(4.5) The restorative justice coordinating council may accept money from trainings and conferences and gifts, grants, or donations from any private or public source for the purpose of supporting restorative justice practices. All private and public money received by the restorative justice coordinating council from gifts, grants, or donations or any other source must be transmitted to the state treasurer, who shall credit
the same to the restorative justice surcharge fund created pursuant to section 18-25-101, in addition to any money that may be appropriated to the fund directly by the general assembly.

(1) The general assembly finds that:

(a) Research demonstrates that young children who are suspended or expelled from school are up to ten times more likely to experience academic failure and grade retention and to hold negative attitudes toward school than those children who are not suspended or expelled. Young children who are suspended or expelled from school are also more likely to drop out of high school and to be incarcerated later in life.

(b) Lack of training to deal with behavioral issues in the classroom contributes to education dissatisfaction and burnout, which increases the number of educators who leave the profession. Providing additional training and support in dealing with student discipline issues may help school districts and schools retain experienced educators.

(c) To reduce the incidence of exclusionary discipline among students, especially those enrolled in preschool through third grade, teachers and administrators should receive training and support in using culturally responsive methods of discipline with young students and in implementing developmentally appropriate responses to the behavioral issues of young students.

(2) As used in this section, unless the context otherwise requires:

The intent of the pilot program is to provide professional development for educators to assist them in reducing the use of exclusionary discipline methods in public schools, especially with regard to students enrolled in preschool through third grade and students with disabilities. The department is required to implement the pilot program only to the extent that it receives sufficient money through gifts, grants, and donations as provided in subsection (7) of this section.

The state board, taking into consideration the department's recommendations, shall award the grants, subject to available funding. In making recommendations and awarding grants, the department and the state board shall, to the extent practicable, award a grant to at least one school district, board of cooperative services, or charter school located in a rural area and shall consider:

(7) The pilot program is not eligible to receive state appropriations and must be funded solely through gifts, grants, or donations. The department may accept and expend gifts, grants, or donations from private or public sources for the purposes of the pilot program. Notwithstanding any provision of this section to the contrary, the department and the state board are not required to implement the pilot program, including promulgating rules and preparing the report described in subsection (6) of this section, in a budget year if the department does not receive at least three hundred thousand dollars in gifts, grants, or donations for the pilot program for that budget year.

The Office shall collaborate with other divisions within the Department to identify annually through the accreditation process, as defined in CCR 301-1 (Rules for the Administration of Statewide Accountability Measures), those local education providers (LEPs) that do not meet expectations for Graduation and Completion rates. Of those LEPs identified, those most in need of improvement and assistance shall be recognized as High Priority and those in significant need of improvement and assistance shall be recognized as Priority based on the following criteria:

(1) Identified LEPs with Graduation and Completion rates that are significantly below State averages or those that do not meet expectations for post secondary workforce readiness indicators, as defined pursuant to CCR 301-1 (Rules for the Administration of Statewide Accountability Measures), will be designated Priority.

(a) Identification shall consider size of pupil membership in determining designation of Priority.

(2) Identified LEPs will be designated High Priority if they meet the criteria for Priority and there is indication that they are most in need of improvements. Indicators shall be based on data highly correlated with the likelihood that students will dropout, including but not limited to dropout rates, truancy rates, suspension or expulsion rates that significantly above state averages. These rates are defined in section 5.00 of these rules.

(3) The designation of High Priority and Priority will be recognized and in effect for three consecutive fiscal years to allow time to complete the “practices assessment,” adopt Student Graduation and Completion Plan and review and evaluate plans as described in sections 3.02 and 3.05 in these rules. Based on the timeline listed in 3.01 (1) in these rules, the first group of High Priority LEPs will begin in fiscal year 2009-2010. The first group of Priority LEPs will begin in fiscal year 2010-2011. In subsequent years, the timeline will follow criteria described in section 3.07 of these rules.

(4) If after completion of the three-year period, a designated LEP meets its Graduation and Completion rate expectation(s), the LEP shall no longer be recognized as High Priority or Priority. If after completion of the three-year period, a designated LEP does not meet its Graduation and Completion rate expectation(s), the Department shall review continuation of the designation of High Priority or Priority in collaboration with other divisions within the Department and may require an update of the LEP’s “practices assessment” and a revision and further evaluation of the LEP’s Student Graduation and

1 CCR 301-84.5.00. Defining and calculating rates.

In evaluating the following rates, the intent is to ensure incentives for re-engaging students and ensuring that students successfully achieve statewide academic standards upon Graduation, as defined and calculated in CCR-301-1 (Rules for the Administration of Statewide Accountability Measures).

5.01 The Student Dropout Rate: The annual student dropout rate will be calculated based on the percentage of students in grades seven through twelve who drop out of school in a given year between July 1 and June 30 and have not returned to an educational environment on or before the end of the school year or June 30 as defined and calculated in CCR 301-1 (Rules for the Administration of Statewide Accountability Measures).

5.02 The Graduation Rate: The student graduation rate will be based on the calculations defined and calculated pursuant to CCR 301-1 (Rules for the Administration of Statewide Accountability Measures), or as otherwise required by the Elementary and Secondary Education Act of 1965.

5.03 The Completion Rate: The high school completion rate is the percentage of students from an end of year eighth grade cohort adjusted for verified transfers in and out with adequate documentation, who leave school as graduates or completers as defined by the District as defined and calculated in CCR 301 1 (Rules for the Administration of Statewide Accountability Measures).

5.04 The Student Re-engagement Rate: The Student Re-engagement rate is based on the percent of students who dropped out in the prior year (PY) and re-enrolled in their home school/district in the following year and the percent who dropped out and were retrieved anywhere in the state in the following year. The pairing of these percentages provides information to assist in analyzing the cost-benefit of Student Re-Engagement and recognizes the levels of re-engaging students who have dropped out.

   (1) Calculation of percentages based on retrieved into same school or district:
   
   (a) School rate based on re-enrolled: Number of PY dropouts who are retrieved into same school the following year/Number of PY dropouts

   (b) District rate based on re-enrolled: Number of PY dropouts who are retrieved into same district the following year/Number of PY dropouts

   (c) State rate based on re-enrolled: Sum of PY dropouts who were retrieved into the same district the following year / Sum of PY dropouts from all districts

   (2) Calculation of percentages based on retrieved anywhere in the state:

   (a) School rate based on retrieved: Number of PY dropouts who are retrieved anywhere in the state the following year /Number of PY dropouts

   (b) District rate based on retrieved: Number of PY dropouts who are retrieved anywhere in the state the following year /Number of PY dropouts

   (c) State rate based on retrieved: Sum of all PY dropouts retrieved anywhere in the state the following year / Sum of all PY dropouts from all districts

5.05 The Truancy Rate: Truancy rates measure the number of unexcused absences from Public School and number of habitually truant students. They will include two calculations to determine the rate of unexcused absences and habitually truant student rate as defined in CCR 301.78 (Rules Concerning the Standardized Calculation for Counting Student Attendance and Truancy) pursuant to § 22-33-104 (4) (c), C.R.S.

5.06 The Student Mobility Rate: The student mobility rate measures the unduplicated count of the number of students who have moved into or out of a particular education setting as defined and calculated in CCR 301-1 (Rules for the Administration of Statewide Accountability Measures).
5.07 The Student Suspension Rate: The rate is defined as the number of students suspended (may include in-school suspensions, out of school suspensions and classroom suspensions) during the year divided by the student enrollment as of October 1. It is calculated at the school, district and state level as determined by the collection of the Department’s Automated Data Exchange system to obtain behavioral incidents and the actions taken. If a student was suspended multiple times within the school year, each time is included in the count.

5.08 The Student Expulsion Rate: The rate is defined as the number of students expelled during the year divided by the student enrollment as of October 1. It is calculated at the school, district and state level as determined by the collection of the Department’s Automated Data Exchange system to obtain behavioral incidents and the actions taken. If a student was expelled multiple times, each time is included in the count.

Professional development

LAWS

(1) The general assembly finds that:

(a) Research demonstrates that young children who are suspended or expelled from school are up to ten times more likely to experience academic failure and grade retention and to hold negative attitudes toward school than those children who are not suspended or expelled. Young children who are suspended or expelled from school are also more likely to drop out of high school and to be incarcerated later in life.

(b) Lack of training to deal with behavioral issues in the classroom contributes to education dissatisfaction and burnout, which increases the number of educators who leave the profession. Providing additional training and support in dealing with student discipline issues may help school districts and schools retain experienced educators.

(c) To reduce the incidence of exclusionary discipline among students, especially those enrolled in preschool through third grade, teachers and administrators should receive training and support in using culturally responsive methods of discipline with young students and in implementing developmentally appropriate responses to the behavioral issues of young students.

(2) As used in this section, unless the context otherwise requires:

(a) "Board of cooperative services" means a regional educational service unit created pursuant to article 5 of this title 22.

(b) "Charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22 or a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(3) (a) There is created in the department the discipline strategies pilot program to provide money to school districts, groups of school districts, boards of cooperative services, and charter schools for professional development for teachers and principals concerning the use of culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade, including students with disabilities. The intent of the pilot program is to provide professional development for educators to assist them in reducing the use of exclusionary discipline methods in public schools, especially with regard to students enrolled in preschool through third grade and students with disabilities. The department is required to implement the pilot program only to the extent that it receives sufficient money through gifts, grants, and donations as provided in subsection (7) of this section.

(b) The state board shall promulgate rules as provided in the "State Administrative Procedure Act", article 4 of title 24, as necessary, to implement the pilot program.

(4) A school district, group of school districts, board of cooperative services, or charter school may apply to the department to receive a grant through the pilot program. An application must include:

(a) The number of teachers and principals to whom the applicant will provide professional development in using culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade and the number and grade levels of students served by those teachers and principals;

(b) The professional development programs that the applicant expects to provide with the grant money;

(f) Any additional information required by rule of the state board.

(5) The department shall review the applications received pursuant to subsection (4) of this section and recommend to the state board which applicants should receive grants through the pilot program and the amount of each grant. The state board, taking into consideration the department's recommendations, shall award the grants, subject to available funding. In making recommendations and awarding grants, the department and the state board shall, to the extent practicable, award a grant to at least one school district, board of cooperative services, or charter school located in a rural area and shall consider:

(a) The level of financial need that an applicant demonstrates;

(b) The quality of the professional development grant programs that the applicant expects to provide with the grant money;

(c) The student demographics of the schools operated by the applicant and the use of exclusionary discipline methods in the preceding three school years by educators employed by the applicant; and

(d) Any additional criteria adopted by rule of the state board.

(6) (a) For each school year in which the state board awards grants through the pilot program, the department shall prepare a report concerning implementation of the pilot program. At a minimum, the report must include:

(b) By April 15, 2018, and by April 15 each year thereafter, the department shall submit the report to the state board, the joint budget committee, and the education committees of the house of representatives and the senate, or any successor committees.

(7) The pilot program is not eligible to receive state appropriations and must be funded solely through gifts, grants, or donations. The department may accept and expend gifts, grants, or donations from private or public sources for the purposes of the pilot program. Notwithstanding any provision of this section to the contrary, the department and the state board are not required to implement the pilot program, including promulgating rules and preparing the report described in subsection (6) of this section, in a budget year if the department does not receive at least three hundred thousand dollars in gifts, grants, or donations for the pilot program for that budget year.

No docket or other fees shall be collected by the court in connection with this proceeding.

(3) After the petition is filed, the court shall notify the board and shall hold a hearing on the matter. The court shall conduct judicial review of a hearing decision pursuant to rule 106 (a) (4) of the Colorado rules of civil procedure and rule 3.8 of the Colorado rules of juvenile procedure.

24-10-106.3. Immunity and partial waiver - claims for serious bodily injury or death on public school property or at school-sponsored events resulting from incidents of school violence - short title - definitions - repeal.

(1) This section shall be known and may be cited as the "Claire Davis School Safety Act".

(2) Definitions. For purposes of this section, unless the context otherwise requires:

(a) "Charter school" means a charter school or an institute charter school established pursuant to article 30.5 of title 22, C.R.S.

(b) "Crime of violence" means that the person committed, conspired to commit, or attempted to commit one of the following crimes:

(III) A felony sexual assault, as defined in section 18-3-402, C.R.S.

(c) "Incident of school violence" means an occurrence at a public school or public school-sponsored activity in which a person:

(I) Engaged in a crime of violence; and

(II) The actions described in subparagraph (I) of this paragraph (c) by that person caused serious bodily injury or death to any other person.
(d) “Public school” has the same meaning as provided in section 22-1-101, C.R.S., and includes a charter school or institute charter school.

(e) “School district” means a school district organized pursuant to article 30 of title 22, C.R.S., and the charter school institute established pursuant to section 22-30.5-503, C.R.S.

(f) “Serious bodily injury” means bodily injury that, either at the time of the actual injury or a later time, involves a substantial risk of death, a substantial risk of serious permanent disfigurement, or a substantial risk of protracted loss or impairment of the function of any part or organ of the body.

(3) Recognition of duty of care. All school districts and charter schools and their employees in this state have a duty to exercise reasonable care to protect all students, faculty, and staff from harm from acts committed by another person when the harm is reasonably foreseeable, while such students, faculty, and staff are within the school facilities or are participating in school-sponsored activities.

(4) Limited waiver of sovereign immunity. Notwithstanding any other provision of this article, a public school district or charter school is immune from liability in all claims for injury that lie in tort or could lie in tort regardless of whether that may be the type of action or the form of relief chosen by the claimant except as otherwise provided in this section or in this article. In addition to any other claims for which the "Colorado Governmental Immunity Act" waives sovereign immunity in this article, sovereign immunity is waived under the "Colorado Governmental Immunity Act" with respect to school districts and charter schools for a claim of a breach of the duty of care established in subsection (3) of this section by the school district, a charter school, or an employee of the school district or charter school arising from an incident of school violence on or after June 3, 2015, and, with respect to such claims, the provisions of article 12 of title 22, C.R.S., do not apply to school districts and charter schools. An employee of a public school, school district, or a charter school is not subject to suit under this section in his or her individual capacity unless the employee's actions or omissions are willful and wanton.

(5) A public school, school district, or charter school shall not be found negligent under this section solely as a result of not expelling or suspending any student.

(6) Nothing in this section shall be construed to constitute a waiver of sovereign immunity by a school district or charter school if the injury arises from any act, or failure to act, of an employee of the school district or charter school if the act is the type of act for which the school district or charter school employee would be or heretofore has been personally immune from liability.

(7) In addition to the immunity provided under this section, the school district and charter school shall also have the same immunity as a school district or charter school employee for any act or failure to act for which a school district or charter school employee would be or heretofore has been personally immune from liability.

(8) No rule of law imposing absolute or strict liability shall be applied in any action filed against a school district or charter school pursuant to this section for serious bodily injury or death caused by a breach of the duty of care, established pursuant to subsection (3) of this section. No liability shall be imposed in any such action unless negligence is proven.

(9) (a) Except as provided in paragraph (b) of this subsection (9), the maximum amount of damages that may be recovered under this article in any single occurrence from a school district or charter school for a claim brought under this section is governed by the limits set forth in section 24-10-114 (1).

(b) (i) A plaintiff who files an action under this section for an incident of school violence that occurs on or after June 3, 2015, and on or before July 1, 2017, shall file the action in the district court, and no compensatory damages shall be awarded. The court shall not issue a declaratory judgement regarding the negligence of the public school, school district, or charter school; however, in such action, the plaintiff is entitled to full discovery regarding the incident of school violence.

(ii) This paragraph (b) is repealed, effective July 1, 2018.
(10) In order to promote vigorous discovery of events leading to an incident of school violence in any action brought under this section, an offer of judgment by a defendant under section 13-17-202, C.R.S., prior to the completion of discovery, is not deemed rejected if not accepted until fourteen days after the completion of discovery, and the plaintiff is not liable for costs due to not accepting such an offer of judgment until fourteen days after the completion of discovery. If a defendant refuses to answer a complaint, or a default judgment is entered against a defendant for failure to answer a complaint, or a defendant confesses liability in an action brought under this section, the court shall allow full discovery upon request of the plaintiff.

(1) The general assembly finds that:

(a) Research demonstrates that young children who are suspended or expelled from school are up to ten times more likely to experience academic failure and grade retention and to hold negative attitudes toward school than those children who are not suspended or expelled. Young children who are suspended or expelled from school are also more likely to drop out of high school and to be incarcerated later in life.

(b) Lack of training to deal with behavioral issues in the classroom contributes to education dissatisfaction and burnout, which increases the number of educators who leave the profession. Providing additional training and support in dealing with student discipline issues may help school districts and schools retain experienced educators.

(c) To reduce the incidence of exclusionary discipline among students, especially those enrolled in preschool through third grade, teachers and administrators should receive training and support in using culturally responsive methods of discipline with young students and in implementing developmentally appropriate responses to the behavioral issues of young students.

(2) As used in this section, unless the context otherwise requires:

(a) "Board of cooperative services" means a regional educational service unit created pursuant to article 5 of this title 22.
(b) "Charter school" means a charter school authorized by a school district pursuant to part 1 of article 30.5 of this title 22 or a charter school authorized by the state charter school institute pursuant to part 5 of article 30.5 of this title 22.

(c) "Culturally responsive methods" means methods that use the cultural knowledge, experiences, social and emotional learning needs, and performance styles of diverse students to ensure that classroom management strategies and research-based alternatives to exclusionary discipline are appropriate and effective for students.

(d) "Exclusionary discipline methods" means in-school suspension, out-of-school suspension, expulsion, school-based arrests, school-based referrals to the juvenile justice system, and voluntary or involuntary placement in an alternative education program.

(e) "Pilot program" means the discipline strategies pilot program created in subsection (3) of this section.

(3) (a) There is created in the department the discipline strategies pilot program to provide money to school districts, groups of school districts, boards of cooperative services, and charter schools for professional development for teachers and principals concerning the use of culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade, including students with disabilities. The intent of the pilot program is to provide professional development for educators to assist them in reducing the use of exclusionary discipline methods in public schools, especially with regard to students enrolled in preschool through third grade and students with disabilities. The department is required to implement the pilot program only to the extent that it receives sufficient money through gifts, grants, and donations as provided in subsection (7) of this section.

(4) A school district, group of school districts, board of cooperative services, or charter school may apply to the department to receive a grant through the pilot program. An application must include:

(a) The number of teachers and principals to whom the applicant will provide professional development in using culturally responsive methods of student discipline in preschool through third grade and developmentally appropriate responses to the behavioral issues of students enrolled in preschool through third grade and the number and grade levels of students served by those teachers and principals;

The appropriate school personnel are encouraged to work with the local community services group to develop the plan. The policies and procedures may also include but need not be limited to the following:

(IV) Establishing a system of monitoring individual unexcused absences of children which shall provide that, whenever a child who is enrolled in a public school fails to report to school on a regularly scheduled school day and school personnel have received no indication that the child's parent is aware of the child's absence, school personnel or volunteers under the direction of school personnel shall make a reasonable effort to notify by telephone such parent. Any person who, in good faith, gives or fails to give notice pursuant to this subparagraph (IV) shall be immune from any liability, civil
or criminal, which might otherwise be incurred or imposed and shall have the same immunity with respect to any judicial proceeding which results from such notice or failure to give such notice.

24-10-106.3. Immunity and partial waiver - claims for serious bodily injury or death on public school property or at school-sponsored events resulting from incidents of school violence - short title - definitions - repeal.

(1) This section shall be known and may be cited as the "Claire Davis School Safety Act".

(2) Definitions. For purposes of this section, unless the context otherwise requires:

(a) "Charter school" means a charter school or an institute charter school established pursuant to article 30.5 of title 22, C.R.S.

(b) "Crime of violence" means that the person committed, conspired to commit, or attempted to commit one of the following crimes:

(I) Murder;

(II) First degree assault; or

(III) A felony sexual assault, as defined in section 18-3-402, C.R.S.

(c) "Incident of school violence" means an occurrence at a public school or public school-sponsored activity in which a person:

(I) Engaged in a crime of violence; and

(II) The actions described in subparagraph (I) of this paragraph (c) by that person caused serious bodily injury or death to any other person.

(d) "Public school" has the same meaning as provided in section 22-1-101, C.R.S., and includes a charter school or institute charter school.

(e) "School district" means a school district organized pursuant to article 30 of title 22, C.R.S., and the charter school institute established pursuant to section 22-30.5-503, C.R.S.

(f) "Serious bodily injury" means bodily injury that, either at the time of the actual injury or a later time, involves a substantial risk of death, a substantial risk of serious permanent disfigurement, or a substantial risk of protracted loss or impairment of the function of any part or organ of the body.

(3) Recognition of duty of care. All school districts and charter schools and their employees in this state have a duty to exercise reasonable care to protect all students, faculty, and staff from harm from acts committed by another person when the harm is reasonably foreseeable, while such students, faculty, and staff are within the school facilities or are participating in school-sponsored activities.

(4) Limited waiver of sovereign immunity. Notwithstanding any other provision of this article, a public school district or charter school is immune from liability in all claims for injury that lie in tort or could lie in tort regardless of whether that may be the type of action or the form of relief chosen by the claimant except as otherwise provided in this section or in this article. In addition to any other claims for which the "Colorado Governmental Immunity Act" waives sovereign immunity in this article, sovereign immunity is waived under the "Colorado Governmental Immunity Act" with respect to school districts and charter schools for a claim of a breach of the duty of care established in subsection (3) of this section by the school district, a charter school, or an employee of the school district or charter school arising from an incident of school violence on or after June 3, 2015, and, with respect to such claims, the provisions of article 12 of title 22, C.R.S., do not apply to school districts and charter schools. An employee of a public school, school district, or a charter school is not subject to suit under this section in his or her individual capacity unless the employee's actions or omissions are willful and wanton.

(5) A public school, school district, or charter school shall not be found negligent under this section solely as a result of not expelling or suspending any student.
(6) Nothing in this section shall be construed to constitute a waiver of sovereign immunity by a school district or charter school if the injury arises from any act, or failure to act, of an employee of the school district or charter school if the act is the type of act for which the school district or charter school employee would be or heretofore has been personally immune from liability.

(7) In addition to the immunity provided under this section, the school district and charter school shall also have the same immunity as a school district or charter school employee for any act or failure to act for which a school district or charter school employee would be or heretofore has been personally immune from liability.

(8) No rule of law imposing absolute or strict liability shall be applied in any action filed against a school district or charter school pursuant to this section for serious bodily injury or death caused by a breach of the duty of care, established pursuant to subsection (3) of this section. No liability shall be imposed in any such action unless negligence is proven.

(9) (a) Except as provided in paragraph (b) of this subsection (9), the maximum amount of damages that may be recovered under this article in any single occurrence from a school district or charter school for a claim brought under this section is governed by the limits set forth in section 24-10-114 (1).

(b) (I) A plaintiff who files an action under this section for an incident of school violence that occurs on or after June 3, 2015, and on or before July 1, 2017, shall file the action in the district court, and no compensatory damages shall be awarded. The court shall not issue a declaratory judgement regarding the negligence of the public school, school district, or charter school; however, in such action, the plaintiff is entitled to full discovery regarding the incident of school violence.

(ii) This paragraph (b) is repealed, effective July 1, 2018.

(10) In order to promote vigorous discovery of events leading to an incident of school violence in any action brought under this section, an offer of judgment by a defendant under section 13-17-202, C.R.S., prior to the completion of discovery, is not deemed rejected if not accepted until fourteen days after the completion of discovery, and the plaintiff is not liable for costs due to not accepting such an offer of judgment until fourteen days after the completion of discovery. If a defendant refuses to answer a complaint, or a default judgment is entered against a defendant for failure to answer a complaint, or a defendant confesses liability in an action brought under this section, the court shall allow full discovery upon request of the plaintiff.

13-5-145. Truancy detention reduction policy - legislative declaration.

(1) The general assembly finds that:

(a) Imposing a sentence of detention on a juvenile who violates a court order to attend school does not improve the likelihood that the juvenile will attend school and does not address the underlying causes of the juvenile’s truancy;

(b) The best methods to address truancy and its underlying causes and the resources needed to implement those methods are different in each community;

(c) Since 2014, the juvenile courts in many judicial districts around the state have successfully reduced the use of detention for juveniles who are truant by implementing pilot projects through which the
juvenile court imposes reasonable sanctions and, where possible, provides incentives to attend school, reserving detention as a sanction of last resort; and

(d) These pilot projects need additional time to produce meaningful data regarding the effectiveness of the alternate sanctions and incentives and to determine whether they result in improved outcomes for juveniles and their families.

(2) The chief judge in each judicial district, or his or her designee, shall convene a meeting of community stakeholders to create a policy for addressing truancy cases that seeks alternatives to the use of detention as a sanction for truancy. Community stakeholders may include, but need not be limited to:

(a) Parents;
(b) Representatives from school districts;
(c) Representatives from county human services and social services departments;
(d) Guardians ad litem;
(e) Court-appointed special advocates;
(f) Juvenile court judges;
(g) Respondent counsel;
(h) Representatives from law enforcement agencies;
(i) Mental health care providers;
(j) Substance abuse treatment providers;
(k) Representatives from the division of criminal justice in the department of public safety;
(l) Representatives from the state department of human services; and
(m) Representatives from the department of education.

(3) The chief judge in each judicial district shall adopt a policy for addressing truancy cases no later than March 15, 2016. In developing the policy for addressing truancy cases, the chief judge and the community stakeholders shall consider, at a minimum:

(a) Best practices for addressing truancy that are used in other judicial districts and in other states;
(b) Evidence-based practices to address and reduce truancy;
(c) Using a wide array of reasonable sanctions and reasonable incentives to address and reduce truancy;
(d) Using detention only as a last resort after exhausting all other reasonable sanctions and, when imposing detention, appropriately reducing the number of days served; and
(e) Research regarding the effect of detention on juveniles.

(4) The state court administrator's office shall report to the judiciary committees of the House of Representatives and the Senate, or any successor committees, no later than April 15, 2016, regarding the policy for addressing truancy cases adopted by each judicial district.

The committee's activities to increase parent engagement must include, but need not be limited to:

(I) Publicizing opportunities to serve and soliciting parents to serve on the school district accountability committee and school accountability committees. In soliciting parents to serve on the
school district and school accountability committees, the school district accountability committee shall
direct the outreach efforts to help ensure that the parents who serve on the district and school
accountability committees reflect the student populations that are significantly represented within the
school district and the school, as provided in section 22-11-301 (3).

