**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. LAWS

16-1-14. Removal, isolation, or separation of pupils creating disciplinary problems; state approval necessary for rules implementing such measures; deprivation of right to equal and adequate education may not result.

Any city, county, or other local public school board shall, consistent with Section 16-28-12, prescribe rules and regulations with respect to behavior and discipline of pupils enrolled in the schools under its jurisdiction and, in order to enforce such rules and regulations, may remove, isolate, or separate pupils who create disciplinary problems in any classroom or other school activity and whose presence in the class may be detrimental to the best interest and welfare of the pupils of such class as a whole. Any rules and regulations adopted pursuant to this section shall be approved by the State Board of Education. Any such removal, isolation, or separation may not deprive such pupils of their full right to an equal and adequate education.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(e)(1) [...] The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(h). Nothing in this section shall be construed to prevent a local board of education from promulgating more stringent rules and regulations than those adopted on the state level, in order to foster and maintain a safe and drug-free environment in the public schools.

16-1-24.3. Local boards of education to implement policies requiring expulsion of students who possess firearms in school areas.

(a) All city and county boards of education shall develop and implement local policies and procedures requiring the expulsion of students, for a period of one year, who are determined to have brought to school or have in their possession a firearm in a school building, on school grounds, on school buses, or at other school-sponsored functions.
16-1-27. Use of electronic communication devices on school property.
(c) Each local board of education may adopt a local policy that pertains to pocket pagers, cellular telephones, and other electronic communication devices.

16-28-2.1. Adoption of standards for mandatory attendance policy; parents held accountable; enforcement.
The Legislature finds that mandatory attendance policies for schools differ from school system to school system throughout the State of Alabama. The State Board of Education shall adopt standards for a mandatory and enforceable attendance policy for all students in public schools in the State of Alabama. Parents shall be held accountable in accordance with Sections 16-28-12 and 16-28-7, for the failure of the child who is of compulsory attendance age to attend either public, private or church-school. Enforcement of this section shall lie with the local board of education and the juvenile court system.

16-6B-5. Local boards; safety and discipline accountability.
In addition to providing quality instruction in classrooms and fiscal soundness, all local boards of education shall be accountable for compliance with statutes and regulations regarding school safety and discipline. The State Department of Education shall send to all local boards of education and all local superintendents of education, on or before August 1 of each year, a manual containing all acts of the Legislature and all regulations promulgated by the State Board of Education which pertain to school safety and discipline. Within thirty (30) days of receipt of this manual, each local board of education shall provide to the State Board of Education a report, in the form prescribed by the State Department of Education, describing its compliance with these acts and regulations. If a local board of education is determined by the State Board of Education to have failed to comply in any material respect with these acts and regulations, the State Department of Education shall provide assistance to obtain compliance. If after one year, the State Board of Education determines that a local board of education refuses or fails to come into compliance with these acts and regulations, the State Superintendent of Education shall intervene in and assume the direct management and day-to-day operation of the local board of education for such period of time as the State Board of Education deems necessary to bring that local board of education into compliance with these acts and regulations.

16-28-12. Person in loco parentis responsible for child's school attendance and behavior; noncompliance; local boards to promulgate written behavior policy, contents, annual distribution, receipt to be documented; school officials required to report noncompliance; failure to report suspected violation; district attorneys vigorously to enforce provisions.
(a) Each parent, guardian, or other person having control or custody of any child required to attend school or receive regular instruction by a private tutor who fails to have the child enrolled in school or who fails to send the child to school, or have him or her instructed by a private tutor during the time the child is required to attend a public school, private school, church school, denominational school, or parochial school, or be instructed by a private tutor, or fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in any public school in accordance with the written policy on school behavior adopted by the local board of education pursuant to this section and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be guilty of a misdemeanor and, upon conviction, shall be fined not more than one hundred dollars ($100) and may also be sentenced to hard labor for the county for not more than 90 days. The absence of a child without the consent of the principal teacher of the public school he or she attends or should attend, or of the tutor who instructs or should instruct the child, shall be prima facie evidence of the violation of this section.
(c) Any parent, guardian, or other person having control or custody of any child enrolled in public school who fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in accordance with the written policy on school behavior adopted by the local board of education and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be reported by the principal to the superintendent of education of the school system in which the suspected violation occurred. The superintendent of education or his or her designee shall report suspected violations to the district attorney within 10 days. Any principal or superintendent of education or his or her designee intentionally failing to report a suspected violation shall be guilty of a Class C misdemeanor. The district attorney shall vigorously enforce this section to ensure proper conduct and required attendance by any child enrolled in public school.

16-28A-1. Legislative findings.

It is the finding of the Alabama Legislature that the people of Alabama have two basic expectations of their public schools: (1) that students be allowed to learn in a safe classroom setting where order and discipline are maintained; and (2) that students learn at the level of their capabilities and achieve accordingly. The Legislature finds further that every child in Alabama is entitled to have access to a program of instruction which gives him or her the right to learn in a non-disruptive environment. No student has a right to be unruly in his or her classroom to the extent that such disruption denies fellow students of their right to learn. The teacher in each classroom is expected to maintain order and discipline. Teachers are hereby given the authority and responsibility to use appropriate means of discipline up to and including corporal punishment as may be prescribed by the local board of education. So long as teachers follow approved policy in the exercise of their responsibility to maintain discipline in their classroom, such teacher shall be immune from civil or criminal liability. It shall be the responsibility of the local boards of education and the administrators employed by them to provide legal support to each teacher exercising his or her authority and responsibility to maintain order and discipline in his or her classroom as long as the teacher follows the local board of education’s policy. Such support for the teacher shall include, but not be limited to, providing appropriate legal representation to defend the teacher against charges, filing of a written report pursuant to Section 16-1-24, seeking the issuance of a warrant or warrants for any person or persons threatening or assaulting a teacher, and the timely assistance and cooperation with the appropriate authorities in the prosecution of any person or persons threatening or assaulting a teacher. Local school board authorities and school administrators providing such support shall be absolutely immune from civil and criminal liability for actions authorized or required by this section.

16-28A-3. Local boards of education required to develop and disseminate student discipline and behavior policies.

To fully implement the provisions of this chapter, the State Board of Education shall require each local board of education to develop a written policy on student discipline and behavior and to broadly disseminate them following its adoption. Copies of the student discipline and behavior policy shall be given to all teachers, staff, parents and students.

16-28B-2. Legislative intent.

It is the intent of the Legislature to provide for the adoption of policies in public school systems to prevent the harassment of students. It is the further intent of the Legislature that this chapter apply only to student against student harassment, intimidation, violence, and threats of violence in the public schools of Alabama, grades prekindergarten through 12, and that the State Department of Education develop, and each local board of education adopt procedural policies to manage and possibly prevent these acts against any student by another student or students based on the characteristics of a student.
Additionally, it is the intent of the Legislature that the filing of a complaint of harassment be in writing and submitted by the affected student, or the parent or guardian of the affected student, and not by an education employee on behalf of an affected student or his or her parent or guardian.

16-28B-9. Adoption of local policies.
Each local board shall establish a policy in compliance with this chapter on or before July 1, 2010. Each local policy or model policy adopted by a local board or the department, respectively, shall be consistent with this chapter.

2. Adopt a uniform policy prohibiting the use of tobacco products on school property and prescribing specific penalties for violating this policy.
3. Administrative procedures related to suspension and expulsion

LAWS

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.

(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

(e) (1) A copy of the school system's discipline plan shall be distributed to all students enrolled in the system and their parents, guardians, or custodians shall read the plan and sign a statement verifying that they have been given notice of the discipline policies of their respective school system. The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(2) All discipline plans of school systems shall include, but not be limited to, all of the following:
a. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system shall be responsible financially for such child's destructive acts against school property or persons.

b. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system may be requested to appear at school by an appropriate school official for a conference regarding acts of the child specified in paragraph a.

c. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a school system who has been summoned by proper notification by an appropriate school official shall be required under this provision to attend such discipline conference specified in paragraph b.

(3) Any public school system shall be entitled to recover actual damages, plus necessary court costs, from the parent or guardian, or both, of any minor who maliciously and willfully damages or destroys property belonging to the school system. However, this section shall not apply to parents whose parental control of any child has been removed by court order or decree or to parents of exceptional children with specific mental and physical impairments if the damage is determined to result from the impairments. The action authorized in this section shall be in addition to all other actions which the school system is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents or guardian, or both, for damages to which such minor other person would otherwise be liable.

(4) This section shall apply only to acts committed on or after August 1, 1992.

The seclusion occurs in a specifically constructed or designated room or space that is physically isolated from common areas and from which the student is physically prevented from leaving. Seclusion does not include situations in which a staff member trained in the use of de-escalation techniques or restraint is physically present in the same unlocked room as the student, time-out as defined in paragraph (1.) Notwithstanding the foregoing, physical restraint is prohibited in Alabama public schools and educational programs when used as a form of discipline or punishment.

(vi) All physical restraint must be immediately terminated when the student is no longer an immediate danger to himself or others or if the student is observed to be in severe distress.

This training shall be provided as a part of a program which addresses prevention and de-escalation techniques as well as positive behavioral intervention strategies. Schools and programs must maintain written or electronic documentation on training provided and the list of participants in each training. Records of such training must be made available to the Alabama Department of Education or any member of the public upon request.

**16-1-24.3. Local boards of education to implement policies requiring expulsion of students who possess firearms in school areas.**

(a) All city and county boards of education shall develop and implement local policies and procedures requiring the expulsion of students, for a period of one year, who are determined to have brought to school or have in their possession a firearm in a school building, on school grounds, on school buses, or at other school-sponsored functions. Notwithstanding the foregoing, city and county boards of education and the local superintendent of education of each board may modify the expulsion requirement for a student on a case-by-case basis. Students who are expelled for violation of this section shall not be allowed to attend regular school classes in any public school in the state during the expulsion period. Students who are expelled from schools for firearm possession may be permitted to attend alternative schools designed to provide education services. Discipline of students with disabilities who violate the firearm possession policies of city and county boards of education shall be determined on a case-by-case basis in accordance with the requirements of the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act.

**16-6B-3. Assistance programs.**

(a) Student strategy. The superintendent of the local board of education along with the staff of each school shall develop an assistance program at each school for at-risk students performing below the standards set by the State Board of Education. The standards shall include the results of the required assessment program adopted by the State Board of Education with emphasis on students who are found to be at one or more grade levels below the prescribed norm. The local board of education shall budget at least one hundred dollars ($100) per student so identified to be expended on tutorial assistance programs including, but not limited to, after-school, Saturday school, or summer school, or any combination of these programs. These funds may be budgeted from state or federal funds. However, federal funds already budgeted for at-risk students may not be counted toward the minimum one hundred dollars ($100) requirement set aside to be expended for at-risk students as defined in this chapter. In addition, these funds may be expended for any of the following purposes:

1. Programs to encourage at-risk five-year olds to attend an approved preschool program.
2. Programs to identify at-risk students in the first grade.
3. Programs to ensure strict enforcement of truancy laws.
4. Programs to create alternative or disciplinary schools in which children who consistently exhibit behaviors or patterns of behaviors that interfere with the learning environment of other students would be placed and would be provided counseling and instruction in basic skills.
5. Programs to encourage parental involvement of parents of at-risk children.
6. Programs to encourage literacy of parents of at-risk children.

(b) School strategy. The State Board of Education shall develop an assistance program for a school in need of assistance. A school in need of assistance shall mean any school which has a majority of its students scoring one or more grade levels below the prescribed norm on the state adopted student assessments. Local superintendents and local boards of education will be expected to make the effort and commit the resources necessary to improve the instructional program for a school in need of
assistance and shall be required to budget all funds earned by that school in the cost calculations of the Foundation Program. Local superintendents and local boards of education are encouraged to use assistance from the State Department of Education, colleges of education, accrediting agencies and other sources.

The State Board of Education's plan for an assistance program shall consist of the following components:

(1) The faculty and staff of each school in need of assistance shall engage in a self-study to examine the problem of low achievement within that school and shall develop steps which may be taken to improve student achievement. Parents of students in the schools shall be consulted as part of this self-study.

(2) If, after two years, student achievement has not improved, the State Superintendent of Education shall designate a team of practicing professionals to visit the school, conduct a study, consult with parents of students in the school, analyze causes of poor student achievement, and make specific recommendations which shall become a part of a school improvement plan for the succeeding year.

(3) As a final step, when insufficient or no improvement as determined by the State Board of Education is evident from the implementation of steps one and two above, the State Superintendent of Education is required to intervene and to appoint a person or persons to run the day-to-day operation of the school. In considering intervention, the State Board of Education shall consider factors which may have affected the prescribed norm test score. Factors shall include drop-out rates, attendance rates, special education enrollment, and any other data necessary to properly interpret student achievement in each school.

c) School system strategy. The State Board of Education shall develop an assistance program for a local board of education identified as being in need of assistance. A local board of education in need of assistance shall mean any local board of education which has a majority of its schools, or a majority of the students in a system, in which the students are scoring one or more grade levels below the prescribed norm.

The State Board of Education shall require a local board of education in need of assistance to do the following:

(1) The local board of education and the local superintendent with input from other administrators, teachers, staff, parents of students in the school, and the local community shall engage in a self-study to examine the problem of low achievement within the system and to develop steps which may be taken to improve student achievement.

(2) If, after two years, student achievement has not improved, the state superintendent shall develop a system-wide school improvement plan in consultation with teachers, parents of students in the school, and the local community. This school improvement plan shall become a part of the local board of education's program and financial operations for the succeeding year.

(3) If, after the implementation of the school improvement plan, student achievement has not sufficiently improved, relative to the previous year's performance, the State Board of Education shall require the State Superintendent of Education to intervene and assume the direct management and day-to-day operation of the local board of education for such period of time as may be necessary for student achievement to improve. In considering intervention, the State Board of Education shall consider factors which may have affected the prescribed norm test score. Factors shall include drop-out rates, attendance rates, special education enrollment, and any other data necessary to properly interpret student achievement in each system.

d) It is the intent of the Legislature that intervention is not to occur when a school or school system scores below the prescribed average. Intervention by the State Board of Education is to occur only after the three-year period provided in this chapter during which a school or school system fails to show
improvement. So long as improvement is being shown, the State Board of Education shall not intervene but shall continue to encourage the school to improve.

**41-15B-2.2. Allocation of trust fund revenues.**

Provisions for program evaluation in order to determine effectiveness and financial accountability shall be included in the guidelines. The guidelines shall include all of the following:

Each local board of education may charge a fee based upon income for participation in the programs.

   (iv) Programs to assist children in dealing with anger and emphasizing acceptable ways of dealing with violence including peer mediation, conflict resolution, and law related education.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.
(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

(e) (1) A copy of the school system’s discipline plan shall be distributed to all students enrolled in the system and their parents, guardians, or custodians shall read the plan and sign a statement verifying that they have been given notice of the discipline policies of their respective school system. The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(2) All discipline plans of school systems shall include, but not be limited to, all of the following:
   a. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system shall be responsible financially for such child’s destructive acts against school property or persons.
   b. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system may be requested to appear at school by an appropriate school official for a conference regarding acts of the child specified in paragraph a.
   c. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a school system who has been summoned by proper notification by an appropriate school official shall be required under this provision to attend such discipline conference specified in paragraph b.

(3) Any public school system shall be entitled to recover actual damages, plus necessary court costs, from the parent or guardian, or both, of any minor who maliciously and willfully damages or destroys property belonging to the school system. However, this section shall not apply to parents whose parental control of any child has been removed by court order or decree or to parents of exceptional children with specific mental and physical impairments if the damage is determined to result from the impairments. The action authorized in this section shall be in addition to all other actions which the school system is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents or guardian, or both, for damages to which such minor other person would otherwise be liable.

(4) This section shall apply only to acts committed on or after August 1, 1992.

(f) The local school board shall adopt and make available to all teachers, school personnel, students, and parents or guardians, at the beginning of the 1992-93 school year and each school year thereafter, a code of student conduct developed in consultation with teachers, school personnel, students, and parents or guardians. The code shall be based on the rules governing student conduct and discipline adopted by the school board and may be made available at the school level in the student handbook or similar publication. The code shall include, but not be limited to, all of the following:

   (1) Specific grounds for disciplinary action.
   (2) Procedures to be followed for acts requiring discipline.
(3) An explanation of the responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.

(g) Except in the case of excessive force or cruel and unusual punishment, no certified or noncertified employee of the State Board of Education or any local board of education shall be civilly liable for any action carried out in conformity with state law and system or school rules regarding the control, discipline, suspension, and expulsion of students.

(h) Nothing in this section shall be construed to prevent a local board of education from promulgating more stringent rules and regulations than those adopted on the state level, in order to foster and maintain a safe and drug-free environment in the public schools.

16-1-24.3. Local boards of education to implement policies requiring expulsion of students who possess firearms in school areas.

(a) All city and county boards of education shall develop and implement local policies and procedures requiring the expulsion of students, for a period of one year, who are determined to have brought to school or have in their possession a firearm in a school building, on school grounds, on school buses, or at other school-sponsored functions. Notwithstanding the foregoing, city and county boards of education and the local superintendent of education of each board may modify the expulsion requirement for a student on a case-by-case basis. Students who are expelled for violation of this section shall not be allowed to attend regular school classes in any public school in the state during the expulsion period. Students who are expelled from schools for firearm possession may be permitted to attend alternative schools designed to provide education services. Discipline of students with disabilities who violate the firearm possession policies of city and county boards of education shall be determined on a case-by-case basis in accordance with the requirements of the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act.

(b) For the purposes of this section, the term "firearm" has the same meaning as defined in Section 921 of Title 18 of the United States Code.

(c) When there are violations of the prohibition on firearms being brought to school or the possession of firearms by students, the school principal shall notify the appropriate law enforcement authority which may include city police, county sheriffs, and the local district attorney. In addition to notification of law enforcement officials, the school principal shall notify the parents of students who violate the firearm-free school environment provided for in this section.

Law enforcement authorities involved with students charged with firearm violations shall refer the violators of this section to the appropriate authority in the judicial system when the action is feasible.

(d) Local education agencies submitting applications for federal funds to the State Department of Education shall include in the application:

(1) An affidavit to affirm that the local education agency has developed and implemented a policy to provide for a gun-free environment in all its public schools.

(2) A description of the circumstances surrounding an expulsion imposed under this section including:

   a. The name of the school concerned.

   b. The number of students expelled.

   c. The types of weapons concerned.

The State Department of Education shall report the information collected from the local education agencies to the Secretary of Education.
16-28-40. License applicant under 19 to provide documentation of school enrollment, etc.; duties of school attendance official; withdrawal from school; conviction for certain pistol offenses.

(e) (1) Any person over the age of 14 who is convicted of the crime of possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 shall be denied issuance of a driver's permit or license for the operation of a motor vehicle for 180 days from the date the person is eligible and applies for a permit or license for the operation of a motor vehicle. Any adjudication as a juvenile delinquent or youthful offender where the underlying charge is the possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 shall be considered a conviction under this subsection, and the adjudication of a person as a juvenile delinquent or youthful offender where the underlying charge is a violation under Section 13A-11-72 shall be reported to the Department of Public Safety.

(2) If a person over the age of 14 years possesses a driver's license on the date of conviction, the Department of Public Safety, within five days of receipt of a notice of conviction from the court, shall send notice to the licensee that his or her driver's license will be suspended. The notice shall state that the license will be suspended for 180 days commencing on the 30th day following the date the notice was sent unless documentation is received by the department before the 30th day that the person was not convicted of the crime. Upon the appropriate date, the department shall suspend the license.

(3) Upon the written request of the person whose license is denied or suspended, the Department of Public Safety shall afford the person an opportunity for a hearing in the same manner and under the procedure used for other driver's license suspensions. If the suspension or denial of issuance determination is sustained by the Director of the Department of Public Safety or the authorized agent of the director, upon such hearing, the person may file a petition in the appropriate court to review the final order of suspension or denial by the director or the authorized agent of the director in the same manner and under the same conditions as is provided in the case of suspensions and denials.

(4) If the conviction is reversed within the 180-day period, the department, upon receipt of notice of the reversal from the Administrative Office of Courts, shall reinstate a suspended license and shall accept an application for a license and shall issue the license according to law and regulation.

(5) The court shall notify the Department of Public Safety of the conviction of a person over the age of 14 of a crime involving the possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 and any reversal of the conviction. The Administrative Office of Courts may promulgate necessary rules and regulations to implement this notification procedure.

REGULATIONS

290-3-1-.02. Regulations governing public schools.

(a) Safety precautions must be implemented and adequate facilities must be provided for implementations of programs prescribed by SDE Bulletin(s).

(b) Effective with the 1995-96 school year and thereafter, local boards of education must:

1. Adopt a uniform policy allowing law enforcement agencies to make periodic visits to local public schools to detect the presence of illegal drugs, unannounced to anyone except the local superintendent and building principal.

2. Adopt a uniform policy prohibiting the use of tobacco products on school property and prescribing specific penalties for violating this policy.

3. Adopt and enforce a uniform policy prohibiting all persons, other than authorized law enforcement personnel, from bringing or possessing any deadly weapon or dangerous instrument on school
property and prescribing specific penalties for students and school personnel who violate this policy, notwithstanding any criminal penalties which may also be imposed.

(c) Local school systems which operate alternative educational programs shall provide a curriculum that stresses skills in recognizing and managing anger, alternatives to aggression (verbal and physical assault), strategies for developing self-control and personal responsibility, skills for getting along with others, success through academic achievement, and skills for success in the workplace.

(d) All policies and actions implemented under these mandatory regulations affecting students with disabilities must comply with federal and state special education laws, regulations, and court rulings.

(e) Unsafe School Choice Option

1. Definitions: A transfer option school (TOS) in the state of Alabama is one in which for three (3) consecutive school years the school has expelled one percent (1%) of the student population or five (5) students (whichever is greater) for violent criminal offenses committed on school property during school hours or committed at school-sponsored activities. The words “transfer option school,” “TOS,” or “TOS school” shall mean a “persistently dangerous school” as those words are used in the No Child Left Behind Act of 2001, Public Law 107-110, Title IX, §9532(a) and (b). For the purpose of this definition, a “violent criminal offense” shall mean homicide; robbery; assault in the first and/or second degree; sexual battery (including rape) as these offenses are defined in the Criminal Code of Alabama (see §13A-6-1, et. seq., Code of Ala. 1975); and use of a handgun, firearm component, explosive, knife, and other “unknown weapons” as defined by the Student Incident Report (SIR).

2. A student who becomes a victim of a violent criminal offense committed on school property during school hours or at school-sponsored activities shall be given an opportunity to transfer to a safe public school within the LEA. The LEA shall notify the student’s parent/guardian of the right to transfer as soon as practicable, not to exceed ten (10) calendar days from the date of a final determination by the school board or its designee that a violent criminal offense has occurred. All LEA transfer procedures will be observed. It shall be the policy of the Alabama State Department of Education (SDE) to notify the LEA annually when one or more of its schools have been identified as a transfer option school. Each Superintendent or his or her designee shall orally notify the Prevention and Support Services Section of the State Department of Education within twenty-four (24) hours of the decision that a violent criminal offense has occurred, followed by written confirmation. The State Department of Education will assist the LEA in resolving all safety issues. At a minimum, an LEA that has one or more schools identified as persistently dangerous must:

(i) Step 1. Notify parents/guardians of each student attending the school within ten (10) working days that it has been identified as a transfer option school and offer students the opportunity to transfer to a safe public school within the LEA if another school is available.

(ii) Step 2. Complete the transfer for those students who opt to do so within 20 working days.

(iii) Step 3. Develop a corrective action plan to be submitted to the SDE for approval within 20 working days of the LEA’s receipt of status.

(iv) Step 4. Implement the corrective action plan. Once a school has been identified as a transfer option school, it can return to safe status by (1) completing Steps One through Four above and (2) completing two consecutive years with less than one percent (1%) of the student population or five (5) students (whichever is greater) expelled for violent criminal offenses as defined in its policy.

LAWS

16-6B-3. Assistance programs.
(a) Student strategy. The superintendent of the local board of education along with the staff of each school shall develop an assistance program at each school for at-risk students performing below the standards set by the State Board of Education. The standards shall include the results of the required assessment program adopted by the State Board of Education with emphasis on students who are found to be at one or more grade levels below the prescribed norm. The local board of education shall budget at least one hundred dollars ($100) per student so identified to be expended on tutorial assistance programs including, but not limited to, after-school, Saturday school, or summer school, or any combination of these programs. These funds may be budgeted from state or federal funds. However, federal funds already budgeted for at-risk students may not be counted toward the minimum one hundred dollars ($100) requirement set aside to be expended for at-risk students as defined in this chapter. In addition, these funds may be expended for any of the following purposes:

(1) Programs to encourage at-risk five-year olds to attend an approved preschool program.
(2) Programs to identify at-risk students in the first grade.
(3) Programs to ensure strict enforcement of truancy laws.
(4) Programs to create alternative or disciplinary schools in which children who consistently exhibit behaviors or patterns of behaviors that interfere with the learning environment of other students would be placed and would be provided counseling and instruction in basic skills.
(5) Programs to encourage parental involvement of parents of at-risk children.
(6) Programs to encourage literacy of parents of at-risk children.

(b) School strategy. The State Board of Education shall develop an assistance program for a school in need of assistance. A school in need of assistance shall mean any school which has a majority of its students scoring one or more grade levels below the prescribed norm on the state adopted student assessments. Local superintendents and local boards of education will be expected to make the effort
and commit the resources necessary to improve the instructional program for a school in need of assistance and shall be required to budget all funds earned by that school in the cost calculations of the Foundation Program. Local superintendents and local boards of education are encouraged to use assistance from the State Department of Education, colleges of education, accrediting agencies and other sources.

The State Board of Education's plan for an assistance program shall consist of the following components:

1. The faculty and staff of each school in need of assistance shall engage in a self-study to examine the problem of low achievement within that school and shall develop steps which may be taken to improve student achievement. Parents of students in the schools shall be consulted as part of this self-study.

2. If, after two years, student achievement has not improved, the State Superintendent of Education shall designate a team of practicing professionals to visit the school, conduct a study, consult with parents of students in the school, analyze causes of poor student achievement, and make specific recommendations which shall become a part of a school improvement plan for the succeeding year.

3. As a final step, when insufficient or no improvement as determined by the State Board of Education is evident from the implementation of steps one and two above, the State Superintendent of Education is required to intervene and to appoint a person or persons to run the day-to-day operation of the school. In considering intervention, the State Board of Education shall consider factors which may have affected the prescribed norm test score. Factors shall include drop-out rates, attendance rates, special education enrollment, and any other data necessary to properly interpret student achievement in each school.

(c) School system strategy. The State Board of Education shall develop an assistance program for a local board of education identified as being in need of assistance. A local board of education in need of assistance shall mean any local board of education which has a majority of its schools, or a majority of the students in a system, in which the students are scoring one or more grade levels below the prescribed norm.

The State Board of Education shall require a local board of education in need of assistance to do the following:

1. The local board of education and the local superintendent with input from other administrators, teachers, staff, parents of students in the school, and the local community shall engage in a self-study to examine the problem of low achievement within the system and to develop steps which may be taken to improve student achievement.

2. If, after two years, student achievement has not improved, the state superintendent shall develop a system-wide school improvement plan in consultation with teachers, parents of students in the school, and the local community. This school improvement plan shall become a part of the local board of education's program and financial operations for the succeeding year.

3. If, after the implementation of the school improvement plan, student achievement has not sufficiently improved, relative to the previous year's performance, the State Board of Education shall require the State Superintendent of Education to intervene and assume the direct management and day-to-day operation of the local board of education for such period of time as may be necessary for student achievement to improve. In considering intervention, the State Board of Education shall consider factors which may have affected the prescribed norm test score. Factors shall include drop-out rates, attendance rates, special education enrollment, and any other data necessary to properly interpret student achievement in each system.

(d) It is the intent of the Legislature that intervention is not to occur when a school or school system scores below the prescribed average. Intervention by the State Board of Education is to occur only after
the three-year period provided in this chapter during which a school or school system fails to show improvement. So long as improvement is being shown, the State Board of Education shall not intervene but shall continue to encourage the school to improve.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(f) The local school board shall adopt and make available to all teachers, school personnel, students, and parents or guardians, at the beginning of the 1992-93 school year and each school year thereafter, a code of student conduct developed in consultation with teachers, school personnel, students, and parents or guardians. The code shall be based on the rules governing student conduct and discipline adopted by the school board and may be made available at the school level in the student handbook or similar publication. The code shall include, but not be limited to, all of the following:

(3) An explanation of the responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.

16-28-2.1. Adoption of standards for mandatory attendance policy; parents held accountable; enforcement.

The Legislature finds that mandatory attendance policies for schools differ from school system to school system throughout the State of Alabama. The State Board of Education shall adopt standards for a mandatory and enforceable attendance policy for all students in public schools in the State of Alabama. Parents shall be held accountable in accordance with Sections 16-28-12 and 16-28-7, for the failure of the child who is of compulsory attendance age to attend either public, private or church-school. Enforcement of this section shall lie with the local board of education and the juvenile court system.

16-28-3.1. Guidelines and procedures for withdrawal from school; dropout prevention program.

(b) The State Department of Education shall work with local public school systems that have the lowest four-year graduation rates. The department shall incorporate specific dropout prevention strategies, target resources, and gather data that will improve graduation rates and educational outcomes in all grades in all public schools. The department shall develop specific methods of targeted intervention or identify appropriate existing methods for local public school systems that have a four-year graduation rate less than the percentage as determined by the State Board of Education. These interventions may include the following:

(1) Early intervention for students who fail Algebra I, or any ninth grade reading or math class, and have insufficient credits to be promoted.

(2) Alternative education programs designed to reengage dropouts including, but not limited to, dual enrollment courses at the community college level.

(3) Increased availability of advanced placement courses.

(4) Offering full course fee waivers for students who are eligible for free or reduced lunches, when enrolled in dual credit courses.

(5) Flexible programs for older students who are currently not enrolled.

(6) Comprehensive coaching for middle school and high school students who are below grade level in reading and math or who are at risk due to poor attendance, behavior, or safety issues including, but not limited to, harassment and bullying.

(7) Teacher advisories and other supports that are designed to specifically address the needs of those students who are most at risk of dropping out of school by providing opportunities to build positive
connections with peers and teachers and providing assistance with course selection, school performance, and completion of graduation requirements. Students who are most at risk of dropping out of school include, but are not limited to, those students who move often, have poor attendance, or have multiple suspensions or discipline issues.

(8) Strategies that are specifically designed to improve high school graduation rates for those teenagers who are at the highest risk of dropping out, including, but not limited to, students in the foster care system, pregnant students, student parents, English as second language students, and students with special educational needs.

(c) The department, in addition to other information and data, shall compile all of the following data to ensure that the dropout prevention program, and local versions of the program, are based upon evidence-based research, are data-driven, and show continuous improvement in:

1. The total number of high school suspensions related to truancy.
2. The total number of students enrolled in alternative education programs.
3. The total number of students who have been reenrolled in programs with flexible schedules or community college programs.
4. The total number of students who have failed Algebra I or ninth grade reading or math.
5. The total number of students who are repeating the ninth grade.
6. The total number of students receiving remedial assistance in the ninth grade.

(d) The department shall prepare and submit to the Legislature a written report that documents all of the following:

1. The outcomes of the dropout prevention strategies to date, at the local school system level.
2. Any planned modification of school system dropout prevention strategies and activities, based on the data compiled.

16-28-12. Person in loco parentis responsible for child’s school attendance and behavior; noncompliance; local boards to promulgate written behavior policy, contents, annual distribution, receipt to be documented; school officials required to report noncompliance; failure to report suspected violation; district attorneys vigorously to enforce provisions.

(a) Each parent, guardian, or other person having control or custody of any child required to attend school or receive regular instruction by a private tutor who fails to have the child enrolled in school or who fails to send the child to school, or have him or her instructed by a private tutor during the time the child is required to attend a public school, private school, church school, denominational school, or parochial school, or be instructed by a private tutor, or fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in any public school in accordance with the written policy on school behavior adopted by the local board of education pursuant to this section and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be guilty of a misdemeanor and, upon conviction, shall be fined not more than one hundred dollars ($100) and may also be sentenced to hard labor for the county for not more than 90 days. The absence of a child without the consent of the principal teacher of the public school he or she attends or should attend, or of the tutor who instructs or should instruct the child, shall be prima facie evidence of the violation of this section.

(c) Any parent, guardian, or other person having control or custody of any child enrolled in public school who fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in accordance with the written policy on school behavior adopted by the local board of education and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be reported by the principal to the superintendent of education of the
school system in which the suspected violation occurred. The superintendent of education or his or her designee shall report suspected violations to the district attorney within 10 days. Any principal or superintendent of education or his or her designee intentionally failing to report a suspected violation shall be guilty of a Class C misdemeanor. The district attorney shall vigorously enforce this section to ensure proper conduct and required attendance by any child enrolled in public school.

16-28-15. Absence must be explained.
Every parent, guardian, or other person having control or charge of any child required to attend public school, private school, or church school, shall as soon as practical explain the cause of any absence of the child under his control or charge which was without permission of the teacher, and a failure to furnish such explanation shall be admissible as evidence of such child being a truant with the consent and connivance of the person in control or charge of said child, unless such person can show to the reasonable satisfaction of the court that he had no knowledge of such absence and that he has been diligent in his efforts to secure the attendance of such child.

16-28-16. Cases of nonenrollment and nonattendance; withdrawal of enrollment.
(a) It shall be the duty of the county superintendent of education or the city superintendent of education, as the case may be, to require the attendance officer to investigate all cases of nonenrollment and of nonattendance. In all cases investigated where no valid reason for nonenrollment or nonattendance is found, the attendance officer shall give written notice to the parent, guardian, or other person having control of the child. In the event of the absence of the parent, guardian, or other person having control of the child from his or her usual place of residence, the attendance officer shall leave a copy of the notice with some person over 12 years of age residing at the usual place of residence, with instructions to hand the notice to the parent, guardian, or other person having control of the child, which notice shall require the attendance of the child at the school within three days from the date of the notice. In the event the investigation discloses that the nonenrollment or nonattendance was without valid excuse or good reason and intentional, the attendance officer shall be required to bring criminal prosecution against the parent, guardian, or other person having control of the child.

(b) Each child who is enrolled in a public school shall be subject to the attendance and truancy provisions of this article except that any parent or parents, guardian or guardians who voluntarily enrolls their child in public school, who feel that it is in the best interest of that child shall have the right to withdraw the child at any time prior to the current minimum compulsory attendance age.

16-28-17. When child may be taken into custody.
It shall be the duty of the attendance officer, probation officer or other officer authorized to execute writs of arrest to take into custody without warrant any child required to attend school or be instructed by a private tutor who is found away from home and not in the custody of the person having charge or control of such child during school hours and who has been reported by any person authorized to begin proceedings or prosecutions under the provisions of this article as a truant. Such child shall forthwith be delivered to the person having charge or control of said child or to the principal teacher of the school or the private tutor from whom said child is a truant. If such child is an habitual truant, he shall be brought before the juvenile court for such disposition as the judge of said court finds proper from the facts.

16-28-40. License applicant under 19 to provide documentation of school enrollment, etc.; duties of school attendance official; withdrawal from school; conviction for certain pistol offenses.
(a) The Department of Public Safety shall deny a driver's license or a learner's license for the operation of a motor vehicle to any person under the age of 19 who does not, at the time of application, present a diploma or other certificate of graduation issued to the person from a secondary high school of this state
or any other state, or documentation that the person: (1) is enrolled and making satisfactory progress in a course leading to a general educational development certificate (GED) from a state approved institution or organization, or has obtained the certificate; (2) is enrolled in a secondary school of this state or any other state and has not at the time of application accumulated disciplinary points while a student in school that would extend the age of eligibility for the student to apply for a driver's license; (3) is participating in a job training program approved by the State Superintendent of Education; (4) is gainfully and substantially employed; (5) is a parent with the care and custody of a minor or unborn child; (6) has a physician certify that the parents of the person depend on him or her as their sole source of transportation; or (7) is exempted from this requirement due to circumstances beyond his or her control as provided in this chapter.

(b) The attendance officer or chief attendance administrator, upon request, shall provide documentation of enrollment status and disciplinary points on a form approved by the Department of Education to any student 15 years of age or older who is properly enrolled in a school under the jurisdiction of the official, for presentation to the Department of Public Safety, on application for, or renewal or reinstatement of, a driver's license or a learner's license to operate a motor vehicle. Whenever a student 16 years of age or older withdraws from school, the attendance officer or chief attendance administrator shall notify the Department of Public Safety of the withdrawal. Withdrawal shall be defined as more than 10 consecutive or 15 days total unexcused absences during a single semester.

(c) Within five days of receipt of a notice of withdrawal, the Department of Public Safety shall send notice to the licensee that his or her driver's license or learner's license will be suspended under this article on the 30th day following the date the notice was sent unless documentation of compliance with this article is received by the department before the 30th day.

(d) Whenever the withdrawal from school of the student, or the failure of the student to enroll in a course leading to or to obtain a GED or high school diploma, is beyond the control of the student, or is for the purpose of transfer to another school as confirmed in writing by the parent or guardian of the student, or is for the purpose of participating in a job training program approved by the State Superintendent of Education, no notice shall be sent by the proper school official to the Department of Public Safety to suspend the license of the student. If the student is applying for or renewing a driver's license or a learner's license, the attendance officer or chief attendance administrator, upon request, shall provide the student with documentation to present to the Department of Public Safety to exempt the student from this section. The local superintendent of education with the assistance of the county or city school attendance director as the case may be, and any other staff or school personnel, or the appropriate school official of any private secondary school, shall be the sole judge of whether the withdrawal is due to circumstances beyond the control of the person. Suspension or expulsion from school or imprisonment in a jail or penitentiary is not a circumstance beyond the control of a person.

(e) (1) Any person over the age of 14 who is convicted of the crime of possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 shall be denied issuance of a driver's permit or license for the operation of a motor vehicle for 180 days from the date the person is eligible and applies for a permit or license for the operation of a motor vehicle. Any adjudication as a juvenile delinquent or youthful offender where the underlying charge is the possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 shall be considered a conviction under this subsection, and the adjudication of a person as a juvenile delinquent or youthful offender where the underlying charge is a violation under Section 13A-11-72 shall be reported to the Department of Public Safety.

(2) If a person over the age of 14 years possesses a driver's license on the date of conviction, the Department of Public Safety, within five days of receipt of a notice of conviction from the court, shall send notice to the licensee that his or her driver's license will be suspended. The notice shall state that
the license will be suspended for 180 days commencing on the 30th day following the date the notice was sent unless documentation is received by the department before the 30th day that the person was not convicted of the crime. Upon the appropriate date, the department shall suspend the license.

(3) Upon the written request of the person whose license is denied or suspended, the Department of Public Safety shall afford the person an opportunity for a hearing in the same manner and under the procedure used for other driver's license suspensions. If the suspension or denial of issuance determination is sustained by the Director of the Department of Public Safety or the authorized agent of the director, upon such hearing, the person may file a petition in the appropriate court to review the final order of suspension or denial by the director or the authorized agent of the director in the same manner and under the same conditions as is provided in the case of suspensions and denials.

