(1) For any child who is a homeless child, as defined under Section 1-5 of the Education for Homeless Children Act [105 ILCS 45/1-5], a meeting between the child, the person having custody or control of the child, relevant school personnel, and a homeless liaison to discuss any barriers to the child's
attendance due to the child's transitional living situation and to construct a plan that removes these barriers.

(2) For any child with a documented disability, a meeting between the child, the person having custody or control of the child, and relevant school personnel to review the child's current needs and address the appropriateness of the child's placement and services. For any child subject to Article 14 of this Code [105 ILCS 5/14-1.01 et seq.], this meeting shall be an individualized education program meeting and shall include relevant members of the individualized education program team. For any child with a disability under Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. 794), this meeting shall be a Section 504 plan review and include relevant members of the Section 504 plan team.

(3) For any child currently being evaluated by a school district for a disability or for whom the school has a basis of knowledge that the child is a child with a disability under 20 U.S.C. 1415(k)(5), the completion of the evaluation and determination of the child's eligibility for special education services.

d) Before a school district may refer a person having custody or control of a child to a local public entity under this Section, the school district must document any appropriate and available supportive services offered to the child. In the event a meeting under this Section does not occur, a school district must have documentation that it made reasonable efforts to convene the meeting at a mutually convenient time and date for the school district and the person having custody or control of the child and, but for the conduct of that person, the meeting would have occurred.

School districts shall adopt policies, consistent with rules adopted by the State Board of Education, which identify the appropriate supportive services and available resources which are provided for truants and chronic truants.

Any dropout, as defined in Section 26-2a [105 ILCS 5/26-2a], who is 17 years of age may apply to a school district for status as a truant, and the school district shall permit such person to participate in the district's various programs and resources for truants. At the time of the person's application, the district may request documentation of his dropout status for the previous 6 months.

When a regional superintendent has reason to believe that a pupil is a truant minor as defined in Section 26-2a [105 ILCS 5/26-2a], the regional superintendent may report such pupil under the provisions of the Juvenile Court Act.

(a) As used in this Section:
"Chronic absence" means absences that total 10% or more of school days of the most recent academic school year, including absences with and without valid cause, as defined in Section 26-2a of this Code [105 ILCS 5/26-2a], and out-of-school suspensions for an enrolled student.
"Student" means any enrolled student that is subject to compulsory attendance under Section 26-1 of this Code [105 ILCS 5/26-1] but does not mean a student for whom a documented homebound or hospital record is on file during the student's absence from school.
(b) The General Assembly finds that:
(1) The early years are a critical period in children's learning and development. Every child should be counted present every day. Every day of school matters.
(2) Being absent too many days from school can make it difficult for students to stay on-track academically and maintain the momentum to graduate from high school in order to be college-or career-ready.
(3) Every day of school attendance matters for all students and their families. It is crucial, therefore, that the implications of chronic absence be understood and reviewed regularly.

(c) Beginning July 1, 2018, every school district, charter school, or alternative school or any school receiving public funds shall collect and review its chronic absence data and determine what systems of support and resources are needed to engage chronically absent students and their families to encourage the habit of daily attendance and promote success. The review shall include an analysis of chronic absence data from each attendance center or campus of the school district, charter school, or alternative school or other school receiving public funds.

(d) School districts, charter schools, or alternative schools or any school receiving public funds are encouraged to provide a system of support to students who are at risk of reaching or exceeding chronic absence levels with strategies such as those available through the Illinois Multi-tiered Systems of Support Network. Schools additionally are encouraged to make resources available to families such as those available through the State Board of Education's Family Engagement Framework to support and engage students and their families to encourage heightened school engagement and improved daily school attendance.

105 ILCS 5/34-4.5. Chronic truants.

(a) Office of Chronic Truant Adjudication. The board shall establish and implement an Office of Chronic Truant Adjudication, which shall be responsible for administratively adjudicating cases of chronic truancy and imposing appropriate sanctions. The board shall appoint or employ hearing officers to perform the adjudicatory functions of that Office. Principals and other appropriate personnel may refer pupils suspected of being chronic truants, as defined in Section 26-2a of this Code [105 ILCS 5/26-2a], to the Office of Chronic Truant Adjudication.

(b) Notices. Before any hearing may be held under subsection (c), the principal of the school attended by the pupil or the principal's designee shall notify the pupil's parent or guardian by personal visit, letter, or telephone of each unexcused absence of the pupil. After giving the parent or guardian notice of the tenth unexcused absence of the pupil, the principal or the principal's designee shall send the pupil's parent or guardian a letter, by certified mail, return receipt requested, notifying the parent or guardian that he or she is subjecting himself or herself to a hearing procedure as provided under subsection (c) and clearly describing any and all possible penalties that may be imposed as provided for in subsections (d) and (e) of this Section.

(c) Hearing. Once a pupil has been referred to the Office of Chronic Truant Adjudication, a hearing shall be scheduled before an appointed hearing officer, and the pupil and the pupil's parents or guardian shall be notified by certified mail, return receipt requested stating the time, place, and purpose of the hearing. The hearing officer shall hold a hearing and render a written decision within 14 days determining whether the pupil is a chronic truant as defined in Section 26-2a of this Code [105 ILCS 5/26-2a] and whether the parent or guardian took reasonable steps to assure the pupil's attendance at school. The hearing shall be private unless a public hearing is requested by the pupil's parent or guardian, and the pupil may be present at the hearing with a representative in addition to the pupil's parent or guardian. The board shall present evidence of the pupil's truancy, and the pupil and the parent or guardian or representative of the pupil may cross examine witnesses, present witnesses and evidence, and present defenses to the charges. All testimony at the hearing shall be taken under oath administered by the hearing officer. The decision of the hearing officer shall constitute an "administrative decision" for purposes of judicial review under the Administrative Review Law [735 ILCS 5/3-101 et seq.].

(d) Penalties. The hearing officer may require the pupil or the pupil's parent or guardian or both the pupil and the pupil's parent or guardian to do any or all of the following: perform reasonable school or community services for a period not to exceed 30 days; complete a parenting education program; obtain counseling or other supportive services; and comply with an individualized educational plan or service plan as provided by appropriate school officials. If the parent or guardian of the chronic truant shows that
he or she took reasonable steps to insure attendance of the pupil at school, he or she shall not be required to perform services.

(e) Non-compliance with sanctions. If a pupil determined by a hearing officer to be a chronic truant or the parent or guardian of the pupil fails to comply with the sanctions ordered by the hearing officer under subsection (c) of this Section, the Office of Chronic Truant Adjudication may refer the matter to the State's Attorney for prosecution under Section 3-33.5 of the Juvenile Court Act of 1987 [705 ILCS 405/3-33.5].

(f) Limitation on applicability. Nothing in this Section shall be construed to apply to a parent or guardian of a pupil not required to attend a public school pursuant to Section 26-1 [105 ILCS 5/26-1].

REGULATIONS

205.20. Purpose.

a) This Part establishes the procedure and criteria for approval of applications, submitted by eligible applicants to the State Board of Education, for grants to assist the applicants in establishing truants' alternative and optional education programs as authorized in Section 2-3.66 of the School Code. [105 ILCS 5/2-3.66]

b) Programs funded under this grant shall serve students identified as one of the following:

1) a truant, as defined in Section 26-2a of the School Code [105 ILCS 5/26-2a]; or
2) a chronic or habitual truant, as defined in Section 26-2a of the School Code; or
3) a dropout, as defined in Section 26-2a of the School Code; or
4) a potential dropout, which is any student subject to compulsory attendance as defined in Article 26 of the School Code [105 ILCS 5/Art. 26] and whose school absences or pattern of school attendance impedes the student's learning or contributes to the student's failure to meet State and/or district learning standards. Attendance problems may include chronic truancy, truancy, selective absences, excessive absences or a pattern of absences or tardiness. In assessing whether marginal school attendance problems would place a student within the definition of "potential dropout," consideration shall be given to a student's personal involvement in the education process, apparent motivation to receive an education, or any continued and obvious apathy or disaffection for education, particularly, when indications of uninvolvement, lack of motivation or disaffection are coupled with currently known individual or family circumstances that, if they remain unresolved, would be reasonably expected to result in escalating attendance problems.

205.30. Eligible applicants.

a) Proposals for grant awards under Section 2-3.66 of the School Code may be submitted only by public school districts, regional offices of education, public university laboratory schools approved by the State Board of Education pursuant to Section 18-8.05(K) of the School Code [105 ILCS 5/18-8.05(K)], charter schools, community college districts, or area vocational centers.

b) Joint applications for funds may be submitted. If a joint application is submitted, then an administrative agent shall be designated.

1) The superintendent from each of the participating school districts and the official authorized to submit a proposal on behalf of any other eligible entity as defined in subsection (a) of this Section shall sign the joint application.

2) A school district or other eligible entity shall only participate in one proposal for a program.

205.35. Required program components.

Each program funded pursuant to Section 2-3.66 of the School Code shall include at least the following components.

a) A comprehensive community-based program planning process that includes, but is not limited to, the participation of business, community organizations, social service providers, government agencies,
parents, school administrators and other staff members, including teachers, and students, and that
leads to the development and implementation of a strategic plan.

1) The plan shall contain program goals and objectives developed by analyzing social and academic
challenges in the community to be served by the truants' alternative and optional education program.
2) The plan shall identify available community resources and services and describe how these will be
coordinated to meet the needs of students identified as eligible for the program (see Section
205.20(b) of this Part).

205.60. Allocation of funds.
The State Superintendent of Education shall determine the amount of individual grant awards on the
basis of the following criteria. The final award amounts will be based on these criteria following
negotiation with the grant recipient:

a) the total funds appropriated for truants' alternative and optional education programs;
b) the program needs, resources, and amounts requested in the top-ranked proposals determined
pursuant to Section 205.50(a) and (b) of this Part; and
c) the need to assure delivery of truancy prevention services and truants' alternative and optional
education programs on a statewide basis and in a manner that will have the greatest impact in
preventing truancy and students from dropping out of school.

Substance Use

105 ILCS 5/2-3.176. Safe schools and healthy learning environments grant program.
(a) The State Board of Education, subject to appropriation, is authorized to award competitive grants on
an annual basis under a Safe Schools and Healthy Learning Environments Grant Program. The goal of
this grant program is to promote school safety and healthy learning environments by providing schools
with additional resources to implement restorative interventions and resolution strategies as alternatives
to exclusionary discipline, and to address the full range of students' intellectual, social, emotional,
physical, psychological, and moral developmental needs.

(b) To receive a grant under this program, a school district must submit with its grant application a plan for
implementing evidence-based and promising practices that are aligned with the goal of this program. The
application may include proposals to (i) hire additional school support personnel, including, but not limited
to, restorative justice practitioners, school psychologists, school social workers, and other mental and
behavioral health specialists; (ii) use existing school-based resources, community-based resources, or
other experts and practitioners to expand alternatives to exclusionary discipline, mental and behavioral
health supports, wraparound services, or drug and alcohol treatment; and (iii) provide training for school
staff on trauma-informed approaches to meeting students' developmental needs, addressing the effects
of toxic stress, restorative justice approaches, conflict resolution techniques, and the effective utilization
of school support personnel and community-based services. For purposes of this subsection, "promising
practices" means practices that present, based on preliminary information, potential for becoming
evidence-based practices.

105 ILCS 5/10-20.36. Psychotropic or psychostimulant medication; disciplinary action.
(a) In this Section:
"Psychostimulant medication" means medication that produces increased levels of mental and physical
energy and alertness and an elevated mood by stimulating the central nervous system.
"Psychotropic medication" means psychotropic medication as defined in Section 1-121.1 of the Mental
Health and Developmental Disabilities Code [405 ILCS 5/1-121.1].
(b) Each school board must adopt and implement a policy that prohibits any disciplinary action that is based totally or in part on the refusal of a student's parent or guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student. The policy must require that, at least once every 2 years, the in-service training of certified school personnel and administrators include training on current best practices regarding the identification and treatment of attention deficit disorder and attention deficit hyperactivity disorder, the application of non-aversive behavioral interventions in the school environment, and the use of psychotropic or psychostimulant medication for school-age children.

(c) This Section does not prohibit school medical staff, an individualized educational program team, or a professional worker (as defined in Section 14-1.10 of this Code [105 ILCS 5/14-1.10]) from recommending that a student be evaluated by an appropriate medical practitioner or prohibit school personnel from consulting with the practitioner with the consent of the student's parents or guardian.

105 ILCS 5/10-20.5b. Tobacco prohibition.

Each school board shall prohibit the use of tobacco on school property by any school personnel, student, or other person when such property is being used for any school purposes. The school board may not authorize or permit any exception to or exemption from the prohibition at any place or at any time, including without limitation outside of school buildings or before or after the regular school day or on days when school is not in session. "School purposes" include but are not limited to all events or activities or other use of school property that the school board or school officials authorize or permit on school property, including without limitation all interscholastic or extracurricular athletic, academic, or other events sponsored by the school board or in which pupils of the district participate. For purposes of this Section "tobacco" shall mean cigarette, cigar, or tobacco in any other form, including smokeless tobacco which is any loose, cut, shredded, ground, powdered, compressed or leaf tobacco that is intended to be placed in the mouth without being smoked.

105 ILCS 5/10-21.4a. Principals and assistant principals - Duties.

It shall also be the responsibility of the principal to utilize resources of proper law enforcement agencies when the safety and welfare of students and teachers are threatened by illegal use of drugs and alcohol, by illegal use or possession of weapons, or by illegal gang activity.

105 ILCS 5/10-22.10a. Inspection for drugs.

School boards are empowered to adopt a policy to authorize school officials to request the assistance of law enforcement officials for the purpose of conducting reasonable searches of school grounds and lockers for illegal drugs, including searches conducted through the use of specially trained dogs.

105 ILCS 5/10-27.1B. Reporting drug-related incidents in schools.

(a) In this Section:

"Drug" means "cannabis" as defined under subsection (a) of Section 3 of the Cannabis Control Act [720 ILCS 550/3], "narcotic drug" as defined under subsection (aa) of Section 102 of the Illinois Controlled Substances Act [720 ILCS 570/102], or "methamphetamine" as defined under Section 10 of the Methamphetamine Control and Community Protection Act [720 ILCS 646/10].

"School" means any public or private elementary or secondary school.

(b) Upon receipt of any written, electronic, or verbal report from any school personnel regarding a verified incident involving drugs in a school or on school owned or leased property, including any conveyance owned, leased, or used by the school for the transport of students or school personnel, the superintendent or his or her designee, or other appropriate administrative officer for a private school, shall report all such drug-related incidents occurring in a school or on school property to the local law enforcement authorities immediately and to the Department of State Police in a form, manner, and frequency as prescribed by the Department of State Police.
(c) The State Board of Education shall receive an annual statistical compilation and related data associated with drug-related incidents in schools from the Department of State Police. The State Board of Education shall compile this information by school district and make it available to the public.

"Support services" include alcohol and drug rehabilitation; individual, group, and family counseling; mentoring; tutoring; school physicals; health and nutrition education; classroom aides; career counseling; child care; and any other social, health, or supplemental service approved as part of the Student Success Plan that is required by students for their academic success.

105 ILCS 5/24-26. Intervening to help students or their family members who may have alcohol or other drug problems.
Teachers and other employees of school districts may intervene to help students or their family members who appear to have problems with alcohol and other drugs by encouraging them to seek an assessment and treatment. School personnel who intervene shall have immunity from civil liability in accordance with the Alcoholism and Drug Addiction Intervenor and Reporter Immunity Law [745 ILCS 35/1 et seq.]. School personnel shall not be subject to disciplinary action by the school because of an intervention and may not be prohibited by school policy from intervening.

The Board of Education shall prohibit the use of tobacco on school property when such property is being used for any school purposes. Neither the board nor the local school council may authorize or permit any exception to or exemption from the prohibition at any place or at any time, including without limitation outside of school buildings or before or after the regular school day or on days when school is not in session. "School purposes" include but are not limited to all events or activities or other use of school property that the school board or school officials authorize or permit on school property, including without limitation all interscholastic or extracurricular athletic, academic or other events sponsored by the school board or in which pupils of the district participate. For purposes of this Section "tobacco" shall mean cigarette, cigar, or tobacco in any other form, including smokeless tobacco which is any loose, cut, shredded, ground, powdered, compressed or leaf tobacco that is intended to be placed in the mouth without being smoked.

The board shall specify in its formal job description for principals, and from and after July 1, 1990 shall specify in the 4 year performance contracts for use with respect to all principals, that his or her primary responsibility is in the improvement of instruction. A majority of the time spent by a principal shall be spent on curriculum and staff development through both formal and informal activities, establishing clear lines of communication regarding school goals, accomplishments, practices and policies with parents and teachers. The principal, with the assistance of the local school council, shall develop a school improvement plan as provided in Section 34-2.4 [105 ILCS 5/34-2.4] and, upon approval of the plan by the local school council, shall be responsible for directing implementation of the plan. The principal, with the assistance of the professional personnel leadership committee, shall develop the specific methods and contents of the school's curriculum within the board's system-wide curriculum standards and objectives and the requirements of the school improvement plan. The board shall ensure that all principals are evaluated on their instructional leadership ability and their ability to maintain a positive education and learning climate. It shall also be the responsibility of the principal to utilize resources of proper law enforcement agencies when the safety and welfare of students and teachers are threatened by illegal use of drugs and alcohol, by illegal use or possession of weapons, or by illegal gang activity.
105 ILCS 127/2. Duty of school administrators.

It is the duty of the principal of a public elementary or secondary school, or his or her designee, and the chief administrative officer of a private elementary or secondary school or a public or private community college, college, or university, or his or her designee, to report to the municipal police department or office of the county sheriff of the municipality or county where the school is located violations of Section 5.2 of the Cannabis Control Act [720 ILCS 550/5.2], violations of Section 401 [720 ILCS 570/401] and subsection (b) of Section 407 of the Illinois Controlled Substances Act [720 ILCS 570/407], and violations of the Methamphetamine Control and Community Protection Act [720 ILCS 646/1 et seq.] occurring in a school, on the real property comprising any school, on a public way within 1,000 feet of a school, or in any conveyance owned, leased, or contracted by a school to transport students to or from school or a school related activity within 48 hours of becoming aware of the incident.

REGULATIONS

830.190. Use of tobacco products on state school property.

In conjunction with Section 10-20 of the School Code [105 ILCS 5/10-20] and Section 3 of the Disabled Persons Rehabilitation Act [20 ILCS 2405/3], the Department, under its administrative authority, prohibits the use of all tobacco products on State School property. For purposes of this Section, tobacco products shall mean cigarette, cigar, or tobacco in any other form, including smokeless tobacco, which is loose, cut, shredded, ground, powdered, compressed or leaf tobacco. The prohibition against the use of tobacco products is to include school personnel, students, or other persons when on State School property. No exception to this prohibition will be permitted, including all events or activities before or after the regular school day and on days when the State School is not in session.

Gang-related Activity

LAWS

105 ILCS 5/10-21.4a. Principals and assistant principals - Duties.

It shall also be the responsibility of the principal to utilize resources of proper law enforcement agencies when the safety and welfare of students and teachers are threatened by illegal use of drugs and alcohol, by illegal use or possession of weapons, or by illegal gang activity.

105 ILCS 5/22-20. All courts and law enforcement agencies of the State of Illinois.

All courts and law enforcement agencies of the State of Illinois and its political subdivisions shall report to the principal of any public school in this State whenever a child enrolled therein is detained for proceedings under the Juvenile Court Act of 1987 [705 ILCS 405/1-1 et seq.], as heretofore and hereafter amended, or for any criminal offense, including illegal gang activity, or any violation of a municipal or county ordinance. The report shall include the basis for detaining the child, circumstances surrounding the events which led to the child's detention, and status of proceedings. The report shall be updated as appropriate to notify the principal of developments and the disposition of the matter.

The information derived thereby shall be kept separate from and shall not become a part of the official school record of such child and shall not be a public record. Such information shall be used solely by the appropriate school official or officials whom the school has determined to have a legitimate educational or safety interest to aid in the proper rehabilitation of the child and to protect the safety of students and employees in the school.

(a) The General Assembly finds that the instance of youth delinquent gangs continues to rise on a statewide basis. Given the higher rates of criminal offending among gang members, as well as the
availability of increasingly lethal weapons, the level of criminal activity by gang members has taken on new importance for law enforcement agencies, schools, the community, and prevention efforts.

(b) As used in this Section:

"Gang resistance education and training" means and includes instruction in, without limitation, each of the following subject matters when accompanied by a stated objective of reducing gang activity and educating children in grades K through 12 about the consequences of gang involvement:

(1) conflict resolution;
(2) cultural sensitivity;
(3) personal goal setting; and
(4) resisting peer pressure.

(c) Each school district and non-public, non-sectarian elementary or secondary school in this State may make suitable provisions for instruction in gang resistance education and training in all grades and include that instruction in the courses of study regularly taught in those grades. For the purposes of gang resistance education and training, a school board or the governing body of a non-public, non-sectarian elementary or secondary school must collaborate with State and local law enforcement agencies. The State Board of Education may assist in the development of instructional materials and teacher training in relation to gang resistance education and training.

The board shall specify in its formal job description for principals, and from and after July 1, 1990 shall specify in the 4 year performance contracts for use with respect to all principals, that his or her primary responsibility is in the improvement of instruction. A majority of the time spent by a principal shall be spent on curriculum and staff development through both formal and informal activities, establishing clear lines of communication regarding school goals, accomplishments, practices and policies with parents and teachers. The principal, with the assistance of the local school council, shall develop a school improvement plan as provided in Section 34-2.4 [105 ILCS 5/34-2.4] and, upon approval of the plan by the local school council, shall be responsible for directing implementation of the plan. The principal, with the assistance of the professional personnel leadership committee, shall develop the specific methods and contents of the school's curriculum within the board's system-wide curriculum standards and objectives and the requirements of the school improvement plan. The board shall ensure that all principals are evaluated on their instructional leadership ability and their ability to maintain a positive education and learning climate. It shall also be the responsibility of the principal to utilize resources of proper law enforcement agencies when the safety and welfare of students and teachers are threatened by illegal use of drugs and alcohol, by illegal use or possession of weapons, or by illegal gang activity.

Bullying, Harassment, or Hazing

LAWS

20 ILCS 1705/76. Mental health database and resource page.

The Department shall create and maintain an online database and resource page on its website. The database and resource page shall contain mental health resources specifically geared toward school social workers, school counselors, parents, teachers, and school support personnel with the goal of connecting those people with mental health resources related to bullying and school shootings and encouraging information sharing among educational administrators, school security personnel, and school resource officers.
(a) To establish and maintain a parent-teacher advisory committee to develop with the school board or
governing body of a charter school policy guidelines on pupil discipline, including school searches and
bullying prevention as set forth in Section 27-23.7 of this Code [105 ILCS 5/27-23.7]. School authorities
shall furnish a copy of the policy to the parents or guardian of each pupil within 15 days after the
beginning of the school year, or within 15 days after starting classes for a pupil who transfers into the
district during the school year, and the school board or governing body of a charter school shall require
that a school inform its pupils of the contents of the policy. School boards and the governing bodies of
charter schools, along with the parent-teacher advisory committee, must annually review their pupil
discipline policies, the implementation of those policies, and any other factors related to the safety of
their schools, pupils, and staff.

105 ILCS 5/10-22.24b. School counseling services.
School counseling services may include, but are not limited to:
(17) addressing bullying and conflict resolution with all students; […]
(31) developing and implementing school-based prevention programs, including, but not limited to,
mediation and violence prevention, implementing social and emotional education programs and
services, and establishing and implementing bullying prevention and intervention programs;
(54) participating in mandates from the State Board of Education for bullying education and social-
emotional literacy.