(II) Assisting the school district in implementing the parent engagement policy adopted by the local
school board pursuant to section 22-32-142; and

(III) Assisting school personnel to increase parents' engagement with educators, including but not
limited to parents' engagement in creating students' READ plans pursuant to part 12 of article 7 of this
title, in creating individual career and academic plans pursuant to section 22-32-109 (1) (oo), and in
creating plans to address habitual truancy pursuant to section 22-33-107 (3).

22-14-103. Office of dropout prevention and student re-engagement - created - purpose - duties.

(3) To accomplish the purposes specified in subsection (2) of this section, the office shall also:

(c) Develop interagency agreements and otherwise cooperate with other state and federal agencies and
with private, nonprofit agencies to collect and review student data and develop and recommend
methods for reducing student dropout rates and increasing student engagement and re-engagement.

[...] 

(7) Open school policy. Each board of education shall adopt an open school policy to allow parents and members of the school district board of education reasonable access to observe classes, activities, and functions at a public school upon reasonable notice to the school administrator's office.

22-33-201. Legislative declaration.
The general assembly hereby finds that except when a student's behavior would cause imminent harm to others in the school or when an incident requires automatic expulsion as defined by state law or a school's conduct and discipline code, expulsion should be the last step taken after several attempts to deal with a student who has discipline problems. The general assembly further finds that school districts should work with the student's parent or guardian and with state agencies and community-based nonprofit organizations to develop alternatives to help students who are at risk of expulsion before expulsion becomes a necessary step and to support students who are unable to avoid expulsion.

(1) Each school district shall adopt policies to identify students who are at risk of suspension or expulsion from school. Students identified may include those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive. The school district shall provide students who are identified as at risk of suspension or expulsion with a plan to provide the necessary support services to help them avoid expulsion. The school district shall work with the student's parent or guardian in providing the services and may provide the services through agreements with appropriate local governmental agencies, appropriate state agencies, community-based organizations, and institutions of higher education entered into pursuant to section 22-33-204.

22-33-204. Services for at-risk students - agreements with state agencies and community organizations.
(1) Each school district, regardless of the number of students expelled by the district, may enter into agreements with appropriate local governmental agencies and, to the extent necessary, with the managing state agencies, including but not limited to the department of human services and the department of public health and environment, with community-based nonprofit and faith-based organizations, with nonpublic, parochial schools, with the department of military and veterans affairs, and with public and private institutions of higher education to work with the student's parent or guardian to provide services to any student who is identified as being at risk of suspension or expulsion or who has been suspended or expelled and to the student's family. Any services provided pursuant to an agreement with a nonpublic, nonparochial school shall be subject to approval by the state board of education pursuant to section 22-2-107, C.R.S. Services provided through such agreements may include, but are not limited to:

(a) Educational services required to be provided under section 22-33-203 (2) and any educational services provided to at-risk students identified pursuant to section 22-33-202;
(b) Counseling services;
(c) Drug or alcohol-addiction treatment programs;
(d) Family preservation services.
(e) and (f) (Deleted by amendment, L. 98, p. 570, § 3, effective April 30, 1998.)

(2) At a minimum, each agreement entered into pursuant to this section shall specify the services to be
provided under the agreement, the entity that will coordinate and oversee provision of the services, and
the responsibilities of each entity entering into the agreement. In addition, each agreement shall require
each entity entering into the agreement to contribute the services or funds for the provision of the services
specified in the agreement. The agreement shall specify the services or the amount and source of funds
that each entity will provide and the mechanism for providing said services or funds.

(3) Each school district shall use a portion of its per pupil revenues to provide services under agreements
entered into pursuant to this section for each student who is at risk of suspension or expulsion or who is
suspended or expelled. In addition, the school district may use federal moneys, moneys received from
any other state appropriation, and moneys received from any other public or private grant to provide said
services.

22-33-205. Services for expelled and at-risk students - grants - criteria.
(b) In addition to school districts, charter schools, alternative schools within school districts, nonpublic,
onparochial schools, boards of cooperative services, facility schools, and pilot schools, the department
of military and veterans affairs may apply for a grant pursuant to the provisions of this section to assist the
department with a program to provide educational services to expelled students; except that nonpublic,
onparochial schools may only apply for a grant pursuant to the provisions of this section to fund
educational services that have been approved by the state board pursuant to section 22-2-107. The
department shall follow application procedures established by the department of education pursuant to
subsection (2) of this section. The department of education shall determine whether to award a grant to
the department of military and veterans affairs and the amount of the grant.

22-93-106. School bullying prevention and education - availability of best practices and other
resources.
(1) On or before November 1, 2011, the department shall create a page on its public web site at which the
department shall continuously make publicly available evidence-based best practices and other resources
for educators and other professionals engaged in bullying prevention and education.

(2) The department shall solicit evidence-based best practices and other resources from the school safety
resource center created in section 24-33.5-1803, C.R.S.; from school districts; from the state charter
school institute established in section 22-30.5-503; and from other state and federal agencies that are
concerned with school bullying prevention and education. The department shall review materials that it
receives and, as may be appropriate, make such materials available to the public on the web site
described in subsection (1) of this section.

26-20-110. Youth seclusion working group - membership - purpose - repeal.
(1) There is established within the division of youth corrections a youth seclusion working group, referred
to in this section as the "working group". The working group consists of:

(f) Two representatives from nonprofit advocacy groups that work to restrict seclusion for youth or that represent children within the custody of the division of youth corrections, one who is appointed by the speaker of the house of representatives and one who is appointed by the president of the senate; and

The minority leader of the house of representatives shall appoint one expert and the minority leader of the senate shall appoint the other expert.

(2) The working group shall advise the division of youth corrections on policies, procedures, and best practices related to seclusion and alternatives to such seclusion.

(3) The working group shall monitor the division of youth corrections’ use of confinement for administrative purposes. The division of youth corrections shall share with the working group, on an ongoing basis, available data regarding time spent in confinement by youth for administrative reasons, as described in section 26-20-104.5 (3), in any secure state-operated and state-owned facility. If necessary, the working group may make recommendations to the division of youth corrections and the public health care and human services committee of the house of representatives and the health and human services committee of the senate, or any successor committees, about the use of confinement for administrative purposes.

(4) The working group may request, on a semiannual basis, information and data from the state department on the status of the division of youth corrections’ work related to the seclusion of youth in their care and custody.

(5) The chair of the working group shall convene the working group’s first meeting no later than August 1, 2016. The working group must meet at least semi-annually thereafter. The chair shall schedule and convene subsequent meetings.

(6) The chair shall provide the working group with semiannual updates on the division of youth corrections’ policies related to seclusion and alternatives to seclusion.

(7) (a) This section is repealed, effective September 1, 2024.

(b) Prior to the repeal, the working group shall be reviewed as provided in section 2-3-1203, C.R.S.

22-1-119.3. Policy for student possession and administration of prescription medication - rules.

(1) A school district board of education may adopt and implement a policy whereby, except as described in subsection (3) of this section, a student enrolled in a school of the school district may possess and self-administer on school grounds, upon a school bus, or at any school-sponsored event any medication that is prescribed by a licensed health care practitioner to be used by the student.
(2) (a) If a school district board of education adopts and implements a policy described by subsection (1) of this section, a parent or legal guardian of a student who is enrolled in a school of the school district and for whom medication is prescribed by a licensed health care practitioner shall notify the school's administration of the student's medical needs and of the fact that the student may be in possession of his or her prescribed medications as described in subsection (1) of this section. The notification, when appropriate, shall include the treatment plan that has been devised for the student by a licensed health care practitioner.

(b) If a school's administration receives notice from a student's parent or legal guardian that the student may be in possession of his or her prescribed medications, the school's administration shall ensure that such notice is provided to the student's teachers and the school nurse or other person who is designated to provide health services to students at the school.

(c) Nothing in this section shall be construed to limit the ability of a public school to require a parent or legal guardian of a student who has medication prescribed for a life-threatening condition to provide to the school a sufficient supply of the medication to be stored at the school to be administered to the student in the event of a health emergency.

(3) (a) A policy adopted by a school district board of education pursuant to subsection (1) of this section shall include, but need not be limited to:

(I) A process by which a school may restrict a student from possessing and self-administering on school grounds, on a school bus, or at a school-sponsored event a medication that is prescribed by a licensed health care practitioner to be used by the student. The process shall require the school administration to make a determination as to whether a student's possession or self-administration of the medication poses a significant risk of harm to the student or to other students.

(II) A requirement that if a student has medication prescribed for a life-threatening condition, a sufficient supply of the medication is provided to the school by the student's parent or legal guardian, stored safely at the school, and kept readily available to be administered to the student in a timely fashion in the event of a health emergency.

(b) A student who possesses a prescribed medication on school grounds, upon a school bus, or at a school-sponsored event in accordance with a policy adopted by a school district pursuant to this section may possess only enough of his or her prescribed medication to render a sufficient dosage to the student to adequately treat the student's condition for a single day or for the duration of the event, whichever is appropriate; except that this provision shall not apply to a student who requires and possesses an insulin pump or other medical device that delivers dosages of prescribed medication to the student over a period of time that exceeds a single day or the duration of the event.

(c) A student shall not possess or self-administer medical marijuana on school grounds, upon a school bus, or at any school-sponsored event, except as provided for in paragraph (d) of this subsection (3).

(d) (I) (A) A primary caregiver may possess, and administer to a student who holds a valid recommendation for medical marijuana, medical marijuana in a nonsmokeable form upon the grounds of the preschool or primary or secondary school in which the student is enrolled, or upon a school bus or at a school-sponsored event. The primary caregiver shall not administer the nonsmokeable medical marijuana in a manner that creates disruption to the educational environment or causes exposure to other students.

(B) After the primary caregiver administers the medical marijuana in a nonsmokeable form, the primary caregiver shall remove any remaining medical marijuana in a nonsmokeable form from the grounds of the preschool or primary or secondary school, the school bus, or school-sponsored event.

(II) Nothing in this section requires the school district staff to administer medical marijuana.
(III) A school district board of education or charter school may adopt policies regarding who may act as a primary caregiver pursuant to this paragraph (d) and the reasonable parameters of the administration and use of medical marijuana in a nonsmokeable form upon the grounds of the preschool or primary or secondary school in which the student is enrolled, or upon a school bus or at a school-sponsored event.

(IV) This paragraph (d) does not apply to a school district or charter school if:

(A) The school district or charter school loses federal funding as a result of implementing this paragraph (d);

(B) The school district or charter school can reasonably demonstrate that it lost federal funding as a result of implementing this paragraph (d); and

(C) The school district or charter school posts on its website in a conspicuous place a statement regarding its decision not to comply with this paragraph (d).

(V) Student possession, use, distribution, or sale or being under the influence of a cannabinoid product inconsistent with this paragraph (d) is not permitted.

(VI) This paragraph (d) shall be known as "Jack's Law".

(e) Notwithstanding the provisions of section 22-33-106 (1) (d) (II), a school district or charter school may not discipline a student who holds a valid recommendation for medical marijuana solely because the student requires medical marijuana in a nonsmokeable form as a reasonable accommodation necessary for the child to attend school.

(f) A school district or charter school may not deny eligibility to attend school to a student who holds a valid recommendation for medical marijuana solely because the student requires medical marijuana in a nonsmokeable form as a reasonable accommodation necessary for the child to attend school.

(4) The state board of education may promulgate rules for the implementation of this section.

(5) A school district board of education that adopts a policy pursuant to subsection (1) of this section shall be exempt from rules promulgated by the state board of education pursuant to the "Colorado Schoolchildren's Asthma, Food Allergy, and Anaphylaxis Health Management Act", section 22-1-119.5.

22-1-126. Safe2tell program.
As described in section 24-31-606, C.R.S., there is established the safe2tell program with the primary purpose of providing students and the community with the means to relay information anonymously concerning unsafe, potentially harmful, dangerous, violent, or criminal activities, or the threat of these activities, to appropriate law enforcement and public safety agencies and school officials.

24-31-602. Legislative declaration.
(1) The general assembly hereby finds and declares that:

(a) The purpose of this part 6 is to empower students and the community by offering a comprehensive program of education, awareness, and training and a readily accessible tool that allows students and the community to easily provide anonymous information about unsafe, potentially harmful, dangerous, violent, or criminal activities in schools, or the threat of these activities, to appropriate law enforcement and public safety agencies and school officials; and

(b) The ability to anonymously report information about unsafe, potentially harmful, dangerous, violent, or criminal activities in schools before or after they have occurred is critical in reducing, responding to, and recovering from these types of events in schools.

(2) The general assembly therefore finds that it is appropriate and necessary to provide for the anonymity of a person who provides information to law enforcement and public safety agencies and school officials and to provide for the confidentiality of associated materials.

Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

(a) Any local or regional board of education may authorize the administration of the schools under its direction to suspend from school privileges a pupil whose conduct on school grounds or at a school sponsored activity is violative of a published policy of such board or is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process. In making a determination as to whether conduct is seriously disruptive of the educational process, the administration may consider, but such consideration shall not be limited to: (1) Whether the incident occurred within close proximity of a school; (2) whether other students from the school were involved or whether there was any gang involvement; (3) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (4) whether the conduct involved the use of alcohol. Any such board may authorize the administration to suspend transportation services for a pupil whose conduct while awaiting or receiving transportation to and from school endangers persons or property or is violative of a published policy of such board. Unless an emergency exists, no pupil shall be suspended without an informal hearing by the administration, at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided nothing herein shall be construed to prevent a more formal hearing from being held if the circumstances surrounding the incident so require, and further provided no pupil shall be suspended more than ten times or a total of fifty days in one school year, whichever results in fewer days of exclusion, unless such pupil is granted a formal hearing pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.

10-233d. Expulsion of pupils.
(a) (1) Any local or regional board of education, at a meeting at which three or more members of such board are present, or the impartial hearing board established pursuant to subsection (b) of this section, may expel, subject to the provisions of this subsection, any pupil in grades three to twelve, inclusive, whose conduct on school grounds or at a school-sponsored activity is violative of a published policy of such board or is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process, provided a majority of the board members sitting in the expulsion hearing vote to expel and that at least three affirmative votes for expulsion are cast. In making a determination as to whether conduct is seriously disruptive of the educational process, the board of education or impartial hearing board may consider, but such consideration shall not be limited to: (A) Whether the incident occurred within close proximity of a school; (B) whether other students from the school were involved or whether there was any gang involvement; (C) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (D) whether the conduct involved the use of alcohol.

(l) (1) Any student who commits an expellable offense and is subsequently committed to a juvenile detention center, the Connecticut Juvenile Training School or any other residential placement for such
offense may be expelled by a local or regional board of education in accordance with the provisions of this section. The period of expulsion shall run concurrently with the period of commitment to a juvenile detention center, the Connecticut Juvenile Training School or any other residential placement.

Such a pupil shall be expelled for one calendar year if the local or regional board of education or impartial hearing board finds that the pupil did so possess or so possess and use, as appropriate, such a firearm, instrument or weapon or did do offer for sale or distribution such a controlled substance, provided the board of education or the hearing board may modify the period of expulsion for a pupil on a case-by-case basis, and as provided for in subdivision (2) of subsection (c) of this section.

(3) Unless an emergency exists, no pupil shall be expelled without a formal hearing held pursuant to sections 4-176e to 4-180a, inclusive, provided whenever such pupil is a minor, the notice required by section 4-177 and section 4-180 shall also be given to the parents or guardian of the pupil. (e) “Expulsion” means an exclusion from school privileges for more than ten consecutive school days and shall be deemed to include, but not be limited to, exclusion from the school to which such pupil was assigned at the time such disciplinary action was taken, provided such exclusion shall not extend beyond a period of one calendar year.

10-233c. Suspension of pupils.

(a) Any local or regional board of education may authorize the administration of the schools under its direction to suspend from school privileges a pupil whose conduct on school grounds or at a school sponsored activity is violative of a publicized policy of such board or is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process. In making a determination as to whether conduct is seriously disruptive of the educational process, the administration may consider, but such consideration shall not be limited to: (1) Whether the incident occurred within close proximity of a school; (2) whether other students from the school were involved or whether there was any gang involvement; (3) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (4) whether the conduct involved the use of alcohol. Any such board may authorize the administration to suspend transportation services for a pupil whose conduct while awaiting or receiving transportation to and from school endangers persons or property or is violative of a publicized policy of such board. Unless an emergency exists, no pupil shall be suspended without an informal hearing by the administration, at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided nothing herein shall be construed to prevent a more formal hearing from being held if the circumstances surrounding the incident so require, and further provided no pupil shall be suspended more than ten times or a total of fifty days in one school year, whichever results in fewer days of exclusion, unless such pupil is granted a formal hearing pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.

(g) On and after July 1, 2015, all suspensions pursuant to this section shall be in-school suspensions, except a local or regional board of education may authorize the administration of schools under its direction to impose an out-of-school suspension on any pupil in (1) grades three to twelve, inclusive, if, during the hearing held pursuant to subsection (a) of this section, (A) the administration determines that the pupil being suspended poses such a danger to persons or property or such a disruption of the educational process that the pupil shall be excluded from school during the period of suspension, or (B) the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence of (i) previous disciplinary problems that have led to suspensions or expulsion of such pupil, and (ii) efforts by the administration to address such disciplinary problems through means other than out-of-school suspension or expulsion, including positive behavioral support strategies, or (2) grades preschool to two, inclusive, if during the hearing held pursuant to subsection (a) of this section, the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence that such pupil’s conduct on school grounds is of a violent or sexual nature that endangers persons. An in-school suspension may be served in the school that the pupil attends, or in any school building under the jurisdiction of the local or regional board of education, as determined by such board. Nothing in this section shall limit a person’s duty as a mandated reporter pursuant to section 17-101a to report suspected child abuse or neglect.

10-233d. Expulsion of pupils.

(i) Prior to conducting an expulsion hearing for a child requiring special education and related services described in subparagraph (A) of subdivision (5) of section 10-76a, a planning and placement team shall
convene to determine whether the misconduct was caused by the child’s disability. If it is determined that the misconduct was caused by the child’s disability, the child shall not be expelled. The planning and placement team shall reevaluate the child for the purpose of modifying the child’s individualized education program to address the misconduct and to ensure the safety of other children and staff in the school. If it is determined that the misconduct was not caused by the child’s disability, the child may be expelled in accordance with the provisions of this section applicable to children who do not require special education and related services. Notwithstanding the provisions of subsections (d) and (e) of this section, whenever a child requiring such special education and related services is expelled, an alternative educational opportunity, consistent with such child’s educational needs shall be provided during the period of expulsion.

(a) Any local or regional board of education may authorize the administration of schools under its direction to impose an in-school suspension on any pupil whose conduct endangers persons or property or is seriously disruptive of the educational process, or is violative of a publicized policy of such board. No pupil shall be placed in in-school suspension without an informal hearing before the building principal or such principal’s designee at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided no pupil shall be placed in in-school suspension more than fifteen times or a total of fifty days in one school year, whichever results in fewer days of exclusion.

(b) A local or regional board of education may reassign a pupil to a regular classroom program in a different school in the school district and such reassignment shall not constitute a suspension pursuant to section 10-233c, or an expulsion pursuant to section 10-233d.

Administrative procedures related to suspension and expulsion

LAWS

10-233a. Definitions.
Whenever used in sections 10-233a to 10-233g, inclusive:
(d) "Suspension" means an exclusion from school privileges or from transportation services only for no more than ten consecutive school days, provided such exclusion shall not extend beyond the end of the school year in which such suspension was imposed.
(e) “Expulsion” means an exclusion from school privileges for more than ten consecutive school days and shall be deemed to include, but not be limited to, exclusion from the school to which such pupil was assigned at the time such disciplinary action was taken, provided such exclusion shall not extend beyond a period of one calendar year.

10-233c. Suspension of pupils.

(a) Any local or regional board of education may authorize the administration of the schools under its direction to suspend from school privileges a pupil whose conduct on school grounds or at a school sponsored activity is violative of a publicized policy of such board or is seriously disruptive of the educational process or endangers persons or property or whose conduct off school grounds is violative of such policy and is seriously disruptive of the educational process. In making a determination as to whether conduct is seriously disruptive of the educational process, the administration may consider, but such consideration shall not be limited to: (1) Whether the incident occurred within close proximity of a school; (2) whether other students from the school were involved or whether there was any gang involvement; (3) whether the conduct involved violence, threats of violence or the unlawful use of a weapon, as defined in section 29-38, and whether any injuries occurred; and (4) whether the conduct involved the use of alcohol. Any such board may authorize the administration to suspend transportation services for a pupil whose conduct while awaiting or receiving transportation to and from school endangers persons or property or is violative of a publicized policy of such board. Unless an emergency exists, no pupil shall be suspended without an informal hearing by the administration, at which such pupil shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, provided nothing herein shall be construed to prevent a more formal hearing from being held if the circumstances surrounding the incident so require, and further provided no pupil shall be suspended more than ten times or a total of fifty days in one school year, whichever results in fewer days of exclusion, unless such pupil is granted a formal hearing pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.

(b) In determining the length of a suspension period, the administration may receive and consider evidence of past disciplinary problems which have led to removal from a classroom, suspension or expulsion of such pupil.

(c) Whenever any administration suspends a pupil, such administration shall not later than twenty-four hours after the suspension notify the superintendent or such superintendent’s designee as to the name of the pupil against whom such disciplinary action was taken and the reason therefor.

(d) Any pupil who is suspended shall be given an opportunity to complete any classwork including, but not limited to, examinations which such pupil missed during the period of suspension.

(e) For any pupil who is suspended for the first time pursuant to this section and who has never been expelled pursuant to section 10-233d, the administration may shorten the length of or waive the suspension period if the pupil successfully completes an administration-specified program and meets any other conditions required by the administration. Such administration-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(f) Whenever a pupil is suspended pursuant to the provisions of this section, notice of the suspension and the conduct for which the pupil was suspended shall be included on the pupil’s cumulative educational record. Such notice shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or in the case of a suspension of a pupil for which the length of the suspension period is shortened or the suspension period is waived pursuant to subsection (e) of this section, such notice shall be expunged from the cumulative educational record by the local or regional board of education (1) if the pupil graduates from high school, or (2) if the administration so chooses, at the time the pupil completes the administration-specified program and
meets any other conditions required by the administration pursuant to said subsection (e), whichever is earlier.

(g) On and after July 1, 2015, all suspensions pursuant to this section shall be in-school suspensions, except a local or regional board of education may authorize the administration of schools under its direction to impose an out-of-school suspension on any pupil in (1) grades three to twelve, inclusive, if, during the hearing held pursuant to subsection (a) of this section, (A) the administration determines that the pupil being suspended poses such a danger to persons or property or such a disruption of the educational process that the pupil shall be excluded from school during the period of suspension, or (B) the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence of (i) previous disciplinary problems that have led to suspensions or expulsion of such pupil, and (ii) efforts by the administration to address such disciplinary problems through means other than out-of-school suspension or expulsion, including positive behavioral support strategies, or (2) grades preschool to two, inclusive, if during the hearing held pursuant to subsection (a) of this section, the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence that such pupil’s conduct on school grounds is of a violent or sexual nature that endangers persons. An in-school suspension may be served in the school that the pupil attends, or in any school building under the jurisdiction of the local or regional board of education, as determined by such board. Nothing in this section shall limit a person’s duty as a mandated reporter pursuant to section 17-101a to report suspected child abuse or neglect.

10-233d. Expulsion of pupils.

(a)(1) Any local or regional board of education, at a meeting at which three or more members of such board are present, or the impartial hearing board established pursuant to subsection (b) of this section, may expel, subject to the provisions of this subsection, any pupil in grades three to twelve, inclusive, whose conduct on school grounds or at a school-sponsored activity is violative of a publicized policy of such board or is seriously disruptive of the educational process, or (2) grades kindergarten to twelve, inclusive, whenever there is reason to believe that any pupil (A) on school grounds or at a school-sponsored activity, was in possession of a firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, (B) off school grounds, did possess such a firearm in violation of section 29-35 or did possess and use such a firearm, instrument or weapon in the commission of a crime under chapter 952, or (C) on or off school grounds, offered for sale or distribution a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with intent to sell or dispense, offering, or administering is subject to criminal penalties under sections 21a-277 and 21a-278. Such a pupil shall be expelled for one calendar year if the local or regional board of education or impartial hearing board finds that the pupil did so possess or so possess and use, as appropriate, such a firearm, instrument or weapon or did so offer for sale or distribution such a controlled substance,
provided the board of education or the hearing board may modify the period of expulsion for a pupil on a case-by-case basis, and as provided for in subdivision (2) of subsection (c) of this section.

(3) Unless an emergency exists, no pupil shall be expelled without a formal hearing held pursuant to sections 4-176e to 4-180a, inclusive, and section 4-181a, provided whenever such pupil is a minor, the notice required by section 4-177 and section 4-180 shall also be given to the parents or guardian of the pupil. If an emergency exists, such hearing shall be held as soon after the expulsion as possible. The notice shall include information concerning legal services provided free of charge or at a reduced rate that are available locally and how to access such services.

(b) For purposes of conducting expulsion hearings as required by subsection (a) of this section, any local or regional board of education or any two or more of such boards in cooperation may establish an impartial hearing board of one or more persons. No member of any such board or boards shall be a member of the hearing board. The hearing board shall have the authority to conduct the expulsion hearing and render a final decision in accordance with the provisions of sections 4-176e to 4-180a, inclusive, and section 4-181a.

(c) (1) In determining the length of an expulsion and the nature of the alternative educational opportunity to be offered under subsection (d) of this section, the local or regional board of education, or the impartial hearing board established pursuant to subsection (b) of this section, may receive and consider evidence of past disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(2) For any pupil expelled for the first time pursuant to this section and who has never been suspended pursuant to section 10-233c, except for a pupil who has been expelled based on possession of a firearm or deadly weapon as described in subsection (a) of this section, the local or regional board of education may shorten the length of or waive the expulsion period if the pupil successfully completes a board-specified program and meets any other conditions required by the board. Such board-specified program shall not require the pupil or the parent or guardian of the pupil to pay for participation in the program.

(d) Notwithstanding the provisions of subsection (a) of section 10-220, local and regional boards of education shall only be required to offer an alternative educational opportunity in accordance with this section. Any pupil under sixteen years of age who is expelled shall be offered an alternative educational opportunity during the period of expulsion, provided any parent or guardian of such pupil who does not choose to have his or her child enrolled in an alternative educational program shall not be subject to the provisions of section 10-184. Any pupil expelled for the first time who is between the ages of sixteen and eighteen and who wishes to continue his or her education shall be offered an alternative educational opportunity if he or she complies with conditions established by his or her local or regional board of education. Such alternative educational opportunity may include, but shall not be limited to, the placement of a pupil who is at least seventeen years of age in an adult education program pursuant to section 10-69. Any pupil participating in an adult education program during a period of expulsion shall not be required to withdraw from school under section 10-184. A local or regional board of education shall count the expulsion of a pupil when he was under sixteen years of age for purposes of determining whether an alternative educational opportunity is required for such pupil when he is between the ages of sixteen and eighteen. A local or regional board of education may offer an alternative educational opportunity to a pupil for whom such alternative educational opportunity is not required pursuant to this section.