(4) If the conviction is reversed within the 180-day period, the department, upon receipt of notice of the reversal from the Administrative Office of Courts, shall reinstate a suspended license and shall accept an application for a license and shall issue the license according to law and regulation.

(5) The court shall notify the Department of Public Safety of the conviction of a person over the age of 14 of a crime involving the possession of a pistol on the premises of a public school, or a public school bus, or both, under Section 13A-11-72 and any reversal of the conviction. The Administrative Office of Courts may promulgate necessary rules and regulations to implement this notification procedure.

LAWS

16-1-10. Selling, etc., alcoholic beverages to school children; keeping on school premises.
Any person, firm, corporation or association that knowingly sells, gives or dispenses any alcoholic beverage to any school student under the age of 18 years, or keeps or has in possession any alcoholic beverage in or on the campus or premises of any school building of any public secondary or grade school is guilty of a felony and, upon conviction thereof, shall be imprisoned in the state penitentiary for a period of from one to three years.

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.
(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees. The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs,
alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.

(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

(e) (1) A copy of the school system's discipline plan shall be distributed to all students enrolled in the system and their parents, guardians, or custodians shall read the plan and sign a statement verifying that they have been given notice of the discipline policies of their respective school system. The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(2) All discipline plans of school systems shall include, but not be limited to, all of the following:

   a. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system shall be responsible financially for such child's destructive acts against school property or persons.

   b. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system may be requested to appear at school by an appropriate school official for a conference regarding acts of the child specified in paragraph a.

   c. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a school system who has been summoned by proper notification by an appropriate school official shall be required under this provision to attend such discipline conference specified in paragraph b.

(3) Any public school system shall be entitled to recover actual damages, plus necessary court costs, from the parent or guardian, or both, of any minor who maliciously and willfully damages or destroys property belonging to the school system. However, this section shall not apply to parents whose parental control of any child has been removed by court order or decree or to parents of exceptional children with specific mental and physical impairments if the damage is determined to result from the impairments. The action authorized in this section shall be in addition to all other actions which the school system is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents or guardian, or both, for damages to which such minor other person would otherwise be liable.
(4) This section shall apply only to acts committed on or after August 1, 1992.

(f) The local school board shall adopt and make available to all teachers, school personnel, students, and parents or guardians, at the beginning of the 1992-93 school year and each school year thereafter, a code of student conduct developed in consultation with teachers, school personnel, students, and parents or guardians. The code shall be based on the rules governing student conduct and discipline adopted by the school board and may be made available at the school level in the student handbook or similar publication. The code shall include, but not be limited to, all of the following:

(1) Specific grounds for disciplinary action.
(2) Procedures to be followed for acts requiring discipline.
(3) An explanation of the responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.

(g) Except in the case of excessive force or cruel and unusual punishment, no certified or noncertified employee of the State Board of Education or any local board of education shall be civilly liable for any action carried out in conformity with state law and system or school rules regarding the control, discipline, suspension, and expulsion of students.

(h) Nothing in this section shall be construed to prevent a local board of education from promulgating more stringent rules and regulations than those adopted on the state level, in order to foster and maintain a safe and drug-free environment in the public schools.

A teacher or administrator who, in good faith, reports suspected drug abuse by a student to the appropriate authorities shall be immune from civil or criminal liability.

16-40A-1. Legislative findings; purpose of chapter.
(a) The Legislature finds that:

(2) Drug and alcohol abuse diminish the strength and vitality of the young people of our nation and state; an increasing number of substances, both legal and illegal, are being abused by increasing numbers of school children, even at the grade school level; abuse of any substance causes human behavior that influences many forces, including school, family, church, community, media, and peer groups. Prevention and early intervention in such behavior requires cooperation and coordination involving strategies designed to respond to carefully defined problems in which the education system of the state can play an important role.

(b) The purposes of this chapter are:

(2) To encourage the prevention of alcohol and drug abuse among children in the public schools; to stimulate the development of improved approaches to the prevention of alcohol and drug abuse; to demonstrate the use of such approaches in model educational programs and to evaluate the effectiveness thereof; to disseminate successful approaches and significant information for use in educational programs throughout the public schools; and to provide training programs for school administrators, teachers, and counselors.

16-40A-3. Minimum contents to be included in drug education program or curriculum.
(a) Any program or curriculum in the public schools of Alabama that includes drug education or instructs on the use of drugs or alcohol shall, as a minimum, include the following:

(1) Age-appropriate, developmentally-based drug and alcohol education and prevention programs that address the legal, social, and health consequences of drug and alcohol use and that provide
information about effective techniques for resisting peer pressure to use illicit drugs or alcohol for students in all grades of the public schools from early childhood level through grade 12.

(2) Information conveying to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful and is punishable by fines and imprisonment.

(3) Standards of conduct that are applicable to students and employees in all public schools and that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on school premises, or as part of any activities of the school.

(4) A clear statement that sanctions, consistent with local, state, and federal law, up to and including expulsion or termination of employment and referral for prosecution, will be imposed on students and employees who violate the standards of conduct required by subdivision (3). A description of those sanctions shall be included.

16-40A-4. Illegal conduct not to be encouraged or proposed to public school children.
Conduct that is illegal under state or federal law, including but not limited to, illegal use or distribution of controlled substances, under-age alcohol use or distribution, sexual intercourse imposed by means of force, or sexual actions which are otherwise illegal, shall not be encouraged or proposed to public school children in such a manner as to indicate that they have a legitimate right to decide or choose illegal conduct.

16-41-1. Short title.
This chapter shall be known and may be cited as "The Drug Abuse Education Act of 1971."

As used in this chapter, the term "drug" shall include barbiturates, central nervous system stimulants, hallucinogenics, and all other drugs to which the narcotic and drug abuse laws of the United States apply. It shall also include alcoholic and intoxicating liquor and beverages and tobacco.

16-41-3. Purpose; legislative intent.
The purpose of this chapter is to insure the development of a comprehensive drug abuse education program for all children and youth in grades one through 12. It is further the intent of the Legislature that the voluntary services of persons from the professions of clergy, education, medicine, law enforcement, social services and such other professionally and occupationally qualified individuals as can make a contribution to this program be utilized in its implementation so that the highest possible degree of expertise may be brought to bear.

16-41-4. Administration of chapter by State Superintendent of Education; priorities for implementation.
(a) The State Superintendent of Education shall administer this chapter pursuant to regulations adopted by the State Board of Education. In administering this chapter, the superintendent shall seek and ask for advice and assistance from the medical association of the State of Alabama and take into consideration the advice of the Department of Public Health.

(b) Priorities for the implementation of this program shall include the following:

(1) The implementation of in-service education programs for teachers, administrators and other personnel. Special emphasis shall be placed on methods and materials necessary for the effective teaching of drug abuse education. In-service teacher education materials which are based on individual
performance and designed for use with a minimum of supervision shall be developed and made available to all county and city school systems;

(2) Establishing resource centers located in various regions of the state for the purpose of assisting the Department of Education in coordinating drug abuse education activities in that region;

(3) Expanding degree programs for the preparation of drug education specialists. Special attention shall be given to performance based criteria and to the development and articulation of appropriate drug abuse education courses at junior colleges;

16-41-5. Exclusion of teacher or administrator employed by nonpublic school from participation in institutes or programs.

No teacher or school administrator employed by a nonpublic school shall be excluded from participating in in-service teacher education institutes or curriculum development programs conducted pursuant to this chapter.

16-41-6. Exemption by parents.

Any child whose parent presents to the school principal a signed statement that the teaching of disease, its symptoms, development and treatment and the use of instructional aids and materials of such subjects conflict with the religious teachings of his church shall be exempt from such instruction, and no child so exempt shall be penalized by reason of such exemption.

16-41-7. Adoption of regulations by state board; scheduling of drug abuse education courses.

The state board shall adopt regulations to insure the teaching of drug abuse education to all pupils. Every county and city school system shall schedule drug abuse education courses as part of the curriculum of every school, K-12.

16-41-9. Combining of funds from various sources.

In implementing this chapter, every effort shall be made to combine funds appropriated for this purpose with funds available from all other sources, federal, state, local or private, in order to achieve maximum benefits for improving drug abuse education.

The State Superintendent of Education shall, at least 30 days prior to the 1973 Regular Session and each regular session thereafter, transmit to the members of the state board, the President of the Senate, the Speaker of the House, the Chairman of the Senate and the Chairman of the House Education Committees a report as to the status of the drug abuse education program together with any recommendations for further improvement or modification.

LAWS

16-1-24.1. Safe school and drug-free school policy; treatment of policy violators; promulgation and distribution of discipline policy; liability limited for discipline actions; local boards may adopt more stringent guidelines.

(a) The Legislature finds a compelling public interest in ensuring that schools are made safe and drug-free for all students and school employees. The Legislature finds the need for a comprehensive safe school and drug-free school policy to be adopted by the State Board of Education. This policy should establish minimum standards for classes of offenses and prescribe uniform minimum procedures and penalties for those who violate the policies. It is the intent of the Legislature that our schools remain safe and drug-free for all students and school employees. The State Board of Education shall adopt and all local boards of education shall uniformly enforce policies that protect all students and school employees.
The State Board of Education shall require local school systems to modify their policies, practices or procedures so as to ensure a safe school environment free of illegal drugs, alcohol, or weapons. Any rules and regulations adopted by the State Board of Education pursuant to this section shall be exempt from Section 41-22-3(3). These modifications shall include the formulation of a discipline plan setting forth policies, practices, and procedures dealing with students or other persons who bring illegal drugs, alcohol, or weapons on a school campus. The discipline plan shall also include uniform drug-free school policies with uniform penalties.

(b) The principal shall notify appropriate law enforcement officials when any person violates local board of education policies concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person. If any criminal charge is warranted arising from the conduct, the principal is authorized to sign the appropriate warrant. If that person is a student enrolled in any public school in the State of Alabama, the local school system shall immediately suspend that person from attending regular classes and schedule a hearing at the earliest possible date, which shall not be later than five school days. The decision to suspend or initiate criminal charges against a student, or both, shall include a review and consideration of the student's exceptional status, if applicable, under Chapter 39, or appropriate federal statutory or case law.

(c) If a person is found to have violated a local board of education policy concerning drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, the person may not be readmitted to the public schools of this state until (1) criminal charges or offenses arising from the conduct, if any, have been disposed of by appropriate authorities and (2) the person has satisfied all other requirements imposed by the local board of education as a condition for readmission.

(d) Any person determined to be guilty of an offense involving drugs, alcohol, weapons, physical harm to a person, or threatened physical harm to a person, may be readmitted to the public schools of this state upon such conditions as the local board of education shall prescribe for preservation of the safety or security of students and employees of the local school board, which may include, but are not limited to, psychiatric or psychological evaluation and counseling.

(e) (1) A copy of the school system's discipline plan shall be distributed to all students enrolled in the system and their parents, guardians, or custodians shall read the plan and sign a statement verifying that they have been given notice of the discipline policies of their respective school system. The school board shall have its official discipline plan reviewed on an annual basis to ensure that its policies and procedures are currently in compliance with applicable statutes, case law, and state and federal constitutional provisions.

(2) All discipline plans of school systems shall include, but not be limited to, all of the following:
   a. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system shall be responsible financially for such child's destructive acts against school property or persons.
   b. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a public school system may be requested to appear at school by an appropriate school official for a conference regarding acts of the child specified in paragraph a.
   c. A parent, guardian, custodian, or person, excluding a foster parent, responsible for the care or control of a minor child enrolled in a school system who has been summoned by proper notification by an appropriate school official shall be required under this provision to attend such discipline conference specified in paragraph b.

(3) Any public school system shall be entitled to recover actual damages, plus necessary court costs, from the parent or guardian, or both, of any minor who maliciously and willfully damages or destroys property belonging to the school system. However, this section shall not apply to parents whose parental control of any child has been removed by court order or decree or to parents of exceptional
children with specific mental and physical impairments if the damage is determined to result from the impairments. The action authorized in this section shall be in addition to all other actions which the school system is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents or guardian, or both, for damages to which such minor other person would otherwise be liable.

(4) This section shall apply only to acts committed on or after August 1, 1992.

(f) The local school board shall adopt and make available to all teachers, school personnel, students, and parents or guardians, at the beginning of the 1992-93 school year and each school year thereafter, a code of student conduct developed in consultation with teachers, school personnel, students, and parents or guardians. The code shall be based on the rules governing student conduct and discipline adopted by the school board and may be made available at the school level in the student handbook or similar publication. The code shall include, but not be limited to, all of the following:

(h) Nothing in this section shall be construed to prevent a local board of education from promulgating more stringent rules and regulations than those adopted on the state level, in order to foster and maintain a safe and drug-free environment in the public schools.

The local board of education shall budget at least one hundred dollars ($100) per student so identified to be expended on tutorial assistance programs including, but not limited to, after-school, Saturday school, or summer school, or any combination of these programs. These funds may be budgeted from state or federal funds. 4. Offering full course fee waivers for students who are eligible for free or reduced lunches, when enrolled in dual credit courses.
5. Flexible programs for older students who are currently not enrolled.
6. Comprehensive coaching for middle school and high school students who are below grade level in reading and math or who are at risk due to poor attendance, behavior, or safety issues including, but not limited to, harassment and bullying.
7. Teacher advisories and other supports that are designed to specifically address the needs of those students who are most at risk of dropping out of school by providing opportunities to build positive connections with peers and teachers and providing assistance with course selection, school performance, and completion of graduation requirements. Students who are most at risk of dropping out of school include, but are not limited to, those students who move often, have poor attendance, or have multiple suspensions or discipline issues.

(a) Definitions.

(1) The Problem Solving Teams (PST) is a model to guide general education intervention services for all students who have academic and/or behavioral difficulties. The PST is central to the school's successful implementation of the Response to Instruction (RtI) framework.

(2) Response to instruction (RtI). Response to instruction (RtI) refers to an instructional framework that promotes a well-integrated system connecting general, gifted, supplemental, and special education services in providing high-quality, standards-based instruction and intervention that is matched to students' academic, social-emotional, and behavioral needs. RtI combines core instruction, assessment, and intervention with a multi-tiered system to increase student achievement and reduce behavior problems.

(b) Decisions regarding the number of PSTs needed by a school should be determined at the school level; however, a minimum of one PST per school is required to review data-based documentation regarding students' progress regularly, advise teachers on specific interventions matched to student needs, and communicate with parents regarding student intervention needs being provided.
(c) The Problem Solving Teams will analyze screening and progress-monitoring data to assist teachers in planning and implementing appropriate instruction and evidence-based interventions for all students with academic and/or behavioral difficulties, including those students who exhibit the characteristics of dyslexia.

(d) The documentation requirements for a referral to special education found in the Alabama Administrative Code, Chapter 290-8-9.01(2) and (4) (Child Identification) and Chapter 290-8-9.03(10) (b)1, (10)(c)2.(ii), (10)(d)2.(I)(II)(ii) and (10)(d)4 (Disability Definitions, Criteria, and Minimum Required Evaluative Components) must be collected and provided by the PST to rule out the lack of appropriate instruction in reading or math including the essential components of reading instruction or Limited English Proficiency (LEP), as the determining factor in the eligibility decision.

(e) Any student who is reevaluated and determined not eligible for special education services must be referred to the PST to determine the appropriate supplemental services to facilitate successful transition in the general education program.

**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

(7) policies for implementing a student conflict resolution strategy, including the nonviolent resolution or mediation of conflicts and procedures for reporting and resolving conflicts;

(8) procedures for periodic review and revision of the school disciplinary and safety program.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. The school principal or teacher shall make reasonable attempts to notify the pupil's parent or guardian in writing by the end of the same day that confinement was used.
10. Procedures that require the school district to annually report to the department of education in a manner prescribed by the department the number of suspensions and expulsions that involve the possession, use or sale of an illegal substance under title 13, chapter 34 and the type of illegal substance involved in each suspension or expulsion.    2. If more than one pupil is subject to expulsion and disagreement exists between the parents or guardians of different pupils, separate hearings shall be held subject to this section.

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

(b) A teacher may remove from class a student:

1. Who has been documented by the teacher as repeatedly interfering with the teacher's ability to teach the students in the class or with the ability of the student's classmates to learn; or
2. Whose behavior the teacher determines is so unruly, disruptive, or abusive that it seriously interferes with the teacher's ability to teach the students in the class or with the ability of the student's classmates to learn.

(c) If a teacher removes a student from class in accordance with subsection (b) of this section, the principal or his or her designee may:

REGULATIONS

20.01. General.
1. The time-out seclusion room is an extension of such techniques as turning a chair away from a group or placing a student in a corner or in the hallway.
2. Time-out is only effective if the classroom environment from which the student is removed is more reinforcing than the isolation area in which he is placed.

20.02. Definition.
1. Time-out As used in these regulations, time-out is defined as the removal of the opportunity to engage in reinforced behavior.

20.03. Restrictions on the use of a time-out seclusion room.
1. Time-out seclusion should be used only for behaviors that are destructive to property, aggressive toward others or severely disruptive to the class environment. General noncompliance, self-stimulation, academic refusal, etc., can be responded to with less stringent and restrictive techniques.
2. The time-out seclusion room should be used only as a last resort if and when less restrictive means of controlling behavior have proven ineffective.
3. The necessity of using physical force to place a student in a timeout seclusion room is inappropriate beyond that reasonably managed by the classroom teacher.
   3.1 Involuntary time-out must not be used with such students and, in general, time-out is not an appropriate intervention for classroom use with any students older than 12 unless they have made a contractual agreement for its use.
   3.2 It is important that teachers realistically evaluate their ability to physically remove a student to the time-out room.
   3.3 If there is a reasonable doubt concerning the capability of the teacher to physically remove the resistant student, the teacher should not begin to attempt the time-out procedure. In such a case, an alternative strategy should be implemented.
4. Time-out seclusion rooms must meet structural guidelines and provide for continuous monitoring, visually and auditorily, of the student’s behavior by an adult. (Refer to § 20.04.9 of this part for structural guidelines.)

20.04. Guidelines for appropriate use of a time-out seclusion room.

1. The teacher or behavioral specialist should have documentation that milder forms of time-out or other reduction techniques have proven ineffective in suppressing the inappropriate behavior.

2. The use of seclusion time-out and the behaviors which will result in its use must be explicitly stated in the student’s IEP. Parent consent for the use of a time-out seclusion procedure should be documented.

3. Time-out must be paired with a behavioral plan to provide positive reinforcement for appropriate behaviors. This must also be included in the student’s IEP.

4. Written procedures must be developed and followed for each student whose IEP includes the use of time-out.

5. The following guidelines should be adhered to for effective use of the timeout seclusion room.
   5.1. Avoid lengthy verbal explanations. Behaviors resulting in time-out should be clearly explained prior to implementing the time-out program. Explanations provided during use of time-out should be brief, but should adequately inform the student of his/her misbehavior, such as, “Because you ________________, you must go to time-out for ________ minutes.” All other verbal interaction should be avoided.
   5.2. To maximize opportunities to exercise self-control, students should be given the opportunity to take their own time-out after receiving instructions from the teacher. However, if students refuse to take their own time-out, or if they fail to respond to the teacher’s instructions within a reasonable time interval (5 to 10 seconds), the teacher should physically remove them to the time-out area. (Refer to § 20.03.3 of these regulations regarding physically removing the child to the time-out area.)
   5.3. For high intensity behavior (e.g., kicking, screaming), the student should immediately be escorted to the time-out room.

6. Time Spent In Time-Out Seclusion Room
   6.1. Length of time spent in the time-out seclusion room must be documented and kept within the specified time limits -
      A. Preschool - no more than 5 minutes for each exclusion.
      B. Lower elementary - no more than 15 minutes for each exclusion.
      C. Middle/upper elementary - no more than 20 minutes for each exclusion.
   6.2. At the end of the prescribed time, the student should be offered the opportunity to rejoin the class. If the student chooses to stay in time-out, the door must be left open at this time. When a student consistently chooses to stay in the time-out seclusion room beyond the prescribed time limit, the use of this procedure must be reviewed. The time-out room may be providing more reinforcement than the environment from which the student was removed.
   6.3. Should there be a need for a time-out period to extend past the prescribed time limits, the appropriateness of continuing the time-out procedure should be evaluated immediately by knowledgeable professionals (i.e., principal, counselor, special education staff).
   6.4. Careful consideration must be taken in extending the prescribed length of the time-out seclusion. The effectiveness of the time-out procedure is the result of its consistent use, rather than the length of stay in the timeout seclusion room.

7. Records Must Be Kept Of Each Occasion When Time-Out Seclusion Is Used. The Records Should Include -
   7.1. The student’s name;
7.2. The behavior for which time-out is being used, as specified in the IEP; and
7.3. The time of day the student was placed in and released from time-out.

8. When the use of time-out seclusion is included in a student’s IEP, it is recommended that the use of time-out to address specific student behaviors be reviewed by a knowledgeable professional(s) twice monthly.

8.1. The use of the time-out seclusion procedure shall be altered or discontinued as a behavioral management technique if data do not support its effectiveness.
8.2. The continued and/or frequent need for this type of behavioral intervention could indicate that behavioral objectives, management techniques or other factors affecting the learning environment are not appropriately matched with the student’s needs and behaviors.

9. If A Time-Out Room Is To Be Employed, The Time-Out Room Should -
9.1. Be at least 4’ X 4’ and no larger than 6’ X 6’ in size;
9.2. Be properly lighted (preferably recessed lighting, with switches outside the room). Lighting should remain on at all times;
9.3. Be properly ventilated;
9.4. Be free of objects and fixtures;
9.5. Provide the means by which an adult can continuously monitor, visually and auditorily, the student’s behavior;
9.6. The door should be such that it cannot be locked; and
9.7. Meet state and county fire and safety codes.

10. In addition, it is necessary that all personnel involved in designing and implementing behavioral management procedures, including the use of timeout seclusion, be adequately trained and supervised. It is imperative that these persons have attained levels of skill and competency so that their qualifications correspond to their responsibilities.

Course placement includes but is not limited to Honors, International Baccalaureate, Advanced
Placement, vocational, technical and career pathways courses. B. Educational program placement - The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation/placement in like programs in the sending state provided that the program exists in the school and there is space available, as determined by the school district. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Placement flexibility - Local education agency administrative officials shall have flexibility in waiving course/program prerequisites, or other preconditions for placement in courses/programs offered under the jurisdiction of the local education agency.

E. Absence as related to deployment activities - A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

In order to facilitate the on-time graduation of children of military families states and local education agencies shall incorporate the following procedures:

A. Waiver requirements - Local education agency administrative officials shall waive specific courses required for graduation if similar course work has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

B. Exit exams - States shall accept: 1) Exit or end-of-course exams required for graduation from the sending state; or 2) National norm-referenced achievement tests; or 3) Alternative testing, in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her Senior year, then the provisions of Article VII, Section C shall apply.

C. Transfers during Senior year - Should a military student transferring at the beginning or during his or her Senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with Sections A and B of this Article.

A. Rulemaking Authority - The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this Compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope
of the purposes of this Act, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

C. Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. D. If a majority of the legislatures of the compacting states rejects a Rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

ARTICLE XIII OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the Governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

However, the parent, guardian, or person in loco parentis shall be notified of the steps to be taken to eliminate or reduce the student's absences.

(D) (i) Before a student accumulates the maximum number of unexcused absences allowed in a school district's student attendance policy, the student or the student's parent, guardian, or person in loco parentis may petition the school administration or school district administration for special arrangements to address the student's unexcused absences.

(ii) If special arrangements are granted by the school administration or the school district administration, the arrangements will be formalized into a written agreement to include the conditions of the agreement and the consequences for failing to fulfill the requirements of the agreement.

(ii) For any action filed in circuit court to impose the civil penalty set forth in subdivision (a)(5) of this section, the prosecuting authority shall be exempt from all filing fees and shall take whatever action is necessary to collect the penalty provided for in subdivision (a)(5) of this section.

(B) Municipal attorneys may practice in circuit court for the limited purpose of filing petitions or entering into diversion agreements as authorized by this subdivision (a)(6)(B) if agreed upon by all of the parties pursuant to subdivision (a)(6)(A) of this section.

(7) (A) The purpose of the penalty set forth in this subsection is to impress upon the parents, guardians, or persons in loco parentis the importance of school or adult education attendance, and the penalty is not to be used primarily as a source of revenue.

(B) (i) When assessing penalties, the court shall be aware of any available programs designed to improve the parent-child relationship or parenting skills.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Authority to develop and establish rules of conduct

LAWS

EDC 221.1
The State Board of Education shall adopt regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, commonly referred to as the rulemaking provisions of the Administrative Procedure Act, to implement this chapter.

EDC 32280.
It is the intent of the Legislature that all California public schools, in kindergarten, and grades 1 to 12, inclusive, operated by school districts, in cooperation with local law enforcement agencies, community leaders, parents, pupils, teachers, administrators, and other persons who may be interested in the prevention of campus crime and violence, develop a comprehensive school safety plan that addresses the safety concerns identified through a systematic planning process. For the purposes of this section, law enforcement agencies include local police departments, county sheriffs' offices, school district police or security departments, probation departments, and district attorneys' offices. For purposes of this section, a “safety plan” means a plan to develop strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on the school campus.

EDC 32281.
(a) Each school district and county office of education is responsible for the overall development of all comprehensive school safety plans for its schools operating kindergarten or any of grades 1 to 12, inclusive.

(b) (1) Except as provided in subdivision (d) with regard to a small school district, the schoolsite council established pursuant to former Section 52012, as it existed before July 1, 2005, or Section 52852 shall write and develop a comprehensive school safety plan relevant to the needs and resources of that particular school.

(2) The schoolsite council may delegate this responsibility to a school safety planning committee made up of the following members:

(A) The principal or the principal’s designee.

(B) One teacher who is a representative of the recognized certificated employee organization.

(C) One parent whose child attends the school.

(D) One classified employee who is a representative of the recognized classified employee organization.

(E) Other members, if desired.

(3) The schoolsite council shall consult with a representative from a law enforcement agency in the writing and development of the comprehensive school safety plan.

(4) In the absence of a schoolsite council, the members specified in paragraph (2) shall serve as the school safety planning committee.

(c) Nothing in this article shall limit or take away the authority of school boards as guaranteed under this code.
(d) (1) Subdivision (b) shall not apply to a small school district, as defined in paragraph (2), if the small school district develops a districtwide comprehensive school safety plan that is applicable to each schoolsite.

(2) As used in this article, “small school district” means a school district that has fewer than 2,501 units of average daily attendance at the beginning of each fiscal year.

(f) (1) Notwithstanding subdivision (b), a school district or county office of education may, in consultation with law enforcement officials, elect to not have its schoolsite council develop and write those portions of its comprehensive school safety plan that include tactical responses to criminal incidents that may result in death or serious bodily injury at the schoolsite. The portions of a school safety plan that include tactical responses to criminal incidents may be developed by administrators of the school district or county office of education in consultation with law enforcement officials and with a representative of an exclusive bargaining unit of employees of that school district or county office of education, if he or she chooses to participate. The school district or county office of education may elect not to disclose those portions of the comprehensive school safety plan that include tactical responses to criminal incidents.

(2) As used in this article, “tactical responses to criminal incidents” means steps taken to safeguard pupils and staff, to secure the affected school premises, and to apprehend the criminal perpetrator or perpetrators.

(3) Nothing in this subdivision precludes the governing board of a school district or county office of education from conferring in a closed session with law enforcement officials pursuant to Section 54957 of the Government Code to approve a tactical response plan developed in consultation with those officials pursuant to this subdivision. Any vote to approve the tactical response plan shall be announced in open session following the closed session.

(4) Nothing in this subdivision shall be construed to reduce or eliminate the requirements of Section 32282.

**EDC 33031.**
The board shall adopt rules and regulations not inconsistent with the laws of this state (a) for its own government, (b) for the government of its appointees and employees, (c) for the government of the day and evening elementary schools, the day and evening secondary schools, and the technical and vocational schools of the state, and (d) for the government of other schools, excepting the University of California, the California State University, and the California Community Colleges, as may receive in whole or in part financial support from the state.
The rules and regulations adopted shall be published for distribution as soon as practicable after adoption.

**EDC 48904.**
(a) (1) Notwithstanding Section 1714.1 of the Civil Code, the parent or guardian of any minor whose willful misconduct results in injury or death to any pupil or any person employed by, or performing volunteer services for, a school district or private school or who willfully cuts, defaces, or otherwise injures in any way any property, real or personal, belonging to a school district or private school, or personal property of any school employee, shall be liable for all damages so caused by the minor. The liability of the parent or guardian shall not exceed ten thousand dollars ($10,000), adjusted annually for inflation. The parent or guardian shall be liable also for the amount of any reward not exceeding ten thousand dollars ($10,000), adjusted annually for inflation, paid pursuant to Section 53069.5 of the Government Code. The parent or guardian of a minor shall be liable to a school district or private school for all property belonging to the school district or private school loaned to the minor and not returned upon demand of an employee of the school district or private school authorized to make the demand.
(b) (3) The governing board of each school district or governing body of each private school shall establish rules and regulations governing procedures for the implementation of this subdivision. The procedures shall conform to, but are not necessarily limited to, those procedures established in this code for the expulsion of pupils.

EDC 48914.
Each school district is authorized to establish a policy that permits school officials to conduct a meeting with the parent or guardian of a suspended pupil to discuss the causes, the duration, the school policy involved, and other matters pertinent to the suspension.

EDC 48918.
The governing board of each school district shall establish rules and regulations governing procedures for the expulsion of pupils. [...] 

EDC 48926.
Each county superintendent of schools in counties that operate community schools pursuant to Section 1980, in conjunction with superintendents of the school districts within the county, shall develop a plan for providing education services to all expelled pupils in that county. The plan shall be adopted by the governing board of each school district within the county and by the county board of education. The plan shall enumerate existing educational alternatives for expelled pupils, identify gaps in educational services to expelled pupils, and strategies for filling those service gaps. The plan shall also identify alternative placements for pupils who are expelled and placed in district community day school programs, but who fail to meet the terms and conditions of their rehabilitation plan or who pose a danger to other district pupils, as determined by the governing board.

Each county superintendent of schools, in conjunction with the superintendents of the school districts, shall submit to the Superintendent of Public Instruction the county plan for providing educational services to all expelled pupils in the county no later than June 30, 1997, and shall submit a triennial update to the plan to the Superintendent of Public Instruction, including the outcome data pursuant to Section 48916.1, on June 30th thereafter.

EDC 49335.
On or before April 1, 2001, the Superintendent of Public Instruction shall adopt a system that will shield the identity and provide protection to pupils who report the presence of injurious objects on school campuses that offer instruction in kindergarten and any of grades 1 to 12, inclusive.

(e) Upon recommendation by the principal or the superintendent of schools, or by a hearing officer or administrative panel appointed pursuant to subdivision (d) of Section 48918, the governing board of a school district may order a pupil expelled upon finding that the pupil, at school or at a school activity off of

(v) For a pupil subject to discipline under this section, a superintendent of the school district or principal may use his or her discretion to provide alternatives to suspension or expulsion that are age appropriate and designed to address and correct the pupil’s specific misbehavior as specified in Section 48900.5.
(w) It is the intent of the Legislature that alternatives to suspension or expulsion be imposed against a pupil who is truant, tardy, or otherwise absent from school activities.
EDC 48900.5

(a) Suspension, including supervised suspension as described in Section 48911.1, shall be imposed only when other means of correction fail to bring about proper conduct. A school district may document the other means of correction used and place that documentation in the pupil’s record, which may be accessed pursuant to Section 49069. However, a pupil, including an individual with exceptional needs, as defined in Section 56026, may be suspended, subject to Section 1415 of Title 20 of the United States Code, for any of the reasons enumerated in Section 48900 upon a first offense, if the principal or superintendent of schools determines that the pupil violated subdivision (a), (b), (c), (d), or (e) of Section 48900 or that the pupil’s presence causes a danger to persons.

(b) Other means of correction include, but are not limited to, the following:

2. Referrals to the school counselor, psychologist, social worker, child welfare attendance personnel, or other school support service personnel for case management and counseling.
3. Study teams, guidance teams, resource panel teams, or other intervention-related teams that assess the behavior, and develop and implement individualized plans to address the behavior in partnership with the pupil and his or her parents.
4. Referral for a comprehensive psychosocial or psychoeducational assessment, including for purposes of creating an individualized education program, or a plan adopted pursuant to Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. Sec. 794(a)).
5. Enrollment in a program for teaching prosocial behavior or anger management.
6. Participation in a restorative justice program.

9. Any of the alternatives described in Section 48900.6.

EDC 48900.6

As part of or instead of disciplinary action prescribed by this article, the principal of a school, the principal’s designee, the superintendent of schools, or the governing board may require a pupil to perform community service on school grounds or, with written permission of the parent or guardian of the pupil, off school grounds, during the pupil’s nonschool hours. For the purposes of this section, “community service” may include, but is not limited to, work performed in the community or on school grounds in the areas of outdoor beautification, community or campus betterment, and teacher, peer, or youth assistance programs. This section does not apply if a pupil has been suspended, pending expulsion, pursuant to Section 48915. However, this section applies if the recommended expulsion is not implemented or is, itself, suspended by stipulation or other administrative action.

EDC 48911.1

(a) A pupil suspended from a school for any of the reasons enumerated in Sections 48900 and 48900.2 may be assigned, by the principal or the principal’s designee, to a supervised suspension classroom for the entire period of suspension if the pupil poses no imminent danger or threat to the campus, pupils, or staff, or if an action to expel the pupil has not been initiated.
(b) Pupils assigned to a supervised suspension classroom shall be separated from other pupils at the schoolsite for the period of suspension in a separate classroom, building, or site for pupils under suspension.

EDC 48911.2.

(a) If the number of pupils suspended from school during the prior school year exceeded 30 percent of the school’s enrollment, the school should consider doing at least one of the following:

1. Implement the supervised suspension program described in Section 48911.1.
2. Implement an alternative to the school’s off-campus suspension program, which involves a progressive discipline approach that occurs during the schoolday on campus, using any of the following activities:
   A. Conferences between the school staff, parents, and pupils.
   B. Referral to the school counselor, psychologist, child welfare attendance personnel, or other school support service staff.
   C. Detention.
   D. Study teams, guidance teams, resource panel teams, or other assessment-related teams.

(b) At the end of the academic year, the school may report to the district superintendent in charge of school support services, or other comparable administrator if that position does not exist, on the rate of reduction in the school’s off-campus suspensions and the plan or activities used to comply with subdivision (a).

(c) It is the intent of the Legislature to encourage schools that choose to implement this section to examine alternatives to off-campus suspensions that lead to resolution of pupil misconduct without sending pupils off campus. Schools that use this section should not be precluded from suspending pupils to an off-campus site.

EDC 48917.

(a) The governing board, upon voting to expel a pupil, may suspend the enforcement of the expulsion order for a period of not more than one calendar year and may, as a condition of the suspension of enforcement, assign the pupil to a school, class, or program that is deemed appropriate for the rehabilitation of the pupil. The rehabilitation program to which the pupil is assigned may provide for the involvement of the pupil’s parent or guardian in his or her child’s education in ways that are specified in the rehabilitation program. A parent or guardian’s refusal to participate in the rehabilitation program shall not be considered in the governing board’s determination as to whether the pupil has satisfactorily completed the rehabilitation program.

Use of corporal punishment

LAWS

EDC 44807.

Every teacher in the public schools shall hold pupils to a strict account for their conduct on the way to and from school, on the playgrounds, or during recess. A teacher, vice principal, principal, or any other certificated employee of a school district, shall not be subject to criminal prosecution or criminal penalties for the exercise, during the performance of his duties, of the same degree of physical control over a pupil.
that a parent would be legally privileged to exercise but which in no event shall exceed the amount of physical control reasonably necessary to maintain order, protect property, or protect the health and safety of pupils, or to maintain proper and appropriate conditions conducive to learning. The provisions of this section are in addition to and do not supersede the provisions of Section 49000.

EDC 49000.
The Legislature finds and declares that the protection against corporal punishment, which extends to other citizens in other walks of life, should include children while they are under the control of the public schools. Children of school age are at the most vulnerable and impressionable period of their lives and it is wholly reasonable that the safeguards to the integrity and sanctity of their bodies should be, at this tender age, at least equal to that afforded to other citizens.

EDC 49001.
(a) For the purposes of this section “corporal punishment” means the willful infliction of, or willfully causing the infliction of, physical pain on a pupil. An amount of force that is reasonable and necessary for a person employed by or engaged in a public school to quell a disturbance threatening physical injury to persons or damage to property, for purposes of self-defense, or to obtain possession of weapons or other dangerous objects within the control of the pupil, is not and shall not be construed to be corporal punishment within the meaning and intent of this section. Physical pain or discomfort caused by athletic competition or other such recreational activity, voluntarily engaged in by the pupil, is not and shall not be construed to be corporal punishment within the meaning and intent of this section.

(b) No person employed by or engaged in a public school shall inflict, or cause to be inflicted corporal punishment upon a pupil. Every resolution, bylaw, rule, ordinance, or other act or authority permitting or authorizing the infliction of corporal punishment upon a pupil attending a public school is void and unenforceable.

(2) Except as provided in Section 48910, a pupil enrolled in kindergarten or any of grades 1 to 3, inclusive, shall not be suspended for any of the acts enumerated in this subdivision, and this subdivision shall not constitute grounds for a pupil enrolled in kindergarten or any of grades 1 to 12, inclusive, to be recommended for expulsion. 2018, unless a later enacted statute that becomes operative before July 1, 2018, deletes or extends that date.

(I) For purposes of this clause, “cyber sexual bullying” means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (A) to (D), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

A pupil may be suspended or expelled for acts that are enumerated in this section and related to a school activity or school attendance that occur at any time, including, but not limited to, any of the following:

(t) A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, pursuant to this section, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (a).

(u) As used in this section, “school property” includes, but is not limited to, electronic files and databases.

(v) For a pupil subject to discipline under this section, a superintendent of the school district or principal may use his or her discretion to provide alternatives to suspension or expulsion that are age appropriate and designed to address and correct the pupil’s specific misbehavior as specified in Section 48900.5.

(w) It is the intent of the Legislature that alternatives to suspension or expulsion be imposed against a pupil who is truant, tardy, or otherwise absent from school activities.
EDC 48900.2.  
In addition to the reasons specified in Section 48900, a pupil may be suspended from school or recommended for expulsion if the superintendent or the principal of the school in which the pupil is enrolled determines that the pupil has committed sexual harassment as defined in Section 212.5. For the purposes of this chapter, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall not apply to pupils enrolled in kindergarten and grades 1 to 3, inclusive.

EDC 48900.3.  
In addition to the reasons set forth in Sections 48900 and 48900.2, a pupil in any of grades 4 to 12, inclusive, may be suspended from school or recommended for expulsion if the superintendent or the principal of the school in which the pupil is enrolled determines that the pupil has caused, attempted to cause, threatened to cause, or participated in an act of, hate violence, as defined in subdivision (e) of Section 233.

