Administrative procedures related to suspensions and expulsion

LAWS

§17:416. Discipline of students; suspension; expulsion.

A.(3)(b)(i) Prior to any suspension, the school principal, or his designee, shall advise the pupil in question of the particular misconduct of which he is accused as well as the basis for such accusation, and the pupil shall be given an opportunity at that time to explain his version of the facts to the school principal or his designee. In each case of suspension or expulsion the school principal, or his designee, shall contact by telephone at the telephone number shown on the pupil's registration card or send a certified letter at the address shown on the pupil's registration card to the parent, tutor, or legal guardian of the pupil in question giving notice of the suspension or expulsion, the reasons therefor and establishing a date and time for a conference with the principal or his designee as a requirement for readmitting the pupil provided that in the case of expulsion, the contact with the parent or guardian shall include a certified letter. If the parent, tutor, or legal guardian fails to attend the required conference within five school days of mailing the certified letter or other contact with the parent, the truancy laws shall become effective. On not more than one occasion each school year when the parent, tutor, or legal guardian refuses to respond, the principal may determine whether readmitting the pupil is in the best interest of the student. On any subsequent occasions in the same year, the pupil shall not be readmitted unless the parent, tutor, legal guardian, court, or other appointed representative responds. A pupil whose presence in or about a school poses a continued danger to any person or property or an ongoing threat of disruption to the academic process shall be immediately removed from the school premises without the benefit of the procedure described hereinabove; however, the necessary procedure shall follow as soon as is practicable.

   (c) Any parent, tutor or legal guardian of a pupil suspended shall have the right to appeal to the city or parish superintendent of schools or his designee, who shall conduct a hearing on the merits. The decision of the superintendent of schools on the merits of the case, as well as the term of suspension, shall be final, reserving to the superintendent of schools the right to remit any portion of the time of suspension.
(d) A pupil suspended for damages to any property belonging to the school system or to property contracted to the school system shall not be readmitted until payment in full has been made for such damage or until directed by the superintendent of schools. If the property damaged is a school bus owned by, contracted to, or jointly owned by any parish or city school board, a pupil suspended for such damage shall not be permitted to enter or ride any school bus until payment in full has been made for such damage or until directed by the superintendent of schools.

(e) A pupil who is suspended for ten days or fewer shall be assigned school work missed while he is suspended and shall receive either partial or full credit for such work if it is completed satisfactorily and timely as determined by the principal or his designee, upon the recommendation of the pupil's teacher. A pupil who is suspended for more than ten days, or is expelled and receives educational services at an alternative school site, shall be assigned work by a certified teacher and shall receive credit for school work if it is completed satisfactorily and timely as determined by the teacher. Such work shall be aligned with the curriculum used at the school from which the pupil was suspended or expelled.

(f) When a pupil is suspended for a second time within one school year, the principal may require that a counseling session be held with the parent and pupil by the school counselor if a counselor is assigned or available to that school. In the event there is no school counselor available, the principal may require a conference between the parent, pupil, and all the pupil's teachers and the principal or other administrator.

C.(1) Upon the recommendation by a principal for the expulsion of any student as authorized by Subsection B hereof, a hearing shall be conducted by the superintendent or by any other person designated so to do by the superintendent to determine the facts of the case and make a finding of whether or not the student is guilty of conduct warranting a recommendation of expulsion. Upon the conclusion of the hearing and upon a finding that the student is guilty of conduct warranting expulsion, the superintendent, or his designee, shall determine whether such student shall be expelled from the school system or if other corrective or disciplinary action shall be taken. At said hearing the principal or teacher concerned may be represented by any person appointed by the superintendent. The concerned teacher shall be permitted to attend such hearing and shall be permitted to present information the teacher believes relevant. Until such hearing takes place the student shall remain suspended from the school. At such hearing the student may be represented by any person of his choice.

4 The parent or tutor of the pupil may, within five days after the decision is rendered, request the city or parish school board to review the findings of the superintendent or his designee at a time set by the school board; otherwise the decision of the superintendent shall be final. If requested, as herein provided, and after reviewing the findings of the superintendent or his designee, the school board may affirm, modify, or reverse the action previously taken.

5 The parent or tutor of the pupil may, within ten days, appeal to the district court for the parish in which the student's school is located, an adverse ruling of the school board in upholding the action of the superintendent or his designee. The court may reverse or revise the ruling of the school board upon a finding that the ruling of the board was based on an absence of any relevant evidence in support thereof.

D. The State Board of Elementary and Secondary Education, in collaboration with the state Department of Education, shall develop and adopt rules and regulations to implement the provisions of this Section relative to the procedures and processes to be used to report and investigate bullying and which shall include but not be limited to:

(1) Notice to Students and Parents. The governing authority of each public elementary and secondary school shall inform each student, orally and in writing at the orientation required under R.S. 17:416.20, of the prohibition against bullying of a student by another student, the nature and consequences of such actions, including the potential criminal consequences and loss of driver's license as provided in R.S. 17:416.1, and the proper process and procedure for reporting any incidents involving such prohibited actions. (e) False Reports. Intentionally making false reports about bullying to school officials is prohibited conduct and will result in the appropriate disciplinary measures as determined by the governing
authority of the school in accordance with the rules and regulations of the State Board of Elementary and Secondary Education.

If additional information is received after the end of the ten-day period, the school principal or his designee shall amend all documents and reports required by this Section to reflect such information.

(c) Appeal.

(iii) Before any student under the age of eighteen is interviewed, his parent or legal guardian shall be notified by the school official of the allegations made and shall have the opportunity to attend any interviews with his child conducted as part of the investigation. (iv) If no seat or other placement pursuant to Item (iii) of this Subparagraph is made available within thirty calendar days of the receipt by the superintendent of the request, the parent or legal guardian may request a hearing with the school's governing authority, which shall be public or private at the
option of the parent or legal guardian. The school's governing authority shall grant the hearing at the next scheduled meeting or within sixty calendar days, whichever is sooner.

(v) At the end of any school year, the parent or legal guardian may make a request to the governing authority of the school at which the student was enrolled when at least three of the reports were filed to transfer the student back to the school. The governing authority shall make a seat available at the school at which the student was originally enrolled. No other schools shall qualify for transfer under this Subparagraph.

(bb) Promptly notify the complainant of the findings of the investigation and that remedial action has been taken, if such release of information does not violate the law.

(cc) Keep complaints and investigative reports confidential, except as provided in this Section and where disclosure is required to be made pursuant to 20 U.S.C. 1232g or by other applicable federal laws, rules, or regulations or by state law.

(dd) Maintain complaints and investigative reports for three years in the event that disclosure is warranted by law enforcement officials.

(ee) As applicable, provide a copy of any reports and investigative documents to the governing authority of the school in order that the governing authority can comply with the provisions of R.S. 17:416.1.

(ff) As applicable, provide a copy of any reports and investigative documents to the state Department of Education. Upon receipt, the department shall remove any reports related to the investigative documents from notation on the department's website, but shall maintain a record of those reports for three years.

Nothing herein shall be deemed to interfere with the authority and the responsibility that a parent or legal guardian has for the student at all times, but particularly when the student is not on the school premises, is not engaged in a school-sponsored function or school-sponsored activity, and is not being transported by school-sponsored means of transportation.

F. This Section shall not be interpreted to conflict with or supercede the provisions requiring mandatory reporting pursuant to Louisiana Children's Code Article 609 and as enforced through R.S. 14:403.

G. Preclusion.

(1) This Section shall not be interpreted to prevent a victim of bullying, or his parent or legal guardian, from seeking redress under any other available law, either civil or criminal.
(2) Nothing in this Section is intended to infringe upon the right of a school employee or student to exercise their right of free speech.

The Response to Intervention (RTI) process is a three-tiered approach to providing services and interventions to struggling learners and/or students with challenging behaviors at increasing levels of intensity. Essential components of the process include three tiers of instruction and intervention, use of standard protocols and/or problem-solving methods, and an integrated data collection/assessment system to inform decisions at each tier of instruction/intervention. The process incorporates increasing intensities of instruction and/or intervention that are provided to students in direct proportion to their individual needs. Embedded in each tier is a set of unique support structures or activities that help teachers implement, with fidelity, research-based curricula, instructional practices, and interventions designed to improve student achievement. RTI is designed for use when making decisions in both general and special education, creating a well-integrated system of instruction and intervention guided by student outcome data.

The governing authority of any public elementary or secondary school shall promulgate rules and regulations to implement the provisions of this Section.
   (2) As used in this Section, "license" or "driver's license" shall include a Class "E" learner's license and intermediate license as provided for in R.S. 32:407.
B.(1) In addition to any other authority to deny driving privileges, upon receipt of written notification from a principal or headmaster at a public or private school pursuant to R.S. 17:416.1(D), the Department of Public Safety and Corrections shall take the following action with respect to the student if he is an unemancipated minor between fifteen years of age and eighteen years of age:
   (a) If the student has a driver's license, the department shall suspend the driver's license for a period of one year beginning as provided for in Subsection C of this Section.
(b) If the student has not obtained a driver’s license, or if he applies for a different driver’s license, any license which he obtains during the period of one year beginning as provided for in Subsection C of this Section shall be immediately suspended for the duration of such one-year period.

(2) The written notice from the principal or headmaster at a public or private school required in this Subsection shall include a copy of the student's disciplinary documentation and the full name, address, date of birth, social security number, and license number, if available, of the student and the name, address, and telephone number of the student's parents, guardian, or custodial parent.

C.(1)(a) Within fifteen days of receipt of written notice from the principal or headmaster, the department shall send notice of the following by certified mail to the last known address of any student who is subjected to such disciplinary action and the student's parents, guardian, or custodial parent:

(i) That any license he holds will be suspended on the thirtieth day following the date the notice was sent by the department and that the license shall be returned to the office of motor vehicles within five days of its suspension.

(ii) That if he does not hold a license, any license he may obtain during one year from the thirtieth day of the date the notice was mailed shall be immediately suspended for the remainder of such year.

(b) The notice shall also advise that a special identification card may be obtained from the office of motor vehicles pursuant to R.S. 40:1321. The notice shall also include a notice of the student's right to request a hearing or a hardship license as provided for in Subsections D and F of this Section.

(2)(a) Any period of suspension under this Section shall begin upon the occurrence of the first of the following:

(i) The receipt by the department of the driver's license.

(ii) Thirty days after the date the notice of suspension is mailed to the student by the department as provided in Paragraph (1) of this Subsection, or the receipt of a written notice of the disposition of an application for hardship driving privileges if it was applied for prior to the beginning of the suspension pursuant to Subsection D of this Section, whichever occurs last.

(b) A license suspension shall not extend beyond the student's eighteenth birthday. At the conclusion of the suspension, the department, in its discretion, may return the license to the student or issue the student a new license, once a reinstatement fee of sixty dollars has been paid to the department.

D. Prior to or after the start of the suspension period, a student may apply to the Department of Public Safety and Corrections for provisional student or family hardship driving privileges upon presentation of appropriate documentation as determined by the office of motor vehicles. Upon approval, a student may receive provisional driving privileges in order to drive to and from school, work, a drug or alcohol treatment counseling program, or a mental health treatment program, as appropriate, when no other transportation is available. Such driving privileges shall not exceed those granted by the license that was suspended.

E. Any student whose license is suspended pursuant to this Section may otherwise be eligible for reapplication or reinstatement if, after six months from the date of denial or suspension, the principal notifies the department in writing that the student has displayed exemplary student behavior at school, has not violated any school policies or been found guilty of any misconduct pursuant to R.S. 17:416 or any policy of the school or of the local public school board, and no further disciplinary measures have been taken.

F. Within fifteen days of the date of the notice required by Subsection C of this Section the student may request an administrative hearing pursuant to the Administrative Procedure Act. The hearing request shall be made in writing to the Department of Public Safety and Corrections, office of motor vehicles, and the hearing shall be held by the Division of Administrative Law pursuant to Chapter 13-B of Title 49 of the
Louisiana Revised Statutes of 1950. The department shall promptly forward the hearing request to the Division of Administrative Law, and the hearing shall be held within thirty days of receipt by the department of the hearing request or as soon as practicable, unless continued at the request of the student. At the request of the student, the hearing may be limited to a review of the written record. The sole issue at the hearing shall be whether the provisions of this Section have been met. The reasons for disciplinary action or the propriety of disciplinary action shall not be an issue at the hearing. The license shall not be suspended until completion of the administrative hearing. Failure of the student or his representative to make an appearance at the time and place noticed for the hearing shall constitute a withdrawal of the hearing request and result in the suspension provided for in this Section.

G. No insurer issuing a policy of automobile insurance covering property damages, personal injury, or accidental death shall increase any rate or premium charges for insurance coverage because of any suspension of a license under the provisions of this Section. The provisions of this Subsection shall not be construed to prohibit the increase of any automobile insurance rate or premium, pursuant to a rate increase which is approved by the commissioner of insurance, for a class of insurance of which the person whose license has been suspended pursuant to this Section.

H. The Department of Public Safety and Corrections shall promulgate all necessary rules and guidelines for the implementation of this Section in accordance with the Administrative Procedure Act as are necessary.

Maine
Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
**Introduction**

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

**Notes & Disclaimers**

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. The selection of the school administrative unit to provide that program shall be made by the commissioner pursuant to rules adopted in accordance with the Maine Administrative Procedure Act, Title 5, chapter 375. The rules shall take into account the educational needs of students, the ability of a school administrative unit to meet those needs, the proximity of school administrative units to the facility, the expressed wishes of officials representing school administrative units and other appropriate considerations. REGULATIONS

05-071 CMR 128.13. Developing alternative programs.
The legislation encourages school units to establish alternative programs for dropouts and chronic (habitual) truants. Although the word "encouraged" is used, the primary intent of the legislation is to provide school units with the authority to establish programs for the identified pupils.

When developing alternative programs, local school officials should give consideration to the following questions:

A. Do the programs provide for academic and non-academic pursuits in accordance with the needs of the individual student?
B. Do the programs include that which is necessary for meeting curriculum and graduation requirements provided by statute or local board policy?
C. Do the programs provide adequate instructional time equivalent to that required for regular school programs?
D. Are adequate instructional materials provided?
E. Can the programs be evaluated in terms of meeting stated objectives? Alternative programs may be developed and conducted under the direction of local school officials and may become operative within present school facilities during the regular school day. Likewise, alternative programs may be operated under the direction of local school officials outside the regular school facilities and school day.

Regardless of which approach is followed, criteria should be developed to determine pupil eligibility for participation in these programs. A description of locally developed alternative programs is to be filed with this Department and the reporting process can be accomplished by using the data collection form.

It is possible that alternative programs may already exist or could be developed completely apart from local school jurisdiction. These programs could be operated by private individuals, groups, or agencies. If programs operated outside the school by private individuals, groups, or agencies seem appropriate in meeting the needs of the pupil, criteria for the programs should be developed by the local school officials and they should serve as a guide for the local approval of these programs. Such criteria should include the following:

1. The instruction is provided by qualified individuals. The qualifications might be evidenced by a valid teaching credential, a valid license (trade, etc.) in the area of content being presented, or expertise gained through long experience in the content of the specific program (adult education programs).
2. The quality of instruction is equivalent to that provided in the regular public school.
3. The facilities housing the program meet all fire safety, health, and sanitation standards.
4. The program is designed to provide adequate instructional time to meet its stated objectives.
5. There is provision for program evaluation. Any alternative programs developed under this legislation shall be submitted to the local school board for approval.

05-071 CMR 128.16. Parental approval of alternative programs.
Regardless of what type of alternative program arrangement is determined for each individual pupil, local school officials should prepare a form for parents to sign to approve the alternative arrangement. Parents should be included in the total process and should provide evidence to the school officials that they understand what has taken place.

1-A. Attendance of persons 5 years of age or older and under 6 years of age. A person 5 years of age or older and under 7 years of age who is enrolled in and who has not withdrawn from a public day school is required to attend that school during the time it is in session.

2. Exceptions. Attendance at school shall not be required of the following:

   A. A person who graduates from high school before that person's 17th birthday;
   B. A person who has:
      (1) Reached the age of 15 years or completed the 9th grade;

   E. A person enrolled in an online learning program or course, unless the person is enrolled in a virtual public charter school as defined in section 2401, subsection 11.

§5051-A. Truancy

1. Truant.

   A student is truant if the student is subject to section 5001-A and:
   B. Has completed grade 6 and has the equivalent of 10 full days of unexcused absences or 7 consecutive school days of unexcused absences during a school year;
   C. Is at least 6 years of age and has not completed grade 6 and has the equivalent of 7 full days of unexcused absences or 5 consecutive school days of unexcused absences during a school year; or
   D. Is enrolled in a public day school, is at least 5 years of age and has not completed grade 6 and has the equivalent of 7 full days of unexcused absences or 5 consecutive school days of unexcused absences during a school year.

2. Procedures; written notice; referral. This subsection governs the procedure to be followed when a student is truant.

   A-1. The principal, upon determining that a student is truant under subsection 1, shall notify the superintendent of the student's truancy within 5 school days of the last unexcused absence.
   A-2. A student who is determined truant under subsection 1 must be referred to the school's student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 to determine the cause of the
truancy and assess the effect of the student's absences, as well as any future absences for the student. If it is determined that a negative effect exists, the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit’s intervention system under section 4710 shall develop an intervention plan to address the student's absences and the negative effect of these absences. An intervention plan may include, but is not limited to:

- Frequent communication between the teacher and the family;
- Changes in the learning environment;
- Mentoring;
- Student counseling;
- Tutoring, including peer tutoring;
- Placement into different classes;
- Consideration of multiple pathways as described under section 4703;
- Attendance contracts;
- Referral to other agencies for family services; and
- Other interventions, including, but not limited to, referral to the school attendance coordinator, student assistance team or dropout prevention committee.

Failure of the student or the student's parents to appear at scheduled meetings does not preclude the school administrators from implementing an intervention plan to address the student's truancy.

B-1. The superintendent shall develop procedures to refer a student who is truant to the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit’s intervention system under section 4710 in accordance with this section. These procedures may include, but are not limited to:

- Identifying school personnel responsible for notifying the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit’s intervention system when a student is truant;
- A process for referral of a student who is truant, including identifying school personnel responsible for inviting the parents and the student to participate in any meeting that results from this referral;
- A timeline for setting up a meeting and developing an intervention plan under paragraph A-2;
- A plan for dealing with future absences of a student who is truant; and
- A plan for reporting of the results of the intervention plan developed pursuant to paragraph A-2.

C. If the intervention plan developed pursuant to paragraph A-2 is unable to correct the truancy of the child, the superintendent shall serve or cause to be served upon the parent in hand or by registered mail a written notice that attendance of the child at school is required by law. The notice must:

- State that the student is required to attend school pursuant to section 5001-A;
- Explain the parent’s right to inspect the student's attendance records, attendance coordinator’s reports and principal’s reports;
- Explain that the failure to send the student to school and maintain the student in regular attendance is a civil violation in accordance with section 5053-A and will jeopardize the student's status in the grade that the student is in;
- State that the superintendent may notify the local law enforcement department of a violation of section 5053-A and the Department of Health and Human Services of a violation under subsection 1, paragraph C; and
(5) Outline the plan developed to address the student's truancy and the steps that have been taken to implement that plan.

D. Prior to notifying the local law enforcement department under paragraph E, the superintendent shall schedule at least one meeting as required in paragraph B-1 and may invite a local prosecutor.

E. If, after 3 school days after service of the notice referred to in paragraph C, the student remains truant and the parent and student refuse to attend the meeting scheduled according to paragraph D, the superintendent shall report the facts of the unlawful absence to the local law enforcement department, which may proceed with an action to enforce section 5053-A against the parent unless the student is at once placed in an appropriate school or otherwise meets the requirements under section 5001-A.

F. When a student is determined to be truant and in violation of section 5001-A and the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710 and the superintendent have made a good faith attempt to meet the requirements of paragraph B-1, the superintendent shall notify the school board of the student's truancy.

3. Reports. This subsection applies to reports of truancy.

A. A superintendent shall submit an annual report to the commissioner before October 1st. The report must:

(1) Identify the number of truants in the school administrative unit in the preceding school year;
(2) Describe the unit's efforts to deal with truancy;
(3) Account for actions brought under this section including the number of truants reported to the student assistance team or the school personnel designated by the superintendent in accordance with the school administrative unit's intervention system under section 4710; and
(4) Include any other information on truancy requested by the commissioner.

B. The commissioner shall submit an annual report to the Governor and the Legislature before January 15th. The report must aggregate the information provided by superintendents under paragraph A and must evaluate the effect of state laws on the incidence of truancy.

§5053-A. Enforcement.

1. Civil violation. If a parent has control of a student who is truant under section 5051-A, subsection 1 and that parent is primarily responsible for that truancy, that parent commits a civil violation for which a fine of not more than $250 may be adjudged, all or part of which may be suspended upon the parent's compliance with a court order under subsection 2.

2. Dispositions. The court may also order a parent adjudicated as violating subsection 1 to take specific action to ensure the child's attendance at school; comply with the intervention plan developed in accordance with section 5051-A, subsection 2, paragraph A-2; participate in a parent-training class; attend school with the child; perform community service hours at the school; or participate in counseling or other services as appropriate.

3. Notice required. Notice must be provided to the parent pursuant to section 5051-A, subsection 2, paragraph C before a prosecution for violating subsection 1 may be brought against the parent.

4. Prima facie proof. Evidence that shows that the parent received the notice under section 5051-A, subsection 2 and that the child has accumulated 10 cumulative full days of absences or 5 consecutive school days of absences that are not justified under the established attendance policies of the school administrative unit is prima facie proof that the parent is primarily responsible for the child's truancy or the parent failed to take corrective measures for the child's truancy.
5. Defense. It is a defense to a prosecution under subsection 1 that the parent has exercised reasonable diligence in attempting to cause a child in the parent’s custody to attend school or that the administrators of the child’s school did not perform their duties as required by law.

6. Process. Service of a summons on the parent pursuant to subsection 1 must be in accordance with the Maine Rules of Civil Procedure.

7. Jurisdiction. The District Court has jurisdiction over violations under subsection 1.

In addition to other powers and duties under this subsection, the school board may develop a policy requiring a student who is in violation of school substance abuse or possession rules to participate in substance abuse services as provided in section 6606. Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers

To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

   (2) Any teacher observations;

   (3) Any relevant information supplied by the parents; and

   (4) The student’s IEP.

D. To determine that the behavior subject to the disciplinary action is a manifestation of the student’s disability, the IEP team and other qualified personnel must make the determination that the student’s behavior was:

   (1) Caused by or had a direct and substantial relationship to the student’s disability; or

   (2) The direct result of the public agency’s failure to implement the student’s IEP.

E. If the IEP team determines the student’s conduct was the direct result of the public agency’s failure to implement the student’s IEP, the public agency shall take immediate steps to remedy those deficiencies in accordance with 34 CFR §300.530(e)(3).

F. If any of the determinations set forth in §D of this regulation are made, the IEP team shall consider the behavior a manifestation of the student’s disability.

The restitution may be made in the form of monetary restitution not to exceed the lesser of the fair market value of the property, or $2,500, or by the student’s assignment to a school work project, or both.

E. Corporal Punishment. Corporal punishment may not be used to discipline a student in a public school in the State.

Compilation of School
Discipline Laws and
Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

*Part I. Title 12. Chapter 69. Section 1D. Statewide educational goals; academic standards; vocational training; grant program.*

The board shall establish a set of statewide educational goals for all public elementary and secondary schools in the commonwealth.

The standards may provide for instruction in the issues of physical education, human immunodeficiency virus and acquired immune deficiency syndrome education, violence prevention, including teen dating violence, bullying prevention, conflict resolution and drug, alcohol and tobacco abuse prevention.

*Part I. Title 12. Chapter 71. Section 37H. Policies relative to conduct of teachers or students; student handbooks.*

The superintendent of every school district shall publish the district's policies pertaining to the conduct of teachers and students. [...] The policies shall also prohibit bullying as defined in section 37O and shall include the student-related sections of the bullying prevention and intervention plan required by said section 37O. Copies of these policies shall be provided to any person upon request and without cost by the principal of every school within the district.

Each school district's policies pertaining to the conduct of students shall include the following: disciplinary proceedings, including procedures assuring due process; standards and procedures for suspension and expulsion of students; procedures pertaining to discipline of students with special needs; standards and procedures to assure school building security and safety of students and school personnel; and the disciplinary measures to be taken in cases involving the possession or use of illegal substances or weapons, the use of force, vandalism, or violation of a student's civil rights. Codes of discipline, as well as procedures used to develop such codes shall be filed with the department of education for informational purposes only.

(d)(1) Each school district, charter school, non-public school, approved private day or residential school and collaborative school shall develop, adhere to and update a plan to address bullying prevention and intervention in consultation with teachers, school staff, professional support personnel, school volunteers, administrators, community representatives, local law enforcement agencies, students, parents and guardians. The plan shall apply to students and members of a school staff, including, but not limited to, educators, administrators, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to an extracurricular activity and paraprofessionals. The consultation shall include, but not be limited to, notice and a public comment period; provided, however, that a non-public school shall only be required to give notice to and provide a comment period for families that have a child attending the school. The plan shall be updated at least biennially.

(2) Each plan shall include, but not be limited to: (i) descriptions of and statements prohibiting bullying, cyber-bullying and retaliation, including procedures for collecting, maintaining and reporting bullying incident data required under subsection (k); (ii) clear procedures for students, staff, parents, guardians and others to report bullying or retaliation; (iii) a provision that reports of bullying or retaliation may be made anonymously; provided, however, that no disciplinary action shall be taken against a student solely on the basis of an anonymous report; (iv) clear procedures for promptly responding to and
investigating reports of bullying or retaliation; (v) the range of disciplinary actions that may be taken against a perpetrator for bullying or retaliation; provided, however, that the disciplinary actions shall balance the need for accountability with the need to teach appropriate behavior; (vi) clear procedures for restoring a sense of safety for a victim and assessing that victim's needs for protection; (vii) strategies for protecting from bullying or retaliation a person who reports bullying, provides information during an investigation of bullying or witnesses or has reliable information about an act of bullying; (viii) procedures consistent with state and federal law for promptly notifying the parents or guardians of a victim and a perpetrator; provided, that the parents or guardians of a victim shall also be notified of the action taken to prevent any further acts of bullying or retaliation; and provided, further, that the procedures shall provide for immediate notification pursuant to regulations promulgated under this subsection by the principal or person who holds a comparable role to the local law enforcement agency when criminal charges may be pursued against the perpetrator; (ix) a provision that a student who knowingly makes a false accusation of bullying or retaliation shall be subject to disciplinary action; and (x) a strategy for providing counseling or referral to appropriate services for perpetrators and victims and for appropriate family members of said students. The plan shall afford all students the same protection regardless of their status under the law.

(3) Each plan shall recognize that certain students may be more vulnerable to becoming a target of bullying or harassment based on actual or perceived differentiating characteristics, including race, color, religion, ancestry, national origin, sex, socioeconomic status, homelessness, academic status, gender identity or expression, physical appearance, pregnant or parenting status, sexual orientation, mental, physical, developmental or sensory disability or by association with a person who has or is perceived to have 1 or more of these characteristics. The plan shall include the specific steps that each school district, charter school, non-public school, approved private day or residential school and collaborative school shall take to support vulnerable students and to provide all students with the skills, knowledge and strategies needed to prevent or respond to bullying or harassment. A school district, charter school, non-public school, approved private day or residential school or collaborative school may establish separate discrimination or harassment policies that include additional categories of students. Nothing in this section shall alter the obligations of a school district, charter school, non-public school, approved private day or residential school or collaborative school to remediate any discrimination or harassment based on a person's membership in a legally protected category under local, state or federal law.

(4) The plan for a school district, charter school, approved private day or residential school and collaborative school shall include a provision for ongoing professional development to build the skills of all staff members, including, but not limited to, educators, administrators, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to extracurricular activities and paraprofessionals, to prevent, identify and respond to bullying. The content of such professional development shall include, but not be limited to: (i) developmentally appropriate strategies to prevent bullying incidents; (ii) developmentally appropriate strategies for immediate, effective interventions to stop bullying incidents; (iii) information regarding the complex interaction and power differential that can take place between and among a perpetrator, victim and witnesses to the bullying; (iv) research findings on bullying, including information about students who have been shown to be particularly at risk for bullying in the school environment; (v) information on the incidence and nature of cyber-bullying; and (vi) internet safety issues as they relate to cyber-bullying. The department shall identify and offer information on alternative methods for fulfilling the professional development requirements of this section, at least 1 of these alternative methods shall be available at no cost to school districts, charter schools, approved private day or residential schools and collaborative schools.

(5) The plan shall include provisions for informing parents and guardians about the bullying prevention curriculum of the school district or school and shall include, but not be limited to: (i) how parents and
guardians can reinforce the curriculum at home and support the school district or school plan; (ii) the dynamics of bullying; and (iii) online safety and cyber-bullying.