(e) Notwithstanding the provisions of subsection (d) of this section concerning the provision of an alternative educational opportunity for pupils between the ages of sixteen and eighteen, local and regional boards of education shall not be required to offer such alternative to any pupil between the ages of sixteen and eighteen who is expelled because of conduct which endangers persons if it is determined at the expulsion hearing that the conduct for which the pupil is expelled involved (1) possession of a firearm,
as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, on school property or at a school-sponsored activity, or (2) offering for sale or distribution on school property or at a school-sponsored activity a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with the intent to sell or dispense, offering, or administration is subject to criminal penalties under sections 21a-277 and 21a-278. If a pupil is expelled pursuant to this section for possession of a firearm or deadly weapon the board of education shall report the violation to the local police department or in the case of a student enrolled in a technical high school to the state police. If a pupil is expelled pursuant to this section for the sale or distribution of such a controlled substance, the board of education shall refer the pupil to an appropriate state or local agency for rehabilitation, intervention or job training, or any combination thereof, and inform the agency of its action. Whenever a local or regional board of education notifies a pupil between the ages of sixteen and eighteen or the parents or guardian of such pupil that an expulsion hearing will be held, the notification shall include a statement that the board of education is not required to offer an alternative educational opportunity to any pupil who is found to have engaged in the conduct described in this subsection.

(f) Whenever a pupil is expelled pursuant to the provisions of this section, notice of the expulsion and the conduct for which the pupil was expelled shall be included on the pupil’s cumulative educational record. Such notice, except for notice of an expulsion of a pupil in grades nine to twelve, inclusive, based on possession of a firearm or deadly weapon as described in subsection (a) of this section, (1) shall be expunged from the cumulative educational record by the local or regional board of education if a pupil graduates from high school, or (2) may be expunged from the cumulative educational record by the local or regional board of education before a pupil graduates from high school if (A) in the case of a pupil for which the length of the expulsion period is shortened or the expulsion period is waived pursuant to subdivision (2) of subsection (c) of this section, such board determines that an expungement is warranted at the time such pupil completes the board-specified program and meets any other conditions required by such board pursuant to subdivision (2) of subsection (c) of this section, or (B) such pupil has demonstrated to such board that the conduct and behavior of such pupil in the years following such expulsion warrants an expungement. A local or regional board of education, in determining whether to expunge such notice under subparagraph (B) of this subdivision, may receive and consider evidence of any subsequent disciplinary problems that have led to removal from a classroom, suspension or expulsion of such pupil.

(g) A local or regional board of education may adopt the decision of a pupil expulsion hearing conducted by another school district provided such local or regional board of education or impartial hearing board shall hold a hearing pursuant to the provisions of subsection (a) of this section which shall be limited to a determination of whether the conduct which was the basis for the expulsion would also warrant expulsion under the policies of such board. The pupil shall be excluded from school pending such hearing. The excluded student shall be offered an alternative educational opportunity in accordance with the provisions of subsections (d) and (e) of this section.

(h) Whenever a pupil against whom an expulsion hearing is pending withdraws from school after notification of such hearing but before the hearing is completed and a decision rendered pursuant to this section, (1) notice of the pending expulsion hearing shall be included on the pupil’s cumulative educational record, and (2) the local or regional board of education or impartial hearing board shall complete the expulsion hearing and render a decision. If such pupil enrolls in school in another school district, such pupil shall not be excluded from school in the other district pending completion of the expulsion hearing pursuant to this subsection unless an emergency exists, provided nothing in this subsection shall limit the authority of the local or regional board of education for such district to suspend the pupil or to conduct its own expulsion hearing in accordance with this section.
(i) Prior to conducting an expulsion hearing for a child requiring special education and related services described in subparagraph (A) of subdivision (5) of section 10-76a, a planning and placement team shall convene to determine whether the misconduct was caused by the child’s disability. If it is determined that the misconduct was caused by the child’s disability, the child shall not be expelled. The planning and placement team shall reevaluate the child for the purpose of modifying the child’s individualized education program to address the misconduct and to ensure the safety of other children and staff in the school. If it is determined that the misconduct was not caused by the child’s disability, the child may be expelled in accordance with the provisions of this section applicable to children who do not require special education and related services. Notwithstanding the provisions of subsections (d) and (e) of this section, whenever a child requiring such special education and related services is expelled, an alternative educational opportunity, consistent with such child’s educational needs shall be provided during the period of expulsion.

(b) A local or regional board of education may provide alternative education to students, in accordance with guidelines established by the State Board of Education pursuant to section 10-74k. A local or regional board of education may use space in an existing school or establish a new school for the purposes of providing alternative education to students. Alternative education shall be provided in accordance with the provisions of sections 10-15 and 10-16 and shall be subject to all federal and state laws governing public schools.

(c) Each local and regional board of education shall make available on its Internet web site information relating to alternative education offered under this section, including, but not limited to, the purpose, location, contact information, staff directory and enrollment criteria for such alternative education.

(a) The Department of Education shall develop guidelines for the provision of alternative education, as defined in section 10-74j. Such guidelines shall include, but not be limited to, a description of the purpose and expectations of alternative education, criteria for who is eligible to receive alternative education and criteria for how and when a student may enter or exit alternative education.

(b) The department shall assign an identification code and organization code to each school or program of alternative education provided by a local or regional board of education for purposes of collecting, tracking and monitoring such alternative education in the public school information system, pursuant to section 10-10a.

Such alternative educational opportunity may include, but shall not be limited to, the placement of a pupil who is at least seventeen years of age in an adult education program pursuant to section 10-69. Any pupil participating in any such adult education program during a period of expulsion shall not be required to withdraw from school under section 10-184. A local or regional board of education may offer an alternative educational opportunity to a pupil for whom such alternative educational opportunity is not required pursuant to this section.

(e) Notwithstanding the provisions of subsection (d) of this section concerning the provision of an alternative educational opportunity for pupils between the ages of sixteen and eighteen, local and regional boards of education shall not be required to offer such alternative to any pupil between the ages of sixteen and eighteen who is expelled because of conduct which endangers persons if it is determined at the expulsion hearing that the conduct for which the pupil is expelled involved (1) possession of a firearm, as defined in 18 USC 921, as amended from time to time, or deadly weapon, dangerous instrument or martial arts weapon, as defined in section 53a-3, on school property or at a school-sponsored activity, or (2) offering for sale or distribution on school property or at a school-sponsored activity a controlled substance, as defined in subdivision (9) of section 21a-240, whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with the intent to sell or dispense, offering, or administration is subject to criminal penalties under sections 21a-277 and 21a-278. If a pupil is expelled pursuant to this section for possession of a firearm or deadly weapon the board of education shall report the violation to the local police department or in the case of a student enrolled in a technical high school to the state police. If a pupil is expelled pursuant to this section for the sale or distribution of such a controlled substance, the board of education shall refer the pupil to an appropriate state or local agency for rehabilitation, intervention or job training, or any combination thereof, and inform the agency of its action. Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. 30.1 Case by case determination: School personnel may consider any unique circumstances on a case by case basis when determining whether a change in placement, consistent with the other requirements of this section, is appropriate for a child with a disability who violates a code of student conduct.

30.2 School personnel under 30.0 may remove a child with a disability who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than ten (10) consecutive school days (to the extent those alternatives are applied to children without disabilities), and for additional removals of not more than ten (10) consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under 36.0).

30.2.1 After a child with a disability has been removed from his or her current placement for ten (10) school days in the same school year, during any subsequent days of removal the public agency shall provide services to the extent required under 30.4 of this section.

30.3 Additional authority: For disciplinary changes in placement that would exceed ten (10) consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child’s disability pursuant to 30.5, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in 30.4.

30.4 Services:

30.4.1 A child with a disability who is removed from the child’s current placement pursuant to 30.3 or 30.7 shall continue to receive educational services, as provided in 14 DE Admin. 30.4.3 A public agency is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for ten (10) school days or less in that school year, if it provides services to a child without disabilities who is similarly removed.

30.4.4 After a child with a disability has been removed from his or her current placement for ten (10) school days in the same school year, if the current removal is for not more than ten (10) consecutive school days and is not a change of placement under 36.0, school personnel, in consultation with at least one (1) of the child’s teachers, determine the extent to which services are needed, as provided in 14 DE Admin. Code 923.1.2 so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child’s IEP.

30.5.2 If the conduct in question was the direct result of the LEA’s failure to implement the IEP.

30.5.3 The conduct shall be determined to be a manifestation of the child’s disability if the LEA, the parent, and relevant members of the child’s IEP Team determine that a condition in either 30.5.1 or 30.5.2 was met.

30.5.4 If the LEA, the parent, and relevant members of the child’s IEP Team determine the condition described in 30.5.2 was met, the LEA shall take immediate steps to remedy those deficiencies.

30.6 Determination that the behavior was a manifestation: If the LEA, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child’s disability, the IEP Team shall either:

30.6.1 Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or

30.6.2 If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; and

30.6.3 Except as provided in 30.7, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.

30.7 Special circumstances: School personnel may remove a student to an interim alternative educational setting for not more than forty five (45) school days without regard to whether the behavior is determined to be a manifestation of the child’s disability, if the child:

30.8.1 On the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct, the LEA shall notify the parents of that decision, and provide the parents the procedural safeguards notice described in 4.0.

34.2. Basis of knowledge: A public agency shall be deemed to have knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred:

Code 925.1.0 through 925.12.0 and determined to not be a child with a disability under these regulations.

34.4. Conditions that apply if no basis of knowledge: If a public agency does not have knowledge that a child is a child with a disability (in accordance with 34.2 and 34.3) prior to taking disciplinary measures against the child, the child may be subjected to the disciplinary measures applied to children without disabilities who engage in comparable behaviors consistent with the following requirements:

34.4.1. If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures in 30.0, the evaluation shall be conducted in an expedited manner.

(b) While a student is entrusted in their care or supervision, public school teachers and administrators have the same authority to control the behavior of the student and to discipline or punish the student as a parent, custodian, guardian or other person similarly responsible for the care and supervision of the student except as provided in § 702 § 4112F of this title. The authority includes removing a student from a classroom or school-sponsored activity.

(c) When a teacher removes a student from a classroom or school-sponsored activity in an effort to control the student's disruptive behavior, an on-site school administrator may, upon a written showing of good cause, override the teacher's decision to remove the student from the classroom or school-sponsored activity. Before overriding a teacher's decision, the administrator shall strongly presume that the teacher's decision to remove the student was reasonable and necessary under the circumstances.

(d) When a student is removed from a classroom or school-sponsored activity or is disciplined or punished pursuant to this section, the principal or the principal's designee shall afford the student appropriate due process as required by the federal and State constitutions.

(f) When a teacher or school administrator removes a student from a classroom or school-sponsored activity or disciplines or punishes a student, a rebuttable presumption exists that the teacher or administrator acted reasonably, in good faith, and in accordance with State or local board of education policy. The burden of overcoming the presumption shall be upon the student.

(g) Each local board of education shall establish, adopt, publish and distribute to students in the district and their parents or guardians policy or standards that:

(1) Specify the general circumstances under which a student may be removed from a classroom or school-sponsored activity, consistent with a teacher's ultimate authority to determine disruptive behavior and to remove a student from a classroom or school-sponsored activity; and

(2) Further define and/or provide examples of "disruptive behavior" set forth in subsection (a) of this section.

(h) A district shall not establish or adopt a policy or standards that prohibit the removal of a student from a classroom or school-sponsored activity.

(i) No teacher who purports to have acted pursuant to the teacher's rights established by this chapter shall be found liable for civil damages arising from that action unless that teacher's conduct shocks the conscience.

(b) When a parent fails to attend, participate or respond to a public school or charter school superintendent's request for a conference to discuss matters involving alleged violations of school rules or regulations by the parent's child, the public school or charter school superintendent or the superintendent's designee may request that the Justice of the Peace Court issue a subpoena to compel the presence of the parent at a conference with the superintendent.

(c) Prior to the issuance of a subpoena to compel the presence of a parent, the superintendent or a designee must provide evidence that the superintendent or a designee has:

1. Made a reasonable attempt to schedule the conference at a time that does not conflict with the employment hours of the parent; and
2. Sent written notice of the conference by regular United States mail to the address of record of the parent, which notice shall include the reason for the conference and a statement that failure to schedule or attend the conference may result in the issuance of a subpoena.

(d) After verifying that the superintendent or a designee has sent the required notice, the Justice of the Peace Court may, in its discretion, issue a subpoena pursuant to Justice of the Peace Civil Rule 18 which shall compel the presence of the parent at a conference with the superintendent.

(e) If a parent fails to obey a subpoena properly served under this section, the superintendent may file a motion for an order holding the parent in contempt of court. The Justice of the Peace Court shall have jurisdiction over this matter. A parent found guilty of contempt for failure to appear at a conference after receiving a subpoena may be ordered by the Court to attend school with the student, attend family counseling, and/or comply with such other conditions as the Court may order.

(f) Proceedings against a parent of a suspended or expelled child may also be filed pursuant to subchapter II of Chapter 27 of this title for each day that the child is absent beyond the period of suspension or expulsion without a valid excuse as a result of the parent's failure to attend or schedule a conference after having received notification of the suspension or expulsion.

Principal shall explain to the Parent and the student the purpose of the meeting is to inform them: 1)
of the recommendation for Expulsion; 2) that the student will be serving a Short-term Suspension
pending the outcome of the Expulsion hearing and; 3) of the procedures that will take place as follow-
up to the recommendation for Expulsion.

conference or shall have the conference audio recorded.

10.2.4. All documentation related to the recommendation for Expulsion shall be delivered to the
Superintendent within two (2) business days of the Building Level Conference or seven (7) business
days of the incident, whichever is sooner.

10.3. Expulsion Hearings

10.3.1. Upon receipt of a recommendation following the Building Level Conference, the
Superintendent shall review documentation to affirm that appropriate discipline procedures were
followed. The Superintendent shall, within ten (10) business days of the date of the incident, notify the
student and the Parent by letter that a district-level Expulsion hearing will be held to consider the
recommendation.

10.3.1.1 The Superintendent shall not have been a participant in the disciplinary investigation or
Building Level Conference resulting in the recommendation for Expulsion.

10.3.2. Written notice shall, at a minimum, be sent by regular U.S. and certified mail to the Parent
describing the circumstances which led to the recommendation for Expulsion and shall give the date,
time, and location of the hearing.

10.3.3. The hearing shall be held not less than seven (7) business days or more than twenty (20)
business days after receipt of written notice. The written notice shall be deemed to be received on the
fourth business day following the day of mailing. This time period may be waived by agreement of the
parties. A copy of the documentation shall be made available, upon request, to the student and
Parent at the district/charter school office prior to the mailing.

10.3.4. If requested, the student and Parent will also be given a copy of the following:

10.3.4.1. The reason(s) for the recommendation;
10.3.4.2. The name(s) of witnesses who may appear; and
10.3.4.3. Copies of information that may be submitted as evidence.

10.3.5. The district/charter shall receive written Parent permission for any witness who is a minor.

10.3.6. The hearing shall be conducted by a district/charter Board of Education or Hearing Officer.

10.3.7. The Board of Education or Hearing Officer shall have full authority to admit or exclude
evidence.

of evidence or by technical or formal rules of procedure except as herein stated.

10.3.7.3. The Board of Education or Hearing Officer may exclude plainly irrelevant, immaterial,
insubstantial, cumulative and privileged evidence.

10.3.7.4. The Board of Education or Hearing Officer may limit unduly repetitive proof, rebuttal and
cross examination.

10.3.8. In conducting the hearing, the district/charter school shall submit evidence first followed by the
response of the student, if any.

10.3.8.1. Further evidence by either party may be presented at the hearing if the Board of Education
or Hearing Officer determines such evidence is necessary.

10.3.9. The Superintendent presenting the case on the part of the district/charter school shall not
testify.

10.3.10. The hearing shall be recorded in a manner that will permit transcription.

10.3.11. The student shall have the following rights:

10.3.11.1. To be represented by legal counsel at the student's expense;

10.3.11.2. To cross-examine witnesses;

10.3.11.3. To testify and produce witnesses on his/her behalf; and

10.3.11.4. To obtain, at the student's expense, a copy of the transcript of the hearing.

10.3.12. In lieu of a formal Expulsion hearing, a student may elect to waive the hearing and admit to
the student's violation charge(s). The student and Parent shall submit a signed written hearing waiver
which indicates that the student is knowingly and voluntarily waiving their right to the hearing. Such
election may be exercised until the commencement of the hearing. This waiver does not absolve the
student from required consequences under Federal or State Law or the Student Code of Conduct.

10.4. Expulsion Decision by Board of Education

10.4.1. Decision after Hearing Officer Presides over Hearing

10.4.1.1. Within five (5) business days following the conclusion of an Expulsion hearing conducted
by a Hearing Officer, a written report shall be prepared by the Hearing Officer for the
Superintendent.

10.4.1.1.1. The report shall frame the issues, summarize the evidence, state conclusions of fact,
and make a recommendation as to whether the student should be expelled.
10.4.1.2. The Board of Education shall make its decision at the next scheduled public Board Meeting or additional scheduled public board meeting for the sole purpose of deciding on the student disciplinary matter in question.

10.4.1.2.1. The Board shall conduct a review of the Hearing Officer's recommendation. The Board may accept, reject, or modify the recommendation of the Hearing Officer. The Board's decision shall be in writing in accordance with subsection 10.4.5 of this regulation and shall be based solely upon the report from the Hearing Officer and the record of the Expulsion hearing, if any.

10.4.2. Decision after Board of Education Presides over Hearing

10.4.2.1. Following the conclusion of an Expulsion hearing conducted by the Board of Education, the Board shall frame the issues, summarize the evidence, state conclusions of fact and render its decision.

10.4.2.2. The Board's decision shall be in writing in accordance with subsection 10.4.5 and shall be based solely upon the record of the Expulsion hearing of which it presided over.

10.4.3. Decision After Waiving of Hearing Rights and Admission to Violation Charges

10.4.3.1. Within five (5) business days following the waiving of hearing rights and admission of violation charges, the Superintendent shall prepare a report for the Board of Education's action at it's next public board meeting or an additional scheduled public board meeting for the sole purpose of deciding on the student disciplinary matter in question.

10.4.4. Eligible expelled students shall be placed in a Consortium Discipline Alternative Program in accordance with 14 Del.C. §1604 and 14 DE Admin. Code 611. The Board shall determine if the students not eligible for placement in a Consortium Discipline Alternative Program shall be expelled with or without Appropriate Educational Services.

10.4.5. Any decision to expel a student shall be reported to the Delaware Department of Education within five (5) business days of the Board's decision to expel. When a Board of Education expels a student, but determines the student shall not be placed at a Consortium Discipline Alternative Program, the written decision shall address with specificity the reason for non-placement and the evidence in support thereof. Such decisions shall be submitted to the Delaware Department of Education's Office of School Climate and Discipline within five business days of such decision, with a copy to the student's Parent.

10.4.6. Except as is otherwise provided herein, within ten (10) business days of the decision by the Board, the Board, through its designee, shall submit its decision to the Superintendent and Parent and student in writing. The written decision shall include notice of the right to appeal to the State Board of Education.

10.5. Calculation of Time

10.5.1. In calculating the period of time for the term of the Expulsion, school days will be used. Students receiving residential services from a Department of Services for Children, Youth and Their Families (DSCYF) program shall have the amount of school days served in such program counted as part of the calculation of time for an Expulsion. This does not preclude a district/charter from transitioning a student from a YRS program to the Regular School Program through an Alternative Program. However, transition through an Alternative Program is not required.

10.6. Notification of Expulsion to Division of Motor Vehicle

10.6.1. The Delaware Division of Motor Vehicle shall be notified of the beginning and ending date of Expulsion for students who are expelled from the School district/charter school as a request for suspension of driving privileges in accordance with 14 Del.C. §4130(e)(1).
10.6.2. A copy of the Delaware Division of Motor Vehicle form shall be forwarded to the Delaware Department of Education’s Office of School Climate & Discipline.

11.0. Students with Disabilities

11.1. Nothing in this regulation shall alter a district/charter school's duties under the Individual with Disabilities Act (IDEA) or 14 DE Admin. Code 922 through 929. Nothing in this regulation shall prevent a district/charter school from providing supportive instruction to children with disabilities in a manner consistent with the Individuals with Disabilities Education Act (IDEA) and Delaware Department of Education regulations.

11.2. Nothing in this regulation shall alter a district/charter school's duties under Section 504 of the Rehabilitation Act of 1973 or the Americans with Disabilities Act to students who are qualified individuals with disabilities. Nothing in this regulation shall prevent a district/charter School from providing supportive instruction to such students.

LAWS

14 Del.C. §701. Authority of teachers and administrators to control the disruptive behavior of students.

(e) When a student is removed from a classroom or school-sponsored activity, the principal or the principal's designee and the removing teacher shall determine if and when a student may be readmitted to the classroom or school-sponsored activity. If the teacher and principal or principal's designee cannot agree, the superintendent or the superintendent's designee shall make the determination.

14 Del.C. §4130. Expulsion of students; re-enrollment; loss of driver's license.

(a) In any case where a public school student is expelled from a school district or a charter school, the expelled student shall not be permitted to reenroll in any other school district or charter school in this State until after the full period of expulsion from the school district or charter school where the student was expelled shall have expired.

(b) Prior to enrolling any student who attempts to transfer to a school district or charter school in this State, the superintendent of that school district, or the superintendent's designee, the head of a charter school or such head's designee shall first contact the last school district or charter school where the student was last enrolled, if in this State, to determine if that student is under a current expulsion order in that district or charter school. If it is determined that the student is under a current expulsion order, that student shall not be permitted to enroll until the expulsion order has expired as set forth in subsection (a) of this section.

(c) Any student who has been expelled from a public school in this State or in any other state shall, prior to enrollment in any public school in this State, completely fulfill the terms of that expulsion.
(d) The provisions of subsections (a), (b) and (c) of this section shall not apply to any case in which a student is seeking to enroll in the James H. Grove High School or in any alternative educational or other related program developed to provide educational services to children who have discipline problems.

(e)(1) In any case where a person is expelled from a public school, the superintendent of schools for the school district in which such school is located shall send written notice of such expulsion to the Division of Motor Vehicles. Such notice shall be sufficient authority for the Division to suspend, or refuse to renew, any driver's license already issued to such person; or to refuse to issue a license to anyone reported by a superintendent to have been expelled from school. Such expelled person shall remain ineligible for the issuance of a new license, or for the renewal or reinstatement of a present or former license until the Division receives such proof as it may require that such person is again eligible for a driver's license.

(2) An expelled person whose license has been suspended may have such license reinstated, or a new license issued, if any of the following requirements are met:
   a. The length of the expulsion is complete;
   b. Such person is 19 years of age or older; or
   c. Two years have elapsed since the date of expulsion.

(3) To have a driver's license reinstated, or to obtain a new license, an expelled student must meet one of the requirements set forth in paragraph (e)(2) of this section; must apply in person to the Division of Motor Vehicles; and must provide the Division with verification from the school, or such proof as the Division may require.

(4) Where a person does not have a driver's license because the Division has suspended or refused to renew a license to such person in accordance with this section, such person may apply to the Division for a conditional license. The Division shall not issue any conditional license under this section unless such person's application:
   a. Is made upon a form prescribed by the Division, and sworn to by the applicant;
   b. Contains a statement setting forth those hardships which would occur if a conditional license were not granted; and
   c. Contains a sworn statement that the applicant shall comply with all conditions placed upon such conditional license.

LAWS

11 Del.C. §468 Justification - Use of force by persons with special responsibility for care, discipline or safety of others.

The use of force upon or toward the person of another is justifiable if it is reasonable and moderate and:
(1) The defendant is the parent, guardian, foster parent, legal custodian or other person similarly responsible for the general care and supervision of a child, or a person acting at the request of a parent, guardian, foster parent, legal custodian or other responsible person, and:

a. The force is used for the purpose of safeguarding or promoting the welfare of the child, including the prevention or punishment of misconduct; and

b. The force used is intended to benefit the child, or for the special purposes listed in paragraphs (2) a., (3)a., (4)a., (5), (6) and (7) of this section. The size, age, condition of the child, location of the force and the strength and duration of the force shall be factors considered in determining whether the force used is reasonable and moderate; but

c. The force shall not be justified if it includes, but is not limited to, any of the following: Throwing the child, kicking, burning, cutting, striking with a closed fist, interfering with breathing, use of or threatened use of a deadly weapon, prolonged deprivation of sustenance or medication, or doing any other act that is likely to cause or does cause physical injury, disfigurement, mental distress, unnecessary degradation or substantial risk of serious physical injury or death; or

(2) The defendant is a teacher or a person otherwise entrusted with the care or supervision of a child for a special purpose, and:

a. The defendant believes the force used is necessary to further the special purpose, including the maintenance of reasonable discipline in a school, class or other group, and that the use of force is consistent with the welfare of the child; and

b. The degree of force, if it had been used by the parent, guardian, foster parent or legal custodian of the child, would be justifiable under paragraph (1)a. and b. of this section and not enumerated under paragraph (1)c. of this section; or

(3) The defendant is the guardian or other person similarly responsible for the general care and supervision of a person who is incompetent, and:

a. The force is used for the purpose of safeguarding or promoting the welfare of the person who is incompetent, including the prevention of misconduct, or, when such person who is incompetent is in a hospital or other institution for care and custody, for the maintenance of reasonable discipline in such institution; and

b. The force used is reasonable and moderate; the size, age, condition of the person who is incompetent, location of the force and the strength and duration of the force shall be factors considered in determining whether the force used is reasonable and moderate; and

c. The force is not enumerated under paragraph (1)c. of this section; and

d. The force is not proscribed as abuse or mistreatment under Chapter 11 of Title 16;

14 Del.C. §701. Authority of teachers and administrators to control the disruptive behavior of students.

(a) "Disruptive behavior" includes conduct that is so unruly, disruptive or abusive that it seriously interferes with a school teacher's or school administrator's ability to communicate with the students in a classroom, with a student's ability to learn, or with the operation of a school or a school-sponsored activity.