EDC 48900.4.  
In addition to the grounds specified in Sections 48900 and 48900.2, a pupil enrolled in any of grades 4 to 12, inclusive, may be suspended from school or recommended for expulsion if the superintendent or the principal of the school in which the pupil is enrolled determines that the pupil has intentionally engaged in harassment, threats, or intimidation, directed against school district personnel or pupils, that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of either school personnel or pupils by creating an intimidating or hostile educational environment.

EDC 48900.7  
(a) In addition to the reasons specified in Sections 48900, 48900.2, 48900.3, and 48900.4, a pupil may be suspended from school or recommended for expulsion if the superintendent or the principal of the school in which the pupil is enrolled determines that the pupil has made terroristic threats against school officials or school property, or both.

(b) For the purposes of this section, “terroristic threat” shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars ($1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family’s safety, or for the protection of school district property, or the personal property of the person threatened or his or her immediate family.

EDC 48915.  
(a)  
(1) Except as provided in subdivisions (c) and (e), the principal or the superintendent of schools shall recommend the expulsion of a pupil for any of the following acts committed at school or at a school activity off school grounds, unless the principal or superintendent determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct:
(A) Causing serious physical injury to another person, except in self-defense.

(B) Possession of any knife or other dangerous object of no reasonable use to the pupil.

(C) Unlawful possession of any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, except for either of the following:
   (i) The first offense for the possession of not more than one avoirdupois ounce of marijuana, other than concentrated cannabis.
   (ii) The possession of over-the-counter medication for use by the pupil for medical purposes or medication prescribed for the pupil by a physician.

(D) Robbery or extortion.

(E) Assault or battery, as defined in Sections 240 and 242 of the Penal Code, upon any school employee.

(2) If the principal or the superintendent of schools makes a determination as described in paragraph (1), he or she is encouraged to do so as quickly as possible to ensure that the pupil does not lose instructional time.

(b) Upon recommendation by the principal or the superintendent of schools, or by a hearing officer or administrative panel appointed pursuant to subdivision (d) of Section 48918, the governing board of a school district may order a pupil expelled upon finding that the pupil committed an act listed in paragraph (1) of subdivision (a) or in subdivision (a), (b), (c), (d), or (e) of Section 48900. A decision to expel a pupil for any of those acts shall be based on a finding of one or both of the following:
   (1) Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
   (2) Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

(c) The principal or superintendent of schools shall immediately suspend, pursuant to Section 48911, and shall recommend expulsion of a pupil that he or she determines has committed any of the following acts at school or at a school activity off school grounds:
   (1) Possessing, selling, or otherwise furnishing a firearm. This subdivision does not apply to an act of possessing a firearm if the pupil had obtained prior written permission to possess the firearm from a certificated school employee, which is concurred in by the principal or the designee of the principal. This subdivision applies to an act of possessing a firearm only if the possession is verified by an employee of a school district. The act of possessing an imitation firearm, as defined in subdivision (m) of Section 48900, is not an offense for which suspension or expulsion is mandatory pursuant to this subdivision and subdivision (d), but it is an offense for which suspension, or expulsion pursuant to subdivision (e), may be imposed.
   (2) Brandishing a knife at another person.
   (3) Unlawfully selling a controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code.
   (4) Committing or attempting to commit a sexual assault as defined in subdivision (n) of Section 48900 or committing a sexual battery as defined in subdivision (n) of Section 48900.
   (5) Possession of an explosive.

(d) The governing board of a school district shall order a pupil expelled upon finding that the pupil committed an act listed in subdivision (c), and shall refer that pupil to a program of study that meets all of the following conditions:
   (1) Is appropriately prepared to accommodate pupils who exhibit discipline problems.
(2) Is not provided at a comprehensive middle, junior, or senior high school, or at any elementary school.

(3) Is not housed at the schoolsite attended by the pupil at the time of suspension.

(e) Upon recommendation by the principal or the superintendent of schools, or by a hearing officer or administrative panel appointed pursuant to subdivision (d) of Section 48918, the governing board of a school district may order a pupil expelled upon finding that the pupil, at school or at a school activity off of school grounds violated subdivision (f), (g), (h), (i), (j), (k), (l), or (m) of Section 48900, or Section 48900.2, 48900.3, or 48900.4, and either of the following:

(1) That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.

(2) That due to the nature of the violation, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

(f) The governing board of a school district shall refer a pupil who has been expelled pursuant to subdivision (b) or (e) to a program of study that meets all of the conditions specified in subdivision (d). Notwithstanding this subdivision, with respect to a pupil expelled pursuant to subdivision (e), if the county superintendent of schools certifies that an alternative program of study is not available at a site away from a comprehensive middle, junior, or senior high school, or an elementary school, and that the only option for placement is at another comprehensive middle, junior, or senior high school, or another elementary school, the pupil may be referred to a program of study that is provided at a comprehensive middle, junior, or senior high school, or at an elementary school.

(g) As used in this section, “knife” means any dirk, dagger, or other weapon with a fixed, sharpened blade fitted primarily for stabbing, a weapon with a blade fitted primarily for stabbing, a weapon with a blade longer than 3 1/2 inches, a folding knife with a blade that locks into place, or a razor with an unguarded blade.

In the case of an employee, such disciplinary action may include termination. For students in Grades K-12, the disciplinary consequences shall depend on the ages of the students and the factual circumstances of the incident(s).

Grounds for mandatory suspension or expulsion

LAWS

EDC 48915.

(1) Possessing, selling, or otherwise furnishing a firearm. This subdivision does not apply to an act of possessing a firearm if the pupil had obtained prior written permission to possess the firearm from a certificated school employee, which is concurred in by the principal or the designee of the principal. This
subdivision applies to an act of possessing a firearm only if the possession is verified by an employee of a school district. The act of possessing an imitation firearm, as defined in subdivision (m) of Section 48900, is not an offense for which suspension or expulsion is mandatory pursuant to this subdivision and subdivision (d), but it is an offense for which suspension, or expulsion pursuant to subdivision (e), may be imposed.

(t) A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, pursuant to this section, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (a).

(w) It is the intent of the Legislature that alternatives to suspension or expulsion be imposed against a pupil who is truant, tardy, or otherwise absent from school activities.

EDC 48900.2.
For the purposes of this chapter, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall not apply to pupils enrolled in kindergarten and grades 1 to 3, inclusive.

EDC 48903.
(a) Except as provided in subdivision (g) of Section 48911 and in Section 48912, the total number of days for which a pupil may be suspended from school shall not exceed 20 schooldays in any school year, unless for purposes of adjustment, a pupil enrolls in or is transferred to another regular school, an
opportunity school or class, or a continuation education school or class, in which case the total number of schooldays for which the pupil may be suspended shall not exceed 30 days in any school year.

(b) For the purposes of this section, a school district may count suspensions that occur while a pupil is enrolled in another school district toward the maximum number of days for which a pupil may be suspended in any school year.

EDC 48911.

(a) The principal of the school, the principal's designee, or the district superintendent of schools may suspend a pupil from the school for any of the reasons enumerated in Section 48900, and pursuant to Section 48900.5, for no more than five consecutive schooldays.

EDC 48912.5.

The governing board of a school district may suspend a pupil enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts enumerated in Section 48900 occurred. The suspension shall meet the requirements of Section 48915.

EDC 48915.01.

(d) If the individual with exceptional needs is a foster child, as defined in Section 48853.5, and the local educational agency has proposed a change of placement due to an act for which a decision to recommend expulsion is at the discretion of the principal or the district superintendent of schools, the attorney for the individual with exceptional needs and an appropriate representative of the county child welfare agency shall be invited to participate in the individualized education program team meeting that makes a manifestation determination pursuant to Section 1415(k) of Title 20 of the United States Code.

Administrative procedures related to suspension and expulsion

LAWS

EDC 35146.
Notwithstanding the provisions of Section 35145 of this code and Section 54950 of the Government Code, the governing body of a school district shall, unless a request by the parent has been made pursuant to this section, hold closed sessions if the board is considering the suspension of, or disciplinary action or any other action except expulsion in connection with any pupil of the school district, if a public hearing upon such question would lead to the giving out of information concerning school pupils which would be in violation of Article 5 (commencing with Section 49073) of Chapter 6.5 of Part 27 of this code.

Before calling such closed session of the governing board of the district to consider these matters, the governing board of the district shall, in writing, by registered or certified mail or by personal service, if the pupil is a minor, notify the pupil and his or her parent or guardian, or the pupil if the pupil is an adult, of the intent of the governing board of the district to call and hold such closed session. Unless the pupil, or his or her parent, or guardian shall, in writing, within 48 hours after receipt of such written notice of intention, request that the hearing of the governing board be held as a public meeting, then the hearing to consider such matters shall be conducted by the governing board in closed session. If such written request is served upon the clerk or secretary of the governing board, the meeting shall be public except that any discussion at such meeting that might be in conflict with the right to privacy of any pupil other than the pupil requesting the public meeting or on behalf of whom such meeting is requested, shall be in closed session. Whether the matter is considered at a closed session or at a public meeting, the final action of the governing board of the school district shall be taken at a public meeting and the result of such action shall be a public record of the school district.
EDC 48201.
(a) Except for pupils exempt from compulsory school attendance under Section 48231, any parent, guardian, or other person having control or charge of any minor between the ages of 6 and 16 years who removes the minor from any city, city and county, or school district before the completion of the current school term, shall enroll the minor in a public full-time day school of the city, city and county, or school district to which the minor is removed.

(b) (1) Upon a pupil's transfer from one school district to another, the school district into which the pupil is transferring shall request that the school district in which the pupil was last enrolled provide any records that the district maintains in its ordinary course of business or receives from a law enforcement agency regarding acts committed by the transferring pupil that resulted in the pupil's suspension from school or expulsion from the school district. Upon receipt of this information, the receiving school district shall inform any teacher of the pupil that the pupil was suspended from school or expelled from the school district and shall inform the teacher of the act that resulted in that action.

EDC 48911.
(a) The principal of the school, the principal's designee, or the district superintendent of schools may suspend a pupil from the school for any of the reasons enumerated in Section 48900, and pursuant to Section 48900.5, for no more than five consecutive schooldays.

(b) Suspension by the principal, the principal's designee, or the district superintendent of schools shall be preceded by an informal conference conducted by the principal, the principal's designee, or the district superintendent of schools between the pupil and, whenever practicable, the teacher, supervisor, or school employee who referred the pupil to the principal, the principal's designee, or the district superintendent of schools. At the conference, the pupil shall be informed of the reason for the disciplinary action, including the other means of correction that were attempted before the suspension as required under Section 48900.5, and the evidence against him or her, and shall be given the opportunity to present his or her version and evidence in his or her defense.

(c) A principal, the principal's designee, or the district superintendent of schools may suspend a pupil without affording the pupil an opportunity for a conference only if the principal, the principal's designee, or the district superintendent of schools determines that an emergency situation exists. "Emergency situation," as used in this article, means a situation determined by the principal, the principal's designee, or the district superintendent of schools to constitute a clear and present danger to the life, safety, or health of pupils or school personnel. If a pupil is suspended without a conference before suspension, both the parent and the pupil shall be notified of the pupil's right to a conference and the pupil's right to return to school for the purpose of a conference. The conference shall be held within two schooldays, unless the pupil waives this right or is physically unable to attend for any reason, including, but not limited to, incarceration or hospitalization. The conference shall then be held as soon as the pupil is physically able to return to school for the conference.

(d) At the time of suspension, a school employee shall make a reasonable effort to contact the pupil's parent or guardian in person or by telephone. If a pupil is suspended from school, the parent or guardian shall be notified in writing of the suspension.

(e) A school employee shall report the suspension of the pupil, including the cause for the suspension, to the governing board of the school district or to the district superintendent of schools in accordance with the regulations of the governing board of the school district.

(f) (1) The parent or guardian of a pupil shall respond without delay to a request from school officials to attend a conference regarding his or her child's behavior.
(2) No penalties shall be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with school officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.

(g) In a case where expulsion from a school or suspension for the balance of the semester from continuation school is being processed by the governing board of the school district, the district superintendent of schools or other person designated by the district superintendent of schools in writing may extend the suspension until the governing board of the school district has rendered a decision in the action. However, an extension may be granted only if the district superintendent of schools or the district superintendent's designee has determined, following a meeting in which the pupil and the pupil's parent or guardian are invited to participate, that the presence of the pupil at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. If the pupil is a foster child, as defined in Section 48853.5, the district superintendent of schools or the district superintendent's designee, including, but not limited to, the educational liaison for the school district, shall also invite the pupil's attorney and an appropriate representative of the county child welfare agency to participate in the meeting. If the pupil or the pupil's parent or guardian has requested a meeting to challenge the original suspension pursuant to Section 48914, the purpose of the meeting shall be to decide upon the extension of the suspension order under this section and may be held in conjunction with the initial meeting on the merits of the suspension.

(h) (1) For purposes of this section, a "principal's designee" is one or more administrators at the schoolsite specifically designated by the principal, in writing, to assist with disciplinary procedures.

(2) In the event that there is not an administrator in addition to the principal at the schoolsite, a certificated person at the schoolsite may be specifically designated by the principal, in writing, as a "principal's designee," to assist with disciplinary procedures. The principal may designate only one person at a time as the principal's primary designee for the school year.

(3) An additional person meeting the requirements of this subdivision may be designated by the principal, in writing, to act for purposes of this article when both the principal and the principal's primary designee are absent from the schoolsite. The name of the person, and the names of any person or persons designated as "principal's designee," shall be on file in the principal's office.

(i) This section is not an exception to, nor does it place any limitation on, Section 48903.

EDC 48911.5.

The site principal of a contracting nonpublic, nonsectarian school providing services to individuals with exceptional needs under Sections 56365 and 56366, shall have the same duties and responsibilities with respect to the suspension of pupils with previously identified exceptional needs prescribed for the suspension of pupils under Section 48911.

EDC 48912.

(a) The governing board may suspend a pupil from school for any of the acts enumerated in Section 48900 for any number of schooldays within the limits prescribed by Section 48903.

(b) Notwithstanding the provisions of Section 35145 of this code and Section 54950 of the Government Code, the governing board of a school district shall, unless a request has been made to the contrary, hold closed sessions if the board is considering the suspension of, disciplinary action against, or any other action against, except expulsion, any pupil, if a public hearing upon that question would lead to the giving out of information concerning a school pupil which would be in violation of Article 5 (commencing with Section 49073) of Chapter 6.5.

(c) Before calling a closed session to consider these matters, the governing board shall, in writing, by registered or certified mail or by personal service, notify the pupil and the pupil's parent or guardian, or
the pupil if the pupil is an adult, of the intent of the governing board to call and hold a closed session. Unless the pupil or the pupil’s parent or guardian shall, in writing, within 48 hours after receipt of the written notice of the board’s intention, request that the hearing be held as a public meeting, the hearing to consider these matters shall be conducted by the governing board in closed session. In the event that a written request is served upon the clerk or secretary of the governing board, the meeting shall be public, except that any discussion at that meeting which may be in conflict with the right to privacy of any pupil other than the pupil requesting the public meeting, shall be in closed session.

EDC 48915.01.

If the governing board of a school district has established a community day school pursuant to Section 48661 on the same site as a comprehensive middle, junior, or senior high school, or at any elementary school, the governing board does not have to meet the condition in paragraph (2) of subdivision (d) of Section 48915 when the board, pursuant to subdivision (f) of Section 48915, refers a pupil to a program of study and that program of study is at the community day school. All the other conditions of subdivision (d) of Section 48915 are applicable to the referral as required by subdivision (f) of Section 48915.

EDC 48915.1.

(a) If the governing board of a school district receives a request from an individual who has been expelled from another school district for an act other than those described in subdivision (a) or (c) of Section 48915, for enrollment in a school maintained by the school district, the board shall hold a hearing to determine whether that individual poses a continuing danger either to the pupils or employees of the school district. The hearing and notice shall be conducted in accordance with the rules and regulations governing procedures for the expulsion of pupils as described in Section 48918. A school district may request information from another school district regarding a recommendation for expulsion or the expulsion of an applicant for enrollment. The school district receiving the request shall respond to the request with all deliberate speed but shall respond no later than five working days from the date of the receipt of the request.

(b) If a pupil has been expelled from his or her previous school for an act other than those listed in subdivision (a) or (c) of Section 48915, the parent, guardian, or pupil, if the pupil is emancipated or otherwise legally of age, shall, upon enrollment, inform the receiving school district of his or her status with the previous school district. If this information is not provided to the school district and the school district later determines the pupil was expelled from the previous school, the lack of compliance shall be recorded and discussed in the hearing required pursuant to subdivision (a).

(c) The governing board of a school district may make a determination to deny enrollment to an individual who has been expelled from another school district for an act other than those described in subdivision (a) or (c) of Section 48915, for the remainder of the expulsion period after a determination has been made, pursuant to a hearing, that the individual poses a potential danger to either the pupils or employees of the school district.

(d) The governing board of a school district, when making its determination whether to enroll an individual who has been expelled from another school district for these acts, may consider the following options:

   (1) Deny enrollment.

   (2) Permit enrollment.

   (3) Permit conditional enrollment in a regular school program or another educational program.

(e) Notwithstanding any other provision of law, the governing board of a school district, after a determination has been made, pursuant to a hearing, that an individual expelled from another school district for an act other than those described in subdivision (a) or (c) of Section 48915 does not pose a danger to either the pupils or employees of the school district, shall permit the individual to enroll in a
school in the school district during the term of the expulsion, provided that he or she, subsequent to the expulsion, either has established legal residence in the school district, pursuant to Section 48200, or has enrolled in the school pursuant to an interdistrict agreement executed between the affected school districts pursuant to Chapter 5 (commencing with Section 46600).

EDC 48916.

(a) An expulsion order shall remain in effect until the governing board, in the manner prescribed in this article, orders the readmission of a pupil. At the time an expulsion of a pupil is ordered for an act other than those described in subdivision (c) of Section 48915, the governing board shall set a date, not later than the last day of the semester following the semester in which the expulsion occurred, when the pupil shall be reviewed for readmission to a school maintained by the district or to the school the pupil last attended. If an expulsion is ordered during summer session or the intersession period of a year-round program the governing board shall set a date, not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred, when the pupil shall be reviewed for readmission to a school maintained by the district or to the school the pupil last attended. For a pupil who has been expelled pursuant to subdivision (c) of Section 48915, the governing board shall set a date of one year from the date the expulsion occurred, when the pupil shall be reviewed for readmission to a school maintained by the district, except that the governing board may set an earlier date for readmission on a case-by-case basis.

(b) The governing board shall recommend a plan of rehabilitation for the pupil at the time of the expulsion order,

(d) If the governing board denies the readmission of an expelled pupil pursuant to subdivision (c), the governing board shall make a determination either to continue the placement of the pupil in the alternative educational program initially selected for the pupil during the period of the expulsion order or to place the pupil in another program that may include, but need not be limited to, serving expelled pupils, including placement in a county community school.

(e) The governing board shall provide written notice to the expelled pupil and the pupil’s parent or guardian describing the reasons for denying the pupil readmittance into the regular school district program.

EDC 48917.

(b) The governing board shall apply the criteria for suspending the enforcement of the expulsion order equally to all pupils, including individuals with exceptional needs as defined in Section 56026.

(c) During the period of the suspension of the expulsion order, the pupil is deemed to be on probationary status.

(d) The governing board may revoke the suspension of an expulsion order under this section if the pupil commits any of the acts enumerated in Section 48900 or violates any of the district’s rules and regulations governing pupil conduct. When the governing board revokes the suspension of an expulsion order, a pupil may be expelled under the terms of the original expulsion order.

(e) Upon satisfactory completion of the rehabilitation assignment of a pupil, the governing board shall reinstate the pupil in a school of the district and may also order the expungement of any or all records of the expulsion proceedings.

(f) A decision of the governing board to suspend an expulsion order does not affect the time period and requirements for the filing of an appeal of the expulsion order with the county board of education required under Section 48919. Any appeal shall be filed within 30 days of the original vote of the governing board.
EDC 48918.

The governing board of each school district shall establish rules and regulations governing procedures for the expulsion of pupils. These procedures shall include, but are not necessarily limited to, all of the following:

(a) (1) The pupil shall be entitled to a hearing to determine whether the pupil should be expelled. An expulsion hearing shall be held within 30 schooldays after the date the principal or the superintendent of schools determines that the pupil has committed any of the acts enumerated in Section 48900, unless the pupil requests, in writing, that the hearing be postponed. The adopted rules and regulations shall specify that the pupil is entitled to at least one postponement of an expulsion hearing, for a period of not more than 30 calendar days. Any additional postponement may be granted at the discretion of the governing board of the school district.

(2) Within 10 schooldays after the conclusion of the hearing, the governing board of the school district shall decide whether to expel the pupil, unless the pupil requests in writing that the decision be postponed. If the hearing is held by a hearing officer or an administrative panel, or if the governing board of the school district does not meet on a weekly basis, the governing board of the school district shall decide whether to expel the pupil within 40 schooldays after the date of the pupil’s removal from his or her school of attendance for the incident for which the recommendation for expulsion is made by the principal or the superintendent of schools, unless the pupil requests in writing that the decision be postponed.

(3) If compliance by the governing board of the school district with the time requirements for the conducting of an expulsion hearing under this subdivision is impracticable during the regular school year, the superintendent of schools or the superintendent’s designee may, for good cause, extend the time period for the holding of the expulsion hearing for an additional five schooldays. If compliance by the governing board of the school district with the time requirements for the conducting of an expulsion hearing under this subdivision is impractical due to a summer recess of governing board meetings of more than two weeks, the days during the recess period shall not be counted as schooldays in meeting the time requirements. The days not counted as schooldays in meeting the time requirements for an expulsion hearing because of a summer recess of governing board meetings shall not exceed 20 schooldays, as defined in subdivision (c) of Section 48925, and unless the pupil requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days before the first day of school for the school year. Reasons for the extension of the time for the hearing shall be included as a part of the record at the time the expulsion hearing is conducted. Upon the commencement of the hearing, all matters shall be pursued and conducted with reasonable diligence and shall be concluded without any unnecessary delay.

(b) Written notice of the hearing shall be forwarded to the pupil at least 10 calendar days before the date of the hearing. The notice shall include all of the following:

(1) The date and place of the hearing.

(2) A statement of the specific facts and charges upon which the proposed expulsion is based.

(3) A copy of the disciplinary rules of the school district that relate to the alleged violation.

(4) A notice of the parent, guardian, or pupil’s obligation pursuant to subdivision (b) of Section 48915.1.

(5) Notice of the opportunity for the pupil or the pupil’s parent or guardian to appear in person or to be represented by legal counsel or by a nonattorney adviser, to inspect and obtain copies of all documents to be used at the hearing, to confront and question all witnesses who testify at the hearing, to question all other evidence presented, and to present oral and documentary evidence on the pupil’s behalf, including witnesses. In a hearing in which a pupil is alleged to have committed or
attempted to commit a sexual assault as specified in subdivision (n) of Section 48900 or to have committed a sexual battery as defined in subdivision (n) of Section 48900, a complaining witness shall be given five days’ notice before being called to testify, and shall be entitled to have up to two adult support persons, including, but not limited to, a parent, guardian, or legal counsel, present during his or her testimony. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential. This subdivision shall not preclude the person presiding over an expulsion hearing from removing a support person whom the presiding person finds is disrupting the hearing. If one or both of the support persons is also a witness, the provisions of Section 868.5 of the Penal Code shall be followed for the hearing. This section does not require a pupil or the pupil’s parent or guardian to be represented by legal counsel or by a nonattorney adviser at the hearing.

(A) For purposes of this section, “legal counsel” means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

(B) For purposes of this section, “nonattorney adviser” means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case, and has been selected by the pupil or pupil’s parent or guardian to provide assistance at the hearing.

c (1) Notwithstanding Section 35145, the governing board of the school district shall conduct a hearing to consider the expulsion of a pupil in a session closed to the public, unless the pupil requests, in writing, at least five days before the date of the hearing, that the hearing be conducted at a public meeting. Regardless of whether the expulsion hearing is conducted in a closed or public session, the governing board of the school district may meet in closed session for the purpose of deliberating and determining whether the pupil should be expelled.

(2) If the governing board of the school district or the hearing officer or administrative panel appointed under subdivision (d) to conduct the hearing admits any other person to a closed deliberation session, the parent or guardian of the pupil, the pupil, and the counsel of the pupil also shall be allowed to attend the closed deliberations.

(3) If the hearing is to be conducted at a public meeting, and there is a charge of committing or attempting to commit a sexual assault as defined in subdivision (n) of Section 48900 or to commit a sexual battery as defined in subdivision (n) of Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm, including, but not limited to, videotaped deposition or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

d Instead of conducting an expulsion hearing itself, the governing board of the school district may contract with the county hearing officer, or with the Office of Administrative Hearings pursuant to Chapter 14 (commencing with Section 27720) of Part 3 of Division 2 of Title 3 of the Government Code and Section 35207 of this code, for a hearing officer to conduct the hearing. The governing board of the school district may also appoint an impartial administrative panel of three or more certificated persons, none of whom is a member of the governing board of the school district or employed on the staff of the school in which the pupil is enrolled. The hearing shall be conducted in accordance with all of the procedures established under this section.

e Within three schooldays after the hearing, the hearing officer or administrative panel shall determine whether to recommend the expulsion of the pupil to the governing board of the school district. If the hearing officer or administrative panel decides not to recommend expulsion, the expulsion proceedings shall be terminated and the pupil immediately shall be reinstated and permitted to return to the classroom instructional program from which the expulsion referral was made, unless the parent,
guardian, or responsible adult of the pupil requests another school placement in writing. Before the placement decision is made by the parent, guardian, or responsible adult, the superintendent of schools or the superintendent's designee shall consult with school district personnel, including the pupil's teachers, and the parent, guardian, or responsible adult regarding any other school placement options for the pupil in addition to the option to return to his or her classroom instructional program from which the expulsion referral was made. If the hearing officer or administrative panel finds that the pupil committed any of the acts specified in subdivision (c) of Section 48915, but does not recommend expulsion, the pupil shall be immediately reinstated and may be referred to his or her prior school or another comprehensive school, or, pursuant to the procedures set forth in Section 48432.5, a continuation school of the school district. The decision not to recommend expulsion shall be final.

(f) (1) If the hearing officer or administrative panel recommends expulsion, findings of fact in support of the recommendation shall be prepared and submitted to the governing board of the school district. All findings of fact and recommendations shall be based solely on the evidence adduced at the hearing. If the governing board of the school district accepts the recommendation calling for expulsion, acceptance shall be based either upon a review of the findings of fact and recommendations submitted by the hearing officer or panel or upon the results of any supplementary hearing conducted pursuant to this section that the governing board of the school district may order.

(2) The decision of the governing board of the school district to expel a pupil shall be based upon substantial evidence relevant to the charges adduced at the expulsion hearing or hearings. Except as provided in this section, no evidence to expel shall be based solely upon hearsay evidence. The governing board of the school district or the hearing officer or administrative panel may, upon a finding that good cause exists, determine that the disclosure of either the identity of a witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the governing board of the school district or the hearing officer or administrative panel. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

(g) A record of the hearing shall be made. The record may be maintained by any means, including electronic recording, so long as a reasonably accurate and complete written transcription of the proceedings can be made.

(h) (1) Technical rules of evidence shall not apply to the hearing, but relevant evidence may be admitted and given probative effect only if it is the kind of evidence upon which reasonable persons are accustomed to rely in the conduct of serious affairs. A decision of the governing board of the school district to expel shall be supported by substantial evidence showing that the pupil committed any of the acts enumerated in Section 48900.

(2) In hearings that include an allegation of committing or attempting to commit a sexual assault as defined in subdivision (n) of Section 48900 or to commit a sexual battery as defined in subdivision (n) of Section 48900, evidence of specific instances, of a complaining witness' prior sexual conduct is to be presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before the person conducting the hearing makes the determination on whether extraordinary circumstances exist requiring that specific instances of a complaining witness' prior sexual conduct be heard, the complaining witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, guardian, legal counsel, or other support
person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

(i) (1) Before the hearing has commenced, the governing board of the school district may issue subpoenas at the request of either the superintendent of schools or the superintendent’s designee or the pupil, for the personal appearance of percipient witnesses at the hearing. After the hearing has commenced, the governing board of the school district or the hearing officer or administrative panel may, upon request of either the county superintendent of schools or the superintendent’s designee or the pupil, issue subpoenas. All subpoenas shall be issued in accordance with Sections 1985, 1985.1, and 1985.2 of the Code of Civil Procedure. Enforcement of subpoenas shall be done in accordance with Section 11455.20 of the Government Code.

(2) Any objection raised by the superintendent of schools or the superintendent’s designee or the pupil to the issuance of subpoenas may be considered by the governing board of the school district in closed session, or in open session, if so requested by the pupil before the meeting. Any decision by the governing board of the school district in response to an objection to the issuance of subpoenas shall be final and binding.

(3) If the governing board of the school district, hearing officer, or administrative panel determines, in accordance with subdivision (f), that a percipient witness would be subject to an unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as provided for in subdivision (f).

(4) Service of process shall be extended to all parts of the state and shall be served in accordance with Section 1987 of the Code of Civil Procedure. All witnesses appearing pursuant to subpoena, other than the parties or officers or employees of the state or any political subdivision of the state, shall receive fees, and all witnesses appearing pursuant to subpoena, except the parties, shall receive mileage in the same amount and under the same circumstances as prescribed for witnesses in civil actions in a superior court. Fees and mileage shall be paid by the party at whose request the witness is subpoenaed.

(j) Whether an expulsion hearing is conducted by the governing board of the school district or before a hearing officer or administrative panel, final action to expel a pupil shall be taken only by the governing board of the school district in a public session. Written notice of any decision to expel or to suspend the enforcement of an expulsion order during a period of probation shall be sent by the superintendent of schools or his or her designee to the pupil or the pupil’s parent or guardian and shall be accompanied by all of the following:

(1) Notice of the right to appeal the expulsion to the county board of education.

(2) Notice of the education alternative placement to be provided to the pupil during the time of expulsion.

(3) Notice of the obligation of the parent, guardian, or pupil under subdivision (b) of Section 48915.1, upon the pupil’s enrollment in a new school district, to inform that school district of the pupil’s expulsion.

(k) (1) The governing board of the school district shall maintain a record of each expulsion, including the cause for the expulsion. Records of expulsions shall be nonprivileged, disclosable public records.

(2) The expulsion order and the causes for the expulsion shall be recorded in the pupil’s mandatory interim record and shall be forwarded to any school in which the pupil subsequently enrolls upon receipt of a request from the admitting school for the pupil’s school records.
EDC 48918.1.
(a) (1) If the decision to recommend expulsion is a discretionary act and the pupil is a foster child, as defined in Section 48853.5, the governing board of the school district shall provide notice of the expulsion hearing to the pupil’s attorney and an appropriate representative of the county child welfare agency at least 10 calendar days before the date of the hearing. The notice may be made using the most cost-effective method possible, which may include, but is not limited to, electronic mail or a telephone call.

(2) If a recommendation of expulsion is required and the pupil is a foster child, as defined in Section 48853.5, the governing board of the school district may provide notice of the expulsion hearing to the pupil’s attorney and an appropriate representative of the county child welfare agency at least 10 calendar days before the date of the hearing. The notice may be made using the most cost-effective method possible, which may include, but is not limited to, electronic mail or a telephone call.

(b) (1) If the decision to recommend expulsion is a discretionary act and the pupil is a homeless child or youth, as defined in Section 11434a(2) of Title 42 of the United States Code, the governing board of the school district shall provide notice of the expulsion hearing to the local educational agency liaison for homeless children and youth designated pursuant to Section 11432(g)(1)(J)(ii) of Title 42 of the United States Code at least 10 calendar days before the date of the hearing. The notice may be made using the most cost-effective method possible, which may include, but is not limited to, electronic mail or a telephone call.

(2) If a recommendation of expulsion is required and the pupil is a homeless child or youth, as defined in Section 11434a(2) of Title 42 of the United States Code, the governing board of the school district may provide notice of the expulsion hearing to the local educational agency liaison for homeless children and youth designated pursuant to Section 11432(g)(1)(J)(ii) of Title 42 of the United States Code at least 10 calendar days before the date of the hearing. The notice may be made using the most cost-effective method possible, which may include, but is not limited to, electronic mail or a telephone call.

EDC 48918.5.
In expulsion hearings involving allegations brought pursuant to subdivision (n) of Section 48900, the governing board of each school district shall establish rules and regulations governing procedures. The procedures shall include, but are not limited to, all of the following:

(a) At the time that the expulsion hearing is recommended, the complaining witness shall be provided with a copy of the applicable disciplinary rules and advised of his or her right to: (1) receive five days’ notice of the complaining witness’s scheduled testimony at the hearing, (2) have up to two adult support persons of his or her choosing, present in the hearing at the time he or she testifies; and (3) to have the hearing closed during the time they testify pursuant to subdivision (c) of Section 48918.

(b) An expulsion hearing may be postponed for one schoolday in order to accommodate the special physical, mental, or emotional needs of a pupil who is the complaining witness where the allegations arise under subdivision (n) of Section 48900.

(c) The district shall provide a nonthreatening environment for a complaining witness in order to better enable them to speak freely and accurately of the experiences that are the subject of the expulsion hearing, and to prevent discouragement of complaints. Each school district shall provide a room separate from the hearing room for the use of the complaining witness prior to and during breaks in testimony. In the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he or she may leave the hearing room. The person conducting the hearing may arrange the seating within the hearing room of those present in order to facilitate a less intimidating environment for the complaining witness. The period within which an appeal is to be filed shall be determined from the date a governing board votes to expel even if enforcement of the expulsion action is suspended and the pupil is placed on probation pursuant to Section 48917. A pupil who fails to appeal the original action of the board within the prescribed time may not subsequently appeal a decision of the board to revoke probation and impose the original order of expulsion.

The county board of education shall adopt rules and regulations establishing procedures for expulsion appeals conducted under this section. If the county board of education in a class 1 or class 2 county elects to use the procedures in Section 48919.5, then the board shall adopt rules and regulations establishing procedures for expulsion appeals conducted under Section 48919.5. The adopted rules and regulations shall include, but need not be limited to, the requirements for filing a notice of appeal, the setting of a hearing date, the furnishing of notice to the pupil and the governing board regarding the appeal, the furnishing of a copy of the expulsion hearing record to the county board of education, procedures for the conduct of the hearing, and the preservation of the record of the appeal.

The pupil shall submit a written request for a copy of the written transcripts and supporting documents from the school district simultaneously with the filing of the notice of appeal with the county board of education. The school district shall provide the pupil with the transcriptions, supporting documents, and records within 10 schooldays following the pupil’s written request. Upon receipt of the records, the pupil shall immediately file suitable copies of these records with the county board of education.

**EDC 48919.5.**

(a) A county board of education in a class 1 or class 2 county may have a hearing officer pursuant to Chapter 14 (commencing with Section 27720) of Part 3 of Title 3 of the Government Code, or an impartial administrative panel of three or more certificated persons appointed by the county board of education, hear appeals filed pursuant to Section 48919. The members of the impartial administrative panel shall not be members of the governing board of the school district nor employees of the school district, from which the pupil filing the appeal was expelled. Neither the hearing officer, nor any member of the administrative panel shall be a member of the pupil’s immediate family.

(b) A hearing conducted pursuant to this section shall not issue a final order of the county board. The hearing officer or impartial administrative panel shall prepare a recommended decision, including any findings or conclusions required for that decision, and shall submit that recommendation and the record to the county board of education within three schooldays of hearing the appeal.

(c) Sections 48919, 48920, 48921, 48922, 48923, and 48925 are applicable to a hearing conducted pursuant to this section.

EDC 48920.

Notwithstanding the provisions of Section 54950 of the Government Code and Section 35145 of this code, the county board of education shall hear an appeal of an expulsion order in closed session, unless the pupil requests, in writing, at least five days prior to the date of the hearing, that the hearing be conducted in a public meeting. Upon the timely submission of a request for a public meeting, the county board of education shall be required to honor the request. Whether the hearing is conducted in closed or public session, the county board may meet in closed session for the purpose of deliberations. If the county board admits any representative of the pupil or the school district, the board shall, at the same time, admit representatives from the opposing party.

EDC 48921.

The county board of education shall determine the appeal from a pupil expulsion upon the record of the hearing before the district governing board, together with such applicable documentation or regulations as may be ordered. No evidence other than that contained in the record of the proceedings of the school board may be heard unless a de novo proceeding is granted as provided in Section 48923.

It shall be the responsibility of the pupil to submit a written transcription for review by the county board. The cost of the transcript shall be borne by the pupil except in either of the following situations:

(1) Where the pupil’s parent or guardian certifies to the school district that he or she cannot reasonably afford the cost of the transcript because of limited income or exceptional necessary expenses, or both.

(2) In a case in which the county board reverses the decision of the local governing board, the county board shall require that the local board reimburse the pupil for the cost of such transcription.

EDC 48922.

(a) The review by the county board of education of the decision of the governing board shall be limited to the following questions:

(2) Whether there was a fair hearing before the governing board.

(3) Whether there was a prejudicial abuse of discretion in the hearing.
(4) Whether there is relevant and material evidence which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the governing board.

(b) As used in this section, a proceeding without or in excess of jurisdiction includes, but is not limited to, a situation where an expulsion hearing is not commenced within the time periods prescribed by this article, a situation where an expulsion order is not based upon the acts enumerated in Section 48900, or a situation involving acts not related to school activity or attendance.

(c) For purposes of this section, an abuse of discretion is established in any of the following situations:

(1) If school officials have not met the procedural requirements of this article.

(2) If the decision to expel a pupil is not supported by the findings prescribed by Section 48915.

(3) If the findings are not supported by the evidence.

A county board of education may not reverse the decision of a governing board to expel a pupil based upon a finding of an abuse of discretion unless the county board of education also determines that the abuse of discretion was prejudicial.

EDC 48923.

The decision of the county board shall be limited as follows:

(a) If the county board finds that relevant and material evidence exists which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the governing board, it may do either of the following:

(1) Remand the matter to the governing board for reconsideration and may in addition order the pupil reinstated pending the reconsideration.

(2) Grant a hearing de novo upon reasonable notice thereof to the pupil and to the governing board. The hearing shall be conducted in conformance with the rules and regulations adopted by the county board under Section 48919.

(b) If the county board determines that the decision of the governing board is not supported by the findings required to be made by Section 48915, but evidence supporting the required findings exists in the record of the proceedings, the county board shall remand the matter to the governing board for adoption of the required findings. This remand for the adoption and inclusion of the required findings shall not result in an additional hearing pursuant to Section 48918, except that final action to expel the pupil based on the revised findings of fact shall meet all requirements of subdivisions (j) and (k) of Section 48918.

(c) In all other cases, the county board shall enter an order either affirming or reversing the decision of the governing board. In any case in which the county board enters a decision reversing the local board, the county board may direct the local board to expunge the record of the pupil and the records of the district of any references to the expulsion action and the expulsion shall be deemed not to have occurred.