(6) The department shall promulgate rules and regulations on the requirements related to a principal's duties under clause (viii) of the second paragraph of this subsection; provided, however, that school districts, charter schools, approved private day or residential schools and collaborative schools shall be subject to the regulations. A non-public school shall develop procedures for immediate notification by the principal or person who holds a comparable role to the local law enforcement agency when criminal charges may be pursued against the perpetrator.

Part I. Title 12. Chapter 76. Section 1A. Pupil absence notification programs.
Upon the acceptance of this section by the local legislative body of a city or town, or by a majority vote of two-thirds of the member communities of a regional school district, the school committee of a city, town or regional school district shall establish a pupil absence notification program in all schools under its control. Said program may be developed with the assistance of the department of education. The parents or guardians of each pupil shall, annually, at the commencement of each school year, be sent a notice instructing them to call a designated telephone number at a designated time to inform the school of the absence of a pupil and the reason therefor. Said notice shall also require such parent or guardian to furnish the school with a home, work or other emergency telephone number where they can be contacted during the school day. If a pupil is absent and the school has not been notified by the designated time, the school shall call the telephone number or numbers furnished to inquire about said absence.

Part I. Title 12. Chapter 76. Section 1B. Pupil absence notification program.
The school committee of each city, town or regional school district shall have a pupil absence notification program in each of its schools. The program shall be designed to ensure that each school notifies a parent or guardian of the child's absence if the school has not received notification of the absence from the parent or guardian within 3 days of the absence.

Each school committee shall have a policy of notifying the parent or guardian of a student who has at least 5 days in which the student has missed 2 or more periods unexcused in a school year or who has missed 5 or more school days unexcused in a school year. The notification policy shall require that the school principal or headmaster, or a designee, make a reasonable effort to meet with the parent or guardian of a student who has 5 or more unexcused absences to develop action steps for student attendance. The action steps shall be developed jointly and agreed upon by the school principal or headmaster, or a designee, the student and the student’s parent or guardian and with input from other relevant school personnel and officials from relevant public safety, health and human service, housing and nonprofit agencies.

(a) Any student who is found on school premises or at school-sponsored or school-related events, including athletic games, in possession of a dangerous weapon, including, but not limited to, a gun or a knife; or a controlled substance as defined in chapter ninety-four C, including, but not limited to, marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the principal.

Notwithstanding the provisions of section eighty-four and sections sixteen and seventeen of chapter seventy-six:

(1) Upon the issuance of a criminal complaint charging a student with a felony or upon the issuance of a felony delinquency complaint against a student, the principal or headmaster of a school in which the student is enrolled may suspend such student for a period of time determined appropriate by said principal or headmaster if said principal or headmaster determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. […]

(2) Upon a student being convicted of a felony or upon an adjudication or admission in court of guilt with respect to such a felony or felony delinquency, the principal or headmaster of a school in which the student is enrolled may expel said student if such principal or headmaster determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. […]

REGULATIONS

603 CMR 53.02. Definitions.

(3) "Disciplinary offense" means any alleged or determined disciplinary infraction by a student, except for: a) possession of a dangerous weapon; b) possession of a controlled substance; c) assault on a member of the educational staff; or d) a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school, as provided in G.L. c. 71, §§37H or 37H½. A disciplinary offense, as defined, is subject to the provisions of G.L. c. 71, § 37H¾ and these regulations.
(4) "Disciplinary offense under G.L. c. 71, §§37H or 37H½" means one or more of the following alleged or determined disciplinary infractions: a) possession of a dangerous weapon; b) possession of a controlled substance; c) assault on a member of the educational staff; and d) a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school, as provided in G.L. c. 71, §§37H or 37H½.

(5) "Expulsion" means the removal of a student from the school premises, regular classroom activities, and school activities for more than ninety (90) school days, indefinitely, or permanently, as permitted under G.L. c. 71, §§37H or 37H½ for: a) possession of a dangerous weapon; b) possession of a controlled substance; c) assault on a member of the educational staff; or d) a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school, as provided in G.L. c. 71, §§37H or 37H½.

(7) "Long-term suspension" means the removal of a student from the school premises and regular classroom activities for more than ten (10) consecutive school days, or for more than ten (10) school days cumulatively for multiple disciplinary offenses in any school year. A principal may, in his or her discretion, allow a student to serve a long-term suspension in school. Removal solely from participation in extracurricular activities or school-sponsored events, or both, shall not count as removal in calculating school days. (1) Nothing in these regulations shall prevent a principal from removing a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the principal's judgment, there is no alternative available to alleviate the danger or disruption. The principal shall immediately notify the superintendent in writing of the removal and the reason for it, and describe the danger presented by the student. The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the principal shall:

(a) Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, and the other matters set forth in 603 CMR 53.06(2);

(b) Provide written notice to the student and parent as provided in 603 CMR 53.06(2);

(d) Render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of 603 CMR 53.08(2)(c) and 53.08(2)(d) or 603 CMR 53.08(3)(c) and 53.08(3)(d), as applicable.

Part I. Title 12. Chapter 71. Section 37H. Policies relative to conduct of teachers or students; student handbooks.
Notwithstanding any general or special law to the contrary, all student handbooks shall contain the following provisions: […]

(c) Any student who is charged with a violation of either paragraph (a) or (b) shall be notified in writing of an opportunity for a hearing; provided, however, that the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the principal. After said hearing, a principal may, in his discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a) or (b).
(d) Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the superintendent. The expelled student shall have ten days from the date of the expulsion in which to notify the superintendent of his appeal. The student has the right to counsel at a hearing before the superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student has violated any provisions of this section.

(e) Any school district that suspends or expels a student under this section shall continue to provide educational services to the student during the period of suspension or expulsion, under section 21 of chapter 76. If the student moves to another district during the period of suspension or expulsion, the new district of residence shall either admit the student to its schools or provide educational services to the student in an education service plan, under section 21 of chapter 76.

(f) Districts shall report to the department of elementary and secondary education the specific reasons for all suspensions and expulsions, regardless of duration or type, in a manner and form established by the commissioner. The department of elementary and secondary education shall use its existing data collection tools to obtain this information from districts and shall modify those tools, as necessary, to obtain the information. On an annual basis, the department of elementary and secondary education shall make district level de-identified data and analysis, including the total number of days each student is excluded during the school year, available to the public online in a machine readable format. This report shall include district level data disaggregated by student status and categories established by the commissioner.

(g) Under the regulations promulgated by the department, for each school that suspends or expels a significant number of students for more than 10 cumulative days in a school year, the commissioner shall investigate and, as appropriate, shall recommend models that incorporate intermediary steps prior to the use of suspension or expulsion. The results of the analysis shall be publicly reported at the school district level.

Part I. Title 12. Chapter 71. Section 37H1/2. Felony complaint or conviction of student; suspension; expulsion; right to appeal.

(1) […] The student shall receive written notification of the charges and the reasons for such suspension prior to such suspension taking effect. The student shall also receive written notification of his right to appeal and the process for appealing such suspension; provided, however, that such suspension shall remain in effect prior to any appeal hearing conducted by the superintendent.

The student shall have the right to appeal the suspension to the superintendent. The student shall notify the superintendent in writing of his request for an appeal no later than five calendar days following the effective date of the suspension. The superintendent shall hold a hearing with the student and the student's parent or guardian within three calendar days of the student's request for an appeal. At the hearing, the student shall have the right to present oral and written testimony on his behalf, and shall have the right to counsel. The superintendent shall have the authority to overturn or alter the decision of the principal or headmaster, including recommending an alternate educational program for the student. The superintendent shall render a decision on the appeal within five calendar days of the hearing. Such decision shall be the final decision of the city, town or regional school district with regard to the suspension.

(2) […] The student shall receive written notification of the charges and reasons for such expulsion prior to such expulsion taking effect. The student shall also receive written notification of his right to appeal and the process for appealing such expulsion; provided, however, that the expulsion shall remain in effect prior to any appeal hearing conducted by the superintendent.

The student shall have the right to appeal the expulsion to the superintendent. The student shall notify the superintendent, in writing, of his request for an appeal no later than five calendar days following the
effective date of the expulsion. The superintendent shall hold a hearing with the student and the student's parent or guardian within three calendar days of the expulsion. At the hearing, the student shall have the right to present oral and written testimony on his behalf, and shall have the right to counsel. The superintendent shall have the authority to overturn or alter the decision of the principal or headmaster, including recommending an alternate educational program for the student. The superintendent shall render a decision on the appeal within five calendar days of the hearing. Such decision shall be the final decision of the city, town or regional school district with regard to the expulsion.

Any school district that suspends or expels a student under this section shall continue to provide educational services to the student during the period of suspension or expulsion, under section 21 of chapter 76. If the student moves to another district during the period of suspension or expulsion, the new district of residence shall either admit the student to its schools or provide educational services to the student under an education service plan, under section 21 of chapter 76.

**Part I. Title 12. Chapter 71. Section 37H3/4. Suspension or expulsion on grounds other than those set forth in Secs. 37H or 37H1/2.**

(a) This section shall govern the suspension and expulsion of students enrolled in a public school in the commonwealth who are not charged with a violation of subsections (a) or (b) of section 37H or with a felony under section 37H1/2.

(b) Any principal, headmaster, superintendent or other person acting as a decision-maker at a student meeting or hearing, when deciding the consequences for the student, shall exercise discretion; consider ways to re-engage the student in the learning process; and avoid using expulsion as a consequence until other remedies and consequences have been employed.

(c) For any suspension or expulsion under this section, the principal or headmaster of a school in which the student is enrolled, or a designee, shall provide, to the student and to the parent or guardian of the student, notice of the charges and the reason for the suspension or expulsion in English and in the primary language spoken in the home of the student. The student shall receive the written notification and shall have the opportunity to meet with the principal or headmaster, or a designee, to discuss the charges and reasons for the suspension or expulsion prior to the suspension or expulsion taking effect. The principal or headmaster, or a designee, shall ensure that the parent or guardian of the student is included in the meeting, provided that such meeting may take place without the parent or guardian only if the principal or headmaster, or a designee, can document reasonable efforts to include the parent or guardian in that meeting. The department shall promulgate rules and regulations that address a principal's duties under this subsection and procedures for including parents in student exclusion meetings, hearings or interviews under this subsection.

(d) If a decision is made to suspend or expel the student after the meeting, the principal or headmaster, or a designee, shall update the notification for the suspension or expulsion to reflect the meeting with the student. If a student has been suspended or expelled for more than 10 school days for a single infraction or for more than 10 school days cumulatively for multiple infractions in any school year, the student and the parent or guardian of the student shall also receive, at the time of the suspension or expulsion decision, written notification of a right to appeal and the process for appealing the suspension or expulsion in English and in the primary language spoken in the home of the student; provided, however, that the suspension or expulsion shall remain in effect prior to any appeal hearing. The principal or headmaster or a designee shall notify the superintendent in writing, including, but not limited to, by electronic means, of any out-of-school suspension imposed on a student enrolled in kindergarten through grade 3 prior to such suspension taking effect. That notification shall describe the student's alleged misconduct and the reasons for suspending the student out-of-school. For the purposes of this section, the term "out-of-school suspension" shall mean a disciplinary action imposed by school officials to remove a student from participation in school activities for 1 day or more.
(e) A student who has been suspended or expelled from school for more than 10 school days for a single infraction or for more than 10 school days cumulatively for multiple infractions in any school year shall have the right to appeal the suspension or expulsion to the superintendent. The student or a parent or guardian of the student shall notify the superintendent in writing of a request for an appeal not later than 5 calendar days following the effective date of the suspension or expulsion; provided, that a student and a parent or guardian of the student may request, and if so requested, shall be granted an extension of up to 7 calendar days. The superintendent or a designee shall hold a hearing with the student and the parent or guardian of the student within 3 school days of the student's request for an appeal; provided that a student or a parent or guardian of the student may request and, if so requested, shall be granted an extension of up to 7 calendar days; provided further, that the superintendent, or a designee, may proceed with a hearing without a parent or guardian of the student if the superintendent, or a designee, makes a good faith effort to include the parent or guardian. At the hearing, the student shall have the right to present oral and written testimony, cross-examine witnesses and shall have the right to counsel. The superintendent shall render a decision on the appeal in writing within 5 calendar days of the hearing. That decision shall be the final decision of the school district with regard to the suspension or expulsion.

(f) No student shall be suspended or expelled from a school or school district for a time period that exceeds 90 school days, beginning the first day the student is removed from an assigned school building.

Any pupil who has attained age eighteen, or the parent, guardian or custodian of a pupil who has not attained said age of eighteen, who has been refused admission to or excluded from the public schools or from the advantages, privileges and courses of study of such public schools shall on application be furnished by the school committee with a written statement of the reasons therefor, and thereafter, if the refusal to admit or exclusion was unlawful, such pupil may recover from the town or, in the case of such refusal or exclusion by a regional school district from the district, in tort and may examine any member of the school committee or any other officer of the town or regional school district upon interrogatories.

A school committee shall not permanently exclude a pupil from the public schools for alleged misconduct without first giving him and his parent or guardian an opportunity to be heard.

REGULATIONS

603 CMR 18.05. Required Policies and Procedures

(6) Suspension.
(a) Upon admission of a student, the school shall provide a written policy on suspensions to the parents, and the school district or human service agency that placed the student. Such policy shall conform to the federal requirements on discipline pursuant to 34 CFR § 300.
(b) Whenever a student is suspended, the school shall immediately notify the parents or the Department of Social Services as appropriate, and the public school or human service agency responsible for the placement. Within 24 hours, the school shall send a written statement explaining the reasons for suspension to the parents or the Department of Social Services as appropriate and the public school district and human service agency responsible for the placement.
(c) No student may be suspended and sent home unless a responsible adult is available to receive the student.
(d) Once a student has been suspended for three consecutive school days or five non-consecutive school days in a school year, the school, parents, and public school district, consistent with federal
requirements, shall explore together all possible program modifications within the school in an attempt to prevent total suspension of the student from the program.

603 CMR 53.08. Principal's hearing under Section 37H¾.

(1) The principal shall determine the extent of the rights to be afforded the student at a disciplinary hearing based on the anticipated consequences for the disciplinary offense. If the consequence may be long-term suspension from school, the principal shall afford the student, at a minimum, all the rights set forth in 603 CMR 53.08(3) in addition to those rights afforded to students who may face a short-term suspension from school.

(2) Principal Hearing - Short-term Suspension

(a) The purpose of the hearing with the principal is to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and, if so, the consequences for the infraction. At a minimum, the principal shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information. The student also shall have an opportunity to present information, including mitigating facts, that the principal should consider in determining whether other remedies and consequences may be appropriate as set forth in 603 CMR 53.05. The principal shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.

(b) Based on the available information, including mitigating circumstances, the principal shall determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

(c) The principal shall notify the student and parent of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as provided in 603 CMR 53.13(1). The determination shall be in writing and may be in the form of an update to the original written notice.

(d) If the student is in a public preschool program or in grades K through 3, the principal shall send a copy of the written determination to the superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

(3) Principal Hearing - Long-term Suspension

(a) The purpose of the hearing is the same as the purpose of a short-term suspension hearing.

(b) At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights:

In advance of the hearing, the opportunity to review the student's record and the documents upon which the principal may rely in making a determination to suspend the student or not;

the right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense;

the right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so;

the right to cross-examine witnesses presented by the school district;

the right to request that the hearing be recorded by the principal, and to receive a copy of the audio recording upon request. If the student or parent requests an audio recording, the principal shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent upon request.
(c) The principal shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.

(d) Based on the evidence, the principal shall determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as set forth in 603 CMR 53.05, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The principal shall send the written determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the principal and the parent. If the principal decides to suspend the student, the written determination shall:

Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing;

Set out the key facts and conclusions reached by the principal;

Identify the length and effective date of the suspension, as well as a date of return to school;

Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as provided in 603 CMR 53.13(4)(a);

Inform the student of the right to appeal the principal's decision to the superintendent or designee, but only if the principal has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, or other means of communication where appropriate, and shall include the following information stated in plain language: a) the process for appealing the decision, including that the student or parent must file a written notice of appeal with the superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that b) the long-term suspension will remain in effect unless and until the superintendent decides to reverse the principal's determination on appeal.

(e) If the student is in a public preschool program or in grades K through 3, the principal shall send a copy of the written determination to the superintendent and explain the reasons for imposing an out-of-school suspension, whether short-term or long-term, before the suspension takes effect.

603 CMR 53.09. Superintendent's hearing under Section 37H¾.

(1) A student who is placed on long-term suspension following a hearing with the principal shall have the right to appeal the principal's decision to the superintendent.

(2) The student or parent shall file a notice of appeal with the superintendent within the time period set forth 603 CMR 53.08 (3) (c) 5.a). If the appeal is not timely filed, the superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

(3) The superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent requests an extension of up to seven (7) additional calendar days, in which case the superintendent shall grant the extension.

(4) The superintendent shall make a good faith effort to include the parent in the hearing. The superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent and superintendent to participate. The superintendent shall send written notice to the parent of the date, time, and location of the hearing.

(5) The superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to
the student or parent upon request. The superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request.

(6) The student shall have all the rights afforded the student at the principal's hearing for long-term suspension under 603 CMR 53.08(3)(b).

(7) The superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of 603 CMR 53.08(3)(c)1 through 5. If the superintendent determines that the student committed the disciplinary offense, the superintendent may impose the same or a lesser consequence than the principal, but shall not impose a suspension greater than that imposed by the principal's decision.

(8) The decision of the superintendent shall be the final decision of the school district, charter school, or virtual school, with regard to the suspension.

603 CMR 53.12. Disciplinary offenses under Section 37H or 37H½.

(1) School districts shall adopt disciplinary policies and procedures applicable to a student who is accused of a disciplinary offense under G.L. c. 71, §§37H or 37H½. Such policies and procedures shall be consistent with the applicable statute and provide due process of law.

(2) The principal may remove a student who has committed a disciplinary offense under G.L. c. 71, §§37H or 37H½ from school for more than ninety (90) days in a school year.

(3) Any student who is removed from school for a disciplinary offense under G.L. c. 71, §37H or §37H½ shall have an opportunity to receive education services and make academic progress during the period of removal, as provided in 603 CMR 53.13.

In-school suspension

LAWS

No relevant laws found.

REGULATIONS

603 CMR 53.02. Definitions.

(6) "In-school suspension" means removal of a student from regular classroom activities, but not from the school premises, for no more than (10) consecutive school days, or no more than ten (10) school days cumulatively for multiple infractions during the school year. Removal solely from participation in extracurricular activities or school-sponsored events, or both, shall not count as removal in calculating school days. In-school suspension for ten (10) days or less, consecutively or cumulatively during a school year, shall not be considered a short-term suspension under these regulations. If a student is placed in in-school suspension for more than ten (10) days, consecutively or cumulatively during a school year, such suspension shall be deemed a long-term suspension for due process, appeal, and reporting purposes under 603 CMR 53.00.

603 CMR 53.10. In-School suspension under Section 37H¾.

(1) The principal may use in-school suspension as an alternative to short-term suspension for disciplinary offenses.

(2) The principal may impose an in-school suspension for a disciplinary offense under this provision, provided that the principal follows the process set forth in 603 CMR 53.10(3) through 603 CMR 53.10(5) and the student has the opportunity to make academic progress as set forth in 603 CMR 53.13(1).
(3) The principal shall inform the student of the disciplinary offense charged and the basis for the charge, and provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident. If the principal determines that the student committed the disciplinary offense, the principal shall inform the student of the length of the student's in-school suspension, which shall not exceed 10 days, cumulatively or consecutively, in a school year.

(4) On the same day as the in-school suspension decision, the principal shall make reasonable efforts to notify the parent orally of the disciplinary offense, the reasons for concluding that the student committed the infraction, and the length of the in-school suspension. The principal shall also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting shall be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the principal is unable to reach the parent after making and documenting at least (2) attempts to do so, such attempts shall constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.

(5) The principal shall send written notice to the student and parent about the in-school suspension, including the reason and the length of the in-school suspension, and inviting the parent to a meeting with the principal for the purpose set forth in 603 CMR 53.10(4), if such meeting has not already occurred. The principal shall deliver such notice on the day of the suspension by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or by other method of delivery agreed to by the principal and the parent.

LAWS

Part I. Title 12. Chapter 76. Section 37G. Corporal punishment of pupils prohibited; use of physical restraint; regulations.
(c) The board of education shall promulgate regulations regarding the use of physical restraint for students. Such regulations shall not preclude any teacher or employee or agent of the school from using reasonable force to protect pupils, other persons and themselves from an assault by a pupil as set forth above in section (b). Such regulations shall require training of all personnel authorized to administer any forms of restraint. Such regulations shall provide for procedures for notification to the department and to the parents.

REGULATIONS

603 CMR 46.01. Authority, scope, purpose and construction.
(1) Authority. 603 CMR 46.00 is promulgated by the Board of Education pursuant to M.G.L. c. 69, § 1B, and c. 71, § 37G.
(2) Scope. 603 CMR 46.00 governs the use of physical restraint on students in publicly funded elementary and secondary education programs, including all Massachusetts public school districts, charter schools, collaborative education programs and special education schools approved under 603 CMR 28.09, except as provided in 603 CMR 18.05(5)(h). Educational programs in facilities operated by the Department of Youth Services shall comply with the restraint requirements of 102 CMR 3.00.

(3) Purpose. The purpose of 603 CMR 46.00 is to ensure that every student participating in a Massachusetts public education program is free from the unreasonable use of physical restraint. Physical restraint shall be used only in emergency situations, after other less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution. School personnel shall use physical restraint with two goals in mind:

(a) To administer a physical restraint only when needed to protect a student and/or a member of the school community from imminent, serious, physical harm; and

(b) To prevent or minimize any harm to the student as a result of the use of physical restraint.

(4) Construction. Nothing in 603 CMR 46.00 shall be construed to limit the protection afforded publicly funded students under other state or federal laws, including those laws that provide for the rights of students who have been found eligible to receive special education services. Nothing in 603 CMR 46.00 precludes any teacher, employee or agent of a public education program from using reasonable force to protect students, other persons or themselves from assault or imminent, serious, physical harm.

603 CMR 46.02. Definitions.

As used in 603 CMR 46.00, the following terms shall have the following meanings:

(1) Extended restraint: A physical restraint the duration of which is more than twenty (20) minutes. Extended restraints increase the risk of injury and, therefore, require additional written documentation as described in 603 CMR 46.06.

(2) Physical escort: Touching or holding a student without the use of force for the purpose of directing the student.

(3) Physical restraint: The use of bodily force to limit a student’s freedom of movement.

(4) Public education programs: Public schools, including charter schools, collaborative education programs, special education schools approved under 603 CMR 28.09, except as provided in 603 CMR 18.05(5)(h), and school events and activities sponsored by such programs.

(5) Restraint - Other: Limiting the physical freedom of an individual student by mechanical means or seclusion in a limited space or location, or temporarily controlling the behavior of a student by chemical means. The use of chemical or mechanical restraint is prohibited unless explicitly authorized by a physician and approved in writing by the parent or guardian. The use of seclusion restraint is prohibited in public education programs.

(a) Mechanical Restraint: The use of a physical device to restrict the movement of a student or the movement or normal function of a portion of his or her body. A protective or stabilizing device ordered by a physician shall not be considered mechanical restraint.

(b) Seclusion Restraint: Physically confining a student alone in a room or limited space without access to school staff. The use of "time out" procedures during which a staff member remains accessible to the student shall not be considered "seclusion restraint."

(c) Chemical restraint: The administration of medication for the purpose of restraint.

(6) School Working Day: Any day or partial day that students are in attendance at the public education program for instructional purposes.
603 CMR 46.03. Procedures and training.

(1) Procedures. Public education programs shall develop written procedures regarding appropriate responses to student behavior that may require immediate intervention. Such procedures shall be annually reviewed and provided to school staff and made available to parents of enrolled students. Such procedures shall include, but not be limited to:

(a) Methods for preventing student violence, self-injurious behavior, and suicide, including de-escalation of potentially dangerous behavior occurring among groups of students or with an individual student;

(b) A school policy regarding restraint that provides a description and explanation of the school's or program's method of physical restraint, a description of the school's or program's training requirements, reporting requirements and follow-up procedures, and a procedure for receiving and investigating complaints regarding restraint practices.

(2) Required training for all staff. Each principal or director shall determine a time and method to provide all program staff with training regarding the school's restraint policy. Such training shall occur within the first month of each school year and, for employees hired after the school year begins, within a month of their employment. Training shall include information on the following:

(a) The program's restraint policy;

(b) Interventions that may preclude the need for restraint, including de-escalation of problematic behaviors;

(c) Types of restraints and related safety considerations, including information regarding the increased risk of injury to a student when an extended restraint is used;

(d) Administering physical restraint in accordance with known medical or psychological limitations and/or behavioral intervention plans applicable to an individual student; and

(e) Identification of program staff who have received in-depth training pursuant to 603 CMR 46.03(3) in the use of physical restraint.

(3) In-depth staff training in the use of physical restraint. At the beginning of each school year, the principal or director of each public education program or his or her designee shall identify program staff that are authorized to serve as a school-wide resource to assist in ensuring proper administration of physical restraint. Such staff shall participate in in-depth training in the use of physical restraint. The Department of Elementary and Secondary Education recommends that such training be at least sixteen (16) hours in length.

(4) Content of in-depth training. In-depth training in the proper administration of physical restraint shall include, but not be limited to:

(a) Appropriate procedures for preventing the need for physical restraint, including the de-escalation of problematic behavior, relationship building and the use of alternatives to restraint;

(b) A description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;

(c) The simulated experience of administering and receiving physical restraint, instruction regarding the effect(s) on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;

(d) Instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and

(e) Demonstration by participants of proficiency in administering physical restraint.
603 CMR 46.04. Determining when physical restraint may be used.

(1) Use of restraint. Physical restraint may be used only in the following circumstances:
   (a) Non-physical interventions would not be effective; and
   (b) The student's behavior poses a threat of imminent, serious, physical harm to self and/or others.

(2) Limitations on use of restraint. Physical restraint in a public education program shall be limited to the use of such reasonable force as is necessary to protect a student or another member of the school community from assault or imminent, serious, physical harm.

(3) Prohibitions. Physical restraint is prohibited in the following circumstances:
   (a) As a means of punishment; or
   (b) As a response to property destruction, disruption of school order, a student's refusal to comply with a school rule or staff directive, or verbal threats that do not constitute a threat of imminent, serious, physical harm.

(4) Referral to law enforcement or other state agencies. Nothing in these regulations prohibits:
   (a) The right of any individual to report to appropriate authorities a crime committed by a student or other individual;
   (b) Law enforcement, judicial authorities or school security personnel from exercising their responsibilities, including the physical detainment of a student or other person alleged to have committed a crime or posing a security risk; or
   (c) The exercise of an individual's responsibilities as a mandated reporter pursuant to MGL c. 119, § 51A. These regulations shall not be used to deter any individual from reporting neglect or abuse to the appropriate state agency.

603 CMR 46.05. Proper administration of physical restraint.

(1) Trained personnel. Only school personnel who have received training pursuant to 603 CMR 46.03(2) or 603 CMR 46.03(3) shall administer physical restraint on students. Whenever possible, the administration of a restraint shall be witnessed by at least one adult who does not participate in the restraint. The training requirements contained in 603 CMR 46.00 shall not preclude a teacher, employee or agent of a public education program from using reasonable force to protect students, other persons or themselves from assault or imminent, serious, physical harm.

(2) Use of force. A person administering a physical restraint shall use only the amount of force necessary to protect the student or others from physical injury or harm.

(3) Safest method. A person administering physical restraint shall use the safest method available and appropriate to the situation subject to the safety requirements set forth in 603 CMR 46.05(5). Floor or prone restraints shall be prohibited unless the staff member administering the restraint has received in-depth training according to the requirements of 603 CMR 46.03(3) and, in the judgment of the trained staff member, such method is required to provide safety for the student or others present.

(4) Duration of restraint. A person administering physical restraint shall discontinue such restraint as soon as possible. If, due to unusual circumstances, a restraint continues for more than twenty (20) minutes, it shall be considered an "extended restraint" for purposes of the reporting requirements in 603 CMR 46.06.

(5) Safety requirements. Additional requirements for the use of physical restraint:
   (a) No restraint shall be administered in such a way that the student is prevented from breathing or speaking. During the administration of a restraint, a staff member shall continuously monitor the physical status of the student, including skin color and respiration. A restraint shall be released immediately upon a determination by the staff member administering the restraint that the student is no longer at risk of causing imminent physical harm to him or herself or others.
(b) Restraint shall be administered in such a way so as to prevent or minimize physical harm. If, at any time during a physical restraint, the student demonstrates significant physical distress, the student shall be released from the restraint immediately, and school staff shall take steps to seek medical assistance.