105 ILCS 5/14-1.09.2. School social work services.
School social work services may include, but are not limited to:
(6) Developing and implementing school-based prevention programs, including mediation and violence
prevention, implementing social and emotional education programs and services, and establishing and
implementing bullying prevention and intervention programs.

105 ILCS 5/22-12. Preventing or interfering with a child's attendance at school.
Whoever by threat, menace, or intimidation prevents any child entitled to attend a public or nonpublic
school in this State from attending such school or interferes with any such child's attendance at that
school shall be guilty of a Class A misdemeanor.

(a) The purpose of this Section is to inform and protect students from inappropriate or illegal
communications and solicitation and to encourage school districts to provide education about Internet
threats and risks, including without limitation child predators, fraud, and other dangers.
(b) The General Assembly finds and declares the following:
(1) it is the policy of this State to protect consumers and Illinois residents from deceptive and unsafe
communications that result in harassment, exploitation, or physical harm;
(2) children have easy access to the Internet at home, school, and public places;
(3) the Internet is used by sexual predators and other criminals to make initial contact with children and
other vulnerable residents in Illinois; and
(4) education is an effective method for preventing children from falling prey to online predators, identity
theft, and other dangers.
(c) Each school may adopt an age-appropriate curriculum for Internet safety instruction of students in
grades kindergarten through 12. However, beginning with the 2009-2010 school year, a school district
must incorporate into the school curriculum a component on Internet safety to be taught at least once
each school year to students in grades 3 through 12. The school board shall determine the scope and
duration of this unit of instruction. The age-appropriate unit of instruction may be incorporated into the current courses of study regularly taught in the district's schools, as determined by the school board, and it is recommended that the unit of instruction include the following topics:

1. Safe and responsible use of social networking websites, chat rooms, electronic mail, bulletin boards, instant messaging, and other means of communication on the Internet.
2. Recognizing, avoiding, and reporting online solicitations of students, their classmates, and their friends by sexual predators.
3. Risks of transmitting personal information on the Internet.
4. Recognizing and avoiding unsolicited or deceptive communications received online.
5. Recognizing and reporting online harassment and cyber-bullying.
6. Reporting illegal activities and communications on the Internet.
7. Copyright laws on written materials, photographs, music, and video.

Curricula devised in accordance with subsection (c) of this Section may be submitted for review to the Office of the Illinois Attorney General.

The State Board of Education shall make available resource materials for educating children regarding child online safety and may take into consideration the curriculum on this subject developed by other states, as well as any other curricular materials suggested by education experts, child psychologists, or technology companies that work on child online safety issues. Materials may include without limitation safe online communications, privacy protection, cyber-bullying, viewing inappropriate material, file sharing, and the importance of open communication with responsible adults. The State Board of Education shall make these resource materials available on its Internet website.

(a) The General Assembly finds that a safe and civil school environment is necessary for students to learn and achieve and that bullying causes physical, psychological, and emotional harm to students and interferes with students' ability to learn and participate in school activities. The General Assembly further finds that bullying has been linked to other forms of antisocial behavior, such as vandalism, shoplifting, skipping and dropping out of school, fighting, using drugs and alcohol, sexual harassment, and sexual violence. Because of the negative outcomes associated with bullying in schools, the General Assembly finds that school districts, charter schools, and non-public, non-sectarian elementary and secondary schools should educate students, parents, and school district, charter school, or non-public, non-sectarian elementary or secondary school personnel about what behaviors constitute prohibited bullying.

Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in all school districts, charter schools, and non-public, non-sectarian elementary and secondary schools. No student shall be subjected to bullying:

1. during any school-sponsored education program or activity;

(a) All school officials, including teachers, guidance counselors, and support staff, shall immediately notify the office of the principal in the event that they observe any person in possession of a firearm on school grounds; provided that taking such immediate action to notify the office of the principal would not immediately endanger the health, safety, or welfare of students who are under the direct supervision of the school official or the school official. If the health, safety, or welfare of students under the direct supervision of the school official or of the school official is immediately endangered, the school official shall notify the office of the principal as soon as the students under his or her supervision and he or she are no longer under immediate danger. [...]

(d) Each school district, charter school, and non-public, non-sectarian elementary or secondary school shall create, maintain, and implement a policy on bullying, which policy must be filed with the State Board of Education. The policy or implementing procedure shall include a process to investigate whether a reported act of bullying is within the permissible scope of the district's or school's jurisdiction and shall require that the district or school provide the victim with information regarding services that are available within the district and community, such as counseling, support services, and other programs. School personnel available for help with a bully or to make a report about bullying shall be made known to parents or legal guardians, students, and school personnel. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. The policy must be filed with the State Board of Education after being updated. The State Board of Education shall monitor and provide technical support for the implementation of policies created under this subsection (d).

I) a description of any injuries (whether to students, staff, or others) or property damage;

LAWS

(d) The school board, in consultation with the parent-teacher advisory committee and other community-based organizations, must include provisions in the student discipline policy to address students who have demonstrated behaviors that put them at risk for aggressive behavior, including without limitation bullying, as defined in the policy. These provisions must include procedures for notifying parents or legal guardians and early intervention procedures based upon available community-based and district resources.

105 ILCS 5/10-20.33. Time out and physical restraint.
The use of physical restraints is prohibited except when (i) the student poses a physical risk to himself, herself, or others, (ii) there is no medical contraindication to its use, and (iii) the staff applying the restraint have been trained in its safe application. For the purposes of this Section, "restraint" does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and that are designed (i) to prevent a student from completing an act that would result in potential physical harm to himself, herself, or another or damage to property or (ii) to remove a disruptive student who is unwilling to voluntarily leave the area. The use of physical restraints that meet the requirements of this Section may be included in a student's individualized education plan where deemed appropriate by the student's individualized education plan team. Whenever physical restraints are used, school personnel shall fully document the incident, including the events leading up to the incident, the type of restraint used, the length of time the student is restrained, and the staff involved. The parents or guardian of a student shall be informed whenever physical restraints are used.
105 ILCS 5/10-22.6. Suspension or expulsion of pupils; school searches.

Any suspension shall be reported immediately to the parents or guardians of a pupil along with a full statement of the reasons for such suspension and a notice of their right to a review. The school board must be given a summary of the notice, including the reason for the suspension and the suspension length. Upon request of the parents or guardians, the school board or a hearing officer appointed by it shall review such action of the superintendent or principal, assistant principal, or dean of students. At such review, the parents or guardians of the pupil may appear and discuss the suspension with the board or its hearing officer. If a hearing officer is appointed by the board, he shall report to the board a written summary of the evidence heard at the meeting. After its hearing or upon receipt of the written report of its hearing officer, the board may take such action as it finds appropriate. If a student is suspended pursuant to this subsection (b), the board shall, in the written suspension decision, detail the specific act of gross disobedience or misconduct resulting in the decision to suspend. The suspension decision shall also include a rationale as to the specific duration of the suspension. A pupil who is suspended in excess of 20 school days may be immediately transferred to an alternative program in the manner provided in Article 13A or 13B of this Code. A pupil must not be denied transfer because of the suspension, except in cases in which such transfer is deemed to cause a threat to the safety of students or staff in the alternative program.

Before being enrolled in an alternative learning opportunities program, the student and each of his or her parents or guardians shall receive written notice to attend a conference to determine if the student would benefit from attending an alternative learning opportunities program. The conference must provide all of the information necessary for the student and parent or guardian to make an informed decision regarding enrollment in an alternative learning opportunities program. The conference shall include a discussion of the extent to which the student, if enrolled in the program, may participate in school activities. No student shall be enrolled in an alternative learning opportunities program without the consent of the student's parent or guardian.

(4) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning. An officer who received training in youth investigations approved or certified by his or her law enforcement agency or under Section 10.22 of the Police Training Act [50 ILCS 705/10.22] or a juvenile police officer, as defined under Section 1-3 of the Juvenile Court Act of 1987 [705 ILCS 405/1-3], satisfies the requirement under this paragraph.
(c) This Section does not limit the authority of a law enforcement officer to make an arrest on school grounds. This Section does not apply to circumstances that would cause a reasonable person to believe that urgent and immediate action is necessary to do any of the following:

2. Apprehend an armed or fleeing suspect.
3. Prevent the destruction of evidence.
4. Address an emergency or other dangerous situation.

Such notification shall not be given for an absence authorized by the parent, legal guardian or other person having legal custody of such child. Prior to any enrollment of a child in a public school, the school district shall notify parents, legal guardians, or other persons having legal custody of a child, of their responsibility to authorize any absence and to notify the school in advance or at the time of any such absence, and that the school requires at least one and not more than 2 telephone numbers be given for purposes of this Section. The school district shall require that such telephone numbers be given at the time of enrollment of the child in school, which said numbers may be changed from time to time upon notification to the school.

The requirements of this Section shall have been met by the school if notification of an absence has been attempted by telephoning the 1 or 2 numbers given the school by the parent, legal guardian or other person having legal custody of a child, whether or not there is any answer at such telephone number or numbers. Further, the requirements of this Section shall have been met if the said notification is given to a member of the household of the child's parent, legal guardian or other person having legal custody of the child, which said member of the household must be 10 years of age or older.

An employee or other agent designated by the public school who in good faith makes a reasonable effort to notify the parent, legal guardian or other person having legal custody of a child of the child's absence from school, when required by this Section, shall not, as a result of his acts or omissions, except wilful or wanton misconduct on the part of such employee or agent in attempting to comply with the notification requirements of this Section, be liable for civil damages.

The use of physical restraints that meet the requirements of this Section may be included in a student's individualized education plan where deemed appropriate by the student's individualized education plan team. Whenever physical restraints are used, school personnel shall fully document the incident, including the events leading up to the incident, the type of restraint used, the length of time the student is restrained, and the staff involved. Students in grades 4 through 12 who meet enrollment criteria established by the school district and who meet the definition of "at risk of academic failure" are eligible to participate in an Alternative Learning Opportunities Program [105 ILCS 5/13B-20.25] approved under this Part.

f) When school district personnel believe that a student is eligible for and would benefit from enrollment in an Alternative Learning Opportunities Program, the district shall send a written notification to the student and the student's parent or guardian to attend a conference about the program (see 105 ILCS 5/13B-60.10). This notification also shall contain a statement of the rights of the parent or guardian (e.g., requirement for written parental permission to enroll in the program, ability to withdraw consent for enrollment, participation in development of the Student Success Plan).

2) Relevant educational records and information yielded by diagnostic assessments (e.g., academic, behavioral, risk) shall be available at the time of the conference.

3) The district shall provide documentation identifying the interventions available in the school district and demonstrate that these have already been provided to the student.

**LAWS**

**105 ILCS 5/2-3.130. Time out and physical restraint rules.**

The State Board of Education shall promulgate rules governing the use of time out and physical restraint in the public schools. The rules shall include provisions governing recordkeeping that is required when physical restraint or more restrictive forms of time out are used.

**105 ILCS 5/2-3.162. Student discipline report; school discipline improvement plan.**

(a) On or before October 31, 2015 and on or before October 31 of each subsequent year, the State Board of Education, through the State Superintendent of Education, shall prepare a report on student discipline in all school districts in this State, including State-authorized charter schools. This report shall include data from all public schools within school districts, including district-authorized charter schools. This report must be posted on the Internet website of the State Board of Education. The report shall include data on the issuance of out-of-school suspensions, expulsions, and removals to alternative settings in lieu of another disciplinary action, disaggregated by race and ethnicity, gender, age, grade level, whether a student is an English learner, incident type, and discipline duration.

(b) The State Board of Education shall analyze the data under subsection (a) of this Section on an annual basis and determine the top 20% of school districts for the following metrics:
(1) Total number of out-of-school suspensions divided by the total district enrollment by the last school day in September for the year in which the data was collected, multiplied by 100.

(2) Total number of out-of-school expulsions divided by the total district enrollment by the last school day in September for the year in which the data was collected, multiplied by 100.

(3) Racial disproportionality, defined as the overrepresentation of students of color or white students in comparison to the total number of students of color or white students on October 1st of the school year in which data are collected, with respect to the use of out-of-school suspensions and expulsions, which must be calculated using the same method as the U.S. Department of Education's Office for Civil Rights uses.

The analysis must be based on data collected over 3 consecutive school years, beginning with the 2014-2015 school year.

Beginning with the 2017-2018 school year, the State Board of Education shall require each of the school districts that are identified in the top 20% of any of the metrics described in this subsection (b) for 3 consecutive years to submit a plan identifying the strategies the school district will implement to reduce the use of exclusionary disciplinary practices or racial disproportionality or both, if applicable. School districts that no longer meet the criteria described in any of the metrics described in this subsection (b) for 3 consecutive years shall no longer be required to submit a plan.

This plan may be combined with any other improvement plans required under federal or State law.

The calculation of the top 20% of any of the metrics described in this subsection (b) shall exclude all school districts, State-authorized charter schools, and special charter districts that issued fewer than a total of 10 out-of-school suspensions or expulsions, whichever is applicable, during the school year. The calculation of the top 20% of the metric described in subdivision (3) of this subsection (b) shall exclude all school districts with an enrollment of fewer than 50 white students or fewer than 50 students of color.

The plan must be approved at a public school board meeting and posted on the school district's Internet website. Within one year after being identified, the school district shall submit to the State Board of Education and post on the district's Internet website a progress report describing the implementation of the plan and the results achieved.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2023. 279.58. School dress code policies.

1. The general assembly finds and declares that the students and the administrative and instructional staffs of Iowa's public schools have the right to be safe and secure at school. Gang-related apparel worn at school draws attention away from the school's learning environment and directs it toward thoughts or expressions of violence, bigotry, hate, and abuse.

2. The board of directors of a school district may adopt, for the district or for an individual school within the district, a dress code policy that prohibits students from wearing gang-related or other specific apparel if the board determines that the policy is necessary for the health, safety, or positive educational environment of students and staff in the school environment or for the appropriate discipline and operation of the school. Adoption and enforcement of a dress code policy is not a violation of section 280.22.

279.66. Discipline and personal conduct standards.

The board of directors of a school district shall review and modify existing policies related to student discipline and student conduct that are designed to promote responsible behavior on school property and at school functions in order that the policy shall govern the conduct of students, teachers and other school personnel, and visitors; provide opportunities for students to exercise self-discipline and practice cooperative classroom behavior; and encourage students and practitioners to model fairness, equity, and respect. The policy shall specify the responsibilities of students, parents and guardians, and practitioners in creating an atmosphere where all individuals feel a sense of respect, safety, and belonging, and shall set forth the consequences for unacceptable behavior. The policy shall be published in the student handbook.

280.28. Harassment and bullying prohibited - policy - immunity.

3. Policy. On or before September 1, 2007, the board of directors of a school district and the authorities in charge of each accredited nonpublic school shall adopt a policy declaring harassment and bullying in schools, on school property, and at any school function, or school-sponsored activity regardless of its location, in a manner consistent with this section, as against state and school policy.

The board of directors of a public school district or the authorities in charge of an accredited nonpublic school shall prescribe reasonable rules for the punishment of truants.

These rules clarify that corporal punishment, prone restraint, and mechanical restraint are prohibited; explain the parameters and protocols for the use of physical restraint and seclusion; and describe other limits on physical contact with students. The applicability of this chapter to physical restraint, seclusion, or behavior management interventions does not depend on the terminology employed by the organization to describe the activity or space. These rules are intended to
promote the dignity, care, safety, welfare, and security of each child and the school community; encourage the use of proactive, effective, and evidence- and research-based strategies and best practices to reduce the occurrence of challenging behaviors; increase meaningful instructional time for all students; ensure that seclusion and physical restraint are used only in specified circumstances and are subject to assessment, monitoring, documentation, and reporting by trained employees; and give clear guidance on whether a disciplinary or behavioral management technique is prohibited or may be used.

For the purposes of this chapter:
"Corporal punishment" means the intentional physical punishment of a student. "Corporal punishment" includes the use of unreasonable or unnecessary physical force, or physical contact made with the intent to harm or cause pain.

281-103.3(256B,280). Ban on corporal punishment and prone and mechanical restraints.
An employee shall not inflict, or cause to be inflicted, corporal punishment upon a student or use prone restraints or mechanical restraints upon a student.

281-103.4(256B,280). Activities that are not considered corporal punishment.
Corporal punishment does not include the following:
1. Verbal recrimination or chastisement directed toward a student;
2. Reasonable requests or requirements of a student engaged in activities associated with physical education class or extracurricular athletics;
3. Actions consistent with and included in an individualized education program (IEP) developed under the Individuals with Disabilities Education Act, as reauthorized, Iowa Code chapter 256B, and 281- Chapter 41; a behavior intervention plan (BIP); an individual health plan (IHP); or a safety plan. However, under no circumstance shall an IEP, BIP, IHP, or safety plan violate the provisions of this chapter;
4. Reasonable periods of detention, not in excess of school hours, or brief periods of detention before or after school, in a seat, classroom, or other part of a school facility;
5. Actions by an employee subject to these rules toward a person who is not a student of the school or receiving the services of a school employing or utilizing the services of the employee.

281-103.5(256B,280). Use of reasonable and necessary force.
103.5(1) Notwithstanding the ban on corporal punishment in rule 281-103.3(256B,280), no employee subject to these rules is prohibited from:
a. Using reasonable and necessary force, not designed or intended to cause pain, in order to accomplish any of the following:
   (1) To quell a disturbance or prevent an act that threatens physical harm to any person.
   (2) To obtain possession of a weapon or other dangerous object within a student's control.
   (3) For the purposes of self-defense or defense of others as provided for in Iowa Code section 704.3.
   (4) To remove a disruptive student from class or any area of the school's premises or from school- sponsored activities off school premises.

281-103.6(256B,280). Reasonable force.

103.6(1) In determining the reasonableness of the physical force used by a school employee, the following factors shall be applied:
   a. The size and physical, mental, and psychological condition of the student;
   b. The nature of the student's behavior or misconduct resulting in the use of physical force;
   c. The instrumentality used in applying the physical force;
   d. The extent and nature of resulting injury to the student, if any, including mental and psychological injury;
   e. The motivation of the school employee using the physical force.

103.6(2) Reasonable physical force, privileged at its inception, does not lose its privileged status by reasons of an injury to the student, not reasonably foreseeable or otherwise caused by intervening acts of another, including the student.

Search and Seizure

LAWS

808A.1. Definitions.

As used in this chapter, unless the context otherwise requires:

5. “Student search rule” means a rule established by the school board of a public school, pursuant to section 279.8 or 279.9, or the authorities in charge of a nonpublic school controlling the manner of the searching of students or protected student areas and school lockers, desks, and other facilities or spaces owned by the school. A student search rule, to be valid for purposes of this chapter, shall require that all searches of students or protected student areas be reasonably related in scope to the circumstances which gave rise to the need for the search and based upon consideration of relevant factors which include, but are not limited to, the following:
   a. The nature of the violation for which the search is being instituted.
   b. The age or ages and gender of the students who may be searched pursuant to the rule.
   c. The objectives to be accomplished by the search.

808A.2. Searches of students, protected student areas, lockers, desks, and other facilities or spaces.

1. The school board of each public school and the authorities in charge of each nonpublic school shall establish and may search a student or protected student area pursuant to a student search rule. The student search rule shall be published in each public school's and each nonpublic school's student handbook. A school official may search individual students and individual protected student areas if both of the following apply:
   a. The official has reasonable grounds for suspecting that the search will produce evidence that a student has violated or is violating either the law or a school rule or regulation.
   b. The search is conducted in a manner which is reasonably related to the objectives of the search and which is not excessively intrusive in light of the age and gender of the student and the nature of the infraction.

2. School officials may conduct periodic inspections of all, or a randomly selected number of, school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student. The furnishing of a school locker, desk, or other facility or space owned by the school and provided as a courtesy to a student shall not create a protected student area, and shall not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. Allowing students to use a separate lock on a locker, desk, or other facility or space owned by the school and provided to the student shall also not give rise to an expectation of privacy on a student's part with
respect to that locker, desk, facility, or space. However, each year when school begins, the school
district shall provide written notice to all students and the students' parents, guardians, or legal
custodians, that school officials may conduct periodic inspections of school lockers, desks, and other
facilities or spaces owned by the school and provided as a courtesy to a student without prior notice. An
inspection under this subsection shall either occur in the presence of the students whose lockers are
being inspected or the inspection shall be conducted in the presence of at least one other person.
3. Under no circumstances may a search be made which is unreasonable in light of the following:
   a. The age of the student.
   b. The nonseriousness of the violation.
   c. The sex of the student.
   d. The nature of the suspected violation.
4. A school official shall not conduct a search which involves:
   a. A strip search.
   b. A body cavity search.
   c. The use of a drug sniffing animal to search a student's body.
   d. The search of a student by a school official not of the same sex as the student.
5. If a student is not or will not be present at the time a search of a protected student area is
   conducted pursuant to subsection 1, the student shall be informed of the search either prior to or as
   soon as is reasonably practicable after the search is conducted.

808A.3. Student search by peace officer.
The search of a student or of a protected student area by a peace officer who is not a school official, or by
a school official at the invitation or direction of a peace officer who is not a school official, shall be
governed by the statutory and common law requirements for police searches.

808A.4. Exclusion of evidence.
Material or evidence obtained directly or indirectly as a result of a search conducted in violation of this
chapter is inadmissible in a criminal proceeding against a student.

REGULATIONS

The purpose of this chapter is to provide uniform definitions and policies for public school districts,
accredited nonpublic schools, and area education agencies regarding the application of physical contact
or force to enrolled students. These rules clarify that corporal punishment, prone restraint, and
mechanical restraint are prohibited; explain the parameters and protocols for the use of physical restraint
and seclusion; and describe other limits on physical contact with students. The applicability of this
chapter to physical restraint, seclusion, or behavior management interventions does not depend on the
terminology employed by the organization to describe the activity or space. These rules are intended to
promote the dignity, care, safety, welfare, and security of each child and the school community;
encourage the use of proactive, effective, and evidence- and research-based strategies and best
practices to reduce the occurrence of challenging behaviors; increase meaningful instructional time for all
students; ensure that seclusion and physical restraint are used only in specified circumstances and are subject to assessment, monitoring, documentation, and reporting by trained employees; and give clear guidance on whether a disciplinary or behavioral management technique is prohibited or may be used.