EDC 48924.

The decision of the county board of education shall be final and binding upon the pupil and upon the governing board of the school district. The pupil and the governing board shall be notified of the final order of the county board, in writing, either by personal service or by certified mail. The order shall become final when rendered.

LAWS

EDC 48910.
(a) A teacher may suspend any pupil from class, for any of the acts enumerated in Section 48900, for the day of the suspension and the day following. The teacher shall immediately report the suspension to the principal of the school and send the pupil to the principal or the designee of the principal for appropriate action. If that action requires the continued presence of the pupil at the schoolsite, the pupil shall be under appropriate supervision, as defined in policies and related regulations adopted by the governing board of the school district. As soon as possible, the teacher shall ask the parent or guardian of the pupil to attend a parent-teacher conference regarding the suspension. If practicable, a school counselor or a school psychologist may attend the conference. A school administrator shall attend the conference if the teacher or the parent or guardian so requests. The pupil shall not be returned to the class from which he or she was suspended, during the period of the suspension, without the concurrence of the teacher of the class and the principal.
(b) A pupil suspended from a class shall not be placed in another regular class during the period of suspension. However, if the pupil is assigned to more than one class per day this subdivision shall apply only to other regular classes scheduled at the same time as the class from which the pupil was suspended.

EDC 48911.1.
(a) A pupil suspended from a school for any of the reasons enumerated in Sections 48900 and 48900.2 may be assigned, by the principal or the principal’s designee, to a supervised suspension classroom for the entire period of suspension if the pupil poses no imminent danger or threat to the campus, pupils, or staff, or if an action to expel the pupil has not been initiated.
(b) Pupils assigned to a supervised suspension classroom shall be separated from other pupils at the
schoolsite for the period of suspension in a separate classroom, building, or site for pupils under
suspension.

(c) School districts may continue to claim apportionments for each pupil assigned to and attending a
supervised suspension classroom provided as follows:

1. The supervised suspension classroom is staffed as otherwise provided by law.
2. Each pupil has access to appropriate counseling services.
3. The supervised suspension classroom promotes completion of schoolwork and tests missed by the
   pupil during the suspension.
4. Each pupil is responsible for contacting his or her teacher or teachers to receive assignments to be
   completed while the pupil is assigned to the supervised suspension classroom. The teacher shall
   provide all assignments and tests that the pupil will miss while suspended. If no classroom work is
   assigned, the person supervising the suspension classroom shall assign schoolwork.

in person or by telephone, the pupil’s parent or guardian. Whenever a pupil is assigned to a supervised
suspension classroom for longer than one class period, a school employee shall notify, in writing, the
pupil’s parent or guardian.

(e) This section does not place any limitation on a school district’s ability to transfer a pupil to an
opportunity school or class or a continuation education school or class.

(f) Apportionments claimed by a school district for pupils assigned to supervised suspension shall be
used specifically to mitigate the cost of implementing this section.

EDC 48911.2.
(a) If the number of pupils suspended from school during the prior school year exceeded 30 percent of
the school’s enrollment, the school should consider doing at least one of the following:

1. Implement the supervised suspension program described in Section 48911.1.

(c) It is the intent of the Legislature to encourage schools that choose to implement this section to
examine alternatives to off-campus suspensions that lead to resolution of pupil misconduct without
sending pupils off campus. Schools that use this section should not be precluded from suspending pupils
to an off-campus site.

(c) The governing board of a school district may make a determination to deny enrollment to an individual who has been expelled from another school district for an act other than those described in subdivision (a) or (c) of Section 48915, for the remainder of the expulsion period after a determination has been made, pursuant to a hearing, that the individual poses a potential danger to either the pupils or employees of the school district.

(e) Notwithstanding any other provision of law, the governing board of a school district, after a determination has been made, pursuant to a hearing, that an individual expelled from another school district for an act other than those described in subdivision (a) or (c) of Section 48915 does not pose a danger to either the pupils or employees of the school district, shall permit the individual to enroll in a school in the school district during the term of the expulsion, provided that he or she, subsequent to the expulsion, either has established legal residence in the school district, pursuant to Section 48200, or has enrolled in the school pursuant to an interdistrict agreement executed between the affected school districts pursuant to Chapter 5 (commencing with Section 46600).

EDC 48915.2.

(a) A pupil expelled from school for any of the offenses listed in subdivision (a) or (c) of Section 48915, shall not be permitted to enroll in any other school or school district during the period of expulsion unless it is a county community school pursuant to subdivision (c) of Section 1981, or a juvenile court school, as described in Section 48645.1, or a community day school pursuant to Article 3 (commencing with Section 48660) of Chapter 4 of Part 27.

At the time an expulsion of a pupil is ordered for an act other than those described in subdivision (c) of Section 48915, the governing board shall set a date, not later than the last day of the semester following the semester in which the expulsion occurred, when the pupil shall be reviewed for readmission to a school maintained by the district or to the school the pupil last attended. If an expulsion is ordered during summer session or the intersession period of a year-round program the governing board shall set a date, not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred, when the pupil shall be reviewed for readmission to a school maintained by the district or to the school the pupil last attended. For a pupil who has been expelled pursuant to subdivision (c) of Section 48915, the governing board shall set a date of one year from the date the expulsion occurred, when the pupil shall be reviewed for readmission on a case-by-case basis.

2. That some schoolage individuals with exceptional needs have significant behavioral challenges that have an adverse impact on their learning or the learning of other pupils, or both.

3. That Section 1400(c)(5)(F) of Title 20 of the United States Code states that research and experience demonstrate that the education of children with disabilities can be made more effective by providing incentives for positive behavioral interventions and supports to address the learning and behavioral needs of those children.

4. That procedures for the elimination of maladaptive behaviors shall not include those deemed unacceptable under Section 49001 or those that cause pain or trauma.

(b) It is the intent of the Legislature:

1. That children exhibiting serious behavioral challenges receive timely and appropriate assessments and positive supports and interventions in accordance with the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.) and its implementing regulations.

2. That assessments and positive behavioral interventions and supports be developed and implemented in a manner informed by guidance from the United States Department of Education and technical assistance centers sponsored by the Office of Special Education Programs of the United States Department of Education.

3. 4. That behavioral intervention plans be developed and used, to the extent possible, in a consistent manner when the pupil is also the responsibility of another agency for residential care or related services.

5. That training programs be developed and implemented in institutions of higher education that train teachers and that in-service training programs be made available as necessary in school districts and county offices of education to ensure that adequately trained staff are available to work effectively with the behavioral intervention needs of individuals with exceptional needs.

The purpose of this article is to provide for the administration and operation of public schools in juvenile halls, juvenile homes, day centers, juvenile ranches, juvenile camps, regional youth educational facilities, or Orange County youth correctional centers in existence and providing services prior to the effective date of the amendments to this section made by the Statutes of 1989, established pursuant to Article 23 (commencing with Section 850), Article 24 (commencing with Section 880), Article 24.5 (commencing with Section 894) of Chapter 2 of Division 2, or Article 9 (commencing with Section 1850) of Chapter 1 of Division 2.5, of the Welfare and Institutions Code or in any group home housing 25 or more children placed pursuant to Sections 362, 727, and 730, of the Welfare and Institutions Code or in any group home housing 25 or more children and operating one or more additional sites under a central administration for children placed pursuant to Section 362, 727, or 730 of the Welfare and Institutions Code, with acceptable school structures at one or more centrally located sites to serve the single or composite populations, and to provide the juvenile court school pupils therein detained with quality education and training.

Nothing in this section shall be construed as indicating that it is the intent of the Legislature to prevent juvenile court school pupils who are housed in group homes from enrolling in regular public schools, or that it is the intent of the Legislature to transfer the responsibility for any costs associated with the operation of group homes to the counties.

The Orange County Office of Education shall only provide educational services in youth correctional centers for individuals up to 19 years of age.

EDC 48645.1.

Public schools or classes in any juvenile hall, juvenile home, day center, juvenile ranch, juvenile camp, regional youth educational facility, or Orange County youth correctional center in existence and providing services prior to the effective date of the amendments to this section made by the Statutes of 1989, established in accordance with Article 23 (commencing with Section 850), Article 24 (commencing with
Section 880), and Article 24.5 (commencing with Section 894) of Chapter 2 of Division 2, or Article 9 (commencing with Section 1850) of Chapter 1 of Division 2.5, of the Welfare and Institutions Code, or in any group home housing 25 or more children and operating one or more additional sites under a central administration, with acceptable school structures at one or more centrally located sites to serve the single or composite populations of juvenile court school pupils detained therein in accordance with the provisions of Section 362, 727, or 730 of the Welfare and Institutions Code, shall be known as juvenile court schools.

EDC 48645.2.

The county board of education shall provide for the administration and operation of juvenile court schools established pursuant to Section 48645.1:

(a) By the county superintendent of schools, provided that, in any county in which the board of supervisors is establishing or maintaining juvenile court schools on January 1, 1978, the county superintendent of schools may contract with the board of supervisors for the administration and operation of such schools if agreed upon between the board of education and the board of supervisors. In any event, the county superintendent of schools may contract with other educational agencies for supporting services to the same extent that school districts may contract with other such agencies.

(b) By contract with the respective governing boards of the elementary, high school, or unified school district in which the juvenile court school is located.

EDC 48645.3.

(a) Juvenile court schools shall be conducted in a manner as shall be prescribed by the county board of education to best accomplish the provisions of Section 48645. The minimum schoolday shall be 240 minutes. Minimum schooldays shall be calculated on the basis of the average number of minutes of attendance during not more than 10 consecutive days in which classes are conducted. The minimum schoolday for pupils in attendance in approved vocational education programs, work programs prescribed by the probation department pursuant to Section 883 of the Welfare and Institutions Code, and work experience programs shall be 180 minutes, which shall be calculated on the basis of the average number of minutes of attendance during not more than 10 consecutive days in which classes are conducted. The county board of education shall adopt and enforce a course of study and evaluate its program in accordance with Sections 51040, 51041, 51050, and 51054 and the provisions of Article 1 (commencing with Section 51200) to Article 3 (commencing with Section 51220), inclusive, of Chapter 2 of Part 28, except subdivision (c) of Section 51220.

(b) Juvenile court schools shall not be closed on any weekday of the calendar year, except those weekdays adopted by the county board of education as school holidays or set aside by the county board of education for inservice purposes. However, the county board of education may close juvenile court schools when it deems the closing is necessary to accommodate contingencies.

(c) (1) The county board of education may adopt and enforce a course of study that enhances instruction in mathematics and English language arts for pupils attending juvenile court schools, as determined by statewide assessments or objective local evaluations and assessments as approved by the county superintendent of schools.

(2) The enhanced course of study adopted pursuant to paragraph (1) shall meet the standards adopted pursuant to Section 60605.8, as appropriate, and shall be tailored to meet the needs of the individual pupil to increase the pupil’s academic literacy and reading fluency.

(d) It is the intent of the Legislature that pupils in juvenile court schools have a rigorous curriculum that includes a course of study preparing them for high school graduation and career entry and fulfilling the requirements for admission to the University of California and the California State University.
EDC 48645.5.
(a) Each public school district and county office of education shall accept for credit full or partial coursework satisfactorily completed by a pupil while attending a public school, juvenile court school, or nonpublic, nonsectarian school or agency. The coursework shall be transferred by means of the standard state transcript. If a pupil completes the graduation requirements of his or her school district of residence while being detained, the school district of residence shall issue to the pupil a diploma from the school the pupil last attended before detention or, in the alternative, the county superintendent of schools may issue the diploma.

(b) A pupil shall not be denied enrollment or reenrollment to a public school solely on the basis that he or she has had contact with the juvenile justice system, including, but not limited to:

(1) Arrest.
(2) Adjudication by a juvenile court.
(3) Formal or informal supervision by a probation officer.
(4) Detention for any length of time in a juvenile facility or enrollment in a juvenile court school.
(c) Pursuant to subparagraph (B) of paragraph (8) of subdivision (f) of Section 48853.5, a pupil who has had contact with the juvenile justice system shall be immediately enrolled in a public school.
(d) If a pupil completes the statewide coursework requirements for graduation specified in Section 51225.3 while attending a juvenile court school, the county office of education shall issue to the pupil a diploma of graduation and shall not require the pupil to complete coursework or other requirements that are in addition to the statewide coursework requirements.

EDC 48645.6.
Plans for any juvenile court school classrooms, offices, or any other school structures in any juvenile hall, juvenile home, day center, juvenile ranch, or juvenile camp shall be approved by the county board of education. Upon approval of the board of supervisors and the county board of education, the cost of such structures shall be a required charge against the funds of the county.

The cost of constructing or otherwise providing classrooms, offices, or other onsite school structures in group homes or other agencies housing children described in Sections 362, 727, and 730 of the Welfare and Institutions Code shall be the responsibility of the private agency. This construction shall not entitle private agencies to an increase in the foster care reimbursement rates available from the State Department of Social Services or any other state agency. It is the intent of the Legislature that nothing in this section shall be construed to preclude the county boards of education or the governing boards of school districts from entering into a contractual agreement providing compensation to group homes for the use of classrooms, offices, or other onsite school structures.

EDC 48646.
(a) The Legislature encourages each county superintendent of schools or governing board of a school district, as determined by the county board of education pursuant to subdivision (b) of Section 48645.2, and the county chief probation officer to enter into a memorandum of understanding or equivalent mutual agreement to support a collaborative process for meeting the needs of wards of the court who are receiving their education in juvenile court schools. The memorandum of understanding or equivalent mutual agreement may include, but is not limited to, a process for communication, decision-making, mutually established goals, and conflict resolution. The purpose of this memorandum of understanding or equivalent mutual agreement is to develop a collaborative model that will foster an educational and residential environment that nurtures the whole child and consistently supports services that will meet the educational needs of the pupils.
(b) A memorandum of understanding or equivalent mutual agreement on providing educational and related services for juvenile court school pupils developed in accordance with this section may include, but is not limited to, the following provisions:

(1) Mutually developed goals and objectives that are reviewed annually, including, but not limited to, the following:

(E) Providing clean, safe, and appropriate educational facilities.
(F) Improving academic achievement and vocational preparation.

(2) Clear delineation of responsibilities among the educational and residential or custodial service providers.

(3) A process for communicating, collaborating, and resolving conflicts. Whenever possible, resolution of issues shall be reached by consensus through a collaborative process that would promote decision-making at the site where services are delivered. A working group charged with this responsibility may be appointed by the county superintendent of schools, or the superintendent of the school district with responsibility for providing juvenile court school services, and the county chief probation officer, or their designees. The working group is responsible for establishing and maintaining open communication, collaboration, and resolution of issues that arise.

(4) A clearly identified mechanism for resolving conflicts.

(5) A joint process for performing an intake evaluation for each ward to determine educational needs and ability to participate in all educational settings once the ward enters the local juvenile facility. The process shall recognize the limitations on academic evaluation and planning that can result from short-term placements. The evaluation team shall include staff from the responsible educational agency and the county probation department, and may include other participants as appropriate, and as mutually agreed upon by the education and probation members of the team. The evaluation process specified in the memorandum of understanding or equivalent mutual agreement may:

(A) Include a timeline for evaluation once a ward is assigned to a local facility.
(B) Result in an educational plan for a ward while assigned to a local juvenile facility that is integrated with other rehabilitative and behavioral management programs, and that supports the educational needs of the pupil.

It is the intent that this shared information about each ward placed in a juvenile court school shall assist both the county superintendent of schools and the county chief probation officer in meeting the needs of wards in their care and promoting a system of comprehensive services.

(c) The memorandum of understanding or equivalent mutual agreement shall not cede responsibility or authority prescribed by statute or regulation from one party to another party unless mutually agreed upon by both parties.

EDC 48647.

(a) Local educational agencies are strongly encouraged to enter into memoranda of understanding and create joint policies, systems, including data sharing systems, transition centers, and other joint structures that will allow for the immediate transfer of educational records, create uniform systems for calculating and awarding course credit, and allow for the immediate enrollment of pupils transferring from juvenile court schools.
(b) As part of their existing responsibilities for coordinating education and services for youth in the juvenile justice system, the county office of education and county probation department shall have a joint transition planning policy that includes collaboration with relevant local educational agencies to improve communication regarding dates of release and the educational needs of pupils who have had contact with the juvenile justice system, to coordinate immediate school placement and enrollment, and to ensure that probation officers in the community have the information they need to support the return of pupils who are being transferred from juvenile court schools to public schools in their communities.

**EDC 48648.**

(a) Subject to an appropriation in the annual Budget Act for this purpose, the Superintendent, in consultation with the Board of State and Community Corrections, shall convene a statewide group with stakeholders from the community, advocacy organizations, and education and probation department leaders to develop a model and study existing successful county programs and policies for the immediate transfer of educational records, uniform systems for calculating and awarding credits, transition planning, and the immediate enrollment of pupils who are being transferred from juvenile court schools.

(b) The average daily attendance of a community day school shall be determined by dividing the total number of days of attendance in all full school months, by a divisor of 70 in the first period of each fiscal year, by a divisor of 135 in the second period of each fiscal year, and by a divisor of 180 at the annual time of each fiscal year.

Attendance of less than five clock hours in a schoolday shall be disregarded for purposes of Section 48664. Five clock hours of attendance in one schoolday shall be deemed to be one-half day of attendance, for purposes of additional funding pursuant to Section 48664. Six clock hours or more of attendance in one schoolday shall be deemed to be one day of attendance, for purposes of additional funding pursuant to Section 48664.

(d) Independent study may not be utilized as a means of providing any part of the minimum instructional day provided pursuant to subdivision (a).
(e) A community day school’s academic programs shall be comparable to those available to pupils of a similar age in the school district.

(b) A pupil suspended from a class shall not be placed in another regular class during the period of suspension. However, if the pupil is assigned to more than one class per day this subdivision shall apply only to other regular classes scheduled at the same time as the class from which the pupil was suspended.

**EDC 48911.1.**

(a) A pupil suspended from a school for any of the reasons enumerated in Sections 48900 and 48900.2 may be assigned, by the principal or the principal’s designee, to a supervised suspension classroom for the entire period of suspension if the pupil poses no imminent danger or threat to the campus, pupils, or staff, or if an action to expel the pupil has not been initiated.

(f) The governing board of a school district shall refer a pupil who has been expelled pursuant to subdivision (b) or (e) to a program of study that meets all of the conditions specified in subdivision (d). Notwithstanding this subdivision, with respect to a pupil expelled pursuant to subdivision (e), if the county superintendent of schools certifies that an alternative program of study is not available at a site away from a comprehensive middle, junior, or senior high school, or an elementary school, and that the only option for placement is at another comprehensive middle, junior, or senior high school, or another elementary school, the pupil may be referred to a program of study that is provided at a comprehensive middle, junior, or senior high school, or at an elementary school.

EDC 48915.01.

If the governing board of a school district has established a community day school pursuant to Section 48661 on the same site as a comprehensive middle, junior, or senior high school, or at any elementary school, the governing board does not have to meet the condition in paragraph (2) of subdivision (d) of Section 48915 when the board, pursuant to subdivision (f) of Section 48915, refers a pupil to a program of study and that program of study is at the community day school. All the other conditions of subdivision (d) of Section 48915 are applicable to the referral as required by subdivision (f) of Section 48915.

EDC 48915.2.

(a) A pupil expelled from school for any of the offenses listed in subdivision (a) or (c) of Section 48915, shall not be permitted to enroll in any other school or school district during the period of expulsion unless it is a county community school pursuant to subdivision (c) of Section 1981, or a juvenile court school, as described in Section 48645.1, or a community day school pursuant to Article 3 (commencing with Section 48660) of Chapter 4 of Part 27.

EDC 48915.5.

(a) An individual with exceptional needs, as defined in Section 56026, may be suspended or expelled from school in accordance with Section 1415(k) of Title 20 of the United States Code, the discipline provisions contained in Sections 300.530 to 300.537, inclusive, of Title 34 of the Code of Federal Regulations, and other provisions of this part that do not conflict with federal law and regulations.

(b) A free appropriate public education for individuals with exceptional needs suspended or expelled from school shall be in accordance with Section 1412(a)(1) of Title 20 of the United States Code and Section 300.530(d) of Title 34 of the Code of Federal Regulations.

(c) If an individual with exceptional needs is excluded from schoolbus transportation, the pupil is entitled to be provided with an alternative form of transportation at no cost to the pupil or parent or guardian provided that transportation is specified in the pupil’s individualized education program.

(d) If the individual with exceptional needs is a foster child, as defined in Section 48853.5, and the local educational agency has proposed a change of placement due to an act for which a decision to recommend expulsion is at the discretion of the principal or the district superintendent of schools, the attorney for the individual with exceptional needs and an appropriate representative of the county child welfare agency shall be invited to participate in the individualized education program team meeting that makes a manifestation determination pursuant to Section 1415(k) of Title 20 of the United States Code. The invitation may be made using the most cost-effective method possible, which may include, but is not limited to, electronic mail or a telephone call.
(e) If the individual with exceptional needs is a homeless child or youth, as defined in Section 11434a(2) of Title 42 of the United States Code, and the local educational agency has proposed a change of placement due to an act for which a decision to recommend expulsion is at the discretion of the principal or the district superintendent of schools, the local educational agency liaison for homeless children and youth designated pursuant to Section 11432(g)(1)(J)(ii) of Title 42 of the United States Code shall be invited to participate in the individualized education program team meeting that makes a manifestation determination pursuant to Section 1415(k) of Title 20 of the United States Code. The invitation may be made using the most cost-effective method possible, which may include, but is not limited to, electronic mail or a telephone call.

EDC 48916.

(d) If the governing board denies the readmission of an expelled pupil pursuant to subdivision (c), the governing board shall make a determination either to continue the placement of the pupil in the alternative educational program initially selected for the pupil during the period of the expulsion order or to place the pupil in another program that may include, but need not be limited to, serving expelled pupils, including placement in a county community school.

EDC 48916.1.

(a) At the time an expulsion of a pupil is ordered, the governing board of the school district shall ensure that an educational program is provided to the pupil who is subject to the expulsion order for the period of the expulsion. Except for pupils expelled pursuant to subdivision (d) of Section 48915, the governing board of a school district is required to implement the provisions of this section only to the extent funds are appropriated for this purpose in the annual Budget Act or other legislation, or both.

(b) Notwithstanding any other provision of law, any educational program provided pursuant to subdivision (a) may be operated by the school district, the county superintendent of schools, or a consortium of districts or in joint agreement with the county superintendent of schools.

(c) Any educational program provided pursuant to subdivision (b) may not be situated within or on the grounds of the school from which the pupil was expelled.

(d) If the pupil who is subject to the expulsion order was expelled from any of kindergarten or grades 1 to 6, inclusive, the educational program provided pursuant to subdivision (b) may not be combined or merged with educational programs offered to pupils in any of grades 7 to 12, inclusive. The district or county program is the only program required to be provided to expelled pupils as determined by the governing board of the school district. This subdivision, as it relates to the separation of pupils by grade levels, does not apply to community day schools offering instruction in any of kindergarten and grades 1 to 8, inclusive, and established in accordance with Section 48660.

(f) If the county superintendent of schools is unable for any reason to serve the expelled pupils of a school district within the county, the governing board of that school district may enter into an agreement with a county superintendent of schools in another county to provide education services for the district’s expelled pupils.

EDC 48926.

Each county superintendent of schools in counties that operate community schools pursuant to Section 1980, in conjunction with superintendents of the school districts within the county, shall develop a plan for providing education services to all expelled pupils in that county. The plan shall be adopted by the governing board of each school district within the county and by the county board of education.

The plan shall enumerate existing educational alternatives for expelled pupils, identify gaps in educational services to expelled pupils, and strategies for filling those service gaps. The plan shall also identify alternative placements for pupils who are expelled and placed in district community day school programs,
but who fail to meet the terms and conditions of their rehabilitation plan or who pose a danger to other district pupils, as determined by the governing board.

(b) Possessed, sold, or otherwise furnished a firearm, knife, explosive, or other dangerous object, unless, in the case of possession of an object of this type, the pupil had obtained written permission to possess the item from a certificated school employee, which is concurred in by the principal or the designee of the principal.

(m) Possessed an imitation firearm. As used in this section, “imitation firearm” means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.

EDC 48915.

(a)

(1) Except as provided in subdivisions (c) and (e), the principal or the superintendent of schools shall recommend the expulsion of a pupil for any of the following acts committed at school or at a school activity off school grounds, unless the principal or superintendent determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct:

This subdivision applies to an act of possessing a firearm only if the possession is verified by an employee of a school district. The act of possessing an imitation firearm, as defined in subdivision (m) of Section 48900, is not an offense for which suspension or expulsion is mandatory pursuant to this subdivision and subdivision (d), but it is an offense for which suspension, or expulsion pursuant to subdivision (e), may be imposed.

(3) When the person possessing the firearm reasonably believes that he or she is in grave danger because of circumstances forming the basis of a current restraining order issued by a court against another person or persons who has or have been found to pose a threat to his or her life or safety. This subdivision does not apply when the circumstances involve a mutual restraining order issued pursuant to Division 10 (commencing with Section 6200) of the Family Code absent a factual finding of a specific threat to the person’s life or safety. This subdivision shall apply only to a pupil who has attended a school attendance review board program, a program operated by a probation department acting as a school attendance review board, or a truancy mediation program pursuant to subdivision (c).

EDC 48267.

Any pupil who has once been adjudged an habitual truant or habitually insubordinate or disorderly during attendance at school by the juvenile court of the county, or has been found to be a person described in Section 602 and as a condition of probation is required to attend a school program approved by a probation officer, who is reported as a truant from school one or more days or tardy on one or more days without valid excuse, in the same school year or in a succeeding year, or habitually insubordinate, or disorderly during attendance at school, shall be brought to the attention of the juvenile court and the pupil’s probation or parole officer within 10 days of the reported violation.

Notwithstanding Section 827 of the Welfare and Institutions Code, written notice that a minor enrolled in a public school in grades 7 to 12, inclusive, has been found by a court to be a person described in Section 602 and as a condition of probation is required to attend a school program approved by a probation officer shall be provided by the juvenile court, within seven days of the entry of the dispositional order, to the superintendent of the school district of attendance, which information shall be expeditiously transmitted to the principal or to one person designated by the principal of the school that the minor is attending. The principal or the principal’s designee shall not disclose this information to any other person except as otherwise required by law.
EDC 48268.
The court, in addition to any judgment it may make regarding the pupil, may render judgment that the
parent, guardian, or person having the control or charge of the pupil shall deliver him at the beginning of
each schoolday, for the remainder of the school term, at the school from which he is a truant, or in which
he has been insubordinate or disorderly during attendance, or to a school designated by school
authorities.

(a) In enacting this article it is the intent of the Legislature that intensive guidance and coordinated
community services may be provided to meet the special needs of pupils with school attendance
problems or school behavior problems.
(b) Any school attendance review board, established pursuant to this article, which determines that
available public and private services are insufficient or inappropriate to correct school attendance or
school behavior problems of minors may:
   (1) Propose and promote the use of alternatives to the juvenile court system.
   (2) Provide, in any proposed alternative, for maximum utilization of community and regional resources
       appropriately employed in behalf of minors prior to any involvement with the judicial system.
   (3) Encourage an understanding that any alternative based on the utilization of community resources
carries an inherent agency and citizen commitment directed toward the continuing improvement of such
resources and the creation of resources where none exist.

EDC 48321.

The juvenile court does not have jurisdiction to order detention in any secure facility or other confinement for failure to comply with a subpoena issued pursuant to this section.

(d) Nothing in this section shall be construed to authorize a county or local school attendance review board to issue a subpoena for the production of written materials or the attendance of any person except as specifically provided in subdivision (a) with respect to the limited purpose of making a proper disposition of the referral of a minor pupil made pursuant to Section 48263.

(e) Nothing in this section shall be construed to authorize a county or local school attendance review board to issue a subpoena or request a subpoena to be issued for the production of written materials or the attendance of any person if it is verified that the minor pupil is enrolled in and in regular attendance in a private school maintaining kindergarten or any of grades 1 to 12, inclusive, that has filed an affidavit pursuant to Sections 33190 and 48222 of the Education Code.

to make recommendations for the improvement of such resources and programs or for the creation of new resources and programs where none exist.

EDC 48323.

Each of the departments or agencies authorized to participate in school attendance review boards may assign personnel to represent the department or agency on a continuing basis in accordance with the intent of this article. The duties, obligations, or responsibilities which may be imposed on local governmental entities by this act are such that the related costs are incurred as a part of their normal operating procedures. The minor costs of such services may be borne by each agency or department and each or all of the participants may apply for and utilize state or federal funds as may be available.

EDC 48324.

The county school attendance review board may adopt such rules and regulations not inconsistent with law, as are necessary for its own government and to enable it to carry out the provisions of this article. The rules and regulations may be binding upon the local school attendance review boards which are established pursuant to subdivision (d) of Section 48321.

EDC 48325.

(a) The Legislature finds and declares that statewide policy coordination and personnel training with respect to county attendance review boards will greatly facilitate the achievement of the goals expressed in Section 48320. It is therefore the intent of the Legislature in enacting this section to do the following:

(1) Encourage the cooperation, coordination, and development of strategies to support county school attendance review boards in carrying out their responsibilities to establish local school attendance review boards as necessary. These strategies may include, but need not be limited to, plans for the training of school attendance review board personnel.

(2) Divert pupils with serious attendance and behavioral problems from the juvenile justice system to agencies more directly related to the state public school system by developing a system for gathering and dispensing information on successful community-based and school-based programs.

(3) Reduce duplication of the services of state and county agencies in serving high-risk youth, including youth with school attendance or behavioral problems.

(4) Reduce the number of dropouts in the state public education system by promoting interagency cooperation among those agencies which have as their goals preventing students from dropping out, and increasing the holding power of the public schools.

(b) The Superintendent of Public Instruction shall coordinate and administer a state school attendance review board, as follows:

(1) On or before January 31 of each year, the superintendent shall extend invitations of participation to representatives of appropriate groups throughout the state, including, but not limited to, representatives of school districts, parent groups, county probation departments, county welfare departments, county superintendents of schools, law enforcement agencies, community-based youth service centers, school guidance personnel, child welfare and attendance personnel, the health care profession and state associations having an interest in youth with school attendance or behavioral problems. The superintendent shall also request the participation of representatives from interested state agencies or departments, including, but not limited to, the Department of the California Youth Authority, the Department of Justice, the State Department of Social Services, and the Office of Criminal Justice Planning. To the extent feasible, members of the board shall include persons who are currently members of county or local school attendance review boards. For every year after the first year that the board is convened, the purpose of the invitations of participation shall be to inform appropriate groups,
state agencies, and departments of the purposes of the board, to fill vacancies, and to supplement the membership of the board as necessary.

(2) The superintendent shall prescribe an appropriate deadline for acceptance of invitations of participation as a member of the state school attendance review board for that particular year, and the invitations accepted on or before the deadline shall constitute the board for that year, except that the board shall also include a representative of the State Department of Education designated by the director of that department. The representative of the State Department of Education shall be the chairperson of the board.

(3) The superintendent shall convene the board at least four times during the year. At its first meeting, the board shall elect any officers, other than its chairperson, as it deems necessary. Members of the board shall serve without compensation and without reimbursement of travel and living expenses.

(4) The State Department of Education shall provide assistance as requested by the Superintendent of Public Instruction in order to implement the provisions of this section.

c) The state school attendance review board shall make recommendations annually to the Superintendent of Public Instruction, and to state agencies as deemed appropriate, regarding the needs and services provided to high-risk youth, including youth with school attendance or behavioral problems, in the state public schools, and shall propose uniform guidelines or other means to attain the goals stated in subdivision (a).

(d) This chapter also applies to the filing of complaints which allege noncompliance with the provisions of Education Code sections 49010 and 49011 regarding pupil fees.

(e) Nothing in these regulations shall prevent an LEA from using its local uniform complaint procedure to address complaints not listed in this section.

(f) The CDE will develop a pamphlet for parents that will explain the Uniform Complaint Procedures in a user friendly manner and post this pamphlet on the CDE's Web site.
5 CCR § 4611. Referring complaint issues to other appropriate state or federal agencies.

The following complaints shall be referred to the specified agencies for appropriate resolution and are not subject to the local and CDE complaint procedures set forth in this chapter unless these procedures are made applicable by separate interagency agreements:

(a) Allegations of child abuse shall be referred to the applicable County Department of Social Services (DSS), Protective Services Division or appropriate law enforcement agency. However, nothing in this section relieves the CDE from investigating complaints pursuant to section 4650(a)(8)(C) herein.

(b) Health and safety complaints regarding a Child Development Program shall be referred to Department of Social Services for licensed facilities, and to the appropriate Child Development regional administrator for licensing-exempt facilities.

(d) Allegations of fraud shall be referred to the responsible CDE Division Director who may consult with the CDE’s Legal, Audits, and Compliance Branch.

5 CCR § 4620. LEA responsibilities.

Each LEA shall have the primary responsibility to insure compliance with applicable state and federal laws and regulations. Each LEA shall investigate complaints alleging failure to comply with applicable state and federal laws and regulations and/or alleging discrimination, harassment, intimidation or bullying and seek to resolve those complaints in accordance with the procedures set out in this chapter and in accordance with the policies and procedures of the governing board.

5 CCR § 4621. District policies and procedures.

(a) Each LEA shall adopt policies and procedures not inconsistent with sections 4600-4695 of this chapter for the investigation and resolution of complaints. Local policies shall ensure that complainants are protected from retaliation and that the identity of a complainant alleging discrimination, harassment, intimidation or bullying remain confidential as appropriate. School Districts and County Offices of Education shall submit their policies and procedures to the local governing board for adoption.

(b) Each LEA shall include in its policies and procedures the person(s), employee(s) or agency position(s) or unit(s) responsible for receiving complaints, investigating complaints and ensuring LEA compliance. The LEA's policies shall ensure that the person(s), employee(s), position(s) or unit(s) responsible for compliance and/or investigations shall be knowledgeable about the laws/programs that he/she is assigned to investigate.

(c) Except for complaints under sections 4680-4687 regarding instructional materials, emergency or urgent facilities conditions that pose a threat to the health or safety of pupils or staff, and teacher vacancies or misassignments, the LEA may provide a complaint form for persons wishing to file a complaint to fill out and file. A complaint form shall be provided for complaints regarding instructional materials, emergency or urgent facilities conditions that pose a threat to the health or safety of pupils or staff, and teacher vacancies or misassignments. However, a person is not required to use the complaint form furnished by the LEA in order to file a complaint.

5 CCR § 4622. Notice.

Each LEA shall annually notify in writing, as applicable, its students, employees, parents or guardians of its students, the district advisory committee, school advisory committees, appropriate private school officials or representatives, and other interested parties of their LEA complaint procedures, including the opportunity to appeal to the CDE and the provisions of this chapter. The notice shall include the identity
(identities) of the person(s) responsible for processing complaints. The notice shall also advise the recipient of any civil law remedies that may be available under state or federal discrimination, harassment, intimidation or bullying laws, if applicable, and of the appeal pursuant to Education Code section 262.3. The notice shall also include information regarding the requirements of Education Code sections 49010 through 49013 relating to pupil fees. This notice shall be in English, and when necessary, in the primary language, pursuant to Education Code section 48985, or mode of communication of the recipient of the notice. Copies of LEA complaint procedures shall be available free of charge.

5 CCR § 4630. Filing a local complaint; Procedures, time lines.

(a) Except for complaints under sections 4680-4687 regarding instructional materials, emergency or urgent facilities conditions that pose a threat to the health or safety of pupils or staff, and teacher vacancies or misassignments, and complaints that allege discrimination, harassment, intimidation or bullying and complaints regarding pupil fees, any individual, public agency or organization may file a written complaint with the district superintendent or his or her designee alleging a matter which, if true, would constitute a violation by that LEA of federal or state law or regulation governing a program listed in section 4610(b) of this chapter.

(b) An investigation of alleged unlawful discrimination, harassment, intimidation or bullying shall be initiated by filing a complaint not later than six months from the date the alleged discrimination, harassment, intimidation or bullying occurred, or the date the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying unless the time for filing is extended by the district superintendent or his or her designee, upon written request by the complainant setting forth the reasons for the extension. Such extension by the district superintendent or his or her designee shall be made in writing. The period for filing may be extended by the district superintendent or his or her designee for good cause for a period not to exceed 90 days following the expiration of the six month time period. The district superintendent shall respond immediately upon a receipt of a request for extension.

(1) The complaint shall be filed by one who alleges that he or she has personally suffered unlawful discrimination, harassment, intimidation or bullying, or by one who believes an individual or any specific class of individuals has been subjected to discrimination, harassment, intimidation or bullying prohibited by this part.

(2) The complaint shall be filed with the LEA in accordance with the complaint procedures of the LEA.

(3) An investigation of a discrimination, harassment, intimidation or bullying complaint shall be conducted in a manner that protects confidentiality of the parties and maintains the integrity of the process.

(c)(1) Pupil fee complaints may be filed with the principal of the school.

(2) Pupil fee complaints shall be filed not later than one year from the date the alleged violation occurred.

(3) Pupil fee complaints may be filed anonymously if the complaint provides evidence or information leading to evidence to support an allegation of noncompliance with Education Code sections 49010 and 49011 regarding pupil fees.

5 CCR § 4631. Responsibilities of the LEA.

(a) Except for complaints regarding instructional materials, emergency or urgent facilities conditions that pose a threat to the health or safety of pupils or staff, and teacher vacancies or misassignments, which must be processed in accordance with sections 4680-4687, within 60 days from the date of the receipt of the complaint, the LEA person responsible for the investigation of the complaints or his or her designee shall conduct and complete an investigation of the complaint in accordance with the local procedures.
adopted pursuant to section 4621 and prepare a written LEA Decision. This time period may be extended by written agreement of the complainant.

(b) The investigation shall include an opportunity for the complainant, or the complainant's representative, or both, to present the complaint(s) and evidence or information leading to evidence to support the allegations of non-compliance with state and federal laws and/or regulations.

(c) Refusal by the complainant to provide the investigator with documents or other evidence related to the allegations in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegations.

(d) Refusal by the LEA to provide the investigator with access to records and/or other information related to the allegation in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation, may result in a finding based on evidence collected that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

(e) The LEA should issue a Decision (the Decision) based on the evidence. The Decision shall be in writing and sent to the complainant within 60 days from receipt of the complaint by the LEA. The Decision should contain:

1. the findings of fact based on the evidence gathered,
2. conclusion of law,
3. disposition of the complaint,
4. the rationale for such disposition,
5. corrective actions, if they are warranted, including, with respect to a pupil fee complaint, a remedy that comports with Education Code section 49013(d) and section 4600(u).
6. notice of the complainant's right to appeal the LEA Decision to the CDE, and
7. procedures to be followed for initiating an appeal to the CDE.

(f) Nothing in this chapter shall prohibit the parties from utilizing alternative methods to resolve the allegations in the complaint, including, but not limited to, mediation.

(g) Nothing in this chapter shall prohibit an LEA from resolving complaints prior to the formal filing of a written complaint.