(c) Program staff shall review and consider any known medical or psychological limitations and/or behavioral intervention plans regarding the use of physical restraint on an individual student.

(d) Following the release of a student from a restraint, the program shall implement follow-up procedures. These procedures shall include reviewing the incident with the student to address the behavior that precipitated the restraint, reviewing the incident with the staff person(s) who administered the restraint to discuss whether proper restraint procedures were followed, and consideration of whether any follow-up is appropriate for students who witnessed the incident.

603 CMR 46.06. Reporting requirements.

(1) Circumstances under which a physical restraint must be reported. Program staff shall report the use of physical restraint as specified in 603 CMR 46.06(2) after administration of a physical restraint that results in any injury to a student or staff member, or any physical restraint of a duration longer than five minutes.

(2) Informing school administration. The program staff member who administered the restraint shall verbally inform the program administration of the restraint as soon as possible, and by written report no later than the next school working day. The written report shall be provided to the principal or director of the program or his/her designee, except that the principal or director shall prepare the report if the principal or director has administered the restraint. The principal or director or his/her designee shall maintain an on-going record of all reported instances of physical restraint, which shall be made available for review by the Department of Elementary and Secondary Education, upon request.

(3) Informing parents. The principal or director of the program or his/her designee shall verbally inform the student's parents or guardians of the restraint as soon as possible, and by written report postmarked no later than three school working days following the use of restraint. If the school or program customarily provides a parent or guardian of a student with report cards and other necessary school-related information in a language other than English, the written restraint report shall be provided to the parent or guardian in that language.

(4) Contents of report. The written report required by 603 CMR 46.06(2) and (3) shall include:

(a) The names and job titles of the staff who administered the restraint, and observers, if any; the date of the restraint; the time the restraint began and ended; and the name of the administrator who was verbally informed following the restraint.

(b) A description of the activity in which the restrained student and other students and staff in the same room or vicinity were engaged immediately preceding the use of physical restraint; the behavior that prompted the restraint; the efforts made to de-escalate the situation; alternatives to restraint that were attempted; and the justification for initiating physical restraint.

(c) A description of the administration of the restraint including the holds used and reasons such holds were necessary; the student's behavior and reactions during the restraint; how the restraint ended; and documentation of injury to the student and/or staff, if any, during the restraint and any medical care provided.

(d) For extended restraints, the written report shall describe the alternatives to extended restraint that were attempted, the outcome of those efforts and the justification for administering the extended restraint.

(e) Information regarding any further action(s) that the school has taken or may take, including any disciplinary sanctions that may be imposed on the student.
(f) Information regarding opportunities for the student's parents or guardians to discuss with school officials the administration of the restraint, any disciplinary sanctions that may be imposed on the student and/or any other related matter.

(5) Report to the Department of Elementary and Secondary Education. When a restraint has resulted in a serious injury to a student or program staff member or when an extended restraint has been administered, the program shall provide a copy of the written report required by 603 CMR 46.06(4) to the Department of Elementary and Secondary Education within five school working days of the administration of the restraint. The program shall also provide the Department with a copy of the record of physical restraints maintained by the program administrator pursuant to 603 CMR 46.06(2) for the thirty day period prior to the date of the reported restraint. The Department shall determine if additional action on the part of the public education program is warranted and, if so, shall notify the public education program of any required actions within thirty calendar days of receipt of the required written report(s).

603 CMR 46.07. Special circumstances.

(1) Special Circumstances - Students with Disabilities. Restraint administered to a student with a disability pursuant to an Individualized Education Plan ("IEP") or other written plan developed in accordance with state and federal law to which the public education program and the student's parent or guardian have agreed shall be deemed to meet the requirements of 603 CMR 46.00, except that the limitations on chemical, mechanical, and seclusion restraint set forth in 603 CMR 46.02(5), the training requirements set forth in 603 CMR 46.03, and the reporting requirements set forth in 603 CMR 46.06 shall apply.

(2) Special Circumstances - Individual Waiver of Reporting Requirements. Public education programs may seek a parent's or guardian's consent to waive the reporting requirements of 603 CMR 46.06 for restraints administered to an individual student that do not result in serious injury to the student or a program staff member and do not constitute extended restraint. Extended restraints and restraints that result in serious injury to a student or program staff member must be reported in accordance with the requirements of 603 CMR 46.06, regardless of any individual waiver to which the parent or guardian may have consented. Individual waivers should be sought only for students who present a high risk of frequent, dangerous behavior that may require the frequent use of restraint.

(3) Limitations on individual waivers.
(a) A public education program may not require a parent's consent to such a waiver as a condition of admission or provision of services.
(b) A parent may withdraw consent to such waiver at any time without penalty.

(4) Individual Waiver - documentation required. The program shall maintain the following documentation on site in the student's file and shall make such documentation available for inspection by the Department of Elementary and Secondary Education at its request at any time:
(a) The informed written consent of the parent or guardian to the waiver, which shall specify those reporting requirements(s) in 603 CMR 46.06(1)-(4) that the parent or guardian agrees to waive; and
(b) Specific information regarding when and how the parent or guardian will be informed regarding the administration of all restraints to the individual student.

(5) Prohibition on Program or Classroom Waivers: Nothing herein shall be construed to allow a program or classroom to receive an exemption or waiver from any of the requirements of 603 CMR 46.00 on behalf of all of the students enrolled in a particular program or classroom.
Alternative placements

LAWS

Part I. Title 12. Chapter 69. Section 1N. Alternative education grant program.

(a) The department of education, hereinafter referred to as the department, shall establish a grant program, subject to appropriation, to be known as the alternative education grant program for the purpose of providing grants to assist school districts and Horace Mann and commonwealth charter schools with the development and establishment of alternative education programs and services to students suspended or expelled from school. The grants shall support the development of alternative education programs which would:

1. allow school districts to coordinate efforts to establish interdistrict regional alternative education collaboratives to provide educational services to suspended or expelled students; or
2. establish a district based alternative education program for those students. The grants may also be used to encourage the use of technology in alternative education programs.

The grants shall also encourage voluntary expansion of existing alternative education programs in the commonwealth, and shall be used to provide alternative education programs for students who are at risk of educational failure due to truancy, or dropping out of school. Grants may also be used to assist in developing programs that provide a range of approaches to address behavior issues, such as behavior specialists, in-school suspension rooms and crisis centers, in addition to out-of-school alternative settings.

Programs designed under the grants shall be developed at the middle and high school levels and shall afford students the opportunity to earn a high school diploma in accordance with section 1D, and to be taught to the same academic standards and curriculum frameworks established for all students in accordance with sections 1D and 1E. The programs shall make use of existing resources in school districts, educational collaboratives, community colleges, and other agencies, service providers, and organizations. Programs shall be designed as placements that, at a minimum, educate students to the same academic standards and curriculum frameworks as taught to all students, address behavioral problems, utilize small class size, address individual needs and learning styles, provide engaging instruction and a supportive environment, and, where appropriate, utilize flexible scheduling. The programs shall also provide a comprehensive array of social services to support a student’s remediation of issues that cause school failure, excessive absenteeism, truancy and school dropout. Grant recipients shall develop remediation plans for students that address both academic and behavioral issues. Grants may also be made available for in-school regular education programs that include self-improvement, behavior management and life skills training to help provide students with tools to better manage their lives and attitudes, to support programs that use family-based approaches, and to assist students and teachers during the transition of students back into regular education classrooms.

A grant awarded pursuant to this subsection, shall require that recipients undertake ongoing program evaluations that document the effectiveness of the program in helping students to achieve academically to the same academic standards and curriculum frameworks required for all students, to develop self-management skills, and to reintegrate and remain in regular education classrooms. In awarding grants, priority shall be given to programs that employ interventions that have been empirically validated.

The department shall establish guidelines governing the alternative education grant program. The guidelines shall include, but not be limited to, a requirement that when a student is transferred to an alternative education program a representative of the school district shall meet with the student and the student’s parents or legal guardian to develop an agreement that specifies the responsibilities of the
school, the student and the student’s parents or legal guardian. The agreement shall, at a minimum, include:

(1) a remediation plan to address both academic and behavioral issues;
(2) a plan for frequent evaluations and assessments of the student’s adjustment, and academic achievement and progress;
(3) a requirement that the parents or legal guardian of the student attend specified meetings or conferences with teachers, or utilize such other means of communication as determined necessary to facilitate communication, to review and assist in the student’s progress;
(4) a timetable for reintegrating the student into a regular education classroom;
(5) the student’s and the parents’ or legal guardian’s acknowledgement that they understand and accept the responsibilities imposed by the agreement.

(b) The department shall establish a grant program, subject to appropriation, to assist school districts with the development and establishment of in-school regular education programs and services to address within the regular education school program the educational and psycho-social needs of children whose behavior interferes with learning, particularly those who are suffering from the traumatic effects of exposure to violence. As used in this subsection, students suffering from the traumatic effects of exposure to violence shall include, but not be limited to, those exposed to abuse, family or community violence, war, homelessness or any combination thereof. The grants shall support the development of school based teams with community ties that:

(1) collaborate with broadly recognized experts in the fields of trauma and family and community violence and with battered women shelters;
(2) provide ongoing training to inform and train teachers, administrators, and other school personnel to understand and identify the symptoms and trauma; and
(3) evaluate school policy and existing school and community programs and services to determine whether and to what extent students identified as suffering from exposure to trauma can receive effective supports and interventions that can help them to succeed in their public school programs, and where necessary be referred quickly and confidentially to appropriate services.

Grants may also be awarded to assist school districts in developing comprehensive programs to help prevent violence in schools, from whatever causes, and to promote school safety. The programs shall be designed to meet the following objectives: creating a school environment where students feel safe and that prevents problems from starting; helping students to take the lead in keeping the school safe; ensuring that school personnel have the skills and resources to identify and intervene with at-risk students; equipping students and teachers with the skills needed to avoid conflict and violence; and helping schools and individuals to reconnect with the community and share resources.

The department shall develop guidelines governing the implementation of the grant program authorized by this subsection. A grant awarded pursuant to this subsection shall require that recipients undertake ongoing evaluations of the effectiveness of the program. In awarding grants, priority shall be given to programs that are based on empirically validated interventions.

The department of education, in consultation with the department of public health and the department of mental health, shall establish an advisory committee to assist in implementing the grant program and in assisting public schools in addressing the learning and behavior problems of students who manifest trauma-related symptoms or classroom behavior that interferes with learning. Members of the advisory committee shall include but not be limited to: 3 educators, 1 of whom shall serve as the chair, appointed by the commissioner of the department of education; 2 leaders in the field of trauma and its relationship to school learning and behavior appointed by the commissioner of the department of public health; 2 leaders in mental health with expertise in family and/or community violence appointed by the commissioner of
mental health; 1 leader in battered women’s services appointed by the commissioner of public health; 1 leader in the area of homelessness and its impact on children appointed by commissioner of mental health; and 3 parents, 1 each appointed by the commissioner of education, the commissioner of public health, the commissioner of mental health. The advisory committee, at its discretion, may select additional members with relevant experience including but not limited to child advocates, medical doctors and representatives of juvenile and probate court.

(c) The commissioner shall evaluate annually the effectiveness of programs established under this section including the potential for replicating such programs throughout the commonwealth. The annual evaluation shall also examine whether students in alternative education programs funded under this section are being taught to the same academic standards required for all students, how much time students are spending in the programs, the racial profile of expelled or suspended students and the percentages of the students who are in special education or bilingual education. The commissioner shall also provide technical assistance to school districts seeking to replicate programs funded under this section, and shall provide training for teachers in the development of effective remediation plans for students in alternative education, and in the development of skills, techniques, and innovative strategies to assist the students. In evaluating programs funded under subsection (b), the commissioner shall consult with the department of public health, the department of mental health, and the advisory committee established pursuant to said subsection (b).

Part I. Title 12. Chapter 76. Section 21. Opportunity for academic progress for suspended students; education service plans; alternative educational services.

Principals and headmasters shall ensure that students who are suspended from school for 10 or fewer consecutive days, whether in or out of school, shall have an opportunity to make academic progress during the period of suspension, to make up assignments and earn credits missed including, but not limited to, homework, quizzes, exams, papers and projects missed. Principals shall develop a school-wide education service plan for all students who are expelled or suspended from school for more than 10 consecutive school days, whether in or out of school. Principals shall ensure these students have an opportunity to make academic progress during the period of suspension or expulsion, to make up assignments and earn credits missed, including but not limited to, homework, quizzes, exams, papers and projects missed. Education service plans may include, but are not limited to, tutoring, alternative placement, Saturday school, and online or distance learning. In developing the education service plan, principals may seek the cooperation or input of relevant health and human service, housing and nonprofit agencies education collaboratives, and other service providers. Any school or school district that expels a student or suspends a student for more than 10 consecutive school days shall provide the student and the parent or guardian of the student with a list of alternative educational services. Upon selection of an alternative educational service by the student and the student's parent or guardian, the school or school district shall facilitate and verify enrollment in the service. Students exempt from attending school under section 1 of chapter 76 shall not be subject to this section.

Instructional costs associated with providing alternative educational services under this section shall be eligible for reimbursement under section 5A of chapter 71B, subject to appropriation. The reimbursements shall be in addition to amounts distributed under chapter 70 and shall not be included in the calculation of base aid, as defined in section 2 of said chapter 70, for any subsequent fiscal year. Instructional costs eligible for reimbursement shall include only those costs directly attributable to providing alternative educational services under this section, such as salary of educational personnel, salary of related services personnel, costs for specialized books, materials or equipment, tuition costs, if the student is receiving services from other than the local public school, consultant costs if directly attributable to the student's instructional program and instructional costs of extended day or year services if such services are a part of the education service plan. Such costs shall be prorated as appropriate to reflect group
activities or costs for part-time services. Instructional costs shall not include transportation costs, administrative or overhead costs, the costs of adapting classrooms or materials that are used by more than 1 student, the costs of fringe benefits of personnel employed by the school district, nor the costs associated with the development of the education service plan or service coordination for the student. Instructional costs associated with an education service plan shall be reported to and approved by the department and shall be reimbursed according to the formula and procedures in said section 5A of said chapter 71B.

Part I. Title 12. Chapter 76. Section 1. Requirements and exceptions.
Every child between the minimum and maximum ages established for school attendance by the board of education shall, subject to section fifteen, attend a public day school in the town the student resides, or some other day school approved by the school committee, during the number of days required by the board of education in each school year, unless the child attends school in another town, for said number of days, under sections six to twelve, inclusive, or attends an experimental school project established under an experimental school plan, as provided in section one G of chapter fifteen, but such attendance shall not be required of a child whose physical or mental condition is such as to render attendance inexpedient or impracticable subject to the provisions of section three of chapter seventy-one B or of a child granted an employment permit by the superintendent of schools when such superintendent determines that the welfare of such child will be better served through the granting of such permit, or of a child who is being otherwise instructed in a manner approved in advance by the superintendent or the school committee. The superintendent of schools may transfer to any specialized type of school on a full-time basis any child who possesses the educational qualifications enumerated in this section and in the opinion of the superintendent would be benefited by such transfer. The superintendent, or teachers in so far as authorized by him or by the school committee, may excuse cases of necessary absence for other causes not exceeding seven day sessions or fourteen half day sessions in any period of six months. Absences may also be permitted for religious education at such times as the school committee may establish; provided, that no public funds shall be appropriated or expended for such education or for transportation incidental thereto; and provided, further, that such time shall be no more than one hour each week. For the purposes of this section, school committees shall approve a private school when satisfied that the instruction in all the studies required by law equals in thoroughness and efficiency, and in the progress made therein, that in the public schools in the same town; but shall not withhold such approval on account of religious teaching, and, in order to protect children from the hazards of traffic and promote their safety, cities and towns may appropriate money for conveying pupils to and from any schools approved under this section.

Except as herein provided, pupils who attend approved private schools of elementary and high school grades shall be entitled to the same rights and privileges as to transportation to and from school as are provided by law for pupils of public schools and shall not be denied such transportation because their attendance is in a school which is conducted under religious auspices or includes religious instruction in its curriculum. Each school committee shall provide transportation for any pupil attending such an approved private school within the boundaries of the school district, provided, however, that the distance between said pupil's residence and the private school said pupil attends exceeds two miles or such other minimum distance as may be established by the school committee for transportation of public school students. Any school committee which is required by law to transport any pupil attending an approved
private school beyond the boundaries of the school district shall not be required to do so further than the distance from the residence of such pupil to the public school he is entitled to attend.

The school committee of each town shall provide for and enforce the school attendance of all children actually residing therein in accordance herewith.

**Part I. Title 12. Chapter 76. Section 1A. Pupil absence notification programs.**

Upon the acceptance of this section by the local legislative body of a city or town, or by a majority vote of two-thirds of the member communities of a regional school district, the school committee of a city, town or regional school district shall establish a pupil absence notification program in all schools under its control. Said program may be developed with the assistance of the department of education. The parents or guardians of each pupil shall, annually, at the commencement of each school year, be sent a notice instructing them to call a designated telephone number at a designated time to inform the school of the absence of a pupil and the reason therefor. Said notice shall also require such parent or guardian to furnish the school with a home, work or other emergency telephone number where they can be contacted during the school day. If a pupil is absent and the school has not been notified by the designated time, the school shall call the telephone number or numbers furnished to inquire about said absence.

**Part I. Title 12. Chapter 76. Section 1B. Pupil absence notification program.**

The school committee of each city, town or regional school district shall have a pupil absence notification program in each of its schools. The program shall be designed to ensure that each school notifies a parent or guardian of the child’s absence if the school has not received notification of the absence from the parent or guardian within 3 days of the absence.

Each school committee shall have a policy of notifying the parent or guardian of a student who has at least 5 days in which the student has missed 2 or more periods unexcused in a school year or who has missed 5 or more school days unexcused in a school year. The notification policy shall require that the school principal or headmaster, or a designee, make a reasonable effort to meet with the parent or guardian of a student who has 5 or more unexcused absences to develop action steps for student attendance. The action steps shall be developed jointly and agreed upon by the school principal or headmaster, or a designee, the student and the student’s parent or guardian and with input from other relevant school personnel and officials from relevant public safety, health and human service, housing and nonprofit agencies.

**Part I. Title 12. Chapter 76. Section 2. Duties of parents; penalty.**

Every person in control of a child described in section one shall cause him to attend school as therein required, and, if he fails so to do for seven day sessions or fourteen half day sessions within any period of six months, he shall, on complaint by a supervisor of attendance, be punished by a fine of not more than twenty dollars. […]

**Part I. Title 12. Chapter 76. Section 18. Notice to parent or guardian and meeting with school committee prerequisite to student permanently leaving school; annual report; application of section.**

The notice shall initially offer at least 2 dates and times for an exit interview between the superintendent, or a designee, and the student and the parent or guardian of the student to occur prior to the student permanently leaving school and shall include contact information for scheduling the exit
The exit interview shall be for the purpose of discussing the reasons for the student permanently leaving school and to consider alternative education or other placements.

The department of elementary and secondary education shall: (i) publish a model protocol for conducting exit interviews with students; and (ii) compile and maintain a list of research and information relative to the consequences of dropping out, the benefits of earning a high school diploma and a list of alternative education resources and programs available to the student, in addition to those that the district may provide, that schools shall present at the exit interview.

The superintendent of every city, town or regional school district shall annually report to the department of education the number of students sixteen years of age or older who have permanently left school, the reasons for such leaving and any alternative educational or other placement which each such student has taken.

The provisions of this section shall not apply to a student who has completed the regular course of education, or apply to a student whose absences have been excused, nor shall this section be construed to permanently exclude a student who wishes to resume his education.

Every school committee shall appoint, make regulations governing and fix the compensation of one or more supervisors of attendance, who may be either male or female, and who shall meet such standards of qualifications for such work as shall be established by the department of education; provided, that such supervisors shall have attained the age of twenty-one years. The committees of two or more towns may employ the same supervisors of attendance.

The resources may include, but shall not be limited to, print, audio, video or digital media; subscription based online services; and on-site or technology-enabled professional development and training sessions. The department shall biennially update the model plan and the list of the resources, curricula, best practices and research and shall post them on its website.

The survey shall be designed to protect student privacy and allow for anonymous participation by students.

The school official identified in the plan as responsible for receiving reports of bullying or retaliation shall verify the completion of the student surveys. All completed surveys shall be forwarded to the department. The department shall use the survey results to help assess the effectiveness of bullying prevention curricula and instruction developed and administered under subsection (c). The department shall collect and analyze the student survey data in order to: compare the survey results with the bullying incident data reported under subsection (k); identify long-term trends and areas of improvement; and monitor bullying prevention efforts in schools over time. The department shall make its findings available to the school official.
(m) Each school district, charter school, approved private day or residential school or collaborative school may adopt an anti-bullying seal to represent the district or school's commitment to bullying prevention and intervention.

(n) The department may investigate certain alleged incidents of bullying. If, upon completion of investigation by the department, a school district, charter school, approved private day or residential school or collaborative school is found to not have properly implemented its prevention plan as outlined in subsection (d), the department may require that school district, charter school, approved private day or residential school or collaborative school to properly implement the plan or take other actions to address the findings of the investigation.

Said notice shall also require such parent or guardian to furnish the school with a home, work or other emergency telephone number where they can be contacted during the school day. If a pupil is absent and the school has not been notified by the designated time, the school shall call the telephone number or numbers furnished to inquire about said absence.

**Part I. Title 12. Chapter 76. Section 1B. Pupil absence notification program.**

The school committee of each city, town or regional school district shall have a pupil absence notification program in each of its schools. Each school committee shall have a policy of notifying the parent or guardian of a student who has at least 5 days in which the student has missed 2 or more periods unexcused in a school year or who has missed 5 or more school days unexcused in a school year. The notification policy shall require that the school principal or headmaster, or a designee, make a reasonable effort to meet with the parent or guardian of a student who has 5 or more unexcused absences to develop action steps for student attendance. The action steps shall be developed jointly and agreed upon by the school principal or headmaster, or a designee, the student and the student’s parent or guardian and with input from other relevant school personnel and officials from relevant public safety, health and human service, housing and nonprofit agencies.

**Part I. Title 12. Chapter 76. Section 18. Notice to parent or guardian and meeting with school committee prerequisite to student permanently leaving school; annual report; application of section.**

The notice shall initially offer at least 2 dates and times for an exit interview between the superintendent, or a designee, and the student and the parent or guardian of the student to occur prior to the student permanently leaving school and shall include contact information for scheduling the exit interview. The notice shall indicate that the parties shall agree upon a date and time for the exit interview, and that interview shall occur within 10 days after the sending of the notice. The time for the exit interview may be extended at the request of the parent or guardian and no extension shall be for longer than 14 days. The superintendent, or a designee, may proceed with any such interview without a parent or guardian if the superintendent, or a designee, makes a good faith effort to include the parent or guardian. The exit interview shall be for the purpose of discussing the reasons for the student permanently leaving school and to consider alternative education or other placements.
The superintendent or a designee shall convene a team of school personnel, such as the principal, guidance counselor, teachers, attendance officer and other relevant school staff, to participate in the exit interview with the student and the parent or guardian of the student. During the exit interview, the student shall be given information about the detrimental effects of early withdrawal from school, the benefits of earning a high school diploma and the alternative education programs and services available to the student.

The department of elementary and secondary education shall: (i) publish a model protocol for conducting exit interviews with students; and (ii) compile and maintain a list of research and information relative to the consequences of dropping out, the benefits of earning a high school diploma and a list of alternative education resources and programs available to the student, in addition to those that the district may provide, that schools shall present at the exit interview.

The superintendent of every city, town or regional school district shall annually report to the department of education the number of students sixteen years of age or older who have permanently left school, the reasons for such leaving and any alternative educational or other placement which each such student has taken.

The provisions of this section shall not apply to a student who has completed the regular course of education, or apply to a student whose absences have been excused, nor shall this section be construed to permanently exclude a student who wishes to resume his education.

(2) Notice required by 603 CMR 49.05 shall be provided in the primary language of the home.

(3) Each school district and school shall include the requirements and procedures for communicating with the parents of the aggressor and target of bullying or retaliation in the local plan.

(4) A principal's notification to a parent about an incident or a report of bullying or retaliation must comply with confidentiality requirements of the Massachusetts Student Records Regulations, 603 CMR 23.00, and the Federal Family Educational Rights and Privacy Act Regulations, 34 CFR Part 99, as set forth in 603 CMR 49.07.

(2) The principal shall provide oral and written notice to the student and the parent in English and in the primary language of the home if other than English, or other means of communication where appropriate. The notice shall set forth in plain language:

(a) the disciplinary offense;
(b) the basis for the charge;
(c) the potential consequences, including the potential length of the student's suspension;
(d) the opportunity for the student to have a hearing with the principal concerning the proposed suspension, including the opportunity to dispute the charges and to present the student's explanation of the alleged incident, and for the parent to attend the hearing;
(e) the date, time, and location of the hearing;

   the right to appeal the principal's decision to the superintendent.

(3) The principal shall make reasonable efforts to notify the parent orally of the opportunity to attend the hearing. To conduct a hearing without the parent present, the principal must be able to document reasonable efforts to include the parent. The principal is presumed to have made reasonable efforts if the principal has sent written notice and has documented at least two (2) attempts to contact the parent in the manner specified by the parent for emergency notification.

(4) Written notice to the parent may be made by hand delivery, first-class mail, certified mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the principal and parent.

603 CMR 53.07. Emergency removal under Section 37H¾.

(1) Nothing in these regulations shall prevent a principal from removing a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the principal's judgment, there is no alternative available to alleviate the danger or disruption. The principal shall immediately notify the superintendent in writing of the removal and the reason for it, and describe the danger presented by the student. The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the principal shall:

(a) Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, and the other matters set forth in 603 CMR 53.06(2);

(4) On the same day as the in-school suspension decision, the principal shall make reasonable efforts to notify the parent orally of the disciplinary offense, the reasons for concluding that the student committed the infraction, and the length of the in-school suspension. The principal shall also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting shall be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the principal is unable to reach the parent after making and documenting at least (2) attempts to do so, such attempts shall constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.

(5) The principal shall send written notice to the student and parent about the in-school suspension, including the reason and the length of the in-school suspension, and inviting the parent to a meeting with the principal for the purpose set forth in 603 CMR 53.10(4), if such meeting has not already occurred. The principal shall deliver such notice on the day of the suspension by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or by other method of delivery agreed to by the principal and the parent.

REGULATIONS

603 CMR 49.06: Notice to law enforcement agency.

(1) Before the first day of each school year, the superintendent or designee of a school district and the
school leader or designee of an approved private day or residential school, collaborative school, or
charter school shall communicate with the chief of police or designee of the local police department about
the implementation of 603 CMR 49.06. Such communication may include agreeing on a method for
notification, a process for informal communication, updates of prior written agreements, or any other
subject appropriate to the implementation of 603 CMR 49.06.

(2) At any point after receipt of a report of bullying or retaliation, including after an investigation, the
principal shall notify the local law enforcement agency if the principal has a reasonable basis to believe
that criminal charges may be pursued against the aggressor. Notice shall be consistent with the
requirements of 603 CMR 49.00 and established agreements with the local law enforcement agency. The
principal shall document the reasons for his or her decision to notify law enforcement. Nothing in 603
CMR 49.06 shall be interpreted to require reporting to a law enforcement agency in situations in which
bullying and retaliation can be handled appropriately within the school district or school.

   (a) In making the determination whether notification to law enforcement is appropriate, the principal may
       consult with the school resource officer and any other individuals the principal deems appropriate.

   (b) Nothing in 603 CMR 49.06 shall prevent the principal from taking appropriate disciplinary or other
       action pursuant to school district or school policy and state law, provided that disciplinary actions
       balance the need for accountability with the need to teach appropriate behavior.

   (c) The principal shall respond to the incident as set forth in relevant provisions of the local plan
       consistent with 603 CMR 49.06.

(3) If an incident of bullying or retaliation occurs on school grounds and involves a former student under
the age of 21 who is no longer enrolled in the school district or school, the principal of the school informed
of the bullying or retaliation shall notify the local law enforcement agency if the principal has a reasonable
basis to believe that criminal charges may be pursued against the aggressor.

(4) Each school district and school shall include the requirements and procedures for communicating with
the local law enforcement agency in the local plan.

Disclosure of school records

LAWS

(c) Any statement, response or disclosure made by a pupil during a verbal substance use disorder
screening shall be considered confidential information and shall not be disclosed by a person receiving

parent or guardian, except in cases of immediate medical emergency or a disclosure is otherwise
required by state law. Such consent shall be documented on a form approved by the department of public health and shall not be subject to discovery or subpoena in any civil, criminal, legislative or administrative proceeding. No record of any statement, response or disclosure shall be made in any form, written, electronic or otherwise, that includes information identifying the pupil.