281-103.2(256B,280). Definitions.
For the purposes of this chapter:
"Bodily injury" means physical pain, illness, or any impairment of physical condition.
"Corporal punishment" means the intentional physical punishment of a student. "Corporal punishment" includes the use of unreasonable or unnecessary physical force, or physical contact made with the intent to harm or cause pain.
"Debriefings" are meetings to collaboratively examine and determine what caused an incident or incidents resulting in the use of physical restraints or seclusion, how the incident or the use of physical restraints or seclusion or both could have been avoided and how future incidents could be avoided, and to plan for and implement positive and preventative supports. The debriefing process is intended to improve future outcomes by reducing the likelihood of future problem behavior and the subsequent use of physical restraint or seclusion.
"Mechanical restraint" means the use of a device as a means of restricting a student's freedom of movement. "Mechanical restraint" does not mean a device used by trained school personnel, or used by a student, for the specific and approved therapeutic or safety purposes for which such a device was designed and, if applicable, prescribed, including restraints for medical immobilization, adaptive devices or mechanical supports used to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports, and vehicle safety restraints when used as intended during the transport of a student in a moving vehicle.
"Parent" means an individual included in the definition of "parent" in rule 281-41.30(256B,34CFR300), and also includes an individual authorized to make decisions for the child pursuant to a power of attorney for temporary delegation of custody or for making educational decisions.
"Physical restraint" means a personal restriction that immobilizes or reduces the ability of a child to move the child's arms, legs, body, or head freely. "Physical restraint" does not mean a technique used by trained school personnel, or used by a student, for the specific and approved therapeutic or safety purposes for which such a technique was designed and, if applicable, prescribed. "Physical restraint" does not include instructional strategies, such as physically guiding a student during an educational task, hand-shaking, hugging, or other nondisciplinary physical contact.
"Prone restraint" means any restraint in which the child is held face down on the floor.
"Reasonable and necessary force" is that force, and no more, which a reasonable person would judge to be necessary under the circumstances that existed at the time, that is not intended to cause pain, and that does not exceed the degree or duration required to accomplish the purposes set forth in rule 281-103.5(256B,280).
"School" includes public school districts, accredited nonpublic schools, and area education agencies.
"Seclusion" means the involuntary confinement of a child in a seclusion room or area from which the child is prevented or prohibited from leaving; however, preventing a child from leaving a classroom or school building shall not be considered seclusion. "Seclusion" does not include instances when a school employee is present within the room and providing services to the child, such as crisis intervention or instruction.
"Seclusion room" means a room, area, or enclosure, whether within or outside the classroom, used for seclusion.

281-103.3(256B,280). Ban on corporal punishment and prone and mechanical restraints.
An employee shall not inflict, or cause to be inflicted, corporal punishment upon a student or use prone restraints or mechanical restraints upon a student.
281-103.6(256B,280). Reasonable force.
103.6(1) In determining the reasonableness of the physical force used by a school employee, the following factors shall be applied:
   a. The size and physical, mental, and psychological condition of the student;
   b. The nature of the student's behavior or misconduct resulting in the use of physical force;
   c. The instrumentality used in applying the physical force;
   d. The extent and nature of resulting injury to the student, if any, including mental and psychological injury;
   e. The motivation of the school employee using the physical force.
103.6(2) Reasonable physical force, privileged at its inception, does not lose its privileged status by reasons of an injury to the student, not reasonably foreseeable or otherwise caused by intervening acts of another, including the student.

281-103.7(256B,280). Reasonable and necessary force - use of physical restraint or seclusion.
103.7(1) Physical restraint or seclusion is reasonable and necessary only:
   a. To prevent or terminate an imminent threat of bodily injury to the student or others; or
   b. To prevent serious damage to property of significant monetary value or significant nonmonetary value or importance; or
   c. When the student's actions seriously disrupt the learning environment or when physical restraint or seclusion is necessary to ensure the safety of the student and others; and
   d. When less restrictive alternatives to seclusion or physical restraint would not be effective, would not be feasible under the circumstances, or have failed in preventing or terminating the imminent threat or behavior; and
   e. When the physical restraint or seclusion complies with all the rules of this chapter.
103.7(2) If seclusion or physical restraint is utilized, the following provisions shall apply:
   a. The seclusion or physical restraint must be imposed by an employee who:
      (1) Is trained in accordance with rule 281-103.8(256B,280); or
      (2) Is otherwise available and a trained employee is not immediately available due to the unforeseeable nature of the occurrence.
   b. A school must attempt to notify the student's parent using the school's emergency contact system as soon as practicable after the situation is under control, but no later than one hour or the end of the school day, whichever occurs first.
   c. The seclusion or physical restraint must only be used for as long as is necessary, based on research and evidence, to allow the student to regain control of the student's behavior to the point that the threat or behavior necessitating the use of the seclusion or physical restraint has ended, or when a medical condition occurs that puts the student at risk of harm.

Unless otherwise provided for in the student's written, approved IEP, BIP, IHP, or safety plan, if the seclusion or physical restraint continues for more than 15 minutes:
   (1) The student shall be provided with any necessary breaks to attend to personal and bodily needs, unless doing so would endanger the child or others.
   (2) An employee shall obtain approval from an administrator or administrator's designee to continue the seclusion or physical restraint beyond 15 minutes. After the initial approval, an employee must obtain additional approval every 30 minutes thereafter for the continuation of the seclusion or physical restraint. Approval must be documented in accordance with rule 281-103.8(256B,280).
   (3) The student's parent and the school may agree to more frequent notifications than is required by this subrule.
(4) Schools and employees must document and explain in writing, as required by subrule 103.8(2), the reasons why it was not possible for them to obtain approval, notify parents, or take action under paragraphs 103.7(2)"b" and "c" within the prescribed time limits.
(5) Schools and employees who initiate and then end the use of nonapproved restraints must document and explain in writing the reasons why they had no other option but to use this type of behavioral intervention. This subparagraph is not intended to excuse or condone the use of nonapproved restraints.

d. The area of seclusion shall be a designated seclusion room that complies with the seclusion room requirements of rule 281-103.9(256B,280), unless the nature of the occurrence makes the use of the designated seclusion room impossible, clearly impractical, or clearly contrary to the safety of the student, others, or both; in that event, the school must document and explain in writing the reasons why a designated seclusion room was not used.

e. An employee must continually visually monitor the student for the duration of the seclusion or physical restraint.

f. An employee shall not use any physical restraint that obstructs the airway of the student.

g. If an employee restrains a student who uses sign language or an augmentative mode of communication as the student's primary mode of communication, the student shall be permitted to have the student's hands free of physical restraint, unless doing so is not feasible in view of the threat posed.

h. Seclusion or physical restraint shall not be used:
   -As punishment or discipline;
   -To force compliance or to retaliate;
   -As a substitute for appropriate educational or behavioral support;
   -To prevent property damage except as described in paragraph 103.7(1)"b";
   -As a routine school safety measure; or
   -As a convenience to staff.

103.7(3) An employee must document the use of the seclusion or physical restraint in accordance with rule 281-103.8(256B,280).

103.7(4) Nothing in this rule shall be construed as limiting or eliminating any immunity conferred by Iowa Code section 280.21, rule 281-103.11(256B,280), or any other provision of law.

103.7(5) An agency covered by this chapter shall investigate any complaint or allegation that one or more of its employees violated one or more provisions of this chapter. If an agency covered by this chapter determines that one or more of its employees violated one or more of the provisions of this chapter, the agency shall take appropriate corrective action. If any allegation involves a specific student, the agency shall transmit to the parents of the student the results of its investigation, including, to the extent permitted by law, any required corrective action.

103.7(6) If a child's IEP, BIP, IHP, or safety plan includes either or both physical restraint or seclusion measures, those measures must be individualized to the child; described with specificity in the child's IEP, BIP, IHP, or safety plan; and be reasonably calculated to enable the child to make progress appropriate in light of the child's circumstances.

103.7(7) These rules must be complied with whether or not a parent consents to the use of physical restraint or seclusion for the child.

103.7(8) If any alleged violation of this chapter is also an allegation of "abuse" as defined in rule 281-102.2(280), the procedures in 281-Chapter 102 shall be applicable.

103.7(9) Schools must provide a copy of this chapter and any school-adopted or school-used related policies, procedures and training materials to any individual who is not an employee but whose duties
could require the individual to participate in or be present when physical restraints are or seclusion is being used. Schools must invite these individuals to participate in training offered to employees pursuant to this chapter.

281-103.8(256B,280). Training, documentation, debriefing, and reporting requirements.

103.8(1) Training. An employee must receive training prior to using any form of physical restraint or seclusion. Training shall cover the following topics:

a. The rules of this chapter;
b. The school's specific policies and procedures regarding the rules of this chapter;
c. Student and staff debriefing requirements;
d. Positive behavior interventions and supports, and evidence-based approaches to student discipline and classroom management;
e. Research-based alternatives to physical restraint and seclusion;
f. Crisis prevention, crisis intervention, and crisis de-escalation techniques;
g. Duties and responsibilities of school resource officers and other responders, and the techniques, strategies and procedures used by responders; and
h. Safe and effective use of physical restraint and seclusion.

103.8(2) Documentation and reporting. Schools must maintain documentation for each occurrence of physical restraint and seclusion. Documentation must contain at least the following information:

a. The name of the student;
b. The names and job titles of employees who observed, implemented, or were involved in administering or monitoring the use of seclusion or physical restraints, including the administrator or individual who approved continuation of the seclusion or physical restraint pursuant to subparagraph 103.7(2)"c"(2);
c. The date of the occurrence;
d. The beginning and ending times of the occurrence;
e. The date the employees who observed, implemented, or were involved in administering or monitoring the use of seclusion or physical restraints last completed training required by subrule 103.8(1);
f. A description of the actions of the student before, during, and after the seclusion or physical restraint;
g. A description of the actions of the employee(s) involved before, during, and after the seclusion or physical restraint, including the use of a nonapproved restraint (subparagraph 103.7(2)"c"(5)) or the use of other than a designated seclusion room (paragraph 103.7(2)"d");
h. Documentation of approvals for continuation of the seclusion or physical restraint period generated in accordance with subrule 103.7(2), including why it was not possible to obtain approval;
i. A description of the less restrictive means attempted as alternatives to seclusion or physical restraint;
j. A description of any injuries, whether to the student or others, and any property damage;
k. A description of future approaches to address the student's behavior, including any consequences or disciplinary actions that may be imposed on the student; and
l. The time and manner by which the school notified the student's parent of the use of physical restraint or seclusion, including why it was not possible to attempt to give notice within the time specified by paragraph 103.7(2)"b."

Schools must provide the student's parent with a written copy of the report by the end of the third school day following the occurrence. The report shall be accompanied by a letter inviting the parent to participate in a debriefing meeting, if necessary under subrule 103.8(3), to be held within five school days of the day the report and letter are mailed to or provided to the parent. The letter must include the date, time and
place of the meeting and the names and titles of employees and other individuals who will attend the meeting. The parent may elect to receive the report and the letter via electronic mail or facsimile or by obtaining a copy at the school. If the parent does not provide instructions to the school or enter into an agreement with the school for alternate dates and methods of delivery, the school must mail the letter and report to the parent by first-class mail, postage prepaid, postmarked by end of the third school day after the occurrence.

103.8(3) Debriefing.

a. Schools must hold a debriefing meeting as soon as practicable whenever required by paragraph 103.8(3)"f," but within five school days of the day the report and letter are mailed or provided to the parent, unless a parent who wants to participate personally or through a representative asks for an extension of time, or the parent and school agree to an alternate date and time. The student may attend the meeting with the parent's consent. The parent may elect to be accompanied by other individuals or representatives. The meeting must include employees who administered the physical restraint or seclusion, an administrator or employee who was not involved in the occurrence, the individual or administrator who approved continuation of the physical restraint or seclusion, other relevant personnel designated by the school (such as principal, counselor, classroom teacher, special education teacher), and, if indicated by the student's behavior in the instances prompting the debriefing, an expert in behavioral health, mental health, or another appropriate discipline. The meeting, and the debriefing report that is to be provided to the parent after the meeting, must include the following information and subjects:

(1) The date and location of the meeting, and the names and titles of the participants;
(2) The documentation and report completed in compliance with subrule 103.8(2);
(3) A review of the student's BIP, IHP, safety plan, and IEP as applicable;
(4) Identification of patterns of behavior and proportionate response, if any, in the student and the employees involved;
(5) Determination of possible alternative responses to the incident/less restrictive means, if any;
(6) Identification of additional resources that could facilitate those alternative responses in the future;
(7) Planning for follow-up actions, such as behavior assessments, revisions of school intervention plans, medical consultations, and reintroduction plans.

b. Schools must complete the debriefing report and provide a copy of the report to the parent of the student within three school days of the debriefing meeting. The parent may elect to receive the report via electronic mail, or facsimile, or by obtaining a copy at the school. If the parent does not provide instructions to the school or enter into an agreement with the school for alternate dates and methods of delivery, the school must mail the debriefing report to the parent by first-class mail, postage prepaid, postmarked no later than three school days after the debriefing meeting.

c. If the debriefing session results in a recommendation that a child might be eligible for a BIP, IHP, safety plan, or IEP, the public agencies shall promptly determine the child's eligibility in accordance with the procedures required for determining eligibility, including rules contained in 281-Chapter 14 and 281-Chapter 41, as applicable.

d. Any recommended change to a student's BIP, IHP, safety plan, or IEP, or a student's educational placement, shall be made in accordance with the procedures required for amending said plan or changing said placement, including rules contained in 281-Chapter 14 and 281-Chapter 41, as applicable.

e. Nothing in this subrule shall be construed to require employers to include information about employees that would be legally protected personnel information, including employee disciplinary information under Iowa Code chapters 279 and 284, or to allow discussion of that personnel information, in debriefing meetings.
f. For purposes of this subrule, a debriefing session is required:
(1) Upon the first instance of seclusion or physical restraint during a school year;
(2) Whenever any personal injury occurs as a part of the use of seclusion or physical restraint;
(3) Whenever a reasonable educator would determine a debriefing session is necessary;
(4) Whenever suggested by a student's IEP team (if any);
(5) Whenever agreed by the parent and the school officials.

However, in any case a debriefing session shall occur after seven instances of seclusion or physical restraint. Nothing in this paragraph shall be construed to prevent a school from offering more debriefing meetings.

103.8(4) Confidentiality. Schools must comply with the requirements of the Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232.g; 34 CFR Part 99), Iowa Code chapter 22, "Examination of Public Records (Open Records)," and other applicable federal and state laws, when taking action pursuant to this rule.

103.8(5) Reporting to department. Schools shall report to the Iowa department of education, in a manner prescribed by the department, an annual count of all instances of seclusion or restraint, an annual count of the number of students who were subjected to seclusion or restraint, and any other data required for the department to implement the Elementary and Secondary Education Act, as amended by the Every Student Succeeds Act, Public Law 114-95.

281-103.9(256B,280). Seclusion room requirements.

Schools must meet the following standards for the structural and physical requirements for rooms used for seclusion:

103.9(1) The room must meet and comply with all applicable building, fire, safety, and health codes and standards and with the other requirements of this rule.

103.9(2) The dimensions of the room shall be of adequate width, length, and height to allow the student to move about and recline safely and comfortably, considering the age, size, and physical and mental condition of the student being secluded. The interior of the room must be no less than 56 square feet, and the distance between opposing walls must be no less than 7 feet across.

103.9(3) The room must not be isolated from school employees or the facility.

103.9(4) Any wall that is part of the room must be part of the structural integrity of the room (not free-standing cells or portable units attached to the existing wall or floor).

103.9(5) The room must provide a means of continuous visual and auditory monitoring of the student.

103.9(6) The room must be adequately lighted with switches to control lighting located outside the room.

103.9(7) The room must be adequately ventilated with switches to control fans or other ventilation devices located outside the room.

103.9(8) The room must maintain a temperature within the normal human comfort range and consistent with the rest of the building with temperature controls located outside of the room.

103.9(9) The room must be clean and free of objects and fixtures that could be potentially dangerous to a student, including protruding, exposed, or sharp objects, exposed pipes, electrical wiring, or other objects in the room that could be used by students to harm themselves or to climb up a wall.

103.9(10) The room must contain no free-standing furniture.

103.9(11) The room must be constructed of materials safe for its intended use, including wall and floor coverings designed to prevent injury to the student. Interior finish of the seclusion room shall comply with the state and local building and fire codes and standards.
103.9(12) Doors must open outward. The door shall not be fitted with a lock unless it releases automatically when not physically held in the locked position by personnel on the outside of the door and permits the door to be opened from the inside. Doors, when fully open, shall not reduce the required corridor width by more than seven inches. Doors in any position shall not reduce the required width by more than one-half.

103.9(13) The room must be able to be opened from the inside immediately upon the release of a security mechanism held in place by constant human contact.

103.9(14) Windows, if any, must be transparent and made of unbreakable or shatterproof glass or plastic.

103.9(15) By July 1, 2021, schools must consult with appropriate state and local building, fire, safety, and health officials to ensure the room complies with all applicable codes and standards (for example, heating, ventilation, lighting, accessibility, dimensions, access, entry and exit, fire suppression, etc.), and maintain documentation of such consultation and compliance and approval.

103.9(16) Assuming approval pursuant to subrule 103.9(15), a school may continue to use a room that otherwise complies with this rule but for subrule 103.9(2) for a period of five years from January 20, 2021, or whenever the portion of the school containing the room is renovated or remodeled, whichever occurs first.

281-103.10(256B,280). Department responsibilities.
The department shall develop, establish, and distribute to all school districts evidence-based standards, guidelines, and expectations for the appropriate and inappropriate responses to behavior in the classroom that presents an imminent threat of bodily injury to a student or another person and for the reasonable, necessary, and appropriate physical restraint of a student, consistent with these rules.
The director of the department shall consult with the area education agencies to create comprehensive and consistent standards and guidance for professional development relating to successfully educating individuals in the least restrictive environment, and for evidence-based interventions consistent with the standards established pursuant to this subsection.

281-12.3(13). Policy declaring harassment and bullying against state and school policy.
12.3(6) Student responsibility and discipline. The board shall adopt student responsibility and discipline policies as required by Iowa Code section 279.8. The board shall involve parents, students, instructional and noninstructional professional staff, and community members in the development and revision of those policies where practicable or unless specific policy is mandated by legislation. LAWS

299.5A. Mediation.
1. If a child is truant as defined in section 299.8, school officers shall attempt to find the cause for the child's absence and use every means available to the school to assure that the child does attend. For a child who has completed educational requirements through the sixth grade, the means may include but are not limited to the use of an attendance cooperation process which substantially conforms with the provisions of section 299.12. If the parent, guardian, or legal or actual custodian, or child refuses to
accept the school's attempt to assure the child's attendance or the school's attempt to assure the
child's attendance is otherwise unsuccessful, the truancy officer shall refer the matter to the county
attorney for mediation or prosecution.

2. If the matter is referred for mediation, the county attorney shall cause a notice of the referral to be sent
to the parent, guardian, or legal or actual custodian and designate a person to serve as mediator in the
matter. If mediation services are available in the community, those services may be used as the
designated mediation service. If mediation services are not available in the community, mediation shall
be provided by the county attorney or the county attorney's designee. The mediator shall contact the
school, the parent, guardian, or legal or actual custodian, and any other person the mediator deems
appropriate in the matter and arrange meeting dates and times for discussion of the child's
nonattendance. The mediator shall attempt to ascertain the cause of the child's nonattendance, attempt
to cause the parties to arrive at an agreement relative to the child's attendance, and initiate referrals to
any agencies or counseling that the mediator believes to be appropriate under the circumstances.

3. If the parties reach an agreement, the agreement shall be reduced to writing and signed by a school
officer, parent, guardian, or legal or actual custodian, and the child. The mediator, the school, and the
parent, guardian, or legal or actual custodian shall each receive a copy of the agreement, which shall
set forth the settlement of the issues and future responsibilities of each party.

4. The school district shall be responsible for monitoring any agreements arrived at through mediation. If
a parent, guardian, or legal or actual custodian refuses to engage in mediation or violates a term of the
agreement, the matter shall be rereferred to the county attorney for prosecution under section 299.6.
The county attorney's office or the mediation service shall require the parent, guardian, or legal or actual
custodian and the school to pay a fee to help defray the administrative cost of mediation services. The
county attorney's office or the mediation service shall establish a sliding scale of fees to be charged
parents, guardians, and legal or actual custodians based upon ability to pay. A parent, guardian, or legal
or actual custodian shall not be denied the services of a mediator solely because of inability to pay the
fee.

5. The mediator may refer a truant to the juvenile court if mediation breaks down without an
agreement being reached.

"Truant" defined.

Any child of compulsory attendance age who fails to attend school as provided in this chapter, or as
required by the school board's or school governing body's attendance policy, or who fails to attend
competent private instruction or independent private instruction under chapter 299A, without reasonable
excuse for the absence, shall be deemed to be a truant. A finding that a child is truant, however, shall not
by itself mean that the child is a child in need of assistance within the meaning of chapter 232 and shall
not be the sole basis for a child in need of assistance petition.

Truants - rules for punishment.

The board of directors of a public school district or the authorities in charge of an accredited nonpublic
school shall prescribe reasonable rules for the punishment of truants.

232.191. Early intervention and follow-up programs.

2. Develop or expand a school-based program addressing truancy and school behavioral problems for
youth ages twelve through seventeen.

280.25. Information sharing - interagency agreements.

2. The purpose of the agreement shall be to reduce juvenile crime by promoting cooperation and
 collaboration and the sharing of appropriate information among the parties in a joint effort to improve
 school safety, reduce alcohol and illegal drug use, reduce truancy, reduce in-school and out-of-school
 suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions
which provide structured and well-supervised educational programs supplemented by coordinated and appropriate services designed to correct behaviors that lead to truancy, suspension, and expulsions and to support students in successfully completing their education.

**Truancy officers - appointment.**

The board of each school district may appoint a truancy officer. The board of each school district, which does not appoint a truancy officer for the district, shall designate a suitable person to collect information on the numbers of children in the district who are truant.

The board may appoint a member of the police force, marshal, teacher, school official, or other suitable person to serve as the district truancy officer.

**Duties of truancy officer.**

1. The truancy officer may take into custody without warrant any apparently truant child and place the child in the charge of the school principal, or the principal's designee, designated by the board of directors of the school district in which the child resides, or in the charge of any nonpublic school or any authority providing competent private instruction or independent private instruction as defined in section 299A.1, designated by the parent, guardian, or legal or actual custodian; but if it is other than a public school, the instruction and maintenance of the child shall be without expense to the school district. If a child is taken into custody under this section, the truancy officer shall make every reasonable attempt to immediately notified the parent, guardian, or legal or actual custodian of the child's location.

2. The truancy officer shall promptly institute proceedings against any person violating any of the provisions of sections 299.1 through 299.5A.

**Violation of attendance policy - attendance cooperation meeting - agreement.**

1. For the purposes of this section, "school truancy officer" means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.

2. This section is not applicable to a child who is receiving competent private instruction or independent private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance with the attendance requirements established under section 299.1, and has not completed educational requirements through the sixth grade, and the school has used every means available to assure the child does attend, the school truancy officer shall contact the child's parent, guardian, or legal or actual custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation meeting may include the child and shall include the child's parent, guardian, or legal or actual custodian and the school truancy officer. The school truancy officer contacting the participants in the attendance cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney or the county attorney's designee, or other persons deemed appropriate to participate in the attendance cooperation meeting.

3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to attempt to ascertain the cause of the child's nonattendance, to cause the parties to arrive at an agreement relative to addressing the child's attendance, and to initiate referrals to any services or counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall be reduced to writing in an attendance cooperation agreement and signed by the parties to the agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth the cause identified for the child's nonattendance and future responsibilities of each party.

4. If the parties to an attendance cooperation meeting determine that a monitor would improve compliance with the attendance cooperation agreement, the parties may designate a person to monitor the agreement. The monitor shall be a designee of the public school board or governing body of the accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to the agreement and receives a written authorization for access to confidential information and for
performing monitor activities from the child’s parent, guardian, or custodian. A monitor shall contact parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor performance of the agreement.

5. If the parties fail to enter into an attendance cooperation agreement, or the child’s parent, guardian, or custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate in an attendance cooperation meeting, the child shall be deemed to be truant.

6. A public school board or governing body of an accredited nonpublic school shall exercise the authority granted under this section as a means of increasing and ensuring school attendance of young children, as education is a critical element in the success of individuals and good attendance habits should be developed and reinforced at an early age.