5 CCR § 4632. Appeal of LEA decision - Grounds.

(a) Except for complaints under sections 4681 and 4682 regarding instructional materials and teacher vacancies or misassignments, a complainant may appeal a Decision to the CDE by filing a written appeal within 15 days of receiving the Decision.

(b) The complainant shall specify the basis for the appeal of the Decision and whether the facts are incorrect and/or the law is misapplied.

(c) The appeal shall be accompanied by:

1. a copy of the locally filed complaint; and
2. a copy of the Decision.

(d) If the CDE determines the appeal raises issues not contained in the local complaint, the CDE will refer those new issues back to the LEA for resolution as a new complaint under section 4630 or 4631.

(e) If the CDE determines that the Decision failed to address an issue raised by the complaint, the CDE shall refer the matter to the LEA to make the necessary findings and conclusions on any issue not addressed. The LEA will address the issue within 20 days from the date of the referral.
5 CCR § 4633. Appeal of LEA decision.

(a) If the Decision is appealed, the CDE shall notify the LEA of the appeal. Upon notification by the CDE that the Decision has been appealed, the LEA shall forward the following to the CDE:

(1) A copy of the original complaint;
(2) A copy of the Decision;
(3) A summary of the nature and extent of the investigation conducted by the LEA, if not covered in the Decision;
(4) A copy of the investigation file, including but not limited to, all notes, interviews and documents submitted by the parties or gathered by the investigator;
(5) A report of any action taken to resolve the complaint;
(6) A copy of the LEA complaint procedures; and
(7) Such other relevant information as the CDE may request.

(b) The CDE shall not receive evidence from the parties that could have been presented to the LEA investigator during the investigation, unless requested by the CDE. Any confidential information or pupil information in the investigative file shall remain confidential and shall not be disclosed by the CDE.

(c) The CDE may contact the parties for further information, if necessary.

(d) The CDE shall review the investigation file, the summary of the nature and extent of the investigation conducted by the LEA, the complaint procedures, documents and any other evidence received from the LEA and determine whether substantial evidence exists:

(1) That the LEA followed its complaint procedures; and
(2) That the relevant findings of fact in the Decision which are the subject of the appeal are supported by the evidence.

(e) The CDE shall review the conclusions of law which are the subject of the appeal and determine whether they are correct.

(f) If the CDE determines that the Decision is deficient because it lacks findings of fact and conclusions of law regarding the subject of the appeal, the CDE may return the Decision to the LEA in order to correct the deficiencies within 20 days of the return.

(g) If the CDE finds that the Decision is supported by substantial evidence, and that the legal conclusions are not contrary to law, the appeal shall be denied.

(h) If the CDE finds the grounds for the appeal have merit:

(1) The CDE may, if there is a lack of substantial evidence or a procedural defect in the investigation, remand the investigation to the LEA for further investigation of the allegations which are the subject of the appeal; or
(2) The CDE may issue a decision based on the evidence in the investigation file received from the LEA; or
(3) If the CDE determines that it is in the best interest of the parties, conduct a further investigation of the allegations which are the basis for the appeal and issue a decision following further investigation.

(i) If the CDE finds merit in the appeal, the CDE's decision on appeal shall contain the following:

(1) A finding that the LEA complied or did not comply with its complaint procedures;
(2) The CDE's findings of fact and conclusions of law regarding the issue on appeal; and
(3) Where a determination is made that the LEA failed to comply with the applicable state or federal law or regulation, remedial orders and/or required actions to address the violation(s), including, with respect
to a pupil fee complaint, a remedy that specifies the LEA’s obligation to comply with Education Code section 49013(d) and section 4600(u).

(j) The CDE must issue a written decision regarding an appeal of a pupil fee complaint and provide a copy of the written decision to the appellant within 60 days of the CDE’s receipt of the appeal.

5 CCR § 4640. **Filing a state complaint that has not first been filed at the Local Educational Agency (LEA); Time lines, notice, appeal rights.**

Referral to the LEA for Local Resolution.

(a) If a complaint is erroneously filed with the CDE without first being filed with and investigated by the LEA, the CDE shall immediately forward the complaint to the LEA for processing in accordance with article 4 of this chapter, unless extraordinary circumstances exist necessitating direct state intervention as described at section 4650.

(b) A letter shall be sent by first class mail to the complainant(s) notifying him, her, or them that:

1. The CDE does not have jurisdiction, at this time, over the complaint and that the complaint should have been filed with the LEA in the first instance;
2. That the complaint has been transferred to the local educational agency requesting the local educational agency to process and investigate the allegation in the complaint; and
3. That the complainant may file an appeal to the CDE following the issuance of the Decision, if he or she believes as a matter of fact or law the Decision is incorrect.

5 CCR § 4650. **Basis of direct state intervention.**

(a) Except for complaints under sections 4680, 4681, 4682 and 4683 regarding instructional materials, teacher vacancies or misassignments, and condition of a facility, the CDE shall directly intervene without waiting for LEA investigation if one or more of the following situations exist:

1. The complaint includes an allegation, and the CDE verifies, that an LEA failed to comply with the complaint procedures required by this Chapter and its local rules and regulations, including, but not limited to, the failure or refusal of the LEA to cooperate with the investigation;
2. The complaint relates to an agency that is not an LEA funded through the Child Development or Child Nutrition Programs;
3. The complainant requests anonymity because he or she would be in danger of retaliation and would suffer immediate and irreparable harm if he or she filed a complaint with the LEA (except for complaints regarding pupil fees, which may be filed anonymously with the principal of a public school);
4. The complainant alleges that the LEA failed or refused to implement the final decision resulting from its local investigation or local mediation agreement;
5. The complainant alleges and the CDE verifies that through no fault of the complainant, no action has been taken by the LEA within 60 calendar days of the date the complaint was filed. Prior to direct intervention, the CDE shall attempt to work with the LEA to allow it to complete the investigation and issue a Decision.
6. The complainant alleges and the CDE verifies that he or she would suffer immediate and irreparable harm as a result of an application of a district-wide policy that is in conflict with state or federal law covered by this Chapter, and that filing a complaint with the LEA would be futile.
7. For complaints relating to special education, any one of the following shall be a condition for direct state intervention:
(A) The complainant alleges that a public agency, other than an LEA, as specified in Government Code section 7570 et seq., fails or refuses to comply with an applicable law or regulation relating to the provision of free appropriate public education to individuals with disabilities;

(B) The complainant alleges that the LEA or public agency fails or refuses to comply with the due process procedures established pursuant to federal and state law and regulation; or has failed or refused to implement a due process hearing order;

(C) The complainant alleges facts that indicate that the child or group of children may be in immediate physical danger or that the health, safety or welfare of a child or group of children is threatened.

(D) The complainant alleges that an individual with a disability is not receiving the special education or related services specified in his or her individualized educational program (IEP).

(E) The complaint involves a violation of federal law governing special education, 20 U.S.C. section 1400 et seq., or its implementing regulations.

(b) The complaint shall identify the basis, as described in subdivision (a) above, for filing the complaint directly to the CDE. The complainant must present the CDE with clear and verifiable evidence that supports the basis for the direct filing, except as in subdivision (a)(7).

5 CCR § 4651. Notification.
When the Department receives a complaint requesting direct State intervention, the Department shall determine whether the complaint meets one or more of the criterion specified in section 4650 for direct State intervention and shall immediately notify the complainant by first class mail of the determination to accept the complaint without a local educational agency investigation and/or Decision. If the complaint is not accepted, it shall be referred to the local educational agency for local investigation, or referred to another agency pursuant to section 4611.

5 CCR § 4660. Department resolution procedures.
(a) When the Department determines that direct State intervention is warranted pursuant to any provision of section 4650, the following procedures shall be used to resolve the issues of the complaint:

   (1) The Department shall consider alternative methods to resolve the allegations in the complaint.

   (2) If both parties request mediation, the Department shall offer to mediate the dispute which may lead to a state mediation agreement.

   (3) The Department shall conduct an investigation, including an on-site investigation if necessary, into the allegations in the complaint unless a settlement agreement has been reached between the parties that disposes of all the issues in the complaint.

5 CCR § 4662. Investigation timeline.
(a) Each party in the dispute shall be sent written notification by the Department of the name(s) of the investigator(s) and the investigation date(s), if known. The notice shall explain the investigation process.
(b) An investigation will be completed within 60 days after receiving a request for direct intervention or an appeal request, unless the parties have agreed to extend the time lines. The Department may grant extensions for the investigation if exceptional circumstances exist that constitute good cause with respect to the particular complaint, and provided that the complainant is informed of the extension and the reasons therefore and provided that the facts supporting the extension are documented and maintained in the complaint file.

5 CCR § 4663. Department investigation procedures.
(a) The investigator(s) shall request all documentation and other evidence regarding the allegations in the complaint.
(b) The investigation shall include an opportunity for the complainant, or the complainant's representative, or both, to present the complaint(s) and evidence or information leading to evidence to support the allegations of non-compliance with state and federal laws and/or regulations.

(c) Refusal by the complainant to provide the investigator with documents or other evidence related to the allegations in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation may result in the dismissal of the complaint because of a lack of evidence to support the allegations.

(d) Refusal by the local educational agency to provide the investigator with access to records and/or other information related to the allegation in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation may result in a finding based on evidence collected that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

5 CCR § 4664. Department investigation report.

(a) An investigation report shall be issued. The investigation report shall include the following:

(1) A summary of the allegations in the complaint;

(2) A description of the general procedures of the investigation;

(10) For those programs governed by Part 76 of Title 34 of the Code of Federal Regulations, the parties shall be notified of the right to appeal to the United States Secretary of Education.

(b) An investigation report shall be mailed to the parties within 60 days from the conclusion of the investigation.

5 CCR § 4665. Discretionary reconsideration of department investigation report.

(a) Within 35 days of receipt of the Department investigation report, either party may request reconsideration by the Superintendent. The request for reconsideration shall designate the finding(s), conclusion(s), or corrective action(s) in the Department's report to be reconsidered and state the specific basis for reconsidering the designated finding(s), conclusion(s) or corrective action(s). The request for reconsideration shall also state whether the findings of fact are incorrect and/or the law is misapplied.

(b) Within 35 days of the receipt of the request for reconsideration, the Superintendent or his or her designee may respond in writing to the parties modifying the specific finding(s), conclusion(s), or corrective action(s) for which reconsideration is requested, or denying the request for reconsideration. Pending the Superintendent's reconsideration, the Department report remains in effect and enforceable.

(c) Appeals by private agencies regarding Child Care Food Programs shall be made to the State Office of Administrative Hearings in accordance with applicable laws and regulations.

(d) Appeals from investigations of complaints involving Child Development contractors, whether public or private, shall be made to the Superintendent of Public Instruction as provided in subsection (a) except as otherwise provided in division 19 of title 5 of the Code of California Regulations.
(e) For those programs governed by part 76 of title 34 of the Code of Federal Regulations, the parties shall be notified of the right to appeal to the United States Secretary of Education.

5 CCR § 4670. Enforcement.

(a) Upon determination that a local agency violated the provisions of this chapter, the Department shall notify the local agency pursuant to section 4664(b) that it must take corrective action to come into compliance. If corrective action is not taken, the Department may use any means authorized by law to effect compliance, including, but not limited to:

(1) The withholding of all or part of the local agency's relevant state or federal fiscal support in accordance with state or federal statute or regulation;

(2) Probationary eligibility for future state or federal support, conditional on compliance with specified conditions;

(3) Proceeding in a court of competent jurisdiction for an appropriate order compelling compliance.

(b) No decision to curtail state or federal funding to a local agency under this chapter shall be made until the Department has determined that compliance cannot be secured by other means.

(c) If the Department determines that a Child Development Contractor's Agreement shall be terminated, the procedures set forth in sections 8257(d) or 8400 et seq. of the Education Code and the regulations promulgated pursuant thereto (chapter 19 of title 5, CCR, commencing with section 17906), shall be followed.

(d) If the Department determines that a local educational agency has failed to comply with any provision of sections 49550 through 49554 of the Education Code, the Department shall certify such noncompliance to the Attorney General for investigation pursuant to section 49556 of the Education Code.

5 CCR § 4915. General prohibitions.

The conduct is sufficiently severe, persistent, pervasive or objectively offensive, so as to create a hostile or abusive educational or working environment or to limit the individual's ability to participate in or benefit from an education program or activity.

(4) Submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the local agency.
(b) “Verbal sexual harassment” includes, but is not limited to, unwelcome epithets, comments, or slurs of a sexual nature.

c) “Physical sexual harassment” includes, but is not limited to, assault, impeding or blocking movement, or any physical interference with work or school activities or movement when directed at an individual on the basis of sex.

LAWS

EDC 32261.

(a) The Legislature hereby recognizes that all pupils enrolled in the state public schools have the inalienable right to attend classes on school campuses that are safe, secure, and peaceful. The Legislature also recognizes that pupils cannot fully benefit from an educational program unless they attend school on a regular basis. In addition, the Legislature further recognizes that school crime,
vandalism, truancy, and excessive absenteeism are significant problems on far too many school campuses in the state.

(b) The Legislature hereby finds and declares that the establishment of an interagency coordination system is the most efficient and long-lasting means of resolving school and community problems of truancy and crime, including vandalism, drug and alcohol abuse, gang membership, gang violence, and hate crimes.

(d) It is the intent of the Legislature in enacting this chapter to encourage school districts, county offices of education, law enforcement agencies, and agencies serving youth to develop and implement interagency strategies, in-service training programs, and activities that will improve school attendance and reduce school crime and violence, including vandalism, drug and alcohol abuse, gang membership, gang violence, hate crimes, bullying, including bullying committed personally or by means of an electronic act, teen relationship violence, and discrimination and harassment, including, but not limited to, sexual harassment.

(f) As used in this chapter, “bullying” has the same meaning as set forth in subdivision (r) of Section 48900.

(g) As used in this chapter, “electronic act” has the same meaning as set forth in subdivision (r) of Section 48900

EDC 32282.

(a) The comprehensive school safety plan shall include, but not be limited to, both of the following:

(2) Identifying appropriate strategies and programs that will provide or maintain a high level of school safety and address the school’s procedures for complying with existing laws related to school safety, which shall include the development of all of the following:

(F) The provisions of any schoolwide dress code, pursuant to Section 35183, that prohibits pupils from wearing “gang-related apparel,” if the school has adopted that type of a dress code. For those purposes, the comprehensive school safety plan shall define “gang-related apparel.” The definition shall be limited to apparel that, if worn or displayed on a school campus, reasonably could be determined to threaten the health and safety of the school environment. A schoolwide dress code established pursuant to this section and Section 35183 shall be enforced on the school campus and at any school-sponsored activity by the principal of the school or the person designated by the principal. For purposes of this paragraph, “gang-related apparel” shall not be considered a protected form of speech pursuant to Section 48950.

(2) Willfully used force or violence upon the person of another, except in self-defense.

(a) Except for complaints under sections 4680-4687 regarding instructional materials, emergency or urgent facilities conditions that pose a threat to the health or safety of pupils or staff, and teacher vacancies or misassignments, and complaints that allege discrimination, harassment, intimidation or bullying and complaints regarding pupil fees, any individual, public agency or organization may file a written complaint with the district superintendent or his or her designee alleging a matter which, if true, would constitute a violation by that LEA of federal or state law or regulation governing a program listed in section 4610(b) of this chapter.
(b) An investigation of alleged unlawful discrimination, harassment, intimidation or bullying shall be initiated by filing a complaint not later than six months from the date the alleged discrimination, harassment, intimidation or bullying occurred, or the date the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying unless the time for filing is extended by the district superintendent or his or her designee, upon written request by the complainant setting forth the reasons for the extension. Such extension by the district superintendent or his or her designee shall be made in writing. The period for filing may be extended by the district superintendent or his or her designee for good cause for a period not to exceed 90 days following the expiration of the six month time period. The district superintendent shall respond immediately upon a receipt of a request for extension.

(c)(1) Pupil fee complaints may be filed with the principal of the school.

(2) Pupil fee complaints shall be filed not later than one year from the date the alleged violation occurred.

(3) Pupil fee complaints may be filed anonymously if the complaint provides evidence or information leading to evidence to support an allegation of noncompliance with Education Code sections 49010 and 49011 regarding pupil fees.

5 CCR § 4631. Responsibilities of the LEA.

(a) Except for complaints regarding instructional materials, emergency or urgent facilities conditions that pose a threat to the health or safety of pupils or staff, and teacher vacancies or misassignments, which must be processed in accordance with sections 4680-4687, within 60 days from the date of the receipt of the complaint, the LEA person responsible for the investigation of the complaints or his or her designee shall conduct and complete an investigation of the complaint in accordance with the local procedures adopted pursuant to section 4621 and prepare a written LEA Decision. This time period may be extended by written agreement of the complainant.

(b) The investigation shall include an opportunity for the complainant, or the complainant's representative, or both, to present the complaint(s) and evidence or information leading to evidence to support the allegations of non-compliance with state and federal laws and/or regulations.

(c) Refusal by the complainant to provide the investigator with documents or other evidence related to the allegations in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegations.

(d) Refusal by the LEA to provide the investigator with access to records and/or other information related to the allegation in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation, may result in a finding based on evidence collected that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.
(e) The LEA should issue a Decision (the Decision) based on the evidence. The Decision shall be in writing and sent to the complainant within 60 days from receipt of the complaint by the LEA. The Decision should contain:

1. the findings of fact based on the evidence gathered,
2. conclusion of law,
3. disposition of the complaint,
4. the rationale for such disposition,
5. corrective actions, if they are warranted, including, with respect to a pupil fee complaint, a remedy that comports with Education Code section 49013(d) and section 4600(u).
6. notice of the complainant's right to appeal the LEA Decision to the CDE, and
7. procedures to be followed for initiating an appeal to the CDE.

(f) Nothing in this chapter shall prohibit the parties from utilizing alternative methods to resolve the allegations in the complaint, including, but not limited to, mediation.

(g) Nothing in this chapter shall prohibit an LEA from resolving complaints prior to the formal filing of a written complaint.

5 CCR § 4632. Appeal of LEA decision - Grounds.
(a) Except for complaints under sections 4681 and 4682 regarding instructional materials and teacher vacancies or misassignments, a complainant may appeal a Decision to the CDE by filing a written appeal within 15 days of receiving the Decision.

(b) The complainant shall specify the basis for the appeal of the Decision and whether the facts are incorrect and/or the law is misapplied.

(c) The appeal shall be accompanied by:

1. a copy of the locally filed complaint; and
2. a copy of the Decision.

(d) If the CDE determines the appeal raises issues not contained in the local complaint, the CDE will refer those new issues back to the LEA for resolution as a new complaint under section 4630 or 4631.

(e) If the CDE determines that the Decision failed to address an issue raised by the complaint, the CDE shall refer the matter to the LEA to make the necessary findings and conclusions on any issue not addressed. The LEA will address the issue within 20 days from the date of the referral.

5 CCR § 4633. Appeal of LEA decision.
(a) If the Decision is appealed, the CDE shall notify the LEA of the appeal. Upon notification by the CDE that the Decision has been appealed, the LEA shall forward the following to the CDE:

1. A copy of the original complaint;
2. A copy of the Decision;
3. A summary of the nature and extent of the investigation conducted by the LEA, if not covered in the Decision;
4. A copy of the investigation file, including but not limited to, all notes, interviews and documents submitted by the parties or gathered by the investigator;
5. A report of any action taken to resolve the complaint;
6. A copy of the LEA complaint procedures; and
7. Such other relevant information as the CDE may request.
(b) The CDE shall not receive evidence from the parties that could have been presented to the LEA investigator during the investigation, unless requested by the CDE. Any confidential information or pupil information in the investigative file shall remain confidential and shall not be disclosed by the CDE.

(c) The CDE may contact the parties for further information, if necessary.

(d) The CDE shall review the investigation file, the summary of the nature and extent of the investigation conducted by the LEA, the complaint procedures, documents and any other evidence received from the LEA and determine whether substantial evidence exists:

1. That the LEA followed its complaint procedures; and
2. That the relevant findings of fact in the Decision which are the subject of the appeal are supported by the evidence.

(e) The CDE shall review the conclusions of law which are the subject of the appeal and determine whether they are correct.

(f) If the CDE determines that the Decision is deficient because it lacks findings of fact and conclusions of law regarding the subject of the appeal, the CDE may return the Decision to the LEA in order to correct the deficiencies within 20 days of the return.

(g) If the CDE finds that the Decision is supported by substantial evidence, and that the legal conclusions are not contrary to law, the appeal shall be denied.

(h) If the CDE finds the grounds for the appeal have merit:

1. The CDE may, if there is a lack of substantial evidence or a procedural defect in the investigation, remand the investigation to the LEA for further investigation of the allegations which are the subject of the appeal; or
2. The CDE may issue a decision based on the evidence in the investigation file received from the LEA; or
3. If the CDE determines that it is in the best interest of the parties, conduct a further investigation of the allegations which are the basis for the appeal and issue a decision following further investigation.

(i) If the CDE finds merit in the appeal, the CDE's decision on appeal shall contain the following:

1. A finding that the LEA complied or did not comply with its complaint procedures;
2. The CDE's findings of fact and conclusions of law regarding the issue on appeal; and
3. Where a determination is made that the LEA failed to comply with the applicable state or federal law or regulation, remedial orders and/or required actions to address the violation(s), including, with respect to a pupil fee complaint, a remedy that specifies the LEA's obligation to comply with Education Code section 49013(d) and section 4600(u).

(j) The CDE must issue a written decision regarding an appeal of a pupil fee complaint and provide a copy of the written decision to the appellant within 60 days of the CDE's receipt of the appeal.

5 CCR § 4640. Filing a state complaint that has not first been filed at the Local Educational Agency (LEA); Time lines, notice, appeal rights.

Referral to the LEA for Local Resolution.

(a) If a complaint is erroneously filed with the CDE without first being filed with and investigated by the LEA, the CDE shall immediately forward the complaint to the LEA for processing in accordance with article 4 of this chapter, unless extraordinary circumstances exist necessitating direct state intervention as described at section 4650.

(b) A letter shall be sent by first class mail to the complainant(s) notifying him, her, or them that:
(1) The CDE does not have jurisdiction, at this time, over the complaint and that the complaint should have been filed with the LEA in the first instance;

(2) That the complaint has been transferred to the local educational agency requesting the local educational agency to process and investigate the allegation in the complaint; and

(3) That the complainant may file an appeal to the CDE following the issuance of the Decision, if he or she believes as a matter of fact or law the Decision is incorrect.

5 CCR § 4650. Basis of direct state intervention.

(a) Except for complaints under sections 4680, 4681, 4682 and 4683 regarding instructional materials, teacher vacancies or misassignments, and condition of a facility, the CDE shall directly intervene without waiting for LEA investigation if one or more of the following situations exist:

(1) The complaint includes an allegation, and the CDE verifies, that an LEA failed to comply with the complaint procedures required by this Chapter and its local rules and regulations, including, but not limited to, the failure or refusal of the LEA to cooperate with the investigation;

(2) The complaint relates to an agency that is not an LEA funded through the Child Development or Child Nutrition Programs;

(3) The complainant requests anonymity because he or she would be in danger of retaliation and would suffer immediate and irreparable harm if he or she filed a complaint with the LEA (except for complaints regarding pupil fees, which may be filed anonymously with the principal of a public school);

(4) The complainant alleges that the LEA failed or refused to implement the final decision resulting from its local investigation or local mediation agreement;

(5) The complainant alleges and the CDE verifies that through no fault of the complainant, no action has been taken by the LEA within 60 calendar days of the date the complaint was filed. Prior to direct intervention, the CDE shall attempt to work with the LEA to allow it to complete the investigation and issue a Decision.

(6) The complainant alleges and the CDE verifies that he or she would suffer immediate and irreparable harm as a result of an application of a district-wide policy that is in conflict with state or federal law covered by this Chapter, and that filing a complaint with the LEA would be futile.

(7) For complaints relating to special education, any one of the following shall be a condition for direct state intervention:

(A) The complainant alleges that a public agency, other than an LEA, as specified in Government Code section 7570 et seq., fails or refuses to comply with an applicable law or regulation relating to the provision of free appropriate public education to individuals with disabilities;

(B) The complainant alleges that the LEA or public agency fails or refuses to comply with the due process procedures established pursuant to federal and state law and regulation; or has failed or refused to implement a due process hearing order;

(C) The complainant alleges facts that indicate that the child or group of children may be in immediate physical danger or that the health, safety or welfare of a child or group of children is threatened.

(D) The complainant alleges that an individual with a disability is not receiving the special education or related services specified in his or her individualized educational program (IEP).

(E) The complaint involves a violation of federal law governing special education, 20 U.S.C. section 1400 et seq., or its implementing regulations.

(b) The complaint shall identify the basis, as described in subdivision (a) above, for filing the complaint directly to the CDE. The complainant must present the CDE with clear and verifiable evidence that supports the basis for the direct filing, except as in subdivision (a)(7).
5 CCR § 4651. Notification.
When the Department receives a complaint requesting direct State intervention, the Department shall determine whether the complaint meets one or more of the criterion specified in section 4650 for direct State intervention and shall immediately notify the complainant by first class mail of the determination to accept the complaint without a local educational agency investigation and/or Decision. If the complaint is not accepted, it shall be referred to the local educational agency for local investigation, or referred to another agency pursuant to section 4611.

5 CCR § 4660. Department resolution procedures.
(a) When the Department determines that direct State intervention is warranted pursuant to any provision of section 4650, the following procedures shall be used to resolve the issues of the complaint:

   (1) The Department shall consider alternative methods to resolve the allegations in the complaint.

   (2) If both parties request mediation, the Department shall offer to mediate the dispute which may lead to a state mediation agreement.

   (3) The Department shall conduct an investigation, including an on-site investigation if necessary, into the allegations in the complaint unless a settlement agreement has been reached between the parties that disposes of all the issues in the complaint.

5 CCR § 4662. Investigation timeline.
(a) Each party in the dispute shall be sent written notification by the Department of the name(s) of the investigator(s) and the investigation date(s), if known. The notice shall explain the investigation process.

(b) An investigation will be completed within 60 days after receiving a request for direct intervention or an appeal request, unless the parties have agreed to extend the time lines. The Department may grant extensions for the investigation if exceptional circumstances exist that constitute good cause with respect to the particular complaint, and provided that the complainant is informed of the extension and the reasons therefore and provided that the facts supporting the extension are documented and maintained in the complaint file.

5 CCR § 4663. Department investigation procedures.
(a) The investigator(s) shall request all documentation and other evidence regarding the allegations in the complaint.

(b) The investigation shall include an opportunity for the complainant, or the complainant’s representative, or both, to present the complaint(s) and evidence or information leading to evidence to support the allegations of non-compliance with state and federal laws and/or regulations.

(c) Refusal by the complainant to provide the investigator with documents or other evidence related to the allegations in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation may result in the dismissal of the complaint because of a lack of evidence to support the allegations.

(d) Refusal by the local educational agency to provide the investigator with access to records and/or other information related to the allegation in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation may result in a finding based on evidence collected that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

5 CCR § 4664. Department investigation report.
(a) An investigation report shall be issued. The investigation report shall include the following:

   (1) A summary of the allegations in the complaint;

(b) An investigation report shall be mailed to the parties within 60 days from the conclusion of the investigation.

5 CCR § 4665. Discretionary reconsideration of department investigation report.
(a) Within 35 days of receipt of the Department investigation report, either party may request reconsideration by the Superintendent. The request for reconsideration shall designate the finding(s), conclusion(s), or corrective action(s) in the Department's report to be reconsidered and state the specific basis for reconsidering the designated finding(s), conclusion(s) or corrective action(s). The request for reconsideration shall also state whether the findings of fact are incorrect and/or the law is misapplied.
(b) Within 35 days of the receipt of the request for reconsideration, the Superintendent or his or her designee may respond in writing to the parties modifying the specific finding(s), conclusion(s), or corrective action(s) for which reconsideration is requested, or denying the request for reconsideration. Pending the Superintendent's reconsideration, the Department report remains in effect and enforceable.
(c) Appeals by private agencies regarding Child Care Food Programs shall be made to the State Office of Administrative Hearings in accordance with applicable laws and regulations.
(d) Appeals from investigations of complaints involving Child Development contractors, whether public or private, shall be made to the Superintendent of Public Instruction as provided in subsection (a) except as otherwise provided in division 19 of title 5 of the Code of California Regulations.
(e) For those programs governed by part 76 of title 34 of the Code of Federal Regulations, the parties shall be notified of the right to appeal to the United States Secretary of Education.

5 CCR § 4670. Enforcement.
(a) Upon determination that a local agency violated the provisions of this chapter, the Department shall notify the local agency pursuant to section 4664(b) that it must take corrective action to come into compliance. If corrective action is not taken, the Department may use any means authorized by law to effect compliance, including, but not limited to:
   (1) The withholding of all or part of the local agency's relevant state or federal fiscal support in accordance with state or federal statute or regulation;
   (2) Probationary eligibility for future state or federal support, conditional on compliance with specified conditions;
   (3) Proceeding in a court of competent jurisdiction for an appropriate order compelling compliance.
(b) No decision to curtail state or federal funding to a local agency under this chapter shall be made until the Department has determined that compliance cannot be secured by other means.
(c) If the Department determines that a Child Development Contractor's Agreement shall be terminated, the procedures set forth in sections 8257(d) or 8400 et seq. of the Education Code and the regulations promulgated pursuant thereto (chapter 19 of title 5, CCR, commencing with section 17906), shall be followed.

(d) If the Department determines that a local educational agency has failed to comply with any provision of sections 49550 through 49554 of the Education Code, the Department shall certify such noncompliance to the Attorney General for investigation pursuant to section 49556 of the Education Code.

LAWS

**EDC 32281.**

(e) (1) When a principal or his or her designee verifies through local law enforcement officials that a report has been filed of the occurrence of a violent crime on the schoolsite of an elementary or secondary school at which he or she is the principal, the principal or the principal's designee may send to each pupil's parent or legal guardian and each school employee a written notice of the occurrence and general nature of the crime. If the principal or his or her designee chooses to send the written notice, the Legislature encourages the notice be sent no later than the end of business on the second regular work day after the verification. If, at the time of verification, local law enforcement officials determine that notification of the violent crime would hinder an ongoing investigation, the notification authorized by this subdivision shall be made within a reasonable period of time, to be determined by the local law enforcement agency and the school district. For purposes of this section, an act that is considered a “violent crime” shall meet the definition of Section 67381 and be an act for which a pupil could or would be expelled pursuant to Section 48915.

(2) Nothing in this subdivision shall create any liability in a school district or its employees for complying with paragraph (1).

**EDC 48240.**

(c) The supervisor of attendance may provide support services and interventions, which may include, but are not limited to, any or all of the following:

(1) A conference between school personnel, the pupil's parent or guardian, and the pupil.

**EDC 48260.5.**

Upon a pupil's initial classification as a truant, the school district shall notify the pupil's parent or guardian using the most cost-effective method possible, which may include electronic mail or a telephone call:

(a) That the pupil is truant.
(b) That the parent or guardian is obligated to compel the attendance of the pupil at school.
(d) That alternative educational programs are available in the district.
(e) That the parent or guardian has the right to meet with appropriate school personnel to discuss solutions to the pupil's truancy.
(f) That the pupil may be subject to prosecution under Section 48264.
(g) That the pupil may be subject to suspension, restriction, or delay of the pupil's driving privilege pursuant to Section 13202.7 of the Vehicle Code.
EDC 48262.
Any pupil is deemed an habitual truant who has been reported as a truant three or more times per school year, provided that no pupil shall be deemed an habitual truant unless an appropriate district officer or employee has made a conscientious effort to hold at least one conference with a parent or guardian of the pupil and the pupil himself, after the filing of either of the reports required by Section 48260 or Section 48261. For purposes of this section, a conscientious effort means attempting to communicate with the parents of the pupil at least once using the most cost-effective method possible, which may include electronic mail or a telephone call.

EDC 48263.
If any minor pupil in any district of a county is an habitual truant, or is irregular in attendance at school, as defined in this article, or is habitually insubordinate or disorderly during attendance at school, the pupil may be referred to a school attendance review board or to the probation department for services if the probation department has elected to receive these referrals. The supervisor of attendance, or any other persons the governing board of the school district or county may designate, making the referral shall notify the minor and parents or guardians of the minor, in writing, of the name and address of the board or probation department to which the matter has been referred and of the reason for the referral. The notice shall indicate that the pupil and parents or guardians of the pupil will be required, along with the referring person, to meet with the school attendance review board or probation officer to consider a proper disposition of the referral.

EDC 48263.5.

(b) The policy shall be adopted pursuant to the procedures set forth in Sections 35291 and 35291.5. Parents and guardians shall be notified of this policy prior to its implementation. A teacher shall apply any policy adopted pursuant to this section uniformly to all pupils within the classroom.

The adopted policy shall include the procedures that the district will follow to accomplish the following:

2. Contact parents or guardians who do not respond to the request to attend school pursuant to this section.

(c) If a teacher imposes the procedure pursuant to subdivision (a), the principal shall send a written notice to the parent or guardian stating that attendance by the parent or guardian is pursuant to law. This section shall apply only to a parent or guardian who is actually living with the pupil.

(d) A parent or guardian who has received a written notice pursuant to subdivision (c) shall attend class as specified in the written notice. As soon as possible, the teacher shall ask the parent or guardian of the pupil to attend a parent-teacher conference regarding the suspension. (c) Before calling a closed session to consider these matters, the governing board shall, in writing, by registered or certified mail or by personal service, notify the pupil and the pupil’s parent or guardian, or the pupil if the pupil is an adult, of the intent of the governing board to call and hold a closed session. Unless the pupil or the pupil’s parent or guardian shall, in writing, within 48 hours after receipt of the written notice of the board’s intention, request that the hearing be held as a public meeting, the hearing to consider these matters shall be conducted by the governing board in closed session. EDC 48340.

In enacting this article it is the intent of the Legislature to encourage school districts and county offices of education maintaining any classes in kindergarten and grades 1 to 12, inclusive, to adopt pupil attendance policies based on the active involvement of parents, pupils, teachers, administrators, other personnel, and community members which include proposals and procedures for the following:

(f) Joint efforts between law enforcement and schools, such as school level attendance review teams and periodic efforts to return truant pupils to school.

EDC 48645.

The purpose of this article is to provide for the administration and operation of public schools in juvenile halls, juvenile homes, day centers, juvenile ranches, juvenile camps, regional youth educational facilities, or Orange County youth correctional centers in existence and providing services prior to the effective date of the amendments to this section made by the Statutes of 1989, established pursuant to Article 23 (commencing with Section 850), Article 24 (commencing with Section 880), Article 24.5 (commencing with Section 894) of Chapter 2 of Division 2, or Article 9 (commencing with Section 1850) of Chapter 1 of Division 2.5, of the Welfare and Institutions Code or in any group home housing 25 or more children placed pursuant to Sections 362, 727, and 730, of the Welfare and Institutions Code or in any group home housing 25 or more children and operating one or more additional sites under a central administration for children placed pursuant to Section 362, 727, or 730 of the Welfare and Institutions Code, with acceptable school structures at one or more centrally located sites to serve the single or
composite populations, and to provide the juvenile court school pupils therein detained with quality education and training.

Nothing in this section shall be construed as indicating that it is the intent of the Legislature to prevent juvenile court school pupils who are housed in group homes from enrolling in regular public schools, or that it is the intent of the Legislature to transfer the responsibility for any costs associated with the operation of group homes to the counties.

The Orange County Office of Education shall only provide educational services in youth correctional centers for individuals up to 19 years of age.

EDC 48645.1.

Public schools or classes in any juvenile hall, juvenile home, day center, juvenile ranch, juvenile camp, regional youth educational facility, or Orange County youth correctional center in existence and providing services prior to the effective date of the amendments to this section made by the Statutes of 1989, established in accordance with Article 23 (commencing with Section 850), Article 24 (commencing with Section 880), and Article 24.5 (commencing with Section 894) of Chapter 2 of Division 2, or Article 9 (commencing with Section 1850) of Chapter 1 of Division 2.5 of the Welfare and Institutions Code, or in any group home housing 25 or more children and operating one or more additional sites under a central administration, with acceptable school structures at one or more centrally located sites to serve the single or composite populations of juvenile court school pupils detained therein in accordance with the provisions of Section 362, 727, or 730 of the Welfare and Institutions Code, shall be known as juvenile court schools.

EDC 48645.2.

The county board of education shall provide for the administration and operation of juvenile court schools established pursuant to Section 48645.1:

(a) By the county superintendent of schools, provided that, in any county in which the board of supervisors is establishing or maintaining juvenile court schools on January 1, 1978, the county superintendent of schools may contract with the board of supervisors for the administration and operation of such schools if agreed upon between the board of education and the board of supervisors. In any event, the county superintendent of schools may contract with other educational agencies for supporting services to the same extent that school districts may contract with other such agencies.

(b) By contract with the respective governing boards of the elementary, high school, or unified school district in which the juvenile court school is located.

EDC 48645.3.

(a) Juvenile court schools shall be conducted in a manner as shall be prescribed by the county board of education to best accomplish the provisions of Section 48645. The minimum schoolday shall be 240 minutes. Minimum schooldays shall be calculated on the basis of the average number of minutes of attendance during not more than 10 consecutive days in which classes are conducted. The minimum schoolday for pupils in attendance in approved vocational education programs, work programs prescribed by the probation department pursuant to Section 883 of the Welfare and Institutions Code, and work experience programs shall be 180 minutes, which shall be calculated on the basis of the average number of minutes of attendance during not more than 10 consecutive days in which classes are conducted. The county board of education shall adopt and enforce a course of study and evaluate its program in accordance with Sections 51040, 51041, 51050, and 51054 and the provisions of Article 1 (commencing with Section 51200) to Article 3 (commencing with Section 51220), inclusive, of Chapter 2 of Part 28, except subdivision (c) of Section 51220.
(b) Juvenile court schools shall not be closed on any weekday of the calendar year, except those weekdays adopted by the county board of education as school holidays or set aside by the county board of education for inservice purposes. However, the county board of education may close juvenile court schools when it deems the closing is necessary to accommodate contingencies.

(c) (1) The county board of education may adopt and enforce a course of study that enhances instruction in mathematics and English language arts for pupils attending juvenile court schools, as determined by statewide assessments or objective local evaluations and assessments as approved by the county superintendent of schools.

(2) The enhanced course of study adopted pursuant to paragraph (1) shall meet the standards adopted pursuant to Section 60605.8, as appropriate, and shall be tailored to meet the needs of the individual pupil to increase the pupil’s academic literacy and reading fluency.

(d) It is the intent of the Legislature that pupils in juvenile court schools have a rigorous curriculum that includes a course of study preparing them for high school graduation and career entry and fulfilling the requirements for admission to the University of California and the California State University.

EDC 48645.5.