REGULATIONS

603 CMR 23.07. Access to student records

(1) Log of Access. A log shall be kept as part of each student’s record. If parts of the student record are separately located, a separate log shall be kept with each part. The log shall indicate all persons who have obtained access to the student record, stating: the name, position and signature of the person releasing the information; the name, position and, if a third party, the affiliation if any, of the person who is to receive the information; the date of access; the parts of the record to which access was obtained; and the purpose of such access. Unless student record information is to be deleted or released, this log requirement shall not apply to:

(a) authorized school personnel under 603 CMR 23.02(9)(a) who inspect the student record;
(b) administrative office staff and clerical personnel under 603 CMR 23.02(9)(b), who add information to or obtain access to the student record; and
(c) school nurses who inspect the student health record.

(2) Access of Eligible Students and Parents. The eligible student or the parent, subject to the provisions of 603 CMR 23.07 (5), shall have access to the student record. Access shall be provided as soon as practicable and within ten days after the initial request, except in the case of non-custodial parents as provided in 603 CMR 23.07 (5). Upon request for access, the entire student record regardless of the physical location of its parts shall be made available.

(a) Upon request, copies of any information contained in the student record shall be furnished to the eligible student or the parent. A reasonable fee, not to exceed the cost of reproduction, may be charged. However, a fee may not be charged if to do so would effectively prevent the parents or eligible student from exercising their right, under federal law, to inspect and review the records.
(b) Any student, regardless of age, shall have the right pursuant to M.G.L. c. 71, section 34A to receive a copy of his/her transcript.
(c) The eligible student or the parent shall have the right upon request to meet with professionally qualified school personnel and to have any of the contents of the student record interpreted.
(d) The eligible student or the parent may have the student record inspected or interpreted by a third party of their choice. Such third party shall present specific written consent of the eligible student or parent, prior to gaining access to the student record.

(3) Access of Authorized School Personnel. Subject to 603 CMR 23.00, authorized school personnel shall have access to the student records of students to whom they are providing services, when such access is required in the performance of their official duties. The consent of the eligible student or parent shall not be necessary.

(4) Access of Third Parties. Except for the provisions of 603 CMR 23.07(4)(a) through 23.07(4)(h), no third party shall have access to information in or from a student record without the specific, informed written consent of the eligible student or the parent. When granting consent, the eligible student or parent shall have the right to designate which parts of the student record shall be released to the third party. A copy of such consent shall be retained by the eligible student or parent and a duplicate placed in the temporary record. Except for information described in 603 CMR 23.07(4)(a), personally identifiable information from a student record shall only be released to a third party on the condition that he/she will
not permit any other third party to have access to such information without the written consent of the eligible student or parent.

(a) A school may release the following directory information: a student's name, address, telephone listing, date and place of birth, major field of study, dates of attendance, weight and height of members of athletic teams, class, participation in officially recognized activities and sports, degrees, honors and awards, and post-high school plans without the consent of the eligible student or parent; provided that the school gives public notice of the types of information it may release under 603 CMR 23.07 and allows eligible students and parents a reasonable time after such notice to request that this information not be released without the prior consent of the eligible student or parent. Such notice may be included in the routine information letter required under 603 CMR 23.10.

(b) Upon receipt of a court order or lawfully issued subpoena the school shall comply, provided that the school makes a reasonable effort to notify the parent or eligible student of the order or subpoena in advance of compliance.

(c) A school may release information regarding a student upon receipt of a request from the Department of Social Services, a probation officer, a justice of any court, or the Department of Youth Services under the provisions of M.G.L. c. 119, sections 51B, 57, 69 and 69A respectively.

(d) Federal, state and local education officials, and their authorized agents shall have access to student records as necessary in connection with the audit, evaluation or enforcement of federal and state education laws, or programs; provided that except when collection of personally identifiable data is specifically authorized by law, any data collected by such officials shall be protected so that parties other than such officials and their authorized agents cannot personally identify such students and their parents; and such personally identifiable data shall be destroyed when no longer needed for the audit, evaluation or enforcement of federal and state education laws.

(e) A school may disclose information regarding a student to appropriate parties in connection with a health or safety emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. This includes, but is not limited to, disclosures to the local police department and the Department of Social Services under the provisions of M.G.L. c. 71, section 37L and M.G.L. c. 119, section 51A.

(f) Upon notification by law enforcement authorities that a student, or former student, has been reported missing, a mark shall be placed in the student record of such student. The school shall report any request concerning the records of the such child to the appropriate law enforcement authority pursuant to the provisions of M.G.L. c. 22A, section 9.

(g) Authorized school personnel of the school to which a student seeks or intends to transfer may have access to such student’s record without the consent of the eligible student or parent, provided that the school the student is leaving, or has left, gives notice that it forwards student records to schools in which the student seeks or intends to enroll. Such notice may be included in the routine information letter required under 603 CMR 23.10.

(h) School health personnel and local and state health department personnel shall have access to student health records, including but not limited to immunization records, when such access is required in the performance of official duties, without the consent of the eligible student or parent.

(5) Access Procedures for Non-Custodial Parents. As required by M.G.L. c. 71, § 34H, a non-custodial parent may have access to the student record in accordance with the following provisions.

(a) A non-custodial parent is eligible to obtain access to the student record unless:

   1. the parent has been denied legal custody or has been ordered to supervised visitation, based on a threat to the safety of the student and the threat is specifically noted in the order pertaining to custody or supervised visitation, or
2. the parent has been denied visitation, or
3. the parent's access to the student has been restricted by a temporary or permanent protective order, unless the protective order (or any subsequent order modifying the protective order) specifically allows access to the information contained in the student record, or
4. there is an order of a probate and family court judge which prohibits the distribution of student records to the parent.

(b) The school shall place in the student's record documents indicating that a non-custodial parent's access to the student's record is limited or restricted pursuant to 603 CMR 23.07(5)(a).

c) In order to obtain access, the non-custodial parent must submit a written request for the student record to the school principal.

d) Upon receipt of the request the school must immediately notify the custodial parent by certified and first class mail, in English and the primary language of the custodial parent, that it will provide the non-custodial parent with access after 21 days, unless the custodial parent provides the principal with documentation that the non-custodial parent is not eligible to obtain access as set forth in 603 CMR 23.07 (5)(a).

e) The school must delete all electronic and postal address and telephone number information relating to either work or home locations of the custodial parent from student records provided to non-custodial parents. In addition, such records must be marked to indicate that they shall not be used to enroll the student in another school.

(f) Upon receipt of a court order that prohibits the distribution of information pursuant to G.L. c. 71, §34H, the school shall notify the non-custodial parent that it shall cease to provide access to the student record to the non-custodial parent.

603 CMR 49.07. Confidentiality of records.
(1) A principal may not disclose information from a student record of a target or aggressor to a parent unless the information is about the parent's own child.

(2) A principal may disclose a determination of bullying or retaliation to a local law enforcement agency under 603 CMR 49.06 without the consent of a student or his or her parent. The principal shall communicate with law enforcement officials in a manner that protects the privacy of targets, student witnesses, and aggressors to the extent practicable under the circumstances.

(3) A principal may disclose student record information about a target or aggressor to appropriate parties in addition to law enforcement in connection with a health or safety emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals as provided in 603 CMR 23.07(4)(e) and 34 CFR 99.31(a)(10) and 99.36. 603 CMR 49.07(3) is limited to instances in which the principal has determined there is an immediate and significant threat to the health or safety of the student or other individuals. It is limited to the period of emergency and does not allow for blanket disclosure of student record information. The principal must document the disclosures and the reasons that the principal determined that a health or safety emergency exists.
Data collection, review, and reporting of disciplinary policies and actions

LAWS

Part I. Title 12. Chapter 69. Section 1I. Performance of public-school districts and individual public schools; evaluation system; assessment instruments; report.

The board shall adopt a system for evaluating on an annual basis the performance of both public school districts and individual public schools. With respect to individual schools, the system shall include instruments designed to assess the extent to which schools and districts succeed in improving or fail to improve student performance, as defined by student acquisition of the skills, competencies and knowledge called for by the academic standards and embodied in the curriculum frameworks established by the board pursuant to sections one D and one E in the areas of mathematics, science and technology, history and social science, English, foreign languages and the arts, as well as by other gauges of student learning judged by the board to be relevant and meaningful to students, parents, teachers, administrators, and taxpayers.

The system shall be designed both to measure outcomes and results regarding student performance, and to improve the effectiveness of curriculum and instruction. In its design and application, the system shall strike a balance among considerations of accuracy, fairness, expense and administration. The system shall employ a variety of assessment instruments on either a comprehensive or statistically valid sampling basis. Such instruments shall be criterion referenced, assessing whether students are meeting the academic standards described in this chapter. As much as is practicable, especially in the case of students whose performance is difficult to assess using conventional methods, such instruments shall include consideration of work samples, projects and portfolios, and shall facilitate authentic and direct gauges of student performance. Such instruments shall provide the means to compare student performance among the various school systems and communities in the commonwealth, and between students in other states and in other nations, especially those nations which compete with the commonwealth for employment and economic opportunities. The board shall take all appropriate action to bring about and continue the commonwealth’s participation in the assessment activities of the National Assessment of Educational Progress and in the development of standards and assessments by the New Standards Program.

In addition, comprehensive diagnostic assessment of individual students shall be conducted at least in the fourth, eighth and tenth grades. Said diagnostic assessments shall identify academic achievement levels of all students in order to inform teachers, parents, administrators and the students themselves, as to individual academic performance. The board shall develop procedures for updating, improving or refining the assessment system.

The assessment instruments shall be designed to avoid gender, cultural, ethnic or racial stereotypes and shall recognize sensitivity to different learning styles and impediments to learning. The system shall take into account on a nondiscriminatory basis the cultural and language diversity of students in the commonwealth and the particular circumstances of students with special needs. Said system shall comply with federal requirements for accommodating children with special needs. All potential English proficient students from language groups in which English learner programs established under chapter 71A are offered under chapter seventy-one A shall also be allowed opportunities for assessment of their performance in the language which best allows them to demonstrate educational achievement and mastery of academic standards and curriculum frameworks established under sections 1D and 1E. For the purposes of this section, a “potential English proficient student” shall be defined as a student who is
not able to perform ordinary class work in English; provided, however, that no student shall be allowed to
be tested in a language other than English for longer than three consecutive years.

The commissioner is authorized and directed to gather information, including the information specified
herein and such other information as the board shall require, for the purposes of evaluating individual
public schools, school districts, and the efficacy and equity of state and federal mandated programs. All
information filed pursuant to this section shall be filed in the manner and form prescribed by the
department.

The board shall establish and maintain a data system to collect information from school districts for the
purpose of assessing the effectiveness of district evaluation systems in assuring effective teaching and
administrative leadership in the public schools. Such information shall be made available in the aggregate
to the public; provided, however, that any data or information that school districts, the department or both
create, send or receive in connection with educator evaluation that is evaluative in nature and which may
be linked to an individual educator, including information concerning an educator’s formative assessment
or evaluation or summative evaluation or performance rating or the student learning, growth and
achievement data that may be used as part of an individual educator’s evaluation, shall be considered
personnel information within the meaning of subclause (c) of clause Twenty-sixth of section 7 of chapter 4
and shall not be subject to disclosure under said clause Twenty-sixth of said section 7 of said chapter 4 or
under section 10 of chapter 66.

Each school district shall file a report with the department every year by a date and in a format
determined by the board. Said report shall include, but not be limited to, the following:

suspensions;
(f) percent of school-age children attending public schools;
(g) racial composition of teaching and administrative staff;
(h) enrollment and average daily attendance;
(i) the annual budgets and expenditures for both the district and the individual schools in the district.

Each school district shall file a description of the following instructional procedures and programs with
the department every year:

(h) basic skills remediation programs;
(i) drug, tobacco and alcohol abuse programs;
(j) multi-cultural education training for students and teachers;
(k) global education; and
(l) nutrition and wellness programs.

Each school district and charter school shall file an annual report for the current school year regarding implementation of chapter 71B with the department every November 1 first in a format determined by the board. The report shall include, but not be limited to, the following:-

(a) the number of children receiving services pursuant to said chapter 71B within each disability category as set forth in section 1 of said chapter 71B;
(b) the number of children, by grade level, within each such disability category and the costs of services provided by each such category for such children receiving their education in a publicly operated day school program;
(c) the number of children, by grade level, within each such disability category and the costs of services provided by each such category for such children receiving their education in a private day setting;
(d) the number of children, by grade level, within each such disability category and the costs of services provided by each such category for such children receiving their education in a private residential setting;
(e) the number of children who remain in the regular education program full time; the number of children who are removed from the regular classroom for up to 25 per cent of the day; the number of children who are removed from the regular classroom between 25 and 60 per cent of the day;

(g) the number of children, ages three and four, who are educated in integrated and separate classrooms; and the assignment by sex, national origin, economic status, race and religion, of children by age level to special education classes and the distribution of children residing in the district by sex, national origin, economic status, race and religion of children by age level; and
(h) the number of children, by grade level, receiving special education services who are English learners.

Part I. Title 12. Chapter 71. Section 37H. Policies relative to conduct of teachers or students; student handbooks.

[...] The school council shall review the student handbook each spring to consider changes in disciplinary policy to take effect in September of the following school year, but may consider policy changes at any time. The annual review shall cover all areas of student conduct, including but not limited to those outlined in this section.

(f) Districts shall report to the department of elementary and secondary education the specific reasons for all suspensions and expulsions, regardless of duration or type, in a manner and form established by the commissioner. The department of elementary and secondary education shall use its existing data collection tools to obtain this information from districts and shall modify those tools, as necessary, to obtain the information. On an annual basis, the department of elementary and secondary education shall make district level de-identified data and analysis, including the total number of days each student is excluded during the school year, available to the public online in a machine readable format. This report shall include district level data disaggregated by student status and categories established by the commissioner.

(g) Under the regulations promulgated by the department, for each school that suspends or expels a significant number of students for more than 10 cumulative days in a school year, the commissioner shall investigate and, as appropriate, shall recommend models that incorporate intermediary steps prior to the
use of suspension or expulsion. The results of the analysis shall be publicly reported at the school district level.

**Part I. Title 12. Chapter 71. Section 37O. School bullying prohibited; bullying prevention plans.**

(k) Each school district, charter school, approved private day or residential school and collaborative school shall annually report bullying incident data to the department. The data shall include, but not be limited to: (i) the number of reported allegations of bullying or retaliation; (ii) the number and nature of substantiated incidents of bullying or retaliation; (iii) the number of students disciplined for engaging in bullying or retaliation; and (iv) any other information required by the department. Said incident data shall be reported in the form and manner established by the department, in consultation with the attorney general; provided, that the department shall minimize the costs and resources needed to comply with said reporting requirements; and provided further, that the department may use existing data collection and reporting mechanisms to collect the information from school districts. The department shall analyze the bullying incident data and shall publish an annual report containing aggregate statewide information on the frequency and nature of bullying in schools. The department shall file the annual report with the attorney general and with the clerks of the senate and the house of representatives who shall forward the same to the chairs of the joint committee on education, the joint committee on the judiciary and the house and senate committees on ways and means.

(l) The department shall develop a student survey to assess school climate and the prevalence, nature and severity of bullying in schools. The survey shall be administered by each school district, charter school, approved private day or residential school and collaborative school at least once every 4 years. The survey shall be designed to protect student privacy and allow for anonymous participation by students.

The school official identified in the plan as responsible for receiving reports of bullying or retaliation shall verify the completion of the student surveys. All completed surveys shall be forwarded to the department. The department shall use the survey results to help assess the effectiveness of bullying prevention curricula and instruction developed and administered under subsection (c). The department shall collect and analyze the student survey data in order to: compare the survey results with the bullying incident data reported under subsection (k); identify long-term trends and areas of improvement; and monitor bullying prevention efforts in schools over time. The department shall make its findings available to the school official.

**REGULATIONS**

**603 CMR 46.03: Procedures and training.**

(1) Procedures. Public education programs shall develop written procedures regarding appropriate responses to student behavior that may require immediate intervention. Such procedures shall be annually reviewed and provided to school staff and made available to parents of enrolled students.

**603 CMR 53.14. Student suspension and expulsion data collection and reporting.**

(1) Every school district, charter school, and virtual school shall collect and annually report data to the Department regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals under 603 CMR 53.07, access to education services under 603 CMR 53.13, and such other information as may be required by the Department. Such data shall be reported in a manner and form directed by the Department.

(2) The principal of each school shall periodically review discipline data by selected student populations, including but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status. In reviewing the data, the principal shall assess the extent of
in-school suspensions, short- and long-term suspensions, expulsions, and emergency removals under 603 CMR 53.07, and the impact of such disciplinary action on selected student populations. The principal shall further determine whether it is necessary or appropriate to modify disciplinary practices due to over-reliance on expulsion, in-school or out-of-school suspension, or emergency removals, or the impact of such suspensions, removals, and expulsions on selected student populations compared with other students.

(3) In the fall of each year, the Department shall publish an analysis and report of student discipline data disaggregated by district and school, and by selected student populations, included but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status. The data shall be reported in a manner that protects the identity of each student and shall be made available to the public online in a machine readable format.

(4) The Department shall annually determine the schools with the highest percentage of students expelled or placed on long-term suspension for more than ten (10) cumulative days in a school year. After review of the discipline data described in 603 CMR 53.14(3) and other relevant school and district information, including but not limited to student demographics, student performance, promotion, attendance, attrition, graduation, and dropout rates, the Commissioner shall identify schools that need assistance to reduce over-reliance on long-term suspension or expulsion as a consequence for student misconduct. The Department shall identify models that such schools may use to incorporate intermediate steps before long-term suspension and expulsion and to foster positive school climate.

Through use of statistical analysis, the Commissioner shall identify schools and districts with data that reflect significant disparities in the rate of suspension and expulsion by race and ethnicity, or disability. Such schools and districts shall develop and implement a plan approved by the Department to address such significant disparities.

(a) Subject to appropriation, each city, town, regional school district, charter school or vocational school district shall utilize a verbal screening tool to screen pupils for substance use disorders. Screenings shall occur on an annual basis and occur at 2 different grade levels as recommended by the department of elementary and secondary education, in consultation with the department of public health. Parents or guardians of a pupil to be screened pursuant to this section shall be notified prior to the start of the school year. **Part I. Title 12. Chapter 69. Section 1N. Alternative education grant program.**

(a) The department of education, hereinafter referred to as the department, shall establish a grant program, subject to appropriation, to be known as the alternative education grant program for the purpose of providing grants to assist school districts and Horace Mann and commonwealth charter schools with the development and establishment of alternative education programs and services to students suspended or expelled from school. The grants shall support the development of alternative education programs which would:

(1) allow school districts to coordinate efforts to establish interdistrict regional alternative education collaboratives to provide educational services to suspended or expelled students; or

(2) establish a district based alternative education program for those students. The grants may also be used to encourage the use of technology in alternative education programs.

The grants shall also encourage voluntary expansion of existing alternative education programs in the commonwealth, and shall be used to provide alternative education programs for students who are at risk of educational failure due to truancy, or dropping out of school. Grants may also be used to assist in developing programs that provide a range of approaches to address behavior issues, such as behavior specialists, in-school suspension rooms and crisis centers, in addition to out-of-school alternative settings.

Programs designed under the grants shall be developed at the middle and high school levels and shall afford students the opportunity to earn a high school diploma in accordance with section 1D, and to be taught to the same academic standards and curriculum frameworks established for all students in accordance with sections 1D and 1E. The programs shall make use of existing resources in school districts, educational collaboratives, community colleges, and other agencies, service providers, and organizations. Programs shall be designed as placements that, at a minimum, educate students to the same academic standards and curriculum frameworks as taught to all students, address behavioral problems, utilize small class size, address individual needs and learning styles, provide engaging instruction and a supportive environment, and, where appropriate, utilize flexible scheduling. The programs shall also provide a comprehensive array of social services to support a student's remediation of issues that cause school failure, excessive absenteeism, truancy and school dropout. Grant recipients shall develop remediation plans for students that address both academic and behavioral issues. Grants may also be made available for in-school regular education programs that include self-improvement, behavior management and life skills training to help provide students with tools to better manage their lives and attitudes, to support programs that use family-based approaches, and to assist students and teachers during the transition of students back into regular education classrooms.
A grant awarded pursuant to this subsection, shall require that recipients undertake ongoing program evaluations that document the effectiveness of the program in helping students to achieve academically to the same academic standards and curriculum frameworks required for all students, to develop self-management skills, and to reintegrate and remain in regular education classrooms. In awarding grants, priority shall be given to programs that employ interventions that have been empirically validated.

The department shall establish guidelines governing the alternative education grant program. The guidelines shall include, but not be limited to, a requirement that when a student is transferred to an alternative education program a representative of the school district shall meet with the student and the student’s parents or legal guardian to develop an agreement that specifies the responsibilities of the school, the student and the student’s parents or legal guardian. The agreement shall, at a minimum, include:

1. a remediation plan to address both academic and behavioral issues;
2. a plan for frequent evaluations and assessments of the student’s adjustment, and academic achievement and progress;
3. a requirement that the parents or legal guardian of the student attend specified meetings or conferences with teachers, or utilize such other means of communication as determined necessary to facilitate communication, to review and assist in the student’s progress;
4. a timetable for reintegrating the student into a regular education classroom;
5. the student’s and the parents’ or legal guardian’s acknowledgement that they understand and accept the responsibilities imposed by the agreement.

(b) The department shall establish a grant program, subject to appropriation, to assist school districts with the development and establishment of in-school regular education programs and services to address within the regular education school program the educational and psycho-social needs of children whose behavior interferes with learning, particularly those who are suffering from the traumatic effects of exposure to violence. As used in this subsection, students suffering from the traumatic effects of exposure to violence shall include, but not be limited to, those exposed to abuse, family or community violence, war, homelessness or any combination thereof. The grants shall support the development of school based teams with community ties that:

1. collaborate with broadly recognized experts in the fields of trauma and family and community violence and with battered women shelters;
2. provide ongoing training to inform and train teachers, administrators, and other school personnel to understand and identify the symptoms and trauma; and
3. evaluate school policy and existing school and community programs and services to determine whether and to what extent students identified as suffering from exposure to trauma can receive effective supports and interventions that can help them to succeed in their public school programs, and where necessary be referred quickly and confidentially to appropriate services.

Grants may also be awarded to assist school districts in developing comprehensive programs to help prevent violence in schools, from whatever causes, and to promote school safety. The programs shall be designed to meet the following objectives: creating a school environment where students feel safe and that prevents problems from starting; helping students to take the lead in keeping the school safe; ensuring that school personnel have the skills and resources to identify and intervene with at-risk students; equipping students and teachers with the skills needed to avoid conflict and violence; and helping schools and individuals to reconnect with the community and share resources.

The department shall develop guidelines governing the implementation of the grant program authorized by this subsection. A grant awarded pursuant to this subsection shall require that recipients undertake
ongoing evaluations of the effectiveness of the program. In awarding grants, priority shall be given to programs that are based on empirically validated interventions.

The department of education, in consultation with the department of public health and the department of mental health, shall establish an advisory committee to assist in implementing the grant program and in assisting public schools in addressing the learning and behavior problems of students who manifest trauma-related symptoms or classroom behavior that interferes with learning. Members of the advisory committee shall include but not be limited to: 3 educators, 1 of whom shall serve as the chair, appointed by the commissioner of the department of education; 2 leaders in the field of trauma and its relationship to school learning and behavior appointed by the commissioner of the department of public health; 2 leaders in mental health with expertise in family and/or community violence appointed by the commissioner of mental health; 1 leader in battered women’s services appointed by the commissioner of public health; 1 leader in the area of homelessness and its impact on children appointed by commissioner of mental health; and 3 parents, 1 each appointed by the commissioner of education, the commissioner of public health, the commissioner of mental health. The advisory committee, at its discretion, may select additional members with relevant experience including but not limited to child advocates, medical doctors and representatives of juvenile and probate court.

(c) The commissioner shall evaluate annually the effectiveness of programs established under this section including the potential for replicating such programs throughout the commonwealth. The annual evaluation shall also examine whether students in alternative education programs funded under this section are being taught to the same academic standards required for all students, how much time students are spending in the programs, the racial profile of expelled or suspended students and the percentages of the students who are in special education or bilingual education. The commissioner shall also provide technical assistance to school districts seeking to replicate programs funded under this section, and shall provide training for teachers in the development of effective remediation plans for students in alternative education, and in the development of skills, techniques, and innovative strategies to assist the students. In evaluating programs funded under subsection (b), the commissioner shall consult with the department of public health, the department of mental health, and the advisory committee established pursuant to said subsection (b).

Compilation of School Discipline Laws and Regulations

Prepared: January 31, 2020
Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

Notes & Disclaimers
To the best of the preparer’s knowledge, this Compilation of School Discipline Laws and Regulations is complete and current as of January 2020. Readers should also note that the information in this document was compiled from individual sources that are created by each jurisdiction and which are maintained and updated with varying frequencies. Readers should consult the source information provided directly in order to check for updates to laws and regulations reported in this document or to conduct further research.

For further information, including definitions of the different policy categories, please refer to the Discipline Laws and Regulations Compendium posted on the Center’s website.

LAWS

380.1309. Conduct constituting suspension; action by teacher; report; supervision; conference; return by student; adoption of local policy by school board; definitions.
(1) If a teacher in a public school has good reason to believe that a pupil's conduct in a class, subject, or activity constitutes conduct for which the pupil may be suspended from a class, subject, or activity according to the local policy required under subsection (2), the teacher may cause the pupil to be suspended from the class, subject, or activity for up to 1 full school day. The teacher shall immediately report the suspension and the reason for the suspension to the school principal and send the pupil to the school principal or the school principal's designee for appropriate action. If that action requires the continued presence of the pupil at school, the pupil shall be under appropriate supervision. As soon as possible after a suspension under this section, the teacher shall ask the parent or guardian of the pupil to attend a parent-teacher conference regarding the suspension. Whenever practicable, a school counselor, school psychologist, or school social worker shall attend the conference. During a suspension under this section, the pupil shall not be returned that school day to the class, subject, or activity from which he or she was suspended without the concurrence of the teacher of the class, subject, or activity and the school principal.
(2) A school board shall adopt a local policy specifying the types of conduct for which a pupil may be suspended from a class, subject, or activity by a teacher under this section. This policy shall be included in the school board's code of student conduct.

Alternatives to suspension

LAWS

380.1310c. Restorative practices as alternative or in addition to suspension or expulsion; definitions.
(1) A school board or its designee shall consider using restorative practices as an alternative or in addition to suspension or expulsion under this act. If a school board or its designee suspends or expels a pupil under this act, the school board or its designee shall consider using restorative practices in addition
to suspension or expulsion. If a school board or its designee decides not to suspend or expel a pupil for a disciplinary issue, the school board or its designee shall consider using restorative practices to address the disciplinary issue.

(2) Restorative practices may include victim-offender conferences that are initiated by the victim; that are approved by the victim's parent or legal guardian or, if the victim is at least age 15, by the victim; that are attended voluntarily by the victim, a victim advocate, the offender, members of the school community, and supporters of the victim and the offender; and that provide an opportunity for the offender to accept responsibility for the harm caused to those affected by the misconduct and to participate in setting consequences to repair the harm. The attendees, known as a restorative practices team, may require the pupil to do 1 or more of the following: apologize; participate in community service, restoration, or counseling; or pay restitution. The selected consequences shall be incorporated into an agreement that sets time limits for completion of the consequences and is signed by all participants. Restorative practices should be the first consideration to remediate offenses such as interpersonal conflicts, bullying, verbal and physical conflicts, theft, damage to property, class disruption, and harassment and cyberbullying.

(3) As used in this section:
   (a) "Bullying" and "cyberbullying" mean those terms as defined in section 1310b.
   (b) "Restorative practices" means practices that emphasize repairing the harm to the victim and the school community caused by a pupil's misconduct.
   (c) "School board" means a school board, intermediate school board, or the board of directors of a public school academy.
   (d) "School district" means a school district, an intermediate school district, or a public school academy.

380.1310d. Suspension or expulsion of pupil; factors; exercise of discretion; rebuttable presumption; section inapplicable for possession of firearm in weapon free school zone; consideration of factors mandatory; definitions.
(1) Before suspending or expelling a pupil under section 1310, 1311(1), 1311(2), or 1311a, the board of a school district or intermediate school district or board of directors of a public school academy, or a superintendent, school principal, or other designee under section 1311(1), shall consider each of the following factors:
   (a) The pupil's age.
   (b) The pupil's disciplinary history.
   (c) Whether the pupil is a student with a disability.
   (d) The seriousness of the violation or behavior committed by the pupil.
   (e) Whether the violation or behavior committed by the pupil threatened the safety of any pupil or staff member.
   (f) Whether restorative practices will be used to address the violation or behavior committed by the pupil.
   (g) Whether a lesser intervention would properly address the violation or behavior committed by the pupil.