299.15. Reports by school officers and employees.

All school officers and employees shall promptly report to the secretary of the school corporation any violations of the truancy law of which they have knowledge, and the § 299.15, secretary shall inform the president of the board of directors who shall, if necessary, call a meeting of the board to take such action thereon as the facts justify.

Review criteria and a point system are contained in guidelines for school-based youth services programs.

280.24. Procedures for reporting drug or alcohol possession or use.
The board of directors of each public school and the authorities in charge of each accredited nonpublic school shall prescribe procedures to report any use or possession of alcoholic liquor, wine, or beer or any controlled substance on school premises to local law enforcement agencies, if the use or possession is in violation of school policy or state law. Intervention in altercations.
2. A person who is not an employee of a public school district, accredited nonpublic school, or area education agency may intervene in a fight or physical struggle occurring among students, or between students and nonstudents, that takes place in the presence of the nonemployee in a school building, on school premises, or at any school function or school-sponsored activity regardless of its location. The intervention may occur in the absence of an employee of a public school district, accredited nonpublic school, or area education agency, or at the request of such an employee, utilizing the degree and force of intervention reasonably necessary to restore order and protect the safety of the individuals involved in the altercation and others in the vicinity of the altercation. The board and the authorities shall make a copy of the policy available to all school employees, volunteers, students, and parents or guardians and shall take all appropriate steps to bring the policy against harassment and bullying and the responsibilities set forth in the policy to the attention of school employees, volunteers,
students, and parents or guardians. Each policy shall, at a minimum, include all of the following components:

  e. A procedure for reporting an act of harassment or bullying, including the identification by job title of the school official responsible for ensuring that the policy is implemented, and the identification of the person or persons responsible for receiving reports of harassment or bullying.

299.15. Reports by school officers and employees.
All school officers and employees shall promptly report to the secretary of the school corporation any violations of the truancy law of which they have knowledge, and the § 299.15, secretary shall inform the president of the board of directors who shall, if necessary, call a meeting of the board to take such action thereon as the facts justify.

Each policy shall, at a minimum, include all of the following components:

The notification shall not identify, directly or indirectly, any students involved in the incident giving rise to the classroom clearance. The principal of the school shall request that the parent or guardian of the student whose behavior caused the classroom clearance meet with the principal, the classroom teacher, and other staff as appropriate.

Duties of truancy officer.
1. The truancy officer may take into custody without warrant any apparently truant child and place the child in the charge of the school principal, or the principal's designee, designated by the board of directors of the school district in which the child resides, or in the charge of any nonpublic school or any authority providing competent private instruction or independent private instruction as defined in section 299A.1, designated by the parent, guardian, or legal or actual custodian; but if it is other than a public school, the instruction and maintenance of the child shall be without expense to the school district. If a child is taken into custody under this section, the truancy officer shall make every reasonable attempt to immediately notify the parent, guardian, or legal or actual custodian of the child's location.

The parties to the attendance cooperation meeting may include the child and shall include the child's parent, guardian, or legal or actual custodian and the school truancy officer. The school truancy officer contacting the participants in the attendance cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney or the county attorney's designee, or other persons deemed appropriate to participate in the attendance cooperation meeting.

2. School officials may conduct periodic inspections of all, or a randomly selected number of, school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student. The furnishing of a school locker, desk, or other facility or space owned by the school and provided as a courtesy to a student shall not create a protected student area, and shall not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. Allowing students to use a separate lock on a locker, desk, or other facility or space owned by the school and provided to the student shall also not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. However, each year when school begins, the school district shall provide written notice to all students and the students' parents, guardians, or legal custodians, that school officials may conduct periodic inspections of school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student without prior notice. The student may attend the meeting with the parent's consent. The parent may elect to be accompanied by other individuals or representatives. The meeting must include employees who administered the physical restraint or seclusion, an administrator or employee who was not involved in the occurrence, the individual or administrator who approved continuation of the physical restraint or seclusion, other relevant personnel designated by the school (such as principal, counselor, classroom teacher, special education teacher), and, if indicated by the student's behavior in the instances prompting the debriefing, an expert in behavioral health, mental health, or another appropriate discipline. Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

91-42-4. Parent notification; required meeting; filing a complaint.

(a) When an emergency safety intervention is used with a student, the school shall notify the parent the same day the emergency safety intervention was used. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contact. A parent may designate a preferred method of contact to receive the same-day notification required by this subsection. A parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

(b) The school shall provide written documentation of the emergency safety intervention used to the parent no later than the school day following the day on which the emergency safety intervention was used. This documentation shall include the following:

Schools may group incidents together when documenting the items in paragraphs (b)(5) through (7) if the triggering issue necessitating the emergency safety interventions is the same.

(c) In addition to the documentation required by subsection (b), the school shall provide the parent the following information:

(1) After the first incident in which an emergency safety intervention is used with a student during the school year, the school shall provide the following information in printed form to the parent or, upon the parent's written request, by email:

   (A) A copy of the standards of when emergency safety interventions can be used;
   (B) a flyer on the parent's rights;
   (C) information on the parent's right to file a complaint through the local dispute resolution process and the complaint process of the state board of education; and
   (D) information that will assist the parent in navigating the complaint process, including contact information for the parent training and information center and protection and advocacy system.

(2) After subsequent incidents in which an emergency safety intervention is used with a student during the school year, the school shall provide a full and direct web site address containing the information in paragraph (c)(1).

(d) After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request the meeting verbally, in writing or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the date on which the parent sent the request. The focus of any meeting convened under this subsection shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

(1) For a student who has an individualized education program or a section 504 plan, the student's individualized education program team or section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral analysis, develop a behavior intervention plan, or amend either if already in existence.

(2) For a student with a section 504 plan, the student's section 504 plan team shall discuss and consider the need for an evaluation under the special education for exceptional children act, K.S.A. 72-961 et seq., and amendments thereto.

(3) For a student who has an individualized education program and is placed in a private school by a parent, a meeting called under this subsection shall include the parent and the designee of the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate the meeting.

(4) For a student who does not have an individualized education program or section 504 plan, the parent and school shall discuss the incident and consider the appropriateness of a referral for an evaluation under the special education for exceptional children act, K.S.A. 72-961 et seq. and
amendments thereto, the need for a functional behavioral analysis, or the need for a behavior intervention plan. Each meeting called pursuant to this subsection shall include the student's parent, a school administrator for the school where the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for the meeting.

(5) The parent shall determine whether the student shall be invited to any meeting called pursuant to this subsection.

(6) The time for calling a meeting pursuant to this subsection shall be extended beyond the 10-school-day limit if the parent of the student is unable to attend within that time period.

(7) Nothing in this subsection shall be construed to prohibit the development and implementation of a functional behavioral analysis or a behavior intervention plan for any student if the student could benefit from such measures.

(e) If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint or mechanical restraint on a student on school grounds or during a school-sponsored activity, the school shall notify the parent on the same day the school becomes aware of the use, using the parent's preferred method of contact as described in K.A.R. 91-42-4(a). A school shall not be required to provide written documentation to a parent, as set forth in subsection (b) or (c) regarding law enforcement use of an emergency safety intervention, or report to the department law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

(f) If a parent believes that emergency safety interventions have been used in violation of this article or policies of the school district, then within 30 days from being informed of the use of emergency safety intervention, the parent may file a complaint through the local dispute resolution process. Any parent may request an administrative review by the state board within 30 days from the date the final decision was issued pursuant to the local dispute resolution process.

91-42-5. Administrative review.

(a) Any parent who filed a written complaint with a local board regarding the use of emergency safety intervention may request an administrative review by the state board of the local board's final decision.

(b) Each parent seeking administrative review shall provide the following information in the request:

(1) The name of the student and the student's contact information;

(2) the name and contact information, to the extent known, for all involved parties, including teachers, aides, administrators, and district staff;

(3) a detailed statement of the basis for seeking administrative review, with all supporting facts and documentation. The documentation shall include a copy of the complaint filed with the local board and shall include the local board's final decision, if issued. The request shall be legibly written or typed and shall be signed by the parent. Relevant written instruments or documents in the possession of the parent shall be attached as exhibits or, if unavailable, referenced in the request for administrative review; and

(4) written consent to disclose any personally identifiable information from the student's education records necessary to conduct an investigation pursuant to this regulation.

(c)(1) Each request for administrative review shall be filed with the commissioner within 30 days from the date a final decision is issued pursuant to the local dispute resolution process or, if a final decision is not issued, within 60 days from the date a written complaint was filed with the local board.

(2) The hearing officer shall forward a copy of the request for administrative review to the clerk of the local board from whom the administrative review is sought.
(d) Upon receipt of each request for administrative review, the hearing officer shall consider the
local board's final decision and may initiate its own investigation of the complaint. Any investigation
may include the following:

(1) A discussion with the parent, during which additional information may be gathered and
specific allegations identified, verified, and recorded;

(2) contact with the local board or other district staff against which the request for administrative
review is filed to allow the local board to respond to the request with facts and information supporting
the local board's final decision; and

(3) an on-site investigation by department officers or employees.

(e) If the hearing officer receives information that the hearing officer determines was not previously made
available to both parties during the local board dispute resolution process, the hearing officer may
remand the issue back to the local board. The local board then has 30 days to issue a written amended
final decision.

Upon remand, the hearing officer's case will be closed. All rights to and responsibilities of an
administrative review shall begin again when the local board's amended final decision is issued or upon
30 days from when the hearing officer's remand is issued, whichever occurs first.

(f) Within 60 days of the commissioner's receipt of the request for administrative review, the hearing
officer shall inform the parent, the school's head administrator, the district superintendent, the local
board clerk, and the state board in writing of the results of the administrative review. This time frame
may be extended for good cause upon approval of the commissioner.

(g) The results of the administrative review shall contain findings of fact, conclusions of law, and, if
needed, suggested corrective action. The hearing officer shall determine whether the district is in violation
of this article based solely on the information obtained by the hearing officer during the course of the
investigation and the administrative review process. This determination shall include one of the following:

(1) The local board appropriately resolved the complaint pursuant to its dispute resolution process.

(2) The local board should reevaluate the complaint pursuant to its dispute resolution process
with suggested findings of fact.

(3) The hearing officer's suggested corrective action is necessary to ensure that local board
policies meet the requirements of law.

(h) Nothing in this regulation shall require exhaustion of remedies under this regulation before
using procedures or seeking remedies that are otherwise available.

(b) Campus police officers and school resource officers shall be exempt from the requirements of
this article when engaged in an activity that has a legitimate law enforcement purpose.

(c) School security officers shall not be exempt from the requirements of this article.

(a) Each district shall report information from all incidents of emergency safety interventions that the
department deems necessary to the department by the date and in the form specified by the department.

(b) The department shall compile reports from schools on the use of emergency safety interventions and
provide the results based on aggregate data on the department web site and to the state board, the
governor and the committees on education in the senate and the house of representatives by January
20, 2016, and annually thereafter. The department's reported results shall include but shall not be limited
to the following information:

(1) The number of incidents in which emergency safety interventions were used on students who
have an individualized education program;
(2) the number of incidents in which emergency safety interventions were used on students who have a section 504 plan;
(3) the number of incidents in which emergency safety interventions were used on students who do not have an individualized education program or a section 504 plan;
(4) the total number of incidents in which emergency safety interventions were used on students;
(5) the total number of students with behavior intervention plans subjected to an emergency safety intervention;
(6) the number of students physically restrained;
(7) the number of students placed in seclusion;
(8) the maximum and median number of minutes a student was placed in seclusion;
(9) the maximum number of incidents in which emergency safety interventions were used on a student;
(10) the information reported under paragraphs (c)(1) through (c)(3) reported by school to the extent possible;
(11) the information reported under paragraphs (c)(1) through (c)(9) aggregated by age, ethnicity, gender and eligibility for free and reduced lunch of the students on a statewide basis; and
(12) any other information that the department deems necessary to report.

(c) Actual data values shall be used when providing statewide aggregate data for the reports.

Due Process

LAWS

72-6115. Duration of suspension or expulsion; notice; hearings, opportunity afforded, waiver, time, who may conduct.
(b)(1) Except as authorized in provision (2), no suspension for a short term shall be imposed upon a pupil without giving the pupil notice of the charges and affording the pupil an opportunity for a hearing thereon. The notice may be oral or written and the hearing may be held immediately after the notice is given. The hearing may be conducted informally but shall include the following procedural due process requirements:
(A) The right of the pupil to be present at the hearing; (B) the right of the pupil to be informed of the charges; (C) the right of the pupil to be informed of the basis for the accusation; and (D) the right of the pupil to make statements in defense or mitigation of the charges or accusations. Refusal of a pupil to be present at the hearing will constitute a waiver of the pupil's opportunity for a hearing.
(2) A short-term suspension may be imposed upon a pupil forthwith, and without affording the pupil a hearing if the presence of the pupil endangers other persons or property or substantially disrupts, impedes or interferes with the operation of the school.
(c) A written notice of any short-term suspension and the reason therefor shall be given to the pupil involved and to the pupil's parent or guardian within 24 hours after the suspension has been imposed and, in the event the pupil has not been afforded a hearing prior to any short-term suspension, an opportunity for an informal hearing shall be afforded the pupil as soon thereafter as practicable but in no event later than 72 hours after such short-term suspension has been imposed. Any notice of the imposition of a short-term suspension that provides an opportunity for an informal hearing after such suspension has been imposed shall state that failure of the pupil to attend the hearing will result in a waiver of the pupil's opportunity for a hearing.
(d) No suspension for an extended term and no expulsion shall be imposed upon a pupil until an opportunity for a formal hearing thereon is afforded the pupil. A written notice of any proposal to suspend for an extended term or to expel from school, and the charges upon which the proposal is based shall be given to the pupil proposed to be suspended or expelled from school, and to the pupil's parent or guardian. Any notice of a proposal to suspend for an extended term or to expulsion from school shall state the time, date and place that the pupil will be afforded an opportunity for a formal hearing, and that failure of the pupil and the pupil's parent or guardian to attend the hearing will result in a waiver of the pupil's opportunity for the hearing. The hearing shall be held not later than 10 days after the date of the notice. The notice shall be accompanied by a copy of this act and the regulations of the board of education adopted under K.S.A. 72-8903, and amendments thereto.
(e) Whenever any written notice is required under this act to be given to a pupil or to a pupil's parent or guardian, it shall be sufficient if the notice is mailed to the address on file in the school records of the pupil. In lieu of mailing the written notice, the notice may be personally delivered.

(f) A formal hearing on a suspension or expulsion may be conducted by any person or committee of persons authorized by the board of education to conduct the hearing.

72-6116. Procedural due process requirements; record of appeal, costs; report of findings and result of hearing; information regarding behavior improvement programs.

(a) The formal hearing provided for in K.S.A. 72-8902, and amendments thereto, shall be conducted in accordance with regulations relating thereto adopted by the board of education.

Such regulations shall afford procedural due process including, but not limited to, the following:

1. The right of the pupil to have counsel of the pupil's own choice present and to receive the advice of such counsel or other person whom the pupil may select;
2. The right of the parents or guardians of the pupil to be present at the hearing;
3. The right of the pupil and the pupil's counsel or advisor to hear or read a full report of testimony of witnesses against the pupil;
4. The right of the pupil and the pupil's counsel to confront and cross-examine witnesses who appear in person at the hearing, either voluntarily or as a result of the issuance of a subpoena;
5. The right of the pupil to present the pupil's own witnesses in person or their testimony by affidavit;
6. The right of the pupil to testify in the pupil's own behalf and give reasons for the pupil's conduct;
7. The right of the pupil to have an orderly hearing; and
8. The right of the pupil to a fair and impartial decision based on substantial evidence.

(b) In all extended-term suspension and expulsion from school cases, there shall be made a record of the hearing of an appeal of the suspension or expulsion, whichever is applicable, by mechanical or electronic recording or by an official court reporter, and the costs thereof shall be paid by the school district.

(c) At the conclusion of a formal hearing which results in a suspension for an extended term or an expulsion, the person or committee conducting the hearing shall make a written report of the findings and results of the hearing.

The report shall be directed to the board of education of the school district and shall be open to the inspection of the pupil who is suspended or expelled and, if the pupil is a juvenile, to the parents or guardians and counsel or other advisor of the pupil.

If the pupil is an adult, the report shall be open to the inspection of the parents or guardians and counsel or other advisor of the pupil only upon written consent of the pupil.

Whenever a formal hearing results in suspension for an extended term or expulsion, the person or committee conducting the hearing may make a finding that return to school by the pupil, pending appeal or during the period allowed for notice of appeal, is not reasonably anticipated to endanger the safety of others, to cause continuing repeated material disorder, disruption or interference with the operation of school, or to substantially or materially impinge upon or invade the rights of others, in which case the pupil may return to school until the period for filing a notice of appeal has expired with no notice filed, or until the determination of any appeal if a notice of appeal is filed.

Whenever the person or committee conducting a hearing fails to make the findings specified above, the report of the hearing shall provide that the suspension or expulsion of the pupil shall continue until appeal therefrom is determined or until the period of suspension or expulsion has expired, whichever occurs sooner.
Any such pupil shall be provided with information concerning services or programs offered by public and private agencies that work toward improving those aspects of the pupil's attitudes and behavior that contributed to the conduct upon which the suspension or expulsion was based.

If the pupil is a juvenile, the information shall also be provided to the parents or guardians of the pupil.

72-6117. Notice of hearing results; appeal to board of education; hearing officers; procedure.
(b) Any pupil, age 18 or older, who has been suspended for an extended term or expelled, or one of the pupil's parents or guardians of a pupil under age 18, may appeal such suspension or expulsion to the board of education of the school district by filing a written notice of appeal with the clerk of the board of education not later than 10 calendar days after receiving the written notice. Any such appeal shall be heard by the board of education, or by a hearing officer appointed by such board, not later than 20 calendar days after such notice of appeal is filed. The pupil and the pupil's parents or guardians shall be notified in writing of the time and place of the appeal hearing at least five days prior thereto. Such appeal shall be conducted under rules which are consonant with K.S.A. 72-8903, and amendments thereto. Except as provided by subsection (c), the decision on any such appeal shall be rendered not later than five days after the conclusion of the appeal hearing.
(c) For the purpose of hearing an appeal of an extended-term suspension or an expulsion, the board of education may appoint one or more hearing officers. Any such hearing officer shall be a member of the board of education, a certificated employee of the school district, or an attorney admitted to the practice of law in this state. Any such appointment shall apply to a particular hearing or to a set or class of hearings as specified by the board of education in making the appointment. Whenever a hearing officer appointed under authority of this section hears any appeal, the hearing officer shall prepare a written report thereon to the board of education. After receiving any such report, the board of education shall determine the matter with or without additional hearing. If a hearing officer is appointed to hear an appeal, the board shall render its decision not later than the next regularly-scheduled meeting of the board following the date of the conclusion of the hearing of the appeal by the hearing officer. Any matter determined by the board of education in accordance with this subsection shall be valid to the same extent as if the matter were fully heard by the board of education without a hearing officer.

72-6119. Powers and duties of persons conducting hearings.
(a) Any person, hearing officer or any member of a committee or the board of education conducting a hearing under this act may:
   (1) Administer oaths for the purpose of taking testimony;
   (2) call and examine witnesses and receive documentary and other evidence; and
   (3) take any other action necessary to make the hearing accord with procedural due process.

(a) Each board of education shall designate one or more employees who shall report to the secretary for children and families, or a designee thereof, or to the appropriate county or district attorney pursuant to an agreement as provided in this section, all cases of children who are less than 13 years of age and are not attending school as required by law, and to the appropriate county or district attorney, or a designee thereof, all cases of children who are 13 or more years of age but less than 18 years of age and are not attending school as required by law. If such agreement is made, the county or district attorney shall carry out all duties as otherwise provided by this subsection conferred on the secretary or the secretary's designee. A copy of such agreement shall be provided to the director of such area office of the Kansas department for children and families and to the school districts affected by the agreement.

(b) Whenever a child is required by law to attend school, and the child is not enrolled in a public or nonpublic school, the child shall be considered to be not attending school as required by law and a report thereof shall be made in accordance with the provisions of subsection (a) by a designated
employee of the board of education of the school district in which the child resides. The provisions of this subsection are subject to the provisions of subsection (d).

(c)(1) Whenever a child is required by law to attend school and is enrolled in school, and the child is inexcusably absent therefrom on either three consecutive school days or five school days in any semester or seven school days in any school year, whichever of the foregoing occurs first, the child shall be considered to be not attending school as required by law. A child is inexcusably absent from school if the child is absent therefrom all or a significant part of a school day without a valid excuse acceptable to the school employee designated by the board of education to have responsibility for the school attendance of such child.

(2) Each board of education shall adopt rules for determination of valid excuse for absence from school and for determination of what shall constitute a "significant part of a school day" for the purpose of this section.

(3) Each board of education shall designate one or more employees, who shall each be responsible for determining the acceptability and validity of offered excuses for absence from school of specified children, so that a designee is responsible for making such determination for each child enrolled in school.

(4) Whenever a determination is made in accordance with the provisions of this subsection that a child is not attending school as required by law, the designated employee who is responsible for such determination shall make a report thereof in accordance with the provisions of subsection (a), provided that the report would not violate the terms of the memorandum of understanding approved by the superintendent of the school district pursuant to K.S.A. 72-89b03(i), and amendments thereto.

The notice shall inform the parent or person acting as parent that continued failure of the child to attend school without a valid excuse will result in a report being made to the secretary for children and families or to the county or district attorney. Upon failure, on the school day next succeeding personal delivery of the notice or within three school days after the notice was mailed, of attendance at school by the child or of an acceptable response, as determined by the designated employee, to the notice by a parent or person acting as parent of the child, the designated employee shall make a report thereof in accordance with the provisions of subsection (a). The designated employee shall submit with the report a certificate verifying the manner in which notice was provided to the parent or person acting as parent.

(2) Whenever a law enforcement officer assumes temporary custody of a child who is found away from home or school without a valid excuse during the hours school is actually in session, and the law enforcement officer delivers the child to the school in which the child is enrolled or to a location designated by the school in which the child is enrolled to address truancy issues, the designated employee of the board of education shall serve notice thereof upon a parent or person acting as parent of the child. The notice may be oral or written and shall inform the parent or person acting as parent of the child that the child was absent from school without a valid excuse and was delivered to school by a law enforcement officer.

(e) Whenever the secretary for children and families receives a report required under this section, the secretary shall investigate the matter. If, during the investigation, the secretary determines that the reported child is not attending school as required by law, the secretary shall institute proceedings under the revised Kansas code for care of children. If, during the investigation, the secretary determines that a criminal prosecution should be considered, the secretary shall make a report of the case to the appropriate law enforcement agency.
(f) Whenever a county or district attorney receives a report required under this section, the county or
district attorney shall investigate the matter. If, during the investigation, the county or district
attorney determines that the reported child is not attending school as required by law, the county or
district attorney shall prepare and file a petition alleging that the child is a child in need of care. If,

school attendance problems. If more than one board of education is participating in a school attendance
review board, the superintendent of schools of the school district having the most pupils shall convene

resources and programs where none exist.

72-3135. Referral of students; notice; resolving the problem.
(a) If a pupil is required by law to attend school and is irregular in attendance at school, the pupil may be
referred to the school attendance review board. Each board of education shall designate one or more
employees to make such referrals. Upon making a referral, the employee shall notify the pupil and the
pupil's parents or guardians, in writing, of the name and address of the school attendance review board
and of the reason for the referral. The notice shall indicate that the pupil and parents or guardians of the
pupil will be required, along with the referring person, to meet with the school attendance review board to
consider a proper disposition of the referral.