(b) While a student is entrusted in their care or supervision, public school teachers and administrators have the same authority to control the behavior of the student and to discipline or punish the student as a parent, custodian, guardian or other person similarly responsible for the care and supervision of the student except as provided in § 702 and § 4112F of this title. The authority includes removing a student from a classroom or school-sponsored activity.
(c) When a teacher removes a student from a classroom or school-sponsored activity in an effort to control the student's disruptive behavior, an on-site school administrator may, upon a written showing of good cause, override the teacher's decision to remove the student from the classroom or school-sponsored activity. Before overriding a teacher's decision, the administrator shall strongly presume that the teacher's decision to remove the student was reasonable and necessary under the circumstances.

(d) When a student is removed from a classroom or school-sponsored activity or is disciplined or punished pursuant to this section, the principal or the principal's designee shall afford the student appropriate due process as required by the federal and State constitutions.

(e) When a student is removed from a classroom or school-sponsored activity, the principal or the principal's designee and the removing teacher shall determine if and when a student may be readmitted to the classroom or school-sponsored activity. If the teacher and principal or principal's designee cannot agree, the superintendent or the superintendent's designee shall make the determination.

(f) When a teacher or school administrator removes a student from a classroom or school-sponsored activity or disciplines or punishes a student, a rebuttable presumption exists that the teacher or administrator acted reasonably, in good faith, and in accordance with State or local board of education policy. The burden of overcoming the presumption shall be upon the student.

(g) Each local board of education shall establish, adopt, publish and distribute to students in the district and their parents or guardians policy or standards that:

1. Specify the general circumstances under which a student may be removed from a classroom or school-sponsored activity, consistent with a teacher's ultimate authority to determine disruptive behavior and to remove a student from a classroom or school-sponsored activity; and
2. Further define and/or provide examples of “disruptive behavior” set forth in subsection (a) of this section.

(h) A district shall not establish or adopt a policy or standards that prohibit the removal of a student from a classroom or school-sponsored activity.

(i) No teacher who purports to have acted pursuant to the teacher's rights established by this chapter shall be found liable for civil damages arising from that action unless that teacher's conduct shocks the conscience.

14 Del.C. §4112F. Limitations on use of seclusion and restraint.

(a) Definitions. The following words, terms, and phrases when used in this section, shall have the meaning ascribed to them except where the context clearly indicates a different meaning:

1. "Chemical restraint" means a drug or medication used on a student to control behavior or restrict freedom of movement that is either not medically prescribed for the standard treatment of a student's medical or psychiatric condition or not administered as prescribed.

2. "Mechanical restraint" means the application of any device or object that restricts a student's freedom of movement or normal access to a portion of the body that the student cannot easily remove. "Mechanical restraint" does not include devices or objects used by trained school personnel, or used by a student, for the specific and approved therapeutic or safety purposes for which they were designed and, if applicable, prescribed, including the following:
   a. Restraints for medical immobilization;
   b. Adaptive devices or mechanical supports used to allow greater freedom of movement stability than would be possible without use of such devices or mechanical supports;
   c. Vehicle safety restraints when used as intended during the transport of a student in a moving vehicle;
d. Instruction and use of restraints as part of a criminal justice or other course; or

e. Notwithstanding their design for other purposes, adaptive use of benign devices or objects, including mittens and caps, to deter self-injury.

(3) "Physical restraint" means a restriction imposed by a person that immobilizes or reduces the ability of a student to freely move arms, legs, body, or head. "Physical restraint" does not include physical contact that:

a. Helps a student respond or complete a task;

b. Is needed to administer an authorized health-related service or procedure; or

c. Is needed to physically escort a student when the student does not resist or the student's resistance is minimal.

(4) "Public school personnel" means an employee or contractor of a public school district or charter school. "Public school personnel" does not include the following:

a. A law-enforcement officer as defined in § 9200(b) of Title 11; or

b. An employee or contractor providing educational services within a Department of Correction or Division of Youth Rehabilitative Services facility.

(5) "Seclusion" means the involuntary confinement of a student alone in a room, enclosure, or space that is either locked or, while unlocked, physically disallows egress. The use of a "timeout" procedure during which a staff member remains accessible to the student shall not be considered "seclusion."

(6) "Timeout" means a behavior management technique in which, to provide a student with the opportunity to reflect or regain self-control, a student is separated from others for a limited period in a setting that is not locked and the exit is not physically blocked by furniture, closed door held shut from outside, or other inanimate object.

(b) Prohibition and restriction on use.

(1) Public school personnel are prohibited from imposing on any student the following:

a. Chemical restraint; and

b. Subject to waiver authorized pursuant to paragraph (c)(4) of this section, mechanical restraint and seclusion.

(2) Public school personnel may impose physical restraint only in conformity with all of the following standards:

a. The student's behavior presents a significant and imminent risk of bodily harm to self or others;

b. The physical restraint does not interfere with the student's ability to communicate in the student's primary language or mode of communication;

c. The physical restraint does not interfere with the student's ability to breathe or place weight or pressure on the student's head, throat, or neck;

d. The physical restraint does not recklessly exacerbate a medical or physical condition of the student;

e. Less restrictive interventions have been ineffective in stopping the imminent risk of bodily harm to the student or others, except in case of a rare and clearly unavoidable emergency circumstance posing imminent risk of bodily harm, including, without limitation, intervening in a student initiated physical assault or altercation;

f. For a student with a disability as defined in Chapter 31 of this title or 34 C.F.R. Part 104, the physical restraint does not contravene provisions in an individualized education program (IEP), behavior intervention plan, accommodation plan, or any other planning document for the individual student;
g. Personnel use only the amount of force necessary to protect the student or others from the threatened harm;
h. The physical restraint ends when a medical condition occurs putting the student at risk of harm or the student’s behavior no longer presents an imminent risk of bodily harm to the student or others;
i. The physical restraint is within the scope of force authorized by § 468 of Title 11; and
j. The physical restraint conforms to applicable regulations promulgated by the Department of Education.

(c) Department of Education role; regulations.

(1) The Department of Education shall promulgate regulations implementing this section. Such regulations shall include, but not be limited to, the following:
   a. Requirement of uniform public school data collection on each use of physical restraint, by school, which includes demographic information on affected students such as age, gender, race, ethnicity, and disability category, if any;
   b. Requirement of timely parental notice in event of use of physical restraint;
   c. Special procedures and safeguards applicable to use of physical restraint for students with disabilities as defined in Chapter 31 of this title or 34 C.F.R. Part 104; and
   d. Recommended or required training of public school personnel in implementing this section.

(2) To facilitate data collection and analysis, the Department of Education may adopt a uniform reporting document and may require reporting of data in a standardized electronic or nonelectronic format.

(3) The Department of Education shall issue an annual report on use of physical restraint which includes rates of usage by school and by subcategories identified in paragraph (c)(1)a. of this section, identifies trends, and analyzes significant results.

(4) Unless proscribed by federal law, the Secretary of Education may issue a waiver of the prohibition on mechanical restraint and seclusion for an individual student based on compelling justification and subject to specific conditions and safeguards which must include a requirement of continuous visual staff monitoring and parental notice of each use of mechanical restraint or seclusion.

(d) Effect on other laws. The limitations and prohibitions described in this section are in addition to, and not in derogation of, any other constitutional, statutory, or regulatory rights otherwise conferred by federal or state law or regulation.

REGULATIONS

1.0 Purpose and Authority

1.1 The purpose of these regulations is to establish standards and procedures for the use of physical restraint, chemical restraint, mechanical restraint, and seclusion to provide safety for all individuals. The regulations set forth permitted and prohibited uses of restraint and seclusion, required training for public school, private program, or alternative program personnel, required documentation and reporting of incidents of restraint and seclusion, required notification to parents, and waiver procedures for individual students.

(a)(1) A pupil accepted for enrollment in a school or program pursuant to this chapter shall be entitled to remain enrolled therein until graduation from the school or completion of the program provided that the pupil continues to meet the requirements for such school or program, provided however, that upon the concurrence of the boards of both the district of residence and the receiving district, a pupil's right to remain enrolled may be terminated prior to graduation from or completion of the program where such termination is based upon the pupil's

a. Failure to continue to comply with the receiving district's requirements for attending school or class,

or

b. Multiple violations of, or one or more serious violations of, the receiving district's student code of conduct.

(2) A pupil accepted for enrollment in a school or program pursuant to this chapter shall remain enrolled therein for a minimum of 2 years unless, during that 2-year period,

a. A pupil graduates from the school or completes the program;

b. The pupil's parent or parents cease to be residents of the pupil's original district of residence;
c. At the conclusion of any academic year during such 2-year period, the pupil ceases to meet the academic requirements for such school or program;

d. If daycare was indicated on the relevant choice application as a reason for seeking enrollment, or if daycare was a reason for granting priority to consideration of or granting of the relevant choice application, or the provider of daycare services to the pupil ceases doing business or relocates to a location so distant from the original location as to render the original combination of daycare and choice enrollment no longer reasonably practicable for the pupil or the parent or parents of such pupil; or

e. The board of the district of residence, the board of the receiving district, and the parent or parents of the pupil agree for any reason to terminate such enrollment;

f. The provisions of paragraphs (a)(2)a. through (a)(2)e. of this section shall apply unless the receiving district, at its sole discretion, agrees to maintain a child in a choice placement. Due to the unique educational and developmental needs of primary age children, on a case by case basis, districts may grant exceptions to allow students in grades kindergarten through grade 3 to remain in school choice even if they fail to meet required educational standards;

g. The pupil's parents or guardians wish to terminate the agreement due to a reported, recorded, and substantiated instance of "bullying" against their child as defined in § 4161 of this title

(b) Notwithstanding the provisions of subsection (a) of this section, a parent may apply to terminate that parent's own child's enrollment in the receiving district prior to the expiration of the minimum period established in subsection (a) of this section by submitting a written application, on a form provided by the Department of Education, to the child's then-existing district of enrollment no later than December 1 for enrollment during the following school year.

(c) If a parent of a child fails to file an application by the deadline of December 1 and good cause exists for the failure to meet the deadline, the child's then-existing district of enrollment shall accept and consider the application in the same manner as if the deadline had been met.

(d) The parent of a child may withdraw the application at any time prior to action on the application by the board of the child's then-existing district of enrollment.

(e) Within 10 working days of receiving an application to withdraw, the child's then-existing district of enrollment shall transmit a notice to the district of residence that it has received the application.

(f) The board of the child's then-existing district of enrollment shall take action to approve or disapprove the application no later than December 15 of the school year preceding enrollment.

(g) The board of the receiving district shall transmit a notice of the board's action to the parent of the child and to the board of the district of residence within 5 working days after board action.

(h) The action of a board in a child's then-existing district of enrollment to accept an application to terminate enrollment pursuant to this section shall be final; however, nothing in this subsection shall prohibit a board in its sole discretion from conditioning its approval of termination pursuant to this section upon acceptance of the child into another district or program pursuant to an application submitted in accordance with chapter.

(i) Unless accepted for enrollment in a school or program in another district pursuant to this chapter, a child whose enrollment in a receiving district concludes or terminates pursuant to this section shall automatically be re-enrolled in the child's district of residence for the ensuing school year. Any such student shall be enrolled by the district of residence according to the feeder pattern in which the child's parent resides unless, pursuant to the provisions of § 405(b) of this title, all available space has been filled by returning students, in which case the student shall apply and be considered for enrollment in any other school in the district of residence in which there is space available in accordance with the provisions of this chapter.

"Valid excuse" shall have the same meaning as in § 2721 of this title.

(8) Establish reasonable academic and disciplinary standards specifically related to the missions, goals and educational objectives for the charter school as set forth in its charter for students to continue enrollment in the charter school; provided, however, that an expulsion from a charter school shall have the same effect for the purposes of § 4130 of this title as expulsion from a school district. Charter schools may refer students to the alternative programs operated pursuant to the provision of Chapter 16 of this title subject to the following conditions:

a. A student may only be referred to a program which serves that student's district of residence and only if there is space available in such program to serve the student;

b. The student otherwise meets eligibility criteria for students who may be enrolled in such program; and

c. The student's district of residence and the charter school in which the student is enrolled agree to a proration of student funding between or among the charter school and the school district in which the student resides, in which case the district of residence shall become liable for any cost associated with the placement of the student in the alternative program;

The application shall also include a budget of proposed expenditures during a fiscal year. That budget shall indicate, at a minimum, the funds being requested from appropriations authorized under this section and funds to be obtained from all other sources.

10.4.1.2. The Board of Education shall make its decision at the next scheduled public Board Meeting or additional scheduled public board meeting for the sole purpose of deciding on the student disciplinary matter in question.

10.4.1.2.1. The Board shall conduct a review of the Hearing Officer's recommendation. The Board may accept, reject, or modify the recommendation of the Hearing Officer. The Board's decision shall be in writing in accordance with subsection 10.4.5 of this regulation and shall be based solely upon the report from the Hearing Officer and the record of the Expulsion hearing, if any.

10.4.2. Decision after Board of Education Presides over Hearing

10.4.2.1. Following the conclusion of an Expulsion hearing conducted by the Board of Education, the Board shall frame the issues, summarize the evidence, state conclusions of fact and render its decision.

10.4.2.2. The Board's decision shall be in writing in accordance with subsection 10.4.5 and shall be based solely upon the record of the Expulsion hearing of which it presided over.

10.4.3. Decision After Waiving of Hearing Rights and Admission to Violation Charges

10.4.3.1. Within five (5) business days following the waiving of hearing rights and admission of violation charges, the Superintendent shall prepare a report for the Board of Education's action at it's next public board meeting or an additional scheduled public board meeting for the sole purpose of deciding on the student disciplinary matter in question.
10.4.4. Eligible expelled students shall be placed in a Consortium Discipline Alternative Program in accordance with 14 Del.C. §1604 and 14 DE Admin. Code 611. The Board shall determine if the students not eligible for placement in a Consortium Discipline Alternative Program shall be expelled with or without Appropriate Educational Services.

10.4.5. Any decision to expel a student shall be reported to the Delaware Department of Education within five (5) business days of the Board’s decision to expel. When a Board of Education expels a student, but determines the student shall not be placed at a Consortium Discipline Alternative Program, the written decision shall address with specificity the reason for non-placement and the evidence in support thereof. Such decisions shall be submitted to the Delaware Department of Education’s Office of School Climate and Discipline within five business days of such decision, with a copy to the student's Parent.

10.4.6. Except as is otherwise provided herein, within ten (10) business days of the decision by the Board, the Board, through its designee, shall submit its decision to the Superintendent and Parent and student in writing. The written decision shall include notice of the right to appeal to the State Board of Education.

10.5. Calculation of Time

10.5.1. In calculating the period of time for the term of the Expulsion, school days will be used. Students receiving residential services from a Department of Services for Children, Youth and Their Families (DSCYF) program shall have the amount of school days served in such program counted as part of the calculation of time for an Expulsion. This does not preclude a district/charter from transitioning a student from a YRS program to the Regular School Program through an Alternative Program. However, transition through an Alternative Program is not required.

10.6. Notification of Expulsion to Division of Motor Vehicle

10.6.1. The Delaware Division of Motor Vehicle shall be notified of the beginning and ending date of Expulsion for students who are expelled from the School district/charter school as a request for suspension of driving privileges in accordance with 14 Del.C. §4130(e)(1).

10.6.2. A copy of the Delaware Division of Motor Vehicle form shall be forwarded to the Delaware Department of Education’s Office of School Climate & Discipline.

11.0. Students with Disabilities

11.1. Nothing in this regulation shall alter a district/charter school's duties under the Individual with Disabilities Act (IDEA) or 14 DE Admin. Code 922 through 929. Nothing in this regulation shall prevent a district/charter school from providing supportive instruction to children with disabilities in a manner consistent with the Individuals with Disabilities Education Act (IDEA) and Delaware Department of Education regulations.

11.2. Nothing in this regulation shall alter a district/charter school's duties under Section 504 of the Rehabilitation Act of 1973 or the Americans with Disabilities Act to students who are qualified individuals with disabilities. Nothing in this regulation shall prevent a district/charter School from providing supportive instruction to such students.

30.0 Discipline Procedures Authority of School Personnel.

30.1 Case by case determination: School personnel may consider any unique circumstances on a case by case basis when determining whether a change in placement, consistent with the other requirements of this section, is appropriate for a child with a disability who violates a code of student conduct.
30.2 School personnel under 30.0 may remove a child with a disability who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than ten (10) consecutive school days (to the extent those alternatives are applied to children without disabilities), and for additional removals of not more than ten (10) consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under 36.0).

30.2.1 After a child with a disability has been removed from his or her current placement for ten (10) school days in the same school year, during any subsequent days of removal the public agency shall provide services to the extent required under 30.4 of this section.

30.3 Additional authority: For disciplinary changes in placement that would exceed ten (10) consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child’s disability pursuant to 30.5, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in 30.4.

30.4 Services:

30.4.1 A child with a disability who is removed from the child’s current placement pursuant to 30.3 or 30.7 shall continue to receive educational services, as provided in 14 DE Admin. Code 923.1.2 so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child’s IEP; and receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

30.4.2 The services required by paragraphs 30.4.1, 30.4.3, 30.4.4, and 30.4.5 may be provided in an interim alternative educational setting.

30.4.3 A public agency is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for ten (10) school days or less in that school year, if it provides services to a child without disabilities who is similarly removed.

30.4.4 After a child with a disability has been removed from his or her current placement for ten (10) school days in the same school year, if the current removal is for not more than ten (10) consecutive school days and is not a change of placement under 36.0, school personnel, in consultation with at least one (1) of the child’s teachers, determine the extent to which services are needed, as provided in 14 DE Admin. Code 923.1.2 so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child’s IEP.

30.4.5 If the removal is a change of placement in 36.0, the child’s IEP Team determines appropriate services in 30.4.1.

30.5 Manifestation determination: Within ten (10) school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the LEA, the parent, and relevant members of the child’s IEP Team (as determined by the parent and the LEA) shall review all relevant information in the student’s file, including the child’s IEP, any teacher observations, and any relevant information provided by the parents to determine:

30.5.1 If the conduct in question was caused by, or had a direct and substantial relationship to, the child’s disability; or

30.5.2 If the conduct in question was the direct result of the LEA’s failure to implement the IEP.

30.5.3 The conduct shall be determined to be a manifestation of the child’s disability if the LEA, the parent, and relevant members of the child’s IEP Team determine that a condition in either 30.5.1 or 30.5.2 was met.
30.5.4 If the LEA, the parent, and relevant members of the child’s IEP Team determine the condition described in 30.5.2 was met, the LEA shall take immediate steps to remedy those deficiencies.

30.7 Special circumstances: School personnel may remove a student to an interim alternative educational setting for not more than forty five (45) school days without regard to whether the behavior is determined to be a manifestation of the child’s disability, if the child:

   30.7.1 Carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of the DOE or an LEA;
   30.7.2 Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of the DOE or an LEA; or
   30.7.3 Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the DOE or an LEA.

31.0. Determination of Setting.
The child’s IEP Team determines the interim alternative educational setting for services in 30.3, 30.4.5 and 30.7.

32.0. Expedited Appeal

32.1. General: The parent of a child with a disability who disagrees with any decision regarding placement in 30.0 and 31.0, or the manifestation determination in 30.5, or an LEA that believes that maintaining the current placement of the child is substantially likely to result in injury to the child or others may appeal the decision by requesting a hearing. The hearing is requested by filing a complaint pursuant to 7.0, 8.1 and 8.2.

32.2. A single, impartial hearing officer appointed by the DOE from its Registry of Impartial Hearing Officers shall make a determination regarding an appeal under paragraph (a) of this section. The hearing officer may:

   32.2.1. Return the child with a disability to the placement from which the child was removed if the hearing officer determines that the removal was a violation of 30.0 or that the child’s behavior was a manifestation of the child’s disability; or
   32.2.2. Order a change of placement of the child with a disability to an appropriate interim alternative educational setting for not more than forty five (45) school days if the hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

32.2.3. The procedures in 32.1 and 32.2 may be repeated, if the LEA believes that returning the child to the original placement is substantially likely to result in injury to the child or to others.

32.3. Expedited due process hearing:

   32.3.1. Whenever a hearing is requested in 32.1, the parents or the LEA involved in the dispute shall have an opportunity for an impartial due process hearing consistent with the requirements of 7.0 and 8.1 through 8.3, and 10.0 through 14.0, and 14 Del.C. Ch. 31, except as provided in 32.3.2 through 32.3.4.

   32.3.2. The DOE shall be responsible for arranging the expedited due process hearing, which shall occur within twenty (20) school days of the date the complaint requesting the hearing is received by the DOE. The hearing officer shall make a determination within ten (10) school days after the hearing.

   32.3.3. Unless the parents and LEA agree in writing to waive the resolution meeting described in 32.3.3.1 or agree to use the mediation process described in 6.0:

       32.3.3.1. A resolution meeting shall occur within seven (7) days of receiving notice of the due process complaint; and
32.3.3.2. The expedited due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within fifteen (15) days of the receipt of the due process complaint.

32.3.4. The decisions on expedited due process hearings are appealable consistent with 14.0.

33.0. Placement During Appeals
When an expedited appeal under 32.0 has been made by either the parent or the LEA, the child shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period specified in 30.3 and 30.7, whichever occurs first, unless the parent and the DOE or LEA agree otherwise.

34.0. Protections for Children not Determined Eligible for Special Education and Related Services

34.1. General: A child who has not been determined to be eligible for special education and related services under these regulations and who has engaged in behavior that violated a code of student conduct, may assert any of the protections provided for in these regulations if the public agency had knowledge (as determined in accordance with 34.2) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

34.2. Basis of knowledge: A public agency shall be deemed to have knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred:

34.2.1. The parent of the child expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency, or a teacher of the child, that the child is in need of special education and related services;

34.2.2. The parent of the child requested an evaluation of the child pursuant to 14 DE Admin. Code 925.1.0 through 925.12.0; or

34.2.3. The teacher of the child, or other personnel of the LEA, expressed specific concerns about a pattern of behavior demonstrated by the child directly to the director of special education of the agency or to other supervisory personnel of the agency.

34.3. Exception: A public agency would not be deemed to have knowledge under 34.2 if the parent of the child has not allowed an evaluation of the child pursuant to 14 DE Admin. Code 925.1.0 through 925.12.0; or has refused services under these regulations; or the child has been evaluated in accordance with 14 DE Admin. Code 925.1.0 through 925.12.0 and determined to not be a child with a disability under these regulations.

34.4. Conditions that apply if no basis of knowledge: If a public agency does not have knowledge that a child is a child with a disability (in accordance with 34.2 and 34.3) prior to taking disciplinary measures against the child, the child may be subjected to the disciplinary measures applied to children without disabilities who engage in comparable behaviors consistent with the following requirements:

34.4.1. If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures in 30.0, the evaluation shall be conducted in an expedited manner.

34.4.2. Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services.

34.4.3. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and information provided by the parents, the agency shall provide special education and related services in accordance with these regulations, including the requirements of 30.0 through 36.0 and section 612(a)(1)(A) of the Act.

35.0. Referral to and Action by Law Enforcement and Judicial Authorities

35.1. Rule of construction: Nothing in these regulations prohibits an agency from reporting a crime committed by a child with a disability to appropriate authorities or prevents Delaware law enforcement
and judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child with a disability.

35.2. Transmittal of records: An agency reporting a crime committed by a child with a disability shall ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom the agency reports the crime.

35.2.1. An agency reporting a crime under this section may transmit copies of the child’s special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act.

36.0. Change of Placement Because of Disciplinary Removals

36.1. For purposes of removals of a child with a disability from the child’s current educational placement in 30.0 through 35.0, a change of placement occurs if:

36.1.1. The removal is for more than ten (10) consecutive school days; or

36.1.2. The child has been subjected to a series of removals that constitute a pattern:

36.1.2.1. Because the series of removals total more than ten (10) school days in a school year;

36.1.2.2. Because the child’s behavior is substantially similar to the child’s behavior in previous incidents that resulted in the series of removals; and

36.1.2.3. Because of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another; or

36.1.3. The child has been subjected to a series of in-school removals totaling more than ten (10) school days and it deprives the child from meeting the goals set out in the IEP; progressing in the general curriculum though another setting; and receiving those services and modifications described in the IEP; or the child has been subjected to a series of removals from transportation and it results in the child’s absence from school for more than ten (10) school days.

36.2. The public agency determines on a case by case basis whether a pattern of removals constitutes a change of placement.

36.3. This determination is subject to review through due process and judicial proceedings.

(a)(1) A pupil accepted for enrollment in a school or program pursuant to this chapter shall be entitled to remain enrolled therein until graduation from the school or completion of the program provided that the pupil continues to meet the requirements for such school or program, provided however, that upon the concurrence of the boards of both the district of residence and the receiving district, a pupil's right to remain enrolled may be terminated prior to graduation from or completion of the program where such termination is based upon the pupil's
b. Multiple violations of, or one or more serious violations of, the receiving district’s student code of conduct.

The Department of Education shall establish a program component which will provide alternative educational and related services for the more severe discipline problems in the public schools. This
component will serve primarily secondary school students, including but not limited to: youngsters who have been expelled from regular schools, students who may be subject to expulsion, and others who have serious violations of the local school district discipline code. The Department of Education shall provide rules and regulations for the conduct of programs authorized under this section subject to the following limitations:

1. School districts shall make application to the Department of Education for funding to implement programs authorized under this section. Preference shall be given to applications from consortia of school districts. To the extent feasible, programs offered under this component should serve eligible pupils within a county, however, multiple sites may be operated by a single consortia of school districts within a county.

2. Any application submitted under this section shall specify the types and level of services to be provided and an estimate of the number of youngsters to be served. The application shall also include a budget of proposed expenditures during a fiscal year. That budget shall indicate, at a minimum, the funds being requested from appropriations authorized under this section and funds to be obtained from all other sources.

3. All applications submitted to the Department of Education under this section shall indicate an agreement to fund at least 30 percent of the total cost of services provided from sources of funding other than those authorized under this section.

4. All projects funded under this section shall submit an annual evaluation report on the effectiveness of the program to the Department of Education. Such report shall incorporate the data and information specified by the Department.

5. School districts shall be permitted to use funds collected in accordance with the provisions of Chapter 6 of this title to make tuition payments for youngsters assigned to programs authorized under this section.

6. Nothing in this section shall prohibit a consortia of school districts from contracting for educational or related services with public or private agencies when operating programs authorized under this section.

7. The provisions of § 4130 of this title shall not apply to youngsters enrolled in programs authorized under this section.