(a) Each public school district and county office of education shall accept for credit full or partial coursework satisfactorily completed by a pupil while attending a public school, juvenile court school, or nonpublic, nonsectarian school or agency. The coursework shall be transferred by means of the standard state transcript. If a pupil completes the graduation requirements of his or her school district of residence while being detained, the school district of residence shall issue to the pupil a diploma from the school the pupil last attended before detention or, in the alternative, the county superintendent of schools may issue the diploma.

(b) A pupil shall not be denied enrollment or readmission to a public school solely on the basis that he or she has had contact with the juvenile justice system, including, but not limited to:

(1) Arrest.
(2) Adjudication by a juvenile court.
(3) Formal or informal supervision by a probation officer.
(4) Detention for any length of time in a juvenile facility or enrollment in a juvenile court school.

(d) If a pupil completes the statewide coursework requirements for graduation specified in Section 51225.3 while attending a juvenile court school, the county office of education shall issue to the pupil a diploma of graduation and shall not require the pupil to complete coursework or other requirements that are in addition to the statewide coursework requirements.

EDC 48645.6.

Upon approval of the board of supervisors and the county board of education, the cost of such structures shall be a required charge against the funds of the county.

The cost of constructing or otherwise providing classrooms, offices, or other onsite school structures in group homes or other agencies housing children described in Sections 362, 727, and 730 of the Welfare and Institutions Code shall be the responsibility of the private agency. This construction shall not entitle private agencies to an increase in the foster care reimbursement rates available from the State Department of Social Services or any other state agency. It is the intent of the Legislature that nothing in
this section shall be construed to preclude the county boards of education or the governing boards of school districts from entering into a contractual agreement providing compensation to group homes for the use of classrooms, offices, or other onsite school structures.

**EDC 48646.**

(a) The Legislature encourages each county superintendent of schools or governing board of a school district, as determined by the county board of education pursuant to subdivision (b) of Section 48645.2, and the county chief probation officer to enter into a memorandum of understanding or equivalent mutual agreement to support a collaborative process for meeting the needs of wards of the court who are receiving their education in juvenile court schools. The memorandum of understanding or equivalent mutual agreement may include, but is not limited to, a process for communication, decision-making, mutually established goals, and conflict resolution. The purpose of this memorandum of understanding or equivalent mutual agreement is to develop a collaborative model that will foster an educational and residential environment that nurtures the whole child and consistently supports services that will meet the educational needs of the pupils.

(b) A memorandum of understanding or equivalent mutual agreement on providing educational and related services for juvenile court school pupils developed in accordance with this section may include, but is not limited to, the following provisions:

A working group charged with this responsibility may be appointed by the county superintendent of schools, or the superintendent of the school district with responsibility for providing juvenile court school services, and the county chief probation officer, or their designees. The working group is responsible for establishing and maintaining open communication, collaboration, and resolution of issues that arise.

(4) A clearly identified mechanism for resolving conflicts.

(5) A joint process for performing an intake evaluation for each ward to determine educational needs and ability to participate in all educational settings once the ward enters the local juvenile facility. The process shall recognize the limitations on academic evaluation and planning that can result from short-term placements. The evaluation team shall include staff from the responsible educational agency and the county probation department, and may include other participants as appropriate, and as mutually agreed upon by the education and probation members of the team. The evaluation process specified in the memorandum of understanding or equivalent mutual agreement may:

   (A) Include a timeline for evaluation once a ward is assigned to a local facility.
(B) Result in an educational plan for a ward while assigned to a local juvenile facility that is integrated with other rehabilitative and behavioral management programs, and that supports the educational needs of the pupil.

It is the intent that this shared information about each ward placed in a juvenile court school shall assist both the county superintendent of schools and the county chief probation officer in meeting the needs of wards in their care and promoting a system of comprehensive services.

(c) The memorandum of understanding or equivalent mutual agreement shall not cede responsibility or authority prescribed by statute or regulation from one party to another party unless mutually agreed upon by both parties.

The Legislature finds and declares that a substantial drug abuse and drug trafficking problem exists among school-age children on and around school campuses in the State of California. By enacting this chapter, it is the intention of the Legislature to support increased efforts by local law enforcement agencies, working in conjunction with school districts and county drug offices to suppress trafficking and prevent drug abuse among school age children on and around school campuses through the development of innovative and model programs by local law enforcement agencies and schools and drug abuse agencies. It is the further intention of the Legislature to establish a program of financial and technical assistance for local law enforcement and school districts.

PEN 13864.

There is hereby created in the Office of Emergency Services the Comprehensive Alcohol and Drug Prevention Education component of the Suppression of Drug Abuse in Schools Program in public elementary schools in grades 4 to 6, inclusive. Notwithstanding Section 13861 or any other provision in this code, all Comprehensive Alcohol and Drug Prevention Education component funds made available to the Office of Emergency Services in accordance with the Classroom Instructional Improvement and Accountability Act shall be administered by and disbursed to county superintendents of schools in this state by the Director of Emergency Services. All applications for that funding shall be reviewed and evaluated by the Office of Emergency Services, in consultation with the State Department of Health Care Services and the State Department of Education.

(a) The Director of Emergency Services is authorized to allocate and award funds to county department superintendents of schools for allocation to individual school districts or to a consortium of two or more school districts. Applications funded under this section shall comply with the criteria, policies, and procedures established under subdivision (b) of this section.

(b) As a condition of eligibility for the funding described in this section, the school district or consortium of school districts shall have entered into an agreement with a local law enforcement agency to jointly implement a comprehensive alcohol and drug abuse prevention, intervention, and suppression program developed by the Office of Emergency Services, in consultation with the State Department of Health Care Services and the State Department of Education, containing all of the following components:

(1) A standardized age-appropriate curriculum designed for pupils in grades 4 to 6, inclusive, specifically tailored and sensitive to the socioeconomic and ethnic characteristics of the target pupil population. Although new curricula shall not be required to be developed, existing curricula may be modified and adapted to meet local needs. The elements of the standardized comprehensive alcohol and drug prevention education program curriculum shall be defined and approved by the Governor’s Policy Council on Drug and Alcohol Abuse, as established by Executive Order No. D-70-80.

(2) A planning process that includes assessment of the school district’s characteristics, resources, and the extent of problems related to juvenile drug abuse, and input from local law enforcement agencies.

(3) A school district governing board policy that provides for a coordinated intervention system that, at a minimum, includes procedures for identification, intervention, and referral of at-risk alcohol- and drug-
involved youth, and identifies the roles and responsibilities of law enforcement, school personnel, parents, and pupils.

(4) Early intervention activities that include, but are not limited to, the identification of pupils who are high risk or have chronic drug abuse problems, assessment, and referral for appropriate services, including ongoing support services.

(5) Parent education programs to initiate and maintain parental involvement, with an emphasis for parents of at-risk pupils.

(6) Staff and in-service training programs, including both indepth training for the core team involved in providing program services and general awareness training for all school faculty and administrative, credentialed, and noncredentialed school personnel.

(7) In-service training programs for local law enforcement officers.

(8) School, law enforcement, and community involvement to ensure coordination of program services. Pursuant to that coordination, the school district or districts and other local agencies are encouraged to use a single community advisory committee or task force for drug, alcohol, and tobacco abuse prevention programs, as an alternative to the creation of a separate group for that purpose under each state or federally funded program.

(c) The application of the county superintendent of schools shall be submitted to the Office of Emergency Services. Funds made available to the Office of Emergency Services for allocation under this section are intended to enhance, but shall not supplant, local funds that would, in the absence of the Comprehensive Alcohol and Drug Prevention Education component, be made available to prevent, intervene in, or suppress drug abuse among schoolage children. For districts that are already implementing a comprehensive drug abuse prevention program for pupils in grades 4 to 6, inclusive, the county superintendent shall propose the use of the funds for drug prevention activities in school grades other than 4 to 6, inclusive, compatible with the program components of this section. The expenditure of funds for that alternative purpose shall be approved by the Director of Emergency Services.

(1) Unless otherwise authorized by the Office of Emergency Services, each county superintendent of schools shall be the fiscal agent for any Comprehensive Alcohol and Drug Prevention Education component award, and shall be responsible for ensuring that each school district within that county receives the allocation prescribed by the Office of Emergency Services. Each county superintendent shall develop a countywide plan that complies with program guidelines and procedures established by the Office of Emergency Services pursuant to subdivision (d). A maximum of 5 percent of the county’s allocation may be used for administrative costs associated with the project.

(2) Each county superintendent of schools shall establish and chair a local coordinating committee to assist the superintendent in developing and implementing a countywide implementation plan. This committee shall include the county drug administrator, law enforcement executives, school district governing board members and administrators, school faculty, parents, and drug prevention and intervention program executives selected by the superintendent and approved by the county board of supervisors.

(d) The Director of Emergency Services, in consultation with the State Department of Health Care Services and the State Department of Education, shall prepare and issue guidelines and procedures for the Comprehensive Alcohol and Drug Prevention Education component consistent with this section.

(e) The Comprehensive Alcohol and Drug Prevention Education component guidelines shall set forth the terms and conditions upon which the Office of Emergency Services is prepared to award grants of funds pursuant to this section. The guidelines shall not constitute rules, regulations, orders, or standards of general application.
(f) Funds awarded under the Comprehensive Alcohol and Drug Prevention Education Program shall not be subject to Section 10318 of the Public Contract Code.

(g) Funds available pursuant to Item 8100-111-001 and Provision 1 of Item 8100-001-001 of the Budget Act of 1989, or the successor provision of the appropriate Budget Act, shall be allocated to implement this section.

(h) The Director of Emergency Services shall collaborate, to the extent possible, with other state agencies that administer drug, alcohol, and tobacco abuse prevention education programs to streamline and simplify the process whereby local educational agencies apply for drug, alcohol, and tobacco education funding under this section and under other state and federal programs. The Office of Emergency Services, the State Department of Health Care Services, the State Department of Education, and other state agencies, to the extent possible, shall develop joint policies and collaborate planning in the administration of drug, alcohol, and tobacco abuse prevention education programs.

(b) (1) Upon a pupil’s transfer from one school district to another, the school district into which the pupil is transferring shall request that the school district in which the pupil was last enrolled provide any records that the district maintains in its ordinary course of business or receives from a law enforcement agency regarding acts committed by the transferring pupil that resulted in the pupil’s suspension from school or expulsion from the school district. A record of the written warning may be kept at the school for not less than two years or until the pupil graduates or transfers from that school. If the pupil transfers from that school, the record may be forwarded to the school receiving the pupil’s school records. A record of the written warning may be maintained by the law enforcement agency in accordance with that law enforcement agency’s policies and procedures. The pupil may also be assigned by the school to an afterschool or weekend study program located within the same county as the pupil’s school. If the pupil fails to successfully complete the assigned study program, the pupil shall be subject to subdivision (c).

(b) Notwithstanding the provisions of Section 35145 of this code and Section 54950 of the Government Code, the governing board of a school district shall, unless a request has been made to the contrary, hold closed sessions if the board is considering the suspension of, disciplinary action against, or any other action against, except expulsion, any pupil, if a public hearing upon that question would lead to the giving out of information concerning a school pupil which would be in violation of Article 5 (commencing with Section 49073) of Chapter 6.5.
EDC 48918.
The governing board of each school district shall establish rules and regulations governing procedures for the expulsion of pupils. These procedures shall include, but are not necessarily limited to, all of the following:

EDC 49062.
School districts shall establish, maintain, and destroy pupil records according to regulations adopted by the State Board of Education. Pupil records shall include a pupil’s health record. Such regulations shall establish state policy as to what items of information shall be placed into pupil records and what information is appropriate to be compiled by individual school officers or employees under the exception to pupil records provided in subdivision (b) of Section 49061. No pupil records shall be destroyed except pursuant to such regulations or as provided in subdivisions (b) and (c) of Section 49070.

(c) The location of the log or record required to be maintained pursuant to Section 49064.

Sec. 1232g).

(k) The availability of the prospectus prepared pursuant to Section 49091.14.

Sec. 794(a)) maintained by school districts, county offices of education, charter schools, nonpublic schools, as defined in Section 60010, or private schools of that pupil. A caregiver, pursuant to this section, may access the information specified in this section regardless of whether the caregiver has been appointed as the pupil’s educational rights holder pursuant to Section 319, 361, or 726 of the Welfare and Institutions Code.

(b) A foster family agency, short-term residential treatment program, or caregiver may review and receive pupil records pursuant to subdivision (a) for purposes of monitoring the pupil’s educational progress, updating and maintaining the pupil’s education records as required by Section 16010 of the Welfare and Institutions Code, and ensuring the pupil has access to educational services, supports, and activities. These purposes include, but are not limited to, enrolling the pupil in school, assisting the pupil with homework, class assignments, and college and scholarship applications, and enrolling the pupil in extracurricular activities, tutoring, and other afterschool and summer enrichment programs.

(c) (1) If direct communication between a caregiver and an educational rights holder is appropriate, a caregiver who is not the pupil’s educational rights holder shall notify the pupil’s educational rights holder of any educational needs of the pupil that require the educational rights holder’s consent or participation, including, but not limited to, school placement decisions, decisions on whether to invoke or waive school of origin rights, consent for special education assessments and individualized education programs, meetings or hearings regarding attendance or discipline, and decisions regarding graduation. In instances involving significant discipline or that potentially impact a pupil’s continued enrollment and progress in school, the caregiver shall also provide the same information to the pupil’s social worker as is provided to the educational rights holder.

(2) If direct communication between a caregiver and an educational rights holder is inappropriate, the pupil’s social worker shall direct the caregiver to communicate the information specified in paragraph (1) with the pupil’s social worker or attorney instead of the educational rights holder.

(3) Nothing in this subdivision affects the responsibilities of a placement agency with regard to the education of a pupil.

(4) This subdivision shall not be construed to alter or increase a social worker’s or attorney’s decisionmaking rights and responsibilities regarding a pupil.

(d) Nothing in this section affects the duties of a local educational agency related to informing and involving educational rights holders in educational decisions affecting the child.
EDC 49070.

Following an inspection and review of a pupil’s records, the parent or guardian of a pupil or former pupil of a school district may challenge the content of any pupil record.

(a) The parent or guardian of a pupil may file a written request with the superintendent of the district to correct or remove any information recorded in the written records concerning his or her child which the parent or guardian alleges to be any of the following:

1. Inaccurate.

4. Not based on the personal observation of a named person with the time and place of the observation noted.
5. Misleading.

(b) Within 30 days of receipt of a request pursuant to subdivision (a), the superintendent or the superintendent’s designee shall meet with the parent or guardian and the certificated employee who recorded the information in question, if any, and if the employee is presently employed by the school district. The superintendent shall then sustain or deny the allegations.

If the superintendent sustains any or all of the allegations, he or she shall order the correction or the removal and destruction of the information. However, in accordance with Section 49066, the superintendent shall not order a pupil’s grade to be changed unless the teacher who determined the grade is, to the extent practicable, given an opportunity to state orally, in writing, or both, the reasons for which the grade was given and is, to the extent practicable, included in all discussions relating to the changing of the grade.

If the superintendent denies any or all of the allegations and refuses to order the correction or the removal of the information, the parent or guardian may, within 30 days of the refusal, appeal the decision in writing to the governing board of the school district.

(c) Within 30 days of receipt of an appeal pursuant to subdivision (b), the governing board shall, in closed session with the parent or guardian and the certificated employee who recorded the information in question, if any, and if the employee is presently employed by the school district, determine whether or not to sustain or deny the allegations.

If the governing board sustains any or all of the allegations, it shall order the superintendent to immediately correct or remove and destroy the information from the written records of the pupil, and so inform the parent or guardian in writing. However, in accordance with Section 49066, the governing board shall not order a pupil’s grade to be changed unless the teacher who determined the grade is, to the extent practicable, given an opportunity to state orally, in writing, or both, the reasons for which the grade was given and is, to the extent practicable, included in all discussions relating to the changing of the grade.

The decision of the governing board shall be final.

Records of these administrative proceedings shall be maintained in a confidential manner and shall be destroyed one year after the decision of the governing board, unless the parent or guardian initiates legal proceedings relative to the disputed information within the prescribed period.

(d) If the final decision of the governing board is unfavorable to the parent or guardian, or if the parent or guardian accepts an unfavorable decision by the district superintendent, the parent or guardian shall be informed and shall have the right to submit a written statement of his or her objections to the information.
This statement shall become a part of the pupil’s school record until the information objected to is corrected or removed.

2. A certificated employee appointed by the chairman of the certificated employee council of the district, or, if no such council exists, a certificated employee appointed by the parent.
3. A parent appointed by the superintendent or by the governing board of the district, depending upon who convenes the panel.

(b) The persons appointed pursuant to paragraphs (2) and (3) of subdivision (a) shall, if possible, not be acquainted with the pupil, his parent or guardian, or the certificated employee who recorded the information, except when the parent or guardian appoints the person pursuant to paragraph (2).

(c) The principal appointed to the hearing panel shall serve as its chairman.

(d) The hearing panel shall, in closed session, hear the objections to the information of the parent and the testimony of the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the school district.

The hearing panel shall be provided with verbatim copies of the information which is the subject of the controversy.

Written findings shall be made setting forth the facts and decisions of the panel, and such findings shall be forwarded to the superintendent or the governing board, depending upon who convened the panel.

The proceedings of the hearing shall not be disclosed or discussed by panel members except in their official capacities.

**EDC 49072.**

Whenever there is included in any pupil record information concerning any disciplinary action taken by school district personnel in connection with the pupil, the school district maintaining such record or records shall allow the pupil’s parent to include in such pupil record a written statement or response concerning the disciplinary action.

**EDC 49073.**

(a) School districts shall adopt a policy identifying those categories of directory information as defined in subdivision (c) of Section 49061 that may be released. The school district shall determine which individuals, officials, or organizations may receive directory information. However, no information may be released to a private profitmaking entity other than employers, prospective employers, and representatives of the news media, including, but not limited to, newspapers, magazines, and radio and television stations. The names and addresses of pupils enrolled in grade 12 or who have terminated enrollment before graduation may be provided to a private school or college operating under Chapter 8 (commencing with Section 94800) of Part 59 of Division 10 of Title 3 or its authorized representative. However, no such private school or college shall use that information for other than purposes directly related to the academic or professional goals of the institution, and a violation of this provision is a misdemeanor, punishable by a fine of not to exceed two thousand five hundred dollars ($2,500). In addition, the privilege of the private school or college to receive the information shall be suspended for a period of two years from the time of discovery of the misuse of the information. Any school district may
limit or deny the release of specific categories of directory information to any public or private nonprofit organization based upon a determination of the best interests of pupils.

(b) Directory information may be released according to local policy as to any pupil or former pupil. However, notice shall be given at least on an annual basis of the categories of information that the school district plans to release and of the recipients. Directory information shall not be released regarding a pupil if a parent of that pupil has notified the school district that the information shall not be released.

(c) Directory information shall not be released regarding a pupil identified as a homeless child or youth, as defined in paragraph (2) of Section 725 of the federal McKinney-Vento Homeless Assistance Act (42 U.S.C. Sec. 11434a(2)), unless a parent, or pupil accorded parental rights, as identified in the federal Family Educational Rights and Privacy Act (20 U.S.C. Sec. 1232g), has provided written consent that directory information may be released.

Each school district or county office of education shall utilize the following procedure to report crime and hate motivated incident data from school or program sites to the respective school district or county office of education superintendent, and to the California Department of Education:

(1) Each administrator of a school site or county office of education program, or designee, shall complete a California Safe Schools Assessment School Crime and Incident Reporting Form (July 1, 2001) for each incident of crime, including hate crime or hate motivated incidents. The information on the form includes, but is not limited to, identification of the crime or hate motivated incident, victim characteristics, suspect characteristics, if known at the time of the incident, and the actual or estimated dollar loss to the school district or county office of education resulting from a criminal act directed against property of the school district or county office of education. The site or program administrator shall use the crime and hate motivated incident classification definitions as specified above in Section 700(b) and (d) and the reporting guidelines as specified below in Section 702(a) to determine if a crime or an incident is reportable for the purposes of the Safe Schools Assessment Program.

For the purposes of this section, an electronic format includes, computer disk, modem transfer, or other electronic means.

(b) Reportable crimes and hate motivated incidents occurring at a school in the jurisdiction of another school district or county office of education shall be reported by the education agency in which the crime or hate motivated incident occurred.

Site or program administrators and school district and county office of education superintendents shall use (1) crime and hate motivated incident classifications based on existing statutes, as specified above in Section 700(b) and (d), (2) reporting guidelines as specified in subsection (a) below, and (3) guidelines for required documentation as specified in subsection (b) below to complete the reporting procedures as specified above in Section 701.

(a) Reporting guidelines. The site or program administrator or designee shall report a crime or hate motivated incident when it has been determined that a reportable crime or hate motivated incident, as specified above in Section 700(b) and (d), has been committed on a school location, as specified above in Section 700(f). If more than one crime or hate motivated incident is committed during an occurrence, the most serious crime or incident in the judgment of the site or program administrator or designee shall be reported. The suspect(s) need not be apprehended for a crime or hate motivated incident to be reportable. The site or program administrator or designee may consult with local law enforcement to confirm that the occurrences reported on the forms are crimes or hate motivated incidents as defined in statute.

(b) Required documentation. The school district or county office of education superintendent responsible for reporting school crime and hate motivated incident data shall make available, for not less than three years from the date the report was submitted, supporting data which verifies information contained on the California Safe Schools Assessment School Crime and Incident Reporting Form (July 1, 2001). Such data shall include, but not be limited to, reports to local law enforcement officers and suspension and expulsion reports which have been reported to the respective local governing board, for the crime classifications specified in Education Code section 48915(a) through (d); and insurance claims, maintenance records, and other documents to verify economic loss, if applicable. Each school district or county office of education superintendent or designee shall certify to the best of their knowledge and belief that the information in each crime and hate motivated incident reporting form is true, accurate, and complete prior to submission to the California Department of Education.

**5 CCR § 705. Failure to submit or intentionally submitting misleading data.**

(a) The Legislature hereby recognizes that all pupils enrolled in the state public schools have the inalienable right to attend classes on school campuses that are safe, secure, and peaceful. The
Legislature also recognizes that pupils cannot fully benefit from an educational program unless they attend school on a regular basis. In addition, the Legislature further recognizes that school crime, vandalism, truancy, and excessive absenteeism are significant problems on far too many school campuses in the state.

(b) The Legislature hereby finds and declares that the establishment of an interagency coordination system is the most efficient and long-lasting means of resolving school and community problems of truancy and crime, including vandalism, drug and alcohol abuse, gang membership, gang violence, and hate crimes.

(c) It is the intent of the Legislature in enacting this chapter to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses, and that address the safety concerns of local law enforcement agencies, community leaders, parents, pupils, teachers, administrators, school police, and other school employees interested in the prevention of school crime and violence.

(d) It is the intent of the Legislature in enacting this chapter to encourage school districts, county offices of education, law enforcement agencies, and agencies serving youth to develop and implement interagency strategies, in-service training programs, and activities that will improve school attendance and reduce school crime and violence, including vandalism, drug and alcohol abuse, gang membership, gang violence, hate crimes, bullying, including bullying committed personally or by means of an electronic act, teen relationship violence, and discrimination and harassment, including, but not limited to, sexual harassment.

(e) It is the intent of the Legislature in enacting this chapter that the School/Law Enforcement Partnership shall not duplicate any existing gang or drug and alcohol abuse program currently provided for schools.

(f) As used in this chapter, “bullying” has the same meaning as set forth in subdivision (r) of Section 48900.

(g) As used in this chapter, “electronic act” has the same meaning as set forth in subdivision (r) of Section 48900.

**EDC 32265.**

(a) The department shall use the funding the Safe Neighborhoods and Schools Act authorizes for administrative costs pursuant to subdivision (b) of Section 7599.2 of the Government Code, which is no more than 5 percent of the annual funding the department receives from the Safe Neighborhoods and Schools Fund, for the administrative costs of implementing this article, including, but not limited to, administering grant awards, coordinating the training and technical assistance structure described in subdivision (b), and completing the evaluation pursuant to Section 33434.

(b) The department shall establish a structure to deliver training and technical assistance to grantees using regional workshops and technical assistance providers that have expertise on pupil engagement, school climate, truancy reduction, and supporting pupils who are at risk of dropping out of school or who are victims of crime. The department may contract with those providers to assist the grantees as well as to serve as a resource for other local educational agencies that may use their own funding sources to engage in this community of practice. EDC 51263.

The State Department of Education shall make available information on model drug and alcohol abuse prevention education programs developed and funded pursuant to Article 2 (commencing with Section 11965) of Chapter 2 of Part 3 of Division 10.5 of the Health and Safety Code, Chapter 7 (commencing with Section 13860) of Title 6 of Part 4 of the Penal Code, and other public and private sources.

If a school develops or has developed a school improvement plan pursuant to Article 2 (commencing with Section 52010) of Chapter 6 of Part 28, or a school safety plan pursuant to Article 5 (commencing with Section 32280) of Chapter 2.5 of Part 19, it is encouraged to incorporate into that plan, where appropriate, the gang violence and drug and alcohol prevention plan that it has developed.

The Superintendent of Public Instruction shall establish grant competition bands as follows:

EDC 33435.

For purposes of this article, the following definitions apply:

(a) “Community school” means a public school that participates in a community-based effort to coordinate and integrate educational, developmental, family, health, and other comprehensive services through community-based organizations and public and private partnerships with one or more community partners for the delivery of community services that may be provided at a schoolsite to pupils, families, and community members.

(b) “Local educational agency” means a school district, county office of education, or charter school.
EDC 33436. This article shall not become operative unless funds are appropriated in the annual Budget Act or another statute to the Safe Neighborhoods and Schools Fund in accordance with the Safe Neighborhoods and Schools Act for the purposes specified in this article.

EDC 42920. The Legislature finds and declares all of the following:

(a) The Foster Youth Services (FYS) program has been a successful program that supports the educational achievement of pupils in foster care. This success has contributed to landmark California education finance reform that prioritizes the educational needs of pupils in foster care.

(b) The county office of education FYS program is uniquely situated to support interagency collaboration and capacity building, both at the system and individual pupil level, focused on improving educational outcomes for pupils in foster care. This is a key component to the successful implementation of the local control funding formula (LCFF). The FYS program should support and facilitate such collaboration and capacity building while preserving the ability to provide direct services such as tutoring, mentoring, counseling, transition, school-based social work, and emancipation assistance when there are identified gaps in service at the local level and the local Executive Advisory Council establishes that these services are needed and aligned with local control and accountability plan priorities.

(c) Pupils in foster care will benefit from increased levels of supports and services as a result of the FYS program supporting implementation of the LCFF for pupils in foster care.

(d) Pupils in foster care represent one of the most vulnerable and academically at-risk pupil groups enrolled in California schools. The academic status of pupils in foster care is often profoundly impacted by the foster care system in which many pupils in foster care experience multiple placements with an average frequency of one placement change every six months. Due to this movement, pupils in foster care lose an average of four to six months of educational attainment with each move. Therefore, it is essential to recognize, identify, and plan for the critical and unique educational needs of pupils in foster care.

(e) A high percentage of pupils in foster care are working substantially below grade level, and over one-half of the pupils in foster care are retained at least one year in the same grade level. Pupils in foster care earn lower grades and achieve lower scores on standardized achievements tests in reading and mathematics, have lower levels of engagement in school, and are half as likely as pupils not in foster care to be involved in extracurricular activities. The long-term consequences of poor academic experiences are significant. Pupils in foster care are twice as likely as pupils not in foster care to drop out of school before graduation and only 45 percent of pupils in foster care have graduated from high school at the time of emancipation. Foster youth are similarly underrepresented in college enrollment rates and dramatically underperform their peers in relation to college completion. Pupils in foster care are also subject to disproportionate levels of disciplinary measures, including suspension and expulsion. It is imperative that California close the foster youth achievement gap so that pupils in foster care can realize their full potential, reach their college and career goals, and become independent, productive members of society.

(f) Foster youth are an especially vulnerable pupil population, as they are often also members of other underserved pupil groups. In 2013, the demographic data of pupils in foster care in California were as follows:

(1) The largest ethnic group amongst pupils in foster care was Hispanic, with nearly half of the population.
(2) African American and Native American pupils continue to be disproportionately represented in the child welfare system, as researchers found that 26 percent of pupils in foster care were African American despite African Americans only accounting for 7 percent of the pupil population in California, and 2 percent of pupils in foster care were Native American despite Native Americans only accounting for 1 percent of the pupil population in California.

(3) Nearly one in five pupils in foster care had special education needs, which is over twice the rate of the statewide pupil population.

(4) More than 1 in 10 pupils in foster care were English learners.

(5) A significant number of youth in foster care identify as lesbian, gay, bisexual, transgender, queer, questioning, or gender nonconforming.

(g) Compounded by the research that indicates that there is a need for California to close the achievement gap between specific ethnic pupil populations and White pupils, addressing the foster youth achievement gap will further efforts that support education equity for all pupils.

(h) Given their current academic status, pupils in foster care are more likely to achieve their full potential when they are provided services and programs designed to meet their particular needs, including, but not limited to, supplemental instruction, counseling, tutoring, support services offered to lesbian, gay, bisexual, transgender, queer, questioning, and gender nonconforming youth, and other assistance relevant to their experience.

(i) Policies and laws addressing the educational rights of pupils in foster care must be implemented so that pupils in foster care are immediately enrolled in school, provided access to meaningful opportunities to meet state pupil academic achievement standards to which all pupils are held, provided access to a rigorous curriculum, adequately prepared to enter postsecondary education, and afforded the academic resources, services, and extracurricular and enrichment activities made available to other pupils enrolled in California's public schools, including, but not limited to, interscholastic sports administered by the California Interscholastic Federation. In fulfilling their responsibilities to these pupils, educators, county placing agencies, caregivers, advocates, and the juvenile courts will work together to ensure that each pupil is placed in the least restrictive educational environment.

(j) Foster youth services programs provide pupils in foster care needed educational support and are a state priority.

EDC 42920.5.

(a) Commencing with the 2015-16 fiscal year, and each fiscal year thereafter, the Foster Youth Services Coordinating Program, administered by the Superintendent, is hereby established to provide supplemental funding to county offices of education, or a consortium of county offices of education, to coordinate and ensure that local educational agencies within its jurisdiction are providing services to foster youth pupils pursuant to the plan established in Section 42921, with the purpose of ensuring positive educational outcomes.

(b) A foster youth services coordinating program shall meet minimum standards established by the Superintendent to ensure the provisions of Section 42921 are implemented, and shall be required to meet those minimum standards annually as a condition of continued funding.

(c) As a condition of receiving funds, a county office of education, or a consortium of county offices of education, shall work with the local educational agencies within the county or consortium of counties, and shall coordinate services to ensure that, for the 2015-16 and 2016-17 fiscal years, the level of direct services provided to support foster youth pupils is not less than what was provided in the 2014-15 fiscal year through the foster youth services program established pursuant to Section 42921, as it read on June 30, 2015. In meeting this requirement, services for foster youth pupils may be provided through one or
any combination of state funding, including, but not limited to, the local control funding formula, or federal, local, or other funding.

(d) For the 2015-16 fiscal year, the allocation amount for which any county office of education or consortium of county offices of education is eligible shall not be less than the amount allocated to that county or consortium in the 2014-15 fiscal year, including the allocation amounts of school districts identified in Section 42920, as it read on June 30, 2015. This subdivision applies only if a county office of education or consortium of county offices of education elects to apply for grant funding pursuant to Section 42921.

(e) On or before October 31, 2015, the Superintendent shall develop an allocation formula to determine the allocation amounts for which each county office of education or consortium of county offices of education is eligible. The Superintendent, within 30 days of the developing the allocation formula, shall submit the allocation formula to the appropriate policy and fiscal committees of the Legislature and the Department of Finance for review, and the Department of Finance shall approve the allocation formula within 30 days of submission by the Superintendent. The allocation formula may be revised annually upon submission to the appropriate policy and fiscal committees of the Legislature and approval by the Department of Finance within 30 days of submission by the Superintendent. The Superintendent may include additional criteria in the allocation formula, but shall apply, at a minimum, the following criteria:

(1) The number of pupils in foster care in the county.
(2) The number of school districts in the county.

(f) Notwithstanding subdivision (e), commencing with the 2016-17 fiscal year, the Superintendent shall provide a base grant of seventy-five thousand dollars ($75,000) to each participating county office of education or consortium of county offices of education that served at least one foster youth pupil in the prior fiscal year.

(g) After providing base grants pursuant to subdivision (f), the Superintendent shall allocate the remaining funding to participating county offices of education or consortium of county offices of education based on the following criteria:

(1) Seventy percent of the allocation shall be based on the number of pupils in foster care in the county.
(2) Thirty percent of the allocation shall be based on the number of school districts in the county.

(h) The allocation pursuant to subdivision (g) shall be applied after consideration of subdivision (b) of Section 42926.

(i) For purposes of this chapter, “local educational agency” means a county office of education, school district, or charter school.

EDC 42921.

(a) A county office of education, or consortium of county offices of education, may elect to apply to the Superintendent for grant funding, to the extent funds are available, to operate an education-based foster youth services coordinating program to provide educational support for pupils in foster care.

(b) Each foster youth services coordinating program operated pursuant to this chapter, if sufficient funds are available, shall have at least one person identified as the foster youth educational services coordinator. The foster youth educational services coordinator shall facilitate the provision of educational support pursuant to subdivision subdivisions (d) and (e) to any pupil in foster care residing or attending school in the county or consortium of counties.

(c) For purposes of this chapter, a pupil in foster care means a foster youth, as defined in paragraph (b) of Section 42238.01, or a foster child who is detained in a county-operated juvenile detention facility.
(d) It is the intent of the Legislature that pupils in foster care with the greatest need for services be identified as the first priority for foster youth services coordinating programs. Priority shall be given to pupils who are living in out-of-home placements.

(e) As a condition of receiving funds pursuant to this chapter, each foster youth services coordinating program operated by a county office of education or a consortium of county offices of education pursuant to this chapter shall develop and implement a foster youth services coordinating plan for purposes of establishing guiding principles and protocols to provide supports for foster care pupils aligned with the population priorities established in subdivision (f). The plan shall include, to the extent possible, but not be limited to, the following:

(1)

(A) A description of how the program will establish ongoing collaboration with local educational agencies, county child welfare agencies, and county probation departments, to determine the proper educational placement of the foster youth. This includes, but is not limited to, the following:

(i) Building the capacity of county agencies, school districts, and community organizations to better support the educational success of pupils in foster care.

(ii) Facilitating collaboration between county agencies, school districts, and community organizations to ensure coordinated and nonduplicative service delivery and to ensure pupils in foster care receive the educational supports and services they need to succeed in school. This may include, but is not limited to, education emancipation services such as support with transitions to postsecondary education or career technical education programs.

(iii) Providing services and educational case management in support of individual pupils in foster care, as necessary. This may include, but is not limited to, transition and school social work to support transition between schools or school districts.

(B) The primary goal of the collaboration required pursuant to this section shall be to minimize changes in school placement by supporting the implementation of Section 48850, subdivision (c) of Section 48853, and all related statutes that pertain to pupils in foster care. As necessary, and in accordance with Section 48853.5, the foster youth services coordinating program may pay for the cost of transportation to support this paragraph.

(i) If it is in the best interests of a pupil in foster care to transfer schools, the foster youth services coordinating program shall support local educational agencies in the implementation of Section 48853.5 and all related statutes pertaining to pupils in foster care, such as ensuring transfers are done at an educationally appropriate time, educational records are quickly transferred, appropriate partial credits are awarded, and the pupil in foster care is quickly enrolled in appropriate classes.

(ii) In determining the appropriate educational placement of foster youth pupils, local educational agencies, county welfare agencies, and county probation departments shall consult with an educational rights holder, caregiver, social worker, teacher, counselor, court-appointed special advocate, other stakeholders, and the pupil, as appropriate. The purpose of the consultation shall be to ensure all educational programmatic options are considered, including, but not limited to, English learner, special education, advanced placement, and career technical education.

(2)

(A) If a school district annually certifies in writing to the foster youth services coordinating program that it is unable, using any other state, federal, local, or private funds, to provide tutoring, mentoring, and counseling, and if those services are established as needed and identified by the appropriate school district, in collaboration with the county child welfare agency or county probation department, the school district may enter into a temporary agreement with the foster youth services coordinating program to provide those services.
(B) It is the intent of the Legislature that local educational agencies include information provided in subparagraph (C) in their local control and accountability plans when describing their services for foster youth pupils as required pursuant to paragraph (10) of subdivision (d) of Section 52066.

(C) It is the intent of the Legislature that county offices of education, in the development and adoption of their local control and accountability plans, include information specific to the transition requirement established pursuant to subdivision (b) of Section 42920.5 when describing the coordination of services for foster youth pupils required pursuant to paragraph (10) of subdivision (d) of Section 52066.

(3) (A) Policies and procedures to ensure educational placement for a foster youth pupil is not delayed, including, but not limited to, facilitating the establishment of an individualized education program in accordance with the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), if applicable, the transfer of records, transcripts, and other relevant educational information.

(B) The plan shall also describe how the program will facilitate coordination with local postsecondary educational institutions, including, but not limited to, the California Community Colleges, the California State University, and the University of California, to ensure foster youth pupils meet admission requirements and access programs that support their matriculation needs.

(4) Policies and procedures for local educational agencies, county welfare agencies, and county probation departments to share all relevant educational information for foster youth to ensure the court has updated and accurate information as it makes decisions regarding foster youths.

(f) When developing the plan required pursuant to this section, the county office of education, or the consortium of county offices of education, shall consider the needs of specific age groups, pupils in foster care in specific geographic areas with the highest concentration of pupils in foster care, and pupils in foster care with the greatest academic need. A foster youth services coordinating program is encouraged to first provide services for pupils in foster care who reside in group homes, institutional settings, or other placements with pupils with high academic needs, as determined by the local Executive Advisory Council.

(g)

(1) Each foster youth services coordinating program operated pursuant to this chapter shall establish a local interagency Executive Advisory Council.

(2) The Executive Advisory Council may include representatives from the county child welfare agency, the county probation department, local educational agencies, local postsecondary educational institutions, and community organizations. If possible, the Executive Advisory Council may include, but is not limited to, foster youth, caregivers, educational rights holders, dependency attorneys, court representatives, court-appointed special advocates, and other interested stakeholders.

(3) The foster youth educational services coordinator shall be a permanent member of the Executive Advisory Council.

The purpose of the audit shall be to determine if the funds have been used as required by the law and regulation and as stated in the grant recipient's application.

5. Applicants shall download and print the “General Assurances” (revised June, 2007) and “Drug Free Workplace” (revised June, 2007) forms from the CDE’s “funding forms” web page (http://www.cde.ca.gov/fg/fo/fm). (c) Enforcement of a subpoena issued by a county or local school attendance review board is within the jurisdiction of the juvenile court. The juvenile court does not have jurisdiction to order detention in any secure facility or other confinement for failure to comply with a subpoena issued pursuant to this section.

(d) Nothing in this section shall be construed to authorize a county or local school attendance review board to issue a subpoena for the production of written materials or the attendance of any person except as specifically provided in subdivision (a) with respect to the limited purpose of making a proper disposition of the referral of a minor pupil made pursuant to Section 48263.