(b) If the school attendance review board determines that available community services can resolve the
problem of the referred pupil, the board shall direct the pupil or the pupil's parents or guardians, or both,
to make use of those community services. The school attendance review board may require, at such
time as it determines proper, the pupil or parents or guardians of the pupil, or both, to furnish satisfactory
evidence of participation in the available community services.

(c) If the school attendance review board determines that available community services cannot resolve
the problem of the referred pupil or if the pupil or the pupil's parents or guardians, or both, have failed
to respond to directives of the school attendance review board or to services provided, the school
attendance review board may notify the secretary for children and families or the appropriate county or
district attorney. If the case is referred to the district court, the school attendance review board shall
submit to the district court documentation of efforts to secure attendance as well as the board's
recommendations on what action the district court shall take in order to bring about proper disposition

(d)(1) Prior to making any report under this section that a child is not attending school as required by law, the designated employee of the board of education shall serve written notice thereof, by personal delivery or by first class mail, upon a parent or person acting as parent of the child. The notice shall inform the parent or person acting as parent that continued failure of the child to attend school without a valid excuse will result in a report being made to the secretary for children and families or to the county or district attorney. Upon failure, on the school day next succeeding personal delivery of the notice or within three school days after the notice was mailed, of attendance at school by the child or of an acceptable response, as determined by the designated employee, to the notice by a parent or person acting as parent of the child, the designated employee shall make a report thereof in accordance with the provisions of subsection (a). The designated employee shall submit with the report a certificate verifying the manner in which notice was provided to the parent or person acting as parent.

(2) A short-term suspension may be imposed upon a pupil forthwith, and without affording the pupil a hearing if the presence of the pupil endangers other persons or property or substantially disrupts, impedes or interferes with the operation of the school.
(c) A written notice of any short-term suspension and the reason therefor shall be given to the pupil involved and to the pupil's parent or guardian within 24 hours after the suspension has been imposed and, in the event the pupil has not been afforded a hearing prior to any short-term suspension, an opportunity for an informal hearing shall be afforded the pupil as soon thereafter as practicable but in no event later than 72 hours after such short-term suspension has been imposed. Any notice of the imposition of a short-term suspension that provides an opportunity for an informal hearing after such suspension has been imposed shall state that failure of the pupil to attend the hearing will result in a waiver of the pupil's opportunity for the hearing.

(d) No suspension for an extended term and no expulsion shall be imposed upon a pupil until an opportunity for a formal hearing thereon is afforded the pupil. A written notice of any proposal to suspend for an extended term or to expel from school, and the charges upon which the proposal is based shall be given to the pupil proposed to be suspended or expelled from school, and to the pupil's parent or guardian. Any notice of a proposal to suspend for an extended term or to expel from school shall state the time, date and place that the pupil will be afforded an opportunity for a formal hearing, and that failure of the pupil and the pupil's parent or guardian to attend the hearing will result in a waiver of the pupil's opportunity for the hearing. The hearing shall be held not later than 10 days after the date of the notice. The notice shall be accompanied by a copy of this act and the regulations of the board of education adopted under K.S.A. 72-8903, and amendments thereto.

Kentucky
Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer's knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2023. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

Grounds for Suspension or Expulsion

LAWS

KRS 158.150. Suspension or expulsion of students – Placement into alternative program option.

(1) All students admitted to the common schools shall comply with the lawful regulations for the government of the schools:

(a) Willful disobedience or defiance of the authority of the teachers or administrators, use of profanity or vulgarity, assault or battery or abuse of other students, the threat of force or violence, the use or possession of alcohol or drugs, stealing or destruction or defacing of school property or personal property of students, the carrying or use of weapons or dangerous instruments, or other incorrigible bad conduct on school property, as well as off school property at school-sponsored activities, constitutes cause for suspension or expulsion from school; and

(b) Assault or battery or abuse of school personnel; stealing or willfully or wantonly defacing, destroying, or damaging the personal property of school personnel on school property, off school property, or at school-sponsored activities constitutes cause for suspension or expulsion from school.

(2)(a) Each local board of education shall adopt a policy requiring the expulsion from school for a period of at least 12 months for a student who:

1. Is determined by the board through clear and convincing evidence to have made threats that pose a danger to the well-being of students, faculty, or staff of the district; or

2. Is determined by the board to have brought a weapon to a school under its jurisdiction. In determining whether a student has brought a weapon to school, a local board of education shall use the definition of "unlawful possession of a weapon on school property" stated in KRS 527.070.

(b) The board shall also adopt a policy requiring disciplinary actions, up to and including expulsion from school, for a student who is determined by the board to have:

1. Possessed prescription drugs or controlled substances for the purpose of sale or distribution at a school under the board's jurisdiction; or

2. Physically assaulted or battered or abused educational personnel or other students at a school or school function under the board's jurisdiction; or.

3. Physically assaulted, battered, or abused educational personnel or other students off school property and the incident is likely to substantially disrupt the educational process.

(3)(a) The board may modify the expulsion requirement and length for students on a case-by-case basis, except the length of expulsion shall at least be twelve(12) months for a violation set forth in subsection (2)(a) of this section.

(b) Nothing in this section shall prohibit a board from expelling a student for longer than twelve(12) months.

(c) A board that has expelled a student from the student's regular school setting shall provide or ensure that educational services are provided to the student in an appropriate alternative program or setting, unless the board has made a determination, on the record, supported by clear and convincing evidence, that the expelled student posed a threat to the safety of other students or school staff and could not be placed into a state-funded agency program. Behavior which constitutes a threat shall include but not be limited to the physical assault, battery, or abuse of others; the threat of physical force; being under the

(1) Possessed prescription drugs or controlled substances for the purpose of sale or distribution at a school under the board's jurisdiction:

(2) Physically assaulted or battered or abused educational personnel or other students at a school or school function under the board's jurisdiction; or

(3) Physically assaulted, battered, or abused educational personnel or other students off school property and the incident is likely to substantially disrupt the educational process.

(3) (a) The board may modify the expulsion requirement and length for students on a case-by-case basis, except the length of expulsion shall be at least twelve (12) months for a violation set forth in subsection (2)(a) of this section.

(b) Nothing in this section shall prohibit a board from expelling a student for longer than twelve (12) months.

(c) A board that has expelled a student from the student's regular school setting shall provide or ensure that educational services are provided to the student in an appropriate alternative program or setting, unless the board has made a determination, on the record, supported by clear and convincing evidence, that the expelled student posed a threat to the safety of other students or school staff and could not be placed into a state-funded agency program. Behavior which constitutes a threat shall include but not be limited to the physical assault, battery, or abuse of others; the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drugs or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any other behavior which may endanger the safety of others. Other intervention services as indicated for each student may be provided by the board or by agreement with the appropriate state or community agency. A state agency that provides the service shall be responsible for the cost.

(8)(a) Suspension of exceptional children, as defined in KRS 157.200, shall be considered a change of educational placement if:

1. The child is removed for more than ten (10) consecutive days during a school year; or
2. The child is subjected to a series of removals that constitute a pattern because the removals accumulate to more than ten (10) school days during a school year and because of other factors, such as the length of each removal, the total amount of time the child is removed, and the proximity of removals to one another.
(b) The admissions and release committee shall meet to review the placement and make a
recommendation for continued placement or a change in placement and determine whether regular
suspension or expulsion procedures apply. Additional evaluations shall be completed, if necessary.
(c) If the admissions and release committee determines that an exceptional child's behavior is related to
his or her disability, the child shall not be suspended any further or expelled unless the current placement
could result in injury to the child, other children, or the educational personnel, in which case an appropriate
alternative placement shall be provided that will provide for the child's educational needs and will provide a
safe learning and teaching environment for all. If the admissions and release committee determines that
the behavior is not related to the disability, the local educational agency may pursue its regular suspension
or expulsion procedure for the child, if the behavior so warrants. However, educational services shall not
be terminated during a period of expulsion and during a suspension after a student is suspended for more
than a total of ten (10) days during a school year. A district may seek temporary injunctive relief through
the courts if the parent and the other members of the admissions and release committee cannot agree
upon a placement and the current placement will likely result in injury to the student or others.
(9) Suspension of primary school students shall be considered only in exceptional cases where there are
safety issues for the child or others.
(10) Any action under this section related to students with disabilities shall be in compliance with applicable
federal law.

KRS 158.153. Punishment based on child's records - Disclosure of records - Cause of action -
Districtwide standards of behavior for students participating in extracurricular activities.
(1) Unless the action is taken pursuant to KRS 158.150, no school, school administrator, teacher, or other
school employee shall expel or punish a child based on information contained in a record of an adjudication
of delinquency or conviction of an offense received by the school pursuant to KRS 610.345 or from any
other source. Nothing in this subsection shall be construed to prohibit a local school board or school official
from instituting disciplinary proceedings against any student for violating the discipline policy of the school
or school district or taking actions necessary to protect staff and students. Actions to protect staff and
students may be taken only after the principal makes a determination that the conduct of the student
reflected in the records of the school or obtained by the school from the court indicates a substantial
likelihood of an immediate and continuing threat that the student will cause harm to students or staff, and
that the restrictions to be ordered represent the least restrictive alternative available and appropriate to
remedy the threat, and that the determination and supporting material be documented in the child's record.
The action of the principal, in addition to or in lieu of any other procedure available, may be appealed by
the child or the child's parent or guardian to the superintendent of the school system or to the Circuit Court
in the county in which the school is located, and the appealing party may be represented by counsel.
(2) No school, school administrator, teacher, or other school employee who has custody of records
received or maintained by the school pursuant to KRS 610.345 or who has received information
contained in or relating to a record received by the school pursuant to KRS 610.345 shall disclose the
fact of the record's existence, or any information contained in the record or obtained from the record to
any other person, including but not limited to other teachers, school employees, pupils, or parents other
than the pupil, or parents of the pupil who is the subject of the record.
(3) The child and his parent or guardian shall have a civil cause of action against the school board and
against any school administrator violating subsection (1) or (2) of this section or divulging information in
violation of KRS 610.345 or 610.340. This civil cause of action shall be in addition to any other criminal
or administrative remedy provided by law.
(4) Nothing in this section shall be construed to prohibit a local board of education from establishing
districtwide standards of behavior for students who participate in extracurricular and cocurricular
activities, including athletics. A school principal may deny or terminate a student's eligibility to participate
in extracurricular or cocurricular activities if the student has violated the local district behavior standards
or the council's criteria for participation, as described in KRS 160.345(2)(i)8. A student's right to
participate in extracurricular or cocurricular activities, including athletics, may be suspended, pending investigation of an allegation that the standards of behavior have been violated.

(3)(d) 1. In lieu of expelling a student, or upon the expiration of a student's expulsion, a superintendent may place a student into an alternative program or setting if the superintendent determines placement of the student in his or her regular school setting is likely to substantially disrupt the education process or constitutes a threat to the safety of other students or school staff. The action shall not be taken until the parent, guardian, or other person having legal custody or control of the student has had an opportunity to have a hearing before the board or an appeals committee as described in subparagraph 2. of this paragraph.

2. The board may adopt a policy to establish an appeals committee and delegate the authority to hear appeals made under this paragraph to that committee.

(5)(b)

5. When a student is removed from a classroom under this paragraph temporarily or permanently, the principal shall determine the placement of the student in lieu of that classroom, which may include but is not limited to:

   (c) The student has been given an opportunity to present his own version of the facts relating to the charge or charges.

These due process procedures shall precede any suspension from the common schools unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In such cases, the due process procedures outlined above shall follow the suspension as soon as practicable, but no later than three (3) school days after the suspension.

(7)(b) 1. The board of education of any school district may expel or extend the expulsion of any student for misconduct as described in subsection (1) of this section, but the action shall not be taken until the parent, guardian, or other person having legal custody or control of the student has had an opportunity to have a hearing before the board. 2. Within thirty (30) days prior to the end of a student's expulsion, the board shall review the details of the expulsion and current factors and circumstances, including if ending the expulsion will substantially disrupt the education process or constitute a threat to the safety of students or school staff, to determine if the expulsion shall be extended for a period not to exceed twelve (12) months.

The action shall not be taken until the
parent, guardian, or other person having legal custody or control of the student has had an opportunity to have a hearing before the board or an appeals committee as described in subparagraph 2. Of this paragraph.

6. Following the initial alternative placement of a student under this paragraph, the board shall review the alternative program or setting placement at least once per year and determine if the placement should be continued in accordance with subparagraph 1. Of this paragraph.

(4) For purposes of this subsection, "charges" means substantiated behavior that falls within the grounds for suspension or expulsion enumerated in subsection (1) of this section, including behavior committed by a student while enrolled in a private or public school, or in a school within another state. A school board may adopt a policy providing that, if a student is suspended or expelled for any reason or faces charges that may lead to suspension or expulsion but withdraws prior to a hearing from any public or private school in this or any other state, the receiving district may review the details of the charges, suspension, or expulsion and determine if the student will be admitted, and if so, what conditions may be imposed upon the admission, which may include placement of the student into an alternative program or setting as described in subsection (3)(d) of this section.

(5)(b)

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

LAWS

§17:7. Duties, functions, and responsibilities of board.

In addition to the authorities granted by R.S. 17:6 and any powers, duties, and responsibilities vested by any other applicable laws, the board shall:

(5)(a) Approve courses of study and prepare and adopt rules and regulations for the discipline of students and the governance of the public elementary and secondary schools and other public schools and programs under its jurisdiction, which shall not be inconsistent with law and which shall be enforced by the city, parish, and other local public school boards and the local school superintendents; however, the board shall have no control over the business affairs of a city, parish, or other local public school board or the selection or removal of its officers and employees.

(b)(i) Prepare and adopt rules and guidelines for the appropriate use of seclusion, physical restraint, and mechanical restraint of students with exceptionalities as defined in R.S. 17:1942, in accordance with the Administrative Procedure Act.

(ii) The rules and guidelines adopted pursuant to Item (i) of this Subparagraph shall not be applicable to a student who has been deemed to be gifted or talented unless the student has been identified as also having a disability.

§17:223. Discipline of pupils; suspension from school.

A. Every teacher is authorized to hold every pupil to a strict accountability for any disorderly conduct in school or on the playground of the school, or on any school bus going to or returning from school, or during intermission or recess. Each parish and city school board shall have discretion in the use of corporal punishment. In those cases in which a parish or city school board decides to use corporal punishment, each parish or city school board shall adopt such rules and regulations as it deems necessary to implement and control any form of corporal punishment in the schools in its district.

B. School principals may suspend from school any pupil for good cause, as stated in R.S. 17:416. Principals shall notify the visiting teacher or supervisor of child welfare and attendance of all suspensions. In all cases of suspensions, the parent, the superintendent of schools, and the visiting teacher or supervisor of child welfare and attendance shall be notified in writing of the facts concerning each suspension, including reasons therefor and terms thereof.

§17:240. Prohibition against use of tobacco in schools; prohibition against smoking on school bus; rules and regulations.

B. (1) Notwithstanding any other provision of law, no person shall smoke, chew, inhale, ingest, absorb, or otherwise consume any tobacco or tobacco product in any elementary or secondary school building nor shall any student or school employee smoke, chew, inhale, or absorb, or otherwise consume any tobacco product on any other school property; however, this prohibition shall not be applicable to any tobacco product that has been approved by the United States Food and Drug Administration for sale as a tobacco cessation product and is marketed and sold solely for such an approved purpose.

(2) No person shall smoke or carry a lighted cigar, cigarette, pipe, or any other form of smoking object or device, including but not limited to e-cigs, e-cigarettes, electronic cigarettes, advanced personal vaporizers, vape pens, and vape mods on any school property.
(3) The use of tobacco or any tobacco product is hereby prohibited on any school bus or school vehicle transporting students attending any elementary or secondary school.

(4) The provisions of this Subsection shall not apply to any school property that is rented, leased, or otherwise made available for use for non-educational purposes.

C. (1) The governing authority of each public elementary or secondary school shall and any governing authority of any nonpublic elementary or secondary school may adopt necessary rules and regulations to assure compliance with the provisions of this Section.

(2) The governing authority of each public elementary or secondary school and each nonpublic elementary or secondary school may provide for appropriate penalties for violators, including but not limited to disciplinary action or a fine not to exceed two hundred dollars, or both.

(3) The provisions of this Section shall be enforced by the local superintendents of education or their designees pursuant to any rules, regulations, and penalties promulgated pursuant to this Section.

§17:251. Short title; legislative intent.
A. This Subpart may be cited as the "Education/Juvenile Justice Partnership Act".

B. The legislature hereby finds and declares that:

(1) The good behavior and discipline of students are essential prerequisites to academic learning, the development of student character, and the general, as well as educational, socialization of children and youth.

(2) Bad behavior and lack of discipline in many schools of the state are impairing the quality of teaching, learning, character development, and socialization, and, in some schools, are creating real and potential threats to school and public safety.

(3) Greater communication, coordination, and collaboration need to exist between and among state, city, parish, and other local public school systems and juvenile justice agencies to address effectively issues affecting the behavior and discipline of students, especially with respect to safe school planning, mental health service delivery, family strengthening, alternative schools, special education, school zero tolerance policies, school suspensions, and positive behavioral supports.

§17:416. Discipline of students; suspension; expulsion.
A.(1)(a) Every teacher and other school employee shall endeavor to hold every student to a strict accountability for any disorderly conduct in school or on the playgrounds of the school, on the street or road while going to or returning from school, on any school bus, during intermission or recess, or at any school-sponsored activity or function.

§17:416.1. Discipline of pupils; additional disciplinary authority.
A. In addition to the specific disciplinary measures authorized in R.S. 17:416 teachers, principals, and administrators of the public schools may, subject to any rules as may be adopted by the parish or city school board, employ other reasonable disciplinary and corrective measures to maintain order in the schools; provided, however, that nothing in this Section shall be construed as superseding the provisions of R.S. 17:416 relative to the disciplining of students, suspensions, and expulsions.

B.(1)(a) Corporal punishment means using physical force to discipline a student, with or without an object. Corporal punishment includes hitting, paddling, striking, spanking, slapping, or any other physical force that causes pain or physical discomfort.

(b) Corporal punishment does not include:

(i) The use of reasonable and necessary physical restraint of a student to protect the student, or others, from bodily harm or to obtain possession of a weapon or other dangerous object from a student.

(ii) The use of seclusion and restraint as provided in R.S. 17:416.21.
(2) The governing authority of a public elementary or secondary school shall have discretion with respect to the use of corporal punishment; however, no form of corporal punishment shall be administered to a student with an exceptionality, excluding gifted and talented, as defined in R.S. 17:1942 or to a student who has been determined to be eligible for services under Section 504 of the Rehabilitation Act of 1973 and has an Individual Accommodation Plan. Each governing authority of a public elementary or secondary school shall adopt such rules and regulations as it deems necessary to implement and control any form of corporal punishment in the schools under its jurisdiction.

C. Should any teacher, principal, or administrator in the public school system be sued for damages by any student, the parent of any student or other persons qualified to bring suit on behalf of such student based upon the act or omission of such teacher, principal, or administrator in the directing of and disciplining of school children under their care and supervision, it shall be the responsibility of the school board employing such teacher, principal, or administrator to provide such defendant with a legal defense to such suit including reasonable attorney's fees, investigatory costs, and other related expenses. Should any such teacher, principal, or administrator be cast in judgment for damages in such suit, it shall be the obligation of the school board employing such defendant to indemnify him fully against such judgment including all principal, interest, and costs. Nothing in this Section shall require a school board to indemnify a teacher, principal, or administrator against a judgment wherein there is a specific decree in the judgment that the action of the teacher, principal, or administrator was malicious, and willfully and deliberately intended to cause bodily harm.

(2) As used in this Subsection, "disciplinary action" means an expulsion or suspension from school for ten or more consecutive school days or an assignment to an alternative educational setting for ten or more consecutive school days in accordance with any policy of the school or of the local public school board, limited to expulsions, suspensions, and assignments to alternative educational settings for infractions involving the sale or possession of drugs, alcohol, or any other illegal substance, the possession of a firearm, or an infraction involving assault or battery on a member of the school faculty or staff. The governing authority of any public elementary or secondary school shall promulgate rules and regulations to implement the provisions of this Section.

(3) Any such student who has been subjected to a disciplinary action as provided in Paragraph (2) of this Subsection shall have his driver's license for the operation of a motor vehicle suspended for a period of one year, in accordance with the provisions of R.S. 32:431. The terms "license" or "driver's license" shall include a Class "E" learner's license and intermediate license as provided for in R.S. 32:407.

D. (1) In addition to the specific disciplinary measures authorized in R.S. 17:416, a principal or headmaster at a public or private school shall notify the Department of Public Safety and Corrections, office of motor vehicles, of any student between the ages of fourteen and eighteen who has been subjected to a disciplinary action as provided in Paragraph (2) of this Subsection.

§17:416.3. Search of students' persons, desks, lockers, other areas; defense of suits against school personnel; indemnification; reporting of implements seized.

A. (1) The parish and city school systems of the state are the exclusive owners of all public school buildings and all desks and lockers within the building assigned to any student and any other area of any public school building or grounds set aside specifically for the personal use of the students. Any teacher, principal, school security guard, or administrator in any parish or city school system of the state may search any building, desk, locker, area, or grounds for evidence that the law, a school rule, or parish or city school board policy has been violated.
(2)(a) The teacher, principal, school security guard, or administrator may search the person of a student
or his personal effects when, based on the attendant circumstances at the time of the search, there are
reasonable grounds to suspect that the search will reveal evidence that the student has violated the
law, a school rule, or a school board policy. Such a search shall be conducted in a manner that is
reasonably related to the purpose of the search and not excessively intrusive in light of the age or sex
of the student and the nature of the suspected offense.

(b) Random searches with a metal detector of students or their personal effects may be conducted at
any time, provided they are conducted without deliberate touching of the student.

B. (1) If any teacher, principal, school security guard, or administrator in the public school system is sued
for damages by any student, the parent of any student, or other person qualified to bring suit on behalf of
the student, based upon a search of that student's person, desk, locker, or any other area of a school
building or grounds set aside specifically for that student's personal use, when the teacher, principal,
school security guard, or administrator reasonably believed that the student had weapons, illegal drugs,
alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or
city school board policy on his person, or had reasonable belief that such desk, locker, or other area
contained such items, or based upon a search using a metal detector, it shall be the responsibility of the
school board employing such teacher, principal, school security guard, or administrator to provide the
defendant with legal defense, including reasonable attorney's fees, investigatory costs, and other related
expenses.

(2) If any such teacher, principal, school security guard, or administrator is cast in judgment for
damages in the suit, it shall be the obligation of the school board employing the defendant to indemnify
him fully against such judgment, including all principal, interest, and costs.

(3) Nothing in this Section shall require a school board to indemnify a teacher, principal, school security
guard, or administrator against a judgment wherein there is a specific finding that the action of the
teacher, principal, school security guard, or administrator was maliciously, wilfully, and deliberately
intended to harass, embarrass, or intimidate the student.

C. (1)(a) On or before January 1, 1995, each parish and city school board shall adopt a policy that is
consistent with Subsection A of this Section to provide for reasonable search and seizure by public
school teachers, principals, and other school administrators of students' persons, desks, lockers, or other
school areas for evidence that the law, a school rule, or a parish or city school board policy has been
violated.

(b) Such policy shall include at a minimum:

(i) Specification of standards regarding procedures for searching students to prevent excessive
intrusion.

(ii) Specification of standards for retaining and securing confiscated implements and materials.

(iii) Directions regarding the disposal of implements and materials reported to law enforcement
authorities when such authorities notify the principal that the implements and materials need not be
retained.