8. A student 16 years of age or less who is expelled or suspended pending expulsion by a local school district or charter school shall be presumed appropriate for placement in a Consortium Discipline Alternative Program site, provided the student is not otherwise ineligible by statute or regulation for placement in such a program. The burden of establishing that a student is not appropriate for placement in a Consortium Discipline Alternative Program shall be on the local school district or charter school. Any student not shown by preponderance of evidence to be inappropriate for placement in a Consortium Discipline Alternative Program shall be placed in such a program.

14 Del.C. §2702. Compulsory attendance requirements; evaluation of readiness.

(a) Except as otherwise provided, the following provisions are applicable to school attendance in this State:

(1) Every person in this State who has legal custody, guardianship of the person, or legal control of a child between 5 and 16 years of age, including any person acting as a caregiver pursuant to the provisions of § 202(f) of this title, shall enroll the child in a public school in the school district of the person's residence.

(2) Every person who has legal custody, guardianship of the person, or legal control of a student, including any person acting as a caregiver pursuant to the provisions of § 202(f) of this title, who is enrolled in a public school of this State shall send the student to the school each day of the minimum school term and to any academic improvement activities required by § 153 of this title.

(3) Every student who is enrolled in a public school of this State shall attend the school each day of the minimum school term and any academic improvement activities required by § 153 of this title. A student who has been absent from school without a valid excuse for more than 3 school days in a school year is a truant. A truant and the parent of a truant are subject to the administrative procedures and court proceedings set out in subchapter II of this chapter.

(b) For the purposes of this section, a child shall be considered 5 years of age if that child celebrates the child's fifth birthday according to the following schedule:

1993-94 school year, Fifth birthday on or before November 30, 1993.
1994-95 school year, Fifth birthday on or before October 31, 1994.
1995-96 school year, Fifth birthday on or before September 30, 1995.
1996-97 school year, Fifth birthday on or before August 31, 1996.
Subsequent school years, Fifth birthday on or before August 31 of the respective year.

Local school authorities may grant exceptions to the above schedule for entry into school if they determine that such exception is in the best interest of the child.

(c) The following provisions shall be applicable to the administration of subsection (a) of this section in regard to compulsory attendance in the kindergarten for a child age 5 years:

(1) If a child is a resident of the State at the time of that child's eligibility for admission to the kindergarten at age 5, the parents, guardian or legal custodian of that child may request that school authorities evaluate the child's readiness for attendance and may request a delay of 1 year in that attendance. However, admission to first grade will be authorized only after school authorities evaluate the child's readiness for attendance.

(2) If a child was not a resident of the State at the time of that child's eligibility for admission to the kindergarten at age 5, the parents, guardian or legal custodian of that child may request that school authorities evaluate the child's readiness for attendance and on the basis of that evaluation authorize admission to grade 1.

(3) The parent, guardian, legal custodian or relative care giver, as defined in § 202(f)(2) of this title, of a child who is eligible for admission to kindergarten at age 5 may opt for the child to attend kindergarten for a half-day per day, totaling 440 hours in a school year.

(d) The following provisions shall be applicable in regard to statewide minimum mandatory attendance requirements in each school year for children in grades K through 12.
(1) Following the tenth day of unexcused absence by a student, the school shall immediately notify the parent or parents or guardian and a visiting teacher for the district shall visit the student's home;

(2) Following the fifteenth day of unexcused absence by a student, the student's parent or parents or guardian shall be notified by certified mail to appear at the school within 10 days of notification for a conference and counseling;

(3) Following the twentieth day of unexcused absence by a student, the school shall refer the case for prosecution;

(4) Following the completion of prosecution of the case and the subsequent failure of the student to return to school within 5 school days thereof, the school shall immediately notify the Department of Services for Children, Youth and Their Families requesting intervention services by the Department. The Department shall contact the family within 10 business days.

(e) Following the tenth unexcused day of attendance by a student in grades 6 through 12 inclusive, the building principal shall notify a visiting teacher of such unexcused days.

(f) If contacted by the school pursuant to paragraph (d)(2) of this section, each parent or guardian of a student shall sign a contract with the district agreeing they will make every reasonable effort to:

1. Have their child or children abide by the school code of conduct;
2. Make certain their child attends school regularly; and
3. Provide written documentation for the reasons for any absence.

(g) Any day of summer school, any session of after school or Saturday extra instruction, or any session of mentoring which a child is required to attend as an academic improvement activity in conformity with § 153 of this title shall be considered a school day for purposes of this chapter, and for purposes of § 901 of Title 10, § 1100 of Title 11, and § 301 of Title 31 of this Code, or wherever the term school day or its equivalent is used in a provision of this Code designed to minimize or punish truancy.

14 Del.C. §2705. Exemption of children from compulsory attendance requirements.

(a) Other provisions of this title notwithstanding, a child may be exempted from § 2702 of this title upon request of the parent, guardian or other person legally having control of that child when the request is supported by written documentation of a physician, psychiatrist, psychologist or neurologist, as the case may require. The request and documentation shall be addressed to the superintendent of schools of the district in which the child resides and, in the case of a child with a disability or disabilities, the child's Individual Education Program (IEP) team, for the development of an educational program and determination of whether a change of placement is necessary to ensure that the child receives a free and appropriate public education.

(b) Any disputed decision under this section shall be presented first to the board of education of the school district of which the child is a resident and may thereafter be appealed to the State Board of Education. The decision of the State Board of Education shall be final. In the case of a child with a disability or disabilities, all of the federal regulatory due process procedures of Part B of the Individuals with Disabilities Education Act [20 U.S.C. §§ 1411 et seq.] shall apply.

Any child affected with diphtheria, measles, scarlet fever or smallpox shall be excluded from the schools until permission of the proper school officer for the child to return is granted; and intercourse between pupils of the schools and the family or house, when there is any case of 1 of these contagious diseases, must be forbidden until the official permission is given to return to the school.
In this chapter:

(1) "Court" means a Justice of the Peace Court.
(2) "Parent" means a biological or natural parent, an adoptive parent, a person legally charged with the care or custody of a person under 18 years of age, a person who has assumed responsibility for the care of a person under 18 years of age, or a person acting as a caregiver pursuant to the provisions of § 202(f) of this title who has enrolled the pupil in grades kindergarten through 12 of a public school in this State.
(3) "Principal" means the highest administrative official of a public school and includes a person or group of persons designated by the principal to deal with school attendance.
(4) "Record" means written materials and exhibits forwarded to a court by the school with a referral under this subchapter or admitted into evidence at a court hearing.
(5) "School year" means the period of attendance determined by a pupil's local school board pursuant to § 1049 of this title, or in the case of a charter school as determined by the board of directors of the charter school consistent with the school's charter, and any additional academic improvement activities identified in § 2702(g) of this title that a pupil may be required to attend during or following such period of attendance.
(6) "Student" means a person who is enrolled in kindergarten through grade 12 of a public school of this State.
(7) "Truant" means a student who has been absent from school without valid excuse for more than 3 school days during a school year.
(8) "Valid excuse" means an excuse which is approved in the regulations of the district board of education of the school district in which the pupil is or should be enrolled pursuant to the provisions of this title, or in the case of a pupil enrolled in a charter school, by the board of directors of the charter school.

(a) Subject to the rules and regulations of the local school board, pupils enrolled in the free public schools may be excused by the superintendent of schools or persons authorized by the superintendent. Pupils enrolled in charter schools may be excused by the principal of the school or persons authorized by the principal, subject to rules and regulations promulgated by the board of directors of the charter school.
(b) No pupil who could otherwise legally fail to attend school pursuant to § 2702(a) of this title may do so without the written consent of such person or persons having legal control of that pupil.

(a) Any pupil under the age of 16 identified by a police officer as being off school property without official authorization may be returned to that pupil's home school.
(b) Any pupil under the age of 16 identified by a police officer as being off school property without official authorization may be detained by the police for a period not to exceed 2 hours for the purpose of notification of parent or guardian. This detention may be within the police station but not in a criminally confined area.

14 Del.C. §2724. Notification to parents and students.
At the beginning of a school year each school district or public school shall notify each student and the parent of each student of the school attendance requirements of this Code, including the procedures and penalties applicable to truancy. The school district or school may determine the form of the notification.
14 Del.C. §2725. Absences without excuse; truancy conferences.
(a) If a student has been absent from school without a valid excuse 1 or more days, the principal of the school may take such action as the principal considers appropriate.
(b) If a student is truant, the principal may schedule a truancy conference with the student, the student's parent and the principal pursuant to § 2726 of this title. The conference may be attended by other persons as the principal may include.
(c) Following a truancy conference the school shall decide whether or not to file a charge against the parent for a violation of § 2702 of this title; provided however, that the principal shall refer the case for prosecution following the twentieth day of unexcused absence by a student during the school year, in compliance with § 2702(d) of this title, and may refer the case before the twentieth day of unexcused absence if the principal determines it is appropriate to do so.
(d) The fact that a student or student's parent may attend or has attended a truancy conference does not bar the principal filing a complaint with a court. The principal's failure to hold a truancy conference does not bar the filing of a complaint with a court and adjudication by a court.

The provisions of § 4122 of this title shall apply to truancy conferences. The principal shall determine the date, time and place of the conference and shall give all participants notice at least 1 week prior to the conference. In conducting a truancy conference, the principal may exclude any person, including a parent or a student, from the conference or part of a conference.

No person shall be prosecuted for violation of § 2702 of this title if that person, within 3 days from the time that the person is notified by the superintendent of schools or persons authorized by the superintendent, presents an excuse in writing satisfactory to such superintendent of schools, and complies with the requirements of such § 2702 of this title. The mailing of a notice to the usual address of the offending party shall be sufficient notification.

(a) When the school charges a parent or a student with a violation of § 2702 of this title, the school shall file a written complaint in the court. The complaint shall be on such form(s) as the court may require. The school shall be the complainant and the parent or the student shall be the defendant. The court must determine whether probable cause exists to issue a warrant or summons against the person charged. When there is probable cause to find that a student is truant, probable cause to issue a warrant or summons for a parent shall exist when the parent is named as the parent or guardian on the student's school records and the parent resides in Delaware.
(b) The school shall attach to the complaint any record relevant to the allegations of the complaint.
(c) When a complaint is filed, all sanctions imposed by the principal shall remain in effect unless suspended or terminated by the principal or stayed by the court.
(d) The school may request that the court postpone adjudication. The court in its discretion may postpone the proceedings and may impose conditions on the student or parent.

14 Del.C. §2729. Failure to send; affirmative defense; penalties.
(a) If a charge is filed against a parent for a violation of § 2702 of this title, the court shall determine whether the evidence establishes beyond a reasonable doubt that the parent has violated the section.
(b) In the prosecution of a parent for a violation of § 2702 of this title, it shall be an affirmative defense that the parent has made substantial and reasonable efforts to comply with the compulsory attendance
requirements of § 2702 but is unable to cause the child to attend school. It shall also be an affirmative
defense that the parent does not have legal custody of the student. Other affirmative defenses may be
permitted as required in the interests of justice. If the court determines the affirmative defense is valid it
shall dismiss the complaint against the parent and the school may file a complaint against the student
pursuant to § 2730 of this title.

(c) This section shall not apply to a parent whose child is receiving instruction pursuant to § 2703 of this
title, to children exempted from compulsory attendance requirements pursuant to § 2705 of this title, or
whose children are in compliance with school attendance requirements.

(d) A parent who is determined to have violated § 2702 of this title is guilty of an unclassified
misdemeanor and shall be sentenced as follows:

(1) For a first offense, a fine of not less than $25 nor more than $300, or imprisonment for not more than
10 days or both;
(2) For a second offense, a fine of not less than $50 nor more than $500, or imprisonment for not more
than 20 days or both;
(3) For a third or subsequent offense, a fine of not less than $230 nor more than $1,150, or
imprisonment for not more than 30 days or both.

(e) To the extent possible the fine shall be commensurate with the number of days the student was
absent from school without valid excuse.

(f) The court may order the parent to perform unpaid community service in lieu of a fine. The court may
require that all or part of the service may be performed for a public school district.

(g) The court may also order as conditions of release prior to judgment or as conditions of sentence upon
conviction such conditions as the court considers necessary to obtain compliance with school attendance
requirements. These conditions include but are not limited to the following:

(1) Verifying the child’s attendance with the school;
(2) Meeting with school officials;
(3) Taking the child to school;
(4) Taking the child to the bus stop;
(5) Attending school with the child;
(6) Undergoing medical, psychological or psychiatric evaluations and following the evaluator’s
recommendations;
(7) Undergoing an evaluation for drug, alcohol, or other substance abuse and following the evaluator’s
recommendations; and
(8) Taking the child for medical, psychological or psychiatric evaluation or for drug, alcohol or other
substance abuse evaluation and following the evaluator’s recommendations.

(h) Upon conviction, the name and address of the parent and a summary of the disposition of any
offenses for which the parent was convicted shall be reported by the Court to the Division of Family
Services of the Department of Services for Children, Youth and Their Families and to the Division of
Social Services of the Department of Health and Social Services.

(i) The provisions of § 4218 of Title 11 (probation before judgment) shall apply to a parent charged with
violation of § 2702 of this title.

14 Del.C. §2730. Failure to attend; penalties.
(a) The school may file a civil charge of truancy against the student in the Justice of the Peace Court if:

(1) The student is age 12 or older; and/or
(2) The Court determines that a parent who is charged with violating § 2702 of this title has a valid affirmative defense under § 2729(b) of this title.

(b) The court shall determine whether a preponderance of the evidence establishes that the student has violated § 2702 of this title.

(c) If the Court determines the student has violated § 2702 of this title, it shall adjudicate the student a truant and may order the following remedial dispositions:

(1) Community service;
(2) Counseling;
(3) Substance abuse evaluation and treatment;
(4) Mental health evaluation and treatment;
(5) A curfew with hours set by the court;
(6) Suspension or revocation of any permit held by the student, including a work permit or a driver's permit;
(7) Suspension or revocation of any license held by the student, including a driver's license or a hunting license;
(8) Prohibition of the student's participation in or attendance at any extra-curricular activity or social event which is an official school event or is sponsored by the school or held on school property;
(9) A recommendation that the student enroll in the school in alternative educational and related services in accordance with Chapter 16 of this title; and
(10) Such other action as is permitted by statute or by court rule.

The court shall not suspend or revoke a student's permit or license if the student demonstrates to the court that suspension or revocation would impose an economic hardship on the parent or on the student's family.

(d) Where the court has ordered the suspension or revocation of a student's permit or license, the student is prohibited from applying for a new permit or license without permission of the court as long as the student is under the jurisdiction of the court.

(a) The court shall retain jurisdiction of the matter until all terms of the court's order have been complied with regardless of any change in the student's age, marital status or choice of educational source or location.

(b) Notwithstanding any provision of this Code to the contrary, if the court determines a student has not complied with the terms of the court's order, it may charge the noncompliant student with criminal contempt pursuant to § 1271 of Title 11, and fully adjudicate the matter in the Justice of the Peace Court.

(c) A juvenile against whom criminal contempt proceedings pursuant to this section and § 1271 of Title 11 have been initiated shall have the right to counsel at all stages.

(d) If a juvenile is not represented by counsel at his or her initial Justice of the Peace Court appearance, the Court shall order the Chief Defender to assign counsel to represent the juvenile.

(e) Prohibitions on the waiver of the right to counsel shall be as set forth in § 1007C of Title 10.

(f) Unless prohibited, the right to counsel may be waived in accordance with the Rules of the Justice of the Peace Court.
(a) A parent convicted of a violation of § 2702 of this title may appeal to the Court of Common Pleas in the county in which the judgment was given. The appeal shall be filed within 15 days from the date of conviction. On appeal the Court shall make a de novo determination.
(b) No stay shall be granted pending an appeal pursuant to subsection (a) of this section unless the person appealing shall, at the time the appeal is taken, gives bond in any amount with surety to be fixed by the Court.
(c) A student who has been adjudicated truant pursuant to § 2730 of this title, or has been adjudicated in contempt pursuant to § 2731 of this title, may appeal to the Family Court in the county in which the adjudication occurred. The appeal shall be filed within 15 days of the date of the adjudication. On appeal the Court shall make a de novo determination based on the record below.
(d) No appeal of the adjudication of truancy or truancy-related contempt pursuant to subsection (c) of this section shall stay execution of the remedial disposition unless a judge of the Family Court orders a stay.

14 Del.C. §2733. Jurisdiction; venue.
(a) The Justice of the Peace Court shall have exclusive original jurisdiction of complaints filed pursuant to this title.
(b) All complaints under this title shall be filed in a Justice of the Peace Court in the county where the school the child is required to attend is located or in the county in which the office of the school district which contains the child's school is located.
(c) In the event that a student withdraws from school for any reason other than age and does not re-enroll in another public school, the court, in its discretion, may retain jurisdiction for the purpose of ensuring that the student's alternative educational environment was not an attempt to avoid the compulsory attendance requirements of § 2702 of this title.

LAWS

The General Assembly finds and declares that a substantial drug and alcohol trafficking and abuse problem exists in this State among school age children, in schools and on school campuses, parks and playgrounds. It is the purpose of this chapter to support increased efforts by local law enforcement agencies, working in conjunction with school districts and with state and local drug and alcohol prevention agencies, to suppress trafficking, and to prevent drug and alcohol abuse among school-age children in schools and on school campuses, through the development of innovative and model programs jointly undertaken by local law enforcement agencies and school districts. Further, it is the intent of the General Assembly to establish a program of financial and technical assistance for local law enforcement and school districts, and to formulate a joint policy of pursuing both demand reduction (through education and prevention programs), and supply reduction (through law enforcement).

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

(1) "Division" shall mean the Division of Substance Abuse and Mental Health.
(2) "Enhanced apprehension, prevention and education efforts" shall mean projects and programs which do not compete with, but which supplement and improve currently existing substance abuse prevention and education programs.
(3) "Entity" shall mean any committee, agency or group approved by the Division; any law enforcement committee, agency or group approved by the Department of Safety and Homeland Security; or any committee, agency or group composed of public school teachers and/or administrators.

14 Del.C. §3803. Division of Substance Abuse and Mental Health.
(a) The Division of Substance Abuse and Mental Health shall allocate and award all funds appropriated for any purposes set forth in § 3801 and elsewhere in this chapter. Such funds shall be awarded only to programs or projects, undertaken jointly by a law enforcement entity and a local school district or other public school entity, to prevent and/or suppress substance abuse and the trafficking of prohibited or controlled substances in the public schools. All applications for such funds shall be applications made jointly by the school and law enforcement entities involved in the proposed project.
(b) In the allocation and awarding of funds to joint law enforcement and public school recipients, the Division shall obtain the comments and recommendations of the State Drug-free School Advisory Committee. All allocation and awarding of funds by the Division shall be in accordance with the Administrative Procedures Act, and with those guidelines promulgated by the State Drug-free School Advisory Committee which do not conflict with existing state laws.
(c) Each application shall be accompanied by a fiscal note, prepared by the joint applicants, which sets forth all anticipated first-year costs and the anticipated total costs of the project or program. The Division may return any application to the applicant with a request that any or all expenses be more fully set out, together with the applicant's explanations or reasons for each projected cost or expense.

(a) All criteria for the rating of applications for funds under this chapter shall be developed by the State Drug-free School Advisory Committee. The State Drug-free School Advisory Committee shall be
composed of 16 members appointed by the Governor: 1 police chief; 1 sheriff; 1 prosecutor from the State Department of Justice who specializes in drug and/or alcohol cases; 1 attorney primarily engaged in criminal defense; 1 person from each county appointed by an active parent group or community-based group concerned primarily with drug and/or alcohol problems; 1 representative of the Division of Substance Abuse and Mental Health; 1 county drug and/or alcohol program administrator; and a permanent, full-time member of a drug treatment clinic or office, public or private. In addition, membership shall include the Attorney General or the Attorney General's designee; 4 members who are professional employees of the Department of Education, 1 of whom shall be the Secretary of Education; and a drug and/or alcohol prevention professional employed by the Department of Education. The Committee shall review applications made to the Division for those funds which are awarded pursuant to this chapter, and shall recommend approval for those applications which the Committee deems appropriate, and which it deems are consistent with the guidelines and procedures established pursuant to this chapter. The Division shall not approve nor release any funds until approval under § 3805(b) of this title is first obtained.

(b) The State Drug-free School Advisory Committee shall develop specific guidelines and procedures which shall set forth the terms and conditions upon which grants of funds are made. Funds disbursed under this chapter shall not be used for the acquisition of equipment.

(c) Funds disbursed under this chapter shall not be used to pay informants for information on drug and/or alcohol offenders. Not more than 10 percent of the total amount of funds disbursed under this chapter shall be used for administrative costs.

14 Del.C. §3805. Local drug-free school advisory committees.
(a) A local drug-free school advisory committee may be established and appointed by each local board of education. Such committee may be either a newly created committee, or an existing local drug and alcohol abuse committee formerly established by the county, municipality or school district. Although the committee may have additional members, its basic membership shall be composed of the following residents of the district or area affected:

(1) One local law enforcement officer;
(2) An administrator or teacher, employed by the local school district, who has expertise in drug and alcohol programs;
(3) One administrator and 1 teacher from the school or school district which has direct involvement in the program;

(b) No project or program, financed in whole or in part with funds under this chapter, shall begin in any school until such project or program has first received the approval of the local drug-free school advisory committee.

(a) Funds shall be awarded primarily for projects undertaken jointly by the school district or other public school entity, and a law enforcement entity. In participating in any joint application for the funds, the public school entity shall consult with the superintendent of each affected school. Any funds disbursed under
this chapter are supplemental to and shall not supplant local funds which would, in the absence of this chapter, be otherwise available to suppress and prevent drug and alcohol abuse among school age children, or which otherwise would be used to curtail drug and alcohol trafficking in and around schools, parks and playgrounds.

(b) When applying for funds under this chapter, the local law enforcement entity and the public school entity may jointly enter into those agreements between themselves which would allow and facilitate the administrative, fiscal and operational responsibilities created by their joint project or program.

(c) Funds disbursed under the provisions of this chapter shall be utilized primarily for enhanced apprehension, prevention, and education efforts, and for obtaining material and information resources relating to drug and alcohol abuse and drug trafficking in and around schools, parks and playgrounds. Enhanced apprehension, prevention and education efforts shall include, but are not limited to:

(1) Drug and alcohol trafficking intervention programs;

(2) School and classroom oriented programs, each of which shall utilize a tested drug and alcohol education curriculum that provides in-depth and accurate information on drugs and alcohol. Such programs may include the participation of local law enforcement agencies and/or qualified drug and alcohol use prevention specialists. Each such program shall be designed to increase, in both teachers and students, an awareness of the dangers of drugs and alcohol;

(3) Family-oriented programs aimed at preventing drug and alcohol abuse, which programs may include the participation of any community-based organization which is experienced in the successful operation of a family-oriented program;

(4) Development and distribution of appropriate written and audio-visual aids for the training of persons not otherwise trained or experienced in the handling of drug and alcohol-related problems and offenses within the public schools;

(5) Development of prevention and intervention programs for elementary school teachers and students, including utilization of existing prevention and intervention programs, where appropriate;

(6) Development of a coordinated intervention system that identifies “at-risk” students, and students with chronic drug and alcohol abuse problems.

14 Del.C. §3807. State Board of Education; Department of Public Safety.

The Department of Safety and Homeland Security and the Department of Education shall both have the power to monitor and evaluate the projects and programs under this chapter, and to make comments and suggestions to the Division.

(c) Student possession of weapons and unlawful drugs. Whenever a school employee has reliable information that would lead a reasonable person to believe that a person on school property or at a school function has on his or her person, concealed in that person's possessions, or placed elsewhere on school property: (1) Any controlled substance prohibited by Title 16; or

1.0 Cyberbullying Forbidden

In addition to the policy prohibiting bullying put in place by school districts and charter schools pursuant to 14 Del.C. §4112D(b)(2), each school district and charter school shall also prohibit cyberbullying (as defined herein) by students directed at other students. Incidents of cyberbullying shall be treated by each school district and charter school in the same manner as incidents of bullying, and notice of each school district's and charter school's policy against cyberbullying shall be provided to students, staff, and faculty in the same manner as notice of the school district's and charter school's policy against bullying.

2.0 Definition of Cyberbullying

2.1 Cyberbullying means the use of uninvited and unwelcome electronic communication directed at an identifiable student or group of students, through means other than face-to-face interaction, which (1) interferes with a student's physical well-being; or (2) is threatening or intimidating; or (3) is so severe, persistent, or pervasive that it is reasonably likely to limit a student's ability to participate in or benefit from the educational programs of the school district or charter school. Communication shall be considered to be directed at an identifiable student or group of students if it is sent directly to that student or group, or posted in a medium that the speaker knows is likely to be available to a broad audience within the school community.

2.2 Whether speech constitutes cyberbullying will be determined from the standpoint of a reasonable student of the same grade and other circumstances as the victim.

2.3 The place of origin of speech otherwise constituting cyberbullying is not material to whether it is considered cyberbullying under this policy, nor is the use of school district or charter school materials.

2.4 Upon implementation of this policy, and again at the beginning of each academic year, each school district and charter school shall inform students in writing of mediums where posting of speech will be presumed to be available to a broad audience within the school community, regardless of privacy settings or other limitations on those postings. From implementation of this policy through the end of the 2013-2014 school year, postings on Facebook, Twitter, MySpace, YouTube, and Pinterest shall be included in each district's and charter school's list of mediums where posting of speech will be
presumed to be available to a broad audience within the school community, regardless of privacy
settings or other limitations on those postings.

2.5 Nothing in this policy shall limit in any way a school district's or charter school's ability to regulate
student conduct, including bullying, in any manner provided for by existing law, regulation, or policy.

9.0 Pupil Conduct on School Buses

9.1. Districts shall have a policy concerning the behavior of pupils on school buses that shall, at a

The principal is not required to notify the appropriate police agency, but must file a written report with the Department of Education.

(8) Under no circumstances shall any person who has supervisory authority over the principal or any school board member exercise any control of, hinder or delay the lodging of any oral or written report required to be made pursuant to this subsection or the forwarding of such report to the Department of Education or the police. Such administrator shall not be liable under the laws of this State for any act or omission committed by the administrator in the performance of that administrator's duties and responsibilities under this section.

(b) No administrator having reporting responsibilities under this section shall be required to report any substance abuse violation and/or problem to a parent if such person, being the principal of the school, reasonably believes that a parent or parents are a cause of or are involved in the violation and/or problem; nor shall any other administrator, having reporting responsibilities under this section, be required to report any substance abuse violation and/or problem to a parent, if such administrator and the principal of the school both believe that a parent or parents are a cause of or are involved in the violation or problem.

