adopted by the State Board of Education pursuant to subsection E of this section, funding shall be as follows:

1. Funding for the fourth consecutive school year shall be in the amount of fifty percent (50%) of the average amount of grants awarded for the program pursuant to this section for the first three (3) consecutive school years; and
2. Except as otherwise provided, funding for the fifth consecutive school year shall be awarded only if the program has been state-validated and replicated by another district; for programs that have received funding for three (3) years prior to July 1, 1992, funding will be awarded only if the program is state-validated and the grantee documents attempts to have the program replicated; if funding is awarded, it shall be in the amount of twenty-five percent (25%) of the average amount of grants awarded to the program pursuant to this section for the first three (3) consecutive school years.

All grants for the fourth and fifth school years as provided above shall be matched with local funds or in-kind contributions. Programs which received grants continuously for five (5) consecutive school years shall not thereafter be eligible for grants pursuant to this section.

E. Rules adopted by the State Board of Education shall incorporate or provide for, but not necessarily be limited to:

1. Definition of the children deemed high challenge for whom services are sought; provided the definition shall be consistent with the description of high challenge children set forth in subsection A of this section;

The possibility of awards for one or more of a variety of program proposals targeted for services to limited portions of the high challenge population according to such distinctions as age groupings, rural or urban settings, other cultural characteristics, or innovative service delivery strategies;
3. Requirements that service program grant recipients have clear and measurable goals and objectives; show evidence of having given reasonable consideration to coordination with other community agencies and resources, where appropriate, in the development of their proposals; and agree to comply with all requirements of the Technical Assistance Center regarding use of assessment instruments, provision of data, and provision of information necessary for program evaluation;

4. Requirements that the recipient of the Technical Assistance Center grant show command of relevant research and demonstrate capability for: Providing technical assistance, including operation of clearinghouse functions; coordinating with agencies such as the Oklahoma Arts Council; performing assessment of high challenge children; evaluating programs for effectiveness; making program cost assessments; promoting replication of successful programs; and capability for assisting program providers in attaining national validation of their programs and qualifying for federal funding;

Utilization of a selection committee to review applications for program and Technical Assistance Center grants and make recommendations to the State Board of Education, said selection committee to include, to the greatest extent feasible under constraints of time and funding, nationally recognized experts in the education of high challenge children; and

6. Revocation of any high challenge or at risk grant awarded to, and ineligibility for award of any future high challenge grant pursuant to this act to, any grant recipient who has employed prior to May 24, 1991, any person who served as a volunteer assisting with the initial preparation of proposed rules for high challenge (formerly designated as at risk) grant programs or any person serving as a member of a selection committee during or within two (2) years following such person's service pursuant to paragraph 5 of this subsection.

1. Funding for the fourth consecutive school year shall be in the amount of fifty percent (50%) of the average amount of grants awarded for the program pursuant to this section for the first three (3) consecutive school years; and

2. Except as otherwise provided, funding for the fifth consecutive school year shall be awarded only if the program has been state-validated and replicated by another district; for programs that have received funding for three (3) years prior to July 1, 1992, funding will be awarded only if the program is state-validated and the grantee documents attempts to have the program replicated; if funding is awarded, it shall be in the amount of twenty-five percent (25%) of the average amount of grants awarded to the program pursuant to this section for the first three (3) consecutive school years.

All grants for the fourth and fifth school years as provided above shall be matched with local funds or in-kind contributions. Programs which received grants continuously for five (5) consecutive school years shall not thereafter be eligible for grants pursuant to this section.

70 O.S. §1210.229-2. Findings and intent of legislature.
The Legislature finds that for the purpose of preventing drug and alcohol abuse among our young people, and for preventing or alleviating problems which lead to and are closely associated with drug and alcohol abuse, it is desirable that all Oklahoma school districts develop and implement a curriculum for drug and alcohol abuse prevention for all grade levels. Such curriculum may include training in life skills, such as problem-solving, responsibility, communication and decision-making skills, which enable young people to successfully resist social and other pressures to engage in activities which are destructive to their health and future. The Legislature encourages all school districts to adopt as a goal for the year 1990 the full implementation of drug and alcohol abuse prevention programs in their schools. In order to expand and enhance the ability of school districts to implement drug and alcohol prevention programs, it is the intent of the Legislature that local school districts participate in the federal Drug-Free Schools and Communities Act of 1986, 20 U.S.C., Section 4601 et seq. and the provisions of Public Law No. 101-647, Drug-Free School Zones.