(iv) Specification of disciplinary action when a principal or designated administrator violates any
provision of this Section.

(2)(a) Nothing in this Section shall require defense and/or indemnification by a school board, a principal,
or other school administrator for suits regarding search and seizure unless such acts are in accordance
with the policy adopted by the school board that employs him, if the policy is declared to be reasonable
by a court of competent jurisdiction.

(b) No teacher, principal, school security guard, or administrator shall be held personally liable for any
action authorized by this Section and performed in accordance with school board policies adopted
pursuant to this Section.
D. (1) Upon the seizure by any public school teacher, principal, school security guard, or administrator of any firearm, bomb, knife, or other implement which can be used as a weapon and the careless use of which might inflict harm or injury or any controlled dangerous substance as defined in R.S. 40:961, the principal or his designated administrator shall report the confiscation of such implement or material to the appropriate law enforcement officials. The principal or his designated administrator may report the confiscation of any other implement or material.

(2) Any implement or material required by Paragraph (1) of this Subsection to be reported to law enforcement officials shall be retained and secured by the school principal in such a manner as to prevent the destruction, alteration, or disappearance of it until such time as the law enforcement authority either takes custody of the implement or material or provides notice to the school principal that it need no longer be retained. In the case that it need not be retained, the school principal shall comply with his school board's policy regarding disposal of the item.

(3) The failure of any principal or designated administrator to report the confiscation of such implement or material or the failure to retain and secure such implement or material shall be reported by the law enforcement authority to the employing school board which shall take disciplinary action pursuant to its policy.

E. The provisions of this Section shall apply to the State Board of Elementary and Secondary Education as it relates to state schools operated by the board in the same way it applies to city and parish school boards.

§17:416.13. Student code of conduct; requirement.
A. The governing authority of each public elementary and secondary school shall adopt a student code of conduct for the students in the schools under its jurisdiction. The code of conduct shall be in compliance with all existing rules, regulations, and policies of the local school governing authority and of the State Board of Elementary and Secondary Education and all state laws relative to student discipline and shall include any necessary disciplinary action to be taken against any student who violates the code of conduct.

REGULATIONS

A. Each LEA shall have written policies governing all school activities as they relate to students, the instructional program, staff, buildings, services, and the curriculum.

A. Each LEA shall adopt such rules and regulations as it deems necessary to implement and control any disorderly conduct in the school or on the playground of the school, on any school bus, on the street or road while going to and from school, or during intermission and recess, or at any school sponsored activity or function.

1. The plan shall not prohibit a teacher from removing a pupil from the classroom for disciplinary reasons.

2. Each LEA shall adopt rules regarding the reporting and review of disciplinary actions.

B. Teachers, principals, and administrators may, subject to any rules as may be adopted by the LEA, apply reasonable disciplinary and corrective measures to maintain order in the schools (refer to R.S. 17:416 and R.S. 17:223).

C. The disciplinary rules (regulations) shall be made known to teachers, parents, and students and shall be reasonably and consistently enforced.

D. Any principal who fails to act on a report of student violations of disciplinary regulations shall explain his/her reasons for such an action to the superintendent of the LEA by which he or she is employed, or to the superintendent's designee.
E. Students, who, through no fault of their parents or guardians or other persons having charge of them, regularly disrupt the orderly processes of the school to which they have been assigned, shall be considered as delinquents and may be reported by the visiting teacher or supervisor of child welfare and attendance, to the district or family court of the parish having jurisdiction in juvenile matters, there to be dealt with in the manner prescribed by law.

F. Schools shall provide due process prior to suspensions and expulsions.

G. Students who are removed from the classroom for disruptive, dangerous, or unruly behavior or who are suspended for 10 days or less shall be assigned school work missed and shall receive either full or partial credit for such work if it is completed satisfactorily and timely as determined by the principal or designee, upon the recommendation of the student's teacher. A student who is suspended for more than 10 days or is expelled and receives educational services in an alternative school site, shall be assigned school work by a certified teacher and shall receive credit for school work if it is completed satisfactorily and timely as determined by the teacher. 2. The probable effectiveness of the project as an alternative to suspensions from school.

3. The probable cost effectiveness of the use of the funds.

4. The potential for improving the attendance of students and the education provided to students if the project were to be implemented on a statewide basis.

C. To be eligible for selection for funding as provided in this Section, any project proposal shall contain at a minimum:

This component shall also require the principal, after contacting parents or parent, to conduct a conference with the parent, the teacher if the teacher's presence is deemed necessary by the principal, and student when a child is suspended for any of the following: fighting students or faculty, disrespect for authority, disturbance in classroom or campus, cutting class, leaving campus, excess tardiness and absence, habitual violation of school rules, profane or obscene language, smoking, threatening students, stealing, possession of weapon, possession of drugs, vandalism, possession of or shooting of fireworks, or gambling.

In addition, a conference between the teacher or other appropriate school employee and the pupil's parent, tutor, or legal guardian shall be required prior to the pupil being readmitted.

(vi)(aa) If disruptive behavior persists, the teacher may request that the principal transfer the pupil into another setting.
(bb) Each city, parish, or other local public school board may adopt a policy that requires the parent or legal guardian of a pupil removed from the classroom pursuant to this Subparagraph to attend after school or Saturday intervention sessions with the pupil. The school board may refer a parent who fails to attend such session to the court of competent jurisdiction in accordance with Chapter 2 of Title VII of the Louisiana Children's Code. (bb) No pupil suspended in accordance with the provisions of this Item shall be considered for readmission to the school to which the school employee, allegedly assaulted or battered, or both, by the pupil, is assigned until all hearings and appeals associated with the alleged violation have been exhausted.

(cc) Except when the school system has no other school of suitable grade level for the pupil to attend, no pupil found guilty by a court of competent jurisdiction of violating the provisions of R.S. 14:34.3 or 38.2, or both, or found guilty at a school system suspension hearing of committing a battery on any school employee or committing an assault on any school employee, or both, shall be assigned to attend or shall attend the school to which the school employee battered or assaulted by the pupil is assigned.

(dd) Notwithstanding any provision of R.S. 17:158 to the contrary, a school system shall not be required to provide transportation to any pupil reassigned to attend a school pursuant to the provisions of this Item if providing such transportation for the pupil will result in additional transportation costs to the school system.

§17:416.15. Zero tolerance policies; authorization; conflict resolution classes; fees; compliance. Any city, parish, or other local public school board may adopt and implement a zero tolerance policy for fighting in the schools under its jurisdiction. Such classes may be provided by the school board or other appropriate provider as determined by the board. Any city, parish, or other local public school board may charge a fee for such attendance in an amount as may be determined by the board. However, such fee amount shall not exceed one hundred dollars.
REGULATIONS

1. An approved alternative education site must:
   a. provide clear expectations for learning and student conduct using a multi-tier system of support (MTSS) framework that includes use of any evidence-based behavioral intervention including, but not limited to:
      i. positive behavior interventions and supports;
      ii. restorative practices; or
      iii. trauma-informed response; and
   b. detail, through the authorization process and an annual report, the full list of evidence-based interventions used to address student behavior. Each intervention or strategy will be aligned to one of the three tiers within an MTSS.

1. adopt and implement a social-emotional learning curriculum for use that aligns to the selected behavioral intervention and overall behavioral approach selected by the site;

2. maintain a list of identified student growth measures, such as evaluation plans, assessments, and learning outcomes, that measure student behavioral improvement resulting from evidence-based behavioral intervention; and

3. identify annually a set of implementation fidelity measures used to evaluate the efficacy of the selected behavioral intervention and assess interventions needing improvement.

LAWS

§17:81. General powers of local public school boards.
J. (1) Each city and parish school board may purchase appropriate metal detection devices and shall provide training to school administrators consistent with that provided as required in Paragraph (3) of this Subsection if metal detectors are going to be used in the system.
   (2) The State Board of Elementary and Secondary Education shall develop a plan for using metal detection devices for random weapon searches in elementary and secondary schools and shall submit it to the attorney general for approval. The attorney general shall periodically review the plan as changes in the law in relation to random searches occur.
   (3) The board shall provide the approved plan to each city and parish school board and shall provide training on the use of metal detectors and other techniques for weapon searches to system administrators that is consistent with the approved plan.

§17:416.3. Search of students' persons, desks, lockers, other areas; defense of suits against school personnel; indemnification; reporting of implements seized.
A. (1) The parish and city school systems of the state are the exclusive owners of all public school buildings and all desks and lockers within the building assigned to any student and any other area of any public school building or grounds set aside specifically for the personal use of the students. Any teacher, principal, school security guard, or administrator in any parish or city school system of the state may search any building, desk, locker, area, or grounds for evidence that the law, a school rule, or parish or city school board policy has been violated.
(2)(a) The teacher, principal, school security guard, or administrator may search the person of a student or his personal effects when, based on the attendant circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law, a school rule, or a school board policy. Such a search shall be conducted in a manner that is reasonably related to the purpose of the search and not excessively intrusive in light of the age or sex of the student and the nature of the suspected offense.

(b) Random searches with a metal detector of students or their personal effects may be conducted at any time, provided they are conducted without deliberate touching of the student.

B. (1) If any teacher, principal, school security guard, or administrator in the public school system is sued for damages by any student, the parent of any student, or other person qualified to bring suit on behalf of the student, based upon a search of that student's person, desk, locker, or any other area of a school building or grounds set aside specifically for that student's personal use, when the teacher, principal, school security guard, or administrator reasonably believed that the student had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy on his person, or had reasonable belief that such desk, locker, or other area contained such items, or based upon a search using a metal detector, it shall be the responsibility of the school board employing such teacher, principal, school security guard, or administrator to provide the defendant with legal defense, including reasonable attorney's fees, investigatory costs, and other related expenses.

(2) If any such teacher, principal, school security guard, or administrator is cast in judgment for damages in the suit, it shall be the obligation of the school board employing the defendant to indemnify him fully against such judgment, including all principal, interest, and costs.

(3) Nothing in this Section shall require a school board to indemnify a teacher, principal, school security guard, or administrator against a judgment wherein there is a specific finding that the action of the teacher, principal, school security guard, or administrator was maliciously, wilfully, and deliberately intended to harass, embarrass, or intimidate the student.

C. (1)(a) On or before January 1, 1995, each parish and city school board shall adopt a policy that is consistent with Subsection A of this Section to provide for reasonable search and seizure by public school teachers, principals, and other school administrators of students' persons, desks, lockers, or other school areas for evidence that the law, a school rule, or a parish or city school board policy has been violated.

(iv) Specification of disciplinary action when a principal or designated administrator violates any provision of this Section.

(2)(a) Nothing in this Section shall require defense and/or indemnification by a school board, a principal, or other school administrator for suits regarding search and seizure unless such acts are in accordance with the policy adopted by the school board that employs him, if the policy is declared to be reasonable by a court of competent jurisdiction.

(b) No teacher, principal, school security guard, or administrator shall be held personally liable for any action authorized by this Section and performed in accordance with school board policies adopted pursuant to this Section.
D. (1) Upon the seizure by any public school teacher, principal, school security guard, or administrator of any firearm, bomb, knife, or other implement which can be used as a weapon and the careless use of which might inflict harm or injury or any controlled dangerous substance as defined in R.S. 40:961, the principal or his designated administrator shall report the confiscation of such implement or material to the appropriate law enforcement officials. The principal or his designated administrator may report the confiscation of any other implement or material.

(2) Any implement or material required by Paragraph (1) of this Subsection to be reported to law enforcement officials shall be retained and secured by the school principal in such a manner as to prevent the destruction, alteration, or disappearance of it until such time as the law enforcement authority either takes custody of the implement or material or provides notice to the school principal that it need no longer be retained. In the case that it need not be retained, the school principal shall comply with his school board's policy regarding disposal of the item.

(3) The failure of any principal or designated administrator to report the confiscation of such implement or material or the failure to retain and secure such implement or material shall be reported by the law enforcement authority to the employing school board which shall take disciplinary action pursuant to its policy.

E. The provisions of this Section shall apply to the State Board of Elementary and Secondary Education as it relates to state schools operated by the board in the same way it applies to city and parish school boards.

§17:416.6. Search of persons entering public school buildings or grounds.
A. Notwithstanding any other provision of law to the contrary, any school principal, administrator, or school security guard may search the person, handbag, briefcase, purse, or other object in possession of any person who is not a student enrolled at the school, or a school employee while in any school building or on school grounds either by conducting a random search with a metal detector or when there is reasonable suspicion that such person has any weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board's policy.

B. If any principal, administrator, or school security guard is sued for damages by any person based upon a search of the person, handbag, briefcase, purse, or other object in possession of that person after the principal, administrator, or school security guard conducts a random search with a metal detector or has a reasonable suspicion that the person had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy, it shall be the responsibility of the school board employing such principal, administrator, or school security guard, to indemnify him fully against such judgment, including all principal, interest, and costs. Nothing in this Section shall require a school board to indemnify a principal, administrator, or school security guard against a judgment wherein there is a specific finding that the action of the principal, administrator, or school security guard was maliciously, wilfully, and deliberately intended to harass, embarrass, or intimidate the visitor.

C. The provisions of this Section shall not apply to any state or local law enforcement officer while in the performance of his official duties.

The teacher, principal, school security guard, or administrator may search the person of a student or his personal effects when, based on the attendant circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law, a school rule, or a school board policy. Such a search shall be conducted in a manner that is reasonably related to the purpose of the search and not excessively intrusive in light of the age or sex of the student and the nature of the suspected offense.

C. Each LEA shall adopt a policy to provide for reasonable search and seizure by teachers, by principals, and by other school administrators of a student's person, desk, locker, or other school areas for evidence that the law, a school rule, or an LEA policy has been violated.

Exclusionary Discipline: Suspension, Expulsion, and Alternative Placement

Grounds for Suspension or Expulsion

LAWS

§17:223. Discipline of pupils; suspension from school.
A. Every teacher is authorized to hold every pupil to a strict accountability for any disorderly conduct in school or on the playground of the school, or on any school bus going to or returning from school, or during intermission or recess. Each parish and city school board shall have discretion in the use of corporal punishment. In those cases in which a parish or city school board decides to use corporal punishment, each parish or city school board shall adopt such rules and regulations as it deems necessary to implement and control any form of corporal punishment in the schools in its district.
B. School principals may suspend from school any pupil for good cause, as stated in R.S. 17:416. Principals shall notify the visiting teacher or supervisor of child welfare and attendance of all suspensions. In all cases of suspensions, the parent, the superintendent of schools, and the visiting teacher or supervisor of child welfare and attendance shall be notified in writing of the facts concerning each suspension, including reasons therefor and terms thereof.

§17:224. Unadjustable or incorrigible children; reports to juvenile courts; expulsion, assignments, and transfers.
A. Unadjustable or incorrigible children, who, through no fault of their parents or tutors or other persons having charge of them, regularly disrupt the orderly processes of the school to which they have been assigned, shall be considered as delinquents and may be reported by the visiting teacher, or supervisor of child welfare and attendance, to the juvenile court of the parish, there to be dealt with in the manner prescribed by law.
B. Notwithstanding the provisions of R.S. 17:416 to the contrary, any student who exhibits disruptive behavior, an incorrigible attitude, or any other discipline problems in general, may be recommended by the principal for expulsion, assignment to an appropriate alternative education program, or transfer to adult education if such student is:
   (1) Seventeen years of age or older with less than five units of credit toward graduation.
   (2) Eighteen years of age or older with less than ten units of credit toward graduation.
   (3) Nineteen years of age or older with less than fifteen units of credit toward graduation.

§17:416. Discipline of students; suspension; expulsion.
A.(1)(b)(i) Prior to any suspension, the school principal, or his designee, shall advise the pupil in question of the particular misconduct of which he is accused as well as the basis for such accusation, and the pupil shall be given an opportunity at that time to explain his version of the facts to the school principal or his designee. In each case of suspension or expulsion the school principal, or his designee, shall contact by telephone at the telephone number shown on the pupil's registration card or send a certified letter at the address shown on the pupil's registration card to the parent, tutor, or legal guardian of the pupil in question giving notice of the suspension or expulsion, the reasons therefor and establishing a date and time for a conference with the principal or his designee as a requirement for readmitting the pupil provided that in the case of expulsion, the contact with the parent or guardian shall include a certified letter. If the parent, tutor, or legal guardian fails to attend the required conference within five school days of mailing the certified letter or other contact with the parent, the truancy laws shall become effective. On not more than one occasion each school year when the parent, tutor, or legal guardian refuses to respond, the principal may determine whether readmitting the pupil is in the best interest of the student.
On any subsequent occasions in the same year, the pupil shall not be readmitted unless the parent,
tutor, legal guardian, court, or other appointed representative responds. A pupil whose presence in or
about a school poses a continued danger to any person or property or an ongoing threat of disruption to
the academic process shall be immediately removed from the school premises without the benefit of the
procedure described hereinabove; however, the necessary procedure shall follow as soon as is
practicable.

(ii)(aa) In any case where a teacher, principal, or other school employee is authorized in this Section
to require the parent, tutor, or legal guardian of a pupil who is under the age of eighteen and not
judicially emancipated or emancipated by marriage to attend a conference or meeting regarding the
pupil's behavior and, after notice, the parent, tutor, or legal guardian willfully refuses to attend, the
principal or his designee, shall file a complaint with a court exercising juvenile jurisdiction, pursuant to
Children's Code Article 730(8) and 731. The principal may file a complaint pursuant to Children's
Code Article 730(1) or any other applicable ground when, in his judgment, doing so is in the best
interests of the pupil.

(bb) The principal, assistant principal, or child attendance and welfare supervisor or his assistant of
any school, public or nonpublic, shall be a representative of an agency having the responsibility or
ability to supply services to a family as that phrase is used in Children's Code Article 731(A).

(c) Any parent, tutor or legal guardian of a pupil suspended shall have the right to appeal to the city or
parish superintendent of schools or his designee, who shall conduct a hearing on the merits. The
decision of the superintendent of schools on the merits of the case, as well as the term of suspension,
shall be final, reserving to the superintendent of schools the right to remit any portion of the time of
suspension.

(d) A pupil suspended for damages to any property belonging to the school system or to property
contracted to the school system shall not be readmitted until payment in full has been made for such
damage or until directed by the superintendent of schools. If the property damaged is a school bus
owned by, contracted to, or jointly owned by any parish or city school board, a pupil suspended for such
damage shall not be permitted to enter or ride any school bus until payment in full has been made for
such damage or until directed by the superintendent of schools.

(e) A pupil who is suspended for ten days or fewer shall be assigned school work missed while he is
suspended and shall receive either partial or full credit for such work if it is completed satisfactorily and
timely as determined by the principal or his designee, upon the recommendation of the pupil's teacher.
A pupil who is suspended for more than ten days, or is expelled and receives educational services at an
alternative school site, shall be assigned work by a certified teacher and shall receive credit for school
work if it is completed satisfactorily and timely as determined by the teacher. Such work shall be aligned
with the curriculum used at the school from which the pupil was suspended or expelled.

(f) When a pupil is suspended for a second time within one school year, the principal may require that a
counseling session be held with the parent and pupil by the school counselor if a counselor is assigned
or available to that school. In the event there is no school counselor available, the principal may require
a conference between the parent, pupil, and all the pupil's teachers and the principal or other
administrator.

§17:402. Findings and purpose.

A. The legislature finds that the use and abuse of alcohol, drugs, and other substances among the children of school age in this state is a problem of serious concern and destructive societal impact and that the incidence of alcohol, drug, and substance abuse among the young is high. Substance abuse leads to serious consequences and impairs one's ability to perform normally and productively in his educational and social environment. The legislature also finds that dependence on alcohol, drug, or other substances is an illness that can be prevented, identified, and treated. The legislature further finds that substantial alleviation of these problems may result from the development and implementation of comprehensive education programs and counseling in the public school systems of this state, combined with an enhanced law enforcement effort in the area of schools.

B. The purpose of this Part is to create a comprehensive program of alcohol, drug, and substance abuse prevention and education, which brings together the education system and the criminal justice system to educate, prevent, and punish such abuses, culminating in a drug free zone in and around the public schools in the state. The existence of such zones should enhance the whole community by bringing a clear-minded student into an environment more conducive to learning.
§17:403. Section on drug free schools and communities; program; section administrator; counselors.
A. The State Board of Elementary and Secondary Education and the state superintendent of education shall establish and maintain within the bureau of student services of the state Department of Education a separate program section which shall be designated as the section on drug free schools and communities. The board shall adopt such rules and regulations as are necessary to establish, operate, and maintain a state-wide alcohol, drug, and substance abuse education program for the benefit of students attending the schools of this state. The program may be extended to benefit adult citizens through adult education programs. The program shall be administered through the schools.

B. There shall be a section administrator of the section on drug free schools and communities who shall be appointed by the superintendent. The section administrator shall administer and be responsible for the affairs of the section on drug free schools and communities and the state-wide alcohol, drug, and substance abuse education program.

C. (1) There shall be addictive disorders professionals in every school system who regularly visit every secondary school and elementary school at a maximum of four schools to one counselor, for the purpose of counseling students who have been identified as having an alcohol, drug, or substance abuse problem. The duties of each counselor shall be coordinated by the section on drug-free schools and communities and each employing parish or city school system.

(2) Qualifications for addictive disorders professionals shall be determined, implemented, and enforced by the Department of Health and Hospitals, office of behavioral health.

§17:404. Establishment of programs of substance abuse.
A. Each city and parish school board shall establish and maintain in every school such grade appropriate programs of alcohol, drug, and substance abuse prevention, education, information, and counseling as are developed by the section on drug free schools and communities, and approved by the State Board of Elementary and Secondary Education for inclusion in the school program as required in Subsection B of this Section.

B. (1) The state superintendent of education, with the approval of the State Board of Elementary and Secondary Education, shall develop, furnish to local school boards, and coordinate the implementation of the programs required by this Section. Such programs shall be included in the school program such that every student in grades kindergarten through nine is involved for a minimum of sixteen contact hours every school year and every student in grades ten through twelve is involved for a minimum of eight contact hours every school year. The required minimum contact hours shall be incorporated into a comprehensive school health program. Each city and parish school system shall enact policies and procedures for implementation of such programs in accordance with guidelines promulgated by the State Board of Elementary and Secondary Education.

(2) In addition, the section on drug free schools and communities shall develop and make available to each school system development programs for teachers and other staff. B. For the purposes of this Section, the following terms shall mean:

C. (1) Any person having reasonable cause to believe that a student possesses a controlled dangerous substance or an alcoholic beverage on a school campus, under circumstances other than those described in Paragraph (2) of this Subsection, shall report such fact to the principal of the school or to the chairman of the Substance Abuse Prevention Team on a report form prepared by the Department of Education or on a substantially similar form. (b) Corporal punishment does not include:
   (i) The use of reasonable and necessary physical restraint of a student to protect the student, or
       others, from bodily harm or to obtain possession of a weapon or other dangerous object from a
       student.
   (ii) The use of seclusion and restraint as provided in R.S. 17:416.21.
(2) The governing authority of a public elementary or secondary school shall have discretion with
respect to the use of corporal punishment; however, no form of corporal punishment shall be

17:1942 or to a student who has been determined to be eligible for services under Section 504 of the
Rehabilitation Act of 1973 and has an Individual Accommodation Plan. Each governing authority of a
public elementary or secondary school shall adopt such rules and regulations as it deems necessary to
implement and control any form of corporal punishment in the schools under its jurisdiction.
C. Should any teacher, principal, or administrator in the public school system be sued for damages by
any student, the parent of any student or other persons qualified to bring suit on behalf of such student
based upon the act or omission of such teacher, principal, or administrator in the directing of and
disciplining of school children under their care and supervision, it shall be the responsibility of the
school board employing such teacher, principal, or administrator to provide such defendant with a legal
defense to such suit including reasonable attorney’s fees, investigatory costs, and other related
expenses. Should any such teacher, principal, or administrator be cast in judgment for damages in
such suit, it shall be the obligation of the school board employing such defendant to indemnify him fully
against such judgment including all principal, interest, and costs. Nothing in this Section shall require a
school board to indemnify a teacher, principal, or administrator against a judgment wherein there is a
specific decree in the judgment that the action of the teacher, principal, or administrator was malicious,
and willfully and deliberately intended to cause bodily harm.
(2) As used in this Subsection, "disciplinary action" means an expulsion or suspension from school for ten or more consecutive school days or an assignment to an alternative educational setting for ten or more consecutive school days in accordance with any policy of the school or of the local public school board, limited to expulsions, suspensions, and assignments to alternative educational settings for infractions involving the sale or possession of drugs, alcohol, or any other illegal substance, the possession of a firearm, or an infraction involving assault or battery on a member of the school faculty or staff. The governing authority of any public elementary or secondary school shall promulgate rules and regulations to implement the provisions of this Section.