(g) Relationship to reporting requirements. An incident may meet the definition of bullying and also the definition of a particular crime under state or federal law. Nothing in this section or in the policies promulgated as a result of this section prevents school officials from fulfilling all of the reporting requirements of § 4112 of this title or from reporting probable crimes that occur on school property or at a school function which are not required to be reported under § 4112 of this title. Nothing in this section abrogates the reporting requirements for child abuse or sexual abuse set forth in Chapter 9 of Title 16 or any other reporting requirement under state or federal law.

All applications for such funds shall be applications made jointly by the school and law enforcement entities involved in the proposed project.

(b) In the allocation and awarding of funds to joint law enforcement and public school recipients, the Division shall obtain the comments and recommendations of the State Drug-free School Advisory Committee. In participating in any joint application for the funds, the public school entity shall consult with the superintendent of each affected school. Any funds disbursed under this chapter are supplemental to and shall not supplant local funds which would, in the absence of this chapter, be otherwise available to suppress and prevent drug and alcohol abuse among school age children, or which otherwise would be used to curtail drug and alcohol trafficking in and around schools, parks and playgrounds.

(b) When applying for funds under this chapter, the local law enforcement entity and the public school entity may jointly enter into those agreements between themselves which would allow and facilitate the administrative, fiscal and operational responsibilities created by their joint project or program.

LAWS

The Department of Education shall establish a program component which will provide alternative educational and related services for the more severe discipline problems in the public schools. This component will serve primarily secondary school students, including but not limited to: youngsters who have been expelled from regular schools, students who may be subject to expulsion, and others who have serious violations of the local school district discipline code. The Department of Education shall provide rules and regulations for the conduct of programs authorized under this section subject to the following limitations:

(1) School districts shall make application to the Department of Education for funding to implement programs authorized under this section. Preference shall be given to applications from consortia of school districts. To the extent feasible, programs offered under this component should serve eligible pupils within a county, however, multiple sites may be operated by a single consortia of school districts within a county.

(2) Any application submitted under this section shall specify the types and level of services to be provided and an estimate of the number of youngsters to be served. The application shall also include a budget of proposed expenditures during a fiscal year. That budget shall indicate, at a minimum, the funds being requested from appropriations authorized under this section and funds to be obtained from all other sources.

(3) All applications submitted to the Department of Education under this section shall indicate an agreement to fund at least 30 percent of the total cost of services provided from sources of funding other than those authorized under this section.

(4) All projects funded under this section shall submit an annual evaluation report on the effectiveness of the program to the Department of Education. Such report shall incorporate the data and information specified by the Department.

The burden of establishing that a student is not appropriate for placement in a Consortium Discipline Alternative Program shall be on the local school district or charter school.
Any student not shown by preponderance of evidence to be inappropriate for placement in a
Consortium Discipline Alternative Program shall be placed in such a program.

14 Del.C. §1604A. Site selection for alternative educational facilities.
(a) New alternative school programs funded on or after July 1, 2002, or alternative school programs except for those located on school property currently funded pursuant to § 1604 of this title that change locations on or after July 1, 2002, shall be subject to the following process:

(1) The school district or consortium of school districts shall notify by mail the Secretary of Education and every property owner located within 200 feet of the site's boundary lines that there is a plan to establish an alternative educational facility for children exhibiting discipline problems on the site. The notice must include the date, time and location of an informational meeting that will explain the details of the site, facility and program plans.

(2) The school district or consortium of school districts shall notify city council members and state legislators who represent residents of the school district in which the proposed site is located and the chief elected official of the county and town or city in which the proposed site is located of the time, date and location of the informational meeting. Further, the school district or consortium of school districts shall publish public notice of the time, date and location of the informational meeting once a week for 2 weeks in a newspaper in general circulation in the school district of the proposed site selection.

(3) Written comments shall be directed to the superintendent of the district in which the facility is to be located within 10 business days of the informational meeting.

  a. If there are objections to the proposed site by at least 5 citizens who reside within 200 feet of the site or by at least 25 citizens who reside within the school district in which the site is located, the local school board shall hold a special public meeting to consider the concerns of the community and the responses of the school district or consortium of school districts proposing the facility site.

  b. The local school board shall take action on the proposed site at its next regularly scheduled meeting after the informational meeting or special public meeting, whichever occurs last. The decision by the local school board is final and not subject to appeal.

The Department of Education shall be authorized to approve and provide financial support for programs to provide alternative educational and related services to disruptive students in the public schools. This component will serve students, in schools enrolling pupils in grades K through 12, who are causing repeated disruptions in the regular classes to which they are assigned. Services may be delivered in a variety of modes with students assigned to the specific programs for short- or long-term assistance. Programs authorized under this section could also serve as a transition for youngsters returning from programs operated under the provisions of § 1604 of this title. The Department of Education shall provide rules and regulations for the conduct of programs authorized under this section subject to the following limitations:

(1) School districts shall be permitted to use personnel authorized by any of the provisions of this title to establish alternative educational and related service programs for disruptive students. Such personnel shall continue to be paid in accordance with salary schedules specified in Chapter 13 of this title.

(2) In the event that a school district uses personnel authorized under various sections of this title to establish and operate a program for disruptive students, the district may elect to employ 2 service
paraprofessionals or 2 instructional paraprofessionals, paid in accordance with § 1324 of this title, in lieu of 1 staff member paid in accordance with § 1305 of this title.

(3) Any school which either enrolls pupils in at least 2 of the grades 3 through 12 or enrolls pupils solely in 1 or more of grades K through 3, and which establishes a program for disruptive students in accordance with the provisions of this section and the rules and regulations of the Department of Education may make application to the Department for an incentive grant to help defray the cost of operating such program. No school may qualify for more than 1 incentive grant per fiscal year, and all applications for such grants must have the prior approval of the board of education of the school district in which the applicant school is located. The maximum dollar value of an incentive grant shall be specified in the annual budget appropriation bill. Funds available to the Department of Education shall be allocated on a competitive basis if in any fiscal year more schools are eligible for funding than there are funds appropriated for the incentive grants.

(4) Funds provided to a school under an incentive grant provided under paragraph (3) of this section may be used for any purpose that Division I or II funds may be used, provided, however, that such funds shall not be used to pay salaries to employees beyond the state-supported salaries specified in Chapter 13 of this title.

(5) To achieve the most cost-effective impact from the incentive funds authorized by this section and to increase the coordination of services by schools and other governmental and nongovernmental social service agencies consistent with § 1607 of this title, schools and school districts shall consider contracting for educational or related goods and services with the State Departments of Services for Children, Youth and Their Families and Health and Social Services, and other governmental and nongovernmental social service agencies using funds authorized by this section. Each school filing a report pursuant to paragraph (6) of this section shall include information regarding the provisions of this paragraph (5).

(6) All schools receiving an incentive grant pursuant to paragraph (3) of this section shall submit an annual evaluation report on the effectiveness of the program to the Department of Education. The report shall be in a format and shall include the data and information specified by the Department.

(7) To receive a supplemental grant greater than the dollar amount for base grants funded in support of programs defined in this section by the annual budget act, schools shall establish a site-based committee in the school to govern discipline matters and shall meet the criteria set forth in this subdivision. Supplemental grants shall be available for grades 7, 8, 9 and 10 only. The annual budget act shall establish the dollar amount of such supplemental grants. Before issuing funding pursuant to this paragraph, the Department shall determine that the school's application meets the following criteria:

a. The grant application must certify that the majority of the members of the school level committee are members of the school professional staff, of which a majority shall be instructional staff; that the committee contains representatives of the support staff, student body (for schools enrolling students, grades 7 through 12), parents and the community; that representatives of the employee groups are chosen by members of each respective group and representatives of the nonemployee groups are appointed by the local board of education; and that the committee operates on the 1-person, 1-vote principle for reaching all decisions.

b. The grant application must certify that the committee has the authority, within established local district budgetary guidelines and at its sole discretion, to:

1. Establish a school code of conduct which defines the roles and responsibilities of all members of the school community (administrators, teachers, support staff, contracted service personnel, students, families and child/family advocates) and which is consistent with the established state and federal laws, state and federal regulations, local board policies, local district codes of conduct and local district budgetary guidelines, unless relevant waivers have been granted.
2. Hear concerns from a staff member dissatisfied with the disposition of any disciplinary matter by the school administration;

3. Refer students to programs defined in § 1604 of this title; provided, however, that any child with disabilities be referred to such programs through the child's Individualized Education Plan;

4. Design, approve and oversee the implementation of programs established in the school as defined in this chapter;

5. Establish and enforce the school's attendance policy, including mandating attendance in programs established in paragraph (7) b.7. of this section;

6. Establish extended day, week or year programs, for students with discipline or attendance problems, or at risk of academic failure, that provide for the assessment of penalties for violations of school discipline or attendance policies and for academic acceleration and tutoring, mentoring and counseling services for such students and their families as an integral program component;

7. Establish staff development programs for conflict resolution for all school staff, and establish programs in classroom and behavioral management for schools staff identified as needing improvement;

8. Design student mentoring, conflict resolution and/or peer counseling programs for all students, especially for those who are identified as having chronic discipline, academic or attendance problems.

14 Del.C. §1605A. Prevention component.

The Family Services Cabinet Council (Council), with the Department of Education and the Department of Services for Children, Youth and Their Families acting as lead agencies, shall administer a program to offer prevention-related student support services (prevention services) to students to prevent them from becoming discipline problems and from failing academically in our schools. Within the limits of appropriations made for this purpose, the Council shall provide rules and regulations for the award of prevention grants and the conduct of prevention programs authorized under this section, subject to the following limitations:

(1) The Council shall issue prevention funding to local school districts proposing to establish an integrated plan to deliver prevention services including, but not limited to, academic tutoring and student mentoring programs to provide at-risk students with the extra help they may need to succeed academically and with positive adult role models; outreach programs to promote parental, family and community involvement in students' academic studies and in reducing and resolving school discipline problems; school-linked support services to help students with family or health problems that may be adversely affecting their academic performance and their conduct at school; training to help students and school personnel resolve conflicts peacefully and non-disruptively; and assistance to help teachers better manage the behavior of students in their classrooms.

(2) Applications for funding pursuant to this section shall be made by school districts in accordance with procedures and standards established by the Council. Each applicant shall set forth an integrated plan to provide prevention services consistent with paragraph (1) of this section. To avoid duplication of effort, maximize the impact of limited resources, and increase the effect of efforts by state, local, community and private, nonprofit agencies through increased coordination and cooperation, the Council shall give preference to applications which:

a. Are submitted by 2 or more school districts working in concert, where appropriate;

b. Include private, nonprofit agencies and community organizations as partners in the application, and identify the roles those agencies and organizations are to play in delivering prevention services in the community;
c. Indicate how grants from the federal government and foundations will be used or sought to help deliver prevention services in the community; and

d. Identify the roles state and local agencies are to play in delivering prevention services in the community.

(3) The Council shall provide technical assistance to districts preparing applications and ongoing assistance to districts awarded funding pursuant to this section.

(4) The Council shall establish a timetable for the award of grants pursuant to this section which shall provide, at minimum, for a period of 1 month for joint planning between the Council and the applicants that the Counsel selects as finalists eligible for a funding award. During such joint planning, the Council and the applicant shall refine the applicant's prevention plan, ensure that the plan makes cost-effective use of the resources and services of state, local, community and private, nonprofit agencies, and consider the incorporation of successful elements of other districts' prevention programs into the applicant's plans. Final awards shall be made by the Council on or before January 15 of each year for the subsequent school year, contingent upon the appropriation of funds for such purpose in the annual appropriations act.

(a) All criteria for the rating of applications for funds under this chapter shall be developed by the State Drug-free School Advisory Committee. The State Drug-free School Advisory Committee shall be composed of 16 members appointed by the Governor: 1 police chief; 1 sheriff; 1 prosecutor from the State Department of Justice who specializes in drug and/or alcohol cases; 1 attorney primarily engaged in criminal defense; 1 person from each county appointed by an active parent group or community-based group concerned primarily with drug and/or alcohol problems; 1 representative of the Division of Substance Abuse and Mental Health; 1 county drug and/or alcohol program administrator; and a permanent, full-time member of a drug treatment clinic or office, public or private. (c) Funds disbursed under this chapter shall not be used to pay informants for information on drug and/or alcohol offenders. Not more than 10 percent of the total amount of funds disbursed under this chapter shall be used for administrative costs.

14 Del.C. §3805. Local drug-free school advisory committees.

(a) A local drug-free school advisory committee may be established and appointed by each local board of education. Such committee may be either a newly created committee, or an existing local drug and alcohol abuse committee formerly established by the county, municipality or school district. Although the committee may have additional members, its basic membership shall be composed of the following residents of the district or area affected:

(1) One local law enforcement officer;
(2) An administrator or teacher, employed by the local school district, who has expertise in drug and alcohol programs;
(3) One administrator and 1 teacher from the school or school district which has direct involvement in the program;
(4) One parent who has a son or daughter enrolled in the school;

14 Del.C. §4164. School bullying awareness and prevention; criminal youth gang detection.

(b) Prohibition of bullying.

(2) Each school district and charter school shall establish a policy which, at a minimum, includes the following components:

d. A requirement that each school establish a site-based committee that is responsible for coordinating the school's bully prevention program including the design, approval, and monitoring of the program. A majority of the members of the site-based committee must be members of the school professional staff, of which a majority must be instructional staff. The committee also shall contain representatives of the administrative staff, support staff, student body (for a school enrolling students in grades 7 through 12), parents, and staff from the before- or after-school program or programs. These representatives shall be chosen by members of each respective group, except that the school principal shall appoint the representatives of the nonemployee groups. The committee shall operate on a 1-person, 1-vote principle. If a site-based school discipline committee has been established under § 1605(7)a. and b. of this title, that committee shall vote whether to accept the responsibilities of this paragraph (b)(2)d.

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. LAWS

1003.02. District school board operation and control of public K-12 education within the school district.

As provided in part II of chapter 1001, district school boards are constitutionally and statutorily charged with the operation and control of public K-12 education within their school district. The district school boards must establish, organize, and operate their public K-12 schools and educational programs, employees, and facilities. Their responsibilities include staff development, public K-12 school student education including education for exceptional students and students in juvenile justice programs, special programs, adult education programs, and career education programs. Additionally, district school boards must:

1. Provide for the proper accounting for all students of school age, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students in the following areas:
   a. Admission, classification, promotion, and graduation of students. Adopt rules for admitting, classifying, promoting, and graduating students to or from the various schools of the district.
   b. Enforcement of attendance laws. Provide for the enforcement of all laws and rules relating to the attendance of students at school. District school boards are authorized to establish policies that allow accumulated unexcused tardies, regardless of when they occur during the school day, and early departures from school to be recorded as unexcused absences. District school boards are also authorized to establish policies that require referral to a school’s child study team for students who have fewer absences than the number required by s. 1003.26(1)(b).
   c. Control of students.
      1. Adopt rules for the control, attendance, discipline, in-school suspension, suspension, and expulsion of students and decide all cases recommended for expulsion.
      2. Maintain a code of student conduct as provided in chapter 1006.

1003.31. Students subject to control of school.

Subject to law and rules of the State Board of Education and of the district school board, each student enrolled in a school shall:

1. Subject to the control and direction of the principal or teacher in charge of the school, and under the immediate control and direction of the teacher or other member of the instructional staff or of the bus driver to whom such responsibility may be assigned by the principal. However, the State Board of Education or the district school board may, by rules, subject each student to the control and direction of the principal or teacher in charge of the school during the time she or he is otherwise en route to or from school or is presumed by law to be attending school. Each district school board, each district school superintendent, and each school principal shall fully support the authority of teachers, according to s. 1003.32, and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting.
1003.53. Dropout prevention and academic intervention.

(7) The State Board of Education shall have the authority pursuant to ss. 120.536(1) and 120.54 to adopt rules necessary to implement the provisions of this section; such rules shall require the minimum amount of necessary paperwork and reporting.

1003.573. Use of restraint and seclusion on students with disabilities.

(3) School district policies and procedures.

(a) Each school district shall develop policies and procedures that are consistent with this section and that govern the following:

1. Incident-reporting procedures.
2. Data collection and monitoring, including when, where, and why students are restrained or secluded; the frequency of occurrences of such restraint or seclusion; and the prone or mechanical restraint that is most used.
3. Monitoring and reporting of data collected.
4. Training programs relating to manual or physical restraint and seclusion.
5. The district's plan for selecting personnel to be trained.
6. The district’s plan for reducing the use of restraint and seclusion particularly in settings in which it occurs frequently or with students who are restrained repeatedly, and for reducing the use of prone restraint and mechanical restraint. The plan must include a goal for reducing the use of restraint and seclusion and must include activities, skills, and resources needed to achieve that goal. Activities may include, but are not limited to:
   a. Additional training in positive behavioral support and crisis management;
   b. Parental involvement;
   c. Data review;
   d. Updates of students’ functional behavioral analysis and positive behavior intervention plans;
   e. Additional student evaluations;
   f. Debriefing with staff;
   g. Use of schoolwide positive behavior support; and
   h. Changes to the school environment.
(b) Any revisions to the district's policies and procedures, which must be prepared as part of its special policies and procedures, must be filed with the bureau chief of the Bureau of Exceptional Education and Student Services no later than January 31, 2012.

1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(1) Control of Students.

(a) Adopt rules for the control, discipline, in-school suspension, suspension, and expulsion of students and decide all cases recommended for expulsion. Suspension hearings are exempted from the provisions of chapter 120. Expulsion hearings shall be governed by ss. 120.569 and 120.57(2) and are exempt from s. 286.011. However, the student’s parent must be given notice of the provisions of s. 286.011 and may elect to have the hearing held in compliance with that section. The district school
board may prohibit the use of corporal punishment, if the district school board adopts or has adopted a written program of alternative control or discipline.

(b) Require each student at the time of initial registration for school in the school district to note previous school expulsions, arrests resulting in a charge, and juvenile justice actions the student has had, and have the authority as the district school board of a receiving school district to honor the final order of expulsion or dismissal of a student by any in-state or out-of-state public district school board or private school, or lab school, for an act which would have been grounds for expulsion according to the receiving district school board’s code of student conduct, in accordance with the following procedures:

1. A final order of expulsion shall be recorded in the records of the receiving school district.
2. The expelled student applying for admission to the receiving school district shall be advised of the final order of expulsion.
3. The district school superintendent of the receiving school district may recommend to the district school board that the final order of expulsion be waived and the student be admitted to the school district, or that the final order of expulsion be honored and the student not be admitted to the school district. If the student is admitted by the district school board, with or without the recommendation of the district school superintendent, the student may be placed in an appropriate educational program at the direction of the district school board.

(2) Code of Student Conduct. Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(a) Consistent policies and specific grounds for disciplinary action, including in-school suspension, out-of-school suspension, expulsion, and any disciplinary action that may be imposed for the possession or use of alcohol on school property or while attending a school function or for the illegal use, sale, or possession of controlled substances as defined in chapter 893.

(b) Procedures to be followed for acts requiring discipline, including corporal punishment.

(c) An explanation of the responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.

(d)

1. An explanation of the responsibilities of each student with regard to appropriate dress, respect for self and others, and the role that appropriate dress and respect for self and others has on an orderly learning environment. Each district school board shall adopt a dress code policy that prohibits a student, while on the grounds of a public school during the regular school day, from wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the orderly learning environment.

2. Any student who violates the dress policy described in subparagraph 1. is subject to the following disciplinary actions:
   a. For a first offense, a student shall be given a verbal warning and the school principal shall call the student’s parent or guardian.
b. For a second offense, the student is ineligible to participate in any extracurricular activity for a period of time not to exceed 5 days and the school principal shall meet with the student's parent or guardian.

c. For a third or subsequent offense, a student shall receive an in-school suspension pursuant to s. 1003.01(5) for a period not to exceed 3 days, the student is ineligible to participate in any extracurricular activity for a period not to exceed 30 days, and the school principal shall call the student's parent or guardian and send the parent or guardian a written letter regarding the student's in-school suspension and ineligibility to participate in extracurricular activities.

(e) Notice that illegal use, possession, or sale of controlled substances, as defined in chapter 893, by any student while the student is upon school property or in attendance at a school function is grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(f) Notice that use of a wireless communications device includes the possibility of the imposition of disciplinary action by the school or criminal penalties if the device is used in a criminal act. A student may possess a wireless communications device while the student is on school property or in attendance at a school function. Each district school board shall adopt rules governing the use of a wireless communications device by a student while the student is on school property or in attendance at a school function.

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student’s parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

(h) Notice that violence against any district school board personnel by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.
(i) Notice that violation of district school board transportation policies, including disruptive behavior on a school bus or at a school bus stop, by a student is grounds for suspension of the student’s privilege of riding on a school bus and may be grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(j) Notice that violation of the district school board’s sexual harassment policy by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(k) Policies to be followed for the assignment of violent or disruptive students to an alternative educational program.

(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year and referred to the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

(2) There is a rebuttable presumption that the term “reasonable time” means 30 minutes before or after the activity is scheduled or actually begins or ends, whichever period is longer. A school or district school board may, by policy or other formal action, assume a longer period of supervision. Casual or incidental
contact between school district personnel and students on school property shall not result in a legal duty to supervise outside of the reasonable times set forth in this section, provided that parents shall be advised in writing twice per year or by posted signs of the school’s formal supervisory responsibility and that parents should not rely on additional supervision. This paragraph does not require a school to staff or monitor any nonschool-related activity, function, or program.
(3) For purposes of this section:
   (d) “Within the scope of a public K-12 educational institution” means, regardless of ownership, any computer, computer system, or computer network that is physically located on school property or at a school-related or school-sponsored program or activity.
(6)
   (a) The physical location or time of access of a computer-related incident cannot be raised as a defense in any disciplinary action initiated under this section.
   (b) This section does not apply to any person who uses data or computer software that is accessed through a computer, computer system, or computer network when acting within the scope of his or her lawful employment or investigating a violation of this section in accordance with school district policy.

Grounds for possible suspension or expulsion

LAWS

1003.31. Students subject to control of school.
(3) Nothing shall prohibit a district school board from having the right to expel, or to take disciplinary action against, a student who is found to have committed an offense on school property at any time if:
   (a) The student is found to have committed a delinquent act which would be a felony if committed by an adult;
   (b) The student has had adjudication withheld for a delinquent act which, if committed by an adult, would be a felony; or
   (c) The student has been found guilty of a felony.
However, if the student is a student with a disability, the disciplinary action must comply with the procedures set forth in State Board of Education rule.

1006.07. District school board duties relating to student discipline and school safety.
The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:
   (2) Code of student conduct. [...] Each code shall include, but is not limited to:
      (a) Consistent policies and specific grounds for disciplinary action, including in-school suspension, out-of-school suspension, expulsion, and any disciplinary action that may be imposed for the possession or use of alcohol on school property or while attending a school function or for the illegal use, sale, or possession of controlled substances as defined in chapter 893.
      (d) 1. An explanation of the responsibilities of each student with regard to appropriate dress, respect for self and others, and the role that appropriate dress and respect for self and others has on an orderly learning environment. Each district school board shall adopt a dress code policy that prohibits a student, while on the grounds of a public school during the regular school day, from wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the orderly learning environment.
      2. Any student who violates the dress policy described in subparagraph 1. is subject to the following disciplinary actions:
         a. For a first offense, a student shall be given a verbal warning and the school principal shall call the student’s parent or guardian.
         b. For a second offense, the student is ineligible to participate in any extracurricular activity for a period of time not to exceed 5 days and the school principal shall meet with the student’s parent or guardian.
         c. For a third or subsequent offense, a student shall receive an in-school suspension pursuant to s. 1003.01(5) for a period not to exceed 30 days, and the school principal shall call the
student’s parent or guardian and send the parent or guardian a written letter regarding the student’s in-school suspension and ineligibility to participate in extracurricular activities.

(e) Notice that illegal use, possession, or sale of controlled substances, as defined in chapter 893, by any student while the student is upon school property or in attendance at a school function is grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(f) Notice that use of a wireless communications device includes the possibility of the imposition of disciplinary action by the school or criminal penalties if the device is used in a criminal act. A student may possess a wireless communications device while the student is on school property or in attendance at a school function. Each district school board shall adopt rules governing the use of a wireless communications device by a student while the student is on school property or in attendance at a school function.

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student’s parent. Disciplinary action resulting from a student’s clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

(h) Notice that violence against any district school board personnel by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(i) Notice that violation of district school board transportation policies, including disruptive behavior on a school bus or at a school bus stop, by a student is grounds for suspension of the student’s privilege of riding on a school bus and may be grounds for disciplinary action by the school and may also result in criminal penalties being imposed.
(j) Notice that violation of the district school board’s sexual harassment policy by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

1006.09. Duties of school principal relating to student discipline and school safety.

(1) (b) The principal or the principal’s designee may suspend a student only in accordance with the rules of the district school board. The principal or the principal’s designee shall make a good faith effort to immediately inform a student’s parent by telephone of a student’s suspension and the reasons for the suspension. Each suspension and the reasons for the suspension shall be reported in writing within 24 hours to the student’s parent by United States mail. Each suspension and the reasons for the suspension shall also be reported in writing within 24 hours to the district school superintendent. A good faith effort shall be made by the principal or the principal’s designee to employ parental assistance or other alternative measures prior to suspension, except in the case of emergency or disruptive conditions which require immediate suspension or in the case of a serious breach of conduct as defined by rules of the district school board. Such rules shall require oral and written notice to the student of the charges and an explanation of the evidence against him or her prior to the suspension. [...]

(c) The principal or the principal’s designee may recommend to the district school superintendent the expulsion of any student who has committed a serious breach of conduct, including, but not limited to, willful disobedience, open defiance of authority of a member of his or her staff, violence against persons or property, or any other act which substantially disrupts the orderly conduct of the school. A recommendation of expulsion or assignment to a second chance school may also be made for any student found to have intentionally made false accusations that jeopardize the professional reputation, employment, or professional certification of a teacher or other member of the school staff, according to the district school board code of student conduct. Any recommendation of expulsion shall include a detailed report by the principal or the principal’s designated representative on the alternative measures taken prior to the recommendation of expulsion.