In order to derive maximum benefit from their drug and alcohol prevention programs, it is further the intent of the Legislature that the school districts coordinate their efforts and activities with the Oklahoma Drug and Alcohol Abuse Policy Board, and with appropriate state and local drug and alcohol abuse, health and law enforcement agencies and programs within the community which provide drug education, prevention, treatment and rehabilitation.

It is further the intent of the Legislature to encourage school districts to establish programs concerning the danger and criminal consequences of the possession and/or use of firearms or other dangerous or deadly weapons in school zones.

70 O.S. §1210.229-3. Definitions.
For purposes of the Oklahoma Alcohol and Drug Abuse Prevention and Life Skills Education Act, Section 1210.229-1 et seq. of this title:

1. "Alcohol" means any low-point beer as defined in Section 163.2 of Title 37 of the Oklahoma Statutes or alcoholic beverage as defined in Section 506 of Title 37 of the Oklahoma Statutes;

The local school district, at least one (1) month prior to giving such instruction to students, shall conduct for parents and guardians of students involved, during weekend or evening hours, at least one presentation concerning the plans for instruction and the materials to be used. A. Contingent upon the provision of appropriated funds designated for Alternative Approaches grants, the State Board of Education is authorized to award one or more such competitive grants to local education agencies, nonprofit organizations, or entities formed by interlocal cooperative agreements pursuant to Section 5-117b of this title. The grant awards shall be made to school districts located in counties with a high number of dropouts for the school year preceding the year for which the grant is being sought, and a high number of referrals to the juvenile justice system. If the grant award is to a nonprofit organization or entity formed by an interlocal cooperative agreement, the program shall serve students in school districts located in counties with a high number of dropouts and a high number of referrals to the juvenile justice system. The funds shall be awarded to programs specifically providing targeted services to high challenge children. High challenge children are those at risk of failing to complete a satisfactory education. Said programs shall not supplant programs or activities funded by the United States Government pursuant to Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, as amended. The Alternative Approaches Technical Assistance Center grant recipient shall have priority, if its operations are deemed satisfactory by the State Board of Education and if funds are available, for annual renewal of the grant.

D. Service program grant recipients shall have priority, if recommended by the Technical Assistance Center and if funds are available, for annual renewal of grants by the State Board of Education in amounts and on conditions as provided in this section. 1. Funding for the fourth consecutive school year shall be in the amount of fifty percent (50%) of the average amount of grants awarded for the program pursuant to this section for the first three (3) consecutive school years; and

2. Except as otherwise provided, funding for the fifth consecutive school year shall be awarded only if the program has been state-validated and replicated by another district; for programs that have received funding for three (3) years prior to July 1, 1992, funding will be awarded only if the program is state-validated and the grantee documents attempts to have the program replicated; if funding is awarded, it shall be in the amount of twenty-five percent (25%) of the average amount of grants awarded to the program pursuant to this section for the first three (3) consecutive school years.

All grants for the fourth and fifth school years as provided above shall be matched with local funds or in-kind contributions. Programs which received grants continuously for five (5) consecutive school years shall not thereafter be eligible for grants pursuant to this section.

E. Rules adopted by the State Board of Education shall incorporate or provide for, but not necessarily be limited to:

1. Definition of the children deemed high challenge for whom services are sought; provided the definition shall be consistent with the description of high challenge children set forth in subsection A of this section;

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

(3) Manifestation determination. Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the school district must determine whether the child's behavior is a manifestation of the student's disability in accordance with OAR 581-015-2420.

(4) Manifestation. If the determination under subsection (3) is that the child's behavior is a manifestation of the child's disability, the school district must:

(B) If the student already has a behavior plan, review the behavioral intervention plan and modify it, as necessary, to address the behavior.

(5) No manifestation. If the determination under subsection (3) is that the child's behavior is not a manifestation of the child's disability:
(a) The school district may proceed with disciplinary action applicable to children without disabilities under section (1) of this rule, in the same manner and for the same duration in which the procedures would be applied to children without disabilities.