(3) Any such student who has been subjected to a disciplinary action as provided in Paragraph (2) of this Subsection shall have his driver's license for the operation of a motor vehicle suspended for a period of one year, in accordance with the provisions of R.S. 32:431. The terms "license" or "driver's license" shall include a Class "E" learner's license and intermediate license as provided for in R.S. 32:407.

D. (1) In addition to the specific disciplinary measures authorized in R.S. 17:416, a principal or headmaster at a public or private school shall notify the Department of Public Safety and Corrections, office of motor vehicles, of any student between the ages of fourteen and eighteen who has been subjected to a disciplinary action as provided in Paragraph (2) of this Subsection.

§17:416.3. Search of students' persons, desks, lockers, other areas; defense of suits against school personnel; indemnification; reporting of implements seized.

A. (1) The parish and city school systems of the state are the exclusive owners of all public school buildings and all desks and lockers within the building assigned to any student and any other area of any public school building or grounds set aside specifically for the personal use of the students. Any teacher, principal, school security guard, or administrator in any parish or city school system of the state may search any building, desk, locker, area, or grounds for evidence that the law, a school rule, or parish or city school board policy has been violated.

(2)(a) The teacher, principal, school security guard, or administrator may search the person of a student or his personal effects when, based on the attendant circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law, a school rule, or a school board policy. Such a search shall be conducted in a manner that is reasonably related to the purpose of the search and not excessively intrusive in light of the age or sex of the student and the nature of the suspected offense.

(b) Random searches with a metal detector of students or their personal effects may be conducted at any time, provided they are conducted without deliberate touching of the student.

B. (1) If any teacher, principal, school security guard, or administrator in the public school system is sued for damages by any student, the parent of any student, or other person qualified to bring suit on behalf of the student, based upon a search of that student's person, desk, locker, or any other area of a school building or grounds set aside specifically for that student's personal use, when the teacher, principal, school security guard, or administrator reasonably believed that the student had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy on his person, or had reasonable belief that such desk, locker, or other area contained such items, or based upon a search using a metal detector, it shall be the responsibility of the school board employing such teacher, principal, school security guard, or administrator to provide the defendant with legal defense, including reasonable attorney's fees, investigatory costs, and other related expenses.

(2) If any such teacher, principal, school security guard, or administrator is cast in judgment for damages in the suit, it shall be the obligation of the school board employing the defendant to indemnify him fully against such judgment, including all principal, interest, and costs.
(3) Nothing in this Section shall require a school board to indemnify a teacher, principal, school security

guard, or administrator against a judgment wherein there is a specific finding that the action of the

teacher, principal, school security guard, or administrator was maliciously, wilfully, and deliberately

intended to harass, embarrass, or intimidate the student.

C. (1)(a) On or before January 1, 1995, each parish and city school board shall adopt a policy that is

consistent with Subsection A of this Section to provide for reasonable search and seizure by public

school teachers, principals, and other school administrators of students’ persons, desks, lockers, or other

school areas for evidence that the law, a school rule, or a parish or city school board policy has been

violated.

(b) Such policy shall include at a minimum:

(i) Specification of standards regarding procedures for searching students to prevent excessive

intrusion.

(ii) Specification of standards for retaining and securing confiscated implements and materials.

(iii) Directions regarding the disposal of implements and materials reported to law enforcement

authorities when such authorities notify the principal that the implements and materials need not be

retained.

(iv) Specification of disciplinary action when a principal or designated administrator violates any

provision of this Section.

(2)(a) Nothing in this Section shall require defense and/or indemnification by a school board, a principal,

or other school administrator for suits regarding search and seizure unless such acts are in accordance

with the policy adopted by the school board that employs him, if the policy is declared to be reasonable

by a court of competent jurisdiction.

(b) No teacher, principal, school security guard, or administrator shall be held personally liable for any

action authorized by this Section and performed in accordance with school board policies adopted

pursuant to this Section.

D. (1) Upon the seizure by any public school teacher, principal, school security guard, or administrator of

any firearm, bomb, knife, or other implement which can be used as a weapon and the careless use of

which might inflict harm or injury or any controlled dangerous substance as defined in R.S. 40:961, the

principal or his designated administrator shall report the confiscation of such implement or material to the

appropriate law enforcement officials. The principal or his designated administrator may report the

confiscation of any other implement or material.

(2) Any implement or material required by Paragraph (1) of this Subsection to be reported to law

enforcement officials shall be retained and secured by the school principal in such a manner as to

prevent the destruction, alteration, or disappearance of it until such time as the law enforcement

authority either takes custody of the implement or material or provides notice to the school principal that

it need no longer be retained. In the case that it need not be retained, the school principal shall comply

with his school board’s policy regarding disposal of the item.

(3) The failure of any principal or designated administrator to report the confiscation of such implement

or material or the failure to retain and secure such implement or material shall be reported by the law

enforcement authority to the employing school board which shall take disciplinary action pursuant to its

policy.

E. The provisions of this Section shall apply to the State Board of Elementary and Secondary Education

as it relates to state schools operated by the board in the same way it applies to city and parish school

boards.

§17:416.13. Student code of conduct; requirement.

A. The governing authority of each public elementary and secondary school shall adopt a student code of

conduct for the students in the schools under its jurisdiction. The code of conduct shall be in compliance
with all existing rules, regulations, and policies of the local school governing authority and of the State Board of Elementary and Secondary Education and all state laws relative to student discipline and shall include any necessary disciplinary action to be taken against any student who violates the code of conduct.

B. The governing authority of each public elementary and secondary school shall adopt, and incorporate into the student code of conduct, a policy prohibiting the bullying of a student by another student, which includes the definition of bullying as provided in R.S. 17:416.14. This policy must be implemented in a manner that is ongoing throughout the school year and integrated with a school's curriculum, a school's discipline policies, and other violence prevention efforts.

   (b) The pattern of behavior as provided in Paragraph (1) of this Subsection shall have the effect of physically harming a student, placing the student in reasonable fear of physical harm, damaging a student's property, placing the student in reasonable fear of damage to the student's property, or shall be sufficiently severe, persistent, and pervasive enough to either create an intimidating or threatening educational environment, have the effect of substantially interfering with a student's performance in school, or have the effect of substantially disrupting the orderly operation of the school.

B. Each elementary and secondary school shall institute a program to prohibit and prevent bullying. The program shall:

(1) Define bullying as provided in Subsection A of this Section.

(2) Ensure each student, each student's parent or legal guardian, and each school administrator, teacher, counselor, bus operator, school employee, and volunteer is aware of his duties and responsibilities relative to preventing and stopping bullying.

(1) Conduct a review of the student code of conduct required by this Section and amend the code as may be necessary to assure that the policy prohibiting the bullying of a student by another student specifically addresses the behavior constituting bullying, the effect the behavior has on others, including bystanders, and the disciplinary and criminal consequences, and includes the definition of bullying as provided in Subsection C of this Section.

(2) Create a program to provide a minimum of four hours of training for new employees who have contact with students and two hours of training each year for all school employees who have contact with students, including bus operators, with respect to bullying. The training shall specifically include the following:

   (c) How to use appropriate intervention and remediation techniques and procedures.

   (d) The procedures by which incidents of bullying are to be reported to school officials.

   (e) Information on suicide prevention, including the relationship between suicide risk factors and bullying. This content shall be based on information supported by peer-reviewed research conducted in compliance with accepted scientific methods and recognized as accurate by leading professional organizations and agencies with relevant experience.

D. The State Board of Elementary and Secondary Education, in collaboration with the state Department of Education, shall develop and adopt rules and regulations to implement the provisions of this Section relative to the procedures and processes to be used to report and investigate bullying and which shall include but not be limited to:

1. Notice to Students and Parents. - The governing authority of each public elementary and secondary school shall inform each student, orally and in writing at the orientation required under R.S. 17:416.20, of the prohibition against bullying of a student by another student, the nature and consequences of such actions, including the potential criminal consequences and loss of driver's license as provided in R.S. 17:416.1, and the proper process and procedure for reporting any incidents involving such prohibited actions. A copy of the written notice shall also be delivered to each student's parent or legal guardian.

2. (a) Reporting. - The governing authority of each public elementary and secondary school shall develop a procedure for the reporting of incidents of bullying. This shall include a form for the purposes of bullying reports. The form shall include an affirmation of truth of statement. Any bullying report submitted regardless of recipient shall use this form, but additional information may be provided. The form shall be available on the Department of Education's website and the website of each public elementary and secondary school.

   (b) Students and parents. – Any student who believes that he has been, or is currently, the victim of bullying, or any student, or any parent or legal guardian, who witnesses bullying or has good reason to believe bullying is taking place, may report the situation to a school official. A student, or parent or guardian, may also report concerns regarding bullying to a teacher, counselor, other school employee, or to any chaperone or supervising a school function or activity. Any report of bullying shall remain confidential.

   (c) School personnel. - School personnel. Any teacher, counselor, bus operator, or other school employee, whether full- or part-time, and any chaperone or supervising a school function or activity, who witnesses bullying or who learns of bullying pursuant to Subparagraph (b) of this Paragraph, shall report the incident to a school official. A verbal report shall be submitted by the school employee or the parent on the same day as the employee or parent witnessed or otherwise learned of the bullying incident, and a written report shall be filed no later than two days thereafter.
(d) Retaliation. - Retaliation against any person who reports bullying in good faith, who is thought to have reported bullying, who files a complaint, or who otherwise participates in an investigation or inquiry concerning allegations of bullying is prohibited conduct and subject to discipline. School and district resources shall not be used to prohibit or dissuade any person who meets the specifications of this Item.

(e) False Reports. - Intentionally making false reports about bullying to school officials is prohibited conduct and will result in the appropriate disciplinary measures as determined by the governing authority of the school in accordance with the rules and regulations of the State Board of Elementary and Secondary Education.

(3) Investigation Procedure. - The State Board of Elementary and Secondary Education shall develop and adopt a procedure for the investigation of reports of bullying of a student by another student. The procedure shall include the following:

(a) Scope of investigation. - An investigation shall include an interview of the reporter, the victim, the alleged bully, and any witnesses, and shall include obtaining copies or photographs of any audio-visual evidence.

(b) Timing. - The school shall begin an investigation of any complaint that is properly reported and that alleges conduct prohibited in this Section the next business day during which school is in session after the report is received by the school official. The investigation shall be completed not later than ten school days after the date the written report of the incident is submitted to the appropriate school official. If additional information is received after the end of the ten-day period, the school principal or his designee shall amend all documents and reports required by this Section to reflect such information.

(c) Appeal.

(i) If the school official does not take timely and effective action pursuant to this Section, the student, parent or legal guardian, or school employee may report the bullying incident to the local school governing authority. The governing authority shall begin an investigation of any complaint that is properly reported and that alleges conduct prohibited in this Section the next business day during which school is in session after the report is received by the or governing authority official.

(ii) If the local school governing authority does not take timely and effective action, the student, parent or legal guardian, or other school employee may report the bullying incident to the state Department of Education. The department shall track the number of reports, shall notify in writing the superintendent and the president of the school's governing authority, and shall publish the number of reports by school district or governing authority on its website. (ii) Under no circumstances shall the delivery of the notice to the parent or legal guardian, which is required by this Subsection, be the responsibility of an involved student. Delivery of the notice by an involved student shall not constitute notice as is required pursuant to this Subsection.

(iii) Before any student under the age of eighteen is interviewed, his parent or legal guardian shall be notified by the school official of the allegations made and shall have the opportunity to attend any interviews with his child conducted as part of the investigation. If, after three attempts in a forty-
eight-hour period, the parents or legal guardians of a student cannot be reached or do not respond, the student may be interviewed.

(iv) The State Board of Elementary and Secondary Education, in collaboration with the state Department of Education, shall develop a procedure for meetings with the parent or legal guardian of the victim and the parent or legal guardian of the alleged perpetrator. This procedure shall include:

(aa) Separate meetings with the parents or legal guardians of the alleged victim and the parents or legal guardians of the alleged perpetrator.

(bb) Notification of parents or legal guardians of the alleged victim and of the alleged perpetrator of the available potential consequences, penalties, and counseling options.

The principal may file a complaint pursuant to Children's Code Article 730(1) or any other applicable ground when, in his judgment, doing so is in the best interests of the student.

(e) Disciplinary Action. - If the school has received a report of bullying, has determined that an act of bullying has occurred, and after meeting with the parent or legal guardian of the students involved, the school official shall:

(i) Take prompt and appropriate disciplinary action against the student that the school official determines has engaged in conduct which constitutes bullying, if appropriate.

(ii) The parent or legal guardian shall file a request with the local school superintendent for the transfer of the student to another school under the governing authority's jurisdiction.

(iii) The governing authority of the public elementary or secondary school in which the student is enrolled shall make a seat available at another public elementary or secondary school under its jurisdiction within ten school days of the parent or legal guardian's request for a transfer. If the governing authority has no other school under its jurisdiction serving the grade level of the alleged victim, within fifteen school days of receiving the request, the superintendent or director of the governing authority shall:

(aa) Inform the student and his parent or legal guardian and facilitate the student's enrollment in a statewide virtual school.

(bb) Offer the student a placement in a full-time virtual program or virtual school under the jurisdiction of the school's governing authority.

serving the grade level of the alleged victim under the jurisdiction of the cooperating governing authority, pursuant to R.S. 17:105 and 105.1.

(iv) If no seat or other placement pursuant to Item (iii) of this Subparagraph is made available within thirty calendar days of the receipt by the local school superintendent of the request, the parent or legal guardian may request a hearing with the school's governing authority, which shall be public or private at the option of the parent or legal guardian. The school's governing authority shall grant the hearing at the next scheduled meeting or within sixty calendar days, whichever is sooner.

(v) At the end of any school year, the parent or legal guardian may make a request to the governing authority of the school at which the student was enrolled when at least three of the reports were filed to transfer the student back to the school. The governing authority shall make a seat available at the school at which the student was originally enrolled. No other schools shall qualify for transfer under this Subparagraph.

(g) Documentation.

(i) The state Department of Education shall develop a behavior incidence checklist that the governing authority of each public elementary and secondary school shall use to document the details of each reported incident of bullying.

(ii) The governing authority of each public elementary and secondary school shall report all such documented incidences of bullying to the state Department of Education as prescribed in rules adopted by the State Board of Elementary and Secondary Education in accordance with the Administrative Procedure Act and documented incidents in reports received by the local superintendent of schools pursuant to R.S. 17:415.

(iii) After the investigation and meeting with the parents or legal guardians of each involved student, pursuant to this Section, a school or local school governing authority shall:

(aa) Compose a written document containing the findings of the investigation, including input from the involved students’ parents or legal guardian, and the decision by the school or school system official. The document shall be placed in the school records of each involved student.

(bb) Promptly notify the complainant of the findings of the investigation and that remedial action has been taken, if such release of information does not violate the law.

(cc) Keep complaints and investigative reports confidential, except as provided in this Section and where disclosure is required to be made pursuant to 20 U.S.C. 1232g or by other applicable federal laws, rules, or regulations or by state law.

(dd) Maintain complaints and investigative reports for three years in the event that disclosure is warranted by law enforcement officials.

(ee) As applicable, provide a copy of any reports and investigative documents to the governing authority of the school.

Upon receipt, the department shall remove any reports related to the investigative documents from notation on the department's website, but shall maintain a record of those reports for three years.

(gg) As applicable, provide a copy of any reports and investigative documents to the appropriate law enforcement officials.

E. F. This Section shall not be interpreted to conflict with or supersede the provisions requiring mandatory reporting pursuant to Louisiana Children's Code Article 609 and as enforced through R.S. 14:403.
G. Preclusion.

(1) This Section shall not be interpreted to prevent a victim of bullying, or his parent or legal guardian,
from seeking redress under any other available law, either civil or criminal.

(2) Nothing in this Section is intended to infringe upon the right of a school employee or student to
exercise their right of free speech.

H. Construction; equal protection. - All students subject to the provisions of this Section shall be protected
equally and without regard to the subject matter or the motivating animus of the bullying.

I. The State Board of Elementary and Secondary Education shall adopt rules to require all approved
nonpublic schools to implement bullying policies to those required of public schools.

J. Failure to act. (1) Any teacher, counselor, bus operator, administrator, or other school employee,
whether full- or part-time, who witnesses bullying or who receives a report of bullying from an alleged
victim, and who fails to report the incident to a school official shall be investigated by the school governing
authority. Upon finding a reasonable expectation that the individual failed to act, the school governing
authority shall suspend the individual without pay. The length of the suspension shall be determined by
the school’s governing authority based on the severity of the bullying inflicted on the victim. The
school governing authority shall report each finding of a failure to report and the length of suspension
issued to each employee who failed to report to the state Department of Education.

(2) Any school administrator or official who fails to notify a parent or legal guardian of a report of bullying,
timely investigate a report of bullying, take prompt and appropriate disciplinary action against a
student that was determined to have engaged in bullying, or report criminal conduct to the appropriate
law enforcement official shall be investigated by the school governing authority. Upon finding a
reasonable expectation that the individual failed to act, the school governing authority shall suspend
the individual without pay. The length of the suspension shall be determined by the school’s
governing authority based on the severity of the bullying inflicted on the victim. The
school governing authority shall report each finding of a failure to report bullying and the length of suspension issued to the employee who failed to report to the department. The report shall be submitted by August first annually.

(3) The department shall provide a report to the state board on the number of reports of failures to report
bullying received by the department from school governing authorities. The report shall be submitted
by September first annually.

least one hour of hazing prevention education that includes education relative to such policies to all members, prospective members, and anyone who is employed by or volunteers with the organization. The education may be provided in person, electronically, or both. Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of March 2023. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

It is expected that many of the needed policies are already in existence, but it may be necessary to adopt additional policies. Once all appropriate local policies have been adopted, these would become the rules and regulations required. The set of policies must then be submitted to the Commissioner prior to October 1, 1978. Any subsequent policy changes must be submitted upon adoption.

§1001. Duties of school boards.
School boards shall perform the following duties.

15-A. School disciplinary policies. When revising the prescribed consequences for violation of the student code of conduct pursuant to subsection 15, paragraph C, a school board shall consider districtwide disciplinary policies that:

A. Focus on positive interventions and expectations and avoid focusing exclusively on unacceptable student behavior. For the purpose of this subsection, "positive interventions" means instructional and environmental supports that are designed to teach students prosocial alternatives to problem behaviors with high rates of positive feedback;

B. Focus on positive and restorative interventions that are consistent with evidence-based practices rather than set punishments for specific behavior and avoid so-called zero-tolerance practices unless specifically required by federal or state laws, rules or regulations. For the purpose of this paragraph, "restorative interventions" means school practices that are designed to strengthen relationships, improve the connection to school and promote a strong sense of accountability and that help students learn from their mistakes, understand the impact of their actions on others and find opportunities to repair the harm they have caused through their misbehavior.

§6554. Prohibition on bullying in public schools.

2. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Alternative discipline" means disciplinary action other than suspension or expulsion from school that is designed to correct and address the root causes of a student's specific misbehavior while retaining the student in class or school, or restorative school practices to repair the harm done to relationships and persons from the student's misbehavior. "Alternative discipline" includes, but is not limited to:

   (1) Meeting with the student and the student's parents;
(2) Reflective activities, such as requiring the student to write an essay about the student's misbehavior;

(3) Mediation when there is mutual conflict between peers, rather than one-way negative behavior, and when both parties freely choose to meet;

(4) Counseling;

(5) Anger management;

(6) Health counseling or intervention;

(7) Mental health counseling;

(8) Participation in skills building and resolution activities, such as social-emotional cognitive skills building, resolution circles and restorative conferencing;

(9) Community service; and

(10) In-school detention or suspension, which may take place during lunchtime, after school or on weekends. [...]  

5. Adoption of Policy. When revising the policies and procedures it has established to address bullying pursuant to section 1001, subsection 15, paragraph H, a school board shall ensure that its policies and procedures are consistent with the model policy developed or revised by the commissioner pursuant to section 254, subsection 11-A. The policies and procedures must include, but are not limited to:

G. A clear statement that any person who engages in bullying, who is determined to have knowingly and falsely accused another of bullying or who engages in acts of retaliation against a person who reports a suspected incident of bullying is subject to disciplinary actions, which actions may include but are not limited to imposing a series of graduated consequences that include alternative discipline.

§6555. Dangerous behavior prevention and intervention.

2. Report of incident of dangerous behavior. Upon receipt of a report of an incident of dangerous behavior made by a teacher or school staff person, a school administrative unit shall review the reported incident and develop an individualized response plan in accordance with this subsection. The review of the reported incident must be conducted by an administrator and an assigned public school employee. If the report of the incident of dangerous behavior is substantiated, the school administrative unit shall, in consultation with the public school employee who was subjected to the dangerous behavior, if any, develop an individualized response plan to avoid future dangerous behavior, which may include but is not limited to:

D. Restorative practices and restorative interventions as defined in section 1001, subsection 15-A, paragraph B.

REGULATIONS

05-071 CMR 33.1. Policy and purpose.

This rule establishes standards for the use of physical restraint and seclusion to provide for the safety of all individuals. Physical restraint and seclusion may only be used as an emergency intervention when the behavior of a student presents a risk of injury or harm to the student or others.
05-071 CMR 33.2. Definitions.

1. Aversive procedure means the use of a substance or stimulus, intended to modify behavior, which the person administering it knows or should know is likely to cause physical and/or emotional trauma to a student, even when the substance or stimulus appears to be pleasant or neutral to others. Such substances and stimuli include but are not limited to: infliction of bodily pain, (e.g. hitting, pinching, slapping), water spray, noxious fumes, extreme physical exercise, costumes, or signs.

2. Behavior Intervention Plan (BIP) is a comprehensive plan for managing problem behavior by changing or removing contextual factors that trigger or maintain it, and by strengthening replacement skills.

3. Chemical Restraint is the use of medication, including those administered PRN (as needed), given involuntarily to control student behavior.

4. 6. Dangerous Behavior is behavior that presents a risk of injury or harm to a student or others.

7. Emergency is a sudden, urgent occurrence, usually unexpected but sometimes anticipated, that requires immediate action.