(2) [...] If the court determines that the student did commit the felony or delinquent act which would have been a felony if committed by an adult, the district school board may expel the student, provided that expulsion under this subsection shall not affect the delivery of educational services to the student in any residential, nonresidential, alternative, daytime, or evening program outside of the regular school setting. Any student who is subject to discipline or expulsion for unlawful possession or use of any substance controlled under chapter 893 may be entitled to a waiver of the discipline or expulsion:

(a) If the student divulges information leading to the arrest and conviction of the person who supplied the controlled substance to him or her, or if the student voluntarily discloses his or her unlawful possession of the controlled substance prior to his or her arrest. Any information divulged which leads to arrest and conviction is not admissible in evidence in a subsequent criminal trial against the student divulging the information.

(b) If the student commits himself or herself, or is referred by the court in lieu of sentence, to a state-licensed drug abuse program and successfully completes the program.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(2) Code of student conduct. [...] Each code shall include, but is not limited to:

(d)

1. An explanation of the responsibilities of each student with regard to appropriate dress, respect for self and others, and the role that appropriate dress and respect for self and others has on an orderly learning environment. 2. Any student who violates the dress policy described in subparagraph 1. is subject to the following disciplinary actions:

   c. For a third or subsequent offense, a student shall receive an in-school suspension pursuant to s. 1003.01(5) for a period not to exceed 3 days, the student is ineligible to participate in any extracurricular activity for a period not to exceed 30 days, and the school principal shall call the student’s parent or guardian and send the parent or guardian a written letter regarding the student’s in-school suspension and ineligibility to participate in extracurricular activities.

(i) Notice that violation of district school board transportation policies, including disruptive behavior on a school bus or at a school bus stop, by a student is grounds for suspension of the student’s privilege of riding on a school bus and may be grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(j) Notice that violation of the district school board’s sexual harassment policy by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year and referred to the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

(m) Notice that any student who is determined to have made a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel’s property, school transportation, or a school-sponsored activity will be expelled, with or without continuing educational...
services, from the student’s regular school for a period of not less than 1 full year and referred for criminal prosecution. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if it is determined to be in the best interest of the student and the school system.

1006.13. Policy of zero tolerance for crime and victimization.

(1) It is the intent of the Legislature to promote a safe and supportive learning environment in schools, to protect students and staff from conduct that poses a serious threat to school safety, and to encourage schools to use alternatives to expulsion or referral to law enforcement agencies by addressing disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. The Legislature finds that zero-tolerance policies are not intended to be rigorously applied to petty acts of misconduct and misdemeanors, including, but not limited to, minor fights or disturbances. The Legislature finds that zero-tolerance policies must apply equally to all students regardless of their economic status, race, or disability.

(2) Each district school board shall adopt a policy of zero tolerance that:

(a) Defines criteria for reporting to a law enforcement agency any act that occurs whenever or wherever students are within the jurisdiction of the district school board.

(b) Defines acts that pose a serious threat to school safety.

(c) Defines petty acts of misconduct.

(d) Minimizes the victimization of students, staff, or volunteers, including taking all steps necessary to protect the victim of any violent crime from any further victimization.

(e) Establishes a procedure that provides each student with the opportunity for a review of the disciplinary action imposed pursuant to s. 1006.07.

(3) Zero-tolerance policies must require students found to have committed one of the following offenses to be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year, and to be referred to the criminal justice or juvenile justice system.

(a) Bringing a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation or possessing a firearm at school.

(b) Making a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel’s property, school transportation, or a school-sponsored activity.

District school boards may assign the student to a disciplinary program for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system. If a student committing any of the offenses in this subsection is a student who has a disability, the district school board shall comply with applicable State Board of Education rules.

(5) Notwithstanding any other provision of law, each district school board shall adopt rules providing that any student found to have committed any offense in s. 784.081(1), (2), or (3) shall be expelled or placed in an alternative school setting or other program, as appropriate. Upon being charged with the offense, the student shall be removed from the classroom immediately and placed in an alternative school setting pending disposition.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(1) Control of Students.

Suspension hearings are exempted from the provisions of chapter 120. Expulsion hearings shall be governed by ss. 120.569 and 120.57(2) and are exempt from s. 286.011. However, the student’s parent must be given notice of the provisions of s. 286.011 and may elect to have the hearing held in compliance with that section. The district school board may prohibit the use of corporal punishment, if the district school board adopts or has adopted a written program of alternative control or discipline.

(b) Require each student at the time of initial registration for school in the school district to note previous school expulsions, arrests resulting in a charge, and juvenile justice actions the student has had, and have the authority as the district school board of a receiving school district to honor the final order of expulsion or dismissal of a student by any in-state or out-of-state public district school board or private school, or lab school, for an act which would have been grounds for expulsion according to the receiving district school board’s code of student conduct, in accordance with the following procedures:

1. A final order of expulsion shall be recorded in the records of the receiving school district.
2. The expelled student applying for admission to the receiving school district shall be advised of the final order of expulsion.
3. The district school superintendent of the receiving school district may recommend to the district school board that the final order of expulsion be waived and the student be admitted to the school district, or that the final order of expulsion be honored and the student not be admitted to the school district. If the student is admitted by the district school board, with or without the recommendation of the district school superintendent, the student may be placed in an appropriate educational program at the direction of the district school board.

(2) Code of Student Conduct. Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(a) Consistent policies and specific grounds for disciplinary action, including in-school suspension, out-of-school suspension, expulsion, and any disciplinary action that may be imposed for the possession or use of alcohol on school property or while attending a school function or for the illegal use, sale, or possession of controlled substances as defined in chapter 893.

2. Any student who violates the dress policy described in subparagraph 1. is subject to the following disciplinary actions:
   a. For a first offense, a student shall be given a verbal warning and the school principal shall call the student’s parent or guardian.
   b. For a second offense, the student is ineligible to participate in any extracurricular activity for a period of time not to exceed 5 days and the school principal shall meet with the student’s parent or guardian.

(e) Notice that illegal use, possession, or sale of controlled substances, as defined in chapter 893, by any student while the student is upon school property or in attendance at a school function is grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(f) Notice that use of a wireless communications device includes the possibility of the imposition of disciplinary action by the school or criminal penalties if the device is used in a criminal act. A student may possess a wireless communications device while the student is on school property or in attendance at a school function. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student’s parent. Disciplinary action resulting from a student’s clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner
that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

(h) Notice that violence against any district school board personnel by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(i) Notice that violation of district school board transportation policies, including disruptive behavior on a school bus or at a school bus stop, by a student is grounds for suspension of the student’s privilege of riding on a school bus and may be grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(j) Notice that violation of the district school board’s sexual harassment policy by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(k) Policies to be followed for the assignment of violent or disruptive students to an alternative educational program.

(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year and referred to the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if it is determined to be in the best interest of the student and the school system.

(m) Notice that any student who is determined to have made a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel’s property, school transportation, or a school-sponsored activity will be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year and referred for criminal prosecution. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if it is determined to be in the best interest of the student and the school system.

(3) Student Crime Watch Program. By resolution of the district school board, implement a student crime watch program to promote responsibility among students and to assist in the control of criminal behavior within the schools.

(4) Emergency Drills; Emergency Procedures.

(a) Formulate and prescribe policies and procedures for emergency drills and for actual emergencies, including, but not limited to, fires, natural disasters, and bomb threats, for all the public schools of the district which comprise grades K-12. District school board policies shall include commonly used alarm system responses for specific types of emergencies and verification by each school that drills have been provided as required by law and fire protection codes. The emergency response agency that is responsible for notifying the school district for each type of emergency must be listed in the district’s emergency response policy.

1. Weapon-use and hostage situations.
2. Hazardous materials or toxic chemical spills.
3. Weather emergencies, including hurricanes, tornadoes, and severe storms.
4. Exposure as a result of a manmade emergency.

(5) Educational Services in Detention Facilities. Offer educational services to minors who have not graduated from high school and eligible students with disabilities under the age of 22 who have not graduated with a standard diploma or its equivalent who are detained in a county or municipal detention facility as defined in s. 951.23. These educational services shall be based upon the estimated length of time the student will be in the facility and the student’s current level of functioning. District school superintendents or their designees shall be notified by the county sheriff or chief correctional officer, or his or her designee, upon the assignment of a student under the age of 21 to the facility. A cooperative agreement with the district school board and applicable law enforcement units shall be developed to address the notification requirement and the provision of educational services to these students.

(6) Safety and Security Best Practices. Use the Safety and Security Best Practices developed by the Office of Program Policy Analysis and Government Accountability to conduct a self-assessment of the school districts’ current safety and security practices. Based on these self-assessment findings, the district school superintendent shall provide recommendations to the district school board which identify strategies and activities that the district school board should implement in order to improve school safety and security. Annually each district school board must receive the self-assessment results at a publicly noticed district school board meeting to provide the public an opportunity to hear the district school board members discuss and take action on the report findings. Each district school superintendent shall report the self-assessment results and school board action to the commissioner within 30 days after the district school board meeting.

1006.09. Duties of school principal relating to student discipline and school safety.

(1)(a) Subject to law and to the rules of the State Board of Education and the district school board, the principal in charge of the school or the principal’s designee shall develop policies for delegating to any teacher or other member of the instructional staff or to any bus driver transporting students of the school responsibility for the control and direction of students. Each school principal shall fully support the authority of his or her teachers and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrolled, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting. The principal or the principal’s designee must give full consideration to the recommendation for discipline made by a teacher, other member of the instructional staff, or a bus driver when making a decision regarding student referral for discipline.

(b) The principal or the principal’s designee may suspend a student only in accordance with the rules of the district school board. The principal or the principal’s designee shall make a good faith effort to immediately inform a student’s parent by telephone of a student’s suspension and the reasons for the suspension. Each suspension and the reasons for the suspension shall be reported in writing within 24 hours to the student’s parent by United States mail. Each suspension and the reasons for the suspension shall also be reported in writing within 24 hours to the district school superintendent. A good faith effort shall be made by the principal or the principal’s designee to employ parental assistance or other alternative measures prior to suspension, except in the case of emergency or disruptive conditions which require immediate suspension or in the case of a serious breach of conduct as defined by rules of the district school board. Such rules shall require oral and written notice to the student of the charges and an explanation of the evidence against him or her prior to the suspension. A recommendation of expulsion or assignment to a second chance school may also be made for any student found to have intentionally made false accusations that jeopardize the professional reputation, employment, or professional certification of a teacher or other member of the school staff, according to the district school board code of student conduct. Any recommendation of expulsion shall include a detailed report by the principal or the principal’s designated representative on the alternative measures taken prior to the recommendation of expulsion.

(2) Suspension proceedings, pursuant to rules of the State Board of Education, may be initiated against any enrolled student who is formally charged with a felony, or with a delinquent act which would be a felony if committed by an adult, by a proper prosecuting attorney for an incident which allegedly occurred on property other than public school property, if that incident is shown, in an administrative hearing with notice provided to the parents of the student by the principal of the school pursuant to rules adopted by the State Board of Education and to rules developed pursuant to s. 1001.54, to have an adverse impact on the educational program, discipline, or welfare in the school in which the student is enrolled. Any student who is suspended as the result of such proceedings may be suspended from all classes of instruction on public school grounds during regular classroom hours for a period of time, which may
exceed 10 days, as determined by the district school superintendent. The suspension shall not affect the delivery of educational services to the student, and the student shall be immediately enrolled in a daytime alternative education program, or an evening alternative education program, where appropriate. If the court determines that the student did commit the felony or delinquent act which would have been a felony if committed by an adult, the district school board may expel the student, provided that expulsion under this subsection shall not affect the delivery of educational services to the student in any residential, nonresidential, alternative, daytime, or evening program outside of the regular school setting. Any student who is subject to discipline or expulsion for unlawful possession or use of any substance controlled under chapter 893 may be entitled to a waiver of the discipline or expulsion:

(a) If the student divulges information leading to the arrest and conviction of the person who supplied the controlled substance to him or her, or if the student voluntarily discloses his or her unlawful possession of the controlled substance prior to his or her arrest. Any information divulged which leads to arrest and conviction is not admissible in evidence in a subsequent criminal trial against the student divulging the information.

(b) If the student commits himself or herself, or is referred by the court in lieu of sentence, to a state-licensed drug abuse program and successfully completes the program.

(3) A student may be disciplined or expelled for unlawful possession or use of any substance controlled under chapter 893 upon the third violation of this provision.

(4) When a student has been the victim of a violent crime perpetrated by another student who attends the same school, the school principal shall make full and effective use of the provisions of subsection (2) and s. 1006.13(6). School personnel are exempt from civil liability when reporting in good faith to the proper school authority such suspected unlawful use, possession, or sale by a student. Only a principal or principal’s designee is authorized to contact a parent or legal guardian of a student regarding this situation. Reports made and verified under this subsection shall be forwarded to an appropriate agency. The principal or principal’s designee shall timely notify the student’s parent that a verified report made under this subsection with respect to the student has been made and forwarded.

The district school board shall require and each school principal shall cause to be posted in each public K-12 school, in a place readily seen by students, a notice stating that a student’s locker or other storage area is subject to search, upon reasonable suspicion, for prohibited or illegally possessed substances or objects. (3) This section does not apply to any law enforcement officer as defined in s. 943.10(1), (2), (3), (4), (6), (7), (8), (9), or (14).

(4) Notwithstanding s. 985.24, s. 985.245, or s. 985.25(1), any minor under 18 years of age who is charged under this section with possessing or discharging a firearm on school property shall be detained in secure detention, unless the state attorney authorizes the release of the minor, and shall be given a probable cause hearing within 24 hours after being taken into custody. At the hearing, the court may order that the minor continue to be held in secure detention for a period of 21 days, during which time the minor shall receive medical, psychiatric, psychological, or substance abuse examinations pursuant to s. 985.18, and a written report shall be completed.

1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(2) Code of student conduct. [...] Each code shall include, but is not limited to:

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the
student’s parent. Disciplinary action resulting from a student’s clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year and referred to the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

1006.13. Policy of zero tolerance for crime and victimization.

(3) Zero-tolerance policies must require students found to have committed one of the following offenses to be expelled, with or without continuing educational services, from the student’s regular school for a period of not less than 1 full year, and to be referred to the criminal justice or juvenile justice system.

(a) Bringing a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation or possessing a firearm at school.

c. The student’s high incidences of truancy have been directly linked to a lack of motivation.
d. The student has been identified as at risk of dropping out of school.

4. A student who is habitually truant may be assigned to a second chance school only if the case staffing committee, established pursuant to s. 984.12, determines that such placement could be beneficial to the student and the criteria included in subparagraph 3. are met.

Attendance and truancy

LAWS

1002.20. K-12 student and parent rights.
Parents of public school students must receive accurate and timely information regarding their child’s academic progress and must be informed of ways they can help their child to succeed in school. K-12 students and their parents are afforded numerous statutory rights including, but not limited to, the following:

(2) Attendance.
(a) Compulsory school attendance. The compulsory school attendance laws apply to all children between the ages of 6 and 16 years, as provided in s. 1003.21(1) and (2)(a), and, in accordance with the provisions of s. 1003.21(1) and (2)(a):

1. A student who attains the age of 16 years during the school year has the right to file a formal declaration of intent to terminate school enrollment if the declaration is signed by the parent. The parent has the right to be notified by the school district of the district’s receipt of the student’s declaration of intent to terminate school enrollment.

2. Students who become or have become married or who are pregnant, and parenting have the right to attend school and receive the same or equivalent educational instruction as other students.

(b) Regular school attendance. Parents of students who have attained the age of 6 years by February 1 of any school year but who have not attained the age of 16 years must comply with the compulsory school attendance laws. Parents have the option to comply with the school attendance laws by attendance of the student in a public school; a parochial, religious, or denominational school; a private school; a home education program; or a private tutoring program, in accordance with the provisions of s. 1003.01(13).

(c) Absence for religious purposes. A parent of a public-school student may request and be granted permission for absence of the student from school for religious instruction or religious holidays, in accordance with the provisions of s. 1003.21(2)(b)1.

(d) Absence for treatment of autism spectrum disorder. A parent of a public school student may request and be granted permission for absence of the student from school for an appointment scheduled to receive a therapy service provided by a licensed health care practitioner or behavior analyst certified pursuant to s. 393.17 for the treatment of autism spectrum disorder pursuant to ss. 1003.21(2)(b)2. and 1003.24(4).

(e) Dropout prevention and academic intervention programs. The parent of a public school student has the right to receive written notice by certified mail prior to placement of the student in a dropout prevention and academic intervention program and shall be notified in writing and entitled to an administrative review of any action by school personnel relating to the student’s placement, in accordance with the provisions of s. 1003.53(5).

**1003.26. Enforcement of school attendance.**

The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) Contact, refer, and enforce.
(a) Upon each unexcused absence, or absence for which the reason is unknown, the school principal or his or her designee shall contact the student’s parent to determine the reason for the absence. If the absence is an excused absence, as defined by district school board policy, the school shall provide opportunities for the student to make up assigned work and not receive an academic penalty unless the work is not made up within a reasonable time.

(b) If a student has had at least five unexcused absences, or absences for which the reasons are unknown, within a calendar month or 10 unexcused absences, or absences for which the reasons are unknown, within a 90-calendar-day period, the student’s primary teacher shall report to the school principal or his or her designee that the student may be exhibiting a pattern of nonattendance. The principal shall, unless there is clear evidence that the absences are not a pattern of nonattendance, refer the case to the school’s child study team to determine if early patterns of truancy are developing. If the child study team finds that a pattern of nonattendance is developing, whether the absences are excused or not, a meeting with the parent must be scheduled to identify potential remedies, and the principal shall notify the district school superintendent and the school district contact for home education programs that the referred student is exhibiting a pattern of nonattendance.

(c) If an initial meeting does not resolve the problem, the child study team shall implement the following:

1. Frequent attempts at communication between the teacher and the family.
2. Evaluation for alternative education programs.
3. Attendance contracts.

The child study team may, but is not required to, implement other interventions, including referral to other agencies for family services or recommendation for filing a truancy petition pursuant to s.984.151.

(d) The child study team shall be diligent in facilitating intervention services and shall report the case to the district school superintendent only when all reasonable efforts to resolve the nonattendance behavior are exhausted.

(e) If the parent refuses to participate in the remedial strategies because he or she believes that those strategies are unnecessary or inappropriate, the parent may appeal to the district school board. The district school board may provide a hearing officer, and the hearing officer shall make a recommendation for final action to the district school board. If the district school board’s final determination is that the strategies of the child study team are appropriate, and the parent still refuses to participate or cooperate, the district school superintendent may seek criminal prosecution for noncompliance with compulsory school attendance.

(f) 1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district’s regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(b). The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(b).
2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a), (b), (c), or (e), within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s.1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(b).

(g) If a student subject to compulsory school attendance will not comply with attempts to enforce school attendance, the parent or the district school superintendent or his or her designee shall refer the case to the case staffing committee pursuant to s. 984.12, and the district school superintendent or his or her designee may file a truancy petition pursuant to the procedures in s. 984.151.

(2) Give written notice.

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt mail, to the parent when no valid reason is found for a student’s nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, and may refer the case to the case staffing committee, established pursuant to s. 984.12. The district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

(b) Subsequent to the activities required under subsection (1), the district school superintendent or his or her designee shall give written notice in person or by return-receipt mail to the parent that criminal prosecution is being sought for nonattendance. The district school superintendent may file a truancy petition, as defined in s. 984.03, following the procedures outlined in s. 984.151.

(3) Return student to parent. A designated school representative may visit the home or place of residence of a student and any other place in which he or she is likely to find any student who is required to attend school when the student is not enrolled or is absent from school during school hours without an excuse, and, when the student is found, shall return the student to his or her parent or to the principal or teacher in charge of the school, or to the private tutor from whom absent, or to the juvenile assessment center or other location established by the district school board to receive students who are absent from school. Upon receipt of the student, the parent shall be immediately notified.

(4) Report to appropriate authority. A designated school representative shall report to the appropriate authority designated by law to receive such notices, all violations of the Child Labor Law that may come to his or her knowledge.

(5) Right to inspect. A designated school representative shall have the right of access to, and inspection of, establishments where minors may be employed or detained only for the purpose of ascertaining whether students of compulsory school age are actually employed there and are actually working there regularly. The designated school representative shall, if he or she finds unsatisfactory working conditions or violations of the Child Labor Law, report his or her findings to the appropriate authority.

1003.53. Dropout prevention and academic intervention.

(1)(c) A student shall be identified as being eligible to receive services funded through the dropout prevention and academic intervention program based upon one of the following criteria:

2. The student has a pattern of excessive absenteeism or has been identified as a habitual truant.
(d) 3. A student enrolled in a sixth, seventh, eighth, ninth, or tenth grade class may be assigned to a second chance school if the student meets the following criteria:
   a. The student is a habitual truant as defined in s. 1003.01.
   b. The student’s excessive absences have detrimentally affected the student’s academic progress and the student may have unique needs that a traditional school setting may not meet.
   c. The student’s high incidences of truancy have been directly linked to a lack of motivation.
   d. The student has been identified as at risk of dropping out of school.

4. A student who is habitually truant may be assigned to a second chance school only if the case staffing committee, established pursuant to s. 984.12, determines that such placement could be beneficial to the student and the criteria included in subparagraph 3. are met.

The Legislature finds that zero-tolerance policies are not intended to be rigorously applied to petty acts of misconduct and misdemeanors, including, but not limited to, minor fights or disturbances.
(4) (a) Each district school board shall enter into agreements with the county sheriff’s office and local police department specifying guidelines for ensuring that acts that pose a serious threat to school safety, whether committed by a student or adult, are reported to a law enforcement agency.

(c) Zero-tolerance policies do not require the reporting of petty acts of misconduct and misdemeanors to a law enforcement agency, including, but not limited to, disorderly conduct, disrupting a school function, simple assault or battery, affray, theft of less than $300, trespassing, and vandalism of less than $1,000.

Upon receipt of such notice, the district school board shall take appropriate action to effectuate the provisions in paragraph (b).

(b) Each district school board shall adopt a cooperative agreement with the Department of Juvenile Justice which establishes guidelines for ensuring that any no contact order entered by a court is reported and enforced and that all of the necessary steps are taken to protect the victim of the offense. Any offender described in paragraph (a), who is not exempted as provided in paragraph (a), may not attend any school attended by the victim or a sibling of the victim of the offense or ride on a school bus on which the victim or a sibling of the victim is riding. The offender shall be permitted by the district
school board to attend another school within the district in which the offender resides, only if the other school is not attended by the victim or sibling of the victim of the offense; or the offender may be permitted by another district school board to attend a school in that district if the offender is unable to attend any school in the district in which the offender resides.

(c) If the offender is unable to attend any other school in the district in which the offender resides and is prohibited from attending a school in another school district, the district school board in the school district in which the offender resides shall take every reasonable precaution to keep the offender separated from the victim while on school grounds or on school transportation. The steps to be taken by a district school board to keep the offender separated from the victim must include, but are not limited to, in-school suspension of the offender and the scheduling of classes, lunch, or other school activities of the victim and the offender so as not to coincide.

However, the offender or the parents of the offender may not be charged for existing modes of transportation that can be used by the offender at no additional cost to the district school board.

8) School districts are encouraged to use alternatives to expulsion or referral to law enforcement agencies unless the use of such alternatives will pose a threat to school safety.

1002.222. Limitations on collection of information and disclosure of confidential and exempt student records.

(1) An agency or institution as defined in s. 1002.22(1) may not:
   
   (a) Collect, obtain, or retain information on the political affiliation, voting history, religious affiliation, or biometric information of a student or a parent or sibling of the student. For purposes of this subsection, the term “biometric information” means information collected from the electronic measurement or evaluation of any physical or behavioral characteristics that are attributable to a single person, including fingerprint characteristics, hand characteristics, eye characteristics, vocal characteristics, and any other physical characteristics used for the purpose of electronically identifying that person with a high degree of certainty. Such designation must occur at a regularly scheduled meeting of the governing board. The governing board of an agency or institution must consider whether designation of such information would put students at risk of becoming targets of marketing campaigns, the media, or criminal acts. An agency or institution may charge fees for copies of designated directory information as provided in s. 119.07(4).

1003.53. Dropout prevention and academic intervention.

(6) District school board dropout prevention and academic intervention programs shall be coordinated with social service, law enforcement, prosecutorial, and juvenile justice agencies and juvenile assessment centers in the school district. Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2018. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

**Teacher authority to remove students from classrooms**

**LAWS**

**20-2-738. Authority of teacher over classroom; procedures following removal of student from classroom; placement review committees.**

(a) A teacher shall have the authority, consistent with local board policy, to manage his or her classroom, discipline students, and refer a student to the principal or the principal's designee to maintain discipline in the classroom. The principal or the principal's designee shall respond when a student is referred by a teacher by employing appropriate discipline management techniques that are consistent with local board policy.

(b) A teacher shall have the authority to remove from his or her class a student who repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn, where the student's behavior is in violation of the student code of conduct, provided that the teacher has previously filed a report pursuant to Code Section 20-2-737 or determines that such behavior of the student poses an immediate threat to the safety of the student's classmates or the teacher. Each school principal shall fully support the authority of every teacher in his or her school to remove a student from the classroom under this Code section. Each school principal shall implement the policies and procedures of the superintendent and local board of education relating to the authority of every teacher to remove a student from the classroom and shall disseminate such policies and procedures to faculty, staff, and parents or guardians of students. The teacher shall file with the principal or the principal's designee a report describing the student's behavior, in one page or less, by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall, within one school day after the student's removal from class, send to the student's parents or guardians written notification that the student was removed from class, a copy of the report filed by the teacher, and information regarding how the student's parents or guardians may contact the principal or the principal's designee.

(c) If a teacher removes a student from class pursuant to subsection (b) of this Code section, the principal or the principal's designee shall discuss the matter with the teacher and the student by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall give the student oral or written notice of the grounds for his or her removal from class and, if the student denies engaging in such conduct, the principal or the principal's designee shall explain the evidence which supports his or her removal from class and give the student an opportunity to present his or her explanation of the situation. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher gives his or her consent, the student shall be returned to the class, and the principal or the principal's designee may take action to discipline the student, as may be warranted, pursuant to paragraph (1) of subsection (e) of this Code.
section. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher withholds his or her consent to the student's return to his or her class, the principal or the principal's designee shall determine an appropriate temporary placement for the student by the end of the first school day following such removal and shall also take steps to convene a meeting of a placement review committee. The placement review committee shall convene by the end of the second school day following such removal by the teacher and shall issue a decision by the end of the third school day following such removal by the teacher. An appropriate temporary placement for the student shall be a placement that, in the judgment of the principal or the principal's designee, provides the least interruption to the student's education and reflects other relevant factors, including, but not limited to, the severity of the behavior that was the basis for the removal, the student's behavioral history, the student's need for support services, and the available education settings; provided, however, that the student shall not be returned to the class of the teacher who removed him or her, as an appropriate temporary placement, unless the teacher gives his or her consent. The temporary placement shall be in effect from the time of removal until the decision of the placement review committee is issued or, if applicable, a placement determination is made pursuant to paragraph (2) of subsection (e) of this Code section.