(2) Except as provided in subsection (3), this section applies to give the board of a school district or intermediate school district or board of directors of a public school academy, or its designee, discretion over whether or not to suspend or expel a pupil under section 1310, 1311(1), 1311(2), or 1311a. In exercising this discretion with regard to a suspension of more than 10 days or an expulsion, there is a rebuttable presumption that a suspension or expulsion is not justified unless the board or board of directors, or its designee, can demonstrate that it considered each of the factors listed under subsection
(1). For a suspension of 10 or fewer days, there is no rebuttable presumption, but the board or board of directors, or its designee, shall consider each of the factors listed under subsection (1).

(3) This section does not apply to a pupil being expelled under section 1311(2) for possessing a firearm in a weapon free school zone.

(4) Except as provided in subsection (3), consideration of the factors listed in subsection (1) is mandatory before suspending or expelling a student under section 1310, 1311(1), 1311(2), or 1311a. The method used for consideration of the factors is at the sole discretion of the board of a school district or intermediate school district or board of directors of a public school academy, or its designee.

(5) As used in this section:
   (a) “Expel” means to exclude a pupil from school for disciplinary reasons for a period of 60 or more school days.
   (b) “Firearm” means that term as defined in section 1311.
   (c) “Suspend” means to exclude a pupil from school for disciplinary reasons for a period of fewer than 60 school days.
   (d) “Weapon free school zone” means that term as defined in section 1311.

Use of corporal punishment

LAWS

380.1312. “Corporal punishment” defined; infliction of corporal punishment by employee, volunteer, or contractor; exercise of necessary reasonable physical force; liability; violation; deference given to reasonable good-faith judgments; development, implementation, and enforcement of code of student conduct; model list of alternatives to use of corporal punishment; authority permitting corporal punishment void.

(1) As used in this section, “corporal punishment” means the deliberate infliction of physical pain by hitting, paddling, spanking, slapping, or any other physical force used as a means of discipline.

(2) Corporal punishment does not include physical pain caused by reasonable physical activities associated with athletic training.

(3) A person employed by or engaged as a volunteer or contractor by a local or intermediate school board or public school academy shall not inflict or cause to be inflicted corporal punishment upon any pupil under any circumstances.

(4) A person employed by or engaged as a volunteer or contractor by a local or intermediate school board or public school academy may use reasonable physical force upon a pupil as necessary to maintain order and control in a school or school-related setting for the purpose of providing an environment conducive to safety and learning. In maintaining that order and control, the person may use physical force upon a pupil as may be necessary for 1 or more of the following:
   (a) To restrain or remove a pupil whose behavior is interfering with the orderly exercise and performance of school district or public school academy functions within a school or at a school-related activity, if that pupil has refused to comply with a request to refrain from further disruptive acts.
   (b) For self-defense or the defense of another.
   (c) To prevent a pupil from inflicting harm on himself or herself.
(d) To quell a disturbance that threatens physical injury to any person.
(e) To obtain possession of a weapon or other dangerous object upon or within the control of a pupil.
(f) To protect property.

(5) A person employed by or engaged as a volunteer or contractor by a local or intermediate school board or public school academy who exercises necessary reasonable physical force upon a pupil, or upon another person of school age in a school-related setting, as described in subsection (4) is not liable in a civil action for damages arising from the use of that physical force and is presumed not to have violated subsection (3) by the use of that physical force. This subsection does not alter or limit a person's immunity from liability provided under 1964 PA 170, MCL 691.1401 to 691.1415.

(6) A person who willfully or through gross negligence violates subsection (3) or who willfully or through gross negligence violates subsection (4) may be appropriately disciplined by his or her school board or public school academy. This subsection does not limit a school board's or public school academy's authority to discipline an employee for a violation of its own policies.

(7) In determining whether an employee, volunteer, or contractor has acted in accordance with subsection (4), deference shall be given to reasonable good-faith judgments made by that person.

(9) The department shall develop a model list of alternatives to the use of corporal punishment. This model list shall be developed in consultation with organizations that represent the interests of teachers, school employees, school boards, school administrators, pupils, parents, and child advocates, plus any other organization that the state board of education may wish to consult. The department shall send this model list to each school district, public school academy, and intermediate school district in the state and to each nonpublic school in the state that requests it. A local or intermediate school board or public school academy shall approve and cause to be distributed to each employee, volunteer, and contractor a list of alternatives to the use of corporal punishment. Upon request, the department of education shall provide assistance to schools in the development of programs and materials to implement this section.

(10) Any resolution, bylaw, rule, policy, ordinance, or other authority permitting corporal punishment is void.

(1) A pupil who uses a locker that is the property of a school district, local act school district, intermediate school district, or public school academy is presumed to have no expectation of privacy in that locker or that locker's contents.

(2) If the board of a school district, local act school district, or intermediate school district or board of directors of a public school academy operates a school that has pupil lockers, then not later than 180 days after the effective date of this section the board or board of directors shall adopt a policy on searches of pupils' lockers and locker contents. This policy shall provide that, in the course of a search conducted pursuant to the policy, the privacy rights of the pupil shall be respected regarding any items that are not illegal or against school policy. The board or board of directors shall provide a copy of this policy to each pupil at a school that has lockers and to the parent or legal guardian of each of those
pupils. The board or board of directors shall also provide a copy of the policy to the department upon request by the department.

(3) A public school principal or his or her designee may search a pupil's locker and the locker's contents at any time in accordance with the policy under subsection (2).

(4) A law enforcement agency having jurisdiction over the school may assist school personnel in conducting a search of a pupil's locker and the locker's contents if that assistance is at the request of the school principal or his or her designee and the search is conducted in accordance with the policy under subsection (2).

(5) Not later than 90 days after the effective date of this section, the superintendent of public instruction shall develop and make available a model policy on searches of pupils' lockers and locker contents that may be adopted for the purposes of this section.

(6) Any evidence obtained as a result of a search of a pupil's locker or locker's contents shall not be inadmissible in any court or administrative proceedings because the search violated this section, violated the policy under subsection (2), or because no policy was adopted.

If a school board or its designee suspends or expels a pupil under this act, the school board or its designee shall consider using restorative practices in addition to suspension or expulsion. If a school board or its designee decides not to suspend or expel a pupil for a disciplinary issue, the school board or its designee shall consider using restorative practices to address the disciplinary issue.

(2) Restorative practices may include victim-offender conferences that are initiated by the victim; that are approved by the victim's parent or legal guardian or, if the victim is at least age 15, by the victim; that are attended voluntarily by the victim, a victim advocate, the offender, members or the school community, and supporters of the victim and the offender; and that provide an opportunity for the offender to accept responsibility for the harm caused to those affected by the misconduct and to participate in setting consequences to repair the harm. The attendees, known as a restorative practices team, may require the pupil to do 1 or more of the following: apologize; participate in community service, restoration, or counseling; or pay restitution. The selected consequences shall be incorporated into an agreement that sets time limits for completion of the consequences and is signed by all participants. Restorative practices should be the first consideration to remediate offenses such as interpersonal conflicts, bullying, verbal and physical conflicts, theft, damage to property, class disruption, and harassment and cyberbullying.

In exercising this discretion with regard to a suspension of more than 10 days or an expulsion, there is a rebuttable presumption that a suspension or expulsion is not justified unless the board or board of directors, or its designee, can demonstrate that it considered each of the factors listed under subsection (1). For a suspension of 10 or fewer days, there is no rebuttable presumption, but the board or board of directors, or its designee, shall consider each of the factors listed under subsection (1).

(c) It is the responsibility of the parent or legal guardian or, if the individual is at least age 18 or is an emancipated minor, of the individual to prepare and submit the petition. A school board is not required to provide any assistance in preparing the petition. Upon request by a parent or legal guardian or, if the individual is at least age 18 or is an emancipated minor, by the individual, a school board shall make available a form for a petition.

(d) Not later than 10 school days after receiving a petition for reinstatement under this subsection, a school board shall appoint a committee to review the petition and any supporting information submitted by the parent or legal guardian or, if the individual is at least age 18 or is an emancipated minor, by the individual. (ii) The extent to which reinstatement of the individual would create a risk of school district liability or individual liability for the school board or school district personnel.

(iii) The age and maturity of the individual.

(iv) The individual's school record before the incident that caused the expulsion.

(v) The individual's attitude concerning the incident that caused the expulsion.

The decision of the school board is final.

(g) A school board may require an individual and, if the petition was filed by a parent or legal guardian, his or her parent or legal guardian to agree in writing to specific conditions before reinstating the individual in a conditional reinstatement. The conditions may include, but are not limited to, agreement to a behavior contract, which may involve the individual, parent or legal guardian, and an outside agency; participation in or completion of an anger management program or other appropriate counseling; periodic progress reviews; and specified immediate consequences for failure to abide by a condition. A parent or legal guardian or, if the individual is at least age 18 or is an emancipated minor, the individual may include proposed conditions in a petition for reinstatement submitted under this subsection.

(9) This section does not diminish any rights under federal law of a pupil who has been determined to be eligible for special education programs and services.

(10) If a pupil expelled from a public school district under subsection (2) is enrolled by a public school district sponsored alternative education program or a public school academy during the period of expulsion, the public school academy or alternative education program shall immediately become eligible for the prorated share of either the public school academy or operating school district's foundation allowance or the expelling school district's foundation allowance, whichever is higher.

(11) If an individual is expelled under subsection (2), it is the responsibility of that individual and of his or her parent or legal guardian to locate a suitable alternative educational program and to enroll the individual in such a program during the expulsion. In exercising this discretion with regard to a suspension of more than 10 days or an expulsion, there is a rebuttable presumption that a suspension or expulsion is not justified unless the board or board of directors, or its designee, can demonstrate that it considered each of the factors listed under subsection (1). For a suspension of 10 or fewer days, there is no rebuttable presumption, but the board or board of directors, or its designee, shall consider each of the factors listed under subsection (1).

(3) This section does not apply to a pupil being expelled under section 1311(2) for possessing a firearm in a weapon free school zone.

380.1311. Suspension or expulsion of pupil.

(1) Subject to subsection (2), the school board, or the school district superintendent, a school building principal, or another school district official if designated by the school board, may authorize or order the suspension or expulsion from school of a pupil who commits criminal sexual conduct against another pupil enrolled in the same school district or a pupil guilty of gross misdemeanor or persistent disobedience if, in the judgment of the school board or its designee, as applicable, the interest of the school is served by the authorization or order. If there is reasonable cause to believe that the pupil is a student with a disability, and the school district has not evaluated the pupil in accordance with rules of the superintendent of public instruction to determine if the pupil is a student with a disability, the pupil shall be evaluated immediately by the intermediate school district of which the school district is constituent in accordance with section 1711.

(2) Subject to subsection (3) and section 1310d, if a pupil possesses in a weapon free school zone a weapon that constitutes a dangerous weapon, commits arson in a school building or on school grounds, commits criminal sexual conduct in a school building or on school grounds, or pleads to, is convicted of, or is adjudicated for criminal sexual conduct against another pupil enrolled in the same school district, the school board, or the designee of the school board as described in subsection (1) on behalf of the school board, shall expel the pupil from the school district permanently, subject to possible reinstatement under subsection (6). (d) The weapon was possessed by the pupil at the suggestion, request, or direction of, or with the express permission of, school or police authorities.

(a) The school board or its designee determines in writing that at least 1 of the factors listed in subsection (2)(a) to (d) has been established in a clear and convincing manner.

(b) The pupil has no history of suspension or expulsion.

(4) If an individual is expelled under subsection (2), the expelling school district shall enter on the individual's permanent record that he or she has been expelled under subsection (2). (d) A requirement that school personnel shall call key identified personnel for help from within the school building either immediately at the onset of an emergency situation or, if it is reasonable under the particular circumstances for school personnel to believe that diverting their attention to calling for help would increase the risk to the safety of the pupil or to the safety of others, as soon as possible once the circumstances no longer support such a belief.
(e) A requirement that the school district, intermediate school district, or public school academy must ensure that substitute teachers are informed of and understand the procedures regarding use of emergency seclusion and emergency physical restraint. This requirement may be satisfied using online
training and an online acknowledgment of understanding developed or approved by the department and completed by the substitute teacher.

(f) Emergency seclusion should not be used any longer than necessary, based on research and evidence, to allow a pupil to regain control of his or her behavior to the point that the emergency situation necessitating the use of emergency seclusion is ended and generally no longer than 15 minutes for an elementary school pupil or 20 minutes for a middle school or high school pupil. Emergency physical restraint does not include physical restraint that is used for the convenience of school personnel, as a substitute for an educational program, as a form of discipline or punishment, as a substitute for less restrictive alternatives, as a substitute for adequate staffing, or as a substitute for school personnel training in positive behavioral intervention and support. (k) "Positive behavioral intervention and support" means a framework to assist school personnel in adopting and organizing evidence-based behavioral interventions into an integrated continuum of intensifying supports based on pupil need that unites examination of the function of the problem behavior and the teaching of alternative skill repertoires to enhance academic and social behavior outcomes for all pupils.

to the pupil, guidance or instruction for the pupil to use new skills as a replacement for problem behaviors, some rearrangement of the antecedent environment so that problems can be prevented and desirable behaviors can be encouraged, and procedures for monitoring, evaluating, and modifying the plan as necessary.

Introduction
This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

121A.031. School student bullying policy.
3. Local district and school policy.
   (a) Districts and schools, in consultation with students, parents, and community organizations, to the extent practicable, shall adopt, implement, and, on a cycle consistent with other district policies, review, and revise where appropriate, a written policy to prevent and prohibit student bullying consistent with this section. The policy must conform with sections 121A.41 to 121A.56. A district or school must adopt and implement a local policy under subdivisions 3 to 5 or comply with the provisions of the state model policy in subdivision 6.

121A.55. Policies to be established.
(a) The commissioner of education shall promulgate guidelines to assist each school board to establish uniform criteria for dismissal and adopt written policies and rules to effectuate sections 121A.031 and 121A.40. to 121A.56. The policies shall emphasize preventing dismissals through early detection of problems and be designed to prevent students' inappropriate behavior from recurring. The policies shall recognize the continuing responsibility of the school to educate the pupil during the dismissal period. The alternative educational services, if the pupil wishes to take advantage of them, must be adequate to allow the pupil to make progress towards meeting the graduation standards adopted under section 120B.02 and help prepare the pupil for readmission.
(b) An area learning center under section 123A.05 may not prohibit an expelled or excluded pupil from enrolling solely because a district expelled or excluded the pupil. The board of the area learning center may use the provisions of the Pupil Fair Dismissal Act to exclude a pupil or to require an admission plan.
(c) Each school district shall develop a policy and report it to the commissioner on the appropriate use of peace officers and crisis teams to remove students who have an individualized education program from school grounds.

121A.61. Discipline and removal of students from class.
1. Required policy. Each school board must adopt a written districtwide school discipline policy which includes written rules of conduct for students, minimum consequences for violations of the rules, and grounds and procedures for removal of a student from class. The policy must be developed in consultation with administrators, teachers, employees, pupils, parents, community members, law enforcement agencies, county attorney offices, social service agencies, and such other individuals or organizations as the board determines appropriate. A school site council may adopt additional provisions to the policy subject to the approval of the school board.

121A.69. Hazing policy.
3. School board policy. Each school board shall adopt a written policy governing student or staff hazing. The policy must apply to student behavior that occurs on or off school property and during and after school hours and be consistent with section 121A.031. The policy must include reporting procedures and disciplinary consequences for violating the policy. Disciplinary consequences must be sufficiently severe to deter violations and appropriately discipline prohibited behavior. Disciplinary consequences must
conform with sections 121A.031 and 121A.41. to 121A.56. Each school must include the policy in the student handbook on school policies.

   "School lockers are the property of the school district. At no time does the school district relinquish its exclusive control of lockers provided for the convenience of students. Inspection of the interior of lockers
may be conducted by school authorities for any reason at any time, without notice, without student consent, and without a search warrant. The personal possessions of students within a school locker may be searched only when school authorities have a reasonable suspicion that the search will uncover evidence of a violation of law or school rules. As soon as practicable after the search of a student's personal possessions, the school authorities must provide notice of the search to students whose lockers were searched unless disclosure would impede an ongoing investigation by police or school officials."

2. Dissemination. The locker policy must be disseminated to parents and students in the way that other policies of general application to students are disseminated. A copy of the policy must be provided to a student the first time that the student is given the use of a locker.

The grounds in the policy must include at least the following provisions as well as other grounds determined appropriate by the board:

(r) A provision that states a student must be removed from class immediately if the student engages in assault or violent behavior. 121A.70. Secret fraternities and societies.

2. Penalties. A school board may suspend or dismiss any pupil from school, or prevent the pupil from graduating or participating in school honors when, after investigation, in the judgment of the board or a majority of its membership, the pupil is guilty of violating any of the provisions of this section or is guilty of violating any rule or regulation adopted by the board for the purpose of governing its schools, or enforcing this section.

122A.627. Positive behavioral interventions and supports.

"Positive behavioral interventions and supports" or "PBIS" means an evidence-based framework for preventing problem behavior, providing instruction and support for positive and prosocial behaviors, and supporting social, emotional, and behavioral needs for all students. Schoolwide implementation of PBIS requires training, coaching, and evaluation for school staff to consistently implement the key components that make PBIS effective for all students, including:

(1) Establishing, defining, teaching, and practicing three to five positively stated schoolwide behavioral expectations that are representative of the local community and cultures;

(2) Developing and implementing a consistent system used by all staff to provide positive feedback and acknowledgment for students who display schoolwide behavioral expectations;
(3) Developing and implementing a consistent and specialized support system for students who do not display behaviors representative of schoolwide positive expectations;

(4) Developing a system to support decisions based on data related to student progress, effective implementation of behavioral practices, and screening for students requiring additional behavior supports;

(5) Using a continuum of evidence-based interventions that is integrated and aligned to support academic and behavioral success for all students; and

(6) Using a team-based approach to support effective implementation, monitor progress, and evaluate outcome

Consistent with section 120B.232, subdivision 1, character education curriculum and programs may be used to support implementation of the key components of PBIS.

REGULATIONS

3525.0850. Behavior interventions.

This policy is intended to encourage the use of positive approaches to behavioral interventions. The objective of any behavioral intervention must be that pupils acquire appropriate behaviors and skills. It is critical that behavioral intervention programs focus on skills acquisition rather than merely behavior reduction or elimination. Behavioral intervention policies, programs, or procedures must be designed to enable a pupil to benefit from an appropriate, individualized educational program as well as develop skills to enable them to function as independently as possible in their communities.
Out-of-School and Exclusionary Discipline: Suspensions, Expulsion, Restraint and Seclusion, and Alternative Placements

Grounds for possible suspension or expulsion

LAWS

121A.45. Grounds for dismissal.
1. Provision of alternative programs. No school shall dismiss any pupil without attempting to provide alternative educational services before dismissal proceedings, except where it appears that the pupil will create an immediate and substantial danger to self or to surrounding persons or property.
2. Grounds for dismissal. A pupil may be dismissed on any of the following grounds:
   (a) Willful violation of any reasonable school board regulation. Such regulation must be clear and definite to provide notice to pupils that they must conform their conduct to its requirements;
   (b) Willful conduct that significantly disrupts the rights of others to an education, or the ability of school personnel to perform their duties, or school sponsored extracurricular activities; or
   (c) Willful conduct that endangers the pupil or other pupils, or surrounding persons, including school district employees, or property of the school.
3. Parent notification and meeting. If a pupil's total days of removal from school exceeds ten cumulative days in a school year, the school district shall make reasonable attempts to convene a meeting with the pupil and the pupil's parent or guardian before subsequently removing the pupil from school and, with the permission of the parent or guardian, arrange for a mental health screening for the pupil. The district is not required to pay for the mental health screening. The purpose of this meeting is to attempt to determine the pupil's need for assessment or other services or whether the parent or guardian should have the pupil assessed or diagnosed to determine whether the pupil needs treatment for a mental health disorder.

121A.61. Discipline and removal of students from class.
1. Required policy. Each school board must adopt a written districtwide school discipline policy which includes written rules of conduct for students, minimum consequences for violations of the rules, and grounds and procedures for removal of a student from class. A school site council may adopt additional provisions to the policy subject to the approval of the school board.
2. Grounds for removal from class. The policy must establish the various grounds for which a student may be removed from a class in the district for a period of time under the procedures specified in the policy. The policy must include a procedure for notifying and meeting with a student's parent or guardian to discuss the problem that is causing the student to be removed from class after the student has been removed from class more than ten times in one school year. The grounds in the policy must include at least the following provisions as well as other grounds determined appropriate by the board:

121A.69. Hazing policy.
1. Definitions.
   (a) “Hazing” means committing an act against a student, or coercing a student into committing an act, that creates a substantial risk of harm to a person in order for the student to be initiated into or affiliated with a student organization.
   (b) "Student organization" means a group, club, or organization having students as its primary members or participants.
2. Model policy. The commissioner of education shall maintain and make available to school boards a model policy on student or staff hazing that addresses the requirements of subdivision 3.
3. School board policy. Each school board shall adopt a written policy governing student or staff hazing. The policy must apply to student behavior that occurs on or off school property and during and after school hours and be consistent with section 121A.031. The policy must include reporting procedures and disciplinary consequences for violating the policy. Disciplinary consequences must be sufficiently severe to deter violations and appropriately discipline prohibited behavior. Disciplinary consequences must conform with sections 121A.031 and 121A.41 to 121A.56. Each school must include the policy in the student handbook on school policies.

121A.70. Secret fraternities and societies.

It is unlawful for any pupil, registered and attending any public school to join, become a member of, or to solicit any other pupil of any public school to join, or become a member of, any secret fraternity or society wholly or partially formed from the membership of pupils attending any public schools or to take part in the organization or formation of any fraternity or society, except societies or associations sanctioned by the district school board.
2. Penalties. A school board may suspend or dismiss any pupil from school, or prevent the pupil from graduating or participating in school honors when, after investigation, in the judgment of the board or a majority of its membership, the pupil is guilty of violating any of the provisions of this section or is guilty of violating any rule or regulation adopted by the board for the purpose of governing its schools, or enforcing this section.

(a) Notwithstanding the time limitation in section 121A.41, subdivision 5, a school board must expel for a period of at least one year a pupil who is determined to have brought a firearm to school except the board may modify this expulsion requirement for a pupil on a case-by-case basis. For the purposes of this section, firearm is as defined in United States Code, title 18, section 921.
(b) Notwithstanding chapter 13, a student's expulsion or withdrawal or transfer from a school after an expulsion action is initiated against the student for a weapons violation under paragraph (a) may be

Limitations, conditions or exclusions for use of suspension and expulsion

LAWS

121A.41. Definitions.
10. “Suspension” means an action by the school administration, under rules promulgated by the school board, prohibiting a pupil from attending school for a period of no more than ten school days. If a suspension is longer than five days, the suspending administrator must provide the superintendent with a reason for the longer suspension. This definition does not apply to dismissal from school for one school day or less, except as provided in federal law for a student with a disability. Each suspension action may include a readmission plan. The readmission plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission and may not be used to extend the current suspension. Consistent with section 125A.091, subdivision 5, the readmission plan must not obligate a parent to provide a sympathomimetic medication for the parent's child as a condition of readmission. The school administration may not impose consecutive suspensions against the same pupil for the same course of conduct, or incident of misconduct, except where the pupil will create an immediate and substantial danger to self or to surrounding persons or property, or where the district is in the process of initiating an expulsion, in which case the school administration may extend the suspension to a total of 15 school days.

121A.43. Exclusion and expulsion of pupils with a disability.
(a) Consistent with federal law governing days of removal and section 121A.46, school personnel may suspend a child with a disability. When a child with a disability has been suspended for more than five consecutive school days or ten cumulative school days in the same school year, and that suspension does not involve a recommendation for expulsion or exclusion or other change of placement under federal law, relevant members of the child's individualized education program team, including at least one of the child's teachers, shall meet and determine the extent to which the child needs services in order to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals in the child's individualized education program. That meeting must occur as soon as possible, but no more than ten days after the sixth consecutive day of suspension or the tenth cumulative day of suspension has elapsed.
(b) A dismissal for one school day or less is a day or a partial day of suspension if the child with a disability does not receive regular or special education instruction during that dismissal period. The notice requirements under section 121A.46 do not apply to a dismissal of one day or less.
(c) A child with a disability shall be provided alternative educational services to the extent a suspension exceeds five consecutive school days.
(d) Before initiating an expulsion or exclusion under sections 121A.40. to 121A.56, the district, relevant members of the child's individualized education program team, and the child's parent shall, consistent with federal law, determine whether the child's behavior was caused by or had a direct and substantial
relationship to the child's disability and whether the child's conduct was a direct result of a failure to implement the child's individualized education program. When a child with a disability who has an individualized education program is excluded or expelled under sections 121A.40 to 121A.56 for misbehavior that is not a manifestation of the child's disability, the district shall continue to provide special education and related services during the exclusion or expulsion.

121A.44. Expulsion for possession of firearm.
(a) Notwithstanding the time limitation in section 121A.41, subdivision 5, a school board must expel for a period of at least one year a pupil who is determined to have brought a firearm to school except the board may modify this expulsion requirement for a pupil on a case-by-case basis. For the purposes of this section, firearm is as defined in United States Code, title 18, section 921.

121A.61. Discipline and removal of students from class.

Administrative procedures related to suspension and expulsion

LAWS

121A.40. Citation.
Sections 121A.40 to 121A.56 may be cited as the "Pupil Fair Dismissal Act."

121A.42. Policy.
No public school shall deny due process or equal protection of the law to any public school pupil involved in a dismissal proceeding which may result in suspension, exclusion, or expulsion.

121A.46. Suspension procedures.
1. Informal administrative conference before suspension. The school administration shall not suspend a pupil from school without an informal administrative conference with the pupil. The informal administrative conference shall take place before the suspension, except where it appears that the pupil will create an immediate and substantial danger to self or to surrounding persons or property, in which case the conference shall take place as soon as practicable following the suspension.

2. Administrator notifies pupil of grounds for suspension. At the informal administrative conference, a school administrator shall notify the pupil of the grounds for the suspension, provide an explanation of the evidence the authorities have, and the pupil may present the pupil's version of the facts.

3. Written notice of grounds for suspension. A written notice containing the grounds for suspension, a brief statement of the facts, a description of the testimony, a readmission plan, and a copy of sections 121A.40 to 121A.56, shall be personally served upon the pupil at or before the time the suspension is to take effect, and upon the pupil's parent or guardian by mail within 48 hours of the conference. The district shall make reasonable efforts to notify the parents of the suspension by telephone as soon as possible following suspension. In the event a pupil is suspended without an informal administrative conference on the grounds that the pupil will create an immediate and substantial danger to surrounding persons or
property, the written notice shall be served upon the pupil and the pupil's parent or guardian within 48 hours of the suspension. Service by mail is complete upon mailing.

4. Suspension pending expulsion or exclusion hearing. Notwithstanding the provisions of subdivisions 1 and 3, the pupil may be suspended pending the school board's decision in the expulsion or exclusion hearing; provided that alternative educational services are implemented to the extent that suspension exceeds five days.

**121A.47. Exclusion and expulsion procedures.**

1. Requiring a hearing; pupil may waive hearing. No exclusion or expulsion shall be imposed without a hearing, unless the right to a hearing is waived in writing by the pupil and parent or guardian. The action shall be initiated by the school board or its agent.

2. Written notice. Written notice of intent to take action shall:
   (a) Be served upon the pupil and the pupil's parent or guardian personally or by mail;
   (b) Contain a complete statement of the facts, a list of the witnesses and a description of their testimony;
   (c) State the date, time, and place of the hearing;
   (d) Be accompanied by a copy of sections 121A.40. to 121A.56;
   (e) Describe alternative educational services accorded the pupil in an attempt to avoid the expulsion proceedings; and
   (f) Inform the pupil and parent or guardian of the right to:
      (1) Have a representative of the pupil's own choosing, including legal counsel, at the hearing. The district shall advise the pupil's parent or guardian that free or low-cost legal assistance may be available and that a legal assistance resource list is available from the Department of Education;
      (2) Examine the pupil's records before the hearing;
      (3) Present evidence; and
      (4) Confront and cross-examine witnesses.

3. Hearing schedule. The hearing shall be scheduled within ten days of the service of the written notice unless an extension, not to exceed five days, is requested for good cause by the school board, pupil, parent or guardian.

4. Convenient time and place of hearing. The hearing shall be at a time and place reasonably convenient to pupil, parent or guardian.

5. Closed or open hearing. The hearing shall be closed unless the pupil, parent or guardian requests an open hearing.

6. Impartial hearer. The hearing shall take place before:
   (1) An independent hearing officer;
   (2) A member of the school board;
   (3) A committee of the school board; or
   (4) The full school board;

   As determined by the school board. The hearing shall be conducted in a fair and impartial manner.