(b) If the school district takes such action applicable to all children, the school district must:

(6) Placement pending due process hearing. If a parent requests a due process hearing because of a disagreement with the manifestation determination or any decision about placement related to the disciplinary removal in section (1) of this rule, the child remains in the interim alternative educational setting pending the decision of the administrative law judge under OAR 581-015-2445, or until the end of the disciplinary removal under subsection (1), whichever occurs first, unless the parent and school district agree otherwise.

581-015-2420. Manifestation determination.

(1) In determining whether the child's behavior is a manifestation of the child's disability, the school district, the parent, and relevant members of the IEP team (as determined by the parent and the district) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:

   (a) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

   (b) If the conduct in question was the direct result of the school district's failure to implement the IEP.

(2) If the school district, the parent, and relevant members of the IEP team determine that either subsection (1)(a) or (b) is applicable for the child, the conduct must be determined to be a manifestation of the child's disability.

(3) If the basis for the team's determination is that the school district did not implement the child's IEP, the school district must take immediate steps to remedy those deficiencies.

581-021-0065. Suspension.

(5) School district boards shall limit suspension to a specific maximum number of days. That maximum shall not exceed ten school days.

(6) School district boards or designated representatives shall specify the methods and conditions, if any, under which the student's school work can be made up. Students shall be allowed to make up school work upon their return from the suspension if that work reflects achievement over a greater period of time than the length of the suspension. For example, the students shall be allowed to make up final, mid-term, and unit examinations, without an academic penalty, but it is within the districts' discretion as to whether the students may be allowed to make up daily assignments, laboratory experiments, class discussions or presentations.

(d) In addition to any limitations imposed by paragraph (c) of this subsection, for a student who is in fifth grade or lower, must limit the use of out-of-school suspension or of expulsion to the following circumstances:

(A) For nonaccidental conduct causing serious physical harm to a student or school employee;

(B) When a school administrator determines, based upon the administrator’s observation or upon a report from a school employee, that the student’s conduct poses a direct threat to the health or safety of students or school employees; or

(C) When the suspension or expulsion is required by law.

(e) When an out-of-school suspension is imposed as provided under paragraph (d) of this subsection, must require the school district to take steps to prevent the recurrence of the behavior that led to the out-of-school suspension and return the student to a classroom setting so that the disruption of the student’s academic instruction is minimized.

(f) Must be limited so that:

(A) The duration of an expulsion may not be more than one calendar year.

(B) The duration of a suspension may not be more than 10 school days.

(g) Notwithstanding ORS 336.010, may require a student to attend school during nonschool hours as an alternative to suspension if the total number of hours does not exceed the equivalent of 10 school days.

(3) Pursuant to the policies adopted as provided by subsection (2) of this section, each school district shall develop a student handbook, code of conduct or other document that:

(a) Defines and helps create a learning environment that students respect;

(b) Defines acceptable norms of behavior for students and the types of behavior that are subject to discipline;

(c) Establishes procedures to address behavior or circumstances that pose a threat to the safety of students or employees of the school;

(d) Establishes a system of consequences that are designed to correct student misconduct and promote behavior within acceptable norms; and

(e) Makes the system of consequences known to the school community through the dissemination of information to students, parents, legal guardians and school district employees.

(4) Each district school board shall adopt written policies on managing students who threaten violence or harm in public schools. The policies adopted by a district school board under this section shall include all of the following:

(a) Staff reporting methods.

(b) Provisions that allow an administrator to consider and implement any of the following options:

(A) Immediately removing from the classroom setting any student who has threatened to injure another person or to severely damage school property.

(B) Placing the student in a setting where the behavior will receive immediate attention, including, but not limited to, the office of the school principal, vice principal, assistant principal, counselor or a school psychologist licensed by the Teacher Standards and Practices Commission or the office of any licensed mental health professional.

(C) Requiring that a school obtain an evaluation of a student by a licensed mental health professional before allowing the student to return to the classroom setting. A student who is removed from the classroom setting for an evaluation may not be removed for more than 10 school days unless the administrator is able to show good cause that an evaluation could not be completed in that time period. The policy must describe the circumstances under which the district school board may enter
into contracts with licensed mental health professionals to perform any evaluations required under this subparagraph.

(c) The requirement that an administrator provide to the parent or legal guardian of the student notification that describes the student’s behavior and the school’s response.