(d) Local board policies adopted pursuant to Code Section 20-2-735 shall provide for the establishment at each school of one or more placement review committees, each of which is to be composed of three members, to determine the placement of a student when a teacher withholds his or her consent to the return of a student to the teacher's class. For each committee established, the faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member, and the principal shall choose one member of the professional staff of the school to serve as a member. The teacher withholding consent to readmit the student may not serve on the committee. The placement review committee shall have the authority to:

(1) Return the student to the teacher's class upon determining that such placement is the best alternative or the only available alternative; or

(2) Refer the student to the principal or the principal's designee for appropriate action consistent with paragraph (2) of subsection (e) of this Code section.

The decision of the placement review committee shall be in writing and shall be made within three school days after the teacher withholds consent to the return of a student. Local boards of education shall provide training for members of placement review committees regarding the provisions of this subpart, including procedural requirements; local board policies relating to student discipline; and the student code of conduct that is applicable to the school.

(e) (1) If a placement review committee decides to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee may, consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, take any of the following actions which are authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student in an alternative education program;

(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section; or

(2) If a placement review committee decides not to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement
review committee. In addition, the principal or the principal's designee shall determine an appropriate placement for the student and may take action to discipline the student, in a manner consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, as follows, provided that the placement or disciplinary action is authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

(A) Place the student into another appropriate classroom or an alternative education program;
(B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section;
(C) Make another placement or disciplinary decision or recommendation consistent with local board policy; or
(D) Implement or recommend any appropriate combination of the above and return the student to the class from which he or she was removed upon the completion of any disciplinary or placement action taken pursuant to this paragraph.

(f) Within one school day of taking action pursuant to subsection (e) of this Code section, the principal or the principal's designee shall send written notification of such action to the teacher and the parents or guardians of the student and shall make a reasonable attempt to confirm that such written notification has been received by the student's parents or guardians.

(g) Parents or guardians of a student who has been removed from class pursuant to subsection (b) of this Code section may be required to participate in conferences that may be requested by the principal or the principal's designee; provided, however, that a student may not be penalized for the failure of his or her parent or guardian to attend such a conference.

(h) The procedures contained in this Code section relating to student conferences and notification of parents or guardians are minimum requirements. Nothing in this Code section shall be construed to limit the authority of a local board of education to establish additional requirements relating to student conferences, notification of parents or guardians, conferences with parents or guardians, or other procedures required by the Constitutions of the United States or this state.

An area, county, or independent board of education may, upon the adoption of written policies, authorize any principal or teacher employed by the board to administer, in the exercise of his sound discretion, corporal punishment on any pupil or pupils placed under his supervision in order to maintain proper control and discipline. Any such authorization shall be subject to the following requirements:

(3) Corporal punishment must be administered in the presence of a principal or assistant principal, or the designee of the principal or assistant principal, employed by the board of education authorizing such punishment, and the other principal or assistant principal, or the designee of the principal or assistant principal, must be informed beforehand and in the presence of the pupil of the reason for the punishment;
(4) The principal or teacher who administered corporal punishment must provide the child's parent, upon request, a written explanation of the reasons for the punishment and the name of the principal or assistant principal, or designee of the principal or assistant principal, who was present; provided, however, that such an explanation shall not be used as evidence in any subsequent civil action brought as a result of the corporal punishment; and

(5) Corporal punishment shall not be administered to a child whose parents or legal guardian has upon the day of enrollment of the pupil filed with the principal of the school a statement from a medical doctor licensed in Georgia stating that it is detrimental to the child's mental or emotional stability.

1. The warrant is attached to the affidavit required to be made in order to obtain the warrant;

(3) The warrant indicates the conditions, objects, activities, or circumstances which the inspection is intended to check or reveal; and

(4) The warrant refers, in general terms, to the statutory or regulatory provisions sought to be enforced.

(b) School personnel may remove a child with a disability who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to children without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under this Rule).

(c) After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, during any subsequent days of removal the LEA must provide services to the extent required under this Rule.

(d) For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child’s disability under this Rule, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities except as provided in (e) of this Rule.

(e) Services. A child with a disability who is removed from his or her current placement for more than 10 consecutive school days must:

1. Continue to receive educational services, as provided in Rule 160-4-7-.02 Free and Appropriate Public Education, so as to enable the child to continue to participate in the general educational curriculum, although in another setting, and to progress toward meeting the goals set out in the child’s IEP; and

2. Receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications as set forth in the behavioral intervention plan and IEP, where appropriate, that are designed to address the behavior violation so it does not recur.

3. The LEA is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if services are provided to a child without disabilities who has been similarly removed.

4. After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, if the current removal is not for more than 10 consecutive school days and is not a change in placement because of disciplinary removals, school personnel, in consultation with at least one of the child’s teachers, determine the extent to which services are needed in order to provide a free, appropriate public education, so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child’s IEP.

5. If the removal is for more than 10 consecutive school days or is a change in placement because of disciplinary removals, the child’s IEP Team determines appropriate services needed in order to provide a free, appropriate public education, so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child’s IEP.

6. The services required in (e) may be provided in an interim alternative educational setting.

(3) Manifestation determination.

(a) Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the LEA, the parent, and the relevant members of the child’s IEP Team (as determined by the parent and the LEA) must review all relevant information in the child’s file, including the child’s IEP, any teacher observations, and any relevant information provided by the parents to determine:
1. If the conduct in question was caused by, or had a direct and substantial relationship to, the Child's disability; or

2. If the conduct in question was the direct result of the LEA's failure to implement the IEP.

(b) The conduct must be determined to be a manifestation of the child's disability if the LEA, the parent and relevant members of the child's IEP Team determine that the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or the conduct in question was the direct result of the LEA's failure to implement the IEP.

(c) If the LEA, the parent and the relevant members of the child's IEP Team determines the conduct in question was a direct result of the failure of the LEA to implement the IEP, the LEA must take immediate steps to remedy those deficiencies.

(4) Determination that behavior was a manifestation.

(a) If the LEA, the parent and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child's disability, the IEP Team must either:

1. Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or

2. If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior, and except as provided in paragraph (5) below, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.

(5) Special circumstances.

(a) School personnel may remove a child to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability, if the child:

1. Carries a weapon to or possesses a weapon at school, on school premises, or at a school function under the jurisdiction of the State or the LEA;

2. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or to a school function under the jurisdiction of the State or the LEA; or

3. Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the State or the LEA.

(b) The interim alternative educational setting is determined by the IEP Team.

(6) Notification.

(a) On the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of child conduct, the LEA must notify the parents of that decision, and provide the parents the procedural safeguards notice described in Rule 160-4-7-.09 Procedural Safeguards.

(7) Definitions.

For purpose of this section, the following definitions apply:

(a) Controlled substance - a drug or other substance identified under schedules I, 11, 111, IV, or V in section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).

(b) Illegal drug - a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally
possessed or used under any other authority under that Act or under any other provision of Federal law.

(c) Serious bodily injury - has the meaning given the term "serious bodily injury" under paragraph (3) of subsection (h) of section 1365 of title 18, United States Code.

(d) Weapon - has the meaning given the term "dangerous weapon" under paragraph (2) of the first subsection (g) of section 930 of title 18, United States Code.

(8) Appeal

(a) The parent of a child with a disability who disagrees with any decision regarding placement or the manifestation determination under this Rule, or an LEA that believes that maintaining the current placement of the child is substantially likely to result in injury to the child or others, may appeal the decision by requesting a hearing. The hearing is requested by filing a due process hearing request pursuant to Rule 160-4-7-.12 Dispute Resolution.

(b) Authority of administrative law judge or hearing officer. A judge or hearing officer under Rule 160-4-7-.12 Dispute Resolution makes a determination regarding an appeal under the disagreement C.F.R. § 300.531(b)(1) administrative law hears the facts and in (8)(a) above.

1. In making a determination under this Rule, the administrative law judge or hearing officer may:

   (i) Return the child with a disability to the placement from which the child was removed if the administrative law judge or hearing officer determines that the removal was a violation of this Rule or that the child's behavior was a manifestation of the child's disability; or

   (ii) Order a change of placement of the child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the administrative law judge or hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

(c) These appeal procedures may be repeated, if the LEA believes that returning the child to the original placement is substantially likely to result in injury to the child or to others.

(d) Expedited due process hearing. Whenever a hearing is requested under paragraph (8)(a) this Rule, the parents or the LEA involved in the dispute must have an opportunity for an impartial due process hearing consistent with Rule 160-4-7-.12 Dispute Resolution, except as provided in (d) 1 and 2 below.

1. The State is responsible for arranging the expedited due process hearing, which must occur within 20 school days of the date the complaint requesting the hearing is filed. The administrative law judge or hearing officer must make a determination within 10 school days after the hearing.

2. Unless the parents and LEA agree in writing to waive the resolution meeting described in Rule 160-4-7-.12 Dispute Resolution or agree to use the mediation process described in the same Rule:

   (a) A resolution meeting must occur within seven days of receiving notice of the due process hearing request/complaint; and

   (b) The due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of the receipt of the due process hearing request/complaint.

   (c) The decisions on expedited due process hearings are appealable consistent with Rule 160-4-7-.12 Dispute Resolution.

(9) Placement during appeals.

(a) When an appeal under this Rule has been made by either the parent or the LEA, the child must remain in the interim alternative educational setting pending the decision of the administrative law judge or hearing officer or until the expiration of the 45 school day time period provided for in this Rule, section 5, Special Circumstances, whichever comes first, unless the parent and the LEA agree otherwise.
(10) Protections for children not yet eligible for special education and related services.

(a) A child who has not been determined to be eligible for special education and related services and who has engaged in behavior that violated a code of student conduct, may assert any of the protections provided for in this Rule if the LEA had knowledge (as determined in accordance with this Rule) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

1. An LEA must be deemed to have knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred -
   (i) The parent of the child expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency or a teacher of the child, that the child is in need of special education and related services;
   (ii) The parent of the child requested an evaluation of the child pursuant to Rule 160-4-7-.04 Eligibility Determinations and Criteria; or
   (iii) The teacher of the child or other personnel of the LEA expressed specific concern about a pattern of behavior demonstrated by the child directly to the director of special education of the LEA or to other supervisory personnel of the LEA.

2. An LEA would not be deemed to have knowledge that a child is a child with a disability if the parent of the child has not allowed an evaluation of the child or has refused services or the child has been evaluated and determined not to be a child with a disability as described in Rule 160-4-7-.04 Eligibility Determinations and Criteria.

3. If an LEA does not have knowledge that a child is a child with a disability prior to taking disciplinary measures against the child, the child may be subjected to the disciplinary measures applied to children without disabilities who engaged in comparable behaviors.

4. If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures against the child, the evaluation must be conducted in an expedited manner. Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and the information provided by the parents, the agency must provide special education and related services.

(11) Referral to and action by law enforcement and judicial authorities.

(a) Nothing in this Rule prohibits a LEA from reporting a crime committed by a child with a disability to appropriate authorities or prevents State law enforcement or judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child with a disability.

(b) A LEA reporting a crime committed by a child with a disability must ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom the agency reports the crime.

(c) A LEA reporting a crime under this Rule may transmit copies of the child's special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act.

(12) Change of placement because of disciplinary removals.

(a) For purposes of removals of a child with a disability from the child’s current educational placement under this Rule, a change in placement occurs if:
   1. The removal is for more than 10 consecutive school days, or
   2. The child has been subjected to a series of removals that constitute a pattern -
(i) Because the series of removals total more than 10 school days in a school year;
(ii) Because the child's behavior is substantially similar to the child's behavior in previous incidents that resulted in the series of removals, and;
(iii) Because of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another.

(b) The LEA determines on a case-by-case basis whether a pattern of removals constitutes a change of placement.

1. This determination is subject to review through due process hearings and judicial proceedings.

160-4-8-.15. Student discipline.

(2) Requirements.

(f) It is the preferred policy of the board that disruptive students are placed in alternative education settings in lieu of being suspended or expelled.

(g) Local board policies shall require the filing of a report by a teacher documenting a student's violation of the student code of conduct which repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in his or her class or with the ability of such student's classmates to learn within one school day of the most recent occurrence of such behavior. The report shall be filed with the principal or principal's designee, shall not exceed one page, and shall describe the behavior. The principal or principal's designee shall, within one day of receiving such report, send to the student's parents or guardians a copy of the report, and information regarding how the principal or principal's designee may be contacted.

(h) The principal or the principal's designee shall send written notification to the teacher and to the student's parents or guardians of the student support services being utilized or the disciplinary action taken within one school day and shall make a reasonable attempt to confirm receipt of such written notification by the student's parents or guardians. Written notification shall include information regarding how student's parents or guardians may contact the principal or principal's designee.

(i) Each local board of education shall approve Tribunal Training Provider(s).

(j) Each local board of education shall make available to all Qualified Student Discipline Hearing Officers and Disciplinary Tribunal or Panel Members the initial and ongoing tribunal training course prior to the individual(s) serving in such capacity. The local board of education shall ensure initially trained student discipline hearing officers and disciplinary tribunal or panel members undergo continuing education so as to continue to serve in such capacity.

(k) Each local board of education shall observe Georgia law in developing and implementing disciplinary hearings held by a disciplinary hearing officer, disciplinary panel, or disciplinary tribunal pursuant to O.C.G.A. § 20-2-751 through §20-2-759 including the ability to honor disciplinary orders of private schools and other public schools/school systems pursuant to O.C.G.A. § 20-2-751.2.

1. Disciplinary hearings shall be held no later than ten school days after the beginning of the student's suspension unless the school system and parents or guardians mutually agree to an extension.

2. Any teacher who is called as a witness by the school system shall be given notice no later than three days prior to the hearing.

Return to school following removal

LAWS

20-2-738. Authority of teacher over classroom; procedures following removal of student from classroom; placement review committees.

(c) If a teacher removes a student from class pursuant to subsection (b) of this Code section, the principal or the principal's designee shall discuss the matter with the teacher and the student by the end of the school day on which such removal occurs or at the beginning of the next school day. The principal or the principal's designee shall give the student oral or written notice of the grounds for his or her removal from class and, if the student denies engaging in such conduct, the principal or the principal's designee shall explain the evidence which supports his or her removal from class and give the student an opportunity to present his or her explanation of the situation. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher gives his or her consent, the student shall be returned to the class, and the principal or the principal's designee may take action to discipline the student, as may be warranted, pursuant to paragraph (1) of subsection (e) of this Code section. If, after such discussions, the principal or the principal's designee seeks to return the student to the teacher's class and the teacher withholds his or her consent to the student's return to his or her class, the principal or the principal's designee shall determine an appropriate temporary placement for the student by the end of the first school day following such removal and shall also take steps to convene a meeting of a placement review committee. The placement review committee shall convene by the end of the second school day following such removal by the teacher and shall issue a decision by the end of the third school day following such removal by the teacher. An appropriate temporary placement for the student shall be a placement that, in the judgment of the principal or the principal's designee, provides the least interruption to the student's education and reflects other relevant factors, including, but not limited to, the severity of the behavior that was the basis for the removal, the student's behavioral history, the student's need for support services, and the available education settings; provided, however, that the student shall not be returned to the class of the teacher who removed him or her, as an appropriate temporary placement, unless the teacher gives his or her consent. The temporary placement shall be in effect from the time of removal until the decision of the placement review committee is issued or, if applicable, a placement determination is made pursuant to paragraph (2) of subsection (e) of this Code section.

(d) Local board policies adopted pursuant to Code Section 20-2-735 shall provide for the establishment at each school of one or more placement review committees, each of which is to be composed of three members, to determine the placement of a student when a teacher withholds his or her consent to the return of a student to the teacher's class. For each committee established, the faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member, and the principal shall choose one member of the professional staff of the school to serve as a member. The teacher withholding consent to readmit the student may not serve on the committee. The placement review committee shall have the authority to:
(1) Return the student to the teacher’s class upon determining that such placement is the best alternative or the only available alternative; or

(2) Refer the student to the principal or the principal's designee for appropriate action consistent with paragraph (2) of subsection (e) of this Code section.

The decision of the placement review committee shall be in writing and shall be made within three school days after the teacher withholds consent to the return of a student. Local boards of education shall provide training for members of placement review committees regarding the provisions of this subpart, including procedural requirements; local board policies relating to student discipline; and the student code of conduct that is applicable to the school.

(e) (1) If a placement review committee decides to return a student to a class from which he or she was removed, the principal or the principal's designee shall implement such decision of the placement review committee. In addition, the principal or the principal's designee may, consistent with any applicable procedural requirements of the Constitutions of the United States and this state and after considering the use of any appropriate student support services, take any of the following actions which are authorized as a response to the alleged violation of the student code of conduct by local board policies adopted pursuant to Code Section 20-2-735:

   (A) Place the student in an alternative education program;
   (B) Impose out-of-school suspension for not more than ten school days, including any time during which the student was subject to out-of-school suspension after his or her removal from class pursuant to subsection (b) of this Code section; or
   (C) Make another disciplinary decision or recommendation consistent with local board policy.

20-2-766. Students returning from expulsion or suspension; notice to parents; conference with principal or teacher to devise disciplinary and behavioral correction plan.

Before any chronic disciplinary problem student is permitted to return from an expulsion or suspension, the school to which the student is to be readmitted shall request by telephone call and by either certified mail or statutory overnight delivery with return receipt requested or first-class mail at least one parent or guardian to schedule and attend a conference with the principal or his or her designee to devise a disciplinary and behavioral correction plan. Failure of the parent or guardian to attend shall not preclude the student from being readmitted to the school. At the discretion of the principal, a teacher, counselor, or other person may attend the conference. The principal shall ensure that a notation of the conference is placed in the student's permanent file.

The term also does not include seatbelts and other safety equipment when used to secure students during transportation. Use of Mechanical restraint is prohibited in Georgia public schools and educational programs.

(c) Physical restraint - direct physical contact from an adult that prevents or significantly restricts a student's movement. The term physical restraint does not include prone restraint, mechanical restraint, or chemical restraint. Additionally, physical restraint does not include: providing limited physical contact and/or redirection to promote student safety, providing physical guidance or prompting when teaching a skill, redirecting attention, providing guidance to a location, or providing comfort.

Seclusion does not include situations in which a staff member trained in the use of de-escalation techniques or restraint is physically present in the same unlocked room as the student, time-out as defined in paragraph (1)(g) of this rule, in-school suspension, detention, or a student-requested break in a different location in the room or in a separate room. Use of seclusion is prohibited in Georgia public schools and educational programs.

1. Notwithstanding the foregoing, physical restraint is prohibited in Georgia public schools and educational programs:

   (i) as a form of discipline or punishment,

   (ii) when the student cannot be safely restrained, and

   (iii) when the use of the intervention would be contraindicated due to the student's psychiatric, medical, or physical conditions as described in the student's educational records.
(f) All physical restraint must be immediately terminated when the student is no longer an immediate
danger to himself or others or if the student is observed to be in severe distress.

(g) Schools and programs that use physical restraint in accordance with paragraph (2)(e) of this rule

other classroom management technique or approach, including a student’s removal from the
classroom, that is not specifically addressed in this rule.

(j) Nothing in this rule shall be construed to prohibit a school system, school, or program employee from
taking appropriate action to diffuse a student fight or altercation.

(k) Nothing in this rule shall be construed to eliminate or restrict the ability of an employee of a school
system, school or program to use his or her discretion in the use of physical restraint to protect students

REGULATIONS

160-4-7-.10. Discipline.

(2) Authority of school personnel.

(b) School personnel may remove a child with a disability who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to children without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under this Rule).

(c) After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, during any subsequent days of removal the LEA must provide services to the extent required under this Rule.

(d) For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child’s disability under this Rule, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities except as provided in (e) of this Rule.

(e) Services. A child with a disability who is removed from his or her current placement for more than 10 consecutive school days must:

1. Continue to receive educational services, as provided in Rule 160-4-7-.02 Free and Appropriate Public Education, so as to enable the child to continue to participate in the general educational curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and

The requirements of this subsection shall apply to a child during the ages of mandatory attendance as required in subsection (a) of this Code section who has been assigned by a local board of education or its delegate to attend an alternative public school program established by that local board of education, including an alternative public school program provided for in Code Section 20-2-154.1, regardless of whether such child has been suspended or expelled from another public school program by that local board of education or its delegate, and to the parent, guardian, or other person residing in this state who has control or charge of such child. Nothing in this Code section shall be

(c) Any parent, guardian, or other person residing in this state who has control or charge of a child or children and who violates this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be subject to a fine of not less than $25.00 and not greater than $100.00, imprisonment not to exceed 30 days, community service, or any combination of such penalties, at the discretion of the court having jurisdiction. The parent, guardian, or other person who has control or charge of a child or children shall sign a statement indicating receipt of such written statement of possible consequences and penalties; children who are age ten years or older by September 1 shall sign a statement indicating receipt of such written statement of possible consequences and penalties. Public schools shall retain signed copies of statements through the end of the school year.

The policy shall be filed with the Department of Education no later than January 1, 2007. The Department of Education shall provide annually to all local school superintendents model forms for the parent or guardian signature requirement contained in this subsection and updated information from reliable sources relating to the consequences of withdrawing from school without completing all requirements for a high school diploma. The protocol shall also include recommendations for policies relating to tardiness. The Department of Education shall provide model school attendance protocols, if requested by the committee.

(f) A copy of the protocol shall be furnished to each agency, official, or program within the county that has any responsibility in assisting children and their parents or guardians in complying with Code Section 20-2-690.1.

(g) The committee shall write the summary of possible consequences and penalties for failing to comply with compulsory attendance under Code Section 20-2-690.1 for children and their parents, guardians, or other persons who have control or charge of children for distribution by schools in accordance with Code Section 20-2-690.1. Compilation of School Discipline Laws and Regulations

Prepared: January 26, 2018
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

REGULATIONS

"Search" means if after requesting the student to voluntarily relinquish the contraband item(s) and the student refuses and there are reasonable grounds to believe that the student has violated the law or provisions prohibited under this chapter, or if there is a health or safety issue with illicit drugs, dangerous weapons, dangerous instruments or firearms, or a combination of the foregoing, the school official may examine the contents and belongings which may include but are not limited to purses, fanny packs, backpacks, jackets, shoes, socks, or any other outer clothing.

"Seizure" means to take possession of the contraband item(s) that is or are uncovered during a search.

School lockers provided to the students on campus are subject to opening and inspection (and external dog sniffs) by school officials at any time with or without cause, provided that the searches are not because of the student's race, color, national origin, ancestry, sex, gender identity and expression, religion, disability, or sexual orientation. Section 8-19-15 shall have no applicability to the opening and inspection (and external dog sniffs) of student lockers. None of the restrictions in sections 8-19-15 through 8-19-18 or related to general school searches and seizures shall in any way be construed to create an expectation of privacy in student §8-19-16 19-30 lockers. Students should assume that their lockers are subject to opening and inspection (and external dog sniffs) any time with or without cause.

Except as provided in section 8-19-14 regarding student lockers, students have a reasonable expectation of privacy in their persons on campus, or other department of education premises, on department of education transportation, or during a department of education sponsored activity or event on or off school property. Schools have an equally legitimate need to maintain order and an environment where learning can take place. In fulfilling this legitimate need, school officials may on occasions need to carry out searches and seizures on campus, or other department of education premises, on department of education transportation, or during a department of education sponsored activity or event on or off school property. As a general policy, except as provided in section 8-19-14 regarding student lockers, the searches and seizures are permissible if there are reasonable grounds to suspect, based on the attendant circumstances that the search will turn up evidence that the student or students have violated or are violating either the law or the student conduct prohibited under this chapter. Searches and seizures conducted by school officials shall abide by the provisions of this subchapter.

§8-19-16. Authority.
Except as provided in section 8-19-14 regarding student lockers, property may be searched if there are reasonable grounds to suspect, based on the attendant circumstances that the search will turn up evidence that student or students, or others on campus, or other department of education premises, on department of education transportation, or during a department of education sponsored activity or event
on or off school property have violated the law or the provisions of this chapter. A school official conducting a search shall be accompanied by another school official serving as a witness, unless it is an emergency where prompt action is necessary to protect the health or safety, or both of any person or persons.

§8-19-17. Conditions under which general school searches and seizures may be carried out.
(a) Except as provided in section 8-19-14 regarding student lockers searches and seizures may be carried out by school officials when all of the following conditions are met:
   (1) If at the time of the search, there are reasonable grounds to suspect based on the attendant circumstances that the search will turn up evidence that the student or students have violated the law or provisions prohibited under this chapter.
   (2) The manner in which the search is to be conducted is reasonably related to the purpose of the search.
   (3) The student who will be subjected to a search shall be informed of the purpose of the search and shall be given an opportunity to voluntarily relinquish the evidence sought by the school official.
(b) The principal or designee of the school shall be informed by the school official who will conduct the search that a search is to be conducted and of the purpose of the search unless it is an emergency where immediate action is necessary to protect the health or safety, or both of a person or persons.
(c) If more than one student is suspected of committing a violation, then, if practical and not a risk to health or safety, the school official conducting the search shall start with the student most suspected of having the item sought in the search.

Except as provided in section 8-19-14 regarding student lockers:
   (1) Random searches are prohibited.
   (2) Strip searches are prohibited.
   (3) A school official shall not conduct a search requiring bodily contact of a student except when such a search is necessary to prevent harm to the health or safety, or both of a person or persons.
   (4) In the course of a search, the use of force against a student is prohibited unless the school official believes that the force to be used is necessary to prevent harm to the health or safety, or both of a person or persons where the student physically resists the search.
   (5) A search conducted under the provisions of this subchapter shall be limited to the object or objects for which the search was conducted. However, any other object observed during a search may be seized by a school official when possession of the object is a violation of law or the provisions of this chapter, or when non-seizure may pose a threat to the health or safety, or both of a person or persons, including the school official conducting the search.

An appeal may be taken on behalf of the child to the superintendent of education within ten days from the date of such action.

(5) If the student or parent would like to file an appeal, the appeal must be submitted in writing and received by the complex area superintendent by the close of business of the seventh school day from the date of the issued serious discipline notice. The student shall be permitted to attend the school of the student pending the appeal unless the principal finds the continued presence of the student creates a substantial risk to self or others or to the rights of other students to pursue their education free from disruption.