(e) Nothing in this section shall be construed to authorize a county or local school attendance review board to issue a subpoena or request a subpoena to be issued for the production of written materials or the attendance of any person if it is verified that the minor pupil is enrolled and in regular attendance in a private school maintaining kindergarten or any of grades 1 to 12, inclusive, that has filed an affidavit pursuant to Sections 33190 and 48222 of the Education Code.

(f) A county or local school attendance review board shall not issue a subpoena that includes a request for production of written materials, but may request a juvenile court having jurisdiction to issue a subpoena for production of written materials pursuant to subdivision (a).

EDC 48322.

The county school attendance review board may encourage local school attendance review boards to maintain a continuing inventory of community resources, including alternative educational programs, and to make recommendations for the improvement of such resources and programs or for the creation of new resources and programs where none exist.
EDC 48323.
Each of the departments or agencies authorized to participate in school attendance review boards may assign personnel to represent the department or agency on a continuing basis in accordance with the intent of this article. The duties, obligations, or responsibilities which may be imposed on local governmental entities by this act are such that the related costs are incurred as a part of their normal operating procedures. The minor costs of such services may be borne by each agency or department and each or all of the participants may apply for and utilize state or federal funds as may be available.

EDC 48324.
The county school attendance review board may adopt such rules and regulations not inconsistent with law, as are necessary for its own government and to enable it to carry out the provisions of this article. The rules and regulations may be binding upon the local school attendance review boards which are established pursuant to subdivision (d) of Section 48321.

EDC 48325.
(a) The Legislature finds and declares that statewide policy coordination and personnel training with respect to county attendance review boards will greatly facilitate the achievement of the goals expressed in Section 48320. It is therefore the intent of the Legislature in enacting this section to do the following:

(1) Encourage the cooperation, coordination, and development of strategies to support county school attendance review boards in carrying out their responsibilities to establish local school attendance review boards as necessary. These strategies may include, but need not be limited to, plans for the training of school attendance review board personnel.

(2) Divert pupils with serious attendance and behavioral problems from the juvenile justice system to agencies more directly related to the state public school system by developing a system for gathering and dispensing information on successful community-based and school-based programs.

(3) Reduce duplication of the services of state and county agencies in serving high-risk youth, including youth with school attendance or behavioral problems.

(4) Reduce the number of dropouts in the state public education system by promoting interagency cooperation among those agencies which have as their goals preventing students from dropping out, and increasing the holding power of the public schools.

(b) The Superintendent of Public Instruction shall coordinate and administer a state school attendance review board, as follows:

(1) On or before January 31 of each year, the superintendent shall extend invitations of participation to representatives of appropriate groups throughout the state, including, but not limited to, representatives of school districts, parent groups, county probation departments, county welfare departments, county superintendents of schools, law enforcement agencies, community-based youth service centers, school guidance personnel, child welfare and attendance personnel, the health care profession and state associations having an interest in youth with school attendance or behavioral problems. The superintendent shall also request the participation of representatives from interested state agencies or departments, including, but not limited to, the Department of the California Youth Authority, the Department of Justice, the State Department of Social Services, and the Office of Criminal Justice Planning. To the extent feasible, members of the board shall include persons who are currently members of county or local school attendance review boards. For every year after the first year that the board is convened, the purpose of the invitations of participation shall be to inform appropriate groups, state agencies, and departments of the purposes of the board, to fill vacancies, and to supplement the membership of the board as necessary.
(2) The superintendent shall prescribe an appropriate deadline for acceptance of invitations of participation as a member of the state school attendance review board for that particular year, and the invitations accepted on or before the deadline shall constitute the board for that year, except that the board shall also include a representative of the State Department of Education designated by the director of that department. The representative of the State Department of Education shall be the chairperson of the board.

(3) The superintendent shall convene the board at least four times during the year. At its first meeting, the board shall elect any officers, other than its chairperson, as it deems necessary. Members of the board shall serve without compensation and without reimbursement of travel and living expenses.

(4) The State Department of Education shall provide assistance as requested by the Superintendent of Public Instruction in order to implement the provisions of this section.

(c) The state school attendance review board shall make recommendations annually to the Superintendent of Public Instruction, and to state agencies as deemed appropriate, regarding the needs and services provided to high-risk youth, including youth with school attendance or behavioral problems, in the state public schools, and shall propose uniform guidelines or other means to attain the goals stated in subdivision (a).

EDC 48900.6.

As part of or instead of disciplinary action prescribed by this article, the principal of a school, the principal’s designee, the superintendent of schools, or the governing board may require a pupil to perform community service on school grounds or, with written permission of the parent or guardian of the pupil, off school grounds, during the pupil’s nonschool hours. For the purposes of this section, “community service” may include, but is not limited to, work performed in the community or on school grounds in the areas of outdoor beautification, community or campus betterment, and teacher, peer, or youth assistance programs. This section does not apply if a pupil has been suspended, pending expulsion, pursuant to Section 48915. However, this section applies if the recommended expulsion is not implemented or is, itself, suspended by stipulation or other administrative action.

EDC 51269.

(a) The State Department of Education shall collaborate, to the extent possible, with other state agencies that administer drug, alcohol, and tobacco abuse prevention education programs to streamline and simplify the process whereby local educational agencies apply for state and federal drug, alcohol, and tobacco education funds.

The purpose of the system shall be to facilitate improved planning and program delivery among state and local agencies, including law enforcement, juvenile justice, county health, and county drug and alcohol agencies and programs, and communities.

PEN 13860.
The Legislature finds and declares that a substantial drug abuse and drug trafficking problem exists among school-age children on and around school campuses in the State of California. By enacting this chapter, it is the intention of the Legislature to support increased efforts by local law enforcement agencies, working in conjunction with school districts and county drug offices to suppress trafficking and prevent drug abuse among school age children on and around school campuses through the development of innovative and model programs by local law enforcement agencies and schools and drug abuse agencies. As used in this chapter, drugs are defined as marijuana, inhalants, narcotics, dangerous drugs, pharmaceuticals, glue and alcohol. It is the further intention of the Legislature to establish a program of financial and technical assistance for local law enforcement and school districts.

PEN 13861.
There is hereby created in the Office of Emergency Services the Suppression of Drug Abuse in Schools Program. All funds made available to the Office of Emergency Services for the purposes of this chapter shall be administered and disbursed by the Director of Emergency Services in consultation with the State Suppression of Drug Abuse in Schools Advisory Committee established pursuant to Section 13863.

(a) The Director of Emergency Services, in consultation with the State Suppression of Drug Abuse in Schools Advisory Committee, is authorized to allocate and award funds to local law enforcement agencies and public schools jointly working to develop drug abuse prevention and drug trafficking suppression programs in substantial compliance with the policies and criteria set forth in Sections 13862 and 13863.

(b) The allocation and award of funds shall be made upon the joint application by the chief law enforcement officer of the coapplicant law enforcement agency and approved by the law enforcement agency’s legislative body and the superintendent and board of the school district coapplicant. The joint application of the law enforcement agency and the school district shall be submitted for review to the Local Suppression of Drug Abuse in Schools Advisory Committee established pursuant to paragraph (4) of subdivision (a) of Section 13862. After review, the application shall be submitted to the Office of Emergency Services. Funds disbursed under this chapter may enhance but shall not supplant local funds that would, in the absence of the Suppression of Drug Abuse in Schools Program, be made available to suppress and prevent drug abuse among schoolage children and to curtail drug trafficking in and around school areas.

(c) The coapplicant local law enforcement agency and the coapplicant school district may enter into interagency agreements between themselves which will allow the management and fiscal tasks created
pursuant to this chapter and assigned to both the law enforcement agency and the school district to be performed by only one of them.

(d) Within 90 days of the effective date of this chapter, the Director of Emergency Services, in consultation with the State Suppression of Drug Abuse in Schools Advisory Committee established pursuant to Section 13863, shall prepare and issue administrative guidelines and procedures for the Suppression of Drug Abuse in Schools Program consistent with this chapter. In addition to all other formal requirements that may apply to the enactment of these guidelines and procedures, a complete and final draft shall be submitted within 60 days of the effective date of this chapter to the Chairpersons of the Committee on Criminal Law and Public Safety of the Assembly and the Judiciary Committee of the Senate of the California Legislature.

PEN 13862.

(a) These enhanced apprehension, prevention, and education efforts shall include, but not be limited to:

(1) Drug traffic intervention programs.

These efforts shall include, but not be limited to, the concentration of apprehension efforts in “problem” areas identified by local school authorities.

PEN 13864.

There is hereby created in the Office of Emergency Services the Comprehensive Alcohol and Drug Prevention Education component of the Suppression of Drug Abuse in Schools Program in public elementary schools in grades 4 to 6, inclusive. Notwithstanding Section 13861 or any other provision in this code, all Comprehensive Alcohol and Drug Prevention Education component funds made available to the Office of Emergency Services in accordance with the Classroom Instructional Improvement and Accountability Act shall be administered by and disbursed to county superintendents of schools in this state by the Director of Emergency Services. All applications for that funding shall be reviewed and evaluated by the Office of Emergency Services, in consultation with the State Department of Health Care Services and the State Department of Education.

(a) The Director of Emergency Services is authorized to allocate and award funds to county department superintendents of schools for allocation to individual school districts or to a consortium of two or more school districts. Applications funded under this section shall comply with the criteria, policies, and procedures established under subdivision (b) of this section.

(b) As a condition of eligibility for the funding described in this section, the school district or consortium of school districts shall have entered into an agreement with a local law enforcement agency to jointly implement a comprehensive alcohol and drug abuse prevention, intervention, and suppression program developed by the Office of Emergency Services, in consultation with the State Department of Health Care Services and the State Department of Education, containing all of the following components:

1. A standardized age-appropriate curriculum designed for pupils in grades 4 to 6, inclusive, specifically tailored and sensitive to the socioeconomic and ethnic characteristics of the target pupil population. Although new curricula shall not be required to be developed, existing curricula may be modified and adapted to meet local needs. The elements of the standardized comprehensive alcohol and drug prevention education program curriculum shall be defined and approved by the Governor’s Policy Council on Drug and Alcohol Abuse, as established by Executive Order No. D-70-80.

2. A planning process that includes assessment of the school district’s characteristics, resources, and the extent of problems related to juvenile drug abuse, and input from local law enforcement agencies.

3. A school district governing board policy that provides for a coordinated intervention system that, at a minimum, includes procedures for identification, intervention, and referral of at-risk alcohol- and drug-involved youth, and identifies the roles and responsibilities of law enforcement, school personnel, parents, and pupils.

4. Early intervention activities that include, but are not limited to, the identification of pupils who are high risk or have chronic drug abuse problems, assessment, and referral for appropriate services, including ongoing support services.

5. Parent education programs to initiate and maintain parental involvement, with an emphasis for parents of at-risk pupils.
(6) Staff and in-service training programs, including both indepth training for the core team involved in providing program services and general awareness training for all school faculty and administrative, credentialed, and noncredentialed school personnel.

(7) In-service training programs for local law enforcement officers.

(8) School, law enforcement, and community involvement to ensure coordination of program services. Pursuant to that coordination, the school district or districts and other local agencies are encouraged to use a single community advisory committee or task force for drug, alcohol, and tobacco abuse prevention programs, as an alternative to the creation of a separate group for that purpose under each state or federally funded program.

(c) The application of the county superintendent of schools shall be submitted to the Office of Emergency Services. Funds made available to the Office of Emergency Services for allocation under this section are intended to enhance, but shall not supplant, local funds that would, in the absence of the Comprehensive Alcohol and Drug Prevention Education component, be made available to prevent, intervene in, or suppress drug abuse among schoolage children. For districts that are already implementing a comprehensive drug abuse prevention program for pupils in grades 4 to 6, inclusive, the county superintendent shall propose the use of the funds for drug prevention activities in school grades other than 4 to 6, inclusive, compatible with the program components of this section. The expenditure of funds for that alternative purpose shall be approved by the Director of Emergency Services.

(1) Unless otherwise authorized by the Office of Emergency Services, each county superintendent of schools shall be the fiscal agent for any Comprehensive Alcohol and Drug Prevention Education component award, and shall be responsible for ensuring that each school district within that county receives the allocation prescribed by the Office of Emergency Services. Each county superintendent shall develop a countywide plan that complies with program guidelines and procedures established by the Office of Emergency Services pursuant to subdivision (d). A maximum of 5 percent of the county’s allocation may be used for administrative costs associated with the project.

(2) Each county superintendent of schools shall establish and chair a local coordinating committee to assist the superintendent in developing and implementing a countywide implementation plan. This committee shall include the county drug administrator, law enforcement executives, school district governing board members and administrators, school faculty, parents, and drug prevention and intervention program executives selected by the superintendent and approved by the county board of supervisors.

(d) The Director of Emergency Services, in consultation with the State Department of Health Care Services and the State Department of Education, shall prepare and issue guidelines and procedures for the Comprehensive Alcohol and Drug Prevention Education component consistent with this section.

(e) The Comprehensive Alcohol and Drug Prevention Education component guidelines shall set forth the terms and conditions upon which the Office of Emergency Services is prepared to award grants of funds pursuant to this section. The guidelines shall not constitute rules, regulations, orders, or standards of general application.

(f) Funds awarded under the Comprehensive Alcohol and Drug Prevention Education Program shall not be subject to Section 10318 of the Public Contract Code.

(g) Funds available pursuant to Item 8100-111-001 and Provision 1 of Item 8100-001-001 of the Budget Act of 1989, or the successor provision of the appropriate Budget Act, shall be allocated to implement this section.

(h) The Director of Emergency Services shall collaborate, to the extent possible, with other state agencies that administer drug, alcohol, and tobacco abuse prevention education programs to streamline and simplify the process whereby local educational agencies apply for drug, alcohol, and tobacco education
funding under this section and under other state and federal programs. The Office of Emergency Services, the State Department of Health Care Services, the State Department of Education, and other state agencies, to the extent possible, shall develop joint policies and collaborate planning in the administration of drug, alcohol, and tobacco abuse prevention education programs.

PEN 13872.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

LAWS

22-1-118. School board to enforce

The boards of directors of all school districts shall enforce the provisions of section 22-1-117, and shall have full power to make, adopt, and modify all rules and regulations which in their judgment and discretion may be necessary for the proper governing of such schools and for the enforcing of all the provisions of section 22-1-117.

22-11-302. School district accountability committees - powers and duties.

(1) Each school district accountability committee has the following powers and duties:

(f) To provide input to the local school board concerning the creation and enforcement of its school conduct and discipline code; and

(2) Safe school plan. In order to provide a learning environment that is safe, conducive to the learning process, and free from unnecessary disruption, each school district board of education or institute charter school board for a charter school authorized by the charter school institute shall, following consultation with the school district accountability committee and school accountability committees, parents, teachers, administrators, students, student councils where available, and, where appropriate, the community at large, adopt and implement a safe school plan, or review and revise, as necessary in response to any relevant data collected by the school district, any existing plans or policies already in effect. In addition to the aforementioned parties, each school district board of education, in adopting and implementing its safe school plan, may consult with victims' advocacy organizations, school psychologists, local law enforcement, and community partners. The plan, at a minimum, must include the following:

(a) Conduct and discipline code.

(I) A concisely written conduct and discipline code that shall be enforced uniformly, fairly, and consistently for all students. Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:

(A) General policies on student conduct, safety, and welfare;

(B) General policies and procedures for dealing with students who cause a disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event, including a specific policy allowing a teacher to remove a disruptive student from his or her classroom. The policy shall state that, upon the third such removal from a teacher's class, the teacher may remove the disruptive student from the teacher's class for the remainder of the term of the class; except that a disruptive student shall not be removed from a teacher's class for the remainder of the term of the class unless the principal of the student's school or his or her designee has developed and implemented a behavior plan for the student. A behavior plan may be developed after the first such removal from class and shall be developed after the second removal from class. The general policies and
procedures shall include a due process procedure, which at a minimum shall require that, as soon as possible after a removal, the teacher or the school principal shall contact the parent or legal guardian of the student to request his or her attendance at a student-teacher conference regarding the removal. Any policy or procedure adopted shall comply with applicable federal and state laws, including but not limited to laws regarding students with disabilities.

(C) Provisions for the initiation of suspension or expulsion proceedings for students who qualify as habitually disruptive students;

(D) Policies and procedures for the use of acts of reasonable and appropriate physical intervention or force in dealing with disruptive students; except that no board shall adopt a discipline code that includes provisions that are in conflict with the definition of child abuse in section 18-6-401 (1), C.R.S., and section 19-1-103 (1), C.R.S.;

(E) General policies and procedures for determining the circumstances under and the manner in which disciplinary actions, including suspension and expulsion, shall be imposed in accordance with the provisions of sections 22-33-105 and 22-33-106;

(F) A specific policy concerning gang-related activities on school grounds, in school vehicles, and at school activities or sanctioned events;

(G) Written prohibition, consistent with section 22-33-106, of students from bringing or possessing dangerous weapons, drugs, or other controlled substances on school grounds, in a school vehicle, or at a school activity or sanctioned event and from using drugs or other controlled substances on school grounds, in a school vehicle, or at a school activity or sanctioned event;

(H) Written prohibition of students from using or possessing tobacco products on school grounds, in a school vehicle, or at a school activity or sanctioned event;

(I) A written policy concerning searches on school grounds, including searches of student lockers;

(J) A dress code policy that prohibits students from wearing apparel that is deemed disruptive to the classroom environment or to the maintenance of a safe and orderly school. The dress code policy may require students to wear a school uniform or may establish minimum standards of dress;

(K) On and after August 8, 2001, a specific policy concerning bullying prevention and education. Each school district is encouraged to ensure that its policy, at a minimum, incorporates the biennial administration of surveys of students' impressions of the severity of bullying in their schools, as described in section 22-93-104 (1) (c); character building; and the designation of a team of persons at each school of the school district who advise the school administration concerning the severity and frequency of bullying incidents that occur in the school, which team may include, but need not be limited to, law enforcement officials, social workers, prosecutors, health professionals, mental health professionals, school psychologists, counselors, teachers, administrators, parents, and students. Each school district's policy shall set forth appropriate disciplinary consequences for students who bully other students and for any person who takes any retaliatory action against a student who reports in good faith an incident of bullying, which consequences shall comply with all applicable state and federal laws.

(L) Information concerning the school district's policies for the use of restraint and seclusion on students, including a reference to section 26-20-111 and information concerning the process for filing a complaint regarding the use of restraint or seclusion, as such process is set forth by rule of the state board pursuant to section 22-32-147.

22-33-104. Compulsory school attendance.

(4) (a) The board of education shall adopt a written policy setting forth the district's attendance requirements. Said policy shall provide for excused absences, including those listed as exclusions from
compulsory school attendance in accordance with subsection (2) of this section. An attendance policy developed pursuant to this section may include appropriate penalties for nonattendance due to unexcused absence.

(b) The attendance policy adopted pursuant to this subsection (4) shall specify the maximum number of unexcused absences a child may incur before the attorney for the school district, the attendance officer, or the local board of education may initiate judicial proceedings pursuant to section 22-33-108. Calculation of the number of unexcused absences a child has incurred includes all unexcused absences occurring during any calendar year or during any school year.

(c) On or before January 1, 2009, the state board shall adopt rules establishing a standardized calculation for counting unexcused absences of students, including the circumstance in which a student is absent for part of a school day, and the format for reporting the information to the department pursuant to section 22-33-107.

22-33-105. Suspension, expulsion, and denial of admission.

(2) In addition to the powers provided in section 22-32-110, the board of education of each district may:

(b) Suspend, on the grounds stated in section 22-33-106, a pupil from school for not more than another ten school days, or may delegate such power to its executive officer; except that the latter may extend a suspension to an additional ten school days if necessary in order to present the matter to the next meeting of the board of education, but the total period of suspension pursuant to this paragraph (b) and paragraph (a) of this subsection (2) shall not exceed twenty-five school days; and

(c) Deny admission to, or expel for any period not extending beyond one year, any child whom the board of education, in accordance with the limitations imposed by this article, shall determine does not qualify for admission to, or continued attendance at, the public schools of the district. A board of education may delegate such powers to its executive officer or to a designee who shall serve as a hearing officer. If the hearing is conducted by a designee acting as a hearing officer, the hearing officer shall forward findings of fact and recommendations to the executive officer at the conclusion of the hearing. The executive officer shall render a written opinion within five days after a hearing conducted by the executive officer or by a hearing officer. The executive officer shall report on each case acted upon at the next meeting of the board of education, briefly describing the circumstances and the reasons for the executive officer's action. A child who is denied admission or expelled as an outcome of the hearing shall have ten days after the denial of admission or expulsion to appeal the decision of the executive officer to the board of education, after which time the decision to grant or deny the appeal shall be at the discretion of the board of education. The appeal shall consist of a review of the facts that were presented and that were determined at the hearing conducted by the executive officer or by a designee acting as a hearing officer, arguments relating to the decision, and questions of clarification from the board of education. No board of education shall deny admission to, or expel, any child without a hearing, if one is requested by the parent, guardian, or legal custodian of the child, at which evidence may be presented in the child's behalf. If the child is denied admission or expelled, the child shall be entitled to a review of the decision of the board of education in accordance with section 22-33-108.

An agency that is authorized to promulgate rules or adopt ordinances shall promulgate rules or adopt ordinances applicable to the agencies within their respective jurisdictions that establish procedures for the use of restraint and seclusion consistent with the provisions of this article. Any agency that has rules or
ordinances in existence on April 22, 1999, is not required to promulgate additional rules or adopt additional ordinances unless that agency's existing rules or ordinances do not meet the minimum requirements of this article.

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204.

student from the teacher's class for the remainder of the term of the class; except that a disruptive student shall not be removed from a teacher's class for the remainder of the term of the class unless the principal of the student's school or his or her designee has developed and implemented a behavior plan for the student. A behavior plan may be developed after the first such removal from class and shall be developed after the second removal from class. The general policies and procedures shall include a due process procedure, which at a minimum shall require that, as soon as possible after a removal, the teacher or the school principal shall contact the parent or legal guardian of the student to request his or her attendance at a student-teacher conference regarding the removal. Alternatives to suspension

LAWS

(1) Definitions. As used in this section, unless the context otherwise requires:

(a) "Action taken" means a specific type of discipline, including but not limited to the following categories of discipline:
   (I) In-school suspension;
   (II) Out-of-school suspension;
   (III) Classroom removal in accordance with board policy;
   (IV) Expulsion;
   (V) Referral to law enforcement; or
   (VI) Any other form of discipline, which shall be officially identified as part of a board policy.

(b) "Bullying" means any written or verbal expression, or physical or electronic act or gesture, or a pattern thereof, that is intended to coerce, intimidate, or cause any physical, mental, or emotional harm to any student. Bullying is prohibited against any student for any reason, including but not limited to any such behavior that is directed toward a student on the basis of his or her academic performance or against whom federal and state laws prohibit discrimination upon any of the bases described in section 22-32-109 (1) (II) (I). This definition is not intended to infringe upon any right guaranteed to any person by the first amendment to the United States constitution or to prevent the expression of any religious, political, or philosophical views.

(b.5) "Community partners" means, collectively, local fire departments, state and local law enforcement, local 911 agencies, interoperable communications providers, the safe2tell program described in section 24-31-606, C.R.S., local emergency medical service personnel, local mental health organizations, local public health agencies, local emergency management personnel, local or regional homeland security personnel, and school resource officers.

(2) Safe school plan. In order to provide a learning environment that is safe, conducive to the learning process, and free from unnecessary disruption, each school district board of education or institute charter school board for a charter school authorized by the charter school institute shall, following consultation
with the school district accountability committee and school accountability committees, parents, teachers, administrators, students, student councils where available, and, where appropriate, the community at large, adopt and implement a safe school plan, or review and revise, as necessary in response to any relevant data collected by the school district, any existing plans or policies already in effect. In addition to the aforementioned parties, each school district board of education, in adopting and implementing its safe school plan, may consult with victims' advocacy organizations, school psychologists, local law enforcement, and community partners. The plan, at a minimum, must include the following:

(a) Conduct and discipline code.

(II) In creating and enforcing a school conduct and discipline code pursuant to subparagraph (I) of this paragraph (a), each school district board of education, on and after August 1, 2013, shall:

(A) Impose proportionate disciplinary interventions and consequences, including but not limited to in-school suspensions, in response to student misconduct, which interventions and consequences are designed to reduce the number of expulsions, out-of-school suspensions, and referrals to law enforcement, except for such referrals to law enforcement as are required by state or federal law;

(B) Include plans for the appropriate use of prevention, intervention, restorative justice, peer mediation, counseling, or other approaches to address student misconduct, which approaches are designed to minimize student exposure to the criminal and juvenile justice system. The plans shall state that a school administration shall not order a victim's participation in a restorative justice practice or peer mediation if the alleged victim of an offending student's misconduct alleges that the misconduct constitutes unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S.; a crime in which the underlying factual basis involves domestic violence, as defined in section 18-6-800.3 (1), C.R.S.; stalking as defined in section 18-3-602, C.R.S.; or violation of a protection order, as defined in section 18-6-803.5, C.R.S.;

(C) Ensure that the implementation of the code complies with all state and federal laws concerning the education of students with disabilities, as defined in section 22-20-103 (5); and

(D) Ensure that, in implementing the code, each school of the school district shows due consideration of the impact of certain violations of the code upon victims of such violations, in accordance with the provisions of title IX of the United States Code and other state and federal laws.

22-33-105. Suspension, expulsion, and denial of admission.

(4) The board of education of each district shall establish, as an alternative to suspension, a policy that allows the pupil to remain in school by encouraging the parent, guardian, or legal custodian, with the consent of the pupil's teacher or teachers, to attend class with the pupil for a period of time specified by the suspending authority. If the parent, guardian, or legal custodian does not agree to attend class with the pupil or fails to attend class with the pupil, the pupil shall be suspended in accordance with the conduct and discipline code of the district.

The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school district to identify a student for participation in an expulsion-prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion proceeding.

Other in-school disciplinary approaches

LAWS

(1) The general assembly finds that:

(a) Research demonstrates that young children who are suspended or expelled from school are up to ten times more likely to experience academic failure and grade retention and to hold negative attitudes toward school than those children who are not suspended or expelled. Young children who are suspended or expelled from school are also more likely to drop out of high school and to be incarcerated later in life.

(b) Lack of training to deal with behavioral issues in the classroom contributes to education dissatisfaction and burnout, which increases the number of educators who leave the profession. Providing additional training and support in dealing with student discipline issues may help school districts and schools retain experienced educators.

(c) To reduce the incidence of exclusionary discipline among students, especially those enrolled in preschool through third grade, teachers and administrators should receive training and support in using culturally responsive methods of discipline with young students and in implementing developmentally appropriate responses to the behavioral issues of young students.

(2) As used in this section, unless the context otherwise requires:

(a) "Board of cooperative services" means a regional educational service unit created pursuant to article 5 of this title 22.

(b) "Charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22 or a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.
(c) "Culturally responsive methods" means methods that use the cultural knowledge, experiences, social and emotional learning needs, and performance styles of diverse students to ensure that classroom management strategies and research-based alternatives to exclusionary discipline are appropriate and effective for students.

(d) "Exclusionary discipline methods" means in-school suspension, out-of-school suspension, expulsion, school-based arrests, school-based referrals to the juvenile justice system, and voluntary or involuntary placement in an alternative education program.

(e) "Pilot program" means the discipline strategies pilot program created in subsection (3) of this section.

(3) (a) There is created in the department the discipline strategies pilot program to provide money to school districts, groups of school districts, boards of cooperative services, and charter schools for professional development for teachers and principals concerning the use of culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade, including students with disabilities. The intent of the pilot program is to provide professional development for educators to assist them in reducing the use of exclusionary discipline methods in public schools, especially with regard to students enrolled in preschool through third grade and students with disabilities. The department is required to implement the pilot program only to the extent that it receives sufficient money through gifts, grants, and donations as provided in subsection (7) of this section.

(b) The state board shall promulgate rules as provided in the "State Administrative Procedure Act", article 4 of title 24, as necessary, to implement the pilot program.

(4) A school district, group of school districts, board of cooperative services, or charter school may apply to the department to receive a grant through the pilot program. An application must include:

(a) The number of teachers and principals to whom the applicant will provide professional development in using culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade and the number and grade levels of students served by those teachers and principals;

(b) The professional development programs that the applicant expects to provide with the grant money;

(c) The other resources available to the applicant to provide the professional development;

(d) The aggregate number and type of disciplinary incidents occurring in preschool, kindergarten, and grades one through three in the schools operated by the applicant in the preceding three school years and the types of disciplinary responses and strategies used;

(e) The applicant's agreement to provide to the department the information necessary for the department to create the report described in subsection (6) of this section for each school year in which the applicant receives a grant; and

(f) Any additional information required by rule of the state board.

(5) The department shall review the applications received pursuant to subsection (4) of this section and recommend to the state board which applicants should receive grants through the pilot program and the amount of each grant. The state board, taking into consideration the department's recommendations, shall award the grants, subject to available funding. In making recommendations and awarding grants, the department and the state board shall, to the extent practicable, award a grant to at least one school district, board of cooperative services, or charter school located in a rural area and shall consider:

(a) The level of financial need that an applicant demonstrates;
(b) The quality of the professional development grant programs that the applicant expects to provide with the grant money;

c) The student demographics of the schools operated by the applicant and the use of exclusionary discipline methods in the preceding three school years by educators employed by the applicant; and

d) Any additional criteria adopted by rule of the state board.

(6) (a) For each school year in which the state board awards grants through the pilot program, the department shall prepare a report concerning implementation of the pilot program. At a minimum, the report must include:

(1) The number of school districts, boards of cooperative services, and charter schools that received grants through the pilot program and the amount of each grant;

(2) The types of professional development that grant recipients provided to teachers and principals;

(3) For the schools operated by the grant recipients, a comparison of the following strategies, policies, or data before and after educators participated in the professional development programming provided with the grant money:

   (A) Disciplinary strategies or policies;

   (B) For preschool, kindergarten, and grades one through three, the aggregate number and types of disciplinary incidents, aggregate information concerning the types of disciplinary responses to incidents, and aggregate information concerning the changes in disciplinary responses used before and after the training;

   (C) Attendance and truancy rates; and

   (D) Indicators of teacher satisfaction; and

   (IV) Any other nonpersonally identifying data requested by the department that indicates whether the pilot program is successful in reducing the use of exclusionary discipline methods in public schools.

(b) By April 15, 2018, and by April 15 each year thereafter, the department shall submit the report to the state board, the joint budget committee, and the education committees of the house of representatives and the senate, or any successor committees.

(7) The pilot program is not eligible to receive state appropriations and must be funded solely through gifts, grants, or donations. The department may accept and expend gifts, grants, or donations from private or public sources for the purposes of the pilot program. Notwithstanding any provision of this section to the contrary, the department and the state board are not required to implement the pilot program, including promulgating rules and preparing the report described in subsection (6) of this section, in a budget year if the department does not receive at least three hundred thousand dollars in gifts, grants, or donations for the pilot program for that budget year.

(8) This section is repealed, effective July 1, 2020.

(IV) Expulsion;

(2) Safe school plan. [...] The plan, at a minimum, shall include the following:

(a) Conduct and discipline code.

(I) A concisely written conduct and discipline code that shall be enforced uniformly, fairly, and consistently for all students. Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:

(C) Provisions for the initiation of suspension or expulsion proceedings for students who qualify as habitually disruptive students;

(E) General policies and procedures for determining the circumstances under and the manner in which disciplinary actions, including suspension and expulsion, shall be imposed in accordance with the provisions of sections 22-33-105 and 22-33-106;

22-33-105. Suspension, expulsion, and denial of admission.

(5) (a) Whenever a petition filed in juvenile court alleges that a child at least twelve years of age but under eighteen years of age has committed an offense that would constitute unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S., or a crime of violence, as defined in section 18-1.3-406, C.R.S., if committed by an adult or whenever charges filed in district court allege that a child has committed such an offense, basic identification information concerning such child and the details of the alleged delinquent act or offense shall be provided immediately to the school district in which the child is enrolled in accordance with the provisions of section 19-1-304 (5), C.R.S. Upon receipt of such information, the board of education of the school district or its designee shall determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or of school personnel in the school and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The determination may be made in executive session to the extent allowed by section 24-6-402 (4) (h), C.R.S. If the board of education or its designee, in accordance with the provisions of this subsection (5), makes a determination that the student should not be educated in the school, it may proceed with suspension or expulsion in accordance with subsection (2)
Alternatively, the board of education or its designee may determine that it will wait until the conclusion of the juvenile proceedings to consider the expulsion matter, in which case it shall be the responsibility of the district to provide the student with an appropriate alternate education program, including but not limited to an on-line program or on-line school authorized pursuant to article 30.7 of this title, or a home-based education program during the period pending the resolution of the juvenile proceedings. Information made available to the school district and not otherwise available to the public pursuant to the provisions of section 19-1-304, C.R.S., shall remain confidential.

(b) No student who is being educated in an alternate education program or a home-based education program pursuant to paragraph (a) of this subsection (5) shall be allowed to return to the education program in the public school until there has been a disposition of the charge. If the student pleads guilty, is found guilty, or is adjudicated a delinquent juvenile, the school district may proceed in accordance with section 22-33-106 to expel the student. The time that a student spends in an alternate education program pursuant to paragraph (a) of this subsection (5) shall not be considered a period of expulsion.

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(1) The following may be grounds for suspension or expulsion of a child from a public school during a school year:

(a) Continued willful disobedience or open and persistent defiance of proper authority;

(b) Willful destruction or defacing of school property;

(c) Behavior on or off school property that is detrimental to the welfare or safety of other pupils or of school personnel, including behavior that creates a threat of physical harm to the child or to other children;

(I) Possession of a dangerous weapon without the authorization of the school or the school district;

(II) The use, possession, or sale of a drug or controlled substance as defined in section 18-18-102 (5), C.R.S.; or

(e) Repeated interference with a school's ability to provide educational opportunities to other students.

(f) Carrying, using, actively displaying, or threatening with the use of a firearm facsimile that could reasonably be mistaken for an actual firearm in a school building or in or on school property.

(g) Pursuant to section 22-12-105 (3), making a false accusation of criminal activity against an employee of an educational entity to law enforcement authorities or school district officials or personnel.

(3) The following may constitute additional grounds for denial of admission to a public school:

(IV) Expulsion;

(3) Agreements with state agencies. Each board of education shall cooperate and, to the extent possible, develop written agreements with law enforcement, the juvenile justice system, and social services, as allowed under state and federal law, to keep each school environment safe. Each board of education shall adopt a policy whereby procedures will be used following instances of assault upon, disorderly conduct toward, harassment of, the making knowingly of a false allegation of child abuse against, or any alleged offense under the "Colorado Criminal Code" directed toward a school teacher or school employee or instances of damage occurring on the premises to the personal property of a school teacher or school employee by a student. Such procedures shall include, at a minimum, the following provisions:

(b) The school administration shall, after receipt of such report and proof deemed adequate to the school administration, suspend the student for three days, such suspension to be in accordance with the procedures established therefor, and shall initiate procedures for the further suspension or expulsion of the student where injury or property damage has occurred.

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(1.5) Notwithstanding any other provision of law, in accordance with the provisions of 20 U.S.C. sec. 7151, a student who is determined to have brought a firearm to a school, or to have possessed a firearm at a school, shall be expelled for a period of not less than one year; except that the superintendent of the student's school district may modify this requirement for a student on a case-by-case basis if such modification is in writing.

(1) Upon adjudication or conviction of a person under the age of eighteen years for an offense specified in section 22-33-106 (1) (d), the adjudicating juvenile court or the convicting district court, whichever is applicable, shall notify the school district in which the person is enrolled that the person is subject to mandatory expulsion based on the adjudication or conviction.

(1) No child who has attained the age of six years and is under the age of twenty-one shall be suspended or expelled from or be denied admission to the public schools, except as provided by this article.
(3)(d) The suspending authority shall:
   (II) Not extend a period of suspension because of the failure of the suspending authority to meet with the parent, guardian, or legal custodian during the period of suspension;

22-33-106. Grounds for suspension, expulsion, and denial of admission.
(1) The following may be grounds for suspension or expulsion of a child from a public school during a school year:
   (c) Behavior on or off school property that is detrimental to the welfare or safety of other pupils or of school personnel, including behavior that creates a threat of physical harm to the child or to other children; except that, if the child who creates the threat is a child with a disability pursuant to section 22-20-103 (5), the child may not be expelled if the actions creating the threat are a manifestation of the child's disability. However, the child shall be removed from the classroom to an appropriate alternative setting within the district in which the child is enrolled for a length of time that is consistent with federal law, during which time the school in which the student is enrolled shall give priority to and arrange within ten days for a reexamination of the child's individualized education program to amend his or her program as necessary to ensure that the needs of the child are addressed in a more appropriate manner or setting that is less disruptive to other students and is in accordance with the provisions of article 20 of this title. Nothing in this paragraph (c) shall be construed to limit a school district's authority to suspend a child with a disability for a length of time that is consistent with federal law.
   (1.2) Each school district is encouraged to consider each of the following factors before suspending or expelling a student pursuant to a provision of subsection (1) of this section:
      (a) The age of the student;
      (b) The disciplinary history of the student;
      (c) Whether the student has a disability;
      (d) The seriousness of the violation committed by the student;
      (e) Whether the violation committed by the student threatened the safety of any student or staff member; and
      (f) Whether a lesser intervention would properly address the violation committed by the student.

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.
22-33-204.5. Legislative declaration
The general assembly finds that a student who is placed in a residential child care facility or other facility licensed by the department of human services or in a hospital or who is receiving educational services through a day treatment center is, in most cases, dealing with significant behavioral and emotional issues. These issues make it difficult, if not impossible, for the student to function within a regular school and often severely impact the student's ability to participate in a facility school. The general assembly further finds that, although a student who is placed in a facility cannot be expelled due to the nature of the placement, the student is at risk of being unable to prosper academically and should be considered an at-risk student for purposes of section 22-33-205.

(c) Deny admission to, or expel for any period not extending beyond one year, any child whom the board of education, in accordance with the limitations imposed by this article, shall determine does not qualify for admission to, or continued attendance at, the public schools of the district. A board of education may delegate such powers to its executive officer or to a designee who shall serve as a hearing officer. If the hearing is conducted by a designee acting as a hearing officer, the hearing officer shall forward findings of fact and recommendations to the executive officer at the conclusion of the hearing. The executive officer shall render a written opinion within five days after a hearing conducted
by the executive officer or by a hearing officer. The executive officer shall report on each case acted upon at the next meeting of the board of education, briefly describing the circumstances and the reasons for the executive officer's action. A child who is denied admission or expelled as an outcome of the hearing shall have ten days after the denial of admission or expulsion to appeal the decision of the executive officer to the board of education, after which time the decision to grant or deny the appeal shall be at the discretion of the board of education. The appeal shall consist of a review of the facts that were presented and that were determined at the hearing conducted by the executive officer or by a designee acting as a hearing officer, arguments relating to the decision, and questions of clarification from the board of education. No board of education shall deny admission to, or expel, any child without a hearing, if one is requested by the parent, guardian, or legal custodian of the child, at which evidence may be presented in the child's behalf. If the child is denied admission or expelled, the child shall be entitled to a review of the decision of the board of education in accordance with section 22-33-108.