(d) A provision for the allocation of any funds necessary for the school district to implement the policies described in this subsection.

(5) In establishing and enforcing discipline, suspension and expulsion policies, a district school board shall ensure that the policy is designed to:

(a) Protect students and school employees from harm;
(b) Provide opportunities for students to learn from their mistakes;
(c) Foster positive learning communities;
(d) Keep students in school and attending class;
(e) Impose disciplinary sanctions without bias against students from a protected class, as defined in ORS 339.351;
(f) Implement a graduated set of age-appropriate responses to misconduct that are fair, nondiscriminatory and proportionate in relation to each student’s individual conduct;
(g) Employ a range of strategies for prevention, intervention and discipline that take into account a student’s developmental capacities and that are proportionate to the degree and severity of the student’s misbehavior;
(h) Propose, prior to a student’s expulsion or leaving school, alternative programs of instruction or instruction combined with counseling for the student that are appropriate and accessible to the student in the following circumstances:
   (A) Following a second or subsequent occurrence within any three-year period of a severe disciplinary problem with the student; or
   (B) When a parent or legal guardian applies for the student’s exemption from compulsory attendance on a semiannual basis as provided in ORS 339.030 (2);
(i) To the extent practicable, use approaches that are shown through research to be effective in reducing student misbehavior and promoting safe and productive social behavior; and
(j) Ensure that school conduct and discipline codes comply with all state and federal laws concerning the education of students with disabilities.

(6) Except for policies adopted under subsection (7) of this section, any policies adopted under this section must provide for the dissemination of information about alternative programs of instruction or instruction combined with counseling, as described in subsection (5)(h) of this section, in writing to the student and the parent, legal guardian or person in parental relationship with the student at least once every six months, unless the information has changed because of the availability of new programs.

(7) Each district school board shall adopt a written policy involving firearms, as defined in 18 U.S.C. 921. The policy shall:

(a) Require expulsion from school for a period of not less than one year of any student who is determined to have:
   (A) Brought a firearm to a school, to school property under the jurisdiction of the school district or to an activity under the jurisdiction of the school district;
   (B) Possessed, concealed or used a firearm in a school, on school property under the jurisdiction of the school district or at an activity under the jurisdiction of the school district; or
C) Brought to or possessed, concealed or used a firearm at an interscholastic activity administered by a voluntary organization.

(b) Allow exceptions:

(A) For courses, programs and activities approved by the school district that are conducted on school property, including, but not limited to, hunter safety courses, Reserve Officer Training Corps programs, firearm-related sports or firearm-related vocational courses; and

(B) Identified by and adopted by the State Board of Education by rule.

(c) Allow a superintendent of a school district to:

(A) Modify the expulsion requirement for a student on a case-by-case basis.

(B) Propose alternative programs of instruction or instruction combined with counseling for a student that are appropriate and accessible to the student. If alternative programs are appropriate for a student, the superintendent shall ensure that information about programs of instruction or instruction combined with counseling is provided in writing to the student and the parent, legal guardian or person in parental relationship with the student at least once every six months, or at any time the information changes because of the availability of new programs.

(d) Require a referral to the appropriate law enforcement agency of any student who is expelled under this subsection.

(e) Require an annual reporting to the Department of Education of the name of each school that had an expulsion under this subsection and the number of students expelled from each school.

(8) Each district school board shall adopt and disseminate written policies for the use of physical force upon a student. The policies must allow an individual who is a teacher, administrator, school employee or school volunteer to use reasonable physical force upon a student when and to the extent the application of force is consistent with ORS 339.285 to 339.303.

(9)(a) The authority to discipline a student does not authorize the infliction of corporal punishment. Every resolution, bylaw, rule, ordinance or other act of a district school board, a public charter school or the Department of Education that permits or authorizes the infliction of corporal punishment upon a student is void and unenforceable.

(b) As used in this subsection:

(A) “Corporal punishment” means the willful infliction of, or willfully causing the infliction of, physical pain on a student.

(B) “Corporal punishment” does not include:

(i) The use of physical force authorized by ORS 161.205 for the reasons specified therein; or

(ii) Physical pain or discomfort resulting from or caused by participation in athletic competition or other such recreational activity, voluntarily engaged in by a student.

