

SCHOOL CLIMATE SURVEY COMPENDIUM SUMMARY TABLE (as of March 8, 2011)

To assist educators and education agencies in locating a valid and reliable needs assessment that suits their needs, the Safe and Supportive Schools Technical Assistance Center is developing a compendium of student, staff, and family surveys that can be used as part of a school climate needs assessment. This document provides a summary table of each survey by respondent type included in the School Climate Survey Compendium as of March 8, 2011.

Please note that the Office of Safe and Drug-Schools does not endorse any particular scale or survey presented in this compendium. Additionally, the table presented is not an exhaustive listing of available measures or survey instruments. If you would like to nominate a survey that is not currently included in the compendium, click [here](#).

Survey Name	Constructs Measured	Links to Surveys or More Information	Reports
Student Surveys			
Alaska School Climate and Connectedness Survey	High Expectations, School Safety, School Leadership and Student Involvement, Respectful Climate, Peer Climate, Caring Adults, Parent and Community Involvement, Social and Emotional Learning, Student Delinquent Behaviors, Student Drug and Alcohol Use	This survey instrument is not publicly available. Please contact Kim Kendziora at kkendziora@air.org for more information about this survey.