(3) (c) A pupil suspended for a period of ten days or less shall receive an informal hearing by the school principal or the principal's designee prior to the pupil's removal from school, unless an emergency requires immediate removal from school, in which case an informal hearing shall follow as soon after the pupil's removal as practicable. Any pupil suspended for more than ten days shall be given the opportunity to request a review of the suspension before an appropriate official of the school district.

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(4) (a) Except as provided in paragraph (b) of this subsection (4), a school district shall prohibit any student who is expelled from a public school of the school district pursuant to paragraph (c) or (d) of subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed. If the school district has no actual knowledge of the name of the victim of the offense for which the student was expelled, the provisions of this subsection (4) shall be implemented only upon request of the victim or a member of the victim's immediate family.

(2) If a child or his parent desires court review of an order of the board of education issued pursuant to this article, he shall notify the board in writing within five days after receiving official notification of the board's action. The board of education shall thereupon issue, or cause to be issued, to the child or his parent a statement of the reasons for the board's action. Within ten days thereafter the child or his parents may file with the court a petition requesting that the order of the board of education be set aside, to which shall be appended the statement of the board of education. No docket or other fees shall be collected by the court in connection with this proceeding.

(3) After the petition is filed, the court shall notify the board and shall hold a hearing on the matter. The court shall conduct judicial review of a hearing decision pursuant to rule 106 (a) (4) of the Colorado rules of civil procedure and rule 3.8 of the Colorado rules of juvenile procedure.

(4) It is the duty of the attorney for the school district, an employee authorized by the local board of education pursuant to section 13-1-127 (7), C.R.S., to represent the school district in truancy proceedings, the attendance officer designated by the local board of education, or the local board of education to initiate, when appropriate, proceedings for the enforcement of the compulsory attendance provisions of this article upon request by the attendance officer of the district or of the state.

(5) (a) It is the intent of the general assembly that, in enforcing the compulsory school attendance requirements of this article, a school district shall employ best practices and research-based strategies to minimize the need for court action and the risk that a court will issue detention orders against a child or parent.
(b) A school district shall initiate court proceedings to compel a child and the child's parent to comply with the attendance requirements specified in this article but only as a last-resort approach to address the child's truancy and only if a child continues to be habitually truant after school or school district personnel have created and implemented a plan pursuant to section 22-33-107 (3) to improve the child's school attendance.

(c) Before initiating court proceedings to compel compliance with the attendance requirements specified in this article, the school district shall give the child and the child's parent written notice that the school district will initiate proceedings if the child does not comply with the attendance requirements of this article. The school district may combine the notice and summons. If combined, the petition must state the date on which the school district will initiate proceedings which date must not be less than five days after the date of the notice and summons. The notice must state the provisions of this article with which compliance is required and must state that the school district will not initiate proceedings if the child complies with the identified provisions before the proceedings are filed.

(d) If a school district initiates court proceedings pursuant to this subsection (5), the school district, at a minimum, must submit to the court evidence of:

(I) The child's attendance record prior to and after the point at which the child was identified as habitually truant;

(II) Whether the child was identified as chronically absent and, if so, the strategies the school district used to improve the child's attendance;

(III) The interventions and strategies used to improve the child's attendance before school or school district personnel created the child's plan described in section 22-33-107 (3); and

(IV) The child's plan and the efforts of the child, the child's parent, and school or school district personnel to implement the plan.

(6) The court before which a proceeding to compel attendance is brought may issue, in its discretion, an order against the child or the child's parent or both compelling the child to attend school as provided by this article or compelling the parent to take reasonable steps to assure the child's attendance. The order must require the child and parent to cooperate with the school district in complying with the plan created for the child pursuant to section 22-33-107 (3).

(7) (a) If the child does not comply with the valid court order issued against the child or against both the parent and the child, the court may order that an assessment for neglect as described in section 19-3-102 (1), C.R.S., be conducted as provided in section 19-3-501, C.R.S. In addition, the court may order the child to show cause why he or she should not be held in contempt of court.

(b) The court may impose sanctions after a finding of contempt that may include, but need not be limited to, community service to be performed by the child, supervised activities, participation in services for at-risk students, as described by section 22-33-204, and other activities having goals that shall ensure that the child has an opportunity to obtain a quality education.

(c) If the court finds that the child has refused to comply with the plan created for the child pursuant to section 22-33-107 (3), the court may impose on the child as a sanction for contempt of court a sentence of detention for no more than five days in a juvenile detention facility operated by or under contract with the department of human services pursuant to section 19-2-402, C.R.S., and any rules promulgated by the Colorado supreme court.

(8) If the parent refuses or neglects to obey the order issued against the parent or against both the parent and the child, the court may order the parent to show cause why he or she should not be held in contempt of court, and, if the parent fails to show cause, the court may impose a fine of up to but not more than twenty-five dollars per day or confine the parent in the county jail until the order is complied with.

LAWS

(1) Definitions. As used in this section, unless the context otherwise requires:

(a) "Action taken" means a specific type of discipline, including but not limited to the following categories of discipline:

(I) In-school suspension;

(2) Safe school plan. [...] The plan, at a minimum, shall include the following:

(a) Conduct and discipline code.

(II) In creating and enforcing a school conduct and discipline code pursuant to subparagraph (I) of this paragraph (a), each school district board of education, on and after August 1, 2013, shall:

(A) Impose proportionate disciplinary interventions and consequences, including but not limited to in-school suspensions, in response to student misconduct, which interventions and consequences are designed to reduce the number of expulsions, out-of-school suspensions, and referrals to law enforcement, except for such referrals to law enforcement as are required by state or federal law;

22-33-105. Suspension, expulsion, and denial of admission.

(4) The board of education of each district shall establish, as an alternative to suspension, a policy that allows the pupil to remain in school by encouraging the parent, guardian, or legal custodian, with the consent of the pupil's teacher or teachers, to attend class with the pupil for a period of time specified by the suspending authority. LAWS

22-33-105. Suspension, expulsion, and denial of admission.

(3) (b) Except as provided in paragraph (c) of this subsection (3), a suspended pupil shall:

(II) Not be readmitted to a public school until a meeting between the parent, guardian, or legal custodian and the suspending authority has taken place or until, in the discretion of the suspending authority, the parent, guardian, or legal custodian of the suspended pupil has substantially agreed to review the suspension with such suspending authority; except that, if the suspending authority cannot contact the parent, guardian, or legal custodian of such pupil or if such parent, guardian, or legal custodian repeatedly fails to appear for scheduled meetings, the suspending authority may readmit
the pupil. The meeting shall address whether there is a need to develop a remedial discipline plan for the pupil in an effort to prevent further disciplinary action.

(d) The suspending authority shall:

(III) Provide an opportunity for a pupil to make up school work during the period of suspension for full or partial academic credit to the extent possible. The intent of this provision is to provide an opportunity for the pupil to reintegrate into the educational program of the district and to help prevent the pupil from dropping out of school because of an inability to reintegrate into the educational program following the period of suspension. The school district should take this intent into consideration when determining the amount of credit a student will receive for this makeup work.

(5) (b) No student who is being educated in an alternate education program or a home-based education program pursuant to paragraph (a) of this subsection (5) shall be allowed to return to the education program in the public school until there has been a disposition of the charge. If the student pleads guilty, is found guilty, or is adjudicated a delinquent juvenile, the school district may proceed in accordance with section 22-33-106 to expel the student. The time that a student spends in an alternate education program pursuant to paragraph (a) of this subsection (5) shall not be considered a period of expulsion.

22-33-106. Grounds for suspension, expulsion, and denial of admission.

(3) The following may constitute additional grounds for denial of admission to a public school:

(c) Having been expelled from any school district during the preceding twelve months;

(e) Failure to comply with the provisions of part 9 of article 4 of title 25, C.R.S. Any suspension, expulsion, or denial of admission for such failure to comply shall not be recorded as a disciplinary action but may be recorded with the student's immunization record with an appropriate explanation.

(f) Behavior in another school district during the preceding twelve months that is detrimental to the welfare or safety of other pupils or of school personnel.

(4) (a) Except as provided in paragraph (b) of this subsection (4), a school district shall prohibit any student who is expelled from a public school of the school district pursuant to paragraph (c) or (d) of subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed. If the school district has no actual knowledge of the name of the victim of the offense for which the student was expelled, the provisions of this subsection (4) shall be implemented only upon request of the victim or a member of the victim's immediate family.

(b) In any school district that has only one school in which the expelled student can enroll, the school district shall either:

(I) Prohibit the student expelled from the school district pursuant to paragraph (c) or (d) of subsection (1) of this section or pursuant to subsection (1.5) of this section from enrolling or reenrolling in the same school in which the victim of the offense or member of a victim's immediate family is enrolled or employed; or

(I) A qualified mental health professional, or, if such professional is not available, the facility director or his or her designee, determines that referral of the youth in seclusion to a mental health facility is not warranted; and
(II) The director of the division of youth corrections, or his or her designee, approves at or before the conclusion of four hours, and every hour thereafter, the continued use of seclusion.

c) A youth may not be held in seclusion under any circumstances for more than eight total hours in two consecutive calendar days without a written court order.

(3) Notwithstanding any other provision of this section, the division of youth corrections may place a youth alone in a room or area from which egress is involuntarily prevented if such confinement is part of a routine practice that is applicable to substantial portions of the population. Such confinement must be imposed only for the completion of administrative tasks and should last no longer than necessary to achieve the task safely and effectively.

LAWS

22-33-105. Suspension, expulsion, and denial of admission.
(5) (a) Whenever a petition filed in juvenile court alleges that a child at least twelve years of age but under eighteen years of age has committed an offense that would constitute unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S., or a crime of violence, as defined in section 18-1.3-406, C.R.S., if committed by an adult or whenever charges filed in district court allege that a child has committed such an offense, basic identification information concerning such child and the details of the alleged delinquent act or offense shall be provided immediately to the school district in which the child is enrolled in accordance with the provisions of section 19-1-304 (5), C.R.S. Upon receipt of such information, the board of education of the school district or its designee shall determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or of school personnel in the school and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The determination may be made in executive session to the extent allowed by section 24-6-402 (4) (h), C.R.S. If the board of education or its designee, in accordance with the provisions of this subsection (5), makes a determination that the student should not be educated in the school, it may proceed with suspension or expulsion in accordance with subsection (2) of this section and section 22-33-106. Alternatively, the board of education or its designee may determine that it will wait until the conclusion of the juvenile proceedings to consider the expulsion matter, in which case it shall be the responsibility of the district to provide the student with an appropriate alternate education program, including but not limited to an on-line program or on-line school authorized pursuant to article 30.7 of this title, or a home-based education program during the period pending the resolution of the juvenile proceedings. Information made available to the school district and not otherwise available to the public pursuant to the provisions of section 19-1-304, C.R.S., shall remain confidential.

(b) No student who is being educated in an alternate education program or a home-based education program pursuant to paragraph (a) of this subsection (5) shall be allowed to return to the education program in the public school until there has been a disposition of the charge. If the student pleads guilty, is found guilty, or is adjudicated a delinquent juvenile, the school district may proceed in accordance with section 22-33-106 to expel the student. The time that a student spends in an alternate education program pursuant to paragraph (a) of this subsection (5) shall not be considered a period of expulsion.

22-33-203. Educational alternatives for expelled students.
(1) Upon expelling a student, the school district shall provide information to the student's parent or guardian concerning the educational alternatives available to the student during the period of expulsion. If the parent or guardian chooses to provide a home-based educational program for the student, the school district shall assist the parent in obtaining appropriate curricula for the student if requested by the parent or guardian.

(2) (a) Except as otherwise provided in paragraph (b) of this subsection (2), upon request of a student or the student's parent or guardian, the school district shall provide, for any student who is expelled from the school district, any educational services that are deemed appropriate for the student by the school district. The educational services provided must be designed to enable the student to return to the school in which he or she was enrolled prior to expulsion, to successfully complete the high school equivalency examination, or to enroll in a nonpublic, nonparochial school or in an alternative school, including but not limited to a charter school or a pilot school established pursuant to article 38 of this title. The expelling
school district shall determine the amount of credit the student must receive toward graduation for the educational services provided pursuant to this section.

(b) The educational services provided pursuant to this section are designed to provide a second chance for the student to succeed in achieving an education. While receiving educational services, a student may be suspended or expelled pursuant to the conduct and discipline code of the school district providing the educational services and the provisions of part 1 of this article. Except as required by federal law, the expelling school district is not required to provide educational services to any student who is suspended or expelled while receiving educational services pursuant to this section until the period of the suspension or expulsion is completed.

(c) (I) Educational services provided pursuant to this section shall be provided by the expelling school district; except that the expelling school district may provide educational services either directly or in cooperation with one or more other school districts, boards of cooperative services, charter schools, nonpublic, nonparochial schools, or pilot schools established pursuant to article 38 of this title under contract with the expelling school district. Any program of educational services provided by a nonpublic, nonparochial school shall be subject to approval by the state board of education pursuant to section 22-2-107.

(II) Educational services may be provided by the school district through agreements entered into pursuant to section 22-33-204. The expelling school district need not provide the educational services on school district property. Any expelled student receiving educational services shall be included in the expelling school district's pupil enrollment as defined in section 22-54-103 (10).

d) If an expelled student is receiving educational services delivered by a school district other than the expelling school district, by a charter school in a school district other than the expelling school district, by a board of cooperative services, by a nonpublic, nonparochial school, or by a pilot school pursuant to an agreement entered into pursuant to subparagraph (I) of paragraph (c) of this subsection (2), the expelling school district shall transfer ninety-five percent of the district per pupil revenues, as defined in section 22-30.5-112 (2) (a.5) (II) to the school district, charter school, nonpublic, nonparochial school, board of cooperative services, or pilot school that is providing educational services, reduced in proportion to the amount of time remaining in the school year at the time the student begins receiving educational services.

(e) Any school district, charter school, nonpublic, nonparochial school, board of cooperative services, or pilot school that is providing educational services to expelled students pursuant to this subsection (2) may apply for moneys through the expelled student services grant program established in section 22-33-205 to assist in providing educational services.

(3) If a student is expelled and the student is not receiving educational services pursuant to this section, the school district shall contact the expelled student's parent or guardian at least once every sixty days until the beginning of the next school year to determine whether the student is receiving educational services from some other source; except that the school district need not contact a student's parent or guardian after the student is enrolled in another school district or in an independent or parochial school or if the student is committed to the department of human services or is sentenced pursuant to article 2 of title 19, C.R.S.

(4) In addition to the educational services required under this section, a student who is at risk of suspension or expulsion or has been suspended or expelled, or the student's parent or guardian, may request any of the services provided by the school district through an agreement entered into pursuant to section 22-33-204, and the school district may provide such services.

22-33-104. Compulsory school attendance.
(4) (b.5) Each board of education is encouraged to establish attendance procedures for identifying students who are chronically absent and to implement best practices and research-based strategies to improve the attendance of students who are chronically absent.

22-33-106. Grounds for suspension, expulsion, and denial of admission.
(1) The following may be grounds for suspension or expulsion of a child from a public school during a school year:

(c.5) (I) Declaration as a habitually disruptive student.

(II) For purposes of this paragraph (c.5), "habitually disruptive student" means a child who has caused a material and substantial disruption on school grounds, in a school vehicle, or at a school activity or sanctioned event three or more times during the course of a school year. Any student who is enrolled in a public school may be subject to being declared a habitually disruptive student.

(III) The student and the parent, legal guardian, or legal custodian shall have been notified in writing of each disruption counted toward declaring the student as habitually disruptive pursuant to this paragraph (c.5) and the student and parent, legal guardian, or legal custodian shall have been notified in writing and by telephone or other means at the home or the place of employment of the parent or legal guardian of the definition of "habitually disruptive student".

(3) (a) As used in this subsection (3), a child who is "habitually truant" means a child who has attained the age of six years on or before August 1 of the year in question and is under the age of seventeen years having four unexcused absences from public school in any one month or ten unexcused absences from public school during any school year. Absences due to suspension or expulsion of a child shall be considered excused absences for purposes of this subsection (3).

(b) The board of education of each school district shall adopt and implement policies and procedures concerning elementary and secondary school attendance, including but not limited to policies and procedures to work with children who are habitually truant. The policies and procedures must include provisions for the development of a plan. The plan must be developed with the goal of assisting the child to remain in school and, when practicable, with the full participation of the child's parent, guardian, or legal custodian. Appropriate school personnel shall make all reasonable efforts to meet with the parent, guardian, or legal custodian of the child to review and evaluate the reasons for the child's truancy. The appropriate school personnel are encouraged to work with the local community services group to develop the plan.

(1) Those courts having jurisdiction over juvenile matters in a judicial district shall have original jurisdiction over all matters arising out of the provisions of this article.

(1.5) (a) All proceedings brought under this article shall be commenced in the judicial district in which the child resides or is present.

(b) When proceedings commence under this article in a judicial district other than that of the child's residence or when the child changes his or her judicial district of residence after a proceeding under this article commences, the court in which proceedings commenced may, on its own motion or on the motion of any interested party, transfer the case to the court in the judicial district where the child resides.

(c) When a court transfers venue pursuant to paragraph (b) of this subsection (1.5), the court shall transmit all documents and reports, or certified copies thereof, to the receiving court, which court shall proceed with the case as if the petition had been originally filed in that court.

(2) If a child or his parent desires court review of an order of the board of education issued pursuant to this article, he shall notify the board in writing within five days after receiving official notification of the board's action. The board of education shall thereupon issue, or cause to be issued, to the child or his parent a statement of the reasons for the board's action. Within ten days thereafter the child or his parents may file with the court a petition requesting that the order of the board of education be set aside, to which shall be appended the statement of the board of education. No docket or other fees shall be collected by the court in connection with this proceeding.

(3) After the petition is filed, the court shall notify the board and shall hold a hearing on the matter. The court shall conduct judicial review of a hearing decision pursuant to rule 106 (a) (4) of the Colorado rules of civil procedure and rule 3.8 of the Colorado rules of juvenile procedure.

(4) It is the duty of the attorney for the school district, an employee authorized by the local board of education pursuant to section 13-1-127 (7), C.R.S., to represent the school district in truancy proceedings, the attendance officer designated by the local board of education, or the local board of education to initiate, when appropriate, proceedings for the enforcement of the compulsory attendance provisions of this article upon request by the attendance officer of the district or of the state.

(5) (a) It is the intent of the general assembly that, in enforcing the compulsory school attendance requirements of this article, a school district shall employ best practices and research-based strategies to
minimize the need for court action and the risk that a court will issue detention orders against a child or parent.

(b) A school district shall initiate court proceedings to compel a child and the child’s parent to comply with the attendance requirements specified in this article but only as a last-resort approach to address the child’s truancy and only if a child continues to be habitually truant after school or school district personnel have created and implemented a plan pursuant to section 22-33-107 (3) to improve the child’s school attendance.

(c) Before initiating court proceedings to compel compliance with the attendance requirements specified in this article, the school district shall give the child and the child’s parent written notice that the school district will initiate proceedings if the child does not comply with the attendance requirements of this article. The school district may combine the notice and summons. If combined, the petition must state the date on which the school district will initiate proceedings, which date must not be less than five days after the date of the notice and summons. The notice must state the provisions of this article with which compliance is required and must state that the school district will not initiate proceedings if the child complies with the identified provisions before the proceedings are filed.

(d) If a school district initiates court proceedings pursuant to this subsection (5), the school district, at a minimum, must submit to the court evidence of:

(I) The child’s attendance record prior to and after the point at which the child was identified as habitually truant;

(II) Whether the child was identified as chronically absent and, if so, the strategies the school district used to improve the child’s attendance;

(III) The interventions and strategies used to improve the child’s attendance before school or school district personnel created the child’s plan described in section 22-33-107 (3); and

(IV) The child’s plan and the efforts of the child, the child’s parent, and school or school district personnel to implement the plan.

(6) The court before which a proceeding to compel attendance is brought may issue, in its discretion, an order against the child or the child’s parent or both compelling the child to attend school as provided by this article or compelling the parent to take reasonable steps to assure the child’s attendance. The order must require the child and parent to cooperate with the school district in complying with the plan created for the child pursuant to section 22-33-107 (3).

(7) (a) If the child does not comply with the valid court order issued against the child or against both the parent and the child, the court may order that an assessment for neglect as described in section 19-3-102(1), C.R.S., be conducted as provided in section 19-3-501, C.R.S., in addition the court may order the child to show cause why he or she should not be held in contempt of court. The court may include as a sanction after a finding of contempt an appropriate treatment plan that may include, but need not be limited to, community service to be performed by the child, supervised activities, participation in services for at-risk students, as described by section 22-33-204, and other activities having goals that shall ensure that the child has an opportunity to obtain a quality education.

(b) The court may impose sanctions after a finding of contempt that may include, but need not be limited to, community service to be performed by the child, supervised activities, participation in services for at-risk students, as described by section 22-33-204, and other activities having goals that shall ensure that the child has an opportunity to obtain a quality education.

(c) If the court finds that the child has refused to comply with the plan created for the child pursuant to section 22-33-107 (3), the court may impose on the child as a sanction for contempt of court a sentence of detention for no more than five days in a juvenile detention facility operated by or under contract with
the department of human services pursuant to section 19-2-402, C.R.S., and any rules promulgated by the Colorado supreme court.

(8) If the parent refuses or neglects to obey the order issued against the parent or against both the parent and the child, the court may order the parent to show cause why he or she should not be held in contempt of court, and, if the parent fails to show cause, the court may impose a fine of up to but not more than twenty-five dollars per day or confine the parent in the county jail until the order is complied with.

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school district to identify a student for participation in an expulsion-prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion proceeding.

Attendance and truancy

LAWS

13-5-145. Truancy detention reduction policy - legislative declaration.
(1) The general assembly finds that:
   (a) Imposing a sentence of detention on a juvenile who violates a court order to attend school does not improve the likelihood that the juvenile will attend school and does not address the underlying causes of the juvenile's truancy;
   (b) The best methods to address truancy and its underlying causes and the resources needed to implement those methods are different in each community;
   (c) Since 2014, the juvenile courts in many judicial districts around the state have successfully reduced the use of detention for juveniles who are truant by implementing pilot projects through which the
juvenile court imposes reasonable sanctions and, where possible, provides incentives to attend school, reserving detention as a sanction of last resort; and
(d) These pilot projects need additional time to produce meaningful data regarding the effectiveness of the alternate sanctions and incentives and to determine whether they result in improved outcomes for juveniles and their families.

(2) The chief judge in each judicial district, or his or her designee, shall convene a meeting of community stakeholders to create a policy for addressing truancy cases that seeks alternatives to the use of detention as a sanction for truancy. Community stakeholders may include, but need not be limited to:
(a) Parents;
(b) Representatives from school districts;
(c) Representatives from county human services and social services departments;
(d) Guardians ad litem;
(e) Court-appointed special advocates;
(f) Juvenile court judges;
(g) Respondent counsel;
(h) Representatives from law enforcement agencies;
(i) Mental health care providers;
(j) Substance abuse treatment providers;
(k) Representatives from the division of criminal justice in the department of public safety;
(l) Representatives from the state department of human services; and
(m) Representatives from the department of education.

(3) The chief judge in each judicial district shall adopt a policy for addressing truancy cases no later than March 15, 2016. In developing the policy for addressing truancy cases, the chief judge and the community stakeholders shall consider, at a minimum:
(a) Best practices for addressing truancy that are used in other judicial districts and in other states;
(b) Evidence-based practices to address and reduce truancy;
(c) Using a wide array of reasonable sanctions and reasonable incentives to address and reduce truancy;
(d) Using detention only as a last resort after exhausting all other reasonable sanctions and, when imposing detention, appropriately reducing the number of days served; and
(e) Research regarding the effect of detention on juveniles.

(4) The state court administrator's office shall report to the judiciary committees of the House of Representatives and the Senate, or any successor committees, no later than April 15, 2016, regarding the policy for addressing truancy cases adopted by each judicial district.

22-33-104. Compulsory school attendance.
(1) (a) Except as otherwise provided in subsection (2) of this section, every child who has attained the age of six years on or before August 1 of each year and is under the age of seventeen years, except as provided by this section, shall attend public school for at least the following number of hours during each school year:
(I) One thousand fifty-six hours if a secondary school pupil;
(II) Nine hundred sixty-eight hours if an elementary school pupil in a grade other than kindergarten;
(III) Nine hundred hours if a full-day kindergarten pupil; or
(IV) Four hundred fifty hours if a half-day kindergarten pupil.

(4) (a) The board of education shall adopt a written policy setting forth the district's attendance requirements. Said policy shall provide for excused absences, including those listed as exclusions from compulsory school attendance in accordance with subsection (2) of this section. An attendance policy developed pursuant to this section may include appropriate penalties for nonattendance due to unexcused absence.

(b) The attendance policy adopted pursuant to this subsection (4) shall specify the maximum number of unexcused absences a child may incur before the attorney for the school district, the attendance officer, or the local board of education may initiate judicial proceedings pursuant to section 22-33-108. Calculation of the number of unexcused absences a child has incurred includes all unexcused absences occurring during any calendar year or during any school year.

(b.5) Each board of education is encouraged to establish attendance procedures for identifying students who are chronically absent and to implement best practices and research-based strategies to improve the attendance of students who are chronically absent.

(c) On or before January 1, 2009, the state board shall adopt rules establishing a standardized calculation for counting unexcused absences of students, including the circumstance in which a student is absent for part of a school day, and the format for reporting the information to the department pursuant to section 22-33-107.

(1) The board of education of each school district shall designate one or more of the employees of the district to act as attendance officer for the district. It is the attendance officer's duty in appropriate cases to counsel with students and parents and investigate the causes of nonattendance and report to the local board of education so as to enforce the provisions of this article which relate to compulsory attendance.

(2) The commissioner of education shall designate an employee of the department of education whose duty it is to assist the individual school districts and to supervise the enforcement of compulsory school attendance for the entire state.

(3) (a) As used in this subsection (3)

(I) “Child who is "habitually truant" means a child who has attained the age of six years on or before August 1 of the year in question and is under the age of seventeen years and who has four unexcused absences from public school in any one month or ten unexcused absences from public school during any school year. Absences due to suspension or expulsion of a child are considered excused absences for purposes of this subsection (3).

(II) “Local community services group” means the local juvenile services planning committee created pursuant to section 19-2-211, C.R.S, the local collaborative management group created by a memorandum of understanding entered pursuant to section 24-1.9-102, C.R.S., or another local group of public agencies that collaborate with the school district to identify and provide support services for students.

(b) The board of education of each school district shall adopt and implement policies and procedures concerning elementary and secondary school attendance, including but not limited to policies and procedures to work with children who are habitually truant. The policies and procedures must include provisions for the development of a plan. The plan must be developed with the goal of assisting the child to remain in school and, when practicable, with the full participation of the child's parent, guardian, or legal custodian. Appropriate school personnel shall make all reasonable efforts to meet with the parent, guardian, or legal custodian of the child to review and evaluate the reasons for the child's truancy. The appropriate school personnel are encouraged to work with the local community services
group to develop the plan. The policies and procedures may also include but need not be limited to the following:

(I) (Deleted by amendment, L. 96, p. 1808, § 4, effective July 1, 1996.)

(I.5) Procedures to monitor the attendance of each child enrolled in the school district to identify each child who has a significant number of unexcused absences and to work with the local community services group and the child's parent to identify and address the likely issues underlying the child's truancy including any nonacademic issues;

(II) Annually at the beginning of the school year and upon any enrollment during the school year, notifying the parent of each child enrolled in the public schools in writing of such parent's obligations pursuant to section 22-33-104 (5) and requesting that the parent acknowledge in writing awareness of such obligations;

(III) Annually at the beginning of the school year and upon any enrollment during the school year, obtaining from the parent of each child a telephone number or other means of contacting such parent during the school day; and

(IV) Establishing a system of monitoring individual unexcused absences of children which shall provide that, whenever a child who is enrolled in a public school fails to report to school on a regularly scheduled school day and school personnel have received no indication that the child's parent is aware of the child's absence, school personnel or volunteers under the direction of school personnel shall make a reasonable effort to notify by telephone such parent. Any person who, in good faith, gives or fails to give notice pursuant to this subparagraph (IV) shall be immune from any liability, civil or criminal, which might otherwise be incurred or imposed and shall have the same immunity with respect to any judicial proceeding which results from such notice or failure to give such notice.

(4) It is the duty of the attorney for the school district, an employee authorized by the local board of education pursuant to section 13-1-127 (7), C.R.S., to represent the school district in truancy proceedings, the attendance officer designated by the local board of education, or the local board of education to initiate, when appropriate, proceedings for the enforcement of the compulsory attendance provisions of this article upon request by the attendance officer of the district or of the state.

(5) (a) It is the intent of the general assembly that, in enforcing the compulsory school attendance requirements of this article, a school district shall employ best practices and research-based strategies to minimize the need for court action and the risk that a court will issue detention orders against a child or parent.

(b) A school district shall initiate court proceedings to compel a child and the child's parent to comply with the attendance requirements specified in this article but only as a last-resort approach to address the child's truancy and only if a child continues to be habitually truant after school or school district personnel have created and implemented a plan pursuant to section 22-33-107 (3) to improve the child's school attendance.

(c) Before initiating court proceedings to compel compliance with the attendance requirements specified in this article, the school district shall give the child and the child's parent written notice that the school district will initiate proceedings if the child does not comply with the attendance requirements of this article. The school district may combine the notice and summons. If combined, the petition shall state the date on which proceedings will be initiated, which date shall not be less than five days from the date of the notice and summons. The notice shall state the provisions of this article with which compliance is required and shall state that the proceedings will not be brought if the child complies with that provision before the filing of the proceeding.
(d) If a school district initiates court proceedings pursuant to this subsection (5), the school district, at a minimum, must submit to the court evidence of:

(I) The child's attendance record prior to and after the point at which the child was identified as habitually truant;

(II) Whether the child was identified as chronically absent and, if so, the strategies the school district used to improve the child's attendance;

(III) The interventions and strategies used to improve the child's attendance before school or school district personnel created the child's plan described in section 22-33-107 (3); and

(IV) The child's plan and the efforts of the child, the child's parent, and school or school district personnel to implement the plan.

(6) The court before which a proceeding to compel attendance is brought may issue, in its discretion, an order against the child or the child's parent or both compelling the child to attend school as provided by this article or compelling the parent to take reasonable steps to assure the child's attendance. The order must require the child and parent to cooperate with the school district in complying with the plan created for the child pursuant to section 22-33-107 (3).

(7) (a) If the child does not comply with the valid court order issued against the child or against both the parent and the child, the court may order that an assessment for neglect as described in Section 19-3-102(1), C.R.S., be conducted as provided in section 19-3-501, C.R.S. In addition, the court may order the child to show cause why he or she should not be held in contempt of court.

(b) The court may impose sanctions after a finding of contempt that may include, but need not be limited to, community service to be performed by the child, supervised activities, participation in services for at-risk students, as described by section 22-33-204, and other activities having goals that shall ensure that the child has an opportunity to obtain a quality education.

(b) If the court finds that the child has refused to comply with the plan created for the child pursuant to section 22-33-107 (3), the court may impose on the child as a sanction for contempt of court a sentence of detention for no more than five days in a juvenile detention facility operated by or under contract with the department of human services pursuant to section 19-2-402, C.R.S., and any rules promulgated by the Colorado supreme court.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school district to identify a student for participation in an expulsion-prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion proceeding.

LAWS  

18-9-124. Hazing - penalties - legislative declaration  
(1) (a) The general assembly finds that, while some forms of initiation constitute acceptable behavior, hazing sometimes degenerates into a dangerous form of intimidation and degradation. The general assembly also recognizes that although certain criminal statutes cover the more egregious hazing activities, other activities that may not be covered by existing criminal statutes may threaten the health of students or, if not stopped early enough, may escalate into serious injury.  
(b) In enacting this section, it is not the intent of the general assembly to change the penalty for any activity that is covered by any other criminal statute. It is rather the intent of the general assembly to define hazing activities not covered by any other criminal statute.  
(2) As used in this section, unless the context otherwise requires:  
(a) "Hazing" means any activity by which a person recklessly endangers the health or safety of or causes a risk of bodily injury to an individual for purposes of initiation or admission into or affiliation with any student organization; except that "hazing" does not include customary athletic events or other
similar contests or competitions, or authorized training activities conducted by members of the armed forces of the state of Colorado or the United States.

(b) “Hazing” includes but is not limited to:

(I) Forced and prolonged physical activity;

(II) Forced consumption of any food, beverage, medication or controlled substance, whether or not prescribed, in excess of the usual amounts for human consumption or forced consumption of any substance not generally intended for human consumption;

(III) Prolonged deprivation of sleep, food, or drink.

(3) It shall be unlawful for any person to engage in hazing.

(4) Any person who violates subsection (3) of this section commits a class 3 misdemeanor.

(1) Definitions. As used in this section, unless the context otherwise requires:

(b) “Bullying” means any written or verbal expression, or physical or electronic act or gesture, or a pattern thereof, that is intended to coerce, intimidate, or cause any physical, mental, or emotional harm to any student. Bullying is prohibited against any student for any reason, including but not limited to any such behavior that is directed toward a student on the basis of his or her academic performance or against whom federal and state laws prohibit discrimination upon any of the bases described in section 22-32-109 (1) (ll) (I). This definition is not intended to infringe upon any right guaranteed to any person by the first amendment to the United States constitution or to prevent the expression of any religious, political, or philosophical views.

(2) Safe school plan. In order to provide a learning environment that is safe, conducive to the learning process, and free from unnecessary disruption, each school district board of education or institute charter school board for a charter school authorized by the charter school institute shall, following consultation with the school district accountability committee and school accountability committees, parents, teachers, administrators, students, student councils where available, and, where appropriate, the community at large, adopt and implement a safe school plan, or review and revise, as necessary in response to any relevant data collected by the school district, any existing plans or policies already in effect. In addition to the aforementioned parties, each school district board of education, in adopting and implementing its safe school plan, may consult with victims’ advocacy organizations, school psychologists, local law enforcement, and community partners. The plan, at a minimum, must include the following:

(a) Conduct and discipline code.

(I) A concisely written conduct and discipline code that shall be enforced uniformly, fairly, and consistently for all students. Copies of the code shall be provided to each student upon enrollment at the elementary, middle, and high school levels and shall be posted or kept on file at each public school in the school district. The school district shall take reasonable measures to ensure that each student of each public school in the school district is familiar with the code. The code shall include, but need not be limited to:

(K) On and after August 8, 2001, a specific policy concerning bullying prevention and education. Each school district is encouraged to ensure that its policy, at a minimum, incorporates the biennial administration of surveys of students’ impressions of the severity of bullying in their schools, as described in section 22-93-104 (1) (c); character building; and the designation of a team of persons at each school of the school district who advise the school administration concerning the severity and frequency of bullying incidents that occur in the school, which team may include, but need not
be limited to, law enforcement officials, social workers, prosecutors, health professionals, mental health professionals, school psychologists, counselors, teachers, administrators, parents, and students. Each school district’s policy shall set forth appropriate disciplinary consequences for students who bully other students and for any person who takes any retaliatory action against a student who reports in good faith an incident of bullying, which consequences shall comply with all applicable state and federal laws.

(II) In creating and enforcing a school conduct and discipline code pursuant to subparagraph (I) of this paragraph (a), each school district board of education, on and after August 1, 2013, shall:

(B) Include plans for the appropriate use of prevention, intervention, restorative justice, peer mediation, counseling, or other approaches to address student misconduct, which approaches are designed to minimize student exposure to the criminal and juvenile justice system. The plans shall state that a school administration shall not order a victim’s participation in a restorative justice practice or peer mediation if the alleged victim of an offending student's misconduct alleges that the misconduct constitutes unlawful sexual behavior, as defined in section 16-22-102 (9), C.R.S.; a crime in which the underlying factual basis involves domestic violence, as defined in section 18-6-800.3 (1), C.R.S.; stalking as defined in section 18-3-602, C.R.S.; or violation of a protection order, as defined in section 18-6-803.5, C.R.S.;

(C) Ensure that the implementation of the code complies with all state and federal laws concerning the education of students with disabilities, as defined in section 22-20-103 (5); and

(D) Ensure that, in implementing the code, each school of the school district shows due consideration of the impact of certain violations of the code upon victims of such violations, in accordance with the provisions of title IX of the United States Code and other state and federal laws.

(b) Safe school reporting requirements. A policy whereby the principal of each public school in a school district is required to submit annually, in a manner and by a date specified by rule of the state board, a written report to the board of education of the school district concerning the learning environment in the school during that school year. The board of education of the school district shall annually compile the reports from every school in the district and submit the compiled report to the department of education in a format specified by rule of the state board. The compiled report must be easily accessible by the general public through a link on the department of education’s web site homepage. The report must include, but need not be limited to, the following specific information for the preceding school year:

(c) Internet safety plan.
(I) Each school district is encouraged to provide a comprehensive, age-appropriate curriculum that teaches safety in working and interacting on the internet in grades kindergarten through twelve. At a minimum, the curriculum may address the following topics:
(A) Interaction with persons in the cybercommunity;
(B) Personal safety in interacting with persons on the internet;

(II) Each school district is encouraged to structure the internet safety plan so as to incorporate the internet safety topics into the teaching of the regular classroom curricula, rather than isolating the topics as a separate class. Each school district is encouraged to use available internet safety curricula resources, including but not limited to materials available through nonprofit internet safety foundations that are endorsed by the federal government. Each school district is also encouraged to work with local law enforcement for the jurisdiction in which the school district is located in developing the internet safety curricula, especially with regard to topics that address personal safety on the internet, internet predator identification, privacy issues, and homeland security issues. Each school district is also encouraged to collaborate with parents and teachers in developing the internet safety curricula, including collaborating with district and statewide organizations that represent parents and teachers.
(III) Each school district is encouraged to begin implementing the internet safety plan with the 2005-06 school year and to annually review and, as necessary, revise the plan. Each school district is encouraged to identify a person who is responsible for overseeing implementation of the internet safety plan within each public school of the school district to ensure that each public school complies with the requirements of the plan.
(IV) If a school district chooses to adopt an internet safety plan and to identify a person who is responsible for overseeing implementation of the plan, the person is encouraged to annually submit an internet safety plan implementation report to the school district board of education specifying the level of implementation achieved by each public school of the school district and providing an overview of the internet safety curricula adopted and implemented in each public school of the school district. 22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204. The failure of the school district to identify a student for participation in an expulsion-prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures or used in any way as a defense in an expulsion proceeding.

(2) Each school district may provide educational services to students who are identified as at risk of suspension or expulsion from school. Any school district that provides educational services to students who are at risk of suspension or expulsion may apply for moneys through the expelled and at-risk student services grant program established in section 22-33-205 to assist in providing such educational services.