(10) For purposes of this section, calculations of the number of school days that a student is removed from a classroom setting shall be as follows:

(a) As a half day if the student is out of school for half, or less than half, of the scheduled school day; and

(b) As a full day if the student is out of school for more than half of the scheduled school day.

REGULATIONS

For the purposes of OAR 581-015-2400 through 581-015-2445, the following definitions apply:
(1) "Behavioral intervention plan" means an individualized plan, including positive interventions, designed to assist a student to decrease inappropriate behavior and increase or teach an alternative appropriate behavior.

(2) "Current educational placement" means the type of educational placement of the child as described in the child's "annual determination of placement" document at the time of the disciplinary removal. It does not mean the specific location or school but the type of placement on the continuum of placement options (e.g. regular classroom with support; regular classroom with resource room support; special class; special school; home instruction, etc.).

(3) "Disciplinary removal" means suspension, expulsion, or other removal from school for disciplinary reasons, including removals for mental health examinations for students who threaten violence or harm in public schools under ORS 339.250(4)(b)(C). It does not include:
   (a) Removals by other agencies;
   (b) Removals for public health reasons (e.g. head lice, immunizations, communicable diseases, etc.);
   (c) In-school suspensions if the child continues to have access to the general curriculum and to special education and related services as described in the child's IEP, and continues to participate with children without disabilities to the extent they would in their current placement; or
   (d) Bus suspensions, unless the student's IEP includes transportation as a related service, the district makes no alternative transportation arrangements for the student, and the student does not attend school as a result of the bus suspension.

(4) "Functional behavioral assessment" means an individualized assessment of the student that results in a hypothesis about the function of a student's behavior and, as appropriate, recommendations for a behavior intervention plan.

(5) "Suspension" means any disciplinary removal other than expulsion.

581-015-2405. Disciplinary removals for up to 10 school days for children with disabilities.

(1) School districts may remove a child with a disability who violates a code of student conduct from the child's current educational placement to an appropriate interim alternative educational setting, another setting, or suspension, for up to ten school days in a school year to the same extent, and with the same notice, as for children without disabilities. These removals are not considered a change in placement.

(2) During disciplinary removals described in section (1) of this rule:
   (a) School districts are not required to provide access to special education and the general curriculum unless students without disabilities are provided access during this time.
   (b) School districts are not required to determine whether the child's behavior resulting in disciplinary removal is a manifestation of the child's disability.

(3) For the purpose of counting days of suspensions under OAR 581-015-2405 through 581-015-2445:
   (a) Suspensions of a half day or less are counted as a half day; and
   (b) Suspensions of more than a half-day are counted as a whole day.

(4) For the purposes of determining "current educational placement" in subsection (1) of this rule:
   (a) Children who received special education services in another state and are found eligible for special education in Oregon are treated as initially placed in special education in Oregon, and any days of suspension accrued in the former state are not counted toward the ten days.
   (b) For children who move from one school district to another school district in Oregon, any days of suspension from the former district carry over to the new school district unless the school district does not have actual knowledge of the previous suspensions.
581-015-2410. Additional disciplinary removals of up to 10 school days each (no pattern).

(1) School districts may remove a child with a disability who violates a code of student conduct from the child's current educational placement to an appropriate interim alternative educational setting, another setting, or suspension for additional periods of up to ten school days in a school year to the same extent, and with the same notice, as for children without disabilities, if the removals do not constitute a pattern under section (2) of this rule. These removals are not considered a change in placement.

(2) School personnel must determine, on a case-by-case basis, whether the series of removals constitute a pattern:
   (a) Because the child's behavior is substantially similar to the child's behavior in previous incidents that resulted in the series of removals; and
   (b) Because of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of removals to one another.

(3) Services. During removals described in section (1) of this rule:
   (a) School districts must provide services that are necessary to enable the child:
      (A) To continue to participate in the general education curriculum, although in another setting; and
      (B) To progress toward meeting the goals in the child's IEP.
   (b) School personnel, in consultation with at least one of the child's teachers, determine the extent to which the services described in subsection (3)(a) of this rule are needed, and the location for delivery of those services.
   (c) School districts are not required to determine whether the behavior resulting in removal is a manifestation of the child's disability.

(4) The determination in subsection (2) is subject to review under OAR 581-015-2445.

581-015-2415. Disciplinary removals of more than 10 school days (pattern or consecutive).