8. Functional Behavioral Assessment (FBA) is a school-based process that includes the parent and, as appropriate, the child, to determine why a child engages in challenging behaviors and how the behavior relates to the child's environment. The term includes direct assessments, indirect assessments and data analysis designed to assist the team to identify and define the problem behavior in concrete terms, identify the contextual factors (including affective and cognitive factors) that contribute to the behavior, and formulate a hypothesis regarding the general conditions under which a behavior usually occurs and the probable consequences that maintain the behavior. Formal documentation of the assessment by appropriately qualified individuals becomes part of the child's educational record.

9. Risk of injury or harm describes a situation in which a student has the means to cause physical harm to self or others and such injury or harm is likely to occur; such that a reasonable and prudent person would take steps to protect the student and others against the risk of such injury or harm.

16. Physical Restraint is an intervention that restricts a student's freedom of movement or normal access to his or her body, and includes physically moving a student who has not moved voluntarily. Physical restraint does not include:
   A. Physical escort;
   B. Physical prompt;
   C. Physical contact when the purpose of the intervention is to comfort a student and the student voluntarily accepts the contact;
   D. Momentarily deflecting the movement of a student when the student's movement would be destructive, harmful or dangerous to the student or to others;
   E. The use of seat belts, safety belts or similar passenger restraint, when used as intended, during the transportation of a child in a motor vehicle; or
   F. The use of a medically prescribed harness, when used as intended; or

23. Timeout is an intervention where a student requests, or complies with an adult request for, a break, and is not covered by this rule. Timeout is not seclusion.

05-071 CMR 33.4. Local policy; Notice to parents.

1. Local Policy Required

All covered entities shall have local policies, consistent with this rule, regarding the use of physical restraint and seclusion. Covered entities must also have a procedure available by which parents may submit a complaint regarding the use of physical restraint or seclusion on their child, based upon which the covered entity shall investigate the circumstances surrounding the incident complained of, make written findings and, where appropriate, determine to take corrective action.

Covered entities shall revise existing policies or develop policies consistent with this rule within 90 calendar days of the effective date of this rule.

   B. Seclusion must be implemented by staff certified in a state-approved training program to the extent possible. If, due to the nature of the emergency, untrained staff have intervened and initiated a seclusion, trained personnel must be summoned to the scene and assume control of the situation as rapidly as possible.

   B. Physical restraint must be implemented by staff certified in a state-approved training program to the extent possible. If, due to the nature of the emergency, untrained staff have intervened and initiated a physical restraint and if the need for physical restraint continues, trained personnel must be summoned to the scene and must assume control of the situation as rapidly as possible.

   C. Physical restraint may be used to move a student only if the need for movement outweighs the risks involved in such movement.

   D. Protective equipment or devices that are part of a treatment plan as prescribed by a licensed health care provider are not prohibited by this rule.

2. Prohibited forms and uses of physical restraint

section and identify those areas that can be addressed to reduce the future use of physical restraint and
seclusion. These cumulative reports may be requested by the Department of Education at any time.

2. Reporting Data to the Department of Education

Each covered entity shall submit to the Department of Education an annual report of the incidence of
physical restraint and seclusion that must include:

REGULATIONS
05-071 CMR 127.3. General requirements K-12.
Each school administrative unit shall provide programs and instructional approaches that support the variety of learning styles of the students in the schools of the unit. The school board shall adopt a policy that provides all students with equitable opportunities to access the content standards of the system of Learning Results.

3.04 Alternative Programs
A. Role of Alternative Programs
A school administrative unit may establish or participate in one or more programs as alternatives to the regular course of study to meet the needs of students at risk. Alternative programs shall support student social and behavioral development in addition to performance on the content standards of the system of Learning Results.

These programs shall have stated goals, objectives, and procedures for implementing and assessing their effectiveness. Such programs may include interventions such as programs outside the school...
administrative unit, specialized instructional settings, extended or shortened school day, or extended school year, and may be scheduled outside of the regular school day, if appropriate.

B. Procedural Requirements

School administrative units shall develop a Personal Learning Plan, aligned with the system of Learning Results, for every K-12 student enrolled in an alternative program. Each Personal Learning Plan shall include, but not be limited to, the following components:

1. A description of the student's academic strengths and the observable or measurable areas in need of improvement.
2. A description of the annual educational goals, aligned with the content standards and performance indicators of the system of Learning Results, that the student may reasonably be expected to achieve during the school year.
3. A description of short-term instructional objectives leading to each annual educational goal.
4. A description of the social and behavioral needs that must be addressed for the student to achieve academic success, including strategies to keep the student in school.
5. A description of the multiple measures that will provide evidence that the student has achieved each goal.
6. For secondary school students, a description of the student's career goals and transitional steps to achieve them.

05-071 CMR 128.1. Intent.

Generally, the intent of L.D. 1851 is to require school officials to give increased attention to those pupils who are habitual truants and dropouts. Such attention will include record keeping relative to the actual numbers of pupils who are, by definition, habitual truants and dropouts; determining the reasons for each occurrence; providing appropriate alternative programs designed to promote these pupils' return to school; and providing appropriate alternative programs designed to prevent pupils from becoming habitual truants and dropouts.

05-071 CMR 128.13. Developing alternative programs.

The legislation encourages school units to establish alternative programs for dropouts and chronic (habitual) truants. Although the word "encouraged" is used, the primary intent of the legislation is to provide school units with the authority to establish programs for the identified pupils.

When developing alternative programs, local school officials should give consideration to the following questions:

A. Do the programs provide for academic and non-academic pursuits in accordance with the needs of the individual student?
B. Do the programs include that which is necessary for meeting curriculum and graduation requirements provided by statute or local board policy?
C. Do the programs provide adequate instructional time equivalent to that required for regular school programs?
D. Are adequate instructional materials provided?
E. Can the programs be evaluated in terms of meeting stated objectives?

Alternative programs may be developed and conducted under the direction of local school officials and may become operative within present school facilities during the regular school day. Likewise, alternative programs may be operated under the direction of local school officials outside the regular school facilities and school day. Regardless of which approach is followed, criteria should be developed to determine pupil eligibility for participation in these programs. A description of locally developed alternative programs is to be filed with this Department and the reporting process can be accomplished by using the data collection form.
It is possible that alternative programs may already exist or could be developed completely apart from local school jurisdiction. These programs could be operated by private individuals, groups, or agencies. If programs operated outside the school by private individuals, groups, or agencies seem appropriate in meeting the needs of the pupil, criteria for the programs should be developed by the local school officials and they should serve as a guide for the local approval of these programs. Such criteria should include the following:

A. The instruction is provided by qualified individuals. The qualifications might be evidenced by a valid teaching credential, a valid license (trade, etc.) in the area of content being presented, or expertise gained through long experience in the content of the specific program (adult education programs).

B. The quality of instruction is equivalent to that provided in the regular public school.

C. The facilities housing the program meet all fire safety, health, and sanitation standards.

D. The program is designed to provide adequate instructional time to meet its stated objectives.

E. There is provision for program evaluation.

Any alternative programs developed under this legislation shall be submitted to the local school board for approval.

05-071 CMR 128.14. Units unable to provide alternative programs.

In the legislation, provision is made for schools unable to provide an alternative program for chronic (habitual) truants and dropouts. In this instance, schools may tuition pupils to neighboring administrative units or to private schools; it is necessary that policies and procedures be developed to accommodate this practice. All receiving schools must be approved by this office under the basic school approval program.

Record keeping procedures should be locally developed for maintaining records of pupils enrolled in alternative programs on the basis of .1 pupil for each semester credit course or its equivalent leading toward a high school graduation. Such records will also be necessary for pupils tuitioned to neighboring units or private schools. Any pupil enrolled in an alternative program shall be counted on the rolls of the sending unit for subsidy purposes. No pupil shall be counted in the aggregate as more than 1.0.

05-071 CMR 128.16. Parental approval of alternative programs.

Regardless of what type of alternative program arrangement is determined for each individual pupil, local school officials should prepare a form for parents to sign to approve the alternative arrangement. Parents should be included in the total process and should provide evidence to the school officials that they understand what has taken place.

1) A person who possesses an unloaded firearm for use in a supervised educational program approved and authorized by the school board and for which the school board has adopted appropriate safeguards to ensure student safety; and

2) A person who possesses an unloaded firearm that is stored inside a locked vehicle in a closed container, a zipped case or a locked firearms rack while the person is attending a hunter's breakfast or similar event that:
   (a) Is held during an open firearm season established under Title 12, Part 13 for any species of wild bird or wild animal;
   (b) Takes place outside of regular school hours; and
   (c) Is authorized by the school board.

C. The prohibition on possession and discharge of a firearm does not apply to a person possessing a firearm at a school-operated gun range or a person discharging a firearm as part of a school-sanctioned program at a school-operated gun range if the gun range and the program are authorized by a written policy adopted by the school's governing body.

3. Penalty. A person who violates this section is guilty of a Class E crime.

§5051-A. Truancy.
1. Truant. A student is truant if the student is subject to section 5001-A and:
   B. Has completed grade 6 and has the equivalent of 10 full days of unexcused absences or 7 consecutive school days of unexcused absences during a school year;

2. Procedures; written notice; referral. This subsection governs the procedure to be followed when a student is truant.
   A-1. The principal, upon determining that a student is truant under subsection 1, shall notify the superintendent of the student's truancy within 5 school days of the last unexcused absence.
   A-2. A student who is determined truant under subsection 1 must be referred to the school's student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 to determine the cause of the truancy and assess the effect of the student's absences, as well as any future absences for the student. If it is determined that a negative effect exists, the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 shall develop an intervention plan to address the student's absences and the negative effect of these absences. An intervention plan may include, but is not limited to:

B-1. The notice must:

1. State that the student is required to attend school pursuant to section 5001-A;
2. Explain the parent's right to inspect the student's attendance records, attendance coordinator's reports and principal's reports;

D. Prior to notifying the local law enforcement department under paragraph E, the superintendent shall schedule at least one meeting as required in paragraph B-1 and may invite a local prosecutor.

E. If, after 3 school days after service of the notice referred to in paragraph C, the student remains truant and the parent and student refuse to attend the meeting scheduled according to paragraph D, the superintendent shall report the facts of the unlawful absence to the local law enforcement department, which may proceed with an action to enforce section 5053-A against the parent unless the student is at once placed in an appropriate school or otherwise meets the requirements under section 5001-A.

F. When a student is determined to be truant and in violation of section 5001-A and the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 and the superintendent have made a good faith attempt to meet the requirements of paragraph B-1, the superintendent shall notify the school board of the student's truancy.

REGULATIONS

05-071 CMR 128.1. Intent.

Generally, the intent of L.D. 1851 is to require school officials to give increased attention to those pupils who are habitual truants and dropouts. Such attention will include record keeping relative to the actual numbers of pupils who are, by definition, habitual truants and dropouts; determining the reasons for each occurrence; providing appropriate alternative programs designed to promote these pupils' return to
school; and providing appropriate alternative programs designed to prevent pupils from becoming habitual truants and dropouts.

05-071 CMR 128.4. Recording unexcused absences.

It will be necessary to give attention to more specific documentation of pupils' unexcused absences. Pertinent items relative to this are as follows:

A. The record keeping process must begin immediately following the first unexcused absence.
B. The date of the unexcused absence is to be recorded.
C. Information is to be documented indicating what steps were taken to determine the reason(s) for the unexcused absence.

All public and private schools shall obtain and maintain this information on all truants n1 whether they are educated at public or private expense.

05-071 CMR 128.5. Documentation relating to habitual truants.

Once a child has become habitually truant as defined in 20 MRSA 914, n2 the procedures adopted in 20 MRSA 911, sub-section 5, shall be adhered to. Attention must be given to regulations concerning confidentiality.

n1 A truant is a child who has an unexcused absence of one-half day or more.

n2 A child is determined to be an habitual truant if he is absent from school the equivalent of 10 full days or for one-half of a day on 7 consecutive school days within any 6-month period for other than an excusable absence as referred to in Section 911.

05-071 CMR 128.6. Tuition students.

Local school administrative units are responsible for providing education for all children of compulsory school age who legally reside within the geographical area of the units. If any child attends school outside the unit of legal residence and becomes truant in the receiving school, the superintendent or principal of the receiving school unit must notify the superintendent of the sending school unit and it becomes the responsibility of the sending unit to locate the truant child.

Once a child becomes an habitual truant, the principal of the public or private school of attendance shall forward to the superintendent of the sending unit all information relative to the unexcused absences of the habitual truant and which has been maintained on file. It then becomes the responsibility of the superintendent and school board to follow the procedures as outlined in the legislation.

05-071 CMR 128.12. School board policies required.

You will note on the first page of Section 911, sub-section 5, the statement requiring local boards to promulgate rules and regulations and to file a copy of these with the Commissioner. Such rules and regulations will be included in school board policies on the subjects identified in the legislation. It is expected that many of the needed policies are already in existence, but it may be necessary to adopt additional policies. Once all appropriate local policies have been adopted, these would become the rules and regulations required. The set of policies must then be submitted to the Commissioner prior to October 1, 1978. Any subsequent policy changes must be submitted upon adoption.

From a review of this legislation, it is apparent that policies are needed in the following areas:

A. Excused absences - Although excused absences are specifically identified in the legislation, policies are needed to provide guidance to local administrators.
B. Unexcused absences - All absences that are not included in # 1 above are unexcused absences.
C. Information required to be maintained on truant pupils
   1. What to collect
   2. How to maintain
3. Adherence to confidentiality

D. Procedures for referral of truancy matters from the principal to the superintendent.

E. Procedures for referral of truancy matters from the superintendent to the school board.

F. Procedures for notification of parents regarding hearing before the school board.

G. Procedures for waiving of compulsory attendance and for parent appeal if attendance is waived.

H. Procedures for bringing legal action against the parent under sub-section 8 of 20 MRSA 911.

I. Procedures for pupil to obtain work permit.

J. Procedures for excusing 14 year-old pupil for "suitable program of work, work study or training" and procedures for involving pupil in program selection.

It is possible that some policies addressing the preceding areas are already in effect through the Positive Action Committee Dropout Plan. You are, therefore, reminded to coordinate the development of the rules and regulations required under this legislation with the local plan for dealing with dropouts which is required by statute (20 MRSA 931-933).

05-071 CMR 128.13. Developing alternative programs.

The legislation encourages school units to establish alternative programs for dropouts and chronic (habitual) truants. Although the word "encouraged" is used, the primary intent of the legislation is to provide school units with the authority to establish programs for the identified pupils.

05-071 CMR 128.14. Units unable to provide alternative programs.

In the legislation, provision is made for schools unable to provide an alternative program for chronic (habitual) truants and dropouts. In this instance, schools may tuition pupils to neighboring administrative units or to private schools; it is necessary that policies and procedures be developed to accommodate this practice. All receiving schools must be approved by this office under the basic school approval program.

Record keeping procedures should be locally developed for maintaining records of pupils enrolled in alternative programs on the basis of .1 pupil for each semester credit course or its equivalent leading toward a high school graduation. Such records will also be necessary for pupils tuitioned to neighboring units or private schools. Any pupil enrolled in an alternative program shall be counted on the rolls of the sending unit for subsidy purposes. No pupil shall be counted in the aggregate as more than 1.0.

A student participating in interscholastic sports may not use a performance-enhancing substance on the list of banned substances developed and maintained under section 6621. School boards shall perform the following duties.

15-A. School disciplinary policies. When revising the prescribed consequences for violation of the student code of conduct pursuant to subsection 15, paragraph C, a school board shall consider districtwide disciplinary policies that:
A. Focus on positive interventions and expectations and avoid focusing exclusively on unacceptable student behavior. For the purpose of this subsection, "positive interventions" means instructional and environmental supports that are designed to teach students prosocial alternatives to problem behaviors with high rates of positive feedback;

B. Focus on positive and restorative interventions that are consistent with evidence-based practices rather than set punishments for specific behavior and avoid so-called zero-tolerance practices unless specifically required by federal or state laws, rules or regulations. For the purpose of this paragraph, "restorative interventions" means school practices that are designed to strengthen relationships, improve the connection to school and promote a strong sense of accountability and that help students learn from their mistakes, understand the impact of their actions on others and find opportunities to repair the harm they have caused through their misbehavior;

C. Allow administrators to use their discretion to fashion appropriate discipline that examines the circumstances pertinent to the case at hand; and

D. Provide written notice to the parents of a student when a student is suspended from school, regardless of whether the suspension is an in-school or out-of-school suspension.

If the report of the incident of dangerous behavior is substantiated, the school administrative unit shall, in consultation with the public school employee who was subjected to the dangerous behavior, if any, develop an individualized response plan to avoid future dangerous behavior, which may include but is not limited to:

C. Providing positive behavioral interventions and supports and supports designed to address the consequences of trauma in the individual and training for the student and educators.

REGULATIONS

05-071 CMR 125.5. Other minimum requirements.

5.18 Multi-tiered System of Support

All school administrative units are required to develop and implement a multi-tiered system of support, kindergarten to grade 12, that provides each child with differentiated learning experiences and/or assistance to achieve social and emotional development, meet the content standards of the system of Learning Results, and graduation requirements. These supports must be specific, timely, and based upon ongoing formative assessments that continuously monitor student progress. Public Law 2019, Chapter 219.

A multi-tiered system of support has three distinct levels of intervention available to general education students:

Tier I - Universal Supports. This tier begins with the implementation of core, curriculum, including strategies to assist student development and learning. Typically, these supports are differentiated based on student need and provided to all students within the classroom. Tier I supports continue when Tier II or Tier III interventions are added.

Tier II - Targeted Supports. Supplemental instruction or supports provided to students in addition to Tier
1. These may be provided by qualified staff, including, but not limited to, the classroom teacher, an intervention specialist, or an authorized Educational Technician. Targeted support may involve more intensive practice and/or monitoring of regular classroom activities.

Tier III - Intensive Supports. Intensive instruction or supports provided to students through small group or one-to-one interventions, within the classroom or through an individualized environment, with an increased focus on teaching specific skills.

While there may be variations in how school administrative units develop and implement a multi-tiered system of support, the systems must include:

- Assurance that every child is provided with evidence-based core (Tier 1) academic instruction and positive behavioral and social/emotional supports;
- A collection of evidence-based, academic, behavioral, and social/emotional Tier II and III interventions that are available for students who need them;
- A team-based process to review children's progress and evaluate whether students who are struggling in any academic, behavioral, or social/emotional area may need more intensive Tier II or III support;
- A consistent process of valid, reliable, and age appropriate screening and progress monitoring to evaluate student progress at all tiers;
- A method to determine whether a child's assessed challenges are likely the result of trauma, linguistic, and/or cultural experiences;
- A mechanism for including parents in decision-making about a child's potential participation in Tier II or III activities; and
- Provisions for supports to continue during any subsequent special education referral.

The parent may request that a full and individual evaluation for possible special education eligibility determination be conducted at any time during the multi-tiered system of support review process.

For the purpose of this subsection, "positive interventions" means instructional and environmental supports that are designed to teach students prosocial alternatives to problem behaviors with high rates of positive feedback;

B. Focus on positive and restorative interventions that are consistent with evidence-based practices rather than set punishments for specific behavior and avoid so-called zero-tolerance practices unless specifically required by federal or state laws, rules or regulations. For the purpose of this paragraph, "restorative interventions" means school practices that are designed to strengthen relationships,
improve the connection to school and promote a strong sense of accountability and that help students learn from their mistakes, understand the impact of their actions on others and find opportunities to repair the harm they have caused through their misbehavior.

Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2023
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

REGULATIONS

13A.08.01.11. Disciplinary action.
A. Local Board Authority. Each local board of education has both the responsibility and authority to adopt policies designed to create safe schools. In the context of school discipline, by the beginning of school year 2014-2015, each local board shall review and revise its student discipline policies and regulations with the goal of maintaining an environment of order, safety, and discipline necessary for effective learning.
C. Suspension and Expulsion.
(3) Suspension for Not More Than 10 Days.
   (a) In accordance with the rules and regulations of the local board, each principal of a public school may suspend for cause, for not more than 10 school days, any student in the school who is under the direction of the principal, except as provided in § C(1) of this regulation.
   (b) The student or the student's parent or guardian promptly shall be given a conference with the principal and any other appropriate personnel during the suspension period.
   (c) At or before the conference, the student shall receive oral or written notice of the charges against him or her.    (d) A student whose presence in school poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process may be removed immediately from school, if the notice and conference required by this subsection is provided as soon as possible.
   (e) If the principal finds that an extended suspension or expulsion is warranted, the principal immediately shall report the matter in writing to the local superintendent.
(4) Suspension for More than 10 Days or Expulsion.
   (a) At the request of a principal, a local superintendent or the designated representative may suspend a student for more than 10 school days or expel the student, except as provided in § C(1) of this regulation.
   (b) Upon receipt of a written report from a principal requesting an extended suspension or expulsion, the local superintendent or designated representative promptly shall make a thorough investigation of the matter.

(d) The process described in § C(3)(a)-(c) of this regulation shall be completed by the 10th school day of the initial suspension. If additional time is necessary to complete the process, either because of delays due to parent or guardian unavailability or due to the complexity of the investigation, the student shall be allowed to return to school, unless the local superintendent or designated representative determines that the students return to school would pose an imminent threat of serious harm to other students or staff.

(e) If the student is not allowed to return to school after the 10th day, the superintendent or designee shall notify the student and the parent or guardian within 24 hours and provide the reasons for the delay in the process and the denial of reentry and send a copy of the notice to the State Superintendent of Schools;

(f) If after the conference the local superintendent or designated representative finds that an extended suspension or an expulsion is warranted, the student or the students parent or guardian may appeal to the local board within 10 days after the determination.

(g) If an appeal is filed, the local board or its designated committee or hearing officer shall have 45 days from the date the appeal was received to hear the appeal and issue a decision, as follows:

(i) This timeline period may be extended if the parent, guardian, or his/her representative requests additional time; and

(ii) This timeline shall also apply in the event that the local board elects to use a hearing examiner.

(h) If due to extraordinary circumstances or unusual complexity of a particular appeal, the local board determines that it will be unable to hear an appeal and issue a decision within 45 days, it may petition the State Superintendent for an extension of time.

(i) The student or the students parent or guardian or representative:

(i) Shall be provided the school systems witness list and a copy of the documents that the school system will present at the hearing 5 days before hearing; and

(ii) May bring counsel and witnesses to the hearing.

(j) Unless a public hearing is requested by the parent or guardian of the student, a hearing shall be held out of the presence of all individuals except those whose presence is considered necessary or desirable by the board.

(k) The appeal to the local board does not stay the decision of the county superintendent.

(l) The decision of the local board is final.

(5) A student expelled or suspended from school shall remain away from the school premises during those hours each school day when the school the student attends is in session, and may not participate in school-sponsored activities. The expelled or suspended student may return to the school premises during the prohibited hours only for attendance at a previously scheduled appointment, and if the student is a minor then only if accompanied by the student's parent or guardian.

(6) A student suspended or expelled from school shall be allowed to return to school on the day that the terms and conditions of the suspension or expulsion are met whether or not the student, parent, or guardian has filed an appeal of the suspension.

(7) If a student has been suspended or expelled, the principal may not return the student to the classroom without conferring with the teacher who referred the student to the principal, if the student was referred by a teacher, other teachers as appropriate, other appropriate school personnel, the student, and the student's parent or guardian.

(8) If a student's disruptive behavior results in action less than suspension, the principal shall confer with the teacher who referred the student to the principal before returning the student to that teacher's classroom. The principal may satisfy this requirement by consulting with the teacher before returning the student to the classroom.
(9) A local superintendent may deny attendance to a student who is currently expelled or on extended suspension from another school system for a length of time equal to that expulsion or extended suspension.