7. Creating hearing record. The school board shall record the hearing proceedings at district expense, and a party may obtain a transcript at its own expense. Testimony shall be given under oath. The hearing officer or a member of the school board shall have the power to issue subpoenas and administer oaths.
8. Access to pupil's records. At a reasonable time prior to the hearing, the pupil, parent or guardian, or representative, shall be given access to all public school system records pertaining to the pupil, including any tests or reports upon which the proposed action may be based.

9. Pupil's right to compel testimony. The pupil, parent or guardian, or representative, shall have the right to compel the attendance of any official employee or agent of the public school system or any public employee or any other person who may have evidence upon which the proposed action may be based, and to confront and to cross-examine any witness testifying for the public school system.

10. Pupil's right to present evidence and testimony. The pupil, parent or guardian, or representative, shall have the right to present evidence and testimony, including expert psychological or educational testimony.

11. Pupil not compelled to testify. The pupil cannot be compelled to testify in the dismissal proceedings.

12. Hearer's recommendation limited to evidence at hearing; service within two days. The recommendation of the hearing officer or school board member or committee shall be based solely upon substantial evidence presented at the hearing and must be made to the school board and served upon the parties within two days of the end of the hearing.

13. Basis of school board decision; opportunity for comment. The school board shall base its decision upon the recommendation of the hearing officer or school board member or committee and shall render its decision at a meeting held within five days after receiving the recommendation. The school board may provide the parties with the opportunity to present exceptions and comments to the hearing officer’s recommendations provided that neither party presents any evidence not admitted at the hearing. The decision by the school board must be based on the record, must be in writing, and must state the controlling facts on which the decision is made in sufficient detail to apprise the parties and the commissioner of education of the basis and reason for the decision.

14. Admission or readmission plan.

(a) A school administrator shall prepare and enforce an admission or readmission plan for any pupil who is excluded or expelled from school. The plan may include measures to improve the pupil's behavior, including completing a character education program, consistent with section 120B.232, subdivision 1, and require parental involvement in the admission or readmission process, and may indicate the consequences to the pupil of not improving the pupil's behavior.

(b) The definition of suspension under section 121A.41, subdivision 10, does not apply to a student's dismissal from school for one school day or less, except as provided under federal law for a student with a disability. Each suspension action may include a readmission plan. A readmission plan must provide, where appropriate, alternative education services, which must not be used to extend the student's current suspension period. Consistent with section 125A.091, subdivision 5, a readmission plan must not obligate a parent or guardian to provide psychotropic drugs to their student as a condition of readmission. School officials must not use the refusal of a parent or guardian to consent to the administration of psychotropic drugs to their student or to consent to a psychiatric evaluation, screening or examination of the student as a ground, by itself, to prohibit the student from attending class or participating in a school-related activity, or as a basis of a charge of child abuse, child neglect or medical or educational neglect.

121A.48. Good faith exception.

A violation of the technical provisions of the Pupil Fair Dismissal Act, made in good faith, is not a defense to a disciplinary procedure under the act unless the pupil can demonstrate actual prejudice as a result of the violation.
121A.49. Appeal.
A party to an exclusion or expulsion decision made under sections 121A.40. to 121A.56 may appeal the decision to the commissioner of education within 21 calendar days of school board action. Upon being served with a notice of appeal, the district shall provide the commissioner and the parent or guardian with a complete copy of the hearing record within five days of its receipt of the notice of appeal. All written submissions by the appellant must be submitted and served on the respondent within ten days of its actual receipt of the transcript. All written submissions by the respondent must be submitted and served on the appellant within ten days of its actual receipt of the written submissions of the appellant. The decision of the school board must be implemented during the appeal to the commissioner.

In an appeal under this section, the commissioner may affirm the decision of the agency, may remand the decision for additional findings, or may reverse or modify the decision if the substantial rights of the petitioners have been prejudiced because the administrative findings, inferences, conclusions, or decisions are:

1. In violation of constitutional provisions;
2. In excess of the statutory authority or jurisdiction of the school district;
3. Made upon unlawful procedure, except as provided in section 121A.48;
4. Affected by other error of law;
5. Unsupported by substantial evidence in view of the entire record submitted; or
6. Arbitrary or capricious.

The commissioner or the commissioner's representative shall make a final decision based upon the record. The commissioner shall issue a decision within 30 calendar days of receiving the entire record and the parties' written submission on appeal. The commissioner's decision shall be final and binding upon the parties after the time for appeal expires under section 121A.50.

121A.50. Judicial review.
The decision of the commissioner of education made under sections 121A.40. to 121A.56 is subject to judicial review under sections 14.63 to 14.69. The decision of the commissioner is stayed pending an appeal under this section.

121A.52. Nonapplication of compulsory attendance law.
The provisions of section 120A.22, subdivision 5, shall not apply to any pupil during a dismissal pursuant to sections 121A.40 to 121A.56.

121A.53. Report to commissioner of education.
1. Exclusions and expulsions; physical assaults. The school board must report through the department electronic reporting system each exclusion or expulsion and each physical assault of a district employee by a student within 30 days of the effective date of the dismissal action or assault to the commissioner of education. This report must include a statement of alternative educational services, or other sanction, intervention, or resolution in response to the assault given the pupil and the reason for, the effective date, and the duration of the exclusion or expulsion or other sanction, intervention, or resolution. The report must also include the student's age, grade, gender, race, and special education status.

2. Report.
   (a) The school board must include state student identification numbers of affected pupils on all dismissal and other disciplinary reports required by the department. The department must report annually to the commissioner summary data on the number of dismissals and physical assaults of district employees by a student by age, grade, gender, race, and special education status of the
affected pupils. All dismissal and other disciplinary reports must be submitted through the department electronic reporting system.

(b) The commissioner must aggregate the district data reported under this section and include the aggregated data, including aggregated data on physical assaults of a district employee by a student, in the annual school performance reports under section 120B.36.

121A.55. Policies to be established.

(a) The commissioner of education shall promulgate guidelines to assist each school board to establish uniform criteria for dismissal and adopt written policies and rules to effectuate sections 121A.031 and 121A.40. to 121A.56. The policies shall emphasize preventing dismissals through early detection of problems and be designed to prevent students' inappropriate behavior from recurring. The policies shall recognize the continuing responsibility of the school to educate the pupil during the dismissal period. The alternative educational services, if the pupil wishes to take advantage of them, must be adequate to allow the pupil to make progress towards meeting the graduation standards adopted under section 120B.02 and help prepare the pupil for readmission.

(b) An area learning center under section 123A.05 may not prohibit an expelled or excluded pupil from enrolling solely because a district expelled or excluded the pupil. The board of the area learning center may use the provisions of the Pupil Fair Dismissal Act to exclude a pupil or to require an admission plan.

(c) Each school district shall develop a policy and report it to the commissioner on the appropriate use of peace officers and crisis teams to remove students who have an individualized education program from school grounds.

121A.61. Discipline and removal of students from class.

1. Required policy. Each school board must adopt a written districtwide school discipline policy which includes written rules of conduct for students, minimum consequences for violations of the rules, and grounds and procedures for removal of a student from class. The policy must be developed in consultation with administrators, teachers, employees, pupils, parents, community members, law enforcement agencies, county attorney offices, social service agencies, and such other individuals or organizations as the board determines appropriate. A school site council may adopt additional provisions to the policy subject to the approval of the school board.

2. Grounds for removal from class. The policy must establish the various grounds for which a student may be removed from a class in the district for a period of time under the procedures specified in the policy. (r) A provision that states a student must be removed from class immediately if the student engages in assault or violent behavior. For purposes of this paragraph, "assault" has the meaning given it in section 609.02, subdivision 10. The removal shall be for a period of time deemed appropriate by the principal, in consultation with the teacher.

121A.67. Removal by peace officer.

If a pupil who has an individualized education program is restrained or removed from a classroom, school building, or school grounds by a peace officer at the request of a school administrator or a school staff person during the school day twice in a 30-day period, the pupil's individualized education program team must meet to determine if the pupil's individualized education program is adequate or if additional evaluation is needed.
REGULATIONS

3525.4750. Expedited hearings, who may request.
1. Parent request for a hearing. A parent of a pupil with a disability may request an expedited due process hearing if the pupil's parent disagrees:
   A. with the determination that the pupil's behavior subject to disciplinary action was not a manifestation of the pupil's disability;
   B. with any decision regarding a change of the pupil's placement to an interim alternative educational setting for a weapon, controlled substance, or drug violation; or
   C. with any decision regarding a change of the pupil's placement under Code of Federal Regulations, title 34, sections 300.520 to 300.528, that is based upon a district contention that the move is for disciplinary or safety reasons.
2. Local education agency request for a hearing. The local education agency may request an expedited hearing if school personnel maintain that the current placement of the pupil is substantially likely to result in injury to the pupil or to others.
3. Continued placement. When a district proposes that an interim alternative placement should continue beyond 45 calendar days, it must provide parents with a written statement of the reasons for this proposal.

3525.4770. Expedited hearings, timelines.
1. When parents request hearing. When requesting an expedited hearing the parents shall provide the district and department with:
   A. a statement indicating the parents request an expedited hearing;

   C. the name, address, and telephone number, if available, of the parent;
   D. the name of the school the child is attending at the time of the request;
   E. the name or number of the school district of the parent's residence;
   F. a description of the nature of the problem of the child relating to the manifestation determination, interim placement, or proposed interim placement, including facts relating to the problem; and
   G. a proposed resolution of the problem to the extent known and available to the parents at the time.
The parent's right to an expedited hearing must not be denied or delayed for failure to provide the notice required here.
Immediately upon the district's receipt of the request for an expedited hearing or upon the initiation of an expedited hearing, the district shall serve the parents with a written notice of rights and procedures relative to the hearing, including the availability of free or low-cost legal services.
2. When district requests hearing. When the district requests an expedited hearing it shall provide the parents and department with a written notice of:
   A. a description of the nature of the problem including the behavior for which the change of placement is requested;
   B. a description of the interim placement or proposed interim placement; and
   C. a proposed resolution of the problem to the extent known at the time.
3. Hearing officer appointment. Within two business days of receipt of the notice, the commissioner shall appoint a hearing officer.
5. Disclosure of data. At least three business days prior to an expedited hearing, or longer, if ordered by the hearing officer, each party shall disclose to all other parties all evaluations completed by that date and recommendations based on the offering party's evaluations that the party intends to use at the hearing. A hearing officer may bar any party who fails to comply with this subpart from introducing the relevant evaluation or recommendation at the hearing without the consent of the other party.

6. Prehearing conference. Within two business days of appointment, the hearing officer shall hold a prehearing conference, which may be by telephone. At that conference, or later, the hearing officer may take any appropriate action relating to scheduling, jurisdiction, and listing witnesses, including expert witnesses. Issues not raised in an expedited due process hearing are not waived in subsequent proceedings. Any exchange of witness lists, evidence, and any other information deemed necessary by the hearing officer shall be exchanged based on the timeline ordered by the hearing officer as required to allow the hearing officer to render a written decision within ten calendar days of the request for the hearing. At the prehearing conference, and subsequently, the hearing officer may order either party to submit educational records, evaluations, and any other information to the hearing officer for prehearing review. The hearing officer may establish procedures necessary to ensure the timely and fair resolution of the dispute.

An extension of up to five calendar days may be granted by the hearing officer for good cause shown on the record. Return to school following removal

LAWS

121A.41. Definitions.
10. "Suspension" means an action by the school administration, under rules promulgated by the school board, prohibiting a pupil from attending school for a period of no more than ten school days. If a suspension is longer than five days, the suspending administrator must provide the superintendent with a reason for the longer suspension. This definition does not apply to dismissal from school for one school day or less, except as provided in federal law for a student with a disability. Each suspension action may include a readmission plan. The readmission plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission and may not be used to extend the current suspension. Consistent with section 125A.091, subdivision 5, the readmission plan must not obligate a parent to provide a sympathomimetic medication for the parent's child as a condition of readmission. The school administration may not impose consecutive suspensions against the same pupil for the same course of conduct, or incident of misconduct, except where the pupil will create an immediate and substantial danger to self or to surrounding persons or property, or where the district is in
the process of initiating an expulsion, in which case the school administration may extend the suspension to a total of 15 school days.

121A.47. Exclusion and expulsion procedures.
14. Admission or readmission plan.
   (a) A school administrator shall prepare and enforce an admission or readmission plan for any pupil who is excluded or expelled from school. The plan may include measures to improve the pupil's behavior, including completing a character education program, consistent with section 120B.232, subdivision 1, and require parental involvement in the admission or readmission process, and may indicate the consequences to the pupil of not improving the pupil's behavior.
   (b) The definition of suspension under section 121A.41, subdivision 10, does not apply to a student's dismissal from school for one school day or less, except as provided under federal law for a student with a disability. Each suspension action may include a readmission plan. A readmission plan must provide, where appropriate, alternative education services, which must not be used to extend the student's current suspension period. Consistent with section 125A.091, subdivision 5, a readmission plan must not obligate a parent or guardian to provide psychotropic drugs to their student as a condition of readmission. School officials must not use the refusal of a parent or guardian to consent to the administration of psychotropic drugs to their student or to consent to a psychiatric evaluation, screening or examination of the student as a ground, by itself, to prohibit the student from attending class or participating in a school-related activity, or as a basis of a charge of child abuse, child neglect or medical or educational neglect.

121A.54. Notice of right to be reinstated.
Whenever a pupil fails to return to school within ten school days of the termination of dismissal, a school administrator shall inform the pupil and the pupil's parents by mail of the pupil's right to attend and to be reinstated in the public school.

121A.61. Discipline and removal of students from class.
3. Policy components. The policy must include at least the following components:
   (g) The procedures for return of a student to the specified class from which the student has been removed;

Use of restraint and seclusion

LAWS

121A.67. Removal by peace officer.
2. Removal by peace officer. If a pupil who has an individualized education program is restrained or removed from a classroom, school building, or school grounds by a peace officer at the request of a school administrator or a school staff person during the school day twice in a 30-day period, the pupil's individualized education program team must meet to determine if the pupil's individualized education program is adequate or if additional evaluation is needed.

125A.0941. Definitions.
(a) The following terms have the meanings given them.
(b) "Emergency" means a situation where immediate intervention is needed to protect a child or other individual from physical injury. Emergency does not mean circumstances such as: a child who does not respond to a task or request and instead places his or her head on a desk or hides under a desk or table; a child who does not respond to a staff person's request unless failing to respond would result in physical injury to the child or other individual; or an emergency incident has already occurred and no threat of physical injury currently exists.

(c) "Physical holding" means physical intervention intended to hold a child immobile or limit a child's movement, where body contact is the only source of physical restraint, and where immobilization is used to effectively gain control of a child in order to protect a child or other individual from physical injury. The term physical holding does not mean physical contact that:

1. Helps a child respond or complete a task;
2. Assists a child without restricting the child's movement;
3. Is needed to administer an authorized health-related service or procedure; or
4. Is needed to physically escort a child when the child does not resist or the child's resistance is minimal.

(d) "Positive behavioral interventions and supports" means interventions and strategies to improve the school environment and teach children the skills to behave appropriately, including the key components under section 122A.627.

(e) "Prone restraint" means placing a child in a face down position.

(f) "Restrictive procedures" means the use of physical holding or seclusion in an emergency. Restrictive procedures must not be used to punish or otherwise discipline a child.

(g) "Seclusion" means confining a child alone in a room from which egress is barred. Egress may be barred by an adult locking or closing the door in the room or preventing the child from leaving the room. Removing a child from an activity to a location where the child cannot participate in or observe the activity is not seclusion.

125A.0942. Standards for restrictive procedures.

1. Restrictive procedures plan. (a) Schools that intend to use restrictive procedures shall maintain and make publicly accessible in an electronic format on a school or district website or make a paper copy available upon request describing a restrictive procedures plan for children with disabilities that at least:

   (1) lists the restrictive procedures the school intends to use;
   (2) Describes how the school will implement a range of positive behavior strategies and provide links to mental health services;
   (3) Describes how the school will provide training on de-escalation techniques, consistent with section 122A.187, subdivision 4;
   (4) Describes how the school will monitor and review the use of restrictive procedures, including:
       (i) Conducting post-use debriefings, consistent with subdivision 3, paragraph (a), clause (5); and
       (ii) Convening an oversight committee to undertake a quarterly review of the use of restrictive procedures based on patterns or problems indicated by similarities in the time of day, day of the week, duration of the use of a procedure, the individuals involved, or other factors associated with the use of restrictive procedures; the number of times a restrictive procedure is used schoolwide and for individual children; the number and types of injuries, if any, resulting from the use of restrictive procedures; whether restrictive procedures are used in nonemergency situations; the need for additional staff training; and proposed actions to minimize the use of restrictive procedures; and
(5) Includes a written description and documentation of the training staff completed under subdivision 5.

(b) Schools annually must publicly identify oversight committee members who must at least include:

(1) A mental health professional, school psychologist, or school social worker;
(2) An expert in positive behavior strategies;
(3) A special education administrator; and
(4) A general education administrator.

2. Restrictive procedures. (a) Restrictive procedures may be used only by a licensed special education teacher, school social worker, school psychologist, behavior analyst certified by the National Behavior Analyst Certification Board, a person with a master's degree in behavior analysis, other licensed education professional, paraprofessional under section 120B.363, or mental health professional under section 245.4871, subdivision 27, who has completed the training program under subdivision 5.

(b) A school shall make reasonable efforts to notify the parent on the same day a restrictive procedure is used on the child, or if the school is unable to provide same-day notice, notice is sent within two days by written or electronic means or as otherwise indicated by the child's parent under paragraph (f).

(c) The district must hold a meeting of the individualized education program team, conduct or review a functional behavioral analysis, review data, consider developing additional or revised positive behavioral interventions and supports, consider actions to reduce the use of restrictive procedures, and modify the individualized education program or behavior intervention plan as appropriate. The district must hold the meeting: within ten calendar days after district staff use restrictive procedures on two separate school days within 30 calendar days or a pattern of use emerges and the child's individualized education program or behavior intervention plan does not provide for using restrictive procedures in an emergency; or at the request of a parent or the district after restrictive procedures are used. The district must review use of restrictive procedures at a child's annual individualized education program meeting when the child's individualized education program provides for using restrictive procedures in an emergency.

(d) If the individualized education program team under paragraph (c) determines that existing interventions and supports are ineffective in reducing the use of restrictive procedures or the district uses restrictive procedures on a child on ten or more school days during the same school year, the team, as appropriate, either must consult with other professionals working with the child; consult with experts in behavior analysis, mental health, communication, or autism; consult with culturally competent professionals; review existing evaluations, resources, and successful strategies; or consider whether to reevaluate the child.

(e) At the individualized education program meeting under paragraph (c), the team must review any known medical or psychological limitations, including any medical information the parent provides voluntarily, that contraindicate the use of a restrictive procedure, consider whether to prohibit that restrictive procedure, and document any prohibition in the individualized education program or behavior intervention plan.

(f) An individualized education program team may plan for using restrictive procedures and may include these procedures in a child's individualized education program or behavior intervention plan; however, the restrictive procedures may be used only in response to behavior that constitutes an emergency, consistent with this section. The individualized education program or behavior intervention plan shall indicate how the parent wants to be notified when a restrictive procedure is used.

3. Physical holding or seclusion. (a) Physical holding or seclusion may be used only in an emergency. A school that uses physical holding or seclusion shall meet the following requirements:
(1) Physical holding or seclusion is the least intrusive intervention that effectively responds to the emergency;
(2) Physical holding or seclusion is not used to discipline a noncompliant child;
(3) Physical holding or seclusion ends when the threat of harm ends, and the staff determines the child can safely return to the classroom or activity;
(4) Staff directly observes the child while physical holding or seclusion is being used;
(5) Each time physical holding or seclusion is used, the staff person who implements or oversees the physical holding or seclusion documents, as soon as possible after the incident concludes, the following information:
   (i) A description of the incident that led to the physical holding or seclusion;
   (ii) Why a less restrictive measure failed or was determined by staff to be inappropriate or impractical;
   (iii) The time the physical holding or seclusion began and the time the child was released; and
   (iv) A brief record of the child's behavioral and physical status;
(6) The room used for seclusion must:
   (i) Be at least six feet by five feet;
   (ii) Be well lit, well ventilated, adequately heated, and clean;
   (iii) Have a window that allows staff to directly observe a child in seclusion;
   (iv) Have tamperproof fixtures, electrical switches located immediately outside the door, and secure ceilings;
   (v) Have doors that open out and are unlocked, locked with keyless locks that have immediate release mechanisms, or locked with locks that have immediate release mechanisms connected with a fire and emergency system; and
   (vi) Not contain objects that a child may use to injure the child or others; and
(7) Before using a room for seclusion, a school must:
   (i) Receive written notice from local authorities that the room and the locking mechanisms comply with applicable building, fire, and safety codes; and
   (ii) Register the room with the commissioner, who may view that room.
(b) By February 1, 2015, and annually thereafter, stakeholders may, as necessary, recommend to the commissioner specific and measurable implementation and outcome goals for reducing the use of restrictive procedures and the commissioner must submit to the legislature a report on districts' progress in reducing the use of restrictive procedures that recommends how to further reduce these procedures and eliminate the use of seclusion. The statewide plan includes the following components: measurable goals; the resources, training, technical assistance, mental health services, and collaborative efforts needed to significantly reduce districts' use of seclusion; and recommendations to clarify and improve the law governing districts' use of restrictive procedures. The commissioner must consult with interested stakeholders when preparing the report, including representatives of advocacy organizations, special education directors, teachers, paraprofessionals, intermediate school districts, school boards, day treatment providers, county social services, state human services department staff, mental health professionals, and autism experts. Beginning with the 2016-2017 school year, in a form and manner determined by the commissioner, districts must report data quarterly to the department by January 15, April 15, July 15, and October 15 about individual students who have been secluded. By July 15 each year, districts must report summary data on their use of restrictive procedures to the department for the prior school year, July 1 through June 30, in a form and manner determined by the
commissioner. The summary data must include information about the use of restrictive procedures, including use of reasonable force under section 121A.582.

4. Prohibitions. The following actions or procedures are prohibited:

1. Engaging in conduct prohibited under section 121A.58;
2. Requiring a child to assume and maintain a specified physical position, activity, or posture that induces physical pain;
3. Totally or partially restricting a child's senses as punishment;
4. Presenting an intense sound, light, or other sensory stimuli using smell, taste, substance, or spray as punishment;
5. Denying or restricting a child's access to equipment and devices such as walkers, wheelchairs, hearing aids, and communication boards that facilitate the child's functioning, except when temporarily removing the equipment or device is needed to prevent injury to the child or others or serious damage to the equipment or device, in which case the equipment or device shall be returned to the child as soon as possible;
6. Interacting with a child in a manner that constitutes sexual abuse, neglect, or physical abuse under section 626.556;
7. Withholding regularly scheduled meals or water;
8. Denying access to bathroom facilities;
9. Physical holding that restricts or impairs a child's ability to breathe, restricts or impairs a child's ability to communicate distress, places pressure or weight on a child's head, throat, neck, chest, lungs, sternum, diaphragm, back, or abdomen, or results in straddling a child's torso; and

5. Training for staff. (a) To meet the requirements of subdivision 1, staff who use restrictive procedures, including paraprofessionals, shall complete training in the following skills and knowledge areas:

1. Positive behavioral interventions;
2. Communicative intent of behaviors;
3. Relationship building;
4. Alternatives to restrictive procedures, including techniques to identify events and environmental factors that may escalate behavior;
5. De-escalation methods;
6. Standards for using restrictive procedures only in an emergency;
7. Obtaining emergency medical assistance;
8. The physiological and psychological impact of physical holding and seclusion;
9. Monitoring and responding to a child's physical signs of distress when physical holding is being used;
10. Recognizing the symptoms of and interventions that may cause positional asphyxia when physical holding is used;
11. District policies and procedures for timely reporting and documenting each incident involving use of a restricted procedure; and
12. Schoolwide programs on positive behavior strategies.

(b) The commissioner, after consulting with the commissioner of human services, must develop and maintain a list of training programs that satisfy the requirements of paragraph (a). The commissioner also must develop and maintain a list of experts to help individualized education program teams reduce
the use of restrictive procedures. The district shall maintain records of staff who have been trained and the organization or professional that conducted the training. The district may collaborate with children's community mental health providers to coordinate trainings.

6. Behavior supports; reasonable force. (a) School districts are encouraged to establish effective schoolwide systems of positive behavior interventions and supports.

(b) Nothing in this section or section 125A.0941 precludes the use of reasonable force under sections 121A.582; 609.06, subdivision 1; and 609.379. For the 2014-2015 school year and later, districts must collect and submit to the commissioner summary data, consistent with subdivision 3, paragraph (b), on district use of reasonable force that is consistent with the definition of physical holding or seclusion for a child with a disability under this section.

Alternative placements

LAWS

121A.41. Definitions.

11. Alternative educational services. "Alternative educational services" may include, but are not limited to, special tutoring, modified curriculum, modified instruction, other modifications or adaptations, instruction through electronic media, special education services as indicated by appropriate assessment, homebound instruction, supervised homework, or enrollment in another district or in an alternative learning center under section 123A.05 selected to allow the pupil to progress toward meeting graduation standards under section 120B.02, although in a different setting.

121A.43. Exclusion and expulsion of pupils with a disability.

(a) Consistent with federal law governing days of removal and section 121A.46, school personnel may suspend a child with a disability. When a child with a disability has been suspended for more than five consecutive school days or ten cumulative school days in the same school year, and that suspension does not involve a recommendation for expulsion or exclusion or other change of placement under federal law, relevant members of the child's individualized education program team, including at least one of the child's teachers, shall meet and determine the extent to which the child needs services in order to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals in the child's individualized education program. That meeting must occur as soon as possible, but no more than ten days after the sixth consecutive day of suspension or the tenth cumulative day of suspension has elapsed.

(b) A dismissal for one school day or less is a day or a partial day of suspension if the child with a disability does not receive regular or special education instruction during that dismissal period. The notice requirements under section 121A.46 do not apply to a dismissal of one day or less.

(c) A child with a disability shall be provided alternative educational services to the extent a suspension exceeds five consecutive school days.

(d) Before initiating an expulsion or exclusion under sections 121A.40. to 121A.56, the district, relevant members of the child's individualized education program team, and the child's parent shall, consistent with federal law, determine whether the child's behavior was caused by or had a direct and substantial relationship to the child's disability and whether the child's conduct was a direct result of a failure to implement the child's individualized education program. When a child with a disability who has an
individualized education program is excluded or expelled under sections 121A.40. to 121A.56 for misbehavior that is not a manifestation of the child's disability, the district shall continue to provide special education and related services during the exclusion or expulsion.

121A.45. Grounds for dismissal.
1. Provision of alternative programs. No school shall dismiss any pupil without attempting to provide alternative educational services before dismissal proceedings, except where it appears that the pupil will create an immediate and substantial danger to self or to surrounding persons or property.

121A.53. Report to commissioner of education.
1. Exclusions and expulsions; physical assaults. The school board must report through the department electronic reporting system each exclusion or expulsion and each physical assault of a district employee by a student within 30 days of the effective date of the dismissal action or assault to the commissioner of education. This report must include a statement of alternative educational services, or other sanction, intervention, or resolution in response to the assault given the pupil and the reason for, the effective date, and the duration of the exclusion or expulsion or other sanction, intervention, or resolution. The report must also include the student's age, grade, gender, race, and special education status.

2. Report.
   (a) The school board must include state student identification numbers of affected pupils on all dismissal and other disciplinary reports required by the department. The department must report annually to the commissioner summary data on the number of dismissals and physical assaults of district employees by a student by age, grade, gender, race, and special education status of the affected pupils. All dismissal and other disciplinary reports must be submitted through the department electronic reporting system.
   (b) The commissioner must aggregate the district data reported under this section and include the aggregated data, including aggregated data on physical assaults of a district employee by a student, in the annual school performance reports under section 120B.36.

121A.55. Policies to be established.
(a) The commissioner of education shall promulgate guidelines to assist each school board to establish uniform criteria for dismissal and adopt written policies and rules to effectuate sections 121A.031 and 121A.40. to 121A.56. The policies shall emphasize preventing dismissals through early detection of problems and be designed to prevent students' inappropriate behavior from recurring. The policies shall recognize the continuing responsibility of the school to educate the pupil during the dismissal period. The alternative educational services, if the pupil wishes to take advantage of them, must be adequate to allow the pupil to make progress towards meeting the graduation standards adopted under section 120B.02 and help prepare the pupil for readmission.

(b) An area learning center under section 123A.05 may not prohibit an expelled or excluded pupil from enrolling solely because a district expelled or excluded the pupil. The board of the area learning center may use the provisions of the Pupil Fair Dismissal Act to exclude a pupil or to require an admission plan.

(c) Each school district shall develop a policy and report it to the commissioner on the appropriate use of peace officers and crisis teams to remove students who have an individualized education program from school grounds.