(1) A disciplinary removal is considered a change in educational placement and the school district must follow special education due process procedures if:
   (a) The removal will be for more than 10 consecutive school days (e.g. expulsion); or
   (b) The child will be removed for more than 10 cumulative school days from their current educational placement in a school year, and those removals constitute a pattern under OAR 581-015-2410(2).

(2) School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a disciplinary removal under subsection (1) for a child with a disability who violates a code of conduct.

(3) Manifestation determination. Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the school district must determine whether the child's behavior is a manifestation of the student's disability in accordance with OAR 581-015-2420.

(4) Manifestation. If the determination under subsection (3) is that the child's behavior is a manifestation of the child's disability, the school district must:
   (a) Return the child to the placement from which the child was removed, unless:
      (A) The parent and school district agree to a change of placement as part of the modification of the behavioral intervention plan under subsection (4)(b);
      (B) The school district removes the child to an interim alternative educational setting under OAR 581-015-2425 for a weapons or drug violation or for infliction of serious bodily injury; or
(C) The school district obtains an order from an administrative law judge under OAR 581-015-2430 allowing a change in placement to an interim alternative educational setting for injurious behavior; and

(b) Either:

(A) Conduct a functional behavioral assessment, unless the school district conducted a functional behavioral assessment before the behavior occurred that prompted the disciplinary action, and implement a behavior intervention plan; or

(B) If the student already has a behavior plan, review the behavioral intervention plan and modify it, as necessary, to address the behavior.

(5) No manifestation. If the determination under subsection (3) is that the child's behavior is not a manifestation of the child's disability:

(a) The school district may proceed with disciplinary action applicable to children without disabilities under section (1) of this rule, in the same manner and for the same duration in which the procedures would be applied to children without disabilities.

(b) If the school district takes such action applicable to all children, the school district must:

(A) On the date on which the decision is made to remove the student under subsection (5), notify the parents of that decision and provide the parents with notice of procedural safeguards under OAR 581-015-2315.

(B) Provide services to the student in an interim alternative educational setting, determined by the IEP team, in accordance with OAR 581-015-2435; and

(C) Provide, as appropriate, a functional behavioral assessment, and behavior intervention services and modifications that are designed to address the behavior violation so that it does not recur.

(6) Placement pending due process hearing. If a parent requests a due process hearing because of a disagreement with the manifestation determination or any decision about placement related to the disciplinary removal in section (1) of this rule, the child remains in the interim alternative educational setting pending the decision of the administrative law judge under OAR 581-015-2445, or until the end of the disciplinary removal under subsection (1), whichever occurs first, unless the parent and school district agree otherwise.

581-015-2420. Manifestation determination.

(1) In determining whether the child's behavior is a manifestation of the child's disability, the school district, the parent, and relevant members of the IEP team (as determined by the parent and the district) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:

(a) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or

(b) If the conduct in question was the direct result of the school district's failure to implement the IEP.

(2) If the school district, the parent, and relevant members of the IEP team determine that either subsection (1)(a) or (b) is applicable for the child, the conduct must be determined to be a manifestation of the child's disability.

(3) If the basis for the team's determination is that the school district did not implement the child's IEP, the school district must take immediate steps to remedy those deficiencies.

581-015-2425. Removal to an interim alternative educational setting by school district.

(1) Definitions:
(a) “Drug” means illegal drug or controlled substance but does not include a substance that is legally possessed or used under the supervision of a licensed health-care professional or otherwise legally possessed. It does not include alcohol or tobacco.

(b) "Drug violation" means the use, possession, sale or solicitation of drugs at school or a school function.

(c) "Serious bodily injury" means bodily injury, which involves substantial risk of death; extreme physical pain; protracted and obvious disfigurement; or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

(d) "Weapon" means a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except that it does not include a pocket knife with a blade of less than 2 1/2 inches in length.

(e) “Weapon violation” means carrying a weapon to school or to a school function or acquiring a weapon at school.

(2) School districts may remove a child with disabilities from their current educational placement to an appropriate interim alternative educational setting for the same amount of time that a child without a disability would be subject to discipline, but for not more than 45 school days in a school year without regard to whether the behavior is determined to be a manifestation of the child's disability for:

(a) A drug or weapon violation as defined in subsection (1); or

(b) If the child has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the Department or a school district.

(3) A removal for a drug or weapon violation, or for inflicting serious bodily injury, is considered a change in placement.

(4) School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a removal under subsection (2) for a child with a disability who violates a code of conduct.

(5) For removals described in subsection (2) of this rule, school districts must:

(a) On the date on which the decision is made to remove the student under subsection (2), notify the parents of that decision and provide the parents with notice of procedural safeguards under OAR 581-015-2315;

(b) Provide the services to the student in an interim alternative educational setting, determined by the IEP team, in accordance with OAR 581-015-2435;

(c) Within 10 school days of any decision to remove a child under subsection (2), determine whether the child's behavior is a manifestation of the child's disability in accordance with OAR 581-015-2420; and

(d) Provide, as appropriate, a functional behavioral assessment, and behavior intervention services and modifications that are designed to address the behavior violation so that it does not recur.

(6) Placement pending due process hearing. If a parent requests a due process hearing because of a disagreement with the manifestation determination, removal to the interim alternative educational setting, or any decision about placement related to a disciplinary removal under section (2) of this rule, the child remains in the interim alternative educational setting pending the decision of the administrative law judge under OAR 581-015-2445, or until the end of the removal under section (2), whichever occurs first, unless the parent and school district agree otherwise.
581-015-2430. Removal to an interim alternative educational setting by administrative law judge (injurious behavior).

(1) "Injurious behavior" means behavior that is substantially likely to result in injury to the child or to others.

(2) School districts may request an expedited due process hearing under OAR 581-015-2445 to obtain an order from an administrative law judge to order a change in placement of the child to an interim alternative educational setting for not more than 45 school days for injurious behavior.

(3) The interim alternative educational setting must meet the requirements of OAR 581-015-2435(2).

(4) The procedures in subsection (2) may be repeated if the school district believes that returning the child to the original placement is substantially likely to result in injurious behavior.

(5) Nothing in this rule precludes a school district from seeking a court order to remove a child from the child's current educational placement to another placement if the district believes that the maintaining the child in the child's current educational placement is substantially likely to result in injurious behavior.

581-021-0065. Suspension.

(1) Students may be suspended when such suspension contains within its procedures the elements of prior notice (OAR 581-021-0075), specification of charges, and an opportunity for the student to present his or her view of the alleged misconduct. The suspending official shall notify the student's parent or guardian of the suspension, the conditions for reinstatement, and appeal procedures, where applicable. These procedures may be postponed in emergency situations relating to health and safety.

(2) Emergency situations shall be limited to those instances where there is a serious risk that substantial harm will occur if suspension does not take place immediately.

(3) School district boards shall provide students suspended under emergency conditions with the rights outlined in section (1) of this rule as soon as the emergency condition has passed.

(4) In all suspensions ordered by the executive officer of the school district or designated representative, the district school board shall have the right of final review if the action is not taken by the school board itself.

(5) School district boards shall limit suspension to a specific maximum number of days. That maximum shall not exceed ten school days.

(6) School district boards or designated representatives shall specify the methods and conditions, if any, under which the student's school work can be made up. Students shall be allowed to make up school work upon their return from the suspension if that work reflects achievement over a greater period of time than the length of the suspension. For example, the students shall be allowed to make up final, mid-term, and unit examinations, without an academic penalty, but it is within the districts' discretion as to whether the students may be allowed to make up daily assignments, laboratory experiments, class discussions or presentations.

(7) In special circumstances a suspension may be continued until some specific pending action occurs, such as a physical or mental examination, or incarceration by court action.

(1) A school district board may expel, or delegate authority to a hearings officer to expel, a student provided the student is not expelled without a hearing unless the student's parent(s) or guardian, or the student, if 18 years of age, waives the right to a hearing. Waiver may take place by the parent or the student, if 18 years of age, notifying the school district in writing of waiver of the right to a hearing. Waiver may also take place by the parent, or the student, if age 18 or over, failing to appear after notice, at the place and time set for the hearing.
(a) If the school board acts to expel, the hearing may be conducted by a hearings officer designated by the board. In cases where the hearings officer is conducting the expulsion hearing for the board, the hearings officer shall provide to the board the findings as to the facts, the recommended decision and whether or not the student is guilty of the conduct alleged. This material shall be made available at the same time to the parent or guardian, and to the student, if age 18 or over;

(b) If the authority to expel a student is delegated to a hearings officer, the parent, or student, if age 18 or over, shall have the right upon appeal to a board review of the decision. If the decision is appealed to the board for review, the board shall be provided findings as to the facts and the decision of the hearings officer. This material shall be made available at the same time to the parent or guardian, and to the student, if age 18 or over. When appealed, the board will affirm, modify, or rescind the decision of the hearings officer.