121A.61. Discipline and removal of students from class.
3. Policy components. The policy must include at least the following components:
(l) the procedures for consideration of whether there is a need for a further assessment or of whether there is a need for a review of the adequacy of a current individualized education program of a student with a disability who is removed from class;

LAWS

120A.22. Compulsory instruction.
1. Parental responsibility. The parent of a child is primarily responsible for assuring that the child acquires knowledge and skills that are essential for effective citizenship.
2a. Noncustodial parent access to records. Upon request, a noncustodial parent has the right of access to, and to receive copies of, school records and information, to attend conferences, and to be informed about the child's welfare, educational progress, and status, as authorized under section 518.17, subdivision 3. The school is not required to hold a separate conference for each parent.
2. Applicability. This section and sections 120A.24; 120A.26; 120A.32; and 120A.34 apply only to a child required to receive instruction according to subdivision 5 and to instruction that is intended to fulfill that requirement.
3. Parent defined; residency determined.
   (a) In this section and sections 120A.24 and 120A.26, "parent" means a parent, guardian, or other person having legal custody of a child.
   (b) In sections 125A.03 to 125A.24 and 125A.65, "parent" means a parent, guardian, or other person having legal custody of a child under age 18. For an unmarried pupil age 18 or over, "parent" means the pupil unless a guardian or conservator has been appointed, in which case it means the guardian or conservator.
   (c) For purposes of sections 125A.03 to 125A.24 and 125A.65, the school district of residence for an unmarried pupil age 18 or over who is a parent under paragraph (b) and who is placed in a center for care and treatment, shall be the school district in which the pupil's biological or adoptive parent or designated guardian resides.
   (d) For a married pupil age 18 or over, the school district of residence is the school district in which the married pupil resides.
   (e) If a district reasonably believes that a student does not meet the residency requirements of the school district in which the student is attending school, the student may be removed from the school only after the district sends the student's parents written notice of the district's belief, including the facts upon which the belief is based, and an opportunity to provide documentary evidence of residency in person to the superintendent or designee, or, at the option of the parents, by sending the documentary evidence to the superintendent, or a designee, who will then make a determination as to the residency status of the student.
4. School defined. For the purpose of compulsory attendance, a "school" means a public school, as defined in section 120A.05, subdivisions 9, 11, 13, and 17, or a nonpublic school, church or religious organization, or home school in which a child is provided instruction in compliance with this section and section 120A.24.
5. Ages and terms.
   (a) Every child between seven and 17 years of age must receive instruction unless the child has graduated. Every child under the age of seven who is enrolled in a half-day kindergarten, or a full-day kindergarten program on alternate days, or other kindergarten programs shall receive instruction.
Except as provided in subdivision 6, a parent may withdraw a child under the age of seven from enrollment at any time.

(b) A school district by annual board action may require children subject to this subdivision to receive instruction in summer school. A district that acts to require children to receive instruction in summer school shall establish at the time of its action the criteria for determining which children must receive instruction.

(c) A pupil 16 years of age or older who meets the criteria of section 124D.68, subdivision 2, and under clause (5) of that subdivision has been excluded or expelled from school or under clause (11) of that subdivision has been chronically truant may be referred to an area learning center. Such referral may be made only after consulting the principal, area learning center director, student, and parent or guardian and only if, in the school administrator’s professional judgment, the referral is in the best educational interest of the pupil. Nothing in this paragraph limits a pupil’s eligibility to apply to enroll in other eligible programs under section 124D.68

6. Children under seven.

(a) Once a pupil under the age of seven is enrolled in kindergarten or a higher grade in a public school, the pupil is subject to the compulsory attendance provisions of this chapter and section 120A.34, unless the board of the district in which the pupil is enrolled has a policy that exempts children under seven from this subdivision.

(b) In a district in which children under seven are subject to compulsory attendance under this subdivision, paragraphs (c) to (e) apply.

(c) A parent or guardian may withdraw the pupil from enrollment in the school for good cause by notifying the district. Good cause includes, but is not limited to, enrollment of the pupil in another school, as defined in subdivision 4, or the immaturity of the child.

(d) When the pupil enrolls, the enrolling official must provide the parent or guardian who enrolls the pupil with a written explanation of the provisions of this subdivision.

(e) A pupil under the age of seven who is withdrawn from enrollment in the public school under paragraph (c) is no longer subject to the compulsory attendance provisions of this chapter.

(f) In a district that had adopted a policy to exempt children under seven from this subdivision, the district’s chief attendance officer must keep the truancy enforcement authorities supplied with a copy of the board’s current policy certified by the clerk of the board.

7. Education records.

(a) A district, a charter school, or a nonpublic school that receives services or aid under sections 123B.40 to 123B.48 from which a student is transferring must transmit the student’s educational records, within ten business days of a request, to the district, the charter school, or the nonpublic school in which the student is enrolling. Districts, charter schools, and nonpublic schools that receive services or aid under sections 123B.40 to 123B.48 must make reasonable efforts to determine the district, the charter school, or the nonpublic school in which a transferring student is next enrolling in order to comply with this subdivision.

(b) A closed charter school must transfer the student’s educational records, within ten business days of the school’s closure, to the student’s school district of residence where the records must be retained unless the records are otherwise transferred under this subdivision.

(c) A school district, a charter school, or a nonpublic school that receives services or aid under sections 123B.40 to 123B.48 that transmits a student’s educational records to another school district or other educational entity, charter school, or nonpublic school to which the student is transferring must include in the transmitted records information about any formal suspension, expulsion, and exclusion disciplinary action under sections 121A.40 to 121A.56. The district, the charter school, or the nonpublic
school that receives services or aid under sections 123B.40 to 123B.48 must provide notice to a student and the student's parent or guardian that formal disciplinary records will be transferred as part of the student's educational record, in accordance with data practices under chapter 13 and the Family Educational Rights and Privacy Act of 1974, United States Code, title 20, section 1232(g).

(d) Notwithstanding section 138.17, a principal or chief administrative officer must remove from a student's educational record and destroy a probable cause notice received under section 260B.171, subdivision 5, or paragraph (e), if one year has elapsed since the date of the notice and the principal or chief administrative officer has not received a disposition or court order related to the offense described in the notice. This paragraph does not apply if the student no longer attends the school when this one-year period expires.

(e) A principal or chief administrative officer who receives a probable cause notice under section 260B.171, subdivision 5, or a disposition or court order, must include a copy of that data in the student's educational records if they are transmitted to another school, unless the data are required to be destroyed under paragraph (d) or section 121A.75.

8. Withdrawal from school. Any student who is 17 years old who seeks to withdraw from school, and the student's parent or guardian must:

(1) Attend a meeting with school personnel to discuss the educational opportunities available to the student, including alternative educational opportunities; and
(2) Sign a written election to withdraw from school.

9. Knowledge and skills. Instruction must be provided in at least the following subject areas:

(1) Basic communication skills including reading and writing, literature, and fine arts;
(2) Mathematics and science;
(3) Social studies including history, geography, economics, government, and citizenship; and
(4) Health and physical education.

Instruction, textbooks, and materials must be in the English language. Another language may be used pursuant to sections 124D.59 to 124D.61.

10. Requirements for instructors. A person who is providing instruction to a child must meet at least one of the following requirements:

(1) Hold a valid Minnesota teaching license in the field and for the grade level taught;
(2) Be directly supervised by a person holding a valid Minnesota teaching license;
(3) Successfully complete a teacher competency examination;
(4) Provide instruction in a school that is accredited by an accrediting agency, recognized according to section 123B.445, or recognized by the commissioner;
(5) Hold a baccalaureate degree; or
(6) Be the parent of a child who is assessed according to the procedures in subdivision 11.

Any person providing instruction in a public school must meet the requirements of clause (1).

(a) Each year the performance of every child ages seven through 16 and every child ages 16 through 17 for which an initial report was filed pursuant to section 120A.24, subdivision 1, after the child is 16 and who is not enrolled in a public school must be assessed using a nationally norm-referenced standardized achievement examination. The superintendent of the district in which the child receives instruction and the person in charge of the child's instruction must agree about the specific examination to be used and the administration and location of the examination.
(b) To the extent the examination in paragraph (a) does not provide assessment in all of the subject areas in subdivision 9, the parent must assess the child’s performance in the applicable subject area. This requirement applies only to a parent who provides instruction and does not meet the requirements of subdivision 10, clause (1), (2), or (3).

(c) If the results of the assessments in paragraphs (a) and (b) indicate that the child's performance on the total battery score is at or below the 30th percentile or one grade level below the performance level for children of the same age, the parent must obtain additional evaluation of the child's abilities and performance for the purpose of determining whether the child has learning problems.

(d) A child receiving instruction from a nonpublic school, person, or institution that is accredited by an accrediting agency, recognized according to section 123B.445, or recognized by the commissioner, is exempt from the requirements of this subdivision.

12. Legitimate exemptions.

(a) A parent, guardian, or other person having control of a child may apply to a school district to have the child excused from attendance for the whole or any part of the time school is in session during any school year. Application may be made to any member of the board, a truant officer, a principal, or the superintendent. The school district may state in its school attendance policy that it may ask the student's parent or legal guardian to verify in writing the reason for the child's absence from school. A note from a physician or a licensed mental health professional stating that the child cannot attend school is a valid excuse. The board of the district in which the child resides may approve the application upon the following being demonstrated to the satisfaction of that board:

(1) That the child’s physical or mental health is such as to prevent attendance at school or application to study for the period required, which includes:
   (i) Child illness, medical, dental, orthodontic, or counseling appointments;
   (ii) Family emergencies;
   (iii) The death or serious illness or funeral of an immediate family member;
   (iv) Active duty in any military branch of the United States;
   (v) The child has a condition that requires ongoing treatment for a mental health diagnosis; or
   (vi) Other exemptions included in the district’s school attendance policy;

(2) That the child has already completed state and district standards required for graduation from high school; or

(3) That it is the wish of the parent, guardian, or other person having control of the child, that the child attend for a period or periods not exceeding in the aggregate three hours in any week, a school for religious instruction conducted and maintained by some church, or association of churches, or any Sunday school association incorporated under the laws of this state, or any auxiliary thereof. This school for religious instruction must be conducted and maintained in a place other than a public school building, and it must not, in whole or in part, be conducted and maintained at public expense. However, a child may be absent from school on such days as the child attends upon instruction according to the ordinances of some church.

(b) Notwithstanding subdivision 6, paragraph (a), a parent may withdraw a child from an all-day, every day kindergarten program and put their child in a half-day program, if offered, or an alternate-day program without being truant. A school board must excuse a kindergarten child from a part of a school day at the request of the child's parent.

13. Issuing and reporting excuses. The clerk or any authorized officer of the board must issue and keep a record of such excuses, under such rules as the board may from time to time establish.
120A.24. Reporting.

4. Reports to the state. A superintendent must make an annual report to the commissioner of education by December 1 of the total number of nonpublic children reported as residing in the district. The report must include the following information:

   (1) The number of children residing in the district attending nonpublic schools or receiving instruction from persons or institutions other than a public school;
   
   (2) The number of children in clause (1) who are in compliance with section 120A.22 and this section; and

4. Fact-finding and mediation. If the specified alleged violations of the compulsory attendance requirements are not corrected within 15 days of receipt of the written notification, the superintendent must request fact-finding and mediation services from the commissioner.

5. Notice to county attorney. If the alleged violations are not corrected through the fact-finding and mediation process under subdivision 4, the superintendent must notify the county attorney of the alleged violations. The superintendent must notify the parents, by certified mail, of the superintendent’s intent to notify the county attorney of the alleged violations.

6. Criminal complaint; prosecution. The county attorney in the county in which the alleged violations have occurred has jurisdiction to conduct a prosecution for violations of this section, section 120A.22, or section 120A.24. A criminal complaint may be filed in any court in the county exercising criminal jurisdiction and must name the persons neglecting or refusing to comply with this section, section 120A.22, or section 120A.24. After the complaint has been filed, a warrant must be issued and proceedings in trial must commence as provided by law in misdemeanor cases.

120A.32. Officers, teachers; Neglect of duty, penalty.

Any school officer, truant officer, public or nonpublic school teacher, principal, district superintendent, or person providing instruction other than a parent refusing, willfully failing, or neglecting to perform any duty imposed by sections 120A.22, 120A.26, 120A.35, 120A.41, and 123B.03 is guilty of a misdemeanor. absent from school, shall be guilty of a petty misdemeanor. Any fines collected shall be paid into the county treasury for the benefit of the school district in which the offense is committed.’

124D.03. Enrollment options program.

12. Termination of enrollment. A district may terminate the enrollment of a nonresident student enrolled under this section or section 124D.08 at the end of a school year if the student meets the definition of a habitual truant under section 260C.007, subdivision 19, the student has been provided appropriate services under chapter 260A, and the student's case has been referred to juvenile court. A district may also terminate the enrollment of a nonresident student over the age of 17 enrolled under this section if the student is absent without lawful excuse for one or more periods on 15 school days and has not lawfully withdrawn from school under section 120A.22, subdivision 8.

260A.01. Truancy programs and services.

(a) The programs in this chapter are designed to provide a continuum of intervention and services to support families and children in keeping children in school and combating truancy and educational neglect. School districts, county attorneys, and law enforcement may establish the programs and coordinate them with other community-based truancy services in order to provide the necessary and most effective intervention for children and their families. This continuum of intervention and services involves progressively intrusive intervention, beginning with strong service-oriented efforts at the school and community level and involving the court's authority only when necessary.

(b) Consistent with section 125A.091, subdivision 5, a parent's refusal to provide the parent's child with sympathomimetic medications does not constitute educational neglect.

260A.02. Definitions.

2. Board. "Board" means a school attendance review board created under section 260A.05.

3. Continuing truant. "Continuing truant" means a child who is subject to the compulsory instruction requirements of section 120A.22 and is absent from instruction in a school, as defined in section 120A.05, without valid excuse within a single school year for:

   (1) Three days if the child is in elementary school; or
   (2) Three or more class periods on three days if the child is in middle school, junior high school, or high school.

Nothing in this section shall prevent a school district or charter school from notifying a truant child's parent or legal guardian of the child's truancy or otherwise addressing a child's attendance problems prior to the child becoming a continuing truant.

260A.03. Notice to parent or guardian when child is a continuing truant.

      (2) Facilitate the provision of services geared to address the underlying issues that are contributing to a student's truant behavior; and
      (3) Provide facilities to receive truant students from peace officers and probation officers.
   (b) Truancy projects and service centers may provide any of these services and shall provide for referral of children and families to other appropriate programs and services.
2. Community-based action projects. Schools, community agencies, law enforcement, parent associations, and other interested groups may cooperate to provide coordinated intervention, prevention, and educational services for truant students and their families. Services may include:
   (1) Assessment for underlying issues that are contributing to the child's truant behavior;
   (2) Referral to other community-based services for the child and family, such as individual or family counseling, educational testing, psychological evaluations, tutoring, mentoring, and mediation;
   (3) Transition services to integrate the child back into school and to help the child succeed once there;
   (4) Culturally sensitive programming and staffing; and
   (5) Increased school response, including in-school suspension, better attendance monitoring and enforcement, after-school study programs, and in-service training for teachers and staff.

      (3) Contact the parents or legal guardian of the truant student and release the truant student to the custody of the parents, guardian, or other suitable person; and
      (4) Facilitate the student's earliest possible return to school.
(b) Truancy service centers may not accept:
   (1) Juveniles taken into custody for violations of law that would be crimes if committed by adults;
   (2) Intoxicated juveniles;
   (3) Ill or injured juveniles; or
   (4) Juveniles older than mandatory school attendance age.

(c) Truancy service centers may expand their service capability in order to receive curfew violators and take appropriate action, such as coordination of intervention efforts, contacting parents, and developing strategies to ensure that parents assume responsibility for their children's curfew violations.

260A.05. School attendance review boards.
1. Establishment. A school district or charter school may establish one or more school attendance review boards to exercise the powers and duties in this section. The school district or charter school board shall appoint the members of the school attendance review board and designate the schools within the board's jurisdiction. A board may provide consultant services to, and coordinate activities of, truancy programs and services. If a board determines that it will be unable to provide services for all truant students who are referred to it, the board shall establish procedures and criteria for determining whether to accept referrals of students or refer them for other appropriate action.
3. Oversight of truant students. A school attendance review board shall oversee referrals of truant students and provide appropriate intervention and services under section 260A.06. If the student's school district or charter school has not established a board, the student may be referred to the county attorney by the school district or charter school if the student continues to be truant after the parent or guardian has been sent or conveyed the notice under section 260A.03.
2. Meeting; notice. Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSLE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

§ 37-7-301. General powers and duties.
The school boards of all school districts shall have the following powers, authority and duties in addition to all others imposed or granted by law, to wit:

(e) To suspend or to expel a pupil or to change the placement of a pupil to the school district's alternative school or homebound program for misconduct in the school or on school property, as defined in Section 37-11-29, on the road to and from school, or at any school-related activity or event, or for conduct occurring on property other than school property or other than at a school-related activity or event when such conduct by a pupil, in the determination of the school superintendent or principal, renders that pupil's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole, and to delegate such authority to the appropriate officials of the school district;

(g) To support, within reasonable limits, the superintendent, principal and teachers where necessary for the proper discipline of the school;

The local school board shall adopt and make available to all teachers, school personnel, students and parents or guardians, at the beginning of each school year, a code of student conduct developed in consultation with teachers, school personnel, students and parents or guardians. The code shall be based on the rules governing student conduct and discipline adopted by the school board and shall be made available at the school level in the student handbook or similar publication. The code shall include, but not be limited to:

(a) Specific grounds for disciplinary action under the school district's discipline plan;
(b) Procedures to be followed for acts requiring discipline, including suspensions and expulsion, which comply with due process requirements;

Such recognition shall include the right of the teacher to remove from the classroom any student who, in the professional judgment of the teacher, is disrupting the learning environment, to the office of the principal or assistant principal. The principal or assistant principal shall determine the proper placement for the student, who may not be returned to the classroom until a conference of some kind has been held with the parent, guardian or custodian during which the disrupting behavior is discussed and agreements are reached that no further disruption will be tolerated. If the principal does not approve of the determination of the teacher to remove the student from the classroom, the student may not be removed from the classroom, and the principal, upon request from the teacher, must provide justification for his disapproval;
(e) Policies and procedures for dealing with a student who causes a disruption in the classroom, on school property or vehicles, or at school-related activities;
(f) Procedures for the development of behavior modification plans by the school principal, reporting teacher and student's parent for a student who causes a disruption in the classroom, on school property or vehicles, or at school-related activities for a second time during the school year; and

(c) Establish a procedure for providing notice of an incident of bullying to a parent or guardian of the victim and a parent or guardian of the bully within a reasonable amount of time after the incident;

(h) Require that discipline for bullying of a student with disabilities comply with applicable requirements under federal law, including the Individuals with Disabilities Education Act (20 USCS Section 1400 et seq.).

(2) The policies must recognize the fundamental right of every student to take reasonable actions as may be necessary to defend himself or herself from an attack by another student who has evidenced menacing or threatening behavior through bullying or harassing.

(3) The procedure for reporting bullying established under subsection (1) of this section must be posted on the district's Internet website.

The principal or assistant principal shall determine the proper placement for the student, who may not be returned to the classroom until a conference of some kind has been held with the parent, guardian or custodian during which the disrupting behavior is discussed and agreements are reached that no further disruption will be tolerated. If the principal does not approve of the determination of the teacher to remove the student from the classroom, the student may not be removed from the classroom, and the principal, upon request from the teacher, must provide justification for his disapproval;

Alternatives to suspension

LAWS
§ 37-11-53. School district discipline plans; appearance by parents, guardians or custodians at discipline conferences; recovery from parents for damage or destruction of school property; parent allowed to accompany child to school as alternative to child's suspension.
(5) A school district's discipline plan may provide that as an alternative to suspension, a student may remain in school by having the parent, guardian or custodian, with the consent of the student's teacher or teachers, attend class with the student for a period of time specifically agreed upon by the reporting
teacher and school principal. If the parent, guardian or custodian does not agree to attend class with the student or fails to attend class with the student, the student shall be suspended in accordance with the code of student conduct and discipline policies of the school district.

Use of corporal punishment

LAWS
§ 37-11-57. Immunity of school personnel from liability for carrying out action in enforcing rules regarding control, discipline, suspension and expulsion of students.
(2) Corporal punishment administered in a reasonable manner, or any reasonable action to maintain control and discipline of students taken by a teacher, assistant teacher, principal or assistant principal acting within the scope of his employment or function and in accordance with any state or federal laws or rules or regulations of the State Board of Education or the local school board, does not constitute negligence or child abuse. No teacher, assistant teacher, principal or assistant principal so acting shall be held liable in a suit for civil damages alleged to have been suffered by a student as a result of the administration of corporal punishment, or the taking of action to maintain control and discipline of a student, unless the court determines that the teacher, assistant teacher, principal or assistant principal acted in bad faith or with malicious purpose or in a manner exhibiting a wanton and willful disregard of human rights or safety. For the purposes of this subsection, "corporal punishment" means the reasonable use of physical force or physical contact by a teacher, assistant teacher, principal or assistant principal, as may be necessary to maintain discipline, to enforce a school rule, for self-protection or for the protection of other students from disruptive students.

(3) Notwithstanding subsection (2) of this section a public school teacher, assistant teacher, principal, assistant principal or other school personnel is prohibited from using corporal punishment, as defined in subsection (2) of this section, on any student with a disability. No school personnel shall be granted immunity from liability under subsection (2) of this section for the use of corporal punishment on a student with a disability. For purposes of this subsection, the term "student with a disability" means a student who has an individualized education plan (IEP) under the Individuals with Disabilities Education Act (IDEA) or a Section 504 plan under the Rehabilitation Act of 1973. The term "school personnel" includes all individuals employed on a full-time or part-time basis by a public school.

Any student in any school who possesses any controlled substance in violation of the Uniform Controlled Substances Law, a knife, handgun, other firearm or any other instrument considered to be dangerous and capable of causing bodily harm or who commits a violent act on educational property as defined in Section 97-37-17, Mississippi Code of 1972, shall be subject to automatic expulsion for a calendar year by the superintendent or principal of the school in which the student is enrolled; provided, however, that the superintendent of the school shall be authorized to modify the period of time for such expulsion on a case by case basis. Such expulsion shall take effect immediately subject to the constitutional rights of due process, which shall include the student's right to appeal to the local school board.

§ 37-11-19. Suspension or expulsion of student damaging school property; liability of parent or custodian.
If any pupil shall willfully destroy, cut, deface, damage, or injure any school building, equipment or other school property he shall be liable to suspension or expulsion and his parents or person or persons in loco parentis shall be liable for all damages

§ 37-11-43. Public high school fraternity, sorority or secret society; duties of boards of trustees.

22. Alternative school placement shall be for, but not limited to, the following categories of compulsory school age students;

(a) Whose presence in the classroom is a disruption to the educational environment of the school or a detriment to the best interest and welfare of the students and teacher;

(b) Who has been suspended for more than ten (10) days or expelled from school, except for any student expelled for possession of a weapon or other felonious acts;

(c) Who are referred by the dispositive order of a chancellor or youth court judge, with the consent of the school district’s superintendent; and

(d) Who has been referred by the parent, legal guardian or custodian of such child due to disciplinary problems (37-13-92).

23. The removal of a student to an alternative education program shall include a process of educational review to develop the student’s individual instruction plan.

24. Alternative school placement shall be determined individually on a case-by-case basis and applied consistently.

25. School districts are without discretion to establish categories or classes of offenses for which the penalty is total removal from the school setting. Thus, unless a child has been suspended or expelled from school for possession of a weapon or other felonious conduct, the student must be assigned to the alternative school for that school district. The district is cautioned not to have policies that remove students from the traditional school setting to an alternative school setting for minor infractions. If the acts of a student, although not rising to the level of a felony, are such that the student poses a threat to the safety of himself or others or will disrupt the educational process at the alternative school, the school district is not required to admit the student into the alternative school.

Administrative procedures related to suspensions and expulsion

LAWS

§ 37-9-71. Suspension or expulsion of pupils.

The superintendent of schools and the principal of a school shall have the power to suspend or expel a pupil for good cause, including misconduct in the school or on school property, as defined in Section 37-11-29, on the road to and from school, or at any school-related activity or event when such conduct by a pupil, in the determination of the superintendent or principal, renders that pupil's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole, or for any reason for which such pupil might be suspended, dismissed or expelled by the school board under state or federal law or any rule, regulation or policy of the local school district. For any suspension of more than ten (10) days or expulsions, a student shall have the right to a due process hearing, be represented by legal counsel, to
present evidence and cross-examine witnesses presented by the district. The student and the student's parent, legal guardian or person in custody of the student may appeal suspension of more than ten (10) days and expulsions to the school board. The standard of proof in all disciplinary proceedings shall be substantial evidence. The parent or guardian of the child shall be advised of this right to a hearing by the appropriate superintendent or principal and the proper form shall be provided for requesting such a hearing.

§ 37-11-53. School district discipline plans; appearance by parents, guardians or custodians at discipline conferences; recovery from parents for damage or destruction of school property; parent allowed to accompany child to school as alternative to child’s suspension.

(1) A copy of the school district's discipline plan shall be distributed to each student enrolled in the district, and the parents, guardian or custodian of such student shall sign a statement verifying that they have been given notice of the discipline policies of their respective school district. The school board shall have its official discipline plan and code of student conduct legally audited on an annual basis to insure that its policies and procedures are currently in compliance with applicable statutes, case law and state and federal constitutional provisions. As part of the first legal audit occurring after July 1, 2001, the provisions of this section, Section 37-11-55 and Section 37-11-18.1, shall be fully incorporated into the school district's discipline plan and code of student conduct.

(2) All discipline plans of school districts shall include, but not be limited to, the following:

(a) A parent, guardian or custodian of a compulsory-school-age child enrolled in a public school district shall be responsible financially for his or her minor child's destructive acts against school property or persons;

(b) A parent, guardian or custodian of a compulsory-school-age child enrolled in a public school district may be requested to appear at school by the school attendance officer or an appropriate school official for a conference regarding acts of the child specified in paragraph (a) of this subsection, or for any other discipline conference regarding the acts of the child;

(c) Any parent, guardian or custodian of a compulsory-school-age child enrolled in a school district who refuses or willfully fails to attend such discipline conference specified in paragraph (b) of this section may be summoned by proper notification by the superintendent of schools or the school attendance officer and be required to attend such discipline conference; and

(d) A parent, guardian or custodian of a compulsory-school-age child enrolled in a public school district shall be responsible for any criminal fines brought against such student for unlawful activity occurring on school grounds or buses.

(3) Any parent, guardian or custodian of a compulsory-school-age child who (a) fails to attend a discipline conference to which such parent, guardian or custodian has been summoned under the provisions of this section, or (b) refuses or willfully fails to perform any other duties imposed upon him or her under the provisions of this section, shall be guilty of a misdemeanor and, upon conviction, shall be fined not to exceed Two Hundred Fifty Dollars ($ 250.00).

(4) Any public school district shall be entitled to recover damages in an amount not to exceed Twenty Thousand Dollars ($ 20,000.00), plus necessary court costs, from the parents of any minor under the age of eighteen (18) years and over the age of six (6) years, who maliciously and willfully damages or destroys property belonging to such school district. However, this section shall not apply to parents whose parental control of such child has been removed by court order or decree. The action authorized in this section shall be in addition to all other actions which the school district is entitled to maintain and nothing in this section shall preclude recovery in a greater amount from the minor or from a person, including the parents, for damages to which such minor or other person would otherwise be liable.
(5) A school district's discipline plan may provide that as an alternative to suspension, a student may remain in school by having the parent, guardian or custodian, with the consent of the student's teacher or teachers, attend class with the student for a period of time specifically agreed upon by the reporting teacher and school principal. If the parent, guardian or custodian does not agree to attend class with the student or fails to attend class with the student, the student shall be suspended in accordance with the code of student conduct and discipline policies of the school district.

1. Introduction
The Mississippi Department of Education and the State Board of Education supports a positive approach to behavior that uses proactive strategies to create a safe school climate that promotes dignity, creates authentic student engagement, and improves student achievement for all students. When teachers and administrators implement evidence-based positive behavior supports with fidelity, a safe and orderly school environment is created that is conducive to learning and students are able to achieve without the constant interruptions that occur when teachers are required to address discipline in the classroom.

Research indicates that the most effective response to school violence is to establish a school culture that emphasizes prevention, early identification, teaching, reinforcement of appropriate behavior and continuous data-based problem solving. One primary method is to structure the environment using a non-aversive effective behavioral system, such as Positive Behavior Interventions and Supports (PBIS). Effective positive behavioral systems are comprehensive, in that they are comprised of a framework or approach for assisting school personnel in adopting and organizing evidence-based behavioral interventions into an integrated continuum that enhances academic and social behavioral outcomes for all students. The PBIS prevention oriented framework or approach applies to all students, all staff, and all settings. When integrated with effective academic instruction, such systems can help provide the supports children need to become actively engaged in their own learning and academic success. Schools successfully implementing comprehensive behavioral systems create school-wide environments that reinforce appropriate behaviors while reducing instances of dangerous behaviors that may lead to the need to use restraint or seclusion. In schools implementing comprehensive behavioral systems, trained school staff use preventive assessments to identify where, under what conditions, with whom, and why specific inappropriate behavior may occur, as well as implement de-escalation techniques to defuse potentially violent dangerous behavior. Preventive assessments should include (1) a review of existing records; (2) interviews with parents, family members, and students; and (3) examination of previous and existing behavioral intervention plans. Using these data from such assessments helps schools identify the conditions when inappropriate behavior is likely to occur and the factors that lead to the occurrence of these behaviors; and develop and implement preventive behavioral interventions that teach appropriate behavior and modify the environmental factors that escalate the inappropriate behavior. The use of comprehensive behavioral systems significantly decreases the likelihood that restraint or seclusion would be used, supports the attainment of more appropriate behavior, and, when implemented as described, can help to improve academic achievement and behavior. In order to reduce the use of aversive techniques in response to student behavior, restraint and seclusion, school wide behavior systems should include a comprehensive behavior management system that includes: (a) socially valued and measurable outcomes, (b) empirically validated and practical practices (c) systems that efficiently and effectively support the implementation of these practices, and (d) continuous collection and use of data for decision making.

However, at times, some students exhibit behaviors which place themselves and others in imminent danger. Schools shall implement proactive strategies and interventions to reduce the likelihood of these situations, and they shall have clearly identified responses to address such situations when they occur.
Additionally, schools shall have policies in place that address the responses needed to ensure the safety of all students and staff.

2. Restraint and Seclusion Policy

A Restraint and Seclusion Policy is defined through written local school board-approved policies and procedures that define appropriate means of restraint and seclusion to provide for a safe and orderly education. These policies and procedures shall apply to all students in the local school district and shall not focus on one or more subgroups of students.

In accordance with Miss. Code Ann. §§ 37-9-69 and 37-11-57, it is recognized that staff may intercede in situations wherein students are displaying physically violent behavior or are deemed to be a danger to themselves or others. State Board policy positively prohibits the use of excessive force, or cruel and unusual punishment regarding student management. Restraint and/or seclusion shall not be utilized as a punitive measure.

This policy in no way shall inhibit the right of staff to reasonable self-defense in accordance with the provisions of the 5th and 14th amendments to the Constitution of the United States, or the Constitution of Mississippi, nor negate the obligation of the district to provide a safe work environment.

3. Definitions

a. Aversive behavioral interventions is defined as a physical or sensory intervention program intended to modify behavior that the implementer knows would cause physical trauma, emotional trauma, or both, to a student even when the substance or stimulus appears to be pleasant or neutral to others and may include hitting, pinching, slapping, water spray, noxious fumes, extreme physical exercise, loud auditory stimuli, withholding of meals, or denial of reasonable access to toileting facilities.

b. Aversive procedure is defined as the use of a substance or stimulus, intended to modify behavior, which the person administering it knows or should know is likely to cause physical and/or emotional trauma to a student, even when the substance or stimulus appears to be pleasant or neutral to others. Such substances and stimuli include but are not limited to: infliction of bodily pain, (e.g., hitting, pinching, slapping), water spray, noxious fumes, extreme physical exercise, costumes, or signs.

c. Aversive technique is defined as physical, emotional or mental distress as a method of redirecting or controlling behavior.

d. Behavioral intervention is defined as the implementation of strategies to address behavior that is dangerous, inappropriate, detrimental, or otherwise impedes the learning of the students.

e. Behavior Intervention Plan (BIP) is defined as a plan of action for managing a student’s behavior. The BIP includes a set of strategies and supports intended to increase the occurrence of behaviors that school personnel encourage and to decrease behaviors that school personnel want to lessen or eliminate. The BIP shall include:

ii. Observable and measurable description of the problem behavior;

iii. Identified purpose of the problem behavior as a result of the FBA;

iv. General strategy or combination of strategies for changing the problem behavior;

v. Written description of when, where, and how often the strategy will be implemented; and

vi. Consistent system of monitoring and evaluating the effectiveness of the plan.

f. Chemical restraint is defined as “the administration of medication for the purpose of restraint.” Chemical restraint does not apply to medication prescribed by and administered in accordance with the directions of a licensed physician. The use of chemical restraint is prohibited in Mississippi Public Schools.
g. Dangerous behavior is defined as behavior that presents an imminent danger of physical harm to self or others but does not include inappropriate behaviors such as disrespect, noncompliance, insubordination, or out-of-seat behaviors.

h. De-escalation techniques are defined as strategically employed verbal or non-verbal interventions used to reduce the intensity of threatening behavior before a crisis situation occurs.

i. Emergency situation is defined as spontaneous unpredictable events posing an imminent threat of serious bodily injury.

j. Functional Behavioral Assessment (FBA) is defined as a school-based, collaborative process that includes the parent and, as appropriate, the child, to determine why a child engages in challenging behaviors and how the behavior relates to the child’s environment.

   i. The term includes direct assessments, indirect assessments and data analysis designed to assist the team to identify and define the problem behavior in concrete terms.

   ii. Contextual factors (including affective and cognitive factors) are identified that contribute to the behavior, and a hypothesis is formulated regarding the general conditions under which a behavior usually occurs and the probable consequences that maintain the behavior.

   iii. Formal documentation of the assessment by appropriately qualified individuals become part of the child’s educational record.

   iv. The FBA must include all of the following:

      a. Clear description of the problematic behavior;

      b. Identification of the antecedent events, times, and situations that predict when the problem behavior will and will not occur;

      c. Identification of the consequences of the problem behavior;

      d. Development of hypotheses and summary statements that describes the problem behavior and its functions; and

      e. Collection of data from a variety of sources: interviews, direct observation data, etc.

k. Imminent danger is defined as a danger which is impending, close at hand, threatening, or about to happen.

l. Individualized Education Plan (IEP) is defined as a written statement for a child with a disability that is developed, reviewed, and revised in accordance with §§ 300.320-300.324.

m. Mechanical restraint is defined as “any device that attaches to a student’s body that restricts movement and cannot be removed by the student.” Examples include: straps, tie downs, boards, and harnesses. Handcuffs are also considered mechanical restraints, but may only be used by certified school resource officers, as defined in Miss. Code Ann. §§ 37-7-321 and 37-7-323. The use of mechanical restraints is prohibited in Mississippi Public Schools, except as provided in §§ 37-7-321 and 37-7-323. Devices not considered mechanical restraints include: adaptive equipment, protective devices, or assistive technology devices documented in a student’s individualized education plan (IEP), Section 504 plan, behavior intervention plan, or otherwise prescribed for the student by a medical or related service provider, seatbelts, and other safety equipment when used to secure students during transportation.

n. Physical escort is defined as the temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out (with minimal resistance) and able to respond to such physical prompt, to move to a safe location.
o. Physical prompt is defined as a teaching technique that involves physical contact with the student and that enable the student to learn or model the physical movement necessary for the development of the desired competency.

p. Physical Restraint is defined as “the use of physical force, without the use of any device or material that restricts the free movement of all or a portion of a student’s body.” Physical restraint does not include briefly holding a student’s hand or arm to calm them or escort them to another area. A physical restraint shall be removed as soon as the student is no longer a danger to himself/herself or others. The term physical restraint does not include:

i. Physical restraint that restricts the flow of air to the student’s lungs.

ii. Prone restraint in which a student is placed face down on the floor or other surface, and physical pressure is applied to the student's body to keep the student in the prone position.

q. Positive Behavior Interventions and Supports (PBIS) is defined as a proactive approach to establishing the behavioral supports and social culture needed for all students in a school to achieve social, emotional and academic success. Attention is focused on creating and sustaining primary (school-wide), secondary (classroom), and tertiary (individual) systems of support that improve lifestyle results (personal, health, social, family, work, recreation) for all youth by making targeted misbehavior less effective, efficient, and relevant, and desired behavior more functional.

r. Positive Behavior Support Plan is defined as the design, implementation, and evaluation of individual or group instructional and environmental modifications, including programs of behavioral instruction, to produce significant improvements in behavior through skill acquisition and the reduction of problematic behavior.

s. Seclusion is defined as “the confinement of a student in an enclosure from which the student’s egress is restricted.” Seclusion does not include in-school suspension, detention, or alternative school.

t. Section 504 Plan is defined as an individualized plan of accommodations and modifications to provide a free appropriate public education to a student who has a disability that substantially limits a major life activity. A 504 plan spells out the modifications and accommodations that will be needed for a student to have the opportunity to perform at the same level as their peers.

u. Written report is defined as a printed paper filings and electronic filings that can be printed.

4. General Procedures

Restraint

a. Physical restraint is considered to be an emergency response after all other verbal and non-verbal de-escalation measures have failed in effectiveness based on the following criteria:

i. The student or other person is engaged in actions that would constitute a danger to themselves or others;

ii. The student or other person is engaged in actions that would constitute potential or actual destruction of property;

iii. To remove a non-compliant student or person from the scene of an incident;

iv. The restraint should be removed as soon as the student is no longer a danger to themselves or others.

b. When using physical restraint for students who are a danger to themselves or others, staff should take precautions necessary to ensure the safety of the student and the staff members engaged in restraining the student. Physical restraints that restrict the flow of air are prohibited in all situations. When deemed it is necessary to restrain a student who is a danger to themselves or others, the following procedures shall be used:
i. Restraint shall be conducted by staff who are trained in the restraint procedures adopted by the school district;

ii. Staff shall carefully observe the student throughout the restraint to observe the student’s physical and emotional status;

iii. Restraint shall be immediately terminated if the student appears to be, or claims to be, in severe stress;

iv. The restraint shall be removed as soon as the staff determines the student is no longer a danger to himself/herself or others;

v. When the student is able, he/she should be returned to the instructional activity, or to a less restrictive environment;

vi. Parents must be notified on the same school day of the incident. At the time the parent is notified, the school shall schedule a debriefing with the parent to discuss the incident. In the event a parent cannot be reached by telephone, a letter shall be sent informing the parent of the incident and the person who can be contacted at the school to address any questions the parent may have.

vii. Within two school days after the restraint incident occurs, the staff shall conduct a debriefing of the circumstances leading to the restraint and discuss any alternative behaviors that could have been utilized;

viii. The school shall report the restraint and/or seclusion incident to the local school district and the Mississippi Department of Education.

c. School districts that permit restraint and seclusion shall ensure that staff members are trained in the use of restraint. This training shall be provided as part of a program which addresses a full continuum of positive behavioral intervention strategies, crisis intervention, and de-escalation techniques. Absent an imminent danger to health or safety, physical restraint shall only be practiced by staff trained in the physical restraint approach adopted by the local school district. The Mississippi Department of Education does not endorse a particular training program. The local school district shall select programs which are approved by the MDE and those that are founded on evidence-based techniques which focus on:

i. Certification for school personnel and recertification as required by the training program;

ii. Preventing the need for restraint;

iii. Training in first aid;

iv. Identification of antecedent behaviors;

v. Use of positive behavior supports, de-escalation, and conflict management;

vi. Keeping staff and students safe during required restraints.

Local school district administrators shall monitor the use of physical restraint to ensure fidelity of implementation. Additional and follow-up training shall be provided on an ongoing basis and any situations in which procedures are not followed shall be addressed immediately.

d. The use of mechanical restraints is prohibited in Mississippi Public Schools, except by law enforcement.

e. The use of chemical restraints is prohibited in Mississippi Public Schools.

Behavioral Interventions

a. Behavioral intervention must be consistent with the child’s right to be treated as an individual. Schools shall implement an evidence-based system of positive behavioral intervention strategies and support. Elements of the system of support shall include universal screening to identify potential
students, teaching school-wide expected behaviors and social skills, and a system to monitor the effectiveness of the interventions and supports.

b. Behavioral strategies, in conjunction with the school-wide system of positive behavioral interventions shall be used to help identify the causes of dangerous behavior and reduce the need for restraint or seclusion. Information about a student through interviews, observation, and records help identify the causes of the dangerous behavior and shall guide the development of a behavioral plan for the student.

A complete plan shall include:

i. Addressing the characteristics of the setting and the event;
ii. If possible, removing the antecedents that triggered the event;
iii. Adding antecedents that promote appropriate behavior;
iv. Teaching appropriate behaviors to replace the dangerous behaviors.

Seclusion.

a. The use of seclusion occurs in a specially designated room or space that is physically isolated from common areas and from which the student is physically prevented from leaving. The room or space used for seclusion may not be locked and staff shall be present to monitor the student. Seclusion shall cease once the student regains control of his or her behavior.

Only school personnel trained in the use of restraint and seclusion should be used to observe and monitor these students. Staff engaged in monitoring students shall have knowledge of effective restraint and seclusion procedures, emergency procedures, and knowledge of how to effectively debrief students after the use of restraint or seclusion.

b. The room or space used for seclusion shall not contain any objects or fixtures with which a student could reasonably be harmed. Additionally, the room shall provide adequate lighting and ventilation.

c. School personnel may use seclusion to address a student's behavior:

i. If the student’s behavior constitutes an emergency and seclusion is necessary to protect a student or other person from imminent, serious physical harm after other less intrusive, nonphysical interventions have failed or been determined inappropriate;

ii. After less restrictive or alternative approaches have failed or have been determined to be inappropriate.

d. Each time a student is placed in restraint or seclusion, the incident shall be documented in the student’s educational record or cumulative folder. The documentation shall be available to the parent or guardian, and the parent or guardian shall be notified verbally or in writing on the day of the restraint or seclusion or no later than 48 hours following the incident in the event a parent cannot be reached by telephone, a letter shall be sent informing the parent of the incident and the person who can be contacted at the school to address any questions the parent may have. This documentation shall be provided using an incident report that is completed for each student in each instance in which the student is restrained or placed in seclusion. This report shall include the following:

i. Date of incident and date submitted in MSIS;
ii. Student’s name, age and grade level;
iii. Ethnicity, sex, and non-disabled/disabled status;
iv. Location of restraint;
v. Precipitating behavior/antecedent;
vi. De-escalation efforts tried;
vii. Type of restraint used;
viii. The student’s behavior and physical status during the restraint/seclusion;
ix. Total time spent in restraint or seclusion. The student shall not be kept in seclusion for more than 20 minutes. If additional time is needed, school personnel shall reassess the student and document why the extra time is needed, or after this time, if the physical behavior is still manifested, the student shall be assessed for transport to a medical facility for evaluation by a physician and the parent notified;

x. Injuries to student or staff;

xi. Staff participating in the restraint/seclusion;

xii. Staff signatures, including the principal/administrator;

xiii. Name of school employee who the parent can contact; and

xiv. Date and time parent was contacted.

After an incident of restraint and/or seclusion, all school personnel involved in the incident and appropriate administrative staff shall participate in a debriefing session for the purpose of planning to prevent or at least reduce the reoccurrence of the event. The debriefing session shall occur no later than two school days following the imposition of physical restraint or seclusion.

e. If restraint and/or seclusion is used on a student who is not identified with a disability, the student shall be referred to the school's intervention team within 10 days of the incident. The team shall determine if the student shows a pattern of behavior that would indicate the need for an intervention plan.

5. Administrative Procedures

a. Local school districts that utilize physical restraint and seclusion for all students shall develop written policies and procedures that govern the use of restraint and/or seclusion and shall periodically review and update them as appropriate. The written policies and procedures shall be designed to ensure the safety of all students, school personnel, and visitors and include the following provisions:

i. Staff and faculty training on the use of physical restraint;

ii. Parental notification when physical restraint is used to restrain their student not to exceed one school day from the use of the restraint;

iii. Documentation of the use of physical restraint or seclusion by staff or faculty participating in or supervising the restraint or seclusion event;

iv. Procedures for the periodic review of the use of restraint and seclusion policies;

v. Procedures by which a parent may submit a complaint regarding the physical restraint or seclusion of their child;

vi. Procedures for reporting the use of restraint or seclusion to the local board of education and to the Mississippi Department of Education.

b. The policies and procedures shall be reviewed with all staff on an annual basis.

c. Teachers and other district personnel shall be trained on how to collect and analyze student data to determine the effectiveness of these procedures in increasing appropriate behavior.

d. All parents shall receive, at least annually, written information about the policies and procedures for restraint and seclusion issued by the local school district or school. The written policies are to be included in each local education agencies code of conduct, student handbook, or other appropriate school publication.

Placement of a child in the alternative school shall be done consistently, and for students identified under the Individuals with Disabilities Education Act (IDEA), shall adhere to the requirements of the Individuals with Disabilities Education Improvement Act of 2004. If a school district chooses to place a child in alternative school the district will make an individual assessment and evaluation of that child in the following time periods:

The policy shall include standards for:

(a) The removal of a student to an alternative education program that will include a process of educational review to develop the student's individual instruction plan and the evaluation at regular intervals of the student's educational progress; the process shall include classroom teachers and/or other appropriate professional personnel, as defined in the district policy, to ensure a continuing educational program for the removed student;

(b) The duration of alternative placement; and

12. Cumulative records on each student placed in an alternative program remain at and are maintained by the sending school.
13. Personnel assigned to an alternative program will report any criminal activity or other unlawful activity committed on school property to the appropriate authority.
14. Students enrolled in alternative programs/schools, including those provided through contractual agreements among multidistricts will participate in the Mississippi Assessment System at sites
determined by school officials and in accordance with established guidelines regarding student grade levels and eligibility. Test results for these students will be reported in the home school district.

15. Evaluation of the student's progress will be conducted at regular intervals according to district policy and the appropriate records will be maintained and subject to the State Department of Education review.

16. The Individual Instruction Plan will provide full-day attendance with a rigorous workload and minimal noninstructional time.

Placement of a child in the alternative school shall be done consistently, and for students identified under the Individuals with Disabilities Education Act (IDEA), shall adhere to the requirements of the Individuals with Disabilities Education Improvement Act of 2004. If a school district chooses to place a child in alternative school the district will make an individual assessment and evaluation of that child in the following time periods:

Thus, unless a child has been suspended or expelled from school for possession of a weapon or other felonious conduct, the student must be assigned to the alternative school for that school district. The district is cautioned not to have policies that remove students from the traditional school setting to an alternative school setting for minor infractions. If the acts of a student, although not rising to the level of a felony, are such that the student poses a threat to the safety of himself or others or will disrupt the educational process at the alternative school, the school district is not required to admit the student into the alternative school.

**Rule 9.1. Attendance reporting.**

REGULATIONS

25. School districts are without discretion to establish categories or classes of offenses for which the penalty is total removal from the school setting. Thus, unless a child has been suspended or expelled from school for possession of a weapon or other felonious conduct, the student must be assigned to the alternative school for that school district. The district is cautioned not to have policies that remove students from the traditional school setting to an alternative school setting for minor infractions. If the acts of a student, although not rising to the level of a felony, are such that the student poses a threat to the safety of himself or others or will disrupt the educational process at the alternative school, the school district is not required to admit the student into the alternative school.
Rule 97.1. Weapons.

Each local school district shall have a policy concerning weapons on school premises. It shall contain at least the following provisions and may include such additional provisions as the local school district deems appropriate:

The (Name of District) Board of Education recognizes that the possession of pistols, firearms, or other weapons on school premises or at school functions by persons other than duly authorized law enforcement officials creates an unreasonable and unwarranted risk of injury or death to District employees, students, visitors, and guests and further creates an unreasonable and unwarranted risk of damage to properties of District employees, students, visitors, and guests. Students with chronic disciplinary issues

LAWS

§ 37-11-18.1. Expulsion of habitually disruptive students aged 13 years or older upon third occurrence of disruptive behavior within school year.

(1) For the purposes of this section:

(a) The term "disruptive behavior" means conduct of a student that is so unruly, disruptive or abusive that it seriously interferes with a school teacher's or school administrator's ability to communicate with the students in a classroom, with a student's ability to learn, or with the operation of a school or school-related activity, and which is not covered by other laws related to violence or possession of weapons or controlled substances on school property, school vehicles or at school-related activities. Such behaviors include, but are not limited to: foul, profane, obscene, threatening, defiant or abusive language or action toward teachers or other school employees; defiance, ridicule or verbal attack of a teacher; and willful, deliberate and overt acts of disobedience of the directions of a teacher; and

(b) The term "habitually disruptive" refers to such actions of a student which cause disruption in a classroom, on school property or vehicles or at a school-related activity on more than two (2) occasions during a school year, and to disruptive behavior that was initiated, willful and overt on the part of the student and which required the attention of school personnel to deal with the disruption. However, no student shall be considered to be habitually disruptive before the development of a behavior modification plan for the student in accordance with the code of student conduct and discipline plans of the school district.

(2) Every behavior modification plan written pursuant to this section must be developed by utilizing evidence-based practices and positive behavioral intervention supports. The plan must be implemented no later than two (2) weeks after the occurrence of the disruptive behavior.

LAWS

§ 37-13-91. Compulsory school attendance requirements generally; enforcement of law.
(1) This section shall be referred to as the "Mississippi Compulsory School Attendance Law."
(2) The following terms as used in this section are defined as follows:
   (a) "Parent" means the father or mother to whom a child has been born, or the father or mother by whom a child has been legally adopted.
   (b) "Guardian" means a guardian of the person of a child, other than a parent, who is legally appointed by a court of competent jurisdiction.
   (c) "Custodian" means any person having the present care or custody of a child, other than a parent or guardian of the child.
   (d) "School day" means not less than five and one-half (5-1/2) and not more than eight (8) hours of actual teaching in which both teachers and pupils are in regular attendance for scheduled schoolwork.
   (e) "School" means any public school, including a charter school, in this state or any nonpublic school in this state which is in session each school year for at least one hundred eighty (180) school days, except that the "nonpublic" school term shall be the number of days that each school shall require for promotion from grade to grade.
   (f) "Compulsory-school-age child" means a child who has attained or will attain the age of six (6) years on or before September 1 of the calendar year and who has not attained the age of seventeen (17) years on or before September 1 of the calendar year; and shall include any child who has attained or will attain the age of five (5) years on or before September 1 and has enrolled in a full-day public school kindergarten program.
   (g) "School attendance officer" means a person employed by the State Department of Education pursuant to Section 37-13-89.
   (h) "Appropriate school official" means the superintendent of the school district, or his designee, or, in the case of a nonpublic school, the principal or the headmaster.
   (i) "Nonpublic school" means an institution for the teaching of children, consisting of a physical plant, whether owned or leased, including a home, instructional staff members and students, and which is in session each school year. This definition shall include, but not be limited to, private, church, parochial and home instruction programs.
(3) A parent, guardian or custodian of a compulsory-school-age child in this state shall cause the child to enroll in and attend a public school or legitimate nonpublic school for the period of time that the child is of compulsory school age, except under the following circumstances:
   (a) When a compulsory-school-age child is physically, mentally or emotionally incapable of attending school as determined by the appropriate school official based upon sufficient medical documentation.
   (b) When a compulsory-school-age child is enrolled in and pursuing a course of special education, remedial education or education for handicapped or physically or mentally disadvantaged children.
   (c) When a compulsory-school-age child is being educated in a legitimate home instruction program.
The parent, guardian or custodian of a compulsory-school-age child described in this subsection, or the parent, guardian or custodian of a compulsory-school-age child attending any charter school or nonpublic school, or the appropriate school official for any or all children attending a charter school or nonpublic school shall complete a "certificate of enrollment" in order to facilitate the administration of this section.
The form of the certificate of enrollment shall be prepared by the Office of Compulsory School Attendance Enforcement of the State Department of Education and shall be designed to obtain the following information only:

(i) The name, address, telephone number and date of birth of the compulsory-school-age child;
(ii) The name, address and telephone number of the parent, guardian or custodian of the compulsory-school-age child;
(iii) A simple description of the type of education the compulsory-school-age child is receiving and, if the child is enrolled in a nonpublic school, the name and address of the school; and
(iv) The signature of the parent, guardian or custodian of the compulsory-school-age child or, for any or all compulsory-school-age child or children attending a charter school or nonpublic school, the signature of the appropriate school official and the date signed.

The certificate of enrollment shall be returned to the school attendance officer where the child resides on or before September 15 of each year. Any parent, guardian or custodian found by the school attendance officer to be in noncompliance with this section shall comply, after written notice of the noncompliance by the school attendance officer, with this subsection within ten (10) days after the notice or be in violation of this section. However, in the event the child has been enrolled in a public school within fifteen (15) calendar days after the first day of the school year as required in subsection (6), the parent or custodian may, at a later date, enroll the child in a legitimate nonpublic school or legitimate home instruction program and send the certificate of enrollment to the school attendance officer and be in compliance with this subsection.

For the purposes of this subsection, a legitimate nonpublic school or legitimate home instruction program shall be those not operated or instituted for the purpose of avoiding or circumventing the compulsory attendance law.

(4) An “unlawful absence” is an absence for an entire school day or during part of a school day by a compulsory-school-age child, which absence is not due to a valid excuse for temporary nonattendance. For purposes of reporting absenteeism under subsection (6) of this section, if a compulsory-school-age child has an absence that is more than thirty-seven percent (37%) of the instructional day, as fixed by the school board for the school at which the compulsory-school-age child is enrolled, the child must be considered absent the entire school day. Days missed from school due to disciplinary suspension shall not be considered an "excused" absence under this section. This subsection shall not apply to children enrolled in a nonpublic school.

Each of the following shall constitute a valid excuse for temporary nonattendance of a compulsory-school-age child enrolled in a noncharter public school, provided satisfactory evidence of the excuse is provided to the superintendent of the school district, or his designee:

(a) An absence is excused when the absence results from the compulsory-school-age child's attendance at an authorized school activity with the prior approval of the superintendent of the school district, or his designee. These activities may include field trips, athletic contests, student conventions, musical festivals and any similar activity.

(b) An absence is excused when the absence results from illness or injury which prevents the compulsory-school-age child from being physically able to attend school.

(c) An absence is excused when isolation of a compulsory-school-age child is ordered by the county health officer, by the State Board of Health or appropriate school official.

(d) An absence is excused when it results from the death or serious illness of a member of the immediate family of a compulsory-school-age child. The immediate family members of a compulsory-school-age child shall include children, spouse, grandparents, parents, brothers and sisters, including stepbrothers and stepsisters.
(e) An absence is excused when it results from a medical or dental appointment of a compulsory-school-age child.

(f) An absence is excused when it results from the attendance of a compulsory-school-age child at the proceedings of a court or an administrative tribunal if the child is a party to the action or under subpoena as a witness.

(g) An absence may be excused if the religion to which the compulsory-school-age child or the child's parents adheres, requires or suggests the observance of a religious event. The approval of the absence is within the discretion of the superintendent of the school district, or his designee, but approval should be granted unless the religion's observance is of such duration as to interfere with the education of the child.

(h) An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that the purpose of the absence is to take advantage of a valid educational opportunity such as travel, including vacations or other family travel. Approval of the absence must be gained from the superintendent of the school district, or his designee, before the absence, but the approval shall not be unreasonably withheld.

(i) An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that conditions are sufficient to warrant the compulsory-school-age child's nonattendance. However, no absences shall be excused by the school district superintendent, or his designee, when any student suspensions or expulsions circumvent the intent and spirit of the compulsory attendance law.

(j) An absence is excused when it results from the attendance of a compulsory-school-age child participating in official organized events sponsored by the 4-H or Future Farmers of America (FFA). The excuse for the 4-H or FFA event must be provided in writing to the appropriate school superintendent by the Extension Agent or High School Agricultural Instructor/FFA Advisor.

(k) An absence is excused when it results from the compulsory-school-age child officially being employed to serve as a page at the State Capitol for the Mississippi House of Representatives or Senate.

Any parent, guardian or custodian of a compulsory-school-age child subject to this section who refuses or willfully fails to perform any of the duties imposed upon him or her under this section or who intentionally falsifies any information required to be contained in a certificate of enrollment, shall be guilty of contributing to the neglect of a child and, upon conviction, shall be punished in accordance with Section 97-5-39.

Upon prosecution of a parent, guardian or custodian of a compulsory-school-age child for violation of this section, the presentation of evidence by the prosecutor that shows that the child has not been enrolled in school within eighteen (18) calendar days after the first day of the school year of the public school which the child is eligible to attend, or that the child has accumulated twelve (12) unlawful absences during the school year at the public school in which the child has been enrolled, shall establish a prima facie case that the child's parent, guardian or custodian is responsible for the absences and has refused or willfully failed to perform the duties imposed upon him or her under this section. However, no proceedings under this section shall be brought against a parent, guardian or custodian of a compulsory-school-age child unless the school attendance officer has contacted promptly the home of the child and has provided written notice to the parent, guardian or custodian of the requirement for the child's enrollment or attendance.