(2) Student expulsion hearings shall be conducted pursuant to ORS 332.061.

(3) Expulsion hearing policies or rules shall contain provisions for the following:
   (a) Notice to the student and to the parent or guardian shall be given by personal service or certified mail of the charge or charges and the specific facts that support the charge or charges. The notice shall include the statement of intent to consider the charges as reason for expulsion. Where notice is given by personal service, the person serving the notice shall file a return of service. Where notice is given by certified mail to a parent of a suspended student the notice shall be placed in the mail at least five days before the date of the hearing;
   (b) Where the student or the student's parent cannot understand the spoken English language, an interpreter shall be provided by the district;
   (c) The student may be represented by counsel or other persons;
   (d) The student shall be permitted to introduce evidence by testimony, writings, or other exhibits;
   (e) The student shall be permitted to be present and hear the evidence presented by the district;
   (f) Strict rules of evidence shall not apply to the proceedings. However, this provision shall not limit the hearings officer's control of the hearing;
   (g) The hearings officer or the student may make a record of the hearing.

The use of physical force upon another person that would otherwise constitute an offense is justifiable and not criminal under any of the following circumstances:

(1)(a) A parent, guardian or other person entrusted with the care and supervision of a minor or an incompetent person may use reasonable physical force upon such minor or incompetent person when and to the extent the person reasonably believes it necessary to maintain discipline or to promote the welfare of the minor or incompetent person.

(b) Personnel of a public education program, as that term is defined in ORS 339.285, may use reasonable physical force upon a student when and to the extent the application of force is consistent with ORS 339.285 to 339.303.

(4) A person acting under a reasonable belief that another person is about to commit suicide or to inflict serious physical self-injury may use physical force upon that person to the extent that the person reasonably believes it necessary to thwart the result.

As used in ORS 339.285 to 339.303:

(1) "Public education program" means a program in this state that:

(a) Is for students in early childhood education, elementary school or secondary school;

(B) Assisting a student to complete a task if the student does not resist the physical contact; or
(C) Providing reasonable intervention with the minimal exertion of force necessary if the intervention does not include a restraint prohibited under ORS 339.288 and the intervention is necessary to:
   (i) Break up a physical fight;
   (ii) Interrupt a student’s impulsive behavior that threatens the student’s immediate safety, including running in front of a vehicle or climbing on unsafe structures or objects; or
   (iii) Effectively protect oneself or another from an assault, injury or sexual contact with the minimum physical contact necessary for protection.

(3)(a) “Seclusion” means the involuntary confinement of a student alone in a room from which the student is physically prevented from leaving.

(4) “Serious bodily injury” means any significant impairment of the physical condition of a person, as determined by qualified medical personnel, whether self-inflicted or inflicted by someone else.

339.288. Prohibitions on use of certain restraints; limitations on use of physical restraint and seclusion.

   (a) Chemical restraint.
   (b) Mechanical restraint.
   (c) Prone restraint.
   (d) Supine restraint.
   (e) Any restraint that involves the intentional and nonincidental use of a solid object, including a wall or the floor, to impede a student’s movement, unless the restraint is necessary to prevent an imminent life-threatening injury or to gain control of a weapon.
   (f) Any restraint that places, or creates a risk of placing, pressure on a student’s neck or throat.
   (g) Any restraint that places, or creates a risk of placing, pressure on a student’s mouth, unless the restraint is necessary for the purpose of extracting a body part from a bite.
   (h) Any restraint that impedes, or creates a risk of impeding, breathing.
   (i) Any restraint that involves the intentional placement of the hands, feet, elbow, knee or any object on a student’s neck, throat, genitals or other intimate parts.

   (k) Any action designed for the primary purpose of inflicting pain.
(2) As used in this section:
   (a) “Chemical restraint” means a drug or medication that is used on a student to control behavior or restrict freedom of movement and that is not:
